

## The Wife I Picked Up Is Too Chapter Chapter 856

### Chapter 856: I Feel That You're Not Finished

Although there was a towel between them, Feng Qing's fingers kept feeling the explosive strength of the man's muscles, especially the tight and firm feeling. It really made Feng Qing's imagination run wild. After all, she was also a young woman with a normal orientation. However, she had always warned herself in her heart that she was the Miracle Doctor, Healer. When taking care of the patient, she had to show the professionalism she should have.

"Even so, this man's figure is good, right? There's no extra fat. The outline of every muscle is just right. It's sexy but not greasy. That beautiful sensation is really irresistible..." Feng Qing couldn't help but praise in her heart as she wiped the man's lower body.

The man sat on the bed and looked down at Feng Qing, wiping his thighs back and forth. Just as he was enjoying it, Feng Qing suddenly grabbed the towel and wiped from the man's thigh to the depths of his thigh. Before the man could regain his senses, his other thigh suffered the same treatment.

He thought that there would be more deeper movements later on, but the woman placed the towel in the basin and washed it again. Xie Jiuhan couldn't help but ask her, "Is that all?"

Feng Qing nodded. "Yes, it's over."

Xie Jiuhan said unhappily, "I feel that you haven't finished wiping."

Feng Qing: “???”

The man’s voice was low and lazy as he said, “Do you know what it means by wiping my body? It has to be wiped clean from head to toe, from every corner to every hook. Otherwise, how can I change into new clothes?”

Upon hearing this and looking at the man’s scorching gaze, Feng Qing immediately understood what he meant. Her face flushed red. She avoided the man’s gaze and said in a mosquito-like voice, “I wanted to wipe it for you, but Ji Yunchen instructed me not to provoke you for the next few days, much less do that kind of thing with you.”

Xie Jiuhan snorted coldly and raised an arm to squeeze his biceps. “You’re underestimating your husband. Just wipe as much as you want. Your husband’s determination is not something ordinary people can compare to.”

Ten seconds later, Xie Jiuhan suddenly grabbed Feng Qing’s wrist. Warm air spewed out of his nostrils. “I’ll wipe it myself.”

Xie Jiuhan never expected that his face would be slapped so quickly. He thought that he had enough self-control, but in the end, he only lasted for ten seconds in front of Feng Qing. Feng Qing rinsed the towel and wrung it dry before handing it over. Then, she turned her face to the side, not looking at what is contrary to propriety.

As Xie Jiuhan wiped, he explained, "If not for the fact that my injuries made my body weak, I would definitely be able to control it."

Feng Qing sat at the side and looked at him from the corner of her eye. "Hmph, injured and weak? I don't think there's a problem with you. Otherwise, that bad guy below wouldn't be so motivated."

The corners of Xie Jiuhan's mouth curled up. "What do you know? It's precisely because my body is weak that the blood and vital energy in my body aren't flowing smoothly, causing it to accumulate there."

Feng Qing: "???"

This was the first time she had heard such a shameless reason in her life, but she did not continue to say anything. After confirming that the man was done wiping, she took out a brand new set of clothes from the cabinet and helped the man wear it. Then, she helped the man button it. During this process, the two of them were very close and their bodies kept touching. This feeling of being at a distance made the man even more stimulated, making a certain part of the man's body shoot into the sky.

Feng Qing's face flushed red. "Why don't I go out for a while? That way, you can calm down."

She had always remembered Ji Yunchen's words before he left. Although Ji Yunchen was deliberately harming Xie Jiuhan, she did not feel that anything was wrong. Moreover, Xie Jiuhan was

indeed injured. The injured naturally had to recuperate more. Therefore, she did not want to agitate Xie Jiuhan. She did not want this man to be so excited forever, in case her actions delayed his recovery.

Xie Jiuhan lowered his head and coughed softly. It was very difficult for him to pretend to be weak now. He was afraid that Feng Qing would find out if he continued like this. Hence, he took the opportunity to agree. "Alright, go out and play for a while. Let me be alone for a while."

Feng Qing did not stop. She turned around and walked out. Then, she gently closed the door. Outside the door, Feng Qing exhaled softly. Then, she thought of something and her face and neck instantly turned red. She was afraid that someone would see her. Hence, she hurriedly fanned her face with both hands. In terms of determination, she was probably not much stronger than Xie Jiuhan.

...

Beside the pool in the manor.

As Feng Qing walked, she sent a message to Xing Wudi. "How's the research in the Seven Stars Continent? Is there any progress?"
