

Wild Fire 2041

Chapter 2041 - Practice exercises

The next morning.

After Lu Yang, Zhuojiu and others woke up, they turned on the ventilation fan and backup power again, and the dark air-raid shelter became like daylight again.

“Let’s go in and explode the skill book.” Lu Yang said jokingly.

Zhuojiu, White Lion and others are also in a good mood. The Necromancer is finished, and they are all gone but have a heart disease. As for the six undead kings inside, they are not afraid at all.

The group followed Lu Yang to the second floor. The cave here was much smaller than the first floor, and the number of undead was very small. Just as they continued to kill without scruples, Lu Yang quietly sent them a message. According to the news, he had discovered the first undead king, hiding in the mud 20 meters in front of the turbid wine.

Who could have thought that there was a Blazing Demon God in Lu Yang’s body. The God King simply scanned it and swept out the Undead King hidden in the soil.

Lu Yang typed and said, “It is estimated that this grandson wants to attack us, you are ready, after I control him, leave his head, and cut off the rest.”

Zhuojiu, White Lion and others stopped 10 meters away from the King of the Undead, and a white light appeared all over their bodies. At the same time, Lu Yang chanted a spell.

“Fire Snake Bound”

Blazing flames appeared out of thin air, and after drilling into the ground, they \*\*\*\* a huge creature.

“Roar~!”

The King of Undead didn't expect Lu Yang to spot him in advance, and the fire snake restraint directly controlled his neck. Suddenly, he struggled with both hands to pull the fire snake's body, trying to break free.

“Qi Blade”

Five people including Zhuojiu and Xia Yuwei simultaneously shot white air blades. In the blink of an eye, the air blades hit the joints of the limbs of the Undead King.

“when”

“when”

“when”

...

After five consecutive crisp sounds, the undead king's skin actually blocked the white air blade, only to cut a white crack.

“So anti-beat?” Bitter love half quickly summon spirit sword, attack again, liquor and White Lion, who is also a full attack, for several gas channel edge playing in the same position, and finally, break open the dead king's skin , A large swath of black blood sprinkled down.

“Boom”

But the same King of the Undead broke free from the shackles of the fire snake, and watched Lu Yang roar and rushed towards him because he was the closest.

“Old Xiaoxin.” Zhuojiu and others ran towards Luyang.

There was a sneer at the corner of Lu Yang’s mouth, and he said a spell.

“Lining Yang Fist”

A blaze burst out of his right hand, and he hit the Undead King with a punch, knocking his body upside down and flying out, hitting the wall, and even hitting a deep hole.

“Boss, when will you do this trick?” White Lion asked in surprise.

Lu Yang said, “It’s not bad, continue to attack and kill him quickly.”

“Yeah.” The crowd continued to attack with Qi Blades, and Lu Yang once again restrained the limbs of the Undead King with the Fire Serpent.

When the white energies in their bodies were exhausted, the limbs of the undead king were chopped off, and the undead king almost lost his breath.

Lu Yang walked in front of the corpse, put his right hand on his head, and in the blink of an eye, he acquired the skills that the undead king learned.

“Sure enough, he belongs to the God of War Temple. He has Level 1 to 9 techniques in the God of War Temple.” Lu Yang turned around and said to Zhuo Jiu and others.

They were worried that they had no follow-up skills to learn. They did not expect that an undead king would solve their problems.

“Great, I can finally improve my strength, what is my next skill?” White Lion couldn’t wait to ask.

Lu Yang said, “Let’s go out first and talk to you when we get outside.”

They didn’t have much energy in their bodies. It was only dangerous to stay here. They hurriedly went outside with Lu Yang, and when they returned to the generator room, Lu Yang explained the skills he had learned.

This is the second skill that can be learned after the energy in the temple of war has reached the level 4 standard. It is called condensed battle aura. It can attach the white energy in the body to the long knife, making the long knives of the muddy wine sharper and more effective. When the enemy engages in battle, the sword energy will enter the opponent’s body and cause damage.

Lu Yang told them the principle and said: “Within 9th level, there are 3 other tricks, which you can learn when your strength reaches 6th and 9th levels. Now I will tell you all, but you don’t want to go and practice, otherwise it will be the same as the last time I released the forbidden curse. I have a way to save my life, but you don’t.”

Zhuojiu, Xia Yuwei and the others nodded and agreed. After the skills were memorized, the time had entered the evening, and the six people returned to the power station to rest again.

In the morning of the next day, Lu Yang led the team to the entrance of the air-raid shelter again, and continued deep into the second floor to kill the Undead King.

Compared with yesterday, the method of killing is the same. The King of the Undead is in the recovery period. He hides in the air-raid shelter and thinks he can sneak attack or avoid Lu Yang’s attacks. However, in the case of the Blazing Demon God, Lu Yang catches it. They catch one by one.

People who have learned to condense the battle aura of Zhuojiu and others, although the skills are still a bit jerky to use, the destructive power caused is much stronger than that of simple Qi Blade Slash.

After all, the air blade is the damage produced. As the distance increases, the strength weakens. Now it is a close attack, relying on the muddy wine and their own strength and fighting energy to attach to the

blade to increase the sharpness and penetrate into the body to destroy. Much more powerful than Qiblade.

In one morning, the remaining five corpse kings were all killed. Lu Yang extracted skill books from their five heads. They were lightning spells, wind spells, earth spells, and wood spells. School spells and water spells are also learning methods from level 1 to 9.

“With these skills, the strength of our dungeon can be greatly improved.” Zhuojiu said.

“We return to the dungeon.” Lu Yang said.

Zhuo Jiu and the others nodded, and as Lu Yang returned to the outskirts of the city, he drove back into the dungeon, but what surprised Lu Yang was that the dungeon was full of joy at this time.

Fei Yang and Lu Tianming found Lu Yang, and both of them were excited. Fei Yang said: “The above finally agreed to teach everyone how to learn basic skills for free. Now they only need to log in to “Second World”. In the game, you can follow a dedicated instructor to learn skills.”

Lu Yang was a little surprised. He entered the game curiously. Sure enough, there were professional personnel teaching skills. After seeing these skills, he compared the skills he obtained. Lu Yang, Zhuojiu and others said: “Officially taught skills It seems much worse than ours.”

Zhuojiu said: “I also found the problem, our cultivation method is much stronger than the official one.”

Kuai Half a lifetime jokingly said, “Are there different types and grades of exercises? Ours is the most advanced.”

Lu Yang smiled, and said: “Don’t care about this for the time being, you have brothers under your hand. Call them over and let them learn our skills.”

The five people nodded and each went to find someone. Lu Yang found Xiao Liang and taught him the skills of the God of War. On the other side, Zhuojiu each brought dozens of people and learned from them.

Lu Yang smiled and shook his head, and said, "There is not enough manpower, so I can only continue to wrong you. I have five elements of Lei Feng, Civil, Wood, Water, and Wars Temple techniques of the melee system. See which one is suitable for you. After you learn it, your task is to convene the old part of the Iron-Blooded Brotherhood. I want to form an iron-blooded legion to smooth out all the monsters in Donghai City."

Xiao Liang said: "All the people following me from the military are the old members of the Jagged Brotherhood. I have been searching for them at ordinary times. There are already five to six hundred people."

The three sisters and brothers of Han Fei looked at each other, and Han Ying said: "When we usually learn spells outside, we also gather the masters of the former Iron and Blood Brotherhood. They are still willing to listen to you. There are also three to four hundred people."

Mu Yi said, "It's the same on my side, and Baihu and Bailang are also there."

Back in the real world, although it seems that the Jagged Brotherhood organization has disappeared, in fact he has always existed.

From Lu Yang's establishment of the Jagged Brotherhood to the great changes in the world, he has never been sorry for his brothers. These people followed him step by step from \*\*\*\* to high play that everyone respects. The glory of the Jagged Brotherhood will never be forgotten.

Entering the dungeon, after the early chaos, in the two organizations of the temple and the academy, although a large number of dungeon young people chose two as their learning locations, even if they came to them, it was the team of the Jagged Brotherhood. Mode to cooperate.

And after such a long time, Mu Yi and Han Ying also saw the faces of many people clearly, and they knew who was still following Lu Yang and the Jagged Brothers at this time.

Lu Yang said: "Take this group of people as the blueprint. I will give you the authority. The ninth floor is where the Jagged Army learns skills. If you have any needs, please tell Lan Yu that she is responsible for everything. "

Now Lu Yang and Zhuojiu's relatives have become managers of various areas in the dungeon, and their rights are different from the past.

Han Ying said, "Don't worry, brother, we will do it well."

Lu Yang nodded and said, "I'll go out to fight the magic core and fill you up with the training stuff as soon as possible. Let's work together to regain our home."

Standing in different positions, they are no longer doing the same things. In 8 years, Lu Yang and Han Ying have both grown up. In the past, their responsibility was to make money and support their families. They continue to move forward with the Jagged Brotherhood. The responsibility becomes to save mankind.

That night.

Lu Yang rested, and until the next morning, Lu Yang led Zhuojiu and White Lion to the seaside port.

Hong Ye flew out of Lu Yang's arms with excitement, and turned into a little dragon about 1 meter tall in the air. He spoke to Lu Yang babbledly and dived into the sea.

"What does Red Night say?" Xia Yuwei frowned and asked curiously.

Lu Yang smiled and said, "Hong Ye said that he has several deadly enemies in the sea. He also said how he was bullied before. Now he has to take revenge. He led these guys to the sea and let us help him. Get rid of the guys who bullied him."

Everyone smiled.

Lu Yang said, "Let's make some preparations too."

There are demonized creatures everywhere in the harbor, demonized wild wolves, demonized beetles, demonized foxes and other creatures.

If it was half a year ago, Lu Yang and Zhuo Jiu had seen these creatures really nothing, but now they are different.

“Fireball”

The fireball thrown by Lu Yang could easily burn the demonized creatures to ashes. If there are a large number of monsters, throw out a flaming bird or a blazing storm, and hundreds of demonized creatures will die in Lu Yang’s hands.

Zhuo Jiu and White Lion were responsible for protecting Lu Yang’s surroundings. They were far worse than Lu Yang in terms of mass killing, but they killed anyone who wanted to attack Lu Yang at close range.

After killing for more than half an hour, the magic energy in Lu Yang’s body was exhausted, and Zhuo Jiu and the others were responsible for dissecting the bodies of creatures such as the demonized wolf and beetle, and took out the magic core from it.

These magic nuclei are all Level 1 magic nuclei, very small. In the past, three magic nuclei can fill Lu Yang with magic energy. Now 100 of them can’t be done, but Lu Yang is different from others. When recovering, he needs a demon core as an aid. Lu Yang has the heart of the demon god. The conversion of his blood allows Lu Yang to absorb the energy of the surrounding elements dozens or even hundreds of times faster than ordinary people.

When he didn’t deliberately absorb it, the magic elements from all around poured into his body. Now when he deliberately practiced on the ground, he absorbs it faster.

In less than 20 minutes, the magical energy in his soul sea was fully restored, and he said, “Let’s continue.”

Zhuo Jiu, White Lion and others protected Lu Yang and continued to attack. It took him two full hours before Lu Yang had killed all the enchanted creatures in the port and obtained thousands of magic cores.

The white lion carried a sack and put all the magic cores in it. He looked at Lu Yang and said, "Boss, I couldn't imagine this before."

Lu Yang laughed and said, "Yeah, who would have thought that we will have such a rich day. These elementary crystal nuclei will be given to our Jagged Legion. After a while, we will re-establish a guild points system so that the Jagged Brothers will be in reality. The world is growing."

"Yeah." White Lion and Zhuojiu have seen the future, and they both showed longing eyes.

On that day, there are countless people with such a powerful strength as the White Lions and Zhuojiu, they will really have the opportunity to counterattack the main city of the East China Sea.

"Ding"

There was a resonance in Lu Yang's mind. was a signal sent by Hong Ye. The two of them had the same heart, and Lu Yang immediately knew that Hong Ye had pulled his enemy close to him. Place.

"Everyone is ready to fight. The Red Night is coming. Once he comes up with the sea monster, he will release the seawater in the harbor and light the surrounding diesel barrels." Lu Yang said.

There are a large number of oil tankers in the port, which are all ready to be transported to gas stations in the city, but because of the invasion of another world, they are all left in the port.

Another port has a deep-water port and a shallow-water port. If some large ships want to dock, they need to fill the port with water to raise the water level. Since it can be raised, it can naturally be released.

Zhuo Jiu and White Lion quickly ran to the port control room and used the backup power supply to operate the entire port. Lu Yang stood on the inner side of the deep water port, waiting for the return of the red night.

Standing by Lu Yang's side for half a lifetime, Kuai said with a smile, "Boss, how come I feel like playing games with bugs?"

Lu Yang smiled and said, "Me too."

#### Chapter 2043 - Crisis from Warcraft

After all, one world invades another world. Although the other world has its strong points, the earth is not useless.

The gate in the distance started to be filled with water, and a lot of sea water poured in. Xia Yuwei and Zhou Tianming ran to drive the tank truck, and two extended tank trucks also stopped near the port.

"Boom"

The sea suddenly collapsed, and the red night flew out of the water with a lot of scars on his body. When everyone looked at the red night in surprise, what was unexpected was that the sea suddenly bulged upwards, and then a height of 20 meters. The huge sea monster came out from the bottom of the sea.

"What is this?" The dirty wine was taken aback.

Lu Yang said: "This is definitely not a normal creature on the bottom of the sea after being demonized and mutated. It must be an alien creature."

The Blazing Demon God prompts: "You guessed it, this is called the ancient sea monster. It is a cursed creature in another world. They have low intelligence and only know how to kill. The initial strength is extremely low, but just give them a few months. With this kind of strength, they will grow up to 50 meters in height if some time passes."

“What are the shortcomings?” Lu Yang asked nervously.

The Blazing Demon said: “They are afraid of everything except that they are not afraid of water and the shell is very hard. In addition, if there is no water, their movement speed is very slow, because they have no legs and rely on fins to swim in the sea.”

Lu Yang nodded clearly, he knew \*\*\*\* this ancient sea monster, and relied on the connection of his mind to give orders to Hong Ye to quickly fly over here.

“Roar~!” Hong Ye tried his best, turned his head back and sprayed flames at the ancient siren who wanted to retreat to the bottom of the sea, and then pretended to fall into the sea with exhaustion to meet, and desperately rely on his wings and limbs to slide on the water. .

How could this speed be compared with the speed of the ancient Kraken in the sea. The ancient Kraken just thought that Red Night would not be able to catch it when he flew into the sky. Seeing Hongye’s physical exhaustion, he was overjoyed and quickly moved towards Hong Ye rushed over, and at the same time, he waved the giant sickle in his hand and furiously attacked Hong Ye.

The wounds on Hong Ye’s body were caused by this sickle, but when he reached the sea, Hong Ye would not be hit so easily. When he couldn’t avoid it, he could fly with his wings to hide, but he didn’t fly to high altitude.

The ancient sea monster’s intelligence was low, and he couldn’t see that Hong Ye was deceiving him. He greedily wanted to eat the dragon meat. He desperately chased Hong Ye to the reservoir to meet. Seeing this scene, Lu Yang quickly issued an order. .

“Release”

The turbid wine poured down and pressed the switch, and after the sluice was opened, the original 80-meter-deep pool suddenly reached the bottom. The ancient sea monster was chasing after it, and suddenly found that he had landed.

“Roar~!” The ancient sea monster was dumbfounded, looking at the land around him, and he could only move in the sea with his fins and tail. At this time, he couldn’t return to the sea more than 100 meters away behind him. He could only roar in place. Again and again.

Lu Yang originally wanted to let the tank truck drain the oil to burn him to death, but he didn’t expect this guy himself to be unable to resist the sun.

“Pyroblast”

Lu Yang shot large fireballs in his hand and hit the ancient sea monster. This kind of magical damage can cause great damage to his skin, especially after the water on its surface evaporates to dryness, let the ancient sea The demon is powerful, and there is no way.

Just like the card monster in the game, the ancient sea monster was stuck at the bottom of the pool and couldn’t get out or escape, and Lu Yang’s spells had a restraining effect on him, and could deal high damage.

In less than half an hour, the body of the ancient sea monster was completely ignited by Lu Yang. After a big fire, only the huge skeleton, teeth, part of the internal organs, and the giant sickle of the ancient sea monster were left. Of course, The most important thing was the basketball-sized crystal nucleus in the ancient Kraken’s head.

Lu Yang led Zhuojiu and others into the pool, disassembled the sickle, skeleton and teeth, and took them back to the shore.

“This is the first time I have seen such a big magic core, which is bigger than a magic crystal,” said bitter love half a lifetime.

Everyone nodded.

“Wow~!” Hong Ye lay on Lu Yang’s shoulder, staring at the huge magic core in Lu Yang’s hand.

Lu Yang smiled and said, "The reward is given to Hong Ye, so that he has the strength to attract a few more."

"Hmm~!" Hong Ye nodded quickly and humanely, and the dragon's mouth opened sharply, swallowing the magic crystal into his stomach in one mouthful.

A blazing light shone from Hong Ye's body. Then, Hong Ye rushed to the corpse of the ancient sea monster and ate the heart and flesh of the sea monster.

In his consciousness, Lu Yang felt surprised that Hong Ye was about to upgrade. He looked at Hong Ye's body. At this time, Hong Ye had recovered to a body that was more than 1 meter long, and there was a tendency to continue to grow.

In the red light, it had grown up to two meters before it stopped. Then, the red night turned back to a small point, and flew around excitedly at Lu Yang, turning his head and diving into the sea.

Lu Yang said, "Everyone, clean up the garbage. Today is our harvest season. Red Night told me that there are hundreds of ancient sea monsters like this under the sea."

The eyes of Zhuojiu and White Lion were bright. If there were so many, they would not have to worry about improving their strength. The group quickly cleaned the bones of the ancient sea monster in the pool, and Zhuojiu poured seawater into the pool again.

...

For the next whole week, Lu Yang and Zhuojiu were hunting and killing the ancient siren. Finally, the ancient siren was killed by them, and they received more than 300 magic cores the size of a basketball.

After that, Lu Yang swept the beach and obtained tens of thousands of magic cores of demonized crabs. At this time, Lu Yang felt that there was enough.

"Let's go back." Lu Yang said.

Everyone nodded, and as Lu Yang drove back to the dungeon, these 300 magic cores, as well as the tens of thousands of small magic cores he had hit before, were all stored in the warehouse by him.

Having just arranged all this, Lu Tianming and Fei Yang joined hands to find them, and they looked worried when they saw Lu Yang.

Lu Yang asked, "What's wrong?"

Lu Tianming said: "The monsters in the main city are getting irritable. We don't know why. Tao Yue took people into the main city several times and found this problem, and these monsters moved in the direction of the underground city. the trend of."

Lu Yang sighed and said, "It is very likely that the temple did it. How long will they be able to reach the dungeon?"

Fei Yang said: "At the current rate, it will take at least one month."

Lu Yang said: "Enough, I will retreat for a period of time to improve my strength. When I come out, I will kill the people in the temple with my own hands."

"It's up to you." Lu Tianming and Fei Yang said together. Both of them have lost their strength now and can only rely on Lu Yang.

Lu Yang nodded, and after sending the two away, he went to the training ground on the ninth floor. He found a room to retreat and practice.

After Zhuojiu and Baishi finished teaching Xiao Liang and Mu Yi and the others, they also began to retreat with Lu Yang.

## Chapter 2044 - track

Lu Yang was cultivating for a week, but a week later, Lu Yang was forced to interrupt his practice. Fei Yang heard news that the nearest Hydra Emperor suddenly became irritable and moved faster than it turned out to be twice as fast, and if this continues, he will be in the dungeon in two weeks.

Inside the meeting room.

Fei Yang watched Lu Yang and Lu Tianming anxiously and said, "I can't help it. Heavy weapons have no effect on the Hydra Emperor, and the military can't afford him."

Lu Tianming showed a shame on his face and said, "The college has no choice. Together, Tao Yue and I can't beat the Hydra Emperor."

Lu Yang said, "The key issue is still with those \*\*\*\* in the temple, so let's do your best. I will go and see what happened to the Hydra Emperor."

He has a necromancer's scepter to be invisible, even in the past, there will be no problem, but if the problem is not found, the 3 million people in the dungeon can only be evacuated.

The Hydra Emperor can't deal with it anymore. This time more than this monster came here, there are also three of the same level as him. If the reason is not found, these 3 million people will survive in the end. One.

Fei Yang said: "Brother, it's all up to you, you can say what you need."

Lu Yang said: "The only thing you need to do is to continue to declare to me that I am still in retreat, and to send me out by car. I can't be sure if there are any temple spies around us. You must be careful."

Lu Tianming said, "Let Tao Yue take the people from the academy to send you out, and then let them be on the bright side and you hide in the dark."

Lu Yang said, "This is one way. Let's try it."

Lu Tianming and Fei Yang nodded. After some discussion, Lu Yang returned to the room and continued to retreat. Fei Yang and Lu Tianming seemed to be angry with Lu Yang. The three of them broke up unhappily, allowing outsiders to see them.

In the afternoon, Tao Yue took the instructor from the college and drove two cars out of the dungeon, entered the suburbs of the main city, and stopped on the suburban avenue blocked by countless destroyed vehicles.

"We walked into the city from here." Tao Yue took out the intercom and said.

"Good." Deputy Captain March nodded in the second car.

At the moment, eight people got out of the two cars and walked towards the city on foot. What no one noticed was that there was another invisible person, Lu Yang, standing on the roof of the car. Only Tao Yue knew about this. The others Do not know at all.

Lu Yang just jumped out of the car and wanted to hug Tao Yue and the others. But after a while, a person appeared in the shadow of the building in the distance. This person was not someone else, but it was Tao, the head of the shadow family, among the six families of the temple. Ze's son Tao Chenggong.

"Sure enough." Lu Yang couldn't help cursing in his heart. Among the instructors next to Tao Yue, there were also traitors.

But the problem was that these instructors were all instructors who were besieged by the undead army sent by the Necromancer that day. The people in the temple wanted to kill them, and they were still willing to kill them. This made Lu Yang feel that there was a big problem.

Tao successfully walked in front of the two cars with a sneer, and a dark shadow appeared in his hands, which penetrated into the front covers of the engines of the two cars. The next second, the two cars gasped with purple smoke, and a lot of things melted. It became a liquid and dripped from the car to the ground.

"I will make you die miserably, Tao Yue." Tao Chenggong sneered, then turned and entered the shadow.

Lu Yang quickly asked Blazing Demon God, "I can't see him anymore, can you find him?"

"Of course." Blazing Demon God said with a smile: "The shadows of the Shadow Element are only invisible, and the tricks of carving insects. From now on, I will teach you the golden eyes, and you can see it."

Lu Yang: "..."

Lu Yang was a little confused and cursed speechlessly: "You can't do it seriously, have you read Journey to the West recently?"

The Blazing Demon God was dismantled, and he laughed awkwardly and said: "Look, I am not afraid that you can't understand what I said. I will tell you the glaring eyes, if you understand it, it is not easy for me. To teach you, you have to learn your culture first. My teacher is really touching."

Lu Yang didn't bother to talk to the Blazing Demon God, and said, "Point to the position quickly, and then run away."

"Don't worry." Blazing Demon God said in a loud voice: "He didn't move. I guess he wanted to see if anyone came out. You can gather elemental energy in your eyes and you can see him."

Lu Yang tried to use it, but this technique was not that simple. The nerve that connected his eyes was so fragile. A little carelessness caused him to blind his eyes again.

Under the guidance of the Blazing Demon God, he dared to do this only after several attempts. Sure enough, when the energy gathered in his eyes, he saw Tao Cheng succeeded in leaning against the wall to play cool.

"This kid is quite cautious," Lu Yang said.

The Blazing Demon said: "It's just rubbish. You want to kill him. It's a trick problem. I scanned him. It was cast by the power given by the gods. Without the help of the contract elves, he couldn't even hit a shadow arrow. come out."

This is the biggest problem for members of the temple. The way they learn skills is linked to the factions of Lu Yang. Their main behavior is to summon contract elves. Contract elves are contracts between gods and elves. Otherworldly gods teach temple members to summon contract spells. The lower elves release spells, which is how the members of the temple fight.

Tao Chenggong stood there for more than ten minutes. After confirming that no one appeared, he sneered and ran towards the distance with the help of shadow power.

Lu Yang hurriedly followed behind him, but at this time he was a little unable to keep up. In the dark state, Tao Chenggong ran very fast, almost 20 meters per second, faster than his hot. Even faster.

"Don't worry, I keep scanning him, he can't run." The Blazing Demon suddenly heard news.

Lu Yang relaxed and continued to chase Tao Chenggong. Fortunately, Tao Chenggong didn't run too far. After only 20 minutes of running, he stopped to rest, and then he continued running.

After waiting for an hour, Tao Chenggong had already arrived in a building not far from where Fei Yang said the Hydra Emperor.

On the top floor of the building, Lu Yang saw Zheng Ziming, Wang Xinpeng and others, and under their feet, there was a huge magic circle. Tao Ze stood in the middle position, continuously releasing dark energy.

A few kilometers away, the giant Hydra Emperor who was more than fifty meters tall was shrouded in a burst of dark energy, and his eyes kept moving toward the dungeon with anger.

Tao Chenggong looked at the people who were casting the spell, bowed and said, "Father, priests, I have destroyed Tao Yue and their vehicles. Can I kill them tonight?"

Tao Ze opened his eyes, stopped casting the spell, looked at Tao Chenggong and asked, "Did you see Lu Yang?"

Tao Chenggong shook his head and said, "I didn't see it in the car, nor did our fellow travellers see it. I waited for half an hour after destroying the car and didn't see it. I can be sure that Lu Yang did not come. "

Zheng Ziming also opened his eyes and said with a sneer: "Fei Yang and Lu Tianming went to Lu Yang. It seems that Lu Yang did not agree to their terms. After all, they were attacking the Hydra Emperor head-on. How could Lu Yang die for them It."

Wang Xinpeng said: "Lu Yang may be cultivating some special skills. I am also curious about how Lu Yang obtained these skills and whether he really has the heart of the devil in him."

Zheng Ziming said: "He may have adventures, but he shouldn't have the heart of the devil. We have already investigated many times in the dungeon."

Wang Xinpeng said: "I still can't be careless. If he can be caught with Hydra this time, he must be interrogated."

Several people nodded together.

## Chapter 2045 - Anti-trap

Lu Yang sneered in his heart. As expected, these people didn't plan to let him go. They wanted to kill him. If so, don't blame him for being polite. He is going to do it tonight. With this scepter, he can Invisible at any time, the enemy cannot find him.

“Om~!”

Some piercing voices came out from under the building, and a few spiked demons flew directly to the top of the building from downstairs. Just as they were about to speak, the only eye on their faces looked towards Lu Yang.

“Put away the murderous heart and change places quickly.” The Blazing Demon God quickly warned.

Lu Yang was shocked, and quickly gathered his spirits, the Spiked Demon showed a suspicious expression, and then looked at Tao Ze.

“What happened?” Tao Ze observed extremely keenly.

After the Spiked Demon communicated with Tao Ze with his thoughts, Tao Ze sneered at the corner of his mouth. Suddenly he turned his head, a death beam swept across the spot where Lu Yang was just standing, but did not hit anything.

At the entrance of the stairs, Lu Yang just hid below. Seeing Tao Ze’s attack, he said to the Blazing Demon God with lingering fears, “Thank you, or I will die just now.”

Death Ray is a level 6 attack skill, and it cannot be resisted by people like Lu Yang without any defensive equipment.

Zheng Ziming asked, “Lao Tao, why are you crazy?”

Tao Ze sneered, walked out of the teleportation formation, led Zheng Ziming and the others to the place he had attacked just now, but did not see the footprints.

This made Tao Ze frowned and said, “Strange, how could this be?”

“What the \*\*\*\* is going on?” Wang Xinpeng frowned and asked.

Tao Ze said, "I just exchanged information with the Spiked Demon, and the Spiked Demon told me that in this place, there was a strong soul fluctuation just now, and I suspect that Tao was successfully followed by someone."

Tao Chenggong immediately said unconvincedly: "How is it possible, there are no footprints, besides, when I come back, I use the shadow movement, who can catch up with me in the shadow."

Tao Ze still felt something wrong, Wang Xinpeng smiled and said, "Old Tao, you are too nervous, don't worry, don't you know the strength of your son? We are all god-given powers, no one can follow him."

Zheng Ziming also came to persuade, and Tao Ze persuaded him to return to his original position. Just when they left, no one noticed that a ball covered in dust and dirt quickly rolled towards Luyang.

When he reached Lu Yang's side, the ball drained the mud from his body and got into Lu Yang's arms. This was no one else but Lu Yang's pet three-eyed magic flower.

The reason why there were no footprints just now was because Lu Yang threw out the three-eyed magic flower at that moment to sweep Lu Yang's tail and destroy all the footprints.

Lu Yang patted the head of the Three-Eyed Demon Flower, and said to the Blazing Demon God: "How come any spiked demon finds my killing intent."

The Blazing Demon said: "I don't know much about this low-level creature, but I guess that the spiked devil is composed of twisted souls. The state of your soul just now resonates with their state. Remember Live, if you want to kill in the future, don't expose your murderous aura, the strong will find it."

Lu Yang nodded, he learned another trick, hiding in the corner cautiously, Lu Yang listened to the conversation of the people in the temple on the roof.

"Spiked Demon just told me that they have set up a perfect trap, and they are just waiting for Tao Yue and the others to get in. We will catch these 8 people tonight." Tao Ze said.

“Very well, we only need to force the old \*\*\*\* Lu Tianming out through Tao Yue. After killing Lu Tianming, the underground city will be ours.” Zheng Ziming said with a sneer.

Wang Xinpeng said: “Don’t be careless, this woman Tao Yue is not simple, he has a secret.”

“No matter what his secret is, can it be bigger than ours?” Xie Feiyu exaggeratedly laughed.

...

When Lu Yang listened to the side, he understood that what these people wanted to do was to kill Lu Tianming, because Lu Tianming’s method of attack made them jealous. Only by killing the members of the academy headed by Lu Tianming can they attack. The ability of the cultists to regain control of the dungeon in the dungeon and temple.

One more thing, the lack of military strength in the dungeon was also known to them, and now waiting for the night to come, Tao Yue and the others entered the encirclement.

Lu Yang returned to the top of the building and found a place to continue monitoring. On the other side, Tao Yue and the others were still exploring around. What no one noticed was that just behind Tao Yue, Zhou Fu, a faculty member of the academy, kept passing by. Mind sends the message to Tao Ze.

Tao Ze has a clear grasp of Tao Yue and their position and situation, and Tao Ze re-plans the encirclement circle according to Tao Yue and their actions at any time.

From afternoon to late at night, Tao Yue and his team stopped on the top floor of a building, where the vision was wide, and he could escape at any time, and he could also see the Hydra Emperor approaching in the distance.

“Sister, drink some water.” Zhou Fu handed Tao Yue the water bottle.

Tao Yue trusts Zhou Fu very much. Just when she was about to drink water, his phone rang and it was sent to him by Lu Yang. At this time, Lu Yang had followed Tao Ze and the others to another building not far from them. At the top, you can look at Tao Yue and the others from high to bottom.

He typed to Tao Yue and said: "Zhou Fu next to you is a traitor. Don't drink his water. You are now surrounded by people from the temple. Pretend to be captured alive and cooperate with me to kill them."

Tao Yue was shocked when she saw these words, but after thinking about it, she gritted her teeth and took Zhou Fu's water, pretending to take a sip, but she was actually stuck in her abdomen, then he stood up and pretended to go. She actually vomited up when she got out of the toilet, but even so, she felt dizzy, showing how strong this medicine is.

When Tao Yue returned to the top of the building, everyone else had drunk the water that Zhou Fu handed over, and it didn't take long before they all fell asleep in a daze.

When Zhou Fu saw this scene, with a sneer at the corner of his mouth. After the message was sent from his consciousness, a group of spiked demons appeared and caught Tao Yue and the others.

Zhou Fu took out the phone in his hand, pretended to be fighting with the spiked demon, and made a video call to Lu Tianming and said: "Teacher, it's no good, we were ambushed by people from the temple, Tao Yue was seriously injured and taken away. We can't hold on anymore."

Lu Tianming didn't know what was going on. Hearing that Tao Yue had been taken away, he couldn't sit still, and shouted, "Send me the coordinates, hold on to me, and I will bring someone over."

He called up the remaining teachers in the dungeon, and all followed him out of the dungeon by car, but after not going far, Lu Yang called.

Lu Tianming was in a hurry. Hearing what Lu Yang said on the phone, he sneered at the corner of his mouth and said: "I know, don't worry, I know what to do. I will leave it to you over there, as for me, I will screen carefully."

Since there are traitors from the academy around Tao Yue, Lu Tianming can't guarantee that there is no one around him, so he speaks very vaguely with Lu Yang. At this time, he already knows that Tao Yue's capture is a loss of trap. Since Lu Yang has promised to bring Tao Yue back, Lu Tianming believed that Lu Yang could do it. His task now was to cooperate with Lu Yang.

## Chapter 2046 - Find the traitor

There were 12 people next to Lu Tianming. Hearing that many people were looking at him, one of them asked curiously: "Teacher, who are you talking to?"

Lu Tianming looked back at his group of students. In fact, they said they were students, but they were just a group of people from major families who followed him for three years. The only person who was really close was Tao Yue, his granddaughter.

In the impetuous society before, these people would be taken by their family's power and dare not do anything wrong. Now it is different. Lu Tianming can't guarantee that even the student who seems to be closest to him is not a problem.

"Zhao Lin, what do you think of this incident? Fei Yang called me just now and told me that this might be an enemy's trap. Let me be careful." Lu Tianming said.

The man named Zhao Lin was a 28-year-old young man, frowning and said: "It shouldn't be a trap, this incident is too sudden."

The rest of the people in the car did not speak, the lights were not turned on in the car at night, and everyone was in the dark. Lu Tianming could not see their eyes and didn't know what they thought.

At this moment, Lu Tianming's heart was extremely desperate and desperate. He couldn't think that the residual poison of the temple was so deep that even the people in his academy were abducted unknowingly.

However, thinking about it, you can understand that if there is a foreign \*\*\*\* who takes the initiative to talk to his students and promises something, he, the teacher, can't stop him.

Lu Tianming sent a message to Fei Yang, saying: "Check, when the temple was there before, anyone in the academy had contacted them."

People like Fei Yang knew what was going on at a glance, and said, "I'll check it out. Your speed will slow down a bit. Give me some time."

Lu Tianming replied with emotion: "There is no way to slow down. Once you slow down, the enemy will know that they are exposed. Lu Yang is protecting Tao Yue. Although I am not too worried, the enemy is a temple after all."

Fei Yang said excitedly: "Then you can't take risks with your own body. You are the highest combat power in the dungeon. If you die, the temple will be even more unscrupulous."

"I will be careful." Lu Tianming said helplessly.

He also knows how important he is to the dungeon, but he can't turn around and slaughter these 12 students, it's easy to kill them, but kill them, who will teach the people in the dungeon to train, and who else is a traitor? , Are there any accomplices among the apprentices taught by this traitor?

When he thought of these things, Lu Tianming couldn't help but rub his temples. The thing he was most bad at was this kind of thing. This reminded him of Lu Yang. Now he can only use his strength to commit a dangerous crime. Is a traitor, there are a few traitors.

The car quickly drove to the place where Tao Yue and the others had stopped. In the dark night, there was no light on the outskirts of the city, and darkness was everywhere.

In this case, flashlights are no longer the best lighting equipment. Large torches are the best thing that can illuminate within 30 meters.

Lu Tianming thought of the gift Lu Yang had given him before. It was a star shining stone. He took it out of his backpack, and the area around 50 meters was illuminated in an instant.

Zhao Lin asked curiously: “Teacher, what is this?”

Lu Tianming was a little proud, and a little bit smirk, and said, “The little gift Lu Yang gave me before, I didn’t take it seriously, and now I know that such a small object is so useful. At night, Only him can light up the surroundings.”

The torch burns fast, and the star shining stone is a permanent light, which is too important for their exploration team.

Zhao Lin was a little amazed at what Lu Yang and the others had gained, and then looked at the closed street lights around and the little light in the night ahead, and said: “This is really good. It can greatly reduce the chance of being attacked at night, but we can also easily become targets. , Was injured by the enemy’s ranged attack.”

Lu Tianming sneered proudly. For a master like him, he can’t be killed by heavy firepower, let alone hit him. With this, he is not worried about being attacked from a distance, but that the same internal power master sneaks him. .

“Follow me fast, Zhou Fu and they won’t be able to hold on anymore.” Lu Tianming saw that the other people’s torches were lit, and led them to the place Zhou Fu gave them.

For a while, Zhou Fu had no longer contacted Lu Tianming, and only the location coordinates of the mobile phone remained, showing that Zhou Fu was still in place.

“Zhou Fu, I heard the answer.” Lu Tianming sent a voice to Lu Tianming.

In the middle of a huge formation, Zhou Fu was sitting on the ground with blood all over his body. Of course, all of this blood was fake.

Zheng Ziming, Tao Ze and others stood beside Zhou Fu. Wang Xinpeng said to Zhou Fu with satisfaction: “You have done a very good job, and God will give you more rewards. From now on, you will officially become one of us for God’s sake. Come and fight.”

Zhou Fu respectfully knelt in front of Wang Xinpeng with a fanatical expression in his eyes, and said: "Since I came into contact with the true God, I have known my mission. I exist for God, and I am God's most humble servant."

Wang Xinpeng handed Zhou Fu a strange black dagger, and said: "A few days later, we will contact the gods again, not only you, but also Zhao Lin. You will all be rewarded by God and do everything well."

Zhou Fu took the dagger and hid under him with a fanatical expression on his face. His task was to assassinate Lu Tianming, and Zhao Lin would cooperate with him.

Zheng Ziming said: "We should hide, Zhao Lin said they are coming soon."

Tao Ze and the others nodded, and each stepped back into the darkness. Lu Yang was hiding not far from them, and he could hear all these people clearly, and he had already cut the magic chain that trapped Tao Yue.

Lu Yang sent a message to Lu Tianming and said: "It has been confirmed. Zhao Lin is the second betrayer. Be careful."

Lu Tianming was running forward. He couldn't help but breathe a sigh of relief when he saw this news. Zhao Lin, the apprentice who followed him for the longest time, turned out to be such a silent betrayal. He couldn't imagine this temple. What did you do to these two people?

"Dididi!"

Fei Yang heard the news and said: "The traitor may be Zhao Lin. Be careful. Only Zhao Lin and Zhou Fu are responsible for monitoring the people in the temple. If there are traitors, it should be them."

Only then did Lu Tianming understand that the two of them had been brainwashed by the temple in a special way, but he didn't understand the method.

Where did Lu Tianming know that after Tao Ze and Zheng Ziming entered the surveillance area, they immediately contacted the alien gods and asked the alien gods to help them solve their plight, and the

alien gods' approach was very simple, with Zhao Lin and Zhou Fu. The two talked face-to-face, using the supreme power to make them realize how small they are, and only by following the otherworldly gods can they become strong.

At this time, they don't care about human beings and the earth anymore. They just want to gain powerful strength, just want to follow the gods and fight one civilization and the planet for the gods.

#### Chapter 2047 - Resolve the temple

Seeing that he was about to enter the ambush ahead, Zhao Lin became more and more excited. He had made all preparations. As long as he killed Lu Tianming, he would be able to obtain the supreme mana taught by the gods.

Lu Tianming had already sensed Zhao Lin's mood swings. He shook his head secretly in his heart, and came to a dilapidated open space. Watching Zhou Fu's whole body \*\*\*\* fighting with a spiked monster, Zhao Lin shouted excitedly: "Teacher, Zhou Fu is still alive, we must save him."

The faculty members of the academy wanted to rush to rescue Zhou Fu, but they were blocked by Lu Tianming's inner strength. At the same time, they swept Zhao Lin's head with his right hand.

The eleven teachers were dumbfounded, and they looked at Lu Tianming blankly.

"Teacher, what are you doing?"

"How did you kill Zhao Lin."

...

Lu Tianming turned his head and stared at them, and said, "Look carefully at Zhao Lin's hand, what he is holding."

Everyone walked to Zhao Lin blankly and broke his arm. There was a black crystal spike inside. At this moment, all eleven people were stunned.

"How can Zhao Lin use the high-level weapons of the temple? Isn't this specially used to pierce our body guard Zhenqi?"

"The mana shield is useless. This thing ignores the mana shield."

...

Lu Tianming looked at the horrified instructor and said: "Zhou Fu and Zhao Lin have defected. They are acting together. Look, the battle between Zhou Fu and the Spiked Demon has stopped."

Zhou Fu and the Spiked Demon stopped fighting. He looked back at Lu Tianming and applauded and said, "As expected, Mr. Lu, there really are two things, so you found them all."

Lu Tianming snorted coldly, and said, "One has been killed, and you will be the next one. If you decide yourself, I will kill you."

Zhou Fu sneered and said, "Do you think you can escape when you are here? Do you know how many spiked demons are around here? I should say this to you, self-decision or I will kill you."

As soon as the voice fell, a semi-transparent black mask appeared out of thin air centering on Zhou Fu's location, trapping Lu Tianming and the eleven college faculty members inside.

Wang Xinpeng, Zheng Ziming, Tao Ze and others walked out of the hidden places around them, stood on their respective magic circles, and continued to release the magic energy in their bodies to maintain the formation. Among them, the area belonging to Zhou Quan was brought by Zhou Quan's son Zhou Yu. succeed.

Wang Xinpeng looked at Lu Tianming triumphantly and said, "Master Lu, finally trapped you and killed you, but we have a lot of trouble."

Lu Tianming looked at Wang Xinpeng and walked the edge of the mask with a sneer. The long sword in his hand appeared, and it struck the mask with a white light, but it had no effect on the mask, not even a trace of ripple.

"What is this?" Lu Tianming asked.

Tao Ze grinned and said, "Darkness Imprisonment is one of the dark control spells, and it is also specially prepared by a few of us for you."

Zheng Ziming said with emotion: "Round melee, your strength is too strong. We are afraid that one of you will be killed by a knife accidentally. Therefore, we can only use this formation to trap you, sir, do you want to join our temple? , God will make you immortal."

Lu Tianming laughed and touched his beard and said, "Since you want me to betray, are you looking for the wrong person? Don't waste your tongue. I am not interested in yours. Don't forget, my martial artist's heart He is very determined."

Each method has its own mind. What a martial artist cultivates is the mind of a martial artist. If he violates his mind of a martial artist, he will no longer advance in this life.

"Don't you want to live forever?" Zheng Ziming asked.

Lu Tianming sneered and said: "Indeed, longevity is very attractive, but you don't have to work hard. I won't betray my country, let alone betray my martial artist's heart. Let me see what you are doing today. kill me."

"Ming is stubborn, since you are looking for death, don't blame us." Xie Feiyu gave a command with a cold snort.

The spiked demon ambushing in the distance made long howling noises and flew towards this side. Soon, the spiked demon came to the scene. When they entered the dark mask, they didn't feel a trace of stagnation. I went in and fought with Lu Tianming.

Zheng Ziming and Xie Feiyu were like watching the battle in the ancient Colosseum, watching Lu Tianming and his eleven instructors fight with the spiked devil with relish.

Soon after a spiked demon entered, the second spiked demon also entered, but Lu Tianming's strength was strong. Under the strongest attack, a sword smashed a spiked demon, which made Zheng Ziming and the others very unhappy, speeding up. Urged more spiked demons to come in.

"It's amazing, old man Lu, just don't know how many spiked demon you can kill." Xie Feiyu asked with a laugh.

Lu Tianming did not answer, and continued to attack desperately. Just as Zheng Ziming, Xie Feiyu and others were getting happier and laughing more and more happily, suddenly, a dagger pierced Xie Feiyu's heart. At the same time, On the other side, another long sword pierced Zheng Ziming's heart.

Xie Feiyu looked back and couldn't believe it. He happened to see Lu Yang's cold face, and it was Tao Yue who killed Zheng Ziming.

The dark imprisonment circle became extremely unstable after losing two people to transmit mana, and the remaining Wang Xinpeng was discovered by Tao Ze and other family members, Lu Yang and Tao Yue.

"You, how could you?" Wang Xinpeng couldn't believe it.

Lu Yang sneered, and chanted a spell, almost an instant skill. A scarlet fireball fell from the sky and smashed towards the group of juniors from the temple family.

The second generation of this group of families is desperately maintaining the magic circle They did not see the fire in the sky at all. In the next second, the twenty-something second-generation family members of the temple were all hit by Lu Yang. killed.

“Lu Yang, you dare to kill our family.” Tao Ze went mad in an instant, and his son Tao Chenggong was among them. Obviously, he could not survive.

Lu Yang stared at Tao Ze and Wang Xinpeng and said, “When you wanted to sacrifice one million people in the underground city, you were already dead. Now it’s just a few family members who died first. Now I’ll kill you. .”

“Extinguish the Sky Fire”

Lu Yang chanted a spell and struck him at Wang Xinpeng who was standing on the circle. At the same time, a small thing flew out of Lu Yang’s arms, and in the blink of an eye he turned into a ten-meter-long dragon. One bite killed Wang Xinpeng who was casting a spell on the ground, and then ate it directly into his stomach.

Tao Ze desperately wanted to escape, but unfortunately, all his skills needed to chant a spell to summon the corresponding elemental elves, but now there is no time.

Tao Yue was staring at Tao Ze, looking at the timing, a long sword flew out of her hand and chopped off Tao Ze’s head. So far, Lu Yang and the others finally killed the temple that had been in trouble for nearly two years.

Chapter 2048 - Kill all spikes

The black mask shattered.

Lu Tianming walked up to Lu Yang excitedly, grabbed Lu Yang’s arm and said, “Great, the underground city is finally safe this time.”

Lu Yang looked at the Hydra Emperor who had returned to the city center in the distance and he was relieved, and said, "Yes, the dungeon is finally safe. We have more time to train warriors and wizards to protect our home. Up."

"Let's go back, I want to recommend you to my superiors and enter the bronze temple to practice." Lu Tianming said excitedly.

Lu Yang was a little curious, and asked, "Where is the bronze temple?"

Lu Tianming said triumphantly as he walked: "This is one of the most famous training treasures in the center of the academy. It corresponds to you magicians whose strength is below level 10. If you can enter it, when you come out, your level will be It should be a level 10 magician, or I have a chance to become a magician."

Lu Yang was a little surprised, and said, "Is the magic energy so dense there? Stronger than the magic core?"

Lu Tianming nodded and said: "We don't know what's going on. Before, the bronze temple was just a place for our martial artists to cultivate internal energy. But after the invasion of the different world, the bronze temple was absorbing magic energy frantically, and the river in the temple was full of magic energy. Yes, think about it, how dense the magical powers there will be."

Lu Yang couldn't help showing an expression of amazement. It was really not the usual denseness, and they all gathered into a river. It was obvious that the bronze temple was really unusual.

Lu Tianming went on to say: "The temple has another advantage, that is, it can exercise your mental power, which is an improvement in the mood for us martial artists. I know that this will greatly help your strength."

Lu Yang said: "Okay, I promise you, as long as I can quickly improve my strength, I can try."

In his consciousness, the Blazing Demon God had already sent a message. If there really is a river-like aura, it's best to go there.

Lu Yang had no problem relying on the magic core for his cultivation, but he still had the three-eyed magic flower and the little fire dragon Hongye on his body. These two oil bottles were not ordinary magic cores, and they couldn't afford it by Lu Yang alone.

If he could enter the Bronze Temple and let the aura inside supply the red night and the three-eyed magic flower to grow, it would save Lu Yang a lot of training time.

One more thing, Lu Yang himself wanted to see what was going on outside. The news from the dungeon was too closed, and he needed to know what the world had become.

He has protected 3 million people here, what about other places? The survival of ordinary people is one aspect. In other places, are there dragon creatures such as the Necromancer and Hongye? If so, how far have they developed? Have they opened a larger gap and released more dark creatures? Entering the earth, did the dragon race become a giant dragon tens of meters long?

If such a situation really occurs around him, he really needs Red Night and the Three-Eyed Magic Flower to increase their combat effectiveness as soon as possible. Only relying on him, Zhuojiu and others, cannot hold the dungeon.

"When are we leaving?" Lu Yang asked.

Lu Tianming smiled and said: "Unexpectedly, you are in a hurry. Let me make arrangements as soon as possible. You will also prepare for a trip to the imperial capital. If you come back again, it may take a few months, or even a year or two."

Lu Yang nodded and said, "Then you go back. I will hunt down all the spiked monsters around and then go back."

He just sprinkled the pollen of the Three-Eyed Demon Flower on the ground just now, only then did he know that the Spiked Demon had entered the dark curtain of light to meet, and was easily beheaded by Lu Tianming.

The rest of the spiked demon had just sucked in a lot of pollen during the approaching process. It is estimated that it is the time when the spiked demon is weakest, and it is also the time when the spiked demon is the most concentrated, so he can just finish them in one pot.

Lu Tianming still had a lot of problems in his body. He couldn't stay outside for a long time. Seeing Lu Yang insisted, he took Tao Yue and the others away.

Lu Yang sent away Lu Tianming and others, and ran a short distance away, but when Lu Yang walked away, no one noticed that Tao Ze's corpse suddenly trembled, and the flesh and blood peeled from the bones. , Tao Ze just stood up, walked to the front of the severed head, and inserted the skull with the disappeared flesh and blood on the head.

At this time, Tao Ze didn't look like a human anymore. He glanced at the dead people around him, and there were strange flames in his two white bone sockets.

"Lu Yang, if you kill my family, I will come back to seek revenge from you. This matter is not over." Tao Ze snarled angrily and ran into the darkness quickly.

No one knows that Tao Ze and the Necromancer are in the same group. They belong to the same main \*\*\*\* seat. Why the temple and the Necromancer can cooperate is because Tao Ze did it.

In order to express his belief in the gods, Tao Ze also turned himself into a state of undead, even his bones are broken, which has no effect on Tao Ze. He has a soul and can be resurrected indefinitely. As for how to resurrect, he will His eyes were on the underground city.

There are always members of the academy who come out to exercise. As long as he is attached to one of them, he can return to the dungeon, continue to recruit apprentices in the name of God, and recruit all the former believers.

Of course, Tao Ze's current strength is too bad, he needs to find someone to seek refuge, that person is a member of the temple in the city next door.

Unlike Donghai City's 3 million people who received Lu Yang's assistance, the 1.8 million people in the next city died when a different world invaded. Among the remaining humans, the elite were selected by the members of the temple, and the rest were used for sacrifice. .

The other side.

Lu Yang didn't know the news that Tao Ze had run away. He was attacking the spiked demon. Dozens of spiked demon had gathered and hid under the orders of the members of the temple, because there was no further order. In the dizzy state of pollen, they all gather together.

The largest pile is more than 500. Before, Lu Yang was worried about whether he would kill it bit by bit. That would make his magic power insufficient, and there would be a risk of being killed by a spiked monster sneak attack. Now it's simple. Since they were all gathered together, Lu Yang wouldn't be polite.

"Forbidden Curse-Meteor Fall"

The magical energy in Lu Yang's soul sea crazily entered the meridians, finally gathered in Lu Yang's hands and formed a giant flame meteorite with a diameter of 80 meters.

If Lu Yang wanted to condense the meteor fall, it took a long time, now it is instant.

The heart of the demon \*\*\*\* in his body continuously generates blood, making Lu Yang's meridians extremely powerful, and no amount of magic energy can be transported out in one wave.

"Death to me." Lu Yang jumped to a tall building, aimed at these spiked demons and threw it over. In the blink of an eye, the flame meteorite hit the middle of the spiked demons, and a giant fireball with a diameter of 200 meters soared from the ground. From there, half of the sky was illuminated.

Lu Tianming, who was driving, was also stabbed by the light. He looked back in the direction where Lu Yang was, and said with a sigh, "You are promising. Entering the Bronze Temple will surely be promoted to the Mage. I won't be envious."

Lu Tianming's age at Lu Yang did not have such strength, and the other faculty members of the academy also showed envy.

When the fire was over, Lu Yang looked at the bodies of countless spiked demon, smiled at the corner of his mouth, and jumped down to pick up the core.

## Chapter 2049 - Fire Lions

A total of 572 magic cores, took out two and threw them to Hong Ye and the Three-Eyed Demon Flower. Lu Yang threw the rest into the Demon God's Temple, and even the spikes on the spiked demon were also thrown in by him. This thing is a good weapon.

He looked around and confirmed that no Spiked Demon was alive, found a place where no one was there, and got into the Demon God Temple to rest.

When Lu Yang woke up early the next morning, he came out of the Demon Temple and looked at Donghai City in the early morning.

Although the dew was thick and wet Lu Yang's clothes, it gave Lu Yang a feeling of returning to the past, but looking at the dilapidated city under the sun and the beasts that appeared everywhere made Lu Yang very unhappy.

He has always been curious about the reproduction speed of these demonized beasts. It stands to reason that there are not so many things around for them to reproduce so fast. He doesn't know how these things reproduced. Now his strength is a bit more powerful, Lu Yang wants to explore this secret.

The Blazing Demon knew what Lu Yang was thinking, and said, "There should be some special places, which are breeding bases for demonized creatures. They are too close to some special twisted time and

space, and the demonized energy they receive is a bit special. You know, there is a very powerful life energy in the magic energy.”

Lu Yang asked, “Can you perceive it?”

The Blazing Demon said: “The fluctuations are very weak and they are not in the city. I can perceive a few places in the sea. Among the remaining places, four are in the city. The original location of the Hydra Emperor is, The others are in the suburbs, you can go and see.”

Lu Yang smiled and said, “I feel like I’m going to clean up the monsters. Okay, let’s see what’s going on.”

Following the guidance of the Blazing Demon God, he released Red Night, sat on the north side of Red Night and ran towards the southwest of Donghai City.

I have to say that the feeling of flying in the sky is really good, especially after I have a strong ability to not fear the wind and the scorching sun, and again, this is riding on the back of a dragon, and he is also a dragon knight.

Hong Ye sensed Lu Yang’s happiness, and let out a long roar in the air, and led Lu Yang to a forest in the southwest. Looking down from the sky, he could clearly see the whole mountain with a large number of lions. exist.

“What’s the situation? Isn’t this a zoo?” Lu Yang was speechless.

The zoo in Donghai City is built in the suburbs. This is also a very large zoo in the province, even in the country.

I remembered that there were more than fifty lions in this zoo, but now there are all over the mountains and plains. The number is not tens of thousands but there are also 20,000 to 30,000, and the hairs of these lions have turned crimson. Obviously, they can release flame magic.

“Roar~!” A huge lion suddenly appeared on the top of the mountain, roaring frantically at Lu Yang.

Lu Yang took out his binoculars and took a closer look. He found that the height of this lion was at least 3 meters, and it was as high as a floor. The huge lion head and handsome flaming lion mane felt extremely powerful.

“Roar~!” Hong Ye dissatisfied that the lion dared to compete with him, turned his head and roared, and immediately, the lion king’s momentum was suppressed.

Blazing Demon God showed an expression of interest, and said: “This lion should be too close to the twisted time and space. After the twisted time and space suddenly broke open, a huge amount of life energy entered his body, causing him to mutate. Now his attributes It should be level 10. Are you interested in killing him?”

Lu Yang shook his head and said interestedly: “I don’t want to kill him, I want to subdue him, you say, is there any way to lead the lions and make them obedient.”

The Blazing Demon smiled and said: “I know what you mean, do you want your men to ride on lions as mounts?”

Lu Yang nodded and said, “Gasoline outside is a luxury item. If it can be replaced by other organisms, it would be a good way.”

The Blazing Demon said: “It depends on the tenacity of this lion. If he does not yield and is not willing to follow you like Hongye, there is nothing you can do. Then you can grab some ordinary lions. I have a spell. You can make them surrender.”

Lu Yang said: “The latter, I’m not sure that Hongye and I can kill him together, maybe he will kill him.”

In terms of size, Hong Ye is not as big as this lion after her transformation, let alone Hong Ye is a transformation, and this lion king itself has such a big body, it suffers from fighting, Lu Yang uses the curse to say this lion He’s not stupid, he can’t beat him by looking at his speed.

The Blazing Demon God nodded and said, “I’m afraid I will have to wait until you return from the Bronze Palace. If there is such a large amount of magical energy, Red Night’s strength will increase very quickly.”

Lu Yang looked at Hong Ye. He also looked forward to Hong Ye turning into a dragon tens of meters long to help him fight. He ordered Hong Ye to land on the ground.

“Roar~!” Dozens of lions leaped around and surrounded Lu Yang and the others, but just as soon as they roared, they were shocked by the dragon head of Hong Ye.

“Fire Snake Bound”

Lu Yang activated his skills. This fire lion was not strong enough, and it could only breathe flames. It was suppressed by Long Wei. Lu Yang threw them all into the Demon Temple.

The power of the Demon Temple is even more terrifying, and more than fifty lions just lie on the ground and dare not move.

Lu Yang laughed and shook his head when he saw their state. He picked the strongest one and grabbed more than a hundred lions and returned to the dungeon. Far away from the door, he released all the lions and led them to the dungeon. Underground city.

Xiao Liang was on duty, was stunned when he saw these lions, and said, “Boss, what is this.”

Lu Yang pointed to the strongest fire lions, and said, “The mounts I grabbed, feel it, this time there are fire lions riding.”

Xiao Liang’s eyes were bright, thinking that back then, the Iron-Blooded Brotherhood was most proud of the Fire Lion Legion in the game. This was something they would never forget.

Now that a fire lion really appeared, Xiao Liang was very happy and said, “Boss, thank you.”

Lu Yang smiled and shook his head, handing the spell to Xiao Liang, and said: “Drip blood on his head, depict this magic circle, and then use flame energy to read the spell. He is Yours.”

“Yeah.” Xiao Liang nodded repeatedly.

Lu Yang led the other fire lions at the door. Not long after, Zhuojiu and the white lion ran out. Everyone was excited to hold a fire lion and did not let go. Fei Yang, Lu Tianming, Tao Yue and the other teachers also One person got a fire lion.

Before Lu Yang could teach them, everyone bit their fingers and dripped blood on the lion's head. Lu Yang was confused when he saw him, and asked, "Why are you all so good?"

Fei Yang raised his head and said, "You didn't know when you came back. The skill types and release methods have been sorted out above. Demo videos and various books can be found in "Second World".

Lu Yang frowned and said with a smile: "Is the imperial capital already so strong?"

Lu Tianming said with some emotion: "Brother, you will have a different feeling when you go to the Imperial Capital. Now these things you know are all found in the wild, but there, you can see them at any time. It's not a secret. ."

## Chapter 2050 - Enter the imperial capital

Lu Yang didn't mind that others would also know what he knew, but he was happy. After all, he didn't have to worry about others discovering his secret. From now on he didn't need to worry about releasing a spell that others would not know him and causing trouble .

"When are we leaving?" Lu Yang asked.

Fei Yang said, "Tomorrow morning, you can have a good rest at home tonight."

Lu Yang nodded and returned home. He and Lan Yu hadn't had a good rest for a long time. They were always so scared. Now that the temple has been solved and the Necromancer has solved it, the dungeon will be truly safe in the near future.

On the next night, Lu Yang looked at Zhuojiu, Baishi and others, and said, "I will leave the house to you. I will go to the Imperial Capital to see what's going on."

Zhuojiu said: "Don't worry, boss, we will look after the family."

Lu Yang knew that they were all alone in the dirty wine, and said, "Remember, keep it first, everything will be solved when I come back, you guys, don't do anything, I can't accept anyone who is dead, please remember. , There is a boss in front of you, don't think about carrying it for others, when I can't carry it, it's when you are going on, just take care of your family."

Zhuo Jiu, White Lion, Xia Yuwei, Zhou Tianming and Kuai Bansheng all laughed, and everyone nodded.

"I see, I accompany Lan Yu every day, and all of them teach the students, and they won't go out looking for trouble." Xia Yuwei said.

Lu Yang laughed and nodded and got on the helicopter. At this time, there was only one pilot on the plane and a soldier with heavy firepower.

The two saluted Lu Yang together. They saw Lu Yang's dedication to the underground city, and they were very grateful for Lu Yang's help.

The driver said to Lu Yang: "Hello, boss Lu Yang, I am the military driver Tang Lei. We will arrive in the imperial capital in three hours."

Fei Yang stood under the plane, handed the certificate to Lu Yang, and said: "When you arrive there will be someone to welcome you, so you can contact me at any time along the way."

Lu Yang looked at Fei Yang and Lu Tianming and said, "Contact in time if you have anything, I will come back anytime."

“Okay.” Fei Yang and Lu Tianming nodded together.

The two retreated, the helicopter accelerated take-off, and flew quickly towards the direction of the imperial capital.

Lu Yang sat in the cabin and looked left and right. This was the first time he took a helicopter. He asked, “Are there any demonized creatures in the air?”

Tang Lei said: “There are also in the air, but their work and rest schedules are very regular. They go out during the day to hunt for food. At night, they will rest and will not act in the wild. Therefore, we are still safe to travel at night.”

Lu Yang nodded. After all, the demonized creatures are still native species on earth. Their living habits have not changed due to demonization, just like human beings sleep at night.

Tang Lei is a very talkative person, and continued: “Boss Luyang, I have traveled to and from the emperor many times. You don’t know, the city there has almost recovered. It was originally a military town, and it started from the invasion of another world. , There was not much damage, except that some areas within the city were destroyed by warped time and space, and creatures of different worlds appeared from time to time, but these places were isolated, the entire map has been restored to order, and supplies are gradually To resume production.”

Lu Yang asked, “How about the magic over there?”

Tang Lei said excitedly: “Very powerful. Above the mage is the magister. It is said that there are nearly a hundred magisters. There are also many existences such as the Valkyrie and Sword God. There is a very large academy in the center of the Imperial City. , There are many strange things there. Anyone who enters will improve quickly after they come out. This is how the Magister appeared.”

Lu Yang understood that it should be the role of the Bronze Palace and other similar things. He smiled and said, “I didn’t expect the development there to be so fast.”

Tang Lei mentioned this incident more happily, and said: "If this continues, I feel that order will be restored soon."

Lu Yang was a little bit emotional. For ordinary people, they didn't know that the chaos is just beginning. The warped time and space will become bigger and bigger, the enemies coming in will become stronger and more powerful, and it might even be possible in the end. The gods of the different world all personally end, and it is impossible to restore the previous order.

Tang Lei suddenly thought of something, frowned and said, "Boss Lu Yang, you still have to be careful when you arrive in the imperial capital. There are still temples there. Not all temples have been removed. The imperial capital's temples are still very powerful. Power."

Lu Yang frowned and said, "Is the imperial capital's temple still there?"

Tang Lei said: "Yes, and their relationship with the government is very good. It seems that they have specifically explained the situation of our temple, saying that the people of these families have rebelled and it has nothing to do with them."

"It's pretty clean," Lu Yang said with a sneer. He felt that going to the emperor this time was not so easy.

The two chatted all the way, the plane came to the sky over the imperial capital, and finally landed on a tarmac. A middle-aged man waited not far away, watching Lu Yang get off the plane, smiled and walked to the front and said: "Hello, I It's Lu Zhongyou, Tianming told me that if you have any questions in the future, you can come to me at any time. The Lu family is your backing."

Lu Yang smiled. Before coming, Lu Tianming told him that the imperial capital was also in a family fight. He was recommended by Lu Tianming. Although Lu Tianming recommended it because of his life-saving grace, he and the Lu family have already escaped. It doesn't matter anymore.

At that time, the two had agreed, The Lu Family will do their best to help him. At the same time, Lu Tianming asked Lu Yang to protect the Lu Family when he is stronger in the future.

Lu Yang agreed to this. Anyway, he was defined as a member of the Lu Family, so he should just be so in front of him. He insisted to leave, and he did not have the opportunity to enter the Bronze Palace this time.

“Thank you.” Lu Yang shook Lu Zhongyou’s hand and asked, “Where shall we go next?”

Lu Zhongyou said: “Tomorrow morning, I will personally send you to the academy, where you have to accept further studies, and you will have the right to enter the Bronze Palace only after you have determined that your strength has reached level 9.”

Lu Yang knew this too. He could have not come, but he didn’t want to expose the Blazing Demon God, so he came. Although the Blazing Demon God is better than any teacher here, he is self-taught and can master fire spells. It is a questionable problem after all to play to the extreme, if there is a teacher, then everything will be solved.

“Let’s get in the car.” Lu Zhongyou led Lu Yang into a Land Rover, which looked brand new.

Lu Zhongyou said with some pride: “Although the Lu family is not a big family in the imperial capital, it still has a certain level of strength. The configuration that should be given to us is still to be given.”

## Chapter 2052 - Enter the college

Shield-like treasures, armor of special materials, and things that can fly in the air completely subverted Lu Yang’s previous perceptions. Similarly, the prices marked on them also discourage Lu Yang. Each of the above items can be bought with money, but it must be something called Astral Coin, but he doesn’t even know Astral Coin. Lu Zhongyou explained: “Astral Coins are the currency that must be used to connect mechanical planes with other planes. At present, if you want to obtain Astral Coins, you can only exchange for materials, such as the special demonized creatures on this planet, the Hydra. The emperor’s toxin, or other rare things, in short, are something very unusual in our world.” Lu Yang nodded clearly, smiled at the corner of his mouth, glanced at Bing Ke, and said to Lu Zhongyou: “It looks

like this product is a profiteer." Lu Zhongyou smiled and asked, "How to say it." Lu Yang said, "It's simple, the Star Boundary Coin issued by this product is the currency of their plane. He only has this thing, he has the right to set a price. He said what value Star Boundary Coin is, and how many things can be exchanged. We have no right to say no, right." Lu Zhongyou nodded and smiled "It's true." Lu Yang said, "But if they leave here one day, where would we spend the Star Boundary Coins?" Lu Zhongyou found that Lu Yang was quite smart, and said with a smile: "So we Signed an agreement with them, and Bingke sent part of the rare equipment as collateral to the warehouse of the college headquarters. This is how we can beat the enemy now." Lu Yang gave a thumbs up and said, "I came up with this. The person who works, this thing is done beautifully." Lu Zhongyou said triumphantly: "I figured it out." Lu Yang was a little surprised, and exclaimed, "You are a master." Lu Zhongyou said, "So my family is also assigned. The right to use some special things, if you have difficulties in the future, you can find me. Although these rare things do not belong to us, I can lend you a period of time." "Thank you." Lu Yang said sincerely. He did not expect Lu Zhongyou Will fancy him so. Lu Zhongyou really said, "The main reason is that you are strong and have room for development. Maybe our family will have to rely on you in the future. Let's go back." Lu Yang nodded, and left the plane store with Lu Zhongyou. The car came to the door of a villa not far from the college. He pointed to it and said, "This is our family's residence." This villa is very large and it is a townhouse with seven households in total. To my surprise, all the seven households belonged to the Lu family. The entire Lu family's family gathered here. During dinner, Lu Yang also met most of the Lu family members. At this time, he somewhat understood the reason why Lu Zhongyou wooed him. Almost all of his family members had no talent for cultivation, except In addition to a little talent for the younger generations in several families, it is because he and Lu Tianming are strong. Lu Zhongyou sighed and said as he ate, "You have also seen the current situation of our family. The most powerful junior in the family currently serves in the Imperial Guards. There are three people in total." Lu Yang nodded, not much. What he said, he knew what Lu Zhongyou said just to prevent him from underestimating, and he had no other meaning. After the two chatted, Lu Yang took a rest. When the next morning, Lu Zhongyou personally drove Lu Yang to the entrance of the college and said, "I can only send you here. We are not allowed inside. Yes." At the gate of the college, there are many people who come to register, most of them are students around the age of 20. Compared with them, Lu Yang is 27 years old today, and he is going to be called the uncle. "Uncle, did you come to study at the academy too? You are so old." A girl sighed as she passed by Lu Yang. With a black line on Lu Yang's forehead, looking at the other's small face full of collagen, he silently looked at Lu Zhongyou next to him and said, "Haha, I'm going in." Lu Zhongyou laughed and said, "Always contact me if you have any problems, remember. , If you encounter a problem that cannot be solved, come to us first." "Thank you, I remember." Lu Yang said with a fist to Lu Zhongyou. Lu Zhongyou nodded and drove away. The alliance relationship cannot be established in a day, but can only be formed after the two sides continue to understand, support each other, and finally confirm. "Good earthy posture, the uncle is really from the last century." The girl's voice came again. Lu Yang felt that his small universe was about to explode. He looked at the girl around him who was not too tall and was only over 1.6 meters tall. She had come to the academy to learn spells. This girl was wearing a cool little shirt. But Lu Yang was a person who came through a \*\*\*\* battle. When he saw the clothes on this girl, and he knew that it was transformed by the soft armor of a creature in another world, but it looked like the one on earth. Clothes, in fact, this suit has a very strong defense and ability to resist elemental spells. Lu Yang frowned and asked, "Little girl, who are you." The little girl snorted, ignoring Lu Yang and went straight to school. Lu Yang hit the black line again and came to the school gate, looking at the male and female students registered at the gate,

and said, "I'm here to study." "Lu Yang?" After the girl confirmed Lu Yang's name and relevant documents, pointing to a boy next to him, and said: "Lao Li, you take Lu Yang to the dormitory to rest and tell him the rules here." "Okay." The boy named Lao Li looked like he was about 20 years old, right. Lu Yang said, "Follow me." Lu Yang nodded, and walked into the campus with the other person carrying his luggage. He looked left and right along the way, and found that the campus is not so big, and it can be everywhere. See people who exercise martial arts. The boy said, "My name is Li Ming. That person was the chairman of our student union just now. Remember, uncle, don't mess with her. He is the only person in the school who can't mess with her." Lu Yang smiled and asked, "Why? Is she special?" The boy said mysteriously: "Her background is very strong, and her strength is stronger. She is now an 8th-level inner strength master. At the same time, because she learned spells from us is not the same kind of martial arts, very People who look down on our spell system." Lu Yang asked in surprise: "There are a few genres here." Li Ming said: "There are basically three schools, including the spell system, the internal power system, and the Western melee. Of course, the spell system is currently in decline, because we can fight against mobs. When encountering monsters with strong individual strength, we still need the melee and internal forces to attack." Lu Yang nodded understandingly.

## Chapter 2052 - Enter the college

Shield-like treasures, armor of special materials, and things that can fly in the air completely subverted Lu Yang's previous perceptions. Similarly, the prices marked on them also discourage Lu Yang. Each of the above items can be bought with money, but it must be something called Astral Coin, but he doesn't even know Astral Coin. Lu Zhongyou explained: "Astral Coins are the currency that must be used to connect mechanical planes with other planes. Is she special?” The boy said mysteriously: “Her background is very strong, and her strength is stronger. She is now an 8th-level inner strength master. At the same time, because she learned spells from us is not the same kind of

martial arts, very People who look down on our spell system.” Lu Yang asked in surprise: “There are a few genres here.” Li Ming said: “There are basically three schools, including the spell system, the internal power system, and the Western melee. Of course, the spell system is currently in decline, because we can fight against mobs. When encountering monsters with strong individual strength, we still need the melee and internal forces to attack.” Lu Yang nodded understandingly.

### Chapter 2053 - Lu Yang's anger

The magical spell system's weak melee ability is the most troublesome problem of all legal system professions at present. Only a few people like Lu Yang with super mental power can not be afraid of melee combat and trap the enemy to death with tricks such as the fire snake restraint.

Li Ming explained all the way, led Luyang walking a small circle inside the school, and told Lu Yang where the classroom and practice room were. Finally, they came to the door of a big dormitory building and said, “Room 202 will be you from now on. I have a place to rest. I will go back first. I will give you this watch. When I gather in the afternoon, I will be notified.”

The material and operating principle of the watch were not something on earth at first glance. This made Lu Yang a little curious. After he clicked on it, he found that it contained his own detailed information and student numbers.

came to the room, Lu Yang found that it was not a single room, but a twelve-bed room, and the location was extremely poor, next to the water room.

“Here is another roommate.” A big fat man turned up from the bed with a smile, and came to Lu Yang and said, “Welcome to our 202 bedroom. I didn't expect you to be so old and could be recruited specially. Strength.”

Lu Yang: “.....”

He could see that the person in a room is his oldest, and the oldest person in the other person should be this fat man. He looks like he is about 20 years old, and the rest are about his age.

“Yeah, why come an uncle? It’s really late to discover your potential.” A young man in bed 3 said with a smile.

Lu Yang laughed, walked into the room, and said, “Who knows, just came in inexplicably.”

Li Ming told him about this issue just now. It stands to reason that Lu Yang should be directly assigned to special personnel, because Lu Yang is going to enter the Bronze Temple to increase his level, but Lu Yang’s current level is only 7. Mage, the distance to level 10 is still 3rd, so I threw Lu Yang into the normal advanced class, let Lu Yang follow the training to 10th.

Lu Yang originally wanted to scold this as nonsense, but he really couldn’t refuse. Lu Zhongyou was kind, afraid that Lu Yang wasted this opportunity and entered the Bronze Palace at level 7. It was impossible to have a chance to advance in the past, but they didn’t. Knowing that Lu Yang’s body has been transformed by the blood of God and the guidance of the Blazing Demon God, it is difficult for others to advance, but it is easy for him, but he lacks a lot of magical energy.

According to the opening rules of the Bronze Palace, a group of people can be admitted every six months. Now there are two months left before six months. Lu Yang can only figure out a way to raise his level to level 9 within two months, otherwise he will have to. Stay here.

Lu Yang looked at the surrounding beds. There were a total of twelve beds, 11 of which were already occupied, and the last upper bunk near the window was left unoccupied. He moved to the upper bunk to salute.

During the chat, Lu Yang also gradually got to know the eleven people in the house. They are all the most potential people selected by the Imperial Capital. They have all been on the battlefield. The average strength is around 7 and the highest is 9 Occupation.

However, none of them are qualified to enter the Bronze Hall for cultivation. The Bronze Hall can only be entered by people nominated by the major families. After all, this is something dedicated by the major families, and the students in these colleges are not all from the major families. member.

The fat man who was chatting with Lu Yang just now was called Han Wei, a lightning mage, and the young man who spoke to him was Liu Feng, a water mage. Others were not very familiar with it, but it can be seen that these people are still very familiar with Lu Yang. Very close.

After all, they are all human beings who survived the catastrophe. They are still people who have gained magical energy. Sooner or later, they need to go to the battlefield together, so they are willing to give some kind help to each other.

Han Wei said with a smile: "Brother Lu Yang, it was a coincidence that you came this time. We will have a field training in the afternoon, and we will be living in the field in the near future."

Lu Yang was a little surprised, and said, "It's a coincidence that I came here. I went out again within a day of entering the college."

Liu Feng said: "It's good to be used to it. Starting from becoming a 3rd-level wizard, we have to assist the military in attacking demonized creatures every day, and we can stay in the academy for one day a week, even if we are lucky."

Han Wei said: "Now the imperial capital is peaceful, but this time is the grain harvesting period, the military and the academy are not enough manpower, we need our help to protect the grain producing area."

Lu Yang reacted. He had forgotten about this incident. There was no opportunity to grow food on the East China Sea. There were all demonized creatures outside.

can last for more than a year, all relying on Lu Yang's food saved in advance, enough for all the population of Donghai City to eat for three years.

Although there are preparations for the imperial capital, the current population of the imperial capital is more than 20 million. Even if they have prepared in advance, so many people cannot prepare enough.

"Ding Ding Ding"

Lu Yang and Han Wei's watches made a vibrating sound at the same time. A three-dimensional picture appeared from the watch, with a woman on it, saying: "Please go to the training hall to gather all the mages, warriors and warriors. We will gather in half an hour. set off."

Han Wei sat up, carried a backpack and said, "Go, it's time to upgrade."

People around laughed.

Lu Yang was also amused. In such a cruel living environment, people who are still optimistic and cheerful will always be liked by everyone.

Liu Feng looked at Lu Yang and said, "Except for toiletries, no other preparations are needed. We have food and tents, which are carried by professional personnel. Our mission is to fight and protect them."

Lu Yang understood, this is also a privilege. As professional fighters, they don't need to worry about trivial matters anymore, and said with a smile, "It looks good."

Liu Feng shook his head and said, "I hope you can be so optimistic when you see the situation outside."

Lu Yang laughed and found an ordinary backpack and hung it diagonally on his body, as if he were traveling. In fact, all his things were in the Demon Temple. This messenger bag was used for cover.

The people in the same room are like Lu Yang. After they have cleaned up, they walked out of the dormitory with Han Wei and came to a white house.

"This is the training hall, let's wait here for the leader to come over." Han Wei sat on the edge of the flower bed, looking like he was too lazy to walk.

Lu Yang looked around. At this time, many students had already come over. Suddenly, he saw a group of people approaching, and one of them was familiar.

“You are Lu Yang.” The man stood in front of Lu Yang, his face full of hatred.

Lu Yang frowned and asked, “Who are you.”

“Heh~!” The visitor sneered, staring at Lu Yang with a cold expression and said, “My name is Wang Shijie, Wang Li’s eldest brother.”

Lu Yang’s expression turned cold for an instant, and the flames in his hands burst into flames. Just as Lu Yang launched an attack in the next second, a figure suddenly stood in front of Lu Yang and Wang Shijie, exudes icy air all over.

“Fighting is forbidden on campus, and offenders are expelled.” The visitor said with a cold expression.

Lu Yang stared at this person, and had no intention of disarming the flames. Han Wei and Liu Feng were shocked by Lu Yang’s sudden runaway behavior. They quickly pulled Lu Yang and said, “Big brother, don’t be impulsive. He is the magician Tang. Xiao is also the team leader this time.”

Lu Yang stared at Tang Xiao and said, “Can you speak to me on behalf of the college?”

Tang Xiao’s expression was stagnant, and he asked, “Do you dare to be rude to me? Looking for death.”

The magic power in Lu Yang’s body has suddenly risen to its limit. In the next second, Lu Yang plans to throw a forbidden curse. Even if it is a magister, Lu Yang will not allow him to interfere in killing Wang Shijie.

At this moment, a group of people rushed over, all shocked by Lu Yang’s huge magical energy. One of the middle-aged people saw this scene and quickly said to Lu Yang: “Brother Lu Yang, don’t be impulsive, I Come and talk to you on behalf of the college.”

Lu Yang looked at the middle-aged man and resisted the urge to throw a spell and asked: “Wang Li, Wang Xinpeng and other temple members intend to murder 3 million people in Donghai City. This

matter has been taken into account. Who can tell me now? What does this Wang Shijie mean when he rushes to me and talks to me like this? Revenge the human traitor, or is this Tang Xiao gang with the Wang family?"

Tang Xiao was cold all over. He didn't expect that the person in front of him was Lu Yang. He kicked the iron plate. For a moment, he didn't know what to do.

Others don't know, but they all know what Wang Xinpeng and Wang Li want to do. If it weren't for the Luyang organization, the 3 million people in Donghai City would have died.

#### Chapter 2054 - Head-on collision

head-on conflict Although no one cares about the death of 3 million people in this world, since Lu Yang has saved 3 million people, he is one of the heroes of the entire human world.

Even in the imperial capital, where many heroes are born, even if Tang Xiao has so much power in the imperial capital, in front of Lu Yang, they must put away their arrogance and heroes cannot be humiliated. This is the consensus of everyone!

The middle-aged man wiped his cold sweat and said, "My brother, don't be impulsive. My name is Fu Nian. Is this the dean of the school? Because of the frequent fighting around the imperial capital, the dean and most of the vice deans are fighting outside. A few people staying in the confidential department of the imperial capital can't be cloned, so I'm here to take care of it for the time being. I'm really too busy and neglected you."

Lu Yang did not speak, but stared at this man named Fu Nian. Knowing what Lu Yang meant, Fu Nian said quickly: "Wang Xinpeng and Wang Li, the members of the temple, have been completely convicted for rebelling against humanity. There is nothing to argue with, Wang Shijie They are only collateral relations with Wang Li, they are not involved, and they are on the side of humans."

“As for Tang Xiao.” Fu Nian looked at the other person with a cold expression and cursed: “What are you, now I apologize to Lu Yang immediately. If it is not too short of manpower, I will detain you for 30 days.”

Tang Xiao looked at Fu Nian in shock. At this time, the students and teachers who participated in the operation were already surrounded. If he apologized, there would be no trace of face.

“Me, me?” Tang Xiao’s face flushed, and his heart sank to the bottom.

“I don’t apologize yet.” Fu Nian was furious, and shouted sharply. The energy in his body had already emerged. If Tang Xiao didn’t follow the order, he would not show mercy.

Luyang is too important. If Tang Xiao, Wang Shijie and others become enemies with Lu Yang, the population of 3 million in Donghai City may no longer be under their imperial capital.

It’s okay for these 3 million people to die, but if the collective defected, who would dare to bear the responsibility, so Fu Nian would rather kill Wang Shijie and Tang Xiao now and also stabilize Lu Yang.

Tang Xiao sensed Fu Nian’s murderous intentions for the first time, and reacted instantly in panic. He lowered his head and said to Lu Yang, “Sorry, I was wrong.”

Lu Yang stared at Tang Xiao and said word by word: “Only this time, if something like this happens next time, I will kill you by myself and get out of my sight now.”

Tang Xiao didn’t expect that Lu Yang would not give him any face. He was so angry that he didn’t dare to say a word. He turned and walked into the crowd.

Lu Yang turned his head to look at Wang Shijie, and said to Fu Nian: “Wang Shijie just wanted to seek revenge for Wang Li. He specifically stated that he is the eldest brother Wang Li. How can this be counted?”

Without waiting for Fu Nian to speak, a middle-aged man walked up to Wang Shijie and slammed Wang Shijie on the back of his neck with a heavy punch, knocking him to the ground, and fainted without saying a word.

The middle-aged man looked at Lu Yang and bowed deeply and said, "I'm sorry, I am Wang Shijie's cousin, Wang Jue. Since childhood, Wang Shijie has been in a good relationship with Wang Li, but this is a war between humans and other world gods. Anyone who stands on the opposite side of human They both deserve to die. Wang Li and Wang Xinpeng are more than guilty. I have not disciplined Wang Shijie to apologize to you again. I hope you can forgive his ignorance."

Lu Yang stared at Wang Jue. The strength of this middle-aged man was already at the level of a magister, not much different from Fu Nian's strength. Obviously, the opponent had done everything to the extreme, stunned Wang Shijie and prevented him from being messy. Speaking, and confessing his mistake as a magister, Lu Yang had no reason to be held accountable anymore, after all, the other party just said a word.

Fu Nian accompanied the smiling face and said, "Brother, don't worry about it like this. It's all juniors, it's not worth your fight."

Lu Yang smiled and looked at Fu Nian and said, "Do you know? Donghai has experienced three extinction crises. For the first time, facing the attack of demonized termites and demonized wild bees, the temple flees, and the second time, the temple unites with the Necromancer. The passage was opened at the cost of killing 1 million people in the underground city. If it were not discovered by us, the East China Sea would no longer exist.

The third time the temple enslaved the Hydra Emperor to attack the dungeon and assassinated Lu Tianming and other academy masters who supported the dungeon. To be honest, I don't trust anyone in the temple. I hope you don't let me when arranging this operation. There is anyone around you who has something to do with the temple, you don't want me to kill them, or they have a chance to kill me. "

Fu Nian felt from Lu Yang's strong murderousness that he was really angry, but he secretly sighed inwardly: "Sure enough, it's from a remote area. It's reckless."

smiled on the surface and said, "Okay, okay, make sure to follow your requirements, my brother. I still have no problem with this."

Lu Yang looked at Wang Jue and said, "Take your nephew with you. Next time I will discuss the issue of Wang Li and Wang Xinpeng. I will kill them on the charge of collaborating with them."

Wang Jue smiled, smiling very happily, and said to Lu Yang: "I won't give you this opportunity."

When Fu Nian saw Wang Jue turn and leave, he secretly relieved himself, and said to Lu Yang with a smile: "I originally took you personally. Who would dare to trouble you, just trouble me, yes. I am here, no one dares to move you."

Others can leave it alone. In any case, Lu Yang can't have any problems in this operation. In fact, he doesn't want to send Lu Yang out to fight, but the academy is too short of people.

As long as anyone who can go to the battlefield is sent out, the inside of the academy is extremely empty. If Lu Yang is left here, the ghost knows whether the members of the temple of the imperial capital will quietly assassinate Lu Yang.

The temple was killed in the East China Sea, but more than one Wang Li was killed, and there were five other family members. These five families had a lot of power in the imperial capital itself. Fu Nian received the order from the dean before taking Lu Yang. What was brought out was also a death order from the dean, and Lu Yang's safety must be guaranteed.

Lu Yang originally thought that Fu Nian would arrange him to be led by someone else, but he didn't expect Fu Nian to lead the team himself. This made Lu Yang a little less wary.

The dean of the Imperial College must be a direct subordinate of the dean. It is impossible for such a person to join other organizations, because the dean himself is extremely noble.

"Thanks a lot." Lu Yang hugged Fu Nian, and the incident was over.

Fu Nian breathed a sigh of relief, and said with a smile, "It should be the case."

He looked into the distance, and the car that transported them had arrived. It was a commercial car that could seat 12 people.

Right now, Fu Nian ordered everyone to get in the car. Lu Yang and Han Wei also got on the car, and they were in the first car of the team.

Walking on the road, Han Wei, Liu Feng and others all spoke with Lu Yang with admiring eyes, and everyone gave a thumbs up.

Chapter 2055 - Enter the combat area

“No wonder you are familiar. His name is Lu Yang. It turned out to be the boss of the Jagged Brotherhood.” Han Wei said excitedly.

Liu Feng said excitedly: “It’s a pity that those who killed monsters almost forgot all the previous things this year.”

.....

The people in the car chatted up and down. After more than a year of killing, they are on the verge of life and death every day. Fighting professions like Han Wei and Liu Feng have long since missed their lives.

Now that Lu Yang is mentioned, they are all plunged into memories. Who can imagine that more than a year ago, they were still living a luxurious and lazy life, a year later, if they were not careful, they would be inexplicably monsters. Kill with one blow.

“I miss the past. When I’m not happy, I will travel abroad with a few girlfriends and live an enjoyable life.” said a boy who seemed just 20 years old next to him. This man is very handsome, with a good tone and demeanor. It can be seen that this man was once a rich man.

Han Wei patted this man on the shoulder and said, “Zhang Xu used to be the master of sports cars.”

Zhang Xu sighed and said, "This broken world, although I have wind spells, I prefer to dance in the bar."

Everyone in the car laughed.

A short 20-year-old girl said grimly: "You are poor."

Liu Feng pointed to the girl and said: "The little princess in our team, Jiang Qingqing, is dedicated to saving people. She learns the magic of the Holy Light. Looking at this expression, she has the potential of the Virgin in the future."

“噫”

Jiang Qingqing looked gentle, but a violent woman. Suddenly she took out a magic scepter. The scepter was almost pure gold with precious stones on its front end. The weight was extremely heavy, but the girl slammed Liu Feng on the head. Go up and scolded: "If my mother doesn't clean up you for three days, you will die, right?"

A mirror-like ripple appeared on the top of Liu Feng's head, blocking Jiang Qingqing's attack, and said triumphantly: "Brother is a water system mage, who specializes in blocking damage, I am afraid you will not succeed."

Jiang Qingqing clenched her small fist, and was about to enter a state of rampage in an instant. Lu Yang couldn't help laughing at the sight of them fighting. It seemed that this group of people were all good. The dispute between him and the people in the temple was not only absent. Keeping them away from themselves, on the contrary, pulled into the relationship between them. Obviously, this group of people is not too much to see the people of the temple.

“噫”

Fu Nian opened the door and said helplessly when he saw the situation inside the car: "Liu Feng, you just owe you a punch. It's okay to provoke Jiang Qingqing to do."

Liu Feng was already beaten up by Jiang Qingqing on the seat, shouting: "Teacher, help, Jiang Qingqing is going to murder her husband."

Everyone: "..."

Lu Yang felt that Jiang Qingqing should kill Liu Feng, this guy is too cheap.

Jiang Qingqing was about to run away in an instant, but was stopped by Fu Nian's cough, and said in a deep voice, "Pay attention to the image. This task is not easy. You must be prepared."

"What's wrong?" Jiang Qingqing asked in surprise.

Fu Nian asked the driver to drive, and said: "There is an inexplicable dark tide in the grain-producing areas. The low-level dark creatures have become extremely violent, and their strength has become much stronger. The conventional defense over there can't stand it. We must be careful if we ask us to pass. The number of enemies is unknown and the hiding place is only approximate, which is very troublesome."

Lu Yang frowned and asked the Blazing Demon God: "What is the tide of darkness?"

The Blazing Demon God was also thinking, and said: "Generally, there are three situations in which the tide of darkness appears. The first is the dislocation of time and space, which is connected to the dark plane, and a large amount of dark energy flows in, causing the tide of darkness to occur. This is the emergence of powerful dark creatures. It is the kind of dark creatures that you can't resist. The dark energy emitted from them can evolve low-level dark creatures within a radius of tens of kilometers. If you really encounter powerful dark creatures, You immediately get into the Demon Temple without delay for a second, otherwise your death will happen without you knowing it."

Lu Yang frowned, and said, "If this is the case, it would be too unlucky. What about the third situation?"

The Blazing Demon said: "The third situation is that there are high-level dark attribute treasures. The energy emitted by this kind of thing can also upgrade the surrounding dark creatures, but this probability is lower than the second kind. The artifact is as follows Treasures seldom emit a wave of

darkness of the degree that Fu Nian said. The legendary bone staff you placed in the Demon God Temple can be teleported, which is the limit of the teleportation array, and the bone staff does not have that strength.”

Lu Yang nodded and said, “So you still prefer the second kind, right.”

The Blazing Demon God hummed and said, “It has been a year. The first batch of alien creatures that entered the plane of the earth, many of the new born dragons and other new born demon races similar to the red night, have grown to be difficult for humans. At the height that they can reach, they are probably about to start making chaos.”

Lu Yang’s expression was a little dignified, and he leaned his body on the chair. Now that he had encountered such a thing, it didn’t make sense for him to think about it. It’s better to take a rest and feel more comfortable.

After Fu Nian explained a few sentences, he also began to relax and rest. There was still a 6-hour drive from the imperial capital to the field planting area, and they had enough time to rest.

Han Wei and Liu Feng also rested. After 6 hours, the vehicle started to slow down Lu Yang instantly awake.

One year of fighting has made Lu Yang accustomed to being vigilant. When he slept just now, he had the three-eyed magic flower and the red night guard by his side. Once something abnormal happened, they would defend Lu Yang from the first wave of attacks.

Han Wei and Liu Feng both woke up and looked out the window curiously. They had entered a road leading to the village. On both sides of the road, there were large tracts of corn and rice fields. The two were clearly separated.

There are a large number of drones in the sky that are investigating the downturn and the situation in the rice fields, and there are guards armed with guns around the road.

Right in front of the road is the entrance of the village. A group of people are waiting for their vehicles to arrive. When the car stopped at the entrance of the village, Fu Nian got off the car and exchanged warm greetings with each other.

Liu Feng said: "The one who shook hands with Fu Nian was the highest commander who guarded this area. At least three legions were stationed here."

Jiang Qingqing asked curiously, "What are we supposed to do? There are already so many people."

Liu Feng said: "My family has heard that the monsters of the Dark Tide are too ferocious. Everyone should be careful this time. The life-saving things and skills are ready. This monster is hidden in the cornfield and paddy field. Killed many villagers."

Lu Yang asked, "Do you know what monster it is?"

Liu Feng said: "One kind is the big-eyed monster. It is said that the eyes are very big. It is hidden in the cornfield to attack humans. The eyes will shoot out strange red light. Anyone who is hit is said to have their souls directly shattered."

"Why is there such a weird way of attacking?" Cai Jing, the girl next to Jiang Qingqing, shivered and said.

## Chapter 2056 - Big Eyed

Lu Yang was also a little surprised. It was the first time he heard of monsters attacking by souls. At present, all human beings know that they have souls. If the soul is crushed, this person will still be alive, but just like Foolish. Lu Yang asked the Blazing Demon God: "Are there any specific parameters about the Big Eye Monster?" The Blazing Demon God sighed with emotion, and said, "I still have a vague impression that this monster is the lowest-level race among the dark creatures. I treat them The understanding of is almost 0." Even if I think about it, the once Blazing Demon God is the Flame God King, how could he know the big-eyed monster like an ant to him. Lu Yang shook his head and said, "When everyone is going out, ask about the data of Big Eyes. If you can't ask, we also try to study the data of Big Eyes when we are in battle. Let's do the data. Sharing also provides a specific parameter for people who come here in the future." Jiang Qingqing's eyes lit up and said: "This is a good way. Even if we leave, people who stay here in the future will know about the big-eyed weirdness. Specific data, not

only here, but also at the high school Ministry of Magic, you can also teach in advance.” The high school Ministry of Magic is the base of magic education for mankind, and a large number of children aged 15 to 18 are receiving basic education in magic. Lu Yang glanced at Jiang Qingqing. It was obvious that this girl’s life experience was unusual and ordinary people would not care about this kind of problem. Han Wei and Liu Feng didn’t notice this, but they were very in favor of Lu Yang’s proposal. Originally, these people didn’t care about Lu Yang at first, but Lu Yang’s proposal made them feel that Lu Yang was very smart. They all started talking with Lu Yang, which made Lu Yang know a few more friends, one is Lei Master Yang Hai and the other is Earth Master Lu Hu. “Shall we team up together for a while?” Yang Hai asked Lu Yang, Han Wei and Liu Feng. “Of course it’s good. We can’t ask for you, Master Lei,” Han Wei said excitedly. Jiang Qingqing and Cai Jing said together: “We are still there.” Liu Feng said with a smile: “Welcome.” Just now Fu Nian said that the combat mission will begin tomorrow, and they will rest in peace tonight. They will be assigned to the patrol team among the soldiers early in the morning. Tonight is their only chance to form a team together. Lu Yang thought for a while, and said, “Let’s talk about your strengths and learned skills first, so as not to make mistakes when you cooperate.” Han Wei and Liu Feng agreed with Lu Yang’s proposal, although they both It is a skill learned in the academy, but there are many skills for each type of spell, such as Jiang Qingqing’s Holy Light spell, which not only cures diseases and saves people, but also damages the Lord. In terms of water spells, Liu Feng focuses on defense. The Mirror of Water that defended Jiang Qingqing’s attacks before was one of them. In terms of attack, Liu Feng was not strong enough and had big flaws. The ice type had only four attack skills. . On the contrary, Yang Hai and Liu Feng’s skills are all offensive. He and Liu Feng cooperate seamlessly, and the water system defense can also conduct electricity. Lu Hu’s earth spell is a balance of offense and defense, and Cai Jing’s attack method is a wind type skill, which is also a balance of offense and defense. When Lu Yang arrived, Lu Yang smiled and said, “Attack is the mainstay, and there is almost no defense.” Liu Feng After thinking for a while, he said: “Then you should go with Jiang Qingqing and Cai Jing. Cai Jing’s wind skills can boost the power of your fire spells. Jiang Qingqing is responsible for protecting all of us, but you have the lowest three levels. It’s safer together.” Lu Yang: “...” He was a little speechless, and he was actually despised by Liu Feng. The key point was that Han Wei and Yang Hai agreed with each other, and they were about to express their agreement with helplessness, Jiang Qingqing But first sighed and said, “Okay, I will take them two.” According to the level, Jiang Qingqing is an 8-level holy light mage, and both Lu Yang and Cai Jing are 7-level. Strength, Jiang Qingqing has become the strongest in their group. “Bang” Fu Nian opened the door of the commercial vehicle, looked at Lu Yang, Han Wei and others in the car, and said, “You can choose to sleep in the car tonight, or you can choose to stay in the tent outside. Tomorrow’s wishes, prepare to fight tomorrow morning.” After speaking, Fu Nian closed the door and went to the village with other teachers with the military. Han Wei looked at Fu Nian who was walking away and said with emotion: “This is the most annoying thing every time. The situation is not good at all, it makes people uncomfortable.” Yang Hai said with a smile: “Satisfied, get ready, we are going to explore the way.” Jiang Qingqing looked at Lu Yang and said, “Walk behind me for a while. , I am ready to release the holy light defensive array, which can resist attacks from souls.” Lu Yang laughed, he found that the atmosphere here was good, everyone helped each other, he said to Jiang Qingqing, “I am good at controlling monsters. If you do, don’t worry.” Jiang Qingqing and Cai Jing nodded, and they got out of the car together with Lu Yang. Here they moved their muscles and looked around and found that there was movement in the cornfield, but they were in the village. Under the illumination of the searchlights, no specific monsters could be found. Both Yang Hai and Han Wei are 9-level magicians. Obviously, they are now the two leaders in this team. Among them,

Yang Hai is the Lei Mage, and he is the most noble one because of the number of Lei Mage. Not many, the Thunder is one of the most difficult categories to learn. "Attention, everyone, there are big-eyed monsters appearing outside the village entrance, everyone is easy not to go out of the village." The sentry shouted from the guard tower in the distance, and his searchlight had just swept the big-eyed monster's figure. "Let's go over there." Yang Hai said while looking at the entrance of the village. Lu Yang and the others nodded, and the group walked towards the entrance of the village. Several other teams also walked past. Fu Nian also saw the situation here, but he did not say anything to stop him. They were all mages who had experienced countless battles. There was no need for Fu Nian to tell and protect them. Only when large monsters appeared, Fu Nian and the others These magisters would take action, otherwise, such little monsters would be given to Yang Hai and Han Wei to practice their hands. Lu Yang followed Yang Hai and they walked to the entrance of the village. The road in this village is a T-shaped. The left side is the road into the cornfield, and the right side is the road out of the village. Several wizard teams all walked in the direction of the cornfield. They didn't reach the position of 2 kilometers. They just left the searchlight range. Suddenly, the Blazing Demon God in Lu Yang sent a message, saying, "Be careful, In the ditch on the left side of the road ahead of you, there is a big-eyed monster in ambush." Lu Yang hurriedly walked to the front, motioning Yang Hai and Han Wei to stop, typing on the screen and saying, "There is a big-eyed monster ahead." Yang Hai looked at Lu Yang in surprise and asked, "Apart from Fire Mage, or Perception Mage?" Lu Yang didn't know what Perception was, but now he could only nod his head and said, "Be careful." The whole body skin was turquoise and the head was entirely a monster with huge eyes jumped out, aiming at Yang Hai and shooting a red light.

## Chapter 2057 - 5 Eyes Devil

Latest website: Yang Hai immediately believed Lu Yang's words after he knew that Lu Yang was a perceptual mage. Therefore, his mental power reached its limit and he was ready to fight at any time.

"Leibu"

Yang Hai suddenly turned into a flash of lightning and moved 3 meters to the right to avoid the red light, and then he chanted a spell.

"Kuang Lei"

A purple lightning shot out from the middle of Yang Hai's fingers, hitting the blue-skinned big-eyed monster. In the blink of an eye, the big-eyed monster was electrocuted to the ground.

Yang Hai secretly breathed a sigh of relief. Although with his mental power, even if he was exposed to red light, his soul could not be broken, but the injury was certain, so Yang Hai was still very grateful to Lu Yang.

"Thanks, brother." Yang Hai said seriously, looking at Lu Yang.

"Are you okay." Han Wei and Liu Feng ran over, because what happened just now happened between the electric light and flint. They didn't react. When they did, Yang Hai killed the Big Eye .

Yang Hai shook his head and said, "I'm fine, that should be the big-eyed monster."

Liu Feng and others curiously looked at the monsters that had fallen on the ground not far in front and were electrocuted, and felt a burst of nausea.

Jiang Qingqing said in surprise: "Yang Hai, your strength is stronger, you are about to become a magister."

"Yes, it's amazing." Cai Jing said with some admiration. If she becomes a magister, she can become a teacher in the academy.

Yang Hai was not too proud, but looked at Lu Yang and said, "The best one here is Lu Yang. He is a perceptual mage."

"Perceptual?!" Jiang Qingqing and Liu Feng's eyes looked at Lu Yang changed, and everyone's eyes were full of light.

Lu Yang laughed a little, and said, "What do you think of me, is there any problem with perception?"

“Is there any problem?” Liu Feng said excitedly, “Brother, you have become a national treasure.”

Lu Yang understood a little, and asked, “Are the perception wizards very rare?”

Jiang Qingqing said, “The current number of perceptual wizards is less than 100, and they all work in major organizations. Lu Yang, if you are interested, let’s talk about it.”

Liu Feng raised his eyebrows and said, “Don’t grab it, this is our dormitory, my brother.”

Jiang Qingqing didn’t bother to talk to Liu Feng, still watching Lu Yang with blazing eyes, only waiting for Lu Yang to give them accurate information.

Lu Yang smiled and shook his head, and said: “Sorry everyone, I have my mission. I have no right to choose my life until the 3 million lives in the East China Sea are protected. One day, I will solve the monsters around the East China Sea. I will come back to discuss with you, but now, I can’t help it.”

When Jiang Qingqing, Liu Feng and others heard this, they all sighed helplessly. As Lu Yang said, he did not have the right to choose life. To put it bluntly, Lu Yang did not have the right to choose to escape.

If Lu Yang didn’t return to the East China Sea in this way, if something went wrong in the East China Sea, Lu Yang would be pointed out by thousands of people. Unless Lu Yang was a bastard, normal people could not bear it.

“Well, we don’t force you, but one day if you return to the imperial capital, you must come to me.” Jiang Qingqing entered a phone number into Lu Yang’s mailbox to meet, and said, “This is my personal phone number. If you don’t understand anything, you can also consult me. Our Jiang family still has some strength.”

Liu Feng smiled and gave Lu Yang a call, but he didn’t say much.

Lu Yang smiled at the two and said, “Thank you very much.”

He then said to Tang Hai, Han Wei and others: "Please don't tell me that I am a perception wizard, especially in this place. Once people know, I may be transferred from the team."

Tang Hai looked at the others excitedly and said, "You have also seen Lu Yang's role. Don't tell me if you don't want to die. With him, our mission this time will be easier, and no one will die."

Cai Jing, Jiang Qingqing and others were anxious for Lu Yang to stay, and they shook their heads and promised: "Never say it."

Lu Yang smiled and said, "Thank you very much."

Tang Hai said excitedly: "Brother, I will rely on you next. We will follow you to protect you. Once there is a situation, you will tell us where the enemy is."

Jiang Qingqing immediately ran to Lu Yang, ready to release the Holy Light spell to protect Lu Yang, and on the other side, in Lu Yang's Sea of Consciousness, the Blazing Demon God triumphantly said: "I'm a great trick, let you be the leader. Up."

Lu Yang nodded and asked, "Can I learn?"

Blazing Demon God smiled triumphantly and said: "It's early, wait until you reach the level of Fire Demon."

Lu Yang was a little speechless, so he could only continue to lead the team towards the front. When passing by the corpse of the big-eyed monster, the big-eyed monster was a naked monster with nothing to obtain, which made Lu Yang and Tang Hai, they all feel this thing is too tasteless.

When Lu Yang walked forward, on the other side, no one noticed that the people on the side of the temple were gathering in a dark woodland.

A middle-aged man stared at Wang Shijie with dark eyes, and suddenly slapped Wang Shijie with his skill, and cursed: "Idiot, we almost ruined our overall plan today."

Wang Shijie knelt on one knee and said in horror: "I know I was wrong, please forgive me."

The middle-aged man said in a cold voice: "Go back to your affairs and have a divine envoy to judge. Now what you have to do is to do your best to make up for your faults, otherwise, you will not escape death."

Wang Shijie's cold sweat has come down, kept kowtow begging for mercy, but unfortunately, the middle-aged man was unmoved. After kicking Wang Shijie with one foot, he looked at other temple members and said: "Our goal this time is to encircle and wipe out the vitality of the academy, and the teacher team. They, mankind will have to withdraw more mages from the front line to protect the food production areas. This is the top priority."

Everyone nodded to express their understanding.

The middle-aged man went on to say: "As for Lu Yang, no one is allowed to stun them. I will catch them all on the last day."

Everyone showed a sneer.

Who could have imagined that the members of this group of apparently loyal to humans were actually brainwashed by the alien gods. They were still helping the alien gods, and humans had become ants and other species in their eyes.

An old man used the wand as a crutch and asked, "Now that the spiked demon is all there, the five-eyed demon is recovering from the Philosopher's Stone. Don't expose anything."

"Hey, after the five-eyed devil regains his strength, these people will all have to die." The middle-aged man said with a sneer.

## Chapter 2058 - Big conspiracy

Latest website: The so-called five-eyed monster is the king of big-eyed monsters. He has five eyes and is much taller than ordinary big-eyed monsters.

In the monster system of another world, the big-eyed monsters are not powerful monsters, and their juvenile body and adult body strength are not too different.

The main reason why alien gods put them here is that these members of the temple, like lasers in laser guided weapons, accurately report the weaknesses of all defense areas in the imperial capital.

In the current battle around the imperial capital, all the main forces are on the west and south sides of the imperial capital to resist attacks from demonized animals and creatures of other worlds. The fighting between the two sides is very fierce.

Human beings not only have magicians, but also internal power masters and hot weapons. In the current battle, the imperial capital has a great advantage. The first wave of creatures sent out by the gods of different worlds is defeated in this way, and the temple is required to find a way to solve.

Many members of the temple came up with this trick to use the big-eyed monsters, which are level 1 alien creatures, to trick the emperor and the academy into despising them, and send out the new generation of the academy and some teachers.

Although the big-eyed monster is a level 1 alien creature, the five-eyed demon is only classified as one of the more powerful existences among the level 1 alien creatures, but in fact the five-eyed demon is extremely powerful, and all of their five eyes have red beams. After gathering in the middle eye, the purple light that hits out can crush the soul of a magister below level 5.

Fu Nian is only a Level 3 Magister. There are more than 20 college teachers and 400 students who follow him. In other words, these people have no problem defending against ordinary spiked monsters and big-eyed monsters. They can face five In the words of the Beholder, a purple light can kill an academy master, including Fu Nian, who are all killed by a spike, so they have such a three-day plan.

As for Lu Yang, after three days, the Five-Eyed Demon regained his vision, and the members of the temple naturally avenged their relatives through the Five-Eyed Demon.

It is a pity that the members of the temple did not expect that Lu Yang had the Blazing Demon God in his body, so when Lu Yang was leading Yang Hai and the others to walk forward, the Blazing Demon God sensed the breath of the Five-Eyed Demon King.

“Lu Yang, don’t go forward, stop immediately.” The Blazing Demon God’s voice was extremely serious.

Lu Yang stopped immediately and asked, “What’s wrong?”

The Blazing Demon God said excitedly: “Why did I forget this \*\*\*\* thing? I didn’t think the otherworld gods actually sent this thing over. You immediately return to the camp. You will bring Fu Nian and the others over tomorrow morning. Fu Nian is here, if he is shot, he will definitely die.”

Lu Yang signaled the Blazing Demon God not to worry. He said to Yang Hai, Han Wei and others who looked at him curiously behind him: “We will explore this place today, and we will return the same way.”

“I haven’t killed myself yet, this is just the beginning.” Liu Feng said with high morale.

Lu Yang gave him a look and said, “We will go back immediately, and I am right.”

Liu Feng blinked. No one who could survive the end of the day to this day is an idiot. He quickly realized that there was a problem with Lu Yang’s words, and quickly said, “Lu Yang is the boss, I resolutely obey the orders.”

Jiang Qingqing, Cai Jing and the others also reacted, stopped speaking, and followed Lu Yang on the way back.

on the way.

Without a word, Lu Yang asked the Blazing Demon God secretly, "Tell me, what kind of creature it is that makes you so serious."

Even when he encountered Red Night, Blazing Demon God was never so excited. Obviously, things were not easy this time.

The Blazing Demon said: "You are in trouble, the big-eyed monsters are inconspicuous, but their king is called the five-eyed demon. The light from this thing is very powerful. If a dragon like Hongye is hit, it will immediately Death, if your Magister is ranked according to the level, I am afraid that anyone below level 5 will be killed in seconds."

Lu Yang slapped a spirit and said, "Then \*\*\*\* him."

The Blazing Demon said: "It's easy to kill him. Attacking from a long distance, never get close. Remember, the adult body of the five-eyed demon has an attack range of 100 meters. Maybe you didn't see him. His purple light, it has already shattered your soul."

Lu Yang originally thought it was a very relaxing trip, but he didn't expect to encounter an alien monster that was more terrifying than any creature he had seen before. He asked, "Can you resist it?"

The Blazing Demon said: "Of course my soul can resist, but you don't die. I am the Blazing Demon. I don't want to lose such a big person. If it is another way of death, I can find the Death God and treat you. I come back from the resurrection, but if the soul is shattered, I can't do anything about it, so you must be careful, and when you are in danger, quickly exchange souls with me."

Lu Yang smiled and said, "Thank you very much."

"Hehe." The Blazing Demon God laughed irritably, and said: "It's not that you are too weak. If you are strong enough and have one-tenth the ability of my previous life, what five-eyed demon king will kill with one punch. Up."

Lu Yang rolled his eyes and said, "I have only cultivated for a year, OK, how can I have that strength?"

“That’s right, human beings are too weak.” The Blazing Demon God didn’t bother to pay attention to Lu Yang, and went into deep dormancy.

Lu Yang led the team to move forward. After returning to the searchlight at the entrance of the village, he heaved a sigh of relief. He looked back at Yang Hai and Han Wei and said, “No one is allowed to say what we encountered tonight.”

“What happened just now? It made you so scared?” Han Wei asked.

Lu Yang said: “We almost died just now, don’t ask why, when I will report to Fu Nian early tomorrow morning, you will just be there and listen.”

Liu Feng and Jiang Qingqing looked at each other. Lu Yang used his perception ability to lock the big eye monsters in advance every time along the way. There was no mistake. Since Lu Yang said there was something in front of them that could kill them, then It must be true.

Now Lu Yang’s position in their team is different. Lu Yang has become the leader of their team. Everyone obeyed Lu Yang’s orders. Since Lu Yang would not let him talk, they would naturally not talk too much.

Who would be willing to provoke a perceptual mage in the team? It was too late for them to flatter themselves. For a moment, Yang Hai and Han Wei both nodded and followed Lu Yang back to the car.

Eleven of them, including Liu Feng and Han Wei, went to live in the tent. Lu Yang, Yang Hai and a few others put down the back of the seat in the car and slept on the chair.

Jiang Qingqing and Cai Jing also stayed in the car. They didn’t go to bed right away, but both sneaked a glance at Lu Yang. They wanted to know whether Lu Yang became a perceiving mage by his own ability, or what he relied on.

Chapter 2059 - Additional effects of spells

Latest website: When Lu Yang is sleeping here, the Blazing Demon will naturally take over his body and pay attention to the surrounding situation at any time. At this time, the Blazing Demon is putting his

mind outside, centered on a commercial vehicle, within 100 meters. The situation can't escape his perception.

The small movements of Jiang Qingqing and Cai Jing were naturally well known by the Blazing Demon God. The Blazing Demon God became very playful, turned his head and looked at Jiang Qingqing and Cai Jing and said: "Two beautiful women, to this handsome guy Are there any ideas that are not made?"

Jiang Qingqing and Cai Jing only felt embarrassed because they were discovered by Lu Yang. Instead, they each had their own chests and said proudly, "I have an idea, do you dare to come?"

Blazing Demon: "..."

In the position of the Blazing Demon God, in his almost eternal life, he governs everything in the world with the majesty of a \*\*\*\* king, everyone is trembling in front of him, and every movement is so elegant and regular, even the goddess , In front of the Blazing Demon God must also be extremely humble and respectful.

Girls like Jiang Qingqing and Cai Jing let the Blazing Demon directly retreat. He found that he was incompatible with this world and could not adapt to the style of the women here. Therefore, the Blazing Demon rolled his eyes and turned his head to sleep.

Jiang Qingqing and Cai Jing covered their mouths and snickered, glanced at each other, and each fell asleep. When Lu Yang woke up the next morning, the Blazing Demon God recounted what happened last night. .

"You women here..." Blazing Demon God said silently, "It really leaves the old man speechless."

Lu Yang smiled secretly and said, "Before the invasion of another world, women in this world had already stood up, no weaker than any man. Men are not opponents when talking to them about this topic."

Blazing Demon: "..."

When Lu Yang got out of the car, he happened to see Liu Feng and said, "Get some water, I want to wash."

Liu Feng looked at Lu Yang with a crooked look, then looked at the group of people in front of him, and cursed excitedly: "I am a water magician, level 9 and I am not a water pipe."

"I know you are a 9th-level mage." Han Wei patted Liu Feng on the shoulder and said, "Come on, get some water for brother."

"That's right, hurry up, there is no electricity here, and you have to rely on well water to fetch water, which is the most convenient for you." Yang Hai said.

The people around nodded.

Liu Feng's speechless face was finally reduced to a water pipe helplessly, constantly making clean water. Everyone washed their faces and brushed their teeth in front of him.

"You get another mirror, I will look at the hairstyle." Han Wei said.

Liu Feng was already on the verge of rampaging, and he squeezed his fist and cursed: "Don't go too far, believe it or not, I drown you with a sip."

Han Wei smiled and ran away.

Lu Yang found an iron basin to collect water, and then a small flame sprang out from his right hand, heating the water in the basin before washing.

Seeing Lu Yang's behavior, the surrounding people handed the iron basin in their hands to the front, causing Liu Feng to laugh and say, "Brother, I am very pleased that you can come with me."

Lu Yang laughed and lit a flame under everyone's water basin. The members of the other teams around saw this scene, and they all followed suit.

Fu Nian was attracted by the situation on Lu Yang's side, and came over with the basin, and said with a smile, "It's not bad, you can cooperate with each other, I am very satisfied."

Lu Yang waited for Fu Nian to come over, gave Fu Nian a look, and walked into the car. Fu Nian reacted extremely quickly, pretending not to notice, and continued to wash. After he finished washing, he went into the commercial car. .

"What is it for me? So mysterious?" Fu Nian asked.

Lu Yang said: "Last night we explored the outside of the village and killed a lot of big-eyed monsters. When we continued to move forward, I felt extremely terrifying power. I suspect that there are not only big-eyed monsters but also big-eyed monsters here. The king."

Fu Nian had never seen what the king of Big Eyes looked like, but he grasped a core question and looked at Lu Yang in shock and asked: "What do you mean by what you perceive? Do you have the ability to perceive?"

After weighing the pros and cons, Lu Yang decided to tell Fu Nian about his ability to perceive. After all, this matter could not be concealed. Since Jiang Qingqing and the others will expose it sooner or later, it is better to find a good backer.

Fu Nian is a member of the Dean's group. He has already received definite news from Lu Zhongyou. He is alone in the Imperial City. If there is a conflict with the temple, it is the Dean of the Academy who can really help him.

Lu Yang said, "Yes, I do have the ability to perceive. I can perceive whether there is an enemy within 100 meters, and I can also feel the strength of the enemy."

Fu Nian's eyes were green, and he grabbed Lu Yang's two shoulders and said excitedly: "Brother, you can let me pick up the treasure today, do you know? Sensing mage is so rare among humans."

Lu Yang had already learned about the perception of the mage from Liu Feng and Han Wei, and said with a smile: "Thank you to help me with this. I don't want too many people to know. I will return to the East China Sea first. of."

Fu Nian said, "The fool told me about you. The Perception Mage is not only a national but also a treasure of every big family. It's too late to hide it by yourself."

"Don't worry, brother, I won't say anything about it. If you have anything in the future, you can find me as much as you can. As long as I can help, I will help you solve it." Fu Nian said excitedly.

If you want to win over the Sensing Master, Dean Fu Longxing has to go out in person. He can't give too many promises, so now he can only develop a good personal relationship with Lu Yang.

Lu Yang knew what Fu Nian meant. He was very happy to have a good relationship with a family like the Fu family in the imperial capital. After all, there were many people and great power.

"Thank you, if you are in trouble, please don't think I'm annoying." Lu Yang smiled and said to Fu Nian.

"No, no, your business in the future will be mine." Fu Nian said with a smile.

Lu Yang said: "Now there is a trouble. The big-eyed monster I perceive is stronger than 100 ordinary big-eyed monsters. I suspect that he is the king of big-eyed monsters. I'm afraid you won't be able to resist an attack."

"Is that strong?" Fu Nian was a little surprised, and asked, "Isn't it possible?"

Lu Yang said, "My purpose of looking for you today is to confirm. Let's get rid of this big-eyed monster first. In addition, I still doubt the people from the temple. Don't let them follow. We go by ourselves."

Fu Nian said, "This is no problem. There are 2 people who are Level 3 Magisters like me, and there are 11 people who are Level 2 Magisters. I will call them all over, let's take a look."

Lu Yang said, "Let's go now, don't let him run, or change places."

Fu Nian nodded, got out of the car and went to find someone.

## Chapter 2060 - The chaotic human world

Latest website: When halfway down the road, Fu Nian also felt that something was wrong. If it was really like Lu Yang said, there is a very powerful big-eyed monster king here. Fu Nian's first feeling is , They were calculated.

Although they had never competed with the king of the Big Eye Monster before, Fu Nian had sufficient combat experience in the battle with many monsters on the border of the imperial capital. He had seen various monsters in different worlds.

These monsters in different worlds are of average strength, but whoever becomes the king of a certain alien group of monsters will have a substantial increase in strength, and there are even top spells handed down by the gods of other worlds.

Many families in the country know the skills of soul search, and they discovered these secrets after searching for the soul of creatures in the different world.

There are also such spells abroad. Because of this cataclysm, the whole world has united to deal with this incident. Therefore, unless it is top secret content, most of the things are interoperable, and everyone knows more.

Coupled with the guidance of the old gods who evaded this world, Fu Nian and the others clearly knew how strong the fighting power of the patriarchs who were passed down by the gods of another world was after they grew up.

But the military method personnel who passed the news here before, sent a message that there were no patriarch-level creatures here after their inspection, but ordinary big-eyed monsters were flooding, which made Fu Nian no longer trust the military here. The magic staff, let alone the temple members who followed.

Because the members of the magic system here are all quick personnel of the temple system, if there is a problem, the eight achievements are something wrong with the temple.

Now the old gods have disappeared from this world. Through the game "Second World", the general situation of the different world is told to humans, and after teaching the spells, the old gods disappeared.

In fact, the human world is also to blame. The alien gods have been negotiating with the human world. If the human world is willing to hand over the old gods, they will do their best to close the warped time and space.

According to the words of the alien gods, this distorted time and space was not entirely made by them. They sent people just to find the old gods. They also regretted the current situation. They are willing to do their best to help block all the distorted time and space, but the condition is The human world surrenders the old gods.

If the conditions are met, they will not only stop sending alien creatures over, but also teach all the magic of the human world, but the human world does not trust them on the one hand, and on the other hand is eager for magical energy.

This energy can make them live forever, and it can also make them possess supreme power. Therefore, the temple can always exist in the human world. As for the old gods, after experiencing countless sneak attacks, they also understand the nature of the human world. All of them are hidden, which has caused this embarrassing situation.

But with the passage of time, now there are not only foreign gods on the earth, but also found here by the mechanical plane, and also by the Zerg.

The invasion of the Zerg race is the most terrifying. The main enemy of the imperial capital now is the Zerg race, and the arrival of the mechanical plane has also told the human world how huge the intelligent race in the universe is.

The natural desire of human beings gives them the motivation to continuously learn and the idea of conquering the world. Therefore, all aspects are now in a delicate balance.

But if this is a conspiracy, a patriarch in the big-eyed monster sneaks on them and kills the students and teachers of their academy factions, forcing the front line to withdraw a large number of masters, and the enemy takes this opportunity to burn the food and then sneak attacks on the withdrawn masters. , The imperial capital is in danger.

Fu Nian is the leader of the team this time. If such a situation really happens and the imperial capital is in danger, even if he escapes, he will be severely punished and will become a sinner of mankind. When he thinks of these bad things, he He frowned.

When he was thinking about these things and walking back to the camp, he happened to see that the people on the side of the temple had already assembled.

The headed old man was named Tao Yushan. He smiled at Fu Nian and said, "Old Fu, how come his face is so bad, what happened to him?"

Fu Nian smiled and said pretentiously: "Isn't this worrying about the frontline things, I really want to quickly end this side of things to reinforce the frontline, the Zerg over there is terrible."

Tao Yushan also showed a worried expression and said, "Isn't it? I don't know how these bugs found our world. They can't kill them no matter how they are done. It's too bad."

Fu Nian sighed again and said, "I'm going to gather people first. You take some people to the east, and I take some people to the west. Try not to damage the food. It's too difficult."

Tao Yushan nodded, watching Fu Nian walk away, with a sneer expression on his face, and said, "Let's go, go to the west."

Dozens of people followed Tao Yushan and walked towards the west. Originally, he wanted to come to the west. All the spiked demons were hiding here.

On the other side, Fu Nian also returned to the camp. The members of the academy had already assembled and were about to assemble at the motorcade at the entrance of the village. Seeing Fu Nian, all the magic teachers came over.

Fu Nian gave them a look, pretended to explain a few words, and led these people to the motorcade. When halfway through, Fu Nian called all the magisters together. There were seven in total.

Fu Nian pointed to Lu Yang and said, "You and I will follow him for a while."

"What's the matter?" a 3rd-level magister of the earth element asked.

Fu Nian frowned and said, "Everyone, be careful. Last night, Lu Yang seemed to ran into the patriarch of the Big Eyed Clan."

"What?" The seven people frowned. They all knew what the patriarch-level creatures meant.

"Are you sure?" asked a Level 3 Magister of the Thunder System next to him.

Fu Nian didn't let Lu Yang be exposed, and said, "What he saw with his own eyes was just too far away."

The seven magisters frowned, and a fire-type 2nd-level magister said: "We must kill him, but everyone be careful. The big-eyed monster specializes in beating human souls. This big-eyed monster king is afraid to fight The human soul is more powerful. Although our magician's soul is very strong, it is still a bit behind the big-eyed monster. Try not to get hit."

A holy light magister said with a smile: "Everyone, be careful, if you are beaten into fools, my holy light will not be able to save you."

The seven people laughed. They are all people who have experienced countless lives and deaths. They didn't care about it a long time ago, but they were worried about the safety of the students.

"What do the students do? If you go to patrol so normally today, you may be attacked." The magician of the water system asked.

Fu Nian said: "We go in first to find, if we can't find it, we would rather not let the students in today."

The seven people nodded, and the Thunder Mage said, "It's safe to do this."

"It shouldn't be too late, let's go, just want to see what the king of the big-eyed monster looks like." The fire mage said with a flame in his hand.

Lu Yang smiled when he looked at the seven of them, feeling a little moved. Obviously, these talents are the elites of the human world, and they are people who really fight for this race.

"I will take you there." Lu Yang led them towards the entrance of the village.
