Chapter 1201 - Retreat of the 3 Nations reinforcements

By 30 levels, even if it is a time and space thief, Lu Yang can see magic fluctuations. At this stage, the time and space thief is no longer hidden in the void and cannot be hit, but will appear after being attacked by magic. Therefore, Time and space thieves have no advantage in front of Lu Yang.

“What to do? It’s so shameful now that 200,000 people can’t beat Lu Yang so much.” Altan said depressed.

Kerrim said: “We don’t have a one-on-one match with Lu Yang. Several players with Level 9 artifacts around him are hitting us in the face and it’s awkward to go around.”

“I’ll lead the team,” Altan said.

“You bring 100,000 people to attack the South Gate. Remember, to quickly enter the city, I dare to fight like this with Luyang’s reinforcements. Don’t waste time.” Kerem said.

“Yes.” Altan ran towards the side with people.

Lu Yang watched in the sky, he clearly saw the enemy’s division, which made him helplessly sighed and snorted coldly, thinking: Kerim is not stupid.

It is a pity that he is not stupid and does not have enough support. How could he only bring such a little person to fight hard? Behind him, the arrogance is almost coming. It is estimated that both sides can meet under the South Gate City.

“Please support me, I will go to the South Gate.” Lu Yang said.

“Oh, no problem.” The little fireball sat on the top of a hillside and didn’t need to move. He opened his mouth and spit the comet and hit it like a heavy machine gun. Once an enemy approached, he spit the meteorite and fell. CD skills, he was very happy playing.

On the other side is Mu Yu. The 9th-level thunder heart’s continuous magic power is three points stronger than the demon heart.

“Wan Lei”

The entire **** is covered by overcast clouds. Whenever someone rushes up, they will be hit by an instant lightning strike. This lightning strike also comes with Raymang, and the next attack damage is increased by 10%.

Mu Yu’s magic damage has more than 2 million, and also has more than 70% crit attributes. It is impossible to fight against the enemy. The only possibility is the invincible Paladin. Unfortunately, there is one on both slopes. Level 9 Archer Heart and Archer Totem.

Lu Yang flew to the south wall in peace, watching Altan leading the team below, he sneered, and read the spell in his mouth.

“Meteorite Falls”

“Meteorite Falls”

...

The crimson meteorite fell from the sky, and the roaring sky was like *, and there were countless dead and injured players below.

Altan has no way to Lu Yang at a height of 100 meters. The only thing he can attack is two archers with artifacts, but neither of them can kill Lu Yang with a single blow. If Lu Yang runs away, , Also found that they have the heart of a shooter, don't think about it, these two will die.

"Damn, how can the heart of the demon and the Phoenix be so powerful, and we will buy the heart of the demon and the Phoenix to turn back." Altan scolded.

Finally, the top players in this game have begun to face the role of the demon heart, but unfortunately, it is too late to discover that they have no way to raise the demon heart to level 7.

"Siege the city, the earth mage released the Earthquake. Regardless of the others, break into the city and attack the basement of the city's main government." Altan shouted.

Just as the earth mage was about to run forward to release the Earth Dragon Earthquake, in the dark, a howling came from not far away from him.

Altan looked back in horror, countless crimson blood wolf guards rushed into their crowd from the night, and a blood wolf headed by him was even more fierce. He even fell on Altan and opened his mouth. Altan bit his neck.

"5978689" (triple crit)

Altan, die!

The blood wolf proudly raised his head and looked at Lu Yang in the sky and shouted, "Boss, I'm here. Don't be late."

Lu Yang said with a smile: "It was the right time to attack and penetrate 100,000 people in Altan, and the 100,000 people in the west wall with Kerim."

"Woohoo ~!" Shouted with pride and excitement, "Brothers, finally matched Kerim's main force. They all said that Kerim's players are better than us. Let them see today. Just look at the strength of our Blood Wolf Guard. "

“Woohoo ~!”

“Woohoo ~!”

...

The howling wolf rose one after another. In the last battle, the Brotherhood of the Iron Blood defended the Tiger Fortress as a defender. The coalition headed by Kerim several times broke through the city walls, so that the Alliance of the Iron Blood Brothers could win mainly through defense. The strength is not as good as those of Kerim and others.

They were very dissatisfied with the lofty sentiments. They had long wanted to have a face-to-face with Kerim. Today the opportunity finally came, and the 100,000 crazy wolf army was excited.

Lu Yang watched with satisfaction and loyalty. They launched a violent attack on the enemy. As the main force carefully cultivated by Lu Yang, this legion is not only well-equipped, the player's personal strength is strong, but also has unlimited scrolls, whether it is attacking scrolls, control The scroll was also the resurrection scroll, and Lu Yang opened up supplies to them.

Before the splendid subordinates meet the enemy's short soldiers, they will throw a scroll of rain first, and the attack scrolls of various scopes will overwhelm the enemy's hands, and use the flexibility and speciality of the blood wolf to launch an ruthless killing of the enemy. .

In less than 20 minutes, the lofty and passionate 100,000 wolf guards defeated Altan's 100,000 team.

“Resurrect the whole team in situ and make a second attack after 1 minute.” Hao Qingwan shouted.

During an offensive battle, players killed will be immediately resurrected by surrounding players using the resurrection scroll. This time the so-called resurrection team only checks for defects.

Just as they were taking medicine, Lu Yangfei returned to the West City Wall, but at this time, Kerim under the West City Wall ran away with people.

“Boss, they retreated.” Little Fireball shouted at Lu Yang watching the sky.

Lu Yang thought about it, and eventually issued the order, saying, “Catch up with them, and don’t leave any.”

The graveyard is half an hour away from here. Lu Yang does not believe that Kerim and the reserve team, nor does he believe that he can still have enough staff to ambush in the back.

“Yes.” Pride and the 100,000 wolf guards chased in the direction of Kerem’s retreat.

On the other side.

Kerem replaced the warhorse and turned on the acceleration scroll to escape.

“Damn, how could Lu Yang’s wolf guard keep up so fast, the heads of the groups pay attention to using the acceleration scroll, don’t waste the equipment.” Korim shouted.

He regretted it very much. This time when he came to help, he lost millions of credits, not only the money for equipment, but also the money used to accelerate the reel frequently.

“Boss, we are resurrected, where do we meet?” Altan asked.

Kerem sighed and said, “Forget it, you don’t need to assemble, just go back.”

“This, this is gone?” Altan asked, before they ran for three hours before they arrived at Tianji City. After losing a game, they left, he couldn’t understand.

Kerem said: “Hurry up, don’t be attacked by Lu Yang, then we lose even more. This time we lost, there is no need to fight again, I will tell others to withdraw, we need to change.”

If he and Daniel, the blood slaughter, and others can take the team to advance one step ahead of the sky to guard the heavenly city, Wuyue city, Lanyue city, and Cardinal City, there is still a chance to go to the sky.

But he has the fastest speed in the world of Tianji City. He did not outperform Luyang's Wolves Guard. It is conceivable that even if other people can help to keep the other three main cities, he has lost and he has not played. Necessary.

He picked up the video phone and started a video conversation with Richard, Blood Butcher, and Daniel. The light flashed. The three of them quickly connected with Kerim. Four lights and shadows appeared 2 meters away from his running horse.

"What's the matter? I'm only 20 minutes away from Wuyuecheng." Blood Slayer asked.

Kerem sighed and said, "Sorry, I failed to help Tianji City."

"What?" All three of the blood butchers were stunned.

"You are closest, how can you fail?" Daniel asked.

Kerem said with a smirk: "Lu Yang appeared with several players with 9th-level artifacts and 100,000 crazy wolf legions. Even if I have 200,000, I still can't beat him."

"Ugh." Rickard sighed and asked, "Is the output of the 9th-level artifact really so scary?"

Kerem said: "Lu Yang had slaughtered Tianji City alone before, and 50,000 defensive players plus 7,000 forbidden mage had never hit him alone."

The Rickards had a crazy feeling.

"How is this possible?" The Blood Butcher asked.

Kerrim said: "It was one step to the sky, Le Feis, the head of the curse-proof mage regiment, told me that they were defeated by Lu Yang's 9th-level magic transformation and Phoenix transformation. A bug, when the flames were released at level 100 and burned out, more than 20,000 people on the city wall were destroyed in one go. This battle could not be fought for the time being. "

Bloodslayer frowned and asked, "Where are you now?"

"I retreated," Kerim said. "I'm being chased by the 100,000 wolf guard. If I didn't speed up the scroll, I would have been overtaken by them."

"Retreat? Where are you going? We don't have any possibility of backing up, we must help one step up the defense, otherwise we will lose." Richard said.

Kerrim said: "It's impossible to fight now, can my 200,000 people have beaten the 100,000 Wolves Guard and those masters with 9th-level **** heart? Tianjicheng, I can't fight . "

The three Rickards were speechless. Under the same circumstances, they could not fight, let alone force Lu Yang to defend, and the 100,000 Wolves Guard field battle could defeat Kerim's 200,000 people.

"Then what do we do now? If Lu Yang seizes Tianji City, his men will soon settle in. He only needs to hold the Tianji City until tomorrow afternoon, and then he can rebuild the teleportation team. Then our three main cities will Can't hold it completely, "Richard said.

Tianji City is 3 hours away from Wuyue City, and Heishui City is only 3 hours away from Cardinal City and Lanyue City. That is to say, tomorrow afternoon, on Saturday, Lu Yang can launch millions of people to attack this. The three main cities need only 3 hours to reach the logistics, and they, not the main city owners of the three main cities, have to be resurrected outside the city. After several wars, the defense force in the city has only one step to the sky. The remnants are gone, and the men who ascended to the sky only have a maximum of five or six hundred thousand people. If they are divided evenly, they cannot keep the three main cities at all.

Kerrim sighed and said, "Let's all step back. Don't waste human and financial resources. We have to think of a new way to defend Lu Yang."

“What is it?” The Blood Butcher asked. He managed to suppress the eight-armed spider in Northern Ireland this time before pulling out his hand to help him. I don’t know what time to wait next time.

“I have a formal proposal, let’s merge,” Kerem said.

“Merge?” If the three blood-slayers were struck by lightning, they all looked at Kerim in horror.

“What do you mean?” Daniel asked.

Rickard said: “The trouble of the merger can be too great. Any allocation of power, how to allocate resources, and how to mobilize funds are all problems.”

Kerrim grinned, and said, “But do we still have room to turn around? Lu Yang is so powerful, we don’t merge, we only have a dead end.”

Rickard hesitated.

Kerrim said: “Don’t tell me about alliances, this sentence has been clearly proven in the Nine Star Alliance. Once someone betrays, the result of the alliance is to die faster.”

The three Rickards kept silent.

Kerrim said: “Let’s find a place to discuss it. Tomorrow everyone will fly to Italy. We will talk about it at the site of Milan’s Dern. It will take a while, and it will not be easy for his men to take it one step at a time. “

The three Ricards understand that Kerim wants to use one step as a victim, creating a time of relaxation for their merger.

“But the merger of our three companies is not significant, it still can’t beat Lu Yang.” Richard asked.

Kerem said: "So, I thought about it, it is better to join the four countries of India, Indonesia, Brazil, Bangladesh, Mexico under Richard to form an eight-nation army, with the strength of eight super guilds, against One Huaxia should be enough. "

"The eight are merged together, then our rights are not even less divided." Ricard asked.

Kerem said: "It's better than nothing beaten by Lu Yang, leaving only a debt to quit the game. The specifics can be discussed, but they must be merged."

The Blood Butcher asked: "What if they don't agree?"

Kerrim smiled and said, "They must agree, because the three of us are only one month away from defeat. If we surrender Lu Yang and leave 10% of the shares, their death time will be one month later. . "

The three Ricards nodded. Obviously, Lu Yang gave each opponent the same treatment. Actively admitting that he could leave 10% of the guild shares, but they were all dreamers. The gap between them and Lu Yang was also But it is a matter of several levels. As long as this is overcome, they have the capital to fight Lu Yang.

"Well, I agree," said the Blood Butcher.

"I agree."

"I agree."

All three agreed with Kerem.

Rickard said: "I will stop now and the army will return."

"I'm gone too," said the Blood Butcher.

...

Soon, Wuyue City, Lanyue City, and Cardinals were rushing to the road outside to support a large white light on the way. Le Feis and others who could already see the reinforcements on the city wall were originally extremely excited, see At this scene, they were all stunned.

“I, I read that right, is that the light back to the city?” Jiu Yao Xingxuan asked, Tongtian City has been beaten down by the White Lion, Jiu Yao Xingxuan and Da Toad and others retreated to Wuyue City defense.

Lefes said in shock: “It’s over, we’re over, Ricard they retreat, they’ve abandoned us.”

Jiuyao Xingxuan quickly sent a message to Ricard, but unfortunately, Ricard had blocked him. Obviously, the other party decided to be ungrateful and had to black him out.

It’s not just the Moonless City.

Outside the city of Lanyue City, the light returned to the city, Daniel left, and outside the Cardinals, the blood butcher left.

Lu Yang, who was pursuing the news, learned of the incident through his spies. He smiled in surprise and said, “I can’t think these people are quite smart.”

Originally Lu Yang thought of a **** battle that would leave Kerim all on the land of one step to the sky. He is not afraid of **** battles, and his players are level 139 to 140. Even if the **** battle is a few days, he drops the level. At most, it fell to level 136, but Daniel they fell to level 129.

At that time, they could not even wear level 130 equipment, but Lu Yang still had more than 10,000 people playing level 140 equipment. He still had 100,000 reserve teams, and by then the 100,000 people were wearing 140. Players in the dark gold suit can sweep them with equipment that is 60% higher than the opponent’s full attributes. Not to mention the one-step ascent to the sky, Lu Yang’s four sites will be swept away.

“Unfortunately, some of them still understand people.” Lu Yang said.

Tu Feng said: “I didn’t agree with your play at this time. Although we can win, we can hurt our opponents by one thousand and 800, and they will hurt us a lot. The confrontation with other enemies in the later period is also troublesome. . “

Lu Yang shrugged and said, “It doesn’t matter.”

He connected the vice-chairmen of other attacking teams. Before long, 10 lights and shadows appeared in front of him, namely, White Lion, Zhou Tianming, Love for Half a Life, Xia Yuwei, Padu, Li Wenxing, Kapu, God of War I and others.

“Boss.” Ten people bowed and saluted together.

Lu Yang said: “Just got the exact news, players from Turkey, Italy, South Africa and Britain headed by Kerem have all withdrawn from the battle Now, there is no reinforcements in one step.”

“Withdrawn?”

“It won’t be that easy?”

“Well, it’s so happy.”

...

Lu Yang said to them with a smile on his face: “Order, Li Wenxing immediately led someone to attack Wuyue City, Karp and Patho attacked Lanyue City, Xia Yuwei took the nine-star alliance such as God of War I and Pope I to attack Cardinal City, Zhou Tianming, bitter love for half a life as a reserve team, and then wait for assignment. “

“Yes,” the crowd said together.

Lu Yang finally said: “The annexation and one step up to the sky is tonight, and I want you to completely defeat the momentum of the one step up to the sky tonight, and dare not kill them all in this area.”

White Lion, Zhou Tianming, and others looked at Lu Yang in surprise. So far, Lu Yang is the first time to issue such an unforgiving command. If that is the case, millions of players who have stepped on the sky in one step will not be displaced.

Chapter 1202 - Lu Yang 1 is angry, kills 0 miles

At six in the evening.

It's when people get off work, after school, after school, when they get home, everyone immediately turns on the TV or logs into the Second World.

In the live room.

A huge slaughter battle is taking place. Millions of players in the Iron Brotherhood are killing wildly in 8 main cities. Anyone who goes online will be killed and escape to the surrounding NPC villages. The entire village will be slaughtered and escaped to Wild high-level monster area, that area will be covered by the forbidden spell.

“It can't be described in words. The massacre, the total massacre, is unimaginable and too hard to imagine. Lu Yang turned out to be so cruel to the players who are also in the national service. This is how many people died, it's crazy, any They didn't hide anywhere, they couldn't even resurrect from the nearby cemetery.” The commentary in the Italian live studio was holding his head in both hands, and his face was incredible.

“Tyrant, Lu Yang is a tyrant. All he does will be punished, and he will be cast aside by the players in the national service.” A Huaxia commentator scolded Lu Yang.

“I can’t believe that this was not the case for Lu Yang before. He will give any losers a living and reserve 10% of their shares. But this time, Lu Yang not only sent one step to the prison, but also his men. Such a slaughter. “Dubin was stunned.

“Not only the guild players, but even the players who have not stepped up to the sky guild are being slaughtered.” Hitomi said.

...

The whole world is watching Lu Yang’s massacre. Some people are feeling, some are angry, some are angry, some people agree.

Dubin connected to Lu Yang and asked on the show: “Lu Yang, if you do this, you will make your one-step leader and ordinary players hate you, and you will win. Why do you do that?”

Lu Yang asked: “Are you broadcasting?”

Dubin said, “Yes.”

Lu Yang said: “I formally tell all players who watch the live broadcast here why I will do this. First, one step to use a commercial spy to steal my guild’s confidential information. If it is a normal theft, it will not matter. Under his command, intimidation and temptation do not matter, such a person, I vowed to root him out.

Secondly, the upgrade methods used by the players in his guild were stolen from me. They are also Chinese. Since they chose to follow one step to the sky, they know that they will fight with me. If the person who failed today is me, it is me And my guild was defeated by someone who was ascending to the sky. What would happen to my brother and my brother?

Starting today, I will continue to attack all the men who have stepped up to the sky. Whether you are near the eight main cities or you are in Tianyuan God City, all players who I found wearing the one-step ascent of the guild will be chased to the end by the Iron Brotherhood. “

“Snapped”

Lu Yang hung up the phone. At this stage, he no longer needs to play. Just now, the White Lion and Zhou Tianming also joined the battle and began to sweep the entire hostile player in the sky.

No one can leave this area alive. Even if there is, he will drop at least 5 levels. There are hundreds of resurrection points on the road from the main city of one step to the sky to the Korem Guild in Turkey. They want one by one. Resurrection, killed again and again to pass.

This slaughter can only end if at least billions of players have died. Now even if he wants to stop the battle, he can't stop it. Korean players, players from the Nine Stars Alliance, and players from India have gone crazy. Already.

Tu Feng accompany Lu Yang and said, “Boss, you asked me to monitor Liu Baicheng and his team. I monitored. The 10 heads of his team, 3 had problems, and 7 were fine.”

Lu Yang sighed long, gritted his teeth and said, “Keep watching, don't move for a while until there is no trial.”

The reason why he hated stepping up to the sky so much was mainly because he hated using his beauties to seduce his most loyal subordinates. If Liu Baicheng had a problem, it would trigger a series of chain reactions. Lu Yang didn't dare to think about it, and his annoyance was big.

Tu Feng knows what Lu Yang is afraid of. If there is a problem with Liu Baicheng, everyone who does not have problems will also be at risk. Everyone doubts everyone else around. One doubt can destroy a large number of people. This is a danger to the Iron Brotherhood. Extremely deep.

Tu Feng thought about it, and he sighed and said, “Boss, I don't know if I should say something.”

“What's the matter?” Lu Yang asked.

Tu Feng said, "Liu Baicheng's father just called me and said he wanted to ask you to go to his house. The old man said he would die soon and wanted to see you for the last time."

Lu Yang didn't know what to say anymore, but he smiled helplessly and said, "I guess this old man has found anything. Here you look. I'll go and see Liu Baicheng's father."

Tu Feng nodded.

Lu Yang sent a message to all the vice presidents, saying that he went out temporarily and quit the game. He said to the black and white standing next to him: "Come with me to Liu Baicheng's home."

Black and White immediately summoned his men and went to Liu Baicheng's home first. Lu Yang then brought Black and White to the door of Liu Baicheng's home.

The nanny at the door saw Lu Yang coming over. This time he recognized it and said respectfully, "Boss is good."

Lu Yang nodded and asked, "Is the old man alone at home?"

The babysitter nodded and said, "Liu Baicheng said there was a battle today, and he went back to the game. There is no one else in the family."

Hei Dao said, "After checking, only the old man is alone. He keeps mumbling and asking why you haven't come yet."

Lu Yang sighed and entered the room. In the bedroom, he saw Liu Baicheng's father lying there, with a look of remorse on his face.

"Boss, you, you are here." The old man saw Lu Yang and struggled to sit up.

Lu Yang came to the old man in two steps, helping him and said, "Lie down, talk down."

The old man shook his head vigorously and sat up with the help of the nanny. The nanny put a pillow on his back to make him comfortable.

The old man motioned for the babysitter to leave first, and when the babysitter went out, he looked at Lu Yang and burst into tears.

“Boss, our family Baicheng is sorry for you.” The old man cried.

Lu Yang understood that Liu Baicheng’s father obviously knew what Liu Baicheng was doing. He said, “Do you know anything?”

Liu Baicheng’s father struggled and said, “He is confused. He betrayed you for taking a step to the sky. He wanted to be with that woman named Qing’er. He was confused.”

Lu Yang asked, “How much do you know?”

Liu Baicheng’s father said, “I heard it inadvertently in the morning. He thought I was demented, but I was awake at that time. I heard everything he said. Go one step further and let him not expose himself. Go head-to-head and hide him behind. “

Lu Yang asked: “Who has Liu Baicheng’s men turned against, do you know?”

Liu Baicheng’s father shook his head blankly and said, “He didn’t say this.”

Lu Yang is most afraid of this. It is impossible to determine who else is the spy. The senior players in that legion will be abolished.

It is the so-called rut of the front car, the lesson of the rear car. Let’s talk about what happened in modern times. How can an iron-fisted female prime minister of a country be assassinated? Is it because of the two bodyguards he trusts most? ?

At that time, India severely suppressed domestic rebel nations. His two bodyguards belonged to that nation. At that time, many people advised her to resign the two bodyguards, but the female prime minister did not believe this because the two bodyguards followed. For ten years, what a strong friendship and trust, but this trust caused her to be shot dead by these two bodyguards.

In the face of betrayal, any friendship or loyalty is nonsense, which is nothing more than the fear and determination after the betrayal.

Lu Yang sighed and said, "Forget it, old man, you can rest."

Liu Baicheng's father grabbed Lu Yang's arm and cried and said, "Boss, I beg you, let go of my son. He is just confused, please let him go. I will pray to you in the underworld."

Lu Yang sighed, looked at the old man begging, thought again and again, and said, "Well, if he is willing to tell the truth, I will let him go."

"Thank you, boss, I must tell him." The old man panted sharply.

Lu Yang patted the old man's arm and turned to leave. What he couldn't stand was this atmosphere. It was obviously Liu Baicheng's mistake, but he asked his father to bear it.

"This Liu Baicheng is really a bastard." Lu Yang scolded angrily when he came downstairs.

He looked around in black and white, because it was a winter night, and no one was walking outside. He said to Lu Yang, "Boss, let's go back first. This matter is handled by Liu Baicheng and his father."

Lu Yang nodded and said, "Send someone to watch this Liu Baicheng, don't let him run away."

"Yes."

Lu Yang returned to the studio building and continued to work. In the game, Liu Baicheng was in a state of mixed feelings. He had just seen the news. He did not expect Pei Zicheng to take the initiative to

surrender. He also took out so much evidence and sent it in one step. When he was in prison, this latest news made him feel like he was sitting on a needle and he would like to quit the game immediately to find out.

But he didn't dare to go. If he left now, he would find Qing Er. The security forces under Lu Yang would find his whereabouts suspicious. He would even be held accountable, but he was worried about Qing Er's safety. The child also went to prison. What should he do and how should he protect Qing'er? This left his head full of confusion.

"Dididi"

The nanny's phone came from the intercom.

"What's the matter?" Liu Baicheng asked.

The babysitter said, "Your dad asked you to come back quickly. He said he was about to die and wanted to see you for the last time."

Liu Baicheng was startled and said quickly: "I'll go back now."

After sending a message to Xia Yuwei and the deputy head, he quit the game directly, ran to the elevator, and quickly came downstairs. In the dark night, he ran to the house, but when he got to the door, he stopped. Living.

He looked up at the house and looked outside. He knew that this was his only chance to run out and find out. If he missed this, a series of things behind his father would give him no chance. Go see Qing'er.

"If you don't see it now, I'm afraid you won't see Qing'er again." Liu Baicheng gritted his teeth, turned his head and ran to the studio door, getting farther and farther away from his home.

The black sword was hidden in the dark, watching the back of Liu Baicheng's mouth wide open in amazement. He never thought that Liu Baicheng would do such a thing with him.

“Brother Black and White, I need support. Liu Baicheng didn’t go home. He ran towards the door. It is estimated that he was looking for the woman named Qing’er.” Heihe said on the headset.

“I will send someone to support you, you continue to follow up and report the position at any time.” Black and White said.

“Yes.” Hei Dao ended the call and followed behind Liu Baicheng.

At this time, Liu Baicheng could not hear the footsteps behind him. There were only street lights and a few pedestrians on the road in the dark night. He ran madly into the gate outside the studio and was intercepted by the security guard.

“Who are you, what are you running around?” The security guard asked him.

“Qinger, where is Qinger?” Liu Baicheng shouted frantically.

“What a clear child, there are too many people here, I have never heard of this number.” Said the security guard.

“Xu Qinger, don’t you know Xu Qinger?” Liu Baicheng growled.

The security guard thought for a while and shook his head and said, “I don’t know, without this person, you go out quickly, don’t make trouble with us. Although the boss and the wife are arrested, they haven’t fallen down yet. Hurry up.”

Liu Baicheng wanted to go in, but was pushed out by several security guards. He saw that the door could not go in, and there was no news of Qing’er. He turned around and hit a car and rushed to the police station. But when he was on the road, he But I thought of a question. What if Zhang Hong stepped into the sky and offered him?

“I can’t go to the police station. Isn’t that a self-injection. I have to go, I have to go.” Liu Baicheng said to the driver, “Send me to this hotel, I will go there.”

The driver nodded and sent Liu Baicheng to the hotel, but he didn't know that after he entered the hotel, the black knife followed him in, and he couldn't run away at all.

Lu Yang knew about Liu Baicheng for the first time, but he didn't find the police station immediately, but called Wang Bin and asked, "Are there any results?"

Wang Bin shrugged his shoulders on the phone and said, "No result, Zhang Hong doesn't recognize anything. His men have already identified him. He still doesn't admit it, and only asks to speak to a lawyer."

Lu Yang sneered and said, "He doesn't recognize and is useless. What about Xu Qing'er, how is his question?"

"She's all recruited there, and Liu Baicheng's story has been said after 1510. I'm preparing to catch Liu Baicheng." Wang Bin said.

Lu Yang thought for a while and said, "Brother, give me one night. Liu Baicheng's father can't do it anymore. It's estimated that he won't be able to get through tonight. How can I let this boy give his father the last trip."

Wang Bin said with a smile: "Success, then I'll postpone it for a day. He is not guilty, and I don't think it will be long. You can speak well."

"Thank you very much." Lu Yang hung up the phone and said to Hei Dao, "Catch me back that boy, and see his father for the last look."

"Yes." The black knife rushed upstairs immediately, tricking the door of Liu Baicheng's room, and said, "Liu, your father can't do it anymore, why are you still opening the house here? Who are you looking for?"

Liu Baicheng looked at the black knife in a panic, and stuttered, "No, no one."

"Let's go then, and go home quickly," said Blackknife.

“Okay, good.” Liu Baicheng went out and was brought back to the studio by the black knife alone. The rest of the followers were pushed away by the black knife 200 meters away. It did not make Liu Baicheng see them, but it was also Liu Baicheng’s final dignity. Already.

Unfortunately, when Liu Baicheng returned home, his father had passed away, and because of a woman, he still did not see his father’s last face.

That night, Lu Yang arranged someone to help Liu Baicheng handle the funeral. On the next day, when Lu Yang came to Liu Baicheng’s house, unfortunately, no one came to help Liu Baicheng except Xia Yuwei.

“Why so cold?” Lu Yang looked at Tu Feng.

Tu Feng whispered in Lu Yang’s ear: “When he ran last night, he told everyone that his father was dying. He wanted to go back, but he ran out of the door. I went out, and all the guilds knew last night.

There was a Pei Zicheng who had made everybody hesitate. Liu Baicheng didn’t even see his father’s last side, but he had to run out. There was obviously a problem. Who would come? “

Xia Yuwei came over, sighed and said, “No one is stupid, this situation is normal.”

Lu Yang asked: “Where is Liu Baicheng?”

“His dad is kneeling in the room.” Xia Yuwei said.

“Have you asked him?” Lu Yang asked.

Xia Yuwei shook her head and said, “I didn’t ask anything, but he seemed to know everything.”

“No longer knowing is a fool.” Lu Yang said resentfully: “The Blackknife brought him back last night. How did the Blackknife know where he lived? No one was following him.”

Lu Yang walked straight to Liu Baicheng's room, opened the door, and just saw Liu Baicheng kneeling in front of his father's photo.

"Boss, you're here." Liu Baicheng's eyes showed a look of fear.

"It's time to do it." Lu Yang didn't know what to ask, so he just asked.

Liu Baicheng didn't get up either, so he knelt on and turned to Lu Yang, nodded and said, "Thank you for sending me someone to help me. It's all done."

After helping Liu Baicheng, the helper reported to Tu Feng overnight, fearing that something should not be touched, Tu Feng immediately reported the incident to Lu Yang.

Lu Yang asked, "Do you have any help?"

"No Thank you, boss." Liu Baicheng said.

Lu Yang wanted to say, but didn't know how to say it. He wanted to scold Liu Baicheng, but his father had just died, and he pointed helplessly at Liu Baicheng and said, "Why so confused."

Hearing Lu Yang's words, Liu Baicheng was sitting on the ground as if he had drained his last strength, as if he had drained a balloon. He did not dare to look at Lu Yang, and said in tears: "I'm sorry."

Lu Yang was even more angry when he heard this sentence, pointing at his father's photo and saying, "Are you worthy of your dad, if not your dad begging me, you are now in prison."

"My dad, please?" Liu Baicheng looked up in surprise.

Lu Yang didn't bother to talk to him, and said in black and white: "Yesterday your dad called Tu Feng and brought the boss over, and begged the boss to let you go."

“Father.” Liu Baicheng froze, crying and crashing.

Chapter 1203 - New news

Before the old man died, he still had to ask for his son. Anyone who saw it was uncomfortable.

Lu Yang said to Liu Baicheng: “Let’s go to the Public Security Bureau.”

“Boss, I.” Liu Baicheng still wanted to say something, but in the end he kept his head silent and said, “I’ll go with you. What I’ve made wrong, I’ll pay it back.”

Lu Yang shook his head, took him personally to the city bureau, and entered the detention center. Liu Baicheng looked at Tao Yunfei with a lonely look and said, “I did everything and had nothing to do with other people.”

Tao Yunfei laughed and said sarcastically, “What are you doing, what can you do? Look at this and talk again, but also want to take responsibility for Xu Qinger?”

The next person opened the video. The above was Xu Qinger’s video recording. She explained in detail how she approached Liu Baicheng in accordance with Zhang Hong’s order, and that she was Zhang Hong’s mistress.

Liu Baicheng was so shocked that the woman he always admired turned out to be this way. He couldn’t accept it. Tao Yunfei saw the situation and knew that the person would not speak for a while. He went to the outside reception room and found Lu Yang.

“How?” Lu Yang asked immediately when he saw Tao Yunfei.

Tao Yunfei shrugged his shoulders and said, "The blow was too big, and it's estimated that it won't be able to respond in a short while."

Lu Yang sighed, didn't speak, and he didn't know what to say. It was all his own mistake, and he didn't want to carry it, but also carried it.

"Don't worry, most of you are small children, it is normal to not be attracted by such a woman, let alone him, I have seen such cases a lot." Tao Yunfei advised Lu Yangdao.

Lu Yang sighed and said, "This Zhang Hong is really unethical. I will never let him go."

After all, it was Zhang Hong's ghost. Lu Yang picked up the phone and called Qi Yun, asking, "When will the lawyer arrive?"

"I arrived on time at 1 pm, all the information is complete, and I can start the legal process at any time." Qi Yun said.

"Okay, let him sue Zhang Hong to me. When I want to get him out of prison, he will carry tens of millions of debts and go back to prison." Lu Yang said.

"Yes," Qi Yun said.

Lu Yang hung up the phone, and Tao Yunfei asked curiously: "We will bring a prosecution here, and you don't need to do anything more."

Lu Yang sneered and said, "I sue him for business, and it has nothing to do with you."

Tao Yunfei shrugged his shoulders.

A police officer came out and said to Tao Yunfei, "Liu Baicheng recruited, saying that a total of 3 people were bought by him."

Lu Yang heard the names of the three, and only one of them was on their previous suspect list, while the other two were not.

“This bastard,” Lu Yang scolded.

Obviously, either Liu Baicheng lied, or two other people were too close to Tao Yunfei, but no matter what, the other two were offered by Tao Yunfei, and they had to be dismissed if they had actual evidence. The confession must also be fired.

This is not a matter of one or two, but five families, which also involves their subordinates and people who have a good relationship with them, will be implicated in the future.

“Let’s go, let’s go back,” Lu Yang said.

Black and white nodded, and the group returned to the studio with Lu Yang.

Lu Yang returned to the 33rd floor and put on a helmet to enter the game. The light flashed. He appeared in Tianyuan God City, took out the teleportation scepter, and flew outside the city of Wuyue City.

At this time, hundreds of thousands of players in the Jagged Brothers League are storming around a hill, and scenes like this can be seen outside the main cities in the area where they climb to the sky.

One step up to the sky after losing the battle last night, he was unwilling to lose the main city. Although he was run away by the Brotherhood of Iron and Blood, there were still people who wanted to challenge.

“Boss, are you here?” White Lion said excitedly.

“How’s it going?” Lu Yang asked.

The white lion gritted his teeth and said, "I dared to attack us, and I was blocked here, and I was going to kill them to the Moon City of Kerim."

Moon City, Kerim and the nearest main city of Tianji City, one hour away from Tianji City.

At present, the overall strategy of the Jagged Brothers Alliance is to kill all of the men who stepped into the sky to the main cities near Kerim, Richard, and the Blood Butcher, and force the three of Kerem to take over the remaining soldiers. confusion.

The White Lion is driving people to the Moon City, Zhou Tianming is driving people to the main city of the African star in Richard, and Tian Yao is driving people to the Duke of Blood Slayer.

"Boss, are you sure you want to fight a hard battle with these three guilds within two days of this week?" The White Lion asked.

Lu Yang said: "It's a rare opportunity. Germany and France can't come here. Only these three are our best opportunities. If we can, we will bring people into any of the cities of Moon City, Duke City or the main city of Star of Africa. One can be the base, in order to kill these three guilds in the next two weeks."
"

The White Lion nodded and said, "There should be no problem."

The light flashed.

Tu Feng appeared beside Lu Yang and said, "Boss, something happened."

"How?" Lu Yang asked frowning.

Tu Feng said: "Just got news, Kerim, Richard and Blood Butcher, the three of them, formed a federation with the following five countries: India, Indonesia, Bangladesh, Brazil and Mexico."

"What?" Lu Yang was furious and asked, "Specifically, what is going on?"

Tu Feng sighed and said, "My news is limited, but the conclusion is that last night after they retired from Kerim they must have consulted with the five Indian super associations, and they convinced the five countries. Formed this federation.

This union guild is not an alliance guild in the ordinary sense, but all the resources in the hands of eight of them have been turned into shares. Ultimately, the eight people obtained their respective shares according to their strengths and merged them. That is to say, they are now a family. The company is up, and all up and down. "

"It's over." Lu Yang sighed and said with a smile: "It's not easy to get it right now, how can you force them to merge?"

Tu Feng said: "The combined eight guilds have a total population of more than 500 million players, more than us. There are more than 20 million combat players, and we have encountered a rival."

Originally, these 8 guilds each had about 3 million combat players. Now combined, there have been more than 20 million combat personnel. Although the number of truly capable personnel will not be so large, if the actual outbreak is decisive. The number of people they can join in the battle will be unimaginable.

Tu Feng said, "Besides, there is another news."

"What news?" Lu Yang asked.

Chapter 1204 - The final battle of the Heavenly Guild

Tu Feng said: "The other five countries are mobilizing players and sending 200,000 players each to Moon City, Africa Star and Duke City."

The white lion angered, "Boss, they are demonstrating."

Lu Yang smiled and said, "It's not a demonstration, it's a show of weakness. In the final analysis, they dare not take part in the war immediately, it's nothing more than a clear stand. As long as we don't fight the three of them, they won't fight us."

Otherwise, the enemies will not come this way, but they will be out of their nests. In this way, Lu Yang will not be fun. Fortunately, these people throw their jealousy on themselves.

Tu Feng asked, "What do we do now?"

"Meet all the deputy chairmen of the battle." Lu Yang opened a special space and said, "I'll wait for them in the conference room."

"Yes." Tu Feng immediately sent a message to the vice chairmen of each battle.

The light flashed.

Lu Yang appeared in the conference room of the special space simulation. He just sat down and flashed the light. All the vice-chairmen including Karp and Li Wenxing joined it.

"Boss, what's wrong?" Asked bitterly for a long time.

Lu Yang looked at Tu Feng and said, "You briefly say."

Tu Feng nodded, united the eight nations, and said about the troop dispatch.

People who were bitter in love for a long time, Zhou Tianming, and others were surprised, and looked at Lu Yang after discussing each other.

"Boss, I don't recommend fighting with them at this time, it's better to take this opportunity to step up the level and equipment." Xia Yuwei said.

“I have the same idea.” Lu Yang opened three map projection screens on the desktop, and said, “We set a limit to the Moluo River as a boundary. Anyone who kills the past one step to the sky will no longer hunt.”

“Yes.” Xia Yuwei and others nodded.

Lu Yang was about to let them all leave. Suddenly, the intercom rang and Wang Bin called.

“Brother, I took the initiative to explain everything in one step. My detention period is over. I can’t force the detention of more than 200 people.” Wang Bin said apologetically, after all, he said it was 15 days.

Lu Yang said with a smile: “Thank Wang, this is enough. Follow your rules and let the more than 200 people come out.”

“Thank you for your understanding.” Wang Bin breathed a sigh of relief and said, “Let people go.”

Municipal bureau, detention room.

More than 200 people were released under the supervision of police officers.

“You are optimistic about your items and sign back without any problems.” Tao Yunfei said.

The three main vice-chairmen of Deng Tian stepped into the sky and looked at each other.

“Tao team, we want to see Zhang Hong.” Pili Sword said.

Tao Yunfei looked at him squintingly, and said, “No, he is an important suspect now and can’t meet outsiders.”

“But we can’t see him, our guild is about to die.” Ghostly said with no trace of anger.

Tao Yunfei stared, and scolded: "Who do you talk to, he violated the national law, you know, quickly pack up and leave."

Yanlong Wushuang pulled the ghost charm and said, "Let's go back to the studio first, go back to the game and see if there is any hope."

"Don't go wrong with the studio. As long as the studio is still there, we can ..." The ghost stopped and he looked desperately at Yanlong Wushuang.

"What's wrong?" Yan Long Wushuang asked.

"Oh, we have no chance, the boss can't come out, we haven't seen him, and the company's finances haven't been released, which means we can't pay wages this month, without salary, who can we gather together.

Yanlong Wushuang and Thunderbolt stayed in horror.

"Don't say that, go back and look at it first." Yan Long Wushuang said helplessly.

The three gathered more than 200 people around. Several people took a taxi together and came to the studio door. Looking at the building with the same appearance, they were relieved that more than 200 people were in the heart. When they entered the building, At that time, I found that there were more than two thirds of the staff here.

"What about people? People?" Roared ghostly.

Le Fei, Jiu Yao Xing Xuan and other heads came over and looked at the ghosts and others. Le Feisi said: "Most of them have left."

"Leave?" Ghost asked indiscriminately.

“What the **** happened?” Thunderbolt asked.

Lefeisi said: “Just yesterday afternoon, Lu Yang led the Brotherhood of Iron and Blood to launch a general offensive against us. You are not here. We cannot organize effective resistance. We have now been completely defeated and all eight main cities have been lost.”

Just as Lefeisi answered the questions, Zhang Hong’s lawyer told Zhang Hong what happened in the game.

“Lu Yang, I will never let you go, and I will never let you go.” Zhang Hong smashed at the table and scolded. This was all his hard work, and was even ruined by Lu Yang.

“Wait for me, wait for me to go out, I must find you revenge, revenge.” Zhang Hong roared again and again, unfortunately, no one ignored him, after all he bought a bill for the wrong he did, or a sentence Five-year bill.

The lawyer said: “Don’t swear, all you have to do now is tell me how to deal with the follow-up things, and in a little more time, your guild will have nothing.”

Zhang Hong responded and said, “Yes, yes, I have to deal with this matter quickly. You immediately call the Perak Swordsmen and let them gather all the people who can gather. Be sure to fight back for a main city. Absolutely. You can’t let Lu Yang take all of my main city, then I won’t have any use value.”

The lawyer went outside and called Perak Sword. At this time, the Deputy Chairman and Legion Leader of the Perak Sword and others had entered the game and were using their respective prestige to gather players. Although they could not be determined in one step, they still had to do their best. s hard work.

“You tell me the boss We will fight back with all our strength,” said Thunderbolt.

As usual, he would say that he must grab a main city to invite merit, but this time he knew that everything was meaningless. He contacted the three Kerim, and he was definitely not there to help. Only them In the case of people, there is no chance of winning in the face of the Jagged Brotherhood.

Heavenly City.

Tu Feng got the information that the Thunderbolt Sword and others gathered the players to counterattack for the first time. He immediately called to report to Lu Yang.

“On the north bank of the Moluo River, the enemy is gathering?” Lu Yang asked.

Tu Feng said: “Yes, the vice presidents such as Perak Swords and Yan Long Wushuang are preparing to launch an attack. At present, more than 300,000 people have been assembled.”

Lu Yang laughed and said, “White Lion, Cap, and Li Wenxing each took 300,000 people and followed me to the north bank of the Moluo River. We will meet this thunderbolt.”

“Yes.” The three looked sneer.

Chapter 1205 - Battle of Moro River

The North Bank of the Moluo River.

The thunderbolt stood on a 2-meter-high soil slope, and watched the gathered men solemnly. At present, nearly 600,000 people have gathered, but this has reached a limit, and other players are either surrounded by Nowhere else could come, or the slain had lost confidence in the guild and was reluctant to return.

“These people are not enough. Don’t say that you will lay down a main city. Even if you do, you will not be able to defend.” Yan Long Wushuang said.

Ghost said: "I know, but we only have such a few people now, what to do if we don't fight?"

Thunderbolt said: "Korim has made it clear that they will not provide us with any kind of assistance, and we are strictly forbidden to cross the Moro River. We will not fight."

"Fuck." Ghostly cursed: "It wasn't the boss organization ..."

The thunderbolt was stopped by the thunderbolt and said, "Do n't mention those things, think about what to do first. We will find a way to gather these 600,000 players in the next period, and we will fight Luyang. Simple things. "

Ghost asked in surprise: "Do you want to keep them together for a long time?"

Perak nodded and said, "It's not easy to gather these people. If they disperse, it will be almost impossible to gather them in the future."

Ghost charm and Yan Long both bowed their heads in thought, but at this moment, there was a cold hum around the thunderbolts.

"I still want to gather for a long time. I can't let you all go through today." Lu Yang's three-dimensional picture suddenly appeared 5 meters in front of the three.

"Lu Yang?" Thunderbolt quickly protected himself, asking: "Who is around, give me out."

Han Fei slowly revealed his body 10 meters away from the Perak Sword. He looked at the Perak Sword with a sneer and said, "Don't look at me, I'm talking to you who is in the screen."

The three looked at Lu Yang's three-dimensional projection.

Ghost roared: "Lu Yang, you shameless villain, you use a wicked trick."

Lu Yang asked: "Did I design a trap to hurt my men, Pei Zicheng? Or was Xu Qinger whom I was looking to frame my men, Liu Baicheng?"

He said more and more angry, pointing at ghosts and other people in a cold voice, "None of you can run away, I want you to get out of this game."

"It's up to you? You don't have this qualification yet." Yan Long Wushuang asked with a sneer.

"Really?" Lu Yang said with a cold hum. "Look around you."

"Woo ~~!"

"Woo ~~!"

...

The low trumpet sound came from all directions. Yanlong Wushuang and others looked around. Including the south bank of the Moluo River, a large number of iron brother brother alliance players appeared in four directions at the same time. Karp, Li Wenxing and the rushing rush came with pride.

"No, we are surrounded."

"It's the main force of the Jagged Brotherhood."

"Damn, Bai Xiong is here too."

...

Seeing the three males of the Bai Family, Karp, and Li Wenxing, all of the men who stepped up to the sky understand that the main force of the Brotherhood of Iron Blood is coming, not to mention that the

players they lead are so full of fighting spirit, this is an annual battle. Only the performance of that, the fierce expression, let the one step ascendant know what to do.

“Damn it, fight with them.” Ghost roared and went to the whole team ahead.

“No, I can’t fight.” The thunderbolt quickly arrested Ghost, and said angrily, “We are still fighting the whole team. There is no reasonable allocation of personnel. The standing team does not follow the formation of the legion. We also have our potions and equipment. No supply is complete, what are you shouting. “

“What to do, these are all people in all directions, the other party will soon be assembled, and when their team finishes the offensive, we will have a dead end.” Ghost charm shouted.

“Don’t worry, I try.” Thunderbolt turned his head to look at Karp, yelling: “Carp, you Indian scum, don’t want to help Indian players, but actually help Luyang, a Chinese person, are you? Forget the hatred of the two nations? “

Karp froze, and immediately became happy, and said to his men, “This second goods, even want to leave us.”

“Stupid, this is a game, not a war. The confrontation between nations is a national matter. This is just a game. Now, we are just a staff member of the branch company of Lu Yang.” Horn continued: “Can it be achieved, are all Indians working in Huaxia companies scum and traitors?”

Thunderbolt dumbfounded. This was a way he thought of how to disintegrate Lu Yang’s men in the prison, but originally he wanted to send people to penetrate slowly, but he shouted out helplessly today, but he did not expect a few in front of him. The Indian vice chairman actually understood the relationship between them and Lu Yang in this way, and for a while did not know what to say.

Karpo snorted and said, “It is Lu Yang who helped us get rid of the caste’s plight. We can make money in the game and live the life we want. Haha, do you think that two words can make us betray Lu Yang? joke.”

The thunderbolt was silent. At this moment, a clear phoenix sounded in the sky, and a fire phoenix more than 50 meters long flew over the camps of Kapu and Padu.

“Is the boss?”

“He’s in our camp?”

“He’s not afraid of being attacked?”

...

A group of ordinary players under Carp looked at Lu Yang in the sky in surprise. Even though Lu Yang had conquered them for half a year, they still had a problem with Lu Yang. After all, they were so fierce at first, many of them wanted to sneak in Lu Yang.

But now, Lu Yang is on top of them. If they want to attack, they can fight at any time. They can’t understand. Why did Lu Yang do this?

“Boss.” Both Karp and Padu were so excited in their hearts that it was difficult to express in words. Lu Yang was willing to fly above their heads in the form of a flight. This is how much trust, if Lu Yang is taken by his men set fire to kill, the heart of the demon **** worth hundreds of millions will disappear, this is a 300,000 troops, was stolen in the chaos, who knows who did it.

“Boss, please come forward.” Padu shouted loudly.

Lu Yang looked down at Padu and said nothing, still standing at the center of 300,000 Indian players. He raised his head to look at the thunderbolt in the distance, using a large horn and said, “Don’t try to destroy it with such despicable means. Relationship between me and Indian players.

This is a game and our life. We are all ordinary people. We love games and strive to make ourselves better. We have parents, some wives, and some children. What they want to do is here. The game strives to make money and support the family, instead of paying the entire family for a word of nothingness. “

Chapter 1206 - G8 appears

How Master Zuo Zongtang regained his lost ground back then was relying on trust and stability. Lu Yang can give these things as well. In today's peaceful environment, no one wants war, but only how to live a better life.

There is an old saying, who would eat a war if they could have a bite to eat?

Lu Yang doesn't believe that with his own prestige, Indian players cannot play games with peace of mind and don't think about messy things.

He was betting. Looking at him, Patou and Karp and others understood Lu Yang's thoughts very well, but they did not expect Lu Yang to bet this thoroughly.

1 minute

2 minutes

...

5 minutes

The Indian players under Lu Yang all watched him swim back and forth in the Indian area. If anyone wanted to kill him, when Lu Yang flew over them, he would be violently attacked by a group of people, but Lu Yang flew three laps. None hit Lu Yang.

Karp saw here, knowing that the time was ripe, he shouted the slogan he had wanted to shout: "For the company, for the family, for the future, destroy the enemy."

"For the company, kill ~!"

“For family and future, kill ~!”

...

More than 300,000 Indian players are crazy, and their eyes are red, and they are desperate to attack the men who stepped into the sky. The momentum is like the tiger descending and the tsunami coming.

“I will wipe it.” The White Lion was dumbfounded. For the first time, he found that the Indian players had the same momentum as those of the Brotherhood of the Jagged Brothers. The limelight, Jagged Brothers League, kill ~! “

As soon as the White Lion waved, 300,000 iron-blood brother league players killed red eyes, launched a group charge, and 300,000 rushed towards the enemy.

“I Korean players can’t let people look flat, for the company, attack.” Li Wenxing shouted.

With pride, he saw that all three parties had attacked, and his eyes became red on the spot. He was about to give an order, but saw Lu Yang flying over.

“Boss, I’m going to attack now.” Pride felt that Lu Yang was asking why he didn’t fight.

Lu Yang said: “Don’t worry, you and your men don’t attack for the time being, stay here to defend the south side of the Moluo River, and watch out for enemy attacks.”

“Ah? Oh.” Lost in pride.

Just now Lu Yang received the news that the Indian side was led by Salon and Karina, formerly Dragon Dragons, and five deputy chairmen of the G8, each of whom had 200,000 people. A total of 1.2 million people were approaching them quickly.

Lu Yang speculated that this group of people wanted to fight with him, and gave him an Indian player after taking the lead.

None of these Indian players Lu Yang can let go, not because of how powerful these people are, but once they have opened the mouth, they do not know how many Indian players want to betray and surrender. This suspicion will make players in the entire Indian region against iron blood. The loss of confidence in the Brotherhood will also cause Karp and Patho to have other ideas.

The slogan that I just shouted for the company was conceived by the senior officials of the guilds, such as Lu Yang, Padu, and Tianlong, based on the characteristics of India. What are the characteristics of this country in India? One word, poor!

Lu Yang used their poverty to win over Indian players. Do n't you have no money? As long as you work for the company, the company will lead you to become rich. How many 130-level dark gold equipment was fought in this war. One is on the market. Can sell hundreds of credits to thousands of credits.

Almost everyone can get a lot of money at the end of this battle. It may not be high for Huaxia, but it is very much for them, enough for their family to live for a long time.

With the benefits, there must be a good name. This name is for the company. What Lu Yang wants to tell them is that they are not fighting for Lu Yang. They are not fighting for a Huaxia man. They are for a company. Give them practical benefits, and let the good family that the family has gone through to fight, that's enough!

Lu Yang sneered and looked at the court. Most of his steps to the sky were defeated by Indian players. 600,000 people were in front of the Brotherhood of Iron Blood, but it was just a mess of mud, which could be easily destroyed at any time.

"Don't chase the remaining enemies, our new enemies are coming, everyone is a whole team." Lu Yang said.

"Yes."

"Yes."

“Yes.”

Karp, Li Wenxing and the White Lion let go of those fleeing escapes, and instead came to Lu Yang to gather together. Along the Moruo River, 900,000 people formed three huge square arrays. distinct.

“Woo ~~~”

“Woo ~~~”

“Woo ~~~”

...

The formation has just stood still, and a loud horn sounded on the south bank of the Moluo River, followed by the sound of ground vibration caused by thousands of troops.

“The whole army defends along the river,” Lu Yang shouted using a loudspeaker.

Countless shooters and mages immediately came out of the White Lion, Karp, and Li Wenxing camps. The river width of the Moro River was only 50 meters, which was just at the edge of the mage’s attack range, and the shooter could extend to a position 20 meters across the shore.

As for the lofty sentiments, Lu Yang asked him to use all the legions. During the whole team, 100,000 people detoured to the upper reaches of the Moruo River, from there they passed the Moruo River and entered the south bank of the Moruo River. A profound lesson for the group.

The south bank of the Moluo River.

On the endless green grass plain, hundreds of thousands of players have rushed over, and their clothes and equipment are neatly dressed. They are all dark gold sets of level 130. The gems and enchantments are unified. Obviously, they have an elite fighting force. Player group.

The first row of the team stopped at a position 30 meters away from the Moro River. They consisted of shield battles, shooters, priests and mages, and each stood with a large shield. A group of shooters, priests and mages.

At a glance, Lu Yang could see that the enemy was fighting against himself along the river, especially since the beginning of their 20th row. Behind him was the holy knight class holding a two-handed sword. The transferred templar knight had invincibility. And punishment angel two powerful breakthrough skills.

“I really want to fight me.” Lu Yang murmured with a grin.

Karp said: “Boss, the number of enemy troops is not right. If there are more than 1 million people, there will only be more than 600,000, which is 600,000 people.”

Lu Yang nodded and said, “It looks like they have an idea to sneak in on us from the flanks. You take 200,000 people to the left, put up a defensive formation, and pit them once.”

“Yes.” Karp turned away, and Padu and Ba Qiang stayed beside Lu Yang.

Lu Yang dared to determine that the enemy came from the downstream rather than the upstream, because the lofty sentiments had passed the upstream of the Moluo River and entered the south bank of the Moluo River.

Chapter 1207 - Xia mawei

He told Li Wenxing: “Send 100,000 people to form an assault position and prepare for a frontal attack.”

“Yes.” Li Wenxing immediately turned back and prepared to go.

The White Lion looked at Lu Yang in surprise. So far, Lu Yang’s orders were mostly given to foreigners, but none of his men did not move.

“Boss, should I prepare?” The White Lion asked.

Lu Yang knew the meaning of the White Lion, and he was afraid that Carp’s men would rebel.

“No need, I believe that Karp and Paddu have worked hard in the past six months.” Lu Yang said.

Patho and Ba Qiang and others looked at Lu Yang for a while. Lu Yang stepped on the battlefield and went wrong step by step. At this time, Lu Yang dared to believe that Patho and Baqiang were worth it. .

“Woo ~~~~~!” The melodious and low-pitched horn sounded, and in the position formed by the south bank of the Moluo River, six channels were slowly let out.

Six players in various national fashions came to the south bank of the Moluo River and faced Lu Yang across the river. One of them carried a musket on his shoulder. The player in a suit held the decorative musket on his shoulder and lazily raised his head. Squinting his eyes to Lu Yang, he said, “You are Lu Yang?”

Lu Yang knew that this man was the former vice president of the Mexican Zealot Association, Anthony. He ignored the man, because, like the black blood, this man was scum.

“Chairman Lu Yang, next is the vice president of the Brazilian Feast Guild, Leite.” A player with angel wings on his back smiled at Lu Yang.

Lu Yang’s eyes tightened. He knew that his opponent had appeared, and the professional air angel, the strongest in close combat in the air, finally appeared. Think about it, it was no surprise that the last life appeared in Brazil.

The third is an elegant woman wearing a black and white long skirt with a beautiful long hair. He said to Lu Yang with a smile: "Mr. Lu Yang, I am the vice president of the Bangladesh Paradise Association. Accept. "

Lu Yang's last life had some impressions on this woman, but it was not very deep, as if she had done a big thing, which caused a big problem in the paradise guild of Bangladesh.

The fourth person was an old acquaintance of Lu Yang. With a smirk on his face, Salman held a sword and said to Lu Yang across the river: "Long time, Chairman Lu Yang."

The fifth man, wearing a dark golden suit, with his arms wide open and wearing sunglasses, said immediately, "Chairman Lu Yang, I'm Amitabh, vice president of the Indian Deities Association."

Lu Yang still did not speak, a defeated general, a vice president of a small guild, what qualifications to speak to him alone.

The sixth is an orc, wearing a battle armor and holding a big sword and pointing at Landing Yang. "Remember me, my name is Alter, the vice chairman of the Indonesian Aqua Emperor's Association."

Lu Yang shrugged and said, "What's the matter?"

Six people looked at each other, Ratner stood up and said to Lu Yang, "Chairman Lu Yang, we have no other meaning, just want to come and see the world-famous President Lu Yang and his blood brotherhood. What a guild. "

Lu Yang smiled and said, "Just look?"

"What? President Lu Yang, are you still afraid to watch?" Amitabh asked in a mockery.

"I'm not you, why do you want people to watch?" Lu Yang asked, an Indonesian monkey, what qualifications are there to make noise with him here.

Amitabbe immediately knew what Lu Yang meant. He angrily pointed out that the landing masculine was going to swear, but was held by Leiter next to him, whispering: "Don't worry, our deployment is not complete."

Anthony stared at Luyang Yang and took two steps forward. He pointed at Luyang Yang with a gun and said, "We are here today to tell you that from today on, the Mora River is the boundary. You must not step over."

"You're old." Lu Yang asked.

Anthony just felt that what he was saying was cool, but he was slapped by Lu Yang within a second. He looked back at Reit, just to see Reit nodded at him.

Anthony smiled and said, "Lu Yang, we are here to tell you, starting today, our eight guilds will be merged into one guild, collectively called the Bafang Group. If you dare to use Krim again, we will fight you together. Launch an attack. "

Lu Yang looked at the Anthony and a few of them with a mocking smile on his face, and said, "Are you still not qualified enough for negotiations? Can you represent the respective presidents? What do a group of people pretend to negotiate with me instead of the presidents? It's funny. "

He secretly sent a message to Karp, asking, "How is the ambush downstream?"

Karp replied: "Our space-time thief has found a large enemy force, about 600,000 people, walking slowly towards our flanks in the forest. I am flanking the road they must pass through the plains outside the forest of Moka There are a lot of traps preset on it, enough to disrupt their deployment. "

"Very good, you just need to defend it. Don't launch an attack. This time I will kill them on the front and defend the flanks. You stand up." Lu Yang said.

"Yes." Karp replied loudly. Although he only had 200,000 people and wanted to defend 600,000 people in front, he had no fear at all. Because of the special terrain, the fighting power that could be launched here was only about 50,000 people. He has a good defense and can definitely handle it.

Anthony and Reit looked at each other.

“The 600,000 people in the lower reaches have passed through the Moro River and are gathering in the forest of Moka, and now they can launch an attack,” said Leite.

Anthony said to Reit with a smile: “I know that your kid is a top-notch genius, and you have really succeeded. Okay, I’ll go to the lower reaches to lead the army to Lu Yang, and you’ll have a frontal defense.”

Lette shook his head and said, “No, you were too conspicuous just now, and you used your gun to land on the sun. If you disappear, it will definitely make the other side doubtful.”

“Who’s going then?” Anthony asked.

Lette pointed to Alter and said, “You and Salman go to If the raid succeeds, Salman will be responsible for stopping Indian players, even if they can’t persuade them, they will not be allowed to launch an attack.”

“No problem,” Salman said.

Lei Tongren said, “I’ll take care of holding Lu Yang.”

Salman and Arte turned back and returned to the battlefield. Then the two men flew downstream using the teleportation scepter. In many army formations, such operations would not be discovered at all.

Lu Yang has been staring at these six people and found that Alt and Salman turned and left, he knew that the opposite was ready to launch an attack, and he secretly sent a message to the lofty and passionate: “The attack was launched after 5 minutes, and I was on the front Attack, you are responsible for hitting their third echelon, don’t skimp on the scrolls. “

“Yes.” Said with pride, he has taken 100,000 people to a position only 5 minutes away from the enemy army.

This position is 5 minutes for them, but more than 15 minutes for others, because they are crazy wolf warriors, with a limit of 650% movement speed.

Chapter 1208 - Battle of Moro River

Lu Yang said to the white lions and others around him: "Everyone is ready to attack, listen to my orders."

"Yes." White Lion, Li Wenxing and others immediately released a message in private, and for a time, the player status of the entire Iron Blood Brothers Alliance was raised to a level.

Lette felt the opposite, looking at Lu Yang and hundreds of thousands of Jagged Brothers players, he frowned and said to Lu Yang, "President Lu Yang, what do you mean, do you want to start a war?"

Lu Yang sneered and said, "Aren't you here to fight?"

Lette wasn't ready yet, and said, "Of course not, we're just warning you not to cross this Mo Luo river."

Lu Yang laughed and said, "I'm sorry, but I'm not here to listen to your warning, Jagged Brothers, attack."

Heiyan roared, pointing his staff to the middle of the enemy's position.

"Icy Roar"

"Meteor Fire Rain"

"Space-Time Cutting"

...

In the area of 80 to 280 meters behind the front row of the opponent's position, nearly 1,000 secondary forbidden spells fell simultaneously. For a time, the enemy's middle area was chaotic.

"Damn, they were attacked first." Wright yelled, "Courtesy attack."

"Kill ~!" Anthony roared, and the front row of defenses opened up a passageway at the same time. The Templars and the Punishment knights holding the two-handed swords quickly rushed out of the position and launched an attack on the Iron Blood Brothers across the river.

The mages and shooters under the protection of the war have released their skills towards the side of Landing Sun, and the side of the Brotherhood of Iron Blood is not inferior. The two sides conduct magic and bow and arrow shooting across the Mo Luo River.

Lu Yang watched the opponent's paladin rush into the river and shouted to the white lion beside him: "Order the Druid to release the big thorns."

The White Lion immediately issued an order. A large number of thorns and waterweeds suddenly appeared in the water of the Moruo River in front of the two army formations. The Paladin, who was launching the charge, was immediately entangled in the waterweeds.

"Invincible"

"Free Aura"

...

Invincible thorns are ineffective. Only the aura of freedom can restrain the large thorns. For a time, only Templars and Punishers can cross the river.

"White wolf, break the shield." Lu Yang ordered.

“Good grin.” The white wolf suddenly sounded the horn, and the violent battles ambushing behind the first row of defenses revealed their figures, each holding a giant spear in their hands.

“Broken Strike”

The large lens zoomed out. At this moment, the north bank of the Moluo River almost shot out a row of spears spreading along the entire bank of the Moluo River.

The first batch of Paladins rushed ashore by Anthony were all broken and dumbfounded.

“Second team, a broken blow,” shouted White Wolf.

The second row of violent battle came forward, the giant spear in his hand flew out with a whistling sound, and fell into the second row of the enemy’s paladin camp with an arc, and it was a shattered shield.

Lu Yang said to Li Wenxing next to him: “Yes, the whole army will attack.”

Li Wenxing raised his two-handed sword and yelled, “Iron brothers, attack ~!”

300,000 players under Li Wenxing rushed out of the camp and ran towards the opposite bank of the river. The paladin who crossed the river under Anthony’s attack was like a flat boat under the storm of the Brotherhood of Iron Blood, and was instantly drowned without a shadow. trace.

For the first time, Wright saw the attack of the Brotherhood of the Jagged Brothers, they did not expect that the Brotherhood of the Jagged Brothers was so fierce, and the frontal battlefield fell into a state of strife.

“Damn, if our special army was here, how could this happen.” Wright scolded.

“It’s not the time to discuss this, why our sneak attack troops haven’t started offensively,” Ratner asked.

Lower Moluo River, north shore.

Salman and Arte were stunned watching Indian players in the defensive formation outside the forest.

“Damn, Lu Yang found our sneak attack.” Salman cursed.

Ratner signaled Salman to look forward and said: “The opponents are all Indian players, and it is just that you are playing.”

Salman nodded, he walked out of the forest, step by step to the position 50 meters in front of the Indian player, just as he saw Karp.

“Kapu, you are still working for Lu Yang, I really misunderstood you.” Salman yelled at Kapu angrily.

Karp guessed that Salman would talk about this. He sneered and said, “Go away, one more nonsense, I will kill you.”

“You.” Karp was stunned and didn’t know what to do. Suddenly, he looked at the player behind Karp and said with an emotional voice: “My Indian brothers, don’t give up for that Chinese man anymore. You are Indians and descendants of God, and you should be independent. “

As soon as Carp raised his hand, thousands of bows and arrows and countless magics fired at the same time, and the scared Salman quickly threw away the escape dagger and ran to a distance of 100 meters.

“Damn, you are all Indians, why should you kill the Chinese people?” Salman roared.

Karp sneered and shouted, “For the company, defense.”

“Ha ~!” 200,000 people roared neatly.

Salman was dumbfounded and murmured, “For ... the company?”

Karp said: "For the sake of all Indians, today you can save your life, get out of your own hands, don't force me to do it, there are 500,000 people behind me, and they will be clothed half an hour before you come Defensive. "

"Why ... what?" Karp and Arte looked surprised.

"How come you have so many people?" Salman asked.

Karp said: "Iron Brothers counts us, there are more than 20 million players who can fight what else do you fight with us, I can not understand."

"Damn, he must have lied to us. Lu Yang can't have so many people. We should fight once." Art said.

Salman hesitated, saying, "Lu Yang really has this strength, let's go back and support the front battlefield."

"No, you have to attack. Even if they have 500,000 people, we have 600,000 people, the whole army is ready to attack!" Alter roared, took out his two-handed sword and pointed in the direction of Karp, and 600,000 people burst out. forest.

Karp was embarrassed. He wanted to lie to Salman, but he failed to see it. Looking at the enemies who rushed over, he shouted, "The whole army retreats to the direction of the valley."

The first group of people who followed him was only 100,000 people. It seemed that there were many people, and many of them were mirror images. They were exposed as soon as they ran.

"Haha, there aren't that many enemies at all, attack." Altehaha laughed.

Salman looked ugly and yelled, "Kapu, I will never let you go."

Chapter 1209 - The beginning of the melee

Karp turned around toward a narrow area, saying it was narrow, but there was an area that could accommodate 50,000 people walking side by side. Therefore, the appearance looked very huge, and he didn't know the actual situation before he rushed over.

Sargeman and Arte came to this area with 500,000 people chasing 100,000 of Karp, but they didn't know they were fooled. The area enough to accommodate 50,000 people walking side by side was beyond the sight of people. In addition to the wide area of Kapoor, Carp ran in front with 100,000 people, let alone the situation of the left and right wings.

After 5 minutes.

Karp ran into the narrow area with people, and Arte didn't hesitate to order his men to rush up, but he just ran to a position 50 meters away from the narrow area.

“噤”

On a straight line up to 20 kilometers in width, numerous ice-blue lights suddenly lighted up. Players who walked in were hit by the ice-blue light and were frozen into the trap.

“Special Legion, Lesser Curse Mage, attack.” Karp appeared in the crowd and raised his weapon and shouted.

Numerous forbidden spells fell on the 20-kilometer boundary line, and Salman and Arte's men were trapped by the ice trap for the first time, and the players behind could not rush through, causing everyone to be crowded on the boundary line. Later, when the curse fell, it caused extensive damage.

“Damn, Karp must have known we were going to attack, and deliberately ambushed us in this place.” Salman scolded.

“Keep attacking and don't care about this death.” Arte said.

Salman nodded, jumped on a large rock, raised his sword and shouted, "The defense is protected by shields, heals all the blood, the Paladins open the aura of freedom, and the whole army continues to attack."

More than half a million players rushed towards the narrow area, the number of traps was limited, and the time of the secondary injunction was limited. When all the traps were trampled and the time of the secondary injunction was over, the two sides began a white-blade battle.

"Hey, we are several times as many as they are. I don't believe they can resist our attack." Arte said standing on a 30-meter-high cylinder transformed by a ground dragon earthquake.

The next Salman said: "As long as we defeat this part of the Indian players, we can go straight to attack Lu Yang's flanks. Now Lette and Lu Yang have just started fighting. It is estimated that when they fight the most fiercely, we can just catch up Here. "

"Hey, being able to defeat Lu Yang is really enjoyable. I heard that he has never been defeated, and I don't think so." Alter said.

Salman nodded, and his hatred of Lu Yang was the deepest of all.

Alter asked curiously: "Is there any way for these Indian players to persuade them, if we can make some of them hesitant, we will attack more smoothly. Isn't the Indian player so indifferent to national honor?"

Salman reluctantly said, "Did you not hear the slogan they just shouted? Not for the Jagged Brothers Alliance, but for the company. When Lu Yang quantified the country into a specific individual, national honor cannot be achieved It works, after all, it's not war. "

Alter recalled the situation just now and nodded and said: "This is indeed a good move. The company is the unit. Players work for the company, not for someone or a country. In the non-war years, everyone The term nation is almost ignored when working for its own survival. "

Salman gritted his teeth and said, "Yeah, **** bastard, I don't think it would make much sense to contact Indian players in the future."

Lette called and asked, "How long can you break through here? I have been attacked by the Brotherhood of the Iron Wolf Brothers Wolves. I urgently need you to join the fight."

"What?" Salman and Alt were startled.

"I'm going to succeed here," Alter said.

Lette said: "Withdrawing 200,000 people, I am under too much pressure."

The two were about to refuse, and the news came back from the front of the battlefield.

"Boss, our 500,000 people will not be in formation, and the front battle area is too narrow and can only accommodate 50,000 people."

"What?" Arte came to his senses, they were tricked by Carp, and he quickly said to Salman, "You take 400,000 people back and stop Lu Yang in front. If this is the terrain here, our superior strength There's no point."

Salman nodded, jumped off the high platform, quickly shouted at the attacking men, turned around and ran towards the main battlefield.

On the main battlefield.

The Wolves are raging in the central area of the coalition of Lette and Anthony. They originally thought that they could slaughter as if they were in a no man's land. For the first time, they encountered an opponent. His enemy was the Bengal Tigers.

Orc warriors who can become Bengal tigers have a higher attack power than blood wolves, and they can't fight each other.

Leite's spell-casting mage, which is the same as Heiyan's spell-casting mage, went up and down. After Lu Yang's wave of frontal attacks succeeded, Wright's spell-casting mage launched and disrupted Lu

Yang's rhythm, but on the whole, Lu Yang died on the front of the battlefield, such as Leite, oppressed by superior forces, and occupied a certain advantage.

Lu Yang stood on a high platform, watching the situation on the court, and said to the vice-chairmen Xia Yuwei and Zhuo Jiu who flew over to him: "This is the enemy we will face next. There is some patience."

Zhuo Jiu said, "I can't think of someone who can stop the mad wolf legion. This is a surprise to me."

Lu Yang looked at the battalion in the distance and said: "The battalion is a special legion of Bangladesh. Their attack power is slightly higher than that of the wolf legion, but the shortcoming of the tiger legion is that it moves slower than the wolf legion. Long-distance attacks are slightly lacking in strength."

Zhou Tianming said: "It looks like our enemies are very powerful this time, but I don't understand how a poor country like Bangladesh can have such a strong power."

Tu Feng said: "According to the information obtained from the investigation here, the guild of Bangladesh has received funding from four international consortia. This time, eight countries can join together, and there is also the shadow of the capital behind. They want to jointly destroy us."

Zhou Tianming, Tian Yao and others are sneering. Today, the Jagged Brothers Alliance has been overbearing to a certain extent. More than 20 million players who can participate in the war are the strongest in all guilds in the New World.

Lu Yang said, "Leave them alone for the time being, and watch the situation between the White Lion and Li Wenxing."

Everyone nodded.

...

This battle was more difficult than expected. The White Lion thought that he could quickly defeat Lette, and Lette thought that Salman's reinforcements could fight the White Lion. As a result, they fought on the two sides for a whole day. Time, even at night, there is no winner.

Chapter 1210 - Broken Rose City

Lu Yang originally planned to fight with the other party until dawn, trying to find out the true depth of the G8. Unfortunately, an update interrupted Lu Yang's idea, and the job of exemption-the blood warrior was officially launched. An official announcement let There was no passion for fighting on either side.

Lette took the initiative to reconcile and took the people back. Lu Yang also took people back to Tianji City and asked Mo Long to arrange the guild points for this battle. Lu Yang brought a group of vice presidents to Tianyuan God City. Inside the Jagged Brothers headquarters.

meeting room.

Lu Yang looked at the 38 vice-chairmen present and said, "This war is over, and I think the border will be stable for a while."

The G8 only gave Lu Yang a power this time, otherwise it would not be just over 1 million people, and Lu Yang dare to rely on the 900,000 people and the other side, apparently also telling the other party that they do not have the strength to fight against themselves.

Tianyao asked, "Boss, should we take the initiative to find the transfer certificate of Moxian?"

The official tip of the magic free class is that you can switch to all melee classes. After the conversion, the player will lose the skills of the original class and become the skills of the blood warrior.

Lu Yang waved his hand and said, "Leave this matter to me. Let me tell you something. You are mainly busy with this recently."

"What's the matter?" Xia Yuwei and Tian Yao and others immediately looked at Lu Yang intently.

Lu Yang said: "Everyone re-differs the players in their hands, those who can be online all day are grouped, and those who go online every night are divided into groups. They can only be played at a specific time. Detailed classification. "

With the end of the flu epidemic, life in the real society has normalized. People need to go to work to work in units, and go to school to go to school. Therefore, although there are a large number of players in the Iron Brotherhood, they can be at any time. Not many people participated in the war.

After fighting today, let Lu Yang know that he must distinguish his players in time. Those who can go online all day will be divided into a group by Lu Yang. He will focus on training these people.

Zhuo Jiu and White Lion all understood Lu Yang's meaning, but this matter was not as simple as imagined.

"Boss, there are not many people who can be online all day. If we focus on training them, it will make some old players uncomfortable." Zhuojiu said.

Lu Yang said: "I will introduce a comprehensive reward and punishment system, there should be no problem to calm players."

Many guilds in the last life have done this. There is no way. When the battle reaches a high level, the guild needs a group of professional players.

The crowd nodded, saying there was no problem.

Lu Yang went on to say: "Now I reschedule the defensive battle. From today on, Tianji City will be handed over by the White Lion to defend Kerim.

"Yes," said the White Lion.

"The Moonless City is handed over by Li Wenxing." Lu Yang said.

“Yes,” Li Wenxing said excitedly.

“Lan Yuecheng was defended by Xia Yuwei.” Lu Yang said.

“Yes.” Xia Yuwei said, and all three of Pope I behind him showed an excited look, apparently Lu Yang began to reuse them.

“Cardinal City is handed over by the Indian legions of Karp and Padu.” Lu Yang said.

“Yes,” Carp said excitedly.

Lu Yang looked at Zhuojiu and said, “Zhuojiu continues to defend Tianjian Fortress.”

Zhou Tianming, Tian Yao, Chi Du and others looked at Zhuojiu and looked at Lu Yang, everyone’s face was surprised.

If there is more than 30 vice-chairpersons, which is the lowest key, it must be muddy wine, and the one who has the most hard work must be muddy wine. For six consecutive battles, muddy wine has not participated in it. A sneak attack by Steiger or Liu Jie.

But now they still order Zhuoji to defend the Tianjian fortress and prevent others from changing defenses. This is somewhat unfair to Zhuoji. Originally, they all thought they were going to replace Zhuoji and let him lead the battle.

“Yes.” Zhuo Jiu answered without hesitation. Unlike other people, he has been following Lu Yang for the longest time. He knows that Lu Yang trusts him most and depends on him.

Lu Yang nodded, looking at the cute queen, and said, “Although you haven’t helped much in this battle, your performance has been recognized by all of you here. You, like other vice-chairmen, are looking for a place where you can God of war. “

“Yes.” The cute queen smiled excitedly.

Lu Yang smiled and looked at White Lion and others, saying: "The number of G8 and our guild is equal. In the future, their attacks are likely to attack the four main cities at the same time. You must have the ability to defend their fortresses."

"Yes," the four stood up and said in a silent voice.

Lu Yang said: "Bitter love for half a life is responsible for defending the tiger mouth, the rest of the people stay in their original position, the meeting was adjourned."

Everyone stood up and left.

"Turbid wine, wait a minute," Lu Yang said.

The murky wine, which was about to leave, stopped, and he returned to his seat and asked, "Boss, what is it?"

Lu Yang said with a smile: "Also let you defend the Tianjian Fortress a bit depressed."

Zhuoju nodded and said, "It's a little bit, but it still stands."

Lu Yang laughed and said, "Record your Templar Knights, Punishment Knights, Rev. Skywrath, Water Mage, and regular shooters online all day as soon as possible."

Zhuoju laughed and asked in surprise: "Boss, are there any special things about these occupations?"

Lu Yang said: "I will play them all for the power of their blood. The current limit is 10,000 copies for each profession. Don't let me down."

"Yes." Zhuoju stood up and said excitedly.

“Go back to rest first.” Lu Yang signaled that he could leave.

As soon as Zhuoju rushed to land, he bowed. Anyone knows what the power of bloodline means. If Lu Yang can get the power of bloodline in large quantities, players under Zhuoju will not have any more grievances, and they will work hard to gain the power of blood.

Lu Yang watched the figure where Zhuoju left and stretched a lazy waist. After a hard day's work, he also needs to take a break. Tonight's duty is Liefeng Qingfeng and Xia Yuwei, and he can sleep well.

No words overnight.

Early the next morning.

Lu Yang entered the game after training, and used the teleportation array of Tianyuan God City to fly to the 130-level Huimenglin. Then he changed the flying carpet and flew all the way south. After 10 hours of continuous flight, he quit the game and rested.

After the third morning, he continued to fly for six days in a row. Finally, he flew to a 200-level map in front of a rose-colored castle.

System prompt: you found the broken rose city

A smile appeared on Lu Yang's face, and what he was looking for was this place.

Chapter 1211 - Demon

Rose city.

According to the official history of the game, this is the location of the final demon-level demon, the 200-level demonized Dongbeis. It was originally a beautiful and extreme imperial capital with millions of humans.

Toombeth was the king of the imperial capital. He did not hold back his desire for power and fell into the devil, becoming a demonized man.

Tombius received a steady stream of power, but he himself fell into madness. Fortunately, instead of venting these anger on his people, he first used the power of demonization to turn his soldiers into him. The same demonized person, then he began to battle.

The characteristic of the demonized person is that each time he kills a creature, his strength is increased by one point. Whether it is an ordinary player or a wild creature, as long as he is killed, his strength is increased by 10%.

When a guild from the last life came here with tens of thousands of players, although they were seriously prepared to clear this map, they were still overwhelmed by the entire army killed by the demonized people. They thought it was nothing and they could not kill the wasteland. It's normal.

But when they came back again, hundreds of demons had doubled their strength and were promoted to become the lord blame. At that time, the guild player thought it was suddenly brushed out, but when they were completely wiped out by the army again At that time, there were hundreds of other lord monsters, and they only reacted, and the monster killers here will escalate.

Soon, the news was rumored among the 10,000 people, attracting hundreds of thousands of offenses composed of dozens of super guilds.

At the time of the war, if the players attacked the demons unanimously, they could also waste this copy. However, several guilds conspired to kill other guilds, and they also did it. The player who killed the guild did not dare to enter. Rose city.

Under the imbalance of these failed guilds, watching their enemies kill a lot of demons, they made a decision to die!

Hundreds of thousands, hundreds of thousands of people killed the demonized people. From the broken Rose City in all directions, a demon must kill 500 people to become the lord monster. It is difficult to do so under normal circumstances, especially players. After understanding this principle, under the deliberate giving of these guild players, all the demonized people around the main city of the broken Rose City became lords.

When tens of thousands of lords are guarding the four entrances of the Rose City, the monsters on this map cannot be played. Just one monster is introduced. A group of 200 lord monsters ran over. Over 100 people attacked the lord, and the lord's attributes turned over. Times.

In this case, let alone fight the lord, it is good to be able to escape. At this point, the broken Rose City was abandoned by these super guilds. Then, several guilds triggered a long battle for several months. According to history— —Rose War.

The reason for this is that the items dropped by the demonized man in Rose City are so good that he drops the blood of the Divine Knight.

In the game, the paladin outputs the first divine power fruit, which is also the highest melee output in the game. The key is that any elite monster has a chance to drop.

Lu Yang couldn't wait to get these fruits. He couldn't come here in the last life, but now he doesn't have one, which just allows him to take advantage.

He looked down. Outside the city of Rose, there was a barren plain. Not far from the plain near the city wall, there was a lake, and there was a very large military barracks near the lake, from a few kilometers around the barracks to the barracks. Inside, there are 3 meters high demonized people everywhere. They have the appearance of human beings, but they have a special height. Each person has dark green eyes and wears golden body armor, which looks particularly scary.

Demon (elite)

Level: 200

Qi and blood: 50000000000/50000000000

A mob has such a high amount of blood, which proves how difficult it was for the demonized people at the time. Almost each of them was the existence of the previous lord level. There is so much blood and the attack power is more unimaginable. Lu Yang's With more than 6 million blood, they could not withstand an attack by them.

Lu Yang carefully looked at the surroundings, and after confirming his position, he went to the south side of the barracks and saw the special location of the previous life, the broken corner.

He ordered the flying carpet to quickly lower the height. At a position just 20 meters from the ground, he flew along the south side of the barracks to gather tens of demon people under his body. Then he turned and flew to the southwest section of the south barracks. Corner position on the city wall.

The magic corner, the 50-meter-high barracks wall made of granite, should have been solid stones all around, but I don't know why there is a broken place here that can just accommodate a person to drill in without being attacked by the demons.

“噤”

An enchanted man suddenly hit the city wall, and a long sword reached into the corner. Unfortunately, it was still 0.1 meters away from Lu Yang.

“The great ancestor of the flame ...” Lu Yang did not hesitate to recite the secondary forbidden spell. After 8 seconds, centering on him, a large number of large fireballs were dropped in the area around 200 meters.

“The great ancestor of the flame ...” Lu Yang's mouth recurred, and he remembered that the flames of the forbidden spell were burned out, and within 30 seconds, all were roasted at high temperature within 2000 meters.

Then, Lu Yang began to release lava eruption, and soon filled the area 200 meters outside the corner with flames.

“Summon Fire Dragon”

Lu Yang summoned magically immune fire dragons on the ground, summoned 100 in a row, and made indiscriminate attacks on monsters outside.

“Ghost Fire Lamp”

Lu Yang threw a ghost fire lamp skill towards the corner. The original 8 ghost fire heads turned into 14 when the heart of the demon **** was level 9.

“Fire Sword”

Lu Yang appeared eight fire swords around his body at the same time launched an attack on the monster in front, even so, the monster in front of the blood is still slow.

With 50 billion hit points, Lu Yang shook his head and wanted to kill him with one player. It was very difficult, especially in the case of ineffective heart flames and the percentage of phoenixes that killed blood. It was even more difficult.

I don't know what the official thinks about it, here is a strange thing called a demonized shell, which specifically controls the percentage of blood. Fortunately, such skills are not very common in the strange, otherwise Lu Yang would be struggling to kill the lord.

He leaned his body against the wall and switched to automatic mode. He chose to release the meteorite fall ability. In automatic mode, he released one every 5 seconds. Taking this opportunity, he sent a message to Zhuoji and asked, “The personnel selected What about it? “

Zhuo Jiu said: “The Paladin is basically selected, and a total of 200,000 people can work full-time, but Tu Feng is reviewing them, and currently only 10,000 people have passed.”

After 7 days, the heads of the major legions basically convened all players who can be full-time in the guild, but their review required Tu Feng and more than 500 people to search for it, which was very time-consuming and troublesome.

Chapter 1212 - Divine blood

There is no way, if spies are mixed in this first group of people, this new army formed by Lu Yang is a joke, no matter how strong, if the information is not equal, it is a group of live targets.

He told Zhujiu: "Call the corps leader, deputy corps, 10 commanders, and 100 captains of the 10,000 people to the guild hall to gather and prepare to teleport to help."

"Yes." Zhuoju immediately issued an order, and soon, 112 players appeared in the Guild Hall of the Sky Sword Fortress.

"Boss, what's good about calling us all?" Asked the newly promoted legionary blaze.

Zhuoju looked at him with a smile, and then looked at the deputy regiment Dao Dou Tian Gu Gu You and the 10 regiment leaders said: "You guys are blessed. I will take you to a place to help the president elder."

"President?" Blazing Hell's excited eyes lit up.

"Let's get ready."

"You must not embarrass the boss."

...

A bunch of people were excited.

Zhuoju laughed and called Lu Yang's phone and asked, "Boss, I'm all here."

"I'm building a sentry tower, you bring them over with a teleportation scepter." Lu Yang said.

"Okay." There are two teleportation scepters in Zhuozujiu. He handed one to Hellfire and said, "Fly with me."

"Oh." Blazing Hell responded, turning to his opponent and saying, "Brothers, try hard for a while and show your face to the boss."

"Well." More than 100 people nodded together.

Zhuoju laughed and flew 50 people to the sentry tower built by Lu Yang with a transmission staff. Another light flashed, and the fiery **** flew over to the rest.

Just after landing, Fiery Hell saw Lu Yang and hurried over to him, saying, "Boss, the new Paladin First Legion Commander, Fiery Hell, will report to you."

Lu Yang looked at the fiery hell. He knew that this boy was a very good one among the recent internal competitions of the Brotherhood of Iron Blood. If he was equipped with high-level weapons and equipment, his strength would not be lost to the top masters.

"Yes, it looks a bit." Lu Yang said.

The fiery **** said excitedly, "Please ask the boss to assign a task, we must complete the task satisfactorily."

Lu Yang smiled and said, "Your task is very simple. Pick up the things that have fallen on the ground around you and hand them over to the muddy wine."

Everyone: "..."

“Ah?” Liehuo was dumbfounded and said, “It’s so simple. I thought it was hard.”

As for Zhuojiu’s head, he said, “Look around, who can you fight in this place and get this task? It’s your pleasure.”

Fiery Fire Hell and others looked around. Extremely far away, several demonized people were slowly approaching, seeing the 200-level high-level elite monsters and 50 billion health, Fiery Hell and others were dumbfounded.

“My mother.” The fiery **** scratched his head and said, “Boss, you have been upgrading on the 200 level map.”

“Is there a problem?” Lu Yang asked.

Blazing Hell and all the Paladins quickly shook their heads.

“Then don’t go and pick everything up, remember, don’t lead to demonized people, and today’s things are not allowed to say, who dare to say it, immediately fired from the guild.” Lu Yang said.

“Yes.” Blazing Hell and others rushed around and picked up items dropped by tens of thousands of demons within a range of 2,000 meters.

“Huh?” Fiery Hell looked at a fruit on the ground. He took it up in surprise and shouted at Lu Yang with a dumb look. “Boss, here is the fruit of the divine power, the blood of the Paladin.”

“Me too.”

“Me too.”

...

More than 100 people picked up the power of the blood in all directions. When they picked it all up and brought it back, they handed it over to the muddy wine together, a total of 672 sheets.

Lu Yang looked to the fiery **** and others and said with satisfaction: "Yes, you have withstood my first test. No one stole the blood."

Everyone: "..."

The hearts of the fiery **** and others are broken. They have no blood power. Just now they saw the blood of divine power. How many people almost did not hold back from hiding, but they thought that they had officially become the Brotherhood of the Iron Blood. At the middle level, I did n't feel comfortable doing it, because the culture of the Jagged Brothers Alliance was there, and they could n't do it. I could n't think of it because I had disciplined myself and passed the first level test.

"Boss, this is the ethics we should have." Lie Huo he proudly said.

Zhuojiu nodded with satisfaction, and the person he picked out did not disappoint him.

Lu Yang said: "As a reward, more than 100 of you first take a divine fruit."

"Really? Free?" Blazing Hell asked excitedly.

Lu Yang said with a smile: "When do I have to pay for the players in the Jagged Brothers League, I will take all the money. I will tell you how this blood power is used.

The muddy wine carried the power of the blood veins, including the muddy wine, 113 people each took up the power of the blood vessels, and suddenly, they had three more skills.

Theocratic sanctions: Attack range is 30 yards, throw holy light flying hammer at the target, and stun all targets within 5 yards area for 3 seconds. It has no effect on magic immunity.

Holy Word Acceleration: God said that your movement speed should be increased by 150% for 30 seconds and a cooldown of 1 minute.

Divine power is invincible: This time, the divine knight is invincible, his base attack power is increased by 1.5 times, the duration is 30 seconds, and the cooling time is 2 minutes.

Divine Fruit Special Effect: Add 10,000 additional power.

Zhuo Jiu looked at the three skills given by the fruit of Divine Power in surprise, and said to Lu Yang: "Boss, how do I feel this talent is a bit outrageous?"

Lu Yang said with a smile: "In the" Second World "the strongest blood of physical melee, none of it is the divine blood of this paladin, how about it, good."

"Boss, that's great." Zhuo Jiu was excited and didn't know what to say. The divine blood was too strong. His last skill was too powerful, increasing the basic attack power by 1.5 times, which is 1.5 times the power.

Take the 140-level Paladin as an example. Adding full strength and adding power gems, there are nearly 600,000 power points. If you increase 1.5 times, you will have 1.5 million attack power.

Templar knights and punishment knights both have the ability to punish angels, ignoring physical defenses. That is, once the divine knights turn on divine invincibility and punish angels, they will become meat grinders on the battlefield, especially facing high-defense occupations in the place, Like cutting wheat, easily break through the defense circle formed by enemy anti-riding.

The fiery fire **** said excitedly: "Boss, we are invincible now, this bloodline is great."

Lu Yang smiled and said, "Stay here for the next few days. I'll take you up to the next level, and by the way, hit some more blood."

"Yes," the crowd said together.

Chapter 1213 - Two Hundred Lords

This is a 200-level map. Even if they have more than 100 people, how much experience is strange. Unlike the maps below 200, the experience here is very high, but this is not the main thing. The main thing is that they can get more divine power. Blood vein fruit.

With blood, their strength will be greatly enhanced. Not to mention future wars, just playing a copy will be enough to make them feel relaxed.

Lu Yang asked them to hide in the open space outside the barracks, so as not to provoke the demon, he became a phoenix, flew into the barracks, and ran out with thousands of demon people.

Still returning to that corner, Lu Yang released his skills. After half an hour, he killed a demonized person, fierce fire **** and Dao Gu Tian Gu Gu You and other people ran into the field to pick up items.

“Boss, I picked up a baby here.” The fiery fire **** ran to Lu Yang excitedly with a strange heart, and handed it to Lu Yang as a gift.

Enchanted Heart (rare treasure)

Grade: Level 7

Strength: +100000

Description: The enchanted human heart is a product of mutation after being invaded by magical energy for a long time.

Lu Yang laughed with this heart and said to the muddy wine around him: "The kid you picked is still a blessing general. It can explode such treasures and add 100,000 power. This will improve your divine knights. too big."

Treasures do not occupy the grid, and are similar to the heart of the demon. They can be inlaid in the heart to directly enhance attributes.

He gave the enchanted heart to the muddy wine, and said, "Here you are, we will continue to fight."

"Yes." Zhuojiu was very excited. Such a piece of equipment, after he turned on the invincible divine power, added 250,000 attack power to him, which was too great.

"Boss, there seems to be a blame over there. Would you like to see it?" Dao ran across the loneliness and pointed to a house on the left side of the barracks.

Lu Yang frowned. In the previous Raiders, all the lords mentioned were in the innermost part of the barracks center. No lord was heard outside.

"Take me to see." Lu Yang said.

Tianya nodded sorrowfully, and brought the landing sun to the front gate of the barracks. The monster here had just been pulled out of the corner by Lu Yang and was completely empty. On the left side of the barracks was a 20-meter-high house made of stone.

System prompt: you found Bacarara prison

Lu Yang frowned and looked inward along the window. A 10-meter-tall humanoid was lying on the ground. His body was red, his body looked like a gorilla, his arms were thick, but there was only one eye on his head, which exuded blood red. Light, his lower limbs are not the lower limbs of the orangutan, but four thick mammoth legs.

Chimeng (Lord)

Level: 200

Qi and blood: 500000000000/500000000000

“So much blood.”

“It looks difficult.”

...

People around Zhuoshu and blazes explored around.

Lu Yang recalled carefully, but unfortunately there was still no such red message in his head. He said to Zhuzhuo and others around him, “You back, I’ll single him out and try. If you die, you wait for him to go back. Resurrect me again. “

“Um.” Zhuoju knows that Lu Yang is powerful and has so many anger skills. It should not be a problem to kill this lord.

The blaze of fire and **** didn’t know, and when they said Lu Yang, they were shocked.

“What the hell, the 200-level lord blame, the boss wants to single out at 160?”

“500 billion blood, not to mention qi and blood, I’m afraid the boss hit him with a fist, the boss will die.”

...

They said as they left.

Lu Yang moved his body, it was time to perform a technique to let the newcomers know their strength, otherwise they thought their command card was buggy.

“Blazing Heart”

Lu Yang’s right-hand staff pointed at Chimeng, and a blazing white flame hit Chimeng’s heart precisely.

“153000000”

“Hello ~~”

A sharp roar came from Chimeng’s mouth, he suddenly locked Lu Yang, and raised his fists with both hands to make a hard effort.

“boom”

The house that trapped Chimeng was torn down by him, the dust was flying, and the scene was a mess.

“flicker”

Lu Yang suddenly backed 100 meters, and the dusty environment was not suitable for him to fight with Chimeng.

“Hello ~”

Chimeng roared, and suddenly burst out of the smoke, 70 meters away, and launched a jumping strike towards the landing sun.

Lu Yang quickly locked Chimeng and read the mantra in his mouth. Just before Chimeng jumped in front of Luyang, he was about to launch an attack.

“Polynuclear explosion”

Lu Yang’s body suddenly blasted out a violent explosion wave, flying Chimeng out 30 meters away.

“Meteorite Falls”

A crimson meteorite fell from the sky to the open space 30 meters in front of Lu Yang. Just when the meteorite landed, Chimeng fell into the attack range.

“boom”

A fierce air wave radiated outward, Chimon was stunned for 2 seconds.

“Meteorite Impact”

Lu Yang’s mouth read a spell, and a small reddish meteorite in the sky fell, right in the middle of Chimeng’s body.

“Escape The Dagger”

Lu Yang jumped in front of Chimeng, and read the spell in his mouth.

“Angry Skills-Devil Slash”

A blaze of fire struck Chimeng’s body, reversing Chimeng’s back and forth, and each step back caused more than 1 million damage. With 75% of the magic heart’s penetration, the magic resistance of Chimeng was in In front of Lu Yang, it was like nothing.

Of course, if Lu Yang doesn't have a 9th-level demon heart, with his 160th-level artifact set, playing Chimon can only deal 3 digits of damage.

Chimeng was hit back by a distance of 10 meters under the punch, and was crushed by the impact of a meteorite for 5 seconds, causing more than 10 million injuries.

Just when Chimeng had just woke up and was about to pounce on Lu Yang, the spell in Lu Yang's mouth had been read.

"Earth to Earth"

A cloud of flame blew up from the ground, flying Chimon up.

"Destroy the Sky"

"Naruto"

Triggered by two consecutive moves at the same time, Chimeng was hit by Skyfire in mid-air, and was just hit by 22 Naruto bombs.

"Earth to Earth"

A second flame sent Chimon into the air.

"Comet Impact"

The spell in Lu Yang's mouth was read out in succession, and two comets collided, and Chimeng, who was playing in the air, shifted backwards twice in a row.

"Earth to Earth"

Lu Yang released a third flame and flew Chimeng into the air again.

“Comet Impact”

“Comet Impact”

The two skills hit Chimon, who hit the ground, when Chimon became angry and wanted to attack.

“Remnant Flame-Activated”

Lu Yang suddenly appeared in front of Chimeng.

“Rage Skills-Red Lotus”

33 red flame petals hit Chimeng with precision Each one struck it rigid for 0.1 second, and three consecutive skills were deadlocked for 3.3 seconds.

Lu Yang’s skills are not over.

“Lava Eruption”

“Lava Eruption”

“Lava Eruption”

Three consecutive lavas were laid under Chimeng’s feet and behind him, with a distance of 90 meters.

“Meteorite Impact”

Another crimson meteorite fell, just hitting Chimeng, and the spell came out of Lu Yang's mouth.

"Rage Skills-Hot Fist"

Release the skills 10 times and get 1 chance to release the anger skills. Before Lu Yang beat the monsters to fill the anger, you can easily release 3 anger skills, plus the skills just released continuously, Lu Yang can already release 4 Second anger skill.

Chapter 1214 - Advanced Wrath Skills

"boom"

The hot punch hit Chimon's body, and the powerful Chimon was not beaten, but he was backed off again and again. It happened that he stepped on the lava every step back, and stopped more than 20 steps.

According to the rules of the system, each step requires a lava attack, which means that Chimeng has been attacked by more than 20 lava blasts, causing more than 80 million injuries.

At the same time, there is a follow-up attack from the top of the meteorite impact, which has been hit 10 times, causing more than 40 million damage. These two skills alone have dealt 120 million damage.

"Naruto"

22 small melting bombs suddenly appeared at the position where Chimeng stopped, just hitting Chimon's head at the same time, even earlier or later, these 22 small melting bombs would miss Chimeng's head. hit.

“440000” (Critical Strike)

“220000”

“440000” (Critical Strike)

...

Twenty-two fell, killing more than 7 million health of Chimeng, while adding 2 points of anger to Lu Yang.

Chimeng was beaten dozens of times in a row, and was about to fall into a state of rage. His body gradually showed bleeding red.

“Hello ~!”

Chimeng slammed into the ground with two fists and just stood up.

“Remnant Flame-Activated”

Lu Yang suddenly appeared in front of him, with a sharp slash in his hand and a spell in his mouth.

“Magic Slash”

A ray hit Chimeng and instantly flew it backwards.

“Yanyang mask, flames cut off”

A crimson humanoid flare hit Chimeng. When he hit Chimeng, Chimeng was attacked by a sun mask every time he stepped back.

“Naruto”

“Comet Impact”

“Comet Impact”

Two comets struck Chimeng in succession. Chimeng also retreated 10 steps in succession at this time. He was feverishly blown 10 times. At the same time, he just hit the ground and was hit by 22 Naruto shells. 2 points of anger.

The only pity is that the Yanyang mask and lava eruption only cause 1 rage per second, which is not determined by the number of times. Otherwise, Lu Yang can die indefinitely.

But this is also good. Under continuous attacks, Lu Yang’s anger value has reached 12 points again, and he can release his anger skills again.

“Remnant Flame-Activated”

Lu Yang flew to Chimeng in an instant, reading the spell in his mouth.

“Ghost Fire Lamp”

Fourteen ghost fire lights quickly fell in front of Chimeng, spinning around him, providing Lu Yang with a bit of anger every second.

Chimeng just got up, raised his hands and slammed into Lu Yang.

Lu Yang wasn’t afraid at all, and read the spell in his mouth.

“red lotus”

Numerous flame petals wrapped Lu Yang, and at the same time, crazy rotation attacked Chi Meng, struck him rigid for 3.3 seconds. During this period, Lu Yang uttered a spell.

“Remnant Flame-Activated”

He jumped to a distance of 200 meters in an instant, looking at the still stiff Chimeng, and spelled out in his mouth.

“Great Ancestor of Fire ...”

The skill that had been left by Lu Yang for the last time was released by him. After 3.3 seconds, Chimeng ended his vertigo. He saw Lu Yang running 200 meters away with a roar.

190 meters

150 meters

100 metres

...

10 m

Just as he was about to hit Lu Yang with a punch the next second, Lu Yang said a spell in his mouth.

“Meteor Falls”

A 9th-level fire meteor fell instantly from the air. Before Chimeng hit Lu Yang, he was in the middle of Chimeng's body, and a meteorite the size of a house smashed Chimeng into the meteorite.

"boom"

A meteorite burst, and a shock wave visible to the naked eye wanted to spread around. Lu Yang was the caster, and his cloak was blown up, but his body remained motionless.

"Lava Eruption"

"Pyroblast"

"Pyroblast"

"Pyroblast"

...

A burst of Pyroblast is released every 0.5 seconds, one after the other hits Chimon's head. Each attack will slightly tilt Chimon back, and each attack will add 1 point of anger to Lu Yang Meaning value.

For 5 seconds of vertigo, Lu Yang played 10 Pyroblasts and got 10 points of anger. The lava eruption provided 5 points of anger, plus 3 points of anger from the previous ghost fire lamp. Lu Yang got a total of At 18 o'clock, he can release the combo again.

"Meteorite Impact"

A crimson meteorite in the sky rolled down.

"Hot Boxing"

He hit Chimon's arm on the ground with a punch in his left hand.

"boom"

Chimeng's body vibrated and continuously retreated a distance of 10 meters. During his retreat, Lu Yang continuously released Pyroblast and Naruto. When he stopped, he was hit by 4 Pyroblasts and a Naruto.

At this point, 30 seconds have passed.

"Blazing Heart"

Lu Yang's right-hand staff pointed at Chimeng, and a fiery white flame hit his body, inflicting 150 million injuries.

As before, Lu Yang once again recruited, and the Paladins who were standing around Lu Yang and the flaming **** and the road to the end of the world were stunned.

"Oh my god." Fiery Hell clutched his hair and said with an expression of disbelief: "Boss, my three views have been shattered to one place. The president has been able to recruit 200-level lords. This is unlimited. Does it? Did he always kill and kill the lord before? "

Dao Gu Tian Gu Gu You and others all felt their throats look dry at Zhuoshu, and everyone was excited.

I have seen Lu Yangdan killing a blood bat before. Although I experienced it once, he was still very excited. He sighed and said, "It is estimated that the boss cannot be infinitely connected, but you must carefully learn the boss's operating skills, kind of The slightest attack method is the self-confidence that needs countless exercises to cultivate. "

Lu Yang's attack seems simple, but every time it is a limit output, 0.1 seconds will be spiked by the lord monster. You know, this is a 200-level lord, or a plot strange, just one attack, all the efforts before Lu Yang It's all in vain. As long as Lu Yang hesitates once, he can't put his skills so freely.

On the court.

Every time Lu Yang beat the stunned lord, he used Pyroblast as an output method. He used a comet to strike before because the attack distance was far enough and the damage was enough. At the same time, his anger was full.

In the case of an empty rage value, the attacks of the mage, the thief, and the druid are unreasonable. They all have quick skills to restore the rage value. Even if they can't do the combo, it is faster than other professions .

Especially for professions such as mages, like Lu Yang, using small skills to attack, although the damage is not high, it can quickly increase the anger value, and can rely on the advantage of the long distance to delay more lord attack time, Make yourself look infinitely connected.

However, Lu Yang must not make mistakes. As long as he makes a mistake, he will be spiked by the lord. If he does not make mistakes, the imaginary infinite mortal lord can still do it.

5 minutes

10 minutes

...

60 minutes

Lu Yang's successful combo took 60 minutes, destroying the blame's 400 billion HP, just when Lu Yang was preparing to continue the combo.

"Hello ~~~!"

Chimeng suddenly stopped in place, howling wildly in the sky, his body glowing red blood.

“Crazy!”

“No, he’s faster.”

...

Zhuo Jiu and others were worried about Lu Yang, but a calm smile appeared on Lu Yang’s face. His consciousness had been activated. Now he is in the best state, even if the lord is crazy, he also Not afraid.

Madness means nothing more than a 30% faster attack speed and a 30% faster movement speed. However, his damage has also increased by 50%. Lu Yang wants to try it, and the speed of this lord monster has increased by 30%. Can he handle it.

“Human, you successfully offended me, I will tear you to pieces.” Chimeng even made a human voice, roared, and rushed towards the landing sun.

At this time, Lu Yang was standing 30 meters away to lose Pyroblast. In the 5 seconds that Chimeng had just transformed, he fired 10 Pyroblasts, including lava eruption, Naruto bombs and Skyfire. Lu Yang had another 18 points of anger.

Just as he ran over Chimeng, Zhuo Jiu and others saw Chimeng rushing to Lu Yang like a phantom.

“Boss.”

“Be careful.”

...

The crowd just shouted, but at this moment.

“Magic Slash”

Lu Yang suddenly split the staff, hit Chimen’s fist in the middle, and knocked Chimen out.

“Meteorite Impact”

“Pyroblast”

“Pyroblast”

...

“Naruto”

Six consecutive skills, Lu Yang’s rage value reached 14 points, you can put another rage skills.

“Remnant Flame-Activated”

Lu Yang rushed to Chimeng’s feet. He also had a sun hood on his body, and the words were spelled out in his mouth.

“Rage Skills-Red Lotus”

Chimeng was again stiffened.

“Lava Eruption”

Lu Yang put a skill under Chimeng’s feet, and then spelled out in his mouth.

“Pyroblast”

“Pyroblast”

...

A small skill boosted the anger value, allowing Lu Yang to successfully play the infinite link again. In his dialogue bar, the infinite link shown there has been more than 6,000 times.

The fierce fire **** and the doomed end of the earth loneliness and so on have been holding their heads crazy, everyone is crazy, Lu Yang can be infinitely connected in the case of the 200 level lord crazy, their admiration has reached the limit.

In this way, they watched a 200-level lord, killed by Lu Yang’s pseudo-infinite combo.

System prompt: You killed Chimon

You get 8721485 points of experience (6000000 points of combo experience, 113 points of your team experience)

“Boss, you are so awesome, I adore you.” The fierce fire **** and others rushed over towards the landing lunade Lu Yang looked back at them and said, “First Do n’t come, boss, I ’m going to open a corpse, and I ’m tired for more than an hour. I ’ll see what good things this lord can explode. ”

Everyone nodded, and quickly retreated to a position 10 meters away from Lu Yang.

Lu Yang looked to the ground. The 200-level Chimeng gave Lu Yang a big 8 * 8 explosion, and it was a boutique drop. There was almost no potion. Among the many items, Lu Yang was most surprised that it actually dropped. Fallen 2 teleport gems.

Lu Yang excitedly put the teleporting gems in his backpack. At present, there are only 13 New World teleport scepters in the Iron Brotherhood. Now adding these two gems, there are two more teleport scepters. This is equal to the battlefield. Adding more than 200 people at any time may play a role in turning over.

He looked at the other items, and two of the demonized hearts dropped. The others were some level 200 dark gold equipment. Unfortunately, they are not available now, which made Lu Yang feel sorry, and in Lu Yang thought that this harvest was only so little, suddenly, a platinum skill book appeared.

“High-level anger skills.” Lu Yang said excitedly, he picked up and opened it.

Chapter 1215 - Red Snake Hanging Dance

The Dance of the Red Snake Strangling

Type: Fire Fury Skill

Cost: 20 Rage

Distance: 0 yards to 100 yards

Description: The fire mage attaches magic to the staff to perform a crazy rotation, forming a powerful spinning fire circle, which causes full intellectual damage to the target's first hit. If it is hit continuously, each subsequent attack will only cause 30% of the current intellectual damage. At the same time, each attack comes with a forced stun of 1 second and a rotation duration of 8 seconds.

When Lu Yang saw the name of this skill, the whole person was stupid. He felt his head exploded and his hair was upright.

“The dance of the red snake strangling turned out to be this, my God, this is the magic skill of the second person and the second boss.” Lu Yang said with great excitement.

Zhuoju was a little surprised to see Lu Yang, and asked, “Boss, is this book good?”

Lu Yang nodded. This move is a very powerful attack skill in the second-level anger skill. It can deal up to 3 times the damage of the intelligence. Although the damage on the surface is not much, if you release this skill, the opponent's behind There are obstacles such as walls. This ability can control the target for 8 seconds.

During this period, the sun mask and lava eruption were used. Strong control for 8 seconds is enough to obtain 16 points of rage, which is equivalent to releasing this 20 point of rage high damage skills. In fact, only 4 points of rage were used. The effect is very powerful and caused The damage is also huge.

“It looks like I need to change a weapon, this magic wand in my hand is not suitable for me.” Lu Yang said.

Zhuoju asked: “Boss, you already have a sub artifact, is there anything better than this?”

Lu Yang smiled and said, “Of course I have it, and the artifact is awkward, but it is difficult to get points.”

Mud wine: “...”

Blazing Hell: “...”

Everyone: “...”

Lu Yang said, “Okay, let's continue to fight the monsters. This time we have a good harvest. Two magic hearts have given you two legionnaires and deputy legionaries.”

“Thank you, Boss.” The fiery fire **** and Dao Dou Tian Gu Gu You both took over the equipment with joy.

Lu Yang took the team back outside the barracks, and let them continue to wait there. He then brushed up. Even if he wanted to kill the god-level monster, he still does not have that ability, even if the god-level monster is very low.

In the next ten days, Lu Yang wiped out all the monsters in the demonized barracks, and at the same time he successfully brushed out 10,000 fruits of divine blood.

Under the sentry tower outside the barracks.

Lu Yang said to Zhuojiu: “The fruits of the Divine Power are temporarily brushed here. You take them back with these 10,000 fruits and distribute them to your 10,000 Paladins to transform them into Divine Knights.”

“Yes.” Zhuo Jiu answered in excitement. With this 10,000 divine fruits, after his paladins became divine knights, using 20 divine knights in one copy equals 40. On the output, hit The lord of the nightmare copy is enough.

Lu Yang said: “It will be the New Year in two days. Give everyone a vacation. If you want to go out, go for a walk. Don’t force them to play equipment and leave for 7 days.”

Zhuo Jiu said with a smile: “Boss, if you let me take a vacation before the fruits of the divine power, some of the brothers should want to rest, but with this baby, it is estimated that they want to hit the equipment out of these 7 days. “

The main players of the Jagged Brothers League are young, and have little interest in traveling abroad. They are not bothered to meet with relatives. They have been popular recently. When they go to relatives in the New Year, they are going to be friends, and they have not met for a year. , How to see it again, nothing more.

Lu Yang didn’t care. He flew back to Tianyuan City using the transfer token, and was just about to go offline. Suddenly, a new message came from the game.

[World Channel] Hell King: The Thorn Birds organization, my Hell King vowed that if my lover died, I would personally torture you one by one.

As soon as this sentence came out, as if a drop of rain fell into the sea, it did not cause the slightest waves, and even no one noticed it. The ghost knew who the Hell King was, but here in Luyang, it was hit by a meteorite that destroyed the planet. Up the earth.

“How to forget him, almost something happened.” Lu Yang fiercely scolded his head.

In the last life, there was such a fierce man. He was fiercer than Sun Yu. A girlfriend in the virtual world was preparing to sell a piece of high-level equipment that was hard to come by to save his family. This girl doesn't know yet, he has already been followed by the Thorn Bird organization, because the girl has a level 8 natural heart in her hand.

At that time, the little girl was a female druid. She was becoming a fairy flying in the sky. She was hiding well before. No one knew that she had a natural heart. She thought it was okay, but did not expect that the thorn bird organization had known this. Incident, and the Thorn Bird organization also has an air combat profession. One of the Destroyeres released Doom skills to him in midair, successfully killed the girl, and snatched the level 8 nature heart.

The little girl found that she had been robbed of a piece of equipment that saved her family's life. She left home in despair to prepare for suicide, which is what happened tonight.

Later, after the girl committed suicide, Hades Pluto went mad. He was a shooter with a second turn certificate of the wind chaser. In order to find the whereabouts of the thorn bird organization, he pulled the 200-level map-level monster to Tianyuan 8 times. God city.

In three months, Tianyuan God City was slaughtered by monsters 8 times. Players suffered heavy losses. Numerous people cursed the King of Hell, while cursing the Thorn Bird organization.

The king of the prison said that who can provide the whereabouts of the thorn bird organization and the address of the home. If it is correct, he will stop slaughtering the city. Otherwise, do not play this game. He will bring a god-level lord to slaughter the city once.

The thorn bird organization is not at all serious, but the meticulous organization and the hidden place will eventually be discovered by some people, especially the hateful organization like the thorn bird. I don't know how many people are looking for him.

For half a year, without anyone knowing, a rich man who had been taken away from the heart of the thorns by the Thorn Birds organization secretly subsidized Zhenhei and his dozens of players for half a year to find this organization.

Kung fu was worthy of care, and it was true that the King of Hell found the home of the White Devil, the leader of the thorn bird organization, who could have thought that what the King of Hell originally said, to torture them one by one, was the truth.

He brutally killed the white devil and left a complete video of the killing. For a full 16 hours, the white devil was stripped alive by the town **** king, pulled his tongue, and blinded his eyes.

Subsequently, the video appeared briefly on major video website platforms in various countries, and then the video disappeared.

When the White Devil died, no one knew that this thing was done by the Hell King. On the one hand, the identity of the White Devil was not exposed, and on the other hand, the thorn bird organization harmed countless people, and they did not know who was responsible for it.

But then, almost every other day, a Thorn Bird organization was brutally tortured by the Pluto King, the death method is exactly the same.

When the town prisoner Pluto reached the eighth, the remaining four took the initiative to seek police asylum. They acknowledged that they were members of the Thorn Birds organization, and those who died were members of the Thorn Birds organization.

The police saw that all four of them were too lazy to protect them. However, they still tried their best to protect the state law, but unfortunately, they did not know that the King of Hell was a retired special soldier, and he was particularly good at killing people with bows and arrows.

Fortunately, the remaining four people were killed by a bow and arrow, because each bow and arrow fired was covered with **** throat sap.

When he killed the last person, the Hell King of the Prison chose to commit suicide. He also jumped where the girl died. Later, he was able to find out that the Hell of the Hell was the official of the Second World and the police. Cooperate and mobilize big data to query, and then find the news and related information of the deceased.

It's a pity that Haunting King of Hell is dead. Although he has left a legend about crazy for love, he brings more to this game but it is a pity.

Lu Yang was reluctant to die when the King of Hell died, but he didn't know, but he knew where the King of the Hell died, but he didn't know if it was too late to catch it, but he had to fight it once.

"Black and white, take 10 brothers to go out with me, we will find someone." Lu Yang quit the game and said to the black and white guarding the door.

"Where?" Black and White asked.

Lu Yang said, "Danzhou."

"Okay, I'll get ready for the car." Black and white ran on.

Lu Yang called Lan Yu, Xia Yuwei and Qing Qian Zimeng and asked the three to accompany him out. The reason given was to return home to worship the ancestors.

In the car.

Xia Yuwei and Qing Qian Zimeng had a black line in their heads.

"Boss, why do you go back to worship the ancestors and call me?" Xia Yuwei asked angrily.

In Lu Yang's embarrassment, how could he know what the reason was, when the incident happened suddenly, he said so casually.

As he drove, he said, "That's an excuse to fool outsiders, don't ask me why, you remember, I went out this time to worship the ancestors for no other reason."

Xia Yuwei and Qing Qian Zimeng were confused, and they couldn't figure out what Lu Yang was talking about. The three girls simply talked in the back seat.

The co-pilot was sitting in black and white, and he was all confused by Lu Yang. Originally, this job should be done by a black knife. Now Lu Yang actually drives the car himself.

Lu Yang also did not explain to them that the security level in Donghai City is very high, and that it was a sudden operation at night. No one would attack him or assassinate him.

The vehicle drove for four hours. Lu Yang came to the suburbs of Danzhou and just got on a bridge. He just saw a girl standing on the bridge in the middle of the bridge and staring at the river below.

Lu Yang didn't need to guess that the girl in front of him was the wife of the King of Hell, and watching this girl was about to jump down, Lu Yang suddenly pressed the horn and turned on the headlights.

As if the girl did not hear it, she continued to move forward and jumped off the bridge. This scene was just seen by the three sisters in the car, the blue feathers.

"Someone jumped into the river and hurry to save her." Xia Yuwei shouted.

Lu Yang kicked the throttle to park the car at the riverside position under the bridge. Just stopped, Lan Yu and Xia Yuwei and Qing Qian Zimeng quickly ran to the river.

After the girl jumped, half of her body floated up, just in the position where the headlights shone.

“I’m going to save her, I’m good.” Lan Yu jumped into the river, and then Xia Yuwei and Qing Qian Zimeng also jumped in. The three women worked together to rescue the girl.

Chapter 1216 - Hell King

Lu Yang quickly ran to Lan Yu and covered her with a cotton jacket. Black and white and others also took off their coats and put them on Xia Yuwei, Qing Zimeng, and the girl. In winter, the moon was full of water. There is no frozen ice, but it is even colder, and the three women are freezing.

The girl’s face was pale, the three blue feathers did not care about the cold, and tried their best to rescue them. The girl spit a few spits of water and gradually woke up.

Lu Yang gave a sigh of relief, and said, “I’m finally awake.”

The girl looked at the three blue feathers in front of her confusedly, and looked at Lu Yang and the others standing next to her, tears streaming down unconsciously.

“Why do you want to save me? It is very difficult for me to have the courage to die. Why do I have to suffer another pain?” The girl shed tears of pain and did not struggle, as if she had lost everything.

Everyone who would rather die than face life must be severely hit in reality. When Lan Yu and Xia Yuwei heard the words of the girl, they both showed a distressed look.

Lu Yang is not the same as black and white. The things he experienced in the last life are more painful than this girl. Black and white are crawling out of the dead, and both of them have no feeling in their faces.

Lu Yang asked with a cold face, "Have you ever thought about how much this will affect your family?"

"Family!" The girl looked helpless, crying, "I'm just one step ahead of them, and soon our family will meet."

Lan Yu couldn't bear it, and said to the girl, "Don't say that, there's nothing wrong with it, you have to be strong."

Lu Yang asked, "What about the person who loves you? Have you thought of him?"

The girl lost her eyes for a while, and said hollowly, "I'm sorry, I have no face to see him again."

Black and white is the most annoying woman in this state, and frowned and asked, "How big is it, as for short-sightedness, what happened to you?"

After hearing the black and white questioning, the girl's grievances seemed to erupt all at once. How did her family get sick, how did she sell her boyfriend's natural heart to her, but she was attacked by the thorn bird organization in the middle. come out.

"It's this organization again." Black and White cursed angrily. Lu Yang had been conspired by the Thorn Bird Organization before, and Black and White knew this.

Lan Yu said to Lu Yang, "Brother, let's help her, let's get this money, OK?"

"That's a lot of money, you can't help it," said the girl, crying.

Lan Yu smiled slightly and said to the girl, "Don't worry, standing in front of you is the largest guild in the national costume, the president of the Jagged Brothers League, Lu Yang. As long as his elderly one word, your parents' surgery costs, very It's easy, isn't it, President Brother. "

Lan Yu rarely spoofed Lu Yang. Facing Lan Yu's cute face, Lu Yang had no resistance at all. Besides, he was going to help this girl this time and accepted her boyfriend at the same time. He said what to say, but he did it.

After listening to Lan Yu's words, the girl looked at Lu Yang in astonishment. Through the lights, she could see clearly that the person in front of her was the three-time global competition champion Lu Yang. She immediately knelt toward Lu Yang and cried. Said: "President Lu Yang, please, please, please save our house, you can let me repay anything."

The girl collapsed, and her dignity was abandoned when she was desperate. Now she only hopes that Lu Yang can save her family. No other things are considered.

Lu Yang quickly avoided the girl's kneeling, walked up to her and said, "Lan Yu has already promised for me, I will definitely help, get in the car first, let's go to the hospital where your parents are."

"Uh, uh, thank you, thank you, President Lu Yang." The girl felt from **** to heaven. Who would have thought that she was desperate in the first second, and everything was resolved in the next second.

Lan Yu helped the girl to get in the car, Lu Yang drove, and the group went directly to the hospital. As soon as they arrived at the ward, they saw a man rushing over and hugged the girl held by Lan Yu and Xia Yuwei.

"Oh my God, where have you been, you are dying to me." The man said angrily and distressed again.

Qing Qian Zimeng looked at the man. He looked 20 years old and was a bit childish, but his eyes were full of manhood.

"Don't see your girlfriend's body wet? Not yet looking for a dress for her." Qing Qian Zimeng frowned.

The man released his arm and looked closely, only to find that the girl was soaked, and he quickly asked, "What happened, you, what happened to you."

The girl saw that the man had collapsed, and there were only tears in his eyes. He couldn't say anything. The man was more anxious and said, "You say it."

Qing Qian Zimeng was furious and said, "I can't see that I just jumped into the river, what is it?"

"Jump, jump the river." The man was dumbfounded and quickly looked at the three daughters of Qing Qian Zimeng. They found that the three women's bodies were also wet and instantly understood.

The girl said, "Sorry, I couldn't think of it just now, these three sisters saved me."

The man looked at the three men of Qing Qian Zimeng, and Kuang Tong knelt down on the ground, and shook his head fiercely according to the three women.

The "swipe" frightened Qing Qian Zimeng.

The three women quickly shied away, Xia Yuwei said, "You don't need to do this to us, hurry up."

"Thank you, I thank you for Lanlan's parents. They can't go down to the ground, thank you." The man said respectfully.

Lan Yu looked at Lu Yang. Lu Yang signaled her not to worry. She walked to the man's side and held his arm. He said, "There is gold under the knee of a man. You don't need to kneel me, and we are not asking for your return."

The man looked at Lu Yang, blinked, and said, "You, you, you are, you are the chairman of the Iron Brotherhood, Lu Yang?"

Lu Yang smiled and said, "It looks like I have a little bit of popularity, it's me."

Holding the man's arm, the girl cried and said, "Shiming, my parents have been saved. President Lu Yang not only saved me, but also said that he would help my parents pay for medicine."

Zhao Shiming looked at Lu Yang in shock, his knees were soft, and he was about to kneel, but was supported by Lu Yang's next step. Zhao Shiming alone could not kneel.

"Chairman Lu Yang, I, I really don't know how to thank you." Zhao Shiming's tears were in his eyes.

Lu Yang said with a smile: "Passing by, I can help as much as I can, and life is huge."

He turned his head and said to Blackknife, "You stay here to help and pay for the medical expenses tomorrow. We will go back to the hotel first."

The three blue women are frozen, and they are sneezing.

Hei Dao said, "Boss rest assured, give it to me here."

Lu Yang turned back and patted Zhao Shiming on the shoulder, without speaking, turned around and took the crowd away.

The group hurried back to the hotel. The three women opened a room. After washing, the three women recovered some.

There was no speech overnight. The next morning, Lu Yang waited in the hotel. It didn't take long for the black sword to return with Zhao Shiming and Lan Lan.

"Boss, they have to follow." Hei Dao said, scratching his head.

Zhao Shiming and Lan Lan saw Lu Yang and knelt down again, but Lu Yang did not stop them this time.

"Chairman Lu Yang, the medical expenses totaled more than 10 million yuan, and the follow-up treatment was tens of thousands of yuan a month. You paid for one year at a time, and we didn't expect anything. We just hope to join the Jagged Brotherhood." Said.

Black and white happy, said: "What are you two capable of, the Brotherhood of Iron Blood is not so easy to enter."

Zhao Shiming said: "My name in the game is Zhenhei Pluto, and I was the seventh in the world in the last global competition."

Even in black and white who didn't understand the game, he was stunned when he heard this, and said with a smile, "Okay kid, there are really two hits."

Lu Yang smiled, and he did not find the mistake, the boy in front of him was really Zhao Shiming.

"Well, I can take both of you and be a guard next to me. I will pay you according to your identity." Lu Yang said.

"Xie Boss," Zhao Shiming said.

"Xie Boss," Lan Lan said.

Lu Yang stood up and said, "Let's go back. Things have been delayed last night. It doesn't make sense to go back now. Go back to the studio."

"Yes." Black and White took the man down to pick up the car.

The group quickly returned to the studio. They didn't ask Lan Yu along the way. All their thoughts were on Lan Lan. The four women were very happy talking in the back car. As for Lan Lan's parents, Relatives take care.

Re-login to the game, the town **** king found Lu Yang report, at this time he did not have any equipment, learned that Lan Lan lost the heart of nature, the town **** hell sold all the good equipment, so see It was awkward when I arrived in Luyang.

"Boss, I will soon be able to hit a sub-artifact." Zhao Shiming said with a vow.

Lu Yang Yile asked, "How do you do that?"

"That ..." Zhao Shiming bowed his head and said, "You can lend me a set of 140 dark gold equipment first, and I can single out a level 160 demigod with equipment."

Lu Yang laughed and said, "I've prepared it for you."

He patted Tu Feng next to him and said, "This is Tu Feng, the vice president of logistics in charge of the Iron Brotherhood. Many future orders are issued from him. You have to listen to his orders, you know? "

"Yes," Zhao Shiming said.

For the first time, Tu Feng saw that Lu Yang valued a person so much, and smiled and handed a storage bag to Zhao Shiming, saying, "The items in it should be all you can use at this stage."

"Thank you." Zhao Shiming took the backpack and opened it for a look. A full set of 140 dark gold shooter suits, full of enchantments and gems, and a starting capital with an escape dagger and 100 gold coins.

"Boss, thank you." Zhao Shiming could only thank him again.

Lu Yang said: "I'm going to make a copy today, let me see how good you and your wife are, and follow me."

He took two of them to the guild hall Zhuo Jiu was waiting there, there were 100 shooters beside him.

"Boss, I've got 100 shooters," said Zhujiu.

Lu Yang nodded and said, "Follow me with the teleportation scepter, or the Demon Camp."

“Yes,” said Zhujiu.

The two took out the teleportation scepter and flew more than 100 of them to the sentry tower outside the Demonized Army Barracks.

Lu Yang said, “Follow me. The place we are going to today is special. If we take the wrong step, it will be completely scrapped. Don’t let me down.”

More than 100 shooters are new rookies. When they heard Lu Yang say this, they were afraid. They were afraid that they would make mistakes in front of Lu Yang.

Continue to the east from the Demonized Army Barracks, through the ordinary 200-level monster area, Lu Yang fight all the way, took them all the way for a long time, and reached another 200-level map.

System prompt: You found Kuze Mountain

Chapter 1217 - Starbreaker Bloodline

Kuze Mountain, official history. This is a mountain guarded by the Starbreaker. Like the Demon Camp, this is also a strange story. Anyone who kills the Starbreaker shooter has a great chance to burst the fruit of the Starbreaker.

Compared to all the transfer professions, everyone thinks that the shooter in this game is weak, the ranged attack is not as good as the ice mage, and the outbreak is not as good as the fire method. The physical attack is worse than the Templar and the magic warrior. Not a little bit.

Until the appearance of Broken Star Fruit, Broken Star of Bloodline Power, the effect of this magical fruit caused the shooter to turn from the worst occupation to the most sought-after occupation instantly, and his output was simply an alien.

Only the power of bloodline is the first, and the broken star fruit can increase the 200,000 agility of the shooter in terms of attributes! This is an excessive attribute improvement. While other professions are

still struggling to increase the level of a equipped gem to increase damage, the Starbreaker does not need to buy any gems or even weapons, and it has a higher output than any profession of the same level. .

The Broken Star Fruit not only has this attribute, he also comes with a special skill that increases the damage of 15% agility, which is equivalent to an additional 100,000 damage, not counting other skills, the emergence of this profession is completely a bug profession .

At that time, if a guild had a Starbreaker bloodline shooter army defending the city, relying on the range of the Starbreaker's 150 meters, without the pure protection of defensive occupation, the opponent could not even walk 150 meters below the city.

I remember that it was the Longsway Guild of Scotland at that time, and the chairman took over 5,000 Starbreaker shooters to guard the offensive of more than half a million people from the American Skar Association in the one-eyed mountain city gate. Caused a great sensation.

Lu Yang did n't know how much he envied the Starscreamer Legion of the Longsway Guild. Now that he has a chance to get the same Starscreamer legion, how can he miss it.

"You stay here, I'll go and clean up the surrounding mobs first." Lu Yang said to the turbid wine and the town prisoner Hades and others.

The Starbreakers are all 200-level shooters with an attack distance of 150 meters. Lu Yang needs to clear a radius of at least 5 kilometers to dare to fight.

"Neighing"

Lu Yang jumped into a phoenix, and summoned the fire sword skill. He flew a small circle around Kuze Mountain, which is not a storyline. Even the level 200 attribute is not high. Lu Yang is easy to kill. He was cleaned up in 20 minutes.

He came to the entrance of Kuze Mountain. The **** began. There were rotten and dark trees everywhere. Among these trees, there were many black monsters with bows and arrows, and they looked like an Avatar monster.

Starbreaker Shooter (Elite)

Level: 200

Qi and blood: 50000000000/50000000000

“Don’t come over, their range is 150 meters, they will be found before they get close, and they will die when they are shot.” Lu Yang said.

Even him, he couldn’t carry the three arrows, because these Starbreaker shooters are all in the power of level 3 blood, with 600,000 agility alone, and Lu Yang had blood after just one critical strike.

Zhuo Jiu and others originally wanted to get closer. When they heard Lu Yang’s words, they stopped and asked, “How do you fight this?”

Lu Yang smiled and said, “Look at me.”

Normally, you can’t beat it normally, but there are always such points in the game. After you get stuck, no matter how the enemy attacks, you can’t hit you, such as a stone house 1 km outside Kuze Mountain.

The NPC IQ of the game is very low, especially for long-range shooters. If you hide in the house, they will rush into the house. However, the house can only accommodate a limited number of people. Only 2 can attack the muddy wine.

When the Starbreaker shooter is approached by the enemy within 10 meters, all his bonus effects disappear, and only physical attacks can be used. The Starbreaker who uses bows and arrows is powerful and can be replaced with a physical attack. Starbreaker Attack power dropped by more than half.

Lu Yang took the muddy wine to the outside of the house, and threw a guarding heart to the muddy wine, saying, “You are hiding in the house, and the rest are back to 1000 meters away.”

A level 9 guardian can barely block the close-up attacks of two level 200 starbreaker shooters. Lu Yang turns his head to look outside the house, and reads a spell in his mouth. Pieces of lava erupted on the ground in less than 2 minutes. , Forming a huge sea of fire with a length of 100 meters each.

“Neighing”

Lu Yang jumped into the air and turned into a phoenix. He flew into the Kuze Mountain. He controlled his body at a height of 150 meters. At this height, as long as he was close, a 200-level Starbreaker could find him. However, when the Starbreaker shoots upward, the bow and arrow cannot reach a height of 150 meters. According to the rules of the game and according to the rules of gravity, it can only reach 140 meters.

“There are intruders, there are intruders, starbreakers, prepare, shoot.” A starbreaker saw Lu Yang, sounded the horn on his hand, and ordered the surrounding shooters to attack.

There are many starbreakers in Kuze Mountain. When Lu Yang flew by, the arrow rain below was like a wall, and he shot at him densely.

If he didn't know, he was really stunned by the arrow rain, but he knew the opponent's NPC range, and he didn't have any scruples, so he flew straight, and pulled the Starbreaker shooter back to the house.

“flicker”

About 100 meters away from the house, a white light appeared on Lu Yang's body and jumped into the house, and the shooter who chased did not care about the sea of fire rushing in.

The muddy wine originally hid on the side of the doorway of the house. When the first Starbreaker rushed over, he flashed and blocked the door, blocking the Starbreaker outside the door.

“Human, you will die under the arrows and hearts.” The headed Starbreaker raised the wooden stick in his hand and smashed his head against the muddy wine.

“Shen Yao”

The dazzling light will stun all of the leading Starbreakers. This is a range control skill for 30 seconds.

Lu Yang took the opportunity to read the spell in his mouth.

“Meteor Fire Rain”

“The flames burn out”

...

Several big skills were thrown out in a row He sat on the ground and waited for half an hour, a system prompting the voice of the Starbreaker to kill the screen, Lu Yang looked outside, tens of thousands of broken stars All are dead.

Lu Yang took the muddy wine out of them, beckoned, and Hades and the 100 archers quickly came over.

“Pick it up, and hand it over after picking it up,” Lu Yang said.

More than 100 people ran around to pick up, and soon someone found the Fruit of the Starbreaker.

“Boss, this is the fruit of the Starbreaker who can change jobs.” A shooter shouted excitedly.

Lu Yang said: “Gather it together and hand it over.”

More than 100 people gathered in a circle and gathered here in Lu Yang. There were more than 3,000 Starbreaker fruits.

“Everyone ate it, and brought the rest with me.” Lu Yang said.

“Oh.” More than 100 people each ate a Starbreaker fruit and became Starbreaker shooters.

Chapter 1218 - Sun Moon Bow

“My God, this Starbreaker’s bloodline is so tyrannical, adding 200,000 agility.” Said the King of Hell, the stunned.

“There is also a long-range attack halo, which adds an additional 15% damage. It’s too explosive. Our shooter has risen.” The shooter said in the shadow of a moon.

The turbid wine allowed the shooter to send him the effects of the power of bloodline. After seeing the improvement of various attributes, the turbid wine also showed a surprised expression.

“It’s too strong,” Zhuojiu said to Lu Yang.

Lu Yang said with a smile: “There can be at least 10,000 Starbreaker bloodline fruits in it, all for you.”

“Xie Boss.” Zhuo Jiu said excitedly. With the blood of the 10,000 Starbreakers, plus the blood of the former Divine Warrior, the Duo Jiu feels a level 140 copy is not difficult.

Lu Yang said: “Then your task will be a little heavier. Although I still let you take charge of the defense, in fact, in the future battles, your players will be the main force.”

Judging from the turbid wine, Lu Yang’s operation was equal to the selection of the new army, and he was the first group to be selected from the new army. When the new army is fully formed, this will be an extremely horrifying army.

“Boss rest assured, I will not disappoint your expectations.” Zhuo Jiu said excitedly.

Lu Yang nodded and said, “Let’s go on, everyone is back in place.”

“Yes.” The town prisoner Hades and others ran a kilometer away and continued to ambush.

Lu Yang continued to fly into the Kuze Mountain to pull monsters in accordance with the previous method of pulling monsters. However, after Lu Yang cleared the wave of monsters, a shooter responsible for picking up equipment screamed and ran towards Landing Yang.

“Boss, I’m curious, there are two lords running over there.” Gu Yingyue shouted.

Lu Yang: “...”

Mud wine: “...”

“Your sister, hurry up and leave me in place, you want to pit us all.” Shouted Zhuzhuo.

Gu Yingyue reacted after this and shouted, “Oh, I see.”

He stood in place, and soon, the two lords chased him. Both of them were the same height as ordinary players, a golden shooter and a silver shooter.

Marksman Yaoi

Level: 200

Qi and blood: 100000000000/100000000000

“The bow of the sun and the moon.” Lu Yang smiled at the corner of his mouth and shouted, “Lone shadow moon, continue to run over, don’t die.”

“Ah ~!” Gu Yingyue shuddered, and then immediately jumped up and ran over towards Luyang.

“Boss, why did you ask me to come here ~~~, I will hurt you ~~~” Gu Yingyue shouted.

Behind the Sun and Moon **** bow, the nearer it was, it was almost 300 meters.

Zhuo Jiu said: “Boss, these two lords are both level 200. Do you have a way to kill them together?”

Lu Yang shook his head and said, “No.”

“That?” Zhuoju blinked, and the other shooters were nervous.

Lu Yang pointed to the town’s **** king: “I can kill one, he can pull one for me.”

“Haunting Hades?” The shooters looked at him in surprise.

The Pluto King didn’t feel timid, and asked, “Boss, what skills does he have?”

Lu Yang said: “If there is only one person, his attack is a single bow and arrow, but the speed is very fast, the range of 300 meters, the reaction from shooting to you is only 0.3 seconds, can you do it?”

“The rate of fire of the bow and arrow is 0.3 seconds, which is too much.”

“It only takes 0.3 seconds for 300 meters. How can this be played?”

...

All the shooters were stunned.

The King of Hell said, "I can hold him for 30 minutes. After 30 minutes, I can't keep up."

Lu Yang said, "It's enough. In 30 minutes, I will kill the sun striker and go together."

He ran towards the Sunburst Archer. At a distance of 100 meters, he raised his hand and hit a comet and hit the Sunburst Archer.

"boom"

The shooting striker of the Sunburst paused for a moment, his uncle's face looked at Lu Yang, just raised his hand, and a light and shadow skipped the space in an instant.

"flicker"

Lu Yang turned into a white light and flew to a location 100 meters away.

"Escape The Dagger"

Lu Yang threw out the escape dagger while he shot the second arrow, and a side flip of the body avoided the arrow.

A blue light flashed, Lu Yang appeared 110 meters away, and he successfully ran out of the attack range of the Yaori shooter.

"Blazing Blaze"

There was a flame at Lu Yang's feet, and he ran into the small house quickly. At this time, the muddy wine stood outside the house. Once Lu Yang was in danger, he was able to rescue in time.

Gu Yingyue and other shooters also stood outside to watch.

Lu Yang stood in the house and said, "Don't take part in the battle. The two lords can shoot as many bows and arrows as they can. It's a 300-meter attack. As soon as you enter the battle, you will either kill him or be killed. "

Gu Yingyue waited quickly to step back.

Lu Yang took a deep breath and listened to the sound of footsteps approaching gradually.

"Yanyang mask"

"Lava Eruption"

"Lava Eruption"

Two consecutive lavas erupted, spreading the flames of the room in a straight line, and at the same time, the footsteps became louder and more rapid, and this rapid sound made the heart beating unconsciously. This is a level 200 lord. In such a small room, the opponent's attack speed is still 0.3 seconds. As long as there is a mistake, it will be seconds.

At this time Lu Yang did not dare to show his head to look outside, because in 0.3 seconds, he could hardly see anything outside, so he could only listen.

Footsteps rustled continuously, getting closer and closer, just as it seemed to be outside the doorway, Lu Yang suddenly spelled out.

"Meteorite Impact"

A reddish meteorite on the beam of the house fell down, and at the moment when it landed, a phantom rushed into the door with a phantom.

“Angry Skills-Devil Slash”

A reddish ray of light hits the body of the Yaori shooter, and the attacked Yaori shooter slams backwards. When he was in the air, Lu Yang kept shining.

“Blazing Heart”

A blazing white flame hit the body of the Sunburst Archer. At the same time, each time the Sunburst Archer stepped back, he was hit by a meteorite and burned once by the flames on the ground.

“5128366” (Critical Strike)

“2136666” (Critical Strike)

“2136666” (Critical Strike)

...

For 8 consecutive attacks, Yao Sun’s body hit the wall, and Lu Yang got 5 points of anger.

“噤”

The Sunburst shooter fell into rigidity, just at this moment.

“Naruto”

22 small melting bombs in the sky hit the head of the sunburst shooter stunned on the ground, and Lu Yang added 2 points of anger to 27 points.

“336666” (Critical)

“336666” (Critical)

...

Just when the Sunburst shooter was about to wake up.

“Remnant Flame-Activated”

Lu Yang turned into a red light and came to the shooter of the sun, and the magic wand in his hand suddenly bloomed extremely brilliant light.

“Rage Skill-Dance of Red Snake Strangling”

With Lu Yang’s right hand as the center, the magic wand in his hand spun wildly. While spinning, the magic wand burst into a fiery red flame, which continued to stiffen the sunburst shooter who just woke up again.

Level 2 wrath skills, the damage is extremely powerful, Lu Yang’s first hit with a crit, causing more than 3 million damage, and then each attack is normal 30%, but because Lu Yang more than 90% crit chance Each attack is explosive. Seven consecutive attacks have hit nearly 7 million damage, including the total damage of the first hit, which is more than 10 million.

In addition to being burned for 4 seconds, while dealing 10 million damage, it added 4 points of anger to Lu Yang. Now Lu Yang’s anger value is 21, and two anger skills can be released. .

Lu Yang was not polite, and the spell in his mouth was read out again, just as the shooter of Yaori got up.

“Hot Boxing”

He punched the body of Yao Sun’s archer with a punch, and originally leaned against the wall. This time the attack hit the Sun Archer against the wall, flew up, and landed behind Lu Yang.

“Earth to Earth”

Lu Yang said in his mouth that as soon as the Sunburst Archer fell to the ground, a cloud of flames rose into the sky and continued to fly backwards.

“Destroy Heavy Artillery”

The skill released with a delay of one second was played when the Sunburst shooter flew to the highest point, and was centered on the position of the Sunburst shooter, moving it backward by 10 meters.

“Earth to Earth”

A second flame blasted into the sky, and the scorching shooter continued to fly backwards.

“Naruto”

There were 22 Naruto bombs falling on the beam of the house, but it was not the aim of the Sunburst shooter, but the furthest opposite wall.

“Earth to Earth” (Reverse)

Taking advantage of the delay of 1 second, Lu Yang uttered a spell in his mouth.

“Remnant Flame-Activated”

A ray of light landed on the sun and reached the landing place of the Sunburst shooter. Each ground fire can only crash the target backwards by a distance of 10 meters, and the ground fire's attack distance is 20 meters each time. This requires land Yang assists other skills.

“The Sun Fist”

Lu Yang punched the body of the striker in the left hand with a punch, hitting it backwards for 10 meters and just hit the wall, just after landing, 22 Naruto bombs fell in the sky, then the flames on the ground crashed into the opposite direction. , Flew over in the direction of the landing sun.

“Hot Boxing”

With a phantom left, Lu Yang just caught the shining sun shooter who was about to land, and rushed to the front wall with him.

“boom”

The Yaori shooter's body rebounded and flew up, fell over the body of Lu Yang and fell to the ground, stunned for 2 seconds.

“Pyroblast”

“Pyroblast”

...

For 4 consecutive pyrotechnics, Lu Yang accumulated 4 points of anger, plus the anger from the previous set of skills, as well as the flames on the ground and the flames on his body, his anger value returned to 22 .

On the other hand, the shining shooter on the opposite side had not attacked yet, and Lu Yang was killed by more than 500 million.

“I’ll wipe it out, the boss’s combo skills are too horrible. If anyone is connected by him, a set of skills will definitely die.” Gu Yingyue said.

Zhuo Jiu said: “Everyone learns. You are the first master in the world. Although their careers are different, how many people can dream of it, don’t miss any details.”

“Yes.” Gu Yingyue waited quickly.

“Strange, haven’t you seen the Hell King? Is he not dead yet?” Asked a shooter called the light and shadow power.

Everyone then remembered that the Hell King of Hell was pulling another 200 level lord to run over the map. This kind of thing, they couldn’t do it because they knew how strong they were, and they did n’t have a 0.3 second reaction speed. have.

“Look, over there, I wiped it, and it was also a super big coffee, this dodge speed is absolutely impossible.” Gu Yingyue said excitedly.

The crowd looked in the direction of the fingers under the shadow of the lonely moon. From a distance of 100 meters, the Hades of the prison was running horizontally, changing positions every 0.3 seconds, beating quickly in front of them like a phantom.

“Where did the boss find the monster? It’s too strong.” Light and shadow power said dumbly.

Zhuo Jiu said: “You don’t know yet, this person is the seventh in the world in the individual heads-up competition of the last global competition.”

“Fuck.” Gu Yingxia and the light and shadow power and others were silent for a while. They originally wanted to compete with the Hell King, who played games. No one was better than anyone, but they knew the other’s world ranking.

The world ranking can't be fake, especially the world ranking at the contest, the seventh in the individual competition, they can only admit that there are really more people in this world than you, the seventh in the world, that is one they will never dare Achieved height.

Anyone who has ever played in the arena knows that those who have the ability to enter the world's top 100,000 people are all first-rate masters. At this stage, who has played who has played partly by chance and others status.

But I want to enter the top 50,000 in the world. At this step, there is no trace of luck. They are all top powerhouses. But this is the seventh in the world. They do n't know how to say it anymore. They just want to follow this big guy. Study hard, there is no need to think of confrontation.

Zhuo Jiu said, "I'm going to apply with the boss to make them the chief of your army. Do you have any opinions?"

"No."

"No."

...

Just kidding, who is the seventh commander of the legion in the world, isn't that uncomfortable?

Zhuoju nodded with satisfaction and looked into the room. At this time, Lu Yang was about to be 22 angry points.

"Ghost Fire Lamp"

Fourteen ghost fire lamps flew out of Lu Yang's body, collided with the shining sun shooter who had just stood up, and continued to fly backwards, eventually landing on the opposite wall.

“Damn man, I’m going to kill you.” Yaori Archer was so angry that he couldn’t use his bow and arrow at this distance and quickly retreated.

“Polynuclear explosion”

Suddenly, Lu Yang’s body burst into flames, and then a spell was spoken in his mouth.

“Remnant Flame-Activated”

Lu Yang flew in front of the Yao Sun shooter with a light 0.2 seconds before the Yao Sun shooter had just put on his two-handed sword and was ready to pierce Lu Yang.

“boom”

A fierce shock wave erupted in Lu Yang’s body, retreating back and forth from the sun striker.

“Naruto”

Even at this time, Lu Yang did not forget to use small skills to disgustingly shine the sun shooter.

“Remnant Flame-Activated”

Lu Yang jumped in front of the Yaori shooter. At 30, his rage was full, and he could release his combo.

“Rage Skill-Dance of Red Snake Strangling”

The Yaori shooter had just stood and was turned 8 times by the circle of fire again. Just after landing, Lu Yang threw another Naruto bomb and read the spell in his mouth.

“red lotus”

Chapter 1219 - Magic Device

The Sunburst shooter was again controlled by Lu Yang for 3.3 seconds, and the flame petals of the sky stunned him. During this period, due to the relationship between the three continuous skills of the sun shield, lava eruption and ghost fire light, each second increased by 3 Click on the anger value.

The Dance of the Red Snake Strangling and Honglian together controlled for 7.3 seconds, and Lu Yang's anger value returned to 21 again.

“red lotus”

Lu Yang once again launched the skills of Honglian. While there was a ghost lamp, he wanted to brush his anger skills infinitely.

“red lotus”

“Meteorite Impact”

“red lotus”

“Meteorite Impact”

...

The ghost fire lamp lasted for 1 minute. Lu Yang brushed the lord for one minute. During the period, two heart-burning flames were released. When the ghost fire lamp was over, the lord's health was destroyed by 2.7 billion blood. the amount.

One second before the end of the ghost light, Lu Yang said a spell in his mouth.

“Rage Skills-Hot Fist”

He punched the left-handed shooter in the left hand, slamming it into the wall, and bounced to the other side of the wall.

“Earth to Earth”

“The Sun Fist”

...

The previous set of skills was repeatedly played by Lu Yang.

Zhuo Jiu and Gu Yingyue waited for Lu Yang to beat the 200-level lord Yaori shooter from the left to the right and then from the right to the left in this narrow, 60-meter-wide room.

Under the attack over and over again, just over half an hour later, the Yaori shooter whimpered and fell to the ground.

System prompt: You killed the Sunburst shooter!

“Success!”

“The level 200 lord is just hanging up!”

“My God, the boss is so terrific. Am I dazzled? How can this be done?”

...

Gu Yingxia and Guangying Dijin are all dumbfounded.

Zhuoju came to Lu Yang’s side and asked with concern: “Boss, it’s okay.”

Lu Yang said, “It’s just a warm-up. What about the Hell King?”

The crowd looked outside, and a voice came from their right.

“Boss ~~~! Help me ~~ , I ca n’t hold it, I have to hang it ~~~~!” Hell shouted sweating in his throat, but his feet were not slow, but still every 0.3 The speed of side movement once every second to avoid the attack of Teruyuki Archer.

More than 100 shooters such as Lone Shadow Moon and Light and Shadow Power were dumbfounded again.

“I’m going, it’s too strong.”

“Run for more than half an hour, not dead.”

“It’s worthy of being a master, serve.”

...

Lu Yang listened to their discussions, with a smile on his face. He believed that it wouldn’t take long for the Pluto King in prison to be able to gain a foothold inside the Brotherhood of the Iron Blood.

“Ready, I’ll replace you.” Lu Yang said to the Hades of the prison.

“Oh ~~~” Pluto of the town prison jumped for a while, avoiding the bombardment of the shooter of the moon.

“Remnant Flame”

Lu Yang left a residual image in place, and instantly jumped to a position 100 meters away from Huiyue Archer, where he spelled it out in his mouth.

“Comet Impact”

A crimson comet dragged a long tail of fire toward the open space ahead. Just when everyone didn’t understand Lu Yang’s move, Huiyue Sagittarius seemed to hit it intentionally, impartially, The body just hit the comet that just flew.

“boom”

A small air wave burst out of Huiyue Sagittarius, and there was an air wave above his head, like a mushroom cloud.

“Human mage, you’re offended me.” Huiyue shooter gave up shooting Hell King in prison, turned his head and shot the landing sun is an arrow.

“activation”

Lu Yang’s body flew back to the room with a reddish light, and he said to the muddy wine, “Take them to a distance.”

Zhuoju nodded, and hurried to the outside of the house. They led Gu Yingyue and others to a distance of 100 meters. They watched Huiyue shooter come over and entered the room.

“Magic Slash”

...

In the room, Lu Yang once again presented a wonderful output of extreme combos, and the Pluto of the prison prison reluctantly ran over and sat on the ground watching the situation in the room.

“It’s okay, should you take a break off the assembly line,” asked Zhuzhuo.

Zhenhe Pluto shook his head and said, “There is still 92% of consciousness connection. I can still hold it for a while. When the boss finishes playing, if there is any situation, I can still take my hands.”

Zhuo Jiu smiled and said, “Boss is all right there. He just moved his body during that half an hour, and then he started to exert his strength.”

“Just just warmed up?” Hell-headed King of Hell, dumbfounded, let him output a lord for half an hour in a row, and he couldn’t move the other side. What a powerful control and skill control this requires, a slight mistake, the previous efforts In vain.

Not to mention the computational stress, the psychological stress alone is unbearable. Why did he feel unbearable when he exercised continuously for half an hour? On the one hand, he usually did not go through this exercise, and the other was Psychological stress.

Once the lord shoots him dead, he will kill Lu Yang. How dare he go wrong, so he ran for half an hour, only 92% of the conscious connection was left, and he was on the verge of going offline. He is already very proud that he is second only to Lu Yang in the Iron Brotherhood.

Ke Zhuojiu said that Lu Yang had just warmed up, which made him dumbfounded. He couldn’t help looking at the room in shock. As if he hadn’t experienced a big war just now, he quickly combed the lord monster.

1 minute

5 minutes

10 minutes

...

30 minutes

The prison king of the prison just watched Lu Yang's attacks again and again, without any mistakes, the lord blame Huiyue shooter was killed on the ground.

System prompt: You killed Terutsu Archer

Lu Yang gave a sigh of relief. He looked at Zhuo Jiu and others and said, "Come here, it's all done."

Pluto King Zhenran rushed to the door and looked at Lu Yang and said, "Boss, are you okay?"

Lu Yang asked, "Is there anything I should do?"

The King of Hell said: "You have been fighting for more than an hour. You are not tired after such a high-intensity battle."

Lu Yang smiled and said, "It seems a bit."

The King of Hell, the depression, found that he seemed to have come to another world. This was a completely different place from his original world. Here, there appeared a person who needed him to look up and look up again.

"Boss, you are really too strong." Hell King Zhenzhen said from the heart.

Zhuoju laughed and patted his shoulder and said, "In the future, you will see more people who are as powerful as the boss. Several of them have the ability to fight high-intensity, no worse than the boss."

He was talking about Han Yu 's twelve little guys, all of whom are space thieves. They usually exercise more intensely than Lu Yang, and they have been using space to jump and move in the game. He couldn't beat the third one, but they suspected that it was Han Yu that they deliberately let Lu Yang go. In the real case, two people could definitely fight Lu Yang to death.

Hell King Zhenzhen nodded in shock and said, "Oh."

Lu Yang found that the self-confidence of Hades in the prison was somewhat hit, and said with a smile: "Look at the equipment first. I seem to have hit a special treasure."

"What baby?" Zhuo Jiu asked in surprise, something that Lu Yang could call baby must be something extraordinary.

Lu Yang opened his hands, holding the upper half of a bow and arrow on the left and the lower half of a bow and arrow on the right.

The first half of radiance

The lower part of the glory · Huiyue

The two weapons have no attributes and no hints.

"Is it synthetic?" Asked Zhuzhuo.

Lu Yang nodded and said, "Wait for me, I'll go back and synthesize."

The light flashed, Lu Yangfei returned to the demon temple, came to the altar, and put the two fragments of the **** bow on it.

System prompt: whether to choose synthesis

Lu Yang's choice was that a flash of light flashed and a brand new bow and arrow appeared in front of Lu Yang. He returned to the ground and held the bow in his hand.

Everyone rushed over to observe.

Magic Device

Grade: 9

Physical attack: 10000——10000

Strength: +800

Constitution: +300

Additional physical attack: +3000 points

Description: This is an upgradeable bow and arrow.

“Well, no, the weapons exploded by the level 200 lord are still synthesized, even if they are not artifacts, they have such a little attack power.” The light and shadow power said silently.

“Yeah, it's too low, what's the situation?” Gu Yingyue asked.

Zhuo Jiu said, “Look at the back, this is an upgradeable one.”

Lu Yang smiled and said, "Yes, this weapon can be upgraded, up to 20 levels. After he reaches level 10, the attack will be reflected."

The magic bow, the baby of the last life, when it appeared, some people speculated that this weapon was an extremely powerful attack equipment. Some people immediately looked for related things. After searching for them, they finally found upgraded items. Something called Ascension Stone can raise the level of the magic bow.

With each level increase, the magic bow's attributes have increased several times. In 10 upgrades, his attack power has surpassed the 160-level sub-artifact, which is only lower than the extremely rare and almost burst artifact attributes. one tenth.

Artifacts are another matter in this game. Each one has special effects and strength. Even 160-level artifacts are better than 200 dark gold attributes.

Of course, it is almost impossible to obtain a 160-level artifact, and the probability that this magic artifact wants to be obtained is not much different from that of the artifact.

I remember that in the last life, after everyone reached level 200, 3 billion players around the world could not play a magic weapon in a day, and the grade of the magic weapon determined what height the magic weapon could eventually rise to.

For example, Lu Yang's magic weapon is 9th level, which means that the magic weapon can be upgraded to level 160, which is already fortunate. Some people's magic weapons can be upgraded to level 130.

Lu Yang put the magic weapon · Huiyao in his backpack and said, "I won't give you this weapon first, and see your future performance. Whoever performs well will be the weapon."

Gu Yingyue and other people originally thought that this bow and iron would be given to the prison **** king, but Lu Yang said that, but they all showed an excited expression.

"Hey, it must be mine."

“mine.”

“I’m going to fight too, baby.”

...

Lu Yang laughed and said, “I hid to a distance of 1 km, and I continued to blame.”

He turned into a phoenix, and continued to fly into the interior of Kuze Mountain, spending several days, pulling hundreds of strange monsters in a row, and obtained 10,000 certificates for Zhuojiu.

“Boss, I feel my shooter team is going to be arrogant this time.” Zhuo Jiu said excitedly, even if calm as he was, facing 10,000 Starbreaker bloodlines, he couldn’t help but be proud.

Lu Yang said, “Get here today, let’s go back first.”

“Yes.” The turbid wine immediately formed the team and took people back.

Lu Yang took out the teleportation token and flew back to Tianyuan City with a flash of light. As soon as he landed, he saw that the entire Tianyuan City had entered a cheerful scene.

There are red lanterns hanging in front of the houses of the piles of houses, and the couplets are attached to the doorways. The NPCs in the scene are wearing cotton jackets, and each NPC’s face is beaming.

There is only one situation to see this scenario, and that is-New Year!

Huaxia has ushered in the Lunar New Year. As the main city that imitates Huaxia, Tianyuan City deliberately imitates the Spring Festival. Almost all the players of the Brotherhood of Brotherhood have been off for the past few days, but most of them have not rested, but stayed in the game to step up. Playing games.

Guild Hall.

Lu Yang slowly walked out. He is going to a banquet now. This is a woman of six nationalities-Alice, a dinner hosted in the game.

In this month, many changes have taken place inside the game. First, the G8 has completely completed the integration and turned into a super guild formed by a round table of sixteen people. Eight of them are the presidents of major guilds. Eight other people are investors in this guild, which are the big private banks of various countries.

At this point, the actual control area of the Group of Eight is larger than Lu Yang's Jagged Brotherhood, and its population far exceeds the population of Lu Yang. It has become one of the top ten super guilds in the New World. Among the other nine, Lu Yang and Liu Jie, the remaining seven, are all south of Tianya Mountain, and are not bordering Lu Yang for the time being.

Lu Yang was able to play comfortably for a month. Thanks to the internal power struggle for the G8, on the other hand, their player level has not reached 140, which is not suitable for war.

Nowadays, neither of the two super grand guilds has the idea of going to war easily. On the one hand, they will not fight against each other until they have the strength to win. However, there are still small wars, such as here in Tianyuan God City.

Because of the Lunar New Year, the official release of a New Year task, called New Year's Beast, when the system is on time every day, the system will flash a large number of firecrackers and New Year's beasts on the map of Tianyuan God City and surrounding areas.

The health of the Year Beast is only 1 point, but it is immune to all attack modes of the player. Only by using firecrackers can you scare away the Year Beast, and the experience value of each Year Beast is ten times the experience of other monsters of the same level. Therefore, in order to **** the Firecracker And the year of the beast, it triggered a new round of war.

At present, the major guilds are overthrowing outside Tianyuan God City. Several super-powerful players are not convinced by anyone. As soon as the firecrackers are brushed off, all parties fight hard. As a result, the player's level is not only because of the firecrackers. With the year of the beast to quickly improve, but the level dropped faster.

It was at this time that Alice appeared in time. As a woman of Six Nations ancestry, this beautiful mixed-race woman who has just finished her 29th birthday, has a beautiful figure and a peerless appearance, shows her magical side.

Of the ten strongest guilds in the New World, four sold him, and the presidents of the other large guilds were countless. Even if Lu Yang did not want to participate in this meeting, he had to come here because of the four strongest guilds. Otherwise, the frontal attack of the four strongest guilds is to meet the Brotherhood of the Iron Blood.

He is not afraid of the new continent, the enemy can't get over, but Tianyuan Shencheng will let the players of the Brotherhood of Iron Blood not stay, not only him, but the other presidents also think so, so this time there are more than 100 people, They are all presidents of guilds.

Lu Yang sighed as he walked, "It's a great woman who can borrow so much."

Just arrived at the door, Lu Yang saw a 160-level elf player wearing dark gold-level equipment standing there, smiling with a smile to greet every chairman who entered the door.

"Chairman Lu Yang, you are here too." Japanese player Sanyou Weimen walked over with a smile.

Lu Yang laughed. He knew that the Sanyou Guardian was a smart man. After the Japanese player defeated the old continent, Sanyou Guardian took the opportunity to establish a super guild. After entering the New World, he smartly chose his position. Seems to be the hardest part of Central.

However, the central region is special. It has Tianya Mountain on the top, Heishui River on the right, and it is very far on the left. It takes a few days to enter the territory of the first guild on the left. The distance below is also very far. Very quickly, annexed quite a few small guilds, created a very large empire in the central region, second only to his iron brother brothers, and is one of the ten strongest guilds in the New World.

Lu Yang smiled and arched his hand, and said, "Can you come? The four super guilds have jointly issued a statement."

Sanyouweimen guessed that Lu Yang came for this reason frowned and said, "I am also for this reason, Your Excellency Lu Yang, do you know the details of this woman? How can there be so much energy? ? "

Lu Yang shook his head and said, "It's totally unclear. I'm thinking about **** the G8. How can I think of the others? Suddenly, I was disturbed by such a woman who didn't know where to come from. I still want to ask you Do you know any news? "

Mitoemon thought for a while and said, "I don't know much, just know that his company is responsible for intelligence in the game."

Lu Yang said, "In other words, this woman is an intelligence trafficker."

Sanyou Weimen nodded and said, "You can say that, I heard people say that his intelligence network is very extensive and spreads all over the New World. But he is an intelligence group and shouldn't care about such a big thing. I don't know what he wants. What are you doing. "

Lu Yang nodded and said, "Let's go in and see what the woman is going to do."

Sanyouweimen nodded, and the two walked in together. At the door of the 160-level sub-artifact elves master, they came down to the third floor of this hotel. As soon as he entered the door, Lu Yang saw an old acquaintance in a room.

Chapter 1220 - The Mystery of Peach Blossom Island

Eight people including Blood Butcher, Kerim, and Daniel sat side by side at a round table. On the other side, Liu Jie, Park Renyi, Tianlong, and others sat at another table. Both people saw Lu Yang coming. An angry look was revealed.

Lu Yang laughed, too lazy to take care of them, and led by the Elven players went to another table. At this table, there were people who did not interact with Lu Yang at present. They were also the top ten guilds. One of the presidents, a group of people saw Lu Yang coming, and stood up and greeted each other with smiles.

“President Lu Yang, I guess you will come.”

“Haha, Ms. Alice really has face, and the most prosperous Lu Yang is invited.”

...

Lu Yang arched his hands and said, “Just bury me, that is, you have fought a few victories recently, and have just stood firm. Unlike you, you have dominated the party for so long.”

“Haha.” Everyone laughed, while Liu Jie and the G8 sitting not far away were angry.

“Damn it, I’m going to him.” Korim scolded.

“Don’t be impulsive. This is Alice’s private house. He has the right to clear you out.” Daniel said.

Gherga, the president of the G8 Mexico guild, sneered, saying, “Going is shameful, so sit back and relax.”

Corem sat back in his hated position.

At this time, a woman in a beautiful dress in the middle of the stage came up elegantly and said, “Presidents, thank you for coming, the young girl really feels prosperous.”

Lu Yang looked up and found that the woman on the stage did have something special. It was really beautiful. Unfortunately, this woman’s background was too deep. It was definitely not an ordinary woman. Remember that it was still in the last life. Just like today, when several major guilds were fighting, there was such a woman. She wandered between the major forces, sometimes helping them mediate grievances, and sometimes selling intelligence for them.

In less than two years, the woman has relied on the money earned from these grand guilds, annexed countless small guilds, and turned herself into a super guild. She inserted the timing very cleverly, at the level of everyone She only started when she reached level 200. At that time, everyone’s level was the

same, and the equipment was not much worse. A few words of her caused the world to chaos, and he even snatched the strongest guild's site. Half.

At that time, some people said that this woman absolutely depended on her own strength, but that was completely a fool to believe, but no one knew who the woman's background was. When the major strengths were disputed, the woman would never reveal the last card. Keep that bit of mystery.

The main thing is that no one was able to let him reveal his final hole card. Even when Lu Yang died, no one could figure out what the identity of the woman was, but it was certain that he was not a single nationality. In other words, there may be more than one force behind him.

Lu Yang watched the woman on the stage whispering the words of the mediation parties, and he said to the Sanyouweimen around him, "Do you agree?"

Sanyou Weimen said respectfully: "Of course I hope there is such adjustment. At present, the parties are playing too chaotic."

Lu Yang smiled and didn't speak.

After Alice had spoken, she asked, "Do you all agree with me?"

No one spoke on the court, and everyone looked at each other. Alfonso, the president of the Spanish Guild of Kings League, stood up and said, "I agree with Alice. It is really too messy now. We should divide our positions. However, All of us here cannot fight. "

"Yes."

"That's right."

...

The presidents of various large guilds who came to participate in the meeting responded one after another.

Alice smiled with satisfaction, walked off the field gracefully, and gave Alfonso a wink, but she went to Lu Yang with a glass and said with a smile: "President Lu Yang, you think."

Lu Yang froze. The woman was so daring, she even asked him to apply for open body contact. This kind of spiritual touch is not different from touching the body.

If this woman sits in Lu Yang's arms, Lu Yang feels, and this woman feels the same.

Lu Yang nodded, stood up with a smile, looked at everyone, cleared his throat and said, "I agree with Alice very much. How difficult it is to upgrade this game. What is the purpose of our association, not just for everyone Combine your strengths so you can upgrade and not be bullied, right? "

"But what our combined forces are doing now is attacking each other. This not only does not improve the upgrade efficiency, but many people have also come down in level and pulled a lot of hatred. Why?"

Why didn't Alice think that Lu Yang chose to refuse, but she covered up the inner shock well and said with a smile: "Thank you, President Lu Yang, Your Excellency Sanyou Weimen, do you agree?"

Sanyouemon was still respectful and polite, saying, "I have no opinion."

Alice crossed Lu Yang and asked one by one. The people at the scene's top ten strongest guilds had no opinion. Alice said with satisfaction: "Since this is the case, let's sign a contract here and divide the area."

A map appeared in the central area of the stage, with a nearby map centered on Tianyuan City.

"You have any ideas you can speak freely." Alice said.

Kriem frowned, and asked, "Miss Alice, there are eight directions in Tianyuan City. We have ten super guilds. How are you going to divide them? Also, there is a small map on Taohua Island. Wouldn't it be unbalanced there? "

Everyone nodded The refresh point of firecrackers is only the area from Tianyuan City to the surrounding 140-level map, which is not good.

Just before Alice was about to speak, Lu Yang stood up and said with a smile: "So, the area of Taohua Island has given us the Brotherhood of Iron and Blood. I have a bit of a loss, so I won't rob you of this upgrade opportunity."

As soon as the words fell, everyone, including Kerim and Liu Jie, looked at Lu Yang with suspicion.

Alfonso said with a smile: "Lu Yang, don't fool around, do you find something good there and want to swallow it alone?"

Lu Yang smiled and said, "What about this place for you, I'll change it for you."

Alfonso frowned. He couldn't figure out what Lu Yang really thought. If Lu Yang deliberately deceived people, it would be a big loss. He said with a smirk: "No, if you really do, you have to fight it down, I Don't mess with you. "

Alfonso was on the far west side of the New World and had not had conflicts with the Brotherhood of the Iron Blood, so he was too lazy to interfere with Lu Yang because of these things.
