Chapter 1081 - Battle Method

“Hey, Lu Yang dared to rush out, really afraid of us.” Lushui said coldly.

Tian Long glanced at the formation of Lu Yang and said, “Don’t care, since Lu Yang dares to rush out, he must have his support.”

Park In-yeo said indifferently: “What else can we rely on? It is estimated that we want to consume our number of people in the wild, so that we can’t all arrive in Gasouwen City and fight with him.”

Everyone nodded.

“How do we fight?” Green Water Ghost asked.

“I suggest taking advantage of our large number of people to open up the front line to attack them and surround them in a semicircle at the highest level,” Pu said.

Lvshuigui and Tianlong looked at each other, neither of them had an opinion.

“That being the case, get ready.” Park Renyi said.

Players from South Korea, India, and Australia immediately formed a team, and the army began to slowly change formations.

“Boss, they seem to be attacking.” Xiao Liang said.

Lu Yang looked at Xu Cailiang next to him and said, “You are with me, setting up a Tai Chi array, I stand on a white spot, you stand on a black spot, centering on you and me, strangling the other 1.5 million people.”

“Yes.” Xu Cailiang answered with an arched hand, an expression of unbearable excitement appeared on his face.

Taiji array was carefully researched by Lu Yang and Xu Cailiang. It is a top-level strangling array with less hits and more hits.

The largest formation in the game is based on 10,000 people. One million people is 100 formations superimposed on everything. Although it is a superposition formation, it is the simplest and most effective one.

Lu Yang discussed this issue with each of the legion leaders of the Brotherhood of the Iron Blood before. At this time, the simplest compound array method is the most suitable, which can maximize the attack and defense.

The shape of the entire Taiji array is two rotating arc moon blades. When viewed at close range, each arc moon blade is composed of thousands of smaller arc moon blades. This is the essence of this large array, but the arc moon The sword needs to be protected, which requires a shield battle in the Taiji array.

The attack is white, the defense is black, and the black and white are alternated. The overall defense of the attack is converted. Therefore, it is called Taiji array, but he needs two people to command at the same time.

It is natural to say that Lu Yang has the supreme prestige in the Iron Brotherhood. He directs the white point without any problems. On the other side, Xu Cailiang has no prestige, but he knows the formation method. In order to let him maximize his power, Lu Yang arranged for Xia Yuwei and Tian Yao to assist.

“Array.” Lu Yang replaced the flames.

One million people have begun to form a formation. Although it is a formation method, the Brotherhood of the Iron Blood is now divided into 10,000 regiments. Lu Yang commands these 1 million people, but he commands 100 army commanders.

In less than an hour, 1 million people completed the lineup change. On the other hand, Tianlong and Park In-yi also organized the formation. They are the simplest attack formation.

Heaven.

Thousands of cameras were shot at high altitudes. In the live broadcast room, Dubin and a number of commentators from various countries turned on the mode of understanding and speaking again.

“It’s weird. What is Lu Yang doing? The pattern is so weird, but it seems to contain some philosophy.” German host Nelson frowned at Dubin.

Dubin gave a thumbs up to Nelson and said, “Yes, you are right. This is called Yin Yang Fish, also called Tai Chi Picture. It is a kind of Kungfu in China. But Lu Yang used it like this for the first time. , Do n’t understand what it means. “

The British host drew a picture on the paper and said, “I see something, you see nothing. This formation of the Brotherhood of Iron and Blood is detailed and specific. It is composed of countless tiger heads, dragon heads, and turtles. Formation. “

Dubin pulled the camera closer, and sure enough, he could see the details of the formation method clearly. After seeing it clearly, these hosts and the audience at the scene were even more confused.

“What is the significance of such an array, if you use a cone array to attack, you can still easily break in.” French host Marlon asked.

The Japanese host Morita shook his head and said, “No, this is a very lethal formation, you see.”

He pointed at the formation of the Middle Brothers Alliance and said, "Looking closely at their individuals, this is a formation with particularly strong two-wing defense and zero defense in the middle."

Everyone looked and found that the middle area was not the player responsible for the defense, but the player responsible for the assault.

"What does this mean?" Lebanon the Italian host asked.

Morita shook his head and said, "I don't know, but I can be sure that Lu Yang did this, it must have his reason."

Dubin said: "The battle will begin soon. We watch the game and hope that the answer will satisfy us."

In the battlefield.

The two Taiji fishes in the Jagged Brothers Alliance are connected end to end, and they are still there, while Park In-ye and Tenryu each roar and order their players to attack.

This kind of attack is not a rush of 1.5 million people, but an orderly, forward attack with an attack formation.

The cone-shaped array physics career came first, and the turtle-shaped array master career came later. Once they entered the shooting range, the formations on both sides were immediately exchanged. One side of Park Renyi decided to destroy the vigor of the Iron Brotherhood with the mage team.

"Not good, if you let Park In-Yi start their mage formation, the formation of the Brotherhood of the Iron Blood will be destroyed by the mage profession." Dubin said.

On the court.

Pu Renyi watched this scene proudly, because his formation was so easy that Shi unfolded Jiexie Brothers had no sense of prevention in this regard.

“Lu Yang, I want you to regret letting me use the curse like this, haha.” Park Renyi shouted in excitement and shouted, “Forbid the curse, fight me to death.”

More than 10,000 cursed mages, and at the same time chanted a spell behind a lined shield formation. For a time, the Brotherhood of the Iron Blood was overcast.

Just as they chanted, Lu Yang sneered on his face, glanced at Xu Cailiang in the distance, nodded at him, and raised their left hands together.

“Serpentine formation, change formation.” Lu Yang and Xu Cailiang shouted at the same time.

One million people changed their formations at the same time. No matter what formation they were, they quickly became a serpentine formation.

Serpentine formation, magic defense formation, increase magic resistance by 30%, in the formation, holding a large shield of anti-war and anti-riding, immediately lift the shield, a shield can stand 3 people, and form a shield formation , More people can stand.

On the side without a shield, they are all druid professions. After becoming a bear, the magic resistance will automatically increase by 30%.

Chapter 1082 - Battlefield Power

Genius remember this site address in one second:

After 30 seconds.

The splendid spell disappeared, and when Park In-yee and Tianlong looked with pride, they found that the chance of loss of the Jagged Brotherhood was zero.

“How is this possible?” Park Renyi asked in shock.

Wu Tianlong didn’t know what to say, but just stared at the situation in front of him.

“Are your mage wearing no equipment, why did you cause such a little damage?” Shouted Green Water Ghost.

“Asshole, Smeda, our mages are all top-level suits of level 120.” Park Ji-sing shouted.

“What is going on?” Lushui said angrily.

Zhi Pu Zhixing was speechless. Where did he know that the Brotherhood of the Iron Blood used war? This war skills that suddenly ignored the target’s 30% legal damage caused them to be caught by surprise.

Although they also know this skill, it is unimaginable to apply it to 1 million people.

里面 Inside the live room.

Dubin and the explanations of other countries were also stunned. Unlike Park Renyi and Tianlong, they clearly saw from the sky perspective how the one million people of the Iron Blood Brothers Alliance could prevent the curse.

The entire Tai Chi fish has shield defenses wherever there is a curse, and the shaman in the distance uses a large range of soul chains to share the souls of players within the curse and players outside the curse and lose blood Apportioned, this leads to the effect that the curse does not cause any damage.

“It’s a textbook-like method of curbing the curse,” Dubin shouted.

“Admire.”

“Park Renyi is finished,” Nelson said.

Dubin nodded and said, “Although there are many people on both sides such as Park Renyi and Tianlong, there are too many differences in the fighting methods and personnel qualities. There is no suspense in this battle.”

There was no rebuttal by the moderators.

In the screen.

Seeing the success of the forbidden spell defense, Lu Luyang raised his staff and shouted, “The formation advances 100 steps forward, listen to my order, 1.”

“2”

“3”

Uh ...

Every time Lu Yang shouted, 1 million players in the Jagged Brothers League followed and shouted while walking. There are such benefits in the game. Except for a few special occupations, the pace of everyone else is the same, which leads to the overall formation of Taiji Formation. Confused.

After 步 100 steps, the two sides collided together formally. When the battle touched, they stood up.

The combination of a small tiger head array, a dragon head array, and a tortoise array, especially a group of 10,000 people, is actually a very large heavenly array.

The combination of Tian Jue Zhen with this combination of formations not only comes with the powers of the original Tigers and Dragons, but also the power of Tian Jue Zhen.

Lu Yang and Xu Cailiang confirmed this formation before the battle, but both knew that this formation can only be used at the beginning, because they will be chaotic when they fight.

But as long as it can be used, and the number of people who keep the formation at least 60%, this formation will not be broken.

The attack and spell damage of the tiger head formation is 20%, and the damage of the sky formation is 35%. This formation is the most damage of all attack formations, and it is the most difficult to form. This is why Renyi and Tianlong did not set out the reason for the sky.

Pu Renyi did not think that Lu Yang would be able to put up a heavenly array, but when Lu Yang 's Taiji array shrank inward and the first gossip picture appeared outside, Pu Renyi was dumbfounded.

Twenty thousand people form a gossip chart, and each gossip chart that appears is a heavenly array, and a total of 6 heavenly arrays in front of and on the left and right sides instantly fall into the team of Park Renyi.

Bitterly loves half a lifetime and is currently a horse. He is the commander of the first sky front in front of him, aiming at a defensive battle in front of him.

“228750”

“228750”

In the case where there are two formations superimposed with 55% damage, the bitter love can do such damage with just one attack.

“Whirlwind”

Bitter love spins crazy for half a lifetime, like him, the fighter who rushes to the front uses the Whirlwind skill at the same time.

Heals who were supposed to be able to resist the battle were dumbfounded. The total health of the shield battle was only 2.56 million. One attack was killed by one-sixth. Then, the rest of the violent battle around the cyclone and the attack of the mage behind .

I only attacked this time, and the treatment was not added, so that the bitter love half-life rushed in. The crispy professions such as the treatment and output later faced the bitter love half-life, and they were killed and fled.

Not only on his side, Xia Yuwei's Han Sha also led the team to break through the formation, and the 6 legions such as lofty and heroic all broke into the enemy battle line.

“Give me offense, all offense, ruin their formation.” Park Renyi shouted, at this time he had found the problem.

“Should we let the soil mage lift us up a bit and watch on flat ground, we can't see the enemy's situation,” said the Green Water Ghost.

Ji Puzhixing glanced at him and said, “Lu Yang has more than 40 hearts in his heart. If you want to die, don't take us.”

Lvshuigui was speechless Forget it, I led the team to attack. “Lvshuigui found that he was not much to be seen here, and was too lazy to talk to Park Renyi and Tianlong more, and led people straight to the battlefield.

In the field.

The 6 million regiments of the Jagged Brotherhood continued to move forward. Although some people were killed, they can soon be resurrected with the resurrection stone, and then died, as well as the druid's resurrection and shaman's battlefield rescue.

Although the six 10,000-member regiment suffered heavy losses and continued to lose experience, they have always remained above 60% of the members.

“Boss, do we need to send someone to support.” Xiao Liang said nervously while standing aside.

Lu Luyang said, “Stabilize. Now is not the time to be impulsive. These 6 million regiments must attract enough firepower from the enemy.”

This is another game specified by Lu Yang before the war. There is something in the game called the upper limit of attack. Everyone has a limited magic value on the battlefield. You cannot use magic all the time, although you can use magic potions. , But the cooldown of the potion is half an hour, that is, within this half an hour, your magic will be drained.

玩家 Many of the player's skills, such as Lu Yang's special skills such as meteor drop, almost every player will have a few, but after each release, there are several hours of cooling time.

Lu Luyang arranged the 60,000 people to rush forward, on the one hand to kill the enemy, and on the other hand to induce all the enemies to throw their main skills on them.

Now it seems that his plan has been realized. As long as he persists for a few minutes, the enemy's great killing skills will be used up. At that time, it is time for him to launch an attack.

People like Park Renyi and Park Ji Sung did not find this problem. Seeing that the 60,000 people were fighting more and more fiercely, the more they were playing, the more they disrupted their formation. They just wanted to quickly eliminate the 6 million people.

“Hit me. Putting their skills to destroy them. You must not let them continue to attack.” Park Renyi and Tianlong shouted.

The 1.5 million people are a large group that can really reach the 60,000 people. The actual number is less than 100,000. No matter how the two of them shout, the ones who can reach will attack with full force. With.

Soon, the last two hexagrams of the gossip array were also separated from the Taiji circle and joined the battle. In this way, it became a line of hexagrams followed by a taiji circle.

The two move forward simultaneously, and each advance is a collective shout. Every time a shout comes out, the whole field is shaken, like a thunder.

Where did Park Renyi and Park Ji Sung see this kind of play? They just remember that they were crowded, and they shouted desperately to let their men surround the Jagged Brothers.

But I do n't know that Tai Chi Yuan is a complete offensive and defensive formation. There is no dead place in any place. However, if you want to do this, you need someone to direct it.

The white Tai Chi fish on Lu Yang's side was under his command, while the black Tai Chi circle on the other side was under Xu Cailiang's command.

Although both were commanding the battlefield for the first time, the two had a tacit understanding between the masters and easily commanded Taijiyuan to harvest the enemies around him.

However, Taijiyuan also gradually wears off in this attack. Whenever someone can't be resurrected, there are players in the Iron Brotherhood behind to fill up, even if that position is covered by countless skills, they will still rush up heroically.

They know that there must be a healing profession behind them to add blood, even if it is mortal, in the Jagged Brothers Alliance, they must take the overall situation seriously, even if they die, they must rush up.

Inside the live room.

Through the sky perspective, hosts such as Dubin and Nielsen saw this scene clearly, which made them feel astonished.

“Chinese people, born fighters.”

“It’s just a game. It’s such a prohibition. Players don’t hesitate to fill in the gap. It’s incredible.”

“There is no reason for the Jagged Brotherhood to lose in this battle. I can believe that the entire Northeast of the New World must belong to the Jagged Brotherhood.”

“Sympathy. Fortunately, the Brotherhood of the Iron Blood didn’t choose to build the main city in the hinterland of the new continent. Otherwise, the surrounding forces will desperately destroy him, haha.”

...

Everyone in the live broadcast laughed and laughed. Obviously, everyone can see that such a hot-blooded team really chills every opponent.

On the other side.

Liu Jie, who was watching the live broadcast, also found the problem. He called the dead grass and said, “I will implement the next plan. I will retreat here tonight. You are taking people to attack the surrounding forces. You must take advantage of Landing Sun to have no time to distract. Destroy all enemies in the north. “

“Yes,” said dead grass.

Liu Jie originally wanted to beat Lu Yang in a rush, but it was considered a dead b plan. Once the siege was not enough, they gave up the siege and quickly calmed down all the forces in the northern region.

At present, the total number of people in Liu Jie’s hands is more than 20 million. As long as he is given enough space, he can make these 20 million people become high-level fighters, but what he lacks most is space. Let him start.

On the other side.

One step up to the sky without knowing that Liu Jie was preparing to retreat. He was still storming the tiger mouth fortress, but was repeatedly defeated by the white lion on the head of the city commanding the Musketeers.

Although they were repelled every time, it was not a fool to go one step at a time. They had discovered the problems of the Musketeers. The ammunition used by the Musketeers was different from the ordinary ammunition of archers’ bows and arrows and muskets.

Ascending to the sky in one step determined that the muskets on the city’s head must be specially made. According to this attack method, those ammunition will be consumed clean.

They guessed very correctly, but just as he was preparing for the next attack, on the other side, there was a message that shocked one step.

The coalition forces of Park Renyi, Tianlong, and Green Water Ghost were defeated by Lu Yang in front of the Devil’s Prairie, and 1.5 million people were defeated as a whole, and they were furiously running towards Dingzhou City.

“What? How is this possible? 1.5 million people can’t beat 1 million people?” One step Dengtian scolded.

People like Bloodthirsty Heaven and Eternal Spirit didn't speak, which seemed too normal to them. The rise of the Brotherhood of the Iron Blood always played less with more, and they were the "more" witnesses.

"Forget it, keep on attacking. We didn't have any hope. As long as they can hold Dingzhou City, we won." Eternal Spirit said.

He stepped up to the sky and said, "You command, I'll see what's going on. If Park Renyi and Tianlong are too wasteful, this cooperation will not be necessary in the future."

The spirit of eternity and bloodthirsty bully and other people did not hesitate to continue commanding the battle, but one step up to the sky and opened the live broadcast platform, looking at the situation on the battlefield.

Devil's steppe.

The Taiji Circle of the Jagged Brothers Alliance has spread out, and it has become a 100 heavenly array composed of small conical arrays. From the sky, it looks magnificent.

On the other hand, Park Renyi and Tianlong were completely defeated, and the remaining one million people collapsed as a whole, and they are running towards the back with all their strength.

It turned out that just now, Lu Yang felt that it was time to launch the total offensive, and immediately Tai Chi Yuan moved forward.

The 10,000 spell brothers who had been hiding in the formation and the banned spells brought by another 10,000 Song Sisi collectively launched a banned spell attack, disrupting the formation of 1.5 million people.

Later, hidden in the Taiji Circle long ago, he has formed 0 offensive formations in the offensive formation and pushed forward as a whole. This is Lu Yang's fangs. When these 0 offensive formations are released, Pu Renyi and Tianlong One side no longer had the ability to resist, and the frontal main force was penetrated, resulting in the overall defeat of the formation.

Lu Yang chased all the way to the bottom of Dingzhou City, but at this time, the number of defenders in Dingzhou City was less than 500,000, and they were all 120 and 110 players.

Lu Yang broke into the main city with only one attack. Suddenly, Pu Renyi's portal opened wide, and the four main cities of Xuanzang, Guang'an, Yizhou, and Suiyuan were lined up and exposed in front of Lu Yang, like an undefended village. In the same way, Park Renyi and Tianlong don't even know what to defend.

"Recapture Dingzhou City, desperately recapture Dingzhou City." Park Renyi shouted frantically.

In the live room.

Dubin held his shoulders in both hands and said with a sigh, "Who can think of it, both sides are covered with big mountains, and there is a 50-meter-high wall in Dingzhou City, which was hit by Lu Yang in the First World War. No extra effort. "

Nelson exclaimed, "I can't believe that 1.5 million people were chased by 1 million people on the plain. This battle was wonderful."

Du Bin said: "It can be said that if there is no accident, Park Renyi has failed, and he will no longer be able to stop Lu Yang. Now it depends on when Lu Yang wants to destroy him."

Morita said: "According to previous understanding, Lu Yang should immediately attack, but these main cities are different from other main cities. The players inside are all Koreans. I do n't know what Lu Yang will do in the end. , South Korean players will be desperate for the main city. "

In the eight main cities, there are more than 20 million Korean players. It is a very troublesome thing to let them fight with their enemies.

Lu Yang also knew this. Therefore, instead of attacking immediately, he first stabilized the defense of the state city. For three consecutive days, he led the team to defeat nearly a hundred offenses of Park Renyi and Tianlong and completely defended the city of Dingzhou. .

Seeing that the attack was fruitless, Park Renyi simply set up a large number of small defensive fortresses behind a large river in the middle of Dingzhou City and the four cities of Xuanzang City, and monitored Lu Yang's every move at the same time. Be prepared for Lu Yang's attack.

Lu Yang was too lazy to talk about simplicity and justice. At this time, he was sitting in the guild hall of Dingzhou City and discussing the celebration with a group of vice presidents.

"It was a great fight this time, and there was no suspense to win. It was so cool." The white lion laughed.

"Yeah, Park Renyi was actually defeated by the boss and they are now a joke in everyone's eyes."

...

Everyone laughed.

Defeating 1.5 million people by 1 million is indeed a joke, but it seems so normal to put it on Lu Yang.

Lu Cai patted Xu Cailiang around him and said, "Thanks to Cai Liang, he can command the army with me so that I can win the battle so easily."

Xu Cailiang quickly stood up and said respectfully, "Boss, I just did it according to your order. What's the credit?"

Zhuojiu, Tianyao, White Lion, half-loving half-life and others looked at Xu Cailiang together, nodded, and made great achievements but were not proud and arrogant, which made them all feel good about this person.

Xu Cailiang is not stupid. These people in front of him are the true speakers of the Jagged Brotherhood. Each of them is a director with a shareholding or a deputy chairman with real power. He doesn't dare to take pride in himself. Besides, he came to make money, and Not to find uncomfortable.

Lu Yang said: "Merit is credit. You don't have to be modest. Right now you haven't commanded an army by yourself, so you haven't convinced your staff, but this time you are not small, I will give you a place."

Xu Cailiang looked at Lu Yang in surprise.

Lu Yang said: "You have now entered the core of the Jagged Brotherhood. I should also tell you something. I have established a special army of 100,000 people. Starting today, you will enter this army as the general staff, which is equivalent to The big army division, Han Fei and Han Yu are the commanders and deputy commanders of this army group. In the future, the three of you will work together to create an invincible battle array. "

"Yes," Han Fei, Han Yu and Xu Cailiang said together.

For this arrangement, Lu Yang had discussed with Han Fei and Han Yu before. The two were extremely welcome. Even Han Fei told Lu Yang that he thought about asking him to bring Xu Cailiang over.

Compared with other legions, the mission of Han Fei's legion is the heaviest, because what he will bear is the main force that will be forced to ambush Liu Jie in the future.

At present, this group of people is not enough for level 100, and the composition of the staff is relatively simple. Although there are many relatives of white lions and muddy wine, but people of this level of Han Fei are oppressed, and no one dares to disobey.

If you arrange Xu Cailiang now, you can start to exercise the army formation at the time of the level. At a high level, the army formation has also been practiced and can be used for combat.

Xu Cailiang did not expect that Lu Yang valued him so much, and even the confidential documents of the Jagged Brothers Alliance told him, naturally he was more grateful.

"Boss rest assured that I must actively cooperate with the two legions of Han Fei and Han Yu, and strive to create an army that can evolve war at will as soon as possible." Xu Cailiang said.

Lu Yang nodded and said, "Since you have served as a military division, your salary will also be adjusted accordingly. At the same level as the regimental commander, the annual salary will rise to 100,000. In addition, I will reward you with an additional 1 million for this war."

Xu Cailiang was stunned and said, "So much money?"

Lu Yang smiled and said, "This is what you deserve. Here I am, as long as you have the ability, I will never save money."

"Yes." Xu Cailiang said flushed.

He has just graduated, and in less than a year, he has earned the savings that many of his classmates can save in half a lifetime, which is also the savings that his parents could not save in a lifetime. This made him know that he was the right boss.

But where does he know, Dingzhou City, there are more than 5 million players resident in South Korea. In this main city alone, there are tens of millions of credit points for one month of taxation, not to mention the drugstores and blacksmith shops in the city are all iron brothers. Industry, making more money.

Lu Yang asked Xu Cailiang and Han Fei to leave, and said to Sirius, "Call your wife."

"My wife?" Shooting Sirius blinked his confused eyes and asked, "What is it?"

Lu Yang said with a smile: "Of course it's a good thing. This thing needs your wife to do it."

"Ah, oh." Shooting Sirius was still confused, he sent a message to his wife, and then he looked blankly wondering what to look at.

The White Lion joked: "Brother, what's the situation with you, don't you know what your wife is doing?"

Everyone laughed.

Shooting Sirius glanced at Lu Yang grievously and said: "Who knows what task the boss has arranged for her, I don't know what she is doing every day, and ask her if she doesn't say that, otherwise she lives at work every day Room, I thought she was derailed. "

Everyone laughed.

Lu Yang laughed silently, because when he was talking to Sirius, his wife was waiting outside the door. At this moment, he just came in and heard what Sirius was saying.

His wife walked in front of Sirius in two steps, grabbing his ear and cursing, "You stupid idiot, mad her."

Shooting Sirius looked up to be his wife, and the seven souls who were scared suddenly lost six, and quickly said, "Wife, how come you come so fast."

"I'm at the door, I just arrived." Qing Qian Zimeng said.

Shooting the wolf was silent, and glanced at Lu Yang in disappointment, letting her seat open to her wife, but she did not sit without the draft Qing Qingzi Meng, but came to the lower position of Tu Feng and sat down.

Everyone saw here and lamented that the position beside Tu Feng was reserved for Qing Qian Zimeng, but what is the next position of Tu Feng? It is the position of the deputy team leader of the Iron Blood Brothers Intelligence Group, that is, Said that the Qingzhuang Zimeng now officially became the deputy leader of the Jiefang Brothers Intelligence Group.

Don't look at just a team leader, but when this position was established, Lu Yang and each vice chairman passed through. In order to ensure loyalty, the annual salary of this position is millions, which means that the current one is shallow Zimeng can make a million a year.

Lu Yang saw everyone with a surprised expression, and coughed, saying, "Officially introduce to you, Qing Qian Zimeng, starting today, officially became the deputy team leader of the Jagged Brothers Intelligence Group, responsible for responding to the information of the game associations of various countries. "

Everyone sighed.

Shooting Sirius said: "Wife, when is it?"

Qing Qian Zimeng shot Sirius white and said proudly, "A month ago."

Lu Yang said: "Sirius, you can't ask more about your wife in the future. Although you are a family, the guild secrets are still confidential, and the rules and regulations cannot be broken."

"Yes." Shooting Sirius got up and answered seriously.

Lu Yang went on to say, "The reason why Zimeng was appointed as the deputy leader of the intelligence team was because Zimeng did succeed. She used her Korean beauty anchors to successfully enter the eight main cities under Park In-ye. We contacted the presidents of nearly a hundred guilds in the city, and we have reached an agreement with them. When we attack Park Renyi's other main cities, they will not help or fight. "

"Amazing." Zhuzhuo and the White Lion sighed.

Lu Yang said: "The specific negotiation process is not detailed. In short, we have big fists and they have to listen to us. In this case, the words are not rough. You remember, officially, because we have so many brothers who can fight And you top commanders, Tu Feng, there are enough chips to negotiate with others.

"Yes," Zhuojiu said with Bai Shi and others.

Lu Yang continued: "The next step is to study how to attack Park Renyi and Jiuxing Alliance."

Tu Feng answered, using a three-dimensional projection screen, pointing at the map outside Dingzhou City: "At present, the four main cities of Xuan Zang, Guang'an, Yizhou, and Suiyuan are lined up opposite us, and the Jiuxing Alliance and Suiyuan Linked up, now inside the Nine Star Alliance is about to move, there is a great tendency to attack Park Renyi with us. "

“What is the situation of this nine-star alliance. At this time, I don’t want to alliance with Park Renyi, but actually want to share the main city of Park Renyi with us?” Zhuo Jiu smiled.

Tu Feng said, “The Nine-Star Alliance has nine main cities, including nine super guilds in nine countries, including Britain, France, Germany, Japan, South Korea, and China. The power of the guild, but they came together in the New World and formed a super power. If they were brought together, their offensive ability would be stronger than Park Ren-yi. “

“It turned out to be a difficult bone,” said the White Lion.

Chapter 1084 - Pursue Park Renyi

Qing Qian Zimeng said: “It’s not difficult now, three stars in the nine-star alliance decided to surrender to us.”

“What?” The white lion and muddy wine were surprised.

Qing Qian Meng looked at Lu Yang.

Lu Yang motioned him to continue.

Qing Qian Zimeng was slightly proud, saying: “My Zimengge sent three beauties and captured the dark royals of Italy in the Nine Star Alliance, the French First Army, and the three guilds of Huaxue Shexue Mountain. They have decided to surrender to us while fighting. “

Zhou Tianming asked in surprise: “How to do it.”

Qing Qian Zimeng said with a smile: "Thanks to the strength of our Jagged Brothers Alliance, they originally did not want to fight with Jagged Brothers Alliance. This time, Jagged Brothers Alliance won. They completely recognized the reality and wanted to protect themselves and keep The main city of the three of them. "

Tu Feng said, "But we did not agree. Just now Zimeng didn't come to the meeting for the first time, and also negotiated with a few of them. The final negotiation result was that these people were willing to give up 70% of the main city, and only retained 0. "

The crowd here nodded with satisfaction.

"Good, beautiful job," Lu Yang said.

Everyone has no opinion. This ratio is a ratio that everyone is satisfied with. Above this data, the Brotherhood of Iron Blood would rather go down than let them stay. Below this ratio, these people will not make money. After all, the guild Also run.

These guilds are not stupid. According to this ratio, under the protection of the Brotherhood of Iron and Blood, they can earn money without worrying about the problem of enemy attack.

Lu Yang said: "So, I decided to attack Suiyuan City immediately in the morning. Who wants to break into the Nine Star Alliance and seize their main city?"

Pride Wanzong stood up and said, "Boss, our 100,000 crazy wolf guard is willing to go into the nine-star league."

Lu Yang said, "Okay, then it's up to you to enter the Nine Star Alliance."

"Yes." Pride and excitement, and he suddenly said: "Boss, can you lend Xu Cailiang to me? With him, I feel our offensive power is stronger."

Lu Yang smiled and said, "Of course you can. Xu Cailiang will always be involved until the end of the war. Anyone who needs him can find me."

"Xu Cailiang must do his best." Xu Cailiang stood up and said excitedly.

"Well, take a good rest tonight, we will officially attack tomorrow morning." Lu Yang said.

Everyone got up and answered.

Qing Qian Zimeng said: "Boss, you still need to go to Tianyuan God City. Is this war still over?"

Lu Yang laughed and said, "Okay, I'll play a show with them."

In the third-floor lobby of the official hotel of Tianyuan Shencheng, the nine presidents of Park Renyi, Tianlong, Nine Star Alliance, and One Step Dengtian are waiting together for Lu Yang's arrival.

Everyone in the room was hazy, and none of them smiled. It was not that they didn't want to laugh, but that the recent fighting really made them feel uncomfortable.

One step to the sky and attacking Dingzhou City lost a lot of equipment and player levels, but he was still unable to reach the first step of the city. Whether it is day or night battles, the white lion is defensively impenetrable, making him extremely uncomfortable.

Park Renyi was even worse. He lost a lot on the battlefield and lost Dingzhou City. He has n't snatched it back for three consecutive days. As a result, his portal is now open. The four main cities are in front of Lu Yang. As long as Lu Yang wants to attack , He could not escape.

Inside the room.

Park Renyi bowed his head and said nothing, apparently thinking about something. Just looking at his expression showed that he was very angry.

Tianlong and the others have the same expression.

One of the nine guild presidents of the Nine Star Alliance, the French First Army Guild War God I saw the expressions of everyone, and suddenly smiled and said, "Look, this time we are looking for Lu Yang together, we want to ask for stability and strive to achieve Armistice, how? "

Tian Long frowned and said, "Can you talk about Lu Yang?"

God of War I said: "If he doesn't listen, our Nine Star Alliance will join your camp and fight Luyang with everyone. I don't believe Luyang has the ability to fight so many of us."

Park Renyi said in surprise: "Do you really want to help us?"

Pope I, president of the Italian Dark Royal Guild in the Nine Stars Alliance, said: "Helping you is helping us. If you are defeated, we will face Lu Yang. This is what we are not willing to see."

Denon nodded and said, "That makes sense."

Park Ji-shin frowned and asked, "But what do you mean by gathering players at our Ningzhou city border?"

God of War I said, "Of course, the worst is planned. I don't want your other main cities to be like Dingzhou City. If you can't keep it for a day, you will be completely defeated by Lu Yang. When you then recruit players, you will be too late. . "

Park Ji Sung's face was red, and some rebuttals did not know what to say.

Park Renyi also looked ugly, saying, "You won't want to rob while you're on fire."

Pope I said: "What do you mean, our nine-star alliance is very sincere to facilitate peace talks. If we want to join Lu Yang to fight you, what are we still doing here today? Contact Lu Yang directly It's good to fight against you. "

Pu Renyi, Tian Long and others looked at each other and confirmed that the expressions of Pope I and God of War I were all right, so they were relieved. What they were most afraid of now was that the Jiuxing Alliance didn't know what to do, and they joined Lu Yang to attack them.

However, they didn't know that God of War I and Pope I were basically a fraud of the Nine Star Alliance. According to the results of the joint discussions between the nine presidents of the Nine Star Alliance, they would form an alliance with Lu Yang and kill Pu Renyi.

After that, Lu Yang will not attack them for the first time, but will continue to attack Tianlong and Green Water Ghost.

Unlike South Korea, India has a sparse population. In the territory of Denon, there are more than 90 million Indian players. As long as the dragon is given time, it can gather an amazing number of legions.

There are only three super guilds in the Northeast, and Park Ren-yi has more than should not exist. He believes that relying on the strength of Tianlong and their guild, it is enough to contain Lu Yang.

However, the Nine Star Alliance did not know that the three sent to negotiate had surrendered Lu Yang, which led to the fact that this negotiation was actually a huge conspiracy.

Inside the room.

Park Ren-yi and Tian Long and others were very much in favor of the new peace theory proposed by the Nine-Star Alliance, so that the two parties chatted so quickly that one hour passed before they knew it.

When Lu Yang entered the door, he just saw the two people laughing and laughing, but when they saw Lu Yang, the two parties shut up instantly, and the atmosphere was awkward.

Lu Yang didn't say anything either. He was the victor. The victor didn't need to lower his posture whenever he faced the enemy.

God of War I saw that the atmosphere between the two parties was wrong, and stood up with a smile and walked to the middle. He said, "There is an old saying in the East, called Qi Qi Sheng Cai. Welcome President Lu Yang to us."

Lu Yang arched his hands at God of War I and said, "I'm also glad to receive this invitation. This is the first time I've met someone from the Jiuxing Alliance. I don't know who this time."

Pope I and Sad Fan Qiufeng came out one after another. They had met with Lu Yang before, but they had met people in big scenes, and there was still some acting.

"This is the Pope I of the Dark Royal Family, and this is the sad wind of the Magic Snow God Mountain." God of War I introduced to Lu Yang.

Lu Yang and the people of the Jiuxing Alliance immediately chatted and threw Park Renyi, Tianlong and others aside, which made even the unhappy Park Renyi and others more angry.

After waiting for several minutes, Park Renyi saw that Lu Yang's party had not finished the conversation. When he was angry and ready to stand up and left, God of War I said just right: "Well, let's sit down and talk about the immediate situation . "

Lu Yang naturally had no opinion, and the two sides humbled each other to the seat.

This is a rectangular act. Lu Yang and Park Renyi each sit on one side, and on the two sides in the middle are three God of War I of the Nine Star Alliance.

After Lu Yang took his seat, he looked at Park Renyi opposite him, sneered, and said, "You came to me, what do you want to talk about?"

Park Renyi gritted his teeth and said, "Return to Dingzhou City. I'm willing to pay you 20 million credits."

Ten million yuan can build a main city, and twenty million yuan is equivalent to buying two Dingzhou cities.

Lu Yang shook his head and said, "This is impossible. The tax in Dingzhou City is tens of millions a year. This has not been included in the tax on the purchase and sale of goods in the game. It is too cheap for you to give me 20 million."

Park Ren-yi knew that it was not so easy to talk about, and asked, "30 million, no more."

Lu Yang still shook his head and said, "Don't talk about this unrealistic problem. You know very well that I cannot give you Dingzhou City."

"You!" Park Renyi angrily wanted to stand up, but was pulled by Park Ji Sung and Denon.

"Chairman Lu Yang, don't go too far," Tianlong said.

Lu Yang said: "I'm not excessive. It was me who knocked down Dingzhou City, or did you take the initiative to attack me. After I defeated you, I grabbed Dingzhou City. It would be too much for you, not me. "

Tian Long said: "The reason we started this war was because you first grabbed the city of Gassuvan."

Lu Yang said, "Who asked Park Renyi to hit me, and I don't fight back, wouldn't it make me think that Lu Yang is a soft persimmon."

The Green Water Ghost said, "Come less of that set, and it is clear that you want to grab someone's fortress."

Lu Yang snorted coldly and said, "Why can't you talk? The president of a small guild who doesn't live in here also comes to speak."

"You!" Lushui was so angry.

When it comes to scolding, Lu Yang has never been afraid of anyone, especially this kind of guild-level scolding. When Lu Yang was the president of the last life, at first he had never scolded him and let him

fight People scolded several times and lost the fight, which made Lu Yang understand that scolding is also one of the important steps in a fight.

Therefore, he deliberately looked for scolding textbooks, whether on TV, in novels, or famous quotes, not Lu Yangbiao. Even in the last life, he could be ranked in the top 50 of the game world.

The most classic part of scolding is that if you are reasonable, ignore other people, hold on to your reasonable place and vigorously scold him.

For example, the most classic scolding battle several centuries ago. In the late period of the Three Kingdoms, Zhuge Liang went to the Central Plains to the north, and Cao Jun's Wang Lang scolded before the battle.

At that time, Cao Cao had occupied most of the territory of the Central Plains, and it was only a matter of time before the reunification of the whole country. On the side of the Shu Kingdom, Liu Bei died, Guan and Zhang died, and the Five Tigers will only have Zhao Yun.

There was a famous saying at that time that there was no general Liao in Shu who turned into a pioneer, expressing that the talents of the Shu country were withered at that time. When some people later argued, it was also discussed that the official Shu country at that time was not recognized by the Shu people.

Coupled with the most famous Ado who could not help at that time, and Jingzhou soldiers who were getting old, there was almost no hope of winning.

Therefore, Wang Lang said before the battle that the heavens thought that the luck of the Han Dynasty was gone, and the luck of the Cao family had arrived. People should follow the times and destiny, and the Shu country should surrender, and they should not fight with Wei again. Wang Lang scolded Zhuge Liang for not knowing current affairs.

In fact, these words are all right. Normally, Zhuge Liang should be speechless, and the great **** Zhuge Liang didn't tell Wang Lang what was in the right place at the right time, so he scolded people.

Or more thorough, that is, scolding the street, scolding your eighteenth generation ancestors, as a result, Wang Lang was scolded to death.

Every time Lu Yang saw this paragraph, he was shocked by Zhuge Liang 's eloquence. It turned out that the two were at war, and they could still scold themselves before the battlefield. It really was talented. , Never scolded.

Where did Park Renyi, Tianlong, and others see this ability of scolding, they were short of momentum.

Three of the Nine Star Alliance were also stunned by Lu Yang's scolding.

"It's awesome. It turned out to have scolded morality, and direct personal attacks can be used."

"Learned, learned, master, master."

"Look at the green water, but luckily, we surrendered early, luck, luck."

The three secretly chatted.

"Lu Yang, you are too much." Lu Shui ghost stood up and glared at Lu Yang.

Lu Yang said: "I'm not overly ah, I'm telling the truth, you are a small president of a third-rate guild. Is there anything wrong, do you have many people, you have many main cities, you have many elite players, you Is it rich? ... "

He said all the things that the Super Guild should have. Every time he said the same, it made the Green Water Ghost uncomfortable. I thought he had it, but he lost Lu Yang.

"Lu Yang, I fight with you." The green water ghost pulled out a long sword and stabbed Lu Yang, but the sword body did not wait to stab Lu Yang's body.

System prompt: you violated the first ban of the rules of the game

You can't move in 5 minutes

Lu Yang looked at the green water ghost who kept the stab sword posture, and sighed helplessly, saying, "Why, though, I said that you are the president of a third-rate guild, but you don't need to be so angry. Look, now the words also I can't say anything, and people can't move anymore. This is a gesture of not being able to fight back or swearing, pitiful. "

Lushui was discouraged, and quit the game directly under anger, but was in a state of punishment. He could not quit immediately, but he chose to quit for the sake of preventing Lu Yang from scolding him, and received additional punishment.

"Well, poor." Lu Yang looked sympathetically.

People like Park Renyi and Tianlong were shocked, but in the blink of an eye, Lu Yang quit one of their companions angrily, which made them instantly clear from their anger.

"President Lu Yang, let's talk about business." Tianlong said.

Lu Yang said, "Don't you talk all the time?"

Tianlong strongly suppressed anger.

Pu Renyi said: "Since President Lu Yang does not want to return my Dingzhou City, I will not give it to President Lu Yang, but starting today, you and me will cease the war.

Lu Yang asked: "Why, you want to regroup players and then attack me, you should be stupid."

Park Ji-sung said angrily, "Do you want to go to war immediately?"

Lu Yang said: "I don't mind, anyway, Liu Jie has run to fight others, and the 500,000 people in my Tianjian Fortress have basically not fought, and they can be transferred at any time to fight immediately."

"You." Park Ji Sung was speechless.

This incident was the furthest of people like Park Ji-sung and Park Ren-yi. It was originally an alliance, but Liu Jie suddenly turned around to beat others, disrupting the overall offensive rhythm and allowing Lu Yang to save a lot of Titan Dwarf rifle ammunition. As a result, one step to the sky with 1.5 million people can only sigh at the tiger's head.

Tianlong said: "I think President Lu Yang is willing to come this time, he just wants peace talks. We still advocate peace talks, with the river in the middle of Dingzhou City and Yizhou City as the dividing line, is it possible?"

Lu Yang said, "This one is fine, but all your players on the river bank will take it away from me."

"How is this going, what do you do over here?" Park Ji-sung asked.

Lu Yang said, "But you have more than 1 million people by the river. I must not worry about you coming to hit me. In this game, it is impossible for you and ours to sneak attack. When you enter the fort, more people will be found immediately. Why?"

His purpose is to allow Park Renyi to hoard more people on both sides of the river bank so that the Nine Star Alliance can have a chance to attack Ningzhou City.

In the negotiations between Tu Feng and the Jiuxing Alliance the two parties decided that Suiyuan, Ningzhou, and Jiang Ping would return to the Jiuxing Alliance, and the remaining five would belong to the Iron Brotherhood.

"I can retreat some people, but not all of them, this is my bottom line," Park In-Yi said.

Lu Yang said, "Keep 100,000 people, so I feel more at ease."

Park Renyi really didn't want to fight with Lu Yang anymore. He knew that if he continued to fight, he could only give up.

"Well, then 100,000 people, you can not have too many people in Dingzhou City." Park Renyi said.

Lu Yang said: "I have the same number as you, 100,000 people. On the one hand, I am responsible for guarding Dingzhou City, and on the other hand, I upgrade outside the city."

There are also millions of South Korean players and players from various countries in Dingzhou City, but the war between the Brotherhood of Iron Blood and Park In-ye has not affected them much.

They are just newcomers who have just risen to level 100. For the battle between level 120 players and level 10 players, they only have to watch and not participate.

Chapter 1085 - Total War

Park Renyi is most reluctant to be these millions of players, they represent a lot of money, but now Dingzhou City lost, he can only recognize.

He looked at Lu Yang, thought for a long time, and said, "Okay, so it's settled, you and we are on truce."

Lu Yang laughed and said, "Okay, that's it."

God of War I of the Nine Stars Alliance said, "Well, what about the agreement we drafted?"

Lu Yang didn't want to sign, but he didn't wait for him to speak. Park Renyi said, "What can be signed for a truce? So be it."

He flew away using a teleporting scroll.

Tianlong and Park Zhixing also left, leaving only three of Lu Yang and Jiuxing Alliance.

Lu Yang looked at the three and secretly said, "Changing a room to avoid fraud."

The three nodded.

"That's the case, then I'm gone." Lu Yang flew back to Dingzhou City using the scroll back to the city, and just after landing, he chose a special space to invite the three gods of War I, Pope I and Sad Fan Qiufeng.

The light flashed.

The three entered a special space.

"Boss," said God of War I, arching their hands together.

Lu Yang smiled satisfactorily and said, "Yes, this time you did a good job."

Pope I said, "It's still the boss's strength, we're just making a fool."

Lu Yang said, "The conditions I give you are the same. As long as you can control the Nine Star Alliance, the share of the entire Nine Star Alliance in the future will be the three of you."

Three people accounted for 30, and each person accounted for 10. This was the same treatment as the vice chairman of the Jagged Brothers Alliance.

The three members of Pope I and God of War I knew this very well, and they knew more about the huge benefits of the 10.

Now 9 of them have 100 points. Although each can get 1 more point, there is a Jagged Brotherhood on the left, Park Renyi on the front, and Tianlong on the right. The entire Nine Star Alliance is within the scope of three super guilds. Nine people didn't even have enough money for defense.

Well now, they chose Lu Yang. Under Lu Yang's protection, they seem to have one less share, but the rights they have and the money they earn are far from being comparable now.

"Thank you, boss." The three said again.

Lu Yang said, "Now you go back and tell you the other six presidents, and said that the Jagged Brothers Alliance will attack Yizhou City tomorrow morning. He asked the Nine Star Alliance to attack Ningzhou City. The Nine Star Alliance must attack first and restrain Park Renyi. Player, then I will attack. "

God of War I said with a smile, "Boss, rest assured, there is no problem in covering this matter. The six people thought that they could reach each other in the gaps between several major guilds. It was simply a delusion. We will start the war on time tomorrow morning."

Lu Yang said, "It 's so fixed. I can gather players around 10 million people. This is a comprehensive war. There is no external force to stop it. I hope you understand that if you do n't launch an attack in time tomorrow, when I When Pu Renyi was destroyed, I can't guarantee that I will give you these shares when my men personally knock down the Nine Star Alliance. "

The faces of God of War I, Pope I, and Sad Fan Qiufeng tightened, and they said, "Boss, rest assured, we must complete the task."

The three originally thought that the Brotherhood of the Iron Blood was just asking the millions of main players in the guild to participate in the battle. I did not expect that Lu Yang would mobilize all.

If you think about it, the Brotherhood of Iron Blood has not launched a battle with tens of millions of people. Although there is no rule to fight, there are so many people. They swarmed over. If they had previously attacked a Dingzhou city, these people were useless. After all, Dingzhou City is sandwiched

between the two mountains. No matter how many people come, the only ones who can attack are those.

But now Dingzhou City has been opened, and Pu Renyi's portal is wide open. Lu Yang can fight as much as he wants, which can give full play to the number of people.

The three did not know how to leave from Lu Yang, but after exiting the special space, the three sat together and looked at each other, all seeing the shock in each other's eyes.

"Seriously, my cold sweats have come down." God of War I said.

"Me too," said the sad fan Qiufeng.

Pope I grinned and said, "I'm just like you two, it's too scary. Everyone starts a war of tens of millions of people. The Jagged Brotherhood is too fierce."

Sorrowful fan Qiufeng sighed and said, "Fortunately, our brother-in-law surrendered early. If it is late, depending on the position of our nine-star alliance, there is no defense ability."

Pope I and God of War I nodded together.

"Thanks to you, without you telling us this, we are now the same as those six." Pope I said.

Sorrowful fan Qiufeng sighed and said, "I'm okay. If I can resist, I don't want to join the Jagged Brotherhood, but the other side's beauty spies have penetrated. I don't think I can beat it, I can only give my life."

Pope I said, "I admire Lu Yang so much that he can create a specialized spy agency in the game, which is much better than those of us with simple heads."

Sad fan Qiufeng said, "Come on, let's go back and talk to Karls about tomorrow's battle."

“Alright.”

The three flew back to the main city of the Nine Star Alliance, the city of victory, using the teleportation scroll.

Nine Star Alliance, a total of nine main cities, is divided into three columns in parallel in the corner of the east side of the Northeast region is located in the southeast of Ningzhou City in Park Renyi and south of the city of the dragon of Tianlong.

The nine presidents had no relationship at all, but only because they arrived here at random and had capital in their hands, they only intentionally built the main city.

Later, due to the reasons of Lu Yang, Park Renyi, and Tianlong, the nine of them merged, but there was a rule between them. This was only a loose alliance. The nine were not unified with each other. It was only when they were abroad that they unified the war.

But there are factions within these nine individuals. God of War I, Pope I, and Sad Fan Qiufeng belong to the three. They are also the Holy Spirit City, the Silver Light and the Flying Fire. Lord of the city.

Therefore, the three of them surrendered Lu Yang first because they did not want to back the six people behind, but all three knew that they couldn't easily reveal the idea of surrender.

It is not clear to the presidents of the other six main cities what they think. Once exposed, various problems may occur.

Therefore, the three thought about their words and flew back to the city of victory. At this time, the other six presidents were anxiously waiting for the news of the three of them from Pope I.

Chapter 1086 - Build up

“I don't know what they're talking about. The three of them didn't say to send a message back.” The triumphant angel of the city owner of the city of glory, the president of the American guild game expert, said with a look of anxiety.

His main city is behind the city of the Holy Spirit, next to the city of the majesty of India.

The owner of the main city of the Black Cross, the president of the Mexican Society of Sadness and Death, although the Black Cross is a bit nervous, it is more indifferent to say: "Don't worry, it is estimated that this peace talks will be completed soon. Just be ready. "

"The Black Cross is right. As long as the negotiations are successful, we will rectify the players tonight. We will fight Park Renyi with Lu Yang tomorrow morning. The three main cities, how much money can be made in a year!" Said the bullfighter of the Spanish gold union president.

九 The nine of them had agreed beforehand that they would lay down the three main cities and share all the money they earned. Each person could earn tens of millions more each year.

"Don't be careless, the meat in the mouth of the Iron Brotherhood is not so easy to eat," said the camel's long sword, the head of the main city of the Spirit Wind, the president of the Turkish Black Star Guild.

His main city is located in the southeast corner of the northeast region of the New World map. From there, all the sea is out. There is no enemy.

"Camel, you can change your name to ostrich." Said the Dragon Slayer, the owner of the city of war, the president of the Russian 3k guild.

Among the nine main cities, the most violent and strongest is the Russian Dragon Warrior's guild. Without Park Renyi, Tianlong and Luyang, the city of war will become the first strongest guild in the Northeast.

"Bear, don't think that the Brotherhood of Iron and Blood is easy to deal with, don't forget that during the National War, you were not even qualified to fight him." Camel replied with a long sword.

The dragon fighter's face turned red immediately, and he stood up and pointed at the camel's sword and cursed, "Believe it or not, I killed you and destroyed your guild."

The camel stood up with a long sword and pointed at the dragon-slayer soldier and cursed: "If you have a seed, you should call it. I'm anxious for Laozi to surrender to Luyang."

The dragon-slayer warrior's face was white and red for a while. He really wanted to stab the camel's long sword, but he knew that if the camel's long sword surrendered to Lu Yang, the nine-star alliance would be complete. Although he could win the camel's long sword, it didn't take ten days. Half a month is impossible.

"You." The Dragon Slayer cannot be said by the camel's sword.

主 The owner of the city of victory, the president of the Argentine Rose Guild, Glacier frowned at the two people who were arguing, and said, "Well, why do you two quarrel as soon as you meet, each returns to his seat and sits down."

Neither the Dragon Slayer nor the camel's sword retreated, and continued to stare at each other.

Glacier went on to say: "We all know that the game of" Second World "will always exist, that is, we occupy these 3 main cities, and every year, everyone can get tens of millions of income. You two Are you angry with money? "

"No," the Tulong warrior and the camel's sword said in unison.

What was the purpose of the two to establish the main city, wasn't it to see that it was full of opportunities to make money? They were told by the glacier that their hearts were itching, and they both stopped. They both had some regrets about what they said just now. Now that I have the steps, I let go of each other's eyes almost at the same time and returned to my seat.

"You are the initiator of this operation, what do you say about this matter?" Dragon Slayer looked at the glacier.

The Nine Star Alliance originally did not have such an organization. It was Glacier who discovered that if these small main cities are not united, they may be swallowed by Park Renyi and Tianlong. They then joined the alliance established by the other eight city leaders. Fight against Tianlong and Pu Renyi.

“Everyone knows how many main cities Park Renyi and Tianlong have annexed before. The first thing is to not intensify whatever conflicts you have, because we now have three super guilds. If we have internal conflicts, the result Only one was swallowed by three of them with leashes, “Glacier said.

The main city built in the game cannot be sold. This is another slot in the new continent. As long as the player builds the main city, he will always exist. If he can't move it, it can be destroyed. This leads to the establishment of a guild. In the main city, they will try their best to defend, otherwise, if they lose, they will lose tens of millions of cash directly.

The camel's sword and Tu Long looked at each other, both of them flickered a little, but they knew that Glacier was right.

Glacier looked at the two and said, “Now Park Renyi is in a weak position. It will be sooner or later that he will be annexed by Lu Yang. God of War I, Pope I and Sad Fan Qiufeng have offered to join Lu Yang to kill Park Renyi first. This matter is in the interest of all of us.

Now we just need to wait for the news here with ease. No matter whether we can join the Jagged Brotherhood, there is no loss to us. After all, the nine of us joining together is a fist that no one dares to despise. Who wants to hit us? , We must be careful that we knocked him off one tooth. “

Five people, including the Dragon Slayer and the camel's sword, nodded.

At this moment, the door of the meeting room was pushed open, and the three of God of War I walked in with smiles.

“We are back,” said God of War I.

Wu Glacier and six others looked at God of War I.

怎么样 “How's it, and what's the result of the negotiations?” The Black Cross asked.

The three God of War I looked at each other. After coming to the seat to sit down, God of War I said proudly: "This time you would like to thank the three of us and the negotiation was successfully completed."

"It's done?"

"What did you say?"

"Come on."

Uh ...

Several presidents asked one after another, and the scene was a bit confusing.

Bian Glacier coughed and stopped them from asking questions. He asked, "I am alone, there are shortcomings, please add them."

Everyone nodded.

Wu Glacier asked, "What did Lu Yang say?"

Puppet God of War I said: "Lu Yang agreed to send troops, brothers, but fortunately you all have foresight and agreed to our request, otherwise this time we are the ultimate disaster."

"What's wrong?" Glacier asked.

Qi Beifan Qiufeng said: "Early tomorrow morning, Lu Yanghui will issue a mobilization order at the Jagged Brothers Alliance, convening tens of millions of players to launch a total attack on Park Renyi."

"what?"

“how is this possible?”

“No way.”

Uh ...

Glacier and others were stunned.

Pope I said: “This is what Lu Yang told us personally. He hopes to reach an alliance with us and jointly send troops to kill Park Renyi. Then he will give us three main cities, Suiyuan, Ningzhou and Jiangping.

Wu Glacier projected a three-dimensional map on the table and looked at it and said, “These three main cities are the same as we thought before, and our thoughts also laid these three down.”

Wu Tulong warrior asked: “Is Lu Yang really capable of mobilizing tens of millions of people to fight? Really, I still doubt it.”

Pope I said: “It is not necessary to doubt that such a battle was fought in the Huaxia server. Lu Yang played it once. He has experience in this area. Although the level of the combatants is uneven, but tens of millions of people have reported to Yizhou and Guang’an at the same time. The attack on the three main cities of Xuanzang and Xuanzang can still easily win. “

God of War I said: “This time Park Renyi is dead. Even if he has a main force, he can only defend one or two main cities for one or two days. However, although Lu Yang is crowded, people from India Moreover, Lu Yang joined us to prevent Tianlong from fighting a full-scale war. “

Regarding the number advantage, Tianlong has the largest number of people. Once Tianlong is desperate, without the restraint of the nine-star alliance elite, Lu Yang and Tianlong will lose both.

“Yes, it seems that Lu Yang is also a person who understands our importance.” Glacier said with satisfaction.

Tu Long warrior said: “Hey, then we will send troops to kill Park Renyi with Lu Yang and solve this confidant.”

The Black Cross said: “Yes, in the future we will only have three of us, Lu Yang and Tianlong. As long as we are around, we will never have to worry about being destroyed by them again.”

The Jiuxing Alliance and their team members all showed an excited look. This is the ultimate goal they want to achieve. As for the future, when only Lu Yang and Tianlong are at war, maybe they have expanded to enough strength to eliminate Luyang and Tianlong. It is also possible.

Wu Glacier said: “Everyone else has any questions. If there is any, if you ask, if not, we will gather players and discuss the specific cooperation method with Lu Yang.”

The camel’s sword and the victory angel each thought for a while, and after they found no problems, they nodded and agreed.

没 “No problem, we have already mobilized players to participate in the battle and can go to the battlefield at any time.”

“Me too.”

“me too.”

Uh ...

Nine nine individuals prepared their elite players to protect the main city at any time when Lu Ding laid down Dingzhou City, and provided excellent conditions.

After a few discussions, each of the nine people can gather at 100,000 people, and together they are 900,000 people. Although there are not many people such as the Iron Brotherhood and Park Renyi and one side, they are enough to generate sufficient threats.

“Some of us should discuss the method of war with Lu * ti.” Glacier said.

God of War I said, “I’ll contact you.”

On the other side, in the office of the Brotherhood of the Iron Blood, Lu Yang is convening all vice presidents for war deployment.

Suddenly, the voice of the intercom sounded. Lu Yang picked it up and found out that it was called by God of War I.

“Don’t talk, God of War I is looking for me, it is estimated that the rest of the Nine Star Alliance has been hooked.” Lu Yang said with a smile.

Xizhuo Jiu and Tian Yao all smiled.

Lu Yang pressed the call button and asked, “What’s the matter.”

Puppet God of War I pretended to be unfamiliar with Lu Yang. After some exchanges, he explained what the other presidents wanted to meet him in person.

Lu Yang naturally had no opinion, and discussed in detail the process and method of sending troops in a special space, and gave opinions on subsequent territorial division, but at the same time, Lu Yang also threatened the Nine Star Alliance.

“If you don’t have the strength to lay down these three main cities, I would not return them to you if I were beaten down.” Lu Yang said.

The dragon-slaying warrior ran away immediately, but was held down by the glacier.

“Chairman Lu Yang, please rest assured, we must rely on our own strength to lay down these three main cities.” Glacier said.

Lu Yang gestured please, “I still have something, let’s go first.”

The light flashed, and Lu Yang returned to the conference room in Dingzhou City.

“Boss, do they believe the glacier?” Bitter Ai asked anxiously.

Lu Luyang said, “Of course, tomorrow morning they will send troops to attack Suiyuan, Ningzhou and Jiangping, and they will send a total of 900,000 troops.”

“They are really looking for death. So few people still want to contend with us. Any wave of attack can be eliminated by us.” Zhou Tianming said.

Lu Yang said: “One of the purposes of transferring them is to prevent Park Renyi and Tianlong from panicking, and using the benefits to buy the Jiuxing Alliance to sneak in on us from the side, and the other is to let the Jiuxing Alliance lose some more equipment, which allows us Start. “

Everyone nodded.

Lu Yang went on to say: “Okay, the big show is about to start, everyone gathers players, and we will start the battle tomorrow morning.”

“Yes.” Zhuojiu and White Lion immediately contacted their players.

The organization structure of the Brotherhood of Iron Blood is very strict, like the reserve system of Huaxia. Although many players are not qualified to participate in the battle, they are still included in the battle order of Brotherhood of Iron Blood.

It’s just that their battle sequence is relatively late, and each time the Brotherhood of Iron and Blood fights outside, the recruited players initially only participate in the battle, which causes the rest of the

players who have not participated in the battle to be imbalanced. Returning the guild points, we can only look at no points.

There is a large amount of top-level enchantments at the current level, high-level gems that are 30% lower than the outside price, low-cost skill books and equipment and other good things that all players can think of.

But these things cannot be bought with money, they can only be redeemed with guild points, resulting in the players of the Jagged Brothers Alliance being very active in the war.

In order to alleviate these contradictions, Lu Lu deliberately recruited low-level players during each battle.

Each time there is no war, there will be a collection of 30 points. Although it is only 30 points, it is enough for them to buy some practical items. Therefore, the recruitment order of the Jagged Brothers Alliance is simple and abnormal.

The second day is another favorite festival of the Chinese people. On the first day of the National Day, as of 10:00 am, the total number of players in the New World of Iron Blood Brothers League exceeded 10 million.

“Hey, I have to have a good time during this National Day seven-day holiday.”

“Before work, the national war only caught up once. It’s a pity. I really hope that the boss will play two more games.”

“Hey, National Warfare. Excited when you think about it, but unfortunately just finished.”

Uh ...

The players of the Brotherhood of the Iron Blood are gathering in groups of three, chatting and chatting. As soon as they think about waiting for the brothers to go online, and immediately go to make a copy, the red signal unique to the guild channel lights up.

The red combat readiness signal sent by Lu Yang personally. This is a red warning sign, which is issued three consecutive times, indicating first-level combat readiness.

“What’s the situation, this is a battle.” A Jagged Brother Alliance player hit an excitement and said excitedly.

“Boss is very powerful, the first day of vacation is to fight.”

“What happened, are there three red signals?”

Uh ...

☞ Lu Yang talked while the players of the Brotherhood of Iron Blood were curious.

Guild Channel Lu Yang: All members of the Brotherhood of Iron and Blood, from now on, I ask you all to gather at the Dongcheng outer military depot in the main city nearby. At the same time, close all communication equipment and prohibit communication with the outside world. The collection points are 50 and the participating points are 100 per hour.

“There is a big fight, go, get together.”

“Such a generous reward, my equipment has hope.”

“Well, fight.”

Uh ...

Immediately after Wu Zheng’s call was issued, members of the Brotherhood of Iron Blood, like chicken blood, went to the nearest main city to gather.

At the same time, the Nine Star Alliance is also gathering players, and a large number of members have begun to gather in the three main cities of the Holy Spirit, Silver Light, and Flying Fire.

Most of the Korean players in the front line of Yizhou City and Ningzhou City are in charge of defense. Park In-eok is gradually dissolving the players and upgrading quickly to ease the pressure on players in recent frequent battles.

Wu Tianlong also gradually returned the players who defended in Guang'an City and Xuanzhuang City to the city of the majesty using the back to the city roll.

Wu Ke didn't wait for them to retreat the player to half, and the news came that Lu Yang personally issued the highest level mobilization order of the Brotherhood of Iron Blood on the Guild Channel, which made Park Renyi and Tianlong start to sweat coldly.

“How is it possible Lu Yang's troops have been fighting for so many days and have no energy left. How could he issue the highest-level mobilization order?” Park In-yeek asked in shock.

Tian Long said: “The facts are there, and it is too late to say anything now. Lu Yang had negotiated with us before. It must have been an act. It was clear that it was a pit for us. It is estimated that he wants to launch a full-scale attack on you and prepare to defeat you at once. I'll go back and call the players, and you'll be ready. “

Qi Pu Renyi had no choice but to look at the disappearing Tianlong. He said in the guild channel: “All players pay attention and come to Yizhou City immediately.”

His first general, named Li Xiaotong, a warrior player asked, “Boss, what happened, why did you start recruiting after you disbanded?”

Pu Puyi said angrily: “We were deceived by Lu Yang. He just issued a mobilization order at the guild. This must come to attack us. We must be prepared.”

孝 Li Xiaotong said, “How can this be?”

怎么 “How do I know, quickly gather players, be faster, I don't know when Lu Yang will attack Yizhou City, but it must be today, maybe the next moment.”

“Yes, I will gather players.” Li Xiaotong said.

Xi Pu Renyi hung up the phone, and then opened a special space to connect Tongtian City to the sky and Liu Jie in the north.

The light flashed.

Yibu Dengtian and Liu Zhuo are now in the special space.

Pu Renyi was about to speak. Liu Jie said, “Don't say that, I already know what happened. Lu Yang issued a comprehensive mobilization order, which can be seen by ordinary players. He didn't want to hide us.” .

Chapter 1087 - Offensive and defensive battle of Ningzhou City

One step to the sky said: “I'm convening players here, but to be honest, after previous battles, my players' desire to participate in the battle is very low, I'm not sure how much I can help you.”

Park Renyi looked at Liu Jie.

Liu Jie said: “I'm fighting the six North Sides, and there aren't too many people who can be extracted, sorry.”

Qi Pu Renyi was speechless. Obviously, neither of them could help, and he could only withdraw from the special space.

怎么样 “How about, have they promised to help?” Park Ji-sung asked.

He Purenji cursed: “Damn bastards, none of them are willing to help, they can only rely on us and Tianlong.”

Park Zhixing said: “There is no other way for Greenwater Ghosts, these bastards.”

Park Renyi said: “I go to the front of Yizhou City first. You are responsible for defending Guang’an City, and Li Xiaotong is responsible for defending Xuanzhuang City. Once Lu Yang leads the main attack on any of these three main cities, you and he will always listen to my order Reinforcements. “

“Yes.” Park Ji Sung went to Guang’an City.

孝 Li Xiaotong originally defended by the river bank between Yizhou City and Dingzhou City. He was ordered to gather the existing players to go to Xuanyuan City to take charge of the defense.

When Pu Zhixing tried his best to assemble the players, a piece of news that shocked him unexpectedly caused him to sweat coldly.

“President, Jiuxing Alliance gathers a large number of players at the border. According to the news we have returned from the inside of the Jiuxing Alliance, their goal is to attack Ningzhou City,” said his men.

“Asshole.” Park Renyi yelled, and he called Tianlong quickly, saying, “At this time, the Nine Star Alliance is robbing and trying to attack my Ningzhou city.”

After hearing this news, Tianlong has been embarrassed. After asking twice for confirmation, he no longer cares about the image, and then follows Pu Renyi and swears at the stupidity of the Jiuxing Alliance.

“What do they think? Isn’t it clear that neither of our two forces can compete with the Jagged Brotherhood. Why don’t they want to take advantage of the fire when they don’t help at this time?” Tianlong was furious.

But if he likes to look at history, he will definitely find that such stupid people are everywhere in the history, not to mention foreign countries. As far as Huaxia is concerned, such stupid people have Lu Yang as an example with at least twenty people.

“I went to contact the glacier. At this time, there must be no problem.” Tianlong hung up the phone and immediately contacted the glacier.

90 On the grassland of silver light outside the main city of silver light, 900,000 Nine Star Alliance players are ready to go.

Nine presidents, such as Xi Glacier and God of War I, stood up in a spirited manner and issued a war mobilization order on a 30-meter-high platform made by the Earth Mage’s Earthquake skills.

Looking down at the 900,000 people on the stage, Wu Yan stood on the prairie and had endless views. Anyone in this position could not express his inner excitement with words, and the sense of accomplishment made them drift. Gone with the wind.

Even an ordinary person, in the face of such great attention and obeying his own command, will lose himself.

The guilds such as Wu Glacier and Dragon Slayer have been lost, and they are already immersed in the joy of this forthcoming war, commanding 900,000 people to attack.

“No wonder so many people like to build guilds and fight guild wars. It turns out that commanding wars is so cool.” The Black Cross said excitedly, his face was red.

“Hey, this time we must play the prestige of the Nine Star Alliance, let Lu Yang and Tianlong know how strong we are.” Said the Dragon Slayer.

“Yes, this time must be prestigious.” Glacier’s head was excited, but he thought he was sober.

“Jingle Bell”

“Jingle Bell”

“Jingle Bell”

Uh ...

The sound of the intercom sounded one after another, and Glacier picked up the intercom and looked at the number, but his excited expression froze.

“Who’s calling, why don’t you answer it?” Beifan Qiufeng asked.

Wu Glacier said: “Tianlong’s must have advised me not to send troops. Everyone said that I could not connect.”

“Don’t bother her,” said the Dragon Slayer.

“Don’t, you have to pick up, don’t forget, after playing Pu Renyi, we are going to join Lu Tian to fight Lu Yang,” said God of War I.

Everyone heard it, they all felt reasonable, but Glacier considered himself a very rational person, so he shook his head and said, “Although the God of War is right, but after playing Pu Renyi, it is time for Tianlong to ask us, is not We begged him, I still didn’t answer. “

It sounded more plausible to everyone.

“Then don’t answer, let’s do it directly,” said the Dragon Slayer.

Xuan Glacier's chest surged into his throat and said, "Go ahead, start the army, and target Ningzhou City."

Wu Glacier was elected as the chief commander of this operation, but he had little power. He was only responsible for scheduling their eight other presidents. In fact, the presidents of various guilds managed their teams.

Wu Tianlong made five consecutive phone calls, and Glacier still did not answer, which made him extremely angry, but he also knew that it was not an angry time, and he must immediately find a way to rescue Park Renyi.

"Shaluk, you immediately take your men from the city of Mahatma to Ningzhou city." Tianlong called the commander of his first army.

Wu Shaluok was taking 50,000 people to march to Yizhou City. At this moment, he just left the gate of Wuyue City. When he heard that he was transferred to Ningzhou, he asked curiously, "What happened?"

"Nine Star Alliance is fighting without declaration. On the way to Ningzhou City, you must keep Ningzhou City. You cannot let Nine Star Alliance succeed. I will send someone to support you later." Tianlong said.

"Yes." Shaluk immediately ordered the army to turn around and head to Ningzhou City.

After finishing the phone call, Tianlong began to mobilize players. However, unlike the Jagged Brothers Alliance, Tianlong lost a streak in a row. The players had long been unwilling to fight. The dissolution order just made the players ecstatic, but suddenly they assembled the players again. Tens of millions of players under Tianlong are too lazy to fight again. Therefore, except for the more than one million elites, the others are not very active.

Tianlong also knows his own plight. He can only do his best to persuade his men to gather, and at the same time gather a group of 10,000 people, and immediately order them to go to Ningzhou City, because he already knows that the Nine Stars Alliance has sent 900,000 people, and he will probably kill Park. Renyi doesn't stop thinking.

At the same time, the city of the Holy Spirit next to the city of the Holy Spirit was covered with cannons, which were brought together by the remaining eight main cities of the Nine Star Alliance.

Because the city of the Holy Spirit is stuck in the middle of the only mountain road leading from the city of the majesty to the Nine Star Alliance, Tianlong will absolutely not be able to enter the Nine Star Alliance unless he can win the city of the Holy Spirit. This allows him to continue to gather players to support Ningzhou City.

12 o'clock noon.

It is the time when many people have lunch, but today, players around the world have forgotten about lunch. Billions of people have set their sights on the game of "Second World", the northeastern region of the New World.

观众 "Audience friends, today, you will see a real war. This is a classic showdown of tens of millions of players. It is also a major battle that will determine the northeast area of the New World Map of the Second World."

Uh ...

大 All major TV stations, video websites, radio broadcasts and other media in various countries are discussing this matter.

Then, as they discussed, the first war had begun.

"Dear viewers, I'm Dubin. Today I will live broadcast this earth-shaking battle for everyone. The forces participating in this decisive battle are our Huaxia Guild Brotherhood, South Korea's Park In-Yi Association, and India's Dragon. The guild, the guild where the Green Water Ghost is, and a powerful force in the Northeast that cannot be ignored today, the Nine Star Alliance. "Dubin will broadcast the situation of the two sides in the broadcast room in detail.

Pu Tongtong said excitedly: "This is another classic battle of the Jagged Brothers Alliance. I believe that everyone already knows the results of the war, but everyone must want to see how the Jagged Brothers did all this."

评论 The comments in the live room instantly make the screen unclear.

Dubin said: "Dear friends, although I would like to bring you the current state of preparation of the Brotherhood of Iron Man, but the first major battle has begun and the Nine Star Alliance has officially attacked Ningzhou City."

Screen replacement.

Outside the towering and tall city of Ningzhou, Park Renyi stood at the head of the city, with players everywhere on both sides of the city walls, and below the city walls, there were 900,000 players in the Nine Stars Alliance, and Wuyan had endless views.

At this time, the two sides have not yet started the war, and they are making final preparations for the war. At this time, Dubin began to explain.

"This time the Jiuxing Alliance participated in an unannounced battle. Just yesterday, the Jiuxing Alliance also hosted a reconciliation meeting between Lu Yang and Park Renyi and Tianlong. However, the next day, the Jiuxing Alliance suddenly assembled players to confront Park Renyi. Fight without a declaration. Nine guild leaders led 900,000 people to attack Ningzhou City. It is conceivable that this is definitely a strategy of Lu Yang. When it comes to strategy and tactics, no one can compare with Lu Yang in this game. Go down," said Dubin.

The screen is again obscured by the excited subtitles of the player.

Juningzhou City Head.

Ji Puren looked at the nine presidents of the Jiuxing Alliance standing on a 60-meter-high platform not far from the ground and using the earth-shaking tremor, his face sullen.

He yelled with a loudspeaker: "God of War I, Pope I, and sadness, you three credible assholes, dare to attack me with the Nine Star Alliance, I will not spare you."

God of War I laughed and shouted with a loudspeaker: "Park Renyi, our nine-star alliance is hosting the reconciliation between you and Lu Yang, but not our nine-star alliance with you, I hit you, where is the problem."

Pu Renyi was speechless, and it was really no problem. During the whole meeting, Lu Yang and Pu Renyi had problems. They did not mention the Nine Star Alliance at all.

"But you do not declare war, shameful." Park Renyi growled.

God of War I laughed and said, "What time is it, don't you think it was 3,000 years ago, I told you I'm here to fight you, and prepare you, and I will let my brothers die. We have so Are you stupid? "

Xun Tulong warrior laughed and said, "It's Pu Renyi silly. I don't understand such a simple truth."

Xi Glacier and others laughed.

Park Renyi was mad, but he knew that he could n't fight now because others did n't have enough hands. There were only 50,000 people sent by Tianlong to the city. The others were too slow. Before they entered the city, the people of the Nine Star Alliance would bring Ningzhou The city was surrounded on all sides.

"President Park In-yi, don't be provoked by them, we will stick to it, if there is no accident, I have a way to defeat the Nine-Star Alliance in one attack." Shaluk said aloud.

Pu Renyi said for a moment, "Do you have the confidence to defeat them?"

Sha Luke shook his head and said, "I am not confident, but I am strong."

"You are only fifty thousand people!" Park Renyi said.

Shaluk said: "The disadvantage of the number can be compensated as President Tianlong continuously sends people over. What I want to say is that I have just observed that although the Nine Star Alliance has a large number and good equipment, they are a group before A rookie without any war experience, take a closer look. "

He Pu Renyi was another look. He looked carefully at the team below. He was so angry that he forgot the most basic observation. Now, when he looked closely, he found that his face couldn't help showing his joy.

"Hey, thanks to the reminders of the Shaluk brothers, it turned out to be a rookie, so they dare to hit me, really death." Pu Renyi said with a grimace.

He Shaluk admired it, and changed to others. When he found such a thing in anger, he would laugh, but Park Renyi hidden all his feelings, still a look of anger.

"I believe that President Pu Renyi already has a play." Shaluk said.

Park Renyi glanced at Shaluk and said, "Rest assured that your people don't show up for a while, stay at ease in the Tibetan barracks, wait for the opposite skills to be thrown, and you can't beat the siege for a long time, all tired. When you are out, go out again and destroy him again. "

He Shaluk thought the same as Park In-yee and said, "Okay, I take my men and wait in the Tibetan barracks for President Park In-yee's order."

Qi Pu Renyi said, although this would cause heavy losses to his men, especially at the level, at least everyone would lose two levels, but as long as he can fight back the Nine Star Alliance and hold Ningzhou City, he also recognized.

"All players in the guild who have just reached level 100 immediately gather in Ningzhou City and die once to reward 100 guild points." Park Renyi sent a message in the guild.

This score is very high in the Park Renyi's guild. His 120 level equipment only has 800 points, which is equivalent to 8 deaths and can be changed to a 120 level equipment. This makes many players who have not reached the 120 level. All enthusiastically entered Ningzhou City.

“Brother, aren't you giving too many points? After we finished this battle, the guild warehouse was emptied and it was not enough to pay the guild players' points.” Park Ji-sung called and asked.

He Purenyi cursed: “The guild is all gone, at this time you still discuss what guild points, the warehouse can be filled even if the warehouse is empty, but the guild is gone, we have no chance to make up.”

“Well, I listen to you.” Park Ji Sung said.

Park Renyi's face was embarrassed. He looked back at the white light flashing constantly to the safe area of Ningzhou City. He knew that it was the way his low-level players were coming.

“Everyone is fine. Anyone who has died once will immediately go to the Tibetan barracks below the city and wait for my order.” Park Renyi said.

“Boss, can you keep the city by the lower guild brothers?” One of his men asked.

Park Renyi said, “Do you know what is the biggest problem with this unfought guild?”

“What?” All of them were a little curious.

Park Renyi sneered and said, “There is no need to fight in the fight. Just thinking about killing people does not know how to win the city. As long as our people die on the city, they think they have won, as long as those lower-level brothers do it for you. Take a wave of attack damage, and then you will recoil, you can kill the enemy who rushed to the wall. “

All of them suddenly realized.

“Brothers of the Nine Star Alliance, kill.”

Suddenly, the shouts under the city broke the tense atmosphere. The first battle was finally staged. The dragon wave warrior was responsible for the first wave of attack. At this time, he had jumped off the high platform and was directing 100,000 people himself Launch an attack on the South Wall.

的 The camera in the live room quickly pulled towards the battlefield wall.

Gaocheng head.

Ji Purenyi looked at the attacking players below the city and shouted, "Shooter, hash arrows, cover shooting."

More than 20,000 level 130 shooters wore level 130 equipment to launch the first wave of attack. At a distance of 100 meters, they covered the front of the city wall with hash arrows.

Under the city.

The Dragon Slayer warrior looked at this scene with a mocking expression on his face and shouted, "Raise the shield and continue the attack."

Among the first wave of 100,000 people, 10,000 are defense wars. Dragon Slayer soldiers learn Lu Yang's play, and they also use shields to protect other professions.

The archer's bow and arrow fell on these anti-war and anti-riding shields, and almost no blood was lost.

In the first wave of attacks, except for a few unlucky ones on the Dragon Slayer side, the rest of his blood was not lost.

"Park Renyi is nothing like this," thought the Dragon Slayer soldier.

Gaocheng head.

Park Renyi sneered on his face When the enemy entered a distance of 80 meters, he shouted: “The magician uses the range to slow down magic attacks.”

More than 10,000 mages chanted a spell at the same time.

“Blizzard”

“Bushes grow”

“Ground Movement”

Uh ...

A series of skills that reduce the speed of movement and collateral damage. Although it survived the first wave of attacks, it made the 100,000 Dragon Dragon Warriors a lot easier, but the second wave of attacks that suddenly became violent still made many people Becoming confused, it also caught the Dragon Warriors a bit off guard.

“Healing plus blood, the ability to release control skills is fast, and the speed rushes to siege below the city.” Shouted the dragon soldier.

魯 Druids have range release control skills, Paladins have range release control skills, priests have release control skills, and shamans have range release control skills.

A word of Dragon Warrior can let all the professions that are attacking forward give up their decontrol skills. This special skill has a cooling time of more than 20 minutes, although they quickly passed the mage’s deceleration. Positions, but they can not avoid the second slowdown after the skill time is up.

From here, you can see that the dragon fighters do not know how to cooperate with the regiment commander, and they cannot command the regimental commander or even the captain in detail.

Not to mention the Jagged Brothers Alliance, even if he is a player of Park Renyi, he can command the rank of Captain at the level of the most elite 1 million people, because these people have fought against him one after another .

Without these 1 million people, he would have been destroyed 18 times by Lu Yang.

Chapter 1088 - Under Dingzhou City

Although the Dragon Warrior side felt some problems, he did not delve into it, because at this time he was filled with excitement under his city.

“I didn’t expect that the first wave of offensive rushed down the city.” The Dragon Slayer yelled, “The mage and the shooter stopped to cover the city, and the rest of the brothers rushed to the city and killed Park Renyi.”

Among the 100,000 people, 20,000 shooters and 10,000 mages stopped halfway and began a saturated attack on the city head.

Jian Pu Renyi saw this scene and said, “Back down to the stairs and let them come up.”

The 100,000 people guarding the city quickly retreated, setting up defensive positions near the stairs, all the mages stood behind the defense, and the shooters stood under the stairs and the city.

“Kill.” The Dragon Slayer rushed to the front of the mage team and shouted.

20,000 shooters and 10,000 mages attacked the city at the same time.

“Hash Arrow”

“Meteor Fire Rain”

“Earthquake”

Uh ...

禁 A forbidden spell and special skills covered the city head, but there was no one on the city head. When the Dragon Slayer warrior and a shooter put their skills, they quickly climbed the city wall to the city head in melee.

When I first landed, I found that there was no one on the city’s head. Only at the innermost side of the city wall, there was a row of defenses against shields. Just as they were preparing to launch an attack against the defense, Park Renyi showed his figure, and he sneered , Anger said: “Slow down skills, let go.”

“Bushes grow”

“Blizzard”

“Quicksand”

Uh ...

的 The mage hiding behind the shield battle immediately launched the deceleration ability. Suddenly, the speed of the shield battle rushed down was reduced to 30%, which was almost impossible.

However, the treatment behind the shield battle has not yet climbed to the city wall, resulting in no cure response for the shield battle and anti-riding, and the forward and backward are not the same.

Soon, follow-up treatments rushed up, but they also faced the same dilemma, especially the quicksand and thorny injuries were from the ground, not the sky, which caused the shield to fail. These people still have to face Spell attack.

Those who release spells are all 130-level mages. The damage is extremely high. Shield battles and anti-riding are incapable of action. The treatment can only be used to slam blood, or use group skills. As a result, the magic is drained without insisting for two minutes. Shield battle and healing battle died.

Those who rushed to the city wall later did not know the above situation, because neither the regiment leader nor the leader level of the Dragon Slayer side participated in the siege first, but let ordinary players take the lead.

This style of play is the most rookie style, because ordinary players only attack the city, they do not look at the surrounding terrain and the specific layout of the enemy, which leads to the infinite death of the people on the city, but not below the city. Know what happened.

Fortunately, the glacier and others in the distance discovered the problem. The high platform they created was 10 meters higher than the city wall.

Xu Glacier immediately sent a message to the Dragon Slayer and said, "Stop siege and retreat."

"Why retreat, although my people have died a lot, but more people have ascended the wall." The Dragon Slayer warned.

On the head of Gaocheng, Glacier watched the spell of the Dragon Warrior stop on the head of the city, and the bow and arrow also stopped. Apparently, the magic was drained and was being replenished. At this time, a large number of shooters rushed to the head of the city.

"Rewind, your people are dead and clean in the city, let your mage team retreat, or they will all have to die." Glacier shouted.

The dragon-slayer fighters were stunned, but he did not respond. At this time, the war literacy developed by many wars had made the 20,000 shooters on the side of Park Renyi all rushed to the top

of the city. They did not aim and aimed. The enemy mage's position and the archer's position at a distance of 80 meters launched a linear hash arrow attack.

The 120 bows and arrows fired by Hash Arrows can cover a range of 30 meters at a time. Any target within 30 meters will be attacked.

In a split second, 20,000 people fired more than two million bows and arrows, covering all the mages and archers on the Dragon Slayer's side.

The horror scene of tens of thousands of black bows flying from a distance made the rookie player on the Dragon Slayer's side dumbfounded and even forgot to escape.

It was too late to escape, and at this moment, 10,000 mages and 20,000 shooters were almost dead, including the Dragon Slayers.

"Oh my God, how could this happen?" The Black Cross said in shock.

The remaining eight chairpersons on the platform were all stupid. For the first time, they felt how big the gap was between themselves and Park Renyi, but they didn't think about it. Park Renyi's strength could not beat Lu Yang, then Lu How horrible Yang is, they dare to talk about such alliances with such people, they are just trying to make a hide with the tiger.

Xu Glacier first responded and shouted: "Revive them quickly, save the Dragon Slayers first, and let him command the people in front to withdraw."

"I'm going." The Black Cross jumped off the high platform, rushed to the vicinity with 10,000 shields of war and treatment, and rescued the Dragon Slayer, but this has been delayed for several minutes, and in these minutes, Pu Renyi launched a counterattack. The 60,000 melee attacks below the city tower were almost killed by 10,000 cures.

"Oh," the Dragon Warrior patted his head in annoyance.

"Retreat, let's discuss the game again," said the Black Cross.

The Dragon Slayer quickly ordered the remnants of the destroyed soldiers to retreat, and at the same time resurrected the dead player, and ran back from the main city of the Silver Light.

On the high platform, the dragon-slaying fighters lost their arrogance before the attack, with a look of depression, just like the hairless rooster.

Glacier and God of War I and others were a bit embarrassed. Originally, they thought that their strength, even in the face of the main force of Park Renyi, would be able to fight down. After all, the main force of Park Renyi was beaten into a dog by Lu Yang. Pu Renyi is not the main force, but they have suffered so much.

“The next one is the Black Cross attack. Any ideas?” Glacier asked.

At first, nine of them attacked by lot. The nine presidents had their own thoughts. They all thought that Park Renyi was getting weak, and Lu Yang was under heavy pressure. The main force must be in Dingzhou City. Can lay down Ningzhou City, so everyone wants to be the first to attack.

After all, the one who lays down the main city first is eligible for more loot, but the nine people are fighting for it, and the order of attack determined by lot.

At first, this order also made Black Cross and other people worry that the most powerful dragon fighters would get more benefits, but did not expect this result. This made the second offensive Black Cross in the heart of 10,000 grass mud horses. Scene.

“Several people come up with ideas for me, I don’t know what to do?” Black Cross said.

The three God of War I, Pope I, and the sad fan Qiufeng did not speak.

Camel Longblade said: “I made a suggestion that we can’t attack one by one. Obviously, we are far worse than Park Renyi in terms of individual ability and battlefield command. If we want to defeat Park Renyi, we only have four sides to attack and attack at the same time. There were four people in a wave. Once they lost, the second wave was immediately responsible for rescue, and then the second wave of offensives. The first wave retreated and was in charge of rescue, so that it would be possible to win. “

“I agree with this play.”

The Black Cross said, “I agree.”

“How do you divide the things that got in?” The matador asked.

Wu Glacier reluctantly said, “Hit down and talk, I’m worried that I won’t get in. You still have something in your heart.”

Victory Angel and Sad Fan Qiufeng and others also shook their heads.

“The bullfighter said,” What are you afraid of? Just fight. I don’t believe it. We have 900,000 people to fight him, a main city with less than 200,000 defenses, so hard. “

Wu Glacier and others thought that was right, and immediately organized to go.

Soon, the second attack began. This battle turned into 800,000 people divided into two waves of siege. The remaining Dragon Slayers were responsible for defending the supporting players from India on the periphery.

When the battle turned into this situation, Park In-yeek knew it was time to test his strength, and he shouted, “Responsible for defending the city between level 100 and 120, and gather below the level 120 to support at any time.”

A fierce offensive and defensive battle in Ningzhou City was officially staged.

When the attack was fierce here, on the other side, the Brotherhood of Iron Blood still did not complete the rally, after all, it was a formation of tens of millions of people.

Luyang himself also had the idea of letting the elite of Jiuxing Alliance and Park Renyi and Tianlong fight hard, but when he recruited and watched the video, he found that Jiuxing Alliance had not defeated several times.

“Nine Star Alliance is too wasteful.” Lu Yang sighed helplessly.

Xia Yuwei asked: “Shall we help?”

Even if it was the heads of several legion brothers, they could immediately reverse the situation of the war. Lu Yang knew this, but he would rather watch the defeat of the Nine Star Alliance than support you.

Wu Luyang asked, “No, if the Jiuxing Alliance has only this strength, they will be of great value.”

“What do you want to do?” Xia Yuwei asked.

Lu Lu smiled and said, “Let’s keep watching.”

In the screen.

The Nine-Star Alliance continued its onslaught, and the level of players from level 100 to 120 on the side of Park Renyi on the city’s side reached tens of millions, but their highest record was still in the city, not in the inner city.

In this way, there was only one result. After the war progressed to the afternoon, the senior wizard of the Nine Star Alliance side cast the forbidden spell and the secondary forbidden spell, and the rest of the professions threw out their strongest skills.

In the next attack, Shaluk, who had been hiding in the Tibetan barracks, took 50,000 Indian 130 elites, and suddenly rushed out of Ningzhou City, defeating the Nine Star Alliance.

About 900,000 people eventually fled back to less than 300,000 people in the main city of Silverlight, and the remaining 600,000 people were all killed on the grassland.

“Haha, win.”

“The small Nine-Star Alliance dares to attack us.”

“Wait, you have destroyed Lu Yang this time and must have destroyed you.”

Uh ...

Xi Purenyi and Tianlong appeared at the same time in the city, and both of them shouted with excitement.

里面 Inside the Silver City of Light.

Ning Glacier and God of War I and others did not look good.

“I can’t think we can’t even beat an enemy’s side division.” Camel said lonely with a long knife.

“Yes, I did not expect that the elite troops of Park Renyi and Tianlong are so strong, we all underestimated them.” God of War I said quietly.

He is now more happy for his surrender to Lu Yang, and the last little mustard in his heart has been eliminated.

Lu Yang, Jie Xiu Brothers League, how strong the existence is, a team of Pu Renyi beat them, they did not even fight back, but Pu Renyi did not let Lu Yang fight back.

If their nine-star alliance meets Lu Yang, it is conceivable that they may be defeated by the Jagged Brothers Alliance if they are face to face.

“Well, what about Lu Yang, didn’t he agree to attack with us? Why he hasn’t moved yet.” The Dragon Slayer asked angrily.

“We will not be deceived,” the Black Cross asked.

“Impossible, why did Lu Yang cooperate with Park Renyi to lie to us?” Pope I said.

“Why didn’t he send troops yet?” The matador asked, and he lost very badly and was very angry.

“Let me ask.” Pope I connected Lu Yang’s speaker.

“Chairman Lu Yang, why haven’t you attacked there?” Pope I asked, pretending to be angry, and then he privately sent a message to Lu Yang for Lu Yang to cooperate.

After seeing the note, Lu Lu asked with a sneer and asked, “Why, do you want to put the blame on me after losing the battle?”

Mi Glacier and Dragon Slayer stunned.

“No, President Lu Yang, how dare we push the responsibility on you, just ask curiously.” Pope I said.

Lu Yang snorted coldly and said, “I haven’t finished the assembly here. When the assembly is finished, I will naturally launch an attack.”

“Isn’t your man in a state of war all the time? Why are you gathering so slowly this time?” Black Cross asked.

Lu Luyang said: “It’s not all of you. You must gather your manpower and prepare for a second attack. In another two hours, my side should also launch a general attack.”

“Oh, okay,” Glacier said with relief.

I closed the intercom, and Pope I said excitedly: “Let’s gather the players again and prepare to launch a second attack. This time when Lu Yang plays first, we will attack again and we will be able to fight.”

“Okay, then we will gather again, this lost too much money, we must get it back.” Matador said.

“Yes, you must find it,” said the Dragon Slayer.

Wu Glacier said: “Then we will attack Ningzhou City again and wait for an opportunity.”

“That’s it.”

Uh ...

Twenty-nine individuals convened each other to go down. Originally, the 900,000 people were rectified outside the main city of Silverlight. Now they get news to attack again. Even if they do not want to, they still follow their presidents to participate in the war.

Inside the city of Suining.

Park Renyi and Tianlong have left, and even Sharuk has left. Only 300,000 players between level 100 and 120 are left to defend the city. In their opinion, Ningzhou City is defended, and the Nine Star Alliance is impossible. Attack again.

However, Pu Renyi did not wait to stand on the top of the city of Yizhou City, and got the news that the Jiuxing Alliance gathered players to attack Ningzhou City again. At this time, Tianlong just ran to Suiyuan City. Park Renyi can’t use the teleporting scroll between the main cities and can only run.

“Tianlong, you defend the city for me, I will take 500,000 people to clean up the Jiuxing Alliance.” Park Renyi said.

“You go, there is me here, you can rest assured.” Tianlong said, this time he brought 1 million 130 players to help, plus the 1 million Park Renyi left behind, a total of 2 million, enough to deal with Lu Yang

Park Renyi teleported to Ningzhou City with 500,000 people and immediately took 500,000 people out of the city. He wanted to defeat the Nine Star Alliance, but the Nine Star Alliance was not stupid. There was an undercover in the Park Renyi’s guild, and he did not fight against Park Renyi directly. , And returned the silver light.

Bian Pu Renyi did not dare to chase, but could only return, but just halfway back, he heard a message that made him panic.

“Quickly summon all your players, Lu Yang is crazy this time, he actually launched ten million people to attack you, now people have arrived in Yinshui River.” Tianlong sent a message.

什么 “What? Tens of millions of people?” Park Renyi asked in shock, he felt his nerves were numb.

Tianlong said: “Exactly, this is a high-level insider I installed in the Iron Brotherhood. For this matter, he has revealed his identity. Hurry up and ask all your guild members to participate in the defense. Otherwise, you will be lu Yang. Delisted in the Northeast. “

Pu Puyi took a breath, and said in a panic, “I’m looking for someone, I can’t lose.”

“I also convened players who can go online, and the door was evil. Why did Lu Yang find so many people?” Tianlong asked inexplicably.

Park Renyi said: “For the National Day of China, I should have guessed that the whole country will be on vacation for seven days.”

七 “Seven days !?” Tianlong felt dizzy for a while, he knew that Park Renyi was hanging.

Yinshuihe.

A river that runs through Dingzhou City and Suiyuan City, Yizhou City, Guang'an City, and Xuanzhuang City, and below the Ningzhou City and the main city of Silver Light A total of more than 9 million players of the Iron Brotherhood have gathered there by the riverside, and are led by 32 vice-chairmen.

This war, even the twilight old man who has not shown up for a long time came out, and Ling Zhitian also came to make fun.

“9 million people, too domineering.” Ling Zhitian stood beside the old man and waited.

“Only Lu Yang can gather in this scene, it's too arrogant.” The old man said late with emotion.

Ling Zhitian did not refute.

Lu Yang stood on the bank of the river, in front of the crowd. He looked back at the 9 million people, and was very excited inside.

It was supposed to be 10 million people, but in order to prevent Gai Suwen from attacking the tiger's head, Liu Jie raided Tianjian City, and Lu Yang reserved 500,000 people in each of the two main cities.

The defensive force in the main city is not at all. In the previous battle that besieged Lu Yang, the guild that wanted to sneak in Lu Yang was given a nest by Liang Yun. All the players participating in the battle were killed back to level 100 or below, or Having escaped Lu Yang's sphere of influence, there is no longer a threat in the territory.

Moreover, Lu Yang has waged a war of tens of millions of people this time. People with eyesight can see it. Park Renyi is finished. Lu Yang must lay down all the main cities. It is foreseeable that more than half of the northeast region will be in Lu Yang's hands. Do n't It's too late to make a good deal.

Many medium-sized guilds submitted documents of alliance to Tu Feng. Lu Yang gave them a chance to make them responsible for the security of these main cities that they had already captured.

Chapter 1089 - Capture Xuanzhuang City

“Earthquake”

There was a flash of light, and the mound of 30 meters in diameter at the foot of Lu Yang quickly rose to a height of 30 meters.

Lu Yang looked down at 9 million people, he couldn't see more than half of the people standing in the back, he shouted that these people could not hear.

Fortunately, they were all in the same map. If Lu Yang shouted with a loudspeaker, they could still hear it.

“Brothers of the Jagged Brotherhood, it's time for all of us to fight the decisive battle.” Lu Yang master said.

“In our Brotherhood of Iron Blood, there has always been such a tradition. Whenever the guild faces the recovery of life and death, every player who is a Brotherhood of Iron Blood will come forward and make their best efforts to defend the Association.”

“After two years of development, the Jagged Brotherhood has developed to this day and has become one of the top guilds in the world.”

“But the danger is not far away from us. Far away is the threat from Liu Jie in the north, the threat of one step to the south, and the threat of Park Renyi, Tianlong, and the green water ghost.”

“I'm very glad that I didn't slacken and everyone didn't slacken. For this guild and for a better gaming environment, each of you is constantly paying for the guild.”

“Now, it’s time for us to harvest the fruits of victory. Liu Jie in the distance is entangled in the six northern parts and cannot be separated. He has just gone through a big defeat in one step and has no ability to attack.”

“Park Renyi has just been defeated by us. The morale of the players is down, and we have snatched his natural barrier. Dingzhou City. The three main cities of Xuan Zang, Guang’an, and Yizhou are exposed to us as long as we defeat Park Renyi. Only one Tianlong can threaten us. Will you kill Park Renyi with me?”
“Lu Yang asked loudly.

“Yes.”

“Yes.”

“Yes.”

Uh ...

With 9 million people shouting in unison, the shouting sound of the mountains and the tsunami gave everyone present a sense of excitement.

Lu Yang took this opportunity to shout: “The whole army crossed the river and attacked the three cities of Xuan Zang, Guang’an and Yizhou.”

Zhou Tianming’s first team led 2 million people to attack Xuanzang City.

Wu Tianyao’s second team led 2 million people to attack Guang’an City.

The third team of Luzhuo led 2 million people to attack Yizhou City.

Xia Yuwei’s fourth team led 3 million people as a reserve team to support three legions at any time.

Live room.

Du Bin chose a wide-angle lens to watch the scene of 9 million people crossing the river. When he found that the Brotherhood of Iron Blood was so orderly, he couldn't express it in words.

"How did the Brotherhood of Iron Blood do it, 9 million people cross the river so neatly?" Dubin exclaimed in the live broadcast room.

No one can answer, and the pupil next to her has no idea what to say.

They were pretty good. What really stunned was Park Renyi watching a live broadcast in Yizhou City. When he saw the war declaration issued by 9 million people and Lu Yang in person, he knew that he really faced life and death this time. Already.

"All players in South Korea, I am Park In-yee. In the face of Lu Yang's attacks, the power of one of our guilds can no longer stop me. I ask all Korean players to help me. , Then you will face a Chinese who is the city owner, are you willing?" Park In-yee fights, he convened players inside the guild, and found that less than 3 million people can come, so he simply turned to ordinary Koreans in the main city Player.

"Park Renyi asks us for help?"

"Will you help?"

干 "Well, fight with the Jagged Brothers, Smeda."

"Smida for the Republic of Korea."

Uh ...

的 The players living in these 8 main cities began to talk, and at this time, the Korean players in these main cities had different voices.

“Park In Yee does not represent South Korea.”

“Who controls the main city is not collecting taxes. I heard that Lu Yang is much cheaper.”

“Why desperately for the guild of others.”

Uh ...

紫梦歌舫的清浅紫梦, which is also the deputy leader of the Iron Blood Brothers Intelligence Group, led hundreds of South Korean anchors in the submarine broadcast live platform of his branch to propagate in Park Renyi's eight main cities.

主 These anchors are male and female, but they are popular anchors with super high traffic. Everyone has hundreds of thousands of fans in the live broadcast room.

Bian Pu Renyi originally thought that using his identity as a Korean would allow many Koreans to fight for him, but when he shouted for a while, there were not enough 100,000 people to help.

“Why is this happening?” Park Renyi was a little hesitant.

Pu Zhixing opened the live broadcast platform and said in a panic, “Brother, Lu Yang is using the media to separate our relationship with the players.”

Pu Park Renyi looked at the platform, and then he knew what was going on. He was angry, but could not help it.

At the same time, Park In-Yi received news from the defensive players in Ningzhou City.

“The Nine Stars are attacking again.”

Qi Pu Renyi sat on the ground and was at a loss.

“What’s wrong?” Tianlong asked.

“The **** of the Nine Stars Alliance are robbing again in the fire.” Park Renyi said.

“Forget it, give up Ningzhou City, we first block Lu Yang’s offensive and then control the Nine Star Alliance.” Tianlong said.

Park Renyi said, “Is there any other way besides this?”

Ji Puzhixing asked, “How do we fight?”

Yun Tianlong said: “Fortunately, you are relatively smart, so that players who are standing on the banks of the Yinshui River have retreated to the city without giving Lu Yang a chance, otherwise Lu Yang’s winning streak will surely increase morale.”

“Now we can only defend the three main cities attacked by Lu Yang, and delay time as much as possible.” Tianlong said.

“It can only be done like this.” Pu Renyi suddenly gritted his teeth and scolded: “Lu Yang, you want to ruin me, I won’t let you succeed, and I will keep my main city if I die.”

“Woo ~~ woo ~ woo ~”

A long and two short horn sounded outside the city.

Qi Pu Renyi looked out of the city and found that Zhuojiu took 2 million people to stop 300 meters away from the main city.

30 Of these 2 million people, 300,000 are level 130 players, and the rest are all level 120 players, which is the most elite of the three main forces.

The main force that Zhou Tianming and Tianyao bring are mainly players between level 100 and 120, belonging to the third sequence of arms.

Below the city, Zhuoju stood on the 60-meter-high platform formed by the Earthquake and looked at Wang Yizhou City. As a defensive main city, it must first have several elements of defense.

Avoid the wall of the curse, this main city does not.

The main wall is at least 50 meters high, this main city is only 30 meters high.

The width of Wuchengtou must be at least 50 meters, and the main city is only 30 meters.

Everything, obviously, is declaring that this is not a place suitable for defensive warfare, and this Yizhou city is not a city that Park Renyi thinks can be used for defensive warfare. It was originally used as an ordinary city for players to rest. existing.

After all, no one wants to spend more money. When he first entered the Northeast region, he had the Liberty Capital in front of him to block the landing sun, and behind him were Gasouwen City and Dingzhou City. How could he not think of three consecutive seats? The main cities were all destroyed by Lu Yang, causing him not only to open the door, but also to expose the status quo of these main cities-low defense.

Xi Pu Renyi appeared at the head of the city, watching the muddy wine standing on the high platform 300 meters away, with a sloppy look on his face, cursing: "What about your master Lu Yang?"

Yunzhuo smiled, took a chair out of her backpack, and sat there leaning Erlang on her leg and said, "Chairman Park Renyi, don't be so uncultivated."

"What kind of cultivation do you have, you are a dog raised by Lu Yang." Park Renyi cursed.

Wuzhuo pretended to think about it for a while, and said, "Poor, President Park Renyi, such a person of such grace, has become like this."

He Purenyi hates others most to say that he is poor, because he looks really poor now.

"Don't think you can beat me." Park Renyi cursed.

Wuzhuo shrugged his shoulders and said, "I don't think I can beat you, I just look at Tianlong."

"What do you mean?" Park Renyi had a bad hunch in his heart.

Wu Zhuojiu said: "Our boss has personally taken people to Xuanzhuang City, and the offensive battle of Guang'an City has begun. There is the main battlefield. My task is not to let Tianlong help them."

"Only you, do you think you can beat me?" Park Renyi cursed.

Wuzhuo said, "Try it out."

"You wait for Lao Tzu." After Pu Renyi scolded Zhuo Jiu, he turned around and said to Tianlong, "Yizhou City is relying on you to defend. I took someone to Xuanzhuang City. Lu Yang is really there and needs me to sit in town. . "

"Go and give it to me here," Tianlong said.

Park Renyi said: "Be careful, the turbid wine is Lu Yang's first general, and it is very difficult to deal with."

Wu Tianlong said: "I know, I will find you immediately if there is a problem."

Xi Pu Renyi was relieved, and used the teleportation scroll to fly to Xuanzhuang City.

Under the city.

Lu Yangzheng and Zhou Tianming discussed how to attack and saw Park Renyi coming. He smiled and used the loudspeaker and said, "Park Renyi, let's meet again."

"Lu Yang, I will not let you go." Park Renyi cursed.

Lu Yang said, "Don't blame me. Who keeps you from playing good games? You have to fight with Liu Jie. I have great revenge with Liu Jie. Anyone who prevents me from avenging Liu Jie must die. You not excluded."

"Then try it, let me see why you beat me." Park Renyi cursed.

Lu Lu sneered and said, "It's just my brothers."

He told Zhou Tianming: "Ready to attack."

"Yes." Zhou Tianming arranged immediately.

Following Zhou Tianming, it was only a regular army. Following Zhou Tianming's order, he immediately began to prepare for the siege.

After 10 minutes.

"Iron brothers alliance, kill ~!" Zhou Tianming roared and personally took 500,000 people to directly attack the city, or besieged on all sides.

周 When Zhou Tianming fought, Tian Yao also led the first batch of 500,000 people to attack Guangan City.

Suzuo, who originally said he would not fight, was uncharacteristically and began to storm the city of Yizhou.

At the same time, the Jiuxing Alliance also began to attack Ningzhou City. For a time, Park Renyi's four main cities were violently attacked by nearly 7 million players, and his defensive power was less than 4 million.

The two sides differed by nearly 3 million people, and the three main cities of Xuan Zang, Guang'an, and Yizhou had very low defenses. All three main cities were at risk.

Especially in Yizhou City, all special legions such as war tauren, tsunami mage, Darui march, and wolf guard are here.

When Zhu Renyi's main force was tricked by Zhuo Jiu to Xuanzang City to find Lu Yang, Zhuo Jiu knew that Yizhou City was his.

Wu Tianlong felt bad for the first time. He called Park Renyi and said, "Send someone to support me here. I may not be able to support it."

He Pu Renyi asked, "Is Lu Yang the main force at your side?"

"All the main forces are here, I played too hard, 10,000 forbidden wizards took turns to release the secondary forbidden spell, and my people were seriously injured." Tianlong said. ,

"I'll go back now." Park Renyi hung up the phone and quickly searched for his men, but he looked around, but found that his men were participating in the war, and he was completely unavailable.

Lu Luyang saw all of this very clearly on the high platform, and Mu Yu and Shen Mengyun beside her had masters who held the heart of God one after another to show disdain.

"Brother, it looks like I won't need my appearance." Mu Yu said proudly.

Lu Lu laughed and said, "If you want to fight, go up and play. Your **** hearts are level 6 and no one can threaten you here."

South Korea's God-Heart class of artifacts. During the offensive and defensive battle of Gesuwen City, Park In-Yi was attacked by Lu Yang, and most of the artifacts were snatched by him.

让 "Let me try my new skills to break the storm." Shen Mengyun said.

The same is the Thunder Mage, Shen Mengyun is the cousin of Blue Feather. She accidentally got the Thunder Curse Wind and Thunderbreaking Method. This is a skill similar to Static Storm that can ban the magic of the target, but his range is larger than Static Storm. It's three times bigger and, of course, the damage is three times lower.

Lu Luyang said, "Go."

Shen Mengyun possesses the thunder bloodline and can fly in the air. He flew straight to the sky above Xuanyuan City, watching the west wall and the reinforcements rushing through the city, and the words were spelled out in his mouth.

Qi Pu Renyi saw Shen Mengyun above his head and shouted, "Shooter, kill me."

Hundreds of shooters aim at the sky at the same time.

"Armor Smasher"

"Meteor Arrow"

Uh ...

Every skill was lost, but unfortunately, the skills that can reach the farthest distance of 300 meters have fallen into the toes of Shen Mengyun.

As a top player who has undergone Lu Yang's professional training, he has a comprehensive grasp of distance and various professional skills. He will not make such low-level mistakes at all.

After 30 seconds, a huge thundercloud covering one-third of the Western City Wall and one-tenth of the Western District formed.

“Wind and Thunder Break”

The thunder cloud emits a fiery purple light. Then, eight purple lightnings fall from eight directions. When they hit each other, a huge purple egg shell is formed, and the lightning is constantly concentrated inside.

He Purenyi frowned and looked at the purple thunder shell in the sky, and said, “Who has a way to lift him.”

“Let me try.” Li Xiaotong shot the thunder shell with a bow and arrow, but found that the bow and arrow did not have that height.

“No way,” said Li Xiaotong.

“What is the function of this skill, it seems that the attack power is very low.” Park Renyi asked.

No one knows, because they also saw this for the first time because of the thunderstorm.

When they were curious, the thunder shell suddenly burst open, and a huge purple brilliance appeared.

“My magic is useless.”

靠 “Fuck, this is a silent spell.”

“Who can tell me what to do, I can’t treat it.”

“Mage refrigerator.”

“Knights are invincible and silence others.”

Uh ...

There was panic on the city wall, but Park Renyi was calm, and immediately gave orders to his men.

The knights clicked the invincible button one after another, but they found that in this silent state, they could not even open the invincible, and the mage could not use the refrigerator technique, which was an absolute silence skill.

“Boss, the skills can’t be released.”

“So are we.”

“Can’t fight, there is no power to attack without skills.”

“Me too.”

“The enemy rushed up.”

Uh ...

I do n’t know who shouted. Park Renyi looked at the city head. Zhou Tianming did n’t know when he rushed up. At the same time, there were 500 private guards around him, all of whom were elite players of level 130. Gold equipment.

“Iron brother brothers, kill ~!” Zhou Tianming roared and rushed to Park Renyi.

He Pu Renyi was about to fight back, but found that he could not use magic, and could only retreat backward. The shield war standing next to him protected Pu Renyi behind him.

“Boss, you retreat to the inner city.” Li Xiaotong shouted.

“Okay, I’ll go down and reorganize the staff.” Park Renyi said, he ran back and ran but didn’t notice that he stepped into the puddle.

“Want to leave now, it’s late.” Lu Yang’s second avatar, Shui Shen appeared next to Park Renyi.

“You.” Park Renyi was frightened and was about to run away but found a ball of blue water polo in Lu Yang’s hands.

“Water Jail”

Lu Yang pointed Park Renyi with a finger, and a huge blue water prison cage trapped it inside.

“Quickly rescue the boss.” A group of men rushed towards the landing sun.

“Give me away.” Lu Yang’s body suddenly appeared beside Moisture, and the words were spelled out.

“Meteor Fall”

巨大 A huge fire meteor descended from the sky, and the goal was in front of Park Renyi.

“It’s a secondary forbidden spell, run away.”

“What do you run, can you run out, find a way to save the boss.”

Someone found out that this fire meteor is unusual, because he hit this meteor, almost as large as a small forbidden spell, with a diameter of 200 meters and an attack range of 1,000 meters.

Except for a few core members, no one knows that Lu Yang’s demon heart has reached level 9, so it is normal to be able to release such a large meteor fall.

“Om ~~”

With a whistling sound, after a second, the meteor fell to the ground. Except for Park Renyi’s accident, all enemies within 1000 meters of the city were killed.

The reason why Pu Renyi did not die is because Park Renyi, as the president, is equipped with gems that are all blood added. His blood volume exceeds 2 million, so he cannot die.

“Lu Yang, what are you going to do?” Park Renyi struggled in the water prison cage.

Lu Lu sneered and said, “It makes you unable to participate in the war. Without you, your guild would be the same.”

“You let go of me.” Park Insanity was mad.

Chapter 1090 - Defeating Park Renyi

Long before the battle, Lu Yang controlled the avatar to sneak into Xuanzang City, and entered the garrison as a Korean player who temporarily protected Xuanzang City.

Originally this was just a war idea for him, but he did not expect to be able to capture Pu Renyi so lucky.

“Park Renyi, you deserve your fate, your ending is doomed, don’t do the trivial struggle.” Lu Yang said.

With 9 million people attacking him, Lu Yang really didn’t know what else Park Renyi was qualified to fight against himself.

“Lu Yang, I will not fail, Simida.” Park Renyi roared.

Lu Luyang laughed for a while, and the control skills in his hands were still non-stop. He drew up his skills and said to the Jagged Brothers players around him, “Don’t let him die, watch him.”

“Yes.” Six Iron Brothers players agreed.

Lu Yang looked to the city, at this time the players of the Brotherhood of the Iron Blood had already reached the resurrection point, and they were engaged in offensive and defensive battles with the remaining players led by Li Xiaotong.

In this place, the Jagged Brothers League encountered resistance, and the Jagged Brothers players who broke into the city were from level 100 to 120, while Li Xiaotong led a 50,000 130 elite, and the two sides fought against each other.

However, the Brotherhood of Iron Blood has more people than others, and they can be resurrected by others when they die, while Li Xiaotong has only 50,000 130 elites and more than 500,000 120 players.

Facing more than 2 million crazy attackers on Lu Yang’s side, he soon fell into a situation of bitter fighting.

Zhou Tianming appeared on the front line of the battlefield and personally led the team to conduct the attack. Although each attack could not win the enemy, the battle was gradually progressing.

Lu Yang personally stood on the top of the city to watch the battle. Not long after, with Zhou Tianming's countless attacks, he finally successfully killed Li Xiaotong, defeated the hundreds of thousands of players who were in the safe zone under his hands, and the resurrection smoothly occupied. point.

Behind the resurrection point, there is the city main mansion in the inner city area. After the resurrection point is lost, the players in the city main mansion are scattered sand. It took Zhou Tianming half an hour to enter.

In the center of the city's main palace, a tall shrine was erected there. Above the shrine, there was a square space inlaid with the emblem of Pu Renyi's guild.

Zhou Tianming personally greeted Lu Yang and came to the god, respectfully said, "Boss, please change your badge."

Lu Yang took out a chairman of the Iron Brotherhood and replaced it.

System reminder: Brother Iron Brothers occupy Xuan Zang City.

"Win!"

"Win!"

Uh ...

Zhou Tianming's men shouted in excitement, while Tian Yao, who was storming Guang'an City, and Zhuojiu who was attacking Yizhou City, were originally in a hard battle. Upon learning of this news, morale suddenly increased, and in turn Park Renyi and Tianlong The morale of his men dropped a lot.

"Brothers, laying Guangan City, we are no worse than the others." Tian Yao shouted loudly.

“Kill!”

50 The 500,000 people who were attacking launched a more violent attack, while Park Ji-sung, who was guarding the city, showed his face and faced the fierce onslaught of the Brotherhood of Iron Juggernaut, but his men’s morale was low and he could barely hold on.

“Brother, come to Guang’an, you can’t hold it here.” Park Ji-sung called Park Ren-yi.

Ji Pu Renyi was looking at Lu Yang at this time, he said to Park Ji Sung, “Continue to defend, I will pass in a while.”

Lu Yang sighed. He now has 9 million people storming the main city of Park Renyi, and is too lazy to talk to the other side again. After killing him with one move, he used the teleportation scepter to fly under the Guang’an city.

As soon as he arrived here, the war had shown a downturn. Tianyao had already attacked the city with 2 million people.

Lu Luyang called Zhuoju and asked, “How are you there?”

“It is attacking the inner city and will soon occupy Yizhou City,” said Zhujiu.

Lu Luyang nodded with satisfaction. Just as he was about to go to the city head to fight, God of War I called.

“Boss, we have successfully laid down Ningzhou City. We are going to Suiyuan and Jiangping City in two ways. When will you come to play Nine Star Alliance.” God of War I asked.

Lu Lu asked: “Are you three together?”

“Yes, it’s all here,” Pope I said with sad fan Qiufeng.

Lu Yang thought for a while and said, "Let's change the plan temporarily. I won't attack you. You first occupy the three main cities of Suiyuan, Jiangping and Ningzhou with peace of mind. I will inform you of subsequent wars."

"Ah, no longer playing the Nine Stars?" Pope I asked in surprise.

Lu Luyang said: "You are too weak, and I have other uses."

The three of Pope I, God of War I, and the sad fan Qiufeng were helpless. Facing the truth of Lu Yang, the three wanted to refute, but the combat effectiveness was too bad.

When Pope I saw Lu Yang hung up the phone, he scratched his head and said, "It looks like we are really too weak. Lu Yang's old Dalian has no intention of hitting us."

God of War I said: "Do you still have to fight, we will collapse with a random wave of attacks, and the actual capabilities of the players on both sides are not the same level."

Qi Beifan Qiufeng said: "Although I don't know the boss's intentions, we just execute it. In short, the three of us are making a lot of money this time."

The Pope I and God of War I smiled and nodded.

"Now in retrospect, I can still remember the stupid expression of Tu Long warrior. He thought he broke into Ningzhou City, because he and his men have strengthened their strength. I don't know that the boss sent 9 million people to wipe out Pu. Renyi, the persecutor had to go to Xuan Zang City in person, so that the boss of Lu Yang was caught alive, otherwise, the Dragon Slayer would not be able to enter Ningzhou City." Said the sad fan Qiufeng.

Pope I said: "There are always some people who can't see their abilities. Some of them have now drifted away. They think that after going through several wars and knowing a little of the full experience of war, they can compete with the Brotherhood of the Iron Blood. It's crazy to dream."

God of War I said: "Look at it, it won't be long before this war ends."

Xie Beifan nodded and said, "Let's go and hit Suiyuan. I don't think there are even defenders in Suiyuan city."

Uh ...

When the three men first arrived in Guang'an City, Lu Yang took the main force of the Brotherhood of Iron and Blood to conquer the Guang'an City and Yizhou City, and Park Renyi was forced to retreat to Renzhi City, Huai'an City, and Jiangping City.

It happened that Glacier and 6 others came to attack under Jiang Pingcheng, and fought against the defeated army of Park Renyi. At first, the two sides did not win or lose. Later, Park Renyi learned that the Brotherhood of the Iron Blood began to attack the main city of Renzhi and Huai'an City, for this reason, he had to abandon Jiang Ping City, only guarding a main city of Huai'an City, even Renzhi City gave up.

As a result, Park Renyi's active retreat made the Glacier and Dragon Slayer soldiers more excited, thinking that they had won the main force of Park Renyi. As everyone knows, Park Renyi and Lu Yang fought for several hours in a row. All were beaten and incomplete, and their skills were lost in the battle with Lu Yang.

In this case, Park Renyi did not want to discard Huai'an City, the only main city connected to Tianlong, and then withdrew, otherwise the glacier and Dragon Slayer would have to be defeated.

Lu Yang successively occupied the four main cities of Xuanzang, Guang'an, Yizhou, and Renzhi. Only one Huai'an city remained unoccupied. Facing this situation, Lu Yang was not polite. With a big wave, 7 million people came to Huai'an under.

Gaocheng head.

Wu Tianlong, Park Renyi, Green Water Ghost and others looked in horror at the endless Chinese players under the city.

“Crazy, Lu Yang is completely crazy. How much does it cost to do this?” Tianlong cursed.

The Green Water Ghost said, “Tianlong, you must quickly prepare your men to prepare for the battle. Huai’an City can’t hold on. Don’t attack Luyang. Even your moonless fortress will be beaten. At that time you will It’s going to end like Park In-eok. “

Originally, the green water ghost did not want to come, but the situation on the side was too horrible, and the green water ghost could not help.

Pu Puyi asked with a gritted tooth, “I came to you to help me find a way to defend the city. What do you mean by that?”

The green water ghost stared at Park Renyi’s eyes and said, “I have encountered the same situation as you, so I have a deep understanding of you. Don’t have any more delusions. Lu Yang’s 7 million people attacked at the same time, overnight. If you attack, even if your 3 million people are in the city, you can resist for a few days. “

He Purenyi cursed: “Then I can’t give up the city of Huai’an to the Brotherhood of Iron Blood.”

Lvshuigui said: “You can’t decide whether to let or not. Even if you don’t, do you think you can raise these 3 million players?”

In the early days of the New World, Park In-yeon built 10 main cities at a time and spent more than 200 million credits. In addition to the internal construction of the main city, money disappeared like a stream of water. Although he unified Korea in the country, the low-level The number of players is very small, and there is not much money available to him.

If he still has these 10 main cities, it will be very easy to raise these 3 million players, but it is only a special profession such as 300 legions, 3000 commanders, and a group of forbidden mages, but now these 10 main cities are gone What else does he support?

Pu Park Renyi knew this very well, but he always dreamed that he could defeat Lu Yang. Now when he heard the words of the green water ghost, he knew that he was really finished.

“What can I do?” Park In-yee asked.

The green water ghost said: “The only way now is to sell misery and force Lu Yang to let your 3 million people leave freely. You take these 3 million people out to find a settlement in the New World again, or attack the main city of another person, and then Or you can directly merge the guild into Liu Jie’s guild. “

As soon as Pu Renyi’s eyes brightened, he said, “It makes sense that I merge first and then exit. As long as Liu Jieken helps, I still have a chance to rise again.”

Lvshuigui said: “That’s what I mean, as long as there is someone, I can always come back.”

Bian Tianlong said: “Now Korean players in eight main cities, such as Xuan Zang and Guang’an, are watching how the Brotherhood of Iron and Blood treats you. If you negotiate with Lu Yang, Lu Yang dare not agree.”

Pu Renyi thought about it and looked at Park Ji Sung again.

Ji Puzhixing said, “Brother, there is only one way.”

“Well, I’ll contact Liu Jie.” Park Renyi took the initiative to find Liu Jie, and after explaining his ideas, Liu Jie immediately agreed.

六 The six northern regions are the guilds of six countries, namely South Africa, Brazil, Mexico, Germany, Mongolia and India.

The guilds of these six countries do not seem to be powerful, but the victory is large, and the map of the north is vast. Even if Liu Jie kills a main city, the players of this guild will continue to attack at night by taking advantage of the northern plains. Liu Jie is annoying.

Now, there is Park Renyi willing to come and help, just to help him solve the problem of the Six North Departments, he said, “You immediately join my guild, and I will send someone to return the city roll.”

“Okay.” Park Renyi agreed.

On a high platform below the city, Lu Yang was watching Pu Renyi and others on the city wall. He snorted and said to Park Renyi: “Park Renyi, I give you one last chance. I don’t want Korean players in Xuanzang and Bacheng to think of me. Lu Yang is not doing justice. If you are willing to give up this main city, I allow you to leave with 3 million people, whether to enter India or go to other parts of the New World. I will never attack you. “

How did Pu Puyi Zheng Zheng worry and talk to Lu Yang about this? Hearing Lu Yang mentioned this incident, he said, “Lu Yang, are you willing to let me and my men leave?”

Lu Yang said: “All South Korean players in Xuanzang eight cities can testify. I Lu Yang packed tickets for you. If Park Renyi leaves, I will never hunt him down.”

In fact, this war has no effect on Korean players who are upgrading outside the city, but what they care about is Lu Yang’s view of Korean players. If Lu Yang is hostile to Korean players, they would rather help Park Renyi, Willing to let Lu Yang occupy the Eighth City of Xuan Zang.

Lu Yang is also worried about the impulsive decision that Korean players outside Xuanzang eight cities suddenly broke out, so it is so anxious to settle Park Renyi.

Park Renyi said, “Okay, give me some time to prepare. I’ll give you this main city, and I will take my men.”

Lu Yang was originally worried that Park In-yeo would disagree. He didn’t expect him to agree and said, “Are you sure you promised to give up the city of Huai’an?”

Park Renyi gritted his teeth and said, “I think Park Renyi is unlucky. I built 10 main cities for all Korean players to upgrade, but they refused to help me when I was in the most difficult time. What can I do if I don’t leave?”

He speaks on the world channel with big speakers, which can be seen by tens of millions of South Korean players outside Xuanyuan Eight City.

Lu Yang said: "Don't involve other Korean players, you can only say that you are usually the president of a grand guild and do not treat the casual players well, otherwise they will not treat you like this."

The Korean players of Xuanyuan and Bacheng originally felt a little sorry for Park In-ye, but after hearing Lu Yang's words, they felt that Lu Yang's words made sense and no longer tangled up.

Zhi Pu Renyi also knows that it is no use to say these now. It has lost 9 main cities. It is too late to rely on casual players to grab the main city back.

"I'll go and prepare now, you will let your people back to a place 300 meters outside the city, do not approach here, give me a passage out of the city, I want all the people to enter Wuyue City." Park Renyi said.

As soon as Tian Long asked, "Did you not go directly to Liu Jie?"

Ji Purenyi sighed. Helplessly looked at Tianlong and said, "Brother, I couldn't help you. I just let you help. The only thing I can do now is to help you defend the Moonless City for two more days. If Lu Yang doesn't attack, it's best. If he attacks, I can get you some more time. "

Yun Tianlong was a little moved and said, "Thank you, brother."

He Pu Renyi didn't say anything, but turned and went to find his hand, and Park Ji Sung, Li Xiaotong and others also left.

Soon, 3 million South Korean players came out of the east gate of Huai'an City and slowly entered the Moonless City in the form of large troops.

The live broadcast perspective in the sky clearly played this picture, so that Korean players in Xuanyuan and Eight Cities were relieved.

Wu Tianlong stood at the city and looked at Lu Yang, and asked, "President Lu Yang, do you have any other ideas now?"

Lu Luyang smiled and shook his head, saying, "Of course it is not, I hope you and I can get along peacefully in the middle of the Heiyan River. As for the future, that is the future."

Bian Tianlong understood what Lu Yang meant, but he would not hit him for the time being, and he said, "My people are also tired, so let's stop here."

Wu Tianlong flew back to Wuyue City with his teleportation scroll, and there was no enemy player in Huai'an City.

Lu Yang brought the people of the Brotherhood of Iron Blood into Huai'an City, and officially announced that Park Renyi was occupied by him.

"Win."

"Awesome, win."

Uh ...

Inside and below Huai'an City, the players of the Iron Brotherhood shouted excitedly.

Jiang Ze stood beside Lu Yang and asked: "Brother Park Renyi has now merged with Tianlong, and it will be a big problem for us in the future."

Lu Yang shook his head with a smile and said, "Rest assured that Park Renyi will not stay with Tianlong for too long. After a long time, Tianlong will not be able to tolerate him. Moreover, I suspect that Park Renyi will surrender Liu Jie or step up to heaven and turn And go outside the Northeast area to compete for a survival point again. "

"He has such great courage to merge with other people's guild?" Jiang Ze asked.

Lu Luyang said: "If you choose not to do so, what he waits for is death. After all, when you cannot afford to attack, the player's contract is automatically cancelled."

Jiang Ze nodded clearly.

Lu Yang cleared his throat, took out the intercom, and said to the Korean players in Xuanzang eight cities: "Korean friends in Xuanzhang eight cities, I am the chairman of the Iron Brotherhood Association Lu Yang.

Starting from today, Xuanzang eight cities will not be taxed when entering the city, 20% off for medicines, 20% off for rest pub prices, and auction houses will not charge fees.

At the same time, the Jagged Brothers League began to recruit Korean players. Korean players who are willing to join the Jagged Brothers family can apply to Xuanzang, Guang'an, Yizhou, Dingzhou, Renzhi, Huai'an, and Gasovin City, as long as they love the game Yes, we like to copy, upgrade, and talk about morality together, we all welcome. "

这一— Only this announcement, Korean players in Xuanzang and eight cities are all excited. Originally, a fee of 10 copper coins was charged for entering the city, while a businessman was charged a fee of 1 gold coin, but now they do n't want money.

Not only did n't enter the city without money, the price of medicines was also 20% off, hotel breaks were also 20% off, and the auction house did not charge any fees, which was simply no better condition for them.

Chapter 1091 - Third-level main city

Of course, the last one was ignored by them. Although many people have an idea when joining the Jagged Brothers League, more people are still watching.

After all, joining a guild in another country is not so simple, especially after entering the guild. Generally speaking, it is much lower than domestic players, and the treatment will be biased.

Lu Yang did not expect too many elites among them to join the Jagged Brotherhood, but as long as there are players willing to join, he is willing to accept, at least as a look to the players of Xuanzang Eight City.

Here Lu Yang's words settled the eight cities of Xuan Zang, but these words made Glacier and others listen but it was not a taste, because Sui Yuan, Jiang Ping, and Ning Zhou were in the hands of them, but they were not in Lu Yang's hands. If Lu Yang gives these benefits, and they don't, it won't be long before the players in these three main cities will run to Lu Yang.

"Brothers, we should quickly contact Tianlong." God of War I said that he and Pope I and the sad wind and autumn wind occupied Suiyuan City and immediately flew to Jiangping City and the glacier where they converged at the city's main government.

"Yes, I did not expect that Lu Yang actually convened 9 million people. If a wave came over now, we would be out of luck." Glacier said nervously.

Pope I said: "But we have no friendship with Tianlong."

"I'm going, I'm looking for Tianlong." Glacier ignored the others, and immediately called Tianlong.

No Moon City.

Tianlong was discussing the next plan with Park Renyi, and when she saw the phone call from Glacier, a sneer appeared on her face.

"You **** die for Lao Tzu." Glacier hung up the phone politely.

"Who?" Park In-yee asked.

Tianlong scolded: "It was the glacier of the Jiuxing Alliance. He asked him before this bastard. He didn't help. Now Lu Yang knows how strong Lu Yang is. He is scared. If he wants to find me, it must be a matter of the alliance. I just ignored him. Then let him die. "

Pu Renyi cursed with anger: "I have been eliminated from this group of idiots in the Nine Stars Alliance, and the next one is them."

Tianlong said, "Well, I'm afraid I will start full mobilization."

Park Ren-yi said, "You're fine here, as long as you guard Wuyue City, the Brotherhood of the Iron Blood can't get in."

Wuyue City is similar to Dingzhou City. It is sandwiched between two cliff-like mountains. Without breaking Wuyue City, the remaining 12 main cities inside will not be attacked.

The Brotherhood of the Iron Blood is in the main capital of Huai'an.

More than 30 vice-chairmen such as Lu Yang and Zhuojiu are also discussing the matter of Tianlong.

"Wuyuecheng's attack is too difficult, not many people will be able to hit it, and other methods are needed." White Lion said.

"That's why I left the Nine Star Alliance," Lu Yang said.

"Why?" Xia Yuwei and others asked curiously.

Lu Yang said: "Dingzhou City was beaten because of Pu Renyi's silly fight with us. Where was his opponent? We were attacked by Dingzhou City and he failed."

"Tianlong is not the same. He is not stupid. He knows his disadvantages. He can never fight us in a flat battle. The only thing he can beat us is letting go of Wuyue City. Both sides of the city are cliffs and the

length of the wall. Although there are more than 1,000 meters, as long as he defends with all our strength, we will be okay with him. “

“So, my idea is not to play Wuyue City, but to use a fast blitz game, and while the Nine Star Alliance is not paying attention, it suddenly breaks through the Holy Spirit City connected to the Dragon City of the Dragon in the middle and south side of the Nine Star Alliance, and then the big The troops attacked all of Dragon’s main cities from the Holy Spirit. “

On the big map, outside the Holy Spirit City, there is a vast plain. As long as the Holy Spirit City is occupied, playing Tianlong is as easy as playing Pu Renyi now.

“Good idea,” said Zhujiu.

“But how to confuse the Nine-Star Alliance now?” Zhou Tianming asked.

Lu Yang said with a smile: “I have sent the three of Pope I, God of War I, and the sad fan Qiufeng back to render our strength, forcing the Nine Star Alliance to form an alliance with Tianlong, and at the same time forcing the Nine Star Alliance to continue recruiting players. It has reached about 3 million people in China, but at this time we have reduced the number of players, stopped attacking externally, and displayed an attitude of upgrading. “

“Can you do that?” The old man asked.

Lu Yang said: “Try it, as long as you confuse Tianlong and Jiuxing Alliance and make them think we are training elite soldiers and preparing to attack the Moonless City, even if we win.”

“That’s right, if there are more than 3 million people in the Jiuxing Alliance, we still dare not hit him. If Tianlong gathers all players, the number will be more than 10 million.” Tu Feng said.

Lu Yang said: “Try to avoid such a decisive battle, so even if it is won, it will not be a good thing to rule the main city of Tianlong in the future.”

Everyone nodded.

Lu Yang said: "Let's go to work separately. The elderly will be responsible for the negotiations."

Zhou Tianming and Tian Yao nodded, and when they were gone, Zhuoju came to Lu Yang, took out a bead, and said, "Boss, I got this thing, I don't know what to do."

Dzi

Description: Allows players to enter the battlefield

Lu Yang's eyes brightened, and he patted Zhuoju's shoulder firmly, saying, "Brother, you took a good thing and came back. Where did you find it?"

Zhuo Jiu said, "Yizhou City, inside a private warehouse of Park In-Yi."

Lu Yang said, "This is a treasure. It can quickly raise the level of our guild."

Tongtian beads can transport players to the ancient battlefield of the Divine Battlefield. The things that drop there are very good, but there is one thing better, called the magical charm. Using this magical charm can quickly improve the guild upgrade progress.

"It's up to you to take charge here. It's not particularly important that you don't want to find me. I'll go to the land of war." Lu Yang said to Zhuoju.

He chose to open the Tongtian Bead, a flash of light flashed, and he appeared in an ancient battlefield full of the spirit of the undead.

The system prompts: You have discovered the land of war

The ground was full of scorched black, as if it had been burned by flames, and there were many places that were highly toxic.

“Hello ~!”

A deep roar came from a distance, and a dozen ghosts appeared in the distance.

Ghost (elite)

Level: 160

Qi and blood: 8000000/8000000

The shape of the ghost is black, slender, a soul wrapped in a dark mist, with red eyes.

According to official historical records, these ghosts are ordinary soldiers who died on the ancient battlefield. Here the magic disorder is full of resentment, which leads to the emergence of ghosts.

Their magic resistance is quite high. 160-level mages of the same level can't touch them at all. Only magic mages above 180 can break them. Even so, the damage is not high.

Normally, Lu Yang didn't dare to come here to upgrade, but he had the heart of a demon god, up to 70% disregarding magic resistance, and more than a million magic wounds, allowing him to easily drop the ghost here. “Flame Storm”

Lu Yang uttered a spell in his mouth, and a flame burst out at the feet of these more than ten ghosts, drowned them, and stunned them for 3 seconds.

“Blazing Bird”

A clear hissing sounded, and a firebird flew out, passing through more than a dozen ghosts and causing hundreds of thousands of injuries.

“Destroy the Sky”

“Lava Eruption”

...

Lu Yang put out five or six skills in a row to easily kill more than ten ghosts.

After a while, each ghost fell to a purple rune on the ground.

Divine grace

Description: You helped the undead souls in the battlefield of God to complete the transcendence. The gods thank you for your efforts and reward you with a divine grace.

After Lu Yang picked up the **** charm, confirming that the strange here is the same as the previous life, he no longer wastes time.

“The Ninth Hell”

With him as the center, a severe high temperature appeared within 5000 meters around, and a large number of undead souls were hit by the high temperature, and they snarled and rushed towards the landing sun.

“Summon Flying Carpet”

Lu Yang flew into the sky, and when the undead ran to his feet, he was almost killed.

When Lu Yang freaked here, on the other side, in the Nine Star Alliance, God of War I was making a terrific statement to Glacier and others.

“We must expand our army. Each person must have at least 300,000 people. Together, there must be nearly 3 million people to fight Lu Yang.” God of War I said.

“It can recruit 300,000 people, and we have to pay the salaries of 20 regiments, 200 regiments and 2,000 captains. This is not a small amount, far more than the money we can get from these three main cities. Now, “said the Black Cross.

“It’s not good if you don’t do this. Who would have thought that Lu Yang is so powerful that he can gather 9 million people to attack a main city. If he comes to attack us, then we are now 900,000 people, and the other side destroys us like playing. Said the Dragon Slayer.

“I agree to expand,” said the Matador.

“Lu Yang is nothing special, that is, there are more people and they have fought more battles than us. If we have enough players and fight a few more battles, they will be the same as Lu Yang.” Glacier said.

“Well, let’s expand our respective forces to deal with the Dragon Alliance and the Iron Brotherhood.” The Black Cross said.

The camel dagger and the bullfighter have no opinions. As a city owner, they want to keep their main city, and they want to take their men to fight around, especially after seeing Lu Yang, they have stimulated their inner urge.

Just as they were preparing to return to the main city, suddenly, the glacier’s phone rang. When he saw that it was from Tianlong, he quickly pressed the connection button and signaled everyone not to rush.

“President Tianlong, I knew you would call me.” Glacier said proudly.

Tianlong frowned on the other side of the phone and said, “Glacier, what message you just sent me is true?”

Just now, Glacier saw that Tianlong never answered his call, so he sent Tianlong a message to expand his army to form an alliance with Tianlong.

Tian Long originally thought that Lu Yanghui's wave of attacks had defeated the Nine Star Alliance and annexed it, but he did not expect that Lu Yang would end the war.

Tianlong searched for the reasons, only to know that the players under Lu Yang had been exhausted and needed rest, so they didn't want to play anymore.

As a result, the Nine Star Alliance survived fortunately, and Glacier told him at this time to expand the army, which made Tianlong feel that this was an object that could be united.

For Tianlong, if he had a hard time with Lu Yang, although he may not be able to beat Lu Yang now, he can definitely drag Lu Yang to death.

In terms of the number of guilds, his total number of guilds is more than 15 million, of which more than 10 million are players of level 100 or higher.

Tianlong has the ability to recruit all of them, but the price paid is too great. For Tianlong, playing games on the one hand is to expand their territory, on the other hand is to make money, and mainly to make money.

If 10 million people were recruited to participate in the war, the money consumed every day would be astronomical figures. He insisted for at most 10 days, after which the guild would go bankrupt.

According to the speculation of Tianlong, Lu Yang also said that he can fight for about 15 days, which is not much stronger than him, and that Lu Yang also has to face the threat of Dengtian and Liu Jie from outside the tiger mouth and the Tianjian fortress. Only about 10 days.

However, this style of play is a game of both losses. Tianlong does not want this situation to occur. Therefore, he chose to retain the main combat power of 3 million people.

One million defended around Wuyue City, 500,000 defended around Mahatma City, and the remaining 1.5 million were upgraded normally.

If he and the Jiuxing Alliance form an alliance, and as long as the Jiuxing Alliance can contain 1 million people in Luyang, he can put more people in a normal upgrade state, without having to prepare for recruitment at any time, and save him a lot. Money and guild points.

Glacier was very clear about Tianlong's thoughts and said, "Yeah, what I said is true, I also saw the strength of the Brotherhood of Iron and Blood, and knew my own shortcomings. Our Nine Star Alliance wants to form an alliance with you. Hit me, you support through the city of the majesty, if Lu Yang hits you, I will go out to help you from Suiyuan City and Jiangping City. "

Tianlong asked, "Really?"

Glacier laughed and said, "We are very much looking forward to fighting now, just to hone our command and player's combat capabilities."

Tianlong said: "Well then, let's find a place to sign the contract and announce it together. Do you dare?"

"Of course I dare." Glacier wanted it.

"Okay, that time will be three days later," Tianlong said.

Glacier had no objection and hung up the phone.

Jagged Brotherhood.

Zhuojiu and White Lion began to carefully manage Xuanzang 5 City, which is currently the worst defensive state for the Jagged Brothers Alliance.

Renzhi City, Huai'an City, and Yizhou City are all within the attack range of the enemy, and Xuanzhang City, Guang'an City, and Yizhou City can be attacked by the enemy if they find any night.

In order to prevent this situation, the vice presidents such as Zhuojiu and White Lion arranged the main players of the Jagged Brothers Alliance to upgrade outside these main cities.

Especially outside the hostile Wuyue City, there are the main forces of the 300,000 Brotherhood of Brothers, divided into two waves, which are upgraded day and night, putting pressure on Wuyue City all the time.

As for the Yizhou City, Tianyao was responsible for the defense, and Liang Yun and Xia Yuwei's tasks became defense of the tiger mouth and Tianjian City.

In this way, three days passed calmly.

Three days later, Wuyue City.

Denon announced in the server that it was established today to form an alliance with Jiuxing Alliance.

In the hustle and bustle of the city's main mansion, representatives of dozens of forces such as Liu Jie, Yideng Dengtian and the nine star alliance presidents attended the alliance ceremony.

Lu Yang knew this ritual very quickly. He played the magical charm of God for three days in the battlefield of God, and hit a total of hundreds of thousands, killing the ghosts of the entire battlefield of God.

"Fortunately, these divine charms can be superimposed, otherwise this bag is really not enough." Lu Yang said with emotion.

"Boss, the alliance ceremony of Wuyue City is about to begin, don't you see?" Sun Yu asked.

Lu Yang said with a smile: "Ignore them, they are all garbage, there is no need to care."

He flew back to Chiyang City using the teleportation scroll.

Chiyang City is the first main city of the Jagged Brothers Alliance in the New World, and is currently the largest one of the Jagged Brothers Alliance.

The city level is level 0, but there is less than 100,000 experience points from level 1. Lu Yang came to the city's main house and found the city director's house. This is an NPC, and the name is called city director's house.

"Master City Lord, what are you doing to me?" The city director asked.

Lu Yang said: "I have a **** blessing here, and I want to improve the city experience."

"Divine grace? Of course, please give it to me," said the director of the city.

Lu Yang handed out 560,000 **** charms to the city director's house and said, "All here."

"So much?" The city director was surprised.

"I'll upgrade the guild." Said the city director.

The system prompts: The city leader uses 100 magic charms, and the experience value of Chiyang City increases by 10,000 points.

The players in the Jagged Brothers League watched the main city level experience quickly rise from level 0 to level 1.

Simulation group.

"Oh my god, how can you upgrade so fast?" White Wolf asked curiously.

"Who did it."

"No one except the boss." White Lion said.

Everyone nodded.

Lu Yang watched their chat and said, "I did it All come to Chiyang City and see the city view."

Everyone was surprised, flew to Chiyang City, but was stunned by the sight in front of them.

Where is the original dilapidated main city? The shape of the entire city has doubled, the streets have more than doubled in width, and the buildings are much more beautiful.

Xia Yuwei and others went into the city's main house and saw Lu Yang, saying, "It's incredible."

Lu Yang said: "There is even more incredible, look at the guild skills I set up."

Each guild can learn skills, such as special skills such as refining medicine and forging. They opened it and found that it was called a magic scroll.

"Magic scroll, is it meant to make a spell scroll?" The White Lion asked.

Lu Yang said, "Yes, this allows players to make magic scrolls. At this level, they can make 3 scrolls."

"Level 3 magic skills seem nothing special." Sun Yu asked.

Chapter 1092 - Niu Mo Shan

Lu Yang said with a smile: "Silly boy, do you know special skills? Many special skills also belong to level 3."

"What?" Everyone was stunned.

"Special skill is a level 3 skill?" Zhuoshu marveled.

Lu Luyang said, "Yes, one-third of special skills are counted as level 3 skills."

For example, the special skills of Lie Yangquan are level 3, and there are several more classic special skills, which are counted as level 3 skills.

"Boss, do you have any ideas?" Xia Yuwei asked.

Lu Yang said: "I am going to rely on the mad wolf army to launch a blitz and raid the Holy Spirit City of the Nine Star Alliance. As long as the Holy Spirit City is laid, Tianlong will definitely have no time to call for more than 10 million people to participate in the war."

The Howling Wolf Corps itself is a powerful legion, but this legion has a shortcoming, that is, there is only an attacking profession, there is no healing and defense profession.

The battle is bound to be dead. If an onslaught can defeat the enemy, they can have a way to revive their teammates. If they encounter a battle that needs to escape, they can only leave their companions.

The reason why Lu Yang wanted to study magic scrolls was to create a batch of scrolls to enhance the strength of the crazy wolf legion.

For example, special skills such as combat resurrection, fierce fist, great healing, big thorns, meteorite impact and so on.

好处 The advantage of the magic scroll is that the magic power of the release scroll is not based on the magic ability of the releaser itself, but the magic power of the player who made the scroll.

If Lu Yang seals the skills of Lie Yangquan on the scroll, once released, it will be a Lie Yang fist that hurts more than one million and hits the opponent, which will undoubtedly die.

But making such scrolls is not so easy. It requires animal skins and blood to write magic runes. There are few places that can explode this kind of thing, but Lu Yang just knows these places.

"Your 30 vice presidents of war, each with 100,000 people, follow me to upgrade." Lu Yang said.

"Yes." 30 people summoned the player immediately.

An amazing scene appeared. Tianlong and Jiuxing Alliance were holding an alliance ceremony. On the other side, Lu Yang gathered 3 million people. Upon learning of this news, the scared Tianlong and Jiuxing Alliance presidents did not care about the alliance ceremony. Already.

“How did Lu Yang convene 3 million people.”

“Who is he hitting?”

“Hurry up and find out.”

Uh ...

A group of people thought that Lu Yang was going to attack them, but after a careful exploration, it was found that Lu Yang was leading the team to upgrade, and the upgrade was not too far away, just above Xuanyuan City, a place close to the northern mountains .

“It’s okay, it’s not for us,” Glacier said.

Jian Pu Renyi watched the actions of the presidents of the Jiuxing Alliance, sighed secretly, and said to Tianlong, “This waste is useless.”

Tong Tianlong nodded and said helplessly: “No way.”

With the annihilation of Park Renyi, only the Nine Star Alliance can pose a threat to Lu Yang in the Northeast, although this threat seems very small, very small ...

“President Tianlong, let’s continue the alliance, the ceremony has not yet been completed,” said the Dragon Slayer.

Wu Tianlong looked at Liu Jie and others who were watching the same drama around him, and could only helplessly say, “Okay, let’s continue the ceremony.”

Uh ...

Northern mountains.

This is the starting point of the mountains that meet the mountains in the northeast and the north. In this mountain, there are a lot of magic beasts, such as ice rhinos, fiery turtles, and cold wind rabbits.

Lu Yang did not wait for all 3 million people to gather and then start together. Instead, after specifying the location, he first brought the Forbidden Mage, Tsunami Mage, and Archdruid Army.

When I arrived at the foot of the mountain, a group of purple flame marten stopped the way.

Purple Flame Marten

Level: 130

Blood: 2000000/2000000

The size of the purple flame marten is very small, less than 30 cm in length, but this little thing is very difficult to kill for the physics department, because his size is too small, the reaction speed is fast, it is difficult for players to attack him, A good solution is a spell attack.

Lu Yang looked at the surrounding terrain. The most popular thing about the mountain terrain is that there are high mountains all around. As long as you use a soil mage, you can form a natural reservoir.

说道 He said to the forbidden mage, "Push forward to the inside of the mountain, and build a reservoir for the tsunami mage."

He and his team killed Ziyan marching and marched forward, and came to an area surrounded by mountains, but not connected.

Lu Yang pointed at the passageway around the mountains and said, "The earth mage protected these places with the earth-quake."

“Yes.” Hei Yan and Luo Siyu took the soil mage around the map a few kilometers away, and used the earth dragon to siege these places.

When they were busy, Lu Yang said to the 500 Druids around him: “Change the weather and rain.”

“Yes.” De Bu tasted the corpse sitting on the ground with 500 people, using skills to change the weather, and suddenly a lot of rain fell from the sky.

Lu Luyang said to the deep sea: “Use a pure water bottle and pour water.”

“Yes.” Five people including the deep sea took out pure water bottles and poured seawater into the mountain.

5These five water bottles were obtained after the Jagged Brothers defeated Park Renyi. Lu Yang himself did not expect that Park Renyi had so many good things in his hands.

Luyang took out two levels and poured water with them. After 10 minutes, the bottom of the surrounding mountain body was filled with water for several kilometers, and the water level was still rising with rainfall.

The monster in the water immediately ran towards the high ground, so that a hundreds of thousands of monster gathering area was formed in this area.

Lu Luyang said, “Tsunami Masters, kill.”

Shenhai looked back at the members of the Tsunami Masters and shouted, “Tsunami, get ready.”

“Tsunami”

“Tsunami”

Uh ...

500 people used the tsunami skills at the same time. Suddenly, a huge wave was set off on the water, which drowned hundreds of thousands of purple flame marten.

System prompt: You killed Purple Flame Marten

You get 1072 experience points (1000 team experience points)

Uh ...

A large team with more than 10,000 people has only such experience under the new rules of the game.

Lu Luyang didn't care. What he cared about was the fur of the hundreds of thousands of Ziyan marten. After seeing the attack, hundreds of thousands of Ziyan marten were all hanging, and he nodded with satisfaction.

"Boss, we are here," said Zhuzhuo.

Lu Yang said to the members of the mage group behind him, "Except for the mage of the soil system, the rest went to the mountain to find muddy wine to meet, and a deputy chairman followed by 300 mage."

"Yes." Hei Yan and Luo Siyu took people away.

Lu Yang told the life profession following him, "Collect purple flame mink and blood."

"Yes." Li Rui took people.

At this stage, the brothers around Lu Yang have a clear division of labor. Tu Feng is the chief logistics officer, but for a lot of time he is responsible for intelligence and external communications.

Qi Qingqian Zimeng is in charge of external intelligence work, which is a female spy.

Li Molong is responsible for recruiting new players, and Li Rui is newly promoted to share the management of life occupation for Tu Feng.

Xi Muye is responsible for the work of the blacksmith shop, and Han Zhong, who originally managed the blacksmith shop, has officially become the person in charge of offline player life management.

The interior of the Jagged Brotherhood began to go on track.

Lu Luyang said to the deep sea: "You are here to fight sable fur, and you are not allowed to leave without my order."

"Yes," said Deep Sea.

The number of sable fur must be in the millions or even tens of millions. Otherwise, it is not enough to practice hands alone, let alone provide scrolls for the 100,000 crazy wolf guards.

Yan Liu Yunpeng called and said, "Boss, my man is here."

Lu Luyang said, "I'll send you a coordinate. After half an hour, we'll meet there."

"Yes," Liu Yunpeng said.

Luyang made a mark in one of the mountains in the north, and then sent the marked map to Liu Yunpeng.

"Summon Flying Carpet"

A flying carpet appeared at the foot of Luyang, soared into the air, and took him to the position marked by the mountain.

陆 When the position of Lu Yang's marker flew past, the alliance of Jiuxing Alliance and Tianlong was also officially completed. Glacier and Tianlong exchanged the contract signed, and a flash of light under the stage lit.

“Great, this time the signing is completed, Lu Yang will never dare to act rashly, otherwise we will unite and destroy him.” Said the Dragon Slayer.

Everyone laughed.

报告 “Report, received the exact news, Lu Yang's 3 million people have all entered the northern mountains and are playing monsters.” One of Tianlong's men came to report the news.

“Haha, I was really scared to death just now, and thought that Lu Yang was going to hit us.” Camel's long sword said a frustrating remark.

The Dragon Slayer warrior gave him a cold look, his eyes filled with contempt, and said, “Isn't it just war? Afraid of what he did, we have now recruited 1.8 million people, only 10 days away from 3 million. Fighting first will also help you move. “

The camel was furious, and was trying to speak but was taken by everyone.

Xi Tianlong said with a smile: “Chairman Tu Long is really brave. You think so right, the tactical command is out of battle.”

Wu Glacier said, “Could you please let Sharuk guide us.”

Wu Tianlong's face remained unchanged, but he was scolding the glacier savvy in his heart. Originally, Tianlong did not want to help the Jiuxing Alliance sincerely, especially he did not want to send his hands to help, which would expose his fighting methods.

But now the two sides are allies, or the first day of alliance, it's not easy for Denon to refute directly, saying, "Well, let's have a meeting someday and let Sharuk and you discuss it."

"Thank you, I'm looking for Shaluk to ask for advice." Said the Dragon Warrior, that day's Ningzhou City offensive and defensive battle, Shaluk's raid made every president of the Jiuxing Alliance deeply remembered.

After seeing the smooth alliance between the two parties, Pu Park Renyi said to Tianlong: "I'm relieved to see that there's nothing wrong with you, and I'll take someone away after a while."

"This is going to go?" Tianlong asked in surprise.

Pu Puyi nodded and said, "Liu Jie arranged the main city for me there. Although there are fewer, there is always a place to go, and we will fight together again in the future."

Wu Tianlong said: "If you need anything, tell me, I will do my best to provide it."

Park Renyi hummed and turned away.

"Well, it's all made by Lu Yang, this big devil." The Black Cross cursed.

Fortunately, Lu Yang was not on the scene. If he was on the scene, he would laugh and laugh, and he would be funny. Starting from the Iron Brotherhood, he was fighting all kinds of big devil. Why now he has become a big devil in other populations. .

Yak Devil Mountain.

Luyang just flew to the foot of the mountain, which is a high mountain hidden among many mountains in the northern mountains.

In the last life, Lu Yang hoped that he could come here to upgrade, but this is the main battlefield of the last Northeast super guilds.

Because this is a certificate of war minotaurs that is very scarce in the old continent. As long as you kill the minotaurs on the Taurus Mountain, there is a 10% chance that they will burst out. Skill Book.

After the war tauren was proved by Lu Yang's smashing hammer, the war tauren became the object that major guilds were pursuing. However, the output rate of war tauren was too low. In the old continent, each country only had 1500 people, not one more.

When the major guilds of the previous life came to this place, no one noticed that the transfer certificate would burst out here. As a result, they were accidentally found by several guilds at the same time, and then passed into the ears of the super guild. In a legendary place, ordinary players can't even reach a big mountain near the front of Niu Mo Shan.

Every day, those grand guilds dry racks here are in units of 10,000 people, because every tauren who will smash the hammer is equivalent to owning a battlefield meat grinder. Ordinary guilds have 10 war tauren. , You can decide the outcome of a thousand-man battle in minutes.

“哞~~”

A scream of a cow came from a distance, and Lu Yang looked up, and saw a tauren with a totem pole in his hand standing in the distance. This tauren was more than 3 meters tall, his body was dark, and the corners of his head were blood-red.

Yak Warrior (elite)

Level: 160

Qi and blood: 20000000/20000000

This is what Lu Lu was looking for. He sat in place and waited. Not all. Footsteps came from his side. Liu Yunpeng arrived with the 500 war tauren.

“Boss, here we are.” Liu Yunpeng saw Lu Yang and ran over and said excitedly.

Lu Luyang said, “You 500 people are standing here waiting for me. I go in and come out soon.”

“Ninth Hell”

Luyang said in his mouth that the magic value of his body was instantly reduced by more than half, and all of them fell into a sea of fire within 5,000 meters.

The ox warrior in the distance was attacked, and immediately the ox head looked at Lu Yang and ran over with heavy steps.

“Summon Flying Carpet”

Lu Yang flew into the sky and flew in to the Demon Mountain. With the skill of Ninth Hell, Lu Yang can push a monster of level 200 demigod in this way.

The yak demon is very big, but the mountain is very gentle. Lu Yang flew all the way up. When he came to the top of the mountain, he found that the top of the ox demon mountain is flat, the space above it is larger, and the number of ox demon warriors is more.

“哞~!”

“哞~!”

Uh ...

Countless ox warriors were attacked by the flames, all chased Lu Yang, but Lu Yang flew in the sky, they could not fight at all.

System prompt: Your magic value is less than 10%

Lu Yang kept an eye on his blue trough, and when he saw that he was about to die, he took out a spiritual gourd Xiandan and ate it. Most of the magicians recovered, and then he continued to move forward.

At this stage, medicaments such as Linghuluxiandan do not use the cooling time, but the concept of drug resistance will be withdrawn after a while. After taking a certain medicament, the effect will be halved within half an hour, and then continued to halve. , Eat it four times in a row, and then eat it will have no effect.

When this situation happened in the last life, or at level 150, someone got a top-level forbidden spell such as Ninth Hell, and then they used unrelenting killing monsters such as Linghuluxiandan to cause monsters to complain about the game.

At the time, in order to ease the anger of the players, the official specially introduced drug resistance, which only made the anger of the players slightly relieved.

Later, he also launched a series of magic-free professions, which caused super magic to become less sought after by players. However, the magic-free professions appeared in the 150-level expansion pack, and it is not yet available.

Recalling the situation of the last life, Lu Yang easily ate the spiritual gourd Xiandan. He was very fortunate that he had not used the ninth **** siege in the previous war against Park Renyi, otherwise he could kill one by himself. The main city, but in this way the system must limit his strength in advance, resulting in that he can not fight so easily now.

After 10 minutes.

The ox warrior along the path of the yak demon mountain was killed by Lu Yang, and a passage was cleared from the top of the mountain.

He sent a message to Liu Yunpeng and said, "Bring your brother up and pick up the equipment along the way."

"Oh." Liu Yunpeng replied and ran with people to the mountain. Rarely saw killed ox warriors along the way, but when approaching the top of the mountain, a large number of ox warrior corpses and a lot of equipment appeared. .

"Get up and pick up things," Liu Yunpeng said.

The 500 people behind him ran past, but as soon as they arrived in front of them, one of them shouted in shock: "Brother, come and look, there is a war tauren turn certificate."

"What?" Liu Yunpeng was stunned, and quickly walked over and found that it was really a transfer certificate for the tauren of war. He immediately sent a message to Lu Yang, but before he finished sending it, someone shouted beside him.

"Brother, here's a random hammer skill book."

Liu Yunpeng couldn't shut up in surprise, and quickly called Lu Yang, saying, "Boss, we're rich, and here's the transfer certificate of the war tauren and the skill book of the wild hammer 陆Yang smiled and said, "I shouted what I called, I already knew it. I brought you here specially, pick up things quickly, and then I will take you to fight the blood of the Tauren. "

"What? Tauren bloodline power?" Liu Yunpeng was excited.

"What is the power of the tauren?" One of the men around him was not very clear.

Yuliu Yunpeng slaps on the man's head with a slap, saying, "Fool, this is the three-blooded blood power of our tauren. We want to be even better."

“Boss mighty.”

“Quickly pick things up, go to the boss, I want three turns.”

“The second turn is so strong that it is so ridiculous, what is the third turn like?”

Uh ...

He and his team quickly picked up things and ran towards the landing sun.

When they came to the top of the mountain, Lu Yang had killed all the Tauren fighters within 5,000 meters around the top of the mountain, and dropped a piece of equipment and skill books.

“So much!” Liu Yunpeng said.

Lu Luyang asked, “How many transfer certificates and smashing hammer skills have you just picked?”

Gao Liu Yunpeng patted his head and said,

Chapter 1093 - Patriarch tauren

“Not bad, keep picking up. I’ll get a batch of potions back, and then I will take you back.” He built a sentry tower in place, took out the token, and flew to Tianyuan City.

He ran into the town’s magic tower, grabbed a bunch of evil spirits with a refining demon bottle, and just refined dozens of spiritual gourd elixir. Liu Yunpeng called.

“Boss, we’re done with it, and there are more than 1,000 war tauren transfer certificates and erratic hammer skills books.”

Lu Yang said, "I'll go back."

Using a teleportation scepter, he flew back to the top of the Ox Demon Mountain and said to Liu Yunpeng and others, "I'll go and fight at the front, and you're going to pick it up."

The Ox Demon Mountain is very large. The top of the mountain is connected to another mountain. Lu Yang flies forward while playing monsters. It took him one day to bring Liu Yunpeng to the final position of the Ox Demon Mountain, the Ox Demon Temple. .

System prompt: You found the Bull Demon Temple

The Taurus Temple is the only place where the tauren of war have three turns. In this temple, the three-turned ancestor tauren is responsible for guarding the shrine.

Patriarch tauren (boss)

Level: 160

Qi and blood: 100000000/100000000

The ancestral tauren with 100 million health are very different from other professions. They know how to use the power of their ancestors. Almost an ancestor tauren can kill a semi-war tauren at the same level.

But these tauren still have no air skills, facing Lu Yang sitting on the flying carpet and using the ninth **** output, they can only run around in the temple, but they cannot run out of Lu Yang's attack range.

In less than 20 minutes, thousands of ancestor tauren died, and each ancestor tauren burst out a gem of ancestor power.

Ancestral Power Gem

Description: He contains the power of the patriarchs of the Tauren.

Lu Yang landed on the ground, and after Liu Yunpeng came in, he handed over a jewel to Liu Yunpeng and said, "Stand on the circle at the center of the temple, the place where there is moonlight, use the ancestral gem."

Liu Yunpeng stood on the front of the array with the gemstones, and the moonlight dripped from his head. Liu Yunpeng chose to use the gems of the ancestor's power. Immediately, a piece of silver light wrapped Liu Yunpeng, making Liu Yunpeng, three meters high, shining and holy.

At the same time, a soul tauren appeared on top of Liu Yunpeng's head. Then, this soul was integrated into Liu Yunpeng's body.

System Tip: You Learned the Power of Ancestors

You learned soul trample

You learned Soul Strike

"Ancestral Power"

Type: War Taurin

Cost: 5000 magic

Distance: 100 meters

Description: The ancestor tauren controlled the ancestors inside the body to fly out of the body. Each enemy that hit them caused the sum of the current damage + 100% strength damage. At the same time, each time the ancestor hit a target, they would draw 500 points of attack from this target. Back in the Tauren, you can increase the full attack power of the Tauren for 30 seconds.

Generally speaking, a good tauren who relies on the power of an ancestor can add more than 50,000 attack power, combined with the smashing hammer skills, it is simply bursting output damage.

Soul Stomp

Type: War Taurin

Cost: 5000 magic

Description: The ancestors flew out of the body. The tauren can control the ancestors to launch trample skills. After 1.5 seconds, they will cause twice the power points of damage to units within 50 meters around, and stun the target for 3 seconds.

Soul Strike

Type: War Taurin

Cost: 10,000 magic

Description: The ancestors were outside the body. During the march, the Tauren could instantly teleport to the location of the ancestor, causing 10,000 damage within 50 meters of the target, and additional damage from the current attacking force of the Tauren.

This is a combination attack routine. The ancestor tauren can throw the ancestors first, and then use the smashing hammer skills in place.

When the Smashing Hammer was about to start, he chose to use Soul Strike. When he appeared at the target location, he immediately launched the Smashing Hammer ability. The violence is equivalent to saving the war tauren from escaping. Money with dagger.

After all, the escape dagger is still a rare item, not every player can equip it, and even Lu Yang has no ability to buy an escape dagger for a tauren.

Liu Yunpeng walked back to Lu Yang and said excitedly: "Boss, my three-turn strength is too strong, too excited."

Lu Yang smiled and said, "The next few days, you and I will upgrade here. When we have enough 100,000 transfer certificates and at least 30,000 bloods, we will leave, and wait for that time. Liu Yunpeng, you have to figure out who to recruit in the guild to join your Tauren Legion. "

"Boss, do you want to form a war tauren army?" Liu Yunpeng asked excitedly.

Lu Yang nodded and said, "Yes, you can choose your choice these days, and then report it to Tu Feng for him to review. After there is no problem, it will become your choice of tauren."

"Thank you, boss." Liu Yunpeng said.

Lu Yang said, "In the future, you will be my heavy cavalry on the battlefield. Prepare to fight with me when I open up wasteland."

With this legion, you can imagine how powerful the Brotherhood of Iron Blood will be in the war on the ground.

While Lu Yang brought Liu Yunpeng's tauren transfer certificate, on the other side, the nine guild leaders of the Nine Star Alliance had returned from Wuyue City to their respective main cities, and continued to recruit players to prepare for future wars.

For the next 10 days, Lu Yang was playing the tauren transfer certificate. Except for the first day, Lu Yang hit a particularly large number. After that, the tauren's explosion rate of non-land reclamation deaths dropped sharply. At that time, only 100,000 copies were printed, and 30,000 bloodline certificates were just printed.

Liu Yunpeng also recruited and completed his Tauren Corps at this time. This army was provided by 30 other vice presidents of the Iron Brotherhood.

After being reviewed by Tu Feng, no problems were found, and Lu Yang asked all of them to learn the Second War Tauren Certificate. Since then, the Brotherhood of the Iron Blood has added 100,000 war tauren.

Lu Yang asked Liu Yunpeng to train at Niu Mo Shan, and then he built a small fortress and set up a teleportation array here, but it is not open to ordinary players of the Iron Brotherhood, but only after passing through Feng Feng and more than 30 Only those with the consent of the vice chairman can enter.

After doing all this, he flew back to Chiyang City. There were more than 9 million sable furs and over 20 million bottles of ice rhinos, flamingos, wind snakes, rock turtles, thunder eagles and other warcraft. Blood.

Chiyang City, the main city hall, the conference hall.

The 33 vice-chairmen and Lu Yang are sitting together to study.

“It’s up to anyone to learn magic scroll manufacturing now.” Lu Yang asked.

It is not so easy to learn the magic scroll. Once the error scroll is scrapped, it needs a high level of learning talent.

The group thought for a long time and didn’t figure out who to use. The masters of the existing blacksmith shop and pharmacy of the Iron Brotherhood could not draw them.

Lu Yang thought about it and said, “I think about it, I have some candidates, but I don’t know if the other party is willing to come.”

After exiting the game, Lu Yang changed his clothes and flew to a small town in the UK that night. Here, there was a special group of people.

They believed in the existence of magic in this world. They believed in vampires and werewolves.

They live in an old castle, which has a famous name, called Haunted Castle.

The owner of the castle is called Grant. The ancestor of his family was originally a Marquis of England. Later, the family declined, and when he got worse, there was only one castle, which appeared in the Second World.

“Second World” mainly draws on European magic legends in the production of magic scrolls. If anyone is the easiest to get started with making magic scrolls, it is the Grant in this castle, like him who believes that magic really exists. Like-minded.

Coincidentally, Grant also entered the game. In the previous life, Grant was the top master of magic scroll making, but now only the Iron Brothers Alliance can make magic scrolls in the entire New World, and Grant has not yet demonstrated his strength.

Lu Yang guessed that if he was lucky, he still had a great chance to recruit Grant. In that case, he wouldn't need to spend much energy on training masters of magic scroll making.

The next afternoon.

Lu Yang and the black and white led a local guide to the haunted castle of Grant and saw this man who talked about Shinto.

Lu Yang originally thought that this was a difficult person to persuade, but when Lu Yang saw Grant, he found that the haunted duke, who had made everyone feel crazy in the last life, was now surrounded by a group of police.

“Mr. Police, please give me a little more grace, I will be able to collect enough money to pay my debts, please don't take away my castle, I only have such a castle.” Grant begged. Looked at the police who came to enforce it.

“Sir, you owe 500,000 pounds and you have no formal work. The court also ordered you to use the castle to pay the debt, and we can’t make it easy,” the police said.

Grant looked at the police in horror. At this time, his body was full of eyes, his eyes were full of helplessness, his hair was messy like a henhouse, his eyes were a big dark circle, his body was thin, and he was about to collapse.

Lu Yang did not expect that the exaggerated Grant in the legend of the last life was really an exaggeration.

“Sure enough, the rumors are not credible.” Lu Yang murmured to himself.

“Boss, are you sure that the person we are looking for is him?” Black and White was a little speechless. Lu Yang told him many times on the way to pay attention to Grant’s behavior. Don’t anger him, but now seeing Grant, Black and White feel this person. Do you still need to be irritated?

Lu Yang also felt a little embarrassed, saying, “Who knows that this product is so dismal now, come on, let’s help him first, and talk about the follow-up things.”

Black and white shrugged his shoulders, led a person to open the way, and sent Lu Yang to Grant’s presence.

The policeman looked at Lu Yang and his party, and frowned. “Who are you?”

Lu Yang asked with a smile: “I’ll help him repay.”

“You help him pay back?” The policeman asked in disbelief. “Do you know how much he owes?”

“I just heard it was 500,000 pounds. I’ll help him pay it back.” Lu Yang said.

The policeman shook his head and said, “This castle can sell 2 million pounds. Even if this is not enough to pay all his debts, the 500,000 is just one of them.”

Lu Yang: "..."

Black and white: "..."

Grant looked at Lu Yang blankly, and then seemed to be grabbing the last straw for help, and said to Lu Yang begging, "This kind gentleman, I am willing to mortgage this castle to you, and wait for me to earn Money, can you return him to me again? I am willing to mortgage it to you, as long as you give me 2 million. "

Lu Yang looked at Grant and asked, "Give me a reason for me to give you 2 million pounds."

Grant thought for a long time, but found that he did not have the ability to repay the money, and collapsed and said, "I don't know, I don't know."

Lu Yang smiled and said, "I'll give you a job. You have to do it for me seriously. If you can do it, I will give you 2 million."

"Yes, I'm willing to accept," Grant said quickly.

Lu Yang asked, "Don't you ask what your job is? Don't you ask if you are competent?"

Grant looked embarrassed and asked, "What kind of job is it?"

Lu Yang did not say, but took out a checkbook of 2 million, and said to a man around him: "First take a contract with him, buy this castle, and then take him to repay, and everything is completed Now, take him to this castle. "

"Yes." His men left.

Black and white still follows Lu Yang. In order to protect Lu Yang's safety, this kind of thing is left to other people to do.

The people watching around seemed to see a fool. The police saw that someone had paid the money for Grant, so he no longer forced Grant to move.

Grant immediately signed a contract with Lu Yang's men. Lu Yang entered the villa and looked at the decoration. He found that the decoration of the villa at this time was different from that of the haunted castle made by the crazy Grant of the previous life.

Now there are only walls and floors left in this old castle, and even the furniture has been sold by Grant. He wants to find a place to sit and he needs someone to find a chair in another room.

Sitting in the room, Lu Yang said to Grant, "Are you interested in magic?"

Grant was sitting there distressed and the house was gone. He heard Lu Yang's words and said, "Yeah, how do you know?"

Lu Yang smiled and said, "I also know that you have a group of friends who like magic as well, right?"

"How do you know?" Grant was even more surprised.

Lu Yang said, "Call them all and let them also live in this castle. Starting today, I will hire you to work for me."

"Okay, I'll call them over here." Grant quickly took out his cell phone and called his friends.

In less than half an hour, more than 20 people came to the castle one after another and saw Grant.

Waiting for all, Grant took them to Lu Yang and said, "These are my friends, Daniel, Davis, Anna ..."

Seeing Grant was so cautious, Anna walked in front of Lu Yang and asked boldly, "Who are you, why should you hire us, and what should we do?"

Lu Yang knew Anna. Later, she was Grant's wife. The two bought the castle together at a high price, but he only knew so much, because this group of Grant was very special.

They are not ordinary gregarious or even very closed. Once you talk to you, you are not interested in magic, and they are not interested in you.

Lu Yang was willing to recruit them, and for this reason, he told Anna: "You have heard of the" Second World "game."

"Have heard of it," Anna said.

Lu Yang said, "This game has a magic scroll making skill. I need you to learn this skill to make scrolls for me."

Anna frowned and asked, "But we don't understand."

Lu Yang smiled and said, "I do n't know how to learn, but I believe that with your understanding of magic, making scrolls should be very simple. I will also teach you to enter the game. It 's meaningless to say nonsense. Fort, make a scroll for me. "

Anna gritted her teeth and turned back to Grant's party. "Only promise him, or else Grant's house will never have a chance to be taken back."

"We owe Grant that we should pay him back," said Fatty Davis.

"I agree."

"I'm OK."

...

More than 20 people have no opinion.

Lu Yang said: "Very good, in the game, I have prepared a helmet and a 100-level account for you."

Grant and others followed Lu Yang into the game, but when they arrived in the game, they instantly discovered a key problem.

"Oh, God, I thought I was wrong. It turned out that all of this is true. It turned out that we were recruited by Lu Yang, the president of the Jagged Brotherhood." Davis said, holding his head.

"It's so cool," Anna said, looking at Lu Yang with bright eyes.

"It looks like my house can be taken back." Grant said happily. Anyone who knows the game knows that Lu Yang of the Jagged Brothers Alliance said that if he promises, he will definitely do it.

Lu Yang said with a smile to Grant and others: "I don't need too much experience. I also like magic. I heard that you are a group of experts in magic, so I ask you what these are."

He picked up the fur of the purple flame marten and the horns of the ice rhino and placed it in front of Grant and others.

"This is the purple flame marten? This is the ice rhino? Oh my **** The game is actually made according to the magic world's animals?" Grant said in surprise.

Lu Yang nodded with satisfaction. Sure enough, they could recognize these special items in the game.

"Very good, now you can study the magic you think is correct. Here are the magic scrolls. Make them according to my production process." Lu Yang took out a purple flame mink, used a special rune pen, and stained it with purple The blood of Mink begins to draw magic runes on the mink.

After he had drawn the magic rune, he read the spell in his mouth.

“The Sun Fist”

A blazing flame suddenly rushed towards the center of the rune above the scroll. When the flame came into contact with the rune, the rune above instantly gave off a brilliant magic light, wrapping the flame into the rune.

When the scrolls return to calm.

System prompt: You have completed a magical scroll

Chapter 1094 - Magic scroll

Lu Yang picked up the scroll and chose to release.

“The Sun Fist”

A fist filled with flames gushed from the scroll and hit the blank space.

Lu Yang said, “This is the magic scroll. Do you understand?”

Anna thought about it and said, “It doesn’t seem that difficult.”

“It’s very similar to the magic scrolls we made before.” Grant thought for a while and said, “We also know the meaning of these runes, this is called a seal, this is called release ...”

Lu Yang applauded and said, "Pretty, it will be easier for you to recognize these runes. Now you will try simple magic seals, mainly based on the skills you possess."

"Let's try it," said Fatty Davis.

More than 20 people each took sable fur from Lu Yang and started trying to make scrolls.

Lu Yang watched, and he had to admit that these people were really geniuses in making scrolls, especially Grant. The first production was successful, and the slowest others only used two productions.

"It's not difficult," Grant said with a shrug.

Lu Yang smiled and said, "I will give you a group of students these days, and you will guide them to make scrolls."

"Teach people?" Grant was a little upset.

Lu Yang said, "The house."

"No problem, I promise to teach everything," Grant said immediately.

Lu Yang smiled and said, "As long as you work hard, starting from the signing of the contract today, everyone will earn more than 3,000 pounds a month."

"£ 3,000!" Anna and Davis were stunned.

"so much!"

"We're rich."

...

The minimum wage in the United Kingdom is about 1800 pounds a month. Their group of people were not eligible to earn the minimum wage. Now they can earn 3,000 pounds without relying on their interest. How can they make them unhappy.

Lu Yang went on to say: "This is only the minimum wage, and you still have the benefit wage. For every 1,000 special skills scrolls produced, I will give you an additional 10 pounds."

"The deal," Grant said.

Anna asked curiously: "Is this scroll really useful?"

Lu Yang said: "At present, this game is only useful to me, and it is very useful, but it is not useful to others, because other guilds have not learned the skill of magic scrolls."

There was a hint of slyness in Anna's eyes.

Lu Yang said with a smile: "Don't try to play tricks, you know, there is a confidentiality agreement in the contract you signed with me. If you disclose it, you will be punished enough to stay in prison for 30 years."

"30 years?" Anna said in shock.

Lu Yang said, "Do you think that the president of the Jagged Brothers Alliance came to you in person, did you send money for free, work well, and we have a good cooperation? If you dare to sell information to other guilds, even if you are not careful Leaked out, I will use all the forces of the Brotherhood of Iron and Blood to deal with you, so don't play tricks. "

He warned again that this is not an ordinary thing, but something that involves the success of many subsequent major wars, and more importantly, it also includes the safety of Grant and Anna.

If it is discovered that they are making scrolls for Lu Yang day and night, then no accident, these people will be robbed by many forces.

Not only those super guilds, many small and medium guilds with ideas will rob them, because the presidents of these guilds have no bottom line, and even some guilds are composed of professional triads.

Why is the “Second World” more and more popular in the later period, not because the players have become less and less because the player’s level reaches the full level.

One of the big reasons is that many underground money houses have discovered the secrets of “Second World” that can be laundered. Those who know it know that a middle-level underground money house can wash out hundreds of billions of funds in one job.

Those who can give money to the underground bankers pay up to 60%, but if they use some of the Second World money laundering, they only need to pay 50%, and this way is very safe.

Lu Yang remembers it right, “Second World” didn’t discover the problem until two years before his death, but the official didn’t have a good way to do it.

Let’s say that the extortion of the other party is to let people recharge gold coins in the game and then set up a stall to buy goods. Can the official stipulate that this sale is unreasonable?

Even if the price is greatly biased, the deception between players in the game is a part of the game itself. Even if the official wants to control it, it can’t distinguish between deception and money laundering.

If the people in the black forces are made to pay attention to these people, it can be imagined that in this country where the security level is much lower than that of Huaxia, these people will either serve them or die.

Lu Yang also told them these words, which finally made Anna and others’ lively mind calm down.

Anna asked, “If that’s the case, how can we guarantee our safety by paying us only this salary?”

Lu Yang said, "If you want to, I will be in Huaxia, and I will restore this castle to you one to one next to my studio and let you more than 20 people live."

Anna and Grant were dumbfounded.

"Return 1: 1?" Davis asked.

Lu Yang said: "It's just a 2 million pound house. When you go to me, you will know what luxury is and what you will dream of."

Anna said, "If that's the case, let's go with you. I don't want to be kidnapped when I work for you."

Lu Yang said: "And your parents, important relatives, come together."

Grant was dumbfounded and said, "No, it's such an exaggeration."

Lu Yang said: "Just like this, the sound of money can make many people give up the bottom line and principles. I believe that you don't want to work for me. Your family is kidnapped or assassinated."

Davis said, "But what about their work?"

Lu Yang said: "How much they pay in the UK, how much I pay them in China."

"Wow!"

Anna and others saw what it means to be wealthy.

"Well, the conditions are already so good, we haven't promised yet that we are inattentive. Give us half a day and let us handle all of this." Grant said.

Lu Yang shrugged and quit the game.

Grant and others also took off their helmets one after another, looked at Lu Yang, and looked at each other, and each took out a phone call to an important relative.

In the evening, Lu Yang chartered a plane and flew back to Huaxia with more than 80 people. He just got off the plane and a special car picked up the party to the studio.

As soon as Grant and his team got out of the car, they saw the 33-story Jiefang Brothers headquarters and the large electronic plaque on it.

“Oh my god, who specializes in games?” Grant asked, looking at Lu Yang.

Lu Yang nodded and said, “Yes, one-fifth of the entire development zone is mine, except for the studio and the residential building I built for my employees. I gave them to them for free. And parks, gyms, restaurants ... ”

At present, the supporting facilities around the headquarters of the Jagged Brothers League and its perfection have become a high-end residential area integrating work, housing, entertainment and leisure.

There are also high-end cafes and libraries. Players are tired after working all day. They can go to the cafe to taste coffee, go to the gym to swim, play basketball, or go to the library to read books.

“What’s going on there, as if construction has just begun.” Anna asked curiously at various excavators and cyan rocks on the vacant piece of land.

Lu Yang said, “That’s where you build the castle.”

“So fast?” Grant asked.

Lu Yang said: "After talking about the contract, I will let people start construction. For half a year, say more than half a year. According to your castle restored 1: 1, the castle can be completed."

"Uh ..." Anna and others didn't know what to say. Even a weird-tempered person could no longer keep his indifference in the face of the bold, sincere and generous boss of Luyang.

"Thank you," Davis and Anna said.

Lu Yang said, "I am also a capitalist. Do n't thank me so much. You have to work hard for me."

"We can do it now," Grant said.

Lu Yang said, "Take a three-day break and pour jet lag. Then I will send some people with flexible minds and strong learning abilities to follow you to learn magic scroll making."

Tu Feng came over.

Lu Yang pointed to Tu Feng and said, "This is Tu Feng. Tonight, a professional translator will live with you. If you have any special needs, you can talk to the translator and he will help you handle it."

Tu Feng brought the five translators behind him. Although "Second World" had a perfect translation system, Lu Yang still hoped that five people could monitor this group of people for him.

Anna and others did not think of this layer, they only thought that these people were Lu Yang's generous treatment, and they were even more excited.

"Okay, thank you for your kindness," Anna said.

Lu Yang pointed to a row of houses behind him and said, "These villas are where you live. Your family, I will arrange new jobs here. Of course, they can choose not to work. I will do this extra work. The purpose of sending a salary is to keep them bored every day. "

Tina stepped out of Davis and gave Lu Yang a big hug, saying, "Thank you for all this for us."

Lu Yang could feel that these people had served him sincerely and said, "Go to rest and see you tomorrow."

"Okay." After Anna and Grant and Lu Yang waved farewell, they took everyone with their bags and lived in the apartment that Lu Yang prepared for them.

The completely English-style house makes them hardly feel the slightest exotic feeling.

Shortly after they lived in, shortly after, Black Friday, Eight-armed Spider, Tang De, K, Enso, and other studios that had relationships with Lu Yang entered the studios of the Iron Brotherhood.

The original British-style houses in this row were prepared by Lu Yang for Black Friday. After Lu Yang finally obtained most of the control in the Northeast, he decided to let Black Friday and the Eight-armed Spider and others bring the power of their respective guilds Find opportunities in the forces of the various regions of the New World.

Once Lu Yang attacked these places, they could help on Black Friday, but again, for the convenience of management, Lu Yang gathered them all to his side.

Chiyang City, the main city.

Lu Yang appeared in the game. More than 30 vice-chairmen such as Tu Feng and White Lion were in a meeting. When they saw Lu Yang going online, they all cast curious glances.

"Boss, you treat these 20 Britons too well, are they worth it?" Asked bitter love for a long time.

Lu Yang said, "Have you tried making magic scrolls?"

"Experimented, but unsuccessful." Said bitter love for a long time.

“But it doesn’t look so difficult,” the old man said.

Lu Yang said: “You will know how difficult it is to select students to make scrolls after three days. Don’t think that spells are easy to draw. If you don’t understand the meaning, you can only draw a magic scroll.”

This is a pit for game designers. The painting method of the first-level scroll is simple and horrible, but the difficulty of painting the second-level scroll is unimaginable. It can be said that it is like a person who can speak simple English conversation. But then the other party uses an engineer who makes a rocket ship, and in English, you talk about the principle of making a rocket ship.

The terminology that you can’t reach in a lifetime makes people want to hit people because you don’t understand what the other person is saying.

The old man in the twilight and the muddy wine did not know enough about the magic scroll, so they both chose to shut up and stop speaking.

Lu Yang asked: “How are the Jiuxing Alliance and Tianlong?”

Tu Feng said: “At present, the Jiuxing Alliance has recruited 3.3 million players above 120 and more than 5 million players below 120, forming a seemingly powerful super guild alliance.”

Lu Yang said: “Okay, what is the composition of the specific staff, how many spell-casting mages, special occupations, and equipment, and how many professional conductors?”

Tu Feng said: “There are about 2,000 forbidden spell mages.”

“Oh ~!” Bitter love didn’t hold back.

Lu Yang gave him a white look and said, “Keep talking.”

Tu Feng shrugged his shoulders and said, "There are no special occupations like Darui, and no such occupations as Tsunami Masters. There are more than 500 space thieves, and most of them are 120-level gold equipment. Dark gold equipment is scarce, and professional command is not yet available. It is still the nine guild leaders who are in charge of commanding. "

Everyone: "Hahahahaha ~!"

The white lion, Zhou Tianming and others did not hold back, and they laughed out loud.

"This is a doll alliance, it looks very powerful, and the kernel has nothing." Zhou Tianming said at the table.

Tu Feng said: "I guess you will laugh, no problem, the elites have been recruited by Park In-Yi and Denon, and all the players left by the Super Guild are absorbed by them."

"The co-author of the Nine Stars Alliance is now crowded, and the others are not shy." Zhou Tianming asked.

Tu Feng nodded.

"Haha, in this strength, we can be destroyed by any vice president." Pride said.

Lu Yang said, "Let them be happy for a while, give them more confidence and give us a little more difficulty, otherwise they will be too weak."

Everyone nodded, if the opponent could not stop a wave of attacks, it was really meaningless.

Lu Yang asked, "How about Tianlong?"

Tu Feng said: "The Tianlong side is not easy to handle, because of religious reasons, there are as many as 30,000 spell-casting mages on their side."

White Lion and Zhou Tianming and others immediately sat upright.

“I’m going three times as much as we are. Even if someone from Song Sisi comes to help, it’s 10,000 fewer than the other party.” Liang Yun said.

Tu Feng said: “There is no way. The curse-fixing thing depends on personal understanding ability. India has nothing else, that is, there are many religions, so they comprehend the curse-like spells much faster than others.”

Lu Yang asked: “What about the level and equipment?”

Tu Feng said, “During the battle with Park In-Yi, Tianlong always sent only 500,000 or 1 million people to participate in the battle. A large number of his players rushed to the rear. According to the information I got here, now Tianlong There are more than 4 million players on a level 130 or higher. “

“So many? Why didn’t they come out to help us when we hit Park Renyi?” Zhou Tianming asked.

Tu Feng said: “These people have just risen to level 130 in the last few days. For the time being, these people do not yet have gold or higher equipment. Tianlong is stepping up to bring these people to equipment and open up wasteland copies.”

“I said that the old boy did not send a large number of players to help when Park Renyi was facing life or death. It turned out that he had a big move.” Liang Yun said.

Tianyao said: “This man is lacking in morality. It seems that he is going to let us kill Park Renyi first, and then he will come and hit us to include the entire Northeast region into his territory.”

Lu Yang said: “It’s a good analysis. It should be the case.”

Tu Feng said, “Hey, but he didn’t expect that Park Renyi was so vulnerable that we were so easily brought to Dingzhou City, which caused him to be completely defeated by us.”

The old man said, "It is estimated that Tianlong did not expect Lu Yanghui to be so bold. Arranged tens of millions of people to participate in the war. Even if Tianlong had the intention to protect Park Renyi, it was too late."

Lu Yang said: "That should be the case. How is Tianlong's defensive strength now?"

Tu Feng said, "Tianlong has gathered at least 2 million people in Wuyue City. Usually, a large number of players between level 100 and 120 upgrade on the map outside Wuyue City. Once there is a war, they can stop us from attacking. The pace, more than 4 million people who are outfitting in the copy, can immediately enter the Moonless City. "

Lu Yang asked, "How is the defense over the Mahatma City?"

"The defensive power of Mahatma City and Dragon City and Wuyue City are similar. On the side near Holy Spirit City, there are also millions of low-level players upgrading around, it is not easy to sneak attack." Tu Feng said.

Lu Yang said: "It looks like this Tianlong still doesn't trust the Nine Star Alliance. If it is trusted, it won't allow so many people to gather and upgrade under these two main cities, and it can't carry so many people at all."

Chapter 1095 - Help 9 Star Alliance

A map around this main city can only carry 100,000 players. Now there are 100 people upgrading there. Even if all the surrounding maps are used, it is not enough. There are still a large number of players to face the situation.

What's more, there are other low-level players resting in the city of Mahatma and Dragon City. They also have to fight against the monsters. If Tianlong does this, it is equivalent to forcing the players in these two main cities to go to other main cities. The yield of each of the main cities has dropped a lot.

Lu Yang said: "It looks like we need to make the Nine Star Alliance a little stronger so that he can gradually relax the vigilance of the city of Mahatma and Dragon City, so as to create opportunities for our fighting forces."

Everyone nodded.

“Boss, what plans do you have?” Liang Yun asked.

Lu Yang said, “As of now, after the death of Park Renyi, the relationship between Tian Deng and Liu Jie became estranged from Tianlong, and they have started their own pioneering war. Now is the best opportunity for us to unify the entire Northeast region.

However, Tianlong stopped in Wuyue City, and his strength is not inferior to us. We want to win him. We only need to let him relax his vigilance, but to let him relax his vigilance, we must support the Jiuxing Alliance to make them stronger. Some, let Tianlong feel more at ease. “

“Supporting the Nine Star Alliance?” Everyone asked in buck.

Lu Yang said, “Yes, that ’s how to support the Jiuxing Alliance. As for how to support it, in this way, we put out a few spies and let them sell a few of the 120-level elite copies of the strategy to sell to the Jiuxing Alliance and let them It also speeds up the progress of hitting 120 dark gold equipment. “

Tu Feng said: “No problem, leave this to me.”

Lu Yang believed in Tu Feng’s strength in this regard, and it was too simple to disclose some information to the Nine Star Alliance. He said to everyone: “has any progress been made in recruiting Korean players?”

Tu Feng said: “There is no good progress for the time being. The Koreans are very alert to us. There are still many Korean players who are hostile to us. Currently, there are only a few hundred Korean players recruited at level 120 or above. people.”

Lu Yang said: “There are a lot of good players in this group of casual players in South Korea, but they don’t like Park In-ye. I think we should find a way to recruit them, so that it is easier to deal with the enemy.”

“What do you want to do?” Tu Feng asked.

Lu Yang thought for a while and said, “It looks like I have to fly to South Korea and go to Seoul to find a few Koreans to coordinate this.”

Tu Feng was a little surprised, saying, “I’m afraid it’s not easy. Qing Qian Zimeng has met hundreds of appealing Koreans, and they dare not agree.”

Lu Yang said with a smile: “They didn’t dare to agree, but some people dared to agree. I had to do this myself.”

Lee Won-sung, the president of the Korean Association of Skywalkers, had previously stood in court with Park In-eun for a long time, but because he had no consortium background and had limited money, he was eventually defeated by Park In-eok.

At that time, Park Renyi was very emotional. If it wasn’t for Li Wenxing’s lack of money, otherwise he would fight for a few more days and it would be him who failed.

After the defeat of Li Wenxing, the guild was disbanded. The original legion chiefs and vice presidents each set up small guilds. Some surrendered Park Renyi, more because they had fought too hard with Park Renyi before, and the hatred between the two sides was too deep. Park Renyi.

Park Renyi is not as benevolent as his name. He pursued these people for a long time. If the national war did not start later, Park Renyi would not care about these people, and these people would be even more unlucky.

Li Wenxing himself was also chased by Park Renyi. Unlike others, Li Wenxing owed a lot of money to establish the guild, but there were hundreds of top players around him who helped him set up a studio to pay back the money.

However, the amount of this money is too huge. Lu Yang remembers that Li Wenxing of the last life did not rise again until three years after the service. If he can recruit Li Wenxing now and give him a sufficient share to allow him to work for himself, that is It fits perfectly.

That night.

Lu Yang arrived in Seoul, South Korea by plane. Through the Korean people he knew from the light purple dream, Lu Yang found Li Wenxing.

At the Livingston Hotel in Seoul, Li Wenxing was invited to Lu Yang, and the two met in the hotel's conference room.

"Chairman Lu Yang, long cherished his name." Li Wenxing half stretched out his hand.

Lu Yang held Li Wenxing's hand and looked at the powerful master. He was a bit of a traditional Korean, with a pan head, small eyes, a thin face, and a figure of about one meter seven.

"I've been longing for you, too, how about it, are you interested in coming to my guild?" Lu Yang asked.

"Come to your guild?" Li Wenxing already knew Lu Yang's purpose of finding him, but hearing this news in person made Li Wenxing a little hesitant.

He had previously thought about whether to join the Jagged Brothers Alliance. He knew that with the strength of his brothers and his brothers, he could pay off the money in another half a year, and then in another half a year, he had enough capital to make a comeback.

However, the situation in the central, northern and northeastern parts of the New World has gradually become clear, and the rest of the place is also a grand guild melee.

Not to mention whether he has the ability to fight against them, even if he can fight, but he wants to gather the original players, or find new players to join, gather, fight equipment, fight special skills, arrange command and other things It's very tedious, it takes too long, and the wasted energy makes him a little discouraged.

If he joins the Brotherhood of Iron Blood, these things will be solved easily, but this also has the most deadly problem. He will be scolded as a traitor. Moreover, with his strength, there is no need to surrender to others.

“Chairman Lu Yang, let’s forget about it, I still dare not do it.” Li Wenxing said.

Lu Yang smiled and shook his head, saying: “Don’t rush to refuse, listen to the conditions I gave you.”

“What conditions?” Li Wenxing was curious.

Lu Yang said: “60% of the money you make, I and you are forty or six, you take 60%, and I take four cities.”

“What?” Li Wenxing stood up in shock, looking at Lu Yang with an unbelievable look.

Lu Yang laughed, and he knew that Li Wenxing would have this expression, and said, “Did you hear me clearly?”

Li Wenxing said: “Listen clearly, but how do I feel I heard it wrong? Would you like to give me 60%?”

Lu Yang nodded and said, “Yes, I will provide you with money. You re-convene players to form a combat team. Then this team belongs to you alone. I am only an investor, not your boss. “

This treatment is too generous. How can there be such a condition, one side pays the money, while the other only relies on fame and a few hundred soldiers under his command, but those who give money only get 40% of the profits, while those who get out of the way get 60% of the profits.

“President Lu Yang, me, you, this ...” Li Wenxing was a little dizzy.

Lu Yang smiled and said, “I see your ability, and I dare give you this money.”

“What do I need to do?” Li Wenxing asked.

Lu Yang said: "Contact your subordinates first and re-establish your guild. Don't disclose your relationship with me for the time being. I will let you know when it will be public."

Li Wenxing smiled and said, "President Lu Yang, it looks like Nine Star Alliance and Tianlong are not going to live long."

Lu Yang laughed, pointed at Li Wenxing and said, "You really know me."

Li Wenxing was very happy and said, "I guessed wildly."

Lu Yang said: "Let's do this. I will give you three days for consideration. You can discuss with your brothers as much as you like, but don't disclose my next battle plan. Three days later, I will wait for your news here."

Li Wenxing stood up and said, "Thank you President Luyang. Seriously, I'm still dizzy now. The pie you gave me is too big. I'll go back and discuss with my brothers."

Lu Yang nodded and said, "Go, I'll wait for your news. I hope it will be good news in three days."

Li Wenxing bowed again and turned away from the room.

Here Li Wenxing went back to discuss with his brothers, and on the other side, Tu Feng started his plan.

"You have to take the initiative to find glacier sales information, and try to find as much as possible for the other party." Tu Feng said to a deputy head.

"Yes." Lei Ming, the deputy commander, took over the task with a smile. He did not expect that he was so lucky that he was drawn to send information to the enemy. If he performed well, he can be sure that his position as a commander will be stable. .

Farewell to Tu Feng, Lei Ming ran into Suiyuan City by himself. The people who connected with Thunder were not others. They were God of War I, Pope I, and the tragic autumn wind. Three people had already surrendered to the Iron Brotherhood.

“Hey, the boss asked me to give you this strategy, and also let me see nine of you, buying and selling intelligence.” Lei Ming said.

God of War I said, “Boss Tu Feng has talked to me. The three of us will cooperate with you to complete the task. In this way, I will convene other vice presidents to discuss this matter.”

Lei Ming was called aside, and the three of God of War I called the glacier, the black cross, the camel sword, the dragon-slayer warrior and others to tell this.

“Zhengchou can’t beat the copy, it’s great, I’ll come over here,” said the Dragon Slayer soldier excitedly.

Glacier and others were also very excited, each using a teleportation scroll to fly to Suiyuan City and enter the city’s main mansion.

The five people, such as Glacier, came almost back and forth, and God of War I and others were all there, and they proudly told the story.

“Is the identity investigation clear? Is it credible?” Glacier asked.

God of War I frowned and said, “It’s the same issue that I discussed with you. I investigated this thundering identity, but I did n’t find any problems. I want the five presidents to investigate and confirm it. Discuss this. “

“Is there anything else to investigate? Do you know it after seeing the Raiders?” Said Dragon Slayer.

“But the other party didn’t show me, he said, you must give money first, then watch.” God of War I said.

“What if it was fake, wouldn’t we lose it,” said the camel’s long knife.

Pope I shrugged his shoulders and said, "Now the problem is here, do we believe or not."

"How much does he want?" The matador asked.

Sad Fan Qiufeng said: "9 million credit points."

"The appetite is not small," the Dragon Slayer warned.

This is a considerable amount, and it has been glazed by glaciers and camel knives.

"Dare to ask for so much money and not show us the video. This person is brave enough. This is definitely not the case. We can't do this." Glacier said.

God of War I said: "This man proposed a trading model, that is, he traded with us live, making money with one hand, and letting us watch videos with one hand."

"We are not a triad, can we kill him if we do this?" Camel shook his head with his sword.

The dragon fighter said: "This is fine. The trading place is set in Russia. If he dares to play tricks, I will find someone to kill him."

"Uh." Glacier.

"Uh." Camel had a long knife.

...

The eight presidents looked stunned.

The Dragon Slayer warrior said, "What's weird, I'm not a triad, but isn't it normal to know a few of these friends, don't the friends you know have no such person?"

"I do," said the camel's sword.

"It doesn't matter. The national conditions of different countries are different. My side is more fierce and normal." Dragon Slayer said proudly.

The camel's sword sneered insultingly: "Damn Slav."

Slavs and slaves are a root word. In Europe, Slavs are equivalent to slaves and barbarians, and have not been seen by people in other European countries since ancient times.

Glacier said: "This is fine, we can trade with him face to face."

God of War I said: "In addition, he said that he can also cooperate in the follow-up. As a deputy head, the movements of the guild, they are all aware of this level for the first time, and he can continue to sell us intelligence."

Glacier and others looked at each other.

"I really need such a person. The information of the Iron Brotherhood is too important. Our defense in Suiyuan, Jiangping and Ningzhou has spent a lot of manpower and material resources. If he is willing to provide information, we can withdraw some players to hurry to upgrade and fight. Equipment," said the Black Cross.

Glacier nodded and said, "I think so, who else has any questions?"

The camel's long knife and others shook their heads. They had already made plans to buy Lu Yang's senior players, and cash in this area was also prepared. Now someone has taken the initiative to send in strategies and eyeliners, and they just took the money.

The day.

Dragon Slayer and Lei Ming agreed to trade in Russia. Lei Ming was very sincere, flew to Russia without any complaints, completed the transaction with the other party, and returned to the Iron Brotherhood with 9 million cash.

Tu Feng originally asked Lei Ming to send the Raiders. However, Lei Ming returned 9 million cash, which made Tu Feng worry. After asking Lu Yang, he decided to share one third of the money with Lei Ming. The rest Six million let him form a new army himself.

Of course, this can only be done after defeating the Nine Star Alliance. The current thunder can only be pretended to be rich, and live a comfortable life.

Tu Feng just finished the report here. Li Wenxing called and said that he had brought a dozen of his brothers to the meeting. Lu Yang naturally had no opinion. The two sides met in the conference room.

After the two sides were seated, Li Wenxing introduced Lu Yang one by one. The dozens of people who came here were his former vice chairman and chief of the army. This time he came to promise Lu Yang's request and wanted to let Lu Yang leave before leaving. They met with Lu Yang.

"President Lu Yang, please take care of me in the future, I will try my best to integrate Korean players." Li Wenxing said excitedly.

Lu Yang nodded and said, "I will give you 200 million credits in the first period, which you can use to assemble the original players to attack the 48 main cities and all forts in South Korea."

Since the defeat of Park In-Yi, he no longer has the ability to control the country's 48 official main cities and 200 fortresses, which have been occupied by Korean guilds of all sizes.

Park Renyi is now helping Liu Jie with all his heart to guard against the attack on the Sixth North. Now that the Sixth North has basically been defeated, but because of the time difference, the North Six always sneaks on Liu Jie's night. , And Pu Renyi can just make up for this shortcoming.

Although Pu Renyi helped Liu Jie, Liu Jie only gave him a main city, so that the funds in his hand will only maintain the current 3 million lineup.

The number of players in the main cities of the old continent in South Korea is already low, and there are still so many guilds. At this stage, Park In-yee is afraid to be distracted and can only let these main cities be taken away.

Li Wenxing's idea is to first win all the main cities and fortresses of the old continent, so that a large number of players can quickly gather to follow him, and it is easier for him to convene the old ministry.

"Boss rest assured that within one month, I will sweep 48 major cities in South Korea." Li Wenxing said.

Lu Yang nodded and said, "Very well, if you can do this, I will follow the example of the Jagged Brothers Studio and build a Wenxing Studio building for you in Seoul. As many floors as you can recruit People, how much money have you made for me. "

Li Wenxing's eyes brightened, and he said excitedly, "Thank you, boss."

Lu Yang patted him on the shoulder and said, "The relationship between us is a secret, and I did not agree, you must not open it. This is for your good. I don't want your guild to fall apart, nor do you want you is threatened, keep in mind. "

"Yes," said Li Wenxing and half a dozen others, bowing together.

Lu Yang looked at the black and white, let him put away, took him back to Huaxia with him on a plane.

When he returned, Tu Feng had already selected the players who made the magic scroll, and more than 500 people were selected as the magic scroll maker.

When Lu Yang returned to the studio I just saw more than 30 vice-chairmen coming to learn the method of making scrolls in person.

Grant, Anna, Davis, and others are carefully teaching, but as Lu Yang said, more than 500 magic scrolls of level 1 have all been learned in less than an hour, but it is difficult to understand the level 2 scrolls. The magic runes caused more than 500 people to study.

“The door is evil, why is there such a big difference between Level 1 and Level 2?” The old man said.

The White Lion has given up studying and said, “I don’t fit this thing.”

Zhuoshu also shook his head and said, “I don’t understand.”

Zhou Tianming put down the scrolls and blood and said, “I won’t waste the scrolls for the guild. The boss said that it is true. You don’t know how to learn this stuff.”

Lu Yang was behind them. Hearing what they said, he smiled and said, “I know the difficulty.”

Zhou Tianming and others looked back at Lu Yang and nodded.

Chapter 1096 - Skyfire Crow

The old man in the twilight said with a smile: “Looks like this time, our Brotherhood of Brotherhood has taken the lead again. This thing is so difficult to learn. It is estimated that other guilds have not figured it out, but we have more than 20 teachers who can carefully teach . “

Lu Yang said: “Yes, my requirements for them are very simple. 500 people are divided into 5 teams to learn special skills such as * thorn, meteor impact, and large healing. Learning these 5 skills alone will be much faster. Are the Archdruids and the members of the Forbidden Mage informed? “

“Notice has arrived and can come at any time.” Tu Feng said.

“Well, if you are willing to learn, if you are willing to learn, I will teach you how to make a roll away.” Lu Yang said with a smile.

“Boss, would you do a magic scroll?” White Lion asked in surprise.

Lu Yang said, “What’s this? It’s easy for anyone who likes ancient magic to make scrolls.”

Grant looked at Lu Yang and said, “Yes.”

“What is ancient magic?” Sun Yu asked.

Anna said: “That is the essence of human culture in ancient times, but now people have forgotten them.”

“Our mission is to re-promote him,” Davis said.

Tina said, “President Lu Yang shares our hobbies, and we have come to the right place, and everyone continues to work hard.”

“OK.” More than 20 people said together.

White Lion: “...”

Mud wine: “...”

Tianyao: “...”

twilight: “.....”

“Uh, let’s go, we will not learn this thing for a short while, or we will honestly take our men to upgrade, and quickly hit the 130 level equipment.” Liang Yun said.

“It makes sense, let’s go first, you boss, come on.” Tian Yao ran away.

The white lion ran away.

The muddy wine also ran away.

...

Within 2 minutes, Xia Yuwei was left alone.

“Yes, yes, there is one more to learn from.” Lu Yang said with satisfaction.

Xia Yuwei blinked and said, “Well, I just called and didn’t pay attention to that, I left.”

Looking at Xia Yuwei also leaving, Lu Yang looked helpless, took out the phone, and called the commander of the 100,000 men.

He murmured to himself: “Forget it, don’t learn good things, just teach yourself.”

...

Soon, the heads and deputy heads of the 100,000 new army including Han Fei, Han Yu, Han Ying, Mufeng and Wasteland all arrived.

Lu Yang said, “I will now teach you how to make scrolls. How much you can realize depends on your own skills.”

Shen Mengyun, where did they know the difficulty of this production, and thought it was Lu Yang who was going to evaluate them, they were all nervous and studying hard.

No one had thought that in the end, this new army of Lu Yang turned out to be the master of making magic scrolls, and the reason was from here.

A month later.

“Big Thorns” A dark green magical energy flew out of the German corpse and landed precisely on the magic scroll.

A flash of light flashed, and the beating magic rune wrapped the dark green magic energy into the scroll.

“Success, great, I was able to make a great thorn magic scroll with a 100% success rate.” A player named handsome guy who despised the world said excitedly.

Lu Yang nodded with satisfaction and said, “Yes, your kid is talented, and you will be the head of this magic scroll unit from now on.”

“Thank you, Boss,” he said with contempt.

After a month of hard work, 500 people on Lu Yang produced more than 1 million Level 2 magic scrolls and 10,000 special magic scrolls.

Although this data is somewhat inadequate, it can barely allow 100,000 crazy wolf soldiers to break into the Holy Spirit City and take control of the city’s main government.

On the other side.

With the help of Lu Yang’s secret copy of the Raiders, the Nine Star Alliance finally equipped 3 million people with a 120-level dark gold suit. Even the 130-level dark gold-level equipment, with the support of Tianlong, has 900,000 sets. .

The self-confidence, which once swelled to the extreme, such as the Dragon Slayer and Glacier, even intentionally attacked Lu Yang, seized the five cities of Xuan Zang, and drove Lu Yang back to Dingzhou City.

Fortunately, Tianlong knows the details of this group of people and did not let them launch an attack, but Tianlong finally relaxed his vigilance and thought that the Nine Star Alliance could replace him as the defensive force on the side of the Mahatma City, and he would be the Mahatma next to the Holy Spirit City. The city's level 100 to 120 players were sent to other main cities, so that Mahatma City and Dragon City were restored to the status of scattered player upgrades.

late at night.

Chiyang City, the main city.

Lu Yangzheng discussed the next war with 33 vice-chairmen.

“Boss, since Tianlong dared to let go of the defensive power of the Mahatma City, it would be better for us to attack the Mahatma City tonight, how about it?” Said with pride and excitement.

“Yes, boss, we have been gathering all the time, and we can recruit 3 million 130 players at any time.” White Lion said.

After this month, the Jagged Brothers Alliance finally ushered in an outbreak, with more than 3 million people rising to the 130th level.

Under the unified arrangement of more than 30 vice-chairmen, most of them have entered the Star Warrior's copy of 130-level dark gold equipment.

At Tianyuan City, tens of millions of gems were also stolen by the band of thieves in Han Yu's hands. Now they are also synthesized at Mu Yi, which can create tens of millions of gems of level 6, which can almost give 300 to the Iron Brotherhood. One-third of the equipment of the main force is jeweled.

Lu Yang said: "It's not enough. I still need to fight a few things. This battle was actually fought with Jiuxing League and Tianlong. I had to be cautious."

"What else to fight?" Jiang Ze asked.

Lu Yang said: "You continue to lead the team to upgrade and stabilize the player's level. Believe me, when we are preparing to fight Tianlong, Tianlong is also preparing to hit me, but he does not want to fight alone. He wants to gather Liu Jie. One step up to the sky and Green Water Ghost and others came to hit me, but Liu Jie was blocked outside the Sky Sword Fortress, and he would never threaten us without breaking into the fortress, and we have the Titan Dwarf musket. Liu Jie didn't want to kill him. , Can only wait until the 140th level before attacking. "

"Boss, this Titan dwarf musket is really powerful. Now we have 800,000 shooters replaced with dwarf muskets. If it is not lack of ammunition, we are not afraid of Liu Jie and Tianlong." White Lion said.

Lu Yang said: "The trouble is here, even if a player's backpack is full of bullets, there can be 99 bullets in a group, which can hold more than 200 groups, but 50 bullets can be shot in a single shot. A musketeer team needs one Transport team. "

"Is there no good way to solve it?" White Wolf asked.

Lu Yang said: "From now on, the game has come to the topic and it is time to rob."

"Robbery? What do you mean?" Bitter Ai asked excitedly.

Lu Yang said: "Simple, can the medicines made through refining skills now be stacked?"

"No." Everyone shook his head.

Advanced Healing Blood and Blue Back Elixirs refined through guild skills cannot be stacked, that is, one Elixir occupies a grid.

Not only potions, but also magic scrolls, occupying a grid as well, and more overwhelmingly equipment, a piece of equipment has changed from occupying a grid to occupying 8 grids.

“It’s strange. I can’t understand the official intention of doing this. Is it forcing players to return to the city more times?” Liang Yun said.

Lu Yang shook his head and said, “This is an official setting that increases the player’s game variables. It is clear that in the future large-scale battles, professional logistic forces are required. Once the logistical forces are attacked, such as the ammunition supply team of our musket team, By the time of the sneak attack, the entire Musketeer team was abolished. “

“Bring it like this.”

“unacceptable.”

...

Everyone was a little speechless.

Lu Yang said, “Don’t worry, it depends on who knows the prophet and how to ensure the safety of the transport team. After all, the weapons of the Titan Dwarf rifle are too high. Even at level 140, this rifle will not be outdated. . “

Zhuo Jiu and others nodded.

Lu Yang went on to say: “In the future, weapons will come with armor-breaking, more physical attacks and other attributes, shields will also increase more defense and armor-breaking capabilities, and professional restraint will be more serious.”

In fact, these restrictions are set for the super guild to prevent them from attacking ordinary players at will. Once the super guild has done too much and the logistics have been robbed, this guild faces a fiasco.

“Let’s continue to fight the equipment, I will study the enchantment of level 130, and when I have the enchantment drawing out, we have come to the decisive battle with Tianlong.” Lu Yang said.

“Yes,” the crowd said together.

Early the next morning.

Lu Yang took the magic flying carpet to the lower reaches of the Yinshui River, in an official village at the junction of Suiyuan City and Jiuxing Alliance.

The system prompts: You found the Wanjie Consortium

The World Realm Consortium, a very famous game organization of the last generation, is officially established by an alliance organization called the World Realm Alliance in the official history.

In the game, there are not only the old continent and the new continent, but also countless planes. Each plane has space nodes. They are transmitted to the planet through nodes to engage in trade.

Lu Yang entered the interior of the Wanjie Consortium. This is a very beautiful village full of scientific elements. There are purple luminous tubes and steam-driven equipment similar to diodes everywhere.

In the middle of the camp stands a Prince of All Realms.

Lu Yang came to the Prince and said respectfully, “Hello, the great King of Trade.”

Prince Wanjie is a glowing purple creature with a height of about 2 meters. He looked down at Lu Yang and said, “I know you, you own a Grade 3 main city, and I’m glad to do business with you.”

The main city of level 3 is the initial condition for starting the mission of the Consortium of Worlds, so although many players have found it here, no one can do the task.

Park Renyi couldn't before, but it couldn't be occupied by the Jiuxing League later, but the players from the Iron Brothers League came but they could, which is a benefit to upgrade the guild.

Lu Yang said, "I want to buy some 130-level enchant scrolls. I don't know if you can sell them to me."

Prince Wanjie said, "It's okay to sell to you, but I hope you can help us get enough Phoenix feathers."

As soon as Lu Yang's eyes lighted up, in general, he would give the player a designated location to collect all the missions released by Prince of Ten Thousand Realms. He thought that the phoenixes in the low-level areas were gone, and he didn't think there would be any.

"Where can I find the Phoenix?" Lu Yang asked.

"Go down the Yinshui River into the vast scorched earth forest, where you will find the phoenix and help me get feathers, the more the better," said Prince Wangjie.

"I'll go now." Lu Yang replaced the flying carpet, and the Wanjie Consortium flew southwest of the temporary camp.

Not long after, a scorched forest appeared in front of Lu Yang.

System prompt: You found Scorched Forest

Lu Yang did not stop flying, and continued to fly into the forest. Within an hour, he finally saw the trace of the phoenix. Two red feathered phoenixes flickered not far ahead.

Lu Yang flew in this direction. After 10 minutes, when there was no cover in front of his eyes, he saw a scene that surprised him.

"There are actually more than 200 phoenixes here," Lu Yang said excitedly. "Today I just fight, and I want to get all the phoenix eggs."

Although these phoenixes are all 130 levels, this phoenix is still the lord level, and the health is tens of billions.

Lu Yang built a sentry tower on the spot, recruiting more than 30 players holding artifacts such as Shen Mengyun and Zhang Zicheng.

“Boss, what are you looking for?” Shen Mengyun asked curiously just after landing.

Lu Yang pointed at the opposite Phoenix and said.

“So many Phoenix.”

“You’re rich.”

...

Lu Yang and others arrived and said, “One phoenix per person, kill them as quickly as possible. After killing them, they helped me to pull out the feathers of the phoenix, which is of great use.”

“Yes.” Shen Mengyun and others said together.

After Lu Yang’s training, everyone has the heart of God, and it is not too difficult to kill the Lord Phoenix alone.

Lu Yang killed them for two full days, killing more than 200 phoenixes and bursting out 250 phoenix eggs.

This phoenix egg is secondary. After using it, you can let the druid learn to transform into a phoenix. Before 250 druids such as Germany did not taste the corpse, they became phoenixes. The remaining 250 have no flying skills. This time It just happens.

Lu Yang asked Shen Mengyun to go back with the Phoenix egg to find the deceased corpse and give it to him. Then he returned to the Consortium of the World and gave the Phoenix feathers to the Prince of the World.

“Yes, you have completed the task I entrusted to you, but I have another task here that you need to do,” said Prince Wanjie.

“What task?” Lu Yang asked.

“In the depths of the Scorched Forest, there is a group of **** skyfire crows, destroy them for me and don’t let them stop us from moving forward,” said Prince of All Realms.

Lu Yang felt that he was really lucky today. The Skyfire Raven, second only to the Druid of the Phoenix, transformed into a skill. After the change, he could become a black crow with a whole body. The skill released was called Flame Flame.

The Flame Melt is one of the top group spells in the fire department, which can cause extremely high damage. If a team of Skyfire Crows is not a magic-free class and is attacked, there is no chance of healing and blood, and it will be hit instantly. kill.

The Heavenly Fire Crow Legion of the last life is a big name. Liu Jie was not able to get this legion. I never thought he could find it here, and the starting point for this task was in the Wanjie Consortium.

He took a flying carpet and flew into the scorched forest. In a dark forest, he found a patch of skyfire crow standing on the tree.

Skyfire Crow (boss)

Level: 130

Qi and blood: 100000000/100000000

“So many, I can’t think of a legion formed here.” Lu Yang’s eyes looked excited.

“The Ninth Hell”

With Lu Yang as the center, the surrounding area of 5,000 meters was plunged into flames, causing more than 1 million damage per second.

“Oh ~!” Countless Skyfire Crows aimed at Lu Yang with their red eyes, and spread their wings and rushed towards the Landing Sun.

“Summon Flying Carpet”

A flying carpet appeared at the foot of Lu Yang, taking him quickly to the depths of the forest. Just after less than 2 minutes, the magic was about to run out. He took out a spiritual gourd Xiandan and ate one, which eased the magic, and then continued flight.

“Fortunately, having a demon heart brings a temple to hold things, otherwise at this stage, it won’t go far at all.” Lu Yang muttered to himself.

When Lu Yang killed the crows here, on the other side, one of the Dragon Warriors accidentally attacked the Wanjie Consortium and found Lu Yang’s trace. He immediately reported to the Dragon Warriors.

“What, Lu Yang was alone to do a task near the Consortium of Wanjie!” The Dragon Slayer warned in surprise.

“It’s true, and there are pictures to prove it. Fortunately, this boy is a thief and he is still far away from the station. This was not discovered by Lu Yang,” said Vice Chairman Gang Xiong.

“This is an opportunity. We should ambush Lu Yang.” The Dragon Slayer said excitedly.

The steel bear said, “Boss, it’s not good to do this. Lu Yang’s strength is so strong. We provoked him, being careful not to kill him, but to be killed by him.”

“Afraid of a ball I was thinking of meeting him.” The Dragon Slayer warrior spent huge sums of money to rise to level 135, with a look of fearlessness.

“He has the heart of a demon and a flying carpet. Besides, even if he is killed, how can this cause the two parties to engage in battle? Only Tianlong will benefit from it.” Steel Bear said.

The Dragon Slayer hummed coldly and said, “It’s not Tianlong’s gain, but our fight with Lu Yang. Tianlong will be dragged into the water by us. We have long wanted to fight against the Brotherhood of the Iron Blood. They all say that they are strong. Every day said, the people on our side are heartbroken. I will kill their chairman now to let the people in the Nine Star Alliance know that Lu Yang is the same thing. “

“We’ll accompany you,” Steel Bear said.

“Okay, call my guard and kill Lu Yang.” The Dragon Slayer yelled.

It’s not that he wants to fight Lu Yang, but that the Jiuxing Alliance has always been a loose alliance. He said it alone is not counted. In this alliance, although he and the matador want to fight Lu Yang, there are also Those who do not want to fight, such as the camel’s sword and the black cross, and others who always think of peace as God of War I, Pope I, and sad wind, are very uncomfortable with the Dragon Slayer.

Chapter 1097 - Sudden decisive battle

Now that they have the opportunity to force them into battle, the Dragon Slayers have decided to kill Lu Yang first, let them know that Lu Yang is not so terrible.

At present, the guarded players in the hands of Dragon Slayer also have some special occupations, such as the Dark Warlock with a very strong output ability. The single attack skill causes 50 times the damage of the intelligence each time. Several Dark Warlocks attack together, and they can easily kill any Top class, this is the capital of Dragon Slayer daring to start to Lu Yang.

“Boss, we’re all done,” said the Dark Warlock Squad, Captain Northern Lights.

“We’re all together, too.” The disciplined Cavaliers team and the Time and Space Thieves team were also assembled.

The Dragon Slayer saw all the people and shouted, “Okay, go with me to Lu Yang.”

A team of more than 50 people, led by Dragon Slayers, rode on war horses and ran towards the location of the Wanjie Consortium.

Scorched earth forest.

Lu Yang is still killing crows.

“Boss, you have been attacked by a dragon soldier.” Tu Feng called.

“Oh?” Lu Yang asked, “Where did you get the news?”

Tu Feng said with a smile: “A beauty anchor in the purple dream song of Qing Qian Zimeng is infiltrating a vice-chairman of the Dragon Warrior. The man is a steel bear. Knowing why he left, the anchor asked him that Steel Bear didn’t say it at first, but later he couldn’t stand the soft words of the anchor, and he said it. “

“Good job, reward her.” Lu Yang said.

Tu Feng agreed with a smile.

Lu Yang said: “This opportunity is quite good, tell Zhuoju them to prepare for a lightning strike.”

“Suddenly launched?” Tu Feng asked in surprise.

Lu Yang said, "Of course, the launch time was the night after I was attacked. Now the Nine Star Alliance is not prepared, and Tianlong is not prepared. I want to hit them unexpectedly."

"But we are not very well prepared. I am afraid that the logistics supply cannot keep up." Tu Feng said with a headache.

Lu Yang smiled and said, "In three hours, there can be no more. The original preparation is almost the same, but the problem of mobilizing personnel."

"Okay, I'm asking them to come to the meeting," Tu Feng said.

Lu Yang closed the intercom and looked around. At this time he had pulled the crows from the Scorched Forest to his side. If the Dragon Slayer had just run over to kill him, there would be at least 3 hours to go. He also Don't rush back.

On the side of the Jagged Brothers Alliance, 3 million people have always been on standby. Every day, the vice president brings them together to upgrade and fight equipment. It is very easy to assemble.

Soon, Tu Feng convened 33 vice-chairmen, and Lu Yang entered a special space.

"Boss, isn't it too hasty." Zhou Tianming asked.

Lu Yang said, "It's a bit hasty, but I can immediately buy the enchanting recipe here. The material guild has more than three hours."

"But so many people can't be concealed from Tianlong." The White Lion frowned.

Lu Yang said: "I thought about this and told players that one team by one team would go to Chiyang City to receive the enchantment, and only the 100,000 crazy wolf troops and 100,000 war tauren would be allowed to go in advance. Others would not set."

“The 100,000 Wild Wolf Guards and the 100,000 War Tauren are still secrets of our Jagged Brotherhood. At present, Tianlong and the Jiuxing Alliance should not know that they exist. If there is a sudden attack, there should be no problem.” Xu Cailiang said.

Lu Yang nodded, and he had the same meaning, saying: “You all acted immediately according to the order. This war is related to the future of the guild, and there must be no mistakes.”

“Yes.” Xia Yuwei and others nodded together.

Lu Yang withdrew from the special space, and the crows behind him had not yet killed. He continued to kill the crows. After waiting for half an hour, he killed all the crows, and burst out numerous blood certificates of the crows of the skyfire.

Lu Yang gathered them together, sorted them out, and found that there were exactly 5,000. He smiled and put all the blood certificate in the demon temple, returned to the Consortium of Realms, and found the Prince of Realms.

Prince Wanjie: “Our friend, welcome back. You helped us solve the big problem. I should thank you.”

When Lu Yang heard the words of Prince Wanjie, he opened his own prestige bar and found that the prestige reached respect.

He said to Prince Wanjie: “As a friend, this is what I should do. I don’t know if I can make a request to you?”

“What’s required?” Prince Wanjie asked curiously.

“I want you to protect me. Someone wants to come to you and kill me.” Lu Yang said.

Prince Wanjie showed an angry look and said: “No one can kill friends of Wanjie Consortium. You can rest assured that someone will dare to make trouble here, and I will kill him for you.”

“Thank you,” Lu Yang said.

With this sentence, Lu Yang can rest assured that any reputation of this type of consortium can provide shelter for players.

“I hope to be able to buy something here,” Lu Yang said.

“Of course, what do you want to buy?” Prince Prince asked.

Lu Yang clicked the purchase interface and bought 500 types of gold and dark gold 130 enchant recipes he can buy now.

Suddenly, Lu Yang felt someone behind him, he was shocked in his heart, but he did not immediately turn around, but moved in his heart.

He guessed that this person should be the player who found him under the Dragon Slay Warrior, and it is estimated that he would stay here to monitor after finding himself.

Lu Yang sneered, he turned and walked into a room summoned the water body, and then ordered the water body to fly back to Chiyang City, and handed the crow blood and the enchanted scroll to Tu Feng.

Then Lu Yang stepped out of the house, ordered the body to be replaced by a mount, and ran into the depths of the Scorched Earth Forest. The thief who had been behind Lu Yang had to change to a mount and followed him far away. He could not believe himself People can kill Lu Yang.

“Boss, where have you been? Lu Yang got into the scorched forest again, as if to go on a mission.” The thief reported to the Dragon Slayer warrior.

The Dragon Slayer warrior quickly said, “Don’t show your stuff. I’m on my way, and it will take about 2 hours to arrive.”

“It’s too slow. I’m not sure if Lu Yang can stay here for 3 hours. However, it should be possible to look at it like this. He ran very deep this time.” The underwriter reported.

“Don’t be found, or you will lose all your achievements,” the Dragon Slayer warned.

“Boss rest assured, I was following 1 km away and tracked by the footprints left by the landing horse, he could not find me.” Said his men.

Chapter 1098 - Go to war

While the Dragon Warrior is chatting with his subordinates, what he didn’t know is that more than 3 million players in the Jagged Brothers League are massing, but the way of assembly seems so unobtrusive.

“Listen, our 10,000 people will not fight the copy today, they will follow me to fight to upgrade and upgrade.” A commander said to the 10 commanders around him.

“Brother, what are you doing to upgrade, how good is it to bring your brothers out of gear to make money.” A head said.

“No nonsense, there is nothing to make money from playing equipment. I will take you to a place where you can make a lot of money. All of them are ready for me. The top equipment is all here. Don’t embarrass me.” The commander of the army said sharply.

“Yes.” The 10 heads responded immediately.

Uh ...

Orders like this were issued in the regular 300 legions of the Iron Brotherhood, and more than 3 million official combat players began to gather in large numbers.

The other side.

The general commander of the Howling Wolf Corps and the vice chairman of the Jagged Brothers Alliance, with lofty sentiments, began his final preparations.

In a valley outside the city of Jiangping, he looked at the mad wolf that he had assembled to more than 90,000 people and said, "Brothers, there is an event tonight. From now on, all communication equipment will be shut down, offline, Outreach."

"Brother, are you going to fight tonight?" A chief of the army asked.

Pride glared at the man and said, "Don't ask, you shouldn't ask. You know who you are. If this is done, don't blame me for not talking about being a brotherhood for so many years. I want to go and let my men go. Any news is revealed, no matter who it is. "

"Yes," said the ten commanders together.

Wu Haoqing said, "Let's go and transform into a giant wolf. Follow me into Wanzhangxia."

Wanzhangxia is the most secret way for Jiang Pingcheng to Ningzhou City to enter the Nine Star Alliance. Now it is occupied and upgraded by the people of Nine Star Alliance, specifically to prevent the Brotherhood of the Iron Blood from assaulting the city of the Holy Spirit of Nine Star Alliance.

Originally, this was a foolproof move. A large number of casual players upgraded here, and a professional high-level team was here to guard it. It would be almost impossible for Assault Brothers to attack from here no matter what kind of occupation.

It is a pity that the glaciers and dragon-slaying fighters in the Nine-Star Alliance, and the Tianlong in India did not expect that the person guarding the Manzhangxia was the God of War I in the city of the Holy Spirit, who had already surrendered Lu Yang.

豪 While leading the 100,000 Wolves Guard with lofty sentiments, a banquet was being held within the Nine Star Alliance.

In the city of victory, the third floor of the Nine Star Alliance, the other eight presidents of the Nine Star Alliance just gathered here.

“The tragic autumn wind, why do you call us all to the city of victory, and also say what to choose Hua Kui, what is going on?” The matador asked curiously.

Seven people, including the sad fan Qiufeng, God of War I, Pope I, the Black Cross, and the glacier, laughed. They glanced at each other and eventually fell on the sad fan Qiufeng collectively.

Bei Fan Qiufeng said, “Just as a person who doesn’t understand style, don’t know yet. Tonight, it’s the top card of not returning to the building, it’s also a day of famous talents and stunning beauty.”

“Choose a lover?” The matador asked.

The sorrowful fan Qiufeng whispered in his ear, the matador’s face immediately showed a clear look, and he laughed and said, “Some of you are not interesting enough, and I have not been notified of such a good thing.”

Speaking in a thick Argentine English, Lu Glacier said: “This matter was temporarily decided by Ria Ning. Otherwise, I would not invite you to come together.”

Puppet Pope I said with a laugh: “Looking at the appearance of the glacier, I must have thought about it.”

Everyone laughed.

Glacier was not angry, saying proudly: “Of course, this is a beautiful mixed-race woman from eight countries who knows the four languages. If she didn’t want to auction her first time, and pursued normally, where would I have this opportunity? Brothers, you must rob me, I’ll come to you, but let you support me. “

The Black Cross and others laughed again.

The camel's long knife asked: "This non-returning building was established by the Huaxia people. The background has nothing to do with Lu Yang."

Pope I said, "You do n't know about this. This is not going back to the building. It was built by the Germans. This German is not anyone else. It is the first time that the most famous company in Europe specializes in auctioning girls for the first time. Rauch. "

"Fuck."

"It turned out to be him. I've heard that this grandson turned the company into the game."

Uh ...

The fifth-generation grandson of the owner of the famous European auction girl's first website founder, von Rauch, is a legal form in Germany. Since its popularity 200 years ago, the company has been searching for the best in the world. Girls also accept girls' voluntary registration. As long as they are really beautiful and can be sold at prices, they will send messages to the super rich in Europe, the United States and the Middle East for him.

If the rich are interested in certain girls, they will hold auctions, and even when they were the most mad, they also held reality show auctions on television, and boys and girls sold the first night on TV openly. How crazy! Let these people not know.

The bullfighter said to Glacier in amazement: "I have read relevant news. Several famous girls last year were auctioned for more than \$ 3 million. Brother, are you sure you want to bleed?"

Lu Glacier looked at the curtain that was not opened in the distance, and said with emotion: "I fight for her. No matter how much others pay, I will pay a higher price. The people of Rhea must be mine."

The bullfighter and others moved.

Wei Beifan Qiufeng said with a smile: "You guys, you have a chance, this auction is not a Rhea, there are more than 100 girls, everyone has a chance."

“Hey, this is interesting, let me see if I have a chance.”

“me too.”

Uh ...

The other presidents said one after another.

After Xu Glacier watched them sit down, instead of sitting with them, they went down and didn't know what to do.

The bullfighter looked at the back of the glacier downstairs, and he smiled and said to a few people around him: “No wonder the glacier called us all this early. I'm afraid we will grab him.”

The camel's long sword also put down his caution, saying, “In fact, I am also very interested in this Rhea. They are all glaciers. I told them in advance. We are not ready to grab them now.”

The Black Cross asked, “Is it really that pretty?”

The camel's long knife opened the favorites and shared a photo to each of the Black Cross and the matador. The extremely beautiful woman on the top played the harp gracefully.

“My God, I feel I am in love.”

“It's beautiful enough.”

Uh ...

The sorrowful fan Qiufeng, God of War I and Pope I looked at the Black Cross and others who had already entered the set, with sneer expressions on their faces, glanced at each other, and nodded each.

“Except for the Dragon Slayer, all the other presidents have been mobilized to the city of victory.” God of War I sent a message to Lu Yang.

“Very good. After 2 hours, my people will pass Wanzhangxia. You must transfer them all within one hour.” Lu Yang said.

“Rest assured, everything is fine.” God of War I said.

计划 The plan was completed on the other side. On the other side, Tu Feng, Mu Yi, Han Zhong and others began to mobilize a large number of basic materials to make the final preparations for the war.

For half an hour.

One hour.

Uh ...

Two hours.

Do not return to the building, Riya has already started her performance, and is showing her body, appearance and talent to all the rich who are on the court.

Wu Glacier and others were deeply trapped and couldn't extricate themselves, but when they participated in the auction, God of War I, Pope I and Sad Fan Qiufeng suddenly disappeared into the room.

“Strange, what about the three of them, Ares I?” Camel asked with a long sword.

“Choose them, choose people quickly, otherwise you won’t be able to grab them for a while. These prices are only 300,000 US dollars, but they are all first-class universities. They are worth the money.” The Matador said.

“That is, just like the dragon fighters, they are simple-headed animals. Don’t ignore them, those who don’t understand elegance.” Black Cross said.

Uh ...

Man Zhang Gorge.

God of War I appeared with several vice-chairmen at the gate of the canyon.

“Boss, why are you here?”

“Boss is good.”

Uh ...

的 The dozen or so heads in charge of defense all knew God of War I, because God of War I was their food and clothing parent, and they were paid.

God of War I nodded with satisfaction and said, “Thou hast worked hard here. Now listen to my orders and return to the city of the Holy Spirit.”

“All?” Asked a head.

God of War I said, “Yes, all members, the guild will soon make a big move, and I ask all members to participate in the war.”

“Observe, I’ll tell them now,” said the head.

God of War I said: "Nothing is allowed to be passed on, only to return to the city of the Holy Spirit and give players free upgrades."

"Yes." A dozen heads of leaders spread out. Although everyone had doubts, they resolutely executed the order.

God of War I watched the evacuation of the personnel. Just under 10 minutes after all the members had evacuated, under the dark night, the arrogant and tens of thousands of mad wolf ran quickly into Manzhangxia.

"Everyone is not allowed to make a sound, use the acceleration scroll, and pass quickly." Said in the simulation group with enthusiasm.

"Yes."

"Yes."

Uh ...

100 heads of talk in succession.

City of the Holy Spirit.

God of War I did not assemble a large number of players, but stood on the city head. He did not know whether there were spies in the guild and Glacier and Dragon Slaying soldiers, so he did not dare to recruit in advance, but only summoned all the legion leaders.

也 The same is true of Pope I and the sorrowful autumn wind in the main city of the Silver Light and the main city of the flying fire. Both of them just summoned the head of the army.

“Dude, has the wolf warrior entered your city of the Holy Spirit?” Pope I asked.

God of War I replied, “Not yet.”

“Once the wolf warrior enters your city of the Holy Spirit, tell us two at once, and we will immediately call the players.” Said the sad fan Qiufeng.

God of War I said: “Although we can’t gather players now, don’t just sit back and inform your team leaders to upgrade each team as a unit to integrate everyone.”

“Make sense,” said the sad fan Qiufeng.

The two are ready to go.

Luyizhou City, the main capital of the city.

More than 30 army commanders such as Luzhuo, Tu Feng, Tian Yao, and White Lion are gathering in a special space to discuss war with Lu Yang.

“Our timing of the war must be sudden. Jiang Ping, Sui Yuan and Ningzhou must be defeated in the First World War and they cannot be given any defensive opportunities.” Lu Yang said.

“I’ll hit Jiang Ping.” Zhou Tianming said.

“I’m going to fight Ningzhou.” White Lion said.

“I’ll hit Suiyuan.” Xia Yuwei said.

Lu Luyang said, “Okay, just the three of you, then Zhou Tianming is responsible for holding Jiangping City and Huai’an City to prevent Tianlong from attacking Wuyue City.”

“Yes,” Zhou Tianming said.

Lu Yang went on to say: “Zhuo Jiu is still responsible for defending the Tianjian Fortress, to prevent Liu Jie from robbing in the fire, Liang Yun defending the tiger mouth, and the old man in the twilight sits in the army with a strong breeze and once the guild wants to grab the main city, Kill them. “

“Yes,” said the old man.

Lu Luyang said: “The rest led the large army and killed the Nine Star Alliance in a wave.”

“Yes,” said bitter love for half a lifetime with Sun Yu and others.

“Boss, I’m only 30 minutes away from the city of the Holy Spirit.” Wanqing Wanzheng called.

“Good job, everyone immediately summoned their own men, ready to attack.” Lu Yang said.

“Yes.”

Uh ...

Lu Yang’s consciousness returned from the special space. He put on a flying carpet and flew back to the place where the Consortium of Worlds was stationed.

The thief, who followed the footsteps 1 km away from Lu Yang, suddenly felt black above his head, looked up, and saw Lu Yang standing on the flying carpet, scaring him to hide in the nearby forest.

I saw Lu Yang flying above him without looking at him. He quickly patted his chest and said secretly, “I was scared to death, but fortunately I wasn’t found.”

But what he didn't know was that beside him, there was a body of water hidden behind him, with a stealth scepter, which can be hidden for 2 minutes. He took out a pure water bottle, secretly poured some water out, and then made himself invisible. When he got into the water, he was at the feet of the thief.

“Boss, where have you been?” The thief asked.

“It's almost time for the consortium of Wanjie Consortium. What's wrong, Lu Yang is gone?” The Dragon Slayer asked.

“Don't run, he flew back to the Consortium of Realms,” said the thief.

什么 “What? He flew back?” The Dragon Slayer said excitedly: “It's just here, brothers, hiding in the Consortium of Realms, our opportunity is here.”

More than 100 people immediately hid in various rooms of the Consortium of the Realms of the Dragon, while the dragon-slayer soldiers hid in the room behind Prince of the Realms of the World.

In less than half an hour, Lu Yangfei returned to the Wanjie Consortium. Instead of falling down immediately, he looked around and found that there was no one outside the station of the Starjie Consortium, but he knew that the Dragon Slayer had arrived. .

控制 He controlled the flying carpet to land on the roof of the Prince Consort's house.

“Summon”

A slump of water appeared on the roof.

Lu Luyang sneered on his face, holding the magic potion in his hand, jumped out of the house, and came to the Prince.

“My friend, you are back.” The Prince said with a smile.

Lu Luyang said, "Yes, I'm back."

"Haha, Lu Yang, you just came back, you are dead." The Dragon Slayer suddenly burst out of the Prince's room.

Lu Lu pretended to be startled and asked: "Dragon Slayer? Why are you here? What are you doing?"

The dragon soldiers laughed and said, "What am I doing? Of course I killed you!"

"Dare you? Are you provoking the war between the Jagged Brothers Alliance and the Nine Star Alliance? Do you take on this responsibility?" Lu Yang said in anger.

"Hey, I can't afford it. That's the last word. Leave the demon heart and your special equipment, brothers, give me." Shouted the Dragon Slayer.

"Kill him." Dozens of dark warlocks jumped out, while pointing his right finger at Lu Yang.

"Finger of Death"

Dozens of crimson rays flew towards Lu Yang, and if Lu Yang was hit, Li Zhi was on the spot.

"Thinking beauty." Lu Yang launched his flashing skills, quickly jumped forward, and flew to a distance of 100 meters.

He just landed, and there were a dozen druids around him.

"Big Thorns"

☀ Countless vines trapped Lu Yang.

“Spacetime Assassination”

Twenty or so thieves appeared and stabbed daggers at Lu Yang’s head and heart.

“Frozen Body”

Lu Yang uses his skills to turn his body into a huge piece of ice, so all the time and space thieves’ skills hit the ice.

“Hey, you have finally become a piece of ice, to see how I killed you.” A dragon spear appeared in the hands of the Dragon Slayer, and he threw it vigorously and rushed towards the ice cube of the landing sun.

This is a special skill used by the soldiers to break the mage’s ice body. Once the ice block is broken, Lu Yang will be attacked again.

Just when a group of thieves desperately cut ice blocks to prevent Lu Yang from escaping, while spears flew to Lu Yang.

The Prince of the Wanjie Consort Roared: “Who dares to attack our friends of the Wanjie Consortium and kill them.”

The cannons on the top of each house of the Wanjie Consortium aimed at the Dragon Slayer soldiers.

“Boom”

“Boom”

“Boom”

Uh ...

Countless artillery fires killed thieves around Lu Yang just when these thieves died.

“Water Mist”

The Pleiades Consortium camp was shrouded in fog, and Dragon Slayers couldn't see the surroundings.

“Summon”

Speaking of the spell as a twin, Lu Yang flew to Moisture's side instantly.

“What about people?”

“What about people?”

“I didn't see it.”

“Quit and exit.”

怎么 “What a fog like this.”

Uh ...

Lu Tulong soldiers and others instantly lost Lu Yang's figure, and were attacked by the Consortium of Realms, and immediately lost their sight.

Lu Yang stood at the top of the Prince's House of the Wanjie Consortium, watching the Dragon Slayers running around and shouting with a loudspeaker: “Sold Dragon Slayer, you dare to attack the president

of the Iron Brotherhood, since this is your Nine Star Alliance Do n't blame me for making this decision. Starting today, the Brotherhood of the Iron Blood officially starts a war against the Nine Star Alliance. "

"Hit and fight, I'll be afraid of you?" The Dragon Slayer warrior scolded and looked around.

Chapter 1099 - Sad Fan Qiufeng 3 People Rebellion

Lu Lu sneered.

[World Channel] Lu Yang: As a result of a sneak attack on one of the Dragon Star fighters, one of the Nine Star Alliance guilds, the Brotherhood of the Iron Blood has officially launched a war against the Nine Star Alliance.

[World Channel] Lu Yang: ...

Uh ...

The same sentence, Lu Yang sent three times in a row, issued a notice to all players in the New World, the original noisy World Channel quieted down instantly.

"Iron brothers want to play nine star alliance?"

"It turned out to be a direct declaration of war."

"There is a good show this time, Jiuxing Alliance and Tianlong are alliances."

“Nine Star Alliance is not weak, but they have 9 presidents, more than 3 million players can participate in the battle.”

Uh ...

On the World Channel, the voice of the Brotherhood of the Decaying Brothers is everywhere.

If it was a month ago, everyone would think that the Jagged Brothers Alliance is strong enough, and it is easy to settle the Nine Star Alliance. Recently, the Nine Star Alliance has got through the 120-level nightmare copy of the Raiders and some 130-level copy of the nightmare difficulty Raiders, resulting in their Strength is not much worse than the Jagged Brotherhood.

On the other side, Tianlong has the strength that is not weaker than Lu Yang. For one month, the high-level players on both sides have been limited to the level between 130 and 135. No one can improve to it faster. Level 140 replaced the level 140 dark gold equipment, so no one was optimistic about Lu Yang's attack this time.

The glacier and the Black Cross who were in the auction without returning home were stunned by Lu Yang's announcement and couldn't even care about the auction.

“What's going on, didn't the Dragon Warrior say he went to fight equipment? How did he sneak attack Luyang?” Camel's long knife said in horror.

“The ghost knows, please contact the Dragon Slayer.” The cold sweat on Glacier's face came down. He took the initiative to call the Dragon Slayer, and immediately after the ring, the Dragon Slayer answered the phone.

“What happened to Lu Long, is Lu Yang telling the truth?” Glacier asked openly.

“Yeah.” The Dragon Warrior didn't care, and Lengheng said, “I went to trouble him, but unfortunately didn't kill him.”

Lu Glacier and others suddenly panic.

Lu Glacier scolded: "Slaying dragons, you are confused, so many places where you can fight equipment, you do not go, what did you kill Lu Yang, and now he is at war with us, what do you say?"

"Yeah, offended what Lu Yang was doing. Now that he has declared war on us, what can I do?"

"This is ruined, how can you fight with the Jagged Brothers?"

Uh ...

The camel's sword and the black cross frowned, and said depressed.

Wu Tulong warrior scolded: "Afraid of him? Isn't it a Jagged Brotherhood, we have 3 million people now, and it's time to fight him, he declares war on us, I can't ask for it."

Wu Glacier and others were speechless. They did not expect that the dragon-slaying soldiers were so belligerent and dragged them into the water. They didn't know what to say for a while.

The camel's long sword thought about it, and suddenly he reacted and scolded: "You dragon, you are a bastard, you are deliberately right?"

"Hey, yes, I did it on purpose," said the Dragon Slayer.

"Asshole, we said yes, forming an alliance is only to deal with the enemy's attack, not to take the initiative to attack the enemy, you now do this, I quit." Camel scolded.

Tu Long warrior proudly said: "Okay, you quit, I'd like to see, if the nine-star alliance disbands, Lu Yang's Iron Blood Brotherhood can let you out, which will be dead by then."

"You ..." Everyone was speechless.

Glacier sighed and said, "There is no way, we can only unite to deal with Lu Yang's attack now. It is too late to say anything. Dragon Slayer, you come to the main city of the city of victory. Let's discuss together. Attack on Lu Yang."

"It's pretty much the same," the Dragon Slayer said proudly.

"Let's go, too." Glacier looked around, and asked with a little surprise: "Where are the three God of War I, Pope I, and the sad fan?"

"I don't know, it was here just now," said the Black Cross.

"I'll send them a message and ask them to hurry up and let's all go to the city's capital." Glacier said.

The presidents nodded their heads and used a special teleporter to teleport directly to the city's mansion. As soon as they landed, they saw the dragon-slayer fighters standing by.

"Dididi"

Special room beeps for 6 people sounded at the same time.

"It was from Tianlong, let's all go," Glacier said.

The light flashed.

6 people entered the special space together and saw Tianlong sitting opposite them.

"What's going on?" Tianlong frowned.

Wu Glacier glanced at the crowd, took the initiative to take the conversation, and told what happened.

“All blame Dragon Slaying Warriors, nothing to find anything.” Camel scolded unhappily.

“Don’t join the war if you have the ability, I see how you turn out,” the Dragon Slayer warned.

“You ...” Camel’s sword was scolded, but was stopped by everyone.

Tianlong said, “Okay, don’t make a noise, we should fight a fight. We are not weak now, but you have done too much this time, you must play a guild war and inform us at least in advance. Let’s all be mentally prepared. We were so unprepared that we didn’t gather players so suddenly. “

He Tulong warrior smiled and said, “Isn’t Lu Yang not prepared?”

“Yes, what do you think?” Glacier asked.

The Dragon Slayer warrior said: “We contacted Liu Jie and one step to the sky, and let them attack the tiger mouth and the Tianjian fortress. We quickly gathered players to attack Yizhou City, and Tianlong went out to attack Huai’an City. Lu Yang waged a war. At this stage, everyone’s equipment is similar. I don’t believe we can’t win Lu Yang. “

“This is a good idea,” Tianlong said.

“I agree,” said Bing Glacier.

“Let’s arrange for the players to gather.” Tu Long warrior glanced at the crowd proudly, he felt the head of the army, asked after a glance: “Where are the three of God of War I, Pope I, and sad fan Qiufeng?”

“I have invited three of them, I don’t know why, I never clicked in.” Tianlong said.

“Strange, I asked them what was going on.” The Tulong warrior cursed and said grinning, “I usually feel that the three of them are doing things awkwardly. Now that such a big thing has happened, it is still awful.”

“How can you three still not come.” Dragon Slayer asked in the simulation group.

God of War I has summoned all of his men to the city of the Holy Spirit, and is now gathering all his strength. More than 100,000 people have gathered. When he sees the dragon fighters, he responds, “I urge you, I am on the front line of the battlefield. What am I going to do, must I gather the players first, and the trouble you caused is still urging me, I ... “

The God of War I directly scolded the Dragon Slayer in the group.

Puppet Pope I cursed: “I’m in charge of defending Suiyuan City, but I’m so close to the Iron Brotherhood. If they attack the city and kill them, who will pay for this responsibility, I will drive you to X.”

Sad fan Qiufeng cursed: “I’m defending Jiang Pingcheng, don’t you know how much gold is from the Iron Brothers Alliance’s Huai’an City? Iron Brothers Alliance has nearly a million standby players in Huai’an City at any time. Come here, what should I do when I lose at a meeting? “

The three of them yelled at each other, and did not scold the dragon fighters. He also knew that he had not informed them in advance of the fact that he had started the war, and he was especially sorry for the few of them. Relying on the three of them to delay the time of the Iron Brotherhood, it is not easy to say much.

“Hey, am I not in a hurry, then the three of you continue to prepare for defense, we will gather the players, and contact Liu Jie and one step to the sky at the same time.” Said Dragon Slayer.

None of the three of them ignored him.

The Dragon Slayer warrior was boring and said, “I have let my men start to gather. How about we contact Liu Jie and one step to the sky? I think if Lu Yang wants to fight, it will take a few hours or tomorrow. It is possible to attack. “

Wu Tianlong and Glacier nodded.

“I’ll contact Liu Jie.” Tianlong opened the intercom and dialed Liu Jie’s phone.

“Dididi”

杰 Liu Jie is gathering players outside the main city. He has just seen the news that the Brotherhood of the Iron Brothers has fought against the Nine Star Alliance.

“Hey, guess who called me.” Liu Jie said with a smile to Park Renyi and the dead grass.

“Tianlong”

“Tianlong”

Park Renyi and counted dead grass said at the same time.

“Haha, you two guessed very accurately, it is him.” Liu Jie looked at them happily and asked: “I can’t connect.”

“Of course we will pick it up.” Said dead grass said: “This time is a good opportunity for us to attack the Jagged Brothers Alliance. In the past, Jagged Brothers developed faster than our equipment level. Now it is the strength and When the other guilds showed the least gap, it was the best opportunity to attack him. “

Park Renyi said: “I also agree that if my previous war with Lu Yang happened this month, I would never be defeated by Lu Yang.”

Liu Jie said, “Since you both said so, let’s fight.”

He connected Tianlong’s phone and asked, “What’s the matter, brother Tianlong.”

Wu Tianlong said: “I believe that such a smart person as President Liu Jie must know the purpose of my call. What about Lu Yang?”

杰 Liu Jie smiled and said, "It's OK to fight, but Brother Tianlong, I can't help you fight for nothing."

Wu Tianlong said: "How can you fight for me, Lu Yang is your great enemy."

Liu Jie said: "Although Lu Yang is a great enemy, if I defeat Lu Yang for you, the Northeast region will soon fall into your hands. Such a large map, as long as you control the tiger Mouth and the sky sword fortress, no one can enter it, which is equivalent to a tenth map of your drug bully, you are too suitable."
“

If Lu Yang is defeated, Tianlong will easily annex the Jiuxing Alliance and the Green Water Ghost. At that time, as Liu Jie said, the entire northeast will be Tianlong.

Wu Tianlong also knew this, he said with a smile: "President Liu Jie, what do you say I should do?"

Liu Jie said: "If it is beaten, the Tianjian Fortress, Chiyang City and Jiusei City will belong to me."

"Of course you can," Tianlong said immediately.

Liu Jie said: "This is not a matter of empty words. In order to prevent you from laying down these main cities that Lu Yang has not given me, you must give me 500 million credit points in advance."

Wu Tianlong said: "This is too much, I can't take it out, and I will never lose faith with others."

Liu Jie is not stupid. How would he listen to Tianlong's words and say, "No, if you don't agree, I will definitely not send troops. I will not do it at a loss."

Tong Tianlong frowned, thought for a while, and said, "Well, 500 million is 500 million."

He decided that even if he ran away from Lu Yang, he would not give Tian Jie fortress to Liu Jie, although he lost 500 million to make him very distressed, but if he lost the Tian Jian fortress, he had to guard Liu

Jie's offense, which is too inappropriate for him, he would rather spend 500 million to buy a peace of mind.

"Okay, refreshingly, as long as you call the money, I will send troops." Liu Jie said.

Wu Tianlong drafted the contract. After the two parties signed the papers, they uploaded 500 million yuan to the official trusteeship office.

"I will summon 2 million people to storm the sky fortress." Liu Jie said.

Wu Tianlong hung up the phone and called another step to board the sky.

Compared with Liu Jie, he can speak better in one step. He said, "Give me 50 million, and I will send troops to attack Lu Yang. Afterwards, I don't want the main city."

"Okay, happy." Tianlong immediately paid the money.

"Convene a million 130-level players, I want to attack the Jagged Brothers League again." Said to his opponent in a loud voice.

"Yes."

Uh ...

The entire northern part of the new continent is once again in turmoil, but this time is different from the last time. This time, Liu Jie and Yibu Dengtian believed that they would be able to win Lu Yang.

Xi Tianlong hung up the phone, returned to the special space, and excitedly said to Glacier and others: "I have invited Liu Jie and One Step to the sky. They will now start to convene players, and they can launch an attack on the Brotherhood of Iron Blood tonight."

“Okay.”

“Great.”

Uh ...

Yan Glacier and others all showed an excited look.

“With the addition of the two of them, at least one million players in the Iron Brotherhood can be contained, this time our win is even greater.” The Matador said.

“Hey, let Lu Yang take advantage of rising to level 130 before, this time we are all level 130, all dark gold equipment, see what tricks he can play.” Said the dragon soldier.

“Yes.”

“Let’s go back and gather the players.”

Wu Tianlong said: “I have let my men gather to Wuyue City, and I can go into battle as soon as 2 hours.”

“The three of God of War I have assembled for half an hour. It is estimated that the preliminary defense preparations for the three main cities have been made. The people on my side have assembled tens of thousands of people. I will take people to support them.” Glacier said.

“Strange, why didn’t the three of them come to a special space, even if they sent a deputy to talk about the situation in front of them?” Camel’s long knife asked.

Just at this time.

[World Channel] Pope I: I announce that starting today, the main city of the Silver Light will surrender to the Brotherhood of the Iron Blood.

[World Channel] God of War I; I announce that starting today, the City of the Holy Spirit will surrender to the Brotherhood of the Iron Blood.

世界 [World Channel] Sadness of Autumn: I announce that starting today, the City of Flying Fire will surrender to the Iron Brotherhood.

Uh ...

The same sentence was sent three times on the World Channel in a row, so that the dragons and glaciers, etc. under discussion, and Liu Jie, who was gathering players, were stunned at the same time.

“What? The three of God of War I betrayed?” Tianlong asked in shock.

“I’ll ask them what’s going on.” The Dragon Slayer picked up the phone and called to God of War I, but without waiting for him to call, his call came over.

“Boss, it’s not good. The triumphant defense of Suiyuan City, the Pope I of Ningzhou City, and the God of War I of Jiang Pingcheng opened the gate. The people who actively released the Iron Brotherhood entered the city. Too few to resist, send someone to support it. “

System Tip: Suiyuan City is Occupied by the Iron Brotherhood

System Tip: Ningzhou City is Occupied by the Iron Brotherhood

System prompt: Jiang Pingcheng is occupied by the Iron Brotherhood

The three main cities are instantly missing from the Nine Star Alliance teleportation map.

“Three bastards, they hurt us.” Glacier said coldly.

Suining City.

Lu Yang stood on the head of the city and looked at the nine-star alliance being hunted down in the city. No, there should be a smile on the face of the player who should now be called the six-star alliance.

He didn't expect that this battle would be so simple. He originally thought that at any time, the Nine Star Alliance would send people to take strict precautions in these three main cities, but he did not expect that it would be because of a woman named Rhea. All five of them went to support, none of them stayed in these three main cities to be on duty to defend.

And their main force, because no one directed it, was brought into the ambush circle by three fans of the sad fan Qiufeng. Lu Yang let the three males of the Bai Family launch an attack with the members of the Jagged Brothers Alliance, crushing their main force at once com ~ then entered three main cities.

“Boss, the city has been cleaned up,” said bitter love for a long time.

Lu Luyang said, “Leave 10,000 people to defend, and the rest will attack me, and the fans will fall in love, God of War I, and Pope I, leading people to open the way.”

“Yes,” said more than 30 vice-chairmen together.

Iron Brothers Alliance and Sad Fan Qiufeng trio joined forces together, the total number of people instantly exceeded 3 million people, of which the Sad Fan Qiufeng three gathered 600,000 people, Iron Blood Brothers League came to gather more than 2.4 million players.

Of these 2.4 million people, 300,000 are defending at the tiger mouth, 300,000 are defending at the Tianjian Fortress, and 500,000 are defending at Huaian City. Only 1.3 million people are really coming, but these are enough.

The 600,000 people in the tragic autumn wind go hand in hand from the city of the Holy Spirit, the silver light and the city of flying fire, and pounce on the city of glory, victory, and war. At this time, the nine-star alliance is left with these presidents. On each side, the number of players gathered is not enough for 100,000, and the total number is not enough for 600,000.

Lu Glacier and others were already stupid. Six main cities were lost in a blink of an eye, and three of the allies were missing. At the same time, these three were still at the top.

For such a long time, in order to ensure that the main city ahead is not lost, Glaciers and others will invest a certain amount of money every day to increase the battery of the Holy Spirit, Silver, and Flying Fire.

Chapter 1100 - Capture the City of Mahatma

I have n't stopped for such a long time. The total value of the defensive forces of these three main cities is more than 100 million, but now it's gone. The total value of the defensive forces of these six main cities is not enough. It depends on the defense in front to ensure their safety.

"What can we do? Lu Yang brought over 2 million people, and now the three of them are more than 3 million, and the six of us add up to more than 1 million people. Ah. "Camel's long knife said in horror.

The bullfighter was also panicked. He looked at the dragon-slayer soldier and scolded: "It's all **** because of you asshole, you've mistreated us."

The dragon-slaying soldier is confused, and he heard the words curse, "How do I know that the three of them will rebel, and this has nothing to do with me."

"I was just killed by you. If you don't provoke Lu Yang, how can these things happen?" Camel scolded.

"You try to say one more." Dragon fighters were scolded anxiously.

"Enough." Glacier roared, cursing: "It's this time, what noisy, hurry up to find a way."

A few people are okay.

Xu Glacier looked at Tianlong and said anxiously, "President Tianlong, please help us quickly, or we will all be finished."

Wu Tianlong was angry at the moment. He encountered such a situation for the first time and said, "You gangsters don't even know that there are traitors inside."

"Thousands of mistakes are our faults, you must find a way to help us." Glacier asked for help.

Tianlong is not very worried about this matter. He originally did not expect the Jiuxing Alliance to block Lu Yang. After all, the Jiuxing Alliance did not have a forbidden spell mage and special army. It was just ordinary players and guilds with top-level professions. In battle, failure will happen sooner or later.

Although they lost too quickly, Tianlong already greeted Liu Jie and one step to the sky. It does not require the joining of Jiuxing Alliance.

Moreover, if a large number of Lu Yang's players are trapped in the counterattack of the Jiuxing Alliance, he has a better chance of defeating Lu Yang.

At this moment, Ran reported to him in horror.

"Chairman, our city of Mahatma was attacked by the Brotherhood of the Iron Blood, and the resurrection point was seized by them."

"What?" The cold sweat of Tianlong's forehead flowed down.

"How is that possible?" Tianlong said excitedly.

Where does he know that God of War I announced the start of surrender to the Brotherhood of the Iron Blood, and ambush outside the city of the Holy Spirit, with 30,000 shadow blood wolves and more than 60,000 silver moon demon wolves using acceleration scrolls and wind elves at the same time, quickly wear After martial arts, the city of the Holy Spirit entered the territory of Tianlong.

The shape of the city of the Holy Spirit itself is very special. The area connected to India is not allowed to pass by. There are only the men arranged by God of War I. Therefore, there are more than 90,000 people passing through with pride, and few people see it. .

The Phantom Blood Wolf has a limit of 650% of its moving speed. The Silver Moon Demon Wolf also has wind elves and accelerated scrolls. It can also approach 650% of its moving speed. Therefore, in less than 20 minutes, it rushed to the city of the majesty Down town.

At this time, the city of the majesty has not felt the coming of the war. Except for Rand, who doesn't know what reason to take thousands of people to stay in the city, the rest are ordinary players between level 100 to 120 and other The game of small guilds and casual players, a peaceful atmosphere.

He ran all the way down to the city without encountering resistance. Facing this situation, he rushed into the city with a person, occupied the safe area easily, and forced the defender Rand into the city mansion.

"You'll send someone to reinforce, or the city of the majesty will let Lu Yang down." Rand said anxiously as he watched more and more devil wolves gather outside the city's main government house.

"I'll send someone over." At this time, the players in Tianlong only concentrated more than 500,000 and were preparing for war in Wuyue City, but the enchantments, potions, and members of these people were not complete. Participate in the war.

He immediately called Salman and said, "Take 100,000 people to reinforce the city of Mahatma. Don't let it be lost."

Salman was in Wuyue City. He heard the words and said in an embarrassment: "Sir, my 100,000 people need a period of time to set out and have to choose people. Without half an hour, I can't go out. "

With 100,000 people out of town to attack, without Lu Yang, he would have been prepared so early and divided the personnel into groups of 10,000 people. It would not be possible to immediately form a combat team.

Especially these players like Tianlong, they have been playing 100 or 20 copies, and suddenly announced the assembly, melee, ranged, mage, healing, all have to regroup, and some have to distribute potions, plus The whole team went out of town.

Dozens of people are still unable to march in a unified way, let alone hundreds of thousands of people. If it is not for the Iron Brothers Alliance to have a studio that can accommodate 100,000 people to conduct, Lu Yang would not be able to do this, but he cannot do so now. The man is Tianlong. He can only roar and let Salman save the city of the majesty anyway, but there is no other good way.

Uh ...

In the city of Mahatma.

Turns into the pride of more than 2 meters high battle wolf Wan Zong is watching his soldiers more than 90,000 war wolves in the city easily harvest the heads of players in the city.

The safe area has been beaten by them, and now the main city of the city of the majesty is not beaten. As long as you enter the city city and replace the guild token, the city of the majesty is the Brotherhood of the Iron Blood.

“Boss, got through, to the main entrance of the main city hall, but there are thousands of shooters and mages on it, all seem to be level 130.” A subordinate came to report.

“Come with me.” Keeping the shape of a war wolf with lofty sentiments, the wolf’s head said fiercely, and he moved his limbs to a position 100 meters below the main city hall.

Players on the walls around the main city hall have been stunned. After playing the game for so long, they have seen for the first time that some players appear in the form of war wolves, and they remain in the form of war wolves even under attack, completely in the form of bites and claws. Slap-based, they don’t know how it was done.

“Damn, what exactly are these enemies? Why haven’t you heard of this unit?” The player responsible for defending the city was Rant. He was the owner of the city of the majesty. He always felt in his heart tonight. Uncomfortable, deliberately brought nearly 10,000 players to upgrade and fight monsters to prevent problems.

Unexpectedly, after all, there was still a problem. Suddenly nearly 100,000 giant wolves rushed into his city and attacked wantonly. Fortunately, he responded quickly, and now there are thousands of people

left by him. The government defended, relying on the tall walls of the inner city, his mind was slightly relaxed.

大家 “Everyone can rest assured that the enemy is in the form of a wolf. It is estimated that they are a special group of soldiers. However, assaults and plain battles are possible for these arms. In the face of siege wars, they can't go up to the inner city without a mage.” Rant encouraged his morale opponent.

“Oh.” A guilty conscience responded.

“Both of us have the courage, we are descendants of God, and we have unrivalled strength, and no one can defeat us,” Rant shouted.

“Hah ~!” Thousands of people roared together.

Under the city.

He sneered arrogantly and looked up at Rant, “Looks very imposing, are you the master of this main city?”

Rant looked down and looked at the pride of the giant wolf and said, “Yes, I'm your Uncle Rant, tell you, as long as I'm here, you don't want to break this main city.”

“Is it?” He sneered arrogantly and turned back to his opponent and said, “It's our turn to play now.”

“Yes.” 100 scarlet war wolves came to the side of lofty sentiments, each of them had a scroll in their wolf's mouth, and bite hard at the same time.

“Click”

The scroll exploded.

“Earthquake”

“Earthquake”

Uh ...

100 100 consecutive ground dragon earthquakes appeared at the same time, the ground around the main government house shook wildly, and the flat ground suddenly raised upward.

A total of 10 meters in width, after rising, it continued to extend forward to the height of 20 meters below the city head.

“Brothers, kill me.” Roar of pride, the first one ran to the city, and the 100 guards behind him ran along.

During the running, 100 guards bit their new scrolls in their mouths.

“Astral Guardian”

“Astrological Faith”

“Mind Astrology”

“The Healing of the Earth”

“Earth Guardian”

Uh ...

辅助 One by one, the auxiliary spells are overwhelmingly falling on the body of the lofty and passionate people. The shadow blood wolf, which has a good defense ability, has a higher defense ability.

“Kill them, shoot them, and the mage hits me.” Rand didn’t expect that the enemy had so many scrolls, and even ran up the dirt **** from below the city using the earth dragon to build up, and only shouted his men to attack.

But they did not know the speed of the shadow blood wolf. Under the limit of 650% of the speed of movement, in just a few seconds, the lofty hero ran to a position 20 meters away from the city head. Leaped forward and easily jumped onto the city wall.

“Kill him,” Rant shouted, pointing at Pride.

Dozens of soldiers rushed up and wanted to besiege.

“Charge”

“Intercept”

“Jump Attack”

Uh ...

A sneer of arrogant wolf’s head appeared, a scroll appeared in his mouth.

“Big Thorns”

Centered on lofty sentiments, thorns spread throughout the city wall within 100 meters around all enemies, all enemies were entangled in the thorns and could not act, including soldiers who rushed over and soldiers who were about to smash Lu Yang. Thorns were trapped in midair.

Lant stared at the pride with horror and said, “How can this be, how can this skill be made into a scroll, this is a special skill second only to the secondary forbidden spell.”

He smiled proudly, and another scroll appeared in his mouth, biting a bite.

“Tsunami”

The giant waves blasted out of the scroll and rushed towards Rand and others.

“Quickly block this skill.” Rant shouted at the defense in front of him.

The ten defenses quickly formed a shield array, which was blocked in front of them. A wave of waves swept across. Rand watched and blocked the attack, but he just sighed and looked up, but his eyes widened in horror, because the city Over his head, tens of thousands of ghost blood wolves have rushed up.

The black and red wolf body made them feel terrified inside, and what scared him most was that the arrogance jumped into the main city hall and came to the **** in the middle.

“No, stop him soon.” Rant’s eyes widened in horror.

“Transformation”

Xu Haoqing changed back to human form, glanced at Rand with a smile, and smashed the guild badge on the shrine.

“噫”

Represents the emblem of the Tianlong party guild is broken, and a loyal brother takes out a badge of the Iron Brotherhood and puts it on.

System Tip: Brotherhood of Iron Man Occupies the City of Mahatma

“Good job.” Lu Yang is leading more than 600,000 players to march toward the city of the Holy Spirit. Today, the offensive team of the Iron Brotherhood is divided into two teams by Lu Yang.

A team led by Tianyao attacked the remaining players in the Nine Star Alliance. Lu Yang equipped him with 10,000 war tauren, 5,000 ancestor tauren, 1,000 skyfire crows, 5000 forbidden mages, 500 archdruids, and 500 Tsunami Mage.

Luyang himself took 60,000 war tauren and 25,000 ancestor tauren, as well as 4,000 skyfire crows, 500 fire phoenixes, 10,000 forbidden spell mage and other regular legions.

“Brothers speed up, the city of the majesty has been knocked down. As long as we hold this main city in time and establish a teleportation array, we are equal to holding the seven inches of Tianlong.” Lu Yang shouted in the whole map with a large horn.

There are rules in the game. If a main city wants to join a party, it must re-establish a teleportation team. It must also spend a lot of time with the game official to buy a transmission channel. All of them must be busy. The fastest time is one day, otherwise you have a teleportation. Scroll, there is no way to resurrect in the new town.

Lu Yang is grabbing this day now. As long as he can hold the city of the majesty, the heavenly city of heaven, the city of asceticism and the city of flying dragons will be exposed in front of Lu Yang’s staff, no matter where Lu Yang wants to fight, Tianlong is tired of coping.

He further said that Lu Yang’s idea was to capture Tianlong as a whole in a short period of time, and completely drive him out of the Northeast region.

Lu Yang sent a message to the enthusiastic and said: “Immediately build a sentry tower, I will take you to the reinforcements first step to reinforce you.”

“It is under construction, and it can be completed in 5 minutes at most.” Said proudly.

Lu Yang nodded with satisfaction, and asked, "Are there any enemies under the city?"

"No, for the time being." Wan Zhuangwan just said, and suddenly changed his stance: "Yes, there are not many people here, it looks like 100,000."

In the north of the city, there are a large number of players driving the acceleration scrolls and wind elves to quickly come over, including many animals such as elephants, rhinos, and bison.

"What's the situation, what are these things?" Asked with pride and ambition.

"Boss, what should I do? Go out to fight or defend the city?"

Pride said: "We are best at field wars, but this time we cannot go out of the city to fight, we must stay under the city. Do n't worry, after 5 minutes the tower is completed, our president will bring a curse. The Mage Corps came to reinforce, and our big troops will follow up. "

"How can we defend the city and wait for them to come up and fight again?" His men asked in distress.

"Stupid, don't we have scrolls? Throw. Don't worry about scrolls being inadequate. Throw them vigorously, as long as you block the enemy's attack." Said with pride.

"Okay, let's try it first, and we will probably be able to hold it for 5 minutes." He said that he had more than 100 scrolls on his body, and the rest were potions. Most of these scrolls were level 2 and level 3. The range magic is a spell that the 130-level dark gold suit player enters into it, which has a high lethality.

Under the city.

Salman just arrived with 100,000 people. The 100,000 people he brought were not all Moonless City. With the surrender of God of War I, Zhou Tianming immediately took 300,000 people to attack Wuyue City in turns, as if Regardless of the player's level and equipment, he hit the wall several times, and the forced Salman did not dare to take away too many players.

In the end, Salman only took 10,000 people, and the remaining 90,000 were players who gathered from the main cities such as the city of heaven, the city of the sacred tree, and the city of the cold wind.

Although he tried his best to come, when he was about to arrive, he still received the news that the city of the majesty was broken, which made him extremely angry.

“Damn, prepare to siege, and take me back to the city of the majesty.” Salman shouted and shook his beard.

“Vice-Chairman, can you tell me how to fight?” Asked Esiva, the head of the giant elephant warrior.

Salman looked back at his men. He had a headache. At this time, thousands of people came from outside the city.

“Who?” Shouted the player in charge of the flank holding the weapon.

“Don’t do it, it’s my own person, I’m Rand, the lord of the city of the majesty.” Rand shouted with a loud speaker while running.

Salman looked sideways and found that it was Rand. He quickly said, “Rand, come here, I am here.”

Being able to become a city owner all carry the title of Vice President, and also a subordinate of Tianlong’s lineage. It happened that Salman had a particularly good relationship with Rand. When Rand City broke before, he Ordered Rand to come back quickly and follow him to break through the main city to pay tribute.

“Salman, my brother, it’s great that you can come over here.” Rant ran to Salman in tears and said gratefully.

Salman asked: “Let ’s not talk about these first, tell me quickly, how many enemies are there on the city, and what kind of occupation are they?”

“The city has about 100,000 enemies. Their profession is very simple. They are all warriors who can become giant wolves. There are no other professions.”

Salman frowned, and asked, “How did they attack the city wall and the city’s main house? The wall of the city’s main house is 60 meters high, 10 meters higher than the outer city walls.”

Rand said, “I’m about to say this. This group of people reveals evil gates. Each soldier is full of various scrolls. The most powerful thing is that their leader is holding a seal. I have only a few thousand people with the scroll of big thorns. I need to defend the four faces of the city’s main house. They use the Earthquake scroll to jump to the wall, and use the big thorns to trap our brothers on the city. The tsunami forced us to defend. After the tsunami passed, tens of thousands of people have already jumped into the city. “

Salman finished the process, looked at the players behind him, and nodded with dozens of people close by.
