

The Wife I Picked Up Is Too Chapter Chapter 878

Chapter 878: The Assessment Begins

Xie Ba raised his hand to touch the back of his head. Xie Shihao probably thought that with Little Wu joining his team, he would be able to achieve good results, which was why he was so smug. However, in Xie Ba's opinion, no matter how strong Little Wu was, she couldn't bring Xie Shihao and the rest of the useless people. Even if they don't rank last in the team competition, their results would definitely not be high.

--

When all the staff members left the training ground, the gunshots for the competition rang out. The competition started according to the number drawn by the various groups, so the team competitions went on intensely one after another. Soon, the previous competitions were completed, and it was time for the ninth obstacle relay.

The 250-pound fatty from the logistics department was arranged to be the first runner. The other teams' first runner rushed out desperately and quickly left the fatty far behind. Moreover, the distance between them was getting wider and wider. The Xie family's collateral branch, Xie Long, and Xie Hu had drawn the number eight, so they had completed the competition in the previous match. At this moment, they were sitting in the viewing area. When they saw Xie Shihao's team, they were instantly laughing so hard that they fell back.

"Haha! Xie Shihao is in the same team as this fatty again. Fatty, don't be anxious. No matter how slow you run, Xie Shihao will be at the bottom."

“I really don’t understand. Little Wu is so outstanding, so why did she have to team up with Xie Shihao? Did Xie Shihao give her an order?”

“Who cares! Anyway, it’s the same whether there’s Little Wu or not. No matter how strong Little Wu is, the remaining four useless people can average Little Wu’s results to the bottom.”

Bang! When the 250-pound fat man in the logistics department crossed the obstacle, he raised his leg too low because he was too fat, so he fell to the ground. Because the place he fell was a slope, the 250-pound fat man rolled down the slope and finally fell into a half-meter deep mud pit. He was so heavy that the fat man struggled for a long time after falling into the mud pit.

Laughter came from the audience again. Xie Long and Xie Hu were laughing so hard that they were rocking back and forth, especially Xie Long. He was laughing so hard that he was kneeling on the ground and couldn’t stand up.

“Hahaha! No, I can’t take it anymore. I almost died from laughing. F*ck, are you trying to make me die of laughter and then inherit my inheritance?”

“I never expected that such a funny thing could happen in the competition. That damned fatty is like a fat pig splashing in the mud. Oh no, he looks even more like a wild boar now. Hey! Wild boar, get up!”

'Xie Shihao' walked up to the referee and asked, "Referee, if I remember correctly, there seems to be a rule in the Sacred Island assessment. In the team competition, if a member has an accident during the competition and can't continue to complete the competition alone, the other members can drag, hug, or carry this member through the competition. The results will still be effective."

Upon hearing this, the referee nodded solemnly. "That's right, there's indeed this rule, but Young Master should also know that it's now the 1,000-meter relay obstacle course. It's already very difficult to complete it alone. If you carry such a... a big person, even if he reaches the finish line in the end, his results will still be at the bottom. And you have to immediately return to the starting point and run again. What I mean is, although there's such a rule, no one has really done this in the competition for so many years. Let's put aside the fact that it's meaningless, just your stamina will be too exhausted. After all, the individual competition will immediately start after the team competition ends. If you do this, it will affect the individual competition, so you should understand what I mean, right?"

With that, the referee turned to look at 'Xie Shihao'. However, he realized that Xie Shihao, who was standing beside him, had long disappeared. Before he could regain his senses, he heard exclamations from the audience. Hence, he subconsciously turned to look at the competition venue and saw that the thin Xie Shihao had already rushed onto the track. He was very fast and agile. He easily crossed the iron bucket that was more than a meter long.

'Xie Shihao' rushed to Fatty's side in the blink of an eye. Because Fatty didn't step over the iron bucket just now, Xie Shihao helped Fatty over the iron bucket again. The two of them landed steadily on the ground. Gasps came from the stands. What surprised the audience wasn't that they had successfully crossed the iron bucket, but that this was the first time someone had helped their teammate complete the competition in the Sacred Island assessment.
