

# My Wife is a Hacker by Summer

Chapter 855

□ □ □

Chapter 855

"Okay, let's go to Riddle Corporation."

Nicole felt that since they were discussing the tender, Sean's office was the most ideal place as he had more comprehensive material.

Harvey did not dare to object. He was fine as long as Nicole agreed to meet him. So he drove Nicole to Riddle Corporation.

"Why didn't you make a phone call before you came so that I could make preparations, Nicole?"

Sean ran into Nicole and Harvey when he came downstairs.

"Are you going out???" Nicole asked when he saw Sean with a briefcase in his hand.

"I need to discuss a project with a client." Sean shrugged helplessly.

"It's okay. I will leave you to it. We're here just to discuss the tender."

"Okay. Steve knows where the files are. I'll call him and ask him to come down to meet you." Sean pulled out his phone and was about to call Steve.

"No, it's alright. We will go up and find him." Nicole stopped Sean.

"I'm really sorry, Harvey. Maybe we can go for dinner when I am back later."

Sean then hurried away.

Nicole and Harvey took the elevator up to the 36-floor, and Nicole said not a word to Harvey in the elevator.

As soon as they stepped out of the elevator, they saw Steve standing there, greeting them. Nicole shook her head, knowing that

Sean must have told him.

"You're quick, Steve."

"Sean said he bumped into you two downstairs and asked me to receive you two. He has got to go, as he has an appointment,"

Steve explained.

"Welcome to Riddle Corporation." Steve politely shook hands with Harvey.

"My pleasure." Harvey smiled politely.

"This way, please." Steve gestured.

"Why didn't you two make a phone call before coming? You almost caught me off guard." Steve glanced at Harvey.

"You sound exactly like Sean."

"We bumped into each other on the street, and the suggestion to discuss the tender here was an impromptu decision," Nicole

said.

Steve led them to the conference room and sat down.

"Please give me a moment. I'll go get the files."

It did not take long for Steve to come back with all the files relating to the Aegis Corporation's tender.

"That's a lot of files."

Harvey looked at the pile of files stacking up together. He was looking for an excuse to be alone with Nicole. With so many files in front of him, it could take them hours to read through them.

"Let's get started." Nicole just wanted to finish the discussion with Harvey as soon as possible so that she could go home and rest.

"Nicole, take a look at this." Harvey deliberately took a file and leaned closer to Nicole, asking for her opinion.

"What is it?"

Nicole could not see any problem.

"A multinational corporation as large as Aegis Corporation will surely want to give their projects to companies with a solid background, as reputation should be the most important thing for them."
