

Wild Fire 121

Chapter 121 - Easy kill

If it weren't for the flame storm, Lu Yang really didn't dare to fight the dead wizard today, because 11 skeleton archers attacked for the second time after he flashed, he couldn't escape at all, but now Lu Yang is not at all fear.

"Flame Storm"

The moment the 20 skeletons were about to attack, a black ripple appeared within 10 yards of their feet, and then, they were enveloped by a towering flame of light, and all the skeletons were stunned for 2 seconds.

"Blazing Bird"

A big red bird appeared from above Lu Yang's head, then dived down and hit all the skeletons.

The skeleton has a total of 2,000 points of blood. Each skill of Lu Yang can deal more than 500 spell damage. After 2 strokes, the skeleton has only 1000 points of blood left, and stays in the wall of fire for 2 seconds, 20 skulls. At the same time, white light spewed from the chest and fell to the ground.

At this time, the role of the magic fire staff can be best reflected. Without the super high magic damage of the magic fire staff, if you can't kill the skeleton within 2 seconds, Lu Yang will definitely die.

"Grochid"

When the undead wizard finished releasing the Skeleton Sea, he directly used the unearthed magical ground splitting technique, and Lu Yang's feet suddenly swayed. If he did not hide, he would suffer more than 1500 spell damage.

“flicker”

Lu Yang's body flashed white and appeared 20 yards behind him, while the five poisonous frogs kept vomiting venom to the undead wizard.

The hatred of the undead wizard was all in Lu Yang. Seeing that Lu Yang was beyond his attack range, he ignored the poisonous frog and immediately chased him towards Luyang.

Soon, the undead wizard entered the fire and immediately suffered fire damage at about 704 points per second. This was the effect of 5 stacks of burning and wall of fire.

Lu Yang was relieved at this time, he said to the three of Xiao Liang and Han Ying behind him: “Another feature of this boss is that the release of Skull and Skull is released once every 10% of Qi and Blood, and the Earth Cleft is every 30 It is released once every second. Only curse killing is instantaneous. Therefore, after his previous three-board axe is used, it is very easy to kill him. “

Xiao Liang and the three sisters Han Ying nodded in understanding, they found that the undead wizard can only release the curse to Lu Yang now, and Lu Yang's stature is very smart, whether it is sudden left or right Dodge or roll over, you can easily avoid the attack of curse killing.

Although Lu Yang can't attack, his fire wall and poisonous frogs constantly attack the undead wizard. The poisonous frog's attack is poisonous, which is almost the same as the fixed damage. The five attacks together are almost not as much as the fire wall, but the drama The poison frog must spit out poison arrows, and the damage can be equal to the fire wall.

After a while, the blood of the undead wizard was reduced by 10%. He once again raised the sickle to summon the skeleton soldier, and Lu Yang was already ready to kill him again with the method of flame storm + flaming bird + fire wall. .

“The boss really is the nemesis of the mage boss, it is too difficult to kill.” Xiao Liang said.

Three sisters Han Ying nodded together.

However, if these words are heard by other players or seen by other players, even the top players see Lu Yang's play feel crazy, because this is what they can't reach at all now, even if it won't be possible after months of hard work.

Lu Yang was able to do this because he played for 10 years in the last life, and combined with the ability to become a mercenary, this skill was available to others, and he couldn't.

Soon, the boss's upper blood limit was dropped by 80%, leaving the last 40,000 blood points, but at this time the undead wizard was annoyed by the long-term attack of the poisonous frog.

Suddenly, a weird black light appeared on the undead wizard, and at the same time he turned his head and a sickle fell on the poisonous frog beside him.

"844"

The venomous frog had a total of 800 points of blood and was attacked and immediately killed on the ground.

"He is violent." Xiao Liang said.

Lu Yang did not speak, and suddenly an extremely violent flame burst into his body.

"Boss, you have to zoom in." Xiao Liang said in surprise.

"The Great Lord of Fire ..." Lu Yang's meteor fall cooldown has ended. He didn't want to use meteor fall, but the sudden rage of the undead wizard forced him to do so.

The violent undead wizard's casting speed will increase by 100%. This casting speed only refers to the cast forward when he releases the spell. This acceleration is too great. Before Lu Yang avoided the spell, he could see the cast forward. Now he can't see it. He can only do so.

However, the poisonous frog could only resist him for four seconds. Lu Yang had to think of other ways. He sent a message to Xiao Liang while he was spelling.

"The poisonous frog is dead, so you launch a mockery of him, be sure to let him run towards you, you must hide within 30 yards of him, do not enter the attack range."

Xiao Liang said: "Good boss, I understand how to do it."

Soon, 4 poisonous frogs were killed by the raging undead wizard. At this time, the undead wizard had no more obstacles. When he turned his head and prepared to release the curse on Lu Yang, Xiao Liang, who was 30 yards away, suddenly suddenly launch the warrior's taunting skills against the undead wizard.

The undead wizard was immediately attracted by Xiao Liang. He was about to launch an attack on Xiao Liang, but found that Xiao Liang had turned and ran away. Under the blessing of the cheetah halo, Xiao Liang ran out of the 30-yard range instantly.

The undead wizard could not use magic, and immediately chased after Xiao Liang. Soon, the undead wizard passed Lu Yang's side.

Taunting can only last for 6 seconds. When the undead wizard ran for 6 seconds, he pointed his head at Lu Yang again, but before he used his skills, a huge meteor hit the sky and hit the undead. Wizard's body.

"4028" (Critical Strike)

A stun symbol appears on the boss's head ~ www.mtlnovel.com ~ If it is a normal monster, it can stun for 10 seconds, while the boss monster can only stun for 5 seconds.

Lu Yang took this opportunity to release Pyroblast immediately, and huge fireballs one after another hit the head of the undead wizard.

“1204” (Critical Strike)

“1204” (Critical Strike)

...

For 10 consecutive pyrotechnics, the necromancer just came to his senses. Just before the attack, Lu Yang suddenly flickered behind the necromancer.

“Flame Storm”

The undead wizard was about to turn around and was stunned by the flame storm for 0.1 second. When he raised his sickle, a big red bird appeared in the air and swooped down on him.

“1444” (Critical Strike)

The necromancer’s sickle stayed in the air. Then, the sickle fell to the ground and the cape fell to the ground. The soul of the necromancer turned into a ray of light and shattered. At the same time, he had a big explosion of 8 * 8 range.

System prompt: You killed the undead wizard

You have gained 3316 experience points (among which 1212 points are the experience of leveling monsters)

“Successful.” Xiao Liang and three sisters Han Ying ran over in surprise.

Lu Yang also exhaled and said, “Look what’s breaking out.”

Chapter 122 - Fire Snake Bondage

The outside of this big explosion is a potion. Only one or two things in the core are the best.

“There is a skill book.” Han Fei picked it up and looked at it, sharing the picture with everyone.

Fire Snake Bondage

Type: Fire Spell

Cost: 100 magic

Cast time: 3 seconds

Distance: 30 yards

Description: Release a flame snake to the target, keep the target firmly under control for 8 seconds, inflict 24 points / second of fire damage to the target, and cool down for 30 seconds.

“Brother Lu Yang, this is your skill book.” Han Fei said.

Lu Yang’s eyes changed when he saw the book, and he said, “Give me this, this is a treasure.”

Fire Snake Bondage is the only single control skill of the Fire method before level 50. Its scarcity is less than that of many level 100 mage skills. At the time of this book's most expensive book, it reached 100 gold coins, which was 5,000 Credit points are so expensive.

"Is this book strong?" Han Fei gave Lu Yang a puzzle book.

After learning from Lu Yang, he said, "Of course it is strong. I am controlled by a fire like me to stay in place for 8 seconds. What do you think the result is."

Xiao Liang and Han Ying's three siblings dug at the same time.

"That man is dead." Han Fei said.

Lu Yang said: "This skill can't be used to kill people. It is also useful when playing bosses. He can provide me with a lot of buffer time."

This skill does not work for boss bosses. However, it has a great effect on ordinary bosses and elite monsters. It has risen to level 2 and has a control time of 10 seconds. Even if the boss and elite time are halved, there is 5 seconds.

Even if Lu Yang does not attack, with 5 layers of burning, he can deal more than 800 damage with one control, not to mention Lu Yang can also use Pyroblast to attack, remembering that Lu Yang releases a burst of inflammation every 0.5 seconds. Blasting, and the damage that Lu Yang can do, Xiao Liang and the three sisters Han Ying can guess the ending of the boss.

Lu Yang continued: "One more thing, this skill has an interrupting effect. If I charge in the direction, if my eyesight and skills are enough, I can entangle him at the moment of his charge."

Xiao Liang asked, "Boss, is there a simplified spell for this skill?"

Lu Yang said, "Of course, I can do it instantly."

Xiao Liang and Han Ying's three siblings both looked at Lu Yang admiringly. If this can be done, no one can single out Lu Yang.

"See if there is any equipment left." Lu Yang said.

Han Ying picked up a bow and arrow and said happily, "Brother Lu Yang, here is a bow and arrow."

Bow of the Dead (Gold)

Level: 20

Damage: 54—66

Strength: +20

Constitution: +11

Physical Attack: +22

Chance of Physical Crit: +20

"This weapon is so good." Han Yu said excitedly.

Lu Yang said, "It's your turn."

"I don't want to sell this weapon for a lot of money." Han Yu was still a little afraid.

Lu Yang said, "You are my brother. You can use this weapon if you can use it. Don't be kind to me."

There was a warm current in Han Yu's heart and he said, "I'll take it."

"Although you took it, you still can't use it." Han Fei said unscrupulously.

Han Yu suddenly responded and yelled, "You can only wear it at level 20."

Lu Yang and Xiao Liang laughed.

"Don't worry, continuing to upgrade our level here will soon reach level 20." Lu Yang said.

Han Yu glanced at his 11th level, then looked at the bow and arrow, and said dejectedly, "For the upgrade, I worked hard."

Lu Yang said: "We continue to upgrade, this layer is very strange, enough to kill us at night."

Everyone nodded together.

There are many branch roads on the third floor of the secret channel, and the branch roads are connected to the branch roads. In order not to get lost, Lu Yang took four people from the far right side of the channel to kill them all. Come back and kill the other channel.

There are a total of six channels. When Lu Yang killed the fifth, he saw a silver crystal ore protruding from one side of the wall.

Lu Yang said, "Everyone comes with me to dig, and Xiaoying is responsible for pulling the monsters."

The amount of black iron ore is still too small. Lu Yang needs more black iron ore to upgrade the equipment level.

The crowd nodded eagerly and dug up with Landing Yang. When Han Ying pulled 6 waves of monsters in succession and they were all killed by Lu Yang, they also dug up the crystal ore.

“This time the harvest was great. We dug out so many ore.” Xiao Liang checked and there were more than 100 pieces, including 16 black iron ore.

Lu Yang took black iron ore. Among them, 9 pieces can be used, and the rest are useless waste products.

Just as Lu Yang was preparing to take the team to go forward, suddenly, Lu Yang found that there were some problems with the hollowed-out crystal walls. The beige walls were faintly visible with a trace of cracks.

Lu Yang frowned. The wall itself was an earthen wall. There should be no cracks unless ...

Lu Yang gathered flames in his hands and hit them against the wall.

With a bang, the wall was cracked by Lu Yang, like a spider web.

“Boss, how can this wall be like this.” Xiao Liang asked.

Lu Yang smiled and said, “This time we won the prize. This is a hidden map in the game. Just like digging for treasure, you can get special rewards if you find it ~ www.mtlnovel.com ~ Is there such a place?” Han Fei said.

Lu Yang is another inflammation technique. After the wall is shattered and the dust is scattered, a gap for one person to appear on the wall. At the same time, magic energy is flooded near the entrance. After a while, a purple magic energy cover Appears at the entrance of the cave.

Han Fei approached the energy hood and wanted to touch it with his hand, and said, “What is this?”

Lu Yang grabbed Han Fei and said, “Don’t move, this time the reward is a bit special, it’s a mystery store.”

“Mystery store?” Xiao Liang asked with Han Ying’s three siblings.

“That’s right, it’s a mystery store, but the way to go to this place is a bit special. You have to follow me to get in.” Lu Yang said.

The mystery shop is actually a small labyrinth. After entering, a room with 4 openings will appear. Enter a hole at will, and a room with 4 openings will appear. Go back along the original road. It is definitely not the original hole. , But another hole, very evil.

If you are a novice here, you wo n’t be able to find a mysterious store when you die. However, the maze of the previous life has long been cracked by players.

As far as level 50 is concerned, there are five mazes in total, each of which has a fixed pattern, and each maze has its own special recognition method.

“I would like to see what kind of reward we can give us this time.” Lu Yang said.

Chapter 123 - Mystery shop

He first walked into the maze. As soon as he entered the door, countless zombies aimed at him, and the six zombies in front of him attacked for the first time.

Lu Yang had expected this to be the case, suddenly squatting to avoid the attack, while slamming the ground with his left hand, a black ripple appeared within 10 yards of his center.

“Flame Storm”

A huge pillar of flames stunned all zombies within 10 yards of him. Immediately after the landing, a flaming bird flickered, then turned aside and let Xiao Liang come in.

After 2 seconds, the zombie group reacted, and Xiao Liang raised his shield to launch the group ridicule, while turning on the shield wall, reducing the damage by 40%.

The claws that the zombie group was about to hit Lu Yang turned to Xiao Liang collectively. The group laughed for 10 seconds. Lu Yang took the opportunity to release the fire wall continuously.

Six consecutive fire wall operations filled all positions in front of him, and then Lu Yang continued to release the Blazing Birds.

Up to 380 magical injuries allowed Lu Yang to deal more than 500 damage per range attack, plus more than 500 damage from the fire wall. The zombies in front of him were killed on the ground without waiting for 6 seconds.

The zombies that came around because of the group's ridicule, continued to be attacked by fire after entering the wall of fire. Lu Yang then released the Blazing Birds, causing these zombies to be killed on the ground before they responded.

Sister Han Ying entered the door at this time, and saw the countless corpses piled up in front of Lu Yang and Xiao Liang. They all sighed.

"Brother Lu Yang's injuries were too high." Han Fei said.

Xiao Liangshen nodded in agreement. If there was no Lu Yang, they would not dare to come down, but with Lu Yang at his side, it was obviously a level 20 strange, nearly 10 levels higher than them, but Lu Yang was easy to kill. Abnormal, like a mob playing level 1.

"No envy, you can exercise as hard as me." Lu Yang said.

In a later generation, a high-level thief turned on the counter-blade ability, and he could kill all of them.

Soldiers can even use Blade Storm. This powerful attacking skill is not even enough for Lu Yang to face his edge.

As for warlocks and hunters, they can easily kill these zombies without attacking the summons.

Lu Yang is now able to play easily. On the one hand, he has the advantages of the demon heart and the magic fire wand, on the other hand, he can use the simplified spell to 100% of the stun effect.

Xiao Liang and Han Ying's three siblings all expressed their longing expressions when they heard Lu Yang's words. If they can reach that height, it is really a happy thing for them.

"Of course, all strengths need to be laid. All you need to do now is to upgrade. At level 19, I will take you on a mission and give each of you a set of advanced equipment. Once you have all the skills and equipment, you can also Do it for me." Lu Yang said.

Xiao Liang and Han Ying nodded. They have absolute confidence in Lu Yang.

Not long after, all the zombies in the room were killed and Lu Yang said, "Let's go. This is the case for every door we enter next. After we find the mysterious store, upgrading here is also a Good choice."

"Brother Lu Yang, how do you distinguish these rooms?" Han Fei asked.

Lu Yang pointed at the shape of the room and said, "This distinction is very subtle. In fact, there are 108 such rooms in total. Their distribution is like a spider web. Look at the marks above the four doors.

Above each door there is a small, inconspicuous sign that goes into the next room. There are also such marks above the four doors. If you want to find a secret shop, you must go along a fixed set of signs ... "

Lu Yang did not hide from the four of them, and introduced to Xiao Liang and Han Ying three siblings the method of secret passage.

When Xiao Liang's shield wall cooling time was over, Lu Yang said that he took them into the next room, and walked 6 rooms in a row. When he reached the seventh room, Lu Yang took the team into the mystery. store.

There is no strange in the mystery shop, there is only an old man in a white cloth hat and a sullen clothes.

“Second World” adhering to the words “God’s will” or “fate”, the last one can find the mysterious store, all of them are lucky, they can walk in and see Mystery merchants buy the scarcest or most expensive items in the game at low prices from them.

These lucky people are called the sons of the gods, because the mystery store sells so good, many people are fascinated by it, and they like to search for mystery stores all over the world. Among them, there are not a few players who become rich.

Now, this life has made Lu Yang discover that he feels really lucky in this life.

“Young friends, welcome to the Mystery Store.” The mysterious old man greeted Lu Yang.

Lu Yang came to the old man and asked, “Excuse me, what can I buy.”

The mysterious old man opened the purchase option to Lu Yang, and three Pandora’s boxes appeared in his hands.

“I have three Pandora’s boxes here, each costing only 20 silver coins.”

“Pandora’s Box? What is this?” Han Fei asked curiously.

Lu Yang frowned and said, “We encountered the most special mystery store. Generally, the mystery store sells many items that we usually want but cannot get. Of course, this Pandora’s box is one of them.

“As for what the Pandora’s Box is for ~ www.mtlnovel.com ~ Lu Yang slowly introduced it to the four of them.

Xiao Liang and Han Ying's three siblings were stunned after learning about the 8 effects of Pandora's Box.

"This thing is really evil." Han Fei said.

Lu Yang also felt evil, and finally encountered a mysterious store. He thought he could buy advanced equipment or other good things, and gave 3 Pandora's Boxes without thinking.

However, since everyone is here, the highest selling price of Pandora's Box I ever reached 10 gold coins, and now only 20 silver coins are sold here, which is quite suitable anyway.

Without much hesitation, Lu Yang spent 60 silver coins to buy three Pandora's Boxes.

World Channel: Congratulations to the team led by the player's hegemony to successfully open the Viper Canyon

Seeing this news, Lu Yang showed a slight expression of surprise. He thought that the first person to get through the copy was the team of the old man. He had previously taught him how to get a copy of the 5th level, which improved the equipment of the old man group. , I did not expect that the first one to get through was the hero.

"It looks like this domineering is not easy." Lu Yang murmured to himself.

"What's wrong, boss." Xiao Liang asked.

"I need to go back to the city." Lu Yang handed over the staff of the magic fire, the heart of the demon **** and other equipment to Han Ying while talking.

Chapter 124 - Magic Elixir

"What are you doing, Brother Lu Yang?" Han Ying asked.

“I may have to wait for a while to come back. Before I return, you will use my equipment to lead the team to upgrade.” Lu Yang said.

Han Ying didn't care at first. When she saw the attributes of the things Lu Yang gave her, she was very surprised and said, “Lu Yang, these things are so strong.”

“what.”

Han Fei and Han Yu wanted to watch, but were hidden by Han Ying and said, “Go on one side.”

Lu Yang laughed and said, “Sister, this is the key for my brother and I to fight for the hegemony in the game in the future. Don't lose it if you dress first.”

For Han Ying, Lu Yang has no reservations.

Han Ying did not expect that Lu Yang would trust her so much. She was pleased to wear the equipment. Her attributes instantly became the same as Lu Yang, reaching more than 380 magical injuries.

“We will go back to the first level and wait for you to come back.” Han Ying said.

Lu Yang shouted, his whole body flashed red, flew to the demon temple, and then returned to the city of St. Gall. Since the tyrants opened the Serpent Canyon, other guilds opened the Serpent Canyon within this hour.

After the ordinary Serpent Canyon was opened, the bosses of the tyrants and other guilds saw the production of the Serpent Canyon. They will inevitably lead their players to attack the expert and epic books, and strive to hit the silver suit. This will greatly enhance the strength of a guild. Got the other.

If you want to open the Serpent Canyon, anti-toxic drugs are a necessity. It took five or six hours to open the Serpent Canyon. You can be sure that they have run out of anti-toxic drugs.

Among the copies of the Viper Canyon.

The old man in the late twilight slashed the three-headed snake king with one stroke, but there was no smile on his face, because he was only 30 seconds slower than the hero.

The silver wolf kicked and flew a stone around him, and he was also very angry at not getting a copy of the first pass.

There was also a touch of disappointment on Luo Siyu and Silver Qingwu's face.

"Unfortunately, it's only 30 seconds." Jun Zhantian came to the old man in the twilight and asked, "Boss, what do we do now?"

The old man said, "What else can I do? First hit the expert book and complete the suit, and then find a way to grab the first pass of the epic book."

He later sent a message to the spirits breeze and ordered him to continue to stay at the auction house to defend the anti-drug.

Similarly, the bosses of dozens of guilds, such as the Black Blood, the Sword of the King, and the Bloodthirsty League, ordered their hands to rob anti-drugs.

When Lu Yang came to the auction house with 300 bottles of anti-toxic drugs, people such as Liquor Qingfeng and Ye Guxing had already come to the auction house and were discussing it enthusiastically.

"It's time for the potion-selling kid to make a fortune." The Golden Eagle said uneasily.

"Is there any way, people control the sole business, so far we have no other channels to buy anti-toxic drugs." Ye Guxing said.

"I don't know when he's going to sell it, so it's not the way to wait." Qu inadvertently frowned slightly.

Lu Yang heard their conversation from several people, sneered, went to the second floor of the auction house, and found an auction device that put 100 bottles of anti-toxic drugs at one time, the price was still the lowest 3 silver coins, the highest 10 silver coins.

“There is an antidote,” Ye Guxing’s men shouted.

Ye Guxing and Qu Wuyi and others looked at each other and opened their auction machines.

Lu Yang stared at the price of the medicament. He found that this time seemed to be a good negotiation. The heads of the major guilds set the price at only 5 silver coins, and no more they would increase the price.

“It seems that I have learned to be clever.” Lu Yang smiled. Obviously, when the major guilds could not beat the epic book for the time being, no one was willing to be the head of injustice.

However, he was able to sell 5 silver coins, which had reached Lu Yang’s psychological price. He chose to agree to sell. In a flash, 100 bottles of medicine were sold, and 4 gold coins and 95 silver coins entered Lu Yang’s pocket.

“I knew this kid would agree.” Ye Guxing said unhappily.

“Should we hold down the price again?” The Golden Eagle asked.

“Don’t think, if the price is low, he won’t sell it. Just wait a few days and the price has to return to 5 silver coins.” Qu Wuyi said.

The output of the Serpent Canyon copy will soon be passed from the elite players in major guilds to the full service. When all players know how strong the equipment produced by this copy is, they will definitely come to play this copy, although now There are only more than 3,000 players who reach level 8, but even if half of them come to play the copy, they don’t want to buy anti-poison with 5 silver coins.

“Really ...” The helpless look of Golden Eagle.

“Look, the man is released again, this time he released 200 bottles of anti-toxic drugs,” shouted Liquor Qingfeng.

Ye Guxing and Qu Wuyi waited for someone to buy again. The highest price they gave was 5 silver coins.

As soon as Lu Yang sees it, he closes it. As soon as the price reaches 5 silver coins, he sells it, and 300 bottles of anti-toxic drugs in an instant make him earn 14 gold coins and 85 silver coins.

With money again, Lu Yang was ready to continue to buy herbal medicines. The two purchases today are just a warm-up of anti-toxic drugs. After two or three days, it is the hottest time for anti-toxic drugs. At that time, He really got rich.

Thinking of this, Lu Yang couldn't help but get excited, he opened the auction machine and found three herbs: sedge grass, dead leaf grass and silver leaf grass. At this time, the prices of these three herbs increased slightly, and the auction price reached each group. The price of twelve copper coins ~ www.mtlnovel.com ~ Lu Yang speculated that it might be because he had sold these three herbs twice in a row before, but he didn't mind buying them at the highest price.

There are 1200 groups of stone roots, 1147 groups of dead leaf grasses and 1219 groups of silver leaf grasses. There are a lot of them. He can't pack it on the back. Lu Yang bought them several times and deposited them in the demon temple.

It cost a total of 5 gold coins to buy these herbs. At this time, he had 9 gold coins left. He sent a message to Jin Buhuan and asked, “How is the anti-drug made?”

In the refining room, Jin Buhuan blinked at the green potion he made, and dialed Lu Yang's speaker.

“Boss, are you free?” Jin Buhuan asked.

Lu Yang asked, “What's wrong?”

“Uh, when I first made the anti-drug, it seemed to trigger the hidden class, and made a bottle of magic-free potion.” Jin Buhua changed his head.

Lu Yang's eyes lit up and he said, "I'll go back."

Magic Elixir is such a powerful medicament that it can be made in the whole game, even if the last life to the last period, the world does not add more than 100 people together.

The effect of this potion on the player is too great. With this potion, a thief can easily kill the mage profession. Even a mage like Lu Yang can't beat the other party, and can only stop until the magic time is up. Run away.

Chapter 125 - Reopen Pandora's Box

Such a bottle of medicine, if put on the market, is worth at least 10 gold coins, or the priceless one.

Lu Yang returned to the pharmacist, watching this bottle of pure green potion excited, the potion is a transparent green, as if it represents the purest element in the world.

"Unfortunately, it can only last for 3 seconds," said Jin Buhuan, who still does not understand the meaning of this bottle of medicine.

Lu Yang said: "I bought this potion and I will pay you 10 silver coins as a reward. If you have such potions in the future, you will leave them to me."

Jin Buhuan didn't expect that Lu Yang valued this kind of medicine so much, saying, "You don't need to give me money, this thing doesn't seem to be of much use, only 3 seconds. If you like me, I will keep anything weird and weird." . "

Lu Yang said: "The money I give you is far from the actual value of this potion, but it is only the remuneration stipulated in the contract. Don't be too small, but this is what I must give you. I will have this potion in the future. I will also That will give you money. "

Lu Yang went on to say: "This is not my snob, or I take you as a chess piece, I just pay attention to the spirit of the contract, I promise you on the contract, I will certainly do it."

Jin didn't change it before he understood it and said, "Okay, then I won't lie to you."

In fact, Jin does not need this money, he needs to support his family.

Lu Yang said, "How is the production of anti-toxic drugs?"

"I have only made 60 bottles so far, and the progress is a bit slow." Jin Buhuan said.

"It's really slow." Lu Yang thought for a while and said, "In this way, you still slowly refine the medicine. I will give you a list of people, and you recruit a few more pharmacists. If they don't come, you tell them, You have an anti-drug formula in hand, and as soon as you sign a contract, give them the formula. "

Jin Buhuan said, "If there is an anti-drug formula, no one will refuse."

With a smile, Lu Yang wrote down the names of eight people and sent them to Jin Buhuan, saying, "Of course, I also believe that they are willing to make this money."

These people are the top alchemists remembered by Lu Yang in the last life, and they have developed their own unique recipes.

Jin Buhuan said, "I'll contact them now."

Lu Yang said, "I will send you a contract for recruitment. Except for you, I will only pay you nine or nine for the contract of everyone."

Kim did not change his head and said, "I see."

Even if it is a nine-point account, in the coming year, each of them can become a millionaire, and such a good thing will not be rejected.

Lu Yang took the magic potion to bid farewell to Jin Buchang and came out. He couldn't help but took out three Pandora's boxes from his backpack.

I have to say that this thing is indeed called Pandora's Box, there really is a magic that people want to open.

"There is no demon heart and no magic fire staff on his body. Other equipment was either given to Han Ying or placed in the demon hall. Now he has nothing but the 9 gold coins in his backpack." Lu Yang read Thinking of this, I flew back to the demon temple and put 9 gold coins in the demon temple.

Lu Yang looked at the hall of the demon temple. It is reasonable to say that there is no problem in using the Pandora's box in the hall of the demon temple. However, the Pandora's box is easy to summon a boss at level 50 and boss at level 50. Do n't say Lu Yang After that, even the demon temple was easily demolished by him, so Lu Yang returned to St. Gall.

He came to the northern part of the city where there were fewer people, and found a place where no one had put the anti-poison and two Pandora's boxes on the ground. There was only one Pandora's box in his backpack.

The significance of this is to prevent the situation where all the equipment is emptied after opening, and if he does, he can keep the two remaining.

"It must be a good thing." Lu Yang prayed, and he lifted the lid of Pandora's Box with his hands.

A flash of black light flashed, and Lu Yang's mood suddenly collapsed. Black represented the unlucky project.

The system prompts: A black mist passes over you, taking away everything from your backpack and your body.

"Huh, good danger." Lu Yang breathed a sigh of relief. He was most afraid of reducing attributes. He was not afraid of the dark fog, because the few things on him were thrown to the ground.

“This is also good luck.” Lu Yang picked up another Pandora’s Box. He felt that he was lucky today and slowly opened it.

A golden light flashed, Lu Yang’s eyes widened suddenly, and he was really lucky, the golden one was for special equipment.

System prompt: You get an escape dagger

A quaint, only 20 cm long silver dagger appeared in his hand. Seeing this dagger, Lu Yang was almost excited to hit the wall with his fist. If he wasn’t afraid to roar out and be found, he would scream. Twice.

Escape dagger

Level: 0

Description: A magical dagger with the ability to break through space, according to legend is a personal weapon of the **** of theft

This weapon is the treasure that all players in the last life want to have. The effect is the same as what he described. The actual effect is to throw it out vigorously ~ www.mtlnovel.com ~ The player can appear at any position where the dagger appears at any time, the longest distance. 30 yards.

In the previous life, the price of this dagger reached up to 500 gold coins, but few people were willing to give it up, because such a weapon is not meant to be obtained by killing a boss, but it requires luck, only those who are above level 50 The boss-level boss has a chance to get it, the burst rate is 1 in 100,000, and the boss-level boss has less than 1,000 full-service.

Lu Yang had the last chance to get an escape dagger. For a mage player, this dagger is too important. It can greatly increase the mage’s ability to escape. With flashing skills, he can use two flashes to run in an instant. Make a distance of 60 yards.

In terms of output, his role is even more irreplaceable. In the past, the most famous arena game played. In the opening, he appeared in front of the enemy with an escape dagger. Instant flame storm + Blazing

Bird + Pyroblast, then flickered back to Ben. On the side of the camp, the enemies were caught off guard.

After the rebirth of this life, Lu Yang once thought that he could get an escape dagger, but he only thought about it, but he didn't expect it, and now he was really given it by the Pandora's Box.

He put the third Pandora's Box and the Elixir in his backpack, and then returned to the Demon Temple with the mage. Now he wants to upgrade the escape dagger.

Although the escape dagger is a special item, it can also be upgraded, up to level 19, the cooldown of escape dagger is 2 minutes at level 0, and the cooling time is only 10 seconds at level 19.

Chapter 126 - 3 males

Although it is difficult to reach 19th level, it is what he can do now.

He picked up the fate dice and clicked on it. The fate dice spun quickly in his hand, and after several collisions, the dice stopped.

A total of nine points on 3, 3, and 3 are small.

System prompt: Lucky decrease by 10 points

Lu Yang was speechless. He found that his luck might have been used up just now. If luck drops by 10 points, upgrading the equipment will be a failure. If it fails, the equipment will disappear.

“What can I do?” Lu Yang was anxious. Suddenly, he recalled one thing. There was an item in the game called Blessing Oil. After using it, you can add luck to the weapon. There is a small amount of poisonous snakes in the Valley of the Serpent. Chance to burst out.

At present, only 3,000 players have reached Level 8. The level 8 upgrade map has more than 800. The number of people willing to go to the Serpent Canyon is very small. The number of blessed oil explosions should not be too much.

However, there is another way to obtain the blessing oil. There is a thing called deer blood in the game. It is a thing on the level 1 mob sika deer. There are special tasks that can be used to exchange the blessing oil. However, the explosion rate of this thing is lower, only about one ten thousandth. Fortunately, there are too many level 1 players and they should be available.

Lu Yang came to Chengdong Trading Market and looked at each store. After several days of accumulation, Chengdong Trading Market has become a very large trading market.

A wide bluestone boulevard that originally could accommodate 30 people walking side by side was divided into 12 by the merchants. At this time, there were a lot of people selling and buying things on the street, bustling and lively.

Lu Yang walked along one of the streets until he reached the end of the street. As he approached the outer wall on the side of the arena, he finally found a deer blood seller.

“How is this deer blood sold?” Lu Yang asked.

The seller did not care about Lu Yang, and looked at the concentration in the arena. Suddenly, a deafening applause was heard in the arena, and the deer blood shouted: “Pretty, this win is too beautiful.”

Lu Yang looked over to the side, he found that the game had just ended in the arena. This was a 3V3 battle. The arena was a circular stage sunken in the ground. He belonged to hundreds of the entire athletic center. One of the ring.

“Brother, what do you want to buy.” The seller then found Lu Yang and asked quickly.

Lu Yang looked back and looked at the booth and said, "How do you sell deer blood?"

"What do you want this thing to do, and I haven't figured out what this thing is up to now, can you tell me?" The seller of the goods asked.

Would Lu Yang tell him that this is a treasure that can be exchanged for blessing oil, blessing a bottle of 10 silver coins in the later period of oil, which is very valuable, he said smoothly, "refining medicine."

"Fuck, I still think why is it baby. It turned out to be so useful." The player who sold the goods was disappointed, and then he looked at Lu Yang's eyes with a sly look, and said, "So, I have only five of them. Dude, I sell you at the purchase price in such an honest way. You can give me one silver coin for each of 20 copper coins. "

Wouldn't Lu Yang know that the boy was blindly embarrassing, he took out a silver coin and pretended to rejoice: "That's really thankful."

The seller was even more happy. In fact, he bought this thing for only two copper coins. He bought it only when he felt it was rare. After giving the deer blood to Lu Yang, he said, "Thank you for your patronage. I do n't know what the brothers want, I What do you want here? "

Lu Yang looked at the boy's booth. The rest was nothing more than level 5 and had no interest at all for him. He ignored the topic and looked at the arena. At this time, the three just won. The players who have been fighting with each other again, and seeing that they will win again.

"Who are those three boys? They are very skillful." Lu Yang asked.

The feeling of selling the goods was good after Lu Yang pitted and said enthusiastically: "You asked me if I was the right person. I sell goods here every day. The three people are called White Tiger, White Wolf and White Lion. They are the arena. The regulars are very skillful, so far the Arena has not lost. "

Lu Yang blinked, his heart was shocked. The name of the three of them is like a thunderbolt to him, the famous Bai Sanjie of the last generation, the global championship of the 3V3 arena, and the trio have been together since their debut. Did not fail.

Numerous guilds want to recruit three people, but they have a wealthy family. They only play games for entertainment, and do not accept any recruitment.

Suddenly, there was a warm cheering sound in the arena. Lu Yang looked inside, and the three brothers of the Bai family killed another team.

“Who else is going to die?” Shouted the white wolf proudly.

The players watching in the arena were screamed by his pride, the white tiger and the white lion were more proud, and their eyes glanced proudly at the audience.

Lu Yang couldn't help but have some itchiness. He happened to have no weapons, equipment, or even a demon heart. He regretted that he did not fight with the three brothers of the Bai family in the previous life. In this life, Lu Yang didn't want to miss it.

With a flash of white light, Lu Yang appeared on the arena, just opposite the three brothers of the Bai Family.

“I'll fight you.” Lu Yang said.

The three white brothers frowned when they saw that Lu Yang was only one person.

The white wolf said, “Call your companions.”

“I'm alone.” Lu Yang said.

The three brothers of Bai's face appeared angry at the same time ~ www.mtlnovel.com ~ Bailang angry:
“You look down on us.”

Lu Yang said, “I don't mean it, I just want to compete with the three.”

“The three brothers have always been in and out together, you know, if you fight with us, you have to fight with the three of us, you still don’t have to look for abuse.” White Lion said.

“I just want to fight with the three of you, come on, let me see the strength of the three of you.” Lu Yang took out a silver coin and threw it back without looking back.

The silver coins made a crisp sound and fell into the hands of the managers of the arena with a beautiful arc.

System prompt: The Lu Yang team challenges the three brothers of the Bai family.

“There are two sons.” The three brothers of Bai’s eyes showed surprise at the same time, they could not do this.

“Crazier than us.” The white wolf showed an expression of interest, took up the spear and said, “Since you are looking for death, then we will give you a happy moment.”

The white tiger and the white lion have the same minds. They stood in front of the white wolf with shields and put out a glyph-shaped defensive formation. At the same time, the three clicked to accept the challenge.

System prompt: Challenge begins

Players watching the game were surprised to see this scene, but just now Lu Yang’s hand made them feel that Lu Yang’s strength seemed to be very strong.

“This game is exciting,” players said one after another.

Chapter 127 - Battle of the Arena

On the court.

Lu Yang looked at the three men standing 30 yards away. He found that although they spoke arrogantly, they were extraordinary in spirit. When he first entered the venue, he used flashing lights, and now the cooling time is only a few seconds to end.

If these three people are of low quality, they will definitely launch the charge as soon as possible. Now waiting here, just to give yourself time to recover.

Lu Yang said, "My skill cooldown is over. You don't have to wait."

The three brothers of the Bai family are indeed waiting for Lu Yang's skills to cool down, but the three of them did not expect that Lu Yang could see it.

"You really have some strength, so don't blame us for being rude." Bai Hu is a soldier. He is holding a large shield on the right and a short knife on the left. When he was about to use the charge, suddenly, he was caught in place.

The white wolf and the white lion were also stuck in place.

Players in the field look curiously at the scene in the field, and can't help showing their confused eyes.

"Go up, why not charge?"

"A charge slaps him to death, I am optimistic about you, Bai Hu."

...

Countless players shouted loudly outside the field, but the Baixi Sanxiong in the field could not launch the charge.

Lu Yang stood in front of them, not standing still, but shaking his body constantly at a delicate pace.

White Tiger turned on the automatic mode. He could not grasp Lu Yang's position and did not dare to charge. Once the charge was missed, he would lose his position and expose the white wolf behind him.

The key that the three have been invincible before is that the white tiger and the white lion are added in two bodies and three endurance. The two have no attack power at all and only have strong defensive power, while the white wolf has full strength. The three are the same way as adding points.

The general team is not suitable for this style of play, but the three have been triplets since they were young. They have the same mind and have grown up together. With this method, the match is seamless. Therefore, the White Tiger did not dare to charge and exposed Bai. Wolf position.

This feeling made the three very uncomfortable, Bai Hu asked, "I can't charge, what now?"

The White Lion is a paladin, saying: "Don't be afraid, he is alone. We slowly approach the past. If he uses magic, you will charge. If he does not use it, the three of us will force him to kill him. "

White Wolf was holding a spear, and he had no better way. He said, "This can only be the case for now, let's try it out."

Bai Hu nodded, as if the three were the same person, walking towards the landing sun at the same time, the pace was amazing.

Lu Yang guessed that the three would fight like this, but he didn't care, and kept waiting.

In fact, if Lu Yang wants to win them, it is quite simple, as long as he flashes among them, use the level advantage to release the fire ring of resistance and crash the three of them.

Even if he is not equipped, relying on his intelligence to add spell damage and Pyroblast to start the critical strike effect, take this opportunity to release 2 Pyroblasts in succession to kill the white wolf with full strength, while White Tiger and White Lion have no Output, at that time they could only escape.

However, if this is too boring, the three brothers will also despise him. Therefore, he does not need the level advantage, nor does he need to simplify the spell, and only confronts the three with his body skills.

At this point, the three brothers of Bai 's had arrived at the position of 20 yards in front of Lu Yang. This distance gave Bai Hu a little bit of confidence. The time to charge 30 yards was 1 second. Now it is only 20 yards. The time is about In 0.8 seconds, he did not believe that this distance was less than Lu Yang's charge.

"How about I try?" Bai Hu asked.

The white lion shook his head and said, "Keep going forward to 15 yards. I don't believe he can hide past 15 yards."

"I agree," White Wolf said.

"That's good, we ..." Bai Hu's words had not been spoken. Suddenly, the three of them found in horror that white light on Lu Yang far from 20 yards appeared 4.9 yards in front of them.

White Tiger suddenly felt uncomfortable. The minimum requirement for the charge was 5 yards. Lu Yang was in a position where he could not charge. The white wolf behind was extremely uncomfortable. He had to charge unless White Tiger and White Lion gave way. Otherwise he can't charge.

Lu Yang said: "Three, you don't attack, I'm going to shoot."

He raised his hand to use Scorch, with a normal casting speed of 1.5 seconds, which made Bai Hu rush to attack Lu Yang.

The white lion and the white wolf immediately followed up, but the distance of 4.9 yards and the predatory gods of the three of them made Lu Yang calmly release the burning.

Bai Hu came under attack but came to Lu Yang, and released a shield strike according to Lu Yang's head. At the same time, the White Lion used a sanction hammer on Lu Yang.

The shield strike and the hammer of sanction are both stun skills. After being hit for 2 seconds, once Lu Yang is hit, the white wolf's spear will surely pass from between the white tiger and the white lion. Yang head.

Lu Yang was not afraid of this slamming blow. Suddenly, his body came over to the side, and he leapt back to the side of the three.

Before the white tiger and white lion's PK, they only saw someone dodging backwards and downwards. They have already thought about various countermeasures ~ www.mtlnovel.com ~ However, they have never seen anyone who can do sideways and dodging. , The two missed at the same time, and exposed the position of the white wolf.

The white wolf's spear was already ready to go. When the two brothers were shorted, the spear that straightened out swept the trend. The white tiger immediately drew back as if he was in the same spirit.

White Wolf was so confident that he didn't believe that Lu Yang could make a second move in such a short period of time. However, just when White Wolf's spear was about to hit Lu Yang, Lu Yang suddenly extended his right finger towards White Wolf. Head.

"Flame Shock"

A dizzy symbol appeared on the head of the white wolf, and 174 points of blood were killed by Lu Yang.

Although Lu Yang is not wearing equipment, he is already 13th level. His full intelligence plus magic damage has reached 65 points. Counting the flame can hit his own damage and double the damage caused by the crit, the total health is only 260 white. The wolf broke into residual blood.

Bai Hu saw this situation. If it is the usual, he must use the forward roll to release the Thunder Shock at the same time, not to hurt the enemy, at least to slow down Lu Yang's speed, but the position where Lu Yang is standing now makes him uncomfortable. He must roll over with the front roll. If he rushes to Lu

Yang, Lu Yang can escape as long as he moves horizontally, and completely exposes the position of the white wolf.

The White Lion shouted, "Defend first, I will add blood to the White Wolf."

White Tiger stood up and blocked in front of White Wolf, while White Wolf was hiding under the shields of his two brothers.

Chapter 128 - Solicit

"Brother, what is your footwork, can you tell me?" Bai Hu asked Lu Yang while the white lion added blood.

"My footwork is called a stray step. It is used by the mage to restrain soldiers from charging." Lu Yang said.

This is the footwork that he researched in the last life, summing up all the combat experience in reality and in the game. Unfortunately, the last life did not have the opportunity to use it.

"Good work, you are the first player to make me unable to charge." Bai Hu said with admiration.

Lu Yang smiled and said, "Let's count this game, how about it?"

He is now a little bit fascinated. The Baixi Sanxiong has just entered the game, and his strength is too different from the later generations, and his equipment and skills are too poor.

In their current formation, it seems very strong, but when the Paladin does not have skills such as anti-magic aura and invincibility, he only needs to release a fire wall to break their formation, and then cooperate with flashing and flame impact, spike white The wolf's ease makes him feel boring.

"Want to run?" White wolf said uneasily. "No, this game must be won."

"Friend, there will be victory or defeat in the game, otherwise it will be more interesting than the test." Bai Shi said, from now until now he has played very badly, and his heart is very unhappy.

After the blood was added, the three men fired their shields again and approached the landing sun step by step. This time, they learned the lesson and did not start the charge.

"Sorry, your level is too low, and I welcome you to challenge me when you reach a high level." Suddenly, Lu Yang added a gold coin in his hand, and he threw it to the back and fell to the challenge applicant. Hands.

"The battle has entered a ban mode," Lu Yang ordered.

The challenge applicant is a middle-aged European with black body and a delicate mustache.

"allow."

A purple light curtain shrouded the center of the arena. The audience outside the stadium can only use this purple light mask.

"What are you doing?" Bai Hu asked.

Lu Yang said, "I don't want to let others know something that should not be known, but I believe the three are not people who like to tell others' privacy."

While talking, a big red bird suddenly appeared above Lu Yang's head. The sharp bird sounded and the big bird landed on Lu Yang's right shoulder.

In the astonished eyes of the three, Lu Yang flashed a white light on his body, and appeared in front of the three brothers with a flame bird. When Lu Yang appeared, his hands were suddenly pressed down, and a black ripple came from their feet. appear.

“Flame Storm”

As soon as the three were about to attack, a towering flame of light surrounded them and stunned them for 2 seconds.

“112” “113” “112”

When they reacted, there was suddenly a wall of fire under their feet.

“96” “89” “91”

The three immediately panicked and hurried back.

Lu Yang pointed with one hand, the Blazing Bird screamed and dived towards the three.

With a bang, three consecutive 109 injuries floated from the three heads, and the white wolf was killed directly on the ground.

“Will you attack in groups?” Bai Hu asked in surprise.

“Fast attack, you can’t let him use magic anymore.” The White Lion used the hammer of sanction on Landing Yang.

Lu Yang stepped back easily, and he could not escape the golden light of the Hammer of Sanctions. At the same time, his right hand Pyroblast hit, “swipe”, the white lion was thrown back.

“102”

The white lion's blood is still 400 points. The white tiger saw the opportunity and suddenly took a step back and launched an attack at Lu Yang. Only 5 yards away, he didn't believe that Lu Yang could escape.

Lu Yang guarded against the White Tiger long ago. The moment he stepped back and turned around, his body lightly flickered, and then he took a step forward obliquely. The White Tiger just launched the charge. As a result, he was only 0.1 cm away from Lu Yang. Landing Yang's clothes flew out and ran out 30 yards before stopping.

Lu Yang took this opportunity to raise his hand to use Pyroblast on the white lion that attacked again, and slid it back again.

“102”

The White Lion has 298 points of blood left, and the White Tiger felt a great shame when it didn't hit anyone. He ran out 30 yards and just stopped, turned his head and directed Lu Yang to launch the skill. The second charge skill-interception, charge again. Come over.

Lu Yang did not look back, raised his hand and used the flame impact on the white tiger.

With a bang, Bai Hu was right in the head. Bai Hu had just smashed to 15 yards and was stunned. He lost more than 160 blood.

The White Lion reacted, knowing that Lu Yang could no longer use Pyroblast. Although he did not know how Lu Yang achieved Pyroblast almost instantly, if he used it again, he would definitely die.

“Take the road.” The White Lion rolled forward and swept towards Lu Yang's lower plate. The white tiger's heart was the same, and immediately after the White Lion rolled to Lu Yang's feet, it swept across.

Lu Yang had no equipment, and his blood was less than 100 points. It would be no doubt that the two would be entangled. However, the two could not hit him at all. Lu Yang's body suddenly burst out with a golden flame aura.

“Resistant Fire Ring”

The white tiger and the white lion were instantly blasted to a position beyond 10 yards, and before stopping, Lu Yang's Pyroblast followed closely.

The White Lion was first killed by Lu Yang, and the White Tiger was later killed.

System prompt: Lu Yang wins the battle!

With a flash of white light, the three brothers of the Bai family were resurrected in situ ~
www.mtlnovel.com ~ The three looked at each other and came to Lu Yang in surprise.

“Friend, why is your Pyroblast instant?” Bai Hu asked with a frown.

Lu Yang said: “This is the free mode of the mage.”

“Mage's Free Mode?” The three brothers of the Bai Family were even more confused.

Lu Yang said, “Of course, the physics department has a free mode, and the mage naturally has a free mode.”

The three brothers of the White Family were speechless at the same time. In the battle just now, Lu Yang did not care about using the group attack spell and resisting the fire ring. The only thing that made them uncomfortable was that Lu Yang's Pyroblast was the same as the instant. They even shed their blood on their backs, with little or no fighting back.

“It really is one mountain and one mountain high. Our three brothers took it, but I want to make another appointment to challenge you.” Bai Lang said eagerly.

White Wolf and White Tiger nodded together. Although they lost the game, they believed they would always find a way to defeat Lu Yang.

“Welcome at any time.” Lu Yang looked at the three’s equipment and said, “However, your level is too low and your skills are too low. You also saw it. I didn’t wear equipment when I played with you just now. I put it on and you can’t stop me from doing it. “

Lu Yang’s words smelled like radicals. He suddenly wanted to solicit these three brothers. After all, they were the great gods of the last life. Even if the three refused, he would try something.

“It’s true.” White Wolf didn’t believe it.

Chapter 129 - Escape Dagger + One Ten

Lu Yang said, “Let’s make a bet. The next time you challenge your three brothers to win, I will tell you the simplified spell of Paladin Holy Light. If you lose, join my future guild.”

The three white brothers looked at Lu Yang in surprise.

Bai Hu said, “You want to recruit us?”

“Yes, the three of you have good skills. I want you to be a master when you establish a guild.” Lu Yang said.

The three Brothers of the White looked at each other. They had no interest in joining the union, but they were very interested in the simplified spell of Holy Light. If the White Lion could achieve instant Holy Light, they would become more powerful.

After discussing the three in private, White Wolf said, "We don't want to join the guild, but if you can really play with our three brothers, our three brothers will join your guild in the future."

Lu Yang looked happy, and said, "That's the agreement, and I welcome your challenges at any time."

If it was the last life, he could not beat the three brothers of the Bai family. However, in this life, they could not beat him even if they practiced for another year. Lu Yang can be sure that these three will be 100% into their guild.

"Okay, that's it, we will challenge you in the near future." Bai Hu said.

Lu Yang glowed red all over his body and said, "Three don't take my words for bragging. I hope that the three of them will have more equipment and skills when they next challenge, otherwise you will definitely not be able to stop my full shot. "

"How can we find you." White Lion asked, he just tried to add friends with Lu Yang, but found that Lu Yang's friend application was closed.

Lu Yang initiated a friend application to the three, and the friends of the three reminded to sound at the same time. At the same time, Lu Yang disappeared in the red light.

The eyes of the three brothers were a little confused. At this moment, the purple light curtain on their heads disappeared, and countless audiences gathered outside and looked at them.

"What about that person?"

"What is the outcome of your competition and who won?"

...

The white wolf was not in the face of the accident, and muttered to himself: "This man is strange."

As soon as the words fell, White Wolf saw Lu Yang's name in the friend's column. He reacted instantly and looked at White Tiger and White Lion in surprise.

The white tiger and the white lion happened to look at the white wolf.

"This person is Lu Yang." The White Wolf said with a smile.

"No wonder he is so crazy, this man does have crazy capital," said White Lion.

Lu Yang's record is too impressive. First, he killed 5 elites in 1 vs. 5, then 1 in 8, killed 8 top players in Bloodlust, which spread throughout the game. All three of them were very good. I admire Lu Yang's combat effectiveness, and even more admire Lu Yang's courage to dare to fight against the two guilds. Moreover, the hunting order of the bloodthirsty domineering is almost 10 days. Lu Yang is not only dead, but also getting stronger. They All three consider themselves immovable.

Bai Hu said: "It really is a master, but we are not good at it. He is all 13 and we are only 8. We can't catch up with his level and can't break his resistance ring. We are afraid we can't fight it. Win him. "

"Afraid of his goal, a high level does not mean that he is strong. As long as we break his stray steps, we will definitely win him." Bai Lang said confidently.

"Then we will go back and practice PK. One of these masters has practiced for us, which is just to improve our PK skills." Bai Hu said.

The white wolf and the white lion nodded, and the three left the arena to find a way to break Lu Yang's lost steps.

Demon Temple.

Lu Yang came to the altar, picked up the dice of destiny, and prayed with his hands folded, saying, "God bless, it must be above 10 o'clock, or you have to wait another half an hour."

He shakes the dice, three dice spin quickly, and after 30 seconds, the dice stop.

6, 6, 6

System prompt: 18 points, player Lu Yang lucky +10 within the next half hour

Lu Yang shook his fist vigorously, picked up the escape dagger and placed it on the altar, then put 4 pieces of black iron ore.

For non-attribute items, jewelry is not required for refining, as long as it is used normally.

A flash of light in the altar, successful refining, escaping the level of the dagger +1

Lu Yang continues to forge ...

After 5 minutes, Lu Yang successfully raised the level of escape dagger to level 10.

Escape The Dagger (10)

Level: 0

Description: A magical dagger with the ability to break through space, said to be the personal weapon of the **** of theft.

The description of the equipment is still so simple, Lu Yang tried to throw the dagger forward.

The 20 cm long dagger flew forward at an invisible speed. At this time, Lu Yang's skill bar added a blue light skill.

Lu Yang meditated “Escape”, the dagger flashed a blue light, and Lu Yang appeared instantly at the position of the dagger. The whole process was only added for 1 second.

At this point, the skills with white light in the skill bar dimmed, and a 30-second countdown appeared. This is the cooling time.

Lu Yang shook his fist firmly. When he fights again in the future, he can easily enter the enemy line with an escape dagger and release the flame storm and the flame bird in seconds. Then he can flash back to his own position, and the rest can connect with his side. Can't touch it.

He placed the dagger next to the altar. At this moment, there was also a Pandora's box for grinding ~ www.mtlnovel.com ~ Looking at the golden shell of Pandora's box, Lu Yang heartily put the box in his backpack.

He meditated on the spell and returned to Beicheng District, walked out of Kahn's home, and came to the vicinity of Chengbei Square.

Lu Yang looked around, and after confirming that no one was there, he took out the Pandora's Box from his backpack and said in prayer: “Bless the devil, you must open a set of gold equipment.”

Lu Yang had such good luck before. He was going to open it continuously. There was no way to say luck. When luck came, there was continuous good luck and everything went smoothly. Besides, there is now a lucky +10 effect. Lu Yang decides to bet once.

In case of opening a 20-level gold-level generating set, Lu Yang would not have to worry about the equipment anymore. Thinking of this, Lu Yang reached out his hand and opened the lid of Pandora's Box.

Just when he was expecting a golden light, suddenly, a dazzling black light gushed out of the box. For a moment, with Lu Yang as the center, he fell into darkness within 30 yards.

A black vortex emerged from the Pandora's box. With a scream of rage, the black vortex stopped. A monster 50 feet tall and holding a black round scimitar in his dark hands appeared in St. Gall. In the city.

Demon Soul (Lord)

Level: 50

Qi and blood: 2000000/2000000

Chapter 130 - Demon Soul (Lord Level)

“Not good.” Lu Yang released a wall of fire under his feet, and a flash of white light on his body appeared some 30 yards away.

When he first landed, Lu Yang kept his feet on, started the hot speed, and ran towards the Holy See in St. Gall.

He didn't expect that he was too lucky, and the level 50 boss boss Demon Soul was summoned by him.

According to legend, the demon soul was born in the early battlefield of the ancient world, representing the hatred and fury of countless grieving spirits. Among all the level 50 lord monsters in “Second World”, the difficulty of the devil soul can be ranked in the top three. , Lu Yang is now only 13th level, no ability to single out the demon soul.

“Who awakened my sleep.” The demon soul looked around, and when he saw only Lu Yang running around, he pointed at Lu Yang's location with his hand.

“Death will be your best destination.”

A black energy column with a height of 30 yards and a diameter of 5 yards burst out from the ground in front of him. After smashing a house in front, the black energy blasted towards the location of the landing sun. Every house along the way was Smashed by a black energy column.

When Lu Yang was running desperately, he heard the sound behind him. He had beaten the Demon Soul in the last life, knowing that this was his signature skill, the Traction of the Soul, which hurt 5000 and distance 50 yards. It belonged to the tracking ability. Only a distance can survive.

He looked at the distance, flashed out for 30 yards, and ran for another 16 yards. At this time, there was 4 yards left. However, this is not the actual distance, because the soul has a range of 5 yards. In other words, He also needs to run 9 yards.

Lu Yang knew that he was dead or alive at the last 9 yards. He didn't dare to run the curve and ran straight ahead. He ran as hard as he could to the front, and ran forward again 2 In seconds, a loud noise followed.

Another house was hit by the traction of the soul. A huge impact came from behind him. Lu Yang fell forward with the impact. He hurried forward and rolled over, then continued to run forward.

"No matter what kind of effort you put in, you will eventually become my soul under the sword." The demon soul missed, raised his machete and ran towards the landing sun.

Demon Soul moves at 3 times the speed of the player, and rushes towards the landing sun with a phantom. Because of his height of 50 yards, a normal house is only about 12 yards. Demon Soul steps down every step. House.

"Dang Dang Dang Dang ..." A sharp alarm sounded suddenly from the central tower of St. Gall.

World Channel: Warning, warning, there is a level 50 lord monster in the north of St. Gall. Please leave quickly.

Lu Yang can clearly hear the sound of the house being smashed behind him getting closer and closer. If he is caught up by the spirit of the demon, it only takes a knife, and Lu Yang will die.

Now the only thing that allows him to survive is the Knights of the Light. Saint Gall is the main city. He must not allow monsters to enter the city. Common monsters are used by the city guards. The top monsters are attacked by the Knights of the Light.

The sirens just now indicate that the Knights of the Holy Light are on their way. According to the memory of the previous life, the gathering time of the Knights of the Light is 30 seconds. Lu Yang knows that he cannot resist the arrival of the Knights of the Light. However, Lu Yang knew that there were NPC soldiers patrolling the north of the city. As long as the NPC soldiers carried it for themselves, Lu Yang could have a chance to escape.

Just when Lu Yang thought about it, the Demon Soul had chased a distance of 10 yards behind Lu Yang. While the Demon Soul raised his machete to attack, two patrol NPC soldiers appeared from both sides of Lu Yang.

The head of the soldier's head pulled out a sword to roar the demon soul, "Brave Saint Gall city warrior, charge!"

Sixteen soldiers pulled out their long swords at the same time and rushed towards the demon soul from both sides of Lu Yang's body.

"Damn humans, you dare to challenge me." The spirit of the demon felt anger and turned to the patrol.

Lu Yang was relieved, he knew that he could finally survive, and hurriedly chanted the spell that returned to the demon temple. During the battle, the return to the city roll was unavailable. The time supported by the patrolmen was increased by 5 seconds. The only thing that allowed him to escape. There are only spells that return to the demon temple.

The patrolmen are just ordinary guards, with a level of 30, and are completely vulnerable to the monster of the demon soul at level 50.

The Demon Soul killed two patrolmen with two swords, and killed four patrolmen with two swords ...

All 16 patrolmen were killed by him in less than 4 seconds. The demon soul aimed at Lu Yang again. Seeing that Lu Yang was about 30 yards away, he pointed with his hand.

“Soul Traction”

Lu Yang looked at the impinging black beam of light, and a smile appeared on his face. When the soul drew to Lu Yang, Lu Yang’s whole body flashed red and he successfully returned to the demon temple.

As soon as he returned to the Demon Temple, Lu Yang immediately replaced the equipment, but at this time his original equipment was on Han Ying, and Lu Yang could only temporarily replace the existing equipment.

The Holy Light Knights in St. Gall are all at level 50. They will surely kill the demon soul. At that time, the demon soul will definitely explode a lot of equipment. Before he escapes, he put a fire wall on the ground, according to who The first attack experience is who’s rule. The experience of this demon soul must be Lu Yang’s, then the equipment is his.

As soon as the level 50 lord exploded, Lu Yang was excited and couldn’t add more. After changing his equipment, he returned to the central square of the city of St. Gall using the city roll.

“what is that?”

“So high, level 50 lords are strange.”

“St. Gall will not be destroyed ~ www.mtlnovel.com ~ I’m dizzy, it seems that Beicheng District has been destroyed by him. He won’t come here.”

...

Countless players in the square hide in the safe zone and watch the demon soul in the distance chat, the height of 50 yards of the devil soul is impossible to see.

Lu Yang snorted. According to the game rules of “Second World”, the safe zone is only for players, not for NPCs. That is, if the demon soul arrives here, he can still kill the player. He is ineffective.

“The light is with us.”

Suddenly, there was a roar in the distance, and 50 members of the Knights of the Holy Light who were heavily armored and wearing gold armor galloped across the horse.

Lu Yang swept through the ranks of one of the knights.

Knight of the Light

Level: 50

Qi and blood: 800,000 / 800000

The photo is much less than the 2 million blood of the Demon Soul, but the Knights of the Holy Light wins, and there is no problem in grinding the Demon Soul.

Countless players left the crowd and chased after the figure of the Knights of the Light. Lu Yang found that his idea was still too simple. He knew that the system would not pick up the equipment. After the demon soul died, the equipment must be picked by the player. It seems that no one wants to miss this opportunity to get rich.
