

## The Wife I Picked Up Is Too Chapter Chapter 929

A laboratory personnel suddenly raised his head and shouted, "By the way, Ruoyun, the record book in the laboratory yesterday was yours, right? Do you remember the situation? Did Young Madam write anything on it?"

This person's words made Xie Ruoyun, who was in a daze, tremble involuntarily. When she turned to face the laboratory personnel, her face turned into a bright smile. "I don't know if Young Madam wrote anything, but I left in a hurry yesterday, so I took a photo of the content on the record book with my phone to prevent the content from being lost. However, according to our laboratory's rules, we're not allowed to take photos, so I can show you my phone, but you must not say anything about this."

With that, Xie Ruoyun took out her phone from her pocket, unlocked the screen, and handed it to the others. Everyone could see very clearly that the handwriting on the notebook was very delicate. At a glance, they could tell that it was written by a girl. Moreover, the entire handwriting was identical. Everyone knew this handwriting. They were written by Xie Ruoyun herself.

After looking for a while, the laboratory personnel from before said, "Heh, it's indeed written about the structure analysis of the Pi virus, but this is clearly your handwriting, Ruoyun. And Young Madam said that the structure on this notebook was written by her yesterday. Then..."

"Shh! Be quiet. It's fine as long as you know what you're doing. Why do you have to say it? After all, Young Madam wants her reputation." Xie Ruoyun hurriedly hushed her.

Upon hearing this, everyone sneered in disdain. One of the people who usually had a fiery temper said, "Hmph, I knew Young Madam was bragging. She dares to say in public that the content was written by

her. She just knows that the content will be erased very quickly, so we can't find any evidence, and we can't verify the truth of her words."

Another short and fat laboratory personnel echoed, "That's right. I didn't expect Young Madam to be such a person. She's actually so full of lies. I really don't dare to praise her."

Another laboratory personnel with a 'Mediterranean' hairstyle also said, "Alright, alright. Everyone, go and do what you have to do. We should understand. Young Madam is only a special music student after all. It's already very difficult for her to know about the Pi virus. I guess Young Madam is lying because she doesn't want to lose face in front of us. Women are vain!"

Hearing the discussions of the crowd, Xie Ruoyun comforted them with a smile. "Alright, everyone, stop talking about Young Madam. If the people from the Penal Department hear us, we'll all have to accept punishment."

Her fanning of the flames immediately had an effect. The person with the explosive temper slammed the table and shouted, "Bah! What First Lady of the Xie Corporation? What talented and beautiful Young Madam? She's obviously a vulgar woman who only knows how to puff herself up at her own cost. I reckon only a boor like Xie Ba and Xie Lei would fall for Young Madam's lies."

Another laboratory personnel with a mustache sneered and said, "Young Madam probably doesn't know much about our situation, so she dares to spout nonsense here. You have to know that our IQ is the upper limit of the entire Sacred Island. Is there a person here who has an IQ lower than 180? And she's only a specially recruited student who plays music. She actually wants to point out Dr. Xie Ruoyun's thesis that she has studied for three years in public. It's simply ridiculous!"

Xie Ruoyun revealed an expression that said that she had no choice. Looking at her colleagues who were scolding Feng Qing crazily, a hint of smugness and a smile flashed across her eyes. However, when she thought of the content in the record book, her mood instantly turned bad. She even bit her lips so hard that she didn't know it. She had already sworn in her heart that the secret in the experimental record book yesterday would be brought to her grave. Even if she was captured by the Penal Department and tortured, she wouldn't reveal half a word. She wanted the truth to disappear forever.

...

Feng Qing left the laboratory area directly. After identifying the direction, she walked towards the Sacred Island Manor. She did not pay attention to the comments of the laboratory personnel because she did not care at all. Moreover, she did not want to waste time and energy on such things. About half an hour later, Feng Qing returned to the villa. However, she did not find Xie Jiuhan after walking around the villa. Hence, she went to the living room and asked Xie Qi, "Where's Little Jiu Jiu?"
