

# Rebirth of Wild Fire - Chapter 15

## Chapter 15 - Gather together

More than an hour later, before the 60th wings of the bee queen grew, Lu Yang killed the bee queen on the ground with a fireball technique.

Watching the bee queen grow to half of its wings, Lu Yang exhaled a long breath. It is still too much trouble to kill the boss without enough magical value, and he must first think of a way to get all the equipment.

Picking up the equipment that burst from the ground, Lu Yang looked at the attributes:

Bumblebee Longbow (Silver)

Attack 6-18

Strength +3

Constitution +2

Increase physical damage by 4

Novice village hunter's top equipment, can always use the level 8 copy, the remaining two equipment are pig iron ring (black iron), black crystal wristband (black iron level).

I didn't expect to make another mage's wristband. In this way, Lu Yang's body will have all the wristbands, rings, cloaks, and staffs, and the rest will be armor, shoulder armor, and leg armor produced only by the copy. Conventionally equipped.

Looking at the time, it was already six o'clock in the morning, and Lu Yang returned to the city of St. Gall using a hearthstone and headed to the east square.

Due to the large amount of open space on the east side square, a player stall market has naturally formed. After one afternoon and one night of games, many players have hit items in the game and are ready to exchange with other players in the market.

Lu Yang randomly found a place to start a stall.

Not long after, when two Terran players passed by Lu Yang's booth, a female player's crazy shout made the whole holy city boil.

"Ah ~~ , black iron equipment ... silver equipment ... actually, so much?"

"Where, where are the black iron and silver equipment?" There was more than one player who heard the sound.

At this stage, I am proud to have a piece of bronze equipment. Most of them are selling basic cooking and various life skills.

"Cut ~, hype, none of our bosses in the" Blood War "guild has a piece of black iron equipment and silver, shouting blindly."

"Well, it's really black iron and silver equipment. I'll go, this property, and quickly send a message to the chairman, let him hurry up, it's late."

"The screenshots have been posted. The president is coming over."

Not everyone didn't believe it. Some boring people came with curiosity. After opening, they saw the equipment on Lu Yang's booth incoherent.

Then more and more people.

Lu Yang knew this would be the case. In the previous life, it was not until the morning of the third day that the domineering guild of the "World Underworld" guild used more than 100 level 8 players to kill the wolf king to obtain the first silver equipment.

"Brother, don't sell 5 silver coins of your horn dagger, if I sell, I will give you money."

"How much is this Focuser Staff, I bought it for my girlfriend."

...

Surprises will always pass, and some players who have already responded start asking for prices.

Lu Yang laughs without saying a word, marking the price of the equipment and placing it on the booth.

Seeing the price, everyone was sensational again.

"The horn dagger actually sells 2 gold coins. Robbery, I don't have 2 silver coins in my body now."

One gold coin is equal to 100 silver coins, and two gold coins are 200 silver coins.

"Just kidding, the black iron helmet actually needs 3 gold coins, who can afford it?"

Lu Yang's price crashed everyone. Just as the players were exclaimed, the noisy crowd yelled and yelled, "Get away, don't block the way."

Hearing this voice, everyone stunned and hurriedly looked back, and saw a thief dressed player pushed away the crowd and walked in front of Lu Yang, surrounded by more than 20 players.

The thief looked down at Lu Yang sitting on the ground, and said with a grimace, "boy, I want all of you."

Lu Yang knew this thief. His name was Black Blood. He was a notorious gaming gangster in his life. He was also a gangster in reality. When he caught up with the country, he took more than a hundred men to form a union and recruited more than 5,000 people into the game. With a shameless hooligan style, he bullied others in the game, and later attracted a large number of kings like him to form a small guild of tens of thousands.

When Lu Yang first established the trade union in his last life, he suffered a lot in the hands of the black blood. Although he later avenged the demon heart, this does not mean that Lu Yang can be a friend with him. In the last life, Lu Yang ruined the black blood himself. Union, the two venerated.

"Okay, 100 gold coins." Lu Yang said.

"Boy, are you looking for death, asking for money from us?" The people around Black Blood embraced General Lu Yang.

"Believe it or not we kill you."

"Five thousand brothers, I dare to bargain with our boss."

"Don't you think of a safe zone in the future, see us once and kill you once."

"Kill you."

...

More than 20 people showed fierce expressions at the same time, so that ordinary players around them felt a deep fear, and evaded outside the circle to avoid being affected.

“It’s over. This player is miserable. He has to sell his equipment if he doesn’t sell it.” A player whispered.

“Yeah, we were contacted by Black Blood this afternoon and it doesn’t make sense at all.”

“What should I do.”

At the center, Lu Yang had lowered his mouth, holding his fists on his jaw, as if he had been hit hard.

Black Blood was very satisfied with his performance and felt that the time was ripe. He walked in front of Lu Yang and said arrogantly: “Give you two choices, or you can give me something. When I join the membership fee of my union elite group, Either I can’t get out of the safe zone, boy, you think about it yourself. “

This is his usual trick of accounting, but he forgot it was in the game.

Lu Yang didn’t lift his head, and spit out a word: “Go.”

“What?” Heixue glared at Yang Yang and cursed: “You say it again?”

Lu Yang raised his head to look at the black blood, and said coldly, “I let you go, didn’t you hear me?”

Black blood’s men were stunned. They didn’t expect anyone to dare to talk to Black Blood in this way. If it was a reality, Black Blood would have made him crippled, so that now more than 20 people have not responded. Lu Yang should be scolded.

The players around were also stunned. How \*\*\*\* is Black Blood?

Immediately after entering the game, it caused a sensation among players due to random killings. The killed player wanted to take revenge, but after learning that he was the leader of a union with more than 5,000 people, he could only swallow his voice and face such people. Yang Du dare to mess with, the players around can not help but worry about Du Luyang.

At this moment, a cold hum came from behind the crowd, everyone looked back, and a team of players rushed in.

The first person sneered, "Dark blood, you are still so shameless, thinking that this is the street in front of your house, can you charge for protection at will?"

Lu Yang knows this person. The guild leader of the Supreme Dynasty is one of the top ten heroes in the national costume game in the last life. Although he is domineering, he is very honest, and many people who have festivals with the hegemon also admire him.

Seeing the dreadful expression on the face of Black Blood, compared with the 30,000-strong Grand Guild of Black Blood, Black Blood was not enough to look at more than 5,000 people.

"Domineering, what do you mean." Black-skinned Li Nei asked.

"Of course I bought something, this friend, I bought all your things, give it a real price." Xiongba went straight to Lu Yang without looking at the black blood at all ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yanggang was going to speak Suddenly, an old voice came from Lu Yang's left hand.

"Slow."

Looking over at Lu Yang, another team of players appeared from Lu Yang's left-hand side. The first person had a faint smile on his face. He was about sixty years old, and his face was full of kindness.

“Brother domineering, what a coincidence! The old man also happens to lack a two-handed sword.

It’s better for you to be an adult once and let my old man be a weapon.”

This old man, Lu Yang, also knows that the chairman of a Fortune 500 company in the world, the post-80s player of the last century, is old but loves the game. When he saw that the virtual helmet was finally out, he gave the business to his son and took one. Billion credits entered the game, with the support of the gold yuan in his hand and a group of e-sports masters from the 80s and 90s of the last century, he quickly broke out of the hall, and later became one of the top ten players in the national service.

The old man’s name is Old Man in the Twilight, but do n’t be fooled by the old man’s name and appearance. In fact, although the old man is in his sixties, he looks like a middle-aged man in his forties. He has more muscle than young people. To be strong, the appearance of the game is that the old man deliberately vilified himself to lower the enemy’s alertness, which shows how cunning the old man is.

The bully is very jealous of the old man. When the guild was recruited online before, the two had a battle. In the process of competing for a game master, the bully lost a secret.

The bully frowned and said, “Old fox, I have to order this weapon.”
