

The Wife I Picked Up Is Too Chapter Chapter 976

Seeing that Xian Cheng had avoided him, Du Yu revealed a lewd and evil smile. He picked up his phone and called the front desk. "Let the Xie Corporation in."

Although the security personnel at the front desk was very surprised to hear this news, he immediately agreed. "Alright, Mr. Du. We'll arrange it immediately."

...

A few minutes later, Feng Qing brought a group of people into the Heaven and Earth Hall. Xie Cheng asked in confusion, "It looks like this weapon master from the Seven Stars Continent has an unpredictable personality. He refused to meet us at one moment, and agreed to meet us the next. Could it be that my Ruoyun really moved him?"

With that, Xie Cheng even looked at Xie Ruoyun. Xie Ruoyun was his biological daughter after all. It would be a lie to say that his heart didn't ache when he saw Xie Ruoyun kneeling at the door just now.

Xie Ruoyun said humbly, "My sincerity represents the Xie Corporation's sincerity. As for whether I can ask Master Du Yu to help the Xie Corporation after we see him, it will depend on Young Madam's sincerity."

Xie Ruoyun's expression did not change, but she sneered in her heart. Feng Qing had forced her to kneel on the ground just now, so she naturally had to get back at her for this humiliation. However, even she

was very surprised that she could move Du Yu. Fortunately, they were in now, so it was Feng Qing's turn to do the rest. She hoped that when Feng Qing saw Du Yu, she could appear more 'sincere and hardworking'. That way, she could go with the flow and complete today's plan.

Very quickly, under the lead of the security personnel, Feng Qing and the rest arrived at the door of the private room. When the security personnel opened the door, Feng Qing walked in first and took off her sunglasses. "Hello, Mr. Du."

At this moment, Du Yu was sitting on the sofa with his legs crossed, looking high and mighty. He was already thinking about how the people from the Xie Corporation would curry favor with him when they came in later. He was from the Seven Stars Continent's Research Institute and was a famous weapons master. All these years, many governments had been throwing olive branches to him, hoping to get his help, but they were all rejected unceremoniously by Du Yu. The reason was still the same. Other than the Seven Stars Continent, even if you were the president of the various countries, you were just trash in his eyes.

This time, the First Madam of the Xie Corporation had personally brought people to look for him. It must be related to the field of weapons and nuclear technology. Moreover, he also recalled a piece of news he had heard before. It seemed that the Xie Corporation had just bought a batch of goods from the Xing family of the Seven Stars Continent on behalf of the Xia country's Academy of Science. Thinking of the Xing family's business in the Seven Stars Continent, he also understood what the goods were for trade. At the thought of this, the disdain in Du Yu's heart deepened. These countries outside the Seven Stars Continent were all stupid to death. They had the money to buy weapons, but they didn't even know how to use many weapons. Every time, they had to ask him for guidance.

Seeing the Xie Corporation's people walk in, Du Yu raised his chin and narrowed his eyes to look. In the end, when he saw Feng Qing's face after taking off her sunglasses, he was petrified on the sofa. His crossed legs instantly fell apart.

Du Yu bounced up from the sofa. There was a hint of panic on his face. "You, you..."

Although Feng Qing was puzzled by his big reaction, she still said, "Hello, Mr. Du. I'm the wife of the president of the Xie Corporation and the wife of the head of the Xie family in the Capital..."

Upon hearing this, Du Yu felt his legs go weak. Then, he sat on the sofa. Du Yu hurriedly looked at the content of the laptop in front of him. When he saw the information about the Feng family that Xian Cheng had just sent him, his vision instantly spun. The photo on the file was clearly identical to the First Madam of the Xie Corporation in front of him.

Du Yu's gaze moved back and forth between Feng Qing and the computer. After a while, he asked, "Madam Xie, may I know your surname?"

Feng Qing's expression did not change. "My surname is Feng, and my first name is Qing."

According to Xia country's customs and traditions, under normal circumstances, if someone asked for your surname, the person who was asked had to say his surname before saying his name politely and formally. This was to express one's humility and respect for the other party.

However, Feng Qing did not say it politely just now. It was not that she was not humble, nor was it because she did not respect the other party, but because of her status. She was the First Madam of the Xie family after all, and she represented the entire Xie family outside. Although Du Yu was from the

Seven Stars Continent, she did not have to lower his status in front of him. However, Feng Qing was very puzzled. She did not know why Du Yu suddenly asked for her surname. Could it be that the people from the Seven Stars Continent also knew her? Feng Qing shook her head. It was fine if she did not understand, but it was better to see what the other party meant first.
