Chapter 152 - Agreement reached

“Okay, I’m worried about not knowing which plot of land to buy,” said Sirius.

Lu Yang pointed the opposite side of the land he chose in the south of the city with his hand and said, “Buy here, but you don’t want to deal in pharmaceutical business, it’s better to deal in weapons and equipment.”

“Why.” Asked Sirius.

Lu Yang said with a confident smile: “Because the pharmacy you opened opposite will be the best pharmacy in the whole service business in the future.”

Shooting Sirius looked at Lu Yang in surprise, he found that the person in front of him was really crazy, but he chose a good position.

“Well, I listen to you.” Shooting Sirius and Oslo closed the transaction and bought the land in the shop opposite Lu Yang.

“Brother Lu Yang, if you want to open a pharmacy, do you have a stable supplier of raw materials?” She Sirius asked.

Lu Yang said, “Not yet.”

Shooting Sirius' eyes brightened and said, "How about I supply you, my guild Sirius Legion is scattered in 10 novice villages to upgrade, I can provide whatever materials you want."

There are many herbs in his hand and there is no place to place them. These are collected by the internal life players of the gang. It is a pity that too many refining medicines are used by the pharmacist, and few people buy them.

Lu Yang didn't expect to find a partner this time, and said, "Of course this is good. At the latest, I will send someone to your \* herbal medicine. As for the price, a group of herbal medicines will be calculated based on 10 copper coins. 3000 groups, how about. "

"Yes, this price is totally okay." Shooting Sirius was pleasantly surprised. The 3,000 groups of herbs are equal to 3 gold coins, which is too much for him.

"That's it." Lu Yang added shooting Sirius as a friend, then left the palace.

At this time, there were 10 gold coins left in his hand, and 5 gold coins were separately hung on the external trading website. Soon, some players spent 4000 yuan to buy all the gold coins.

Lu Yang quit the game and took off his helmet. At this moment, there are 6 pieces of land in his hand, of which 4 are for the main human city, 2 are for the orc main city, and he has one more. A steady stream of anti-drug formulas was made for him.

The human race's pharmacy has no change of gold business, and the anti-toxic medicine of the beast race, Lu Yang is ready to run with his own people.

In the last life, after the fortress was breached by Liu Jie, there were many people who betrayed him, and many people who did not betray him. Among these people, Lu Yang was most distressed by Mu Yi and Mu Yu.

At that time, the two little guys lived in a community with Lu Yang. The older Mu Yi was 5 years younger than Lu Yang, and Mu Yu was 7 years younger than him.

Both parents died when they went out to work, and were always carried by their grandma. When they usually played in the community, Lu Yang took special care of both of them as his brother and sister.

Later, grandma also died, and the two little ones could no longer find a relative in the world and were sent to an orphanage.

The life of the orphanage is torture for the two little guys, who are later and are always bullied.

Fortunately, the orphanage is not far from Lu Yang's residence. Lu Yang often took Xiao Liang to go to the orphanage to find Mu Yi and Mu Yu, and knew the situation of the two.

Later, Lu Yang entered the game and made money. He spent the money to bring the two little guys out and sent them to school. Mu Yu studied well, and Mu Yi became more aggressive. He was the chief pharmacist in his guild.

With his talent in refining medicine, Mu Yi's net worth once reached millions, but after Lu Yang's defeat, Mu Yi took out all his net worth to repay Lu Yang's debt.

It stands to reason that Mu Yi has fulfilled his duty as a brother. With his refining account, even if he is separated from Lu Yang, he can find a good guild in the game to make money, but Mu Yi resolutely sold it. The account also took a lot of loans for Lu Yang, and also went to work to help Lu Yang repay the debt.

In the last life, Lu Yang didn't wake up to his death. In this life, he will never fail the people around him.

"Xiao Yang, what are you thinking about?" Han Zhong was in a daze after seeing Lu Yang take off the helmet, and asked curiously.

Lu Yang smiled and said, "Master, apprentice, please ask for something."

"You said." Han Zhong said.

“Will you go with me to the orphanage and help me adopt two children,” Lu Yang said.

Han Zhong did not expect that Lu Yang would say such things, and asked in surprise: “What are you going to do?”

“I’ll explain to you slowly on the road.” Lu Yang pulled Han Zhong out of the house. While on the road, Lu Yang told Han Zhong about the two in detail.

“I have no objection to adopting them, but do you have the financial means? Can your parents agree after they return?” Han Zhong asked. He could see that Lu Yang’s family was not good, and he had two more children. The burden on this family will become very large.

Lu Yang said, “Relax, Master, I know.”

Seeing the door of the orphanage, Han Zhong said, “Well, you are not an ordinary child. Since you are confident, I can help you without any problems.”

Han Zhong’s nationality is still Huaxia. As far as adoption is concerned, as long as he is a Chinese, the procedures are not laborious, and after a sponsorship fee is given, the procedures will be faster and simpler.

After explaining the intention to the orphanage guard, the two were invited to the dean’s office and opened the relevant procedures. The dean led Luyang and Han Zhong into the orphanage.

“In this era, there were very few normal children in orphanages. Most of them were abandoned with congenital diseases, and there were only 27 normal children.” The director said happily.

Suddenly, an angry voice came from the dormitory on the second floor of the orphanage.

“Say, did you steal it?” A woman’s angry voice came from a distance.

“it’s me.”

Lu Yang heard this voice and walked towards the dormitory. He heard it. This was Mu Yi's voice.

"Okay, I'll let you steal." The woman sneered, and then came a crackling, crackling sound.

Lu Yang rushed in. In the room, Mu Yizheng was kneeling on the ground, and Mu Yu was shrinking to cry in Mu Yi's arms. Mu Yi smacked Mu Yi's back, and Xiao Mu Yi closed his eyes stubbornly.

"Stop it." Lu Yang grabbed a ruler and frowned, "What are you doing?"

The woman saw Lu Yang and asked, "Who are you, dare to control me?"

Lu Yang ignored him, took out his mobile phone to take photos continuously, and turned on the recording function.

The dean came in at this time and said quickly: "Don't shoot."

"What are you doing?" The woman was also scared, and rushed to rush to grab Lu Yang's mobile phone. As a result, she did not wait for Lu Yang to be held by Han Zhong.

Lu Yang asked coldly, "Dean, do you treat children in this orphanage?"

The dean was embarrassed and said to the woman, "What's going on."

The woman was an employee hired by the orphanage, and said with a stink face, "This kid is stealing something and I was caught."

Lu Yang gave a cold hum and came to Mu Yi and Mu Yu and said softly, "Is this really the case?"

When Mu Yi saw that Lu Yang was here, tears could not stop flowing, and said, "Brother, Xiaoyu and I are always bullied here for food, so I went to the kitchen to steal something for Xiaoyu. "

Mu Yu cried and said, "Brother, I'm sorry."

Lu Yang took a breath and said, "Are you willing to follow me, if you will, my brother and I will adopt you."

Mu Yi and Mu Yu both looked at Lu Yang in surprise and said, "Yes."

Lu Yang stood up and said to the dean, "We have adopted these two children. Dean, how much sponsorship do we need to pay?"

The dean said with a smile: "If you want to delete the video, I don't want money."

Lu Yang Yile said, "Then it's settled. I'll sign the document with you in a while, and I'll delete the video immediately."

## Chapter 153 - 2 families make money

The director was anxious for Lu Yang to leave quickly, took Luyang Yang back to the office to sign the documents, and let Lu Yang lead Mu Yi and Mu Yu out of the orphanage.

At the gate of the orphanage, Lu Yang held Mu Yi in his left hand and Mu Yu in his right hand, saying, "Go home with your brother."

Mu Yi glanced back at the building of the orphanage, recalling his experience in the orphanage in the past two years, the cold eyes of his aunt, the bullying of other orphans, and the many late-night pains of his and his sister, Mu Yi looked at Lu Yang seriously and said, Now, I don't think I can repay it. Mu Yi will definitely repay your gratitude in the future. "

Lu Yang squeezed Mu Yi's shoulder tightly to prevent him from kneeling. "Brother, you are my brother and sister, and Mu Yu is also my sister. We will work together to build a Happy home."

"Home ?!" Mu Yihe, who was crying in Lu Yang's arms, said the word at the same time, and the original dim eyes were full of hope.

"Brother, what can I do, I don't want to be a burden on you." Mu Yi said.

Lu Yang said: "I really have something for you to do, do you still like to play games, brother, I will buy a game helmet for you and Xiaoyu."

Mu Yi used to play computer games the most, but after entering the orphanage, he never touched the game for two years.

"I don't play." Mu Yi said.

Lu Yang was happy, and walked and said what he was going to give to Mu Yi. When Mu Yi learned that playing games can also make money, his eyes widened in surprise.

“Brother, can you really make such money?” Mu Yi asked.

“Look what you are doing.” Lu Yang took the two siblings and Han Zhong into the helmet store next to the university, selected helmets for the two, and took them back home.

Xiao Liang and the three sisters Han Ying have quit the game at this time and are cooking together. They have called Lu Yang before and know where Lu Yang and Han Zhong have gone.

Han Ying opened the door and saw Mu Yu’s porcelain-like face. He couldn’t help but hold Mu Yu in his arms and said, “Welcome home.”

Mu Yu felt Han Ying’s sincere feelings and his eyes became moist.

Han Fei and Han Yu also deplored the brothers and sisters of Mu. Just a few days ago, they almost lost their last relative, and they knew the pain and helplessness of losing their relatives.

Mu Yi was also worried that the three younger brothers Han Ying would not accept them, and saw the three of them, letting go of their worries.

Xiao Liang and the Mu brothers have known each other for a long time, and they are even happier when they arrive. Han Zhong is uncomfortable and returns to the house to rest, and Lu Yang sits with them and chats for more than an hour.

When talking about the game, Mu Yi asked: “Brother, which race do you want me to choose?”

Lu Yang said apologetically: “Brother, my brother has only a few of you who can be trusted for the time being, so I want you to choose a wolf.”

“No problem.” Mu Yi looked at the appearance of the wolf tribe on the helmet’s outer packaging very satisfied.

Mu Yu raised his hand and asked, “Brother, what should I do?”

Lu Yang laughed and said, “This helmet is mainly for you to study in the class. In the future, students will take classes in the” Second World “. It is estimated that the new semester will start, and some schools will be tried. Enter the game and upgrade with sister Han Ying. “

Han Ying pulled Mu Yu and said, “No problem, leave my sister to me.”

Living in a group of boys all the year round, and finally found a little sister, Han Ying is very happy, so is Mu Yu.

Lu Yang said, “Let ’s go into the game. After entering the game, Mu Yi creates a character and adds my friend. Mu Yu waits for me in St. Gall’s city. I will go to you when I’m busy.”

“Okay.” Mu Yi and Mu Yu said together, and the two put on helmets to enter the game.

Xiao Liang and Han Ying’s three siblings also put on helmets to enter the roles.

By the time Lu Yang entered the game, Mu Yi had already established his role and applied to add Lu Yang’s friends.

Lu Yang sent Mu Yi a position, and Mu Yi ran quickly. When Mu Yi came to Lu Yang, Lu Yang looked at the shape of the wolf family chosen by Mu Yi and couldn’t help sighing.

The shape of Mu Yi’s wolf is very fierce, and looking at it makes people unable to bear the fear.

“How to use this shape.” Lu Yang asked.

Mu Yi said proudly: "It looks scary when you look at it, so others don't dare to mess with me easily, and I can better protect my sister."

Lu Yang knew that Mu Yi would say so. When he chose humans in the last life, he was also the fiercest form.

"Brother, what do I do next." Mu Yi asked.

Lu Yang took out an anti-drug formula from his backpack and handed it to Mu Yi, saying, "The wolf tribe has just reached the level 8 spider cave. The spider's toxin attack is very high. Only anti-drugs can control it, so, The medicament is very valuable. I have a shop in the south of the city, and you will be there to make anti-poison drugs. "

Lu Yang handed the title to Mu Yi, bought 100 sets of raw materials of anti-toxic drugs at the auction house, and took Mu Yi to the Pharmacists Association to rent a refining pharmacy ~ [www.mtlnovel.com](http://www.mtlnovel.com)  
~ Teaching Mu Yi step by step Make anti-toxic drugs.

Mu Yi was the chief pharmacist of the previous World Guild. He quickly learned how to make anti-drugs. After an hour, Mu Yi's success rate was 70%.

Lu Yang then gave Mu Yi the method of refining the furnace, this time Mu Yi did not learn so quickly.

After half an hour, Lu Yang looked at the time, it was almost 6 pm, and said, "The video I just made has been recorded, and I will send it to you afterwards. I still have 9 anti-toxic drugs here. Formula, you take the formula and go to the nine people I sent to you, and use the anti-drug formula to attract them to sign a pharmacist contract with you. "

Lu Yang sent him a sample contract and told him the specific method of signing the contract, saying: "In terms of the supply of raw materials, you should go and shoot Sirius. He is the boss of the Sirius Legion. I will make an appointment with him for this time. He negotiates, do n't tell him that I'm human, and do n't tell him that you are using his raw materials to make anti-drugs. Part of the money you earn is stored in the pharmacy, and the other part is used to upgrade the drug store. You can use the money at will, and just tell me after the use. "

“OK.” Mu Yi carefully noted Lu Yang’s request.

Lu Yang patted Mu Yi’s shoulder and looked at Mu Yi’s still immature expression. He said, “I’ll leave it to you. I’m a human being. I can’t come here often. I can succeed in the future. Your drugstore. It’s very useful, you know?”

Mu Yi did not understand Lu Yang’s words, but still nodded earnestly, “Boss, I must do my best to develop a pharmacy.”

“Okay, you can contact Sirius. I’ll take Mu Yu to upgrade.” Lu Yang’s body burst into red light, and after 5 seconds, he appeared in the demon temple, and finally through transmission, Lu Yang came to St. Gall.

Chapter 154 - Ottoman temple

Out of the door of Kahn’s house, Lu Yang found Mu Yu at the birthplace of the square. The little girl used her original appearance and looked like a quiet and quiet girl.

“Brother, you are here.” Mu Yu greeted Lu Yang happily.

Lu Yang came to Mu Yu with a smile and said, “Let’s go, my brother will take you to upgrade.”

“Huh ~” Mu Yu said nicely.

Lu Yang smiled distressed, took the little girl to the flight point, and came to the city of Saros through the teleportation array.

“Boss, you’re here.” Xiao Liang stood outside the transmitter and waved, and three sisters Han Ying waved and greeted.

Lu Yang led Mu Yu to the crowd and said, “Let’s go down the secret passage.”

“Boss, are you taking us to upgrade today?” Xiao Liang said cheerfully.

Lu Yang apologized, “I can only take you to the third floor of the secret passage, and then I will go from the third floor of the secret road to a level 30 map.”

“Ah!” Xiao Liang asked in surprise: “There is also a level 30 map on the third floor of the secret channel.”

Lu Yang said, “Say to you while walking.”

There are hundreds of forks on the third floor of the secret passage. One of these forks connects to the third floor of the Ottoman temple.

The Ottoman Temple is full of ferocious giant boar men, that is their city. Almost every boar man is twice the height of humans, and each boar man holds black giant wolf teeth. Baton.

Normal players who want to go to the Ottoman temple need to run to another main city near the main city of Saros. The two are 1 day away, and they cannot use teleporters.

He entered the Ottoman Temple, and it was full of monsters. The Ottoman Temple is very large. It takes almost 1 day to run to the third floor while playing monsters.

However, it can be quickly transmitted to the third floor of the Ottoman temple through this, and next to the entrance to the third floor of the temple on the closed road is the entrance to the copy of the Ottoman temple.

Lu Yang led the team to kill monsters all the way to the third floor of the secret passage to the entrance of the Ottoman temple.

“Okay, then you can call back from here. There are not many strange things refreshed on the way back. It is not difficult for you. The ore crystals you encountered on the road have been dug up when you have time. Black Iron ore remains.” Lu Yang instructed.

“Good boss, we promise to complete the task.” Xiao Liang said.

Lu Yang patted the heads of two little girls, Mu Yu and Han Ying, and said, “Protect yourself and wait for my brother to come back.”

Han Ying and Mu Yu hummed and nodded smartly.

Lu Yang showed a chic smile and jumped down the entrance to the third floor of the Ottoman Temple.

Below is also a five-meter high platform. Below the platform, there are three giant wild boar men who are all black and have a height of 2.5 meters.

Black boar man

Level: 30

Qi and blood: 10200/10200

The boar’s eyes were very fierce. There were two fangs spit out from the corner of his mouth, and a black mace with a length of 2 meters was held in his hand. The silver nail head on it seemed to infiltrate.

Fortunately, these three wild boar men are 25 yards away from Lu Yang. If he is not found, otherwise he will be found immediately after landing. Lu Yang can only use the flash to jump back to the third floor of the secret road.

“Boss, use me to help you carry it for a while.” Xiao Liang shouted above.

Lu Yang said, “Your defense is untenable. I’m fine by myself.”

Even if the level 30 soldiers encountered three wild boar people, they had to take medicine in order to resist, and only Xiao Liang, level 13, killed these three wild boar people with one shot.

However, the game of the “Second World” is very much in favor of legal professions, especially the Fire Law. The Fire Law of the last generation was called the “Second World” pro-son, because the monsters in the game rarely have magic resistance, so As long as the mage has someone to help him carry it, even if he is only 13th level, he can kill the 30th level boar man.

Lu Yang placed a fire wall under the high platform. The boar man’s high attack power is his characteristic, and the slow speed is his weakness. After the players of the previous life discovered this problem, few players in the warrior department came to the Ottoman temple.

In the same way, there are several other 30-level maps. There are also unsuitable divisions that are more suitable for warriors. When the level 30, players who come out to do tasks alone, the mages all come to the Ottoman temple, and the soldiers all go to a wormhole local.

Soon, 30 fire walls were erected by Lu Yang, divided into two rows of 15 each.

The boars are huge in size, and they occupy two rows of positions. Of course, the damage is only attacked by a single fire wall.

Lu Yang raised his hand and hit a Pyroblast 25 yards from the nearest black boar.

“Hmm ~ hmm ~”

The wild boar made an angry sound, raised a mace and ran towards the landing sun. The two wild boars behind them also ran along affected by the sound.

However, the movement speed of the black boar people is only 80% of the normal player’s movement speed. Lu Yang stood on the high platform and easily released 5 layers of burning on the boar people’s heads. Waiting for the 5 layers of burning of the 3 boar people to be full. The leading black boar talent came to a position 5 yards in front of Lu Yang.

“657” “656” “641” ...

A series of damage numbers emerged from the heads of the three black wild boars ~  
www.mtlnovel.com ~ In less than 10 seconds, the blood of the black wild boars had only about 4,000 points left.

This is the benefit of having a magic fire staff and a demon heart, giving Lu Yang a super high level of magic damage and other skill levels.

Even when facing the level 30 wild boar, they can still calmly face it. When the black boar came to Lu Yang, the huge mace was about to fall, and Lu Yang's white light flashed behind the boar. 20 yards position.

The three black boar men turned around collectively and chased after Landing Yang. As a result, they ran 10 yards from Lu Yang and died on the ground.

The three blame did not explode, and Lu Yang walked towards the front. Below the high platform was a wide promenade, with loess walls on both sides of the promenade, and there was no gap between them until the ceiling.

At the end of the promenade, Lu Yang saw a boulder in the shape of a wild boar head. In the mouth of the pig head, it was the entrance to the copy.

Lu Yang ran towards the entrance of the copy quickly. This time, he was lucky. Although there were wild boars in the middle of the promenade, they were distributed on both sides.

Lu Yang ran several half-posts in a row, avoiding all wild boars easily. Only at a distance of 30 yards from the copy door, two wild boars blocked the middle of the road.

Lu Yang continued to run. When the two boar men were 20 yards away, they were found by the two boar men. When they rushed towards the landing sun, Lu Yang threw an escape dagger in his hand.

The dagger flashed blue light through the boar man's body and fell behind the boar man. When the boar man came in front of Lu Yang, Lu Yang had run to a place only 50 yards away from the copy.

The boar man smashed it with a bang, and Lu Yang's blue light flashed behind the boar, followed by a white light flash, and Lu Yang jumped directly into the copy.

## Chapter 155 - Golden Hammer Pig

System prompt: Please select the difficulty of the copy

Lu Yang clicked on the epic level, the picture flashed, and he appeared in a giant underground temple.

At the entrance of the temple are two 10-meter-high monster statues, full of evil breath.

In official history, the Ottoman boars were once the masters of this continent. In the ancient wars of the gods, the Ottoman Empire was severely damaged, and the gods they worshiped were slaughtered and fell into deep sleep.

Thousands of years later, the Blazing Demon God was defeated. Part of his energy was transformed into a flame elf and was discovered by the wild boar. The flame elf was full of powerful fire power. The wild boar thought that this was a precursor to their gods' awakening and a gift from the gods. .

In order to show respect for the gods, the boar leader Kinghammer Pig was enshrined on the altar of the Ottoman temple.

According to common sense, Lu Yang can never brush this copy alone, but this copy has a major bug.

In the last life, when the player came to kill Golden Hammer Pig, he found that the temple was located on the top floor of an underground cave. If he wanted to go to the bottom of the temple, he had to keep running down.

When they ran down the narrow stone bridge to the bottom, they found that Pig was in the position just below the entrance of the copy.

Some players have studied whether they can jump straight and go to the single-strike Gold Hammer Pig. After several experiments, he successfully found a way to jump, and the equipment required for this method is to escape the dagger.

Lu Yang used this method many times in the last Hammer Pig, Pig not only dropped the flame elf, but also dropped the 30-level mage department ruby suit, very mastery of this method.

He walked over the stone bridge, winding down the stone bridge, every 20 meters down to connect a new platform.

The platform was excavated on a cliff. At the end of the platform, there is another stone bridge connected to the platform on the opposite cliff. On each platform, there are more than 20 red boar men patrolling back and forth in 4 waves. Each layer of stone Above the bridge, there is also a team of wild boar men guarding.

Red boar

Level: 30

Qi and blood: 51000/51000

The wild boars in the copy belong to the warrior profession, and they all know the charge skills. Once they enter the opponent's charge distance, the wild boars are bound to attack the charge.

Lu Yang looked at the hog man patrolling on the stone bridge, and murmured the number in his mouth. When he counted from 1 to 10, the hog man on the stone bridge just walked 20 yards in front of him.

Lu Yang fiercely threw the escape dagger downward, the dagger spun out with a blue light, and landed exactly on a rock bulge 10 yards below the lower stone bridge.

The blue light flashed, and Lu Yang stepped on the bump. At this moment, the boar man on the bridge just walked out of his 20 yard distance.

At this position, Lu Yang couldn't hold on for 2 seconds, so he could only use a little force to jump in the air, and Lu Yang jumped directly into the cliff.

The bottom of the cliff was not deep, and Lu Yang counted in his heart. Seeing that the landing speed was getting faster and faster, with a distance of 60 yards. When he could almost be killed, Lu Yang flashed white and instantly appeared 30 yards obliquely in front. s position.

The flicker slightly hindered the speed of falling, but this position was in the middle of the cliff. When Lu Yang fell again, Lu Yang fiercely flung out the dagger, with a blue light to escape the dagger, and accurately inserted it into the opposite cliff. Can stand alone.

The blue light flashed, and Lu Yang stood precisely on the rock. On the side of the stone bridge, a group of wild boars walked by and found no Lu Yang. The wild boars above did not see Lu Yang.

If someone sees Lu Yang's actions now, he will be surprised. Even the top players in the last life will not be able to reach such a precise level of Lu Yang. Once he misses, he will fall off the cliff and be forgotten. The heart will fall to the ground, and there will be no chance to pick it up.

However, after 5 years of mercenary career in Lu Yang, this degree of flashing jump is just a trivial matter to him. Maybe in reality, his body has not recovered from the situation of the previous life, and Lu Yang's strength is still great. Limitations, but in the game, Lu Yang's spiritual realm is no different from the previous life. Using this body in the game is more handy than in reality.

At this point, he had jumped a height of 90 meters and crossed four stone bridges. The platform behind each of the four stone bridges was guarded by a boss. The first boss was a boar summoner, summoned every 10 seconds. Five wild boars joined the battle, and Lu Yang couldn't beat him by this move alone.

Looking at the bottom, there is still a height of 180 meters. Lu Yang did the same. The flashing belt escaped the dagger, and each time it fell precisely on the rocky bulge on the cliff.

In less than 2 minutes, Lu Yang finally flashed and successfully landed on the bottom of the cliff. He officially entered the core of the Ottoman temple.

Golden Hammer Pig was 5 meters tall and appeared in front of a giant monster statue 60 meters away.

Golden Hammer Pig (Lord)

Level: 40

Qi and blood: 1500000/1500000

Golden Hammer Pigger has golden skin on his whole body, a strand of hair in the middle to his back, and the golden fangs in his mouth are fierce. He holds a gold hammer with a short handle on the right and a gold round shield on the left.

In the last life, Golden Hammer Pig was a very difficult boss. As a believer of the ancient protoss, do n't look at Golden Hammer Pig's huge size slightly slower ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ but he has space flashing ability and full screen ban Magic power.

Once he bans the magic with full screen, he will hit the golden hammer 3 times in a row within the next 3 seconds.

Each attack is three times as effective as a normal attack. The treatment is in a state of forbidden magic, and the defense will die.

Once the three-hammer is not blocked by the anti-war, the golden hammer will trigger the powerful bombardment skill. The effect of the powerful bombardment is that all players in the surrounding cone radius are subject to 3 times physical attack.

Due to the equipment, the second defense was absolutely unable to withstand the huge bombardment of the golden hammer, and the surrounding assassins and violent battles were even more unstoppable.

After the Golden Hammer releases his skills, he will flash to the remote first-hate player in an instant and still use huge bombardment. The result is mass destruction.

At that time, the world's top studios and guilds were stuck in Golden Hammer Pig for a full month and a half.

Major guilds and studios thought of all ways to restrain the attack of the Golden Hammer. As a result, when a player was chased to heaven and had nowhere to go, he jumped to the Golden Hammer Pig with a two-step flash. Statue of ancient divine statue with open hands.

There was no way to run. As a result, Golden Hammer Pig stopped the attack and watched the player hit him with fireball.

If the gold hammer Pig loses 10% of his health, he will release a skill called Skyfire, and the player accidentally dies in one place.

The quality of this player is very good, and publishing this video on the Internet has caused a huge sensation.

Before the major guilds and elite studios have been crumbling on the forum, the official has to explain that there are millions of people. When this video came out, it just happened to catch up with the end of the conference. The official representatives gave an explanation at the conference. Golden Hammer Pig believed in the ancient divine house, and he would never hit that statue with a hammer.

Chapter 156 - Flame elf

The official gave this explanation, proving that this is not a bug but their settings. Players scramble to use this style of play, but it is very difficult to use this style of play.

First, the boss will release Skyfire, which is a very disgusting skill for players.

Sky Extinguisher landed on the ground with a delay of 2 seconds, and the radius of the attack range was 5 yards.

Usually this is a very good hiding skill. However, when the player jumps to the palm of the idol, the radius of the palm is almost 5 yards, and he can't escape at all. He can only jump to the other hand of the idol to release the fire. The signs are very slight, and a little carelessness is the extinction.

On the hardware side, fewer than 10,000 players have been able to challenge the Joker Emperor's SSS-level missions worldwide, and only a few can use this bug.

As it happens, Lu Yang is one of those few. With five years of mercenary training and keen insight and super skill, he now has an escape dagger and he can easily do this.

Lu Yang walked into the range of 30 yards of Golden Hammer Pig, read the spell in his mouth, and hit a burn on Golden Hammer Pig's head.

"402"

There was an additional flame symbol on Pig's head.

"Hmm ~ hmm ~"

Pigger's face was even more angry, and with a roar, he lifted the huge golden hammer in his hand and launched an assault on the landing sun.

A phantom passed, just as Pig hit Lu Yang, a flash of white light appeared on Lu Yang's body 30 yards behind Pig, and a flame burst from his feet, running quickly towards the idol in front. go with.

Pig failed to hit back and wanted to charge again, but Lu Yang had ran out of his charge range.

"Hmm ~ hmm ~"

Pig took a big step towards the landing sun, although Pig was a huge boar family, but as a boss, he moved 1.5 times as fast as the player.

Lu Yang opened fire just as fast as Pig, relying on the advantage of less than 1 yard distance, so that Pig could not launch the second charge skills, don't look at it is only 1 yard distance, but can determine life and death.

After 3 seconds.

Lu Yang ran to the feet of the idol, and the escape dagger in his hand was thrown up, and the escape dagger rotating at a high speed fell with a blue light wheel, and it was beautiful in front of the dim temple statue.

Pig finally chased Lu Yang's 30 yards position and raised his golden hammer in his right hand to launch the interception skills towards Landing Yang.

For a while, the phantom passed towards Landing Yang. The moment the Pigeon rushed to Lu Yang, the golden hammer was about to fall, and Lu Yang's blue light flickered, jumping to the right hand of the idol.

When Pig hit the shot, he stood anxiously below, head up and down, and dared not rush.

Lu Yang was too late to breathe, a spell was heard in his mouth, and four consecutive burns were released against Golden Hammer Pig.

“Wall of Fire”

The wall of fire ignited at the foot of the idol, and soon formed a sea of fire, including all the walking routes of Pig.

Pige couldn't hit Lu Yang, and he walked anxiously at the feet of the idol. With 5 layers of burning, Pige lost more than 700 blood every step.

Lu Yang raised his staff with his right hand and aimed at Pig's head, and the Pyromantics spell was in his mouth. After 0.5 seconds, a huge fireball formed on the front of his staff.

“Pyroblast”

The giant fireball whistled out, hitting Golden Hammer Pig’s pig nose.

“1222”

Pig’s total blood is 1.5 million. Generally players think that a player who is only level 13 must single out a boss with 1.5 million blood. This is impossible at all, but in Lu Yang, he has the spirit of the demon god. When it comes to equipment and skills such as magic staff, burning, awakening, and wall of fire, impossible things just make Lu Yang possible.

Lu Yang lifted his spirit to the limit. His right-hand wand was aimed at Pig’s head. Pyroblasts flew from the front of the wand one by one at a speed of 0.5 seconds per hit, hitting Pig’s pig head.

Pig’s volume is too large, so the head is also very large, much larger than the 17-inch display. Even if Pig’s moving speed is 1.5 times that of the player, Lu Yang doesn’t need to take special effort to aim it. Judging Pig’s position is fine.

In the face of Lu Yang’s attack, Pig was unable to use all his melee skills, and could only walk around anxiously on the ground.

1 minute later, Pig’s blood was beaten by 150,000.

“Hello ~”

Pig stood suddenly, the pig’s head roared, and the golden hammer in his hand suddenly burst into flames.

Lu Yang’s eyes widened uncontrollably, turning around and jumping towards the idol’s left hand, and into the air, Lu Yang’s white light flashed on the chest of the idol, and at this moment he had just flashed. A crimson flame fell from the sky to the position where he had just stood.

This is the necessary skill for destroying the sky fire, the favorite magic skill of each free-mode mage in the mid-term, chasing and killing the remaining blood enemies.

Lu Yang looked at it greedily, threw an escape dagger, and flew to the left hand of the idol.

The blue light flashed, and Lu Yang was standing in the left hand of the statue with a dagger in his hand.

Pig saw Lu Yang change places, and chased after him. Lu Yang replayed his tricks and continued to release the burning and set fire to the ground.

Exactly, the fire wall was laid, and Lu Yang's last drop of magic value was used up. He glanced at Pig's health. There was still more than 100,000 blood in the next 10%. Lu Yang chanted a spell in his mouth. A blue magical energy storm appeared in the center.

“wake”

This is the skill that Lu Yang obtained before killing the skeleton elves. After 8 seconds of guidance, the magic value is restored to 2000 points. Full value.

“Brother, I have signed the contract with Shooting Sirius. You asked me to find the pharmacist and I have also signed the contract with them.” Mu Yi sent a message.

“Yes.” Lu Yang knew that Mu Yi could successfully complete his task. He lost his parents and grandma from an early age, and had to take care of a young sister. Mu Yi was much more mature than ordinary people.

“Take them to make medicines and start selling the anti-drugs in large quantities as soon as possible.” Lu Yang said.

The number of wolf players reaches level 8 is not a small number, the faster you complete the potion, the more money you earn.

After closing the dialogue bar, Lu Yang continued to output, and after playing Pig again with Skyfire twice, Lu Yang was completely out of blue.

He took out the magic potion (vial) and drank it, then sat on the ground waiting to recover.

Pig has 1.5 million blood, and now there are about 1.2 million left. The duplicate boss has a feature that he cannot slowly recover blood, which is another factor that Lu Yang dares to single out Pig.

When his magic value returned by half, and the time passed 2 minutes, Lu Yang stood up and continued to output, waiting for Lan to wake up.

An hour later, Lu Yang successfully beat Peg's health to 10%. At this time, Peg was already in a rage, and Skyfire was released every 30 seconds.

Balls of crimson flames fell from the sky, and Lu Yang flickered between the hands of the idol.

After another 2 minutes, Pig couldn't support it anymore, and the golden hammer fell to the ground in his hand, and his whole body collapsed.

System prompt: You successfully killed Golden Hammer Pig

You get 14684 experience

A group of pure flame energy slowly rises from the deities in the middle of the idol. This is the flame elf.

Lu Yang jumped to the ground and picked up the flame elf from the shrine.

Fire Spirit (Shard 1)

Description: He looks broken

With only this simple sentence, Lu Yang in the previous life almost wanted to break his head. At that time, he thought that the fragments of the flame elf were in other copies. In fact, he was asked to hit this copy 10 times.

10 Fire Spirit Shards can be combined into a complete Fire Spirit.

Lu Yang put the flame elf in his backpack, walked to the side of Jin Hammer Pig, leaned down and clicked to open the equipment.

A fiery red ring appeared in front of Lu Yang's eyes. The ring was made of gold, and the gem on the ring was a ruby with reddish light.

Ruby Ring (Gold)

Level: 30

Spell damage: 9-19

Intelligence: +15

Constitution: +12

Additional Fire Damage: +30

An excited expression appeared on Lu Yang's face. Of all the explosive items of Golden Hammer Pig, the most difficult to explode was the ruby ring, which is the top equipment corresponding to the fire method. Come out.

The second item is something like a totem pole.

Patriarch's token

Description: A symbol of the patriarchs of the wild boar clan, if you give it to the King of St. Gall, you will get an unexpected harvest.

Lu Yang was stunned. When he came to fight the epic Ottoman temple in the last life, this copy had no idea how many times he had been beaten. When he could not think of the first pass, he would give a task.

If Lu Yang didn't guess wrong, this kind of task is the only task in the world, that is, whoever in the world first got through this copy, and any player in the subsequent countries would get through this will not trigger this task.

Lu Yang put the patriarch's token in the backpack and looked at the mobs outside. This copy has a certain chance to burst out of the flame potion formula.

The fire potion can passively increase the fire spell damage by 60 points. For any guild, this is a rare potion, but the explosion rate of this potion is only one thousandth.

Lu Yang ran in the direction of the copy. Outside the temple where the Golden Hammer Pig was located, there were 6 groups of Jinjia Pig Guards, 10 in each group.

Jinjia Pig Guard (elite)

Level: 35

Qi and blood: 300000/300000

The body size of the Jinjia Pig Guard is about 3 meters. They wear heavy armor and wear a golden mace in their hands. The strong physical output and physical defense make them a nightmare for all physical professions. However, they But they can't hold the mage's injuries, and they are all melee attacks, and there is no long-range occupation.

Lu Yang came to a position 30 yards away from Jinjia Pig Guard, and the words in his mouth read, a big red bird screamed from the top of his head.

"Blazing Bird"

Lu Yang pointed the 10 pig guards in front of his finger, and the Flaming Bird immediately swooped away.

"584" "1024" ...

A series of 10 injury figures emerged from the top of the pig guard, and the ten pig guards turned back at the same time, with a pig face staring at Lu Yang.

When Lu Yang released the Blazing Bird, the flames under his feet fired the blazing fast skills and ran sideways. After more than 30 yards, the pig guard could not start the charge and only chased the mace towards Landing Yang.

Lu Yang kept the distance, and after the remaining 5 waves of Jinjia Pig Guard were attracted by the burning, he turned and ran into the temple and came under the statue. Lu Yang threw the escape dagger, and the blue light flashed on the statue. Palms above.

Jinjia Pig Guard's attack method is the same as that of Golden Hammer Pig, but does not have Golden Hammer Pig's spell attack ability. He can only watch Lu Yang standing on the 30-yard-high idol, walking anxiously at the foot of the idol.

Lu Yang's mouth spelled out that one wall of fire appeared at the foot of the idol. In less than 2 minutes, the foot of the idol turned into a sea of fire, and all 60 gold armored pig guards were wrapped in it.

Jinjia Pig Guard's intelligence is very low. After being attacked, he can only walk around the feet of the idol, and his blood quickly falls down.

Suddenly, a black ripple appeared in the sea of fire, and then, with a bang, a 10-yard-high column of flames of light burst into the sky in the middle of Jinjia Pig Guardian.

All of the attacked pig guards were stunned for two seconds. Lu Yang chanted again, and the Blazing Birds swooped down from the air one by one.

300,000 blood looks like a lot of Jinjia pig guards, all died on the ground before long.

The system prompts: You have obtained 1608 (among which 968 points are the experience of leveling monsters)

...

A series of system prompts kept popping up from Lu Yang's dialogue bar. 60 gold armored pig guards added a small piece to his experience slot.

At the 13th level, Lu Yang's upgrade experience has reached 600,000. If the conventional method of fighting monsters is followed, the level will soon be overtaken by the bosses of major guilds. Only by fighting monsters in such places can they be guaranteed to be foolproof.

With a flash of white light, Lu Yang returned to the ground and walked in the middle of the pig guard. Suddenly, he found a paper object falling on the ground, and Lu Yang hurried over to pick it up.

System prompt: You have obtained the Flask of Fire

As soon as Lu Yang's eyes lighted up, he didn't expect to actually hit the flame potion blueprint. I have to say that the odds of land reclamation hitting good things are really high.

He packed the formula in his backpack and looked up at the upper part. In order to get the copy tomorrow, Lu Yang had to run back to the entrance of the copy.

Throwing the escape dagger in his hand, Lu Yang kept jumping on the rocky bumps on both sides of the cliff ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Within 3 minutes, Lu Yang returned to the entrance. At this time, the wild boar on the bridge at the entrance Still nothing was found.

A smile appeared on the corner of Lu Yang's mouth, and he turned around and walked out of the copy. If he was an assassin, he felt that his assassination was perfect.

"Hmm ~ hmm ~"

The white light flashed, and Lu Yang didn't wait to see the situation outside. He heard a humming sound 10 times heavier than ordinary black wild boar, and the sound was near.

Suddenly, a wind came from my head.

"Not good." Lu Yang's white light flickered and appeared 30 yards away from the front of the copy. Just after landing, Lu Yang looked back and found a white boar 5 meters tall holding a black meteor hammer. Charged him.

General Boar (elite)

Level: 40

Qi and blood: 150000/150000

Lu Yang didn't expect to meet General Boar in this place, and the escape dagger flew backwards in his hand, his body flashed blue light, and he fled to a place 30 yards away before General Boar hit him.

Just after landing, Lu Yang found that more than 30 black wild boar men were refreshed in his promenade, and they were distributed around him in pairs.

Lu Yang is a fire method, and the output requires space. In this case, Lu Yang knew that he temporarily defeated the undead general boar, the flames at his feet, and the hot and rapid skills were launched. Lu Yang ran towards the entrance of the third floor of the dense road.

The wild boar chased after him. His movement speed was comparable to that of Lu Yang after the release of the hot and swift speed. This made him unable to choose a turn or run sideways to avoid the boar man in front, and he could only do his best to face the front. run.

The cooldown time of General Boar's interception skill is 30 seconds. In other words, within 30 seconds, Lu Yang cannot run out of General Boar's skill range. He must die.

## Chapter 158 - Skyfire

Three black boar men blocked the way ahead, Lu Yang didn't stop, and continued to charge towards the three boar men at a speed of 1.5 times.

Within 10 yards, three black wild boar men found Lu Yang and rushed towards the landing Yang with a mace in their hands.

Lu Yang's expression was calm. The moment when three boar men ran to him and raised the hammer in his hands, they fell together. Lu Yang leaned over and leaned forward to the right, avoiding 3 at an incredible angle. Attack by two boar men.

After landing, Lu Yang made a circle and continued to run towards the front. 3 Boars turned and chased but couldn't catch up.

The road ahead was Ma Pingchuan. There were no more wild boars blocking them. The other wild boars were on both sides of the corridor. Although Lu Yang could be found, they could not catch up with Lu Yang's speed.

The high platform is not far away. Lu Yang runs closer and closer, and when the last 30 yards are left, Lu Yang throws out his escape dagger.

The escaped dagger with blue light was precisely inserted at the top of the platform. Lu Yang's blue light flashed on the platform, her body leapt upward and returned to the third floor of the secret road.

Just after landing, Lu Yang watched vigilantly. He was bitten by a snake for ten years and was afraid of the rope. He just did n't want to have a second experience from the copy just now. Fortunately, there are no zombies at the entrance to the secret road. It's also 20 yards away.

He leaned down and looked at the wild boar general who had stopped pursuing the target under the hole and had stopped chasing. After Lu Yang eased, he could not help but excited.

The white wild boar is a very good boss. One of his favorite skills books is Golden Hammer Pig's Skyfire Extermination skill.

Lu Yang poked his head into the entrance of the cave and observed the situation. There were no blame within 30 yards below the high platform. There were 22 black wild boar people gathered outside 30 yards. Obviously they were brought in by themselves. The wild boar was in the black wild boar. Behind the person.

Suddenly, there was a big refresh under the high platform, and more than 30 black boar people appeared in the corridor.

Lu Yang scratched his head. In this case, he really couldn't beat, just as he was thinking about what to do, he found 5 black billowing things, only the size of football mixed with black boar.

Black slime

Level: 22

Qi 3010/3010

As soon as Lu Yang's eyes lighted, he secretly annoyed himself that he was thinking about fighting alone, forgetting that he had a ring of dreams that could summon the black slime to help him fight.

The rule of the mysterious ring is that it can only summon low self-conscious and undead creatures. Just now Lu Yang did not use the mysterious ring to summon the black boar people because the black boar people have a strong self-awareness, but the black slime self-consciousness is almost 0. , But also all living things.

Don't look at the black slime's level is only 22, but the strength of this black slime is very strong, especially after raising them to level 7, the black slime's attack speed reaches 1 second and 1 attack. Although the power is low, but he can't help but attack fast. If there are five such black slime, Lu Yang will kill the wild boar easily.

However, it is not so easy to summon. There are too many monsters below, and Lu Yang cannot go at all.

He waited there quietly, until the wild boars in the corridor below slowly dispersed and walked away. When only four wild boars were still within 10 yards of the platform, Lu Yang leapt to the platform.

"Hmm ~ hmm ~"

Four black boar men found Lu Yang at the same time, raised the mace in their hands and rushed towards him. Lu Yang's mouth kept spells, and the wall of fire was continuously released covering the lower platform and the steps.

Four wild boars quickly ran under the high platform, which was 5 meters high and 1 meter wide, and could only accommodate one wild boar.

The four boar men automatically stand in a row and go up the stairs, but as soon as the head boar men walked in front of Lu Yang, Lu Yang's Pyroblast fell on his head.

Level 2 Pyroblast has a knockback effect. There is something behind the Boar man who can't back up but hits him stiffly. When the boar man reacts, the second Pyroblast arrives again.

In this way, the black wild boars could not move at all, and the other three wild boars were also trapped in the middle of the steps, and the fire wall was burning under their feet. As a result, in less than 2 minutes, all four black wild boars were killed on the steps of the high platform.

Lu Yang looked at the corpses of four wild boar men and found nothing. He walked down the high platform and came to a place 30 yards away from the first black slime. He raised his staff and used the magical light of dreams.

The white dreamy light flashed on the head of the black slime. The black slime's name changed from white to golden yellow, and then to white again, but there was an extra parenthesis behind him, with the words Luyang in it.

Lu Yang continued to summon, and soon, all five black slimes were summoned to Lu Yang. He looked at the surroundings. The wild boar had returned to the position of the copy door, and the other wild boars gradually separated. Become together in pairs.

Lu Yang walked 30 yards away from the three wild boars, and spelled out in his mouth, and a ripple fell at the feet of the three monsters.

"Flame Storm"

The beam of light rose, 3 boars were stunned, and did not wait for a response. They were hit by 3 blazing birds in a row.

"Hmm ~ hmm ~"

Three wild boar men rushed towards Landing Yang. Lu Yang pointed with one finger, and five black slime worms blocked Lu Yang's body and attacked the wild boar men.

Lu Yang put on a healing ring and applied healing to the black slime. The boar man has been hit by half of his blood. As long as five black slime attack together, he can kill.

There are rules in the game that if you want to upgrade your baby, you can only count the baby killing the monster by yourself. This is the most defamatory place in Lu Yang.

In the same way, when Lu Yang killed about 100 black wild boars on the third floor of the temple, the level of 5 black slimes reached level 7.

Black slime (level 7)

Level: 22

Qi and blood: 3510/3510

Although there is not much qi and blood, the attack and defense have been upgraded by one grade. At this time, there is only one wild boar in the promenade.

After Lu Yang added blood to the black slime, and the blood of the five black slime was filled, Lu Yang came to a position 30 yards away from the wild boar general.

With one finger, 5 black slime pounced on the wild boar at the same time ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The wild boar first discovered the black slime, and immediately launched an assault, hitting the first black slime.

"2000"

The black slime was left with blood, and Lu Yang knew that the wild boar had high attack power. Lu Yang raised his hand and hit the black slime with a cure. At the same time, he ordered the black slime to retreat, and other black slimes were on top.

General Boar's attack is only the highest attack power, which is 3 times the normal attack damage.

Lu Yang calmly released the wall of fire at the feet of General Boar, and covered him with 5 layers of burning. At this time, General Boar beat 4 black slime worms into residual blood.

Lu Yang put on the ring of treatment, continuously added blood to the black armyworm, and used the method of retreating the residual blood to top the blood. After a short time, the blood of the five black armyworms returned to full blood.

General Boar's attack method is very simple, only three skills: Critical Strike, Shock and Meteor Flying Hammer.

Bash is 2 times damage, fired every 10 seconds, Shock is area damage, fired every 30 seconds, Meteor Flying Hammer is a single long-range attack, only used when chasing people.

General Boar is just an elite monster, with a total of only 150,000 blood. Under the attack of 5 black slime and Lu Yang, within a short time, General Boar became residual blood, and the black slime was quickly killed by Lu Yang. Pyroblast was released. When the last slime was killed, General Boar also hit his head with the last pyroblast. He hummed unwillingly and died on his back.

System prompt: You successfully killed General Boar

A 4 \* 4 range item dropped from General Boar, and one of the skill books with golden light was particularly eye-catching.

Lu Yang's eyes ran to pick it up and found out that it was the skill he had dreamed of extinguishing Skyfire.

## Chapter 159 - King reward

### Skyfire

Type: Fire Spell

Cost: 50 mana

Cast time: Instant

Distance: 100 yards

Description: A skyfire is released to the designated target location. After 2 seconds, the skyfire reaches the designated location. Attacks all targets within 10 yards and damages 300 points. All targets within the range are shared equally.

In the last life, when this skill first came out, countless people vowed. This real-time battle game took only 2 seconds to play. The target did not know where to go before, and could not hit anyone at all.

However, when players figured out the true use of this skill, especially when several fire gods used this skill many times to predict the precise seconds to kill the remaining blood opponents, this skill was pushed to the altar.

Whether you can use this skill well has become a sign of whether a fire method is a master. Lu Yang used this skill most in the last life, because when the blood-thirsty opponent thought that he ran out of your 30-yard attack range and survived. At that time, the feeling that a sky fire broke his hope was incomparable.

Click to learn skills. Lu Yang's Skyfire will automatically become Level 2 due to the relationship between the spirit of the devil and the base damage will become 500 points. Counting spell damage, this skill can be used for seconds.

Lu Yang picked up the remaining potions on the ground. After the skills were cooled down, he ran back to Saros city all the way, flashing red, Lu Yang returned to the demon temple, and it was not safe to rest anywhere.

"Boss, we are going offline." Xiao Liang sent a caution.

Lu Yang said: "I happen to be offline too. Please wait for me. I will arrange a place to sleep."

"Oh, okay." Xiao Liang said.

Lu Yang chose to quit the game. After waiting for a few seconds, the helmet cut off his contact with the game characters, and Lu Yang took off the helmet.

Xiao Liang and others just took off their helmets, Mu Yi looked at Lu Yang excitedly and said, "Brother, this game is so fun."

Lu Yang patted his little head and said, "That is, of course. This is a game that can change the future of humanity."

Mu Yi nodded strongly, he was very convinced of what Lu Yang said.

Lu Yang looked at a few people in front of him. At this time, not only Master Han Zhong, but also Xiao Liang and Han Ying, three siblings in the family. Now there are more Mu brothers and sisters. The original place is not big enough, and now it's more crowded.

Lu Yang said, "Han Ying and Mu Yu sleep in a room. Several of us sleep on the floor. Now everyone will go down first. After a while, we will make money. We will change the big house."

“Boss, we feel very good to live together.” Xiao Liang said.

“Here makes me feel at home.” Han Fei said.

...

No one wants to be separated. Lu Yang was so impressed by listening to their words. I think he was the same then, and he did n't have high requirements for the environment. As long as he could be with his friends who were in love with him, he was happier than anything.

This kind of feeling cannot be understood by ordinary people, because they don't know what is true friendship. Only people who have experienced it in person know how valuable this kind of relationship is.

“Well, moving is also a future thing. Now everyone goes to bed, and we will continue tomorrow.”

“Oh.” Everyone answered together.

After washing, Han Ying and Mu Yu returned to the room happily, and Lu Yang and Xiao Liang lay on the sofa.

Overnight.

Early the next morning, Mu Yi rubbed his eyes and woke up. He found that Lu Yang and Xiao Liang were no longer around. Looking around, Lu Yang was exercising and Han Zhong was guiding him.

“Brother, why are you all exercising?” Mu Yi said to Mu Yu, who was sitting on the side with a small bench.

Xiao Liang is also in the middle of the training team. Although he has pain on his face, he proudly says, “Brother, do you want to join us?”

“Okay.” Mu Yi didn’t know how hard Lu Yang had worked out.

Lu Yang said, “Master, what do you think of Mu Yi, and how do you give him a separate training in practice?”

Han Zhong observed Mu Yi and said, “It’s a good seed. I will make a training plan for him.”

Han Fei winked at Mu Yi and said, “Brother, you’re done, you’ll have to come back to my brother’s suffering that year.”

Mu Yi didn’t understand, but soon he understood. However, in the face of Han Zhong’s almost cruel teachings, Mu Yi was much stronger than Han Fei.

After some exercise, Lu Yang returned to the sofa after washing and put on helmets to return to the game.

Lu Yang brushed a trip to the Ottoman Temple again, and returned to the city of St. Gall after getting a Fragment of the Flame Elf. However, Lu Yang found the bustling main city in the past. Today, he has a little more nervousness.

Pedestrians in the streets hurried as if something was to happen.

Lu Yang didn’t have time to manage these things, and he came to the third floor of the palace with the patriarch’s token in the king’s hall.

A red carpet was spread in the middle of the hall, with the palace minister standing on each side, and King Saint Gall sat on the throne and was discussing matters with the subjects.

“We must launch an army to destroy the underground forces of Golden Hammer Pig, and we must not tolerate his continued development, otherwise he will threaten us sooner or later,” said Kingdom General Rubis.

“No, I do n’t agree with this war. The Golden Hammer Pig is far away from us. The expedition of the army labor division is really unwise, and the strength of the Golden Hammer ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ We may not be able to fight them. Win.” Said the Minister of Finance.

“Then we sent out the Light Corps and let them fight.” Rubis said.

“No, the Holy Light Corps is only responsible for guarding the temple. They will not participate in other things,” said a Holy See member wearing a white gold robe.

“Then we let them develop, and in the future they will develop, how can we explain to the subjects.” Rubis said angrily.

The ministers still shook their heads, and St. Gall also showed a sad look. When the negotiations were deadlocked, Lu Yang came in.

“Mage apprentice? What are you doing here?” Rubis vented his anger and said with a stun.

With a smile on Lu Yang’s face, he didn’t know how to complete the task when he first came. Now, he has the bottom of his heart.

Taking out the patriarch’s token from his backpack, Lu Yang said, “I have killed Golden Hammer Pig, this is his token. In the future, his race will not do anything for a long time.”

Rubis rushed to Lu Yang in the first moment of excitement, grabbed the token and carefully observed the lines above.

“It’s true, it’s true.” Rubis laughed and said to Saint Gall.

King St. Gall’s eyes lighted up and said, “Mage apprentice, what’s your name and how did you do that?”

“My name is Lu Yang.” Lu Yang told King St. Gall intact how he killed Golden Hammer Pig.

Saint Gall nodded with satisfaction, and said with approval: "My subjects, you have solved a big problem for us. In recognition of your achievements, you can always buy things from the Royal Quartermaster from now on."

System Tip: You turned in the Patriarch's token and received 300 reputation rewards from the city of St. Gall

You open the reputation of the Silver Hand

Chapter 160 - Bet

The Royal Quartermaster is the quartermaster of the silver hand of the Royal Guard of the St. Gall. The last-life Lu Yang did not open this prestige. According to legend, all players who open this prestige have obtained great benefits.

Lu Yang quickly thanked him, turned around and ran to the side of the palace guard camp, and found the quartermaster in a house made of bluestone on the left.

Quartermaster is a mature man in his 40's, with a beard and a knife-like face, and his eyes are very sharp.

"Here is the palace quarters office, idlers are prohibited from entering," Quartermaster Abred said with a frown.

The quartermaster in the previous life had this temperament. Many players did not listen to the advice, and as a result were captured by the guards.

Lu Yang said: "I killed Golden Hammer Pig, and Her Majesty the King rewarded me for buying items from you later."

"Oh," said Abrad with a surprised expression on his face. "It's up to you? Tell me how you did it."

Lu Yang talked to Abrad again intact, and Abrad showed an excited expression, saying, "Good guy, the door to the quartermaster is always open for you, what do you want to buy."

A purchase box appeared in front of Lu Yang. The first page was the formula category. There were more than 20 formulas such as the primary defense agent formula, the primary attack agent formula, and the primary magic recovery agent.

Lu Yang took a long breath of excitement, and then relieved after spitting out. Although these pharmaceutical formulas are rudimentary, each of the pharmaceutical formulas has greatly improved the players.

Taking the primary attack potion recipe as an example, the effect is to increase physical attack by 20 points, which is equivalent to bringing a 15-level whiteboard two-handed sword.

In the current low-level situation, if you can use such a medicine, the speed of attacking monsters will be more than twice as fast as normal. Lu Yang can be sure that these medicines will surely sell well.

The formula of the medicament is not expensive. Each requires 10 silver coins. Lu Yang has 5 gold coins in his hand. He bought 2 copies of each formula, leaving the last 1 gold coin on his body.

After closing the purchase page, Lu Yang said goodbye to Abrade, turned to the position of the transmitter, and flew directly to the level 20 map of Baiguang Town.

It's time for the bone tyrant to refresh, and Lu Yang decides to hit another magic fire staff, but to reach the magic fire staff requires the sword of eternal sin.

I have to say that the day with the Eternal Sword Guard made him very missed. From Baiguang Town, Lu Yang ran into the Eternal Forest and searched for 20 minutes. Lu Yang saw a silver-white figure from his side. Big tree crossed.

Lu Yang followed and ran to find the sword of eternal crime under a big tree, put on the ring of dreams, Lu Yang released the light of dreams to the sword of eternal crime.

The name of Eternal Sword Guard turned yellow, and after 1 minute, the name of Eternal Sword Guard turned white and became Lu Yang's baby.

Retreating from the forest of eternal sin, Lu Yang ran in the direction of the city of St. Gall. The sword of eternal sin cannot enter the city, he can only do so.

"Master, are you free today?" The White Lion suddenly sent a message.

"I'm outside, what is it?" Lu Yang asked.

"We are going to challenge you," White Lion said confidently.

"Oh." Lu Yang became interested, and said, "In this way, we meet in the Serpent Canyon after 4 hours. My situation is special. On the level 20 map, I can only run back."

"Okay, no problem." White Lion agreed with Lu Yang's request on behalf of his two younger brothers.

"Well, he promised not." White Wolf asked anxiously.

"Don't worry, listen to Big Brother." Bai Hu said.

The White Lion said: "He agreed, but he was on a level 20 map. He had to run back in special circumstances and asked us to wait for him in the Serpent Canyon for 4 hours."

The white wolf was a little stunned, and they never expected that Lu Yang would practice at such a high level, saying, "No wonder he has always been so high."

"Afraid, our three brothers must win him this time." Bai Hu said.

...

On the plain.

Lu Yang was running with scorching heat and full speed. The last time he went back was 10 hours, but this time he was sure to return to the Serpent Canyon in about 4 hours.

As for the reason, they are all on the escape dagger. The characteristic of escape dagger through space allows Lu Yang to avoid a lot of hills and cliffs, especially the red canyon.

You can run from the top of the mountain. The bridge connecting the two mountains broke, leaving a cliff 60 yards long. If you want to run to the opposite side, you can only go up and run down the mountain and then run another mountain in the canyon. This time will take more than 3 hours.

Now Lu Yang has an escape dagger. Under the second flash, Lu Yang easily jumped over the Red Canyon to the cliff opposite the mountain, saving 3 hours of travel.

When he came to the Serpent Canyon, it took exactly 4 hours. He looked around. Today, the Serpent Canyon looks extraordinarily deserted, and almost no players come here to upgrade.

"I'm here." Lu Yang sent a message to the White Lion.

"We're at the door," said the White Lion.

"Come here." Lu Yang sent the positioning to the White Lion.

“Wait for me.” The White Lion returned a message and ran to Lu Yang with White Tiger and White Wolf.

Lu Yang looked at the three brothers, and found that all three’s equipment was refurbished into a black iron suit in the Serpent Canyon.

“Good equipment,” Lu Yang said.

The Baixi Sanxiong is also looking at Lu Yang. The last time they played against Lu Yang, Lu Yang had no equipment on him. Today, Lu Yang is fully equipped.

The three brothers thought that they could easily defeat Lu Yang with the flying snake suit of the Viper Canyon, but when they saw the crimson staff in Lu Yang’s hand, the three felt bad.

“What level is your weapon?” Bai Hu asked.

Lu Yang smiled, and sent the picture of the weapon to the three of them’s dialog box ~  
www.mtlnovel.com ~ said: “His name is the magic fire staff, which I singled out at level 30 lord monster bone tyrant.”

The three brothers were stunned when they saw the properties of the staff.

“More than 100 French injuries!” Bai Hu said.

Lu Yang said, “Are you still fighting?”

The white wolf said, “Of course we have to fight. Although your strength is beyond our imagination, our three brothers have specifically studied a set of methods for you, which can definitely win you.”

White Lion said: “If you win this battle, we will sign a guild contract with you to fight the world with you.”

“Don’t look down on us, we also have intermediate skills.” Bai Hu released several newly learned skills such as Flame Slash and Thunder Shock.

The White Lion also demonstrated the skills of the Paladin, saying, “To be fair, you let us see your intermediate skills, and we also showed you ours.”

The white wolf said: “And our level is also at level 13, how about it, great.”

Lu Yang felt a little shocked. If he remembered correctly, the three brothers of the last generation said in an interview that they had accidentally received a king task after they opened the service and killed undead soldiers. It seems that they are already doing this task Already.

Only after completing the King’s mission can you purchase intermediate skill books from the quartermaster, and the level can catch up so quickly.

“Yes, let’s get over the horse.” Lu Yang’s blood was boiling, and now the Bai’s three males are basically full of intermediate skills, and the equipment is all 8-level suits.

Although he has the magic staff of fire and the heart of the demon god, in the face of the attack of the three of them, the two sides are not much different. Now let ’s see which one’s technique is higher.

The system prompts: Bai Shisanxiong challenge you, whether you accept

Lu Yang chose to accept, and both sides stood 30 yards away from each other.
