

## The Wife I Picked Up Is Too Chapter Chapter 987

Feng Qing turned to look at the rear car and saw that the rear car was getting farther and farther away from them. Because the rear car was blocking the road, the blocked cars honked, and their voices resounded through the entire street.

Feng Qing thought for a moment and said, "Tell the driver to go straight to the Xie Corporation's financial center. Don't forget to report to me when you find out the results of your investigation regarding Xie Ruoyun's matter. I'm also very curious about what happened to her."

Xie San, Xie Si, and Xie Ba bowed respectfully to Feng Qing and replied in unison, "Yes, Young Madam!"

--

Twenty minutes later, the car arrived at the entrance of the Xie Corporation's financial center. Feng Qing jumped out of the car and walked into the building. There was no expression on her face. She was not in the mood to go to the financial center to gather with her fellow interns. She took out her phone and pressed the button to control the VIP elevator. Then, she stood at the elevator door and quietly waited for the elevator to open. She planned to go to the 95th floor for a while.

Lu Yingying and a few other interns from Capital University walked in from the door at this moment. They saw Feng Qing from afar. Just as they were about to call out, they saw the door of the VIP elevator open. Then, Feng Qing walked straight into the elevator. One of the interns asked in confusion, "Eh, was that person Student Feng Qing?"

Not only did this person see it, but many interns also saw it. Those who did not see it, when they turned to look at the VIP elevator, the elevator door had already completely closed. Another intern asked in confusion, "That's strange. Isn't that the VIP elevator? How did Student Feng Qing enter? Could it be that she has the right to use the VIP elevator?"

Upon hearing this, a slightly fat intern said, "Bullsh\*t, Feng Qing is an intern like us. All of us have a level one work pass. We don't have any authority other than entering and leaving the company. We can't even go to the other floors."

The interns spoke one after another as they watched the number change on the LED screen on the VIP elevator. They saw that the VIP elevator went all the way up, but it stopped on the 38th and 56th floors before finally stopping on the 95th floor.

"D\*mn, 95th floor. Isn't that the office of the Xie Corporation's president?!" An intern shouted with a shocked expression.

"Don't worry. Even if that person was really Student Feng Qing, it's definitely impossible for her to go to the 95th floor. If I'm not wrong, she should be on the 38th or 52nd floor. Perhaps she has friends and relatives here to visit." Another intern judged.

It had to be known that the level of Di Hui Building was strict. The elevator above the 50th floor belonged to the core office area of the Xie Corporation. If the one's level in the Xie Corporation was not high enough, they were not qualified to enter the 50th floor and above. Someone had already informed them before they walked into Di Hui Building, so that intern had such an idea.

“The rules of the Xie Corporation are strict. According to the rules, interns like us don’t have the right to enter the area above the tenth floor. Even if we know someone on the other floors, we can’t go up,” another female intern said.

As soon as these words were out, many people instantly acknowledged it. One of the interns who was closer to Lu Yingying said, “I want to report this to the higher-ups. Not only did Feng Qing use the VIP elevator at will, but she also entered the office area above the tenth floor. Someone must have used their authority to open the elevator for Feng Qing. In other words, Feng Qing and the person who helped her open the elevator have all violated the company’s rules and have to accept punishment. This is fair to others.”

Of course, there were also people among the interns who didn’t want to cause trouble. They said, “I think we should forget it. What has Student Feng Qing’s condition got to do with us? It’s better to avoid trouble. Moreover, we’re all classmates. Isn’t it a little too much to report our classmates?”

The intern who found Feng Qing first said, “No, you have to report Feng Qing. Don’t forget, Feng Qing was originally a special admissions student at the music school. She only came to our Finance Department later. If we don’t stop her in time, she will affect our entire team sooner or later.”

Lu Yingying walked to the VIP elevator and pressed the button a few times. In the end, she realized that there was no reaction from the elevator. She turned to look at her classmates and said, “Alright, everyone, stop discussing. There’s nothing to discuss about this matter. A mistake is a mistake, and a right is a right. Student Feng Qing openly violating the company’s rules is a mistake. It’s our duty to report her. Let’s go and explain the situation to the higher-ups.”
