

Wild Fire 1341

Chapter 1341 - Alfonso Affiliated Guild Betrayed

Fernando sighed sighing and said unhappily: "Ask me what I'm doing, I want to forget, you mention it."

Lu Yang smiled and said, "I still have a knot."

"Nonsense has become the laughingstock of the whole world, can I be unconscious?" Fernando said.

Lu Yang shook his head and said, "What kind of laughingstock is this? If you just get rid of it, it is the laughingstock. As long as you can cheer up again and kill Alfonso and his guild, Alfonso is the laughingstock and the woman will be carrying A lifetime of infamy, as for you, how about Elena? "

Fernando flushed and said, "How did you mention her?"

Lu Yang smiled and said, "It's all men, don't pretend, you just went to Elena deliberately, but I saw it."

Fernando couldn't stop this. He was originally a strong guy. How could he not be impressed with a goddess like Elena, especially since he now has no girlfriend and Elena is close at hand. Of course he hopes to be able to Something tangled with Elena.

"First beauty, I like it's normal." Fernando took a look at Lu Yang and said, "What do you tell me about her?"

Lu Yang said, "If I say I can help you catch Elena, how can you repay me?"

“What?” Fernando jumped up in excitement. Fortunately, the players around him fell asleep. No one noticed him. He hurried to Lu Yang’s side and whispered in a short lower body: “Really, you do not fool me?”

Lu Yang grinned, showing an expression that a man could understand, and said, “I am Lu Yang, who is a golden signboard. When do I say nothing?”

Fernando was so excited, he pressed his voice and said, “If you can help me catch Elena, I will work for you forever.”

Lu Yang said: “It’s not necessary for my whole life, as long as you are still in this game, you can follow me and do it well.”

“No problem.” Fernando didn’t care about these things at all, and asked, “What am I going to do?”

Lu Yang said, “How much money do you still have?”

Fernando said: “There is a total of 20,000 euros in cash, which is about 200,000 euros in real estate.”

Lu Yang said, “You’re really poor, but that’s enough.”

“What are you doing?” Fernando asked.

Lu Yang said, “Do you know why Elena invested money into the game?”

Fernando shook his head.

Lu Yang said, “It’s because Elena’s career has encountered a bottleneck. She wanted to make her way out, so she invested in games. But what she wants most is to enter the film and television industry. If you help me lay the rest of the eastern mountain area, I’ll pay for Elena to be famous in Hollywood, and I will do it on your behalf. “

Ten years of rebirth memory, several world-renowned films Lu Yang still know, as long as the use of Qi Yun's resources, all this is not a problem.

With a bright eye, Fernando said, "Although I know that the goddess may not fall on me because of this, but it is worth it, and I will really do it with you in the future. No matter what happens, if you live up to me, I will live up to you."

Lu Yang smiled and patted his shoulder. "Good brother, I never treat anyone who really helps me, I promise you, I will do it."

He motioned for Fernando to wait, took out the intercom and called Qi Yun. After two beeps, Qi Yun answered the phone and asked, "Boss, what is it?"

Lu Yang said: "Send someone to Hollywood and buy a movie script called" Fantastic Demon "in the name of Fernando, vice president of the Spanish Association of the Jagged Brotherhood. We recommend it to Hollywood. We invest in it and designate the actor Elin Na. "

"Small things, I'll call and call." Qi Yun said.

Lu Yang hung up and looked at Fernando, saying, "It only takes a few minutes as soon as possible, and it will be done."

Fernando took a breath and said, "You have such a lot of energy?"

Lu Yang said with a smile: "It's all about money. It's not a big deal. Throwing two hundred million dollars to invest in a movie is worth it for me as a game commander."

Fernando was really touched and said, "Give me some time. Although I'm not sure my relationships are working, I can contact all the affiliated associations with Alfonso. If you are willing to accept them, I have the confidence to get you the vast majority. "

Lu Yang was in need of this, saying: "Call quickly, as long as you are willing to surrender us, we will not pursue anything before."

Fernando nodded and picked up the phones to connect one by one.

Fire Bug Fortress.

Alfonso was standing on the city wall in the southeast corner and discussing the next battle plan with the presidents of a group of affiliated guilds of vice president level.

At this point, the presidents of nearly a hundred affiliated guilds had already had great doubts about Alfonso. Obviously, with the loss of the Undead Bird Fortress and the Red Wolf Fortress, and the fall of the Hydra Fortress, Alfonso had already become a stunner, he could not escape, and could not win the battle. He could only be killed by Lu Yang and then killed.

They didn't want this, but they had to follow Alfonso tightly at this time, because in the previous battles, Alfonso fought with the affiliated guilds, including the Purple Lily Fortress and the Luyang Fortress. Battles, as well as several attacks on Tianhe Fortress during the confrontation period.

This time Lu Yang came in, the earliest to fight with Lu Yang were the presidents and players of these affiliated guilds. It can be said that they did not bully Lu Yang before, and this time they did not stop Lu Yang. According to other guilds in the past, The way to treat the defeated, their guilds must be destroyed by Lu Yang, and even these people will be chased and killed by Lu Yang.

In this case, although they are getting worse and worse, they are getting more and more defeated, but they are following Alfonso more and more closely, mainly because the players below can run, they cannot run, they have to.

Milk is such a president. He is standing far away from Alfonso. He doesn't want to listen to Alfonso's tactics. Just follow the instructions. Anyway, it's all sent to death. What he wants now What to do if defeated.

Presidents like him, how difficult it is to set up a 60,000 guild, only how much effort and hardship he has paid to know, he does not want to lose the entire guild because of Alfonso.

While he was thinking.

“Dididi”

The sound of the intercom sounded, Milk opened it, raised his eyebrow in surprise, looked around, and quietly exited the crowd. Pressed the call button in a place no one asked and asked: “This time you What am I doing, man. “

Fernando knew the play when he heard the last two words, and said, “Alfonso is doomed to defeat. What are you still doing with him, how about joining me?”

Milker’s eyes lightened and he asked, “Lu Yang is willing to accept us?”

Fernando said: “Of course, I’m looking for you on behalf of Lu Yang, how about, if you are interested, come to a special space, I invite a few more people to talk together.”

Milk looked at Alfonso and others in the distance and no one noticed him and said, “Yes, you can invite me.”

Fernando established a special space, first invited Lu Yang, and then invited Milk, a flash of light flashed, Milk entered the special space, he saw Lu Yang at a glance.

“President Lu Yang, why are you here?” Milk asked in surprise.

Lu Yang said with a smile: “Let’s talk and see if you have any concerns. I can help you solve them.”

“You don’t have to hold us accountable,” Milk said embarrassedly.

Lu Yang laughed and said, “It was the enemy before. It is normal to have a war. Now we are about to become friends. Let the past go forever. We only talk about the future.”

Milk's heart was as happy as drinking a cold drink in the summer, saying, "Okay, I don't have any other requirements. This is enough. I will take someone out of the battle and support you."

Lu Yang said: "Don't worry, you take someone to rest first, and after you hear my order, you attack the Ironwood Fortress immediately."

"Rest assured, I'll get the brothers ready," Milk said.

Lu Yang nodded and watched Milk go away. Fernando saw the first one finished and immediately found the second one.

...

In less than two hours, Lu Yang negotiated the presidents of more than 50 affiliated guilds. In a while, the Brotherhood of Iron and Blood added nearly 3 million free labor.

Inside the Hydra Fortress.

Ayala and Elena just finished inspecting the fortifications and saw Lu Yang and Fernando whispering and came over.

"Chairman Lu Yang, I arranged for 100,000 people to defend in four directions outside the city. Alfonso has no chance of a sneak attack." Ayala said.

Lu Yang said: "Good job, how about the defense of the Undead Fortress and the Red Wolf Fortress? Is there any problem?"

Ayala shook his head and said, "The two fortresses each have 1 million players to defend, and the remaining 10 fortresses have only one million defenders."

Elena rubbed her forehead and said, "I really admire you. Holding a concert will make it difficult for me to control 50,000 people, but you can control so many players at your fingertips. It's great.

Lu Yang smiled and said, "If you want to learn, you can discuss with Fernando and Ayala, and they will give you good advice."

Elena looked at Fernando and said, "Really, are you willing to teach me? Ayala has always thought I was in trouble."

Ayala said with a black line in his forehead, "You are too stupid."

Elena squinted her eyes and looked at Ayala and said, "You can't teach well. How could I be so stupid like this?"

"Just stupid." Ayala reluctantly spread his hands.

Elena ran away in an instant Fernando quickly said: "Well, if you don't hate it, I can teach you, in fact, it's very simple."

Elena showed a happy expression instantly, went to Fernando and said to Ayala, "I have a master, don't want you."

Fernando fluttered instantly.

Lu Yang laughed and said, "I'll talk about this later. Let's discuss the game. Next, we should attack completely."

"Full offense? Do I need to draw people out? We don't have enough staff," Ayala asked.

Lu Yang shook his head with a smile and said, "Just now, Fernando pulled me to the chairman of 50 affiliated guilds around Alfonso. Next time, we will have 3 million more players."

“Woo ~~~!”

The trumpet sounded, in the stunned eyes of Ayala and Elena, the players of the Jagged Brothers Alliance were awake!

Chapter 1342 - Fight or drop

“The whole team, the whole team quickly.”

“Find the respective teams and gather quickly.”

“The battle has begun, winning the eastern mountains in one fell swoop.”

...

Zhuo Jiu, White Lion, Zhou Tianming and other vice presidents gathered their players, and 300,000 people completed the entire team in less than half an hour, stepping out of the Hydra Fortress in sequence and heading for the Fire Bug Fortress.

Lu Yang, Ayala, and others stood at the front of the team. If Lu Yang had just entered the eastern mountainous area with 300,000 people, he was still not sure whether he could defeat Alfonso. Now he is fully convinced Alfonso failed.

The president of a guild does not speak to the people, does not convince his subordinates with fairness and prestige, and only thinks that relying on the terrain advantage and the large amount of money in his hands can keep the eastern mountains, then he will be cast aside by everyone.

Ayala looked at Lu Yang's eyes a bit confused. At this time, Lu Yang, with the confidence on his face, looked so tall against the 300,000 strong players behind him.

She couldn't help asking: “Lu Yang, how did you dare to hit 8 million people in Alfonso with 300,000 people, was it just equipment and level?”

Lu Yang smiled over his side and said, "Of course not. In fact, if I command these 8 million people, let alone 300,000 160-level dark gold equipment players, I can defeat them even if they come to 600,000 people. This The failure of Alfonso was completely defeated by this man. "

Ayala shook her head and said, "I don't understand."

Lu Yang patted Fernando's shoulder back and said, "From the moment I knew Fernando left Alfonso, I knew he must be defeated. As Alfonso's first combat vice chairman, such a commander of the battlefield How many can there be in a guild? I would never dare to fight like that.

Fernando's face was a little embarrassed, but when he heard it, he smiled bitterly, saying, "If it were me, I would gather the anti-war corps to attack the formation of the Iron Brotherhood. As long as the crazy wolf army dare to come out, I Can surround them, or forcefully cut the tauren formation, but the fool Alfonso knows that he is surrounded by siege, and the waste under his hands only knows what he said, and few know how to fight. "

Lu Yang smiled and said, "If Fernando does this, I can only use the tenacity of the Jagged Brothers players to play with Fernando for three consecutive days and three nights. I can resist it. Spanish players ca n't handle it. This is possible. Victory, but at this time, I have at most laid down the Hydra fortress and have no ability to move forward. "

Fernando nodded and said: "My tactical exercises can only stop here, but there is the help of the strongest seven nations. Although Alfonso lost, but not as everyone now betrays him, he will lose it. All forts. "

Lu Yang smiled and continued to march forward. The 50 affiliated guilds can instantly subvert all the fortresses of Alfonso's men. Alfonso's defeat has been settled.

Fire Bug Fortress.

Alfonso didn't know the dilemma he was about to face. He stood laughing on the east wall and said with a laugh: "Brothers, hold on, seven million strongest guilds have hit Ralbagh. Fortress, the Group of Eight also began to attack the Tianhe Fortress and the Gold Mine Fortress. As long as we persist, Lu Yang will retreat in order to keep his hometown. "

There should have been 8 million players below. At this time, more than 1.5 million people have disappeared, and there are only more than 6 million. Although there are still many people watching, many people just don't want to leave their faces, but now the time it is already 9pm in Spain and they will not continue playing for too long.

"Boss rest assured, we must fight to the end with the Jagged Brothers Alliance."

"Sworn to keep the eastern mountains."

...

Several good-slapping players shouted in unison, but there was very little response below. The battle of Hydra Fortress has already lost the morale of the players under Alfonso, and the scene of 300,000 people galloping feared them.

A player whispered to the head of the mage regiment: "Can this battle continue? The gap between us and the Brotherhood of Iron and Blood is too great."

The head of the mage regiment sighed and said, "Look at the fight, anyway, we try our best."

"Yeah, the Jagged Brotherhood is so powerful, we can't beat it at all."

"I'm sad, I'm so upset, I really don't want to fight."

"Just surrender."

...

The attitude of the Spanish player is like this, but Alfonso on the stage does not know it yet. Listening to the slogans shouted by the men, Alfonso even nodded with satisfaction, but Alvaro and A group of

deputy vice presidents at war knew that things were not so simple. From the reports of the heads of various legions, they knew that their players had lost confidence in the war.

Alvaro tried to persuade, but could not think of a solution to the problem at hand. At this time, he really sighed. If Fernando was there, why couldn't they think of a solution.

"Woo ~~~!"

"Woo ~~~!"

"Woo ~~~!"

...

The sound of the horn of low-sounding kill suddenly sounded in the distance to the east of the Firebug Fortress. On the sky of the Firebug Plain, a black line appeared in the early morning sunlight in the game, which was the 300,000 army of the Iron Brotherhood.

Lu Yang flew into the sky with the Fire Phoenix and the Black Iron Hawk Eagles. On the ground, 30,000 tauren were lined up. The melee warriors, theocratic knights, and blood oath shamans were interspersed among the tauren. The two parts are divided into two wings. From the moment they met, Lu Yang put on a combat formation.

"Boss, Lu Yang's people are here," Alvaro said.

"I use it, I see it." Alfonso drew out his two-handed sword and shouted, "Pay attention, prepare to fight."

More than 6 million players looked back and watched the people of the Brotherhood of the Iron Blood come again. The thought of how these people could not be killed, they were killed by going up to two swords, and they have lost their interest in continuing to fight. Unfortunately, as a member of Alfonso's League of Kings Alliance, they had to go.

No one noticed that during this attack, the players of the affiliated guild who accompanied Alfonso attacked, but they were slower than the players of the Alfonso guild for several minutes.

Alfonso guild players and Lu Yang fought, and nearly one million players still did not act, which made Alfonso and Alvaro and others standing on the wall very angry.

“Give me a question and ask them what’s going on, why not?” Alfonso angered.

Alvaro picked up the phone and called Milk first. “Why not attack?”

Seeing that it was Alvaro, Milk knew that it was a good old man, and sighed, “Brother, it’s not the brother who doesn’t want to help you, but Alfonso’s really exhausted, you don’t care.”

Alvaro instantly felt that something was bad, and quickly asked, “You, you, what are you doing?”

On the battlefield, a white light lit up, and more than 50 affiliated guilds including Milk were used by 1 million players collectively to return to the city.

At this moment, Alfonso was stunned, he looked at Alvaro unbelievably, and asked, “They, ran away?”

Alvaro’s brain was also blank, but in less than 30 seconds they were lost.

[System Tip]: Milk breaks the relationship with the affiliated guild of the League of Kings

[System Tip]: Milk declares war on the League of Kings

[System Tip]: Milk is destroying the teleportation team of the Twin Lion Fortress

Alfonso’s brain sounded as if a large bell slammed into his ear, as if bitten by a rat, and yelled at Alvaro: “Milk betrayed me at this time, he betrayed me. “

Alvaro was also anxious, roaring: "This time is not the time to discuss his betrayal or not, and quickly send someone to teleport to the city's mansion to keep the last teleportation team. You cannot give him the opportunity to destroy the last teleportation team."

Alfonso was startled by Alvaro's roar for the first time, but he quickly responded and said, "Yes, you must first protect the main town's teleportation array."

But at this time.

[System Tip]: Igor has lifted the relationship with the affiliated guild of the League of Kings

...

More than 50 affiliated guilds successively lifted their affiliation with the Alfonso guild and attacked the rear fortress at the same time.

A total of 24 fortress teleportation arrays were destroyed by players in affiliated guilds, including those in the main city hall, in less than 3 minutes. At this point, players of the Alfonso Guild can only use the teleportation array to fly to Agave Fortress 7 hours away from the Undead Bird Fortress. Other ice marks and Purple Lily Fortress were also captured.

This is what Lu Yang left Alfonso in order to prevent Alfonso from fighting with the trapped beasts. As long as Alfonso chooses to withdraw from the eastern mountains, the battle in the eastern mountains will really end.

Fire Fortress under the east wall.

Lu Yang looked at the Alfonso player below in the sky. At this moment, more than 6 million Spanish players in the field showed a confused look. In a short moment, the safety zones of more than 20 fortresses were all destroyed. They don't know if there is any meaning in the next battle, or how they should fight to make sense.

On the other hand, on the Iron Brotherhood, the presidents of more than 50 guilds such as Milk on the World Channel have announced their allegiance to the Brotherhood of Iron Brothers. The morale of 300,000 players has been boosted.

Lu Yang lowered his body and said at a height of only 50 meters from Alfonso: "Concede the loss. If you concede now, I will allow you to sell all the fortresses and let you exit the game decently."

Alfonso looked at Lu Yang and did not answer. Lu Yang could see a strong hatred from his eyes.

"Don't be so hostile to me. If it is me who is in this situation today, you may not do better than me. Continue to fight or exit with money, you choose." Lu Yang said.

Chapter 1343 - Lu Yang fully occupied the eastern mountains

Alfonso almost squeezed out of his teeth and scolded: "Lu Yang, even if I die, I will not surrender to you. Players of the League of Kings, we fight with the enemy."

"Fight?"

"How do you spell it?"

"What fight?"

...

Most of the 6 million players' psychological defenses have collapsed, their homes have been lost, the enemies have failed to fight again, the affiliated guilds have betrayed again, and Ayala and Elena have so

much influence. Players in the country are Join in large numbers, this is simply a war that cannot be won.

Boom!

Six million Spanish players collapsed, and the scattered players fled, and no one defended the Fire Bug Fortress again, and began the overall escape.

Alfonso stunned!

He watched the collapse of his men and didn't know what to do, as did the vice chairmen of Alvaro. For the first time, they found that their men were out of control.

"What should I do? What should I do?" Alphonso muttered to himself.

Alvaro first came to his senses and said, "We can't just quit like this, we must insist, fly with me to Heaven City God City, order all players who can fly to Heaven City God City, fly in, and we will regroup there, As long as Lu Yang dares to return to the Lalbagh stronghold, we will return to the eastern mountains and fight against them. "

Alfonso suddenly woke up and said, "It makes sense, you're right, we haven't lost yet, Lu Yang will definitely leave, and we must have a chance to come back."

[Guild Channel] Alfonso: All players pay attention, and immediately fly to Tianyu Shencheng, listen to my order, and immediately fly to Tianyu Shencheng.

It seemed as if he had caught the last life-saving straw. Most of the more than 6 million players flew to the Celestial City using the scrolls back to the city.

Lu Yang looked at the scene, sighed, and said, "It looks like this war is going to become a protracted war."

Ayala and Elena smiled.

“Chairman Lu Yang, in order to show our role, otherwise, our role in this war is too low.” Ayala said.

Lu Yang asked with a smile: “Can you say that, does it mean that you have a solution to the problem at hand?”

Elena said: “Of course, after tonight, a few of us will use our influence to try our best to join Alfonso. We have collected the names and phone numbers of the legionnaires and watch our performance. “

Lu Yang smiled even more, and said, “Very well, do a better job.”

Ayala asked: “Are you ready to take these 300,000 people back to the Lalbagh Fortress now?”

[System Tip]: Lalbagh Fortress is Occupied by the Enemy

[System Tip]: Lanmeng Fortress is occupied by the enemy

Lu Yang spread his hands and shrugged his shoulders, and said, “It’s not necessary, both fortresses have been lost. If I had predicted correctly, by tomorrow morning, east of the Qingling Plain, I would have just occupied 11 towers. The fortress must be lost. “

The 1 million elites of the 7 strongest guilds are all special occupations. There are also a large number of slingers, and the time and space breakers have disrupted the space-time teleportation there. It takes 7 hours to take someone to the celestial fortress east of the Qingling Plain.

When Lu Yang’s 300,000 people arrived, he had no fighting power. He could only watch the Indian legion being sieged. Therefore, his return did not make any sense, and it did not make any sense to send someone for support, let alone he left. Fang Suo had to come back immediately, but at that time, he couldn’t come back. After all, the teleportation team here was destroyed, and it took a day to rebuild.

“Let’s go and occupy all the fortresses of Alfonso, except for agave,” Lu Yang said.

“Yes,” everyone answered.

For a time, the 300,000 people of the Iron Brotherhood, together with Ayala’s men and more than 50 affiliated guild players who betrayed Alfonso, helped the Iron Brotherhood to win the reputation of 24 forts on the eastern side of the eastern mountain area. At 3 o’clock in the morning in Spain, Lu Yang officially announced that the entire army of the Brotherhood of the Iron Blood successfully occupied the entire eastern mountain area.

At this point, Alfonso only has more than 6 million players who can fly back to the eastern mountain area through the Celestial City. The rest of the eastern mountain area has no relationship with Alfonso any more. In arms.

However, on the other side, Lu Yang also lost 11 fortresses including the former soul of the Group of Eight, including Tianhun, Heishui, and the Holy Church. In this region, Lu Yang and the seven strongest guilds led by the Group of Eight confronted again. On the Qingling Plain.

late at night.

Lu Yang, Ayala, Elena and others are sitting at the head of the Fire Bug Fortress. If Alfonso’s men want to return to the eastern mountains through the Celestial City, they must appear where they flew away, which is the Fire Bug. Around the fortress.

Tu Feng came to Lu Yang and said, “300,000 people have been assigned on duty, 200,000 people have two vigils, and 100,000 people are sleeping peacefully, ready to deal with the war tomorrow morning.”

Lu Yang nodded and said, “Go and rest. I’ll follow the vigil today.”

Tu Feng said, “You haven’t slept for two nights. Go and take a rest. I’m watching here. I’ll let you know if something happens.”

Lu Yang shook his head and said, “I can’t sleep. You go to rest first. The logistics work requires your overall planning. Don’t get tired.”

Tu Feng still wanted to speak, but knew that he couldn't persuade Lu Yang at all, so he had to step back, sit beside Lu Yang and quit the game, and fell asleep.

He is really too sleepy!

Inside the game.

Ayala sat beside Lu Yang and asked, "What are you thinking?"

Lu Yang said with a smile: "I'm thinking of Alfonso, what do you think he thinks at this time, will he discuss what to do next in the Heaven City God City and the seven other strongest guild leaders?"

Ayala thought about it, and frowned, "It should be discussing the countermeasures. Our spy received the news, and Alfonso did fly to the Heaven City God City."

Lu Yang said, "Let's go and see how he is."

Ayala: "..."

Elena: "..."

Laura said, "No, just ridicule him, just ridicule him."

Lu Yang shook his head and said: "I make a hypothesis, what if the seven strongest guilds decide to raise Alfonso together? When they continue to attack, I have to return and leave only Millions of you stay here, and the affiliated guild may be rebellious at any time. At that time, Alfonso's army of tens of millions appeared, and your number is only half of the other. Is it right? "

Ayala's three daughters were speechless.

“It makes sense that we must completely eliminate Alfonso.” Laura said.

Lu Yang shook his head and said, “It can’t be destroyed, but I have a way to make Alfonso continue to break with his men.”

“How?” Ayala asked.

Lu Yang said: “I believe that Alfonso’s men are also in Tianyuan God City. It’s better to do this. The three of you go to their head level players to chat, and they don’t break the law, right?”

Ayala quickly responded, looking at Lu Yang with complex eyes and saying, “You ...”

She wants to say that you are really lacking in morals, but you have gone back abruptly, for fear of Lu Yang’s resentment, and then asked her to settle accounts. The two women, Laura and Elena, also reacted and looked at Lu Yang differently.

Lu Yang reluctantly said, “Don’t look at me like this, you should also make more contact with your team leader. You must know that players at this level are the least caring. You presidents and the big stars talk in person. It’s better than fighting them in the future. “

“Okay, let’s go,” Ayala said.

“It’s a pity you don’t choose a president, orator.” Elena said.

Lu Yang laughed and flew to the Celestial City with his three daughters.

Qing Qian Zimeng has already reported to Lu Yang that the seven strongest guilds and the Alfonsomi in a hotel in the middle of the Celestial City of God, and most of the players under Alfonso are in the central area of the Celestial City of God. rest.

Ordinary players have rested at this time. Only the players at the level of the regiment and regimental are still online, and they are waiting for Alfonso’s next order.

Burning Pub.

In a private room on the third floor, the presidents of the seven strongest guilds plus Liu Jie and Steger were sitting at a table with Alfonso to discuss.

Sanyou Weimen said with a smile: "Don't be discouraged, you can retain more than 6 million players, this trick is very beautiful, leaving you great hope in the future."

Olma said with a smile: "Your 6 million people are like the millions of players who retreated in France during World War II. As long as the people are still there, you will be able to regain your territory."

Alfonso was refreshed and said, "Do you really want to help me?"

Olma said, "Of course, we can't let Lu Yang continue to grow. If we continue to do so, we will be destroyed by his central area."

Liu Jie said: "Yes, it's not just your central area, nor the northern area of Steige and me. There is no way to live. He is too strong."

Steiger nodded and said, "After going through so many online games that have opened the world server, Lu Yang and his Jagged Brotherhood are the first powerful presence that makes us feel invincible they It's too strong, it shouldn't exist in this game, it must be cleared. "

Alfonso breathed a little sigh of relief, and said, "He is really too strong, do you know? Not only is he strong alone, but also the group of vice presidents and commanders at all levels under his command. I can make 30 people just like waving his arms to him. I have never seen such a guild. If you do n't join together, my failure today is your tomorrow. "

Everyone nodded.

Sanyou Weimen asked, "What are you missing now?"

Alfonso said, "All my fortresses have been taken away by Lu Yang. Now I need a lot of money and a lot of supplies of level 140 dark gold suits and potions and mixtures. If you can provide I, when Lu Yang withdrew from the eastern mountains, I could easily take back the eastern mountains. "

Olma and Mitomon looked at each other.

"We can provide you with funds, but we also have limited cash. In this way, we will give you equipment in advance, but we can only give money once a week."

Chapter 1344 - Lu Yang's plan to kill

Alfonso was very clear that the purpose of these people to help themselves was not really helping. They were only doing this to help them control Lu Yang, and the two parties were only for the benefit. Once Lu Yang eliminated Yang, he would be unlucky.

"Yes, please bother to pay me this week's salary now, and I will immediately send it to my men, otherwise, I am afraid they will not be able to carry it," Alfonso said.

There was a smile on the faces of Mitoemon and Olma.

"President Alfonso, give us a few things. After all, we can't take out the money immediately, and we have to discuss the share of their respective contributions, right?" Liu Jie said.

Sanyouweimen and Olma nodded together. They didn't really help Alfonso, they just wanted Alfonso to restrain the 300,000 people in Luyang. They had sent a total of tens of millions. Players, daily consumption is an astronomical figure.

Not to mention whether it can be beaten, even if it is, the existing area is the Group of Eight, and the Group of Eight has also paid 200,000 gold coins to redeem his fortress. The next one was divided equally between them. As for how to divide evenly, whether Steige and Liu Jie, who are far away in the north, are divided, they are not completely resolved.

Alfonso looked at the expressions of several people, knowing that it was impossible for them to give immediately, and said, "Okay, I'll take a loan myself."

"Great, now we can discuss how to attack tomorrow." Liu Jie said.

Alfonso intensively discussed with Liu Jie and others, but did not wait long before some players ran in and reported, "Boss, Lu Yang came with Ayala and Elena and others, just in the hotel building. Next, chat with Alfonso's men. "

"I ..." Alfonso almost didn't memorize the words, and tried to calm down and yelled, "I killed the bastard."

He quickly got up and ran downstairs. Liu Jie, Sanyou Weimen and others were also shocked and followed Alfonso to the downstairs.

Fiery Fire Tavern on the first floor.

Lu Yang is sitting opposite Alvaro with a smile, and Ayala, Elena, Rolla and other big stars are surrounded by more than 60 Spanish head-level players in the next room, one of which is the Legion Long level.

Ayala and Rolla and others have a clear division of labor. Men solve women, women solve men. Their popularity among Spanish players is quite high, and soon they become a piece. The identity of these people is Ayala. Clearly, they are all the heads of Alfonso's subordinates between the main and non-main forces.

These people have a very clear feature, that is, they are not Alfonso's close friends, and they only have an employment relationship with Alfonso. Once they leave office or vote in other guilds, Alfonso has no right to block.

Alvaro watched Ayala and others enter the rooms, but he could not stop them at all, because Lu Yang was sitting in front of him, and around him were dozens of legions and vice-chairmen. When he left, no one could tell who Lu Yang was sitting in front of.

Lu Yang saw that Alvaro understood his intentions. He smiled and didn't speak. He just sat there and looked at Alvaro's blue eyes.

Yang Mou.

Yes, it's Yang Mou. I'm Lu Yangming telling you what I'm going to do, but you just can't stop me, and because of my approach, you doubt your subordinates, if you dare to move, everyone in this room will be arrested. Fangsuo suspected that you could only sit in front of me and just watch.

"Pedal, pedal, pedal"

There was a rush of footsteps in the staircase. Alfonso jumped up to the stairs on the first floor and saw Lu Yang really opposite Alvaro. He growled, "Lu Yang, I killed you."

Lu Yang knew that his strategy had been completed. After sending a message to Ayala, he looked at Alvaro across the table and said with a smile: "Dude, I'm gone."

He stood up and ignored Alfonso, and walked leisurely towards the door. This is a safe area. No one can use force. It is mandatory and there is no choice.

Alfonso couldn't help scolding Lu Yang at the moment. He just wanted to know what Lu Yang and Alvaro said. He ran to Alvaro in two steps and growled, "What did he say to you and why? Your buddy, say, tell me."

Alvaro looked at the angry Alfonso, with only a helpless wry smile on his face. From the moment Lu Yang sat in front of him until he left, Lu Yang didn't say a word to him. Ten thousand words worked.

Apparently, Alfonso already suspected him.

“I said he didn’t say a word to me, do you believe it?” Alvaro said.

Alfonso was stunned. If Alvaro said that Lu Yang wanted to buy him, he did not agree. This Alfonso believed, but Alvaro said that Lu Yang sat with him for so long without saying a word. Ah, they faced each other so long.

“You, this ...” Alfonso glanced at Alvaro angrily, and he ignored the presidents such as Liu Jie and Sanyou Weimen, pointing at Alvaro and cursing: “You told me originally Know exactly what is going on. “

Alvaro was extremely embarrassed, but more fearful than embarrassed in his heart. He looked at Lu Yang’s back and muttered to himself: “Lord Lu Yang, you are so cruel, kill your heart.”

“Say, what’s going on.” Alfonso saw that Alvaro didn’t directly answer his words, but looked at Lu Yang’s back, and he growled suddenly.

He knew that if Alvaro betrayed him, a quarter of the power of the League of Kings would be stripped from his hands, which he would absolutely not tolerate.

Alvaro pressed his anger and sincerely said to Alfonso, “Lu Yang is framing me. He deliberately made you doubt me.”

“Intentionally made me doubt you?” Alfonso asked frowning.

Alvaro said: “It’s not just that you doubt me, but all the legions and commanders we have. Just now Lu Yang treated me like this. Ayala and Elena talked to others in another room. I Afraid that Lu Yang would find other army commanders, he would have to sit opposite him as he had to. I ’m sorry, those commanders, I did n’t know what Ayala and Elena had promised them, and they would be useless. ”

Alfonso almost fainted. It was the backbone of the battlefield. It was destroyed by Lu Yang’s move. Without these people’s command, how could he fight with the Iron Blood Brothers, could he direct it himself?

Liu Jie and Sanyou Weimen looked at each other, and they both saw familiar eyes from each other's eyes.

"It's another trick that the Chinese people make good use of. It has a helpless 5,000-year history. This is a stage of how civilization develops to produce such an ingenuity. It's too vicious." Sanyouweimen reluctantly surprised.

Liu Jie asked, "Is there a solution?"

Sanyou Weimen said: "You are a Huaxia person. You should also know that this is a bright and conspiracy. You have no choice but to accept him. Can Alfonso allow these heads to take players to the battle tomorrow? There is a scene Betrayal, the battlefield collapses. "

Liu Jie nodded and said, "There is still a problem. If these people are not used, these people will formally betray Alfonso, and find the reason for betrayal, or they will go to a group of people, how can all lose."

Presidents Olma and Steige were stunned in their place. They all thought about how to solve this situation, but they could n't find a solution. At that time, I am afraid that even their most trusted men also Can't trust it completely.

Alfonso thought for a long time, and finally, with a bitter smile and helplessness on his face, said, "Let people call over the players who talk to Ayala and Elena, and I will talk to them in person."

Alvaro nodded and ordered to go down. Sixty commanders and one commander outside the door came in and saw so many people that Alfonso almost fainted.

Sixty or so regiment commanders and chiefs did not know what was going on. Just now Ayala and Elena did not rebel against them, they just talked to them. They thought that Lu Yang was going to talk to Alvaro, just by chance. Ayala and Elena had only time, and they had a good chat.

Of course, what is in the mind of these sixty people is their inner thoughts. Who wants to leave, who wants to stay, no one knows, and no one will tell each other.

“Her Excellency President, what do you want from us?” The chief of the army looked at Alfonso’s gloomy expression and couldn’t help asking.

Alfonso thought for a long time, knowing that they couldn’t scold them now, let alone let them go to war, he said: “You guys go offline first and rest. If there is war tomorrow, I will inform you.”

More than sixty people didn’t take it seriously nodded and left Alfonso’s room, but when they left, Alfonso smashed the table angrily and overturned the chair!

Private room on the third floor.

Olma, Steige, and others just sat down, and when they looked at each other, they saw the fright in their eyes. Who could have imagined that Lu Yang didn’t do anything, they came around and ruined Alfonso VI. More than a dozen battlefield commanders.

“It’s not easy. If Lu Yang continues to use this trick, Alfonso’s men will not need him to fight, and they will collapse by themselves.” Sanyou Weimen said.

Olma asked: “So we give up Alfonso?”

Liu Jie shook his head and said, “Not yet, at least Alfonso will still have a certain fighting power tomorrow. Tomorrow you must cross the Shenmang grassland as soon as possible and attack the area where the original Kerim and Daniel were located. Do n’t dare to come back, only the Indian players stay there. You must defeat the Indian players, and then rush into the area where the original step ascended to the sky. Alfonso can persist for up to two days. You must hit the Tiger Fortress within two days. We attacked on both sides and opened any of the two strongholds, even if it was a victory. “

Here Liu Jie and Olma and others discussed strategies, while Lu Yang continued to bring Ayala and Elena and other stars to find Alfonso's first-level player.

Originally, Lu Yang had intelligence detectives here in Alfonso. Now coupled with Fernando contacting each other through the phone book, one night, they have met six wave of commander-level players in Tianyu Shencheng.

Alfonso also withdrew the six wave of head-level players overnight, with a total of more than 500 people. By the early morning of the next day, Alfonso's online players had changed from 6 million to more than 5 million. Only more than 4.8 million people are willing to come. This is because Alfonso said that he only came for equipment and supplies. Otherwise, fewer people would come.

Lu Yang and extremely sleepy but excited Elena and Lola and other women stood on the east wall of the Celestial City, watching Alfonso's men gathered outside the city.

"Lu Yang, did our actions last night have any effect, tell us quickly." Elena was curious like a kitten.

"I have never done such a fun thing in my life, haha, it was so fun to play in the game, too." Laura was equally excited.

Lu Yang smiled and pointed them to the lower left corner of Alfonso's army formation, and said, "That is the result of your labor. More than 500 regiments have no commander, and they have no commanding experience. Can't figure it out. "

"Haha." Elena yelled excitedly, and said, "Did we succeed?"

Lu Yang leaned on Fernando's shoulders, and the goods had been fascinated by Elena, saying, "It's very successful. Let's continue today, while they gather, let's go to trouble."

"Lu Yang, I find you really bad, but I like it." Rolla's mouth showed a sweet smile.

Lu Yang quickly expressed a fearful expression, and said, "Come on, wait for them to come together, they will not be so drawn."

Rolla showed a scornful look and said, "Coward."

Araya and Elena and other women, laughing and pulling Lola to the bottom, leaving only Fernando and indifferent Lu Yang.

Fernando smiled and said to Lu Yang: "Rolla is a big beauty, and he offered to show you his favor, how could you not care?"

Lu Yang smiled and said, "I'm a good man of Gu family. Don't say this, I'll give you a question. Guess, if we didn't counter Alfonso's men last night, what would you say he would do today? "

Fernando said: "If I were here, I would advise him not to rush offensively. The seven most powerful guilds are the most eager to attack. They are anxious to lay down all the fortresses of the Iron Brotherhood and occupy this wide area, as long as Alfonso Take someone to stay in the Celestial City, and wait until you have to return with 300,000 elites, that is when I come back. "

Lu Yang nodded and said, "Yeah, unfortunately, I won't give Alfonso this opportunity. Let's go. Today is the day when Alfonso's guild is completely dismantled. This old friend, we should quit Game. "

Fernando nodded.

The two of them flickered with light and flew back to the Fireworm Fortress. Around the fortress, 300,000 players of the Iron Brotherhood were gathered there, and among the four necropolises around the fortress, Fernando and Ayala each had their own A total of 2 million players are stationed.

As long as Alfonso's nearly 5 million people dare to return, they will be violently attacked by the Brotherhood of Iron and Blood, and as long as players of the Alfonso Guild are killed, they will be killed again in the necropolis.

Wanting to be resurrected in other cemeteries, Lu Yang allowed them to go, but when they passed, they were willing to return, for fear that there were not many.

Lu Yang came to Zhuo Jiu and others, and asked, "Are they all properly arranged?"

Zhuo Jiu said: "The areas where they fled last night were under the control of their brothers. The mountains and the mountains were full of fire thunder and traps, and the resurrection had to enter the encirclement."

Lu Yang fell asleep last night. The muddy wine in charge of the duty took the Fire Thunder Army and the 10,000 Starbreaker shooters all over the mountain to make traps and fire thunders, which Lu Yang did not know.

Lu Yang patted him on the shoulder and said, "Good brother, hard work."

Whenever the Jagged Brothers League encounters a problem, the first one who rushes up is always Zhuo Jiu. Among the many brothers, Zhuo Jiu is well-known, and it is Lu Yang's most trusted comrade in arms.

The cautiousness and thoughtfulness of Zhuoshu was born. He didn't think he had done much, but felt that this was what he should do.

"Dididi"

The voice of the intercom sounded, and Lu Yang picked it up and saw that it was Elena. He pressed the connect button and asked, "What is it?"

Elena heard a crazy laugh on the phone and said, "Oh oh, Alfonso was sitting on the ground with a few of us angry, so I didn't dare to join the team any more. He announced that he was going to return to the eastern mountains. You are ready. "

Lu Yang laughed. He could imagine how Alfonso would have a headache when women such as Elena and Lola were playing rogue.

But he has no way. This is a deadly situation. No matter if Alfonso does not send people back to the eastern mountains, he will disappear, only one speed is slow and one speed is slow. He chose to come back and did not want to be tortured again .

“Come here,” Sun Yu shouted pointing to the east of the Firebug Fortress.

Looking at Lu Yang’s side, a blue light flashed, and more than 2 million players appeared on the plain at the same time.

“boom”

Without waiting for them to stand still, a roar sounded on the plain, countless fire thunders dazzled in the moment of burst, and more than 100,000 players died on the spot.

“Iron brother brothers, kill.” Zhuo Jiu raised his two-handed sword and rushed to the battlefield with people.

All the vice-chairmen around Lu Yang, and all the legions in the field rushed to the battlefield, and Lu Yang rushed to the battlefield.

In the live room.

Dubin pushed his glasses a bit, he pulled the lens high, and said in a language without any emotion: “This is the last war of President Alfonso of tragedy, but obviously, this is the battle of Alfonso’s trapped beasts. During the war, he was not ready, but was forced to return to the eastern mountains under the pressure of stars such as Elena and Lola.

As soon as it landed, it was met by the fire thunder and various traps of the Brotherhood of Iron Blood. Although each of them had a soul stone tied to it, the first life had been handed over. With absolute advantage, Alfonso’s legion was cut into four pieces and began to flee.

Alfonso, defeated! “

On the court.

Alfonso did not expect that he lost so quickly today, even without a little resistance, there is no way, a large number of players at the command level were cut, and he no longer has the ability to attack.

Lu Yang found Alfonso in the air, and he quickly landed in front of Alfonso.

“Lu Yang is here, run away.” The players around Alfonso ran away in fright. Everyone knew that Lu Yang had a level 9 demon heart. They couldn’t carry an attack on this thing, and they didn’t hit it. necessary.

Alfonso watched the players escaping around yelling, “What are you running, come back and fight again, fight again!”

Lu Yang looked at Alfonso, who was furious in despair, and said, “Give up, you have no chance.”

Alfonso waved his sword toward Landing Yang and shouted, “No, I still have a chance. As long as I can hold on, I don’t believe you will give up your hometown.”

Lu Yang laughed and easily avoided Alfonso’s chaotic frontal sword, saying: “The area under my control has a very large profile. Even if I lose the G8 area and the one-step ascent area, I still have the natural danger of the tiger mouth fortress. Have enough time to spend with you, do you have it? “

Alfonso swept a sword unsuccessfully and scolded: “I don’t believe you can survive the day after tomorrow. As long as the day after tomorrow, the seven strongest guilds will reach the tiger mouth fortress. At that time you have to go back. Don’t try to lie I.”

Lu Yang took a step back, easily avoiding the sword, and said with a smile: “Do you know how much defense I have placed at the tiger mouth fortress? 20,000 trebuchets, 200,000 lightning towers, why did seven of them penetrate? My fortress, terrain with a width of less than 500 meters, I do n’t send one person enough to fight them for five days, let alone I have tens of millions of players. “

Alfonso's third sword was raised high, but stopped in mid-air. He froze, looked at Lu Yang in disbelief, and asked, "You, you lie to me, where did you get the 20,000 trebuchets?" How could there be so many? "

Lu Yang looked at Alfonso with a sneer and said, "Everyone has money, but whoever dares to spend it. I'm willing to spend two hundred million to make his slinger, do you dare?"

Alfonso didn't dare. He had two hundred million credit points. He could buy a manor, hire countless servants, drink the most expensive Roman wine, and afford the most expensive Gulfstream G650 private jet. Why? For the people below, why buy a catapult!

"You, don't you lie to me." Alfonso asked.

Lu Yang lost a photo of Alfonso, which was taken from a high altitude. Looking down from the top of the tiger mouth fortress, it was densely packed with trebuchets and lightning towers. Every other distance, there was a rock. The city walls are on the walls on both sides of the fortress. It can be used as a barrier or as a yardstick for a catapult. If you want to attack, you can't break it in five days, but he does n't have five days. Already.

Alfonso suddenly stopped the attack in his hand and said lonely, "I lost."

Lu Yang felt relieved and said with a smile: "Give up, I will give you 20 million credits and live your rich life. You are not suitable for this battlefield, the cruelty here, you don't understand."

If he understands, he will not occupy the most powerful girlfriend, if he understands, he will not use the youth army, if he understands, he will not use most of the money earned in the game to enjoy. If he understood, he would not conflict with himself, but instead formed an alliance with the Group of Eight to give himself ample attack truth.

[World Channel] Alfonso: I announced that the League of Kings was defeated. From today on, the League of Kings is merged into the Brotherhood of the Iron Blood, and I quit the game myself!

...

The same sentence was sent 10 times in a row. Players of the League of Kings on the battlefield stopped the weapons in their hands. At this moment, the Spanish players were full of loneliness, and the players of the Brotherhood of Iron Blood cheered excitedly.

Chapter 1346 - Population war

Immediately after, a flash of light flashed, Spanish players began to use the city scroll to break away from the battle, and a large number of players withdrew from the guild, the number reached millions.

It didn't take long for the players on the battlefield to be left with the Iron Brotherhood and a few vice-chairmen such as Alfonso and Alvaro.

Lu Yang took them back to the Celestial City, or in the fiery pub, found a private room on the third floor. After the two parties took their seats, Lu Yang leisurely took out a contract and handed it to Alfonso, saying: Million credits. "

Alfonso sighed, accepted the contract in a complicated mood, and signed his name on it. At this point, Alfonso officially withdrew from the new battle for "Second World". He and his guild, starting today, Disappear from this game.

"I hope you can treat the players in the eastern mountain areas well." Alfonso returned the contract to Lu Yang and said lonely.

Lu Yang smiled and said, "Yes, rest assured."

Alfonso looked at the players around him. There were angry Fernando, Alvaro who hated it, Ayala who was content with contentment, and the vice chairman who was numb behind him.

"Goodbye." Alfonso quit the game with a light from his body, leaving only such an account. After a few seconds, the official automatically transmitted it to the security zone of Tianyu Shencheng and punished him to quit the game at will.

At this point, there is an extra player in the game that will never go online, so he parks quietly in the security zone of the Celestial City.

Many players recognize this face. In a long time, the safe area where Alfonso is even turned into a scenic spot. When everyone discusses the history of the Second World, they will unconsciously think of a safe area here. The guild leader who once controlled the entire eastern mountain area, and his life in the game has also become a legend in the player's pen.

Of course, these are the last words.

Inside the tavern.

Lu Yang said to Ayala, "Okay, let's talk about how to control the eastern mountain area."

Ayala asked curiously: "Aren't you immediately going back to the original step to the region to organize a war? There is more need for you there, and things here can be postponed."

Lu Yang shook his head with a smile and said, "I'm going back, I'm afraid it's a month later, let's talk about the situation here."

"You said," Ayala said.

Lu Yang said: "After I left, I re-recruited players, and ordinary players recruited at will. The first to enter the studio was 100,000. 30,000 were given to Fernando and 20,000 to Alvaro. The other 50,000 people, remember, to give priority to the elite players of the original Alfonso Guild, we must as soon as possible to heal the grievances of the players in the eastern mountainous areas, and make this place our base for making money. "

Ayala said, "Relax, give it to me here."

"We will manage it," Fernando said.

Alvaro was somewhat surprised. He did not expect that Lu Yang would give him 20,000 people, and said seriously: "Sir President, I have the ethics of professional players, and I will do my best to help you calm the anger of retired players."

After Lu Yang nodded and discussed some things with a few people, he came to the Fireworm Plain and watched the 300,000 players who regrouped. He said, "Brothers, fight in the mountains in the east, we win!"

"Win!" 300,000 people shouted in unison.

Lu Yang said with a smile: "But our battle is not over yet. At my command, the various legions fly to the tiger mouth fortress using the teleporting scroll in turn, and we are there to prepare for the war."

"Yes."

...

Zhuojiu and White Lion successively flew to the Tiger Mouth Fortress with teleportation scrolls.

Lu Yang's body flickered for a while. After 10 seconds, he flew to the Fortress of Heaven. So far, only the fortress of this fortress has not been damaged by the enemy's time-breaker.

The city owner Liang Yun was waiting for him and saw Lu Yang coming, saying, "Boss, a lot of players here are not willing to leave, I only advise a small part."

Lu Yang's purpose here is to persuade the players around the 8 forts in the triangle area from the Tianqi Fortress to the Red Moon Fortress to the Tongtian Fortress to retreat to the Tiger Mouth Fortress. Although there are only tens of millions of players in this area, these Man is also money, he doesn't want to leave it to the enemy.

"I'll try it." Lu Yang turned into a phoenix and flew into the sky.

[Current Channel] Lu Yang: The players who stepped into the sky in the first step, I am Lu Yang, the chairman of the Jagged Brothers Alliance. I hope everyone can follow me to fly back to the Tiger Mouth Fortress. It is not safe here. The seven strongest guilds I will call you soon. There are more than 20 million players. They are inappropriately their own home and will not show mercy to your men. Believe me, there are places in my area where you can upgrade to everyone. No one robs you. Strange, you can upgrade with peace of mind.

...

In the same sentence, Lu Yang made a dozen times in a row, but the effect was still not great.

Lu Yang fell into the city's mansion and said to Liang Yun around him: "In this way, you call all the guild presidents in this area, and I will talk to them personally."

Liang Yun's eyes brightened and he said, "Yeah, that's a good idea. I'll look for it."

There were more than 20,000 large and small guilds in the original one-step landing area. There were thousands of people and few people, but Liang Yun has been here for so long. Most of them have known each other. He sent all the news.

Soon, the presidents of the guilds came to the city's main house, and within a short time, hundreds of people came. Lu Yang sat in the hall of the city's main house, and came to a group. He personally persuaded a group. Retreated to the tiger mouth fortress.

When Lu Yang persuaded here, on the other side, the presidents of the seven strongest guilds were crossing the Qingling Plain with a large number of players.

Olma reluctantly scolded: "Damn, Alfonso is really a waste, and even couldn't resist it for two days, he confessed to seeing him."

Roland, the president of the Green Light Empire, with a charming smile on his face, said: "It doesn't matter. The absence of Alfonso has no impact on us."

Stephen Sword, president of the Diamond Sword Guild, said a little greedily, "This time we want to cooperate sincerely, as long as we defeat Lu Yang, no matter how we divide, we are all profitable."

Sanyouwei said blankly on the facade: "It is indeed very profitable. For more than a year after the new opening, the area where the Iron Blood Brothers League is located, especially the core China area of Luyang, has never been attacked by war, and there is very rich . "

Everyone's face showed a greedy look, not connected with the melee in the central region, the northeast region and the eastern region. One of these two regions was quickly unified by Lu Yang, and the other was quickly unified by Alfonso. Too chaotic as in the middle.

"How about we separate people to attack the eastern mountainous area? I heard that 300,000 people in Luyang have already returned to the tiger mouth fortress. If we take this opportunity to attack, will we be able to hit the eastern mountainous area in one shot?" Asked Radvidev, the president of the Two-Headed Eagle Empire Guild.

G8, the chairman of the Group of Eight, raised his eyebrows and said, "You still do n't have to think about it. You have seen the war between us and Lu Yang before, and we know that our strength is not bad. Lu Yang is too much, but even so, I I still can't beat the fortresses of the Undead Bird and the Red Wolf, not because of their profession and level, but because the terrain in these two areas is too steep. As long as the defenders are not stupid, there is no way to enter. "

Sanyouweimen, Olma and others nodded. They have watched the G8 and Jagged Brotherhood battle videos before, and know that the G8 is powerful. Since the G8 cannot reach it, they do not have to look for that bad luck.

“Well, let’s fight in the Northeast.” Radeviev said no one should talk to him. Although he was not convinced by the G8, he chose to listen to everyone.

Liu Jie suddenly issued a call request to all of them, and several people pressed the call button at the same time.

Gelgar asked, “What’s up?”

Liu Jie said: “Lu Yang is persuading players who originally climbed to the sky to move to the area inside the tiger’s mouth. There are tens of millions of people. Try to stop it, otherwise you won’t have any meaning in this area.”

Gerga and Olma were astonished.

“Asshole, Lu Yang actually used a household account, it was too shady.” Sanyou Weimen couldn’t help but scold him.

“Quickly order the players in their respective hands, preaching that we will not attack them, and we must not become empty cities.” Gelga shouted.

Kerim, Blood Butcher, and others hurriedly sent news. At one time, in the original one-step ascent, Iron Brotherhood and the Group of Eight began to compete for population. In terms of credibility, the two guilds were not much different, but in terms of war, players were still more willing to choose to believe in the Jagged Brotherhood, so when the seven strongest guilds brought more than one million elites across the Qingling Plain to the bottom of Tianji City Among the more than 40 million players in this area Two-thirds of them left, leaving only a few who were too lazy to move and not online, and the materials in the fortress were also evacuated by Lu Yang, leaving only 8 empty cities for the other party.

On the west wall of the tiger’s mouth fortress, Lu Yang lay down leisurely in the gate building, surrounded by a group of vice-chairmen such as muddy wine and white lion.

“This time everyone can take a good rest. The enemy is 10 hours away from us. Don’t worry, just go to sleep.” Lu Yang said.

They are indeed sleepy. They did not sleep last night. They fought another battle this morning, and then the team returned to the tiger's mouth. Now they can rest, and they can't help but quit the game and find a place. Fell asleep.

Lu Yang also found a place to fall asleep. It is rare that they can sleep for 10 hours on the battlefield, which they dare not imagine.

China time.

In the evening.

Lu Yang was noisy by the alarm clock. When he woke up, the distance to the people at this time was only the last hour.

Chapter 1347 - Tiger mouth battle

Zhuojiu and White Lion also woke up, and the 300,000 players in the Jagged Brothers Alliance also woke up.

Lu Yang still only allowed these 300,000 people to participate in the war this time. Among the players in the Indian region, except the Forbidden Spell Master and a small number of special legions, the rest all quit the battle.

In the end, 400,000 people were left on the fortress's walls, of which 200,000 brothers of iron and blood, 200,000 players in the Indian region, and 100,000 people under the city were all members of the Blood Wolf Legion.

However, at this time, the full-scale equipment of the Iron Brotherhood was not complete. In terms of scrolls, the Iron Brotherhood was able to win the eastern mountain area so quickly. The scroll played a major role. Most of the billion scrolls accumulated in the guild were thrown out.

After two days, Grant's Scroll Studio produced a total of less than 100,000, not even one per person.

"It looks like this is a hard fight." Tu Feng said with emotion.

Lu Yang nodded and said, "It depends on our defense and willpower this time."

Zhou Tianming couldn't help asking: "Boss, what is the situation of our enemies, we know nothing about them, do you know?"

Lu Yang said: "I only know about it. After all, we haven't reached that far, and there is not much penetration into the central region."

Who would have thought that Lu Yang hit an eastern mountain area, causing the strongest guilds in most of the map to come and hit him.

"I tell you what I know. The first guild of these people, a total of seven strongest guilds, is not a player from seven countries, but a guild of 36 countries together to participate in the battle." Yang said.

The white lion blinked and said, "I don't understand what happened."

Lu Yang smiled and said, "Let's start with our old friend guild, Sanyouemon. In fact, this guild is three super guilds that include three countries, Indonesia and Malaysia. .

The same is true of the strongest guild in Sudan that we met on the battlefield before. He is the strongest guild formed by the merger of super guilds in five countries. "

"Co-authoring these seven strongest guilds are all merged." Said bitterly for half a life.

Lu Yang nodded and said, "Don't underestimate these merged guilds. The central region is too messy. A single guild cannot survive. Only uniting can keep you safe. As you open up, you can eventually form the seven strongest guilds. The force proved that none of the seven strongest guilds is a waste. The problems of Alfonso will definitely not appear to them. This is a completely tough battle, and everyone must be mentally prepared. "

People such as Zhuojiu and White Lion nodded their heads. Originally, they slightly despised the enemy. After listening to Lu Yang's explanation, they felt that the war was not so easy.

"I'm not afraid of them. We have so many trebuchets and lightning towers. We're not afraid of anyone," said Tian Yao.

Lu Yang laughed. If he only relied on the player, he really didn't have the confidence, but with the tiger mouth fortress, and so many lightning towers and catapults, he didn't believe that the enemy could come in.

"Boss, the enemy's vanguard has appeared, and it is also the Blood Wolf Legion." Wanqing Wanlong called.

Lu Yang raised an eyebrow and asked, "How many people?"

Pride said, "It looks like 50,000 people, it's a very mixed race, and it looks like a multi-national mixed army."

"Where?" Lu Yang asked.

"It's in a village half an hour away from the fortress. It was my hidden area. I didn't expect the enemy to choose it as a resting place."

Lu Yang said: "Surround them, fight first."

"Yes," said arrogantly.

Lu Yang turned into a phoenix and flew towards the sky. The 500 phoenixes behind him and 10,000 black iron war eagles following him took off. The army flew towards the village in a mighty manner. He wanted to see with his own eyes the combat effectiveness of the enemy.

In the clouds.

Lu Yang was flying forward. Suddenly, a blue feather was exposed in a dark cloud. The feather was so clear that Lu Yang recognized an enemy hiding inside.

“Attention all, the Phoenix Army is aiming at the dark cloud in front of me and melting the bombs,” Lu Yang roared.

Five hundred phoenixes chanted a spell at the same time, a melted bomb flew towards the black cloud area, and Lu Yang also chanted a spell.

“Meteor Falls”

The super large fire meteor immediately followed the melting bomb, and the clouds in the sky were melted by the flame bomb and the temperature of the fire meteor melted into the dark cloud.

“boom”

Melt bombs and fire meteors exploded. Just as the dark clouds melted, countless flying professions flew out of the dark clouds and were located 50 meters across from Lu Yang.

Lu Yang took a closer look and found out that this was a mixed profession, including archangels, phoenixes, crows, war eagles, and roc birds, with a total number of about 20,000, but the profession was extremely complicated. These flying professions were absolutely ineffective Of cluster fighting power.

“Lu Yang, we’re meeting again.” Gala’s lover, also the head of the Angels Corps, Laura gritted his teeth and said.

Lu Yang smiled and said, “I’m still curious. Why didn’t the Angel Army of Gherga come to investigate, it turned out to be hiding in the high ambush.”

A dragon knight flew to Laura on a ten-meter long Yalong and looked at Lu Yang. “President Lu Yang, can I ask, how did you find us?”

Lu Yang looked at the dragon knight and asked, "Are you?"

Holding the dragon gun in his hand, the dragon knight proudly said, "I am Christo, the vice president of the Green Light Empire, the strongest guild in Austria and Ireland. Please answer my question."

Lu Yang smiled, looked at a group of green feathered dragons in the distance, and said, "Their feathers are exposed outside the dark clouds."

Laura and Christo looked at the hundreds of dragon and beast players at the same time, and the leader of the team said unhappily: "If you hadn't let us stay by the side or let us get too close, how could we be found by the enemy . "

Laura said, "Don't make a noise, let the enemy see our jokes? Pay attention, prepare to attack."

The angel legion swung out of the formation, the two-winged feather beast and dragon knight quickly approached, and the phoenix and crow behind spoke the spell.

Lu Yang sneered and said, "Just because you dare to fight with me in the air, the Black Iron Warhawk Legion, kill everyone except the Dragon Knight. Don't approach the Dragon Knight and attack by the Phoenix."

The Dragon Knight is a relatively annoying army group. They have both magical attacks and physical attacks, especially the dragon knight's dragon gun and dragon sword. With the attack, they have very high damage.

The dragon knights themselves are highly defensive. The best way to kill them is to use the Phoenix skills of the Phoenix to kill their health.

10,000 black iron war eagles roared and rushed to the enemy army. Lu Yang personally took the Phoenix army to attack the enemy's dragon knight.

“Dodge the Phoenix, the Dragon Knight spins forward to attack.” Christo held up the dragon gun and issued an order. Less than 200 Dragon Knights immediately spun forward in the air, flying forward, and the Phoenix of the Phoenix Army suddenly became meaningless.

Lu Yang admired that Christo was indeed a famous master of air combat in the last generation. In the previous air combat competition, his highest ranking was first in the world. Although only once, it was enough to prove his air combat ability.

If in the last life, Lu Yang had to retreat to Christo, but in this life, Lu Yang’s reaction speed far exceeded that of Christo. In Lu Yang’s eyes, although Christo’s movement speed is fast, but Also very limited.

Lu Yang watched as Christo rushed in front of him, and the seven-meter long lance tip could poke him in a second.

“You want to stab me, you’re too tender.” Lu Yang’s body swung fiercely in the form of Phoenix, and just avoided the attack of the dragon gun. In the surprised eyes of Christo, the two approached quickly.

“The Sun Fist”

Lu Yang’s body emitted a red light, and a red phoenix light and shadow flew out from him. In the center of Christo’s body, he stopped it in place, and even the dragon followed the emergency stop.

“Melt bomb”

Lu Yang’s mouth spelled out, melting bombs one by one and shooting towards Christo. At this time, Christo was stiffened for 2 seconds because he was hit by an emergency stop at a high speed. Clock time.

All four rounds of melting shells hit, and Christo suddenly had blood. When he reacted, he quickly ran away.

Seeing this, Laura immediately filled the vacancy, and the stick in her hand slashed towards the landing sun, while cursing in the mouth: “I told you not to take care, why are you messing up?”

Christo ashamed and said, "I didn't expect Lu Yang to be so powerful, I despised the enemy."

He thought that with this trick rotation attack could hit Lu Yang, but he did not expect to be hit by Lu Yang. One move was lost, and the move was lost. Lu Yang has a level 9 demon heart, which is almost equivalent to ignoring magic resistance. , Also with a high amount of crit effect, 4 melting bomb attacks equal 8 damage, he is still lucky to be alive.

Just when Christo wanted to recover he didn't notice the smile on Lu Yang's face, he said to the escaped Christo: "Do you think you can run like this, Look at heaven. "

"Destroy the Sky"

A group of crimson flames fell from the higher air, and in the eyes of everyone, the crimson flames were in the middle of the high speed Christo escaped.

"5857498" (Critical Strike)

Christo, die!

Everyone was stunned by this trick, and everyone couldn't believe it. Looking at Lu Yang, who could have imagined that under such circumstances, Lu Yang could grasp Christo's trajectory and accurately calculate his escape. Distance, we must know that the extinction of the fire is delayed by three seconds!

"Damn, how is this possible?" Laura waved her arms at Landing Incredibly.

Lu Yang's phoenix is huge in shape. Facing the boss's sweeping and vertical split attacks to avoid effort, he looked at Laura with a sneer on his face and said, "Do you think you can hit me like this?"

Chapter 1348 - Vulture legion

Suddenly he flew forward one meter while Laura was wielding his weapon, and the crimson phoenix's body once again appeared more vivid red.

“Resistant Fire Ring”

Laura did not expect that Lu Yang would dare to attack forward in this situation, and his body was attacked by the ring of fire, and he retreated involuntarily.

“Pyroblast”

“Pyroblast”

...

Four Pyroblasts were fired in succession, and Laura died on the spot, but a flash of light flashed. Laura's resurrection stone passively played a role in bringing him back to life.

Laura looked angrily at Lu Yang, 30 meters away, gritted her teeth and cursed: “Don't think you can beat me, this time you lose.”

Lu Yang frowned. He found that there was something wrong on the battlefield. The Black Iron Battlehawk's attack power was very strong, and the damage to air was too high. There was a 160-level dark gold suit bonus, and the other side was 150 players.

As soon as the two sides contacted, the opponent was dying in large numbers. Although there were many people on the other side, the other side did not mean to escape, and they could not avoid hunting for fighters. This obviously should not appear on the reconnaissance force, unless the opponent has some backhand who can have fought their own legion, or have any way they can kill themselves.

Lu Yang couldn't help but stop and look around. In the high air, there are clouds in most areas. The dark clouds and white clouds are mixed with each other, and there is no problem.

While Lu Yang was thinking, a dense beam of light appeared over his head. Lu Yang could guess what skills this was without having to look at it, and immediately made his scalp numb.

“flicker”

A white light flashed, and at the same time, 14 black, white, and green light arrows passed through the white light at the same time.

30 meters away, Lu Yang had just emerged from his physique. He did not wait to stop, and escaped with a dagger in his hand and slanted downward.

“Escape The Dagger”

The faint blue light flashed, Lu Yang’s body disappeared into the air, at the same time, 14 three-color light arrows passed through the blue light.

Although Lu Yang fled, the 500 phoenixes and 2,000 black crows, such as De Buwei, who did not hide behind him, were shot by the intensive arrow rain and were shot to death on the spot.

Fortunately, the resurrection stones were tied to people such as Debuwei, and flashes of black light flashed. They all resurrected after descending a height of 100 meters, and they were all right next to Lu Yang.

“Boss, are you okay.” De Bu tasted the corpse and immediately stood in front of Lu Yang after his resurrection.

“Become upset, quickly bring back the Warhawk Legion, the enemy has an ambush.” De Bu tasted the shout.

The attacking front is getting upset and killing, and when I look back, I do n’t know when a large angel shooter appeared in the sky. The number of people seems to be more than 5,000. Similarly, it is still a brand army.

“I’ll be back here.” He became upset and waved quickly, ready to take his men to support Lu Yang.

“Want to leave, have you asked me?” A stern eagle sounded, and countless black vultures suddenly drilled out of the black clouds around it. The number was 10,000, and it became upset when stopped. Waiting for the way of the Black Iron Battle Eagle.

Seeing this scene, Laura showed a proud expression on his face. He flew to the angel shooter group and sneered and said to Lu Yang, “I didn’t expect it, we deliberately led you to hook.”

Lu Yang ignored Laura and looked at the 21 angel shooters behind her. “I heard that His Excellency Stephen, Chairman of the Diamond Sword of South Africa, is an angel shooter. I don’t know which one.”

An angel shooter standing in the middle smiled, put away his bow and arrow, and walked to Laura, and said elegantly to Lu Yang: “Chairman Lu Yang is really good, I am Stephen.”

Lu Yang said: “What a big deal, 21 players with archer artifacts are in your group. This really kills me.”

Stephen’s face was even more proud, saying: “President Lu Yang, I advise you to take the initiative to concede defeat. You are doomed to fail in this war. Our 7 strongest guilds together, you can’t win at all.”

Lu Yang sneered without answering. He looked at the vulture corps in the distance, and said aloud, “The Thai vulture corps was originally one of the sixteen super guilds in Thailand. Now they have merged and become a vice guild. Long, why not dare to come out to meet? “

A black vulture flew out of the angel shooter group, stood next to Stephen, and looked at Lu Yang with an expressionless expression: “Lord Yang, we have met again.”

At the time of the New World, Lu Yang supported Thai players and helped them to fight against Japan and Europe. The two sides had a period of friendship. Among the chairpersons, one that impressed Lu Yang is the one in front of him. Vulture, whose name is Ma Jingming, whose ancestral origin is Huaxia, is also the fourth generation descendant of the former No. 0 division, and returned to Thailand from Myanmar.

“I didn’t expect you to develop a vulture legion. I still underestimated you then.” Lu Yang said.

With a smile on his face, Ma Jingming said proudly, “I have the support of the British Consortium, President Lu Yang. Although you and I were friends, we are enemies today. Don’t blame me, Vulture Legion, strengthen the attack!”

Ten thousand vultures were still testing with the Black Iron Warhawk. When they heard Ma Jingming’s order, they launched fierce attacks. The two sides immediately fought together. The vulture’s attack power was not as good as the Black Iron Warhawk. Annoying skills are called blinding.

Blinding: A white light is fired on the target, and the eyes of the hit target lose their eyesight. The two sides formally contact each other. The Vulture Legion no longer hides its strength. When launching the charge to the war eagles, they launch blinding skills.

“Damn, I can’t see it.”

“What skill is this and how can it obscure vision.”

...

The Black Iron Warhawk Legion suddenly panicked. The Vulture Legion took advantage of this opportunity to launch a series of attacks, and numerous Black Iron Warhawks fell from the air.

Laura looked at this scene and said to Yang Yang with a mockery: “It looks like your men are dead, you can’t run away this time.”

Lu Yang was guarded in front of the German corpse and others. There would be no danger to his life. He was not in a hurry to attack. The opponent was obviously not in a hurry to attack. The 21 players of the archer artifact did not ambush twice or used special skills. Hitting Lu Yang made them afraid to shoot arrows easily in a short time. Once Lu Yang’s mistake was approached, the entire army might be overwhelmed.

Especially the elves' archer has only 1 point of blood at this time, but the attack power is the highest in the field, which is more than 2 times higher than Lu Yang.

Lu Yang found the locations of these elven shooters, looked at Laura after confirming, and said, "Are you sure my Dark Iron Warhawk can't really beat your Vulture Legion? I dare not say at the same level, but it's bad 10 levels, a set of equipment, and scrolls and status are also inferior, how could you ever beat me."
"

"Scroll-Purification"

A large number of black iron war eagles fell down quickly while being blinded, and at the same time they bitten the purification scroll that was purged from the backpack. A light flashed and the blinding was lifted by purification.

The Black Iron Battle Eagle saw the falling companions. These people themselves had the resurrection stone, but they did not use it for the first time, they just believed that the companions around them would save them, so they preferred to fall down.

"Instant Resurrection"

Countless green rays in the sky hit the black iron war eagles who died in the battle. Only a moment, the black iron war eagles were resurrected in place.

"Cooking-Iron Dragon Meat"

"Mixture-Power of the Ancient God of War"

"State-Blessing of the Light"

...

The seven states were completed in a flash, and the resurrected Black Iron Warhawk charged towards the Vulture Legion above.

“Blinding”

Another piece of black light was launched towards the Black Iron Battlehawk Legion, but at this time, each Black Iron Battlehawk had a purifying scroll in its mouth. As soon as it was hit, the purification was immediately released to release the blindness. When the two sides were near When he was in the body, the black iron eagle’s super high attack power was once again obtained, killing a large number of vulture corps.

On the battlefield, the Vulture Legion fell into a disadvantage and began to die in large numbers.

Lu Yang looked at this scene with a sneer on his face, and looked at Laura and said, “Is that what you said can’t work? Not necessarily.”

Laura gritted her teeth. She didn’t expect that the Brotherhood of the Iron Blood could equip the Warhawk Legion with so many scrolls. After resurrection, they used the scrolls to complete all the states, which shows how extravagant the army is.

Stephen looked at the battlefield. He was willing to send an army of archers to support, but he was afraid that the Phoenix and Black Crow beside Lu Yang would take the opportunity to sneak attack on his artifact shooters. Each of these people could not afford to die. Any artifact was worth hundreds of millions of credits. This made him regret to bring the shooter legion, a sneak attack failed, but turned into a burden.

“We must ensure the safety of the artifact player. The angel shooter obeys my order and immediately attacks Lu Yang. Killing him is victory, attack.” Stephen said loudly.

The five thousand angel archer fired an arrow rain toward the Phoenix Army. Suddenly, the arrow rain spread across the sky, and Lu Yang shouted loudly: “Space and time bound.”

“Scrolls-Space-Time Enchantment”

...

500 phoenix collective bite mouth scrolls In front of Lu Yang and others, 500 hexagonal cubes with a diameter of 50 meters formed a transparent wall, all bows and arrows were shot on it, none The root can penetrate.

Lu Yang then shouted: "Melting bombs and breaking up their attacks."

500 phoenixes and 2,000 black crows collectively fired melting bombs. The formation of the shooter group was disrupted and they had to disperse to avoid.

Lu Yang was determined to pursue, but the 21 artifact shooters, although slowly moving back, were always looking at him, and he couldn't.

At this time on the battlefield of the two sides, the number of Jagged Brothers Alliance was 12,500, and the enemy was more than 35,000. Although the number of Judge Brothers was small and the number of opponents was large, the Warhawk Army relied on its equipment advantage to fight against each other It became a tie.

The war lasted for more than an hour. No one on either side was certain to win the other. In the end, as the two sides continued to reduce their staff, Lu Yang and Stephen each withdrew from the battle. In the first round, the two sides were tied.

Chapter 1349 - Tiger Mouth Fortress

The wall of the tiger mouth fortress.

People such as Zhuojiu and White Lion were relieved to see Lu Yang's return. Who would have thought that it was just an ordinary air battle, and the enemy could have so many high-level air combat occupations, and they were all hidden so closely. Wind.

"The enemies who came this time were able to do this, proving that they are not under the G8, or even more than the G8." Tu Feng thought for a while and said, "Boss, do you want to call all brothers in advance, just in case just in case."

Lu Yang originally wanted to let his players rest as much as possible and not participate in such large-scale wars. Once fighting, the level must be greatly affected. Lowering the level by 1 is small, and it is possible to continuously lower the level by 3 at most.

This is not a low-level time, but between level 140 and 160. There is no special way to upgrade it takes about a month. He can't make the bug upgrade method public, and it will be subject to official sanctions.

Moreover, the cost of convening tens of millions of players to participate in the battle is too huge. Even with Lu Yang's worth, tying up the eastern mountain area will clear most of the cash flow in his guild. If he now convenes manpower, I'm afraid it's going to be in debt.

"Take a look first, if I can't keep it, I will issue a rally." Lu Yang said.

"Alright, try the strength of the enemy first," said the old man.

Lu Yang looked at the lofty sentiments and asked: "You are the first to fight the enemy on the ground. What is their strength?"

Pride said: "It's very strong. These people know they are bait. They don't fight with us. They just swim back and forth. They act the same every time they fight. There is also a purpose to lead our players into a ravine. I was not fooled. "

Lu Yang said, "The purpose of my going out is to show you if there are any ambushes from the enemies around you. You are very good and you are playing smart."

He smiled arrogantly, scratched his head and said, "It's also good luck, I almost rushed in."

Lu Yang laughed and said, "Did you see any professions in the siege?"

"I jumped to the heights and saw a few special professions, including the War Elephants, the Musketeers, and some earth warriors, all of which are rare bloodline professions."

Lu Yang couldn't help licking his lips, and said with a little stun, "It's all cost enough."

There are many channels in the game where you can buy top bloodlines such as the Earth Warrior and the War Elephant Legion, but the price is high. These guilds are willing to spend money and use them to ambush the Blood Wolf Legion. You can see how jealous they are. Your own high-speed force.

Tu Feng said: "It is very likely that the opponent wants to suppress the Blood Wolf Legion level below 160, or destroy enough of their equipment, forcing them to not play the role of containment in the wild."

A blood wolf legion walked outside the Tiger Mouth Fortress. This 100,000 legion could not catch up, but it was still the worst nightmare of the seven strongest guilds.

Zhuojiu agreed: "The role of the 1 million people coming from the other party may not be siege. I suspect that they came from the Blood Wolf Legion and your Air Combat Legion. After eliminating these two legions, we will not. With the ability to contain and investigate, the enemy's tens of millions of troops have arrived here, and they can rest outside the city without any harm. "

Lu Yang nodded in agreement. He opened the map, pointed at the misty swamp on the left side of the tiger mouth fortress and said, "From today on, the Blood Wolf Legion will not fight the enemy head-on, all hidden in this area."

"Boom"

"Boom"

“Boom”

...

Outside the fortress, the drums of war sounded.

Lu Yang looked out of the city. Millions of players had already assembled at a distance of 2 kilometers from the fortress. Even with such a long distance, if you look away, you can still see the gorgeousness of this million army.

Various rare professions, such as war druids, tiger warriors, earth warriors, jungle hunters, rest priests, monks, red dragon mage wizards, religious judges, etc., are spread among these 1 million people.

Lu Yang sighed: “If I have such a legion, I can sweep the entire New World.”

People such as Zhuojiu and White Lion nodded, these rare professions are really rare.

“Is the enemy attacking? Although these occupations are rare, they will not send these people to death.” White Lion asked.

Lu Yang looked across from the battlefield and walked in front of Sanyouweimen and Olma. They said, “It depends on what they think.”

Tiger mouth fortress outside.

Sanyouweimen looked at Olma and said, “It’s still about temptation. Don’t attack easily. Test out the enemy’s strength. If you are too strong, don’t attack.”

Olma gave a scornful glance at Sanyouweimen. He always felt that the Japanese was too cautious in doing things and spoke carefully, as if something would make him nervous.

“Offense, look at the strength of the enemy,” Olma shouted.

The Tigers and the Elephant Warriors with the same high defense and attack power took the lead in the battle, and a total of 20,000 rushed towards the fortress.

Sanyou Weimen shook his head while watching the situation on the battlefield, and said, “Lu Yang actually had such a fortress as a natural danger. This war is not easy to fight.”

The shape of the tiger’s mouth fortress is like a funnel. Lu Yang built the fortress at the narrow mouth of the funnel. The width is less than 500 meters, and 20,000 people will be able to accommodate it.

Lu Yang stood on the city wall and looked at the enemies rushing over. When they entered the range of 500 meters, he did not need to speak. The first row of tens of lightning towers at the same time glowed a fuchsia light, under each lightning tower. Blessing of the Mage.

“Zila ~~!”

...

Thousands of lightnings fired at the same time, and the front tiger and war elephant were attacked at the same time. The tiger was very damaged and almost blood was left. The war elephant’s defense was very high, but it only dropped. One fifth of your health.

A war elephant can sit on five players, normally 3 melees and 2 mages. This time for tentative testing, 3 are defense and 2 are healing.

“Add blood, quickly add blood.” The captain on each war elephant shouted, the treatment in the team immediately added blood, and immediately, the war elephant’s blood volume was restored as before.

“The Tigers retreated to the back of the Elephant Warrior, with the elephant in front.” Orma raised his weapon and shouted.

On the battlefield.

The Tigers immediately slowed down and hid behind the war elephants. The war elephants ran ten meters forward, and the second row of lightning towers on the fortress wall attacked. At one time, the two rows of lightning towers released lightning at the same time. Under the control of the Thunder Mage, several lightning towers attacked a war elephant, and a large number of war elephant players died on the spot.

Seen from a distance, 20,000 fuchsia lightning bolts were filled with thunder for the first 500 meters of the fortress, and the war elephants and tigers in them were as if swallowed by lightning. When the light was over, Olma was frightened. There are less than two-thirds of the elephants on the battlefield. The Tigers are no faster than lightning, and less than three-quarters are left.

Olma shouted loudly, "Retreat, pull back all, and pause the attack."

The tigers and elephants on the battlefield have long been unwilling to fight, and they hurried out 500 meters away when they heard the order.

"Damn, the fire on the fortress is too fierce. There must be a slinger attack. We must only approach. We must have a high enough lightning resistance." The chief of the war elephant corps said angrily.

Olma looked at several other presidents and said, "We need to equip the War Elephant Army with enough lightning-resistant gems, how much is left in your warehouse."

Several people looked at each other and did not speak. In the end, Sanyou Weimen said, "The thunder system absorbs the gems first. Let's go back and find each one. Let me make a suggestion. Each guild provides at least 10,000 pieces. 15 Lightning absorbing gemstones, gathered within three days. "

Radvedev and Jerz and others looked at each other and agreed.

Olma frowned and asked, "Do you mean we don't attack now?"

Mitomonemon nodded with a smile and said, "Our 1 million elites have suffered a lot of damage in the war with the Indians. Now they are all around level 153. The war with Lu Yang is the decisive factor in determining the supremacy of the new world War, these people can't just throw ranks here at will. "

Olma didn't want to nod, but he had to admit that Sanyouemon was right. If the level of these people falls below 150, the war will not need to continue.

"So what do we do now?" Stephen asked.

Sanyou Weimen said: "Let's go back to the fortress first and transform it there as our recent resurrection point. Wait until the army arrives before attacking."

Several presidents looked at each other, nodded in agreement, and each ordered the team to withdraw slowly.

In the live room.

The players scolded in surprise.

"It's back, fight."

"Wait an hour, and just tentatively attacked, what do you mean?"

"Fuck, a bunch of garbage, wasting my time."

...

When the players scolded Dubin took the lead in responding, he raised his eyes and said: "It looks like the seven strongest guilds are not ready to accept without seeing well, guys, a world The war is about to begin. Let 's watch. Within three days, the seven strongest guilds will send their troops under the Tiger Fortress, and that will be the real war. "

Lu Yang was also listening to Dubin 's live broadcast, because he wanted to see the state of the seven strongest guilds through the perspective of Dubin, and found that they had indeed retreated. He took a breath and said, "It looks like the enemy know It's hard to retreat. "

Everyone nodded.

On the other side, Steige and Liu Jie, who were slamming away from the sky sword fortress, were paying attention to this war.

"Damn, why do you retreat," Steiger cursed.

Liu Jie quietly glanced at the dead grass and sent a message saying: "It is true that what you said is indeed my first think tank."

The dead grass smiled and said, "Jie is less than the prize."

Chapter 1350 - Lu Yang\'s New Strategy

Before the seven strongest guilds came to the Tiger Mouth Fortress, Liu Jie also complained of dead grass. If Sanyouweimen and other men first entered the fortress and occupied the Huaxia area, they would play in vain at the Tianjian Fortress.

However, they tried to stop, and proved that the idea of dead grass was completely correct. The seven strongest guilds were unable to lay a fortress with the one million people now, and this war must become a protracted war.

"What shall we do next?" Liu Jie asked, typing.

The dead grass said: "Act, we continue to act. If the Tiger Mouth Fort is destroyed and the Sky Sword Fortress must be abandoned by Lu Yang, then we can easily enter the hinterland of China. If Lu Yang holds it, we can use our advantage. The troops attacked the Cavalry Regiment and won the entire northern region in one fell swoop. "

Liu Jie nodded and said to Steiger on the side: "We still don't want to attack."

With a look of anger, Steiger scolded: "I want to attack, how can I fight, Sanyou Weimen they do not fight, Lu Yang's main force can be transferred to the sky sword fortress at any time, can we two can stop Lu Yang's Is the 300,000 main force? I'm afraid that we will be defeated by one attack and retreat. When the three friends guards attack, the two of us will come again. "

Liu Jie said sadly, "It's a pity that I have already knocked down the 3 city walls of the Tianjian Fortress. Now that I'm back, I'll hit it in vain."

"Oh ~!" Steiger sighed, and left with the same reluctant Rennes and Gadafi, and for a time, more than two million players retreated and returned to the Sky Sword Fortress.

Liu Jie looked at the dead grass, with a strange smile on his face, and said, "Let's go."

The dead grass nodded, and greeted others such as Yue Taishan, and 2 million players retreated. For a time, the outside of the Tianjian Fortress turned into an open space, leaving only the enemy's back.

They had to go. Some people calculated that every minute they stayed here, each guild would pay tens of thousands of credits. Every day is tens of millions of credits. This is still the case of each guild's backup supply. If the supply is counted, the consumption of a day is hundreds of millions, Steiger cannot afford it, and Liu Jie is also very uncomfortable.

Li Wenxing looked at this scene and laughed loudly, shouting with a loudspeaker: "Grandchildren, can't stand it, let you wonder, come again, grandpa is waiting for you here."

South Korean players laughed and screamed loudly.

In successive days of war, Li Wenxing and his players are under great pressure every day, especially Steige 's attack is very fierce, and the three walls of the Sky Sword Fortress have been destroyed. If not, Li Wenxing fought desperately with an elite guard. Now, at least five walls must be destroyed by the enemy.

There are only 15 in total. The defense strength is worse as you go back. Although the terrain is more narrow, in terms of morale, they are too weak compared to the enemy. Now they finally have a respite. Everyone 's face shows understanding. look.

“Fortunately, I finally won.” The deputy said.

Li Wenxing's expression was still dignified, saying: “Immediately order the artisan players to rest the city wall and push more sling carts to the front line. We re-arm, and for three days, the enemy will give us a maximum of three days. We must not slacken.

Several vice presidents nodded each other and issued orders immediately.

A light flashed, Lu Yang appeared next to the sentry tower behind the city wall, and he found Li Wenxing under the guidance of the players.

“Boss, you are here.” Li Wenxing rushed over after seeing Lu Yang.

Lu Yang looked out of the city and said: “The defense is good, this time you worked hard.”

With excitement, Li Wenxing said, “This is what we should do.”

Lu Yang said, “What else do you need to ask me directly? I will provide you with all my strength. The attack on the Tiger Mouth Fortress in three days will be very fierce. I cannot support you here. You must hold on to this fortress for half a month. More time. “

Li Wenxing froze. He didn't expect it would take so long, saying, “I try my best to defend, but I need more power. Can you temporarily give me the right to command God of War I?”

Lu Yang thought for a while and said, "Yes, I give you this right. The elite army of God of War I, Pope I, and Sad Fan Qiufeng will all give you the command. You must stick to it for half a month."

Li Wenxing said solemnly: "Boss rest assured that for half a month, the Tianjian Fortress must be as stable as Mount Tai, and no one can break through."

Lu Yang nodded. With the words of Li Wenxing, he was assured that the fighting power of South Korean players is still okay. The only thing missing is honor. Now Lu Yang gave Li Wenxing the greatest honor, and even the chairman's rights were shared. Part of him is enough for Li Wenxing to fight desperately, coupled with the natural danger and defense of the Tianjian Fortress, he believes that this fortress will never fail.

Now, the only difference is the Tiger Fortress.

The seven strongest guild elites, dark gold equipped players of around 1 million 155 levels, and tens of millions of players over 140 levels, most of them are paladins and wizards and shooters equipped with spell piercing and armor-piercing gems. The attack power is very powerful.

Lu Yang returned to the main city of the Tiger Mouth Fortress and projected the surrounding topographic map onto the table. The defense of the Tiger Mouth itself is not problematic. It can rely on the Tiger Mouth Fortress for defensive battles. Brotherhood character.

In order to prevent the fortress from being hit, Lu Yang decided to test a new method. As for this method, a temporary fortress was built in a certain area outside the tiger mouth fortress for sneak attack.

Outside the tiger's mouth, about 10 hours away from the east side of the fortress exit, is the big seaside. There is a small island called the blue island on the sea for two hours.

Lu Yang looked at the deceased corpse next to him, and said, "Instantly, the air combat players were divided into three teams, patrolling the area over the tiger's mouth day and night, and doing their best to organize the enemy to enter our rear."

"Yes," De Bu tasted the corpse.

Lu Yang then said to Liang Yun and Old Man: "Old Man Late is responsible for controlling the guilds in the Huaxia area to prevent them from mutinizing. Liang Yun is responsible for taking people to look for space-time mage players or air combat professions transmitted by the enemy."

"Yes," Liang Yun said with the old man.

Lu Yang said to Zhuojiu: "Order all artifact players to rest immediately. In addition, you vice-chairmen will each put on an artifact to rest."

"Take a rest with an artifact?" Zhuojiu didn't understand.

Lu Yang said, "I have a task tonight."

Everyone nodded.

After Lu Yang took out the teleportation scroll and turned into an ordinary person using a camouflage coat, a flash of light flashed. He teleported to the Spirit Wind Fortress in the northeast corner of the Nine Star Alliance area.

"Summon Mount"

A war wolf appeared under Lu Yang's seat, and led to the city and ran out towards the city.

For security reasons, Lu Yang did not dare to turn into a phoenix in the Huaxia area and fly directly to the blue island. If an enemy's flying profession is found in the air, this method will not work. Furthermore, there are no known enemy agents on the ground. Or players who want to sell information and make a fortune, once someone reports Lu Yang's whereabouts to the enemy, this strategy will not work.

Building a fortress on Blue Island is a trick. Only when the fortress is built can it be effective. The so-called 10-hour journey refers to the speed at which the player travels on horseback, but in the case of an accelerated reel, the time is reduced. Half, if wind elves speed up again, it will take less than 3 hours.

As Lu Yang moved fast here, players on the World Channel started an unprecedented discussion.

“I bet that after three days of war, under the joint attack of the seven strongest guilds, the Brotherhood of the Iron Blood will definitely not stand the tiger fortress. The area occupied by Lu Yang is destined to be divided up by the seven guilds.”

“These seven strongest guilds are really trying to die, and they are trying to break through the tiger’s mouth fortress. It’s crazy.”

...

Players are excited to discuss. In this trend, the most unexpected thing is that the major betting companies in Europe and the Americas have even opened the odds for this war.

The Jagged Brothers Alliance can hold on, losing 1 to 1.5

Jagged Brothers can’t keep it, 1 loses 1.5

Jagged Brothers was defeated on the first day and lost 80

Jagged Brother League can hold for 2 days, lose 1 for 40

...

There are more than 20 ways to play, and the Jagged Brothers League can hold on to less than 3. One of the biggest odds is Jagged Brothers to win all the enemies and lose 100 to 1.

Lu Yang was running. He was bored and saw the gambling on the Internet. He shook his head with a smile. No wonder the bookmaker gave this odds. Even if he was not confident to win the war, Lu Yang was confident to block the enemy’s attack. .

He didn't buy gambling He didn't dare to touch it, let alone let his hands touch it. Once he touched it, he could quit, and his players may not be able to quit.

Gaming is a powerful double-edged sword. With their participation, the game of "Second World" will be even more popular, and the income of professional players will increase several times. However, with their addition, The control of many things is beyond the control of the major guild presidents.

Not to mention the other, in the boxing match of that year, Tyson's second game against Holyfield, we saw that Tyson lost Holyfield's ear in the second game and took the initiative to defeat, but actually At the time, the whole world knew that Tyson would challenge Holyfield for the second time and he would surely win.

why? If Tyson didn't have the full confidence to break Holyfield's long-range straight punch and hug him close, how could he take the initiative to challenge Holyfield?

Therefore, at that time all gambling funds in the world gambled Tyson to defeat Holyfield. If Tyson won, the world's three major gaming companies would all go bankrupt.

So, what we saw was the scene on the playing field, Tyson lost again, and the money made by the world's three major gaming companies was unimaginable.

Chapter 1351 - Deathguard Agaf

Lu Yang didn't want to be forced into this situation by capital. Once this happened, even if he did not lack money, his men would betray him because of money.

[Guild Channel] Lu Yang: Forbid everyone to participate in gambling. Do n't touch this thing. I will try my best to help you make more money. Remember me, do n't touch it.

...

The same sentence was sent 10 times in a row. Players in the guild did not expect Lu Yang to be so tightly controlled, and they were a bit stunned.

Tu Feng called and said, "Boss, controlling the player is not very useful."

Lu Yang asked, "Is there any good way?"

Tu Feng said with a smile: "I will tell their girlfriends and wives, or their parents, forbid them to participate in gambling. If anyone dares to gamble, report to me and I punish them."

Lu Yang smiled and said, "This is a good idea. Go ahead."

Tu Feng hung up.

Lu Yang was also relieved. The collapse of the guild because of his gambling abound in the last life is everywhere. Someone secretly leaked information during the war or betrayed it on the spot. Even the guild account and contract players have to pay for liquidated damages. The money for gambling is there, and the money for compensation is just nine cents.

Five hours later.

Lu Yang ran under a cliff. From here, the ocean was outside. He saw no one left and right, and turned into a phoenix. His wings flew into the sky. He discerned the direction and flew towards the blue island. past.

After flying for another two hours, he finally found an island on the blue sea.

The system prompts: you found the blue island

The blue island has a large range, and it can be regarded as a large island with a heart shape. There are many mountains and trees on the island, and there is also a huge forest.

There are many small islands around the island. In the last life, it was called one of the top 100 beautiful scenery in the game.

Lu Yang flew to the middle of the forest, and there was a monster named Death Guardian everywhere below.

Death Guardian (boss)

Level: 160

Qi and blood: 500000000/500000000

This monster has only a head and whiskers. Its body is about 2 meters in diameter and suspended in the air at a height of over 1 meter.

There are 7 eyes on the head, in the forehead position, one in the middle and six in the periphery. It belongs to the cone-shaped vision range only in front, and cannot be seen on both sides and rear.

Death Guard has a giant mouth with fangs in his mouth. This is his main attack method. They belong to the strange story. According to official history, Blue Island was originally an island inhabited by demons, but it was a grand event. On the festival, all female demons must go out to sea. Soon after they went out, they were all attacked by three sea demons and died.

In order to get revenge, the death guards loyal to the ancient demon **** Jinjin under the leadership of the village chief. The body changed and became the current form. However, the soldiers did not give the death guards the ability to avenge them. Instead, they locked them in here. On the island, they destroyed their consciousness and let them guard a treasure.

Only these are given in the official history, including the last one. When the island was known to everyone, the Grand Guild had already been cleared here. As for the treasures, the Grand Guild did not give an answer. The official No explanation was given.

Lu Yang didn't come here to wasteland before. The main reason was that he was worried about the situation today in future wars. He prepared the island as a back-end plan, but he didn't expect it to be used today.

He found a place that wasn't strange and fell down, took the construction robot out of his backpack, and ordered it to build a sentry tower.

Taking advantage of the construction of the sentry tower, he called Zhuoji, and when the tower was completed, a flash of light flashed, including 10 main vice-chairmen including Zhuojiu, White Lion, Xia Yuwei, bitter love half-life, and Zhou Tianming. The main army commanders, such as Hell King and Pluto, all flew over, with a total of more than 50 people.

"Wow, I didn't expect such a place outside the Tiger Mouth Fortress." The cute queen said excitedly.

Zhuoju looked at Lu Yang and said, "Boss, there is no such place on the map. When did you find it, this place is perfect."

The White Lion said: "With such a flanking assault point, the seven guilds we can hit are extremely uncomfortable."

Lu Yang laughed and said, "Beginning today, we will open up wasteland, but everyone must be mentally prepared, this place is not so easy to hit."

"Is there anything special?" The cute queen asked.

Lu Yang said: "All the monsters here understand negative magic, including fear, blindness, silence, etc., and the attack power is particularly high. If we clean up one by one without worrying about problems, there are too many monsters here, one You can't finish the cleaning in three days. You must pull them together and concentrate on cleaning up. But at this time, it's weird, and the negative magic will be released constantly. This requires everyone's full attention and cooperation, you know? "

Lan Yu said: "Rest assured, our priest team will always clean up the negative magic to ensure that the team has no problems."

Lu Yang smiled and nodded, and said, "Everyone clears the blame with me. Let's find a safe area to pull the blame."

Everyone nodded.

With Lu Yang playing for many years of old players, it is easy to clean up the ordinary death guards. After half an hour, the group came to a ruined area.

System prompt: You found Blue City

"It is estimated that this is the city where the aborigines of the Blue Island live, and we are defending from the corner of the wall." Lu Yang pointed to a corner-shaped wall area not far away.

There is a city wall on each side of this place. Lu Yang arranges more than 10 shield battles, such as muddy wine and white tiger, to stand in front, and the rest hide behind the shield battle.

Lu Yang said: "Sun Yu and the loyalty pull the monsters, don't pull too much for the first time, just a few hundred."

The two nodded, and each ran out to pull the monsters. Among them, the fastest one was the two of them. While they were pulling the monsters, Lu Yang took out the robot to build a sentry tower not far away.

Just finished construction, the two ran back, with a death guard behind them, there were seven or eight hundred.

Lu Yang read a spell in his mouth, a large piece of magic fell, and after the death guard approached, dark green rays shot out in his eyes.

"Blinding"

"fear"

“Death Scream”

“Soul Tremor”

...

At the same time, a group of purification spells continued to fall on the shield battle. More than 10 shield battles were as uncontrolled as the boats in the rough seas. None of them controlled the characters for more than 1 second.

Due to limited space, the only mages who flew over to Landing Yang for the first time were the small fireball, Hei Yan and Luo Siyu. After releasing the spell-casting spell with Lu Yang, the three flew back to the fortress.

The other monsters were all killed, Nanfeng teleported with two other mages and stood in the team.

Lu Yang walked in front of the items dropped by the monsters. Because it was a storyline, each one would drop gems.

Eye of Death (Level 3)

Type: Gem

Effect: Increases poison damage by 48000

“Boss, all the poisonous gems dropped here.” Said bitter love for a long time.

Lu Yang took out the storage bag and said, “Put all the gems in there and see if there is anything else.”

Everyone searched carefully, but could not find any other dropped items. Lu Yang knew that the poisonous gems were dropped here.

Since entering the New World, the poisonous heart has lost its original effect because of the high-speed increase of the player's blood volume. It can be said that according to the damage of the poisonous heart, it takes at least an hour to poison the player. Therefore, the poisonous heart has been sealed by major guilds.

Lu Yang has been looking for items that increase the poisonous heart's damage. I couldn't think of finding it here. He now suspects that the hidden treasures on this island are upgrades for the poisonous heart. If you can upgrade the poisonous heart, then With these deadly eyes increasing poisonous damage, Lu Yang felt he could surprise the enemy.

"Boss, there seems to be a lord monster over there." Sun Yu said, pointing to a giant black head flying not far away.

Death Guard Agaf (Lord)

Level: 160

Qi and blood: 200000000000/200000000000

"Hey, someone came to the door, ready to attack, we killed him." Lu Yang said with a smile.

What players are around Lu Yang now, 48 vice president level and legion level players holding the heart of the artifact, as well as archbishop priests, divine knights, divine assassins, blood oath shamans and blood gods A top bloodline occupation.

"I'll fight him." Zhuo Jiu stood in front of Lu Yang with a level 8 guardian heart.

Lu Yang said with a smile: "The main attack method of this monster is similar to that of mobs. The difference is that he will use range silence and reduce the player's casting speed. There is also a skill to

pull the player in front of him. It's just a matter of being pulled over and running, to see whoever fool gets caught by him. "

"Blazing Heart"

Lu Yang raised his hand and hit Agav with a magic spell.

"Hello ~!"

Agarf roared, rushed towards the landing sun, but did not wait to reach a distance of 30 meters, the muddy wine carrying a shield stuck in front of Adolph's walking path.

"Light Shield Strike"

A blazing golden light hit Agaf's mouth, and the light dissipated. The muddy wine jumped up, and a shield was shot on Agaf's teeth.

This is a high amount of hate skills Agaf's goal immediately turned to turbid wine, a black light radiated towards the turbid wine.

"Bounce of Light"

This is the skill of guarding the heart. Regardless of all skills, you can bounce back. The black light hits the muddy wine, immediately bounces a light to Agaf's body, inflicting more than 80 million damage.

"The muddy wine has been pulled, and the whole attack." Lu Yang shouted.

Divine Assassin flashed behind Agarf, stabbed with a dagger in his hand toward the meat ball, and suddenly a black light appeared on the dagger.

"Blessings of Gifts"

An attack with 27 times of crit and damage of up to more than 2.6 million. When the opponent ignores only 1.5 million of damage, there is still 1.1 million of damage. Under 27 times of crit, it hits nearly 30 million of damage.

Everyone was also worried that the lord's blood was too much to kill, but within a few seconds, the lord's monster's blood lost 10%, which caused a relaxed expression on everyone's face. .

Chapter 1352 - Advanced Wrath Skills-Fire Kill

"Screams and screams"

Agave was beaten with anger, and opened his mouth wide to spray black sound waves towards the whole regiment.

The priests, such as Lan Yu and Ye Lan Ting Feng, brightened their eyes, and activated the skills one second before the skills reached the whole group.

"Swarm Purification"

As soon as this purification technique that lasted for 3 seconds was released, everyone was struck by a scream of thunder instantly, but it did not cause any impact. Everyone felt a shiver and their skills were released.

Lu Yang said with satisfaction: "Continue to export."

"Look at my blood oath strike, I fight." Wan Zhonghui roared excitedly, the attack triggered the blood oath strike effect, and 7 phantoms fell on the lord's body with blood.

"I continue to fight." Wan Zhonghui had just passed the knife, triggering a blood oath strike again, sending 7 phantoms in a row.

Sometimes the chance is that this kind of thing is very scary, he may not come out at once, or he may come out 3 times in a row.

Just when Wan Zhonghui cut the third sword, he triggered the blood oath strike again. For the third time, there were 7 phantoms. His happy face was full of flowers. Do n't guess he can also know that this melee output The first is him.

"Haha, I'm so violent." Wan Zhonghui said whispered.

"Don't be proud, look at me, the gift is free." Jiang Chen suddenly triggered a 27x critical strike, hitting 30 million damage with a single sword, followed by another critical strike, and then another critical strike.

Three consecutive bursts!

"I depend." Wan Zhonghui was silent. Jiang Chen hit 90 million with three swords, which was much higher than him. His previous advantages were all gone.

Jiang Chen said with a smile: "The first output must be me."

The prison king and the lovely queen refused to lose, watching Jiang Chen's high output, they all output, but in this kind of station pile output, Jiang Chen's **** assassin is indeed a well-deserved first place, even if it is Lu Yang Can't compare with him.

"It's too violent," said Zhujiu.

Jiang Chen is right next to him. He can see clearly that with the blessing of black light gems, Jiang Chen's attack speed is almost every 0.3 seconds. Two daggers hit flowers in his hand, like a phantom, from time to time. Exploded a 30 million damage.

It was mainly not only one of his assassins, but also Tianhui and five other assassins. They had almost 40% of the output of the regiment. Lu Yang accounted for 10% of the output. The whole battle was in Adolf. The negative magic was not controlled by Lan Yu and Yeyue Tingfeng and others, and the Lord blame died in less than 10 minutes.

Lu Yang looked at the items falling on the ground.

Thorkin's Venomous Tentacles

Description: No one knows what he does.

This sentence indicates that this thing is used to upgrade the poisonous heart. Lu Yang excitedly put the poisonous tentacles in his backpack and looked at the items on the ground.

Poisonous Eye

Description: His taste is very disgusting. Trying to eat him will have unexpected results.

"Boss, what is this?" Jiang Chen asked.

Lu Yang said, "This is a poisonous heart-improving item."

Like the previous Poisonous Ball, players who need to have Poisonous Hearts can increase certain poison damage after eating it.

“Hey, I don’t know if I can get the upgrade materials for the poisonous heart. In retrospect, Jin Buhui changed the poisonous mist and destroyed half of his opponent’s fleet. I really look forward to it.” White Lion said.

Lu Yang laughed and said, “Let’s go and see how lucky we are today.”

Everyone was interested.

“I’m going to blame.” Sun Yu said with pride.

Lu Yang said: “Dora more this time.”

He took the others back to their original position and continued to wait. After a while, Sun Yu and the lofty sentient returned with thousands of death guards.

“Meteor Fire Rain”

“Icy Roar”

“Space-Time Cutting”

...

After spells were cast, the monster was cleaned up in less than an hour, and countless poisonous gems dropped on the ground.

What surprised Lu Yang was that he dropped a skill book.

Wrath Skills-Fire Kill

Type: Fire Spell

Distance: Close to and within 2 meters

Cost: 2 Fury Skills

Description: This is one of the higher-level anger skills of the fire anger skill. After release, he will appear a violent flame shell around himself. At the same time, the player will appear 4 phantoms around him. The shaking speed is 1 circle per second, and each phantom has a flame shell. The hit target causes intelligence x 5 damage for 10 seconds.

Lu Yang was a bit confused when he saw this skill, and muttered to himself: "How could it be dropped here, this is too unexpected."

The cute queen asked, "Boss, is this skill strong?"

Lu Yang said with an excited smile on his face, "Strong, very strong."

Who would have thought that one of the most powerful fire-wrath skills of the last life would have fallen on the blue island's story monster.

However, it's right to think about it, the story is strange, the ghost knows what he can explode, this thing is rare in itself, it is gone when it is killed, and it is reasonable to be able to drop this skill.

Jiang Chen scratched his head and said, "Boss, I don't feel where this skill is. It looks similar to other skills."

Lu Yang said with a smile: "There are a lot of differences. With this skill, I can single out more superior lords."

This is a skill for killing lord monsters. A powerful late official has to weaken this skill, but before weakening, Lu Yang even dared to use this skill to challenge the 190 level demigod.

He said to Zhuojiu, "You already understand the way of playing, and I will leave it to you. Let me go and see if I can find some good things."

Zhuojiu guessed that Lu Yang would leave and said, "Be careful."

Lu Yang nodded, turned to look at the huge blue city, turned into a phoenix, and flew in. From a high altitude, the entire blue city had been ruined, and there were not a few complete buildings.

He quickly flew into the map of the central area, and saw at the gate of the Blue City Palace, a weird lord with nine death guard heads united.

Death Council · Nine Demon (First Class Lord)

Level: 160

Qi and blood: 50000000000/50000000000

"I actually feel the taste of human beings. Why are there weak human beings on our island?" Said a female erudite face.

"Regardless of him, our responsibility is to destroy that monster. What is human beings doing to us?" Said the head of a male irritable face.

"Ha ha ha ha, you idiots, even thinking about killing that monster, we have been betrayed, betrayed." A male's bitter head mocked.

The other eight heads looked at this head together, each with a sigh expression.

Lu Yang felt these heads had problems and fell in front of them, and said, "Do you need any help?"

"Humanity?"

"Humanity!"

"Someone really?"

...

Nine heads were choked, then.

The system prompts: You offend them and the Death Council considers you an enemy.

"Give me death, wouldn't the great one need your help, the arrow of death." The bitter face opened his mouth and spit.

"Remnant Flame-Activated"

Lu Yang moved laterally to the side for a distance of 1 meter. At the moment he teleported, the black light penetrated his figure, and the difference was less than 0.3 seconds.

"Cold Ice Cone"

The erudite face spit out a huge ice cone on the landing sun.

"Remnant Flame-Activated"

Lu Yang reacted and couldn't face them, teleported behind them, but just landed, with three heads facing him.

"Dark ruling" solemnly exhaled a black light toward the landing sun.

A 160-level superior lord has an attack damage of tens of millions, and Lu Yang doesn't have that much blood. If he is hit, he will die.

"Remnant Flame-Activated"

"Remnant Flame-Activated"

...

Lu Yang didn't dare to stay in one place and teleported continuously. He looked around at these nine heads in circles. There was no dead place in any place. As long as he stopped, he would be attacked and wanted to fight like this. Lord, only if you hit him can't attack.

"flicker"

Lu Yang suddenly appeared in front of the lord monster. His left hand was angry and flaming. He struck at the connecting point of the nine faces.

"The Sun Fist"

The lord's nine heads uttered a sharp tweet at the same time, receding 5 meters in a row.

"14860000" (triple crit X weak click break)

Lu Yang understood that this connection point was the weakness of the death council, as long as he could hit it with every hit, it could cause great damage.

“Destroy Heavy Artillery”

He pointed at the lord monster with his right hand. Just when the lord monster retreated, he had already stored energy, and the lord monster just recovered its movement.

“boom”

With a loud noise, a giant red fire flame hit the connection point of the lord monster, and he hit back by two meters while inflicting more than 20 million damage.

Lu Yang took this opportunity to take three consecutive steps and read the spell in his mouth.

“Earth to Earth”

A group of flames emerged from the ground, hitting the lord monster’s connection point accurately, flying him backwards and hitting more than 6 million damage.

“Blazing Heart”

“Pyroblast”

“Pyroblast”

“Pyroblast”

Four consecutive flames hit the connection point and caused more than one billion damage, which happened to be when the lord hit the wall behind him.

Lu Yang saw that his anger had reached 3 squares, and he read the spell.

“Remnant Flame-Activated”

A crimson flaming strip of landing sun suddenly appeared at the connection point of the Lord’s Monster. After releasing the sun mask to his body, he pronounced a spell in his mouth.

“Angry Skills-Fire Kill”

The 9 heads of the lord’s monster were almost aligned with Lu Yang at this moment. Just as they were about to release their skills, Lu Yang’s body suddenly emitted a violent flame and surrounded him into an oval egg shape. Then, The four figures also appeared around Lu Yang with egg-shaped flames, spinning wildly.

The lord blame was uncontrollable for a moment, and he was beaten back and forth.

Chapter 1353 - Fire Scroll of Lesser Curse

When the skills were over, Lu Yang relied on the Yanyang hood to restore 10 points of anger. Then he spelled out in his mouth and smashed the staff towards the lord.

“Angry Skills-Devil Slash”

This is a trick to knock people into flight. The lord’s monster’s body hits the wall and flies up, and falls to the rear of Lu Yang.

“Polynuclear explosion”

Lu Yang took advantage of the lord’s monster 1 second before landing, a fierce fire broke out from his body, and the lord’s monster flew backwards.

“Flame Slash”

A figure flew out of Lu Yang's body with a sun hood and rushed towards the lord monster. At the same time, Lu Yang's spell came out again.

"Meteorite Impact"

A meteorite in the sky smashed accurately to the lord's monster flying up to 5 meters, and as he continued to retreat 5 meters, he caused 5 meters of damage.

Lu Yang took the opportunity to read the spell in his mouth.

"Hot Boxing"

His body turned into a flame phantom and rushed out to the connection point of the lord monster. His left hand grabbed the connection point and rushed forward. At the same time, the meteorite followed the attack, and the flame-scorching sun hood followed the attack. get on.

It lasted for 5 seconds. With a boom, Lu Yang grabbed the lord and hit a wall on the left. The death council body could not help but fly backwards to Lu Yang. At this time, look at Lu Yang's anger again. Value, even after continuous release, he was filled up with multiple small skills.

Don't look at these small control skills and output skills. It depends on whose hands are used. Normally, if there are multiple players who have used the cannon to destroy the cannon, each time the control time of the lord monster is reduced by half, After three consecutive times, it is invalid. Only when one person attacks, this control will be effective.

Although the effect is halved, in the hands of a master like Lu Yang, it can be used to make up for the interval between supplementary periods after the anger skills are used up.

Lu Yang watched the lord blame that fell on the ground, and then cast a spell in his mouth.

"Lava Eruption"

A lava of 30 meters in diameter appeared at the feet of the lord monster. At the same time, Lu Yang's mouth spelled out.

“Advanced Wrath Skills-Fire Super Kill”

Lu Yang released his skills in place and again controlled the lord for 10 seconds. In the case of the continuous damage caused by the sun shield and the continuous damage caused by the lava eruption, after 10 seconds, his anger value was full again.

“Advanced Wrath Skills-Fire Super Kill”

...

Lu Yang continued to release the Fire Super Kill in situ for half an hour. The lord blame the death, and a nine-color gem fell to the ground.

Teleport Gems

Description: Use him to teleport anywhere in the New World

Lu Yang shook his fist and smiled on his face. He added one more rare gem from the new continent, and could transmit more than 100 people.

He looked at the other items on the ground, as well as the items on the five death guards, such as the demon's eye and the death poison sac, which were obviously used to upgrade the poisonous heart.

Lu Yang built a sentry tower in situ, flew back to the heavens with the teleportation scroll, found Jin Buhuan, and the poisonous heart was still in his hands.

Gold isn't exchanged for the treasure, and said excitedly, “How can I find the 7th grade material, but you can't think of it.”

Lu Yang said, "Come on."

Jin Buhuan nodded again and again, and flew back to the Venomous Temple, using the altar to synthesize a poisonous heart of level 7. After returning, Jin Buhuan felt a little depressed, saying: "Boss, the poisonous heart of level 7 hurts only 40,000 points I doubled to 80,000 points after taking the Poisonous Orb. This is not enough damage. "

The player's blood volume is more than 2 million, the blood thickness is more than 5 million, and the damage is only 80,000, which is almost useless to the player.

Lu Yang said with a smile: "It depends on how it is used. Come with me. I will take you to a place where you can use your poisonous mist."

"Where?" Jin Buhuan asked.

Lu Yang took him to the Fireworm Fortress with a teleportation scroll, the light flashed, and the two appeared in the fortress's main palace.

Ayala, Fernando, and others were gathering in the city's main government to discuss things. When they saw Lu Yang coming, they all showed a happy look.

"Boss, we have re-established the 60 fortress teleportation formations, and you can teleport with anyone at will," Ayala said.

Lu Yang nodded with satisfaction, saying, "How is the internal hostile forces clearing up?"

Fernando said: "It's all cleaned up. Alfonso's players who dissatisfied either quit the game or went to other main cities, but I lost the three fortresses of ice marks, purple lilies and violets, sorry."

Lu Yang looked at Fernando's apologetic expression and smirked at his shoulder, and said, "It doesn't matter, it was difficult to defend there, and the G8 attacked with all its strength. It's nothing, just grab it back in the future."

Last night, the Group of Eight raided the three fortresses. The players defending them were all Spaniards. Lu Yang did not reinforce, and was soon lost.

Lu Yang was not surprised, and he didn't care. These fortresses were defenses that could not be defended. If they defended, they would be violently attacked by the Group of Eight. These three fortresses cannot be beaten at all.

Elena said, "You man is your mother-in-law. Let me just say, Lu Yang won't care."

Fernando blushed slightly.

Lu Yang smiled and said, "You are slowly developing here, but you have to remember one thing. You must not sell more teleportation scrolls. Each player is limited to one purchase per day, and you must send someone to keep an eye on whether there is anyone in the Sky City Quietly acquire the teleportation scroll here, don't put the enemy in because of this, it will be shameful. "

Rolla froze and said, "I forgot about it."

Ayala smiled and said, "I have thought about this problem for a long time, and it will still be the way that Alfonso was implemented before."

Lu Yang nodded, as long as here is Ayala they are not stupid, the eastern mountain area will never be attacked by the enemy. The entrance of the entire eastern mountain area, except for the 160-level crocodile area in the northeast, and then undead birds and red wolves The difficult and dangerous road outside the fortress.

As for the southeast corner area below, there is no connection with the eastern mountain area at all, which means that the eastern mountain area is now a completely enclosed environment and no one can disturb it.

"Boss, who is behind you?" Elena asked curiously when she saw Jin Buhuan wearing a hood and never speaking.

Lu Yang said with a smile: "He is a secret and I will tell you later."

He left the fortress with Jin Buhuan, and the two changed into war horses and ran for 3 hours to reach the 160-level map-Fireworm Ridge.

Fire Bug Ridge, a special plot map, which is full of various fire beetles. This kind of insect has very high defense and magic resistance. It is immune to fire magic, extremely high fire damage, and very high life recovery. Speed, the only drawback is less blood.

The 160-level plot is weird, and the blood is only 5 million points. Lu Yang said to Jin Buhuan, "From this point on, I spit a poisonous mist and killed a lot of fire beetles. I have great use."

"Good grin." Jin Buhuan has been holding hundreds of highly toxic orbs for such a long time. After eating one, he spit a poisonous mist into the map.

Suddenly, a poisonous mist with a diameter of 2 kilometers covered the small half of Fireworm Ridge, and a large number of firebugs roared and rushed towards Jinbuhuan.

Lu Yang handed over the flying carpet to Jin Buhuan. He read a spell and flew back to the demon temple. He waited for Jin Buhua to hang up before he returned.

At this time, countless fire beetles' scale armors were dropped on the ground. He built a sentry tower and asked Tu Feng to collect a few logistic players to collect scale armors, and continued to spray poison with Jin Buchang.

For a whole day, Lu Yang collected tens of thousands of fire beetles' scale armors, and the death guards on the Blue Island were also mostly cleaned up, reaching the conditions for building a fortress.

Lu Yang flew to the blue island and summoned the goblin robot to start building a fortress. Such a fortress takes at least three days to build.

He was not in a hurry, as long as the fortress was started to build, and he would not participate in the war at one and a half. The main thing was that he had the scale beetle of the fire beetle, which was too much for him.

Lu Yang found Grant, his own scroll-making master, and said, "All the scales are for you, making a large number of secondary fire-forbidden scrolls."

That's right, this thing is used to make the fire system forbidden spells. Lu Yang knew this thing before, but he can't fight it. This kind of plot is either you are far better than him, or there is a restraint method, and you want to rely on the number of people normally. Hitting it is impossible.

Now, I upgraded the poisonous heart and killed all the fire beetles at once. There are enough scale armors to make more than 500 scrolls of secondary forbidden spells.

Grant got the treasure, and immediately he made it with people. Lu Yang waited on the side. After a while, the scrolls were finished. There were 500 more secondary scrolls of fire forbidden in Lu Yang's backpack. Unfortunately, he has n't. When it was hot, it was taken away with pride.

Tu Feng came to Lu Yang's side and said, "Boss, the players in the guild are applying for war. At least there are millions of people. Do you want them to join the war?"

Lu Yang said: "I noticed that they had joined the guild for a fight, and first selected some of them for preparation. If they really needed them to participate in the war, they would be summoned."

Tu Feng said, and immediately began to screen. Many players in the guild have risen to level 148. It is a good time to rush to level 150 and play equipment. Lu Yang has never wanted to delay them. The fear is that they are because of this lowered the level, but he didn't dare to carelessly in this war. The enemy came with more than 10 million people. If he had only 300,000 people to defend, it was not enough.

Lu Yang flew to the Tianjian Fortress. After a day of rest, the three destroyed city walls were restored. The defensive towers above have been restored. The slinger was also quickly built by the efforts of craftsmen such as Pan Yuhang.

Chapter 1354 - Lu Yang is furious

Li Wenxing said: "Liu Jie and Steiger seem to have no more offense in the past two days. I am temporarily safe here."

Lu Yang said: "Be careful, although spies in the fortress can detect the enemy's activities, but the enemy sends a small number of teams to attack you. You cannot know."

Li Wenxing nodded and said, "I will stick to the game for 24 hours. Please be assured, boss."

Lu Yang nodded with satisfaction. Korean players would be good. If they really obey you, they would never betray them. They would just keep looking at you and respect you.

Lu Yang inspected the Tianjian Fortress. After confirming that there was no problem here, he returned to the city main house of the Chiyang Fortress using the teleportation scroll, and others such as Zhuojiu, White Lion, and Wan Zhonghui were waiting there.

Two days later, the Brotherhood will fight against foreign players with little energy to prevent sneak attacks from domestic players. Therefore, Lu Yang ordered his spies to scan in detail whether there are players in the Huaxia area who are planning to sneak attacks with foreign players. He, sure enough, was discovered by him.

Qing Qian Zimeng came to Lu Yang with a proud expression and said, "The enemy's guild is called Jianyue Pavilion. The boss is convening more than 5,000 players to upgrade the 150-level map area outside the Chiyang Fortress."

Wan Zhonghui sneered and said, "There are really people who are not afraid of death, so people want to sneak attack on our fortress."

Qing Qian Zimeng said: "Don't care, this is an elite army, all levels are above level 150, and the equipment is also a level 150 dark gold set. They have always been based on equipment upgrades, and their skills are very strong. Not easy to destroy. "

Lu Yang said, "There are such opponents, and I will meet them personally."

Wan Zhonghui said: "Boss, I can wipe them out with the blood oath shaman."

Lu Yang shook his head and said: "Idle and idle, kill them for fun, and let them know how to attack us if they want to attack me. If I do n't do anything else these days, I will hunt down those who want to attack us. guild."

"Yes." Wan Zhonghui and Zhuo Jiu and others said together, each giving orders to his men.

Of the 200,000 players, 100,000 have a rest, and another 100,000 are on duty, and immediately returned to Chiyang Fortress when they heard the order.

At this time, there are very few players in the Chiyang Fortress who have upgraded here. Most of them have risen to level 140 or higher. They have upgraded in higher-level areas, or are stuck in the copy and the battlefield. They are still upgrading outside. Some players have just reached level 100 or above.

Lu Yang went out with a large army and did not cause a sensation, especially Lu Yang was not in the team yet.

...

Blood Moon Forest.

Thousands of players are scattered in the map to fight monsters. In their middle area, several players are sitting on the ground and chatting.

The first player is an orc with a fierce expression on his face. He is the president of this guild, called Jianqi Canglan. He said, "The day after tomorrow's war begins, we should not participate in the war immediately, but wait until Lu Yang. The Brotherhood of the Iron Blood is exhausted and we are attacking again to win a 140-level fortress in World War I. "

The vice president around him was called Ninth Sadness, and he smiled and said, "This time, the Brotherhood of Iron Blood is looting. There are hundreds of guilds like us. Once the simultaneous attacks, the Brotherhood of Iron Blood must collapse instantly."

Everyone laughed.

...

As they chatted, what they didn't know was that one of them was synchronizing the video and sharing it with Lu Yang and Qing Qian Zimeng.

Lu Yang was flying in the sky, his face was serious, and he said, "Ask them, what kind of guilds are there?"

The leader of the army was called Ye Xunhun, and immediately laughed and asked, "Boss, what guilds are there? Tell us to listen and raise morale."

The sword lifted Cang Lan, squinting his eyes and looking at Ye Xunhun, said displeasely, "What morale to raise?"

Ye Yanhun scratched his head, and said embarrassedly, "Boss, if you don't talk about the guild, I thought you were going to die."

The leaders around them nodded.

Cang Lan suddenly became furious and said, "Am I so stupid?"

Ye Xunhun said in a distressed expression: "No way, the Jagged Brothers Alliance is too strong. They have not used ordinary players this time, not just me. I guess the brothers are the same. They are worried when we fight, Jagged Brothers You do n't need Lu Yang to issue an order, and they automatically ran back to fight. There are more than 10 million people. Let 's have 5000 people.

The ninth sadness of the vice chairman glanced around the regiment and commander-level players around him. Everyone's face showed an agreeable expression, smiled, and said, "Brother, just tell them, look at these people. His expressions are waiting for each one. "

Secretly, the ninth sadness sent a message to Jianqi Canglan, saying: "First disclose some, otherwise, they will not be online on the day of the battle."

Jian Lan Cang Lan was still trying to hide. When he heard this sentence, he suddenly realized that he typed and replied, "I have patronized hiding this thing, and forgot my ability."

He cleared his throat and said, "Okay, I'm brothers, so it doesn't matter to tell you, you remember, don't say it."

Several heads of regiments and heads of the regiment nodded again and again, saying that they would not be dense.

Jianqi Canglan glanced at everyone's expressions. These people have been playing with him for three years. They know each other well. He also believes, and said, "To tell you the truth, this time is a woman named Lisi. There were more than one guild called by me. There were more than 100 guilds. All were guilds with a population of 50,000 or more. The promise of that girl was to us, after laying Lu Yang, a third of the fortresses. It belongs to us, and our guilds must merge with each other to only 20 guilds. "

"Why merge?" Ye Dihun asked puzzledly.

Jianqi Canglan said: "Without merger, how can we resist the invasion of the seven strongest guilds? If Alice does not say this, we will not agree yet, but she is honest and we feel this There was a chance of success, and that was agreed. "

Ye Xunhun asked curiously: "Can there be so many? Didn't they give Lu Yang high density?"

He smiled with a sword and said, "How long has Lu Yang been in charge of the Huaxia region? He has been playing the new continent since the old continent. He has been in charge for almost three years. Is it time to change? Why? Ah, just this sentence is enough to make the bosses of the guild agree to do this, so I think so. "

The ninth vice-chairperson showed off sadly: "I'm not afraid to tell you that this time we will also be a guild with more than 100,000 people such as the God Trial Guild, the Gentlemen's Association, the Dongjiang Knights, the Taohuawu and the Night Symphony The Brotherhood of Jagged Brothers cannot carry this time. "

Ye Xunhun was stunned and asked, "Isn't these a few affiliated guilds?"

Jianqi proudly said, "Yes, even they betrayed Lu Yang. Think about it, can Lu Yang still live this time?"

The heads of the army around them showed joyful expressions.

"Haha, this time the Jagged Brotherhood must be over."

"Okay, we can reshuffle. We can also get a lot of benefits."

"I haven't seen Lu Yang for a long time, and I pretend to be too pretentious."

"Kill him, and be sure to grab a wave at that time. I heard that there are all good things in his guild warehouse."

...

Ye Xunhun watched the swords rising from the blue and the ninth sadness and other players became more and more crazy, and couldn't help but take a step back because he knew that Lu Yang had lurked behind, so he stood behind him invisibly.

In order for Lu Yang to come over quickly, Ye Xunhun secretly built a sentry tower behind a big tree surrounded by five people, and formed a team with Lu Yang.

“Ye Xun soul, what are you doing back?” Jian Qi clan looked at Ye Xun curiously and asked.

“Hehe.” Ye Xunhun looked at the expression of the dead man, looked at the sword rising from the blue, and the other players said, “Do not retreat, as you die.”

“court death?”

“What do you mean?”

...

When the sword rose and the ninth sadness, I felt that the event was not good, and quickly asked Ye Xunhun, unfortunately, just as they spoke, a cold hum appeared behind the two.

“He means, you can discuss how to re-establish an account.” Lu Yang appeared in shape, and the spell was in his mouth.

“Destroy Heavy Artillery”

Lu Yang pointed his right hand forward, and a huge fireball with a diameter of 3 meters struck forward like a meteorite.

“boom”

Cang Lan and Ninth Sadness bear the brunt of the sword. They died instantly at the moment of being hit, with up to more than 5 million crit damage. The two could not bear it.

“Inflammation”

Lu Yang instantly turned into a flame-like form, with a body height of 5 meters. He looked at the players on the ground, and did not need to chant a spell. He pointed forward with his left hand, and 9 red meteorites in the sky appeared at the same time, facing him. The ground ahead rolled over.

Around a dozen individual players around this time have been frightened by Lu Yang, and even forgot to fight back, scattered and ran away, even the Paladin did not dare to turn back.

But where can they run away, Lu Yang aimed with his left hand.

“Flame Storm”

The instantaneous flame storm lit a fierce fire on the ground where they ran away. A dozen people were killed without even having a chance to run.

“Run, Lu Yang is here.”

“Brothers, retreat We are surrounded by the Brotherhood of Iron and Blood.”

“The plan was revealed, and Lu Yang personally rushed over.”

...

The 5,000 players in the forest heard this news, and they were all stunned. They didn't know what to do to attack the Jagged Brothers Fortress, but they were gathered together by the chairman, and they didn't know what to do.

But before they wanted to understand, countless players around the Jagged Brothers Alliance appeared one after another, and Hei Yan was worried about Lu Yang's accident, and ordered the space-time elf mage to appear first with 10,000 forbidden spells.

Hei Yan just landed and growled and shouted: "Guild attack mode, all indiscriminate spells are forbidden, covering the Blood Moon Forest."

"Second Injunction-Meteor Fire Rain"

"Second Injunction-Frozen Roar"

"Second Injunction-Time and Space Cutting"

...

Chapter 1355 - Rage Alice

Ten thousand level 6 secondary forbidden spells, with a single range of 500 yards in diameter, together, the entire forest is covered by skills. Players in it, except for the Paladin, run away invincibly, and the rest are killed.

"Boss, are you okay." Hei Yan asked.

Lu Yang watched Hei Yan's returning transmission chain and said, "Going back to Chiyang Fortress, there is a big problem with this."

Heiyan nodded.

A flash of light flashed, the space-time elves flew away with the forbidden mage group, and Lu Yang saw that there were no living players around, and also used the teleportation scroll to fly back to the Chiyang

Fortress. Just after landing, he sent a message to Zhuoji, saying: "Siege Jianyue Pavilion until their chairman, vice chairman and others quit the game."

"Yes," said Zhujiu.

Lu Yang sat in the conference room of the city's main government house, thinking about the war. He was n't sure if it was true. If it was, then the predicament of the Brotherhood of Iron and Blood was greater.

"Tell Ye Xunhun to contact the sword to rise and ask him if he is still alive or wants to live." Lu Yang sent a message to Qing Qian Zimeng.

Qing Qian Zimeng immediately called, and soon, Jian Qi Cang Lan, accompanied by Ye Xunhun, went down into the city's main house and came to Lu Yang.

"President Lu Yang, I'm here to make peace with you." Jianqi Canglan said.

Lu Yang sneered and said, "Two people who can't help each other can only make peace. Do you have a peace talk with me? Either surrender or I will kill you back to level 0, Ruin your guild, and let the players in the game start to attack when they hear Jianyue Pavilion, you choose. "

The sword rose up and he was dumbfounded. On the way he thought about a lot of speeches with Lu Yang. In his opinion, Lu Yang was nothing great, as long as he temporarily admonished, when the seven strongest guilds came over, he would Participate in the attack, the Jagged Brotherhood is over.

But Lu Yang's words made him fully understand that he and Lu Yang are not at the same level at all. It is easy for Lu Yang to crush him. If he does not really surrender now, then there is no need to wait for the seven When the strong guild came, he and his guild were completely destroyed. He believed that Lu Yang could do this easily.

Jianqi Canglan said with cold sweat on his face: "President Lu Yang, I surrender, don't ruin my guild. This is my three years of hard work."

Lu Yang sneered and said, "Give me a reason not to destroy him. Now Zhujiu is taking 100,000 elite players and is chasing your guild players all over the world. You only have 10 seconds. If you can't convince me that your guild no longer exists. "

The sword lifted Cang Lan as if struck by lightning, and subconsciously blurted out: "I offer you all the guilds that betray you."

Lu Yang was still silent.

Jianqi Canglan said: "I help you find Alice, although he is usually in the Celestial City, but if we call everyone to gather, she will come here."

Only then did Lu Yang look satisfied and said with a smile: "Very well, your guild can stay."

He sent a message to Zhuoju and said, "Stop hunting and return to the fortress of Chiyang."

"Yes." There was a murmur of murmur, without asking why.

Brother Lu Yang looked at Jian Lan and said, "I have ordered Zhuoshu to stop attacking. Now you tell me what guilds there are. I hope you are telling the truth, otherwise."

Jianqi Canglan said quickly: "Dare you dare? I dare not. You let me think about it, I will tell you slowly."

Lu Yang called Tu Feng, Qing Qian Zimeng, and Zhuojiu, and more than a dozen people gathered around Jianqi Canglan, listening to the names of his hostile guilds one by one.

Ten minutes later, Jianqi Canglan said, "I'm done, that's all."

The White Lion said angrily, "Think again, is there any."

Jian Lan Cang Lan was startled and said quickly: "No, it's really gone. I even said that the studio of 500 people, it's really gone."

Lu Yang motioned to the White Lion not to scare him, and said, "Go and contact Alice, and ask him to go to the fortress of the city of war in the Nine Stars Alliance, saying that you are asked to come and contact several Russian guilds in the city of war."

For a long time, Russian players were not convinced by Lu Yang. Only because Xia Yuwei was sitting in town, there was no trouble there. If anyone could contact the enemy players in the city of war, Alice would definitely be attracted.

"Okay, I'll get in touch." Jianqi Canglan said.

Lu Yang winked, Qing Qing Zi Meng took the sword to Cang Lan and went to a room next to the city's main house.

Lu Yang asked everyone, "What do you think?"

Tu Feng couldn't help but said first: "We need to convene players in the guild to participate in the war, can not hesitate."

"I agree," White Lion said.

Zhou Tianming said, "I agree."

...

Several vice presidents agreed.

Lu Yang thought for a while and said, "This is the last thing I want. Players in our guild are not afraid to fight and love this guild. I know that they can fight continuously. Their level is different from foreign

guilds. It 's hard to rest for three months. This will let them participate in the war, or civil war, and the level will be affected. “

Tu Feng said, “But we cannot rely on these 300,000 people to cope with the war on both sides. We don't have enough manpower. At that time, we don't know who the enemy is. We need to deploy a large number of players in each fort.”

The old man in the twilight said, “Tu Feng is right. This war is important. Let the brothers in the guild all participate in the war.”

Lu Yang sighed and said, “That's all we can do. We'll wait for the news from Jian Lan's side. Once we are sure that Alice can be elicited, I'll kick the woman for a while and then announce the summons.”

The old man in the twilight smiled and said, “You don't really want to pump her, that's not so elegant.”

Everyone laughed.

Lu Yang snorted coldly and said, “This woman owes a lot of shame. I've been overcast twice in a row. It really doesn't matter if I take him.”

The old man shrugged his shoulders.

Qing Qian Zimeng came back with a sword and a blue sky.

“Alice promised that she had already flew to the city of war and was waiting for me in the black dragon cave of the 110-level replica outside the city.”

Lu Yang said, “Let's go together.”

A flash of light flashed, Lu Yang used the teleportation scepter, and flew to the city of war with everyone present. The group changed their appearance using a camouflage coat and quickly ran to the copy of the Black Dragon Cave.

Inside the copy.

Aili Ribbon entered a copy with a subordinate, she turned on the team mode, added the sword to the blue, and waited in excitement.

If he had previously believed that the Jagged Brotherhood could not be destroyed, then this time, she was full of confidence.

The player in India has a mild temper, and after searching for a long time, she did not find a guild that can shake people such as Padu. She can only give up, but the players in Huaxia area have so easily convened so many. Players, really made her too excited.

“This group of fools don’t want to think about it, even if they can lay the fortress, how could Olma and Sanyoumen allow them to take control of the fortress, it is really stupid at home, this group of stupid people have really discussed how to merge The guild, haha, that’s ridiculous.” Alice said excitedly to her men next to her.

He smiled and said, “Congratulations to the president, you defeated Lu Yang this time, and you can implement your plan further.”

Alice laughed and said, “This is a secret, don’t tell it.”

He nodded proudly, and enjoyed Alice’s trust in her.

There was a flash of light.

The sword rose into the copy, and Alice immediately asked, “What about your friend?”

Cang Lan did not expect Alice to be so anxious. Originally, he was still worried about revealing his feet. He smiled and said, “My goddess, when you are so anxious, you first give me the title of head, I add him, How else could he get into the copy? “

Alice was said to be a little embarrassed. She gave the sword a white glance, gave the head to the sword, and said, "Isn't I in a hurry?"

Jian Lan smiled and said nothing. The next second, while Alice was waiting excitedly at the door, a message was sent to her mailbox.

"Jianyuege has just been ambushed by the Brotherhood of the Iron Blood. Lu Yang shot it himself. It is no longer reliable to be cautious!"

Alice raised her head sharply and stared at the sword with blue eyes. The originally beautiful big eyes looked so terrible under Alice's fierce stare, all eyes were white, and then, in Alice's frightened eyes Among them, a flash of light flashed at the entrance of the copy, and Lu Yang showed more than 20 people with muddy wine and white lions.

"Run fast." Alice quickly launched her skills, but in the next second, Han Ying said a spell.

"end"

If Alice's blurred body is struck by lightning, she is instantly fixed in the copy. She cannot release skills, cannot use items, and can only physically attack and move around.

Lu Yang sneered towards Alice and said, "Woman, I never thought I would come."

"Don't hurt Alice." Alice's men flew towards the landing sun.

Lu Yang pointed with his left hand.

"Flame Shock"

A blast of flame exploded on Alice's face, and a 5 million damage figure directly killed the female player in place.

Alice has calmed down at this time, even if his heart is still beating abnormal brain waves cause the connection signal to the helmet to decrease, but she still calms down forcibly, watching Lu Yang sneer Said: "President Lu Yang, you only know now, it's a bit late."

Lu Yang was furious and said, "Alice, you really think I'm okay with you."

Alice proudly walked to Lu Yang and said, "You just take me."

The flame in Lu Yang's hands suddenly changed into the shape of a whip. This is the Fire Mage's flame transfiguration skill. He yanked it according to Alice's face.

"Snapped"

Alice was drawn back two steps in a row, looking at the blood on her face, she looked angrily at Lu Yang and cursed: "You dare to shame me."

"Snapped"

Lu Yang drew another whip on Alice's face and cursed, "I'm the one who humiliates you. I loved it for half my life, and recorded it for me."

"Boss rest assured, I've recorded it all, and it's in the air." Shouted bitterly for half a life.

Chapter 1356 - Opening of the war

In the game, Alice relies on her beauty. If she is hated by a hostile face and is constantly insulted by live broadcasts, you can imagine what Alice will look like.

"Lu Yang, you are going to kill you, you bastard." Alice snarled at Lu Yang with his sharp, needle-like voice.

However, Lu Yang ignored the whip in his hands and beat him on Alice's face again and again. Next to him, Yeyue Tingfeng and several priests kept treating Alice with blood, which caused Alice You can't die if you fight.

In the live room.

Originally, few people watched it, but Lu Yang told Dubin about it. Dubin immediately transferred the live broadcast to his platform, which instantly attracted countless players.

"Oh, my God, isn't this Alice in the Celestial City known as the fascinating goddess? Why was Lu Yang be like this?"

"Haha, deserve it, this woman deserves to be cleaned up and played beautifully."

"My goddess, why did President Lu Yang treat her like this?"

"Did you read the title? This time, it is this Alice who planned the seven strongest guilds to jointly attack Lu Yang, as well as the internal rebellion in the Huaxia region. This is Lu Yang's revenge."

"Oh, haha, I played beautifully, I'm a fan of Lu Yang, hit him."

...

Alice's long-sleeved good dance has always been like a goddess in front of people. Many ordinary players admire her beauty, especially she often dances in the game, it has attracted countless otakus, but this time was drawn by Lu Yang, a whip A whip was hit on the face, and that insult made Alice's image in the minds of male players plummet.

"From today on, you are just a disgusting woman, you remember, I will ruin all the industries you created in the game with my own hands." Lu Yang pumped dozens of lashes in a row, and was relieved, too lazy to reconcile Alice nonsense. She fired a fierce yang punch with her left hand, punched her in the head, and took her directly to the necropolis.

[World Channel] Lu Yang: Iron Blood Convocation Order. From now on, all Iron Blood Brothers League players above 145 battle group will quickly gather outside their respective nearest fortress city main government. It's time for the Iron Blood Brothers Alliance to live or die. I need Brothers help.

[Guild Channel] Lu Yang: ...

...

In the same sentence, Lu Yang made 10 consecutive times without waiting for him to finish, only for a moment, the internal fry pan of the Brotherhood of Iron Blood.

[Guidance Channel] Drifting Snow: If there is a fight, the call will be returned, Brother Iron Alliance, I have drifting snow.

[Guild Channel] Blue Harbor: I am back in Blue Harbor.

"I'm back from Hanshan."

"I am Lingfeng back."

...

Countless players speak on the channel.

In the game, a group of players are fighting in the copy, and one player suddenly settles down, sorry to say: "Sorry friends, the Brotherhood of Iron Blood issued a rally. The boss needs my help, I must go. . "

"The copy is not finished. Why are you doing this?"

“Sorry, everybody, I will compensate you all at the end of the battle, and now I must go.”

A flash of light flashed, and the player flew to the nearest fortress and headed to the city’s mansion to gather. There was no hesitation on his face.

In the battlefield, in the face of a battle about to win, the head of the regimen shouted, “No more fights, all withdraw, and find the boss to repay.”

“No more fights, I’m going to the racks, it’s still really good and comfortable.”

“The grandchildren on the opposite side, you have good luck, and I’ll pack you next time I meet.”

A flash of light flashed, and thousands of players on the battlefield took out the teleportation scroll and left the battlefield at the same time.

Fighting in the wild.

A group of Jagged Brothers players just found a boss and heard the call of the Jagged Brothers that the captain said immediately, “Go back to the city immediately.”

“Can boss?”

“Boss a ball, back to the city, the boss needs us.”

More than a dozen players took out the teleportation scroll and left.

...

In the area controlled by Lu Yang, such a scene can be seen in all areas of the map. Each Brotherhood of the Iron Blood is using the scroll to return to the fort. If viewed from high altitude, you can see tens of millions of teleports. The light lit up all over the map.

In front of the 17 fortress city main houses in the Huaxia area, all the deputy chairmen such as Zhuojiu, Tu Feng and White Lion are sitting in the town to arrange them. All the players in the ranks of heads, legions, heads, and captains are cooperating with the deputy. The commander directed the scene.

Lu Yang was sitting in the middle of the Chiyang Fortress, and the news quickly spread to the main city of the Chiyang Fortress. Tu Feng stood beside Lu Yang and reported the number of players gathered by the vice-chairmen in real time.

“In just 10 minutes, we have gathered more than 5 million people. Most of the rest are offline. In a period of time, at least 10 million people can be gathered.” Tu Feng said excitedly.

It’s August, and it’s just the time for the students to take a vacation. Today is just over the weekend, so the number of players is exceptionally high.

Lu Yang sent a group e-mail to the deputy chairmen such as Zhuojiu, saying, “The players gathered quickly formed a legion and immediately prepared for battle.”

Just as he was whipping Alice, news came from his spies, and the guilds on the list provided by Jian Lan started to gather players on a large scale. Obviously, this was to fight him to the end.

Zhuzhuo first called and said, “Twenty-two legions have been assembled, all of them are fully staffed, and the levels are all around 148. Supply and state are ready to participate in the battle at any time.”

Lu Yang looked at Tu Feng and asked, “Where are our enemies gathering?”

Tu Feng pointed at the Star Picking Fortress and said, “Six small guilds are gathering in Xingxing Village outside the Star Picking Fortress. The total number is about 500,000.”

Lu Yang ordered: “Zhuo Jiu immediately dispatched these 22 legions and destroyed the 500,000 people until they were afraid to go online again.”

“Yes.” Zhuojiu took the order, turned to look at the deputies behind him, and said, “Vulcan M16, this time you are in charge of leading the team and showing me the style of the Iron Brotherhood, let them see, hundred What’s the difference between the Brotherhood of War and their miscellaneous fish? “

“Brother, rest assured, give it to me.” Vulcan M16 turned his head and ran to the assembled team.

“The target picked the star fortress, and the assembled legion attacked with me.” Vulcan M16 shouted, and a few of the 22 legionnaires flew to the star picked fortress with Vulcan M16 and rushed towards Xingxing Village.

No one expected that the starting point of a big battle turned out to be the humble village of Xingxing Village.

At the village chief’s home, the six presidents are sitting around. Everyone ’s facial expressions look dull and dumb, and they do n’t know how to look good, but in fact, no one knows that they are connected in a special space. Inside, inside, Alice, who had rearranged her clothes, was discussing with more than a hundred guild leaders how to attack Lu Yang.

Feng Fengmeng’s president said, “The players in our six guilds have gathered half of them. How are the others?”

The six guilds of Fengmengmeng, Scarlet Night Sky, Lingyan Pavilion, Tingyuxuan, Xishanju and Huxin Xiaozhu all gathered in Xingxing Village, and they elected Fengfeng as their leader.

“The 10 guilds have assembled half a million people, and Liuguang Village, an hour away from Xingxing Village, can support you at any time.”

“The four guilds have gathered 300,000 people, and the Devil’s Spore Village, half an hour away on your other side, can support you at any time,” said Baishawan’s chairman, Dalangtaosha.

Alice’s face showed a satisfied look, and said with great pride: “It’s great, I have received the news that Lu Yang sent a 220,000 army of miscellaneous troops attacking Xingxing Village with great pride. Both sides of you Quickly approached Xingxing Village, we won the first battle and taught the Brotherhood of the Iron Blood. “

Qiangfeng's eyes showed blood, and he said sternly, "It is time for Huaxia to change the gate. Lu Yang has been sitting in that position for a long time, and it is time for our brothers to sit."

Nocturne, Big Wave and Sand Washing laughed, and everyone's face was filled with excitement.

Alice said, "You are ready to go."

The 20 guild presidents nodded together, the light flashed, and they returned to their respective bodies at the same time.

Alice looked at the three guild leaders standing not far away and said, "Three brothers, Lu Yang will definitely send someone to reinforce, and it will be up to you at that time."

"Rest assured that we are different from their group of miscellaneous fish."

"It's just over one million of them, I'm afraid that the half a million people who might not be able to block the Jagged Brotherhood. It will be us who really work."

The presidents of the surrounding small guilds gritted their teeth for a while, but they couldn't bear it. There was no way The two sides were severely unequal in strength. They were affiliated guilds of the Iron Brotherhood. The number was about 500,000, and they were long-standing The battlefield is not comparable to them.

Alice glanced at the trio charmingly and said, "Please, please three."

The three looked at each other and exited the special space.

Alice turned to look at the other guild presidents and said, "Zixing Village is just a flash point of this war. Our next target is the Chiyang Fortress, which is the only Grade 6 fortress in Luyang. I heard that It stores one-third of the strategic materials of the Brotherhood of Iron and Blood. If you win here, you will have enough money to support the war. Following my orders, the two big brothers of the Wild Wolf and

the Tenba Dominion took the 20 guild leaders around you. The demon cow village next to the tiger mouth fortress launched an attack, forcing the Luyang faction to reinforce.

The big brothers of the Blood Empire and the Black Realm took the 20 guild leaders around you to launch an attack from the sunset village next to the Sky Sword Fortress, forcing Lu Yang to send the main force to stop them. I personally took more than 40 guilds and the God of War guild, Domineering Guild and other big brothers attacked the Chiyang Fortress together. “

These guilds, named by Alice individually, are affiliated guilds of the Iron Brotherhood, and each has a number of players of about 500,000.

Chapter 1357 - Battle of Star Village

The blood wing empire 's president, Bloodwing, looked dissatisfied and said, “When will Olma and Mitomonemons launch an offense? Let 's fight now. What 's the difference between sending them to death?”

The Dark Emperor, the chairman of the Black World Royal Guild, also expressed dissatisfaction, saying, “You let us fight against Lu Yang's main force, we have no chance of winning at all.”

The idea of the two was originally to combine 20 small guilds to form a super guild. When the Iron Blood Brotherhood and the seven strongest guilds in Yangyang battled, they plundered one or two fortresses to become the boss, and did not want to confront Lu Yang.

Regardless of the size of the surrounding guilds, they heard the same expression when they heard the words of the two people. They did not want to face Lu Yang face to face. Everyone knows that if there is no outside help, they ca n't win by themselves. Lu Yang's.

“Alice, wouldn't you just take us as a stepping stone and pave the way for the seven strongest guilds.”

“Did we hit the bottom of the family like this?”

...

A group of people pointed at Alice.

Seeing this scene, Alice did not show a look of fear, but she was full of ridicule on her face. She banged the table angrily and said, "You do n't want to pay for the fortress? You will be a member of the Seven Guilds. Is he a fool? Either listen to my order now or get out of here and disappear in front of me. I have no time to talk nonsense to you. "

The presidents of the guilds couldn't help but stagnate, but now it's too late? They have already boarded Alice's ship. If you want to leave, you have to ask Lu Yang if you don't agree, but is it still necessary to ask? How could Lu Yang agree.

For a time, the presidents of the guilds all looked disappointed and embarrassed, but in the end, they all agreed to Alice's request one by one and returned to prepare for the war.

Alice glanced scornfully at the people leaving, and sent invitations to Olma and Mitomonemon, and a flash of light flashed. Seven people who had been waiting outside were teleported into the special space.

Olma asked excitedly: "Did those Chinese presidents agree?"

Alice sneered and said, "I have betrayed Lu Yang, do they dare not agree now?"

Sanyou Weimen said: "Very well, as long as you force Luyang's entire army to take precautions, we can launch a surprise attack tonight."

"I hope so," Alice said. "I wish us all the best."

Orma and others sneered on their faces, each withdrew from the special space and returned to the main battlefield. At this time, two stealth troops were waiting outside of the Fortress, one was a samurai, and the other was Sanyou Wei Men is proud of the three-turn ninja legion.

“Act now and arrive at the Tiger Mouth fortress at 12 o’clock in the night, China time.” Mitomonemon personally issued an order, and he was also in the ninja team, he was the strongest ninja in the three-turn ninja legion.

Part of the samurai is Japanese players, and some are players from countries such as the United States and Poland. At this time, they are under the command of Sanyouemon, and they are moving quickly towards the fortress with the Ninja Corps.

There is a five-hour journey from Tsuten Fortress to Tiger Mouth Fortress. This is also a large plain. At this time, the Assassin players of the Brotherhood of the Iron Brothers are scattered on the plain. However, the players of the Brotherhood of the Iron Brothers do not know that the Japanese Ninja Army With super strong ability to detect stealth, these assassins are as obvious in their eyes. The 200,000 ninjas and the warrior alliance have quietly bypassed the assassins of the Iron Brotherhood and ran cautiously towards the tiger mouth fortress.

“Report the situation, everyone must be careful. The seven strongest guilds are very likely to send elite troops to attack our fortress. Don’t take care.” Above the tiger mouth fortress, the old man in the twilight is guarding here instead of Lu Yang.

Although the old man’s ability to lead team raids is not good, when it comes to defense, he has seriously studied the book of war and has developed a separate set of defense methods in combination with the game.

Outside the fortress of the tiger’s mouth, there are many tall poles. Each pole has a huge X-shaped pattern on the ground. This is a ruler, which represents the position where the trebuchet can be attacked at various angles.

Around the ruler, there are 3 traps at each point, including a distance of 30 meters below the fortress, and a row of fire thunder arrays. This thing is used by the old man to defend the enemy thieves, because this thing can’t be used. Dismantling, even if dismantled, exploded on the spot, it was a weapon to defend the fortress.

At this time, there were only 100,000 defensive players on the city wall. Most of them were three-turn higher bloodlines such as Starbreaker Shooter, Divine Knight and Ice Arch Mage, and they were considered to be the strongest defensive team in the Iron Brotherhood.

The old man at the twilight watched that the players on the city wall were mobilized, and sent a message to Lu Yang, saying: "The Tiger Mouth Fortress has been alert. You can rest assured that there is no problem here with the old man."

Lu Yang was in the middle of the Chiyang Fortress at this time. He sighed and said, "Father, it's all up to you this time. I can't really separate the staff."

They have to command the overall situation in the major fortresses, because no one can understand so many people except them.

The old man in the twilight smiled and said, "Be assured that there is absolutely no problem with me."

Lu Yang was relieved. Just now Li Wenxing also mobilized. The sudden internal rebellion disrupted the rhythm of the Jagged Brotherhood, but fortunately, the players in each country he originally used had the real skills. Li Wenxing quickly raised the sky sword. The fortification of the fortress is now fully guarded by the Tiger Mouth Fortress, and Lu Yang can concentrate on dealing with the garbage that rebels against him.

Lu Yang called Vulcan M16 and asked, "How far is it from Xingxing Village, is the enemy blocking?"

Vulcan M16 looked at the entrance of Xingxing Village less than five kilometers in front, and hundreds of thousands of players were already in the array on the hillside in front of the village.

He said: "Boss, the enemy is only over 200,000 people, but I feel that they must have reinforcements."

"Is there any way to win," Lu Yang asked.

Vulcan M16 smiled and said, "Boss, look down on me. Even if there are 1 million enemies, my 220,000 people will be able to knock them all down. The group of people under me have been with muddy wine for two years. More masters. "

Why this team can only gather 220,000 people in 10 minutes, because the muddy wine has not kept them apart. No matter what they do, these 220,000 people do it together, they fight together, they fight

together, they copy together. To put it bluntly, these people are still the elite soldiers of the Brotherhood of Iron and Blood. They are called to come, they can fight, and they can win.

Lu Yang said: "Very well, I gave you two permissions to transfer the space-time elf mage, you can summon the forbidden spell mage to support it, and there will be 500,000 support for you in the future, to win the war in Xingxing Village and destroy the enemy's will."

"Yes." Vulcan M16 replied in excitement and was able to summon the sprites of space and time, but this was only the treatment of the vice chairman. He did not expect that he would be able to get such treatment one day. Red light.

"Brothers, the opportunity to make a contribution is here, don't you all want to enter the war studio? Fight hard and win this battle. I must go to the boss to get a place." Vulcan M16 shouted.

The eyes of all the army commanders and players were red. Wan Zhonghui and Liu Ruohuai had become the idols of the Brotherhood of Iron Blood entering the guild. Since Lu Yang can recruit them, he can also recruit himself with excellent performance.

The head of the First Army Corps said excitedly, "Boss Vulcan, how about letting me lead the army first? I'll kill my brothers."

The commander of the Second Army immediately reluctantly said, "Let's come to the less and attack our second Army better. We must come."

The Third Legion was furious: "What were the first and second legions you fought in the last war? It wasn't because of the Third Legion of Lao Tzu. I must come first."

...

The heads of the 22 regiments were arguing, and even the head of the rogue regiment and the head of the priest regiment rushed forward to want the first one.

Vulcan M16 was speechless for a while and said, "Listen to me,

At the old point, thieves, priests, archers, mages and warlocks don't need to participate. Only the soldiers, paladins and druids are required to participate. "

The 22 army commanders ended their big eyes and glared at each other, and quickly took out the dice and threw it.

"22, hemp."

"55, shit."

...

When the Iron Brothers League rolled the dice, the presidents of the six civil guilds gathered on the hillside across the battlefield to watch the Iron Brothers Brotherhood stop.

"Strange, what are they doing? How can the leader seem to be rolling dice with his hands?" Hongguo Xiaozhu's girl president Hongguo asked curiously.

The president of Xishanju smiled and said, "Are they drawing lots? Who is the most unlucky and who is the first to attack is probably afraid of us."

Everyone laughed.

Jin Yan, the president of Lingyan Pavilion, frowned and asked, "Should we take the initiative to attack, so many of us, afraid of what the gangs do, they will kill them in one attack, then we will pick the star fortress and grab the next one. The fortress will speak again. "

Feng Yumeng's president said, "Do n't move. Now that Lu Yang's army is destroyed, he will send more people to help. What should we do then? Do n't forget, there are two around us. The guild hasn't arrived. It's best to let other places go to war first. We have a chance to kill the enemy in a wave before going to the fortress. "

The presidents such as Hongguo and the Poet Poet had a little moved, and nodded after hearing the strong wind.

“That makes sense.” Grumpy Jin Min nodded.

Hongguo laughed and said, “It’s better for me to talk to them, take them a little time, maybe they don’t want to attack, after all, there are fewer people hitting more people, haha.”

The wind nodded and said, “Let’s go together.”

Chapter 1358 - Iron Might

“Haha, I won.” The commander of the First Army was still domineering and suddenly laughed,

At the end of the oll point, he had the highest points, even reaching 100 points.

“Hemp eggs, this guy is very lucky.”

...

The rest of the legionnaires sighed and sighed. Everyone knows that the first one who rushed up had the greatest contribution. Although it is likely to be killed by the enemy’s intensive magic, it is not that they look down on the players of the six small guilds on the opposite side. Not a level.

The 22 Legions of the Iron Blood Brotherhood have cooperated for two years. Although many people left and many people came in midway, the souls of the 22 Legions are always there, from the squadron leader to the legion leader. Promoted within the legion.

The cooperation between them, their understanding of war, and especially the understanding of large-scale group battles among ordinary players, are far from being understood by small guild players.

The large army fights, not throwing a bunch of magic and bows and arrows, waiting for close combat, it is a battle that can be fought by several professions joining together.

For example, the 22 Legions of the Iron Brotherhood, the First Army Chief gets the first charge task, and one of his tenth professions in his team is anti-war and anti-riding. At present, every player in the Iron Brotherhood is participating. There are bloodlines, anti-riding and anti-war three-round ordinary bloodlines are the Holy Shield Knight and Ice Iron Guard.

The jewels, enchantments, and status on their bodies all increase defense, magic resistance, and health. When fighting, they will rush firmly on the first line, the first row of shields will be flat, the second row will be shields, and the third Rows hold up shields.

Under these shield battles are three ordinary knight-blooded professional apocalypse who are in charge of the charge. Each apocalypse knows how to punish angels.

Behind the apocalypse are priests and other healing professions, and under the premise of shield protection, they can easily add blood to the surrounding players.

When their group attacks forward, they can maintain a tidy pace, especially the uniform pace before the attack. This is impossible for most guilds, but this is not the most difficult.

What is really difficult is that this 10,000 people on the charge can change into a small group of 20 people at any time. They still have the protection of shield wars, or they are followed by healing and apocalypse. The combat effectiveness of the small units is not affected at all, and it will never In the case of lack of people and few people, it is even more commendable that while maintaining this small force, they can also open the turtle formation to improve the defense of the whole group.

So far, in the entire game, only the seven strongest guilds and the few guilds such as Liu Jie who can achieve this step of the Jagged Brothers Alliance can achieve this step.

If the enemies in front of you are the players of the seven strongest guilds, the legion leader of the Vulcan M16 may not be so confident, but the fish fish players composed by the six small guilds are too easy for them. .

“The first legion is preparing to attack, the 9th and 17th legions are preparing to fight together, and the 20th legion is preparing to advance.” The head of the first legion was still domineering into the team to deploy operations.

Vulcan M16 said to several legionnaires around him: “After being still domineering and leading the team to disrupt the enemy’s formation, you immediately led the team through the wings and killed each other.”

The heads of several legions nodded. This was their customary strategy. One took the lead and the other two wings attacked. The general enemy could defend the front but not the sides. The guards on the two wings were the worst, but the Iron Brotherhood’s attack was too strong. Often, the enemy is knocked out on the front, and the assault on both wings is just icing on the cake.

Just as Vulcan and others were preparing, six of them ran out on horseback in the opposite lineup, and came to a position only 50 meters away from them.

“Listen opposite, we are ...” The downcast poet proudly read the guild names of several of them.

The face of Vulcan M16 was tired and said, “Whatever it takes, just say what you want.”

The gust of wind sneered and said, “Don’t think you are proud of the Jagged Brotherhood. It’s time for China to change the gate, and it’s our turn to decide for ourselves.”

Vulcan M16 froze and said, “What do you mean by saying this, isn’t it that the Brotherhood of Iron and Blood has given the Huaxia area a freely moving and safe area to upgrade? You do n’t know how to be grateful?”

The wind hummed and said, “Is Lu Yang confiscating our money? With so many fortresses built, I don’t know how much we have received for so many years, and it’s our turn to collect your money.”

“Yes, it’s your turn to pay us,” shouted the downcast poet.

Hongguo said arrogantly: "Sumit and give you a chance to decently withdraw from the Jagged Brotherhood."

Vulcan M16 looked at these people with incredible faces and said, "You do n't know how grateful you are. Look at other guilds controlling the rest of the players. Which fortress is not collecting more money than us, which guild is not enclosure. Leveling, which is not to control the number of guild players below, only our Jagged Brotherhood is the most lenient, how can it be an excuse for you to attack us? Maybe we too indulge you? "

Listening to Yuxuan, the president of Yuxuan, said sarcastically, "It's really a habit to be the master. I dare to use this tone at this time. Now your Brotherhood of Iron and Blood has shaken, and you should leave the guild as soon as possible, otherwise we will be killed. Turned into street mice. "

Vulcan said: "In fact, I didn't look down on you at all, but since you say so, don't blame me."

"How can you be rude?" Hongguo said sarcastically.

Vulcan M16 shook his head and shouted, "Still domineering, not ready yet?"

"I'm ready, I'll wait for your order." A roar came from the team.

Vulcan M16 raised his staff high, his expression suddenly changed from plain to solemn, and he yelled, "Iron brothers!"

"Kill ~!" The middle man still roared suddenly and suddenly, with 40,000 people suddenly rushing out of the array and launched an onslaught towards the enemy's position. It was Hongguo who was in between. Gale and 6 others.

"You guys, you do n't talk about rules, you did n't say how to fight?" Fengfeng waited dumbfounded, and quickly backed away.

"Now you want to run, it's too late." Vulcan said in his mouth, and Vulcan, who also had the blessing of Level 6 teleportation gem, suddenly jumped in front of six people.

“The Sun Fist”

He hit Hongguo’s neck with a punch, triggering a weak attack while blasting 3 times the critical strike, ignoring the opponent’s magic defense.

A damage of more than 6 million emerged from Hongguo’s head, and Hongguo was killed instantly.

The downcast poet is chasing Hongguo, seeing that Hongguo has been stopped for a second, suddenly red eyes, and shouting furiously: “Revenge Hongguo, let’s hit 5 of him, don’t run and fight with him.”

Galewind and Jin Mao responded, and launched an attack on Vulcan M16.

Vulcan M16 sneered and said, “Just because you still want to win me, let me see you today, the skill of Lu Yang’s apprentices.”

“Flame Shock”

“Flame Storm”

...

Within a month of playing games in Luyang, I met Vulcan M16. From then on, Vulcan M16 followed Lu Yang to learn skills. Although the two did not have the status of master and apprentice, they were actually Vulcan All of M16’s skills were learned from Luyang Yang. Lu Yang is a veritable apprentice. His actual reaction speed is also close to 0.3 seconds.

Compared with the Vulcan M16, the response speed of the Gale Wind and the downcast poet is almost 0.3 seconds, let alone 0.3 seconds. This is a natural sound.

The moment you put your skills, I will know where you want to hit me, and I can avoid them in advance, but when I put my skills, you can’t dodge them.

Although five people attacked around Vulcan M16, they did not hit him for a long time. Instead, they were killed by headshots during several counterattacks of Vulcan.

Still domineering and charging with people who originally wanted to save the Vulcan M16 did not expect that when he arrived, everyone was killed by the Vulcan M16.

“Vulcan boss is mighty,” shouted Riding Wind on his horse, before everyone approached the enemy 100 meters away.

Vulcan M16 has an excited expression on his face, but the opposite player at this time showed a stunned look. 6 players did not win 1 game. What kind of players are these Jagged Brothers alliances? .

Vulcan M16 has been in battle for a long time. At first glance, you can see the psychology of the other players. After all, this group of people did not know in advance that they were at war with the Brotherhood of Iron and Blood, and they suddenly gathered indirectly to the collection command.

But the Jagged Brothers Alliance has established a good reputation and long-term domineering in the Huaxia region. Where can ordinary players dare to confront the main force of the Jagged Brothers Alliance.

Vulcan took advantage of the power of murder and did not step back, quickly replaced the warhorse, raised his weapon and shouted: “Attack on all fronts, Brother Brotherhood, kill ~!”

After speaking he took the lead and rushed up.

Suddenly, the players of the Brotherhood of Iron Blood were silly, and the mage rushed to the front, which made them embarrassed by these soldiers and thieves.

“Brothers of the Second Legion, the master this master has rushed, we can’t fall behind and kill ~!”

“Although we didn’t seize the initiative, we also have to be faster than the first legion from the flank attack. The three legions followed me. We want to be the first to fight the main enemy.”

...

Twenty-two legions attacked collectively at one time, and each one ran faster than the other, for fear that the enemy would be walked away when running slower.

The players of the six guilds on the hillside have cast a shadow on their minds at this time. The previous Brotherhood of the Iron Blood has been in foreign wars. Every time when their ears rang, the Brotherhood of the Iron Blood, kill! At this time, they knew inside their hearts that the enemy was about to lose.

But now, this sentence is addressed to them!

Chapter 1359 - 3-sided strangling

Looking at the Iron Brother Brothers players rushing forward, the six guild players seemed to see a surge of blood coming towards them.

That's not the kind of state that players are desperately desperate, but a group of beasts who choose to kill others are opening their blood bowls and biting at them.

"Kill ~!" The head of the First Army was still domineering. When he was 100 meters away from the enemy, he suddenly threw out the escape dagger.

A faint blue light flashed, still appearing domineering in the second row of the enemy team, the moment the surrounding players were surprised and stunned, a pair of archangel wings appeared behind him.

"Retribution Angel"

Still domineering body suddenly turned around, the weapon in his hand brought a golden light.

“Apocalypse sanctions”

This is a single physics skill. The attack method is to slash down from top to bottom, causing 560% physical damage. However, if the player spins the slash at the moment the skill is turned on, the skill duration is set to 0.5 seconds. It's enough to chop people around.

“10204968” (Ignore Defense)

“10204968”

...

Six huge damage figures appeared around, and players in a lap including the defense battle were all spiked by this sword.

Still domineering and roaring loudly: “Iron brothers, kill ~!”

An inspiring blow, the morale of the players of the Brotherhood of the Iron Blood has soared again, roaring towards the final onslaught towards the enemy, and the players of the six guilds are trembling.

One shot was taken for a second. This is no longer a fight, but a death. No one likes to die, especially when the equipment is dead. The six surrounding guild players turn around and run.

“Run, this guy is hurting too much.”

“Run.”

...

The most feared thing on the battlefield is deserters. One fled, and a group of people followed. As a result, hundreds of people around him who were still domineering were scared away by him alone. They ran faster than those who were still domineering. Looking from a distance, As if there are hundreds of people who are still domineering in front of one another.

“Let this kid grab the limelight. Where did he get the level 6 escape dagger.” The commander of the Second Army and the commander of the Third Army slaughtered in the bottom of his heart at the same time. They didn’t hit the escape dagger, but hit the emerald heart.

Vulcan M16 was afraid that he would still be domineering to be counterattacked by the enemy. He launched the flashing skills and jumped to his side. Haha asked with a smile: “Your boy is terrible. Where did the 6th level escape the dagger?”

Still domineering and chasing, he laughed and said, “Good luck, I hit by chance in these three months.”

This is the benefit of Luyang Xiusheng. After Lu Yang occupied such a large area of the Northeast of the New World, the players of the Brotherhood of the Iron Blood can enjoy fighting on the big map. No one can compete with them. They have good equipment and rare items. Can hit.

Vulcan M16 said excitedly: “Bibi see, we kill more people.”

“I’m afraid you can’t do it.” Still the domineering hand escaped the dagger to cool down, and threw it into the enemy array again, a flash of light flashed, and the Apocalypse sanction was launched, and 8 people died.

He just wanted to look proudly at Vulcan M16. Three consecutive meteorite impacts fell in the sky, and nearly a hundred players next to him were instantly killed.

“You’re dozens less than me, and it’s time to cheer.” Vulcan M16 laughed from behind him.

“Fuck, the mage is just cool.” Still aggressively said, “It’s not that easy, look at me.”

After speaking, he rushed into the enemy's battlefield again. At this time, the enemy in front had already escaped. Players behind didn't know what was going on in front of them. They did n't retreat when someone retreated, especially the shooter team and mage In the case of a group, blocking the way, the player who escaped in front had to stop.

At this time, the second and third regiments of the Brotherhood of the Iron Blood Brotherhood on the two wings of the battlefield arrived at the battlefield.

On the entire hillside, only one-tenth of the enemy's lineup is elite, and the rest are pieced together. Looking at the powerful, they are all papery, and they are broken at the first sight.

"Kill, you can't just let a group show the limelight," roared the commander of the Second Army.

"Destroy the enemy and enter the Iron Blood Studio with military skill." The third army commander roared.

The two legions are like two meat grinders, inserted into the battlefield from both wings at the same time. Players of the six guilds have never fought such a large-scale war. It is difficult to gather together. I don't understand, the wings are like a dummy.

The second and third legions spread their attacks, and the two wings were quickly hanged to defeat the army. The front was more miserable. The first legion had the heaviest responsibility and the most trump cards. At the end of their team, all were heavy-fire mage. It is a group of all mages, enchants, cooking and states that only increase spell damage and spell penetration. The purpose is to play a decisive role in the decisive battle.

This kind of professional match, the little guild can't even think about it. They use the equipment to fight the copy. The mage must have a certain survival ability, and the master must increase the spell crit. After all, the lord's strange resistance is not High, there is enough crit.

The battlefield is different. The main defense of players on the battlefield is magic damage. Hostile wizards have very average damage to the Brotherhood of Iron Blood. However, the damage of Brotherhood of Iron Brotherhood's spells can cause a serious injury. When two people overlap, they can instantly eliminate 30. Everyone within meter diameter.

Faced with such an attack, the players in the six small guilds could not even organize a decent counterattack, and they could only fight for themselves. Some people wanted to reorganize the attack, but the Jagged Brothers did not give them a chance at all. Would never let loose the wolf.

“Offensive, offensive, defeating the enemy.”

“Iron Brotherhood, kill ~!”

...

With the fierce attack of the Jagged Brothers Alliance, the enemy was constantly being eroded and retreated, and finally, it collapsed!

Among the six guild players, I don't know who shouted first.

“Run, this battle can't be fought.”

“Run, you can't beat it.”

“Don't send equipment, run away.”

...

The remaining more than 300,000 people from the six guilds dispersed, and their respective crazy escapes went.

Vulcan M16 did not expect to win the war so easily, watching the collapsed enemies shouted, “Continue to kill and completely destroy them.”

220,000 players chased their enemies and smashed more people than they chased them. For a time, both sides chased from the plain outside Xingxing Village to the edge of Xingxing Forest.

Vulcan M16 chased while observing the enemy's situation, and suddenly he found that the forest in front of him was unusually quiet, and there were no birds in the sky.

In memory, Lu Yang once told them that the degree of simulation in the game is the same as reality. If there are no birds and no animal calls in the forest, it proves that there must be a lot of people hidden in the forest.

"The whole army stopped chasing. Listen to my order, the whole army stopped chasing." Vulcan M16 used a large horn, and the sound suddenly penetrated the entire plain and most of the forest.

The rise of the three army commanders was killing, and the remaining 300,000 or less of the enemy were killed less than 50,000. Seeing that they would wipe out the enemy, the three could not help but ran to Vulcan M16 together.

"Why stopped, what a chance." He still said anxiously.

Vulcan M16 frowned at the forest and said, "There is an ambush in it. There is no movement at all in the forest. This is a wild area, and it cannot be so quiet."

Still domineering and the leaders of the Second and Third Corps quickly suppressed the excitement, watching the forest vigilantly, and sure enough, all three found problems.

"Stop the offensive, the whole army stops in front of the forest, and you are not allowed to step into the forest." Still arrogantly shouted.

The leaders of the second and third legions also shouted. For a time, the 22 legions stopped their attacks and stopped at the edge of the forest.

If you are a player in other guilds, you will definitely not obey orders like this, but this is the Iron Brotherhood. The 22 legions are leveling together all year round. The commander of the legions is more useful than anyone.

“What do you do now?” Still asked arrogantly.

Vulcan M16 smiled and said, “Waste it, the boss gave me two transfers of the time and space mage authority. I waved once and ruined this forest.”

Still domineering and waiting for the legion chief to show an excited expression at the same time.

“There is such a good thing, use it quickly, use it quickly.” Still domineering urged.

“Look at it.” Vulcan M16 proudly took out the phone and called Hei Yan, saying, “Man, coordinate 19384929.29384924, just fly over 1,000 forbidden mage.”

“Arrived on the battlefield in 15 seconds,” Hei Yan replied.

Vulcan M16 hung up the interphone and said, “The whole army is ready to attack!”

Twenty-two legions posed an attack posture. After 15 seconds, a ray of light flickered 20 meters away from Vulcan, and 1,000 space-time elven mages landed on the ground with 1,000 forbidden curses.

A mage leader asked, “Where to fight?”

Vulcan M16 pointed at the forest in front of him and said, “Fire freely and cover the entire forest.”

The mage leader turned back and ordered: “Freely fire, secondary curse begins.”

Over the entire forest, there are dark clouds, and inside the forest, at this moment, six chairpersons such as red fruit and squall wind, which have just been dropped off, and 300,000 yuan from 4 guilds, such as Baishawan, gathered quickly from the side an hour away. people.

When they were resurrected after the gust of wind learned that their guild was smashed by the Iron Brotherhood, they did not dare to gather players in the surrounding necropolis, but contacted the president of Baishawan Association, Dalangtaosha, and the night devil of the night villa. People Several people also found out the problems of their guild, and decided to change the way they attacked the Brotherhood of Iron Blood in this forest.

“Strange, haven’t we been found, why did the other party’s leader shout stop?” Hongguo asked.

Dalangtaosha said: “It’s impossible. I asked everyone to close the communication facilities. It was still an ambush here half an hour in advance. How could Lu Yang know?”

“Not necessarily, this Jagged Brothers Alliance is too strong, maybe the other party will find us, otherwise we should withdraw first, how about waiting for the three Judge Brothers Affiliated Associations to come and fight?” Said the downcast poet.

“Coward, that’s how it turned out in one battle, you’re so persuasive,” Kim cursed.

“Who counseled.” The downcast poet was unhappy at once.

Seeing the two quarreled, the wind said, “Don’t quarrel, pay attention to the front.”

As soon as the words fell, the dark clouds in the sky had gathered, and the spell of the secondary forbidden spell in the mouth of 1,000 forbidden wizards was also finished!

Chapter 1360 - Great Battle of Chiyang Fortress

“Meteor Fire Rain”

“Ice Storm”

“Space-Time Cutting”

...

1,000 secondary forbidden spells with a diameter of 500 yards fell into the forest. Everything that was touched by the forbidden spell was either burned, cut off by the fissures of time and space, or frozen by the ice storm.

All the flowers and plants on the ground disappeared, none of them could survive, and the players inside were hit by the sudden forbidden spell.

First and foremost are the guilds such as Hongguo and Fengfeng. Their equipment is better and they are not immediately banned from the curse. However, in the curse, they might as well die immediately, because when they looked back, they saw that Hundreds of thousands of men were killed, and when the curse was over, the entire forest was destroyed, revealing their desperate eyes. In their eyes, it was the main force of the Iron Brotherhood who was about to launch the charge. .

Vulcan M16 raised his staff and shouted, “Iron brothers, kill ~!”

“Kill ~!”

220,000 people rushed into the broken forest, and the remaining less than 100,000 fled in haste, while Hongguo and Fengfeng were killed again.

Still domineering after sweeping the battlefield, he came to the side of Vulcan M16 and admired, “Great, a trick to see through the enemy, haha, we won a great victory.”

Vulcan M16 is also very proud, saying: "It is taught by the boss. In the future, if you have the opportunity to come, you can also learn a lot from the old university."

Still domineering and longing to say, "Hope."

Vulcan M16 is about to encourage still domineering. When a news came, he said excitedly: "The 300,000 people transferred by the boss to Xingxing Village will soon arrive, and we retreat."

"Why retreat?" Still asked in a domineering way. "Shouldn't it be time to hunt down the remaining enemies? They are in the surrounding necropolises."

Vulcan M16 said with a sneer: "Because our main enemy is coming, we have betrayed the three affiliated guilds of our Brotherhood of Iron and Blood, a total of 500,000 people."

"Kill them." Several chiefs were angry.

Vulcan M16 shouted: "The whole army retreated, and the whole team was preparing for battle."

220,000 players quickly gathered and gradually retreated to Xingxing Village. This is a resurrection point. As long as they occupy Xingxing Village, they can quickly add combat players.

On the other side.

In the video, three presidents who betrayed the Iron Brotherhood were watching a video directed by Vulcan M16. At this time, the three were only half an hour away from the Star Forest.

"It's a shortfall, if they continue to hunt down these 10 guild players, we can defeat them while their team is in chaos. I don't expect this commander to be so smart." The fantasy leader Yifeng said leisurely.

The president of the Canglong Pavilion Association next to him said, "I haven't heard that there is such a number in the Jagged Brothers Alliance. Is he the newly elected vice chairman?"

“The person I know, he was one of the early five brothers of Zhuoshu. He was just an ordinary fire mage, and he grew up so unexpectedly.”

“Hey, no matter how powerful it is, let’s try him.” Yifeng said leisurely.

The two nodded and led the team towards the Star Village. At the same time, they also sent a message to the presidents of 10 guilds such as Hongguo and Fengfeng, ordering them to immediately reorganize the team and gather in the direction of the Star Village.

The battle at Xingxing Village is fierce here. The battle at Demon Cow Village next to Tiger Mouth Fortress also took place. A 1.5 million army affiliated to the White Lion is leading the Blood Iron Empire and the Black Empire Royal Brothers under the leadership of White Tiger Over 20 million guilds led by the Alliance Affiliated Guilds fought.

There are also a large number of players outside the Chiyang Fortress where Lu Yang is located. It is led by more than 40 small guilds led by Alice and the five affiliated guilds, with a total of more than 6 million people.

“Fortunately, we got the news in time, otherwise they were actually attacked by the Chiyang Fortress.” Han Ying said angrily.

Lu Yang looked at Tu Feng and said, “This time you are doing a good job in intelligence.”

Tu Feng said with shame, “I didn’t find their offense in advance. I have the main responsibility, please punish me.”

Lu Yang patted his shoulder with a smile, and said, “I don’t blame you this time. After all, they are affiliated guilds I believe. Even they have betrayed. The responsibility lies with me. Let’s ask. What do people think?”

Tu Feng nodded.

Chiyang Fortress outside the east city.

Lu Yang took over 2 million main players of the Brotherhood of Iron and Blood to rely on the fortress. The light has flashed, Lu Yang appeared at the front of the team, and 1,000 meters away from him, there were Alice and the five affiliated guilds. Rebellious player.

When Alice saw Lu Yang coming, she proudly took the president behind her to a position 60 meters away from Lu Yang.

“Lu Yang, I didn’t expect you to have today.” Alice said with a sullen expression on Lu Yang.

Lu Yang looked expressionless and ignored Alice directly. He looked at the five guild presidents around Alice. They were the president of the Elven Kingdom Guild, Tianyan, and the president of the Yanyu Tower Association. The president of Tianwu, Ye Gui of the Guild of Psychedelic Empire.

“Did you guys, I’m sorry about Lu Yang, why should you betray me?” Lu Yang asked with a mockery.

Five people, such as Tianyi and Bancheng Yanyu, sighed at the same time, and they didn’t dare to look at Lu Yang with their eyes blinking. In the end, the five people looked up.

Teana said: “The most scary thing is this scene, but there is no way, but eventually we have to face it, boss Lu Yang, and finally called you boss once, sorry.”

Lu Yang looked at Tianyi and asked, “Can you talk about the specific reason? I think I can be worthy of any guild that follows me. You should not betray me.”

“Nothing shouldn’t.” Bancheng Yanyu said in a cold voice, “Chairman Lu Yang, thank you for your help before, but this is a game, we don’t want to be inferior forever.”

Tianwu said: “We have fought with you countless times and are worthy of you. This time, don’t blame us.”

Lu Yang's heart was cold, and he said, "It turns out that you just don't want to be inferior to others, but when did Lu Yang look down on you?"

Tianyi and others did not speak.

Zhuo Jiu stood beside Lu Yang and said, "I did n't betray early, I did n't betray late, but I betrayed when the level could not be quickly increased, but the equipment was sufficient, or when I encountered a strong enemy outside the Brotherhood of Iron, you But really choose the time, boss, they have been thinking of betrayal from the day they became affiliated guilds, so there is no need to show them mercy."
“

In a few words, the hearts of people such as Tianyi and Tianwu were impressed. The five people's faces all had embarrassing expressions, but then disappeared.

Alice said with a charming smile: "You guys, we don't need to talk nonsense with Lu Yang anymore. After a few days, the Iron Brotherhood will no longer exist, Lu Yang will disappear in this game, and you are always there in this game. Players here, right? "

Bancheng Yanyu and others nodded.

Lu Yang smiled and said, "Since all five of you think so, come on, let me have a look, you have followed me for so long, you have learned how many skills I have, and dare to fight me."

Bancheng Yanyu arched Lu Yang and returned to the battlefield first. Tianyi and Tianwu and others learned something similar. They also arched Luyang and returned to the battlefield together.

The cute queen stood next to Lu Yang and asked, "Boss, if you want to transfer back the Blood Wolf Legion, if they are there, a wave of attacks will defeat them."

Lu Yang shook his head with a smile and said, "Don't underestimate the millions of players behind you. They are the elites who have fought the tens of millions of people's battles following the Brotherhood of Iron and Blood. Why should we use these people in front of them? The Blood Wolf Legion. "

The biggest purpose of Alice is to make the Blood Wolf Legion return to the city. If the Blood Wolf Legion returns, the enemy will have one less trouble. The fortress on Blue Island will be built in a few days.

When the next battle begins, if the Blood Wolf Legion suddenly attacks from the outside, the enemy must know that the Iron Brotherhood has a fortress established in the wild. Once they are discovered, the Iron Brotherhood will fight extremely passively. As a last resort, Lu Yang will never use it. This legion.

Lu Yang turned around and watched the players behind him shouting, "Brothers of the Iron Brotherhood, finally it is time for us to fight side by side, tell me, are you ready for these three months?"

"Ready ~!" The 2 million people shouted in unison at the same time, and that voice cut through the plain.

Opposite the battlefield, players from the five affiliated guilds and 40 small guilds were shocked at the same time by voice.

Yancheng Bancheng said: "Everyone calms down, this is a routine that Lu Yang inspires morale. You don't need to care about him. The whole army is preparing for it. We take the initiative to launch an attack."

The presidents of Tianyi and Tianwu know that If Lu Yang inspires morale and then attacks, then they do not need to fight at that time, the players of the Iron Brotherhood are full of morale, The entire New World is able to play against them. Only the elite players of the seven strongest guilds, including the affiliated guild players, must only use more people to kill them, and they must not fight hard under the same conditions.

"Since the day of betrayal of Lu Yang, we have thought that today, we have officially played against each other. Do n't ask a few brothers to win. We will have everything." Yancheng raised the weapon in his hand and shouted: " The whole army attacked and surrounded the Brotherhood of the Iron Blood. "

"Kill ~!" More than 6 million people launched onslaughts towards the Brotherhood of Iron and Blood from three directions, while hundreds of thousands of people were separated to attack the Chiyang Fortress.

Lu Yang originally wanted to encourage morale to take the initiative to attack, but he did not expect the enemy to take the lead in attacking, but morale had not inspired him to the highest point. The enemy rushed in front of him for only 20 seconds, and he had no time to speak.

At this point, Lu Yang's face showed a sneer, could he be stumped by inspiring morale with words, it seemed that the enemy had forgotten how he looked when he attacked.

Lu Yang's mouth spelled out ...
