

The Wife I Picked Up Is Too Chapter Chapter 964

Feng Qing ate in small bites like a kitten eating. She looked as cute as she could. Xie Ruoyun thought that Feng Qing didn't understand what she was saying, so she asked, "Young Madam, do you know who the ruler of the Seven Stars Continent is?"

Upon hearing this question, Feng Qing couldn't help but raise her eyebrows and look at Xie Ruoyun in surprise. She couldn't figure out what Xie Ruoyun was trying to express. One moment, it was controllable nuclear fusion, and the next moment, it was the ruler of the Seven Stars Continent. However, she could answer this question.

But before she could speak, she heard Xie Ruoyun say jokingly, "If I remember correctly, the current Seven Stars Continent is ruled by the Di Palace. The Di Palace is also the Di family, the strongest family in the Seven Stars Continent. No matter whether it's in the open or secretly, they're the actual leaders of the Seven Stars Continent. The head of the Di family is called Di Tianxing. It's said that he raised a total of seven children, six boys and one girl. The youngest child is only a few years old this year."

Speaking up to this point, Feng Qing put down the spoon and picked up a napkin to wipe her mouth. She continued listening to Xie Ruoyun. "It's said that the eldest young master, second young master, and third young master of the Di Palace were separated when they were very young. Although they later acknowledged their ancestors and returned to the Di family, the three of them almost didn't live in the Di Palace of the Seven Stars Continent, nor were they interested in the position of the head of the Di family.

"As for the fourth and seventh young masters, they have been watched very closely since they were young, so they have always grown up by the side of the head of the Di family. The people of the Seven Stars Continent say that these two young masters are smart and have the looks of gods. Especially the seventh young master, his IQ is as high as 260. However, there are rumors that the position of the head of the Di family should be passed to the fourth young master in the future. Although the fourth young

master is traveling outside, he still has to return to the Di Palace in the end. As for the fifth young master of the Di family, he is very mysterious. Some say that he is dead, and some say that he's sick."

After hearing Xie Ruoyun finish, the corners of Feng Qing's mouth couldn't help but curl up. Xie Ruoyun's habit of showing off was acting up again. She thought that she was a flower raised in a greenhouse and knew nothing about the outside world. Little did she know that she was the clown. Seeing that Xie Ruoyun had finally finished speaking, Feng Qing couldn't help but yawn. Her black eyes were filled with laziness and carelessness. From Xie Ruoyun's tone, she could hear a very proud and arrogant tone.

1

Seeing her like this, Xie Ruoyun took a deep breath and continued, "Young Madam, to be honest, my friend in the Seven Stars Continent is someone beside the fourth young master of the Di family. In the future, when the fourth young master inherits the position of the head of the family, my friend will definitely hold an important position in the research institute of the Seven Stars Continent. Therefore, I came to the Xie Manor this time to invite him to help Ninth Master research that equipment. I hope that we can take this opportunity to build a good relationship with my friend. This will be beneficial to the Xie Corporation's future development without any harm. Most importantly, with my help, the Xie Corporation will no longer encounter the matter of being sanctioned and banned by the Seven Stars Continent."

Speaking up to this point, Xie Ruoyun smiled and pretended to say casually, "So no matter how strong Xing Wudi is, it's impossible for him to beat Ninth Master."

The reason why the trade between the Xie Corporation and the Seven Stars Continent was so severely punished was all because of Feng Qing, this indecent woman. If not for her fickle nature to provoke Xing Wudi, how could the Xie Corporation be in so much trouble? And Xie Ruoyun did this from the perspective of giving advice to the Xie Corporation.

Feng Qing naturally understood the deeper meaning in Xie Ruoyun's words. She chewed on the fragrant bun and said, "You bet on the fourth young master of the Seven Stars Continent. You just said that the eldest young master of the Di family, the second young master, the third young master, and the fourth and fifth young master. Why did you skip the sixth?"

Xie Ruoyun said, "The last sixth princess of the Di family has yet to be found."

Feng Qing nodded and said, "Oh, in that case, what makes you think that Fourth Young Master will definitely inherit the position of the head of the Di family in the future?"

Xie Ruoyun was slightly stunned and asked in confusion, "Young Madam, what do you mean?"

Feng Qing said, "There are seven children in the Di family, and only one of them is a daughter. Perhaps the head of the Di family will choose Sixth Miss to inherit his position on a whim one day."

Xie Ruoyun smiled and said, "The people of the Seven Stars Continent don't call the person who hasn't been found as Sixth Miss. They prefer to call her Sixth Princess."

Feng Qing asked curiously, "Why are they calling her Princess?"

Xie Ruoyun explained, "Because the head of the Di family, Di Tianxing, had already spent a huge sum of money a few years ago to get someone to open a place inside the Di Palace in the Seven Stars Continent and specially build a castle for the legendary Sixth Princess. It's said that 70% of the entire castle is made of crystal."
