

Wild Fire 111

Chapter 111 - Hot sales of anti-toxic drugs

Early the next morning, Lu Yang and the three sisters Han Ying continued to exercise, while Xiao Liang was doing basic training aside. Watching Lu Yang was the same exercise as self-harm, Xiao Liang suddenly understood why Lu Yang was so powerful in the game. .

After 2 hours, Lu Yang ended his exercise and reluctantly went into the bathroom to take a shower.

“Boss, are you okay.” Xiao Liang asked at the door.

Lu Yang worked hard to calm his breath, and said, “It’s okay, boss, I can still resist.”

“As for you, you are too desperate.” Xiao Liang said.

Lu Yang showered without talking.

Soon after several people washed, Lu Yang took them into the game.

City of Saros.

Lu Yang just appeared, and suddenly found that there were countless people complaining on World Channel.

“What the hell, the poisonous poison of the Serpent Canyon is so high that ordinary people can’t beat it.”

“I’m all 8th level, wearing a full set of 3rd level silver gear, and even the oldest one in the Serpent Canyon didn’t see it, he was poisoned by the mobs.

...

Countless players have complained on the World Channel, among them elite players from major trade unions.

Lu Yang opened the ranking list and looked at it. The number of players with level over 8 has reached 2,000.

A large number of these people are still raiding Level 5 copies, but the elite groups of the major trade unions must now be fighting the Serpent Canyon.

The first to get through the Serpent Canyon Normal Edition and Epic Edition will receive rewards notified by all servers worldwide. This increase in popularity is not simply measurable with money.

However, the Serpent Canyon is not so easy to get through. Each monster in it is highly toxic. Even in ordinary books, the boss’s poison attack can reach 100 points per second.

With the current strength of players, even if they are fully equipped with level 5 silver suits, they cannot withstand this toxic attack.

To control toxins, you must have the ability to detoxify or have anti-toxic drugs.

Detoxification is a skill that can be learned after level 10, and at present, it is estimated that Lu Yang has only one person in the world.

Lu Yang knew that his first chance to become rich was coming. Two days ago he saw that many players had reached level 8. However, at that time he was not in a hurry to sell antidote, but instead deliberately let the major guilds first go try to open up wasteland.

He took this opportunity to take Xiao Liang and Han Ying three siblings to upgrade. Now Xiao Liang and three siblings can upgrade in the secret channel by themselves. The elite groups of major trade unions have also found that the poison of the Serpent Canyon is not resistant. In the past, other approaches were needed.

Lu Yang said to sisters Xiao Liang and Han Ying who were in an excited mood: "I can't take you to upgrade today. You can upgrade in the secret channel first. I have some things to go back to."

"Ah, can't take us anymore." Han Fei looked at Lu Yang disappointed.

Lu Yang patted Han Fei's small head and said, "I'll be back in a while, and you'll hit first."

Xiao Liang and three sisters Han Ying only showed happy expressions. Although they can now upgrade in the secret channel independently, but Lu Yang is beside them, not only making fun of them but also giving them a sense of security.

Han Ying said sensibly: "Brother Lu Yang, you are busy with you. I have the arsonist staff you gave me, and I can also lead the team."

Lu Yang smiled and nodded, and waved his hands with the four of them. The whole body of red light shone back to the demon temple, and then he returned to the city of St. Gall through the demon temple. If he walked this way, he could return from the demon temple for free to Saros.

He walked out of Kahn's house and went to the auction hall of St. Gall. He took out 30 bottles of anti-poison from the warehouse keeper, and placed it on the shelves of the auction house for the lowest 3 silver coins and the highest 10 silver coins. Time limit is 1 day.

He then spoke anonymously on the auction house's channel for the price of 1 gold coin.

“The world sells anti-toxic drugs, which can effectively reduce the damage of toxins by 30 points. Buy only 30 bottles quickly.”

After speaking, he found a place to sit down and enjoy this leisure time comfortably. He believed that it would not be long before the bosses of major guilds appeared in the auction house.

In the Serpent Canyon, next to a serpentine boulder, the bosses of more than 20 large guilds such as Twilight, Black Blood, Sword of the King, Bloodthirsty Domineering, and Dominant Fengyun are gathering here with their men, two consecutive copies Exploiting the wasteland and letting them work hard, so far they have not found a way to open up the old copy of the copy, so that they did not enter the copy to discuss outside.

“Old fox, have you made any progress, let’s exchange information.” Xiongba took the vice chairman to find the old man.

The old man in the twilight was communicating with his subordinates, and when he heard the words of the male domineer, he turned his face and said, “Frankly, you said, I didn’t carry it in the first stage of the first year. The poisonous attack caused by the tablets caused too much pressure. The change comes in and the output is not enough. “

The bully frowned. He was also stuck here, saying, “This is not a problem of treatment. We need detoxification skills or anti-poison drugs.”

“Where to find it, the detoxification skills are after level 10, and I have never heard of anti-toxic drugs.” Chi Du said.

Xiongba frowned and said, “I know how to sell anti-drug formulas, but I don’t know how to increase reputation.”

One of the hegemony occasionally saw this recipe with the city clerk in the town of Lakso. Unfortunately, he couldn’t find a way to increase the reputation of Lakso.

On the other side, Black Blood is also chatting with Bloodthirsty Batian, and other guilds are gathered together in pairs.

Just when the leaders of these guilds were at a loss, suddenly, almost at the same time, the bosses of the major guilds and the elite players showed a stunned expression at the same time.

“Someone sells anti-toxic drugs!”

“Hurry back to town.”

The presidents of more than 20 guilds and the deputy around them took out the city roll at the same time, white light flickered, and only the elites of major guilds remained in the Serpent Canyon.

In the auction house, countless players were also surprised by this news. Players who reached level 8 or well-informed players knew that the strange toxin attack in the level 8 copy caused the major guilds to open up wasteland and saw that there were anti-toxic drugs. They clicked on the auction machine to check it.

But when they saw the price, everyone’s face was surprised.

“Three silver coins, this man dare to ask, still the reserve price.”

“Even the major guilds can’t buy it, it’s too expensive.”

3 silver coins is enough for a small guild to maintain a day’s operation. Ordinary players can have 3 silver coins in their hands, which is already a huge wealth.

Players who wanted to make a fortune by taking the opportunity were frightened by the price of 3 silver coins and did not dare to stock up.

Soon, the bosses of the major guilds such as Xiongba and Late Evening rushed to the auction house with their subordinates. When they saw the price, Xiongba took the price to 4 silver coins without hesitation.

He did not hesitate to order 5 silver coins.

“Old fox, 5 silver coins are fine.” Xiongba chose another anti-toxic agent and also raised the price to 5 silver coins.

Bloodthirsty Batian and other guild bosses are about to increase their prices. After hearing the words of the male domineer, they are targeting other anti-drugs.

In a blink of an eye, the bid prices of 30 anti-drugs all turned into 5 silver coins, 2 of which were quickly sold by Xiong Ba and Chi Du, and only 1 was sold by slow ones.

Liquor Breeze said in his ears: “Boss, the quantity is not enough. We must bring at least 2 bottles of anti-drug to each person to get through the ordinary books.”

“I know that, but the person who sells something obviously wants to raise the price. We can’t increase the price without authorization, otherwise it will cause hatred from the major guilds.”

If he was hated by more than 20 guilds at the same time, and the old man could not afford it anymore, he would not dare to take it easily now.

Xiongba and Bloodthirsty Batian and others looked at each other, both of which were fixed at this price.

The auction house has regulations that if the seller thinks the price is reasonable, it can be settled in advance. Xiongba and others guess that the person who sells anti-drugs has a great chance to look at them somewhere in the auction hall.

Because the timing of selling anti-drugs is too clever. It is exactly when they beat the copy for two days and did not fight it.

Lu Yang sat leisurely in a corner of the hall, watching the seemingly firm expressions of Xiong Ba, Chi Du and Bloodthirsty Batian. He opened his bidder and bought an anti-drug directly for 10 silver coins.

Although the bully and the twilight are very calm, in fact, they are scared than anyone else. More than 20 people have more than 20 hearts. Once anyone can't hold it, they can use the price of 10 silver coins to grab it. They were all gone in a while.

Bidding for such things doesn't show the buyer's name, which means that people are robbed of them without even knowing who the other party is.

When they were worried about each other's injustice, suddenly, the black blood scolded, "Which of you **** did it, since you are not kind, don't blame me for being unjust."

Chi Mu, Xiong Ba, and others also found that someone had forcibly bought the antiviral agent at the highest price ~ www.mtlnovel.com ~ But now they can't help talking, for fear that the black blood and other people's forcible purchase will cause them to buy it, and they are snapped up. .

System prompt: You get 9 silver coins and 90 copper coins

System prompt: You get 9 silver coins and 90 copper coins

...

A series of 29 system prompts allowed Lu Yang to harvest 2 gold coins, 87 silver coins and 10 copper coins.

Lu Yang could not help but clenched his fists, he knew that the guild bosses would be jealous of each other, and could not help but let others grab the first pass of the copy first.

Heihe laughed and said, "Let your group be unruly. I grabbed 4 bottles this time. The first pass of the Serpent Canyon must be mine."

"Boss, you bought a few bottles." Liquor Qingfeng asked anxiously.

Chi Wu glanced angrily at Black Blood and said, "Only two bottles were grabbed."

“What can I do? The medicine is not enough,” said Liquor Qingfeng.

“It doesn’t matter, there must be a lot of inventory in the person who sells anti-drugs. You stay here, and I will grant you the right to 10 gold coins. Once you have anti-drugs, no more than 10 silver coins, you don’t need to notify me and buy them all. Said the old man.

The spirits breeze nodded and agreed to stay in the auction house.

Xiongba and Bloodthirsty Batian and others have also made such arrangements.

Chapter 112 - Make a big pen

Lu Yang watched indifferently, he knew that he had made the right bet. The bosses of the major guilds had entered a fierce competition in order to grab the first pass of the copy.

Anyone can see the benefits that the first pass brings to the old man in the twilight. In the **** of the elite team and ordinary members, twilight has taken advantage.

Now the first pass of the copy of the Serpent Canyon is on the anti-poison, which cannot be robbed by the major guilds.

Xiong Ba’s beautiful vice chairman of the song, unintentionally wearing a hollow magic robe, frosty but charming on his face.

“Breeze, does your old fox think that anyone will continue to sell anti-drugs?” Qu said unintentionally.

Liquor Qingfeng frowned and said, “Qu Quyi, please call President Late Twilight, please trouble you with a minimum of respect.”

Qu unintentionally rolled his eyes and said, “Is that what you think, the Chairman of the House of Twilight?”

Liquor Qingfeng glanced at the opposite Ye Guxing and the black eagle of the black blood and said, "Isn't that the two bosses have the same idea?"

"I don't know where this person got the recipe for the potion. If I knew it, I would have found his actual place of residence." Jin Diao said with a sneer, he believed that Black Blood had the same idea.

Ye Guxing glanced at the gold carving and said, "Save it, although I also guess that this person is in the auction hall, maybe he is looking at us, but we can't find him at all."

The Golden Eagle looked at thousands of players in the auction house and said, "It's really troublesome. Why are there thousands of people here every day?"

They guessed right. Lu Yang was among the crowd at this time. After waiting for 10 minutes, Lu Yang walked to the storekeeper and took out the remaining 300 bottles of anti-toxic drugs. Then he came to the auction. In front of the device, 30 bottles were dropped into it.

"There are anti-drugs again, everyone look at it," a casual player shouted suddenly.

At the same time, the people in charge of staying at the auction house of the major guilds also shouted at the same time. Gold sculptures and Qu Wuyi, etc., opened the auction house at the same time to buy anti-toxic drugs.

The players around were attracted by the words of that player. When they first found the anti-drug, they found that they had been snapped up again by the major guilds, and the price was still 10 silver coins.

Coaxing, countless players are stunned, 10 silver coins is the total amount of money that many players have played in the game for 8 days, but now someone can get it with a potion.

"Who is the man selling the potion? He's rich this time."

"The major guilds are really crazy this time, and such high prices are also grabbing."

“Should we stock up or buy it?”

“Useless, this person puts it every ten minutes, and the highest price is set at 10 silver coins. This thing is to grab the major guilds. When the major guilds are saturated, no one will grab it. “

...

Countless players joined the discussion camp, and players were curious whether there would be the next batch of anti-drugs after 10 minutes, and whether the representatives of these major guilds at the auction house would buy them.

People such as Qu Wuyi and Jin Diao were extremely angry. This feeling of being watched was very unpleasant, and they were also convinced that the people selling the potions were using the time when the major guilds were trying to **** the first pass of the copy, forcing them to use Buy at the highest price.

“Fuck, this kid is too accurate in human psychology,” Jin Diao cursed.

“If there are only a few of our guilds competing, why spend so much money.” Ye Guxing is also very upset.

“Otherwise, we should persuade other guilds, and we shouldn’t let him make such money.” Golden Eagle said.

Ye Guxing snorted and looked at Qu Wuyi, Liefengfeng and other representatives from more than 10 guilds.

“Do you think they would believe what you said? Who knows how many bottles there are in the potion, and the last batch is the last batch?” Ye Guxing asked.

The golden eagle said silently, “It’s true.”

Qu Wuyi also said the same thing, but she did not want to go to the Golden Eagle and other people to discuss it. After 10 minutes of stalemate, Lu Yang released it for the fourth time, and Qu Wuyi and the Golden Eagle could only snap up again.

At this point, Qu Wuyi and others like Jin Diao gave up their cooperation, and would rather rob those who sell medicine cheaply under the suspicion of each other.

Two hours later, Lu Yang successfully used the suspicion between the major guilds and sold all 300 bottles of anti-toxic drugs in his hand. Excluding the tax deduction, he obtained a total of 31 gold coins, 60 silver coins, and 80 copper coins.

Looking at the money, Lu Yang couldn't help but clenched his fists. This was only the first money. When the major guilds succeeded in opening the Serpent Canyon tonight, they would find that various professional suits would be produced in the Serpent Canyon.

Level 8 to 12 professional suits will greatly improve the player's attributes, which is very useful for gang warfare, and compared to other copies, the poisonous snake canyon with anti-poison agent becomes easier.

Guilds that offend people, such as Domineering, Bloodthirsty, and Black Blood, will definitely buy anti-toxic agents to upgrade their equipment.

For casual players, when they see the elite members of the major guilds hit the suit from the copy of the Serpent Canyon ~ www.mtlnovel.com ~ will also buy anti-poison to download the copy of the Serpent Canyon, wait until that At that time, Lu Yang's assets will usher in the first wealth.

With money, Lu Yang can gradually rescue his elder brothers who accompanied him all the way to the end.

Thinking of this, Lu Yang breathed a sigh of relief. He opened the auction machine and found the basic medicinal materials for making anti-toxic drugs, such as radish, and bought more than 600 sets of each. Shorting all three of these herbs cost a total. 1 gold coin and 80 copper coins.

At this time, Lu Yang's hand counted the remaining money before, and there were a total of 32 gold coins. If converted into money, these gold coins can be exchanged for nearly 30,000 credit points, which is enough for his family, Xiao Liang and Han Zhong. Life for months.

However, Lu Yang resisted the urge to improve his family's life, and he decided to use the money to invest.

In the future, the most expensive thing in St. Gall will not be equipment or artifacts, but land. As the equipment sold by the system is only the most basic equipment, which is commonly known as whiteboard, such equipment or drugs and accessories are far from satisfying. Player needs.

Many players seized this business opportunity and sold the bronze and above equipment in the game to St. Gall.

On Chengdong Avenue, due to the wide space, a trade market is automatically formed there, and players are accustomed to check the goods on the stall on Chengdong Avenue. However, few people know that houses on both sides of Chengdong Avenue are also available. Trading.

Chapter 113 - Land transactions

From the beginning of the game, the server has opened a land transaction function. Houses on either side of any street in St. Gall can be bought and sold. The position of the land transaction officer is in the first floor lobby on the left side of the St. Gall's Royal Palace.

This place is very hidden, usually players will not come here, only the intelligence spies of major guilds will come here to explore.

Lu Yang knew that this was also because he wanted to invest in a piece of land in his last life, but when he was rich, the land in St. Gall was sold out, and he could only buy it from others. At that time, the cheapest piece of land was It also needs 10,000 gold coins, and the most expensive piece is sold for 3 million gold coins.

Land storage now, even if you don't do business, you can get rich returns if you sell it in the future.

He went to the trading officer and said, "Her Excellency, I want to buy land."

"Welcome to St. Gall's for investment." The fat trading officer smiled and pulled out a map of St. Gall's on his desk and asked, "Where do you want to buy the land. "

The map fell on the table, and a three-dimensional image emerged in an instant. Lu Yang could see the full picture of the city of St. Gall on the map. He found that there were many shops in the trading market on Chengdong Avenue, but, The hottest ones have not been traded.

Lu Yang pointed to an open space in the north of the city and said, "I want this place."

The location he was referring to was near the Beicheng District Square. The reason why he chose this place was because it was the land that had been fired with 3 million gold coins in the past.

Lu Yang remembered this very clearly, because it was too sensational at the time, and the owner of the land was not someone else, it was his enemy's black blood.

At the time when the currency exchange was opened in St. Gall, the major guilds were buying land in the city frantically, but because the black blood was fighting another guild, a large amount of gold coins were put into the war and unable to participate in the competition.

By the time he won the war, the most prosperous trading area in the east of the city had been divided up by the major guilds, and there were also a large number of wealthy merchants investing in the game in the slightly worse south and west.

The only place where you can buy land is in the north of the city, but outside the north gate of the city is the sunset canyon. Players can't go out of the north gate. Therefore, the north of the city has always been sparsely populated. Even if you invest, it doesn't make any sense.

The price of the land here is even cheaper. The most expensive piece was only 10 gold coins. For the sake of face, Black Blood did not want to be called a guild boss without a land. It cost 30 gold coins to buy 3 yuan near Chengbei Square. For this reason, he was also ridiculed by the bosses of major guilds.

However, no one has thought of such good luck. In the near future, the official decided to set up a currency exchange location inside the game. Players do not need to take off their helmets to pay online, just enter the bank card number and password at the game's currency exchange point. You can redeem it directly in the game.

And this exchange location is not located in the bustling east or south and west of the city, but in the north square, just opposite the three plots of black blood.

When this place was set up, the price of the land bought by Black Blood directly increased by 1,000 times. Someone paid 30,000 gold coins on the spot to buy 3 plots of land in his hand.

Black Blood is arrogant but not stupid, and sneered back, "Don't come to me with less than 3 million."

Later, the guild of Lu Yang fought with the black blood. Lu Yang used the power of the demon heart to destroy the guild of the black blood. When he thought the black blood had completely failed, the black blood sold it. The plot of land has become a billionaire worth hundreds of millions.

Lu Yang's defeat of the black blood originally raised a lot of morale for the guild, but as a result, Lu Yang and his guild members were terribly terrified. This incident left Lu Yang deeply impressed.

A **** is a mischief in the game, and finally can become a billionaire when he leaves the game. This is not acceptable to Lu Yang. In this life, he wants to let the black blood **** know what is called reciprocity.

"This place is the most prosperous area in the north of the city. If you want to buy, please pay me 10 gold coins," said the trading officer.

"I bought this place," Lu Yang said.

He took out 10 gold coins and handed them to the trading officer, and the place he pointed to on the map immediately turned into a blue * domain. At the same time, the trading officer took out a lease from his backpack and gave it to Lu Yang, saying, "Boy, Now that shop belongs to you, do you want to buy another place? "

“How much is the land on the sides of this house?” Lu Yang asked.

“The house on the left is 10 gold coins, and the house on the right is 10 gold coins,” said the trade officer.

Lu Yang took out 20 gold coins and bought the deeds for the other two houses. He put all three deeds in his backpack.

These three deeds, Lu Yang is not ready to sell in the future, but to open stores, the most profitable business in the world is not selling land, but to do business with a forward-looking vision.

He knows how the game world will develop in the future, and he also knows what players will lack most in the future, and these things will appear in his stores in the future, and he will become rich because of these three stores ~ www.mtlnovel.com ~ In the future, these three shops will be Luyang’s largest source of money and the foundation of Luyang’s hegemony.

However, the most valuable store at the moment is still in the Chengdong market. Lu Yang is going to make some anti-drugs and sell them tomorrow morning.

He walked out of the palace and came to the Pharmacist Guild. He was about to enter the door. Suddenly, a player was pushed out of the Pharmacist Guild by a group of people.

“Get off, don’t let me see you again in the future, otherwise see killing once.” Ye Guxing said angrily.

Numerous people around seeing this situation have gathered in the past, and Lu Yang is among them.

The pushed players were so horrified that so many people watched, red-faced and arguing arguing, “It’s not my fault, why do you fire me?”

Ye Guxing was angry and pointed at the other side and scolded: “I gave you a hundred sets of herbs and 3000 herbs, and you succeeded once in refining your medicine 100 times. You told me that you have the talent for refining medicine. You tease me. what.”

“You asked me to do an inexplicable task, and that’s it, so how can you blame me.”

“That’s blame me, right, everyone else completed this task and became an apprentice, you failed the task, then it became like this, your own ability is not smart enough to blame yourself, hurry up to me, the team of the pharmacists Elite, you don’t need garbage like you. “Ye Guxing’s face was disgusting.

The scolded player stared at Ye Guxing and turned his head out of the crowd.

Chapter 114 - Yaowang

“It turned out to be him?” Lu Yang looked at the man and murmured to himself. The unlucky player Lu Yang knew him, and his name was Jin Buhuan.

However, the two were not friends, but enemies.

In the last life, this player was a pharmacist of the Black Blood. All the special potions of the Black Blood Guild were made by this person.

The war between Lu Yang and Black Blood repeatedly failed Lu Yang in local wars because of this strange potion made by the pharmacist. The last time Lu Yang won Black Blood was because he robbed the Black Blood Supply Corps, and The gold was not exchanged for seizing on the spot.

There are special props in the game that can control a player for three days. Lu Yang used these three days to completely defeat the black blood.

The reason why Jin Buhuan left Lu Yang so deeply was that after Lu Yang caught Jin Buhuan, Jin Buhuan showed a relief expression. At that time, Lu Yang could never forget his life.

After that, the two had a long talk. Jin Buhui also knew that Black Blood was too unethical to do things in the game, which has caused public anger. He was also annoyed by Black Blood's way of doing things. Going through the difficulties, even if Black Blood is no longer a human, he has to help Black Blood.

Lu Yang originally wanted to kill Jin and not change to the withdrawal zone. After all, he caused the brothers to be seriously injured and injured, and Jin could not join his guild. But based on his words, Lu Yang finally let him go, and Jin did not change. The choice was even more surprising, he deleted the account and quit the game completely.

At that time, Jin Buhuan was already known as the king of medicine. He could make special potions that no one could make in the entire game. If he opened a pharmacy, the money he earned would make him rich, but he would. Such a withdrawal, some people in the gang were worried about Lu Yang's release of Jin Buhuan. After seeing Jin Buhuan's practice, they realized what kind of person Jin Buhuan is. Except for a real man and a big husband, others cannot do it. This kind of thing.

At this time, Jin Buhuan had already bought a lot of herbs at the stall of the pharmacist union. Players who were not scattered around gave him pointers. If Jin Buhuan did n't listen, he bought the medicine and turned into the pharmacist association.

Lu Yang looked at Jin Buhuan's back without hesitation, and immediately chased after him. Before the last time Jin Buhuan quit the game, he sent him a message. Unfortunately, you and I are not brothers.

"Since you sighed that you and I did not become brothers in my last life, I will make up for this regret in this life." Lu Yang quickly caught up with Jin Buhuan and went to him and said, "Wait a minute."

Jin Buhuan is walking forward with his head buried in his face, with an angry expression on his face. This humiliation has never been encountered in his life. He has to prove himself. He wants everyone to know that he is a capable pharmacist. Not a waste.

However, thinking that he failed to make the potion 100 times in succession, he was shrouded in despair again. He didn't know how to solve this problem. Just as he was trying to find a way, a person appeared on his face, and he almost hit the person.

"Who are you, let it go." Jin Buchang said angrily.

Lu Yang looked at Jin Buhuan's angry expression, and showed his badge of intermediate pharmacist, saying, "I have seen everything just now, tell me what went wrong, and I can see if I can help you solve it."

Jin Buchang's expression of anger became surprised, and asked, "You are an intermediate pharmacist. How did you reach it? None of the 16 Pharmacists of the Bloodlust League is intermediate."

Lu Yang knew that Jin does not change his badge to attract. Intermediate pharmacists are a barrier for all pharmacists, because the requirements between junior pharmacists and intermediate pharmacists are only 50 points, and many people can achieve it.

However, it is not that you can be promoted to intermediate level when you are 50 points proficient, but you need to take the test. Lu Yang can reach it because he uses a large tank to make 30 bottles of anti-toxic drugs at one time.

The reason why he would remedy medicine was because there was no senior pharmacist in the guild of his last life. He had to learn it. After exploring with his brothers for 2 years, he had reached the level of an alchemist master. 8 levels higher.

Lu Yang said: "This question is not important. What is important is that I have the ability to solve your problem. Everyone is a refining pharmacist. I will see if I can help you."

If Kim does n't change, someone needs to give him pointers. When he sees that an intermediate pharmacist is willing to help, where would he disagree, he quickly nodded and said, "Okay, I'll go with you."

Lu Yang brought Jin Buchang to the seventh room on the second floor. He asked Borkens to spend 5 silver coins to enter the refining room. He took the herbs out of his backpack and put them on the table in groups.

Jin Buhuan looked at Lu Yang confusedly. He felt that the person in front of him was familiar and strange.

"Excuse me, what should I do now." Jin Buhuan asked.

“First make a bottle of potion for you to show me,” Lu Yang said.

Jin Buhuan nodded quickly, and made a bottle of healing potion (vial) using some of his rusty methods.

When Lu Yang saw Jin Buchang’s method, he knew that the preparation of this bottle of medicine was unsuccessful. There were too many problems with the basics. Sure enough, in the last step, the medicine turned into a bottle of green soup.

Kim was not disappointed for a while ~ www.mtlnovel.com ~ said: “It failed again.”

“Failure is normal. There are too many problems with your technique. In this way, you should watch me do it again.” Lu Yang went to Jin Buhuan’s side and picked up the herbal medicine to make a potion.

“Making medicaments requires three steps: brewing herbs, adding medicaments, and generating chemical reactions. Although the steps are simple, the three things of water temperature, proportion, and time must be accurately controlled.” Lu Yang said while making.

On the side, Jin Buhuan was stunned when he saw Lu Yang’s operation methods. He only felt that every precise movement and every sample produced by Lu Yang when he made the potion were like artworks.

Five minutes passed in the blink of an eye in Jin Buhuan’s eyes. When he came to his senses, Lu Yang already had a bottle of bright red therapeutic agent (small bottle) in his hand.

“Master, you, can you teach me.” Jin Buhuan’s excited speech was a bit ineffective, and he already knew where his problem was.

After he failed to complete that task, the task initiator gave him a hint.

“Making a potion is like making an artwork. He doesn’t allow the slightest flaw. Any imperfection will make you fail, and the perfect artwork will be rewarded by God.” So far, this sentence is still hanging Under the gold does not change the refining skills.

He did n't know it before, but now he fully understands that he could n't make the potion because he did n't make it perfect.

Chapter 115 - Meet the world

Lu Yang said, "Of course, but you have to keep it secret. You can't tell others about this production method."

Jin Buchang nodded quickly, and he knew how much this medicine would cost if it fell into the hands of major guilds.

Lu Yang wrote a message and sent it to Jin Buhuan. This is the best ratio for making a therapeutic agent (vial).

Immediately following the above method, Jin does not change.

Lu Yang watched aside. This time, Jin Buhuan's potion was almost the same as his potion at each step, and the color of the semi-finished product was the same. Until the last step, when Jin Buhuan synthesized the potion, the green potion instantly became Red.

Jin Buchang's body was stiff for a moment, and he yelled excitedly: "I succeeded, and the potion I made succeeded."

Lu Yang was unsmiling, he picked up his herbs and started making anti-toxic drugs.

It took five days for Jin Buhuan to scream and let out the depression in his heart. For five days, it has been five days. Since his mission failed, he has been disgusted by everyone in the guild.

Other pharmacists ridiculed him, and Ye Guxing and other guild leaders despised him. Later, he was kicked out of the guild and suffered humiliation from the public. This depressed mood made him extremely uncomfortable. Now, he finally released.

After he reacted, he came to Lu Yang and bowed deeply, saying, "Master, thank you."

Lu Yang hurriedly raised Jin Buhuan and said, "What are you doing?"

Where does he know that Jin Buhuan is determined to be a professional player and wants to make money to support his family by making potions, but these five days' blow to him not only made him almost collapse in the game but also in reality.

Jin Buchang straightened up and said sincerely: "Master, see that you bought so many herbs, you must also be a professional player, how about I beat you in the future, I learned to make potions, I can also help you make potions Go sell money. "

Lu Yang froze. He didn't really want to make Jin Buhua be his own. His impulse at that time was just because he wanted to make Jin Buhua and make up the regret of the last life.

However, Jin Buhuan said that Lu Yang was really tempted. In the future, the demand for anti-poison drugs in the market will inevitably increase. He wants to make money and will definitely reduce the leveling time.

When Lu Yang built the gang in the future, the biggest capital was the first in the ranking list. Without this advantage, his appeal would be reduced a lot, but the gang could not develop without money.

If there is a conflict between making money and upgrading, he can only recruit pharmacists to help. Although he already has a candidate, he is the brother of his last life, but an additional medicine king is even more powerful.

"Wait a minute." Lu Yang opened the system interface, found the contract item, selected the employment contract, briefly filled it out and gave it to Yaowang, and said, "Brother, don't tell me to fight in the future. If you like, Let's fight the world together, I will not treat you badly. "

Jin Buhui didn't understand Lu Yang's meaning. He curiously looked at the terms of the contract. The above conditions were very few. The general meaning was that Lu Yang provided medicinal materials worth at least 1 gold coin to Jin Fuhua every day. Lu Yang divides into two and eight. At the same time, Lu Yang pays gold every month instead of 10 gold coins as salary. The contract is valid for 5 years.

This contract is higher than the contracts issued by major guilds. Normally, a guild only gives 10% of the money to the players they train, and even if Jin does not change and does not work, Lu Yang has to support him for 5 years.

"No, I can't sign." Jin Buhuan said, shaking his head.

"What's wrong?" Lu Yang asked.

Jin Buhuan pointed to the 10 gold coins each month and said, "This is too much. Just give me 2 gold coins."

Lu Yang said silently, "That's just small money, you just sign the contract."

At this time, Jin Buhui regards Lu Yang as a rich boss. Since he dares to open such a contract, it can be done by a very rich person. He scratched his head and said, "I'm welcome."

Lu Yang laughed. At this time, the anti-drugs he had made had entered the final stage. The failure or success of 30 bottles of anti-drugs depended on the last few seconds. He didn't have time to deal with money and earnestly prepared the potion.

Jin Buchang lowered his head and signed his name on the table. When he looked up and was about to hand over the contract to Lu Yang, he was horrified to see that Lu Yang was pouring black medicine into glass bottles.

"Boss, the potion you just made will not be an antidote." Jin Buhuan asked in shock.

Lu Yang said, "Yes, I make anti-toxic drugs."

Jin Buhuan felt that his brain was not enough, and he blinked and asked, "Is that the person who sells antidote over the auction house today is you?"

"It's me." Lu Yang said.

"Boss, let's change the contract. You don't need me at all." Jin Buhuan said.

The price of a bottle of therapeutic medicament (small bottle) is only a dozen copper coins, which is dozens of times the difference compared with 10 silver coins and a bottle of anti-toxic drug. Lu Yang can make a lot of money with this one .

Lu Yang said: "Who says I don't need you, I will buy you an anti-drug formula in a while, and you will make me an anti-drug according to the method I taught you ~ www.mtnovel.com ~ I have time to go out and upgrade. "

Jin Buchang was stunned. He asked, "Boss, can you buy an anti-drug formula?"

Lu Yang said, "Of course."

"Boss, let's change the contract. I can't sign this contract. I've made a lot of it." Jin said incoherently.

The anti-drug was fired to the price of 10 bottles of silver coins. If he and the Luyang Institute made it, even if only 10 bottles were made in one hour, he would make 100 bottles in 10 hours. In this way, he would earn a day. 1 gold coin.

The price of a gold coin on the black market is 800 to 1,000 credit points. If it can last for one month, he can earn 20,000 to 30,000 credit points per month, but this money can be earned by anyone. It's the same as picking up money.

Lu Yang said: "The money I gave you is not only for you to be a pharmacist. After a while, I will open a pharmacy. You are the manager. Not only do you need to refine medicine, you also need to help me recruit talented pharmacists. At the same time training them, your responsibilities are very heavy. "

“Okay, I must complete the task.” Jin Buhuan stopped resolving the same problem. Suddenly he blinked and asked, “That, boss, I don’t know your name yet.”

Lu Yang smiled and said, “Have you not recognized me yet? I’m Lu Yang.”

Kim didn’t change his dumbfounded eyes, and then he remembered that Lu Yang was the player he wanted before the guild.

Chapter 116 - Teaching Alchemy

“Boss, I’m convinced.” Jin Buhuan said sincerely, but then he lowered his head and thought for a long time, with an awkward expression on his face.

Lu Yang asked, “Is there anything wrong?”

Jin didn’t change his thoughts and thoughts, and finally a stubborn expression appeared on his face, saying, “Boss, can you lend me 10 silver coins first?”

“Of course you can.” Lu Yang thought about it and didn’t want to take out 10 silver coins from his arms and hand them over to Jin Buhuan.

“Aren’t you asking me what to do?” Jin Buhuan asked in surprise.

Lu Yang laughed from the bottom of his heart, and Jin Buhuan was still the Jin Buhua of the last life. He guessed, “You want to return to the Bloodlust League to pay back the money.”

Jin Buhuan did not expect his thoughts to be guessed by Lu Yang. He said apologetically: “Although the bloodthirsty league did not sign a contract with me, they once spent 10 silver coins on me to train me, and I want to pay back this relationship.”

The reason why Lu Yang appreciates Jin not changing is here. Dripping water and Yongquan are reported. There are not many such people in the world today. I am afraid that he can get system rewards to start hidden careers. It is also for this reason.

“Come on, I just want to buy a recipe for you, we will meet here in a while.” Lu Yang said.

“Okay.” Jin Buchang thanked Lu Yang for his understanding and left with the money.

Lu Yang also left to open the Pharmacists Association. He first came to the Goblin Trade Hall, purchased 10 anti-drug formulas, and returned to the refining room.

Soon after, Jin Buchang also returned, but he looked down with an iron face.

“Why, conflict with them again.” Lu Yang asked.

Jin Buchang said indignantly: “I take them as friends, they only take me as someone who can be used. Now I see that I have no use value. When I went to pay back the money, I also sneered at me. I was really blind at first.”

Lu Yang was able to guess the situation at that time. The pharmacist was a talented profession to learn. At the time, Jin Buhuan showed his talent. He was valued by bloodthirsty tyrants and Ye Guxing, and naturally he became more involved. Now Jin Buhua cannot do it The potion has become an ordinary player. How could Bloodthirsty and Night Lonely still deal with him.

A guild’s bottom player, Ye Guxing is much lazy to look at him.

Lu Yang took the anti-drug formula from his backpack and put it in front of Jin Buhuan, saying, “Sooner or later they will regret it, don’t think about it, this is the anti-drug formula. You learned him, starting today, I teach you to make all kinds of potions, and I will be able to go out and upgrade with peace of mind when you are here. “

Jin Buhuan looked at Lu Yang’s eyes and said excitedly: “You saved me when Jin Buhuan was poor and had no way to go. I can’t do anything else with Jin Buhuan. I will listen to your boss in the future.”

Lu Yang said: "Then we will strive to be brothers for a lifetime, and play this game together."

"Um." Jin Buchang nodded heavily, he could feel that Lu Yang was sincere when he was a brother.

At present, Lu Yang began to teach step by step how Jin Buhuan made anti-drugs. Jin Bu Huan could reach the height of the drug king in the last generation. His understanding of refining was very high. Soon he learned to make anti-drugs. Process and key points.

Lu Yang asked him to practice, and he started to make anti-drugs in large quantities. After an hour and a half, he made 500 bottles, and Jin Buhuan made 10 bottles through practice, but there were 4 bottles. failure.

Kim didn't change his frustration.

Lu Yang said: "Don't worry, this thing is practice makes perfect, you will learn it over time."

Jin Buchang said, "I feel like I'm about to master the method."

At this time, there were more than 100 groups of medicinal materials left. Lu Yang put the prepared medicines in batches in the warehouse, and then he took a gold coin from his backpack and gave it to Jinbuhuan.

"I'm going to upgrade. You stay here to level up slowly. Remember not to worry. I will come to you tomorrow. If the herbs are not enough, you can buy them with money." Lu Yang said.

"Okay, I'm going to refining the medicine." Jin Buhuan has plopped on the refining medicine.

Lu Yang bid farewell to Jin Buhuan, returned to the city of Saros from the demon temple, and ran to the secret passage. This time he returned to St. Gall's city. His gains were huge. Let him become more and more confident in the future against Liu Jie.

“What’s wrong with you, I’m back.” Lu Yang sent a message to Xiao Liang.

“Boss, we are in the small bridge.” Xiao Liang said.

“I’ll be right there.” Lu Yang jumped down the secret passage, killing monsters all the way and found Xiao Liang and Han Ying’s three siblings.

At this moment, Xiao Liang and Han Ying’s summoned beast **** three dogs were standing on the bridge, and there were a large number of zombies in front of them.

It can be seen that several people played with ease, and Xiao Liang’s equipment was much better than before.

Han Ying saw Lu Yang and shouted joyfully: “Brother Lu Yang, you are here.”

Xiao Liang, Han Fei and Han Yu also saw Lu Yang and waved.

Lu Yang smiled, with a spell in his mouth, and a big red bird flew from his head.

“Blazing Bird”

Lu Yang pointed in front of Xiao Liang with a finger, and the bird hissed and swept away.

With a bang, more than 10 zombies in front of Xiao Liang were beaten into blood. As they were about to shift their targets, black stripes suddenly appeared under their feet. Then, a huge flame storm covered them.

“Flame Storm”

After two consecutive moves, all the **** and half-blooded zombies were killed on the ground.

System prompt: you have gained 119 experience

...

Lu Yang walked in front of Xiao Liang and his three siblings ~ www.mtlnovel.com ~ and said, "Yes, I only walked for a few hours, and you have become a lot better."

Han Fei said proudly: "Brother Lu Yang, I am also very powerful, these strange ones are all brought by me."

Lu Yang patted his shoulder and said, "No wonder you use this place to fight monsters, smart."

Han Fei was very proud of being praised by Lu Yang.

"Brother Lu Yang, is there any way for me to improve? I feel that I can't help at all now." Han Yu was a bit depressed, and saw Lu Yang come to complain quickly.

Han Yu is an archer. So far he does not have a good bow and arrow, nor any good summoning beast.

Lu Yang asked, "Have you reached the primary control skill book?"

"It hit, just a zombie exploded, I learned." Han Yu said.

Lu Yang's eyes lit up and he said, "Everyone come back with me. I'll take you to a place and catch Han Yu's beast."

"Brother Lu Yang, is this summoning beast very powerful?" Han Yu asked in surprise.

"Of course, this is a very special summoning beast, you will definitely like him." Lu Yang said.

“It’s great, I can finally help fight the monsters.” Han Yu said.

Xiao Liang had a bad hunch. Generally speaking, Lu Yang was not a good thing.

Chapter 117 - Poison Frog

Soon, Lu Yang took them away from the secret passage to the transfer point outside Sarros.

Saros City is a 30-level map. Lu Yang gave each of them 20 silver coins, saying: “It takes 10 silver coins to get to the ancient city of Zanga from here, which you use back and forth.”

The four took silver coins and followed Yang to the ancient city of Zangar. As soon as they landed, they were attracted by the strong Middle Eastern atmosphere of Zanjia.

“It’s beautiful here,” Han Ying said, looking at the bright yellow houses around.

Lu Yang said: “Because this is an international game, the customs of all countries can be seen in the game. The map we are on is actually a city in the ancient Persian kingdom.”

Han Yu was anxious about the baby and asked, “Brother Lu Yang, where are we going to catch the baby?”

Lu Yang said, “Come with me, not far ahead.”

He took four people out of the city and came to a forest. The trees in the forest were not named, but each tree was very tall. Among these trees, various birds and animals flew from time to time.

System prompt: you found a wonder forest

“It’s really beautiful here,” Han Ying said.

“If you want to talk about scenery, this place can really be regarded as one of the more beautiful scenery in the game, but the monsters that appear here are not simple.” Lu Yang said.

“Brother Lu Yang, do you mean that the summoned beast I caught is particularly powerful.” Han Yu asked in surprise.

Lu Yang said, “That’s for sure.”

Suddenly, a large red-bellied frog appeared in front of the forest, about the size of a football, staring at the road with two big eyes squinting.

Lu Yang pointed at the frog and said, “All we want to catch is him.”

“What?” Han Yu was just excited and fell to the bottom when he saw this big frog.

“Brother Luyang, don’t tease me, what can this big toad do?” Han Yu asked.

“Brother, if you bring a big frog as a pet, it’s really special.” Han Fei’s unsmiling smile.

Xiao Liang, Han Fei, and Han Ying all laughed at the same unscathed side.

Han Yu was even more frustrated.

Lu Yang was also amused and said: “This frog is called a poisonous frog. Don’t underestimate him. Now he looks very garbage, but if he is upgraded by 7 levels, he can learn to spray toxins. Spit out poison darts, causing the enemy to quickly lose blood. “

“So powerful?” Han Yu said.

“Of course, but this kind of frog also has shortcomings. They jump too slowly. They rely on venomous attacks and they are so big. Officially set their movement speed to only one-tenth of normal.” Lu Yang said.

“That’s fine, at least I can use him to fight monsters.” Han Yu said.

“Let’s go, we will summon together, whoever will be summoned first.” Lu Yang raised his hand to use the temptation light of the poisonous baby.

“呱呱”

Luyang was added after the name of the poisonous baby, and then the poisonous baby jumped in front of Luyang.

“Ah?” Xiao Liang and three sisters Han Ying looked at Lu Yang in surprise at the same time.

“Boss, you know how to hunter skills.” Xiao Liang asked.

The three sisters Han Ying nodded together, and they also wanted to know.

Lu Yang took the ring of dreams off the equipment bar and put it in front of the three of them, saying, “That’s what I rely on.”

Band of Dreams

Level: 10

Spell damage: 2-5

Physical damage: 2-5

Description: This is a mysterious ring, and anyone who sees it will be confused by it.

“What is this, such a special ring.” Xiao Liang and three sisters Han Ying stared at the ring in surprise.

Lu Yang said: “The special effect of this ring is that wearing it allows the player to have a skill called the light of dreams. The effect of the skill is to summon the baby like a hunter, and it can summon up to 5.”

Han Yu said silently: “Brother Lu Yang, where do you come from this baby, the hunter can only bring one, but you can bring five, which is too unfair.”

Lu Yang said: “Different, the baby you summon can always upgrade. The baby I summon can upgrade up to level 7, and this ring can only be used on summoned beasts below level 50. It will be invalid for levels above 50.

Xiao Liang and Han Ying felt the fairness.

“However, this is also very strong.” Han Fei looked at the ring with interest and said, “Brother Lu Yang, where did you get it, I also want one.”

Han Yu blinked his eyes and said, “If I had this ring, would I be able to bring 6 babies?”

Lu Yang laughed and said, “This ring comes from the Shenyue Circus in St. Gall. It can be obtained by defeating the 3S-level mission Joker Emperor. However, that mission has high requirements on body and experience. Here, keep working hard. “

Xiao Liang and three sisters Han Ying were lost for a while.

Lu Yang said: “Don’t worry too much, I will give you special training in a few days, plus your usual exercise to ensure you pass.”

Xiao Liang and Han Ying's three siblings were then happy, and went into Luyang to catch the poisonous frog.

After half an hour, they caught a total of 6 poisonous frogs, Lu Yang took 5 and Han Yu took one, and it took another half an hour to upgrade the poisonous frog to level 7.

At this point, the poisonous frog has changed its appearance, his back has become dark blue, and his belly is bright red. Seeing a 20-level forest python in front, 6 poisonous frogs spray venom at the same time.

The black venom hit the forest python and instantly killed 20% of his blood. In the second round of attack, a poisonous frog from Lu Yang suddenly ejected a black poison arrow ~ www.mtlnovel.com ~ In the middle of the forest python's body.

“-114”

“-114”

...

Every three seconds, the forest python loses 114 points of blood, although it is not much, but the fixed poison damage is much higher than the soldiers of the same level.

“It's really amazing,” Han Ying said.

Han Yu nodded with satisfaction, this output is much higher than him.

“Well, let's go back to the city and continue to upgrade.” Lu Yang said.

Xiao Liang and the three sisters Han Ying nodded, and returned to the gate of the ancient city of Zanja together with Luyang. Looking at the guards at the gate, Lu Yang said, "Go ahead, I will change the side door."

"What's wrong?" Han Ying asked.

Lu Yang said: "This is another difference between the ring of dreams and the hunter calling the baby. The baby called by the ring of dreams rebels every 4 hours. Therefore, it is officially determined that I am not calling the baby, but a monster. Confused for a while, he is actually a monster, and the guard at the door kills him when he sees it. "

"Then how did you get into the city?" Xiao Liang asked.

Lu Yang pointed at the side of the city wall, took Flake's holster from his backpack and said, "Human wisdom is infinite. He has Zhang Liangji, I have a wall ladder, and behind that wall is the flight point. I flipped I can meet you in the past. "

Chapter 118 - Level 13

After agreeing on the location, Lu Yang came to the back of the city wall by himself and threw a horse harness over the female wall at the top of the city wall.

There are no guards on the walls, and "Second World" has the highest tolerance for players. He doesn't mind players showing any ingenuity.

Lu Yang took the poisonous frog one by one to the city head, and then took the poison poison frog down to climb down the city wall. At this time, Xiao Liang and three sisters Han Ying ran to the flight point.

"Boss you are so fast." Xiao Liang said in surprise.

"That's of course." Lu Yang thought he was still good. He put up a set of Masso and said, "We returned to Sarros. With these 6 poisonous frogs, we can still fight faster. A lot. "

Xiao Liang and the three sisters Han Ying nodded.

Soon, five people returned to Saros, and Lu Yang bought some supplies and took them into the secret passage.

At this time, a lot of zombies gathered under the high platform. Xiao Liang walked in front of Lu Yang and set up a shield. Han Ying also let the **** three-headed dog block in front of Lu Yang.

At the same time, the wall of fire was released under Luyang Gaotai. Within a short time, the wall of fire reached 10.

Han Yu released the scatter arrows, and more than 30 zombies under the platform attracted them and came towards them.

Ten yards from Xiao Liang, he entered the range of the fire wall. As soon as the zombies came to Xiao Liang, they died on the ground.

System prompt: you have gained 119 experience

...

After a series of 30 system prompts, Lu Yang said: "There are no more strange monsters on the first and second layers of the Secret Channel. It would be too slow to attract them by Han Fei. We go down to the third layer today and there are many strange ones."

After the zombies had been resurrected twice, Lu Yang picked up items and continued to go deep into the secret passage, killing the zombies along the way, and soon, they came to the entrance of the second to third floors.

"Brother Lu Yang, there are a lot of zombies below, and there are a lot of zombie hunting dogs. Which one is very strange." Han Fei retracted his small head from the hole and looked at Lu Yang. .

Zombie hound

Level: 20

Qi and blood: 2567/2567

Lu Yang said: "Zombie hunting dogs are more difficult to hit, fast attack speed, and also carry toxins, one accidentally, it is easy for him to give seconds."

"Boss, I'll go down first." Xiao Liang said.

Lu Yang said, "You can't carry it. I'll go down first. There is a high platform below the same as the first floor. The steps below the high platform allow only two people to run in parallel. You wait for me to kill a zombie hound before jumping down and standing on the high platform. In the middle of the steps, Xiaoying jumps and waits for Xiao Liang to jump down, use your baby to stand beside Xiao Liang, Xiaofei and Xiaoyu wait for me to kill these two zombie hounds, and you jump down holding the poisonous frog."

"Okay." Xiao Liang nodded with Han Yingsan.

After Lu Yang finished the arrangement, he looked at the following situation, then jumped down, and did not wait to land on the platform. Two zombie hunting dogs found Lu Yang and snarled towards the landing Yang.

The speed of the zombie hunting dogs was very fast. Lu Yang just landed, and the two zombie hunting dogs rushed to the position 3 yards in front of him. Under the steps of the high platform, there were all zombies. There were hundreds of them. Lu Yang could not use the flashing skills at all Dodge.

Seeing this, Lu Yang said a spell in his mouth. The moment the zombie hound rushed to him to attack, the black ripples appeared on the platform.

"Flame Storm"

The two zombie hounds were struck by the blaze of fire instantly, and stunned for two seconds.

“Blazing Bird”

A flaming bird dived from the top of Lu Yang’s head to the middle of two zombie hounds.

At the same time, Lu Yang continued to chant the spell, and Pyroblast hit the zombie hounds one by one at a speed of 0.5 seconds. At the end of 2 seconds, a zombie hound was killed by Lu Yang on the ground.

The other was about to pounce on Lu Yang. Lu Yang held out his left hand to the zombie hound, palms facing the head of the zombie hound.

“Flame Shock”

The vertigo symbol reappeared on the head of the zombie hound, again for two seconds.

At this time, other zombies also discovered the existence of Lu Yang, all flew towards the landing Yang, but Lu Yang no longer worried.

“Boss, I’m here.” Xiao Liang has fallen to the ground, stepped between the high platform and the steps, and the heavy shield rests on the first step. The three sisters Han Ying and his 6 venomous frogs He also jumped down, and Han Ying’s **** three-headed dog stood next to Xiao Liang, sealing the steps to death.

The zombie rushed to the steps, and did not kill Xiao Liang and Hell’s three-headed dogs. Lu Yang could not be hit at this time. At this time, Lu Yang began to chant a spell and released the fire wall in front of Xiao Liang. Turn on the free mode, and in the form of a projectile, the hash arrow hits the zombies up to 60 yards.

The poisonous frog also joined the attack. Six poisonous frogs sprayed venom, and many zombies lost 20% of their blood before they reached the wall of fire.

...

In 10 minutes, less than 20 of the more than 300 zombies killed under the platform were left. At this moment, Lu Yang flashed a golden light on his body and he upgraded.

System prompt: You have reached level 13

Xiao Liang and Han Ying's three brothers and sisters looked happy.

"Brother Lu Yang, you have upgraded." Han Fei said.

Lu Yang said: "Yeah, it's not easy. It's finally upgraded. Let's work hard to get you all to level 11 today ~
www.mtlnovel.com ~ outside.

Sun Yu, Zhuo Jiu Qing, and others have woke up and started a new day's grading. When they were sitting and waiting for a reply, Mao Qiong bored to open the ranking list, and just saw Lu Yang rose from 12 to 13 level.

"The master has really risen to level 13." Mao Qiu said in surprise.

"So fast?"

Sun Yu said in surprise: "My master is really unusual."

Zhuojiu dumped and others nodded, they became more and more confident in Lu Yang.

Xia Yuwei, Zheng Yuan and others were playing with the recruited masters, Zhang Zibo suddenly exclaimed: "Lu Yang has risen to the 13th level."

"What, how is this possible?" Zheng Yuan's face was full of jealousy, at this time he was only level 7.

How difficult it is to improve the level of "Second World" everyone knows that Lu Yang's upgrade speed is faster than them at level 10, which makes it difficult for them to imagine.

Lan Yu glanced over at Xia Yuwei, she found that although Xia Yuwei's face had no expression, Xia Yuwei's eyes were obviously unnatural.

Lan Yu sighed. She knew that Xia Yuwei had completely offended Lu Yang this time. Now they have suffered bitter fruits. The level 5 thief spot was found by other guilds and had been snatched by them. Xiao couldn't **** each other, Lan Yu asked Lu Yang for help, but looked at Zheng Yuan and didn't know how to speak.

Chapter 119 - 3 levels

Inside the auction house.

Ye Guxing is still waiting for the release of anti-drugs. They all think that the people selling the anti-drugs are sold out of their inventory. Now they are rushing to the pharmaceuticals. No one is willing to leave. Bored, they help. Lahuo talked first.

Suddenly, Qu accidentally said in surprise: "Lu Yang has reached level 13 on the ranking list."

When Ye Guxing heard this, he hurriedly opened the ranking list. When he saw that Lu Yang's rating had really become 13th level, he was stumped on the auction machine.

"I must find him and kill him." Ye Guxing stared at his face.

"I really want to know where this kid is leveling, if we can also have a place to upgrade like this quickly." Liquor Qingfeng said sadly.

Others are not clear, but the spirits and breeze know that Lu Yang is not only a person who is upgrading but also a black armored soldier (Xiao Liang). Lu Yang has risen to 13th level and Xiao Liang has reached 12th level. Both of them have far surpassed their level. There are many elites in these grand guilds.

However, he didn't know that Lu Yang's men also had 6 players who reached the 11th level, such as Sun Yu and Zhuo Jiu Qing Piao. They just didn't reveal the level on the ranking list, and they didn't know the existence of Han Yingsan's third brother.

Qu inadvertently asked: "You are so close to Lu Yang, did you not recruit him?"

When mentioning this, the spirits breeze felt helpless, shook his head and did not speak.

Inside the secret passage.

Lu Yang's fire wall is still burning, and a sea of fire has formed under the high platform. Numerous zombies have fallen into the flames, allowing Lu Yang and Xiao Liang's experience to increase rapidly.

When most of the zombies were killed and only a few were able to get up, Lu Yang said, "Go and pick up things. I'll clean up the mobs."

Xiao Liang and the three sisters Han Ying could not wait any longer. After hearing Lu Yang's words, they ran down the high platform happily.

The zombie explosion rate is very high, especially in the skill book, Xiao Liang and the three siblings have incomplete basic skills, and just rely on the zombie to supplement the skill book.

Not long after, Xiao Liang and his three siblings ran over. Everyone had a lot of gains. Several people took a check. They got the raids of the thieves, the snowstorm of the ice method, the hammer of the paladin, etc. 6 This skill book.

Lu Yang said: "I can learn everything that I can learn, I can't give it to me, I will sell it to the auction house."

Xiao Liang and the three sisters Han Ying nodded.

“Brother Lu Yang, there are two bronze guards here, all of which are chain armor.” Han Ying said.

“Han Yu, let him equip it first.” Lu Yang glanced at the equipment he had hit. There were 4 pieces of whiteboard and 3 pieces of bronze equipment, and they could be equipped. Lu Yang let them wear them.

Lu Yang then said: “We stop here to fight monsters, Han Yu and Han Fei, you two are responsible for attracting monsters, how many can be attracted at a time.”

“Good grin.” Han Fei and Han Yu nodded together. The two ran down the high platform and drew strangely forward.

Passing through the open space below the high platform, in front of it are six promenades, each of which has countless zombies.

Han Fei came to the first corridor on the left, replaced the dagger with a flying knife, and came to a distance of 10 yards from the zombie. He threw the flying knife out.

He opened the free mode. The flying knife landed on the zombie behind 45 yards in the form of a parabola. At the same time, Han Fei suddenly opened his speed skill at his feet and increased his movement speed by 50%. Then he rushed towards the zombie group. Passed.

The front-most zombies found him immediately and rushed towards him with staring pale eyes. The zombies were about the same speed as him, but more than a dozen zombies ran towards him together, and they were very scary.

Han Feiling was not afraid to continue rushing towards the zombies while throwing flying knives while running. Frequent zombies were hit by flying knives. When the front zombie came to his 1 yard position, he stopped outputting. Turned his head and ran towards the road.

Han Yu also ran over at this time, and the two gathered in the middle of the fork. At this time, Han Fei's fast skills disappeared, but he was not afraid because he had come to Han Yu's side and was at Han Yu's Cheetah With the help of the halo, his movement speed increased by 30%, and the two ran towards the platform where the landing sun was.

Lu Yang stood on the high platform and watched the cooperation of the two brothers very satisfied. The two were in the same mind. There was no loophole in the cooperation, and about 100 zombies were pulled out at one time.

“Good job,” Xiao Liang shouted.

After Han Fei and Han Ying ran to the steps, Xiao Liang ran sideways and let them run inside, and then put on a shield again, getting stuck on the position again.

More than a hundred zombies rushed towards the high platform at once, but the steps were only two people wide and could only accommodate two people at the same time. The zombies could not catch up and could only cross below.

Lu Yang released Fire Wall on the ground when Han Fei and Han Yu ran back with zombies. At this time, a large number of zombies entered the sea of fire. With Lu Yang’s current more than 380 wounds, and the fire wall with 100 Multiple injuries, more than 2,000 blood zombies can only persist in the wall of fire for 5 seconds.

After 5 seconds, a large zombie fell to the ground and was still alive, just because Lu Yang’s wall of fire had not been covered.

“It’s so easy to upgrade like this ~ www.mtlnovel.com ~ Han Ying said.

Xiao Liang nodded and said: “The boss’s legal injuries are too strong, and other people can’t do this at all.”

Lu Yang smiled and continued while laying the fire wall: “To improve your abilities, we played a game. After the zombies died for the first time in the fire wall, Xiaofei and Xiaoyu immediately went to pull monsters, Xiaoying and Xiao Liang Then go and pick things up. This is a test of your cooperation and your physical fitness. “

Once a zombie dies, he will be resurrected. No matter he picks things up or runs, he must pass through the zombie group. Once he is hit by the resurrected zombies, except for the heavy armored soldier Xiao Liang, others can't carry two attacks.

"Boss, I'm afraid I can't hide away." Xiao Liang said in a daunt.

"I can't escape but practice. I will give you blood at the critical moment." Lu Yang shook the healing ring in his hand, and Sun Yu really gave him a good thing.

Han Ying patted Xiao Liang's shoulder and said, "Come on, let's exercise together."

Xiao Liang suddenly blushed, and even the girls dared. What did he dare not to mention, and the boss gave him blood.

"Okay, I won't embarrass the boss." Xiao Liang gathered his courage to jump under the platform. At this time, the burned zombies continued to be resurrected. As soon as he fell, a zombie resurrected and stood up beside him.

The zombie reached out and attacked Xiao Liang. Xiao Liang thought of using a shield for the first time, but then he reacted and forced himself to use his body to avoid it.

Chapter 120 - Undead Wizard

Lu Yang was already ready to add blood to Xiao Liang, and when he saw Xiao Liang dodging, he couldn't help showing a smile.

Sister Han Yingsan was also worried about Xiao Liang, but they were relieved after seeing Xiao Liang's successful avoidance.

"We're also going to blame, sister and brother Liang Liang, you have to cheer, be careful when we come back, you haven't finished picking up equipment." Han Fei said.

Han Yu smiled, obviously agreeing with Han Fei's "provocation".

"Begging." Han Ying's Kung Fu has always been in Han Fei and Han Yu, and her older sister has been protecting two younger brothers.

"I hope you don't let my sister wait too long." Han Ying jumped under the platform.

Han Fei and Han Yu stared at each other and quickly ran down the high platform to pull the monsters. Zombies got up along the way. The two used their physical skills to escape just right.

Lu Yang nodded contentedly. Thinking back then, he did this with his brothers. To survive in this game, he must practice carefully, and the best practice method is in battle.

This time the zombie exploded with not many items. Xiao Liang and Han Ying quickly ran back. Among them, Xiao Liang was beaten 4 times, Lu Yang added 4 blood to him, and Han Ying was not attacked once. Here.

Xiao Liang said dejectedly, "Boss, I still have a lot to lose."

Lu Yang said: "Don't worry, slowly improve yourself, you still have a lot of room."

Xiao Liang nodded and said, "This exercise is really good, I can feel my body shape has improved a bit."

Han Fei and Han Yu just ran back and took the second batch of more than 100 zombies. At this time, many of the fire walls on the ground were over.

Lu Yang re-released the fire wall technique, Xiao Liang and other Han Fei and Han Yu came in to set up the formation again. There was almost no gap between the two sides.

...

Half an hour later, when Han Fei and Han Yu brought back more than 60 zombies again, Han Fei said, "Brother Lu Yang, the blame has been almost killed, all three channels on my side are gone."

Han Yu said, "My side is almost gone, but I see a particularly strange zombie. He is wearing a black cloak, has no feet under his body, floats in midair, and holds a sickle in his hand. It seems to be called an undead wizard. "

Lu Yang hurriedly looked forward, but did not see the arrival of the undead wizard. He breathed a sigh of relief and said, "Xiaoyu, you did a good job and did not draw him over."

"Is that zombie terrible?" Han Yu asked.

Lu Yang said: "It's not very powerful. If you provoke him, you will be instantly spiked. You don't even know how to die. He is the biggest boss in the secret channel."

"So powerful?" Xiao Liang and three sisters Han Ying said in surprise at the same time.

Lu Yang said: "It doesn't matter, I have a way to deal with it. After killing these monsters, Han Yu will take us over."

"OK." Han Yu said.

"It's great to kill the boss again." Han Fei said excitedly, Xiao Liang, Han Ying and Han Yu were also very excited, because boss means wealth.

Soon, the zombie group was burned to death by Lu Yang's fire wall technique. At the same time, Han Ying's three brothers flashed gold at the same time, and all three reached level 11.

Han Fei said to Lu Yang happy to upgrade: "Brother Lu Yang, let's kill the boss."

Lu Yang also wanted to see what this boss could explode, and said, "Pick up the equipment and let's go together."

“Yes.” Xiao Liang and three brothers Han Ying immediately jumped off the high platform and picked up all the equipment in less than 1 minute.

Lu Yang asked Han Yu to lead the way. Soon they went to the first fork on the right side of the map. They didn’t walk long enough to see a black cloak all over their bodies. They could not see their body and head. A ghost with a pale arm holding a huge sickle that didn’t fit his body wandered the map.

There were no zombies around him. Previously, zombies in this place were led away by Han Yu. Now he is the only one.

Necromancer (boss)

Level: 30

Qi and blood: 200000/200000

“According to the official story of the game, this undead wizard is one of the several undead wizards that caused corpses here. After the undead spell was discovered, the human army paid a great price to kill him. In order to punish him, he was killed. Thrown into this secret passage.

The undead wizard himself is the carrier of the undead magic. After his death, the body automatically becomes the state of the undead. Although his strength is greatly reduced, he cannot easily be defeated. His spells can be cursed and resurrected dead bodies. boss, even if a team comes, it is difficult to win. “Lu Yang said.

Necro magic is currently the most difficult magic to deal with. No player has resistance to necro spells, and almost as much damage is how much blood is lost.

“Brother Lu Yang, how can we fight.” Han Fei asked excitedly.

Lu Yang said: "You can't help for the time being, I have to single him out, and I'll be optimistic for a while. The reason why I let you practice body shape is also here. You learned my body shape, and you also can single out the boss without injury."

"Boss, you have to kill it alone." Xiao Liang asked.

"Of course." Lu Yang began to release the wall of fire around him, and said, "Remember how I killed Archmage Olds."

Xiao Liang nodded, and in his life he couldn't forget the scene when Lu Yang singled out Archmage Olds.

Lu Yang said: "If it is a 30th-level warrior department ~ www.mtlnovel.com ~ we can only retreat now, but the 30th-level mage boss, I can single him out easily."

At this point, he had released more than 60 fire walls in the passage, with 5 rows of fire walls in parallel, with a length of 24 yards.

"You all step back." Lu Yang took 5 poisonous frogs to a distance of 30 yards from the undead wizard, this position is exactly in the first half of the wall of fire, he uttered a spell, and released 5 to the undead wizard in a blink of an eye. Road burning.

The undead wizard floated on his back to the landing sun, and turned around instantly after being attacked. Two bleak white lights were exposed under the cape, and a sickle was raised against the landing sun.

Lu Yang rolled over on the spot, Xiao Liang, Han Fei, and others didn't understand why Lu Yang did this, but in a blink of an eye, where Lu Yang had just stopped, it seemed that the position of Lu Yang's chest was a black purple. The spell suddenly appeared, and then the spell burst like lightning.

"This is the spell of the undead wizard. The damage is around 2,000 points and he will die if he hits it. However, if he wants to avoid it, it is easy to see that he raises the sickle to release the spell."

Xiao Liang and three sisters Han Ying nodded.

When the undead wizard saw that he was not hit, the sickle was lifted up again, and a dark purple light spewed out of the sickle. Around Lu Yang, 20 bright yellow body skeletons suddenly appeared out of thin air, and 11 were holding bows and arrows. , 9 armed with a short axe, launched an attack on Lu Yang at the same time.
