

The Wife I Picked Up Is Too Chapter Chapter 998

“Oh, I understand. You didn’t forget, but you’re here to take revenge, right? I have to admit that you’ve found the right person to take revenge on because I was the one who schemed against you behind the five major industries a few years ago!” Xie Jiuhan’s arrogant voice sounded from the monitor. From his words, one could tell that his understanding of the ‘God Di’ was not limited to this.

The God Di was too mysterious. From a few years ago, he had been active in Country E. The two of them had fought a few times because of their different standpoints. Later on, Xie Jiuhan realized that the God Di was going against him and the Xie family. He did not know how many identities the God Di knew. He did not know if the God Di was targeting the Xie family because the Xie family was outstanding or simply wanted to take revenge on him.

However, this time, the Xie Corporation’s shares were being attacked consecutively and fell to the extreme point of history. Although Xie Jiuhan had long locked onto God Di, in order to capture all the companies under God Di, he had been enduring until now.

The young man leaned on the sofa and looked at Xie Jiuhan on the screen quietly. The white plastic stick was being bitten tightly by him, looking like a frightened kitten. If there was a motherly person around at this moment, she would definitely want to take him into her arms. His black eyes swept across the camera in front of him.

The young man seemed to have thought of something. He left the sofa and started to take off his clothes. To his surprise, the young man picked up a wig from the side and put it on his head. The wig was ordinary straight hair. Then, he took out a light yellow short dress from the wardrobe and wore it.

Just as the young man sorted everything out, Xie Jiuhan successfully hacked into God Di's surveillance system. Xie Jiuhan couldn't wait to control the surveillance camera. He wanted to take a good look at who this famous God Di was!

However, when the surveillance camera was aimed at the young man's face, Xie Jiuhan, who was on the other end of the computer, was stunned. This was because the surveillance video was transmitted back through the satellite to Feng Qing's face.

Bang! Xie Jiuhan stood up from his chair. He placed his hands on the desk, and dark emotions surged in his eyes. He stared intently at the person on the screen. At this moment, the surveillance video was shining on the person on the screen. The man looked at it again and again and confirmed that the person on the screen was Feng Qing.

Xie Jiuhan's expression changed indeterminately. His aura gradually became violent. He sized up the person in the video over and over again and swept his gaze across every part of the other party's facial features. This person was 'God Di'?

"This person is God Di?" Xie Jiuhan asked in his heart.

The place he was in was pitch-black. He couldn't see his surroundings, and only his face was illuminated by the light from the LCD screen. The quality of the image wasn't very high-definition because it needed to be transmitted back through the satellite. Xie Jiuhan looked very carefully. The person in the video looked very similar to Feng Qing. Even he couldn't see much difference. Other than his hair and hairstyle being different from Feng Qing's, the other party's ears were slightly larger than Feng Qing's. However, the light was too weak, so he wasn't very sure.

After carefully looking at it for a while, Xie Jiuhan realized that the distance between the other party's eyes, the arc and thickness of his lips were slightly different from Feng Qing's. However, this subtle difference could be completely ignored in his opinion. If the person in front of him was God Di, then he and Feng Qing were simply born from the same mold. Xie Jiuhan believed that apart from him, no one in this world could see the difference between God Di and Feng Qing.

Xie Jiuhan's hand that was on the desk secretly exerted strength. The table creaked from his grip. He thought crazily in his heart. He was very certain that the person opposite him was definitely not Feng Qing. Therefore, there were only three possibilities for God Di to look so similar to Feng Qing. Firstly, this person had plastic surgery to look like Feng Qing. The second was that he was wearing a disguise mask. The third was that Feng Qing had lost her twin sister for many years. Otherwise, how could she look identical to Feng Qing?

Did God Di know about the relationship between Feng Qing and the Xie Corporation? The young man knew that he had been captured by the camera. The other party had hacked into his computer system and would soon control his surveillance system. At that time, he would see his original appearance. However, Xie Jiuhan was wondering whether this God Di knew about Feng Qing and had seen Feng Qing's photos.

God Di had only appeared on the international stage in recent years. Many people only knew his name, but they had never seen him in person, much less know if he was a man or a woman. They did not even know God Di's age and appearance, so the outside world was very curious about him.
