

The Wife I Picked Up Is Too Chapter Chapter 995

Feng Qing raised her eyebrows. The scene outside was just like how Xie Jiuhan had resisted the invasion of foreign hackers alone. The scene was so exciting.

Seeing this situation, many interns pushed the door open and walked out. They wanted to ask what had happened and why everyone looked like they had won a million yuan.

“What’s going on? What happened?” An intern asked.

“It rose, the Xie Corporation’s shares rose!” A cheering Xie Corporation employee replied.

“What?!” The intern had yet to react.

“You’ll know when you go online. Our Ninth Master is indeed the god of the financial world. He’s too awesome,” the Xie Corporation employee said with admiration.

After the office door opened, noisy sounds entered the office. There were cheers and applause, making all the interns confused. Instead, Meng Kexin reacted quickly and sat back in front of the computer to operate it. When she projected the content on the computer to the wall, everyone saw a report. “The Mechanical God of the Xia Academy of Science, code name Huge Whale. Xie Jiuhan, the president of the Xie Corporation, has successfully developed the first controllable nuclear fusion pulse conductor in our country today.”

Everyone could see very clearly that the person who was broadcasting this news was the most authoritative television station in Xia country. There was also a picture of a controllable nuclear fusion pulse superconductor placed on the report. Beside the controllable nuclear fusion pulse superconductor was a man in a mechanical suit. The man had an abnormally handsome face and a pair of black eyes. The corners of the man's mouth were curled up into a smile as he looked at the camera. His body was covered in oil, but it did not affect his oppressive aura at all. Instead, because of the enhancement of the engine oil, the man looked even more manly. However, the news had very little introduction to Xie Jiuhan's identity. There was only a short sentence, but it was very heavy. "Academician of the Xia Academy of Engineering, academician of the Mechanical Academy. His code name is Huge Whale, the God of Machinery. He is the number one weapons research expert of the Xia Academy of Science and is currently also the president of the Xie Corporation."

In front of the name of the Xia Academy of Science, the famous president of the Xie Corporation could only be ranked behind. As long as one was from Xia country, there was no one who did not know the Xia Academy of Science. There was no one who did not know what the Xia Academy of Science meant to Xia country. In front of this unit, all enterprises could only be the lower.

"Oh my god, I didn't expect the Xia Academy of Science's Mechanical God who is spreading like wildfire on the Internet to be Ninth Master."

"This is unbelievable! Not only is our Ninth Master a hacker, but he's also an academician in the Xia Academy of Science. This is too exaggerated."

"Impressive, our Ninth Master is really too impressive. He has already entered the Xia Academy of Science at a young age. That's not a place that just anyone can enter. Compared to this identity, the identity of the president of the Xie Corporation is a little lacking."

In the office, all the interns were screaming excitedly. All of them were as excited as if they had been injected with chicken blood. To be precise, they were excited. Many girls were even stomping their feet excitedly.

“Hurry up and look on Weibo. Because of our Ninth Master, the entire Weibo is about to be paralyzed.” Suddenly, an intern who usually didn’t speak much said.

Upon hearing this, many people picked up their phones and logged into Weibo. They saw that the main page of Weibo was about Xie Jiuhan. The entire top ten trending topics on Weibo had already been occupied by Xie Jiuhan alone. Moreover, the popularity was still rising. Almost everyone on the Internet wanted to see what kind of experience this man had to be able to join a place like the Xia Academy of Science at a young age.

Very quickly, someone mentioned from the documents revealed by the Xia Academy of Science ten years ago that they had searched for a hundred super-high IQ genius prodigies all over the country. However, after training and super-high degree courses, only three people entered the Xia Academy of Science. In the end, Xie Jiuhan stood out from the three children and was given a codename, Huge Whale. As Xie Jiuhan grew up, he also became the god of the Xia Academy of Science and was called the number one genius in Xia country for a hundred years.

At this moment, countless information and documents about Xie Jiuhan were dug out by the netizens. In the eyes of the people, the god of the Xia Academy of Science should be an ordinary-looking man with thick glasses who exuded the aura of a scientist. However, who would have thought that he would be a handsome man like Xie Jiuhan? Who was Xie Jiuhan? He was the president of the Xie Corporation. He was already known by the world when he was 14 or 15 years old.
