

Wild Fire 1181

Chapter 1181 - Wonderful semifinals

Wall Taro smiled proudly and said, "I'm here to tell you the secret of the two of them. Be careful, that druid is already the blood of the son of the forest. I learned a total of 7 advanced skills, but I don't know what, it is said If you let him fight, you will die. "

White Lion and Zhou Tianming face each other.

"Is there such a thing?" Zhou Tianming frowned.

"I'm gone, see you next year." Taro wall turned and left.

Lu Yang said, "Wait a minute."

Wall Taro smiled proudly and said, "I don't want to join the Jagged Brotherhood. Don't want to stay with me because I am grateful."

Lu Yang laughed and said, "Send you a secret. At the kitchen location next to the spiral staircase to the right of Carvers Fortress on the 150-level map outside Paradise City, you can find a hidden door. Go down there and you will get a boost to you. Large 150-level excellent gold set and 5 rare skills. "

"Rare skills?" Wall Taro was surprised.

Lu Yang said: "The reason you played this game is not because your reaction speed is slow, but because your demon blood lacks phantom demons, charge demons, fear demons and silver sand demons, and one can summon 3 demons at the same time. The French matrix, right. "

Wall Taro was shocked throughout his body and asked excitedly, "How do you know."

Lu Yang smiled and said, "You can get these skill books at once when you go there. Note that you can only go by yourself. The strangeness in the secret way below the kitchen is a storyline. There is no second killing once. It's time. "

"Thank you, thank you so much. I'm going to be invincible now, haha." Wall Taro laughed excitedly, gave Lu Yang a deep bow, and ran away.

These 4 demons are one of the four demons next to the strongest demons under the Wall Taro Demon Bloodline Skill Tree. They are available at level 180, can be reached at level 150, and are advanced by level 30. You can imagine that for more than a year, Taro wall will sweep an area.

Not to mention 4 people alone, even if 10 people are very easy to beat, all of them were killed by his demons. If he himself hits, he can be singled out more.

Originally, this secret was prepared by Lu Yang to reward his players, but this time the message provided by Taro Taro is too important for Lu Yang to pay for it.

"Boss, are the seven skills of the son of the forest strong?" Tu Feng asked.

Lu Yang said: "The seven skills of the sons of the forest are the special skills of bright light shining, wild rage bite, March continuous cut and secondary banned star wrath, Sirius drop, wild wind slash, and the big banned mana knot. boundary."

"It sounds pretty strong," Zhou Tianming said.

Lu Yang breathed in and said, "I need to prepare well. I can gather these 7 skills and prove that this person's skills are very strong. These seven skills hurt me very much. If he is hit once, I will definitely die."
."

"Is it so powerful?" White Wolf asked in disbelief.

Lu Yang said: "All of them are more than 5 times the damage skills. These 7 moves are equivalent to more than 40 moves, which is very strong."

Everyone took a breath and took a cool breath.

"However, don't worry about it. Boss, if I use all my strength, it will not be too difficult to kill him." Lu Yang said.

Everyone had a black line in their heads.

With Lu Yang's full effort to open Cannon's attack mode, there is no one who can single him out, but without the information of Taro Taro, Lu Yang might start with an opponent's seven-segment second.

He looked at the big screen on the wall, where it was the semi-final match between Druid Lawrence and another water mage.

On the court.

The druid of Lawrence has turned into a giant bear form again, wearing a magic resist suit all over, and after using poisonous flowers, he tortoises around the corner and looks like an arbitrary attacker.

The second turn of the water-based mage plus the ice soul blood, the output is not ordinary burst, the strongest hit Xinghe ice cone, can hit 17 times the magic damage critical strike.

The ice spirit energy circle can also reduce the target's magic resistance by 30%, and the polar cold wind can hit 500% spell critical strike and 30% movement slow.

Frost * can stun the target, Frost Ring can make the target lose its control for 10 seconds, Black Ice Arrow can hit 10 times of critical strike, Ice Lance comes with ice finger, no CD instant skills, 3 times Crit.

This is the top ice mage, and why the players are increasingly disagreeing with the blood of the clone. The main reason is that the profession after the clone cannot learn the top spells. This ice mage is the best example right now. The skills were dropped, and Lawrence's nest in the corner suddenly lost his blood, and he was scared to death.

"Leopard Form-Wild Displacement"

Lawrence read a spell in his mouth, a mysterious light glowed on his body, jumped 20 meters away, and transformed into a big tree form.

"Life Blooms"

Then he changed back to leopard form.

"Stealth"

Lawrence disappeared instantly into the air.

There was a sneer on Master Bing's face, and said, "Why, dare you let me continue to output?"

Lawrence's voice came from all directions, "Hey, I have more than this skill. Why should you let it attack? Now you have to take medicine, but I have not taken it. After one hour, the winner is me. "

Mage Bing laughed and said, "Do you think I can't find you in stealth? You look down on the Ice Mage."

"Do you have any special skills?" Lawrence asked.

“Let you see how strong Mage Ice is. In the real output, Mage Ice is better than Mage Fire.” Mage Bing roared coldly and read the spell in his mouth.

“The extreme cold field”

The audience inside and outside the field is about to spray cold days and can't help it, and dare to compare with Lu Yang, but at this time, the arena with a diameter of more than 300 meters was covered by a cloud, and a large number of dark blue sharply fell from the dark clouds. Come, covered the entire venue.

“-619506”

“-619506”

...

Among a series of jumping injury figures, Lawrence hiding 100 meters away was beaten into a stealth state. He stared at Mage Bing in surprise and added himself with blood, and said, “You have this skill?”

Mage Bing said proudly, “I originally prepared this skill for Lu Yang. When he released the sparks and fires, he battled with him and kept it useless. You were the first to force me to release it. People with this skill, good. “

Lawrence frowned. He found that the players who came to this stage were not weak. He wanted to rely on flower poison and high magic resistance for an hour. It was not realistic.

“Ice Spirit Energy Circle”

The ice mage's right-hand staff pointed at the location of Lawrence, and an ice energy circle with a diameter of 3 meters covered him.

“-8019686”

The ice shield is reduced by 30%, and Lawrence 's health drops instantly. However, what he does n't understand is that he has more than 800,000 magic resistances. If the ice mage in front of him can still do so High damage, then it can only explain one thing, this ice mage must have special places, otherwise it is impossible to deal so much damage.

“How did you make such a high attack?” Lawrence asked.

Mage Bing said proudly: “Did you not find that I could not deal so much damage in the beginning? These are the two unique skills of Bing Soul. One is called Lonely Winter. All the magic damage is increased by 50%. The price is that I cannot Summon the little waterman, the second is the piercing chill skill. Every time you take a spell attack, you will stack 1% ice spell damage. Just now, I have hit you more than 20 times, and I have stacked more than 20%. Frost damage, continue to stack up, I see you can hold me back a few times. “

Lawrence was dumbfounded and said, “Infinite stack?”

“Of course not, there is a maximum of 99 layers, but I don't believe you can carry it to the 99th layer.” Mage Bing said proudly.

Players on and off the court were sensational.

Who would have thought that the output of the ice mage could be superimposed this way. If so, Lu Yang of the fire department, the magic damage you are this ice mage, this is not a superimposed level.

Lawrence hurriedly applied himself to a large expulsion operation. An ice film that had always been attached to the original disappeared suddenly, and then suffered magical damage, much less than before.

“Scared me, this skill can be driven away.” Lawrence said to the mage with a smile.

Master Bing said: “Of course, but the interval between you releasing the large expulsion is 2 minutes. Do you think that in 2 minutes, how much blood can I kill you? With the ability to add blood, can you resist it?”

The huge ice cone in the sky is still attacking Lawrence uninterruptedly. Druid wants to hide, and he cannot escape this kind of intensive attack like rain.

There are also more and more energy circles on the ground. Each energy circle comes with a 30% deceleration. Stacking two will slow down by 60%. Lawrence needs to keep running.

“Haha, I can’t think of it. When I knew you were my opponent, how happy I was. My favorite thing is to slap you in a profession that only defends and doesn’t attack. It allows me to attack freely.” Said with a smile.

Lawrence didn’t say a word, and ran on the map. Once the health was below 50%, he immediately added blood to himself, and then continued to escape into leopard form without giving the ice mage the chance to hit him continuously.

“As long as I can add blood, you can’t kill me. I want to see how much blue you have. I don’t believe the blue in your backpack is enough for you to kill me.” Lawrence took out a potion and ate it, his blood volume Restored to 90%.

Master Bing laughed and said, “Then you will see and see.”

“Ice Stack”

Suddenly, the ice mage pointed at Lawrence with his right hand. Just as Lawrence was hit by an ice cone, the ice cube effect was triggered, and his feet were frozen in place. At this moment, a large amount of ice was like a worm surging, and he was instantly Body covered.

“Frostfoot”

A ring of ice appeared on Lawrence’s body. Lawrence didn’t know what skill it was, and he was afraid of being attacked by 17 times more damage, and immediately launched the skill.

“badge”

The ice cube on Lawrence was lifted, but the ice ring on him still surprised him. Just when he was curious about what skills this was, he just took 3 steps forward and was frozen by a mass of ice again. .

“Haha, you got fooled, I knew you were going to use the badge, now you can’t move it.” Mage Bing laughed.

Lawrence asked in the ice cube: “So what, it’s just another galaxy ice cone.”

A smug smile on Master Bing’s face said, “Try this.”

“Tianhe Burst”

A white beam of energy shot from the ice mage’s wand and rushed towards Lawrence at a not fast speed. If Lawrence normally wanted to avoid it, he would only take a step on the side, but he was now frozen by the ice. Can’t walk at all.

“boom”

Lawrence was hit by white energy.

“201986”

“That hurts so much, what’s the use?” Lawrence asked with a sneer.

Master Bing laughed and said, “You try to use blood to see if it can be used.”

Lawrence suddenly widened his eyes and quickly gave himself a blood-adding skill.

“Life Blooms”

A green light shone on Lawrence.

“0” (987685)

Lawrence was dumbfounded. The number in the brackets was the magic value that he could add, and the 0 in front was the actual amount of blood added, which means that he didn't add any blood.

“This, what is this skill?” Lawrence asked.

Master Bing said: “Xinghe Burst is a skill that specifically restrains you from quickly returning to the blood profession. As long as you are hit, you can't add blood within 1 minute. How about it, now you admit death?”

Lawrence gritted his teeth and didn't speak.

“Haha, you know you don't recognize it. In that case, I'm on.” Ice Master flung his left hand, and a faint blue light flew to Lawrence's side.

“Escape The Dagger”

Lawrence appeared on the side of the ice mage, pointing his staff at Lawrence.

“Frost Nova”

An ice-blue light swept over Lawrence to hold him in place, and at this moment, there was a conspiracy smile on the face of Lawrence, who was gritting his teeth.

“Child of the Forest”

Lawrence's body changed from a giant bear form to a deer-man form more than 2 meters in height. He read the spell in his mouth.

"March March: New Moon-Full Moon-Half Moon"

Three consecutive moonlights emanated from Lawrence's left hand. At such close distances, one by one hit the mage's body.

The effect of March Combo is similar to Pyroblast, which is to repel magic. Therefore, after releasing Frost Nova, the ice mage was pushed backwards three times in a row, and launched a full 3 meters away.

Mage Bing just reacted, but Lawrence suddenly appeared in front of him, pushing his huge arms forward.

"Bright Light"

A huge light wave was sent from between Lawrence's arms. In the middle of the ice mage's body, he flew backwards as if he was hit by the ground fire.

VIP room.

Tu Feng and White Lion are watching this scene.

"This grandson is insidious," the White Lion scolded.

"Obviously, this product was originally intended to use this trick to deal with the boss, seeing that he would not be able to beat the ice mage, only a big trick." Zhou Tianming said.

Lu Yang nodded and said: "You noticed that there was no damage. His March was cut in a row, and each time he was mentally injured. Three consecutive moves equaled 3 times the critical strike, and then the

bright light shot was twice the intellectual damage. , Which is equivalent to 5 times the damage he has done in 2 seconds. “

The crowd nodded and continued to look inside.

“Big Bear Form”

Lawrence became a war bear.

“charge”

He turned into a brown light, and immediately hit the ice mage who was about to fall to the ground. The ice mage just fell to the ground and was stunned for another second.

“badge”

The ice mage immediately unlocked the badge, but just unlocked.

“War Stomp”

Lawrence stomped his feet on the ground, a brown light appeared, and the ice mage was stunned for another 2 seconds.

“Cheetah Form-Crazy Bite”

Lawrence turned into a cheetah, launched an onslaught against the ice mage with his mouth and claws, inflicting more than 1 million damage.

Inside the live room.

“Wow, what did I see? What did I see? I changed the 17 pieces of equipment in 1 second. There was no one-button change in the arena. How did Lawrence do it and his reaction speed is How fast ~ !!! “The American host screamed in astonishment.

Players are in a stunned state. When they heard the host’s words, they immediately realized that Druid changed equipment so quickly that only top players can do it. For a time, both players on and off the field Cheers for Lawrence.

Inside a game room.

Liu Jie said to the dead grass with satisfaction: “This Lawrence is really good, looks a bit.”

The dead man said with a smile: “With one set of play, he reached the semi-finals. If it weren’t for this ice mage, if this set of skills were played on Lu Yang, Lu Yang would be dead.”

Park Renyi said: “I am a little optimistic about this Lawrence now. It is really great. Even if Lu Yang has five skills behind him that have not been used, and Lu Yang’s skills seem to have been used, Lawrence must be able to find The way to crack. “

Liu Jie nodded and said: “I think so, as long as he can defeat Lu Yang and break his golden body, the morale of the Jagged Brothers Alliance will plummet.”

The reason why Lu Yang participates in the competition every year is not only to get the rewards of the competition, but also to improve morale.

The Brotherhood of the Iron Blood has an undefeated president, and the incentives for players are unimaginable to other guilds. However, as long as Lu Yang does not participate once, some people will doubt Lu Yang’s strength and affect the entire guild.

When there is no candidate who can replace Lu Yang in the Jagged Brothers League, Lu Yang will continue to participate in the contest.

On the court Lawrence played a series of strokes, and the ice mage's health was cut in half, because the ice mage is a cloth armor profession, without high armor, physical attacks on Lawrence are unbearable.

"Ice Guard"

The ice mage frozen himself in the ice cube, giving him a 10-second remission time. He looked at Lawrence outside the ice cube and said, "It's a good calculation, I didn't expect you to still have this skill."

Lawrence sneered and said, "It was originally prepared for Lu Yang. I didn't expect you to be forced out. In this case, you should die."

"Big Bear Power"

Lawrence turned into a giant bear, a 2-meter-high dog bear stood upright, and two paws smashed towards the ice mage's ice cube.

"flicker"

The moment the ice mage jumped out of the ice block, Lawrence hit the ice block and broke it apart. This is a high-level druid skill that can break the strong self-protection skills such as the ice guard and the invincibility of the paladin.

Chapter 1182 - Coming soon

White light flashed.

The ice mage appeared 100 meters behind Lawrence. Obviously, he also had high-level flashing gems in his hands, and he was relatively smart. He jumped behind Lawrence, making him unable to launch the bear's second charge ability, hiding beautifully.

Players applauded and cheered on the court.

Mage Bing took a potion and read the spell in his mouth.

“Frost Ring”

A white piece of ice mist rises from the ice mage as the center, and has a diameter of 30 meters. Any target in it will be paralyzed.

The reason this trick was released in the open space was because the Ice Master suspected that the Druid had a purple lotus staff. Once he approached him, he would be silent for 5 seconds, and almost died.

Lawrence looked back at the scene with a sneer on his face and said, “Why don't you dare to be crazy?”

The ice mage quickly regained the magic value in the ice fog, and said, “Don't you dare not reload it? Have the courage to continue using the bear form.”

Lawrence snorted and said, “Originally this series of tricks was given to Lu Yang. I didn't expect to be forced out by you. I won't keep my hands below, so be prepared.”

Inside the live room.

“Haha, it's directed at Lu Yang again. It is indeed the previous two world champions. It was really powerful. Both of them had a big move to clean up Lu Yang. Both of them were exposed.” South Korean commentator said excitedly.

The German commentator said: "Lu Yang's two world championships have brought great pressure on other players. Both of them are masters and both have the ability to challenge Lu Yang, but they all want to win unexpectedly. This is impossible. Take it. "

The French commentator said: "I'm really curious about Lu Yang's expression now. He must be very happy. Both people have given up their hidden skills."

Inside the VIP room.

Lu Yangzheng looked at the screen silently and said, "Why do you talk to me, so that Gao Xiang can kill me like this with this hidden skill?"

Everyone laughed.

Xia Yuwei said: "Be content, look at Wall Taro, no one mentions him."

In the other room, Wall Taro was watching the game on the ground silently, and said tearfully: "It turned out that Lu Yang was right. I was lucky to be in the semi-finals. This group of grandchildren is better than me. They are still lacking in morality, and they still have big tricks. I can't win either of them, especially the ice mage, and the skills that can't return blood. "

On the court.

Lawrence said with a sigh: "I really did not expect that the advanced ice mage also has such a powerful skill that the enemy cannot return blood, and admire it."

The ice mage in the ice mist said coldly, "I admire you too, and I was almost killed by you."

As soon as the words fell, a sneer appeared on Lawrence's face.

"Sirius Falls"

A purple-white light suddenly fell from the sky at the speed of light.

“boom”

In the stunned expression of everyone, the ice mage flew more than 20 meters in the cold weather and left the ice fog area.

“Escape The Dagger”

A faint blue light instantly came to the top of the ice mage, the light flashed, and Lawrence in the form of a cheetah appeared.

“Mad torn bite”

Lawrence, who quickly changed clothes, completed the equipment conversion in the air, and two sharp claws aimed at the ice mage to launch a combo attack skill.

“Bad” (left paw)

“Bad” (right paw)

“Bite”

“Furious Smash”

4 consecutive strokes, the ice mage was killed more than 4 million health, and the rage critical hit is a fly-knowing skill, flying the ice mage upside down to the ground in the far fog.

“Wild displacement”

A green light from Lawrence's body flashed behind Ice Mage.

"Barbaric Roar"

Ice Mage is stunned for 2 seconds.

"Chaotic Star Fall"

22 pops fell from the sky at the same time, all hit the ice mage's body, hitting 2.09 million injuries.

"March March: New Moon-Full Moon-Half Moon"

Just after the ice mage woke up, Lawrence Ban will be the son of the forest, three consecutive moves to retreat the ice mage.

"Purple Lotus Staff"

Lawrence in the form of a leopard emitted a purple light at the ice mage, right in the middle of the ice mage's body, and then Lawrence rushed to the ice mage, biting for 5 seconds in a row.

System prompt: Lawrence wins the game!

Mage Bing stood in a stunned place, looking at the news that he had only 1 point of blood left and the system prompting defeat, and asked, "How do you know where I am in the ice fog?"

Lawrence changed back to human form, pointed to his ear, and said, "This is also to deal with Lu Yang. His water mage's assassination of water mist. In order to deal with Lu Yang, I specially did special training, anyone at 100 meters I can make a precise prediction of the location where a sound is heard from any place within this area. "

Master Bing sighed and said, "It looks like I've used Cannon Fodder for Lu Yang, and I've tested out all your killing moves."

Lawrence shrugged his shoulders and said, "To each other, did Wall Taro test out all of Lu Yang's skills?"

Mage Bing no longer spoke, and quit the game.

Dubin watched the two walk out of the game warehouse and said excitedly: "Please come to me."

Lawrence and Mage Ice came to Dubin's side.

Dubin looked at Master Bing and asked, "What do you think of this game?"

Mage Bing said: "Lawrence is superior and I have nothing to say."

Dubin looked at Lawrence.

Lawrence pointed to the big screen and said, "Lu Yang, tomorrow I will officially challenge your status as the number one in the world. I am ready, what about you?"

Exclaimed the audience.

Inside the live room.

"Haha, Lawrence actually sent a war to Lu Yang. This is incredible. It seems he has absolute confidence." The American host said in surprise.

"It seems that the ownership of this championship is really likely to be replaced. Lawrence even cracked the water mist of Lu Yang's assassination." The Italian commentator said.

“Look forward, everyone, please look forward to tomorrow. It will be a century war. Will the world’s first name belong to Lu Yang or the Druid Lawrence? If Lawrence can succeed, he will be the king of the forest.” The French commentator is excited Said.

VIP room.

The White Lion looked at Lu Yang and said, “Boss, he provokes you.”

Lu Yang smiled and said, “I’ll meet him tomorrow.”

“Boss, are you not confident?” Asked bitter love for a long time.

Lu Yang finds that there is a problem with the boy who loves bitter life. If Lu Yang is very confident, he has absolute confidence for half a life. If Lu Yang says no confidence, the strength of half-life will be 20% off.

“You can’t make me humble, I will kill him tomorrow, the fastest time is only 10 seconds.” Lu Yang said.

Love half a life: “...”

White Lion: “...”

Zhou Tianming: “...”

Everyone is speechless. Who can believe that the world’s second best master will be solved by Lu Yang within 10 seconds?

Lu Yang said, “Don’t think about me, you’re all playing games. Don’t play for more than two years. In the third finals, you won the second place, which is shameful.”

This year was the strongest year of the Jagged Brothers Alliance. The three brothers of the Bai family, the two brothers Zhou Tianming, the half-life fivesome, the Hanyu fivesome, the three sister Hanying, Mu Yu and Xiao Liang all entered. The semi-finals are a big year for the Jagged Brothers League. All of them have won the championships and have a great chance.

“The boss is assured that he will win the championship.” Said bitter love for a long time.

Lu Yang is very satisfied with the momentum that bitter love has raised for half a lifetime, and said, “Yes, you are ready to go to the competition. It’s your turn.”

The next is a five-person competition. Half-life bitter lovers and Han Yu take their teams to prepare.

Lu Yang sat in the room and closed his eyes to rest.

“Jingle Bell”

The phone rang, he picked it up and smiled.

“Little cute, what’s the matter with me?” Lu Yang asked by pressing the connect button.

The cute queen puffed her mouth and said on the other side of the phone, “I’m the cute queen, the cute queen.”

“I know, cute, what’s the matter?” Lu Yang asked.

The cute queen rolled her eyes and said, “With regard to the conditions, I have decided that I will merge into the Jagged Brotherhood.”

Lu Yang Yile asked, “How do you want to merge?”

The cute queen said: "I only have one main city now, and now I want 50% of the shares in three main cities. Do you agree?"

Lu Yang laughed at the interrogation of the lovely queen and said, "I really have this idea."

The cute queen said, "Yeah, I can't beat you anyway, it's better to be with you, whoever you will meet in the future, I will follow you, just hope for one thing."

Lu Yang guessed that the little girl had other things, and asked, "Did you want you to knock down the shares of the main city?"

The cute queen immediately made a grinning voice and said, "It is indeed President Lu Yang. You have guessed everything."

Lu Yang shook his head helplessly and said, "I agree. When I return to Donghai a week later, you will come to sign a contract with me. Also, you need to come to my studio to work, you can bring 10 A subordinate. "

"Oh ~!" The cute queen exclaimed, "Thank you Boss Luyang, I will be faithful to work for you in the future."

Lu Yang said with a smile: "I will give you a job now."

"What job? Did I find a chance to ascend to the sky?" Asked the cute queen.

Lu Yang said, "Gather Turkish and Greek intelligence and optimize player equipment for their profession."

"Greece and Turkey? Not one step up." The cute queen thought she heard it wrong.

Lu Yang sneered and said, "Work as I asked, not many questions."

“Oh ~~!” The cute queen responded weakly, and hung up the phone after talking to Lu Yang for a while.

“Big sister, what did Lu Yang say?” A 20-year-old girl player asked curiously.

The cute queen proudly said, “Of course I agree.”

“Great, we will be part of the Jagged Brotherhood from now on.” The girl said excitedly.

The lovely queen said, “Don’t say anything about this. You must not let others know. Otherwise, one step to the sky will destroy us when Landing Yang does not return.”

The girl quickly covered her mouth.

“Listen to me, you take someone to collect Greek and Turkish information, the most detailed, but do not let people know that we are checking them.” Said the lovely queen.

“No problem.” The girl checked.

Inside the VIP room.

Tu Feng asked: “Are the cute queens agreed?”

Lu Yang nodded and said, “For one step to the sky, we should also close the net, it is time to clean up this bastard.”

Tu Feng asked, “But you don’t seem to have the idea of using Korean players, Nine Stars, and Indian players to participate in the war?”

Lu Yang said: “Investigating the information of the Turkish and Greek troops is a test I arranged for the cute queen. I want to know if he is a quaint but powerful woman like the rumors outside the world.”

Tu Feng was surprised and asked with a smile: "You want to reuse him?"

Lu Yang nodded and said, "It's time to promote some new people. Look here."

He opened the watch on his arm and chose a three-dimensional projection screen. A map of the new continent appeared in the air. Outside the northeast region, he stepped west to connect Turkey and Greece, and south Africa and Britain to the west, and Italy to the west. , France, Spain.

"If we kill one step to the sky, it will be necessary to face the super guilds of several countries, such as Germany, Turkey, Greece, and the United Kingdom. In this way, we must arrange a large number of players to defend the main city in each direction." Lu Yang said .

In the past, the Jagged Brothers League hid in the northeast region and only needed to defend two main cities. This time, Lu Yang would face five super guilds and defend five main cities at the same time.

After that, Lu Yang will continue to attack, the more he fights back, the more enemies he faces. When there was the most in the last life, once a guild had to face the siege of 12 guilds. If Lu Yang did not make this preparation in advance, When the guild becomes more and more powerful in the future, there will be insufficient staff.

Leaving aside the future, only to say that after one step to the sky, Lu Yang will defend the five main cities of Tianji City, Wuyue City, Lanyue City and Cardinal City, and Tianjian Fortress.

The defender of the Tianjian Fortress must be filled with muddy wine. For any one, Lu Yang is not assured. However, the muddy wine must not only defend the Tianjian Fortress, but also go out to attack the German Steige Guild. This requires people to go. To assist him, in Lu Yang's mind, this man is the brother of Zhou Tianming and Zhou Tianyan, but they will not take the turbid wine, they can only choose the second person and shoot Sirius.

The two brothers, Zhou Tianming and Zhou Tianyan, will be used as defenders of one side, and Lu Yang will be arranged in Cardinal City to confront the blood butcher.

Tianyao will be arranged by Lu Yang as the commander of Lanyue City, attacking the Greek guild from Lanyue city, while guarding the Indian guild below.

One of the defensive officers of Tianji City is Baixi Sanxiong, and the defender of Wuyue City is Lu Yang, who will attack the South African Super Guild.

There are people attacking from the outside and people need to defend from the inside. Lu Yang's arrangement is to arrange the remaining vice presidents of the Jagged Brothers Alliance to be the city masters, and one person is responsible for the safety of one main city or two to three main cities.

As for the Indian region and the South Korean region, Lu Yang must let them participate in the battle, and it is the main combat force. However, many players need to be kept inside to defend, especially when Lu Yang needs to build a new batch of main cities in the 140-level area. Their defense prevented them from coming out for the time being.

In this way, Lu Yang's manpower is seriously insufficient, which is why Lu Yang thought of training some talents.

Tu Feng said, "Understand. Give me the logistics. There will be no leaks."

Lu Yang nodded and said: "You go to gather the elite players we recruited this time, I will say a few words to them in the game."

During this contest, Lu Yang asked Tu Feng to recruit a lot of top 100 players, and has now gathered more than 100 people.

He put on his helmet and entered the game. The black and white people around him were immediately on high alert to prevent anyone from making trouble.

The light flashed.

Lu Yang appeared in the Iron Blood Brothers Guild of Tianyuan God City. He had just walked into the conference room, and Tu Feng came in with 112 players.

“Boss is good,” Tu Feng said.

“Boss is good,” shouted 112 people together.

Lu Yang smiled and said, “Sit down, I will call you over today to say two things.”

The crowds took their places and sat down.

Lu Yang waited for them to sit down and said, “Beginning today, your main task is to study the Raiders and bugs of various level 140 and above in the game with a team of three. I will provide you with sufficient manpower. Come to find out, who will find a strategy that can get through the nightmare copy, I will give him a reward of 100,000 yuan. “

“Wow!” 112 exclaimed.

Lu Yang gives them a salary of 10,000 per month, and provides five insurances and one fund. In the case of providing various resources, find a way to pass a dark gold copy and give 100,000 cash rewards. This pair They are too well paid.

“The second thing is that you belong to the special operations team of the guild. It is not under the management of any vice chairman or legionnaire. It only obeys the management of Tu Feng. Tu Feng will be your immediate superior afterwards. Go to work, but you must be on call and be prepared to participate in the war at any time. “Lu Yang said.

Everyone nodded.

Lu Yang was more satisfied with their performance and said, “Fu Feng is responsible for the rest, and I only listen to the results.”

Tu Feng said: “Boss rest assured that the follow-up matters will be left to me to manage.”

These people are not yet members of the Jagged Brothers Alliance are only peripheral members, they need to prove with their true strength that they are qualified to work for the Jagged Brothers Alliance.

Only after finding three copies of the nightmare-level customs clearance method can any group be eligible to officially become a member of the Jagged Brothers Alliance, can join the Jagged Brothers studio, and have an independent workplace.

Lu Yang left the conference room and came to the president's office on the 6th floor. Partu, Karp and Li Wenxing, Sad Fan Qiufeng, Pope I, God of War I, and others had arrived and were sitting in chairs chatting.

"Boss is good." The group saw Lu Yang coming, and stood up and asked.

Lu Yang motioned them to sit down, returned to his seat, and said, "How about, do you have any problems in the near future?"

"There is no problem in India," Padu said.

"There is no problem in South Korea." Li Wenxing said.

"There is no problem with the Nine-Star Alliance." Sad Fan Qiufeng said.

Chapter 1183 - Finals start

Lu Yang was very satisfied with their answers. During the start of the arena, these few places under his hands, in other words, were actually colonies, and no changes occurred, proving that these people were serious for him Do things.

“Announce an event. Starting today, I will support you to build a main city in a 140-level area.” Lu Yang said lightly.

When Patou and Li Wenxing heard these words, everyone’s eyes lit up.

“Boss, this is great.” Padu said excitedly.

With this money, she and Karp can more easily gather Indian players, and so are Li Wenxing and Bei Fan Qiufeng, all showing excitement.

Lu Yang said: “This competition is over, and it is time to issue the year-end awards. A few of you will work hard and have a good bonus.”

Although it is only half a year or so, these people have Lu Yang’s promise, and everyone has their own right to 50% of the main city. In terms of income, they can get a lot of money.

“Thank you, Boss.” Partu and others stood up and thanked.

Lu Yang signaled them to be polite and talked with them a few words and then returned to watch the game in reality. On the field, the three brothers Bai Shi and the three brothers Han Ying broke through and won the final ticket. Become the home of the Iron Brotherhood.

“Haha, the White Lion is going to be depressed now, and it is actually fighting with the shadow girl.” Qing Qian Zimeng said with a smile, covering her mouth.

Lu Yang also laughed and said, “Count them three unlucky, but they met Xiaoying in the finals.”

Han Ying, Han Fei and Han Yu have never stopped training in reality. Han Zhong has been training them in accordance with the standards of mercenaries. The impersonal training method does not put a burden on the body. As far as the test of willpower is concerned, the Baixi Sanxiong quit after half a year of training.

In terms of brutality, the three sisters Han Ying had experienced actual combat in the jungles of Southeast Asia, and once led his father to Lu Yang's home while being hunted down.

The courage, wisdom, strength, and experience are all indispensable for their three siblings. In terms of singles, if Lu Yang is not a rebirth and does not know so many routines and tricks, he may not have played Han Ying. After all, Lu Yang's training volume is not so great, but the three of them are still the same.

As for the five-member group, bitter love for half a life also encountered the same problem. Their final opponent was the Han Yu five-member group. Those five were adopted by Han Zhong, according to the children trained by the mercenaries. If Han Ying had their training, when Han Zhong got seven points of true biography, Han Yu and they got ten percent of the true biography.

At that time, Han Zhong taught Han Ying that they had been fleeing all the way under the circumstances of being forced to teach, and Han Yu and they had taught them at the best age after Han Zhong had enough time.

At present, ten of Han Yu's are not physically mature. There is still a lack in the face of the three sisters of Han Ying. In the game, they are brothers and sisters, and they are top masters. This time only five people were sent out. Five people have to manage other people in the studio, otherwise, the top three of these five teams may be brothers of the Jagged Brothers.

In the doubles match, Xiao Liang and Mu Yu lost in the quarterfinals, and Zhou Tianming and Zhou Tianyan reached the final.

At the end of the game in the afternoon, the group returned to the hotel, and Sanshi Bai's face looked at the smiling faces of Hanying Sansi with a sad look.

"Brother, otherwise we'll just let it go tomorrow. It's just going to be beaten if you go up." Bai Lang said depressed.

Bai Hu said with tears: "I think so, too, but I can't beat it in the game."

The white lion was also depressed.

Han Ying proudly walked in front of the three of them and said, "Let's play less with me, sister, but I know it well. The three of you are highly motivated and will never give up. Don't try to lie to us."

"Uh....."

"Uh....."

"Uh....."

The white lion's three-man gods are in sync, showing a smiley expression.

"It's over, the plan failed." Bai Hu said.

"Forget it, play tomorrow." White Lion said.

"I have to." The white wolf bowed his head and sighed.

Everyone laughed.

On the other hand, bitter love for half a life was also coaxing Han Yu and they were spotted, and the crowd made a hilarious laugh.

Lu Yang said: "Let's play as a practice match, and it's not that bad for the money. The difference in strength between your two sides is not too big. Whoever wins or loses cannot be counted by the data, it depends on the situation."

The White Lion and others nodded.

Black and white came over and said, "Boss, I have already installed a monitor in Lawrence's room. He just finished talking with Liu Jie."

"What did you say?" Lu Yang asked.

"Liu Jie temporarily stopped his attack on us, and instead vigorously developed new main cities. It is expected to build 66 main cities with 140 maps.

As for attacking us, Steiger recently met with Liu Jie. If Lawrence wins you, he will announce that he is a player under Steiger. Steiger is going to join the tiger fortress and the sky to attack again. Sword stronghold, this time the two strongholds fight together. Said Black and White.

"I'm really impatient," said Guai, gritting his teeth for a long time.

"Our player level has now reached a level of 140, and a large number of them are around level 139. Boss, taking advantage of this opportunity, let's beat Steig once and persuade him, how about it?" White Lion asked.

Lu Yang smiled and shook his head, saying, "Don't, our staff hasn't developed yet. Even if we defeat them, we can't defend it. It's not suitable. Let them mad for a while. I'll kill this Lawrence Besides. "

Everyone nodded.

No words overnight.

Early morning.

Lu Yang took the team to the Swiss Arena Center. At this time, the staff at the venue had brought four golden trophies, which were placed under the big screen of the podium.

The court was filled with people. Nearly 2 million people who had no tickets to enter the field were crowded in the field. Their shouts made the field clear.

“Fire Emperor”

“Fire Emperor”

“Fire Emperor”

...

That unified shout made Lu Yang’s whole body blood boil while he was preparing, and the white lion and Zhou Tianming and others also looked at Lu Yang in admiration. The self-confidence and powerful strength of his body was Zhou Tianming and White Lion and others are willing to follow the key of Lu Yang.

Live TV.

The host in the United States was looking at the big screen, which was a live aerial picture of a helicopter. Millions of people shouted in unison, shocking him.

“God, I’m not mistaken. Is this a cheer to Lu Yang alone? His charm is so great?” Thomson’s face was incredible.

“It’s incredible. Lu Yang has such a high popularity. If he wins the championship again this year, he will have three consecutive championships. It will also become a legend in” Second World “.” In another live broadcast room, German host Kay Eun said.

“I’m really curious what his opponent is doing now. I don’t know if it will be affected. This voice is too strong.” Said the Italian host Roberto.

In the competition room.

Lawrence was closing his eyes and musing something in his mouth, as if he had not been affected by the outside world. If anyone saw it, he would find him praying.

The live broadcast began.

Dubin stepped onto the stage in excitement, facing the 100,000 spectators and countless cameras in the venue, said excitedly: "Welcome everyone to watch the" Second World "Global Competition Finals. This is the scene of the finals. I am the host Dubin. "

Cheers rose on the court.

Dubin went on to say: "According to the rules of the game, today 's first game is a five-person game, with the bitter half-playing five-person team of the China Iron and Steel Brothers Association, playing against the Han Yu five-person team that is also China Brothers . "

In order to gain ratings, the "Second World" official had to postpone Lu Yang's game. The first player to play was Lu Yang, but his voice was too high. The official feared that after Lu Yang won the crown of the Fire Emperor, the audience would only care about it. Celebrating, and forgetting the others.

VIP room.

Lu Yang said to bitter love half-life and Han Yu: "Defense on the court, don't be a teammate, use whatever tricks you have."

Nodded on both sides.

Lu Yang went on to say: "However, you are friends and colleagues off the field, and there is nothing to do. If you both dare to conflict because of the competition, I will send you both to wasteland in Siberia."

Love half a life: "..."

Han Yu: "..."

“Boss, don’t you really have this idea?” Asked bitterly for half a life.

Lu Yang said, “Boss recently, I want to send an individual to form a guild in Russia, so that the * in the nine-star alliance are more honest, no one is going to worry about it, not only you, but also the White Lion and Han Ying. Infight, go together from either side. “

The four teams had a black line in their heads, and others laughed.

The bitter love half-life and Han Yu walked out of the room together and went out, but they all thanked Lu Yang, White Lion, Zhou Tianming and others for seeing it. As long as Lu Yang was in the Iron Brotherhood, this guild No one dares to make trouble, and no one dares to say no.

On the field.

When Du Bin saw both parties coming, he excitedly introduced the bitter love half-life and Han Yu, and then invited the two parties to enter the game warehouse.

The light flashed and the battle on both sides began.

The half-life bitter side of the game is to gather the advantages of firepower. First kill Han Yu and one of them. Han Yu also has this idea. The two sides are extremely passionate, but both sides are top masters. Fully, if there is a problem, someone will come to fill the position. As a result, the two sides played for more than 20 minutes to separate the winner. In the end, the bitter love won the game for half a lifetime.

“Wow ha ha ha, **** is still hot, we win.” Love bitterly laughed.

Han Yu said, “Wait, I will beat you next year.”

“Half brother is waiting.”

The players on the field and off the field laughed, and just spent half of their life using a routine commonly used in the national warfare. The defense suddenly turned into an offense. After playing Han Yu, they were caught off guard and fortunately won the game.

The second game begins.

The appearance of the three White Lion brothers and the three sister Han Ying was another civil war. After a battle, the three sister Han Ying won the game.

Unlike Han Yu, they have less experience on the battlefield. Han Ying's three brothers have as much experience on the battlefield as Bai's Sanxiong. They all started with Lu Yang from the earliest to the present. Therefore, Bai's Sanxiong's strength is slightly inferior. In the case, there was no suspense.

In the last game of Zhou Tianming's duo, the opponent of this game was two Japanese players. The two sides played for half an hour before they scored. In the end, Zhou Tianming and Zhou Taiyan only won. Made a move.

If Zhou Tianming's knife is a bit slower than Japanese players, the winner will be Japanese players, but fortunately, Zhou Tianming's two brothers won.

"Wow, in the four finals, Huaxia won three games, and all of them were won by the Jagged Brothers Alliance. I can't imagine that the Jagged Brothers Alliance has such powerful strength." Dubin said excitedly.

Players on the floor did not buy the bill and shouted in unison.

"Fire Emperor"

"Fire Emperor"

"Fire Emperor"

...

Everyone knows that when the finals of the individual match arrive, Lu Yang and Lawrence will decide the final championship. This also determines whether Lu Yang can become a three-time champion, and Lawrence can pick Lu Yang out of the altar.

VIP room.

“Please contestant Lu Yang to get on the field and get ready for battle.” A voice came from the broadcast.

Lu Yang stood up and walked out of the room following the crowd, and came to the site. At this time, Lu Yang was surrounded by stars.

Love for half a life, Han Yu, Bai Xi Sanxiong, Han Ying three siblings, Zhou Tianming two brothers and so on are all world champions. Under this flash of light, Lu Yang makes people admire even more.

“Lu Yang is here, he is here, he is so handsome, he is surrounded by champions, and he is number one in the world.” In the live broadcast room of Huaxia, the host shouted excitedly.

Hosts from all countries focused on Lu Yang, but Lawrence, who played at the same time, did not receive any attention.

Dubin stood in the center of the stage and asked them to walk to his sides. He looked at Lawrence and asked, “How about, what do you want to say?”

Lawrence stared at Lu Yang, saying, “Today, I will replace you to become the number one in the world.”

Cheers rose on the court.

Dubin looked at Lu Yang and said, “What do you want to say to Lawrence.”

“I hope he can do it,” Lu Yang said.

The audience was uproar.

“Too confident, Lu Yang is too confident.”

“It is indeed the emperor of fire, the emperor of fire is invincible.”

...

The audience screamed, and Lawrence looked at Lu Yang with disapproval.

Lu Yang’s Yu Guang saw Lawrence’s expression and a smile appeared on his face. He didn’t care about Lawrence. Before the player did not reach level 200 and did not learn all the attack routines, he wanted to win him.

“I asked two people to enter the game warehouse and prepare for the game.” Dubin said.

Lu Yang turned around and walked into the game warehouse. He did not take Lawrence seriously, and Lawrence also entered the game warehouse.

The light flashed.

The two appeared in a circular arena.

“The fairest venue, the fairest venue, there is no advantage and no disadvantage between the two of them, and they completely compete.” Dubin shouted.

On the court.

Lawrence looked at Lu Yang excitedly and said, "I wanted to compete with you for a conscious operation very early. I never thought there was such an opportunity. Haha, today I will let you see what is extreme operation."

Lu Yang stood at a distance of 50 meters from Lawrence and said, "Okay, let me see your strength and whether you have the capital to win me."

"Children of the Forest"

Lawrence instantly turned into the shape of a deer man, with a deep green light in his hands, and pressed his hands to the ground.

"Thorn Forest"

With Lawrence as the center, all thorns grass grew within a range of 100 meters. Among them, thorns also appeared at the foot of Lu Yang. While controlling him in place, it also broke the effect of the emperor Yupei.

“Second forbidden spell, the evolutionary skill of special magic big thorns, the forest of thorns, Lawrence zoomed in as soon as the game started.” The voice of the host Dubin came.

Lu Yang snorted, watching the thorns that had just disappeared because of the emperor Yupei climbed up to his feet again, and said, “Did you know that in all occupations, I am most afraid of Druids, especially the children of the forest? Bloody Druid. “

Lawrence frowned, and asked, “What do you mean?”

Lu Yang said: “Because your skills have been defeated by me, if you meet me, you have no chance of victory.”

“flicker”

Lu Yang uttered a spell in his mouth, his body turned into a white light and disappeared in place. Lawrence quickly noticed behind him, but he found that Lu Yang appeared at an oblique rear position of his body, which was the most hated position of the son of the forest.

“Purple Lotus Staff”

Lawrence responded quickly in this situation, his body did not turn around, and his left hand threw a purple light toward the landing sun.

The players in the field exclaimed, and at this moment, when everyone thought that Lu Yang was going to be blocked by the purple lotus.

“Ice Guard”

Lu Yang’s whole body was covered with ice cubes, and his life-saving skills were activated at the moment when Lawrence launched the Purple Lotus Staff. The body was frozen in the ice cubes The purple rays hit the ice cubes without posing a threat.

Lawrence was stunned, he thought that Lu Yang would directly release Lie Yangquan to him and fly him out. If that was the case, he had previously received special training to deal with Lie Yangquan. If he was hit, he would also Can launch purple lotus staff on Lu Yang in mid-air.

Lu Yang used to use the Lie Yang fist to hit the sky for three consecutive hits and comet strikes. He did not want to be taken away by Lu Yang. Therefore, in a hurry, he launched a purple lotus staff, but he did not expect Lu Yang to This time, he did not follow the routine, and flashed over to launch the skill of ice protection, which was immune to his attack at this moment.

“I can’t think of it.” Lu Yang sneered in the ice cube and said to Lawrence.

“So what? Your two life-saving skills have been handed over. Now as long as you dare to disarm the refrigerator or use the residual flames to escape, I can hit you with Sirius and you are dead.” Lawrence said proudly .

A smile appeared on Lu Yang’s face and said, “Maybe.”

Chapter 1184 - champion

“Remnant Flame”

Lu Yang’s mouth spelled out, a crimson flame flew out of the ice cube, and flew out 20 meters away.

Lawrence looked subconsciously towards the red light behind him, because the distance was short, and he only reached the place in an instant, and Lawrence was about to turn back.

“activation”

Lu Yang roared, his body turned into a red light and flew out of the ice, but at the moment of flying out, an ice-blue light was mixed in the flames and remained in place.

The audience suddenly stood up, all excited.

“Lu Yang started Can Yan, he started Can Yan, if he landed on Can Yan, he would be hit by Lawrence’s Sirius. If Lu Yang was hit, etc., Lu Yang was using Can Yan The moment I flew out, I left an escape dagger in the place. It was an escape dagger. It was the same operation as the god. “In the live broadcast room, domestic commentators almost shouted out with a roar.

Lawrence just turned around and saw Lu Yang launching the Remnant Fire skill. He didn’t even turn back to look at Lu Yang in the ice cube. The left hand of the subconsciously pointed to the fall point of Remnant Fire.

“Sirius Falls”

A purple-white light shot down in the sky, and a smile appeared on Lawrence’s face. His next stroke, March and Lance, was ready, but at this moment.

“Escape The Dagger”

Lu Yang suddenly disappeared with a red light under the state of Can Yan. Lawrence just felt a space-time shock coming from behind him, and he looked back quickly, just seeing Lu Yang’s sloppy face.

“The Sun Fist”

As soon as Lu Yang landed, his body continued to fly towards the landing point of the residual flames under the activation of the residual flames. At that moment, the tearing of consciousness caused Lu Yang’s face to become distorted.

In this case, Lu Yang’s control of consciousness has been minimal, but he has tried to launch Lie Yang Quan skills in this state.

He just threw out the escape dagger just 1 meter behind Lawrence. If he just appeared at the escape dagger position, he would start the fiery sun fist. Within 0.1 seconds, his fist would be carried by the residual flame activation state. Rush to Lawrence.

“嘭”

Lu Yang punched Lawrence's body with a punch in his left hand.

“1500000” (triple crit)

Lawrence's body was blown up, and the moment he saw the injury in the audience, Dubin couldn't help shouting excitedly: “Lawrence didn't wear law resistance equipment. The gemstone in his body was not law resistance gem, and Lu Yang stabilized. “

“嘭”

Lu Yang landed in a strong discomfort, he watched as Lawrence flew up to him.

“The sun hood-flame slashed as a split”

Lu Yang's spell was read continuously, and a red fire hood appeared on his body, followed by a finger in front of his staff.

“call out”

A humanoid flame flew forward and hit Lawrence just before landing.

“500000”

The moment Lu Yang was hit, Lawrence spelled it out.

“Resistant Fire Ring”

A reddish light suddenly burst out from Lu Yang’s body, in the middle of the footsteps of Lawrence.

“嘭”

Lawrence only felt his body shake and flew backwards, and he was injured by the sun mask every distance he flew.

After flying a distance of 10 meters and taking 10 injuries, Lawrence was killed by Lu Yang for 5 million health.

“Earth to Earth”

Lawrence had just landed, and a flame rose to the sky, kicking him backwards and flying out more than 10 meters.

“Remnant Flame-Activated”

Lu Yang flew back a distance of 10 meters, and read the spell in his mouth.

“Comet Impact”

A crimson comet flew out of Lu Yang’s hands and shot towards Lawrence in the air.

“9500000”

Lawrence was hit straight by the comet.

“Earth to Earth”

A fiery sky blasted into the sky and flew Lawrence, who had just landed, again.

The audience was already cheered. Once Lu Yang used this set of combos, it meant that the enemy was about to be defeated and died. The main reason was that Lu Yang’s set of skills were all flying skills, not stun skills.

If you are dizzy, you can use the badge to unlock it. You can use the flying skill. The badge cannot be unlocked. This is also an advantage of the fire method compared to the ice method.

“Lawrence has already lost more than 7 million of his blood. His blood was about 11 million before. If it is still the same, he will definitely die.” Tong Tong shouted excitedly during the live broadcast.

“Remnant Flame-Activated”

Lu Yang continued to recede a distance of 10 meters, and read the mantra in his mouth.

“Earth to Earth”

The third ground fire hit Lawrence, once again crashing him 10 meters away.

“Destroy the Sky”

Lu Yang read a spell in his mouth, and a red light flew up from his body into the sky. When Lawrence flew halfway, the sky-extinguishing fire in the sky fell and hit his body.

“860000”

Lu Yang's mouth spelled out.

“Remnant Flame-Activated”

He flew backwards at a speed of 30 meters.

“Comet Impact”

When Lawrence was about to land, a red-colored comet hit Lawrence's body.

“4750000”

The audience was already cheering, even if Lawrence had more blood and was hit by Lu Yang's set of skills, he would have blood. As long as Lu Yang jumped in front of Lawrence, he stunned him with a flame shock, and then stunned him. Launching the two skills of nuclear explosion and destruction of artillery, basically Lawrence is the end of death.

Lu Yang also thought so. Just as he was about to launch his skills, suddenly, Lu Yang stopped abruptly in his place. In his head, he suddenly remembered the time of the third competition in the last life. He The current picture is almost exactly the same as the picture at the time, and the other party seems to be a druid. At that time, the player was already dead and rushed up, but no one expected that there was another druid. trick.

“Soul Exchange”

The meaning of this skill is one, change blood!

Lu Yang's health is exchanged to Druid, and Druid's health is exchanged to Lu Yang. Druid's health does not seem to be much, but he must have hit a blood gem enough to support Lu Yang's output. At the end, if Lawrence had it, Lu Yang would capsize in the gutter.

“Good boy, I almost thought it over to you.” Lu Yang said, looking at Lawrence with a look of surprise on the spot.

Lawrence frowned, and said, “How can I plot you?”

Lu Yang sneered and said, “Do you have a soul-swapping stunt?”

Lawrence was instantly stunned and asked, “How do you know?”

Lu Yang sneered again, saying, “Fortunately, I stopped, or you were secretly killed, and you really have a big move.”

Lawrence smiled and gave himself several blood-adding skills in a row, saying, “It is indeed a two-time world champion. Yes, I do have a soul swapping stunt on my body, and in order to release this trick, I deliberately put my All of the gemstones in France have been replaced with blood gems, supporting 8 million health, enough to keep you from losing me in seconds. “

Lu Yang clapped his hands and said, “Smart, you almost succeeded.”

Players inside and outside the field saw the two talking about the soul-swapping stunt. There are very few players who know this stunt.

“Why did Lu Yang stop?”

“What is the soul exchange. It’s just such a good opportunity. Lu Yang should have rushed to him for a second. Isn’t this a win?”

“It’s incredible, aren’t the two playing fake matches?”

...

Players on and off the court have already started clamoring. Fortunately, at this time, Dubin's voice appeared in time.

“Audience friends, let me explain to you that the special feature of soul exchange is to exchange the two's existing health, armor, and state special equipment. It is a consumable item. It can only be used five times in total and once per consumption. It was unexpected that Lawrence had such a treasure. ”

The audience was shocked, and this made them understand why Lu Yang didn't come forward.

“It's so insidious.”

“It's dangerous, if you go up, you're dead.”

...

In the discussion of the players, Lawrence looked at Lu Yang proudly and said, “What else can you do to defeat me now? As long as I'm out of blood, you can't seconds me, I will change blood when I am close, and I will add blood by myself. It wo n't kill me, and I do n't have to take any medicine. It 's enough to restore blue. ”

This is the annoying part of Druid. Once he wants to turtle, with the help of this top-level stunt, he can help others to do nothing about him.

Lu Yang thought for a while and said, “Yes, you are more powerful, but it is not difficult to kill you. Do you know why?”

“Kill me? Why are you?” Lawrence said mockingly.

Lu Yang laughed and read the spell in his mouth.

“Summon avatar”

Three rays of light flashed, and three avatars appeared beside Lu Yang.

Exclaimed the audience.

“Aren’t there only 2 avatars?”

“Why is there a third? Lu Yang has three clones!”

“New discovery, three avatars, including Lu Yang are 4 people, 4 control skills!”

...

The players are boiling.

Lawrence’s face did not have a dignified look, but said with a sneer: “I’ll wait for your three avatars. Although one more is added, it is not important. As long as you are avatars, it is your death.”

He also has two secondary forbidden spells and one big forbidden spell. If he doesn’t use them, he will wait for the two lands of Landing Yang. If he has a little strength, he will be killed in seconds.

“Thousands of Trees”

Lawrence said in his mouth that suddenly the entire site shook, countless large trees were drilled from the ground, and madly trapped Lu Yang and his three avatars. The huge trunk made it difficult for Lu Yang to move.

“Instant curse, with this?”

“It’s too strong.”

“I trust, Lu Yang’s blood is going crazy.”

...

Players have found a problem. This Wanshu enchantment not only controls, but also destroys Lu Yang’s 500,000 health every second.

At the same time, Lu Yang’s body and avatar lost 500,000 blood at the same time, which put great pressure on Lu Yang, because Lu Yang only had a backpack, but he had to bear 4 lives. In this way, Lu Yang consumed Definitely run out of potions before Lawrence.

But when Lawrence’s face sneered, with Lu Yang as the center, several bright lights burst out suddenly.

“Fire Thunder”

Dozens of fire thunder barrels appeared within a range of 30 meters in diameter and exploded at the same time, breaking all the control trunks of Lu Yang and others.

Four Lu Yangs fell to the ground, and the other three aimed at themselves at the same time to release magic, a burst of white light appeared.

“+828000”

“+828000”

...

“The blood is added, the ring of treatment must be the ring of treatment.” Dubin shouted.

On the court.

Lu Yang looked at Lawrence in the distance, spread his hands, and said, "How about, are there any tricks?"

Lawrence is dumbfounded. What he dumbfounded was not the return of blood by Lu Yang, but the value of Lu Yang's three avatars. Everyone knows that the effect of healing the ring is a first-degree cure, and each time it adds blood to the wound.

Now it's 820,000 added blood, that is to say, all three avatars are wearing purple inflammation suits, and the gems on them must be blood gems.

"Why do you have so many purple inflammation suits?" Lawrence asked incredulously. A normal 160-level sub-artifact set, the chance of trying to build it out is very small, and it is difficult to imagine a set. .

Lawrence had Liu Jie's support behind him to get a leather suit. Liu Jie and Lu Yang were the presidents of the guilds at the same level. He couldn't understand how Lu Yang made three sets.

Lu Yang said, "I'm not like you. I bought it with money. I got this suit from a 160-level Demigod-grade Purple Flame Giant, so I have so many things."

Lawrence is speechless. He can no longer play now. Lu Yang, who has a healing ring in his hand, actually has more treatment than his. As long as Lu Yang has an uncontrolled clone, he can rely on adding blood. Keep it alive, he can't kill Lu Yang.

"Don't be too happy, although I can't kill you, but you can't kill me. We can be more patient than we can. The battle time for this game is 1 hour. After an hour, I will lift up with you. Trophy, "Lawrence scolded.

Lu Yang smiled and said, "You think pretty, wait."

Lu Yang's soul entered the body of Mage Fire Thunder, and the words were spelled out in his mouth.

“Fire Thunder Barrel”

“Thunderbolt”

The two * s were put on the ground by Lu Yang, and so blatantly placed in front of Lawrence’s eyes.

“I want to see, where can you go?” Lu Yang said.

Lawrence panicked. He was really panicked. If Lu Yang superimposed the fire thunder to more than 50, his 19 million health would not be able to carry it, and he would be killed in seconds.

Lu Yang said: “Either play against me or be upright, or wait to be dropped by my fire thunder, don’t forget, I control three avatars at the same time, the reaction speed is not as good as yours.”

Lawrence knew this, but he couldn’t think of a way, simply, while there was still time, he turned into a leopard form, and disappeared to the side.

Lu Yang looked at the disappearing Lawrence with a sneer on his face. Obviously, Lawrence still wanted to rely on the exchange of souls to lose Lu Yang, instead of trying to defeat Lu Yang directly.

“Since you don’t dare fight with me, don’t blame me for being rude.” Lu Yang said the spell.

“Meteor Fire Rain”

Centering on the place where Lawrence just disappeared, a large amount of flame rain fell in the sky and instantly knocked Lawrence out.

“The flames burn out”

The spell in Lu Yang’s mouth was read out again, and the entire venue turned red, and Lawrence’s blood dropped drastically.

Lu Yang aimed at Lawrence and pronounced the third spell. Just when Lawrence read the spell at Lu Yang knew that Lu Yang couldn't let him do this again, he gave himself a bloom of life.

“Wild displacement”

Lawrence appeared instantly on the side of Lu Yang's side, the position of the blind spot of his eyes. At that moment, he became the child of the forest.

“March March: New Moon-Full Moon-Half Moon”

Lu Yang's main body had three strokes in a row, but before Lawrence continued to let go, a strange golden thunder light burst, and a vertigo symbol appeared on Lawrence's head.

“8 seconds, this is the fire control mage's strong control skills. The target will be stunned for 8 seconds. Lu Yang will win.” Du Bin shouted.

“Remnant Flame-Activated”

Lu Yang jumped back to Lawrence in an instant, and read the spell in his mouth.

“Naruto”

Falling 22 small fireballs in the sky hit Lawrence's body.

“11000”

“11000”

...

22 beat Lawrence's 2.2 million HP.

“Remnant Flame-Activated”

Lu Yang jumped to a position 100 meters away and uttered a spell in his mouth.

“Comet Impact”

“Comet Impact”

After two consecutive comets hit and hit, Lu Yang's staff pointed at Lawrence.

“Great Ancestor of Fire ...”

Two comets hit Lawrence's body, killing nearly 10 million lives, and then 4 seconds later, Lawrence woke up.

“Water Jail”

Lu Yang's water mage jumped in front of Lawrence, and with one finger in his left hand, he controlled Lawrence in the water cell.

Four seconds later, a huge reddish meteorite fell in the sky, hitting Lawrence's body.

“flicker”

Lu Yang jumped in front of Lawrence.

“Resistant Fire Ring”

Lawrence was collapsed and flew back to Lu Yang’s fire thunder mage.

“Detonate”

Eight fire mines and eight lightning bombs exploded simultaneously.

System prompt: Lu Yang wins the game

Lu Yang wins the championship of the third global competition

In the competition venue, fireworks and fireworks burst into the sky, and numerous flowers appeared on the ground.

With a smile on Lu Yang’s face, he ignored the loser, Lawrence, and chose to quit the game.

“Please, Lu Yang, the champion of the third contest,” Dubin screamed excitedly.

The audience was crazy, and they stood up and cheered.

“Fire Emperor”

“Fire Emperor”

“Fire Emperor”

...

Lu Yang bowed deeply to the players around him said: "Thank you for your encouragement, as well as off-site players, and all players who support me, thank you."

The players outside the field were already crazy, and they heard Lu Yang's words even more screaming. Only the two words "Fire Emperor" could be heard inside and outside the arena.

Feeling the atmosphere of the scene, Du Bin looked at Lu Yang with emotion and said, "Just a few more words, you don't like publicity, everyone wants to see you, only the venue of the competition every year."

Lu Yang took the microphone and signaled the players to stop. He said, "Be a propaganda, the Iron Brotherhood will soon open the main city of the 140-level map. By then, the Iron Brotherhood will be the most powerful guild in the New World, and it also has Guilds with the most cities.

Here, everyone will not be bullied by the Grand Guild, and there will be no leveling in the reserved field. Only everyone will play the game with joy, thank you. "

Chapter 1185 - Dross fort

The city owners who are watching the live broadcast gritted Lu Yang's hate, and the battle in the New World was largely a competition for player resources.

At this stage, players are mainly upgrading in Tianyuan God City, because the strangers there are better to play, but the same, Tianyuan God City carrying billions of players, has made the place crowded, the real upgrade effect is not better than the outside.

Many players want to return to the new world to upgrade, but the outside world is too messy, killing and robbing monsters and killing treasures are endless, especially the people who do this kind of things are everywhere, and players want a stable place. No.

If Lu Yang plays this banner, it will inevitably attract a large number of players. Players who have already entered the New World will have some difficulties in going to the territory of the Jagged Brothers Alliance, but players who are near the forces of the Jagged Brothers Alliance can go.

After all, the reputation of the Jagged Brothers League is here. With the golden signboard of Lu Yang, the chance of murder and treasure is greatly reduced.

“After tonight, I will go to the territory of the Jagged Brotherhood.”

“I will not consume it with the grandchildren any more, and go to Luyang to upgrade.”

“Changing places, let’s change places.”

...

The players are talking hot.

Du Bin looked at Lu Yang with excitement. With such a benchmark to set an example for the world, Huaxia’s reputation will become better and better.

“Thanks to President Lu Yang for his speech. The podium is ready, please come to the stage to receive the prize.” Du Bin said.

The staff moved the podium to the center of the stage, and the flowers fluttered in the field. Dubin, the third winner, who was decided earlier, invited the ice cold to the stage.

The official general manager of “Second World” presented Lu Yang with a medal in person and said, “You are the first, so you will get 3 wrath skills and a magic flying carpet. Congratulations.”

Lu Yang shook his fist and said, “Thank you.”

He has been waiting for Wrath skills. If he wants to play legendary weapons, Wrath skills are indispensable. He gave three Wrath skills at one time. Lu Yang feels that he can fight out his legendary masses in large quantities. Weapon.

Unfortunately, although he can't wait, the next time, he has no chance to enter the game. He has to accept official arrangements, interviews, record videos, and publicity. After a busy week, he finally has the opportunity to take the team Return to the East China Sea.

Before he returned, Tu Feng and Lan Yu first returned to Donghai City with other people to deal with things. Therefore, when Lu Yang returned, there was only so much on the table.

"Worry." Lu Yang sat on a chair in the office and looked at a table whose documents had to be processed.

If Lu Yang were allowed to play games, he would have no problem. He could let him handle so many trivial tasks. He was really unwilling.

"I'll rest." Lu Yang said depressed.

Tu Feng stood next to Lu Yang and said helplessly: "Boss, you have been resting for 3 hours this morning, and you have worked less than 1 hour."

Lu Yang leaned on the back of the chair and said with his head up, "I really don't like to do it. These are trivial and unimportant things. How about I hire a special assistant?"

Tu Feng said, "Although it doesn't matter, many of you have to nod your head. You won't have any more authority."

Lu Yang snapped his fingers and said, "It makes sense that I, a person who controls the broad direction, do these little things."

"咚咚咚"

The knock sounded.

Lu Yang looked up, with capable short hair, a small fox-like expression on his face, obviously in his 20s, but wearing a short little girl like a little fairy, came in with a smile on his face.

“Sir, I’ll report it.” The sweet queen, Zhou Tian.

Lu Yang’s eyes lit up and he said, “Just here, I’m looking for you.”

Zhou Tian proudly walked to Lu Yang’s desk and handed a stack of materials to Lu Yang. “This is the Greek and Turkish information you asked me to find. I have given my players training for their players’ professions. If the next war starts, if I only face the Greek or Turkish family, I will win steadily with my current strength. “

Lu Yang smiled and looked at Tu Feng and said, “How about, I’m not wrong, this little girl is smart.”

Zhou Tian proudly said, “That’s right, I’m very good.”

Lu Yang said with satisfaction. Suddenly, Tu Feng had a bad hunch. When he looked at the cute queen, his face was full of regret.

“Ahem, your first assessment is over. Now is your second assessment. Do you see the work on my desk? Let me see if you have the ability to be a commander of hundreds of thousands of people. Take these It was processed within a week. “Lu Yang said.

Tu Feng’s thought of the black line in his brain was really good.

Zhou Tian didn’t know so, his eyes lightened and said, “Can I handle the things of the Jagged Brothers League for you? Great!”

Lu Yang stood up and walked aside and said, “Of course, there will be Tu Feng to teach you specific things. I believe you also know that Tu Feng’s occupation in the Iron Brotherhood, except me, he has the greatest power, you and him to learn hard. I’ll check your work later. “

“Observe, boss.” Zhou Tian’s excited little face was full of smiles.

Lu Yang turned and ran, and as soon as he arrived at the door, Tu Feng’s faint voice sounded.

“Boss, you just left.”

Lu Yang looked back, and Tu Feng was chording his head, embarrassedly hit a haha, and said with a smile, “Come on.”

“嗖”

Lu Yang left, leaving a front line of Tu Feng.

“Just the boss, you’ve lost all your ground.” Tu Feng said depressed.

Zhou Tian blinked his eyes and asked, “Tu Feng, what did you just say?”

Tu Feng sighed and shook his head. “Forget it, no matter that guy, I’ll teach you how to deal with these things.”

Zhou Tian’s expression of hard-working upwards made Tu Feng lament that Lu Yang was too lacking in virtue.

downstairs.

Lu Yang came to his room. After logging in to the game, he couldn’t wait to open the e-mail from the system. In order to prevent Lu Yang from doing a good job of propaganda, he deliberately postponed the gift for a week and let Lu Yang and White Lion Waiting for others to defam.

System prompt: Congratulations to player Lu Yang for winning the global championship. Please check for this prize.

Lu Yang looked at the prizes in the e-mail. There are four kinds of prizes. Three skill books plus a magic flying carpet. The flying carpet is still a rare item, but it is not so special to the entire game.

The emergence of flying druids and fires into phoenixes made the value of flying carpets much lower than before, but it was still a sought-after cargo, and Lu Yang packed it to Blue Feather.

He looked at the remaining three skill books.

“red lotus”

Type: Fire Wrath Magic

Cost: 10 Wrath

Distance: Close

Description: Within a distance of 1 meter, it continuously drops 33 red lotus petals condensed by flames, causing intelligence * 1 damage to the enemy.

This skill doesn't seem to be special. It is worse than a comet strike than damage. But the reason this skill is called an angry skill is that his attack can stun the target, including the Lord and Demigod. The red lotus will stun the target for 0.1 second, and 33 flowers will stun for 3.3 seconds.

Lu Yang looked at the second book.

“Magic Slash”

Type: Fire Fury Skill

Cost: 10 Rage

Distance: Close

Description: A half-moon-shaped flame hits the target, causing intelligence * 10 damage, while flying at a distance of 10 meters, it stuns for 2 seconds.

The biggest effect of this skill is to hit the flying target, so that subsequent skills have a buffering connection time.

Lu Yang looked at the third skill.

Hot Boxing

Type: Fire Fury Skill

Cost: 10 Rage

Distance: Close

Description: A high-concentration explosion flame appears in the hand. After hitting the target, the target will stun and fly backward. The user can choose to let the flame explode immediately, or delay the explosion for 3 seconds. After the explosion, the target is blown into the air, Vertigo for 2 seconds.

Lu Yang nodded with satisfaction. This is another strong control skill. If there were these three skills before the contest, Lu Yang could easily drop Taro and Lawrence in seconds.

“Dididi”

The voice of the intercom came.

Xia Yuwei called and said, "Boss, more and more of us have reached the 140 level, and many of the silver-level equipment is fully equipped. Should we try to make a copy of gold or dark gold?"

Lu Yang smiled and said, "Call them Bai Shi, bitter love half-life, muddy wine and Zhou Tianming, and form a group of 100 people to follow me to fight Dross Fortress. Let's find a way to fight for a copy."

"Yes." Xia Yuwei said brightly.

About 100 vice-chairmen and heads of army, such as Zhuojiu, White Lion, and Half-Life, were assembled at the Iron Blood Brothers headquarters in Tianyuan God City for the first time.

Lu Yang took them to the Seven Stars City, put on a mount, and ran to Dross Castle, a 140-level map.

Dross Castle, the official history is that this is a fortress built by the combination of magic and monsters, intended to fight against the Tianyuan City.

In this castle, you can see monsters in the east and monsters in the west, a castle with a lot of colors.

At present, the monsters outside here have been killed by players. It is difficult to find one. As long as they are brushed out, they will die, because they will drop precious silver ingots. They are one of the auxiliary materials for forging 140-level silver and gold-level equipment. Players who are brushing materials and preparing to enter the copy are waiting here to kill.

Lu Yang and Xia Yuwei came to the copy with their camouflage coats. At this time, a large number of Jagged Brothers players have played the copy here.

This situation has aroused the vigilance of the major super guilds in the New World, because at this time, most of their players' levels are still on their way from 137 to 138.

The ranks of the Jagged Brothers League are more than 2 levels higher than their average. If only a small part, it is still the most.

Therefore, in the area north of the central part of the New World, guilds still in melee have stopped fighting, and are discussing how to raise their ranks.

It is a pity that their negotiations have been mastered by Lu Yang. Tu Feng's report left Lu Yang with a sneer on his face and gave them a comment.

“in vain”

At the entrance of the copy, there are almost only the players of the Jagged Brothers Alliance, with a total number of more than 10 million, playing epic copies, hoping to get some silver-level equipment.

The light flashed.

Lu Yang took the White Lion and others into the copy.

“From the state.” Lu Yang said.

Bai Yiyi left his hand and shouted: “Holy Warframe”

A light shines on Lu Yang and everyone, adding 206,250 armor, which is equivalent to a quarter of the armor of the anti-war.

Originally, it was impossible to increase so much sacred battle armor. According to the restrictions of the game rules, it can only increase more than 30,000 points, but Bai Yiyi has acquired 5 pieces of equipment to increase Ningshen in the whole service for more than a month. War armor has been restored to its maximum value.

Jiang Yunfan came out and shouted, “The tyrant's war will.”

He is Jiang Ze's cousin and the holder of the God of War Heart. Now the God of War Heart level has reached level 6. In order to maximize the skill of the tyrant's war will, he has 5 ice crown battle flags behind him. Lu Yang called before.

“162500”

This is equivalent to giving the White Lions 10% of their physical attack power.

Lu Yang himself is in an intellectual state, Druid Zhang Zicheng is holding the heart of the forest, playing a full attribute state, and the Paladin is playing a full attribute.

Of the 100 people who came, 40 had the heart of God, and the remaining 60 did not have the vice-chairmen and chiefs of the Iron Brotherhood.

“This body state is no different from the equipment reaching level 140.” White Wolf said.

Lu Yang smiled and said, “Of course, after we've finished playing, after you go out, these 40 little guys will be on the side to give all the guild players who have entered the copy, and just follow our play method. Such attributes make it easy for us to push. “

Everyone laughed. This is the highest difficulty level of 140, and the 100-person copy of Nightmare difficulty is the same as the ordinary copy in Lu Yang's mouth.

“Finally, reinforcements have arrived. Everyone pay attention, stop the bridge and don't let them rush out.” A commander in front yelled.

In front of Lu Yang, there is a huge Dross fortress. The fortress is built on an isolated island, and a bridge connecting the isolated island to the land.

The width of the bridge is 50 meters. At the gate of the fortress opposite the bridge, countless bronze corpses are coming out.

Bronze Demon (boss)

Level: 140

Qi and blood: 200000000/2000000000

“I’ll pull it. The start is the boss, and 200 million HP. If they are not equipped enough, they can’t be killed.” Sun Yu said in surprise.

Lu Yang nodded and said: “Zhuojiu, Xiao Liang, Zhang Zibo, Bai Hu, Jiang Yunfan, Wan Zihao, Song Ziyang, Sun Heyang, Liu Yu, Bao Peng, holding the shield and blocking.”

“Yes.” Of the 10 people, except the turbid wine, 4 of them were battlefield commanders, and the remaining 6 newcomers were children of the relatives of the vice chairman and chief of the army. After rigorous training, he becomes the master of the heart of God.

“Melee is standing in the middle of the MT. Lan Yu, Shen Yiyi, and Moonlight listen to the wind. Half of you control the MT, and half of you control the other melee. The legal system is ready to output. You do n’t need to worry too much. These waves are not for us. Difficult.” Lu Yang said.

“Go forward.” Zhuojiu waved his hand and took a group of MTs to the bridge to set a position, one MT at each 5 meters, enough to block the enemy on the bridge.

Han Yu, Han Fei, and others intervened to stand a little later in the anti-war period. The mage and the shooter stood in the third row, and the treatment stood on both sides.

Lu Yang watched the station was completed. He came to the commander on the side of the bridge and said, “Support is in place.”

“Go to war.” The commander roared, and the small artillery and crossbow forces on both sides threw a lot of skills into the castle. Many small artillery bombed the bronze corpses, but only 1 point of blood was forcibly dropped.

The bronze corpse demon, the official introduction is that the humans who have practiced the Huaxia Wugong Dragon Elephant Gong to the 10th floor using the magic method of magic are transformed by the immortal into such a full-body copper-skin iron demon. They have super high physical defense and magic. defense.

Normally, the armor and magic resistance of a bronze corpse monster are around 800,000 and 600,000, which is impossible for many players who have just reached level 140 and are wearing level 130 dark gold equipment.

You can only play before you get the 140 level gold equipment, and only the nightmare copy of the gold equipment is necessary. The following nightmare is only a chance, so the copy here in the previous life is almost stuck for many players.

However, the situation in the previous life is different from that in the previous life. Players in the previous life valued the country’s feelings very much. At that time, several **** guilds such as Liu Jie and Tianyan Alliance collectively sold feelings and seller-nationalism. Country-oriented.

Even if some players reach the south and their country is in the north, they will not join the camp of other countries, but build the main city by themselves.

Because of this, the government made a series of reforms, but these presidents have been selling their feelings, and the players are miserable.

This life is different. Tianyan Alliance was killed before he could sell his feelings. The other guilds did not take the lead and could not sell their feelings.

“Bronze Corpse, attack.” Inside the castle, an immortal with black flames all over his body appeared in mid-air with a left-handed wave. They rushed over.

Lu Yang shouted: “Ice Master prepares, the snowstorm slows down.”

“snowstorm”

“snowstorm”

“Ice Mist”

“Ice Mist”

...

10 ice mages chant a spell at the same time to reduce the movement speed of enemies on the bridge by 50%.

Lu Yang then shouted, “Druids receive thorns.”

Thorns is a reduced version of Big Thorns. The attack distance is only 10 meters. Ten druids such as Debunker are chanting spells at the same time. They release thorn skills in front of people such as Muddy Wine, which has been reduced by 50%. The Copper Corpse’s movement speed was reduced by 50% again. Suddenly, the Copper Corpse’s movement speed became normal 30%.

“Shooter and mage shoot freely.” Lu Yang pointed forward with his right hand.

More than 50 mages and shooters attack collectively, each mage has a damage of about 700,000, and the physics department’s attack power is about 900,000. Under the superimposed damage, blood is still falling fast.

Chapter 1186 - Avengers Set

The bronze corpse demon struck the muddy wine and others, but the blood was not much, and it was easily carried down under the blood of the treatment.

Because the Bronze Demon are all close-ups, there are not many attacking MTs. Even if they only wear a level 130 dark gold suit, they can carry it with the blessing of sacred battle armor. As for the attack, Lu Yangdu No involvement in the attack.

There are 100 bronze corpses, and Lu Yang's team needs to release 20 seconds of magic to kill a wave. There is almost no difficulty, and each kill of a bronze corpse will get 20 reputation rewards.

Basically, I played this copy of the difficulty of the nightmare three times, and the reputation can be worshipped. Normally, I can't increase the respect to the copy. Only by playing the nightmare difficulty can I increase to the worship level.

When worshipped, there will be a 140-level gold ring that can be exchanged for prestige. Unfortunately, the mobs here will not drop gold-level drawings. Otherwise, Luyang's smithy will allow players to equip Promote to Gold.

Fortunately, the gem enchantment is still up to date. There is a full-time department of the Brotherhood of Iron Blood under Tu Feng. A total of 10,000 people steal the gems in the copy 24 hours. It is estimated that it won't take long for this place to be official. Modified, this way is not allowed to brush gems, but this is enough to allow all players in the Brotherhood of Iron Blood to equip gems above level 8.

System prompt: The first wave of attacks is over. If you are ready, ask the commander to start the second wave of attacks.

Lu Yang said: "The whole recovery time is 30 seconds."

100 people recovered neatly. After waiting for 30 seconds, Lu Yang came to the commander and said, "My men have recovered and can continue."

Commander Roar: Offense

The cannon and crossbow volleyed, the castle gate opened wide, and 100 boss-level bronze corpses rushed out, but they were still killed.

Lu Yang repeated this action. After six consecutive waves of monsters were cleared up, he waved his hand, the army retreated, and the first boss in the castle came out.

Bronze Demon General-Yu Huai (Lord)

Level: 140

Qi and blood: 100000000000/100000000000

The bronze corpse will be about 20 meters tall, and the huge legs of the lower body are very thick, three times thicker than a normal 20-meter-tall giant, as if two trunks are walking, and his whole body emits a brass-colored light, There was a sullen expression on his face, and every step he took, there was a roar.

“Boom”

“Boom”

“Boom”

...

The bronze corpse demon will walk across the bridge, and with a embarrassed look on the landing, Yang and others shout: “Who dares to stop the revenge of the demon world!”

The commander roared: “Damn demon, I want to destroy you and attack.”

Countless small cannons and crossbows fired in unison, and the Copper Corpse suddenly jumped to the middle of the commander and hundreds of small cannons.

“War Stomp”

Hundreds of dark golden rays spread around the right foot as the center of the copper corpse. Every time a sound wave hits a small cannon, a golden light bounces around, almost how many small shots it hit. The cannon bounced many times, and the small cannon with more than 30 million health was trampled to death by this foot.

“So strong!” The White Lion blinked.

“It took 30 seconds to get blood for a second. How much attack power did he have.”

The bronze corpse demon yells at Lu Yang and others standing in the distance: “Who dares to challenge the dignity of the demons.”

Xia Yuwei looked at Lu Yang and asked, “How to fight?”

Lu Yang said: “Don’t be fooled by his skill appearance. His war trample is determined by the number of people. Whenever he launches a war trample, the base damage is only 1 million, and each ejection increases 1 million damage. So, The more people, the more damage he deals, and the fewer people, his attack power is only 1 million points left. “

Many guilds in the last life have been pitted by the bronze corpse for a long time, and most of them have been pitted for a week before discovering this secret.

It’s not that the player is stupid, but that he hasn’t encountered such a skill before. He killed everyone in one stroke, causing the players to be depressed when they knew it later.

Zhuo Jiu said, “Frighten me, I thought this damage needed to be avoided, or even holding the guardian heart would need to be invincible to carry it.”

Lu Yang shrugged his shoulders and said, “For a while, the muddy wine resisted. Those who took the heart of God put the artifact down, and we hit it with normal attack skills.”

After all, it is to give a demonstration to all guild players. With the heart of God is not a demonstration, but a show off.

Players holding artifacts such as Bai Xiaoxiao and Shen Yiyi took off the artifacts and put them in their backpacks. For a time, the attributes of Lu Yang and others became regular attributes.

“The muddy wine is strange.” Lu Yang said.

The turbid wine poured in a 130-level dark gold shield, rushing towards the monster, and slammed into the monster’s body.

“Holy Light Slash”

The voicing wine launches the punishment knight skill, inflicting pure harm and attracting a lot of hatred.

“The Power of Nine Cows”

The bronze corpse dumped a punch into the muddy wine, and with a bang, the muddy wine took a shield to block it, and was beaten back a step.

“3569876”

The total volume of Zhuoju’s blood was only 18 million. This attack killed one-fifth. If there were any other attacks, Zhuoju could not bear five attacks.

“Boss, I hit the armor-breaking effect and lost 10% of my defense.” Zhuoju shouted in surprise.

Lu Yang said: “Don’t panic, resist 3 attacks, change Xiao Liang.”

“Yes.” Xiao Liang and Zhuo Jiu shouted at the same time.

The bronze corpse monster will hit the second floor three times in a row, the muddy wine backs up, Xiao Liang stepped forward and stuck in position, carried the shield and launched the red mist bloodthirsty skills, trapping the monster in front of him.

Seeing Red Mist Bloodthirsty again, Muddy Wine and White Lion are very sighing. I think the Red Mist Bloodthirsty was almost a bug at that time. Each attack can wipe out the enemy's blood of 5,000, but now everyone's When the health is between 6 million and 18 million, this 5000 damage is like a joke.

"Unfortunately, I don't know if this skill can be improved." Mu Yu asked.

Lu Yang said: "It can be improved, but not now, his follow-up blood and skills are difficult to obtain, and I have not found a place to fight."

In the later period, the Red Mist soldier had stronger attack skills, called Blood Mist. Each time he received an attack, the Red Mist soldier's body would sputter the bleeding mist. The initial damage of the Blood Mist was only 300,000, but he could stack it up to a maximum of 6 million, and this blood fog skill can also be released actively, every 3 seconds, and the damage caused by this skill is pure damage, that is, hit 6 million, it is 6 million health.

"Boss, isn't I very powerful in the later period." Xiao Liang shouted excitedly in front.

Lu Yang said with a smile: "Of course, except for this period of time, the Red Mist soldiers can't show their advantages in attack. When they reach level 180, the Red Mist soldiers are the main force on the battlefield."

"Hey." Xiao Liang was happy. During this time, he had been depressed about his Red Mist soldier's attack power, but he knew that Lu Yang was busy, so he never raised it.

"Damn, you hurt me and let you see my strength." The bronze corpse's blood dropped by 20%, he roared, the castle door opened, and 100 bronze corpses ran out.

Lu Yang frowned, saying: "Kill the 100 Copper Corpses, don't let them approach the Copper Corpses, they can fuse with the Demons, and give them damage while returning blood."

One increases 1% of damage. If all 100 of them come in, it will cause 100% of additional damage, which is equivalent to the bronze corpse demonstrating more than 7 million damage in each punch. This is the same for any team. Can't afford it.

Xiao Liang just happened to carry three attacks, leaving only Zhuojiu and Zhang Zibo, and took the others to fight against the copper corpse devil.

Lu Yang said: "The ice mage and druid pay attention to control, and the rest of the class is devoted to destroying the bronze corpse demon, leaving only 2 healing and 2 MT here."

Carrying this wave was very simple. With the cooperation of Lu Yang, they quickly killed 100 copper corpses and returned to attack them.

The lord of this level is not difficult. After the first 50% of the blood, there is only one skill, but when the blood is below 50%, the lord shows his strongest state.

"Rotting Power"

The bronze corpse punched his left hand in the mouth, and a dark green energy burst into the sky, inflicting 50,000 damage to each player, and at the same time absorbing 5,000 physical points per player.

100 people is 500,000 points of physical strength. Each point of physical strength increases 16 health, which is an increase of 8 million health.

He didn't increase that much, but even for the players, he was seriously injured. Everyone lost 80,000 HP, and this skill can be stacked, released every 30 seconds.

After 10 consecutive releases, the bronze corpse's blood was hit to 30%, and Lu Yang's blood was reduced by 800,000 stiffly.

“The mage puts the refrigerator, the paladin is invincible, and other professions open magic skills.” Lu Yang shouted.

Everyone immediately released their skills, and the upper limit of lost blood was returned, and the corpse’s health dropped to 19% instantly.

“No one can do this to me, you have to be punished.” The bronze corpse roared, his left hand pointing to the middle of Lu Yang and others.

“Great Tombstone”

A huge tombstone made of bluestone suddenly drilled from the ground. The tombstone is huge, with a base of 50 square meters and a height of 30 meters.

At the moment when the tombstone appeared, Lu Yang and all the players flashed a green light, and a bandaged zombie appeared around everyone.

Dead zombie

Level: 140

Qi and blood: 1000000/1000000

“What is this, why not be afraid of magic.”

“I rely, the attack is so strong, I’m bleeding too fast.”

...

Bai Yiyi and others were taken aback. The small dead zombies were losers who practiced the dragon elephant magic, but they had a certain number of layers and their attack power was around 500,000.

Lu Yang said: "Don't panic, all the mage players gather to the left of the tombstone, thieves and fighters jump over to kill the zombies, and the shooter and shaman rush to the tombstone."

"Yes," the crowd shouted.

Lu Yang lost a landmark on the left side of the tombstone, and the long-range professions ran past, but when he was about to run, the bronze corpse demon roared again.

"Soul Eater"

A green light burst from everyone's head, including the little zombies, into the body of the bronze corpse demon general.

"+200000000"

The bronze corpse restores 200 million HP.

"Dizzy, he will add blood to himself." Shouted the white wolf.

Lu Yang said: "Don't worry, clean up the little zombies first."

As soon as the words fell, a dark green light lit up on everyone, and a little zombie appeared next to everyone.

These little zombies are immune to magic, attack high, and come with poison damage, which can reduce the player's movement speed. If the player's health is less than 30%, their attack power, attack speed, and movement speed will double, which is annoying.

Bai Lang and others immediately executed Lu Yang's order and began to scan the small zombies and attack the tombstone. After playing for 10 seconds, the copper corpse demonstrator once again drew blood and recovered 200 million blood.

“Endless?” Zhou Tianming cursed.

Lu Yang said: “When he hit the tombstone, the tombstone disappeared, and he could not **** blood. This skill was given to him by the tombstone.”

The people suddenly realized that they quickly attacked the tombstones. The total health of 1 billion tombstones was played for a total of 2 minutes. The copper corpse monster recovered 12 times of health and recovered 2.4 billion health.

In the last life, most of the guilds were destroyed at this level. Seeing the lord’s blood return, there were small zombies around, and gravestones constantly made zombies. Many people would not play.

Some guilds think of a way to have several defensive battles to gather small zombies together to kill them, but the effect is not good. The small zombies that come out once every 5 seconds require too much anti-war operations.

During the period, there were many ways to play, but all were unsuccessful. Later, the guild chose to kill the tombstone first. However, the tombstone had too much blood and the operation requirements of the players were high. Fortunately, the tombstone cannot be returned. This is **** the Copper Corpses.

“噫”

The tombstone made of bluestone broke suddenly, Lu Yang said to the crowd: “Continue to kill the copper corpse demon, he doesn’t have much blood.”

Everyone looked at the Bronze Demon General, and there was only 30 billion HP left, which is the last 30%.

“Boss, does he have any other skills?” Xiao Liang asked.

“No, just give it all out,” Lu Yang said.

“Oh.”

...

Everyone fired, and they successfully killed the bronze corpse demon. Everyone sighed with relief at the moment of killing.

“The 100-person nightmare difficulty is really hard to beat.”

“Fortunately, it’s not easy.”

“Whew, scared me.”

...

Lu Yang smiled, and he glanced at everyone in the last life. He walked to the body of the bronze corpse general and looked at the ground.

“Hey, this equipment is good. It has more than 30% more attributes than level 130.” White Wolf said.

“Unfortunately, why not raise it by 100%.” The bitter face of half-life love came together.

Lu Yang said silently: “In that case, we can unify the new continent at level 140, how can there be such a good thing.”

Love bitterly for half a life, hesitant to laugh.

Lu Yang shook his head with a smile, shook his head, and handed the dragon elephant helmet to the muddy wine. In this copy, he still needed the main defense.

He looked at the second gear.

The remaining equipment is the Avengers boots, which have the same attributes as the armguards.

“Well, here is the Avengers suit, the attributes are good.” White Lion said.

Lu Yang said: “Our luck was very good. Two pieces of dark gold equipment burst out as soon as we arrived. You know, there is a 50% chance for gold equipment.”

“Still with such a pit?” Sun Yu asked.

Lu Yang nodded and said, “How else can you say that the copy after level 140 is more difficult? We want to assemble the level 140 dark gold equipment, even if it is brushed twice a day, it will take a month.”

It takes too long to get through a copy, it takes almost 3 hours. This is still the case without mistakes along the way. Once the mistake dies, it may take 4 to 5 hours.

Lu Yang gave the Avengers equipment to the dumb handsome guy, all of them were leather armor, and it was better for him.

“Rest in place for 1 minute, ready to follow me into the castle.” Lu Yang said, the Dross gate here is just the easiest part of this copy, the lord monster behind is the trouble.

Everyone took out cooking and the magic spring water was restored in place. After 1 minute, they stood in line. As Lu Yang walked into the main entrance of the castle, the gate here is a family of houses. The rows of houses along the sides of the city wall are gorgeous, but here There are no places for normal human rest, and magic street zombies are everywhere on the streets and in front of the houses.

Boss

Level: 140

Qi and blood: 100000000/100000000

The appearance of the demon zombies is a Taoist priest wearing a tai chi robe. They also have whiskers in their hands. If they do not have black twisted faces, they would think they are superior.

“Line up at the gate of the city. Do not attack on the bridge in close combat. Keep a distance of more than 30 meters from long-range and healing and anti-war and anti-riding. Anti-war prepares to open the shield wall and anti-riding aura of sacrifices to the soldiers and thieves behind. Lu Yang shouted.

Hearing Lu Yang's words, everyone's eyes showed a surprised look, and Xiao Liang, Zhuo Jiu, and others in front of them all showed a dignified look. Generally speaking, Lu Yang said that it was very strange. powerful.

“There are intruders, **** melancholy, and they have failed, then I will kill you, the demon zombie, and attack.” Standing at the first intersection of the castle, there is a huge zombie 20 meters tall, wearing the same robe as the Demon Zombie, except that his body is bigger than the others, and everything else is the same.

Chapter 1187 - Lord Qinglei

“Scream ~!”

100 magic road zombies swarmed towards the gate. They did not run like wild animals like the previous copper corpses, but they all took the normal human-like steps, holding dust whisks, step by step towards the door, as if there were all Same consciousness.

Lu Yang said: "Everyone is careful. This wave is dominated by lightning spell attacks. It is not safe to hide behind the shield. Be sure to hide 30 meters away."

The demon zombie knows how to release the Razer beating. This skill is to randomly jump to another unit within 15 meters each time it hits a unit, causing an additional 20% damage and jumping five times in total.

When the previous player played this copy, most of them did not pass the second level, until the magic-free profession came out at that time, then that level became garbage, and the magic-free profession ignored all magic damage, but now, This level is still the hardest 140 level to stop all players in the past.

Lu Yang has the confidence to fight this level, because Lu Yang knows how to restrain these monsters. More than 10,000 people in the Iron Brotherhood have stolen gems in the copy, and the stolen gems have a large number of absorbed gems-gold crystal .

Crystal

Grade 1

Effect: Increase 2000 Lightning spell absorption

Lu Yang beat 13 pieces of gold crystals to their 10 defense battles, and 17 pieces of equipment were inlaid in the whole body. These gems alone can absorb 442,000 thunder damage.

But even so, 10 of them could not withstand the thunder attack, so they needed the support of curse and special skills.

"The ice mage released the ice roar, reducing their movement speed, and the shooter threw slowing traps and continued to reduce their movement speed." Lu Yang said.

“Yes.” Ten archers threw ice traps, and an ice mage stepped forward to release the ice roar.

Lu Yang said, “Export with all your strength and try your best to reduce the chance of MT being attacked.”

The strange attack power is about 1 million. Judging from the magic defense of the muddy wine wearing a 130-level dark gold suit, the first time the Razer did no harm to them, but the Razer that was beaten afterwards could hit extremely high. s damage.

When Razer beats, he doesn’t count the number of beats. Even if there are only two people, he will beat back and forth.

A 50-meter platform cannot be defended by just one or two defenses. At least four platforms are required, but if there are four, the problem of a station distance of less than 15 meters will arise.

Once there are 30 magic road zombies aiming at two enemies within 15 meters, they will bounce Razer and bounce back and forth 4 times, and the damage will be as high as 2 million, which is impossible for any fighter and druid. .

At that time, some people thought about the wrong body defense, but it is difficult for 4 MT parallel stations to prevent the 50-meter bridge, let alone the larger space that the wrong body position allows.

In the end, it’s still the side of the curse-controlling mage who can control to win, there is no other way.

Ice Roar reduces the target’s movement speed by 70%, and Ice Trap reduces the target’s movement speed by 50%. When the two are superimposed, the speed of the magic road zombie is only 30%.

Under this moving speed, the demon zombies could not reach even 30 meters in front of people such as Zhuo Jiu, and they were slowly moving forward like a snail 50 meters away.

“Long-range attack, quickly attack.” Lu Yang shouted.

The piece of magic fell on the magic road zombies. Under such a piece of magic damage, the magic road zombies lost a lot of blood. Whenever the magic road zombies were about to approach the melee, Lu Yang would order the turbid wine and Xiao Liang to use small skill.

For example, the ability to control the sacred wrath and bloodthirsty roar to force the demon zombies to lock the attack target on one of them, resulting in the Razer will not harm others.

In this way, the first wave of attacks was stopped, and then the second wave, the third wave, and the tenth wave were also hit.

“Humans, you actually killed all of my men and got my approval. In this case, you will become my men.” Lei Guang, the king of the corpse, with a cold smile on his face, landed at the sun and smiled. come over.

Lei Guang Corpse King-Qing Lei (Lord)

Level: 140

Qi and blood: 300000000000/300000000000

The Thunder King Corpse, Qing Lei, is hailed as one of the hardest lords at level 140. The difficulty is not only because of his high attack power, but because his skills are more annoying.

Normally, his lightning damage is very high, but he also has several special skills. The first is a flash of lightning. He throws a lightning bomb to the target area. If there is a person in the area, it will cause 3 million damage. If it is 2 people, it is 4 million, and the damage can be deduced by analogy. Once the number exceeds 5 people, the MT has to lie down and spike.

The second skill is Wan Lei, which launches a lightning attack on everyone in the full screen, causing 5 million damage to everyone. Wan Lei launches every 30 seconds, and the next time the damage is 20% more than the previous one.

The third skill is to throw ten Thunderballs with a delay of three seconds to the ground every 10 seconds. If there are no enemies within 10 meters, the Thunderball will not attack. However, if someone enters within 10 meters, the Thunderball will take the initiative Charged to the attack target, causing explosion damage of 30 meters in diameter, the power is 3 million.

The thunder ball seems to be able to dodge, but this skill is the real extinction skill, because no one will take the initiative to touch the thunder ball and want to hide. The thunder ball cannot be broken by attack and can only be hit, but there is still Wan Lei, released every 30 seconds, who dares to waste his blood to hit the mine ball?

Once there are too many thunderballs on the field, a player accidentally walks within 10 meters. When he moves to another place, the thunderballs caught up may cause the team to destroy. Most players in the previous life It 's all here.

The fourth skill is lightning suction. The lord will forcibly attract a target to him using lightning. In the rare process, it will basically hit a large number of lightning balls. The suction speed is very slow, but it cannot be stopped unless Refrigerator and invincibility, other skills are useless even magic.

The fifth skill is Lightning Storm, which causes 3 million Lightning damage to the fan-shaped area in front of the station. This skill is ordinary, the most powerful is the sixth skill, which controls the invincible skill. Qinglei will activate the Ethereal skill. Players who attack more than 6 times with lightning will be turned into an imaginary, and receive an additional 30% magic damage.

After blurring, Qing Lei will then attack Wan Lei with nearly 7 million damage, and 6 lightning strikes are very easy to occur. It only needs to release 6 Wan Lei. Once this happens, players need to resist. Therefore, after each blur, it is a critical moment for extinction. At that moment, no one can panic, especially in the face of newly thrown thunderballs and released thunderbolt skills.

Lu Yang explained Qing Lei's skills to everyone. No one was skeptical of Lu Yang, because Lu Yang had a team formed by a copy of the arena masters. They thought that there were already masters of the studio. I do n't know, but Lu Yang knew it.

"German doesn't taste the corpse to resist the monster. It depends on you whether you can fight this time." Lu Yang said.

“No problem.” De Bu tasted the corpse and turned it into a big stupid bear, rushing towards Qing Lei with four paws.

“噫”

De Bu tasted the body and hit Qing Lei’s body, then he turned sideways to Qing Lei’s body and turned Qing Lei’s head around.

“Pretty.” Lu Yang applauded, and De Bu tasted the corpse, which meant flying Qing Lei’s fork-like lightning, and no more fork-like lightning would hit the player.

Lu Yang said: “The muddy wine and the white lion changed their treatment, and went to the side to give Debu a taste of blood.”

The Paladin has the Holy Light Beacon skill. After adding the beacon to the target, he will also add 100% to the target’s blood. At a critical moment, the Paladin can also use magic immunity to immune to the thunder. Spell damage.

At this time, the muddy wine is not the early muddy wine, and the understanding of the healing spell is very high. The Holy Light can be released in 3.5 seconds normally. He does not rely on the spell speed equipment and gems. By simply simplifying the spell, he can reach 1.0. The Holy Light is released within seconds, increasing the healing amount of the target by 2.5 times.

The same is true for the white lion. The presence of the white lion and the lynx is enough to heal the druid, who does not taste the corpse. The bear form of Druid increases magic resistance by 30%, which allows him to receive 500,000 points less each time. Right and left injury.

There are other meanings of Zhuojiu and White Lion standing on both sides of the lord, that is, to see if there is a thunder ball quietly behind Druid. If there is, they are in shape immediately and let Druid change positions.

Lu Yang said: “In a while, Xiao Liang and Zhang Zibo collided. Yeyue listened to the wind and Lan Yu was responsible for adding blood. The rest were seriously fighting. Shen Yiyi and the other priests were

responsible for adding the whole group's blood. Remember, Everyone's stand must be more than 10 meters, and you must never walk within 10 meters. "

"Yes," the crowd shouted.

Lu Yang saw that Druid had stabilized his hatred and said, "Hit him and try to kill him within 10 minutes."

Blockbusters of magic and damage fall on Leiguang Corpse King. Under the control of Germany, Leiguang Corpse King has been using Lightning Storm and Sky Thunder to attack Xiaode alone.

It's 30 seconds.

"Wan Lei"

A large piece of magic in the sky suddenly landed, and everyone's head was split by lightning, dropping more than 4 million injuries, because everyone has magic resistance, but they are not very high.

At present, the health of a player with a level 130 dark gold equipment is supported by a level 10 blood gem, which is about 7 million, which means that no player can withstand two million thunder without adding blood. s damage.

"Treatment plus blood," Lu Yang shouted.

"It's too far away, it's so laborious to add blood." Shen Yiyi shouted.

Lu Yang said: "The time has come to test your skills. How to use the least magic to add blood to the most people without delaying time, let me see the results of your usual training."

"Yes." Rev. Shen Yiyi answered in unison.

This time is the time to test the technology, because the lord's health is about to drop by 5%, which is the time when the first thunderball appears. After that, there are 10 thunderballs every 10 seconds.

Lu Yang said: "Melee full output, you hide behind the lord without output pressure, do your best to fight, try your best to beat him."

"Temporal and Twisted"

Lu Yang started a big move, and everyone's cast speed and attack speed increased by 30%. Sun Yu then released Thunder Eagle, and everyone's attack and cast speed increased by 30%.

"Thunderbolt"

Once Qing Lei turned his head, flicking with his right hand, 10 thunder **** appeared among Lu Yang's players.

"I have a thunderball under my feet, don't approach me."

"I have it too."

"Me too."

There are six thunderballs in the shape of a character that traps 10 players in the middle. The thunderballs are formed in three seconds. If you let these 3 thunderballs burst, these 10 people will definitely die, but when they were about to run to the left, there were The thunder ball was blocking the road. When it was about to run to the right, there was another thunder ball blocking it. The last road also had the thunder ball. The 10 people panicked.

"flicker"

A white light appeared among them.

“Resistant Fire Ring”

Lu Yang uttered a spell in his mouth. All 10 people collapsed and flew out. Their retreat speed was 10 meters per second. In a blink of an eye, Lu Yang was pushed out of the spell range.

“Remnant Flame-Activated”

Lu Yang fled the thunderball area with a red light, returned to his original position, and continued to output. The 10 people who were blasted and landed in the area without the thunderball.

“Thank you, boss.” Wu Dingfeng shouted.

Lu Yang said: “Focus on attack.”

The crowd continued to output, and soon reached 10% of the blood volume, Qing Lei turned back for the second time, roaring.

“Lightning explosion”

Three silver thunderballs emerged from him and landed in front of three players like lightning. At this time, each of Lu Yang’s positions was more than 10 meters apart. The explosion of Thunder Light only injured the 3 million blood of these 3 people. the amount.

“Healing Wave”

Three people’s body had 800,000 treatments, and the blood volume returned to full value within 3 seconds. The side just recovered.

“Wan Lei”

Qing Lei roared, each person dropped more than 4 million health.

“Huh, it’s dangerous.” Vulcan M16, who was just hit by the explosion of Lei Guang, sighed and said, “Fortunately, the blood was added just now, otherwise it will hang up.”

Lu Yang said: “Everyone be careful, he wants to release the thunderball and thunder sucked.”

The words just fell, and no one waited for everyone to add blood. 10 thunderballs were thrown out. This time was the most vulnerable time for all players, including Xiao Liang and Zhang Zibo.

Fortunately, the thunderballs were knocked off by the two of them before. Now there are only 10 thunderballs on the map, which is enough for players to avoid.

“The whole staff moved to the left, Master Bing looked at me, and I came to give you a demonstration.” Lu Yang pinpointed the direction of the thunder ball, 4 of which were in the same straight line.

“flicker”

Lu Yang jumped to the same straight line as the four thunderballs. Just after landing, Qing Lei looked back at Lu Yang.

“Ray suck”

Lu Yang’s body suddenly trembled. His body flew towards Qing Lei. The 4 thunder **** along the way bumped towards the landing sun. Due to the slow speed of the thunder, these thunder **** could hit within 1 second. To Luyang.

“Refrigerator”

Lu Yang became an ice cube. Although he continued to be attracted by Qing Lei, his ice cube was easily immune to the attack of 4 thunderballs. At this time, Xiao Liang and Zhang Zibo had been listening to the

wind in Blue Feather and Moonlight. He recovered full blood under his treatment and was hitting six other thunderballs.

“Escape The Dagger”

Lu Yang jumped to the side and said, “This will happen again in a while. Hei Yan is ready to jump over to open the refrigerator at any time to lift the thunderball.”

As soon as the words fell, Tian Lei threw another 10 thunder balls. Fortunately, there was no thunder system, Xiao Liang and Zhang Zibo slammed the ball continuously, and the ball was lost.

“Wan Lei”

A thunderbolt fell in the sky, and Lu Yang and others lost more than 4 million HP, but at this time the blood of the lord monster was also reduced to 10%, but at this time, Wan Lei had reached 6 times.

“Everyone’s attention, keep full of blood, there is no time to recover without blood, and all remain full of blood.” Lu Yang shouted.

“Blurred”

Qing Lei’s mouth read a spell, and everyone’s body became green spirit.

“Wan Lei”

100 purple thunderbolts fell, and all the members lost more than 5 million blood, and everyone was left with blood.

“Thunderball”

Ten thunderballs were then thrown into the crowd by Qing Lei.

“Have a ball of yarn. The skills are so dense that they are going to be dead.” Shouted White Wolf.

Around them, six mines appeared, and all the frightened melees fled and fled.

“Hei Yan went to hit the thunder. He wanted to let the thunder suck, Xiaode didn’t move.” Lu Yang shouted.

Heiyan flickered and jumped to a place where five mines were in the same straight line.

“Thunder”

Heiyan flew towards Qing Lei, halfway along he activated the ice guard, freezing himself in the ice cube, struck by 5 thunders without any damage, and, upon landing, the other 5 thunders Also hit over, 10 mines were scrapped at the same time.

“Pretty.” Lu Yang shouted loudly: “Return to melee, continue to attack, and treat to maintain the entire health.”

A burst of green light turned on, and everyone’s health returned to full value. Before everyone could breathe, Thunder Light exploded, and 3 more people were blown out of 3 million health, followed by Lightning Sphere.

“Oh my god, how can this be so difficult, no wonder the masters in the guild can’t beat it.” Zhou Tianming said while hiding.

“Hey, that is, our boss can take us there, and other guilds must be here for at least one month.” Zhou Tianyan said.

Han Fei and others nodded.

Unfortunately, they were wrong. On the other side, Deng Tian was practicing Pei Zicheng.

“Zicheng Are there any less reports recently?” One step Dengtian asked in a lazy voice on the phone.

Pei Zicheng was standing next to him in black and white. He said embarrassingly, “Boss, I didn’t hide from you. I told you all about the issues sent by the Brotherhood of Iron and Blood.”

“No, no, no, no,” said one step proudly. “How did I hear that Lu Yang was taking a copy with the team today? It was still a nightmare difficulty.”

Pei Zicheng said: “Everyone knows this, but Lu Yang didn’t open sharing, I can’t see it.”

Stepping up to the sky with a husky voice, said: “Don’t worry, younger brother, Lu Yang will finish playing in a while, send the video to your hands, you just send it to me, you know?”

Pei Zicheng looked distressed and said, “But if I do this, will I betray President Lu Yang again? I won’t do it.”

He stepped up to the sky and smiled, still speaking in a husky voice: “Brother, you have no way back, give me a good job, and then Lu Yang falls, you will come to me, and I promise to give you a legionnaire.”

Chapter 1188 - Avengers Sword

Pei Zicheng is not stupid. After this incident, it has been several months, and he has always said that he will be reused in the future, but he didn’t give him more money, and he didn’t give him any benefits. He just moved his mouth.

Pei Zicheng also knew that if he was not discovered by Lu Yang and pardoned him, he could only defer to one step to heaven, and even had no chance to refute, because he was already a traitor to the Iron Brotherhood, and then betrayed one step to heaven. There wasn't even a shelter, and not only that, it was also sent to prison.

He looked at the black and white around him and said to the phone step by step: "Boss, of course I am willing to do it with you, but I have a bit of a tight hand recently, and you give me some money."

"Ask for money?" He hummed and asked, "How much?"

"100,000," Pei Zicheng said.

"Yes, come to me tomorrow to get the money." One step Dengtian said.

"Thank you, Boss." Pei Zicheng hung up the phone and thanked him, then said to Black and White, "Tomorrow he asked me to withdraw money."

Black and white said: "Very good, you don't need to worry about the rest, just do it the way you are the person he bought through."

"Yes," Pei Zicheng said.

Black and white took the phone call to Lu Yang. In the copy, Lu Yang was directing the thunder king—Qing Lei, who had reached the most critical moment, leaving only the last 5% of his blood.

"Kill him." Lu Yang shouted.

"Dididi"

Lu Yang looked black and white, and immediately pressed the ON button, and asked, "What's the matter?"

Black and White said: "One step to the sky to find Pei Zicheng asking you to clear the copy of the video, what should I do?"

Lu Yang said, "Give him the official thing. I'll handle it, and you'll collect the evidence."

"Yes," said Black and White.

Lu Yang hung up the phone and shouted: "Continue to play, the last 3% of the blood is gone, don't give him a chance."

At this time, there are thunderballs everywhere on the court. Everyone is out of the blue. Everyone is crazy to make the final output efforts. If there is another void and Wan Lei, they will lose, so it is a last resort. In this case, we must resist this attack.

2%

1%

Lord Qinglei's health dropped further. At this time, all of a sudden, the white wolf beheaded and successfully cut the Lord Qinglei to zero blood.

System prompt: Congratulations to Luyang's team for successfully killing Lord Qinglei

Everyone, including Lu Yang, fell down on the ground and panted, which was too difficult.

"Boss, we are so strenuous to fight, it is easy for others not to fight." Zhou Tianming asked.

Lu Yang said, "Have you forgotten our elite team? With the 8000 elite and 112 new recruits this time, as well as the elite players from India, South Korea and the Nine Star Alliance, I can form a 16,000 team. Elite team, dedicated to playing this copy. "

The benefits of having more people are here. The more people there are, the more elites appear. Under this kind of high-intensity struggle, what can be rushed out are truly elite.

Lu Yang's 8,000 elites were selected from the inside. Among the earliest 3,000 people, many had left behind and were arranged by Lu Yang to manage other work, and they did not complain.

The game is like this. If you are not as good as the people, you have to give in. The occupation that Lu Yang gives in to them is also very good. No one is dissatisfied.

It can be said that among the new 8,000 people, Lu Yang's old men have less than 1,000 people. The other 7,000 people are promoted by strength. Brotherhood is the main reason, which is why the Iron Brotherhood is getting stronger and stronger and has not fallen apart.

As long as there are 16,000 people to play this copy, it won't take long for Jagged Brothers to train the first batch of 140-level dark gold equipment masters, and then this group of players will play the equipment and distribute them, and then normalize. The masters of the first echelon are equipped with 140-level dark gold equipment, and then they are equipped with gold crystals absorbed by the thunder system.

"I'm still the boss, you think far." Zhou Tianming said.

Lu Yang said, "Let's go on. The lord who is going to fight next is simple and easy to pass."

For these elites of the Jagged Brothers Alliance, it is easy to pass, but for ordinary players, this level is a nightmare.

He looked at the equipment on the ground.

Lu Yang laughed and said, "I can't think of both swords being hit. This is the rarest item. I can't think of it once bursting out. The wasteland is really good."

He threw the weapon to the white wolf and asked him to replace his two-handed sword. In the laughter of everyone, the white wolf was embarrassed.

Suddenly, a large number of bats appeared over the gate of the castle. The black bird covered half of the sky. Suddenly, countless bats gathered together to form a humanoid with blood-red bat wings, blue-faced fangs, but green hair. monster.

Reincarnation Bloodlord (Lord)

Level: 140

Qi and blood: 300000000000/300000000000

“Ha ha ha ha, humans, you can defeat my two subordinates, and it really has some way to go. In this case, let me take a look at your strength. I hope you will not let me down.” The reincarnation blood demon fanned his wings and laughed Said.

“What’s so strange about this reincarnation blood monster? It looks so strange?” White Wolf asked curiously.

Lu Yang said: “Vampire zombie.”

“Vampire zombie?” Everyone was puzzled.

Lu Yang said: “The combination of the Eastern Zombie King and the Western Vampire King has the high defenses of the Eastern Zombies, the high magic resistance of the Western Vampires, and the vampire skills. He knows many special attack methods.”

Everyone: “...”

“It looks difficult?” White Lion said.

Lu Yang said, “Tell me, I’ll know. I’ll clean up these bats first. This level tests everyone’s free mode. Do n’t drop the chains. They are all top masters. They are ashamed here, but they have to be laughed at. A lifetime. “

“What do you mean,” the White Lion asked.

Lu Yang pointed to the distance, the reincarnation blood devil’s foot in the sky stepped on the void and disappeared, but the sky was shrouded in darkness, and countless bats flew from all directions into the sky.

“The first wave of bats was 5,000, and each bat had only 1 point of health. Any one attack can destroy one, but you pay attention, don’t use range skills. If you use range skills, you won’t be able to hit a single bat.” Lu Yang said.

Shooting Sirius asked: “Can you shoot only once? Not even Hashing arrows?”

Lu Yang nodded and said, “No, it can only be a single attack. If you use the automatic mode, the bat’s chance of avoiding physical attacks is 90%, magic is 80%, it can’t be hit, it can only be free mode. Start Now. “

After the 5,000 bats in the sky turned into a cloud, they overwhelmingly flew towards the landing sun. At a height of 100 meters, they scattered instantly and attacked the player from all sides.

The bat attack is 100,000 each time. The first wave of requirements is to kill more than 1,000. The player must quickly avoid the dive of the bat. If one of the two points cannot be done, the bat cannot be hit.

“Naruto”

Lu Yang used his strongest killing tricks, summoning 22 Naruto bombs at a time, each rushing towards a bat alone.

“30000”

“30000”

...

22 consecutive attacks, hit 22 bats with precision, and then a red light appeared from his body.

“Yanyang mask”

Lu Yang's body was surrounded by flames, and a spell was spoken in his mouth, all the way to the sky.

"Blazing Flames"

A flame phantom appeared from Lu Yang's body, flying towards a bat at a distance of 100 meters in the sky. During the impact, he hit more than 30 bats along the way.

"Is this okay?" Hei Yan asked.

Lu Yang nodded and said, "As long as it is a single attack, as long as it is encountered along the way, the system also determines that you have killed."

"I see." Hei Yan said, his single skill is the most, because his attacks are all superimposed fire attacks, the staff wields out, killing more than 30 bats.

Shooting Sirius, Han Yu and other shooters are also no problem. They have their own understanding of ultra-long-range attack skills such as penetrating arrows. Seeing Lu Yang's avatar usage, they have used penetrating arrows to shoot away. 15 bats shot together, killing hundreds of bats.

The thief's side is also relatively easy. This time, all the space-time thieves followed.

"Chaos in Time and Space"

Han Fei leapt into the air, launching the skill of chaos in time and space, and killing several bats on the same line every time he appeared.

Druids are no problem, they transform into human form and attack with common skills.

The only problem was the Paladins and warriors.

“Your sister, I use a two-handed sword to attack once in 3.5 seconds. Is this a wide sword and cut such a small bat? Isn’t this a cannon hitting a mosquito? If you can cut one, you will be beaten for 3.5 seconds and beard Ah. “The white wolf shouted in depression.

Everyone watched and laughed.

“You still laugh at me, you can’t stand it, the violent whirlwind cuts.” The white wolf opened up a large move under the excitement. As a result, the bat in front of him had the same long eyes, and all kinds of dodges, and his whirlwind cut a bat. Chopped down.

After turning around for more than 10 seconds, my head was confused. After landing, I saw that none of them hit, and I fell on the ground.

“Boss, I can’t stand it,” shouted White Wolf.

The White Lion glanced helplessly at the white wolf, kicked him in the abdomen, and said, “Hurry up, you can’t stand this difficulty. How can you stand alone in the future?”

“Well.” The white wolf was depressed and could only stand up and continue to attack.

Lu Yang said: “I know you are uncomfortable, but this is also a test of willpower. Do n’t give up. You can kill a few and count a few. There are many copies of this lord in the back. Under your hands, can you still do that? “

“Oh.” White Wolf was humbly taught, and then he remembered that he still had hundreds of thousands of brothers. This copy would not work. The brothers were not equipped, while the other vice presidents had a pair of dark gold Equipment, he could not explain to his brothers.

Lu Yang said: “Everyone cheer, you will succeed.”

After 5,000 bats in the sky, there are more than 4,000 left after a dive, only about 3,000 in the second, more than 1,700 in the third, and more than 300 by the fourth. Only, before the end of the fifth dive, it was wiped out.

System prompt: The second wave of bats is coming, please be prepared

“Any more?” White Wolf asked.

Lu Yang said: “A total of 5 waves.”

Everyone: “...”

The copy of a hundred people is like this. If you want to fight it, you have to endure a long time. Everyone worked hard for an hour before hitting the five waves of bats. A black light suddenly appeared in the sky. Step out.

“Very well, you have already received my approval. Be my slave now, I will let you enjoy the delicious blood with me.” The reincarnation blood devil laughed.

Lu Yang said: “Note that this level is the output of the spell. If the output is not enough, it will never be passed, but our output is sufficient.

The reincarnation prince has two forms. The first form is the current form. He will land on the ground and use physical attack. Vampire is also included in the attack. There is also a 10% chance that the crit will triple. Whenever the crit appears, he His arm will emit a reddish light. When Xiao Liang resists, he must avoid it. “

“Yes.” Xiao Liang said, compared to other MTs, the soldiers have a higher physical defense.

Lu Yang said: “In the first form, he mainly uses physical attacks, group skills are positions, and the first is a position that absorbs magic, energy, and anger. Players in the two games will receive 10% per second. The extraction of the magic upper limit, when someone escapes that area, the position will explode, causing damage to the player. It must be noted that the invincible and the ice protection are useless, and they can only run out of the 10 meters range as soon as possible. Do not stay inside It’s a tragedy, especially treatment. “

Everyone nodded.

Lu Yang went on to say: "The second is random rebellion. The reincarnation blood demon will randomly designate a player to rebel. If the rebellion is done, everyone should not kill him. Killing him will restore the reincarnation blood demon to life, and he will be attacked. At that time, the life of the reincarnation blood demon will be restored, and the player will be controlled for 2 minutes. You can use the badge to release the control. "

"The third skill is madness. After madness, his attack power is range attack, causing 100 million damage to a single target. At this time, all melee classes and Xiao Liang need to bear the damage together. We have 20 melees. His attack power is only 5 million. "

The crowd nodded again.

Lu Yang said: "The next stage is the best chance to kill him. He will become 100 bats to attack all players in the field. The bats have blood-sucking skills and they will attack 5 million blood-suckers at a time. If you can hide. After the bat's attack, he can also hit the bat, which can cause double damage. "

The eyes of Zhuoju and White Lion were all brightened. Then they understood why Lu Yang said that playing bats was a place to practice techniques. It was here originally.

"Boss, how long does his transformation last?" She asked Sirius.

Lu Yang said, "2 minutes."

"Hey, I feel like we can stop him in 2 minutes." Shoot Sirius.

Lu Yang smiled and said, "I think so, this is our best opportunity. Don't miss it."

"Look at my double knife flow." The white wolf brushed a knife flower.

Lu Yang laughed and said, "Xiao Liang, come on."

“Yes.” Xiao Liang rushed to the foot of the reincarnation demon with his shield, raised a dart in his hand, and hit the head of the reincarnation demon.

“Feel the joy of death.” The reincarnation demon fell from the sky, came to Xiaolai, hit his left hand with a punch, and suddenly, a red light burst from his left arm.

“Triple attack, hide!” Shouted Lu Yang.

Xiao Liang responds very quickly, and a roaring back while easily avoiding this skill.

“Red Mist Bloodthirsty”

After the reincarnation demon normally missed the target with one punch, he would transfer hatred to other places because of other people’s attacks, but Xiao Liang’s roar was just right to pull the reincarnation demon back.

“Beautiful, all attack.” Lu Yang shouted.

“378420”

“391860”

...

Lu Yang and others did not lose much blood on the lord monster.

“The magic resistance is really high.”

“Physics is also annoying.”

...

Lu Yang said: "Don't start a big move. After 2 minutes, he will become a bat. Then it is time for us to export."

"Boss, should I open the red mist bloodthirsty when he becomes a bat." Xiao Liang asked.

Lu Yang smiled and said: "100 bats hit you at the same time, the damage is 50 million, and you see if you can resist it."

Xiao Liang shook his head. 5000 damage can kill him 4 times.

"Magic Stand"

The lord's health dropped by 10% and he used his first skill.

A stand of 50 meters in diameter suddenly appeared at the feet of five or six people such as Lu Yang.

"flicker"

Lu Yang's white light flickered and 10% of the blue was sucked away. This mechanism was instantaneous, so 10% of it was drawn away anyway, but he was not harmed.

The remaining few had shooters and mages, all of them jumped out, and only 10% of the blue was taken away, and then their positions exploded without causing any harm.

"It's too simple." Hei Yan said.

Chapter 1189 - Dominant Lord Doom Blood Bat

Everyone present was elite. How could it be hurt by this simple skill? The real difficulty was after 2 minutes.

“What about my future slaves, try the bite of being bitten by a bat.” The reincarnation blood devil sneered, and his body flashed a **** light instantly, turning into 100 bats and rushing towards the players.

bat

Hit points: 250000000000/300000000000

The bat's attack power is 5 million. It hits non-MT players and removes defensive power. There are also more than 4.8 million. The player's health is only about 8 million. It is not enough for him to attack twice. Fortunately, the attack frequency of bat Not high, it is attacked every 5 seconds.

This level is very challenging to the player's position and treatment. As long as one person makes a mistake, it will lead to the annihilation of the entire army. After all, if a player is killed, an extra bat will be attacked to attack other people, but there is no second non- The MT class can resist simultaneous attacks by two bats.

“Note that everyone is standing in an umbrella shape, and within 10 meters will be ejected by the bat's skills, taking 30% more damage,” Lu Yang shouted.

100 people have always been scattered. After hearing Lu Yang's words, they immediately centered on the treatments such as Lan Yu, Yue Ye Ting Feng, and Shen Yiyi, and stood at their 11-meter positions. Each person was responsible for 10 people, the priest. Use Earth Holy Healing, Shaman use Healing Wave, and Paladin use group beacon to add blood together.

“Neighs ~!” 100 bats made a squealing scream, flew into the air, and swooped down toward Landing Sun and others.

Lu Yang watched a bat rush towards him, and he spelled out in his mouth.

“Flame Cross”

“Flame Cross”

...

This skill is already common among the Fire Mage of the Iron Brotherhood, so Lu Yang can be used as an example skill.

“1400000” (Critical Strike)

“1400000” (Critical Strike)

...

Even if the bat swayed from side to side, Lu Yang was still able to hit the bat’s head accurately, causing double damage to it. In the case of double damage bonus, it was equivalent to 4 times attack.

This is also very difficult for elite players. Only the elite among the elite, the most top players can do this.

Just like the popular online battle games, some people can predict as accurately as opening a plug-in.

Even if you disappear for 2 seconds, the opponent’s anticipation skills can accurately determine where you are, and then a big trick blindly sends you in a stealth state.

That kind of top-level operation, especially the moment of blindly killing the other invisible blood hero with a big move, will make all the adrenaline hormones soar. The applause and admiration are from the heart and heart, which is a manifestation of strength. Not any other method can be substituted.

Just like Lu Yang now, only Lu Yang alone can hit the bat's head with precision in the whole game. The effects of that critical strike made Lu Yang's moonlit night listening to the wind look dumbfounded.

“Yanyang mask”

There was a red light from Lu Yang's body, and the bat rushed in front of him and bite on Lu Yang's shoulder, and then the bat swept over Lu Yang's body and flew towards the sky behind Lu Yang.

“Blazing Flames”

Lu Yang turned back and struck a flame, chopped with a sun-shade hood, and as the bat flew up, he hit the bat 4 times in a row, causing more than 2 million injuries.

At the same time, Lu Yang's mouth kept spelling as the bat flew to the sky.

“Flame Cross”

“Flame Cross”

...

Each cross was hit on the back of the bat with precision, dealing twice as much critical damage.

“1400000” (Critical Strike)

“1400000” (Critical Strike)

...

Listening to the wind and watching Lu Yang’s operation on the moonlight night was already drunk. He opened the video and recorded Lu Yang’s attack specifically.

“It’s too accurate, too accurate. It hits the back of the bat with precision every time. The bat is only 10 centimeters wide. It’s too hard to imagine.” Yue Ye heard the wind.

Each attack of the bat can kill Lu Yang’s 5 million blood, but Lu Yang killed the bat’s 14 million blood in the attack frequency of the bat every 5 seconds at an attack speed of 2 flame crosses per second.

Not counting other people, in this 2 minute period, Lu Yang killed a total of 336 million HP of bats, plus another 85 output points, a total of 10 billion bats of HP were killed.

In the output data, Lu Yang’s injury is far ahead of others, but he didn’t care about them, but others care. Whether it is Hei Yan or White Lion, after more than 2 years of training, his strength has risen to the highest level. .

Fighting against the competition, the current professional restraint is serious, many people can not distinguish between victory and defeat, but the output above, but the output of professional injury is basically the same.

But they saw the value of their respective output. Lu Yang exceeded the second output by nearly 200 million damage, which made them all stunned.

“Boss, how did you hit it and hurt so high?” Hei Yan asked excitedly.

“Yeah, it’s twice as fast as mine.” Han Yu said, it was him who had the second highest output.

Lu Yang looked at the surprised expression of the crowd and said, "Teach you when you have time, and concentrate on fighting monsters. It's the second stage."

"Yes." It killed one-twentieth of the blood at a time, making everyone happy and strengthening their confidence.

"Yes, it resisted my first attack. I can't help but want to summon you to be my slaves in advance." 100 bats gathered together and turned into a reincarnation blood demon with his left hand pointing at Lu Yang.

"Dark Control"

A black light hit Han Yu, Han Yu's body emitted a thick black light, and a buff appeared on his body.

Dark Energy: You become a slave to the reincarnation blood demon. Your attack power increases by 300%, your spell damage increases by 300%, and your vitality increases by 1000%.

Han Yu turned his head to look at Lu Yang. The skills in his hand were about to shoot out. At this moment, Lu Yang threw out the escape dagger and flew towards the reincarnation blood demon.

"Mage of Time and Space, control me with an energy hood." Lu Yang appeared immediately behind the reincarnation blood demon, pointing his right hand to Han Yu.

"Mana Steal"

The dark energy buff on Han Yu's body entered Lu Yang's body, and Lu Yang became a slave of the reincarnation blood demon, but Lu Yang and the reincarnation blood demon are not in the same team. This is a small bug set by the government.

In the last life, many masters used this method to hit the lord. A fire mage used the sun hood to jump behind the reincarnation blood demon, launched the stealing skills, stole the dark energy skills, and let others control him. His sun hood You can burn the lord all the time, just like Lu Yang does now.

“Space-time barrier”

A space-time mage clasped a space-time barrier on Lu Yang, controlling him in place and unable to cast and cast, but Lu Yang’s body was always burning with a sun hood, which caused 200 damage per second to the lord with a triple damage bonus. With more than 10,000 injuries, in 2 minutes, Lu Yang burned 240 million HP of the reincarnation blood demon.

“Can still play like this.”

“This output is too high.”

“That’s a good fight.”

...

The White Lion and others all understood and applauded Lu Yang.

After 2 minutes, the reincarnation blood demon turned into a bat again, and Lu Yang took everyone to continue to output. In fact, this level is the simplest level. It only tests the output and health of the player. The output can also kill the lord before the magic runs out, and it can pass.

Of course, there is a time limit. The battle must end within one hour. If not, the lord will go crazy and kill everyone.

In fact, if Lu Yang and Shen Yiyi wore a 9th-level artifact, killing the lord would take 10 minutes, but it was so troublesome to demonstrate a copy method to their subordinates.

Fortunately, everyone who played this copy had a superb ability and insisted for an hour without any problems.

An hour later, the reincarnation blood demon fell to the ground, dropping two pieces of Avengers gear and a 140-level gold necklace drawing.

Lu Yang said with a smile: "Yes, it looks like our gold necklaces can be popularized."

They smiled as they wiped their sweat.

"Boss, this copy is too difficult for our people at present, it is estimated that those elite teams can play in the past, but play twice more every day, the third time is absolutely untenable." White Lion said.

High-intensity fighting for an hour. This high-intensity is a high-intensity that causes people to fear. Each bat attack is 5 million health. A slight accident or a mistake makes the whole group dead.

This is a group battle of 100 people, not 20 people, nor 10 people. Some people make mistakes in the small copy, and it will rarely happen that the whole group is destroyed. All my efforts have been wasted. How did this erring person explain to another 99 people, especially when he made several mistakes?

Lu Yang said with a smile: "Don't worry, it's just this time. When I take you through, I will gather all the artifact players and push him dozens of times a day."

Everyone: "..."

"That's right," said the White Lion.

With only three soldiers, paladins and druids guarding the heart, each person can launch physical immunity for 2 minutes, and healing heart, 11 million blood per second within 2 minutes, Lu Yang has Flames of flames, Mu Yu and the wrath of Thor, kill this lord in minutes.

Lu Yang put the equipment in his backpack and said, "Okay, now it's the most critical time, and it's finally the lord."

"Final lord?" White Wolf asked in surprise: "Isn't it just three, I didn't see the fourth one when I led the team to play epic."

Lu Yang said: "This is a lord that only exists in a hundred people's nightmares. The superior lord blood bat · doom."

In the last life, his name was called the lucky big bat by the player. It is a lord who must be challenged by any master who has reached level 140, because if he is killed, there is a chance to drop legendary equipment.

A light flashed on the dead reincarnation blood demon, the blood demon corpse disappeared, and a soul appeared.

"Children, thank you for rescuing me." The soul of the reincarnation bloodlord made an old voice.

"What? Rescue?" Bitterly loved half-lifelessly looking at the reincarnation blood demon, said: "I almost didn't let you die, you just want to wash it."

One hour of high-intensity, high-focused operation made everyone hate this lord, not to mention bitter love for half a life, Lu Yang in the last life was more powerful than him.

The reincarnation blood devil did not care for half of his life, and said to himself: "I am possessed by the bat of doom. Although you have defeated me, but you have temporarily released my control, he can still control me. I hope you can help me, Kill the doom bat. "

A burst of black light emerged from the body of the reincarnation blood demon, revealing a bat in the form of a soul. The bat's body was only 20 centimeters in size, but it looked extremely fierce.

Blood Bat Doom (First Class Lord)

Level: 140

Qi and blood: 100000000/500000000000

“No one can save you, and you will eventually become my slave.” A cold smile appeared on the face of Blood Bat.

“Let me go, please let me go.” The blood-stained samurai’s face was full of pleading look.

“Unless I die, you will always be my slave.” The big bat flapped its wings and turned into a black light and disappeared into the soul of the reincarnation blood demon.

The reincarnation blood demon kneeled on the ground and mourned: “No, how can this be.”

He looked up at Lu Yang, begging, “Great adventurer, can you help me?”

Mission Tip (Legendary): Help the reincarnation Gorefiend to kill the blood bats in his body. Doom. Note: This mission can only be completed by one person. If it fails, the whole group will randomly deduct one of the acquired equipment. If the mission is completed, You will get a gold one of excellence.

“I’ll pull it. I will challenge the 100 million blood lord monster alone. If I lose, I will randomly lose one of the equipment I have obtained. If I win, I will give it excellent gold.”

“Boss, is there a bug in it?” Hei Yan asked, if there was a bug *, he had the confidence to kill the lord.

Lu Yang shook his head and said with a smile on his face: “There is only a circular arena in it, there is no place to use, you have to be fair to the lord.”

Everyone: “...”

“That’s impossible. The superior lord at level 140 has a movement speed of 550%. Unless he can run past him with lofty transformations, the other wolves can’t run at all. Moreover, we can’t withstand the reincarnation of the blood demon. What’s more, this superior lord.” Bai Lang said.

Everyone nodded. Until now, unless there is a bug or a lord with obvious disadvantages in movement speed will be killed by the player by flying a kite, the other lord players can only escape, there is no chance of killing.

“Let’s go back,” Liang Yun said.

Tianyao said: “Agree.”

...

Everyone agreed.

Lu Yang shook his head with a smile and said, “Don’t worry, I can fight, and it’s not too difficult.”

“What?” Everyone was stunned.

“Boss, really fake. Can you single out this kind of lord?” White Lion asked.

Lu Yang nodded and said, “It’s very simple and optimistic. Today’s boss teaches you a new style of play, which you must pay attention to in the future. This involves the contest next year. What rankings can you take? If you do n’t understand, you wo n’t even be able to enter the top 1,000 next year. ”

Tian Yao and Zhou Tianming were interested.

“So serious?” Xia Yuwei asked.

Lu Yang stepped in front of the reincarnation blood demon and said to everyone, “Look, how can I kill him alone.”

He said to the reincarnation golem: “Send me in, I’ll single him out.”

“Thank you, thank you, I believe you will succeed.” Said the blood demon’s soul gratefully.

A flash of light flashed over Lu Yang and disappeared in place, and entered the soul space of the reincarnation blood demon. White lions and other people outside the field were wondering how to see Lu Yang playing monsters. A large screen appeared in the sky. Inside an arena with a diameter of only 200 meters.

Inside the soul arena.

Lu Yang was standing 80 meters to the left of the centerline. A flying bat with a diameter of 20 cm was at a height of 1.8 meters and standing 80 meters to the right of the centerline.

The blood bat looked at the land, and laughed and said, “So far, you are the first human who dares to single me out. Congratulations, I will let you feel the fear of death.”

There was a sneer on Lu Yang’s face without talking, he was waiting for time.

Off the field.

Xia Yuwei and White Lion looked at Lu Yang anxiously.

“I don’t know what skills this big bat has.” Xia Yuwei asked.

Zhou Tianming said: “No matter what skills, as long as you hit the boss twice, the boss is finished.”

Everyone nodded.

“No matter, boss, come on, we are optimistic about you.” Hao Wanwan shouted.

“Brother come on, kill him.” Han Ying shouted.

“Brother come on.” Lan Yu and Han Yu shouted in succession.

...

On the court.

Lu Yang heard the sound of cheering outside, with a smile on his face, wasn't it a blood bat? He had three anger skills in his hand, a 200-level superior lord, he had singled out, not to mention this.

“Neighing ~!”

The blood bat screamed and flew into the sky. At a height of 100 meters, he launched a dive towards the landing sun.

“Shadow Charge”

The first skill of a blood bat, the distance of level 100 only takes 2 seconds to reach. To an outsider, the blood bat is like a phantom.

1 second is a distance of 50 meters, not to mention other people, even Lu Yang can't see the movement of the blood bat, but Lu Yang knows that the blood bat charged in front of him. It was accurately calculated in the last life. It was 1.207 seconds. Therefore, with Lu Yang's reaction speed, as long as the halo skill is activated at 1.7 seconds, the impact of the blood bat can be broken.

“The Sun Fist”

Lu Yang didn't even look at the blood bats in the sky. He counted down to 1.7 seconds in his mouth, and his left hand fiercely raised a dragon fist.

“嘭”

Just when everyone was stunned by the exaggerated attack speed of the blood bat, Lu Yang's fist with golden light in his left hand swooped down in the middle of the blood shadow.

“4500000” (triple damage)

In the heads-up situation, the superior lord had no armor and no magic resistance. In the surprise voices of Xia Yuwei and Lan Yu, the blood bat was hit by Lu Yang and fell back more than 20 meters away.

“Destroy the Sky”

Lu Yang uttered the spell in his mouth A red light flew up into the sky, and then the spell was chanted in his mouth again.

“Earth to Earth”

The blood bat just flew to a distance of 20 meters, and a reddish light fell in the sky, centering on the blood bat’s body.

“1756486”

The blood bat landed, and before he flew up, a fierce fire flew out on the ground.

“1128600”

The blood bat was hit and flew backward.

“Remnant Flame-Activated”

Lu Yang flew backward 10 meters away, and just landed on the ***** bat with his right staff.

“Comet Impact”

Chapter 1190 - Legendary Saber

A comet flew from the front of his staff, flying in the middle of a blood bat that was about to land.

“2375000”

The blood bat was hit and continued to fly backward half a meter.

“Earth to Earth”

Lu Yang knocked the staff with his right hand to the ground, and a flame 40 meters away burst from the blood bat and continued to fly backward.

“Remnant Flame-Activated”

Lu Yang backs up 10 meters, then throws a comet and hits the ground with fire. Whenever Lu Yang releases a skill, Lu Yang’s anger slot will increase by 1 point of anger. The anger slot can hold a total of 30 points of anger. Before, this way to fight monsters, Lu Yang has filled the anger tank, it has been useless, at this time after three consecutive ground fire soaring into the sky + 2 comet impact + destroy the fire skills.

“Remnant Flame-Activated”

Lu Yang jumped in front of the blood bat instantly, and when everyone was stunned, thinking that Lu Yang was about to release a set of skills such as resisting the fire ring, Lu Yang’s body burst into a brilliant purple flame.

“Rage Skills-Hot Fist”

Lu Yang burst into a blazing purple flame in his left hand. He hit the blood bat with a punch. The blood bat was hit by the skills and his body became rigid. At the same time, Lu Yang’s body slammed into the front of the arena wall. .

“boom”

Lu Yang hit the blood bat on the wall with a fist in his left hand, and the blood bat bounced back from the wall in flames, and was killed by Lu Yang’s 9.5 million health at this time.

“Naruto”

Twenty-two small melting bombs fell from the sky, each hitting the head of a blood bat.

“150000”

“150000”

...

22 of them hit more than 3 million damages and added 2 points of anger to Lu Yang at the same time. The anger of just 3 squares used 1 square, and each square was 10.

The blood bat gradually slowed down at this time. Normally, the health of the superior lord in the copy is dissatisfied. Because this is a one-on-one lord, it is limited to this amount of blood, but the blood bat is the superior lord. It is the least **** of all superior lords because he has the ability to **** blood.

As long as he is given one chance, he can bite Lu Yang once, and he can drain one third of Lu Yang's blood and restore 20 million health for him.

Even if he only bites once, Lu Yang needs to release a set of combos to make up for it. Although Lu Yang has a lot of control skills, all the combos combined will only kill half of his health. Therefore, he needs to be constantly angry. Skills support.

The reason why Xia Yuwei and bitter love half-life didn't like Lu Yang's ability to beat blood bats because they knew the limit output of Lu Yang. Although bitter love half-life also got the wrath skills, he hasn't researched and understood. Only when it is a big trick to use, and as everyone knows, this powerful big trick is mainly used to control.

“Neighing”

The blood bat sobered up and flew up to bite Lu Yang, but at this time, Lu Yang had released the Yanyang mask.

“Resistant Fire Ring”

A crimson light burst out from Lu Yang's body, pushing the blood bat back.

“Blazing Flames”

A crimson flame shadow held a staff made of flames, and rushed towards the blood bat with a sun shield.

“1500000”

“1500000”

...

Consecutive damage of 1.5 million hit 5 times, which is equivalent to adding 5 points of anger to Lu Yang, and the 1 anger that was lost was immediately filled up.

“Meteorite Impact”

A crimson meteorite with a diameter of one meter fell quickly in the sky, hitting the spot of the blood bat. When the blood bat retreated to that position, the blood bat was hit by the meteorite.

“Remnant Flame-Activated”

Lu Yang suddenly jumped in front of the blood bat, and a purple light appeared from the staff of his right hand.

“Magic Slash”

He used a staff to draw a purple arc moon flame, and flew out the blood bat that just woke up backward 10 meters. Every 1 meter back, he was attacked by a meteorite, causing more than 5 million damage. .

At this point, the blood bat had doubled Lu Yang's health by more than 40 million, but Lu Yang's combo skills were only half used.

"Naruto"

22 small-scale melting bombs hit the blood bats accurately, adding 2 points of anger to Lu Yang.

"Fire Snake Bondage"

The blood bat just stood up, a fire snake trapped it, because it is a lord monster, and any stun skill can only stun for a maximum of 2 seconds.

"Pyroblast"

"Pyroblast"

"Pyroblast"

"Pyroblast"

Lu Yang had 4 consecutive blasting operations, each of which was released with a precise 0.5 second. He retreated the blood bats by 4 steps, when he was on his back after the last blast.

"Remnant Flame-Activated"

Lu Yang appeared in front of the blood bat, and his right staff pointed at the sky.

“Rage Skills-Red Lotus”

With Lu Yang as the center, countless red crimson flame lotus petals suddenly appeared, and the blood bats in it were instantly attacked by the rotation of the lotus petals.

Each blood bat hit by lotus petals stuns for 0.1 second and recedes by 0.1 meter, while Honglian’s damage is 33 Fire Lotus attacks on each target.

“Pyroblast”

...

While the blood bat was attacked by Fire Lotus, Lu Yang said a spell to attack the blood bat in succession, hit 6 Pyroblasts, and obtained 6 points of rage. Counting the previous 4 points, it was enough for another release. A big move, and his anger has always been unreleased, which means that Lu Yang can now release two anger skills.

“Remnant Flame-Activated”

Lu Yang rushed in front of the blood bat, and a red golden light appeared from his body.

“Yan Yang Suo”

The blood bat’s body was trapped in place by nine red gold chains.

“Polynuclear explosion”

Lu Yang’s body glowed with golden Mars, just as the blood bat was about to get out of sleep.

“boom”

Lu Yang's body emitted a powerful flame shock wave.

"1900000" (Critical Strike)

The blood bat was hit backwards by a distance of 50 meters. It was originally hit by the blood bat to the east of the map by Lu Yang. Under the attack of fire ring + magic prison chopping + poly-nuclear explosion, plus red lotus and flame explosion A small range of attack skills, such as surgery, hit the blood bats 77 meters away and reached the west side of the arena.

"Comet Impact"

"Comet Impact"

...

Lu Yang lost four comets in a row, and the opposite wall he aimed with in free mode. When this skill was hit, the white lion and others on the field stopped.

"Boss made a mistake?"

"It shouldn't be."

"How could he make such a mistake?"

...

In a curious voice, Lu Yang's body burst into purple flames.

"Rage Skills-Hot Fist"

Lu Yang turned into a phantom and rushed forward instantly, running a distance of 50 meters within 1 second, just when the blood bat was about to land, was hit by Lu Yang's left hand.

Lu Yang watched a sneer on the face of the stiff blood bat. He continued to charge forward, came to a distance of 1 meter in front of the wall on the west side of the arena, and slammed his left hand against the wall.

“boom”

The blood bat flew over Lu Yang's body with a purple flame and was thrown behind Lu Yang.

“Lava Eruption”

Lu Yang turned around to release his skills. At this moment, 4 comets collided with each other and hit the blood bat's body with precision, and they retreated continuously by 2 meters in the direction of Lu Yang. 2 meters, allowing the lava eruption to deal 4 damage to the blood bat.

The game is set in the range of the lava eruption. If you take one step, you will be injured once. If you don't go, you will be injured every second.

“Flame Storm”

Lu Yang's most proficient skill was finally used. When the blood bat stepped back, it was used by him. He was placed in the open space, and the blood bat landed at the center of his skill.

“boom”

The flames lit and the blood bat was stunned for 2 seconds.

“Pyroblast”

“Pyroblast”

...

Lu Yang released four Pyroblasts in succession, and then read the spell in his mouth.

“Remnant Flame-Activated”

Lu Yang jumped in front of the blood bat, a reddish light appeared in his body.

“Rage Skills-Red Lotus”

Numerous flame lotus petals hit the blood bat, backing it back 33 times in a row, giving Lu Yang 3 points of anger. At the same time, in the expression of everyone’s stun, the blood bat spit out blood and was weak. Fell to the ground.

System prompt: Congratulations to player Lu Yang for completing the lord challenge mission

Congratulations to Lu Yang’s all-round move to kill and kill the superior lord, you get extra rewards

You got the Blood Fiend Knife

Lu Yang got a long knife in his backpack. He glanced at the weapon and exited the space with a smile. Listening to the reincarnation of the blood demon, he turned around and looked at the people such as Zhuojiu and White Lion.

At this time, the top leaders of 99 iron brother brothers, such as Zhuojiu and White Lion, were like Petrochemical, and looked at Lu Yang in shock.

“Why, is there any problem?” Lu Yangming knew that they were worshipping themselves and asked deliberately.

“I rely on it.” Half a lifetime of bitter love rushed forward and hugged Lu Yang and shouted, “Boss, you are so awesome. How can you do that, how is this possible!”

Both the White Lion and Zhou Tianming rushed up, and no one looked at Lu Yang with great excitement, with incredible looks on their faces.

“A set of combos took the 100 million lords away.”

“It’s amazing, I can’t believe it, I can’t believe it at all.”

“A miracle.”

...

They can’t do it. At present, they can’t do a series of strokes to kill a lord of 100 million blood. It’s not enough damage, but they have not realized how the rage skills and conventional skills work together.

This coordination method is not simply to enlarge the recruit at the end of the halo skill, but to strictly control the release timing of each major move, and to accurately allow each subsequent big move to complete the next continuous output so that he can. It is the most difficult to have the rage value to release the next big move. Among them, not only the opponent’s badge solution control skills, but also the damage judgment and many other issues.

But just now, Lu Yang’s set of tricks opened a window to their heads, and everyone knew as much as the epiphany how the big trick was going to be released.

“Boss, I see. This is what you said about the role of anger skills in the next global contest, right?” Bitter love asked for a long time.

Lu Yang nodded and said, "Yeah, if you do n't master these combo skills, as well as the ability to prevent each other's combo skills, once they get caught in the gap, they will be taken away by the opponent's combo, even if you No matter how good the equipment is, as long as it can be beaten by the opponent to kill blood, it is tantamount to a fatal ending. "

The countless blood lessons of the last life told Lu Yang that at the beginning of the fourth global competition, how many masters did not take their opponents seriously, how many third-ranked top 10,000 masters did not even enter the qualifiers, all because Taken by the opponent's anger skills combined with a set of regular skills.

At that time, "Second World" foresaw that this competition would not be so simple, and deliberately established a system of three wins and two wins, giving everyone a chance to make mistakes, but even so, relying on equipment to compete in the competition Players, almost all of them in the preliminary round, were beaten by opponents.

Take His Majesty the King of Africa as an example. He also imagined that, as in the previous three competitions, relying on a fixed position, it is impossible to win the game by spraying poison, even if he can offset more than 90% of the target's damage, but the opponent Indefinitely, the king's large toad is a living target.

Hei Yan said, "Boss, you teach us how to do it. With you, we can master this method much faster than others."

Heiyan won the ninth place in the individual competition and also acquired a book of wrath.

Lu Yang said: "After playing today, I will take you to the wrath skills. When I help you, the elite masters have fully wrath skills, I will teach you one by one."

"Thank you, Boss." Hei Yan and Mage such as Vulcan M16 said together.

"Boss, what about us?" Suffering half anxious anxiously.

Lu Yang said, "Teach the same."

If you want to become a master, you must be familiar with the skills use process of the other party. In his strongest year, he played practice games in the arena and various world top masters, knowing their skills release process, maybe a real deep understanding of the need They will solve it by themselves for half a life, but he can still teach using the tricks.

The faces of everyone were excited.

“Boss, what equipment did he drop just after killing him?” Bai Lang asked curiously.

Lu Yang laughed and shared the Blood Demon Knife in his backpack to everyone.

“Wow ~~!”

“Legendary weapon!”

“Isn’t it, boss, killing this legendary weapon?”

...

A burst of exclamation came from the mouths of Xia Yuwei and others. Don’t blame them. It’s really been since 60 that they haven’t seen a legendary weapon for a long time. It is very difficult to get a legendary weapon in the game Big.

Even if you use the building skills of Tianyuan God City, it is difficult to create legendary weapons, and the price of each legendary weapon is not much lower than the price of the same level of Asian artifacts, because many Asian artifacts have no legendary damage. High-level weapons.

At that time, many people did not understand why the damage of the Asian Artifact was not as good as the legendary weapon. The official explanation was that the official drop of the Asian Artifact was all the weapons after God’s suppression. The specific suppression was random.

The players create the power of imitating artifacts, how much they can imitate, and the system is random. After all, if you can create them, thank your ancestors. After all, the price of an Asian artifact weapon is hundreds of thousands of credits. .

After they were excited, Lu Yang threw a blockbuster message and said, “If I tell you, I can fight out legendary weapons every time, believe it or not?”

“There is a bug !!!” The eyes of bitter love for half a lifetime were full of excitement.

The white wolf directly held Lu Yang's arm and said, "Boss, I want it, my brothers are anxious to use it."

People like Zhou Tianming and Zhuojia nodded, both anxiously.

Lu Yang laughed and said, "Remember, you guys know this secret, and you must not pass it on."

"What secret?" Everyone asked in unison.

Lu Yang said: "The normal setting of a blood bat is to drop 70% of excellent gold equipment and 30% of gold drawings, but if someone can recruit the blood bat more than 50 times from beginning to end, and letting a blood bat attack it without killing it will trigger the difficulty of the system, which will cause the blood bat to drop legendary weapons 100%."

This was discovered in the last life, after a master of a studio repeatedly hit and killed a blood bat. After that, the studio became rich. A legendary 140-level weapon was sold for 200,000 yuan in bulk. Tyrant players scramble to buy.

After that, the studio immediately attracted the jealousy of other studios. Under the purchase of bribes from various parties, a cleaning house sold the matter for 5,000 yuan. As a result, it was naturally made public. At that time, the cleaning house He was also sued by this studio, so he was noticed by Lu Yang.

"The corps heads and commanders of our guild are going to be excited. We have 160-level sub-artifacts. Without these equipment, we will be able to hit them with a full set of blood magic knives soon." White Lion said.

Lu Yang nodded and said, "I just recorded the video and I will send it to you after the post-editing. You pass it to all the players and let them follow the above process. If someone can get through to the third lord, let them notify you, come to me again, and let me drop the superior lord in seconds."

"Yes," the crowd said together.

This is the best way at present It is also the most difficult way for the enemy to discover. If it is discovered in the future, it will be after the Brotherhood of Iron Blood has been equipped with legendary weapons.

As for who the legendary weapons are for, Lu Yang already has an idea in mind. When Lu Yanggang won the championship to accompany the official to make publicity everywhere, the official released the announcement of the magic resistance class-Blood Warrior at level 140 in the game.

This magic resistance class, like the previous class in Lu Yang's memory, has the ability to be completely immune to magical damage and magical control.

However, if they become blood fighters, they can only wear leather armor, and they will not be stealth skills. Attack skills will also be mainly consumed, and there is no powerful killing skills.

Generally speaking, this is a battlefield-type occupation. It is a single occupation. This occupation has no advantage other than magic immunity. Even if the magic immunity enters the copy, the boss will also receive the physical damage bonus effect. A bigger problem is that the amount of blood added to the magic free class is half the normal.

Faced with a large number of long-range shooters, the blood fighters are a group of targets! And when entering the arena, the blood warrior's magic immunity became 50% of the magic resistance, so no one chose to transfer to the blood warrior profession.

Chapter 1191 - Who is apostate

However, Lu Yang needs such a group of occupations, because the guild of Lu Yang is large enough to support such occupations, even if they have no advantage in facing illegal occupations at the same level, as long as this group of people's equipment is stronger than other occupations, they Is invincible.

“Okay, everyone, let’s roll it. The key moment is here. Who can get the first legendary weapon for his subordinates? It depends on this one.” Lu Yang laughed.

These vice-chairmen of the Jagged Brothers League are all wearing 160-level sub-artifact suits. They have no need for the 140-level legendary weapons, but their men have needs.

Moreover, the Brotherhood of the Iron Blood is no longer the time when it was necessary to rely on the vice president and the special army commander to lead the team to fight for their lives. What they need now is to conduct the command of the large army, and it is the time when they need to come down to help them win the battle. Already.

How to make your subordinates feel like following your boss, how to make your subordinates feel happy to follow this boss, and how to make your subordinates work harder, is to see which vice president and special legionnaire can get more good equipment for their subordinates, just right, this The legendary Blood Demon Sword is the key to their fight.

“Hey, I’m feeling very lucky recently, it must be mine.” White Lion said eagerly.

“It must be mine, haha, my brother would be crazy when he saw that I had brought him a 140-level legendary weapon.” He said bitterly for a long time.

“My deputy commander just lacks a blood magic knife.” Sun Yu said.

Voiced wine said, “I feel like I have a chance.”

...

Everyone was in a hurry.

Lu Yang said with a smile: “Begin.”

33 people roll together.

“99”

“96”

“1”

“78”

...

Among the numbers, a large 100 word made the first white wolf who rolled out of 99 bare his chest.

Xia Yuwei proudly closed the Blood Demon Sword in her pouch and said, “Just to Hansha.”

Everyone: “...”

“It’s almost.” The white wolf continued to be depressed.

Lu Yang asked everyone to leave the copy, and told his elite masters about his play strategy. After everyone was almost gone, he quietly left Xia Yuwei and asked, “Is the kid in Hansha all right?”

Among the 100,000 studio players in the Jagged Brothers League, Han Sha was the first one. His love for Xia Yuwei, but everyone can see it, but Han Sha has always been clear that he does not deserve Xia Yuwei, so he has been Silent guardian.

Not only Han Sha, but also a group of members of the Queen’s Guard, such as light and dark thieves, have a crush on Xia Yuwei, but Zhang Zibo and Xia Yuwei have already known about them. Although they have high wages, they have been in a slum In a state of weakness.

Xia Yuwei was a little surprised and asked, "Is something wrong?"

Lu Yang shook his head and said, "It's okay, maybe I'm more attentive. Some people reported that they saw Han Sha and Yi Dengtian meet outside the city."

Xia Yuwei frowned, and asked, "Do you suspect that Hansha has defected?"

Lu Yang said, "I don't want him, but there must be others in the guild."

"I'll ask him in person." Xia Yuwei was furious.

Lu Yang nodded and said, "He is the first legionnaire we have joined here. If something goes wrong, it will have too much impact on us."

"You follow me." Xia Yuwei said.

Lu Yang nodded.

The two quit the game, and Lu Yang went downstairs and saw Xia Yuwei at the elevator door.

"I'll call him. You listen to my conversation with him in that room in my office." Xia Yuwei said with a guilty conscience.

Lu Yang nodded, and he turned into a rest room in Xia Yuwei's office, leaving a crack in the door, and he sat in a chair to rest.

He has always been skeptical of Hansha's rebellion. The cause of the incident was a leader of the Iron Brotherhood Alliance, a person named Liu Baicheng reported it during the contest, but it was very depressing for Lu Yang, but he It was not proposed at that time, but it was not submitted until today after making a copy.

“Vice-Chairman, are you looking for me?” Hansha asked in surprise.

Xia Yuwei looked at the cold sand in front of her. This was a man who had filled her heart with emotion. Whenever she encountered difficulties or encountered difficulties in the game, she was the first to call the Iron Brotherhood to attack and help her. The people who led the charge with their brothers were all Hansha.

She used to have such a hint of thoughts on Han Sha, but she only had a hint of thoughts. The life experiences of the two are too different. Since childhood, Xia Yuwei grew up receiving the highest education in the West.

She read Shakespeare’s words. Her parents took her to Notre Dame to see oil paintings and medieval-style buildings. Her parents taught her to learn piano and cello. Her parents taught her to read all kinds of Western and Eastern classical books from an early age.

She has everything in Analects, university, Mencius, Lisao and so on, and has little success. Of course, these are not the main ones. The main thing is that she has fallen in love with these literatures and what her parents taught her before.

Han Sha, a civilian, her parents are ordinary workers, she is handsome, but she is completely different from her education. She has no contact with, or even rejects, Han Sha.

If the two have been together for a long time, there is no talk at all, so Xia Yuwei quickly ends her thoughts. One person can never fall in love with another person who can’t talk to each other. After marriage, do you have big eyes and small eyes?

“Hansha, we have known each other for three years.” Xia Yuwei said sadly.

Han Sha looked at Xia Yuwei and said with a sigh, “Yeah, three years.”

“You ...” Xia Yuwei really didn’t know how to speak. The anger just disappeared at this moment of meeting. Xia Yuwei absolutely did not believe that Hansha was a traitor.

“It’s okay, it’s just a bit sentimental. Tell me about it. What special things happened at home during our time abroad?” Xia Yuwei said.

“No ...” Han Sha opened her mouth to say, but suddenly realized, “You all know.”

Xia Yuwei’s eyes widened incredulously, and she stood up and frowned, and asked, “Is it really you?”

“Well.” Han Sha said only one word.

“噤”

Xia Yuwei punched heavily on a chair made of mahogany. There was a pen cap on it. Xia Yuwei’s fist hit the pen cap, and the blood flowed out.

“Vice President, you ...” Han Sha hurried to step forward.

“You stay away from me.” Xia Yuwei pointed her fingers at Hansha with **** fingers, tears in her eyes, and asked, “Why betray me?”

“Betrayal?” Han Sha blinked and said, “I haven’t betrayed you. What are you talking about, how can I not understand?”

Xia Yuwei asked, “Did you take a step to the sky and still not admit it?”

“I came across it, but I didn’t agree. I refused at that time.” Han Sha anxiously explained.

“You, you refused?” Xia Yuwei asked in surprise.

“Yeah.” Han Sha said with a look of anxiety, “I just went out to buy something. I didn’t know how I came across a step to the sky. Then he invited me to join his guild and gave me an annual salary of 10 million. I refused then. Did not say the second sentence. ”

Xia Yuwei was speechless and said anxiously: “Then why didn’t you just say that, you ah, you ah.”

“I, um.” Han Sha bowed her head.

Lu Yang laughed, and he came out of the room and said, “Okay, this is the end of this matter. I believe Han Sha was wronged.”

“Boss, why are you here?” Hansha asked.

Lu Yang took out his mobile phone from his pocket, opened the album and pointed at Han Sha, and said, “Look at it yourself.”

In the first photo, Han Sha and Yi Dun Deng held hands kindly.

In the second photo, Han Sha took a step up to Dengtian’s contract.

In the third photo, Han Sha took a black suitcase from the player next to the sky.

Together, the three photos mean that Han Sha was persuaded by Deng Tiantian, signed a contract with him, and received on the spot the money that Deng Tian gave.

“This, this picture is not the case, I ...” Han Sha was anxious, usually he did not like to talk, and suddenly encountered such a thing, he didn’t know how to justify it, his face flushed.

“Don’t worry, speak slowly.” Lu Yang found a band-aid from the office in Xia Yuwei’s room. He simply used Xia Yuwei’s makeup remover and cotton swab to clean Xia Yuwei’s broken finger and cleaned the wound. A band-aid said, “OK.”

“Okay ~~~~~?” Xia Yuwei looked angrily at Lu Yang and said, “Is there anything wrong, President, my hand broke the cap?”

Lu Yang said: “The business matters, deal with this first.”

Xia Yuwei was anxious internally, and she also saw it. Han Sha was not a traitor. For more than two years, as a disciple of Lu Yang, she had seen many traitors with Landing Yang. Every expression that was detected, Xia Yuwei It was deeply imprinted inside the head.

Regardless of Xia Yuwei’s young age, the things she can experience are very rich and she knows this society very well. However, she can be relieved now. Finally, Han Sha is not a traitor and did not make her chill.

“Fortunately, luck, boss, let’s talk about your matter later, let’s discuss Hansha first.” Xia Yuwei hummed.

The beauty of this angry time still moved Han Sha until now.

Lu Yang sighed at Han Sha and said, “Don’t watch, your business is not done yet.”

“Uh, oh.” Han Sha blushed and lowered her head. There was no way. Every time he saw Xia Yuwei’s face, he couldn’t control his eyes. How could the light of love not be covered, he was annoyed, but There is still no way.

Lu Yang asked, “Specifically, what exactly happened on the day you and Yideng Tian met.”

“Oh.” Hansha hurriedly told the story.

Lu Yang is even more able to conclude that the more such a defender, the more truthful he is, because you cannot remember so clearly about what happened half a month ago, especially under the interrogation of others. Clearly organized, it must have been compiled long ago.

What Han Sha said, Lu Yang summed it up, that is, he went to the mall to buy clothes that day, and by chance he encountered a step to the sky.

One step up to the sky and immediately smiled and walked over to say hello. Just as it was called to reach out and not smile, Hansha's parents taught him to be polite to people. So, one step up to the sky and smile and shake hands, Hansha also shook the step and smiled.

Then he stepped up to the sky and asked his men to give him the black suitcase, saying that it was a gift for him. Hansha didn't want it, but turned away in the hypocritical smile in one step, so he just rejected it and was taken by the photo to pick it up.

The signing of the contract in the second photo was after the black suitcase. After taking the contract one step at a time, Han Sha turned his face at a glance and turned away.

"Is there a witness?" Lu Yang asked.

Han Sha shook her head and said, "I'll go alone."

"Is that just your side?" Lu Yang asked.

Xia Yuwei said unwillingly, "Han Sha obviously didn't tell a lie, why would you say that?"

Lu Yang smiled and said to Hansha, "Looking at your boss's anxiety, I didn't say what you said was false."

Han Sha gratefully looked at Xia Yuwei and asked, "Boss, are you okay?"

"I still care about me, and clarify the matter quickly." Xia Yuwei said angrily: "Also, I will speak in full, and dare to say half-hearted, I can't spare you."

Han Sha bowed her head shyly, it was a big boy, and he couldn't see his decisive look in the game.

Lu Yang sighed and said, "Who knows when you go shopping in the mall?"

Han Sha said, "Wan Feng, he knows."

"Wanfeng?" Lu Yang frowned, and asked, "Who is this person? Why don't I know?"

Xia Yuwei said, "It is my other subordinate and the commander of the army."

Lu Yang looked at Hansha and said, "In the near future, you will have personnel transfers. Do not have any thoughts or words."

Han Sha looked at Xia Yuwei and said, "Boss, I, my brothers, and me are all familiar. I will be transferred to other places, I ..."

Xia Yuwei said: "President is protecting you. Remember, the three of us today are not allowed to talk to anyone. If you make another mistake, you know the consequences and go."

"Oh." Han Sha scratched her head and left in despair.

Lu Yang watched Hansha go out, patted his palm on the table, and said, "If there is no accident, there are still players in the legion level who have been bought by the other party."

Xia Yuwei said, "I'll investigate."

Lu Yang shook his head and said, "Don't get involved in this matter. I'll check it. I'll check it myself. If you come to investigate, be careful to let others scold you behind your back."

Xia Yuwei nodded, she understood what Lu Yang meant. This matter was a very serious matter, especially for their vice presidents. It was a thing that would cause people to poke the backbone of a lifetime and bury the stain of life.

“I’m gone.” Lu Yang stood up and left Xia Yuwei’s room, took the elevator and returned to his office.

“Black and white, come in,” Lu Yang said.

“Okay.” Black and White always took four people to guard the door of the elevator. The elevator that Lu Yang took was a confidential elevator. It was an elevator that could only go up and down after he confirmed with his fingerprint.

Inside the office.

Lu Yang picked up the phone and called the director of a security bureau. He smiled and asked, “Wang, what are you doing these days?”

“Xiaolu, why are you free to find me? Is something wrong? Directly.” Wang Bin said with a smile, he is the director of the municipal bureau.

“A very secret thing, please call me a video along the way from my studio to Nanzhan Commercial City 15 days ago.” Lu Yang said.

“That’s a lot, which way and time period do you want.” Wang Bin asked.

Lu Yang said, “All it takes.”

Wang Bin said silently: “So many, okay, for the sake of our good relationship, I’ll give it to you, and you’ll have someone come here to get it, and I’ll let you record it.”

Lu Yang said, “Brother Wang, please do it yourself. I am not assured that others will do it.”

“Huh?” Wang Bin was interested, and Lu Yang was originally curious about what he wanted to monitor. Now he asked him to do it himself, and even more curious.

“Tell me something, can I help you?” Wang Bin asked.

Lu Yang said with a smile: “Wait for my brother, you can really help with this, but not now, within half a month, I will definitely look for you.”

“Oh, just fine with you, I’ll get it for you, you can send someone.” Wang Bin said.

Lu Yang hung up the phone with a smile, and said to Black and White, “Command our brothers outside, go to Wang Bin’s bureau, take out the video, and check for me, who followed the cold sands to shoot. “

“Okay.” Black and white took out the phone and called.

Soon, in less than half a day, the relevant data was transmitted to Lu Yang’s computer. He divided the data into 20 shares and gave them to 20 black and white men. These 20 people immediately started watching the video frame by frame. .

This video has not only this day, but also two days before and after. Wang Bin was afraid that Lu Yang could not find him and asked him again. He was troublesome, and it was precisely because he was afraid of trouble that he let Lu Yang play the video the day before. I found the same person who should not appear, but should appear very much-Liu Baicheng!

Black and white pointing at the images in four laptops, said: “The first computer on the left is the picture of Liu Baicheng taking a taxi to the Paramount Business KTV in the city on the day before the 15th when no one noticed at night. Hours later, it’s a step into the sky. “

“This is not enough to prove it,” Lu Yang said.

Black and white pointing at the first computer screen on the right, said: “This is a photo of two people coming out together, taking the same car, getting off at about 1 km in front of our studio, because there is no monitoring here I can only see him walking back alone. “

“This is a mess.” Lu Yang gritted his teeth and scolded. Obviously, Liu Baicheng was afraid of the camera at the door, and got out of the car in advance.

Black and white said, “Changing the next one.”

The four computers changed the picture together. The first one on the left was the one where Liu Baicheng drove to a department store before Hansha, and the second was the parking lot behind the department store.

“Boss, you can be sure, Liu Baicheng has betrayed.” Heibai said.

“Boss, I’ll get him.”

“I’ll go as well.”

Hei Dao and Bai Kaishui said together that these two men were newly promoted by Black and White. They were descendants of mercenaries and volunteered to join the security team of the Brotherhood.

Lu Yang sighed and waved his hands, sitting in a chair full of loss on his face and saying, “I’m not thin to them.”

Chapter 1192 - Resurgence

To say which guild boss in “Second World” has the best opponents, if Lu Yang recognizes second, no one dares to recognize first, especially the first group of players who followed him have been promoted to the commander of the legion. Level, and this Liu Baicheng is one of the earliest 3,000 people.

Why is Lu Yang so sad? If it is the 10,000 people who joined in the second batch, he will confess his fate, but this Liu Baicheng followed his bloodthirsty bloodthirsty when he was never equipped. They only had 3,000 people Bloodbath 50,000 people, in that case, accompanied him to come over, why betrayed at this time, he could not understand.

People such as black and white, black knife, and white water can fully understand Lu Yang, and even they have not seen any guild boss who can arrange such meticulous attention.

The food in the cafeteria is a meal of more than 100,000 people. Lu Yang actually uses the buffet mode. The beautiful big restaurant that can serve 30,000 people at the same time is decorated in black and white.

There are 18 dishes in the restaurant, 8 of them are meat, and there are a variety of delicate snacks and fruits. Lu Yang let everyone eat and eat freely, without any restrictions.

The most enviable thing is breakfast, braised pork in the morning, as well as milk, juice, soy milk and various vegetable porridge.

These logistical supplies alone make them not want to leave. The food is really good, but behind this good, Lu Yang bears huge financial pressure, and he resists alone.

Besides, in terms of money, in the early 3,000 people, regardless of their ability, Lu Yang gave a salary of the regimental commander, 30,000. How many people dismissed Lu Yang's decision, but Lu Yang just said that they were the foundation of the Iron Brotherhood Cornerstone, never treat them badly.

Lu Yang also gave them a house for free, a set costing hundreds of thousands of dollars. Such a variety, Liu Baicheng would even betray him, his sadness can be imagined.

"Don't touch him first, check it, I want to know why he betrayed me." Lu Yang said with a heavy voice.

"Yes." Black and White immediately went out.

Lu Yang said to security such as Heifeng and Baiboshui: "Come with me out for a walk."

The group nodded and accompany Landing Yang out of the studio. In the game city, many people are taking a leisurely walk on the road at this time. There are elderly people, children, and girls. They are all members of the Iron Brotherhood. Everyone sees Lu Yang came over and said hello.

“Boss, I’m so busy today.” Asked a child only 12 years old.

Lu Yang asked with a smile: “I’m not going to school, I’m hanging out here.”

“Where is the lunch break, I will become a master of the game like my dad and follow the boss.” The little boy was immature and laughed at everyone.

“Your boy.” Lu Yang rubbed the little guy’s head and said, “Trust you, but you have to study well first.”

“I see.” The little guy ran away.

An old man smiled and said to Lu Yang, “Boss, you are not busy today.”

Lu Yang said quickly: “Don’t call me that, Uncle Liu, it’s easy to die if you call me that.”

“Hey, I call you that, and I’m in a hurry.” The old man is very optimistic. In the game city, every player of the Jagged Brothers League called the boss Lu Yang. Over time, it became a habit. Call the boss of Lu Yang.

Lu Yang smiled helplessly and said, “Be happy with you.”

The old man went away cheerfully.

Heifeng was not very interested in Lu Yang, saying, “Boss, look at that, it’s still individual. Most of them are grateful to you.”

“It’s just that.”

Lu Yang smiled and said, “Go there.”

The direction of his finger was the direction of Liu Baicheng's family, where Lu Yang personally pointed it out to Liu Baicheng. The first 3,000 people in the Iron Brotherhood, each house was selected by Lu Yang himself, so Lu Yang knew them Location where everyone lives.

This is one of the best buildings, at this time is the winter season, the New Year is approaching. Although it is a sunny day, the wind is still a bit cold.

Underneath the building, an old man was sitting in a wheelchair looking at the sky, and Lu Yang recognized the man as Liu Baicheng's father at a glance.

"Uncle Liu, why are you here?" Lu Yang asked.

Liu Baicheng's father turned to look at Lu Yang, but with a confused look, he asked, "Are you?"

Lu Yang froze, and a woman older than him came over and said, "You are Liu Baicheng's friend. I am the babysitter he hired last month to take care of his father. His father is almost dead. Ugh."

Lu Yang frowned and asked, "Isn't it still good before?"

The babysitter said, "I don't know. Last month, I didn't know why the old man fell because of something. He heard that it fell to his head. It has been like this since then. He was also found to be at the advanced stage of cancer. It is estimated that this year will not pass. "

Lu Yang sighed and frowned and asked, "Where is Liu Baicheng? He is not with his father at this time. What has he done?"

The nanny smiled helplessly and said, "There is no filial son in front of the 100-bed, the old man has heard of this disease for a long time, but it has not been so serious before. It is estimated that Liu Baicheng has already opened it. He seems to be out, and I do not know where to go . "

Lu Yang has seen such things in his own life. When he was young, his father suffered a serious injury. During the treatment at the hospital, there was an old lady on the bed opposite his father. He was over

90 years old and kept covering. Screaming for pain in the stomach, how did the babysitter ask, and the old lady just cried for pain, and asked her daughter why she hadn't come.

At that time, someone whispered and said that the old lady just wanted to see her daughter, but her daughter would rather spend 400 yuan a day hiring a nanny rather than take the time to visit her.

Every house has its own affairs, and no one can judge whether it is right or wrong. Lu Yang said: "I saw Liu Baicheng and asked him to find me on the 33rd floor of the studio, anytime."

"Okay." The nanny didn't know about Lu Yang, because she didn't pay attention to the game, not to mention the star.

Lu Yang turned away and just returned to the 33rd floor. Tu Feng called and said, "Boss, something went wrong, and he is stepping up to gather Steiger in Germany, Renault in France, Kerem in Turkey, and Blood Slayer in Britain. Ready to attack us again. "

"How come you hit me again?" Lu Yang asked, and he found that it was really troublesome, one after another.

Tu Feng said: "The level of our tens of millions of main players has reached 140, and the German Steiger just won the German guild in his area and won more than 80 main cities. But the players in his hands The level is only 133, which is 7 levels lower than us.

Turkey and Greece have not yet separated, but the two sides have ceased war, and Turkey's Korem has only 134 levels.

The average rank of the Blood Butcher's Guild is 135, and Renault in France is better. His average level is 137 and a half, which is the closest to us, 138.5.

But we have already begun to play 140 copies, and issued a call in one step, saying that as long as we play all 140 gold and dark gold equipment, we will attack them south. Therefore, all these guilds will stop the civil war and prepare to take turns to attack us. Force us to be unable to fight the replica equipment. "

Lu Yang sneered and said, "I can see it now, don't you think it's too late?"

"Boss, what shall we do? They are discussing with great fanfare at Druilai Pavilion in Tianyuan God City." Tu Feng asked.

Lu Yang said, "They want to get together, and it takes a lot of effort, and it's not so easy to work together and see me."

He is now angry because of Liu Baicheng's betrayal. Whoever provokes him will bear all his anger.

Lu Yang put on a helmet and entered the game. He took out the teleport token, and a light flew to Tianyuan City.

"Summon Flying Carpet"

Lu Yang rose into the air and flew blatantly to the sky above the teleportation area of Tianyuan God City. At this time, there are countless players here.

"Look, that's Lu Yang, president of the Jagged Brothers Guild."

"Lu Yang appeared, pay attention to his movements."

"Follow him fast, chances are hard to come by."

"Look where he goes and if there is anything good about it."

...

Those who want to kill Lu Yang, want to rely on Lu Yang to get rich, are curious about Lu Yang's appearance, and are fans of Lu Yang. They whispered, many of them ran in the direction of Landing Yang on the ground.

Drunk to court.

Kerame, Blood Slaughter, Renault, One Step Dengtian and other seven guild leaders are sitting in a private room and chatting. At this meeting, they came to Drunk Lai Pavilion together, so that everyone in the pavilion looked straight. The reason is that they have to prove in this way that they want to attack Lu Yang together, rather than someone secretly colluding with Lu Yang.

“Haha, this time we have so many people together, we must be able to break Lu Yang’s **** fortress and destroy him.” Deng Tiantian said with a glass of wine and laughing.

The Blood Butcher and Kerim looked dull.

“We’ve all wasted too much time before, alas, cheap Lu Yang.” Kerim said remorsefully.

“Yeah, with so many wars, we can’t even improve our level.” Blood Butcher said with a frown.

“I am the most unlucky. The one who was luyangkeng can only fight at level 130. Although I won the whole of Germany, my level is the lowest.” Steiger said.

“Don’t you cooperate with Lu Yang? You won’t be undercover sent by Lu Yang.” Ricard of South Africa asked.

“Nonsense, I was killed by him. This time we must snip Luyang. We must not give him the opportunity to equip him, otherwise we all have to die.” Steiger said.

One step Dengtian smiled and said, “I believe that Steige only found him. I know everything about him. He was overshadowed by Lu Yang. Who would have thought that Lu Yang took 1 billion to buy his company? Just to make his company’s stock fall? “

Steiger said angrily: “Yes, I am miserable now.”

Rickard, Blood Butcher, and others just dispelled the suspicions on the surface, but privately, they still doubted Steiger. After all, Lu Yang spent 1 billion credits.

Just then, the knock on the door sounded.

“咚, 咚, 咚”

Stepping up to the sky with a frown, he said, “Today’s meeting is temporarily closed to reporters and the media. Please wait for us to conduct an interview after the meeting.”

He smiled and said to the people present: “The media now is really seamless. It’s coming so soon.”

Renault and others all smiled proudly, but they just laughed, and when they heard the voices of the outside speakers, their expressions were frozen.

“It’s me, Lu Yang.” Lu Yang said at the door.

“Lu ... Lu Yang?” One step Dengtian was shocked, and asked, “What are you doing here?”

Lu Yang said with a smile: “I came to Steige. I haven’t been able to contact him. I can only find it.”

“What do you want me to do? I have nothing to talk to you about,” Steiger said angrily.

Lu Yang smiled and said, “It’s about the merger of the company. It was stipulated in the contract before. If you unified all the main cities in Germany, you must agree to the merger of the guild into a listed company. In my best efforts, With your support, you have done it. Is it time to discuss the merger? After all, with the good news, stocks will grow crazy. “

The blood slaughter and Richard and other guild leaders all looked at Steiger, with a look of badness in their eyes.

“He must have come to undermine our alliance. Don’t believe him.” Steiger blushed and explained.

Lu Yang said, “My affairs have nothing to do with your alliance. No matter what, your chairman cannot avoid my 40% executive director. Regarding the future development of the company and the guild, we two have to talk about it.”

“I don’t have anything to talk to you.” Steiger said angrily, if it was not Lu Yang, he could calmly arrange, without having to fight hard for two months in a row, to win all German guilds, although Lu Yang gave him his 1 billion credits, the money was not enough for the cost of his war in the past two months, and he hated Lu Yang.

Lu Yang said: “It doesn’t matter, you can talk to me now, but you must be present at the meeting tomorrow.”

“I’ll have a meeting with you, hurry up.” Steiger growled.

Lu Yang laughed and said, “Tomorrow in Germany, your company’s headquarters, I ask for a shareholder meeting. This is my right. You must be there. If not, you wait for me to go to the stock exchange to sue you.”

After speaking, Lu Yang turned and left.

Steiger is dumbfounded. Lu Yang really has this right in the contract. Tomorrow’s meeting, he must attend. He looks at Step Deng Tian and others. At this moment, all the presidents such as Step Deng Tian and Blood Butcher are looking with skeptical eyes. Holding him.

“What do you think I do? Do I still fight you with Lu Yang? I and he are enemies!” Steiger growled.

No one but the Blood Butcher and Rickard talked.

Stepping up to the sky, he said, “You should go to Lu Yang for a meeting first. As for the future, we will discuss it later.”

“You, you.” Steiger was anxious, he stood up and pointed a step to the sky and said, “You asked me to come, so you want to kick me away?”

Stepping up to the sky with a smile, he said, “You don’t have this meaning, but you also heard that you are going to fight Lu Yang with us. You can’t fight for the time being. You will have a meeting with him tomorrow.”

Steiger glanced at the people in the room, snorted coldly, and turned into a white light. He returned to the guild hall of Tianyuan God City, found Lu Yang, who was blocked by his friend, and called him. Unfortunately, , Lu Yang did not answer at all.

“Damn, what the **** is going to do.” Steiger growled.

Lu Yang put Stegola on the blacklist, and he opened a special space to convene all the vice-chairmen such as Zhuojiu and Xia Yuwei.

The light flashed and more than 30 people arrived.

“Boss, is there another war?” Zhuo Jiu asked, and he had just heard Tu Feng mention it.

People like Bai Shi and Tian Yao didn’t know yet, they were surprised.

Lu Yang said: “It can be confirmed that one step Dengtian has joined 7 guilds such as Blood Butcher. From today, all players up to level 140 enter the preparation state. Tiger Mouth Fortress and Tianjian Fortress have more than 300,000 standing players. The rest, even if they are making copies, will come back immediately if there is a fight. “

“Yes,” said White Lion and Tian Yao.

Lu Yang said to Tu Feng: "All spies installed outside must pass information at any time. It is the closest step to us to reach the sky. It also takes more than 4 hours to reach the tiger mouth fortress. Be sure to pass the news as soon as possible and prepare Time to fight. "

Tu Feng asked, "Boss, Steiger's Chieftain Fortress is closest to our Tianjian Fortress, only half an hour away. What can we do there?"

Lu Yang said, "Beginning tonight, the muddy wine will take over the overall situation for me. I will go to Germany and I will solve Steiger by myself.

Everyone smiled.

"This Steige is going to be unlucky." Said bitterly with a smile.

Lu Yang said with a smile: "I bought his 100 million euros of stock at first, was it to do good deeds, just wait for today."

He looked at She-Tirius and said, "Pack up your clothes for a month. You go to Germany with me. The stock is in your name."

"Oh," said Sirius cheerfully.

"I'll leave the rest to you. I'll be back within two days. Don't be in trouble." Lu Yang said.

"Yes." The crowd nodded together.

Lu Yang withdrew from the game and said to the black and white guarding, "Follow me to Germany and pack my clothes for two days."

"Yes." Black and White walked to the door and prepared his men to go.

The secretary at the door walked into the door and said to Lu Yang, "Boss, Liu Baicheng is on the 27th floor, and you told him to come up."

When Lu Yang patted the table with his left hand, the wooden board automatically opened, and a fingerprint button appeared. Lu Yang pointed his left thumb up, the light flashed and said, "You let him come up."

"Yes." The secretary walked to the door and responded to Liu Baicheng.

"Okay, I'll come up here." Liu Baicheng hung up the phone in trembling and took the elevator to the 33rd floor.

The elevator door opened, and he stepped carefully into Lu Yang's office, some dare not look at Lu Yang and asked, "Boss What am I looking for?"

Lu Yang went to Liu Baicheng and said, "Is there something wrong with the house?"

Liu Baicheng's face was flustered and he said, "Nothing, nothing."

Lu Yang smiled and took a check out of his pocket with 100,000 yuan in it. He handed it to Liu Baicheng and said, "A little heart, don't start work today, focus on taking care of your father."

Liu Baicheng looked at the check in surprise and said gratefully, "Thank you, thank you, boss."

Lu Yang smiled and patted his shoulder, and said, "Come on."

"Well." Liu Baicheng turned around and left, just at the door.

"Wait." Lu Yang stopped Liu Baicheng.

"What's the matter, boss?" Liu Baicheng was startled.

Lu Yang thought for a while and finally smiled and said, "It's okay, you go."

Chapter 1193 - Steiger

He wanted to ask Liu Baicheng for the reason, and he wanted to give Liu Baicheng the last chance to reform. But ...

If he is now willing to give a step to the sky, Luther Brothers will not bet on how to fight back. Lu Yang dare not bet, and his players have not got enough 140-level dark gold and gold-level suits. Yet.

Now it is a group of 140 players wearing level 130 dark gold equipment, and his enemies are only a few levels lower than him. The equipment is exactly the same. With the same equipment, the attributes of several levels are ignored.

"Then I leave." Liu Baicheng said with a smile.

"Go." Lu Yang nodded, he said: "I'm going to Germany, if you need anything, just say it to Tu Feng."

"Ah, oh, oh." Liu Baicheng left.

He hurried back to the house when the babysitter was gone, only he and the old father who opened his eyes and stared blankly at the wall opposite the bed.

"Hong brother, Lu Yang will go to Germany tonight." Liu Baicheng said, the brother in his mouth is exactly the chairman of the Tiantong Association ascended to the sky-Zhang Hong.

“He really went to Germany?” Zhang Hong asked with a frown.

“I heard it myself.” Liu Baicheng said.

Zhang Hong nodded and said, “You have to pay attention to concealment recently, don’t expose it. You are the nail of my highest level in the Jagged Brotherhood. Is there anything to make Pei Zicheng resist? Know?”

“Thank you Brother Hong for your concern, and bring me a good one for Qing’er. I haven’t seen her for a long time.” Liu Baicheng’s face was filled with a happy smile.

“No problem.” Zhang Hong was lying on the bed, carrying a proud smile on Qing’er’s disheveled arms.

The call hangs up.

Zhang Hong carried the woman named Qing’er in her arms and said with a laugh: “He asked me to bring you a good one, hahaha.”

Qing Erzhen hit Zhang Hong with a charming expression on his face, and said, “Her brother, you’re bad. You have to let me do that kind of thing. I hate to kill that little ghost.”

“Haha, what kind of thing is better to do it again.” Zhang Hong laughed and turned off the bedside lamp.

...

late at night.

On the plane.

Lu Yang was looking out of the window in a daze, and brought a blanket to Lu Yang in black and white, and said, “Boss, sleep.”

Lu Yang sighed and said, "I can't sleep, everything is in my head."

Black and white is the most clear to Lu Yang. On the surface, Lu Yang is the bright president of the Jagged Brotherhood. There are tens of millions of players and hundreds of millions of people upgrading in his jurisdiction. He has funds unimaginable to ordinary people. One sentence can make one ascend to heaven or be thrown into hell.

But no one knows how much responsibility Lu Yang has to bear, and no one knows how responsible he is to his brother. In the case of Liu Baicheng, his territory has been unstable. Therefore, Lu Yang has to think about many things every day. I am afraid that there is nothing to consider to plant the seeds of instability.

He can't help Lu Yang, and can only do one thing, and do his best to protect Lu Yang from any danger.

The black knife and the white water next to them looked at Lu Yang and were anxious, but they couldn't do anything.

No words overnight.

Early the next morning, the plane landed at an airport in Hanover, Germany. Qi Yun drove himself to greet Lu Yang. A convoy arrived at the hotel with people such as Luyang and Black and White.

"Boss, why don't you take a break first? I heard black and white saying that you didn't sleep much last night." Qi Yun said with concern.

Lu Yang shook his head and said, "No need, tell me, how are things going on in Germany?"

Qi Yun took out a stack of documents from the secretary behind him and said, "We have completed all the preparations for the listing. This is the pre-assessment report for the listing and the application letter of the stock exchange. I started processing one month ago. This matter, we only need to go through the process to start the listing. The specific listing will take about six months. "

Lu Yang said, "Finding a media reporter to announce the merger of the game guild into a public company will raise the price of Steiger."

Qi Yun smiled and said, "I'll do it."

As long as the news is released, a game company that has just unified most of the German guilds will be merged into the company's listing, and the market value of Steiger's company will rise to a new level. I don't know how many people will buy Steiger's stock .

Steige has just won the battle and is short of money. If he can make enough money by using the stock wave, it will bring him great relief.

Steig himself does not want to fight Lu Yang now, but Lu Yang has risen and the surrounding guilds have responded to persecution. He joined the organization as a last resort. Lu Yang knows that Steig hates him, but he believes Steig can analyze it. Pros and cons.

In the office of the chairman of the 9th floor of the office building of Daimler AG, Germany, Steiger is getting angry in the office.

"This **** Lu Yang, our company's shares are in his hands, and he is affected everywhere. He is obviously not an ally, but everyone around him is regarded as an ally. This **** **** will trap us to the most isolated degree."

Artz stepped on the heels from the window to Steiger, gently rubbed Steiger's shoulder and said, "No matter what he wants, we are now trying to make more money, whether it is Renault on the left It 's still Liu Jie from above, Lu Yang from the right, and Turkey from below. In the future, we will be our enemies. We must have money to control the existing scale, otherwise everything will be in vain. "

Steiger said angrily, "Do you mean to make me reconcile with Lu Yang?"

"You have no way," Alz asked. "It was written in the contract that if we unified all German guilds, we would merge and go public. We have no reason."

Steiger can't oust Lu Yang from the company now, nor can he let the game company go public. If the game company goes public, his relationship with Lu Yang is even worse, and he is an ally in the eyes of others. Steiger is equal to Except for cooperation with Lu Yang, there is no way out.

"Damn guy, when I survive this time, I will never spare him." Steiger scolded, he still decided to cooperate with Lu Yang.

"咚咚咚"

The knock sounded, and the secretary walked into the door and said, "Chairman, Director Lu Yang has just arrived downstairs, and he wants to talk to you first."

Steiger and Artz looked at each other.

"Okay, I see him," Steiger said.

Artz said softly, "Don't be angry, you are partners now."

Steiger shrugged his shoulders and said, "Please come up."

"I'll go in person." Artz went downstairs and greeted Lu Yang to Steiger's office at the gate.

Lu Yang looked at Steiger with an unhappy expression standing in front of him, but his heart was even more upset. If Steiger had not wanted to attack him while Landing Yang and One Step Ascension, he would not have Steiger intersects.

This person was thinking of various methods and stepping up to the sky. They jointly wanted to attack him. If Lu Yang was not step-by-step, he would be pursued to the end by Steiger if he had a little behind. Therefore, Lu Yang did not speak to Steiger at all. Polite.

"President Steiger, as a shareholder of Daimler, we formally ask you to fulfill the contractual treaty and merge the gaming guild into the company." Lu Yang said in a chair opposite his desk.

“Lu Yang, what is your idea?” Steiger asked angrily, even if he had a plan to reconcile with Lu Yang temporarily, he would use this method to force Lu Yang to hand over his hole cards, or in business. He made concessions, so he was very angry.

Lu Yang had thought through all of Steiger’s ideas on the plane. Therefore, Steiger now recognized nothing in front of him. He knew Steiger’s card.

“What I think is not important, what is important is that you need to fulfill the contract provisions.” Lu Yang said with a sneer.

“I didn’t prepare, it takes time,” Steiger said.

Lu Yang said, “It doesn’t matter. I have all the materials you need. I also talked to the stock exchange. You can prepare the materials in the game slowly, but don’t take too long, because I will return to the press conference in the afternoon. , The rhetoric of shooting Sirius is ready, and you and I will reach a strategic alliance. “

“You!” Steiger was furious.

Lu Yang looked at his watch and said, “I need to sit with you for an hour, or we can go to the meeting room below for an hour, you can choose.”

He made it clear that he wanted to pit Steig, but Steig could only accept the pit buried by Lu Yang. When the game company went public, why Steig was the cheapest person, because he would melt into hundreds of millions of euros. funds.

Artz came to Steige and asked, “President Lu Yang, can you not be so angry, I believe there is still room for negotiation between the two of us.”

Steiger looked back at Alz and said, “You ...”

Artz quietly gave Steiger a quiet moment and said to Lu Yang, "What do you think?"

The tense anger on both sides became much easier under her sentence.

Lu Yangtan opened his hand and said, "If you were like this in the morning, why wait for me to come to Xingshi to plead guilty? Good shareholders and co-workers do not cooperate, but rather go to those people? Do you think your shares are in my hands, I will let you hit me?"

Steiger said angrily, "If it weren't for you, how could I have fought hard for two months."

Lu Yang said, "If you didn't want to attack me, I would have time to deal with you?"

"You ..." Steiger was furious but speechless.

Lu Yang said, "Study the issue of going public, don't mess things up, otherwise you won't be able to beat me, and you will join your own guild. You can't eat it."

"Ha, why can't you say we can't beat you? You know, last time I didn't take part in the battle, otherwise with the strength of my German chariot and French Renault, only the two of us could penetrate your sky sword fortress, more Moreover, this time ascending to the sky, they also joined 4 guilds to attack the tiger fortress." Steiger said sarcastically.

Lu Yang said, "You can try it. At that time, see if Liu Jie will rush out to destroy you and Renault."

"You ..." Steiger knew that if he and Renault's coalition could not fight the Skysword Fortress, Liu Jie had a great chance to rush out to get revenge. After all, Liu Jie they had played in the first place had lost face, and they Liu Jie is revenge. What both sides say to each other will not trust each other before.

Alz saw Steiger's helplessness and said, "Well, we can fulfill the contract, but we ask you not to attack us within these months, otherwise our listing is just a joke."

Lu Yang shrugged his shoulders indifferently, saying, "Do you think I have the ability to eliminate one step to the sky, Kerim, the blood butcher, and Greece, South Africa and other countries in three to six months?"

Artz shook his head, and Lu Yang wanted to upgrade his players' equipment to a gold level above 140, which took at least 2 months to 4 months.

The one-step ascent to the sky is only one month slower than Lu Yang. When Luyang's equipment is completed, the one-step ascent will not be much worse, and France, Italy, and Spain will not lose more than 2 million equipment. Get together, Lu Yang still take them.

"Well, I won't take part in the war against you," Steiger said.

Lu Yang smiled and said, "Very well, let's go downstairs and discuss the terms of cooperation in detail."

"Yes." Steige made a please gesture, inviting Lu Yang to come downstairs, and the subordinates were responsible for the specific contract signing. Lu Yang and Steige just waited.

"Ding Ling Ling" Tu Feng called.

Lu Yang pressed the connect button and asked, "What's the matter?"

Tu Feng said: "One step up to the sky and they gathered together for the second time to discuss whether we should start in advance."

Lu Yang said, "I'll discuss it when I go back."

"Okay," Tu Feng said.

Lu Yang asked, "How's the equipment going?"

Tu Feng said: "At present, players with artifacts in our hands are quickly challenging the lord. It is expected that tonight, they will be able to make up 10 sets of equipment. The remaining 110 teams have just won the second lord and are stuck in the first place. 60% of the three lords are there. "

Even the top elites in the Jagged Brothers League, apart from those who have artifacts, others still have some work to do.

Lu Yang said, "Just say it was my order. Before I arrive tomorrow morning, I have to make 30 sets. I can't deduct my salary."

"Yes." Tu Feng felt the urgency of Lu Yang.

Lu Yang hung up the phone and continued to wait for the contract to be signed. Steiger asked with a smile: "What? President Lu Yang, are you afraid you can't hold their offense?"

Lu Yang smiled and said, "This is not a question you should worry about."

He will not disclose that he intends to eliminate the one-step ascent to the sky. The details of the contract lasted from morning to afternoon. Although Lu Yang was anxious to go back, he still waited for a long time.

Three in the afternoon.

Steige said to Lu Yang with a smile: "I hope we will cooperate happily in the future."

With this contract, his gaming company goes public and earns at least 600 million euros.

Lu Yang shook hands with him with a smile and said, "I hope we have a happy cooperation."

If the listing is successfully completed, Lu Yang will also earn 400 million euros.

“Want to have a meal together,” Steiger asked.

Lu Yang smiled and shook his head, and said, “When it goes on the market, we’ll have a good dinner again.”

“Alright.” Steige shrugged his shoulders indifferently, and he invited Lu Yang just to be polite.

Lu Yang turned around and said to Sirius, “The next thing is left to you to handle. I have recently lived here to help them complete the listing.”

“Yes,” said Sirius.

Lu Yang left with Black and White and Qi Yun, leaving a team that shot Sirius and a listed company. That night, Lu Yang returned to China by plane.

He had just returned to the 33rd floor of the studio, and a security officer walked in and said to Lu Yang and Black and White: “Boss, Liu Baicheng’s investigation is clear.”

Lu Yang is thinking about how to deal with one step up, and said, “You say.”

An Bao said: “After investigating, a girl named Qinger is a frequent visitor to KTV that Liu Baicheng frequents. Liu Baicheng likes this girl.”

Black and White asked: “What’s wrong with this Qinger?”

Anbao said: “It has been confirmed that Qing’er is a step up to heaven, that is, Zhang Hong’s lover. This is only known to a few senior executives in the one step up to the guild.”

Lu Yang asked: “You mean, Zhang Hong let his lover deliberately approach Liu Baicheng and used love to make him betray me?”

Anbao said, "Yes, there is one more thing. Liu Baicheng has been bitterly concerned that he is only a legionnaire. He thinks he is qualified to be the vice chairman, and has complained in private for a long time.

“噫”

Lu Yang punched on the table and scolded: "Asshole, I gave him the best legion, and my most trusted subordinate. When he did this, how could he be worthy of me?"

Lu Yang was about to explode. He couldn't help but be angry. This is a legion. As a legion commander, how good is the relationship with his men, who can guarantee that his men have not betrayed like him.

As a legion leader, if you want to set up traps for your men to rebel, it is only a matter of minutes. If so, no one in this legion can reuse it.

Who are the people in this legion? It is a special unit under Lu Yang and a main unit under Xia Yuwei.

Lu Yang was really furious, he said, "Control me Liu Baicheng and control it today."

"Yes." Black and White immediately led out.

Lu Yang rang the electric bell at the table, the secretary came in and asked, "Boss, what's the matter?"

"Call all the vice presidents to come to my room for a meeting. I have things to arrange." Lu Yang said.

"Yes The secretary immediately walked back to the phone at the door and called the vice chairman one by one.

quickly.

Zhuojiu and White Lion came to the 33rd floor under the authorization of Lu Yang.

“Boss, what’s the matter?” Zhou Tianming asked.

Lu Yang said: “I want to start a war in advance, the purpose is to eliminate one step to the sky.”

“Eliminate one step to the sky?” Zhuzhuo and White Lion were surprised.

Lu Yang said to Tu Feng: “Tell them what happened when we controlled Pei Zicheng.”

Tu Feng nodded and said to the crowd: “Three months ago, we captured the guild’s traitor, Pei Zicheng, and stole the internal information of the guild for one step to the sky. After that, we used Pei Zicheng to continuously give one step to the sky. It’s enough to go to prison. “

People like Zhuojiu and White Lion are happy.

Chapter 1194 - 1 step into the prison

“Boss, so to speak, isn’t the dragon headless on the other side of the sky?” Asked Zhuoju with a smile.

Lu Yang sneered and said, “It’s more than headless dragons. I left them with a snake head. Starting today, you are ready to fight. The fastest attack time is tonight.”

If Zhang Hong and his main members were arrested tonight, Lu Yang would end up with Zhang Hong’s guild overnight.

“Call Pei Zicheng here.” Lu Yang said.

Black-and-white telephone, the person responsible for guarding Pei Zicheng brought it to the 33rd floor, just entered the door, and saw so many people, Pei Zicheng knew that it was time to fulfill his mission.

“Boss, deputy chairmen, hello.” Pei Zicheng said with a straight waist.

Lu Yang nodded with satisfaction and said, “Looks like you know what you should do.”

Pei Zicheng said excitedly: “Boss, rest assured, I know how to say, I will never lose face to the Brotherhood of Iron Blood again.”

For the past three months, Pei Zicheng has been collecting daily evidence of communicating with him step by step, telephone recordings, meeting videos, WeChat chat records, as well as the financial information and information provided.

Lu Yang nodded, picked up the phone and called Wang Bin, the director of a certain bureau.

“Wang Brother, I’m looking for you again.” Lu Yang said with a smile.

Wang Bin laughed and said, “Call me so soon, don’t you say it will take a while.”

Lu Yang said: “No way, some people are asking me for trouble. I can only send him to prison first.”

Wang Bin laughed and asked, “Who, who provokes you.”

Lu Yang said: “Zhang Hong, Chairman of Tiantong.”

“Zhang Hong?” Wang Bin sat upright and said in surprise: “Are you sure he is? Tell someone like him, but you need clear identification and physical evidence, what crime did he commit?”

Lu Yang said: "He committed the crime of commercial espionage, bought the commander-level players under my command, and stole intelligence to obtain great benefits, which is worth billions."

Wang Bin smiled and said: "You formally report the case and I will take over it myself. If the evidence is conclusive, I will solve it for you."

Lu Yang smiled and said, "I'll take the team player under my command to report the case."

"I'll wait for you at the city bureau." Wang Bin said.

Lu Yang hung up the phone, handed out a ten million check and handed it to Pei Zicheng, saying, "Here it is."

"I, I can't." Pei Zicheng said.

Lu Yang said: "This is a resettlement fee for your family. You have been in prison for the past two years. Who cares about your parents, can you not ask a nanny to wait for you? You cannot stay here for now, but I assure you that you I'm still the leader of the Jagged Brotherhood. This is the letter of appointment. Within two years, you will still be paid at the regimental level. After two years, you will come out, and I will tell you another job. Do n't humiliate me, you know? ? "

Pei Zicheng looked at the appointment letter of An Jiafei and the 10-year contract, tears around his eyes could not help, wiped his eyes hard, and bowed to Lu Yang, saying, "Boss, I was wrong, and I will not be in the future. Wrong. "

Lu Yang nodded and said, "You take the money and the appointment book home first, hide the appointment book, and don't let anyone find it, you hide the money, and after you go to prison, tell your parents and give you 20 minutes. See you downstairs after 20 minutes. "

"Yes." Pei Zicheng turned and left.

Lu Yang said to Black and White: "Arrange a car, we go to the Public Security Bureau."

He told Zhuo Jiu and others, "The German army was ordered to lead the 5500 Air Combat Team to sneak into the forest next to the one-day-long Tongtian City to build a sentry tower, and gradually pass the 100,000 mad wolf army under the command of loyalty."

"Yes," Tu Feng said.

Lu Yang said: "Order the cute queen to prepare for battle, but don't show it on the bright side, don't let any step up to the sky be alert."

"Yes," Tu Feng said.

Lu Yang said, "Dear everyone, tonight will be the best opportunity for us to take a step to the sky, and we must be prepared."

"Yes," the crowd said together.

Lu Yang nodded with satisfaction, turned and walked down the elevator, the door, black and white waiting there next to the car.

"Boss, there is news from Mingya, one step to the sky without any action, still in the guild." Hei Bai said.

Lu Yang snorted into the car. After a while, Pei Zicheng ran back. Lu Yang motioned for him to sit in his car and Pei Zicheng got on the car.

"Drive and go to the city bureau." Lu Yang said.

The driver drove, and Black and White sat beside Lu Yang to defend, and the three cars drove towards the city bureau.

After half an hour.

When the car arrived at the gate of the Municipal Bureau, Lu Yang took Pei Zicheng into it and said to the police officer on duty: "I want to report the case."

The police officer on duty looked up at Lu Yang, and said in surprise: "Okay, please follow me, I will inform the superior immediately."

Lu Yang took Pei Zicheng into the interrogation room with the police officer on duty, and then the police officer on duty reported to the superior. A captain-level policeman came in and said with a smile: "Chairman Lu Yang, long-awaited name, I am Captain Tao Yunfei. Please tell me something. "

Lu Yang shook hands with the other person with a smile and said, "I want to call the police. The chairman of Tiantong Company, Zhang Hong, opposite me, used my subordinate Pei Zicheng's shortcomings to frame my subordinate Pei Zicheng, and forced him to leak my guild. Core secrets. "

Tao Yunfei smiled and asked, "There is still such a thing, but what kind of core secrets can a group player have?"

Lu Yang asked with a smile: "Do you play Second World?"

"Play, I'm all 132, how are you trying to get 140?" Tao Yunfei said.

Lu Yang said: "I found a way to quickly rise from 130 to 140 in the guild. I only taught the main 10 million combat members, but this secret was leaked to Zhang Hong by Pei Zicheng. My main force has reached level 140, and his side has reached level 138. "

"Is there such a thing?" Tao Yunfei asked excitedly: "What method?"

Lu Yang said with a smile: "You don't even have to ask me. I want to say that the way to do the ghost expulsion task is to bounce the boss spike, which is very simple and easy to operate."

He explained in detail the way the spiny beast bounced back the boss. Tao Yunfei realized it now. He looked at Pei Zicheng and asked, "It's your leak."

Pei Zicheng nodded tremblingly and said, "It's me."

"Is there any evidence?" Tao Yunfei asked.

"I recorded the audio and also recorded the video." Pei Zicheng passed a U disk to Tao Yunfei.

Tao Yunfei handed it over to his police for inspection, and soon the evidence was confirmed.

"Your kid is dark enough, this secret is worth more than billions." Tao Yunfei said with a sneer.

Pei Zicheng said: "More than that, because I am the leader of a special regiment, the boss of Lu Yang also told me how to steal gems quickly. I am constantly stealing gems with a regiment every day."

"Stealing gems?" Tao Yunfei asked in surprise. "Stealing gems from the New World?"

Lu Yang said: "In a copy of Tianyuan God City, there is a lord with a gem on his body. As long as he uses the new world's plot skills, flying dragons to explore the cloud, he can steal gems of level 1, and 10,000 people here steal it every day. In these three months, the gems stolen were enough to synthesize 300,000 gems of level 15. "

"Are there such a copy?" Tao Yunfei's voice changed, exclaiming, "President Lu Yang, you are too powerful."

Lu Yang said with a smile: "As a super guild, there must be such a master who specializes in game loopholes and strategies, but unfortunately, my person responsible for this matter was bought by the other party."

Tao Yunfei's eyes looked fierce when he looked at Pei Zicheng. He knew that those who could do such things were the ones who deserved the trust of the guild boss. Such a person's rebellion would bring huge losses to Lu Yang.

“Is there any evidence?” Tao Yunfei asked.

Pei Zicheng said: “The second video file of that U disk is the scene where I traded with Zhang Hong.”

Tao Yunfei asked his subordinates to open the second video, and it turned out that there was video and audio of the transaction.

Lu Yang said: “Not only this, but also the secrets of the treasure map. Which coordinates of the treasure map can dig good things, and which can dig blood vein certificates, are leaked from Pei Zicheng.”

Lu Yang believed all the leaked contents of Pei Zicheng, and Tao Yunfei and the two reporters beside him were dumbfounded.

“Oh my god, you are not playing a game with us.” Tao Yunfei said excitedly.

In other words, they are being played by the game. Only Lu Yang is playing the game. Pei Zicheng leaked it alone, which is enough for Tao Yunfei to become a billionaire player in the game. But Pei Zicheng leaked to Zhang Hong, who is also the president of the guild and has millions of players, can imagine how much money Zhang Hong has made with these secrets.

“Please wait a moment, I’ll ask the director.” Tao Yunfei stood up and walked out of the door of the inquiry room, turned around and turned into the director’s office.

“Head, President Lu Yang is here. It is reported that Zhang Hong, the president of Tiantong Association, used commercial spies to steal the core secrets of Luyang Association.” Tao Yunfei said.

Wang Bin asked: “Is the evidence conclusive?”

“The evidence is conclusive, video and audio, and WeChat chat. It can be determined that Zhang Hong has committed commercial espionage.” Tao Yunfei said.

“Catch someone, even take me to the top with him to ask me.” Wang Bin said.

“Yes.” Tao Yunfei turned around and quickly went downstairs, shouting, “One, two, and three follow me, there are big fish.”

In the harsh sirens, twenty police cars quickly left the police station and headed for the development zone.

Inside the Tiantong Group Building.

Zhang Hong was discussing how to attack with the major guilds in the game. He was a bit upset. The originally agreed Steige could not join the battle. To the sky sword fortress of Lu Yang.

Without Steiger, Renault 's team has no place to stand. The whole battle has become awkward. Now Turkey and Britain are not very active. The reason why they did not dissolve is that they are looking for a way to force Lu Yang to suspend Hit the gear and give them a chance to advance.

Tianyuan God City, drunk to court, in a private room.

The blood butcher looked at a group of quarrelers and exclaimed excitedly: “My suggestion is that each of us come up with 1 million people and attack the tiger fortress day and night. No matter what, Lu Yang must not breathe. opportunity.”

“No, no, each of us would have to pay millions of euros a day, which would be too expensive and not necessarily effective,” Kerem said.

“Then what do you say, do you just watch Lu Yang playing equipment?” The blood butcher asked.

“In short I will not waste my money and manpower like this,” Kerem said.

One step up to the sky to see the two quarreling, just about to talk, but received a call from the secretary.

“Chairman, it’s not good, a group of police officers rushed in and said they were looking for you,” said the secretary.

“The police are looking for me? What are you doing?” One step asked.

“I don’t know. I’ve reached the door. Come out, please,” said the secretary.

“Okay.” One step to the sky said to the quarreling two people: “I have some things to deal with in the real world, you first discuss.”

He quit the game and just took off his helmet, just to see Tao Yunfei and a dozen often cold faces.

“Excuse me, you ...” asked Deng Dengtian confused.

“Your name is Zhang Hong. The name in the game is One Step to the Sky. Is it the chairman of Tiantong Company and the chairman of Tiantong Guild in the game?” Tao Yunfei asked.

“Yeah, what are you doing to me?” Asked Deng Tiantian.

Tao Yunfei showed his credentials and said, “Now you suspect that you have a connection with a commercial espionage crime, please come back to us with us.”

The two policemen came up and framed Zhang Hong one by one, and one of them took out handcuffs and held Zhang Hong’s hands.

“You, what are you doing, I didn’t break the law.” Shouted excitedly in one step.

“Huh.” Tao Yunfei sneered and said, “Take it away.”

He said to the rest: “Take away all executives and their secretaries and interrogate them one by one.”

“Yes.” A group of police officers rushed into each executive’s room, arrested more than 200 executives and the high level of the guild, and brought all 20 cars back to the police station.

Inside the secretary’s office.

Wang Bin watched the live video from the law enforcement site and said to Lu Yang: “Brother, please be satisfied.”

Lu Yang said with a smile: “Satisfied, of course.”

Wang Bin was very proud and said, “When are you going to let me send them to the court?”

Lu Yang asked: “How long can it be judged?”

Wang Bin said: “I tell you the truth, it is estimated that this case can only condemn Zhang Hong alone, most of the others are unclear, otherwise, with your strength, it should have been found out, right.”

Lu Yang nodded and said, “Yes, but I hope you can interrogate these executives and seniors in the guild for 15 days. How about it?”

“Detention for 15 days.” Wang Bin’s expression on his face was distressed and said: “This is okay, but I told you this is too difficult. After all, hey, your eldest nephew, I love to play this game The mage here, but he is just not equipped, you say this. “

Lu Yang smiled and walked in front of Wang Bin, and said, “Wang brother, don’t you say it earlier, our eldest nephew is playing, can we still lack equipment? A class 160 sub-artifact.”

Wang Bin was still worried, and said, “Your sister-in-law is also playing Master, only level 20.”

Lu Yang said: “It is also a set of 160 sub-artifacts.”

Wang Bin smiled and said, "Brother, this is too expensive. How expensive are the 160 sub-artifacts? The whole body must not be more than 3 million. The two sets are not more than 6 million. But ah, my mother. not feel well."

Lu Yang took out a real estate certificate and transaction voucher and said: "There is a small villa next to Dongming Lake, 4 million, what do you think?"

Wang Bin frowned and said, "But I don't have the money to pay the property fee. It's expensive."

Lu Yang took out a check from his pocket and handed it to Wang Bin, saying, "5 million, I have prepared the property fee for you."

Wang Bin accepted the check happily and said to Lu Yang worryingly: "Oh, look, my family's affairs let you handle it, my brother is sorry."

Lu Yang said with a smile: "It should be."

Wang Bin scratched his head and said, "Well, who else are you in my family?"

Lu Yang said with a black line in his head, smiling, "I don't know who else is in your house."

"Yeah, right." Wang Bin said, "That way, you give your brother another 2 million. It's money for the brothers this time. I won't charge you more, you need to know, I'm very distressed. "

Lu Yang smiled and took out another 2 million checks and said, "It should be, no problem."

"Hey, that's easy. For 15 days, I can help you control them for 15 days. Within these 15 days, 272 people, one don't even want to leave the detention center of the city bureau." Wang Bin solemnly Said.

Lu Yang patted Wang Bin's shoulder and said, "It's just fun to do business with Wang, I'm gone."

“Good, walk slowly, I’ll send you off.” Wang Bin said.

“No, I’m in a hurry to go back.” Lu Yang said.

Wang Bin watched Lu Yang leave, sighing and said, “Oh, I’m the director, it’s exhausting me.”

Lu Yang suddenly came back and said to Wang Bin, “Brother, there is one more thing.”

“What’s the matter?” Wang Bin asked.

Lu Yang said, “Give me a closer look at the girl named Qinger I want to know how he seduced my army chief Liu Baicheng according to Zhang Hong’s order.”

“Shit, what else?” Wang Bin asked.

Lu Yang nodded and said, “Don’t let them go, I can’t spare them.”

“No problem, just go back and let me handle it,” Wang Bin said.

Lu Yang turned away from Wang Bin’s office, took a black and white car, and said, “Back to the studio.”

Hei Dao was responsible for driving and said with a smile: “Boss, this next step is over.”

Lu Yang said with a smile: “I’ll let him know how stupid it is to open a studio beside me.”

If he is trans-city, he really took this step to the sky, but this is the East China Sea. He has been in the business for two years. He has the connections of the old man and the investment of Qi Yun. It is really sincere to play tricks with him here Looking for a way to death, now, he will take advantage of the one-step ascent of all the executives who were caught, and destroy the one-step ascension guild.

Chapter 1195 - Foreign legion, attack!

The vehicle returned to the studio. On the way, there was a screaming siren in front of him. Lu Yang glanced over his side and just saw Tao Yunfei's police car in the back seat. Zhang Hong struggled to say something.

"Mr. Police, I haven't broken the law. What are you doing to catch me? I'm discussing very important things. You can't catch me like this and go back. This involves the future of my company." Zhang Hong's face was full of sweat.

Tao Yunfei sneered and said, "Zhang Hong, don't explain. The facts of your crime are already very clear. I urge you to confess your sins as soon as possible."

"I'm not guilty, I'm not guilty, what crime of commercial espionage is nonsense," Zhang Hong shouted.

Tao Yunfei no longer cares about Zhang Hong and leans his body comfortably on the backrest. He is very happy. On the one hand, he has handled a big case, and on the other hand, because he has learned so many secret messages from the game from Lu Yang.

"Hurry to finish my work, so I can upgrade." Tao Yunfei thought cheerfully.

After half an hour.

More than 20 police cars stopped at the gate of the police station, and Zhang Hong and more than 200 men were brought into the city bureau's interrogation room in a voice of dissatisfaction.

"How many times have I told you that I haven't been involved in commercial espionage." Zhang Hong just sat down and justified it.

Tao Yunfei was sitting opposite Zhang Hong. He unhurriedly took out the cigarette case, took out a cigarette and took out a lighter to ignite. He took a deep breath and exhaled comfortably. "July 19 this year, you Where? What are you doing? "

“July 19?” Zhang Hong blinked, and he immediately remembered that day was when he and Pei Zicheng, who deliberately designed a pit, lost 100,000 yuan. On that day, he paid 100,000 for Pei Zicheng. For only a few dollars, Pei Zicheng later helped him collect intelligence.

“I know, it must be that Pei Zicheng came to see you, isn’t it? It has nothing to do with me, everything is his initiative to send me information, just to exchange money, it has nothing to do with me.” Zhang Hong said excitedly. .

At first, in order to prevent Pei Zicheng from reporting against him, Zhang Hong made a lot of precautions. The conversation position of the two was in a secret place. Before each conversation, someone searched Pei Zicheng. Except when the two were trading money, other times Zhang Hong never talked to Pei Zicheng about anything.

Tao Yunfei shook his head with a smile and said, “Zhang Hong, you, show you the evidence.”

He slammed with his left hand, and the staff next to him played the video and audio of the two people’s chat in sync. The screen and sound clearly restored the scene at that time.

“Zicheng, why didn’t you get the information you were looking for? Why, did you want to expose me to the information you stole from me?”

“No, don’t, please, I don’t want to do it, please let me go.”

“Hey ~~ How can you let it go? We are the best of both worlds. You give me information and I give you money. How good, rest assured, the Brotherhood of Iron and Blood is not bad for you.”

“But, but.”

“Nothing, but now, tell me immediately how Lu Yang got so many gems, or I will tell Lu Yang about the information you sold to me before.”

“Don’t, don’t, okay, okay ...”

...

...

A piece of video and a piece of recording were played out, leaving Zhang Hong's face pale, and he said in a panic, "No, this is impossible, this is fake, it is absolutely fake."

Every time he meets, he temporarily notices the place, but the video above clearly shows that there is a camera and microphone above their heads, and everything is recorded, but this is absolutely not what it should be .

Tao Yunfei said unpleasantly: "The evidence is conclusive, Pei Zicheng has voluntarily pleaded guilty, and your criminal evidence is also here. What else do you repudiate? Can someone let you accompany him to pre-record such a period for you to jail Video. "

Zhang Hong's whole body was soaked with cold sweat, his body was constantly shivering, his head bowed and he said nothing, Tao Yunfei was not in a hurry, waiting for Zhang Hong to plead guilty.

In the dozen or so rooms on the other side, dozens of police officers are using the same video to ask other guild executives.

Tao Yunfei didn't believe that Zhang Hong could frame Pei Zicheng alone to lose money in gambling. There must be many associates. Now he just needs to let Pei Zicheng identify the person who conspired with Zhang Hong to frame him, question it, and then find the person in charge of the casino. All All the truth of the matter is revealed.

5 minutes

10 minutes

Half an hour

...

Zhang Hong is still looking down, but on the other side, Pei Zicheng has found the person who accompanied Zhang Hong to the casino. It is not someone else. It is one of Zhang Hong's left and right arms in the game, and vice chairman Lin Qingjian.

Tao Yunfei received a phone call from his men for the first time. He didn't wait for his hand to interrogate Lin Qingjian, scammed Zhang Hong directly, and slammed the table loudly: "Zhang Hong, your subordinate Lin Qingjian has recruited, what are you waiting for? "

"Impossible." Zhang Hong blurted out subconsciously, but then he knew that he had made a mistake.

Tao Yunfei said with a grin: "How long do you think he can resist? One day, two days, or three days, are you waiting for us to ask about the course of things from each of you, and then sentence you or prepare to plead guilty?" , Is there a lesser crime? "

Zhang Hong kept silent.

Tao Yunfei went on to say: "Not only is Lin Qingjian, but also Xu Qinger, what do you think this woman who loves you deeply can keep secrets for you when you have no money to go to prison."

"You, this, has nothing to do with Qing'er." Zhang Hong almost leaked.

Tao Yunfei sneered and said, "Don't pretend, you used Xu Qinger to seduce Liu Baicheng and then framed Hansha, and thought you could hide it? Really no one in our city bureau, it's only a matter of minutes to check on you. He has Liu Baicheng recruited, what else do you pretend to be? "

Zhang Hong gritted his teeth and said, "Nothing, nothing."

Tao Yunfei knew that Zhang Hong was betting that these people would not betray him. However, Tao Yunfei has been working in the city bureau for almost 10 years. How many brotherhoods have become worthless before the law, and how many people have sentenced the brothers to clean the confession. .

He picked up the phone and called the police officer questioning Xu Qinger, asking, "Is the interrogation over?"

Clean Liu Huai smiled and said, "Quickly, this woman's scared legs are soft."

"Very good. Tell me immediately if there is a result." Tao Yunfei hung up the phone and stared at Zhang Hong. He was also betting. He didn't believe Zhang Hong could withstand so much pressure.

As time passed by one minute and one second, Xu Qinger was the first one who could not stand the pressure and broke down crying in the interrogation room. He said, "I recruited Liu Baicheng who Zhang Hong sent me to seduce. Lin Qingjian was responsible for setting up the trap."

...

Xu Qinger explained everything, and the interrogation police immediately passed the video to the police interrogating Lin Qingjian. When Lin Qingjian saw this scene, he knew that he could n't carry it anymore, and he could n't carry it anymore. When it collapsed, he said everything. Now, including how he used Pei Zicheng's gambling addiction and then set up traps to tell him about it.

Tao Yunfei learns that Lin Qingjian and Xu Qinger's confession video was given to Zhang Hong with a smile. At this point, Zhang Hong can no longer pretend to be indifferent, like a defeated cock, and will explain everything.

"Very well, given your good performance, your guilt is not great and it should not be very heavy. It came out in a few years." Tao Yunfei said with satisfaction.

Zhang Hong sighed and asked, "I've recruited everything here, can you put my men back, they have nothing to do with this matter, there is no reason to keep it here."

He was worried that there would be a change in the studio. With so many high-level officials arrested on his side, Lu Yang could not resist if he attacked casually.

Tao Yunfei smiled, stood up and walked toward the door, and said, "The law is not set by you. When you say guilty, you are guilty. When you say guilty, you are not guilty? Naturally, someone will go over and question their affairs Innocent will be released. "

Zhang Hong was stunned, he felt that something was going to happen.

Jagged Brothers Studio Building.

Lu Yang has returned to his 33rd floor and entered the game.

Tiger mouth fortress.

Lu Yang stood on the wall and watched 10,000 players from outside the city flies to the city and then ran outside the city to gather.

"Boss, we have gathered 200,000 people, all of us are the most elite team, should we play first?" White Lion asked.

Lu Yang thought for a while and said, "Hit, the White Lion obeys orders."

"Yes." White Lion's eyes became bloodthirsty.

Lu Yang said: "Order, you immediately take 200,000 people to attack Tongtian City, and when you get there, you will build a sentry tower in situ. I will personally take the Forbidden Mage to the reinforcements."

"Yes." The White Lion roared, turned and looked at the 200,000 standby players under the city, and roared, "Everyone listen to my order and get on the horse."

200,000 people have been impatient. 150,000 people in this group are under the control of the White Lion. The time of the initial deployment belongs to the White Lion. The remaining 50,000 people can be

adjusted by the vice presidents. Temporarily elite, 200,000 people summoned their horses on horseback almost at the same time when they heard the White Lion's order.

Just as the White Lion was about to jump off the city wall, Lu Yang stopped him and gave the flying carpet he had been using to White Lion, saying, "Within three hours, when you arrive at the battlefield, don't be afraid to waste money. Time is not waiting for anyone. , Do n't give anyone a chance to respond to the steps and the blood butcher. "

"Boss rest assured, I will arrive within 3 hours." The white lion put on the flying carpet excitedly and shouted, "The whole army listened to my order. The target was a 140-level map. The 72 regiments started, and the rest were in order. Follow, go. "

The Shooter Regiment is an open army. Their regular movement speed is the fastest, and they are responsible for cleaning up the mobs on the road ahead.

Unlike the war between level 100 and 130, the closest way is to take the area of level 100. Now it is time for level 140. Although the road of level 140 is equivalent to a large circle, in essence, this 140 The level road is straight, and there is no Panshan Road on the road. It is the closest distance to the fortress of the sky. In the case of the acceleration scroll, it can be reached in 3 hours while progressing.

This battle is very crucial for Lu Yang. If Lu Yang wins, Blood Butcher, Kerim, Daniel and others will no longer have the ability to threaten Lu Yang, and they will have to wait for Landing Yang to kill them.

Lu Yang watched the white lion go away and said to Zhou Tianming and his bitter love half-life, Tianyao, and spirits Qingfeng: "Continue to urge players to come here to gather, why so slow."

Zhou Tianming and others were speechless.

Tu Feng said: "Boss, tomorrow is Saturday, today and Friday, many people have to go to work and class, and the fastest can only be assembled in the evening."

At this stage, Zhou Tianming can gather up to 100,000 people in their hands, but it is good, but it takes time. Among the most elite main forces of the Brotherhood of Iron and Blood, the most time is in the muddy wine. But Lu Yang would not let them go to the battlefield.

Zhuo Jiu said, "Will I transfer 200,000 people?"

Lu Yang shook his head and said: "Absolutely not. The Tianjian Fortress does not allow any accidents. You cannot move. I will find someone."

He opened a special space and sent messages to eight colonial player leaders such as Li Wenxing, Padu, Karp, and Pope I.

"Boss."

"Boss."

...

Almost at the same time, eight people appeared to say hello to Lu Yang.

Lu Yang nodded and asked, "How many players above 130 can you gather now?"

"300,000 people in half an hour and 800,000 people in two hours," Karp said.

Li Wenxing said: "500,000 people in half an hour."

Pope I said: "200,000 people in half an hour."

Lu Yang said: "I will open the portal and designated meeting point for the Tiger Mouth Fortress. You will immediately go to the Tiger Mouth Fortress to direct the players to participate in the battle."

"Who hit?" Padu asked.

Lu Yang said: "One step to the sky, he and his 200-plus senior commanders were sent to prison for breaking the law. Now they have no leader, and it is the best time to attack."

"Yes, I'll be ready to fight immediately," said Paddu and others in a panic in their hearts.

As a member of the Jagged Brothers League, how could they be unclear about the relationship between Yideng Tian and Lu Yang, especially when Yideng Tian set up a studio opposite Lu Yang's studio, how could such blatant and provocative behavior be attacked by Lu Yang tolerance, but they could not imagine how, Lu Yang will step into the sky to send to prison.

He is not alone, but a prison where more than 200 people went together. What a meticulous deployment and vicious thoughts can take to achieve this. They are really scared. The cruelty of others can be seen by the eyes. And Lu Yang's ruthlessness will be seen only the moment you are about to die.

Lu Yang withdrew from the special space and said to Tu Feng: "You can open the tiger mouth fortress resurrection point, divided into 7 parts. I have ordered the presidents of the three affiliated associations of India, the Nine Star Alliance and South Korea to lead their men to participate in the war.

"Boss, can they trust?" Bitter Ai asked for half a lifetime.

Lu Yang said: "I believe them, it is time for them to go to the battlefield."

How long Li Wenming was pressed by Lu Yang and two large-scale battles did not involve South Korean players. How long were Indian players pressed by Lu Yang, and Karp and Dalvey took so much money from Lu Yang. Having obtained such a high status as a low caste, they have long wanted to make achievements for Lu Yang, but Lu Yang still does not use them, they have already become bloodthirsty.

The light flashed.

Karp appeared, and countless rays of light flashed behind him, and 200,000 people teleported it as soon as possible.

"Dear President Lu Yang, Captain Capu is willing to serve you." Capu bowed respectfully to Lu Yang.

Lu Yang stood on the wall and looked at Carp below, saying, "Observe the order and appoint Carp as the deputy commander of the frontline battle. Only follow my orders."

"Follow the rules." Karp's heart burst into impassioned emotion. Lu Yang's words established his position in the Iron Brotherhood. Now, he is truly on par with Zhuojia, White Lion, Zhou Tianming and others. Vice President.

"Now, I order you to rush to Tongtian City with 200,000 and attack with the White Lion." Lu Yang said.

"Yes." Karp replaced the mount and shouted back with a roar: "The whole army is obeying, Indian Legion, start."

200,000 people put on their mounts almost at the same time, as Karp walked out of the city.

The bitter love on the wall and Zhou Tianming and others were shocked.

"This quality is not worse than our elite army." Tian Yao said.

Lu Yang laughed and said, "Don't forget, Tian Long was able to lay down India, how much credit Capri made. His ability is not under you, but he has never been reused."

Tian Yao, Zhou Tianming and others showed dissatisfied expressions.

Another flash of light flashed, Li Wenxing appeared with 300,000 people, and said, "Boss Lu Yang, Li Wenxing came to report with 300,000 people. The next 200,000 people were led by my deputy Yin Jiahui and arrived within half an hour."

Lu Yang said in a loud voice: "Obviously, if you order Li Wenxing as the deputy commander of the frontline battle, you can lead 300,000 people to attack and attack Tongtian City."

“Yes.” Li Wenxing burst into tears and understood the meaning of Lu Yang’s words, turning his head and shouting, “The Korean Army, set off.”

“Kill ~!” 300,000 people changed to mounts, and as Li Wenxing went out of the city to join the battle The third light flashed, Xia Yuwei took the three vice associations of Pope I, God of War I, and Sad Fan Qiufeng of the Nine Star Alliance. Long, and 300,000 players appeared.

“The 300,000 vanguards of the Nine-Star Alliance are assembled, please ask the boss for instructions.” Xia Yuwei’s clear voice echoed in the city.

Lu Yang said: “Observe, and appoint you as the deputy commander of this war, and immediately lead 300,000 people to attack Tongtian City.”

“Yes.” Xia Yuwei replaced her mount and said proudly: “All go on horses and start.”

300,000 Jiuxing League players put on a mount and went out of town with Xia Yuwei.

A camera in the sky accurately recorded the scene of Lu Yang’s troop deployment. Du Bin, who was responsible for the video, said with emotion: “In just 20 minutes, during non-rest hours, Lu Yang actually mobilized 80 Ten thousand foreign legions, oh my god, the number of foreign main legions turned out to be four times more than the headquarters of the Brotherhood of the Jagged Brothers. It was too scary, too scary. “

Hitomi said, “It’s conceivable that one step is over!”

When Lu Yang convened players to launch an attack, the blood butcher, Kerim, Daniel and others all received the news.

Tianyuan City, drunk to the court.

“Go step by step, step by step, **** it, you answer the phone,” Kerim growled.

Daniel said, “It’s useless. He has already made more than a dozen calls. His phone has been unanswered.”

“What the **** happened there? Not only was he unable to contact him, neither his vice chairman nor his subordinates.” The blood slaughter asked.

“I heard that Deng Tianyi violated the law and was taken away by the local police. He even took over 200 high-level guild leaders with him. I didn’t believe it before. It seems that this is true.” Sighed.

“What !?” the Blood Butcher and Kerim asked in horror.

Daniel said: “One of my men and one of the group players who stepped up to the sky are friends, and that person revealed to me.”

Blood Slayer said in a panic, “No, we need to support one step to the sky immediately. Based on his current situation, he can’t stop Lu Yang’s attack.”

Daniel and Kerim are very clear that if Lu Yang is defeated and annexed in one step, the end result is that they will all be swept out of Lu Yang.

“Mobilize all the players who can fight, and immediately move forward to the guild,” said Daniel.

The blood butcher, Kerim and South Africa’s Rickard immediately went back to prepare, but now it is not off work, and the number of people who can be convened in the game is very small.

On the other side.

In the detention center of the Municipal Bureau, Zhang Hong, a lawyer who has stepped up to the sky, has arrived. He looked at Zhang Hong and said, "There is bad news. Lu Yang has just assembled 1 million players and is running towards your guild. "

"What?" Zhang Hong's eyes widened in horror and angrily, "I'm going to kill him."

The lawyer sighed and said, "This is a detention center, be careful."

Zhang Hong is not a big man himself, and he likes to play with cleverness. Now he is hit by Lu Yang. He is anxious to kill Lu Yang. Unfortunately, he is already trapped in Liguarity and he can't protect himself. .

"You call and call the blood butcher, Kerim and Daniel, and let them come to rescue me." Zhang Hong shouted.

The lawyer said: "I will call for you when I go out, but if they want to help you, you have to find a way to keep your 8 main cities, otherwise, you have lost before they waited."

Zhang Hong was speechless, but he wanted to send someone, but he was okay, he could only hammer the table angrily and cursed: "Lu Yang, don't let me escape this calamity, otherwise I will let you die. "

"By the way, I can find Steiger and ask him to help me." Zhang Hong seemed to see a bright light in the dark, and quickly said to the lawyer: "Call him."

The lawyer quickly called Steiger's phone, and only two times, Steiger was connected.

"Steige, now is a good opportunity. Listen to me. You must attack Lu Yang. As long as you send troops, Lu Yang is finished." Zhang Hong shouted.

On the phone, a sneerful laughter came from Steiger and said, "Zhang Hong, don't try to fool me. You were the first to know about the prisoners except the Iron Brotherhood. Tell you that I have been with Lu Yang has formed an alliance, and I will not help you. "

With a snap, the phone hung up, Zhang Hong's angry mammoth wall, and on the other side, Steiger looked at the shooting Sirius beside him and said, "Are I satisfied with that?"

Shooting Sirius smiled and said, "Of course, I also believe that the two of us will be the best partners."

Steiger shrugged his shoulders and said, "I have to admit that Lu Yang is really a brilliant conspirator, and relying on him alone will mess up all of us."

Shooting Sirius smiled and said, "You haven't come into contact with Lu Yang more deeply. If you know him well, you will know how lucky it is to be friends with him."

"I am willing to be friends with him now. Tell him for me, I will help him defend the Chiefs Fortress. Unless I lose, Skysword Fortress will never be attacked."

Shooting Sirius patted Steiger on the shoulder of a tall man and said, "That's right, how good it is to be a brother when you hit someone together, I will convey it for you."

Shooting Sirius dialed Lu Yang's phone and told Steiger's words to Lu Yang.

"Tell him, I thank him for his friendship. If he wants to, we can always be friends." Lu Yang hung up with a smile.

If Steig finally agrees to submit to Lu Yang, Lu Yang does not mind letting Steig increase the speed of the upgrade, the quality of German players is not blown out, but players who have really strong strength and operation.

He looked at Tu Feng beside him and asked, "What's the reaction of all parties? Is there any problem?"

Lu Yang refers to Liu Jie, Renault, and a deep hidden enemy.

Tu Feng said, "Liu Jie's men showed no signs of gathering, and there was no news that anyone wanted to attack us."

Lu Yang nodded. The war he launched this time was almost a blitz. He imprisoned a step to the sky in the afternoon and then launched an attack. He did not think that the forces of all parties could react.

Even though some people reacted, it was not a break now. Most people were in class and work. No one could resist him.

"What is the situation in Tongtian City now?" Lu Yang asked.

Tu Feng opened the three-dimensional video projection screen into the air and said, "Without the high-level command, one step up to the sky has become a mess."

In the video, the entire Tongtian City is in chaos, and there are less than 50,000 defensive players who can gather on the city.

"Why so few?" Shen Yiyi asked.

Lu Yang sneered and said, "Players above the regimental level are all in the detention center. There are thousands of regiments left. Who can listen to whom, and who can command them?"

The boss is gone. The players below are naturally unwilling to fight. Even if there are those who are loyal to them, they can gather in non-combat time. It is only about 400,000 people. 8 main cities need to be defended, and one main city can have 5 Ten thousand people are the result of the concerted efforts of these heads.

Tu Feng said: "It is estimated that the idea of these people is that which main city we attack, they will transfer everyone to the defense to avoid accidental deployment."

Lu Yang snorted and said, "Since they want to defend on average, I will let their men attack on average."

He sent a message to White Lion, Karp, Li Wenxing, and Xia Yuwei, saying: "The White Lion attacked Tongtian City according to the original plan, Karp attacked the Giant Elephant City, Li Wenxing attacked the Violet City, and Xia Yuwei attacked the Black Water City."

Lu Yang originally wanted the White Lions to attack Tianji City, Wuyue City, Lanyue City, and Cardinal City, but these four main cities bordered the maps of Kerim, Daniel, Richard, and Blood Butcher, respectively. , The main city and the main city are separated by a distance of 6 hours.

It takes three hours for the White Lion to reach Tongtianchang, and it takes another two hours to think of Tianji City. At that time, everyone was off work, and it took only one hour to reach the main city. When people attacked, Lu Yang didn't want to take risks to fight, so he decided to lay down these main cities first.

"Yes," the White Lion and Carp and others said together.

Lu Yang looked at him. The White Lions had ran out for more than half an hour. There were more than 500,000 people gathered under the Tiger Mouth Fortress. The most wolf guards who were heavy by Lu Yang were among them. All 100,000 people arrived Qi.

"Boss, my brothers are all, this time is not bad." Said with enthusiasm and excitement.

Padu said, "Boss, my 30,000 forbidden spells are with the 170,000 special legion."

Unlike other countries, India has more idlers, so their high-level combat personnel are the most uniform.

"Boss, we are all here."

"I have 200,000 people."

...

Bitter lovers, Zhou Tianming and others also said that they had gathered 200,000 people each and were ready to participate in the war.

Lu Yang nodded with satisfaction, saying, "The whole army set off, and the goal is the sky."

"Yes," the crowd said together.

Another army of one million people slowly pulled out and moved in the direction of Tongtian City.

Although without permission, the video of Lu Yang's attack on Tongtian City was still secretly recorded by the major media in the game using the drone in the game.

A large number of reporters went outside the Tiger Mouth Fortress and looked excitedly at the millions of troops of the Brotherhood of Iron and Blood.

"Oh my God, it is indeed the first guild in the New World. With just one sentence, Lu Yang can let 2 million people go to war. This is not a break."

"I can't believe it. I heard that the battle with Lu Yang took a lawsuit and was under investigation in the police station. He was unable to participate in this war. Lu Yang's eight main cities to make the next ascent were almost a foregone conclusion.

"Not necessarily, with the support of Kerim and Daniel and others, and there is not much time off work, it is estimated that tonight will be a decisive battle."

...

The reporters discussed.

At this time, almost the entire New World was attracted by the war on Lu Yang's side, and everyone wanted to know how their enemies would fight all the fortresses that would reach the sky next.

Tongtian City, the city head.

The head of the group who stepped up to the sky step by step, was fat, his head was fat, and he had a flat head shaved, so everyone called him a fat toad.

“We can’t just hold hands like this, I suggest that each main city draw 40,000 people first to form a 320,000 army and intercept the enemy once in the wild,” said Fat Toad.

A player with glasses around him, who looks like he is about 30 years old, named Jiu Yao Xingxuan, said: “Your proposal makes sense, but you think you have the ability to mobilize the heads of the other 7 main cities out of the city. Fight? “

The fat toad was silent.

Jiuxiu Xingxuan went on to say: “There is a more troublesome problem. Who will command the 320,000 people who are out of town? Can you agree with other commanders?”

“What can those hay bales direct,” the Fat Toad scolded.

Jiu Yao Xingxuan said: “This will not end, you don’t trust them, they don’t trust you, let’s do our own thing. The main city can keep one by one.”

“Oh.” The helpless face of Fat Toad.

If they can set up a defensive barrier in the evil dragon mountain outside Tongtian City, relying on the defensive force there, enough to resist the inferior Brotherhood of the Iron Blood Brotherhood for half an hour, but unfortunately, all the legionnaires are in prison, and one can lead everyone None of them.

“We’re done,” said the Fat Toad.

Jiu Yao Xingxuan said with a smile: "Don't be so pessimistic. After a while on our side, they will come to help."

The Fat Toad shook his head, opened the video, and clicked to watch the marching party on Lu Yang's side. In the case of forced recording on multiple video platforms, the images of the Jagged Brothers' collective attack on Tongtian City were really being recorded by them.

At this point, the White Lion's vanguard had arrived at the Dragon Mountain, which was only one hour away from Tongtian City. Standing at the top of the mountain, the White Lion laughed and said, "If one step up in the sky set up a line of defense here, how could we do so easily? Just climb this mountain. "

The white tiger and white wolf nodded.

"Through this, I officially entered the area controlled by one step, Brother, I went to the whole team in front of me, and the first wave of offense was handed over to me to attack." White Wolf asked in battle.

The white lion said: "No, this time I will besiege on all sides. The enemy sees that our strategy is to attack all the main cities together. We must not dare to divide the troops to rescue. A small Sky City, I want to fight it down."

"Yes." White Tiger and White Wolf responded together.

At this point, 200,000 people were about to pass through the Dragon Mountain. Just as the three brothers of the White Lion were going down the mountain to go to the Chinese army, a loud shout came from behind.

"White lion, white tiger, white wolf, I am here." With a sigh of pride, he led the 100,000 crazy wolf legion in a giant wolf form at 650% of the speed of movement.

They did not run on flat ground, but ran directly from the mountains and ridges on the side. The steep cliffs couldn't stand the pride of the mad wolf and others, and they easily chased them in front of the Baixi Sanxiong.

“Finally arrived.” Pride said, panting in the form of a giant wolf.

Running in the form of giant wolf is completely different from running in human form. Even in the game, it is very uncomfortable to adapt to this kind of running. They were able to run for 2 hours in a row. look.

“Your boy, what are you doing so anxiously.” The white lion knocked on the lofty wolf leg.

“Hey, I’m not afraid that you can’t do it.” Said with pride.

“Fuck, isn’t it your kid’s head has changed and he has lost his head, dare to say that our three brothers’ Baijiajun can’t do it?” Bailang angered.

The white lion said, “Become a human, and look at my neck hurting.”

The prideful expression showed a lack of morality and said, “Become a wolf and a habit, and make me a human and I will not run anymore. I won’t tell you anymore. I will go to stand for you and clear the roadblocks in front of us. Let’s meet under Tongtian City . “

“Woohoo ~~~!”

There was a howl of arrogance, and the army of 100,000 stationary wolves ran again and uniformly. The neat movements were surging.

“It’s amazing. The 100,000 people training these 100,000 people are too powerful.” Bai Hu said.

White Lion said: “We owe him a favor, this boy is equivalent to helping us reserve half an hour for the team.”

The white wolf said, “I won the game tonight. I’ll ask him to fight.”

“Go with them,” said White Lion and White Tiger, and the three laughed together. This is the friendship of the Jagged Brotherhood.

With enthusiasm and enthusiasm, he quickly rushed down the evil dragon mountain with the mad wolf legion. When the Baixi Sanxiong had just completed the whole team, his team had approached the position of Tongtian City for half an hour.

Here is a hill, named Bly Hills. From here, there are a large number of skirmishers on the map who are step by step. These people are mainly thieves and space-time mages.

Those who know how to stealth suddenly attack, or secretly release secondary forbidden spells and special magic in the distance, which will disrupt the formation.

“Ooo ~~~~~~!”

The 100,000 mad wolf legion ceased operations, and nine legionnaire commanders ran quickly to him.

“Boss, how do you fight?” A chief of the army asked.

Pride and enthusiasm in the form of a wolf with his teeth said: “Take the avenue as the center, clear all enemies within 5 kilometers around, and not give anyone a chance to forbid a sneak attack, 1 to 5 groups on the left, 7 to 10 groups on the right, I’m in the middle. “

“Yes,” said the nine commanders together.

“Woohoo ~!”

“Woohoo ~!”

...

Nine wolves screamed, and the 100,000 mad wolf legion was divided into 10 teams, and a 10-kilometer-long legion was paved horizontally to perform a carpet-like search on the map.

On a low hill in Bly hills, one step up to the sky, the head of the curse-instructing mage regiment, Lefes, looked angrily at the mad wolf army that was advancing in parallel 500 meters away.

“Damn, why isn’t the main force of the White Lion, and has become a mad wolf legion?” Lefes cursed.

“Leader, you need to make a decision. The distance of 500 meters is only enough for us to release a secondary forbidden spell. Their advance speed is very fast,” said the deputy head.

“Well, fight.” Lefes said dejectedly. He wanted to block the main legion of the White Lion, but he appeared with great lofty sentiment, and the lofty 100,000 crazy wolf legion was a chicken rib for him, kill it. , They can quickly resurrect, don’t kill it, it ’s meaningless for his forbidden mage to keep the secondary forbidden spell Attention of all members of the forbidden mage, 500 meters in front of me, Lesser curse, ready. Shouted Lefes.

The spells of the 7,000 spell-casting mages were spoken at the same time. After 5 seconds of the spell-casting, overcast blay hills began to be covered with clouds.

“There is a curse,” said the pride, the white lion, the white tiger, and the white wolf looking at the sky at the same time.

“Crazy Wolf Legion backs down,” roared proudly, because the magic-free potion is scarce, and the large-scale secondary curse cannot be carried by relying solely on the magic anti-aura.

The 100,000 Wild Wolf Legion quickly retreated, but they were already within the curse range, just 5 seconds after the fall, lightning, frost, fire, and hurricane fell in the sky. More than 70,000 people.

“Retreat.” Lefes shouted, and more than 7,000 people used the city scroll at the same time.

There is no magic potion in the pride, watching the sneer light on the faces of Le Feis and others 700 meters away. This wave of attack has no meaning to him.

Chapter 1198 - 4 main offensives

“Resurrection.” He took out the resurrection scroll and resurrected the blood wolf guard around him, not only the ordinary resurrection scroll, but also the group resurrection scroll, and a more powerful item, the resurrection stone.

Don't say a group forbidden spell attack, even if there are two more forbidden spell attacks, he will be able to carry it. In the complex combat situation at this stage, only the cooperation of multiple arms can win the battle, and only one forbidden spell group Throwing a wave of forbidden spells has no effect except to reduce the experience of his legion players by 10%.

A large block of light lit up the field, which was the color of the scroll of the resurrection spell. In less than 1 minute, all members of the 100,000 crazy wolf legion were resurrected, and the fallen equipment was also picked up.

“Boss, we are going to take revenge, rush to Tongtian City, and kill their cursed army.” The deputy commander angered.

With a look of pride, the banner of the White Lion's Legion can be seen, and he said, “Continue to sweep and don't destroy the layout of the president's boss.”

“Yes.”

...

The 100,000 Wolves Guard resumed its formation and continued to sweep forward in parallel, killing all thieves and invisible mages along the way.

The northeast wall of the Sky Tower.

Lefes went to Da Tou and Jiu Yao Xingxuan and said, “Sorry, I failed to stop their attack.”

“What’s going on?” Big Toad asked.

Le Fei Si said: “The arrogance Wanzong and the 100,000 crazy wolf legion to fight for the Bai Shisanxiong, I can only throw my skills to them.”

“Well, the difference is so great,” said Big Toad.

Jiu Yao Xingxuan was also speechless. Just when they were thinking a few ways, it didn’t take long for them to whistle and break the peace on the wall.

“Woohoo ~~!”

The three Lefes looked at the horizon far away from the city wall. Among the half of the residual sun that was about to fall, a huge wolf and a dark shadow hanged in the sky.

Suddenly, numerous shadows of giant wolves appeared on the horizon, and the 100,000 crazy wolf army collectively raised their heads. The angry howl was heard by anyone, and it was the wrath of revenge.

“The entire army circled to the 2,000-meter position outside the southwest gate of Tongtian City.” With a roar of pride, Hao Wanwan ran towards the southwest of the city wall with the 100,000 crazy wolf army.

“Damn, what are they going to do,” Lefes cursed.

“Going southwest, there aren’t enough people there,” said Big Toad.

Jiu Yao Xingxuan quickly called to contact the other heads. Only 20,000 were left on the front, and the remaining 30,000 people gathered on the southwestern city wall.

“Amorous feelings, what do you mean?” Jiu Yao Xingxuan asked loudly.

Pride and enthusiasm looked at Jiu Yao Xingxuan in a wolf form and shouted, "The whole army is ready to attack."

100,000 people were immediately divided into three attacking squares, and the classic style of the crazy wolf legion was put on. As long as the leading giant wolf used the ground dragon to connect the ground and the city wall, they would rush up the city wall to attack .

In order to defend against the mad wolf legion, many commanders and presidents are thinking of ways. Among them, earth dragon quake is the best way to combat earth dragon quake. However, this trick is based on the premise that the opponent has only a small number of earth dragon tremors. Like the Wild Wolf Legion, there are many Earth Dragon Scrolls, which are completely useless.

The second method is to let the space-time mage throw a space-time stance to block it. However, the jump height of the crazy wolf is too high. You can jump to the stand and continue to run. In the end, everyone concludes that there is no way to prevent the crazy wolf army from going to the wall. Trapped them in anti-war and concentrated their superior firepower to eliminate them from a long range.

It is a pity that the big toad and Jiuyao Xingxuan on the city wall lack the superior firepower. They are not enough!

"We have to contact other corps and ask them to help us defend, we can't defend just like that," Lefes shouted.

"I know, I'm just calling people." The big toad immediately sent a message in the group, saying, "Come and rescue the sky, the enemy's main force has arrived, we can't resist it."

This was agreed by them before. Once any of the main cities was attacked, the players in the other main cities immediately came to support it, while Da Ha was glad that the other main cities would respond enthusiastically.

Giant Elephant City: "No, I can't support it. I just saw in the live video that Karp's Indian Army is attacking me with 300,000 people. It is less than 40 minutes away from me. . "

Violet City: "No, Li Wenxing is rushing towards me with 200,000 people. I can't help."

Blackwater City: "No, God of War I is attacking me with 200,000 Star Alliance members."

Tianji City: "No, **** Lu Yang actually sent the Great Druid Army. There are phoenixes in the sky circling. I can't shoot people to leave. Now I can't determine whether there are enemies outside the city who have built sentry towers."

"Me too."

"Me too."

"Me too."

All seven main cities refused, which made Da Hao and Jiu Yao Xingxuan dumbfounded.

"Does Lu Yang want to attack comprehensively? How can he have so many manpower." Jiu Yao Xingxuan said.

"Damn, what can we do, we can't stop these 100,000 people, not to mention the 200,000 main force of the White Lion." Da Toad said.

The voice just fell.

"Woo ~~~"

"Woo ~~~"

"Woo ~~~"

...

The sound of melodious horns came from the northeast. People such as Da Toad and Jiu Yao Xingxuan suddenly sank in their hearts, and looked at the northeast in surprise. Their eyes crossed the tower and the wall, just to see that the horizon had just fallen Sun setting.

In the dim light, the three white lions walked in the forefront, and the back row of players filled the horizon. There was a gap between every 50 players in the row. This proves that the White Lion's legion has completed the formation of the formation, which can be directly Launch an offense.

"Two sides attack, how do we defend." Lefeer asked.

"If you can't defend, you have to defend, and fight to the end," roared the big toad, and led people to the northeast.

He had just brought 1,000 men to the northeast corner wall, and the White Lion had taken him to a place 500 meters below the city.

The white lion came down, raised the flag in his left hand, and suddenly took a step forward. The right-handed sword pointed at the walls of the city and shouted, "Iron brothers, kill ~!"

"Kill ~!"

The first wave of 100,000 people attacked the city wall like crazy, and the white wolf led the team himself. This time, the attack was like a beast going down the mountain, the momentum was rainbow, and the more than 20,000 defensive members on the city wall were shocked .

When 200 meters away from the city wall, Bai Hu took out 200 scrolls and shouted at the same time.

"Earthquake"

"Earthquake"

“Earthquake”

...

More than 200 earth dragon tremors transformed each of the two walls of Tongtian City into a huge gentle **** with a width of 100 meters. The white wolf stepped on the rising **** almost every step without wasting a second.

“Stop them, attack.” The big toad and the other three commanders shouted at the same time, a large number of players rushed down the city wall immediately, and an overwhelming arrow rain and spells covered the gentle slope.

The White Lion shouted, “Archers and wizards, suppress attacks on the walls.”

Through the cover of the melee meeting, the shooter group and the mage group moved under the protection of the shield to the position of 30 meters and 50 meters below the city wall, and attacked the enemy on the **** on and on both sides of the slope.

Players under the wall are struggling to hit the players on the wall. The enemy’s wall is 30 meters high. If you want to hit the wall from below, you need to run a closer distance, but the wall does not have this trouble, because of the wall. Instead they attacked farther.

If there are 200,000 people on both sides and the equipment is the same, even if the White Lion can fight, it will take up to two or three hours. Unfortunately, the enemy on the wall only has more than 20,000 points, and his first wave of attack There are 100,000 people in the city, and the gap between the two parties is too obvious. Even if there is Lefel’s spell-casting mage, he can stand with a mad wolf army under the southwest city. If the spell-casting mage dares to leave, He dared to rush to the wall.

“Damn, this fight can’t be fought. It can’t be held here. The forbidden mage group will follow me and go to Tianji City.” Lefeer shouted.

“Why not go to Violet or Blackwater City?” The deputy head asked.

“Do you think it can be held?” Ruffel said angrily: “The only things that can be held are Tianji City, Wuyue City, Lanyue City, and Cardinal City. The other four main cities can’t be kept. We Going is the same situation as now. “

“But ...” the deputy commander also spoke.

Le Feier cursed: “If you don’t want to leave, just stay. I won’t force you, the rest will retreat with me.”

Over 7000 forbidden mages still obeyed Lefel’s words, and collectively flew back using the teleportation scroll.

Without these 7,000 people, the siege brotherhood of the siege is equivalent to one less enemy, and the first wave of offense on the northeast wall has already divided the victory and defeat. The sire brothers sent out the main army, although not The establishment is normal, but the strength and number are far above those of Da Toad and Jiu Yao Xingxuan.

“Kill ~!” White Wolf slashed Jiuyao Xingxuan with a stab, and shouted, “Keep the wolf out of the way and attack.”

The wall has been cut by a white wolf with his private army and the Guards Corps. Following his order, the private army behind him and the melee squadrons of the Guards immediately lined up, holding large hands The sword advances in parallel.

...

Every time the white wolf shouted, the soldiers in the first row waved forward with him. At the same time, after they cut, they immediately retreated and retreated, and the players in the second row continued to attack.

The interval between the two-handed sword attacks is 3.5 seconds, but the white wolf’s army attack is once every second, and the output damage is 3.5 times higher. The soldiers who have reached the sky in one step can not carry it. , Complete defeat.

“Can’t beat it, run away.”

“Don’t fight, quickly go into the land of the city’s main government.”

“Run.”

...

I don’t know who shouted first, but the situation of Kashihara was formed in an instant.

The White Lion had climbed up the wall and saw this scene shouting: “The whole army attacked, knocked down the teleportation array, and attacked the city’s main government.”

The white tiger below the city immediately ordered the entire army to launch an attack. The remaining 100,000 people flooded the city wall like a tide. The white wolf turned on the city gate switch, and 100,000 people rushed into the city for final killing.

Colossus.

Karp had just reached the city with 200,000 people, and Padu with 100,000 people had chased behind them.

“Guys, this is the first time we have fought for the Brotherhood of the Jagged Brothers. We absolutely have to play our strength and let the other party know how strong we are.” Karp said.

Dalv said, “Are you going to put a secondary forbidden spell in the first wave?”

Karp shook his head and said, “No need, believe me, the war is still behind, the forbidden spell and the secondary forbidden spell are left, the special skills are released, and we kill the enemies in the elephant city.”

“Okay, that’s it,” Padu said via video link.

Karp immediately set off the battlefield and surrounded the city. As a result, only 50,000 players on the wall reached the sky in one step, and they could only divide people evenly on the four walls. Only 125,000 people participated in the defense on each wall.

“Indian Legion, attack.” Karp roared.

“Kill!” More than 200,000 Indian players attacked the city from the side, at the same time, a large number of special spells fell in the sky on the wall.

Kapu and Baqiang, who were the first soldiers, rushed to the city wall first and handed over the burden of commanding the overall situation to Padu and Dalvi.

“Special legion, offensive,” Dalvey shouted.

A total of 53 special legions involved in this attack, including all members of the Burning Lantern Mage, Hell Ares Corps, and especially the long-range spell of Burning Mage, their attack power is 30% each time, which can be added together Three times, their attacks far exceeded the magic resistance equipment of the players on the wall nearly doubled, resulting in a large number of players on the wall.

...

Violet city.

Li Wenxing brought 200,000 South Korean players to the city. As the earliest legion to rely on Lu Yang, Li Wenxing has been eager to lead his men to build a career. Now, the opportunity has finally come. Looking at the city of Violet City, Li Wenxing shouted excitedly: “South Korea Legion, attack! “

200,000 South Korean players besieged around Violet City.

...

Blackwater City.

Xia Yuwei has already begun the siege with 200,000 players in the Nine-Star Alliance. She stepped on the flying carpet and looked down at the attack under the city with a peerless look. Just like the goddess came to life, this flying carpet was given to her by Blue Feather.

“Damn it, I fight for this woman who lost me.” A Russian bald player roared and shouted, “Russian legion, attack.”

50,000 * formally launched an attack on the main city, and the other three walls were the teams of God of War I and Pope I and a sad wind.

At one time, the four main cities were caught in the flames of war, while on the other side, Turkey, South Africa, and the United Kingdom were on their way to rescue.

“Damn, the war has already begun, and we have half the way to go.” Kerim scolded in the three-person connection video.

“I have informed Jiu Yao Xingxuan them, so that they must entangle the siege Brother Alliance players. Even if the main city is beaten down, do not give up, continue to counterattack, and must entangle Luyang’s attacking forces. Hand said.

Daniel said, “We should be able to get to Tianji City, Wuyue City, and Cardinal City, and hope, before Lu Yang.”

Blood Slaughter and Kerim nodded together. As long as they could reach Lu Yang one step ahead, they could curb Lu Yang’s offensive. If Lu Yang occupied the main city, the battle would be difficult to fight.

Tiger mouth fortress.

Tu Feng said to Lu Yang: “Kerim’s support army arrived in Tianji City in one hour, and arrived at almost the same time as the magnificent 100,000 people. If this is the case, it will be very difficult for us to fight against Tianji City.”

Lu Yang said: “The Heavenly City must be defeated, where the resurrection point outside the city is very far from the main city, which is very beneficial to the defenders.”

“But we have only 4,000 Crow Legions and 200 Fire Phoenix Druids outside Tianji City.” Tu Feng said.

Lu Yang said, “I’m going to siege myself.”

“You go in person?” Tu Feng said in surprise. “Not good, the whole situation requires you to control.”

Lu Yang patted Zhuoju beside him and said, "I'm not here, the task of unified command is left to Zhuoju."

Zhuoshu said, "Yes, boss."

Lu Yang looked at Xiao Liang, Mu Yu, Shen Yiyi, Han Ying, Hei Yan and others around him and said, "Follow me."

"Yes," Xiao Liang and others answered.

Lu Yang took out the New World teleportation scepter, and a flash of light flashed. Lu Yang took them to the back of a hillside 10 minutes away from Tianji City, where there were Debuwei Corps and several Phoenix Druids waiting there. .

"Boss." De said tastelessly respectfully.

Lu Yang asked, "What is the situation in Tianji City now?"

De Bu tasted the corpse and said, "It used to have 50,000 defenders, and newly joined Le Feir's more than 7,000 spell-casting mage. It was difficult to fight."

Lu Yang sneered and said, "Follow me, we will lay down Heavenly City."

"Fighting?" De Bu tasted stunned.

Lu Yang sneered again, saying, "Let you see it today, my boss's best trick."

The group followed Lu Yang in surprise and walked to a position 100 meters below the city wall. This distance can already be reached by high-end shooters, and can also be attacked by a special mage group.

Above the city wall, Lefeier and the head of the night were boundless, the old city was smoky and rainy, Duanmu and others looked at Lu Yang who came over in surprise.

“Lu Yang, leader of the Brotherhood of the Iron Blood?”

“How can it be him, has the main force of the Brotherhood of Iron Blood arrived?” Le Feier and others were frightened.

Duanmu shook his head and said, “No, don’t panic. This is Lu Yang’s use of a teleportation staff to bring a few people over. Don’t be afraid of him.”

Everyone looked closely, only to find that Lu Yang really brought such a little person.

“Scared me.”

“What does it mean that he brought such a little person?”

“You look down on us too much.”

“Kill him and **** the Level 9 Demon Heart from him.”

...

The roar of anger, such as the endless nights and the old city and the rain, was greedy in his eyes.

The price of this demon heart on Lu Yang has soared to 300 million credit points and sold, which is enough to make life easy for people.

“Don’t mess around, look at the situation first,” Duanmu said.

The old city Yanyu didn't take it seriously, secretly typing for his men At the same time standing in the city and laughing and shouting to Lu Yang: "Chairman Lu Yang, you dare to attack us with only 100 people You are brave enough. "

Lu Yang smiled and looked at the people on the city wall and said, "I give you a chance, you can surrender me. How about I give you the full membership of the Jagged Brotherhood?"

"Haha, I want to persuade you and tell you that we are only loyal to President Deng Tian. You don't want to buy us." Le Feier said with a laugh.

A sneer appeared on Lu Yang's face, and said, "Isn't it right?"

"Yes." Yanyu of the old city shouted with Duanmu and others.

"Okay, then I'll do it for you." Lu Yang didn't hesitate, leaned forward, and read the spell in his mouth.

"Transformation of the Phoenix"

A sharp hissing sounded, and Lu Yang became a huge fire phoenix in the air, and at the same time he uttered the super curse spell in his mouth.

"The flames burn out"

Chapter 1199 - Lu Yang's Killing Ring

Centering on the city, a super-strong curse with a diameter of 2,000 yards surrounded all enemies on the wall.

“3278688” (Critical Strike)

“3277688” (critical strike)

...

Lefes’s spell-casting mage on the city wall and more than 20,000 defensive players were killed without even a chance to react.

“I’m going to open the city gate.” Lu Yang took a sip of the potion and flew towards the city wall in the form of a phoenix.

“We protect you.” Germany does not taste the corpse into a phoenix, and the rest of the druids also become phoenixes and crows and fly to the city wall with Lu Yang.

The other three players who were not attacked by the forbidden spell on the wall immediately knew what was happening here. They ignored the city wall and rushed towards this side, but they just died after entering the forbidden area and scared everyone. Quickly stopped.

“Damn, how could the damage be so high,” one head cursed.

Lefes was resurrected in the city and shouted: “Don’t enter the forbidden area. Lu Yang has few forbidden spells. We don’t need to be afraid of him and defend in the city.”

The heads of the various commandments of the city wall rushed back to the security area in front of the main city hall to arm their troops, with a total of more than 50,000 people.

Lu Yang saw their movements, with a sneer on his face, and flew to the wall to open the gate.

“Booming”

Some of the elites of Han Yingsan's three siblings, Xiao Liang, Mu Yu and Hei Yan, the forbidden mage masters, came in immediately.

Lu Yang jumped underneath the city wall, and just fell to the ground, the words in his mouth were spelled out.

"Inflammation"

He instantly became a huge 9-meter-high flame demon, and the heart of the 9th-level demon let him emit a fierce red flame.

"It's been a long time since I used my full strength, and it really feels comfortable." Lu Yang said excitedly, feeling the energy changes in his body.

Level 9 Demon Heart adds an extra 120% attack range to each skill of Lu Yang. Even Pyroblast is more than twice as large.

"Transformation of the Phoenix"

Lu Yang's 9-meter-high flame demon form jumped into the air, and instantly became a huge fire phoenix with a length of more than 80 meters.

"Fire Sword"

He read a spell in his mouth, and nine huge lightsabers appeared around his body, each of which was about 10 meters in length and 1 meter in width.

Le Feisi and the 50,000 players in the safe area were dumbfounded, and the whole body was scared by the horrible form of the landing sun.

"How is it possible, how can such a terrible player form appear in the game." Le Feis said unbelievably.

“How do we fight? Lu Yang hasn’t released a few curses yet,” said a head silently.

“Do you still use a forbidden spell? I am afraid that the scope of a secondary forbidden spell is the same as forbidden spells, and a special skill can be compared to the scope of the secondary forbidden spells,” said another head.

sky.

“Neighing ~!”

Lu Yang screamed, without seeing the spell in his mouth. Above the safe area, suddenly more than 20 crimson meteorite with a diameter of 2.5 meters appeared.

“Isn’t this the fall of a meteorite? How come out so many at once? It’s so big?” Lefes was dumbfounded.

It is very easy to distinguish the three skills of fire meteorite fall, meteor fall and meteorite impact. Meteor fall is the crimson red meteorite falling vertically in the sky. The size of the meteor fall is larger than that of the house. Smashed down, the size of the meteorite is only about 2 meters.

The falling meteorite this time was obviously vertical. However, the conventional meteorite fell only 1 meter in diameter, causing 3 times the damage of biological intelligence within 10 meters around, but this time it was 2.5 meters in diameter, Lefes couldn’t imagine it.

“Hold a shield, turn on magic resistance skills, heal plus blood, and stand up to this attack.” A chief of the main group shouted.

More than 1,000 players raised shields to protect the output and healing below. They couldn’t see, they could only hear the sound of wind breaking when the meteorite fell. The harsh feeling made them panic, but outside the attack range of the meteorite, Players clearly saw the reddish meteorite falling vertically from the sky.

“boom”

“boom”

“boom”

...

Like small nuclear bombs, a cloud of mushrooms emerged, and each meteorite fall covered a range of 25 meters around it.

“4518686”

“4517868”

...

The damage from a meteorite fall is three times that of intelligence. Lu Yang is wearing a 9th-level demon heart, a sub-artifact Ziyang suit, and two sub-artifact accessories. The total intelligence is more than 1.5 million.

After the meteorite fell, all 1,000 anti-combat and invincible anti-riding vehicles were killed. Even the healing and output guarded by them were all killed by Lu Yang. In this attack alone, Lu Yang killed more than 3,000 people.

Le Feisi has collapsed. They only have 50 regiments. Lu Yang killed 3 regiments in a single attack. If Lu Yang attacked with all his strength, it wouldn't matter. It seems that Lu Yang didn't exert much effort.

“This makes them fight, who teaches me, how does it make us fight?” Lefes said collapsed.

“Why is there such a high output, this is too much.”

“Can’t fight.”

...

The other commanders also collapsed.

Just when many heads were deterred by Lu Yang, a head shouted: “Don’t be afraid of him, he is only one person, so many of us are here, fight with him, do not believe that he can kill us alone 5 Ten thousand people. “

“Yes, the support from the other three countries will be here soon, and we will win as long as we persist.” Lefes responded.

“adhere to.”

“adhere to.”

“The dead resurrected immediately and fought with Lu Yang.”

“He dared to come close and shoot him.”

...

A roar of confidence filled Lu Yang’s face with a sneer. He used a big horn and said lightly, “Are you still dying and struggling, okay, I’ll do it for you.”

“Neighing ~!”

Lu Yang’s phoenix shape was another scream. The dark clouds in the sky suddenly thickened by three points, and then the entire sky turned red. A huge meteorite the size of half a football field was smashed in red. Come down.

“Meteor Falls”

In the dumbfounded eyes of Lefes and others, they were hit by the meteorite without even being able to evade. A huge mushroom cloud rises over 800 meters in diameter, including those that use invincible players and ice shields. Among the players, more than 20,000 players were killed instantly, and the remaining 20,000 people were stunned. There was no blood on his face when he looked at the vacant lot.

“Neighing ~!”

Lu Yang uttered a shout, and the huge body flew towards the remaining 20,000 hostile players at a height of 70 meters.

At a distance of 100 meters, Lu Yang didn't wait for the shooter's attack. Lu Yang's 9 lightsabers at the same time emitted a huge light, attacking the players on the ground crazy at an attack speed of 1 round per second.

A normal lightsaber can only attack one person each time. After transforming, the lightsaber's attack turned into a range attack. The huge lightsaber fell on the ground and attacked the enemies within 2 meters.

The damage of the lightsaber is one-ninth of the intelligence. Although the damage is not high, Lu Yang's attack only focuses on the attack. The nine lightsabers are aimed at a red heart at the same time. Therefore, when the lightsaber fired, they were hit by nine lightsabers. All players within that 2 meter area were spiked.

While flying forward, Lu Yang released the impact of the meteorite. In the state of inflammation, all the skills above the non-secondary forbidden spells are instantaneous, without any cooling time.

He flew all the way with a lightsaber attack, and smashed all the way with a meteorite impact. All the players who were hit were killed with no trace of resistance. When Lu Yang flew over the enemy's position once, he killed at least 10,000 people.

On the roof of a building, Han Fei, De Buwei Shi, and others were standing on top of it and watching Lu Yang stunned beneath him.

De Bu tasted the corpse with his mouth open and said, "I'll take it. Boss, this is a heavy bomber and fighter. Throw it all the way and shoot it with machine guns. You have killed more than 30,000 people. It's too cruel."

Sister Han Ying, Xiao Liang, Mu Yu and Hei Yan nodded, agreeing with the description that Germany doesn't taste corpses.

"Unexpectedly, the Level 9 Pyromorph turned into a Phoenix has become so powerful that it is too cool to kill."

"I don't think we need to help the boss, just go to several other resurrection points and destroy the resurrection teleportation team." Han Ying said.

"It makes sense, we act separately, a 9-level artifact leads a team." Xiao Liang said.

The crowd nodded and dispersed.

Hei Yan followed behind Shen Yiyi, and he looked at his cousin with a sullen expression on his face, saying, "Brother, why don't we change it, how about you being the head of the cursed mage regiment?"

His cousin Xiaohuoqiu quickly covered his heart and shook his head and said, "No way, I won't change you if you are killed. Mine is also Level 9 of the Demon God, but there is no transformation of Phoenix. Wow haha, it won't be long before I can be like a boss That's arrogant. "

Heiyan wanted to cry without tears, and said, "I regret it. How could I have coveted the profession of the head of the curse master and mistaken the devil's heart. The boss is too arrogant. I think so."

Xiao Huoqiu said with a "false sorrow" in consolation; "Brother, look, you now have more than 50,000 people, aren't you, all of them are forbidden curses? This is also very powerful."

Heiyan's face was depressed. If he could, he would rather have the level 9 demon heart than the position of the head of the 50,000-person curse mage regiment. The level 9 demon heart would be so invincible, if it was level 10. How strong is it?

He turned to look at Lu Yang. In the sky, Lu Yang was still raging. Like a bomber and fighter, he swept across the court. The enemy he killed didn't have any reaction ability.

"Well, brothers, you blasted me in front of the teleportation array. I'm in a bad mood today, and I blasted it fiercely." Hei Yan pointed at the teleportation array in front.

The members of the forbidden mage team behind him chuckled. It is conceivable that the gap in this attack was too great.

A piece of magic swept over, and the teleportation array was broken.

"Boss, the Eastern Teleportation Team was destroyed."

"The west was also destroyed."

"It was destroyed south."

"The north side was also destroyed."

Lu Yang was killing, and nodded after receiving reports from Han Ying and others, saying: "Han Yu, Han Ying, Shen Yiyi, and Little Fireball each took 500 fire crows to defend the four gates of the east, west, and south. This immediately destroyed their resurrection points. "

"Yes." Four players with 9th-level artifacts rushed to their respective walls immediately, and Germany didn't taste the corpses and divided 4,000 Fire Ravens into 500 people for each of the four walls. There were only 2,000 people around him. .

Below the main city house.

Lefes and others are in the form of death. They don't want to be resurrected anymore, and they all sit there in a daze.

"Look, let's just admit it, the resurrection is dead, and we can't fight it," said a head.

Lefes sighed and said, "It's not that we don't want to do our best, but that we die after being resurrected."

A regiment said: "It will also be resurrected. I estimate that the main Turkish army in Kerem will be here in half an hour. Be sure to stick with you guys."

Lefes and the other heads looked at each other.

"Well, resurrect everyone, let's stick with it, but I can't guarantee how many people are willing to die like this," Lefes said.

"What's this? No matter what, we have to give the boss an explanation." The leader who spoke before was angry.

The other heads of delegations all laughed.

"Just do you know that you are loyal to the boss? You haven't been demoted to the commander."

"That is, now that the boss is in the prison, the vice-chairman and all the legionnaires are also in the prison. The future is unknown. We are willing to work so hard to help the boss defend the city and boost morale, but you are talking coldly."

"No wonder you don't want to be seen."

...

Several heads were angry.

The leader of the previous talk was called Liu Quan. It was one of the first players to follow a step up to the sky, but this person was bad-mouthed and loved cymbals, so he was crowded out by players above the regimental level. Demote to head.

He could n't mix in the rank of the regimental commander before, but in the circle of the regiment commander, he was mixed like a fish, because he was senior and he was promoted by the regiment commander, plus he was following The old man who stepped into the sky step by step, any head of the team had to make him three points.

He did not respond, thinking that everyone else respected him. Over time, his mouth became more and more stinky and annoying.

Today's defensive battle, the head of the regiment who has stepped up to the sky has done his best. This old man not only did not unite everyone, but also accused this and accused him of side by side, and finally caused the dissatisfaction of several heads of the party, and they all ironic.

"Do you want to rebel? Do you dare to talk to me like this, believe it or not, I will ask the boss to tell you." The head of the group angered.

Lefes sneered and said, "Okay, go ahead and sue, I'd like to see. The boss listens to you, or to us all."

He LeFeis is the head of the cursed mage regiment, and his rank is the rank of legionnaire. Although he does not have the qualifications of this regimental elder, he is a trustworthy person, so he is not afraid at all.

Several other heads of the group stood next to Lefes, and Lefes testified, and they were not afraid of the chief.

"You're a bed bug, and you've long bored people like you."

“Get out early and know I’m bored of defending a main city with you.”

“I’m all sickened.”

...

Several heads of anger blasted the anger to the extreme. He pointed to Lefes and other heads and said, “Okay, okay, wait for me. If you don’t go, I’ll go.”

The light flashed, and the head resurrected with his men.

Lefes and other heads looked at each other.

“No, this grandson is doing it this way, we are not people inside or out,” said a head.

“It’s obviously **** lost, what’s the point of giving someone a head?” Another head cursed.

Le Fais said: “Forget it, let’s resurrect it. There are as many people as you like. After all, we are holding a one-step salary, and we should know what to do.”

“Ugh.”

...

Several heads of sighs sighed, they couldn’t understand, how well the guild became what it is today.

“Resurrection,” said Lefes, who greeted his men and chose to resurrect.

Outside the city, on the cemetery half an hour away from Tianji City, Lefesi appeared in the light with hundreds of forbidden mages.

“Why are we resurrected in the necropolis outside the city,” Lefes said in a panic.

“Damn, all the resurrection points in the city were destroyed by Lu Yang’s men. We now want to enter the city and can only be resurrected here,” said the leader following the resurrection.

The uninvited head of the group pointed at Lefes and others, his face was full of curse and anger: “It was because of the delay of several of you that Lu Yang’s men destroyed the teleportation array. You wait. Now, the boss is out, I will sue you. “

“I am ...” A head of angrily was about to attack this old senior head, Lefes quickly stopped him and said, “Hurry up to gather players to attack the city. There are not many people in Lu Yang’s hands. We are in There are still more than 200 people in the city’s main government. As long as we can rush in and take back the main city, this city is still ours. “

The other heads nodded, and immediately gathered their players, and no one went to see you, the uninvited head, but they gathered for a while, but they only gathered less than 5,000 people, the previous 50,000 people Only one-tenth of them stayed, and the other nine-tenths chose other resurrection points, or went offline directly.

“None are loyal to the boss. Damn, when the guild divides things, they are more happy than they are, but now they are gone. This time, I won’t let them go.” Scolding while walking.

Le Feis and several other heads looked at each other This grandson is a bastard, but he is loyal to the boss. Whispered a head.

“Hey, if you are the boss, do you want such a bastard?” The other head asked with a mockery.

“Ghosts want it, pure waste. So they followed the boss so early, but they were thrown down as heads. They still don’t know how to pretend to be united brothers. What do they want?”

Several heads laughed.

Lefeisi said, "Don't make a noise, whoever of you are in the basement of the city's mansion, ask them what's happening there, and none of the cursed mages in my hand are underground."

"Okay." A head of the group called immediately, and the call was answered two times later. He asked, "How's the basement going, did Lu Yang come in?"

Basement of the city's main mansion.

"Lu Yang, Lu Yang is here." A sharp shout appeared.

Chapter 1200 - Celestial City Defense War

Without waiting for the footsteps to approach, a blaze of flame dragons suddenly appeared at the gate of the basement. They only had their heads, and their bodies were connected to the ground in the form of flames. After each dragon appeared, they opened their mouths to face them. Players in the basement spit fireballs.

Although it is the first small fireball, Lu Yang's French injuries are nearly 2 million. Any fireball hitting it will be enough to make them lose a large blood.

"Fire Dragon"

"Fire Dragon"

...

Fire dragons popped their heads from the floor. After a while, 8 fire dragons were superimposed on the small area of the door. They collectively aimed at an anti-war spout, and one anti-war must be killed by 8 small fireballs.

“Damn, I can’t carry it.”

“The fire dragon’s attack power is too fierce. Who can clean up these fire dragons?”

“How can there be such skills.”

...

The player in the basement mourned for a while, and Lu Yang stood on the steps of the basement, listening to the words coming out of the door below, and humming. At this stage, the ability to fight the fire dragon has not yet appeared.

If you want to dispel the fire dragon, you need skills such as purification level 160 and large purification level. Now, no one can learn it.

He doesn’t need to rush in now to kill, as long as the fire dragon technique is released continuously, no matter how many enemies there are, he must die.

Why is Huofa known as the “Second World” pro-son, and why there is a job like Huofa, because this job is violent and powerful enough!

Lu Yang used to be afraid of weakening, and now that his job is coming out, he does n’t need to endure it anymore. Today is the beginning of his killing of the Quartet. In the previous life, he singled out a fire emperor of 100,000 people. Back again!

1 minute

2 minutes

3 minutes

...

6 minutes

The shouts in the basement disappeared, and the fire dragon at the door no longer released skills. Lu Yang knew that all those who would not be invisible were killed.

He stepped down the steps, came to the basement door, and glanced into the room. He is now 160, and the highest player level is 139, and the people in this room do n't know how many levels, but they are obviously lower than him. Above level 20, because even the invisible thief hiding in the furthest southwest corner of the basement can see.

"I use it back to the city, or I will send you back." Lu Yang asked.

The invisible thief in the room was shocked, but no one acted.

Lu Yang said: "You guys who are not even at level 140, I'm level 160. Don't play stealth in front of me, it doesn't make sense."

The invisible thieves were dumbfounded, and then they remembered the gap between the two sides.

"You, are you really willing to let us go?" A rogue player asked invisibly.

Lu Yang said, "Killing you is nothing more than a meteorite falling. Do I need to lie? Don't waste my time. Last chance, will I leave you or leave you?"

"I'll go by myself." A thief player immediately showed his figure, took out the city roll and read it.

Lu Yang ignored him and continued to glance at the other thieves. All thieves swept by Lu Yang's eyes had a look of horror on his face. Seeing that the thief had run away, they couldn't help it anymore, and took them back to the city Volume escaped.

Lu Yang nodded with satisfaction, looking at the empty room, and spelled out in his mouth.

"Lava Eruption"

"Lava Eruption"

...

The German behind did not taste the corpse and asked curiously, "Boss, why do you still use your skills when everyone is gone?"

Lu Yang said with a smile: "What if the thief is sometimes empty? Be cautious. Capsizing in a gutter is the most shameful."

"Ah ~~! I fight with you." A thief suddenly showed his body 20 meters in front of Lu Yang and flew towards Landing Yang.

Since Lu Yang's second avatar was right behind him, he was close to him, so the thief could not launch a sneak attack and jumped behind Lu Yang.

"Go to death." He became upset and turned into a giant ape, punched the space-time thief with one punch, and then several druids turned into a giant ape at the same time, and gave him an old punch around the space-time thief.

Lu Yang shook his head. This giant ape form was specially found by Lu Yang for those druids who like to fight in human form. This is why these people like to follow Lu Yang. Lu Yang really benefits them.

"Boss, get killed." He said annoyed.

Lu Yang smiled and said, "Continue vigilance."

He put a circle of lava in the basement, and after confirming that there was no time and space thief, he said, "You stay here, I'll take a look at the wall."

"Yes." De Bu tasted the corpse and others said, as long as staying here for 2 hours, this main city is Lu Yang's.

Lu Yang left the basement and went outside.

"Neighing ~!"

He turned into a phoenix and flew to the West Gate, where Han Ying was carrying the 500 Druids on the wall.

"Brother." Han Ying saw Lu Yang fly down and said, "The enemy is in the team, but the number seems to be small."

Outside the city, Le Feis and several heads brought a total of only a few thousand people. They were all messing up, without any momentum of attack.

Lu Yang said, "Use your fallen angels to kill them."

"Yes." Han Ying has been reluctant to release the fallen angel. This thing is gone when it dies, but the fallen angel is powerful and can't easily die. The fallen angel with magic antibodies ignores all control skills. You need someone to carry it to kill, otherwise he can't beat this fallen angel.

"The boundless blood sea prison is your destination." A chilling long sword appeared in the hands of the fallen angel, flapping his wings toward Lefez and others below.

"What the **** is going to kill him," Lefez shouted.

Hundreds of mages targeted the fallen angel, and once output it, hundreds of magic fell on the fallen angel.

“Miss”

“Miss”

“Miss”

...

None of the spells were hit, and the shooter’s attack hit the fallen angel’s body, which was just -1, -1, -1 and other forced damage.

A fallen angel at level 160, a rare elite, how could these players who are not even at level 140 and who do not have dark gold equipment at level 140 be able to move?

“Since you sent me to death, I will complete you.” The fallen angel stopped in mid-air suddenly, read the spell in his mouth, and pointed his sword sharply at the sky.

“Headwind and Air Burst”

At this moment, the whole world seemed to be still, and even the leaves were stuck in mid-air.

“boom”

All players within a radius of 5,000 meters were hit by powerful airflow. After hitting the player, the airflow like a fist suddenly turned into countless sharp blades and slashed wildly on the player’s body.

“This fight was too much. Lu Yang won beautifully.”

“Is this the ultimate form of fire, I will also use fire, too strong.”

...

Player comments are swiped in the live room.

Lu Yang didn't know that the battle was being broadcast live. In the dark night, the dark drone camera covered everything.

Tu Feng cast three images and said, “Boss, come back and just got the exact news. Turkey's Kerem is less than 20 minutes away.”

With a frown, Lu Yang cast a screen of lofty sentiments next to him, and asked, “Where are you?”

Pride and enthusiasm are running with 100,000 people on the way to Tianji City, he said to Lu Yang: “Boss, 25 minutes, give me another 25 minutes, I will definitely bring my brothers.”

Tu Feng frowned, saying, “5 minutes is too long, you can't handle it.”

Lu Yang smiled and said, “How to know without trying.”

The 9th level of inflammation can support more than two hours. He has only spent half an hour now, and there is still more than one hour for him to splurge.

Not only does he have the heart of the demon god, beside him there is the heart of the thunder ****
Mu Yu, the heart of the destruction of Han Ying, the heart of the devil of the small fireball, the heart of the spirit of Bai Yiyi, and the heart of the death of Han Yu. of.

Although the artifact did not reach level 10 and could not play the strongest state, these 9-level **** hearts were enough for Lu Yang to hold it for 5 minutes.

“Pride and passion, I will give you 5 minutes to stand out for 5 minutes, don’t disappoint me.” Lu Yang said.

“Boss rest assured, I will arrive in 5 minutes.” Hao Wanwan gritted his teeth and withdrew from the connection, yelling and shouting, “Run with all your strength and be sure to arrive at Tianji City within 25 minutes.”

The 100,000 Wolves Guard was running wild in the night.

The walls of the City of Heaven.

Lu Yang said to Tu Feng: “No need to persuade me anymore, I am confident that I can hold it for 5 minutes, contact Xue Yiming and Qing Qian Zimeng, and continue to pay attention to the developments of all parties.”

“Yes.” Tu Feng bowed and closed the connection.

Lu Yang looked out of the city, with a confident expression on his face. Lefes and other players under the city were killed and will not gather again for the time being. In other words, the next siege will only be Kerui. Tom’s men.

“All come to me.” Lu Yang sent a message to the player holding the artifact.

Han Yu and Little Fireball quickly rushed over.

“Brother, what’s the matter?” Han Yu asked.

Lu Yang said: "After 15 minutes, the leading forces of Kerim will rush down the city, and our support forces will need to wait another 5 minutes to arrive, that is, these 5 minutes will require us to hard Resist the enemy's attack. "

Hei Yan and Little Fireball were surprised, but soon they were excited.

"Hey, I'm trying to try how many people the level 9 Devil Heart can kill, no problem." Said Xiaohuoqiu.

"I'm fine," Hei Yan said.

...

Everyone is interested in Lu Yang's idea. After all, they are special players with 9-level artifacts. One enemy is one hundred and one enemy is one thousand. As one enemy is ten thousand, they are even more interested.

Lu Yang glanced at them with satisfaction and said, "Very well, start to prepare now. The enemy should attack the wall where I am now. As long as you keep here, the enemy will lose."

The crowd nodded, and each began to organize their equipment. They were all people with a demon temple, and they could fly back immediately to organize their backpacks.

Lu Yang also returned to the demon temple to pack his backpack once, and by the end of his busy time, the distant sky was already lit with pure white light.

"The enemy is almost here, extinguishing all light." Lu Yang said.

Mu Yu, Han Yu and others suddenly closed the crystal ball in their hands. They knew that this was the first major battle they faced. The number of enemies was 200,000, and they only had more than 4,000. The ratio of the two parties is 50 to 1.

If it 's just a literal number, it 's not so scary. Look at it. Under the night sky, the bright light is getting brighter and brighter. When the distance is close enough, Han Yu can see clearly. 200,000 people are lining up in several square arrays and rushing towards them.

“Damn, there isn’t any light on the walls,” Curim cursed.

Altan, the deputy chairman next to him, said: “Be careful, although Lefes said that there are only a few thousand people on the wall to defend, but that was news 20 minutes ago. No one can guarantee whether Lu Yang has reinforcements in the back.”

If there is a light on the wall, Kerim can know at a glance how many people are participating in the defense of Lu Yang, but now there is no light on the wall. The whole heavenly city is like a dead city, which makes Kerim hesitate.

“Stop the attack 200 meters below the city, and the Sentry is ready to explore.” Kerim said.

The 200,000 people who came over quickly stopped 200 meters below the city and started to gather. Just as the first team of thieves sent by Kerim were about to sneak up to the city wall, suddenly, a light lit up above the gate in the center of the city wall. There is only one Lu Yang on it.

“Lu Yang?” Kerim asked with a frown, “What the **** are you doing?”

Lu Yang looked at Kerim and said, “Corem, how about we talk?”

Kerem reacted to the fact that there were not many guards on the wall for the first time. He sneered and shouted behind him, “First echelon, attack.”

Lu Yang: “...”

Han Ying: “...”

Han Yu: “...”

Lu Yang said awkwardly: “It was a mess, it looks like this empty city plan is not so easy to sing.”

“Neighing”

A clear hissing sound rang from the city wall, and Lu Yang changed back to the state of flames, turned into a 50-meter-long fire phoenix and flew to the sky.

“Kill ~~!”

“Chong ~~!”

More than 100,000 people are rushing towards the city wall, and under the city wall, just like Lu Yang’s tactics, a large number of soil mages have spelled in their mouths.

“Earthquake”

“Earthquake”

...

Nearly 200 Earthquakes turned the ground on both sides of the city wall into two 100-meter wide slopes, and Kerim’s men rushed towards the city wall.

Han Yu and others on the wall immediately took out the scroll.

“Big Thorns”

“Big Thorns”

...

At the same time, 100 people tore the scroll to release the big thorns, and turned these two 100-meter-wide slopes into thorn bushes. As soon as they reached the upper half of the slope, they were controlled by the thorns and unable to move on the ground.

“Quickly use the aura of freedom to release control, **** it, the most annoying is Druid.”

“Mages and shooters suppress enemies on the walls. They are few.”

...

Kerim and his vice presidents immediately gave orders to command their players.

The small fireball watched the enemy’s long-range troops run over, and a proud look appeared on his face, and said, “Look at me, the flames have changed.”

“Hoo ~!” A fire lit up on the city wall, and a huge, 9-meter-high fire demon appeared.

“Meteorite Falls”

“Meteorite Falls”

...

Countless meteorites fell from the sky, exactly the same as Lu Yang’s attack method. Similarly, Han Ying and others also threw out skills.

“Neighing ~!”

Lu Yang Qingxiao flew over the **** on the left side of the city wall.

“Meteorite Falls”

...

Like the bomber, the meteorite fell one by one, and the players below it couldn't hold it for 3 seconds.

“Invincible, the punishment rider and the Templar rushed forward invincible a paladin leader shouted invincible.

“Meteor Breaking Moon”

A huge white meteor with a white light tail in the center of the Paladin, shattered his invincibility, and killed him and all people within 50 meters of his side.

Han Yu was very satisfied with his results. As a master with an evil soul ball and a 160-level sub-artifact, not to mention how much damage his own equipment and death heart have brought to him, only one evil soul ball is He increased the attack power by 500,000, launched Meteor Smash Moon to cause double physical damage, and had a shield-breaking effect, breaking their defensive shield, which easily caused such an effect.

Kerrim watched the battle on the **** with a dignified expression on his face. He originally thought that Lu Yang had only 4,000 people and couldn't prevent him. Bo's offense suffered such a big loss.

“Will you send our artifact thief up,” Altan asked.

Kerim shook his head and said: “Our artifact player level is only 130 levels and Lu Yang 160. If Lu Yang finds out, we will lose a lot.”
