

My Wife is a Hacker by Summer

Chapter 893

□ □ □

Chapter 893 Just as she expected it, Sean and others arrived in his car within a few minutes. After the car was parked, Nicole walked up to them.

Dad, Mom, don't you guys think you are overdressed? Nicole was surprised when she saw them.

“It is called respect.

We are meeting Mr. Harmon for the first time.” Daniel explained.

Miss Riddle, this way, please. The family butler came over to usher them.

Thank you. Nicole and the others followed the family butler inside.

Scott, his wife, and his father had been waiting for a long time.

When he saw Nicole and her family walk in, Scott got up to welcome them.

“Miss Riddle, you have come at last.

If you didn't come, my father would have rebuked me. Scott joked humorously.

“Mr. Harmon, you two are so kind.

Healing patients is my job. Nicole was modest, and she was not asking for anything in return.

“Miss Riddle has high medical ethics.

Please make yourself at home, just considering that you're visiting a friend.” Scott had a smile on his face. These are my parents, and this is my eldest brother. This is Mr.Harmon from Aegis Corporation. Nicole introduced them to each other.

Scott shook hands with them to welcome them.

Nicole came up to Mr.Harmon Sr.

and asked, You're in much better spirits than before.

Please take a seat, Miss Riddle.” Mr.Harmon Sr.

gestured for Nicole to sit next to him.

Thanks to you, I can still meet with you here today.”

Mr.Harmon Sr.

looked at her with gratitude.

“Don't mention ebook it.

How have you been since you were discharged from the hospital?” Nicole asked.

“It feels better than being in the hospital.

The air and environment here are good, and I'm recovering well.” Mr.Harmon Sr.

felt that being in his own home was just more comfortable than being in the hospital.

“As long as you feel comfortable .

But you have to go to the hospital for follow-up treatment every three months.

“In Nicole's eyes, he was still her patient.

Scott complimented her, saying, "You're not only highly skilled in medicine but are also concerned for your patients." "That's who she is, always taking everything seriously." Daniel looked at Nicole and felt proud of her.

While Nicole was chatting with Mr. Harmon Sr., Sean and Mr. Harmon were talking about the project.

U1 I have never said thank you in person, so I would like to take this opportunity today to thank Mr.

Harmon for your willingness to give us the Aegis Corporation project." Sean looked at Scott gratefully.

"I have read your bid proposal.

It is unique among many companies and meets all the requirements of Aegis Corporation .

Also, you are Miss Riddle's family. Scott was willing to give the project to the Riddle family, partly because

he wanted to repay

Nicole's kindness.

Sean understood that and still expressed his gratitude.

"Mr. Riddle, if you encounter any problems with the project, you can always talk to my assistant, and he will help you." Scott had

explained the project to the Riddle family long ago.

"Thank you, Mr. Harmon. Since it was at the estate, Scott did not invite anyone except the Riddle family.

No outsiders had ever entered the estate, and the Riddle family was the first.

After chatting for a long while, the family butler came over, “Mr. Harmon, the banquet is ready.” “Mr. and Miss Riddle, I have prepared lunch for you all.

This way, please. Scott then led them to the dining room.

The spacious and bright dining room had a sumptuous banquet set in the middle.

Just by looking at it, one could tell that it was specially prepared for Nicole and her family.

They were seated in order of seniority, except for Nicole, who was seated next to Mr. Harmon Sr., right across from Mr. Harmon.

Mr. Harmon raised his glass to Nicole and said, Miss Riddle, from now on, we are friends.

If you need anything, call me.
