

## The Wife I Picked Up Is Too Chapter Chapter 992

Feng Qing said calmly, "Am I going to be disqualified from internship when Secretary Su was looking for me?"

Upon hearing this, Lu Yingying was stunned. She subconsciously asked, "Secretary Su is looking for you? Which Secretary Su?"

Feng Qing said in amusement, "Secretary Su Yu, is there a problem?"

As soon as these words were out, everyone's expressions froze. They naturally knew Su Yu. He was the number one secretary of the Xie Corporation and also the only senior assistant of the Xie Corporation's president. He had a lot of prestige and power in the Xie Corporation. Many times, his words represented the president, Xie Jiuhan.

Lu Yingying's expression gradually turned ugly, but she still asked, "Why is Secretary Su looking for you?"

Feng Qing said indifferently, "Why is Secretary Su looking for me? Do I need to report to you? Employees below level seven don't have the right to know."

Upon hearing this, the entire office was so quiet that one could hear a pin drop. Everyone gasped. Lu Yingying's expression was already extremely ugly. She refused to give up and said, "Student Feng, it's office hours now. It's not good for you to be so close to Secretary Su, right?"

Feng Qing said disapprovingly, "Not good? Student Lu, if you have any opinions or feedback on this matter, you can complain to Secretary Su's superior at any time. I have no problem with that."

Everyone : "..."

This time, everyone was silent. Just half an hour ago, the interns led by Lu Yingying found Meng Kexin. They told Meng Kexin what they had seen just now. Although they didn't say the word complaint, they were obviously complaining about Feng Qing.

Meng Kexin was also a little surprised when she heard this. With Feng Qing's status as an intern, she wasn't qualified to use the VIP elevator at all, nor was she qualified to go to the office area above the tenth floor. However, so many people had seen it, which meant that this matter must be true. Therefore, after their speculation, they finally thought that Feng Qing must have hooked up with a middle-level leader upstairs.

However, Feng Qing had said that Su Yu had looked for her just now, which also indirectly admitted that she had gone to the 95th floor and not the 38th and 56th floor. What made them even more speechless was that Feng Qing actually didn't hide her intimate relationship with Su Yu at all. Moreover, her words said beautifully. Let them report it to Su Yu. Who in the Xie Corporation could control Su Yu...

It had to be known that Meng Kexin was a level-11 core employee of the corporation and even held the shares of the Xie Corporation. However, even so, she usually did not have the right to see Xie Jiuhan. Many important jobs could only be handed to the secretariat center. How could she go to the 95th floor to complain about Feng Qing to Xie Jiuhan? Meng Kexin did not have the guts. Not to mention going to

Xie Jiuhan to tattle on her, even if she saw Xie Jiuhan usually, she would be suppressed by the man's powerful aura until she did not dare to breathe. How could she dare to look for that cold man alone?

However, the matter of Feng Qing clinging onto Su Yu, the number one secretary of the corporation, made all the interns jealous and hated her. But they did not dare to say anything about this. Meng Kexin even pretended not to know anything. This was not something she could interfere in at all, nor was it something she should interfere in.

Hence, Meng Kexin directly changed the topic and said, "Alright, since Feng Qing is already back, let's continue the meeting. It's been a while since the Chenghai aluminum mine acquisition case I handed to you last time. I don't know how you're doing, but this acquisition case has to be suspended. You also know that our Xie Corporation's shares have been falling recently, so the corporation's cash flow is a little tight now."

Lu Yingying asked, "Then are there any new cases for us to do?"

Meng Kexin sighed and said, "Don't think about it for the time being. Even a level-11 employee like me can't be sure about the Xie Corporation's tomorrow, so how can you know whether your internship will continue?"

"Ah? How did this happen?"

"Oh my god, we've only been here for a few days, and now we're going back?"

“It’s simply bad news. I was initially confident and fantasizing about this internship opportunity, but now...”

Looking at the excitement and disappointment of the crowd, Meng Kexin could only sigh and say, “Everyone, don’t complain anymore. You can only blame your bad luck for encountering a problem with the Xie Corporation’s shares. Many industries under the Xie Corporation have already closed down. This is something that can’t be helped. In other words, the Xie Corporation can’t even take care of itself now. It doesn’t have the time to provide you with an internship. The Xie Corporation can only focus on dealing with this crisis in order to continue to produce value in society in the future.”
