

Wild Fire 1041

Chapter 1041 - Li Rongde

The Song of Blood and Fire building is considered by Lu Yang to be the most outstanding work. This is the future headquarters of the Brotherhood of the Iron Blood.

In the next few days, Lu Yang handed over the turbid wine and Tu Feng for the things in the game, and let them take a copy of the guild elite.

Lu Yang did not enter the game, but was busy with the opening of the headquarters. A series of office supplies in the building were selected by Lu Yang himself, and the office layout and furniture of the various vice presidents were selected by themselves.

Twenty-five days later, the unveiling ceremony of the Song of Blood and Fire building was officially held. The first batch of members of the Iron Blood Brotherhood and family members visited the ceremony collectively.

All major TV stations and media also came to the scene. For players around the world, Lu Yang did something that surprised everyone.

“Oh my God, someone has built a building dedicated to games, with 33 floors.”

“This is a milestone for gamers. In the future, professional players will become more professional. I really want to work here. This is the glory of a professional player.”

“It’s incredible, Chinese people are so crazy, they even built a place to play games.”

“What can I do here, play games?”

Uh ...

On this day, everyone in the world is discussing the Song of Blood and Fire building. Players not only want to see the exterior of the building, but also the interior decoration. They are fortunate enough to enter the first reporters of this building. It was selected by Lu Yang personally, and the media of various countries that have made good alliance with the Jagged Brothers.

The day before the opening, they got the news. At present, the major media of all countries in the world, except Huaxia, have a hatred status against the Jagged Brotherhood. The reason is that Lu Yang is too strong, which is not in line with the perception of Western media. It is not consistent with the perceptions of South Asia and some arrogant small countries, and they are deliberately degrading the Jagged Brotherhood.

I really dare to tell the truth that the media of various countries that are very powerful are not mainstream, so the website's page views and sales are not very good, but this move of Lu Yang immediately caused these media to fall into carnival.

In the Internet era, the size of a media flow is only if they have good scoops, not the size of the media.

哦 “Oh my gosh, our website traffic is bursting,” said a German media source.

“I'm stuck here too, **** it, I already said it should be changed to a server.” A French media person said.

“Fortunately, there are few people on our side. It's not good. The French ran away. It seems to me.” Norwegian media said.

Uh ...

Lu Yang was leading them to visit the building and said with a smile, “Let's continue.”

The entire first floor is the security department. Lu Yang did not introduce it. There are more than 100 special soldiers recruited in black and white on the first floor, which are responsible for responding to various emergencies. After all, 30,000 people work here, and there are still 70,000 people soon. Arrivals.

If there are too many people, it is easy to cause accidents. Whoever knows something weird must have professional personnel responsible for their safety.

One more thing, these people are also responsible for staying here for cultivation. In the future, they will go to Africa to find Liu Jie with Lu Yang to settle accounts.

战争 On the second floor, there is a war hall. There are 33 halls in total. One hall is the jurisdiction of the vice president, from the second floor to the 22nd floor.

On the 23rd floor, it is a naval combat force. At present, naval warfare has temporarily stopped. The new continent does not open a naval warfare system, but the government has clearly stated that in the future, maritime combat will be gradually opened, so that players will not buy a ship and have no use.

The 24th floor is a life player. Various masters of forging, tailoring, leather making, gems and other life professions have been sent here by Lu Yang. The brothers who followed Lu Yang in the last life have been placed here by Lu Yang. Depending on production equipment, life is not worry.

The 25th floor is the company's normal department of finance and other. The 26th floor is from the earliest family of 13,000 people who followed Lu Yang. The earliest 13,000 people are now the heads and heads of the various legions and corps below. They Relatives' children were pulled by Lu Yang as Lu Yang's relatives.

From the 27th floor to the 30th floor, Tu Feng was responsible for the people in the four floors. No one knew what to do except Lu Yang.

Lu Yang gave Tu Feng the greatest authority. Many things can be handled directly without Lu Yang, and 300 million funds can be mobilized at one time.

屠 When Tu Feng learned about his authority, he was embarrassed. Although his current income is very high, he can mobilize so much money at one time, and he does not need to seek approval from Lu Yang. This trust makes Tu Feng excited.

Lu Yang did not introduce the four floors to the media of various countries when he took the TV stations of various countries, which made the media of various countries more curious, and players in various countries in front of the TV seemed very excited about it.

“It must be a secret place.”

“Come and find a way to interview.”

“There is no place to talk to?”

Uh ...

The players condemned, and the host of each country also eagerly asked, but Lu Yang still smiled and shook his head, saying, “Sorry, this really can’t tell you.”

The interview ended here. From the 31st floor to the 33rd floor, it is the place where Lu Yang and the chairmen work. Each person has a separate room. Lu Yang is not planning to open it here.

Lu Yang took them to a conference room on the 22nd floor. Lu Yang accepted their interview. For a whole day, Lu Yang had no time to log in to the game.

The next few days, Lu Yang is also busy. The relocation of studio members and the removal of formaldehyde in the room are all about the new building.

In addition, the security around the building has also gradually improved. The height of the fence has reached 5 meters. It does not come at all without a ladder. There are monitors around the fence.

The building bought by Luyang is not just a building, but a large area of land, as well as the residential areas of the families of dozens of buildings.

I was busy until the weekend. Horne opened a second fortress battle. Lu Yang took time to participate. South Korean player Li Zhenhuan took his family to Huaxia. Lu Yang gave him two houses.

As a result of this competition, Lu Yang won the championship, Li Zhenhuan won the runner-up, only the Brotherhood of the Iron Blood, and obtained the right to build 7 forts.

This time, large-scale protests broke out among players from all over the world, because this mechanism made it impossible for players from all countries to build their own main cities.

“Second World” also found the problem and changed the rules. Not only Horn can build the main city here, but also other NPCs can also receive city building tasks.

However, Lu Yang’s advantages have been established. Including the main city that has been built, there are a total of 8 places to build the city, allowing Lu Yang to block the tiger fortress on the south side, and the remaining six places have been established by Lu Yang in Chi. Below Yangshan, Jiushuahua Plain, Qixingcao Plain, Zixing Lake, Magic Blood Hills and Mount Kongang.

周围 Around these six main cities, there are six kinds of items that Luyang urgently needs at the moment, namely red sunstone, nine-color flower, Qixingcao, picking star flower, magic bloodstone, and diamond.

I also began to have order because of these 6 main cities, the originally chaotic northeastern part of the New World. These six main cities have attracted at least 10 million players from all countries, and they all use this as their rest area.

这些 Among these main cities, there are arenas, auction houses, pharmacies, weapon shops, equipment shops, hotels, etc.

King Kong City, Guild Hall.

After 7 days, the Brotherhood of the Iron Blood has 300,000 players with 110 levels of equipment, including the most elite forbidden mage group, wind and lightning archer group, holy sword knight group, tsunami mage group, Archdruid army group , Rev. Holy Light Corps, Mad Wolf Legion, War Tauren Legion, Divine Warrior Legion and other 9 legions.

Lu Yang looked at Tu Feng and asked, "What's the strength of Li Rongde?"

Tu Feng said: "The troops gathered by Li Rongde are not yet effective. There are less than 100,000 players with 110-level suits, but his main city has been completed. There is a park 2 hours away behind him. A main city of Renyi and 150,000 people. "

After entering the New World for so long, Lu Yang decided to unify the Northeast after keeping two entrances into the Northeast.

First of all, the first goal is to destroy Li Rongde with a Masonic background. If he is not killed, Lu Yang is sleepy and sleepy. After he is killed, Lu Yang is still sleepy and sleepy, but if he is not killed, he will be killed. Both have to fight, it is better to kill the opponent first, and then see how the opponent moves.

At present, Li Rongde's development speed is very slow. Although there are Japanese, South Korean, and American consortia behind it, after their guild entered the New World, they have not saved themselves and cannot give Li Rongde too strong support. Right now, it is the best to defeat Li Rongde. opportunity.

Xia Yuwei frowned and said, "Are you really determined to hit Li Rongde? Li Rongde named him the fortress called the Capital of Freedom, which contains a group of 10,000 people resident in Park Renyi. Although there is no transmission point, but if this 1 Tens of thousands of people resisted, and we wanted to break the fort quickly, which is not realistic. "

It is almost impossible to break a fortress with 10,000 reinforcements and 100,000 ready to mobilize at any time within 2 hours.

Lu Luyang said, "So, I'm going to help them around."

"Pick up help?" White Lion smiled and said, "Boss, I applied for this task."

Lu Yang said with a smile: "Yes, you take 100,000 people and the curse mage ambush on the hill between the Liberty Capital and the city of Gassuvan. If Park Renyi comes, he will wipe out his troops."

“Yes, promise to complete the task.” White Lion said with a smile.

Lu Luyang said to the others: “Zhuojiu is responsible for defending Tianjian City, and Elderly Man is responsible for defending Tiger City. The rest followed me with 200,000 people, and the army overwhelmed the Liberty Capital.”

“Yes,” the crowd said together.

Soon, the large-scale mobilization within the Jagged Brothers Alliance started, and the players in the countries of the New World that were originally developing were attracted by the clouds of war here.

“I heard that the Brotherhood of Iron Blood is about to fight a guild.”

“I heard that the target is either Li Rongde or Park Renyi. It’s unlucky, but they have landed in the sun, and they are dead.”

“Oh, not necessarily, you don’t know the details of Li Rongde, I tell you, who wins this time may not win.”

Uh ...

The players talked enthusiastically, and Li Rongde, the city capital of Freedom, got the news for the first time.

Li Rongde is a middle-aged man in his 40s. With a smile on his face, he can’t see his thoughts. He found Lu Yang on his own initiative.

“Chairman Lu Yang, I heard you are mobilizing troops.” Li Rongde asked in a special space.

Lu Lu smiled and said, “Yeah, what’s wrong?”

“Everyone said you were going to hit me, we have no grudges, you can’t hit me, I still want to ally with you.” Li Rongde said sincerely.

Lu Yang smiled and said, “Li Rongde, although you are older than me, you cannot bully me.”

Li Rongde’s small face lags, and asks, “What does this say?”

Lu Yang said: “Park Renyi clearly stated that he would fight with me, but your fortress has 10,000 Park Renyi’s men. Now you say you want to ally with me and treat me as a fool.”

Li Rongde said quickly: “What’s the matter, that 10,000 people are production players, who came to me to collect herbs, and also gave me tolls. It’s really not for me to defend, brother, don’t you misunderstand.”

Lu Yang smiled and shook his head, and said, “Although I’m sorry, but I can only tell you that you can’t stay in the Northeast, you should change places.”

“What do you mean?” Li Rongde’s face changed, looking at Lu Yang and asking, “What do you want to do?”

Lu Luyang said: “I tell you explicitly, I want to attack your capital of freedom.”

荣 Li Rongde was furious and said, “We have no injustices, why do you hit me?”

Lu Yang said: “Simple, just because you’re by my side, there is a famous saying from Huaxia, the side of the couch will not allow others to sleep, and the fortress between you and me is only half a day away. In case one day you want to hit me, I There are still a lot of foreign enemies, what should I do? “

Li Rongde glared at Lu Yang, but did not dare to attack. The situation was stronger than others. Li Rongde was not qualified to anger against Lu Yang.

Indeed, Li Rongde is an important chess piece arranged by the Freemasonry in the Northeast region. According to the idea of Freemasonry, Li Rongde relies on Park Renyi to build a fortress in an important area, and at the same time establishes a friendly relationship with Lu Yang, which will be gradually swallowed up in the future. Lu Yang.

However, Li Rongde did not expect that he had just formed a little climate, and when he was going to talk to Lu Yang to discuss cooperation, he was told to destroy him.

Lu Luyang looked at Li Rongde's expression and guessed that he was right, saying, "I don't know who is behind you, but I can only say sorry."

荣 Li Rongde knew that Lu Yang was going to leave, gritted his teeth and asked, "Is there really no room for relaxation?"

Lu Yang shook his head.

"Don't you even give freemasonry?" Li Rongde asked.

Lu Yang opened the video and said, "If you can represent the Freemasonry, I can give you a compromise solution. You take someone out of the Northeast and build a fortress anywhere. I will give you an equivalent. How can I help you develop? "

Li Rongde hesitated. Originally, he wanted to use the Freemasonry to frighten Lu Yang. He did not expect that Lu Yang knew his background long ago, and said angrily, "It turned out that you knew that I was behind Freemasonry, but you still have to come. Hit me, you have to know the consequences of doing this. "

Lu Luyang said, "The conditions are for me. You choose not to choose. It is your own business. If you want to use the Masonic name to oppress me, you are not qualified."

A little soldier who was thrown into the most dangerous area by the Freemasonry, and wanted to use such a big name to overwhelm people, and did not check whether he had that capital.

It is true that at this stage of the game, all players who have fortresses have hundreds of millions of credit points in monthly income. If they can occupy an area, the money they earn will not be counted, and it will be natural for Masonic to join.

Back to the room.

Wuzhuo asked, "Boss, how are you talking?"

Lu Luyang said, "It's really inadequate to use the name of Freemasonry to overwhelm me. I don't see where we live. Is there a place for Freemasonry in China?"

Everyone laughed.

如果 If there is any place in the world that is not afraid of Freemasonry, there should be two, one is Russia, and the other is Huaxia. Huaxia bans guns and its security is higher than Russia.

"Boss, when are we going to hit him?" Asked bitterly for half a life.

Lu Luyang said: "Gather the player at night, we will hit him tonight."

夜晚 "Night?" Xia Yuwei smiled and said, "Boss, you are bad enough."

Lu Yang smiled and said, "Are you going to fight? Of course you have to play with some broken hands."

How can this global war be won without playing tricks? With the innate advantage of the Jagged Brothers Alliance, players can stay up all night to fight at any time, but Li Rongde can do it?

玩家 Although these players who Li Rongde temporarily put together, although there are masters of global competitions and players of advanced studios, what kind of organization is Iron Brotherhood, this is a super guild that has participated in nearly two hundred wars.

In particular, there are dozens of battles in the Big Corps. These people are called players, but the discipline is not much different from that of the soldiers. On the day, more than 30 vice presidents such as Muddy Wine and White Lion began to gather players arrived In the afternoon, 300,000 people gathered and all stayed outside of Vajra City.

Entering the 110-level misty forest, all those who want to follow are dismissed by Lu Yang's bitter love left behind, and those who do not listen to them are all killed by Han Fei's time and space killer team. Among these people, even the TV station wanted No one is allowed to interview with the team.

Du Bin looked at Lu Yang's reply in a depressed room and said, "Forget it, let's analyze the combat effectiveness without letting the interview. Others don't know. I am a master of the Iron Brotherhood."

Lu Yang unified the national service, gathered 3,000 thieves of time and space, accounting for almost one-third of the national service, and only 3,000 people can sweep the spies of all parties chasing the forest.

Tong Tongtong asked, "Where is Li Rongde, I am curious how Li Rongde wants to build the main city beside Lu Yang, just like tofu hits the wall."

Dubin laughed and said, "We don't understand this, but there are news that Lee Rongde is not only supported by the consortiums of Japan, South Korea and the United States, but also the shadow of Freemasonry."

"Is there a Freemasonry?" Hitomi asked.

Du Bin shrugged his shoulders and said, "It's not clear, but the rumors say that. If it is true, Li Rongde made it clear that he was annexing Lu Yang's important fighting force. Lu Yang should not allow him to be surprised."

The players who watched the live broadcast nodded one after another, and everyone was curious from the beginning of the battle. Why did Lu Yang choose Li Rongde as a little-known person first, but now the Freemasonry appears, the players will understand why.

“See you for a long time, there really is a Freemasonry.”

“Haha, I wanted to sneak in Lu Yang, but Lu Yang was pre-emptive.”

“It’s so good now, I really want to know what kind of skills Masonic will have and what kind of support Li Rongde can give.”

别 “Don’t talk about it. The current Brotherhood of the Iron Blood can only be played by the rest of the world together. It is too united.”

Uh ...

No guild in the world can be as united as the Brotherhood of the Iron Blood. When Lu Yang won the major domestic guilds, he did not adopt the policy of killing the dead, but absorbed them into the Brotherhood of the Iron Blood, and returned the shares of these presidents. Make Huaxia never united like this for a moment.

Coupled with the external hostile forces and the promise of money made by Lu Yang, the members of the Brotherhood of Iron Blood were screwed together, thinking about how to break through the fortress of others to make money, and there was no internal problem.

Guilds in other countries are not the same. Players in guilds in the United States, Britain, and other countries do not have the ambition and generosity of Lu Yang. They are willing to spend money to buy the shares of defeated guilds. In addition, in countries like India, internal concerns are even more worrying. Serious, cracks may appear from the inside at any time.

The only thing that doesn’t have these tattered problems is the emerging guilds such as Li Rongde and Song Yunyi, but such guilds cannot stand the war.

Lu Yang shouted that he could come to millions of people, Li Rongde was able to call 100,000 people. Not to mention it is now that Lu Yang claimed to bring 1 million people to attack, and the total number

of Li Rongde Guilds was so many. The brotherhood's name has spread throughout the world, and Lu Yang's reputation is even more frightening.

Only three times he exploded the hot spring city. This kind of fierceness is not comparable to players in other countries, not to mention that with the deepening understanding of Lu Yang by players from all over the world through television and news, Lu Yang's cruel things have been compared. One made them feel incredible.

From 3,000 people in the early years against bloodthirsty hegemony, they ran for five or six hours a night, fighting three battles in a row, forcing the bloodthirsty hegemony to cease the war, and then the first battle defeated the black bloods, defeated the bloodthirsty hegemony, and forced the old men and the hegemony. , And then kill Wang Teng.

After receiving the landing plan, he broke through Li Xiyu's tactics and defeated Li Xiuyu. In order to avenge the old man in the twilight, the city forced Mai Lizhe to bow and confess his defeat, killing the man who insulted the old man in the old man hundreds of times and returned to level 0.

And all the subsequent wars, the Brotherhood of the Iron Blood has not lost a defeat, and each time under the leadership of Lu Yang, the enemy was crushed and destroyed.

“Well, let's go. I don't expect to face the Jagged Brotherhood.”

“Li Rongde has no chance.”

Uh ...

的 Players inside the Liberty Capital originally had many people who wanted to help Li Rongde defend the city. Now they have left the Liberty Capital.

Li Rongde also closed the city gate and cleared irrelevant players, leaving only the players in the guild who were willing to accompany him to defend the city. The total number of people was less than 300,000, of which 200,000 had just reached level 100, and had not yet reached level 110. Equipment, only 100,000 people have reached level 110, but they are not fully equipped.

“Damn, this makes me keep the city.” Li Rongde cursed on the city head.

Ji Pu Zhixing walked to Li Rongde and said, “Don’t worry, my elder brother is already gathering players. The fastest time is three hours. It is estimated that it will not be much slower than Lu Yang.”

Li Rongde sighed and said, “I’m afraid these 300,000 people can’t even resist a wave of Lu Yang’s attack. I heard that Lu Yang has come to 1 million people.”

In the outer urban area, only 300,000 to 30,000 of Li Rongde’s men were fighting, and the other 280,000 to 280,000 were listless, apparently frightened by the arrival of Lu Yang.

Ji Pu Zhixing said: “Don’t listen to him nonsense, our people have checked it, up to 300,000 people, you can rest assured, if Lu Yang dares to come, I have no problem carrying him for an hour.”

Li Rongde was relieved and said, “Thank you very much.”

“Let’s be one, don’t be so polite.” Park Ji-sung laughed.

As a peripheral member of Freemasonry, Park Ji Sung and Li Rongde have the same rank. They have a total of 33 levels, and they are ranked 12th. However, Li Rongde can be appreciated by the Freemasonry. Both Park Ji Sung and Park Renyi value him very much. Freemasonry asked Park In-eok for his help. Park Ji-sung, as the younger brother of Park In-ye, was afraid to use his best efforts.

“Let’s go, I’ll teach you how to defend the fortress.” Park Ji-sung pulled frowning Li Rongde and began to defend.

On the other side, Lu Yang was marching fast with the army. The entire army was divided into two parts. The first part was a large army. With the assistance of hundreds of wind elves, 300,000 people advanced at a speed of 225%.

The second group is the Druids and Werewolves, who can turn into werewolves and druids who can turn into phoenixes. They are running at the speed of 350% with the speed of the wind elves. They are the first to explore the way. The army, also a small unit looking for an ambush site, was led by De Buwei.

300,000 people marched fast, arrived at the Freedom City at 2am and 3am Korean time, and Mikko Bai's players with the headquarters and other vice presidents supported came along the side and took a small path To the best ambush spot found in the air by Germany without tasting corpses, rocky hills.

Gaocheng head.

Li Rongde looked at Lu Yang's team and felt more relaxed. He said, "It really only has 300,000. Lu Yang actually bluffed me, haha."

Park Zhixing said: "It's just crazy to dream of attacking such a big city just because of him."

"Yeah, anxious to take people out of the city to meet him." Li Rongde cursed.

A dark line from Park Chih-sing's head whispered to Li Rongde: "Do n't, we ca n't beat him out of the city, we checked, these 300,000 people are all masters of 110-level dark gold suits. Their 500 war tauren can push us even. "

Li Rongde: "..."

"How do you fight?" Li Rongde asked guilty.

Park Zhixing said: "Let 's let go, when my elder brother comes, he will have capital to fight Lu Yang. By then, Lu Yang must retreat."

Li Rongde understood it a bit, and Park In-yi's troops could not beat Lu Yang, so he could only rely on defense. He said, "Okay, then I will stand still."

"Brothers, hold on to the fortress, all the guild points plus 500 points, the boss I think bleeding." Shouted Li Rongde.

士 The morale of the players who are defending the city is boosted. 500 guild points can be exchanged for many things in the guild.

荣 Li Rongde felt this change with satisfaction, watching the city gradually walk to Luyang, 100 meters away, and shouting, "Lu Yang, you dare to provoke Freemasonry, you will know the consequences."

Lu Yang smiled and said, "You are just a little sister of the Freemasonry. I would say that it's nothing more than to fight dogs without looking at the owner. It has nothing to do with inciting Freemasonry. Don't take yourself too seriously."

Li Rongde was very angry and cursed: "I am the representative of Freemasonry in the game."

"Blow it, you, there are more than ten representatives like you in the game, you are the oldest." Lu Yang asked with a sneer.

Chapter 1043 - Won!

Li Rongde was embarrassed. He didn't expect Lu Yang to investigate this matter so clearly. After thinking about it for a long time, he laughed and said, "Chairman Lu Yang, since you already know it, I'd better sell it to you. ? "

Lu Yang Yile asked, "You agree to sell now?"

"Of course. Didn't you, President Lu Yang promised me, you agree to sell it anytime." Li Rongde said proudly.

Lu Yang smiled, but did not wait for him to speak. Tu Feng next to him said, "According to our spy report, Park Renyi's team is about to enter the rocky hills."

“This grandson really wants to delay time, no matter how good you are, he opened the gate and let the spies of our guild on the city go to war, and the rest are ready.” Lu Yang said.

“Yes.” Tu Feng and Xia Yuwei and others replied together.

Li Rongde on the head of the city saw Lu Yang and the people around him whispering, thinking they were admonishing Lu Yang not to believe, and said quickly: “Chairman Lu Yang, I really have the sincerity to sell the fortress.”

Lu Yang said: “Okay, then you open the gate, come out and let me see your sincerity.”

Li Rongde and Park Ji-sung looked at each other, and Park Ji-sung said: “No, if Lu Yang rushes in, we are likely to fail.”

Li Rongde thought for a while and said, “Forget it, open the city gate, otherwise Lu Yang won’t believe it. Only 30 seconds after opening and closing the gate, Lu Yang cannot rush so fast.”

Ji Pu Zhixing was right when he thought about it and said, “Okay, I’ll order the city gate. Don’t let your troops move forward. Let’s talk about this in detail.”

Lu Yang said with a smile: “Yes, just 50 meters in front of your city gate. You asked the people in your city not to point their bows and arrows at me, and you and me should discuss them separately. If feasible, I will directly acquire your guild.”

“Thank you President Luyang.” Li Rongde ran down the tower quickly.

Lu Yang walked 50 meters forward, looking at the players who were still using bows and arrows on his head, Lu Yang shouted, “Defense players in the Freedom City, listen, President Li Rongde and I will soon After reaching an agreement to formally purchase the main city of Liberty, I guarantee that after the acquisition, all of your positions will not change, and those with wages will have their salary income increased by 20%, and those without wages will be hired as appropriate.”

The 300,000 players in Wucheng were stunned when they heard what Lu Yang said. Especially the other three players who did n't know the situation here, the main city burst into warm cheers.

“Great, no need to fight with Jagged Brothers!”

“Haha, I can raise my salary and earn it.”

“This expansion, I must have the opportunity to enter the ranks of payroll, all put down their weapons, put down their weapons, and hit a hair, they will be a family right away.”

Uh ...

荣 As soon as Li Rongde walked to the gate of the city, he heard Lu Yang's words and knew it was not good. He looked at Lu Yang and his face became pale.

Lu Luyang looked at Li Rongde's expression, smiled, and said, “Chairman Li, come here, let's talk about the details.”

Park Ji-sung on the head of the city was panicked, and watching the city was full of players laying down weapons, he had a feeling that he had gone.

“It's over, the fortress will be lost. You must promptly notify your elder brother.” Park Ji-sung hurriedly called Park Ren-yi and reported the situation here.

“Asshole, why did Li Rongde think of such an idea, is he a fool?” Park Renyi cursed.

Ji Puzhixing said: “Come and think of a way, Li Rongde will soon be in front of Lu Yang. How long do you have to arrive?”

“At most half an hour, but I want to complete the army. If you have already fought, I can charge directly. Now you are negotiating. I am rushing over in an irregular formation, aren't you looking for

death, **** Li Rongde, afraid of Lu Yang Fighting, even came up with such a stupid idea. “Park Renyi cursed.

With 200,000 people marching violently at 2 in the morning, it was already drowsy, and they had to run for 2 hours. The team could have 150,000 people to follow, even if it was good, and the formation of these 150,000 people was all chaotic.

Various professions such as healing, defense, shooter, and mage have long lost their formation when they first ran out. Many players were chaotic and could n’t find their own legion. Park Renyi wanted to organize these people back to the original. The formation takes at least an hour.

“Then I will let Li Rongde fight now.” Park Ji Sung said.

“Yes,” Park Renyi said.

Pu Zhixing turned off the intercom and looked at Li Rongde on the ground. It happened that Li Rongde walked in front of Lu Yang.

“It’s time to launch an attack, my elder brother will be there in 10 minutes.” Park Ji-sung said, he deliberately said less time to make Li Rongde confident.

Li Rongde’s eyes brightened, and he looked at Lu Yang and said, “Chairman Lu Yang, it seems that our transaction cannot be completed.”

Lu Yang smiled and said, “I didn’t want to do this than buying and selling.”

Li Rongde asked, “What do you mean?”

Lu Yang smiled and said, “The meaning is very simple. My army has come down to your town. Do I need to pay for it?”

“You, you.” Li Rongde was stunned.

Lu Luyang put out his right hand and slammed.

“Iron Brotherhood.” Zhou Tianming raised his two-handed sword and shouted, “Kill ~!”

More than 10,000 soil-based mages suddenly jumped forward for a distance of 30 meters, and came to a position only 50 meters away from the east wall of the fortress.

“Earthquake”

“Earthquake”

“Earthquake”

Uh ...

10,000 soil-based mages released 100 dragons in succession with a team of 100 people. In a blink of an eye, the walls on both sides of the gate of the East City Wall each had a huge soil slope. The soil **** was 50 meters long and 100 meters wide, like two bridges. Generally, the ground and the top of the city wall are connected.

“Kill ~!” Half-life and Xia Yuwei and others each directed 60,000 people to attack along the slope, and Zhou Tianming and Tian Yao led the team towards the main entrance.

Ji Pu Zhixing didn't expect Lu Yang to play like this, and quickly shouted: “The shooter is attacking quickly, and the gate is closed immediately.”

“Can't close it.” Dozens of players guarding the gates collectively betrayed and killed other players.

“You, you dare to rebel.” Park Ji Sung was stunned.

“Sorry, we were originally players of the Iron Brotherhood.” One of the players said that he was one of the 100,000 players Lu Yang recruited to his building.

“Kill them.” Park Ji Sung was furious and immediately ordered the player to attack.

More than 100 guards rushed towards these dozens of people. Just as they approached quickly, suddenly, their heads were lit with ice-blue space-time light. Han Fei broke through with 1,000 space-time thieves. Out, everyone dropped the tip of the knife during the fall.

“欸”

“欸”

Uh ...

The sound of numerous sharp blades piercing into the body, 100 guards sent by Park Ji-sung were killed instantly, and there was no chance of reaction.

☞ Han Fei faced Park Ji-sung with a calm smile on his face, and said, “Look at the sword.”

A ray of light pierced the air. Only a moment later, Han Fei appeared in front of Park Ji-sung, launching chaos in time and space. With only one face to face, Park Ji-sung was killed by chaos in space-time.

“I fight with you.” Park Ji-sung’s deputy saw his boss dead and yelled Smida rushing towards Han Fei.

“Dead to me.” The bitter love slashed the deputy with a sword and shouted, “Iron Brotherhood!”

“Kill ~!”

With 200,000 people shouting in unison, the 50-meter-wide gate below the tower has been rushed in by Zhou Tianming and Tianyao, and the whole city fell into a sea of fire.

Outside the city.

Lu Yang was watching this gorgeous scene, but Li Rongde was dumbfounded. With the roar after another, the war intentions of the entire Iron Blood Brothers Alliance became more and more high, and the cooperation of the Iron Blood Brothers Alliance was not obvious.

All professional positions such as anti-war, violent war, anti-riding, punishment riding, healing, mage, shooter, etc. are in order, and everyone only needs to be responsible for the enemy, side or other aspects of their front. They fully believe in the teammates around them. Protect them and don't need them to be distracted to take care of other things.

The battle of the Brotherhood of Freedom against the Capital of Freedom is like the fierce beast that opened its mouth and devoured the entire City of Freedom.

Lu Luyang said to Li Rongde, "How is it? How is my team?"

荣 Li Rongde turned back and glared at Lu Yang, cursing: "Don't be too crazy, my reinforcements will be here soon."

Lu Yang smiled and said, "Can't come, did you find that my offensive team is only 200,000 people, and the other 100,000 people are waiting for Pu Renyi in the rocky hills?"

"You, you." Li Rongde was stunned. He did not expect that Lu Yang knew about the reinforcements, and said in a panic: "You only have 100,000 people, but you can't beat Park Renyi. There are still 300,000 people in my city. Defeated so quickly. "

Lu Yang shook his head with a smile and said, "Li Rongde, don't have any fantasies. The 300,000 people who came to fight with me today are all officers of the Jagged Brotherhood. They have fought nearly a hundred times with me. The advanced players in large-scale battles are the essence of the 15 million players in the entire Iron Brotherhood. Let alone you, no guild in the world can beat us. "

“But Park Renyi ...” Li Rongde refused.

Lu Yang said, “It took only a few months for Park In-yeon to unify the entire Korean server, and they fought several tough battles. There are millions of people on this scale. This kind of young soldier who has not experienced a big battle, Dare to challenge me? “

荣 Li Rongde’s heart was dark. He knew that Lu Yang was right. Park Renyi had the support of Japanese and American consortia in South Korea. He easily won the 48 main cities in the country and had never experienced any kind of war.

But Lu Yang’s war experience, he knows that he has fought tens of millions of people, dozens of people have wars, and hundreds of thousands of people have wars nearly a hundred, depending on who is attacking the capital of freedom. The murderous spirit of the Jagged Brothers player can know that he planted this time.

But Li Rongde still had a hint of fantasy in his heart. When Lu Yang saw Li Rongde’s expression, he knew he was not convinced. At this time, the white lion sent a live video.

Lu Yang opened his eyes and chose to cast a screen to the side, and said to Li Rongde beside him: “Look, 200,000 people in Park Renyi have entered my trap.”

In the screen.

Pu Renyi and his army are walking through the rocky hills. The vanguard has gone far. The Chinese army has just entered the attack range of the White Lion. Among the Chinese army, Pu Renyi is the leader.

荣 Li Rongde quickly picked up the phone and called Park Renyi.

“Yang Yang Suo”

Lu Yang trapped Li Rongde and said, “Don’t let the news go, it’s too late, just watch it.”

荣 Li Rongde said nothing and wanted to send a message, but at this time, with a sound of cannon, the white lion jumped on a large rock, took out his two-handed sword, and shouted, "Iron brothers."

"Kill ~!" The two white tigers and white wolves entered the bloodthirsty mode, and madly took 30,000 people down the hills from both sides, cutting Pu Renyi's troops into three sections.

The white lion took 40,000 main force and pounced on Pu Renyi's headquarters. At the same time, the sky was overcast with countless secondary curses falling from the air.

The 200,000 troops of Ji Purenyi had been chaotically running because of running, but now they have been attacked and become more chaotic.

"Stabilize, stabilize me," Park In-yeo shouted.

What a pity, no one listened to him and was afraid to lose the equipment. In the face of the attack of Bai Shi Sanxiong, everyone ran like a headless fly.

Li Rongde looked at the scene and sighed, saying, "President Lu Yang, I lost."

Lu Yang smiled and nodded, and said, "You have a lot of offense. If you are a Chinese in other parts of the New World, you can find me, and I will provide you with all kinds of help, but I am sorry this time. "

荣 Li Rongde originally thought that Lu Yang would taunt him, but he did not expect that Lu Yang would talk to him like this. He laughed at himself and said, "Farewell."

Li Rongde withdrew from the game and went to the Freemasonry.

Lu Yang did not stop Li Rongde. After watching him leave, he boarded the city of Liberty. At this time, the battle had come to an end. Zhou Tianming and Tian Yao led the resurrection point in the city. After the extermination, he could only be resurrected in a wild cemetery outside the city. When he learned that Park's reinforcements had been attacked, Park Ji-sung had no courage to fight again, and took the team to the fortress to return to the city and roll back to Guyseven.

The players in the city that originally belonged to the Li Rongde Guild saw that Park Ji Sung and Li Rongde were gone, and they lost the courage to resist, and all ran out of the city and ran away.

Lu Yang easily occupied the main city, and the name of the city-building order was changed in the inner city. The Liberty City became the sixth main city of the Iron Brotherhood in the New World.

“Boss, the raid in the city is complete.” Zhou Tianming said.

Lu Yang nodded and said, “Put players who go online at night to defend in this main city, and triple the guild points tonight.”

“Yes.” Zhou Tianming went and arranged.

Not long after, the three males of the Bai Family flew to the Freedom City and entered the city’s main house. The White Lion proudly said to Lu Yang: “Boss, the task is completed. 200,000 people of Park Renyi were killed by me, more than 100,000. The rest All ran back. “

Lu Lu said with a smile: “It’s hard, take the team to rest, there will be no war tonight.”

The White Lion asked, “Don’t you need to guard against Park In-ye?”

Lu Yang shook his head and said, “We wired people around Park In-Yi, and Park In-Yi has gone offline. I guess I went to the United States with Li Rongde to admit it.”

Everyone laughed.

“Go and rest, I’m on duty,” Tian Yao said.

Lu Yang nodded, leaving one-third of the vice-chairman on duty, and the rest went offline to rest.

清 Early morning the next day.

Iron Brothers broke through the Liberty City overnight, and the news of 200,000 players ambushing Park Renyi spread among the players.

At the forum, Lu Yang instructed Tu Feng to tell the story in detail, as well as the players from the free capital and the side of Park Renyi. Although the parties talked about the truth of each party, one thing is certain. Lu Yang tactics are unparalleled, winning Li Rongde and Park Renyi wins beautifully.

“What can I do?” Park Renyi paced back and forth in the room.

Park Zhixing said, “Brother, I don’t blame you for this. Li Rongde took advantage of the greed, and he shouldn’t have established the main city only three hours away from Lu Yang. This is his responsibility.”

Park Renyi quickly motioned to Park Jixing to shut up and whispered, “This is not the idea of Li Rongde, but the idea of Freemasonry.”

Park Zhixing knew that she was silent and shut up immediately.

“Two, please come in.” A housekeeper-like man came to the two and said.

“Thank you, butler, Smith.” Park In-young and Park Ji-sung entered a conference room. There were more than a dozen people in the house, and they both looked unhappy.

A person headed by Ji reached out and motioned, “Sit down, let’s discuss this time.”

“This incident made it clear that Park Renyi’s support was too small, which led to the breach of Li Rongde’s fortress, and Park Renyi demanded a great responsibility.” One said.

他们 In their opinion, there are millions of people in Park Renyi’s hands, and one million people can help Li Rongde keep the main city.

Park In-Yee thought for a while and said, "You guys, this is not a game that can determine victory or defeat based on just the number of people He depends on equipment. Although I have millions of people, With tens of millions of members, why didn't he send 500 people to fight the fortress at one time? In his opinion, it is not necessary, as long as 300,000 players wearing level 110 equipment are enough. "

"Is 110-level equipment so much stronger than 100-level equipment?" One person asked.

"The attributes of the two are doubled. A level 110 player is standing up and a level 100 player is playing. The level 100 players will not do much damage to them. It can be likened to this, a level 110 player, facing a level 100 player, Just like a 30-year-old adult wearing armor, holding a two-meter-long machete in his hand, facing a group of 16-year-old children with wooden sticks in their hands, without defense.

Maybe when the two sides fight, the adult will be injured, but to kill this adult, I am afraid that only this adult is exhausted, and in the game, there is no exhaustion. "Park In-Yi said.

A group of people came to understand.

"You mean, Lu Yang found a way to get a large amount of 110 dark gold suits before you?" One person asked.

Park Renyi said: "Exactly, if we want to defeat Lu Yang with less people and more people, we'd better not provoke him now, but let him and Liu Jie work hard. The method is that in the game, the equipment is the most important. If we can quickly rise to level 200 and wear a set of 200 dark gold equipment, I am afraid that this person will destroy the Iron Brotherhood. "

“According to you, should we stop fighting and raise the level of existing personnel as much as possible?” The head of the group asked.

“Yes, level and equipment are everything.” Park Renyi said.

Several people in the room discussed with each other, and the head of the person said, “Let’s forget about Li Rongde for the time being. You can develop yourself with peace of mind and improve your level as much as possible. He has no time to take care of you. “

“Thank you very much.” Park Renyi bowed, and when he saw the head of the man motioned for him to leave, Park Renyi quickly took Park Jisung out of the room.

When he got outside and sat in the car, Park In-yeo finally breathed a sigh of relief, and said, “It’s finally a pass.”

Park Ji-sung asked, “Brother, what are we going to do next? I suspect Lu Yang will continue to attack us.”

Park Renyi smiled and said, “No, Lu Yang will become self-conscious for a while.”

“Can they really do it?” Park Ji Sung did not believe it.

Park Ren-yi said: “If others say this, they may not be able to do it, but they can be sure that they can do it 100%.”

Park Ji-sung was stunned and said, “They didn’t expect such powerful abilities.”

Park Renyi said: “Look at it, Lu Yang is going to be out of luck.”

...

The next afternoon.

Lu Yang just woke up to enter the game, Tu Feng called and said, "Boss, something may be wrong."

"What's wrong?" Lu Yang asked.

Tu Feng sent a map of the new continent and said, "At present, we have six enemies outside the northeast region, and are discussing to jointly attack our Tianjian Fortress and Tiger Fortress. Inside the Northeast, some people are plotting to attack us Player. "

Lu Yang asked, "Do you know who it is?"

"There is no news yet. The 6 guilds that want to attack us are not small guilds. They include Huaxia's blood vengeance, Tianxin alliance, French angel baby, India's Ganges, the Philippines' wing of freedom, and South Africa. Vulcan Army. "Tu Feng said.

Lu Yang smiled and said, "Every country has it. 80% of us hit Li Rongde, and the revenge behind him came."

Tu Feng said with a smile: "The total number of alliances in these 6 countries is large, and several of our enemies are familiar to you."

Lu Yang asked: "Who?"

"The chairman of the Blood Vendetta is called Bloodthirsty Batian." Tu Feng said.

Lu Yangquan flashed out the flame cross, forcing back the excitement and withdrawing the flame, he asked, "How could he make a comeback?"

Tu Feng said, "According to the information we have received, Bloodthirsty Doom doesn't know where to get the sponsorship, bringing together those people in his original guild, not only him, but also the black blood and the **** legion, etc. Everyone started the team again. "

Lu Yang smiled and said, "Okay, come here well. The New World is a good place for revenge, but also a good place to make breaks. Tell me about several other guilds."

Tu Feng said, "These foreign guilds are nothing special, the other one is the Tianxin League, which is also a Huaxia guild, but we have never heard of this guild before, and we have never seen anyone in this guild. , I don't know what this person thinks, they must be against us. "

Lu Yang said, "Can you determine the specific locations of them?"

Tu Feng shook his head and said, "None of them have a main city, and they don't seem to have plans to build a city. They have always been around some villages and small cities in the New World. It is not easy to find them."

Lu Yang nodded and said, "That's it, send someone to break into their interior, find their fixed place, and I'll take them there."

Tu Feng nodded, just about to hang up, Lu Yang said, "Yes, especially pay attention to the bloodthirsty domineering, although pay attention to him, but do not alarm him, but let him develop more, I really miss him . "

Tu Feng said with a smile: "Okay."

Lu Yang hung up the phone, left the hotel in the game, put on a flying carpet, and flew north from the main city all the way.

Where he is going is to find a way to continue the upgrade of the demon heart, even if he is in the world, the upgrade location of all the artifacts such as the demon heart is on every road.

Lu Yang knows that he is now one of the strongest people in the world. Everyone wants to overthrow his guild and occupy his territory, but this is a different world. The most familiar place in the last life, Lu Yang ran. There is no way to win him here.

After half an hour, Lu Yang came to the top of a mountain full of ice. In the game, at this time it was winter, snow was floating in the sky, and there was snow on the top of the mountain. There was an extreme not far from the top of the mountain. Beautiful lake.

The lake is covered with snow, but the lake itself does not have a place with frozen ice. Not only is there no ice, but a large amount of mist rises from the lake surface, so that the falling snowflakes will melt into the snow without waiting for it to fall into the lake.

System prompt: You found Dongfeng Lake

Lu Yang landed next to the lake and looked at the lake with a smile. This is one place to get the Level 5 materials of the Demon Heart.

According to the game data, when the demon blew up, some fragments penetrated space and time and fell into the new continent. One of them fell on the bottom of the lake and was obtained by a giant water monster. The water monster ate the heart fragment of the demon and owned the fire system. Spell.

Lu Yang looked around. The water monster is a huge dinosaur, and he is good at fire magic. If it is a melee, Lu Yang knows that he must not fight the dinosaur. But if it is a long-range monster, Lu Yang is confident to kill him easily. .

“Oh ~!”

A strange cry sounded. After a while, a huge long-necked dinosaur swam out of the water and saw Lu Yang, his face showing anger.

Chiyang Fire Dragon (Lord)

Level: 120

Qi and blood: 50000000000/50000000000

Lu Yang pointed at the fire dragon's heart and said a spell in his mouth.

"Blazing Heart"

A fiery flame hit the fire dragon.

"9979668"

A huge amount of damage lit up from the head of the fire dragon. Nowadays, Lu Yang's intelligence is more than 70,000 The damage caused by the burning flame is extremely horrible.

The Chiyan Fire Dragon instantly aimed his eyes at Lu Yang and spit out a series of melting bombs.

Lu Yang's least fear is to melt the bomb. When the skill comes near, he immediately uses the evasion skill and quickly avoids it. Then he leads the fire dragon to the shore step by step and uses the lava erupting skill at the foot of the fire dragon.

The main skills of Chiyan Fire Dragon are melting bombs and a few spell-casting spells. These skills are invalid for Lu Yang. In just one hour, Luyang killed the Chiyan Fire Dragon and got the Fire Shard.

Then Lu Yang took the flying carpet to the next place. The Red Fire Dragon would brush one out every week, and if he wanted to upgrade the heart of the demon to level 5, 6 pieces of fire spirit were needed.

Lu Yang searched according to the memory of the last life. For a whole day, he found the existence points of 6 red fire dragons, easily killed 6 fire dragons, and got 6 fragments.

Back at the demon temple, Lu Yang placed the six fragments and the heart of the demon on the altar, a light flashed, and the heart of the demon rose to level 5.

Chapter 1045 - Ghost fire lamp

Demon Heart

Level: 5

Constitution: +5000

Strength: +5000

Stamina: +5000

Intelligence: +10000

Dexterity: +5000

Flame Demon: Level +4

Special Spells: Meteor Fire Rain, Meteor Fall, Ghost Fire Light

Effect: Spell Penetration + 50%

The level of the Demon Heart rose to level 5 and various attributes have increased a lot, which is equivalent to wearing 2 pieces of excellent gold equipment of level 100, and the skill level has increased again, but what really makes Lu Yang excited is the ghost lamp skills.

Ghost Fire Lamp

Type: Fire Spell

Cost: 5000 mana + 1000 mana / second

Duration: No cooldown

Distance: 100 yards

Description: Throw 4 rotating ghost fire lights at the specified position or itself, causing pure intelligence damage to the target, ignoring magic resistance, invalidating magic immunity units, and the number of ghost fire lights increases with the level.

This is a very powerful skill. He can make Lu Yang kill many lord monsters that can't be singled out, especially those who move very fast, so that Lu Yang can't escape.

"With this skill, my demon heart can speed up the upgrade." Lu Yang shook his fist and quit the game and fell asleep.

the next day.

Lu Yang took the flying carpet to the 140-level map—Blood Fortress. According to the information provided by the game, a humanoid creature named Blood Emperor was inhabited in the Blood Fortress. He was one of the four ancestors of the blood creatures on the old road. He led the first human world invaded by blood races, but he could not break through the barriers of time and space.

In the game settings, higher level creatures are more difficult to penetrate time and space barriers, but lower level creatures are more likely to penetrate time and space barriers.

Many tasks in the New World are heavy. Killing the Blood Emperor is one of the most important branch tasks, but it is not easy to get here. Only people who have a flying carpet can reach them. This is why the New World has been open for so long. , But still no reason for flying mounts.

Two hours later, Lu Yang came to the Blood Fortress, which is a very large circular fortress. The surrounding wall is made of white bone, which is 10 meters thick and 80 meters high.

There are more than 100 sentry towers around the wall. Each sentry tower is monitored by a female insect. There are many blood birds on the female insect's head.

The blood bird was invincible at this stage. Lu Yang did not dare to provoke him. He controlled the flying carpet to cross the blood bird's head dozens of meters and flew into the fortress.

The fortress is close to a large mountain. In the back mountain, Lu Yang saw the blood emperor himself. This is a humanoid creature, more than 60 meters tall, blood red, with a skull on his head, and a giant spear.

Blood Emperor-Borgus (Lord Level)

Level: 140

Qi and blood: 80000000000/80000000000

There are a total of six Borgus skills. The first is a level 8 blazing fast. The whole person seems to be teleporting, and can quickly move in front of anyone.

The second skill is the blood feast stabbing. The spear stabs forward violently, covering the fan-shaped area 100 yards in front of it, causing millions of injuries. Non-defense combat must die.

The third skill is the blood feast, a red light appears on the ground, and then a red ghost catches the target, losing 500,000 blood every second.

The fourth skill is blood color blindness, range attack, once hit, immediately betrayed the blood emperor's men, attacking the player.

The fifth skill is Call of Death. Once a player is killed, the body explodes and a **** ghost slays and kills the player.

The sixth skill is the Scarlet Necklace, which randomly summons three players to him and puts them on a Scarlet Necklace. If the three do not leave quickly, they will lose 500,000 blood per second.

Each of these six skills does not seem to be powerful, but they are used in combination. In the previous life, players reached level 160, and no guild has been able to kill the dead blood emperor.

Lu Yang dared to single out because he had the skill of a ghost fire lamp and controlled the flying carpet to fall. Lu Yang came to the Blood Emperor Hall and walked a distance of 100 meters from the Blood Emperor.

The blood emperor did not notice Lu Yang, and continued to walk around in the hall, cursing: "Damn, the blood race I inserted into the human race failed continuously, and I will certainly not spare them."

Lu Yang sneered. This is the boss and lord who killed the blood tribe most in this life. Almost all the boss and lord of the blood tribe wasteland were killed by him.

“噫”

The Blood Emperor sat back to his place. This hall is an open air hall, because he is next to the mountain, behind the hall, and next to the cliff on the seat of the Blood Emperor, there is a cave, which is the only one that can get stuck. The position of the blood slayer.

Lu Yang looked at the distance between him and the blood emperor, feeling the same, mainly because the blood emperor was too fast, as if teleporting. He wanted to jump to the back of his seat immediately after hitting the blood queen, only less than 0.8 seconds. Reaction time.

Once the reaction is slow, the blood emperor will appear in front of the player, and give the player a heavy punch, and he will die if he hits.

Lu Yang moved his body a bit, and now his soul reaction speed is not even 0.1 seconds, he feels that he has no problem in avoiding this skill.

“Blazing Heart”

A fiery white flame hit the blood emperor's heart.

“11250000”

A huge injury erupted from the blood emperor's head, and the angry blood emperor glared at Lu Yang.

“Roar ~! Damn man, how dare you profane God's dignity.”

The blood emperor's body turned into a fire shadow, which instantly appeared in front of Lu Yang, and his left hand punched down. At this time, Lu Yang's body exuded a white light. When the fist landed, he jumped to the blood emperor's seat. Behind.

When the blood emperor was boxing, he looked back at Lu Yang, and just saw Lu Yang throwing a flame cross at him.

“75000”

“Damn it, you bug.” The Blood Emperor chased again, but just before him, Lu Yang launched an escape dagger.

“flicker”

The blue light flashed through Lu Yang just jumped onto a rocky bulge under the cliff. There is nothing around here. There is only such a bulge, just enough for Lu Yang to stand alone.

Lu Yang did not hit the blood emperor with this method in the last life. For the first time in this life, he had to sigh. The player who found this bug is really a master. It would be impossible to find such a position without a very detailed study of the game.

The blood emperor stood at the top of the cliff, and looked at Lu Yang repeatedly roaring, but there was no way for Lu Yang, but he stood still in a daze.

“Ghost Fire Lamp”

There were eight rotating ghost headlights in Lu Yang’s hands. The ghost headlights released a fiery flame throughout the body. Because Lu Yang had too many equipment to increase the skill level, the original four ghost headlights became eight.

He looked at the wind, which happened to be the headwind. Using the anti-throwing technique, he threw the ghost light upwards, and it just landed where the blood emperor stood.

Eight rotating ghost fire lights instantly attack the blood emperor with a frequency of 8 attacks per second. The intelligence of more than 75,000 points makes the ghost fire lights deal very high damage, and it also comes with a crit effect. In just 1 second, the blood emperor is destroyed. Killed more than one million blood.

Chapter 1046 - Demon Heart Level 6

The Blood Emperor stood beside the cliff, and there was no way for Lu Yang, who was under the cliff on the inner slope, he could only roar after being hurt.

Lu Yang waited like this, the magic was gone, he immediately used the potion to restore the magic, and kept the magic full at all times for nearly half an hour.

System prompt: you killed the blood emperor

The escape dagger in Lu Yang’s hand was thrown upward. As a master, he could know whether the escape dagger had penetrated the wall.

“flicker”

The blue light flashed, Lu Yang held the escape dagger across the rock, reached the top of the cliff, the position of the blood emperor's body, and in a piece of equipment, he found the melting fire gem.

Molten Gems

Description: No one knows what he does, maybe someone in the Temple of Vulture will know.

Lu Yang smiled. This fused fire gem was the necessary thing for the Demon Heart to reach the sixth level. He looked at other equipment. Among the equipment, the most dazzling was a **** sword.

Blood Emperor Sword (Legendary)

Level: 140

Damage: 000—800

Strength: +00

Intelligence: +00

Stamina: +00

Additional Spell Damage: +100000

Additional Spell Penetration: +100000

Additional Spell Critical: +100000

Additional attack power: +100000 points

Additional physical penetration: +100000 points

Additional physical crit: +100000

Skill level: +2

Special Skills:

Sea of Blood: Releases a piece of blood-red seawater, inflicting 100,000 damage per second to the target.

Lu Yang picked up the giant sword and took a careful look at it. This is the first treasure of the blood family that Lu Yang is thinking about. Although he is only level 140, he is a growable weapon and can eventually rise to level 200. And can grow into artifacts.

Artifact, so far in the game, there is no second artifact except the heart of the demon, but this weapon can be turned into an artifact. He is also a magic weapon, which is suitable for his water element avatar.

He put his weapon in his backpack, put on a flying carpet, and entered the copy in the lower right corner of the Scarlet Fortress-inside the castle of the Queen of Shadows.

In the Blood Emperor Fortress, there is a Blood Shadow Queen, the blood emperor's wife, responsible for the normal operation of the entire blood race.

System prompt: You entered the Queen's Castle

Lu Yang looked around. The blood queen's castle has come many times in the last life, and the appearance is no different from the previous life.

The queen castle is different from the human castle. It is a castle composed of flesh and blood, and all the channels are composed of huge blood vessels.

These blood vessels can be interrupted by the player's spell. Although this mechanism mimics reality, it allows the player to find a flaw.

If the player interrupts all the blood vessels at the entrance of the castle, the monsters in the game will tribe to the bottom of the castle, so that all the monsters will come together, allowing the player to brush monsters.

Lu Yang walked to the door, read the spell in his mouth, and magic bombarded down, and soon all the blood vessels were interrupted.

Relying on blood vessels to support the flesh and blood floors around the castle collapsed, standing on the flesh and blood level 150 elite monsters and boss monster tribe to the lowest level.

The first floor and the bottom floor of the castle are about 500 meters away. Lu Yang jumped slowly along the corner of the flesh wall. When he came to the position 60 meters from the bottom floor, there was a blood vessel interface. Lu Yang stood there. Looking at the huge space on the bottom floor below, there are 140-level blood guard elites and boss-level monsters everywhere, and at the farthest point, a giant flesh with a height of 60 meters is the blood queen.

“Lava Eruption”

Lu Yang spread his skills on the ground. It took more than an hour to kill thousands of monsters and came to the blood queen.

Blood Queen (Lord)

Level: 140

Qi and blood: 00000000/00000000

The blood queen's body looks like two buns, with a big bun underneath and a small bun above, and the upper bun is still upside down. The connection point between the two bun buns is his eyes.

The blood queen has a lot of skills, but it is easy to kill the queen, because as long as someone jumps on the blood queen's head, the blood queen's attack skills can only deal the damage with the next **** whip.

“flicker”

Lu Yang jumped up in the air and quickly jumped forward. He had just reached a distance of 50 meters in front of the queen, flung the dagger in his hand, and a blue light flashed. Lu Yang appeared on the queen's head.

“Human, you are provoking the Protoss.” The blood queen roared again and again.

A white bone spur appeared on the ground, filling the area around 100 meters. This is a range attack skill. Any stabbed will lose 600,000 blood.

Lu Yang's blood is only 600,000. If he is hit, he will definitely die, but Lu Yang jumps to his head and can't hit his skills.

“Ghost Fire Lamp”

Lu Yang's mouth read a spell, and the eight spinning ghost lights fell on the blood queen's body, killing the queen's 1 million health every second.

“Blazing Heart”

A fiery white flame hit the blood queen's body.

“11250000”

The blood queen's blood volume dropped rapidly. After losing 10% of his blood, the blood queen flew a **** chain on each of the eight eyes and whipped over the landing sun.

This is the most difficult level. If you want a single pass, you must try to avoid these 8 chains. Fortunately, Lu Yang I did not know how many times to avoid the chains.

“Woo ~~~”

The chain flicked over, Lu Yang dwarfed, and the second chain flicked over. Lu Yang squatted and jumped up, then avoided the second.

The third one slashed upright, Lu Yang sideways and dodged, the fifth one flicked sideways, and Lu Yang evacuated backwards.

...

After hiding for 20 minutes in a row, when Lu Yang felt some fatigue, the queen whimpered and fell to the ground.

System prompt: You killed the Blood Queen

Lu Yang jumped off the queen’s body and looked at the equipment.

Orb of Blazing Flames

This is the second item upgraded by the Demon Heart. After collecting 5 more pieces, Lu Yang can raise the Demon Heart to level 6.

“Dididi”

The voice of the intercom sounded, and Lu Yang picked it up. Qi Yun called and asked, “What’s the matter?”

Qi Yun said: "There are several large-scale auctions in Africa recently, Liu Jie will participate, you can't come."

Lu Yang smiled and said, "Come, of course, come, how could such a good opportunity not come."

Qi Yun said with a smile: "The time is tomorrow. I will send you the address. Remember to hide your body and don't let Liu Jie find out."

"Relax Lu Yang said.

After closing the intercom, Lu Yang continued to fight monsters, hit the queen six times in a row, gathered the remaining orbs, he returned to the demon temple with the orbs and the heart of the demon god. After the upgrade, the level of the heart of the demon **** reached level 6.

Demon Heart

Level: 6

Constitution: 10000

Strength: 10000

Stamina: 10000

Intelligence: 20000

Dexterity: 10000

Flame Demon: Level +5

Special Spells: Meteor Fire Rain, Meteor Fall, Ghost Fire Lamp, Fire Thunder.

Chapter 1047 - auctions

That night.

Lu Yang arrived in South Africa 's South Sudan airport in one step for monitoring on the spot. Qi Yun himself is discussing with their senior ministerial officials in South Sudan.

In the afternoon of the next day, Lu Yang arrived in South Sudan by plane, and Qi Yun met with Lu Yang with a middle-aged man named Ahmed.

"This is the future Prime Minister." Qi Yun introduced.

"Haha, you have won the prize, this is still no news." Ahmad took the initiative to hold Lu Yang's hand.

Lu Yang laughed. In the last life, he liked to watch the news of all countries in the world. In his impression, Ahmed is indeed the next President of South Sudan.

"I believe you can." Lu Yang said.

"Thank you," said Ahmed. "I heard that you want to buy our aluminum mine. We welcome you to invest."

Lu Yang smiled and said, "I'm not investing a small amount this time. I bet you will feel crazy about it."

Ahmad froze, and asked with a smile: "What is the amount of investment?"

Lu Yang said, "Let's talk slowly."

Ahmed is a little worried, but Lu Yang is not in a hurry, and he can't show too much. He already knows from Qi Yun that Lu Yang is a super rich with a value of 400 billion US dollars and 200 billion US dollars in cash. The money is even higher than the GDP of South Sudan. If Lu Yang can invest fully here, South Sudan's economic level will be greatly improved.

"I have prepared a family dinner for you. Please come and visit me at home," Ahmed said.

Lu Yang nodded, and went to his home with Ahmed. He was escorted by police cars along the way and was very pompous.

After arriving at Ahmed's house, he sat down with Qi Yun and Ahmed and talked.

"Well, unfortunately, I am not capable enough. I have seen the developed countries clearly, but I have no ability to make our country like those developed countries." Ahmad drank two glasses of wine and kept sighing.

Lu Yang said, "Are you interested in revitalizing your country?"

"Of course," Ahmed said excitedly. "I joined the guerrillas at the age of 19, and then went abroad to study. My dream is to rejuvenate my country."

Ahmed's expression was a little dim, saying, "But our country is too poor, no one wants to develop, and no one wants to help us."

Lu Yang asked, "What if I said I would like to help you develop?"

"Are you really willing?" Ahmed asked.

Lu Yang said: “The original intention was willing, but I am looking for someone who can really sit in the presidency to support me and my consortium partners. If there is no strong president to guarantee our business, change one today , Change one tomorrow, so how can we continue our business? “

Ahmed’s eyes lightened and he asked, “Do you want to participate in the presidential election of our country?”

Lu Yang shook his head and said, “I’m not interested in politics, but I want to support a capable person who really wants to fight for the revitalization of my country to be president. Do you have this interest?”

Yesterday night, Qi Yun and Chang Yang talked about this matter and specifically discussed Ahmed’s case. This is a powerful figure who can definitely get the support of the aristocracy in South Sudan. At present, more than 80% of the senior officials in the South Sudanese army are guerrillas, and they have a close relationship with this kid.

If he can be president, and this person still supports Lu Yang, Lu Yang would dare to invest here.

Ahmed thought about it and said, “I have a certain chance of being elected president in the election a few months later, but I also have a strong opponent, and some domestic chiefs support him.”

Lu Yang asked, “If I can bring you tens of billions of dollars in investment money, can you be president?”

Ahmed said: “Then I will be elected.”

Lu Yang laughed. Money is the easiest way to get votes. He went on to say, “If we help you choose, I have a request.”

“What is it?” Ahmed asked.

Lu Yang said, “I want you to use your army to help me destroy an enemy at the border of Central Africa, South Sudan, Sudan and Chad.”

Ahmed frowned. "It's a bit difficult."

Lu Yang shook his head and said, "It's not difficult. This is not a matter of a few months, but a year later. You provide several places, and I will send them to internationally renowned military academies for free. I will provide you with a batch of military weapons, and I will finish the operation, and the rest is up to you. "

"Will you give us military weapons?" Ahmed was surprised.

South Sudan is now poor and has no money to buy military weapons sold by countries around the world, and their own countries are not capable of making weapons.

The precision of military lathes is far from comparable with ordinary equipment, so South Sudan cannot produce them.

Lu Yang said, "I can give you a lot."

"Well, I promised that," Ahmed said.

In fact, South Sudan is still a country formed by the chief tribes. Ahmed agreed because his origin is one of the largest chief tribes in South Sudan. If Lu Yang is willing to provide equipment, he can quickly Arm your tribe and attack those rival tribes.

"Very good. In a auction, I will buy a lot of mines you sell, and you will earn more than ten billion dollars at a time." Lu Yang said.

Ahmed was dumbfounded, he didn't expect that Lu Yang's handwriting was so large, once it was a billion dollars.

"Thank you, we will be our best partners," Ahmed said.

Lu Yang laughed. After eating, he came to the auction site with Ahmed. At the auction site, the people who came to participate in the auction have arrived. The most noticeable thing is that Liu Jie himself arrived. on site.

Lu Yang can't wait to have Liu Jie killed in black and white now, but in that case, he can't be sure that he can return to Huaxia alive.

"Everyone is here and the auction is up." Ahmed himself presided over the auction.

There are a total of 16 mines in this auction, with the lowest price being \$ 5 million and the most expensive being \$ 100 million.

These mines are just a simple survey to determine the existence of aluminum ore, but it is not possible to determine whether there are veins of aluminum ore below.

If there is, the person who bought it will get rich. If not, if you buy it at the auction price, you will lose money. This is a gamble.

"The first mine started at \$ 5 million, with a price increase of no less than \$ 1 million." Ahmed shouted.

Lu Yang was the first to raise a sign.

"5 million, someone has made 5 million." Ahmed shouted.

Someone held up a sign.

"6000000."

"7 million."

...

“10 million.” Liu Jie raised his sign.

“It’s 10 million, and no one has paid a higher price,” Ahmed asked.

Liu Jie is very proud of his bid. Basically, this price is already the highest price. Even if he obtains aluminum ore and cannot produce high-quality aluminum alloy products like his family, he can only keep the cost.

“15 million.” Lu Yang raised his sign.

Liu Jie looked at Lu Yang in surprise. Even his family could only keep the price, he shook his head and gave up the auction.

Ahmed was pleasantly surprised, asking three times in a row and shouting, “A deal.”

The hustle and bustle at the scene sounded, and everyone looked at Lu Yang, and they all felt that Lu Yang was a fool, or someone who messed up the venue and deliberately raised the price.

Ahmed said excitedly: “The second mine, located in the Coelio Mountains, has a starting price of \$ 10 million.”

Liu Jie first raised his sign and said, “20 million.”

He was too lazy to bid as slowly as others, directly mentioning the highest price, and everyone around them sighed and gave up the bid.

“This kid is so dark, relying on his family to make aluminum, he doesn’t want us to make money at all.”

“This bastard.”

...

People scolded around.

Liu Jie didn't care, waiting for Ahmed to drop the hammer. Just as Ahmed shouted three times in a row that he was about to drop the hammer, Lu Yang held up a sign and said, "\$ 30 million."

Once shouted to the top, if Liu Jie bought this mine, he would not make a penny.

Liu Jie was stunned by Lu Yang again. Looking back at Lu Yang, he didn't understand the significance of such a bid.

Qi Yun also didn't quite understand. According to the agreement between the two, Lu Yang should not spend so much money on mining.

Ahmed shouted excitedly: "The transaction, the next mine, starts at \$ 15 million."

Liu Jie didn't hurry to raise his card this time, but looked at Lu Yang. Lu Yang raised his sign and said, "30 million US dollars."

This price is still the highest price, people around gave up, Liu Jie gave up.

Ahmad was really excited. Three consecutive mines were in his tribal area, which was equivalent to giving him all the money.

"The next mine, this time within the La Tara family, starts at \$ 30 million," Ahmed said.

Lu Yang raised his sign and said, "50 million dollars."

Liu Jie raised his sign and said, "\$ 60 million."

Lu Yang raised it again and said, "\$ 70 million."

Liu Jie was anxious and shouted, "80 million dollars."

Lu Yang smiled and said, "\$ 90 million."

"I have a billion Liu Jie shouted excitedly.

Everyone thought that Liu Jie and Lu Yang were on board, but no one knew that this mine was carefully measured by Liu Jie and it was determined that the value of the mineral deposit below was 300 million US dollars.

Lu Yang said: "130 million."

Liu Jie was stunned. He looked at Lu Yang, hesitated for a long time, and finally gritted his teeth and shouted, "150 million."

Lu Yang laughed, put the sign on his lap, and stopped talking.

Ahmed looked at the price a little bit annoyed and said, "150 million, a deal."

Liu Jie won the mine.

Lu Yang sneered aside. Now it looks like Liu Jie can earn that 50 million, but he can only make tens of millions if he counts various taxes and labor costs. But when the price of aluminum plummeted a few months later, He will have a net loss of more than 50 million.

Chapter 1048 - 3 cooperation

“The next mine, the starting price of this mine is 70 million US dollars,” said Ahmed.

...

Lu Yang listened to Ahmed’s introduction. At first he didn’t care, but listening to it, he found that this mine is the same as the diamond vein reported in the last news?

“One billion.” Liu Jie said.

“130 million.”

“150 million.”

...

The outcry soon reached two hundred million, and the mine was mined by them. The final profit was about four hundred million, and the outcry reached two hundred million, which is still a good price.

Just when everyone was bidding intensely, Lu Yang suddenly raised his sign and shouted, “Four hundred million.”

Everyone looked at Lu Yang in astonishment. No one knew what Lu Yang thought, and Qi Yun was a little embarrassed. The price was a little bit unexpected.

“Boss.” Qi Yun asked carefully.

Lu Yang smiled and said, "Anyway, I have money. I want to support it with all my support."

Ahmad's heart was so excited that he didn't know what to say on the stage. He was not without knowledge, knowing that 400 million could not make money.

"Anyone else?"

"the first time."

"the second time."

"the third time."

"Slam!" Ahmed slammed the hammer and shouted, "The deal."

Liu Jie looked at Lu Yang. He saw Qi Yun, but still could not guess that the person sitting next to Qi Yun was Lu Yang.

Qi Yun also saw Liu Jie, shrugged his shoulders and expressed helplessness.

"The next mine, this time a big project, with a starting price of 100 million US dollars, this is a mine that has been determined to be able to mine resources." Ahmed shouted.

...

In the next several auctions, Lu Yang all sold at a price higher than the project price, which made everyone around him unable to understand Lu Yang's behavior. The Liu Jie family only won the mining projects in 3 mines and spent nearly One billion dollars.

Lu Yang spent more than \$ 3 billion alone, and the entire auction was taken away by both Lu Yang and Liu Jie.

After the auction, Lu Yang left leisurely, and Liu Jie left in anger.

Arriving at the backstage, Ahmed said to Lu Yang excitedly: "Brother, you really helped me a lot this time."

Lu Yang said with a smile: "It's up to you to rely on documents."

"Through all the processes in one day." Ahmed patted his breast and promised, and then he landed on Yang Yang's shoulder and said, "Brother, let me tell you something. The mine you bought is equivalent to what you bought Land, if you want, you can buy all the land around you, or build a small kingdom here. "

Lu Yang laughed and said, "OK?"

"Of course, those kingdoms are not the same as our tribe. I am the tribal chief of your land, which is equivalent to selling my land to you. Of course, you can do whatever you want." Ahmed De said.

Lu Yang sighed that it really is rich enough to make ghosts grind. This is all right, and he said to Ahmed, "You said that, I'm welcome, right, don't forget what you promised me . "

"Isn't it just to clean up your enemies, who do you say?" Ahmed asked.

Lu Yang said, "Liu Jie."

"Liu Jie?" Ahmed was surprised, and asked, "Is that the guy just at the auction?"

Lu Yang said, "It's him, how?"

Ahmed said: "His family has a lot of mercenaries here, which is not easy to deal with. I have no confidence in the regular army to catch him."

Lu Yang said, "You just need to provide this convenience, and I will send someone else to get it done."

"Okay, I'll do my best to help you no matter what you want me to do," Ahmed said.

Lu Yang patted him on the shoulder and said, "You're busy, I'll inspect my territory."

Farewell to Ahmed, Qi Yun took Lu Yang to the workplace with a team of engineers and security staff who had been recruited for a long time.

"Boss, you have invested too much this time. It seems to be a bit expensive." Qi Yun said while walking with Landing Yang.

Holding the map, Lu Yang looked at the theodolite and looked left and right, pointing at an obvious terrain, saying, "Let the prospectors drill down from here."

"Drill from here?" Qi Yun asked in surprise.

Lu Yang said, "Yes, give me a drill below 200 meters."

"OK." Qi Yun called the engineering captain and let him drill here.

The professional drilling team has a drill pipe, which can only drill down to a hole of 10 cm in diameter and can drill to a depth of 1,000 meters.

Soon, the drill bit penetrated into the ground, and the drill rods were sent into the ground one by one. At night, when the drilling was over, the drill rods were pulled out.

Lu Yang said, "Show me soon."

The engineer pulled up and said, "It's weird, the last tens of meters is easy to drill."

He came to Lu Yang with the first drill rod, opened it and put it on the ground, but just opened, everyone's eyes showed golden light.

"Gold mine," the engineer shouted.

Qi Yun shouted excitedly: "Boss, there are not only aluminum ore below, but gold ore down, we make a lot of money."

Lu Yang smiled and said, "I'll say I'm lucky, let me continue to drill down tomorrow to see how big the scope of this gold mine is."

"Yes," the engineer said excitedly.

On this side of the mine, on the other side, Lu Yang and Qi Yun flew to Germany's largest machinery factory, Krupp, the company that built tanks and guns during World War II.

The company's chairman personally received Lu Yang and Qi Yun. The status of the two was placed there, and they could not tolerate André von Cassel's inadvertent reception.

"Qi Yun and Mr. Lu Yang must have important things during the visit." Andre asked the two to sit down and asked with a smile.

"I'll talk to you about a business," Lu Yang said.

"What business?" Andrea asked.

"I want five super excavators and 100 120-ton mine cars." Lu Yang said.

Andrea glared brightly and said, "This is a big business. Are you sure you want so much?"

Lu Yang said, "Yes, and it will be today."

Ander thought for a moment, and said, "I'm afraid this won't work. I have it here, but it was ordered by others."

Qi Yun said with a smile: "I know who this is for, when will an order for the state-run company be unavailable, why can't we cooperate with us first, we are willing to pay the entire amount at once."

There were originally 5 super-excavators to be delivered to the Ruhr Industrial Zone, but the Ruhr Industrial Zone is state-owned and is not in a hurry.

"If you're willing to pay the bill in one go, I can sell you 5 super diggers first."

Lu Yang said: "Money is not a problem. You have to ship these 5 super excavators and 100-volume mining carts to South Sudan within three days. I will pay for them. No matter what method you use, you must ship them within three days."

Ander shrugged and said, "As long as you are willing to spend money, these are small things."

Lu Yang and Qi Yun laughed.

"That's the way to set it up, and enjoy the cooperation." Lu Yang said.

Andreau felt very happy too, saying, "I'll invite two for a meal."

"of course can."

...

For three days in a row, Lu Yang watched as Andre used air transport aircraft to transport all equipment to South Sudan.

On the evening of the third day, the engineer finished the survey and said to Lu Yang with emotion: "Boss, if there is no detection error, the gold mine here should be the largest gold mine in the world at present, with a reserve of about 55,000 tons. Estimate. "

Lu Yang laughed and said, "It's enough to have you."

He called out and called Song Sisi, the second lady of the Song family, and asked, "What are you doing?"

Song Sisi yawned and said, "Sleep, brother, why are you calling me this night, owl, I don't know that women want to sleep and sleep."

Lu Yang smiled and said, "How about compensating you?"

"Cut, take money to compensate, my goddess is not an ordinary girl, and I don't look at it for tens of millions." Song Sisi said dismissively.

Lu Yang said, "What if hundreds of billions?"

"What?" Song Sisi was dumbfounded.

Lu Yang said: "Called Song Yunyi and told him that I just found a super gold mine with a reserve of at least 55,000 tons of gold. I can't eat this project alone. I want to work with you two."

Song Sisi touched his forehead and said, "I'm not dreaming, are there such good things?"

Lu Yang said with a smile: "It's best to call your parents together. There are many people who can cooperate with me. Look at you two as Chinese. Among the super consortium of all of you, the two of you have the best relationship with me. Look for you, don't be ignorant. "

“Coming soon, where are you?” Song Sisi asked.

Lu Yang sent the coordinates to Song Sisi’s mobile phone and said: “I’m waiting for you here, let’s discuss how to develop here.”

“Okay.” Song Sisi hung up the phone and drove to Song Yunyi’s home overnight, grabbing Song Yunyi from the bed.

“Why old sister.” Song Yunyi was afraid in his underwear.

Song Sisi said: “Good thing, Lu Yang said he found a gold mine with at least 55,000 tons of gold, and he wanted to develop with us both.”

“55,000 tons, Brazil’s largest gold mine is only 53,000 tons, he is not kidding.” Song Yunyi said in surprise.

Song Sisi shook his head and said, “I do n’t know, but for so long, Lu Yang is not like a person who talks wildly. If there is such a large gold mine, then the two of us do n’t need to do anything else in the family. It is already considered Helped our respective parents achieve enough results. “

Song Yunyi clapped his palm and said, “Let’s go. I’ll buy a ticket.”

“What kind of ticket do I buy? I have asked my mother to borrow a private jet. Let’s go to South Sudan by private jet tonight.” Song Sisi pulled Song Yunyi and ran away.

Soon, the two took a plane and arrived at the South Sudan International Airport after one night. After parking, they saw Qi Yun coming to meet them.

“Qi Yun, tell me the truth, what is going on?” Song Yunyi asked.

Qi Yun said with a sigh of excitement: "The boss is really a godsend. He spent 2 billion US dollars on the aluminum mine. I didn't think there was a 55,000-ton gold mine hidden below. Do n't say anything. I Yes, they ca n't be compared with him. This is God 's favor. "

Song Sisi and Song Yunyi are dumbfounded, what a proud person Qi Yun is, even if he meets Bill Gates, he will not be humble, but just mention Lu Yang, Qi Yun has the same expression, and they believe that this time It's true.

"Is there really such a big mine?" Song Sisi asked.

Qi Yun took the two of them to the car and said, "In the past three days, we and the drilling team have searched the surroundings, determined the specific location of the veins, and studied the mineral content of the veins. After calculation, basically It is determined to be about 55,000 tons. "

Song Yunyi made a simple calculation and said in shock: "This is a big mine of nearly two trillion US dollars."

Song Sisi said in amazement: "Lu Yang's luck is so good, he really cares for him."

Qi Yun said with a smile: "Go to the place and talk to my boss in detail."

Song Yunyi pulled Qi Yun and said, "To be honest, how much shares Lu Yang gave you."

Qi Yun said with a smile: "Not much, 5%."

"Fuck, your grandparents don't need to worry about money," Song Yunyi said.

Qi Yun sighed and said, "Yeah, I have to work hard for the boss in my life, otherwise I'm really sorry for him."

Song Sisi and Song Yunyi were speechless. Soon after the car arrived at the mine, Song Sisi and Song Yunyi saw Lu Yang waiting not far away.

Song Sisi walked quickly to Lu Yang and asked, "Lu Yang, show me the drawing."

Lu Yang shook his head with a smile and said, "I don't need to bother so much. I bought the most advanced excavator in Germany. It arrived today. We can look at the gold mine below for two days."

Song Sisi and Song Yunyi looked in the direction of the landing fingers, and they were dumbfounded. Five huge 30-storey excavators appeared in front of them.

"Krupp's super excavator, a machine with 18 buckets, digs 13,500 tons of soil a day," Lu Yang said.

Song Sisi and Song Yunyi in petrochemical.

"Brother, your style is too fierce and popular, just do what you say." Song Yunyi said.

Lu Yang said: "30 oversized planes arrived by air in three days. They were just assembled and there was a convoy there, waiting for you two to blast."

The convoy was all giant trucks. Qi Yun personally issued an order. The chief commander pressed *. The ground in the distance shook and collapsed more than 10 meters in height. When the smoke dispersed, Lu Yang personally gave an order.

"Starting work!"

Nearly a hundred mining trucks, five super excavators began to work in an orderly manner. Song Sisi and Song Yunyi were standing at the drill pipe samples at the moment, watching the gold ore samples.

"Lu Yang, if these samples are like these three days later, my family will be fully invested in this industry. If you open a condition, how can we let the two of us come in." Song Sisi asked.

Song Yunyi said: "Brother, you can open as long as you can, as long as we can do it, absolutely do not quit."

Lu Yang smiled and said: "There is only one condition. I want to destroy the entire Liu Jie's family, and you have to send people, send troops, and send weapons to help me kill Liu Jie's mercenaries."

Song Sisi showed a cold smile and said, "Isn't that just killing dozens of people? Look at you so implicitly, it's better to leave it to our Song family."

Song Yunyi said: "I help. It's nothing to kill a small consortium."

The two didn't care about the killing at all, obviously they knew all the business in the family business for a long time, and they were no strangers to this.

Lu Yang smiled and said, "For the time being, don't let your family spread the word, so as to avoid extravagance, only your parents."

"OK." Song Sisi and Song Yunyi said together.

This is a pie thing in the sky, where the two would talk nonsense, immediately went to the side and discussed with their parents.

Three days passed quickly, and five excavators dug down 200 meters to clear the surrounding aluminum ore, exposing the golden surface below.

"Gold mines are really all gold mines." Song Yunyi shouted excitedly.

Song Sisi couldn't calm down. Obviously, Lu Yang didn't deceive them, there really is such a super gold mine.

"Lu Yang, let's talk, how much share do you give us?" Song Sisi asked.

Lu Yang said, "You two, each is 25%, how about it?"

Song Sisi and Song Yunyi nodded, this ratio is enough for the two families to pay any price to win the gold mine.

“In addition to killing Liu Jie, we are obliged to negotiate with South Sudan to mine this mine. I believe that with our Song family and Khambang family and your participation, South Sudan can only accept the fact that we have taken down this mine.” Song Sisi said.

Such a huge gold mine is no longer a simple purchase of land. If exposed, South Sudan will not tolerate Lu Yang to mine this mine. Many super families in the world will also find Lu Yang trouble.

Although Lu Yang has a net worth of 400 billion U.S. dollars, but he is engaged in financial earning, he is completely incapable of putting up so many guns and arrows, only to find the Song family and the Kangbang family to cooperate.

“Let’s both of you, I also need to talk to Ahmed.” Lu Yang said.

Soon Song Sisi’s parents and Kangbang Yunyi’s parents came. Four people sat down to negotiate. The two had already negotiated before and had no opinion on the distribution of this share.

Song Sisi’s father, Song Yuanlei, asked, “You gave us two 50% and Qi Yun 5%. How would you allocate the rest?”

Lu Yang said: “The Ahmed family will occupy 25%, and I only take 20%.”

Song Yuanlei was surprised and asked with a smile: “You have less than the two of us?”

Lu Yang said, “I don’t care about money, and I don’t have such a big dream. As for what I want, I believe Sisi and Yunyi have told you.”

“Haha, it is just a family of Liu Jie and his family. If the two of us work together, their family will disappear from this world within half a year.” Song Yuanlei said with a laugh.

Lu Yang said, "That's it. From now on, the two of you set a plan to make Liu Jie's family die. I'll make Liu Jie's family in the game. Let us let Liu Jie and his family from this world Disappeared. "

Chapter 1049 - Amethyst giant

"Okay, that's it." Song Yuanlei said with a laugh, and Song Yunyi's father frequently agreed.

However, it is a small Liu family. The two of their families can easily have a person who is richer than their family. As for the influence, Liu Jie's family cannot compare.

Song Sisi said: "I can't help you in the game. In reality, the task of suppressing the price of aluminum will be left to me to host."

Song Yunyi said: "Then I will kill Liu Jie with my brother in the game."

Lu Yang said: "You must not give Liu Jie a chance to fight me back, otherwise, this lunatic can do everything, but he has a professional mercenary team."

Song Sisi smiled and said: "Leave it to me, Yun Yi, transfer me two teams of your family's mercenaries and let me deal with him."

"No problem," Song Yunyi said.

"Thank you," Lu Yang said.

"Well, in this case, we will now go back to our respective families to announce this, haha, both of us are stable now. Such a large gold mine, the performance is enough." Song Yuanlei said.

Lu Yang Waner. On the same day, the Song family and the Kangbang family returned to the family to convene a family meeting and officially announced this. So far, Song Yuanlei and the head of the Kangbang family have secured their positions.

in the game.

Song Yunyi announced that he officially recruited large-scale players and commanders in the northern part of the new continent. Anyone who has a skill can join Song Yunyi's guild. Song Yunyi pays wages to play games.

As soon as this move came out, Liu Jie panicked. His family bought aluminum mines all over the world. The family bought the mines from the game. Liu Jie was not able to recruit players in this way.

"Damn, there must be a conspiracy. The **** in the Kangbang family cannot have so much money." Liu Jie sat in a mansion and cursed.

At that time, Liu Jie did this kind of money spending. Nowadays, Feng Shui is taking turns, and it turns out he has no other way to spend money.

The dead dead grass said aside: "Don't worry, we have perfected our defense position. There are 8 main cities in total, and there are so many African legions to protect us. Don't worry."

Liu Jie said, "I'm not worried about the loyalty of the African Legion. I'm worried about the whites. The whites and yellows I paid for. You know they will choose to rebel?"

The dead man said with a smile: "This kind of thing doesn't matter. They only have command power, but they don't have the right to transfer troops. They don't need to worry too much. At this stage, the number of people is enough to make up for any problems."

Then he pointed his fingers at the three fortresses of Tianyue, Demon Wind, and Colorless and said, "As long as we keep these three fortresses, we can be invincible."

These three fortresses are facing Song Yunyi's magic fire fortress, which is the frontier fortress that blocks the Song family's forces, and is also the gate to the level 110 to 200 monsters in the Wuyue Plain.

in the game.

Lu Yang was standing on the top floor of the Shenhuo Fortress, looking at the magic wind fortress that was faintly visible 2 kilometers away.

“Liu Jie’s defense is still very tight.” Lu Yang said.

“Fortunately, with my current ability, it takes about half a month to make a positive breakthrough.” Song Yunyi said confidently.

Relying on the continuous investment of the Song family, the Song family supported him in a month-long war, but the Liu Jie family may not support it.

Lu Yang took out a map, pointing at the locations of the Liu Jie family, Kangbang family, and Lu Yang, and drew three lines along the north side, and finally formed an intersection at the northern end of the new continent.

“This is a 160-level wild monster area. From here, our three will meet again. During this time we strive to upgrade. We strive to ambush Liu Jie in the 160-level monster area.” Lu Yang said.

“No problem, I will try my best to upgrade.” Song Yunyi said.

Lu Yang nodded. Starting from the level 160 monster area, it was the top monster area, and it was there that Lu Yang was ambushed by Liu Jie.

“I’m leaving now, you come on.” Lu Yang said, he has given Song Yunyi a 110-level copy of the Raiders, and he is now going to raise the spirit of the demon to level 7.

Level 7 Demon Heart is different from the previous upgrade method. It needs to kill monsters in the fire department, which can only be encountered on maps above level 160.

If you want to kill such a monster, the probability is generally 0, but the level 6 demon heart gives Lu Yang a lot of confidence.

Level 6 Demon Heart has a skill called Fire Thunder, which has only one effect, making an invisible Fire Thunder in place.

Once a monster approaches, the fire thunder will explode, inflicting Intelligence * 1 damage to surrounding creatures of 300 meters. As the level increases, the Intelligence damage caused increases by 1.

Lu Yang's current equipment can increase the skill level of Fire Thunder to 15 levels, which is 15 times.

Lu Yang came to the Bowang Plain. Here is a map of level 160. He found a place on the plain and began to set fire to lightning.

Level 15 fire thunder can be put into 100 pieces. The time to release a fire thunder spell is 30 seconds. After he releases 100 pieces, almost 1 hour has passed.

"Boss, what's the matter with you, I've already pulled it over." The voice of Sun Yuxuan yelled from the phone.

Lu Yang said with a smile: "I've finished thunder, it's fast, come on."

"Ah, ah, ah." Sun Yu looked back at the demigod lord and shouted, "Boss, this demigod is so scary, can it be killed at once?"

Lu Yang said with a smile: "The beauty you want, we can just compete with him these days."

"Oh my god." Sun Yu's cry turned out in the distance.

Lu Yang looked up, and in the sound of the earth's shaking, a purple monster, 200 meters tall, was running towards the front.

Amethyst Giant (Demigod)

Level: 160

Qi and blood: 00000000/00000000

In front of the Amethyst Giant, there was Sun Yu running desperately with two short legs.

Lu Yang smiled and waved at Sun Yu. Sun Yu was about to speak, and with a sigh, Lu Yang disappeared.

“Boss, how about you?” Sun Yu asked.

Lu Yang said: “The location where I just disappeared is the location of the fire thunder. You and me are in a team. The fire thunder will not hurt you, lead him to pass, and then play dead.

“Oh.” Sun Yu quickly ran to the fire thunder and looked at the 100 fire thunder beneath her. Sun Yu sighed in surprise.

“Damn man, where else can you run?” The Amethyst giant cursed.

“Ah, I’m dead.” Sun Yu leaped forward, then turned and fell to the ground, sticking her tongue to death.

Just at this time, the Amethyst giant stepped into the fire thunder, and 100 fire thunder exploded at the same time.

“2250000”

“2250000”

...

An explosion injury appeared, and the Amethyst giant roared, no longer looked at Sun Yu, and chased away in the distance. He went to Lu Yang.

Chapter 1050 - Horror squad

An hour away, Lu Yang appeared next to a sentry tower, and he continued to mine.

“It looks like there is a play today,” Lu Yang muttered to himself, and he controlled his avatar to fly on the flying carpet toward an hour away.

In order to kill this lord, Lu Yang has been preparing for the past few days. In 50 minutes, Lu Yang buried another 100 mines.

“Damn man.” The amethyst giant in the distance took a big step and rushed in with a sound of ground tremor.

Just arrived.

“boom”

“boom”

“boom”

...

With a violent explosion, a cloud of mushrooms rose, and the Amethyst giant was greatly damaged again.

“Give me death.” The Amethyst giant stepped over.

“Transfer”

A light flashed, and Lu Yang flew to an hour away when the Amethyst Giant stepped down.

After landing, Lu Yang repeated the previous action, allowing the avatar to continue flying for an hour, and then he buried the mine.

...

He lays mines 16 times a day, and it takes several days in a row that he kills the amethyst giant and drops amethyst fragments.

Amethyst Shard

Description: A crystalline fragment formed by the demigod’s death.

Lu Yang picked up the fragments and looked at other items. To his surprise, among the many items, there were half-length suits.

Purple Flame Staff (Semi Artifact)

Level: 160

Damage: 10000—10000

Intelligence: +35688

Stamina: +12169

Additional Spell Damage: +60000

Additional Spell Penetration: +60000 points

Additional Spell Critical: +60000 points

Special spells:

Purple Flame: Deals more damage to the target, causing an additional 30% of the total spell damage.

Description: This artifact has been modified by the gods and given magical powers, which can be controlled by creatures that are not gods.

This description means that in order to prevent his child from being bullied on earth, the **** can modify it magically and make it available to non-god creatures.

No player in the previous life had thought that the role of this weapon was levelless. Later, when someone practiced the trumpet, he forgot that he was not using a large size. He picked up the equipment and found the secret.

Weapons of 160 levels. Players want to rise to level 160, which is harder to reach the sky. This is a level that takes two or three years to reach.

“Second World” is no longer a game in which players only pursue levels. In order to make the game more interesting, the official chose the card level game mode.

In each competition, there will not be 100 players playing against level 60. Levels 60 to 60 are the first level, levels 70 to 89 are a level, levels 90 to 100 are a level, and levels 100 It will be a competition level.

As soon as this gameplay came out, it quickly aroused the admiration of the local tyrants, and also made the low-level players have new fun.

In the past, low-level players did not have the opportunity to appear on the PK list. Those high-level players can use equipment to crush.

With the grading system now, players stop playing in their own level, and they can also get a sense of accomplishment.

The reason why local tyrants appreciate it is that they can purchase high-level non-level restriction equipment. For example, a level 60 player wears a level 100 non-level suit. On the platform of level 60, it is like a god. , Can only kill him 1 point of blood.

If in the last life, Lu Yang would get this Purple Flame Staff, he would be happy for a month, because the staff can be sold for a high price, he is not bad money in this life, with this weapon he can still enjoy a month, Because this can make his magic damage higher, stronger, and watching the output when playing monsters is more fun.

Lu Yang picked up his staff and regained his spirit a bit before returning to the original location where the Amethyst Giant was killed.

“Sun Yu, pull down.” Lu Yang said.

“Yes.” Sun Yu pulled the amethyst giant just brushed out of the mountain.

When Sun Yu was pulling a monster here, all of a sudden, five players came out of the dense forest not far from Lu Yang.

“Boss, do we have the ability to fight monsters here? How do I feel unreliable.” A male player said.

“Relax ~ Rest assured! We are masters with special skills!” A sound of sticky teeth came from the player who walked in the middle.

“Someone is there.” Another male player found Lu Yang and pointed.

“Why ~? ~ There are still people like us ~?” The player walking in the middle looked at Lu Yang, took the man to the front, and asked skeptically: “Boy, what are you doing here?” “

“Boy?” Lu Yang was silent. When did he become a boy? Of course, the uncle who stood in front of him was indeed qualified to say that. It seemed that the uncle was at least 40 years old.

“Uh, I’m making a fuss here. Who are you?” Lu Yang said.

“We’re the horror squad, I’m the captain pulling the light,” said the man with a sticky tooth.

Lu Yang scratched his head. He really hadn’t heard of the horror squad and asked, “What do you mean, I don’t understand.”

“I don’t know yet, Hussein, show him one,” said Lantern.

Hussein was called a male player. He walked proudly not far from Lu Yang, pointed his finger to the ground, and a fire thunder appeared, then disappeared.

“Fire Thunder?” Lu Yang said in surprise.

“You actually know fire and thunder, and it looks like you’re still a human being,” said Lantern.

Lu Yang was speechless. What is his own character? His two-time heads-up champion has been beaten for nothing. He didn’t know him in the game.

He smiled and said, “Yes, yes, how many fire mines can you put?”

“300, terrific,” said the lamp proudly.

“Awesome, some people don’t know if there is a guild. He has a small guild and wants to invite five to join.” Lu Yang said.

Lu Yang's fire-thunder technique is a skill given by the demon heart, and they are the skills they have learned. There is such a big difference in the number of the two.

"Small guild?" Lan Deng shook his head and said, "Do not go or go Don't say you guys, even if Lu Yang comes to invite me, I won't go."

"Why?" Lu Yang asked.

Lan Deng said: "Because we are a terrorist team, we are only responsible for killing those big guilds."

Lu Yang said silently, "Why kill those grand guilds?"

"Because that will make us famous," Hussein said.

Lu Yang said, "But if Lu Yang invites you sincerely, and give you a particularly high salary, a very high position, and a very good treatment, you can't join."

Lantern thought for a while and said, "You can think about this."

"Hey, if Lu Yang can really do what you say, a few of our brothers will be loyal to him." Hussein said.

Lu Yang rushed at five people and said, "Lu Yang is below."

“You are Lu Yang?” Lan Deng said in disbelief: “Just nonsense, how is this possible?”

Hussein found out the picture of Lu Yang, compared with Lu Yang who was standing in front of him. He was dumbfounded and took a pat light.

Pulling a lamp, he looked at the photo and then looked at Lu Yang, saying, “No way, you must have changed your appearance.”

Lu Yang smiled and clicked to add five of them as friends.

System prompt: Lu Yang sends you a friend invitation

Uh ...

5 consecutive tips, let the five of them pull the lights to show a stunned look.

“You are really Lu Yang.”

Lu Luyang said, “Of course, how about it, would you like to join the Jagged Brotherhood?”

Pulling the lamp proudly said, “It depends on what conditions you give our brother.”

Lu Luyang said: “You are the army commander, how about your four brothers as deputy and commander?”

“Promise.” Lan Deng immediately agreed, this time without any muddy teeth.

Lu Lu laughed and said, “But I also have a condition, you have to tell me how you have fire thunder.”

Many things in the last life have official and player news, but there are also many things that are not news, such as this fire and thunder, no one knows how to get it.

La Lantern and Hussein and others looked at each other. Finally, the five of them nodded and agreed. La Lantern said, "Actually, we are not very clear. When we opened the box, they were teleported into a special space and inside. When we met an old man in a weird dress, a few of us talked to him, and he gave us five of this explosion blood, and then disappeared. "

Lu Yang is speechless. The odds of opening a box are really low. However, when it comes to opening a box, Lu Yang feels like he can try. He is hydrated.

The avatar's attributes have nothing to do with his body, he sent a message to Sun Yu, saying: "Don't blame for the time being, you come here first, I will introduce you to a few people."

"Oh, okay." Sun Yu said.

Sun Yu flew to Lu Yang with a teleportation scepter.

Lu Yang introduced the lantern to Sun Yu and made them responsible for finding a way to kill the Amethyst giant. He flew back to the city of St. Gall using the return roll.

I came to the auction house. At this stage, the treasure box is no longer a rare thing. Players who want to rely on opening the treasure box to get rich are also disappearing, because the chance of good things coming out of the treasure box is very low.

He opened the auction interface, bought all the tens of thousands of treasure chests at one time, and chose his own auction house, and also photographed the tens of thousands of treasure chests above.

奇怪 "Strange, just trying to buy a treasure chest to try your luck, why not?"

"Pull it down, don't open that thing, whoever drives it is unlucky."

Uh ...

Lu Yang smiled, used large storage bags to pack several treasure chests, and used the fortress to return to the city scroll to fly to the big pit near the inner area of the red fortress.

“Clone”

的 The water body originally hidden in the space appeared next to his fire body, and he used the water body to pick up a treasure chest and click to open it.

System prompt: You have lowered a level

System Tip: Your power attribute points have been reduced by 5 points

System prompt: you are dead

Uh ...

没有 None of the top 10 is good, Lu Yang is not discouraged. He continues to use the split to open the box. By the time of the 50th, the level of the water body has fallen back to 105, and the attribute points have dropped more than 100 points.

“This thing really can’t be opened. Good things.” Lu Yang scratched his head and could only continue to open. After opening for more than 200, the level of water body fell back to 100. Finally, Lu Yang opened it. A chest of ancient battlefields.

But this is a 30-level ancient battlefield, Lu Yang killed all the monsters with a secondary injunction, and in the end no white-bearded old man appeared.

When the number reached 500, a light flashed, and Lu Yang appeared in an arena. Opposite the arena, there was an old man with white beard.

“Boy, if you can win the game, I can raise one of your bloodlines by one level,” said the old man with white beard.

Lu Luyang was a little dumbfounded. He didn't expect such a good thing and said, “What kind of competition.”

“Heads-up match.” The old man pointed his finger across, and a 200-level night demon appeared opposite him, and asked, “Do you dare?”

Night Devil (Elite)

Level: 200

Blood: 10000000000/10000000000

Lu Lu smiled and said, “Dare, let's get started.”

If it is a 200-level lord, Lu Yang really can't beat it, but the 200-level elite, the night demon have obvious shortcomings, and Lu Yang kills him very easily.

“Human, you dare to challenge the dignity of our protoss, and you will pay for it.” The night demon king walked to a position 50 meters away from Lu Yang, said his finger landing on Yang.

Lu Yang smiled and did not speak.

System Tip: Countdown to the game

Start

“Hoo ~!” The night demon yelled, his right hand pointed at Lu Yang’s water body, and a red flash of lightning came from him.

Lu Yang flashed to the right slightly, avoiding this flash of instant lightning, which is the night lightning’s standard attack skill death lightning.

He took out the pure water bottle and fell into the gladiator arena, and the amount of water did not pass through the night devil’s head.

“Damn.” The night devil fluttered his wings to fly into the air.

At that moment, Lu Yang said a spell.

“Water Jail”

A huge water ball trapped the Night Stalker in it.

“Damn, let me out.” The night demon struggling fiercely, every time he struggled, Lu Yang’s magic consumed 10,000 points.

Fortunately, the level of water body is still above level 100, and he is wearing a sea emperor suit, which can resist his consumption The body appears “

A flash of light flashed, Lu Yang’s body appeared beside the body of water, holding the purple inflammation staff in his hand, and sitting beside him meditating on the spell.

“Blazing Heart Flame”

A fiery white flame passed through the water and hit the night demon.

“2250000”

The night demon struggling desperately, but still unable to escape the water prison, as long as it is not a blame above the lord level, where there is water, Lu Yang kills them very easily.

“Fire Thunder”

Lu Luyang put a fire thunder on the night devil's head.

Then, he continued to wait. After 30 seconds, he continued to release the flames of fire and thunder, and for 10 minutes, the magic of the water body was about to run out.

“The great ancestor of the flame ...” Lu Yang's body began to release the fire-forbidden meteor, and after 10 seconds, a huge fire meteor fell from the sky, just hitting the night demon who broke through the water prison.

“Boom”

The Night Stalker was stunned for 10 seconds.

“Call of the Water System”

Luyang's water body emits a blue ocean light, and the magic value starts to rise rapidly.

This is a continuous magic, recovering 0.5% of the total magic value per second, it takes 20 seconds to fully recover.

After 10 seconds, the Night Stalker returned to action.

“Blink”

White light flashed, Lu Yang jumped to the night demon king.

“Yang Yang Suo”

The night demon is controlled for another 10 seconds. This time when the night demon resumes operation, Lu Yang’s water avatar magic value is full.

“Water Jail”

A round water cell held the Night Demon again.

“Blazing Heart Flame”

Lu Yang easily output on the side.

Uh ...

This lasted for several hours, Lu Yang successfully killed the night demon king.

The old man with a white beard appeared in front of Lu Yang. With a wave of his hand, all the sea water disappeared without a trace and said, “Congratulations, you can raise your bloodline to a level.”

A ray of light emerged from the old man with white beard and fell into Lu Yang’s body.

System prompt: Your blood level is +1

Lu Yang looked at his blood level, from level 2 to level 3. He couldn't help but looked at the old man with white beard and said, "Thank you."

He said this sincerely, because the blood power reached level 3, he can summon another clone.

"Hey, this is invincible." Lu Yang watched as he was teleported back to the Red Fort, and he said a spell.

"Bloodline avatar"

A third avatar appeared next to the element of Lishui, which is a vocationless avatar.

System prompt: Please select occupation

Xun Luyang did not choose a career for him, but handed over three large storage bags full of treasure chests to the third clone.

Consciousness flowed, Lu Yang entered the third clone, took out a box to open.

System prompt: A poisonous mist appears, and your power is permanently deducted by 3 points.

The system prompts: A burst of poisonous mist appears, and your stamina is permanently deducted by 3 points.

Uh ...

The third avatar was obtained by accident. It was not given by Lu Yang to level 150. That is to say, when level 150 is reached, Lu Yang can still get a avatar, and an extra avatar. , Can also be placed in the main city, once attacked by the enemy, teleport directly to the clone and escape.

System Tip: A burst of light passes over your heart and your intelligence increases by 3.

System Tip: A burst of light passes over your heart and your intelligence increases by 3.

Uh ...

Lu Luyang ate more than 200 in a row. He found that his hero's stamina and strength were deducted into negative numbers, but his intelligence was very high.

"Wipe, what's the situation." Lu Yang looked at the panel whose defense has become -50 points, a little speechless.

"Continue to drive." Lu Yang continued to open the box. His goal was to get out of the ancient battlefield and find a place to learn the fire and thunder.

However, the probability of this thing is too low. He opened it all day and did not open it after using 30,000 boxes. Instead, his strength and endurance were more than 500 points.

It doesn't matter how much puppet power is, but the defense becomes -500, which is equivalent to others hitting him and taking 500 more damage. This is very painful.

"It can prove one thing, this box is indeed a good chance of producing bad things." Lu Yang said helplessly.

System prompt: A cloud of black clouds drifts by, and you drive out the lord to blame the demon soul

In a cloud of black mist, a monster standing 50 meters tall with a black body and holding a round scimitar appeared in front of Lu Yang.

Demon Soul (Lord)

Level: 50

Blood: 2000000/2000000

“Who awakened my sleep.” The demon soul roared and looked at Lu Yang.

Lu Yang crooked his head and looked at the spirit of the devil. He opened this thing when the game was just started. At that time, the general level was only level 20. This thing was summoned by him in St. Gall. Great sensation.

Countless guilds came to snatch, but he could kill tens of thousands with one finger, but now.

灵魂 Lu Yang's soul enters the ontological fire method, and Lu Yang, who has injured more than 200,000, has launched flashing skills.

“Flame Storm”

“Blazing Bird”

“Meteorite Impact”

“Resistant Fire Ring”

“Destroy the Sky”

5 5 consecutive skills, hit 4 crit damage, the lord monster was hung up as soon as he stood.

System prompt: You killed the demon soul

Lu Luyang sat down bored, the soul returned to the third clone, and continued to open the box.

“Boss, we killed another Amethyst giant and burst out a purple flame suit.” Sun Yu called eagerly.

Lu Luyang said, “Continue to work hard and try to blast me out.”

“Yes,” Sun Yu said.

Lu Yang then opened the box. By night, Lu Yang’s third avatar attribute was even more unbearable. The worst point of strength was -612, and the second worst point was endurance. All are good, one is +112 points and the other is +96 points.

“It’s rare to have such a wonderful property at level 1! It’s rare!” Lu Yang shook his head and rested after the game.

Song Songsi called and said, “Handsome guy, what are you doing?”

Lu Luyang said, “Just got out of the game, what’s the matter?”

“I can’t find you anymore,” Song Sisi said playfully.

Lu Luyang said: “Don’t, sister, I can’t stand you talking like that, let’s talk first.”

Song Sisi rolled her eyes. For her, when she first debuted, she met an excellent man like Lu Yang. It is impossible to say no to it. But the things about Lu Yang and Lan Yu have spread so extensively. Some hesitation.

Ms. Song Tang, the second member of the Song family, looked for a married woman. Although they were not married, they also determined their relationship, and she was several years older than Lu Yang. It was ugly and unpleasant.

But Lu Yang is too good is the best she has ever seen among all men, and Lu Yang is also the most favored by heaven.

I was able to find such a large gold mine. This is no longer a matter of luck. It can only be said that it is God's care. This person is not greedy for money and knows what he can and cannot do. It is enough to have these.

Song Sisi really has the intention to steal Lu Yang from Lan Yu's hands, but every time she has a mind to approach Lu Yang, Lu Yang keeps a proper distance with her, so that Song Sisi has nowhere to say.

I called again today and heard that Lu Yang was so decisive, she could only sigh and extinguished the flame of this relationship in her heart.

"Well, let's talk about things, there is no interest at all." Song Sisi said, "We have united all the industries that speculate in aluminum price futures. In the near future, aluminum prices will fall to two-thirds of the current highest price. Liu Home, this time it will hurt your muscles."

Lu Yang shook his fist vigorously and said, "Very well, how are the weapons and equipment?"

Song Sisi said: "Song Yunyi led the team in person, but time still needs to be delayed. Liu Jie did not know where to go recently. It turned out that the place where he lived was already empty."

Lu Luyang said: "This person is very cautious and difficult to deal with."

"Oh, not easy to deal with?" Song Sisi said, "In less than a week, we will find his residence."

Chapter 1053 - got engaged

Lu Yang was unconvinced. When he looked for Liu Jie in the previous life, he spent a lot of time and still found Liu Jie's position through his servants.

In this life, Liu Jie became extremely cautious after being hit by Lu Yang, for fear that his servants didn't know where.

However, Lu Yang remembered that his servant was very greedy for money, and he was not loyal to Liu Jie. It was only because he was short of money that he had to serve Liu Jie as a servant. It seems that this person is called Shefby. He can contact him. .

Lu Luyang and Song Sisi talked for a few more words and hung up the phone. He found the black and white and said, "Find someone. Liu Jie's villa has a chief named Shefby. This person can easily counteract and help me find him."

"OK." Black and white went out to find someone.

the next morning.

Lu Yang entered the game and collected the treasure chests that players hit last night to the red fortress, and then opened the treasure chest.

System Tip: Increase your power by 5 points.

System Tip: Increase your power by 1.

Uh ...

开 Opened more than a thousand times in a row, Lu Yang discovered a problem. Today, luck favors increasing power points, and the power points have changed from the original negative number to more than 200.

Then he opened the treasure chest for more than 30,000 consecutive times and found nothing. When he returned to the city of St. Gall in the afternoon, he found that the price of the treasure chest rose from one of the original silver coins to 10 silver coins.

靠 “Fuck, why did the price increase so much?”

“Haven’t heard of it? Some people have bought treasure chests in the past two days, and they are not enough to sell.”

“That can’t go up so much.”

Uh ...

Lu Yang shook his head. He was not a fool. How could he buy it at such a high price, he put three silver coins at the auction house for an unlimited purchase price, and went offline to eat.

“Boss, Shefby found it.” Black and White said by phone.

Lu Yang asked: “Find an opportunity to contact him, remember, don’t let people discover.”

Black and white said, “I know.”

I hung up the phone and Lu Yang went to find Lan Yu. Now that both of them are juniors, it is time to get engaged. He had no time to do these things before, and now he can finally settle the matter.

“Uncle Shen, are you free?” Lu Yang called Lan Yu’s father.

“Yes, what is it?” Shen Jingchuan asked with a smile.

Lu Luyang said: “I took my parents to your house tonight and wanted to talk about my engagement with Lan Yu.”

“This is a good thing, no problem.” Shen Jingchuan was always relieved. Since Lu Yang reached the peak all the way, Shen Jingchuan always worried that Lu Yang would abandon his daughter.

After all, Lu Yang has tens of billions of dollars in the game, and his net income is hundreds of millions a year. His property is only 200 million yuan in fixed assets, which is far from Lu Yang.

Lu Yang is now in contact with celebrities or ladies every day, or supermodel stars, not to mention Lu Yang, even Shen Jingchuan himself, he does not believe that he can handle it and make no mistakes.

What’s more, Shen Jingchuan had some criticisms of Lu Yang before. Before Lu Yang’s success, he repeatedly stated that he did not want his daughter to intersect with Lu Yang.

Lu Luyang said, “Well then, Uncle Shen, at 6 o’clock tonight, I will take my parents to your house for dinner.”

“Okay, no problem.” Shen Jingchuan said.

Lu Yang hung up the phone, then called his father’s phone, and told his parents about his plans to get engaged with Lan Yu.

The two elderly people are very satisfied with Lan Yu. No matter from the aspects of appearance, character, family education, cultivation and morals, Shen Mengyao is impeccable. This is a very kind and lovely girl.

“It’s time to settle down, so as not to worry about your in-laws.” Lu Yang’s father said.

Lu Yang told his father about the property. Even without this property, Lu Yang’s parents are very proud of Lu Yang’s achievements.

“That’s it, that’s it.” Lu Yang said, “Let’s leave home at 4:30, hurry or not.”

“Yes,” said Lu Yang’s father.

Lu Yang hung up the phone and drove to the notary office to sign a certificate for all his assets in the game. The previous certificate was torn by Shen Mengyao. Now that it has been settled, Lu Yang will fulfill his promise. From now on, the Iron Brothers Alliance is owned by Shen Mengyao, and he Lu Yang works for Shen Mengyao!

The female staff of the Notary Office looked at the notary in surprise, and she said to Lu Yang: “Idol, you really want to do this, this is a huge asset.”

Lu Yang smiled and said, “Yes, isn’t this what I should do as a man, to work for my wife without shame?”

The female staff member slammed her thumbs and said, “You are so willing.”

Lu Yang smiled and shook his head. What is it? When he got married, when Lu Yang handed over the \$ 400 billion to Africa’s big gold mine to Blue Feather, it was considered reluctant.

I took the notarized letter and Lu Yang returned to my parents by car. After telling them about the incident, the two had no opinion.

In the evening, Lu Yang said to Lan Yu, “Are you free at night?”

“What’s the matter?” Lan Yu curiously looked at Lu Yang, and said, “I’m going to upgrade the copy with sister Yu Wei tonight.”

Lu Luyang covered her forehead and said, “My wife is so big-hearted that she is going to be engaged to her tonight. She doesn’t know yet.”

“It’s all right, your parents told me to go to dinner tonight, you go home and help my old husband and mother-in-law to cook.” Lu Yang teased her deliberately.

Bian Lanyu blushed and shook Lu Yang shyly, saying, “Hate.”

Lu Luyang smiled proudly and said, "Let's go home now and prepare a sumptuous dinner for my husband Do you know?"

"Okay ~~~!" Lan Yu spit out her tongue and ran away.

Lu Yang shook his head and looked at the time it was already afternoon. He returned to the room and deliberately changed into a formal attire. Waiting for 4:30 in the afternoon, he drove to the Blue Feather's house with his parents who were also wearing formal attire.

“咚咚咚”

Lu Yang knocked on the door and said, "Uncle and aunt, I'm here."

My mother, Lan Yu, who was busy cooking herself, shouted, "Daughter, go and open the door."

"Oh!" Lan Yu ran to open the door, but just after the door opened, Lan Yu's big eyes were full of confused colors.

"Uncle and aunt, you are here too." Lan Yu said stupidly.

"Did Lu Yang tell you?" Lu Yang's mother asked.

"No." Lan Yu's head was a little sloppy.

母亲 Luyang's mother took a look at Lu Yang and found that Lu Yang was showing a lack of moral smile, and said, "You're bad."

Lu Yang smiled and said, "Let's go, let's go in."

父母 Luyang's parents smiled. The two did not disassemble Luyang and walked straight into the door of the villa. Only Lan Yu felt that today seemed not right because Luyang's parents were wearing formal clothes, especially formal ones.

Chapter 1054 - Explosion blood

Xu Lanyu quickly pulled La Luyang and asked, "What's going on? You didn't tell me that your parents are coming."

Lu Yang laughed and said, "Did your parents tell you?"

"Tell me what?" Lan Yu's big eyes were blank.

Lu Yang forced a smile, just as he saw the blue feather parents waiting at the door, Shen Jinglin and Xue Hongjuan also changed into formal attire.

"My dear, come here, please come in soon." Xue Hongjuan said happily.

"In-house?" Lan Yu reacted. He quickly looked at his mother, but found that his mother didn't look at him at all, then looked at his father. Shen Jinglin was shaking hands with Lu Yang's father, and no one ignored him.

Xi Lanyu had to look at Lu Yang fiercely and said, "What the **** is going on?"

Lu Yang pulled Lan Yu and said, "What an engagement engagement, what else?"

Bian Lanyu blushed instantly and said shyly, "Why didn't you tell me in advance? I'm ready, and I'm wearing an apron."

When I was just cooking, Lan Yu was responsible for hitting her mother. She wore a blouse and an apron, but it looked beautiful, as distressing as her little sister next door.

Lu Luyang said, "I like everything you like."

Shen Jinglin said, "Let's eat first, and the food is all set."

Lu Yang's parents nodded. As Shen Jinglin and Xue Hongjuan entered the restaurant and took off their coats, Lu Yang's parents looked at each other. Lu Yang's father said, "Today we brought Luyang to talk about engagement. I don't know how they think about it. "

"Good thing, we have no opinion." Shen Jinglin said.

Lu Yang's father took a notarized letter from Lu Yang to Shen Jinglin and Xue Hongjuan and said, "We are already in-laws, haha, let's not talk about anything else. This is our heartfelt gift. . "

Shen Jinglin took a look and said in surprise: "This is all assets of Lu Yang in the game. It is worth tens of billions of dollars. This is too expensive."

Tong Lanyu also looked at Lu Yang in surprise, and said, "Isn't I saying no to you?"

All Lu Yang thought of was the experience of the last generation of blue feathers to accompany him through those difficult years. The kind of life that only experienced people know how difficult it is. He thanked blue feathers and loved them .

"I have no way to give you more now. When you get married, you will own half of all my property." Lu Yang said.

Tong Lanyu was surprised and didn't know what to say.

Lu Luyang said, "Don't refuse, we will have a lifetime in the future."

Shen Jinglin said, "Lu Yang, do you have any other business?"

Lu Yang did not tell all his assets to outsiders, and now he has become a family, and Lu Yang has nothing to hide.

“I still have \$ 400 billion in assets. I also have an investment company on Wall Street. In addition, I also started a gold mine in partnership with others.” Lu Yang thought for a while and said, “There are still a lot of assets, but the main thing is these. . .”

“Where are you from so much?” Shen Jinglin felt dizzy.

Lu Lu said with a smile: “In the economic crisis, I used all the global stocks in my net worth to plummet, and I found a bank that borrowed 80 times, and I made so much money.”

景 Shen Jinglin and Xue Hongjuan are speechless. Both of them are stock speculators. The Shen family lost a lot of money in the last economic crisis.

“Yes, I’m your boy, I’ll take it, co-authoring the world’s money makes you go away.” Shen Jinglin said with a laugh.

Lu Yang smiled and said, “Yeah, so I said that in the future when we two get married, I will share half of the assets with Meng Yao. The little money in front of me is nothing to me.”

Tong Lanyu felt that she was dreaming. She calculated it carefully in her head, but found that she still did not understand the account.

“Your money is really a lot.” Lan Yu said.

Lu Yang smiled and said, “It’s our family in the future, don’t separate each other, sign it.”

“Oh, all right.” Lan Yu signed the name. She used to think that Lu Yang had only so many total assets. Now that she knows that Lu Yang has so many assets, she doesn’t care, anyway, she is all Lu Yang’s, what Lu Yang gave her was not the same as Lu Yang’s.

Shen Jinglin and Xue Hongjuan are as comfortable as drinking old wine. They never thought that Lu Yang was such a super rich person. The most important thing was that such a rich person also specialized in such a blue feather One.

来 “Come, in-laws, let’s not get drunk tonight.” Shen Jinglin said.

Lu Yang’s parents were also very happy and drank together.

Lu Luyang accompanied the parents on both sides to drink alcohol for most of the night, and left with their parents until late at night. Among them, Black and White and others were always outside to be responsible for safety.

After getting on the bus, Black and White said, “Shefby will take a rest tomorrow afternoon. He will come out and meet us.”

Lu Luyang nodded and went home to sleep.

— The next morning.

Lu Luyang entered the game and found that the price of the treasure box he had hung at the auction house yesterday was actually sold in large quantities by the players of the national service.

“Your sister.” Lu Yang was silent, hurriedly canceled the treasure chest transaction, came to the auction house, there were more than 1 million treasure chests.

“This is where all the treasure chests in the game are sold to me.” Lu Yang shook his head and took out 10 storage bags. He was too lazy to go to the red fortress, and found a place in the north of the city where no one was. , Changed to the third avatar, and began to open the treasure chest.

System Tip: Increase your power by 1

System prompt: Your intelligence is reduced by 1

Uh ...

For a whole day Lu Yang has completely opened 1 million treasure chests, leaving equipment and items in one place.

发现 He found a problem. Based on his third avatar's attributes at this time, his intelligence became more than 10,000, endurance 50,000, agility 100,000, and strength became 250,000.

“Isn't this a super soldier?” Lu Yang said nothing.

Lu Yang was speechless. At this time, he had the last treasure chest in his hand. When he clicked to open it, a flash of light flashed. When Lu Yang's eyes adjusted, his heart almost jumped.

System prompt: You are teleported to the ancient battlefield

Walking in the innermost part of the ancient battlefield, an old man with white beard was smiling at him.

“This probability is really low enough, but it is worth it.” Lu Yang read the spell, his body and the second clone appeared at the same time next to the third clone.

“Hello ~!”

The ancient battlefield is full of elite monsters at level 30. Lu Yang's spirit returns to the body and a spell is spoken in his mouth.

“The Great Lord of Fire ...”

After 10 seconds, a large fire meteorite appeared and smashed into the ground suddenly. All the level 30 elites were instantly killed.

Chapter 1055 - Demon Heart Level 7

提示 System Tip: You have completed the ancient battlefield mission, you can find the old person to receive the reward.

Lu Yang went to the old man and said, "Hello old man."

"Man, I have a lot of good things here, what do you want?" The old man asked with a smile.

对话框 A dialog box pops up.

Lu Luyang's eyes appeared with gemstones storing explosive blood, and a total of 50 gems could be purchased.

Lu Yang can't wait to flatten out the five boys. They sell 100 at a time, and none of them buy more than five.

The price of Blood Blood is 10 gold coins here, and there are no problems buying 100 gold coins outside.

Lu Luyang chose to purchase 100 pieces. After delivering 1,000 gold coins, he looked at the purchase interface of the exploding blood and found that this thing can be refreshed, which means that he can still buy it without leaving the ancient battlefield.

"Tu Feng, are you free?" Lu Yang asked.

"What is it?" Tu Feng asked.

Lu Luyang said, "How about changing your office location in the game?"

哪 “Where?” Tu Feng asked with a smile, where he worked the same in the game.

Lu Luyang said, “In the ancient battlefield, I’ll pull you over.”

His body built a sentry tower in-situ with a goblin robot, flew back to the sky sword city of the new continent with a teleportation scepter, and found Tu Feng, waited half an hour, and took Tu Feng to the ancient battlefield.

“This old man has the blood of an explosion. You can help me watch it here. Don’t worry about buying it. Wait for him to buy 100 of them together.” Lu Yang said.

“Okay,” Tu Feng said.

Lu Yang returned to the New World and sent a message to Hei Yan and other 100 people, saying, “Gather at the Guild Hall.”

“Okay,” Hei Yan said.

Soon, a party came to the guild hall, and Hei Yan saw Lu Yang asking, “Boss, what’s the matter?”

Lu Luyang gave them the blood of the explosion and said, “Hold on, learn one by one, and then kill the lord with me.”

“Explosive bloodline! There are 100 more people.” Hei Yan said excitedly, “Boss, how did you get it?”

Lu Luyang said, “I opened a box worth more than 100 million cash before entering the ancient battlefield and got this bloodline.”

Xiu Yanyan and others were amazed.

After Lu and his party finished studying, Lu Yang took out the teleportation scepter and took them to the place where Sun Yu was.

“Boss, why are you here?” Sun Yu was preparing to pull the Amethyst giant, and it was a little surprised to see Lu Yang bringing so many people.

Lu Luyang said, “I brought my soldiers here. These 100 people are all exploding blood, and mines are buried here.”

“Yes.” Hei Yan greeted Sun Yu, and began to bury mines with members of the mage regiment.

The power of the blood can let them bury 300 mines at a time, each of them has an intelligence of more than 180,000, and an explosion can kill the Amethyst giant in a second.

Sun Yu said with a smile: “Boss, this is so great, Lord Sec.”

Lu Luyang said, “Begin today, let’s blame the lord for playing.”

“Hey, I’m going to blame.” Sun Yu said.

Lu Yang nodded, and let Sun Yu run into the forest to blame.

An hour later, 105 people, including the lamp, buried 300 mines at the same time. Sun Yu ran over 80 billion Amethyst Giants from a distance, and came close to the fire mine. When you step into the fire thunder.

“Boom”

Uh ...

A cloud of mushrooms rose to the sky, and the amethyst giant fell to the ground.

System Tip: You killed the Amethyst Giant

Lu Yang forced a fist and said, "Good job."

Sun Yu looked at the ground and said, "Boss, burst another amethyst suit, which is Ziyang combat boots."

Luyang picked up the amethyst fragments on the ground and took the purple flame boots. At this time, there are only three pieces of his suit left to make up a set.

"Changing a map, let's find the next blame." Lu Yang ran them to another 160-level map.

Uh ...

For a full 18 hours, Lu Yang and Hei Yan and the others killed nine 160 level monsters.

This is a 160-level lord monster. In the past, Heiyan could never imagine it, but with the blood of the explosion, he felt it was too easy to hit the lord.

"Boss, is it possible for us to kill the level 200 blame?" Hei Yan asked.

Lu Luyang said: "Of course it is possible. It is wasteful for us to fight like this now. Actually, one lord blame only needs 30 people. Tomorrow these lords will be brushed out. We will divide the army into three paths and only need three hours to end the battle."

The first time I came to these maps, there were no sentry towers. Now that I have seen every map, he has also built a sentry tower. Tomorrow, he, Hei Yan, and Roth Rain all use the teleportation scepter at the same time. Hours can kill 9 lords.

Uh ...

For three days, Lu Yang killed the lord monster here. By the third night, he gathered enough amethyst fragments, and put on a full set of 160 purple inflammation suits, and his intelligence reached 260,000.

He returned to the demon temple, put the demon's heart and amethyst fragments on the altar, and a flash of light passed, the demon's heart reached level 7.

Demon God's Heart

Level: 7

Physique: +50000

Power: +50000

Endurance: +50000

Intelligence: +100000

Agile: +50000

炎魔变: Level +6

Special Spells: Meteor Fire Rain, Meteor Fall, Ghost Fire Lamp, Fire Thunder, Fire Sword

“Fire Sword”

Type: Fire

Distance: 100 yards

Consumption: 5000 magic +1000 points / second

Description: Six Flame Swords appear above the target's head. They cause pure Intelligence X1 damage to targets within 100 yards of the player, ignore magic resistance, but cannot attack magic immune units.

This is one of the most powerful skills of the fire mage. Lu Yang is so anxious to upgrade the spirit of the demon god, what is needed is this skill you stay here to continue to fight monsters, I will go out. "Lu Yang said.

换 He put on a flying carpet and flew towards the 180-level map. With the purple flame suit and level 7 demon heart, Lu Yang was confident to raise the demon heart to level 9 or even level 10.

After two hours.

Lu Luyang crossed the 170-level map to the 180-level map, and he saw a grand canyon.

System Tip: You Found Hell Canyon

Lu Yang controls the flying carpet into the canyon, which is full of 180-level demigod monsters.

When the first guild came to wasteland this map for the first time, it took half a year for this map to be completely wasteland, and finally the first part of the map was cleared out.

When you arrive at this place, you are entering the top wild monster area of the New World. Normally, in order to kill the monsters inside, Lu Yang needs to bring a large number of players to play all 170 dark gold suits and eat Once the level 170 potion is complete, the equipment is full of gems and enchantments before you dare to come.

Even so, you need to gradually familiarize yourself with the skills of each demigod monster, and then discuss with players how to move.

But Lu Yang is different. He is a rebirth, and just happens to know that there is a semi-god in this map that can be killed with a bug.

Chapter 1056 - New World War

Luyang manipulated the flying carpet to enter the canyon. The sides of the canyon are covered by red rocks. There is a passage every other distance. There are 180-level elite mobs patrolling near the passage.

没有 He didn't approach the walls, but went all the way down. After half an hour, he came to a rock platform. At the junction of the platform and the cliff, there was a gate.

“This is it.” Lu Yang recognized the shape of the door.

On the platform, a group of patrolmen was approaching the ladder position. Lu Yang waited for this group of soldiers to go away, jumped off the flying carpet, and came to the platform.

System prompt: You entered the felon zone

来到 He came near the gate and looked inside. A monster with four heads was sitting on the ground to rest.

Four-Headed Orcs—Diusus (Semi-God)

Level: 180

Qi and blood: 100000000000/100000000000

Demigod Dusius, one of the nine prison prisoners in Hells Canyon.

“Fire Sword”

Lu Yang chanted a spell, and six flame-shaped long swords appeared behind him. He pointed at Dusius in the room with one hand, and six flame long-swords emitted light at the same time, firing lightsaber.

“318766”

“318766”

Uh ...

6 flame lightsabers pass through the cage window and hit Deusius the Demigod.

“Hello ~!”

Du Xiusi roared and turned to look at Lu Yang, only to find that Lu Yang was standing outside, and immediately ran to the depths of the cage.

This is where Dirus is difficult to hit. Generally, the lord monsters will rush to the front of the cage when they are attacked. If they cannot rush out, he will stand there and recognize him. Unlike Dirus, when he finds that he cannot hit the target, he runs away.

“This is just waiting for him to die.” Lu Yang thought cheerfully that the total length of the prison was 100 meters. No matter where Dusius went, he could not get out of the attack range.

The lightsaber skill is instantaneous, and the time in the air is no more than 0.1 second. This skill cannot even lu Yang himself, let alone the strangeness for the player to kill.

阳 Lu Yang fights here, and on the other side, the guilds of various countries who have rested for more than a month have finally started to get quiet.

At present, the sphere of influence of the New World is divided into 26 large blocks and more than 500 small blocks. There are more than 2,000 guilds for establishing wild fortresses on the New World. That is to say, there are now more than 2,000 countries in the New World. A fortress similar to the main city.

Each daring to establish a main city guild, the original purpose is not for the annexation of other main cities, their purpose is only to allow their guild players can safely take a place to rest and unified action.

But when these fortress bosses and guild bosses gradually stabilized, they looked at the other main guild cities not far away and had new ideas, and a battle began like this.

Xi Tufeng opened a special space and pulled Lu Yang in. When he entered, he found that all the vice presidents were there.

“What’s the matter, people are so unified?” Lu Yang asked.

“The central region of the New World was fighting, and it was very fierce,” said Tu Tufeng.

“It’s the hinterland of the Central Plains. Don’t guess how crazy you are.” Lu Yang said with a smile.

“It’s still thoughtful of you. In the northeastern part of the New World, we plugged these two gaps, and the enemy can’t get in at all.” Tu Feng said.

Lu Yang asked, “What’s going on outside the Tiger Mouth Fort?”

怎么样 “What happened to the Bloodthirsty Domineering, Black Blood, and Asshole Legion?” Lu Yang asked.

Xi Tufeng said: "Not very optimistic. There are 6 guilds in total. They are still gathering strength and are likely to attack us in the near future."

Lu Luyang thought for a while and said, "In this way, you have more than 30 army commanders divided into two parts. From today we will go to war. Among them, Zhou Tianming, pride and Tian Yao led the attack on Park Renyi and Park Ji Sung."

"Yes." The three looked excited at the same time.

Lu Yang went on to say: "The white lion, Liang Yun, and Zhuojiu brought another team to attack the six bloodthirsty bullies outside the tiger's mouth."

"Yes," said the three white lions.

"Xia Yuwei, bitter love half-life and Sun Yu and other third team members as reserve teams, which units on both sides are tired, replace you." Lu Yang said.

"Yes," said Xia Yuwei.

Lu Luyang finally said, "There is a reward, whoever lays a fortress, 50% of that fortress's income belongs to him."

"Really?" Tian Yao asked in surprise.

Lu Luyang said, "I will never break my word."

Building a fortress is worth at least tens of millions. Although they make a lot of money in the Jagged Brotherhood, who would be too much money, and they also have private troops, and also need money to support their equipment.

The party dispersed, but Tu Feng didn't leave. When the two of them were left in the room, Tu Feng asked: "Boss, isn't it too hastily, we don't have superior weapons and equipment. It's too expensive."

Lu Lu smiled and shook his head, and said, "It's okay, I'm not bad for money."

On the one hand, he is not short of money. On the other hand, Lu Yang is also bewildering the outside world. As long as the heart of the devil rises to 9 or 10, he can quickly upgrade his ranks and create a high level of 100,000 in a short time. It was time for him to sweep Liu Jie.

Leaving a special space, Lu Yang continued to kill the demigod Dusius.

At the same time, major guilds in the New World who were at war quickly discovered the changes in the Brotherhood of the Iron Blood.

"Have you heard that the Brotherhood of the Jagged Brothers hiding in the corner of the Northeast region is about to start expanding?"

"Still, both sides are at war."

"It is indeed a super guild. There are so many people and they have the same heart."

Uh ...

傍 In the evening of the same day The two men, Zhuo Jiu and Tian Yao, respectively delivered speeches as the commanders of the two forces. Subsequently, the two teams paid out the Tiger Fortress and cleared the Bloodthirsty Bastard and the Bastard Legion.

Another army, out of the Vajra fortress, was approaching the South Korean side of Park In-Yi's Gesuwen fortress.

"Damn, Smeda, Lu Yang dared to send someone to attack me, and sent 2 million people." Park Renyi sat in the hall of the guild and scolded.

“Brother, Smida, what shall we do?” Park Ji-sung asked.

“No, it is not appropriate for us to fight Lu Yang alone. I want Tianlong to join in. We can fight with Lu Yang together to win.” Park Renyi said.

“Good idea,” Park Ji Sung said.

Zhi Pu Renyi immediately contacted Tianlong from India and explained the situation. Tianlong had great hatred for Lu Yang.

“No problem, I will send 1.5 million troops. The two of us defeated Lu Yang together.” Tianlong said.

Park Renyi has 1 million 120 players, plus Tianlong’s 1.5 million, the number exceeds Tianyao’s troops, which makes Park Renyi’s heart a lot easier.

On the other side, bloodthirsty tyrants and black blood were dumbfounded. They did not expect that Lu Yang would send more than 1 million 120 players to pay them, and they were all confused.

Chapter 1057 - Battle of Spark Hills

“What shall we do?” Black Blood asked.

“Follow him, we don’t have a fixed main city, and we’re not afraid of his siege.” Muhuali, the **** legion, said.

Wu Shenhun thought for a long time and said, “I also agree to fight with Lu Yang. At least we can restrain the other party’s energy and slow down his development.”

Bloodthirsty Batian nodded his head and said, "We people can enter the game again to pull up the team, just to defeat Lu Yang. Since he came out, we will fight him, the main thing is to bring him down. "

打开 He opened the map, pointed at the vast sparkling hills and soul mountains outside the tiger's mouth, and said, "Just ambush him at these two places."

"Okay." Hei Xue, Mu Huali and others promised, but when they issued the order, what they didn't know was that at least 20 members of Luyang Studio had already become high-level members of their team.

20The identities of these 20 people are very special. They are relatives of vice-chairmen such as Bai Lang, Zhou Tianming, and Zhuoju. They are the kind of people who will never betray.

One of the players named Doomsday Glory is Tianyao's cousin. He sent a message to Tu Feng: "The enemy hid in the Spark Hills and the Soul Mountain. The specific coordinates are at 398765.198762."

"Good job." Tu Feng immediately sent a message to the White Lion, and the assembled Brother Iron Brothers players moved quickly.

That night, the Bloodthirsty Batian and others just entered the hill with a large army, and 11 vice-chairmen, such as muddy wine and white lion, rushed out of the hill with the army.

"You want to lie in ambush with us here, you are still too tender." With a cold mang on Zhuoju's face, he took out his sword and shouted, "Crush into the hills and fight against Bloodthirsty Batian."

Millions of people rushed into the hills of sparks, making raids on coordinates sent by spies such as Doomsday Glory.

"Well, as long as Lu Yang's team can't find us at 1:30, they will be tired, and we rush out and let Lu Yang have a defeat." Bloodthirsty Batian said.

The spirit of eternity and the **** of war in heaven and other people agree.

As they discussed the countermeasures, Liu Jie called and asked, "How is the situation?"

血 Bloodthirsty Batian said: "Jie Shao, everything is normal, we hid in the hills, the other party couldn't find our place."

Liu Jie said: "Very good, holding Lu Yang, I'm leading the team to upgrade. If you guys can bring the team to hold Lu Yang, the one million people, for a month, I will reward you with 30 million credit points. . "

"Xie Jie Xie." Bloodthirsty Batian was excited and said, "We must pin Lu Yang's team to the Spark Hills."

杰 Liu Jie said, while the two were chatting, Zhuojiu and the White Lion with millions of people in the distance had surrounded them, and there was only a hill between them.

"I just checked it, I'm sure it's all there," said White Lion.

"Okay, I ask the boss if he can't come." Zhuoju picked up the phone and called Lu Yang.

Hell Canyon.

Lu Yang is still playing Dessus at level 180. He has almost killed him. After receiving a call from Zhuoju, he picks up and asks, "What is it?"

"The bloodthirsty bully has been surrounded. Boss, come here and talk to the bloodthirsty bully." Zhuoji asked.

Lu Lu smiled and said, "Of course I have to say it, but I miss him very much."

"Okay, I'll build the sentry tower here." The turbid wine took out the goblin robot and built the sentry tower behind the hills.

After 10 minutes, the tower was completed.

“Strange, why is there a sentry tower made of stones behind the hills?” Mu Huali, at the tip of his eyes, found the problem.

“Where?” The bloodthirsty bully looked around. He was a bit of a soldier. After all, he fled here with five or six million people. Most of them were at level 105, and only a few were at level 110. It is less than 100,000 to 120.

“There it is!” Mu Huali pointed to the sentry tower.

Seeing the look of the sentry tower, the **** of war in the realm of the sky suddenly gave out cold sweat and shouted, “No, that’s Lu Yang’s sentry tower. At that time, Wang Teng and I led the troops out of the city of St. Gall and looked at it by the river. He built this thing. “

“What?” The bloodthirsty domineering stared.

At the moment when they were stunned, Lu Yang’s figure appeared on the top of the hill, looking at the bloodthirsty Batian and Tianyu Ares, who were less than 100 meters away, with cold smiles on their faces.

“Good memory, I still remember a year and a half ago.” Lu Yang said to the God of War.

“You, why are you here?” The Celestial War God asked in fear.

Lu Yang ignored him and looked at Bloodthirsty Domineering, and said, “You really have the courage. I let you go once, and you dare to bother me. Really think I dare not touch you, right?”

血 Blood-thirsty Batian’s whole body was sweating coldly, and Li Li said indignantly, “What’s so great about you, a villain who survived to play and survived to the present day.”

Lu Yang gave a cold hum. Obviously, Bloodthirsty Domineer did not know how terrible he was in reality. He said to Bloodthirsty Domineering: "Now you talk to me, I'm not equal, I do n't have I need to scold you, loser, and continue to enjoy your failure. "

"Get ready." The murmurous roared.

More than 1 million players have emerged from the surrounding hills. Although they have only 1 million people, these 1 million people are all masters of 120-level dark gold suits.

There is a difference of 10 levels, and the equipment attributes are doubled. There is very little blood loss for 110-level players and 120-level players, while 100-level players are basically unable to fight 120-level players.

"Iron Brotherhood." Lu Yang shouted.

"Kill ~!" The white lions, white tigers, white wolves, three brothers, Liang Yun and others rushed down the hillside like crazy with wolves like sheep pens, wantonly killing Bloodthirsty Batian and Mu Huali. No-name troops.

"What now?" Black Blood asked.

"Run Definitely not hit the front," said the spirit eternal.

"What to run, fight with him." Mu Huali said.

The two presidents had ambiguity about the command of the war, and the scene froze together. When the bloodthirsty tyrants and the **** of war in heaven and the like were indecisive, they did not find that their five or six million players were in chaos. Killed gradually gathered in the middle.

Lu Yang looked at Hei Yan behind him and said, "Put a minor forbidden spell and knock them down at once."

“Yes.” Hei Yan waved his hand, and more than 10,000 cursed mages appeared behind Lu Yang, saying a spell at the same time.

瞬间 The sky is instantly overcast with dark clouds, and the dark clouds are tens of meters thick.

“Not good, Lu Yang is about to release the curse, let his men disperse, don’t get together.” Shouted the eternal spirit.

Tochigi Huali reacted at this time and shouted, “Retreat and run outside.”

Lu Luyang sneered at the movement of Mu Huali and said, “Let it go.”

“Meteor Fire Rain”

“Icy Roar”

“Space-time cutting”

Uh ...

Thousands of secondary injunctions fell on the hills. At one time, a map as large as a quarter of the hills was shrouded in forbidden spells.

Most players on the Bloodthirsty side are shrouded in curses.

“Run, run, these mages are all 120 in top-level suits and cannot be beaten by them.” Mu Huali shouted.

Bloodthirsty Batian shouted, “Retreat, retreat.”

In the command of several guild leaders, more than 6 million players were defeated on the map.

Lu Yang took a flying carpet to watch in the sky. After confirming that the enemy had lost his combat power, he was too lazy to continue attacking. He sent a word to the muddy wine and white lion through the simulation group. Continue to kill demigod Dusius.

“Fire Sword”

Six fire swords flew into the air and continued to hunt down Dusius in the prison.

...

Two hours later, Duxue, who had been beaten by Lu Yang for a day, finally fell to the ground.

System prompt: You killed Dusseus

“flicker”

Lu Yang crossed the gate of the prison and came to Duxus, where he picked up a piece of heart.

Divine Heart Fragment

Description: The heart fragment of Blazing Demon, which can be combined into Demon Heart.

Lu Yang put the fragments in his backpack and looked at the rest of the equipment, but found nothing special. Only a dark gold weapon was good, but it was useless to him.

He put his weapon in his backpack and returned to the demon temple to rest.

Early the next morning.

Zhuo Jiu reported to Lu Yanghui: "Last night the war was a complete victory. The bloodthirsty domineering chased them and fled into the village around the Spark Hills."

Lu Yang said: "We have to continue to persecute them and continue to fight today."

"What if they stay in the village and don't come out?" Asked Zhuzhuo.

Lu Yang said: "The villages have been flattened and stormed in to prevent them from having any rest time."

"Yes," said Zhujiu.

Each village is a safe area that can accommodate 500,000 people. The cost of trying to get rid of the village is very large. At least it is necessary to kill the village chief and two thirds of the villagers to break the security barrier.

At the same time attack the village, but also to prevent the bloodthirsty domineering their counterattack, this matter is difficult, but the turbid wine and the white lion they are no longer rookies, are a group of top commanders who landed in the battle of Yangnan. Nothing matters to them.

Soon, Zhuoju convened 11 vice-chairmen to gather troops to continue the attack, while the other side was hiding in the village's safe zone. Bloodthirsty Batian and Tianyu Ares were videoing with Liu Jie.

“Waste, a group of waste, more than 6 million people can’t beat 1 million people, what use do I have to support you?” Liu Jie cursed.

Bloodthirsty Batian said: “No way, Lu Yang sent the main force, and our men are just a group of black people, the equipment is not good, and there is no combat effectiveness.”

Liu Jie also knew this, saying: “Continue to deal with Lu Yang, don’t be afraid to fight, remember, it is still for the purpose of delay.”

“Yes,” said Bloodlust Domineering.

Liu Jie closed the video.

The bloodthirsty Batian sighed and looked at the God of War and others, saying, “Is there any good way?”

Divine spirit said forever: “There is only one way, and they spend time with Lu Yang. It takes a long time to see who has consumed who.”

Bloodthirsty Batian said, “Try it first.”

As soon as the words fell, a magic hit in the distance, and dozens of guards guarding the village entrance were killed instantly.

“An enemy attack, an enemy attack, an enemy sneak attack.” A scream came from the village, and more than 100,000 NPCs rushed out of various houses.

“Who hit?” Black Blood asked.

“I don’t know,” said God of War.

Just when they were a little confused, in the distance, Zhuoshu raised his sword in his hand and shouted, "Iron Brotherhood."

"Kill ~!" Bai Shisanxiong and Liang Yun and others took millions of players to rush down the hillside and pounce on the village.

"No, the Brotherhood of the Iron Blood is about to slaughter the village." The spirit said eternally.

"What shall we do?" Black Blood asked.

"Run, order the brothers in the village to retreat, we go to the next village." Shouted Bloodthirsty Batian.

More than 1 million players hiding in the village ran away from the back door of the village, but before they ran far, they encountered resistance from the Brotherhood of the Iron Blood.

The bloodthirsty domineering side had no intention of fighting, and one million people fled and fled. When the bloodthirsty domineering and black blood and other people ran out of the encirclement, there were less than 100,000 people around.

"Fuck, Lu Yang, I'm not finished with you." The bloodthirsty bully shouted angrily.

On the platform.

Zhuo Jiu and the White Lion watched the bloodthirsty battalion and others escaping with sneer.

"This mad dog wants to turn over and think of beauty." The White Lion scolded.

"Let him run for a while, we knocked it out and went to pack him," said Zhujiu.

Several vice presidents nodded and continued to command their men to fight.

On the other side.

Zhou Tianming and Tian Yao led another unit to formally launch a war against Park Renyi in Gassuvan City, where the two sides decisively battled in Gassuvan City.

After playing for a whole day, Park Renyi's side lost defeat and returned to the city of Gassuwen, and Lu Yang also killed the newly refreshed Demigod Dusius that night and got a second piece of God's heart.

late at night.

Zhou Tianming built a sentry tower on the battlefield, and Lu Yang flew down to the city of Gassuwen using a teleportation scepter.

"Boss." Zhou Tianming and Tian Yao and others said hello.

Lu Yang said, "Thank you all, how are you doing?"

Zhou Tianming said: "We won today and got at least 1 million pieces of equipment, but Park In-Yi was very savvy. When we found that we couldn't beat it, we retracted into the Gassuwen City, and we couldn't get in.

Tian Yao said: "Park Renyi contacted Denon from India. There is a half-day distance from here, and support is possible at any time."

Lu Yang said, "If you need to find me at any time, the south battle is basically over, and the bloodthirsty tyrants will not have a fight."

Zhou Tianming said: "Not for now, let's try again."

Tianyao said, "I think so too."

The two north and south armies fought at the same time but there was a battle to win, and they were still deadlocked, making Zhou Tianming and Tian Yao's faces a little unsustainable.

Lu Yang knew the thoughts of the two, and no longer said more, patted them on the shoulders, let them continue their efforts, and then left.

But the next morning.

More than a dozen of the most elite combat corps, including the Grand Druid Corps, Tsunami Mage Corps, War Tauren Corps, and Mad Wolf Corps, were sent to Zhou Tianming and Tian Yao by Lu Yang.

"The boss is still worried about us." Zhou Tianming said.

Tian Yao smiled and said, "After all, the south is playing a miscellaneous army. We are facing the most powerful guilds in South Korea and India. It is not a level. Don't worry about this."

Zhou Tianming nodded and said: "Look at today's war situation. I hope India can join the war as soon as possible. If they don't come, Park In-yeon won't dare to fight against us."

Tian Yao shrugged.

Chapter 1059 - Witnesses worldwide

While they were fighting, Lu Yang entered the depths of Hell Canyon and found another demigod monster that was locked in a cave.

Nine Firebirds (Demigod)

Level: 180

Blood: 80,000000000 / 80000000000

The nine-headed flamingo played the same way as Duxus. Lu Yang stood at the gate of the prison and hit hard with lightsaber.

Normally.

It is not an ordinary effort to kill the nine-headed flamingo. He is much harder to fight than Duthus. Although the blood is the same, the nine-headed flamingo has a lot of skills.

If you kill nine flamingos with normal play, it will take about half an hour, even if the play is mature in the previous life, but Wu Tian's play is simple and rough, which is to use the lightsaber to grind blood.

Times of Day.

In the middle of the night, Lu Yang successfully killed nine firebirds and got the blood crystals. There was still no better equipment than the Ziyang suit.

Late at night, Zhou Tianming called and said, "Boss, today I siege the city for one day, and I dare not send all the main forces, so I failed to beat Gai Suwen City."

Lu Yang said: "Don't hurry, continue to fight, it is estimated that Tianlong will soon be unable to bear it."

"Yes." Zhou Tianming replied sorry.

Lu Yang didn't mind this matter, and rested that night. In the early morning of the next day, Lu Yang continued to kill the refreshed nine Firebirds, while Zhou Tianming and Tian Yao continued to lead the team to attack Gai Suwen City.

Gaocheng head.

Park Ji-sung said to Park Ren-yi sweatily: "This will not work. We must let Tianlong send troops. This is because Lu Yang did not send all the main forces to fight with us. If all of them come up, our main city will definitely not hold for a week time."

Qi Pu Renyi also found the problem and scolded: "I'll go to Tianlong, and he will never come out again, and I will go with Lu Yang to kick him."

Park Zhixing nodded.

Assam City, located on the central and northern borders of the Northeast, Tianlong and his 500,000 players are gathering here to prepare for war at any time.

"Sir President, are we not yet in the war?" Asked the Vice-Chairman Elny.

Wu Tianlong sat on the ground cross-legged, closed his eyes, and said, "No rush, let them fight for a while."

"Jingle Bell"

The sound of the intercom sounded. Tianlong saw that it was Park Renyi, and he didn't answer the call intentionally, but the call rang once. After half an hour, Tianlong felt that something was wrong, and finally he pressed to answer Pass key.

"Tianlong, you bastard, if you don't come back to support me, I will surrender Lu Yang and go with you to beat you." Park Renyi shouted angrily.

Tian Tianlong was scolded and asked, "What's going on?"

Park Renyi yelled, "You think I don't know what you think. You want me and Lu Yang to be tired of each other. Then come to Lu Yang's troubles, but you don't see if I can survive that time. Now I only sent one third of the team to fight me, and I can't stand it. When his south line is finished and the two troops are together, Lao Tzu can only give up. "

As soon as Tong Tianlong patted his head, he forgot about it and said, "Don't worry, I will support you."

Bian Purenyi cursed: "I only give you 5 hours. If you don't come, I will admit defeat. Anyway, I lose, and I can lose less if I admit defeat earlier."

Pu Tianlong was scolded by Pu Renyi and hung up the phone, glanced awkwardly at the deputy, and said, "Assemble the players, and we will support Gasovin City."

"Yes," Elny said.

The other side.

Wu Tianlong had just taken some action. Tu Feng received the news and immediately told Zhou Tianming and Tian Yao.

"Operation Tianlong, target Gai Suwen City."

Zhou Tianming and Tian Yao both patted the table angrily at the same time, and said, "It's great, finally waiting for Tianlong."

Xu Tufeng asked: "Should someone be sent to support you, Xia Yuwei and Sun Yu can gather players at any time."

Zhou Tianming and Tian Yao both said, "No need."

The two smiled at each other.

Wu Tianyao said: "The boss has given us so many top special legions such as the Tauren Legion, the Druid Legion, and the Mad Wolf Legion. If we still cannot win this battle, we will have no face to be the vice chairman."

"Just tell the boss and watch our brothers perform for him." Zhou Tianming stood up and sorted out his clothes. "As for the brothers, let them rest for a while."

"Okay, listen to you both." Tu Feng said with a smile. He glanced at the explosion of blood in the ancient battlefield. There were already 30 of them. They were all bought, and then passed on the words of Zhou Tianming and Tian Yao. Lu Yang.

Lu Luyang said: "Then let them fight, I believe they can win."

Zhou Tianming and Tian Yao are both masters with a wolf character, and their strength is not worse than that of the Baishi Sanxiong, especially the fierceness on the battlefield. They can be evenly divided with Baishi Sanxiong.

I arrived in the evening.

When Lu Yang was about to kill the second nine-headed flamingo, the battle outside Gai Suwen began. Tianlong took 500,000 people to arrive late, but just after meeting, the two sides immediately launched an offensive.

Iron Brotherhood has always been 300,000 people as a reserve team, waiting for Tianlong's team, which includes more than a dozen special legions such as the War Tauren Army and Mad Wolf Guard.

战斗 During the battle here, the major live broadcast platforms in the world paid for the live broadcast video of the battle.

“Haha, this is another century war. This is equal to a head-to-head battle between the top Chinese guilds and the top Korean guilds. Now it seems that the Korean side is in a difficult position and has found India’s help. The two sides cannot fight. ~ Host Du Bin said excitedly.

Pu Tongtong proudly said, “Finally, we have returned to the land, and Jagged Brothers can also use their strengths. This time the whole world will see how powerful Jie Brothers is.”

Dubin said: “Yes, I have watched the fighting videos of countries all over the world. No one is as fierce and united as the Brotherhood of Iron Blood. After this battle, the Brotherhood of Iron Blood will become the nightmare of the first guild of the world.

Lu Yang was watching the live broadcast, listening to the words of Du Bin and Hitomi, with a helpless smile, and sent a message to Du Bin saying, “You and Hitomi really can hold me, please come back and invite you two to eat.”

Dubin was broadcasting live, pointed out his mobile phone and pointed at the audience, and said with a laugh: “It seems that I and Pu Tong have just satisfied President Lu Yang.”

Xuan Tongtong said happily: “Then I will praise him a little more.”

Everyone smiles.

The battle continues. Among the many players watching the game, no one knows that the guild leaders and main members of dozens of alliances such as the Skyeeye Alliance, the Sanren Alliance, and the Mensa Alliance are watching the Brotherhood of the Iron Blood Brotherhood.

The previous naval battle could not clearly see the war strength of a guild. After all, the existing naval guns destroyed the morale of the other party, but this time it was different. This time, the iron brother brothers attacked the enemy less often, or the enemy. Fight under the main city.

Chapter 1060 - Covert army

In this case, the enemy can be resurrected directly in the safe area of the city, and the Brotherhood of the Iron Blood needs to be resurrected at a resurrection point far away.

This not only tests the commanding ability of the commander, but also the overall quality of the player. The enemy can collapse unlimited times, but the Brotherhood of Iron and Blood, once collapsed, may be completely defeated.

“Damn, how exactly did Lu Yang cultivate such a powerful fighting force for the Jagged Brothers Alliance.” Liu Jie scolded as he watched the battle in Vietnam.

He said, “This is indeed admirable, but don’t worry too much. Our African legion is no worse than him.”

杰 Liu Jie nodded and said, “Let them fight. The harder they fight, the better. Then we can develop with peace of mind. Lu Yang’s fight for one month is enough for our development.”

I think dead grass agrees, and there are other players from all over the world who agree, everyone thinks that the Jagged Brotherhood will delay the upgrade due to war, and they can safely fight.

What they didn’t know was that all of this was an illusion made by Lu Yang. He returned to the Demon Temple with the shards of God’s heart and the crystals of the blood, and raised the Demon’s heart to level 8.

Demon God’s Heart

Level: 8

Physique: +100000

Power: +100000

Endurance: +100000

Intelligence: +500000

Agile: +100000

炎魔变: Level: +7

Special Spells: Meteor Fire Rain, Falling Meteor, Ghost Fire Lamp, Fire Thunder, Fire Sword, and Magic Fire

Increased Spell Penetration: + 65%

Spell critical strike chance increased: + 50%

Spell hit chance increased: + 50%

Spell release speed increased: + 50%

Beacon Skill Level: +7

At the 8th level of the demon heart, there has been a qualitative change. Just the intelligence increase data of this demon heart has doubled the intellectual properties of Luyang's full set of equipment.

The Fire Demon changed to level 7. When the Fire Demon changes are released again, the instant secondary banned spell can be achieved without the need to release any spells, and the Fire Devil can no longer only be changed to a 5-meter high Giant, players can choose body size freely.

What makes Lu Yang more excited is the skill of Shenhua Tianjiang.

“God of Fire”

Category: Fire Magic

Consumption: 50000 magic + 10000 magic / second

Distance: Self

Description: With self as the center, pure flames are continuously falling in the sky after turning on the skill, causing damage to surrounding creatures of 150 meters by X100% of intelligence per second.

随着 As the level increases, with Lu Yang’s current attributes, he can cause 2 times the intelligence value of damage, while Lu Yang now has more than 700,000 intelligence values. The double damage can produce 1.4 million outputs per second.

Lu Yang put on a flying carpet and flew to the deepest part of Hell Canyon. Here is a copy of the place where God—Messney is located.

Messini, an authentic god-level creature in the game, is also the only god-level creature that can be seen in the 180-level map in the game. He can explode the 9th-level fragment of the demon heart, and his copy is also A very good place to upgrade.

For an hour, he came to the depths of **** and found the entrance to the replica. There were no monsters around here, and Lu Yang flew into the gate of the replica easily.

System prompt: You have entered the Temple of Fury

Lu Yang chooses difficulty as nightmare level, which is the highest difficulty.

The introduction of the Temple of Wrath of the Wrath in the game was originally a place for the felony to eat. There is only one thing called Messini that can be eaten here.

The mosquitoes are similar to cockroaches, they grow near the volcano, they are numerous, and their reproduction ability is particularly strong.

They made Messinia worms similar to hawthorn cakes and gave them to prisoners. Messinia worms were used to this kind of thing although they had IQ.

Until the Blazing Demon God died, his divine flesh fell into the body of a Messni bug, causing a mutation. The Messni bug possessed one-tenth the strength of the Blazing Demon God, so he rewritten Messni. The fate of the worm.

The Messoni worm killed all the New World creatures who wanted to break into the volcano. At the same time, he also enslaved a large number of prisoners and forced them to build the Temple of Fury. This Messoni abandoned his original name and was called Messini used this as a sign of the rise of their race.

This shrine is full of cockroach-like zergs, and there are many special zergs hidden in the ground. If a player approaches, these bugs will suddenly attack the player.

From the entrance, the map of the Temple of God is a straight road that leads directly to the hall, and Lu Yang steps forward.

A group of cockroaches crawled past, and there were thousands of cockroaches all over the hall.

Mameney Adults (Elite)

Level: 200

Qi and blood: 5000000000/5000000000

200-level elite monsters have 5 billion health, you can imagine how difficult this copy is.

“Separation”

He summoned the two avatars. This is a good place to upgrade. He is only 123 level, while the two avatars are 112 level and one is 0 level. Here the level can be raised quickly.

Lu Yang opens the magic fire sky.

“Boom”

With Lu Yang as the center, a magic fire fell around 150 meters.

“Summon Flying Carpet”

Lu Luyang sat on the flying carpet, let the two avatars hide behind the corner, and flew straight into the hall.

“Boom”

“Boom”

Uh ...

The golden flame continued to fall from the sky. He sat on the flying carpet and caused damage every time he encountered a monster. When he flew around the hall, five or six thousand cockroaches gathered at his feet. .

“1400000” (Critical Strike)

“1400000” (Critical Strike)

Uh ...

Almost every attack is a crit. Even if the cockroaches have 5 billion blood, they cannot help attacking with such high damage. In just one hour, five or six thousand cockroaches died on the ground at the same time.

System prompt: You have gained 5192768 points of experience

Uh ...

At the same time as an experience reminded the voice, Lu Yang's third avatar continued to shine with golden light. This time the experience brought his third avatar to level 52.

Lu Yang took the two avatars out of the copy, chose to reopen, and then entered the copy, repeating the previous action.

Xun reciprocated five times in this way, his avatar level rose to level 88, and it was also late at night, and Lu Yang controlled the two avatars and the body to fly back to the demon temple to rest together.

He sent a message and asked Zhou Tianming in the simulation group, asking, “How's it going?”

Zhou Tianming said: “We won today, and Tianlong's 500,000 troops were scored by us in Gasovin City. According to the current situation, we can win this main city in less than a week.”

Lu Yang said: “Very well, you continue to fight. After winning this main city, your people will take a rest and rest for a week. Xia Yuwei and bitter love will lead the team to attack Park Renyi's next main city. The time is still one week. “

“Yes.” Xia Yuwei and bitter love half-life said together, the two can't wait to start a war, so the fight was just like their wish.

Lu Yang ended the call, and then he found Han Ying, Han Fei, Han Yu, Mu Feng and Wasteland among the few most loyal people around him.

“Brother, what’s the matter?” Han Ying asked.

Lu Luyang looked at a few of them and said, “I want to set up a special unit. The total number of this unit is only 100,000. Each of you is the commander of this unit.”

☞ Han Fei blinked and said, “No problem, which army group shall we go to?”

Lu Yang smiled and said, “It’s not any of the Legion Brotherhood’s existing legions, I am going to set up a new legion.”

“New Army?” Han Ying asked.

Lu Luyang said, “Everyone in this legion is the child of a relative in this 100,000 family. There must be a few enough people to calm them down. Only you are the most suitable.”

“No problem,” Han Ying said.

Lu Luyang said: “From tomorrow afternoon, these children will arrive one after another. One of you must keep in mind that these 100,000 people are the top secrets of the Jagged Brothers Alliance and must not be known to outsiders.”

“Yes.” Han Ying looked at each other in surprise.

Lu Yang told them to leave each other and went back to the room to sleep. Lu Yang flew to the United States in the early morning the next morning.

Originally scheduled to meet two days ago with Liu Jie's housekeeper, Shefby, but the Liu Jie's family temporarily changed their schedule and all went to a secret villa in New York, USA, so they were unable to meet.

It was not until last night that Shefby found a chance to call Qi Yun and agreed to meet at a cafe today.

谢 Shefby is not generally interested in Luyang's \$ 100 million bonus, so he is very anxious to meet.

After Lu Luyang knew the specific location of Shefby, he immediately sent black and white to the Liu Jie family's new villa for investigation. Song Yunyi provided the most advanced surveillance equipment in the United States to conduct comprehensive monitoring of Shefby.

If it wasn't for Lu Yang's concern that Liu Jie could get anti-reconnaissance equipment from unknown channels, he would even monitor Liu Jie's home.

Private jet landed.

Lu Luyang took an ordinary car to greet him by Song Sisi and came to a large supermarket in New York. He met Shefby who was purchasing items and the black and white monitor hidden not far away.

Song Sisi has already prepared a room for Lu Yang. After entering, Shefby looked at his watch and said anxiously, "I only have 20 minutes. Exceeding this time will cause suspicion."

Lu Yang smiled and stretched out his hand to indicate that each of the 20 men put the black handbag in his hand in front of Shefby.

"Pull away."

Twenty people moved in unison, opened the handbag, and exposed the bright dollar cash.

"This, this is, so much money." Shefby rushed to the money and laughed excitedly.

Lu Luyang said, "You only need to provide me with Liu Jie's time to go home. The rest of the things don't need you to do it. If you can do it, the money is all yours."

"No problem, absolutely no problem, for this money, I am willing to sell everything." Shevbi said greedily.

Song Sisi initially scoffed at Lu Yang's idea. A person who can be appointed as a steward must be the most loyal to the owner. In the United States, a personal steward who has been a host for more than 20 years is almost impossible Rebellion for money.

But he didn't expect that Lu Yang really did it. She asked curiously: "Are you really willing to sell Liu Jie for this money?"

当然 "Of course, this can be 100 million US dollars, the fool is not willing." Shefby said madly.

Lu Yang waved his hand to signal to his men to collect the money. In the previous life, he also treated Shefby in the same way, sold the heart of the demon, bought Shefby, and only got Liu Jie's time home.

别 "Don't take the money away, give it to me, give it to me." Shefbi saw Lu Yang's men taking away the money, showing an anxious look.

Lu Yang handed a bank card to Shefby and said, "Don't worry, I will save this money for you at the Swiss bank. I also bought a villa for you in Switzerland. This time, I will tell you Your bank card password. "

"Concluded," Shefbi said quickly after taking the bank card.

还有 "Also, I want to remind you that you have to put your mind right. Don't always think about money these days. If things come to light, no one can save your life." Lu Yang said.

Everyone, including black and white, exposed the guns on his body, which made Shefby look terrified.

放 “Relax, rest assured, I will never show my feet,” Shefby said.

Lu Yang nodded and said: “You go back first, I speak fortune, you do the work for me, I give you money, the thing is done, we have a win-win situation, but the thing failed ...”

He smiled and didn't go on talking. Shefbi burst out from the cold sweat on his face and said quickly: “It must succeed, absolutely succeed.”

Lu Luyang said, “You go.”

“Okay, okay.” Shefby left with sweat.

Song Sisi said, “You really have a way. I will talk to my grandpa about the housekeeper when I go back.”

Lu Yang smiled and said, “Don't doubt the stewards of your family. The Liu Jie family cannot blame others for this problem, only Liu Jie and his father.”

“Why?” Song Sisi asked.

Lu Yang said: “Just look at Qi Yun and know how such a capable person treats Liu Jie and his father, holding you when it is useful, and once you feel useless, you will be abandoned immediately. How can such people make their loyalty. “

Song Songsi nodded and said, “It makes sense, let's go and take a rest at me.”

Lu Yang stood up and left with Song Sisi.

Of course, in the afternoon, at the Song family, Lu Yang received the highest standard of reception, and even the father of the Song family came out.

Lu Yang gave the Song family such a big business. This is a pie thing in the sky for the Song family. Although their family is not short of money, they have a huge gold mining business. Everyone knows this. the value of.

清 Early morning the next day.

Luyang flew back to the studio by plane, and at this time, in Luyang's original studio, that is, the abandoned steel plant, 100,000 people had arrived.

影 It is Han Ying and Han Fei who are responsible for managing these people. Among them, Han Zhong is still responsible for guiding them to exercise.

Different from the past, the current composition of the various members of the Jagged Brotherhood is very complete. These 100,000 people have been specially instructed from nutritionists, fitness coaches to combat skills, and these taught people are the oldest players in the Jagged Brotherhood , And the most loyal player.

When Lu Yang arrived, Han Zhong and Han Fei were taking them familiar with the environment. They were all 16-year-olds, and everyone's face was still immature.

“Brother, you are here.” Han Ying saw Lu Yang come over.

Lu Luyang said, “Let's take a look at the situation here, how is it?”

“It's all here, my dad will give them a meeting in the game.” Han Ying said.

Lu Yang nodded and saw that everything was normal. He returned to the studio and entered the game. He continued to enter the Temple of Raging Flames to kill the Messina bug to increase his level.

After five hours, his level rose to 130, and his two avatars reached 122 and 90 respectively.

“Xiao Yang, I'm done here, you can say a few words, too.” Han Zhong called.

“OK.” Lu Yang said.

He also needs to meet these little guys, take out the fortress and go back to the city to fly to the red fortress.

100,000 people are standing in the inner city, and they are all excited when they see Lu Yang.

“That’s the boss of Lu Yang.”

“It really looks handsome.”

Uh ...

There are little boys and girls, like a flock of birds.

Lu Yang smiled and walked to the high platform, watching them and said, “I’m Lu Yang, president of the Jagged Brotherhood.”

“I don’t say anything else, I believe my master Han Zhong has said to everyone, I just want to tell everyone.”

Lu Luyang used a projection device to project a huge real-world engineering construction plan around him, which contained hundreds of tens of floors.

“Do you know what this is?” Lu Yang asked.

“Building.” The players below shouted.

Lu Yang said, "Yes, this is a building, and it is the building I prepared for you. Upgrade it and fight for it at an early date. Your relatives are your role models. They have a very high income here and they also get As soon as I reward their house, as long as you work for me faithfully, you will live up to me, Lu Yang, and I will definitely live up to you.

What I have to save money is, as long as I work hard, I will give you a lot of salary, a lot of bonuses and beautiful houses, I will finish the decoration for you. "

The players below laughed, and at the same time, everyone's eyes showed excitement. When they came, no one told them what kind of work they were, but they really came, and they knew that they had such good treatment. Everyone The look of longing was revealed in his eyes.

Now there are so many people in the world and the house prices are so expensive that they can go out to work and save a lifetime to afford a house. But now someone wants to send them a house, and the price paid is only loyalty, and they are extremely happy.

"Boss rest assured, we must work hard," someone shouted.

Uh ...

Lu Yang nodded with satisfaction, saying, "Remember one thing, keep it secret. Starting today, you will not be able to contact your family. They can come here to see you, but you cannot say a word about your work. "

"Yes," the crowd said together.

Lu Luyang said to Han Zhong, "I'll leave it to you, and I will escalate, and the final battle will begin."

Han Zhong nodded.

Lu Yang used the skills to make the subject fly back to the clone and continue to upgrade underground.

Killing level 200 monsters at level 130 is still hard to imagine. On the other hand, the external war of the Brotherhood of Iron Blood continues.
