

Wild Fire 1301

Chapter 1301 - Special play

After 10 minutes, Kukala had less than 100 million points of blood left, and at this time, Kukala lost tens of millions of blood every second. In less than 10 seconds, Kukala would hang up.

“Resistant Fire Ring”

Lu Yang read a spell in his mouth, but this time he launched the skill behind Teckrick, a fierce light flashed, and Teckrick was collapsed in front of Kukala by Lu Yang.

“Kukalla, you have to pay for your actions, do you dare to fight me?” Tuckerick growled.

“The humble bug dare to offend you, Lord Kukalla. I accept your duel request and let me die.” Kukalar’s left fist suddenly burst into a black light and slammed heavily on Teckerick’s body.

It can be seen by the naked eye that Tec Creek’s blood volume has been halved. If there is another such attack, Tec Creek will die. The cute queen and muddy wine in this punch will be frightened. Fortunately, the second punch is a normal attack, only Killed one-fifth of Trick’s health.

“Hum, startle me,” White Wolf said.

Lu Yang said joyfully, “Stop it, we’ll just watch Trick Creek attack.”

Liu Ruohuai and other blood soldiers stopped attacking. In the last few seconds, they did not make sense to output or not.

“The unyielding blood will make me infinitely powerful.” Trick Creek roared, a black aperture was added to his head, the attack speed suddenly increased, and the blood volume recovered at a rate of 10% per second.

Kukala's attack speed is still higher than Teckrick's recovery speed, but after all, the Blood Shadow Sword stacks up too much, dropping more than 10 million health in one second, less than 10 seconds, when Teck When Rick's blood was only able to withstand the last two attacks, Kukalla fell to the ground.

A fierce light flashed, and Trick Creek's level increased. He roared and said, "How can you beat my Trick Creek, my soul of revenge is the most powerful."

System prompt: Turkrick adds 1 million additional attack power

White Wolf covered his head and said, "How did the system design such a fool? Doesn't he know that it was the monster we killed for him?"

Lu Yang said with a smile: "Official records, he is a fool. I'll check out the equipment."

He came to the dropped equipment. After the revision, he officially determined the number of dropped equipment for 100 nightmares, which was 15 pieces.

The equipment is not dropped directly, but 15 badges are dropped. Use the badge to go to the money changer in the main city of the sky to redeem the equipment. This is to prevent players from getting a set of equipment when they redeem the equipment. On the one hand, it is to prevent copying too difficult to get the equipment required for the mission.

Although this change seems to be better for players, in fact, a main theme is confirmed in the game, that is, really good equipment has entered the legendary era.

From now on, the level of dark gold equipment is only medium-to-high, and it is no longer a top-level equipment.

A player who wants to dominate at the current level must have legendary equipment. Legendary equipment can only be dropped on rare lords and superior lords in the copy or superior lords in the wild. Regular lords absolutely will not. Dropped.

The damage of legendary weapons will closely follow the higher-level dark gold equipment, and the difference between the two attributes will never exceed 10%. That is to say, a 150-level legendary equipment is still applicable at 160.

Of course, the legendary equipment is still a rare item, but it is no longer a special rare item. If a guild works hard enough, it can obtain a legendary weapon for each player at the legion level. At present, among the legendary items, Only weapons, other parts of the equipment does not have dark gold.

Lu Yang looked at the 15 badges that were dropped, including 5 mages, 5 fighters, and 5 shamans. He put them in his backpack and said, "Let 's continue, I will distribute the copies after pushing."

The crowd nodded, and as Lu Yang continued to move forward, the overall structure of the Demon Temple was a seven-story tower-like structure. It reached the second floor through the stairs and looked out. The space in the entire hall was very large and was covered by many walls. Made a maze-like partition.

Dozens of demon wizards were not far ahead, and a wizard headed by Shen Sheng said: "Everyone patrol carefully, the waste on the first floor may not be able to stop the enemy."

Tokaro Skyflame Wizard Leader (boss)

Level: 150

Qi and blood: 1000000000/1000000000

"What is the Sky Witch Wizard? Seeing the name so domineering," Bai Lang asked.

Lu Yang said, "Remember that I had a skill called Shenhua Tianjiang?"

Everyone nodded, that skill impressed everyone so much. With Lu Yang's more than 2 million magical injuries, all players within his 5,000 yard range would be attacked by flames and could not be resisted.

“He won’t be able to release the **** of fire from heaven.” The White Lion asked, the boss monster in the 150-level nightmare difficulty copy, the magic damage is at least 6 million or more, more than their health, can’t carry it.

Lu Yang said: “He will release a reduced version of about 50 meters. Do not approach them in melee. Liu Ruohuai took the blood warrior to the front and used the range skills to pull the monsters. The rest of the range will be stabilized before returning.”

“Yes,” everyone answered.

Liu Ruohuai rushed up with his blood soldiers.

“An enemy invaded, **** Kukalla, what is he doing?” The Sky Flame wizard roared, and his left hand pointed at the sky.

“Sky Flame”

A piece of flame fell from the sky and hit Liu Ruohuai and 8 other people with precision, but they could hit their skills without causing any damage.

There are still only 30% of Liu Ruohuai and others who have studied two. The magic resistance of their own equipment is very high, and the magic resistance is reduced by 70%. Even if there are 6 million magic damage, they hit them like single digits.

“Boss, this blood warrior’s blood is too powerful, we are not afraid of the mage at all.” Liu Ruohuai laughed and said, and he deliberately squeezed his eyes at the cute queen.

The cute queen gritted her teeth and said, “Look at me less, I’m annoying you.”

Liu Ruohuai laughed, and everyone laughed. The two were about the same age. The cute queen was also a mouth-broken little girl. She always thought that her ice master was full of professions. Little girl can only be angry.

Lan Yu distressed the cute queen and said, "Don't make trouble, let's blame."

"He bullied me." The lovely queen coquettishly ...

Lu Yang was unsmiling. He looked at Trick Creek not far behind him. The two NPCs were already crazy and had the idea of rushing up. Dozens of Sky Flame wizards could stop him without him.

"Resistant Fire Ring"

Lu Yang appeared beside Te Creek, and a flame pushed him to the first floor.

"No one can stop my path to vengeance." Tucker roared, commanding the mount to run up the stairs.

De Bu tasted the corpse's eyes and read the spell in his mouth.

"Bundles of Thorns"

Trick Creek was again in situ.

Lu Yang looked back at the leader of the Sky Flame Wizard, and his health was below 50%. He said to everyone: "When the Sky Flame Wizard's health is below 1 million, don't attack, let him continue to release magic."

"Oh," everyone answered.

There is a little trick in it, Teckrick's duel is not only effective for the lord, but also for the boss. As long as he is controlled for more than 1 minute, he will growl to fight against the enemy.

As for the duel monsters, there are special monsters in this map that understand the full range or the second person. Before this, the players watched Trick rush in and were attacked by several spikes.

The only way to make Tecrec live until the top of the seven-story tower to attack the last lord is to let a monster such as the Sky Flame Wizard consume the magic cleanly, just one minute.

“Ignorant humans, dare to break in here and taste the taste of Tianyan.” The leader of the Tianyan wizard laughed with a smile and released Tianyan skills. At this time, his blood was beaten by 1 million.

Liu Ruohuai and others stood in the flames like they were bathing in flames, without any fear. They waited for a minute and the magician of the flame stopped.

“No one can stop me, **** Skyflame Wizard, I will fight you.” Turkrick was furious and controlled, rushing towards the Skyflame leader.

“Poor demon, are you stupid? Would I be afraid of you,” said the leader of the Sky Flame wizard mockingly.

Trick Creek rushed in front of the wizard, and the two slashed them. One stroke, Trick Creek hacked the wizard without blue.

A flash of gold lighted up, and Turkrik stood proudly in front of the wizard’s body, saying, “You are so vulnerable, my King Turk is the strongest.”

System prompt: Teckerick gains 1 million attack power

“It’s another 1 million attacks.” Sufferingly, Lu Yang looked at Lu Yang excitedly for a long time, and said, “Boss, you can fight like this, and finally how much his attack power can be increased.”

Lu Yang said: “It’s almost 100 million.”

Everyone: “...”

There are 7 lords in the copy of the seven-story tower There are more than 100, but Lu Yang does not need to let him duel each boss. As long as he completes 100 duels in the first five layers, the battles in the back will be easier. Already.

People such as Zhuojiu and White Lion were excited.

“Let’s continue, haha, this copy is a happy fight, 100 times is 100 million attack power, isn’t it that we can stop the lord without him?” White Lion said.

Lu Yang said, “Almost, that’s it.”

Everyone laughed. As Lu Yang continued to move forward, there were 21 bosses on the 2nd floor, each of which was used by Lu Yang to give Trick a duel to increase the attack power by 1 million, waiting before the lord. At that time, Trick Creek’s attack power reached 27 million.

“My attack power is only over 2 million. He is 10 times mys.” Hell King said.

“I don’t know what it is like to fight the lord?” Said the cute queen.

In front of them, a lord had come over, his body was empty, like a piece of ice.

Chapter 1302 - Bloodsworn Saber (Legendary)

Stone Demon Heso (Lord)

Level: 150

3000000000/30000000000

“This looks pretty normal,” White Wolf said, and the output just made him depressed enough.

Lu Yang said: "The lord's skills are relatively simple. There are only 6 in total, all of which are range attack skills. Their own defense ability is extremely low. As long as they are not attacked by their skills, listen to me and let everyone go."

"Okay." Zhuojiu rushed up with the White Lion and others.

Wan Zhonghui was the fiercest, Xiao Liang just caught the monster, and he cut it down with a stab.

"Blood Oath Strike"

Seven blood-colored phantoms lit up, and Hesusu's body burst into a blood-colored light. With 7 consecutive blades of more than 2 million injuries, the lord blame more than 15 million blood.

Lu Peng and the other blood oath shamans behind him did not fall behind, and launched an attack at the same time. All seven of them hit more than 15 million injuries. In just one face-to-face, the lord monster was killed with 120 million blood.

"Is this still a blame? It's like a mob." Yeyue sighed at the wind.

The crowd nodded, and they were even more stunned. As if luck broke out, 8 people including Wan Zhonghui and Lu Peng triggered wind rage almost every 3 attacks. For a time, the lord's monster's blood was down by hundreds of millions. It fell into the second stage without waiting for more output from others.

"Ignorant human beings, you have successfully offended me, the aura of ice." The blue light on the stone face of Stone Demon Hesso showed an angry light, and ice-blue rings appeared in his hands.

"Everyone pay attention, this ice ring will attack the target randomly, everyone pays attention to avoid." Lu Yang said.

The crowd nodded, and as they increased their attention, two huge ice rings with a diameter of 2 meters flew from the left and right arms of Hesso and flew towards the lovely queen and the Hell King.

“flicker”

The cute queen took a total of 8 people to jump out of the ice ring area.

“jump”

Eight people including Zhen Hao Ping jumped out of the second ice ring area collectively, and no one was hurt a little.

Lu Yang didn't watch the dynamics on both sides, and continued to output. Here the ice ring just landed, Wan Zhonghui and other blood oath shaman touched the blood oath strike again, a **** phantom flashed, and the amount of black cord's blood dropped by more than 100 million.

Even if the ancestor Tauren used the smashing hammer in the side, the damage was less than one third of that of Wan Zhonghui and others. Only the ice master's explosive skills can barely reach half the attack power of the Blood Oath Shaman.

“Blazing Heart”

Lu Yang's right-hand staff pointed at the black cord, and immediately killed a large amount of blood.

“I won't let you go.” Hesso was furious, with multiple rings appearing on his arms at the same time.

Lu Yang said aloud: “Note to the third stage, he threw out of the ring slowly moving average every 10 seconds to throw a must played at this stage as soon as possible.”

“Temporal and Twisted”

Lu Yang mouth spell read out, the release of all the magic attack and release rate of 30% increase in skills.

The key factor in Wan-hui, who suddenly attack speed increase among many, triggering blood oath against a number of attacks, 15% chance in multiple attacks in a continuous trigger.

“Blood oath against”

“Blood oath against”

...

RDX just throw ice ring was hit three times in the fourth stage, leaving only eight circle on the map, Lu Yang them for questioning any threat, while his blood is only 60% .

“Be careful, he was going to throw out the black ice, black ice will soon be hit mutiny.” Lu Yang said.

All eyes focused on the Lord strange hands, black ice n-suspended in the above, may at this time.

“Blood oath against”

“Blood oath against”

...

Wan Zhonghui 's luck broke out, and four consecutive blood oath strikes, plus other blood oath strikes triggered by other blood oath shamans, did not throw the ice cubes in Heisuo 's hands into the next stage.

Everyone: “...”

“The output of this profession is really overbearing,” said White Wolf enviously.

Lu Yang said: "At full attack, at this stage he will absorb everyone's health and restore his magic, but at the same time he will double the damage and output at full strength."

Everyone's eyes were bright. Would they give up such a good opportunity, all of a sudden, everyone started a big move, all kinds of skills flying around.

Heisuo's blood sucking time is 30 seconds. During these 30 seconds, blood oath shamans such as Wan Zhonghui and Lu Peng continuously trigger blood oath strikes. By the end of the time, Heso's blood is only 19%.

"I would have been seriously wounded by a small group of human beings. I can't forgive or forgive. Taste the anger from the ice." Heso was furious, with a spell in his mouth.

"Icy Curse"

Lu Yang said: "Everyone backed off and attacked 50 meters away from the black cable."

The crowd retreated, and as soon as they left the radius, a large amount of hail fell from the sky and fell on the ground and scattered.

Lu Yang said: "Remote output continues to fight to kill him within this minute."

"Yes," everyone answered.

The last skill of the black cable lasts a long time, and the distance is very long. The damage is very high. If you use it within 3 seconds, a 150-level dark gold player will die, so you can only avoid it. Including Liu Ruohuai and others, because this skill is triggered physically.

After escaping the attack radius, only the career after three turns or the shooter with two turns can attack. Generally speaking, this stage is the stage where Heisuo slowly recovers his health. Residual blood.

“Damn stone demon, I’m duel with you.” Trick Creek has been under the control of the German corpse, just now Lu Yang gave a hint to release the control, he rushed towards the black cable.

With just 1 knife, Heizuo hit more than 20 million damage, easily knocked Heizuo to the ground, a burst of golden light lit up, and he gained another 1 million points of damage.

System prompt: you killed the stone devil black line

Lu Yang came to Hesuo’s body, picked up 15 emblems, and said, “Continue.”

Everyone smiled and nodded, and no one thought that a 150-level wasteland nightmare difficulty copy would be so simple.

The next few floors were all this way, and they were easily struck by Lu Yang’s command. When they reached the last floor and the seventh floor, they finally came to the final lord.

Stone Demon General Bonebreaker (First Class Lord)

Level: 150

Qi and blood: 50000000000/50000000000

“A lot of blood,” said bitter love for a long time.

“It looks bluffing too,” said the cute queen.

“Just don’t know how many times you can resist King Teckerick?” Said Hell King.

Everyone smiled.

On this way, Teckerick ate a total of 99 attacks and the damage reached 105 million points. A person's attack power is equivalent to the total attack power of the group. That rookie has risen to level 99 in a row and has reached 2 billion points of health. Although there are not many blame lords, he does not need to resist blame.

"Let's try it, Xiao Liang is weird." Lu Yang said with a smile.

"Good." Xiao Liang rushed up carrying his shield.

"Damn Bonebreaker, I'm going to fight you." Teckrick rushed towards the Bonebreaker in anger.

"Bundles of Thorns"

De doesn't taste the corpse's right hand with a finger at Trick, and the vine binds it in place.

"Four are not stupid." De Bu tasted the corpse and came to Trick Creek, scowling silently: "How many times have I done, I don't know how to let T resist first and then go up, so you don't give away your head when you rush up Is it? "

Trick Creek turned a deaf ear and roared.

Lu Yang watched Xiao Liang stabilise, giving Debu a taste of the corpse, which then loosened the vine. At that moment, Tricke launched an assault and rushed to the front of the broken bone general. The sword was heavily chopped on the body of the broken bone general.

"98678793"

"200000000" (Critical Strike)

...

Everyone: "..."

Some people, including Lu Yang, are a little bit dumbfounded. A random attack is more than 90 million, and a crit is 200 million damage.

General Bonebreaker had a total of 50 billion HP, and Trick Creek's attack speed was very fast, averaging once every 1 second.

"Come on, let's stop attacking, just look at it." Lu Yang said with a smile.

Everyone nodded.

In this way, 5 minutes later, General Bonebreaker was chopped to death by Tecrik, and a long black knife fell to the ground.

Bloodsworn Saber (Legendary)

Level: 150

Physical attack: 613693-651888

Strength: +28256

Stamina: +30000

Additional attack power: +79678 points

Additional physical penetration: +79678 points

Additional physical crit: +20000 points

Attack speed: 1.05 seconds

“My God, the legendary weapon of the melee burst.” Xiao Liang said dumbfoundedly after picking up his equipment.

“Let me see.” Zhuojiu, White Lion, Xia Yuwei, and others all hurled around. Lu Yang also told them that the legendary equipment would not be easy to drop, but they all know that the chance of falling for the first time in the wasteland is high. Everyone is thinking with this kind of mind, especially when they see that the last lord is a first-class lord, let them look forward to it, but did not expect that it really broke out in the end.

“This attack is terrible. A weapon has more damage than a full set of 140 dark gold.” White Wolf said excitedly.

Lu Yang asked with a smile: “Who wants it.”

Everyone reluctantly glanced at the long knife and sighed.

“I don’t care, it’s not that I cannot use the sword.” Xia Yuwei said.

“We use swords, and the swordsmanship is not good.” White Lion said on behalf of the three brothers.

“The sword does not match my temperament,” said bitterly half-heartedly.

“I’ll let it go. It’s rarely on the battlefield,” said Zhuzhuo.

Lu Yang laughed. He didn’t expect his brothers to be able to achieve such a high-flying festival, and no one would grab this legendary weapon.

He looked at Wan Zhonghui and others and said, "They don't want any of them, but you are the ones who left."

Lu Peng looked at Wan Zhonghui and said, "Give it to Wange, he is the representative of our blood oath shaman army."

The remaining blood oath shamans nodded one after another. The boss in a legionary armed with legendary weapons brought supreme glory to the legionary, which was a symbol.

Wan Zhonghui originally wanted to quit and heard the brothers say, "I'm welcome, then I really want to."

Lu Yang smiled and asked Xiao Liang to hand over the long sword to Wan Zhonghui, and said, "The blood-sworn sword is just the name of your blood-sworn shaman, and you are good at using the sword, and it should be for you."

"Xie Boss." Wan Zhonghui said excitedly, his eyes changed when he took the sword with both hands.

Lu Yang said, "Come back to Tianyu with me, and I redeemed the badge."

Everyone nodded, and as Lu Yang turned into a ray and flew back to Tianyu, now Tianyu has sell teleport reels, and after 10 seconds, they can fly directly to their respective set teleports.

Lu Yang came to the exchange office in Beicheng District. At this time, only a small number of players came here to redeem 150-level equipment, usually the elites of the studio or grand guild.

Lu Yang came here with 100 people and immediately caught the attention of the major guilds. Just as they looked carefully, a group of people saw the blood oath sword in Wan Zhonghui's hands.

"Class 150 legendary weapon." Someone couldn't help cursing it.

“As soon as it reached level 150, the Brotherhood of the Iron Blood would come out with a level 150 legendary weapon?”

“This weapon is so cool, **** and black, and there is a long blood tank, lean on, look at it and be murderous, who is that man, how could he give him a legendary weapon.”

“Speak quietly, don’t you know Wan Zhonghui? The leader of the erroneous legion of the Brotherhood of the Iron Blood, with a population of 10,000, almost penetrated the defensive positions set up by more than 1 million people of the G8, and less provoked him.

...

Wan Zhonghui was extremely proud of the dialogue between the players around him, and Xia Yuwei and White Lion were also very happy. Under the circumstances that the Brotherhood of Iron and Blood slowed down the recruitment of experts, such a master can appear inside, and a group of loyal blood vows Shaman is extremely important for the future development of the guild.

Lu Yang was also very happy to prove that he had read the right person. In order to suppress Wan Zhonghui’s impetuous mentality, he had to force him to delete his account and re-level as an errant person, but Wan Zhonghui did not let him down. .

Just now everyone praised him so much, and he did not show his impetuous expression, proving that he was mature. In the future wars, it would seem no problem for him to lead a group by himself.

“Boy, I feel the presence of the emblem on your body, can you show me, I am willing to exchange with you the best thing,” said the old man at the exchange office cheerfully to Lu Yang.

Lu Yang looked at the old man and gave the 105 emblems on his body to each other, saying, “I want to exchange 150 pieces of dark gold parts, and all the soldiers are exchanged for blood oath shaman equipment.”

“Of course,” said the old man.

Of the 105 emblems, 30 were from the warrior department. After all of them were exchanged, Lu Yang first provided Wan Zhonghui with an 8-piece suit.

The Spirit Breaker suit increases defense by 210,000, magic resistance by 210,000, physical attack power by more than 400,000, plus weapons, and the combined attack power of these 9 pieces alone exceeds 1.1 million. If you add 5 pieces of jewelry later Set, and then equipped with 10 or more gems, the total attack power is more than 2 million, there is almost no problem.

Before Wan Zhonghui, they used the 160 special equipment of the White Lion and others to compete in the competition. They were not given to them permanently. Now they see that their equipment is also so powerful. Wan Zhonghui is very happy.

Lu Yang said: "The mage department is for the lovely queen, and the ice department master is upgraded first, and the remote physics department is for the town prison **** king, and these special bloodlines are used to upgrade the equipment first. The better their equipment, the faster the copy. "

There was no objection from the crowd. They knew that it wouldn't be long before their equipment would be complete. With Lu Yang in there, the guild would not have those messy problems.

"Boss, what are we going to do next?" Bitter Ai asked for a long time.

Lu Yang said with a smile: "Of course I still play the copy. Recently, I will take you one copy to open up wasteland. The 150 copies are mostly. After dozens of copies are opened in a week, you like to bring your subordinates. Hit whatever copy you want. "

All are smart people. With the strategy and personal experience, if you go to fight again, you can figure it out within a few times.

Everyone nodded.

Just as Lu Yang was preparing to take them to the next copy, Tu Feng called.

“New news, Alfonso suddenly increased its troops by 300,000 people to the Eagle Fortress, and it seemed to attack our Tianhe Fortress.” Tu Feng said.

Lu Yang frowned, and asked, “Is it his own idea or a premeditated plan with the G8?”

Tu Feng said: “There is no news inside the G8. It seems that Alfonso wants to compete with us.”

Lu Yang said, “It looks like he wants to try us out.”

The melee in the central area gradually began. An unknown little guild didn't know how to do it. It was laid out in Tianyuan City in advance, and a level 5 guild was built. It widely received scattered groups in the central area, and even ten of the scattered groups in the central area. Seventy-eight was absorbed by him.

Lu Yang had not encountered this situation in his memory, but there was a similar situation, but before his rebirth, no one knew the details of the guild.

All he knows is that this guild later occupied a large number of areas in the middle of the country. It was precisely because of their appearance that the group of scattered people disappeared from the game between the 150 and 200 levels.

“The melee in the central region is unfortunately the G8. They are next to the central region, and there are still some benefits there. It seems that they will not be drawn out in a short time, but it does not rule out that the G8 wants to work with Albanian before this. Suo United launched an attack to seize the fortress that we knocked down.” Tu Feng said.

Lu Yang said, “Who is the leader over Alfonso?”

Tu Feng said, “Vice President Fernando, who was just promoted recently, turned out to be just a legionnaire. I do n't know how he was appreciated by Alfonso To the vice president and now the third vice president. “

“噗嗤”

Lu Yang didn't hold back and was happy.

"Boss, what's wrong?" Tu Feng asked in surprise.

Lu Yang laughed and said, "Alfonso is looking for death, dare to use Fernando."

"What's wrong?" Tu Feng was confused.

Lu Yang really couldn't help but laughed for a while and said, "Tell you a joke, this Fernando has a very young and beautiful wife, but he was taken by Alfonso, but Fernando didn't know, he thought His promotion so quickly is his strength, but in fact Alfonso wants to support Fernando. "

"Well." Tu Feng didn't hold back, Haha said with a smile: "Boss, where did you get the information, this, this is ridiculous."

Lu Yang laughed and said, "It's ridiculous, but it's true. Don't worry about Fernando first, I'll see if I can counter him."

Chapter 1303 - Cooperation Ayala

"OK." Tu Feng hung up.

Lu Yang said: "Let's continue to make copies."

The crowd nodded. As Lu Yang left Tianyu City and ran towards the next copy, from day to night, Lu Yang took them through more than 60 copies for seven consecutive days.

The 150-level copy itself is very difficult, but the blood gathered around Lu Yang is too powerful, and the main hits are copies with high spell damage. In some copies, even the lord monster is resisted by Liu Ruohuai and others. .

On the morning of the eighth day, Zhuo Jiu and others shared the following copies equally. Each person led a hundred-man team to play the copies. At a time, 99 teams appeared.

Here, the Brotherhood of the Jagged Brothers is actively playing the copy, and on the other side, Fernando of the Eagle City is getting more and more excited.

The main reason why Lu Yang stopped bringing a copy of the reclamation wasteland is also because of Fernando's problem.

Tianhe Fortress.

This is one of the two fortresses that Eagle City must attack to occupy the area occupied by the Iron Brotherhood. Behind the fortress are the Gold Mine Fortress, Blue Dream Fortress, and Lalbag Fortress. It is an important barrier for the Iron Brotherhood. .

The fortress itself is built next to a large river, and Lu Yang does not have a large number of players. Under the situation of a large number of players upgrading, only more than 200 elites of the Jagged Brothers Alliance bring 2,000 ordinary players to defend the city wall.

This gave Fernando the opportunity. In order to prove his strength, every day he sent an elite level of thieves to sneak into the sky and the fortress to attack the Iron Brother Brothers players. At most, dozens of people jumped onto the city wall. He can kill many Iron Brother Brothers players at once, which makes him more and more famous in the Alfonso Guild.

Tu Feng said, "Boss, we need to restrain this kid, he is getting more and more wanton."

Lu Yang said: "I have been ordering Xue Yiming to find the accommodation of Fernando's wife and Alfonso, but Alfonso is very cautious and Xue Yiming has not caught the opportunity."

Tu Feng shrugged his shoulders and said, "This kind of thing, or his first wife, will definitely find a very hidden place."

Lu Yang smiled and said, "If you can't find it, then implement plan B ..."

Without waiting for him to speak, a funny smile appeared on Lu Yang's face and said, "Someone is looking for me, who do you guess?"

Tu Feng shook his head.

Lu Yang smiled and said, "Remember the beauty president Ayala in Spain?"

Tu Feng nodded and said, "The president of the Dragon Wing Guild was later destroyed by Alfonso. According to the information, she and her men were hidden to upgrade to a secret location. They have been seeking to counterattack Alfonso, but at present there is no hope."

Lu Yang said, "I'll talk to her and see what the beauty president thinks."

Ayala used to be the president of beauties in the Old World, especially when she was a Spanish aristocrat. Her golden hair and wild style always appeared in front of people in elegant and luxurious dresses.

For a period of time, her reputation surpassed those of beauties such as Xia Yuwei and Alice, and she took the first place in the "Second World" goddess list.

Unfortunately, the world is fickle, and Ayala is just like Xia Yuwei of the last life. Trusted men are used by the enemy. In a big battle, Ayala buried most of the guilds, while the Alfonso guilds occupied Spain.

At that time, Ayala sought Lu Yang's help, but the new continent opened. The distance between Lu Yang and Ayala was too far away. He couldn't help but wanted to help. He could only watch his allies wiped out by Alfonso. .

Today, Lu Yang and Alfonso border, and even if Ayala does not actively seek him, Lu Yang will talk to Alaia to discuss the eastern mountain area.

He chose to connect the communicator. On the other side, Ayala's beautiful voice came, "President Lu Yang, thank you for your willingness to answer my call."

Lu Yang said with a smile: "Are we friends, what's wrong with me?"

Ayala originally thought that with Lu Yang's current status, she would no longer care about her and even pull her out of her friends. After all, she was a loser. What she did not expect was that Lu Yang not only answered the phone And, as always, she didn't show off.

Ayala said excitedly: "I hope to work with you to kill Alfonso and regain my status."

Lu Yang smiled and said, "I hope so, but I can't move because I am suppressed by the G8 and Alfonso. The Tianjian Fortress also needs to be defended. The central area is still chaotic. I dare not chaotic. Move. "

Ayala was not discouraged when he heard what Lu Yang said, "It doesn't matter, you just have this idea, I have no reply to the current hard power, but my people have penetrated into the Alfonso's guild, intelligence, I It can be provided with full force. "

Lu Yang became interested and said, "Dare to say that, it seems that the person you ambush beside him is not inferior."

Ayala was very proud, saying, "That's for sure."

Lu Yang smiled and said, "Since you are so confident, let's preview it for the cooperation in the future. You can help me check something."

“What is it?” Ayala asked.

Lu Yang said, “”

Lu Yang said, “You first help me find Alfonso’s current place of residence. It is a place of reality.”

Ayala froze and asked, “What do you want this for? You don’t want to solve the game outside the game.”

Lu Yang laughed and said, “Where do I want to go, what kind of thing do I have for such a big net worth? I haven’t had a good life yet.”

Ayala felt relieved and said sweetly, “Since you said so, then I will let you see our strength. This kind of thing is very easy.”

Lu Yang asked: “How long?”

“I’ll call you back in half an hour,” Ayala said.

Lu Yang was surprised and said with a smile: “Okay, I’ll wait.”

He hung up the phone and said to Tu Feng: “Ayala’s penetration of Alfonso is very strong. It can be amazing to find Alfonso’s recent residence within half an hour.”

Tu Feng thought, saying, “If it wasn’t Alfonso’s job, then the security guard around this Alfonso or the security guard around his parents was Ayala’s spy.”

Lu Yang nodded. In fact, Tu Feng guessed right, Ayala’s little beauty Aisha entered Alfonso’s villa as a maid. Although it was only a low-level post, she became Alfonso by virtue of her little teeth. One of the maids most trusted by his butler, often arranged the room for Alfonso.

Ayala only needed a phone call, Aisha made a few simple inquiries, and found Alfonso's recent residence. However, Ayala left a heart and did not immediately tell Lu Yang, but said with a smile: "Lu Yang President, I found the information you wanted, but as a partner's trust, should you tell me why you should check it? "

Lu Yang guessed that the president of the beauty had asked this, and said with a smile: "I don't hide you. Recently, I have frequently challenged my eagle fortress city Fernando. I found that he was given green by Alfonso."

"It's green?" Ayala didn't understand the meaning of the sentence.

Lu Yang said with a smile: "It was Fernando's wife who was stolen by Alfonso."

"Oh ~!" Ayala wanted to hold back, but suddenly she heard the news. She couldn't help but laughed, covering her mouth.

"How could there be such a thing, Fernando is his first general. When he was eliminated, 40% of the credit was attributed to Fernando. Such a general, Alfonso would do such a thing." Ayala said.

Lu Yang said: "It is understandable that Alfonso has been slack. Since attacking the eastern mountains, he is now attacking the southern and central regions as well as the northern regions. Even if there is a problem, he shrinks back to the eastern mountains. Relying on natural risks, no one can get in. It can be said that he can attack and retreat and defend. Under such circumstances, he can finally breathe a sigh of relief. "

The Group of Eight and Lu Yang are the deadly enemies, and the Cavalry Regiment, Liu Jie and Lu Yang are also the deadly enemies. The central region is chaotic. Alfonso has received a large amount of financial support. He has enough players himself and is rich. With some people, some days, and some good location, Alfonso couldn't be nervous when he wanted to be nervous. This condition was really good.

If you change it to Lu Yang, you will also be lazy. With a lot of free time, as the president of a large guild, one of the hottest stars in Spain, there will be a large number of female fans everywhere.

As for why so many women did not choose him, he chose Fernando's wife. In the legend of the last life, Fernando's wife was a college flower. Alfonso once failed to pursue it. Now the school flower is against, and Alfonso ...

Lu Yang told Ayala the news he knew in another way. As a result, Ayala ignited the flames of gossip and asked Lu Yang for a while. After all the questions, Ayala Satisfied.

"Let's work together Aisha will arrange accommodation for Alfonso in a farmhouse at the request of the housekeeper tomorrow, as if Alfonso will be staying for a few days, it is estimated that Fernando's wife will also pass, You're in charge of equipment and people, and I'm in charge. "

Lu Yang said with a smile: "Okay, that's it."

He left Ayala's specific contact phone number, and then called Xue Yiming, saying: "Fly to Spain tonight, do a good job of logistics, someone will come later, you are responsible for answering."

Xue Yiming asked the specific location and task, and said, "No problem."

Lu Yang just hung up the phone, and Ayala transmitted the map of the farm, with a detailed topographic map attached.

Lu Yang quit the game, took off his helmet, saw the black and white standing at the door, and said, "How is your training?"

Black and white eyes lit up and said, "Are we finally here?"

Lu Yang said with a smile: "Of course."

Chapter 1304 - Fernando Betrayal

After more than two years of training, the first batch of black and white masters have already gone out of the apparition. Before that, they were sent to Southeast Asia to perform many tasks and they were all done well.

The most representative is to avenge the Han Zhong family. For more than a year, more than 60 masters ambush around the Zhong Zhong's house during the day and night. When Han Zhong saw the enemy before him, All that remained was a fool who only begged.

This task was too simple for them. On the same day, Blackknife led the team and took the plane to Barcelona. With the support of Xue Yiming's logistics and the real-time information provided by Ayala's Aisha, he would easily The camera was installed in Alfonso's bedroom, and this camera is also a high-definition camera with night vision.

At 3 am the next day.

Lu Yang is dealing with Fernando's challenges in the game. Unlike in the past, Fernando brought hundreds of thieves this time. He also participated in the battle himself. His backpack was full of various scrolls, so that Lu Yang had to suspend a large number of black and white thieves and guilds. A copy of the time and space thief works and battles Fernando outside the Tianhe Fortress.

This time period is exactly 9 o'clock in the evening in Spain, when the Spanish players are very clear-headed, and the night players of the Jagged Brothers League, after all, have not reversed the jet lag. When the mental state is not optimal, the scene suffers a lot.

"This **** will find time," Zhou Tianming scolded.

Lu Yang is thinking about how to solve it. Playing this kind of game, Lu Yang is not afraid of Fernando. It is just that he will send someone to attack the Eagle City tomorrow to find his place. But this is meaningless, it will only waste time and delay equipment. schedule.

Soon the official test war map before the league will be launched, which is another good task for upgrading, but it needs levels and equipment as support, and it is also a watershed for ordinary players and elite players.

If you fail to catch up with this upgrade task, subsequent things will bring great trouble to the guild.

“Dididi”

The intercom sounded.

Lu Yang picked it up and saw that it was a black knife. He pressed the connection button with a smile, and asked, “How’s it going?”

Heihe smiled and said, “The mission is completed, boss. Would you like to enjoy Alfonso’s wonderful video? Surprise.”

Lu Yang was speechless, but soon, he also said with a smile: “Send it out, the boss must study it carefully in a scientific and rigorous manner.”

Heihe couldn’t help laughing, and sent the video to Lu Yang. At the same time, he took the leisurely charter flight provided by Xue Yiming, and the plane was returning towards Huaxia.

“Ding Dong”

Lu Yang received the full video. He looked at Zhou Tianming who was anxious and said, “Don’t worry, let’s take a look at this.”

“What is this?” Zhou Tianming asked, watching a video from Lu Yang’s screen.

Lu Yang said with a smile: “Fernando’s inducement to betray Alfonso.”

Zhou Tianming froze. He looked curiously at the video. In the picture, Alfonso appeared with a woman, and then Zhou Tianming flushed.

“Boss, what are you doing, who is that woman?” Zhou Tianming asked.

Lu Yang said: "Fernando's wife."

Zhou Tianming was surprised by the boss with a long mouth, his chin was about to fall, and said with excitement, "Is Alfonso a fool? Can this be done?"

Lu Yang said, "What's weird, sitting on a multi-billion-dollar net worth, is still the chairman of a top guild, the star with the most fans in Spain, and I'm so handsome."

Zhou Tianming smashed his mouth and said, "Yeah, what about this video?"

Lu Yang looked at the ordinary players with a small crowd in the Tianhe Fortress. If it wasn't for Fernando's troubles, the more than 100,000 ordinary players who had just recovered in the Tianhe Fortress would not run, which made him lose hundreds of thousands of income a month.

"For the second person, I have publicized this video now. However, the killing is not the point. I can't let Fernando raise his head for life and give him a chance. You can help me to meet him and I will talk to him in person." Lu Yang said.

"Yeah." Zhou Tianming was relieved. He and Fernando have known each other for a while. They have no hatred. They have met many times in the arena. They are masters, a bit of a sympathy, especially before the two sides. Cooperation, the relationship between the two is very harmonious.

"Fernando, stop attacking, I have something to talk to you." Zhou Tianming sent a message to Fernando.

In a hidden corner of the Tianhe Fortress, Fernando looked at Zhou Tianming's news, grinned, and said, "Man, you are not going to give in."

"Go away, how could I confess defeat?" Zhou Tianming hurt him.

"Then what do you want me to do, and it is impossible for me to retire, I can rely on you now to increase my popularity." Fernando said eagerly.

Zhou Tianming sighed and typed, "Man, our boss wants to talk to you."

"He?" Fernando was puzzled.

Zhou Tianming sent him a special invitation to the space, saying, "Talk to him. He is not persuading you to surrender, but has something else to talk to you about."

Fernando smiled, clicked and agreed, and a flash of light flashed. He saw Zhou Tianming in the special space.

This is a special space that looks like an office. Fernando came to Zhou Tianming with a smile, jumped at the table, and said, "Okay, I also want to see the chairman of the Jagged Brothers Alliance. Master-Lu Yang, what's wrong with me? "

Zhou Tianming said, "You need to be prepared. This is something that involves people around you, not a good thing."

"Things about the people around me?" Fernando's expression on his face didn't look so good, he asked angrily, "What does Lu Yang mean, how can I not fight in the game, and still want to make people around me?"

Zhou Tianming shook his head. Just as Lu Yang came in through the special space, Fernando looked angrily at Lu Yang and asked, "You are Lu Yang? Zhou Tianming said you want to talk to me about the people around me, what do you mean?"

Lu Yang smiled slightly and said, "Don't be angry, you may not listen to what I say next, but I still want to tell you."

"What is it?" Fernando was anxious.

Lu Yang looked at Fernando carefully. This is obviously still a child. It is estimated that he just went to college. If he had n't resurrected his life, he would have the same mentality as Fernando now. Things should be said or said, otherwise the more painful this time.

"Is your girlfriend Elsa?" Lu Yang asked.

"Don't dare to try her." Fernando was furious, pulled his weapon and pointed at the landing sun.

Lu Yang and Zhou Tianming looked at each other, and both sighed.

Lu Yang said, "You can tell that you have a deep relationship with your girlfriend."

"Of course, I chased her for two years. We have been together for half a year. We will still get married in the future. If you dare to touch her, I can't spare you." Fernando scolded.

Lu Yang said, "I won't touch her, but if someone around you moves her, or robs her, what would you do?"

"Nonsense, don't you want me and our chairman, I have heard this rumor long ago, you don't want to use this relationship between us." Fernando exasperated.

Lu Yang was happy. Now that Fernando knows the rumor, it is easy to handle. He sent the video to Fernando and said, "Look at it yourself and see who is in the video."

Suddenly Fernando had a terrible premonition. He frowned and looked at the video, but when he clicked on the start, he saw the picture inside. In just one second, he widened his eyes. After 10 seconds, his face was gone. The flush turned red. For 20 seconds, his angry eyes almost glared out, his fists clenched.

"Ding"

The video closed, Fernando raised his head and stared at him, asking, "Where did you get this video?"

Lu Yang said: “You don’t need to control the source. What I want to ask now is what are you going to do?”

“What do you do?” Fernando yelled.

Lu Yang pointed to his wrist and said, “The videos are all here, and I ask you, what are you going to do?”

Fernando is stupid and understands that if he does not give Lu Yang a satisfactory account today, then this video will be spread throughout Spain and even the world tomorrow morning.

Zhou Tianming said eloquently: “Dude, admit it, there are more than 3 billion people playing this game, if spread it out ...”

Fernando looked at Zhou Tianming and asked, “Hehe, you are with him, would you be kind?”

Zhou Tianming was speechless at He was so kind and didn’t want to see a competitive genius just fall like this. He also wanted to talk, but Fernando didn’t give him a chance.

For a moment, Fernando seemed to be calm. He calmly said to Lu Yang: “I know what you mean. It is nothing more than to see the internal chaos of the Alfonso Guild. I can do this without you. I also I will find Alfonso’s troubles. Starting today, I will break with Alfonso with 300,000 brothers. “

Lu Yang asked: “You 300,000 people have signed a contract with Alfonso, the account number is his, how do you break?”

Fernando grinned, saying: “These 300,000 people have not signed a contract. Spain is not Huaxia. We are not so poor. We don’t need to sell.”

In Spain, only those who rely on Alfonso’s funds to promote cultivation will sign a deed of sale, and the rest are ordinary guild contracts, regardless of account number.

Lu Yang smiled, shrugged his shoulders indifferently, and said, "Then I wish you success, yes, I will block the G8 attack for you, no matter what you and Alfonso fight, the G8. There will be no reinforcements. "

Chapter 1305 - Defeated Alfonso

He didn't even bother to do that kind of thing. In his eyes, Fernando has always been a jumping-clown clown, but he is so sad that even his boss gave him green.

Fernando looked at Lu Yang's expression, and he could guess what Lu Yang was thinking. He also thought about how to show off after seeing Lu Yang, but he didn't expect the final result.

He gritted his teeth, turned his body into a black light and returned to reality. He looked at the dozens of players who were with him and said, "Order everyone to retreat and we return to Eagle City."

"Go back?" The deputy next to him asked with a smile: "Boss, why are you so generous today, it's not your style to let go of the Brotherhood of Iron and Blood."

Dozens of others laughed out loud.

There was no expression on Fernando's face, and his eyes were cold: "Order the army to retreat, everyone will come to the eagle fortress, and players above the legion will quit the game, and we will meet in reality."

Everyone was surprised.

"Boss, is there something wrong?" One asked.

Fernando snapped: "Lao Tzu reversed. Starting today, I will no longer be Alfonso's men. I will officially declare war on him."

"Declaration of war?" Everyone was blank.

Fernando said: "Withdraw from the game, we talk about it offline, you are my closest brothers, I know, you will not betray me."

They were just confused for less than a second, and they all showed a firm look.

"Of course not, how could we do that kind of thing."

"Whether the boss asks us to fight, we will fight!"

"Well, it's been a long time since Alfonso was not pleasing to the eye, and he just hit him."

...

Dozens of people issued orders, and hundreds of players responsible for today's attack left the Tianhe Fortress and returned to the Eagle City.

The next day, noon, Spanish time.

In a villa on the outskirts of Barcelona, Alfonso was lying comfortably on a large bed. On him, he was a beautiful woman. In a happy voice, Alfonso lit a cigar proudly. .

He looked at the woman and said, "My dear, you are really beautiful. It is really a pity to marry Fernando."

With a happy look on the woman's face, when she heard this sentence, she expressed a resentful expression, and said, "It's not that I'm not complaining about you now, my heart already belongs to you, but Fernando is your most powerful subordinate."

The woman showed her weak side and wisely dumped the problem on Alfonso.

Alfonso showed a tough expression and said, "Well, if Fernan knows more about current affairs, he should give up on you. Otherwise, he will be the one vice president I promoted, and he can get him off in a word."

"My dear, you are so handsome." The woman stared at Alfonso with blurry eyes.

Alfonso was excited again, and just when he wanted to make the next move, a call came in.

Alfonso glanced at the call from Vice President Louis and pressed the hang-up button directly, muttering in his mouth, "Look at me for everything and don't look at the time."

"Dear, let's continue." Alfonso said happily, but as soon as the voice fell, the phone rang again when the woman rushed over.

Alfonso was furious, and pressed the connect button and cursed: "Are you stupid? I'm busy. What phone call can't you wait for a while?"

Vice Chairman Louis held back his anger and asked, "I ask you, where are you now?"

"Ask me what this is doing, and I am asking you what?" Alfonso exasperated.

Vice President Louis cursed: "What happened? Fernando rebelled. Just this morning, Fernando summoned more than 300,000 players and attacked the Eagle Fortress and Agave Fortress. All our supplies in the two fortresses were snatched by him. Now, he is continually convening players to preliminarily attack the Purple Lily Fortress. "

"He, how dare he do this?" Alfonso was furious. The eagle fortress was his frontline base for attacking the Tianhe Fortress. It was rich in materials and contained at least 30 million euros of war materials. The agave fortress was One of the three main routes into the eastern mountains must not be lost.

Louis said, "He said you stole his wife? Is there any such thing?"

Alfonso was speechless for a while, and flinched and said, "Where, where?"

"That's it?" Louis was furious and cursed: "Are you stupid, Fernando is fighting for you on the front line, you steal his wife behind, you do this, not only Fernando reversed, the hearts of other legions What do you think of you, how do guild players see you? "

Alfonso gave himself a slap and cursed: "I blame me for this, so I'll contact Fernando first to see if this can be explained."

Louis said: "Okay, you try it first. I'll gather players here. If it doesn't work, we will start fighting immediately to grab the fortress. We must destroy Fernando as soon as possible, otherwise we will be finished."

Alfonso nodded, and he hung up the phone to contact Fernando, only to find that Fernando had pulled him out, and he couldn't get through. He scolded and looked at Fernando's wife, Elsa, and said, "You call him, I want to talk to him. "

Elsa was already embarrassed. In her heart, never thought that Fernando would know about it. The plans of the two of them were very hidden. Every time when Fernando was very busy, she thought that Fernando had no time to accompany her. The excuse to go out and relax, has always been seamless, and he never thought he was discovered.

Elsa said fluently, "What should I say."

Alfonso said: "You lie to him first and say that there is no such thing between us, see what he says."

Ersha nodded, pressing the panic in her heart and dialing Fernando's phone. After two beeps, Fernando, who was leading the team in the game, gritted his teeth and pressed the connection key, cursing: "Damn woman, you dare Call me?"

Pretending to be calm, Ersha asked, "What happened? Why is there a rumor in the guild that you have betrayed and that I am with your boss?"

Fernando sneered and asked, "Isn't it?"

"Of course not. What does this have to do with me? I'm traveling outside. How can I meet your boss?" Ersha asked.

Fernando said furiously: "Is it in the manor in the countryside of Barcelona?"

Elsa was so terrified that he asked, "How do you know?"

After speaking, Ersha knew that it was broken, and Fernando also showed a last expression of relief, grinning and saying, "You and Alfonso's actions are very beautiful. The videos were recorded, and now I haven't Time to take care of you and wait for me to be free. "

“噫”

Fernando hung up the phone and turned to look at the more than 300,000 players around him and shouted: "Alfonso is a bastard. The whole army listened to my order and attacked the Purple Lily Fortress."

300,000 players have already known the beginning and end of this incident in private, full of sympathy for Fernando and anger at Alfonso, coupled with Fernando's two Alfonso supply bases, with sufficient funding support , Players are happy to die.

Of course, there are also many secret agents of Alfonso among these 300,000 people. They are broadcasting live and relaying the pictures to Alfonso and Louis in real time.

Purple lily fortress, in the conference room of the city's main government.

Alfonso was looking at the video gloomily, and sitting around him was even more angered by the vice chairman and investors.

Louis saw no one talking. He coughed and said, "I'll make a point about this first. Although Alfonso is wrong, now is not the time to discuss this matter. We must find a way to defeat Fernando, otherwise we will work hard. There will be major problems in operating the guild. "

Dozens of vice-chairmen and investors present here looked at each other.

"I agree with this view. It is just that Fernando betrayed. Lu Yang has not responded yet. If Lu Yang and Fernando are united together, then we will have problems." Vice Chairman Pierce said.

Alfonso was somewhat surprised by Pierce's words. Before he accepted the Pierce's guild, but deprived him of his real power, he gave it to an honorary vice president and remained idle. He did not expect Pierce to speak to him at this time.

Alfonso looked at the crowd and said, "This matter is over, and I will apologize to the guild players. Now we must invite everyone to join us, and we will go through the difficulties together."

Everyone saw that Alfonso said this, and it was not good to say anything. They responded. Soon, Alfonso led the team to attack, and gathered nearly 1 million players.

Unfortunately, Alfonso never thought that Fernando was so difficult. Although he defeated 300,000 Fernando in the wild, he could not destroy the other party.

In the positions close to the Agave Fortress, Fernando, like playing sports, took advantage of his own advantages and after removing most of the spies Alfonso ate a defeat, 1 million people. It was destroyed by more than 600,000.

"Damn, why is he so difficult?" Alfonso cursed as Fernando watched desperately fighting on the battlefield in the distance.

"This can't be dragged on. We should ask the G8 for help."

Alfonso shook his head and said, "No."

Louis said bitterly: "At this time, we can't think about shame. We can't mobilize more players. Fernando has our elite. It is difficult for us to fight against the elite players in his hands with ordinary players. Too much is just to equip Fernando, the more we lose the more we lose. "

Alfonso was meditating.

Louis continued: "At this time we pulled the G8 into the water and calmed down the battle as soon as possible, so we can gather these elite players back, or what will we fight against Lu Yang in the future?"

Alfonso sighed and said suddenly, "I'm calling Gerga."

Chapter 1306 - Siege Architecture

He took out the intercom and called Galgar. After two beeps, Galgar connected the phone, but what he said made Alfonso like five thunder.

"Dude, it's not that I don't want to help you. Just now Lu Yang sent us a letter. If we dare to send troops, he will attack our Komodo Fortress and Pink Fortress. I can't send troops." Galga said.

"Lu Yang joined in?" Alfonso exasperated.

Gelgar sighed and said, "Yeah, Fernando has got Lu Yang's support, and I can only help you financially."

Alfonso hung up the phone blankly. In the face of questions from Louis and others, he said the original words of Galga, and a lot of Spanish players were panicked.

"If Lu Yang followed the attack, wouldn't we be driven back to the eastern mountains?" Investor Pedro scolded.

Louis said: "No, Lu Yang cannot participate in the war. There is a group of eight nations by the side. Lu Yang dare not fight. Besides, he will not fight. Now it is time to fight equipment. No one will be willing to

participate in the war at this time. Besides, there are the Cavalry Regiment and Liu Jie in the central region and the north. “

“First think of a solution to the problem at hand, and be prepared to gather a large number of players.” Investor Pedro still said unhappily.

Alfonso was already very angry, but he didn't dare to get angry. He controlled 51% of the guild. But this time, he affected everyone, and he could only listen to others with his own head. Anger sound.

“Pierce, you go back to the city to lead the 177th to 227th Army to support, these people are all entrusted to you to command.” Alfonso said.

Pierce stunned, showing a random look of joy, and said, “Yes.”

Being able to obtain such commander authority proves that Alfonso wants to give Pierce a chance, and Pierce will certainly not miss it.

Soon, Pierce returned to the Purple Lily Fortress and brought 500,000 players to support. At this time, Fernando had just shown his downside.

On a high mountain not far from the Agave Fortress, Lu Yang and Tu Feng watched the situation below the city.

Tu Feng said: “It looks like Fernando cannot support for too long.”

Lu Yang said with a smile: “No more than a month, but this is enough.”

Time, what Lu Yang needs most is time. This update has a lot of content, one of which is the guild skills siege architecture.

The official statement is that for each level 20 increase, you can make a siege weapon and defensive structure. The most basic level 20 skill is the sentry tower, followed by the arrow tower, frost tower,

flame tower, lightning tower, and turret. Or a crossbow, trebuchet, flame trebuchet, artillery and dragon cannon.

The characteristics of siege architecture are that it does not require drawings, and only needs to learn the corresponding level of skill level to research and manufacture on its own.

The only trouble is the materials needed to make these things, some of which need to be purchased in the official mall, which is a lot of expense, and the other needs life occupation to collect, such as wood.

But these problems are not problems here in Lu Yang. He has money, and there are people. As for the person responsible for learning these skills, Lu Yang has already chosen.

Tu Feng said, "Boss, Pan Yuhang and the brothers of the Blood God Warrior Regiment have arrived."

Lu Yang smiled and said, "Let's go back."

Since Lu Yang will learn this skill of building a house for free to the brothers of the original cannon fodder group such as Pan Yuhang, now Pan Yuhang can earn 30,000 yuan per month in addition to his salary.

These people originally liked the Jagged Brotherhood, because Lu Yang's preferential policies were even more loyal to the guild. Lu Yang asked Tu Feng to pick out some of them. Now these people have arrived.

Tianhe Fortress, on the left wall.

Pan Yuhang and more than 500 players are gathering there, and everyone's face has an excited look. This is the first time they have returned to the fortress of the Jagged Brothers Alliance.

"Hey, I'm back, I can still see the boss, I'm excited." A player said.

"Our brothers fight, we can't drop the chain," someone shouted.

“Haha, absolutely not, and I won’t.”

...

There was a flash of light.

Lu Yang appeared on the city wall. Pan Yuhang and others saw Lu Yang coming and quickly walked over.

“Boss is good.” Pan Yuhang and others shouted.

Lu Yang looked at the excited expressions of Pan Yuhang and others with a smile, and said, “Sit down, don’t be constrained. I come to you this time, and I have a task for you.”

The spirit came.

“Boss, let’s just say, we can’t let go of what we can do.” Pan Yuhang said.

Lu Yang smiled and said, “It’s very simple for you. The guild will give you some money to help you upgrade the siege architecture level. Then, you will build the siege equipment for me full time.”

The 11 fortresses of the Group of Eight newly occupied by Lu Yang have few places to let go. The four fortresses on the front are within the attack range of the other side.

In order to strengthen the defense, Lu Yang decided to build a war fortress on each side of the fortress as a cover. The war fortress, as the name implies, is a fortress fully functioning as a war. The wall width of each fortress is half smaller than that of a normal fortress. It was covered with trebuchets and lightning towers. In this way, the defense of each fortress has increased several times, and it is no longer necessary to be attacked by the enemy.

After listening to Lu Yang's words, Pan Yuhang showed a hesitant look on his face, and said, "Boss, we can take this job, but the problem is that I worry that other people will also hire us to copy it. If we accidentally expose something, that's bad."

Lu Yang said with a smile: "You don't have to worry about this. Whoever wants to build siege equipment for you in the future, help them build as many as they want, I said."

Everyone looked at each other and did not understand what Lu Yang meant.

Lu Yang didn't explain. In fact, when the siege equipment was built, the war between the two sides was no longer a player's battle. Even if the opponent knew what weapons they had, they could not easily attack the war fortress.

Especially when the skill has learned level 160, when it is possible to make a flame trebuchet, the six fireballs thrown by a trebuchet will fall within 10 meters of the attack range. Within these 10 meters, the 160-level gold shield will die.

If you want to come in, you must either ban the spell from a long range, or attack with more long-range dragon cannons and artillery vehicles. Therefore, in the next period of time, the war will enter a deadlock phase. You want to drive out your opponents in a war like before. The situation on the map will hardly ever happen again.

Pan Yuhang said: "Boss, let us listen to you, you say we don't do it."

Chapter 1307 - New legion

Lu Yang took 500 professional life players such as Pan Yuhang to the guild headquarters of Chiyang City, found the guild leader NPC, and learned to build siege architecture.

After they have learned their skills to level 120, Lu Yang said, "To build all the artillery vehicles, at least 10,000."

Of the 10,000 artillery vehicles, 8,000 were displayed from the Ralbagh Fortress to the Tianhe Fortress, and the remaining 2,000 were placed at the Tianjian Fortress.

After receiving the mission, Pan Yuhang and others immediately ran to make it. Lu Yang once again convened his players. Another month passed, and Lu Yang received a second payment, a total of 3 billion cash. He still followed 4: The ratio of 3: 2: 1 was distributed to the players in the four areas.

Among the players in the Jagged Brothers Alliance, this time they benefited from the Starbreaker Archer and Blood Oath Shaman. 20,000 people have all raised their practice to level 10. Then, the 3 billion will be spent.

Lu Yang scratched his head and said, "It's really expensive."

People such as Zhuojiu and White Lion nodded. At this moment, their hearts were not peaceful. Lu Yang didn't spend much money because there were so many guilds like him.

Lu Yang looked at the crowd's expressions and found that they were all depressed, and said with a smile: "Don't worry about me, there is no problem with this money. Let's make a copy and take advantage of Fernando and Alfonso's victory Negative, collect the dark gold cover of level 150 as soon as possible. "

The crowd nodded, and the party went with Lu Yang to make a copy. This one was half a month. When the 16th day of July, when Lu Yang came out of the copy, 300,000 Chinese players' dark gold sleeves were set. It's all assembled.

At the same time, bad news came over, and Tu Feng said: "Fernando was still defeated and Alfonso was eliminated in the Eagle Fortress. He can now only fight a guerrilla war with a small number of people."

In the past half month, Fernando called for help more than once. Unfortunately, Lu Yang never wanted to help Fernando, he just used Fernando to hold Alfonso.

Lu Yang sneered and said, "It has delayed Alfonso for more than half a month, and now Alfonso is no longer capable of playing against us. Without the G8, I can now take him back to the eastern mountains."
."

There are 300,000 people here in Lu Yang, 300,000 people in India, 200,000 people in South Korea, and 100,000 people in the Nine Star Alliance area, all of them are equipped with 150-level dark gold sets.

Alfonso's elite players mostly stay at level 147, because the battle with Fernando is too large.

Zhou Tianming asked: "What shall we do next?"

Lu Yang said: "Continue to upgrade and fight equipment, without my order, war is prohibited."

"Yes." Everyone should arrive.

Soon there will be a battlefield for 10,000 people. Lu Yang has no time to waste on the battle, but Alfonso does not want to let Lu Yang stop. He already knows that it is Lu Yang's video to Fernando because a video caused him blood loss. This made Alfonso extremely angry.

When Alfonso was about to destroy Lu Yang with the G8, he discovered that each of the four fortresses from the Lalbagg Fortress to the Tianhe Fortress had two additional small fortresses. With a gun vehicle with a range of 5,000 meters, if you want to attack these forts, you must first solve the gun vehicle.

There are only two ways to solve the artillery car, one is to use the artillery car to bomb, and the other is to gather a large number of millions or even tens of millions of players.

In the case of a large amount of investment in a small number of players to learn and practice, the materials and funds of each guild are very scarce. Alfonso has experienced internal disturbances and cannot mobilize tens of millions of players in a short period of time.

The same is true of the Group of Eight. Galga and Alfonso looked at the eight war bastions in the area where Lu Yang was located. They could only sigh with regret, and went back to upgrade in depression.

Lu Yang was originally worried that the two men could not think about it. He did not expect to retreat so easily, which made him full of confidence in his war fortress.

“Continue to upgrade. The existing 300,000 people will be upgraded to 155 within one month.” Lu Yang said to all vice presidents.

In order to upgrade the equipment for the main force, this time, the elite players of Lu Yang did not put the dark gold sleeves they kept in the guild warehouse after matching the 150 level dark gold sleeves, but all of them were saved, waiting for the next run Ring mission.

The 300,000 people were full of desire to upgrade. With the full support of Lu Yang, they quickly started to run the ring. For a time, the elite of the entire Iron Blood Brothers League was busy again.

When the spies of the major guilds around the world learned of the Brotherhood of Iron and Blood, they felt that Lu Yang was crazy, and no one dared to slacken, and desperately upgraded the elite players.

Just when the crowd was exhausted by Lu Yang’s toss, on the other side, Lu Yang found his relatives and friends. Among the 300,000 elite, 100,000 were formed by children of relatives of the Iron Brotherhood Legion.

These 100,000 people have been hidden and upgraded by Lu Yangxue before, thinking about using it as a surprise soldier in the decisive battle with Liu Jie, but in the current battle, Liu Jie has not even gotten the Cavalry Regiment. There is a gap between the two. The strong guild could not face each other in a short period of time, and the Group of Eight and Alfonso Group were pressing harder. In addition, the reform of the game system led to Lu Yang’s decision to expose them in advance.

These 100,000 people have no three-blooded blood so far, and their career direction is the top 10 occupations of the common Elf tribe. The leader of the thief occupation is Jiang Ze’s cousin Jiang Chen.

“Brother, what are you looking for?” Jiang Chen was called to the office by Lu Yang and asked curiously.

Lu Yang asked with a smile: “Listen to Master Han Zhong, your kids have finally made some achievements, haven’t they?”

After more than a year of rigorous training by Han Zhong Finally more than 100,000 children, only more than 30,000 survive, and subsequent children have come to participate in training, which barely made

up 100,000, but These 100,000 people are elites. No matter what the response speed, toughness, or endurance, ordinary elite players can't compare.

Jiang Chen shook his head proudly and said, "Don't underestimate people, we are masters recognized by Master."

Lu Yang said, "Is that so, I'll give you a task, do you dare to do it?"

"What task?" Jiang Chen's eyes were all bright. The formation of the large army was more than a year ago, but he did not catch up with the first battle. Later, when the level reached, he was not allowed to participate in the battle.

"We can do it." Jiang Chen said it before Lu Yang said.

Lu Yang said with a smile: "It will be online for a while. Every 10 people go to Tianyu No. 3088 Bookstore. There are hidden tasks. Your level is up. If 10,000 people can complete it, even if you complete this assessment."

"Look at it." Jiang Chen ran out in excitement.

Chapter 1308 - Corsair Battlefield

This is a blood thief transfer task for a thief, and anyone who can complete this task will get a blood fruit called divine grace.

This bloodline fruit is very special. He has no bonus to regular attacks and does not have much bonus in skills. What he adds is the ability to survive after being attacked and the explosive power in continuous attacks.

His attack crit damage is 27 times the crit!

This is already very scary. Compared to his survivability, he has a special skill called Demon Disintegration, which is used every 8 seconds. When attacked, he can break down the body and become invisible. It appears randomly when combined. Within 1 meter of the place.

In the last life, players didn't care about this skill at the beginning, but it was later discovered by a certain thief-level player and used in combination with several other evasion skills. The show's pure output class at the same level couldn't beat the opponent.

At this point, another tortoise genre was born, but this tortoise genre did not lack any spectacle when fighting, because he relied on the extreme reaction speed to avoid skills, but such a battle is pleasing to the eye.

Think about it. An ice mage's limit erupts for two minutes. The standing position of the thief is as dazzling as the fireworks burst into the air. But when the skill is over, the thief has not lost a drop of blood. What a shock.

Fighting with players is like this, even more so with fighting monsters in an instance. An elite divine thief can replace the defense at critical moments and dodge the Lord's monsters infinitely within 2 minutes.

Not only that, this class has another role. There is a bug in the upcoming battlefield, and only this class can be used.

Half a month later, all 10,000 thieves completed their transfer duties. At the same time, the official opening of the new expansion pack "Global Battlefield".

"Global Battlefield", any player can participate, each battlefield 20,000 people, 10,000 on one side, as long as the personnel are available, you can participate in the battle, and the way to participate in the battle interface in the upper right corner and click apply.

Originally, many ordinary players could only watch large-scale guilds organized by other super guilds, but now they can also join them through "Global Battlefield".

What is even more exciting is that the battlefield rewards are extremely rich. One point can be exchanged for 1,000 experience points. Usually a battle will give 1000 points, which is equivalent to a battle giving 1 million experience.

If the points reach 300,000 points, it can be exchanged for regular blood fruit and three-turn skill books.

Jagged Brotherhood, inside the guild.

Zhou Tianming said excitedly: "Boss, my brother's level has reached level 157. How about the battlefield that took me to my brothers?"

"Mine is also at level 157, and I want to go too." Said bitterly love and excited for half a life.

Tu Feng looked at the crowd and found that everyone had the idea of fighting the battlefield. He smiled and said, "I remind you that the road to battlefield is not as easy as you think."

"Is there anything wrong?" The White Lion asked.

Tu Feng said: "As early as the news of the battlefield was released, the chiefs of the major super guilds in the central region issued words to make us look good. We must have joined the war as a legion. Be careful, the official has AI intelligence. Match, we have a great chance to match those guilds that are also participating in the army. "

"Who is so crazy?" Tian Yao and Zhou Tianming and others asked in unison.

"Sultan Mustar, Lewis of the United States, Japanese beauty killer Chizuru and Switzerland's Braun and others." Tu Feng said.

The cute queen asked curiously, "Where did these people come from, haven't you heard of it before?"

Tu Feng said: "All of them have just recently risen. The emergence of cultivation has made many super-guilds with insufficient money decide to accept foreign capital investment, which has led to a new round of war and merger. Except for the northeast region and the G8 region in the middle, other regions are in melee. These are the most powerful guilds of recent victory, because their wars are always compared with us by players, anchors, and officials. People are called the next Zhou Tianming, the next Tianyao, and the next muddy wine. These people are very angry, and they want to find these masters. "

Mud wine: "..."

Tianyao: "..."

Zhou Tianming: "..."

The bitter love half-heartedly depressed: "Why is nobody like me, am I not famous enough?"

Tu Feng: "Uh, I have you too."

"It's pretty much the same," bitter love said with satisfaction for a long time.

Lu Yang said with a black line on his forehead and said with a smile: "If you run into it, fight, but fighting with them is not the main thing. Come with me, I know a bug, you can quickly use the battlefield points."

"Bug?"

"Brush battlefield points?"

...

Everyone was shocked, and an excited expression appeared on everyone's face.

“How to fight?” Xia Yuwei asked.

Lu Yang said, “Come with me. I will take you to fight. Each vice president of war chooses 98 people to come and follow me.”

“Yes.” Everyone was ready to go.

Lu Yang called on the phone and called Jiang Chen and Tianhui, the deputy leader of the Thien’s Thieves Corps, who is Tian Yao’s cousin.

Ten minutes later, 10,000 people gathered. Lu Yang chose the army mode and opened the queuing interface. Just 30 seconds later, the system prompted.

System prompt: battlefield is about to start, whether to enter

Lu Yang looked at the players on the field and said, “The whole army came with me and we went to the battlefield.”

“Yes ~!” Ten thousand people shouted in unison.

A flash of light flashed, and 10,000 people entered the battlefield with Lu Yang.

Lu Yang looked around. Sure enough, the battlefield is still the same as the previous one. So far, there are 5 battlefields officially. The battlefield chosen by Lu Yang is called the Pirate Captain.

The Pirate Captain map is a shallow beach map. A pirate ship with 500 artillery on each side is stranded in the middle of the shallow beach with 10 pirates standing on it.

There are three roads on both sides of the pirate ship, all of which are shoals. Players use these three roads to launch attacks. Each road has a defensive tower at the starting position. The condition for victory is that either side first defeats the other three defensive towers to win. At the same time, for every defense tower destroyed, the attacker’s attributes increase by 5%.

Normally, it is very difficult to destroy these three defense towers. After all, the strengths of the two sides are not much different. However, if one party reaches the middle of the battlefield first, whoever boarded the pirate ship first and occupied it for more than 1 minute will get the pirate captain's help.

Therefore, battle often has a decisive effect on who first occupied the crystal tower. The bug that Lu Yang said is the bug that occupied the pirate ship.

Lu Yang stood in front of the defensive tower in the middle. There was a space enchantment here. The role was to wait for the players to enter the battlefield before the battle between the two sides. The waiting time was 2 minutes.

He said to Jiang Chen and Tianhui around him, "Use the demons to disintegrate into the space enchantment and jump out of this space."

"It's still possible, I'll try." Jiang Chen said excitedly.

Chapter 1309 - Olma

"The Demons Disintegrate"

Jiang Chen fired his skills. His short body suddenly exploded with a black light, and then his body spread apart as if torn apart. In the next second, the black light gathered toward the outside of the enchantment.

"唰"

It was another black light. Jiang Chen appeared outside the enchantment and was less than 20 centimeters away from Lu Yang, but at this time the two were separated by an enchantment, just like a heaven.

"Haha, brother, I succeeded!" Jiang Chen shouted excitedly at Lu Yang, waving his arms.

With a smile on Lu Yang's face, he said, "Go, quickly get to the pirate ship and start boarding 30 seconds after the war begins."

"Well?" Jiang Chen scratched his head and asked, "Don't you get on the boat immediately? Why wait a while?"

Lu Yang said with a smile: "Stupid boy, isn't getting on the ship to let the enemy know that we have used a bug? Keep a low profile and let the other side think that we have used any special acceleration method. Do not let them find that we have used a bug. "

"I'm still scheming, and I'll go too." Jiang Chen ran away.

Lu Yang had a black line in his forehead, and none of the boys of the Second Ancestor Corps didn't hide their skin, making him a headache and a favorite.

No way, they are all formed by the relatives of their closest players. From the beginning of the formation, Lu Yang treats them as brothers and sisters.

Jiang Ze stood aside, his face full of helplessness, and said to Lu Yang, "I'll pack him when you go back, don't ignore him."

Lu Yang laughed and said, "It's okay. I like them to be so close to me. Don't say this. Who is the enemy opposite us?"

Qing Qian Zimen emerged from the side and said, "Retrieved by name, it is Olma, the president of Sultan Tangelos Guild. He personally took the vice-president Balgda and the elite players of the First Army to the battle. of."

Lu Yang was happy and said, "The enemies have a narrow road. We will pack up and clean up a while."

"Boss, hate?" Asked Zhuzhuo.

Lu Yang nodded and said: "Deep hatred, they hit me hard."

In the last life, among the several enemies who bullied Lu Yang, there was Olma. At that time, the New World had just entered the 200-level era. Lu Yang took the Guild to the 200 level with the guild spirit, and quickly found a copy of the equipment.

Relying on the support of the British consortium behind, Alma monopolized the 200-level map of his area and prohibited any players from playing copies. Anyone who wants to make copies must pay the protection fee.

Where did Lu Yang and those people have the money to pay for protection? They could only enter quietly, but were attacked by Olma's men many times. Once, Lu Yang's demon heart was almost destroyed, which made Olma personally shot Lu Yang.

For almost a month, Lu Yang was avoiding Olma's attack, making him embarrassed, and his ranks were all beaten back to level 198, which is a level 200 experience, and dropped more than 1 level.

Lu Yang was forced to run to other places with a lot of effort before he was promoted to level 200, but he was not able to get revenge on Olma at that time, and finally got a chance in this life, which made Lu Yang very Happy.

[Battlefield Channel] Olma: Hahahaha, President Lu Yang, it's really interesting. I did n't expect that we would meet here. Let me see what you can do today.

Artifacts such as the heart of the demon are not allowed on the battlefield. Although they are carried, they are displayed without adding any attributes. Therefore, at this time, each player is equal.

"Boss, this kid is crazy." Bai Lang said angrily.

Lu Yang smiled coldly.

[Battlefield Channel] Lu Yang: What is your ranking in the world? Are you qualified to say this?

Olma has not participated in personal warfare before, because before that, he was also the president of a poor guild and was unable to purchase level 160 sub-artifacts.

Thanks to this capital invasion, Olma successfully found a British gold medalist. This wealthy chase invested 1 billion euros in his guild, which made Orma a top guild in one fell swoop.

Olma has always been dissatisfied with Lu Yang. Every time he sees the world's number one, Lu Yang makes him feel angry. He has despised Lu Yang more than once in the guild, and has repeatedly expressed disdain for Lu Yang. This meeting made him excited. Lu Yang's start provoked Lu Yang, but he did not expect to gain a question like Lu Yang.

Indeed, in the world rankings, he has no place at all!

[Battlefield Channel] Olma: Lu Yang, I will let you know how my strength is. I have the courage to challenge me in the middle circle.

Lu Yang was happy and said, "Orma, you want to fight with me. You will be in the top 10 in the World Individual Championship. Let's talk about it. No. 11 is not qualified to challenge me directly. Where do you qualify?"

In this life, Lu Yang had such arrogant capital. In the previous life, Lu Yang was helpless to Olma. In this life, he could press Olma to the ground.

"Damn Lu Yang, you will taste the pain of failure, you wait for me." Olma was already furious.

System prompt: The battle starts in 5 seconds, countdown

“Brave soldiers, destroy enemies on the other side and break their supply station.” A loud command sounded in his ears.

Lu Yang said loudly: “10,000 people are divided into three parts, with 3,000 people on each side and 4,000 people in the middle. Attack.”

“Yes.” Zhuojiu and Tianyao each led three thousand men’s regiments towards the left and right sides, while Lu Yang personally directed the four thousand men’s teams Xia Yuwei, White Lion, Half-Life, and Cute Queen towards the middle. Run away.

He sent a message to Jiang Chen and said, “Get on board.”

“Yes.” Jiang Chen responded. He looked up at the warship more than 30 meters high, and jumped onto the ship.

“Who?” A pirate wearing a green sailor turban pulled out his sword and pointed at Jiang Chen ha ~ ha ~, don’t get me wrong, I’m here to explore the road. Jiang Chen quickly raised her hands and said she was harmless.

The pirate looked back at the one-eyed dragon pirate captain and said, “Boss, what can this man do?”

Pirate Captain Rose stared at Jiang Chen and said, “Since you are the first to jump on the ship, it represents your strength. If you can seize this ship for 1 minute, we will choose to help you.”

Jiang Chen took off his hat and said, “Thank you.”

He walked to the top of the three-story ship and looked at the front and back sides. From his position, he could vaguely see the overall situation in the field. Lu Yang and Olma were running towards the pirate ship with all their strength.

Omar was already furious, he kept urging: "Run as hard as possible, give Lao Tzu to run as hard as possible, win the pirate ship, and each person rewards the guild with 2,000 points."

"Yes." The crowd shouted excitedly, but they didn't know it, and a massacre was about to begin.

50 seconds

Orma watched the pirate ship less than 100 meters in front of him. The 30-meter-high ship board was as if he could reach it. He shouted, "The first and second thousand men rushed into the warship. We first control the warship with the number of people, and the others go around the sides of the hull and attack the Brotherhood of the Iron Blood. "

"Kill ~!" The Sudanese player roared.

4,000 people rushed towards the battleship, but as soon as they were 50 meters away, a head burst out on the deck.

Orma was looking at the pirate ship, and saw the sudden appearance of a human head, his face became extremely ugly.

“No, someone from the Jagged Brothers Alliance got on the ship first and rushed back.” Olma shouted.

The top of the ship.

Jiang Chen laughed and said, “Orma, it’s late ~!”

Pirate Captain Rose appeared beside Jiang Chen, pulled out his long knife with his right hand and pointed forward, shouting: “fi

e ~! “

The side of the side facing Omar suddenly exposed the muzzle of five rows of black holes. Each row had dozens of cannons. Almost at the same time, hundreds of cannons fired at the same time.

“boom”

“boom”

“boom”

...

The attack range of the artillery is the full map, the range of the ground explosion is 50 meters, and the damage of each gun is 500,000. At such a short distance, almost everyone in the Sudan was attacked by 4 guns at the same time.

In the first round of attacks, all the Sudanese players within 100 meters of the pirate ship were destroyed, and nearly 1,000 people were killed in seconds.

Omar looked at the pirate ship in stun. He never thought that the pirate ship's attack power would be so high.

"Damn it, rush up and grab the battleship while the artillery is loading." Omar shouted.

Thousands of Sudanese players rushed forward, but just after they rushed under the warship, the players of the Brotherhood of Iron Blood showed their heads on the top of the ship.

"Iron brothers, kill ~!" Xia Yuwei, bitter half-life, White Lion and Jiang Ze shouted in unison, holding the flags in their hands.

"How could this be so fast?" Omar stared at the rushed Brother Brothers players dumbfounded.

What he didn't know was that just before the first round of artillery fire, the big brothers of Iron Brotherhood and Omar were as far away from the pirate ship, but after the artillery fire hit, Omar players close to the warship were killed, It was at this time that Lu Yang rushed to the warship with players from the Brotherhood of Iron and Blood.

Lu Yang stood at the bow and looked at Omar below, saying, "You lost."

"Lu Yang, you wait for me, this is not the end." Omar hurled and hurriedly organized his formation.

It is a pity that no matter how he organizes it, and under the circumstance of artillery suppression, as long as someone dares to gather together, Omar players will be attacked by artillery. In desperation, most people can only fight for themselves.

On the other hand, the side of the Jagged Brothers League is a group battle mode of a team of 20 people, and the two sides make a verdict.

After the player is killed in battle, he will be teleported to the base necropolis of the base. From the necropolis, he will run to this place for a minute.

In just 2 minutes, 4,000 people in the middle were killed by Lu Yang. In the battlefield, the killing can get extra points, but it needs to be multiplied by a factor. When the final settlement is made, it is given to the player.

When Lu Yang remembered the settlement, killing 10,000 times gave him one more point, which was not suitable for the Jagged Brothers League.

Lu Yang stood on the top of the ship and looked to the left and right wings, and found that Tianyao and Zhuojiu played well on both sides. He didn't need to help him. He said to the captain: "The artillery is aimed at the other side's defense tower and blasts."

"Okay." The captain of the pirate issued an order, and hundreds of cannons on the side aimed at the tower on the middle of Olma.

"boom"

"boom"

...

After a burst of artillery, in less than 2 minutes, the defense tower was destroyed and Olma was broken all the way.

Lu Yang continued to command the attack on the two-wing turret. Five minutes later, Olma's two-wing turret was also broken.

System prompt: Lu Yang's team won the battlefield victory

Earn 1008 points

“Haha, it’s easy to win.” Shouted bitterly for half a lifetime.

People like Xia Yuwei and White Lion are also excited. Normally, such a battlefield can be played for a minimum of 40 minutes, and a maximum of 2 hours cannot be ended, but Lu Yang took them 10 minutes to complete a match. .

“According to this speed, shouldn’t we get points faster than other guilds.” Tian Yao said.

Lu Yang smiled and said, “Let ’s take our team separately. First of all, let us 300,000 people assign God Assassins. Remember, no one is allowed to see how we use the bug. If it is found, this bug It will be fixed soon, so we can’t use it again. “

Everyone nodded to understand that after they were dispersed, they started teaching each team how to use the bug. Within a day, 300,000 brothers in iron blood entered the mode of fast credit.

Not only were the Jagged Brothers Leagues being brushed up, but the major guilds in the New World were also brushing up. Players also ran into the battlefield. For a time, the field map personnel were scarce.

Players with guilds have fought battlefields in the form of guilds. Without guilds, chat groups have been formed, and masters command them to fight the battlefield together.

In such an era when the whole nation fought the battlefield, no one noticed the sneak action of hundreds of thousands of brothers in the Jagged Brotherhood.

Of course, what is even more unexpected is that such a chat group-like fighting organization has been infiltrated by some people, and in the form of command, these people are firmly gathered under their sire.

For more than a month in a row, the time has come to September, and the Brotherhood of Iron and Blood has achieved a bumper harvest.

Take the team led by Lu Yang as an example. Play an average of 14 hours a day, you can play 10 battlefields per hour, and you can get more than 84,000 points every day.

In a month, it is more than 2.5 million points. Using 300,000 points can be redeemed for 1 bloodline fruit. The 300,000 people who are brothers of the iron blood have redeemed the fruits and can save 2.2 million points.

However, Lu Yang did not let them buy fruits, but let them exchange them for experience points, 1 point for 50,000 experience points, more than 2.5 million points, enough for the 300,000 players of the Jagged Brothers Alliance, each of them improved by 5 Level, all staff rose to level 161.

“Boss, what are we going to do next? Is it equipment or attack Alfonso?” White Wolf asked.

With a smile on Lu Yang’s face, he said, “Go to the equipment first, and when the equipment is all in, we will formally attack Alfonso and completely destroy him.”

Everyone laughed.

Lu Yang turned his head to look at the map. Judging from the current situation, he needs to launch an attack early to kill Alfonso. In every exhausted period of the game, war is the best solution. Lu Yang knows that he is making a big move, next time The joint attack must be directed at itself.

Chapter 1311 - Time and Space Elf Mage Bloodline

As for the level 150 dark gold set, they just hit the level 160 nightmare difficulty copy, which is a very difficult thing, because the related level 160 skills, cooking, potion, and enchantment are not available.

Without these things, it is equivalent to 18% less attributes. It is difficult to beat all the attributes of the original copy of the nightmare. Without these 18% attributes, it is almost impossible to play. However, Lu Yang has His exclusive method, this method is in a regular bloodline.

Lu Yang said to the bitter love half-life and Zhuo Jiu who were present: "Call your two cousins, and I will tell them how to transfer."

"Yes." The bitter love half-life and Zhuoshu quickly took out the phone. Both of them looked at the other things very lightly, but they paid great attention to the family.

Soon, the two little guys walked in excitedly. One of them was taller, called Lu Yuming. He was a cousin who loved half a life. The other was short, but stronger, and he was a cousin with muddy wine.

"Boss," the two said together.

Lu Yang looked at the two with a smile, and said with satisfaction: "In the evaluation of Master Han Zhong, the two of you have the fastest reaction speed, so I give you this special blood transfer task."

This special bloodline is called the space-time elven mage, one of the five top bloodlines of the space-time department, and the completed method is hidden in the upper roof on the west side of the heavens, dedicated to the **** of space-time elves Saibestim.

The way to do this task is also simpler, but Lu Yang promises that there will never be any player to try it, because the way to start this task is to kneel in front of the **** Sebastian, and hold three heads!

Games, games, who can give the characters in the game three heads, not to mention kneeling and worship are long gone, and still scratching their heads, this is an insult to modern people.

In the last life, even if it reached level 180, this task in the game was not discovered by too many people. Even the masters of the major guilds responsible for finding hidden tasks passed by the icon of Sebastian. bow down.

When it was discovered later, the players were exclaimed that it turned out that such a top-level blood task was where they had gone before, and they didn't find it!

Unfortunately, it was too late at this time, and the limit of this task was 10,000 people. Don't need more than one. It just so happened that there were 10,000 elven wizards in Lu Yang's Second Ancestor Corps. They had no blood.

Lu Yang changed his dress, took the two of them into the west side of Tianyu, took the elevator to the upper rooftop, and just stopped, he saw various temples and idols on the second floor rooftop.

Among the many temples, a temple that looked no different from other temples was found by Lu Yang turning left and right.

System prompt: You have found the Temple of Sebastian!

Lu Yang took the two of them in. The temple was not very large, and there was a 3-meter-high idol opposite him. He was the idol of Sebastian.

Meet in the game, many players can reach more than 3 meters in height, this idol appears very ordinary in front of them.

The idol itself is just a white plaster sculpture, and the text beside it describes the introduction of the great **** Sebastian, only saying that this is a sprite **** of time and space, and said nothing else.

This introduction is very common. As a hidden task, he is exactly the same as the introduction of other temples. The purpose is to prevent players from easily finding it.

Lu Yang said to Lu Yuming and Huo Zong, "Got your head, give him a head, and you can start the mission."

Lu Yuming: "..."

Huo Zong: "..."

If it wasn't for Lu Yang to say it himself, he would be told to do so by anyone else, and they both wanted to hit someone.

This is too ridiculous, it turned out to be a gimmick task, but this task is like this. In the official records of the previous life, the cause of this task is described in detail. This made the great God of Sebastian very sad, but he was not a **** who likes to give believers divine power at will.

In order to ensure that every believer believes in him sincerely, he sets this rule. Once he bows reverently and holds three heads, he only recognizes the belief of the other party, and then grants the other party divine power.

Lu Yuming and Huo Zong knelt on the mat and flung three heads.

"Boom"

"Boom"

"Boom"

When the three heads were finished, when the two looked up at the idol, suddenly, the two bodies burst into a fiery burst of time and space.

System prompt: Congratulations to player Lu Yuming for transferring to becoming a sprite wizard

System prompt: Congratulations to player Huo Zong for transferring to becoming a sprite mage

Lu Yuming and Huo Zong looked stunned at Lu Yang. Lu Yuming said: "Boss, this is a successful transfer."

Lu Yang smiled and said: "You still need to complete a follow-up task, go to the temple worship next to him, and he will tell you that the skill book task is obtained. With the skill book, you will be transferred.

A special setting in the game, the simpler the transfer, the less skills given, the more difficult the transfer, the more skills given.

The transfer of time and space wizard is so simple, but one skill is not given. To get the bloodline skills, you need to complete the follow-up tasks from the temple sacrifice.

"Let's go now," Huo Zong said.

Lu Yang shook his head and said, "You first brought your 10,000 brothers here to transfer jobs in batches. Remember, don't let others find out. If you find out, all this will be in vain."

Lu Yuming scratched his head and said, "Boss, but how can 10,000 people divide the batches, they can't come here in a day without being discovered."

Lu Yang said with a smile: "Silly boy, who made you complete in one day, between three days and a week, I give you plenty of time, remember, if someone passes by the temple, you should not even go in."
"

They nodded.

"Go, I have other things." Lu Yang motioned for them to leave.

Lu Yuming and Huo Zong nodded and left.

Lu Yang flew back to the main city of Chiyang City using the scroll scroll and found Tu Feng and Qing Qian Zimeng who remained there.

"Boss," the two stood up and said.

Lu Yang motioned them to sit down and said, "What you are saying today is top-secret. You two can't raise a half sentence."

Tu Feng and Qing Qian Zimeng looked surprised.

"Boss, let's talk, we both know the importance." Tu Feng said.

Qing Qian Zimeng nodded.

Lu Yang said: "The fastest use of Alfonso is two weeks later, the slowest, and it will not exceed three weeks."

"So fast?" Tu Feng asked in surprise.

Lu Yang said: "Yes, but before I fight, I need to mess up the Group of Eight, the Cavalry Regiment and the central area, launch your spies, and mess up the three surrounding groups."

"Yes," Tu Feng said.

Chapter 1312 - G8 chaos

It is not easy to attack Alfonso, and not to mention the 160-level story strange that is defended on the dangerous map along the way, the surrounding Group of Eight and the Cavalry Regiment alone will not let them easily win the Eight Kingdoms. Group area.

In such a large area, the number of players in Alfonso's hands is more than 200 million people, and the money obtained every day is calculated in billions.

Among the many top guilds, if only based on the financial resources of the guild, Alfonso would recognize the second, and Lu Yang would not dare to recognize the first. It is because there are no powerful enemies in his area, and there are three who can rest assured as long as they hold Enjoy the fortress.

Why didn't Alfonso get the three fortresses of Bingshen, Purple Lily and Agave, and he didn't want to go forward because his urgent goals have been achieved, and with the exit, he can call anytime he wants, and never have to be controlled by others. .

Without restraint, he could not attack outside, and naturally began to enjoy themselves, which is why Alfonso sought Fernando's wife.

Extravagant life, although only two months, is enough to erode a person's mind and let him give up such a life, Alfonso can not do it, so the entire Spanish Kings League Association has fallen into an inexplicable Decadent.

The 300,000 and 160 players in Lu Yang's hands are enough to wipe out any forces of equal strength in the surroundings. The reason he chose Alfonso is that this guy is best to clean up.

"Order the spies hidden in the G8 to create suspicions between Kerim, the Blood Butcher, and others like Galga and Pradan." Lu Yang said.

There were problems within the G8. The original five guilds, such as Gelgar and Pradan, did not fight Lu Yang. After the three of them failed to fight Lu Yang, they asked for a merger.

Although the merger was successful, the war between them and Lu Yang was repeatedly defeated, which led to a gap between the eight presidents within them.

As the leader among eight people, Galga has been working hard to make up for this suspicion in order to gain a foothold in this chaotic area. Korim and Daniel are not pleasing to the eye.

In the last one or two months, the three of Kerim didn't feel strong, but their men were frequently insulted by five other guild players, and even almost had a private fight.

The presidents on both sides came forward to coordinate the settlement, but after the coordination, the actions of the two sides made the chiefs of Kerim very dissatisfied because they were deducted three months of bonuses.

After Lu Yang knew this, he immediately ordered Tu Feng to send people to contact these legionnaires. Three of them were bought through and were willing to surrender.

These three people recently received a large amount of money from Lu Yang. At the same time, Lu Yang also received first-hand intelligence from the Group of Eight, which corroborated the intelligence sent by Tu Feng's earlier spy, which proved that the three were Real surrender.

Tu Feng said, "Okay, I inform them."

He sent a message to the three and agreed to meet each other.

Lu Yang said, "You two go out and do something."

Qing Qian Zimeng asked curiously, "Boss, what should be done over the cavalry regiments, don't you need me?"

Lu Yang glanced at Qing Qian Zimeng and smiled.

Tu Feng stared at Qingzi Meng, and said, "Don't ask."

Qing Qian Zimeng's response came, and he quickly lowered his head and said, "I forgot, boss. Goodbye."

Lu Yang shook her head with a smile. His female subordinate was still not mature enough. Although Lu Yang knew that Qing Qian Zi Meng was kind, there were some top-secret things that she should n't ask and definitely could n't ask.

There was news from Xue Yiming of the Cavalry Regiment. Liu Jie did not know how to obtain the support of Torremolds. Therefore, the current Cavalry Regiment has become a mess. Once Liu Jie launched an attack, the Cavalry of the Gods Mission is gone.

Lu Yang guessed that Liu Jie's attack was also recent, which is why Lu Yang was anxious to lay down Alfonso. Only by winning the mountainous area in the east occupied by Alfonso would Luyang have enough funds to enhance the strength of the guild.

Lu Yang looked up into the distance, he knew that the chaos in the New World had begun again!

In the evening.

In the morning in the UK, Orange Light Fortress.

The new 140-level fortress Orange Light Fortress, located between the hot rain fortress, hurricane fortress, and quicksand fortress, is one of more than twenty fortresses jointly constructed by the Group of Eight.

However, his special geographical location led him to become the * of this battle. The most special place is that he was originally a cross between the five guilds such as Gerga and the triad of Kerim.

The quicksand fortress is from Pratumam Bengal Tenjin, the hot rain fortress is from Korim, and the hurricane fortress is from the blood butcher.

At the beginning, in order to improve the cohesion of the eight guilds, all the 140 fortresses were jointly invested and constructed by the eight guilds. Players of the eight guilds had the right to enter and exit at any fortress and arbitrarily fight monsters.

His original intention is good, but bad is bad. In this kind of good intentions, Pradan defeated and hated Daniel in succession, and his players even had opinions on the three.

The orange light fortress was in chaos from the beginning of its construction. Originally, this fortress was relatively close to Daniel and the blood butcher. The three of them gathered in the orange light fortress more, and Pradan had fewer people and picked problems. When you can't get cheap.

This time, Pradan's dozens of players, combined with many elite players in the other four guilds, decided to ambush Kerim's guards.

The 150-level map outside the orange light fortress, more guards under Kerim are working together to kill a lord monster. Seeing that the lord monster's health has dropped to 20%, just when they saw hope suddenly a burst of arrows and overwhelming magic were shot in the forest in the distance.

In just one moment, Kerim's guards were dead and wounded. Only a few thieves reacted and hid, and all other players, including the Paladin, were killed.

The guards and thieves were looking angrily at the people who came over in the distance, but when they looked closely, they found that they were the people of Pradan, and they were furious and shouted angrily in the guild: "Brother Come and help us, the **** under Pradan actually attacked us, more than a hundred people. "

What is the most hateful thing about playing a game is that watching the boss killed him makes others rob, the anger cannot be described in words. Only by killing the other party, regaining their equipment, and torturing the other party, they kneel for mercy. Calm up your anger.

It happens that this time period is 8 am in Turkey. The chairman and the vice chairman are not online. Only a few deputy chairmen are in charge of the guild. There is no such thing as a small thing that happens every day. He doesn't bother to care.

Because of this, the three legionnaires bought by Tu Feng all sneered.

Chapter 1313 - Scary Bronze Temple

"Brothers, Pradan, they are too bullying, they all follow me, they can no longer continue to love bullying, and take revenge."

"Let Pradan know and know, we're not upset."

...

The heads of the three legions each pulled out five or six thousand people, and nearly 20,000 people ran towards the 150-level monster area.

Pradhan, who just grabbed the lord of the field, is proud to go deep into the map, but they don't notice that behind him the thieves of the Guards under Kerim's hands are dangling in the distance.

Because of the excitement in the guild, many people are claiming to run here. The guard thief is always reporting to the players about the situation of more than a hundred people.

"Brothers, they went to the Moon Gate and were fighting."

"Hold on, you'll be right there."

"I brought someone here."

"I've brought people here too."

"Take more, they're crowded."

"Rest assured, there are more designated than them, torture their gangsters."

...

The words on the channel made the thief feel a lot more comfortable. He looked at the dozens of Pradan's men in the distance and cursed: "Wait, wait for my brother to come, and compare with you. Brawl. "

5 minutes later.

The guard thieves found that Prada's men were about to leave, and they were anxious, and quickly sent a message saying, "Not yet? They are going to run!"

“Brother, I’m here, look around you,” said the commander.

The guard thief stared blankly around. For a moment, he was dumbfounded, and on the hillside around Pradan, tens of thousands of players suddenly appeared.

“It’s just to support. How come there are so many people, it’s just enough to be enraged.” The guard thief was confused and moved.

On the other side.

Pradan’s more than a hundred men were all stunned.

“Let’s just grab a lord. As for sending more than 10,000 people to kill us?”

“No, run away, keep things.”

“Run.”

...

Pradan’s men knew that something had happened, and quickly fled, but how did the three legionnaires give them the chance to escape, each with a big wave, more than 10,000 people rushed towards this hundred people, useless Killed in a minute!

“I’m dead so soon, I haven’t started yet.”

“I just put a skill.”

“Undefeated, usually bullied by them so many times, how can I let them go so easily.”

“It’s so easy to gather so many people today. Find them and settle the bill today. Brothers, follow me. Let’s kill Prada and the other four guilds today. If something happens, I will carry it and follow me. dry.”

“I carried it when something happened, so I can’t spare the **** who usually bully us.”

More than 10,000 people were still worried. When they saw someone taking the lead and others took the initiative to fight things, the anger in their hearts had already been ignited, and they all shouted.

“Done.”

“Fight with them.”

...

More than 10,000 people walked around the 150-level map. At one time, the chickens of the other five guilds who were killed outside the Orange Light Fortress jumped, grabbing monsters, lords, equipment, and money. This 10,000 people grab everything.

Players from the five countries, such as Pradan who did not respond at the beginning, quickly discovered the problem. When they learned that Kerim had dared to form an army and fight against them, how could they admit defeat.

“Just you have a legion, brothers, copy the guys, don’t fight the battlefield, and fight with Lao Tzu.”

“Kill the crimson waste, let the crimson waste know what he is.”

...

The players of the five nations were furious, gathered several legions, teleported to the Orange Light Fortress, and saw the men of Kerim, Blood Butcher, and Daniel hit them. At one time, both sides messed up.

By the time the presidents of the two sides got the news and persuaded, it was too late, and each of the two men had assembled more than a dozen legions, hitting each other for more than half an hour, and no one retreated.

When the player is angry, no one in the game controls your identity. Even if you are the president, and kill you, you must know that most players have not signed a labor contract with the guild.

Chiyang Fortress.

Lu Yang watched the video sent by the heads of the three legions, nodded with satisfaction, and said, "Good job, within a short time, the G8 is unable to manage other things."

Tu Feng nodded and said, "I don't think there is such a serious contradiction within the G8. I think this is an opportunity that can be used."

Lu Yang nodded and said, "Let's discuss this time after the incident is over. Okay, now that they are fighting, we can sleep well."

It was already early in the morning, and Lu Yang quit the game and did not return home, but fell asleep in the office hut.

In the next seven days, the chaos within the G8 became more and more fierce, which no one had thought of, causing the strongest guilds in the surrounding areas to become irritable.

At present, everyone understands that the most valuable part of the game is the site. Whose site is large, the more areas that will get more than 170 copies in the future, so that the guild can develop rapidly.

Chiyang Fortress, the city's main mansion.

"Originally, I just wanted to make the G8 chaos. I didn't expect that the guilds in the central region were also chaotic." Lu Yang shook his head with a smile.

Tu Feng also said with a smile: "It is estimated that they want to take the opportunity to divide up the G8, but they don't want to think about how the G8 will give them a chance."

"It's okay to be chaotic and give us plenty of time." Lu Yuming said.

After five days, Lu Yuming and Huo Zong, both with 10,000 mages, were transferred to the space-time elf mage, and completed the skill task coordinate transmission and space-time link.

Spatio-temporal links are linked with up to 19 targets, adding 30% magic resistance and 50% attack speed and magic release speed for them and themselves. At the same time, he loses 5% of blood per second.

Coordinate transmission, can be transmitted to a fixed coordinate point for 1 minute, and then return to the original position.

These two skills are one of the two magical skills of the sprite wizard. They can be used together. For example, a sprite wizard links time and space to another player. When he uses coordinate teleportation to fly away, the other player will fly away.

In this way, there will be a special bug, but it is not so simple to use this bug, because it still needs a condition to achieve, that is, the sprite mage can only link players in the same faction in time and space, not other factions.

Replica monsters and other wild monsters are hostile camps with players. It is theoretically impossible to teleport, but the system has such a setting, which is the Pandora's Box.

This little thing that can appear at level 30, who can think of it being useful at level 160, when everyone is busy playing equipment, Lu Yang secretly let Tu Feng collect a lot of Pandora's Box.

Now Pandora's Box is very worthless. You can buy a set of 10 copper coins, because players know that even if Pandora's Box gives something, it won't give good things. It's all rubbish. To 10 copper coins.

Lu Yang used less than 1 million gold coins and bought more than 100,000 sets of Pandora's Boxes. Each set was 99, for a total of 9.9 million Pandora's Boxes.

There are 6 unlucky attributes of the Pandora's Box, one of which is to become an enemy faction, and the enemy faction is the monster side. Once this effect is triggered, the player will become a partner of the monster. In this case, you can use the space-time link and Space-time teleported.

However, the Pandora's Box has 6 unlucky effects and 3 lucky effects. It is impossible to trigger this effect 100%. However, there is a bug in this game that no one can imagine.

Pawnshops have always thrown unused things into the official pawnshops in any of the main cities. Pawnshops will give a corresponding price to **** items.

There are two types of pawns, one is complete pawns, and the other is mortgage pawns. Complete pawns are sold out. Mortgage pawns only sell part of the money, and as long as the money is returned, the goods can be returned.

Tianyu Shencheng, No. 2877 pawnshop, such a very ordinary pawnshop mixed in a huge **** city, his appearance is not different from normal pawnshop, but this pawnshop, I do not know the system design, or other reasons, When players are here, unknown items will be automatically graded!

Take the Pandora's Box as an example. The Pandora's Box with attributes showing question marks is sold in this pawnshop. Fortunately, all three items are 3 copper coins, and 5 of the 6 unlucky items are 0 copper coins. It is 1 copper coin.

During these days of waiting, Lu Yang and Tu Feng screened all the Pandora's Boxes they received, opened them with luck, and sold them. The unlucky ones were all in groups of 5 copper coins. It was sold at a low price to the low-level players in the G8 and Spain.

In the end, there were 3 million Pandora's Boxes that turned into hostile Pandora's boxes, and the 1 million gold coins that Lu Yang took out not only did not lose money, but also earned more than 300,000 gold coins.

The only pity is that the output of Pandora's Box is very small, and Lu Yang can say so much, it has already been the contribution of low-level players around the world.

Lu Yang said to Lu Yuming and Huo Zong, "You two, follow me to a 160 copy."

"Oh." The two said together.

Lu Yang took out the scepter and flashed a flash of light. He appeared in the 160-level map next to the Chiyang Fortress. In front of him, there was a huge rock cave, and there was an enchantment gate at the entrance.

System prompt: You found the Bronze Temple

"Bronze demon." Huo Zong exclaimed, "Brother, are we too arrogant?"

Lu Yang smiled and said, "Do you know this copy?"

Huo Zong nodded and said, "Is it officially released, doesn't it mean that this copy is the hardest copy at level 160?"

"Second World Raiders Guide", this book is an official physical book, but also an electronic version, selling price of 525 yuan.

The above briefly introduces the information of the New World map of the Second World that has never been published on the official website, and it also has a chronicle novel that tells the origin and process of the New World.

Among them, the Bronze Demon Temple is called a watershed in the game. From this copy, the player will officially face the superior lord and sub-level demon in the game.

Although it is also a copy of level 160, the grade photos of the Bronze Temple Set are 1 grade higher than others, that is, players with fully equipped Bronze Temple sets are more powerful than players with the same level 160 Dark Gold set. 20% more attributes.

Players normally want to play the Bronze Temple, they must first kill all the other 3 lords in the 160 level, all equipment, before they can enter this copy.

If it is below level 150, it is equivalent to playing 2 level 10 equipment, although it does not reach 60% more attributes, but compared to the 150 level dark gold set, it has 50% more attributes, which is already very scary.

In the game, two mages of the same level, one side has 50% more attributes than the other, killing other players in Lu Yang's 300,000 elite hands, as simple as cutting vegetables.

Lu Yang said with a smile: "You took this Pandora's Box and went in, driving a live video, seeing the strange use of the Magic Box, this Magic Box will make you a strange mate, I will tell you the direction, you run to the Lord Monster in front of him, launch a spatio-temporal teleportation after using the spatio-temporal link, the location is the coordinate of the sky domain map 293843904.1938302934, you don't need to worry about other things. "

"Oh, let me try," Huo Zong said with a look of ignorance.

He opened the video sharing to Lu Yang and took the Pandora's Box into the copy of the Bronze Demon Hall.

A flash of light flashed, and Huo Zong found himself in the middle of an altar. The altar was huge and the whole was made of bronze.

Go down the only south step of the altar. There are 13 steps in total. Each step is half a meter high. Huo Zong needs to jump down.

When he came to the bottom of the stairs, there was an extremely huge and wide bronze platform. On the platform, there were many bronze demon patrolling.

Bronze Demon (Elite)

Level: 165

Qi and blood: 10000000000/10000000000

The Bronze Devil is about 3 meters tall, with a bronze body color, and looks like a human, except that his body has six spikes from his head to his back, and a tail.

The two arms are thick, the nails are sharply bronzed, the tail is barbed, and the body is covered with scale armor. When attacking, it is a dual attacking creature of magic and physical. .

Blood thickness, high attack, high damage, defense, and magic resistance are the signs of this monster. Normally in the last life, if you want to play this copy, you must learn all three exercises to level 17 and have a level 160 routine. Dark gold set, and can only be played with the cooperation of 100 players.

If it weren't for the last time a player used the bug of the space-time elven mage Gapandora's box to hit this copy, who would dare to imagine that even the most logarithmic players had not reached level 150, someone could have played this copy.

Huo Zong ran to the Bronze Demon excitedly, and the moment the Bronze Demon found him, he used the Pandora's Box.

System prompt: A black light flashes, you change the camp to the monster camp within half an hour, I wish you a happy playing in this half an hour!

Huo Zong tried to take two steps forward. He should have found his bronze demon. He just looked up at him and stopped talking.

As soon as Huo Zong's eyes brightened, Haha laughed and said, "Brother, I succeeded."

Lu Yang said with a smile: "Go straight along this road, there is a particularly large bronze monster in the distance."

Huo Zong looked to the distance. Sure enough, there was a giant bronze monster standing there. He ran away and all the bronze demons ignored him along the way.

When he came to the bronze monster, he saw the clear appearance of the bronze strange, but when he looked up clearly, he could not help but swallow.

"My God, this is so hard to fight." Huo Zong said with emotion.

Bronze Demon King (First Class Lord)

Level: 169

Qi and blood: 300000000000/300000000000

"So much blood." Lu Yuming said watching the video.

The Bronze Devil is 50 meters tall and has 8 feet. The shape resembles a special shape. The bronze scale armor is hard and abnormal. The six tentacles are sharp like bayonets. The head is also covered with scale armor and has 8 black eyes. It feels extremely ferocious.

Huo Zong said: "The official website says that he has more than 20 skills, and it is not difficult to kill him."

Lu Yang said with a smile: "Use skills on him, remember the coordinates, don't be wrong, otherwise I can't save you."

Huo Zong gave a whisper, and his right staff pointed at the Bronze Demon King.

“Space-Time Link”

A nine-colored light hit the bronze devil.

System Tip: Bronze Demon King gains 30% magic resistance and 50% bonus attack speed and magic release speed.

The Bronze Demon looked at Huo Zong and turned his head in disdain.

“So crazy, look at me.” Huo Zong read the spell.

“Space-time teleportation, coordinates ...”

Huo Zong’s body glowed.

Huo Zong’s body disappeared instantly, and at the same time, the Bronze Demon connected by his space-time link also disappeared with him.

Heaven, the main **** of the upper platform in the northern region, and the flat ground in the northeast corner of the Temple of Zeus, a nine-color light flashed, Huo Zong landed in the corner, and the 200-level superior lord bronze demon appeared next to him.

“Resistant Fire Ring”

Huo Zong didn't wait to see the surroundings clearly. A fiery flame came, Huo Zong's body receded one after another, entered the angle between the wall and a big tree, and couldn't get out.

“Who pushed me.” Huo Zong thought that someone had attacked him. He took a closer look and found that it was Lu Yang, and he was relieved, but he immediately responded and shouted, “Big brother, leave, the lord blame me. Now. “

Lu Yang smiled, pointing to the bronze demon king who was trapped next to him and couldn't move. “Did you mean him?”

Huo Zong turned his head and saw that the Bronze Demon King was being controlled by the Holy Light spell from four 200-level heavens. Suddenly a loud drink came.

“Dare to attack the temple and let your **** purify you.”

A hundred-meter-old Zeus **** jumped from the middle hall of the temple. As he descended from the sky, he fisted with his right hand, and a hundred-meter-long thunderbolt turned into a spear. He was inserted into the body of the bronze devil.

System prompt: Zeus kills Bronze Demon King

Player Lu Yang gains experience 11229304 points

Chapter 1314 - Eclipse Queen

Lu Yang Xianting walked in front of the lord's monster's body and looked at the items falling from the ground. There were a total of 15 bronze signs.

"It's good." Lu Yang looked back at Huo Zong, who was shaking in the corner, and said, "Hiding here can ensure nothing. When you come next time, remember to teleport in the last 5 seconds. As soon as the superior lord died, you teleported it back. I asked you to come first and tell you that this is a safe place. If you make a mistake, I can guarantee your safety. "

"Oh, I see." Huo Zong was relieved, and he smiled and said, "I'll pull the lord after a while. It's so cool."

Lu Yang laughed, can it be uncomfortable to play like this, the 160-level suit comes out, there are 10 top lords in the bronze hall, half an hour is enough to run a lap without playing monsters, which is equivalent to say half an hour Can pull 10 lords, and then the first-time lords are given seconds by Zeus, and what is obtained is the top level 160 standard equipment.

Lu Yang looked at Lu Yuming in the distance and called to his side and asked, "Do you understand?"

"I understand." Lu Yuming said.

Lu Yang said: "Send a video to the whole regiment, order all sprite wizards to report at the door of the copy, and today we will play this copy."

"Yes." Lu Yuming hurriedly sent a message. Soon, 10,000 space-time elf mages came to the entrance of the replica, and everyone took the Pandora's box into the replica, and appeared in the backyard of Zeus with one of the superior lords. .

A wonderful scene appeared. In the Temple of Zeus on the upper platform of the heavens, the Bronze Demon that should have been seen in the copy, and dozens and hundreds of them appeared in the northeast corner of the Temple of Zeus.

For a whole day, Zeus never stopped, and in the evening, two new players finally entered the realm.

“Finally, it has risen to level 130. The upper platform of Tianyu is really beautiful.” The Greek female player said with excitement.

The male player nearby also nodded and said, “We went to see the statue of Zeus, and I heard that the buildings there are the most brilliant.”

The female player turned her head and looked at the Temple of Zeus. She was about to nod. Suddenly, she saw a tens of meters in the temple with her naked torso and naked muscles. The figure with long hair jumped to the temple with a lightning bolt. Over the sky.

“No one can challenge my status.” Zeus roared, the group flashed, and scored dozens of bronze demon kings.

“Oh my god, what did I see.” The female player said excitedly.

The male player didn't notice, his eyes were all on the female player's face, and he asked curiously, “What's wrong?”

The female player's big eyes showed an excited look, and said to the male player: “Look at the Temple of Zeus. Just now Zeus seemed to jump up and attack something with lightning.”

“How is that possible?” The male player turned his head in disbelief, just as he saw that Zeus jumped up again, and then struck again with lightning.

Unfortunately, they could only see the lightning flashes in the upper half of Zeus's upper body, but they could not see what was being attacked, but this was enough.

“Go in and take a look, it may be a hidden plot.” Said the male player.

“We’re getting rich, the **** Zeus cares.” The female player said in prayer.

The two quickly ran towards the gate of the Temple of Zeus. The two were far away from the temple. From the perspective of the two, they could constantly see Zeus jumping and falling, and then jumping again, each time carrying lightning in his hands.

Anyone can see that this is definitely not a normal phenomenon. When the two ran to the temple door with excitement, Zeus stopped jumping, and when they entered the temple, they found that Zeus was still in his original place. Location.

“Strange, why Zeus isn’t moving.” The female player stared curiously at the statue of Zeus.

The male player shook his head and walked towards the side door, but just after passing through the door, he was stunned and shouted, “Dear, come and see, there is something here.”

The female player rushed over, but found that the entire body of the hall was filled with the bodies of 10 lords of class 169, including the Bronze Demon, the Bronze Demon and the Bronze Demon Ancestor.

“What’s the situation?” Said the female player.

“Is the monster siege? It’s not like it.” The male player shook his head.

“Let’s look for it.”

...

The two searched for a long time, but found no traces. Later, the two wrote the news as a news and posted it on the official forum. For a while, many people went to watch it, but found no traces left. .

No official announcement was made about this. At this point, the first big puzzle in the game appeared, everyone was curious about what happened, but no one knew the reason, and those who knew the reason were secretly redeeming the equipment.

On this day, Lu Yang exchanged more than 8,000 sets of bronze magic dark gold equipment in the 160-level physics department. This set includes rings, necklaces, jewelry and weapons.

Chiyang Fortress.

Lu Yang is taking a look at the gains with a group of vice-chairmen and heads of the army such as Wan Zhonghui and Liu Ruohuai.

Tu Feng took a bronze physics suit on the table and said to everyone, "Bronze magic physics suit has a total of 17 pieces, with a total attack power of 2.614 million, defense and magic resistance of 438,000, and blood of 13.6 million. "

Everyone gathered close to the equipment to observe carefully. Every part of the bronze demon suit has a simple and slightly ancient atmosphere. It is a sense of simplicity that cannot be described with words, but it has a power that makes people feel terrible.

"This equipment is too powerful, without adding any enchantment, mixture, buff and cooking attributes can be so high." Wan Zhonghui said excitedly.

Liu Ruohuai thought for a while, and said, "The level 150 Dark Gold set only has 9 million HP. With my Blood Oath Shaman's skills, I launched a Blood Oath Strike. The level 150 battles have to be given to me by seconds."

The eyes of all were brightened.

"Boss, match us first." Tian Yao and Zhou Tianming, White Lion and others said at the same time.

Lu Yang looked at their longing eyes and said with a smile: "Don't worry, in the next few days, we 300,000 people will get the complete suit, but we have to change the place where we hit, just now you see the news Come on, fortunately I arranged someone at the door, otherwise this will be exposed. "

Everyone nodded, it was really thrilling just now. If Han Fei wasn't watching outside the door, once exposed, I'm afraid it would spread soon.

"Are there any good places?" Bitter love asked for a long time.

Lu Yang thought about it for a long time. Suddenly, he remembered one thing. He remembered that in the last life, after someone rose to level 200, the equipment, training, baby and everything were complete. I went to Tianyuan Shencheng to kill the NPC in boring It seems that killing the city owner and several important NPCs around the city owner are rewards for things. As for what he can't remember, he knows that the city master of the Tianyuan God City is a 180-level demigod NPC. Kill 160 superior lords in one shot. If there are enough superior lords at level 160, you can kill him.

"Tonight, I'll take you to a place tomorrow morning to experiment." Lu Yang said.

"Found a new place?" Xia Yuwei asked.

Lu Yang nodded and said: "I will tell you tomorrow morning that you will have a good rest. The regularity of your daily work and rest will ensure that you have enough energy to stay up late."

Everyone nodded.

That night, everyone rested early. At 8 o'clock the next morning, Lu Yang took 10,000 space-time elf mage online.

Today, he took everyone to the Moonlight Fortress. Here is a 140-level fortress built among the three fortresses of the Celestial Fortress, the Moonless Fortress and the Lunar Fortress.

At present, the number of players here is very small. Although Lu Yang took more than 10,000 people, although there are some prominent, there are very few spies spying on the news here.

Lu Yang led away from the fortress, and ran all the way to the 160-level map of the Moon Forest, killing monsters all the way to the depths of the forest, Lu Yang found a copy of the castle-like doorway.

The system prompts: you found the moon castle

Lu Yang said to Lu Yuming and Huo Zong around him: "Same as yesterday, after entering the copy, use the Pandora's Box, but today's coordinates are different. You set the coordinates here at Tianyuan God City 9283904.9484030, you know?"

"Yes." The two responded together.

"Take the brothers into the copy half an hour later, and I'll wait for you at the coordinates of Tianyuan City." Lu Yang said.

"Yes." The two turned and called a meeting of 10,000 Elf Mage.

Lu Yang changed his appearance and flew to Tianyuan Shencheng using the teleport token. After a flash of light, he appeared in the teleportation array of Tianyuan Shencheng.

He stepped out of the teleportation array. At this time, there were almost no players in the city. There were only a few low-level players doing tasks here.

Lu Yang changed into a mount, pretending to be an ordinary player, and ran all the way to the northern end of the main city of Tianyuan God City.

If there are some players in the teleportation array of Tianyuan God City, there is no one here in the northernmost city main mansion.

There is no player in the entire street. Lu Yang looked at the cold street and smiled and walked into the main city hall.

The shape of the main palace is like an imperial palace, but it is smaller than a normal palace. There are 20 buildings and houses in a row. The main house is in the inner house.

Starting from the gate of the city's main palace, there are 16 guards for each passing house, and each guard is a 170-level elite.

When Lu Yang reached the inner courtyard, the guards at the door became 60, each of which was a 180-level boss-level guard, with more than 100 million HP.

It can be seen through the gate that standing in the middle of the courtyard is the owner of Tianyuan God City. He is 20 meters tall and has the same appearance as a human being.

Celestial City Lord-Carlos (Demi-level)

Level: 180

Qi and blood: 500000000000/500000000000

"Who? No entry here, leave quickly!" The guard leader watched Lu Yang standing at the door and looked in. He came over and raised his arms and angered.

Lu Yang shrugged with a smile, stepped back, sent a message to Lu Yuming and asked, "How's it going?"

"I'll be there in 5 seconds," Lu Yuming replied.

Lu Yang stepped back, and on the open space 5 meters away from where he stood, two lights flashed, while Lu Yuming appeared, with a 10-meter-high, weird-looking woman.

Moon Eclipse Queen-Lowry (First Class Lord)

Level: 169

Qi and blood: 500000000000/500000000000

“Damn, where did you teleport me?” The Eclipse Queen looked angrily at Lu Yuming.

Lu Yuming shrugged his shoulders before waiting for him to speak, the guard leader next to him shouted angrily: “An enemy has invaded and attacked.”

The eclipse queen looked back at the head of the guard who was rushing, showing a disdainful expression on her face, and then a wave of 60 rain arrows with purple rays shot out.

“Arrow of the Eclipse”

Sixty guards lost one-tenth of their blood. Then, the eclipse queen was crazy, firing 10 arrows of the eclipse in succession, and 60 guards died at the same time.

“Such a small night, I dare to arrogantly in front of my god.” The Eclipse Queen said coldly.

The eclipse queen, a higher creature of the eclipse family, is not a demon, and its appearance is comparable to humans. According to official legend, the eclipse family claims to be the ancestor of humans, and absorbs the moon’s energy as an attack weapon.

In the history of the New World plot, the eclipse family is a plot line that can reach level 200. If someone can complete this plot line, they will get the bloodline heritage of the eclipse family.

The starting point of the plot is to kill the queen of the eclipse, and get a special emblem from the queen in exchange for the support of the dark temple race against the eclipse.

“This is Tianyuan City.” The queen’s face suddenly showed an excited look, and she muttered to herself: “I have heard of Tianyuan City for a long time, but I can’t think of coming here, so don’t blame me.”

The queen laughed wildly, and at this moment, Carlos, the owner of the Celestial City, seemed to have just reacted and roared.

“Darkness, **** it, you shouldn’t show up here, the eclipse’s rubbish, I’ll make you pay for my men.”
Carlos jumped out of the house and struck the giant sledgehammer in his hand. On the eclipse queen.

“30293949454”

The Eclipse Queen’s health was destroyed by three-fifths.

“Lunar Eclipse”

The eclipse queen was furious and spit out a lightsaber that hit the city leader Carlos of the Celestial City.

“150894”

“Dead to me Carlos hit the Moon Eclipse Queen again with a hammer.

The system prompts: The Eclipse Queen is dead!

As soon as the voice fell, Lu Yuming disappeared.

Lu Yang walked to the eclipse queen, picked up 15 brands and 1 emblem that fell on the ground, and said with a sigh, “Remember that the last generation who wanted to open the reputation of the dark temple family needed 10,000 brands Exactly so we can make it up. “

Think about how difficult it is for a person to open the Dark Templar. Who can hit this copy more than 6,000 times to get the Lunar Eclipse Insignia. You can only buy it outside, but this copy is also a copy of the superior lord How could the typed thing be easily sold.

A brand is at least between 1 gold coin and 2 gold coins. How much does it cost to buy 10,000 brands, and the blood temple and reputation rewards of the Dark Temple are not particularly good, it can only be said to be a good one In the close combat of the warrior department, his blood line barely ranked 9th.

However, this bloodline can give Zhou Tianming, with Zhou Tianming's character, he should like this bloodline very much.

Chapter 1315 - Catapult Staff

The ranking of blood veins does not have any relationship with the ranking of player strength. The reason for the ranking of blood veins is that the public evaluates them based on the ease of operation and the comprehensive data of blood veins, which does not mean that this blood vein is worse than several other blood veins.

In the previous life, examples of using bloodlines other than the top five to win the first place in various games in the game abound. The most famous one is a master who used the blood of ordinary assassins to win the first place in the world individual competition.

Zhou Tianming himself likes to fight tough battles, but he is not a reckless husband. If the opponent uses skills, he will also respond with skills. Unlike Bai Shisanxiong, their play is always invincible.

Lu Yang had previously transferred the White Wolf Warrior's bloodline for this reason, but this bloodline was obviously not suitable for Zhou Tianming. Let him fight this kind of indomitable battle. He would think it was a fool.

Lu Yang shook his head with a smile. His vice chairpersons really had their own characteristics. Just as he was thinking, a flash of light flashed.

"where is this place."

...

Dozens of eclipse queens appeared at the same time, uttering this line in disguise.

Tianyuan City Lord Carlos has not yet returned to the city at this time, seeing so many eclipse queens appearing at the same time, which makes him furious.

“Damn bug, you have polluted my city.” Carlos roared, and both sledgehammers were raised overhead.

“Oh ~~!”

The two sledgehammers struck together, and the sound wave sounded. All players including Huo Zong and more than 60 queens were shaken at the same time.

“30293949454”

The eclipses of the eclipse moons are dead, and Huo Zong and the more than 60 time and blood brothers of the Brotherhood of Iron and Blood have died!

It was followed by a double-hammer shock, which killed more than 60 queens, dropping more than 900 eclipse brands and more than 60 emblems.

Although the queens were all dead, Huo Zong also died. Fortunately, Huo Zong had a soul stone on them.

Lu Yang hadn't taught them before, but these people are very savvy. After using the Soul Stone to resurrect in situ, they teleported back to the copy almost instantly. Carlos' third hammer strike did no harm. To them alone.

“Boss, the soul stone is gone.” Huo Zong said.

Lu Yang scratched his head and said, “In this way, you wait at the entrance of the copy, I will send someone to send you the soul stone scroll.”

The scroll of the soul stone still has a lot of inventory in the warehouse. Lu Yang called Morong and asked him to send it to the entrance of the eclipse castle.

Huo Zong took the Scroll of Soul Stones and ran into the copy to pull the monster. Lu Yang at the gate of the city's main government also took dozens of logistic players to pick up the badges and emblems.

A flash of light flashed, and another batch of eclipse queens was teleported. As before, the eclipse queens had only two attacks before they were killed by the sound of Carlos' double hammer, and the same time and space elves. Player of the mage group.

When the teleportation time was approaching, the mages were resurrected and teleported back to the copy with the last second stuck.

Han Yu accompanied Lu Yang to pick up equipment and asked curiously: "Brother, how do I feel that the Eclipse Queen just now has a higher attack power than the previous one? Am I wrong?"

Lu Yang Yile said, "Observation is very careful. You are not mistaken. The eclipse of the Eclipse Queen's eclipse attack has a reduction effect on magic resistance, but Carlos' magic resistance is too high to be reflected in a short time. Come out, take your time, don't look at Carlos' 500 billion HP, it won't be long."
"

"Oh." Han Yu said.

The accumulated data of the eclipse queen's armor reduction effect is very small for Carlos, but it can not help but a large number. After half an hour, Carlos was attacked by the arrow of the eclipse from only 100,000 to later. million.

When the last eclipse queen ends, the damage is fixed at 6 million, but the copy is not over. This is only the first superior lord in the copy. Immediately after Huo Zong and Lu Yuming, they started to pull the second superior lord, or the eclipse. The queen, but his name is Afuni.

...

As soon as 8 pm, almost 10,000 space-time elves had completely pulled out the 10 monsters in the copy. At this time, there was the last space-time elven mage. He pulled the final lord of the moon in the copy.

When he landed, Carlos had only more than 80 million HP left.

“Damn bug, you have defiled my city.” Carlos smashed it with a hammer.

“Arrow of the Eclipse”

The Eclipse Queen used the same skills. Carlos had only 10 million points of health left, and the Eclipse Queen also had blood, and the next second, the Eclipse Queen and Carlos issued skills at the same time.

The system prompts: The Eclipse Queen is dead!

The system prompts: Carlos, the Lord of the Celestial City, was killed!

Lu Yang looked at this scene in surprise. Originally, he was ready to eclipse the queen of the eclipse to kill Carlos. He went head-to-head with Carlos, but he did not expect them to die together.

Watching Carlos’ 50-meter-high body smashed to the ground, he walked to Carlos’s body with excitement. This is between 100 and 130. The only main city in the game is the most important in the whole new continent. One of the main cities, Tianyuan Shencheng City Lord’s drop.

Lu Yang looked at the objects on the ground. He picked up a design and took a closer look. An incredible smile appeared on his face.

Plans: Ejection Staff (Rare)

Description: Ejects the target in a specified direction for a distance of 120 yards.

Requires materials: turquoise, magic feather, magic silver tube

“My God,” Lu Yang said exaggeratedly, “this thing just burst out.”

“What?” Tu Feng asked.

Lu Yang shared the drawing attributes to Tu Feng, saying: “The monkey version of the escape dagger is the only one in the game that has the same properties as the top escape dagger.”

“Isn’t that just escaping the dagger? Can it be forged?” Tu Feng, who knew the goods, saw the key to the ejection staff at a glance.

The escape dagger in the game is very valuable. At the most expensive time, 300 gold coins were hyped. Even if the price was not blocked, it kept rising.

Escaping daggers can save lives at critical moments. Killing is also a first-class weapon. The main thing is that he can help players reduce the walking distance.

For example, if the two mountains are running normally, these two mountains are enough for the player to run for several hours, but if they escape the dagger, a few flashes can reduce the distance by half, or even 90%.

But the number of escaped daggers is too small. So far, the world’s total is less than 80,000. Facing the needs of 3 billion players, this has created his high value.

Lu Yang said: “Let ’s not talk about the sale, if we can drive out a certain number of ejection staffs in a short time, we can attack Alfonso by attacking Alfonso in the mountains in the northeast and east connection, which can reduce a lot of distance.”

Tu Feng nodded excitedly and said, “Yes, German and German warriors are exploring the road along the way. There are many steep mountains. If we can make a large number of ejection staff, the time we can get out of the eastern mountains can be Five days shortened to three days. “

Lu Yang said: “Take this thing away and give it to Mu Yi in a while, and let him rush the system overnight.”

“Um.” Tu Feng took the ejection staff.

Lu Yang looks at the next drawing.

Elixir: transparent sky mist

Description: Release this potion. Players within the range of 100X100 are in a stealth state. The duration is 20 minutes. They do not show up when they encounter NPCs, but they immediately show up when they encounter players.

Lu Yang laughed, and shared the drawings with Tu Feng, saying, “With this transparent sky fog, we don’t even have to fight the monsters on the way, and we can save another day.”

Tu Feng lamented: “Our luck is really good. It seems Alfonso is dead this time.”

Lu Yang laughed, picked up the remaining gold and dark gold equipment on the ground, and flew back to Tianyu with Tu Feng and Han Yu.

In the main area of Tianyu, the newly-built guild in Luyang has been completed. This is a 9-storey giant building. Many players at all levels of the Iron Blood Brothers League work here, such as forging, tailoring and cooking. It’s all here.

Lu Yang found Mu Yi and asked Tu Feng to give him the drawing, saying, “Start today, make every effort to build the ejection staff.”

Mu Yi looked at the drawing and said: “This combination is not difficult, but the green gold wood, the magical feather and the magic silver tube are more troublesome.”

Tu Feng said: “I have 30,000 professional life players. If necessary, I mobilize all the life players in the guild to forge these three items.”

Mu Yi said, “Let them find it all, these things are relatively rare.”

Lapis lazuli is not a plant, but a synthetic item that requires both forging and collecting occupations, as do the magic feather and magic silver tube.

Tu Feng knows the difficulty of these three items. Send a message to the following immediately, every time you collect an item, you can redeem 100 guild points. Professional players and ordinary players of the Jagged Brotherhood can play without war, The most needed is such a task, all of a sudden went to look for it.

With enough materials, Mu Yi can synthesize an ejection staff every minute!

The hostile guild spies ambushing inside the Brotherhood of Iron and Blood found that Lu Yang was looking for this kind of thing and joined the ranks, but they didn't know the specific purpose of this thing.

When Mu Yi started to be busy here, Lu Yang handed over the transparent sky fog drawings to Jin Buhuan, and ordered him to make all efforts. Similarly, transparent sky fog is not difficult to make. Jin Buchang has sufficient raw materials, which can be used every five minutes. Make 200 copies.

After Lu Yang watched the two of them enter the state, he flew to the Templar Fortress by himself. Then he used a flying carpet and flew along the map toward Crescent City. In the downward position between the two fortresses, there was a very The magnificent main city of NPC-the city of the temple.

The name of the Templar Fortress is related to the city of the Templar. Before the sufficient eclipse emblem is obtained, the relationship between the NPC of the Templar City and the player is hostile.

Players can kill the NPC upgrade in the Templar City at will. Lu Yang guessed that the Group of Eight must have found the problem here, but unfortunately they did not have the time to find the answer to this problem. It was occupied by him. It happens that this He also owns the secret.

Lu Yang went to the gate of the city of the temple, and the six temple fighters stood at the door. Originally their names were red. At this time, they became green because of the emblem.

The Templar saw Lu Yang walk in, with a look of hope on his face, and asked: "The warriors passing by, I felt the breath of the Moon Eclipse emblem on your body. This breath is very large. Have you got ten thousand? Are they? "

These 10,000 emblems can be superimposed, and Lu Yang nodded and said, "Yes, you feel right. I do have 10,000 emblems on my hands."

The Templar looked excited and said, "Everyone who comes to us with 10,000 emblems is a hero of our dark temple. Welcome to the city of the temple, our hero."

System Tip: Respect your reputation in the Dark Templar!

The Templar took the initiative to make way for him and gestured for please. Lu Yang replaced his mount and entered the dark Templar City, and ran towards the back of the city's main palace.

He did not do the previous mission of the Dark Templar, because he couldn't do it because he collected 10,000 lunar eclipses. He just read the information posted by others on the forum.

The person who posted this strategy at that time severely spit out an official ethical design. In the normal thinking of players, the tasks and reputation exchange points of the Dark Templar should be in the city's mansion. Generally, they can find the city's owner, butler, general All can be exchanged, but the exchange point of Dark Templar is at the elder's house.

It happened that the elder's home was in a very humble house behind the city's main house. Lu Yang recalled the information and found the small house. Sure enough, there was an elder in a black cloak.

Elder Dark Templar (Lord Level)

Level: 160

Qi and blood: 80000000000/80000000000

“Young man, I heard your story from the guards. Welcome to the temple city.” The elder looked at Lu Yang and nodded slightly.

Lu Yang also bowed his greetings and said, “My Excellency, I want to buy something from you.”

“Of course, the goods in the Dark Templar will always be open for you.” The elder’s arm made a move, and the shopping panel protruded in front of Lu Yang.

Cloak of the Dark Templar, Description: A lot of hatred is reduced. This is a cloak that looks very windy. Price: 10 silver coins.

Enchant: Dark Demon, Description: Add 12520 strength to the breastplate, price: 10 silver coins.

...

From head to toe, there are a total of 17 equipment enchantments, including the Dark Templar of Physics and Mage, all of which have a reputation of Level 160.

Lu Yang bought 50 of each, then he looked at the second page of items.

Templar bloodline fruit, description: After use, players can transfer to Templar, price: 1 gold coin.

Lu Yang shook his fist. This is what he was looking for. He took 10,000 gold coins from his backpack and bought 10,000 fruits.

According to the current market price, a high-grade blood vein fruit can be sold for between 5,000 and 30,000 yuan. Lu Yang has the intention to buy tens of thousands of fruit and sell it. Unfortunately, there is only a maximum of 10,000. Later, if I want to obtain it, Can only do tasks.

However, it is already good to have 10,000 fruits. Lu Yang finally made up the fruits needed by Zhou Tianming's melee legion, and at the same time, he got all 160 enchantments, which made him one step closer to the war. .

"All the vice presidents gathered at the Chiyang Fortress." After posting a message in the group, Lu Yang flew back to the city's mansion using a teleportation scroll.

Just after landing, Lu Yang found that all vice presidents of battle, including Xia Yuwei, were here, which made him happy, and asked, "Why are they here?"

Zhou Tianming said with a smile: "Boss, we are waiting for the equipment."

Everyone nodded violently.

Tu Feng looked at Lu Yang and said, "You can count it back, and tell me to divide it quickly, these people will divide me up."

Lu Yang laughed and asked, "What are the statistics today?"

Tu Feng said: "Like yesterday, there are 150,000 pieces of equipment that can be equipped with more than 8,000 people. In addition, they also hit the legendary two-handed sword of level 160, plus yesterday, there are more than 6,000."

Zhou Tianming could not help but stretched out his hand and said with a crying face, "Boss, this must be given to me, I can apply, I can't let it go anymore, and now my brother has no blood and no holy sword."

Everyone laughed. For a long time, Zhou Tianming's special army had never received legendary weapons, and Zhou Tianming's direct men had not received three transfer certificates.

But this is not because Lu Yang doesn't want to give it, but because Zhou Tianming's combat power is too aggressive and he doesn't have another profession, so Lu Yang gives priority to others.

Lu Yang also knew that he owed a lot to Zhou Tianming, so he prepared the fruits of the Templar for him, and deliberately asked, "What kind of occupation do you want? Let's say, what boss do you want for you?"

Zhou Tianming's eyes brightened, and he said excitedly, "It's finally here for me. Boss, please wait. Let me think about it."

Lu Yang said, "Not in a hurry, think slowly."

Zhou Tianming nodded quickly. He was too excited. When he came to the decision, he didn't know how to coordinate. After thinking about it for a long time, he said, "Boss, it's the blood of a soldier. I don't want anything else, just follow me. 1000 soldiers have to change jobs. They have followed me since I started. Maybe some people have insufficient skills, but their resilience and loyalty are absolutely reliable. "

Lu Yang smiled and took out 10,000 blood fruits of the Templar, and said, "I knew you would want a soldier, look at this."

After Zhou Tianming took it, he immediately ate it. Then, the templar skills appeared in the system interface. Because the prestige was too difficult to open, the templar skills were given three.

"Templar Rage", Class: Templar, Distance: 50 yards, Consumption: 3000 Magic, Description: After the Templar transfers, he has the ability to release magic. The Templar Rage's damage is based on physical damage. , The effect is 1.5 times the attack, can penetrate players along the way, each penetrates an additional 10% attack power.

"Dark Secret Law", Class: Templar, Distance: Self, Consumption: 5000 Magic, Description: Can resist 9 attacks within 1 minute without damage, including spell attacks.

“Temple’s Wrath”, Class: Templar, Distance: Self, Cost: 5000 Magic, Description: Resurrection immediately after death, Note: If the magic value is less than 5000, it cannot be resurrected.

Seeing this bloodline skill, Zhou Tianming couldn’t help showing an excited look on his face. After looking up the skill, he looked up and said to Lu Yang, “Boss, this bloodline is too strong. I can be immune to 9 injuries. Being singled out has too much advantage. “

Lu Yang said, “It’s for you.”

“It fits so well, how many bloodlines are there in total,” Zhou Tianming asked.

Lu Yang said, “Ten thousand.”

“So many.” Zhou Tianming blinked and said, “There are only about 1,000 veterans of the Warrior Department around me.”

Lu Yang said: “You and your brother set up a Templar corps alone. I will give you a place of 10,000 people, and the remaining 9,000 people. You choose among those 300,000 brothers.”

Knowing that this opportunity is rare, Zhou Tianming thought about it and said, “Let’s go, my brothers have recommended to me soldiers who have trusted me I will give them a transfer quota.”

“This method is good,” said Zhuzhuo.

Not only him, but the eyes of Vice-Presidents such as Sirius, Sun Yu, Xia Yuwei, Tian Yao and Liang Yun were all brightened. The biggest problem that has always troubled them is that Lu Yang has 10,000 troops each time. It is required that they can only manage 10,000 people each, which brings great inconvenience to players of other professions in their hands.

Now that the problem is solved, someone like Sun Yu who mainly brings a shooter, can give his soldiers to Zhou Tianming, and the same can be gained, and everyone looks at Lu Yang.

Lu Yang said, "Of course I agree."

"Great, I'm 3000 people," Sun Yu said.

"I have 1,000 people."

"800"

...

Soon 10,000 people would make it up.

Chapter 1317 - Timebreaker

Lu Yang went on to say: "The legendary weapons are also given to you. This time, your first batch will accept legendary weapons."

The first-class lord has a chance to drop legendary weapons. With the help of Zeus and Carlos, a total of more than 3000 legendary two-handed great swords have been obtained.

Magic Sword-Evil Eye (Legendary)

Level: 160

Physical attack: 977832-1000000

Strength: +43250

Stamina: +45000

Additional attack power: +120000 points

Additional physical penetration: +120000 points

Additional physical crit: +80000 points

Legendary weapons are not easy to hit. Before this, Lu Yang told the players inside the guild how to blast the legendary weapons. However, when they were waiting for the lord, few people could do it. Even the people who could do it were not It can be done every time.

Playing five times and succeeding twice can be regarded as masters. Except for a few people such as Lu Yang, others have only this probability of success. Therefore, legendary weapons are rare at level 150.

This time, more than 3,000 shots were made at one time, and a legion can be equipped. Only the Brotherhood of Iron Blood once had it at level 60, never before, and there will be more in the future.

Zhou Tianming heard Lu Yang said that legendary weapons were given to his army first, and he was happy to bloom flowers on his face, and arched and said, "Thank you, boss, thank you for letting me."

Everyone laughed.

Lu Yang went on to say: "Let's continue tomorrow. In addition to the city owner, there are several elders in Tianyuan God City, all of which are worth brushing. Tomorrow we will be brushing together to get both equipment and special formulas."

The crowd laughed even more.

...

For the next ten days, Lu Yang took the space-time elven mage to brush the lord monster. In these ten days, one city lord of the Tianyuan God City, six deputy city lords and twelve elders were all led by the time-elves to the superior lord It's gone.

During this period, Lu Yang's 160-level dark gold suit, which was used by 300,000 people, was also made up, and he also gained 160-level cooking, mixture and buff skills.

More importantly, including Lu Yang, he never expected that he would get 20,000 legendary two-handed swords.

Ten thousand were given to Zhou Tianming's Templar Warrior Regiment, and the other was given to Wan Zhonghui's Orc Warrior Regiment.

In order to make these two legions stronger, Lu Yang wore their level 15 black light gemstones to their wristbands. For this reason, the black light gems in the entire guild were completely consumed and there was no inventory left.

Black light gems increase the attack speed. Wan Zhonghui's orc warrior army can use their current attack speed up to 0.2 seconds per time. Under the condition of high magic immunity, it can be imagined that this group of people's attack power will have How powerful.

Not only that, Lu Yang also took out all the scrolls in inventory, including the most important 200 forbidden scrolls and 2,000 secondary forbidden scrolls.

Tu Feng stood next to Lu Yang and said, "Boss, we won this battle and can harvest the entire eastern mountainous area. If we lose, our family will be completely gone. Is there really no way back? ? "

Lu Yang smiled and said, "No stay, this time I must lay down the entire eastern mountainous area. Only when we hold the entire eastern mountainous area, can we really develop. Otherwise, we will be Alfonso and the Group of Eight. , The central forces, the Cavalry of the Gods and Liu Jie.

Sailing against the water, retreating if you do not advance!

The larger the area controlled by Lu Yang, the more he had to fight hard to ensure that the people around him did not dare to stab him or have the ability to stab him.

Killing Alfonso is only the first step. Only by killing Alfonso can we further control the new continent, and further reduce the enemy's power, so that he can have the opportunity to win this battle.

This is not only a grudge with Liu Jie. At this step, Lu Yang's progress is not only hatred, but also heavy responsibilities.

That's his responsibility to Blue Feather, to the vice presidents of Zhuo Jiu and White Lion, and to all the Iron Blood Brothers players.

Tu Feng felt the excitement in Lu Yang's heart, and knew the pressure and burden on Lu Yang's body. Looking at Lu Yang's face, Tu Feng had an inexplicable emotion in his heart.

Two and a half years ago, he was still a casual player, with a rage in his chest to fight against the grand guilds who chartered.

Today, he is the whole new game, no, including the most respected and feared Iron Man Brothers in the real world.

These are all given to him by Lu Yang, and what he can do is try his best to relieve the pressure on Lu Yang's burden, so that he can pull the ship of the Iron Brotherhood and move forward steadily!

"Boss, it's time to meet Ayala. Shall we pass now?" Tu Feng asked.

Lu Yang said, "Leave and see the true face of this beautiful president."

Just this morning, Ayala took her investor and important members of the guild to China by plane.

For most of the day, Lan Yu accompanied Ayala and others to hang around. On the one hand, they eased the fatigue of the journey. On the other hand, Lu Yang was not prepared. Preparations are done.

Donghai City, Hilltop Villa.

Yang He and Tu Feng arrived in the yard in black and white. The car just stopped. Lan Yu brought a few black-haired but western-looking people to meet him at the door.

Lu Yang just got out of the car, Lan Yu came over with a smile, and introduced Lu Yang: "This is Ayala, this is Aisha. They are the famous Spanish dams, Rolla, Maria, Ona and Elena. "

Ayala walked in front of Lu Yang in a red long dress, and stretched out her hand and smiled, "Chairman Lu Yang, finally met you."

Lu Yang smiled and stretched out his hand and said, "I have been looking forward to it for a long time. Welcome you."

When Ayala and her friends were able to come to the East China Sea, they have already expressed their attitudes. Both parties urgently need this cooperation. Therefore, after entering the house in a few words, the two sides entered the topic.

Ayala said, "Chairman Lu Yang, I would like to ask you, do you really have a way to enter the mountains in the east?"

Lu Yang nodded and said, "Of course."

Ayala said, "How old do you treat me?"

Lu Yang smiled and said, "Without you, my winning percentage is about 60% or more. I just don't know how much you can help me."

Ayala, Lola and others looked at each other. Finally, Ayala said solemnly: "If your winning percentage is 60%, plus us, it is 100%."

Lu Yang was happy, looked into Ayala's eyes and asked, "Tell me, why can you do this."

Ayala smiled and said, "Your 60% win rate must have a way to win every war against Alfonso, I'm right."

Lu Yang nodded gladly and said, "Of course, with my current strength, after entering the eastern mountains, Alfonso could not beat me in any war."

Ayala said, "But what you are afraid of is Alfonso's continuous reinforcements, isn't it? If you can't make a quick decision, Alfonso's steady stream of players will reinforce you. No matter how powerful your legion is, there is no blue. There are times when you are tired, right? "

Lu Yang said, "Yes, this is my only concern."

"I have the power to solve your enemy reinforcements," Ayala said.

Lu Yang smiled in surprise and asked, "The other party can teleport as long as there is a fortress. Why do you say that?"

Ayala said, "The lawbreaker."

Lu Yang was really surprised this time, frowning and asked, "You have a profession like a lawbreaker?"

Ayala's turn was surprised this time, and she asked, "Do you know this profession?"

Lu Yang said: "The lawbreaker, the first bloodline of the time and space mage, can cut off the connection between time and space, that is, destroy the teleportation between the fortress and the fortress, tell me how many such occupations you have? "

Ayala proudly said, "32."

Lu Yangmen sat up straight, then slowly relaxed, and said with a smile: "It seems that Alfonso is no longer a problem, we can discuss other problems."

Ayala, Rolla and others were a bit surprised. They did not expect that Lu Yang was so calm. The main purpose of their visit this time was to negotiate with Lu Yang. They did not want to drive away Alfonso and another Lu Yang came. Rule them.

Rolla said on behalf of Ayala, "President Lu Yang, I would like to ask, how would you treat the eastern mountains if we helped you?"

Lu Yang looked at Ayala.

Ayala said: "Rolla is an investor, and my celebrity friends are willing to invest in me to help me re-establish the guild, but they are worried that you will take control of the eastern mountains."

Lu Yang smiled and said: "You can refer to the Korean region, Indian region and Nine Star Alliance region on my side. So far, we have been able to coexist peacefully. The condition I can give is that when I lay down the eastern mountain area, You can form guilds freely, but you must exist in the form of affiliated guilds of the Brotherhood of the Iron Blood, and prove that the ownership here is mine. "

This is the fundamental problem and no changes are allowed.

"What about the specific management of the eastern mountain areas, such as building forts and collecting taxes?"

Lu Yang said: "I will invest 50% of the established guild, and the remaining 50% will be invested by you. The money I make is also divided according to this ratio. However, according to my understanding of this game, in the most recent year to two Not only will we not make any money during the year, we will continue to invest a lot of money in it. "

Elena asked, "Why do you say that?"

Lu Yang said: "We have regained control of the eastern mountainous areas. We will definitely be under siege by the Group of Eight and the surrounding forces to prevent my control area from becoming too large. If they can, they even want to take my The control area has been divided up, and there must be successive wars to fight next. This is a huge expense. Do you have this mental preparation? "

Ayala and Lola nodded.

"This preparation is there, but President Lu Yang." Elena paused and said, "I hope that the eastern mountain areas will have more autonomy. That is to say, one day, we want to take full control of the eastern mountain areas. , I don't know if you can agree to this. "

Lu Yang laughed. This is the first time someone has asked him this way and said, "This is not good. I helped you lay down the eastern mountains. You didn't pay anything. Not only that, you also wanted to kick me out. "

Elena's face wasn't red and her heart didn't beat, she raised her eyes and said, "We don't mean that, we just want to ask if it might give us more independence. After all, we also want to be a separate guild. We can't afford to play in the game. "

Lu Yang looked at a few people in Ayala, and found that everyone had a firm expression on his face. He thought about it and said, "So, two years, if two years later you want to leave the Jagged Brotherhood, I allow You bought the shares in my hand at the price of the guild at that time, and I promised that within 2 years, I would not take the initiative to fight against you. How about that? "

Ayala and Elena looked at each other. They knew that this was already the minimum condition for Lu Yang. Being able to have such a condition was enough to make them feel satisfied.

"Let's have a few discussions," Ayala said.

Lu Yang nodded and motioned to Ayala that they could go to the next room.

Ayala and seven others stood up and went to another room. After careful discussion, Ayala said, "Chairman Lu Yang, we accept your offer. I hope we can cooperate smoothly and lay down Alfonso together. , Kick him out of the eastern mountains. "

Lu Yang smiled and shook hands with Ayala, saying: "Happy cooperation."

Ayala said: "Several of us will not go back today. We will stay with you to win this battle and then go back."

Lan Yu said, "The room has been arranged, and the fighting will take place on the 27th floor of the War Studio One, VIP lounge."

Lu Yang nodded and said, "Some of you will rest first, and I will arrange the battle here. Once the battle begins, I will immediately inform you. With the servant left."

Tu Feng watched them go out and asked, "Boss, how could you agree to such a demanding request, this is too much."

Lu Yang smiled. He knew that Tu Feng was referring to the repurchase association after two years, and said, "Who knows what will happen in two years? What if the map is opened? At that time, it was with Spain. The relationship is not necessarily good or bad."

Tu Feng was stunned in his place. He didn't expect this layer. If the map was changed two years later, it would not be sure whether the map of the new continent would be valuable.

"Boss, do you have any news?" Tu Feng asked.

Lu Yang laughed without saying a word. Of course, the official will open a third map, which is a map developed specifically for the league. Otherwise, the New World will be occupied by a guild. How can other guilds compete with him?

These Spanish people seem to be savvy, but in fact they are extremely stupid. They have such a big backer and don't keep it, even if they want to run outside, they are looking for abuse.

Lu Yang went on to say: "The legendary weapons are also given to you. This time, your first batch will accept legendary weapons."

The first-class lord has a chance to drop legendary weapons. With the help of Zeus and Carlos, a total of more than 3000 legendary two-handed great swords have been obtained.

Magic Sword-Evil Eye (Legendary)

Level: 160

Physical attack: 977832-1000000

Strength: +43250

Stamina: +45000

Additional attack power: +120000 points

Additional physical penetration: +120000 points

Additional physical crit: +80000 points

Legendary weapons are not easy to hit. Before this, Lu Yang told the players inside the guild how to blast the legendary weapons. However, when they were waiting for the lord, few people could do it. Even the people who could do it were not It can be done every time.

Playing five times and succeeding twice can be regarded as masters. Except for a few people such as Lu Yang, others have only this probability of success. Therefore, legendary weapons are rare at level 150.

This time, more than 3,000 shots were made at one time, and a legion can be equipped. Only the Brotherhood of Iron Blood once had it at level 60, never before, and there will be more in the future.

Zhou Tianming heard Lu Yang said that legendary weapons were given to his army first, and he was happy to bloom flowers on his face, and arched and said, "Thank you, boss, thank you for letting me."

Everyone laughed.

Lu Yang went on to say: "Let's continue tomorrow. In addition to the city owner, there are several elders in Tianyuan God City, all of which are worth brushing. Tomorrow we will be brushing together to get both equipment and special formulas."

The crowd laughed even more.

...

For the next ten days, Lu Yang took the space-time elven mage to brush the lord monster. In these ten days, one city lord of the Tianyuan God City, six deputy city lords and twelve elders were all led by the time-elves to the superior lord It's gone.

During this period, Lu Yang's 160-level dark gold suit, which was used by 300,000 people, was also made up, and he also gained 160-level cooking, mixture and buff skills.

More importantly, including Lu Yang, he never expected that he would get 20,000 legendary two-handed swords.

Ten thousand were given to Zhou Tianming's Templar Warrior Regiment, and the other was given to Wan Zhonghui's Orc Warrior Regiment.

In order to make these two legions stronger, Lu Yang wore their level 15 black light gemstones to their wristbands. For this reason, the black light gems in the entire guild were completely consumed and there was no inventory left.

Black light gems increase the attack speed. Wan Zhonghui's orc warrior army can use their current attack speed up to 0.2 seconds per time. Under the condition of high magic immunity, it can be imagined that this group of people's attack power will have How powerful.

Not only that, Lu Yang also took out all the scrolls in inventory, including the most important 200 forbidden scrolls and 2,000 secondary forbidden scrolls.

Tu Feng stood next to Lu Yang and said, "Boss, we won this battle and can harvest the entire eastern mountainous area. If we lose, our family will be completely gone. Is there really no way back? ? "

Lu Yang smiled and said, "No stay, this time I must lay down the entire eastern mountainous area. Only when we hold the entire eastern mountainous area, can we really develop. Otherwise, we will be Alfonso and the Group of Eight. , The central forces, the Cavalry of the Gods and Liu Jie.

Sailing against the water, retreating if you do not advance!

The larger the area controlled by Lu Yang, the more he had to fight hard to ensure that the people around him did not dare to stab him or have the ability to stab him.

Killing Alfonso is only the first step. Only by killing Alfonso can we further control the new continent, and further reduce the enemy's power, so that he can have the opportunity to win this battle.

This is not only a grudge with Liu Jie. At this step, Lu Yang's progress is not only hatred, but also heavy responsibilities.

That's his responsibility to Blue Feather, to the vice presidents of Zhuo Jiu and White Lion, and to all the Iron Blood Brothers players.

Tu Feng felt the excitement in Lu Yang's heart, and knew the pressure and burden on Lu Yang's body. Looking at Lu Yang's face, Tu Feng had an inexplicable emotion in his heart.

Two and a half years ago, he was still a casual player, with a rage in his chest to fight against the grand guilds who chartered.

Today, he is the whole new game, no, including the most respected and feared Iron Man Brothers in the real world.

These are all given to him by Lu Yang, and what he can do is try his best to relieve the pressure on Lu Yang's burden, so that he can pull the ship of the Iron Brotherhood and move forward steadily!

"Boss, it's time to meet Ayala. Shall we pass now?" Tu Feng asked.

Lu Yang said, "Leave and see the true face of this beautiful president."

Chapter 1319 - Into the eastern mountains

The spy who Tu Feng arranged in the Alfonso Guild reported the incident to Lu Yang for the first time, and at this time, Lu Yang was driving a transparent sky with 300,000 people along the Heishui River.

The Heishui River, starting from the northeast section of the New World, descends from the top of the Frost Fortress in the Indian region down to the Cold Wind Fortress, the Glory Fortress, and the War City Fortress in the Nine Star Alliance area.

Eventually, it flows into the 160-level area at the junction of the northeast region and the eastern mountainous region, from the Celtic Fortress and the Villa Fortress in the eastern mountainous region, diagonally down through the eastern mountainous region and into the southeastern region of the new continent. A magical river running through the eastern part of the New World.

The narrowest part of the river is 100 meters and the widest part is more than 300 meters. On both sides of the river and in the water, there are crocodiles.

Crocodile (boss)

Level: 160

Qi and blood: 20000000000/20000000000

Crocodile is the starting point for starting a 200-level plot, but if the plot is strange, it must be in groups, and there are few individual actions.

Perhaps the official is to prevent players from easily entering this mountain from the river. Crocodile people march in groups of 100 people, and once a crocodilian is attacked, they will make a howling sound around them. All crocodiles within a few hundred meters will come to support.

Each crocodile is equivalent to a blue dragon mage, attacking near the black water river, their water mage is very powerful, not only that, their melee attack also comes with water magic, even assassination water mist will be used.

All players who entered here to fight monsters were obstructed by the crocodile in the last life, and they changed the upgrade location one after another, and no longer come here to upgrade.

Lu Yang turns on the transparent sky fog. Each transparent sky fog can make players within 100 meters into a pseudo-stealth state. This is an item specifically designed to allow players to quickly pass through the map. He can ignore the detection of the lord monster and easily. Go through some difficult maps.

But this item also has a defect, that is, the duration is too short, and it needs to be used again every few minutes, and the cost of this item is relatively expensive.

Lu Yang brought over 300,000 people this time, and every time he used it, it was equivalent to consuming 100,000 credit points, and it took 14 hours to run along the way. Even if there are many places along the way, it is not strange, but they are used all the way. When the transparent sky fog ran over, Lu Yang would spend at least tens of millions of credits.

Everyone, including the turbid wine and the white lion, knows what Lu Yang is doing now, and he knows why Lu Yang spends it. Therefore, he is urging the players to run and don't fall behind.

I ran from day to evening for a full 14 hours, and only took a break halfway. At 12 o'clock in the evening, Lu Yang finally ran out of the eastern mountainous area and came to a place only 5 hours away from the fortress of Villa. .

System prompt: You found the Blackwater Forest

Lu Yang looked around, all of them were dense forests and 160-level monsters. He looked at the sky. At night, he could not see where Germany was flying in the air.

"Can you see the situation on the ground from the sky?" Lu Yang asked.

"Boss, you can probably see clearly in the moonlight, and for the time being, no players have been found here within 5 kilometers." De Bu tastes corpse.

Lu Yang nodded and said to Han Fei around him, "You and Han Yu, they took the elite time and space thief to explore 5 kilometers away to see if any Spanish players approached."

Elena came over and said with a smile: "Chairman Lu Yang, here at the 160 level map, Spanish players, except for a small number of elite to 150, most of them are still around 140, you are too worried. "

Lu Yang looked at her without saying a word, and instead picked up the phone and said: "Order, all the legions will rest after clearing the monsters in place, the time will be 5 hours, and the war will officially start after 5 hours."

"Yes."

"Yes."

...

The leaders of the 16 legions answered in succession.

Lu Yang opened the map and cast the screen to the ground, and said to Ayala next to him, "Do n't order your ordinary players to take action first, and call your 32 time-space breakers to Astu Fortress, Scepter Fortress, Poseidon Fortress. On the front line, every two people in groups destroy the 16 fortresses' teleportation array. As long as they can persist for 6 hours, it is enough. "

The 16 fortresses from Astu to Poseidon are the same as Lu Yang 's attack on the Qingling Plain of the Group of Eight. There is a 6-hour gap between the two sides. At least it takes 6 hours to reach. Therefore, as long as you destroy the teleportation here, During the battle, Alfonso had no time to stop the command even if he went online late at night.

Ayala asked in surprise: "What about the 16 fortresses facing the front, can you take them all at once?"

Ayala has worded for a long time, but she thought for a long time, but she still spoke the most true words. He really did not believe that Lu Yang was able to win the 16 fortresses in World War I.

Lu Yang asked, "Is there anything wrong?"

Ayala thought about it and said, "What I want to tell you is that although Alfonso is average, he has a few powerful men under his command.

The area near the northeast of the eastern mountain area is where he started and is the best place for his development. To ensure that civil strife does not occur here, the Kata fortress in the 16 fortresses is home to 800,000 elite players day and night , Even if there is war at the Agave Fortress, they will not be transferred. "

Lu Yang was intrigued and said, "I do n't know much about the eastern mountain area I only know that the vice president responsible for defending here is called Alvaro. That being the case, tell me more about him. "

Ayala nodded and said, "The situation is Alvaro. He is one of the three partners who started Alfonso, and now owns 17% of the Association. He is the second largest shareholder. He has a very close relationship with Alfonso. Well, you will never betray Alfonso.

The reason why Alfonso placed him in the rear is to allow him to provide him with sufficient funds. It is also because of Alvaro's seat that the first batch of 140 fortresses in the eastern mountain area were built here.

Don't underestimate Alvaro. The 800,000 players in his hands are divided into two groups, day and night, 400,000 during the day and 400,000 at night, but suddenly he encountered 75,000 people in a night.

Once entangled by these people, wait for Alfonso to respond and send a large number of people to reinforce, then trouble. "

Lu Yang nodded. He understood what Ayala was worried about. If Alvaro struggled with his ranks and equipment, and lingered on him, Lu Yang really could n't capture many forts. Once Alvaro was here, Successfully entangled himself, waiting for Alfonso to go online, waiting for himself can only retreat.

Chapter 1320 - Time difference

Even if you retreat, you may not be able to retreat from your body. I am afraid that you will have to leave a large amount of 160 dark gold suits, which is cheap for Alfonso.

"Hei Yan, come here." Lu Yang said loudly, staring at the map.

Hei Yan was not far away. He took a few steps to Lu Yang and said, "Boss, what's the matter?"

Lu Yang pointed at the 100-level map between the Kata Fortress and the Moore Fortress, and said: "Dive here with a 2000 fire thunder mage and bury a fire thunder barrel at the exit of the canyon. I want your first ambush. Kills anti-war and anti-riding among players who have been reinforced by Kata. "

"Yes." Hei Yan arched his hand, turned around and ran to the direction of Mage Thunder, whispered two words, and 2,000 Mage Thunder followed him far away.

Ayala couldn't understand, and asked, "Why send someone there to bury mines. Can you guarantee that Alvaro will follow the 100-level line?"

“You will soon understand.” Lu Yang smiled slightly, and then said to the town’s Hell King: “After 2 hours, take the 10,000 Starbreaker shooter to the hillside 2 km outside Mochizuki Grand Canyon to stand by, war After the start, if Alvaro’s reinforcements come out, all will be shot. “

“Yes.” Pluto of the town prison turned and left.

Ayala still couldn’t understand. He didn’t know why Lu Yang was so sure that Alvaro would definitely walk to the Moon Canyon.

“There are only 300,000 people. Is it really good to just remove the only long-range archer?” Ayala asked.

Lu Yang smiled. He leaned his body on the hillside and closed his eyes and said, “Let’s take a break. For a while, we will face a battle without a chance to rest for a few days.”

Ayala shook her head silently, and rested with Elena, Ona, and others under a big tree opposite Lu Yang.

The entire Brotherhood of the Iron Blood Brothers rested here, but on the other side, Alvaro of Kata City fell into anxiety.

The northern end of the walls of Kata City.

Alvaro, 40, walked anxiously.

“Vice-Chairman, why do you always have a heavy heart today?” Asked Robert the 7th Army Commander.

Alvaro said: “I don’t know why. I’m always upset. I always feel that this time the Brotherhood of the Iron Blood Brothers gathers players. Why can’t they gather only the affiliated guilds? Wouldn’t they have assembled, and wanted to sneak in on us? “

Robert smiled and said, "You still think that there is a connection point between the eastern mountains and the northeast. This is impossible. We have penetrated both the 140 and 150 areas, except for the 160 alligator area. There is really no place to pass except for legal investigations. "

Alvaro sighed, and his biggest headache was here, saying, "I believe there must be a connection, maybe this crocodile area."

Robert said: "Even if we can't fight it, Lu Yang can't get in. How difficult is it in the Crocodile area? You have not experienced it yourself. Let's rest assured. Do not worry."

Alvaro breathed a little sigh of relief. The 400,000 people each day and night were the elite players he carefully taught. Fortunately, there were no guilds in the eastern mountains who dared to challenge them.

He also took more than 30,000 level 150 elites to the wasteland alligator area, but unfortunately he could not even break through the periphery, which made him feel relieved.

"Hopefully I'm more attentive," Alvaro said, "continue inspections."

Rob followed with his head.

Unfortunately, Alvaro guessed right, but the inspection method was wrong. He should look at the forest outside the Crocodile Zone, not the major fortresses!

Three hours later, Hei Yan brought 2,000 people together on the cliff above the Mochizuki Grand Canyon in a group of various teams. There is nothing strange here, so no players found them.

"No problems encountered along the way." Hei Yan asked the captains one by one.

"No."

“Few Spanish players are leveling near the official road in the 100-level area during this period. We only encountered very few players and did not find our problem.”

“Me too.”

...

The 20 captains said that there were no problems. There were only 2,000 people, and they would hardly be found by the enemy.

Hei Yan nodded with satisfaction, saying, “Here is the boss who asked us to bury mines and hit the Grand Canyon. They all lay mines at the exit of the canyon. How many can be buried within two hours.”

“Yes.”

...

2,000 people acted.

The Mochizuki Grand Canyon is a horn with a narrow inner and wide outer diameter. By the time the canyon exits, it is already 80 meters wide, enough to accommodate the next 200 people side by side.

2000 people bury a mine every 12 seconds. In 2 hours, 1.2 million mines were buried. Countlessly, the area 200 meters from the Grand Canyon exit was completely filled.

“All retreated to the boss, I stay here to detonate.” Hei Yan said.

The 2,000 fire-thunder mages nodded and ran as a squad toward the place where Chaoyangyang was. At the same time, Lu Yang’s rest time was over and it was time to start the war.

“Order, all the members must gather,” Lu Yang said in a voice.

Dozens of wine and white lions, who were resting beside Lu Yang, stood up, picked up the interphone and shouted.

Each player's talker is always connected to the leader's phone, and the leader can use the phone to notify any specific player at any time.

For a while, in the seemingly peaceful Blackwater Forest, the leader's loud shout came from the ears of each Jagged Brother League player, but for the entire peaceful Blackwater Forest, there was no sound.

"The war is about to begin, and everyone is ready to fight."

"The battle is about to begin All members are ready to fight."

...

The players woke up in the voice of the team leader. Within a short period of two or three minutes, they stood upright and looked away. The feeling of killing made Spanish players such as Ayala and Elena numb all over. .

"Order, the Wolf Team is divided into 10 legions, and they attack Buno, Gwadar, Celtic, Iberian, Moore, Basqueka, Isabella, Mura and Tenjin Fortress. Hours later, at 10 am, they launched an offensive at the same time, and the rest of the army followed me to attack Villa and Lith. "Lu Yang said loudly.

At 10 am in Huaxia, it is 5 am in Spain. This time period is the time when the night shift players are the most exhausted, and when they are ready to take off to rest, they are also the slowest when they react.

Lu Yang's attack at this time was equivalent to hitting the Spanish player's seven inches, which reduced their counterattack ability to a minimum.

Immediately after receiving the instructions from Lu Yang, the 100,000 blood wolf fighters were divided into 10 teams immediately, and the sky shouted, and the 100,000 blood wolf ran towards these 10 forts.
