

Wild Fire 1021

Chapter 1021 - Bully the African Legion

Qi Yun said awkwardly, "Boss, is it too wasteful?"

Lu Yang said: "No waste, so, my next executive order, your security budget will be 10 million U.S. dollars each year. I will not intervene if you look at it.

Qi Yun felt a little moved, and Lu Yang was able to do so, so that he didn't know what to say, which was not good for him anymore.

"Thank you, boss." Qi Yun said.

Lu Yang patted him on the shoulder and said, "What's our kind."

"Boss, the ceremony is about to begin." A beauty secretary came over and said to Qi Yun.

"Boss, let's go." Qi Yun said respectfully.

The beauty secretary is a little shy, Qi Yun! At the helm of a dignified billion-dollar bank! He bowed to a teenager and called the other boss. He couldn't understand what was happening.

Qi Yun introduced to the secretary: "Xiao Qing, you have become my secretary and you should know something. The chairman behind our bank, in fact, the person in front of you, his name is Lu Yang, the boss of the Iron Brotherhood. . "

Xu Qing blinked, reacted immediately, and bowed, "Hello Chairman."

Lu Yang smiled and said, "You're welcome."

Xu Qing stood by, Lu Yang and Qi Yun walked forward, and said to Qi Yun as he walked: "You don't need to introduce my identity in the future, the company will always be your management."

Let Lu Yang control him, he doesn't understand.

At the front desk, the ribbon-cutting ceremony began. During the urban development, a large area of land became Lu Yang. Among the leaders who came, Qi Yun brought Landing Yang to a very old leader and said to Lu Yang: "This cooperation is thanks to Qin Lao's help. "

This land is worth tens of billions. Donghai City has entered the third peak period of real estate, and the value of the house has reached a higher level. If this land is replaced with a building, the value will reach 100 billion.

"Thank you," Lu Yang said.

"Don't thank me, you should thank her." The old man pointed at a girl not far away.

Lu Yang looked at the other side. It was a beautiful girl with a mole on her eyebrow. Lu Yang didn't recognize her. She came to her after the ribbon-cutting ceremony and said, "Qin Lao just told me that it was you who helped me. But I really don't know you. "

The girl smiled gently and said, "10 gold coins, thank you for the 10 gold coins."

Lu Yang blinked, but still didn't respond. The girl didn't talk much, turned around and jumped two movements, returned to Lu Yang and said, "Remember me?"

Lu Yang recalled that the girl was the dancing girl he saw when he was negotiating with people. He saw her dancing well at that time and gave her 10 gold coins. I didn't expect the girl to return to repay her.

"You gave me something too heavy," Lu Yang said.

The girl said proudly, "It's just a little help, just to help you."

Lu Yang laughed and said, "Little girl, she's not that good now, go with me and tell me what's going on."

The girl proudly brought Luyang to the side and told the whole thing. It turned out that the girl who was poor in the family and a girl from the countryside went to work in a university in the city. In order to reduce the burden on the family, people went to play games.

But how can this industry become red without hype? If it was not for Lu Yang's business talk with the Elves, he gave him 10 gold coins, so that the company discovered her value, gave her a bigger platform and packed her. .

After the little girl became red, she naturally won the favor of many big men, and Qin Lao was one of them. As for other things, you can imagine using brain tonic.

Lu Yang sighed and said, "Sister, in this way, I will give you 20% of the money I made this time. Don't do this."

Xu Qing's eyes were red and he said, "Brother ~, don't you look down on me?"

Lu Yang said, "How can I be such a superficial person? In this way, you can be a real star."

The best way to whiten a person is to be a female star. Although this is awkward to say, how many female stars in the last century in Hong Kong were innocent.

Looking at Hollywood, the famous red sofa ruined everyone's impression of Hollywood actresses and male stars.

“But how can I be.” Xu Qing said confused.

“This is not easy.” Lu Yang called Qi Yun in the distance and said, “Come on.”

Qi Yun walked around and asked, “What is it?”

Lu Yang said, “Xu Qing, my sister, and also your sister, will give it to you in the future and go to Hong Kong to win her favor.”

“Come on, just leave it to me. I let her become a popular star without letting anyone know her details.” Qi Yun said.

“I have to ask Mr. Qin.” Xu Qing said.

Lu Yang said, “Yes, you can ask. I believe Qin Lao will agree.”

Xu Qing ran to find Qin Lao happily, and Qi Yun asked curiously, “What does this girl have to do with you, and we actually got us such a big project.”

Lu Yang told the beginning and the end of the matter, Qi Yun sighed and said, “Boss, you are really nice.”

“I didn’t expect it, it was just a little favor. It was too much to repay. When I made money, I set aside 20% for me and I gave it to Xu Qing.” Lu Yang said.

“Um.” Qi Yun nodded.

Xu Qing ran back happily and said, “Brother, Mr. Qin promised me.”

Lu Yang said with a smile: “That’s good, call me anytime if you have time, I will take you out to play.”

“Um.” Xu Qing was very happy. In her heart, maybe Lu Yang didn’t take her seriously, but she regarded Lu Yang as a benefactor.

In the afternoon of the same day, Lu Yang took Xu Qing to play in a lot of places, and only took her back to the hotel at night. On the other side, Tu Feng’s investigation also came out, confirming that Xu Qing had no problems for the time being.

“Boss, are you too cautious.” Tu Feng asked.

Lu Yang said: “The war between us and Liu Jie is a battle of life and death. I dare not care about any part of it. When Liu Jie dies in front of me, I can sleep soundly.”

Tu Feng was surprised that this sentence was obviously the truth of Lu Yang, but he had never heard Lu Yang mention it before.

Lu Yang returned to the room, logged in to the game, and appeared in the Pirate City. At this time, Xia Yuwei was already in the game and was exercising skills in the PK court.

“Come here, let’s continue to find the blood of today.” Lu Yang said.

“Oh.” The group quickly teleported to the pirate king city.

Lu Yang took them to the next room, this is the home of a fruit vendor.

“Is it the power of blood, as if I saw a golden giant on Star Island, west of the heart of the sea, maybe kill him to get the power of blood,” said the fruit vendor.

Lu Yang’s eyes lit up, the golden giant, this is a good blood power, said: “Let’s go, baby here, all soldiers are ready to roll.”

“What darling.” Asked bitter love for a long time.

Lu Yang said: "It was introduced in the library that this golden giant will drop the blood of the Titan. The person holding this blood can become a five-meter-tall giant and the weapon used will become a homemade weapon."

"Homemade weapons?" Everyone was surprised.

Lu Yang said: "Yes, many forge masters have come into contact with the threshold of homemade weapons in the first stage. In the future, players can forge excellent gold-made homemade weapons by themselves, but the chance is not too great."

"What skills are there in Titan Bloodline?" Jiang Ze asked.

Lu Yang said: "This blood power gives people a skill called Savage Charge, which adds an extra 10,000 points of power, and also possesses magic immunity for a duration of 30 seconds."

Don't look at only a few skills, but none of them are very practical combat skills. Except for the Templar, no one can withstand the close attack of the Titan blood.

Lu Yang brought a group of people to Xingxing Island, and she found the Colossus giant, and used the skills to easily kill the giant to get the blood power Titan.

"Who wants it," Lu Yang asked.

"Give me," said Liu Yunpeng, the tauren, scratching his head.

Everyone looked at Liu Yunpeng's more than 3 meters in height and the 5 meters high totem pole in his hands, and nodded.

"It looks like Lao Liu is the most suitable." Said bitter love for a long time.

The tauren of war have magic immunity ability, plus a magic immunity of 30 seconds and a 10,000 strength bonus, how horrible it can become, everyone wants to know.

Lu Yang gave the power of the blood to Liu Yunpeng. Liu Yunpeng, who was more than 3 meters tall, instantly became a giant with a height of more than 5 meters. Everyone now saw that he needed to raise his head to 90 degrees.

"It's so high." Mu Yu said, looking up at his head.

Lu Yang moved his neck and said, "Lao Liu, you can get smaller."

"I'm looking for it." Liu Yunpeng shouted. After reading the skills for a while, he found a way to become smaller. The light flashed, and he became the size of a normal tauren.

"Hey, this skill is good, I can be as high as you." Liu Yunpeng said excitedly.

Lu Yang laughed and said, "Go ahead, let's go to the next place."

"Don't go, just stay here." Edward appeared not far away.

Lu Yang looked at Edward and said, "No, you want to keep me?"

Edward said, "President Lu Yang, I admire your ability. I didn't expect you to make such a big global naval battle. It turned out to be for blood."

Lu Yang smiled and said, "I didn't expect it to be discovered by you, but it was not all for the sake of bloodline. I did look a lot like sweeping the world, but was interrupted by Liu Jie."

Edward said: "We can't let you continue to get the power of the bloodline. So far, the two of us will be fine after the competition. If you continue to search for the power of bloodline, we can only start the war in advance."

Let Lu Yang continue to find blood, Edward and Liu Jie and others are worried that in the New World they will not be able to beat Lu Yang's Iron Blood Brotherhood.

Lu Yang said: "Sorry, I can't agree to this, let it go. Even if you have artifacts, now this level of artifacts can't beat the blood."

The power of Bloodline is not comparable to the level 4 and 5 demons, and the new skills brought are enough to destroy all the original efforts.

Edward said, "I rushed to bring only 3,000 elite British players. If you can beat me, I have nothing to say."

Lu Yang sneered, and said, "I'm afraid Schneider and Liu Jie's reinforcements are behind, Liu Yunpeng, destroying these 3,000 people."

"Yes." Liu Yunpeng himself possessed the God of War godhead and the power of blood. He was about to vent his breath, but came when he didn't expect the enemy.

"Blood Power-Titan"

The 2m tall Tauren instantly became 5m high, and the 5m long totem pole in his hand was controlled by him like a toy.

"This weapon is too small, too small." Liu Yunpeng roared, jumped in front of Edward and others, and slammed a level 100 dark gold totem pole into the ground.

"噤"

The surrounding three 100-level anti-battles with dark gold equipment were beaten into residual blood.

"Kill him," shouted Edward.

More than 1,000 mages and 500 shooters attacked Liu Yunpeng at the same time.

“Magic immunity”

Liu Yunpeng roared, his body glowed golden, and all magic was shielded.

“Scramble”

Liu Yunpeng was so angry that he suddenly waved the totem pole in his hand and hammered the surrounding area of 10 yards with an attack speed of 0.2 seconds.

“charge”

Liu Yunpeng launched a charge to the unpalatable death that had just disembarked in the distance under the condition of a smashing hammer. Liu Yunpeng rushed to the smashing death, and the 1-meter thick totem pole would be unpalatable. A random hammer was killed, and the hammer died on the ground.

Around the “resurrection”, the priest and paladin rescued him from death.

But it was unpalatable and just resurrected, and another totem pole hammer was on his head. Under the condition of smashing the hammer, Liu Yunpeng was in a state of magic immunity, and the heart of God of War also had super high blood volume and defense power. Can be assured output.

Do n’t hammer anymore if it ’s unpalatable. It ’s as if Liu Yunpeng deliberately died. Every time he died, he resurrected. Liu Yunpeng rushed over to hammer him. When he died, he hammered others. When he resurrected, Liu Yunpeng went to hammer again. he.

Repeated 5 times, and it was awful to die at the sixth resurrection, yelling at Liu Yunpeng: “Why do you always hit me?”

“Just as you are the most flat, with six colors of hair, Lao Tzu is the most annoying of you.” Liu Yunpeng scolded again.

Lu Yang looked at the crazy Liu Yunpeng, and said silently: “Mu Yu, put a curse, stop them all, and don’t delay time with them.”

“Oh.” Mu Yu flew into the air as a lightning bolt, pointing right to Edward’s area.

“Static Storm”

The super-silent spell hit 3,000 people around Edward, and all of them were silenced by the spell instantly, with super high spell damage, less than 5 seconds, all killed by Mu Yu.

“Old Liu, come back.” Lu Yang shouted.

“Oh.” Liu Yunpeng has killed more than two thousand unpalatable men, and there are only dozens of priests. Liu Yunpeng is too lazy to kill them, staring at the unpalatable death.

“Boss, I’m angry with you and killed him 6 times.” Liu Yunpeng said.

Lu Yang said helplessly, “Let’s go to the next place.”

“Oh.” The group followed Lu Yang by boat and left.

Edward and the unpalatable resurrection in the pirate king city, the two of them have become mad, especially the unpalatable death, the first time people make this happen.

“I have to take revenge, I have to take revenge.” Uncle died angrily.

Edward gave him a disgusting look and turned away. He was too lazy to cooperate with the unpalatable.

It was so unfortunate that he was about to step out of the security zone and just saw Lu Yang returning. He was killed six times in a row. He was furious and picked up his weapon and rushed towards Landing Yang.

“I’m killing you,” shouted awful.

“Drip ~ Drip ~ Drip ~ Drip ~!”

“Someone used force in the city and killed him.” A group of pirates rushed to the death and killed them one by one.

Lu Yang blinked and looked at the terrible death lying on the ground, and said, “Lao Liu, you’re too much, and it’s silly to see people who are bullying.”

Liu Yunpeng said with a smile: “Let him trouble the boss yesterday, it deserves it.”

Lu Yang laughed and took people away.

Schneider looked at the scene from a distance and said to Edward around him, “This is not possible. What are the people Liu Jie is looking for? How can this be the standard?”

“So what, do we have a say?” Edward said.

At present, the power of the Tianyan Alliance in the game is completely controlled by Liu Jie. He reuses black people, and no one can take him.

“I never thought we would be so down,” Schneider said, covering his face with both hands.

“No way, keep doing things, after all, we took Liu Jie so much money.” Edward said.

When Britain and Germany were closed, Liu Jie gave Edward and Schneider two hundred million euros in cash each, and the two made a fortune. It was naturally not good to say anything.

Inside the room.

The first time Liu Jie got the news that he was dying, he smiled and said to the chiefs of a dozen big tribes in front of him: "You see, Lu Yang is so cunning, so I suggest hiring some masters to direct Fight, do you have any other opinions? "

"No."

"No."

...

Where have Africans seen war masters like Lu Yang? They hunt and attack enemies in Africa. Most of their strategies are still the most primitive methods of warfare. But what method did Lu Yang use to kill and kill people with heart, plus iron blood before The brotherhood's strategy made them all daunted.

But one person was not convinced, and said, "Lu Yang is something, and this ability is also scary. I want to make an appointment with him and defeat him with my own hands."

Liu Jie looked helplessly at the chief This product is a king of a small country and entered the game in person. For this king, the legend of their family is more powerful.

At that time, the father of this product had stated at the United Nations General Assembly for XX Island that what Huaxia was like, I would send my most elite African soldiers, eliminate the army that has been in China, and help XX Island regain its country.

As soon as this sentence came out, all the representatives of the United Nations present were stunned and stared blankly at the king.

Someone was shocked and asked, “Are you sure you want to attack Huaxia?”

“Yes, I have 20,000 elite soldiers. Is there any problem in leveling Huaxia?” The king said at the United Nations.

At that time, the delegates of various countries at the UN General Assembly laughed. Even XX Island was embarrassed. Later, someone told the king that Huaxia had millions of troops and what weapons. His 20,000 African soldiers seemed to be having trouble with the sea. Not to mention fighting.

Chapter 1022 - The 2nd Contest

? However, the king is not convinced. He is so-called upside-down don't fall down, continue to pretend, has been shouting to hit China, but after 30 years of shouting, he did not dare to take action until the day of his death.

Now the new king has succeeded. He didn't learn anything else. His dad's arrogance is comprehensive. The biggest headache of Liu Jie is this king. It is really disobedient. But now there are 3 million players in this king's hand. Do not respect this king.

“Well, you can go and compete with him. Don't be stubborn. Tell me in time.” Liu Jie said helplessly.

“Rest assured, I must kill Lu Yang,” said the king.

[World Channel] Your Majesty the King: Lu Yang, chairman of the Brotherhood of the Iron Blood, comes out. I am the king of XX. Today I want to let you know what it means to fail.

“Oh ~!”

Lu Yang was picking up the task. Suddenly he was glad to see the news and said, "Oh, it's this product, it even appeared so early."

Love bitterly for half a life and others are getting angry, and I'm embarrassed to hear Lu Yang's words.

"Boss, you know this man." Asked bitterly for half a life.

"I know, of course I know, this product is a stupid thing, but you think you are a genius plus an invincible commander, you wait." Lu Yang said cheerfully.

[World Channel] Lu Yang: It turned out to be Her Majesty the King, I am a small country and a small country, and I dare not compete with His Majesty the King, willing to admit defeat, you are the first in the world, the first in the world!

Players from all over the world are waiting to see a good show. They were stunned when they saw Lu Yang's words.

"Lu Yang unexpectedly confessed?"

"Who is this Her Majesty, and how can he let Lu Yang give in?"

"No, the tone of Lu Yang's words doesn't seem to admit defeat, but rather to curse?"

...

The player heard a discussion, His Majesty automatically ignored the negative discussions with him, and looked proudly at Liu Jie and a number of African masters, saying: "I can't think of you as such a waste, you can't beat even such a garbage, my king said the next It scared him soft. "

Liu Jie and dead grass were also stunned. They couldn't understand what happened. Originally, they wanted to make His Majesty suffer a long time and have a long experience. However, they did not expect to be mocked by His Majesty.

“What's the matter?” Said dead grass, watching His Majesty the King leave proudly.

Liu Jie said, “Don't you know this Lu Yang and His Majesty?”

“No way, how could Lu Yang know the king of a small country in Africa?”

Liu Jie also felt unbelievable, but was even more unable to understand the matter.

“Regardless of him, let's find the power of blood, since Lu Yang can't be restricted, then we can only fight with him.” Said dead grass.

Liu Jie nodded and took people to the Pirate Kingdom to find clues.

After 7 days.

The international competition opened. At this time, Lu Yang got more than 30 blood fruits, and his strength was far beyond the players of all countries.

In the center of the Pirate King City, all players participating in international warfare are gathered here, and the masters of various countries have not entered the Pirate King City for half a month because the country was beaten to a closed country.

The rules of international warfare are to select experts in the country first. This selection battle is very simple. Based on the usual record, anyone with more than 3,000 points in the arena can participate in the battle.

Lu Yang himself is the first place in the World Series of Individual Wars. He does not need arena points, but is still grouped in the international competition with the first place.

The main members of the last Brotherhood of the Iron Blood Brotherhood also automatically entered the international competition, because their names are among the top ten in the world.

During these days of trials in various countries, Lu Yang was watching videos of masters from various countries every day, and he found that more and more masters began to appear.

Dozens of people came out of German chariots, French elegant jazz, British sacred light, and Italian black guns. Many of them were masters of the previous life, and everyone could not easily win.

“This game finally put” Second World “on track.” Lu Yang murmured.

When he encounters these people, he can be considered to have a certain chance of winning. In the last life, players have studied these masters, and everyone has weaknesses.

“Boss, I just got a message. There are a number of wealthy people at home and abroad who are ready to enter the game and participate in this game.” Xue Yiming called and said.

Lu Yang Yile asked, “Who was found?”

“No, but these people seem to be game enthusiasts, and they have developed a strong interest in entering the New World in the future.” Xue Yiming said.

Lu Yang said, “I see.”

He knew the existence of this group of people. In the last life, they were a group formed by more than 30 international giants, but not a group, but 14. Some people are simply rich to play, and some people want to take advantage of this. The opportunity to make a fortune internationally.

Among these rich people, he also knew that Lu Yang had done tasks for them at the time, and several of them were of good character.

“Dididi”

Qi Yun called and said, “Boss, a rich woman wants to see you.”

“Women rich?” Lu Yang said, “The person who can make you use this name must be a huge rich man.”

Qi Yun nodded and said, “Ji Fu, a Chinese-American, the family is a Quartet group, is very famous internationally, the family listed company is worth 500 billion US dollars, more money than us, this is not counted. A company is a company that is not listed, and no one knows how much it is. “

“Who?” Lu Yang asked.

“The fifth generation of the Sifang Group, also known as the rich fifth generation, is Song Sisi, the second heir to the company.” Qi Yun said.

Lu Yang was a little dizzy. He didn’t expect to have an encounter with the head of the Song Dynasty Guild of the previous generation. This is the existence of the top of the pyramid food chain. Even now, his family wants to edge Qi Yun’s company Hua, just need a word, no one on Wall Street would do business with Qi Yun.

“How could he think of looking for me, what is it?” Lu Yang asked.

“Song Sisi wants to enter the game and hopes to get your help. Do you have this idea?” Qi Yun asked.

Lu Yang said, “In this way, arrange for me to meet him. This kind of thing requires face-to-face talk.”

“Yes, I believe you will also like to meet with Song Sisi, this is a big beauty.” Qi Yun said with a smile.

Lu Yang laughed and said, “Leave it to you, big lady. It’s enough to have a blue feather in my house.”

“Hey, this is what you said, I really want to pursue her.” Qi Yun said.

Lu Yang smiled and shook his head, saying, "As soon as possible."

Qi Yun said: "Then this afternoon, the beauties said that they will be free all day, and you will be fine today, so it's better to meet earlier."

"Co-authoring you will betray me." Lu Yang found that Qi Yun is really chasing Song Sisi, but a woman of Song Sisi's level may not like Qi Yun.

"Okay, then this afternoon, I will fly to Hong Kong to meet her." Lu Yang said.

Such a family is capable of deciding which business in the world can make money and which resources can be hyped. It is scary to imagine, just as the Rothschild family still controls 70% of the world's iron ore. Yield is the same.

Twenty years ago, a price war of iron powder turned out to be dug out by the Rothschild family, which everyone thought was finished.

At that time, the price of iron powder increased from 100 yuan a ton within three years to 1,500 yuan a ton, a difference of 150 times. If you want to buy iron powder, you must buy it at this price.

At that time, iron ore merchants around the world were crazy, and those who did not manage iron ore got into this industry one after another.

It's too profitable. When the cost of iron powder was only 90 yuan in that year, when it became 1,500 yuan, the profit was so great. Who can't be crazy.

Those who have worked in this industry know that to make good steel, you must have good iron concentrate, and the best iron concentrate is only produced in Australia and Brazil. Their iron ore raw materials are called ginseng iron. , High taste, good quality, refined powder with less impurities, better steelmaking quality, so sought after by the world.

As it happens, the iron ore in these two countries is controlled by the same company, the Rothschild family. At that time, the Rothschild family made nearly 70 billion US dollars in net income from the world each year.

This situation has stopped for three consecutive years. In other words, by relying on rebirth, Lu Yang predicts the future cash, and the other party only needs three years to reach it.

The Song family is also the same. Their family mainly controls the petroleum, jewelry, and banking industries. Lu Yang is now also following the line of the banking industry. It is an inevitable process to establish a relationship with their families.

That morning.

Lu Yang flew to Hong Kong by plane, and came to a private manor house with Qi Yun, and met the young Miss Song Sisi of the Song family.

“Welcome both.” Song Sisi said with a smile.

Lu Yang looked closely at Song Sisi. This is an elegant and beautiful girl, about 22 years old.

Qi Yun introduced: “Si Si is a talented student. After completing a PhD at Stanford University at the age of 22, IQ is much higher than those of us.”

“Where.” Song Sisi’s face had only a smile on his face. He looked at Lu Yang and said, “Chairman Lu Yang, come to you today, I want to talk to you about our family entering the game, what do you think? .
“

Lu Yang smiled and asked, “How do you want to enter this game? Ordinary play? Or are you ready to make money from this?”

Song Sisi asked: “What is the difference between the two?”

Lu Yang said: "The new continent is about to open. I know a little bit about it. Today Qi Yun is here. I will send you a secret message to enter the new continent. Players will be regardless of country and camp."

Song Sisi suddenly sat up straight, stared at Luyang Yang and said, "Are you sure?"

Lu Yang smiled and said, "Of course, why did Liu Jie dare to wipe out all the countries in the world so arrogantly? The reason is that they also learned the relevant information." Second World "was not a game for the turmoil of other countries. He It is to make the world more homogeneous. In the past, in order to make money, they made some gimmicks. Now they make too much money, and they will change this situation. "

Song Sisi said with some understanding: "Isn't this the case that everyone has been reshuffled?"

Lu Yang said, "The map of the new continent is very large. It is probably the same as the map of Africa in the real world. If you want to play, invest a billion dollars, build a team of millions, and build a field owner. City, you can recover your capital in three or five years, and the rest is playing games happily. "

Song Sisi asked: "What if you make money?"

Lu Yang said: "Prepare to build a dozen or two major cities with US \$ 20 billion, defend one side, and then attack other major cities. This is a game that the rich all over the world participate in. If you want to earn their money, just You have to pay such a big price first. "

Song Sisi understood that what Lu Yang told him today was more informative than any game master provided him.

"What if I invest in your game?" Song Sisi asked.

Lu Yang said, "I welcome you to invest, but only 11% of my shares are left. The Brotherhood of Brotherhood is no longer my own guild, and the Brotherhood of Brotherhood is so large now, with more than 20 million members. There are 7 million people who can participate in the battle. If such big data is converted into stock prices, no investment guru will advise you. Instead, it will suggest that you invest in the second or third place to challenge me. "

Song Sisi smiled and said, "You are very confident."

Lu Yang said, "You are masters outside the game. In the game, I am a master. Do we have a specialization in surgery?"

"Then you give me a suggestion, it's like helping your sister." Song Sisi said softly, Meimu said looking at Lu Yang.

Lu Yang has a feeling of dizziness. This Miss Song family is a great communicative means. Where can I stand for an average 18-year-old child?

"My suggestion is to carefully observe the masters of the countries in this contest. Anyone who can enter the top 100 in the world can recruit as many people as they can. Based on them, recruit players, build the main city, and then recruit Some elite studios who know how to ban curse, no matter what you want to do in the future, this is the most crucial first step." Lu Yang said.

Song Sisi frowned and said, "But some people suggested that I buy a guild directly, that would be easier."

Lu Yang said: "It's easy to buy a guild, but this game is not like playing football. There are a total of 11 people, plus some employees who rely on you to eat. You can direct it at will. This is a game where there are millions of people at every turn. If you buy a guild, you have to rely on those former presidents, deputy presidents, and heads of various legions. They are too restrained, and they also lay hidden dangers for the future, which is not a good thing. "

Song Sisi nodded, he agreed with Lu Yang's words, and said, "Well, I think about it."

Lu Yang shrugged. After dinner with Song Sisi that day, he flew back to the East China Sea to rest that night.

the next morning.

The opening of the international war.

As the last champion, Lu Yang played for the first time, and Lu Yang's opponent was unexpected. It turned out to be Schneider, the president of the First German Association.

Such a Sino-German war made viewers all over the world look forward to the live broadcast.

In the international live room.

Dubin said excitedly while watching the live broadcast: "Can anyone imagine that one day there will be such a game, more than 6 billion people watch at the same time, oh my god, I have a crazy feeling, I am actually in front of 6 billion people Do live broadcast. "

The other moderators also felt incredible.

"How did this happen, how could there be so many people?"

"I don't know, I can only say that the charm of this game is too great, far more than football, basketball and any kind of competitive sports."

...

A huge cheer sounded, and Lu Yang and Schneider were teleported to the field at the same time in the game map.

Lu Yang leisurely walked to the middle of the site. This is a very suitable place for thieves to carry out sneak attacks. There is no hiding place around it. It is an empty grassland.

"Schneider, don't hide, you are not my opponent at all, take the initiative to give up." Lu Yang said.

Schneider is hiding in a place 10 meters away from Lu Yang. He is a space thief and slowly walks towards Landing Yang step by step.

“It’s crazy.”

“So arrogant.”

“Schneider come on, kill him.”

...

Countless Europeans cheer for Schneider.

Schneider’s face was full of cold sweat at this time. He didn’t expect that he was so unlucky, he met Lu Yang in the first game.

What kind of person is Lu Yang? He is a master who knows a wide range of curses and extremely simplified spells. In this arena, artifacts such as the heart of the devil cannot be carried. They are illegal items and can only be attacked by their own equipment.

If he has the heart to kill God, he dares to compete with Lu Yang, and does not have the heart to kill God, he knows exactly how terrible Lu Yang is, let alone Lu Yang has not summoned his second avatar.

However, he can’t fight, he has to fight once. Otherwise, he will not be able to maintain his identity as the president of the German First Guild. He will collapse in the laughter of everyone, but he cannot attack at will. He is looking for opportunities. .

Lu Yang stood there for a minute and found that Schneider had not appeared yet. He was too lazy to wait any longer, and said in his mouth, “The great ancestor of the flame ...”

The adrenaline hormonal spiked immediately after watching the game.

“It’s a secondary forbidden spell.”

“Fuck, it’s so ridiculous, even using a secondary curse.”

“He can’t hide now.”

...

Players are looking at the location of Lu Yang in the middle of the venue Now Schneider has only two choices, either to appear and fight with Lu Yang, or use space stealth to hide themselves.

Schneider is also thinking about gritting his teeth. If he uses space stealth, although he can be invisible, he consumes murderous value. He only has 100 murderous value. If he waits for this, it will be exhausted.

But now he is desperately fighting with Lu Yang. Lu Yang is waiting for him. There is still no chance. Watching Lu Yang’s spell complete one by one, he has a cold sweat on his forehead.

Every scale read by Lu Yang is extremely slow. He doesn’t mind wasting more time. After the second turn, the basic scales of many spells are the same. Lu Yang can now change the meteor drop to the flame cross or the fiery sun fist.

As long as Schneider dares to come out, he doesn’t mind punching him with a punch!

Chapter 1023 - Invincible!

For 10 seconds, when Lu Yang read the last scale, Schneider couldn’t help showing up, changing from cheetah form to iron rhino form, rushing towards the landing sun.

“The Sun Fist”

Lu Yang felt the air fluctuating, and returned a punch in the middle of Schneider’s head, knocking it out.

“Remnant Flame”

Lu Yang turned into a flame shadow, before Schneider landed, appeared after Schneider.

“Yan Yang Suo”

A crimson chain trapped Schneider in the volley. Schneider had just landed, and Lu Yang’s spell resumed.

“Flame Storm”

Several black ripples appeared at Schneider’s feet. When Schneider landed, a flame appeared in front of his eyes, stunning him for two seconds.

“Meteorite Impact”

“Resistant Fire Ring”

Lu Yang put two basic combos in a row. When a huge fire meteor hits Schneider, Lu Yang crashed and flew them, both of which were level 100. Lu Yang could only push Schneider back 3 meters, and the distance was slow. Schneider was 100% crushed by the rolling fire meteor.

When he woke up, a crimson flame fell in the sky, hitting his head.

“209800” (Critical Strike)

Schneider looked at his health and turned into a white rhinoceros. His health reached 1 million! Can be attacked by Lu Yang's two sets of combos, his blood is actually only more than 100,000 points.

“Pretty.”

“It's beautiful.”

“Lian Zhao is too beautiful.”

...

The whole scene was a sensation. They could clearly see that Lu Yang's blood loss per attack in the match between Lu Yang and Schneider was just like the king of fighters. There was a yellow blood bar on the head of the two. There is also a number at the end of the blood bar showing the amount of blood lost per attack, this mode is exciting for everyone.

“Roar”

Schneider quickly used space to stealth, ate a life stone made by the warlock, and recovered his health to 500,000 points.

Elimination of potions is not allowed in this kind of competition. It is a new official rule, but Warlock's life stone can be used.

The audience saw that Schneider was invisible again, and they all boasted overwhelmingly, despising Schneider's play.

Where can Schneider still control the audience's preferences, he also hopes to play a series of strokes to kill Lu Yang, but he can't do it, he can only wait for the opportunity in stealth.

Lu Yang found that Schneider was really a man who could tolerate. In this case, he had no better way. With a total of 100 killing values, Schneider could hide for more than 5 minutes. He stood still and waited.

Schneider made several laps on the perimeter of the three-meter perimeter. Although he is in the form of space, every step will be accompanied by a trace of spatial fluctuations, but any master can react in this open field.

If he wants to get close to Lu Yang quickly, he only has one move in time and space, and suddenly appears in front of Lu Yang. However, no profession can form a serial move against the mage, because the mage has the refrigerator and flashing skills.

Schneider's anxious head was numb, but Lu Yang's side was walking quietly. After waiting for 3 minutes, Schneider decided to fight once.

“Time Killing”

Schneider appeared in front of Lu Yang in the form of a cheetah, stabbing Lu Yang's neck with his two claws.

“flicker”

Lu Yang's body left a white light on the spot, and actually avoided the attack in the 0.1 second that the claw stabbed in front of him.

Schneider looked at Lu Yang astonished and said, “How did you do that?”

Lu Yang laughed. Now that Schneider is out, he can no longer remain invisible. He doesn't mind talking nonsense with Schneider.

“Do you know the game of grabbing coins?” Lu Yang asked.

“Grab coins? What game is that?” Schneider asked.

Lu Yang said: “This game is very simple. It is to put a gold coin on the table and grab it faster than anyone’s hand.”

“What does this mean?” Schneider asked.

Lu Yang said: “The characteristic of this game is that it is faster than anyone’s hand. I am faster than you. I can get gold coins. You will never get it. Just put it here. My speed is faster than you. 0.1 second, but I just can avoid your skills. “

This is a game of extreme hatred. Lu Yang has often played this game with Xia Yuwei, Zhuoji, and White Lion in the past half month.

In the stands.

The white wolf said silently: “No wonder the boss always pulls us to play, it turns out to exercise our reaction speed.”

Han Liu gritted his teeth and said, “Small talk for the boss. He took away his mother’s monthly salary, and I can’t spare him.”

The bitter love is half-embarrassed.

The white lion looked at his gold coin pockets in depression, and said, “I was also snatched by my boss for half a month’s salary, but I didn’t feel how fast I responded.”

Xia Yuwei gritted her teeth and said: “It turned out that you were also robbed. I thought I was the only one. I was embarrassed to tell you that the boss was definitely intentional. We can’t spare him tonight.

Everyone nodded together.

Tu Feng suddenly appeared, and said quietly: "Every time I play, every time I play, according to the data, each of you reacts at least 0.1 seconds faster than half a month ago."

"What's the use?" Han Liu asked with a frown.

Tu Feng pointed at the game and said: "It took 0.1 seconds for Schneider to miss him. You said that the 0.1 second response speed is useless. This is all the hard work of the boss."

Everyone looked to the field and found that it was really like Lu Yang said. Schneider is the top German master. He is often ranked fifth in the world's druid rankings and ranked third. , How can not hit Lu Yang.

"Sure enough," Zhou Tianming said.

"But you don't have to play gold with us." Xia Yuwei said.

Tu Feng recalled the gold coins he had received from Lu Yang, and said solemnly, "Boss, this is not to stimulate your potential, it is best to use this."

Everyone: "..."

The words are not rough. Although they did not grab too much money at one time, they kept robbing them so much that everyone was annoyed and really inspired their potential.

Everyone nodded, but at this time, Xia Yuwei looked at Tu Feng suspiciously and asked, "How much money does the boss give you, you speak for him like this."

In Tu Feng's embarrassment, Haha laughed and said, "Where can I? How can such a serious person do such a thing, it has nothing to do with me."

Tu Feng flashed.

“Fuck.” Everyone despised.

System prompt: After the battle ends, Lu Yang wins Schneider.

Schneider retired from the game depressedly and returned to the field. Lu Yang continued to stay in the field, waiting for the next game.

This year's game is a big round game. The top 80 players with the highest record are selected from everyone to enter the next round, and then slowly eliminated, and if a player wins the first game, he will stay on the field. Within the second game, when it loses, or when it is actively requested, it will stop.

Lu Yang played the first game without much effort, and chose to start the second game directly. The high platform fell, and a young girl player appeared from the platform, a Korean beauty.

“Smida ...” The girl wore fashionable skin and a beautiful short skirt, which revealed her figure. She waved at the audience with a smile on her face as soon as she appeared.

The otaku was the main player in the game, and the girl instantly captured the boy's favor and frantically cheered the girl.

Lu Yang covered her forehead, found a stone and sat down. It took a long time for the girl to end her interaction with the players around her.

“Please enlighten me a lot,” the girl said in front of Lu Yang.

Lu Yang looked at the girl and said, “Qiqi, if you don't want to be your star, what fun will come when you come here, how can I hit you?”

This girl named Kiki is a Korean girl star, but did not expect Kiki to be an e-sports master.

“Don’t look down on me, I’m terrific.” Qi Qi put on a strong posture of herself.

Lu Yang said: “Don’t confuse me, I know you have blood, but I won’t show mercy.”

Kiki’s expression changed, but she was still beautiful, and said in surprise, “How do you know that I have blood.”

This is the message discovered by Xue Yiming.

Lu Yang said, “Do you still want to fight with me? I know all the skills of your blood power. You can’t even get close to me.”

Kiki has the bloodline of the goddess of war, that is, the bloodline of Athena. As a warrior, he can release magic skills, such as long-range shock waves, the damage is strength X8, the power is very strong, and the second skill is leaping into the sky, turning into A ball of blazing balls, hitting the enemy, hitting the enemy and causing damage of strength X3, causing a total of 5 damage, this skill is ignoring magic resistance, very powerful.

Her third skill is called flash, which can appear instantly behind the enemy, release the fourth special skill together, close-up thunderball impact, release a total of three thunderballs, and continue to attack for 5 seconds, each thunderball causes Power X8 damage, after being hit, the player enters a stun effect, and is 100% beaten for 5 seconds.

Although these 4 skills are very strong, but Kiki is just a female star, and the reaction speed is not on the same level as Lu Yang, and Kiki also did not use a combination of methods to understand these skills. Lu Yang is confident that within 3 seconds Solve her.

Kiki said unconvinced: “Let’s try it out and see.”

Lu Yang shrugged his shoulders, and the light flashed. He launched the flash and retreated 30 meters away, saying, “Come on.”

Kiki's eyes lit up and she said, "You hit me and you dared to use flash in advance."

Lu Yang spread his hand and said arrogantly: "Professional players."

"Oh ~~ This Chinese person is so arrogant, Smeda."

"Goddess Kiki killed Lu Yang, Smeda."

"Smeda, Smeda."

...

Lu Yang scratched his head. Until now, no one in the world has translated what the three scales of Smecta mean in South Korea. It seems to be an exclamation. These Koreans are still good. Smecta is not too strong. The same Korean TV host next door, the thick accent, plus Smida shouting to you, makes everyone laugh and lie on the ground.

It is a pity that by the age of 70, this grandma retired. Otherwise, it is still the existence of funny masters in various countries that can be ranked in the top ten.

Kiki turned to South Korean players and smiled and waved, turning her head and posing aggressively to Lu Yang, "I'm going to start."

Lu Yang said, "Please."

"Goddess Blaster"

As if in slow motion, Kiki released a large shock wave. The shock wave was ice blue and rushed towards the landing sun.

Ke Qiqi's starting speed was so slow, Lu Yang easily prejudged to avoid this skill, and then Qi Qi released the second skill.

“Jump off the air”

Kiki jumped into the air, her body glowed red, turned into a ball of fire, and slammed into the landing sun.

In an instant, Lu Yang took a small step backwards, just as Lu Yang avoided, Kiki hit Lu Yang's original position.

Kiki stood up awkwardly and said, “I missed it again.”

Lu Yang smiled and said, “There are only two last tricks left. Let's use them together.”

“I look down on me.” Kiki stared at Luyang.

“Flash”

A light and shadow flew from Kiki, and came to Lu Yang in an instant.

“Thunder's Fury”

Three thunderballs appeared beside Qiqi, but just before the thunderball was about to hit Lu Yang, Lu Yang took a step back and missed.

Kiki looked at Lu Yang blankly and said, “It's over, it's embarrassing.”

Lu Yang laughed and said, “Give up.”

“No, I will never give up.” Kiki said.

Lu Yang shook his head, and Lu Yang threw out his escape dagger.

“flash”

Lu Yang suddenly appeared behind Kiki.

“Flame Storm”

“Blazing Bird”

“Meteorite Impact”

“Resistant Fire Ring”

“Destroy the Sky”

After a series of strokes, Qiqi has 20,000 blood left.

“Remnant Flame”

A phantom appeared in Lu Yang’s body before Kiki.

“activation”

Lu Yang appeared in the phantom, the phantom exploded, and sparks killed Kiki.

System prompt: Lu Yang wins the battle!

“Pretty, winning pretty.”

“Lu Yang is invincible.”

“Lu Yang is number one in the world.”

...

Lu Yang’s fan group shouted wildly behind!

Lu Yang waved at them and said to the system, “Let’s start the fourth game.”

System prompt: you can choose to rest for 5 minutes

Lu Yang said, “No need, just start.”

He didn’t even warm up in both games, and there was no physical problem.

System Tip: Start Game 3, your opponent is Australian server player Green Water Ghost!

“Oh ~!”

Lu Yang was happy. Looking at the opposite stand, the green water ghost did not wait for the stand to fall. When it was 10 meters high, he jumped down and landed 10 meters across from Lu Yang.

“Lu Yang, I finally met you.” Lushui said angrily.

Lu Yang looked at Lvshui's expression of hatred and said, "It looks like you still haven't learned a lesson. Is it possible that you haven't learned enough?"

Because Lu Yang broke through Australia in the middle of the night, making Australia a closed country. A large number of Australian players did not go online late at night, and when they went online, they were unable to leave the server.

Lu Yang subsequently published on the Australian server the reasons why he attacked Australia, all because the Green Water Ghosts united the three countries to launch a surprise attack on China.

The players who originally scolded Lu Yang turned their attention to Green Water Ghosts. During the half month that the server was closed, Green Water Ghosts were attacked by numerous players in Australia.

Originally, his main city had been swept by Lu Yang, putting his economy into crisis, and now he has been attacked again. The 48 main cities occupied by the green water ghost are now only seven, and they are still in the human area. Has become a funeral dog, the remaining 7 main cities may be broken at any time.

The green water ghost bit his teeth and cursed: "Lu Yang, I must revenge, I will not let you go."

Lu Yang snorted and said, "You have no chance in this life."

The system prompts: The game starts.

"flicker"

Lu Yang's body turned into a ray of light and appeared in front of Lvshuigui. After a series of combos, he received Lieyang fist and fire cross. Lvshuigui was killed by Luyang without any resistance.

Inside the live room.

Dubin said: "No solution, completely unsolvable. Lu Yang, by virtue of his own reaction speed faster than others, can attack like this, I think no one in the world can threaten him at this stage."

The French commentator said: "There is a problem now. If you want to defeat Lu Yang, you must have magic immunity. Only Paladins possess this skill, but the duration of the Paladin skills is 20 seconds. Zhong, I don't think anyone can defeat Lu Yang in 20 seconds. "

The British commentator said: "The system has been debugged. In order to increase the difficulty of Lu Yang, the next player to play in Italy is the Paladin, so watch this game."

System prompt: The fourth game is about to start.

A paladin fell on the ladder. His whole body of golden armor, white tabard, golden shield and silver long sword was very dazzling overall.

"Lu Yang, we finally met." Milan's First Guild angered.

Earlier, Milan and the Turkish First Guild sent troops to fight against a Saudi guild. Prince Faisal hired Lu Yang to ambush Milan and lost the main Milan fleet.

Lu Yang said: "Milan, you are the Tianyan Alliance and others. You are born to be my enemies. Why this expression?"

Milan scolded: "Okay, today I will seek revenge from you first. When the contest is over, I will seek revenge from your guild."

Lu Yang spread his hands and said, "Come on."

System prompt: battle begins

"Remnant Flame"

Lu Yang's body emitted more than 10 remnants of flames, which appeared within 100 meters around him.

Milan stunned Lu Yang sneered and said: "If you have no blood, just give up, you are not my opponent."

Milan does not have the power of the bloodline. The current bloodline power is mainly the pedestrian of the Iron Brotherhood.

Players from all over the world watched Lu Yang's more than 10 remnants of flames around the map, and deafening cheers.

After two years, many people at the Guanghuo Fort have been transferred successfully. They are all familiar with the use of Canneng skills, but ordinary people can make Cannyan fly up to a distance of 10 meters. Your body will feel great discomfort.

And they use it up to 5 times a day, and more often, they will be prompted by the system to have insufficient mental power connection and forcibly quit the game.

Like Lu Yang, 10 were released at a time, and the distance between each was 100 meters. They didn't even think about it.

Chapter 1024 - World 10

"How did Lu Yang do it?"

"What kind of training method is this."

...

Players are curious, where do they know that, in addition to continuous wars, the rest of the time, Lu Yang, gets up at 5 in the morning regardless of cold and heat, and exercises for three hours before entering the game.

Every day, I constantly challenge various lords in the game, and repeatedly reach the limit of the body. In such an extreme environment, I have developed such a skill.

How many rounds of those who believe that they are working hard every day in the arena are tortured vegetables, compared with the so-called masters, compared to Lu Yang and the lord strange, but they are pecking each other, but they still do not know.

Milan is such a person. He believes that his ability to exercise in the arena is definitely far better than Lu Yang. Even if Lu Yang has so many avatars, he is not afraid.

“Holy Assault”

The Paladin’s charge skills learned after the second turn, Milan took a burst of gold towards the landing sun.

“flicker”

Lu Yang flashed 0.5 seconds before Milan rushed to his body, the light flashed, Milan hit Lu Yang’s white light, his body stopped, and the huge sword in his hand waved but hit nothing.

“Be careful, he’s behind you.”

“Fool, behind you.”

...

The players shouted.

As if Milan had known for a long time, the moment the sword fell, he turned back and cut.

“Holy Light Roundabout”

Lu Yang backed up again.

“Holy Shock”

Milan pointed at Lu Yang with his right hand, and a golden light found Lu Yang’s body.

“Escape The Dagger”

While Lu Yang threw out the dagger, his body was stunned by golden light. When Lu Yang’s eyes became dark, he could not launch the dagger.

“Sword of Holy Wrath”

Milan also threw out the escape dagger and launched an attack immediately behind Lu Yang. Just before Milan’s sword was cut at Lu Yang’s neck, Lu Yang uttered a spell.

“Fire Shadow-Activated”

Lu Yang flew to Yanying, 30 meters away from the left, to avoid the attack. Just after landing, Lu Yang backhanded a flame cross.

Milan ducked away and ran towards the landing sun.

“Lava Eruption”

“Lava Eruption”

...

Lu Yang successively released lava on the ground, covered with flames on Milan’s moving route.

Milan stepped into the flame and immediately suffered damage of about 70,000 per second. Although he had 600,000 blood, he could not bear such continuous blood loss, immediately opened the magic immunity skills, and simultaneously launched the acceleration skills, which increased the movement speed by 150%.

Lu Yang snorted, launching a fierce sprint, and without the bonus of the demon heart, his movement speed increased by only 150%, the same speed as Milan.

Lu Yang knew at this time that he could not attack Milan and ran quickly towards the far end. After running for 30 seconds, Milan’s magic immunity disappeared, but the ground was full of flames.

“Invincible”

Milan turned on the invincible ability, just as his sacred assault had cooled down, he rushed towards the landing sun again.

Everyone knows that the time for the decisive battle is over. Whether they can win Lu Yang depends on the attack.

“Remnant Flame-Activated”

Lu Yang faced the rushing Milan, activated the Remnant Fire skill, turned his body into a streamer, and flew to a flame shadow 50 meters away before Milan rushed in front of him.

A miss in Milan left him dead, and he could only continue to charge towards Landing Sun. Unfortunately, he tried to get close several times, but Lu Yang avoided it.

“Unfortunately, Lu Yang’s response was too fast, Milan can’t beat him.” Dubin said in the live broadcast room.

“Agree, avoiding the holy assault requires avoiding the moment when it rushes to the front, otherwise the holy assault will not stop and will continue to track the target, but Lu Yang escapes the moment he rushes to him, leaving Milan with no way” Said the British host.

“Ah, Milan lost.” Dubin shouted.

On the court.

Milan’s invincible time was over, and Lu Yang suddenly appeared in front of Milan.

“Flame Storm”

“Blazing Bird”

“Meteorite Impact”

“Resistant Fire Ring”

...

Coupled with the destruction of the sky fire and fierce Yangquan, the two sets of strokes in one go, the audience watched cheering, and Milan has been knocked to the ground.

System prompt: Lu Yang beats Milan after battle ends

“Fuck, this fighting god, Lu Yang is too strong.”

“Invincible, there are no enemies at all.”

...

Players are again hotly debated.

The system prompts whether to play the fifth battle.

Lu Yang chose to play the fifth game directly.

“Lu Yang is too arrogant, playing the fifth game directly, this is no feeling of fatigue at all.”

“too strong.”

...

In 12 consecutive games, Lu Yang all won easily and got the highest points. Then Lu Yang chose to rest and continue the game in the afternoon.

After playing for three consecutive days, Lu Yang finally won the first place with the highest score of 80 people and entered the individual competition.

The first scene is for the 80th player, and the 80th player just cheered himself to enter, and found that it was Lu Yang, instantly irritable.

On the battlefield.

His Majesty the King of Africa looked at Lu Yang proudly and said, "Finally we met. You refused to fight with me before. Now I want to let you know what it means to fail."

Players around the world laugh and spray.

"Where did this item come from?"

"Who gave him the courage to talk to Lu Yang like this?"

"Oh my God, this world is so crazy, people who barely squeeze into the top 80 dare to speak to the first place."

"Is this stupid?"

...

Players from all countries laughed, but Lu Yang said cheerfully: "Oh, Your Majesty, your rudeness and rudeness. You are so powerful. How dare you fight me, how strong are you, aren't you?"

His Majesty the King was very satisfied with Lu Yang's performance, his fat body half-opened his eyes and said, "Then I will give you another chance. Fight me today and let the whole world know how powerful I am."

Lu Yang said, "Well, you must show your full strength."

Players from various countries have laughed and laughed. Obviously, Lu Yang is playing this African king. Soon, someone found the king's information. After checking it, he didn't know. After checking it, he realized that the person was really crazy.

Every year in June, women all over the country have to be naked, holding a section of reeds to his palace to let him choose. They are really a king, and their army has tens of thousands.

The exclamation at the scene was one by one.

System prompt: match starts

The king suddenly turned into a giant toad, spitting on the landing sun.

“Look at my poisonous, spray you to death.” Her Majesty shouted proudly.

Lu Yang was embarrassed, and while looking away from the toxin, he quickly looked around, and found that not far away dead grass and Liu Jie were laughing there. Obviously, the power of this blood line was given to the king by Liu Jie and dead grass. It’s just a bit too wicked, isn’t that a curse?

“I said, don’t you think this toad is ugly?” Lu Yang asked His Majesty while hiding.

“Well, is it ugly? I feel pretty good. When the summer is too hot and dry, the frog is the water we need, our baby,” said His Majesty.

When some tribes in Africa reach the dry season and there is no water around them, they will have a special ability to find frogs hidden in the desert.

Inside this frog’s belly, there is actually a water sac at the tail. When the frog is hidden deep in the sand, the frog’s body seldom loses water. Whenever he is thirsty, he flows from the sac.

After the people of these tribes found the frog, they aimed their tails at their mouths, and squeezed them violently, and the water of the frogs spouted from the tails, which became the source of their drinking water.

After that, they roasted the fire and roasted the frogs. Some experts also caught some spiders. They also had water sacs in their stomachs. Therefore, in Africa, spiders and frogs are their favorite animals, contrary to China.

Lu Yang had been to Africa before as a mercenary and had seen these things, but he did not expect the king of a country to do the same.

“Okay, but I tell you, in most countries in the world, toads are used to curse people, so this thing you change is something that most people in the world despise.” Lu Yang said.

“Nonsense, this is the best thing, I spray you.” Her Majesty continued to spray, and the area around him with 50 yards was almost sprayed with his poison.

Lu Yang felt for a moment that this toxin was very harmful. It would lose 30,000 HP per second for 10 seconds.

“Ice Guard”

Lu Yang’s body turned into ice, and he was immune to toxins. He retreated 80 meters away and shook his head while watching the King who was still spraying toxins.

“His Majesty, I can’t play with you anymore, I will play again when I have time.” Lu Yang said in his mouth.

“Destroy the Sky”

“Lava Eruption”

“Meteorite Impact”

“Flame Cross”

...

A series of Lu Yang's spells were shot. Based on Lu Yang's 110,000 spell damage, His Majesty should kill more than 100,000 HP each time, but he really hit him, but found that he lost 10,000 health.

"90% reduction." Lu Yang was surprised.

"Haha, I can't think of it. I am a super-high damage reduction physique. You can't beat me, my aunt, my aunt ..." His Majesty continued to spray.

Lu Yang hesitated, jumped out 200 yards with the second flash, and went to the edge of the map, letting His Majesty spray the poison out of place.

"Great ancestor of flames ..." Lu Yang said in his mouth.

"Stop him, he will release the curse." Liu Jie was laughing in the distance, seeing Lu Yang's curse, and hurried in a hurry.

His Majesty the King reacted, and quickly jumped towards the landing sun in the form of a frog, but this game will definitely not have such a perfect character, which can reduce the damage by 90% and still have super high speed of movement.

In the form of a frog, Her Majesty's movement speed is only 50% of the normal speed, and the movement speed cannot catch up with Lu Yang at all.

Thirty seconds later, Lu Yang pointed a big frog on his staff.

"The flames burn out"

A huge skull appeared around His Majesty the King, and the temperature rose sharply throughout the game.

"20982" (Critical Strike)

“21965” (Critical Strike)

...

More than 10,000 injuries per second emerge from the crown of His Majesty’s head. Although the damage is not too high, it is very annoying for His Majesty. Now it has become Lu Yang who can run at full court at any time, and he needs to resist this injury.

“Lu Yang, stand still when you have the courage, don’t run.” His Majesty roared.

Lu Yang ran to the corner of the other side and watched His Majesty the King bouncing after him, saying, “Okay, if you don’t let me run, then I won’t run anymore. If you look good, I will give you another skill.”

“Great Ancestor of Fire ...”

A series of spells popped up again. After 10 seconds, Her Majesty just ran to a position 50 meters away from Lu Yang.

“Meteor Fire”

A huge fire meteor descended from the sky, right in the head of His Majesty the King.

“46128” (Critical Strike)

A stun sign appeared above His Majesty’s beating head.

“Meteorite Impact”

After Lu Yang releases a skill, he uses the flame shadow to immediately come under the king’s crotch and punches with a left hand.

“The Sun Fist”

His Majesty the King was attacked by a crimson meteorite, and was suddenly hit with a heavy punch. His body was beaten backwards, just in time with the speed of the meteorite. The meteorite was struck for 5 seconds in a row. It just landed and there was a redness in the sky The colored light falls.

“Destroy the Sky”

After so many upgrades, the shape of the Skyfire gradually changed, from the original one, to a point. Only after the enemy was stunned, could a single enemy be accurately hit.

“30598” (Critical Strike)

His Majesty the King was hit again, and his blood dropped from 1 million to over 700,000.

Lu Yang retreated backwards, and the spell continued in his mouth.

“Meteor Fire Rain”

His Majesty the King just woke up, and a large number of fire meteors fell from the sky.

“20182” (Critical Strike)

“19888” (Critical Strike)

Every attack made His Majesty feel uncomfortable, but he still could not meet Lu Yang.

“Remnant Flame-Activated”

Lu Yang and other kings stunned to within 30 meters, released their skills again and jumped to 100 meters away, and spelled out in their mouths.

“The Great God of Fire ...”

After 10 seconds, another flame-type secondary curse fell. At this stage, Lu Yang knew 4 secondary curses and 1 curse. Four consecutive skills were lost by Lu Yang in succession, and His Majesty could not bear it. The large toad form was directly knocked to the ground.

System prompt: Lu Yang wins the battle.

The flames and poisonous substances on the field had disappeared, and Lu Yang was relieved. The battle just now made him really tired.

In the last life, His Majesty the King did not have a highly venomous bloodline. I did not expect that this life had this bloodline at this time. It changed so much that it made him feel a little overwhelmed.

Fortunately, His Majesty the King is a fool, so that he does not use the spirit-consuming skills of the second clone.

After a single promotion, the game entered the next round. After a half-hour break, Lu Yang ushered in his second opponent.

The light flashed.

Lu Yang appeared in a forest. His second opponent was No. 40 Turkish archer Aldo, and it was no surprise that Lu Yang won.

In the battle without blood power, Lu Yang didn't need to fear anyone. He went from the top 80 to the top 20, and finally met a master of blood power, a Spanish player bullfighter.

“Man, I’m unlucky when you meet me. I just restrain you.” The bullfighter wore a gorgeous bullfighting skin and glanced proudly at Lu Yang.

Lu Yang said with a smile: “The only thing that can restrain me is thunder blood, are you thunder?”

“No, I’m the summons department and swordsmanship department. I’m optimistic. My fierce head charged.” With a stab of the bullfighting hand, a fire ox suddenly emerged from his blade, and rushed towards the landing sun.

As soon as Lu Yang’s eyes lighted, he knew the bloodline, and he specially called for the fire ox array. The fire ox knew how to explode, and most people couldn’t beat him.

However, Lu Yang is not an ordinary person!

“Flame Storm”

Lu Yang released the skill to stun the stunned cow 10 meters away.

“Blazing Bird”

Lu Yang pointed at the matador, and a large red bird rushed towards the matador.

“Sword Art Unparalleled”

The matador flirted with sword flowers in front of him, the flame bird was interrupted.

“Sure enough, I have two sons.” Lu Yang said.

“Yeah, the first master, you are going to plant it with me this time.” The matador smiled proudly, he saw the fire ox had rushed to Lu Yang.

“explosion”

“flicker”

Lu Yang suddenly appeared in front of the matador, saying, “Boy, your skills, I know, are not effective for me.”

“The Sun Fist”

“Sword Art Unparalleled”

A piece of sword light intertwined in front of him, colliding with Lu Yang’s fierce fist.

“嘭”

The Matador was beaten to a distance of 10 meters and lost 150,000 blood. After all, he could not restrain Lu Yang’s special skills.

“Sure enough,” said the bullfighter with a somber expression.

Lu Yang said: “Your profession is not suitable for personal warfare, although you use your reaction speed to reach the top 20, but you stop here.”

“Why do you think of me?” The bullfighter sword flower fluttered, and the two tauren were summoned by him, carrying the totem pole towards the landing sun.

Lu Yang sneered, using the escape dagger to easily escape into the distance, and said, “See, your skills are suitable for group warfare. The more people you have, the stronger you are, but in this kind of personal warfare, your veteran and bullfighting speed Can’t keep up, how can you fight me. “

“I still have the Battle Eagle.”

The matador played sword flowers, and two falcons flew to the sky.

“flicker”

Lu Yang suddenly appeared behind the matador.

“Flame Storm”

“Blazing Heart”

“Fire Snake Bondage”

...

8 consecutive skills were played, and the bullfighters were killed by Lu Yang without any response.

“Fuck, I still have no big tricks to use.” The bullfighter shouted unwillingly.

Lu Yang laughed, looking at the resurrected matador, and said, “I know your big move, do you summon the fire cows, hit me?”

“That’s right.” The matador went away in depression.

Lu Yang said: “There are pros and cons, don’t get too involved in this matter.”

“Thank you, I’ll go back and continue training. I’ll challenge you next year.” The matador left.

Lu Yang returned to the rest position, and in a panic, no one expected that Lu Yang would enter the top ten in the world.

“Haha Boss, come on, the flying mount is right in front of you, you want to succeed.” Shouted bitterly for half a lifetime.

Lu Yang returned to his position and asked, “Your games are over?”

“Hey, there are bloodlines, whether it’s a five-player, three-player or two-player battle, it’s too easy.” White Lion said.

“Zhuojiu said,” I feel a bit suspicious. “

Everyone laughed.

Xia Yuwei said: “I can resist the attack of two people in the battle alone. It is too simple.”

Lu Yang shrugged his shoulders and said, “Have Liu Jie and Tianyan Alliance entered the top ten of the multiplayer group?”

“I saw a few new faces, as if they were all cultivated by Liu Jie.” Tu Feng said.

Chapter 1025 - Won

“Look out for them,” Lu Yang asked again, “how are the consortiums and found that they did not.”

Tu Feng said, “People from the consortium came to our guild to recruit people. Some elites came to me today and offered to withdraw from the guild.”

Lu Yang asked, “How many people are there?”

“Almost 300 people,” Tu Feng frowned.

Lu Yang said: “Release people, since they have a good future, let’s not stop them.”

The big consortiums settled in. These are real chaebols, and they spend hundreds of billions of dollars on their net worth. How can Lu Yang alone keep these elites.

However, the game has reached this level, the elite is no longer the main role in determining the success or failure of a guild, and the real players who rely on artifacts and elite equipment are really relying on.

This is just like the early period of the Three Kingdoms and the late period of the Three Kingdoms. In the early period, they were singled out by military commanders. In the later period, it depends on who can buy good enough equipment and who has a better strategy.

The third day of the contest.

The game has entered the final 10 hegemony battles, and it is time to decide the championship. During the game, more players watch this game.

Live room.

“It’s finally the finals. Starting today, all the last 10 players participating in the game are masters with blood.” Dubin said excitedly.

“The power of the bloodline allows us to see the equipment that is not inferior to the artifact. It is hard to imagine that the skills carried by the power of bloodline are so powerful.” The British host said.

“I thought Luyang would be the first place without any suspense, but now I’m skeptical about it,” said the French host.

“Why?” Dubin asked.

“So far Lu Yang has not used his blood power to split, I suspect he can not control two bodies at the same time, we can’t play alone, two people are even more inoperable.” The French host said.

“I agree,” said the German host.

Dubin said: “Although I don’t want to agree with you, it is undeniable that it is very difficult to operate two professions at the same time.”

“Look, the game has started,” the Italian host shouted.

Lu Yang made his first appearance today. His opponent was Edward, the tenth-ranked British guild president, and the light flashed. Both men appeared in the playing field at the same time.

“I can’t think of you, what a coincidence.” Lu Yang said with a grin, and he beat Edward very easily.

Edward looked at Lu Yang with a somber expression on his face and said, “Yeah, that’s a coincidence.”

Lu Yang said, “Let’s compare it before. You back it up. Don’t fight with me.”

Edward’s face was cloudy, and he said, “That was my intention, and this time I won’t give you a chance.”

Lu Yang laughed and said, “Okay, then try it.”

“Avatar”

The light flashed, and Lu Yang came out beside him with the water body holding the Trident.

The system prompts: The game starts.

Edward's body turned into a thunderbolt and jumped into the air. Looking at Lu Yang's two bodies, he did not easily attack.

Lu Yang did not attack, and stood there waiting for Edward to take the lead in attacking.

Edward endured for a while, and found that his blue was falling rapidly. He decided not to endure it any more, and turned into a thunderbolt and rushed to Lu Yang.

"Roll" Lu Yang's water body roared, and the trident in his hand hit Edward's head.

"357860" (Critical Strike)

Edward was taken a step back, looked at Lu Yang's body in shock, and asked, "How much is your body's attack power?"

Lu Yang said with a smile: "170,000."

"Boom ~!"

The billions of players watching the game were stunned.

"Is this the magic swordsman, so strong."

"It turned out that Lu Yang was so strong."

...

Many people have heard about Lu Yang's possession of water, but most of them have never seen Lu Yang use it. For the first time today, everyone saw it.

Lu Yang controlled the water body and said, "My profession is a magic swordsman in the water system, which hurts 170,000, and damages 110,000. There is no chance to hit you with me."

In the case of 2 to 1, only one Thunder Master had no chance to belong to normal, but Edward did not want to give in.

"I don't believe you have no flaws." Edward jumped into the air, his body released a thunderbolt into a thunderball, and revolved frantically around the landing sun.

Lu Yang looked around. Suddenly, Lu Yang moved, and he predicted that Edward's flight route would play Pyroblast.

"噔"

Edward was hit by a skill and fell from the air to the ground, and then Moisture suddenly appeared in front of Edward, and the trident suddenly * his head.

"flicker"

Edward jumped backwards, and as soon as he landed on the ground, Lu Yang's spirit was cut back to Flame Master, and a flame hit Edward's head.

"Pretty"

Countless players yell madly, can control two characters at the same time, and can make such a reaction speed and precise attack, even the enemy must applaud Lu Yang.

Lu Yang controlled the body to release the impact of the meteorite, and the spirit instantly cut back into the water, and launched the flashing skill to Edward. At this moment, Edward just woke up and faced the attack of the Trident of the King of the Sea.

"Anchor"

Trident spins * Edward's body and stuns it in place for 2 seconds. The meteorite in the sky hits Edward.

Lu Yang gave Moisture orders to continue the attack, and the spirit returned to the fire mage, threw the escape dagger and jumped in front of Edward. When Edward just woke up, he launched his skills.

“The Sun Fist”

Lu Yang punched Edward in the abdomen and flew Edward back more than 10 meters away. Just after landing, Moisture threw out his escape dagger and jumped behind Edward.

“Big Wave Slap”

Edward was beaten again, and flew forward to Lu Yang's ontology fire master. This trick is called playing table tennis. It was a common skill of the last player who possessed the blood power of the last generation, which was specially used to hurt people.

Suddenly Lu Yang got upset, put the wand back into the backpack, and caught Edward's arm empty-handed, and fell back to the ground with a backhand shoulder fall. Edward, who was just blood, was dropped by this shoulder. Kill.

System prompt: Free skill judgment, damage is power points * 1.5

System prompt: Lu Yang wins the battle

There was no suspense in winning, but winning in this way caused the audience to fall into madness and everyone shouted madly.

“Oh my god, the mage can use shoulder falls too.”

“It's beautiful.”

...

Lu Yang withdrew his body and beckoned to the audience, attracting even warmer cheers.

Edward stood up, glanced at Lu Yang resentfully, and left.

The light flashed, and Lu Yang returned to the rest area and continued to wait. Not long after, he came to the next game.

Just after landing, Lu Yang saw that the surrounding environment turned out to be a valley, and his opponent was Saudi player Braun Wan.

“Chairman Lu Yang, I’m so lucky to have met you here.” Braun Wanyi said with a smile.

Lu Yang frowned and asked, “Do I know you?”

“You don’t know me, but I know you, do you remember if you helped Prince Faisal, I’m his deadly counterpart.” Braun angered.

Lu Yang said: “Uh, take the money and people to eliminate disasters, sorry.”

“Don’t be sorry, I’ll kill you myself to make you apologize.” Braunwan’s body glowed a fiery white light.

Lu Yang frowned, and asked, “You have the power of the bloodline-is God right?”

“Yeah, huh, no matter how many avatars you have, as long as I get hit, you will die without burial.” Braunwan said.

Braunman's attack power exceeded 200,000, and his attack power doubled to 400,000 using the God of Heaven skill, while Lu Yang's blood volume was only over 600,000, and being beaten twice would be complete.

Lu Yang frowned, and said, "You are really strong. It looks like I'm going to use a trick."

"Trick?" Braun Wan frowned.

Lu Yang released the water body, his spirit entered into the water body, took out a white water bottle from the backpack, and said, "This is my trick."

"Water bottle? Trick?" Braunwan was confused.

Lu Yang sneered, while the battle had not yet begun, a spell was spoken in his mouth.

"Pure water bottle"

A lot of seawater poured from the level. Soon, the seawater didn't pass his knees. Braun Wan looked at Lu Yang in shock and said, "How can there be such a thing."

Lu Yang said: "You can't just have two physical attacks on a second person, you can't let others have something to restrict you."

"This, this, it's not reasonable." Braun Wan said angrily. With so much seawater, he couldn't even take a step, and his movement speed was reduced by more than 30%.

Soon, the sea water didn't go over the waist, and the water in the pure water bottle was gone. Lu Yang said, "It's not me who is unlucky, it's you who's unlucky, watching."

Lu Yang's body of the fire master hid in the distance, and the spirit returned to the body of the water master, a flash of light flashed, and Lu Yang became the elemental water form.

System prompt: match starts

“Let you see how strong the water magic swordsman is in the state of water.” Lu Yang’s moving speed has become 350%, reaching the maximum moving speed, just like flashing, came to Braun in an instant. 10,000 swivels around.

“God.”

Braun Wan immediately launched a double attack form, and he smashed the huge two-handed sword in his hand, but even then, Lu Yang could find a gap and drill into it to attack.

The players around were stunned. Originally, they thought that the magic swordsman of the water system was still dominated by magic attacks. There was no skill in melee, but they could see the current situation. They understood that the magic swordsman of the water system should not have melee at all. Skills, otherwise too buggy.

“At this moving speed, no one can stop Lu Yang unless there is a way to control him.” Dubin said in the live broadcast room.

“Agree, if there is an ice mage or other control profession that can trap Lu Yang, his water mage will be easily killed, but the Saudi master in front of him is only a melee class, and his stun skills can only Individuals need to be aimed at, “said the American host.

On the court.

Lu Yang suddenly cut behind Braun Wan, lifting the water form of the element, and the trident fiercely * his head.

“379860” (triple crit)

Braunwan roared back and attacked, but was turned back by Lu Yang as the water of elements, then moved to Braunwan's flanks, morphed into a figure, and stabbed Braunwan's shoulder with a fork.

"90178"

Braun was furious and turned to attack, but was avoided by Lu Yang, everyone watching shook his head.

Two minutes later, Braun Wan was knocked to the ground by Lu Yang, and the system suggested that Lu Yang won.

Braunwan left the field with anger.

The audience cheered and applauded Lu Yang's wonderful performance. Everyone just saw it. It is not easy to achieve that level of Lu Yang. It is also necessary to accurately hit the enemy during high-speed movement. of.

"Do you need a break?" Lan Yu asked, looking at Lu Yang who was back in the room.

"It's okay." Lu Yang was comfortably lying on the chair.

The game reached the top five hegemony match. When the lottery was drawn, there was a man taking a turn, and Lan Yu was drawing for Lu Yang. However, he did not expect to have a draw.

Lu Yang looked at the field, and the remaining four players competed in pairs. The stronger one was an African player. The bloodline used was Thunder and he was an opponent. The other three were not in Lu Yang's eyes.

After the top five battle ended, the one with the worst record in history was eliminated and turned into a top four battle. After Lu Yang won the opponent, he finally faced the African player.

On the ring, Thunder Master Kanter looked at Lu Yang with a smile and said, "The boss said that you are very strong, always wanted to fight with you, and finally met."

Lu Yang said, "You are also very strong. Unfortunately, you can't beat me."

Mage Thunder laughed and said, "Mage Lei is born to restrain the water mage, how can you fight me?"

Lu Yang said, "Maybe, it depends on the circumstances of the war between the two sides."

He took out two pure water bottles from his backpack and quickly poured the water from the first water bottle. This was a valley terrain, and the water level did not pass the waist before the battle began.

"Damn, you play." Thunder Mage was furious.

Lu Yang said: "It's not a fool. My second level has a cooling time of 5 minutes. If you can beat me within 5 minutes, you will win."

"Thunder's Fury"

Thunder Lighter in the hand of Thunder Mage lights up. He did not dare to waste time and attacked Lu Yang with a large range of super powerful spells.

Thunder Wrath's attack range is 30 yards, and the damage is twice that of spell damage. Very special spell attacks have also been hailed as the strongest magic attacks. When the strongest, two strokes can kill in seconds. A mage of the same level and equipment killed four defenders.

If Lu Yang did not dare to resist this skill where there is no water, Lu Yang thinks he can fight against Thunder Mage where there is water.

"Water Shield"

"Tsunami"

Lu Yang chanted two spells in succession, one raised himself with a shield capable of resisting 300,000 damage, while the other released a special magic tsunami.

Thunder Wrath's special effects are cool enough, but compared with the tsunami, it is far too far. The huge waves set off more than 5 meters and rushed towards the Thunder Master.

“Thunder Shield”

The lightning mage lifted up the shield and Lu Yang's rigidity. Both resisted each other's magic attack at the same time, and then the spells in the mouth of the lightning mage and Lu Yang chanted at the same time.

“Thunderous”

“Big Wave Strangling”

A purple thunderbolt fell in the sky and hit Lu Yang, while the seawater revolved wildly around the Thunder Mage.

The players looked at the magic in the field excitedly, and at the same time paid attention to the health of the two. At the same time, they were surprised to find that the skills of the same level, both of them did not suffer high damage, as if they have the skills to reduce damage.

Both Lu Yang and Mage Thunder also found the problem.

“Looks like you have a Thor shield,” Lu Yang said.

“Don't you also have a Neptune shield?” Thunder Mage asked.

Lu Yang laughed and said, “Continue to fight like this, you will lose.”

“That may not be so.” Thunder Mage said a spell.

“It’s a curse.” Lu Yang’s eyes lit up suddenly, a light flashed, and Lu Yang suddenly appeared in front of Mage Thunder.

“Water prison”

The surrounding seawater formed a water system prison to trap the Thunder Mage.

“Thunder Shadow”

The water prison was broken, and the Thunder Mage released the dodge ability and ran to a distance of 100 meters.

“It’s not that easy to trap me. Look at me, Thunder Warhawk.” Thunder Mage made a move with his left hand, and two eagles made of thunder and lightning flew to Lu Yang.

“I do too.” Lu Yang made a left-handed move, and two giant sharks appeared, rushing towards the Thunder Mage.

“Oh ~!”

“It’s beautiful.”

“There are magic pets.”

...

In the live room.

The American host asked curiously: "Strange, why didn't Lu Yang attack this time?"

Dubin said: "There is no way to fight in close proximity. The other party is a Lightning Mage, who has a lot of paralysis skills. They can be easily approached. Once they are paralyzed, they will be charged to death. He will also be charged with death. The Thunder Master almost made a mistake just now. "

The American host nodded and said, "I see. No wonder the two played so cool, they didn't dare to come close."

"It's also good, it's a visual feast," said the French host.

On the court.

Lu Yang and Thunder Mage both ignored the release of magic and attacked each other's pets with all their strength. Lu Yang was more relaxed here. Two people could attack at the same time.

After 3 minutes, Lu Yang killed two Thunder Warhawks, and the Thunder Master just killed Lu Yang's big shark.

"Damn, so much blood." Thunder Master cursed.

Lu Yang looked at the time, took out the second water bottle, and said, "You lost."

"Aren't there more than a minute? Do you think you have won?" Thunder Mage cursed.

Lu Yang opened the water bottle, poured the water out, and said, "Sorry, I used deception, but it was actually three minutes."

"Asshole The thunder mage was furious and rushed towards the landing sun frantically, but before he ran to the front, the sea flooded his head.

“Rage of the Sea”

The trident in Lu Yang’s hand suddenly pointed at the Thunder Mage, and a huge sea power would hit the Thunder Mage swimming over.

“Elemental Water”

Lu Yang swam quickly to the mage of Thunder, and used all the evasion skills to launch the water prison while he was killing the big shark.

Thunder Mage did not have any evasion skills this time, and was controlled in a water cell.

“Big Wave Strangling”

The huge water wave was spinning wildly around the mage of thunder, and every attack killed him more than 100,000 health. Within ten seconds, the mage of thunder was killed.

Chapter 1026 - New World

System prompt: Lu Yang wins the battle.

The Thunder Mage disappeared into the arena, which was originally a moment when the playing field changed into a podium.

The official machine host appeared at the scene and announced to everyone with excitement that Lu Yang had won the championship of the Second Global Competition.

“Congratulations.” The robot host approached Lu Yang, handed him a trophy, and gave Lu Yang a flying carpet.

System prompt: you got the magic flying carpet

Lu Yang looked at the flying carpet in front of him and said to the robot, “Isn’t it for the flying dragon, why did you come to me and give the flying carpet?”

The robot smiled and said, “Nobody said to the dragon, this is a flying mount.”

Lu Yang rolled his eyes, speechless, and said, “Well, then I’ll go and fly on my own.”

The scene burst into laughter.

On the other hand, the games also ended one after another. The German players won in the double player match, and the two brothers Zhou Tianming won the second place.

In the three-player battle, the three males of the Bai family live up to expectations and win the first place. In the five-player battle, the bitter love half-life won the first place.

At this point, the Brotherhood of the Iron Blood has once again become the biggest winner in the global competition, and has received the most rewards.

The cash reward is 100 million credits per person. Except for personal battles, the rest no longer give any props, that is, currently only Lu Yang owns the magic flying carpet.

The player exploded.

“The new continent is open.”

“The naval battle is over?”

“It’s great. Finally, I don’t have to face the monster while swimming in the sea.”

...

Overall, players still hate naval warfare. After all, naval warfare tests are too high, and they are accustomed to normal movement speed, which is reduced by 50%. No one can run fast.

Lu Yang looked at Liu Jie in the distance. He found that Liu Jie was also watching him. In his heart, Lu Yang suddenly had a very happy feeling. Finally, he could finally find Liu Jie in the New World to take revenge.

Lu Yang will never forget that valley wherever it starts.

“Huang Xiang, Huang Xiang.” Lu Yang murmured to himself.

The light flashed.

Lu Yang was teleported out of the arena and returned to the guild hall of the city of St. Gall. He looked around and said, “We are about to open a new continent. You must be mentally prepared.”

“What kind of mental preparation?” Bitter love asked half-life curiously, in his opinion, no matter where to go and landing Yang, do not need to think about it.

Lu Yang said: “The new continent is a bit special. It was a very large map. When we teleported it, players from all countries transmitted it randomly, and no one knew where they would be teleported.”

“Ah?” Everyone was surprised.

The White Lion said, "Why is there such a thing?"

Lu Yang said: "The naval battle has increased the tension between the countries too much. To compensate for this change made by" Second World ", players from all countries in the world will be randomly assigned to various places in the new continent. When you get there, send me the coordinates right away, and I think of a way to bring you all together. "

The White Lion asked, "Boss, is it okay to use a teleportation scepter?"

Lu Yang shook his head and said, "The message I got here is that teleportation scepters are forbidden in the New World. You can only open teleportation scepters if you find a chaotic orb."

The rareness of Chaos Orb is ridiculous. It was investigated in the last period of the last life. More than 3 billion people entered the game. Less than 1,000 people have the transmission scepter, which is a one in 10 chance.

The rest of the day, the next morning, the server started to restart. When the game started at noon, Lu Yang entered the game.

He flew to the Pirate Kingdom with the badge, the Global Contest was over, and the state of seclusion of all countries was lifted.

The entire island kingdom is full of 100 players from all over the world.

"Follow me for a while, we will go to the new continent to upgrade the monster together."

"Guild, teleport together."

"Follow the boss."

...

Voices of friends and friends are everywhere.

The system prompts that the new continent is about to open. Starting today, the maximum level will be increased to 200.

Lu Yang waited for this moment, opened the national war points exchange points, and exchanged hundreds of millions of national war points into experience points.

System prompt: You have upgraded

System prompt: You have upgraded

...

In a series of more than 30 tips, Lu Yang rose to level 137. Like Bai Yang, the white lion and others basically reached level 130, of which more than 30,000 elite players also rose to level 120.

After the start of the national war, under the leadership of Lu Yang, the Jagged Brothers League has not lost, sweeping the countries of South Asia, and even the players of Jagged Brothers have a lot of national war points.

The system prompts: Transmission is on.

Lu Yang immediately clicked on the portal.

A light flashed, and when Lu Yang opened his eyes, he found himself on a continent full of ice.

“Fortunately, the distance is not too far.” Lu Yang felt relieved.

The ice continent must be in the north of the entire large map. In the new continent, if you want to take control of a party, you must first occupy a unique geographical location. For example, the player has to travel to the eastern region and the northern region where he is now.

Lu Yang looked around, and suddenly, hundreds of foreign players teleported around him.

“The brothers are getting rich. They are the bosses of the Jagged Brothers League. They have just won the world championship, Lu Yang.”

“Get him.”

...

Lu Yang was speechless.

“flicker”

A light flashed, and Lu Yang jumped to the top of a big tree next to it.

“The Great Lord of Fire ...”

A magic spell sounded, but the player below did not find the landing point after Lu Yang blinked away.

“Strange, what about people?”

“I didn’t see it, I didn’t.”

“I don’t have this either.”

...

A player who looked like a president cursed, "He can't get into the soil."

Lu Yang snorted and said, "I can't drill into the soil, but I can fly to the sky."

"Meteor Falls"

A huge fire meteor broke instantly and smashed in the middle of this group of players, with 110,000 spell injuries, and sent all of these players back to the pirate kingdom.

Lu Yang glanced at the equipment on the ground, all of which were level 100. He was too lazy to pick it up, looked at the magic flying carpet in his backpack, and chose equipment.

A blanket appeared at his feet, holding Lu Yang up.

System Tip: Your mount is a magic flying carpet, and the movement speed is 200% of the normal movement speed.

This movement speed is not as fast as Lu Yang's, but he wins because he can fly over mountains and rivers without worrying about being caught by the enemy on the ground.

Lu Yang shouted in the simulation group and asked, "How many people teleported to the ice field, tell me."

"Boss, we don't even know where we are. I don't have ice here," said White Lion.

"I don't have that either," Xia Yuwei said.

...

More than 30 army commanders turned out to be Lu Yang alone. Lu Yang scratched his head. He found that his luck was not ordinary.

“Forget it, you gather the players each, I’m going to play equipment first.” Lu Yang said to everyone.

Before coming here, the division of labor was clear, and the vice-chairmen, legions and commanders gathered their players to find ways to bring them together.

The New World does not provide a map, and Lu Yang can only use his memory to find where he is going, and along the road, Lu Yang flew towards the south.

Players fighting in various countries are everywhere along the way. The war just experienced has made players in various countries unable to let go. The original hatred erupted in the New World.

“kill you.”

“Dare to hit our country, you are dead today.”

...

In a curse, Lu Yang’s flying carpet flew over them, and the players looked up when they reacted, and found that Lu Yang was exclaiming.

Lu Yang ignored these players. Two hours later, Lu Yang finally found a place to familiarize him.

The system prompts: You found Wan Lao Shan

The mountains here are very characteristic. It is a unique map of the entire outer region.

Lu Yang found the mountain, and his surroundings almost gave him enough awareness.

He then took a flying carpet and flew towards the south. After flying for three days, Lu Yang finally came near a red mountain.

System prompt: You found Chiyang Mountain

On the mountain road, there were a lot of red-red ore. Lu Yang came down there and dug a piece of red-yang stone and found that it was the same as the introduction of the last generation.

Chiyang Stone: Level 100 ~ 160 weapons / equipment forged stone

The entire mountain is a mine. Lu Yang came to the village below and was just going in, but he was surprised to see that there were hundreds of players from all continents in the distance.

“Haha, there are mines of forged weapons and equipment here, we are really making a lot of money.”
The unpalatable said to Liu Jie.

Liu Jie was also very proud, saying: “We took the task first, a team of people went to mine, and a team of people wiped out the nearby village and raised the reputation of this village.”

Lu Yang sneered, Liu Jie was dead beside him. It was really a waste. Without a detailed understanding of the surrounding environment, he dared to go to war in other villages, really looking for death.

He hid behind a big tree and waited for Liu Jie to leave and walked into the village.

System prompt: You have found the Devil's Village

There are demonic creatures all over the village, and each one is a level 140 elite. If this is not a neutral village, Lu Yang would not dare to come in.

He came to the village chief and asked, “What can I do for you?”

The devil's village chief is a demon who is more than three meters tall, and gives Lu Yang a scornful look, saying, "Across from our village, there is a two-headed devil village, which wiped out the village for me. I will give you a lot reward."

Lu Yang asked, "Are there any other tasks?"

"If you can find a lot of devil beards for me, you will get my approval," said the devil village chief.

The system prompts: The devil village head may post a mission to you to find enough devil beards.

Devil beards are a very special item. Each devil has only 6 beards. Devil snakes can only be found in special areas.

Lu Yang left Devil's Village and used a flying carpet to fly straight into a mountain stream in Chiyang Mountain. In the moist soil, he found the existence of a devil snake.

Devil snake

Level: 140

Qi and blood: 1600000/1600000

The devil snake is not an elite monster. It is very easy to kill. Lu Yang launched a fiery sprint and ran into the group of devil snakes. After attracting hundreds of devil snakes, he jumped 100 meters away and released a secondary forbidden spell to the devil snake. drop.

"boom"

Hundreds of devil snakes were stunned.

“Lava Eruption”

...

Lu Yang released lava continuously, all within 100 yards of it was shrouded in lava. The devil snake was roasted to death within a short distance. He walked over to pick up his beard.

System prompt: you get a devil beard

...

I picked up more than 3,000 devil beards at one time, but this number was not enough. Lu Yang repeated it more than ten times, and finally collected 20,000 devil beards.

He returned to the village, handed 10,000 beards to the devil village chief, and said, “This is for you.”

“Look, you are not tall, but you have good abilities.” Devil Village Zhang is very satisfied.

System Tip: You gain +100000 reputation in Devil’s Village

Exalted with your reputation in Devil’s Village

“What do I need to do?” The village chief asked.

Lu Yang said, “I want to build a wild fort?”

“The wild fortress.” The devil village chief thought for a while and said, “Building a fortress requires the approval of Lord Horn, you need to go to the town’s magic mountain, this is the transfer token.”

The system prompts: You get a transfer token.

This is what Lu Yang wants. The town's magic mountain is deep in the ground in the center of the new continent. It suppresses a large number of top-level demonic creatures. Generally, players cannot reach here, and they can only reach this place with this token.

The light flashed and Lu Yang appeared in the Demon Mountain. He looked around. This is an underground world. The surroundings are dark. Only the area where he is located is illuminated by torches. On the platform around the cliff, a height of only 2 Mido's demon is reading a book.

Lu Yang walked over and said respectfully: "Hello, Lord."

Horn nodded and said, "Hello, what is it?"

"I want to build a wild fort."

Horn looked at Lu Yang and said, "Your strength is good, but I will only issue one token for a wild fortress every week. If you want to establish a wild fortress, you need to wait for 1,000 people to sign up before the competition can be obtained.

Lu Yang said: "No problem, I apply for registration."

"Go and wait, there are enough, I will send someone to inform you," Horn said.

Lu Yang nodded and returned to the Devil Village with the token. Just after landing, Lu Yang found Liu Jie and his men beside him.

"Lu Yang !?" Liu Jie's hair was exploded.

"I killed you." Rotten badly.

"Stop it." Lu Yang shrouded Lu Yang.

The head of the devil village was angrily dead and Liu Jie and others said, "Lu Yang is an honored guest in our village. If you dare to be against him, I will kill you myself."

Liu Jie was stunned, looking at Lu Yang, and said unhappily, "Your life is really tough enough."

Lu Yang said with a smile: "You are also very tough. You can still meet so many people here."

"Lu Yang, let's go and see." Liu Jie hummed away and took people away. Now Liu Jie is not what he used to be. He swept tens of billions of credit points across the world in the game, making him confident. Heart bursting.

Lu Yang watched them leave and thanked the village chief, "Thank you."

"You're welcome. If you can, please find some more beards for me," said the devil village chief.

Lu Yang nodded. He still had 10,000 devil snake beards in his backpack, but he couldn't give them to the devil village chief. The devil village was next to the devil village, where devil beards were also needed.

Normally, players are not welcome to the double-headed magic village, the name is also red, which means hostility, but if you have a devil beard, the name of the npc of the double-headed magic village is yellow.

This is also why many players in the previous life could n't figure out why some people can enter the village, and some people will be attacked.

At first everyone thought it was an official lucky player, but later found out that it was due to the devil's beard.

However, at this time, many people could not take up the task even with the devil beard, because they first took the killing task of the village head of the devil village, killing a large number of npc in the double-headed village, and the reputation became a deep hatred. No change is possible.

Thinking of the experience of the last life, Lu Yang took the flying carpet to enter the village, and came to the head of the villager of the two-headed monster, repeating what he said to the villager of the demon village, and also received the devil-beard task of the villager of the two-headed monster. .

He gave 10,000 devil snake beards in his backpack to the head of the two-headed devil village, and his reputation increased to worship.

“Child, this is my reward for you” The double-headed devil village chief handed a mask to Lu Yang.

Two-headed magic mask.

Description: If you put on this mask, you will become a two-headed monster, and you can freely enter and exit the two-headed abyss.

Lu Yang has not entered the double-headed abyss. He was one of those unlucky eggs in the last life. When he knew that the devil’s beard task could gain the reputation of the double-headed magic village, he had already had a deep hatred with this village.

He decided to go in and just look inside. Suddenly, a familiar voice came from behind him.

“Unlucky, if I see Lu Yang in the wild, I must kill him.” The unpleasant voice came from the village mouth.

“Damn found the intruders and killed them.” The village sirens.

Looking out of Lu Yang, Liu Jie walked out of the dense forest not far away with more than two thousand players, and his face was grateful.

“Fortunately, I have a magic flying carpet, otherwise I won’t be able to get out of the village.” Lu Yang muttered to himself.

“Child, you hide, I’m going to destroy the invaders now,” the village chief said angrily.

“Don’t,” said Lu Yang, holding the village chief. “We can’t rush in so aggressively. I suggest that some soldiers attack from the flanks and kill their healing units.”

The village chief said, “Just make sense, just listen to you.”

“How about letting me take a team up?” Lu Yang asked.

“Coles,” the village chief shouted.

A two-headed warrior ran to the village chief and asked, “What’s up, the village chief.”

“From now on, you and your team will obey Lu Yang’s command,” said the village chief.

Coles looked at Lu Yang, and punched his chest with his right fist. “Coles is willing to serve you.”

Lu Yang’s prestige in the village is worship. The village chief requested Coles to fully implement them, and there was no problem in cooperation between the two parties.

“How many people do you have?” Lu Yang asked.

“A team of 500 people,” Coles said.

Lu Yang looked behind Coles, and 200 soldiers, 200 shooters, and 100 mages were standing not far away. Each of them was a 140-level elite with a blood volume of more than 50 million.

“Well, for the first time to command so much blood, it’s good enough.” Lu Yang said proudly.

“Come with me.” Lu Yang said to Coles.

“Go forward,” Coles shouted.

The 500-member brigade followed Luyang and Coles out of the village’s side entrance. By the time they reached the main entrance, Liu Jie had led the team to kill many double-headed villagers.

“Damn, I want to kill them.” Coles growled.

Lu Yang said: “Don’t be impulsive, listen to my command, have you seen their treatment team, rush in and kill their treatment team.”

“Listen to you.” Coles rushed towards the healing player under Liu Jie with 200 soldiers.

“Quick, there are monsters coming from the flanks. Come and stop them in anti-war.” Liu Jie shouted in person.

More than thirty anti-war rushed to the position 50 meters in front of the treatment, and each held Coles and others with ridicule.

“Pretty, hold hate, don’t care.” Liu Jie said.

“Jie Shao rest assured, my hatred is very stable.” A white player said.

Lu Yang felt that he had seen this person, as if he was one of the top 100 in the second global competition, and he was recruited by Liu Jie so soon.

“Very good, hold on, let me see your strength.” Liu Jie said proudly.

White players were more excited, but at this time, Lu Yang opened the system panel and changed the Coles command.

“Cross the defense and hunt for treatment.”

Coles's confused eyes became clear, and he no longer cared about the dying enemy in front of him, and charged towards healing.

“Cleave”

Coles rushed to a treatment in an instant, cut off with a two-handed sword in his hand, and a 140-level boss blame Coles. He has 3 billion health, magic resistance and physical resistance are around 100,000, just like a mobile fortress. He can't move at all. At the same time, he has an attack power of 1.2 million, and the non-defense occupations are one-for-one.

“Damn, how did the boss get out of the hate and run to cure it, and how strange it was?”

“Will you blame me?”

...

In a curse, the white defense player rushed to Coles to release his taunt, and Coles was controlled again.

In fact, you can't blame the treatment and scolding of the defense. A group of people who are dedicated to the defense add blood to the defense, but they don't care about the defense. Let the boss kill them.

“ridicule”

“War Stomp”

“Thunder Shock”

...

The white player used five high-hate skills in a row and was relieved. He turned back to the healers and said, "This time I'm holding back."

"Hold your sister." The treatment ran wildly.

The white player looked back, and found that Coles, who was pulled by him, ran away, rushed into the treatment group for a while, and this time killed more than 10 healing professions.

"Ladros, will you blame it?" Liu Jie angered. He didn't have many healing professions, only more than 300. He couldn't afford to die like this.

Ludros said: "Jess, this boss has a problem, I can't hold him."

As soon as the words fell, not only Colesla could not hold it, the rest of the soldiers could not hold it, and all the soldiers rushed for treatment.

"Damn, what's going on." Liu Jie angered.

Lu Yang sneered in the distance, directing the shooters around him, a group of 100 people, aimed at the treatment group.

"Hash Arrow"

...

The 200 archers fired scattered arrows at the same time, almost covering the healing group. Under this dense shooting, the treatment was completely irresistible and was killed in large numbers.

Liu Jie was killing the village head directly. Seeing that the village head's blood was less than 1 billion, the curable regiment was killed. He cursed, "Retreat, don't fight anymore."

The 2000 team quickly ran away, but the treatment was gone. After being chased by the two-headed devil village chief and a number of boss-level monsters, more than 1,000 corpses were left before they ran out.

“Retreat, not chase.” When the head of the two-headed devil village chased 500 meters from the village, he ordered a retreat.

Lu Yang stood beside the village chief and said, “Don’t hurry, the enemy can still use skills to resurrect. It’s better to wait here for a while.”

“Good idea.” The two-headed demon village chief guarded the body with more than 3,000 people Liu Jie, who just ran out of the attack range, yelled, “Laderos, you are a waste, you can’t pull the monsters stably What the hell. “

With a look of grievance, Raderos said, “I’m doing my best, I don’t blame me.”

“Is that blame me?” Liu Jie was so angry that if it wasn’t for dead grass and the elites at his side, he would have let Laderos get away.

Laderos was also grieved. Suddenly, a player ran over and said, “Boss, what’s wrong, this group of monsters will guard the corpse, we can’t revive our teammates.”

“What?” Liu Jie was mad. After playing the game for two years, he was the first time he heard that the monster would guard the corpse, and cursed: “Will you not lead them away?”

The player said aggrievedly: “Introduced, but it’s useless. Immediately after being resurrected, they were killed by the monsters. This group of monsters, like IQ, can’t run at all.”

Chapter 1028 - Kangbang Consortium

Lu Yang is directing his men to attack Liu Jie, a player who hides in the distance and wants to resurrect the corpse. Each time 200 shooters are covered with hash arrows, and Liu Jie is crazy.

Liu Jie hid in the distance to watch and found that this was the situation. He was helpless and cursed: "Forget it, let them resurrect in the nearby cemetery and run here."

More than a thousand corpses on the ground disappeared.

"Sadly gave up." Lu Yang said with a smile to the head of the two-headed magic village next to him: "Let's withdraw."

"Um." The head of the two-headed devil village nodded with satisfaction and shouted, "The whole army returns to the village."

The village chief said to Lu Yang: "Children, you go back to the village with me, and I want to give you more rewards."

Lu Yang was happy, he was able to pit Liu Jie and he was rewarded. He had unexpected surprises. He followed the village head back to the village square.

The two-headed warrior and the elite returned to their respective rooms to rest, and the village chief brought Luyang back to the door where he was standing and said to Lu Yang: "If you can protect my village from being attacked by outsiders within the next week, I am willing to let my race fight for you in the fortress battle."

Lu Yang blinked his eyes and said, "No problem."

Fortress battles. In the fortress battles that will start in the next month, players who want to obtain a token to build a fortress must win in Horn's game, and the key to winning is who can have more races to loyal to the player.

Although the double-headed warrior of the last generation was not a particularly powerful branch, it was also a very good choice as an early branch.

Lu Yang found a big rock and sat down, staying with the village chief and waiting for Liu Jie to come again.

When Lu Yang pitted Liu Jie here, on the other side, the entire game world also entered a period of shock.

The major guilds and countries that had formed in the past were fragmented after the system randomly assigned players to the brother positions on the New World Map.

The monsters of the New World are very powerful, especially the attack power is very high. Most of the monsters require the cooperation of players to play. Fighting alone or forming a team of less than ten people are all looking for destruction.

The players did not know at the beginning. After several consecutive deaths, some players reacted and knew that they had to form a team to fight monsters.

As a result, many players who were originally hostile guilds or players from hostile countries were forced to form groups together.

The game is originally a game. It shouldn't be necessary to bring the hatred of the country into the country. In the strong oppression of the monsters by the players, it didn't take two days. The original so-called hatred lies between people. Dissipated between.

Ascending to the national level is an enemy, but it can be specific to an individual. When you understand what a person is like, you only care about his qualities and morals. In most cases, bad people are still a minority. Countries The players have also become friends.

This is a good thing for players, but it is a headache for the presidents of major guilds.

Many guilds entered the new continent, but within a week, the players under the president ran nine out of ten, and all of them formed new guilds with others.

However, this can't blame those players. The map is too big. Think about it. As a huge map of Africa in the real world, even if the president of the guild is in the middle of the map, the players are scattered around, and there is no flying mount. Next, I want to gather with the guild leader, and it takes at least half a year to ride the mount.

Is there still a need for this guild? Therefore, the first batch of 1 billion players who entered the New World, hundreds of thousands of guilds, 99% of them were automatically disbanded.

Under such circumstances, several emerging super guilds have begun to enter the player's field of vision. One of them is the Song Dynasty Guild established by Miss Song Jiaer.

"Chairman Lu Yang, thank you. If it weren't for you, our family would lose now." Miss Song Er called and thanked Lu Yang.

At this time, Lu Yang was pitting Liu Jie in the double-headed devil village. Liu Jie attacked the village for a week. He was ashamed by Lu Yang's ashamed face, but Liu Jie's vigor came up, but he had to hit the village.

"Miss Song Er, you're welcome. How about it, has the guild been established?" Lu Yang asked.

"It was built, to the south, where are you?" Miss Song Er asked.

Lu Yang said, "I'm far north."

This distance is quite good. Lu Yang does not want to be too close to the super family like the Song family. Otherwise, there will be a conflict. He destroys the Song family. It is not good, but it is a big hidden danger and it is trouble.

Miss Song Er was disappointed when she heard what Lu Yang said. "Be careful, beside you, there is not only a run-down aristocrat like Liu Jie, but also a Kangbang family of the same level as ours."

Lu Yang's scalp was tingling and said, "Why did this family come to me randomly?"

The last location of the Kangbang family in the last generation was in the northwest, but it was not him. Lu Yang did not expect that the world had changed a lot.

The Kangbang family, which started from selling weapons, became famous during World War II. It has a history of more than two hundred years. The family has produced a total of 50 billionaire super-rich people and more than 500 rich people.

The most famous sentence of their family is called wealth as the second life, which is simply a madman's name. This translation translates to who dare to steal his money just wants his life.

What makes the entire Kangbang family the most famous is not these rich, but the world's largest security company, or the mercenary army.

Each year, 60% of the elite army soldiers who retire from the country will enter the Kangbang family. One of the important tasks of the Kangbang family is to help countries with concentrated rights to eliminate hidden dangers in the country.

Lu Yang asked: "How much do you know about their family in the game, can you tell me?"

"Of course." Miss Song Er was somewhat surprised that Lu Yang knew the Kangbang family and said proudly: "I came back from the human relationship. The Kangbang family sent a total of 5 younger generations to the game and gave them a billion dollar start Funding, if anyone can show up soon, that person will get the full support of the family. "

This habit is very common. Each family has young children. It adopts a competition system to allow better family members to control family wealth in order to achieve the purpose of permanent family survival.

Lu Yang asked, "You mean that the Kangbang family is still in the tentative stage and haven't decided where to build the main city, right?"

Miss Song Er said: "That's right. I happen to know the younger generation of the Kangbang family on your side. Would you like to introduce you to the two?"

Lu Yang smiled and said, "I can't wait for it. I don't want to conflict with him. I don't mind helping him get the family to win the game, but he must leave the northeast."

Miss Song Er smiled and said, "This is what the two of you are talking about. I will only be the middleman. So, if you have time there, we will enter a special space to talk about this cooperation."

Lu Yang looked at Liu Jie in the distance. After he was pitted again for this cargo, he no longer had the idea of attack, and was holding his breath.

"Yes, I have plenty of time," Lu Yang said.

"Then I ask over there." Miss Song Er hung up the interphone, and within twenty minutes, Lu Yang received a special space invitation.

The light flashed.

Lu Yang appeared in a room full of Pig's Peggy stuffed toys, pink everywhere, and carpets too.

"I'm dizzy." Lu Yang was shocked.

"Sister, can't you change your style, it doesn't matter at home, it's the same in the game, I'm a big man." The voice of a young man came from the sofa.

Looking at Lu Yang, a 20-year-old mixed-race boy was sitting on a pink sofa and looked at Song Songsi, the Miss Song Jiaer in the opposite face, with a look of depression.

Song Sisi crossed Erlang's legs * and said, "What's wrong, sister, I'm happy."

The boy is speechless ...

Lu Yang came to the two with a smile, and said, "You have a very special decoration style. I have been playing games for two years. I saw this special space for the first time."

Song Sisi gave Lu Yang a glance, stood up and pointed at the boy and said, "Yun Yi Kangbang, usually he likes us to call him Song Yun Yi, and he is also a member of our family."

Song Yunyi offered to extend his hand and said to Lu Yang, "Jiu Yang is famous."

Even if Song Yunyi is a new generation of the Kangbang family, and even if Song Sisi is a new generation successor of the Song family, neither of them is qualified to look down on Lu Yang, because at this age, Lu Yang had a family with the capital he created I don't dare to reach out with support.

After the three settled, Song Sisi said to Lu Yang: "My purpose is very clear. I hope that Lu Yang can help Yun Yi win this family war."

Lu Yang smiled and asked, "How do you feel that you don't care about this family fight?"

Song Sisi glanced at Song Yunyi, and Song Yunyi shrugged his shoulders and said, "There is nothing to hide. The major families know our situation."

"Any questions?" Lu Yang asked.

Song Yunyi said sarcastically: "I was not eligible to be selected. You know, the Chinese people have serious discrimination in the eyes of Europeans and Americans. At that time, my grandmother married to the Kangbang family. Accepted, when it came to my father, our family was despised by the family because it was mixed.

If we continue to do this, I think our family will be gradually abandoned, but the rise of Huaxia has made the family begin to value Huaxia and work hard from my father's generation to regain status in the family, and I will have a chance Get family support.

But the problem now is that the older generation of my family still obstructs my father to be the chairman of the next term because my father and I are not purebred Kangbang family members. In order to test my father, I am also one of the considerations. If I can't win in the game, it will have a great negative impact on my father. "

Song Sisi said angrily: "The old and stubborn people of the Kangbang family always look down on the Huaxia people. I hope you can help Yun Yi keep those people shut up."

Lu Yang thought for a while and said, "It's OK to help, but I have the conditions."

"You said." Song Yunyi said.

Lu Yang said, "You can never touch your fingers in the northeastern part of the New World."

"Where do I go?" Song Yunyi asked.

Lu Yang drew a map of the new continent on the table, pointing at the vast map of the north, saying, "If you want, I can help you lay the entire northern region, but I only want the northeastern region."

Song Sisi asked, "Why don't you want the north, but the northeast?"

Lu Yang said, "It's okay to tell you, the northeast region has already been explored by my men, and one-third of my main force has arrived here. I can launch an external attack at any time. You said that I will now run north again. Aren't you idle? "

"So fast?" Song Sisi was stunned.

Lu Yang said: "It's so fast."

Song Yunyi asked with some disbelief: "How did you do that, so a lot of guilds in the game disintegrated."

Lu Yang said: “Simple, I haven’t got anything else in these national wars, but I have gained a lot of experience. I would rather let my 7 million main force die a few more times and let them teleport to the Northeast. “

Only Lu Yang and Liu Jie in the world can do this. One death drops 10% of the current level experience value.

It is hundreds of millions of experiences to drop once at the 100 level. I do n’t know how long it takes to fight back, but the players of the Jagged Brothers League follow Lu Yang to fight the national battle and get a lot of experience value.

In particular, the 7 million main forces all used multiple deaths to randomly reach a location close to the northeast region. Currently, they are advancing toward the northeast region under the leadership of more than 30 vice-chairmen such as Zhuoji and Baishi.

Song Sisi and Song Yunyi nodded clearly.

“No wonder a large number of guilds have been dissolved, but your Jagged Brotherhood is still okay.”
Song Sisi said.

Lu Yang said, “Yunyi’s main task now is to find a village in the middle of the northeast and northern regions as a stronghold and gather players there.

Every village in the game has a place to buy supplies and a place to get drawings. Spend money to buy some of the top 100 players and teams in the global competitions, and quickly let these prestigious people help you gather hundreds of thousands. Millions of players.

Regardless of what guild and country they were in before, they are all included. In this way, other people around you want to establish a guild, and they ca n’t recruit people. No one competes with you for territory. “

This is the easiest way, and also the most unethical one. Only the super rich can do it.

If you want to keep players in the guild, you must have good benefits. For example, you have a good medicine formula that allows players to buy good potions, and a good weapon drawing formula can forge weapons for players and let them buy them at low prices. .

Otherwise, as long as a competitor appears to be cheaper than you, those ordinary members will run opposite.

Now the player's gathering place is the village, but once your men rebel overnight, if you leave the village's safe area, you will be attacked by the players around you, which will be embarrassing.

If an independent fortress is built in the future, it will be even worse if there are not a lot of reliable players around.

Lu Yang helped Yunyi and Song Sisi Yunyi discuss the establishment of the new guild in detail. This is how they understand the New World.

"Thank you, President Luyang." Yun Yi said excitedly, he already knew how to do it.

Lu Yang said with a smile: "Be sure to set up an information collection department, spend money to buy news, and know the details of the enemies around you. Let me talk about this today, and we will contact you further after the guild is established."

Yun Yi nodded and promised.

Lu Yang withdrew from the special space and gave a sigh of relief. Originally, he thought that there was a big enemy around him. He did not expect that such a thing would happen in the Kangbang family, which really surprised him.

"Boss, we've seen the crimson mountains you said." White Lion said.

Lu Yang was very happy. His first army finally arrived in the Northeast region. The White Lion brought nearly 2 million players of the Brotherhood of Iron and Steel, of which 300,000 were elites, and the rest were ordinary players willing to follow. Over here.

“Very well, I’ll send you the coordinates of the village. Come to me as soon as possible, but don’t enter the village. Ordinary people here are in a state of hatred. Just stop outside.” Lu Yang said.

“As soon as possible tomorrow morning.” The white lion looked at the crimson mountains in the far distance, turned back to the line of ten, and shouted at the endless team: “Keep going, the boss is at the foot of the crimson mountains . “

One million people looked with joy in their eyes, marching with the White Lion.

Inside the village.

The head of the double-headed devil village said to Lu Yang: “Child, you helped us to hold on for a week, and I will fulfill my promise. In the future, if you want to participate in the fortress battle, the double-headed demon will serve you.”

“Thank you, Mayor of the village,” Lu Yang said gratefully.

“Village chief, the enemies outside the village seem to have retreated.” A two-headed demon soldier ran and said.

Lu Yang looked out of the village and found that Liu Jie had actually retreated. He sent a message to Huang Xiang and asked, “Help me find out, what is Liu Jie doing?”

Huang Xiang was again commissioned by Lu Yang to investigate the relevant information of Liu Jie. Huang Xiang himself was extremely reluctant. He followed Xia Yuwei very comfortably. He did not want to face the matter between Lu Yang and Liu Jie any more, but Lu Yang gave an order. However, Liu Jie wanted to get the news of Lu Yang very much. In desperation, Huang Xiang could only agree to Lu Yang’s request. At this time, Huang Xiang was in Liu Jie’s villa and told Lu Yang’s news. He passed it to Liu Jie and counted dead grass, and said, “Lu Yang asked me to check you.”

Liu Jie said, "I saw Lu Yang once before, but after that I didn't know where he was going. I suspect he was worried about hitting my army."

The dead grass nodded and said, "It is possible, but Jie Shao, I even suspect that Lu Yang is in this double-headed magic village. There is no reason for the monster to have such a high ai setting. If that's the case, the player can't beat the monster at all. "

Liu Jie couldn't bear a trace on his face and said, "No way, how could Lu Yang control the npc fight."

The dead grass is a bit helpless. After Liu Jie swept across the world, he no longer listened to him so much. In the past year, Liu Jie has grown up a lot, has a lot of independent thinking, and is also overbearing. Many of his suggestions can only be made on the side.

Chapter 1029 - Skywrath Pseudodragon

"Jie Shao, why don't we go to the western plains first to develop, the great plains are very suitable for African players to fight." Said dead grass.

Dead grass and chiefs of various African tribes gathered tens of millions of players at the junction of the western and northern plains.

Countries of this tribal system need only a single order, and even if the level is lowered, they must quickly reach the designated location to gather.

Liu Jie shook his head and said: "Gathering to the north, we have so many people, what to do in the western plains, the northern plains are bigger, all come here."

A piece of dead grass has been selected, but Liu Jie disagrees. He doesn't know more about the map and can only nod in agreement.

"It's okay, I'll prepare it now." The dead grass asked: "How can Lu Yang reply?"

Liu Jie looked at Huang Xiang and said, "Tell Lu Yang that I am on my way to build a fortress in the western plains."

"Oh, okay." Huang Xiang told Lu Jie what Liu Jie said.

"Western Plain?" Lu Yang himself drew a map on the ground. It took a full three months from the northeast map to the Western Plains. Unless Liu Jie had a problem in his head, he would never go to the Western Plains.

The most likely is the map of the northeast and north where Lu Yang is located. He told Huang Xiang: "Check again, this news may be false."

Huang Xiang turned around and told Liu Jie, but Liu Jie did not let Huang Xiang talk back.

Lu Yang was not anxious for Huang Xiang's answer. Now he is most anxious to get his staff to come over as soon as possible, and at the same time prepare his staff with sufficient pharmaceutical formulas and raw materials.

Leaving Shuangtou Village and flying along the road for two hours, Lu Yang found a place called Burning Land.

There are hot magma everywhere. In the depth of the lava, there are several large trees growing in it, and at the top of each tree, there is a phoenix with a red body glowing, and they lie in the nest to rest.

Phoenix (Lord)

Level: 140

Qi and blood: 20000000000/20000000000

As soon as Lu Yang's eyes lighted, he knew where there was a phoenix, but he didn't know that it was also there. If the player can kill the phoenix, there is a chance to drop the phoenix egg. After the druid eats it, he can change into a phoenix.

After the druid became a phoenix, he could fly in the sky at a speed 50% faster than the magic flying carpet. Lu Yang was lacking inquiries and resources, and if he could get these druid eggs, it would be easier.

However, the Phoenix is not easy to kill. Generally speaking, the Phoenix is in the area before the level 160 to 200. Although the HP in the 140 area is small, he is still the Phoenix. Of course, the Phoenix is not without weakness. His weakness is his lack of skills.

There are four main phoenix skills. The first phoenix blasts out, burning flames to attack the target, losing 10% of blood per second, increasing 5% per second, and continuing to attack for 10 seconds. The range is very large, as long as it is hit 10 times continuously. No doubt.

However, this skill has a disadvantage. When it is released, it will lose 1% of its health every second, and it will lose 10% of its health for 1 second.

The second skill is ultra-wide silence, which is released in conjunction with the first skill. It lasts 10 seconds and cannot be lifted. Even if the mage uses the ice protection or the paladin uses the invincible skill, it is still silenced and has no solution skill.

The third skill is the fiery flame, slowing down skills. The Phoenix will emit a flame aura around the body. The speed of the hit player is reduced to 50%, and the attack speed is reduced by 100%. The shortcoming of this skill is special, and it is directly reduced by 10%. Blood volume.

The fourth skill is to turn into a phoenix egg. Release the flames to cause 500,000 damage per second to the surroundings. After 10 seconds, the phoenix egg is broken and the phoenix is resurrected. If the player can break the phoenix egg within 10 seconds, Just attack him 5 times to kill Phoenix.

Lu Yang looked at the distance. The nearest phoenix was about 300 meters away. He took two steps back and read the spell in his mouth.

“Destroy the Sky”

A crimson flame fell from the sky two seconds later and fell on the Phoenix.

“201786” (Critical)

A sharp hissing sounded, and the Phoenix flew into the sky, his eyes storming towards the landing sun fiercely.

When he reached a distance of 50 meters from Lu Yang, he opened his mouth wide and spit out a flame, while his own blood volume dropped by 1% per second.

“Blazing Blaze”

Lu Yang turned and ran. Phoenix chased after the flames. After 10 seconds of chasing, his blood volume dropped by 10%.

Lu Yang continued to escape, continuously using the same method to force Phoenix to use Phoenix Impact continuously.

Very open, Phoenix’s health was reduced to 30%. At this time, Phoenix suddenly turned into a Phoenix egg, inflicting 500,000 damage per second to enemies within 100 yards.

“flicker”

Lu Yang jumped out 100 meters away as soon as he became an egg. Now Lu Yang can only take 1 second’s egg damage, and he will die an extra second.

He looked back at the phoenix egg that was beating up and down in the air, and said a spell in his mouth.

“Flame Cross”

...

5 consecutive fire crosses accurately hit the Phoenix Egg.

System prompt: You killed the Phoenix

Lu Yang came to Phoenix and saw a Phoenix egg falling to the ground. There were also many 140-level gold equipment. One of them surprised Lu Yang that there was a magic potion formula with hot energy.

Recipe: Blazing Energy

Intelligence: +10000 points

Description: Use the phoenix’s blood that has fallen to the ground to transform the flowers into potions that will make you get unimaginable energy.

This recipe is quite good, just suitable for the fire mage of the Jagged Brotherhood, he put the recipe and equipment in the backpack.

“Boss, I found Liu Jie’s main army at the junction of the western plains and the northern plains, and tens of millions of people are quickly gathering towards the northern plains.” Looking up at the message from Weiguang.

Lu Yang frowned, and asked, “Are you sure there are tens of millions?”

Looking up at Weiguang, he sent a photo to Lu Yang, saying: “Wu Yaying can’t see the end, at least 10 million.”

Lu Yang said: "Your news is very useful. It seems that Liu Jie is preparing to establish a base in the northern plains. Your news is too useful."

The range of the northern plains is too large, about 1.5 million square kilometers. Such a large range is enough to place the next two maps of the northeast.

The reason why Lu Yang did not establish a wild fortress in the northern plain was because it was too large and there were too many people participating in the war, and he could not control it.

"Continue to follow them and find their exact location. If they are found, I will reward you 1 million." Lu Yang said.

Looking up at the shimmering eyes, he said, "Boss rest assured, I promise to complete the task."

Lu Yang closed the talker with a smile. As long as the glimmer can mark the exact location of Liu Jie, the war will be simplified.

Sometimes, Lu Yang had to admire the wisdom of Liu Jie and dead grass. Any guild in any country couldn't keep it as secret as Liu Jie.

Qi Yun sent people to Africa in the name of investment, but these players who follow Liu Jie are all in their own tribe, and this tribe is always around.

Coupled with Liu Jie's willingness to spend money, the chief made his subordinates a free labor force and established countless three-meter-high fence-protected areas. The people sent by Qi Yun could not enter, and the other party did not negotiate with them. alert.

Now, anyone who wants to explore the specific location of Liu Jie's men in the New World can only find it by luck, and looking up at the glimmer can find Liu Jie's location, which is simply fortunate for Lu Yang.

While Lu Yang continued to play Phoenix Eggs on the other side, the other rich people from the countries that entered the game started their performances.

Song Yunyi began to recruit a large number of players in the north and northeast. In just one day, the number of recruited players reached 300,000. Among them, the legionnaires were all three-man and five-man warriors in the top 100 international wars.

By the next morning, when Lu Yang got 200 Phoenix eggs, Song Yunyi recruited more than 600,000 people.

Players who were teleported to within 100 kilometers of Song Yunyi got the news and were moving quickly towards him.

Under the Chiyang Mountain.

Lu Yang is discussing information with the White Lion. Late last night, White Lion brought millions of players to Lu Yang.

“Boss, if Liu Jiezheng gathers tens of millions of people, I suggest that we should immediately find out where the border between the northern grassland and our northeastern plain is suitable for defense,” White Lion said.

Lu Yang said with a smile: “This idea is good.”

The white lion scratched his head and said with a smile, “That’s what I said. Now it’s so messy outside. There are strange level 130 and above. It’s very difficult to find a way.”

Lu Yang said, “I have a solution.”

He called Debu to taste the corpse and asked, “Where is your kid?”

De Buwei just gathered 200 Darui, and said, “Boss, I’m running to Chiyang Mountain with 200 Druids, so I’m so anxious to find out what we have.”

Lu Yang asked, “I told you before that you can turn into a Phoenix.”

"I rely on it." De Bu tasted the corpse's face changed, and asked, "Boss, have you found a way to become a phoenix?"

"Hehe." Lu Yang looked proud.

"Dizzy, boss, without this, tell me quickly, I can't wait." De Bu tasted the corpse anxiously.

Lu Yang said: "When there is a surprise, first come first served."

"Up to half an hour, it's guaranteed." De Bu tasted the 200 druids behind him and shouted: "All speed up for Lao Tzu."

"What happened?" He asked upset.

"The boss seems to have found a way to become a phoenix." De Bu tasted the corpse and said.

"I rub, I fight." He became upset and ran away, but his movement speed was already the fastest.

Not only is it getting upset and excited, 200 druids are all excited. People who have n't played druids do n't know. Although druids are strong and can become many animals, who knows the bitterness of playing druids .

Every day changes, only one is in human form, others fight with their hands, they fight with their claws, or in the form of limbs, others look excited, but they feel tired after playing too much.

But since they played this profession, they can only adapt to the situation of changing back and forth, but they want a powerful transformation, Phoenix is one of the most wanted.

Half an hour later, De Buwei Corps took 200 druids to the double-headed magic village at the foot of Chiyang Mountain and met Lu Yang outside the village.

“Boss, we’re here.” De Buchao shouted excitedly.

Lu Yang watched De Bu taste the corpse and ran forward with 200 people, and said with satisfaction:
“Nice, very punctual.”

“Boss, boss, that, that what.” He became anxious and anxious, but was embarrassed to speak.

Lu Yang smiled and took out the Phoenix Egg from his backpack, and said, “Here, after taking a bite, you can become a Phoenix.”

De Bu tastes the corpse. He first picks up the Phoenix egg, and after appreciatively admiring it, he eats it, a light flashes, De Bu tastes the corpse growling, and turns into a five-meter-sized phoenix.

“So cool.”

“So handsome.”

“It can really become a phoenix.”

...

Become upset and wait for envy.

“Boss, is there still?” He asked upset.

Lu Yang smiled and took out a pile of Phoenix eggs from his backpack, and said, “A total of 200, you have a share, and the remaining 300 people can only envy you.”

“Haha.”

...

Becoming upset and so excited one after another took the Phoenix egg from Lu Yang's hands, one after another into a Phoenix form.

For a time, there were all phoenixes in the sky, and the name of the most fun player was phoenix.

A group of druids flew in the sky for more than 10 minutes before returning to Lu Yang in excitement. De said without gratitude, "Boss, thank you."

Lu Yang slapped his shoulder and said, "Don't say thank you to your brothers, you don't have a mission."

"You said." De Bu tasted the corpse asked.

Lu Yang said: "100 people went to find a flower called Phoenix grass, and another 100 people flew towards the junction of the north and northeast, and found me the key to defense."

"Yes."

The 200 druids turned into phoenixes, rising into the air, and they became upset and led the team to find the herbs. Germany did not try to lead the corpses to find the dangerous areas that could be defended, and mapped out.

Lu Yang said: "The team was scattered around to upgrade the monsters. The White Lion took 100 people to follow me to the next village."

"Yes," said the White Lion.

Soon, a team of 100 people gathered, and after the others dispersed, Lu Yang took the White Lion and others to a place where there were three demon wolves 2 hours away.

“Woohoo ~!” A three demon wolf found Lu Yang and others.

“Defense,” shouted the White Lion.

“Don’t do it.” Lu Yang stopped before the crowd and said to the three devil wolves, “Hello, we are adventurers, not enemies.”

The heads of the three demon wolves stared at Landing Yang and spit out, “If you want to help us, kill the jungle ghost on the opposite side, those **** things always attack us at night.”

“Okay.” Lu Yang said to the White Lion, “Let’s fight the jungle ghosts.”

“Oh.” The White Lion led people and Lu Yang to a jungle not far away, and found a lot of black ghosts.

Jungle Ghost (Elite)

Level: 120

Qi and blood: 3000000/3000000

“It seems very simple,” said the White Lion.

Lu Yang said, “Of course, go together and kill them.”

This is the simplest task. The jungle ghost has low blood and bad damage. The only strong place is high defense. Here in Lu Yang, as long as someone supports, no matter how high the defense is, it is still dead.

Soon, Lu Yang led the team and killed more than 10,000 jungle ghosts. At this time, the time entered the afternoon, and Lu Yang returned to the three demon wolves with people.

“Congratulations, you have our approval, can you help?” The three demon wolves asked.

Lu Yang said, “I want to hire three demon wolves to fight for me.”

“Yes.” The three demon wolves sent a purchase interface to Lu Yang.

Huck, three demon wolf warriors, level: 120, blood: 2 million, attack power: 300,000, temper: irritability, gold coins: 10 coins.

Ruite, three demon wolf mages, level: 120, vitality: 1.5 million, magic damage: 280,000, temper: mild, gold coins: 7 pieces.

...

Among a group of three demon wolves, Lu Yang found a three devil wolves named Ramos. He chose to buy it and spent 5 gold coins.

“Boss, you bought the cheapest one.” Bai Shi asked, and he knew that Lu Yang was not a stingy person.

Lu Yang said with a smile: “This looks pleasing to the eye.”

“Woohoo!” The wolf howl sounded, and three demon wolves named Ramos appeared in front of Lu Yang. Three heads stared at Landing Yang at the same time, fangs, and there was a huge face on the main head’s face. scar.

“Ramos, don’t allow this attitude to your employer,” said the three devil wolves.

Ramos asked unhappyly, “Why hire me.”

Lu Yang said: "I want to see who is so cheap and has such a bad temper."

"Hello ~!" Ramos was furious, staring at Lu Yang and cursing: "Believe it or not, I'll kill you."

Lu Yang said, "Well, I was wrong. Can we talk about the terms of employment, what do you need me to do."

Every hired pet is eligible to propose a condition every day. If it can be met, he will fully assist the employer. Otherwise, the grumpy will choose to refuse to fight and even directly end the employment relationship.

Ramos looked at Lu Yang and said, "If you can help me find the flesh of the Skywrath, I will be willing to help you."

Lu Yang laughed. This was the most common thing Ramos needed. The scar on Ramos's head was caught by the Skywrath pseudo dragon.

"Okay, you follow me, I'll take them to find the Skywrath pseudo dragon." Lu Yang said.

The system prompts: The employment relationship is determined Lu Yang pointed to a cliff not far away and said, "Let's go there."

Half an hour later, Lu Yang and his party came under the cliff.

The system prompts: You have discovered the place of Skywrath.

The land of Skywrath is called the most annoying place, because there will be a **** punishment Sky Thunder all year round, falling on the player will cause 500,000 pure damage. Is the end of the second.

"Damn, you're going to die if you walk in, do you want to kill us?" Ramos exasperated.

Lu Yang said, "Don't worry."

He looked to the distance. After a while, a sky-rage pseudo-dragon was soaring in the sky. Lu Yang studied the course of the pseudo-dragon and read the spell in his mouth.

"Destroy the Sky"

A crimson flame descended from the sky, flying in the midst of a sky-raising pseudo dragon.

Chapter 1030 - Sacred plain

"Hello ~!"

The Sky-Furious Pseudodragon roared towards Landing Yang, but as soon as he got close, he was killed by Lu Yang and the White Lion.

"Woohoo ~!"

Ramos screamed cheering and rushed to the corpse of Skywrath and bit it.

Lu Yang stood by and watched. When Ramos finished eating, he said to Lu Yang with satisfaction: "You are very satisfied with Lord Ramos. I will help you once today. What do you want me to find for you?"

Lu Yang said, "Rare herbs, the rarer the better."

Ramos gave Lu Yang a disgusting look, and said, "My Uncle Ramos is so powerful, you asked me to find herbs for you?"

Lu Yang said with a smile: "No way, only your nose is the most sensitive."

Ramos hummed and said, "Forget it, just help, follow me."

Lu Yang nodded and led the white lion behind Ramos, killing the monsters all the way, came to an open area, and found the herbal medicine-fantasy dream grass in a bush.

Dream Dream Grass

Level: 9

Quality: Rare

Effect: The use of this herb will cause the target to fall into a strange joy.

Lu Yang was looking for this herb. He also worried that Ramos would have to find it for a long time before he encountered it for the first time.

Lu Yang placed the herb in front of Ramos's nose and said, "Keep looking for this herb, the more the better."

"You wouldn't want to kill the dragon with this herb, and advise you, don't be impulsive," Ramos said.

Lu Yang was happy, and Ramos' IQ was so high, he said, "How do you know I'm going to kill the dragon?"

Ramos said: "This thing is only loved by the 160-level lord dragon, but you provoke them to do something, they are not so easy to kill."

Lu Yang said with a smile: "I'll try it, maybe it will succeed."

“Crazy, I’m crazy. I’ll leave after you find the herbs. Don’t take me to kill the dragon.” Ramos mumbled and went on.

Lu Yang followed behind with a smile. It took a day to find 120 Dreamweeds. By night, Xia Yuwei rushed to the bottom of Chiyang Mountain with more than one million people. The rest of Tianyao and Zhuojiu were the fastest. It will arrive at noon tomorrow.

“Let’s kill the real dragon while we have time tonight,” Lu Yang said.

“The real dragon?” The White Lion was surprised.

Lu Yang said: “Not surprisingly, the dragons we encountered on the old road are the same race as the dragons here, but the dragons there are ordinary dragons, and the dragons here are high-level dragons. Starting today , Our main task is to hunt the dragon. “

In the New World, dragons are at the top of the food chain and threaten all races around it, including demonic races. Any player who kills the dragon will automatically gain the favor of the surrounding villages.

At present, there are more than 200 villages around Lu Yang. If you want to gain popularity as fast as possible, you must kill the dragon.

The 160-level lord dragon’s favorite food is fantasy dream grass. Once he eats this kind of food, the lord dragon will suspend all attacks and enter the fantasy dream state for 30 seconds. During this time, the lord dragon will only use remote range. Magical attacks, no melee attacks.

Lu Yang asked the White Lion and Xia Yuwei to select 100 elite mage players and 30 elite priests from the team, took them along the road, and ran for two hours on horseback before coming to a large river.

In the design of the “Second World”, there are no monsters on the main roads of the New World. On the big river, a black high-level dragon that is 30 meters tall and nearly 100 meters in length is walking back and forth.

The earth shuddered at every step, and the dragon's eyes had a ferocious look, which made people fearful.

This lord dragon has a territorial conscious dragon on a map. Anyone who enters his area will be attacked when he finds it.

Advanced Black Dragon (Lord Level)

Level: 160

Qi and blood: 50000000000/50000000000

Only Lu Yang was carrying an artifact around him, and he did not have any other artifacts stored in the city of St. Gall in the old continent.

"Boss, how do you fight?" The White Lion asked.

Lu Yang said: "First spread out, everyone surrounded him from all sides, and no attack is allowed without my order."

The white lion and Xia Yuwei nodded, and they each took 70 people to get around the dragon. Each person and the dragon had a distance of 100 meters. Fortunately, the game design was reasonable. There were no creatures within 5000 meters around the dragon Exist, so no one attacks them.

He threw a fantasy dream grass toward the dragon, and the high-level dragon suddenly stared at the location of the fantasy dream grass, ran quickly, and ate the dream dream grass in one mouth.

"Hello ~!"

The dragon howl sounded, and a strange smile appeared on the dragon's face.

The system prompts: The dragon enters into happiness.

Lu Yang's eyes tightened, his right hand was playing at the heart of the high-level dragon, and a spell was spoken in his mouth.

"Blazing Heart"

A white flame hit the dragon's heart.

"3450000"

A huge number of injuries emerged from the dragon's head, the dragon stared at Lu Yang fiercely, and a large number of huge fireballs spewed from his mouth.

System prompt: High-level black dragon sends you a group melting bomb attack

Melt bomb is one of the most advanced fire skills of the fire mage in the New World stage. The damage comes with the ability to ignore 10,000 magic resistance. As the level increases, the magic resistance ignored is more.

Lu Yang's health is 600,000, but he dare not resist the molten bombs from high-level dragons. In case he is hit, he will be tragedy.

"Blazing Blaze"

Lu Yang launched his fast-moving ability to evade small shots in the face of 20 molten bombs fired around him.

Players from the previous life found that once they had eaten the dream dragon grass, their attack deviation would become very large. Lu Yang bet that this high-level dragon is also the same as other dragons of the previous life, as long as the player's reaction speed Fast enough to be able to dodge the skill when the high-level dragon is confused by the dream grass.

In only a moment, the melted bombs came to Lu Yang. Sure enough, when sprayed from the mouth of the dragon, more than 20 melted bombs appeared to be densely directed towards the landing sun, but they really came to Lu Yang 100 meters away. , 20 melted bombs have been scattered in the surrounding area of 50 meters.

The range of each melted bomb is 3 meters. Lu Yang watched the gap in the left 10 meters ahead and there was a gap. He quickly ran to the gap and shouted: "Everyone attacks."

100 mages hiding 100 meters away from the dragon and attacking the dragon at the same time. Although they are wearing a level 100 dark gold suit, the damage is limited, but they use the skills after the second turn to see the intelligence output damage. Pure damage skills, dedicated to breaking magic resistance, each person can destroy the dragon's health more than 10,000 with each attack.

"Hello ~!"

The high-end black dragon didn't bother to deal with the tickling attacks around it, and concentrated all his experience on Lu Yang's body.

"Group Melting"

Another batch of molten bombs flew, Lu Yang evaded while releasing the fire and cross, and waited 30 seconds before releasing the burning flames and throwing dream grass, so that the high-level dragon was always in a dream state.

There are three types of dragon attacks, one is melting bombs, and the other is launching a super dragon breath, spraying dragon breath on a range of 50 meters in diameter in front, with a length of more than 500 meters, damage of 3 million, and Lu Yang being sprayed. China must die.

The third is to release the curse, the sky fire meteor, a large number of black meteor showers in the sky, each damage is 2 million, the same, hit must die, and this skill lasts a long time.

Lu Yang took the crowd for more than 10 minutes, the dragon suddenly stopped attacking, and suddenly took a breath.

System Prompt: Dragon Dragon is about to launch Dragon Breath

Lu Yang suddenly opened his eyes wide, leaning back slightly on the dragon's head, just before the moment he sprayed forward.

“flicker”

The white light flashed, and the fiery flame engulfed Lu Yang's white light. At the same time, Lu Yang appeared in an area 100 meters away from the side. Just after landing, Lu Yang threw the escape dagger towards the original position.

Dragon Breath only lasts 2 seconds, Dragon Breath has just disappeared, and the dagger is inserted in the position where Lu Yang has just flashed.

The blue light flashed, and Lu Yang appeared, except for the charred ground, as if Lu Yang hadn't moved at all.

“Group Melting”

The dragon continued to throw the bombs, and Lu Yang shook out a fantasy dream grass and shouted, “Continue to attack.”

The white lion and Xia Yuwei stood in the distance watching Lu Yang's operation just now, and they both felt more and more.

“The boss's strength is getting stronger and stronger, and the connection of skills is as happy as running water.” Xia Yuwei said with sigh.

The White Lion agreed: “In the beginning, although the boss's technology felt very strong, there was also a flaw. The three brothers thought that there was still a chance to defeat the boss. But now there is no flaw in the boss's technology. We The three brothers thought about it many times, but none of them could defeat the boss. I really don't know how he got it. “

“He is too self-disciplined. He gets up at 5 o’clock every morning for two years. He still challenges various lord monsters in the game every day. It is normal to have this ability.” Xia Yuwei said.

The White Lion nodded, he couldn’t get up at 5 in the morning every day, which was too tired.

“Roar ~!” The high-level dragon in the distance roared for the third time.

Lu Yang shouted: “Everyone stops attacking, use ice protection to clear the hatred, don’t leave a trace of hatred on him.”

Lu Yang’s body emitted a reddish light and flew to a distance of 100 meters away. At the same time, the 100-meter-long dragon that had stayed on the ground spread its wings and flew into the air. And a lot of players are more unstable.

“Ice Guard”

“Ice Guard”

...

100 mages frozen themselves in an ice block at the same time, the hatred was cleared, and the dragon flying into the air glanced around, and found that there was only Lu Yang alone in the hatred, and his ferocious eyes locked Lu Yang.

“Skyfire Meteor”

A spell was heard in the mouth of the high-level dragon, and a large black flame surrounded the area of 100 meters around Lu Yang, and the flame fell silently.

“Remnant Flame-Activated”

Lu Yang launched his skills instantly, and his body flew to a distance of 100 meters with a red light, but just after he landed, the black flames from the original standing position flew towards him collectively.

“Ice Guard”

Lu Yang launched his skills and froze himself in an ice cube. The black flame hit the ice cube, lighting up a symbol of MISS.

High-level dragons need to continue casting when releasing the forbidden spell. Although the black flames will track the enemy, only the enemy will be locked within his attack range when falling. If they leave the attack range, the remaining falling flames will be locked. Landed on the ground automatically.

After all the first batch of flames such as Lu Yang fell on his ice cube, the ice cube effect was cancelled, and he ordered: “All attack the red heart under the belly of the high-level dragon, where the damage is doubled.”

The surrounding 100 mages had long since lifted off the ice and immediately launched an attack on the abdomen of the dragon flying into the air.

“20182”

“20198”

...

A high amount of damage lighted up, and the high-level dragon dropped a lot of blood, and soon the blood volume fell to the last 10%. When he fell, the blood volume was only 1%, and he did n’t hold on for a long time. Killed on the ground.

System prompt: you killed the high-end black dragon

Lu Yang came to the corpse in excitement, looked at the equipment, and found that a shining pearl of dark green light fell to the ground.

Orb of Chaos

Effect: Fusion with teleportation scepter, teleport ability can be used in the new world to teleport teammates to your side.

Lu Yang shook his fist vigorously and said, "Oh my god, it burst out here. I'm so lucky."

Lu Yang had to sigh that his luck was really good, Chaos Orb. Lu Yang had been thinking about this skill before. This is a magical treasure that he did n't even know where he dropped it.

"Boss, what is this?" The White Lion asked.

Lu Yang smiled and placed the orb on the teleportation scepter, and said, "Look, I'll tell you what he does."

System prompt: Fusion completed

The teleportation scepter became dark green as a whole. Lu Yang held the scepter and chose a friend. Han Fei, Han Ying, Mu Yu, and Han Fei had 38 players with artifacts.

"All Things Are One"

Han Fei and others, who were running towards Chiyang Mountain, received surprise invitations from Lu Yang.

They had asked Lu Yang before, and when they learned that they couldn't teleport, they all ran at the position of Chaoyangyang. Now they can teleport suddenly, letting them overjoy and click and agree.

A flash of light flashed around Lu Yang. In the eyes of Xia Yuwei and the white lion's surprise, Han Fei appeared from the light.

"Boss, can you teleport?" Xia Yuwei asked.

Lu Yang said, "Yes, Chaos Orb gives my teleportation scepter the ability to teleport."

"How many people can be teleported at one time?" The White Lion asked.

Lu Yang said: "The number is small, only 50 people can be transmitted at a time, and the cooling time is 10 minutes."

"This is enough, you can gradually transfer the elites." White Lion said excitedly.

Lu Yang said: "Yes, a large number of elites can be assembled in one week, much faster than I expected in a month."

After all, such a large outer area map, even in the northeast area, there are more than 700,000 square kilometers. Although the transmission position is a safe area, the road is full of players from all countries, and they want to smoothly run from the northmost part of the northeast to the near center. It takes three days to the farthest south of the country, not to mention the rest of the players near the northeast.

"Brother, I went back to the old continent to retrieve the artifact, you pulled me over." Han Fei said.

Lu Yang nodded and said, "Go and bring it all with me. I brought it all at once, and told Master to have him bring the smithy's people ready, and the next batch I will transport them to these blacksmiths."

"Okay." Han Fei left in excitement.

Lu Yang is also very excited. The happiest thing is to be able to send those professional craftsmen to him. With their presence, Lu Yang can quickly build equipment.

The copy of the New World no longer directly produces high-level equipment, but instead produces weapon design drawings. Players take weapon design drawings to find high-level blacksmiths and use the ore of the same level weapon map to forge equipment.

As for what forging can be, it depends on the level of forging masters, and luck. In the new world, the game enters the glorious period of all professional masters such as forges, tailors, and alchemists.

If you want a high-level potion, then find the best alchemist to buy. If you want the best weapon, you need to find a master forge. The master forge does not need to buy anything, it just helps people to build something. The real Master, if you don't give 10,000 or 20,000, it is not easy to build, because a forging master can only forge 30 times a day.

Ten minutes later, Lu Yang launched his teleportation skills and teleported the first batch of 49 blacksmiths and Han Fei selected by Han Zhong to himself.

"Boss, here we are," said a group of blacksmiths excitedly.

Lu Yang said, "I will give you a task. Every day these days, someone will collect Chiyang stone from the mountain for you, smelt all the Chiyang stone into Chiyang ingots, remove the impurities, and prepare to forge homemade equipment."

"Boss, we must live up to your expectations."

"Boss rest assured that we will work hard."

...

With a smile, Lu Yang told them to go to the Devil's Village for a rest and said to the White Lion: Tell your men that they have collected a Chiyang Stone and give them 1 guild point. "

"Yes, this group of kids will participate enthusiastically." White Lion said that for so long during the national war, Lu Yang has not given his guild points for a long time, because the players can get a large

number of national war points each time. No need to use the guild points to mobilize, these players will come voluntarily. At present, Chiyang Mountain has been surrounded by the 1 million players under the White Lion. The White Lion issued an order and all the 1 million people ran away excitedly. I am looking for ore. I have good luck digging ore in advance, and I am proud of my correct behavior.

Lu Yang handed the scepter to the white lion and said, "You stay here, you must gather elite players here, and I will take Han Fei to find drawings."

A design drawing can only be played once, and then disappears. The result is that players need to constantly copy.

After all, the forge division cannot produce a fine product every time forging. In case the equipment attributes are not the best, it is necessary to draw the same drawing and then forge.

Generally speaking, a player needs at least 500 drawings to create top-level equipment based on drawings to succeed. This is still a conservative estimate. Some people cannot get a top-level equipment with 100 drawings.

The White Lion took the scepter and nodded in agreement.

Lu Yang took Han Fei and their group of players with artifacts to the sacred plain of level 100 map.

Chapter 1031 - Fortress battle begins

"Brother, what are we doing here?" Mu Yu asked curiously.

In the map, there are 100 level monsters everywhere, for Mu Yu they have no difficulty.

Lu Yang said with a smile: "Our task this time is not to kill ordinary monsters, but to kill a monster called a grave robber."

"Grave robber?" Han Fei asked.

Lu Yang said, "The grave robbers are very recognizable. Their humanoid creatures are wearing brown capes, carrying a brown linen bag, and the tips of the shovel and the hoes are exposed.

These grave robbers specially explored the treasure maps, and put them away. Each person gathered 100 treasure maps and went to dig treasures. "

Treasure map has a chance to dig out weapon drawings between level 100 and 150, and also has a chance to dig out many special items. It can be said that in the New World, the treasure map represents hard currency, and each treasure map is at least 10 A dollar.

In all the maps, the explosion rate of the treasure map is not high. It will only be higher when it meets the grave robbers. This sacred plain that Lu Yang took with them came to this place. It turned out to be a battlefield in the New World. Tombs, so on this plain, many grave robbers are brushed out every day.

For three days in a row, Lu Yang was taking Han Fei to brush the grave robbers and hit more than 2,000 treasure maps.

"A lot." Mu Yu said.

Lu Yang shook his head and said, "Not enough. Forget it, let me dig and let everyone do tasks everywhere to increase the reputation of the guild."

Players doing missions in various villages can increase the reputation of the guild. The higher the reputation, the greater the authority obtained in the village, and the more good things you can buy.

During these three days, Lu Yang teleported the top pharmacists of the Blacksmith Shop and the Song of Blood and Fire Pharmacy to Chiyang Mountain. Tens of thousands of elite players teleported, and the rest of the players also ran to Chiyang in large numbers Around the mountain.

The Brotherhood of Iron Blood has gathered more than 5 million people here, and the rest that have not arrived are also coming quickly.

At the junction of the northeast and the north, Song Yunyi also gathered more than 3 million players. Facing the growing power of Liu Jie, Song Yunyi chose to form an alliance with Lu Yang.

Among the new continents, Liu Jie is the most popular now, sweeping the world, recruiting hundreds of elites and dozens of studios in the world. There is a trend of the first guild in the new continent. Not worth mentioning.

Not only Liu Jie, but also Tianlong from India, his guild is also gathering in large numbers, also in the northeastern region, just above Lu Yang.

In the northwestern part of the northeast, there is a British guild. The guilds in the rest of the surrounding areas are not yet threatening Lu Yang.

Although so many people gather here, the entire map still looks very empty. Players rest in various villages every day, waiting for the arrival of the first fortress battle.

Many people have suggested that Lu Yang be prepared for international war in advance, but Lu Yang was not in a hurry and took his men to dig treasure maps.

The locations of the treasure map markers are all on the sacred plain, which is only a level 100 monster area. It is not difficult to clean up the monsters.

2000 treasure maps are divided into 20 people to dig together. Each person digs 10 pieces. They are also digging near the coordinates. The digging speed is very fast.

There are five types of treasure maps, one is special items, the other is equipment drawings, and the other is special props.

Special props are Western traditional instruments such as harp, organ, violin, timpani, etc. Han Fei dug a lot.

“Boss, what is this thing for?” Han Fei asked, scratching his head.

Lu Yang said with a smile: “It’s useless for the time being, staying there will be great use in the future.”

“Oh.” Han Fei said.

“Brother, I dug a diamond.” Mu Yu said excitedly.

Lu Yang’s eyes brightened and he said, “Baby, there are six things in this stuff, namely diamond, agate, sapphire, ruby, emerald, and black pearl. The six of them can exchange for a special possession with the head of any village. Treasure map. “

The purpose of the special treasure map is to dig directly into the weapon drawings between level 150 and level 200, or the strength of the blood, and it is also possible to dig something called the spirit, which is very useful to players.

“Who woke me up.” A roar appeared beside Han Yu. He dug down with a shovel and dug out a 100-level ordinary monster.

“Fuck, what is this.” Han Yu jumped out 30 meters away.

Lu Yang said with a smile: “Kill, this is a treasure map trap.”

“Uh ...” Han Yu was speechless, and a series of archery killed 100 ordinary monsters.

Lu Yang said, “Go ahead.”

Everyone nodded and was busy for more than an hour. In the end, they dug up 12 110-level weapon drawings, 36 equipment drawings, 17 gems, and the rest were musical instruments and garbage equipment.

“It’s only a little harvest.” Mu Yu said disappointed.

Lu Yang said with a smile: “It doesn’t matter, let’s make a copy.”

The 110-level copy is not difficult for Lu Yang. For one and a half months, the Jagged Brothers League has been playing a copy. At this time, the main force of the 7 brothers and 7 million ordinary ordinary players have reached the Red Near Yangshan, at this point, the Jagged Brothers Alliance has enough self-protection strength, and the surrounding small guilds dare not have any conspiracy ideas for the Jagged Brothers Alliance.

On the other side, a month’s time has come and Lu Yang received an invitation from Horn and entered the underground world.

The light flashed.

Lu Yang appeared beside Horn, and there were also hundreds of guild leaders who wanted to build the main city.

Lu Yang met several old acquaintances, such as Tianlong and Liu Jie, and Edward and others.

“How about, are you ready?” Song Sisi asked as he approached Lu Yang.

Lu Yang said with a smile: “What else is needed to prepare for this fortress battle?”

Song Sisi said in surprise: “Do you know how to fight the fortress?”

Lu Yang said, "Isn't the official information about fortress warfare not available before? It is to use the resources of the chief to build buildings, and then let the buildings produce soldiers to attack the enemy."

Song Sisi frowned, "This game mode was not popular 20 years ago. Among the only ancient competitive games that still exist at this stage, there is only one game called StarCraft III, but it is also on the verge of elimination. I only found it in Korea. A few masters, but when I practiced this game, it was not very smooth, so I asked you. "

Lu Yang said with a smile: "I don't have much confidence either, but I practiced a little bit and I will know after a while."

At that time, Lu Yang's dad was a game fan. His favorite game was "Warcraft 3". "Fortress Warfare Mode" introduced by "Second World" is very similar to Warcraft 3. In his early years, Lu Yang played computer games. When I was there, I often accompanied my dad to play Warcraft 3, and I was very familiar with many of them.

This is why Liu Jie must have caused Lu Yang to die in the last life. When the first fortress battle began, Lu Yang won the first place and gained the authority to build 4 wild forts. He left one. The other three were given to others.

At that time, Lu Yang was able to go to the outside world and owed a lot of humanity. On the one hand, he used the fortress to return humanity, and on the other hand he used the fortress quota to obtain the protection of the surrounding guilds.

In this way, Lu Yang won the first place in the fortress battle for three consecutive months. The gameplay is world-famous. How many guilds want to accommodate Lu Yang, but Lu Yang is accompanied by a group of brothers. Other guilds only need Lu Yang, and do not want these people. Yang did not enter other guilds and chose to continue to fight with the brothers.

Because of this, Lu Yang was secretly hated by the surrounding guilds. Liu Jie was one of the people who hated Lu Yang most. He hired so many masters, but none of them could win Lu Yang, and he didn't want to go from Lu. Yang bought the fortress there, and most of the fortresses were bought by Song Sisi and other big consortia.

Liu Jie didn't dare to offend them, but hated Lu Yang, so that Liu Jie began to target Lu Yang, but Lu Yang had other guilds to protect him. Liu Jie took him by no means, and eventually used a dead grass scheme to protect the various guilds in Lu Yang. In times of contradiction, by countering Huang Xiang, he lured Lu Yang to the valley, blasted Lu Yang's main equipment, and destroyed Lu Yang's wild fortress.

The construction of a wild fortress has more than 100 million credit points. Lu Yang was in the limelight at the time. The world's first fortress warrior's reputation made it easy for Lu Yang to borrow a large amount of money from the bank. Liu Jie broke the fortress. Major banks Under the influence of the Liu family, he immediately forced Lu Yang to repay the debt. In the new fortress battle, Lu Yang was again affected by the previous. The strategic play was exposed to Liu Jie by Huang Xiang, resulting in Lu Yang not even entering the top ten.

At this time, many of the brothers who accompanied Luyangyang for investing in the fortress. After the fortress was breached, the girlfriends left, even divorced, and those who owed foreign debts, and gradually began to complain.

Lu Yang accumulated a number of things. He couldn't bear the pressure and was crushed. He drunk at home all day, eventually causing the guild to completely collapse.

Now, Lu Yang has returned to the starting point that made him love and hate to go to the top of the world. His heart is really full of emotions, and outsiders can't realize the change in his heart at all.

"You guys, please sell me a face. Whoever gets the top three in the fortress battle, must sell it to me. I am really no master of fortress battle." A middle-aged bald man in his 40s smiled Said to everyone.

As soon as Lu Yang's eyes lighted, those who dared to say such things in this place were either arrogant or had the true ability. Lu Yang had not seen this person in the last life. He looked at Song Sisi.

Song Sisi said: "This bald Chinese man is also the head of the super family that has developed for more than 300 years. Professional antiques are identified in antiques transactions. Let's say that two-thirds of China's antiques transactions are in this hand."

Lu Yang was surprised and didn't know what to say, and asked, "Why haven't I heard of this person?"

Song Sisi said: "There are very few people in your family who know about your family in Huaxia, but you must have heard of their family business, Meiyuan Antiques."

Lu Yang shook his head and said, "I haven't heard of it."

He was an ordinary person before, and he had seen antiques there.

Song Sisi rolled his eyes and said: "Ask a Chinese rich man, you must know Meiyuan. He sells not only domestic antiques but also foreign antiques. One of their most famous recent transactions is the bronze statue of former Iraqi leader Lao Sa. It turned out that the bronze statue was divided into six parts, and they were even found. They were auctioned together and sold for 800 million U.S. dollars. Their family made money just like robbery."

Lu Yang was convinced, saying, "I really did not expect that there are still such domestic and internationally influential merchants."

"Hua Xia is strong. Naturally, our old families are also active internationally. If you have a chance, you can help him. Their family is very powerful in the game. He invested 800 million US dollars in the game. Just the first investment." Song Sisi said.

Lu Yang nodded.

Liu Jie arched his hand and said, "Uncle Bai, if I can win the first place, I will give you one."

"me too."

"me too."

...

Not only domestics, but also many foreigners have said one after another, apparently they all know this Uncle Bai.

“Thank you very much, thank you very much.” Bai Mingyi said to everyone with an arched hand.

Suddenly, Tianlong walked in front of Lu Yang, only 10 centimeters away from Lu Yang. One more step would trigger the warning position. His eyes staring at Lu Yang said with hatred: “Meet again.”

Not only Tianlong, but also the jungle killer and the tiger of South Asia.

Lu Yang laughed and said, “The three of you haven’t been kicked out of the game by your native players. Good luck.”

The three were furious.

Tianlong said: “Thank you, even though we lost a lot, we all stayed and formed a joint guild. Lu Yang, we will soon have a battle.”

Lu Yang spread his hand and said, “Okay, I always welcome you to hit me.”

Horn coughed and said, “Please everyone back to their place, the game is about to begin.”

The three dragons then left, and Liu Jie and the three Edwards came to them next to the dragons, wondering what they were mumbling in secret.

Song Sisi said with a smile: “It looks like you are in trouble.”

Lu Yang laughed and said, “Just a few of them, I don’t look at them at all.”

Song Sisi’s eyes brightened and he said, “It’s really domineering.”

Hundreds of rays of light lit up from the sky, and a number appeared on the right chest of each of their competitors' clothes, indicating their competition number, and Lu Yang's number one.

Horn said: "The grouping has been completed. I believe that the rules of the game are clear to you. You can choose 4 races to fight for you. Each race has its own arms and special heroes. Please be prepared."

The four races are the human race, the sky race, the demon race, and the orc race. Each race has its own characteristics. For example, the demons build buildings and use the demons to evolve into buildings.

Celestial people use energy to illusionize buildings. Orcs and human races are built by engineers. The only difference between the two is that only one person can build a beast to build a building, while human races can countless people. Engineers build together to speed up the progress, but it takes more wood.

The game's battle method is to collect gold mines and wood to build buildings. After construction, build various minions through the buildings or upgrade the building to produce more advanced soldiers to attack the opponent.

There are many maps in the game. The smallest is a 2-player map and the biggest is an 8-player map. There are monsters in the map. Killing the monsters will get gold coins and items.

Players can build altars to summon a class called heroes, or they can summon wild heroes at the altars in the wild. They can pick up items and equip them to improve their combat capabilities.

Soon, the first game started. Lu Yang chose a Terran player. What he didn't expect was that the first game he picked was actually Tianlong.

"Why is this unlucky child in India always abused by himself?" Lu Yang shook his head and sighed.

Live room channel.

This competition brought the world's attention to the "Second World" again. The global competition that has just passed the month has made countless people obsessed with this game. However, many people have work and study. More time is invested here, but they can take the time to watch the game.

Today's game is on Friday night, just when students are busy studying and adults are busy working.

"Audience friends, welcome everyone to watch the global live broadcast of this fortress battle. I am your old friend Dubin." Dubin greeted everyone in the broadcast room.

Tong Tong also introduced herself to the side. After two years, Tong Tong became more beautiful and grew a lot.

"Wow, we are doing live TV this time. Real-time ratings have been calculated. Our China ratings are 67%, which means that two thirds of people are watching this game." Hitomi was excited. Said.

Dubin said with pride, "The game industry has developed so long. From the earliest red and white machines to large game consoles to computer games, it has not been recognized by the older generation. Growing up, to the post-20s now, people have a high degree of recognition for the game, and today's achievements are not surprising. "

Hitomi said: "Overseas ratings have also come out all are above 60%, and the attention of" Second World "is far more than any competition item."

Dubin nodded and said, "With such a high degree of attention, I'm curious about the record of Lu Yang, the president of the China Brotherhood of Iron Blood, this time. I don't know if he can continue the strength of a month ago and continue Lead Huaxia as the world champion. "

Hitomi said: "I firmly believe that Lu Yang will win the championship."

Dubin laughed and said, "I also support Lu Yang, but this time it is a game changed from the old game. I do n't know how much Lu Yang knows about this old game. I have played before, this is a It's a very hard-to-play, conscious, and tactical game, which is very different from individual combat. "

Lu Yang did not hear this sentence. If he heard it, he would tell Dubin how his dad taught him to play this outdated game.

“It’s really not easy to play. I tried it before. The first game was against the old enemy Denon. I don’t know what will happen?” Hitomi asked anxiously.

“We watch the game, the game has begun, we will wait and see,” Dubin said.

Chapter 1032 - Absolutely crushed!

According to regulations, the choice of the first map was Tianlong, and he chose a temple map.

The first game begins.

Lu Yang chose a human race. When he first entered the game, he looked at the map and found himself at the bottom of the map.

The temple map is a map of 4 people. Each starting point is above a highland. A gold mine is attached to the highland. The surrounding area is full of trees.

The Terran started with 5 farmers and a base. Lu Yang let one farmer run to the starting point on the right, one farmer built an altar, and three farmers mined.

Start with 100 gold coins. Each farmer needs 50 gold coins for construction. Lu Yang clicks to produce two farmers.

The production time of each peasant is 30 seconds. After a peasant has been constructed, Lu Yang asked the peasant to build private houses. Each private house can carry 5 people. The maximum number of people on each side is 100. Farmers occupy a population. Hero Occupy 5, 2 ordinary creeps, 3 high-level creeps, up to 7.

After 10 seconds, the number of gold coins was enough to build a barracks. Lu Yang clicked to build a barracks, and at the same time let the new farmers to collect wood.

After the altar was completed, he clicked to build a water system mage, and the rest was to see the farmers he sent to explore the road. The farmer sent by Lu Yang to trot all the way to the starting point on the right. Suddenly, his eyes lighted up. Found an orc altar.

“Tianlong is by my side.” Lu Yang said in surprise.

On the screen, Tianlong typed out: “Damn bastard, I want you to pay for what you do, and I won’t spare you.”

Lu Yang laughed and typed and said, “Tianlong, you are unlucky. The map of the temple selection temple in the first round was also unlucky.”

Tianlong said: Am I unlucky? No, you are out of luck. I want to give you a taste of the powerful attacking power of the orc tyrant.

Tianlong chose the orcs. Recently, during the experiment, they found the simplest way to play, called the junior soldier.

The orcs’ junior soldiers are called orc infantry, and they are very powerful. They are the most junior soldiers of the four races with the most blood, the most damage, and the most defense.

Although the production takes up three people, as long as the superior force is formed in the short term, waves of offensives can be formed and the enemy can be easily killed.

Lu Yang sneered, and the water mage produced it, occupying 5 people. At the same time, there were 10 farmers in Lu Yang and 2 infantry.

On the other side, Tianlong built a heroic orc prophet. The shape of the prophet is an orc riding on a black giant wolf. The attack method is to throw a hammer. The attack power is average. A powerful one can summon a ghost wolf.

In terms of infantry, Tianlong completed the construction of two infantry soldiers. His preferred method of sending troops was slowed down.

Live room.

Hitomi said anxiously: "Not good, Tianlong is ready to attack Luyang in a wave, Luyang's forces are not dominant, what can I do?"

Dubin also expressed anxiety, saying: "It is really difficult to fight. The orc infantry has 800 points of health, 20 points of attack, 4 points of defense, and the human infantry has 450 points of attack, 15 points of attack, and defense. At 2 o'clock, the strength of the two is now equal, but Lu Yang has built a large number of farmers to supplement the economy.

If Tianlong hits now, Lu Yang will have a hard time defending. This game is not generally bad for Lu Yang.
"

The audience in front of the television heard the conversation between Du Bin and Tong Tong, and their excited faces became dignified. Now Lu Yang is a national idol, and everyone is worried that Lu Yang will fail.

But at this time, a sound came from Lu Yang's base during the game.

"All gather." Whether the 12 peasants were collecting wood or gold, they all ran to the base, changing from peasant form to militia form in an instant.

In the peasant form, their health is only 450 points, their attack power is 3-5, and their defense power is 1 point. In the militia form, their health is unchanged, but their attack power becomes 10-11 points and their defense power becomes 2 o'clock.

Hosts in live studios around the world are dumbfounded, and players in front of the TV are dumbfounded, and they do n't understand what this scene means.

"What's wrong with Lu Yang? What are farmers doing on the battlefield?"

"Is he crazy, doesn't he need to collect wood and coins?"

"Oh my God, what is this doing?"

"Haha, Lu Yang must feel like he has given up and wants to work hard." This is what Indian players say.

...

Just when everyone didn't understand the situation, when Tianlong was going to go out with a prophet and two orc infantry, Lu Yang rushed towards Tianlong's home with 2 infantrymen, 12 militiamen, and a water mage.

Tianlong just brought people to run down the high ground, and just hit Lu Yang's militia group.

"I'm going." Tianlong was taken aback, thinking that Lu Yang had burst out more than 10 infantry in such a short time. A closer look revealed that these people were militiamen.

"What kind of play is this?" Tianlong frowned. In his memory, he tried to use the human race, and also knew the profession of militia. After the peasant became a militia, it could last 2 minutes, and after 2 minutes the militia would return to a peasant. If you want to become a militia again, you need to run back to the base.

He didn't understand why Lu Yang fought this way and didn't know what effect it had. He immediately controlled the Prophet and two infantrymen and ran back to his home. He built two bunkers, a barracks and a base, and a third orc. The infantry was being built in half.

Tianlong didn't care about Lu Yang's play, and chose to rely on the base to resist Lu Yang. Two orc infantry were blocked at the door. His construction was good, and the entrance required only 2 infantry to resist.

But Tianlong didn't know that Lu Yang's infantry was not to kill people, but to push buildings. He controlled his hero, the water mage, to summon the water man, and a water element with an attack power of 15 appeared, along with 12 militia and Two infantry slammed two houses.

Once the private house was broken, Tianlong could not build orc infantry without a house. Tianlong responded instantly, and quickly pulled the peasants over to defend.

But a house has 6 militia attacks, and the house's defense is only 2 points. Although it is a city wall armor, the damage is halved, but the house's health is only 600 points.

Tianlong came and dispatched the orc infantry, but one was just dispatched. Lu Yang's militia quickly surrounded the orc infantry, and 8 people stabbed one. The orc infantry's blood is thick, and it can't help this attack, less than 30 He was killed in seconds.

Fortunately, Tianlong had built an additional infantry before, and this infantry just happened to be produced. Tianlong was relieved and quickly let the infantry enter the battle.

But just after running out here, two militiamen and one infantry emerged from behind Lu Yang. The audience watching the live broadcast was about to regret for Lu Yang and relieved for Tian Long. Seeing this scene, they all exclaimed.

"Oh my God, how did Lu Yang do it? He actually operated on two lines, while controlling the front line so accurately, he could continue to make farmers and soldiers in the rear." Dubin shouted excitedly.

Tianlong is also dumbfounded. I did not expect that Lu Yang still had this technique. He just restored his confidence. He can only continue to walk around the building and Lu Yang to spend time. Waiting for 2 minutes, the militia becomes a farmer and waits for him. The third orc infantry appeared.

On the contrary, Lu Yang seemed to be in no hurry, and he was busy with Tianlong. His infantry dared to come out and siege. If he did not come out, he would hit a building, and soon a building would have blood.

In the live room.

Tong Tong looked at the time nervously and said, "It's almost 2 minutes, I don't know how Lu Yang will fight next."

Dubin said: "Yeah, this just destroyed a building. The new private house built by Tianlong in the base will be fine. It's not easy to beat."

Dubin looked at Lu Yang's base and found that Lu Yang was building a war mill, and in his home, 5 farmers were collecting gold coins and 3 farmers were collecting wood.

"What is this to do? Why not make a high-level service?" Dubin frowned.

Hitomi said: "It's too late. Now Tianlong has saved a lot of money. If Lu Yang fails, then there should be no chance. I think Lu Yang should fight this attack."

Dubin said: "It should be like this, but I don't understand how Lu * ti can win. We have watched so many professional player drills before this game. No one has used this game."

In conventional play, Terran's arms are infantry, musketeers, artillery, and magic-breaker long-range infantry, and witches. The dwarf helicopter is in the air, and the damage is not high. The only high damage is the gryphon cavalry, but That's the ultimate unit, and you need to raise the base to level 3.

Orc's arms are special. After the base is upgraded, they can build wolf cavalry, move fast, can throw out nets to control units to move, hit buildings and increase 50% damage, it is a very powerful arm.

Lu Yang now shows that if there is a wave that cannot be won, he also does not have the money to build a second-tier unit, but Tianlong has a lot of money to upgrade the base to build second-tier buildings and produce soldiers.

The audience in front of the TV set, through the analysis of Hitomi and Dubin, had a better understanding of the game. When they became more worried that Lu Yang could win, the crucial moment finally came.

When Lu Yang controlled the militia to fight the second civilian house of the orcs, it was time for the militia to transform, and the 12 earliest militia all turned into farmers.

Tianlong: Lu Yang, you lost.

Lu Yang watched Tianlong typing, with a smile, and said, "Teach you a trick today and learn it well."

12 peasants suddenly split into 3 waves, and at the same time a sentry tower was built inside the base of the Tianlong family.

"Boom ~!"

When the tower was built, the audience in front of the TV and the host in the live broadcast room were shocked.

"Oh my god, how could you play like this?"

"It's crazy, even building a sentry tower in the enemy's house. The sentry tower can be turned into an arrow tower. If the construction is successful, Tianlong will definitely lose." Dubin shouted with a throat.

Tianlong also discovered this problem, desperately controlling the prophet summoned the ghost wolf and 2 orc infantry to attack the sentry tower.

Although the defense of the sentry tower was 0 before the construction was unsuccessful, and its health was only 500 points, each sentry tower was built by three farmers together, and protected by 2 water elements and 4 infantry summoned by Lu Yang. To prevent the Orc infantry from being killed, it is difficult to destroy the sentry tower for a while.

He turned to attack the peasants. The peasants with only 450 points of blood could not carry the attack. However, whenever there was blood in the peasants, Lu Yang immediately controlled them to run home. At the same time, a second wave of militia from the support rushed in.

The appearance of six militiamen reversed the situation. Tianlong reluctantly fled home with two orc infantry and prophets. Four infantrymen and six militiamen could easily surround one infantryman.

Just now Tianlong saw the precision of Lu Yang's siege and was afraid to fight Lu Yang's infantry easily. When the two sides were deadlocked, Lu Yang's three sentry towers were completed at the same time.

Coincidentally, the war mill at home was completed, and the option of upgrading to an arrow tower appeared in the sentry tower. Lu Yang immediately clicked the upgrade and ordered 5 farmers to run home for a second transformation.

Six farmers continued to build three sentry towers. At this time, another infantry appeared in Tianlong's barracks. He already had three orc infantry.

But at the same time, the three sentry towers built by Lu Yang were in the shape of a pin near the orc barracks and could attack the barracks.

The sentry has 25 attack points, 600 health points, and 6 defense points. Although the Dragon has 3 orc infantry, it can face Lu Yang's 6 militia, 6 peasants, 4 infantry, and 2 water elements. The line-up is afraid to go out at all.

He could only watch as his barracks were destroyed by the arrow tower when the fourth orc infantry was produced. The rest was no longer suspicious. The five farmers sent back by Lu Yang ran back and another five The militia, plus the new soldiers, Lu Yang ran around with the overwhelming force.

In the end, after Lu Yang destroyed Tianlong's fortress base and all buildings, although Tianlong still had a prophet and four infantry soldiers, it was determined by the system that the base building was gone.

The system prompts: In the first battle of the fortress, Lu Yang wins and Tianlong defeats!

"Boom ~!"

Players watching the game around the world are boiling, especially when watching live broadcasts on the Internet. They have tried to play fortress battles before, knowing that this game is a very wasteful game, often playing a game for more than half an hour.

But who would have thought that Lu Yang ended the first game in 10 minutes so cleanly.

In the battle of other players, many talents have just completed the construction of the level 2 base and are preparing for the violent soldiers.

Liu Jie is playing against an unknown new president. He is building faster and is upgrading to a 3rd level base. He learned that Lu Yang had won Tianlong, and he couldn't believe it.

"How did you do it?"

"Tianlong deliberately let Lu Yang's? Impossible, the two are deadly enemies."

...

The presidents who were fighting were curious.

Lu Yang was teleported out of the battlefield and just saw Song Sisi and Song Yunyi. They did not participate in the battle, and they sent their masters to fight for them.

"The win is beautiful." Song Sisi said with a thumbs up.

“How did you think of it, it’s so cool.” Song Yunyi said.

Lu Yang said with a smile: “My dad taught me.”

“Your dad?” Song Sisi was stunned.

Lu Yang said, “Yes, my dad is a master in this field. According to him, he played professional games in the past, similar to this game.”

“by.”

“gosh.”

...

Song Sisi and Song Yunyi are speechless. Who can think of such an old game, there are still people playing, and there are still people teaching their children.

“Chairman Lu Yang, really amazing.” Bai Mingyi walked over with a smile.

Lu Yang Gongshou said, “Bai Ye has won the prize.”

As soon as Bai Mingyi’s eyes brightened, Song Sisi said, “I just introduced you.”

Lu Yang said, “Bai Ye’s name is like Lei Guaner.”

Bai Mingyi smiled and said, “Buy antiques in the future, look for me, I will help you choose, no one can blind you, and it is cheap.”

Lu Yang smiled and said, "I thank you first."

"Does Baiye want a fortress?" Lu Yang asked.

"Yeah, I'm anxious for the wild fortress." Bai Mingyi said.

"If I can get the first place, I must sell you one." Lu Yang said.

"Oh, I thank you so much." Bai Mingyi sighed in Beijing.

Lu Yang laughed.

System prompt: The second game is about to start. Please pick a map.

"I'm going to the game first, the second game has begun." Lu Yang said.

"You are busy," Bai Mingyi said.

Lu Yang chose the map, which is a map of Turtle Island. This is a smaller two-person map. Each person has a gold mine. The shape of the map is the front half of a turtle.

The turtle's two claws are the starting point, the turtle's body is the road, and the turtle's head is a gold mine. The characteristic of this map is that who can seize the gold mine in the middle can win the game.

In the live room.

Dubin is explaining the map according to the official introduction. But here, Dubin suddenly smiled, put down the manuscript in hand, and said, "But this map is too small. The distance between the two is the distance between the two of the temple. It's almost 10 seconds away. I see if the victory or defeat of this game is in the Luyang mob, if Tianlong can support it. "

Tianlong looked nervous In the game that he just failed, he knew where his mistake was, but he didn't know how to crack it, and was thinking hard.

Players around the world are also thinking about Lu Yang's cracking method.

"Building an arrow tower can only be done at home."

"But the arrow tower needs to build a war factory. This is not so easy to build. When Lu Yang's first wave of militia arrives, it will be good to be able to come out with two orc infantry."

...

The players were speechless for a while, and found that it was really the case. In the small map, Lu Yang's militia can quickly gather more than 10 in a short time. The militia and the infantry are almost the same, which is equivalent to Lu Yang hitting 2 with more than 10 infantry. Orc infantry, this is a one-sided attack.

Professional players around Tianlong put forward suggestions for Tianlong, instead of using prophets, use sword sage, so that the militia can be killed faster.

Juggernaut knows the hurricane step and double attack, it is the hero with the highest melee output, which makes Tianlong a little tempted.

Chapter 1033 - Game 2

The second game begins.

Lu Yang appeared on the right side of Turtle Island, and Tianlong appeared on the left side of Turtle Island.

At the beginning of the game, Lu Yang is just like the last game. There is no change in the order of construction, hero altars, private houses, barracks.

On the other side, Tianlong also has the same order. He has no better choice and can only continue to build this way, because the opening can only build these few buildings.

However, Tianlong had the priority to build orc infantry in this round. Even the peasants had fewer constructions, mainly the first orc infantry, and the rest of the buildings were delayed.

After 1 minute, the altar is completed. Tianlong chooses to produce the sword priest. The skills of the sword priest are blast step, split, 15% chance of double attack, and whirlwind. Each level of the hero can learn a skill. Denon chose the skill of Stormwind.

On the other side, Lu Yang is also producing heroes. This time he produces hill dwarves. The skills of the hills are Storm Hammer, Thunder Shock, and a 15% chance to stun each other for 2 seconds.

In the live room.

Dubin Haha said with a smile: "Although I do n't know why Lu Yang did n't use the Master this time, but looking at Lu Yang's construction method, I still prepare a stream. Audience friends, we can enjoy a wonderful stream The play is up. "

Hitomi said: "I don't know how Tianlong will deal with this time. Swordmaster's attack power is much higher than that of the prophet."

Dubin said: "Let's wait and see, Lu Yang's hills come out."

in the game.

The altar of the human race flashed, the hill dwarf stepped out of the altar, the horn of the town sounded, and 7 militiamen plus 2 infantrymen followed the dwarf towards the other side of Turtle Island.

“coming.”

“Lu Yang attacked.”

“Haha, look forward to it.”

...

The players watched with excitement when Lu Yang took the team to the door of Tianlong’s house. At the same time, Tianlong was about to take 2 infantry to go out to hit a wave of monsters, and hit a positive face with Lu Yang. The distance between the two sides was less than 2 Meter.

“Damn.” Tianlong’s third orc infantry had just completed its construction. He didn’t dare to fight with Lu Yang, and hurried back, but at this moment, Lu Yang controlled the hill and threw it out according to an orc infantry. Stormhammer.

“噔”

The hammer of the storm hit the head of the orc infantry, and stunned it for three seconds. At this time, Lu Yang’s 3 militiamen and 2 infantrymen quickly ran towards the orc infantry. Before the orc infantry woke up, he It was besieged on all sides.

The orc infantry is large in size, and 5 minions are just around them, and at the same time, they can give the remaining space for attack.

Tianlong did not expect that Lu Yang still had this style of play, and quickly controlled the sword master and the orc infantry and ran back to help.

But one can fight six, and one against three. The speed is not the same. Soon, the orc infantry has half blood, and Lu Yang has one militia.

Lu Yang took this militia to run home, and at the same time let another militia fill the vacant seat. Tian Longyan watched his infantry go from half blood to residual blood, and then to death. He found that the infantry had no chance to run out, and was fierce. , Controlling the sword prince to launch a storm, catching up with the blood militias, slashing with a sword.

But the orc infantry was also hung up. One militia replaced one infantry. The price of the two was 200 yuan and 50 yuan, which was equal to Luyang 1 for 4, which was a big loss for Tianlong.

“Oh, there were two orc infantry, and one was sieged. Tianlong was too miserable.” Dubin said.

Hitomi said, “Another orc infantry is out.”

Dubin shook his head and said, “It’s useless, I can see the way Lu Yang played. He wants to use a precise and uncontrolled operation and use the retention skills of the Storm Hammer to stun an infantry, and the militia rushes to besiege one. This will take less than 2 minutes and the next orc infantry will die. “

In the picture, Tianlong also reacts. In desperation, he can take an orc infantry to his home and join another newly-created orc infantry.

Although Tianlong is still two infantry soldiers, it can be seen by the discerning people that Tianlong is suspended.

Dubin pointed at the map and said, “Audience friends, please look at the central area of the map. From the perspective of Lu Yang, his tribal militia produced one and rushed over one. The entire map is Luyang’s troop transport line, while Tianlong’s The orc infantry production speed is four times that of the peasants. Counting the running time, it is also the production speed of an orc infantry by 3 militiamen. “

After Dubin's explanation, the audience understood it. It turned out that Tianlong didn't know it. He was still waiting for the next soldier to appear, but he didn't wait for him to wait for time. When 2 minutes arrived, 5 militiamen returned. Farmers, build arrow towers in situ.

“Oh ~!”

...

Watching it live, watching in front of the TV, and commenting from various countries, all fell into a sensation. Since Lu Yang killed Tianlong in 10 minutes in the first game, all countries switched the TV screen to Lu Yang.

In the face of Lu Yang's operation of building an arrow tower in the enemy's house, everyone can only express his astonishment with exclamation.

There are three sentry towers. After the construction is completed, they become three arrow towers. Tianlong desperately wants to destroy the sentry tower, but only one is destroyed, and the remaining two successfully become arrow towers. Tianlong's Swordmaster, because he was too far ahead, was stunned by Lu Yang's storm flying hammer, then 4 infantry and 2 militia swarmed up and trapped it in place.

“Fuck, pretty.” The players cheered wildly.

Tianlong's sword master quickly lost his blood. He did not dare to let the sword master die. After he died, it took 2 minutes to resurrect a sword master. He couldn't wait.

But Juggernaut was invisible, and the other two arrow towers were easily saved. Then the next wave of militia arrived, and Lu Yang built 3 sentry towers.

Six peasants built together at a fast speed, almost the speed of building an orc infantry and three arrow towers.

After Tianlong worked hard to create 4 orc infantry, the barracks were detonated. Lu Yang had 7 sentry towers with an attack power of 20 points. One was equivalent to 2 militia. The defense was still the wall armor. In this case, three orc infantry were killed in a desperate wave, and the sword master was also killed. Although 4 arrow towers were killed, Tianlong lost.

System Tip: In the second game, Lu Yang won!

The second game was shorter than the first game, and it took less than 8 minutes. At this time, the first round of the other groups' confrontation has not ended.

The system prompts: As the other groups did not show up, the player Lu Yang can rest temporarily.

Lu Yang returned to the rest area, and Tianlong returned to the rest area. He came to Lu Yang in anger, and was about to get angry, but was stopped by Song Yunyi.

"Don't lose," Song Yunyi said.

Bai Mingyi said with a smile: "This is Horn's territory. Be careful he bans you."

Tianlong reluctantly glanced at Song Yunyi, pointed to Luyang Yang and said, "You wait for me."

Lu Yang said with a smile: "Goodbye."

He was too lazy to talk to this crap, but Tianlong was so angry that he couldn't help but turn around and leave.

Song Sisi looked at Lu Yang in amazement and said, "Win beautiful."

Bai Mingyi said with a smile: "Great, I really admire."

Lu Yang laughed and said, "Okay."

Inside the live room.

Dubin sent the clipped video backstage to the live broadcast signal, saying, "The other groups are gradually deciding the outcome. I just briefly watched. Except for Lu Yang, the competition in each group is in the medium term. The main battle is decisive, and they are very stable. "

Hitomi said: "They are in the middle stage of the operation, but in contrast, Lu Yang is in the early stage of operation, it seems that the human race has a special advantage in the early stage."

One-armed said: "Let's take a look next, the orcs are a bit special, and it might be better to switch to other races."

Slowly, each group gradually divided the victory and defeat, but this is the first round, but also play the second round, Lu Yang waited for an hour and a half, the races are considered complete, and then rested for half an hour, The second game begins, and this time his opponent is the British-controlled Demon Clan.

Map selection Edward won the first choice in the two-person coin toss. The map he chose was still the temple map. This map they had practiced the most.

Games start.

"Lu Yang, if it is closer, you are welcome to brush it quickly." Edward typed a line on the screen.

For the demons, the peasants who cut down the wood-the ghouls are the soldiers. There are two starters. The attributes of the ghouls are the same as the human infantry, and they are built quickly. Wave flow.

Lu Yang smiled. This time, his position was at the starting point on the west side. At the beginning, he sent a farmer to explore the starting point on the north side. The construction order was the same.

When the altar was finished, the peasants came to the starting point on the north side, but found no enemies. Lu Yang smiled and chose to let the peasants continue to explore towards the starting point on the east side.

He builds a hero, chooses a mage, and when the mage produces it, the peasant ran to the east of the map and found Edward's base.

Edward: Poor, I can't make a wave, what else do you do?

Apparently, the time when Edward ran over from the peasant, he found out what happened to Lu Yang at his far end. For this reason, he was very happy, and took the demon knight and three ghouls out to fight.

There are a lot of monster points on the temple map. There are a mining area next to the four starting points. There are 6 monsters standing there. After the game, players can rise to level 2 and a half. In the temple area in the middle of the map, There were monsters at the four entrances, but they were all mobs, and Edward took the mobs with 3 ghouls.

Inside the live room.

Du Bin: "This time it's far-end. I don't know how Lu Yang will fight."

Hitomi said: "It should be playing in the middle period. In fact, I am curious about the mid-term offensive ability. People who can play such a good game in the early period will not be worse in the middle period."

Du Bin said: "Agree, Lu Yang must have a very deep understanding of this game, in order to play a wave in the early stage, we look forward to his performance in the medium term."

As soon as the words fell, Lu Yang gathered 5 peasants into militia again, plus 2 infantry and 1 water element ran towards the monster spot in the nearby mining area.

"Oh ~!"

The audience moved again. Many of them have played the fortress battle and know how difficult it is for a monster to fight. One of them is level 5 and has more than 40 attack power. It hurts the soldiers a lot.

However, the audience found that it seemed that Lu Yang really could win with this lineup. Soon, Lu Yang's team and the monsters in the mining area were engaged.

The 2 infantry resisted the two mobs on the left and right, the water element resisted the big mob in the middle, and the militia went up and surrounded the big mob.

Don't look at this method is simple, but few people can do it, because this involves very fine micro operations, and almost strange attacks will be biased.

The mobs on both sides have average attack power, the infantry can easily resist, and the mobs have very strong attack power. When the water element has blood, Lu Yang withdraws the water element and summons the second water element, two water elements. Fighting together, he controlled another militia to fight the monster.

After changing 3 militias in succession, the monster dies, and Lu Yang's mage's instant experience value is slow. Then he kills a mob and rises to level 2. He kills the other 3 mobs and rises to level 2.

After rising to level 2, Lu Yang controls the Archmage to learn Mana Aura, recovering 2 mana per second.

Lu Yang controlled one of the militiamen, and the rest returned to the base to collect wood. Inside the home, two infantrymen were produced. A total of four infantrymen followed the mage to the temple area in the middle of the map.

The temple was very large, accounting for about half of the map, and came to the entrance. There were 1 level 2 monster and 2 level 1 monsters at the door. They were easily killed and the master was upgraded to level 3. At this time, Edward's Demon Knight Only rose to level 2.

“Woohoo”

The horn sounded, and 10 peasants rushed out of their homes and ran to the mage.

In the middle of the temple, there is a super monster area, where there are 2 level 5 monsters, 3 level 4 monsters, and 5 level 2 monsters.

It's Luyang who is going to clean up this time. Even if the farmer died, he would not hesitate to do it. On the other side, Edward played this map. He knew that he couldn't fight, and he never thought that Lu Yang could fight. He didn't fight this at all. Place, after killing the mobs, control the demon knight and 5 ghouls to continue to fight the mobs around.

Just as he cleared a level 4 monster point on the east side, Lu Yang was struggling to kill 6 farmers, killing the monster area, his hero rose to level 5, and he got an increase. 200 health cards and a 500 life HP potion.

Lu Yang controlled his hero to go to the wild store, bought a pair of shoes, and bought a skill reset book and a scroll back to the city.

The shoes can increase the player's movement speed by 50 points. The role of the skill reset book is to wash off the previously upgraded skill points. After the reset, Lu Yang points all 3 skill points to the snowstorm.

Blizzard is a ranged attack skill. A level 3 blizzard can deal 50 damage per second for 10 seconds, resulting in a total of 500 damage.

As it happens, this is the blood of the Demon Clan Gold Mine. The Demon Clan wants to mine and needs to build a gold mine cover to allow the demon laborer to use mana to extract gold.

Lu Yang built a total of 6 infantry at home, all of them ran out with him. On the other side, Edward had just reached level 3 and had produced 6 ghouls and 2 demon ants. The demon ants were remote units and sprayed corrosion venom. .

"It's time to attack," Edward muttered to himself.

He led the team to Lu Yang's house, but he just ran halfway, but found that Lu Yang had brought people to his house first.

Level 5 Arch Master made Edward's eyes blank, and murmured, "How is that possible?"

"snowstorm"

The Archmage stood next to the base to release the snowstorm. Edward had a good building science. Barracks, bases, and private houses were all built on a line to surround the gold mines inside.

Although magical damage only half the damage to the building, a blizzard fell, and the demon laborers who were mining had only 100 health and died on the spot.

Edward looked at the Luyang base not far away. He found that his attack power was not comparable to the blizzard, and he could only launch back to the city to return to the base.

But just after he returned, Lu Yang controlled the infantry and the mage to run separately, running to the top and running to the bottom.

Edward can only let the demon knight chase the master, and the ghoul and the demon ant chase the infantry, but when the demon knight is alone, the master of Lu Yang turns around and returns to Edward's base. Wave snowstorm.

The three demon laborers just built were killed again. This time, even the lid of the gold mine was blasted, and Edward couldn't make money.

"Edward is finished."

"The economy is going to go wrong now."

A gold mine lid takes 1 minute to complete, and 1 minute can make the difference between the two money by 600 yuan. Moreover, Lu Yang's master can continue to cast.

Edward's anxious head was sweating heavily. The ghoul had just pulled back, but Lu Yang ran away again, and he controlled the demon knight to continue chasing.

The demon knight has a death entanglement skill. His level is level 3. You can learn the skill to level 2, causing 200 points of damage and halving the hero's damage.

Level 5 Archmage has blood cards in it. There are a total of 850 points. Demon Knight Blue only blew out 500 points of blood. Lu Yang ate a large blood bottle and recovered.

Seeing that Edward was afraid to leave the house, he took the soldiers to destroy the gold mine monsters of Edward's family, and the level almost rose to level 6. At the same time, Luyang sent farmers to build a second base in his home. Finished and mining started.

Edward can only stay at home and dare not go out. In this way, the two sides stand dead for 10 minutes. Edward feels that he has suffocated his forces. There are 6 ghouls and 10 demon ants. He wants to fight Lu Yang.

Edward: Coward Dare to face me!

Lu Yang smiled and said: Why, can't you beat me?

Edward: Do you dare to face off?

Lu Yang: Can't beat me?

...

Edward was discouraged, but the audience laughed, especially Dubin.

In the live broadcast room, Dubin patted the table and said, "Edward wanted to play tricks with Lu Yang. We have a history of 5,000 years in China, and we have a lot of military skills. How can a simple trick to use Lu Jiang be useful to Lu Yang."

Hitomi said with a smile: "Edward seems to be furious and wants to send troops out."

Dubin Haha said with a smile: "But he can't go out, the master of Lu Yang is standing at the door of his house."

The mage riding a white horse stood there stunnedly, standing in front of Edward's house, making people want to laugh.

Chapter 1034 - Family wave 1

"There is only one way in front of Edward, and that is to wait for Lu Yang's attack. He wants to fight out, there is no possibility." Dubin said.

Hitomi said: "It's pitiful to look at it, so many medium-term troops just don't dare to go out."

Dubin said: "Edward has only one gold mine, but Luyang has two. Every additional minute, Luyang's economy is 400 gold coins more than Edward's. The possibility of Edward's reversal in this game is very small."

Hitomi said: "Looking at the Luyang base, it's all up to level 3, and he started to build cavalry. His war mill has reduced the damage of melee and ranged attacks to level 2, and the armor has also reached level 2. It looks like Lu Yang is going to fight many arms. "

Just when Edward didn't know what to do, Lu Yang quickly stepped out of the Level 3 base in 10 minutes, and created 4 cavalry, 8 musketeers, 4 small artillery, 3 male wizards, and 3 females in the 15th minute. Wizards lineup.

Spectators around the world frowned when they saw this lineup of Lu Yang.

"How come there are so many arms, can 5 arms come under control?"

"Except for four cavalry soldiers of the third rank, the rest are all two ranks. Why didn't Lu Yang explode the Griffin Knight?"

"Yeah, this lineup doesn't feel like any output."

...

No one knows why Lu Yang fights like this, and no one agrees with Lu Yang's sending troops. In previous players' trials, the average person could only control 2 arms while maintaining the hero's immortality, or he could not use magic arms.

While the master can control 2 arms, the home base can also take into account. Players who believe they can play professional games can control up to 3 arms, but no one plays this way, because 2 level 3 arms are enough to make the battle without suspense.

Controlling five arms like Lu Yang, two of them can use magic, but also have to take into account heroes, but also have to take into account the base to build soldiers, but also fight against the enemy to fight operations, no one dares to do so.

Not only can't control, another Lu Yang's lineup has 1000 points for the Cavaliers, and none of the other units have more than 500 points. The defense is even worse. This is a bunch of crispy skins that only rely on 4 Fight against enemies with knight protection.

In the live room.

German commentator: "I don't understand. If I were, I would blast a griffin and a knight to destroy the opponent."

The Italian commentator said: "I play like you, with up to 3 griffins and 6 musketeers."

...

Dubin didn't understand, but he said: "Lu Yang must do this for his reasons, let's wait and see."

Screen.

Lu Yang's large army moved, and a total of 22 soldiers divided into 5 units and rushed out of the map. A total of 28 soldiers plus the mage ran to the map of Edward under the previous 6 soldier rounds.

Lu Yang: Edward, I promised you to fight with you, I will be outside your house and come out to fight me.

Edward: Get out, don't believe it.

Lu Yang: "..."

Players worldwide: "..."

"..."

British players cover their faces directly.

"Lost."

"This waste."

“How did he represent Britain.”

...

Lu Yang laughed and said, “If you don’t come out, I’ll come in, waiting at the front door, I’ll hit you.”

Four cavalry and six infantry rushed to the high ground, and Edward, who was trying to find a way around the base, saw Lu Yang’s soldiers for the first time, and quickly took 6 ghouls, 3 abominations and 10 demon ants. Challenge.

Abomination is a high-ranking unit of the Demon tribe. It carries poisonous mist and loses 1 blood every second. Just after the battle, Lu Yang’s melee team was infected by the poisonous mist, and blood began to drop in the battle between the two sides.

4 male wizards rushed to the vicinity of the second row, activated the blood-adding ability, recovered 20 points of blood per second, quickly added blood to the knight, and then launched 2 skills to light each knight and soldier with a fire of mind, an increase of 10% Damage and 5 armor.

In the third row, the witch casts a slowdown on the enemy target, reducing the opponent’s single enemy’s attack speed by 25% and its movement speed by 60%.

The fourth row is the Musketeer and Archmage. After more than half of the enemies were slowed down by the witch, the archmage read the spell.

“snowstorm”

Large ice storms descend from the sky, causing a lot of damage to abominations and ghouls within 500 yards.

When the snowstorm came down, all the players watching in front of the TV and the players watching the live broadcast on the Internet made an exclamation sound.

Those who know it know that level 3 blizzard can deal 500 damage, abomination is only 900 health, ghoul is 450 health, spider is 550 health, in the face of this pure high magic damage, as long as it is hit 10 waves, the ghoul must die, and the spider must have blood.

Edward hurriedly ordered the team to retreat as a whole, but when he retreated, he discovered that all his soldiers were slowed by 60% by Lu Yang's three witches, and they could not run out of the snowstorm.

Edward's heart fell into great disappointment, but what made him even more alarmed was that the 8 Musketeers in the fourth row and the four cannons in the fifth row unscrupulously slayed his **** soldier.

After only one set of fires, one abomination must be killed. After three consecutive fires, Edward finally withdrew the team under the defense tower.

In order to prevent being attacked by Lu Yang, he built 4 defensive towers at home, but the three waves of attacks just died, the abominations were all dead, two-thirds of the ghouls died, and all the remaining blood was left. In the back row, only one died, but there were 9 spiders left. In the face of Lu Yang's 28 undead units, there was no suspense.

Dehua was dissatisfied and persisted around the defense tower, but Lu Yang put another wave of snowstorm, 4 small cannons attacked at the same time, the small cannons were used to hit buildings. It took no more than 2 minutes, 4 arrow towers were destroyed. The troops stormed into Edward's base and easily smashed all of Edward's buildings.

System prompt: Lu Yang wins the battle!

"Wow!"

...

In the excitement at the scene, Lu Yang returned to his seat, and Bai Mingyi and Song Sisi and others around him admired.

“too strong.”

“How can you respond so fast?”

...

Lu Yang smiled and said, “Just make up.”

As an outstanding child of the Song family, Song Sisi has always regarded himself very high. At the beginning, he didn't look at Lu Yang. He just thought that he was a good person playing games, but today everything happened to him. In front of her, she has to admit that Lu Yang's technology is really too strong.

Has broken through the awareness of all their players at the moment, reaching another height!

She glanced at Lu Yang and said, “Just pretend.”

Lu Yang laughed.

Song Yunyi asked: “How to play next time, do you still use the map of Turtle Island?”

Lu Yang said, “Yes, it's still Turtle Island. I still use a wave.”

Lu Yang's voice was not deliberately lowered. People around him could hear it very clearly. People around him were very active, and they sent a message to Edward with eyes turning around, telling him this.

“Don't say, boss, you tell others how you play, Edward will target you.” Song Yunyi said anxiously.

Lu Yang smiled and said, "The people who can target me are not born yet."

Edward walked in front of Lu Yang, looked at Lu Yang arrogantly, and asked, "You still need to use the map of Turtle Island in the next game, right?"

Lu Yang looked at a set of aristocratic fashions intentionally chosen by Edward, with blond hair and a boxy beard, and looked like a dog-like man.

"Ha! Then you just wait to lose." Edward turned proudly and walked away.

Lu Yang smiled and didn't speak, but Song Yunyi, Song Sisi and Bai Mingyi all looked at Lu Yang in surprise.

"Brother, are you deceiving him with tactics?" Bai Mingyi asked with a smile.

Lu Yang smiled and shook his head, and said, "Really not, I just want to use a wave, so that the most time-saving."

"Uh ..." Bai Mingyi was speechless.

Lu Yang laughed. After a 10-minute break, the second game started. Lu Yang chose the map of Turtle Island without hesitation.

"It's Turtle Island again."

"I just heard that Lu Yang said on the playing field that he used Turtle Island to play the second game, and also played with a wave of waves. I never thought of using Turtle Island."

"It's impossible to use a wave, I also heard that it must be deception."

...

Whether it's a commentator in a live broadcast room or an audience watching the live broadcast, few people believe that Lu Yang still uses a stream.

Edward didn't believe it either. He suspected that Lu Yang had lied to him to make more ghouls at home to fight against him. But when Edward sent the peasants to Luyang's house to investigate the first time, he found that Lu Yang really did not build a war mill. , 3 private houses and an altar, and 7 farmers working at home.

"It's really a wave." Edward was so angry, he felt that Lu Yang was ignoring him, and immediately put down the second barracks, ready to explode the ghouls.

But at this time, Lu Yang's first hero master came out. Lu Yang took 7 farmers and 2 infantrymen and ran towards Edward's home. When he passed the wild shop on the road, Lu Yang hired one Troll warrior, belongs to the 2nd level soldier.

At this time, Edward produced 2 ghouls, plus a total of 3 ghouls sent by the opening. When Lu Yang brought a large army to his doorstep, there were only 4 ghouls and a demon knight.

On one side are 7 minions plus a water element and a troll warrior, and on one side are 4 minions. The minions on both sides have the same damage, defense, and blood, but Lu Yang has more soldiers, and there is also a troll warrior and water. element.

Lu Yang's micromanipulation is also much stronger than Edward's. Just a few face to face, a ghouls of Edward was surrounded by Lu Yang.

Originally, Edward wanted to use the attack of the ghouls and the death of the demon knight to quickly kill several Luyang militiamen, but his own ghouls was surrounded. Edward, who had few soldiers, did not dare to let the ghouls die. He could only use death. Twine adds blood to the ghouls.

As a result, although the anti-Ghouls beat, Edward can significantly reduce the damage, seeing a residual blood militia he did not dare use the death spiral, only looked at the militia fled to Lu Yang base.

At the same time, Lu Yang's side continued to join the militia, and Edward was beaten up.

Then, the remaining six militiamen in the first wave became peasants. They were fighting and turned around to build towers, and two people built one.

Edward was killed for 2 ghouls in this long time, and 2 ghouls were created, or 4 of them. One of them was still under siege. He could only watch as the three sentry towers were built.

Then, 3 sentry towers began to upgrade arrow towers, and 6 farmers continued to build another 3 sentry towers ...

Edward's head was buzzing at the scene in front of him. He had been snoozed by Lu Yang's play. He didn't understand what it was called. How could anyone start a fight with a group of farmers? There is nothing you can do about it.

In front of the TV, the players' feelings are even stronger. They can intuitively see how Lu Yang defeated Edward step by step through the screen.

As they watched it, Dubin in the live broadcast room suddenly yelled.

"I rely, why is Lu Yang's family all young and old pulled out, and no one in the family needs mining or wood?"

The battle picture on the front line instantly switched to the picture of Luyang Base. It happened that Lu Yang gathered all 16 peasants in his family next to the base and turned into a militia. A wave rushed towards Edward's hometown.

"I grinned."

"rub."

"Too arrogant."

“It’s amazing.”

“Can you still play like this?”

“This Nima is called a wave.”

“The whole family is a mess.”

...

The commentary of all countries is crazy, I don’t know how to explain this wave of offense by Lu Yang. The time is only 8 minutes.

Edward didn’t know his situation yet, just as he was working hard to build soldiers, trying to protect the barracks, and working hard with Lu Yang, suddenly, 16 militiamen arrived.

Edward only felt dizzy in front of him, and a small red militia ran quickly. He checked carefully, 16 of them.

“I ...” Edward could not speak.

Sixteen militiamen and four infantrymen slammed around Edward’s barracks. The barracks that had been shot into blood by the arrow tower were broken without persisting for 30 seconds. Then the militiamen and infantrymen began to knock at the gold mine.

Edward sent the ghoul a little bit, and was immediately surrounded by the militia. Now Edward’s demon knight is no longer blue. As long as he is surrounded, he will die within 5 seconds.

In the face of this situation, Edward did not want to continue shame, and hit GG.

The system prompts: Lu Yang wins the battle.

“Boom ~!”

In an exclamation, Lu Yang returned to his seat. Song Sisi and Bai Mingyi, Song Yunyi, and the surrounding guilds looked at Lu Yang just as they did Superman.

“Win, this play.” Bai Mingyi didn’t know how to praise Lu Yang.

Song Yunyi could only admire his thumbs up.

Song Sisi breathed a sigh of relief and said, “How do you think of this?”

Lu Yang said, “Is there anything strange, isn’t it normal to fight like this?”

“A normal ghost, this game is too arrogant, and the whole family is a wave.” Someone said excitedly.

Lu Yang smiled and said, “My style of play is a wave of the whole family.”

Everyone: “...”

Edward looked at Lu Yang in the distance, and sat back in his chair, no longer talking. He never thought that Lu Yang’s move was so strong that he had no ability to fight back.

In the live room.

Hitomi said: “It’s a terrible tactic. Although it looks funny, if you can’t win, you must lose.”

Dubin nodded and said, “I just won.”

A game guest looked at the paper in front of his desk and said, "Just now I have counted, Lu Yang's stream of play has 3 very special time demarcation points. The first one is when he is 3 minutes. With 7 waves of militia and 2 infantry rushed to the enemy's home to attack, at 5 minutes the militia began to build a tower. In 8 minutes, when the arrow tower was completed, all the homes capable of fighting were dragged out. . "

Dubin said: "This trick has no solution. All the guilds can participate in the battle. They are the strongest players in their guild, but no one can break the trick of Lu Yang. Just now I got the news that Lu Yang is playing. I told Edward earlier that he would use the map of Turtle Island and a wave of tactics. Edward also prepared for this and found out the situation, but there was no way. "

The guest said, "I can sum it up. You can say that Lu Yang's style of play is to tell you clearly that I will hit you at your house in 3 minutes, build a tower in 5 minutes, and have a wave of family members in 8 minutes. You know me well Play, but you just can't help it. "

"Snapped"

Dubin patted the table and said, "The summary is very precise."

All the players who watch this live broadcast, especially Huaxia players, are extremely excited. Since the last century, Huaxia has been inferior to foreign countries in all aspects. Today, Huaxia is strong, but the game is still inferior to major powers such as South Korea and Europe.

Now there was a Lu Yang, who was so strong that they felt extremely proud.

on site.

The game entered the second round of the duel, and Lu Yang was the first to finish it. After all, the whole family can beat the opponent in 10 minutes.

While taking a break, Lu Yang sent a message to Looking Up to the Light and asked, "Did you find Liu Jie's nest?"

Looking up at Weiguang said: "Boss is coming The map here is too big, but I have found an African legion of Liu Jie, guess who I see?"

"Who?" Lu Yang asked.

"As Yue Taishan, this old boy is back to Liu Jie again." Said looking up at Weiguang.

Lu Yang snorted and said, "It looks like the loss is not bad enough, and I want to do it again."

"I just saw him. He was too high. I didn't dare to follow him. I could only watch him run into the dense forest, but the direction was the direction of the African Army." Looked at Weiguang.

Lu Yang said, "You keep looking for it, and tell me immediately when you find it."

"Yes," said looking up at Weiguang.

Lu Yang made a phone call to Germany without a taste of the dead, and asked, "Have you found a pass that is suitable for defense in the northeast?"

Not only do you have to find Guanyu, you also have to draw all the maps of the northeast, which is a very large amount of work.

Chapter 1035 - Tower Building Demon

After entering the new world, the game gives a new setting. If you kill players below level 100, you will no longer increase national warfare points. It is clear to prevent players above level 100 from returning

to the old road to kill low-level players and use points to gain experience. Value Ge free serial novel reading network

In this way, the players will start a decisive battle in the New World. Now, the first place in the fortress battle is basically Lu Yang. He urgently needs to know the position of the fortress.

De Buwei said: "The report boss, the basic exploration of the northeast region understands that there is one place that is suitable for establishing a fortress connected to the northern mountain pass, but the distance is too close to the north."

Lu Yang said, "Send me the map."

De Bu tasted the body and sent the map he painted to Lu Yang. After zooming in, Lu Yang determined that De Bu tasted the body and found it in the same place as the guild that occupied the map in the northeast of the previous life.

"Very good. Just build a fortress in this place. You leave a person here, and the rest explore the south to find a map of the border with the south." Lu Yang said.

"Yes," De Bu tasted the corpse.

Lu Yang closed the speakerphone and returned to his seat to rest. An hour later, all matches in the second round were over.

In the third round, there are still many players qualified to participate in the game at this time. Lu Yang's style of play is still the same. Close-up is a stream, and long-range is a small number of infantry, a small number of cavalry, a small number of workpieces, a small number of small guns, a small number Multiple arms made up of witches and witches did not meet an opponent.

In three days, from the group stage to the final, Lu Yang finally met a master, South Korean player Li Zhenhuan.

Hundreds of guild leaders were watching the game in Horn's playing field. Lu Yang also knew about Li Zhenhuan. He was an old opponent in the last life. However, the two years Li Zhenhuan was strong in Lu Yang has always been His men were defeated, and each time they were Lu Yang first and Li Zhenhuan second.

The old opponent reunited, Li Zhenhuan took the initiative to come to Lu Yang, bowed with a smile and said, "Mr. Lu Yang, please advise."

Lu Yang smiled. This is where Li Zhenhuan is most lacking. It is modest and polite on the surface, but it is actually paralyzing opponents. This is a custom peculiar to these two countries near China.

The unique characteristic of the Huaxia people is that they are afraid of being respected by others too much. If you respect them, you will not easily play. Lu Yang once thought about this reason and found that the Huaxia people are because of the vast natural resources of Huaxia. This character was developed when the two countries were too scarce.

"Li Zhenhuan, but I am looking forward to playing against you, you are a good opponent." Lu Yang said.

Li Zhenhuan's eyes brightened and he said happily, "You praise, you are the master."

Lu Yang said sincerely, "You are also a good opponent."

Of course, he can't beat him every year, ranking second.

Li Zhenhuan didn't know that Lu Yang thought so, and thought that Lu Yang was really bragging about him.

Horn said: "The game is about to begin, please prepare for both."

Lu Yang and Li Zhenhuan no longer speak, wait for each other, after 10 seconds, the system prompts: Please select the match map

Li Zhenhuan chose the largest 8 player map.

“Wow, this is a wave designed to restrain Lu Yang.”

“Looking respectfully, I didn’t think about Lu Yang secretly.”

...

The players sighed.

Lu Yang laughed when he saw this map. He had long guessed that Li Zhenhuan would use this map. Li Zhenhuan was the master of this map in the last life, and he has hardly failed.

This is called a mysterious island map. There are a total of one main island plus eight islands. These eight islands are the starting point of the player. Even if the birth points of the two players are close, the distance is one and a half minutes, and a wave cannot be used. Flow to attack.

If it is far away, it will take 4 minutes to run past. This map is most suitable for playing 2v2 battles. It is also forcing single-player players to choose a later battle map.

“This battle is exciting.”

“Late battles are the best.”

“If it’s late, Lu Yang doesn’t have the advantage.”

“Yeah, the human race is mainly the early arms. Among the later arms, the druids of the Celtics are too fast to produce, and the eagle is also a low cost but very high arms.”

The Celestial is mainly based on the combination of druids fighting on the ground and eagles in the air. Druids can be transformed into a bear form, with 800 health points, 8 defense power, and 60 attack power. Can restore 400 blood recovery skills in 12 seconds than the adult form.

The eagle has no magic skills and no ground attack skills. It has only one air-to-air skill, only 500 health points and 2 defense powers, but it has more than 60 attack power. It only occupies 2 population units. The swarm is almost invincible.

If Lu Yang wants to fight late-stage violent soldiers, he must not use the gryphon knight group, otherwise, a wave of horned eagles can defeat Lu Yang.

From the start of the game to the present, Li Zhenhuan has never lost on this map, and often he is blasted by a wave of druids to push the enemy off the ground, or a wave of double-headed dragons and horned eagles pushes the enemy out.

Players from all countries in the world who have been watching the game know this thing clearly. They also know that Lu Yang has never chosen to play on this map. It can be almost concluded that Lu Yang will lose the first game.

Song Sisi stood beside Lu Yang and said, "It's really impossible. Give up in the first game and fight with him for the second and third games."

Lu Yang smiled and said, "You just have no confidence in me. Don't believe I can win?"

Song Sisi looked at Lu Yang in surprise and asked, "Do you have confidence to win?"

Lu Yang said: "You will know in a while, let you see a new play."

In the last life, there were only two people who could defeat Li Zhenhuan on this map, one was a German master sweet potato, and the other was Lu Yang.

It is also because of Lu Yang that the "Second World" official made a lot of changes to the game.

Game start.

Lu Yang's base appeared at the starting point on the left. All orders were the same as usual. Altars, barracks, and private houses were built, and a farmer went out to explore.

Players watched this game calmly, but just after Lu Yang built 3 private houses, everyone was shocked that Lu Yang actually stopped building private houses, and he only produced 2 soldiers. Instead of continuing production, the war mill was built next.

After Lu Yang led a wave of soldiers and pushed the monster at the gold mine next to the base, he immediately chose to build the second base. On the other side, Li Zhenhuan also made the same choice. Both sides opened the second base quickly.

However, Lu Yang's next move made it difficult for players from all over the world to understand. Lu Yang upgraded the base without building a second-level unit or a first-level unit, but instead letting farmers build arrow towers at home.

In the live room.

"Strange, what kind of play is Lu Yang using? Is he going to build a pile of arrow towers to defend his home?" The fat guest asked curiously.

Slim guests said: "There have been six entrances to the main base and six sub-bases. The trend has not stopped. What is he doing?"

Dubin said: "If Lu Yang has been building a defense tower, can he resist Li Zhenhuan's attack?"

The fat guest said: "This is impossible. In this game, there is a slinger dedicated to breaking the arrow tower. It can launch stones outside the attack range of the arrow tower. A single arrow tower needs a maximum of 12 shots."

Dubin frowned, and said, "Are so many arrow towers useless?"

Slim guest said: "It has a certain restriction on the early enemy arms, but it is only early days."

Just as Dubin and several guests discussed, Lu Yang had upgraded to a Level 2 base and produced a second hero hill dwarf.

At the same time, Lu Yang began to attack the three mines, or a group of militia and two infantry. In the case of the death of three militia, the three mines were killed and began to build a subbase in the three mines.

In the live room.

"Even opening the third mine, what is Lu Yang doing?" The fat guest scratched his head.

"The total population of the game is only 100. The more miners there are, the fewer people can fight. Lu Yang is not unaware." Slim guest said.

Hitomi said: "Will there be other new ways of playing?"

The three dubins scratched their heads. The game has been played for three days. They have seen all kinds of play. This is the first time they have played.

"Attention, Li Zhenhuan's druid was created, he is going to attack." Fat guest said.

Screen.

Li Zhenhuan released three druid construction plants and produced druids at the same time. Every 1 and a half minutes, three druids appeared. After finishing the transformation, 10 druids were built, and 6 were left. A tree demon.

Li Zhenhuan controlled the double 3 heroes and rushed to the door of the home with 12 druids.

Druids occupy a very large population, one to occupy 4 people, build 12 and use 40 people, while heroes need 3 people, 2 heroes use 6 people, and there are 10 elves in the family. Mining, 10 elves cut wood, 6 tree demon occupy 18 population, the total population is close to 100.

This wave of attacks is considered Li Zhenhuan's strongest attack power, and Li Zhenhuan's strongest lineup to win the game.

Li Zhenhuan was very satisfied with his development. He did not expect that Lu Yang had never attacked him once, allowing him to reach the limit in 20 minutes.

Li Zhenhuan: It was a happy fight.

“Boom ~”

Players were angered by this sentence of Li Zhenhuan. Before the game, they were respectful and polite, but they were bullied during the game. This is not consistent with the Chinese etiquette, and it is not in line with the Western chivalry.

Lu Yang: It was indeed a happy battle.

Li Zhenhuan: I'm here.

Lu Yang: I am also here.

When everyone felt angry, no one noticed that four tanks were built in Lu Yang's four steam workshops at the same time.

When the tank appeared, all players were stunned, and the commentators in the live broadcast booths of various countries were also stunned.

“Tank, what's the use of this unit? His attack power is so low!”

“I don’t understand why Lu Yang built a tank. Is it a meat shield?”

...

The tank’s hitting damage is only 10-20, but the tank’s health is 2000 points and the defense is 30 points. At the same time, the defense is still the wall armor. All the damage is halved. Point, siege damage also increases power by 50%.

Lu Yang’s play is to build a bunch of tanks to push out all the buildings of Li Zhenhuan. The game stipulates that once all the buildings on one side are destroyed, they are automatically determined to be defeated.

In the last life, when this game came out, it was amazing to everyone. Previously, Lu Yang could not beat Li Zhenhuan on this map. But when Lu Yang researched and bombed all the buildings in Li Zhenhuan’s house with 8 tanks, Li Zhenhuan Snoring.

In this life, Li Zhenhuan’s first level of participation has not reached the level as high as later, but Lu Yang does not want to destroy Li Zhenhuan a little bit, and decides to let Li Zhenhuan see this tactic in advance. If he can solve it, Lu Yang will be happier.

Soon, Li Zhenhuan’s troops came to the door of Lu Yang’s home base, but as soon as he was on the high ground, Li Zhenhuan saw 12 erected arrow towers and 6 turrets.

Li Zhenhuan: Why are there so many arrows and turrets?

Lu Yang: Specially prepared for you, try to come in?

Li Zhenhuan: I’ll go to your sub-base

Li Zhenhuan and his team ran to Lu Yang’s subbase. As a result, he sent a message silently.

Li Zhenhuan: The base also has 12 arrow towers and 6 turrets. What kind of play is this?

Lu Yang: Do you dare to push?

Li Zhenhuan really didn't dare to push. He didn't know how much Lu Yang's strength was. If Lu Yang also had a strength of 100 people and appeared when he attacked the arrow tower, wouldn't he be attacked by the front and back.

The attack power of an arrow tower is equal to the attack power of a tree demon. The defense is also the same as that of the druid. The turret damages 111 points. If he is pinched, it is equal to 100 population vs. 200 population.

But he didn't know that there was no soldier in Lu Yang's family, only 3 heroes. If Li Zhenhuan pushed hard, he could push away the sub-base, but he would pay at least 6 druids.

Li Zhenhuan was worried, but when he didn't know what to do, from the main base and sub-base of Lu Yang, four tanks were driven out at the same time, especially the tanks of the sub-base. Out.

Li Zhenhuan: Tank?

Lu Yang: Find a way to solve the tank, otherwise your home will be gone.

Li Zhenhuan's eyes widened in horror, he couldn't help pushing Lu Yang's subbase, and led the team to chase the tank mammoth.

But the tank is a wall armor, it is magically immune and cannot be slowed down. It moves slightly slower than the druid. Li Zhenhuan reluctantly besieged a tank along the way, but he could only watch the remaining 7 tanks rush into his tank. At home.

"Oh, my God, my God." Li Zhenhuan screamed in panic. Lu Yang's 7 tanks rushed to the front of the war mill and fired five artillery guns at the same time. The war mill was destroyed.

When he came to the base and fired five artillery guns at the same time, the base was half-blooded and the tank was shattered by two. Just when Li Zhenhuan breathed a sigh of relief and thought it could be blocked, four more tanks rushed in.

Li Zhenhuan watched the four tanks join, and together with the remaining five tanks, killed Li Zhenhuan's main base.

Fortunately, Li Zhenhuan still has a sub-base and 20 farmers, and the gold mine at the main base is almost gone, which is not a big deal.

However, Li Zhen was panicked. Lu Yang's nine tanks stormed the factory that made the druids. Four volleys and one druid factory was killed.

Lu Yang paid three tanks, and the Druid factory was completely gone. It took three minutes to build a factory, and it took only one and a half minutes to produce four tanks.

The tank continued to attack, wiped out the Druid factory, began to fight the barracks, and then hit the tree monster factory. Within 5 minutes, Li Zhenhuan watched as his hometown was pushed out by Lu Yang. Then, the tank rushed towards Sub-base.

Five minutes later, with three tanks left, Lu Yang exploded all the buildings in Li Zhenhuan's subbase.

System prompt: Lu Yang wins the battle!

The light flashed, Lu Yang returned to his seat, and Li Zhenhuan also came out, but he was a little dazed and stood still in a daze.

Song Sisi said in amazement: "Lu Yang, how do you think of this style of play, it is amazing."

Bai Mingyi touched his bald head and said, "Master, really master."

Song Yunyi said: "Admire."

Lu Yang smiled and said, "Three are ready to buy the fortress money. I promised before, 4 fortresses, I will keep one for myself, and the remaining three will be sold to you one by one."

"Enough," Song Sisi said.

"I'll tell them to pay you." Bai Mingyi said.

A fort worth ten million credits, which is a fairly high price, but now there are only so few fortresses. When there is no price in the market, Lu Yangken sells well.

Li Zhenhuan came to Lu Yang and asked curiously, "Mr. Lu Yang, how did you come up with this play?"

Lu Yang smiled and said, "You still have to think about how to crack my play. At present, I can't find a way myself."

Li Zhenhuan's eyes were firm and he said, "I will definitely find a solution."

Lu Yang shrugged his shoulders. No matter what Li Zhenhuan thought, he could not crack it for at least two years. After all, Lu Yang used this trick to pit him for two years.

Horn tip: The second game is about to begin.

Lu Yang asked Li Zhenhuan, "Is there a need to fight?"

Li Zhenhuan shook his head, but nodded again, saying, "Although I know I can't beat your wave, I still want to try."

Lu Yang smiled and said: "In this way, I will teach you a trick, and the Celestials have a different play Li Zhenhuan asked in surprise:" Do you also understand Celestial? "

Generally speaking, it is not bad for a person to understand a race.

Lu Yang smiled and didn't speak. Soon, the second game of the two began. When everyone knew that if Lu Yang chose Turtle Island, Li Zhenhuan would lose the game, but Lu Yang did not choose a human race. I chose the same clan as Li Zhenhuan, and it wasn't the turtle island at the beginning, but returned to the common temple map.

"What is this play?"

"I do not know?"

"Lu Yang actually uses the Celestial Clan, and it's not Guidao, so he won't use the routine of steady wins, why do he do this?"

"If he loses, a random map of the third game, in the case of Li Zhenhuan's strengths, Lu Yang is in danger."

...

Lu Yang didn't care about the talk of the people around him. He did it to make Li Zhenhuan grow up quickly.

Chapter 1036 - New World Fortress 1

The battle begins.

In the temple map, Lu Yang's birth point is below, and Li Zhenhuan is above. The two are far away.

The celestial tribe is also the elven tribe. This race is different from the original elven tribe. When building a building, the elf does not need to disappear, but needs to transport energy along the way.

At the beginning of the game, Li Zhenhuan had been building barracks and altars near the starting point, but at this time, the whole audience set off a marvel.

Below the map of Lu Yang, the altar was still built when the altar was built, but the barracks that can be built are 1,000 yards in front of the monster that divides the mine.

In the live room.

Du Bin said blankly, "Strange, what did Lu Yang build the barracks outside?"

Hitomi said, "Will it be to prevent Li Zhenhuan's sneak attack? But this is not like it."

The fat guest said, "It should be to prevent Li Zhenhuan's sneak attack. After all, using the Elven clan, Li Zhenhuan is a real master. He may be more stable."

The thin guest nodded and said, "It's possible."

...

The commentators and guests of various countries are also curious about this matter, and they do not understand what Lu Yang is doing now.

After one and a half minutes, the barracks was completed. Lu Yang ordered the production of archers. When the soldiers created two archers, Lu Yang's heroic demon hunter just happened to produce them.

The same is true of Li Zhenhuan. He controlled the demon hunter and two archers to go out to fight monsters. The family continued to produce archers.

"Li Zhenhuan really deserves to be a master, and he plays very well."

"The start was very solid, and Li Zhenhuan's hero will soon reach level 2."

...

At the time when commentators from various countries touted Li Zhenhuan, Lu Yang made a decision that made everyone feel crazy.

"I really don't know what Lu Yang thinks ... oh, no, everyone, look at Lu Yang, Lu Yang has a new game." South Korean commentator shouted frantically.

In the picture, Lu Yang actually let his barracks rise to the ground and turned into a soldier. On the front, he led a demon hunter and two archers toward the 55333 strange point near the gold mine.

Two level 5 monsters and three level 3 monsters, such a luxurious wild monster combination, players can not beat a large number of level 2 soldiers or a large number of level 1 soldiers.

Everyone who has played this game knows that it's very difficult for the Celtics to get started. The reason is that the Celtics' archers have little blood, low defense, or ordinary armor, and a small number of archers can't carry strange attacks. Daguai time.

For a long time, the player's idea is to start the hero of the demon hunter to resist the monsters, but when the demon hunter is at level 1, he can only resist 2 waves of 211 level mobs. After finishing these two moves to level 2, he must go home. Replenish health, and then go to fight 322 level monsters with the new creeps.

But this speed is very slow, 211 level monsters do not give equipment, only level 3 monsters are equipped, the higher the level of monsters, the better the equipment, can delay time to fight, upgrade is very slow.

Lu Yang has now developed a new style of play that allows barracks to resist monsters. Except for civilian houses and war mills, the buildings of the Celestials are living creatures that can attack and walk, but only at a slow speed.

In the live room.

Dubin watched Lu Yang's game excitedly and yelled, "I know, I know, Lu Yang will not let us down. He is a genius. The building of the celestial people moves slowly. He directly The thing was built in front of the monster. Haha, the building's health is 1300 points, the attack power is more than 60, the armor is 6 points, or the city wall armor, it is difficult for the monster to move. "

As Dubin said, there are 5 monsters in the 55333 level. They can hit buildings with all their strength, but they can't kill much blood. Demon Hunters and 2 shooters can safely output.

2 level 3 monsters killed, the demon hunter rose to level 2, a level 3 monster and a level 5 monster killed, Lu Yang rose to level 3, and then killed a level 5 monster, Lu Yang rose to level 3 and a half, and then A level 5 monster can be upgraded to level 4.

"In this way, Lu Yang is equal to a hero who lost a little blood, no waste of spring water at home, and no additional soldiers. He rose to level 3 and a half, which is equivalent to saving at least 300 gold coins, which is better than Li Zhenhuan's hero. One level higher, "shouted Dubin.

Li Zhenhuan's Demon Hunter is only level 2.

The commentators and guests from various countries can only be amazed and never dare to express any opinions. They just watched Lu Yang so quietly that the barracks stopped at the strange place and let the elf build the sub-base directly.

When everyone was most surprised, Lu Yang killed these 5 monsters and got a total of 3 items. The first was the boots of speed, the second was +12 attack claws, and the third was +6. Of attacking claws.

Demon Hunter is a melee agility hero. The most important thing is melee damage. Lu Yang 's hero starts by adding 18 points of attack power and speeds up monsters by 50. The selling price of these three things adds up to 2,000 gold coins. Daguai gave another 300 gold coins, which was equivalent to the sum of money collected by the mining elf in 5 minutes.

"I have a feeling that Li Zhenhuan has no hope of winning in this game." Du Bin said.

Hitomi asked, "Can you draw a conclusion now?"

Dubin nodded and said, "The two's understanding of this game is not on the same level, just like an adult playing a child."

Hitomi was surprised.

in the game.

Lu Yang took the demon hunter and 2 archers to fight the monsters. Relying on the high attack, he went straight to the level 322 monsters. After killing 3 waves in a row, he returned home. After returning home, Lu Yang controlled the demons. The hunter hit a monster in the shop area, and fortunately, an attack power plus 9 attack claws and a large blood bottle burst out.

With a pair of three paws and a pair of shoes, Lu Yang bought a back-to-city scroll and a big blood bottle in the store and ran to Li Zhenhuan's home.

At this time, Li Zhenhuan's hero was only more than 3 levels, which is far worse than 5 levels, but there are 8 archers of Li Zhenhuan who are preparing to kill 55333 level monsters.

The two met in the wild. At first glance, Li Zhenhuan saw that Lu Yang only had two archers and a hero with bright eyes, and immediately ordered the archers to slay Lu Yang's demon hunter.

But when he saw the level of the demon hunter in Lu Yang, Li Zhenhuan was a little hesitant. He thought he was upgrading quickly, but Lu Yang was two levels faster than him, which made him panic.

What made him even more panic was that he saw that Lu Yang actually had 3 attacking claws, not counting hero damage, and only 27 points of additional damage.

The hero's attack mode is called hero attack, regardless of the armor type of the minions, only related to the armor value.

Level 5 Demon Hunter's own attack power is 52 points, armor is 6 points, blood is 800 points, plus incidental attack power, a total of 79 points, which is equivalent to the damage of a top-level unit, and the attack speed is particularly fast. The archer shoots. With a single arrow, he can cut two knives.

The archer's health is only 245 points, the armor is 0, and the demon hunter has 3 swords. Li Zhenhuan quickly ordered the archer to retreat, but Lu Yang's demon hunter has shoes, and the archer has no chance to escape.

From the monster to the doorstep, Lu Yang's demon hunter killed all 8 archers of Li Zhenhuan. At home, Li Zhenhuan just produced a level 2 creep night hunter. He is a female rider riding a night leopard, throwing maneuvers. dart.

Lu Yang is still not afraid, and continues to attack, while Li Zhenhuan's demon hunter is afraid to fight with Lu Yang's demon hunter and can only attack on the side. When Lu Yang killed Li Zhenhuan's 3 night hunters in succession, Lu Yang's demon hunter joined together Jin Guang lit up to level 6.

Lu Yang laughed. He chose to learn to transform. At this time, the demon hunter had no blood. Lu Yang ate a big blood bottle to fill his blood and click on the transformation skills.

The dark light shrouded the demon hunter. The demon hunter who had previously attacked melee became a winged demon. The attack method became a long-range attack. The blood increased by 500 points and the blood recovery speed became 36 points / Seconds, the attack method becomes a chaotic attack, ignoring physical defense, how much damage is hit and how much blood, at the same time the attack becomes a range attack, the damage will be affected within 200 yards.

Li Zhenhuan's family has only a Level 3 Demon Hunter, 2 Night Hunters, and more than 10 buildings. Originally, Li Zhenhuan could rely on the buildings to resist it, but after Lu Yang turned, the buildings that hit the city walls were just like playing.

Li Zhenhuan wanted to repair the building with the elf and survived the transformation of Lu Yang, but the elf was close to the building and was injured. The elf with only 50 points of blood was killed twice after being affected.

In the face of this situation, Li Zhenhuan reluctantly typed two characters of gg and chose to admit defeat.

The system prompts the end of the battle and Lu Yang wins!

The light flashed, Lu Yang returned to his seat, and Song Sisi and Bai Mingyi stood up and congratulated.

“Pretty.”

“The winning is so beautiful.”

...

Lu Yang smiled and arched them. Soon, Li Zhenhuan came over. Instead of being angry, he bowed deeply to Lu Yang and said gratefully, “Thank you for teaching me this game.”

This play is too important for him, it is equivalent to opening a window for Li Zhenhuan, giving him more flexible and changeable tactics.

Lu Yang said, “Come on, I am optimistic about you, you are a master.”

Li Zhenhuan asked, “Chairman Lu Yang, are you still looking for someone? I want to work there.”

Lu Yang’s eyes brightened and he asked, “Are you not in the contract?”

“No, this time I just participated in the competition for someone, without any contract, I am a free person.” Li Zhenhuan said.

Lu Yang laughed and said, “Okay, if you’re here, we’ll take one or two in the future.”

Li Zhenhuan smiled shyly, bowed and said, “Please enlighten me a lot.”

The players around were all foolish, and no one knew that Li Zhenhuan had no contract. He thought that Li Zhenhuan had already been signed by a South Korean company, and there was no such thing.

The South Korean guildman came angrily and pointed at Li Zhenhuan and cursed, "I gave you a chance, and you left without paying me back, you traitor."

Li Zhenhuan lowered his head, his face full of shame.

Lu Yang stood in front of Li Zhenhuan and said to the Korean guild president, "Now it has entered the international era. Don't mess with your populist ideas. Edward can help Landing sack Britain, and Schneider has Africa sacking Germany. No one in any country has called them two traitors. Why did Li Zhenhuan become a national traitor without helping you? "

Regarding what Liu Jie and Tianyan Alliance did, after being told by Lu Yang, players from all countries gradually understood, but German and French players did not take Edward and Schneider and others, they still played their own games.

Originally, Li Zhenhuan was a little apologetic. He heard Lu Yang's words and relaxed.

The South Korean guild president still looked angry, pointing to Landyang and saying, "That is also a matter for us Koreans and has nothing to do with your Chinese people."

Lu Yang reluctantly said, "This is your fault. Whoever asked you to do this, you did not sign a contract with Li Zhenhuan, ready to use him for free. He won the construction rights of 3 forts for you, one The fortress is \$ 2 million. How much do you give him? "

The guild president of South Korea was speechless.

Lee Jin-hwan said, "30,000 won per game."

Lu Yang sprayed, the guild leader of the audience was shocked.

“Isn’t this too much?”

“You can still pull to this extent.”

...

30,000 won, 1 US dollar is 1,121 won, 30,000 won, only 30 dollars, the guild presidents of all countries almost swallowed the South Korean guild president.

Park Ren-yi said in annoyance that Lu Yang and Li Zhenhuan cursed, “OK, okay, okay, you wait for me.”

Park In-Yi left.

Lu Yang said to Li Zhenhuan behind him, “Immediately bring all the family members to Donghai City in Huaxia. Do n’t bring anything. I will transfer you one million US dollars. I will send you two sets of houses. After that, I will pay 100,000 a month and transfer to I play the game and get a fortress. I’ll give you \$ 500,000 and go. “

During the talk, 1 million US dollars arrived, Li Zhenhuan looked at Lu Yang in shock and said, “So much money.”

Lu Yang said, “Stupid boy, you’re worth the price, don’t delay time, bring your family over, Park Renyi won’t let you go.”

“Oh, I’ll leave now, take nothing.” Park Renyi immediately quit the game and took his family to find Lu Yang.

Song Sisi said to Lu Yang: “Great, decisive, not at all obsessed, admire.”

Bai Mingyi smiled and said, “Congratulations to Brother Lu Yang, I got a member.”

Lu Yang laughed and said, "Okay, okay."

With the popularity of this game, more and more people will participate, and soon a large number of guilds will join this game. At that time, when divided into two groups of ab games, the role of Li Zhenhuan will appear.

Horne walked in front of Lu Yang and said, "You guys, you did a good job. You are a master of fortress wars. I give you permission to build 4 fortresses in the wild."

Lu Yang shook his fist and said to the three of Song Sisi, "Take the money."

The three of Song Sisi happily gave Lu Yang 2 million US dollars, and Lu Yang gave them three fortress places.

The light flashed, Lu Yang returned to the northeast of the map under the Chiyang Mountain, and White Lion and Xia Yuwei were waiting for him.

"Boss, the winning is so beautiful." Xia Yuwei said excitedly.

Lu Yang smiled and said, "Let's go and build a city."

"Um." The crowd nodded.

The location of Jiancheng has been marked on the map, and Lu Yang took everyone to the junction of the northeast and the northern Shangan.

You are prompted to find Tianjian Mountain

De Bu tasted the corpse and came to Lu Yang, pointing around and saying, "Here is the map I sent you before."

Lu Yang looked around, Tianjian Mountain was located in a tall mountain, just here is the gap at the end of the long sword.

The left and right sides are blocked by the massive cliffs. Only the front and back sides can attack. If a fortress is built here, the north and northeast can be cut in half.

Lu Yang said, "Just build here."

He chose a field fortress, determined the construction point, the light flashed, and the outline of a field fortress appeared.

Are you sure you want to build a Wild Fortress here?

Lu Yang chose OK.

The system prompts how many bricks are needed

...

A series of system problems are all about building fortresses. Germany has already sent some people to measure before deceasing the corpse. Lu Yang told the system one by one. Soon, the system began to build fortresses for Luyang.

The time required to build a fortress is half a month. During this period, the strongest fear of the fortress is being attacked. Lu Yang said to everyone, "In the future, our task is to protect the fortress from being attacked."

Everyone nodded.

Tu Feng said, "Boss, the remaining forces in the northeast region have been identified. At present, there are six enemies, each of which is Park Ren-yi next to us."

Lu Yang was happy and asked, "Where is Park Renyi."

Tu Feng pointed at the map and said, "It's less than a day away from us."

Lu Yang said, "It looks like I need to find a way to kill him, and take some of his strongholds by the way."

Tu Feng said, "I'm afraid you have to kill another enemy next to you."

"Who?" Lu Yang asked.

Tu Feng said, "Li Rongde Li Rongde?" Lu Yang frowned. He was familiar with the name but couldn't remember it.

Tu Feng said, "This Li Rongde is a mixed race. The family does business in Japan, South Korea and Huaxia. They eat fast at the top of the three countries. Li Rongde himself is a member of the new generation of the family. I found in the investigation that he received Unknown funding, the family also invested a lot of cash, although the purpose is unknown, but it is likely to be against us. "

Lu Yang remembered who Li Rongde was. The big traitor Li Rongde from the previous life secretly funded him with several Japanese consortia and South Korean consortiums. Although Japan and South Korea were fierce on the surface, some people found that it was very confusing. It is surprising that the older generation of the Korean consortium have gone to live in Japan after retirement.

These people are likely to be foreign members of the Freemasonry of the United States. Actually, Freemasonry is a group of Christians. The English translation of Freemasonry is the Stonemason Union, which is a terrible organization in the United States so far. .

There is ample evidence that Kennedy, one of the most popular presidents in the United States, was assassinated by this organization.

Chapter 1037 - Potion recipe

The assassination scene at that time was very incredible. Kennedy was shot in a convertible under the ***** of the army and accompanied by the Governor of Texas when he passed a square.

To add one more topic, it is astounding that Ken [Ne] was elected to the presidency at that time with the help of the boss of the American underworld organization at the time, and in the decryption of later generations, one of the Freemasonry seniors had a 2 The father of the first-class family on the day of Kennedy 's election as president, watched the TV and told his children that Kennedy 's ca n't finish the session and he will be punished.

Sure enough, Kennedy was murdered three years later, and the gunman was quickly arrested. Then something even more incredible happened. When he was taken from the police station to prison, the gunman was shot dead by a tavern owner.

Then, the committee investigating the incident stated that the incident was entirely a personal act of the bar owner, and that the gunman who killed Kennedy was also a personal act, and the case was closed!

If this matter ends, no one will die, and some people will believe that in the next three years, 18 people, including the bar owner, will be dead.

The most incredible thing was the death of Kennedy's brother. After Kennedy's death, the vice president asked Kennedy's brother if he would run for the next president.

Brother Kennedy Di said that it was necessary, and then Brother Kennedy died!

And then, the most famous incident is that 18 years later, Ken [Ni] Di's eldest son crashed with his head down while he was standing up.

This is a thing that makes everyone crazy. Anyone who has seen the aircraft knows that if there is something wrong with the aircraft, or if the propeller fails, the aircraft will crash and crash. But Kenney's son's plane it crashed with its head down, demonstrating that it had been beaten down.

But the investigation results of this incident still crashed naturally!

From these incidents, it is enough to see how terrible the Freemasonry is. Many people in the last life suspected that Li Rongde's identity as a traitor was wrong because he was not only Japanese but also Korean. The richest people in these two countries can raise funds for one person, obviously only the United States can do it.

Lu Yang has some thorns in his back. He doesn't want a Masonic person in his yard. Even if Masonic wants to enter this game industry, Lu Yang does not refuse, but it must not be within his territory.

He patted the table and said: "This Li Rongde must be taken out of the Northeast region, and he will not be given any chance for development."

Tu Feng said: "I'm afraid it's a bit difficult. Li Rongde recruited at least millions of players. Those who can enter this continent are all level 100 and above. We have no advantage in playing them now, and we may not be able to destroy them.

Lu Yang nodded and said, "It looks like we need to make a plan."

At present, the ranks of the Jagged Brothers League are very chaotic. There are people from level 100 to 120. The equipment is also ordinary gold equipment. It is not easy to defeat a guild of several million people in this situation.

Lu Yang said, "You upgrade around here, I'll go out."

Putting on a flying carpet, Lu Yang flew towards the northernmost point in the northeast of the map. At the northernmost point of the New World, there was an ice field.

Three days later, Lu Yang flew to the place. Here is an ice field. There is a small town on the grassland near the ice field.

Lu Yang fell into the small city. There were many players in this small city. When everyone saw someone coming on a flying carpet, they all knew that Lu Yang had arrived, and they watched Landing Yang one after another.

System prompt: You found Rose City.

Ross City is the capital of the Ross people. This city is not big. According to official records of the game, the Ross people are in war. Their enemies are kings of another capital known as Death.

The king had a burning hammer in his hand, and every time he killed an enemy, he would take one's soul into the hammer and increase 1 spell damage.

The king is currently engaged in a war of conquest, and his purpose is to wage war from north to south, step by step to conquer all human beings in the territory.

In the New World, there are more than 60 conquerors like this, each of which is a level 200 demigod.

The game has arrived in the new world, and there are creatures that surpass the lord level monsters. They are demigods. They have the blood of other gods, each of them is powerful. If someone can kill them, they will drop the demigod or artifact.

Each of these artifacts is a finished product. Players who get a set of artifacts are really as powerful as gods in this game, and no one can pose a threat to them.

For example, the giant axe of the physics department-Destroying the Eight Wildlands, each swing is accompanied by a gust of wind, and the damage of the gall alone is enough to make it difficult for players in the same level to wear an excellent gold suit.

Lu Yang really wanted to get these magic soldiers, but he knew that there was no chance for the time being, he had to wait for the future, but now he has a chance to get an artifact, called the potion secret.

The secret book contains the 18 best potions below level 160. To get this potion, you need to undertake the task of protecting the Ross.

In the eyes of everyone, Lu Yang came to the town hall of the small town and found the city's owner, Anolis.

"Young man, would you help us guard the town?" Anolis frowned.

Lu Yang said, "I'm willing, what can I do for you?"

Anolis said: "Find a way to find the moon gate in the ice, tell me his location, and I will give you a generous reward."

System prompt: Look for the moon gate in the ice.

Lu Yang accepted the mission, put on a flying carpet and flew out. Just after Lu Yang left, countless players sent the news to the president of their respective guild. One Indian player reported the incident to Tianlong.

"What, Lu Yang dared to come to my area?" Tianlong was furious. The fortress had lost the battle before, and his guild did not have a fixed residence, which annoyed him. He blame Lu Yang on his responsibilities.

"Where did he go?" Tianlong asked.

"Flying towards the north, we can't catch up with him." His men reported.

"Follow him," Tianlong said angrily, and he called his men, saying, "Send the elite team to kill Lu Yang. He must kill him."

"Yes," said the player named Shura.

This is a team of 1,000 Templar knights, 1000 wind laser shooters, 1000 space mages, 1000 space thieves and 1000 healings. These people usually upgrade together. Every 5 people are a team and have already cooperated. More than half a year.

In fact, if the special professions and player skills of Indian players are counted separately, they are not much worse than Huaxia, but there are more Indians, and the gap between rich and poor is too great. High castes are superior to low castes, and low castes are never eligible to marry high Miss rich caste, without theory you are so rich in the low caste, you just have no social status and you are looked down upon.

Therefore, under such circumstances, especially in the context of India's increasing internationalization, more and more low castes have begun to resist this system, and one of the ways they have resisted is to destroy the superiority of these high caste people One of the ways is to destroy the guilds established by these high caste people.

The reason why Tianlong can still be the president when all 48 main cities in India have been slaughtered. This guild has not been destroyed because the guild was established by a high caste family, and ordinary players in the guild have no money. Of the lower castes, they have no ability nor money to resist Tianlong.

But within them, someone has established a new small guild called the Smasher Organization, the leader of which is called the Beast Owner, which means destruction and rebirth in Hindi.

The sponsor of this leader happens to be named Xue Yiming!

"Boss, the beast owner called and told me that Tianlong sent 5,000 of the most elite troops to hunt you down, all members of the high caste, you must be careful." Xue Yiming called and said.

Lu Yang smiled and said, "This Tianlong is still very vengeful, I know."

Turning off the intercom, Lu Yang continued to move forward. In his eyes, Tianlong was not worth mentioning. If the two guilds fought, Tianlong would not be able to support it for a long time, because these traitors would help Lu Yang kill him. .

System prompt: You have found a place of ice

Lu Yang looked around. He had entered a snow-covered ice field, which was already the Arctic of the New World.

In the last life, no one came here for a long time, because there were snow and snow everywhere. Once the snowstorm was blowing, nothing could be seen clearly, and it was easy to get lost. Once you got lost, there was only one way to commit suicide!

But then someone found a way to get lost. Look at the stars in the sky. When the night falls, the snowstorm will stop for one hour. The player can follow the instructions of the stars during these two hours.

Lu Yang was just now when the storm stopped, he walked along the stars in the sky toward the northeast.

When he was young, a snowstorm fell in the sky. The heavy snow that lasted for two hours covered Lu Yang with snow.

While Lu Yang was resting in the snow, the player's shouts appeared not far away. Lu Yang heard the sound about 500 meters away, but there were many people.

At this time he was sitting under a tree, covered with snow, and he opened a small hole, looking forward, and found that Tianlong had brought someone up after him.

"You can find here, there are talented people." Lu Yang muttered to himself with a smile.

"Damn, he must be in this direction. He won't go too far. A team of five people will find him." Shura shouted.

He found it based on the information he had searched before, but the road ahead was blocked by a snowstorm. He couldn't find it. He could only go here. He suspected that in such a snowstorm, Lu Yang could only find it here.

Lu Yang quietly hid in the snow, watching Shura step by step. Shura himself is a paladin with blood power. He has three instant blood addition skills, as well as magic immunity and physical immunity skills. He cannot kill in the short term. Fuck him.

If the other person is not too many people, Lu Yang does not mind killing Shura, but with so many other people, Lu Yang does not want to find death and hides in the snow to continue resting.

Shura took 4 people to the vicinity of Lu Yang. They happened to find the same place as Lu Yang and stood in front of Lu Yang's snowdrift to rest.

"Damn, this snow is so big, I don't know what Lu Yang is doing here?" A player cursed.

"It must be looking for treasure. I suspect he has got the exact location of the potion secret." Shura said.

"Then we must kill him, we can't let him get the potion secret, but this is found in the range of our map." Another player said.

"In fact, killing him or not killing him is the same. Anyway, the boss has reached an alliance with Li Rongde and Park Renyi. When Li Rongde and Park Renyi build a fortress, it is equivalent to blocking Lu Yang's road to the north, and we will unite again. Several other guilds attacked on three sides, and Lu Yang lost. "The first player to speak said before.

Shura also spoke freely, saying, "That 's what I 'm telling you. A mysterious organization has recently appeared in various countries. They are collecting a large number of artifacts. Lu Yang only collected 16 artifacts in Huaxia, but the total number of artifacts is 40. Many, the rest are in their hands, look at them, these people are about to start with Lu Yang. "

Lu Yang frowned. This secret organization he had heard of in the last life was dedicated to stealing artifacts from various countries, but they were not a guild, but a studio formed by a group of experts.

Artifacts are the foundation of a guild. Lu Yang cannot allow outsiders to steal his artifacts. He sent a message to Tu Feng and said, "Gather all artifacts together for now, don't let players take them out."

"What happened?" Tu Feng asked.

Lu Yang told Tu Feng the words of Shura, saying: "Our people are very busy right now. If the other party has a mental calculation and is unintentional, it is likely to fail, and it will be a big loss if the artifact is broken."

"Okay, I'll take it back." Tu Feng called all the people with artifacts in the simulation group and ordered them to return to the Chiyang Mountain base immediately.

Lu Yang continued to stay in place and wait. Shura and others have been standing beside Lu Yang for 2 hours. When the snow stopped, they continued to search forward.

They all left, such as Lu Yang and Shura, summoned the flying carpet to fly to the sky, and quickly flew forward. Soon, they found Lu Yang and chased tightly below.

The two parties chased all the way. When the next snowstorm came, Shura could only stop, but Lu Yang did not stop, because he had found the Moon Gate, which was on an icy lake.

It is also very easy to open the moon door. This is a number game or a fixed number game. Lu Yang has seen this information in the last life, so he easily completed the number game.

The Moon Gate glowed blue, and Lu Yang stepped in.

System prompt: You found the Temple of Ross

Lu Yang found himself in a large hall. The palace was very large. There was a statue of a **** in the center of the palace, which was the medicine **** believed by the Ross.

Under the medicine god, there is a girl and six statues. The girl looked at Lu Yang and asked curiously, "Are you a human from outside?"

Lu Yang smiled and nodded, and said, "Yeah, how about you, are you here for the sacrifice?"

The girl was only sixteen or seventeen years old and nodded and said, "Yes, can you tell me what the outside world looks like, I have been here for 16 years, so lonely."

Lu Yang smiled and said, "Of course."

At the moment, Lu Yang was not in a hurry, sitting on the steps of the main hall, telling the girl who was hiding near the clay statue in front of him about the outside world, 50 meters away.

Fun stories, beautiful scenery, compared to this lonely world, although the outside world is complicated, it is so charming.

As the two were chatting, footsteps rang in the distance, and the girl quickly stood up and said to Lu Yang: "Come here, my aunt is here, you can't let him see you, or you will die."

Lu Yang said: "There are six 200-level boss statues in front of you. I used to be dead."

These 6 statues are all 200-level rare elites. At this stage, Lu Yang can't beat at all, and he will die when he touches the edge.

The girl quickly said to the six statues: "You must not hurt him or tell your aunt that he is here. This is my order and our secret."

The six statues nodded mechanically at the same time and stopped speaking.

"Come here," the girl said anxiously.

“flicker”

Lu Yang stepped next to the girl and said, “Where shall I hide?”

The girl pointed at the room next to her and said, “Hurry in.”

Lu Yang hid inside the house. Not long after, footsteps approached, a majestic voice of a middle-aged woman appeared.

“Her Royal Highness, do you see any strangers coming in?”

“No, aunt.”

“If you see them, stay away from them. Outsiders are dangerous.”

“Good aunt.”

...

Footsteps went away.

The little girl ran in happily and said proudly, “Haha, my aunt was cheated away by me.”

Lu Yang smiled, stretched out her fingers and knocked on the little girl’s head, saying, “So naughty, don’t lie to your aunt.”

The girl dismissed Lu Yang’s hand with dissatisfaction and said, “It’s not to save you, nor thank me.”

Lu Yang said with a smile: “Thank you for your life-saving grace.”

“Women? What is that?” The girl asked curiously.

Lu Yang smiled and explained the girl of Huaxia to the girl. The girl learned that the girl was such a powerful person and said excitedly, “I want to be a girl too.”

“But you can’t afford to stay here,” Lu Yang said.

“Then you take me out, I want to fight for justice,” the girl said.

Lu Yang said, “That won’t work. If it was discovered by your aunt, wouldn’t I be dead? After you run out and run away, I can’t find you, and your aunt finds me, I’m still dead. , Inappropriate. “

“Why are you like this? Take me out. I can’t follow you.” The girl has a beautiful face. Although she is alien, she is very attractive.

This is also the key to this task, the purpose is to trick the little girl out of the underground palace, because this girl is the potion secret.

Chapter 1038 - New World Arena

“Okay, then I’ll take you out.” Lu Yang ran to the door with a little girl while no one was around.

As soon as he went out, Lu Yang found that Shura appeared in the distance with an elite unit. He said to the little girl, “Can it be turned into a book? Otherwise, we can’t run away.”

“Of course.” The little girl jumped into the air and turned into a purple book.

Lu Yang took the book and wrote four big characters, the potion secret.

“Summon Flying Carpet”

Lu Yang said in his mouth that a magic flying carpet appeared at his feet and took him into the air.

Shura’s eyes lighted up when he saw the Moon Gate, but he saw that Lu Yang actually came out of the Moon Gate.

“Catch him,” shura shouted.

At the same time, the little girl left the ground palace, and the ground guard also found the problem, and more than 100 elites of level 200 rushed out.

“Release our princess.” The Clay Monster shouted with a sledgehammer.

Lu Yang quickly controlled the flying carpet to fly into the air and shouted to Shura, “Brothers, help me to block these elite monsters, we will meet in public.”

Shura was yelled at by Lu Yang’s words, and he quickly looked behind him, thinking that Lu Yang was carrying an ambush, but he looked back and found no one, and then he knew that he had been fooled, looking at the higher and higher Lu Yang. , Scolding “Who is your accomplice.”

“Damn, kill that **** accomplice and get back the princess.” The Clay Monster Lord roared, and rushed towards Shura with 100 Class 200 Elite Clay Monsters.

Shura ’s level is only about 100, while the other is 200. The difference between the two is just like a level 1 trumpet and the other is a level 100 monster, which can’t bear even a hammer.

“Run fast.” Shura rushed to the back and ran away, but they had rushed to the Moon Gate 50 meters. At this time, it was too late to run again, and was smashed by the sledgehammer in the hands of the clay monster.

Half an hour later, Shura ran out of the clay monster’s attack range with the remnants, and when he integrated the troops, he found more than 1,000 people.

“Lu Yang, I won’t let you go.” Shura roared.

Lu Yang had already flown a long distance at this time. Two days later, he returned to Tianjian Mountain. At this time, the fortress was basically completed, and the outline of the outer wall had come out.

Standing below the fortress walls, the fortress walls more than 50 meters high require people to look up 90 degrees to see the city head.

A large number of Jagged Brother League players are defending and fighting at the door. Sun Yu, who is on duty, sees Lu Yang and rushes over and says, “Boss, you are back.”

Lu Yang nodded and said, “What’s the situation today?”

Sun Yu shook her head and said, “No one came to attack.”

Over the past few days, Lu Yang has met with a group of vice-chairmen every night. News about the surroundings has gradually opened under Tu Feng’s Jin Yuan offensive.

First of all, Lu Yang’s closest enemies were Park Renyi and Li Rongde. They each established a base in the Black Iron Mountain 30 kilometers away. Park Renyi built an important place 30 kilometers away from the side of the Black Iron Mountain. Wild fortress, but he only built one.

He obtained a total of three fortress manufacturing rights. According to the information obtained by Tu Feng, one of the other two was given to American players and one to Ono in Japan, but neither was in Lu Yang. Liu Jie also had a fortress. He also made it to the top 10.

Lu Yang said, "Continue to guard, we will have a lot of potions appear these days, beware of enemy sneak attacks."

"Um." Sun Yu Zheng focused his head.

Lu Yang entered the fortress. Although the fortress was not built well, the internal facilities have gradually improved.

He found the Song of Blood and Fire Pharmacy Store opened by Jin Buhuan. So far, the relationship between Lu Yang and Jin Buhuan has not been disclosed. Outsiders only assumed that Lu Yang unified the national service and started more cooperation with Jin Buhuan.

It is still a 6-story high-rise building, the 4th floor of a pharmacy store, and Jin Buchang waited there. Just now Lu Yang told him that he had something to discuss.

Footsteps rang, and Jin Buhua heard Lu Yang's voice. He stepped forward and asked, "Boss, so urgent?"

Lu Yang took the potion secret and transformed it into a human form. He said, "This is a little girl in purple clothes. I gave her a name. She knows a lot of recipes. You can record them."

Ziyi was very satisfied with the name and said proudly, "Remember, the formula of Dongquan is ..."

There are a total of 6 most significant potions below 160. The first one is to increase the magic damage potion and increase the magic damage by 10.

At present, most mage players have magic damage of about 80,000. With this potion, it is equivalent to adding more than 8,000 magic damage. It is very effective to blame players.

The second potion recipe is a defensive potion, the effect is to increase the defense power of 10, the third potion is a physical potion, to increase the physical strength of 10, the fourth chapter is an attack potion, to increase the physical damage of 10, the fifth and sixth are Poison Mist Elixir, reducing target 10's physical and magic resistance.

Jin Buhuan wrote down the six potion formulas with excitement and said to Lu Yang, "Boss, this formula is too powerful."

Lu Yang said, "Let your pharmacist make a lot, and at the same time you use this potion as a knocker, and find a way to enter other forts."

"Okay, let me try," Jin Buhuan said.

If you can use Jin Buhuan to enter other fortresses and use Jin Buhuan's contacts to probe information, it will be easier for the overall development of the guild.

But it's easier to detect these news than Jin Buhuan, but the fiancée Qing Qian Zimeng who shot Sirius. At present, Qing Qianzimeng operates an Internet cafe.

In fact, it is also an entertainment venue mainly for performing on the Internet. Players can transfer to this Internet Café and watch the performance on the Internet.

All are in a virtual environment. Players can watch beautiful women without any worries, and the beautiful women enter the game with real looks. The two sides can interact, chat, or just watch talent shows. If you like, you will be rewarded. No I can change rooms at any time, and there is no compulsory shopping or explosion.

This is the idea that Lu Yang gave him. Lu Yang injected funds behind the scenes, so that Qing Qian Zimeng collected beautiful girls from all over the world. Their fixed salary is 10,000 credit points a month. If there is a reward, they can be divided. At present This is the first month.

Lu Yang will stay with Jin Buhuan and let Jin Buhuan send someone to collect herbal refining and pharmaceutical preparations. He uses a special space to connect to the light purple dream.

"Boss, what's the matter?" Qing Qian Zimeng asked.

Lu Yang asked, "The fortress on the side of Park Renyi is about to be built. Are our celebrities settled?"

Qing Qian Zimeng smiled proudly and said, "Today is the first day of business. Park Renyi came in person, or was he the one I received."

Lu Yang smiled and said, "Great."

Qing Qian Zimeng said, "The boss is still awesome, and he is willing to spend so much. This is a matter of giving money. These girls in South Korea are starting at 20,000 a month. None of them live in a live studio and are afraid to lose it. A job. "

At present, the minimum monthly salary in South Korea has changed from more than 9,000 credit points to more than 7,000 credit points. Even so, many Koreans are still unemployed, and the younger generation of South Korea is tired of seeing each other after connecting with the world. People work in a bowing environment, and they don't like life from nine to five.

Lu Yang asked Qing Qian Zimeng to bring people to South Korea to recruit, and soon recruited a large number of very beautiful girls. It is true that many girls are cosmetic, but as long as they are beautiful.

"Let me know, who has Park In-Yee fancy?" Lu Yang asked.

Qing Qian Zimeng said, "He doesn't seem to like a specific person, but he likes chatting with college students and prefers to watch Korean history, especially in the Tang Dynasty period in China. I can't remember what it is called. , But a man carrying three knives on his body. "

Lu Yang was happy and said, "Is it called Yuan Gai Suwen?"

"Yes, that's the name." Qing Qian Zimeng said.

Lu Yang said, "Find me three obedient Korean girls, and then go to a Korean university to find an expert who specializes in Yuan Gai Suwen."

When Qing Qian Zimeng watched Lu Yang, he couldn't help but open his mouth and said, "Boss, what are you going to do?"

Lu Yang laughed and said, "This game has entered the next stage, called the Deer Central Plains stage. Who can be the hero, who can live to the end."

The game has arrived in the new continent, and it has entered a very horrifying period. Look at the enemies around Lu Yang, the African Legion of the Sky Eye Alliance, the three Freemasonry regiments, and the American Consortium that injected Tianlong, the Colombian Consortium, and Russian Rubies alliance.

Not to mention Lu Yang's use of means. Now countries have begun to use him. Li Rongde is the first move. As for whether he has inserted spies inside the guild, Lu Yang cannot find out. If he does not use means, it is only a game. , These people around can not even eat his bones.

Qing Qian Zimeng didn't know enough about Lu Yang before. This time, a sudden and indirect command such as Lu Yang made her hard to calm down and said, "Okay, I'll find it."

Lu Yang said, "Except for you, don't tell anyone. It's a top secret task, you know?"

"Boss rest assured, I must keep it secret." Qing Qian Zimeng said.

Lu Yang nodded and withdrew from the special space. What he can do now is done, and the rest is waiting.

He sent a message to the White Lion, Half-Life, Tianyao, and others, saying, "Let go of your work and prepare to come and fight me with a copy of level 100."

Level 100 is the level of most players in the Jagged Brothers League. Starting from today, with these potions, Lu Yang is preparing to lead a team to open up wasteland copies and quickly equip his men.

Soon, White Lion, Hei Yan, Zhuo Jiu, Xia Yuwei and Mu Feng were all here. Jin Buhuan also sent 300 bottles of the first batch of medicine.

Lu Yang distributed the potions to everyone, and took them to mounts and ran to Qasim Arena.

Casim Arena, one of the many training grounds for mankind's counterattack on the New World, the official explanation of the "New World" is that human beings have cracked the coordinates of the New World. In order to completely eliminate the so-called gods of the New World, a large number of top-level combat forces are sent New World, trial here, then counterattack.

The gods of the New World knew this. For these humans, they disdain to kill. Only a few lower-level gods believed that humans violated them and sent troops to besiege.

When the two sides were at war, no one could put the other side to death. During the armistice, in order to reduce casualties, the two sides decided to use an arena to allow the personnel of the two sides to fight in the arena. The losing side retreated. The winning party stays.

When Lu Yang brought people to the arena, there were already many Iron Brother Brothers players and casual players.

There are many such arenas in the game, but players still like to go to the area managed by the Brotherhood of Iron Blood, because Brotherhood of Iron Blood does not casually kill people, and does not rely on people to rob others.

"Boss is here."

"The president of the Jagged Brotherhood is here!"

...

The surrounding players automatically made way for Lu Yang to walk in front of Arena Commander Saldos.

"Hi Commander, I want to challenge creatures from other worlds," Lu Yang said.

"You?" Saldos looked at Lu Yang and said, "I've heard your name in the old world. It's good. You are welcome to join the challenger. If you can win, I will give you a reward."

You are prompted to accept the challenge. Please select difficulty.

Lu Yang did not hesitate to choose the difficulty of the nightmare. For half a lifetime, they seemed to know it for a long time. No one disputed Lu Yang's choice.

"It turned out to be a nightmare difficulty. We dare not even challenge it?"

"I am the president of a guild. Can I compare it?"

...

The voices of players around him came, but Lu Yang didn't seem to hear them, saying to the players around him that "except for regular equipment, all special items must not be carried."

"Eh?" Everyone, including half-bitter lovers, was surprised.

Sun Yu asked, "Boss, can't my flying feather chariot be used?"

Lu Yang smiled and said, "Of course, we are not allowed to carry it. This time we are to show our brothers how to play and wear good equipment. How can the brothers learn how to play with us?"

"Uh, yes," Sun Yu said.

Xia Yuwei, they had no objection, followed Lu Yang into the copy.

The light flashed and everyone entered the arena, which is a circular arena with a diameter of about 200 meters.

In the stands of the arena, one side is the three races of the old road, and the other is a race of another world, including various demons and monsters.

A host flew to the middle of the venue and said with a heated voice, "Welcome the new warriors to challenge our gods in the other world. In the first level, what you want to challenge is our elite demon in the other world, the power demon 咚 Barra, poisonous mist Both magic and poison. "

The door to the side of the arena opened, a dark green body, 5 meters tall, holding a huge tomahawk, and a demon with a fangs in his mouth stepped out. His body was very long and had four legs.

咚 para (lord)

Level 100

Qi and blood 50000000000/50000000000

"Strange, why is there only one?" Bitter Ai asked half a lifetime.

Lu Yang shook his head and said, "Play this first. Let's try it out in the first game and see how to play it."

A lot of people have started to try the first level, and there are a lot of materials reported to them, but they have never had difficulty in nightmares.

The axe smashed by the barbarian in the hand, and a vigorous voice came, "Humans, you dare to desecrate the gods, I will let them taste the wrath of the gods."

The system prompts the start of the war.

Lu Yang shouted, "Xiao Liang and Zhang Zibo met the blame. Everyone fought around him and attacked his eyes from a distance. There was his weakness, which would cause 25 times of critical strike."

Normally it is 2 times the critical strike, and the attacking eyes will be 05 times more critical strike. However, in the normal mode, the player's attacks are dozing Bara's limbs and will never hit the eyes.

Only in the free mode, you can be free. It is not so easy to hit the eyes in the mode, it will move when you blame the attack.

But who is this group of people in front of? They were the most elite group of the Jagged Brothers Alliance. Sun Yu's 30 shooters and Hei Yan's 30 mages figured out in 10 seconds how to attack the eyes of 咚 Bara.

Whenever Barbara wielded a weapon to attack and prepare to sweep, they released their skills in the air 1m below the eyes of Barbara. When Barbara swept forward, his head moved exactly one meter forward, just being swept by him. Hit everyone's skills.

“75988” (25x critical strike)

“75197” (25x critical strike)

...

咚 Bara has 50,000 points of resistance, which can deal such high damage, which has made everyone very satisfied. According to the rules of the game, you must pass the first level within 5 minutes to be considered a pass. Otherwise, 咚 Bara will release the group. Magic, kill everyone.

The original crowd was still a little worried, but now seeing the monster's blood loss speed, they are relieved to come in and start regular output.

咚 Bara has few skills. This is a lord who tests the player's output, but he has several special skills that he needs to guard against.

The first is the puncture skill. Each punch can cause a bleeding effect. It loses 10,000 points per second and can be stacked indefinitely.

A normal punching ball can kill Xiao Liang's 200,000 health. Xiao Liang can resist up to 20 attacks on this skill. After that, he needs to change the defense to resist damage.

When 20 attacks came to Lu Yang immediately ordered Zhang Zibo to take over. The two took turns to resist the monsters. With Blue Feather they treated and added blood, and they carried them without any problems.

Soon, the lord blame the stage of releasing the second skill, stepping on the ground with one foot, knocking everyone out.

“Ice Guard”

Lu Yang froze himself to relieve the stun, and shouted to the people around him “Release the ability to release the stun, and the Paladin will take the blood of the priest.”

The Paladin turned on the invincible aura to break the stun, and healed Zhang Zibo's health with healing skills. The rest used the badge to release control.

Zhang Zibo said to Xiao Liang while resisting the monster. “It's strange. When I led the team before, it was very difficult. Why is it so easy this time? The strange blood is almost half.”

Xiao Liang said, “Did you look at the shooters and mages behind you? They are the elite of the guild.”

Zhang Zibo said, “Yes, the shooting is accurate, saying that shooting the eyes will never shoot the nose. This arrow and spell hit rate is superb.”

Chapter 1039 - Felfire Lord

Xiao Liang said, “What's up, there will be more and more people like this soon. The boss has invested this time and is preparing to recruit the elite players in the guild to work around him.”

“Dizzy, how many people are this?” Zhang Zibo asked.

Xiao Xiaoliang said: "No less than 30,000 people."

Zhang Zibo: "..."

Xiao Liang said: "This is just the first batch. In the future, the boss will continue to recruit players, and will also find specialized archery, throwing, swordsmanship, forging and other experts in various industries to train players to give them strength Stronger. "

子 Zhang Zibo is a little dizzy. Now the game is getting closer and closer to reality. For example, Sun Yu, who is now archery, has mastered the essence of archery, and dare to predict the shooting, but also hit the lord's eyes.

"We are getting stronger and stronger now," Zhang Zibo said.

Xiao Liang said: "I bet there is no second person in the world who dares to throw money like the boss, not to make money, but to play games. I feel distressed when I watch him throw money at his side. Not his. "

"噫"

The two went into a vertigo state. Just one second later, both of them were covered with a blessing of freedom, and the vertigo state was lifted.

"It's my turn." Xiao Liang naturally took over the blame, and the two continued to talk, as if all of them were working on the assembly line, without any stagnation.

咚 Barra: "Damn humans, you have challenged my bottom line, my servants, come out and kill them for me."

The arena door opened behind 咚 Bala, and a large number of flaming lizard-like creatures ran out of the door. Lu Yang looked at the number, about 12 in total.

“After 1 second, Hei Yan and the Master Group released the group spell 30 meters in front of the doorway.” Lu Yang’s voice just fell and jumped into the strange group.

“Yang Yang Suo”

12 salamander slaves were locked in place, and immediately after 30 area magic fell, the group easily killed the mobs within 10 seconds.

“Continue to hit the eyes of the lord.” Lu Yang said.

擦 “Wipe, the salamander was killed so quickly, this is too easy,” said bitter love for a long time.

He had led a team to fight before. The salamanders are quite disgusting. Their skills are to interrupt the player’s spell attacks, and they can silence the player for 10 seconds, and these weird running speed is very fast, just 1 second. Can run a distance of 30 meters.

But Lu Yang’s calculations were too accurate, flashing in front of them for 1 second, and easily directing the long-range spells to kill them all.

“Hey, this time I learned a trick, and I will find a mage to do it in a while.” White Lion said.

“I do the same,” said Zhou Tianming next to him.

Uh ...

He Bala saw the first wave of monsters killed, and after 30 seconds, he summoned 12 salamanders again.

Lu Yang stood 30 meters outside the door. Just opened the door and 12 salamanders rushed to Lu Yang in an instant.

“Yang Yang Suo”

There was only a 0.5 second gap. Lu Yang first released their skills and trapped 12 salamanders in place.

“Mage Set Fire”

30 mages set fire on 12 salamanders and continued to fight the lord after being killed. Normally, the first level of nightmare difficulty will never pass, only this method can be, but Lu Yang knows this way of playing. There were a group of very powerful men. Just 4 minutes later, Lord Barbara, 50 billion in blood, fell to the ground.

System prompt: You killed 咚 Bara

Lu Yang came to the front of the corpse and clicked on it. There were four items in total. The first one was the winner’s badge, which can be exchanged for an excellent gold suit.

The second item burst is the helmet of life spark.

Life Spark Helmet (Excellent Gold)

Level: 110

Defense:

Demon Resistance:

Intelligence: +4500

Power: +4500

Physique: +2800

Added Spell Damage: +7019

Added spell penetration: +7816 points

Added Spell Critical: +7562 points

的 The attribute photo of this piece of equipment has doubled compared to the 100-level equipment. Lu Yang did not put it on himself, but gave it to Hei Yan and let him assign it to his men.

When the crowd dispersed for a while, Hei Yan must be wearing a series of special equipment such as the Nine-series Element Ball and Flame Chariot, but the players below did not have it, which was just right for them.

One of Your Majesty's Items is a Recipe.

Recipe: Steamed Salamander

Injury: +20000 points

Lu Yang laughed. I ca n't think of getting this recipe. This is a very rare thing. Recipes and potions can be superimposed, but this recipe is not easy to drop. Before the death of Lu Yang in the last life, the price of this recipe was fixed at 5 Ten thousand yuan is a very rare thing.

“French injuries have increased so much at once, it is too exaggerated.” Hei Yan said.

He equipped all the equipment. At level 100, the damage was only 110,000. This recipe is equivalent to adding one tenth more damage.

Lu Yang said: "Everyone wait for me, I will make the lizard out, we can make a copy faster."

火 A salamander formula is equivalent to a flame chariot plus nine series of elemental balls. A group of mages on the scene did not match these two items, and now they can be replaced with a potion, naturally very happy.

Luyang collects salamander meat, and after cooking in place, distributes the meat to 30 fire mage, each of whom has 2 pieces.

"Hey, I added 20,000 magic wounds, and now I feel a lot stronger."

"Yeah, I don't know what the next boss is?"

Uh ...

Lu Yang smiled, went to the host, and asked, "What is the next lord?"

The host asked, excitedly, "Did you decide to challenge the next lord, if you are sure, I will let him out."

"Of course." Lu Yang said.

Host: The terrible twin poisonous worms-fierce and highly poisonous, come out.

The earth shook for a while.

"Boom"

The ground was ruptured, and two huge poisonous insects rushed out of the body. The left side was full of dark green poison. It was about 10 meters tall and 5 meters thick. It was like a pillar with two wings behind it. But you can see the tongue with the same fangs and snake letter, the right side is fierce poison, the height and thickness are a circle larger than the highly poisonous.

Mighty Poison (Lord)

Level: 110

Blood: 0000000

Poisonous (Lord)

Level: 110

Blood: 0000000

Lu Luyang said: "Be careful for a while, Xiao Liang is responsible for the left side, Zhang Zibo is responsible for the right side, and they are continuously treated with poison removal techniques, and the toxins on their bodies cannot be superimposed."

特色 The characteristics of these two lords are spraying poison, a poison that sprays lasting blood, and a poison that sprays quickly. Among them, the poison is sprayed on one side and stays in place. The poison is aimed at a certain person.

The fierce blood poisoned 200,000 in 1 second, and the non-melee player's blood was only 500,000. Three of them must die!

While explaining to the crowd, Lu Luyang began to blame the crowd. He pointed at the poisonous mouth and said, "Poke his mouth, there is his weakness."

Poisonous is the most disgusting. He sprayed a large piece of poisonous with a long duration. Almost every bite of poisoning lasted 1 minute. The time limit for killing these two strange is 5 minutes. After 5 minutes, two The poisonous insects were violent at the same time.

However, I thought that hitting his mouth was equally difficult. Everyone looked at it for a while before finding the frequency and hit them together.

陆 When Lu Yang hit here, on the other side, the major guilds who buried nails in the Luyang Guild couldn't help it, and began to explore Lu Yang's Daguai videos.

At present, none of the major guilds have been able to play a difficult copy of the nightmare. If Lu Yang had played it, it would have hit them too much.

After 3 minutes, Lu Yang knocked out the boss. The explosive items were a winner's badge, a physics ring, and an enchanted drawing.

Enchant: Super Damage

增加 Add 10,000 damage to weapons

Lu Luyang looked at Sun Yu and said, "Your shooter team has a baby this time."

Xun Sunyu nodded in excitement, which meant a lot to them, saying, "This copy is especially suitable for mages and shooters. It is really good to improve."

Lu Luyang said, "I'll enchant you."

He called an enchanted player in the guild to the entrance of the copy and gave the materials to the opponent. Soon, the enchantment was completed. The 30 shooters including Sun Yu and all melee weapon damage increased by 10,000.

"It's powerful now," Sun Yu said.

Lu Luyang said, "Let's lay down a lord."

The host host flew to the venue and said loudly and excitedly: It's incredible, you have won fierce and toxic drugs. Now, you will face a more horrible challenge, that is, to face King Kalata.

“咚”

“咚”

Uh ...

剧烈 A loud tremor sounded on the ground, the arena door opened, and a 10-meter-high demon creature walked out.

Kingata (Lord)

Level: 110

Blood: 0000000

Lu Luyang said: "This lord is not good to fight All people stand separately, and the distance between each two people must not be less than 20 meters."

King Karata's first skill is very lacking in morale. He jumps lightning and jumps 5 levels in a row. The initial damage is only 100,000 points, which can be increased by 100,000 once. By the fifth time, he can cause 600,000 damage.

The second skill is to release Monster Hellfire, throwing three to the ground at one time, and they are all smashed by the remote player, almost smashing to death.

The third is tortured by evil fire, which releases a continuously burning flame to a player. Once the flame hits a player, it will drop 200,000 blood points per second. When the player dies, one will appear from the player's body. 10 billion bosses.

Once the evil fire boss appeared, it would be extinction. There was no way for Lu Yang to do so. The way Lu Yang thought was to let the healers and shooters stand scattered 60 meters away, and the paladin and the mage stood in front of them. 20 meters away.

Once the lord blame the evil fire, the mage and the paladin quickly approach the shooter and heal. The mage uses the frost protection, and the paladin opens the invincible, and they can crack this skill.

The next skill is volcanic eruption. King Karata will create a volcano on the ground. This is a test that most tests the player's technique. Once the volcanic eruption is released, the evil fire is released at the same time. Two people running away on the same line must watch The distance to the opponent should not be too far or too close.

Chapter 1040 - First pass copy

Lu Yang and everyone explained the playing method in detail. After everyone understood that, he arranged a stand.

100 people divided into four rows and centered on King Carata as a wifi signal.

"Kick." Lu Yang said.

Xiao Liang rushed to the front of the lord monster to attack and pull the monster. The conventional attack of King Kalata is to release jumping lightning. The distance between Lu Yang and others is 20 meters. The maximum distance for the lightning jump is 15 level.

In the case that only one person can be hit, only 100,000 points of blood are lost per second. This point of damage is almost harmless for Xiao Liang's anti-war battle with a blood volume of more than 1 million.

Both Luzhuo and Baihu were changed to anti-war, and the two stood in the distance, and the paladins and thieves such as Mufeng also stood in the distance, waiting for the ground fire.

Soon, the lord's monster's health dropped to 20%, and in the second stage, King Carat roared: "Powerful flame, obey my call."

A few hellfires fell from the sky and fell around the crowd. None of the mages escaped, but kept the formation unchanged.

The paladins and archers in the distance pulled these hellfires aside and attacked them in full force at close range. The far-passing team continued to attack King Kalata.

Soon, the hellfire was killed, and then a second wave of hellfire came down, almost every 30 seconds a wave of hellfire landed, and each wave of hellfire was quickly killed by the muddy wine.

After 2 minutes, the Lord's monster's health dropped to 60%, Lu Yang shouted: "Everyone pay attention, he will release the torture of torture, and he must not be hit by the shooter."

The Paladin and mage approached the archer team quickly, at the same time, when Sun Yu shot King Calata's eye with his last arrow.

"Damn bug, you have to pay for it." King Karata roared and pointed Lu Yang with his hand.

A crimson flame hit Lu Yang's body.

"Frozen Body"

At the same time that the skills fell on him, Lu Yang's body was wrapped in ice.

"Miss"

The skill does no harm.

Lu Yang shouted: "Quickly return to your original position, be careful to jump lightning."

As soon as the words of the crickets fell, King Karata aimed at Sun Yu to release lightning.

"Jump"

Sun Yu quickly jumped back 50 meters away from the battle. When lightning struck him, there was no one around him.

"Hoo." Lu Yang breathed a sigh of relief. He signaled Sun Yu to do a good job and shouted, "Continue to attack."

He and his team returned to the returned position and continued to output. After 1 minute, the Lord's monster's health dropped to 40%.

King Carata suddenly stopped attacking, raised his hands above his head, and began to sing inexplicable spells.

Lu Yang shouted: "Full force output, his magic resistance is 0 at this stage."

As soon as everyone's eyes brightened and they output madly, they originally had more than 80,000 magic damage, and the strange magic resistance was 50,000. Now that there is no 50,000 magic resistance, Lu Yang's output instantly increased by more than twice.

In just 30 seconds, the crowd killed 15% of the Lord's monster's health, and at this time, Lu Yang's feet suddenly bulged upward.

"Blink"

Lu Yang instantly jumped to a location 100 meters away. Just as Lu Yang flickered, a green flame erupted under his feet, and the flame erupted within a range of 30 meters around in the form of a fireball.

Not only Lu Yang, there were a total of 3 places erupting in the first stage. Lu Yang saw the people run away quickly and shouted: "After quickly escaping the attack, he will continue to create magma until he fills this map. Man, kill him while he has no magic resistance. "

Everyone nodded, but it was not so easy to fight. King Karata released his skills at the rate of making 3 lava blasts per second. Soon, King Karata was surrounded by flames within 90 meters.

Fortunately, Lu Yang's attack range is more than 100 meters, and they can stand at 100 meters away from your position to release magic. At this time, the lord monster's health is still only the last 1%.

Lu Yang's last flaming cross hit King Carata's head.

System prompt: You killed King Calata

Lu Yang walked to King Karata and dropped a total of three items.

Frost Thorn (Excellent Gold)

Level: 110

Damage: 0

Power: +5000

Physical strength: +3200

Added attack power: +15656 points

Additional physical penetration: +15656 points

Added physical crit: +15656 points

Set: 1/2

2-piece set: Each attack has a certain chance to release the ice rocket, causing 50,000 damage.

Another weapon is called Firethorn, which together with Frostthorn is counted as a set. This is the top 110 thief weapon.

Lu Luyang threw it to Han Fei and looked at the second item.

Enchanting: Evil Flame

Description: Attack comes with evil flames, increasing spell damage by 10,000 points.

With this enchantment, it is equivalent to an additional level 100 weapon. Lu Yang put the enchantment in his backpack. The last item is still the winner's badge.

World Channel: Congratulations to player Liu Jie for successfully killing the Arena Twin Lords.

"Liu Jie is also developing this copy."

"I also released the progress of the reclamation and made it clear that we are provoking us."

Everyone looked at Lu Yang. Just now Lu Yang personally took all the vice presidents of the Jagged Brothers Alliance and the news of the wasteland reclamation with Liu Jie's ambush inside the Jagged Brothers Alliance. He now knows that this is obviously aimed at himself. of.

White Lion said: "Boss, he is provocative."

Lu Luyang said: "Then compare it to one. Everyone works hard. Liu Jie still has a leader and we have two. We can't let his grandson compare."

"We must go all out," White Wolf said.

Lu Luyang said to the host, "Next lord."

好的 "Okay, now that you have defeated King Calata, then we have invited our heavyweight guests to come and guard angels and sin angels."

A white and black light fell from the top of the arena, and two angels of light form appeared on the arena.

"Humans, you should not be here," said the guardian angel and the sinful angel at the same time.

Guardian Angel

Level: 110

Blood: 0000000

Sin Angel

Level: 110

Blood: 0000000

“I rely, why are the blood of both angels so much?” Said bitter love for a long time.

Lu Luyang said: “The blood of the two of them is symbiotic, hit one, and the other also loses blood.”

Everyone nodded.

Lu Yang went on to say: “The two lords are the easiest for us, and they are very fun, and the way of playing is very simple.”

Two angels, one black and one white, normal physical attacks can only kill 100,000 points of blood for Xiao Liang and Zhang Zibo. The first output skill of the two is light and dark vortex. The two angels release their skills at the same time, causing 200,000 to the whole group. Damage, the unit of damage is random, after the damage is done, the player’s color will change to white or black.

After the color changes, a lot of black and white light **** will float in the sky. If the player with white light eats the white ball, it will increase the damage by 10%. If he eats the black ball, he will be blown away by 200,000 health. .

The reason why Lu Yang said this is simple, is here to eat the ball. These people in Lu Yang can’t do anything else, grab one faster than the other, especially the good thing that can increase the attack power after grabbing the light ball. It’s more fierce than others.

“Hey, the light ball belongs to me alone, don’t grab it from me.” Zhou Tianming said.

“Hey, not necessarily.” Bitter love half-life raised eyebrows.

“Ha ha.”

Uh ...

A group of people are not in the right shape.

Luyang laughed and continued: "The third skill stacks up a shield and must be broken within 15 seconds, otherwise his health will be restored to 20%."

I have only three skills in total. After Lu Yang explained, he arranged a stand for everyone and surrounded two angels in a circle.

"Open strange." Lu Yang said.

Xiao Liang and Zhang Zibo rushed up with their shields. Beside them, one stood by Zhou Tianming, the other stood half-heartedly, and the people with muddy wine and animal husbandry. They were responsible for eating the ball and protecting the two main players. The anti-war is not blown up by the light ball of different colors.

The puppet shooter and mage attacked two angels in a circle. Soon, the two angels released a vortex of energy at the same time, blowing up 100,000 health points for each player.

As a black and white light ball fell from the sky, Lu Yang shouted, "Grab it."

He rushed out first, with white light on his body. He drove quickly and grabbed more than 60 white light balls.

Yunzhuo wine: "..."

White Lion: "..."

Zhou Tianming: "..."

我 “I wipe, the boss’s speed of grabbing things is not reduced that year.” Said bitter love for a long time.

“Uh-huh, it really is a master of grabbing things, this speed is no one.” Sun Yu nodded.

“I’m dizzy, I just grabbed three.”

“I’m only two.”

“Fortunately, I was a black ball and ate 16. The key is that I didn’t move the place. The white ball let the boss steal it.” Zhuoji said.

Uh ...

Facing the ridicule of everyone, Lu Yang was embarrassed. When he hit the lord monster in the previous life, he got used to it with his brothers. In this life, he saw the light ball fall, and conditionally rushed out. He scratched his head and said with a smile “That what, accident, accident.”

Everyone: “...”

Continue to output. With 60 light balls, Lu Yang’s output increased by 60%. The lord’s shield was hit just 1 minute later, and they were easily killed by Lu Yang. At the same time, when the photo shield was broken , Again a black and white light ball appeared.

“Grab it.” Lu Yang rushed out.

After 30 seconds, Lu Yang ate 100 light spheres, increasing spell damage by 200% for a duration of 30 seconds. When he finished outputting, the Lord’s monster had only half of his health left, but he found that everyone was watching he.

“Why do you see me?” Lu Yang asked.

“Er.” Xia Yuwei thought for a while and said, “Boss, have you grabbed it before? Why are you so skilled?”

“Ah?” In Lu Yang’s embarrassment, he found that he was impulsive again just now, and scratched his head. Haha said with a smile: “I have a quicker response.”

Yun Xia Yuwei: “Your sister, is that faster? We didn’t see the light ball fall to the ground, so you jumped up and snatched it.”

Lu Luyang: “...”

“Uh, that what, I won’t grab it next time, you guys come.” Lu Yang said with a smile.

The crowd just let Lu Yang go, and the next time the light ball fell, Lu Yang didn’t grab it again. This time, he took the first place with half-life, and the team attacked quickly. He killed the blame within 3 minutes

System prompt: You killed the Angel of Light and Darkness

Lu Luyang came to the angel and looked at the equipment on the ground.

Prowler Breastplate (Excellent Gold)

Level: 110

Defense:

Demon Resistance:

Intelligence: +10272

Strength: +10672

Constitution: +10008

Added Spell Damage: +17688

Added Spell Penetration: +17688

Added Spell Crit: +17688

Additional physical attack: +17688 points

Additional physical penetration: +17688 points

Extra physical crit: +17688 points

This is a piece of Paladin equipment. The second item is a magic wound ring, and is also a 110-level excellent gold equipment. The third one is still the winner's badge.

Lu Luyang said: "Be prepared, lay down a lord, and finally the boss."

Host: "Haha, this tribe is indeed a master this time, and you can come to this step. Welcome you to the stage facing the ancient gods."

The entrance to the arena opened. A huge stone man, more than 10 meters tall, whose body was made of rocks, came to the arena.

Ancient Rock God (Lord)

Level: 110

Blood: 0000000

“It seems that the resistance is quite high,” said bitter love for a long time.

Lu Luyang said: “The magic resistance and physical resistance of this product are 60,000 and 100,000.”

靠 “Fuck, isn’t it that he can’t move him?” Asked White Wolf.

Lu Yang said: “Also, just play slowly, his skills are a bit special.”

Lu Yang introduced his skills to everyone. This is a monster that needs two defenses to fight, because his first skill is to grab the current enemy, throw it to a distance of 100 meters, and stun for 10 seconds. bell.

The second skill is to make the rocks on the ground into very thin and very sharp pieces. This skill can cause continuous damage to enemies within 30 meters, 300,000 points per second.

The third skill is the vortex of the storm. The Stoneman spins madly in situ. After creating a vortex, the target player is randomly drawn closer to the vortex, causing 200,000 damage per second. Non-Paladin and Mage classes need healing and blood, otherwise Die in 3 seconds.

The fourth skill is Thunder Shock. The Stoneman stepped on the ground with a strong kick to stun everyone. Generally this skill is used with the three skills.

Lu Yang talked twice, and after confirming that there was no problem, they arranged their positions. This time it was still a wifi shape.

陆 When Lu Yang started attacking here, Liu Jie was also playing monsters on the other side. He and his team had already died twice.

“Damn, why does this monster have hurricane skills?” Liu Jie cursed.

“Jie Shao, don’t be impulsive, wasteland development is like this, it takes time.” Scarlet Love said.

杰 Liu Jie didn’t speak, and asked a little uncomfortably: “How is Lu Yang?”

“I don’t know. The people he brought with him this time are the closest ones around him. We can’t reach them.” Scarlet Years said.

“How could it be impossible to reach them? Haven’t you already got their ID information? Can’t you find a way to get their phone number or their relatives to pull them to our side?” Liu Jie asked.

Scarlet Years said sorry: “Jie Shao, Lu Yang was very careful. All the relatives of the vice chairman and the legion of the army were dragged into the guild. Now these people are close friends around Lu Yang. Lu Yang gave them The salary is also very high. They also made a lot of money by robbing other countries with Landing Sun. I couldn’t use them to move them, but because of this, we lost a lot of our spies who bought into the guild. “

Scarlet Love is a relative of Liu Jie and is also the most trusted lieutenant of Liu Jie. Almost all the dirty things are handled by the internal forces led by Scarlet Love.

At the beginning of Scarlet Love, he wanted to make some achievements. Liu Jie had to spend a hundred million cash to buy people around Lu Yang, but Lu Yang’s side, whether it was Xia Yuwei, muddy wine or white Lion and Zhou Tianming, none of them successfully bought through, and therefore lost three or four head-level spies.

Liu Jie asked, “Willn’t you find their relatives, can’t you force them?”

Shuangxian Nianhua sighed and said, “This is another worrying thing for me. Lu Yang actually received all of his relatives from the Donghai Development Zone, and almost bought the building in the development zone. I want to penetrate, but There has been an area where my people can’t get in. “

A region like this is like a clan village. The whole village belongs to this clan. When an outsider enters it, he will be found as soon as he enters. No matter what you want to do in it, you will be caught when you reveal your thoughts.

Liu Jie was a little surprised and scolded: "This Lu Yang is really not afraid of spending money, how much does he spend?"

"The blood can't be calculated, it's too much, but it is certain that at least 30,000 families have arrived in the development zone, and they have all settled here in Luyang. I heard that there will be more in the future."

Liu Jie said, "You think of it anyway, you must give me a way to get inside them anyway, we can't know anything about the enemy."

Suddenly when Liu Jie was talking, suddenly.

System Tip: Congratulations to player Lu Yang for leading the members of the Jagged Brothers Alliance to open the New World Arena and kill the ancient rock gods.

杰 Liu Jie yelled at he didn't expect Lu Yang to be so fast.

The other side.

Lu Luyang looked at the hint on the World Channel and said to the crowd with a smile: "Send videos to the group of 30,000 people, and each video gives me a slight change of position."

"Yes," Tu Feng said.

Lu Yang wanted to see if there were any spies in the first 30,000 people he handed down. After all, these first people were senior members of the guild, at the rank of regiment, regiment, and captain. If there were spies, Something big happened.

Guild channels.

Lu Luyang said, "Everyone don't worry, I will add some explanations to the video. After the explanations are finished, I will send you the video so that you can use the level 100 dark gold equipment to get through the difficult nightmare difficulty copy."

"Knee thank you guy."

感谢 "Thank you, boss."

Uh ...

The players in the guild cheered, saying everything, Lu Yang quit the game and let Tu Feng handle it.

来到 He came outside. By the end of the year, the 33-storey building had been completed and the workers were rushing to decorate the interior.

Lu Yang brought them in black and white to the construction site, saw the foreman, and asked, "How long will it take to go in."

The foreman said, "As fast as 5 days, after 5 days, you can move the furniture."

Lu Yang was very satisfied. The first 30,000 households have already lived in the building he bought. When the building can enter, he can recruit a second group of people.
