Chapter 858

The following morning, Aegis Corporation held a bidding session on time Inside the bidding venue, Mr. Harmon sat on the second floor with the representatives from the bidding companies and media below.

The McCarthy and three other families had arrived early to the bidding session.

Hearing that Mr. Harmon was on the second floor, they were going up to pay a visit. But when they reached the staircase, the security guards stopped them.

The three families had to return to their seats and wait for the bidding to begin.

After a while, Nicole, Harvey, and Sean walked in. Luke saw the three of them and came up to provoke them.

"Harvey, didn't Mr. Ellison come today?" Luke asked as he did not see Mr. Ellison.

"My grandfather has other things to do. So he won't be coming today."

"If your company wants this project, I won't compete with you. But if you work with the Riddle family, then I will have no choice but

to compete." Luke looked at him with a pleasant expression.

Harvey did not take Luke's threat too well, and he sneered.

"I'm looking forward to it." Luke saw that Harvey was not intimidated, and he turned to Sean.

"How have you been lately, Sean?"

"Mr. McCarthy, how's your health these days?" Words choked in Luke's throat.

"Mind your words, young man. I heard that in order to get this project, you are using your sister to get close to the Ellison family. It

is clear that the Riddle family has paid a lot for this. But you may still not get what you want." Luke laughed out loud.

"Cut it off, Mr. McCarthy."

Harvey immediately stopped Luke.

Luke's voice was loud, and what he said had caught everyone's attention.

The media aimed their cameras at them for interviews. Mr. Harmon was sitting on the second floor and had a good view of what was happening below.

"Mr. Riddle, is it true what Mr. McCarthy just said that Riddle Corporation uses their own family members for the sake of profit? " A reporter asked Sean.

"This is simply a fabrication by Mr. McCarthy. The Riddle family would never use their own family members for profit."

"Mr. McCarthy is using an underhanded method to vilify others here. He is stooping too low." Sean mocked Luke.

"Mr. Riddle, I have one more question."

"Nicole?" came the voice of Mr. Harmon.

Everyone looked at the source of the voice. Just as they thought Mr. Harmon was coming to meet them, they saw Mr. Harmon go straight for Nicole.

"Hello, Mr. Harmon." Nicole looked as if she was not surprised by his appearance at all.

"you're here for the bidding, too?" Mr. Harmon asked.

"Yes, I am here to bid for Mr. Harmon's project on behalf of Riddle Corporation." Nicole faced Mr. Harmon as usual, calm and collected.

Luke's heart skipped a beat when he saw that Mr. Harmon and Nicole knew each other.

"I didn't know that Mr. Harmon knew the people from the Riddle family."

"Why didn't you find out such important information?" Luke chided the assistant beside him.

"I didn't hear you mention it the last time we met, but I didn't know that Riddle Corporation belonged to your family." Mr. Harmon was surprised.

" The bidding is about to start. See you later. "

Mr. Harmon just came down to say hello to her.

After Mr. Harmon left, not only those at the scene were talking about it.

Even Harvey and Sean looked at Nicole with surprise.

"Why didn't you tell us you and Mr. Harmon knew each other?" Sean looked happy.
