

The Wife I Picked Up Is Too Chapter Chapter 844

Chapter 844: Pi Virus

Xie Ruoyun was stunned for a moment. She felt that she couldn't answer this question. Moreover, she knew very well that this analysis method was solved by someone else. Thinking of this, she used a pen to erase the few lines of words Feng Qing had written. Then, she wrote the content Feng Qing had written just now on it.

After doing this, Xie Ruoyun said to the phone, "Master, I don't even know how to undo it, but I did undo it. However, this isn't important. What's important is that I should be able to apply to the Seven Stars Medical School in the Seven Stars Continent with this research result, right?"

At the same time, somewhere in the sea outside the Sacred Island, the wind and waves were endless. The sky was covered in dark clouds, and there were two large cargo ships parked on the sea. Xing Wudi stood on the deck and looked at the large cargo ship opposite him. His silver eyes couldn't help but narrow. His gaze, which was filled with aggression and killing intent, made people shiver.

Xing Wudi chuckled. "After all this, you're actually representing the Xia Academy of Science to make a deal. Interesting!"

The howling sea wind and the sound of the waves could not stop his voice from reaching Xie Jiuhan's ears. Xie Jiuhan was standing on another freighter. He was wearing a black robe. Under the wind, his robe fluttered. He looked like he would take off at any moment.

Xie Jiuhan raised his chin and looked at Xing Wudi indifferently. "Cut the crap and take it out quickly."

Xing Wudi's expression was cold and indifferent. He looked at Xie Jiuhan and asked, "The Xia Academy of Science asked you to trade with me, which means that your relationship with the Xia Academy of Science is extraordinary."

Xie Jiuhan snorted coldly. "What has it got to do with you?! Stop meddling in other people's business."

A few days ago, the Xia Academy of Science had entrusted him to carry out a sea trade with the people from the Seven Stars Continent. Xie Jiuhan had chosen the trading location beside the Sacred Island. After all, he could only ensure that nothing went wrong in his territory. Moreover, the Sacred Island was surrounded by model blockers. Be it satellites or other things, it was impossible to discover their movements. As for the things they traded, it was very important to the development of military technology in the entire Xia country.

Xie Jiuhan came to a realization after seeing that Xing Wudi was his trading opponent. The largest arms dealer in the Seven Stars Continent and also the largest military manufacturer was the Xing family that Xing Wudi was in.

One of Xing Wudi's main reasons for coming to the Capital this time was to complete this most important deal with Xia country. However, when he saw Xie Jiuhan standing opposite him, Xing Wudi curled his lips in disdain. "I don't know why, but I suddenly don't want to sell the things to the Xia Academy of Science."

As soon as these words were out, a powerful aura rose from Xie Jiuhan's body. It was as if the surging waves between the two ships were pressed back into the sea by his aura.

"F*ck you!" Xie Jiuhan cursed loudly.

In an instant, the bodyguards around Xing Wudi reached into their pockets and prepared to pull out their guns. Someone actually dared to insult their Xing family's young master in public. This was disrespecting the Xing family in the Seven Stars Continent!

Xing Wudi took a step back. Behind him was a huge crane, and on the crane was a specially-made huge container. Xing Wudi reached out his hand, and a subordinate went forward to hand him the remote control. Xing Wudi turned his head and curled his lips. He looked at Xie Jiuhan, who was standing opposite him, arrogantly. Then, he controlled the mechanical arm of the crane to move to the gap between the two freighters. The gap was wide enough for the container to fall into the sea.

Xing Wudi said with a kind expression, "I forgot to remind you. Other than the fact that this special container is big, it's not waterproof."

Before he could finish his sentence, he pressed another button on the remote control. Then, the crane arm controlled the huge container and slowly fell into the sea.

Seeing this scene, Xie Jiuhan was furious. He waved his hand and ordered, "Snatch it!"

Xing Wudi threw the remote control in his hand to his subordinate. Then, he wiped his waist with his large hand and a specially modified black gun was held in his hand. The black muzzle was aimed at Xie Jiuhuan, who was standing opposite him.

...

On the other side, a white medium-sized yacht was slowly driving on the blue and green sea. Feng Qing was standing on the bow deck, taking a selfie with her phone in one hand and holding the railing with the other. Her long black hair was fluttering in the wind. Feng Qing was wearing a pair of pink sunglasses, and the two heart-shaped lenses looked very playful and cute. The weather was clear here, and a few white clouds occasionally floated across the blue sky. The golden sunlight shone on her, making her indescribably beautiful.
