## Chapter 1261 - The Cavalry Retreat of the Gods

The African Legion of more than 5 million people is mixed with more than 30,000 Chinese players and tens of thousands of European players. They are divided into four roads to attack the four guild areas of the Cavalry Regiment.

Since Tolemy used a special profession to build a pyramid to defend the gates of the four northern fortresses guarded by Liu Jie, from the 120th to the 140th level, Liu Jie's black legion has never rushed out of the four fortresses.

The four Steiges thought that they had completely blocked the way out of Liu Jienan, but did not expect that it was just their wishful thinking.

An hour later, Liu Jie's eight legions split into four lanes and successfully broke into the rear nest of the four Steige. They thought that the defense of these main cities was almost zero under the protection of a pyramid, and Liu Jie only used After 10 minutes, I rushed into the city.

Next, all that remains for the Cavalry Regiment is a mess!

Sky Sword Fortress on the battlefield.

"What? Liu Jie tried his best to bypass the pyramid and sneak attacks on the fortress behind me?" Steiger was astonished.

"My golden fort is being attacked by Liu Jie. That is one of my most developed forts." Gadafi exclaimed.

“My fortress of fire dragons, that’s my economic lifeline, one of my three most important auction houses.” Toremi screamed.

“Damn, my city of angels, this \*\*\*\* dared to attack there.” Renault was furious.

The four received reports from their men almost at the same time, and the four faced each other for a while.

“Damn, we must have been deceived by Liu Jie and Lu Yang. The two of them must be conspirators, this must be conspiracy.” Tolomi screamed.

“We can’t fight this war anymore. Immediately stop the offensive and we must return.” Renault said.

With a depressed face, Steiger said, “Will Lu Yang agree?”

“Whether he agrees or disagrees, the three of us have left 500,000 each to help you defend the Chiefs fortress, and the rest have all withdrawn to their respective territories to play against Liu Jie, and he must not be allowed to pose a greater threat to us.” Duffy said.

Steige had to agree.

“Dang, when, when, when, when”

...

The crisp bells echoed on the battlefield. The attacking players of the Cavalry Regiment stopped their attacks and stopped in place. Soon, they retreated and formed a defensive formation. After that, they used the reels to leave in large quantities. There are 1.5 million people staying at the gate of the Chiefs Fort.

Zhuo Jiu and Xia Yuwei stood at the head of the city and looked at the fleeing enemies, each frowning and glancing at each other. Before they talked, a flash of light flashed beside them, and Lu Yang appeared.

“Boss.”

“Boss.”

The two bowed in greeting.

Lu Yang said, “The Cavalry Regiment has retreated.”

Xia Yuwei asked, “Why did they leave?”

Lu Yang said: “Liu Jie personally led his eight vice presidents and led 5 million people to attack in four ways. The Cavalry Regiment had to retreat.”

Xia Yuwei nodded her head clearly, and said, “Should we take advantage of the chase and lay the chief fort?”

If the Chiefs fortress comes down, Lu Yang will look at the northern plateau. No matter how Liu Jie and the Cavalry Regiment fight, he can calmly launch an attack and fight the weak points of the two.

“I think, unfortunately, now is not the time.” Lu Yang said.

If he launched an onslaught against Chiefs Fortress now, Liu Jie would not fight the decisive cavalry regiment, and would just rush and run as before.

Voiced wine said, “What shall we do next?”

“Let the players in the guild be prepared to stay up late for overtime, but the guild points are also tripled. According to overtime calculation, Xia Yuwei’s men replace the turbid wine’s men to defend the Tianjian fortress. Here is temporarily given to Yeyue to listen to the wind. The two returned to the meeting with me, and we will study the next strategy.” Lu Yang said.

Even if the war ends here, today is the night of the weekend, and tomorrow will be the time to work. The total number of players that the Iron Brotherhood can call from Monday to Friday is not more than 2 million. The quality of the personnel is still uneven. Wait until next Friday night.

I was worried that the Brotherhood of the Jagged Brothers would be defeated. Players in the guild took the initiative to apply for overnight battles. They would rather lose energy when they work tomorrow, and would not let the guild lose. This moved Lu Yang very much. The 30,000 people have grown to tens of millions today, but these people have been assimilated by the 30,000 people of the Brotherhood of the Iron Blood, and they are more brotherly.

Lu Yang naturally does not treat such brothers. The guild points are tripled, and the points for each battle are more than 1,000 points. Counting killing heads, snatching equipment, and fighting time, all add up to a battle. Down, everyone’s battle points are around 2000 points, tripled to 6000 points, this point is enough to exchange two pieces of 140 dark gold equipment.

You need to know how difficult the 140-level dark gold copy is, and it is almost impossible for ordinary players to play in the past. Now they only rely on one application for overtime but can redeem it without overtime. They are so happy.

Sure enough, while Lu Yang was meeting with the vice presidents in the conference room, the players in the guild were already screaming excitedly.

Lu Yang temporarily closed the guild channel, saying to Zhuojiu and White Lion, “Before tomorrow, until Friday, everyone stepped into the copy to fight equipment. Tu Feng counted the 130-level dark gold equipment obtained during the war.”

“Yes,” the crowd said together.

Lu Yang announced the meeting, and all parties in the guild were responsible for the turbid wine and the white lion. He didn’t need to be busy with the odd things.

He quit the game, got up from his seat, and played all day and half a night. Even he felt that he couldn't take his body and exercised on the fitness equipment in the office.

As he moved, he concluded that, in fact, the war was not beautiful. Although he had expectations, he did not expect that the G8 and Daniel of the Group of Eight reacted so quickly. The victory of this war was not a win. Even if you lose, you can only count as a small win.

However, the next war was not good enough. The six areas of the Luma Mountains, Silent Ridge, Lingshui River, Dusk Hills, Shalulu Waterfall and Yixiantian could pass through the area from the middle line of the Qingling Plain to the Group of Eight.

However, the dangerous situation in these six places must be guarded by the heavy forces of the Group of Eight. He wants to break through and divide his troops. Fortunately, he has long been prepared for this war, and there are enough deputy chairpersons to lead a team of fighting alone.

As for how to break through the enemy's defense line, it depends on his Lu Yang's play. One of the six defense areas is very famous that is Shalulu Waterfall.

Shalulu Waterfall, this place was admired by countless people. At that time, there have been several decisive battles here, so that this waterfall is famous in the last world, even people who do not play this game know.

That was the decisive battle between the water magician and the ice magician, and also the beginning of the magician at the peak of this game.

"Deep ocean, how many of your tsunami mage are there?" Lu Yang called and asked.

Deep sea scratched his head. I didn't expect Lu Yang to call him and said quickly: "Report to the boss, there are 1,000 people in total."

"Yes, I will gather them in the near future and give you tasks," Lu Yang said.

There are few Master Mage in itself, and it is better to be able to transfer to Tsunami Mage. This time, Lu Yang wants to turn these 1,000 people into bloodline mage masters. He wants to let the world know how strong this mage is.

Of course, in order to launch this attack, the Great Druid Army is indispensable. If 10,000 people launch a change in the weather at the same time, the momentum of flooding is enough.

## Chapter 1262 - Blue Dragon Tomb

Rest that night.

In the early morning of the next day, Lu Yanggang entered the game. A report from Tu Feng came. After a fierce battle last night, the Cavalry Regiment was defeated by Liu Jie.

Liu Jie, who has 5 million players, is not much different from Lu Yang in the 140-level dark gold equipment. In the beast event, Liu Jie did not fight with the scattered groups, but learned to land and exit the competition, and quickly upgrade the equipment. Therefore, there are more than 3 million dark gold sets in Liu Jie's hands.

The main forces of the Cavalry Regiment are France and Germany, and the fighting power of Saudi Arabia and North Africa is average. In addition, they and the scattered groups previously grabbed new beasts. There was almost no 140 level of dark gold equipment. As soon as the two sides fought, they suffered a big loss.

Not only that, in terms of command, in front of a team with dead grass as a military division and Liu Jie and Ru Yueshan as commanders, Steiger and Renault still had a fight, and Cartafi and Toreme were defeated.

Fortunately, Liu Jie was not fully prepared, and the Cavalry Regiment was also a great cause. After slowing down, the two sides became a tug-of-war in the middle of the night, each ending a large-scale battle at 4 am, but the small-scale The sneak attack has not stopped. Obviously, Liu Jie has the idea of annexing the Cavalry of the Gods.

The fighting over there didn't stop, and the fighting on the Qingling Plain didn't stop. The Group of Eight was not willing to lose the Qingling Plain in this way. A small-scale player came to attack at night, and the night shift players of the Iron Brotherhood fought against it. Have each other.

From this time, the fighting on both sides is not the same as before. One party can easily abuse the other party by virtue of good equipment and technology, because the fighting power of the two sides is almost the same.

"This tough battle is probably a good thing for our Jagged Brothers Alliance, the future battle." Lu Yang said to Tu Feng.

Tu Feng nodded and said: "If we win this war and we will sweep the New World in the future, I have absolute confidence."

Lu Yang said with a smile: "Of course."

In fact, he has anxiety in his heart. The war in the New World is not as easy to fight as he imagined. The South and the West have powerful players. Even if Lu Yang does not launch an attack against the G8, the players in the South and West will also fight in the future. Over here, Lu Yang was facing a tripartite team.

"What about players in other regions?" Lu Yang asked.

Tu Feng said: "The New World is all in a ball. For the time being, we can't tell the winner. No one will stop us."

Lu Yang nodded, no one was blocking him. He called the deep sea and said, "Are you ready?"

"The report boss, everything is ready." Deep Ocean said excitedly, he was taking 1,000 Tsunami Masters to prepare in Huo Tong Village.

Lu Yang said, "All flew to the Guild Hall of Lingfeng City to stand by."

“Yes,” said Deep Sea.

Lu Yang flew to Lingfeng City with a teleportation scepter. He put on a flying carpet and flew towards the 160-level map outside.

Lingfeng City, the main city of the original Nine Star Alliance closest to the edge of the map, can run to the beach from here.

This is a place that feels more comfortable, because there are islands all over the sea, and each island has many tasks.

Lu Yang quickly came to the seaside. At the seaside, it was already a 160-level area. He continued to fly into the deep sea. No one could hit him by flying in the air. It just stopped on the island.

System prompt: You found Blue Dragon Island

Blue Dragon Island, one of the most famous islands in the game, is where the blue dragon fruit of the blood mage’s bloodline fruit is produced.

Lu Yang fell outside a small village on the island and he built a sentry tower 30 meters from the village entrance.

“Deep sea, fly to me with people.” Lu Yang said.

“Yes.” Deep Sea found Tu Feng this morning and borrowed 10 teleportation scepters. He flew 1,000 people to Blue Dragon Island.

The light flashed.

1,000 people appeared in front of Lu Yang.

“Boss.” Deep sea bowed slightly.

“where is this place.”

“How about keel everywhere?”

“beautiful.”

...

The tsunami mages looked around, all fascinated by the scenery here.

Lu Yang cleared his throat and said, “Here is where you changed jobs. Go to the village chief to pick up the task, then go out to find the blue dragon’s corpse, count the 23rd bone from the bottom, and return to the village chief to complete the task. . “

This is a relatively special task. When the player from the last life came here, he found that the village chief here could give the player a blood fruit of the blue dragon mage for free. Suddenly the players went crazy and looked for quest items.

The requirement of the task was to find a suitable relic of the blue dragon and give it to the village chief. However, no one knew what the relic of the blue dragon was. Then, the entire blue dragon’s bones were moved to the village, one by one, and then the quest item was tested, which was the 23rd bone.

When the players gave the bones to the village chief, the village chief fulfilled his promise and gave the blue dragon blood fruit a total of 2,000. Although Lu Yang only brought 1,000 people over, he decided to exchange all 2,000 fruits first. Already.

After half an hour.

One thousand people ran back to Lu Yang, and one handed over a fruit to the deep sea, leaving one for themselves.

The deep sea also found two fruits. After eating it, the body flashed and gained 10,000 intelligence. At the same time, he looked at Lu Yang in surprise and said, "Boss, I have one more skill."

Lu Yang asked with a smile: "What skills?"

"Hai Longbo." Deep sea said excitedly.

"Sea Dragon Wave"

Type: Water Magic

Consumption: 300,000 magic

Distance: 1000 yards

Description: Summon a sea dragon to attack an enemy within 1000 yards. The damage of sea dragon wave is intelligence  $\times$  5.

"The system \*\*\*\* is up. Our water mage finally has a skill that exceeds the damage itself."

...

All the water mages were crying.

Lu Yang smiled and shook his head with a smile said: "Follow me, I will take you to a place. What is this skill? Your water mage has a lot of good skills."

"Any skills?" Deep Sea asked excitedly.

Lu Yang smiled and said, "Of course."

He took 1,000 people to the sea with the deep sea and said, "Dive into the sea with me, don't fall behind. It's easy to see things inside."

The visibility of seawater is very low below 10 meters. The simulation of this game is very high, just like the outside world.

Lu Yang took out the lighting orb all the way down, and after more than 100 meters downstream, he saw a portal and pointed at the portal and said, "All in."

"flicker"

Lu Yang jumped into the portal, a flash of light flashed, and he appeared inside a grave.

System prompt: You found the Blue Dragon Tomb

Chapter 1263 - Demon Dragon King

Lu Yang looked around. He hadn't been here before. The second official map that can be found here focused on dropping advanced skills books.

The Blue Dragon Tomb itself is a maze, he is an underwater tomb, so he is different from a maze on the land. This is a maze that changes the terrain at any time according to the force of the tide. Even if there is a map, it takes a lot of effort to enter. go with.

"There are such hidden maps."

“Under the water, the official is too hidden.”

“The boss is really amazing, you can find such a place.”

...

The deep sea brought 1,000 members of the Tsunami Masters into the Blue Dragon Tomb, and looked around curiously.

Lu Yang laughed secretly. This is the level of players in the previous generation who reached level 200. Some people walked around the world idle and bored. They wanted to see the full picture of the world before diving into the ocean floor. It was already four years after the service.

When players found this place, most of the players' advanced blood skills were not fully played. This tomb contains all the advanced skills of the water veins. At this point, the player can easily enter hundreds of millions with this tomb. The ranks of the rich.

Later, the tomb was exposed, and since then, the tomb has been the birthplace of war. It is a place where any super guild, even a small guild, is rampant. The war that erupts here every day is uncountable.

At this time, Lu Yang's last guild had just started. At this time, he only knew the importance of the spirit of the demon god. For this, he could only look at the forum. He did n't dare to get involved. He did n't think of this life but it became his private garden. It really makes a difference.

“丝丝 ~~~”

A blue weird creature crawled over in the distance. His head was a dragon head, but his body was a lizard. He had no wings on his back and had a very long body.

Boss Dragon

Level: 180

Qi and blood: 200000000/2000000000

“Boss, is this the baby who dropped the skill book?” Deep Sea asked excitedly.

Lu Yang nodded and said, “That’s it, go fight, no difficulty.”

The eyes of the deep sea were all green, and a roar of excitement shouted, “Brothers, kill him.”

“Sea Dragon Wave”

“Sea Dragon Wave”

...

The roaring water dragons blasted towards the Demon Dragon Dragon. Compared to the monster’s attack power, 1,000 people attacked at the same time, and instantly killed the boss.

Abyss Dragon is a boss, not a lord, so there won’t be double-stated attributes due to multiplayer attacks.

“Stop, stop.” The deep sea looked at the sea in front, and the bosses were overwhelmed. He shouted to the mage behind him: “Don’t be impulsive, don’t be impulsive. A group of 20 people will go to the boss, kill and kill them. I handed in the skills book and I will send it to everyone. “

“Okay!” 1,000 people divided into 50 teams and rushed into the blue dragon tomb.

Seeing them running away from the deep sea, they just retreated the skills they just put, and just right, the magical dragon that was just killed dropped a skill book.

“ Sea Dragon Slash ”

Type: Water Magic

Consumption: 500,000 magic + 100,000 / second

Distance: 500 yards

Description: Launches a beam of high-pressure water to the front, which can easily penetrate any object like a sharp blade, causing intelligence × 5 times the damage and sustained release.

Shen Hai looked at Lu Yang with a shocked expression, and said, “Boss, this skill seems to be a little strong.”

Lu Yang smiled and said, “It’s not only a little bit, it’s very strong in itself. If you think about it, if such skills are released in the sea or the lake.”

“Double the distance and double the damage.” The eyes of the deep sea were full of joy, and Haha said with a smile: “Boss, I feel I am strong.”

Lu Yang laughed and said, “There are more fun skills.”

“Also !?” Deep Ocean was surprised.

Lu Yang’s eyes full of memories said: “Of course, there are quite a lot of baby skills here.”

“Then I will join the battle.” Shen Hai ran to his team, and he couldn’t wait to know what skills there were.

Lu Yang saw no one around him, and found a place to rest. He opened the video and watched the war between Liu Jie and the Cavalry Regiment.

When Lu Yang brought the team this morning, the two sides started the second day of the decisive battle. Today is Monday. Some players in the Cavalry Regiment need to go to work. Full defense.

It is not easy for Liu Jie to break through these places. There are pyramids built by Tolemy to help defense.

“Dididi”

The intercom sounded.

Lu Yang picked it up and saw that it was from muddy wine. He smiled and pressed the connection key, and asked, “What’s the matter?”

Zhuo Jiu said excitedly: “Boss, the Cavalry Regiment has removed one-third of the players of the Chiefs Fortress, and I have the confidence to hit it down.”

In order to prevent Lu Yang’s sneak attack, Steige and Tolomi each left 500,000 people at the Emirates fortress, a total of 2 million people. Now one third is missing, which is equivalent to nearly 700,000. The cavalry regiment was very laborious to defend Liu Jie.

Lu Yang said: “Don’t move for now. Now that the fortress has been knocked out, Liu Jie will not dare to attack. The cavalry regiment of the gods must take a big lesson.”

“Okay,” said Muddy.

Lu Yang hung up the speaker, just as he was ready to continue watching, the deep sea ran back excitedly, shouting from a distance of 100 meters.

“Boss, there is a lord strange in front of it, it seems that it is still a superior lord.” Deep Ocean shouted excitedly.

As soon as Lu Yang’s eyes brightened, a white light flashed from his body and he jumped in front of the deep sea, saying, “Take me there.”

First-class lord, baby, this is an item that drops legendary equipment. He remembers that there is a first-class lord in this copy of the last generation, and it is not difficult to kill.

“Good grin.” The deep sea belch didn’t run for 5 minutes, and saw a dragon-shaped creature lying on the ground sleeping.

Demon Dragon King (First Class Lord)

Level: 180

Qi and blood: 50000000000/50000000000

The king of the Moyuan Dragon is very big, and it is more than 10 meters tall when lying on his stomach. His body seems to be in a well, and the lower body cannot be seen.

Hundreds of Blue Dragon Masters of the Iron Brotherhood are whispering in the distance.

“This looks like it needs a defensive battle to carry it.”

“I don’t know how long his breath hurts Boss is here, Boss is here.”

...

Lu Yang listened to them and said, “Everyone stepped back to 200 meters away.”

Shenhai Yimen exclamation mark said, "Boss, you have to single him out."

Lu Yang asked: "Is there a problem?"

"You please." Deep sea made a gesture of please, obediently ran to the back 200 meters, moved out a small horse to sit there and became a loyal fan.

"Boss cheer up," Deep Ocean shouted.

Lu Yang laughed and turned to look at the Dragon King of Moyuan. This guy looked big, a faucet had a diameter of 5 meters, and his body was even more terrifying. However, this product had a big shortcoming and would not move.

How can a lord who has not been able to beat Lu Yang? Lu Yang alone can easily harvest this lord.

Chapter 1264 - Voyager Joan

"Blazing Heart"

Lu Yang uses the heart of the Dragon King to launch his skills.

"112868000"

The Demon Dragon raised his head with a headache and blasted out a cone-shaped flame according to the landing sun. A straight distance of 100 meters, the cone-shaped flame radiated toward the landing sun. The distance of 100 meters was less than 0.5 seconds.

“Remnant Flame-Activated”

Lu Yang’s reaction speed was 0.3 seconds. He fired his skills as soon as the flame of the dragon king was about to spit out, and easily escaped to an area of 50 meters away. The flame just passed through the body of the landing sun, causing no trace of damage to him.

This is the only skill of the Demon Dragon. This is a magic-free skill. Non-invincible skills can cause damage. The power is 7 million. To kill this lord, you need a Druid of 190 or higher. The advantage in blood volume is tough, and there are side attacks of other professions.

Generally speaking, as long as the monsters pass the hardware level, they can kill the past, but like Lu Yang, using continuous evasion to attack at level 140, only a few people can do it.

Half an hour later, Lu Yuan was knocked to the ground by Lu Yang, dropping a skill book and two items of equipment.

Lu Yang looked to the skill book.

Storm Storm

Type: Water Magic

Consumption: 300,000 magic + 50,000 / second

Distance: 2500 yards

Description: Creates a cumulonimbus cloud, inflicting damage to the player within 2500 yards per second of Intelligence x 0.1 damage.

“What skills is this and how low is the damage.” Deep sea was disappointed for a while.

Lu Yang said with a smile: “But if there are 5 people stacked and released in a watery area? Such a large area is not worse than a curse.”

Deep Ocean blinked and reacted, and said excitedly on his face, “Boss, I see. This is not a curse, it’s so cool.”

Lu Yang laughed and said, “Everyone continues to play skill books.”

He gave the skill book to the deep sea, resting next to the well of the Dragon Dragon King, and his mage players continued to fight monsters around the grave.

On the other hand, after a day of rest, the turbid wine and the White Lion once again entered the dungeon and played Level 140 dark gold equipment.

Mu Yi and Jin did not change. Grant and Tu Feng are collecting logistical supplies, including 140-level gold jewelry, dark gold potion recipes, and magic scrolls.

“Boss, I need a lot of dragon skins. I seem to be able to develop a new series of secondary forbidden magic scrolls.” Grant sent a message.

Lu Yang’s message marked by Grant is special, so the message he sends must be received by Lu Yang.

“What kind?” Lu Yang asked, his eyes lit up.

“Every department is fine. It seems that these scrolls are common. Develop one, and the rest are well grasped.” Grant said.

Lu Yang looked at the surrounding Moyuan Dragon and asked, “I have a lot of Moyuan Dragon skins here. They are 180-level boss-level dragon skins. Can you use them?”

Grant asked, "Boss? How much?"

Lu Yang said, "There are at least tens of thousands."

Grant shouted excitedly: "All it is, I want it all."

"I'll send someone to collect." Lu Yang called Tu Feng and asked him to send someone to help.

Soon, the collection team of more than 100 people used the teleportation staff to fly to the sentry tower built by Lu Yang at the gate, looking for dragon skin full of copies.

Tu Feng also came in, standing beside Lu Yang and whispering, "I recently countered a vice chairman of the G8. He wants to see you in person."

Lu Yang said with surprise: "Is this person reliable?"

Tu Feng shook his head, and said with a dignified expression: "I tested him several times. This man feels incomprehensible to me. From the looks of it, he is completely devoted, but he has no flaws, but Makes me doubt. "

Lu Yang frowned and said, "This is somewhat interesting. How does he want to surrender?"

Tu Feng said: "He wants to meet with you in person. If the negotiations go smoothly, he is willing to tell us where all the G8 140 elites are located in Tianyuan City."

Lu Yang sneered and said, "This man is 80% a liar."

Leaving aside the cost of betrayal by a vice chairman in the game, just talking about this person's 140-level elite of the G8, but anyone with a head knows that both sides are fully engaged in equipment preparation for a week. War.

Lu Yang's Brotherhood of Iron Blood did not dare to send people to the 140-level dark gold copy of Tianyuan God City, and could only play equipment in the 140-level dark gold copy in the New Territories' own jurisdiction. How could the Group of Eight dare to do so at this time.

"That's gone?" Tu Feng asked.

Lu Yang said, "See, let him come to Donghai, I will give him the ticket money. Since the G8 wants to play a conspiracy, I will play with them."

Tu Feng said, "OK, I reply to him."

Tu Feng stood next to Lu Yang and took out the phone to call the insurgent player of the Group of Eight. His name was Ju An, who was the third deputy chairman of the former Indonesian branch of the Water Emperor's Guild. He had great power and was in charge. With 20 legions.

After the merger, Joan's rights remained the same, but he repeatedly clashed with the presidents of other guilds. In recent personnel appointments, Joan was marginalized.

Lu Yang feels that there is a flaw in Qiu An. One of the reasons is that there are wise people in the G8. Even if there is a conflict, this kind of personnel transfer should not be done at this time. This will cause great dissatisfaction among players. The war is bad.

After Tu Feng called, Qiu An promised to go down. He flew to the East China Sea that night and arrived the next morning.

Lu Yang was sitting in the office on the 33rd floor. Before long, Tu Feng came to him with a shocked face.

"This is the president of our Jagged Brotherhood, Lu Yang." Tu Feng introduced Qiu An. Qiu An has not yet reacted to the shock of the Jagged Brothers Game City that he saw from this way. In such a place with 200,000 people, two main office buildings, accommodation areas, entertainment areas, and leisure areas, Qiu An was deeply shocked.

“Ah, ah, President Lu Yang, I’m sorry, your game city is so shocking that I can take it easy.” Qiu An said in English.

Lu Yang and Tu Feng had previously investigated Qiu An and knew that this person knew Chinese, but he was still chatting in English, and it became more and more evident that this person had problems.

“I hope you like it.” Lu Yang smiled and reached out and shook hands with Qiu An.

Tu Feng led Qiu An to sit on the sofa in the office, and Lu Yang also sat aside. Some people poured tea. After a simple temptation, Qiu An took the lead.

“Chairman Lu Yang, I believe you have come to know what you are saying, can you talk about the treatment of my transfer to your guild.” Qiu An said.

Lu Yang leaned comfortably on the sofa and said, “It depends on how valuable the things you bring can be.”

## Chapter 1265 - Contract trap

There was a smirk expression on Ju An’s face, saying: “Although I do n’t have the right to manage the daily affairs of the Group of Eight, I know where they upgrade every day, even ordinary players, those elite players wearing 140-level dark gold equipment, If you are ambushed, this Friday’s war will definitely make it easier for you to win the battle. “

Lu Yang cooperated with a bright expression in front of his eyes and said, “How many people can I catch?”

Qiu An said: "At least 1 million people. Before studying the copy play in Tianyuan Divine City, we found a 140-level nightmare difficulty copy that was easier to play, but afterwards, there was a scatter and chaos with you. War, so we had to find a copy again. This was bought from the studio, but this copy is in the 140-level dark gold map south of the Qingling Plain. If you can send someone to ambush on Thursday morning, There, the G8 must be hit hard. "

If what Qiu An is saying is true, Lu Yang really has the intention to ambush. Once he wins, the war will basically end, but he knows that this possibility is very small.

"Where exactly?" Lu Yang asked.

Qiu An didn't answer, a look of playful expression on Lu Yang's face looked at Lu Yang, as if he was saying you should be treated.

Lu Yang said: "Let 's do this, I will give you ten million credits as the price of this intelligence."

Qiu An repeatedly shook his head and said, "Too little. I don't want to enter your guild. You give me ten million dollars."

Lu Yang laughed. The boy had a good appetite. If he provided false news, he would not only lose money, but also lose.

"I can give you money, but how can I tell if your news is true? What if I set a trap?" Lu Yang asked.

Knowing that the opportunity is coming, Joan smiled and said, "You can deposit money into an account in the system, and we will make an agreement between the system to be a notary. If my news is true, the money will automatically come to me. Account, if it's fake, you can take it back without loss. "

This is a service launched by the system, which is specifically aimed at various contracts in the game, but this contract has a large loophole. The last generation Lu Yang knew this very well and did not know how many grand guilds fell on this contract.

There are players in foreign countries who find lawyers to drill legal contracts, and use them to sign contracts with major guilds. During that dark time, many unethical players used this slot to pit tens of millions of gold coins. Many players and studios And the guild suffered huge losses.

Lu Yang looked at Qiu An's smirk expression. He knew the purpose of Qiu Anlai. On the one hand, he wanted to pit his own players, and on the other, he wanted to pit his own money.

"Okay, you can sign this contract, but wait a minute, I will find a professional lawyer to come and sign a contract with you." Lu Yang said.

Qiu An blinked, panicking, and said, "Isn't there an official contract for the official? Why should someone come again?"

Lu Yang laughed. He didn't want to startle Joan at this time, and said, "Just going through a process. As a guild president, I have all the talents in all aspects. All contracts can only pass after inspection by the Legal Department."

Joan is a little assured that the staff of the Legal Department is not a master. He does not understand the game and it is difficult to find loopholes.

"Well, it's up to you to draft. I'll sign it if I see no problem," said Qiu An.

Lu Yang looked at the time and said, "It's time to eat. I'm a cook. We know each other by fate. Let's go for a light meal."

Qiu An wanted to end sooner, reassured earlier, and said, "Sign the contract first."

Lu Yang smiled and said, "At this time, my legal department employees are eating in the cafeteria. Who is working? I work in strict accordance with European and American standards. I do not work during breaks."

Joan smiled awkwardly, knowing that he couldn't refuse anymore at this time, thinking that there would be nothing terrible even if he had a meal, and said, "Well, let's go to eat first. I do n't drink, just eat a little . "

Lu Yang made a please gesture and said, "Let's go."

Downstairs, on the car, and two cars sat Qiu An and Tu Feng, Lu Yang and the staff of the Legal Department. This employee is an ordinary person. Lu Yang was afraid he did not understand, and specifically told this person about the loopholes in the contract. When he arrived at the hotel, Lu Yang got out of the car, and the person in the Legal Department immediately took the car and went back to work out a contract.

After Lu Yang banqueted Qiu An for dinner, it was already three o'clock in the afternoon to take him back to the company. Qiu An was stunned at the dinner table. He was able to serve so slowly for the first time.

In order to delay time, Lu Yang went to the best hotel in Donghai City. The best chef made the most complicated food in the world. A cucumber cut 108 knives. Ann urged not to let the food finish.

On the way back, Tu Feng looked at Qiu An's expression and kept smirking. He found that Lu Yang was sometimes very smart. With such a move, the legal department there had already drafted the contract, and Lu Yang was at the dinner table. They have been reviewed three times.

In the office, Tu Feng pretended to call the Legal Department to urge the contract. Within 10 minutes, someone from the Legal Department came up, and the boy wiped his sweat and said, "Vice President and President, this is the contract template that the company has been using. I changed it a bit to use this contract. "

There were three contracts in total. Lu Yang took one, the other was given to Qiu An, and the third was given to Tu Feng.

Qiu An was always worried about the contract. He quickly checked the contract, but after reading it, he was frightened by the five thunder bombers. All the loopholes they had studied before were blocked here in Lu Yang. The loopholes were also blocked by Lu Yang. If this contract is signed, Joan will never get a penny this, this. "The expression on Joan's face was wonderful.

Lu Yang asked with a smile: "Any questions?"

Qiu An said with an awkward smile: "No, this contract is very good. It is indeed a big company. It is really great. Let's sign the contract."

Lu Yang nodded with a smile. After signing the contract with Qiu An, he passed the online version to the system. After searching, the system confirmed that the contract was valid.

"I'll go back here. On Thursday night, during our daytime, we will meet at the door of the replica, and I will tell you the exact location of the 2 million people who came to hit the replica." Qiu An said.

Lu Yang said, "It's all about one word."

He watched Joan leave and said to Tu Feng beside him: "Look, there must be something wrong with this boy, his expression has betrayed him."

Tu Feng said with a smile: "After all, he is not a professional mall person. He can do this, and he is already pretty good."

Chapter 1266 - Bombing

Tu Feng then asked, "Are we going on Friday morning?"

Lu Yang said: "Of course we have to go, not only go, but also send our best players."

Tu Feng hesitated and asked, "Isn't that sending sheep into the tiger's mouth? What are your plans?"

Lu Yang sneered and said, "Follow me into the game, and by the way, you call all the vice presidents."

It's just a little conspiracy. It's hard to beat Lu Yang. With the current military configuration of the Iron Brotherhood, unless there is a mortal situation, Lu Yang has a way to defeat it, not to mention the situation in which he started first.

After half an hour.

In the guild hall of Tianyuan God City, several main vice-chairmen and chiefs of the army such as Lu Yang and Zhuo Jiu have arrived, including Karp, Li Wenxing, Xia Yuwei, Tian Yao, half-bitter love, White Lion, Zhou Tianming, Cute Queen, Hei Yan and Sirius.

After Lu Yangkeng finished Steige, shooting Sirius was instructed to return to the Donghai City Studio and continue to serve as his main vice chairman. At present, the orc players are mainly concentrated in the hands of Sirius. According to the number, he is the most. But the overall strength is not as good as several other vice presidents, the main reason is that there are too few special occupations and too few real masters.

As for Sun Yu, because of his young age and heavy schooling, the main affairs of his army were handed over to Zhuojiu.

"Boss, is there anything good?" Bitter love could not help but ask, generally Lu Yang convened so many leaders of the main army, there are battles to arrange.

Lu Yang nodded with a smile. He opened the map of the New World and locked it in a place not far from Liruma Mountain southwest of the Qingling Plain to zoom in.

"This is called Xingyue City. It is a 140-level dark gold copy. At present, we have received information that the enemy is preparing to ambush us in this place ..." Lu Yang said after Qiu An came, as for this Xingyue City, which Lu Yang can find, is the most suitable for ambush maps.

In the first point, he is closer to the G8. In the second point, this place is a pocket array. Once he enters the city and is ambushed by the enemy, it is impossible to retreat from his body. He must pay a very heavy price, so He speculated that the G8 would set an ambush in this place.

“Hey, the enemy dared to play this set with us, it seemed to be guilty.” White Lion said.

Zhou Tianming frowned and looked at the map, saying, “Boss, my people have been to this place. There is indeed a copy, but this place is too suitable for ambush. It is difficult for us to win here.”

The copy of Xingyue City is in the deepest part of the city. If you want to go in, you need to ride a horse for an hour from the city gate entrance. If you want to ambush, you can only be outside the city, not inside the city, but this distance is in the city. If you can't do it outside, if you are inside the city, you are in the encirclement of the enemy.

Lu Yang shook his head with a smile and said, “We sent a regular 100-level player into the city as a bait, and led the enemy into the encirclement we designed to destroy the enemy in one fell swoop.”

“This method works, but how do we mobilize people? This is difficult to do.” Zhou Tianming said.

Anti-surrounding in the encirclement designed by the enemy is almost impossible. White Lion, Tianyao and others all frowned.

Lu Yang smiled and said, “You don't need too many people, just use the Fire Thunder Master.”

A total of 500 fire thunder mages have no upper limit for setting fire thunder. If they want, they can create tens of thousands of thunder.

“I rely, this method will work.” Suffering half-life said excitedly.

Zhou Tianming and Zhuojiu nodded.

Lu Yang said: "There are four days left from now until Thursday night. During this time, the enemy did not dare to reveal their intentions, and they would definitely not send people to that place. The fire and thunder mage used stealth potions to enter in advance. The sky laid fire mines all over the city, destroying the enemy in one fell swoop. "

"Yes," Hei Yan said.

On the same day, Hei Yan called 500 fire-thunder mage all the way to use stealth potions, and came to Xingyue City under the protection of the Druid Army of the Black Iron Battlehawk. Sure enough, as Lu Yang said, no enemy player came in. Only strange.

Hei Yan built a sentry tower, a flash of light flashed, and Lu Yang appeared with the Forbidden Mage.

De Bu tasted like a human body and landed next to Lu Yang, bowed and said, "There are no enemy players within 10 kilometers."

Lu Yang nodded and said: "The curse mage aimed at the surrounding map to free the curse to destroy the monsters in the city."

"Yes." Luo Siyu led the team to release the forbidden spell. There are only two types of ordinary monsters and elite monsters in the city. They are quickly eliminated by the forbidden spell group.

Under the leadership of the small fireball, the fire and thunder mage buryes mines everywhere. Their speed of burying mines is one in 30 seconds, that is, 1,000 mines can be sold in one minute. On the first day, they spent 18 hours burying them. 1.108 million mines.

For three consecutive days, that is, the morning of Friday in Chinese time, and the night of Thursday in Europe, in a city of 30 square kilometers, more than 3 million mines were buried by these 500 fire-thunder mages. Going off to sleep, Huo Lei's detonation button was delivered to Lu Yang's hand.

Looking at the dense invisibility in the city, Zhou Tianming and the white lion and others smiled with astonishment.

“Hey, this time the enemy is here, it’s all over.” White Lion said.

Lu Yang asked, “Are all the battle orders tonight communicated?”

The ten main vice-chairmen said together: “The communication is complete.”

Tu Feng said, “I’ve counted here. This week’s three-day war, the number of people who can participate in the war every day is not less than 10 million.”

Players on standby who have not participated in the game all have guild points.

Lu Yang said: “Very good. After this battle, we just grabbed our equipment. The war tonight will be easier to win.”

If the G8 wants to win the ambush, it must send the same players with 140-level dark gold-level equipment, no less than 500,000.

“Dididi”

Lu Yang’s talker rang He picked it up, a playful smile appeared on his face, and said, “Jiu An is on the phone, don’t make a noise.”

The white lion and muddy wine nodded.

Lu Yang pressed the on button and said, “What’s the matter?”

Qiu An said with excitement: “Five hours later, the Group of Eight will bring 500,000 level 140 dark gold equipment players to Starmoon City to make a copy. Lu, your chance is here.”

“Okay, I will send someone to ambush in the city in advance, you can report the news at any time, I hope we have a happy cooperation this time.” Lu Yang said.

“Haha, of course.” Joan hung up the phone and laughed at Galga and others around him. “The fool was fooled, let’s go, and destroy his main force in Starmoon.”

Gelgar said excitedly, “Operation in the army.”

500,000 out of Liruma Mountain immediately and headed for Xingyue City.

Chapter 1267 - Didn't hide away?

These 500,000 people are bait, all of them are wearing silver equipment players between level 100 and 120, led by vice chairman Anthony and Leite.

After the departure of these people, there are 500,000 people behind them. These people are the main force, all of them are G8 elite players equipped with 140-level dark gold sets. The president personally led.

One million people from the G8 set off here, and Lu Yang also left with one million people from the Jagged Brotherhood.

The first batch of 500,000 people were personally commanded by half-hearted lovers. Except that he and his 100 guards wore a 140-level dark gold suit, the rest were all wearing 100-level silver gear. The second group was run by Lu Yang. Leading the team in person is also the elite of 500,000 140-level dark gold sets.

After 2 hours.

After half a lifetime of bitter love, he took 500,000 people into Xingyue City and set up ambush in various places in the city.

Xingyue City is very large. There are tens of thousands of houses in each house. Dozens of people can be hidden in each house. After half a lifetime of hard-earned arrangements, he sent a message to Lu Yang and said, "Boss, it's arranged. You look good. Right. "

Lu Yang said with a smile: "It must be like something in a while."

"Hey, it's necessary," bitter love replied for a long time.

Lu Yang hung up the phone with a smile, and then dialed Qiu An, and asked, "My person has reached the predetermined position. How long will it take for the G8 people to arrive?"

Joan was next to Gelgar, looking at Starmoon City not far away while riding a horse, and said, "You can already see the gate and be ready."

"Okay, I'll let you know." Lu Yang hung up the phone and quickly called bitter love for half his life.

On the other side.

Gelgar also quickly called Anthony, and Anthony and Wright, who got the news, looked at each other, and the two smiled.

"The whole army is accelerating. Today is the last chance to make a copy. We need to play some more dark gold equipment." Lette shouted.

"Can you stop the Iron Brotherhood's attack tonight, the G8's life and death are on everyone's body, and enter the city." Anthony shouted at the gate, and he led the team into the city first.

The 500,000 G8 players who were behind them were totally confused. They didn't know what the two were talking about, and they followed the army into the city gate confusedly.

He spent half his life hiding at the top of a minaret in the central area of Xingyue City. He watched as all members of the Group of Eight entered the Xingyue City, and he knew it was time to play.

Anthony carried a musket and rode a horse. He walked towards the minaret, just 30 meters below the tower. Suddenly, a dark shadow fell in the sky. When he looked closely, he found that a group of people appeared in front of him. His eyes The fierce lighted up.

With a half-life face, "You are dead", looking at Anthony, he pointed at Anthony with "arrogance + arrogance" and said with a laugh: "The garbage of the Group of Eight, I would not be ambushed by you, this time you die deal."

Anthony was "shocked", screaming with his hands over his face, and said, "Oh my God, my God, we were ambushed, how could this be so, we are dead."

Leite despised Anthony aside, and said, "It's too fake. Can it be more fake?"

As it happened, Anthony's Mu Guang saw Lei Te and motioned him to make an expression together. Lei Rei coped with: "Oh, scared me, I was ambushed."

Anthony: "..."

Love half a life: "..."

"I'm not afraid, let you see how powerful we are." The bitter love for half a life has not revealed any flaws because of Lattice's coping, and is devotedly acting.

"Brother, come out," shouted bitterly.

"Kill!" On the roofs around, there are invisible elven archers and mages everywhere. They use their talents to stay in hiding.

At this moment, hundreds of thousands of people appeared on the roof of the city, and Anthony's eyes jumped. He didn't care about others, because as long as he hesitated for another second, his 500,000 people could be attacked by the enemy. "500,000 Elite" spike.

Level 140 Dark Gold Set deals with Silver Sets between Level 100 and Level 120. A three-man mage stacks a range of magic to kill someone within 3 seconds.

“Presidents, immediately send someone into the city to participate in the battle, the enemy’s main force has already appeared.” Anthony sent a message to the president of the simulation group, such as Galga and Kerim.

Outside, Gaigal and Kerim, who are only 5 minutes away from Starmoon City, shouted excitedly, “The whole army is attacking.”

500,000 elites rushed into the city frantically, at the same time, the battle in the city finally started.

Suffering for half a life shouted, “Brothers, attack.”

500,000 players standing on the roof and in the room poured out the magic crazy, while Anthony and Lette thought that the Brotherhood of Iron Blood sent out was elite, too lazy to resist, and shouted: “The whole army retreats, run. Ambush among us. “

He has been killing for half a life. He easily hacked a G8 player for 3 consecutive times. Obviously, Lu Yang’s guess is correct. If the enemy wears a 140-level dark gold suit, he will never hack.

“Sure enough, I’ll tell the boss.” The bitter love sent the situation here to Lu Yang.

On the other side, Lu Yang had seen a telescope from a distance to see the 500,000 elite led by Galga personally launching a charge towards Xingyue City, and was almost at the gate of the city.

“Restraint the troops so that they all stay in the position with fire barrels.” Lu Yang said.

“Yes.” He gave an order instantly for half a lifetime, and at the same time he found Anthony. He laughed and thought: “To make the enemy believe more, only the leader who entangles the enemy can.”

“Anthony, where do you run?” The bitter love jumped in front of Anthony for a long time, relying on his equipment to be more than 10 levels higher than the opponent, did not care about Anthony’s group of people.

“Thunder Bash”

There is a thunder light from the bitter love body, which reduces the movement speed of the surrounding people by 33%. Anthony, who is about to escape, has lost his soul. He knows that he must not be hit by bitter love for half a life at this time. It will surely let the bitter lovers know that there is fraud in it, which will have a great impact on Gelga’s subsequent attacks.

“I hide.” Anthony used his life to learn to the fullest extent, seeing bitter love half a knife cut over, he quickly dodged.

For half a life, he was afraid of slashing Anthony with a knife, and deliberately reduced the attack speed by 0.5 seconds. As a result, as soon as his knife fell in half, Anthony avoided it.

At this time, Anthony and bitter love half-life were half separated, and they could see the fine lines on each other’s face, but at this time Anthony should grab the bitter love half-life hole to launch a counterattack. Did not move, just embarrassed watching bitter love for half a life.

Love half a life: “...”

Anthony: “...”

“I wiped I played too much, and come out next time to hurry up.” For a long time, bitter love felt that it was too fast.

“Damn, the other party is so slow. I’m hiding early. I’ll do it slowly next time.” Anthony thought.

As it happened, bitter love yelled and yelled, “The good man on the opposite side can hide even this knife from me, look at my knife again.”

Anthony smiled coldly in his heart and said, "At this speed, I can avoid it by 0.5 seconds slower."

"Click"

The bitter love cut Anthony's head with one stroke.

System prompt: Anthony, die!

Anthony's last look before his death was emotionally looking at bitter love for half a life, as if to say, you don't follow the routine.

Painful love scratched his head for a long time, and said, "Well, I just hid very fast. Why didn't I hide now?"

Chapter 1268 - Escape Gelgar

Lette looked awkwardly at bitter love for a long time, and said, "This time it's broken, it's exposed."

At this time, the entire sky of Xingyue City was covered with overcast clouds, and Gelga's long-range mage unit finally arrived at the designated location and began to release the curse.

After seeing this scene, Lette finally breathed a sigh of relief and used resurrection skills on Anthony.

Anthony was running on the road, and when he saw Rattle was going to resurrect him, he knew immediately that their bait plan had been successful.

A flash of light flashed, Anthony was resurrected in situ, and he sneered and looked at bitter love for a long time, and said, "Boy, I just let you, and see if we don't, we are just bait. "

Laite said with a laugh: "Go back and tell Lu Yang for us, we have accepted this equipment."

Numerous forbidden curses fell in the sky, and the Iron Blood Brothers players in the city quickly died, and a large amount of equipment fell to the ground.

He looked at the two men with ridicule for half a lifetime, and said, "Oh, I'm so scared, ah, ah, it's finished, my main force is going to die."

Lette: "..."

Anthony: "..."

The dumb handsome guy: "..."

"Brother, can you take a snack for the show." The dumb handsome said scornfully.

I loved the black line in my brain for half a lifetime, and said, "I'm so attentive, okay, how much I played just now."

"No, no, haven't you watched a variety show on TV? People said that when they were acting, that expression was, yes, that expression." The dumb handsome guy said.

"It's not an expression, it's a look. I have a good look." Said bitter love for a long time.

"But you don't care." The handsome dumb boy retorted.

...

Lette and Anthony watched the two quarrel. Suddenly there was a bad hunch in their hearts. The two hurriedly looked at the surrounding Brother Iron Brother players, but found that there was no dark gold-level equipment on the ground. It's all silver.

"What? How did this happen?" Rett said in shock.

He looked at Lette and Anthony with contempt for half of his life and said, "I don't understand yet. I am also a bait. Let's bait against bait. Haha, Anthony was slaughtered by me."

Anthony was so frightened that he had no choice but to scold him for half a lifetime. He called Galga quickly, but at this time Galga was calling someone and couldn't get in at all. He quickly changed to texting.

Outside the city.

Gelgar excitedly called the troops from various quarters and directed them to rush into the city and seize the major points. At this time, two-thirds of the members had rushed in.

"Have you seen Lu Yang on the front line? If you did, tell me the first time, I will kill him by myself." Galga shouted excitedly.

Kerem stood beside him and said, "Count me, kill him once. He has a resurrection stone. After the second resurrection, I will single him out."

"Okay, that's it." Galgahaha laughed.

But at this moment, he found that there seemed to be a golden light before his eyes. The next second, he heard only a loud noise, and then he died.

From a distance, the next second after all of Gelga had entered the city, Lu Yang pressed the explosion command. From the city gate to the main city, more than half of Xingyue City suddenly burst into

flames, accompanied by a strong fire. The explosion sounded that one-third of the 1 million players who entered the city were killed by two-thirds in an instant, and the remaining one-third died without blood.

Behind the minaret in the central area of Xingyue City, fifteen sentry towers were hidden there, a flash of light flashed, and Lu Yang appeared with 1,500 iron-blood brother alliance forbidden spells.

“Bomb the whole city. Don’t run away an enemy.”

Lu Yang said.

“Yes.” Hei Yan immediately instructed these 1500 people to release the curse on the spot, and 10 minutes away from the city, the lovely queen was personally bringing 100,000 people closer to this side.

The light flashed.

Galga and Kerim were resurrected in situ. The two looked around, but found that the bodies and equipment of their players were all around them.

“How come, what’s going on?” Gelgar growled.

A player who did not die in the distance ran over, crying and said, “Boss, we are in an ambush. Just now, the whole city burst out with an explosion, and our main force is dead.”

“How can this be, how can this be?” Gelgar asked in shock.

“Neighing ~!”

A chirping phoenix sounded in the sky, and Kerem stared at the crimson figure with a sharp eye. He said in horror: “No, it’s Lu Yang. He designed the ambush, and we all counted.”

Gherga saw Lu Yang, his expression had become embarrassed, roaring: "Retreat, the whole retreat alive."

Hundreds of people around him picked up their gear and ran out of town.

Lu Yang was patrolling in the air. He saw Gailgar who was running away at a glance. He knew that Gailgar had a heart of God of War. Such good opportunities were rare, and he decided to take a chance.

"Great Ancestor of Fire ..."

Lu Yang flew into the clouds and hid in the air to look down. Before coming to Gelgar and others in advance, the mantra had a spell in his mouth.

Just 10 seconds later, a huge crimson meteorite fell in the sky, this meteorite was 100 meters in diameter.

Guerga and Kerim fled, but no one noticed a meteorite in the sky on their way.

"boom"

The meteorite is in the center of Gherga and Kerim, and a violent explosion sounds, accompanied by a huge mushroom cloud. When the smoke and dust dissipated, Kerem, Daniel and other 8 presidents and 8 investors And there are only one of the hundreds of guards still alive, that is, Gherga holding the heart of God of War.

Lu Yang landed in front of Gelgar, looking at Gelgar, his whole body flashing cold, knowing that the opponent had turned on the state of war.

God of War status, free from all control skills, all damage taken reduced by 50%, all physical attacks increased by 300%.

“Gelga, we finally have a chance to single out.” Lu Yang turned on the magic change, and all magic became instant.

Galga smirked and looked at Lu Yang, approached step by step, and said, “You want to be solo with me. If you have the courage, then I will accept your demon heart.”

“charge”

Galga turned into a phantom and rushed to Lu Yang. Lu Yang did not avoid it, and at the moment he launched the charge, he spelled out the words and pressed his left hand down.

“Earth to Earth”

Gelgar sprinted 20 meters in front of Lu Yang, stopped abruptly, and in front of him, a fire burst into the sky.

After the firelight, Galga smirked, and said, “I guess you’re going to use this trick, now it’s me.”

“Intercept”

Gelgar launched a second charge at a close range of 20 meters. Lu Yang did not dare to carelessly and quickly let go of his body. But that was the way, not only did Galga stop the momentum of the charge, he kept running forward ... ..

Lu Yang looked at Gelga silently. He never thought that the first chairman of the G8 would run away in a heads-up, it was really embarrassing.

Chapter 1269 - Dilemma of the G8

However, if you think about it, your own people have been wiped out, leaving him alone, facing Lu Yang’s hundreds of thousands of main troops, even if he has the courage to dare not challenge Lu Yang.

Worried about Lu Yang's safety, De Bu tasted the corpse and supported him from a distance. He looked at the escaping Gelgar and asked curiously, "Boss, what's the situation?"

Lu Yang laughed and said what had just happened.

De Wu tasted the corpse and said with a laugh: "The chairman of one of the top ten New World guilds, who ran away so embarrassingly."

Lu Yang shook his head with a smile, put on a magic flying carpet and flew back to the city with a taste of corpse, and found half-life of bitter love. At this time, Tu Feng's logistics troops counted items in the city. With 500,000 main force sweeping the remaining enemies in the city.

What was unexpected was that Lu Ai had found Qiu An hidden in the corner for half her life, which surprised Lu Yang.

He looked at Joan and said, "Why didn't you run?"

Qiu An looked at Lu Yang with a sullen expression, gritted his teeth and cursed, "Lu Yang, you hurt me, you hurt me!"

Lu Yang laughed and said, "I was the one who killed you first. Okay, if you don't want to set me up, how can I take this opportunity to ambush you?"

Joan was speechless.

Lu Yang sneered, and then said, "Qiu An, please be content. If you are in the country, someone will dare to use a conspiracy to trick me, and I will definitely add 10 million to your account now, so that you are completely reduced to A traitor, you won't be able to clean this up in your life. "

The cold sweat on Juan's forehead flowed down. He looked at Lu Yang in horror and begged: "No, no, you can't do this to me."

Lu Yang snorted and said, "I can tell you that I have never thought of doing this. Galga's background is very complicated in Mexico. I know that you and I have complained in the game but did not meet each other. To the point, so I will not use this to kill you, but you remember, do n't have to play the plot with the Huaxia people next time, before you leave the primitive society, Huaxia has already played the trick with conspiracy, I You do n't have to bother with your head."

When Mexico was still in the form of Indian tribe, Huaxia had entered the Spring and Autumn and Warring States Periods. In addition, Mexico was only as big as how many talents it could have. Compared with the war that killed millions and millions at the time of the Huaxia war, they saw little Big witch.

As a Chinese, I do n't understand conspiracy anymore. I have watched many TV series and history books, and can easily see through the plot of foreigners.

So far, what really makes Lu Yang feel tricky is only the super guilds in a few countries such as Japan, the United Kingdom, Germany, and France. As for the rest, conspiracy is all about death.

Qiu An learned that Lu Yang didn't want to hurt him, and he felt a long sigh of relief. He slumped on the ground and said to Lu Yang, "Thank you."

Lu Yang snorted again and said, "Let's go, your thank you to me doesn't make any sense, but think about how to face the blame of Gelgar."

Qiu An bowed his head and said nothing, took out the teleport token with his left hand and flew back to Tianyuan God City.

The bitter love said half-heartedly: "This unlucky child, the statistics come out. The 140-level dark gold equipment is enough to make up 60,000 sets, and 40,000 parts."

Lu Yang said: "Back to the city, all the equipment is hung in the guild warehouse, and we are preparing for a decisive battle tonight."

"Yes." Bitter love turned around and ordered his men to gather, and the whole team retreated to the village around Qingling Plain.

On the other side.

Gelgar had fallen into extreme fury, and he couldn't explain what was going on in the game. He could only quit the game and wound Joan seriously.

At noon that day, Joan went to the hospital and lay in bed. Joan thought about his life seriously.

For the time being, because of the failure of the strategy, the G8, which has scarce equipment, has lost 60,000 sets of 140-level dark gold equipment, which has greatly damaged their strength.

Inside the guild.

Gelgar and Daniel and others frowned, while the eight investor representatives had angry expressions on their faces, and anyone knew what the dilemma they would face if the war failed.

"Let's talk about how to defend specifically. If one of these six places is missed, our main city will face the frontal attack of the Jagged Brothers players." Investor Xiali asked.

Gherga saw no one to speak, and he took the lead to say, "Still defending the way before. Of these six maps, the hills at dusk and Silent Hill are the hardest to defend, and the other four places are protected by nature. , Daniel and I will each bring another president to defend these two places, and the presidents such as Blood Butcher and Kerim will lead their respective guild players to defend other areas separately. "

Investor Ronny frowned and asked, "How many sets of 140 level gold gear do we have now?"

Gellgar looked awkward, saying, "There are about 900,000 units left."

"How many brotherhoods are there?" Hiaril asked.

"At least 4 million units," Gelgar said.

Despair looks on the faces of Ronnie and Hiarelli.

“It’s such a big gap, how can we fight like this?” Ronnie asked.

Daniel watched Galgar more and more embarrassed and said, “The level 130 dark gold is only 30% worse than the level 140 dark gold. The difference is not large. There is a natural battle between us and our heroic battle. Absolutely. To offset this gap, I believe we will have no problems. “

Ronnie shook his head and said, “I will report this incident to my boss. I will invest in this ratio soon, and I will recommend that they cancel.”

“No,” Gellgar and Daniel exclaimed at the same time. This is an investment of 200 million US dollars, which is related to the future development of the guild.

Ronny shrugged and said, “I need to take responsibility for my boss.”

“I would suggest that, too,” Sialy said. “Sorry, this is our duty.”

The remaining six investor representatives have stated that they will do the same. Obviously, they are no longer optimistic about the future of the G8.

Gelgar, Daniel and others were frightened. If they lost the investment, they would need to get the money themselves. This amount was too large and their pressure was too heavy.

Just when Gerga and Daniel were worried about not knowing how to convince Ronnie and others, suddenly, a familiar and unfamiliar phone came in.

Gherga saw the number with a surprised expression on his face, and said, “Don’t talk, you’re called by Alfonso, president of the Spanish Super Guild.”

Daniel and others were surprised, and Ronnie and Hiarelli and others also temporarily stopped the conversation.

Gelgar pressed the call button and asked, "What's up?"

At the other end of the phone, Alfonso laughed and asked, "Gelga, I heard that your recent war has been difficult. Do you need help?"

"Help? You?" Galga sneered, this was a joke. Alfonso was fighting him, how could he help him.

Alfonso still said with a smile: "Don't take this attitude. I know you are struggling to defend now. It's very likely that you won't be able to keep those 6 days. I have a proposal to help you keep Lu Yang."

Gelgar asked, "What's the proposal?"

Alfonso said: "I traded one million dark gold suits for the three main cities you guarded at the gate of my eastern mountain area. Do you agree or not?"

Chapter 1270 - War watched by millions

These three cities are called Bingchen, Purple Lily, and Agave. The Purple Lily is stuck on the necessary road in the eastern mountain area. It is a main city similar to the Tianjian Fortress, and the other two are similar. This is The main reason why Alfonso cannot get out of the eastern mountains.

Gelgar heard the news and immediately thought about it. If the three fortresses were handed over to Alfonso, the bullfighters would be able to walk out of the eastern mountain area and enter the outside. The strength of the eastern mountain area is weak, but it is equivalent to Siege him on both sides, which he did not want to see.

"No, I gave you these three main cities. What is the difference between suicide? You and Lu Yang attacked me alone. At that time, I failed even worse." Galga said.

Ronnie, Hiarelli, Daniel and others looked at Galga in surprise, not knowing what he was talking to Alfonso.

On the phone, Alfonso said with a grin and smile, "Let's talk about the specific conditions. If you have any requirements, you can tell me."

Gelgar frowned, and said, "So, give me some time to think about it, and I'll call you back later."

Alfonso said: "Yes, but you don't have much time. If Lu Yang launches an offensive against you, you will not be able to support me to send equipment in the past, it is unknown."

Gerga huffed anxiously and hung up the phone.

"What is it?" Daniel asked impatiently.

Gelgar sighed and spoke out what he had just said.

Representatives of investors such as Ronny and Hialeah have brightened their eyes. This is an excellent defensive opportunity for the guild. One million sets of equipment are enough for the Group of Eight to gain the strength to fight Lu Yang.

But when they saw the frowning expressions of Galga and Daniel, they knew that this matter was not so simple. After all, the three cities and the current 1 million sets of 140-level dark gold equipment have very different values.

"What would happen to these three cities?" Ronnie asked.

Daniel opened the map, pointed out the specific locations of the three forts, and looked at the three cities connected to the eastern mountains. People who did not understand knew his importance.

Gherga gritted his teeth and said, "I don't recommend agreeing to this matter. I don't want to forgive these three forts, but let Alfonso come in, and we will suffer the enemy, even if we can restrain him with an alliance contract. It remains a big problem for us. "

The Blood Butcher thought about it and said, "I have a different opinion."

"What?" Gelgar asked.

The blood butcher said: "I suggest that these three fortresses be given to Alfonso, in addition to the one million sets of 140 gold medal equipment, and the news of alliance with us, at the same time, not only will we The city was sold to him, and sold to him alongside the eagle city, the black city, and the crescent city. "

"Ah?" Everyone was stunned.

The bloodslayer said sharply, "Let 's release the three cities, we eased the pressure on the equipment for a short time, and Alfonso was not able to attack us, but in the long run, Alfonso must want to annex our territory. Since he will be at war with us sooner or later, it is better to let this area out and let him border on Lu Yang.

Lu Yang wanted to attack us. We continued to retreat and let out of most of the territory. Alfonso could not allow Lu Yang to snatch. He would definitely join the battle. The two would fight together sooner or later. "

Ronnie looked at the thoughtful expressions of Galga and Daniel, and did not wait for them to speak. He first asked with painful pain: "Will this be too hurtful? Is our territory smaller? "

Gelgar laughed and patted Ronnie's shoulder. "Working with you for so long, this is the best sentence I have ever heard of you."

Ronnie frowned. "Don't be kidding, I mean business."

Gelgar relaxed even more and said with a smile: "It doesn't hurt to give up those territories. It is nothing more than abandoning 8 fortresses. At this stage, they are reclamation of 140 fortresses. Who cares about 100 fortresses. The money you should have made is almost the same, and it doesn't matter if these forts are abandoned. "

"Is it really okay?" Hiaril asked.

Gelgar thought for a while and said, "So, anyway, these fortresses also have to be abandoned. We might as well fight with Lu Yang first. If it fails, we trade with Alfonso again. If it is blocked, we don't need to Traded. "

Ronnie said, "Will Alfonso speak so well?"

Gail Gahaha said with a laugh: "Of course, if he doesn't buy it, I will give it to Lu Yang, and then let Lu Yang stand in front of him, he will not be able to get out of the mountainous mountains in his life."

Everyone laughed.

"That makes sense," Daniel said.

"Let's go, we are going to fight with Lu Yang," Gelga said.

The crowd nodded and summoned the players to the forward position. When they convened the players, the total number exceeded 10 million people. In order to keep the six maps such as Liruma Mountain, Galga was considered a fight.

On the other side.

Lu Yang returned to victory, and the players in the guild began to gather in excitement cheers after knowing it. At 8 pm, more than 10 million players gathered, of which 3 million were wearing 140-level dark gold suits, and another 300 Ten thousand people are 140 pieces of dark gold parts and half sets of 130 sets.

This is currently the strongest fighting capacity of the Jagged Brotherhood, and the epic collision between the two sides is here.

Many major live broadcast platforms around the world use a paid form to broadcast the war. This is a live broadcast channel that cooperates with the official. In this way, players can freely adjust their perspectives and even observe a certain player's combat method from close range. .

For this model Many people feel novel and choose to buy one. The price of this live broadcast is not expensive. Huaxia can get it for free as long as there is a member on any live broadcast platform, or it costs 10 yuan. can.

This is probably the case abroad. Although the price is cheap, globally, the official statistics show that there are 1.5 billion people who choose to watch this live broadcast.

When the major platforms aggregated the data to the official headquarters of the Second World, the heads of all live broadcast platforms and official channels were stunned.

Just this time the live broadcast, before it started, it earned about 15 billion credits. At the official headquarters, a person in charge of a certain sports brand was negotiating and decided to call Lu Yang.

"Hello President Lu Yang, I am Biasso, the global vice president of Dongsheng, and I want to discuss business cooperation with you," Biasso said.

Lu Yang was leading people forward, looking at the strange phone and voice frowning and asking, "Why do you have my phone? Sorry, now I can't negotiate with you, I'm fighting."

Biasso quickly said, "Give me 5 minutes, just 5 minutes, can you?"

Chapter 1271 - Advertising contract

"What's the matter? Let's go." Lu Yang said.

Biasor breathed a sigh of relief, saying, "President Lu Yang, I want to get an advertising contract on the chest of the Jagged Brotherhood."

Lu Yang Yile said, "The government hasn't officially launched a formal contract in this area. I can't agree. Besides, my price is very expensive."

Biasor heard Lu Yang say this, he gave a long breath and said with a smile: "I'm in the building of the Second World International Headquarters, the official is not a problem, I want to ask the price, you see, we What about the \$ 10 million a year sponsorship fee? "

Lu Yang frowned. "If you don't have the sincerity to negotiate, you don't have to make this call, and I don't have time to waste with you."

Biasso wanted to test Lu Yang, but he did not expect that Lu Yang would not give him a chance at all. He said a little bit, "Well, you can give you an ideal price. If it is within a reasonable range, we are willing to accept."

Lu Yang said: "Two types of contracts, the first one is 600 million pounds in three years, and the second one is 800 million pounds in five years."

This is the contract price signed by the first super guild of the last generation and the sponsor. He didn't have much to worry about, and he was afraid to run away for the other party.

Biasso's mouth widened in surprise, this price far exceeded his psychological evaluation price, which was simply drawing blood from them.

"It's too expensive, this price is too expensive, I can't accept it," Biasso said repeatedly.

Lu Yang said: "It doesn't matter, then I will assume that you have not made this call, I have other calls to answer, first ..."

Biasor saw that Lu Yang was going to hang up and heard that there were others to answer. He was scared and thought that there were other companies looking for Lu Yang. When 1.5 billion people paid to watch the program, if he let If his competition is gone, then he is losing money.

“Slow, President Lu Yang, I accepted the price, the first one, 600 million pounds in three years, let’s sign the contract here, I will call the money for the first year now.” Biasso gritted his teeth. Said.

This price is far more than the brand sponsorship price of any sport in the world. Biasso doesn’t know if he is doing this right, but he knows that if he doesn’t, he will regret it.

Lu Yang listened to Biasso’s fierce voice and said with a smile: “Trust me, you will be proud of your decision today. Let’s sign the contract. You can find the official trademark, and let the official post it directly.”

“Okay.” Biasso turned to look at the official members of the Second World, and after speaking about his conversation with Lu Yang, the official hoped that such advertising sponsorship would appear and immediately go the green channel to open the way for Biasso.

Just half an hour later, a sensational message spread through the game.

[Official Channel]: Starting today, Jagged Brothers officially signed a sponsorship contract with the Clover Sports brand and became its chest advertiser.

...

Three consecutive reminders appeared on the World Channel. For a moment, the noise of the World Channel all quieted down. Billions of people around the world were surprised to watch these three messages, and they couldn’t be calm for a long time.

“Is the Jagged Brothers Alliance sponsored by Clover?”

“Oh my god, can game companies still get sponsorship?”

“It’s amazing, the game is getting more and more on track.”

...

Tens of millions of players in the Jagged Brothers League are walking along the plains with Lu Yang collectively. When they saw this news, the clover logo had appeared on their chests, and they were all surprised to discuss it in private.

Before they waited for a minute for discussion, an inside news of the guild blew up all the members.

[Guidance Channel] Lu Yang: Just signed an advertising contract with Shamrock Company, 3 years, 600 million pounds, this money is all left in the guild, divided into two parts, the first part is used to cultivate outstanding players, who are brave in war Those who have been recommended by the captain at the captain level and above in the battle will be given priority in obtaining this investment.

The second part is enjoyed by all members. The guild uses this money to buy the necessities that are commonly used by players to help players upgrade.

The white lion and bitter half-life who were leading the team looked at this news and were surprised to see Lu Yang’s direction.

“The boss is so interesting.”

“It is conceivable that our guild will become stronger again.”

The excited eyes of the players have turned red. So far, Lu Yang has always talked and forgotten. He has never said nothing once. He said that he would give the money to the player, and he would definitely give it to the player.

This money rewards masters and provides guild benefits, which is too important for ordinary players, which allows them to greatly increase their recognition of the guild.

“Brothers, fight hard. I have to recommend it to the boss if you have the ability,” a captain shouted.

“For ourselves, the guild, the Brotherhood of Iron and Blood.”

“Kill ~!”

...

The sudden shouting and shuddering shocked Lu Yang, and he turned his head to look at it and found that it was Zhou Tianming’s team, shaking his head with a smile.

Tu Feng said excitedly, “Brothers in the guild have a stronger idea of war, which is a good thing.”

Lu Yang thought, this money is not much at all. It is estimated that when he finishes this battle, the next expansion film will be opened. When this expansion film is opened, all the presidents who established the guild will know that it is 600 million yuan. Little pounds!

“We fought to defeat the G8 defense in World War I, broke through a fortress, and the army accelerated.” Lu Yang said.

Lu Yang accelerated his movement speed, 10 million people accelerated on the vast plains as a whole, but there were very few people left behind, and they flew forward as a whole. From the height of the sky, it was extraordinarily bloody. The live broadcasters of the major live broadcast platforms are also excitedly discussing the sudden appearance of the Jagged Brotherhood ad. When they pull the video to a close angle, they can clearly see the light warning sign on the chest of the Jagged Brotherhood player. The shamrock logo is on the corset of Yang.

The presidents of the Group of Eight, Gherga and Kerim, were viewing the site of Lu Yang’s attack through the official live broadcast. When they saw the news, they were furious.

“I want to make a complaint, I’m looking for an official complaint,” Gerga angered.

Daniel patted his shoulder and said, "It doesn't make sense, it must be officially approved, otherwise it won't appear so suddenly."

"Doesn't this make bullying clear? See if we can't beat Lu Yang. To do so to highlight him, the official is a bastard." Blood Butcher said.

Kerem scolded his teeth and said, "Then we use a victory to tell everyone that we are not so bullying."

Gelgar said, "Yes, just tell the brothers in the guild, stir their anger, and the soldiers will win."

## Chapter 1272 - Final Battle Silent Hill

Anthony, Wright and others immediately passed on the news to the players below. For a moment, the players of the Group of Eight countries were angry and there was a great potential for sorrow.

Among the major live broadcast platforms around the world, not only the Jagged Brotherhood but also the Group of Eight. Originally, everyone thought that the Group of Eight had lost, and they suddenly became excited when they saw the tragedy of the Group of Eight.

In the live broadcast rooms of various countries.

"This war is undecided," said the British broadcaster.

"The Group of Eight may not lose if there is danger of terrain defense," said the US broadcaster.

"I bet this is going to be a great battle." The French broadcaster said.

“It’s not yet known who the deer died, and everyone can enjoy this world war.” The Japanese broadcaster said.

...

With the words of live broadcast players from various countries, the excitement of the players watching the live broadcast also continued to rise. After more than half an hour, tens of millions of brothers of the Iron Blood Alliance divided into six legions among the horses and came to the Group of Eight. Defensive zone.

The defenders of the Liruma Heights are the Brazilian Guild, with a total number of 1.5 million. The offensive position is the Brotherhood of the White Lions and the Korean Army, with a total number of 1.8 million.

The defender of Silent Hill is the Mexican Guild. Gelgar defends it personally. Daniel and his guild are in defense. The total number is 3 million. The attackers are the Brotherhood of the Iron Blood Brothers Zhou Tianming and Xia Yuwei. The total number is 3.3 million. .

The defenders of the Lingshui River Plain are the blood butcher and Kerim. The two defend together. The total number is 3 million. The offensive is Tianyao and the Karp Army of India with a total number of 4 million.

The defenders of the hills at dusk are the 2 million people defended by the director of the Bengal Tenjin Association, Pratan, and the offensive side is the half-hearted and Indian Patho Legion, with a total number of 1.8 million.

The defender of Shalulu Waterfall is Indonesia ’s Aqua Emperor ’s Guild. Chairman Downey personally led a defense of 2 million people. The attacker was the new queen of the Iron Blood Brothers Alliance, the cute queen and Dalvey, with a total of 1 million.

The first-line sky is defended by the Shura Guild of India, with a total number of 2.5 million, and the attacker is Sun Yu, with a total number of 1 million.

There are six legions in six places responsible for attack, and tens of thousands of players are distributed around the resurrection point, responsible for the security of the resurrection point.

It takes half an hour from the resurrection point to the battlefield ahead. If someone seizes the resurrection point, the damage to the battlefield is quite large.

Lu Yang personally sat in the army and confronted Galga in Silent Hill. When Lu Yang was ready, it was already 9pm.

He looked at Silent Hill. The entire Silent Hill is very dangerous. He is the tail of the Tianya Mountains, and the whole is a verdant green mountain.

The main body consists of twelve high mountains. On the side of the Brotherhood of Iron and Blood, there is an obvious large hillside. The conventional mountain road has been blocked. Only this side can be attacked. On each layer of the slope, every 30 meters there is a row of defensive positions of the Group of Eight.

On the middle of the mountain, Galga stood on top of the command. He looked at Lu Yang with a tomahawk and sneered. "Lu Yang, don't think that the official favoritism you think you must win. Yes, you have the courage to attack, and I will not beat your eggs. "

He shouted with a loudspeaker, all players in the audience could hear it, and suddenly, the G8 players laughed.

Lu Yang sneered, put on a magic flying carpet, and slowly flew into the sky. He shouted with a loudspeaker: "All brothers and brothers, please note that there is no major or secondary attack in today's war. All legions, all the offensive squares are the main force, and whoever breaks through the position first will be rewarded with 1 million US dollars in cash.

The Brotherhood of Jagged Brothers orders, the whole army, attack ~! "

"Kill!" In 6 places, all players of the 6 legions were crazy when they heard this command, and their \*\*\*\* eyes attacked the enemy position.

Gerga had been prepared, but when he saw the Jagged Brothers attacking, he was still scared by this morale. What kind of army can it explode?

Many players who support the G8 are looking at their defense from the perspective of the G8, but when they see the Brotherhood of Iron Blood attacking, the indomitable momentum also makes them feel embarrassed.

“Horror, terrible.”

“The G8 stand up.”

“It’s scary, how could there be such a strong morale.”

...

Where do they know that this is the morale cultivated by the Jagged Brothers Alliance after 3 years, and now they are following the Jagged Brothers Alliance. Except for Li Wenxing and the Jiuxing Alliance, which are somewhat weak, Jagged Brothers headquarters and India are the most powerful players .

In the past wars with the Group of Eight, the Brotherhood of the Iron Blood has won every battle, and it has already had sufficient psychological advantages, coupled with the advantages of equipment. From the beginning of the offensive, the Brotherhood of the Blood did not look down on the Group of Eight.

Gelgar had the heart of God of War, and originally wanted to exert morale on the front line, but Lu Yang had 6 archer artifacts, and 6 archers with 8th-level artifacts aimed at Galger with a single killing skill. Gelgar was hit by the shooter several times, almost dead on the spot, and even the artifact fell off.

As a last resort, Galga had to step back and gave the artifact to his confidant and returned to the city, while he stood in the distance to direct the battle.

The first 5 lines of defense of the Silent Hill were collapsed in just one wave of attack. Up to the sixth line of defense, the two sides gathered on the 180 high ground. This is a gentle area with many G8 players above.

Lu Yang watched the Brotherhood of Iron and Blood attacks three times and had not defeated it. Instead, it made the other party's organization look good. He looked back at Zhou Tianming and asked, "Can you lay it down in 20 minutes here?"

"Ten minutes, I can't beat it. I blame him here." Zhou Tianming answered loudly. He turned to look at the Twenty-seventh Army behind him. "Don't say it's the elite army of Lao Tzu."

"Yes." Lei Ming roared, and his left hand yelled 180 meters high: "Lei Mingjun, kill ~!"

10,000 Thundering Army is like crazy, with red eyes launching the charge towards 180 meters high. This legion is one of more than a dozen elite regiments under Zhou Tianming. They are not special, but Thundering is powerful and human. Smart, so the overall strength of the players.

From the foot of the mountain to the 180-meter high, Thunder turned on the acceleration scroll. It took less than 1 minute for 10,000 people to rush forward, and the two sides started a melee on the 180-meter high as soon as possible.

Zhou Tianming saw the two sides engaging in battle and shouted to the archer legion behind him: "The 66th, 67th, and 68th legions as a whole moved to a height of 150 meters and reversed the attack on the top of the mountain."

#### Chapter 1273 - Heavenly Liruma Mountain

"Yes." The pure shooter group of 30,000 people moved forward immediately. The three legions were only players with the second turn. The blood of the shooter's three turns has not yet spread, but even so, they still have a range of 150 meters. Can suppress enemy long-range players in the range of 210 meters to 300 meters.

“The first group, shoot!” Shouted Li Wanan, head of the 66 shooter group.

10,000 shooters are shooting 210 meters high at the same time. Instead of using hash arrows, they shoot with precision. The voice just fell, and almost 10,000 arrows hit. The long-range shooters on 210 meters are always shooting with their heads out. All were shot dead.

“Good job,” Lu Yang said.

Zhou Tianming said proudly: “The three shooter players are all veterans with 3 years of shooter experience and all the elite shooters under my command. I put them all together to form these three legions.”

The most powerful part of the Jagged Brothers League is that most of the domestic players started to follow the landing. Many of these players only play this profession, unlike other players. Some think that this profession is not fun, and then change the profession. .

Once you change careers, the level may be able to catch up, but the understanding of the profession is much less than others, especially in games like “Second World” that require players to experience. These people have been playing shooters for three years and can almost do it. In the middle of a hundred shots, even if they can’t hit the front, they will use throwing or other shooting methods. In terms of mastery of strength, they are obviously different from shooters who have only played for a year or two.

“嗖”

“嗖”

...

Arrow rain made a harsh buzzing sound. The second and third waves of arrow rain came one after another, and they landed on 210 to 230 meters high like a locust crossing.

The G8 players on the two highlands did not even have the ability to raise their heads. Even if they were hiding in the highlands, the shooters would rely on their strength to send explosive arrows into their positions and cause roars.

In the face of the threat from the upper part, Lei Ming immediately became a lot smaller, and he roared: "Grab the position, the shield team protects and heals."

Thousands of shield battles carried the big shield on the slope, healed the players to hide behind, and 10,000 people accelerated to compete for the 180-meter height. Sure enough, in less than 10 minutes, Thunder threw the flag of the Iron Brotherhood into the battle. 180 meters above the ground.

Zhou Tianming nodded with satisfaction and shouted, "The 33 regiment is preparing to attack the 210-meter high ground, and the 27 regiment is ready for resurrection."

The Silent Hill is 300 meters high. This is only half of the positions. The real difficulty is the ridge position and the top position, where Gherga's strongest line of defense is.

Lu Yang saw that there was no problem with Zhou Tianming. He used the teleportation scepter to fly to the mountain of Liruma where the white lion was.

Liruma Mountain, the most difficult of the six areas, is a towering mountain, the mountain road is difficult and dangerous, not only the offensive side is uncomfortable, the defense side is not too much.

When Lu Yang arrived, he was seeing the Flame Knife personally taking 10 people to fight with the enemy on the 300-meter-high mountain road in Liruma Mountain.

This mountain road can only accommodate 3 people walking side by side, or in a turning position, the flame knife will be attacked by the enemy opponent when it crosses the turning position, and dozens of players have died in a row.

"Phoenix Change"

Lu Yang's body instantly turned into a huge fire phoenix, and he flew to the turning position next to him with a long whistle, and the spell was spoken in his mouth.

“Fire Sword”

Eight crimson flame swords appeared on Lu Yang's body, and countless flames were ejected from the eight swords.

“嘭”

“嘭”

...

The G8 players in the turning position did not expect Lu Yang to participate in the battle in person, and were suddenly attacked by Lu Yang's exaggerated fire damage.

Flame Knife's eyes lighted and a roar: “Boss is here to help, brothers charge me.”

He took two people out of the turning position suddenly, fighting with the enemy. There were more than 30 enemies in the turning position, and he was killed in less than 1 minute.

The Flame Knife breathed a sigh of relief as it looked at the enemy's body, and said to Lu Yang flying high in the distance, “Thank you.”

Lu Yang looked helpless for a while. It was too difficult to attack here. The next path the Flame Knife was going was still a winding road with only 3 people to pass.

“Where are the white wolves?” Lu Yang asked.

Flame Knife was about to answer, and suddenly he opened his eyes suddenly and shouted, "Boss news, the enemy has a shooter looking at you."

Not far from the top of the mountain, three Brazilian players with archer artifacts are using bows and arrows to aim at the head of Landing Sun.

"Meteor Breaking Moon"

"Meteor Breaking Moon"

"Meteor Breaking Moon"

Three pure white lights flew towards Lu Yang's location at an instant 2000 meters away. Lu Yang flew up sharply when he heard the flame knife, but his body was too large, and two of the three meteor shattered moons hit up his body.

"boom"

"boom"

Lu Yang's blood volume changed only a moment. He looked in horror to the top of the mountain. The three archers were bending their bows and arrows again, and everyone's face was proud.

Lu Yang knew that he couldn't stay here anymore, and hurriedly flew out of the zigzag route, returned to the foot of the mountain in Liruma, and flew to the side of the White Lion and others.

"Boss, are you okay?" The White Lion asked.

Lu Yang shook his head and said with a smile: "It's dangerous. I was almost killed by the enemy. Sure enough, we can't easily show our heads in this chaotic battle."

The white lion smiled and said, "You only need to plan the whole situation. The guild development is so big It also requires you to go to the battlefield in person. We are not too shameful."

Lu Yang laughed and asked, "What about the white tiger and the white wolf?"

The White Lion said: "There are 7 winding roads in this mountain of Liruma. White Tiger and White Wolf, and Li Wenxing and several other people are leading the team to attack separately. . "

Lu Yang nodded and said, "Know your difficulties, try your best to attack, and don't show your feet."

The original plan was to cooperate with the Blue Dragon Mage and the Grand Druid Army to use the water system high-order spell Hailong Wave to hit the Shalulu Waterfall. However, the enemy's attack has not yet entered the exhaustion period. Shalulu Falls is too fierce, and the enemy may fully reinforce Shalulu Falls, which will have a very adverse effect on the battle situation.

Therefore, Lu Yang decided to attack the six legions with full force until 12 o'clock in the evening. When the enemies were exhausted and the players of the Iron Brotherhood were a little tired, they stormed Shalulu Waterfall and beat them down in World War I. While boosting morale, destroy the enemy's confidence.

"Boss rest assured, I will complete the task." White Lion said.

## Chapter 1274 - Mistaken legion

Lu Yang nodded and motioned for the White Lion to continue commanding. Regardless of him, he continued to observe for a while, seeing that the progress was still slow, and then used the teleportation scepter to fly to Lingshui River where Tian Yao was.

A flash of light flashed, Lu Yang appeared next to the sentry tower of the Lingshui River Front Command Post, and Tian Yao was directing operations.

The Lingshui River is a horizontally flowing river. Players of the Iron Brotherhood and the Group of Eight nations carry out double kills on the shore and in the water.

Because the G8 has a high terrain, although it is a flat land, he is a large slope. Both the range of the shooter and the range of the mage are better than the Brotherhood of the Iron Blood.

In addition, the commander is Kerim and Blood Slayer. The elite players in the two hands add 3 million people, but because they know that the Brotherhood of Iron and Blood has arranged 4 million people here, they have specially reinforced 1.2 million. Galga Even the old man added in.

One side is 4.2 million, and the other is 4 million. This is the most brutal battlefield. The two sides played real fire from the beginning. Now both sides are focusing on the middle part of the Lingshui River.

“How is the situation?” Lu Yang asked.

Tianyao said with a smile: “It is indeed an old opponent. Our bottom line is clear to each other. From the beginning, the other side exerted their best efforts, and for the time being, the two sides could not tell the difference.”

Lu Yang looked at the battlefield, Kerim and the Blood Butcher actually came to the front line, and the Iron Blood Brotherhood as a whole even showed signs of being defeated.

“Continue to strengthen the attack and prepare for subsequent plans.” Lu Yang said.

“Will I release the Shaman Army?” Tian Yao asked.

Shaman Legion, a very special legion under Lu Yang, this is a special legion that Lu Yang asked Tianyao to form, saying that he is special and special because all players in this legion are in the Iron Brotherhood Players severely punished.

Since Lu Yang promulgated a ban on Jagged Brothers Guild players from arbitrarily attacking and looting scattered players, in the past three years, many elite players of Jagged Brothers could not help but seduced them, wantonly killing and looting items.

After being reported by various guilds and casual players, Lu Yang expelled them all from the guild. In fact, 99% of the items they robbed were not worth much money.

At most it is between a few hundred and several thousand, and it can be worth tens of thousands. They can't grab it, but they are fired from the Brotherhood of Iron and Blood, which makes this group of players scared.

Most of these people are paid, and they have asked Lu Yang to give them another chance, and don't just fire them out.

Lu Yang couldn't bear it either. They were all players who followed him to fight the world. After all, it was just a game. They were fired all at once. He also felt sorry for these people.

Therefore, Lu Yang gave them a chance to return the robbed thing to the robbed player, and apologized, and deleted the account to re-train. At the same time, anyone who can accept such a request can stay and cannot accept it, not Lu Yang did not Give them a chance, but they take the initiative to give up the family of the Jagged Brothers, and they do not blame him.

As of half a year ago, there were more than 17,000 such incidents in the China region of the Jagged Brothers Alliance, and more than 12,000 people were willing to stay in the end.

At present, there are more than 10,000 people who have trained at level 140. These people are all shamans at level 140. In the thirst for war, they hope that they can participate in the war and regain the understanding of Lu Yang. Back to the big brother brotherhood.

However, in previous wars, Lu Yang strictly prohibited these people from participating in this decisive battle. Tian Yao asked Lu Yang if he could take them to the battle. Lu Yang agreed, which is why Tian Yao asked this question.

Lu Yang looked at the Lingshuihe battlefield. Both sides invested more than 3 million players at one time. Both sides only left hundreds of thousands of reserve teams, and the rest were fighting in the vast Lingshuihe Plain.

For the time being, there is still no way to win or lose, but the strongest point of the enemy has been easily found by Lu Yang, which is the eastern position of Kerim, where he and his elite men.

Lu Yang pointed at the area and said, "Order the Shaman Army to attack and target the enemy commander Kerim. I ask them to kill Kerem and break them."

"Yes." Tian Yao ran back immediately.

More than 10,000 shaman players who are standing behind the battlefield are holding the tomahawk and watching the battlefield in annoyance. Their army commander is called Wan Zhonghui, and the two deputy commanders are called Lu Teng and Tang Feiqi.

"What, let's come, but not let us go to the battlefield, just watch others fight like this?" Tang Feiqi angered, because he was using an orc shaman, so his appearance was particularly terrifying under the anger.

Lu Teng angered: "We are going to join the war, boss, we will go to apply with the boss of Tianyao with you, it has been going on for more than an hour, we must join the war, otherwise the brothers can't help it."

Wan Zhonghui glanced at the Shaman Army behind him. More than 10,000 shamans had an angry look on his face. Obviously, he couldn't bear it anymore.

"Okay, you two go with me. The boss of Tianyao doesn't agree, I won't come back." Wan Zhonghui angered.

Tian Yao came right behind the three and heard Wan Zhonghui's words, he angered: "Who followed me as the Lao Tzu."

Wan Zhonghui turned his head in anger, and was about to get angry. When he saw it was Tianyao, his face suddenly collapsed, accompanied by the smiley, and said, "Ah, ah, oh, my boss is here in person."

Tianyao lifted the long sword, drew Wan Zhonghui with a scabbard, and cursed, "Come with me this set, follow orders."

"Yes." The three of Wan Zhonghui were suddenly calm.

Tian Yao shouted, "Order, the Shaman Army will immediately participate in the battle. The target, Kerim and his guards, demand, defeat them, and create a favorable offensive formation for the entire army."

"Yes." Wan Zhonghui answered loudly, his bull's eyes were almost staring out.

Tian Yao said sharply: "This is the first battle for your shaman army to return to the mountain. Don't humiliate Lao Tzu. This is an order personally made by Boss Lu Yang. If you can't beat Kerim, you will all get lost Wan Zhonghui heard the order issued by Lu Yang. His eyes suddenly turned red, his whole body seemed to be struck by lightning, and the involuntary nerves trembled.

"Boss rest assured that this battle will not defeat Kerim. You don't have to slap us, we have no face to stay here again." Wan Zhonghui clenched his fists in both hands, he turned back and yelled: "Shaman army, all together . "

"Yes." The more than 10,000 shamans had been impatient, waiting to hear the order and revealing it.

Wan Zhonghui jumped on a large rock next to him, pointing at the area where Kerim was with his left hand and roaring, "Shaman, my brothers, this is our first battle, or it may be the last battle, the target enemy Chief Kerim, the boss and I issued a military order. Without defeating Kerem, all shamans resigned.

Shaman army, kill ~! Wan Zhonghui roared with all his strength.

"Kill ~!"

More than 10,000 shaman's eyes were all red at the same time, everyone showed the tomahawk in their hands at the same time, shouting the word of killing in their mouths, and rushed towards Kerim.

Chapter 1275 - Korum

On the battlefield.

Kerim is leading the team to fight with Tianyao's 119th Army. The 119th Army is also an elite army. It is equipped with a 140-level dark gold suit and a 140-level gold jewelry set.

Kerem's elite players are equivalent to the equipment of the Iron Brotherhood. They are also elite. The two sides compete against each other for their on-the-spot command and the quality of their players.

The 119 Legion was defeated in this regard!

Kerem's elite men were selected by him personally. In terms of combat will, technique and coordination, they must far exceed the 119 legion.

An army of 10,000 people was defeated in just 8 minutes, as the top team, which greatly increased the confidence of G8 players on the battlefield.

"Anyone else, who else dares to fight against us." Kerim is very aggressive, defeating 12 players of the Iron Brotherhood in a row, but he didn't feel tired and wanted to continue fighting.

"Kill ~!"

Just then, 60 meters away from Kerim, a roar of roar spread into his ears.

Kerem took a closer look and found a full Shaman-like Jagged Brothers player rushing towards him.

“Haha, here it is.” Kerim roared and raised the sword in his hand and shouted, “Pay attention to the whole group. Someone has sent new equipment.”

“Haha.” More than 10,000 men laughed and watched the new rushed players mockingly, but as these people approached, Kerim and his men suddenly felt a murderous approach.

“Be careful, this group is different from everyone else,” Korim shouted.

“I didn’t know, it’s late.” Wan Zhonghui stared at Kerim, at a distance of 30 meters, he suddenly launched the shaman’s slamming skills, and appeared in front of Kerem, with 140-level dark gold hands in his hand. The big sword slashed towards Kerim’s head.

Kerim only felt the flash of the sword, and quickly raised his sword to resist.

“when”

A crisp iron clash sounded, Wan Zhonghui and Kerim slammed the two swords together. Normally, the melee sword speed is very fast, only 0.5 seconds, and the waiting time is long after that. It often takes 3 seconds.

But some people have special equipment, which makes their attack interval only about 0.3 seconds, and the attack speed is about 1 second.

Kerim can stand here for such a long time. The reason is that because he has such special equipment, the speed of each sword is only 1 second, making others chop him for 3 seconds, he chops others. 3 knives in 3 seconds.

Kerim just resisted the knife, and while he was backhand drawing the knife to sweep, suddenly, three consecutive phantoms slashed at him with sword light.

Kerim was about to hit with a knife and was hit by these three phantoms.

“987340”

“1810298” (critical strike)

“938384”

Kerim retreated sharply and did not give Wan Zhonghui the chance to continue his pursuit. He was in front of him, condensing Wan Zhonghui, and asked, “Are you the second-round rage shaman?”

Only the second-round Stormrage Shaman has the ability to trigger the windfury effect 100% on the first sword.

Wan Zhonghui sneered and said, “I’m nothing, watch the sword.”

At this time, Wan Zhonghui had already washed away the lead, and he was no longer the idiot who wanted to be in the limelight and want to do stupid things to show off in front of people. He made three fake moves in succession and waved forward one step. Long sword.

Kerim’s eyes lit up fiercely, and in such a battlefield, players who used three flashes of fake action were very few in the entire game. I didn’t expect to meet one here, which made him have to fight twelve. Extremely spirited.

“This technique can’t beat me, roll it for me.” Kerim saw Wan Zhonghui’s fake action at a glance, and slanted upwards at the key 0.05 seconds, blocking Wan Zhonghui’s in front of him. This knife.

But when this knife hit Kerim, Wan Zhonghui seemed to have known that his body was relying on Kerem’s counterattack power, his body slumped back, his footsteps were forced forward, and his body passed through Kerem flat. In the position of his side, the sword in his hand slipped and hit Kerim’s leg.

“Storm Strike”

Kerim felt only a soft leg, and his right leg fell to the ground.

“4865960” (7x critical strike)

Kerim reacted very quickly, and the moment he was hit, he hurried forward and rolled forward, avoiding the subsequent attacks after Wan Zhonghui landed.

Wan Zhonghui had just prepared to attack forward, and Kerim fiercely returned a heroic throw. This should be used to break the Paladin’s shield and magician’s ice protection skills.

At such a short distance, Wan Zhonghui couldn’t escape being hit, which made him stiff for 0.5 seconds, which was 0.5 seconds. Kerim turned and rushed towards Wan Zhonghui, waving his sword continuously.

Wan Zhonghui’s original advantage turned into a disadvantage, and he could only defend with full force. The two players fought more than 50 knives in just 1 minute, and they were all blocked. This made both sides’ elite guards unable to resist. stand up.

Kerim was also very surprised. He couldn’t help but take a step back to stop the offensive. Looking at the ordinary Wan Zhonghui in front of him, he asked, “Who are you? This method is enough to rank on the list of 10,000 strong men in the world , Why haven’t I met you. “

Wan Zhonghui laughed at himself and said, “Of course you haven’t seen anyone who made a mistake.”

“Mistaken?” Kerim was surprised.

Wan Zhonghui said: “If you don’t kill you, you will make mistakes again. The elite team will follow me.”

Ten Shaman players near Wan Zhonghui came to his side at the same time, posing a weird octagonal array.

The rage shaman is special in that if they do not attack within 12 seconds, the next attack will definitely trigger the wind rage triple-strike skills.

The 10 Windfury Shamans standing in an octagonal array waited for 12 seconds, and 10 guards gathered around Kerim.

Wan Zhonghui watched as soon as 12 seconds elapsed, a red dot appeared on the tip of the sword in his hand, and he yelled, "Kill ~!"

Ten Windfury Shamans rushed towards Kerim with Wan Zhonghui Kerim apparently felt a problem, but he was not afraid and shouted: "Stop them."

The 10 guards were all paladins, rushing towards the Windfury Shaman, but when the two sides approached 1 meter, when the Paladin was about to launch a sword, 5 of the 10 Windfury Shamans squatted at the same time. On the ground, the shaman running beside them pushed his teammate's back hard with his left foot, and the volley leaped forward.

While avoiding the Paladin's sword, they jumped in front of Kerim. Five Stormrage Shamans simultaneously struck Kerim's body with one sword.

"987340"

"1810298" (critical strike)

"938384"

...

With 15 windfury attacks, Kerim died instantly in surprise.

## Chapter 1276 - Crazy Offensive Legion

Wan Zhonghui raised the sword in his hand and shouted at the front: "The whole army is attacking."

"Kill ~!"

Ten thousand people charged forward fiercely, riding Morim's morale and fighting against Kerem's legion. On the battlefield, it was clearly seen that the G8 was in a disadvantaged position.

Players near the G8 were stunned by this scene, and no one expected that Kerim and his army would be defeated in this way, and quickly sent someone to add.

But Kerim is the strongest point. The strength of the people added is far from Kerim's strength. The Wan Zhonghui Legion under Lu Yang is all the top players.

Anyone who can kill other players in the game must be good players. These people have been paid by the Iron Brotherhood before. The method is better, and ordinary legions can't beat it.

On the wide plain of Lingshui River, no one on either side of the battle had thought of it, because of this point of Wan Zhonghui, the direction of the battlefield was obviously deviated.

The reinstated Wan Zhonghui and other erring legions, like the tigers out of the cage, originally wanted to choose people to die, encountering such war scenes, the blood of the war in their bodies boiled, and they launched a fierce onslaught, and were defeated. After Kerim, they attacked desperately.

Tian Yao, who was sitting on the high platform, was startled. He took a telescope and looked at the distant battlefield. After laying down, he said to Lu Yang, "Boss, Wan Zhonghui, they rushed into the enemy's hinterland. I need to send People support, but if we send people support in this way, the whole battle will depend on Wan Zhonghui's strength. "

He said that the support was to attack Wan Zhonghui's wings and prevent the enemy from intersecting Wan Zhonghui's ribs. However, doing so was very dangerous. Once Wan Zhonghui was annihilated, the battle would be because of Wan Zhonghui's Fail and lose a lot of Jagged Brothers players.

After all, there are other G8 players beside Wan Zhonghui's wings. This is equivalent to Wan Zhonghui plunging into a pocket, Wan Zhonghui wants to burst this pocket, and the enemy wants to close this pocket.

What Tian Yao did was to support both sides of this pocket, otherwise he would close. If they were closed, Wan Zhonghui's people would be gone, but in case Wan Zhonghui's people were gone first, the player holding the two wings pockets would be Crap.

Lu Yang said, "You are a battlefield commander. I don't make decisions for you. Everything is up to you."

Tianyao looked at the battlefield and gritted his teeth, and issued a command: "Order Wan Zhonghui to continue his onslaught. The 130th to 177th Legion and the 178th to 202th Legion of the two wings hold me against the pockets of Wan Zhonghui. As Wan Zhonghui advances forward, Wan Zhonghui will never be allowed to be dumplings. "

"Yes." His orders were issued immediately.

On the entire battlefield, more than 600,000 players on both wings of Wan Zhonghui protected this 10,000 people on the onslaught, as if killed.

On the G8.

Kerem flew back to the viewing platform after the defeat. When he saw Wan Zhonghui and his two wings of players, he immediately understood the intention of the Brotherhood of Iron Blood, and yelled, "Send the 7th, 9th and 17th Legions of the special army, positive Block the Shaman Legion of the Iron Brotherhood. "

Among the three legions, there is a 10,000 second-turn Shaman corps, and the other two are a mixed-arms corps and a second-turn punishment knight corps.

“Guys, the boss ordered us to attack, and the Huaxia people tasted our strength, the whole army attacked.” Shaman Chief Tosley shouted, and rushed towards the battlefield with 10,000 shaman players.

Wan Zhonghui just rushed into a 100-level monster village with ordinary mobs. They could be hacked at will with a single knife. The G8 players stationed here were just cleaned up by them, and the party had just recovered within 5 minutes. , Saw the Shaman players who rushed across the G8.

Wan Zhonghui roared: “The whole army, attack.”

“Kill ~!”

The shaman itself has the ability to resurrect in situ. It can be used every 10 minutes. They also have soul stones and scrolls entrusted to them by Tianyao and their skills can resurrect people. Therefore, although there are players in each battle They died, but they were able to resurrect in time to keep up with the team.

Such an assault lasted for more than an hour, almost all the members were present, and still maintained a full combat effectiveness. Therefore, when the people of Tosley rushed, they did not run into a tired and mutilated Huanzai The Manchurian Regiment is a well-equipped, high-spirited Shaman Regiment with 140-level dark gold suits, 140-level cooking, and 140-level auxiliary attributes.

Tosley didn't think of it. He looked down on the Jagged Brothers player, and he had such a combat power. In just 20 minutes, his 10,000 people were dead.

On the platform.

Kerim hurriedly ordered the mixed-arms legion and the punishment knights to reinforce. In the small 100-level demonic village, the Wan Zhonghui legion encountered extremely strong resistance, and each step would cost the death of hundreds of people.

However, a good Wan Zhonghui Army Corps, under such high pressure, Wan Zhonghui still led onslaught with people on the front, and he was on the top after being killed in the front row.

Among the mixed army legions, shield battles, pikemen, bow and arrow archers, magicians and priests are all available. This is the most annoying for players like shaman, because shaman does not have the ability to punish the knight, and cannot move the shield Anti-war.

The strategy chosen by Wan Zhonghui was to attack with two wings. He would move the outside of the village and rely on the maneuverability to intersect the two wings of the multi-arms legion. They penetrated through the weak parts. Only one thousand enemies were killed. Wan Zhonghui was surrounded by them. Forcible kill.

When they just rushed out of the village, they were facing the neatly arranged two-turned punishment knight legion, the body of gold armor, and the paladin holding a two-handed sword looking full of majesty and majesty. In contrast, Wan Zhonghui's shaman army, This is a group of ruined legions whose equipment is incomplete and cooking and supporting skills are too late.

Whenever the player dies, the cooking, mixture, and auxiliary skills that they have eaten will immediately disappear and need to be added again. This is why it is so expensive to fight the war.

"Retribute the Cavaliers, attack." The head of the group of eight countries looked at the Shaman Corps with a scornful glance, and under a loud command, the 10,000 discipline knights rushed towards the Shaman Corps in neat steps.

Wan Zhonghui saw this scene He knew that the most difficult war was coming and roared loudly: "Brothers, it's time for us to fight, don't be afraid, don't retreat. , Jagged Brothers, attack ~! "

"Kill ~!" Ten thousand people with red eyes, yelled in horror, and charged towards the discipline of the Knights of Retribution.

Those shaman players who have just been resurrected, seeing the beginning of the war and ignore the others, have roared and launched a storm on the enemy front.

If you want to win the neat array of Paladins, you must either have a curse-inducing mage and force them to separate formations. There is no other way for other professions. If there is only one way, there is only one, which is to prove the attack.

Rely on the spirit of not fearing death to force the enemy's formation into chaos, but in this case, the legion is most likely to be overwhelmed by the army, because when you are dead and the enemy moves forward to your corpse, everything is all around it's human. Even if you have the resurrection stone, you can't resurrect it in place, because the system can't resurrect it by default.

Wan Zhonghui dared to fight like this, he was desperately trying hard. He was desperately trying to take the wrong legion's future. Here, only if he didn't move backward, step back, the mistaken legion would never be able to go back.

#### Chapter 1277 - Deflagration

The Paladins of the Group of Eight did not look at Wan Zhonghui's doomed charge at all. In their drive, the players of the Iron Brotherhood were just trying to die.

"Ready for the first row, Divine Shield, open." Shouted Volda, the head of the Paladin.

300 paladin players moving side by side turned on the shield at the same time, and next second, the players of the Brotherhood of the Iron Blood hit the Paladin's shield.

"Punish the angel, drive," Volda shouted.

The Paladin turned on the punishment angel, and the attack became a sacred attack mode. How much damage was done and how much blood was hit, and Volda, who walked in the middle, sneered straight at Wan Zhonghui.

Wan Zhonghui already knew that he would do this. Straight stabbing is the most difficult defensive attack style in the entire game. Whether it is hacking, chopping, picking, or stabbing, as long as the player swipes the sword across his chest and swipes up, both sides The difference in response speed is

less than 0.3 seconds, and it will surely be able to sweep the enemy's long sword, and the attack will become a block.

But when it comes to piercing, the area of the human body is so small, and the sword tip is only so small, it is difficult to do it with the same long sword.

This is the idea that Volda used. His sword is quite satisfactory. When the sword is pierced, the tip of the sword trembles slightly, which makes it more difficult to deal with.

But who is Wan Zhonghui, the leader of the erring legion, has a tyrannical player who can enter the strength of 10,000 top masters in the world.

He watched as Volda's sword stabbed straight, and at the very moment of the round, Wan Zhonghui fiercely crossed the sword's body in front of him.

“when”

Volda was surprised to see that his long sword stabbed at Wan Zhonghui's sword, which was blocked by the opponent.

He snorted, and the sword was retracted, but at this moment Wan Zhonghui took a fierce step forward and hit his body against Volda's Aegis. Volda's sword was about one meter five. It is a long-range attack. If the opponent is bullied in front of you, you need to change the straight sword to a diagonal pick if you want to hit the opponent.

Wan Zhonghui sneered, and he waited for this move. The right-handed sword stabbed at his sword at the moment of Volda's attack.

“when”

A second block appeared and Volda's attack was interrupted.

Volda was blocked twice in a row, and he was instantly furious. His attack speed was 3.05 seconds each time. Two swords were delayed for 6 seconds, while the invincible time was only 20 seconds. He only had 4 knives. Chance, after 4 knives, he wanted to attack again, and the invincible was over.

“I don’t believe you can block every sword I have.” Walda roared back and stabbed a third sword at Wan Zhonghui.

However, this step he took back caused the players behind him one meter away to stick to him immediately, not only Volda, but most of the elite guards around him were also used by Wan Zhonghui’s elite melee skills. Block.

In this way, the players in the second row are messed up, and even the players in the third and subsequent rows do not know what to do, they can only stand in place, leaving a little space.

Wan Zhonghui is like having a view of the sky. With the height of the orc, he can see that there is a large gap in the fifth row of the other human race players, and the players in the fifth row have not yet opened the discipline of punishment angels and shield.

“My brothers, it’s time for your performance. The withered flowers are the most beautiful at the moment before he fades.” Wan Zhonghui exclaimed.

“Iron brothers alliance.” Lu Teng and Tang Feiqi stood behind Wan Zhonghui and heard Wan Zhonghui’s words, they both roared at the same time.

“Kill ~!” The Stormrage Shaman of 200 people at the same time launched the wild slam skills, teleporting forward 6 meters away, appearing behind the players in the fifth row.

“Windfury”

Lü Teng and Tang Feiqi took the 200 men to the ground and spun the knife at the moment they hit the ground. At the same time, they hit the back of the 200 players in the fifth row with no armor.

They were asked by Wan Zhonghui to wait for 12 seconds without attack, so they could directly play the wind rage effect.

More than 2 million injuries hit the Paladin's unarmed position, defensive attacks were ignored, and instantly 200 Paladins were hacked to death.

At this time, the paladin players in the sixth row reacted. They rushed to fight with the sword, and the fourth row turned back to attack.

For a time, the 200 people brought by Lu Teng and Tang Feiqi became the stunners and were surrounded by the enemy, but because of this, the formation of the Paladin was also destroyed, and it was no longer a square array. Already.

Volda should have commanded the war, but suddenly the situation made Volda rush to issue orders to annihilate the 200 people who had rushed in.

For a while, the pressure of 200 people, including Lu Teng and Tang Feiqi, increased greatly, and a third of them died in less than 10 seconds.

In another 10 seconds, only 50 people, including Lu Teng and Tang Feiqi, were left on the court, just as Volda shouted and wiped out the 50 of them.

System prompt: Invincible time ends

Volda's eyes widened sharply, he quickly turned around to deal with Wan Zhonghui's attack, but where is he Wan Wanhui's opponent.

"Windfury"

Wan Zhonghui dwarfed between Volda's legs, and his sword crossed his lower part, triggering 3 times critical strike and ignoring defense attacks.

Walda fell to the ground awkwardly, and he felt ashamed of death!

“The enemy’s legion was chopped by me, Brother of the Iron Blood!” Wan Zhonghui stood up and roared loudly.

“Kill ~!” The players in the Brotherhood of Iron Blood have stronger morale and more fierce attacks, but when they broke through to Lu Teng and Tang Feiqi, only 200 of them were left, and they were all disabled blood.

“A good brother, is it okay.” Wan Zhonghui patted Lu Teng and Tang Feiqi with both hands.

“Hey, that’s what the enemy is all about, we two can take the Brotherhood again.” Lu Teng said.

Tang Feiqi nodded.

Wan Zhonghui said: “Then we continue to fight like this. The enemy’s deputy commander is under the command of the Chinese army. This group of enemies is still a hard bone.”

“Well,” the two responded.

In the middle area of the Group of Eight Paladins, the deputy commander is hiding among the crowd, watching the battle on the site using the official live broadcast platform.

He strictly ordered his players to follow Walda’s orders, and then attacked in rows and rows against the Brotherhood.

He also believes that the Brotherhood of Iron Blood can’t carry it. Moreover, as long as they can resist, the Brotherhood of Iron Blood can’t move forward, their players will continue to add on both wings. This hanged battlefield is in their favor.

Unfortunately, he underestimated the determination and strength of Wan Zhonghui and others. As just now, Wan Zhonghui ignored the damage to the consciousness of such an elite and blocked the enemy.

Together with Lu Teng and Tang Feiqi, he broke through every five rows. In less than half an hour, when the two wings of the Jagged Brothers League suffered heavy losses and Tian Yao intentionally ordered Wan Zhonghui to retreat, he successfully broke through the enemy's defense front and rushed into the enemy's hinterland in one fell swoop.

In this place, the straight line distance from the enemy's last line of defense was less than an hour of horseback riding, and at this time there was no enemy blocking them.

Tian Yao watched the live broadcast and called Wan Zhonghui, exclaiming in excitement: "Proceed, continue to attack forward, break Lao Tzu through their formation, and penetrate their defense."

"Yes." Wan Zhonghui responded loudly, turning his head and yelling, "The whole army was resurrected in 30 seconds."

Lü Teng looked back at his remaining players. Just after that tough battle, there were less than 1,500 alive shamans.

This is still the case that they have three lives, one life, one soul stone, one battle to resurrect one life. It can be said that they are fighting the Paladin army with three to one data.

"Resurrection, speed resurrection." Tang Feiqi saw Lu Teng silent, and shouted for him.

The surrounding shaman players have automatically resurrected the Brotherhood of the Iron Blood brothers who had died using resurrection.

In less than 20 seconds, 10,000 people were resurrected, and they had no time to pick up the 140-level dark gold equipment on the ground. Wan Zhonghui took out the scroll and shouted: "The whole state, scrolls, cooking, potions, go on horses when you are finished. You only have 20 seconds. "

Cooking requires sitting on the ground and eating a piece, that is, 10 seconds to get the status. The state of the scroll skills are instantaneous, and the potion can be filled instantly, but it takes 5 seconds to get started, which means that Wan Zhonghui only gave all his staff 5 seconds of spare time.

After a while, the lights flashed, and the various states were added. 10,000 people were sitting on the ground eating, and after 10 seconds, all players were finished, picking up useful potions and things around them and choosing to call the war horse.

Five seconds later, 10,000 people got on the horse, Wan Zhonghui watched everyone prepare, and the sword pointed straight ahead and yelled, "Brothers, it's time for us to make great achievements, and to penetrate the enemy's position is the head of this battle. Gong, with this credit, if we go to the boss of Lu Yang again, we will see him face. "

The expression of 10,000 people has changed, everyone is excited.

Wan Zhonghui roared immediately, pointing his sword forward: "Iron brothers, kill!"

Ten thousand people rushed forward, and at the same time, Kerim sitting on the high platform was issuing orders to direct his men to attack and stop the ten thousand people.

"Where did this group of lunatics come out? Why haven't I heard that the Brotherhood of Iron Man has such a legion," the blood butcher cursed.

Kerem took a deep look at this legion, and then looked at Lu Yang standing far away, saying, "If I can get through this level, I will definitely find a way to build such a legion. , Really strong. "

"You still have the heart to sigh about this, and quickly find a way." Blood Slayer said with a frown, this was his first malady. Even if he was forced by Lu Yang to merge with Gailga and others, he did not have such a malady today.

Because if they fail today, they will face a huge dilemma, even the dissolution of the guild!

Kerim said: "Don't worry, I expected such a sudden situation in my plan. Originally, I expected that this situation would be achieved by Lu Yang personally launching an attack with the Brotherhood of Iron and Blood. I did not expect to be named People who have n't seen it have been forced out. In that case, I have to use the last resort. "

“What else can you do?” The Blood Butcher asked.

“I had an agreement with Gerga before I went to war. Once there was a dilemma in the war, I turned to the rear for help. At the front line of the Golden Rose City, there were 1 million reserve teams. I was going to send 700,000 people over.” Kerem Said.

“I have no choice but to do that,” said the Blood Butcher.

These 1 million people are players of the affiliated guilds within the Group of Eight. They share honor and disgrace with the Group of Eight. Once the Group of Eight fails, their living space will be compressed even smaller. To this end, they will do their best to help the eight countries. group.

Kerim called Galgar and others to ask if they could be transferred, and the presidents such as Gelgar and Daniel had no opinion.

Defending the Brazilian Legion in the Liruma Heights, and even preparing to send troops directly to help Kerim, his position is very easy to defend, and the White Lion cannot play today.

The same is true of Silent Hill. Gelgar defended in person and Zhou Tianming could not attack for a long time.

At the dusk of the hilly Bengal Association Pradhan said he hoped that the remaining 300,000 people would be sent to him, and some minor problems appeared on his side.

As for Shalulu Waterfall and Yixiantian, there are two natural dangers. The Brotherhood of the Iron Blood cannot reach at all, and both sides indicate that there is no problem.

After Kerim got the answer, he immediately called one million players in Golden Rose City, extracted 700,000 people to support the Lingshui River Plain, and 30 others went to the hills at dusk.

On the battlefield of the Lingshuihe Plain.

Wan Zhonghui was rushing with people, but after just 10 minutes of running, he encountered the enemy's strong resistance again. Six consecutive resistance corps, replaced by general corps, have long collapsed, but Wan Zhonghui With a blast of erring legions, the six blocking legions were defeated.

At this time, Wan Zhonghui could penetrate the enemy's position as long as he advanced forward for another 10 minutes. Unfortunately, the 700,000 reinforcements of the G8 arrived.

Lu Yang stood on the high platform and saw countless players assisted by the enemy. Wan Zhonghui's legion was thus submerged among the 700,000 people, only resisting for less than 20 minutes.

Tian Yao sighed with regret, and said unwillingly: "It's almost a breakthrough to break through the enemy's position.

Lu Yang smiled and said, "I can't think that the G8 can still find so many reinforcements in this situation. Wan Zhonghui and his brothers made great contributions this time. After the war, they told them that the previous things were cancelled. I will Award them in person. "

A few days ago, "Second World" officially announced that this game will form a team and establish a formal league. Countries also announced that this e-sports is recognized as a formal sport, because he exercises the reaction speed of human consciousness, which is also A game.

Therefore, this game will never be like the previous online games and other competitive games, or it will not be accepted by the world, or it will be a short-lived ghost.

This game will continue to operate for a long time, and official news of the team competition will be released one by one and become more and more prosperous. Therefore, the honor of this game has become particularly important.

Tian Yao said with a smile: "I can get your evaluation, and the boys can finally breathe a sigh of relief."

Lu Yang said, "I'll go and watch in the next theater. Keep your offensive here and don't give the other side a chance to breathe."

“Yes,” Tian Yao said.

Lu Yang took out his scepter to go to the next area, the hills at dusk.

When Lu Yang just left, Wan Zhonghui was downcast and led his members to the resurrection at the rear graveyard. Ten thousand people were very upset.

“The enemy even had reinforcements, it was really unexpected.” Wan Zhonghui gritted his teeth and cursed.

“We have to apply again with the boss of Tianyao, and we must give us another chance.” Lu Teng shouted.

“Yeah, we can’t stop, it’s a waste to stop everything, the boss of Lu Yang is still watching it.” Tang Feiqi shouted with \*\*\*\* eyes.

Wan Zhonghui nodded heavily and made a call to Tianyao, but Tianyao remained busy until 5 minutes later, Wan Zhonghui made more than 100 consecutive calls.

“Boss, you can take it, we apply to play again.” Wan Zhonghui said excitedly.

Tian Yao grinned and said, “You guys, it’s not tiring just to fight that battle. Take a break and wait for a while.”

“We are not tired, boss, give us another chance, we will be able to penetrate the enemy’s front.” Wan Zhonghui roared.

Tian Yao heard the despair in their voices, and forcibly told Wan Zhonghui and others about Lu Yang’s forgiveness. It was not that he did not want to say it, but that he did not dare to say it.

The strategy of using the Blue Dragon Mage’s advantage in Shalulu Falls as a breakthrough point is the absolute secret of this war. Tianyao dare not say it. Even if these 10,000 people are tight-lipped, they

can be on such a battlefield. Among the crowd of so many cameras and players, one sentence was wrong or omitted, and the whole battle situation changed dramatically.

The Jagged Brotherhood's war against the Group of Eight has now cost Lu Yang nearly 2 billion credits. If he missed a sentence because of his side, even if Lu Yang did not punish him, he would be hard to quit. Blame, and the guilty legion has no face and stays in the Jagged Brothers League. At that time, it was the most painful time.

"Wan Zhonghui, listen to my order, rest for an hour in situ. After one hour, you will once again attack the enemy's position as a sharp knife unit." Tian Yao said.

"Yes, okay, okay." Wan Zhonghui hung up the phone in disappointment. In desperation, he and Lu Teng and Tang Feiqi brought the team back to the front line to assemble.

"Boss Lu Yang is gone." Lu Teng looked at Lu Yang who disappeared on the platform, for a while, they had the best performance opportunity, and everyone had a mixed taste in their hearts.

Tian Yao saw the arrival of this group of people with a smile on his face, and sent a message to the logistics supply officer, saying, "Give the Shaman Army 20,000 heroic throwing scrolls, 50 secondary forbidden scrolls, and special magic attack scrolls 3. 10,000 sheets, 30,000 protective scrolls. "

"Well, this treatment is the same as the elite guards around the boss. The erring legion finally turned over." The supply officer responded with a smile.

Tian Yao smiled and didn't speak, but just took a deep glance at Wan Zhonghui. He never thought that he could grow up to the level of a regimental commander who could not bear to persuade him to leave.

Wan Zhonghui and others did not realize the changes and were immersed in the regret of not winning the enemy.

On the other side.

Lu Yanggang flew to the hills at dusk, and the camp for half-life love was established next to the sentry tower. Lu Yanggang landed and saw the half-life of love standing in front of him.

“Boss.” Bitter love half-life bowed.

Lu Yang nodded and asked, “How is the situation on your side? How can I hear that you are fighting fiercely?”

He bitterly smiled and scratched his head, and said, “A legion of my army suddenly broke out, and I didn’t know what was going on. The thief who fought this time couldn’t accept it.”

Lu Yang was amused and asked: “Show me what legion.”

He loves the frontier observation station with a landing land 20 meters away. He is built on the commanding heights of the hills and overlooks the battlefield 2 kilometers away.

Lu Yang looked at the front and looked around. Then he found that the half-life frontier position had been stuck to the middle of the dusk hills, and he had already hit half of the dusk hills.

“It was fierce enough, which team?” Lu Yang asked.

A half-life bitterly pointing forward, a group of orc warriors who are on the onslaught, all of which are regular one- or two-turn orc warriors, there is nothing special at all, but their technique, willpower and overall coordination Are far more than G8 players.

“Have you heard that there is such a team under us, did you cultivate it?” Lu Yang asked.

“I want to have such a team, I have used it for a long time, boss, I analyzed it, you listen to me slowly.”

“What’s going on?” Lu Yang asked with a smile.

I thought about it for a long time, and said, “This legion is actually a legion that was temporarily put together before the war. It is the 3057th legion.”

The Temporary Legion, as the name suggests, is a tentatively assembled legion. It is not surprising that the Iron Blood Brotherhood has such a legion.

In the guild of the game, there are people who want to withdraw from the guild at any moment, and some people want to join the guild. When the war is approaching, there will be people who are too busy to participate in the war, and some people are willing to participate in the war.

The legions of any vice president will be regrouped three days before the war to regroup those who are dissatisfied.

This army ranks 3057. Just look at the name to know that it is such a regiment, because the ranks in the front are all regular legions supported by the Iron Brotherhood with fixed wages. This will not happen. Only the rank is behind. Will have such a 4-digit temporary number.

He loved half a lifetime and then said, “The legion leader of this legion is also a temporary legion leader. Before that, he was the deputy legion of a cannon fodder legion. However, in previous battles, players in his legion have quit the game. He’s alone. “

Everyone knows that it is impossible to play the game for a lifetime. Everyone has relatives, will face marriage, and will gradually have children. At this time, can the game still be played?

In the game, after reaching a certain age, most players will choose to quit the game and seek a formal job. Some high-strength people who can enter the Iron Brothers’ war studio will extend some retirement time, but after all, more People cannot get into the war studio of the Jagged Brotherhood.

Most of them can't bear the pressure at home, and will eventually become some idle players in the game, or choose to leave the game and go to work seriously.

This year, many players who left the Iron Brotherhood War Corps and many new recruits added. Usually, those legions that do n't need to join the war do not need to join the war. They have a unified name, called the regular legion, but I do n't know who started in private. A name called the cannon fodder.

Not only is the Iron Brotherhood called this, the regular regiments around the world call themselves cannon fodder groups, because once the war begins, they are the first batch of players on the battlefield to use cannon fodder from both sides of the forbidden spell attack.

There is such a regular legion in the Iron Brotherhood. Before this call, some people gradually chose to quit the game or become an idle player and no longer participate in major wars. Therefore, three days before the call, this legion Only one person was able to participate in the war! And this person is Liu Ruohuai, leader of the Orc Corps desperately fighting on the battlefield today.

These orc warrior players under his command are also the same. They are the people who are in short supply of the original regular regiment and stay.

Suffering for half a life, said: "Perhaps they broke out in such an emotion, so they have such a powerful fighting force."

Lu Yang looked at the battlefield carefully. Liu Ruohuai was playing against a thief player of the Group of Eight, and the opponent was obviously a time and space thief.

It is said that soldiers defeat thieves, but it depends on what kind of thief. The time and space thieves restrain all occupations with poor skills, and the occupations with good skills are also difficult to fight.

But on the battlefield, Liu Ruohuai could n't run and could n't retreat. He could only stand forward. No one understood his feelings now. He wanted to cry, and he wanted to make a big noise.

The 1033 legion where he was originally, he climbed to the position of the deputy legion step by step from the bottom pawn.

All the players under his watch accompanied him to witness his growth, the joy of each promotion, the joy of winning the battle, the depression of cannon fodder every time he was attacked by the forbidden mage, and every time he grabbed the enemy Thing, the players in the whole group are happy. The 1033 Legion is just like his home.

But in the past three years, he watched his family and quit the game one by one. Some people got married and had children, some people worked for work, some people interfered with their family members, and some people somehow stopped going online again. Already.

This kind of pain can only be experienced by these brothers themselves, especially the words of his best brothers when they decide to quit the game and talk to him.

“Brother, I’m not strong enough to enter the war studio of the Jagged Brotherhood. I can only go out to make money to support my family. My parents are getting older. I also face a wife and children. Oh, my girlfriend does n’t like me to play games. I do n’t think I can make money. I love this game. Unfortunately, I ca n’t play it anymore.

But you are different, you still have a chance, because you are still young, unlike the old guys who are almost 30 years old, brother, come on, take our brothers’ wishes and work hard to enter the war studio of the Brotherhood of the Iron Blood, You are successful, call the brothers, we celebrate for you together. “

A tear fell in Liu Ruohuai’s blood-red eyes.

“Kill ~!” Liu Ruohuai stepped forward fiercely, avoiding the thief’s fast knife like a phantom, piercing his sword straight forward, hitting each other’s throat.

“38193843” (triple crit)

The space-time thief fell unwillingly to the ground, how could he not believe that he died in the hands of an ordinary second-turn soldier.

The orc warrior player who was next to him was originally facing the enemy's elite second-career career. Seeing that Liu Ruohuai had killed the time and space thief, his morale rose suddenly. The original fear of the elite second-career career was gone. .

"Kill!" Dozens of people around, gradually turned into hundreds, thousands, tens of thousands, all followed the roar forward.

Liu Ruohuai once again killed an elite second-turn career. When he looked forward and left and right, he found that there were no enemies around him, and his brothers were all around him.

With a touch of his eyes, he glared at the enemies rushing forward, screaming with all his strength, "Iron brothers, kill ~!"

Thousands alive rushed towards the enemy like this, and the dead player was quickly resurrected by the priest army standing behind them.

In this situation, the priests have long been surprised. Every time when the orc legion launches the charge, the enemy must be defeated. What they need is to quickly resurrect the dead orc, and then these resurrected orcs will pick up the surrounding ground and drop it. The potion followed the onslaught of the large troops, and there was no sign of stopping.

In major live broadcast rooms around the world, a large number of anchors got the first-hand news of this legion. This is the official information obtained after interviewing bitter love for half a life after the official found this legion special.

Officials have stipulated that, during the war, commanders on both sides of the battle must cooperate with official interviews.

"God, what is it like a cannon fodder legion, even the elite group can't do this." The American host said.

"Is their legion leader crazy? It turned out that the ordinary two-turn orc warrior was against the time and space thief. The key is that he still won." The British host said.

“I’m going crazy. I madly worshipped the leader of this legion and this legion. How did they do that, they have defeated 12 enemy legions in a row, and their own deaths have exceeded 10,000 times. “Where did their fighting spirit come from, how could they have such crazy fighting intentions,” said the German host.

...

On the battlefield.

The Group of Eight nations watched as an ordinary legion such as the Orc Legion hit a higher level than the elite, but could not help it.

The two sides are at war, and the two sides must be the elite group versus the elite group, and the cannon fodder group against the cannon fodder group, especially after more than two hours of fighting, the two sides know where the elite is and where the cannon fodder is.

Therefore, the elite teams of the two sides are fighting together, and no one person can be separated at all, but the cannon fodder group, as the Orc Legion went into an unmanned state, killed three legions in succession.

At this time, the Group of Eight nations knew that they had to send reinforcements to join the battle. This cannon fodder group was so impressed that even the players around the Brotherhood of Iron Juggernaut were tearing their army with this awl-like legion, and continued like this. Go on, they will lose.

“Woo ~~~”

“Woo ~~~”

A low trumpet sounded, and a large number of G8 players rushed out of the post and rushed towards the Orc Legion. At the same time, a lot of magic elves appeared on the head of the Orc Legion.

A bitter bitter love said, “No, the enemy’s curse forces are going to attack this legion. They have a great chance of being killed.”

Lu Yang looked towards the battlefield. Liu Ruohuai’s Orc Corps was surrounded by the enemy’s four legions from all directions. Once the encirclement took shape, they would be hit by a forbidden spell, so they would face the entire regimen’s destruction.

In front of the TV.

A 30-year-old young man is taking a family to watch TV. On the screen, there is a variety show, and his wife is laughing because of the show.

“I laughed to death, no more, I couldn’t hold back anymore. I went to the bathroom first, and after the advertisement came back, told me what to play.” The wife said.

“Good wife.” The young man promised happily. He watched his wife go to the bathroom, and skillfully pressed the back button. The screen flickered, and the screen became the battlefield of “Second World.” He had already secretly spent money to buy it. Download the live broadcast video of the Jagged Brothers League in the paid channel.

As it happens, Liu Ruohuai’s orc army is surrounded by enemies on all sides. At the same time, the curse in the sky is gradually taking shape.

“No, this can’t be surrounded, Liu Ruohuai, you bunny, quickly lead them to break through.” The man shouted uncontrollably.

The little daughter around asked curiously, “Dad, who is Liu Ruohuai.”

“It was the orc on TV. He was the dad’s younger brother at that time, and now he is also the leader of the army. I didn’t expect it,” said the man, holding his hands on his chest.

“But they seem to be wiped out.” The little girl asked with wide eyes.

The man covered his forehead in depression, and said, "I saw, this idiot, how did this happen? I just watched the news and said that this boy played well with the team."

Because he just turned on the TV, he didn't know what kind of problems Liu Ruohuai had encountered before. Before he wiped out the previous legion, the enemy secretly sent 4 legions to chase and intercept from all sides.

He had nowhere to run, and he needed to protect the priest legion behind him. Once the priest legion was destroyed, their legion would be dead.

Originally, he thought that even if there were four legions attacking, he would fight the enemy, but he did not expect that the enemy was so determined to destroy them, even the forbidden spells were used. Seeing at least 20 forbidden spells in the sky .

"Boss, what shall we do now?" His men asked.

Liu Ruohuai looked red with red eyes and cursed, "We have nowhere to run, we are trapped. Unless we give up the pastor group, we can't do this."

They run away, the enemy's curse will not be released, then the priest army will be destroyed, and they will be consumed by the enemy after the next battle.

The head of the pastor group also saw this scene, he yelled at Liu Ruohuai, 100 meters ahead, "don't care about us, and rush out with people."

"So what do you do?" Liu Ruohuai asked.

"Stand out, let's talk about it. Let's find out the enemy's gap and make sure you don't die. The cannon fodder will be out of your group. Don't let people look down on our cannon fodder. Rush out and leave us alone." Roared the head.

Liu Ruohuai's eyes were red again, and he roared, "The whole army will obey ..."

Without saying a word, the encirclement of the enemy has been formed, and all the enemies in all directions are connected together to form a huge circular array.

Liu Ruohuai wanted to issue an order, but didn't know where to go. At this moment, a crisp phoenix rang out suddenly in the sky.

“Neighing ~!”

“Great Ancestor of Fire ...”

Lu Yang rushed out of the low clouds, and directed at the enemy masses in front of Liu Ruohuai's Orc Corps, blasting out a crimson meteorite larger than the house.

“Meteor Falls”

The crimson meteorite hit the enemies in front of the Orc Corps with a whistling sound within 1 second. A dazzling white light lit up, accompanied by a huge mushroom cloud. When the smoke cloud dispersed, the enemy's masses were killed. Two-thirds, the remaining one-third was also scattered by the air flow, and a wide avenue appeared in front of Liu Ruohuai.

“Boss, it's the boss.” The orc army player looked at Lu Yang who turned into a phoenix in the sky with surprise.

Lu Yang's majestic voice came: “The Orc Corps continues to attack, and I will preach for you.”

Liu Ruohuai was struck by lightning, and he never expected that his performance today would be seen by Lu Yang, and Lu Yang himself used a curse to preach for him and his army.

He knew that he finally had a chance to realize that wish, and finally, he had a chance to take the expectations of his brothers and enter the dream place.

“Iron brothers, kill ~!” Liu Ruohuai raised his sword and roared, leading someone to charge forward.

The momentum of the 10,000 orc warriors increased to another level, and Liu Ruohuai roared and launched an attack.

The priest followed closely behind, and quickly ran out with the orc army.

Lu Yang came up with eight lightsabers, like heavy machine gun fire, with more than 2 million spell injuries and almost 100% crit. If he hit a non-defense player casually, he would kill them.

The two wings of the player were taken by Lu Yang, and they did not dare to chase the orc legion. In this way, the orc legion easily jumped out of the line of defense. In turn, Liu Ruohuai launched a backlash against these three legions. It was defeated by 5 minutes.

In front of the TV.

The man screamed in excitement, and laughed and said, "Boy, you have a good life, even let our boss open the way for you, you did not live up to the expectations of our brothers."

The little daughter shouted excitedly: "Dad, dad That is Lu Yang, our idol."

The man held his daughter and said, "He is also my dad's idol. If I am still in the game, our idol will preach for me today."

"Isn't you great, too," the daughter asked.

"Of course, Dad is a master. Otherwise, Liu Ruohuai could be my younger brother. He was the deputy army commander, or a recommendation letter I wrote." The man said proudly.

The little daughter looked at the man with big worshipped eyes and said, "Daddy is so good."

The man happily held his daughter in his arms. He didn't notice that, not far from him, his wife leaned against the wall with a gentle face.

A woman knows that her husband would not leave the game if it was not for the better of this family, but it was for their mother and wife that this man was willing to give up his favorite thing.

The woman didn't bother the man, she just looked at it like this, she liked to look at his man's confident face.

#### Chapter 1279 - Final Battle at Sarulu Falls

Dusk on the main battlefield.

The Orc Warrior Corps continued to carry forward the onslaught. Lu Yang was assisted in the sky, and follow-up treatments were on the ground. They went on and on. The Brotherhood of the Iron Blood obviously lost 500,000 people compared to the other side, but the G8 that was fighting showed signs of failure.

Seeing this scene, Pratan, the chairman of the Bengal Tenjin Association, felt a little uneasy, but on the whole, he would not fail in a short time.

"Boss, how about sending a shooter artifact player to kill Lu Yang?" Vice Chairman Ratner asked.

Pradan just wanted to nod, and Lu Yang in the sky flew back, and the three artifact shooters didn't even have a chance to shoot.

Lu Yang knew that the other side had an artifact shooter. Therefore, his alone action could only be carried out for such a while. If the time was more, the enemy's artifact shooter was approaching. He would leave whether he was shot or not. It seemed embarrassing, now is the best time to step back.

The light flashed.

Lu Yangfei returned to the frontier observation station, which has been loving for half his life.

“Boss, your strength is getting stronger and stronger.” Said admiringly for half a lifetime.

Lu Yang said, “Don’t talk to me. It’s your army of orcs. I fancy them. Protect them and leave no one alone.”

A bitter face for half a life, he originally wanted to give Lu Yang two ecstasy soups, and then sent him away. I didn’t expect that Lu Yang would not eat that set, and he saw it all at once. He could only say, depressed: “ok, I get it.”

Lu Yang laughed and said, “I’m gone and continue to maintain this offensive.”

He took out his teleportation scepter and flew to the most important war area of this war, Shalulu Falls!

Among the Group of Eight, Gherga, Ronnie, Hiarelli and others were always paying attention to Lu Yang’s situation. When they saw Lu Yang going to Shalulu Waterfall, they were relieved.

“Everywhere Lu Yang goes, there is an accident. This time, I’m relieved.” Ronnie said.

“The natural danger of Shalulu Falls, as well as the thousands of Tsunami Masters and the defense of 2 million Indonesian players, Lu Yang is absolutely impossible to win there, and finally rest assured.” Xi Yali said.

They ended their observation of Shalulu Falls and continued to return to the battlefield where they were. Zhou Tianming was not easy to deal with and needed Galga to go all out.

Shalulu Waterfall is called Tianxian because it is a huge waterfall that is several kilometers high and nearly one thousand meters wide.

Below the waterfall is a 1,000-meter-wide river called Tianshui River. Except for a deep lake below the waterfall, the rest of the river is about 5 meters in depth. Absolutely dangerous, especially the enemy is the Water Emperor Guild. He is particularly skilled in water system spells.

The east bank of Tianshui River, below Shalulu Waterfall.

Lu Yang looked inside the Tianshui River, and stood a player lifted by a tumbling water 150 meters away from the east coast.

This is the president of the Water Emperor's Guild, Downey, a replacement for the Indonesian Guild that was defeated by Lu Yang before.

Downey also saw Lu Yang. With a confident smile on his face, he stood up in the water, spread his hands and said to Lu Yang, "Welcome His Excellency Lu Yang, Chairman of the Jagged Brothers Alliance."

"Guru"

Behind Downey, the Tianshui River boiled like it was boiled. Just a moment later, tens of thousands of sprays turned into human figures and became players floating on the water like Downey.

"Be careful." The cute queen shouted, and stood in front of Lu Yang.

A more proud smile appeared on Downey's face, pretending to be elegant, and pointing at the lovely queen, "Little beauty, don't panic. I didn't mean to attack you. If I wanted to fight, you would have lost."

Indonesia is known as the country of thousands of islands, and players are often associated with water. Therefore, there are many water transfer mages. Unlike the previous level 100 national wars, most players have no second turn. At this stage, there are very many players in the second turn water system in Indonesia. Place, they have great self-confidence.

Lu Yang looked at Downey's appearance and smiled, and said, "President Downey's big battle, these are the second-round poison stinger."

Downey's expression suddenly became exaggerated, and he laughed and applauded, "Good eyesight, good insight, even the poisonous stinging water ghost knows, yes, all of my 10,000 people are poisoning stinging water ghosts, as long as there is water They are the king of the assassination. No matter how many of you enter this Tianshui River, they will die in their hands. "

The cute queen said angrily: "I'm afraid of you, and a wave of curse will destroy them all."

Donny laughed and looked at Lu Yang and said, "Your men are really immature. Don't let her lose face. Although it looks good, it doesn't look like a vice president who can control millions of people. You have a relationship. "

The Indonesian side laughed.

The cute queen was furious, but was stopped by Lu Yang. He said to Downey: "The president of a grand guild, it would be unkind to say such things."

Donny shrugged his shoulders indifferently, saying, "I have a straight heart and have always been like this. I'm not afraid to tell you that the forbidden attack hits the water surface and cannot reach the bottom. Once you put the forbidden spell, the water ghost army hides in the water. Naturally, they won't be hurt in the slightest. "

In the sky, a bolt of lightning across the sky suddenly, thick blue lightning, as if the sky split a crack.

"Boom"

The thunder came, and it was finally raining heavily in the already cloudy sky. During the rain, the sight of both sides was much lowered. Lu Yang and Downey could only see each other's figure, but could not see their faces.

"Lu Yang, really help me too. This pouring rain will make my players stronger. In order to deal with you, I have not only a poisonous stinger, but also a second-round shark empire, a tsunami mage, and tens of thousands. Forbidden Mage, today, I'm going to let your Brotherhood of Iron and Blood die here. "

“Boom”

The thunder sounded again, and the dazzling light of thunder reflected on Downey in the heavy rain, and he looked particularly terrified.

The cute queen vomited her tongue at Downey and cursed, “Stupid, what about you when you’re a vampire, scaring anyone.”

Lu Yang laughed and said to the lovely queen beside her, “You are really poisonous.”

“Who made him look down on me just now.” The cute queen boss said unwillingly, and said some coquettishly: “I just acted like I wasn’t, wasn’t it just a poisonous stinger, all his special legions? Now. “

Lu Yang said with a smile: “Just you ghost elf, ask Dede to taste what happened to the corpse. This rainstorm is twice as strong as usual.”

The cute queen clicked on the video call, and the appearance of Germany without a corpse was projected to Lu Yang by a three-dimensional laser.

“Boss,” said Germany without a corpse, “This rainstorm is problematic, and I suspect that the enemy also has the Druid Army to release weather change skills.”

Lu Yang said joyfully, “Danny, this fool, is really looking for death. I am afraid that there is not enough water to send you over. They sent me double the manpower.”

Deep sea smiled and showed his side in the heavy rain. Standing next to Lu Yang, he arched his hand and said, “Boss, is there an attack now?”

Lu Yang looked at the time. At this time, the war had been going on for 4 hours. The two sides of the war entered the first exhaustion period. He said, “Order all members to gather and prepare to launch a general attack.”

“Yes,” the cute queen answered quietly.

“Woo ~~~~”

“Woo ~~~~”

“Woo ~~~~”

The deep, depressed horn sounded extremely penetratingly in the heavy rain, and the laughter expression of the 1 million Jagged Brothers players on the east bank of Shalulu Falls became clear, everyone quickly returned to his place.

Among these 1 million people are the Remnants of the Iron Brotherhood, the Archbishop Priest, the Great Ice Mage, the Divine Knights, the War Tauren, the Wolf Guard, the Starbreaker, and the Lotus in Darvi, India. Mage Regiment, War Elephant Regiment, and 30,000 Forbidden Mage.

All special occupations accounted for a third of the number of players. At this time, they were dressed just like ordinary players, and they were all hidden among the 700,000 regular players.

Special occupations are indistinguishable by appearance. This is the key to Lu Yang’s concealment. The reason for this is that here, Shalulu Waterfall is the breakthrough point selected by Lu Yang.

In 5 minutes, just 5 minutes, 1 million people were assembled, and the heads of the army, such as the lovely queen, the deep sea, the king of hell, and the fiery hell, came to Lu Yang.

“Boss, the entire army is assembled,” said the cute queen.

A lightning flashed in the sky, and in the dazzling thunder, Lu Yang stood slowly flying on the flying carpet. He looked at the 1 million players in front of him and said loudly, “Brothers, brothers in several other regions, All obstacles have been removed for us.

Now, the enemies in front of you have no reinforcements, as long as they are defeated, they will be able to smash the Golden Rose City. Even if we win this war, follow my orders, the blue dragon mage team will open the way, the curse mage team will be bombed remotely. The legion opened its way and the whole army attacked. “

As soon as Dalv shook his long hair and pointed his right staff to the river and across the river, the elegant voice sounded: “Brothers in India, let us open the way for the army, curse the mage, 30 meters to 230 meters on the river, the first Wheel design, preparation. “

“Kill!” A total of 20,000 men from the Tauren War Corps and the Elephant War Corps in Indonesia launched an attack on the opposite side. Both sides were super-professionals with a height of over 6 meters. The river was only 5 meters deep, which had little effect on them. .

Behind them, followed by a regular legion divided into six lanes, and on the river bank, a star ranger shooter with a long range, and the Indonesian \*\*\*\* shooter legion.

Downey saw the attack by the Brotherhood of Iron Blood, with a sneer look on his face. He guessed that when Lu Yang came, a war would break out, and sure enough, the attack began.

“The stinger, the shark corps, the devil corps, let me see your strength and block the enemy,” Downey growled.

The water ghosts hiding in the water, they rushed towards the war tauren under the water, and the war tauren who was used to facing the war were immediately ready to launch the smashing hammer when they were just attacked, but when they were preparing However, I did not expect to have stings under my feet, and then my whole body became stiff, let alone put skills, the whole person’s eyes became dark, and the skill bar appeared like three iron railings in prison. Not available.

Stinger Water Ghost, based on the light box jellyfish, has the most poisonous stinger in the world, which instantly paralyzes and produces powerful toxins. It loses more than 1 million blood in three seconds. In the water, the toxin damage range, 2 million in 3 seconds.

Coupled with ordinary attacks and skill attacks, even if there is healing and blood, the speed of blood cannot be stopped, and the Elephant Warrior and the Tauren Legion have died in large numbers.

The regular legion that rushed over the six roads was also attacked by the Shark Emperor Legion and the Devil Legion. The Shark Legion is a group of warrior players who can turn into giant sharks. Their attack power is twice that of War Elephants and Tauren. , The attack speed is one-third of them, that is, the shark can attack once a second, and each attack is twice as fast as the war tauren.

Crush!

Completely crushed!

Players of the Iron Brotherhood entered Tianshui River, just like entering a meat grinder. They have no ability to survive. Even if there are forbidden spells and secondary forbidden spells in the sky to support, the enemy launches an attack underwater. The damage taken was very slight, and there was a full treatment to add blood under the water, and almost no player of the Aqua Emperor Guild died.

On this 5-kilometer-long offensive line, the Tiexue Brothers League rushed to the farthest position of 150 meters, and more than 200,000 people were annihilated.

Downey was spinning in the torrential rain, looking at the water only hit by rain, and the bodies of the Iron Brother Brothers players everywhere. He looked at Lu Yang in a way that he thought was elegant and spread his hand and asked, "I'm so sorry, How are you feeling the strength of our Aqua Emperor Guild? "

In the video.

Since the Jagged Brothers attack, the live broadcast channels of all countries have received live broadcast signals from Shalulu Falls, and Galga and Kerim have also locked their eyes on this. Everyone thinks this When the side was a \*\*\*\* battle, the Indonesian Water Emperor Guild stunned players around the world with a slaughter.

"Good job," Galga yelled. This was the first time the G8 had an advantage over the Brotherhood of the Iron Blood since the war began, and it was still an absolute advantage.

"It's great, it has frustrated the spirit of the Brotherhood of Iron and Blood, and sent this video to the whole group, so that all the players in the guild know." Galga said.

In the live broadcast channel, the anchors who were not optimistic about the G8 have praised the G8. Obviously, this battle has turned the public opinion on both sides.

Below Shalulu Falls.

Lu Yang stood on the river 30 meters from the shore, looked at Downey, and said, "Do you feel like you have won?"

Downey shrugged, looked at the corpses of the Iron Brotherhood players on both sides, and said, "What do you say?"

Lu Yang smiled. Instead of speaking, he privately sent a message to the vice presidents of several other regions and said, "I will attack with all my strength, and I will launch a general attack."

The first 200,000 players who died were Lu Yang's bait. The reason why there was no resurrection was to show it to several other presidents of the Group of Eight to reassure them of the battle situation here. Once they did not watch this in the situation, they can focus on their battles. As long as 20 minutes, Lu Yang can break through the Shalulu Waterfall defense line and completely defeat the enemy.

"Boss rest assured, we will go all out." White Lion and Zhou Tianming and others sent back messages.

The five vice-chairmen turned off the intercom and yelled at the same time: "Attack on all fronts, offensive on all fronts."

Gelgar felt the pressure of the war instantly, he sneered, and said: "It looks like Lu Yang is in a hurry, okay, isn't it a fight? We are not without people, we are attacking the whole line and pressing them back."

The five presidents of the Group of Eight countries no longer have the energy to watch the battle of Shalulu Falls, and devoted themselves to their respective wars. Investors also turned their eyes to other directions. After all, the water on the side of Shalulu Falls The Emperor's Guild was too stable and too strong, and no one believed that Lu Yang's Jagged Brotherhood was able to step over Shalulu Waterfall.

Lu Yang saw that each area was in a decisive battle. He sneered and said, "Deep sea, it's your show."

"Boss, you look good." The deep sea reveals its figure in the river next to Lu Yang. Similarly, 1,000 blue dragon mages also show their stature in the rain at the same time. This is a unique skill of the blue dragon mage. .

Downey was arrogantly taunting Landing Yang. The sudden appearance of 1,000 people stopped him suddenly, frowning at the 1,000 people and asking, "What kind of profession are they? This is your Tsunami Master League, right?"

Lu Yang smiled and said, "Exactly."

"On them? On them?" Downey laughed wildly and shouted, "My Tsunami Master, come out for me."

More than 2,000 tsunami mages appeared in the river, and they stood 50 meters behind Downey.

"To compare the magic of the water system, I will accompany you to the end, not just the tsunami, I will also." Donny shouted with a laugh: "Tsunami Masters, destroy the opposite waste."

"Tsunami"

"Tsunami"

...

2000 people chanted a spell at the same time. For a time, the entire surface of the Tianshui River was drained by more than 1 meter.

Looking at the deep sea, Lu Yang said, "Educate them and let them know what a water magician is."

Deep sea nodded and shouted: "All blue dragon mages prepare, Hai Longbo."

"Sea Dragon Wave"

"Sea Dragon Wave"

...

1000 blue dragon mages chanted a spell at the same time. In just a moment, everyone was shocked to find that the height of the water surface had been drained by more than 3 meters, and the water level had fallen from 8 meters in the heavy rain to 4 Meter.

A total of 1,000 dragons in the water system rose into the air behind Lu Yang. Each dragon was 2,000 meters long, hovering and its head roared.

Hailong wave, attack length is 1000 yards, range is 1000 yards, damage is multiplied by 5, released in water, all attributes are doubled.

"Hello ~!"

1,000 sea dragons roared and rushed to the surface of the Group of Eight. At the same time, the 2,000 water system mage of the Group of Eight also released a tsunami.

The 500-meter-high wave and the 1,000-meter dragon-shaped wave collided violently. Only for a moment, the dragon-shaped wave pushed back the tsunami, and the huge waves rolled towards the G8 side like the last days.

Downey felt bad at this moment, his body turned into a stream of water and hid underwater, while other tsunami mages and poisonous stingers, shark corps and devil corps hidden in the water were not so lucky, more than 30 Ten thousand people were attacked by the sea dragon waves released simultaneously by these 1,000 people.

When the big waves pass ...

## Chapter 1280 - Defeat the Downey Legion

Within 20 kilometers in diameter, all enemies were killed.

10 times the intelligence damage. In terms of the current properties of the Blue Dragon Mage, they have 10,000 points of blood intelligence, 226750 points of equipment intelligence, 20,000 points of additional intelligence for cooking, and 25,000 points of enchantment. Lu Yang gave 20,000 points of intelligence, and 20,000 points of the mixture. Together, the total intelligence value reached more than 300,000 points.

When the skill is hit, it is 3 million pure damage. Even if the official setting stipulates that once the number of players attacked exceeds 100, the damage will decrease as the number of people increases, but it will only decrease by 20% at most, which is more than 2 million. hurt.

At this stage, the vast majority of players in the Water Emperor Guild are still level 130 dark gold sets. In the face of this attack, it is the end of the spike.

Downey, the president of the Water Emperor Guild, got out of the water. He looked at the surrounding scenes with stunned blood, and was stunned. More than 200,000 players in his water system in the Tianshui River were killed by this attack.

“How is this possible, what kind of profession is this?” Downey looked at Lu Yang in panic.

Lu Yang sneered and said, “They are the Blue Dragon Mage. In this game, the most noble bloodline of the blood system, even if you have a lot of people, you can have no chance of winning in front of the noblest bloodline. The Blue Dragon Mage continues to attack. . “

“Yes,” the deep sea responded loudly, “second strike, Hai Longbo.”

1000 blue dragon mages chanted the spell again. At the same time, 200,000 people including the war tauren and war elephant army who died in the water were resurrected in situ and attacked frantically under the cover of Hailongbo.

“Forbid the mage, stop them, stop them soon.” Downey shouted.

On the south bank of the Tianshui River, Downey’s tens of thousands of cursed mages chanted the spell. They were 30 meters away from the river bank and two kilometers wide, which caused their attack distance to be insufficient. Only a small number of forbidden players could attack.

However, these forbidden spells dare not use the skills, because the number of forbidden spells is small, and they can’t hit the dead. When there is treatment, one or two forbidden spells are hit at the same time, but it is just a test of healing methods.

Once the other party has good treatment, several group brushes and blood can break a 30-second forbidden spell. Therefore, these forbidden wizards can only wait for the enemy to approach the shore 500 meters, and release it with the secondary forbidden spell. There must be at least 5 superimposed on the same area to kill the opponent.

Lu Yang looked at the retreating Downey and the spell-casting mage waiting on the shore, and said to the deep sea around him, “Use the sea dragon wave to continue attacking.”

“Yes.” Deep Sea smiled and took 1,000 Blue Dragon Masters to the front of the battlefield. When he came to the middle of the river bank, he said loudly, “Sea Dragon Wave, attack freely.”

“Sea Dragon Wave”

“Sea Dragon Wave”

...

1,000 spell-casting mages chanted spells at the same time, and a giant kilometer-long sea dragon reappeared in the air and flew straight to the G8 positions on the south side of the shore.

“boom”

“boom”

...

After the continuous violent bombardment, the river fell, and within 500 meters south of the shore, all non-defense and anti-riding professions were killed, including Downey, who did not escape.

There are only 2 million people in the Water Emperor Guild. The first attack killed 200,000 people. On the second attack, almost all the enemies on the shore gathered. This time, Hailongbo killed at least 400,000 people. Doubled before!

“how is this possible?”

“This, what skills is this?”

“How else can you fight? The enemy’s attack is so strong, it is clearly a spike, and it can’t be beaten at all.”

“Run, you can’t hold it here, run.”

...

Collapsed! The G8 players have collapsed! The players who were alive under Downey did not dare to confront the blue dragon mage’s sea dragon waves. Under this unparalleled attack, they scattered and fled.

“Fuck, don’t run. I haven’t killed anyone yet.” Liu Yunpeng, the war tauren, said in a depressed mood. He was too bitter and just killed by the poisonous stinger. He wanted to get angry but found that the enemy was scattered. After that, he could not catch up with anyone.

“Don’t be impatient, hurry up and do business, gather the team, we are going to siege.” The cute queen ran beside him and said.

“Okay, the whole army will gather on shore.” Liu Yunpeng shouted.

“Gather on shore.”

“The crazy wolf guard follows me to the front to open the way.”

...

One million people quickly gathered under the leadership of their respective regiments. After Shalulu Waterfall passed, it was only one hour away from here, which was the first fortress of the Group of Eight, Golden Rose City.

As long as the Brotherhood of the Iron Blood has won the Golden Rose City and held it for a day, then starting tomorrow, the players of the Brotherhood of the Iron Blood can use this place as a base and continue to teleport the players to attack the surrounding crescent moon, temple, and black water. And ten souls and other fortresses.

“The whole army mounts, rush with me.” Lu Yang flew across the river bank, seeing that a few legions such as the Mad Wolf Guard had assembled, and ignored the others, crushed the entire acceleration scroll, shouted, and took the lead toward the Golden Rose City. Rushed over.

Time is limited, he must rush to the Golden Rose City before the players of the G8 come to reinforce, otherwise he will face a bitter battle.

After all, the Group of Eight is a guild with more people than him. Once it became a tug of war, Lu Yang had no confidence to be able to beat the fortress before tonight.

If he can't fight tonight, even if he can fight in the next two days, on Monday, Lu Yang will not have the confidence to be able to defend, so he must lay the Golden Rose fortress today.

"Brothers Don't pick up the equipment on the ground, attack me forward, and lay down the Golden Rose City." Hao Wanwan shouted.

The players of the Wild Wolf Guard are all Lu Yang's guards. At this time, no one looks at the surrounding equipment, and takes the lead to open the road, rushing forward.

Followed by the War Tauren Legion, and then by the Legion of Warriors, Divine Knights, and Starbreakers. Without exception, they did not pick up equipment on the ground, and they rushed forward.

On the other side.

Galgar, who was playing against Zhou Tianming in Silent Hill, got the news of Downey's defeat for the first time. He sat in a chair beside him in shock and said, "How is this possible? Downey's Water Emperor Guild is by the water. Will you be defeated by Lu Yang? You failed so fast? "

Daniel said, "I just watched the replay video. A Brotherhood of the Blue Dragon appeared in the Iron Brotherhood. The damage of the water spells was extremely high. Downey was blown away by the blow. It seems that we are going to start the B-level plan . "

Galga reluctantly said, "Did Lu Yang take over 10 fortresses such as the Golden Rose City and Blackwater? Each is a few hundred thousand gold coins, and we are losing money."
