

Wild Fire 1161

Chapter 1161 - Upset

Kerrim didn't look back. He was head-to-head with Amira, with a smug look on his face, and said to Amira, "You lost, this time I must hit your little ass."

Anna Mila showed an angry look, but then his face was relieved and he said, "Okay, if you hit, you will come."

瑞 Krim frowned. He always used these words to provoke Amyra, but today Amyla is not angry, which is definitely a problem.

安 "Amira, here we come, don't be afraid." Constantine's roar came from a distance.

瑞 Kriem looked behind Amira, and just saw the seven vice-chairmen, Constantine and Karagu, rushing in with 700 people.

"Damn it, put up a defensive formation and wait for rescue." Kerrim responded immediately and shouted immediately.

"Chong."

"Kill!"

Uh ...

The two sides quickly smelt together.

When the two sides fought fiercely, what they didn't know was that Lu Yang hid in the forest not far away, watching the situation on both sides.

"Well, it looks like I will fight on both sides if I don't come, and the 8 city owners of Greece are all together." Lu Yang muttered to himself.

"It looks like there is nothing wrong with me." Lu Yang changed to a mount and left the area. Obviously, there is no need for Lu Yang to do anything more. This matter has been successful. It is estimated that from this afternoon, 8 in Greece. The city-lords are about to unite against Turkey.

Now is the weakest time in Turkey. I believe the two sides will fight fiercely. For a period of time, Turkey will not pose a threat to his annexation.

"Boss, are you free?" Black Friday suddenly sent a message.

Lu Yang was a little surprised. After his foreign brothers came to the guild, he was always very happy. Usually, he would immediately tell Lu Yang about something, but this time suddenly he sent a message to ask for the first time.

"What's the matter?" Lu Yang asked by calling Black Friday.

Black Friday was touched a little. It's rare that the chairman of a super guild like Lu Yang is now well developed and can still communicate with them like this.

"Boss, the eight-armed spider wants to return to China. I don't know how to deal with this." Black Friday said.

Lu Lu frowned, and asked, "Isn't he used to living here?"

Black Friday said, "No, it's probably his father who is going to jail. He is going back to stand with his father."

Lu Yang asked a little bit, "tell me what's going on."

Black Friday said: "The father of the eight-armed spider is Scottish, you know, Scotland has recently become independent, and the person who led the incident has the father of the eight-armed spider."

Lu Luyang said, "I see. So, you don't need to worry about this. I'll take care of it."

He hung up the phone, read the spell and returned to the special space to exit the game. When he got out of the door, he came to the villa accommodation area, where the players of all countries are located.

The eight-armed spider just packed his backpack and came to the door. When he saw Lu Yang, he said, "Boss, why are you here?"

Lu Yang smiled and said, "Come with me, let's talk."

"Uh, okay." The eight-armed spider lowered its luggage and went to Lu Yang.

Lu Yang motioned to the eight-armed spider's girlfriend to return his things to the house, and then brought the eight-armed spider to a nearby cafe.

I walked up to the third floor, Lu Yang found a private room and sat down, saying, "I haven't had lunch yet, what to eat."

The eight-armed spider was depressed, and said, "No, I'm not hungry."

Lu Yang smiled and said, "I heard that you like to eat the cheese and crayfish the most here. I asked the waiter to give you one."

怎么 “How do you know.” The eight-armed spider was surprised.

Lu Luyang said, “I am the boss to care about subordinates is not normal, I am afraid that you will not be used to eating and living here, deliberately looking for local chefs.”

“Thank you.”

“Don’t be polite with me. We have known each other for more than two years. From the initial partner, we have become brothers working hard together. Need not be polite.” Lu Yang said.

Eight-armed spider nodded.

Lu Luyang said, “Listen to me on Black Friday and ask if you are going back. Are you experiencing any problems? Tell me about it.”

The eight-armed spider sighed and said, “Our family is a nobleman in Scotland. It was the United Kingdom that ruined our country and merged with the United Kingdom. Unfortunately, every time it fails.

This time, my father failed again. The new British Prime Minister is very strong. My mother called me and said that my father might be arrested or arrested for treason. I need to go back and accompany him through the difficulties. “

“Crayfish is ready.” The waiter entered the door, put a large plate of crayfish on the table, and the eight-armed spider who watched swallowed involuntarily, he had not eaten lunch.

Lu Luyang said: “Eat first, no matter what, you must have the strength to know before you do anything.”

In recent years, Britain has been in a state of chaos. Because of its relationship with the European Union, no prime minister has been able to settle for two years. As long as he comes to power, he is impeached by the opposition parties. The entire British parliament is like a street market.

Almost every once in a while, the opposition party initiates a vote of no confidence in the Prime Minister. Once more than half, the Prime Minister must resign. Even if the Prime Minister survives this time, less than a month, there will be a second vote of no confidence.

Scotland and Northern Ireland are the main sponsors of these no-confidence votes. These two places were originally not British. The British flag was originally a cross. Because of Scotland and Northern Ireland, it became the current thick rice. .

However, these two places were defeated by the British. From the time of Churchill, the two places have sought independence. It was still during World War II. With Churchill's strength, they were bothered by the people in these two places.

At that time, in order to make people in these two places think they were British, Britain gave them great voting rights. After the brothers in these two places had voting rights, they did one thing. Whoever agreed to give Scotland and Northern Ireland has greater power. They will vote for the Prime Minister and agree to the Prime Minister's proposal, otherwise they will vote against it.

The key is that these two places still have a large number of votes. Together with the opposition party, Churchill can't stand it. He simply gave the two places great autonomy, which also laid the seeds for the people in the two places to seek independence.

The right to self-government gives these two places their own parliaments! It also has the right to free trade. Except that it is not a country and does not have an army, it is no different from a country!

With the development of the times and entering the 21st century, certain extremists within these two countries have successively caused terrorist attacks in London, England.

Why there are no trash cans on the streets of London is because at that time they put them in trash cans. Later, a British Prime Minister sent troops to kill or arrest these people. Although the rebellion was calmed down, people in these two places could Exit the UK more firmly.

Later, there was a referendum on Scotland's departure from the United Kingdom. At that time, the British Prime Minister cried on national television and asked Scotland not to leave. At the same time, he gave better preferential policies, which kept Scotland.

After the Scottish referendum ended, the UK immediately enacted a law stating that no referendum would be allowed for another 16 years.

Now, after 16 rounds of this 16 years, Scotland and Northern Ireland have sought to separate again. But this time, Britain is not ready enough. It is only one year away from the referendum. The British Prime Minister has also exchanged back and forth. Only then has the new Prime Minister prepared. Catch the situation.

Lu Luyang said: "It's useless to go back now. If you really have this idea, I will give you a suggestion."

"What advice?" The eight-armed spider was a little surprised.

"If you have the idea, you can gather more Scottish and Northern Irish players in the game."

"Is this useful?" The eight-armed spider asked.

Lu Luyang said: "Think about it, is this" Second World "just a game?"

The eight-armed spider shook his head, and he could see that the otaku, this game has been off track, and it has become more terrifying than the real world.

"But what can I do in the game, gather them to propagate to leave the UK?" Asked the eight-armed spider.

Lu Luyang said: "Of course, how many people can you listen to when you speak in the real world, but you promote it in the game. For example, you set up a British Association, think about what it would be like."

Eight-armed spider's eyes lightened, but then he dimmed again and said, "I have no money and no one."

Lu Luyang said, "I'll give you a total of 100 million pounds for you to do this."

“One hundred million pounds.” The eight-armed spider stood up excitedly, looking at Lu Yang with an unbelievable face, and said, “Boss, you are not kidding.”

Lu Yang leaned on the back of the sofa, folded his hands on his chest, and said, “I lie to you, I can tell you, my purpose is to make you mess up the British Super Guild where the blood butcher is, but it is not for you to revive Scotland. , But what else did you do when you helped me mess up the blood butcher? “

The eight-armed spider was confused at first, and then expressed an excited expression, saying, “I know, thank you, boss, I know how to do it.”

Lu Yang smiled and said, “Eat it, go back to work after dinner, and the money arrives at 4 pm. Ask whoever you need to help you, please ask him. I agree with everyone except the Huaxia headquarters.”

“Thank you, Boss.” Eight-armed spider thanks again, with the support of these top masters of the Iron Brother Brothers Overseas Association, it is easier for him to form a guild. After all, these people are the top 300 masters in the world.

Lu Yang knocked on the table, stood up and left, although he really wanted to come out and help the eight-armed spider himself, but this kind of thing involving the national level is likely to lead to international disputes, and he didn't want to offend some he didn't want Offended man, so he can only support the eight-armed spider in this way.

打电话 He called Tu Feng and said: “I arranged an eight-arm spider to set up a guild in Britain to deal with blood butchers. The total budget is 100 million pounds. He needs money and you can allocate it to him at any time.

“Yes,” Tu Feng said.

Lu Yang hung up the phone and returned to the game. Turkey and the United Kingdom have solved it. The rest are South Africa and Italy. These two places do not require him to shoot. Spain is next to Italy. Now Italy is weak and Spain has invaded. .

South Africa is a waste. The last few people who participated in the war were mainly black. I have to admit that this country is powerful. A leader has won the Nobel Peace Prize at the cost of making this country a black supremacy. .

I have a saying how to say, if you have n't been robbed in South Africa for a month, then it proves that you have n't come to South Africa.

Here is chaos here. Lu Yang doesn't need to shoot anymore. Now he just needs to wait for these countries to fight together and send someone out.

As for one step to the sky, Lu Yang feels that his materials are still too little. Although he can be convicted, he cannot stay in prison for too long.

“You have to work harder.” Lu Yang murmured to himself, he took out the teleport token and flew to Tianyuan God City, came to the teleportation array, and entered the Sixiang City.

As soon as landed, players around him looked at him, but he saw that he was a handsome young man in a beautiful dress, and no one looked at it too much.

“Strange, why is anyone focusing on this?” Lu Yang muttered to himself. He stepped out of the teleportation array and went to the auction house for a turn. Unfortunately, there is nothing good. Obviously, the players did not reach 200. Before the level, there would not be too many things entering his Lu Yang's eyes.

“Staring at her, she would kill her if she dared to leave the city.” A loud shout came from behind, and dozens of players chased one player and ran to a distance.

Lu Luyang felt a hint of curiosity. It turned out that those people were not staring at the president of the Jagged Brotherhood, but were looking for this female player. He followed after him.

The female player ran very fast. Tianyuan Shencheng itself was very large. She ran into the residential area in the south of Tianyuan Shencheng in stealth. She quickly fled off those players. When she showed up and was about to take a break, she found Those players who were thrown away caught up.

“Damn, he’s there, keep up.” Shouted one of the players.

“Come again.” The girl showed a helpless expression and was about to run away, but in the distance a red comet with a diameter of one meter flew over from the side.

“Comet Impact”

10 a few players all paid attention to this female player, and did not notice the red comet at all.

“噠”

The red comet bumped into a player’s body, burst into a blast, and more than 10 players were instantly killed in seconds.

The female player was about to run, was shocked to see this scene, looked to the side, but found that a handsome young man appeared on her side.

“Beauty, I was not handsome just now.” Lu Yang asked.

The sorrowful expression of the female player turned into a black line, saying, “Do you know that killing in Tianyuan God City is going to be pursued by the system?”

Lu Yang pointed at his feet and said, “Beauty, don’t you know that you have already left the monitoring area of Shencheng? This is a slum. There are only a few places where you can kill people in Shencheng.”

The female player quickly looked around, only to find that she had run away and came to such a place. When he looked at Lu Yang again, the look of horror on his face appeared.

“Handsome guy, let me go.” The female player said pitifully.

Lu Luyang said: "I also want to let you go, but they persecuted you so much, I'm curious what they want, you better show me."

The female player quickly backed away, clutching her backpack and saying, "Don't think about it, don't come over."

Lu Yang said, "I'll be here, what?"

卡片 Under the cover of a card, Lu Yang also gave full play to his aggressive character. In the last life, Lu Yang's character actually looked like this. It was only because of revenge that he became so cold.

报 The revenge of this life only found Liu Jie's problem, and his parents and lover were safe and happy, and he gradually recovered.

Of course, he was not interested in the girl in front of him, purely for character reasons, and in order to conceal his fact that it was the chairman of the Iron Brotherhood, everyone believed that the chairman of the Iron Brotherhood would not say so, of.

At this time, Lu Yang has walked to the girl in two steps and said proudly, "Have a look at Uncle Ben."

The girl was crying and said, "I'll call for help if you come over again."

Lu Luyang said: "You shout, you shout that your throat is broken and no one comes to your rescue, wow haha ~!"

还有 "Also, if you shout, those people will be brought in, then you will be dead."

When the girl collapsed, Chu Chu said poorly: "Brother, just let me go, this thing is for my life."

Lu Lu frowned, and said, "What is it? Tell me, if I can, I buy it at a high price."

The girl asked in disbelief: "Really?"

"Not necessarily. Believe me, it may be a good thing or a bad thing. But you don't believe me, it can only be a bad thing." Lu Yang Quede said.

The girl was speechless. After thinking for a long time, she took out a dark thing from her backpack and said, "That's it, a treasure that can upgrade the green heart."

Lu Luyang's eyes brightened, and he was surprised to see the dark thing in front of him. His name was Aken Stone.

Aken Gem

Intelligence: +10000

Description: He is a necessary item to upgrade the emerald heart.

Lu Yang sighed and said, "Little girl, you're lucky to run into me. Say the price, I bought it."

The little girl froze, he was ready to be taken away by Lu Yang, but Lu Yang suddenly wanted to buy it, which made her wonder what to do.

Lu Luyang said, "Say the price in your heart, I will buy it at a fair price, and I will not pit you."

"100 gold coins," said the girl tentatively.

Lu Luyang smiled and shook his head, and said, "This thing is worth at least 1,000 gold coins, but that will be in the future, so let me give you 500 gold coins, and take this to do what you want."

He took the gold coins from his backpack and gave them to the little girl, and then returned the Aken gem from his hand.

The young girl froze and asked, "Are you Lu Yang, the chairman of the Jagged Brotherhood?"

Lu Luyang: "..."

"No, absolutely not, you admit it wrong." Lu Yang was depressed in silence.

Chapter 1162 - Icecrown Tyrant

The little girl looked at Lu Yang suspiciously and said, "Fire damage is so strong, and it is so good to speak, it seems that there is only the chairman of the Jagged Brotherhood."

Lu Yang held her forehead and said, "Look at my appearance, where is it? Don't make any noise, I don't want to cause trouble."

"Then you still have to buy this stone." The little girl asked.

Lu Yang said: "You don't understand, he doesn't do much to you, but to me, this is an artifact, okay, let's go, a bad person will come for a while, be careful they take your money . "

"Oh." The little girl's face tightened, and she ran away without considering the others.

Lu Luyang looked at the girl's back and shook her head, took out the teleport token and flew back to Tianyuan God City, read the spell and flew back to the demon temple.

来到 He came to the altar in the apse and placed Aken's gem and emerald heart on it.

The system prompts: Are you sure you want to synthesize?

Lu Yang chose to synthesize. A cyan light flashed on the altar. When the light passed, the Aken gem and the emerald heart on the altar disappeared, but a green stone was added.

Green Spirit Heart (rare item)

Level: 100

Intelligence: +20000

Stunts:

Green Spirit: Launch a green spirit light to the target, forcing a reduction of 50% of the target's movement speed and an additional 50% of magic damage. Physical attacks cannot be used.

Lu Yang's most important thing is the last option to break the magic. There is currently a piece of equipment in the game, called the scepter of the god. When the player with this scepter is turned on, he is immune to magic for 30 seconds.

In general, when two players with the same strength are fighting, if one side is a mage and the other is a warrior, the warrior can kill the mage without injury by holding a magic wand.

If the mage has the spirit of the green spirit, even if the opponent opens the magic immunity, this skill can be used to break the magic immunity effect.

The disadvantage of Lv Lingxin is that the duration is too short, only 4 seconds. This is not enough output time for most players, but for people like Lu Yang, the killing time is enough.

And with this equipment, many of the lords in the game that made Lu Yang dare not touch, now he dares to fight.

He opened the magic circle and teleported to the 130-level town north of Tianyuan Shencheng-Ice City.

There is a map between the levels outside Cold City. Since there are ice and snow here, it is the place with the fewest players.

“Summon Mount”

Lu Yang summoned a war horse and ran out towards the North City Gate. Some players outside the city were upgrading their monsters, and the monsters on the road were all cleaned up. He did n’t need to be monsters, he just had to be careful about the surrounding players. Those who want to kill and win treasure are just fine.

On the map, many players are organized in teams, so they are divided into a group of forces. If there are players who place orders and their equipment is particularly good, they will be easily robbed.

Lu Yang watched and watched around while running. Many people were staring at him in the gap between the monsters. During this period, several thieves were hiding in front of him and all were passed by Lu Yang.

The thieves found that Lu Yang could find them 10 meters in advance, and knew that the level of this person was much higher than them, so they did not dare to intercept it easily and hid aside to watch.

Luyang continued to run forward, through the 130-level map, and ran to the 160-level map.

System prompt: You found the Arctic King fortress

堡垒 The King of the Extreme Cold Fortress is the location of the Extreme Cold Demon. These ice demon are somewhat similar in appearance to apes, white in body, muscular in size, 3 meters tall, and highly aggressive.

What Lu Yang was looking for this time was not the ordinary ice monster, but the ice monster tyrant. He is a lord blame who knows magic, a treasure. Lu Yang did n't dare to ask him for trouble because he did n't Heart of Green Spirit, he decided to stay here to brush this lord.

“Summon Flying Carpet”

Lu Luyang appeared next to the flying carpet. He jumped onto the flying carpet and issued an order to fly the flying carpet to the sky and enter the interior of the ice fortress.

Mengbing Fortress is a castle built against a large mountain. The location of the ice tyrant is on the high mountain, at the highest point on the mountain, there is a palace, where the ice tyrant is located.

Lu Yang flew all the way to the palace. The tapered roof is the feature here, so that the snow will not accumulate on the roof and the house will be under too much pressure.

怎么样 “How is it here?” A rough voice came from the wall on the side of the palace.

“Report commander, there is no problem here.” The voice of a soldier came.

Lu Yang looked over to the side. At the top of the palace, there were 8 ice warriors standing on the city wall connected by two pointed cone-shaped towers, and a mobile ice warrior commander was carrying a team of soldiers on inspection.

The Ice Demon Captain is a little lord. He has nothing in common. He is not within the target range of Lu Yang, but now seeing the Ice Demon Commander has a benefit. You can infer whether there is a strange patrol in each area of the palace based on his walking .

The ice ice demon palace is relatively empty, and basically no monsters can be seen, especially in the dormitory location, where there is only one monster.

Lu Yang fell in the attic of the conical tower in the southwest corner of the palace, and opened the access door on the floor.

“Squeak ~~!”

The sour sound of rubbing wood sounded in the attic, and Lu Yang reached the gate of the third floor of the palace along the spiral staircase.

“噤”

“噤”

Uh ...

The heavy stepping sounds of Bingbing Demon sounded outside the door. Lu Yang glanced in through the crack of the door, and a group of heavy infantry carrying an axe was coming towards him.

“Stealth”

Lu Luyang used the potion, walked through the gate, and quickly ran towards the palace's palace. Now is the best time for him to enter the palace, and the surrounding patrolmen are not nearby.

The urn passed through more than 10 halls, and in front of Lu Yang appeared a 30-meter-high gate full of gold and precious stones.

System prompt: You found the Tyrant's Palace

“Blink”

Lu Yang chanted a spell in his mouth, jumped into the palace, and just entered the door. An extremely large hall appeared in front of him. Just looking at the area, there was a football field as large as this.

On the far left side of the dormitory, there is a large bed, on which is sitting a white ice demon 10 meters tall.

Icecrown Tyrant (Lord Level)

Level: 160

Blood: 0000000

The tyrant didn't notice Lu Yang and was thinking about something.

Luyang's mouth showed an arc, and the staff of his right hand pointed at the ice crown tyrant, and the spell was spoken in his mouth.

“Blazing Heart Flame”

A fiery white flame hit the Icecrown Tyrant.

“122400000”

Icecrown Tyrant was instantly provoked, and stood up with a roar.

“Shenwei”

The body of the Icecrown Tyrant has obviously expanded in a circle, more than 3 meters higher than the original, and the body emits a sacred breath. This is the form of magic immunity.

“You **** it.” The Icecrown Tyrant picked up his mace and ran towards the landing sun.

Lu Yang gave a cold hum, and took out the Green Spirit Heart with his left hand to point to the Ice Crown Tyrant.

“Green Spirit”

A ball of emerald green light hit the body of the Icecrown Tyrant precisely. In a moment, the Icecrown Tyrant became a void form.

“Ground Fire”

— As soon as Lu Yang’s staff knocked on the ground, he slowed down and suddenly burst into flames at the feet of the Icecrown Tyrant who ran over to Landing Yang.

“4278680” (Green Spirit + Critical Strike)

As the ice tyrant ran backwards, Lu Yang uttered a spell in his mouth.

“Remnant Flame-Activated”

He quickly backed away 10 meters away, and then spoke the spell again.

“Ground Fire”

The Icecrown Tyrant just landed, and then was blasted by flames.

“4278680” (Green Spirit + Critical Strike)

Luyang’s right-hand staff points 20 meters behind the Icecrown Tyrant.

“Meteorite Falls”

“Destroy the Sky”

“Remnant Flame-Activated”

Lu Yang receded a distance of 10 meters, and read the spell in his mouth.

“Ground Fire”

氷 After the Icecrown Tyrant flew 10 meters backwards, he just landed and was attacked by the ground fire again.

“4278680” (Green Spirit + Critical Strike)

Icecrown Tyrant flew back 10 meters again, just after landing, a flame fell in the sky first, followed by a meteorite.

“4278680” (Green Spirit + Critical Strike)

“6875216” (Green Spirit + Triple Critical Strike)

Lu Yang’s attack is not over yet. When he was stunned by a meteorite falling for 1 second, he pointed his staff with his right hand and read the spell in his mouth.

“Comet Impact”

A group of red comets formed at the tip of Lu Yang’s staff, and rushed towards the Icecrown Tyrant.

“Remnant Flame”

Lu Yang left a residual image in place and threw out the escape dagger. He suddenly appeared in front of the tyrant when the Icecrown Tyrant just woke up.

“The Sun Fist”

He punched his left hand with a heavy blow on the leg of the Icecrown Tyrant, and moved it backward by 5 meters.

“6875216” (Green Spirit + Triple Critical Strike)

Weng Bingguan tyrant woke up, he was thoroughly enraged by Lu Yang, just now, he was beaten by Lu Yang Lian nearly 10 times.

“No one can do this to me, you have to pay the price.” The Icecrown Tyrant roared, but his voice had not fallen.

“Polynuclear explosion”

Lu Yang flickered in front of the Icecrown Tyrant, a bang, and a flame exploded inside him, continuing the Icecrown Tyrant’s fight back a distance of 10 meters.

“Hoo ~!”

The wind sounded in the ears, and the comet bumped through Lu Yang’s body and hit the body of the Icecrown Tyrant severely.

“10768860” (Green Spirit + 5x Intellectual Damage)

Lvling state disappeared, the time was exactly 4 seconds. If someone saw Lu Yang's set of combos at this time, he would yell and hold his head crazy.

In just 4 seconds, Lu Yang beat a 160-level lord-level monster with nearly 150 million hit points in a series of strokes. He removed the flame damage, only that nearly 50 million damage was enough. People feel horrified.

If it is a player, it will die dozens of times!

Lu Yang sighed, but unfortunately, the lord blame not to eat other halo skills, otherwise he can hit hundreds of millions of damage in a series of moves, but this is also very good, the green spirit broke the ice magic state, the remaining It's much easier.

“Summon Pets”

The Aquarius holy warrior appeared in Lu Yang's side wearing a golden armor, half-knelt saluting and said: “Aquarius fights for you.”

Lu Luyang said, “Glass bottle control.”

The Aquarius holy warrior threw his right hand, his treasure bottle flew into the air and stagnated. The mouth of the bottle was facing the violent ice-crown tyrant rushing forward, hitting the tyrant's body.

System prompt: Icecrown Tyrant movement speed is forced to be reduced to 50%.

Icecrown Tyrant originally had a regular player's movement speed of 550%, but now only 50% of the regular movement speed is left. He runs like a snail and can no longer catch Lu Yang.

“Lava Eruption”

“Lava Eruption”

Uh ...

Lu Luyang covered the ground with flames, killing the Lord's monster more than 1 million HP every second. He summoned the Phoenix and used the spell with him to start attacking the Icecrown Tyrant.

When killing this lord, Lu Yang was really heartbroken. Recalling the 200-level lords of the previous generation, each of them had a magic resistant shell, which specifically controlled the type of control spells such as the blue flask. At that time, the blue flask's role is almost gone. Players who want to kill this kind of wild lord can only take a large number of people hard and hard, like now, relying on a summoning beast and a player with stronger output, a lord can fight without any strangeness. Ability to fight back.

However, to kill this lord also requires some skills. Melee lords don't know spells, but they know long-range skills such as Thunder Stomp and Charge. Therefore, the player cannot blame 10 meters away from the lord, then he will launch an attack. It can't be within 9 meters from the lord, so he will use Thunder Stomp to reduce your movement speed, and the physics in his hand can attack you.

Lu Yang can only move in this space of 1 meter. Although it is dangerous, it is full of excitement. This is good for him. In the last life, he killed the most difficult lord and gave him only 10 cm of dodge space. To die above, to die below, that's when he thought he was at its peak, staying in that state for a full hour.

记得 I remember that he killed the monster and collapsed. He quit the game for two days before he recovered. In this life, he believed that he could persist longer.

“Boss, just received the news, the president of the Turkish Blue Moon Guild Korem and the eight Greek city lords fought, each side sent a million players, the current situation is very anxious.” Tu Feng excitedly called phone.

Lu Yang smiled and said, “Sure enough, it started.”

Xu Tufeng asked in surprise: “Boss, you know? It's not you who do it.”

Luyang laughed and said, "Of course I did it. I pulled a 160-level lord to the place between them."

Wu Tufeng laughed and said, "Boss, you are too good. A lord is just a monster. The losses on both sides are huge."

Lu Luyang said: "In fact, the two sides are already fighting. When I blame them, the 8 Greek city masters are plotting together, knowing that there are lord monsters, they came almost together."

Xi Tufeng said: "The Blue Moon Guild will not pose a threat to us. When they and Greece win the victory, we are afraid that we will reach level 140 and have all the equipment."

Lu Luyang said: "That's right, let everyone cheer. I'm killing the lord here. If there were no accidents, I can take you to a level 140 hundred nightmare difficulty copy."

Xi Tufeng said, "Yes."

Lu Yang said: "This time my demon heart was weakened, but other artifacts were not weakened. In this way, you send a message to Han Ying, Han Yu, Mu Yu and Bai Yiyi, and let them take other people to give The heart of God is upgraded. As far as possible, when I return, the heart of Thor, the heart of death, the heart of destruction, and the heart of the Holy Spirit are all at level 9. "

"Okay, I'll let you know." Tu Feng hung up.

Lu Luyang continued to attack, and now his soul reacts very quickly, and doing two things at the same time will not affect his performance.

"Blink"

Lu Yang saw that he was leaning against the wall, jumped to the position 10 meters behind the Icecrown Tyrant, and continued to pull him to attack. Taking advantage of this gap, he called Han Zhong and asked, "Master, how are these 100,000 people? OK. "

Han Zhong said: "The current level in the game has reached 120, not far from participating in the war, and now there is a problem, they have no blood, do you want to let them have any blood?"

Lu Luyang said: "Don't use blood for the time being. There are a lot of good blood after the level is high, and learning is not suitable now."

"Well, I'll let them continue to fight like this." Han Zhong said.

Lu Yang hung up the phone, feeling a little excited. His 100,000 players are finally about to come in handy, and his efforts have finally paid off.

You know, these people have been upgraded for more than half a year, and Lu Yang has allocated a lot of high-quality resources inside the guild to their hands, which has caused a lot of complaints.

I also have a salary investment, which is a huge expense for Lu Yang. Without the support of Qi Yun Company and the gold mine, Lu Yang would not dare to do it.

After all, Lu Yang is not only spending on the game guild, but also various other departments, such as Xue Yiming and Tu Feng's special departments, which are all huge expenses.

There is also Huang Xiang, who is the most annoying to Lu Yang. This grandson has to take a lot of money from Lu Yang every month. The best he has ever lived is Huang Xiang. This grandson eats on both sides, from Liu Jie He got a sum of money there, and a sum of money from him, but he did not confront Liu Jie one day, he would raise Huang Xiang one day.

System Tip: You killed the Icecrown Tyrant

You got 1898786 experience

Lu Yang looked back and found that when he was chatting, he actually killed the Icecrown Tyrant and shook his head came to the Icecrown Tyrant and looked down at the ground Items.

“Warlord of the Tyrant”

Class: Warrior

Consumption: 100 Rage

Distance: 100 yards

Description: Provides a power of 8 physical attack power to the team target for 2 hours.

Lu Yang laughed, what he wanted was this thing, and it really exploded. “Cruel Battle” is a skill that all the teams in the previous generation must have. With this skill, the melee profession’s attack power can be more than 100,000.

Of course, if you want to increase so much at this stage, you need to have a higher level of anger. Like Ningshen, it is to increase the bonus effect.

Lu Yang looked at the second item.

Ice Crown Battle Banner (Charging)

Counterfeit Order: 4

Power: +10000

Wrath: +1

Aura: Attack of Aura

Description: Holder raises the battle flag and can add 10,000 points of damage to players within 500 meters.

Lu Yang laughed, and when he thought of anger, it burst out, as well as the ice crested battle flag, all of which he wanted most.

The previous battle flags of the Jagged Brothers Alliance were all battle flags bought in the official system without any effects. Therefore, Lu Yang always wanted to obtain the battle flags with effects. He came here because of this. The flag is equivalent to hundreds of millions of more damage to one of his legions.

Chapter 1163 - The 3rd Competition

There are four types of Icecrown battle flags, which increase attack, defense, movement speed, magic damage, and magic defense respectively, which are in line with the command of the battlefield commander to wave the flag.

Lu Yang looked at the third item.

Chaos Orb

Effect: Fusion with teleportation scepter, teleport ability can be used in the new world to teleport teammates to your side.

Lu Yang forced a fist, and luck was good enough, and even this one broke out. This is a baby, it is a necessary item to synthesize a new world transmission scepter.

After this war, he already has 8 New World Teleport Scepters in his hand, and counting this is the 9th.

“This lord is really a good thing.” Lu Yang murmured to himself, he decided to stay here, kill the Icecrown Tyrant once a day to get gems.

“Dididi”

Xue Yiming’s phone call came in. Lu Yang pressed the connect button and asked, “What’s the matter?”

“I found a piece of news that does not belong to my jurisdiction. The spy I bought accidentally got the way to get the shooter’s totem and soul godhead from Liu Jie.” Xue Yiming said.

Lu Yang asked: “Liu Jie got godhead there?”

✂ Xue Yiming said: “You also know that although Africa is divided into a server, the number of artifacts is three times that of normal countries. Liu Jie has already collected them and is looking for ways to upgrade them.”

Lu Luyang said: “Very good, send me the method. Is there any news about Liu Jie?”

Xue Yiming said: “You must be careful of Liu Jie. After the outside war, his men upgrade quickly.”

Lu Yang said, he knew that Liu Jie was fast. With the help of a large number of elite studios, it was not difficult to find some quick upgrade methods.

“Continue to infiltrate, don’t worry, we have more and more opportunities to eliminate him.” Lu Yang said.

As long as he can continue to attack, he will soon be able to pack Liu Jie in a circle. At that time, he will do whatever he wants to do with Liu Jie, or if he rises to level 160, the two sides can meet. At that time, Lu Yang can Liu Jie shoved around.

Lu Yang closed the intercom, came to the window, and used a flying carpet to fly outside. When he came to the outside of the castle, he found a place where no strangeness passed, left a sentry tower, and used the teleport token to fly back. After the Tianyuan City, rested in the hotel.

At the morning meeting the next morning, he handed over the Icecrown Battle Banner and the Tyrant's Will skill book to the White Wolf, saying, "These two things belong to you."

The white wolf lighted up when he saw the equipment, and said excitedly, "Thank you, boss."

Lu Yang asked with a smile: "How many of our blood power have been hit by the department dedicated to the treasure map?"

Xu Tufeng said: "Not ideal. At present, only 200,000 blood vessels have been dug. The blood vessel power given by the treasure map is too low."

Lu Yang nodded, he can imagine that before the player's level has spread to level 160, the official will not let the treasure map explode too much blood power. It is already in his control to be able to make 200,000 copies. It is only available in the northeast.

"Come on slowly, this can't be anxious." Lu Yang said.

Everyone nodded.

Lu Luyang said: "Recently, everyone has hone their combat skills. There is still half a month for the global competition. Everyone strives for a good position."

"Yes." White Wolf and bitter love half-life said excitedly.

Lu Luyang said, "I found a good place to exercise. I will be there for the last half month. Pay more attention to the guild."

“No problem, boss, we are all used to it.” Xia Yuwei said boringly.

Laozhuo and Zhou Tianming and others laughed.

Lu Yang has a black line in his forehead, although he is indeed a shopkeeper, but ..., forget it, just talk about it. Whoever lets himself put the responsibility on them, he runs out every day.

“Well, I’m gone.” Lu Yang took out his teleportation scepter and flew to the level 160 map, and went on to find the trouble of the Icecrown Tyrant.

Uh ...

After half a month.

Lu Yang finally came out of the palace of the Icecrown Tyrant. In the past half month, he had harvested a total of 15 battle flags. Fortunately, each had 3 sides.

Obtained 2 Chaos Orbs, and Lu Yang discovered that this Icecrown Tyrant might be a place dedicated to dropping Chaos Orbs, otherwise it would not drop so much.

In terms of skill books, 11 copies of “The Tyrant’s Will” were also dropped, all of which were handed over to Lu Feng by Lu Yang and sent to Zhou Tianyan and Zhang Zibo.

These are not the main ones. The main thing is that the third global competition has finally started. As the key of the two individual competitions, he is ready to win a third consecutive championship.

里面 Inside the main house of Chiyang City, Lu Yang looked at Zhou Tianyan and others with excitement and said, “There is no problem in the near future.”

Wu Tufeng said first: “The average player level has reached 136.7, and it takes only half a month to reach 140.”

Lu Luyang said: "Very good, half a month later, the contest will end and we can make a copy."

Qing Qian Zimeng said: "The war between Greece and Turkey has just ended, and the two sides have not scored a tie. However, for both of them, they were both defeated. This suspension was also due to the contest, otherwise the two The family will continue to fight. "

Monitored the war between Turkish and Greek players and was delivered to Qing Qian Zimen by Tu Feng. He was more responsible for overall planning.

Lu Yang nodded and asked, "How about the player's level on both sides?"

Qi Qingqian Zimeng said: "According to statistics from last night, the average level of 1.2 million main players in the Turkish Blue Moon Association is only 132.3, and the level of non-main players is 118.9, which is roughly the same in Greece."

"Hey, great, Kerim is not a threat to us," said bitter love for a long time.

Lu Luyang said, "Very good, Scotland."

Qing Qian Zimeng said: "Eight-armed spiders formed a new guild in Scotland, basically all the Scots joined with another guild formed by Northern Ireland, and played with the British guild where the blood slaughter was. Currently being suppressed by the blood butcher, but the player rank of the blood butcher guild has been delayed, and the main players are stuck at 134.6. "

With the provision of a large amount of funds from Lu Yang, the eight-armed spider set off a storm in Scotland, gathering more than 1.3 million Scottish players. After joining a super guild in Northern Ireland in the game, they fiercely beat the blood butchers. After 3 games, Lu Yang successfully completed the task.

On the other side of Germany, after a difficult period of suppression, Steiger began a comprehensive counterattack. He fought with dozens of German city masters. There is already a trend of victory. Levels have always been hovering between levels.

As for South Africa and Italy, the two upgrades are not fast. Spain, North Africa and Saudi Arabia have recovered some, but they have formed an alliance with France, and they have to deal with Liu Jie's pressure at any time and have no ability to move east.

A special situation is currently forming in the entire northern region of the New World. The Iron Brotherhood, Liu Jie, and the Northwest Alliance formed by countries such as North Africa and Spain go hand in hand, while the areas under Germany and South Africa under Lu Yang are dark.

Another good luck is to step up to the sky, and always maintain a neutral attitude in the melee to upgrade fully. At present, everyone can see clearly, and rashly participating in the melee area below Lu Yang will only give Lu Yang a chance to eliminate them. .

If you want to gain more territories, it depends on who can reach level 140 first and get more level 140 dark gold equipment. Then the next war begins.

Lu Luyang said, "Let's go. Let's go to Tianyuan Shencheng to participate in the competition, just when the competition is closed."

Everyone laughed and knew what Lu Yang meant by saying this.

The light flashed, and a group of people used the teleport token to launch the group teleport to Tianyuan Shencheng. As soon as they landed, the sight of Tianyuan Shencheng surprised everyone.

As I saw in front of me, there were players everywhere, people next to each other, people crowding people, wanting to take a step forward was an extravagant hope.

"What's the situation, how so many people." Bitter love asked for a long time.

"It is estimated that I watch games or do business. During this period, when Tianyuan Shencheng has the most people, business must be better than usual." Han Fei said.

比赛 The location of this game is set in the Tianyuan Shencheng Arena. The way to watch the game is to watch online and live.

Not to mention the effect of watching the game, it's better to watch the game on the spot. You can adjust the perspective at will. There are professional explanations to explain next. The main thing is that the atmosphere of the scene makes all players feel crazy.

Zhang Zibo said: "According to the official registration information, there are tens of millions of players who sign up to the scene, but the venue can only accommodate hundreds of thousands of people. The official has to adopt a lottery system."

"There are also a large number of players signing up this time, with more than 2 million people. They all want to try what it feels like to fight in the arena Xiao Liang said.

Lu Lu asked: "How are you preparing this time?"

Xiao Liang said: "It may not be the best in the world, but Mu Yu and I can make it into the top 10."

Lu Lu laughed and was about to talk, his body glowed.

System reminder: Due to the congestion of the road, the official uses the teleport method to teleport the players who participated in the first game, such as the arena. Please do not worry.

Lu Luyang said: "It looks like there was my game in the first game, I went ahead."

"Who is so unlucky with the boss."

"That kid is unlucky."

Uh ...

Lu Yang Yi Men black line, said: "Should you tell me to cheer?"

Xi Xia Yuwei said, "Boss, with your current strength, who can beat you, we are like cheers for your opponents, I hope he can have good luck."

Wuzhuo nodded with the white lion and others.

Lu Yang was too lazy to ignore them and chose to accept the teleport and entered the arena.

The light flashed.

Lu Yang stood in the center of the arena, a huge arena with a diameter of 200 meters. A European player was standing opposite him.

"God, if there is anything wrong, the first one will play against Lu Yang." European players looked desperate.

Lu Lu said with a smile: "Let's try."

Chapter 1164 - Strike and kill the enemy

Participating in the competition, you cannot carry the heart of God, so Lu Yang's current equipment is only a sub-artifact set and several sub-artifact accessories, which seems very powerful, but there have been many 160 sub-artifacts in the game .

You can also get sub-artifacts by doing rare missions and completing some hidden plots. Another way is to find a master forge to build.

Through forging technology, you can also get sub-artifact-level equipment, but this chance is very small, so every time such equipment appears, it will cause the local tyrant players to rush. It can be a small chance to put it in a billion people together. In the game that is played, it is not too small. Many local tyrants have bought such a piece of equipment at the auction house.

The European player in front of him seemed desperate, but Lu Yang was not sure if the opponent's equipment was a general 130-level dark gold or a special 160-level suit, so he decided to go all out.

Zheng is so full of the so-called Lion and Rabbit!

"Chairman Lu Yang, I'm just an ordinary player. Where have I played you? Forget it, I should learn PK technology, I try, don't try too hard." European players said helplessly.

Lu Luyang smiled, and said, "Boy, you must have sub-artifacts on your body, right, there is more than one, let's be honest."

The European player was stunned and looked at Lu Yang in shock. He did have a set of sub-artifacts, but he never expected to meet Lu Yang when he met, so he decided to play pigs and eat tigers to see if he could kill them. Lu Yang.

His equipment caused him more than 400,000 injuries. If Lu Yang accidentally stuns him, he only needs 4 swords to kill Lu Yang, but he did not expect that Lu Yang could spot him.

Official*.

Lu Yang's battle today is being broadcast live worldwide. In all 5V5 battles, Lu Yang alone has taken up 40% of the live broadcast share.

"I can't believe it. This boy is so unlucky that he is in the same team as Lu Yang."

"What? Lu Yang said that he has Asian Artifacts, classmates, Asian Artifacts." Hosts of various countries became crazy.

"Do you know what this means? This means that in the first battle, Lu Yang faced a tyrant master, and this person has not yet acknowledged it."

“Haha, he must have wanted to yin Luyang once, but Lu Yang saw it through.”

“I’m curious now, how did Lu Yang know?”

Uh ...

The host’s words could not be transmitted to the court, but this European player also wanted to know how Lu Yang knew it. He had always purchased it anonymously on the platform before, and did not form a guild. It was just a fixed team and a few friends. It’s absolutely impossible to expose the copy together.

“Ah?” European players decided to continue to show weakness, and said with a look of helplessness, “Chairman Lu Yang, where do I have any sub-artifacts, don’t you laugh.”

Lu Yang smiled and said, “I can judge that you have a sub-artifact. It’s very simple. Let’s just say that among the players around the world, I don’t see more than 50 people who don’t fear me. You are obviously not among these 50 people. But you see me so calm, so I suspect you have a sub-artifact. “

European player is depressed. It turns out that he is not pretending to be seen.

“Oops, there is no way. Now that I have been spotted, I will not pretend anymore. My name is Arroyo. I am fortunate to fight with President Lu Yang. I hope I can learn some PK skills.” Arroyo was generous. ‘S identity.

Lu Yang nodded and said, “Yes, it looks like a master. I don’t know how many sub artifacts you have, but if you can walk 5 rounds in my hand today, you are enough to call it a master.”

“Only 5 rounds.” Arroyo looked upset and said, “I’m equipped with more than 2 million blood, can you kill me, let alone who killed who is not necessarily.”

“Then try it, I’m going to start,” Lu Yang said.

“Come on.” Arroyo posed an offensive stance. Obviously, he didn’t want to defend, but just wanted to fight with Lu Yang.

Lu Luyang looked closely at Arroyo’s equipment and appearance, and it was determined that the person in front of him was a player with chaotic blood.

The so-called Chaos Bloodline can launch a long-range halo skill. Its name is Chaos Arrow. The strongest can stun an opponent for 4 seconds. It can also jump behind the opponent to launch an attack. The strongest skill is the split skill, which can be changed into 4. The avatar has the same attack power as the main body, but takes 300% more damage than the main body.

If it is someone else, it is true that the warrior in the face of chaos blood, but Lu Yang’s mental reaction speed is too fast, Chaos Arrow basically can not hit him, and other skills of the warrior will not hurt Lu Yang.

“I’m on.” Lu Yang made a move with his right hand, and a big red bird appeared on his side and landed on his flat arm.

罗 Arroyo’s eyes widened suddenly. He knew that if Lu Yang released this skill, he would launch a series of moves. He quickly prepared the Chaos Arrow.

He is most proud of being transferred to the job of Chaos Warrior, because Chaos Arrow is a halo skill with tracking. As long as he releases it, he can keep tracking the target.

So far, as long as he releases the Chaos Arrow and then uses the avatar to attack the target, with a level 160 sub-artifact suit, he has not lost.

相信 He believes that Lu Yang is no exception. He shouted, “Come on, let me see the strength of the President of the Iron Brotherhood.”

If Lu Yang jumps in front of him, he decides to immediately launch an escape dagger to avoid it, but at this moment, Lu Yang points Arroyo in his right hand.

“Flame Shock”

瞬 An instant dizzy skill burst on Arroyo’s head, Arroyo felt only black in front of his eyes.

“Badge”

罗 Arroyo instantly unlocked the halo skill. He just looked up, but saw Lu Yang flashing in front of him, smiling at him.

“Escape the Dagger”

As soon as Qian Qianjun fired, Arroyo jumped 50 meters away, and behind him was a bright blaze of flames.

“It’s dangerous, you’ll be hit if you are hit.” Arroyo secretly sighed that if Lu Yang was stunned, the subsequent combo would be enough to kill him in seconds.

“Do you think it’s safe?” Lu Yang’s voice appeared behind Arroyo. As Arroyo jumped out, Lu Yang also threw out the escape dagger in the same direction as Arroyo. When Arroyo When the appointment appeared, Lu Yang also followed.

“Yang Yang Suo”

Lu Yang’s mouth spelled out that a red-red chain trapped Arroyo.

“Clone”

罗 Arroyo frightened to launch the avatar skills. Four identical avatars appeared next to him, disarming Lu Yang’s Yanyang cable skills.

“Chaos Arrow”

罗 Arroyo had a proud look on his face. He fired a Chaos Arrow at a distance of less than 1 meter. Lu Yang must be hit. He was confident that he would kill Lu Yang within 4 seconds of stunning him.

“Remnant Flame-Activated”

Lu Yang watched the black Chaos Arrow flew towards him. In less than 0.3 seconds, he responded and launched the Remnant Flame skill. The moment Chaos Arrow hit his body, he jumped to Arroyo's. 2 meters from the side, and the Chaos Arrow hit the shadow of Lu Yang's disappearance, did not cause a second of vertigo, and did not deal 1 point of damage.

“Are there any skills?” Lu Yang said with a smile while watching Arroyo.

“How, how is it possible that you can hide away?” Arroyo's eyes widened.

Lu Luyang said: “Don't be surprised, there are less than 100 people who can break you.”

Even in the last life, those who can avoid this trick are rare, especially at this distance, only Lu Yang can do it alone, and he is born again. Under deliberate exercise, his consciousness reaction is too fast. , Almost beyond human limits.

The audience in the market was already boiling, all yelling at Landing Yang. The move just evaded was so handsome. On the big screen above the arena, the scene of Lu Yang evading just now was constantly played back.

It was slow-playing. It took 10 seconds to restore what happened in just 0.3 seconds.

罗 Arroyo didn't speak, he just looked up at the big screen, the frame by frame, revealing how Lu Yang avoided his Chaos Arrow.

“It turned out to be the case, it is indeed the chairman of the Jagged Brothers League, two-time world champion, but I will not admit defeat, you want to kill me, but also on your ability.” Arroyo said without giving up.

Lu Lu smiled and said, “Yes, it’s my turn, pay attention.”

“Remnant Flame-Activated”

Three consecutive red lights appeared around Arroyo, almost at the same time, the three fires exploded, and Lu Yang appeared in front of Arroyo, sweaty.

“The Sun Fist”

He punched Arroyo’s abdomen with a left hand and flew it upside down for a distance of 20 meters.

“Ground Fire”

Arroyo just landed, the first flame hit his body, and continued to fly backwards.

“Remnant Flame-Activated”

Lu Yang jumped back 10 meters.

“Ground Fire”

Arroyo landed for the second time, and was hit backwards for a distance of 10 meters.

Lu Yang continued to jump 10 meters backwards.

“Ground Fire”

The second flame lit, and Arroyo collapsed into the sky again. After receiving the landing sun, he continued to retreat 10 meters, hitting a third ground fire into the sky.

阿 When Arroyo was blown off from the ground for the third time, the audience was already cheering wildly, and a flame mage was able to make the skill combo so excellent that they no longer knew what to say.

Wu Ke was just cheering, but they found that Lu Yang did not stop attacking.

“Destroy the Sky”

“Pyroblast”

Arroyo fell for the third time and was hit by Pyroblast in mid-air, which caused him to be hit by another 2 meters in mid-air. Just after landing, a cloud of flame fell precisely in the sky. About head.

But even so, Arroyo was not dead. In order to prevent himself from encountering a master, he deliberately played a blood gem, which has millions more blood than normal players.

Luckily, thanks to the millions of blood, otherwise he would have been killed by Lu Yang for a long time, but even so, his blood was less than 2 million.

Just when he secretly was glad that Lu Yang’s set of moves had ended, he didn’t notice that Lu Yang chanted a spell again.

“Meteorite Impact”

A cluster of crimson meteorite in the sky dropped quickly, and the target was Arroyo.

“Blink”

Lu Yang jumped in front of Arroyo. At this time, the first stroke of the meteorite impact was hitting his body, and he was just about to take out the potion to drink it. This could give him 30% of his health and give him power Continue to battle with Lu Yang.

Wu Ke didn't wait for him to drink the potion, Lu Yang's big face was in front of him, and Lu Yang's smile made him very disturbed.

“Resistant Fire Ring”

A violent aura of flame burst out from Lu Yang's body, backing Arroyo collapsed outward, and every time he stepped back, he would be attacked by the meteorite rolling forward.

“-871862” (critical strike)

“-821698” (Critical Strike)

Uh ...

Puppet was attacked 4 times in a row, and Arroyo couldn't take it anymore, leaving only 1 mandatory point.

System Tip: Lu Yang won the game.

“Pretty.”

“So handsome.”

“so cool.”

“Invincible.”

Uh ...

There was cheering in the market.

Arrow looked forward to landing Yang, sighed and said, “I lost, I am convinced.”

I just had a set of Lu Yang’s tricks. He even gave him more than 10 times, and he had no chance to react at all. He completely obeyed.

Lu Luyang drew his fists at him and said, “Work hard, if you want, you can have the same strength as me in the future.”

“Hope, see you next time.” Arroyo’s body burst into a white light and disappeared from its place.

System prompt: Whether the player Lu Yang needs rest, you can choose to continue the battle or take a rest for 10 minutes.

Lu Yang chose to continue the battle. The previous one was just a warm-up before the game. His main attack skills, nuclear explosion, naruto and comet impact, and meteorite fall were not used.

The light flashed on the field, and a second player came in. During Lu Yang’s game, on the other side, more than a dozen people, such as Deng Tian, Pu Renyi, Liu Jie, Li Rongde, and Bloodthirsty Batian, were sitting in a box watching the landing. Yang.

He stepped into the sky first and said, “It seems that Lu Yang has not acquired more new skills, and the main attack method is still the original one.”

Pu Renyi frowned and said, “At present, according to the information we have, Lu Yang has several new skills, but all are given through the heart of the demon god. Now he has no heart of the devil, nor has he released new skills. Chances are that the spell category is the same as last time. “

Li Rongde said: "Don't underestimate Lu Yang. The lesson of my failure tells me that if you underestimate this person, you will definitely lose to him."

The dead grass said: "Your sentence is very good. Before, we always could n't beat him because we didn't look down on him and let him take the opportunity to develop. Now we have several teams collecting news about him. , I believe we have a great chance to defeat him this time. "

After this battle, Liu Jie finally established a foothold in the north. In his territory, there are also hundreds of millions of players. In terms of combat effectiveness, there are two helpers, Park Renyi and One Step Dengtian. He has the intention to reach the 140 players. When it is fully equipped, it expands externally, and at the same time, it tries to attack the Brotherhood of the Iron Blood.

And the best way to win the Jagged Brothers Alliance is to defeat Lu Yang first. After analyzing their dead grass, Lu Yang is the soul of Jagged Brothers. If you can defeat Lu Yang one-on-one in the arena, The damage caused is immeasurable, which has a great potential to affect the hearts of their players.

"A few more days of observation, only one day of the game can not support all the data, I need the exact information of Lu Yang, in order to work out a way to crack his skills." A player suddenly said.

杰 Liu Jie looked at the player with a satisfied look on his face and said, "Don't worry, we have time."

This person is called Lawrence. He is the number one in the heads-up tournament in the arena from the beginning of this year to the present. Liu Jie invited him to study Lu Yang's shortcomings.

"It's my game time again, you continue to record." A white light on Lawrence disappeared.

"President, can this person really help you?" Li Rongde asked curiously.

Liu Jie shrugged his shoulders and said, "It's such a glorious thing to defeat Lu Yang, what a sensation in the game, how much impact it can have on him, I believe he will work hard for himself. "

Lawrence really wants to be famous. Like him, there are more than 30 old-fashioned competitive teams in China and nearly a hundred competitive teams in various countries around the world.

After two and a half years, the main players in these teams finally caught up with the top brothers of the Jagged Brotherhood and other super guilds in the world in their methods and equipment.

This is all thanks to the “Second World” officials for the game settings during this period, treasure maps and high-end treasure maps, the forging of sub-artifacts and special plots made these teams great. With the support of money, it is so easy to catch up.

At present, the more famous teams in the country are the MY team, the captain is shocked, the wild wind of the NC team, and the panda of the GD team.

For foreign countries, the German MK team, the captain papaya, the Korean windrunner team, the captain Yuemo, and the captain commander of the British Scarlet Team.

In the first day, Lu Yang won more than a dozen players in the first day in a row to qualify for the second round. Therefore, these players who want to challenge Lu Yang this year are working towards this record.

The puppet team is not the same as the guild. They are players who transfer to PK as their profession, so they have received official attention in terms of competition.

初 At the beginning of the contest, the official live broadcast room opened live broadcasts of these teams, and these teams are also extremely popular in the game.

“Wow, Captain Jinghong is so handsome, this is the eighth man who has lost to him. He is only four people away from Lu Yang’s record.” A girl screamed.

“Panda, come on, we are all optimistic about you, come up with the strength of the usual game, crush them, and surpass Lu Yang.”

Uh ...

In the live broadcast room, there are players who cheer for these team masters.

Lu Yang is also playing very fast. In the morning, he defeated 12 players. If it was last year, he has been announced by the system. However, there are too many people registered this year, and obviously he needs to kill more. some people.

Chapter 1165 - Grievance bureau

After a short rest at noon, in the afternoon, Lu Yang killed 31 people in a row and finally received a notice of promotion.

System prompt: You have passed the preliminary round, please participate in the main match on time at 10 am tomorrow

里面 Inside the live room.

“Oh, Lu Yang was the first to end the battle. It is indeed the emperor of fire, and his strength is getting stronger and stronger.”

“Pretty, winning cleanly.”

Uh ...

Countless presenters gave praise to Lu Yang. On the other hand, the masters who paid attention to Lu Yang's competition also knew the news of Lu Yang's promotion to the competition, and they all showed annoyed expressions.

“Damn, I did my best to kill 28, 3 slower than him.” Yue Mo scolded in depression.

别 “Don’t be discouraged, you are a druid and Lu Yang is a fire mage. It is normal to kill people faster than you, which does not mean that the strength between the two of you is different.” The team coach relieved.

“When I meet him, I will let him see my strength.” Yuemo secretly said.

Uh ...

There are countless arena players such as Panda and Jinghong Guoying who have the same idea with Moon Demon. Soon, within half an hour of Lu Yang ending the battle, hundreds of players were promoted, which made the commentators of various countries Are all insane.

“This is a crazy session. There are so many people who have been close to Lu Yang to win the promotion.”

“This year’s competition must be more exciting than previous years.”

“Let’s take a look at these promoted player videos.”

Uh ...

Lu Yang was watching the video of the match between bitter love half-life and Han Ying, and just heard the host’s words in the live broadcast room.

Wu Tufeng said, “Boss, do you want me to pay attention to these people?”

Lu Lu sneered and said, “No, no matter how strong they are, they can’t beat me.”

Wu Tufeng nodded. He believed what Lu Yang said. In terms of game battles, Lu Yang is like the Himalayas, the highest mountain in the world, and always needs the existence of others.

Lu Luyang said: "Follow the current masters, recruit as much as you can, and add fresh blood to the guild."

"Yes," Tu Feng said.

Every year, the masters of the contest will be recruited by the major super guilds or ambitious guilds in the game. This competition has also become the first choice for many players to jump in the dragon carp. Lu Yang also hopes to recruit some masters. This pair The development of the guild is also beneficial.

He quit the game, played a day of competition, and was a little tired of consciousness. Lu Yang came out of the room and simply did exercise. After relaxing his body, he fell asleep after dinner.

清 Early morning the next day.

Lu Yang logged on to the game on time and was teleported to the arena. There are two selection mechanisms for the game. One is to defeat 31 enemies to advance directly, and the second is the official choice to defeat the enemy with the most enemies before 12:00 pm. Some players advance, and the rest are eliminated, so they can decide the place for the main event within 1 day.

The mechanism of the main match is a little different from the preliminaries. A single-round knockout is used, which means that if you lose, you will be eliminated immediately and there will be no chance of competition.

Of course, in order to prevent premature encounters between the masters, the official choice is to let the high-ranked players in the preliminaries compete with the low-ranked players first.

In the whole server, there are more than 8 million players who registered this time, and 7.9 million were eliminated in the preliminary round, leaving only 100,000 people. Therefore, even the last one is stronger than the other 7.9 million people.

Lu Yang did not dare to envy them when they saw them, because a small number of these people were players with sub-artifacts or legendary equipment.

内 Inside the arena.

Lu Luyang looked at the player in front of him, and looked like a person from southern Europe, holding an iconic European two-handed sword in his hand.

“Lu Yang? We didn’t expect us to meet here.” Southern European players gritted their teeth and glared at Landing Yang.

Lu Yang asked for a moment, “You are?”

“You don’t know who I am?” An angry expression appeared on the player’s face in Southern Europe, and then he said calmly, “Yeah, you, the president of the Jagged Brothers League, where will you remember me?”

Lu Yang shrugged his shoulders and said, “It looks like an enemy. It looks like I have a bad relationship, even people I don’t know are hostile to me.”

Southern European players said: “My name is Andrea, and I am the first vice president of the Italian Iron Wing Guild president Daniel.”

“Uh, it really is enmity.” Lu Yang laments that the world is really small.

The other side.

的 The host of the live room was laughing at the table.

“Haha, I finally met the enemy, I said, how can the official be so kind to Lu Yang, and how to arrange a few enemies to meet.” Du Bin smiled unscrupulously.

“Hey, it is also strange that Lu Yang has too many enemies. From the national service to the new continent, his enemies can go from France to Italy.” A German host said.

“Haha, the grievance bureau, let us enjoy watching it.” A Thai host said.

In the field.

Luan Andrea was very dissatisfied with Lu Yang’s indifferent attitude, gritting his teeth and cursing, “Today I will defeat you and take revenge for my brothers.”

等等 “Wait.” Lu Yang watched Andrea rushing up and said, “Slow.”

“What’s wrong?” Andrea frowned.

Lu Yang said angrily: “What is your revenge? It is my revenge that is right. Is it my initiative to attack you? You hit us first, okay, but I am unlucky.”

Andrea exclaimed, “It was you who attacked us.”

Lu Luyang said, “If you don’t hit me, I’ll sneak in on what you do. You don’t make sense.”

“That was your sneak attack, you have no chivalry,” Andrea scolded.

Lu Yang was speechless, but another indifferent, scolded: “Look at me not killing you, father and son, the loser is called dad.”

Andrea: “...”

“I killed you.” Andrea was a Paladin, waving a two-handed sword, and rushed towards the landing sun.

“Holy Charge”

Luan Andrea ran within 30 meters of Lu Yang, launching Paladin’s charge skills to Lu Yang.

Lu Yang felt wrong when seeing Andrea running over. When he saw Andrea launching the charge, he felt a bit of conspiracy even more.

Just kidding, now any master can avoid the charge ability and fight back at the same time, and the mage can avoid the charge skills of warriors and paladins. It is Lu Yang’s first use in the arena. He is the originator.

I dare to charge in front of Lu Yang. Either Andrea is a fool, or he has a plot. But Andrea is already the vice-chairman of the Ironwing Guild. How could he be a fool, so it must be a plot.

“Blink”

Bian Luyang flashed white before Andrea hit him, jumping to a distance of 60 meters.

Andrea bumped into Baiguang and stopped. He looked back at Lu Yang, and said mockingly: “I can’t think of the chairman of the dignified Brotherhood, Lu Yang, who is nicknamed Fire Emperor. Face to face? “

Andrea’s game just now is a standard game of divine punishment for the Paladin. The divine charge is launched while the sacred charge is in front of the enemy.

Divine punishment can hit the enemy in place for 5 seconds. It is a magical skill of the Paladin second person. Once hit by divine punishment, Andrea can launch a second charge even if the enemy runs away. , Hit the enemy, use God’s wrath, and stun the enemy for 8 seconds.

But Shengguang pursued a distance of 50 meters, and Lu Yang jumped out of a distance of 60 meters, which he could not reach, which annoyed Lu Yang's vigilance and caution.

Lu Yang said indifferently: "You use the wrong person for ridicule me, I never eat this, you still think about not losing too much for a while."

"I have magic immunity, invincibility, and high output. Why did you hit me?" Andrea sneered.

Lu Yang smiled and said, "I'm Lu Yang."

"Lava Eruption"

Lu Yang pointed at the foot of Andrea with a staff of his right hand, a lava with a diameter of 2 meters appeared, and Andrea ran away quickly.

Andrea was depressed. He thought that Lu Yang would jump to his side to launch an attack under the stimulation of his words, but he did not expect that Lu Yang was so stable that he used the lava eruption to disgust him.

"You are useless to me." Andrea ran aside and said.

Lu Yang said indifferently: "I know, but I am Lando, are you in charge, the lava erupts."

He continued to release lava eruption to the place. It is no problem to create a 50 * 50 sea of fire based on Lu Yang's current spell damage. A small half of the arena can be covered by his flames. He doesn't believe that Andrea can tortoise. he.

Lu Yang is very skeptical that Andrea is a divine paladin with divine blood. Only such paladins dare to use the charge skills. If it is divine blood, he can only torture him like this, otherwise if he is The opponent is close, and he will die with a set of combos.

Andrea doesn't want to fight against the flames. Although he has more than 6 million health and a pack of potions, he still wants to find a set of skills to take away Lu Yang.

He constantly ran back and forth on the map to avoid skills, but the more he did, the more Lu Yang suspected that he was a blood of divine punishment.

In less than 3 minutes, half of the arena turned into a sea of flames. Lu Yang stood in the middle of the flames and looked at Andrea 30 meters away. He opened his arms and said, "Would you like to come in?"

"Hey, I won't go in, I can stand you out," Andrea scolded.

Lu Luyang said, "Why should I go out?"

"You are the president of the Dignified Brotherhood, the nickname Fire Emperor, the champion of the previous two competitions. If you don't come out, we have 5 minutes to draw a tie. Can you accept the tie?" Andrea scolded.

Lu Luyang said: "Of course it is possible, and the draw is not a loss, you can continue the game."

The rules of the game, if no one falls on the two sides within a specified time, check the blood volume of both sides. If the blood volume is the same, a tie can be drawn, and you can play against other tie players until the difference is reached.

"Aren't you embarrassing to do this?" Andrea asked scornfully.

Lu Yang smiled and asked, "I'm curious, what gave you so much courage to make you dare to ridicule me so?"

"I just look down on you," Andrea scolded.

Lu Luyang said, "No, you must have any reliance. I'm curious. Forget it, even if you sneer, I'll try your strength."

Andrea's eyes were all bright, and she said, "You can't do it, you'll be dead."

Lu Yang sneered and put the emperor Yu Pei from the backpack to the badge. Before Lu Yang hit the arena, he did not wear the badge, because this thing delayed his killing.

The opponent's melee career clearly launched an attack on him but the opponent's directional offensive skills were offset by the spell resistance. For example, the assault can only stand still, which will lead to the need to jump in front of the opponent to use skill attacks.

This is not only a consumption of registration skills, but also allows your consciousness to take more damage. It is better to use a badge and wait for the other party to come over and directly resist the fire ring and Pyroblast and other skills to take away.

Can face the blood of divine punishment, Lu Yang dare not entrust it, because the blood of divine punishment has 4 halo skills, in addition to divine punishment and wrath, there are conventional hammers of punishment and storm hammer.

Lu Yang went to Andrea step by step in this way. With each step, he issued a Pyroblast. As for a fire dragon and the ability to summon the Phoenix, it is forbidden to use it in the arena because These two skills are too disruptive to the game's balance.

There is also a banned summoning beast. As the summoned beast has not yet become popular, this time the banned summoned beast is officially banned. There are only three occupations that can carry pets in the competition. One is a shooter, one is a demon priest, and one is Warlock.

Andrea thought that Lu Yang would jump in front of him to release his skills, but he did not expect that Lu Yang would take a step towards him and fire a Pyroblast. At such a close distance, Andrea was very irritable. He Need to keep avoiding these skills.

"Taste my strongest fire attack, meteor falls." Lu Yang said a spell.

Andrea's eyes are all green. Where can he dare to let Lu Yang stand in place to put this skill on, yelling: "Don't think about it."

He saw that the distance between the two was only 10 meters. He was afraid that Lu Yang fled and ran away. Instead of using sacred pursuit, he ran towards Landing Yang.

The secondary injunction took 8 seconds, and the distance of 10 meters was only 3 seconds. Andrea came to the position of one meter in front of Lu Yang in three steps. Look of success.

"Lu Yang, you've been fooled, see my skills-divine punishment" Andrea pointed at Lu Yang with his left hand, and a pure white light fell on Lu Yang's body.

"Miss"

大大 A big miss symbol appeared on Lu Yang, and Andrea, who was holding up his two-handed sword, was ready to use the Holy Light to cut into Lu Yang's throat.

"How is MISS?" Andrea asked blankly.

With a sneer on his face, Lu Luyang said, "I guess you are a divine paladin, and there is a **** wrath, use it."

Andrea panicked, for fear of Lu Yang using skills, the left hand of the subconsciously pointed at Lu Yang.

"God Wrath"

A golden light fell on Lu Yang's body. At this moment, Lu Yang's mouth spelled out.

"Refrigerator"

Lu Luyang was frozen in the ice at the moment of vertigo, and was immune to the second vertigo.

“How do you know that I am the Holy Wrath of the Holy Knight.” Andrea yelled while watching Lu Yang in the ice cube.

Lu Luyang looked at him with his head in the ice cube and said, “How simple, how can any paladin dare to provoke the mage, except for punishing the paladin, there is no one else.”

Andrea was speechless. Where did he know how many times Lu Yang had eaten God and punished the Paladin? How many times did the Paladin challenge him, he thought he was punished by the Paladin, even the turtle And will not lose.

“It’s my turn now to export, do you think what happened?” Lu Yang asked.

Andrea exclaimed: “I haven’t lost yet, don’t forget, I still have invincibility, you stand so close to me, you lose.”

Lu Lu sneered.

“Remnant Flame”

A luminous light burst out from Lu Yang who was walking in the ice, and flew towards Andrea 30 meters away.

“嘭”

Lu Yang disappeared. At this moment, Andrea looked back and found Lu Yang’s location.

“Invincible”

“Holy Charge”

He turned into a golden light, rushed towards Landing Yang, and his face was victorious again. He knew that as long as he was allowed to stick to Lu Yang, his hammer of punishment or storm hammer just stunned Lu Yang. Lu Yang's escape skill is only the last flashing.

But at this time, a blue light that made him feel desperate flew out of Lu Yang's hands, passed through space, through his body, and landed on the ground behind him. He didn't need to look and know, that was Escape the dagger.

“Remnant Flame”

Lu Yang just landed, leaving a reddish light and shadow in the place 0.1 seconds before Andrea rushed to him, then immediately launched the escape dagger skills and hit him in Andrea. For a moment, he jumped to the location of the escape dagger, which is 60 meters away from Andrea.

At this time, Andrea, who was hit by the afterimage, was standing in place, looking at Lu Yang in shock.

外 Off-site.

的 The players watching this game burst into unimaginable cheers at this moment.

“My god, this is so crazy, so crazy.” A player shouted, holding his head and squinting his hair.

“How did you do that, while using Yan Yan, you can also throw out an escape dagger. Can Yan Yan have such a heavy load on consciousness, why does he still have the consciousness to make this action?”

“Absolutely an accident, absolutely an accident. This is absolutely not true. This is impossible.”

Uh ...

At the same time as the players were crazy, Dubin and a host of hosts in the live broadcast room were also crazy. In order to understand Lu Yang, they all used the transfer mages of Guanghuobao, and knew what kind of kind of flames were when they were used. status.

In this state, Lu Yang can turn around and throw out the escape dagger, and they can accurately fall out of the distance of Andrea's Light Pursuing Skill. They are crazy.

“His consciousness has exceeded the limits of the human body, I bet he has definitely exceeded the limits.” An American host yelled.

“This is definitely one of the most exciting shots of this contest. It is definitely one of the most exciting shots. The top ten, not the top five.” A British host shouted.

Uh ...

Chapter 1166 - Thirty consecutive Jedi counterattacks

On the court.

Lu Yang looked at Andrea, watching the invincible body disappearing little by little. Now he only needs to keep this distance of 60 meters with Andrea.

Andrea can't approach him, invincible is a waste skill, he just needs to wait for invincible to be gone.

“And how did you do that,” Luan Andrea said.

Lu Luyang said, “It's good to practice often, it's not too difficult.”

He was humble, and there was n't much in the world that could do this in the last life. This is a magical skill. In the high load of consciousness and the super high speed of the moving flame, he can accurately throw the escape dagger. It's not easy.

The escape dagger is instantaneous, that is, if you throw it to the place, you do not flash, the effect of the escape dagger disappears. If you want to throw the escape dagger in the use of residual flames, you still have to throw it halfway through the flames. It can also accurately throw a distance of 40 meters, and it can be determined that it landed at the moment of Andrea's charge. This is not a simple exercise.

Andrea knows this deeply, he gritted his teeth and said, "Lu Yang, I haven't lost yet, you wait for me."

He launched his rapid skills and rushed towards the landing sun.

A pitying smile appeared on Lu Luyang's face, and the mantra was spoken.

"Blazing Fast"

A flame appeared at his feet, which led him to run around the arena at a speed of 225%. Instead of killing, the other side was invincible. What did the other side do, and the speed of the fire mage was out? Known fast, a paladin with heavy body armor wants to catch up with Lu Yang, it is tantamount to dreaming.

20 seconds, the invincible skill time is reduced to 20 seconds in the arena, which is a relatively fair manifestation.

Lu Yang took Andrea to run in the arena for 20 seconds. When invincible was gone, Lu Yang stopped in place, sneered, and said to Andrea: "You have nothing left The next magic free skill is 20 seconds. Do you think you still have a chance? "

Andrea was furious after being lured by Lu Yang for 20 seconds, but he did not lose his calmness. He regained confidence and said to Lu Yang: "You also know that I have 30 seconds left. You say I have no ability kill you."

Lu Yang stood with his arms open and said, "Come on, I'll stand here and see if you have a chance to kill me."

Luan Andrea gritted his teeth and looked at the Landing Sun. Lu Yang Yue said so, the more he felt a conspiracy, but he was not sure what the conspiracy was, and he could only walk towards Landing Yang step by step.

60 meters

50 meters

40 meters

Uh ...

10 m

At this distance, Lu Yang hadn't moved yet, but Andrea who walked to this distance stepped on his head suddenly. He was annoyed and almost went crazy. Finally he understood why Lu Yang had to make that action. It is because Lu Yang is lying to him.

The fire mage's flashing time in the arena was extended to 40 seconds. Just after running for 20 seconds, Lu Yang's flashing time had more than 10 seconds to cool down, but it was just the time he slowly walked towards Lu Yang. Inside, it smoothed out more than 10 seconds.

"Vile." Andrea scolded.

Lu Yang sneered and said, "It looks like you have reacted. Why am I mean? What have I done? You are stupid yourself, who do you blame?"

Andrea was furious and cursed: "I want to kill you."

He launched the sacred charge on the landing sun, a golden light flashed, and rushed towards the landing sun. At this distance, the sacred charge took only 0.3 seconds to hit Lu Yang. It was just because Lu Yang had a low limit reaction time. It took 0.2 seconds.

Lu Yang had enough time to watch Andrea rushing over, and then he released the flashing skill, and even if he did n't use the limit reaction time, he could jump off easily just by consciousness and feeling. This is the master and the ordinary player The biggest difference.

“Blink”

A white light came on, and the moment when Andrea bumped into Lu Yang, Lu Yang jumped away, and Andrea bumped into the white light.

When Andrea was angry because of remorse, the players suddenly yelled excitement at the same time, Andrea suddenly felt wrong, and he looked back quickly, but saw Lu Yang standing behind him.

“The Sun Fist”

Lu Yang did not jump long at all, but jumped to the position of 2 meters behind him. This was the shortest distance that forced flashing. After landing, he stepped behind Liaoning Andrea, and fisted with his left hand. Back of the head.

“1200000” (3x critical strike)

Andrea flew backwards after being beaten. Andrea didn't care about anything else, and quickly launched the magic avoidance skills. A green mask appeared on his body to protect him.

Lu Luyang watched Andrea landing and said, “Now your life-saving skills are thrown away, and the battle is over.”

Andrea trembled to the extreme, he roared, and rushed to the landing.

Lu Yang frowned. Andrea was not a reckless person. At this time, he rushed over without even adding blood. He would only do this if he lost his mind.

But as a paladin, whether it's a nurse or anti-war, or when it's exported, it's been two years. Who doesn't use a divine light spell to save his life at any time, but this guy did n't I used to rush over, something is wrong.

“Escape the Dagger”

Lu Yang threw a dagger backwards and flickered to 110 meters away. Without acceleration, Andrea ran to this distance in 20 seconds.

“Stop don't run.” Andrea growled.

Lu Luyang said, “Someone come here.”

Luan Andrea's expression was so angry that he continued to charge towards Landing Sun and finally ran within 30 meters, but at this time his magic immunity effect was gone.

The audience, everyone showed a pity look, apparently they all think that Andrea will be defeated, even the host of the countries outside the field and the players who watch the webcast in the game, also think so.

No one knows, Andrea has a killer, and the mage has an escape dagger, he has it, and he has something that Lu Yang doesn't have.

“Holy Charge”

Luan Andrea yelled, and Lu Yang exuded a pure white light. This was the function of the emperor Yupei, who offset the sacred charge.

“Light Pursuit”

Luan Andrea immediately launched the second charge ability and rushed towards the landing sun.

☞ Inside the live room.

“Oh my God, this is sending him to death. Everyone knows that it is time for Lu Yang’s showtime. He only needs to launch a ring of fire resistance when the other party rushes over, and then a set of combos can send Andrea Take away, why would he still use charge?” The French host asked inexplicably.

“Should be ...” The voice of the British host declined, and there was a scene on the court that surprised everyone, so that he didn’t know how to explain.

In the field.

When Luan Andrea charged to the position 10 meters in front of Lu Yang, he suddenly took out a lotus staff in his left hand.

“Forbidden Magic”

Luan Andrea pointed at Lu Yang, and a devastating purple light trapped Lu Yang. A shining purple picture on his head kept Lu Yang’s all magic skills in place.

When Lu Ke’s conspiracy smile appeared on Andrea’s face, Lu Yang also took out the green spirit while he took out the lotus staff.

“Green Spirit”

At the same time that Lu Yang was banned from magic, a green light hit Andrea, breaking it into nothingness.

“噫”

Andrea bumped into Lu Yang's body, raised his big sword in both hands, and rounded down and landed towards Shun Yang, but in nothingness, Andrea's big sword passed through Lu Yang's body, Did not cause a trace of physical damage.

“This, how is this possible?” Andrea said stunned, he just used the badge to cancel the effect, but found that it could not be canceled.

After 1 second of vertigo, Lu Yang looked at Andrea with a sneer and said, “Don't waste your efforts. You have special treasures, and I have them too. My name is Green Spirit, like your lotus staff. You It's gear for killing mages. I'm gear for killing physics professions. Except for invincibility, you can defeat it.”

那 “Why didn't you just use it?” Andrea asked.

Lu Luyang said: “I am the last champion. It is not too bullying you to hit you with green spirits. If it is not for me that you have a lotus staff, I would not take out the green spirit heart.”

How many melees of the last life came to the mage in front of the mage to use a purple lotus staff to ban the magician, and then a set of skills to take the mage away.

紫 This purple lotus staff cannot use the ice protection and flashing, because you are silent, not fainted, this is the highest level equipment to kill the mage.

Lu Yang, as a veteran player of the last life, how could he not know that there is such equipment, and depending on the state of Andrea, he guessed the equipment of Andrea.

“You can go back with peace of mind. In this game, your defeat is shameful, and it fully shows everyone what kind of character guild is the Italian Iron Wing Guild. It has luxurious equipment but wants to sneak in to win. It's the least garbage, villain.” Lu Yang cursed at Andrea.

Andrea's face turned red, and he couldn't say a word, because Lu Yang was right, such a luxury equipment that was not inferior to Lu Yang, and rare props such as magical blood and lotus staff to

restrain the mage. , Even did not dare to fight directly with Lu Yang, using various conspiracy tricks, is a villain.

After 4 seconds, the green spirit effect on Andrea disappeared. One second later, Lu Yang recovered his magical ability. Facing the sword that Andrea slashed, he jumped behind Andrea 3 Meters distance.

“Flame Storm”

He turned back and launched a spell attack on Andrea and stunned it for 2.5 seconds. However, Andrea’s equipment was extremely resistant, and Lu Yang only dealt more than 200,000 damage.

However, it does not matter. The audience inside and outside the audience and all the hosts know that this is not a problem, because next they will see a visual feast that makes them feel crazy and enjoyable-infinite batter.

“Blazing Bird”

Lu Yang pointed Andrea on the staff of his right hand, and a flaming bird rushed over Andrea’s body, killing more than 200,000 health.

“Meteorite Impact”

陨 A meteorite fell in the sky, right in the middle of Andrea’s body, just as Andrea woke up, but was pointed by Lu Yang’s left hand.

“Flame Shock”

Andrea was stunned again.

“Blink”

Lu Yang jumped in front of Andrea, his body burst into a fiery red light.

“Resistant Fire Ring”

Andrea was retreated backwards and backwards, just as each step back was within the range where the meteorite rolled forward.

“Cross of Flame”

Lu Yang pointed a wand with his right hand, and a flame cross hit Andrea. He fired a spell in his mouth after two consecutive launches.

“Destroy the Sky”

Andrea retreated 12 meters in a row before stopping. Just after landing, a flame fell in the sky, killing him more than 200,000 health.

“Ground Fire”

As soon as Lu Yang knocked the staff with his right hand on the ground, Andrea, who had just stopped, did not wait to escape, the ground burst into flames, hit it into the sky, and fell backwards.

“Remnant Flame-Activated”

Lu Yang jumped back a distance of 10 meters, shook his hand for a flame cross, and then knocked the staff with his right hand on the ground.

The flame cross accurately hit Andrea in the sky. Just as he was about to land, Lu Yang said a spell.

“Ground Fire”

A blaze of fire rose into the sky, and Andrea flew backward 10 meters away. Lu Yang took another flame cross, and then read the spell in his mouth.

“Remnant Flame-Activated”

The red light flashed, and he flew back a distance of 10 meters, hitting the staff with his right hand.

“Ground Fire”

The third ground fire at a maximum distance of 60 meters blasted out from the ground, flying Andrea again. If it is normal, Lu Yang will definitely jump back 30 meters and throw a comet to hit this 5 Attacks with double intelligence damage, but he can't use them now. This kind of killing can only be used after entering the quarterfinals, otherwise it is easy to be targeted.

“Remnant Flame-Activated”

A red light burst out from Lu Yang, and he flew forward a distance of 70 meters in an instant, and came to the position of Andrea.

“Lava Eruption”

Andrea had just landed, and a magma appeared under his feet, causing him more than 200,000 injuries per second.

“I killed you.” Andrea was mad by Lu Yang's 13 attacks. If she wanted to fight with Lu Yang desperately, she would start the Holy Light Slash by raising the sword in her hand.

“Yang Yang Suo”

The nine golden red magical chains locked Andrea in place and couldn't move. Andrea lost all control skills, and now she can only let Lu Yang attack at will.

Lu Yang looked at Andrea and said, "Do you know what this means to the mage of the light and fire castle when you lose all control skills?"

"What do you mean?" Andrea frowned.

Lu Luyang smiled, and the mantra was spoken.

"Yanyang Mask"

This is an early skill. It is one of Lu Yang's skills such as Yan Yang Suo and Lie Yang Quan. The damage is spell damage.

When this mask was lit on Lu Yang, Andrea was standing beside Lu Yang. Such a close distance caused Andrea's blood volume to drop rapidly.

It's not over yet, Lu Yang said the spell.

"Remnant Flame"

"Remnant Flame"

"Remnant Flame"

Uh ...

Nine consecutive flames formed a circle around Andrea.

“Activate”

Luyang is like crazy, the body appears on every afterimage beside Andrea, and each time the afterimage appears, it will cause a spell damage, and also a sun mask damage.

Normally, the damage of the sun hood is hit once every second, but there is a mechanism in the game that makes contact with a new target once, even if it attacks once. When Lu Yang uses the residual flame, each time he attacks, The target is refreshed and counts as a new attack.

In this way, Lu Yang flew 9 times around Andrea, which is equivalent to 9 times of Remnant Flame damage and 9 times of Sunshade damage.

Even if Andrea has more than 6 million health, and has super high magic resistance and magic crit resistance, he can easily kill him in the case of Lu Yanglian hitting him 30 strokes.

Remnant flame ended, Andrea fell to the ground, only 1 point of blood left by force.

System prompt: Lu Yang wins the game!

“Coax”

The whole field fell into madness, and everyone was stunned by Lu Yang’s set of skills.

“So handsome.”

“God, great god, great god.”

“First in the world, absolutely first in the world.”

Uh ...

The audience is crazy, and the hosts are crazy.

Dubin has abandoned the usual style of hosting and shouted instead.

“Win, win, this is the fire emperor, this is the fire emperor, unmatched attack ability, the world’s best master, despise everyone, no one can match.”

The host of the United Kingdom and the host of France and other countries also gave all praises to Lu Yang. This show of dominance on the court has convinced all players.

“It is certain that in the future facing Lu Yang, he must not leave a life-saving skill, otherwise he will be attacked at the same time by using the sun mask and the remnant flame, which will undoubtedly die.” British host Nelson said.

“This is an unsolvable skill,” said the French host.

“Isn’t this a foul?” The Korean host asked unconvinced.

“No foul, anyone can use skills in this way, the key is whether your consciousness can bear it, and whether your reaction speed is so fast. This game is absolutely fair.” The American host pointed to his own head.

The host nodded in agreement.

The light flashed. Lu Yang appeared at the headquarters of the Brotherhood of the Iron Blood Brothers in Tianyuan God City. Just after landing, people who loved half-life and Bailang and rushed over.

“Boss, it’s cool.”

“Boss, how did you do that, it’s amazing.”

Uh ...

Love half a lifetime and the White Lions. Their game ends earlier than Lu Yang. They watched Lu Yang's game just after it ended. At that time, Lu Yang was still waiting for the end of the magic, so they saw the most exciting That scene.

Lu Luyang smiled and waited after they were excited, and said, "Brothers, be careful this time. The enemy's equipment is updated very quickly. I almost lost the restraint of the Lotus Staff."

Everyone nodded, and they all realized that this match was unusual.

Chapter 1167 - Vs. Fire Fountain Brewmaster

铁 When the Jagged Brotherhood is excited, on the other side, European Union leaders such as Daniel and Kerim are gathering in a private room.

"Damn, how could Lu Yang be so strong." Daniel scolded.

Kerim patted him on the shoulder and said, "Don't worry, we still have a lot of opportunities."

"Can't let Lu Yang be so arrogant, we should concentrate our equipment so that other people who participate in the competition have better rare props." Blood Butcher said.

"Make sense," Daniel said.

Uh ...

A few people discussed plans to go.

I also discussed with them how to defeat Lu Yang's Liu Jie and the domestic elite team, and began to study Lu Yang's battle.

☞ In-game.

Lu Yang won a short break after winning a game. After an hour, he was teleported into the battlefield and started the second game. At this time, the players in the individual game were only 50,000 people.

But this time his opponent is relatively simple. There is no sub-artifact. It is just a good game. He is taken away by Lu Yang's simple wave of attacks and ends the battle easily.

Although he played with ease, no one thought that Lu Yang's sub-artifact was illegal, because he used a set of moves to take away the opponent without giving the other party any chance.

But no one on Lu Yang thinks there is a problem, but a large number of matches have been complained by players because of the unfairness caused by high-level equipment and high-level gems.

Normally a level 10 gem will cost hundreds of dollars, a level 15 gem will cost tens of thousands of dollars, and 17 pieces of equipment will be marked with 15 segments of gems, which is beyond the affordability of ordinary players.

In the game, there was even a player with 17 segments of defense jewels throughout his body, allowing another player of the same level to basically not break his defense.

It's a pity that no matter how the players complain or protest, the official does not accept it. After all, this is an official means to maintain the game's balance of payments.

The third game.

Lu Luyang met a player named Panda. Just when they met, the expression of the panda was wrong, and then he was excited.

“Chairman Lu Yang, it’s really an accident. He even met at this time.” Panda said with a smile.

Lu Luyang can see the high warfare in his expression, and said, “Who are you?”

Panda said: “When I win you, you will know who I am.”

Lu Yang smiled and said, “It’s not a small tone. I’m still a Chinese. Let’s fight. Let me see what your strength is.”

He knows that this one, the famous melee fire method of the last generation, chose a special second-turn job similar to that of Guanghuobao, Huoquan Jiuxian.

职业 The characteristic of this class is the average increase of strength and intelligence. The skills include physical attacks and spell attacks. Because of the average, the physical attacks and spell damage are not high, but one of his characteristics is that he is good at controlling and avoiding.

Often, you can’t kill him, and he can’t kill you!

Puppet I of the last life played the profession of Huoquan Jiuxian to the extreme, so when he retired, Huoquan Jiuxian was officially renamed as Panda Jiuxian to commemorate the panda’s contribution to the Second World.

But the current panda is not the great **** of the last life. Last year, he stopped at the top 100 of the national service. This time the world’s chaos has greatly improved his strength, but it is not enough to face Lu Yang.

“I’m on.” The panda roared and ran towards the landing sun, because he also had a long-range fire spell and also had melee attack ability. The panda could fight as he wanted. When facing Lu Yang, he thought it is best to use melee attack first, after all, long-range fire attack, he is not Lu Yang’s opponent.

Lu Yang watched the panda ran over and read the spell in his mouth.

“Pyroblast”

“Pyroblast”

A large fireball flew towards the panda.

The Panda Panda evades quickly, and continuously shakes his body to easily escape this series of skills. Soon, he came to a position 20 meters in front of Lu Yang and a wine barrel appeared in his hand.

“Explosive wine barrel”

A barrel of brewed malt flew towards the landing sun. This is a special attack method of Huoquan Jiuxian. Once the barrel bursts, a large amount of wine will be formed on the ground. If Lu Yang avoids it enough, the panda Following a spit of fire, it can deal 50% more damage to him.

“Remnant Flame”

Lu Yang flew 20 meters to the left, and the barrel fell to the ground without hitting Lu Yang.

“Smart Wave”

This is a replica of the instant fire flame impact of the fire method. Lu Yanggang was hit by this trick and broke the emperor Yupei’s evasion-oriented magic skills.

“True Assault”

When the panda saw Lu Yang's fall point, he instantly activated his skills. His firepower of Jiuquan's charge rushed towards the landing sun.

“Green Spirit”

Lu Yang took out the orb and launched it against the panda. At this moment, the panda took out the purple lotus staff and silenced the magic launched by Lu Yang.

“嘭”

The two collided together, Lu Yang could not use spells, and the panda could not use physical attacks, but at this time he could use magic attacks, and when Lu Yang launched the green spirit, he also formed a void form and would be damaged by magic. of.

“Furious Thunder Finger”

Panda pointed towards Lu Yang's abdomen with one finger.

“128612”

Lu Luyang was injured for the first time. He looked at the panda with a smile and said, “Sure enough, your kid also has a purple lotus staff. It looks like this equipment is bad.”

The puppet did not answer Lu Yang's words. He knew that his time was only one second. After hitting the angry thunder finger, he folded his hands.

“Aura Wave”

A wave of ripples appeared in his hand. Lu Yang had just recovered 0.1 seconds before his magical ability, was hit by aura waves, and was forced to silence for 5 seconds.

“You lost.” The pride look on the panda’s face, he guessed that Lu Yang would not evade, so he decided to fight again.

猛 “Tiger Palm”

He punched Lu Yang’s abdomen with one palm, but Lu Yang seemed to have known that he would do so. The body took a step to the left at the moment he launched his skills, just avoiding the tiger’s palm.

Panda is a little embarrassed, but he can’t think of other things, and quickly launches the second skill.

“Drunk Fist Twelve Combos”

The 12-stroke of drunken fist is a very annoying skill. Once you hit the first punch, you will be forced to stun for 0.3 seconds and knock back 0.3 meters. If you are a master, you can make 12 consecutive punches. They all hit the target, and the combined 12 combos, with the panda’s current damage, can knock down 600,000 health classes with low physical defense like Lu Yang.

Lu Yang watched the panda’s punches come over. He couldn’t use his skills. He could only concentrate and avoid the panda’s combined punches with a very fast reaction speed. Unfortunately, he only managed to avoid 7 punches and was hit. Got 5 punches.

When the attack was over and Chen Mo had 3 seconds to go, the panda slammed one after another, a wine barrel fell on Lu Yang, and a flame spit out.

“Flame explosion”

Lu Yang was blown up into the sky, and then the panda stared at Lu Yang and rushed over quickly.

“Disillusionment”

的 The long sword in his hand continuously cuts towards Lu Yang. This is also a small skill with a stun attack. It cuts out 7 consecutive attacks, each of which causes the physical damage of the current attack and incidental power damage.

Lu Yang was in a controlled state, and he was continuously hit without a hit.

The other side.

The audience inside and outside the market was dumbfounded.

什么 “What’s the situation, who is this man named panda, who was able to have such a big advantage when he attacked Lu Yang?”

“I’m not mistaken, Lu Yang was attacked by the opponent using a combo, and he has no ability to fight back.”

记住 “Remember this person, he must be a master.”

内 Inside the live room.

“Roar !! Lu Yang finally met his opponent. This unknown player is not an ordinary person, but a master of the team, or the captain of the team, ready to participate in the” Second World “Arena League.” A German host laughed.

“This time Lu Yang is going to lose. Huoquan Jiuxian is notoriously difficult. Once in the wild, he will almost lose if he is entangled by the other party.” A British host Haha said with a smile.

“If Lu Yang stops at the top 100 of the World Championships in this way, it is definitely an upset, it would be amazing.” A French host said.

Dubin also frowned, saying: "Although Huoquan Jiuxian has a strong career, but Lu Yang has a lot of blood, I suspect that after this series of moves, the panda will be beaten."

In the field.

After Lu Lu was beaten 7 times in a row, two-thirds of his blood was left. At this time, he had recovered from silence, and the panda had jumped 80 meters away.

"Why run so far?" Lu Yang asked frowning.

"Ah? Haha." The panda scratched his head and said, "I'm afraid you'll kill me in a row."

Lu Yang smiled and said, "I can't think of you as a player with a purple lotus staff. I look down on you."

Panda proudly said, "The team bought it."

不错 "Yes, you train again, enough to be among the top 50 in the world, but today, when you met me, you were unlucky, whether you quit yourself or I killed you out." Lu Yang gave the panda great affirmation.

Panda Panda said, "I haven't lost yet. In another 20 seconds, my purple lotus staff can be used again."

Lu Yang laughed and said, "Do you think you can live these 20 seconds?"

"Of course," said the panda.

Lu Luyang said, "I'll let you another 10 seconds."

There was an uproar on and off the field.

“So big.”

“So arrogant.”

“Quickly kill him, lose by being silent.”

“Why does Lu Yang dress like this? We bet you won.”

Uh ...

The players are crazy, this is the infield. Lu Yang can hear the audience’s voice, but he is standing still.

Uh ...

Time passed by bit by bit. Panda was a very optimistic and cheerful player who was not afraid of the field and had a strong mental quality. He could stand in front of Lu Yang. When he counted down like this, he was scared and his heart fell into the extreme. In the big shock, he suspected that Lu Yang could really kill him within 10 seconds.

“No, I can’t think so, I lose if I think so.” Panda cheered herself up.

Lu Luyang smiled when he saw the expression of the panda. When the countdown reached 10 seconds, he moved.

“Blink”

A flash of light flashed, Lu Yang turned into a white light and disappeared in front of the panda. The panda subconsciously thought that Lu Yang appeared behind him and turned his head to spit out the flames. However, when he sprayed the flames, he saw Lu Yang appear. Ten o’clock behind him.

“Sweep the legs”

The panda quickly swept Lu Yang down. Once swept, he stunned for 5 seconds.

“Flame Shock”

Lu Luyang didn't give him a chance. At the moment when he launched the short leg of the sweeping leg, a finger of his left hand and a group of eye protection burst open on the panda's head, hitting twice the damage.

800,000 (Critical Strike)

The panda quickly used the badge to relieve the dizziness, but Lu Yang stepped forward to the panda, and when the panda rolled out and ran away, he punched his left hand in the abdomen.

“The Sun Fist”

The panda flew out behind him.

“1200000” (Critical Strike)

Lu Yang pinpointed the landing point.

“Destroy the Sky”

“Ground Fire”

The two tricks were released one after another. In front of all the audience, everyone saw what is called precise killing. The panda just flew to the landing position, and before the landing, the annihilation of the fire came first, hit the panda, then when he landed, the flames crashed him and continued to fly.

“Pyroblast”

Lu Yang threw a large fireball, hit the panda with precision, and continued to fly 1 meter backward.

“Remnant Flame”

Lu Yang flew 9 meters backwards and read the spell in his mouth.

“Ground Fire”

Panda Panda is about to land. If he lands, he can use the roll-back or roll-over skills to evade, but Lu Yang’s skills hit 0.1 seconds before he landed, and continued to crash him for 10 meters.

“Pyroblast”

Lu Yang threw another big fireball, hit his body, and then jumped back 10 meters away, launching the third ground fire into the sky.

“Boom”

Panda was hit again.

Lu Yang aimed at a location 70 meters away and spoke a spell.

“Meteorite Impact”

A crimson fire meteor descended from the sky.

“Blink”

Luyang suddenly appeared 0.5 seconds before the panda landed, and at this time the panda was just hit by the meteor, causing 400,000 damage.

When the panda was about to land, Lu Yang said a spell.

“Resistant Fire Ring”

The panda panda flew backwards 0.1 meters against the ground, and every time it flew, it was attacked by a flame, and it was struck backwards for a distance of 10 meters.

☀ While the panda was still flying in the air, Lu Yang received a system prompt.

System prompt: Lu Yang wins the game

The puppet panda stood up from the ground and arched his hands at Lu Yang, saying, “President Lu Yang is really powerful and admires me.”

Lu Yang smiled and said, “Practice well, you are very good. There will be a place for you in the top 50 in the world next year.”

The puppet turned into a white light and disappeared.

“This won?”

“This is a few combos.”

怎么 “Why so little blood?”

Uh ...

Players are curious. In the live broadcast room, the host has obtained the panda panel data at this time.

Du Bin cleared his throat and said, "I saw the question on the barrage, and I will explain to you that Panda's Huoquan Jiuxin is a dual-control profession with both physical and legal systems. Therefore, it is better to add points and equipment options. Players in the series have high damage. In order to increase the output, the jewels that the panda hits are not all blood jewels. When Lu Yang just cast, each attack hits the head, and even the fire and sky skills are prepared. The head was attacked, so the panda did not resist. "

The players are a little crazy.

"Even the ground fire is heading into the sky, this is how accurate the control is."

"God, great god, can't compare."

"Yes, I say 10 seconds, 10 seconds, this self-confidence, I will serve you later."

Uh ...

Lu Yang's status in the hearts of players around the world has been greatly improved. The Liu Jie group and the Kerem group watching Lu Yang's game have a dignified expression on their faces.

At this time, there are only 125,000 people left. In the next game, Lu Yang was once again in a rage, killing 3 players in a row, ending the day's game and successfully breaking into the top 2,000 in the world.

休息 Take a rest that night.

Lu Yang seriously maintained his physical strength. On the other hand, as the first player to be able to injure Lu Yang in this competition, Panda received invitations from dozens of guilds, as well as the team's digging, but the Panda did not go. Among the original team.

All the masters in the Jagged Brothers League also stood out. The three sisters Han Ying and the three males of the Bai Shi entered the top 2,000 of the trio, and the bitter lovers and Han Yu each took the team to the top 2,000 of the five. name.

The two brothers Zhou Tianming and Zhou Tianyan, as well as the combination of Tianyao and Mu Yu, and many other top players in the Jagged Brothers Alliance, almost all entered. Only a few unlucky encounters with the top masters, or civil war with the guild, lost the game.

休息 Take a rest that night.

Early in the morning, Lu Yang began to exercise as usual, and then entered the game to continue the game. What Lu Yang did not expect was that the opponent of this game turned out to be the cute queen.

In the field.

Lu Luyang looked at the little girl with a grievance and a depressed expression, and smiled, saying, "Little girl, it's awesome, she can break into the top 2,000 in the world."

The cute queen said with an unhappy expression, "How terrible I am, I haven't met you yet It's terrible, I worked hard."

Lu Luyang said: "Don't sell miserably, you little guy is great in this regard."

"How can I sell miserably?" The cute queen was displeased and went to Lu Yang angrily and said, "I have spent a lot of money to buy good equipment, including purple lotus staff and celestial scepter." I have them all, but I can't beat them, my top 100 bonus is gone, wow ~~! "

The cute queen is not polite, crying in front of hundreds of millions of spectators around the world, making Lu Yang a big head.

“Okay, okay, I agree to your terms, and quickly quit the game.” Lu Yang said quickly, he is terribly shameful, this is not an adult bullying a child.

“I haven’t said the conditions yet, you lie.” The cute queen continued to cry.

Lu Luyang said, “Everything promises, I promise, everything promises.”

“Really !?” The cute queen immediately burst into tears and looked at Lu Yang with excitement and asked.

Lu Yang knew that she had been cheated by this ancient and weird girl, and said, “Of course it is true. Let’s go back and see what your parents and friends can do.”

“So there is nothing, I was like this, okay, I won’t tell you, leave.” The cute queen retired directly.

System prompt: Lu Yang wins the game.

Chapter 1168 - Kill everything

中 In the laughter of the audience, Lu Yang was teleported out of the arena, and for a while, he entered the competition of 1,000 masters in the world.

What I didn’t think of him was that in the next three consecutive days, no difficulties were encountered, and he successfully broke into the final 100.

At this time, the players in each game are not ordinary players, and everyone has excellent equipment.

Lu Luyang was teleported into the playing field, the light flashed, and he saw the enemy in front of him, a giant toad.

“Your Majesty the King.” Lu Yang smiled.

His Majesty the King saw Lu Yang is also a stunner, and opened his mouth randomly and laughed, saying, "Lu Yang, I didn't expect to meet here. This year, I have been waiting for you for a long time.

Lu Yang said meaningfully: "I am also looking forward to it."

Last year, His Majesty's huge toad caused him considerable distress. If it wasn't for Lu Yang's fast response and high-level equipment, he would probably have died in the hands of this cargo.

At that time, the biggest regret was that Lu Yang did not have a stronger attack power and could not kill His Majesty the King in a short time. This time he had three skills: comet impact, meteorite fall, nuclear explosion, and naval bomb. He did not believe in killing toads. More effort.

His Majesty the King said proudly: "Stop dying, let you see the special skills I got this year, Mu Ling takes root."

His Majesty the King was originally a human form, but before he entered the map, he turned into a turquoise toad. Now using Muling to take root, the lower body of the body has actually become an implant and penetrates into the soil.

Xi Luyang knew this bloodline and did not expect to let His Majesty take it. However, it is really good to give His Majesty the King. This is a skill that can only stay in place and cannot perform long-range attacks.

Tochigi Spirit is rooted, and the body is transformed into a Mu Ling state, and the damage taken is reduced by 60%, but the transformed target cannot be moved, with a new poisonous pollen.

"Poisonous Pollen"

His Majesty the King took root in the center of the map. The large toad, 3 meters tall, raised his hands, and numerous flowers grew on the ground, spreading a lot of pollen.

System prompt: You are poisoned, you take 10,000 points of damage every second, stack one layer every 10 seconds, and increase the damage by 10%.

Lu Yang looked at his state, he couldn't help clapping and said, "Great, you really have real strength."

His Majesty the King was happy to watch Lu Yang spend time and proudly said, "How about, if you directly admit defeat, you are not ashamed of losing to me, after all, you are losing to a king of a country."

Lu Luyang smiled and shook his head, and said, "Unfortunately, you still can't beat me."

"Then try it, watch my poison." His Majesty opened his mouth wide, and slammed Lu Yang's location with a poisonous poison.

"Remnant Flame-Activated"

Lu Yang moved a distance of 20 meters in the direction of the side. He just ducked, and in the position where he had just stood, a huge venom zone with a diameter of 15 meters appeared.

"Such a large area." Lu Yang was stunned.

His Majesty the King laughed and said, "My second career is still a highly poisonous frog, with five poisonous beads on my body, 300,000 poison damage, and my defense. I am a 160-level sub-artifact-level equipment. There is also a 90% reduction of damage, and the tree armor of the Muling Bloodline Society can reduce the damage, so you deserve it. "

This set of skills to reduce damage and increase their own poison damage is enough to make His Majesty smile and compete. Normally, with his strength, it is not a problem to break into the top ten, but he was unlucky and met Lu Yang.

"Yes, you are very strong, then I will let you see, my new skills." Lu Yang said.

新 “New skills?” The King asked next.

“Residual Flame-Activated” Lu Yang said the spell, and jumped to a distance of 100 meters from His Majesty.

“You can’t move, right?” Lu Yang asked.

“Yes, why should I move.” His Majesty said proudly.

“Then you **** attack.” Lu Yang’s staff pointed at His Majesty, and the words were spelled out in his mouth.

“Comet Impact”

A red comet formed at the tip of the staff and flew towards His Majesty the King.

His Majesty the King instinctively felt that the fireball was unusual, but he believed more in his own strength. After reducing the damage by 90%, he could reduce the damage by an additional 60%. He didn’t believe anyone could move him.

“Boom”

Comet Pluto hit the head of His Majesty the King in the middle, causing a huge detonation wave. A mushroom cloud rose around His Majesty the King.

A female player watching a live broadcast stared at the skills on the screen, and suddenly he gritted his teeth to the boyfriend around him, “This is the guy. The guy who robbed me that day must be Lu Yang, the president of the Jagged Brothers League. Not yet admitted, the skills are exposed. “

The male player froze and asked with a smile: “It is not necessarily Lu Yang who has this skill.”

The female player shook her head and said, "It must be Lu Yang. Look for the opportunity for the two of us to thank him together. Otherwise, I would have no money to cure you."

The male player was moved for a while and said, "Let's continue watching the game."

Arena.

Players in the market are also stunned. They are the first to see such skills.

"Small nuclear bomb."

"It also comes with a mushroom cloud effect. What kind of skill is this?"

"Is it a secondary injunction? Or a special attack?"

"I don't know how to hurt?"

Uh ...

The players are curious to discuss.

☑ Inside the live room.

Dubin and the host of each country received the official skills introduction.

"Well, audience friends, let me introduce this skill to everyone. He called Comet Impact, haha, a very strong skill." Dubin sold a trick.

A scold came from the barrage.

“Hurry up.”

“Say it.”

“Don’t say cut jj”

Uh ...

Dubin said a black line in his forehead and said, “Well, this means that the effect of this skill is based on the distance skill, up to a distance of 100 meters, which can deal 5 times the damage of intelligence.”

The players in * are crazy, what is the concept of 5 times intelligence damage, others do not know, but Lu Yang’s words often pay attention to, how strong Lu Yang’s magic damage is, but they do not know that Lu Yang is hidden Many equipment, many of his special equipment, have intellectual attributes.

For example, the phoenix seal of the sub-artifact **** blood adds 200,000 intelligence, such as the 9-piece set of Ziyang, adds 170,000 intelligence, as well as the emperor jade and some accessories. Lu Yang’s total intelligence attributes are more than 400,000.

Lu Yang used to use Pyroblast to fight the enemy. He did not wear special equipment such as the God of Blood Phoenix Seal. He was prepared to use it at this time. When he just released the impact of the comet, he already wore a full set of equipment.

He was 100 meters away from His Majesty the King, and the comet impact that was released hit just 5 times the attack, and he could deal more than 2 million damage.

However, hitting His Majesty in the past only killed more than 80,000 blood, and suddenly, His Majesty was dumbfounded.

Last year, Lu Yang’s French injury was only 110,000, and he lost more than 10,000 points of blood when he hit him. But today it has increased by 8 times, but his blood has just reached 10 million. Following this, he absolutely Not Lu Yang’s opponent.

“Why do you have such a high attack power?” His Majesty asked, he could not receive the live broadcast news, nor could he accept the news and phone calls from anyone else, because it was in the playing field and was specially prevented This unfair mechanism.

Lu Luyang said, “How about, do you still think you can beat me?”

“Tree armor”

His Majesty the King habitually added a tree armor skill to himself, which can withstand 9 attacks and reduce damage by 100,000 points each time.

“Hum, let’s try again, my 呸.” Her Majesty spit on the spot where the landing sun was.

Lu Yang moved 20 meters to the side, and when he saw a tree armor emerging from His Majesty’s body, he knew what skills His Majesty used.

“Meteorite Impact”

“Lava Eruption”

Lu Yang released two skills in succession. The meteorite impact and lava eruption knocked out the tree armor within 2 seconds, because the tree armor bears damage according to the number of times. No matter how much the opponent’s damage, as long as it is hit once, it will be used once.

A total of 9 times can be offset. A meteorite impacted His Majesty’s huge body, and it was destroyed 8 times. Following the lava eruption, the tree armor was destroyed.

“Damn, I ...” Her Majesty was about to spit, and Lu Yang’s left hand pointed at His Majesty’s head.

“Flame Shock”

His Majesty the King was stunned for 1 second.

“Comet Impact”

As soon as His Majesty woke up, he saw another comet bumping into it. He had a heartbeat and walked away, but knew that he was only moving at a speed of 50% in the toad form. A series of combos can destroy his health, he can only resist.

“I bother”

His Majesty the King acknowledged his fate, and continued to spit on the landing sun, without looking at his own blood.

“Remnant Flame-Activated”

Lu Luyang continued to dodge 20 meters away, firing a comet again according to His Majesty the King, while reading the spell in his mouth.

“Meteorite Impact”

A huge meteorite fell from the sky, right in the head and body of the king.

“48789” (triple crit)

His Majesty thought that Lu Yang had such a comet-strike skill. According to this distance, if he used the skills, he could fight with Lu Yang, and there was still a lot of strength. But Lu Yang suddenly released a new skill. This Let the king sire, and it is true, because this skill stunned him for 3 seconds.

After waiting 3 seconds, he had been hit by a comet, and the second one hit his face immediately.

In an instant, in less than 10 seconds, he was killed by Lu Yang's 500,000 health, which is one-twentieth lost, but Lu Yang only lost less than 1% of his health. Credit toxin pollen.

"Damn, I continue to spray, I ..." Her Majesty was very depressed, and wanted to continue to put his skills, but before he released them, Lu Yang suddenly jumped in front of him.

"The Sun Fist"

He punched him in the body of His Majesty, knocking it up and flying.

"I knew it would be like this, and see how I can clean up you." Lu Yang sneered, and said the spell in his mouth.

"Remnant Flame-Activated"

Lu Yang quickly backed up 90 meters, and read the spell in his mouth.

"Comet Impact"

A red comet crashed into His Majesty's body about to hit the ground precisely, inflicting 5 times the damage.

"Remnant Flame-Activated"

Lu Yang flew to 20 meters in front of the king's lower body.

"Ground Fire"

His Majesty the King was about to land, was blasted by the flames, and continued to retreat.

“Blink”

Lu Yang jumped to a position 90 meters behind.

“Comet Impact”

☯ Another comet hit His Majesty’s body about to land, inflicting 5 times the damage.

“Remnant Flame”

Lu Yang left a naruto in place, threw out the escape dagger, and jumped to the first 40 meters below the king’s hoe.

“Ground Fire”

His Majesty the King just landed and was hit again. At the same time, Lu Yang activated his skills and instantly returned to the afterimage position.

“Comet Impact”

Lu Yang hit his skills, and then he chanted a spell.

“Remnant Flame-Activated”

Lu Luyang fell in front of His Majesty the King with a reddish light, and just as the Majesty fell to the ground, he was about to use the Muling Roots.

“Yang Yang Suo”

His Majesty Lu Yang was kept in place.

“Meteorite Impact”

A crimson meteorite fell from the sky, right in the middle of His Majesty’s body.

“Resistant Fire Ring”

A crimson light burst forth from Lu Yang’s body, flying backwards from His Majesty, and at the same time every step back was hit by a meteorite, which can cause more than 30,000 damage every 0.5 seconds.

“Naruto”

Lu Yang aimed at the open space behind the king’s lord, and read the spell in his mouth. After 1.5 seconds, 22 Naruto bombs flew down from the sky, all of which hit the head of the king who had just retreated to that position.

“3200” (Critical Strike)

“3200” (Critical Strike)

Uh ...

A series of crit skills hit more than 20,000 injuries.

At this time, His Majesty the King was finally able to react. He found that he had been recruited by Lu Yang even more than 30 times, and immediately became extremely angry.

“Lu Yang, I won’t let you go.” His Majesty roared.

Lu Luyang said, "You still ask for blessing."

"Lava Eruption"

His Majesty is still under the control of Yan Yangsuo, unable to move, and another lava appears under his feet. At this time, there is still 9 seconds before he can move.

"Great Ancestor of Fire ..."

Lu Luyang chanted a secondary injunction at this time. Eight seconds later, a group of house-sized crimson meteorite in the sky smashed down with a harsh wind, and was right in the middle of His Majesty's body.

"The combo didn't break. His Majesty was stunned for 10 seconds." Dubin in the live broadcast room suddenly shouted a loud voice, and the players at the scene of the shock screamed wildly. .

"The great ancestor of flames ..." Lu Yang continued to read the curse, and after 8 seconds, countless large fireballs fell in the sky.

"The Great God of Fire ..." Lu Yang continued to chant the forbidden spell. When His Majesty the King woke up His health has dropped by 20%, and he saw that Lu Yang was chanting a spell, Excited, he quickly sprayed highly toxic drugs toward the landing sun.

Lu Yang did not escape, he stood in the poison, and suffered 300,000 injuries per second. After 12 seconds, the entire arena was surrounded by intense heat.

"Devil's Flame Burned Out"

Lu Yang launched a forbidden spell. In this way, His Majesty was under the attack of a forbidden spell and a secondary forbidden spell.

“Remnant Flame-Activated”

Lu Yang jumped out of the side 20 meters away, took out a recovery potion from his backpack and ate it, and his blood returned to full value.

药剂 The arena can be used for potions, but Lu Yang’s previous battles were to even kill enemies without giving the opponent any chance to take medicine.

His Majesty the King also took out a recovery potion, and was about to eat it. Suddenly, Lu Yang appeared in front of him with a red light, and there was a flaming bird in his left hand.

“Flame Storm”

Lu Yang hit the ground with his right-hand wand, and the black ripples lit up. Before His Majesty ate the potion into his mouth, he was stunned for 2 seconds.

“Blazing Bird”

Lu Yang pointed with his left hand, and the Blazing Bird jumped and rushed to His Majesty.

Chapter 1169 - Points game

“Remnant Flame-Activated”

Lu Yang suddenly launched the teleportation skill and flew back 20 meters away. He spelled it out in his mouth, and pointed his staff with his right hand.

“Pyroblast”

A large fireball flew towards His Majesty the King.

“Remnant Flame-Activated”

Lu Yang flew forward 10 meters, read the spell in his mouth.

“Pyroblast”

Another big fireball flew towards His Majesty, and the distance between the front and back of the first big fireball was not more than 1 meter.

His Majesty the King woke up, at the same time, two large fireballs hit his head one after the other, throwing him back and forth.

“Remnant Flame-Activated”

Lu Yang jumped under the king’s chant, and read the spell in his mouth.

“Pyroblast”

The third big fireball hit His Majesty’s face. He couldn’t take the potion and swung him back again.

“I don’t believe you can control me to death.” His Majesty roared.

“Okay, give it a try.” Lu Yang suddenly jumped under the king’s crotch, and a little bit of his toad’s body in the right hand.

“Fire snake bondage”

火 A fire snake will bind His Majesty tightly in place for 8 seconds!

This is Lu Yang's last control skill, but when this control skill is over, the cooldown time of his flame shock skill is over, and he can play another wave.

According to the rules of the game, players can drop the opponent's set of combos in seconds, but they can't use other occupations such as the water after the split to help control, which is too unfair to the game, but if it is not a combo, it can be controlled. Yes, it means that defense can be used, and offense cannot be.

"Remnant Flame-Activated"

Lu Luyang flew to Her Majesty's place 100 meters away with a burst of light.

"Comet Impact"

"Comet Impact"

Uh ...

4 consecutive comet strikes, knocking down his king's 300,000 health, and when the last skill was released, Lu Yang said a spell.

"Remnant Flame-Activated"

Lu Yang jumped to a distance of 50 meters from His Majesty the King, with a finger in his right hand.

"Flame Shock"

A flame burst into the head of His Majesty, who had just woke up.

"Remnant Flame-Activated"

Lu Yang flew 50 meters backwards, with his right staff pointing His Majesty.

“Comet Impact”

A crimson fly towards His Majesty the King.

“Remnant Flame-Activated”

Lu Yang jumped under the king, looking at the position 10 meters behind him, and spelled out in his mouth.

“Naruto”

After 2 seconds, His Majesty woke up and was hit by a comet. He opened his mouth angrily to take medicine, but Lu Yang’s body glowed with a reddish light.

“Resistant Fire Ring”

His Majesty his Majesty receded a distance of 10 meters, and just after landing, 22 Naruto bombs falling from the sky hit the King’s Majesty’s head precisely.

“Ground Fire”

Lu Yang pointed the ground with his staff in his right hand, and a blaze of flames rose from His Majesty’s feet.

“Remnant Flame-Activated”

A red light brought landing and flew to a place 100 meters away from His Majesty the King. After landing, he pronounced a spell and pointed his right hand at His Majesty.

“Comet Impact”

A group of crimson comets flew under His Majesty, and at the same time, Lu Yang uttered a spell quickly.

“Remnant Flame-Activated”

Lu Luyang jumped to His Majesty’s 40 meters, and when he landed, he chanted a spell.

“Ground Fire”

A blast of flame hit His Majesty the King, who had just landed, into the sky.

Uh ...

陆 When Lu Yang attacked repeatedly, Dubin was crazy in the live room, he was screaming at Mike crazy.

“Lianzhao connected, connected, flame shock, beautiful, stunned for another 2 seconds, Lu Yang again with residual flames, or jumped to a distance of 100 meters away, he released the comet impact.

He used Cannon again, oh dear, how precise control, even when Her Majesty the King is still in the air, he can use Cannon to predict where he landed 40 meters, and the fire is soaring into the sky, haha His Majesty is finished now.

He is still flames 100 meters away, how tough his nerves are, how strong his consciousness is, how he did it.

Alas, oh my god, another remnant flame, I still can't speak after receiving a comet collision, I don't know how to praise Lu Yang, too strong, too strong. "

Uh ...

He played two consecutive sets of strikes, and His Majesty's 10 million HP was only over 5 million. He was snored by Lu Yang.

Lu Luyang also slowed down. The two sets of skills just made him use more than 20 consecutive flames, each with a transmission distance of about 100 meters, which caused a certain burden on his consciousness.

"Well, this set of combos is good," Lu Yang asked.

The king asked with an expression of disbelief, "How did you do that?"

Lu Luyang said, "Give up. You won't be able to take the next medicine. With the remaining blood, you can't carry my attack."

His Majesty drank a bottle of potion and recovered 2 million HP. He said, "That's not necessarily true. I don't believe you can continue to do this after you've played these two sets of combos. Your consciousness must be heavy now. Can it still be supported? "

Lu Luyang said, "I don't need to release a combo. With your more than 7 million health, you only need 100 comets to strike. Do you think you can be covered with this toxin in 200 seconds?"

His Majesty the King bit his teeth, he knew that Lu Yang was telling the truth, but he was not convinced, and continued to spray poison on the landing Yang.

The other side.

In the room where Liu Jie is located, the dead grass said to Liu Jie: "This toad is finally a bit useful, helping us find out all the details of Lu Yang."

Liu Jie nodded. After playing so many games before, Lu Yang didn't use these last three moves. Now he was forced by His Majesty the King. He is also very happy and said to Lawrence around him: "How can I crack?"

Lawrence said: "If only these skills, he will certainly die."

He Purenyi said in disbelief: "Don't talk big, Lu Yang's strength is obvious to all, but don't lose anyone."

Lawrence glanced at Park Renyi and said nothing.

Liu Jie is very confident in Lawrence. After so many days of competition, Lawrence also broke into the top 100 of the individual competition, which is regarded as a top master in the world.

"We continue to watch the scene." Liu Jie said peacefully.

In the field.

Lu Yang and His Majesty were about to separate the victory and defeat. After several minutes of confrontation, His Majesty filled the venom at a location of 100 meters around, and Lu Yang was forced to come to the inner circle, but at this time His Majesty's health was only 50 Ten thousand, Lu Yang is still full of blood.

"Damn, how could I lose to you." His Majesty watched as the blood was getting less and less, and his heart was getting angry.

Lu Yang said: "If you meet a warlock or melee, they can't beat you, but you are the strongest burst of fire I have encountered. How could you ever hit me, your brainless Occupation is very limited. "

I changed it to a hunter who took him for no reason, because the output was not enough, the hunter's pet went up and had to be poisoned before long, but the super-strong outbreak of the lightning mage and fire mage could easily kill the king.

In the final blow, a comet hit the head of His Majesty's head, inflicting 3 times the damage, but His Majesty's health was less than 10,000, and he was easily taken away.

System prompt: Lu Yang wins the game

His Majesty the King reluctantly cursed: "Lu Yang, you wait, it won't be long, I will personally lead the team into your main city, and I will take revenge."

Lu Lu frowned, and said, "Why, you still have plans to attack me?"

The king sighed for a moment, knowing that he was silent, and quickly covered his mouth and stopped speaking, and quit the arena, but this sentence has been heard by players all over the world.

"Damn, this waste."

"Asshole, how could he just say that."

"I want to kill him."

Uh ...

Liu Jie, dead grass, and others were furious, and a group of African chiefs and kings. Because of the importance of money, these African chiefs and kings stood firmly on the side of Liu Jie, ready to travel to the world. The main cities went to rob and Lu Yang was one of their important choices.

The other side.

Lu Luyang withdrew from the battlefield, and he said to Tu Feng: "Check this carefully and see why Liu Jie hit me."

"Yes," Tu Feng said.

Regarding the strength of the war, he was not afraid of Liu Jie. The surrounding guilds were cleaned up by him. Basically, the next war was when he swept the northern region.

"I'll take a rest." Lu Yang quit the game, just fighting, he has a heavy burden on his consciousness, he needs to sleep for a while.

After playing this game, it will be the global offline game. Two days later, the game will be played in the global sports center in Sweden.

Lu Luyang slept until 5pm before waking up, came to the restaurant downstairs to prepare for dinner, and just saw the vice-chairmen such as White Lion and Zhuoji gathering together.

"What are you talking about?" Lu Yang asked over.

"Boss, how is your body recovering?" The White Lion asked.

Lu Luyang said, "Restored."

"We are talking about a small game. It is officially launched. It is the first time to play. It is said that the reward is very generous, but we need to make a higher score. We are discussing it." Said bitter love for a long time.

"What little game?" Lu Yang asked.

"A small game of horse riding and slashing, you can also walk on the ground to fight monsters, get through 8 levels in a row to get the final victory, you can get rewards if you exceed the official base

score, and give you skills books and equipment. The number of clearance points is determined. "Xia Yuwei said.

Recalling in Lu Yang's mind, he knows that this small game is a very fun game that can give quite a lot of babies, mainly scores. A high score can give a skill book of level 160 and a skill book of level 140 or so. It depends on the player's level.

Sun Yu said: "Brother, this game is definitely skillful. The official score of 600,000 points, but only 400,000 points for normal clearance, a difference of 200,000."

"Let's eat, I will try this little game after dinner." Lu Yang said.

Everyone is interested. Generally speaking, if Lu Yang takes a shot, they can find a way to clear the customs. For a time, everyone has no interest in eating. After eating hastily, they return to the game with Lu Yang.

The light flashed.

Lu Yang appeared in the guild hall of Tianyuan God City, and White Lion and others appeared beside Lu Yang.

"The login point of the mini-game is in the system." Zhou Tianming said.

Lu Yang clicks on the system. Now there is a small game area in the system. For example, many fun games such as fishing and mining that Lu Yang played before are concentrated here. You can play when you click. Can get a lot of experience, normal is slower than playing monsters, but can pass the time.

System prompt: Are you sure you want to enter the game of defending the king?

Lu Luyang found this mini-game, called Defending the King. After choosing yes, a flash of light passed, and he entered the mini-game.

System prompt: Please select occupation

职业 Three professions appear in front of him, Archer, Warrior and Mage

Lu Luyang chose the fighter with a knife. This is the best scoring profession in the last life and can score the highest score.

The way to play the game is very simple. After entering the game, cut the monster. The official history of the game is that the country encountered the Prime Minister's rebellion. The king was imprisoned in the castle. Several people with lofty ideals decided to break into the palace to kill the rebels.

Lu Luyang watched the official commentary and entered the first level of the game. He was too familiar with this level. The first scene was to start an attack from an expeditionary camp 20 kilometers away from the king's castle.

Lu Yang appeared at the gate of the camp. There were two rebel spies holding short swords guarding them. Both of them saw Lu Yang with a wary expression.

“There is an enemy, kill him.” A rebel spy rushed towards the landing sun.

Lu Yang is holding a long knife, which is more than half a meter longer than the rebel spies. The spy's attack method is very simple. There are only two moves, one is a short-range sting, and the other is a sting.

The computer's AI is very low. As long as Lu Yang puts the knife in front, the spy can't hit him if he dies.

Lu Luyang watched the spy rush over, turned around and slashed heavily, and the big sword slashed into the spy's body from top to bottom.

“Uh ~!”

The detective was blown out and fell to the ground, losing half his health.

In this game, melee players have three attack modes, one is ordinary slash, one is heavy slash, and heavy slash is double attack of normal slash. The third is zoom-in move, all enemies in the screen are stunned. On the ground, drop a heavy cut, but the player will also drop a heavy cut. The player's maximum health is 5 heavy cuts.

At the same time, the player also has a blocking skill, each time you trigger, you will get an invincible 2 seconds opportunity. This skill is the key to clearance. If you play normally, it will not pass at all.

The second spy saw that the first one was blown away, and rushed towards Landing Yang. Lu Yang defended first.

“when”

Lu Yang's body burst into a golden light, showing invincible status. After receiving the landing, Yang Yang turned around and slashed, smashing the second rebel.

At this time, the first soldier just got up. If he slashed and slashed to death, he could get 200 points, but he would kill the monsters like that. There are too few points.

There is such a setting in the game, if you kill two same monsters at the same time, you can get 4 times points.

After waiting for the two soldiers to stand up, he chose to launch a big move. A flash of light flashed on his body, and the two soldiers fell to the ground and died at the same time.

System prompt: You get 800 points

You got 900 points

每 Every time you kill a monster of the same type in the game, you can get 100 points in a row.

Lu Yang moved forward. The periphery of the camp was a village. He walked into the village. There were two wooden barrels and four soldiers. Two of them were rebel spies and two were heavily armored medieval infantry. In his hand, he holds a two-handed sword that is 10 cm longer than Lu Yang's big sword.

“Someone invaded and killed him.” A heavy infantry shouted, stood up and walked towards the landing sun, his movement speed was too slow.

The other heavy infantry also stood up, and the two spies ran towards Lu Yang. Before the two rushed to his front to attack, Lu Yang spun a heavy chop, knocked the two out, and then the two When he got up, he launched a big move and killed two rebel spies.

System prompt: you got 3600 points

You got 3700 points

Only 4 monsters were killed. Lu Yang had more scores than others after finishing the first level. He looked up at the two heavy infantry. After approaching the two, Lu Yang did not resist and was ordered by a heavy infantry. The three swords turned into residual blood.

Looking at only a trace of blood skin, Lu Yang smiled on his face and chose to backhand to block.

“when”

Lu Yang blocked a heavy infantry slash. Invincible for 2 seconds, he took a step forward, a heavy slash hit the heavy infantry, killed a quarter of his health, and returned to another heavy Cut and knocked down another heavy infantry.

来到 He came to the two wooden barrels and chopped two wooden barrels with two knives. One of them contained a pot of vegetables to restore his health, and the other contained a golden statue.

If the props in the game are shaped, such as vegetable pots and golden statues, you can use a knife to cut them. After cutting, the vegetable pots can be divided into 4 small pots, and the statues can be broken into gold coins. This can get more income. .

Normally, if the player's health is full of blood, eat the vegetable basin to get points. If it is a blood supplement, only the blood is added and no points are added, so the players are currently working hard. Make sure you don't get hurt before this time.

However, Lu Yang has become residual blood. The reason is that there is a little trick here. The official internal setting allows the player to directly upgrade the green scepter if the player attacks the vegetable pot while the blood is still remaining.

Luyang chopped on the vegetable pot.

“噔”

The vegetable pot turned into a golden sapphire scepter one meter five long.

Lu Yang picked up the scepter.

System prompt: You have risen to level 2!

Luyang's weapon damage increased by 1 point. In the future, a two-thirds of the spies' health will be destroyed by a heavy chop. The defense and health will also increase by 1 and the health will be restored to full value.

He looked at the second gold statue. Similarly, destroying the gold statue may also get other treasures. It is a war horse.

Lu Yang slashed to the golden statue.

“嘭”

A red crystal ball fell to the ground, Lu Yang picked up the crystal ball, a flash of light passed, the crystal ball disappeared, and a war horse appeared in front of Lu Yang.

Lu Yang turned over and rode on the horse. At this time, he looked at the two heavy infantry and showed a smile, because there were still some tricks in it.

Chapter 1170 - bug points

This little trick is 蹭 points. The so-called 蹭 points are the special attacks of war horses. Killing different arms can also get the previous superimposed points.

The skill of this scoring lies in the war horse's jumping charge. The war horse jumps forward heavily. After hitting the target, it can destroy the target's 1 slashed health.

Lu Yang pinpointed the two heavy infantry positions, and the control horse jumped up and smashed heavily on the two heavy infantry. The two were hit and flew. After landing Luyang and control the war horse one collision, the two heavy infantry died.

System prompt: you get 3700 points

You got 3800 points

Lu Yang looked at the points, it was already 16,000, and there were only 4,000 points away from the upgrade. He continued to go forward, riding down the hillside, and met two rebel spies. Lu Yang jumped off the war horse, two consecutive horizontally. Slashed and killed two rebel spies.

System prompt: you get 3800 points

You got 3800 points

System prompt: You have upgraded!

The light flashed, Lu Yang rose to level 3, and all attributes increased by 1 point. The reason why it only increased by 3800 points is because of the rules in the game, the maximum is only 3800 points.

But this was enough. Lu Yang only killed so many strangers and rose to level 3. He continued to move forward. He was 3 rebel spies. After he let the spies kill 2 blood cells, he killed the spies. Then, he came to the boss in the first level.

This is a knight in silver armor holding a two-meter-long fork.

Silver Knight

Level: 5

Qi and blood: 50/50

Lu Yang's attack power is now 4 points, a heavy cut can cut 8 points of the silver knight's health.

“Roar roar ~! It turns out that you are the knight who can do nothing, and you want to challenge the authority of Lord King Chamis, and I will destroy you on behalf of King King.” The Silver Knight laughed and said, he waved his fork and put the 4 villagers killed.

System prompt: battle begins

“Big move”

Lu Yang launched a big move at the moment when the Silver Knight killed the villagers and flew it backwards. The Silver Knight quickly knelt on the ground to arrange his helmet. As he was about to stand up, Lu Yang came to his presence. Take a heavy chop.

The Silver Knight was knocked to the ground. When he was finishing his helmet for the second time, Lu Yang stepped forward and knocked him down again with a heavy slash. The Silver Knight fell back again.

Uh ...

Lu Yang chopped 2 knives in a row to see that the time is approaching and zoom in continuously.

The first big move, he lost 1 block of health, the Silver Knight has 26 points of health, the second big move, he has 3 blocks of health, and the Silver Knight has 18 points of health.

The third big move, the Silver Knight has 10 points of blood, the fourth big move, the Silver Knight has 2 points, and Lu Yang only has 1 block of health.

At this time, a reinforcements ran from behind, leaving a large bowl of vegetables, while many soldiers appeared around.

Lu Yang walked to the front of the potted vegetables, a heavy chop, the big potted vegetables became a green upgrade scepter.

Originally, this large bowl of dishes added blood to the player, but if the player's health is too low, it will become an upgrade token.

Lu Yang picked up the scepter to rise to level 4, and all the data increased a bit. He jumped on the war horse, hit a few, and killed the 3 soldiers he brushed out. He got 11,400 points, and then he turned back and chased. The Silver Knight came over and hit.

System prompt: you get 3800 points

You passed the first level

传送 Lu Yang appeared in front of a portal. He walked in and a series of data appeared in front of him. After clearing the customs, the official gave 10,000 points according to the length of time.

Under normal circumstances, players can only reach the 2nd level after they pass the first level, but Lu Yang has reached the 4th level, and the points for the 5th level are 40,000. Luyang now has 15,000 points.

开始 The second level begins on a plain map with 4 rebel spies in front. At this time, the points are cleared at this time, and Lu Yang needs to play again.

But now his attack power is 5 points, and the rebel spies only have 4 points of blood. Normally, one spy can hack a spy. He relies on the position to gather the two spies together and one cross.

System prompt: you get 800 points

You got 900 points

The other two spies came over, and Lu Yang relied on his position to make a crosscut.

System prompt: you get 3600 points

You got 3700 points

探 4 spies died, and Lu Yang's upper limit was almost reached. He continued to move forward, in front of which were two barrels and two fat men with spears.

Lance

Blood: 10/10

Lu Yang avoided the fat man's attack and smashed two wooden barrels with two consecutive swords. One of them had a war horse. He summoned the war horse to jump up, still using the impact, and the points quickly climbed.

A large wave of monsters behind were all fat, a total of 9 were killed by Lu Yang in the same way, the level rose to level 5.

Then, came to an important node. Here are 3 heavy infantry, and a wooden fence. The experience summarized by countless studios in the last generation, there are 3 upgraded green scepters, which are the three heavy infantry. .

The method is that he must have 1 block of blood left, heavy infantry must kill with one hit, and they must first block each of them, and the points must be at the highest point.

Lu Yang jumped off the war horse and walked to a distance of 5 meters from the war horse, and let the three heavy infantry companies chop him several times, cutting him into residual blood.

At this time, Lu Yang blocked a backhand to block the attack of a heavy infantry. When he was invincible, he quickly returned to the war horse and killed three heavy infantry.

System prompt: you get 3800 points

Uh ...

☰ At the same time for three consecutive prompts, three green scepters exploded on the ground. Lu Yang picked them up one by one, the level increased to 8, the attack power became 9 points, and the blood cells became 12 cells.

Lu Luyang then went forward. In front of him was a hammer soldier riding a bay horse and wearing heavy armor. He held a meteor hammer in his hand and his health was 8 squares.

What Lu Yang wanted was this hammer soldier. A long way behind was almost all hammer soldiers, and he quickly raised the level before to fight this hammer soldier.

He slammed the horse's belly and let the horse run forward quickly. At the same time, he jumped up, and the war horse ran directly into the hammer soldier's horse, knocking the hammer soldier to the ground, and Lu Yang's horse ran out of the map. , And the horsemen of the hammer soldiers remained in place.

Lu Yang quickly stepped in front of the hammer soldier, let the hammer soldier beat him into residual blood, then landed Yang and jumped to the body of the scarlet warhorse, a collision smashed the hammer soldier, and all 8 of his blood were emptied.

Because one impact is equal to one heavy cut, Lu Yang's level 3 to 8 attack power is 9 points, and one heavy cut can deal 18 points of damage, even if it counts 3 defense forces of the hammer soldier, he is easily killed by Lu Yang. .

System prompt: You got 3800 points

Lu Yang looked to the ground and it really exploded a gold statue. This is another setting in the game. When the player's health is only 1 block, killing the hammer soldier has a 80% chance to drop the gold statue.

Lu Yang chopped the gold statues, picked them up one by one, and got 2400 points. The original one had only 2000 points.

Continue to move forward, four hammer soldiers appeared at the same time, two above, two below, Lu Yang controlled the war horse to rush forward, when he was about to charge in front of the hammer soldiers jumped up and killed the two hammer soldiers.

System prompt: you get 3800 points

You got 3800 points

金 Two gold statues burst out on the ground. Lu Yang rushed down and killed two other hammer soldiers. He also got two gold statues and scored two 3800 points at the same time.

I ate four or four chopped gold statues and scored more than 10,000 points. Counting the hammer soldiers just killed, there were more than 10,000 points. Lu Yang was not far from the upgrade.

的 The mechanism in the game is like this. If you do n't rely on the score to improve the level, the points will not be cleared after the upgrade, but will continue to stack up. Therefore, Lu Yang can only upgrade by killing a few hammer soldiers.

He continued to move forward, and suddenly there were two hammer soldiers in the back, and two hammer soldiers in the front. Lu Yang still struck back and forth, killing the hammer soldiers, killing the hammer soldiers, and then burst out of gold. statue.

There was a flash of golden light.

System prompt: You have risen to level 9

Luyang's blood returned to full value, and continued to go forward. I saw the boss in the second level, a two-handed swordsman riding a war horse.

Hand Swordmaster

Blood Grid: 30

Defense: 3

Lu Yang's attack power is now 10 points, and a heavy cut is 20 points of health. After removing 3 points of defense, he can also deal 14 points of damage.

There was nothing special about this swordsman. Lu Yang went to the swordsman and blocked it with a backhand, blocking his left-handed sword, triggering the invincible effect, and then a heavy cut. The two-handed swordsman was severely cut off by Lu Yang. Killed 14 HP.

Lu Yang rushed forward, when the two-handed swordsman was about to get up slashed again, slashed the swordsman to the ground, and then took a normal attack, the swordsman died!

System prompt: You passed the second level

You earned 20,000 points

There was a flash of light.

Luyang entered the third level. This level began with the attack on the city wall. There were two fences and two six hammer soldiers under the city wall.

This time the points are cleared again. Lu Yang comes to the hammer soldiers and asks them to beat themselves into residual blood. Then he uses a big move to kill the six hammer soldiers together. Only 1 block of blood is left.

System prompt: you get 800 points

You got 900 points

System prompt: you get 3600 points

You got 3700 points

System prompt: you get 3800 points

Uh ...

With six hammer soldiers, Lu Yang got the upper limit of points, and at the same time, five golden statues burst out. After Lu Yang shattered, he picked up the statue and got more than 10,000 points.

☐ He turned back and smashed the fence below, the light flashed, and an upgraded green scepter appeared. Lu Yang picked up the scepter and rose to level 10 with an attack power of 11 points.

Normally, at the third level, players can rise to level 5 and they are all masters, but Lu Yang has risen to level 10, which is double the average master. This is not his credit, and countless in the last life The experience summarized by the Great God.

Chapter 1170.1: 700,000 points

Lu Yang went to the barricade in front of the moat, cut the road with a single knife, the gate opened, and he entered the gate.

At this time, a large number of reinforcements appeared behind him, rushing in front of him and rushing into the city gate. These were all knights of the old king.

Lu Yang followed into the city gate and saw the knights of the new king and the knights of the old king fighting together, but the knights of the old king obviously could not beat the new king, and Lu Yang's help was needed.

There was a hammer soldier not far in front of him. In the teammates of his own hammer, Lu Yang jumped forward, slashed to death, scored 3800 points and got a gold statue.

Lu Yang looked around. Enemies such as hammer soldiers and heavy infantry were everywhere. At this time, it was time to harvest points. Lu Yang killed one by one. When he reached the front of the boss, he went up to level 11.

The boss in this level is a duke and the uncle of the ultimate king.

Lord Landro

Qi and blood: 100/100

Defense: 5

In front of him is a golden statue. When the battle begins, he will launch special skills to burn all the golden statues and disappear.

If the player rushes to the front quickly, he can eat a golden statue. Previously, players rushed in to grab one to eat, but one player found that if the duke uses functional skills, he can smash a golden statue and use that gap. Can escape his special skills.

Among the many golden statues, the one in front of the Duke could even cut out an upgrade scepter. Lu Yang has a deep memory of this. He always used this trick to grab the statue.

System prompt: battle begins

Lu Yang rushed to the Duke in a slippery step, and the moment he hit the chain hammer in his hand, he struck a statue in front of him. While the chain hammer hit him, a light flashed on the ground. Except for one of the ten golden statues, which turned into a green scepter, the rest disappeared.

As soon as Lu Yang reached out to pick up the scepter, he rose to level 12. He raised a long knife to block, then returned with a heavy chop, chopped the duke to fly, then killed the duke several times in a row.

System prompt: You defeated the Duke

You got 50,000 points

Lu Yang played faster this time, giving more points than ever. So far, Lu Yang has hit more than 300,000 points, which is half the distance from 600,000 points, but he only played 3 levels and 5 levels behind. Well, over 600,000 points is too easy.

With Lu Yang's current attributes, there is a great chance of getting more than 1 million points. Normally, if you pass 600,000 points for the first time, you can give a skill book, and if you exceed 1 million points, you can give one skill book, which means you can get two books at a time.

I will not give more than 600,000 points in the follow-up, but I will still give things over 1 million points, but the chance of giving good things is lower, but it is also a gold-level treasure, but Lu Yang fights with 1 million points, not to mention others .

The light flashed, and he came to the fourth level. The soldier appeared in this level was relatively new. He was a soldier with a slender body, heavy body armor, a heavy shield, and an axe.

Axe shield

Qi and blood: 50/50

Defense: 4

The axe shield soldiers play the same way as the hammer soldiers. They are also given gold statues when Lu Yang's blood is lost and a kill is required, but the gold statues given by the axe shield soldiers are more expensive and are big gold statues.

But the Axe Shield soldier is a bit difficult to fight. He has a shield to defend, just like Lu Yang's block. Although it does not trigger invincibility, it can invalidate your attack, and then hit backhand, which may kill the remaining blood player. .

Lu Yang I suffered a lot from the axe and shield soldiers here. It is also because the axe and shield soldiers honed good skills. It is actually very simple to kill the axe and shield soldiers. As long as the opponent is ready to attack, he waves a long knife. Then when the opponent cuts out the axe, he hits his body, because when he cuts, he has to take off the shield.

A total of 6 axe shield soldiers, Lu Yang walked in front of the axe shield soldiers, and let them attack, leaving him with 4 blocks of blood.

“Big move”

...

Lu Yang used three big moves in succession to kill the six axe shield soldiers. Each big move was equivalent to a heavy cut. Just 50 points were killed by three big moves, and six big gold statues burst out.

After a big gold statue was chopped up, he could get 3600 points. Lu Yang ate 6 more and got more than 20,000 points.

Then Lu Yang continued to walk inside, and a new army appeared, a female assassin, who knew how to use a flying knife. This required him to avoid it. Once he was hit by a flying knife, he hung up.

Female assassins have very little blood, and Lu Yang can hack one with one shot, but they are very agile and can jump back and forth, even jumping 3 meters high.

Lu Yang carefully avoided the female assassin. At this time, Lu Yang's operation was very tested. He cannot kill the female assassin, because if he kills, the accumulated points will be cleared. He needs to kill without killing the female assassin. More than 20 axe shield soldiers on the dead map.

And these more than 20 axe shield soldiers are only the first wave, and then there are 3 waves, each wave is 20, and each wave has 4 female assassins.

Fortunately, Lu Yang's output is now high. If you change to other people, you are basically dead at this level. Each death is deducted by 10,000 points, three consecutive deaths, and you are out!

Those who can pass this level are now masters, because their highest level is only level 5 or 6. In the face of the axe and shield soldiers, the damage is very low, and the axe and shield soldiers appear 3 consecutive waves, each wave The interval is 5 minutes, or the axe shield soldiers are killed.

If you are a level 6 player and want to kill 20 axe shield soldiers in 5 minutes, it is almost a dream, but for a player like Lu Yang who has 13 points of attack power, it is very easy, and the time is rich. Rich.

In just 3 minutes, Lu Yang killed 20 axe shield soldiers, and then a second wave of axe shield soldiers appeared, accompanied by 4 female assassins.

The number of female assassins in the map became eight. Lu Yang's killing of the axe and shield was slower. It took 4 minutes. In the third wave, there were 20 axe and assassins. At this time, the number of female assassins has become 12.

Lu Yang did his best to dodge. It took 5 minutes to kill 20 axe shield soldiers at the same time. At the same time, his body flashed gold and rose to level 13.

“Big move”

Lu Yang released a big move, all 12 female assassins died.

System prompt: you get 3800 points

...

The reason why it is still 3800 points is because Lu Yang used a big move to kill one and triggered the scoring mechanism. He just killed 60 axe shield soldiers and burst out more than 50 large gold statues. He got nearly 200,000 points. .

He walked forward and saw the boss in the fourth stage, a princess in black.

Montasha

Qi and blood: 150/150

Defense: 3

Lu Yang's attack was 14 points, without any politeness, and the princess was killed 10 times in a row.

System prompt: You defeated the princess

You got 70,000 points

The speed of Guan Luyang is relatively slow. Normally, he should get more than 100,000 points, but he has not played this game for a long time, and the points are normal.

The light flashed.

Lu Yang came to the fifth level, if you are a novice, you will be depressed when you see this level, because this level is a mixed arms level, including the most basic rebel detectives and heavy infantry, as well as hammer soldiers, female assassins And axe shield soldiers.

If you want to get a high score at this level, ordinary people are okay, but Lu Yang has a way. This level is a horse farm near the king's castle. There are war horses everywhere. A large number of hammer soldiers ride on the horse.

Lu Yang walked forward, and after being bruised by several female assassins and axe shield soldiers, he hurried back, broke a fence, and summoned a war horse.

He jumped onto the war horse, and suddenly rushed out a lot of horsemen on horseback, and ran towards him.

There were more than 30 war horses. Lu Yang quickly controlled the war horses to run back. When he pulled the opposite 30 horses into a straight line, he immediately turned around and ordered the war

horses to rush forward. He jumped up and the war horses He rushed forward, just about to hit the side of each horse.

While guaranteeing to hit every war horse, it still maintained the force of rushing forward, knocking over 30 war horses all over, and all the hammer soldiers were immediately killed.

System prompt: you get 1600 points

You got 1700 points

System prompt: you get 3800 points

...

A series of points prompted that 28 golden statues also exploded. After landing, Lu Yang launched a big move to kill all the remaining non-axe shield soldiers, and the remaining 6 axe shield soldiers were seen by Lu Yang one by one. There were 6 big gold statues.

After picking up these golden statues, Lu Yang has broken through the 600,000 points. He walked forward. In front of him, three waves were the same strange as he just encountered. He was killed by Lu Yang in the same way, and his points exceeded 700,000.

System prompt: You have risen to level 14!

Moving forward, Lu Yang saw the boss of this level, Prince Ankara.

Prince ankara

Qi and blood: 200/200

Defense: 5

This prince is a more difficult monster to fight. His height is different from ordinary people, he is over 2 meters tall, his muscles are stretched, and he is holding a huge hammer.

One of his methods of attack was to hit people with a hammer across two meters, and the other was to fly and hit people. Both were very high attack methods. A player around level 6 came here, a hammer left blood, and the second hammer will definitely die. .

But if the use of blocking is good It can also be killed. It only takes some effort, but Lu Yang is not the same. He is 14th level and has 15 attack power. Killing this monster is the same as playing. Severe cuts in a row to kill the monster.

System prompt: You defeated Prince Ankara

You got 100,000 points

Lu Yang's points exceeded 800,000. Next, he will play Level 6. This level is a separate boss level, no mobs.

This is an arena where Lu Yang enters and meets boss Gladiator Hamilla.

Hamila

Qi and blood: 300/300

Defense: 5

Hamila is a human with two daggers. He has no armor, only wears a half-length outfit, and is quite flexible.

The official statement is that this level can not be played, because this strange is a special strange, ordinary masters can't beat it, but he can't beat Lu Yang.

Chapter 1171 - Swiss Offline

Lu Yang retreated to the wall of the arena. The round arena has no dead ends, but leaning on the wall can effectively prevent Hamilla from jumping back and forth.

In terms of attack determination, Hamila's hand knife after jumping overhead is very annoying. This is not a normal defense to prevent the past.

System prompt: battle begins

"Hahahaha ~! Someone wants to challenge me, I want you to **** power." Hamilla ran over towards the landing sun, but he was about to jump up and attack, but found that Lu Yang was leaning against the corner He could only run to Lu Yang and use his short sword to attack.

"when"

Lu Yang backhand blocked the short sword, then a heavy cut chopped Hamilla to the ground, and he immediately made a defensive gesture.

"boom"

A group of flames emerged within one meter of Hamila's body. If it rushed at this time, it would be hit by the flame. Then Hamila punctured the two back and back and stabbed with his hands. Then he shot and turned and cut. !!

Lu Yang was very familiar with Hamilla's set of skills, so he hid there to defend. Sure enough, Hamilla was cut off a meter away and used flames to attack and chase the enemy. Seeing that Lu Yang did not rush up, immediately pierce the landing sun.

"puncture"

A dark shadow flew towards Landing Yang. This skill could not be defended. Lu Yang took a half-step to the side at the moment when he launched the skill, and while evading the skill, a heavy slash hit Hamilla. Hit a round wall on the side.

Lu Yang immediately backed up a distance of 1 meter to avoid the flames. When Hamilla turned over and leaped, Lu Yang took a step forward and cut Hamilla over with a heavy cut, because there was a round wall at the back. Hamilla flew out only 0.3 meters away.

Lu Yang took another step back, avoiding a distance of one meter. When the flame was over, he took another step forward and a heavy cut cut Hamilla over.

This is the method of hitting Hamilla, which was summed up by a great **** from the last life. Lu Yang used this method to kill Hamilla in less than 1 minute.

System prompt: You defeated Hamilla

You got 50,000 points

The light flashed.

Lu Yang entered the seventh level. At the beginning of this level, he officially entered the king's castle. The guards asked the side to guard the first level's boss silver knight.

The characteristics of the Silver Knight are that they rely on a spear to attack a long distance and also have the advantage of fast speed to defeat the player. If the player's level is not level 7 or lower, it is absolutely impossible to beat, but Lu Yang is 14 and kills silver The Cavaliers were just two heavy cuts.

He continuously attacked, easily eliminated more than 100 silver knights he saw on the way, and obtained more than 300,000 points, and then he saw the boss in this level.

King Guard Captain-Bragan

Qi and blood: 500/500

Borogan's appearance is also human, holding a two-handed big sword and full body armor. The conventional attacking skills are not terrible. The most terrifying thing is that he flew up to release the sky fire.

Fortunately, Skyfire can also use a backhand knife to resist. Lu Yang avoided the Skyfire twice in a row. When the Borogen fell, he stepped forward and slashed it.

This attacked 10 times in a row and knocked down Borogen to the ground.

System prompt: You defeated Bragan

You got 50,000 points

Normally, players in this level can't get points, they have to complete the task overtime, but Lu Yang's attack power is high, which can get so many points.

The light flashed, and Lu Yang entered the last level, which was in the inner palace of the King's Castle, from the garden here to the King's Palace.

The mobs outside are all composed of the silver knight and a profession called alchemist. The warlock knows flashing skills and throws thunder, which is a relatively annoying skill.

But facing Lu Yang's 14th level, there is still no difficulty, and the soldiers who have easily played all the way saw the final boss.

Rebel king

Qi and blood: 600/600

The king is very easy to kill. This is a human monster wearing a whole body of gold armor with a chain ball, just over a meter taller than Lu Yang's character.

Lu Yang only needed to block his attack, and then hit the monster with a heavy chop. In less than 2 minutes, Lu Yang killed the monster.

The system prompts: you successfully get through all relevant cards

Your final score is 1123686, and you get two skill books and 3 million experience.

Lu Yang saw the name of the skill book light up, and quickly opened his backpack to check the skill book.

“ Flame Cut ”

Type: Fire Spell

Consumption: 500,000 magic

Distance: 100 yards

Description: Rely on the fire to simulate a flame warrior holding a sword, rushing towards the target instantly, causing it to the current intellectual property fire damage, cooling time is 30 seconds.

Lu Yang shook his fist vigorously and said, “Pretty, you lack this skill.”

When Zhuoju saw Lu Yang coming out, he asked curiously, “Boss, you got the skill book.”

Lu Yang shared the skill book with everyone and said, "That's it."

"It doesn't seem to matter?" Said bitter love for a long time.

Everyone did not understand the reason why Lu Yang was so excited, just looking at the appearance, this skill's damage is not as good as Blazing Bird. At least Blazing Bird is a range damage or a magic damage attack. Daguai and beating have high output.

But this is just a one-line attack, but also an intellectual attack. The damage is obviously much lower than the Blazing Birds.

Lu Yang said, "You don't know, this skill has a benefit, he can bring other skills with him."

"What do you mean?" Xia Yuwei asked.

Lu Yang said: "For example, before I release the flame slash, I first set a sun shield on myself, so that the sun shield can attack the opponent. At this time, I use the fire resistance ring to push the target away. Under the action of the chop, the Yanyang mask continued to attack the target. "

This skill is an important skill in several combos of the fire method, and it is an important part of releasing many combos. With this trick, when Lu Yang encounters the big toad of His Majesty, he will play more than before. Much easier.

Another point is that this skill is very confusing. He and Can Yan's appearance are too similar, and there is almost no difference. Most players can't distinguish between Blaze and Cannon when they are close range. Only at a long distance can there be a speed difference between the two, and the speed of the flame split is several times slower than that of the residual flame.

"That's what happened." The bitter love half-life and others understood that basically, Lu Yang used the split cut and the Yan Yang mask with the fire resistance ring to push the target beyond 10 meters, which is equivalent to the target bearing 10 Attack of the second sun mask.

“Sure enough,” Zhou Tianming said.

Lu Yang looked at the second skill.

Destruction Cannon

Type: Fire Spell

Consumption: 1 million magic

Distance: Close

Description: Delay the bursting skill by 1 second, centering on itself, sending out a heavy explosive shell that can cause huge damage to the creatures within 30 meters around (intelligence * 3), and stun the target for 5 seconds and collapse. A distance of 20 meters. Note: Ignore magic immunity, cooling time is 5 minutes.

This is the second special skill that Lu Yang has gained after Lie Yang Boxing. The extraordinary cooling time represents super control and physical attack power, which can cause great damage to the target.

This is also one of the skills of continuous strokes, or the initial skills of continuous strokes, or the ending skills. With this skill, Lu Yang is not afraid that someone will fight close to him, especially against special occupations such as thieves and shamans.

Lu Yang said to the crowd, “I will go in and look at it and try to find some special ways of playing.”

He didn’t tell the truth, but he did the same. He hit more than 1 million points for the first time. Obviously, he knew the bug long ago. He didn’t want to make people doubt.

“It’s great to be over 600,000 points,” Xia Yuwei said.

Everyone nodded, apparently they also thought that Lu Yang could not hit more than 1 million copies for the first time.

Lu Yang entered the game again, playing for a whole day, waiting until the next morning, playing again, and he and others came out of the game, watching everyone asking: "How about, what is special? Did you play? "

Zhou Tianming said dejectedly: "The highest is more than 600,000 points, which is still based on the same type of killing, but the level has not been able to go up, only 9 levels at most."

The White Lion said, "This is also true of me."

Tianyao said: "This is how I look, this is very difficult."

Lu Yang looked at Xia Yuwei and Liang Yun, and they all shook their heads, saying that they had not found a solution.

"Upgrading is too strenuous," Liang Yun said.

"Boss is good, but it is difficult to get points. Why is there no green staff?" Sun Yu said, scratching his head.

Lu Yang watched the crowd and said, "Show me the video I played, by the 6th level, level 14."

Everyone: "..."

Zhou Tianming's mouth widened, and he couldn't believe it and asked, "Boss, I reached the 9th level at the end of the eighth level. You were 14th level at the end of the fifth level?"

Lu Yang nodded and sent the video to the crowd, saying, "Yeah, there is a complete set of gameplay here. If you want to score a higher score, it's easy. I'm too lazy to work hard, and I've risen to the 14th level, otherwise You can rise to level 17 before the final boss. "

“Let me see.” Zhou Tianming couldn’t wait to open the video and watched it. When they saw Lu Yang’s residual blood to 1 block, the heavy infantry burst out of the gold statue and upgraded the scepter, they were all speechless. Watch it.

“This can be found.”

“Boss, what do you think.”

“You can fight like this.”

“Intentional blood.”

...

It took them more than half an hour to watch the video and they exclaimed for half an hour.

“I’ll send the video to my brothers and let them play like this,” said Zhujiu.

If tens of millions of players in the Jagged Brothers League can get this video, then the strength of Jagged Brothers League will be further enhanced, much stronger than other players.

Lu Yang said: “Don’t worry, first send the video to the commander’s level and the 100,000 reserve forces, others will not send.”

“Ah?” The White Lion was puzzled.

Lu Yang smiled and said, “I’m going to use this to dig a step to the sky. I want him to continue stealing our secrets.”

Everyone understood.

Zhou Tianming scratched his head and said, "Boss, but even if we sue him in the future, we will not cause him much harm. At most, he will go to a detention center and will not be sentenced."

Lu Yang said with a smile: "You'll know after a while."

The people shrugged their shoulders and went to work separately. Players above the head of the Iron Brotherhood were the 100,000 people currently working in the studio building. As for the newly joined 20,000 people, there was no room for them. Lu Yang chose to work in his own home, and at the same time the salary was lower than the official, but the players did not complain, but instead highlighted the height of the studio.

At present, players in the studio are struggling with mini-games, and they want more than 600,000 points to get valuable skill books, but few people can exceed 600,000 points.

As soon as Lu Yang's video was released to them, the players of the Jagged Brothers League went crazy and went to do their own tasks. They quickly got a lot of skill books to fill the loopholes in which they did not have skills after level 130.

Pei Zicheng as the head of the group also got the video, but according to Lu Yang's request, he did not immediately report the incident to Deng Tiantian, but waited for Deng Tian to come to him. As for the reason, Lu Yang suspected that someone in the studio had been bought by him. Already.

After Lu Yang arranged all of this, he quit the game and took a rest. After a day, he took the bodyguards such as black and white, and white lion, Zhou Tianming and other masters who participated in the final to the plane by plane.

The hotel has already been arranged. The favorite of black and white and other people is a country like Switzerland. You can openly hold a gun, so it is more convenient to protect Lu Yang.

Previously, black and white men arrived here to investigate the hotel where they stayed. After determining that there was no problem, Lu Yang and Black and White flew over.

The group lived in the imperial private room of the five-star hotel in Switzerland, not because Lu Yang liked to enjoy it, but because the private room and the glass are special, which can resist the attack of the * sniper rifle 1000 meters away. At the same time, this hotel There is no second 100-storey building within 1000 meters, so it is absolutely safe here.

In the evening.

Lu Yang asked the black and white around him: "Is there any news from Liu Jie?"

He shook his head in black and white and said, "The African Legion has been completely annihilated, no masters have participated in the offline finals, and there have been very few flights from Africa to Switzerland in the past month. Our people stared here for a month and found nothing. Suspicious person.

As for the underground black market, no one has posted it or received an order for assassinations from Switzerland. I believe we are safe this time. "

Lu Yang breathed a sigh of relief. He was most worried that Liu Jie would find someone to assassinate him, because the cost was too low. As long as he killed him, the Jagged Brothers would disintegrate. Xia Yuwei and Lan Yu, even with muddy wine and bitter love For half a life, I can't support such a big brotherhood.

"Continue to check and tell the brothers not to relax. If I can find the evidence about Liu Jie and his down, I reward him 100 million." Lu Yang said.

"Yes." Black and White said with a smile, there will be brave husbands under the reward, he believes that his staff will work harder.

At present, the families of all the mercenaries under Black and White are at the headquarters of the Brotherhood of Iron and Blood. Someone watched. Once someone's family left, Black and White could be sure that this person had defected and would kill them immediately.

So far, these mercenaries have not been penetrated by the enemy. On the one hand, they are intentional in black and white, and on the other hand, Lu Yangken spends money. This time he gives a high reward, which will make his mercenaries feel crazy.

Black and white went on, and Lu Yang called out to Qi Yun and asked, "Is there any news about Liu Jie?"

Qi Yun said: "Song Sisi and I carefully checked for a long time and still couldn't find any news about Liu Jie, nor did any African king or the elite players he recruited to open companies in Europe and the United States. Still hiding somewhere in Africa, but we don't know. "

Lu Yang is a little speechless. Now Liu Jie looks like him from the last life. I hid in the jungles of Southeast Asia. You will never find me. As long as he doesn't come out, Lu Yang will take him for granted.

"Continue monitoring," Lu Yang said.

In the early morning of the next day of the rest of the day, Lu Yang took everyone to the scene of the Swiss Finals. When their car just arrived outside, they received a warm welcome from nearly a million players.

"Goddess Yuwei, Goddess Yuwei, I love you."

"Lu Yang is invincible."

"The half-life fivesome must be the strongest five-man championship team."

"This year's Sanxiong must win."

...

The sounds of the players kept coming and going, which surprised Xia Yuwei, who was used to the big scenes.

“Why so many people, I didn’t have so many at the road show before.” Xia Yuwei said.

“It is estimated that there are millions of people, oh my god, are all coming to participate in this finals?” Bitterly loved and looked at the distant heads of people far away, and said in amazement.

Lu Yang looked at the real-time data on the laptop and said: “Official statistics, there are more than 1.5 million players who come to the scene, and only 100,000 have votes.”

“Halo, so many people.”

“It’s estimated that the Swiss government is stunned.”

...

Lu Yang smiled and said, “This is the charm of” Second World “. I heard that there are still players coming here. It is estimated that this will be a big party.”

The “Second World” of the previous life is like this, but not so crazy Lu Yang is estimated to be the effect of his rebirth, countless super guild-scale battles and countless national and world wars, Have taken this game to a new level.

Even a player who doesn’t like the game will be moved by the **** battle in the game and the subtle design in the game.

Inside the venue.

The organizers of Switzerland and Officials of the Second World are standing on the 17th floor sweating and watching more than one million players below.

“My God, I have informed the government and asked them to strengthen their police force. I dare not imagine what it would look like if there were any problems.” The general manager of the venue kept holding a handkerchief and rubbing cold sweat.

“The second world headquarters,” said Regal, “I didn’t expect that it would be so spectacular to have so many people.”

The elevator lights up and the door opens. Lu Yang, Xia Yuwei and others came to the 17th floor, and they just saw Legal and others standing by the window.

“Lu Yang, my brother, all blame you.” Regal Haha said with a laugh.

Chapter 1172 - Flame Control Competition

Lu Yang knew what he meant, and said with a smile: “You should thank me for that.”

Regal gave Lu Yang a big hug, saying: “Damn, you made me love and hate. You did a good job this year. Not only did you gain a foothold in the New World, you also won Li Rongde, Park Renyi, Tian Long, Liu Jie and the multinational coalition forces that have stepped up into the sky occupy the entire Northeast region, which is great. “

10% of the territory of the New World was occupied by Lu Yang, and it has firmly occupied for more than a year, proving that Lu Yang was successful, but they failed, made a map of such failure, and cultivated such a huge Power.

The Lu Yang family occupies nearly a 20% of the population of the entire New World, which is completely inconsistent with Regal and others.

“No way, my ambition is to unify the New World. You must not secretly set up obstacles for me.” Lu Yang joked.

Regal rolled his eyes and said jokingly, "We thought, but the master's brain is not under our control. I wish that you would get the most trashy treasure every time you hit a treasure."

Lu Yang laughed and said, "You have to do this, and see if I don't take all the Iron Brother Brothers players to your house to eat rice."

Regal pretended to collapse and said, "Then I can't stand it, I still don't do it, haha."

The two laughed again.

Regal asked, "How about, is there any problem in winning this year?"

"Of course there is no problem," Lu Yang said.

"Have you studied your opponents?" Regal asked.

Lu Yang shook his head and said, "No, no one can beat me."

This is his self-confidence as the emperor of the fire, not that he does not believe that other players can catch up, but that he finds that his consciousness is getting stronger and stronger, and the time that he can release the remnant flame is getting longer and longer, which has grown to the point where he hit with the remnant flame The extent to which people can be killed.

He talked briefly with Regal for a few minutes, and led by Regal to the competition rest area. This is a VIP room dedicated to Lu Yang, the last world champion.

"Boss, do you want to see your opponent's information, just came out." Tu Feng asked.

Lu Yang closed his eyes and shook his head, saying, "No, we just have to wait."

Everyone: "..."

On the other side, each player also got their battle order. Some people are happy and some are sad. One of the female players is very happy, as if they have got an excellent opponent.

“Kris, who is your opponent, so happy.” Asked a familiar male player next to him.

Kris said: “Lu Yang.”

Male player: “...”

Everyone around: “...”

“Beauty, come on, fight to defeat him, we hope you have a chance, maybe, uh, maybe win him.” A male player said extremely euphemistically.

Beauty Kris shook her red hair and said, “Of course, I can win. The purpose of my visit this time is to defeat Lu Yang.”

Everyone around: “...”

No one believed what he said, how strong Lu Yang was. In the half month of this competition, I don't know how many people studied the video of Lu Yang's game, but there was no flaw!

Lu Yang's fighting skills were not flawed in the slightest. Once he was hit, after a series of strokes, he died and blood was left. They could not find Lu Yang's flaws, and they didn't know how to fight. Therefore, they all prayed not to be in I met Lu Yang before the top ten, otherwise there would not be so many bonuses.

“Ding, Ding, Ding ...”

The alert sounded, and the official announcement came: “Please invite the first group of contestants to participate on the stage.”

Chris is the first group, that is to say, his first appearance against Lu Yang.

“Friends, look at how I defeated Lu Yang.” Kris cheered himself up and said aggressively to everyone.

“Come on.”

“Come on.”

“Come on.”

“We all support you.”

...

Others were moved by Chris’s momentum and shouted.

Chris walked out of the room in the cheers of the crowd and came to the stage. In the center of the stage, there are two fully enclosed game warehouses. Lu Yang on the left and Kris’s on the right, and host Du is standing in the middle. guest.

No one thought that the one who was able to host this game was because of the recent Chinese host Du Bin who walked with Lu Yang.

At this moment, he showed a proud smile. Today’s ratings have just gotten his hands. Before the broadcast, 10 billion people around the world are watching. This has exceeded the ratings of any competition. He has become China’s first One, no, is the world’s first host.

The stage was so big that he was so intoxicated that he saw Chris coming out, and excitedly picked up the briefing and said, “Welcome Redhead Queen Chris, our Queen.”

The audience cheered, and Kris waved around enjoying it.

Dubin said with a loud voice: “Kris is a fireman. In this year, he started from the arena and challenged all the way to become the strongest fireman in the United States. Like Lu Yang, he has a bloodline of avatars and is an extremely powerful player. “

The audience cheered again and again Chris waved his arms around, but at this time, the cheering of the audience suddenly increased by 2 8 degrees, and the venue of 100,000 people gave a deafening cheer, the sound seemed to be To make the ceiling of the venue vibrate, even Dubin almost couldn't help but cover his ears.

He looked over and found that Lu Yangzheng walked out of the gate on his left with a smile, and the cheers of the audience were to him.

Dubin also reached the highest point of excitement and shouted with strength. “Below, let us have a request, the first Chinese guild, the first national war, the Northeast King of the New World, the two-time heads-up world champion, Called the emperor of the fire by the players ———— Lu ~~~ yang ~~~! “

At this moment, the cheering rose another octave, the female players shouted wildly, and the male players fell into madness.

Lu Yang, a national idol, or a civilian idol, his madness made everyone crazy, from a small ordinary player to his luck and accidentally got the heart of the devil, and then he helped everyone with super high techniques The Grand Guild opens a copy to gain friendship.

Then he went to fight for justice and help the civilian players. Later, when he saw the Grand Guild 's chartering and leveling up, he bullied the ordinary players and murdered him. Then he angered the Grand Guild and was attacked, but he just went out.

When the casual players can't stand it, and they are angry and set off to fight against the grand prince, he leads the weak and weak casual players, and he wins one grand guild after another. Later, he establishes the guild, and then fights little by little. From From a fortress to a main city, from a race, to a country, to national warfare, to world war.

Every step taken by Lu Yang came out under the testimony of the whole world. "Second World" uses Lu Yang as a propaganda and tells every player that as long as you work hard, you can become the next Lu Yang, and this time However, Lu Yang won two world championships in the personal arena with an unbeatable advantage.

In this way, Lu Yang has changed from a civilian idol to a super idol that everyone looks up to. It is Lu Yang that makes everyone understand that playing games is not a waste of time and can make money. It is Lu Yang that lets everyone watch and play games. It is not a decadent life, but a place where you can realize your ideals.

Such things have established Lu Yang's status today. Even if he walks down the street, he is treated like a star, only when he is in the game city.

Once Lu Yang left Game City, no matter where he went, he would be photographed by countless people. Even in the car, there were girls chasing his car and yelling at him to give him children.

The major media selected the most influential people in this century. Lu Yang was the undisputed first. It surpassed the major scientists who won the Nobel Prize and astronomers who discovered new cosmic materials.

Lu Yang came to the stage and waved to the audience around him, saying, "Hello everyone."

"Lu Yang ~~~!" The screams resumed, and many female players fainted. The players around them quickly came to the scene to help the rescue.

Several hundred people passed out on the 100,000-person site.

Du Bin briefly introduced Lu Yang's life. He found that the players at the scene were too crazy and afraid of accidents, and said, "Two players are now invited to enter the game warehouse to prepare for the game."

Lu Yang smiled at Chris and turned and walked into the game warehouse. Chris watched the cheering of Lu Yang jealously, and turned into the game warehouse. He was a little bit worried, and Lu Yang turned her on her. The appearance turned a blind eye.

“Wait, I will defeat you in the game, I am the strongest fire mage.” Kris said with gritted teeth and put on the game helmet.

The light flashed.

Lu Yang and Chris were simultaneously teleported to a plain map.

The players in the field were exclaimed, and even Dubin couldn't help saying, “This is the favorite battle map of the fire mage. It can release the flames as much as possible. The two are the ultimate flame control ability.”

Inside the game.

Creole had a beautiful smile on Landing Yang. Instead of revealing her equipment, she wore a fashion dress. This was a young girl with long red wavy hair and fair skin, wearing a burgundy bohemian open-back skirt. With two sleeves with crimson edges, a flame ignited in her hands. An innocent little girl instantly became a little witch, and the audience was instantly impressed by her looks.

In reality, just now everyone has seen it. Kris is a very beautiful girl, and she is so distinctive in the game, she immediately gained a lot of fans on the field.

Lu Yang looked at Chris with a smile, and a blaze of flames appeared in his hand, saying, “Do you want to compare fire control with me?”

Kris nodded proudly and blinked his eyelids, looking so proud and playful, and asked, “Dare you?”

Lu Yang's smile was even greater, and he said, “The most scary thing is to play against a girl like you and win. I am like a big devil. If I lose, I am even more embarrassing.

With a bright eye, Kris said, “Well, isn't the grandiose dare to take the challenge of my little girl?”

Lu Yang said: "Of course I dare, but don't say I bully you, my ability to control the flame and understand the flame is far beyond ordinary people."

The so-called flame control power refers to a kind of fighting technique triggered by the fire used in the refining of pharmaceutical agents.

The fire mage condenses the flames into silks, controlling these silks to hurt the enemy, and the damage is not high, but when fighting with the fire law, they like to single out their opponents in this way and win, and they can get the ultimate cheers.

Battle begins

The flame in Chris's hand instantly turned into a 5-meter long thread, and then 28 consecutive threads appeared, all 5 meters long, twisted into a long whip.

"Snapped"

Chris throws a whip in the air, and the sparks of the red fire whip are beautiful.

"Come on, Lu Yang, let's have a high and low." Kris said.

Lu Yang was interested in being able to condense 29 strands of flame into silk and then entangled them, indicating that Chris was a master.

Players watching the game are all excited.

“Is there such a competition?”

“For the first time, it’s really worth it this time, it’s so cool.”

“This girl is so cool, I’m in love with her, come on.”

“I have never seen Lu Yang use this style of play. Can he do it?”

“It won’t capsize in the gutter, and be defeated by this girl.”

“How could he agree, and he won by hitting normally.”

...

Players disagree.

Lu Yang couldn’t hear the players in the field. His eyes kept looking at the girl in front of him, saying: “You are strong, but far worse than me.”

His two hands burst into flames at the same time, and each of them suddenly became a silk thread, condensing 33 silk threads into two whips.

Chris showed a dignified look. He wasn’t able to change the whip with both hands at the same time, but she could only divide 14 shares by one hand and 15 shares by one, and each had 29 shares.

Lu Yang has 33 silk threads in each hand, which means he can condense 66 silk threads, which is twice as much as his.

“How about, do you still fight?” Lu Yang asked.

Kris said unconvinced: “Data doesn’t determine everything. Look.”

She flicked the whip and drew it towards Landing Yang. Lu Yang slammed his whip with his left hand and greeted him with the whip of Kris. The whip of the two met in the air and gave a beautiful spark, but the two None were harmed.

Kris took the whip while he was in the situation, but at this time, Lu Yang pulled the whip in his right hand, and Kris quickly ducked to avoid, then threw back a beautiful snake-shaped whip, and blasted towards the landing sun.

This kind of whip is the most difficult to defend. Unless you can aim his snake head, you will be hit by his whip. However, aiming at the snake head is easy to say and almost impossible to do.

A total of 29 strands of fire, even if Lu Yang can hit, Kris can suddenly divide the fire whip into 29 strands of fire and continue to attack the landing sun.

The biggest possibility is that Lu Yang’s fire wand only hit one hot wire, and he was hit by the remaining 28 strands of hot wire.

If you are new to this industry, you do n’t know how to defend, but who is Lu Yang, the master of Rebirth I, just watching the video of the master of I know how to deal with it, not to mention that he is an expert in this field.

There are two ways to deal with this. One is to escape and run away, but this makes Lu Yang shameful, and the other is the most beautiful one and the favorite one.

“Fire Lotus”

With one turn of Lu Yang's left hand, the 33 strands of hot wire twisted apart suddenly, interspersed quickly into the form of a fire lotus flower in full bloom, and the flowers flew towards the flame snake-shaped whip.

That beautiful crimson fire lotus immediately raised the atmosphere of the field to a level, and everyone was watching the fire lotus nervously.

Chris had also thought about how to crack this snake-shaped whip. She ran away, so when she wanted to come, Lu Yang would also run away. She had already designed it, and the moment Lu Yang ran away, The right-handed fire snake disappeared, replaced with a left-handed snake-shaped whip to continue chasing Lu Yang. Once Lu Yang defended, she opened the snake-shaped whip and turned into 29 lines of fire to attack Lu Yang. In this way, no matter how she hit, she was the winner.

But she never imagined that Lu Yang turned out to be a fire lotus. Because this fire lotus in Lu Yang is very dense, it is the lotus formed by condensing the hot wires in his body. Therefore, the flower is as large as a 30 cm diameter Her shield is still impenetrable, even if her snake whip moves at a fast speed, it will surely hit the lotus flower.

“噤”

Kris didn't wait long for it, the Fire Lotus successfully hit the snake's head, the Lotus dissipated, and the Fire Snake returned.

“You lie.” Kris pointed angrily at Landing Yang.

Lu Yang laughed and asked, “Why am I lying?”

“You, you ...” Chris wanted to say that Lu Yang had no skills, but the fire lotus was condensed by Lu Yang with flame filaments, but not Pyroblast and Flame Cross, not skills.

Lu Yang said: “I don't have any skills. This is not a foul, but a more advanced flame control technique. You just haven't mastered it yet.”

Chris was annoyed by Lu Yang and said, "Isn't it just condensing the Fire Lotus? This must be a waste of mana. I can see how much you can condensate, flame gossamer."

The long whip in her hand turned into 29 strands of fire, and she shot towards Landing Yang. A smile appeared on Lu Yang's face. The flame whip in her right hand shot Kris first towards her.

Where does Chris dare to take Lu Yang's flame serpent whip to avoid it quickly, but she just evaded, and Lu Yang pointed at the position of Chris with his left hand.

"frog"

"Flying bird"

"rabbit"

"Horse"

"mouse"

Lu Yang's left hand was like magic, a blaze of flames appeared, and then a flame frog jumped out of his hand, and after jumping to the ground, ran towards Chris.

Another group of flames appeared and turned into a dozen flying birds. The lifelike flame birds spread their wings and flew towards Chris as if they were real.

Then came rabbits, steeds, and mice. As endless, they rushed towards Kris, and Kris, who was preparing to release her skills, was foolish to see this scene. She would also put such skills, which is equivalent to During the show operation, she found herself being shown by Lu Yang.

Chapter 1173 - Lu Yang outbreak

Players watching the game were stunned to see this scene.

“Can Fire Mage still play like this?”

“Don’t you know? Every profession is okay, but it is very difficult to achieve such a gorgeous effect, which requires a high degree of control over the ability of this profession.”

“It’s so showy, Chris wants to be more magically controlled than Lu Yang, so Lu Yang shows it.”

...

In the live room.

The host of each country did not know what to say, but could not stop cheering. The lifelike animals were not only simulated with flames, but also given their ability to act with magic values. The control reached an extreme.

On the court.

Kris has been able to think about how outside players should cheer for Lu Yang and how to laugh at her, and the extremely angry Kris face is a bit distorted.

“Filament Needle Rain”

With her left hand pointing in the air, a blaze of flames flew into the air, and then the whole burst out, turning into countless flame needles falling rapidly from the sky, and the sky's crimson flame needle rain opened the mouth of cheering players. .

As soon as Lu Yang's eyes lighted, he did not expect that Chris had reached the third level of fire control. The first level was the ability to freely release. The second level was to precisely control the flame energy, which meant that the spell could be accelerated. The third level was Flame deformation, this level of proficiency is used to allow players to instantly switch skills when casting quickly.

However, Chris's level is still too low. Lu Yang has already reached the fifth level, which is two levels higher than her.

“Paper umbrella”

Lu Yang's mouth spelled out, holding his left hand upwards, and transformed into a paper umbrella made of flame. The shape of the umbrella was lifelike, and the support of each umbrella had a detailed illusion.

The flame needle rain scattered from the sky fell on the small animal, and the low-level frog was stabbed once and then dissipated. The rabbit was 2 times, the flying bird was 3 times, and the steed was 6 times. The oil paper umbrella did not show signs of blurring until the twelfth time, but at this time, the flame needle rain in the sky was over.

Kris looked at Lu Yang in disbelief and said, “How can your transformed umbrella be so resistant?”

Lu Yang laughed, continued to pay attention to the energy of the paper umbrella, and embodied the umbrella, saying, “It's my attack, you need to hold on.”

“I'm afraid of you?” Kris showed a whip in his hand.

Lu Yang smiled at the corner of his mouth, and his left hand oiled umbrella pointed at Chris.

“Flame Needle Rain”

The oil-paper umbrella began to blur from the tip instantly, and turned into numerous fire needle rain blasting towards Chris.

Chris thought that Lu Yang was about to release a lotus flower, but he didn't expect it to be a flame needle rain, and immediately made him helpless. He rolled to the left to avoid it, barely avoiding the flame needle that flew over the front, but he just got up, and Lu Yang's The umbrella swept across, and it was another flame rain.

Fortunately, Chris is a master. At this critical moment, he took advantage of the tumbling opportunity to reorganize the flames in his body and turned the whip into a large shield of flame to protect his whole body.

"Bang bang ..."

Countless flame needles hit the shield with a dull impact, but Kris has been applying a lot of flame energy to the shield, and it is no problem to resist the attack.

However, the laymen watched the crowd, the laymen watched the doorway, and the team masters who had been hiding in the dark, were standing in their teams and discussing.

"Kris is about to lose. The flame needle rain of Lu Yang is obviously higher than him. Such intensive shooting is much more harmful than shooting from the sky." Jinghong Guoying of the MY team said.

Next to his team member asked: "This Lu Yang timing is too good."

The wild wind of the NC team said: "If it is better than the fire method, no one in this world is better than Lu Yang. Fortunately, we are other professions."

The team members laughed.

The German team, the French team, the American team and other major teams are not optimistic about Chris, all gathered together to discuss.

Inside the game.

Lu Yang watched Kris's shield being carried all the time, so he couldn't tell the difference in a short time. He spelled it out in his mouth, and a flame appeared in his right hand.

"Taste my skill, the gift of Halloween-pumpkin fire ghost."

The blaze turned into a flame pumpkin that was not as big as a basketball, and there were weird human faces formed by a few holes in it.

Lu Yang pointed at Kris with her right hand, and the flame pumpkin flew out instantly. Kris felt bad when she heard Lu Yang's words, but she didn't dare to show her head. Once she showed her head, she would be attacked by needle rain. She immediately added Increased flame energy input.

"噫"

A fierce impact came, and Kris's flame shield was turned into a translucent state. The scary Kris quickly rolled and dodged, and the audience screamed again and again.

A smile appeared on Lu Yang's face. The flame needle rain on his left hand only fired above the middle of the paper umbrella, and one-third was not fired, and it could support for 10 seconds. His right hand lit another flame.

"Pumpkin Fire Ghost"

Another huge flaming pumpkin appeared in Lu Yang and ran into Kris.

"噫"

This time, Kris didn't hold it, the flame shield was smashed, and she reluctantly launched the flashing skills immediately and jumped 30 meters away.

But as soon as he landed, a flame of flames in Lu Yang's hands flew towards her.

“Thousand Birds”

The flame turned into hundreds of birds in midair, and flew towards Chris in all directions.

Where has Chris seen such skills, he suddenly became helpless, and could only desperately avoid, but was still hit by hundreds of birds.

Lu Yang and Chris played wonderfully on the field, but players outside the field couldn't understand the injury principle of the two.

Host Du Bin returned to his commentary position, and partnered with Tong Tong again during the gap between the two.

“Audience friends, you must be very curious about the skills of Lu Yang and Chris, right?” Dubin said excitedly.

Hitomi asked: “Yes, I have asked more than 500 million times online, and I am curious what kind of attack the two used, and how to settle the damage.”

Dubin Haha said with a laugh: “Then I will explain to you that the thousand birds just released by Lu Yang are just multiple versions of a Naruto bomb. Don't look at the number, but the damage is the same as Naruto.

The damage of the pumpkin fire ghost is the damage of a comet impact, which is not very high at a close distance of 30 meters, but it seems to embarrass Chris.

As for the flame shield and flame umbrella released by the two before, they are another form of flame shield, and the flame needle rain is just a copy of the flame rain. In fact, the two released the skills that are officially judged, but the shapes are different. That's it. "

Then the audience inside and outside understood it.

In the game.

Lu Yang looked at Chris and said, "How about, do you want to fight?"

Chris sighed. In fact, he had already lost when he first used the flashing skill. In the flame energy competition, either side first used non-flame energy or was hit by the flame first, even if he lost.

"No fight, my strength is not as good as you, and I give up." Kris took the initiative to surrender.

At this moment, the audience was quiet, and they were looking good, but Chris gave up, which made them all unhappy.

"what the hell."

"Keep fighting."

"Not enough yet."

...

In the noise of the players, Chris exited the playing field and Lu Yang won.

The two came out of the game room, and Dubin was standing in the middle at this time, watching Kris smile and said, "Interview Kris first, why did you fight for such a while, you chose to give in."

Chris said playfully: "The normal fire test method, our team has simulated many times. With my current strength, we can't beat Lu Yang, so I tried to compete with Lu Yang for fire control, but everyone saw it. I and him It's not the same level right now. If you continue to fight, you will just humiliate yourself."

Dubin was a little curious and asked, "How do you imitate Lu Yang?"

Kris said helplessly: "Our team's R & D department has developed an AI robot that simulates Lu Yang's fighting techniques. This year, after recording videos of all the games before Lu Yang, the strength of Lu Yang has evolved. I even connected this AI No robot has ever played. "

There was an uproar in the audience. Who could have imagined that there is such an expert behind Kris, who can develop such a thing.

"Thank you, please rest first," Dubin said to Chris.

Kris looked at Lu Yang and said playfully: "I will come back to challenge you tomorrow and wait for me."

Lu Yang laughed and said, "Okay, you are welcome to challenge at any time."

Chris is gone.

Dubin said to Lu Yang excitedly: "How can there be such a strong fire control ability."

Lu Yang said, "Exercise, keep practicing, and challenge bosses and lords. If you challenge for a long time, you will find that your flame control ability has become like this."

The audience applauded.

Lu Yang waved at the crowd.

Dubin asked with emotion, "I've seen it. The top 50 players this time, except you alone, the remaining 49 are all team players. What do you want to say about this?"

Lu Yang said: "Obviously, this game has changed from an ordinary virtual game to an e-sports game. There have been professional occupations to practice PK. They do not need to invest too much experience to upgrade and collect equipment. Dedicated logistics personnel are responsible, and there is no need to lead their hands to fight against monsters. This is their advantage. "

This is the fact that the strongest part of the team is that they have the support of big gold owners. These gold owners can spend money for their experience and top-level equipment. As long as they can win the game, they will be happy.

This has nothing to do with the benefits. It's just that the bosses like to play with this thing and are willing to waste the money. Just like American football, the bosses are discounting money.

Dubin asked: "Since they are so strong, do you think you can still win this year?"

Lu Yang smiled and said, "Of course."

"Why are you still so confident?" Du Bin asked with a smile.

Lu Yang said: "If you dare to single out the level 200 boss monster at level 140, you have this confidence."

On and off the field, tens of billions of spectators rallied collectively.

"True and false, level 140 singled out level 200 blame."

"Blow it, it's over level 60, it's still the top 200 lord monster in this game."

"It's too strong. No wonder such a big self-confidence. The fault tolerance rate of the 200-level lord monster is 0. Any mistake will be spiked."

...

The players are crazy, but the team and all the masters who want to challenge Lu Yang are scalp. Obviously, they can't single out the level 200 blame monsters. This kind of high fault tolerance rate is 0. They can't fight for a long time. bear.

Dubin took a long breath and said, "No wonder you are so strong."

Lu Yang smiled and did not speak. He was just modest. In fact, he singled out a 200-level demigod monster. That was the real difficulty. He was killed when he was hit.

"Please rest in the background and we will play the next game." Dubin said.

Lu Yang turned around and returned to the rest area. On the other side, some players have already prepared for this. This time, the wild wind of MY team played against Lawrence.

This is a spacetime thief of the madman's bloodline against the great druid of the bloodstream of the child of the forest. The spacetime thief of the madman's bloodline bursts out very high and can attack 10 times the physical attack. It can also be physical and add blood. In the end, Lawrence, the great druid, defeated the wild wind with a protracted battle and won the victory, which excited the audience.

"The annual competitive ranking before Wildwind was very high. It was seventh. I never thought I would lose to a little-known Lawrence. Who is this person? He didn't have any fame before."

"I don't know. Masters don't have to participate in the annual competition rankings. There are many hidden masters waiting to erupt at this moment."

...

The players discussed, and Wild Wind returned to the team, and said sorry to everyone, "I lost."

“It doesn’t matter, it’s not your problem. It’s that guy who fights too much. If he can resist, he can fight as much as he can. I will fight with you for consumption. This was something we didn’t expect before,” said the team manager.

Ye Feng said with a sigh, “This man has created a new competitive game. If he keeps playing like this, maybe he can win the championship, but if he plays like this, there will be nothing to watch.”

Lawrence’s play is very simple. When the druid class became a giant bear, the natural magic resistance was 35%, and the physical defense increased by 1000%.

Don’t look at Druid’s leather armor profession. After 10 times the armor is added, the same as the soldier’s plate armor, the main reason is that the health is increased by 50%.

This is a thick and thick blood shield, but Druid can also become a leopard form, stealth attack, and can also become the two treatment and control forms of forest elves and children of the forest.

In particular, the form of the child of the forest, although standing on land, the phoenix, who is not as good as the corpse, has air combat capabilities, but the child of the forest has more powerful control, such as a multiple thorn jungle.

This thorny jungle can release poison gas. He also has a special equipment-thorny armor, which reflects the damage. When the wild wind loses, it is lost in the opening game. When it releases 10 times the damage skill, it is countered by the opponent. system.

When he suffered the same damage, he bounced a pure damage from the wild wind. The bounce formula of the Thorns is that the damage to the target is the damage minus the armor multiplied by a factor, and the rebound damage is pure damage, ignoring the armor’s blood loss.

How high is the druid’s bear form armor? This move did not hurt the druid by 10 times the critical strike, but was bounced by wild wind and lost one third of his health. The first response medicine was given.

The duration of the Thorns Armor is 5 seconds. Lawrence is afraid to output when the wild winds, and launches the charge ability. After rushing forward, he becomes a child of the forest and backhands a multiple thorn jungle skill.

The poisonous gas that is released continuously causes damage to the wild wind every second, and the druid himself uses a blood-adding ability, and the health is restored to the full value. Then he hides, and you can't find him at all.

This game was played for more than an hour. 90% of the time was the wild wind looking for Lawrence. The rogue's range of attack skills was too small, resulting in he could not find Lawrence, but he was killed by Lawrence's poison gas. Yes, we can see how many turtles this person has.

The audience also watched an extremely boring battle, so that the official opened the next group of battles in advance in order to prevent it from being too boring.

The following five groups have been played, and he won the game!

Off the field.

Hosts from various countries are also commenting on the match between Wildwind and Lawrence.

"so boring."

"I'm asleep, don't blame me, I believe you don't like to watch either."

"Poor wild wind, obviously a top ten thief in the world, but encountered a druid who just didn't fight with him."

"What, it's over here, sorry, I've been explaining other games."

...

On the court.

Dubin originally wanted to interview Lawrence, but because the audience was angry, Lawrence had to invite him back to the room directly.

Lawrence didn't care at all. He was an opportunist. As long as he could win, he would do whatever he could.

“Boss, I'm promoted,” Lawrence said.

“Goodjob, now I have some confidence that you can succeed.” Liu Jie's voice came over the phone He has watched Lawrence's game. Although very boring, the effect is very good.

“I said, I studied all the information of each opponent, everyone has flaws, this time the competition, I am the champion.” Lawrence said proudly.

In order to win this championship, he deliberately washed the attribute points, and even all the original plus intelligence, has become a physical resistance double plus mode, that is, more blood, that is, the thickness of the skin, as for the attack, it is anti-jia plus flower poison, the remaining skills All used to escape and save lives.

Inside VIP room.

Lu Yang is discussing with the Tu Feng about the guild, because Lu Yang came out to participate in the game, one step up the sky and started to move.

In order to avoid war, Lu Yang let people spread the cheats he found for the mini-game clearance, which made Pei Zicheng immediately contact the one step ready to attack.

“Give him and let him settle down.” Lu Yang said to Tu Feng.

Tu Feng called his men, a mercenary named Blackbird, who is now responsible for guarding Pei Zicheng with Mo Long.

Chapter 1174 - Battle shocked

Every year when the competition season is reached, it is a time to annoy the Brotherhood of Iron Blood and Lu Yang, because the senior members of the Brotherhood of Iron Blood are masters of the arena. The perennial fighting makes them stronger than the masters of battle. Hundred battles, so each time the finals, the high-level strength of the Iron Brotherhood is the most empty.

This year is quite good. Some people such as Zhuojiu and Sun Yu have retired in advance and some have not taken the initiative, but even so, once a step-by-step sneak attack occurs, it will have a great impact.

“The information has been handed over to the sky, and it is estimated that he will not attack the idea of a sneak attack.” Morong called Tu Feng and said.

Tu Feng relayed to Lu Yang and said, “Would we like to report it one step to the sky now.”

Lu Yang shook his head and said, “It’s too cheap for him. I won’t spare this bastard. Go and find someone to write a press release. Just say one step up the sky regardless of the emotions of the Chinese people. Intent to sneak attack on the Iron Brotherhood during the final distracted us and let us Players from all over the country scold him. “

“Yes.” Tu Feng immediately called his public opinion department.

The matter Lu Yang said can be big or small, but to a small extent, it is just some conspiracy and tricks used in the fighting of the two guilds. But when it is big, it is to ignore the feelings of the Chinese people.

At this stage, the Jagged Brothers Alliance is a banner for Chinese players. With the Jagged Brothers Alliance and Lu Yang, the fire emperor, their waist bars are much straighter.

In the past, the championships have been won in the past. In addition to table tennis, all of China's competitions have lost. The host every time said that there is not much time left for the Chinese players.

Various competitions are always unable to obtain ideal results, so that various terms such as fear of Korea, fear of Japan, and fear of the United States have appeared. Netizens quarreled on the forum but did not quarrel with foreign players. Since Lu Yang, the game, No one can ever quarrel with Chinese players.

A Jagged Brother League and a Lu Yang have brought enough face to Huaxia players. Huaxia has not lost in either the competition or the national war.

If at this time one step to the sky wants to sneak attack and cause the Brotherhood of the Iron Blood to lose, then all of this responsibility is brought by one step to the sky, and the player's saliva can drown him.

Lu Yang said to Tu Feng: "We must strengthen publicity and prepare for our next step to send soldiers to laugh."

Tu Feng nodded and asked, "Boss, there is still a problem. If we increase the main city, we are afraid that we will not be able to control it."

The Brotherhood of the Iron Blood will soon face a very practical problem. The second batch of main cities will be established. At present, players are building 100-level main cities. Such main cities can support up to 130 maps.

Many of the players in the Jagged Brothers League and other players have been upgraded in Tianyuan God City, but this does not mean that they do not need a resting place above 130 in the New World.

If we continue to build the main city, judging from the current situation of the Brotherhood of Iron and Blood, only Lu Yang can pay for the building himself. There will be no more cases of others building it and he knocking it down.

If it can be built, it will not be so easy. Now Luyang has 51 main cities. If the second batch of main cities is to be built on the 140-level map, it will need to build another 51. Without wasting money, the defensive power needs to be shared half.

With the increase of player levels, players' ideas about the main city are getting bigger and bigger, not to mention others. Once dozens of small guilds have merged and attacked once and successfully smashed a main city, they will lose the Iron Brotherhood. Millions.

This is offensive, as well as defensive. Lu Yang pays wages to defense players in each of the main cities. To double the number of main cities that require defense, double the wages. These are pressures. .

Lu Yang is also thinking about this problem. He had only one main city in the last life, but there are so many in this life. If he wants to keep it and fight it out, there must be more ways.

“Dididi”

The voice of the intercom sounded, Lu Yang took a look, a smile appeared on his face, pressed the connection button, and said, “Cute queen, I finally waited for your call.”

The cute queen said proudly: “Haha, President Lu Yang, I just watched your fight, it was wonderful.”

Lu Yang said, “Don't you change the subject, you little girl, and hurry up and say, what's the matter, I have to play the game.”

The cute queen immediately put on a slimy voice and said, “Brother Luyang ~~ , I just want to ask for your help, you won't.”

Lu Yang asked, “What's busy?”

“That is, I want to take the next main city to heaven,” said the lovely queen.

Lu Yang smiled and said, “Then you go fight and tell me what to do.”

The cute queen said: "I can't beat them, and others don't know, I can see clearly. Your next step is to attack one step to the sky, and when he is destroyed, our little fish and shrimp must not have a way out. President Lu Yang, how can I surrender to you, and you give me some benefits. "

Lu Yang didn't expect this eccentric little girl to be so bold and dared to make such an opinion with him, saying: "The courage is not small, let me think about it and give you a reply in a few days."

"Thank you." The cute queen hung up the phone excitedly. She knew that Lu Yang didn't directly reject her, she almost agreed.

On the other side.

Tu Feng heard Lu Yang's phone call and asked, "Do you have an idea to support the cute queen?"

Lu Yang said: "Besides the situation, the game is not a live war, the cost of the rebellion is too small, we must first ensure our own safety during this period."

Tu Feng nodded and said: "There is still a period when President Steig of the German Chariot Association is about to defeat the dozens of city masters. It is estimated that results will come in the past few days. If Steig wins, He will eat away all German guilds within a month and become the most powerful force in the region. "

Lu Yang laughed and said, "Steg lived up to expectations. After all, you still have a high game. Don't underestimate him. He is easy to imitate me and settle directly with these dozens of guild leaders. Merge some of them into him. In the guild, at that time, he will be able to start a war immediately. We must be prepared to cause him some trouble, or he will easily join one step to reach us.

Everyone nodded.

"Boss, why don't I lead the team tonight and attack him once," the White Lion asked.

Lu Yang shook his head and said, "Don't waste time on them. You can rest assured that the game is up to me."

A small Steiger did not bother Lu Yang. Although Steiger had created a very large and strong German guild in the last life, but this life was different. He met Lu Yang early, Destined to be a tragedy.

Not only him, but also Renault in France, Qadhafi in Saudi Arabia, and North Africa. If Lu Yang wants to, he can set up a long snake array and sweep them all.

Broadcast: Please prepare for President Lu Yang, you will participate in the competition

Lu Yang stood up and walked towards the field. The first round of the battle was over. Lu Yang's opponents also won and lost. A Chinese player won the game. The name was Jinghong Guoying. It was also the team.

When he just called someone, he watched the video of the game and got a general understanding of Jinghong Guoying.

Back on the court again, the deafening cheers reappeared, leaving a smile on the corner of Jing Hong's mouth standing beside Lu Yang.

Du Bin said: "The two are Chinese gamers, it is very convenient to communicate, I don't know what Jinghong Guoying wants to say to Lu Yang."

"Chairman Lu Yang, please take care of it." Jinghong Guoying said with a smile.

Lu Yang smiled and asked, "Do you mean this step on your behalf or yourself?"

Jinghong Guoying showed an embarrassing look on his face. He didn't expect that Lu Yang investigated his details so clearly. Before the previous step, Deng Tian and Lu Yang were in the field for a diplomatic battle. The lion, the tiger and the three men did not dare to confront each other, which made him extremely annoyed. Therefore, he spent a lot of money to invite Jinghong Guoying to participate in their guild activities.

However, this matter is very confidential and has not been talked about yet. Lu Yang knows it now, proving that the Brotherhood of Iron Blood has a very good understanding of Deng Dingtian.

“How did you know?” Jinghong Guoying asked with a smile.

Lu Yang said, “I have a chance to tell you.”

Dubin and the audience were on fire, and it was unexpected that two enemies met. Such a scene was the most interesting.

“Come on.”

“Kill the opposite.”

“Resentment, kill him.”

...

Dubin saw the atmosphere at the scene was almost the same, and said to the two: “Please enter the game warehouse and prepare for battle.”

Jinghong glanced at Lu Yang with a smile and said, “Chairman Lu Yang, I hope to play a wonderful game with you, don’t let me down.”

Lu Yang said without looking back: “You are not qualified to say this sentence, only the younger generation.”

Jinghong’s expression was stagnant, watching Lu Yang’s back showed a hint of jealousy, and stepped into the game warehouse.

The light flashed.

Lu Yang appeared in a circular arena. This is a arena of hard land. This is very beneficial to the thieves. When they are invisible, they step on the ground without leaving a trace of shadow.

“President Lu Yang, it looks like luck is on my side.” Jing Hong Guoying appeared proudly 50 meters away from Lu Yang.

Lu Yang smiled and said, “It’s just fairer, you think more.”

Unless it is a water world battlefield, that battlefield will not appear here, because what is required here is fair.

“Then try it.” Jinghong Guoying disappeared invisibly.

System prompt: The game is about to start, countdown

Start

The light flashed, the battle started, and Lu Yang stood still. The arena was 200 meters in diameter. He could not easily attack until he found the opponent.

Although Lu Yang has a high level, the horrified shadow he faced is also a mad templar, who hides himself in the void, unless he comes out or is attacked by a spell, he cannot be found.

This is also a revised version based on the previous issue. Among many changes, the stealth of the space-time thief is no longer unattackable, but has become magical and physical attacks, only when he walks on the ground. It is a state of nothingness, leaving no trace of traces on the ground.

The change on Lu Yang's side is that his pure water bottle is forbidden to be used in the battlefield. This thing is too buggy. It instantly increases the damage of the water mage by 50%, which does not meet the original intention of the battle.

The third change is that Lu Yang's clone blood, once the clone appears in the map, will not be teleported until the end of the battle.

Lu Yang has three avatars, that is, if one is summoned, he must stay in the field. When he can teleport before, the player with avatar blood will teleport the character with less blood, leaving a **** one. Then a **** one came back, which was not in line with the fair mechanism.

Therefore, Lu Yang does not dare to summon avatars easily now. It is difficult to equip one character, let alone equip two characters. This is why Lu Yang has not summoned avatars until now.

One is not needed, the other is to worry about overturning in the gutter, but there is a fair mechanism in this game, that is, Lu Yang has used the forbidden spell and the secondary forbidden spell. Once entering the new round, all the skills are cooled down.

If he wants to, he can now release the secondary forbidden spell and the real forbidden spell to play the shocking shadow. When the forbidden spell is released, the spell is taken for too long and it is easy to be attacked.

Now not only can the heart of killing the gods hit 10 times the crit, but an assassin with a madman's blood can also hit 10 times the crit. This damage is too high for Lu Yang to bear.

Some thieves are lacking in morality. I only hit you with 10 times the crooked throat, hit the shield immediately once, and waited for the next crooked throat to cool down after stealth.

The cooldown of this skill is very short, only 1 minute, that is, every other minute, the space-time thief can sneak attack once, because the cooldown of stealth is only 30 seconds.

In the previous battle, Wild Wind wanted to use this trick to beat Lawrence, but did not expect Lawrence to be more turtles, and bounced back to him. This sentence Lu Yang believed that Jing Hong Guoying must have learned that lesson and would not easily appear.

But he didn't know that Lu Yang had no Thorns Armor at all. Thorns Armor was a skill that was released through a badge.

Lu Yang wore the emperor Yupei, which was used to avoid an attack. Similarly, he could avoid the damage of the red twisted throat. This directional skill can be avoided once. Therefore, Jinghong Guoying wanted to hit Lu Yang. Use one of the other skills first.

Among all these skills, one of the madman's skills is relatively cool, called a grapple, he can fire an energy hook to hook the target to his side. This skill is the one that breaks Emperor Yupei.

Not all directional skills of the emperor Yupei in the game can be cracked. Such strong control skills can break the magic skills of the emperor Yupei.

Not only can Lu Yang be pulled over, it can also cause damage. The main thing is that during the pull, Lu Yang cannot escape.

Once pulled to the front, Jinghong Guoying can launch a series of halo skills. The mad thief has a shadow dance step, and Lu Yang flashes out. He can immediately follow up. Once he is entangled in the shadow dance step, follow a kick. You can let Lu Yang passively silence for 5 seconds, plus if the opponent has a purple lotus staff, Lu Yang is silent for 10 seconds by a space-time thief of a madman's bloodline.

Lu Yang didn't want to take risks, so he leaned his body against the wall on the south side of the arena. This would ensure that no one could sneak attack from behind him, just observe the three directions in front of him.

Jinghong Guoying has been looking for opportunities, but when he saw Lu Yang leaning on the wall for the first time, he knew that he had to use a grapple to break Lu Yang's emperor Yupei.

"It's okay, I have a purple lotus staff. Once you succeed, you're dead." Jinghong Guoying decided to try it. Even if he didn't try, Lu Yang would launch a forbidden spell, so he came out on his own. .

"grapple"

10 meters away from Lu Yang's side, an energy claw formed by a black light shot at him, at this moment, the audience screamed.

Lu Yang saw the claw for the first time. In his opinion, the speed of the claw did not open at all, and he had enough time to react.

"flicker"

Lu Yang's white light flickered, and he jumped to the side of the left side behind him who showed the figure of Jinghong.

"The Sun Fist"

Lu Yang hit Jinghong Guoying's body with a punch in his left hand. Jinghong Guoying immediately flew up and was blown out 20 meters away, but in midair, Jinghong Guoying disappeared.

"Resistant Fire Ring"

Lu Yang's body flashed a violent red light, but he failed to hit anyone. He predicted the mistake and thought that Jinghong Guoying would come to attack him, but he did not expect Jinghong Guoying to dare to attack, but hid.

20 meters away from Lu Yang's right hand, Jing Hong had a look of fear on his face. He didn't expect that it was only 10 meters away. Lu Yang could still react so quickly. It was less than 0.4 seconds. Response time, even Lu Yang escaped.

Fortunately, he responded quickly, otherwise he would be killed by a set of combos from Lu Yang. Now he is only beaten by the fierce yang punch, and still has nine tenths of his blood. He can still fight against Lu Yang, but he Need to think of a new countermeasure.

Coincidentally, Lu Yang gave him an excellent chance to fight back, because Lu Yang had just used the fire resistance ring and could not be released again within 30 seconds, and Lu Yang's control skills were missing by one ~ [www. mtnovel.com](http://www.mtnovel.com) ~ can let him launch an attack.

“Shadow Dance”

Lu Yang was walking towards the wall, only to find a black light flashing behind him, and Jinghong's shadow appeared, and two daggers were inserted towards Luyang's neck at the same time.

“Yan Yang Suo”

There was a red light coming from Lu Yang's body. When the dagger was about to hit Lu Yang's neck, the nine red-golden chains would control Jinghong's shadow, but when the chains appeared, they were lifted by a white light. That was The role of the badge.

No more than the emperor Yupei, the badge needs to be manually opened to be released, but although Jinghong Guoying dismissed the skill, Lu Yang took a step forward with this moment of stillness, while returning a magic shot.

“Fire Snake Bondage”

A fire snake trapped Jing Hong's shadow that had just broken the flames.

"Damn, shimmering light." Jinghong Guoying yelled, his body glowed with nine colors, and then the light disappeared, and he became magically immune.

Chapter 1175 - Repeated moves

"flicker"

Lu Yang's body suddenly burst into a white light, at the same time, Jinghong Guoying, who had just used low light, showed a purple lotus with a finger on her left.

"silence"

Purple light and white light both light up on Lu Yang's body at the same time.

On the court.

Du Bin, who was explaining, suddenly shouted, "Cheat trick! Lu Yang just lied to Jinghong's skill to see if it succeeded."

In the arena.

60 meters behind Jinghong's body, a white light flashed, and Lu Yang appeared. At the same time, there was no magic on his body.

On the court.

"Pretty." Dubin yelled fiercely.

The audience was immediately ignited by this roar, everyone shouted excitedly.

“Pretty.”

“Master, Fire Emperor, Fire Emperor.”

“Fire Emperor.”

...

The cheers of the audience, even with the game room closed to the soundproof environment, still allowed Lu Yang to hear the sound outside the court. He looked at the opposite side in a stunned state, and said with a smile, “You lost.”

The purple lotus staff has a cooling time of 2 minutes, and the shimmer duration is only 10 seconds. After 10 seconds, it is time for Jinghong to die.

“I didn’t lose.” Jinghong roared.

Lu Yang spread his hands and said, “Okay, you can try to kill me. You can’t kill me within 10 seconds, I must kill you.”

After the audience in Lu Yang’s words, they started screaming countdown.

...

Where is Jinghong Guoying able to kill Lu Yang without being banned from magic, he directly admits to choosing stealth.

“Cut ~!”

“I’m so excited ~!”

“Despise you.”

...

The sound of players’ countdowns turned into a sound of taunt.

There was a sneer on Lu Yang’s face. The mantra in his mouth, the utterance of each note, was like Hong Zhong Daluo, which caused the adrenal hormones to rise.

“Great Ancestor of Fire ...”

When Dubin heard the mantra for the first time, he shouted, “It is a meteor fire rain. Lu Yang wants to release a large range of meteor fire rain, forcing Jinghong to appear. The venue is only so large that his meteor fire rain can be spread Over half the field, Jinghong Guoying just didn’t run away, he can’t hide. “

The standing position of the two is against the wall on the south side of the venue. The radius of Luyang’s meteor fire and rain is 100 meters without the bonus of the demon heart, which can cover half of the entire court.

In other words, he only needs to throw his skills at a position 10 meters in front of him to be able to protect himself and hit Jinghong too.

And Jinghong Guoying wants to run 100 meters in stealth within 8 seconds, the possibility is very small, even if he can run out, Lu Yang takes another big move, he will definitely show up.

If you are hit by the next meteor drop, it will faint for 10 seconds and you will die!

If Lu Yang releases the magic flame and burns it out, this is a 2,000-meter skill in the audience. Jinghong Guoying has nowhere to escape. At that time, Lu Yang can burn to death by the curse as long as he escapes, so, Jinghong Guoying only attacked Lu Yang while he had less than 2 seconds left.

“Time Killing”

A roaring sound sounded behind Lu Yang, and a blue light pierced the body of Lu Yang.

“Ice Guard”

Lu Yang’s body turned into a huge ice cube.

The first blue light hit the ice cube, followed by the second and third ... The twelfth, in just 3 seconds, Jinghong Guoying released the ending skills, appeared in front of Lu Yang, his face With an unwilling expression.

“How do you know that I will chop time and space?” Jinghong Guoying asked, standing 10 meters away from Lu Yang.

Frost Guard is Lu Yang’s last life-saving skill. It is useless to fight against time and space thieves. Residual flames are useless. No matter where you jump, time and space thieves have a flashing hunting skill. This skill must follow hunting. Can not be used on open space, this is also the biggest limitation of space-time thieves.

Jinghong Guoying just bet that Lu Yang will not release the ice body easily. As long as his first puncture hits Lu Yang, he will have a stun ability of 0.5 seconds. At that moment, he will release the time and space chaos and turn to A kick kicked Lu Yang’s abdomen, and silenced Lu Yang for 5 seconds, but he

never thought of it. As soon as he released his skills, he was correctly judged by Lu Yang, released the ice protection, and interrupted him. skill.

Lu Yang waited for the state of the refrigerator to stop coming out of the ice cubes after 7 seconds, and looked at Jinghong's shadow with a sneer and said, "Guess."

"Remnant Flame"

A reddish light flew towards Jinghong Guoying as soon as Lu Yang's voice fell.

"Escape The Dagger"

Jing Hong Guoying dare to let Lu Yang get close, launched his last escape skill, flew the escape dagger at a short distance, and flew towards a distance of 100 meters.

But the moment he threw the escape dagger, Lu Yang threw the escape dagger as if he had the ability to copy.

All viewers at the scene and all viewers in front of the TV were instantly ignited by Lu Yang's operation.

"Pretty, pretty, how did Lu Yang do it, throwing the escape dagger when using Yan Yan, almost at the same time as Jinghong Guoying, prejudgment, this is definitely a prejudgment, he will be shocked. All of Ying's thoughts were completely correct, Jinghong Guoying was in front of Lu Yang as if there were no secrets. "Du Bin shouted frantically.

The audience and the audience cheered at the same time, just at this moment.

"flash"

"flash"

Jinghong Guoying appeared at a position of 55 meters in an instant, holding an escape dagger in his hand, but at the same time, Lu Yang appeared at a position of 56 meters. His body still had a red light from the residual flame, and his left hand was a little scared. Shadow of the head.

“Flame Shock”

A group of flames struck Jinghong Guoying’s head and stunned him for 2 seconds. This time, Jinghong Guoying no longer had any escape skills, and could only be exported by Lu Yang.

“Meteorite Impact”

A crimson meteorite with a diameter of 1 meter fell in the sky, hitting the body in the middle.

“172000”

Lu Yangfa injured more than 1.27 million, and hit only 170,000 injuries on Jinghong Guoying. It can be seen that Jinghong Guoying must be wearing the same 160-level sub-artifact equipment. If this is the case, his blood volume must exceed 7 million.

A thief has such attributes, comparable to a 130-level defense!

The audience originally thought that Jinghong Guoying would be taken away by Lu Yang’s set of skills, but they could see the damage that Lu Yang hit, but they felt that Jinghong Guoying had a chance.

“The defense is really high.”

“There is indeed a team, and the father of the golden master behind him is really powerful.”

“I want to be a professional too.”

...

In the discussion among the players, Lu Yang was not affected by the slightest shock of the shadow magic resistance, and the spell was spoken in his mouth.

“Resistant Fire Ring”

Just now he deliberately waited until the end of the skill in the ice cube, that is, waiting for the 30-second cooling time of the resistance to the fire ring, and now the cooling has just completed.

A reddish ray erupted suddenly from Lu Yang’s body, collapsing the still-wake Jinghong shadow back, just being crushed by the falling meteorite.

The damage mode of the meteorite impact is to crush the damage after landing and divide it by 2 health every 0.5 seconds.

“86000”

“86000”

...

Jinghong Guoying was blasted a distance of 10 meters, which was equivalent to 20 crushing injuries, which killed him 1.72 million.

Normally, every player and the mage will have a life-saving skill to avoid the impact of meteorite, because this skill is too buggy, especially the fire method like Lu Yang, it is completely a second person’s skill.

“Flame Storm”

After a delay of 0.5 seconds, Lu Yang chanted a spell after releasing the resistance ring for 1 second. Jinghong Guoying had just stood, and a black ripple had already been placed at his feet by Lu Yang.

“boom”

The huge ray of flames will swallow the horror, a 172 thousand damage burst from the top of his head, and stun for 2 seconds.

“Destroy the Sky”

Lu Yang pointed the staff with his right hand at the sky, and a crimson flame flew into the clouds, and then he read the spell in his mouth.

“Remnant Flame-Activated”

A cluster of crimson light and shadow bands teleported 10 meters backward from the landing sun.

“Earth to Earth”

The ground fire soared just after a delay of 1 second, and a cloud of flame fell in the sky. It was the ability to destroy the sky fire, and it hit the head of Jing Hongyingying.

“344000” (Critical Strike)

Jinghong just woke up, just about to start the space-time dance step behind Lu Yang, but was followed by the release of the ground fire into the sky.

“Flame Cross”

A high-speed spinning flame cross in the middle of the stunning body that just flew to the highest point.

“678000”

The Fire Cross is an intellectual attack. Lu Yang has more than 670,000 intelligence attributes, which can cause such high damage.

“Remnant Flame-Activated”

Lu Yang jumped back a distance of 10 meters in an instant and read the spell in his mouth.

“Earth to Earth”

The second flame flew when Jinghong Guoying just landed, hit Jinghong Guoying to the sky, and killed 670,000 blood.

“Comet Impact”

A reddish comet flew towards the location of Jinghong’s shadow. The comet’s attack speed was slow, and it would fly for 1 second from 50 meters.

“Remnant Flame-Activated”

Lu Yang jumped back a distance of 10 meters, and the mantra was spoken again.

“Earth to Earth”

When Jinghong Guoying landed for the second time, he was hit by a comet.

“1017000”

Jinghong suddenly lost a large amount of blood, just fell to the ground, and then suffered a burst of flames flying, and lost more than 670,000 blood.

At this time, Jinghong Guoying had been killed by more than 5 million Qi and blood, leaving only less than 2 million blood.

“Remnant Flame-Activated”

Lu Yang jumped back a distance of 30 meters and read the spell in his mouth.

“Comet Impact”

A comet with a diameter of 1 meter bumped towards Jinghong Guoying. At a distance of 100 meters, it just hit Jinghong’s body that just landed.

“3390000” (5x critical strike)

Jing Hong’s life was beaten to 1 point, and he fell to the ground!

System prompt: Lu Yang won the game.

The audience was completely crazy.

“The emperor of fire, the emperor of fire, is worthy of being the emperor of fire, the audience prejudices, the audience prejudices the attack, none of them are directional, all of them are prejudgments. How to do it.” Dubin shouted frantically.

Starting from pre-judging the purple lotus staff that escaped Jing Hong’s shadow, Lu Yang was all anti-judgment all the way to the attack. In such a disadvantageous situation in the early stage, he predicted all the skills to be released in Jing Hong’s shadow. He was resolved one by one.

Then when Lu Yang attacked Jinghong, each skill was a non-directional skill in free mode, but a skill to predict the way of attack.

The flame storm is pre-judgment, the flame cross is pre-judgment, the ground fire is pre-judgment, and the meteorite impact is also pre-judgment. The subsequent comet impacts are all pre-judgment. When Jinghong Guoying did not have any evasion skills, he was lured by Lu Yangyi. How powerful it is to take a set of predictive skills away.

What is called pre-judgment is to calculate his position in advance of the enemy and attack him. If there is a slight deviation or a problem with time, Lu Yang cannot hit him.

Especially for the delayed burst skills such as Earth Fire Soaring, it erupts in 0.1 second. If Lu Yang is a little ahead of time, and the Earth Fire Soaring out of the sky can't hit anyone, the effect will be that you look at the flame burst To, but it will not cause the flying effect and damage.

But every skill released by Lu Yang is so confident, he knows for sure that he will be able to hit, in addition to absolute self-confidence, which is the long-term practice that gives him confidence.

“Fire Emperor”

“Fire Emperor”

“Fire Emperor”

...

The audience was already crazy. The audience stood up and shouted the words “Fire Emperor” to call Lu Yanghuan. When Lu Yang stepped out of the game room, the cheer reached the highest level. The eardrums of many people feel uncomfortable.

Inside the live room.

The British commentator said with a sigh, “This is crazy. This game makes it impossible for any Premier League to reach. English fans don't blame me. When you see the madness on the field, you will know that I don't have lie.”

The American commentator was screaming again and again: "I ca n't believe it, I ca n't believe it. This is a cheer from an e-sports player. Oh my god, neither the hottest rapper nowadays nor the former Emperor 's Song. Such a scene. "

The Spanish commentator said: "I bet that Lu Yang's set of accurate predictive attacks was more difficult than the bullfighter defeating the bulls. With a slight mistake, Jinghong can fight back. It is too beautiful."

...

There are beautiful words and praises everywhere. This one-on-one absolute heads-up match makes everyone admire Lu Yang's strength. Obviously, Lu Yang is invincible!

On the court.

Lu Yang stepped out of the game warehouse and felt the crazy cheers and dazzling flashing lights. At this moment, he was all fascinated. This is the joy and admiration brought by victory to rely on strength, which is his greatest affirmation.

"Thank you." Lu Yang beckoned to the players around.

Jinghong looked at this scene in frustration, and under the signal of the staff, he gritted his teeth and left the stage.

Dubin held the microphone and asked, "How to play it so accurately, every move is controlled in a few seconds, and if you accidentally, you will be avoided by Jinghong Guoying."

Lu Yang said with a confident smile: "Practice, endlessly challenge the lord, and constantly participate in various wars. I can't afford to lose every step, so I try my best every step."

Dubin applauded, the players applauded, and in their hearts, a series of ripples.

“Please go back to the lounge first. This morning’s solo tournament is over. Please watch the five-player, three-player and double-player games,” said Dubin.

Players are already fascinated, Lu Yang is playing wonderfully, the big screen switch in the field, entered the five-player arena.

Lu Yang returned to the VIP room and just saw the bitter half-life and others who were about to go to war.

“Boss, it’s so cool,” shouted bitterly for half a lifetime.

Lu Yang smiled and said, “Come on, don’t embarrass me.”

“Boss rest assured.” Suffering half-life with excitement and dumb handsome guy left.

Lan Yu, Zhou Tianming, and others brought Lu Yang back to his seat. Lan Yu carefully pressed Lu Yang’s temple for Lu Yang. Although the recent battle was fast, the burden on consciousness was heavier than using a long-distance residual flame. Every time he made a prediction, Lu Yang burdened his consciousness to the greatest extent.

“Good.” Lu Yang said with pleasure.

Lan Yu spat out her tongue at Landing Yang, and said, “I’m still poor at this time, and take a good rest.”

Lu Yang smiled and nodded.

Zhou Tianming and White Lion stood and watched Lu Yang and Lan Yu sigh.

Who would have thought that the chairman of the Jagged Brothers Alliance, the single-handed invincible Fire Emperor, countless girls in the game and outside the game ca n’t wait to give him a big star, has

countless super-rich people, but is willing to be taught by Lan Yu, and He didn't dare to speak back, and still showed such a happy expression.

Such affectionate and innocent men make Zhou Tianming and others ashamed. They can't do it, but Lu Yang can give them a very good example. Such a boss is impeccable in terms of personal morality. In addition to studying And obey, without any other thought at all.

Here, Lu Yang and Lan Yu have been happy and happy, and their brothers have a deep affection for the White Lion.

"Damn, I can't think of Lu Yang getting my bottom line out. There must be a traitor around me. Check it out." Deng Tiantian said to his cousin.

"Second brother, rest assured, I must find out this inner ghost." Toshima Mingyue said.

Stepped to the sky without speaking, he was doubting his men, even the cousin around him. After all, Lu Yang was too rich, and it was normal for him to buy through.

Liu Jie.

Lawrence was in the box purchased by Liu Jie in the game, recalling the battle that had just landed in Yang.

Liu Jie and others are solemn.

"I can't think of Lu Yang's explosive strength, which is stronger than before. It seems that he didn't use all his strength in front of it said deadly and stared at the screen.

Liu Jie looked at Lawrence and asked, "How?"

Lawrence said: "His reaction speed is really fast, but it is only 0.3 seconds faster than me. My profession is Druid. These 0.3 seconds will be offset by my Xiongde resistance. He can't kill me."

Liu Jie was unconvinced. He didn't quite believe that Lawrence could win, saying: "Do your best to win. If you win, the bonus will double."

With a bright eye, Lawrence smiled and said, "It must win."

"You go down and prepare." Liu Jie said.

Lawrence dropped out of the game and began to cultivate energy.

Park Renyi said, "Should we take this opportunity to fight the Jagged Brothers Alliance and cause some trouble for Lu Yang?"

Liu Jie shook his head and said, "There is still a Steiger between us and Lu Yang. In the current state of Steiger, anyone who used to declare war against him will be madly attacked."

Chapter 1176 - Lu Yang

Now Liu Jie reacted. Lu Yang gave Chieftain Fortress to Steiger for free. Steiger stopped in the middle. Liu Jie wanted to hit Lu Yang, but he couldn't.

What about Steige? He also felt that it was difficult to ride a tiger. Do n't want this main city, indicating that he was afraid of Lu Yang. It was a matter for him to unify the main cities of Germany. Wait for the offensive line.

In addition, there are also many players in the Emirates Fortress to upgrade nearby, and can make a lot of money, he can not give up if he wants to give up.

There was another Liu Jie who did not say that there was Zhuojiu dumping and his masters guarding the Tianjian Fortress. Liu Jie could not enter. He had fully realized the horror of Zhuojiu. This is a grown-up that can stand alone. On the one hand, even as a player of the Super Guild.

“Upgrade as soon as possible, let’s go for level 160 as well, let Lu Yang temporarily.” Said dead grass.

They knew from official officials that at level 160, their map and Lu Yang’s map would be connected.

On the court.

The game is still going on. The hard-loving half-life of the Jagged Brothers League led the five to win the game, and Liu Jie and other players frowned.

“Why did the Brotherhood of the Jagged Brothers win, did this guild bring together the elites of the world?”

“Not only is it hard to love for half a life, Tang De and Black Friday also won, both are brothers of the Iron Blood.”

“by.”

...

No one imagined that this year was the year when the Brotherhood of Brotherhood broke out. Among the top 50 players, one tenth was a member of Brotherhood of Brotherhood. On the first day of the competition, all brotherhood of Brotherhood Win and advance to the top 16.

That night.

Lu Yang did not celebrate, but just let everyone rest and relax. The official did not rest. Several photos of Lu Yang were released in succession. One of them was an umbrella made by Lu Yang holding a flame, blocking the flame needle rain released by Chris. .

That picture was too beautiful. The beautiful Chris stood not far away, and the fire and rain fell in the sky. Lu Yang's umbrella made of flames was relaxed. The two did not look like a PK at all, but a couple.

The second is a scene where Lu Yang uses a flame to transform into a lotus attack. Lu Yang holds a lotus in his right hand and looks very handsome.

Players already adore Lu Yang very much, and the downloads of these pictures instantly broke the highest value in history and were treasured by many players.

Early the next morning.

Lu Yang took the team to the playing field and saw these pictures as soon as he was on the game. He just smiled casually and ignored the past, saying, "Let's exercise for a while while there is still some time in the game."

"Yes." People who loved half-life and White Lion entered the arena to exercise their skills.

When Lu Yang was preparing here, the players in the field were already full. After yesterday's exciting game, everyone believed that the game in a few days was more exciting, especially the personal battle on Lu Yang's side, which was far more exciting than other aspects. battle.

"I'm really curious how many minutes and seconds Lu Yang can spend today." A player asked curiously.

"Don't talk nonsense, today's opponents are not so easy, the master of the United States, a evil magician, is quite difficult."

"is it hard?"

“You didn’t watch his game.”

Players shake their heads around.

The player said proudly: “The evil magician is very strong in the current version. Although the pure output is inferior to other spell output, his control skills are very many and it is difficult to get entangled.”

Evil magician, there are only 8 control skills, which are Shadow Wave, stun the enemy for two seconds; Fear, control for 4 seconds; Group Fear, 8 seconds; Summon Hellfire, stun for 2 seconds; Succubus Control, 8 Second; Doom, 15 seconds; Shadow Rage, 4 seconds; Demon Control, 6 seconds.

Not to mention other attack skills, these 8 control skills alone are enough for the opponent to be upset. If there is a purple lotus staff or thorn armor, plus the summoned hellfire, succubus, war guard, etc. Beasts, nausea can kill a lot of players!

“I rely on that, it’s pretty interesting. I thought Lu Yang could easily win the championship.”

“It’s not that easy. There is no weak person who can reach this step. Look at it. Lu Yang is easy to follow. This American player has a chance to win Lu Yang.”

...

Players are talking.

Inside the VIP room.

White Lion and others are discussing the enemy with Lu Yang.

“Boss, this evil magician is not easy to deal with. I have fought with him in the arena before and I am a master.” White Lion said.

Lu Yang smiled and said, "It can make you think you are a master, and you must have beaten you."

The White Lion smiled and scratched his head, and said, "I haven't beat him alone."

Zhou Tianming said: "I also lost."

Lu Yang said: "Professional issues, his control skills are relatively restrained Paladins and warriors."

White Lion said: "It is mainly the doomsday judgment skill. In the arena, you can control a player for 15 seconds. Even if there is invincibility, it can be destroyed by the doomsday judgment. Then he will release a series of burst skills. It's annoying. "

Lu Yang nodded, indeed. A vicious magician with blood must have the skills of doomsday judgment. Once released by him, it is equal to 15 seconds of Chen Mu's, allowing the opponent to fierce 15 seconds to fight back and survive. Then, the equipment of the two is definitely not a level.

"Let me help you teach him in a while," Lu Yang said.

"Boss, are you sure of winning?" The White Lion asked.

If it is a time and space thief, it is relatively easy to kill the magicians. It is the fire method of Lu Yang, they are not sure.

Lu Yang said: "Killing him is quite simple, this person is still a little reckless."

Teri, the famous evil magician of the last life, Lu Yang is an old acquaintance with him. This person has many advantages and strong strength, but he has an obvious shortcoming, too reckless.

Also, it is easy for the evil magician to restrain other occupations, especially the flight mage of the thunder bloodline, but he is a bloodline of avatars. There are 4 avatars in total. Even if the evil magician can summon 2 pets to participate in the battle, 4 people in Luyang can abuse him. And 2 Summoners are quite easy.

Big Horn: Player Lu Yang, please be in the preparation zone, the game will start soon

“I’ll pass first.” Lu Yang stood up and walked towards the door.

“Boss come on.”

“Boss come on.”

...

Everyone cheered for Lu Yang, showing how much they value the evil magician.

Lu Yang didn’t care, and walked into the preparation zone very relaxedly. It was the left gate of the stage, and on the right gate of the stage, Terry came up.

Dubin watched both of them arrive and shouted in a high voice: “I have invited two players to the stage.”

Lu Yang and Terry stepped onto the stage together. The screams and cheers in the venue sounded, and most of them could be heard for Lu Yang.

Dubin looked at Terry and asked, “What do you want to say to Lu Yang before the game?”

Terry is a blond 18-year-old American guy. He landed on his left finger and said arrogantly, “I must defeat you.”

Exclaimed the audience.

With a smile on Lu Yang's face, it was still Terry. It had the same temperament as the previous one, and it was the same annoying, but he was very suitable for this stage because he had the talent for acting and the provocation before the battle would make the audience excited. Degree is higher.

Dubin looked at Lu Yang and said, "What do you have to say?"

Lu Yang looked at Terry and said, "You are still a few years away."

Terry was about to come when he stared at Landing Sun, and made clear the trend of fighting. Fortunately, Dubin explained for a day yesterday. He had also seen Terry's information before and quickly blocked Terry.

Terry's muscles seemed to be unable to get over Dubin's body, but he sprayed Lu Yang across Dubin.

"You are a garbage. You are useless. You are doomed to fail. Today you lost. I want you to call my dad ..."

...

If you change to someone else, such as the grumpy white lion and others, you have already worked with Terry. Someone has previously fought with Terry. The reason is that Terry's mouth is too broken, not only the mouth of the game is broken. , The game is also broken.

He swears very little, mainly because it hurts people more. He likes to anger others and expose others to flaws, and then sneaks in to win.

At that time, many people were curious why people like Teri didn't need thieves or violent battles, or druids. They usually scolded people and rushed out when they got a chance.

Terry has not answered positively. He did not say the reason until he retired. His conscious reaction speed is 0.2 seconds slower than the top masters. This is very fatal. Therefore, he needs to use curse to find the opponent's weakness. The reason why he uses Warlock is because Warlock has a lot of professional control skills and long-range attack, and can ignore this 0.2 second reaction speed.

Everyone knows that on the one hand, Terry's scolding is a program effect, mainly because of his slow response. However, after he announced this incident, not only did he not get angry from the players, but he thought he was a real master. A gentleman who knows how to use all his strengths.

Because when it is not a game, Terry is dressed in a suit, and also knows how to make way for the elderly and for the ladies. Only during the game will he become another person.

At that time, Lu Yang and their group of top masters were the most disdainful of Terry. They always felt that the goods were two-faced, especially after Lu Yang returned to Southeast Asia to return to school. This item is a hypocrite.

Of course, this is also related to the previous hatred of the two. Terry no matter who it is, he will be angry, even if he is a player with a lower ranking, he will be more fierce.

Lu Yang also let him spray it. At that time, he was almost furious and almost fought with him. As a result, Lu Yang was too angry in the game and did not play the normal level. He was eliminated by Terry and then sprayed by Terry.

Since meeting this time, Lu Yang has been adjusting his emotions since he knew he was meeting with Terry. Now he has met. He is not moved by Terry's appearance, but responds with a smile.

No way, he is the emperor of fire, the previous two champions, he sprayed Terry, one is shameful, the other is holding Terry, to increase his exposure, two world champions and an unknown soldier on the spray, too Not suitable anymore.

Du Bin has been worried about Lu Yang's runaway, but he saw that Lu Yang was still a normal face, and he took a sigh of relief, and controlled Terry to say, "Please enter the game room and prepare for the game."

Terry scolded Lu Yang for a lot of words, but found that Lu Yang didn't care at all, which surprised him deeply, but he didn't show it on his face and turned to leave.

Lu Yang watched him turn away and took out the earplugs from his two ears. Suddenly, the scene burst into laughter, and even Dubin was amused by Lu Yang's actions.

In the live broadcast rooms of various countries.

"Ah, no wonder Lu Yang was not affected. He even wore earplugs."

"Ha ha ha ha, Terry met his opponent this time, and Lu Yang actually used him to fool him."

"I thought Lu Yang didn't understand English. He had earplugs."

...

All the commentaries went down with a smile, and the audience inside and outside were also laughed at by Lu Yang's move.

Terry was walking forward. Hearing the laughter of the players in the field felt wrong, he quickly looked back, but found that Lu Yang was walking casually into the game warehouse, which made Terry look suspicious.

Lu Yang continued to move forward without changing his face, went straight into the game room, lay down comfortably, and connected to the game through the computer on the back.

The light flashed.

Lu Yang appeared in a dense forest space. Seeing this place, Lu Yang's eyes suddenly widened.

"Beautiful, it turned out to be a forest. This is a place where I can hide my avatar." Lu Yang said excitedly.

"Summon avatar"

An avatar of the fire mage appeared on the side of Lu Yang. He looked around. The area of the map was 200 meters in diameter, and there were more than 20,000 towering trees.

The diameter of each big tree is more than 30 cm, enough to hide his fire clone, and there are many trees that are conjoined trees. The most obvious one is beside him, two big trees with a diameter of more than 30 cm. Together, the diameter became 60 cm.

“Buy mines.”

Lu Yang controlled the avatar and started burying mine. Then his body ran quickly to the left and forward, and he had heard Terry scold him there.

“Oh, **** Lu Yang, you are really a waste. You didn’t dare to come out and challenge me, dodging like a mouse and looking like a fool, oh oh, fool, oh oh ...” Terry began to rap Already.

Lu Yang came to Terry 50 meters away and looked at Terry and said, “I’m out.”

“Dare to come out now, you coward, you garbage, you waste ...” Terry was still rap, as if fascinated, sometimes with his head down.

Lu Yang was looking at Terry. Suddenly, he felt a wave 20 meters away from his side, and a smile appeared on his face.

“It’s so stupid to use this style of play.” Lu Yang shook his head and read the spell in his mouth.

“Lava Eruption”

Just 3 meters before the energy surge, a piece of lava appeared on the ground with a scream.

“Neighing ~!”

A stealthy helldog showed up.

Players in the field and the field at the same time exclaimed at the same time. At first, they thought that Terry scolded Lu Yang for fun, but he was not preparing for his sneak attack.

“How did you find out?” Terry asked in surprise.

Lu Yang said, “Do n’t use this ridiculous skill. It has no effect on me. There are rules in the game. You ca n’t insult my family. If you insult my family, you will be sentenced directly. It’s a trivial matter for all kinds of guild wars and national wars. “

In the embarrassment of Terry, for the first time, he found that his swearing skills were somewhat useless, but he thought for a while and said, “It is impossible, I have won the White Lion and Zhou Tianming from yours in the arena. You can’t make fun of me, you must be pretending. “

Lu Yang shook his head with a smile and said, “I still have to thank you. Without you, the White Lion would not grow so fast, and you can play as a defender. Your provocation has a lot of credit.”

Terry continued to be embarrassed and continued to rap: “You’re pretending to be less garlic, you must be mad at me, just pretending to be innocent.”

Lu Yang said: “If I can be scolded to win, I would have won the entire New World. Being a guild president is different from others. We need to have a calm head, because any of our decisions may cause Losses of millions or even tens of millions, or even hundreds of millions, if you have the experience of a super guild, you will understand what I say. “

A super guild, when I was in the old continent or a human war, how much was a fortress? Some people invested 100 million yuan.

At that time, the sword killed the gods. Because the fortress was lost, everyone collapsed. Sitting in the hall of the inner city of the fortress, watching each of the facilities he bought for a lot of money sold by the Iron Brotherhood, that experience, Lu Yang Never forget it forever.

In this rebirth, Lu Yang has so much rebirth experience, but why is he so cautious, that is, he sees too many losers. If he can be provoked by just a few words, how can he be called a fire emperor, Why would he get up every morning and start exercising before 5 o'clock in the morning? It's not so hard to make his body stronger and his spirit strong enough.

Terry does not understand all this. The enemies he encountered before did not have a super president. In all guilds around the world no one is a top master except Lu Yang. .

Lu Yang said: "Meeting you today is unlucky. Although your skills are all instantaneous, your skills have flying time. At the same time, you do not have flashing skills because you are an evil magician. You cannot approach I, trying to summon the beast has no effect on me, you give up. "

Teri is most afraid of such a top-level Lu Yang, who is not afraid of provocative masters. This is a difference of 0.2 seconds. Counting a distance of 50 meters is equivalent to 1.2 seconds. Such a long time, all skills Can't hit him.

To this end, Lu Yang also deliberately took the emperor Yupei and put it in his backpack, provocatively saying, "I can't hit you because I can't hit you."

There was an uproar in the audience, but they were not upset because of Lu Yang's strength, but they found that Lu Yang was also lacking in virtue.

Terry's face turned ochre purple, and he said angrily, "Don't you take the emperor Yupei, I will let you know how powerful I am."

"Shadow Arrow"

Live broadcast rooms in various countries.

“Haha, Lu Yang is too lacking in morals, even Terry is tricked, Terry is fooled, now he is dead.” The German commentator said.

“I can't believe that Lu Yang will play like this. It is indeed the chairman of the Jagged Brothers Alliance. He can flex and stretch, can be tough and understand conspiracy. Terry taunts Lu Yang, and Lu Yang now taunts Terry.” French commentator said.

“Haha, just now everyone must have clearly seen that Lu Yang summoned the miner to bury the mine. Now we switch to his clone and see how many mines he has buried.” The American commentator said.

Screen change.

Sixty meters away from the side of the battle between Lu Yang and Terui, behind the two conjoined trees, Lu Yang's * Master was standing next to him, and 4 mines were stacked.

“噤”

Lu Yang dropped the fifth mine.

“The data of Lu Yang's split damage is also a set of purple inflammation. One fire thunder is 670,000 damage. Now 5 are stacked. Terry's health is 6 million. As long as there are 5 more fire thunder, Terry is cited. You must die over here, “the American commentator shouted frantically.

The audience screamed in horror, and the sound went directly to Tyrrell in the game warehouse, but he thought that the audience was exclaiming for his offensive skills. He just called out Hellfire and smashed into Lu Yang, but he used it. Residual Flame skills dodged.

However, even so, Terry's face had already smiled, with the help of Hellfire and other high-end demons, he was confident to smooth out the 0.2 second reaction speed.

Now he just needs to use a control skill to stun Lu Yang, even if he wins, but this requires him to approach.

“Succubus”

Terry was proud of her right hand, and a demon beauty with black demon wings appeared in his look.

“If Lu Yang approaches 50 meters, immediately charm Lu Yang.” Terry ordered.

“I’m willing to help you.” Succubus walked to Terry’s side 10 meters away.

This is a fixed mode for the evil magician to guard against the instant burst of fire, summoning a succubus to hide not far, as long as Lu Yang dares to skip to put skills, he will let the succubus release the charm skills and control Lu Yang.

“Come out, war guards”

War guards with high magic resistance and high output drilled out from the ground. This is the backhand that Terry has just prepared and is also used to fight Lu Yang.

At the beginning, according to his conjecture, after Lu Yang was taunted by him, he would seek for a second to find his own place. In that case, Lu Yang would definitely launch the flashing skill and jump to the next to control the skill.

He arranged for the war guards to hide in advance. As soon as Lu Yang approached, he would launch war trample and stun Lu Yang. War trample is a range of magical stuns, not a directional skill. Therefore, he can also stun Lu Yang and break the emperor’s Defence, and then he in turn attacked and was able to take Lu Yang away.

But Lu Yang wasn’t fooled at all, and none of his previous back-ups were used. Therefore, he could only summon these people out, looking for an opportunity to lu Yang for a second.

“Why, can’t I hide it, is this just patience?” Lu Yang laughed, and he knew that Terry would do this for the damaged goods, and it turned out to be as gloomy as the last life.

“Hum, wait until you can endure my attack.” Terry pointed with his hand, and the war guard suddenly turned into a mass of energy into Terry’s body, and then Terry’s whole body was surrounded by the dark energy.

This is a unique skill of the Demon Blood Warlock. It has the same effect as Destructive Heart. It can devour his summoned beast and improve his ability. After successfully transforming, he will increase the blood of the war guard by 30% and the damage by 30%. The magic resistance is reduced by 30%.

The transformation animation time is also short, only 1.5 seconds, but the moment when black light wraps Terry’s eyes.

“Escape The Dagger”

Lu Yang threw out a faint blue light, and fell to the side of the succubus over a distance of 50 meters in 0.3 seconds.

“The Sun Fist”

The succubus was hit 20 meters away by Lu Yang’s fist and died directly on the ground!

“Oh ~~!”

The audience was exclaimed, they all knew that the succubus’ blood volume was only 2.5 million, while Lu Yang’s magical injury had more than 1 million, playing 3 times the magical injury effect, the succubus must die!

“Remnant Flame-Activated”

Lu Yang fierce backed a distance of 10 meters and just landed. At this time there were 0.2 seconds left. He punched his left hand on the ground.

“Earth to Earth”

The black light on Terry disappeared. He had just changed into the form of the Demon Demon. At this moment, his face was showing a proud look, and he was excited about his domineering look.

“Lu Yang, you lose ...” The words behind him didn’t wait to speak. He suddenly found that Lu Yang was not standing in the original position, but when he scanned the audience, he saw Lu Yang appearing 20 meters away from his side. At that time, he hurried back backwards, but it was too late, and suddenly a flame appeared at his feet.

“boom”

Terry was blown into the sky diagonally behind.

“665000”

In the audience cheering, Lu Yang launched his skills.

“Remnant Flame-Activated”

Lu Yang receded a distance of 20 meters and read the spell in his mouth.

“The Sun Fist”

Terry had just landed and was blown up again.

“665000”

Then Lu Yang said the spell for the third time.

“Remnant Flame-Activated”

He stepped back 20 meters away, reached 60 meters away from Terry, and read the spell in his mouth.

“The Sun Fist”

Terry was hit for the third time.

“Comet Impact”

Lu Yang pointed Terry with his staff in his right hand, and a group of red-colored comets smashed into Terry. One second before Terry landed, he was hit by the comet.

“2660000”

Terry’s anger was beaten. When he was in the air, he knew what was going on, but he faced the fire of sky, and there was no defense. This collapse skill was useless to crack the badge. Was crashed.

He could only wait for the landing to compete with Lu Yang. At the same time, he was very upset. Why didn’t he use the Devour ability at the beginning? He had to give Lu Yang this 1 second output time. So much blood.

Fortunately, his ability to devour is relatively strong, allowing him to have 11 million health and the effect of forcing a 30% reduction in damage. Now there are more than 5 million health left.

“Lu Yang, you still have a few control skills, continue to use it.” Terry mocked.

Lu Yang sneered at the corner of his mouth and said, "Look, I'm here."

"Fire Snake Bondage"

A fire snake trapped Terry in place, and Terry suddenly felt the slightest mistake.

"badge"

The fire snake disappeared from Terry's body, and a spell was spoken in his mouth.

"Shadow's Fury"

A cloud of shadows flew towards the landing sun.

"Remnant Flame-Activated"

Lu Yang jumped away to the side, and behind him, chasing a hellfire.

Terry knew that he should use a big move.

"Life Siphon"

A black-green magical energy rises into the sky, inflicting 100,000 damage per second to Lu Yang, and at the same time he restores 100,000 health to Teri every second.

Lu Yang knows that this skill has a duration of 15 seconds, and the annoying evil magician is here. He not only has summoning beasts to cooperate with attacks, but also has a lot of blood-sucking skills.

Players on the field did not understand that Lu Yang was going to win, but those who knew the evil magician's skills knew that this was just the beginning.

“Group Fear”

There was a howl in Teri’s mouth, which is a skill that players within 50 meters will be controlled.

A scared face appeared on Lu Yang’s head, and he was in a situation of walking around. At this time, he could not control his position and ran randomly.

“Ice Guard”

Lu Yang froze himself in an ice cube. This is the only skill that can be used after the group fear.

“Devil’s Circle”

A dark six-pointed star array appears at the foot of Lu Yang. This is an explosion destruction skill that can break ice cubes and stun players within 5 seconds.

“Remnant Flame”

Lu Yang launched his skills, and a group of crimson flames flew to the position of the two conjoined trees in the forest. The players screamed instantly. Everyone knew that Lu Yang was going to zoom in.

Launching the Residual Flame skill in the ice block cannot fly immediately, only when Residual Flame falls to the position can it be launched.

“activation”

Lu Yang turned into a red light and flew out of the ice block. At the same time, at this moment, Teri’s right-hand staff pointed at the residual flame.

“Doomsday Trial”

Lu Yang just appeared at the point where Can Yan fell, and his body was suddenly hit by a reddish light.

The system prompts: You won the Doomsday Judgment and cannot use the skills and items for 15 seconds.

“Oh ~, yes!”

Terry jumped up in excitement. He ran over towards the landing sun with a red face. That was the look of extreme excitement.

“Lu Yang, you were hit by my doomsday, you’re dead, the world’s first name will be mine in the future.” Terry said with a laugh while running.

Lu Yang watched a look of terror on Terry’s face, and said, “I can’t think of being overcast by you, I won’t just give in.”

As soon as the words fell, Lu Yang’s fire thunder mage placed another fire thunder behind the tree, which was already the twelfth.

The audience was crazy, and everyone stood up, staring at the screen with a smile on their faces.

Inside the live room.

“Ahaha, Teri is dead this time,” said the American commentator.

“Haha, it’s too wicked. Lu Yang deliberately said such a paragraph, too wicked.” The Italian commentator said with a laugh.

“I can already see the look when Terry was killed,” said the British commentator.

Inside the arena.

Terry didn't realize that Lu Yang was lying to him. He really thought that Lu Yang was hit by him. For fear that these 15 seconds would make Lu Yang hide in the forest. The speed of movement rushed over.

Lu Yang seemed to be startled by Terry, and for two seconds in the place, Terry ran into a distance of 20 meters, the distance between the two was exactly 30 meters, and this distance is Terry can Release the distance of fear.

If Terry is released, Lu Yang will definitely not be able to hide, because the movement speed of the body is not as fast as instantaneous skills. If you want to hide this skill, you only have flicker and residual flames.

"Fear ..." Terry's wand pointed at Lu Yang, but at this moment, Lu Yang turned and hid behind the two conjoined trees. Terry rushed back to recover the magic. He was in free mode, even if he lost his goal. Can continue to release magic.

"Hey, it's useless to hide. As long as I'm hit by my fear, my set of tricks can stop you." Terry chased after him with a big laugh.

The evil magician's output combo can hit a maximum of 17 shots. Fear receives the arrow of chaos, then throws the flame rain and connects the demon to control for 6 seconds. Then it connects with the death entanglement, the movement speed is reduced by 75%, and it changes hands to death embrace, resulting in 5 times intelligence. hurt.

Then drop another Corruption Seed, and then roll over the pain to stack 15 layers instantly, launching a critical strike, causing 4.5 times the intellectual damage, and finally throwing a demon arrow, which can deal a total of 17 million damage.

Lu Yang has more than 6 million blood. It is absolutely impossible to live with this set of skills, so Terry knew that as long as he turned this tree, Lu Yang would be dead.

"Deflagration sprint"

Terry launched a special skill to increase the speed by 50%, and rushed to the side of the two conjoined trees at the speed of 150% in 2 seconds. He knew that Lu Yang had no ability to cast spells and no melee ability. Therefore, he was not afraid of melee, so he turned around and came to the back of the tree, pointing his wand forward.

“Haha, you are dead ...” Terry just saw Lu Yang behind the tree, but what he saw was Lu Yang’s sneer with a mocking expression.

At this moment, Terry’s eyes widened, his cold sweat dripped down and said, “You called for the avatar in advance.”

A fire mage came around behind Lu Yang, and he said to Terry: “Children, you are too young, explosive!”

“Indestructible determination”

Terry had no time to shout a word and was swallowed by fire.

“Boom ~!”

During the violent shaking of the ground, a huge mushroom cloud rose into the air, and everyone saw a huge number of injuries.

“4788000”

After the fire, Terry appeared. He was not dead, but only 500,000 health was left.

“No death! No death! Terry is not dead! There are still fights in this game, Lu Yang did not win the final victory, no one knows who died.” The American commentator shouted frantically, just now he had announced that Terry was dead. But it suddenly reversed, making him scream in excitement.

The players are crazy, and no one expected that at this critical moment, Terry could still use the skills to reduce the damage by 40%.

Terry's face showed a crazy look. He looked at Lu Yang and cursed, "Fuck off, I'm going to kill you."

Lu Yang's body applauded and said, "Yes, unfortunately, you still have to die."

"What do you mean? You are less bragging there, you are dead, and the delay is useless." Terry said proudly after seeing that there were still 10 seconds.

Lu Yang shook his head with a smile, the avatar behind him suddenly appeared a white light and transmitted it to Terry, saying only two words.

"Self-Explosion"

In Lu Yang's laugh, another mushroom cloud was angry. At this moment, Lu Yang's residual blood became 1 point, and after the light at the position where Terry stood, there was also 1 point of blood left.

System prompt: Lu Yang wins the game

The audience was completely crazy at this moment, and all jumped up from their seats, waving their fists wildly and shouting.

"Pretty."

"It's so beautiful."

"Invincible."

"Haha, he blew himself up."

...

All the skills of the fire thunder mage were picked up by the player in the game. This is a class with 6 types of remote fire thunder, and also comes with a special self-explosion skill.

The effect of self-explosion is to cause the same amount of damage to the target as the current health. The Fire Thunder Mage is also a set of purple inflammation. The health is 6 million. Even if Terry has the immortal heart and the effect of swallowing the war guard, it can still blow 200. Thousands of health, Terry has only half a million left, naturally it is undoubtedly dead.

There is also an officially set mechanism for self-detonation. In terms of skill determination, the explosion first kills the other party, and then determines whether they are dead.

In other words, at that moment, Lu Yang killed Terry first, and then he died himself. Therefore, Lu Yang's body also has 1 blood left, but his 1 blood is the winning 1 blood. And Terry is the 1 blood left after failure.

Lu Yang was able to use this style of play, which was completely beyond the expectations of the players. It was thought that Lu Yang was going to kill Terry with a fire thunder, but when Lu Yang did not appear first in the tree behind Terry Time detonated, and when talking to Teri to give him reaction time, players were complaining that Lu Yang was big.

But when Lu Yang's avatar exploded with a jump knife in the past, this gorgeous scene made all players fall over by Lu Yang's play.

“It's so beautiful, it's too beautiful, and that's how firework should be played.”

“I want to use the fire method and the blood of the avatar too. This is invincible ~!”

“No one can beat Lu Yang, no one!”

...

In the cheers of the players, Teri stood up, he glanced at Lu Yang standing in the distance, and left the game without a word.

Today, he is shameful. He already wants to understand it. It turned out that when he tried to stimulate Lu Yang, he was deceived by Lu Yang.

When he scolded people in the early stage, Lu Yang hid behind a tree to bury a thunder. When he turned, Lu Yang punched and killed the last succubus who could save his life. After landing Luyang, he deliberately used the control skills. Without wearing the emperor Yupei, he frozen himself in the ice cube, and then was deliberately hit by his doomsday trial Using his eagerness to kill Lu Yang to gain popularity, hiding behind the tree will He smashed into residual blood, and finally jumped over with a fire thunder mage to kill him. All of this, from beginning to end, he was playing with Lu Yang, and he couldn't stand such stimulation.

The game bin opens.

Lu Yang came out of it, Teri went straight to Landing Yang, and Dubin and the two security guards were staring at Teri. Seeing this scene, the three of them had rushed up and took Teri immediately. Stop it.

“Dude, calm down, it's not terrible to lose, don't do stupid things,” Dubin quickly advised.

Terry didn't do anything, he tried hard to walk towards the landing sun. When he couldn't see it, he stared at the landing sun, and said with his left finger, “I will definitely defeat you next year. I will make you pay for today's things. “

Lu Yang didn't have any expression or action, just stood there, and said something that made Terry collapse.

“Your weakness is so obvious that you can never be among the top masters.”

Chapter 1178 - Annoying priest

"I have any weaknesses," Terry angered.

Lu Yang said, "You are 0.2 seconds slower than a top player like me."

Players were uproar in the arena and appearance.

Dubin asked in surprise: "How did you know?"

Lu Yang said: "My reaction speed can reach 0.3 seconds, but his reaction speed is 0.5 seconds, although it is only 0.2 seconds, but his movement is the same as slow motion in my eyes. As long as he raises his hand, I know what he is going to do? If I don't want him to hit me, every directional skill of him will be easy for me to avoid, so you can't do anything except to challenge me and make me calm. I pose a threat. "

He decided to tell Terry's boss. Such a swearing player is really not worthy of becoming a master on the second heads-up stage of "Second World". He is completely disgraceful to this game, and his behavior is disgusting to other players. It is not something a person under the spotlight should do to curse himself.

Terry panicked. He didn't expect that Lu Yang only played one game with Lu Yang and was exposed by Lu Yang. He said, "No, I don't, you bullshit, nonsense."

Lu Yang said, "I don't need to say more. You will never be among the top 100 in the world next year. Even the top 100 in your country will be difficult to enter. Goodbye."

Du Bin understood Lu Yang's meaning, and asked the security guard to pull Terry out. Along the way, Terry yelled, but it had no effect on Lu Yang.

Many people in the audience watched Terry's game all the way. In retrospect, it was found that Lu Yang was telling the truth. Suddenly, the game of Terry's game had a disdain.

"It turned out to be a poor player."

“I thought he was playing high. He turned out to be a curse.”

“I’m boring, look down on him.”

...

Whispering in the audience made Dubin in the front row clear, he said excitedly: “It is indeed the emperor of fire. In a game, you can find out the details of the opponent. I believe that top players will not be stopped by Terry in the future. Bewildered by the abuse, he couldn’t cross the 0.2 second gap. “

The atmosphere inside the court was ignited by Dubin again, and players shouted Lu Yang’s name.

“Please take a break from Lu Yang and wait for your opponent to win.” Dubin said.

Lu Yang waved around the stage, turned around and walked back to the VIP room. While on the road, Terry even waited there with a look of anger.

“Lu Yang, I’ll kill you.” Terry rushed towards Landing Yang.

Black and white suddenly appeared from the side, hitting Terry’s jaw with a punch.

“噤”

Terry fell to the ground on his back, and the security guard who responded rushed forward and dragged Terry out. The other two security guards saw the cold sweat on their faces.

Black and White frowned and asked, “What security measures are you guys doing, and how can Terry, who has just been defeated, wait here?”

A Swiss security guard said in a panic, "We don't know if he will be bad for Lu Yang."

"Does he still want to say thank you to me? Do you want to ruin the reputation of" Second World "? If tomorrow's report is that the defeated player is unwilling to lose, revenge the opponent and put the other party in the hospital, is that OK?" Asked, staring at the two security guards.

Everyone knows how famous the "Second World" is. If this reputation is ruined, the work of the two will be over.

"Oh, Mr. Lu Yang, I beg you, I know it is wrong, you must not let us lose our job." A security guard said with a pleading expression.

Another security guard also pleaded with Lu Yang.

Lu Yang looked at the black and white, and the black and white understood it and said, "Follow me to find your security captain and the person in charge of the event. Explain this in detail."

"Yes."

"Yes."

The two followed Black and White and left.

Lu Yang returned to the VIP room under the **** of other bodyguards. White lions and bitter lovers were waiting for Lu Yang. When they saw him back, they stepped forward to congratulate them.

"Boss, have you seen it, the official finally gave the first prize, saying that it is anger skills and flying carpet. We know what this anger skill means." Xia Yuwei asked curiously.

Lu Yang's eyes lit up and he said, "Is it definitely an anger skill?"

Xia Yuwei nodded with the White Lion and others.

Lan Yu took out the tablet and found the introduction on the official website, which said the rage skills of the third prize of the contest.

As for what anger skills are, there is no introduction, which makes everyone very confused.

Lu Yang said: "Concentrating on preparing for the game, control skills will help a lot in the future."

Rage skills, baby things, the so-called rage skills are that after the attack and being attacked, you will get the rage value. The normal attack is to give 1 rage, and to be attacked to 2 rage. Unleash basic rage skills.

The significance of the anger skill is that the damage is 5 times the normal attack, and one hit is equal to 5 hits, and this skill is instantaneous and has no delay effect.

If the rage skills are released, the final legendary equipment copy production method should also be released later, which has a lot to do with the rage skills.

Everyone couldn't figure out their heads, but when they heard Lu Yang said that, they knew it must be precious and they paid more attention to it.

"Boss, look at the current video of the individual game. The winner of this game may be the priest." Tu Feng said.

Lu Yang looked at the big screen in the room, where a player who was playing in the same group as Lu Yang was being broadcast live. He has now entered the quarterfinals, and the enemies in this group are separated. Lu Yang knows his eighth final. Who is the opponent?

"Are you very optimistic about that priest?" Lu Yang asked. On the court, there was a priest and a fanatic spatiotemporal.

Tu Feng said: "In the previous game, this madman thief played very aggressively. The victory was within 5 minutes. The priest played every time for about 50 minutes to determine the winner."

"50 minutes !?" Everyone was a little surprised.

Tu Feng nodded and said, "This priest is too turtle. This is a ninja turtle that can compete with Lawrence."

Lu Yang smiled. He asked with some interest: "Tell me about it."

"Okay." Tu Feng smiled, and said, "This priest is a priest in skywrath, but the bloodline chose the blood of the demon."

Among the holy professions, there are blood of demons. This is the blood of a very disgusting person. The number of beasts is chasing the warlock, but the second turn is the word of the priest, and the attack is very strong.

"No, with these two bloodlines, he should play mainly offensively." Sun Yu asked.

Tu Feng said: "In the beginning, players thought so, but the monster he called was a thorn bird, with a thorn aura, and he was wearing a heavy armor. He would rather walk like a tortoise, but also improve defense and magic. anti."

The game does not stipulate what equipment a player can only wear, even a mage, can also wear plate armor to improve defense, but the official has set that if the mage wears plate armor, the movement speed is reduced by 80%.

"Then why is he fighting with people and can't walk?" Asked bitter love for a long time.

Everyone was curious.

Tu Feng said: "The most hateful is here. His play is very simple. He stands against the wall, puts a sacred shield on his body, and is beaten."

"Eh ~!" Bai Lang said, "How come you still suffer?"

Tu Feng said, "You think, he can't move in heavy armor and can't fight with others. He can stand against the wall. The thief cannot hit his back. The front is under the protection of the plate armor, only the neck is Weaknesses can be protected by a sacred shield. Even if the neck is cut, it is not a weak point attack, but a shield and armor defense.

In short, this is an unusual way of playing. The priest can release himself skills, be immune to toxins, not be damaged by toxins, not vulnerable, and rely on shields to resist attacks. At the same time, there are thorn bird Thorns aura, bounces 10,000 damage per attack.

Rev. Skywrath also has a shield damage rebound ability. Each attack bounces a fixed 8000 damage, which means that each time he is attacked, he will be bounced by 18,000 damage.

Not to mention other players, the madman bloodline space-time thief, who is best known for the strongest melee outbreak in the field, stood in front of the wall and opened the shield, and a series of attacks beat him, only to be defeated The opponent's 500,000 health.

The sacred shield can resist 2 million damage, and the cooldown is 30 seconds. That is, the opponent will open the sacred shield every 30 seconds.

When there is no shield, Rev. Skywrath is so hard to carry the output of the Zealot space-time thief, protects his neck with both hands, and squats on the ground. When the other party attacks, he is beaten and crouched on the ground with his head and beaten Similarly, the audience watching it laughed.

The attacking zealot is also happy, but he can fight and fight. The time and space thief finds that he is wrong. His health is rebounded more and more by the aura of thorns, especially his split skill, which lasts 15 seconds and causes 3 per second. Thousands of injuries.

The priest dropped 30,000, he dropped 10,000, but the priest squatted on the ground not only squatted on the ground. He also used the Holy Aura skill to add blood, and a Holy Aura added more than 700,000 blood.

After a fat meal, 30% of the blood was left to the priest, but his blood was only 60%. He immediately turned on the purple lotus staff and silenced the priest for 5 seconds.

“badge”

The priest would rather use the badge that was not used for vertigo, this time, use it gently, and the silence is lifted.

“Heart of Holy Healing”

A stream of green blood added numbers to the priest’s head.

“540000”

“540000”

...

The gangsters are stunned, and said silently, “Brother, what are you doing?”

The priest’s arm holding his head revealed a seam, and his smiling face appeared, saying, “It’s okay, brother, just fight, brother can resist.”

The audience burst into laughter, and the players laughed crazy. The players outside the stadium also heard this sentence through the live broadcast room and laughed crazy. At this moment, tens of billions of people around the world laughed.

“No, I can’t take it anymore, this pastor is so funny, and there is such a fight with people.” An American commentator was holding his stomach and laughing hardly.

In the VIP room, Xia Yuwei and Lan Yu couldn’t help laughing.

“This man is too bad.” Qing Qian Zimeng said.

Lu Yang said: “Obviously this guy wants to rely on the rebound to kill the thief. As long as the thief can’t kill the priest in one stroke, the priest’s blood-adding skills can quickly fill up the blood, and everyone notices that he hasn’t Taking medicine proves that he has sufficient confidence in his skills. “

“What about the thief?” Lan Yu asked.

Lu Yang said: “One way is to be more tortoise than the priest. You stand against the wall, and I won’t hit you. I hide behind and wait for you to come out, and see who can’t stand it, whoever loses.”

“When will it hit?” Said White Wolf.

Lu Yang said: “If you want to win the championship, you have to be prepared for any kind of opponents. Don’t panic, don’t mess. After all, this is the finals. All kinds of masters have his bottom line.”

On the court.

The thief player went through another round of output, leaving less than 30% of his blood. He reluctantly retreated to 10 meters away, took out a slow blood recovery potion, and sat down to wait for the blood to return to full value.

The priest held his head still and waited for more than 10 seconds before shrinking his neck and slowly raising his head. When he saw the thief taking medicine in the distance, he asked, “Well, you are not going to fight.”

“I beat my hair and hit you again, I’m dead,” said the thief, depressed.

The priest also took out a slow blood-returning potion, squatted there and ate it, and under the expression of the thief's gaze, he ate while saying, "Brother, let's not tell you, brother, I am a famous master in our server, Known as Taro Yamaguchi. "

The thief had a black line in his head.

On the other side, in a guild of the national service, thousands of players sat together and laughed.

"Hahahaha, finally someone has experienced our pain."

"This **** is finally lacking internationally."

"Wow haha, I gave him the nickname Taro Yamaguchi. I can't do it anymore. Let me laugh for a while. My consciousness will be disconnected from the server."

...

Obviously, this priest is a national player.

A thief interrupted the priest's blood with a dart and cursed, "I will not talk to you, you are not allowed to take medicine."

The priest's upper eyelid was horizontal, and he said, "You won't let me eat, and I won't let you eat, the Holy Light dart."

Divine Shock, instant attack skills, can not be avoided, is a skill that adds blood to the player, can also be used to attack, the damage is the result of halving the magic damage.

"150000"

“Your uncle, I fight with you.” The thief was depressed, his blood was only half increased and he was interrupted by the **** in front of him. He rushed up and was a fat meal again.

The priest hurriedly clasped his hands around his neck, lowered his head, and let the other’s dagger fall on his helmet, making a jingling sound.

“Well, unfortunately, the priest needs a staff to support the magic wound, otherwise I will carry a shield for you to hit casually.” Said the priest.

The thief was almost vomiting blood, and the audience burst into laughter.

“Echo of Light”

An instant skill is put on his body by the priest, and heals the health every three seconds, which is 40% of the current intelligence.

When the priest’s health is below 50%, any magic he recovers will increase the critical strike chance by 60%.

The priest who is not high in critical strikes has an instant critical strike chance of more than 70%, and almost every skill is inevitable.

“Surge of Light”

The priest added an instant skill to himself. Within 2 minutes, any of his next skills less than 10 seconds will become instant. This means that his most powerful blood skills— -Sacred Prayer, which can be used instantly, and restores 3 times the amount of health as magic damage.

The thief was suffocated and found that his blood was less than 40% again. He suddenly flew backwards, ran 100 meters away, and began to take recovery medicine.

“Well, why do you run so far?” The priest raised his head unscrupulously.

“Nonsense.” The thief didn’t want to talk to the priest, and continued to sit in place to add blood. In fact, the thief was betting. He has been using a slow recovery potion, which is to let the priest come out. If the priest dared to step away from the wall, he would launch time and space. The dance step jumped behind the priest in an instant.

With his method, every attack can be done. The capital can be inserted into the back of the priest, and the priest now has no badge. It is possible for him to beat the priest once and even kill him.

but.....

The priest just watched the thief return blood, so he also took out a slow blood recovery potion and squatted down the corner to eat.

The thief glared at the priest with anger, he was afraid to speak, for fear of being found out by his opponent.

The priest was also in no hurry, and said, “Do n’t pretend, brother, do n’t you pretend, don’t you just want to lie to me, brother? I’m a big girl of Huanghua, I won’t go out in one step. Don’t think to lie to me .”

In the last few sentences, he also imitated the voice of a woman, and the whole audience burst into laughter. No one felt that the game was dull. Instead, they all looked at the priest with a laugh, hoping that he could burst out another golden sentence.

The priest was very self-confident, and saw that the thief ignored him, and continued, “Thinking how many people used you to trick me out, but I squatted in the corner and let him wind up north and south. move.”

“But fight like this, we can only consume it forever,” said the thief.

The pastor hurriedly said, “It’s okay, I’m not afraid. I can afford it. For so many years in the country, how many people have I consumed? It’s not bad for you.”

The audience laughed crazy The thief was discouraged and said with a sleeve. "I don't believe it today. I am a mad thief in time and space, but I can't beat you as a priest."

"Come, come." The priest crouched on the ground and dangled his hips. The dazzling player who looked at it was laughing harder to control himself.

Later, data showed that there were thousands of players who laughed at the line because of the priest, and his name, Taro Toyama, has spread to the whole world and opened up a new game for the priest arena.

Of course, this is all about it. At the moment, the thief keeps attacking the priest, and he has not been killed for more than 20 minutes. At this time, the thief is already anxious, and he is not so polite. trend.

However, it is stipulated in the game that insults are prohibited. Once they appear, they are immediately disqualified. The thief cannot scold others, but can only think of a few detrimental words.

But who is the priest? A turtle player who has come up with this game for more than a year is better than a curse without dirty words. Who can compare with him? This product was born for cursing. I heard the thief player scold him. , Eyes are lit.

Chapter 1179 - Fight each other

The priest scolded the thief, scolded the thief, and pointed at the priest with a blushing expression, "You don't want to be shameful."

"Hey, that's the point. Uncle, what do I want to do with my face, that thing has been thrown away." The priest looked quizzical.

“You’re not afraid of your parents seeing it.” The thief’s nose snapped.

“I learned it from my dad,” said the priest, pointing at the thief. “The scolding was learned from my mother. Don’t hide it, you haven’t lost a fight with the scolding mother, outside eight streets. I know my mom is queen-scolded. “

The audience laughed.

The thief broke down completely, and wanted to say but didn’t know what to say. It was really rude to encounter such a shameless face.

“How are you doing this?” The thief was depressed.

The priest proudly said, “Oh, I advise you to come up and slap me, yeah, I’m owed, come.”

The thief had a black line in his forehead, and rushed up to the priest in anxiety, but there were only a few of the thief’s combo skills. The red twisted throat received a 5-star combo point on the death mark, and then received a kidney attack. Stun for 5 seconds. The second set of combos is Piercing, Ambush, Nightblade, and Terminator.

There is also a third set of combos in the back. The sacred shield can only be broken after two sets of combos. Although the third set of combos also has the ability to stun, as long as the stun time passes, the priest casually puts in several instant healing skills. You can survive the output of the thief, and then set a surge of light to make the Holy Prayer instantly, and immediately restore 2.7 million health.

In addition, during the attack, the thief suffered more than 1 million rebound damage. The thief without recovery skills can only take medicine to return blood. However, there is a mechanism in the game. Then, depending on the stock of medicine in the backpacks of both sides, the more one wins.

Obviously, a priest can easily consume the thief, and his treatment is more than adding blood medicine!

...

In this way, everyone watched the thief wrestling with the priest for an hour. In the end, when the match time came, the thief took more than ten potions and the priest used only one potion. The priest was judged to be the winner.

“Oh, too.” The priest stepped out of the game room and clenched his fists, and gestured a victory.

On the other side, the thief also came out of the game warehouse. This is a Japanese thief. He ran to the priest in anger and anger. Fortunately, Dubin and the security guard had experience. He stared at the Japanese thief in advance and saw that he had an idea. Go up and block him.

“I’m going to challenge you, you **** Taro Gables.” The thief was furious.

The audience was nervous and exclaimed, and the audience outside and in front of the TV stared at the venue in surprise.

Dubin nervously advised: “Don’t be impulsive, don’t be impulsive.”

When the thief was about to scold again, he suddenly stopped awkwardly, and his face was indescribable, as if he was constipated.

Dubin found that the thief had no need to rush, and wondered if the thief had let it go, but when he saw the thief’s eyes, he looked back, but just saw the scene that made him speechless and collapsed.

The priest “Taro Yamagata” is taking off his shirt, exposing a perfect tendon flesh, the 8 abdominal muscles in the abdomen and the biceps and triceps on the two arms. It makes people feel horrible when they look at it, especially Is this Takayama Higashiyama or a 1.8-meter tall man?

“Your sister, besides Lu Yang, this is the first time I have seen a player with such a strong physique.” Dubin’s inner subtext, he has collapsed.

“Huaze player, please rest in the backcourt first,” Dubin said.

The thief turned away in depression, and didn't want to stay on the stage for another second. He had collapsed and wanted to talk to someone.

Players on and off the court burst into laughter.

"It's too jerk, so inconvenient to play, but so strong in physique, this product is obviously for fear of others to train him out."

"Ha ha ha, if I am a thief, I want to beat him after the game, ha ha ha ..."

"It's too bad, I like it."

...

The commentators in the live broadcast booths of various countries are also laughing and analyzing the reason why the priest has developed such a muscle.

According to regulations, after each game, there are interviews. Dubin said to the priest with a microphone in his head, "Is it because you like to exercise this muscle?"

The pastor said, "No."

"That's it?" Dubin felt he had guessed the truth.

"Hey ~~!" The priest sighed and gently covered his forehead with his left hand, and said with a look on his face: "Every time I have a good discussion with the player, they want to hit me. You can only build such a muscle. "

The player on the field is already laughing crazy. Someone clapped their stomachs and patted the front seat. The player in front didn't care, because he was also laughing wildly, and he couldn't find any relief and relief. Way to laugh.

“Happy game!”

“Haha, I can’t do it anymore. This is also called a happy game. Haha, this product is too bad.”

“I have never seen anything so shameless, wow haha, I can’t stand it.”

...

Dubin found that he was still too naive. You can only vote for him on the lower limit of the goods, and he said silently, “Brother, you are a personal talent.”

“I always think so.” The priest frowned.

Dubin said with a black line on his forehead, “Please rest first. After one hour, you will compete with Lu Yang in the semi-finals.”

The priest’s eyes lighted and he said, “Oh, well, I’ll go back and prepare for it. I need to prepare for Luyang.”

The audience laughed.

“Haha, this must be a big move.”

“Well, Lu Yang needs to be careful.”

“Haha, I really look forward to the battle between the two, it must be very beautiful.”

In the US live room.

“This is a matchup between the strongest output and the strongest meat shield. I bet it must be very good looking,” said the American commentator.

The commentators in almost all countries, including Germany, Italy, and France, spoke the same words. Obviously, this semi-final will be more dazzling than the finals.

Inside the VIP room.

Bai Lang said with a black line on his head: “Boss, do you have a way to defeat him?”

Everyone held back with a smile and looked at Lu Yang, but Lu Yang laughed and said nothing.

On the court.

There is another competition in the semi-finals, but no one pays attention to this game. More people are discussing who can win with Lu Yang and Taro.

The official post bar, the discussion in the live broadcast room, and the forum were all overwhelmingly discussing this matter. No one noticed that the winner of this game was Lawrence.

Soon, an hour passed. Lu Yang and the priest came to the stadium together. Dubin stood in the middle and said excitedly: “I believe that the audience on and off the field is already looking forward to the start of this game. Everyone is also very familiar with these two, but I still want to interview the pastor Mr. Taro wall, how confident you are in this game. “

With a smile on his face, Wall Taro said, “I will win this game because I have found a way to restrain Lu Yang.”

There was an uproar, and the audience outside showed a surprised look.

Dubin asked, “What is it?”

Wall Taro said: "Hey, everyone will know when you enter the field."

Du Bin looked at Lu Yang and said with a smile: "Mr. Taro wall said that he found a way to defeat you, what do you think?"

Lu Yang said with a smile: "He is still young and has seen too few things. I will teach him to make him progress quickly."

Wall Taro's smile was stagnant. For Lu Yang, he held the belief that he would win. For Lu Yang's preaching tone, he was quite annoyed, but he held back and looked at Lu Yang with a smile.

Dubin asked: "Can you tell us in advance, everyone is curious."

Lu Yang said with a smile: "You will know when you enter the venue."

Hakutaro Haha said with a smile: "Are you the emperor of fire, reveal in advance, teach me my little newcomer."

Lu Yang smiled mysteriously and said: "There is a saying on the grassland that even the lion beats the rabbit with all its strength. Only the ones that are used are called kills. I won't be fooled."

Wall Taro shrugged his shoulders and said, "Don't dare to say it."

Lu Yang didn't care.

Dubin watched the fire and said, "Two players were invited to enter the game room."

Lu Yang and Qiantaro each walked to the game warehouse. Before entering the warehouse, Qiantalang rushed into Yangyang provocatively and made a gun gesture, but Lu Yang answered him with a smile.

In the shouts of excitement from the audience, the light flashed, and Lu Yang appeared in a circular arena. This is an arena wall made of beige rocks all around 50 meters high.

The diameter of the field is 300 meters, and the ground is yellow earth. Lu Yang and Qiantai Lang each stand 30 meters away from the center line of the field.

“Ha ha, Lu Yang, can finally fight with you, come on, I will stand here for you to fight.” Wall Taro laughed and ran to the wall at the edge of the field, summoned thorn birds, and protected with the sacred shield skills Live the whole body.

The players laughed.

Before the game started, Lu Yang couldn't move. He said, “It looks like you are looking forward to playing against me.”

Wall Taro said, “Of course, if I win you, I will be the number one in the world.”

Lu Yang said, “Children, you are too naive. The priest of the defense department is really strong, but he is not without its shortcomings.”

Wall Taro frowned, but then he relieved and said, “You don't have to deceive me, I know you want to scare me, but I'm not afraid, in order to deal with you, I deliberately asked someone to borrow a set of 160 sub-artifact magic resistance suit, With a total body resistance of 1.1 million, come and hit me. The damage you hit me is estimated to be four digits. I rebound more than you. “

The audience was uproar.

Lu Yang said, “Have you forgotten that I have intellectual damage skills? Intelligence is not affected by magic resistance.”

Wall Taro said: “I know, but your comet impact, ground fire and other skills have a delay of 1 second or more, and I can hide.”

While talking, Wall Taro's thorn bird is still making random circle movements in the sky.

Game start

Lu Yang said with a smile: "It's not necessary to avoid it."

He pointed at the priest with the staff in his right hand and read the spell in his mouth.

"Remnant Flame"

A crimson light appeared on the side of the priest, and Taro wall's eyes brightened, and he was about to walk away.

"activation"

The crimson light and light flickered apart. While destroying Taro 8000 blood, Lu Yang himself lost 18,000 injuries. At the same time, Lu Yang was exposing a fierce flame.

“Not good.” Wall Taro didn’t want to throw the escape dagger because he was the first time to see such a light on Lu Yang, and it needs to be released from a short distance. It must be unusual, but he didn’t wait for the dagger to fly out 1 meter far.

“Destroy Heavy Artillery”

A violent ray of light centered on Lu Yang, flying all invincibles within 30 meters in diameter to the sky, including the wall-taro that was about to avoid.

“2850000”

At the same time, Taro Taro’s 11 million blood drops fell into the sky, and he was stunned for 5 seconds.

“badge”

Kentaro did not hesitate to use the badge to unlock the vertigo, but he was still in the stage of being collapsed. Instead of adding blood to himself, he controlled the thorn bird for the first time, but he just saw the thorn bird Position, a bluish dagger just flew over the thorn bird’s head.

The light flashed, and Lu Yang appeared holding a dagger.

“Flame Shock”

The thorn bird was stunned by Lu Yang from close range.

“Yanyang mask”

A shield appeared on Lu Yang’s body.

“Blazing Flames”

A human-shaped flame of light emerged from Lu Yang’s body, and instantly hit the thorn bird with the sun mask. At the same time, the spell in Lu Yang’s mouth reappeared.

“Resistant Fire Ring”

The thorn bird was blasted downwards instantly. When the thorn bird descended, it was within the attack range of the slash and the sun mask.

The thorn bird fell a little and was hit once by the sun mask. During the 2 seconds of vertigo, the priest had no way to control the thorn bird.

“My bird.” Wall Taro screamed in dismay, but at this moment, Lu Yang flashed a white light on the bird who was falling with the good bird. He just felt a flame coming from behind him. Looking back, he saw Lu Yang sneer. Face.

“Liyang Boxing, you go down.”

Lu Yang punched his left hand in the wall Taro’s waist, and hit the wall Taro, who had just flew to a height of 20 meters, instantly hit the ground like a cannonball.

“Remnant Flame-Activated”

A red light landing sun appeared in front of the wall Taro.

“Flame Storm”

Wall Taro was about to stand up and was stunned for 2 seconds. At this time, the audience exclaimed because the thorn bird was dead.

The total blood volume of the thorn bird is 8 million, the magic resistance is 0, there is no spell defense shell, and no control and attack skills. It is an ordinary summoned beast with an aura.

Lu Yang's magical damage was 1.1 million, and he was hit with flame impact, split cut and Yanyang hood. After resisting multiple attacks from the fire ring and Yanyang hood, he went from the 50-meter sky to the collapsed ground. The foot withstood 6 attacks of the sun mask, lost more than 6 million health, and was superimposed with the previous damage, just died.

On the court.

Host Dubin shouted excitedly: "Audience friends, I'm so surprised. Lu Yang used a skill that he has never used before. While hitting the flying wall Taro, he killed the thorn bird, without the thorn bird. Lu Yang I wo n't be hurt by 10,000 blood bounces again, one less annoying, but one more, it 's the priest 's sacred shield, let 's see how Lu Yang resolves."

In the intense gaze of the audience on and off the field, Lu Yang used an unforgettable play that all players would never forget.

"Naruto"

Twenty-two Naruto bombs fell from the sky after 1.5 seconds. At this moment, Lu Yang's mouth spelled out.

"Ice Guard"

Lu Yang froze himself in an ice cube, and 22 Naruto bombs landed on the priest.

"95000"

"95000"

...

22 in a row, causing 2.09 million damage, directly smashing the sacred shield, but Lu Yang was hiding in the ice, all the shield rebound damage was all MISS.

“Holy Light Back ...”

The priest was about to use his skills to get back to the blood, but at this moment Lu Yang untied the ice cube and pointed his staff with his right hand.

“Fire Snake Bondage”

The priest’s ability to add blood was not released, and Lu Yang was trapped in place for 8 seconds.

“Remnant Flame-Activated”

Lu Yang flew back a distance of 100 meters and read the spell in his mouth.

“Comet Impact”

A comet with 5 times the intelligence damage can kill the priest’s health by more than 3 million in one blow, just when everyone is waiting to see the priest being hit.

“Heavenly Demon”

The priest roared, and suddenly a black light appeared in front of him, and then a brown-skinned monster with black wings and two wings emerged.

Heavenly Demon

Level: 150

Qi and blood: 50000000/50000000

“boom”

The comet struck the body of the demon in heaven.

“1200000”

The audience screamed.

“What is this?”

“I haven’t heard of this.”

“Sure enough, none of the top four is the weak, and Taro wall has a big hidden trick.”

“It’s so cool, this demon must have the ability to force a reduction in damage, which is a 60% reduction.”

...

Inside the arena.

There was a dignified look on Lu Yang’s face. The Tiandu Demon he had encountered in the last life. This thing is a bug skill of the top priest. Even at level 200, the priest must bring the Tiandu Demon because he has a mandatory reduction. 60% damage skills.

“Looks like This is your trick.” Lu Yang asked.

Takayama Higashiyama came up with a head from behind the demon of the heavenly city, and said proudly, "Well, I have this meat shield, you can't get me wrong."

Lu Yang said, "It depends on who you fight with. It's okay to change for ordinary people, but for me, it's just a trivial matter."

"A trifle?" Takayama Higashi said proudly, "Few less, now we are standing here and letting you hit whatever you want. I will kill you if you hit any."

Lu Yang laughed. He didn't rush out, but read the spell in his mouth.

"Summon avatar"

A burst of fire flashed, and Lu Yang's third avatar, the Fire Mage, appeared in the venue.

Another burst of water flashed, and Lu Yang's second avatar Water Master appeared in the venue.

Exclaimed in the audience, the two avatars appeared, which is equivalent to 3 to 2, everyone was curious what Lu Yang was going to do.

Chapter 1180 - Win Wall Taro

However, the players in the audience also know that there are only one consciousness in the three bodies. Lu Yang wants to control the three together. The reaction speed is at least 0.3 seconds slower than before. In other words, the priest's reaction speed is 0.3 seconds faster than Lu Yang. .

This involves many issues such as shot speed, reaction avoidance, and on-site contingency. If you are not careful, Lu Yang will be seized by the opponent to fight back. Although the pastor has limited control and attack skills, the pastor in front of him is not an ordinary pastor. Rev. Skywrath with blood of demons.

Do n't look at the harmlessness of other people 's animals. They are only beaten and unable to fight back. The predecessor of Rev. Skywrath is the preceptor pastor with the highest output in the pastor profession. Once he outputs it, he can hit 9 combos in minutes and burst out about 3 million hurt.

On the other hand, if Lu Yang's three occupations are allowed to play a combo of strong control at the same time, even if the pressure is reduced by 60%, they will still be killed by Lu Yang.

There was a sneer on Lawrence's face in a room in the player's rest area.

"Lu Yang, I finally forced your two avatars. I've seen all the tricks of your body, and I've lost your avatar attack skills."

On the court.

Wall Taro also looked excited, and said, "What about the three people, I will be afraid of you? I have the patience for you to come, if you can't kill me, I will drag you to death."

"curse"

A purple starlight fell on the ground, and Lu Yang's body and two avatars were simultaneously cursed.

The system prompts: You are cursed and loses 5000 blood per second.

On the outside, this is a very skill. Any player who is teaming up will not be afraid of this trick. However, in a heads-up match, this trick is a magic skill. The longer the time, the better it is for Taro Wall. .

Lu Yang said: "You are really strong, catching the demons in the sky is a very troublesome and very test-oriented thing, and you have my affirmation of this."

Wall Taro rolled his eyes and said, "I still need your affirmation? I'm already in the top four in the world. Okay, defeat you, I'm the first in the world."

Lu Yang smiled and said, "Don't be too confident, I'm on."

"Come, I'm afraid of you?" Wall Taro said in the mouth, giving him and the heavenly demons a life-recovery skill of 3 seconds, and filled it with magic.

However, while he was waiting, he found that the water mage standing beside Lu Yang was closing his eyes and chanting a spell, and the entire body of water power burst out.

"What skill are you doing?" Wall Taro frowned.

Lu Yang laughed without saying a word, and continued to chant. Seeing this situation, Wall Taro panicked. He didn't know what Lu Yang was going to do, but no matter what he did, it must be a super big move that could hurt him. .

"Light Arrow"

With a finger on the staff of his right hand, Taro walled a sharp arrow with golden light and shot at the water mage who landed in the sun.

Lu Yang's Fire Thunder Master stood in front of the Water Master, and the words were spelled out in his mouth.

"Ice Guard"

The Fire Mage Master turned into an ice cube, letting the arrow of light shine on it could not lose the meaning of blood.

Wall Taro was even more panicked when he saw here. Obviously, Lu Yang's big move in the water system must be very powerful, otherwise he would not use it that way.

"What kind of skill is this?" Wall Taro asked as he moved the side demon to the side.

Lu Yang still laughed and said nothing.

Wall Taro found a place where he could attack the clone of the water mage, and read the spell in his mouth.

“Light Arrow”

Lu Yang’s fire thunder mache lifted the ice cubes and stepped on the side in front of the water mage’s clone. He took this attack for him, and then the fire thunder wizard took the potion from his backpack and immediately ate it.

“Damn, you talk. What kind of skill is this?” Wall Taro was annoyed by this weird state.

Lu Yang still didn’t speak.

Off the field.

The players were stunned.

“What skills?”

“I remember Lu Yang’s water system avatar is a magic martial arts profession. I haven’t heard of any special tricks.”

“Unclear.”

...

No one knew what Lu Yang was going to do, but Dubin shouted in excitement.

“Everyone knows that Lu Yang is a person who knows how to simplify spells. His secondary forbidden spell only needs 8 seconds, and the super forbidden spell is only 15 seconds. Now the spell of the avatar of the water system has been spoken for more than 10 seconds. Is this A curse of a water mage? “

The players were all adrenaline soared by Dubin’s words, and the wall Taro in the field also felt severely bad. They thought about whether to rush out and use the skills of Rev. Tian Fur to try to drop Lu Yang in seconds. During the avatar, the spell of the water avatar suddenly stopped.

“Breaking gas”

A violent light appeared in front of Moisture. When the light passed, a moisture figure with a height of only 1 meter appeared.

“Eh?”

“what.”

“What skills?”

...

The audience stunned his chin.

Wall Taro laughed and said, “I thought it was a special super skill. It turned out that you didn’t understand the magic of the water system, and you read it so slowly. What is this and what kind of attack can it have ~! “

Lu Yang laughed and said, “Soon you will know, go, kill him.”

“Hello ~!”

The villain roared violently and rushed towards the wall Taro 50 meters away. At the beginning, no one cared about the villain, but when the villain ran, every step he took, his body expanded by one point. When he ran for 10 meters, he became a 2 meter giant.

When he ran 30 meters, he became a giant 3 meters. At 40 meters, he reached 4 meters in height and continued to run forward.

Taro walled his teeth and shouted, "Heavenly demon, fight it."

Tiandu demons roared and rushed towards the villain. When the villain ran 45 meters, he was hit by a fist.

"boom"

The 4.5-meter-tall villain, no, is a giant, and it exploded violently as a whole, with a lot of water vapor spraying out.

"1900000"

The tiandu demon reduced the damage by 60%, and was still killed by 1.9 million health. Suddenly, it shocked Taro wall.

"The output is quite high." In the mist, Taro wall added a healing technique to the heavenly demons and himself to restore the health. The explosion was just a range damage, and Taro wall did not escape.

"Is this just the ability?" Wall Taro sarcastically looked at Lu Yang and said, "This skill is too much, it doesn't hurt me at all."

Lu Yang smiled and said, "Look behind you and talk."

"I don't want to trick me into turning around, I won't be fooled," said Taro Wall.

Lu Yang said silently, "I don't have the habit of sneak attacking others, look back, don't say I bully you."

Wall Taro suddenly turned back, and was about to twist back immediately, but his head was fixed behind him, because the little waterman who should have burst to death ran towards him 100 meters away.

"I'm going, what the **** is this." Wall Taro quickly ordered the heavenly demons to stand behind him. He looked at Lu Yang and said, "Why didn't he die?"

Lu Yang patted the Water Master around him and said, "This is the strongest general skill in the water profession, called Explosive Tianwei. The effect is to infinitely create a steam explosion. Each explosion will be ejected to a location 100 meters away. , Continue to attack towards the target. "

"Infinite?" Wall Taro asked in amazement.

Lu Yang nodded and said, "Yes."

"You play Lai, why do you have infinite skills?" Wall Taro angry.

Lu Yang said: "Not only is infinite damage, your sacred shield bounces damage, but it can't shoot above my water body, it just hurts the little waterman."

"This, this, this, this is too ridiculous, official, what are you doing, how can you do this, then what else do I fight." Wall Taro angry.

No one in charge of the official Taro wall.

Lu Yang said with a smile: "So you have relied on the corner of the wall to defeat the spy thief with sacred shields and thorn birds to bounce back. Is it illegal?"

"Can it be the same?" Wall Taro said unconvinced: "I have normal skills, you are so abnormal."

Lu Yang said: "There is no abnormality. My hydration body has fallen into a state of only 30% of all data. If you can take my hydration body with only 30% blood volume, I will lose."

The audience was exclaimed. It turned out that they all felt that this little waterman was too buggy, but when they heard that Lu Yang's water body was forced to become 30% due to this skill, they were relieved.

"It's still like this."

"I'm going, isn't Lu Yang exposing his shortcomings, what would happen if he was killed by Rev. Skywrath."

"Don't be stupid, Rev. Skywrath is so powerful, but he is a pastor after all. There are two professions, Lu Yang and Fire Thunder Master, and he has no chance."

...

On the court.

Wallaro also realized this, and said, "How could I have beaten you as a priest."

Lu Yang said: "This is your playing problem. You are too easy to be seen through. Who made you have such a routine to stand and be beaten. Isn't it 20 seconds that you gave me, can I summon a little waterman? Any random interruption skill, even if the cast of my little waterman is interrupted, it will enter the public cooling time, 24 hours. "

Wall Taro was speechless.

Lu Yang said: "Give up. You have no chance. I, a little waterman, will consume your blue light, and you can't survive even half an hour with me."

Wall Taro bowed his head and said nothing.

Lu Yang was not in a hurry, standing in front of the water mage's clone, while the fire thunder mage stood behind the water mage's clone, and put a stun thunder in place.

Stunning Thunder: Entering the target area will trigger the stun class and stun the target for 10 seconds.

Next, Lu Yang's fire thunder mage was not idle, and placed a fire thunder barrel behind the water mage and a thunder **** *.

"Refresh"

Fire Thunder Master puts a Fire Thunder bucket and a Thor *.

Thunder God * is a high-level skill of the Fire Thunder Barrel, causing damage multiplied by 1.2, which is 20% higher than the Fire Thunder Barrel.

The audience saw that Lu Yang put down the fire thunder while persuading Wall Taro. At this time, they took a closer look and found that there was more than one thunder behind Mage Water, 18 were already placed, 9 Fire thunder, 9 thunder gods *, all of a sudden made amazing sounds.

"boom"

The exclamation was overwhelmed by the explosion of the little waterman, and Wall Taro lost another 1.9 million health. He added a recovery technique to himself and looked at Lu Yang. You, I will not waste your time, you win. "

Lu Yang smiled and said, "That's the best ..."

The last word didn't wait for it to drop. Suddenly, a faint blue light appeared in the wall Taro's hand, throwing it towards the landing sun.

"Escape The Dagger"

Exclaimed the audience.

Lu Yang's face also showed a horrified look, but Wall Tailang's face showed a conspiracy smile.

"Haha, Lu Yang, you lost, and see that my priest Skywrath is the strongest killing trick." Wall Taro's body emitted a blue light and disappeared in place. The next second, everyone heard only a violent explosion, and then a mushroom cloud Rising around the water mage.

System prompt: Lu Yang wins the game!

Wall Taro stood up confused, looking at his 1 point of blood, and the defeat of the reminder, looked back at Lu Yang and asked, "What's going on?"

Lu Yang shrugged and said, "You lost."

"How did I lose? Tell me, how did I lose?" Wall Taro said angrily.

Lu Yang thought for a while and said, "Forget it, you are a Huaxia player, a person who can give Huaxia glory in the future, I will tell you why, did you just want to deceive me and give in, at the moment I am proud? , Use the jump to jump to my hydration body, launch the scream of the mind + the wrath of the light + the light of the thunder + the torrent of emptiness, to kill my hydration body at once? "

"Yeah, how did you find that?" Wall Taro asked in surprise, he didn't expect that Lu Yang was so familiar with the Master of Skywrath, even the skills he was planning to release were clear.

Lu Yang said: "Simple, how can anyone who is willing to admit defeat, and also give yourself a healing skill, you are too exposed."

Only then did Taro know what was going on. He sighed and asked, "But what fire thunder can you put?"

Lu Yang said: "Actually, the little waterman is deceiving you. When you put your mind on the little waterman, my fire thunder clone is secretly burying the thunder through the water body. You jumped over and were bombed by 19 mines. You lost 20 million hits at a time. Even if you had a 60% reduction, it would still be fatal. "

Wall Taro was speechless and said, "I'm convinced."

Lu Yang smiled, quit the game, opened the game room, and suddenly there was thunderous applause, everyone cheered for Lu Yang.

"So handsome, so handsome, I learned another trick."

"Fire Emperor, Fire Emperor"

"Fire Emperor"

"Fire Emperor"

...

The noisy cheers unified into a voice.

Lu Yang waved his hands around him, took the microphone that Dubin handed over, and said, "Thank you for your love."

Dubin asked in excitement: "It's terrific. You admire the five bodies. You can see the details of each other so clearly, you really admire your strength."

Lu Yang said with a smile: "As the saying goes, the details determine the success or failure. After all, this game is a game that requires serious study to understand, and it is not so easy to win."

Dubin looked at the wall-taro on the other side and asked, "What do you want to say?"

Wall Taro shrugged his shoulders and said, "Everyone sees that I have used all of my previous 2 years of experience, and I have not defeated Lu Yang. I failed to convince myself."

Lu Yang smiled and looked at him and said, "You are also very good. I believe that next year, you will get a better ranking."

Wall Taro shrugged his shoulders and said, "It doesn't matter. It's good to be in the top four. You can get a lot of bonuses. You can drink and eat meat, hahaha."

The players on the field laughed, and no one thought that Wall Taro was such a fun kid.

Dubin said: "There is only one final match left today. After the match, the candidate for the finals of the individual match will be decided. Lu Yang has already advanced. It depends on the other two players. Please return to rest."

Lu Yang nodded and turned to leave.

Wall Taro walked in that direction, but entered the backstage. He ran to Lu Yang. The 4 security guards who had been calmly watching saw someone rushing over again and shouted: "Stop, or we will be right. You're welcome. "

Wall Taro was startled and said, "I'm not here to fight."

"Back up," said the security captain, holding a baton and pointing at Taro Wall. "Sir, there has been a case of assaulting Lu Yang. The person was sent to the Swiss police. I hope you stay calm."

Wall Taro was speechless and said, "Which second-hander is so inattentive, but he still can't fight offline."

Lu Yang smiled and asked, "What's the matter?"

Wall Taro said, "You let me go first, this is a secret, I don't want others to know."

Black and white looked at Lu Yang and shook his head, saying, "Boss, no."

Lu Yang said, "Let's go, boy, I have too many enemies, and I'm not familiar with you. If you want to say something, just go to the VIP room and say, what?"

"Yes," Wall Taro said.

Lu Yang turned and walked to his VIP room. As soon as he entered the door, the white lions greeted him. Before congratulating Lu Yang, he saw the wall Taro behind him.

"Well, why are you here?" Bitter Ai asked curiously for a long time.

"Taro has something to say to you," said Taro Wall.

"What's the matter?" Lu Yang asked Black and White to close the door and asked, "It's all my family here, you say it."

Wall Taro glanced around and said, "Be careful, your next opponent will be against you. Are you sure who your next opponent is?" Lu Yang asked with a smile.

"Lawrence." Wall Taro said affirmatively: "I am a leather armor artifact that Lawrence took the initiative to lend to me, saying that let me beat you, in fact let me test your full strength."

Lu Yang asked, "Why do you tell me this?"

Wall Taro said: "Lawrence's **** is under Liu Jie's. Lao Tzu looks down on Liu Jie. Unfortunately, I can't clean up that bastard. I said everything and I left."

Lu Yang and Tu Feng and Qing Qian Zimeng were all surprised.

“This brother, how can you be sure that Lawrence is under Liu Jie’s hands?” Tu Feng asked. He had searched for so long without finding any news.

Wall Taro shrugged his shoulders and said, “I heard by chance that when the guy and Liu Jie called, I just got the equipment. Lawrence used the South African official language. It happened that I had a South African friend. I also learned After a little bit, I heard, the key is that the fool will use my words to say it.”
