

Wild Fire 1001

Chapter 1001 - Sea battle

"I'll take the sailor with you," said Big Shark.

Big Shark is second to Chen Mo in the naval battle. He has a large number of elite sailors, which is the most suitable for him.

"Okay, let's go." Lu Yang said.

Soon, the fleet quickly left the unknown island, leaving only one warship near the island.

Lu Yang stood on the boat and said, "The mist will open for a while, everyone must listen to my instructions. Wherever I let you go, you will go."

"Boss rest assured, we must obey the command." Big Shark said.

Lu Yang nodded. He looked at the perspective shared by the Italian spies, and found that their fleet was less than 10 minutes away from their side, and they would be across the sea after a while.

"Assassination of Water Mist"

Lu Yang chanted a spell, and the entire island was enveloped by a thick fog. He couldn't even see anything with the boat. Everyone could only see his outstretched hands.

“This assassination of water mist is really powerful.” Said the big shark.

Lu Yang smiled and looked up. Soon, the joint fleet of Italy and Turkey appeared directly in front of them. Together, there were about 900 warships, which almost covered the entire sea surface.

“The enemy is here. Everyone put away the anchor and set sail.” Lu Yang said.

Players standing in various positions worked immediately, the anchors were stowed, and the ship set sail.

“Damn, it’s water mist again,” Xingyue scimitar cursed.

“What shall we do?” Milan asked.

“The side is aimed at the water mist, the artillery fired flat and killed them. We have 900 warships and only 500 enemies. We will win this war.” Xingyue Machete shouted.

Milan nodded and signaled his men.

The joint fleet as a whole aligned the sideboards with water mist.

“Fire”

More than 5,000 artillery cannons were fired at the same time.

Lu Yang shouted, “Run, let the warship turn around and run away. This attack is too fierce.”

The 5,000 cannons used a flat-fire method. If the distance was closer, Lu Yang’s warship would be hit.

The big shark and others immediately took control of the warship.

Lu Yang called Chen Mo and asked, "The enemy's formation has moved away and quickly approaches the enemy."

"Yes." Chen Mo's fleet was hidden 10 minutes away. When the distance was reached, the combined fleet of Italy and Turkey would also be completely out of the formation. At that time, it was difficult to turn around.

"Fire"

Xingyue Scimitar and Milan continued to order firing. More than 900 warships were almost semi-circular surrounded by fog. Lu Yang ran hard.

Soon, Lu Yang's ship was hit by artillery fire, which was the result of his efforts to direct his men to avoid.

"Haha, I hit the enemy's fleet. They hid in the second half of the fog and advanced at full speed to wipe them out." Evil Eye shouted.

The fleet moved quickly to the right, and 900 warships were pulled into a straight line with a small arc.

Just three times in a row when the evil eye made him excited and yelled in the blindness of the evil eye, suddenly, not far in front of him, a huge enemy fleet appeared, and the devil flag flying on it scared him. Eyes widened.

"No, we're doing it," shouted the evil eye.

At this time, the status of the two sides' fleets was that the combined fleet of Italy and Turkey was traveling straight with the sideboards pointing at the fog, and Chen Mo's fleet was like an iron gate and stopped in front of the combined fleet. It just happened that the two formed one. T word.

This is the favorite formation of the offensive side in naval battles and the most feared formation of the defending side.

Thousands of muzzles on one side can easily attack enemy ships, but the other side can only attack with bow guns, and the rest of the ships cannot attack.

“boom”

“boom”

“boom”

...

Several warships of the Turkish and Italian fleets were sunk in an instant.

“No, we’ve done it, the fleet turned around.”

“U-turn.”

...

Xingyue Machete and Milan yelled, but more than 900 warships wanted to make a U-turn, but it was not so easy.

They could only try their best to change their direction in response to the artillery fire of the Brotherhood of the Iron Blood, but without waiting for them to move away, a large number of warships appeared on the left and right sides of the sea.

“No, the enemy has reinforcements!”

“The devil’s flag is the enemy’s warship.”

“They want to cut us into two pieces and make a U-turn so that they won’t succeed.”

...

Diamond and Tsukuhisa each sneered at the flustered enemy fleet. Each of the two hundred warships quickly interspersed into the Turkish and Italian coalition fleets, cutting the entire fleet into two parts.

In Lu Yang, the fleet had formed a semicircle under Chen Mo’s dispatch at this time. At this point, the encirclement was formed.

Inside the encirclement, there were at least 200 warships in Turkey and 150 warships in Italy. They faced 700 warships including Lu Yang, Diamond, and Jinjiuwu, and were beaten without any help.

“My boat, my boat!”

“Damn Chinese, I won’t let you go.”

...

Xingyue Scimitar and Milan have discovered that it was not the Saudis who attacked them, but Huaxia’s Jagged Brotherhood.

Inside a strange room.

Liu Jie and the dead grass are watching the naval battle sneer through the spy perspective.

“It’s really a waste. It was actually attacked by Lu Yang in this way.” Liu Jie said.

The dead man asked with a smile: "Jie Shao, you really watch the Italian fleet be destroyed, Milan is your ally."

Liu Jie said: "The obedient person is called an ally. After this war, I think he should become my ally."

As early as this time when Italy and Turkey decided to attack Saudi Arabia, Liu Jie was collecting relevant information. He and the dead grass found that Faisal was absolutely incapable of fighting the sea. After studying the two, they decided to help Faisal. It must be other countries. Among the 22 existing servers, this one is capable of attacking the Turkish and Italian coalition forces. It is not a friend of the Tianyan Alliance, only Lu Yang.

Sure enough, they were guessed by the two, but until the war hit, Liu Jie did not inform Milan, even if he was defeated by Lu Yang.

Different from the past. After the economic crisis, the importance of the game has gradually increased in the game, and the number 0 of the sky eye alliance also has the idea of choosing a leader in the game. In the competition, the Netherlands, France Both Japan and Japan support Liu Jie. Britain, Italy, and Germany each consider themselves capable and are currently in a state of dispute.

Now that the Italian navy has been badly hit, Milan will withdraw from the contenders, which is a good thing for Liu Jie.

Liu Jie picked up a glass of red wine and tasted it carefully, saying, "Through the Sky Eye Alliance, I already know the future development of the game.

This game does not use naval battles as the final map, but opens the new continent shortly after all. In the final analysis, this game is still dominated by land warfare. "Jie Liu said.

The dead grass eyes brightened and said, "If it is land warfare, then your African legion will be able to sweep the world."

Liu Jie said proudly: "This is my competitive capital. My African legion is about to take shape. Now we will wait for the new continent to open and connect to the world server."

At present, the African server has not been connected to the world server, because the African opening time is half a year later than other servers.

Chapter 1002 - Who is the hero

“Retreat, listen to me, retreat,” Milan growled.

He has lost 200 warships and cannot continue to lose them. The money of these 200 warships alone makes it unbearable for him.

The remaining 300 warships quickly left the battle.

Xingyue Scimitar was dumbfounded, Milan’s escape was tantamount to selling him, and he only had more than 300 warships. Facing Lu Yang’s more than 600 warships, he didn’t have any idea of fighting and quickly Flee with the fleet.

“Won?”

“Win!”

“Our naval battle is won!”

...

Players of the Jagged Brothers League are all excited.

“Boss, we won.” Chen Mo shouted excitedly at the warship landing in Yang.

Lu Yang brought the warship closer, jumped on Chen Mo’s flagship, hammered his shoulder hard, and said, “Your boy did a good job and let me breathe a sigh of relief.”

There will be naval battles in the future. Lu Yang can rest assured that his navy will fight, and he will no longer have to worry about his navy being unable to defeat the enemy.

Chen Mo said excitedly: “The boss spent hundreds of millions to let me practice with them, how can I humiliate you?”

Lu Yang smiled and said: “The whole army returned to the sea and returned to Hot Spring Island to rest.”

“Yes.” Chen Mo turned and ordered the fleet to turn around.

Lu Yang called Diamond and Jin Jiuwu and said: “The good job of chasing the Italian troop carrier will be left to you, and I will go back.”

“You don’t hunt,” Diamond asked.

Lu Yang said: “Asia is about to usher in a larger naval battle, and I need to go back in advance to prepare.”

“Naval battle in Asia?” Diamond asked in surprise. “Who?”

Lu Yang said: “Australia, Indonesia, India and the Philippines, the four countries forming a joint fleet are preparing to attack me. I will go back and fight against them.”

“Count me in,” Diamond said.

“Also count me.” Jin Jiuwu said.

Lu Yang said: "I welcome with both hands. After the two killings, lead the fleet to repair the warship at the dock of Haihuangcheng Port. I don't need to worry about it, I will pay for it."

"Hey, I like a boss like you." Diamond said with a laugh.

Lu Yang laughed, closed the talker with the two, and returned to Binghuo Island by warship.

In the evening of the same day, the official video of the Saudi naval battle appeared on the World Forum, not only the World Forum, but also major mainstream media in the world, including television stations.

The game channels of various countries have made naval battles a special topic and explained them in detail. In particular, Lu Yang used assassination water mist to confuse the Turkish and Italian fleets, and used assassination water mist to deceive the joint fleet, which made all players around the world look amazing.

"Brother, no matter what, this time you promised me to accept another exclusive interview to talk about the passage of this naval battle." Dubin called and said.

Lu Yang said, "I'm still interviewing. I'm busy."

"No, no, no, you can help my brother for the last time, and I have guaranteed it to the stage." Dubin said.

He is currently employed as a special host of a Chinese TV station, and has made a "Second World" game commentary program for this TV station, which is currently very popular.

Lu Yang and Dubin had a good relationship. He helped himself many times and said helplessly: "Well, say it, last time."

"I know you're interesting. This time it's a live broadcast. In the game, you are ready to go online." Dubin said.

“OK.” Lu Yang put on his helmet and entered the game again.

System prompt: commentator Dubin sends you a special space invitation.

Lu Yang enters a special space. This is a house similar to the TV broadcast room. Du Bin was sitting on a chair and looked at Lu Yang with a smile. “Brother sit down, and the live broadcast will start immediately.”

“Okay.” Lu Yang sat on the chair.

“Ready to start.” Du Bin said excitedly, he originally invited other guests in this issue, but Lu Yang’s naval battle was so beautiful and exciting that Du Bin couldn’t help changing the guests.

“Dear audience friends, here is” Yu-Gi-Oh! “...

Lu Yang secretly vomited. Like Wang Zhongwang’s ham sausage, he didn’t know his name.

“President Lu Yang, you used the assassination of water mist twice in this naval battle. The use is really beautiful. This is also the reason why your guild’s victory is very important. How do you think of this method?” Dubin asked.

Lu Yang shook his head with a smile and said, “I’ll make corrections. This naval battle I only played a supporting role. What really played a decisive role was the crew and captain, and the commander Chen Mo and the big shark.

“Why do you say that?” Dubin asked in surprise.

Lu Yang said: “The naval battle is a very special battle. What he tests is not the individual ability of a certain player, but the overall ability of the ship player.

Whether the gunner is accurate, whether the sailor can control the sails in time according to the captain's instructions, whether the helmsman can control the warship to enter the designated position in time, and whether the overall view of the naval battle is correct. It is only a supplementary effect, it just makes our side lose less. "

Dubin understood and said, "Then how did you make your men so strong?"

Lu Yang said, "I recruited two naval warfare masters, one named Chen Mo and one called Big Shark. Both of them are naval warlords. Most of my captains are sailing masters in the Chen Mo family. Each of them was cultivated within the Brotherhood.

As for the training method, it is a war. I can politely say that after so many naval battles, our navy has reached the top level in the world, and no country in Europe has the ability to confront us alone du Ben was so excited, all he wanted was this, and asked, "What are you going to do next?"

Lu Yang said: "These days have been a break to repair the warship in full strength, ready to go to the trouble of the French, it is time for them to pay their debts."

"Then I wish the brothers of the Iron Blood the success." Du Bin was even more excited, and he could not have known this kind of material in advance from Lu Yang.

...

When the two talked here, the other side was watching the live video of Australia's first president Green Devil, Indonesia's first guild's jungle killer, India's first president Tian Long, and the Philippines' first president South Asian Tiger. chat.

"Lu Yang is really arrogant." The green devil cursed.

"Huh, it was just a sneak attack to win Italy and Turkey. What a skill." Tianlong cursed.

A sudden sneer appeared on the jungle killer's face, saying, "You said, what if we sneaked into the hot spring navy base where the Jagged Brotherhood is located tonight?"

“That’s a good idea,” said the South Asian Tiger.

“Lu Yang is in an interview now, and his men should also go back to rest. When no one is online in the middle of the night, I think it will be OK,” said the Green Devil.

Chapter 1003 - 4 countries sneak attack

The Four Kingdoms attacked “We will mobilize, and we will give Lu Yang a deep lesson tonight.” The Tiger of South Asia said.

“it is good.”

“it is good.”

“it is good.”

...

The presidents of the Shikoku No. 1 Guild have promised one after another, and everyone has an excited look on their faces, as if Huaxia has become their possession.

“Would you like to ventilate with Japan and let them also send troops?” The South Asian Tiger asked.

“What to ask them to do? With the strength of our four nations enough to win Lu Yang, why cooperate with Japan?” Lushui said.

“It makes sense, that’s all it takes, we fight it ourselves, and all the benefits belong to us.”

“Sneak attack, such a good opportunity is like this, once in a lifetime, you must do your best.” The jungle killer said.

“I’ll go back and prepare.” Tianlong exited the special space and shouted using the Guild Channel.
“Gathering, all guilds gather, all players above level 100 gather.”

“President, what is it?”

“What happened?”

...

Tianlong said: “Good thing, don’t ask why, tonight will be the time when our Indian rises again, the army has not done it, we will do it first.”

Xue Yiming, who is responsible for monitoring the Asian countries, received the news as soon as possible. Not long after, Indonesia and other countries also heard the news of sending troops. He felt unusual and immediately called Lu Yang’s phone.

Lu Yang, who was being interviewed, did not hesitate to let Dubin pause the live broadcast and insert commercials. He pressed the connect button and asked, “What happened?”

“India, Indonesia, the Philippines, and Australia’s first guilds are mobilizing internally. The presidents of the countries did not explicitly inform the specific target of the attack, but from their Chinese language, it can be inferred that it is Huaxia, and the target is the hot spring island where the Jagged Brothers Navy is located.” Xue Yiming said.

“Good job, I know, keep monitoring.” Lu Yang closed the phone.

Dubin asked: “What happened?”

Lu Yang shook his head and sent a message to Chen Mo and Zhuo Jiu, who said, "Gather the fleet and transfer the new ship Ocean Overlord to participate in this naval battle."

Then he said to Dubin, "Let's continue the interview. Tonight I have plenty of time. Let's do a long interview."

"That's daring, if you want, I can do it at 12 o'clock," Du Bin said with a smile.

"Just 12 o'clock," Lu Yang said.

"Then I'm not polite with you, the advertisement is over and I will continue to start." Dubin Haha said with a smile.

"Welcome back to the show, let's ask the next question next." Du Bin asked Lu Yang, "How do you think of the strength of the surrounding countries?"

Lu Yang said with a smile: "Apart from Japan and South Korea, which have some fighting powers, other countries like India are very weak."

Tianlong was organizing his subordinates, and when he heard the words from Lu Yang's live broadcast, he instantly showed his angry look and scolded: "I will give you a profound lesson."

"Australia is a strong country," Dubin said worriedly.

"Do you mean the Water Ghost Corps where Green Water Ghosts are?" Lu Yang said with a smile, proudly: "I have dealt with their guild leader Green Water Ghosts. Green Water Ghosts took more than 100 people and I encountered and saw that I was only one person, and I had a lot of babies. I wanted to kill me and lost my treasure. As a result, I killed more than 100 people by myself. I also exploded the green magician's best mage equipment. Including the nine series element ball and escape dagger, unfortunately, he did not have the demon heart that time, otherwise I burst out."

Dubin said in surprise: "There is still this matter, please tell us in detail."

Lu Yang simply talked about everything he encountered that day, including how he humiliated the Green Water Ghost, and told him to run first and take the baby before chasing.

The Green Water Ghost is gathering Australian players, seeing this news, he was furious and roared: "Lu Yang, I will never let you go."

He thought that person was the deep sea, but he did not expect that it was actually Lu Yang.

"Gather all, gather me quickly." Green Water Ghost shouted.

Soon, both India and Indonesia were assembled, and the Philippines was slower, but they were also assembled. The four countries together, the number of Tier 5 fleets reached 1,200, and the number of Tier 3 warships exceeded 3,000. More than 10,000 warships.

The four nations are very close. When their fleets converged at sea, the fleets were vast and dazzling.

"I must wash the Brotherhood of Iron and Blood and kill Lu Yang back to level 0." Green Water Ghost said to the jungle killer who looked at him with a strange look.

"Be assured that you will achieve what you want," Tianlong said.

"Well, let the water ghosts take the lead, and we will assist." The South Asian Tiger asked.

"That's a good idea, I agree," said the jungle killer.

The Shikoku Joint Fleet seems to be powerful, but none of them have the ability to face Lu Yang alone, and they don't think they can fight Luyang directly. Even if the four countries together can win, the leader will definitely lose. It can be devastating or even completely destroyed, so no one wants to start.

Lvshui Guigui resents it, but he is not stupid. Every ship is bought back with real gold and silver. The price is expensive, and no one will be the head of this injustice.

“Several, let’s cooperate to fight Luyang.” Lushui asked uneasily.

The three nodded together.

“Then don’t pretend to be stupid. Give me one-third of the warships and listen to my command. Otherwise, I will never fight in this front.” Green Water Ghost said.

The three looked at each other and did not expect that Green Water Ghost would not be fooled at this time, but it was already on the string. If Green Water Ghost agreed to start, they should pay one third of the fleet.

“I agree. As long as we can destroy the Navy of the Jagged Brotherhood and we attack the Mainland overnight, the money we get at that time is dozens of times lost,” said the jungle killer.

Both Tianlong and the Tiger of South Asia nodded, saying that there was no problem.

“That’s good. I leave a third of the fleet behind, and the remaining two thirds start. Counting your fleet, a total of 500 ships and Lu Yang are fighting hard. More than 400 ships, when your warships are surrounded from the flank, Lu Yang definitely can’t beat us.” Green Water Ghost said.

Several people acted quickly, but when they re-opened the offensive formation, Lu Yang, Chen Mo, and others clearly learned from Xue Yiming the tactical arrangement opposite.

Taking advantage of the second commercial break, Lu Yang called Chen Mo and said, “The three Marine Fortresses I built originally thought it was a real waste of money. I can’t think of anything else that is useful. Yes, I will send them out tonight. . .”

Chen Mo laughed. At first Lu Yang was not allowed to build the Ocean Fortress, but he was later asked to build it, but he built the Fort in Sky Fox City.

Chapter 1004 - Sea Snake Islands Battle

“Are we going to fight them at sea, or are we going to fight them at sea?” Chen Mo asked.

Lu Yang said, “In the open sea, this war is still based on exercise, and this time I didn’t call Jin Jiuwu and Diamond to participate in the battle, we all rely on ourselves.”

He has to test the strength of the Jagged Brotherhood again. If he can defeat the joint fleet of the four nations without any outsiders’ help, then he will be eligible to cross the Asian waters.

“Yes, you are not afraid to spend money, and I am not afraid of war damage, so be prepared.” Chen Mo was so excited that his favorite thing was to play against people in the open sea.

He then said to Lu Yang, “Boss, I suggest that the fleet fight against the enemy in the Sea Snake Islands. What do you think?”

Lu Yang opened the world map and looked at the location of the Sea Snake Islands. He was 10 nautical miles outside Hot Spring Island and said, “This should be the enemy’s entire team location. It’s an ambush here that can also play the role of the Marine Fortress.”

Ocean Fortress, a terrible maritime fortress with 500 cannons. All guns can choose to attack in any direction. It is a top-level warship that can perform dense firepower output at a single location.

Chen Mo said, “I’m going to inform the three old men.”

Lu Yang smiled and closed the intercom, looking at Du Bin who ran outside to communicate with the staff, and said, “Let’s continue.”

“Good.” Dubin ran back and continued to chat with Lu Yang.

In the open sea, the Four Kingdoms Fleet headed towards the Huaxia waters while the night was shining. In the video, Lu Yang continued to ridicule the Green Water Ghost. The way of mocking made Dubin a bit unbearable.

“I really don’t know what he thinks. It turned out to be Green Water Ghost, haha, I really made him a Water Ghost that time, you know, killing more than 100 people alone, this feeling is really wonderful, especially I can get so much equipment.” Lu Yang said brazenly.

Lu Yang Yue said so, players are more happy to see it, but some so-called experts, on the forum, criticized Lu Yang for his lack of grace.

On the sea, the Captains of the Four Kingdoms are discussing countermeasures on the same warship, and they are also watching Lu Yang’s interview. In the face of the green water ghost who is about to run away, the three men continue to comfort.

“Too much, how can he talk like that.”

“Don’t be impatient, we will give him a profound lesson when we meet.”

...

“You don’t need to persuade me, I know how to do it.” Green Water Ghost tried to calm his mood, he gritted his teeth and cursed, “I will never let Lu Yang go.”

He didn’t know that Lu Yang didn’t plan to let him go. Just a few hundred nautical miles in front of them, the three Marine Fortresses of the Brotherhood of Iron Blood were heading to the Sea Snake Islands at full speed.

The three ships were commanded by the old man, the father of Jiang Ze, and the father of Lan Yu. The three old men saw the drawings of the Ocean Fortress at that time, and they all wanted to build a play.

All three of them had gratitude to Lu Yang. How could Lu Yang allow them to take money, so he paid for three marine fortresses and gave them to three old men, letting them log in to the warship with the players they recruited.

It was originally just for them to play, and it was unexpected that the truth came in handy. Soon, the three old men came to the Sea Snake Islands with three Ocean Fortresses.

The reason why the Sea Snake Islands have this name is that it looks like a coiled sea snake, consisting of a total of 62 islands.

“We have arrived at the designated location.” The old man at the twilight called Chen Mo.

Chen Mo said, “Look right in front of you.”

The old man in the twilight looked up, and before long, hundreds of warships suddenly appeared in front of them.

Especially the more than 100 warships at the beginning, each of which is more than 50 meters in height, has 4 turrets up and down, 20 cannons on each floor, and 80 cannons on one side.

“This is the Ocean Overlord, in general, it is still our strong.” The old man said lately.

Father Jiang and Father Shen nodded at the same time.

Chen Mo had a black line on his brain. No matter what the number of turrets was, it was nothing compared to the Marine Fortress. That thing was a sea hedgehog.

“We are waiting here. The three of you are the absolute main force in this naval battle. When the enemy sees your three warships, they will attack with all their strength. Then we will appear and fight the enemy.” Chen Mo said .

“This method is good. The three of our warships were originally anti-blood and not afraid to be bait, so we just do it,” said the old man.

Both Mr. Jiang and Mr. Shen stated that there was no problem.

Chen Mo took the ship back, and re-hidden into the Sea Snake Islands. He sent a message to Lu Yang saying “Everything is ready.”

Lu Yang looked at the time. It was 11 o’clock in the evening. Xue Yiming reported the enemy’s development to Lu Yang every 10 minutes. At present, the enemy is only one hour away from the Sea Snake Islands.

He continued to chat with Dubin until 11:50. When the enemy’s warship entered the Sea Snake Islands, he suddenly smiled.

Dubin asked curiously, “Why did you suddenly laugh?”

Lu Yang said, “You said, if someone wants to assassinate you, hide in the grass and watch your live broadcast while walking towards you, but he doesn’t know that his behavior is always under the observation of others. , You said that this man is ridiculous and ridiculous love? “

Dubin didn’t respond, asking “I didn’t understand.”

Lu Yang smiled and said, “I mean it very simply. Just when we were broadcasting live, I received the news that the first guilds of Indonesia, India, the Philippines and Australia joined forces to launch a surprise attack on me.”

“What?” Dubin was stunned, and the jungle killer, the South Asian tiger, Tianlong and the green water ghost watching the live broadcast of Lu Yang on the sea were also stunned.

It wasn’t just stunned, their hair was exploded all over.

“How is it possible that we were discovered by the enemy?” Tianlong asked.

Lu Yang smiled across the screen and said, “Yes, you were discovered by me, and your every move is under my surveillance. A little green water ghost, just the four of you want to attack me, I let you know. Knowing what tactics developed by Huaxia 5000 years, secretly crossed Chen Cang.”

On the sea.

The four green water ghosts were about to order the army to retreat, but saw three steel hedgehogs appear behind the island they passed.

The old man in the twilight stood at the bow of the ship, raised a devil flag, and roared loudly, “Iron Brothers kill!”

Three Marine Fortresses, 1,500 cannons, were aimed at an enemy warship.

“boom”

“boom”

...

The Thor artillery was extremely damaging. Once the fire was set, four Class 5 warships of the Four Nations Alliance were sunk by artillery.

“Only three warships?”

“What are these three?”

“No matter, run, it must be the enemy’s bait.”

...

The four quickly ordered the fleet to retreat, but at this time, the retreat was too late. Just when their fleet turned around, more than 100 Ocean Overlords and more than 400 black devils appeared in front of them.

Chapter 1005 - Green Water Ghost

“No, we’re lying in ambush.”

“What kind of ship is that? Why is it so much bigger than our level 5 Ghost?” The jungle killer asked.

“Lu Yang must have obtained new drawings, it must be a warship that has surpassed level 5, including these three steel hedgehogs.” Tianlong said.

“What to do?” The South Asian Tiger asked.

“It’s too late now, fight with them, I will lead the team.” Lushui shouted.

Twelve hundred and five Tier 5 warships and 3,000 Tier 3 warships filled the spirit of Green Water Ghost with a guilty conscience. The retreat was just a guilty conscience discovered by a sneak attack, and he thought that Lu Yang was well prepared. Seeing that there were only more than 500 warships on Lu Yang’s side, he decided to fight back.

The South Asian Tigers also found the problem and said, “Fight with them. We have so many ships. Don’t be afraid of them.”

“Agree,” said the jungle killer.

“I agree to attack,” Tianlong said.

“Okay, according to the original plan, I led the team to attack, you launched an attack from the flank and besieged the 400 warships of the Iron Brotherhood.” Green Water Ghost said.

Tianlong, Jungle Killer and Tianlong nodded together, and each quickly ran to their flagship with their jumping skills.

“The Chinese army listened to my order. The bow pointed at the Brotherhood of Iron and Blood and attacked.” Green Water Ghost shouted on the World Channel with the simulation group.

More than 1,000 warships preparing to make a U-turn turned their bows back, including 400 Tier 5 warships, 600 Tier 3 warships, and the remaining more than 2,000 warships carried out on the Brotherhood of the Iron Blood Brothers from both left and right directions. Surrounded.

“Okay, you want to encircle us.” Chen Mo said.

The light flashed.

Lu Yang appeared on Chen Mo’s flagship, and his moisture was above the flagship.

“How’s it going?” Lu Yang asked.

Chen Mo said, “The enemy took the initiative to attack us.”

Lu Yang smiled and said, “They really don’t know the power of the level 7 warship and the level 7 cannon.”

The good health of the level 7 warship marine overlord is 1.5 billion, which is 70 million more than the level 5 warship, and the defense force is as high as 30,000. The level 5 warship has a defense force of only 20,000.

In terms of artillery, all warships of the Luyang fleet used Thor's Wrath, with an attack power of 100,000. According to the information given by Xue Yiming, the cannons used by the warships such as Green Water Ghost and others were still abyss artillery with an attack power of 5 Million.

In terms of rate of fire, the time of the Abyss Cannon is 10 seconds per round, and the rate of fire of Thor's Fury is 5 seconds per round.

A Tier 7 warship can carry 160 cannons, while a Tier 5 warship can only carry 120. Comparing the two, in fact, the single attack power of a Tier 7 warship is equal to 4 warships, including defense. Even more impossible to compare.

Lu Yang said, "Since they want to find death, then fight with them head-on and let them see what the ocean overlord and the wrath of the thunder **** are."

"Yes."

"Yes."

...

Commanders such as Chen Mo and Big Shark responded in unison.

"Don't forget us, dare to be tough, I'll kill them." The old man's laughter came from a special channel.

Lu Yang looked toward the battlefield. The three Marine Fortresses had been surrounded by the enemy's Tier 3 and Tier 5 warships. The Fortress was bombed by three layers inside and three outside.

But their shells dropped very little blood on the fortress, and the fortress could kill dozens or even more than 20 class 3 warships in one shot. It was exactly like an elephant stepping on an ant.

The three old men yelled excitedly in the command room.

Lu Yang laughed and said, "You can't let the old man go down. Chen Mo, you come to command, I will help you."

"Yes." Chen Mo said, "Boss, you take 50 Ocean Overlords to the front of the green water ghost's squadron. The big shark and I take the rest of the ship to attack the two wings. Let's eat the enemy's front forces first."

"Okay." Lu Yang flashed a white light on the Ocean Overlord 100 meters away. The captain of this ship was Mufeng, flanked by the wasteland and the old captain of Chen Mo.

"Boss, give your order." Mufeng and others heard Chen Mo's order in the simulation group.

Lu Yang laughed. He raised his right hand and pointed at the oncoming Greenwater Ghost Warship. He shouted, "The fleet moves forward, rushes into the enemy line, and engages the enemy at close range."

"Yes." The 30 Ocean Overlords accelerated at the same time, rushing into the gap between the two ships of the main fleet of Green Water Ghosts.

Green Water Ghost is this idea. Lu Yang's new warship was killed by pinching. Green Water Ghost didn't find anything when it was far away. However, when the two teams approached, Green Water Ghost suddenly felt bad. feel.

The level 5 warship is only over 30 meters in height, while the level 7 warship is over 50 meters in height. The warship of the Green Water Ghost is in front of Lu Yang's warship, just like a child to an adult.

"when"

“when”

“when”

...

The upper and lower four-layer muzzle opened at the same time, and the special sharp shape of the Thor’s Fury cannon made the green water ghost’s side even more frightened.

“This, what kind of cannon is this? Why haven’t I seen it before?” An Australian player asked.

“No matter what that is, fire the gun and kill them.” The Captain of Australia roared.

The crew just reacted to prepare to fire, and the wrath of the thunder **** on the side of the Brotherhood of the Iron Blood also emitted a violent thunderbolt.

“boom”

“boom”

“boom”

...

160 Thor artillery cannons on both sides launched attacks at the same time, violent thunderbolts emitted from both sides of the ship, hitting level 5 warships on both sides, and killed more than 6 million of their health.

At the same time, the warships on the Greenwater Ghost’s side also launched an attack, which could hit the Ocean Overlord with only a few hundred thousand injuries.

The close battle between the two sides' fleets was just like the ancient two-party cavalry confrontation. Lu Yang and the fleet continued to charge forward, directly into the enemy's army.

The most hopeful of the Green Water Ghost is that Lu Yang will be able to do so, seeing Lu Yang enter his pocket and shouting, "Surround these 50 warships and destroy them."

More than 600 warships surrounded Luyang's 50 warships and began violent bombardment.

Lu Yang ignored the attack. He looked at the Green Water Ghost's flagship, and pointed at the ship, shouting, "Attention all fleets, the side is aiming at the Green Water Ghost's flagship, and he bombed me."

The Thor artillery not only fires fast, but the key is that it can shoot flat or upward. If both sides are Class 7 ships, Lu Yang can only order the fleet to shoot upwards, so the shooting accuracy is defective, but their warship is higher than the enemy. More than 20 meters, flat shot can be used.

Fifty warships were lined up one after another, and one after another aimed their muzzles at the flagship of the Green Water Ghost.

"No. 1 is ready."

"No. 2 is ready."

...

50 warships have been prepared one after another.

Lu Yang shouted, "Don't give the green water ghost a chance to escape, set fire to sink his flagship, and fire."

400 Wrath of the Thunder God fired at the same time, easily hit the flagship of the Green Water Ghost, and the health of the Level 5 ghost dropped from 50 million to more than 10 million instantly.

The green water ghost stood in the command tower and was not killed. Watching his ship's blood was hit so low, he screamed in horror "Quickly withdraw from the battle and cover the ships 7 and 16."

The two warships quickly approached Greenwater's flagship, and Greenwater's warship fled towards the flanks, preparing to hide behind other warships.

He anxiously counted in his heart. In his opinion, the rate of fire of such a large artillery must be 10 seconds. His escape time was sufficient, but it only ran for 5 seconds, and the 400 Thor artillery lights again.

"Fire." Lu Yang growled.

400 Thunder Lightning hits the Green Water Ghost flagship, which is about to hide behind other warships.

"boom"

The Green Water Ghost flagship exploded, killing all players in the ship, including the Green Water Ghost himself.

"Pretty." Lu Yang shouted.

The green water ghost died, the enemy's command system was blasted, and the next war was much easier.

"Give priority to the enemy's level 5 warship and fire." Lu Yang shouted.

50 marine overlords salvo the enemy's 5th-level main battleship in front of the enemy. After the green water ghost was killed, the four-country coalition side was chaotic and could only shoot with superior

artillery fire. In the face of the Ocean Overlord, which is attacking while moving, it can hardly cause much damage.

Soon, the enemy's warship became chaotic because it could not be commanded systematically. Within an hour, two-thirds of the warship was sunk by Lu Yang.

In the position of the two wings, Chen Mo and Big Shark also had similar records as Lu Yang, and the attack method surrounded by them was easily resolved by Lu Yang.

On the side of the three grandfathers, hundreds of Class 3 warships and dozens of Class 5 warships stormed around the Marine Fortress. Not only did they not kill a Marine Fortress, they were sunk by more than 300 Class 3 warships. Ships and dozens of Tier 5 warships.

"Damn, why is the enemy's ship defense so high?" The South Asian Tiger cursed.

"Can't let Lu Yang's warship escape and continue to attack, our main force is still there." Tianlong shouted.

The two-thirds of the 5th-class warships that were just damaged are all on the green water ghost side, they are only one-third of the damage, although it is not known how much blood the Ocean Overlord of the Luyang side's team has ~. mtlnovel.com ~ But they speculate that the level 5 black devil on both wings will not have much health.

They guessed very well. The blood of more than 400 black devil is basically half blood, but they don't know Lu Yang's determination this time. Lu Yang is already ready to make these 400 black devil battle damaged.

In the future, he will equip his fleet of warships with the Ocean Overlord and Ocean Hunter, and no black devil will remain.

This is because of a special reason in the game, which is called the lack of loyal players.

A level 5 warship costs 2 million yuan. If the people on the ship are not loyal to your **** players, and the warship runs away, you have no solution.

Until now, Lu Yang has a lot of loyal players in his hands, and many vice-presidents have a lot of players in his hands. However, the warship can only accommodate so many people. If you want to keep them loyal, and understand naval battles, how easy is it?

With Lu Yang's current family, he can fully equip 600 warships, which is already his limit. No more people can find him and his training is insufficient.

Chapter 1006 - Offensive australia

When Lu Yang saw that the enemy's two wings had not shown signs of withdrawal, he also launched an onslaught against him. He guessed the enemy's idea and shouted, "Continue to attack and decisively fight the enemy."

The captains of the Brotherhood of the Iron Blood were also out of the way, while evading the enemy's artillery, they launched a storm on the other side.

On the other side, the 30 shipyards of the Iron Brotherhood are building the Ocean Overlord, and as long as 5 hours later, there are 30 more Class 7 Ocean Overlords equipped with Thor artillery can enter the battle.

Radiance city port in Japan.

Ono looked deep into the ocean, and asked the speaker, "Do you really want me to give up Australia? Philippines, India and Indonesia, we can leave it alone, but Australia and us are allies."

Liu Jie said, "Don't worry about them, let Lu Yang destroy them to the fullest. You don't have the blueprint of the Ocean Overlord. Even if you win, Lu Yang has a fleet to fight you, and the Skyeeye Alliance has no ability to help you."

Ono sighed and said, "Okay, I'll cancel the assembly order."

Liu Jie said with a smile, "What to cancel, such a good opportunity, you should take someone to plunder in Australia, India and the Philippines. The opportunity is only this one. Don't miss it."

"What? Let me attack Australia?" Ono asked incredulously.

Liu Jie said, "Yes, I have hired a master of the United States to draw the drawing of the Ocean Overlord for me. I can make a warship for you, but you need to pay for it yourself. Do you want to pay from your wallet? ?"

Ono smiled and said, "Thank Liu Jiejun, I will gather troops to attack Australia."

Liu Jie said "then I ordered Slade and Angel Sword to print India and Indonesia."

The two laughed and hung up.

...

After three hours.

On the sea, the Brotherhood of the Iron Blood of Lu Yang is still at war with the Allied Forces of the Four Nations. At this time, the Navy of the Brotherhood of the Iron Blood has only 70 Marine Overlords and 3 Marine Fortresses, and all the remaining Black Devil have been sunk.

Among the four-nation coalition's fleet, there are more than 300 ghosts left, and less than 1,000 level 3 warships.

Both parties have entered a fatigue stage, and the war has now ended on the will, but at this time, Lu Yang and the guild leaders of the Four Nations Alliance received the news at the same time.

[System News] India was attacked by Dutch fleet commander Slade.

[System News] Indonesia was attacked by Angel Sword, commander of the Italian fleet.

[System News] Australia was attacked by the Japanese fleet commander Ichiro Ono.

Three consecutive messages made Tianlong, the jungle killer, the tiger of South Asia, and the green water ghost hurried back horribly sweating, but Lu Yang was as sick as eating a fly.

"No, we were attacked."

"Damn, I can't fight anymore. Hurry up to help."

"Retreat."

...

The four guild leaders never thought of a protracted war. If the 48 main cities of their own country were breached by other countries, they would suffer heavy losses.

"Boss, they have to run, shall we chase?" Chen Mo asked.

Lu Yang's heart was very angry. What he thought was to win the naval battle. He would personally lead the team to blood-wash Australia. However, he did not expect to let Tianyan Alliance and Liu Jie take advantage.

The guilds that Slade and Angel Sword had been hit by were all torn apart, but after this sneak attack, it is conceivable that the two will return to their pre-war strength.

“Without chasing them, the fleet went to Australia. Now Australia has the lowest defense ability. I want to wash Australia in blood.” Lu Yang cursed.

“Yes.” Chen Mo immediately ordered the fleet towards Australia.

Lu Yang then issued an order, and the vice presidents such as Zhuojiu, Xia Yuwei, and White Lion led the player into the troop carrier and drove towards Australia together.

Australia, the eastern port city of Reese, Ono personally took 500 Ghosts to shell the main city of Reese, and more than 2 million Japanese players swarmed towards the main city of Reese, and launched a confrontation with players on the wall.

Unfortunately, the elite players in Australia are not in the city, most of them are still in the troop carrier. At this time, they have not returned to the Australian waters.

Soon, the city of Ruis was smashed, and the city was ruthlessly looted by Ono and Japanese players. Everything that the entire main city could sell was sold out.

“The next main city, we still have time.” Ono said watching the time.

The warship went down the river and rushed towards the next main city. Two million players changed their mounts and rushed to the next map.

[System Tip] Japan Breaks Through Ruis City, Australia

“It’s unlucky. I didn’t expect these guys from Japan and the Netherlands to have this vision.” Big Shark said indignantly.

Lu Yang said, "It's not that they have vision, but that they are shameless."

"Shameless?" Big Shark asked in surprise.

Lu Yang nodded and said, "Before this naval battle, everyone still followed the tradition of fighting between the two countries, and the rest of the countries did not intervene. After all, it was a game, not a battle of life and death. But Japan and the Netherlands broke this rule.

In this way, future wars will no longer be wars of one or two countries, but a war may become a war of world wars. "

"Uh." The big shark responded, saying "That's really shy."

Lu Yang said, "This is also the reason why I built shore gun positions in all port cities from the earliest. What is preventing this is today."

In this sneak attack of the four nations, the main reason why Lu Yang dare to fight with them in the open sea is that he has built a large number of shore gun bases at landing points in various port cities. The navy was overwhelmed, and he had shore gun positions to prevent the enemy from landing.

"Well, boss, look ahead." Chen Mo pointed to a troop carrier ahead.

"Isn't that an Australian troop carrier?" Said Shark.

Lu Yang laughed Looking at Chen Mo and Big Shark, both of them also laughed.

"Haha, we may have encountered the Australian navy carrier." Chen Mo said.

Lu Yang said, "Fast, order the fleet to move at full speed, blocking more than 2 million people in Australia."

During the war, the Green Water Ghost dispatched more than 2 million elite players in the guild. This is more than 2 million national battle points. If they are all killed, they will be able to redeem a large number of experience **** and equipment.

Chen Mo issued an order and more than 70 Ocean Overlords were moving at full speed. After bypassing an archipelago, Lu Yang smiled. In the sea in front of him, there were endless Australian troop carriers, with thousands of ships.

“Zhuojiu, where have you been?” Lu Yang asked.

“The vanguard is 20 minutes away from you,” said Zhujiu.

“Okay, close to me at full speed. How many brothers can get 2 million national war points, it depends on you.” Lu Yang said.

Chapter 1007 - Capture the Ocean

“Yes.” Zhuojiu stood at the bow of the boat, shouting excitedly: “Go forward at full speed, sailing smoothly, God is helping us, 2 million national war points, we can not be less.”

The main force of the 1 million Brotherhood Brothers Alliance in the 1,000 troop carriers shouted in excitement. Now the role of national battle points is getting bigger and bigger. Not only can they be exchanged for experience points, gold equipment, but also a small amount of level 100 dark gold equipment. Can be exchanged for mounts.

Thousands of gold mounts are no longer high above, as long as they participate in several national battles, they can be exchanged for a mount.

In the future, even if you sell it in half, you can still earn a lot of gold coins. Now every time Lu Yang asks the team to play the national war, the Brotherhood of the Iron Blood is actively registering.

When the fleet was moving fast here, on the other side, Lu Yang led more than 70 Ocean Overlords from the side to quickly intersect to the forefront of the Australian troop convoy.

“Not good, the members of the Brotherhood of Iron Blood have caught up.” Iron and Steel Sky, the vice chairman of Lushui Ghost, said in a panic.

“What to do? This is going to be terrible, we will be wiped out by them,” said another vice chairman.

There are more than 2 hours before entering the Australian waters. They want to run, how can it be so easy.

Because of the role of ocean currents, naval warfare has many special features that are not available in other battles. For example, this area is still sailing smoothly, but when it is not far from the front, it turns into headwinds.

Now the Australian side is in a state of headwinds and headwaters, so it was surpassed by Lu Yang from the side relying on the spinnaker unique to the ship.

Lu Yang stood on the bow of the boat and watched the crew using the oars, the slow-moving Australian fleet, with a sneer on his face.

“All warships were ordered to use Thor’s Fury to fire directly in front of them, forcing them to move laterally to Gunma Island on the east side,” Lu Yang said.

Seventy Marine Overlord sideboards aimed at the sea and launched shelling at the same time. The already overwhelmed Australian players were even more frightened and immediately ordered the fleet to flee in a safe direction.

At this time, the troop convoy was no longer under command and control. Like the sardine school that encountered sharks, the entire group was driven towards Gunma Island.

“Don’t panic, don’t panic, continue to drive forward, as long as we have passed this section of the ocean current, we can escape, don’t run to the side.” Steel Sky shouted.

His strategy was very correct, but no one listened to him. The reason was very practical. In this war, every Australian player who participated in the war thought that he could succeed in a sneak attack, and the equipment on his body was the best.

Level 100 dark gold equipment and excellent equipment are not something you can hit. No one wants to kill the equipment and flee in the direction of no artillery attack. Only a small number of warships continue to move forward without waiting to run. When they went out, they were killed by the dense thunder cannon, which made other troop carriers dare not flee forward.

Lu Yang saw that his plan was successful, and again sent a message to Zhuojiu, ordering them to head toward Gunma Island.

Just 20 minutes later, thousands of troop carriers from Australia were driven to Gunma Island, and Lu Yang’s fleet stopped behind them.

The reason why Gunma Island is so named is that there are turbulence everywhere. No matter which direction the ship is heading, it won’t be long before the turbulence can be controlled.

“What kind of sea is this, it’s weird, the direction of the current cannot be controlled.”

“I encountered a great whirlpool. Save us.”

...

A large number of warships encountered problems. At this time, Australian players discovered that they had been fooled. Unfortunately, Lu Yang’s warships were blocked at the exit position, and it became impossible to run.

Lu Yang sneered, watching the thousands of flustered Australian fleets in front of him. He called Zhuoju and asked, "Where have you been?"

"Boss, here we come, look behind you." Shouted Zhuoju standing on the bow of the first troop carrier.

Lu Yang looked back at the distance and said to Chen Mo, "Go on a fire and kill the Australian grandchildren."

"Yes." Chen Mo issued an order, 70 marine overlords lined up, the sideboard pointed at the Australian troop carrier.

At this time, the news of the green water ghost came from the global channel.

[Global Channel] Green Water Ghost: President Lu Yang, I am the head of the First Guild of Australia, Green Water Ghost. We admit defeat in this war. I hope that President Lu Yang will let go of our troop carrier in the spirit of chivalry. Team, I would greatly appreciate it.

Lu Yang is happy.

[Global Channel] Lu Yang: Why did n't you think about chivalry when sneak attack? A person who pursues chivalry chooses sneak attack. Why is there a face to mention chivalry with others when defeated? Is it true that you are a sneak attacker in the west Forgive each other after failure?

[Global Channel] Green Water Ghost: President Lu Yang, I admit that this war has failed. If you need compensation, we can discuss it now.

[Global Channel] Lu Yang: Sorry, the Brotherhood of the Iron Blood never gives defeated enemies any chance of resurgence. Your compensation is these 2 million people plus your 48 main cities in Australia.

The green water ghosts were stunned. He did not expect that Lu Yang would say so. He was afraid because Australia alone would not be able to win the offensive of the Jagged Brothers Alliance.

Not to mention that Ono has logged in with 2 million people. Just to say that the 100,000 people participating in the Jagged Brothers Alliance are all level 100 players, their body equipment is not inferior to their elite players.

Australia itself is just a small country with a population of more than 10 million. Regardless of their 7.6 million square kilometers of land, due to national policy issues, large numbers of foreigners are not allowed to emigrate.

At present, the total number of players entering this game in Australia is only 20 million. At this time, it is late at night. The number of online players during this period is only more than 6 million. This is the total number of people, including everyone between 0 and 100.

Less than half of the people who have reached the 100 level are still distributed in 48 main cities. At present, most of them are defending the offensive of the Japanese Ono Association, and they have no ability to fight on two fronts.

“What, what can I do?” Green Water Ghost was completely panicked.

“Chairman, our carrier was sunk in large numbers, and Lu Yang began to attack.” The steel sky called.

Green water ghost can't answer.

“Chairman, our troop carrier was stuck on Gunma Island and couldn't get rid of the currents here. In this way, the entire army would be wiped out in less than an hour.”

Lvshuigui still couldn't answer. Facing the confusion of his men, he didn't know what to do. He could only sit with his hands on his forehead and closed his mouth.

“President, think of a way, you can't continue this way.” The vice president who stayed in the hall of the guild looked at the green water ghost together with several legionnaires.

Players who want to return to the main city using the city roll must return to the server where they are located. Now 2 million players in Australia are still blocked by Lu Yang in the Huaxia server and cannot escape.

“Order them, break through each other individually, I can’t issue any orders.” Lvshui said lonely, the only thing he can do now is to sit there, through the perspective of the steel sky, watching his own Thousands of personnel carriers and 2 million players inside were slaughtered by Lu Yang’s 70 Ocean Overlords.

Two hours.

For two hours, numerous broken ship boards and a lot of equipment floated on the sea around Gunma Island.

“Happy, really happy.” Chen Mo said.

“Finally revenge,” Big Shark said.

Lu Yang smiled and ordered: “Tu Feng led the logistics team to collect equipment, and the rest of us followed me towards the Australian waters.”

“Go to Australia?” Big Shark asked.

Lu Yang said: “I want to lay down the whole of Australia and slaughter his 48 main cities.”

“Yes.”

“Yes.”

“Yes.”

...

All the vice presidents shouted in the simulation group at the same time. After the initial surprise, Chen Mo and Shark immediately reacted, and excitedly ordered the fleet to move towards the Australian waters.

Although the distance between Asian countries in the game is only 4 hours, there is a time lag in the real world. At present, Huaxia is late at night and Australia is late at midnight. He is going to hit Australia by surprise and let the green water ghost taste all the main cities destroyed. Taste.

This game is unthinkable for everyone, including Liu Jie, when the major guilds in the world thought that Lu Yang and the Iron Blood Brotherhood could only return to the hot spring island seaport, but did not expect that two hours later, the Lu Yang belt Players holding the Brotherhood of the Iron Blood appeared in Ocean City, the elves' main city on the west coast of Australia.

Ocean City is an overseas island in Australia, similar to Huaxia's Hot Spring Island. The number of players on it is not large. Lu Yang intends to use it as his base to attack Australia.

"Boss, the city is empty. They didn't expect you to call here." He looked up and called in excitement.

Lu Yang laughed and said, "They all ran away to compete with the Japanese. How could there be time to manage here, blow the charge, order the troop carrier to land, break into the main city, and sell all their shops."

"Woo ~~"

"Woo ~~"

"Woo ~~"

The low and mellow offensive horn rang through the sea. Night owl players from level 0 to level 60 were playing equipment or trading outside and inside the city, and suddenly heard the sound of the horn on the sea, making them all look curiously into the distant sea. So many ships? "

“Which fleet is this?”

“Isn’t the Green Water Ghost Guild’s fleet disabled?”

“No, this is not our Australian fleet. Look at the Devil’s Banner. It’s the China Brotherhood of Brotherhood.”

“Come to report soon.” Players with the Guild of Guilds immediately reported the news to Green Guild.

At this time, the green water ghost was taking the main force of the 2 million guild and the Japanese Ono decisive battle outside the city, and suddenly heard the news, he was stunned.

“Isn’t the Jagged Brothers League returning to China? Why did they attack Australia? Are you sure you can see clearly?” Green Water Ghost roared.

“Look at it clearly, the Devil Flag and Ocean Overlord, as well as the players who rushed down, are definitely Chinese.” Players reported.

The green water ghost fell to the ground in horror. He knew that Australia was over.

Chapter 1008 - Kill the Lord Esthert

“Chairman, what’s wrong with you?” The vice-chairman Steel Sky asked.

“Lu Yang is attacking Yuanhai City with the main force of the Brotherhood of Iron and Blood.” Green Water Ghost said suddenly.

The steel sky and a group of vice presidents are stunned, and 2 million Japanese players have been difficult for Australian players to resist under the cover of more than 300 Tier 5 warships.

In the middle of the night, Greenwater Ghosts only convened less than 3 million Australian players. They thought that the Japanese players would retreat until dawn, but they did not expect a more powerful Jagged Brotherhood.

“How many people are they here?” Steel Sky asked.

“It is said that there are 3 million.” Green Water Ghost said.

Outside the ocean.

The turbid wine poured out the first to jump off the warship and raised the banner in his hand and shouted “Iron Brotherhood.”

“Kill ~!” The first group of players who jumped off the troop carrier instantly reddened their eyes and launched an attack on Yuanhai City like crazy.

Subsequent players who did not jump off the troop carrier saw that they were close to the coast, and jumped directly into the sea, shouting the slogan “kill” and headed madly upstream.

This crazy state made Chen Mo’s whole body full of blood, and he said to Lu Yang, “Boss, our guild has never been more powerful than any other in the world. It’s too powerful.”

What Lu Yang is most proud of is that he has cultivated the war will and morale of the Jagged Brothers Alliance. Whenever this slogan is shouted, everyone will go forward.

“You are here to prepare for defense, be careful of the Japanese attack, I will also participate in the attack.” Lu Yang said.

“Yes,” Chen Mo said.

“The fleet responsible for the support of k and Vietnam, Thailand are coming. It is expected to arrive in an hour. Don’t make the wrong person.” Lu Yang finally left a sentence, using the ontology fire mage to launch the residual flames, Rushed to the forefront of the battlefield in an instant.

More than 30 vice-chairmen such as Zhuojiu, bitter love for half a life, Xia Yuwei, Old Man Elderly, and Tian Yao were leading the team and rushed, and suddenly they saw Lu Yang appearing in front of them, and everyone smiled.

“Boss, Green Water Ghost hasn’t brought anyone back yet. It looks like he’s entangled by Ono and can’t get away.” Zhang Zibo said.

Lu Yang said, “I would like to thank Ono a lot, this time I must give Green Water Ghost a deep lesson.”

In the last life, Australia always confronted Huaxia, and also acted as a running dog for American and British players. At that time, Huaxia’s foundation had been hollowed out by Liu Jie. With Tianyao’s efforts, they still could not stop the invasion of foreign players.

In order to prevent Australia from thinking about Huaxia in this world, Lu Yang prepared to hurt Australia first and let them know what it means to be a strong man.

“If you find enemy invaders, you cannot let them in.” The guard shouted loudly.

There are more than 30,000 npc fighters defending in the main city, and each of them is a level 100 elite. They rushed out of the city and quickly collided with melee teams led by Zhuoju and others.

“Fast magic, magic.” There are few Australian players defending the city, just a few people guarding the city to release spells.

“Hei Yan, order the mage to release the secondary forbidden spell, I want to kill all the npc defenders in a wave.” Lu Yang shouted.

Heiyan nodded, and said loudly, “Forbidden Mage Team is ready.”

More than 10,000 forbidden mages chanted a spell at the same time. After 30 seconds, more than one secondary forbidden spell fell simultaneously, densely falling near the gate, from the city to the city. Outside the city, nearly 30,000 npc soldiers crowded in the vicinity were killed.

“Remnant Flame”

A fire shadow emerged from Lu Yang and flew to the city instantly.

“activation”

A red light flashed, and Lu Yang appeared on the city’s head. There were just over 30 players in front of him.

“Flame Storm”

“Blazing Bird”

“Resistant Fire Ring”

“Meteorite Impact”

With a set of skills, with more than 40,000 French injuries, Lu Yang easily killed more than 30 of these people.

“Kill him, he is the chairman of Huaxia.” A Paladin ran over invincible aura.

“The Sun Fist”

Lu Yang punched his paladin with his left hand and flew it down to the city. The other 10 players who followed him rushed to death and died.

Lu Yang looked around, and there were no enemies. He pointed to the city and shouted, "All enter the city, plunder, attack freely, Zhuoshu, Tianyao, and Xia Yuwei, and bring their elites to the Duke's Castle with me."

"Yes." Zhuoju answered with Tianyao.

The three vice-chairmen, each with their 300 elite Iron Brothers players, quickly separated from the queue of players rushing into the main city, and jumped to the wall with flying claws. Soon, 900 people gathered at the city head.

Lu Yang pointed his finger at the Duke's Castle in the distance and waved his hand, and 900 people ran without hesitation towards the hall.

There were a lot of stalls set up by Australian players along the way. None of the elite players killed them, and they quickly landed under Duke's Castle.

"There are intruders, protect the Grand Duke," the Captain of the Elite Guard shouted.

"Hidden hit" Han Fei suddenly appeared from behind the captain of the guard, and two daggers were inserted into the head of the guard at the same time.

"5000000" (10x critical strike)

This is the effect of the level of killing the gods that has risen to level 5. The formula for hitting npc is not the same as that for hitting people. This blow is similar to the burning formula of heartburn.

The blood of the captain of the guard was destroyed a lot, followed by Mu Yu and more than 30 players who held the heart of the god, the totem of the god, and the godhead used their skills. When Lu Yang attacked, he fell to the ground.

After losing the captain of the guard, the remaining members of the guard were quickly killed by people such as turbid wine.

“It’s that simple,” Han Fei said.

Lu Yang smiled and looked simple. That’s because he knew the way to play. If he wanted to break into the duke’s castle, he had to kill the captain of the guard. Because the captain of the guard had an aura, he could add 2000 physical defense and magic defense to the remaining soldiers .

After killing the captain of the guard, the aura disappeared, and the rest of the soldiers easily killed.

“Go to the Chamber and kill the Duke.” Lu Yang said.

Every main city has a duke. Killing the duke will cause all shops in the city to become ownerless. Lu Yang can immediately sell these shops.

Although there are not many players in Australia, the value of Australian dollars is higher than that of Huaxia Credits. One Australian dollar is equal to 5 credits.

Even if it is only 100 million Australian dollars, it will allow Lu Yang to earn 500 million more credit points, which can also make up for the losses of the previous war.

You are prompted to find the Chamber

Lu Yang led the crowd to a hall and saw a 3-meter-high npc looking like an elven clan walking back and forth.

Estrant (Lord)

Level 100

HP 6000000000/6000000000

Chapter 1009 - Next 16 cities

“Foreign enemies, you will be punished the most severely.” Estant shouted angrily.

Lu Yang said, “Kill him.”

“Yes.” Several players with artifacts swarmed up and attacked the lord.

Lu Yang and others, who are all artifacts, are now very easy to kill the blame. In less than 5 minutes, the Grand Duke of Astoria fell to the ground.

The system prompts the Huaxia Guild Brotherhood to temporarily gain control of Australia’s Ocean City.

Lu Yang opened the control interface and sold more than 30,000 shops in the city. At a time, all the items in the shops fell down, and the players of the Brotherhood Brothers quickly picked them up and put them in their backpacks.

“Boss, how much did you sell?” Xiao Liang asked excitedly.

“A \$ 20 million.” Lu Yang said.

“Haha, it’s a big profit.”

“This game is so cool.”

...

Everyone on the field is very excited. This is only the income of a main city, or a remote main city. If it is the main city of the central city, it can sell more money.

The system prompts Archangel to arrive in an hour. Please ask the Brotherhood players to evacuate as soon as possible.

The system determined that the damage caused by the Brotherhood of the Iron Blood to Yuanhaicheng was beyond the scope, and the system defense function was turned on.

Lu Yang said, "Withdraw, all the staff members will withdraw from Ocean City."

More than 30 vice-chairmen issued orders, and more than 30 units were quickly evacuated from the main city. When they left, they only left a rundown, as if the city had been hit by a tornado, it was everywhere. Broken tile.

Outside the city.

Lu Yang stood on the high platform and looked at the excited 3 million people in front of him. He said, "The war is not over. Label your storage bags and put them on the ground. All of them are divided into 6 lanes. I will take them all the way to attack Xiafei City. , Tianyao attacked Bohr City all the way, Liangyun took the sea soul city all the way, Pride Wanzong took the grape city all the way, Zhou Tianming took the free city Mandolian all the way, and the muddy wine took the elven capital all the way, then Along their respective lines, push past. "

"Yes," everyone answered.

Since the number of enemies in the middle of the night is scarce, there is no way to form combat effectiveness, and Lu Yang does not need to bring everyone together.

More than 3 million brothers in the Jagged Brothers immediately put down their equipment, followed the previously assigned team on the battleship, and logged in to the Australian server inland from 6 directions. Tu Feng took the logistics team to organize the player's equipment and give it to all Players do a complete logistical job.

Lu Yang's team was composed of Xia Yuwei, White Lion, Half-Life, Sun Yu, and Jiang Ze, each of whom brought 100,000 people.

When the ship docked, Lu Yang waved his hand and rushed into Xiafei City.

"Sure enough, with so few players, priority is given to emptying npc fighters." Lu Yang shouted.

The resurrection time of the npc soldiers is 12 hours. Players are resurrected only for an instant. There are less than 200 players staying in the city of Xiafei City. This is still the player who played the copy late at night. I saw hundreds of thousands of brothers People, these 200 people ran away with great interest ...

Lu Yang easily entered the city, killing the grand duke in the castle to gain control of Xiafei City, sold all the shops in the city, and added more than 30 million Australian dollars.

"Continue, the next main city." Lu Yang said.

...

On the other side, Lu Yang continuously broke through the main city. On the other side, Ono also found out this situation. He did not expect that he was going to become the backing of Lu Yang.

"It won't work like this." Ono frowned.

"What should we do?" The vice president Quan asked.

"The army was divided and attacked, and like Lu Yang, it was divided into six teams. Even if one team was ambushed, the other five teams could capture the main city." Ono said.

He was backed by a battleship. If he attacked along the shore, the Green Water Ghost would not dare to split his defense.

“Good idea, I’ll arrange it.” Quan also said.

On the battlefield, Japanese players who have already invaded the main city began to retreat in an orderly manner, leaving the battered green water ghosts a little scratched.

“Strange, how did the enemy retreat?”

“Did they retreat when they knew it?”

“we won?”

Australian players showed a grateful expression, but at this time, more than 2 million Japanese players changed to mounts, and under the cover of the battleship, they were divided into six troops and ran to the other main cities along the coast.

“It’s over.” Lushui’s feet were soft and almost stood still.

Not only him, but also vice presidents such as Iron Sky, they knew that they could not defend.

“Forget it, we won’t fight out. Let’s defend it in place. It’s not bad to be able to defend this main city.” Green Water Ghost said.

“But Lu Yang broke the 7 main cities in the Elves and is attacking the next main city. We must block them.” Shouted the leader of the army.

“What block? The Japanese side is divided into six units, and Lu Yang is also the six units. We have only 2 million people.” Green Water Ghost did not know what to say.

“The problem now is that Koizumi has 300 Tier 5 warships for gunfire support. You know how powerful the Tier 5 artillery is.”

“Where is Lu Yang? We can hit him.”

The steel sky said, “The Lu Yang side brought more than 30 artifacts. It was clear that they were going to fight against us. There were only 10 artifacts on our side. There were 1 million fewer people than them. No morale. No way to fight. “

This is what the Green Water Ghost wants to say, but he can't say it. He can only let the steel sky speak out. Even though there are 10,000 dissatisfied in his heart, now Lu Yang's powerful strength is in front of him. ability.

A group of players in the Australian Water Ghost Army calmed down when they heard the analysis of the steel sky, and the scene became quiet in an instant.

“I knew that, why go to China?” I don't know who said this.

The green water ghost's face turned green on the spot, staring at the players, but he didn't know what to say.

“Bad boss, Lu Yang knocked down all the 16 main cities of the Elven clan, and now he came towards our clan.” A player suddenly ran over and said in panic.

“What?” Lushui stood up and scolded “Lu Yang even wanted to attack my people?”

“What's going on?” Steel Sky asked.

“The Brotherhood of the Iron Blood was divided into 2 units from 6 units. One was led by a player called Tianyao to break into the Orcs. Lu Yang took the other to break into the Terrans. He has just arrived at the border city of Carter. The report from his staff.

Green Water Ghost opened the map and looked at the main city of the elves and the main city of the borders of the human race, Carter, full of archangel icons. He was thoughtful.

The steel sky said, "Lu Yang's play is not just for plundering. I suspect he has the idea of playing against our closed country in Australia."

The green water ghost suddenly looked at the steel sky and asked, "Does he have this strength?"

There is a player in the national war. If more than half of the main city of a country is broken by the enemy, the player in that country has the right to vote to block the server entrance so that his country will not be attacked by other countries.

If players in that country do not take the initiative to blockade, when all the main cities of the country are broken by the enemies and all the kings of the three races are killed, the country will automatically enter a state of seclusion and seizure for a month.

This time is a very deadly time. The national war is started. Although it is a headache for many countries, it is also a good opportunity for players to communicate with players from other countries and quickly gain money and strength.

If the country is shut down for one month, then this country is tantamount to being excluded from the mainstream of the world. After one month, the country will open up, and the alliances of the countries have already formed. Basically, the countries that have been shut down in this way can only do so again. Jointly attacked by various countries to become broilers in other countries.

"It must not happen." Green Water Ghost said in horror. He was sweating all over now. He couldn't imagine that Lu Yang had such a thought.

"Call the presidents of the major guilds quickly. We must unite. We must not let Lu Yang succeed, otherwise we will be Australia." Shouted Green Water Ghost.

He didn't say a word. Not only was Australia over, but his guild was over. The 48 main cities were blood-washed. The man must be the green water ghost. If he did n't want to sneak attack on Huaxia, how could it cause such a big one? Woe, he can't imagine how everyone on the full server blamed him.

The steel sky and other vice presidents immediately contacted the domestic powerful guilds, but what time is it, 4 am Australian local time!

Players have already slept to the deepest time. Before the green water ghost unified Australia was hard hit, few domestic guilds did not hate him, although the presidents of other guilds did not want to see Australia killed, but their guilds I was beaten, and I didn't have the ability to help.

Just as they kept calling and contacting, Lu Yang successfully invaded the main city of the Australian ethnic border, and the troops expanded again, divided into three parts, and attacked with full force.

On the other hand, Ono played more cautiously. Just after laying down 6 main cities of the Orcs, while they were gathering outside the city, Quan also came to Ono.

"My Excellency Ono, I just received the news, it seems that Lu Yang intends to reach the closed country of Australia." Quan also said.

"Oh?" Ono smiled and said, "It's so aggressive, I look conservative."

Izumi also said, "Sir, I think we should exert our cherry blossom morale and attack with all our strength."

Ono nodded and said, "It makes sense, how can Huaxia be compared with the Japanese nation. I'm really conservative, and ordered the troops to attack with all their strength."

"Yes, attack with all your strength." Quan also issued an order, six troops scattered among the orcs, launched a full charge forward.

In the history after World War I, there was such a period of time that Japan eliminated the main naval force of Tsarist Russia, so that Japan received due respect in the major powers.

In order to prevent the outbreak of World War II, a joint agreement was signed between the countries of the world. In terms of the proportion of warships to be built, Britain built 4 ships, Germany built 3 ships, and Japan was stipulated as 3 ships.

At that time, Japan was regarded as a par with their world powers at the time. Unlike now, Japan is a small projectile country. 20 earthquakes worldwide occur here a year, and ordinary people can survive in pursuit of life. Go on.

“Sir, I think we should take the initiative to contact Lu Yang.” Quan also said.

“Why?” Ono asked.

“If we attack the Orcs with all our strength, we must collide directly with Lu Yang’s 1.5 million main forces. I think our goal this time is to plunder Australia, not to fight Lu Yang on Australian soil. The country is not good.” Quan also said.

Ono nodded and said, “I also have this idea. I wanted to wait for Lu Yang to come to me, but now it seems that this arrogant Chinese man does not understand the truth on the battlefield. In this way, you contact Lu Yang for me , I talk to him. “

Quan also nodded and found the Foreign Liaison Department of the Jagged Brothers Alliance through the official contact phone. The Liaison Department quickly passed the news to Tu Feng.

“You said Ono wanted to talk to me?” Lu Yang smiled.

Tu Feng nodded and said, “The call from their first vice president, Quan, is probably because they are afraid to run into Tianyao’s team.”

Lu Yang said, “Yes.”

Tu Feng answered, and soon the two sides entered a special space.

The light flashed.

Lu Yang appeared in a room full of traditional Japanese style. Ono stood aside, saw Lu Yang, bowed and greeted “Chairman Lu Yang, long praised.”

Lu Yang smiled and said, "It's most comfortable to talk to so many foreigners."

No matter how westernized Japan is, after all, his bones have the traditional Tang dynasty genes, which they can't change in their lifetime.

Ono didn't understand what Lu Yang said, and bowed again and said, "Thank you President Lu Yang for the compliment. I found President Lu Yang this time, hoping that the two of us will not misunderstand."

Lu Yang asked, "What's wrong?"

"Our two teams are on the orc land in Australia. I don't want you to have any misunderstandings here. If you encounter problems, I hope to have a peaceful exchange." Ono said.

Lu Yang sighed and said, "Ono, you are not very authentic."

Ono froze, and did not expect that Lu Yang's words would turn around, and instead of telling him about the two troops, he would talk about the character of others.

"President Lu Yang, why did you say that?" Ono asked.

Lu Yang recalled a picture of Zhuge Liang's scolding of Wang Lang in the TV Drama Three Kingdoms. At that time, when Zhuge Liang went to the Northern Wei Dynasty and the two armies fought, Wang Lang of Wei Guo scolded Zhuge Liang for not knowing the current affairs, and did not conform to the fate of God, posing a bunch of truth indicates that Wei Guo should have replaced the Han Dynasty, and his words were justified and justified, as if it were the case.

When everyone thought that Zhuge Liang couldn't answer, Zhuge Liang took a different approach, not talking to Wang Lang, using physical attacks, scolding Wang Lang's ancestors for eighteen generations, and angered Wang Lang.

Every time I think of this paragraph, Lu Yang wants to laugh. He said to Ono, "Australia attacked me with the other three countries, and I lost more than 400 Class 5 warships to win. It should have been a guild in Australia to harvest the results. You suddenly interjected.

Now I'm calling, but you do n't want to leave, and ask me not to hit you. Is n't this a bit excessive, and you ca n't be like this, your Japanese nation is not this nation that takes advantage of others and steals the fruits of victory for others "

It's better than hurting people. Most people ca n't compare to Lu Yang. The scolding war in the previous game is also a method of warfare. The two sides have the same strength. Whoever advances and loses depends on who can scold the opponent. Lu Yang But masters in this area!

Ono's attack on Huaxia was indeed a bit inauthentic. He guessed that Lu Yang would hurt him, but did not expect that when Lu Yang attacked Ono himself, he brought the Japanese nation with him, which made Ono's sense of honor and Bushido intolerable.

"Our Japanese nation is an upright nation. If this offensive were not for us to block the main force of the Green Water Ghost for you, how could you have so easily laid down the 16 main cities of the Elves." Ono angered.

Lu Yang said, "I can fight without you, but just waste a little time, but you took away tens of millions of Australian dollars that belong to me. You don't want to fight with me in Australia, do you Show some sincerity. "

How could Ono be willing to return tens of millions of Australian dollars to Lu Yang, he meditated, "President Lu Yang, in order to express my apologies and the dignity of our nation, I am willing to take a step back. I only need 6 of the orc's main city , Those 10 belong to you. "

These 6 are the places where Ono's army is about to arrive. Lu Yang wants to stop and ca n't stop it. He opens the map and casts the screen to the ground, and says, "Let's go, we have a great country in China. I do n't want any more money, but I ask you to attack the Rams City that Green Waters now defends. "

Ono frowned and said, "President Lu Yang, I have made major concessions. After finishing these 6 main cities, I will withdraw from Australia. The matter between you and Green Water Ghost has nothing to do with me."

Lu Yang smiled and said, "It's not so easy to take advantage of it."

Ono proudly said, "President Lu Yang, we have 2 million players."

Lu Yang said, "It happens, I have 3 million people, and there are more than 500 Class 5 warships."

"More than 500?" Ono asked in surprise. "Don't you all get damaged?"

Lu Yang smiled and said, "My level 5 ship is ruined. But there are more than 500 ships in Thailand, Myanmar and Vietnam where my ally is. Now it seems that we have arrived in Australia. Behind your fleet. "

Ono suddenly looked at Lu Yang and said, "You threaten me."

Lu Yang sneered and said, "Yes, that's threatening you. It's 2 hours before dawn. After the Australian players are all online, I can hide to the shore. With the cannons on the ship, why can't you press me?" Believe it or not, I will sink all your warships now and you will not be able to return to Japan. "

Ono was stunned. Originally, he suspected that there was Huaxia behind Thailand, Vietnam, and Myanmar. Otherwise, the navies of these three countries had no reason to attack him day and night, and it has now been confirmed.

In the face of Lu Yang's threat, Ono thought for a long time, and finally lowered his head and said, "Chairman Lu Yang, I will do what you ask, but I hope you can keep your promise."

Lu Yang smiled and said, "Of course, Chinese people always keep their promises."

Chapter 1010 - Australasia

The light flashed, Ono left the special space, and Lu Yang left.

“Boss, what does Ono say?” Tu Feng asked.

Lu Yang smiled and said the results of the negotiations, which surprised the team’s Tu Feng, Jiang Ze and others.

“How did you talk about it, Ono was willing to help us fight Rams City?” Jiang Ze asked.

Lu Yang said, “Strength is strong, k is with the Three Kingdoms fleet behind Ono, he dare not agree.”

It is also interesting to say that this nation of Japan is like this. If you are better than him, he can really bow to you. If you are not as good as him, he can use all kinds of means to you.

“It’s great, so that we can really wipe out the whole of Australia.” Said bitter love for a long time.

Lu Yang said, “Notify the teams to continue the attack, and they must capture the entire Australia before 7 am.”

“Yes.” Tu Feng immediately sent messages to the vice presidents such as Tian Yao and Zhuo Jiu.

Worrying about the news of Zhou Tianming and Zhuoshu who met the Japanese, they no longer care about it. They galloped and attacked the main city of the orcs, while Lu Yang continued to attack the main city of the people.

An hour later, the Japanese side Ono sent a message to inform Lu Yang that his team had captured 6 orc strongholds and was returning to Rams City for siege.

After another hour, the six teams of the Brotherhood of Brotherhood gathered together, appeared on the north side of Rams City, and formed a pinch attack on the main city with Japanese players on the south side.

At this time it is 6 am, many Australian players are online, but the number is still small.

Green water ghost stood on the central tower and looked at the Chinese and Japanese players on both the north and south sides. He was scared and didn't know what to say.

Except for the one he defended, all 47 main cities in Australia were captured.

If this fortress is captured again, what is waiting for him will be the scolding and hatred of all Australian players.

His guild disintegrated in this atmosphere, he will always be nailed to the pillar of historical shame. Whenever players from all countries in the world bring up the national war, he will be mentioned by everyone as a typical example, because Australia is the first Hit the retreat.

Under the north gate.

Lu Yang watched the steel sky panic and rushed to the north wall with more than half a million people to defend, with a cold smile on his face.

"The whole army is ready." Lu Yang raised his right hand.

More than 30 vice-chairmen such as Zhuojiu, Zhou Tianming, Baixi Sanxiong, Xia Yuwei, Jiang Ze, and Tian Yao went to the front at the same time, and each person led his own 100,000 people to pose aggressively.

The steel sky has not been equipped with defense. Seeing Lu Yang's gesture, he knows that the situation is over. This is a crushing battle of absolute strength. As a small group and poorly equipped party, they do not have any resistance capital.

"Iron Brotherhood." Lu Yang shouted.

“Kill ~!” The first wave of 500,000 people launched the group charge.

“Forbidden Spell Masters.” Lu Yang shouted.

“Aim at the city head and freely release the curse.” Hei Yan shouted.

More than 10,000 cursed mages chanted the spell at the same time, and when they came to the city under the turbid wine, the curse fell on the head of the city.

This is a war without suspense, with 500,000 players completely unable to resist the attack of the Jagged Brothers Alliance. Within half an hour, the city fell.

The Brotherhood of the Iron Blood invaded the city. On the other side, Ono also captured the city wall. The war changed from a siege war to an annihilation war.

Lvshuigui furiously led the team to fight back, but did not know who to fight. Within half an hour, the Shuigui army was compressed into the safe zone.

Lu Yang took his elite troops across the city wall to hide from the crowd and came to the King’s Hall. As before, the King was a crispy skin in front of more than 30 artifacts, and was killed in the Hall in 5 minutes.

The system reminded that the whole of Australia fell, and the king was killed. Starting today, the full service will be protected for one month.

At this time, it was just eight o’clock.

Lu Yang quickly sold all the shops in the city, saying “the guild players alternately retreat, the muddy wine sets the first line of defense, Tianyao sets the second line of defense, and Zhou Tianming the third line.”

“Yes.”

The 3 million people on Lu Yang's side and the 2 million on Ono's side have killed the Water Ghost Army around the two safe zones, and almost no one has resurrected. In the face of Lu Yang's calm departure, the Green Water Ghost has no way to do anything.

"Lvshuigui, I'll give you a lesson this time. The next time you dare to attack Huaxia, you will not come to a guild of the Jagged Brothers Alliance, but tens of millions of players in Huaxia." Lu Yang left a sentence and took the fleet left.

One month later, the number of players who reached the level 100 of Huaxia is at least 10 million, which is equivalent to the average number of online users in Australia in a day. At that time, you do not need to choose at night, and you can rigidly harden the entire Australian server during the day.

The Green Water Ghost has dared not speak, and he has been withdrawn from the game by reality. When the entire Brotherhood of the Iron Blood Brothers boarded and left, it was already more than 9 o'clock.

Most Australian players are online, but what they see is the ruined main city and the corpses of players everywhere, as well as a lot of garbage equipment and potions.

Good things have been taken away by the Jagged Brothers Alliance and Ono in Japan, and the rest is trash they don't want.

"Damn, what is going on here, how could it be like this."

"What? Last night, Green Water Ghost attacked the Brotherhood of the Iron Blood Brothers, but Lu Yang brought 3 million players into Australia? They slaughtered all our main cities?"

"How can this happen, Greenwater Ghost, get out, why triggered the retreat, one month, how to do business."

...

Drooling of server players across Australia can drown green water ghosts.

On the battleship.

The players of the Jagged Brothers League are celebrating wildly. This time, everyone has made a profit. At least they have earned tens of thousands of credit points. With luck, they have obtained hundreds of thousands of items.

Lu Yang made more and swept across 37 main cities in Australia. Although the rest were taken away by Ono, these 37 main cities brought Lu Yang 600 million Australian dollars, not only making up for the naval battle Lose and make more money.

“It’s a pleasure to fight,” the White Lion laughed.

“The boss is amazing.”

“Happy to win.”

...

Lu Yang looked at the excited expressions of his men, and he was also very happy, saying, “This time we made so much money, let’s all share it. Three hundred million Australian dollars are used to reward you vice presidents, legions, commanders, and captains. And captain. “

“Boss, be generous.” Tian Yao said.

Three billion Australian dollars is equivalent to 1.5 billion credit points. Although there are many managers in the entire Brotherhood, the 1.5 billion points is a very rich bonus.

Lu Yang said, “Tell my brothers, there are still many opportunities for us to capture the country in the future.

“Yes.” Tian Yao and others said excitedly. Obviously, Lu Yang was going to take them to continue making money.

So far, the Brotherhood of the Iron Blood has not failed. As long as Lu Yang is present, they know that they will win the battle.

“Will the Green Water Ghost come to us for revenge in a month?” Jiang Ze asked.

Lu Yang said with a smile, “No, believe me. Within three days, the Water Ghost Guild will disappear forever. This guild that nailed the whole of Australia to the pillar of shame will definitely dissolve automatically.”

Xia Yuwei said, “In the past, the 48 main cities in Australia were under the control of Greenwater Ghosts. This time we swept not only destroyed all the main cities, but he also swept his fortress. Now Greenwater Ghosts is a poor light egg, and he has not Ability to support the guild again. “

Everyone nodded.

“Let him always want to trouble us, deserve it.” Sun Yu said.

Lu Yang laughed, indeed, deserve it, people are doing it, heaven is watching, heavenly law revolves around unhappy revenge, and the crimes committed by the green water ghosts of the previous life are to be borne by his life.

“Look at it, this world is going to be shuffled again.” Lu Yang said.

“What do you mean?” Xia Yuwei asked.

Lu Yang said, “The Huaxia server has the third largest population in the world. In the future, no one will dare to surrender our Jagged Brotherhood. Even Japan and South Korea, we must surrender to us again. Otherwise, we just rely on population advantages. , You can crush them. “

Among the most populous countries, Africa has the largest total population, and they are all in one server, so they are counted as one country, the largest population country, and the second is India. The population is hundreds of millions more than China. It depends on the advancement of medical technology and the consequences of their country's unrestricted fertility.

In this war, Lu Yang always paid attention to countries such as India and Indonesia. At present, Slade and Angel Sword and others have withdrawn from these countries without causing too much harm, especially India. After all, the population is large, only 8 main cities were destroyed.

In the future, China's first war enemy is India. Only if India is defeated, China will have the ability to go global. As for the rest of the small Asian countries, they will either depend on India or China.

Countries with small populations such as Japan and South Korea can only hold groups together, but Japan and South Korea are feuds. Even if the two do not fight well, it is impossible to hold a group. The end result may be that Japan continues to stay in the group. Skyeye Alliance, South Korea seeks US asylum.

The reason for this is all because of Lu Yang. Without Lu Yang ambushing the Netherlands and France three times in the hot spring city, the level of the Iron Brotherhood players cannot reach 100 so fast, and the equipment is unlikely to become a dark gold sleeve. .

Now the player strength of Huaxia server has risen, from a poor and backward to a superpower that no one can afford, Lu Yang is extremely successful.

At noon, Lu Yang took the fleet back to Huaxia Hot Spring Island. The players of the Brotherhood of the Iron Blood disbanded in place, rested offline, and the three-nation fleet, such as k, escorted all the way, returned to their country after saying goodbye to Lu Yang.

Lu Yang also quit the game and slept for a whole day. When he went online that night, he found that the whole world was a sensation.

International forum.

"The Chinese are here."

“Terror Chinese.”

“How to prevent invasion by Huaxia, small countries should form alliances.”

...

Players from various countries are discussing the issue of the Brotherhood of Iron and Blood sweeping Australia, and more discussions are about how to avoid such doom in their own countries.

“Energetic enough,” Lu Yang muttered to himself.

Tu Feng called and said, “Boss, guilds in several countries want to form an alliance with us. What do you think?”

Lu Yang said, “Unaligned, three countries are enough for k, and the rest are broilers. I can’t hit them before, who has the time to form an alliance with them.”

Tu Feng asked with a smile, “Boss, you have a plan.”

Lu Yang said, “We can build all our ships with money. We can’t afford it without relying on them.

A 7-tier ship needs 5 million credit points, a Thor cannon on board needs 3,000 credit points, and a ship can drop 160, all of which is money.

Tu Feng said, “That’s true.”

Lu Yang said, “You slowly think about how to deal with them, I believe in your strength, I go for a walk.”

“Okay.” Tu Feng’s heart was touched. For two years, he knew his strength and was able to sit in this position so stably, not because he was capable enough, but because Lu Yang gave him full trust.

How many mistakes he has made in the past two years, he can’t count himself, but Lu Yang just trusts him and is willing to use him. So many people want to replace him, but they can’t do it. This is no matter how much people buy him, The reason why Tu Feng is also not interested.

“By the way, you have to draft a document, and follow me tomorrow morning to recruit players. This time to make money, I want to build a large number of Hunting Mouse and Ocean Overlord, and at least 2000 talents will be recruited.”

“So many people?” Tu Feng was stunned.

Lu Yang said, “Of course, I want to form an invincible fleet and sweep the world.”

Tu Feng smiled and said, “Okay, I’ll draft it.”

Lu Yang closed the intercom, and he came to the island of Blackbeard and reached the Pirate Kingdom through the portal.

The light flashed.

Lu Yang landed on the ground, and the surrounding pirates npc saw his respectful eyes.

“Dear Pirate Duke, hello.” NPCs on both sides greeted together.

Lu Yang froze, he looked at his pirate value, and found that the island badge he had received before had automatically turned into ice blue. This was a badge that was only two levels lower than the Pirate King. He understood that this was Hit the rewards given by the Australian retreat.

“Lord Yang, the King of Pirates invited you to Pirate Castle.” A npc with a western white gentleman’s hat came over and said.

“Okay, I’ll pass.” Lu Yang I did not have any intersection with the Pirate King, but he knew that none of the tasks released by the Pirate King was a good reward. He was curious about what tasks the Pirate King would give him.

Entered the pirate castle along the avenue, and Lu Yang met the pirate king.

King of Pirates (Lord)

Level 160

Qi and blood 30000000000/30000000000

This is a super lord with so much blood that makes anyone feel desperate. There is almost no possibility of killing. Even at level 200, there is no theoretical possibility to kill the pirate king, because the pirate kingdom is a lord of 160. Too much.

“Duke Luyang, welcome to my castle.” The Pirate King stood up from his throne and said warmly.

“Hi the pirate king, hello.” Lu Yang returned the gift.

“I have heard of your deeds. You are qualified to be the Duke of the Pirate Kingdom. I hope you can continue to work with us to counter those hypocritical navies,” said the Pirate King.

“Of course, if you have a task that I need to complete, I am willing to help.” Lu Yang said.

“Great, I do have a task for you to do,” the Pirate King said.

The system prompts you to accept the pirate king’s sniper mission. Damn General Amoro, he killed a lot of our pirates. Now he is in the British waters and killed him for me. If successful, I will reward you 6 Class Magic Cannon-Doomsday Spark.

Lu Yang made a strong fist, and he was looking for the construction drawings of Doomsday Spark. The hunter was expensive for a level 7 warship, but he could not be equipped with a level 7 cannon. At most, it could only be equipped with a level 6 cannon. Of the first-class cannons, the most suitable for the Hunting Mouse is Doomsday Sparks. This time he came out to find this cannon, but he did not expect to find it so soon.

“Wait for my good news.” Lu Yang turned and walked quickly out of the pirate castle, and came to the sea. He found a pirate ship and drove towards the English waters.

Npc’s pirate ship can be disguised as a merchant ship. After all, it is a pirate ship, and disguise is normal.

Before going to the British waters, Lu Yang checked his equipment. Now he has a water body. After two days of war, Lu Yang has obtained more than 5 million national war points, half of which was replaced by him. With experience value, his water body level jumped from 80 levels to 100 levels.

At this time, the body of water was equipped with the Trident of the King of Neptune, and the attribute of the single body was higher than that of his body.

This time it is a naval battle. Lu Yang needs to use his hydration body again. Basically, as long as there is hydration body, it is enough for Lu Yang to easily kill this admiral called Amoro.

Four hours later.

Lu Yang entered the UK server.

You are prompted to enter British waters

Lu Yang’s pirate ship has been disguised as a boarding ship, and the pirate chief on board said to Lu Yang, “According to what we have received, Admiral Amorrow is near the soul island on the west side of the British waters.”

“Going to Soul Island Lu Yang said that he moved his body and prepared to control the two bodies to fight.

Soul Island.

Fleets of two countries are fighting here, one of them is a British player, and the other is an Argentine player. Not only are they fighting at sea, but the two sides are also fighting on the island.

When Lu Yang arrived, he happened to see that the Argentine side was in a weak position. The fleet was being beaten by the British and was gradually escaping to the distance of Soul Island. However, there were still hundreds of thousands of Argentine players on Soul Island.

“It’s more lively here. I can’t think of Argentina being so upset at this early stage. We must fight against Britain.” Lu Yang said cheerfully.

Soul Island is located in the outermost waters of the United Kingdom. It was originally irrelevant to Argentina, but the problem is that the island is on the outermost side of Britain. Argentine players naturally think that this island belongs to them just like their horse island. Not British.

After all, Britain and Argentina fought real fire in that island battle in the year, and Argentina suffered heavy losses.

Chapter 1011 - Edward again

Because they fought in British waters, British official patrol ships also participated in the war as they passed by.

Admiral Amoro’s Tier 5 warship is among the British player fleet that hunts down the Argentine fleet.

Lu Yang looked at the warships in Argentina. He felt that it was an old acquaintance who came to attack, and Andres who had cooperated with him in the global competition last year.

He tried to call Andres's pager, without waiting for two beeps, the call was connected.

"Damn, withdraw from this area of the sea, don't entangle them here, get rid of the British official npc battleship and then fight the British guy."

On the other end of the phone, Andres's shout came to Lu Yang's ear. Andres didn't notice that the phone was from Lu Yang. He thought it was on another ship.

"What's the matter, say it quickly," Andres shouted.

Lu Yang smiled and said, "It's so fierce that you fought on Soul Island."

Andres heard Lu Yang's voice for a moment, looked at the name of the interphone, and found that it was Lu Yang. He was surprised and asked, "Why did you call me? fight?"

Lu Yang said, "I am on the soul island."

"Fuck, help me," Andres said excitedly.

"Calling you is to help you here. Add me to your team. I will help you repel the British Navy fleet first." Lu Yang said.

"OK." Andres quickly added Lu Yang to his team.

Lu Yang saw the system prompt, he said, "Let your warship temporarily stop running, and fight the enemy for 2 minutes, giving me time to approach the enemy ship."

“No problem,” Andres yelled, “Stop back and do them.”

Lu Yang laughed, and Andres’s character is always like this, just do it, it’s irritable.

He jumped into the water, turned into a state of elemental water, and swam toward the British fleet in stealth. Within 2 minutes, he came near the British fleet.

“Stupid Argentine, dare to stop, then I will completely destroy you.” Edward said sarcastically.

Lu Yang was near the British fleet and heard Edward’s voice. Lu Yang was laughing again. I never met a familiar person again, but this was an enemy. He took out the trident of the Emperor and uttered a spell.

“Assassination of Water Mist”

With the British fleet as the center, the entire area of 5000 meters was covered by fog.

“Damn, why is it fogging.”

“This is not a normal mist, it is an assassination of water mist.”

“Some people in Argentina know how to assassinate water mist. Everyone pays attention to defense and be attacked by the enemy.” Shouted Edward.

The players on the Argentine side were also embarrassed. In the face of such a heavy fog, no one knew what to do. Andres called Lu Yang and said, “Man, I can’t see anything.”

Lu Yang said, “Listen to me, the flagship gun is aimed at a 70-degree angle, with a distance of 174 meters. The gun of No. 2 ship is aimed ...”

Lu Yang was lurking under the admiral Amoro's warship, and he directed the warship of the Andres side from a distance according to the coordinates of the two sides.

"boom"

"boom"

"boom"

...

The sound of continuous gunfire sounded, and while Edward and others were confused, some players in the vicinity of Admiral Amoro's warships found problems.

"No, the enemy is attacking Admiral Amoro's warship." The nearby captain immediately reported to Edward.

"Retreat, retreat to the soul island, let Amoruo stand for us first." Edward shouted.

Hundreds of warships in the British fleet quickly retreated, and just as they withdrew from the mist, Amoro's flagship was destroyed.

System prompts Amoro to die

The benefit of naval warfare, the warship was destroyed, and everyone on board was automatically judged dead.

Lu Yang looked at his mission and found that it had been prompted to complete it. He withdrew the water mist, threw out the escape dagger, and jumped to the station boat of Andres with a two-step flash.

“Good brother, it’s interesting.” Andres patted Lu Yang’s shoulder excitedly, and this time Lu Yang’s help eased a big crisis for him.

Lu Yang said, “Why are you so desperate, you have to hit Soul Island now?”

Andres sighed and said, “It’s okay. Domestic players are encouraging me to attack the soul island. In front of national justice, I’m okay. If I don’t attack, I may be overthrown.”

Lu Yang laughed and said, “Then you have to be mentally prepared, Britain is not so easily defeated, and there are too many rich people among these grandchildren.”

Andres nodded, and said helplessly, “when do you fight with Skyeeye Alliance, count me as one.”

Lu Yang said, “Still accumulating strength, the Skyeeye Alliance is too strong, and it cannot be won in the short term.”

Andres said silently, “Go and go. I’ll die with the British.”

Lu Yang shrugged his shoulders and launched the Pirate Badge. This is a special ability obtained after becoming the Duke of Pirates, which can be directly transmitted to the Pirate Kingdom.

The light flashed and Lu Yang returned to the castle square. He walked into the castle and saw the pirate king saying, “I have completed the task.”

The Pirate King walked up to Lu Yang in excitement and said, “Pirates in the English waters are chanting your legend. Congratulations, Lord Duke, you will get the blueprint of the doom of the spark.

The Pirate King took a drawing from his backpack and handed it to Lu Yang.

Blueprint of apocalypse

Rank 6

150 damage / 0.01 seconds

Distance 100

Damage Mode Destruction

Destruction damage is commonly known as pure damage. This is an attack method that ignores armor and kills as much blood as possible.

Don't look at this skill's attack damage is only 150 points, but his attack speed is 0.01 seconds, which is converted into actual attack power, which can deal 150,000 damage per second, which is not much different from the 100,000 damage in 5 seconds of Fury of Thor. , But also pure damage, stronger attack power.

The only shortcoming of this cannon is that the range is too close, only 100 meters away. It is almost impossible to enter this range at sea. Without waiting, the enemy's countless cannons gave the warship a second.

This weapon from the previous life has been scorned by players. Later, some people combined the Hunting Mouse and Doomsday Sparks. Players only discovered that there was a high mobility of Hunting Mouse and the super-powerful output of Doomsday Sparks. Super battleship that both Marine Overlord and Marine Fortress fear.

The Hunter has its own magical maneuverability, and can quickly sprint in front of the enemy ship at a distance of 1000 meters. The Hunter is small in size. If it hides in the enemy's head and tail, or on the back of the abdomen, these positions They are all dead ends, which are where the enemy can't attack. At the strongest, a Hunting Mouse killed a Marine Overlord without injury.

"Thank you Pirate King, I will continue to attack countries and make the reputation of Pirate King more respectable." Lu Yang salute.

The system prompts the Pirate King to like you +1

“Very well, go and get me at any time.” The Pirate King returned to his seat with satisfaction.

“Yes.”

Lu Yang returned to the hot spring city of Huaxia using the badge. Just after landing, he came to the abyss fortress by the sea.

Chen Mo was directing the construction of the warship inside. When he saw Lu Yang coming, he greeted him and said, “Boss, according to your request, we are building the Hunting Rat, but he cannot be equipped with a level 7 cannon. Is it necessary to stop first? Continue to build Ocean Overlord? “

Lu Yang smiled. He took the Doomsday Sparks design from his backpack and handed it to Chen Mo, saying “Look at this.”

“The spark of the end, the damage, well, it turned out to be pure damage. As long as it can stand, the output is higher than the wrath of Thor.” Chen Mo said in surprise.

Lu Yang nodded in admiration and said, “Yes, it is indeed a naval warrior. At first glance, I know that this weapon is good.”

“Boss, do you want to equip the doomsday spark to the Hunting Mouse, relying on the powerful power of the Hunting Mouse to fight close?” Chen Mo asked.

Lu Yang nodded and said, “It’s about the same as what you said. How to fight depends on you.”

This game last time was one of Chen Mo’s strongest games. Lu Yang had no money to buy such a warship. Now that he has a warship, he also needs to explore from scratch.

“Okay, leave it to me.” Chen Mo nodded.

Lu Yang then said, "You have to be ready in the near future, and I am going to expand the navy."

"Expansion?" Chen Mo was surprised.

Lu Yang said, "I will build a super warship group consisting of 1,000 Ocean Overlords and 3,000 Ocean Hunters and 30 Ocean Fortresses."

"So many ships?" Chen Mo couldn't believe how much it would take to support it, he couldn't even think.

Lu Yang said, "The time for the decisive battle is coming. I will rush to wipe out the navies of the Skyeeye Alliance before Africa enters the national war."

"Boss rest assured, the naval battle is given to me." Chen Mo said excitedly.

Lu Yang patted him on the shoulder and said, "Come with me tomorrow and recruit the first batch of recruits from various universities in Donghai."

In 2042, according to statistics, there are more than 26 million university graduates a year in Huaxia, while domestic jobs can only meet half, and the remaining people really have graduated and become unemployed.

At this time is the final graduation season of recruitment in November. Early the next morning, Lu Yang brought all the vice presidents including Tu Feng, Chen Mo, Shark, Muddy Wine, and White Lion to a university in Donghai City.

As soon as they entered the school gate, Lu Yang, Tu Feng, and others were stunned. Outside and inside the school gate were full of people and could not enter at all.

"what's the situation?"

"So many people?"

...

Lu Yang scratched his head. When looking for someone to ask, he saw the vice principal sweating out of the crowd and came to Lu Yang and said, "Chairman Lu Yang, don't Sorry, there are too many people. "

Lu Yang asked Tu Feng to publish the news of this recruitment yesterday. It is logical that the school should arrange it in advance, but now it looks like a school issue.

Lu Yang asked with a smile, "What's the situation?"

The deputy principal wiped his sweat and said, "I don't know who posted your news of recruiting professional players in our school, let alone graduates from our school. Graduates from more than a dozen universities around have ran over, and it became like this. Now. "

"I rely on it," said bitter love for a long time, "all came to us."

The vice principal nodded.

Chapter 1012 - Establishing a Naval Realistic Operations Center

"Lu Yang, look, Lu Yang is there."

I don't know who shouted, the students rushed towards the landing sun.

“Fuck, run away.” Lu Yang asked Zhang Zibo to run with Xia Yuwei first, so many people crowded over, not necessarily what happened.

Zhang Zibo reacted and pulled Xia Yuwei to run across the road quickly.

Lu Yang and the others also sprinted towards the outside. What Lu Yang did not expect was that the vice principal also sprinted along.

“Principal, what are you running?” Lu Yang asked as he ran.

“Fuck, so many people will be trampled to death without running,” said the deputy principal dejected.

Lu Yang laughed and said, “We can’t run this way. Is there any place to hide?”

The students who are chasing behind are unable to get rid of.

The vice-principal patted his head and said, “I’ve forgotten the fright. Run with me and go to the back door of the school. I have the key to enter through the back door.”

“Good idea,” Lu Yang said.

The party quickly came to the back door, the deputy principal unlocked the speed, and led the landing sun into the school building.

“Ah, I’m going, I’m exhausted,” the vice-principal gasped.

He looked at Lu Yang and others, and found that everyone was panting, and asked in surprise: “You are not tired.”

Lu Yang and others laughed.

“I do n’t know, we run for an hour every morning.”

“...” The deputy principal was speechless for a while, and he did not expect a group of players to play the game so hard every day, saying: “Let’s not go to the recruitment site, I will open a single room for you to let the security maintain order in advance, and wait for us to finish past.”

Lu Yang nodded and said, “This is the best.”

“Let’s take a rest first.” The vice-principal brought Lu Dingyang and others to the rest site.

More than an hour later, the order of the job fair was maintained, and the vice-principal brought Landing Yang to the job site and saw the students were asked to line up in two rows, and felt relieved.

He was really afraid of problems. If the students were blocked, nothing would happen.

After seated, Lu Yang said to Zhuo Jiu and others: “The requirements have been said before. Players should choose by yourself. The priority is to choose good character. The level is not important.”

Everyone nodded.

“Thirty-five people come in at once,” said the vice-principal.

Thirty-five people came from the Jagged Brothers League this time, except for Lu Yang, who was almost vice-chairman level. The old man did n’t come, but he let the spirits breeze come for him.

The total number of recruits is tentatively set to 3,000, and all members are on board to fight. Many players who thought they had reached level 100 can be selected, but the naval battle does not need to look at the level, only the character and understanding of the ocean.

Soon, the first batch of 1,000 people was selected. On the third day, the second batch of 1,000 people was selected. On the sixth day, the third batch was also selected.

When selecting talents here, on the other side, Lu Yang rented an office complex built in the development zone in advance, and built simple dormitory buildings in the surrounding area for students to live in.

In the evening, Lu Yang brought the muddy wine to the dormitory building for inspection to see if the students were uncomfortable.

“This environment is too bad.”

“Yes.”

...

The complaint came from not far away. Lu Yang walked with a smile and saw several young people sitting together, one of them wearing glasses.

Lu Yang frowned. The boy looked familiar, and asked, “What’s your name?”

When the young guys saw that Lu Yang was here, they were dumbfounded and quickly stood up and said sorry, “Boss, we ...”

Lu Yang smiled and said, “It doesn’t matter. If I were in this environment, I would vomit, but it’s okay, look at the opposite.”

Lu Yang pointed to a 30-storey building under construction and a dozen 15-storey buildings nearby, saying, “Our new office building and dormitory area have not been completed yet. The dormitory area will not be available until at least the year after. , You will do it first. “

Several lads were a little embarrassed.

Lu Yang then asked the person wearing the glasses, “What’s your name?”

The guy in glasses said a little embarrassedly, "My name is Wang Xinyu."

Lu Yang was shocked, he remembered who this person was, one of several naval generals of the last generation of Huaxia. The resume of this product has been superb since childhood, and belongs to someone's child.

"University You are the chairman of the Student Union of 6 departments. You have been a monitor for three years in high school and four years in college. Why do you want to run me as a professional player?" Lu Yang asked with a smile.

Wang Xinyu was a little surprised that Lu Yang knew his identity so clearly, and said with a smile, "I want to try it."

"Okay, I'll give you a chance. During the recruit training, you will be with Chen Mo. He will teach you about naval warfare. After the training, I will look at your performance and reappoint you." Lu Yang said.

"Thank you, Boss." Wang Xinyu said excitedly, apparently, he knew he had a rising path.

"Just rest. You will face cruel training tomorrow morning, but don't get used to it." Lu Yang said with a smile.

The training he arranged was conducted by Han Zhong as an instructor. The remaining instructors were recruited by Han Zhong in recent years. There were children of comrades-in-arms and soldiers retired from the army.

Early the next morning, at 6 o'clock in the winter, everyone was called by Han Zhong and started running in the morning.

"Although" Second World "is just a game, but you want to play well, physical fitness is the first level, you must be strong." Han Zhong's roar echoed throughout the playground.

"I don't know how many people can resist it." Zhuojiu ran in the first echelon, sighing as he ran.

Lu Yang said while running: "They are facing maritime operations. Although the body does not feel dizzy, when entering the game, the real sense of shaking will make many people unable to adapt, and they must exercise well, otherwise they will not be of any use. . "

Everyone nodded.

Lu Yang asked Chen Mo: "How many warships have been built?"

"There are 300 Ocean Hunters and 300 Ocean Overlords."

Lu Yang nodded and said, "Our current naval members are just right. You are going to promote a group of captains out of them. Firstly, they will be assigned to the Hunting Mouse as the captain, and the treatment will be issued according to the captain."

"Okay," Chen Mo said.

Half an hour later, after the end of the exercise, everyone's face turned rosy and sweaty, but there are also some bodies that usually pay attention to exercise without any problems.

Standing on the playground, 3,000 people looked at Lu Yang standing on the podium curiously. When it comes to exercise, everyone refused at first, but they saw that Lu Yang was the first one standing next to him. They were the other vice-chairmen of the Jagged Brothers League. They had no comments and all followed.

Lu Yang looked at the group of people in front of him with satisfaction, and said, "Yes, I insisted on the first day. Follow me in the game. Chen Mo will teach you how to control the warship."

Everyone nodded.

A Marine Overlord has a minimum of 12 people, while a Marine Hunter has only 4 people.

After more than 3,000 people went online, as Chen Mo entered the cabin, it became easy to become familiar with various operating procedures.

One day later, Chen Mo was brought to the sea for training. During the training, some masters will easily show up. During the one-week training at sea, 11 candidates qualified as captains emerged from the 3,000 people.

They seem to be suitable for naval warfare by nature. They are far more proficient at manipulating warships at sea, and even more than some navies who have participated in the war for a long time.

When Chen Mo reported, there were four people who stood out the most. The first one was Wang Xinyu. I realized that this boy loves to play naval battle games.

The second one is called Dong Pengming. He is not tall and has not graduated from college, but his family runs at sea. Like Chen Mo and Shark, he is born to stay at sea.

The third one is called Liu Fangxu. He is thin and tall, with curly hair. He is enthusiastic and funny, but he has real kung fu on hand, and several sea battle tests. He was stronger than Wang Xinyu when it broke out.

The fourth one is Jiang Sijun. She is a girl, but she has the hottest temperament. She is a karate and has a doctorate degree.

Lu Yang looked at Chen Mo and looked at Jiang Sijun's resume. Some couldn't believe it and asked, "Can this girl be so strong? Can she be a naval general?"

Chen Mo nodded and said, "It's really strong."

The big shark laughed aside and said, "Boss, during the simulation exercise last night, Chen Mo lost to Jiang Sijun and laughed at me."

Lu Yang laughed and asked, "Is there such a thing?"

This is unbelievable. Chen Mo's naval strength is ranked high in the world. Who can imagine that he will lose to a female doctor.

Lu Yang then asked, "Your kid won't look after that girl, right?"

Chen Mo blushed and said embarrassingly, "All accidents are accidents."

Lu Yang and Big Shark laughed.

"Shark, let's talk about how Chen Mo lost. This is interesting." Zhou Tianming laughed unscrupulously.

"I'll tell you through this," said the big shark.

Chen Mo quickly went to cover the big shark's mouth, but was helpless but the big shark ran away, and then the big shark told the passing.

It turned out that the female doctor herself was very beautiful. She wore gold-lined eyes, and her hair was tied together after she was hot. She looked high and cold, but on the day of the game, the female doctor took off her glasses, put down her hair, and wore a beautiful little dress. .

Chen Mo was confused at first sight. After losing the first step, she was dismissed and beaten by the female doctor, her face turned grey, and at the end, she was ridiculed by the female doctor.

"A shame." Chen Mo looked silent at the sky.

The big shark laughed, holding his shoulders and said, "Who made your kid okay, call someone a female doctor, and now you will be avenged, haha."

Lu Yang smiled and said, "What is the girl's identity and what did she do?"

Tu Feng said: "After checking, my net worth is innocent. My parents are both teachers of Donghai University. They belong to the old antique type. Jiang Sijun's information is also at the front line of the school and family. There is no problem in making friends."

Chen Mo listened and looked at Tu Feng and said, "You have checked his net worth so carefully?"

Tu Feng said blankly: "The responsibility lies."

Lu Yang patted Tu Feng's shoulder and said to Chen Mo: "You can't escape this procedure. You must know that your identity is the vice chairman of the Navy of the Jagged Brothers Alliance, which controls more than one billion credit points. Warships, whether it's Liu Jie or other potential enemies, the first thing to look for trouble is to you, don't care. "

Chen Mo is not a child. He knows the importance of this, and nodded, "I understand, but I did not expect Tu Feng to check so fast."

Tu Feng smiled and said, "In Donghai, there is almost nothing I can hide from me."

This is the truth. In order to build this base, Lu Yang responded to the request of the late father, and began to build relationships with various local government agencies, and let Qi Yun open a branch in Donghai to develop the East China Sea.

A multi-billion-dollar multinational group invested in Donghai City, and the entire Donghai Province was shaken. During the investment process, a lot of work was in contact with government personnel. In order to facilitate management, Lu Yang asked Tu Feng to take over a lot of resources. What Tu Feng is going to check now is just one sentence.

"Boss, how much money do you have in your net worth right now? How can I feel so horrible?" Bitter love asked for a long time.

Lu Yang smiled and said, "Intuitively, I want to tell you that half of Wall Street has a cooperative relationship with my company. Those so-called tiger funds, quantum funds, and so on, all rely on me, because the investment bank I set up, every day Can absorb funds that you would never have thought of. "

“Half a Wall Street !?” Zhou Tianming was stupid.

Half of them are Lu Yang’s modest words. The economic crisis has caused serious damage to all companies. Only Lu Yang and Qi Yun have made huge profits from Zhongda. It is equivalent to the company founded by the two of them who put all the money of American investors in them. In the pocket.

“You can rest assured in naval warfare. The boss I have is money behind you to support you.” Lu Yang said.

“Yes,” Chen Mo and others answered together.

Lu Yang went on to say: “There is another one that counts everyone on the scene. Whoever finds the other half, tell me first, the boss will not be embarrassed.”

Suffering for half a lifetime, he asked excitedly, “Boss, what good for you?”

Lu Yang said with a smile: “Secret, it’s boring to tell you now. I think that what the boss sends will definitely not let you down.”

“I’ll discuss marrying Han Liu now.” He said with a smile, bitterly loving for half his life.

Everyone laughed. After more than a year of getting along, these vice-chairmen of the Jagged Brothers Alliance had a deep friendship and understood each other’s personality. Half-life is the last one among them.

This boy has no temper, no shelf, and is enthusiastic. Everyone likes to contact him and is happy to see him marry Han Liu. However, he has not yet reached the legal age for marriage. It is a year away.

Lu Yang said: “I won’t talk to you anymore. I’m going to play equipment. The second competition is about to start. I’m ready to take the first place.”

In the individual competition, in the second session, the official also deliberately pressed the level, in order to prevent someone from being too high, and some people are too low to achieve true results.

At this stage, I don't know how many people want to kill Lu Yang to win the first title in the individual competition. After one year of preparation time, if Lu Yang still controls only one character, he will meet his skills and restrain his water mage. Or the thief of time and space, Lu Yang is not necessarily able to win.

The only thing that can make him surpass others is the power of bloodline-avatar. By virtue of his beyond the ordinary person's reaction speed and controlling two characters at the same time, he is able to stabilize the first place, but it needs the support of equipment.

At present, Lu Yang only got half a set of Neptune suits, and the rest of the spare parts are not extremely extreme. He needs to find all these equipment.

Farewell to everyone, Lu Yang entered the game and took the official merchant ship to the Russian waters. Two of the remaining pieces of the Neptune suit were in Russia and the rest in the United States.

The Russian side has been a little special so far. The total population of Russia has increased to 400 million with the encouragement of the emperor. However, there is a special place for the fighting nations. The internal fighting is serious, and no one is convinced by the fight.

Russia did not complete reunification until the middle of the game in the last life. When it wanted to engage in a foreign war, the external maritime forces were stronger than Russia, so that Russia could not find even its allies, and it became a lonely man.

Lu Yang had some special feelings for Russia. When he entered the New World, he had a Russian friend named Petrov, who was also a guild boss. He and Lu Yang said that he almost completed the great cause of reunifying Russia, but was subject to multiple The joint attack of the guild and foreign forces had serious economic problems, leading to his failure.

This time Lu Yang went to Russia. If he had the opportunity to talk to Petrov, he wanted to help each other, at least his own helper.

Four hours later, Lu Yang entered Russia's waters and reached Russia's northern Iceland through the White Bay Strait.

He opened the map of the world, and he could n't remember the coordinates of the treasures of the last sea, but he could still remember the approximate location and the appearance of the map. After feeling the location, he jumped into the sea and looked for it underwater.

After spending more than half a day, he finally found the treasure chest, opened it, it was Neptune's boots, and when he changed to his body, he swam toward the island.

It was already late at night at this time, and he was about to swim out of the water, but found that a large number of warships appeared above his head, which surprised him.

Russia's time is the same as that of China's. It should not be until late at night. Looking at the number of warships above it, it is definitely no less than 600. This is the full power of a super guild and should not appear in this area at this time .

Lu Yang used a stealth totem, swam quickly out of the water in the state of the elemental water, and looked at the ship. To his surprise, he actually saw that the ship was all Japanese Hey, Japan is here too Make fun. "Lu Yang said.

Russia and Japan are counted as world feuds. The two countries have one of the biggest knots. The reason lies in the four small islands in northern Japan and southern Russia.

These four small islands are special. They can be seen on the sea from a distance from Japan. Such close distances should belong to Japanese islands, but they belong to Russia.

Because of these four small islands, Japan has been fighting with Russia all year round. At every turn, members of the parliament ran to the island, announcing that it was Japanese territory. It was disgusting to Russia, and Russia was not weak. As soon as Japan returned, Russia sent a map—95B. The strategic bomber flew around the Japanese island with four things everyone knew, and told Japan clearly that if you dare to confuse you, I will let you disappear.

Japan was immediately honest, but it did n't take long for another Japanese parliamentarian to land on the island, and then Russia sent a plane around, and the two countries could not solve the knot.

Chapter 1013 - Hit the Ono Fleet

? Think about it. It is also impossible for any incumbent Russian leader to allow his territory to be separated from his own country. This is a historical sinner.

Every Japanese leader hopes that during his tenure, the islands that belong to them will be taken back. This is a celebrity.

The two sides competed against each other at high levels, and the media could not stand the public. Obviously, this northern Iceland is the outer island of Russia and the island that the Japanese most want to occupy. Even if they can't do it at the national level, they have to fight once.

Lu Yang felt that his opportunity had come, and he always wanted to weaken Ono 's strength, but Ono always did n't hook up. Before that, he always let K take the three kingdom navies to siege Ono 's maritime power. Even if Ono suffered losses, he still did n't want to deal with K Decisive battle, but choose to forbear, stay in the Sea of Japan.

If K's navy entered the Japanese area and did not wait to reach the waters of Japan, Ono's spy knew the movement in advance and made K return without success several times.

The Skyeye Alliance requires Ono to restrict Lu Yang, and Ono is also indifferent. Like the elderly players, he takes the team to stay in his acre three-pointed land every day, as if it is a weak and weak country, but understands that everyone knows he is forbearing .

Lu Yang originally thought that if Ono dared to have a decisive battle with K, relying on Chen Mo's sea power and K's existing power, as long as K fled to the Huaxia waters when K was attacked, Chen Mo was able to come to support in two hours. .

But Ono seemed to know that Lu Yang's thoughts were general, because every time K launched an attack, he rushed to the current 2 hours after the current drifted towards Huaxia. If K was attacked, he could immediately run away.

"It's not easy, Ono, I finally caught you." Lu Yang dived into the water and followed closely under the Ono fleet.

Ono's fleet did not immediately attack northern Iceland, but instead waited overseas. Lu Yang understood that he was waiting for a troop carrier.

Lu Yang contacted Tu Feng and asked, "Can you find the phone of the Russian guild Petrov?"

"Of course, I have his contact information." Tu Feng immediately called Petrov's phone.

Lu Yang hit the number according to the number, Petrov was nervously mobilizing the army, cursing: "Damn Chedelov, Mashkov, I will not let you go, but dare to unite against me . "

"Dididi"

When the phone rang, Petrov saw that it was an unfamiliar number, but who could reach him as a communicator must be a senior executive of the foreign guild, and it must have been from China. who are you."

Lu Yang said with a smile: "I'm Lu Yang, president of the China Brotherhood of Brotherhood."

"Lu Yang?" Petrov was surprised, and asked, "Really?"

Lu Yang said: "The truth can be confirmed for a while, and I will tell you a news that Japan's 500 warships are outside Northern Iceland. I don't know what their intention is, it seems to be attacking you."

"What?" Petrov yelled.

"What's wrong?" Lu Yang was surprised by Petrov's shock.

“Oh my god, my brother, you are my Petrov’s brother, you’ve helped me a lot.” Petrov said.

“What happened?” Lu Yang asked.

“Damn, just now, I received a report from my men, saying that my two enemies are gathering the navy to sneak in on my fleet, and I am gathering the navy to prepare to fight them. Oh, **** it must be their two and The Japanese colluded and wanted to kill me.” Petrov said.

Lu Yang laughed. Petrov was also speaking in the last life. He is a very impulsive person, but has a very good personality and is suitable for being a brother.

“Do n’t be excited, send a message to the full server and say that your two enemies colluded with the Japanese. If they do n’t admit it, you will post the position of the Japanese and let them attack. Whether you go or not, you are standing. The moral high ground.” Lu Yang said.

“It makes sense, I’ll post the news,” Petrov said.

Lu Yang closed the intercom, and he sighed a little. This Ono passed another level. When Petrov announced that Ono must retreat.

“Damn, exposed, and retreat.”

“retreat.”

...

The screams of Japanese players came from the warships. More than 500 warships retreated collectively, left North Iceland, and fled towards Japan.

Lu Yang thought about it, he felt that he could block Japanese warships, and sent a message to Chen Mo, saying: "Wake up all naval members immediately, order them to prepare for war, and pay three times their wages tonight, winning extra rewards."

"Yes." Chen Mo asked, "Who are we hitting?"

"Ono Fleet, I will follow their fleet back to the sea, I will send you coordinates at any time, you and the big shark to discuss the interception site." Lu Yang said.

"Okay." Chen Mo was ready to go immediately.

Although it was late at night, Lu Yang told them from the first day that professional players and soldiers are similar. There may be a sudden war at night, and everyone must get up to participate in the war.

In the dormitory, a whistle sounded, and Han Zhong personally led people to wake up from room to room, and the naval players in the game were also called to get up and enter into a combat state.

When meeting here, on the other side, Petrov called Lu Yang and said, "Haha, I won, brother, you have helped me a lot."

Lu Yang said with a smile: "It's just a hand."

"Are you in the North Icelandic waters? I'll pick you up. I can't wait to fly to Huaxia and have a drink with you." Petrov said excitedly.

Lu Yang said, "No, brother, do you have any missions left?"

"Task? What task?" Petrov asked curiously.

Lu Yang said: "Should you take this opportunity to gather the navy to kill your two enemies? Ono did it, and their navy is also on their way to Northern Iceland. It is better that you take this opportunity Or hit them both hard. "

“Good idea,” Petrov said with great excitement, “the battle is over tonight, I must fly to Huaxia and visit you in person.”

Lu Yang laughed and said, “Okay, I’ll wait for you.”

Originally Lu Yang thought that it would be troublesome to communicate with Petrov again. I did not expect such a thing to make the two brothers again, which is pretty good.

He ended the call with Petrov, sent his coordinates to Chen Mo, and asked, “How’s it going?”

Chen Mo said: “It will take another 10 minutes for everyone to go to sea.”

“Don’t worry, give them more time and slowly adapt.” Lu Yang said.

Chen Mo looked anxiously at the players who were complaining about getting up. 3,000 people struggled to climb out of the cold winter bed, change clothes and log in to the game.

“Unlucky.”

“I knew I shouldn’t be hired. It’s too difficult.”

“I get up in the middle of the night.”

...

It took a total of 20 minutes and 3,000 people logged in to the game. On the other hand, the original Navy players logged in to the game earlier than them, and everyone was full of energy.

Wang Xinyu asked the big shark curiously and said, “Boss, why are you so energetic?”

The big shark said, "Can good things not be spirited?"

"What a good thing." Wang Xinyu was puzzled.

The big shark grinned and said, "Boy, you'll know in a while, this good thing is not common."

Wang Xinyu, Liu Fangxu, Dong Pengming and Jiang Sijun were all confused, and soon the fleet set off from the port and entered the sea.

Among the warships set off this time, there were 300 Ocean Overlords and 500 Ocean Hunting Rats. A total of 800 battleships quickly sailed into the sea.

"Boss, we are out." Chen Mo called Lu Yang and said.

Lu Yang sent the new coordinates to Chen Mo, saying: "In two hours they will arrive at the junction of the seas of Japan and Huaxia and think of how to fight."

When Chen Mo gathered the players, he determined the location of the attack and said, "There is a crystal island at the junction of Huaxia and the Japanese waters. When the two of us got there, it was just dawn, and I was going to ambush there."

"Okay, this naval battle is under your command, and I looked at it." Lu Yang said.

"No problem." Chen Mo believes his players very much. The only thing that makes him a little distrustful is these newcomers, but the newcomers have no effect on the war.

The original naval players are enough to control these 800 warships, and these warships also have the new Hunting Ship, which can fully cope with the naval battle. The new 3,000 people have more tasks to learn.

At 4 in the morning, it was dawn in the game.

The Japanese Navy entered the junction of Huaxia and Japan. On the flagship, Ono was standing in the command tower and looking at the gradually rising sky in front.

“Ono Jun, we are almost at the junction of the two countries. Should we order to increase the alert level?” Quan, the vice chairman, also asked.

Ono shook his head and said, “No, Huaxia did not know our sneak attack, nor did we know our itinerary at sea. It is impossible for Chinese people to stop us. I am more curious now what happened to Petrov. Know where we went.”

“Report, news from President Ono, Russia, that our allies, Tchailov and Mashkov, were severely damaged by Petrov’s fleet, two-thirds of the warships were destroyed, and the rest were being destroyed by Petrov Husband hunted.” A player said respectfully.

“What?” Ono opened his eyes excitedly and asked, “How can this happen?”

Quan also said: “From the past information, Petrov is not like a man with such a scheme. He can use such a scheme, but it is like the style of Lu Yang of the Chinese.”

Ono frowned, and said, “I agree with you, but why Petrov had a relationship with Lu Yang, and there was no reason to know our going to sea. Did he arrange a spy in our guild?”

Quan also nodded sharply and said, “It’s possible.”

As soon as the voice fell, on the distant sea, 300 marine overlords came at full speed from the side of the Crystal Islands.

“My Excellency Ono, I finally have a chance to fight with you. You can make me find it.” Chen Mo shouted using the intercom.

“No, it’s a brotherhood of iron and blood, we’re ambushed,” Ono exclaimed.

“The fleet is ready to face the battle,” Quan also shouted.

This time, there were 300 warships of Class 5 warship Ghost and 200 warships of Yaksha on the side of Izumi. They were bought by Ono after looting Australia, and the rest were He didn't use any money. After waiting for the African server to dock, he asked Liu Jie to build the Ocean Overlord for him, but now these ships have also given him a battle.

“What is the specific number of enemy warships? Look at your hand and count it out.” Ono shouted.

On the lookout, a Japanese player sent a message to Ono and said, “There are only 300 ships.”

“300 ships?” Ono exclaimed, “The warship dare to stop me just at this point, Chen Mo, you look down on me so much, the whole army is fighting.”

500 warships turned around to meet the challenge. In order to improve the evasion ability during the war, the distance between each warship was often more than 100 meters.

Chen Mo watched the enemy's warship gradually spread, a sneer appeared on his face, and ordered: “Hunter attacked and cut off the enemy formation with me.”

“All warships hit at full speed,” roared the Great Shark, and he rushed out from behind the Crystal Islands with 500 Hunting Rats.

“Speeding”

Hunter's unique skills, magic magic itself, the base movement speed became 1025, regardless of the headwind and headwind effects, 500 ships rushed into the battlefield like a gust of wind, cut the Ono fleet horizontally in half.

“Asshole, the enemy has reinforcements, quickly kill these boats.” Ono shouted.

The 300 Japanese warships cut to the outside opened fire on the Hunter, and the big shark standing in a command tower was not afraid of artillery fire and ordered: "The Hunter continued to move forward, approaching enemy ships, and engaged in close combat. "

Soon, the Big Shark's flagship came directly in front of a Japanese Tier 5 warship, and the Zhaobi Ghost and the Hunting Mouse were 10 meters shorter than the other.

Originally, this was a very disadvantaged height, but the Hunter was a fully enclosed warship, the jetty team Hunter was invalid, and the Hunter was small in size, and could hide under the Ghost, making the Ghost unable to attack.

The Japanese players on the boat were embarrassed in the face of the rogue playing method of the Hunting Rat. They first saw a battleship like this. At first, the Japanese players saw the Hunting Rat approaching and thought they were going to fight a jumper. The opponent's boat can't jump on, and sticks to you.

"What kind of warship is this? How did it look like this?" Captain Xiangyuan shouted panicfully, "Let the warship dodge them and bombard them with artillery fire."

A flame came, and 30 doomsday sparks on the side of Hunting Rat fired at the same time, inflicting 450,000 damage to level 5 warships every second.

"Captain, the enemy's firepower is very strange. It is a close-range offensive skill. Our warship is suffering a lot of damage." The watcher shouted.

"Let the warship retreat." Xiang Yuan shouted anxiously.

Unfortunately, how could the Level 5 ghost have the Hunting Mouse moving fast? The big shark ordered the Hunting Mouse to be stuck in front of the side of the Ghost at all times. The Ghost was not only hit by the gun, but it could not escape. It took a few minutes. Time is killed by the spark of doom.

"boom"

A warship was destroyed, hundreds of players were killed, and a lot of equipment was dropped.

Wang Xinyu was next to the big shark, facing a large number of treasure chests floating on the sea, and said with surprise: "Boss, all treasure chests."

The big shark proudly said, "Now you know why this is a bad job. These equipment bosses are not necessary. Basically, after selling the money, they will be distributed to us. Fighting, one person can get at least three thousand credits. point."

"So much?" Wang Xinyu and Liu Fangxu were surprised.

Don't look at only 3000 credit points, but this is one night's money, which is equivalent to their monthly salary.

"No wonder President Lu Yang dare to recruit people with so little money. The original place to make money is here." Jiang Sijun said.

The shark shrugged his shoulders and said, "Now there are a lot of people in naval battles. When you formally become captains in the future, you will lead the Hunting Mouse to participate in the battle. When you can fight with us, that is when you make money. Money will make you unbelievable. "

In the past few wars, the big shark participated in it. He had no shortage of money at first, but even so, he was surprised by the generous reward. At most once, he got 100,000 credits in a fight, or cash.

Liu Fangxu asked: "We can also share money."

"Of course." Big Shark said, "Look, the Japanese who hit this time, these people are very well equipped, and your harvest tonight will be very rich."

Wang Xinyu and others showed a look of expectation.

“Big shark, how is your situation over here?” Chen Mo called and the battlefield was cut into two sections. The battleship was too far away. Chen Mo could no longer see what happened to Big Shark.

“Relax, brother, a wave of attacks on my side killed the enemy’s 17 warships, and the rest of the Hunting Mouse gradually understood. I can guarantee that the naval battle will be ended without destroying one warship.”

“Okay, continue to attack, the boss is watching from a distance. This ambush must be beautiful, and you can’t lose face in front of the boss.” Chen Mo said.

The big shark gave a heavy hum, hung up the speaker, and shouted, “Continue to attack and kill the next Ghost.”

Hunter quickly rushed next to the next Ghost.

...

On the crystal islands in the distance.

Lu Yang stood on the top of the mountain and watched the naval battle in the distance. He nodded continuously. He was very satisfied with Chen Mo’s raid and the braveness of the big shark. .

In just one wave of attack, Ono’s flagship was severely injured in an ambush. The second half of the fleet was unable to cope with the warships in front, causing serious damage to the warships in the front, and the warships in the back were damaged. The Huntsman had a close-up attack, and the damage was even worse.

Watching the enemy’s warships being sunk one by one, Lu Yang was very comfortable. One hour later, the battle ships on the Ono side were all sunk, and some of the war ships on the Lu Yang side were injured. None were sunk.

The big shark jumped on Chen Mo’s flagship, Ocean Overlord slowly sailed into the edge of the crystal island, and Lu Yang jumped on the battleship.

“Boss, we won without losing a warship.” Chen Mo said excitedly.

Lu Yang said with a smile: “I saw it. Congratulations, what is the outcome of the battle?”

“It is being counted. This time it is a big profit. There are 100 elite players in each Japanese warship. They are responsible for capturing the ship. Ono has great ambitions, not only to defeat Petrov but also to take him away. Warship.” Chen Mo said.

Chapter 1014 - Target India

? Big Shark said with a smile: “As a result, we were ambushed, and a total of 50,000 of the most elite soldiers were killed.

Wang Xinyu ran over in excitement and said, “Forget it, the total value is at least 30 million.”

Lu Yang nodded with satisfaction, saying, “Equipment is sold, one-third of the internship is taken away, and two-thirds of it is officially taken away.”

The intern players barely participated in the battle, just watching on the boat, so that they could share the money, which made Wang Xinyu and others very happy. He calculated that even if only one-third was taken, each of them could get 2000 credit point.

This is a large amount for a newly graduated university student who earns 2000 overtime a night.

“Return to sail.” Lu Yang said.

Thousands cheered back to the port.

On the other side, Ono overturned the table angrily. Originally, he intended to wreck Russia, but he did not expect his fleet to come in.

“Lu Yang, I won’t let you go.” Ono growled.

Quan also said: “I think we should now give cash to Liu Jie and let him build a warship for us.”

Ono nodded, thinking that it was late at night and called Liu Jie’s phone and said, “I build a ship for me, and I want a lot of Ocean Overlord.”

Liu Jie was sleeping, and asked, “What happened, why are you so anxious?”

Ono said: “My fleet was ambushed by Lu Yang and the whole army was overwhelmed.”

Liu Jie’s drowsiness was gone for a moment, and he said, “Is there such a thing? Yes, I will have someone build a ship for you immediately.”

Ono asked: “Liu Jiejun, can you tell me where you built the ship, you only showed me the drawings, but I don’t know which country you built the ship in yet.”

Liu Jie’s drawings are there, but no one knows which country his construction factory is in.

Liu Jie laughed and said, “Confidentiality, I won’t tell anyone until the war begins.”

Ono thought for a while and said, “Well, I don’t ask this question, first build 300 Ocean Overlord and 500 Hunting Mouse for me.”

“Hunting Mouse?” Liu Jie frowned, and asked, “I don’t have this drawing.”

Ono said, "If you want to win Lu Yang, you must get the Hunting Mouse drawing and the drawing of his new gun, otherwise we won't have any chance to win against him."

"Why?" Liu Jie asked.

Ono recounted the course of the naval battle in detail, which made Liu Jie understand that Lu Yang not only had a killer, a marine overlord, but also new weapons such as the Hunting Rat and Doomsday Spark.

"This is handed to me, but it's just some drawings and weapons that the studio can easily get." Liu Jie said.

Ono nodded and asked, "How long will it take for the African server to connect to the world server?"

Liu Jie said: "It is estimated that before the second contest, Africa is also eligible to participate."

Ono said, "Well, I look forward to your African Legion joining the World Server, so we can attack Lu Yang together and completely destroy his guild."

Liu Jie said: "It is not easy. The two presidents of Germany and the United Kingdom in the SkyEye Alliance did not agree with me. We still need to integrate internally."

"I heard that Germany and Britain are about to join forces to launch an attack on Huaxia. I think after this attack, you can have the Hunting Mouse and Doomsday Spark, and they will listen to you." Ono said.

"I hope so," Liu Jie answered with a smile.

The two soon ended the conversation, and each took a break. The Brotherhood of Iron and Blood, by the time they returned to the country, it was already 6 am to take you.

“Let’s have a rest, I will let people hang things on our own auction house, just wake up and wait to collect the money.” Tu Feng said.

At present, the auction house of the Jagged Brothers League is more sought after by the players than the official auction house, because Lu Yang always gets a lot of top-level equipment in international warfare.

Lu Yang was indeed sleepy. Today Petrov is coming over. He needs to sleep well. After saying goodbye to everyone, he quits the game and sleeps.

It wasn’t until the afternoon that he woke up and went online, and just after entering the game, he found that the naval players in the entire Abyss Fortress were full of joy.

“Why are you so happy?” Lu Yang asked.

Chen Mo said with a smile: “Boss of the report, last night the booty was sold out only one morning, because it was an auction, all income was much higher than the original, and even sold 70 million.”

Lu Yang scratched his head. He was a bit surprised. Most of the equipment previously obtained by the Jagged Brothers League was internally digested. This is the first time that such a large amount of betrayals had been sold.

The big shark said: “It was mainly high-level equipment such as escape daggers and teleportation scepters and fire amulets.

Wang Xinyu said: “There is also a 100-level excellent golden sword. Someone even bids 100,000, which is crazy.”

A total of more than 100 such weapons were obtained, and this item alone sold for 10 million.

“How much money is left after deducting taxes?” Lu Yang asked.

“There are about 60 million.” Chen Mo said.

Lu Yang said, “According to the previous set, you go to Tu Feng and let him send the money down.”

“Yes.” Chen Mo left happily. After finding Tu Feng’s confirmation, the money was received. Each ordinary navy player was allocated at least 2,000 yuan, the largest 6,000 yuan, and the captain 20,000 yuan.

“Dididi”

The speaker in Lu Yang’s hand rang. He picked it up and looked at it. It was Petrov. He smiled and pressed the connect button and asked, “Here it is.”

“Getting off the plane.” Petrov’s excited voice came.

“I’ll take you there.” Lu Yang quit the game and came to the airport.

Petrov saw Lu Yang first give Lu Yang a hug of a fighting nation. Petrov was 1.97 meters tall and had muscles all over his body. He was a fierce man. If he hadn’t practiced Lu Yang, he wouldn’t have been able to stand him.

“Brother, thank you so much. If it weren’t for you, I might have lost the guild today and become a mourning dog.” Petrov said excitedly.

There was a beautiful translator next to Dross who told Lu Yang the Russian translator.

“Raise your hand, you’re welcome.” Lu Yang said.

“No, this is a great boon to me. I must thank you,” Petrov said.

He took a cheque with a face value of 5 million euros from his arms and gave it to Lu Yang, saying, "This is my thank you, and you must accept it."

Lu Yang quickly quit and said, "Let's not be polite. I'm not helping you for money."

Petrov shook his head again and again, only if Lu Yang accepted it. Lu Yang did not hesitate to say, "Let's take this money, but I won't take it for nothing, let me build a warship for you."

Another Russian who followed Petrov was a girl. She said unhappily, "We don't need you to help us build a ship."

The translator looked awkwardly at Lu Yang and said, "Sorry, our little princess is a little angry that you are late and the words are offensive. Do not mind."

Lu Yang brought a portable translator. When the girl said something, he could see it with the translator. This was also invented by the "Second World" company.

Lu Yang smiled and looked at the girl and said, "Sorry, sorry, I went to the Ono Fleet ambush last night. The fight didn't end until the morning and I slept for 5 hours."

"What?" Petrov shouted, asking, "You went to ambush Ono, what happened?"

The Russian girl was surprised, and looked curiously at Lu Yang.

Lu Yang said: "A total of 500 ships from Ono's fleet were wiped out by me, and none of them ran."

"That's great," Petrov asked excitedly, "how did you do that?"

Lu Yang said, "Let's talk as we walk."

Petrov nodded, and with more than a dozen people traveling with him, followed Lu Yang by car to the headquarters of the Brotherhood in the Development Zone.

Looking at the 30-story-high building being built and the office building in use in the distance, and more than 3,000 professional players, Petrov and his colleagues were shocked.

“You have hired so many professional players?” Petrov asked.

“How many people must be here?” The girl asked.

Lu Yang said: “There are 3,000 people here, and I also have a studio team. In the suburbs not far away, there are about the same number as here.”

There is the original blacksmith shop, and Lu Yang plans to move them after the building is completed.

“No wonder you can gather a fleet at any time, it’s too powerful,” said the girl.

Lu Yang shrugged his shoulders and said, “No way, the future development of the game will force us to do this, or we will be replaced by others.”

Petrov nodded and said, “I will expand my studio when I go back.”

Lu Yang found a few helmets and handed them to Petrov, took them into the game of Huaxia server, and watched the shipyard of the Brotherhood of Iron Blood.

Petrov was particularly fond of the Ocean Overlord and Ocean Fortress, saying, “I don’t have this drawing. I will have * 500 Ocean Overlord and 10 Ocean Fortresses here.”

“Yes, I don’t charge you handling fees. How much is the factory and how much is it for you?” Lu Yang said.

“In the future, our two guilds will be brother guilds. Whoever dares to attack you, I must come to help.” Petrov said.

On the same day, Lu Yang and Petrov signed an alliance agreement and announced on the World Channel that in an instant, the world was a sensation.

The alliance between Huaxia and Russia’s superservers is too exciting for them.

Soon, servers from all countries in the world responded one after another. In less than a week, there were 22 servers in total, divided into six camps.

The first camp is an alliance of China, Russia, Thailand, Vietnam and Myanmar.

The second camp is an alliance formed by Germany, Britain, France, Italy, Japan, the Netherlands, Turkey and other countries.

The third camp is an alliance formed by small countries such as India, Indonesia, and the Philippines.

The fourth is the League of Arab States.

The fifth is an alliance formed by South American and American countries such as the United States.

The sixth is the Sanshou Alliance, which includes some small and poor countries such as Denmark and Norway. They do not have many players and do not care about being attacked by other countries. Most of them are pirates such as diamonds.

Even if the country is closed, these players can also communicate with players from other countries in the seas of other countries.

When these alliances formed, the time just passed a week. In the game, Lu Yang and allies such as Petrov and K were discussing how to solve the current problem.

“We should first think of ways to kill the alliances established by countries such as India and Indonesia and bring them to a closed country.” Petrov said.

Lu Yang said, “I have this idea, but now there is a problem.”

“What’s the problem?” Petrov asked.

Lu Yang said, “South Korea and Japan are around me. If I go to war with India and other countries, I won’t win the battle in a day or two. I need you and K to block the sea power of Japan and South Korea for me.”

“I’m in charge of blocking Japan, and I’m looking for an opportunity to teach Ono.” Petrov said resentfully.

K said, “then our three countries are blocking South Korea. I don’t think South Korea is likely to sneak in. The task here is relatively easy.”

Lu Yang said: “Don’t be mindful, South Korea has a lot of players entering the game, they are just too far away from the United States, which has been forbearing.”

K nodded.

“If you don’t have any problems, then this matter is settled. We will go to war two days later, and the countries that were hit first will be closed before we talk.” Lu Yang said at the table.

Everyone nodded.

After the meeting, Lu Yang personally drafted a mobilization letter and sent it to the domestic channel.

“All players on the Huaxia server, it has been three months since the start of the national war. Everyone’s level has caught up with the level of foreign players. Recalling that at the beginning, every country in the world wanted to bully us, but we survived it.

Now that everyone has the level and equipment, but we can't forget the things we've experienced before. I decided to start a war against India, Indonesia, and the Philippines. If you are willing to participate in the war, please go to the recruitment office of any of the main cities. Sign up and I will lead you across South Asia and build my Chinese reputation. "

...

The article was published on Huaxia's World Channel and Forum at the same time. It was distributed ten times in a row, and all players in the service instantly boiled.

"Finally wait until this day."

"Sign up, do the Indian gang of three dead."

...

Regardless of whether it is a stall in the city or a monster outside the city, tens of millions of players have come to the 48 main city registration offices of the Brotherhood of Iron Blood.

After experiencing the humiliation in the early days of the National War, every Huaxia player wanted to upgrade and upgrade equipment as soon as possible. Now after three months of hard work, this opportunity has finally come.

Headed by Lu Yang's warships, warships and personnel carriers from various guilds and studios joined to form a huge fleet with a command center.

How many people are there in the Huaxia server? At present, they have tens of thousands of ships built in the name of the studio, the name of the guild, or the name of the individual, but most of them are personnel carriers or small warships below level 3.

"Chairman Lu Yang, why not notify me in advance of such a good thing? I'll gather the experts in the guild to participate in the battle." Mr. Yue Ban called.

“All of our studios are at war.” Xinghun called.

...

One afternoon, Lu Yang received nearly a hundred calls, not only him, but also Tu Feng.

This was only the first day. When the next day, nearly a hundred guilds called. When the vice-chairmen such as Lu Yang and Tu Feng counted the numbers, they were stunned by the members of the guild. .

In just two days, more than 50 million people were willing to participate in the war.

“Fuck, where is this to destroy India? This is to sweep the world.” Tu Feng said.

Lu Yang said, “I want the world to know that Huaxia, the great country that once dominated the world, is back.”

Tu Feng showed his longing look.

When Lu Yang mobilized here in China, India, Indonesia, and the Philippines all received news that all three countries were stunned.

“Lu Yang actually launched the whole China, this lunatic.” India Tianlong cursed.

The jungle killer scolded: “What should I do? I heard the news that they assembled more than 50 million people.”

The Tiger of South Asia said: “This is the number of people before the war. If you wait until the day of the war, you don’t know how many people will come. This is more than the total population of our country entering the game.”

Tianlong said: "I'm afraid of what they do. The number of people in our country is not less than that of Huaxia. I hope that they will land in India and I will mobilize all Indians to eliminate them."

India has more people entering the game than China. On the world map, India is still ahead of the Philippines and Indonesia. If it is attacked, India will be the first.

"Then please come to Tianlong, you need to say what the two of us do, we fully support it." Said the South Asian Tiger.

Tianlong said: "I will let Lu Yang's players log in to India first, and then you will lead the navy to attack Lu Yang's fleet at sea. We will attack on both sides. I will contact other countries here. I don't believe that countries around the world will not see this opportunity. attack."

The South Asian tiger and jungle killer nodded.

Denon picked up the phone and contacted more than ten countries including Japan, South Korea, Turkey, the Netherlands and the United Kingdom.

Sky Eye Alliance, special space.

Seven members gathered together.

"Did you see any news from India?" Edward asked.

Liu Jie hid behind the scenes without saying anything. Schneider from Germany jumped out and said, "Of course, Hua Xia wants to get rid of the enemies in the south first, and then come to a decisive battle with us. I think this is an opportunity. We should cooperate with India to re-create Lu Yang . "

Edward said, "Great idea I think so too, what do you think?"

Ono, Slade, and Angel Sword looked at Liu Jie, and then at Edward. Ono first said, "My fleet has not recovered yet. Sorry, I cannot join the battle."

"I don't have the ability to fight," Slade said.

Angel Sword said, "So am I."

Liu Jie said: "My African server has not yet been connected, and I can't help it."

Edward and Schneider seemed to have known that this was the case. The two looked at each other. Edward said, "Well, this war will be attended by us, Britain and Germany. If you do not want to participate, we are not forced.

Schneider said: "Give you a chance, you still have a last chance, if you change your mind, you can come to me at any time."

Chapter 1015 - Raid in the Philippines

? Liu Jie retired from the game with a smile, Ono and others also retired. The Sky-Eye Alliance was clearly divided into two factions. One was the defeated faction led by Liu Jie and the other was the disobedient faction led by Edward and Schneider.

Fifth morning.

There are three port cities in Hot Spring Island, Sky Fox City and Sands City. Over 50 million players gather in these three cities.

Chen Mo patrolled the sea with 500 Marine Overlords, 30 Marine Forts, and 1500 Marine Hunting Rats.

The three ports have more than 100,000 troop carriers. Players are boarding the troop carriers one by one in guilds.

Lu Yang stood on top of the flagship's command tower and looked at the players who were almost mobilized nationally behind him, with an excited look on his face.

Who would have thought that one day he would be able to command more than 50 million people to attack abroad? This was simply a Chinese storm.

Reporters from TV stations and reporters from the Internet media came to the port to take this picture, especially the pictures of Lu Yang standing on the podium, which spread wildly on major domestic websites.

50 million people assembled, starting at 8 in the morning, the first batch of 7 million players in the Jagged Brothers League took half an hour to complete the assembly, more than 100 100,000 guild players also boarded the ship within half an hour.

Lu Yang saw the first people gather and said, "Go."

Seventeen million people were escorted by tens of thousands of personnel carriers and thousands of warships towards the maritime border.

At the time of departure, India, the Philippines, and Indonesia were stunned. None of them thought that Lu Yang's sea power was so powerful. There were more than 2,000 Class 7 warships. The highest level of warships they used was still 6. Class warships, nearly 2,000 warships in the air, did not dare to fight against the Brotherhood of the Iron Blood.

Not only did Lu Yang have warships, this war allowed many wealthy bosses in China to actively buy warships to participate in the war. Only 20,000 level 5 warships brought by major guilds, studios and individuals.

They did not participate in the first echelon, and were arranged by Lu Yang to protect the second echelon. Obviously, Lu Yang showed it to all Chinese people. There was a tough battle, and the Brotherhood of Iron Blood came first because it was his proposal to attack countries in the world.

Soon, the ship came to the waters between Huaxia and India.

Xue Yiming called suddenly and told Lu Yang: "Just got the exact news, the navies of the Philippines, Indonesia and India are hiding in India's Magic Mountain Islands. In addition, the navies of Germany and Britain are coming at full speed."

Lu Yang said, "How dare they, how about the rest of the country?"

"The Arab nations are watching from the wall, the United States has no idea of offense, and the loose alliance has no idea of participating in the war." Xue Yiming said.

Lu Yang understood it and said, "Continue monitoring and report any problems to me."

"Yes." Xue Yiming closed the intercom.

Lu Yang looked at the vice-chairmen around him and said, "Let's change the battle plan, and the whole army will turn to the Philippines, and we will destroy the Philippines first."

"How to change to the Philippines?" Jiang Ze asked.

Lu Yang told everyone about Xue Yiming's news, saying: "Since the main forces of the Philippines and Indonesia are not in their home country, let's fight the Philippine seclusion country first. Chen Mo, you take the navy ambush halfway, I will tell you the exact position of the enemy navy at any time. "

“Yes.” The crowd nodded.

The fleet immediately turned, and tens of thousands of ships continued to advance along the boundary between Huaxia and the Indian Ocean, crossing the neutral waters to reach the Philippines.

The Tiger of South Asia, the president of the First Guild of the Philippines, which is hiding in the Devil’s Islands, got the news and everyone was stunned.

“What, Lu Yang actually hit us in the Philippines?” The South Asian Tiger asked in a panic.

“Yes, just gone.” Tianlong said solemnly.

“This, what can I do, I can’t stop it at all,” said the tiger of South Asia.

The Philippines is one of the few major waste countries in Asia. It is famous for its lack of combat power. It has a population of 200 million people and 80 million people enter the game. However, they are not rich in the country, and the prices in the main cities are very cheap.

Countries are attacking, but the Philippines is too poor. It does n’t make sense to attack them. Instead, countries such as Europe use the Philippines as a dumping ground for high-level equipment.

Previously, countries did not have time to deal with the Philippines. It was because of Liu Jie that all countries wanted to attack China. This allowed small countries such as the Philippines to escape. After that, these countries formed alliances, and China was in the forefront of Western countries. This gave the Philippines and Indonesia a chance to respite, but this sudden attack in Lu Yang, the Philippines did not have the ability to resist at all.

“No, I want to go back to support,” said the Tiger of South Asia.

“Don’t be impulsive, it won’t help you to go back,” Tianlong said.

“Then I can’t watch my server being wiped out.” The South Asian Tiger anxiously.

The jungle killer said: "I suspect that Lu Yang's last printing degree, after printing the Philippines, I will go to print Nepal. We can no longer hide in the Magic Mountain Islands."

Tianlong originally wanted to use the two to delay time, but he saw that they were both understandable and did not dare to play tricks at this time, saying, "In this way, we will wait for the British and German navy to come and destroy Lu Yang's sea together. Force, trapping them in the Philippines, this is the only way. "

The Tiger of South Asia wanted to get back immediately, but he knew that with this strength in his hands, he couldn't fight Lu Yang.

"Well, I'll just wait," said the South Asian Tiger.

Tian Long breathed a sigh of relief, called Edward, and asked, "When are you here, Lu Yang didn't come to attack me and went to the Philippines."

Edward and Schneider were taking the fleet from neutral waters to India without delay, and they got the news. Both of them turned slightly.

"How can this be?" Edward asked.

Tianlong said: "It's not clear, but Lu Yang has changed the fighting opportunity. Please come to me as soon as possible to support me. Several of our navies attack together and destroy Lu Yang's vanguard."

Edward said, "Well, hold on for two hours, we will arrive at the Magic Mountain Islands in two hours."

"Okay," Tianlong said.

Even if Lu Yang attacked with all his strength, it would be impossible to win the Philippines without a day or two. In this case, Edward would have no problem arriving late.

Tianlong told the South Asian Tiger and the jungle killer about the situation. They had no better way but to wait.

“My Philippines, I am going to be a sinner now,” said the Tiger of South Asia.

Just now, some men reported that Lu Yang’s fleet had entered the Philippine waters. Through the live video sent by his men, it was clear that the war ship of Lu Yang had covered the entire sea surface.

“It’s terrifying, how come there are so many warships.”

“The Philippines is finished.”

“We’re fucked.”

...

The voices of the surrounding players came from the live broadcast. All Filipino players knew that they could not resist the Chinese attack.

“Boss, in front of the main coastal city of the Philippines, Finglei City.” Chen Mo said.

Lu Yang looked at the port outside the city, and tens of millions of Filipino players gathered near the port, and there was a strong posture of the Brotherhood of Brotherhood to launch an attack.

“Look for death, they want to be rigid, I will fulfill them, White Lion, Zhou Tianming, Tian Yao.” Lu Yang shouted.

“Here.” The three answered in a deep voice.

Lu Yang pointed at the Philippine army outside the city and said, “Give me down and let the enemy know how powerful we are.”

“Yes.” The three quickly jumped back to their flagship troop carriers.

Lu Yang stepped out of the command tower, stood at the forefront of the flagship, watched the warship enter the port, and hit a wooden bridge.

“嘭”

The shaking caused by the violent impact made everyone’s bodies shake involuntarily. Just when everyone was standing, Lu Yang appeared on the bow of the ship, holding up the flag of the Brotherhood of Iron and Blood in his right hand, pointing at the Filipino player with his left hand, roaring. Says: “Iron Brotherhood.”

“Kill ~!” Millions of roars echoed on the sea. In this roar, all the players of the Jagged Brotherhood blew their eyes red with the white lion, Zhou Tianming, and Tian Yao and rushed out of the warship and banged into the Philippines. Of the army.

The white lion, white tiger, and white wolf ran in front. The three clearly looked like humans, but in the eyes of Filipino players, the three were like crazy lions, tigers and wolves, giving them a feeling of trembling throughout the body.

“Block them, block them, and don’t let the Huaxia people succeed.” The South Asian Tiger appeared among the crowd. He left the fleet, returned to the Philippines, and returned to command the war on purpose so that they would stay longer.

Unfortunately, if the Tigers of South Asia face countries such as Indonesia, Vietnam, and Thailand, they may be able to hold on, but they face countless blood brotherhoods.

Although the majority of players in the Philippines are also level 100, the unification of the Philippines did not take too much effort, and the Filipinos themselves are not a belligerent nation.

Why does the Philippines have 80 million players, and Lu Yang dares to fight the Philippines. Historically, this country is a slave country.

The Netherlands came, the Netherlands ruled; Spain came, the Spanish rule; the British came, the British rule; the Japanese came, the Japanese rule; the American came, the American rule, starting from the era of great sailing, the Philippines was a country that has been ruled by foreign countries.

From here This is a nation that knows nothing about self-reliance and hard work at all.

Only the first wave of attacks, the White Lion, the King of War, Tianming Zhou, and Tianyao, with 900,000 pioneers, penetrated through the defensive positions formed by tens of millions of Filipino players.

Mr. Yue Ban jumped off the troop carrier as the second echelon and watched the situation ahead. He was stunned. "What's the situation, the Philippines can't help but fight."

Originally, he also wanted to let Lu Yang's Jagged Brothers fight a few hard battles with the Philippines first, and then they went to harvest the enemy, but he did not expect that Lu Yang would penetrate the other side.

"Punch me, punch Lao Tzu and kill the enemy." Mr. Yue Ban shouted.

More than 200,000 members of the Mr. and Mrs. Guild rushed into the enemy formation, followed by the other major guilds. In less than an hour and a half, 17 million people had disembarked from the battleship, lined up along the port, and rushed Entered enemy positions.

Chapter 1016 - Fall of Wind Thunder Island

Lu Yang looked to the battlefield, and after confirming that there was no problem, he sent a message to Xue Yiming and asked, "How is the enemy's naval strength?"

Xue Yiming said: "It's still in the Magic Mountain Islands, as if waiting for the British and German fleets."

Lu Yang frowned. If the British and German fleets and the Indian Tripartite Fleet were united, Lu Yang's fleet would suffer the enemy, which would not be a good thing for him.

Although there are a large number of Tier 5 warships in China, both the United Kingdom and Germany have replaced the Ocean Overlord and Thor's Wrath. If the British and Germans do not play head-to-head battles, the Tier 5 warships will not even touch the side of the Ocean Overlord. Instead, it is easy to be destroyed by the enemy in the melee.

On the sea, the one who can really decide the winner or loser is the one with the most Ocean Overlord. He thought about it and asked the big shark around him: "If you let you now attack the joint fleet of India, Indonesia and the Philippines, you have What a chance. "

The big shark said: "There is no problem in winning them, but at this distance, when I am at war with them, the British and German fleets should have arrived, and the victory of the Hunting Rat is not a big deal."

Chen Mo asked: "Boss, do you want us to take the initiative to find a joint battle with the Three Kingdoms Fleet?"

Lu Yang nodded and said: "It is best to kill the British and German fleet before the arrival of the British-German fleet. In this way, I let Diamond and Jinjiu attack the British-German fleet. The big shark first took the Hunting Rat and the Indian Joint Fleet, Chen Mo Bring Ocean Overlord and follow. "

"The damage will be great for the Hunter." Said Shark.

Lu Yang said: "There are 50 spare Hunting Rats in the shipyard, one of which was damaged. The crew who died immediately sent a spare ship to come. Don't be afraid of the damage, just win."

"Boss rest assured, I will win." Big Shark said.

Lu Yang patted the shoulders of the two men. The naval battle was open until now, and finally it was time to see the true skills. Lu Yang believed that Chen Mo, Shark, and Wang Xinyu would not let him down.

He jumped off the battleship and came to the half-loving battlefield, put on a flame chariot, and read the spell in his mouth.

“Great Ancestor of Fire ...”

After 30 seconds of the spell, a huge white skull appeared on the ground. With Lu Yang’s current attributes, the damage was 110,000. When the skill fell, hundreds of thousands of players were burned by the magic flame. Skill spike.

The same is true of the Iron Brotherhood. When the Philippine Super Magician Corps used the forbidden spell, the Iron Brotherhood also instantly killed tens of thousands of players. However, these tens of thousands of people were resurrected by the invincible halo of the Paladin behind them and continued. Participate in the war.

As a guild that fights almost every week, the brotherhood of the Jagged Brothers is much better than the players of the Philippines, and the joint operations of various arms are very skilled.

Soon, tens of millions of players in the Philippines were slaughtered cleanly, but the resurrected war participants were blocked in the necropolis and unable to come out, and the battle outside the main city ended.

“Everyone is rested in place and ready to attack the city.” Lu Yang drove the chariot to the front.

More than 7 million players in the Jagged Brothers League immediately rested in place and regrouped, and the guilds such as Mr. Moon Half and the Black Wind Old Demon also had similar examples. Although the speed was slow, it was not much slower.

Correspondingly, the Filipino players on the city are very slow, and there is no neat team like Lu Yang, and the cooperation between the arms is very messy.

Lu Yang glanced under the city and knew that the other side of the city could not keep it. When his men were rested, he shouted, “Jiang Ze, turbid wine, and grandeur, lead the team to attack the city.”

“Yes.” All three are experts. At a glance at the city, you know where the weak link is, not to mention that the defensive players on the city are all weak links. They don’t need to work too hard. Take the team to attack twice. Rushed to the wall.

An hour later, a large number of angels slowly fell in the sky, occupying various positions in the city.

[Official Channel]: The Thunder City, the main city of the Philippines, was attacked by the Brotherhood of the Iron Blood

Lu Yang took tens of millions of players to stand under the city, and shouted, "The whole army is divided into three troops, attacking the enemy's three main cities at the same time."

This was settled before, and is also a scheme approved by other guilds of Huaxia Server. When "Second World" designed the map, it was a main city with three roads connecting the other three main cities.

Lu Yang asked Zhuoju to lead a team. He personally led a team. Zhou Tianming led a team. The three divided 17 million players into three teams and attacked at the same time.

This side has just begun to move forward. On the other side, a total of 20 million Chinese gamers have boarded the ship and are heading towards the Philippine waters.

Neutral waters.

Edward and Schneider were still intensive towards the Indian waters.

"This Lu Yang is really strong. It took only more than an hour to destroy a main city in the Philippines." Edward said.

Schneider shook his head and said arrogantly: "I think the Philippines is too weak, otherwise how could tens of millions of people lose so quickly."

Edward shrugged his shoulders and said, "We will know his specific strength soon after fighting, and hope not to let us down."

"I'll tell him how naval battles should be fought," Schneider said.

As soon as the voice fell, the broken air of the shell came from a distance. Schneider looked out through the command tower. In the distance, a Hunting Mouse was carrying an abyss cannon and fired at them at a distance of 1500 meters.

“Damn, enemy attacks, enemy attacks.” Schneider shouted.

The German and British fleets have always maintained their battle formations and quickly started to confront, but found that the other warships did not engage in conventional naval battles with them at all, and they attacked in front of and behind them, absolutely not hard and straight.

“Damn, which country’s navy, it’s not Argentina and Spain who will make trouble.” Edward frowned.

Before participating in this naval battle, both Argentina and Spain were hit hard by Edward, which made Edward so confident that he could defeat Lu Yang at sea.

“This should not be the fleet of Spain and Argentina, much like the fleet led by Norwegian pirate diamonds and Asian stateless regiment Tsukuhime,” said Schneider.

“How do you know?” Edward asked.

“I’ve been collecting their information,” Schneider said.

Edward nodded in admiration.

“boom”

A shell landed on the two’s flagship, and Edward frowned. “Strange, how could they come to attack us?”

“I don’t know, maybe Lu Yang gave them a commission.” Schneider said.

“There is no other way, we must drive away the two men’s fleet first, otherwise our crews will have to maintain a high concentration of mentality, and there will be no combat power in India.” Edward said.

Schneider nodded and said, “Agree, run them first.”

The two men each commanded the fleet and changed the sea battle formation. However, no matter how they changed, the Hunting Mouse was like a group of mice.

After fighting for more than an hour, they only destroyed less than 20 ships, and there were 180 warships facing the enemy, which made Edward and Schneider extremely angry.

“Damn it, these mice.” Schneider cursed.

“Dididi”

The intercom sounded, Edward clicked on, and he frowned and asked, “Who?”

Tianlong said, “It’s me, where have you been?”

Edward was stunned. He suddenly woke up and patted his head, saying, “I’ve been fooled. Be careful there.”

“What’s going on?” Tianlong asked.

Edward said: “We encountered a group of special warships here. They moved very fast, but their firepower was very poor, which delayed us for an hour.”

“So you are still in neutral waters?” Tianlong frowned.

“Yes, I suspect it was designed by Lu Yang. Be careful there, don’t be attacked by Lu Yang.” Edward said.

Tianlong listened to Edward's words, he could not wait to scold Edward as a fool, but he did not wait for him to speak.

"Not good. Thousands of Brotherhood ships appear outside the Magic Mountain Islands, and there are 30 Marine Fortresses."

Tian Long froze and asked, "How is that possible?"

"It's just outside, boss, think of a way, we're surrounded," said his men.

Tianlong rushed outside, just to see the battleship group Hunting Mouse coming from all sides, and in the distance, there were 30 Marine Fortresses led by the old man.

"Haha, I can't think it's our turn to play, and I can do it again." The old man in the twilight said with a laugh.

Mr. Jiang said, "It's really good luck. I thought our old ships were just going to the cinema. I didn't expect to encounter such a thing."

Lan Yu's father said: "This time we are going to wipe out the three nations allied forces and let the whole world know how powerful our three are."

"That's right," said Elderly Du Mu and Father Jiang.

The big shark listened proudly to the conversation of the three old men, and brought the three old men to his temporary thought. When the first fleet went out to sea, the Ocean Fortress was among them, but their speed was too slow. The Ocean Overlord was twice as slow. It happened that when the big sharks led a sneak attack on the Magic Mountain Islands, they looked at the navigation chart and found that their 30 fortresses were at the junction of Huaxia and India in the twilight.

He immediately connected the old man's phone and asked the three to take the 30 Fortress to the Magic Mountain Islands. Just when his fleet was 5 nautical miles away from the Magic Mountain Islands met the old man's fleet, The two sides joined forces to surround the Magic Mountain Islands.

There are only three exits from the Magic Mountain Islands. Just three old men guarded one exit. Now the coalition forces of the three Indian nations want to be wiped out without being blocked in it. There is only one way to escape quickly.

"If they dare to come out quickly, Wang Xinyu, Jiang Sijun, Liu Fangxu, and Dong Pengming, the four of you, with their respective fleets, will welcome me, three against one, and must resolve the enemy warships in the fastest possible time. "

"Yes." The four of Wang Xinyu nodded in reply.

As soon as the words came down, the Indian side decided to play. A large number of warships ran from three exits. The exits were wide enough to allow five warships to be listed.

But before five ships came out, 15 Marine Hunting Rats ushered in. Wang Xinyu rushed to the front. Two ships approached to a distance of 10 meters. Three Hunting Rats fired at the same time. On average, they could sink one every three minutes. A Tier 6 battleship.

Chapter 1017 - Beat India

? Tianlong's intercom is not turned on. Edward and Schneider clearly heard the situation of the ambush on Tianlong's side.

"Damn, we got **** by Lu Yang." Edward said.

"We must quickly reinforce India." Schneider said.

Edward nodded. In their fleet, there were 1,000 Tier 7 warships, of which 30 were their secret warships fighting Lu Yang. The two were not afraid, and the two were very clear that they could not let Lu Yang do the same. Win the war easily, otherwise Lu Yang will become stronger and stronger.

“What about diamonds and Tsukumu?” Edward asked.

Schneider said, “You and I each divided out 100 warships, and the rest rushed towards the Magic Mountain Islands.”

Edward said with a hum, and shouted at Tianlong in the intercom: “Hold on for an hour, we are coming at full speed.”

“As soon as possible, it must be as soon as possible.” Tianlong closed the interphone, he was not sure whether he could persist for an hour or so, and the fierce attack of the Brotherhood of Iron and Blood led him to panic.

“boom”

“boom”

“boom”

The ten Marine Fortresses blocked at the exit gave him very heavy pressure. These ten warships are on the side of the island. The warships will be attacked when they go out to sea. Each ship has 500 Thor’s fury cannons. This attack made him unbearable.

But he has no better way now. He can only send a daredevil team to find a way to send the big troops out.

In half an hour, Tianlong finally rushed out of the siege with the three combined fleets, but their number of warships changed from more than 2,000 to 1,300, which lost more than a third.

“Damn it, fight with the Iron Brothers.” The jungle killer shouted. From his perspective, the warships brought by the big sharks were more than half smaller than the Tier 6 ships, as if they were Tier 4 battles. Ship half.

“Kill these mice.” Tianlong decided to fight hard.

Thanks to the decision of Tianlong, if he chooses to escape, the Hunting Mouse can move much faster than a Tier 6 ship. The Great Shark may complete a fashion miracle. A warship will be killed by more than 2,000 without being sunk by the enemy. Battleship.

“Unfortunately, this dragon is not so stupid.” The big shark muttered to himself and shouted to the whole staff using a communicator: “Be sure to destroy the enemy within half an hour, for the Brotherhood of Iron Blood, for the boss, do not be afraid Damaged and decisive against the enemy. “

Players on the sea are the group that can't understand the meaning of the Brotherhood of Iron Blood, because they do n't have to face the enemy face to face. Fortunately, there are a large number of marine members in the Brotherhood of Iron Blood, so they still have this sentence. Special feelings.

Wang Xinyu, Jiang Sijun and others fully commanded the warship, and rushed into the Indian fleet with many old captains to start a close combat.

Distant seas.

Chen Mo was traveling at full speed with the Ocean Overlord. He was very worried about the situation on the big shark. After all, the Hunting Mouse was used to cut the enemy, it was a tactical warship, not a decisive battleship, but this time it was used to fight a decisive battle. He had some Worried that the big shark will be defeated.

Neutral waters.

Edward and Schneider's British-German fleet were also on their way. Time passed in such a minute and a half. After half an hour, Chen Mo had just paid the price of 400 Hunting Rats to win the war.

“Good job,” Chen Mo shouted.

The big shark shook his fist with excitement at Chen Mo, but the two didn't wait for a little longer, and the black cross flag appeared in the sky.

"It's the British and German fleets," Big Shark said.

Chen Mo said: "Finally wait until they are, okay, then fight a decisive battle with them here, you take someone back to the side to rest, I will meet them."

"Don't introduce, we're excited, then go ahead, you just order." Big Shark said.

"Okay, the old way, you're surrounded by people, I'm leading people to a decisive battle, and the local formation is to fight more with less." Chen Mo said.

"OK." Big Shark went to prepare.

Chen Mo called Lu Yang and said: "Boss, the big shark wiped out the combined fleet of India, Indonesia and the Philippines, but we encountered the British fleet, and both sides are preparing to go to war."

Lu Yang just finished talking with Xue Yiming and said, "I just received the news that there are 30 special warships in the British and German fleets. Be careful."

"Special warship?" Chen Mo frowned.

Lu Yang said: "The 30 warships were mine-laying boats, which were specially used for sea mines. We must give priority to killing these 30 ships. It is worth the price."

Mine boats, once they are given time, they can fill half of the sea area *, and then they can only be passively beaten.

"This news is so important that I will arrange it." Chen Mo hung up the phone.

Lu Yang sighed. He did not expect that Britain and Germany were so lucky that he could get the blueprint of the mineboat, but he did not get it.

“Boss, there is Abilene in front of it,” said the White Lion.

Lu Yang looked forward and found a small city with only a few million defenders in front of him. He smiled and said, “It looks like the South Asian Tiger doesn’t want to defend this main city. Where is his main force going?”

Tu Feng said: “According to the newspaper, the South Asian Tiger is sad for his hundreds of warships and has no time to control it.”

More than 500 Tier 6 warships were destroyed, which is a loss of 150 million credit points. Even if the South Asian Tigers were rich, they could not afford such losses.

On the battlefield, the Tigers of South Asia have felt that the Philippines is over. The first wave of China’s attack was so strong. He was informed that the second wave of 20 million carrier ships and 20,000 warships were using frog jumping tactics. Attack the elves.

There is also a third wave of 13 million people. Their tactics are also frog jumping operations, attacking the orcs. The entire Philippines has been beaten by Huaxia, and it is impossible to win.

Just as the attack was underway, a piece of news suddenly appeared that no one expected.

[Official System]: After one hour, the African server is connected to the world server.

...

Three consecutive messages made Lu Yang and all the players at war stunned.

“what?”

“Africa joins at this time?”

“What does the system think, and how can they do that?”

...

Not only was Lu Yang anxious, but Edward and Schneider were also anxious. The two dared to attack so brazenly because Liu Jie could not join, but now the system tells everyone that Liu Jie 's Black African Legion will be out of the sea after an hour. No one can accept this.

Xue Yiming called and said in a panic, “Boss, something is wrong, and Liu Jie may have to fight immediately.”

Lu Yang asked, “What’s going on?”

Xue Yiming sent a coordinate to Lu Yang, saying: “I got the news that 500 Marine Overlords and tens of thousands of troop carriers suddenly appeared in South Africa, but these ships were all empty, and the destination of these ships was exactly the African server. Docking point. “

Lu Yang scolded: “It’s broken, it’s all messed up.”

“What shall we do?” Xue Yiming asked.

Lu Yang said, “Don’t mess up, I think of a way.”

“Dididi”

The next time the intercom came, Lu Yang took a look and found that it was a dead grass call that hadn’t been online for a long time.

Lu Yang laughed, pressed the connection key, and asked, "It's been a long time since I saw you. It's dead grass."

The dead grass laughed and said, "Yeah, your chairman, Lu Ming, Gao Ming, we almost lost all of our net worth, and we have been dormant for a long time."

Lu Yang asked: "What do you want? Decisive battle with me?"

The dead grass said: "Don't get me wrong, we dare not fight with you, my idea is not as good as this, you continue to hit your Asia, Arab and Europe leave it to us."

Lu Yang smiled and asked, "You have a good appetite, can you eat?"

"Of course, you can eat it, don't you know how much hard work we have done in Africa? Look at it, you will see a surprise." Said dead grass.

Lu Yang said, "Okay, then let me see Liu Jie's ability. If he is really capable of eating Arab and Europe before I wipe out Asian countries, I don't think I can fight."

"Then Edward and Schneider's fleet, please take care of you." The dead grass laughed and hung up the phone.

Lu Yang was speechless. He co-authored the incident and was calculated by Liu Jie. However, this is also good. He also wants to see how strong Liu Jie's African legion is.

He sent a message to Chen Mo: "If Schneider and Edward's fleet have the idea of retreating, you can let them go without entanglement too much."

Lu Yang didn't want to make Liu Jie so easy, but Schneider and Edward had already fought with Chen Mo's fleet, and they didn't even think of leaving.

“Evil door, boss, Edward and Schneider are just like crazy, they have to work hard with us, I don’t know what they think.” Chen Mo said.

“If they don’t run, then destroy them.” Lu Yang said.

“Yes,” Chen Mo said.

The battlefield continues.

An hour later, Lu Yang arrived in the Philippines’ second main city, and Huaxia’s second group of players also logged in to the Philippines’ elves.

[Official system]: Congratulations to the African server for successfully connecting to the world server. Starting today, we have another country integrated into the “Second World” family.

...

Three consecutive broadcasts have just ended.

[World Channel] Liu Jie: Hello everyone, I’m Liu Jie here. If there is any place that offends players from various countries today, I won’t compensate you first.

On the World Channel, players from all over the world were uproar.

“Who is Liu Jie?”

“Isn’t he letting Lu Yang be a funeral dog?”

“Arrogant African boy.”

“What the hell?”

No one thinks that Liu Jie is qualified to say this sentence, but when they were noisy, a news made a sensation in the world.

“Not good. More than 100 million players in Africa are gathering in tribal units. This tm Liu Jie **** is home. He wants to annex the world.”

“Look, there are a large number of players logging in to the warships in the eight main cities along the coast of Africa. Each one is a player above level 60. This is incredible, but is this level too low?”

...

At a time when players around the world were amazed, or lamented that Liu Jie’s practice was inexplicable, Liu Jie assembled all the members in the evening of the day and broke into Mexico with the attention of all the people in the world.

Mexico, as a country with a population of 300 million people, Brazil has more than 100 million players.

“Play Mexico, how could he win?”

“That’s right, strange.”

...

Just when everyone felt confused, Japan, South Korea, and the United States sent troops to Mexico at the same time.

Lu Yang had already laid down more than half of the Philippines at this time. After seeing this situation, he knew what Liu Jie thought. It turned out that Liu Jie wanted to rely on the elite players in various countries and use the national war to quickly raise his African legion to 100. level.

African server docking, with more than 1 billion people entering the game across Africa, making it the largest server in the world.

Although African countries have established nations, most of them exist in the form of tribes. If you want African players to fight, you only need to find the tribal chief.

“This Liu Jie really has some special abilities.” Lu Yang said.

Tu Feng said: “Bad news, Liu Jie has more than a little ability. The original United States Guild had a share of Liu Jie. Although the US server is not unified, this time, after helping the African Legion to upgrade the level, the United States will be easily defeated by the other party. It’s unified. “

Lu Yang said: “It is estimated that the same is true in South Korea, and even more so in Japan.”

Tu Feng nodded and said, “Yes, I guess that Liu Jie’s original idea was to unite all the countries in his hands to sweep the world after unifying Huaxia, but you were defeated by the boss. Liu Jie had to lie down and let him be in the world. Allies in every country are also dormant. “

“Now it seems that Liu Jie is back to life, and the next war is not good.” Jiang Ze said.

Lu Yang said: “This is only interesting. If Liu Jie just sinks like this and doesn’t continue to invest money in the game, I think there is really no good way to pack him.”

If Liu Jie is willing to be a rich man, Lu Yang can only use extreme methods to deal with him, but Liu Jie still returns to the game and continues to increase investment, then Lu Yang does not mind defeating him in the game.

“Boss, we have won the British and German Fleet.” Chen Mo called and said excitedly.

“How much did you lose?” Lu Yang asked.

“Two-thirds of the battleships, but the British-German fleet was wiped out.” Chen Mo said.

“It’s a good job. The warship can be purchased at any time, but the improvement in confidence in winning and winning is incomparable.” Lu Yang said.

“But I don’t quite understand it. Obviously, I called for them to retreat during the war, but they just did not retreat.” Chen Mo said.

“The answer is very clear. You can take the fleet back first, supplement the warship, and prepare for the next battle.” Lu Yang said.

“Okay.” Chen Mo left.

Originally a beautiful naval battle that should have been celebrated, but because of the sudden appearance of Liu Jie, Lu Yang lost interest.

The next day, in the evening, Lu Yang brought the Brotherhood of Iron and Blood to defeat the Philippines, Wang Quan of 48 main cities was killed, and the Philippines was forced to retreat for one month.

On the other side, with the help of the United States, Japan, and South Korea, Liu Jie easily defeated Mexico in one day and seized 28 artifacts.

It took Lu Yang a day to organize his team, attack Indonesia, and Liu Jie attacked Brazil. The whole world began to enter a new round of panic. Countries did not know when they would be attacked by Lu Yang and Liu Jie.

On the morning of the fifth day, Lu Yang laid down the entire territory of Indonesia, forcing Indonesia to close its borders. While the team was in the process, Tu Feng said, “I suspect that Liu Jie’s next target is Britain and Germany.”

“Why is this idea?” Lu Yang asked.

Tu Feng said: "In accordance with the usual style of dead grass, two countries have been defeated. A large number of players in the African Legion in the hands of Liu Jie have reached level 100. With the full support of the United States, Japan and South Korea, it is obvious that The African Legion will easily be equipped with 100-level gold equipment. With a gold suit, it is equivalent to the ability to attack developed countries. "

Lu Yang said: "It's very possible, but we can't help it, we can only watch him beat one by one. This **** India always wants to sneak in on us without breaking him, and it can't be beaten at all."

Everyone was helpless, and India was just like a lacking mad dog, staring at Huaxia and biting him hard, and did not dare to lie down. Lu Yang's fleet did not dare to leave Asia.

"Come on, let's go to India and fight for it within a week." Jiang Ze said.

"That's right, taking advantage of the high war sentiment of the players across the country, kill them in one go." Said bitter love for a long time.

Lu Yang said, "Either way, let's go to India and let our wrists know, how big is the gap with us."

More than 50 million Huaxia players came to the Indian waters with a mighty ship. At this time, only 100 Indian warships were rebuilt. Tianlong took these 100 ships to neutral waters and hid. I do n't know what to fight. abacus.

Lu Yang didn't care, he directly ordered the warship to log in and started his new round of war ...

...

It was late in the afternoon here, and news came from the other side. As Tu Feng guessed, Liu Jie led a 100 million African legion to attack Britain and Germany at night.

It was the afternoon of Huaxia, and the early morning of Britain and Germany. In the face of the raid, players from both countries were unprepared and were caught by surprise. The 96 countries and 800 main fortresses of the two countries were swept by the African Legion.

According to statistics from Germany and the United Kingdom after the war, Liu Jie had at least 1 billion euros worth of wealth taken away by Liu Jie together. In this war alone, Liu Jie earned 10 billion credits.

In contrast, Lu Yang's side Although they are playing fiercely, none of the Philippines, Indonesia, and India is a rich country, and Lu Yang does not make too much, plus the loss of warships and players The salary, so that Lu Yang just maintained a non-loss.

late at night.

Russian player Petrov called and said, "Man, there is nothing wrong with you now, and I am going to go to war."

Lu Yang asked, "Who are you going to hit?"

"Turkey," Petrov said.

Lu Yang said: "Good choice, if you need me, feel free to contact me."

Turkey is next to the Netherlands, and Russia can follow that line all the way to Italy, but according to the current situation, Petrov may not be as fast as Liu Jie.

Chapter 1018 - Bloodline Power

"Man, I'm doing something awkward now, but the major guilds and players in the country are pressing too hard, and I can't help it. There is a set of equipment here, it's my apology, you must accept it. Petrov gave Lu Yang a gift box.

When Lu Yang opened it, it was a five-piece set of elemental wrath, which included two 100-level gold gold rings of water elemental wrath, two water elemental fury jewelry, and a water elemental wrath necklace.

“This is a baby, you really want to send me.” Lu Yang was a little surprised.

The explosion rate of the Water Elemental Wrath set is officially given as one in ten million, and the probability is calculated separately, which means that everyone can only get one in ten million chance. Petrov can gather these five pieces, which is not simple. Spend time and money on things.

Petrov said: “It took some effort, man, it’s up to you to be alone.”

Lu Yang felt embarrassed by Petrov and said, “My battle is coming to an end. India can’t support it for a few days. After you’ve beaten Turkey, don’t rush to hit the Netherlands. Be careful where Liu Jie has set you trap.”

Petrov nodded, patted Lu Yang and turned away.

“Rely on, it’s not fun enough. I promised well, but now I regret it.” Said bitter love for a long time.

Lu Yang said: “There is no way, the whole world is fighting, but Russia has defended Huaxia for half a month. Russian players definitely do not agree. Petrov’s ability to support now is quite interesting.”

Everyone sighed.

“Don’t be discouraged. After playing in India, we should also take a break. The players are also tired, and just go to the global competition.” Lu Yang said.

India and Lu Yang have never been on the same level. I believe that after this war, Indian players will fully realize their abilities and will not go to China for trouble.

Of course, this war was not Lu Yang’s initiative to stop, but it was calculated by Liu Jie once and for all. It is conceivable that after defeating Britain and Germany, it will be the other countries in the Skyeye Alliance.

...

the next day.

Lu Yang continued to attack India with players, and more than 50 million people in Huaxia all landed in India, mammothing Asa who did not know his status.

After stunning for seven days, he finally laid Asan to lie down.

System prompt: Huaxia broke through 48 main cities in India and killed 48 kings. Starting today, India closed its servers for one month.

On the other side, Liu Jie defeated six European countries, earned more than 20 billion credit points, and rose again.

King of pirates.

Liu Jie walked on the street contentedly and saw Lu Yang not far away. He came to Lu Yang and said, "Thank you very much, Brother Lu Yang."

Seeing Liu Jie, Lu Yang also smiled and said, "Congratulations, this war has gained so much."

Liu Jie laughed and said, "I hope we can cooperate more and make more money in the future."

Lu Yang said, "I'm afraid that all the money you make will end up in my pocket, how embarrassed I am."

Liu Jie's face remained unchanged, saying, "If you still have this ability, try to make money from me and see."

Lu Yang said, "Okay, I have this idea."

Liu Jie laughed, only when Lu Yang was a hard-charging big head, he left with his men, and when his men passed by Lu Yang, everyone made a threatening gesture at Lu Yang.

“I ...” bitter love half-life and so popular but wanted to rush up.

Lu Yang stopped them and said, “Don’t be impulsive, remember these people, they will be our main enemy in the future.”

Obviously, these people are chiefs or heirs of chiefs of various tribes, as well as the legions and vice-chairmen of the guild under Liu Jie.

Tu Feng said, “It’s all written down. I’ll send someone to check their details.”

Lu Yang nodded and said, “The naval battle is basically over, and the government will not allow such a naval battle to continue.”

“Why?” Xia Yuwei asked in surprise.

Lu Yang said: “It’s too expensive. The money we earn this time is not directly proportional to the money invested by players from other countries. Probably, the money we take is only one-tenth of the money invested by players from other countries. , That is, a lot of money was made by the system. “

“Isn’t the official supposed to support it?” Sun Yu asked.

Lu Yang said: “This is too harmful to the game. If you continue to play like this, players from all countries can’t bear it. This is not the official intention of the game. Look at it. After the national war, a new map should come out. “

The last generation is also a new map after the national war. However, the main body of the last national maritime battle was Liu Jie. The Sky-Eye Alliance swept across the world and forced official changes. Now it is Lu Yang and Liu Jie who attacked the world together Countries.

Lu Yang has completely changed the direction of the previous life. Now he is not sure that he can control what will happen in the future.

“Brother, I’m here.” Huang Xiang ran over from a distance.

Lu Yang looked at Huang Xiang and smiled. Fortunately, the **** was still under his control, and he did not leave the scope of control.

Huang Xiang’s mission during this time was very heavy. Many internal tasks of Lu Yang’s foreign war were completed by Huang Xiang. Huang Xiang thus obtained a lot of internal information.

Even Lu Yang opened his studio to Huang Xiang and let Huang Xiang go in and visit it. Now Huang Xiang himself believes that he has become one of Lu Yang’s most trusted people.

“These days you follow Xia Yuwei and let her teach you how to lead the army.” Lu Yang said.

“You’re going to promote me as the army commander.” Huang Xiang asked in surprise.

“Why, unwilling?” Lu Yang asked with a smile.

Huang Xiang was really unwilling. When he was by Lu Yang, he always transmitted Lu Yang’s news to Liu Jie. This was also the key to Liu Jie’s ability to start a war suddenly. Therefore, Liu Jie didn’t want Huang Xiang to go to the army below. After doing things, he wanted Huang Xiang to stay with Lu Yang.

“Well, I find that I am not suitable to lead the army. I can run logistics for you and learn by your side.” Huang Xiang said with a smirk.

Lu Yang laughed and said, “You want to make money or you want to be lazy.”

Everyone laughed.

Huang Xiang had to laugh at him and said, "Well, let me stay with you. Any work is left to me, and I promise to complete it 100%."

Lu Yang didn't want Huang Xiang to pit others. After all, people who followed Huang Xiang didn't dare to use it. He said, "So, you still follow Xia Yuwei and let her teach you the vice president of peacetime. Work, I will add a few vice presidents in a while, you try first. "

Huang Xiang was so excited that he didn't know the northeast and southwest, and quickly said, "Thank you brother, thank you brother."

The white lion and muddy wine laughed, but they sneered.

Xia Yuwei showed a charming look and said, "Huang Xiang, study with me now."

"Goddess, please take care of you," said Huang Xiangkouhuahua.

Zhang Zibo smiled and ignored Huang Xiang. In fact, the whole thing was determined by Zhang Zibo and Lu Yang.

In order to control Huang Xiang to the maximum extent they can control, Lu Yang wanted Xia Yuwei to temporarily trap Huang Xiang using a beauty measure.

Xia Yuwei himself has no opinion. Although Zhang Zibo is unhappy, he knows the current situation of the Jagged Brothers Alliance, and his relationship with Xia Yuwei is basically determined. He also supports Xia Yuwei's approach. After all, this is not true, and Xia Yuwei will not suffer. It's just that there is a fly around.

Jiang Ze came over from a distance and said, "I just got the news that the time for the contest is fixed. Just one week later, the most rewarding is personal warfare. The first place is the flying mount."

Lu Yang smiled and said, "Finally it was for the flying mount. It was supposed to have been given a year ago. It really wastes my time."

Last year's personal warfare award was a flying mount, but Lu Yang's use of official loopholes with elite players from around the world was officially discovered. Although Lu Yang was not punished, the reward was reduced a lot, which was a disguised punishment.

"Boss, it looks like you have the ambition to win the personal championship," said White Lion.

Lu Yang summoned his body, and the two opened their mouths at the same time and said, "The champion of personal warfare must be mine."

"Fuck, boss, how did you do that?" Bai Lang asked stupidly.

Lu Yang said, "Secret."

It is the most difficult thing for the avatar to speak synchronously with the body, but all that can be done is not only the player with super fast mental reaction speed, but also not fast, which is the biggest secret weapon of Lu Yang. He can use the avatar and the body to do synchronous attacks.

"Come on, let's be honest in a three-player battle. Don't participate in personal battles. The gap with the boss is getting wider and wider." Bai Hu said.

The white wolf shook his head and said, "Let's look for the power of the blood, too, and see if it is good."

Lu Yang laughed and said, "Follow me somewhere, and today I will take you to the blood."

The fruits of the bloodline power need Lu Yang's pirate title to obtain a large number of princes, otherwise only when entering the new continent can they be more easily hit.

The purpose of Lu Yang's visit this time was to take them to fight the blood, and the group came to the pirate castle.

The Pirate King saw Lu Yang excitedly and said, "My brother, you are so outstanding. You have slaughtered three countries. You are the best pirate in the entire Pirate King City."

Lu Yang said with a smile: "You have won the prize. Thanks to your harbor, you can protect me from the wind."

The King of Pirates laughed and said, "Starting today, you will officially become the Prince of Pirates. If you need anything, you can always ask me."

Lu Yang said, "I want to find the power of blood."

The Pirate King said: "Walk around the city and ask them more, you will get a lot of news about the power of blood."

Lu Yang nodded, his badge changed from a marquis to a prince. After leaving the pirate castle, every NPC in the pirate king city saw Lu Yang with great respect.

"Strange, the Pirate King didn't say the mission, but let us wander around the city, what does it mean?"
Asked bitterly for a long time.

Lu Yang shrugged his shoulders and said, "Walk into each room where you can enter, and see if you see."

Become a prince, there will be many NPCs to publish tasks to Lu Yang, of which there are 82 NPCs that publish the power of blood veins, and the power of blood veins is good.

Lu Yang brought a group of vice-chairmen to a pub named Champagne. As soon as he entered the door, the waitress came to Lu Yang excitedly and said, "Hi prince, welcome to my pub. Want any drinks?"

Lu Yang took out 10 gold coins and said, "I invite everyone to drink."

"His Royal Highness invites everyone to drink," the waitress shouted happily.

"His prince, I have been informed that there is a Void Dragon on the neutral island of Alex," said a pirate.

“Thank you,” Lu Yang said.

He said to everyone around him, “Go to Alex Island, let’s find the Void Dragon.”

The Nether Dragon mainly produces Nether blood, which is special because it allows a player to attack the enemy in the Nether without being hit by the enemy. It is a very overbearing blood.

If you want to crack this bloodline, you must either avoid, or learn the skills of immune physical attacks and magic attacks, or have such equipment, otherwise you can only be attacked by the opponent for 10 seconds.

In the “Second World” game, with the same level and the same equipment, except for the Paladin, few other classes can resist the attack of another class for 10 seconds.

Lu Yang took the official pirate ship and led the team to Alix Island, a tropical rainforest-type island with jungle everywhere.

“Fuck, this island is so big, where can I find it?” Asked bitterly for a long time.

Lu Yang said with a smile: “It’s easy to do, you are ready to defend, look at me.”

“Boss, what are you doing?” Xia Yuwei asked.

Lu Yang said, “Isn’t it raining? I’ll try my panic to see if I can chop him out.”

“Panning Down”

A magical energy penetrated from Lu Yang’s body into the clouds of the sky. Originally in the forest under heavy rain, countless rays of light lit up.

“Hello ~”

“Woo ~”

...

Thousands of tweets sounded, countless more than 100 monsters rushed out of the rain forest, and they launched an attack towards the landing sun.

“Defense,” shouted Zhuzhuo.

Xiao Liang and Zhang Zibo stood beside Lu Yang, holding up a big shield.

Taking Lu Yang’s current water-based mage’s more than 80,000 magical injuries, few ordinary monsters of level 100 can get close. Finally, only a few hundred elite monsters ran from the rain forest to the front, and a huge flying dragon. Every time the body is attacked, it occasionally triggers the ice-blue light, which is the performance of triggering the power of the void to avoid the skills.

Void Dragon (Lord)

Level: 120

Qi and blood: 3000000000/3000000000

“Ready to pick up the monster, we seconds him as soon as possible.” Lu Yang said.

Special monsters such as the Nether Dragon will only appear after Lu Yang gets a system-released mission, but it does not mean that others cannot grab monsters.

Although the neutral sea area is large, it does not mean safety. If Liu Jie had killed so many countries, Lu Yang would not dare to take this task. Although Liu Jie seems to occupy a lot of cheap, actually Lu Yang is the biggest Beneficiaries.

“Blazing Heart”

“Wrath of Thor”

“Poisonous Flame”

...

More than 30 special skills were shot at the same time. Void Dragon’s blood was lost to a robbery. After several attacks, the Void Dragon was killed and fell to the ground, and a blood power fell to the ground.

Power of Bloodline-Void

Description: Players can give themselves the power of the Netherblood.

Lu Yang asked: “Who wants to be invisible.”

“I.” Han Fei raised his hand and said, “As a thief, what I want most is to be invisible when fighting.”

Lu Yang looked at the others, and no one scrambled with him, saying, “It’s yours, let’s go to the next place.”

He gave the power of blood to Han Fei, and after learning, the little one mastered the power of the blood of the void.

On the way back, Han Yu asked, “What new capabilities do you have after learning?”

Han Fei said, "I'm not a space thief. This blood power not only allows me to hit people with skills in stealth, but also allows me to have a warrior jumping ability to protrude 300 meters into any square. There is a 20% chance to avoid physical and magic attacks from others. "

"Fuck, this is too much," said the White Lion.

Lu Yang said with a smile: "Don't rush to a conclusion, you will know what it means to play when you have the power of your bloodline."

"What blood power do we have?" White Wolf asked.

Lu Yang said, "It depends on luck."

The group returned to the pirate kingdom and went to the next store to ask.

"Her prince, I have been informed that some people say that the offspring of Tenjin's pets appeared on Trolla Island," said the shop owner.

"Thank you very much." Lu Yang took everyone to Trolla Island quickly. Just as before, he launched a panic and killed all the monsters on an island. The most noticeable one was Bai. The hairy ape is 10 meters tall, and the muscles on his arms make people look scary.

God's Pet Offspring-King of the Apes (Lord)

Level: 120

Qi and blood: 5000000000/5000000000

"Xiao Liang, open the heart of anti-war to resist him." Lu Yang said.

“Oh.” Xiao Liang glowed with ice-blue light.

“Ice Resistance”

Xiao Liang’s body exuded a cold wind, and hit the king of the ape head-on, and a sword was cut down.

“-18525”

The ape king roared, a fist larger than Xiao Liang’s body, and punched Xiao Liang’s shield.

“嘭”

Xiao Liang flew out more than 30 meters.

“109860”

“Fuck, I punched my 100,000 blood with the heart of anti-war, how aggressive this guy is.” Xiao Liang said dumbfounded.

The anti-war heart can reduce Xiao Liang’s damage by another 50%. When superimposed on the iron wall, he only needs to take 25% of the damage, but can still be beaten by 100,000. Xiao Liang’s own 200,000 defensive power is eliminated. The attack power is as high as 1.2 million.

“Be careful In addition to their defenses, everyone else must die with a fist,” Lu Yang said.

Everyone nodded.

Xiao Liang got up and rushed back to the Ape King to resist again. Lu Yang led the people to fight for a few minutes. When the Ape King was about to die, he shouted, “The muddy wine is ready to pick up the monsters. I call you to be invincible.

“Ok.”

Zhuoju rushed to the front with his big shield, and the lord blame the last 1 million HP remaining. Lu Yang said, “Zhuoju is invincible.”

Zhuoshu roared, drawing the hatred of the lord monster to himself, and opening up invincible.

“Hello ~~~~!”

The ape king roared suddenly, his body glowing with white glow.

Chapter 1019 - Rush Schneider

? System Tip: The Ape King launches the power of the gods, increasing the attack power by 100% for 30 seconds.

“Fuck.” Xiao Liang rolled back and quickly ran to a distance. The ape king ’s attack power was not just one person, but one side. The attack power was doubled. One million blood can’t carry it.

The ape king ignored the invincible effect of Zhuoji, and continuously punched him on the invincible protective cover of Zhuoji, watching Xia Yuwei and others startled.

“Quick attack, you must be killed within 10 seconds, or the muddy wine will hang up.” Lu Yang shouted.

The crowds went out with all their strength, and finally got the muddy wine over in the last second.

Looking at the ape king who fell to the ground, Zhuojiu sighed and said, “This big fist gave me a punch and it scared me.”

Lu Yang laughed and said, "Look at what baby you gave."

Pick up the muddy wine and share it with everyone.

Power of the Blood Vessel

Description: It is only the power of the bloodline blessed by the **** of heaven. All players who have the power of the bloodstream can turn on the power of the **** of heaven, increasing physical attacks by 100%, increasing the critical strike rate by 10%, and the duration is 30 seconds.

"Who wants it," Lu Yang asked.

"I." All the melee professions such as the white lion, muddy wine, white wolf, and half-loving half-life all want it.

Lu Yang said, "It's time to see your luck. Roll it. Whoever rolls high will go to whoever."

"Bless, bless, it must be mine."

"My mine must be mine."

"Draw a circle and curse you, it must be mine."

...

More than 30 vice presidents opened various prayer modes. After 10 seconds, everyone threw the dice, of which Zhou Tianming had the highest points.

"Wow haha, transferee, transferee." Zhou Tianming laughed.

Everyone: "..."

Lu Yang smiled and gave the power of the blood to Zhou Tianming, saying, "This time you are two-man battle, you are stable."

Zhou Tianming nodded. With the power of this blood, who can beat him in the duo, except Lu Yang, who can control several characters at the same time, the others are ruthless, and who can control several people, the most feared is more Human warfare, after all, there are too many people, and it is still impossible to control the two bodies from being attacked. Therefore, in the battle of two or more people, no one will use the power of blood to participate in the battle.

"Boss, is there any blood power, I want it too." Xia Yuwei said.

Lu Yang said: "The power of your blood is special. Let's find out, if you are lucky, you can really get one today."

"Is there anything special about the strength of my bloodline?" Xia Yuwei asked in surprise.

Lu Yang said: "The power of your bloodline is called the Templar, which is very overbearing."

"I can't fight God." Xia Yuwei asked.

Lu Yang said: "If you are singled out, the blood of the gods cannot beat you."

"I wipe it." Zhou Tianming was anxious and said, "What blood is so strong, I can't do anything with God."

Lu Yang shrugged his shoulders and said, "There are only a few female-only bloodlines in the game, Templar bloodlines. Let's look for them, go from house to house, and see what the next one can give."

The group returned by boat. Everyone was curious about what the blood of the Templar could do. By the way, Lu Yang felt the place was familiar. He suddenly remembered it and said, "You go back first, I'll go Find a baby on the sea floor and come up soon. "

“What baby.” Jiang Ze asked.

Lu Yang said, “The parts of the Neptune suit are right here. You don’t have to follow me. I have the water element. I can jump back after a while.”

“Oh.” The crowd nodded.

Lu Yang jumped into the water, Huang Xiang watched Lu Yang launch, his eyes circled in his eye sockets, and secretly sent a message to Liu Jie, “Jie Shao, Lu Yang jumped out of the sea at coordinates 1987150.1978096 and said he was looking for something If you kill him from a distance, you can explode his equipment. “

“Are you stupid?” Liu Jie yelled at the past, “Now I want Lu Yang’s equipment to do what I want is to destroy his main force. There are only three in the heart of the devil. I fight It’s important that you continue to monitor Lu Yang and do n’t expose yourself easily. ”

Huang Xiang’s heart was full of joy, and he closed the chat box cheerfully.

“What is so happy Huang Xiang.” Asked bitterly for half a life.

“Happy for you, you have such a strong blood power.” Huang Xiang said.

“It’s worthy to be the boss’s good brother, and it’s really interesting.” Said bitter love for a long time.

“That’s for sure.” Huang Xiang began to blow, the others could only listen, and at the same time looked unhappy at bitter love for a long time.

The light flashed.

Lu Yang returned to the ship, with one more Neptune boot in his hand, saying, “There are only the last two left in the Neptune suit.”

By gathering the last two pieces, you can trigger the Neptune Shield, so that when Lu Yang singles out, he will take less damage.

The group returned to the pirate king city and entered the next room. In this room, it was an ordinary house.

“Oh, Prince, do you know what’s wrong with you coming to me?” The pirate asked.

Lu Yang said, “I want to ask about the power of blood.”

“I heard that the blood of the Templar appeared on the island of Bolange. I don’t know if it is true or false, you can check it out,” said the Pirate.

“Thank you.” Lu Yang turned to the crowd and said, “Let’s go, let’s see the power of this bloodline.”

Xia Yuwei asked excitedly: “Boss, what’s special about the power of the sacred blood.”

Zhou Tianming said: “Yes, boss, tell us quickly, what is going on in this bloodline is stronger than the bloodlines of my god.”

Lu Yang said with a smile: “The blood of the Templar can make players immune to 7 physical and spell attacks. The interval between this skill is only 30 seconds, which can be said to be a very unreasonable skill.”

“Immune to 7 attacks?” Zhou Tianming said silently, “I still need 3 seconds to attack with my two-handed sword. I can only attack him effectively three times every 30 seconds.”

Lu Yang said: “This is still under the circumstance that the Templar does not evade. The Templar also has a special skill called shadow split, which can divide 3 people who are exactly like him. These three people do not know the immune skills. , But with 50% of the attack power of the body, the damage is very overbearing. “

Zhou Tianming said, "I do have some restraint."

Lu Yang laughed and said: "The various professions of this game have always been restrained from each other. Even the blood of my avatar has restrained blood."

"What blood can restrain you." Jiang Ze asked.

Lu Yang said: "Few, this bloodline wants to restrain me from purely looking at the face. It is the blood of the undead. The blood of the undead assassination has a chance to hit 5 times critical strikes. Although the chance is only 15%, but with good luck three consecutive critical strikes. No doubt. "

"Is there such blood?" Han Yu asked in surprise.

Lu Yang said: "In the future, this game will be a war between players with the power of blood, and the rest without blood, basically watching the show. This time I wasted so much energy and restricted all countries. Only a few countries can enter the pirate kingdom. The purpose is mainly here. Let's fight for it and see how many we can get. "

Everyone nodded.

Soon after the boat arrived at Bolinger Island, Lu Yang found that there were already people on the island, and the people above were still old people in Lu Yang.

"Isn't this Edward and Schneider. Why, the two came here?" Lu Yang asked sarcastically.

The two men betrayed their own country. At the time, the battle between the two men and Chen Mo's fleet made Lu Yang very incomprehensible, but Liu Jie's raid gave everything a reasonable explanation.

"Why can't we come?" Edward asked with a smile.

“Of course, you can see that the two got a lot of benefits in this sneak attack on the country. Tell me, how much cash does Liu Jie give you?” Lu Yang asked.

Edward’s face was a little flustered and he said, “What nonsense, obviously you are entangled in my fleet and you are not allowed to leave, causing my country to be invaded by Liu Jie, and it has nothing to do with me.”

Lu Yang said: “It’s so clean. I can’t think of you, a person who keeps the chivalry of others every day, can do this kind of thing.”

Zhuojiu said, “Let’s talk less about the chivalry in the future. I really look down on you.”

Schneider was furious and cursed: “Say here to talk to us, Edward, gather people and kill them.”

Lu Yang laughed and said, “It’s up to you, you can’t beat me alone.”

Edward showed an awkward look, and said to Schneider, “Don’t fight with Lu Yang in a place with water, we can’t beat him.”

Schneider froze. He was the one who knew that Edward had the power of thunder and lightning, and knew the strength of Edward clearly. Cute Edward said that his power of thunder and lightning couldn’t beat Lu Yang, which made Schneider afraid to talk any more.

Edward said to Lu Yang, “I believe you don’t want to start a war now, we just quit.”

Lu Yang said: “Of course, I don’t have time to trouble you now, and the global contest is what I value.”

Edward was so angry that Lu Yang said so clearly that he didn’t put them in his eyes, and turned around and left.

Zhou Tianming was already on the verge of an outbreak. When he saw that Lu Yang didn’t fight, he asked curiously, “Boss, why not kill them?”

Lu Yang said: "Don't expose your strength so early. The global competition is nearly 100 million. It is better to get them in your pocket than to kill them."

"That's right," Zhou Tianming said.

"Find a place suitable for defense, I put skills." Lu Yang said.

Zhuoju and White Lion looked around and found a suitable corner, and Lu Yang let out a panic.

"Damn, what kind of skill is this."

"Be careful, the enemy found us."

A panic came from not far away, and Lu Yang and the White Lion looked over their heads, and found that Schneider actually appeared with a group of people not far away.

Schneider is a druid player who knows stealth, but Lu Yang's Panic Slash is an indiscriminate attack. As long as you enter the range of Panic Slash, you will be manifested when you are hit.

Schneider, 200 meters away from Lu Yang, said, "You're looking for death."

Schneider snorted, transformed from a human form into an iron rhino, and shouted, "Attack, kill Lu Yang."

More than 200 players rushed around him, each of whom was German elite, with impeccable levels, equipment, and special items. He was the strongest group in Germany.

Han Fei said, "I'll meet him first."

The blue light flashed, Han Fei darted forward 200 meters forward, appeared in front of Schneider, and turned his dagger up and down, slashing according to Schneider.

“10186”

“10126”

...

Schneider sarcastically looked at Han Fei and said, “Your damage is good, but the team is meaningless.”

“Really?” Han Fei suddenly sneered.

“Unscrupulous Strike”

A cold light flashed, and Han Fei’s dagger pierced into Schneider’s eyes suddenly.

“1000000”

Schneider died on the spot!

“Combat Resurrection”

Schneider resurrected in situ, watching Han Fei angrily and shouting, “Kill him, don’t let him run away.”

Blockbuster skills spread down toward Han Fei, and he launched an offensive against him in melee.

“I just use you to try my new skills.” Han Fei turned into a void, and when Schneider’s men rushed to Han Fei’s side, no matter how they attacked, they could not hit Han Fei.

“Schneider, you’re really looking for death, I’ll do it for you.” Han Fei’s dagger glowed coldly.

“Kill the Sword”

Han Fei’s body has a powerful murderous spirit. He possesses a level 4 killing heart and releases the second skill unique to the killing heart. Based on his agility, he causes a lot of damage to surrounding players.

In just an instant, more than 30 melee players were killed in seconds. This skill can last for 30 seconds. Han Fei was encircled by Schneider.

“Damn, why can’t I hit him.”

“Why can he release his skills while in stealth?”

...

There is no way for a group of people to face Han Fei’s attack. Even players with artifacts have no way, let alone Schneider didn’t dare to come out with an artifact.

“Treat, add blood to me soon.” Schneider originally wanted to have a hard time with Han Fei, but found that it was not enough, and shouted for treatment to add blood.

“I want to add blood, I don’t have the opportunity.” Zhou Tianming had already run near Schneider. Hearing this sentence, he launched his jumping skills and jumped to the back row of treatment.

“Tianjin”

A fiery white light lit up on Zhou Tianming’s body. Zhou Tianming, who had already had 220,000 attack power, became 440,000.

At this stage, the top 100 players' physical attack power can only reach 220,000, but Zhou Tianming has doubled on this basis.

"Blade Storm"

Zhou Tianming turned his body in place.

"401980"

"395266"

...

A piece of damage lighted up, a cloth armor treatment class had a defensive power of only about 20,000 points, and a blood amount of only 300,000. In the face of Zhou Tianming's attack, he couldn't even carry two swords, and he was instantly killed.

"This attack is too strong." White Lion and others said with emotion.

Lu Yang said to Xia Yuwei: "Don't envy the gods, wait for your templar to hit, your strength is equally strong."

Xia Yuwei nodded.

"Humans, you dare to attack the Templar." In the forest in the distance, a female NPC three meters tall appeared.

Schneider was reluctant to dodge Han Fei's attack. Suddenly he saw the Templar, and said excitedly, "Damn, Lu Yang, they are fighting the blood, and they will find a way to grab it."

“You don’t have this chance.” Lu Yang said a spell.

“Meteor Falls”

A huge fire meteor descended from the sky. In the middle of a group of Schneiders, more than 110,000 spell injuries and a close to 100% chance of critical strikes made Schneider and others all blood, and when the next panic fell down, the whole team was killed.

“Boss, your output is too strong.” Said bitterly for a long time.

Lu Yang smiled and said, “Who made me dare to come out with the spirit of the devil and break 65% of their magic resistance. What did they fight with me?”

Everyone nodded.

Lu Yang said, “Go together and kill the Templar, don’t give him the opportunity to use more skills.”

Zhuoju and others rushed up and easily killed the Templar, and got the power of the blood-the Templar.

Power of the Blood Vessel

Description: It is dedicated to female characters and has no occupation. It has stealth ability and cannot move when it is turned on. After appearing, its attack power is increased by 2,000 points, defense defense is increased by 5,000 points, and its duration is 5 seconds.

The second skill is the guardian of the temple, which can resist 7 arbitrary attacks for 30 seconds.

The third skill is Jianguang, which can release Jianguang every one meter to hurt people. The power is 120% of the regular attack. Using skills cannot trigger Jianguang.

“Jianguang’s skill is strange.” Xia Yuwei said.

Lu Yang said with a smile: "Who knows, but the first two skills are powerful enough."

Xia Yuwei nodded.

In fact, the third skill is a very strong skill, but no one has used it yet. Lu Yang can't say that he knows how to use this skill.

"Boss, there seems to be a dark treasure chest here." Sun Yu suddenly pointed at a corner of a prominent platform on a cliff on the island in the distance.

Lu Yang looked at that location and noticed that golden flashes appeared and disappeared from time to time, and said, "I'll go and see."

He threw out the escape dagger, jumped up the cliff quickly, came to the platform, took a look, and said with a smile, "There is really a treasure chest, and it is still excellent gold."

Everyone was excited.

Lu Yang returned to his place, opened the treasure chest, and found a book inside.

The Strangling Strike

Department: Water System

Distance: 100 yards

Cost: 3000 magic

Description: Can be used to kill enemies within 10 yards on land for 2 seconds. Damage is one-fifth of spell damage. If in water, use enemies within 100 yards. Wave strangling for 10 seconds. Damage is spell damage.

“The limits of the water mage are really big said White Lion.

Lu Yang laughed. He learned his skills and said, “There is a lot of restrictions on others, but no restrictions on me.”

He has a pure water bottle in his hand, and he can turn a field into a sea at any time. Who can limit him?

“Unexpectedly, there are unexpected gains, Sun Yu’s look is really good.” Lu Yang said.

Sun Yu was performed, rushed to Yangyang and scratched his head, and said with a smile, “I found it by accident.”

Lu Yang laughed and said, “Let’s go, let’s go back to the city and continue to find the power of blood, but the next trip is not so easy. Now that it is exposed, we must be ready to start at any time.”

“Exactly, it was exercise before the competition.” White Lion said.

Chapter 1020 - Top 10 Bloodlines

? Huang Xiang has been following the crowd, he sent a message to Liu Jie and said: “Jie Shao, think of a way to stop Lu Yang. He is constantly gaining blood, and he has already got three, so go on, right? We are too bad. “

What Liu Jie cares about most is the power of blood, but this thing ca n’t be bought with money, and a lot of rich people are waiting with money, only by luck.

He frowned, “But I can’t send someone now, then you’re exposed.”

Huang Xiang said: "Schneider just discovered that Lu Yang is fighting the blood, and he can find a way to contact him, and he can expose the spies under his hands."

Liu Jie found that this was really a good idea. He called Schneider and said, "Where is it? Let's discuss how to call Lu Yang."

"It's the right time for you to call. I'm looking for you. I'm looking for a way to follow Lu Yang. He's fighting the blood. He seems to have found the task of receiving blood." Schneider said.

Liu Jie pretended to ask in surprise: "How is that possible?"

"It's impossible. We Germans never tell lies and quickly find a way to follow him." Schneider exasperated.

"Okay, I'll send someone to follow him at Pirate King City." Liu Jie said excitedly.

Lu Yanggang returned to the pirate king city and found that many people started to follow him at the port. He smiled and said to Tu Feng and others around him, "It seems that Schneider wants to send someone to follow us."

Everyone smiled, and no one spoke.

Lu Yang took them to the next room. This is the home of a businessman. He asked, "Do you know where there is blood?"

"I am a mysterious businessman, very mysterious, especially mysterious, extremely mysterious, so mysterious that you cannot imagine that you want the power of blood, it is better to see if I have what you want here." The businessman suddenly transformed, from a The fat middle-aged man became a boy in black.

Lu Yang shook his fist. The mysterious businessman is the best businessman, but the chances of meeting him are very small, especially the things this businessman sells are based on the number of times you meet to sell you good or bad equipment.

Only one person can buy it at a time. After the purchase, he disappears. The next time he meets, the equipment he sells to you is 10 levels higher than the existing equipment.

But if you want to meet him, you can only see your life. If your life is good, you can meet him twice in a month, but twice what he sells to you, but you can't decide, it is luck.

Lu Yang remembers that in the last life, someone bought a 200-level artifact angel twelve movements at the Mystery Merchant. At that time, the whole service was a sensation. Players were all looking for this mysterious merchant, but they could not find it.

"Let me see what you have for sale." Lu Yang asked grabbing the mysterious person.

"No problem." The mysterious man took out the contents of his backpack, and the first was the power of blood.

Power of Bloodline-Lightning

Description: Let you have the power of thunder and lightning, which can be transformed into a thunder and light to move quickly anywhere, regardless of terrain restrictions, as long as you have blue, you can fly freely!

Lu Yang laughed and bought the power of this blood, spent 500 gold coins, turned around and threw it to Mu Yu, and said, "Little girl, learn quickly."

"Thank you brother." Mu Yu happily learned his skills and became the Queen of Thunder.

The second item was a pure water bottle. Lu Yang was feeling that a bottle was not enough. He immediately bought the second bottle. The third item was a flame amulet, which was also bought by Lu Yang. Even now they are not used, but There are many experts in the guild that can use it.

"It is indeed a mysterious businessman, and everything is really good." Xia Yuwei said.

Lu Yang said: "The next time he meets, he sells me 110-level items. Look at it. The next time I sell something better, but I don't know if there will be a chance."

This mysterious businessman encountered a bug, but at the time in the New World, it could not trigger this bug before entering the New World.

"Let's go, let's go to the next house." Lu Yang took everyone out of the room and walked towards the next house. At the same time, a group of people followed Lu Yang and entered the merchant's house.

"Damn, go out. Do you want to rob me? Tell you, this is Pirate City, and no one dares to mess around."

Lu Yang stood at the door, listening to the scolding of the businessman inside, and waited with a smile. After a while, the group was pushed out.

Coincidentally, this person Lu Yang knew that the player who was launched was the head of a black legion under Liu Jie, and he was also a celebrity of the previous life.

The reason why this person is famous is not because of his brilliant record, but because the brother's name is really amazing, and he does n't know what his parents think. Lu Yang does n't pronounce it in Africa, but it's translated into In Chinese, this person's name is called nasty death.

When the person explained in the last life, it was because his father thought it was unpalatable to die because of his mother, so he gave him such a name to tell his mother that it was unpalatable to cook.

"What the hell, why can't we do it?" Said unpleasantly.

Lu Yang said, "Who knows, otherwise you will go first."

He had a bad look at Lu Yang, and Lu Yang stepped into the room first, but his encounter with his subordinates was the same as before, and he was kicked out.

“Asshole,” cursed unpalatably.

Lu Yang glanced at him with a smile, and led someone into this room. The owner of the house was a chief pirate.

“Oh, it’s His Royal Highness. Welcome to my room. I don’t know what you’re looking for?” The chief officer asked.

Lu Yang said, “I want to know where the blood is?”

The chief mate said, “I heard that there is a treasure at coordinates 378969.343298. I don’t know if it is the power of the bloodline.”

“Thank you, I’ll search there.” Lu Yang said.

The chief officer said: “There is a mysterious sea area, and if you want to go there, you must take a special boat of the Pirate Kingdom. I advise you to bring more food and water, otherwise you can’t travel there, and it is best to find some villages on the road. Supply for you. “

This coordinate position is above the mythical islands. It is almost on the other side of the planet. The official pirate ship cannot survive without supplies. It must carry a sufficient amount of water and food to allow the system NPC to eat.

As for the village, many people in the last life explored this continent and found that there are many villages on the large islands on the other side of the world, and they can be replenished with gold coins.

But these villages are not easy to find, it takes players a lot of time to find, and there is no village head supply for a long time.

Lu Yang took everyone to the port, found an official pirate ship, and said to the captain, “I want to rent a boat.”

“His Royal Highness, willing to serve you,” said the captain excitedly.

Lu Yang took the muddy wine and Han Ying to board the warship. Soon, the ship sailed to the sea and sailed towards Britain.

Here Lu Yang just left. On the other side, people sent by Edward and Liu Jie chased after him. It was awkward to learn and landed in Yang. He rented a pirate ship and chased out.

“Boss, it’s ugly and Schneider came up with two ships,” Sun Yu said.

Lu Yang turned around and saw the embarrassing dead ship behind him, and said, “It’s okay for them to follow, I wish they would come over.”

“Why.” Sun Yu asked curiously.

Lu Yang smiled and said, “You’ll know in a while.”

It was as if he was deliberately disgusting, and ordered the ship to speed up to the ship next to Lu Yang. He shouted excitedly, “Chairman Lu Yang, where are you going?”

Lu Yang said with a smile: “Go to a very mysterious place.”

“Oh, just right, we’re going to a mysterious place too.” Unlucky laughed.

Lu Yang laughed and said, “Okay, let’s go together.”

It’s unpalatable and blinked. He did n’t understand why Lu Yang laughed, but he followed Lu Yang, and he had a lot more people than Lu Yang. The pirate ships they rented were not warships. Artillery, he didn’t understand why Lu Yang was so confident.

“It’s great to have a demon heart. We are just advance troops, and there are many people following us.”
Distressed and mumbled.

Lu Yang was too lazy to ignore him and continued to sit at the bow waiting.

“Boss, let’s get rid of him.” Said bitterly for a long time.

Lu Yang shook his head and said, “There is a Schneider in the back, just following us, I will have a way to pack them later.”

The bitter love had nodded and promised.

The ship took the neutral sea route from the pirate kingdom, and quickly traveled to Britain, the secluded country, then continued through the mythical islands, and then reached the mysterious sea.

The captain went to Lu Yang and said, “His Royal Highness, the remaining half of the grain and water we carry is left. If we continue to sail, we may not be able to reach the target location.”

Lu Yang said, “So, look at me.”

“Summon Shark”

Two large 13-level sharks suddenly appeared next to the pirate ship in Luyang. The pirate ship was not large, only 5 meters high, but the two sharks were more than 3 meters tall and more than 20 meters in length, only smaller than the pirate ship. To a third.

“What is this?”

“Shark, how could there be a shark.”

...

Not far from Lu Yang's ship, the horrible group also saw the sharks. When the horrible group died and did not know what was going on, Lu Yang looked up to the other side and said, "It's horrible, thank you Ah, there is not enough food for one boat on this trip, I can only say sorry to you."

Looking at Luyang in surprise, he asked, "What do you mean?"

Lu Yang said, "I mean you can die, big shark, attack."

The two sharks turned to look at the ugly dead pirate ship, staring at their ferocious eyes and rushing forward with **** mouths.

"Oh, no, no, no, no, no." It was so unpleasant, and panicked, who could have thought that these two sharks were summoned by Lu Yang, and they were so huge.

Soon, the big shark came to the ugly dead pirate ship, flicked its tail suddenly, and pumped it to the bottom of the warship.

“噫”

A violent shaking came.

“-228186”

The attack method of the big shark is siege damage, and the damage of buildings and ships is increased by 50%.

“No, the attack power of this thing is too high, the pirate ship can't easily carry it.” Some players shouted.

The pirate ship is a Class 3 ship with only 5 million HP. According to the attack intensity of two sharks, it will sink in less than two minutes.

“Who’s going to go down and kill these two sharks,” shouted unpalatably.

There were a large number of fighters and water mages accompanying them, but this was an underwater attack, which reduced the speed of action by 50% and the speed of attack by 50%.

But it did n’t work. Soon, the ship’s blood volume dropped to 3 million, and it was so unpleasant that the others jumped out of the sea and launched an attack on the sharks.

But in the seawater, the shark’s moving speed is 575 points. If you want to attack, you can’t hit it. The shark just keeps attacking the pirate ship.

After 2 points, the pirate’s bow burst.

System prompt: You destroyed a pirate ship

“Go and grab the supplies and give them to Schneider, you must not let Lu Yang take them away.”
Shouted unpalatably.

Lu Yang sneered and ordered: “Explode.”

The two sharks swam beside the supplies, facing the uncomfortable death near them, and their bodies swelled violently.

“What is the situation?”

“boom”

The two sharks exploded at the same time, injuring 300,000 in a single attack, killing all the uncomfortable people nearby.

“Summon Shark”

Lu Yang’s mouth read a spell, and two more sharks appeared. There were more than 100 people in the sea. Seeing this situation, all fled.

Lu Yang looked back at Schneider, who had taken the boat to the sky.

“Run fast enough,” Lu Yang said to the bitter love half-life and others, “carry food and water.”

“Yes.” Everyone worked together to bring the supplies onto the pirate ship. Half of the supplies had disappeared and the warehouse was full.

“Prince, you are an admirable master,” said the captain excitedly.

Lu Yang shrugged his shoulders and said, “No way, who makes the enemy too stupid.”

Everyone laughed.

Schneider has dared not chase after him. Who would have thought that Lu Yang had such a special summoning beast, and the cool-down time was so short if summoned. If he catches up again, he would have to die in the hands of Lu Yang’s shark.

The fleet continued to sail towards the coordinate position. Nearly a third of the way, Lu Yang looked around and pointed at an island not far away and said, “Go and stop there, and we will search for supplies there.”

There is only one hour left on the ship’s supplies.

The ship docked and everyone boarded.

Lu Yang looked around the island. This place was familiar to him. He always ran here to rest when he fled in the last life.

“Don’t run around, follow me straight into it.” Lu Yang said.

“Boss, what is this place, are you sure there is a supply here?” Xia Yuwei asked.

Lu Yang said, “Look ahead and see.”

Moving on, after walking for 10 minutes, a small village appeared in front.

“There is a supply village, great.” Jiang Ze and others shouted excitedly.

Lu Yang said to the captain with a smile: “Go and replenish it.”

When the ship was getting less and less supplies, the captain gradually became indifferent to Lu Yang, but when Lu Yang found the supply, the captain was full of admiration for Lu Yang again.

“You are such an admirable person.” The captain bowed his salute and ordered the sailors to enter the village.

Lu Yang found the village chief to pay for the purchase. After the supply was completed, the ship continued to move forward, and at 2 am in China time, it came to the coordinate position.

Lu Yang found a treasure chest in a bush, opened it, and found that there was a blood vein called Huangsha.

Power of the Blood Vessel-Yellow Sand

Description: After mastering the power of the yellow sand blood, players can turn into a yellow sofa to attack.

Lu Yang looked at the crowd and said, "Who wants it."

"Give me," Tian Yao said.

Lu Yang nodded and said, "If you don't want it, I'll give it to Tianyao, this is a baby."

As soon as Tianyao's eyes brightened, he took the power of the blood and clicked to learn.

"I'm going, so strong." Tian Yao exclaimed.

"What skills?" Zhou Tianming asked.

Tianyao said: "It can be transformed into a piece of yellow sand, inflicting the same amount of power points and basic physical attack damage to enemies within 100 yards per second. It can also launch an earthquake that causes 3 times the power points of damage. Earth wall skills can trap the enemy. "

Everyone: "..."

"It seems that this blood is also very strong." White Lion said.

Lu Yang said: "Among all the powers of blood, he can be ranked in the top ten. If there is no restrained power of blood, he is the first."

"Fuck." A lot of warrior players felt miscalculated.

Lu Yang said, "Use the scroll back to the city to go back, take a rest, and look for it tomorrow."

The crowd nodded, and each took out the fort to return to the city and flew back to the city of St. Gall. Lu Yang left the money for the supplies to the captain, and he flew back to the pirate king city to rest.

the next morning.

Lu Yang just woke up. A call was made to Lu Yang's mobile phone. He pressed the connect button and asked, "Who."

"Boss, it's me." Qi Yun said.

"What is it?" Lu Yang asked.

"Wipe, you forgot. Today is the ribbon-cutting ceremony of the new company. You said you are coming." Qi Yun said.

In Lu Yang's embarrassment, he really forgot, and said, "I'll be there. Wait for me."

Fortunately, this business is in Donghai City, otherwise he is really out of luck. Another thing that makes Lu Yang more comfortable is that the black and white did not forget this matter, let the hands go on alert now Yang's studio was exposed, and no one was sure if Liu Jie would jump over the wall and recruit someone to assassinate him.

After all, Lu Yang snatched the three big banks of the Liu Jie family. This hatred is not a simple sentence. I won, and you can end it if you lose.

When the convoy came to the square, Lu Yang found Qi Yun and found that there were only three security guards around him. He frowned and said, "Why just three people."

Qi Yun said: "Three are not enough."

Lu Yang said, "Fuck, how much money do you make for me a year now? I sent you a few bodyguards. Hurry up and contact Heishui. No matter where you are or what city, there are at least 10 security guards around you. , At least three of them were from MI6 and the FBI. "

Qi Yun had a black line in his forehead, and a group of domestic leaders participating in the meeting was a black line in his forehead, as if watching a TV series again.
