

The Wife I Picked Up Is Too Chapter Chapter 994

“Reporting to Ninth Master, after a secret investigation, we have found out all the forces that shorted the Xie Corporation’s shares. The specific list has been sent to your email. Please check.”

Xie Jiuhan moved the mouse to open his email and looked at the name list inside. Then, the man’s black eyes burned with dark flames. The news was sent back by Xie Liu, who had been in the dark. This time, all the big fish had already entered the net, so he had to start closing the net. There was a price to pay for daring to touch the Xie Corporation.

...

Half an hour later, on the seventh floor of the Xie Corporation’s financial center, under the lead of Meng Kexin, the interns’ summary meeting ended. Feng Qing walked to Professor Sun Bin’s side and said, “Professor Sun, I still think that it’s not the time to delay the acquisition of the Chenghai aluminum mine. The Chenghai aluminum mine enjoys a lot of local policies. This is also one of the main reasons why the Xie Corporation has its eyes on the Chenghai aluminum mine. If other companies take the opportunity to buy the Chenghai aluminum mine at this time, it will be a huge loss for the Xie Corporation in the future. Moreover, controlling the Chenghai aluminum mine is equivalent to controlling the economic lifeline of Chenghai City, which is equivalent to infiltrating all the energy industries in Chenghai City. If the Xie Corporation suspends this project at this time, it will be tantamount to giving the energy industry in Chenghai City to their competitors.”

Lu Yingying couldn’t stand it anymore and said, “Feng Qing, do you think you’ve forgotten yourself just because you’ve become the team leader? Do you think you’re good enough? You want to facilitate this case so much. Could it be that you’ve taken some commission?”

Feng Qing turned around and saw Lu Yingying standing behind her with a group of interns. They were all looking at her with the same enemy. Lu Yingying sneered and said, "Student Feng Qing, let me remind you. Don't be too greedy. You can't want everything. You've already hooked up with a god like Secretary Su, and you still want to squeeze oil from the project. Moreover, we heard that you've already been appointed as Ninth Master's private secretary. Aren't you satisfied that you've obtained so many benefits alone?"

With that, Lu Yingying looked at Professor Sun Bin and said, "Professor, as a senior member of the Finance Department, you should know best what is the most taboo thing in our Finance Department. Since Feng Qing has a close relationship with Secretary Su, she should avoid arousing suspicion, much less get the chance to enter the Xie Corporation's financial center for an internship. Therefore, I suggest that Professor Sun explain the situation to the school and transfer Feng Qing to another place for an internship. This is also fair and just to all of us interns. If my relative also works in the Xie Corporation's financial center, I definitely won't come here for an internship."

As soon as these words were out, it instantly obtained the approval of all the interns, making everyone have a greater opinion of Feng Qing. Those who could intern here were all top students in the class. Now, Feng Qing, a transfer student, was here to stir up trouble and enjoy all sorts of privileges. How could they accept this?

"I think Student Lu is right. In this situation, Student Feng Qing should indeed intern elsewhere."

"The finance department is most afraid of having a special relationship. Feng Qing and Secretary Su have a close relationship. No matter how hard we work or how outstanding we are, we can't compare to her."

"That's right. Feng Qing's internship here is the biggest injustice to us. We protest!"

Seeing that his classmates supported Lu Yingying and objected to Feng Qing continuing her internship here, Professor Sun Bin was instantly put in a difficult position. After a moment of silence, he said, "Everyone, calm down. Back then, I was the one who chose Student Feng Qing to intern here. It can be considered that I didn't consider it. However, I really didn't know that Student Feng Qing and Su Yu knew each other. Not only could she use the VIP elevator, but she could also go up to the 95th floor at will. This situation is indeed very unfair to everyone. However, I still have to communicate with the school before deciding to transfer Student Feng Qing to another place for her internship."

Even if Sun Bin wanted to protect Feng Qing and wanted her to continue her internship in the Xie Corporation, it was not appropriate for him to show it so obviously as a professor. Moreover, Feng Qing's actions today have obviously angered everyone. Even if he wanted to absolve Feng Qing, he could not. The only thing he could do now was to delay.

However, just as Sun Bin finished speaking, a violent commotion suddenly came from outside the office. Everyone was attracted by the sound outside and looked out of the glass in unison. They saw that the Xie Corporation's employees, who were originally busy, were all standing up and cheering excitedly. Many people were even clapping.
