

The Wife I Picked Up Is Too Chapter Chapter 821

Chapter 821: Trial Conference

Feng Qing laid in the man's arms and suddenly sniffed her cute nose. Then, she started exploring the man's body with her nose. Soon, she knew what the smell on the man's body was. It was the painkiller spray used for external injuries. What was wrong with this man? Why was he injured in such a short while?.

Xie Jiuhan carried Feng Qing and was about to leave when he heard Xie Yuhuan say, "Jiuhan, the stock market is in turmoil. How is the corporation?"

Xie Jiuhan stopped in his tracks and replied with his back facing Xie Yuhuan, "You don't have to worry about the corporation. Everything is in my control. The Xie Corporation has the most money. This is nothing. Moreover, we can earn more money even if it's gone."

Xie Yuhuan frowned and said, "No matter how rich the Xie Corporation is, it's not a solution to continue losing money like this, right? Moreover, if we don't do anything, how are those stockholders going to trust our Xie Corporation in the future? You know better than anyone that the Xie Corporation is the number one financial group in Xia country and even controls the economic development of the entire Capital. It will be too late when those partnerships and strategic cooperation companies retreat if we don't take action now."

Upon hearing this, Xie Jiuhan sneered. "Little Aunt, please understand. I'm the president of the Xie Corporation. I don't need you to teach me what to do. Please correct your identity in the future."

Xie Jiuhan's words were like a cork, stopping Xie Yuhuan from saying anything else. She knew Xie Jiuhan's ability in business better than anyone. Since he was so calm, her hanging heart relaxed.

Xie Yuhuan took a deep breath and said, "In that case, I won't ask about the corporation anymore. However, in a few days, the Xie family's members and the Xie family's side branches will be undergoing the annual examination. I came in to look for you because I want to ask you. This time, the Xie Corporation's shares have fallen drastically, so you will definitely stay in the corporation to control the overall situation. Then, why don't I..."

Xie Jiuhan knew what she was thinking as soon as she started. However, he did not answer Xie Yuhuan. Instead, he said to the woman in his arms, "Do you want to go to the Sacred Island for a few days?"

The Sacred Island was located in the southeast of the Capital, and the ownership of the island belonged to the Xie Corporation. Only the direct descendants of the Xie family, the collateral branches, and some people who were really loyal to the Xie Corporation could step onto the Sacred Island. Feng Qing had never been to that place. In the past, she had no right to go, but now, she had the right.

When Xie Yuhuan heard Xie Jiuhan ask Feng Qing about this, the emotions in her eyes instantly turned sinister. Although Feng Qing was already the madam of the Xie family, she had never seen the legendary direct descendants and relatives of the Xie family. How could Xie Yuhuan let Feng Qing represent the Xie family to meet those people? At that time, she would embarrass the Xie family again.

Xie Yuhuan persuaded seriously, "Jiuhan, you should know very well that the assessment every year is very dangerous. There are even people who will die on the Sacred Island because of this. I think Qingqing is still too young and not suitable to see such a bloody scene."

Xie Jiuhan did not say anything after hearing this. He only looked into Xie Yuhuan's eyes coldly.

This man was too cold, like a popsicle that had just been taken out of the refrigerator. Xie Yuhuan's entire body could not help but tremble when she looked at him. Once upon a time, she had felt gratified by Xie Jiuhan's strength and ruthlessness. After all, if he wanted to sit firmly in this position and dominate a region, it was definitely impossible without an invincible temperament and personality. She even thought that she had indelible credit for Xie Jiuhan's ability to grow to this point.

She will be 58 years old in two months. Although she had been married before, she had never had any children in her life, much less a partner. However, she had Xie Jiuhan. After all, she had protected Xie Jiuhan for nearly twenty years. Therefore, she was not afraid that she did have any children. After all, Xie Jiuhan was equivalent to half a son to her. As long as she helped Xie Jiuhan to the throne, she could govern behind the scenes and live the rest of her life peacefully. However, Xie Jiuhan's performance just now had really disappointed her. For a woman, he actually went against her.

Sacred Island, the base camp of the Xie family, was where the ancestors of the Xie family were located. Every year, the Xie family's assessment would be held on Sacred Island, and it was also called the Trial Conference by the Xie family. In the past years, when Xie Jiuhan was busy with work, he would assign her to represent him and attend and host the Trial Conference. However, today, not only did Xie Jiuhan not have the intention to assign her to represent him, but he also wanted to bring Feng Qing to Sacred Island to attend the Trial Conference. Thinking of this, Xie Yuhuan's face darkened.
