

Wild Fire 2061

## Chapter 2061 - 5 Eyes Demon Appears

The latest website: "Let's go too." Jiang Qingqing, Cai Jing and others said.

Lu Yang shook his head and said, "Don't go, wait for me to come back with peace of mind, it's too dangerous."

Fu Nian said calmly: "Your mission today is to stay in the camp for defense, and none of you are allowed to go out."

Yang Hai and Jiang Qingqing were still a little unconvinced, but Fu Nian spoke in person, and they could only settle down and stay in the camp.

"Let's go." Fu Nian said to Lu Yang.

Lu Yang waved at them, leading Fu Nian and the others quickly to the small bridge position they arrived yesterday. The big-eyed monsters along the way didn't need Lu Yang to attack. Fu Nian and the magisters waved their hands and played magic. The Big Eye is killed.

This made Lu Yang see clearly that a mage at the level of magister can also cast most of the spells instantaneously, and the fact that he can cast spells instantaneously is not so conspicuous.

Soon, the group of people came to a stone bridge. Lu Yang felt the aura in and around him last night. He said to Fu Nian: "Cover for me, I'll look for it."

When he arrived at this place, Fu Nian didn't dare to be careless, and said to the other seven instructors: "Everyone spread out, a little farther away from the corn field, the red light speed is too fast, you must be hit."

The seven people knew the depth and the speed of the red light was almost the speed of light. Everyone took out the treasure of the bodyguard, all of them resisted the attack of the soul.

Lu Yang stood there and asked Blazing Demon God: "Did you find it?"

The Blazing Demon God frowned and said: "It should be a change of place. I can't feel the breath anymore. Try to look northeast. I can feel that there is a distorted time and space there, which is the source of the appearance of Big Eyed Monster."

Lu Yang nodded, and said to Fu Nian beside him, "To the northeast."

Fu Nian looked to the northeast with a tricky expression and said, "We can't go to meet in the cornfield. Once we are attacked, we don't even have a chance to react."

Lu Yang smiled and said, "Trust me, with me, you won't be attacked."

Fu Nian pondered for a long time and said, "Well, let's go in."

He didn't want to expose that Lu Yang was a perception mage, but the seven brothers behind him decided to stay with him desperately. He was too embarrassed to hide anything, and said: "We go in with Lu Yang, he is a perception mage."

The seven people looked at Lu Yang in surprise, all showing the expressions of seeing the baby. The headed man with a hairy face patted Lu Yang on the shoulder and said, "Brother, how about teaming up with my brothers later, my name is Fang Lei, level 3. The Earth Magister."

"What's so good about your team? Team up with us. My name is Lei Ming, Level 3 Thunder Magister." said a thin and tall man.

Fu Nian looked at the seven of them crookedly, and cursed: "Fuck off, Lu Yang is the key cultivation target of the academy. Don't worry about your treasure hunting squads. I will go to the dean when I go back. If the task is not urgent, I will let you know this Something?"

This time it was the turn of Fang Lei and Lei Ming to show greasy and crooked expressions. Fang Lei complained: "Old Fu, you just can't afford it. You can just use the dean and the academy to suppress people. If you have the ability to let Lu Yang chooses himself."

Fu Nian happily said, "Stop talking nonsense to me. The news is hidden. Don't talk nonsense. The fewer people you know, the less things will happen to Lu Yang. When you ask him for help in the future, he will pay It's really possible to be idle."

Fang Lei and Lei Ming sighed and knew that it was impossible to \*\*\*\* someone from Fu Nian, but they all agreed with Fu Nian's words.

"Don't worry, brother, we will never talk about your secrets, that is, when we ask you for help in the future, we must give face to the brothers." Fang Lei said almost flatteringly.

If you think about it, you can understand that even a third-level magician like Fang Lei, when he goes out, doesn't know if there are any enemies in places that he can't see. If there is a perception magician by his side, the meaning is different, so , Lu Yang is a necessity wherever he goes.

The same was true for Lei Ming and the others. They didn't care much about Lu Yang before, but now they are all communicating with Lu Yang.

Lu Yang's purpose in coming to the imperial capital this time is to enter the Bronze Palace to improve his strength, and to make some friends. He wants to defend the East China Sea. In the future, he will find these people for help. One more friend and one more strength are good after all. .

"Don't worry, if you find me in the future, I will definitely help if I have time." Lu Yang held his fist and promised Fang Lei and the others.

“That’s good, that’s good, you will come to us whenever you have something to do in the future, don’t dare to say anything else, the temple will trouble you again, we will help you beat him.” Fang Lei said with a smile.

Lei Ming and the others nodded together. Obviously, they also have no good feelings for the temple. This is easy to understand. Their practice route is taught by the old gods through the “Second World” game. They increase their strength by expanding the soul sea and rely on the temple. The power of belief is completely different, so no one on either side looks down upon each other.

This is like the right way and the magic sect. The magic sect exercises take shortcuts and increase the speed quickly. The bright road of the right way requires continuous consolidation of the foundation, which is much slower.

Fu Nian said, “Let’s go in, I’ll start, Lu Yang is behind me, you are on the left and right sides of me, let’s protect Lu Yang, he is fine, we are fine.”

Fang Lei said, “That’s it, I’ll go to the left to start.”

Lei Ming said: “I’m leading on the right.”

The three of them approached the cornfield at a distance of 2 meters. Lu Yang stood behind Fu Nian and directed the direction.

In the cornfield, the cyan corn stalks are more than 2 meters high. When you walk in, you follow the dense forest. You can’t see the people on the left and right sides. However, through the Blazing Demon God, Lu Yang can perceive their situation and can even better know the situation within 100 meters.

Most of the big-eyed monsters were hidden in the cornfield. After spotting Lu Yang and his party, they wanted to ambush halfway, but under Lu Yang’s perception, Fu Nian and the others easily ambush everything in front and left and right. Fang Lei and Fu Nian were extremely excited when the Big Eye Monster on the side road was killed.

“Hey, it’s not so cool in the war, no wonder you have to perceive the mage, it’s so enjoyable.” Fang Lei said excitedly.

Lu Yang laughed, but suddenly, the Blazing Demon God sent a reminder and said, "That powerful aura has appeared again. Maybe you killed too many big-eyed monsters and their patriarch can't sit still."

"Where?" Lu Yang asked.

"At 11 o'clock, I am approaching quickly." Blazing Demon God said.

Lu Yang hurriedly looked at Fu Nian and said, "Quickly prepare, their patriarch is here, and a clearing is cleared in the direction of 11 o'clock."

"Burst Flame"

The fire mage Jiang Yu in the team suddenly chanted a spell, and the cornfield within 100 meters in front was instantly burned to ashes by flames. At the same time, a giant eye with a height of more than 3 meters, a gray-green body and five eyes Guai finally revealed his true body.

"Roar~!"

The big-eyed monster not only has five huge eyes, but also a huge mouth. The five eyes are grown on five tree-like green skins, and it looks like there are five arms holding five eyes. , Very weird.

"Humans, you all deserve to die." The five-eyed demon even uttered a word, and the five eyes glowed red at the same time, and finally converged on the middle eyes together and shot towards Jiang Yu.

Jiang Yu had just released the spell, the energy in his body surged, and he was hit by a red light in an instant. He fell to the ground and his eyes were scattered. Obviously, his soul was crushed.

“Humans, you are so vulnerable.” The Five-Eyed Demon laughed, aiming at Fang Lei and shooting a second red light.

Fang Lei is an Earth-type mage with the slowest speed. At first, everyone thought that the red light speed of the Five-Eyed Demon was the same as other big-eyed monsters, but they did not expect that the red light speed of the Five-Eyed Demon was twice as fast as the big-eyed monsters. Can't avoid it.

Just as the light was about to hit Fang Lei, a golden light suddenly blocked Jiang Yu's front. It turned out that Fu Nian didn't know when a magic pestle appeared in Fu Nian's hand, and the golden light emitted was blocking everyone. In front of him, resisting this soul attack, but Jiang Mochu became a lot dim because of this.

“Everyone, attack quickly, my lowering the magic pestle won't be able to stop it for too long.” Fu Nian said anxiously, he was casting a spell on the lowering the magic pestle, and the light of the falling magic pestle was converted from his magic power.

Fang Lei and Lei Ming seem to have cooperated with Fu Nian, knowing that Fu Nian has a treasure, and the appearance of the five-eyed demon is already condensing magic in the body.

“Triple Gravity”

“Lei Guangbo”

Within 50 meters of the Five-Eyed Devil, the gravity suddenly increased tenfold. The Five-Eyed Devil's back was bent a little, and his eyes became protruding a lot.

Suddenly, the speed of the Five-Eyed Demon became much slower, but at this time a purple thunder light hit the Five-Eyed Demon's green skin, and immediately paralyzed him in place.

An ice mage and a wind mage in the “Ice Storm” team are twin brothers. The two chanted spells at the same time, and an extremely cold storm ice-sealed the body of the five-eyed demon.

Just when everyone thought that the Five-Eyed Demon could no longer move, no one thought that the Five-Eyed Demon suddenly broke free of all restraints, jumped out of the gravity field in an instant, and came to a place 50 meters away to the east, where the five eyes condensed again. Red rays.

“Boom”

Another red light hit the golden light emitted by Jiang Mo pestle, and the golden light was lightened by one point.

Fu Nian said excitedly: “Think of a way, Jiang Mochu can support at most three red light attacks.”

Lei Ming said excitedly: “Find a way to control him for a few seconds. Our big move needs time to prepare.”

Fang Lei gritted his teeth when he saw this scene and cursed: “I will try, Master Feng will speed up for me.”

The wind system mage among the twin brothers chanted a spell, and Fang Lei’s whole body suddenly became a lot easier, and he suddenly rushed towards the five-eyed demon 50 meters away.

After the five-eyed demon’s blow, he was condensing his next attack. When someone dared to rush out, all five eyes showed a mocking look.

“Human, your strength is too weak.” The Five-Eyed Demon shot a red light at Fang Lei contemptuously.

Just when Lu Yang and the others thought Fang Lei would die, a black jade pendant appeared in front of Fang Lei, which burst open with a bang, blocking the red light. At the same time, Fang Lei also came to the front of the Five Eyes Demon King. .

### “Ironization-Spiked Punch”

Fang Lei’s left arm turned into steel at a speed visible to the naked eye, and a sharp iron thorn was formed on the front of his arm.

There was a roar that humans had never heard before, and one eye of the Five-Eyed Demon was stabbed blind by Fang Lei. At the same time, Fang Lei was also caught by the Five-Eyed Demon. His other four At the same time, his eyes fixed on Fang Lei’s body, and the red light appeared again.

“Hey, what happened to the creatures in the different world? I stabbed them blindly. What do they pretend to be humans? You have to die as many as you come.” Fang Lei knew that he was going to die, most of his body entered a state of iron, and tried his best Delay the time of the Five Eyes Demon.

The Five-Eyed Demon’s pain was so painful that the gathering power of his other four eyes became laborious, but even so, his other four eyes still gathered the red light on the middle eye.

Just when Fang Lei was about to be hit by the red light, Jiang Mochu suddenly appeared in front of Fang Lei, but a mocking expression appeared on the face of the Five-Eyed Demon King. His four eyes suddenly looked up, and a ray of light turned into four. Tao, hit the four Magisters on both sides of Fu Nian at the same time.

The four magicians who were immediately accumulating their power to release their ultimate move fell to the ground and their souls were shattered. A total of 9 people came, and 5 of them were severely injured in an instant.

Except for Lu Yang, there were only 4 people who were the magician, but Fu Nian wanted to release the magic pestle. Fang Lei was in the opponent’s hands, leaving only one Lei Ming and one water mage Li Bing.

“Can’t continue to accumulate energy.” Lei Ming reacted quickly, stopped the accumulation of the strongest trick, and replaced it with a second-level spell. Taking advantage of the lowering of the magic pestle to protect Fang Lei, he released the skill.

### “Sky Thunder”

A purple thunder and lightning with thick arms suddenly went downstairs from the air, but when everyone thought that the Five-Eyed Demon would be hit, no one could have imagined that the Five-Eyed Demon actually lifted Fang Lei over his head to suppress the devil. His protection resisted this move.

“puff”

Fu Nian’s magic power was consumed in an instant, and a mouthful of blood spurted out under his mental power. Fang Lei was also stunned, but the Five Eyes Demon was nothing.

Fu Nian and the others were dumbfounded. From fighting in another world to today, all the monsters they encountered in another world were of low IQ, and no creature in another world could perform actions like a five-eyed demon.

“Unexpectedly, human.” With a cruel smile on the corners of the five-eyed devil’s mouth, he threw Fang Lei to the ground. They walked over to Lu Yang five steps, and said, “From now on, like me. There will be more and more creatures in different worlds with high intelligence, and your end is here.”

He could sense that among the few remaining people, Lei Ming had no ability to attack. He just released a high-level spell, and his body needs to rest for a few seconds. Only one ice mage can release the spell, but how can he? May be hit by the Ice Master.

The ice magister Li Bing was also dumbfounded. Facing the approaching step by step, he gritted his teeth and stared at the Five-Eyed Demon King and said: “A creature in another world, don’t underestimate the determination of human beings, Fang Lei kills. If you don’t die, maybe I can’t kill you either, but we are determined to die with you, Lu Yang, take Lei Ming and Fu Nian to run, see my brother, I played a blew up today, the ice mage’s blew up, but it’s more than the fire mage. Be cruel.”

There was no sadness in Li Bing’s words, and they were full of calmness. Obviously, he had made the determination to die since he came here.

Since ancient times, Yanzhao has been a generous and tragic man. Lu Yang has seen it today. He originally thought that he was the only one who was ready to die at any time. He did not expect to see so many like-minded people today. He knew that he would never leave. , But to fight with Li Bing and

the others to the end, because the five-eyed demon is not without weakness, he has already found the weakness of this big-eyed monster.

“Brother Bing, let’s die together, it’s up to me.” Lu Yang finished accumulating energy.

“Meteor Fall”

A huge bolide suddenly smashed down in the sky.

Chapter 2063 - ?Sniper Devil

Text Chapter 2063: Killing the Devil

The Five-Eyed Demon King did not expect that Lu Yang would also forbid the curse. He was immediately hit by the fire meteor, and flames ignited all over his body. But such a powerful forbidden curse did not kill the Five-Eyed Demon, because, The moment the Forbidden Curse hit him, a red light appeared from the body of the Five-Eyed Demon King, enveloping him.

“Roar”

The Five-Eyed Demon roared like a sharp pain. The original four eyes were left, but now only the middle main eye is left. It turns out that the Five-Eyed Demon just released the eyes at the cost of three eyes. The energy contained in it shattered the flame meteorite.

“Human, I must kill you, I can never spare you.” The Five-eyed Demon roared frantically.

Lu Yang guessed that he couldn't kill him with this one. The moment he finished releasing the forbidden curse, he shouted to Li Bing next to him: "Brother Bing quickly release the ice spell to form a mist."

Li Bing originally worried that after he released his ultimate move, he would defeat Lu Yang's skills, which would cause Lu Yang's spells to fail. Now, when Lu Yang said this, he instantly reacted and said quickly, "I know, give it to I."

"Arctic Cone"

A huge ice cube suddenly formed on the head of the Five-Eyed Demon, and then the ice cube disintegrated and turned into countless small six-sided ice crystals, which widened toward the last eye of the Five-Eyed Demon.

The Five-Eyed Demon's body was burning with flames at this time. The moment the ice hit the Five-Eyed Demon, it was melted by the surrounding flames, and a large amount of water vapor was formed immediately.

If the number of ice cubes is small, there is no problem, but the number of ice cubes is extremely large. After being melted by the flame in a short time, it not only extinguishes the flame on the ground, but also makes the surrounding area of 200 meters become a misty area.

The flames on the Five-Eyed Demon were extinguished by the ice, thinking that humans were stupid, and he was about to launch an attack on Lu Yang, but he did not expect that there was already fog in front of him. Suddenly, the Five-Eyed Demon lost his goal.

"Damn humans, don't think you can escape like this. You just released the spell, can you run away so quickly now?" The Five-Eyed Demon roared, and the last big eye shouted with a crimson light. He jumped to the position where Lu Yang just stood.

Because Lu Yang did the most damage to him, he hated Lu Yang terribly, so he didn't even care about Li Bing, who had just released the spell, and directly asked Lu Yang to trouble him.

But when the Five Eyes Demon looked for Lu Yang angrily, he suddenly showed a surprised expression, because he found that Lu Yang hadn't left, and was standing 2 meters away from his original position.

Although the fog formed by ice and fire is very large, the visibility is not low, and the surrounding situation can be clearly seen within 2 meters.

The eyes of the Five-Eyed Demon King were particularly big, and they could see Lu Yang very clearly. He let out a long roar of excitement, and shot a light at Lu Yang.

“Go to hell, \*\*\*\* human.” The Five-eyed Demon roared.

The crimson light hit Lu Yang accurately, and Lu Yang fell straight to the ground without any resistance.

The Five-Eyed Demon King didn't relieve his qi at all. It was because of Lu Yang that he lost three eyes. He had to eat Lu Yang raw to relieve his qi. Therefore, he stepped up to Lu Yang and grabbed Lu Yang with his left hand. At this moment, Lu Yang suddenly raised his head and the reader smiled.

“Lining Yang Fist”

Lu Yang burst into flames with his right hand. At the moment when the Five-Eyed Demon was surprised, he stood up and typed with a punch on the Five-Eyed Demon's abdomen. Suddenly, the Five-Eyed Demon's belly was punched with a huge hole. At the same time, Lu Yang showed a long knife in his left hand and threw it towards the last eye of the Five-Eyed Devil.

“Be blind,” Lu Yang roared angrily.

The long knife has the fire attribute of the strong sun fist attached, so the long knife almost burst out, hitting the last big eye of the five-eyed devil.

This knife is not an ordinary knife, but a weapon forged from another world metal that was snatched from Sigo. The surface is extremely sharp. The last eye of the Five-Eyed Demon was directly crossed. So far, the Five-Eyed Demon. Become a blind demon.

“Roar, my eyes, my eyes.” The five-eyed demon's arm kept covering his eyes and roared.

The other eyes are damaged, and the Five-Eyed Demon doesn't care, because his eyes can regenerate, but only this main eye cannot be damaged. If this eye is damaged, his eyes cannot regenerate.

Now, he has really become the blind demon, and has lost the most powerful red light power. He can't stand in this world at all. Even in another world, he has no hope of living.

The Five-Eyed Demon King is wise. Faced with such a situation, the only thing he wanted to do was to die with Lu Yang. Recalling Lu Yang's position just now, he rushed towards Lu Yang.

Lu Yang had already been guarding the actions of the Five-Eyed Demon. He took out another war knife from the Demon God's space. After avoiding the Five-Eyed Demon's attack, Lu Yang walked around behind him and cut off the Five-Eyed Demon's left foot with a single knife Tendons.

"Roar~!" The Five-Eyed Demon roared again and fell to the ground. Now he doesn't even have the ability to hunt down Lu Yang.

"How is this possible, how is this possible?" The Five Eyes Demon screamed frantically.

Lu Yang still didn't get close to the Five Eyes Demon, but kept walking around the Five Eyes Demon. cut off all his limbs before he came to the position of the Five Eyes Demon's head, no Giving him any chance to speak, a knife was inserted into the head of the Five-Eyed Demon King, and at the same time he killed him, he took out a magic core with rotating brilliance.

"Why is this magic core different from other magic cores?" Lu Yang asked curiously.

The Blazing Demon God said with emotion: "Lu Yang, the five-eyed demon you killed just now, he is a level 3 demon. For you humans, it is equivalent to the existence of a fire demon, with just this demon core. Power is enough to promote you to a level 10 magician, and settings may also allow you to directly promote to a magician."

"Huh?!" Lu Yang said in a daze, "How can this be possible, how can a monster with Fire Demon strength be so weak."

You must know that promotion to Fire Demon is the promotion position after the level 10 magister, not to mention the level 10 magister, even the level 3 magister, with Lu Yang's current strength, they can't do anything.

The Blazing Demon said with emotion: "If you are lucky, the five-eyed demon you encountered specializes in soul attacks, and his physical and magical powers are extremely weak. Otherwise, if it is really a fire demon here, you people must die."

As for why Lu Yang didn't die after being hit by the red light of the Five Eyes Demon, the reason was the Blazing Demon God. When Lu Yang was hit by the red light just now, Lu Yang asked the Blazing Demon God to bear the blow for him.

The intensity of the soul of the Blazing Demon God is not something that a red light of this level can shake. It is like an ant pushing a human shoe. Human beings have no feeling, and the Blazing Demon God does not feel any.

## Chapter 2064 - Return

Latest website: Lu Yang also reacted at this time. If the Blazing Demon God were not here today, they would all have to die. Fortunately, the Five-Eyed Demon King specializes in souls. If it is damaged by normal natural spells, such as Fire Demon. If they do, they will all die.

Now the situation is different. The Five-Eyed Demon King was killed by him, and he also got the magic core. Looking at the fog about to dissipate, he held the magic core and came to Fu Nian's side.

Fu Nian fell to the ground because of the sudden depletion of the soul sea, and the sudden inward pressure caused him to fall to the ground without any physical harm.

Originally, he thought he was going to die this time. Just when he was ready to die, he saw the fog dissipate. Lu Yang ran over, holding a huge magic core in his hand, and Fu Nian was immediately excited. He opened his eyes wide and asked, "Where is the five-eyed demon?"

Lu Yang smiled and threw the magic core in his hand, and said, "It's dead, let me stabbed to death."

"How did you do it?" Fu Nian knew what was going on when he saw the magic core. He had only seen this kind of magic core on the battlefield on the border. The beauty of the streamer made his eyes impossible to leave, but he was still rationally unbelievable.

Lu Yang supported him by the arm to stand, and while supporting him to the side of the road, while telling how he killed him, he concealed the part of the Blazing Demon God, that is, the strange world with two red skin monsters hidden in the sleeves. The long sword killed the Five Eyes Demon King by a sneak attack of mist.

"Awesome." Fu Nian did not doubt, this was the only statement that could pass, and the Five Eyes Demon not far away was indeed killed by two long swords.

"I'll go see other people." Lu Yang put Fu Nian on a big rock by the road and said.

Li Bing slowed down at this time, he had already ran to the others to take a look, and found that except Fang Lei was still alive, all the others were dead.

"It's not saved." Li Bing returned to Lu Yang and Fu Nian and said indignantly.

Fu Nian watched, and called someone to come and help clean up. He looked at Lu Yang and said, "Brother, although the Five Eyes Demon can be killed this time, it's all up to you. We didn't have a team agreement before, but according to the rules. , You need to separate a part of the magic core and give it to Lei Ming's family. I wonder if you can agree."

Lu Yang said, "I think so too, you decide how to divide it."

Fu Nian thought that Lu Yang was unwilling. He did not expect that Lu Yang would agree so easily. This made him feel good about Lu Yang. He said: "Lei Ming and the others who died in the battle will share 30%. I, Li Bing and Fang Lei each share 10%, and the remaining 40% goes to you."

Lu Yang nodded. He also felt that the distribution was fair. If he was alone, it would be impossible to beat the Five-eyed Demon. Without Fang Lei's death to stop him, without Li Bing creating fog with him, and without the sacrifices of others, it would be impossible for the Five-eyed Demon. So carelessly killed by him.

"That's it." Lu Yang said.

Looking at this special magic core, Fu Nian gritted his teeth and said to Lu Yang, "Brother, I want to beg you for something else."

"What's the matter?" Lu Yang asked.

Fu Nian said, "Can you give this magic core directly, and I will exchange it for you with another magic core."

Lu Yang smiled and asked, "What's the matter?"

Fu Nian said: "You don't know, this piece of magic core is obviously not the core of the low-level monsters encountered before, but the high-level monsters. According to our classification, this belongs to the core of the third-level monsters. The level is higher than that of any mage among us humans. My elder brother is in the stage of attacking the fire demon. If there is this demon core, it will be of great benefit to him. Therefore, I want to use other demon cores instead. Don't worry, our family is not a stingy person. We owe you a favor. If you have anything in the future, you can ask our Fu family for help. I will give you 1500 yuan of level 2 magic core to exchange 40% of your share, you see How."

Obviously, the value of this magic core cannot be measured by ordinary level 2 magic cores at all, because even if the ordinary level 2 magic cores are added together, they will not produce such core patterns, only want to upgrade. People who use this kind of magic core can feel the changes of the next level of magic core.

This exchange of Fu Nian had taken a big advantage, but Lu Yang knew that there were 1,500 level 2 magic cores, which was enough for him to upgrade, and it was more useful for him to be able to make friends with the Fu family.

“Yes, I have no opinion.” Lu Yang said.

“Thank you.” Fu Nian was extremely happy.

This time, for him, it was much better than he expected. Although there are 5 less magisters in human beings, if there is an extra fire demon, it will obviously be more effective.

As long as his elder brother reaches the stage of the fire demon, he can kill a large number of monsters to obtain the magic core, and then there will be more magisters cultivated, and they will all be magisters related to their Fu family.

When the three of us were chatting, not long after the military arrived, Jiang Qingqing and Yang Hai were among them. Seeing that only Lu Yang survived, they all showed horror.

Liu Feng asked excitedly, “What’s going on.”

Lu Yang looked at Liu Feng and the others with a smile, and said, “Fortunately, I didn’t let you over, and I don’t know what’s going on. A big-eyed monster with five eyes emerged from this big-eyed monster, known as the Five-Eyed Devil. Judging by the level, it should be a level 3 monster. He killed six people in a flash when we met, and had an IQ not weaker than ours. If it weren’t for his carelessness, he would only use soul spells. Fu Nian and I have to explain. At this.”

Jiang Qingqing and Yang Hai were both scared for a while. Looking at the big-eyed monster whose five eyes were all blinded in the distance, and Fang Lei, who was still in a coma, and Fu Nian, who was physically weak, they could know that. How fierce the battle is.

“Fortunately, you are fine.” Jiang Qingqing said with emotion.

“Let’s go back.” Lu Yang said.

Everyone nodded, Fu Nian also finished explaining the matter, and the group of people returned to the village entrance with the convoy, and at this time, the personnel from the temple also returned.

Tao Yushan walked up to Fu Nian with an ugly expression, and asked, "Brother, what's wrong with you?"

Fu Nian had already hidden the Level 3 magic core, smiled at Tao Yushan and said, "It's not a big deal. It has been recovered through the magic core. How is your harvest?"

Tao Yushan saw that Fu Nian wanted to change the subject, and he responded casually and asked: "I heard that you killed a big-eyed monster with five eyes. It's true or false."

Fu Nian nodded and said, "It's true. It's in the car. Go and take a look. We are going to pull it back and make specimens and hold a permanent exhibition in the academy, so that subsequent students will know what skills this monster has. And features."

Tao Yushan nodded with a strong smile, pretending to be curious, and came to the back of the car. He saw that it was the body of the Five-Eyed Demon. Suddenly, the people on the side of the temple were dumbfounded. Their plan was completely ruined. Now they Unless they want to expose themselves, it is impossible for them to kill all students' teachers and students.

Chapter 2065 - All baby

Latest website: But even if they succeed, Tao Yushan and the others will have no place to stay, and they will even be chased to death by the imperial capital masters. With the current strength of the imperial capital, they can do it, and their family and relatives in the imperial capital will also All were killed.

A dozen members of the temple looked at each other, and they all knew that this matter should not be done, so they stopped talking, and after chatting with Fu Nian a few words, they left.

Fu Nian stared at their backs, but found no problems, but he felt that something was wrong. He wandered on the edge of life and death for a year, making Fu Nian's sixth sense extremely acute. He even suspected the people in the temple just now. Do it on him.

"You don't feel right, too." Lu Yang walked over from a distance and said to Fu Nian in a low voice.

Fu Nian's expression was a bit heavy. If the temple really rebelled, it would be a very big loss for the imperial capital. He said: "Don't make any noise, I will leave everything here to the temple, and you will go back with me."

Lu Yang nodded.

That night, Fu Nian brought Lu Yang back to the imperial capital. Fang Lei and Li Bing also came back, and they were training in the academy, less than 50 meters away from the room where Lu Yang was practicing.

Fu Nian took the level 3 magic core, and by the next morning, he brought back a large number of level 2 magic cores and handed them to Lu Yang and Fang Lei.

Lu Yang was in the room, absorbing these magic nucleus training. For a whole month, Lu Yang's strength quickly rose from level 7 to level 9. At this time, the war in the border area of the imperial capital also came to an end, and mankind achieved a great victory. , The monsters were temporarily wiped out.

At this time, Lu Yang also saw the true power of the imperial capital. On the road of triumph, thousands of magicians and various cultivators walked at the forefront wearing special robes, followed by various trophies.

The human beings on both sides welcome each other, and they are full of curiosity about the monsters, especially the high-level monsters, taking pictures.

Lu Yang was also very curious about the monsters here. Just as he was watching the crowd, Fang Lei came to him, put his arms around his neck and said, "Don't look, your good deeds are here."

“What’s the good thing?” Lu Yang asked with a smile.

In this month, Lu Yang, Fang Lei, and Li Bing became good brothers. The two of them looked simple, but in fact there are big families behind them, but such people can take the initiative to die on the battlefield for their companions to seek their lives. The opportunity made Lu Yang even more admire.

Fang Lei said carelessly: “The dean wants to see you. It seems that the time for you to enter the Bronze Palace is not far away.”

The purpose of Lu Yang’s visit this time was to enter the Bronze Palace. He quickly asked, “Where?”

“Follow me.” Fang Lei led Lu Yang into the college. Fu Nian was standing at the entrance of the tallest building in the college.

“My mission is over.” Fang Lei turned and left.

Fu Nian looked at Lu Yang with a smile and said, “Follow me in. The defense is tight here. I will take you in by myself, so there will be less trouble.”

Lu Yang was a little surprised. After Fu Nian entered the gate, five or six people immediately began to check Lu Yang, and only after they confirmed that they did not carry any special items.

The two took the elevator to the 12th floor. After obtaining permission, the elevator continued to rise, and after three more floors, they reached the 15th floor.

The elevator door opened, and Fu Nian led Lu Yang through the corridor and came to an office. A middle-aged man was working on documents. When Lu Yang was coming, the middle-aged man raised his head and cursed: “What are you doing? For food, I have been away for a few months, you left me with so many documents, you want to exhaust me.”

Fu Nian had a black line in his forehead and ignored Lu Yang. He pointed at the other party and cursed: "These are all required to be signed by the dean. How can I have that power as a director? You will be promoted to me, I will replace you. I'll deal with it."

"Forget it, you are stupid, you can't be it." The middle-aged man leaned back on the chair humbly.

Fu Nian was even more speechless. He pointed to Lu Yang and said, "Today, there are outsiders who are too lazy to quarrel with you. This is Lu Yang. Quickly approve him into the Bronze Hall. He gave your Level 3 magic core."

The middle-aged man's eyes lit up and he leaped forward to Lu Yang, and said with a smile: "That's not bad brother, my name is Fu Yun, Fu Nian, his elder brother, is also the dean of this school."

"Uh, hello." Lu Yang was a little confused by Fu Nian and Fu Yun.

Fu Nian said helplessly after seeing this scene: "Don't mind, my brother doesn't look like a dean."

Fu Yun said, "Can you blame me? If I can, I would rather the world change back to its original state, what kind of world is on the verge of life and death every day."

Fu Nian was too lazy to talk to Fu Yun, and said to Lu Yang: "I had the opportunity to tell you again when I was at home that the purpose of looking for you this time was the Bronze Hall. Until now, you still don't know what the Bronze Hall is."

Lu Yang blinked and asked, "Isn't it just a place to gather spiritual energy?"

Fu Yun shook his head and said, "No, the bronze hall is something left over from ancient times. He is not made of bronze, but it looks like the color of bronze, so it is called the bronze hall. In fact, this thing is a portal. Before the world did not change, the Bronze Palace only opened once every two hundred years. Now that the world has changed drastically, this thing can be opened once every other month."

Lu Yang smiled and said, "The magical energy that is in a different world is his key to open the door. It can be opened after a month of gathering."

Fu Yun said: "It is exactly this. In the past, most of the ancestors of the various families did not survive to open the door, and they did not know much about the situation inside. Now they are open so frequently, let us know the specific situation inside. Inside is actually connected to another dilapidated little world.

Although the world is over, the sky collapses, and the ground is full of time and space cracks, there are still a lot of treasures there, such as special herbs and magic fruits. We have always wanted to get them, but this place is special. Anyone who reaches the level of the magister can't get in, and there are monsters guarding the herbs and the fruit of the magister, and the strength is the magister level. I heard that you can throw a forbidden spell.

I want to ask you to get some more magic fruits and herbs back, even if we get one, we can cultivate it separately. "

Lu Yang frowned and said, "I'm afraid I can't beat them.

Fu Yun didn't know where to change a gossip mirror, and said: "It can resist the spells of the whole school, and it can resist the magic master's full blow three times."

"Thank you." Lu Yang accepted the baby with satisfaction.

Fu Yun took out the second piece, a handguard, and said: "Used at a critical moment, it can block the full blow of the Level 3 Physics Monster, but after one time, the mana is exhausted and the handguard is finished."

Lu Yang was more satisfied and said, "You still have such a baby."

Fu Yun took out the third piece, a bag, and said, "It contains a specially made poison. Level 3 monsters will kill you if you eat them, but they are generally not poisoned. They are used in emergency."

Lu Yang accepted these three items and couldn't help but smiled and said, "Thank you."

Fu Yun slapped Lu Yang on the shoulder and said, "This is the best thing we can give you so far. Do your best, but don't die. You are a perceiving mage and are much more valuable than the fruits in there."

Lu Yang nodded.

#### Chapter 2066 - Enter the bronze hall

Latest website: This time Lu Yang has inherited the Fu family's favor. Obviously, this family was willing to give them Level 3 magic cores before being grateful to Lu Yang. Although this is a favor, this is whether or not to give it. of.

Fu Nian took out another USB flash drive and said, "There are detailed information in the Bronze Temple, including route maps, videos, monster distribution and various monster attack methods. Take a look and it will help you to get in. There are many people who went in with you this time. Basically, there are families with information about the interior of the Bronze Palace. Our family is the most comprehensive and should be of great help to you."

Lu Yang's eyes lit up. This thing is more important than the three things given before. This is equivalent to Lu Yang knowing the map in the Bronze Temple and the information about most of the monsters in it in advance, so that Lu Yang can prepare in advance. Avoid many unnecessary dangers.

"Thanks a lot." Lu Yang said seriously.

Fu Yun said indifferently: "Go back and practice. Next Monday is the time to go in. By the way, be careful of the people in the temple, this time the people in the temple will also go in."

Lu Yang nodded and went downstairs with Fu Nian.

Back in the dormitory, Lu Yang carefully studied the videos and materials in the USB flash drive. He didn't expect that the materials had the original version written in classical Chinese. Obviously, the Fu family had been in the Bronze Hall thousands of years ago.

While watching here, Lu Yang asked Blazing Demon God, "Is there anything I can eat."

The Blazing Demon God looked at these fruits, shook his head and said, "I don't even know it. Only after seeing it and perceiving it at close range can I know."

Obviously, the world of Blazing Demon God didn't have this kind of fruit, and Lu Yang didn't care. There are many cultivation systems in the world, and many of them can be shared. He believes that there must be fruit that can enhance his strength.

The cultivation method of the Soul Sea is not simpler than other methods. Every time you want to advance, you need to expand the Soul Sea. When you are promoted to the Mage, a spiritual core will appear in the Soul Sea. That thing is the so-called symbol of the Mage.

With this spiritual core as a support, it can withstand the surroundings of the soul sea without causing him to collapse, but in the same way, if the spiritual core is broken, the magister will drop and return to the level of a magician.

If the magister wants to advance into a fire demon, he needs to completely integrate the soul sea and the body. New lines appear on the spiritual core in the soul sea, and the operation of the spiritual core also follows a certain rule. This rule is set by the player. Certainly, as long as the enemy does not grasp this law, he will not easily lose, but if the enemy grasps this law, it is possible to be killed by the opponent at the moment the skill is released.

As for the fusion of the spiritual core and the body, the flame will temper the body. Although the skin is still skin, it will be washed away by the spells of this school. For example, the fire system, the body will naturally become the state of the fire demon. This process is very painful. Yes, if you can't hold it, the Magister will die.

Lu Yang's body now has the heart of the Demon God to make divine blood tempering. In the words of the Blazing Demon God, it is very easy to become a Fire Demon. The only problem is that the soul sea forms a spiritual core. As for the expansion and fusion of the spiritual core, it is all simple things.

For a week, Lu Yang was cultivating while viewing the materials. When next Monday, he came to the door of the dean's office building.

Fu Nian was waiting there. At this time, many people had already arrived. There were more than 20 people in total, including Wang Shijie, a temple member that Lu Yang was familiar with.

Wang Shijie also saw Lu Yang with a sullen expression in his eyes, but he quickly converged and turned to look elsewhere.

Fu Nian smiled and asked Lu Yang to stand in the first position, and said in detail the precautions for entering, and then led Lu Yang and the others into the building.

Lu Yang originally thought it was in some other hidden place, but he didn't expect it to be in the basement of the dean's office building.

This is no longer a basement, it should be said to be a huge underground city. Fu Nian led them down to the second floor. After the elevator was opened, Lu Yang saw a huge bronze palace.

It has a height of 10 meters and a width of 15 meters. Its appearance looks like an ancient Chinese palace. Fu Nian said: "Don't walk around after you enter inside, just stop and practice in place, you know?"

Wang Shijie and others agreed casually. Obviously, no one took Fu Nian's words seriously. Among the people who came, except for Lu Yang who did not have a family, the others were family children, and everyone came from their own family. After getting the news, they are all ready to enter the bronze palace and have a try.

Fu Nian was too lazy to talk nonsense, seeing that the gate of the Bronze Temple gradually formed a blue-white vortex like a teleportation array after absorbing magical energy, he said to Lu Yang: "Enter one by one from you."

Lu Yang nodded and walked into the white whirlpool. He had already seen from the information given by Fu Nian. The whirlpool was a portal without any danger, and after being teleported, the location was random.

There was a flash of light, and Lu Yang found himself in a thatched hut. When he looked around, he found that the wooden pillar of the thatched hut was engraved with the word 38, which indicated that it was teleported to position 38.

In the past thousands of years, big families like the Fu family have entered the bronze hall in the past generations, will record the specific location of the transmission, and build a house on the spot to provide for future cultivators.

Over time, they can figure out how many teleportation locations there are in the Bronze Temple. There are 88 teleportation formations in each of which is very safe. His location is just close to the herbal medicine area.

Lu Yang sensed the magical energy around him, and suddenly felt that the magical energy here was much stronger than the outside world.

There is a small river in front of the thatched house, and the gurgling water flows in front of the house, but when you look carefully at the river, you find that it is a concentration of magical energy. From inside, you can even see the jumping magic elves.

The Red Night and the Three-eyed Demon Flower in Lu Yang's arms jumped out at the same time, and they lay down beside the stream and began to \*\*\*\* hard. The river entered a large amount of Red Night and the Three-eyed Demon Flower. The visible speed began to grow.

Especially the three-eyed magic flower, his growth is much lower than that of Hongye, so his growth rate is faster, less than half an hour, the three-eyed magic flower becomes a huge tree vine, and then In an hour, the vine turned into a big tree, full of flowers.

There is a smiling face on the trunk. Three eyes are distributed around the trunk. Each of them can see a wide-angle area of 120 degrees, which is equivalent to seeing everything around the tree.

Chapter 2067 - restricted area

Latest website: Lu Yang has a spiritual connection with the Three-Eyed Demon Flower. He can feel the excitement of the Three-Eyed Demon Flower and his gratitude to Lu Yang from the body of the Three-Eyed Demon Flower. The joy is like a puppy pleases the owner. same.

Blazing Demon God sighed and said to Lu Yang: "This is the special feature of the Three-Eyed Demon Flower. There is no obstacle to his growth. As long as the materials are sufficient, he can continue to grow to the strongest. There is plenty of aura here, at least for the three Beholder Flower was promoted to a level three monster."

Lu Yang was a little surprised, and said, "You mean the three-eyed magic flower can reach the level of the five-eyed devil?"

The Blazing Demon sneered and said: "If the Three-Eyed Demon Flower reaches level 3, the Five-Eyed Demon will not be able to get close to the three-eyed Demon Flower within 10 kilometers, whether it is the poisonous mist of the Demon Flower, the spores floating in the air, or The cane sticking out from the trunk of the magic flower can easily kill the five-eyed demon, even if the five-eyed demon comes close to the tree trunk and releases red light, it will not kill the three-eyed demon flower because the soul of the three-eyed demon flower is in the tree. On the root."

Lu Yang nodded clearly. No wonder the Blazing Demon God admires the Three-Eyed Magic Flower so much. It is equivalent to saying that after the Three-Eyed Magic Flower evolves to level 3, it is completely an independent and complete defense system. The range within 10 kilometers is three-eyed. Within the control of the beholder flower.

"I don't know if the magic energy here is enough." Lu Yang was a little curious.

At this time, the roots of the three-eyed magic flower were already crowded in the magic river, and Hong Ye was also drinking cows by the side. The river was completely dry.

Blazing Demon said: "It's far from enough. Now the Three-Eyed Demon Flower has just gradually entered the second form from the first form. If it wants to reach the second level, it will take at least half a month at the current speed. "

Lu Yang was a little speechless, and said, "It looks like I need to try if I can enter the restricted area."

He patted the red night next to him, and said, "Don't drink it now, go with me and have a look inside."

Hong Ye showed an expression of unwillingness, her body changed to a very small form, and she got into the pocket of Lu Yang's clothes.

Lu Yang looked at the three-eyed magic flower and said, "Leave you alone. If you encounter an enemy, immediately send me a message."

The three-eyed magic flower returned to Lu Yang through consciousness, and then, centered on the three-eyed magic flower, red flowers bloomed everywhere within 1 kilometer, and the spores floated into the air, and there were hidden trees and vines everywhere on the ground.

Lu Yang was originally worried about Wang Shijie and the others coming to his trouble, seeing that he wasn't killing the Three-Eyed Demon Flower to vent his anger. Seeing that the Three-Eyed Demon Flower had such strength, he was relieved and walked towards the distant restricted area. Go in.

Previously, through the information given by Fu Nian, he knew that there are two main types of monsters here, one of which is plant type, which is mainly hidden underground, similar to piranha. Once someone approaches, it will violently hurt people. The class is of the soul system, and any players they encounter will have their souls swallowed, and they are also the biggest enemy of the previous human monks.

Lu Yang has the Blazing Demon God. He is not afraid of these two types of creatures. Before the entry of human monks, most of them died in the hands of soul-type creatures. But the Blazing Demon God's soul is very tyrannical and he is not afraid of attacks from soul-type creatures. Lu Yang met them, but Lu Yang chased them down. The only thing that worried Lu Yang was the monsters like piranhas, but he also had the blazing devil's perception ability, so he could avoid them in advance.

In short, this place is a Jedi for others, but for Lu Yang, it is the safest place.

...

When Lu Yang walked into the restricted area, on the other side, more than 20 people, including Wang Shijie, were walking in.

For people of all major families, the restricted area is another venue for them to compete. Unlike the previous 200 years, the major families worked together to obtain the fruits in the restricted area. Now it is opened once a month, and all major families have it. Your own route into the restricted area and various treasures and methods to avoid monsters.

Now the big families are competing for who can pick up the fruits and herbs in the restricted area first. Therefore, the big families have become enemies, but a few small families with particularly good relationships will unite together, or one The big family led several small families in.

Wang Shijie and the members of these temples joined these families later, but with their powerful god-given strength, they quickly attracted several small families with low strength. Therefore, Wang Shijie also has information in the restricted area in his hand.

Originally, Wang Shijie wanted to kill Lu Yang as soon as he entered the Bronze Temple, but the family did not allow him to do so. To kill people can only be in the restricted area, which is recognized as a land of killing, as long as they are not discovered. It doesn't matter.

The outside of the restricted area is different. No one knows if anyone is next to them. The abilities of the major families are strange and no one can guarantee that they will not be discovered. Therefore, only inside the restricted area is the best time to start.

"Send a signal, let them come quickly." Wang Shijie looked a little impatiently at a girl who had teleported to the same area with him. This girl was a member of a small family that the temple had been able to win over.

The girl did not dare to disobey Wang Shijie's order and took out a flare gun to send a signal towards the sky. The members of the temple scattered at various safety points quickly ran in the direction of Wang Shijie.

Lu Yang just walked to the entrance of the restricted area and frowned when he saw the fireworks exploding in the sky at 7 o'clock. There were fireworks in not only this place, but also fireworks in other directions. Obviously, many teams have been set up. , And he was only one person, which made him feel some urgency and couldn't help but walk in quickly.

A ripple swept across Lu Yang's body. In an instant, Lu Yang felt that the concentration of aura in the restricted area was dozens of times that outside, and even the air was in a thick state, as if it could form magical water droplets on the ground at any time.

"How can there be such a strong spiritual energy?" The Blazing Demon God showed a surprised expression.

Lu Yang asked, "Aren't there many in your world?"

The Blazing Demon said: "Very rare, in the world where I live, unless it is the God Realm, otherwise there is no place with more aura than here."

Lu Yang was a little surprised, and said, "It's not that this bronze temple can connect to the world you are in."

The Blazing Demon God frowned and said, "It's better not to be like this. If it is, your world is dangerous. You can enter this area, and people from another world can also enter this area. Once this place is really connected to another world, Think about it, the army of ordinary creatures in another world will flood into the human world hundreds of times, thousands of times, and your emperor will be finished."

Lu Yang's eyes widened, and he said, "I hope that's not the case. I also pray that I can improve my strength as soon as possible, and first kill all the monsters outside Donghai City."

Blazing Demon God said with a smile: "I am just a guess, not necessarily true."

Lu Yang sighed and walked towards a strange big tree ahead. There were many apple-like fruits on the tree, which made Lu Yang feel that there was powerful magical energy inside.

Chapter 2068 - Red Lingguo

Latest URL:

There are many monsters of flowers and plants around this tree, dense to an almost terrifying level, but all creatures within 100 meters of this large tree will be killed by the plant monsters that drill out from the ground.

But Lu Yang had a reminder from the Blazing Demon God. After the Blazing Demon God scanned around the big tree, he immediately found a safe walking direction for Lu Yang. Immediately, Lu Yang quickly walked toward the tree.

Just when Lu Yang was only 50 meters away from the big tree, suddenly, there was a long roar in the distance, and the Blazing Demon God hurriedly shouted: "Lu Yang, get down, use the invisible scepter, and hide in the grass."

Lu Yang squatted on the ground, with the necromancer's scepter in his hand, activated the skill, and disappeared. Almost at this instant, a huge creature suddenly appeared in the sky.

It was a gray-black creature. The body was a long strip with a length of more than one hundred meters. It had no wings, but it could fly in the air. When it swooped over Lu Yang's head, it carried a piercing piercing air with a strange speed. fast.

Lu Yang couldn't see the creature's eyes, but could feel fear from his coercion. The power that wanted to swallow everything made people tremble uncontrollably.

“What is this?” Lu Yang said to Blazing Demon God through his consciousness.

The Blazing Demon God roared with excitement: “Damn it, how come you have something with this world? This is a place that our old gods in another world don’t dare to touch. This is a forbidden place.”

Lu Yang frowned. For the first time he felt fear in the voice of the Blazing Demon God, and asked, “What’s the matter?”

The Blazing Demon God said: “You don’t need to know so much now. You just need to know that the new gods can’t offend them either. Don’t fight head-on with this race. What you see now is the weakest kind of this race. Creatures, they are food for other monsters.”

Lu Yang was speechless, and said, “This creature whose level I dare not even judge is actually food?”

The Blazing Demon God said: “Satisfaction, any high-level monsters of that creature can appear in the heyday of me. When our old gods explored the outer world, they discovered that planet. It feels incredible that I can come back alive. It’s fortunate that you can avoid them today.”

Lu Yang said: “I haven’t seen this monster in the information that Fu Nian gave before. It seems that this monster is new, or it only appears once every few years.”

Fu Nian had no reason to harm Lu Yang. What’s more, he used such low-level methods. He had seen in the information that for hundreds of years, all the people who went in from the big families died. The reason is unknown. It may be because of this thing.

The Blazing Demon said: “Fortunately, I didn’t fly over on Red Night, otherwise, the three of us are dead now.”

Lu Yang was also thankful that he didn’t let Hong Ye take them to fly over. He waited for the Blazing Demon God to confirm that the monster was flying far, then stood up and continued to follow the Blazing Demon God’s prompts to move forward. Soon, he reached the first place. Beside a fruit tree, he stretched out his hand to pluck a fruit.

He was still wondering what effect this fruit had on his body, but he didn't expect that Hong Ye, who was lying in Lu Yang's arms, suddenly poked his head out and bit the apple impatiently.

"Don't be poisonous," Lu Yang said silently.

Hong Ye didn't pay attention to Lu Yang at all, and ate bite after bite, so that he even ate the core of the fruit inside, almost biting Lu Yang's hand.

Lu Yang picked another fruit. There were hundreds of such fruit on this tree, of various sizes. He tried to take a bite, and his eyes widened. He could clearly feel that the fruit was full of Magic power, his soul sea swelled instantly.

Blazing Demon God said with emotion: "This kind of fruit should be an alternative variant. There is no such thing in our world, but he does contain magical energy beyond imagination, and the purity and effect of this magical energy. , Beyond the magic core."

Lu Yang said: "The information that Fu Nian gave me is actually called Red Lingguo. It can improve the strength. The main task of the warrior who entered the forbidden area before is to find a way to bring the Red Lingguo back."

He did not continue to eat, nor did Hong Ye continue to eat. Although Fu Nian gave the information that there were no side effects, he did not dare to believe it all.

After waiting for a day and a night under the tree, until the next morning, the blazing demon god's consciousness scanned all of Lu Yang's body. After confirming that there was no problem, Lu Yang let Hong Ye continue to eat, and at the same time, he took the rest. Hundreds of fruits were all packed in the Demon Temple.

He cannot continue to eat fruit here. If he continues to eat, the fruit will quickly promote him to the strength of the magister. After the strength of the magister, the Bronze Palace will automatically send this person out.

What Lu Yang could feel was that with his meager strength, eating about 10 fruits would be able to increase to the strength of the magister, so he put the fruits inside first.

Hong Ye was able to eat. After eating more than 100 consecutively, he had a reaction. At this time, it had become a normal length of about two meters, and he was sleeping in the Demon Temple. It is estimated that when he wakes up, he can upgrade.

Lu Yang walked towards the next fruit tree, There are hundreds of red spirit fruit trees like uukanshu.com, and each one is full of fruit. Lu Yang wanted to take some more back and prepare them for Zhuojiu and Baishi.

When the Blazing Demon God was here to help collect fruits, on the other side, Wang Shijie and the others also came under a fruit tree growing on the hillside.

Around the hillside is bare, only the lawn, but Wang Shijie and the others know that there are monsters everywhere under the lawn, and they can't beat it.

Wang Shijie and the others did not have the help of the Blazing Demon God, but the major families also had their method, which was to throw stones at the fruit trees in the most primitive way.

Because the fruit grows on the slope, when the red spirit fruit falls on the ground, it will roll down the hillside until it rolls in front of them. Therefore, Wang Shijie and the others formed an array and moved the stone towards the red spirit fruit tree. Smashed past.

“Boom”

A fist-sized stone hit the branch, causing no damage to the branch. It just shook, but no fruit fell.

“Continue to smash.” Wang Shijie said unhappy.

According to the information left by their ancestors, generally speaking, they can eventually hit three or four, even if they are lucky.

But what they didn't know was that Lu Yang was picking tree by tree. If they were to know the current situation of Lu Yang, their ancestors would have jumped out of the coffin board with anger. He got a few, and now Lu Yang has collected hundreds of them at once.

Chapter 2069 - Got rich

Latest website: The key is that there are more than one such fruit trees, but hundreds of them. Lu Yang has been fighting for half a month to pick all the fruits from these hundreds of fruit trees, and now there is only the last one left. The fruit from the fruit tree has not been plucked, it is the fruit tree that Wang Shijie and the others kept beating with stones.

Originally, Lu Yang wanted to sneak over and pluck all the fruits from the fruit tree, but he found that there were a dozen people gathered around Wang Shijie, who were watching the fruit tree day and night.

When Lu Yang used the staff to stealthily reach Wang Shijie and the others 50 meters away, he didn't continue to move forward, but stopped here.

Under the night.

Wang Shijie had fallen asleep in the tent. There was a big fire in front of the tent. Eight people in charge of the night watch were standing around the fire. Some were practicing and chatting.

Six of these people only wore simple black vests, and their exaggerated muscles were very obvious under the light of the fire.

The blazing devil's spirit swept over, and said with interest: "This is the Eastern Martial Artist you saw in the data."

Fu Nian gave Lu Yang a document in which he introduced in detail the changes in the human world during the past year of the invasion of another world.

Under the influence of warped time and space, various energies poured into the earth, and various professions that only existed in the legends of mankind appeared in the world. In addition to the known traditional professions such as magicians and paladins, there were more. The original warriors and Taoists in the east.

These six people wearing black vests are all martial artists, and their strength has reached the peak of the first order. This so-called first order is at the same level as the magician, and at the second order, it is the same level as the magician.

The training system of the martial artist is similar to the fighting spirit of the Temple of War. While cultivating internal strength, it also pays attention to external skills. At low levels, the martial artist's single-handed ability far exceeds other professions.

Especially at this stage of the first tier, in close combat, Lu Yang could not single out any of them. Even if it was a long-range attack, it would be difficult for Lu Yang to hit them, unless he used a forbidden spell.

But the movement caused by the Forbidden Curse was too loud. He was afraid of attracting the monster before. After weighing the pros and cons, Lu Yang decided to give up.

There are now seven to eighty thousand fruits in the backpack, which is enough to raise the level of his brothers. With Wang Shijie and the others on the fruit tree at this moment, it is better for him to go deeper in the restricted area.

He asked the Blazing Demon God: "Night should be when the monster is resting. The monster hasn't moved in the past few nights. Let's go in?"

The Blazing Demon God said: "With this intention, I am very curious about what is in the depths of this restricted area and why it can provide such a huge amount of magical energy."

Lu Yang was worried that the Blazing Demon God would disagree. Without the scanning of the Blazing Demon God's mind, he would die if he entered. He didn't expect the Blazing Demon God to be bolder than him. You know, if Lu Yang was swallowed by that monster, The Blazing Demon God was really gone.

"Boy, did you despise me just now?" Blazing Demon God reacted suddenly and said to Lu Yang unhappy.

"No, absolutely not." Lu Yang absolutely denied it.

"I dare to question this Blazing Demon God, I am the Supreme God in our world, don't you understand, the Supreme God." Blazing Demon God said excitedly.

"Yes, yes, yes, you are right." Lu Yang nodded quickly.

The Blazing Demon God snorted and said: "This is almost the same, go quickly, don't waste time, the monster wakes up, you and I are really finished."

With a solemn expression, Lu Yang slowly left the area where Wang Shijie's tent was located, and ran to the depths of the restricted area quickly following the instructions of the Blazing Demon God.

"Woo~~~!"

The pitch-black shadow in the air suddenly floated by, but Lu Yang had stopped where he was, and the scepter had been using his invisibility skills to hide his body.

This black shadow is one of the monsters mentioned in Fu Nian's materials, called the sickle beast. They look similar to dogs, but they have wings and are about 3 meters in length. They have a pair of huge sickle-like fangs in their mouths. , When encountering an enemy, their fangs will quickly turn into a metallic state to bite the target, and they are not afraid of first-order spells. With Lu Yang's current strength, hitting them is dead.

Lu Yang had encountered the Scythe Beast twice in the past few days. Because of that huge monster, the Scythe Beast hardly dared to act. It only flew out at night.

Lu Yang lay on the ground and waited for more than 20 seconds. After the Blazing Demon God confirmed that the opponent had flown away, he stood up and continued to walk forward. Not all, a forest appeared in front of him.

This forest doesn't even have information on it. Obviously, no one has been here before, but the Blazing Demon felt that there are many trees in this forest, all of which are alive, with life and consciousness.

"How to go?" Lu Yang asked.

The Blazing Devil frowned and said: "I will show you the way. It may take some time. The trees here are communicating, and they are eager for blood."

Lu Yang was speechless, and followed the instructions of the Blazing Demon God to hide from these trees. He walked back and forth four times before finding the right path. After pulling out a bush, suddenly, a palace appeared in front of Lu Yang.

"Hoo~~~!"

A huge grunt came from inside the palace, Lu Yang's eyes widened, and he could conclude that such a loud noise could only be released by that super monster.

"It looks like we are in that monster's nest," Lu Yang said.

The Blazing Demon God nodded and said, "Go forward slowly. If there is danger, don't run around and follow my instructions."

Lu Yang nodded. He knew what the Blazing Demon God meant. If the monster was awakened, he would definitely not be able to run away immediately, otherwise, he would really die.

He slowly walked towards the main entrance of the palace. The walls of this palace are pure white, and I don't know what material it was built of. The gate has been dilapidated and looks like it was destroyed.

The gate is also very large, with a height of more than 10 meters. Obviously, this master was either extremely prominent before his life, or he was a giant, otherwise no one would make such a large gate.

After entering the gate, Lu Yang was surprised that there were a large number of leather cloths on the ground. These leather cloths were made of unknown things. He had never seen the material, and the color was dark black. It was only in Luyang. After reading it carefully, his eyebrows were almost twisted together, stroking the lines on the leather cloth, and said: "How do I feel, this thing is the skin of a monster."

The Blazing Demon God was also curious, and said excitedly after hearing the words: "Yes, this is definitely the skin that the monster has faded away. Quickly install it in the Demon God Temple. This is definitely a treasure-like existence, although I don't know what it does. I need to study it carefully."

Lu Yang nodded, and quickly folded the skin of the monster. This skin was hundreds of meters long, and it took him a lot of time. After he deposited the first skin in the Demon Temple, Lu Yang was surprised to find. There is even a second piece of skin under the front porch, this time it is more than 90 meters long.

When he looked forward, Lu Yang couldn't help but smile. It turned out that this place was a place where the monster had faded from childhood to adulthood, and there were hundreds of them.

Lu Yang thought of Prince Ten Thousand Realms for the first time. He was very curious whether Prince Ten Thousand Realms would want this thing, and if he wanted it, that strange flame would belong to him.

Chapter 2070 - Magic spring water

Latest website: The Blazing Demon God knew Lu Yang's thoughts, and said excitedly: "The Prince of Ten Thousand Realms will definitely want the skin of this monster, because in that world, the Prince of Ten Thousand Realms is not qualified to enter, and people in that world are also fundamental Don't do business with a lower race like the Prince of Ten Thousand Realms."

Lu Yang was a little confused, and asked, "What kind of world is that? How can the Prince of Ten Thousand Realms become a low-level race? Then we are even more low-level."

The Blazing Demon snorted and said, "You are right. We are a low-level race to that world, but like that world, there are many more in the universe, and higher civilizations and strengths are stronger. There are also many creatures in, for them, we are ants, can humans do business with ants?"

Lu Yang sighed and shook his head. He carefully collected all the monsters' skins into the Demon Temple, a total of 112. After he had collected them, he also went to the courtyard on the side of the palace.

This is a garden. What surprises Lu Yang is that the garden is full of exotic flowers and weeds, and there are various fruits on the trees. The colors of these fruits are purple, and the huge energy contained in them is even more powerful. Yang can feel it.

"Are there any monsters?" Lu Yang asked.

The Blazing Demon God shook his head and said, "I have scanned it three times. It is strange that there are no monsters in this garden."

Lu Yang smiled and said, "It's normal, after all, it's next to that monster, maybe it's all destroyed by that monster."

The Blazing Demon said in agreement: "It is possible."

"Then we can pick happily." Lu Yang ran into the garden and quickly picked it up, until the monster's purring ceased and the time came to the day.

"Enter the Demon Temple"

Lu Yang chanted the spell, and he teleported himself into the Demon Temple. It didn't take long for the monster to wake up. After patrolling the garden, he found that his molting was gone. He was

immediately furious and looked in the garden. After finding it in a circle, he rushed outside. On the other side, Wang Shijie watched the daybreak and went back to meditate in the thatched hut, but a subordinate ran over and said to Wang Shijie, "It's strange, I went to find Lu Yang just now."

"What's wrong?" Wang Shijie was very curious about Lu Yang.

The subordinate said: "The strange thing is that the red spirit fruits on the fruit trees in the restricted area in the distance have been plucked. There are hundreds of fruit trees, and none of the fruits on them are gone."

"How is this possible? Are you wrong?" Wang Shijie said in disbelief.

His subordinate is called Li Hai, a warrior, and said: "It's true, you don't believe it, go and see."

Wang Shijie didn't care about cultivation, so he quickly let Li Hai lead the way and led the other subordinates to the edge of the restricted area. They were surprised that, as Li Hai said, the red spirit fruits on the fruit trees in the restricted area disappeared. , Only a few hundred bare fruit trees remained.

"It's weird, what's going on? Last month, people in our family said that there are countless fruits here, but there are too many monsters around the fruit trees, they can't get in." Another warrior beside Wang Shijie called Bai Cheng said.

Wang Shijie frowned, and when they were thinking about the reason, suddenly the beads on his hand vibrated violently.

"No, the monster is here." Wang Shijie immediately uttered a spell, hiding them all.

"Roar~!" The one-hundred-meter-long monster was looking for his molting. Not only was it molting now, he found that the red spirit fruit on the fruit tree below was also gone, which made the monster angry.

After a roar, a cyan wind group formed in the monster's huge mouth. The next second, centered on the monster, it was enveloped by a hurricane of level 15 or higher for several kilometers.

Wang Shijie's spell quickly failed. After several figures were exposed, he was discovered by the monster, and he slammed into Wang Shijie and the others with a roar.

"Run." Wang Shijie turned his head and ran.

Li Hai, Bai Cheng and the others also reacted, and hurried back to the same road with Wang Shijie, but they had been discovered by the monster, and in rage, the monster rushed towards them.

In the blink of an eye, the monster came to the edge of the restricted area. Just when the monster was about to leave the restricted area, he fell from the sky and hissed frantically, sounding extremely tragic.

Wang Shijie and the others took the opportunity to run out one kilometer away. When they came back, Wang Shijie couldn't help asking: "Master Jie, what's going on? I thought it's dead, why did the monster drop? Coming down."

Li Hai panted and said: "Our ancestors were also discovered by monsters. They left information about this monster as if it had been under a very powerful restriction. Once it leaves the restricted area, it will trigger the restriction and become Pain does not want to live."

Bai Cheng said: "Our family also has a record of this. Although he can't get out, we still have to be careful. The spell of this thing can be played. The five kilometers from the restricted area to here are not safe areas."

As soon as the voice fell, a roar came from a distance, and a ball of blue wind rushed towards them.

The diameter of the wind ball is more than 100 meters. When it hits from the ground, its destructive power is extremely terrifying.

The other side.

Lu Yang was standing on the roof of the palace at this time He saw what the monster had done to Wang Shijie and the others, he smiled and said, "Thanks to their help, let me know the weakness of the monster. "

The Blazing Demon God hummed, and said, "Hurry up, don't just steal the fruits, steal the soil back, the soil here has spiritual power and it is useful for my Demon Temple."

Lu Yang nodded and chanted a spell after landing. A large amount of soil was drawn by his magical energy and entered the Demon Temple. If it were not for the lack of energy springs, Lu Yang would have thought of transplanting these fruit trees into the Demon Temple.

Just as Lu Yang was riding on the tree to pick the purple fruit, Lu Yang woke up and said to the Blazing Demon God: "There must be a spiritual spring or something, otherwise, where is so much magical energy."

Blazing Demon God said: "It is true, while the monster is not there, let's look inside."

Lu Yang nodded, walked into the palace excitedly, and walked in the direction of strong magical energy. In less than 10 minutes, Lu Yang came to a huge open space. There was a huge stone pit, the shape and the monster. It's exactly the same. Obviously, this is the place where the monster rests, and beside the monster, there is a well that is constantly erupting magic spring water.

Chapter 2071 - Transform the Demon Temple

Latest URL: Blazing Demon God sent out extremely violent fluctuations in consciousness, and said to Lu Yang: "Go to the magic spring. There is something I feel familiar with the magic spring. Pass it quickly."

Lu Yang was a little surprised. It was the first time he had known Blazing Demon God to this day that he felt such an urgent feeling in his consciousness. This made him not only quicken his pace, but also came to the side of the magic spring.

Looking inside through the spring eye, in the deepest part of the spring eye, there was a white crystal. It was this crystal that made magical energy gush out continuously.

"What is this?" Lu Yang asked curiously.

“The space-time crystal is indeed a space-time crystal. Fortunately, we found out in advance. Otherwise, your earth will most likely be ruined by carrying this thing.” The Blazing Demon God laughed excitedly.

Lu Yang frowned and asked, “What do you mean?”

The Blazing Demon said excitedly: “The time-space crystal, this thing has only one use, it is to build a time-space teleportation array, and establish a connection channel between the two spaces, so that the target can be quickly teleported to another world. In layman’s terms, you want If you use the moon, as long as you also have a teleport crystal on the moon, after the two use the magic array to connect, you can instantly teleport to the moon’s space-time crystal through the planet’s teleport crystal.”

Lu Yang said, “You mean, this thing is constantly transmitting things from the world you fear?”

The Blazing Demon said: “Yes, no wonder the magic energy in this small world is so rich. For humans, this level of magic energy is already a miracle, but in another world, it may be that a teleportation formation is broken. , There is only a little incompleteness, only a small gap, which transmits energy.

If the intelligent creatures of that world use the incomplete magic circle to transmit, they may be able to destroy the restriction here with a beckon, and may also forcibly destroy the bronze palace and enter your human world. “

Lu Yang asked, “What should I do?”

The Blazing Demon laughed and said, “Thanks to you meeting me, the Time Crystal can not only contact that world, but also other worlds. For example, I know several safe teleportation areas. Quickly pull him out and put him in me. In the Demon Temple of God, I reopened a teleportation circle to let the aura from another world flood in, but no monsters will be teleported. Of course, if you want to, when the strength is strong enough, I can allow you to summon My entourage in that world came to your world to fight.”

Lu Yang’s eyes widened, and he said, “What level?”

The Blazing Demon God sneered and said: “For creatures in this world of you, they are called gods!”

Lu Yang couldn't help but smile, and said in amazement: "Then I can use them to kill the enemies outside."

If there is a Vulcan from another world to help fight, any temple and spiked demon, or the Hydra Emperor, will all die.

The Blazing Demon God shook his head and said, "Don't dream. Unless you encounter extremely dangerous things, don't even think about calling. Then you will be exposed. The 3 million population of the East China Sea can be abandoned, or you are your family and friends. Can give up and develop yourself with peace of mind."

Lu Yang shook his head disappointedly, and said, "Forget it, I'd better practice with peace of mind."

He stretched out his hand, pulled out the time-space crystal, and threw it into the Demon Temple. The Blazing Demon God can be transformed into a shape in the Demon Temple. He re-portrayed the magic circle and used the time-space crystal to connect with another world.

After all, he used to be the old \*\*\*\* of that world. As the saying goes, the blazing devil has lived for hundreds of thousands of years. If he didn't reserve the means, Lu Yang would absolutely not believe it, and even if he was it was really not reserved. What was left unintentionally back then can also play a great role now.

Lu Yang took advantage of the fact that the Blazing Demon God was portraying the formation, his gaze was at the ancient trees with purple fruits in the restricted area. The spiritual springs were gone, and these ancient trees would naturally not be able to grow. In that case, it is better to Moved to his demon temple, so Lu Yang threw hundreds of purple fruit trees and thousands of fruiting and flowering bushes into the demon temple together with the sudden on the ground.

Originally, the Demon Temple was an extremely large area, but after the Blazing Demon God's failure, his Demon Temple shattered in the void, and there were many time-space cracks, but when you look closely, there are hundreds of thousands of acres of space outside the Demon Temple.

Lu Yang didn't plan carefully either, but restored an area closer to the Demon Temple into an orchard and bushland.

Neither the purple fruits nor the black fruits on the bushes were damaged, nor were the roots of the trees and bushes.

After Lu Yang was done here, the Blazing Demon God also completed the magic circle. For a while, the tip of the time-space crystal gushed out a large amount of magic energy again, and this magic energy entered the fissures around the Demon Temple. , These cracks began to recover at a speed visible to the naked eye.

Lu Yang hadn't entered the Demon Temple, he could feel the purity of the magical energy spewing out of the time-space crystal this time, almost no different from the original spewing concentration.

"How about it, not bad." Blazing Demon God said with a laugh.

Lu Yang smiled and asked, "Your world has such pure magical energy."

The Blazing Demon said: "There are many Jedi in the world we live in. Old gods like us will die if they enter. In countless years, I have also explored some of them. One area has been explored the most by me, and I am also in it. I portrayed a space-time crystal array. I think I was a \*\*\*\* king back then. I have a lot of things like space-time crystals. Now one of them is so excited, I am too depraved."

Originally, Blazing Demon was very excited, but I would think of the past and suddenly feel lost again. It is conceivable that a king becomes a fugitive, and how hard it is for a person to be hit. It is also thanks to Blazing Demon who has lived for hundreds of thousands of years. Changing to being an ordinary person simply can't bear it.

Lu Yang said: "Let's go back. Unfortunately, I can't pull out those hundreds of old trees with red fruits. Otherwise, it will be complete."

The Blazing Demon said: "Don't be in the unexpected fruit tree. You have picked the fruits. I can make a statement that the maturity period of this kind of thing is calculated in a hundred years, unless you can find 100 space-time crystals for them. Supply, otherwise, you won't have time to come back a year later."

Lu Yang asked curiously: "It's weird, I took away the space-time crystal, why is there such a strong energy here."

Blazing Demon said: "Simple, distorting time and space, there are so many space-time rifts here, energy is coming from all directions, although the energy will be reduced, but not too much."

Lu Yang breathed a sigh of relief. If because of him, the Bronze Palace had no magical energy and could not be provided to the younger generation for cultivation, this was not what he wanted to see.

He jumped on the roof, looked at the distance, and found that the monster was still breathing hurricanes and attacking Wang Shijie and others in the distance.

Lu Yang sneered at the corner of his mouth. Now he really is very grateful to Wang Shijie and the others. If it weren't for them, he wouldn't be able to gather materials here so comfortably.

Thinking of this, he quickly ran out of the restricted area under the guidance of the Blazing Demon God, and returned to the cottage where he was. He saw that the three-eyed magic flower had now become a towering tree with a diameter of more than 10 meters and a height of more than 50 meters.

Seeing Lu Yang's return, the Three-Eyed Magic Flower instantly showed an expression of excitement, her consciousness connected with Lu Yang, and she was very intimate.

"Return to a small ball," Lu Yang said.

The towering tree instantly collapsed inward, and within a few seconds, it turned into a small ball with a diameter of 5 cm, lying on Lu Yang's shoulder.

The Blazing Demon God said: "The strength of the Three-Eyed Demon Flower should now reach Tier 3, and there is only so much energy here. If the Three-Eyed Demon Flower wants to rise to Tier 4, the energy required is 100 times as much as it is now. It is the energy spring in the Demon Temple, and it will take a year for him to upgrade. For the time being, he doesn't need to upgrade his strength anymore."

Lu Yang nodded, and the three-eyed magic flower that reached level 3 was already the biggest killer in his hand. With this, he would have the confidence to return to the East China Sea to single out the Hydra.

He looked at the Red Night Fire Dragon lying asleep in the main hall of the Demon God Temple. This little guy has been asleep for a long time. It is estimated that he will not be able to wake up within half a month, because he has eaten too many red spirit fruits. Having reached the conditions for promotion, I want to come, and when Hong Ye wakes up, his strength can also be upgraded to Tier 3.

Lu Yang said: "I should practice too, but I can't practice here to the level of a magister, otherwise, I will be doubted."

The temple organization in the imperial capital is too strong, far beyond what Lu Yang can deal with. He needs to worry about the other party's assassination. When he was a magician before, the other party could easily kill him. If he becomes a magician, the other party will send him out to kill him. The person, I am afraid, is a higher-level magister.

Lu Yang didn't want to make this trouble for himself, so he would rather not upgrade in this small space, after all, there is a spiritual spring in his Demon Temple.

Another, normal people want to be promoted to become a magister, they need to break through a lot of difficulties, in addition to the soul sea or physical problems, it is good for one of the three to be promoted, and Lu Yang pretends that he has poor congenital conditions. What a big problem.

At the moment, Lu Yang sat in the same place and started cultivating. On the other side, Wang Shijie and the others were unlucky. Originally in the evening, the monster was out of breath and returned to the palace to rest. But as soon as he returned, he found that the original dense fruit forest was actually one. The fruit is gone.

Not only that, but Lingquan was also lost, which made the not-so-smart monsters believe that Wang Shijie and the others did it, and desperately launched an attack on Wang Shijie and the others.

Even if the thatched hut is five kilometers away from entering, the monster's magic can still hit Wang Shijie and the others. In the past few days, Wang Shijie and the others have almost no rest time, just to avoid the spells from the monsters.

In the end, Wang Shijie and the others moved separately. A dozen people were divided into a dozen teams. Each of them ran to an area. The monsters patrolled the border of the restricted area without knowing who they were hitting, and when they saw human beings, they spewed wind spells.

Lu Yang was almost affected here, but Wang Shijie and the others did not dare to spread too far, so they could only avoid them in a few areas because they were afraid that Lu Yang would attack them.

In the past few days, Lu Yang was worried about being attacked by Wang Shijie and others. As a result, Wang Shijie and the others were worried about being attacked by Lu Yang.

The warriors like Li Hai and Bai Cheng desperately wanted to protect Wang Shijie, and Wang Shijie couldn't run, so he changed and ran with his back.

Sometimes when Lu Yang stood on a high place watching them, they felt tired and panicked. A dozen of them couldn't practice, and they all ran away.

"It's pitiful, but don't worry, I will not kill you. If I kill you here, the monster will have to trouble me. I am not that stupid." Lu Yang muttered. He muttered to himself, smiled and returned to his thatched cottage, and went to sleep peacefully.

After fifteen days in a row, finally, the one-month training time came when Lu Yang and Wang Shijie were sent out of the Bronze Palace with white light all over their bodies.

The clansmen of various families are waiting outside the bronze hall under the leadership of Fu Nian. They are very anxious to know the first family whether their clansmen have come out of the bronze hall alive.

Even if the cultivation level is not improved, being able to come out alive is still the most important combat power of the family. With the experience of practicing in the bronze temple, the family can provide some special methods to increase the level.

But just as the houses were waiting anxiously, a burst of light flashed, Wang Shijie and others were dressed in tattered clothes, and everyone teleported out with two huge black eye circles. When they landed, they saw their people, almost all of them. Happy fainted.

Only a few people who didn't faint were sitting on the ground and panting constantly. Among them were Li Hai and Bai Cheng. Wang Shijie had already fainted directly. The only one who didn't faint was Lu Yang. Standing on the side with a smile, all the big clans turned their eyes on Lu Yang.

#### Chapter 2072 - Steal cub

Latest website: A middle-aged man quickly ran to Wang Shijie's side to check it, and then looked at other people. After confirming that they were exhausted and exhausted, the middle-aged man breathed a sigh of relief, but still stared at Lu Yang with a bad expression, and asked: "Explain, what's the matter?"

Lu Yang stared at this man and frowned, and said angrily, "Who are you talking to me like that? What am I explaining to you?"

The middle-aged man sneered and said loudly: "I am Wang Shijie's cousin Wang Xiang. As for what to explain, the elders of these fainted children are in front of you. What do you think you should explain?"

"Yes, what's going on." The elders of Li Hai, Bai Cheng and others were not happy anymore, and they accused Lu Yang of all intentions to start without knowing it.

Li Hai, Bai Cheng and others who were still awake also breathed a little more at this time, but when they saw Lu Yang being targeted, they didn't plan to step forward to help, but sat aside and watched the show with a sneer.

Fu Nian was the person in charge of entering the Bronze Palace this time. He frowned when he saw this scene, walked to Lu Yang, blocked him behind him, and said to Wang Xiang and others: "What do you want to do? Do you want to do it in the academy?"

Wang Xiang and others didn't expect Fu Nian to value Lu Yang so much, and they were stunned for a while. The academy's power is now the largest in the imperial capital, and even their temples dare not provoke them.

Wang Xiang clasped his fists and said, "Director Fu, we didn't mean to do it, we just wanted an explanation. After all, our nephews fainted, but Lu Yang didn't have anything. This is not justified. We need to know the answer."

"That's right, did he secretly kill him."

"Give me an explanation."

"Can't just leave like this."

...

More than a dozen people clamored, which made Fu Nian a little embarrassed. After all, the scene was too tragic. Although there were no dead, Lu Yang didn't make it clear that Fu Nian was so kidding to leave, which was not conducive to the unity of the imperial capital. When he wanted to take Lu Yang directly, Lu Yang smiled and walked to Fu Nian's side and said, "Brother Fu, I told them, after all, this really has nothing to do with me."

Fu Nian's eyes lit up and asked, "Really?"

Lu Yang nodded and explained how Wang Shijie and the others were chased and beaten by the monsters in the Bronze Temple for half a month, and finally concluded: "This matter has nothing to do with me from beginning to end. I just watched the show while practicing. Not only is it not good for me, but it also delayed my cultivation. The strength of the monsters is too strong, and I have not been promoted to the strength of the Magister because of them."

Fu Nian was a little surprised. He thought that Lu Yang had a 100% success rate in becoming a magician. He quickly grasped Lu Yang's arm and realized that Lu Yang was indeed a 9th-level magician with a regretful expression, and said: "It's a pity, it seems that this time the impact on you is too great."

Wang Xiang didn't believe Lu Yang's words. He looked at Wang Shijie, who was gradually awakened by the healing technique, and asked, "Shijie, what is going on."

Wang Shijie looked at Wang Xiang weakly and said, "Uncle, there is a problem with our being attacked by monsters. When we entered the edge of the restricted area, we saw that all the fruits on the fruit tree were gone. I was about to investigate the cause. When the monster over a hundred meters long rushed towards us."

"All the red spirit fruits are gone?" Wang Xiang asked in astonishment. The most precious thing in the Bronze Palace is the red spirit fruits. If there is no red spirit fruit, the meaning of going in is not so great.

Wang Shijie nodded and stared at Lu Yang excitedly and said, "He must have done it. Most of our group of people gathered together, and we didn't hide them in the thatched huts. Only Lu Yang was alone. He must have taken it away. All the red spirit fruits."

The eyes of everyone converged on Lu Yang at the same time. Wang Xiang walked to Lu Yang excitedly and stared at Lu Yang's body to check.

But anyone with a discerning eye can see that there is no problem with Lu Yang. How could a person carry tens of thousands of red spirit fruits? Lu Yang didn't have a backpack when he came out. Moreover, Lu Yang's level was only that of a magician. It.

Lu Yang spread his hands and said to Wang Xiang, "You can look more carefully. I didn't blame Wang Shijie for attracting monsters to delay my cultivation. It's not bad. You still dare to frame me and shamelessly."

Wang Xiang also felt that what his nephew said was unreliable, but he didn't want to make Lu Yang feel better. He stared at Lu Yang one step closer and said: "Then you have to check more carefully before you know."

Fu Nian pushed Wang Xiang away and said with cold eyes: "Wang Xiang, don't go too far."

Wang Xiang didn't dare to compete with Fu Nian, so he gave a cold snort, turned around and took Wang Shijie and the others away, leaving only Fu Nian and the security personnel of the college.

Fu Nian breathed a sigh of relief, looked at Lu Yang, and led him to Fu Yun's office. After sitting down, Fu Nian excitedly said to Lu Yang, "What's the matter?"

Lu Yang said: "It's the same as what I just said, because of them, I can't practice with peace of mind. I have to prepare to escape at all times, lest I get hit by the Forbidden Wind Curse."

Fu Yun listened to Lu Yang's report again, and looked at Lu Yang with some frowns, and said, "Brother, I was a little surprised that you didn't get promoted to the Sorcerer. I originally thought that if you become a Sorcerer, you can send You go on a mission, but now you are not a magister, the danger of going is too great."

Lu Yang frowned and asked, "What's the matter?"

Fu Yun sighed and said, "We formed a joint team and entered the depths of the swamp in three days. We need to steal a Tier 3 monster cub. The monster's mother has just given birth to him, so I singled out with my current strength. I can't beat that monster's mother, can only be led by me, and then you lead the team to steal it, but you are not strong enough."

The perceptual type mage can predict the danger in advance and avoid the danger, but the place where Fu Yun wants to go is full of Tier 2 monsters. If it is a Tier 2 magister, there is still a way to avoid it, if it is a Tier 1 magician. , The difference in strength is too great.

But if you don't steal the cubs now, the cubs will soon have extremely strong strength. The monsters grow too fast, and they will be caught later. It will be difficult to conquer them with magic circles.

Lu Yang saw Fu Yun's urgency and said, "Well, you can bring a few more people to help me. I will accompany you on a trip."

Fu Yun didn't expect Lu Yang to agree, his eyes lit up, and he said, "Brother, brother, thank you, no matter whether this trip is successful or not, I owe you a favor."

Lu Yang smiled and said, "Don't go in three days. Go tomorrow, grab it back, I'm also anxious to go back."

The purpose of his coming this time is to enter the Bronze Temple to practice. Now that he has completed it, there is no need for him to stay here anymore. He needs to return to the East China Sea quickly to save his family and brothers there.

#### Chapter 2073 - Promoted Magister

Latest website: Fu Yun also knew that Lu Yang was anxious to go back. At the moment, he personally sent Lu Yang to leave the college. For a while, everyone saw the importance of Fu Yun, Dean of Imperial College, to Lu Yang.

Fu Yun not only sent Lu Yang out of the dean's building, but also sent Lu Yang back to the dormitory. When the door was closed, Lu Yang sighed secretly. Sure enough, the imperial capital was too messy and he had to leave quickly.

He took out a red spirit fruit from the Demon Temple, he put it in his mouth and ate it. The juice entered his abdomen and quickly turned into an aerosol state, rushing into Lu Yang's meridians frantically, and then followed the meridian backflow into it. Into the soul sea.

Originally, Lu Yang had already reached the peak stage of Tier 1, and he was only one step away from the magician stage of rising to Tier 2, which turned his magic power from the state of the soul sea into the soul core.

With the huge spiritual power blessing inside the Red Lingguo, and because the food that the Red Lingguo eats is controlled by himself, Lu Yang can clearly control the changes in the soul sea.

The huge magical energy spins crazily in the sea of souls and collapses inward. In the end, the magical energy like sea water condenses into a crystal-like thing, this is the soul core.

Suddenly, Lu Yang felt the crazy need of magical energy in the soul sea. Lu Yang didn't want to disturb the outside, took out a red spirit fruit and ate it. The drained soul sea was full again, but it dried up again in the next second. All the magic energy has entered the soul core, and the soul core has become a little bigger because of this.

Lu Yang was speechless, and then ate the red spirit fruit. He ate 10 red spirit fruits in one breath. The soul core in his body was the size of a tennis ball, and then stopped absorbing. Lu Yang also breathed a sigh of relief and couldn't help but confront Chi. The Flame Demon God said: "Is my aptitude so bad? It took 10 red spirit fruits to stabilize the soul core."

"Hehe." Blazing Demon God laughed contemptuously, and said: "You are not satisfied, it is not that your qualifications are too bad, but your body has become too good under the tempering of the blood of the gods. It started with a rice grain-sized spiritual core and started cultivating in the direction of the fire demon. How much faster you are than others."

Lu Yang understood it and said with a smile, "Thank you."

The Blazing Demon said triumphantly: "Small things, now I teach you magician-level spells, especially small-scale forbidden spells. With your current ability, it is possible to instantly cast two small forbidden spells."

Lu Yang became interested and asked, "What forbidden curse?"

The Blazing Demon God was even more proud, and said: "Forbidden Curse is so excited, but it's just a trail. The truly powerful is divine art. You are not a divine body, and your soul core is not a divine core. Only then can I learn the ban which is \*\*\*\* to me. The curse, it sounds nice, but it's just the lowest-end skill of divine art."

Lu Yang was speechless. After he discovered that his relationship with the Blazing Demon God became more and more familiar, this guy didn't seem to be a majestic \*\*\*\* king at all, but rather like a talker and a smasher.

"Just ask, did your subordinates betrayed because your mouth was too broken?" Lu Yang asked.

"Fuck off, brother, I haven't spoken for so many years." The Blazing Demon God was also happy. He didn't expect that one day he would chat with others like this, and said triumphantly: "Brother was admired by hundreds of millions of lives. Divine King, there are countless divine generals under him... It's a pity, you don't understand the things on our side, so you should improve your strength."

Lu Yang grinned, he didn't expect that one day he could get along with the Blazing Demon God so well that the two would soon become brothers.

At the moment, he learned the skills from the Blazing Demon, which he had learned in the game before, such as "Red Lotus", "Devil Slash", "Hot Fist", "Dance of Red Snake Strangling" And "Destroying Heavy Artillery."

Real-life learning is different from that in the game. Lu Yang will not be able to learn it all for a while, but after one night, he learned the trick of "Red Lotus". The skill is the same as in the game, dropping the flame lotus in the designated target area.

Each lotus flower is a condensed flame, falling on the target like a flower under high pressure, exploding quickly, forming a violent flame damage. In addition to pure flame damage, it also has burst damage, which is extremely powerful.

Similarly, if you want to use Red Lotus, the magical energy in Lu Yang's tennis-sized soul core will consume more than one-third.

Blazing Demon God said: "Don't release this trick easily, the enemy is easy to avoid, it is best to use it in a sneak attack."

Lu Yang nodded. He also knew that this move alone would hardly have any effect. The flame that fell like a flower petal, before it fell on the enemy, the enemy ran away.

But once this move attacks an enemy that is under control, the powerful burst damage and high flame temperature will make the creatures below the fire demon unable to resist it.

“It’s best to cooperate with the pollen of the three-eyed magic flower, or the three-eyed magic flower urges the cane to cooperate with my attack.” Lu Yang said.

The Blazing Demon God said with satisfaction: “That’s why I taught you this trick first. There is a Tier 3 three-eyed magic flower. When you encounter an enemy that is too powerful, the three-eyed magic flower can’t beat the three-eyed magic flower. use.”

Lu Yang nodded.

Blazing Demon God said with some regret: “It would be great if there could be the kind of fire we saw in the mechanical civilization store, and I could hate your strength improvement.”

Lu Yang looked out the window, it was almost dawn, and said, “It’s not too late to go now, let’s take a look.”

There is a monster’s skin in his backpack. This thing may be useful in the mechanical plane shop.

Blazing Demon God was also a little interested, and said, “You can try it.”

Lu Yang packed his bags and looked at no one on the left and right, and walked out of the school. Not far away was Bingke’s mechanical plane store.

When he came to the door of the store, Two 9th-level internal strength masters are guarding the gate. There are no customers in the shop, only Bingke sits aside boredly, seeing Lu Yang coming, Bingke’s eyes lit up. , Stood up and floated in front of Lu Yang and said, “Welcome, I remember you, you are Lu Yang.”

Lu Yang smiled and said, “Hello, Mr. Bingke, I came to you to ask for a price. I happened to get something. I don’t know what price you can offer.”

“What?” Bingke still smiled.

Lu Yang took out a fragment of monster skin from his backpack and asked, “Do you want this thing?”

Bingke’s red mechanical eyes turned green in an instant, and he looked at Lu Yang in an excited voice and said, “Why do you have such a thing? This shouldn’t exist on your plane.”

Lu Yang looked at Bing Ke with a smile, and asked, “How much is he worth?”

Bingke’s eyes gradually returned to red, and he smiled at Lu Yang and said, “Look at how big this animal skin you can give. If it’s a complete piece, even if it’s in its infancy, his price is 10,000 stars. World currency.”

#### Chapter 2074 - Deal with profiteers

The latest website: In the mechanical shop, most of the items are priced above 50,000 Astral Coins, such as the Tinder named Samadhi Real Fire, and the price even requires 1 million Astral Coins.

If it was exchanged at this price, Lu Yang would need to take out 100 monster skins to exchange it, so how could it be possible to exchange it.

“Your price is not right.” Lu Yang looked at Bingke and said. He had seen it just now. When Bingke saw the animal skin, his eyes changed from red to green, and Bingke’s excited expression at that time. Animal skins should never be at this price.

The Blazing Demon said: “Don’t believe this price. In our world, these scammers like to use the weakness of our pricelessness to deliberately lower the price of the purchased goods. Then I traveled

the universe to find out that they lowered the price at least It's 100 times. I'll give you a reference. Bingke's eyes turn green, which proves that they desperately need this thing, at least 200 times."

"So treacherous." Lu Yang said in surprise. He originally wanted to increase the price by 10 times.

The Blazing Demon said: "Don't be polite with them, and don't worry about turning their faces. These people are businessmen. The businessmen of the mechanical plane have their own rules. As long as they don't fight against them first, they won't take the initiative to launch a war. Their purpose is to make money and improve the strength of the entire ethnic group, not to stir up conflicts."

Lu Yang raised his head and looked at Bingke. When he was communicating with the Blazing Demon God's consciousness just now, Bingke said a lot of nonsense, explaining to him how this thing is worthless, but now he is from the Blazing Demon God. Knowing Bingke's virtues, he said, "Bingke, let's be honest. The strength of this monster is particularly strong. I'm lucky if I can get it. I only have one piece. So, if you want to buy it, just Give me 20 million Star Boundaries. If you agree, we will trade now. If you disagree, I'd rather keep it for future use."

Bingke's eyes turned green again, and he said to Lu Yang excitedly: "You are blackmailing, I will never give you so much money."

Lu Yang smiled and said, "If the negotiation fails, then forget it."

Bingke didn't expect Lu Yang to turn around without a negotiation. For Lu Yang, it didn't matter if this thing was traded or not, but for Bingke, this was something he had to get, because this kind of animal skin produced The place is the Eastern Desolate Galaxy that they dare not enter.

Not only are the Blazing Demon Gods and other world gods exploring the universe, but the mechanical planes are also constantly exploring places where there is life in the universe.

Among the many galaxies that produce life forms, the Eastern Desolate Galaxy is recognized as the forbidden zone of life, where the wisdom of life is low, but it is easy not to leave the Eastern Desolate Galaxy.

All alien species who wanted to communicate with them were killed by them before they could speak. Therefore, merchants on the mechanical plane could not enter, but all creatures in the Eastern Emperor galaxy were treasures for the merchants on the mechanical plane. .

Because the monsters of the Eastern Emperor galaxy are too powerful, causing them to be treasured all over, such as this animal skin. The creatures on the mechanical plane find a lot of weird metals that can be used to make weapons, but the high temperature attached to this weapon And other weird energies are beyond the control of the creatures on the mechanical plane, but if this kind of animal skin is covered outside, it can block the high temperature and weird energy.

In fact, this kind of thing is the most needed thing on the mechanical plane. It is a strategic level material. If you can get this thing and sell it, for Bingke, you can earn countless in the clan. Astral currency, and also allows him to gain super high prestige and honor.

Originally, he wanted to get this thing at a minimum price, but when he saw that Lu Yang was not taking the bait, he became scared. Excited, Bingke stopped Lu Yang and said, "This matter can be discussed."

With joy in Lu Yang's heart, he secretly said to Blazing Demon God: "This guy must be in urgent need of this kind of thing."

Blazing Demon said: "Raise the price, 20 million lower."

Lu Yang hummed in secret, looked at Bingke and said, "Now I have changed my mind. I want to sell 22 million Star Boundary Coins."

Bingke's mechanical eyes came out, and he said to Lu Yang excitedly: "Human, how can you increase the price."

"I love to buy or not." Lu Yang bypassed Bingke and continued walking towards the door.

"It's cheaper, we can discuss it." Bingke's mechanical voice became even sharper when he was anxious.

"25 million Star Boundary Coins." Lu Yang continued to walk.

Bink: "..."

Bingke was completely speechless. Although a piece of animal skin could sell for 500 million astral coins or even 1 billion astral coins in their world, he just felt that the business had lost. But now that Lu Yang has been raising prices all the way, he knew he could no longer let Lu Yang rise, and said excitedly: "25 million is 25 million, it can't go up."

Both Lu Yang and Blazing Demon God were dumbfounded.

"Sell it to lose." Lu Yang and Blazing Demon said at the same time.

"There is no way to go back. After Bingke sets the price here, it is a provocation to them. It can't hurt you in the face, and I don't know what to do in secret." Blazing Demon God said.

"Forget it, he's abiding by the rules and we'll abide by the rules. After all, there are more than 100. I will take out the smallest one first." Lu Yang took out the smallest skin that the monster had shed during its childhood and gave it to Bing. K said, "Get the money."

Even the smallest piece of skin has a length of 20 meters. Bingke is like a treasure. His eyes are green and Lu Yang said, "Doing business with you really loses money. Humans are so smart."

Lu Yang looked at Bingke crookedly, and said, "Don't come to this set. Obviously you have a big deal. I don't know any merchants from other mechanical planes, nor have I been to your planes, but you can sell them at this price. Give it to me to prove that I have indeed lost money. If you dare to make fun of me, I am anxious with you."

Bingke's eyes turned back to red, he let out a mechanical laugh, and stopped talking nonsense. He directly handed Lu Yang a purple card with thunder light, and said, "There are 25 million star coins in it. You want to buy some what."

Lu Yang pointed to the fire of Samadhi Real Fire and said, "Let's do this first."

“One million Star Boundary Coins.” Bingke may be too happy. When talking to Lu Yang, he is no longer so formulaic. Instead, he has a sullen expression, leaning on the counter with one hand, and supporting his chin with the other. Crossed in the void.

Lu Yang was even more tired and crooked, looking at Bingke and said, “A 20% discount is a big advantage for me.”

“Don’t think about it.” Bingke said even more proudly, “You get what you pay for. This thing is worthless in other planes, but if your plane does not have it, it is the most valuable thing. I only sell 1 million, which is already considered polite. Up.”

Lu Yang understood it, but couldn’t make sense with this product. The seller’s market and the goods are the only ones. You don’t buy them here, and you can’t find areas where you can trade in other places. He said, “Okay, I’ll buy it. Give it to me. .”

“Thank you for your patronage, what else do you want.” Bingke threw the fire to Lu Yang carelessly.

He has a lot of these things, and it is very easy to obtain them. In the internal store of the mechanical plane, it is only 1,000 Astral Coins, and he has sold 1 million at a sky-high price.

Lu Yang took the fire and did not use it immediately. Instead, it was stored in the backpack. He continued to look at other items. The first time he had so much money, he wanted to buy some things from Bingke, such as body armor. of.

He looked at the armor area. There were seventeen types ranging from dragon skin soft armor to interstellar battle armor. Among them, the cheapest dragon skin soft armor cost 10,000 astral coins, and the most expensive galaxy armor costs 1 million astral. currency.

Seeing Lu Yang’s needs, Bingke pointed to the Galaxy War Armor and said, “I suggest you choose this one. The Galaxy War Armor is the best in terms of life-saving. Don’t think it’s just a suit of tights and leggings. But when worn on the body, it can withstand the full blow of the Balrog-level creatures. Of course, except for the soul type, the starting price for preventing the soul is one billion astral coins.”

Lu Yang looked at Bing Ke crookedly, and said, "First, let me talk about the shortcomings of this Galaxy Battle Armor."

Bingke said: "Except for Gui, there are no shortcomings. Even if you are hit by your heavy-caliber sniper, you will not suffer any harm. Of course, you just don't get a headshot."

Lu Yang asked, "What can protect your head."

Bingke took out a necklace and said, "The Galaxy Pendant is designed to protect the whole body. The mechanism is similar to your seat belt. When super high speed and super power approach you, it will automatically trigger, but toxins and souls invalid."

"How much is it?" Lu Yang asked.

Bingke said: "5 million."

Lu Yang looked at Bingke speechlessly and cursed, "You are stealing money. I just finished buying things with you. Are you going to make all the money today?"

Bingke shook his head triumphantly, and said, "Good friend, you get what you pay for."

"No discount."

"no discount."

...

Lu Yang didn't use anything. He found out that Bingke was a profiteer and said, "Well, I bought the armor and pendant."

"Friend, you made a wise choice." Bingke was smug.

Lu Yang wanted to give Bingke a punch. In such a while, he had already spent 7 million Star Boundary Coins, and this product was completely robbing.

#### Chapter 2075 - Old things

Latest website: There are things to protect the body and head, and the rest are some special items, such as:

Dense fog scroll, grade: E level, after crushing, a large area of dense fog can appear within a radius of 1 km, price: 100,000 star coins.

Ice thorn scroll, level: E level, after crushing, release an ice thorn spell that a Tier 3 ice demon can play with all its strength, price: 500,000 star coins.

...

Lu Yang didn't have a high demand for scrolls, but he bought one at a total cost of more than 5 million Astral Coins. In case of danger, these scrolls are expensive, but they can save their lives.

Bingke said with satisfaction: "You are really the most generous guest I have ever seen."

Lu Yang laughed and asked, "Is there anything else that suits me?"

Bingke looked at Lu Yang and said, "What you lack now is mana. I recommend a pair of magic bracers, which can store additional mana and automatically absorb magic. It can give you more mana."

Bingke took out a pair of simple bronze wristbands from the counter, but with weird patterns carved on it, magical abilities continued to emerge. He wore it on his hand and felt it. There was not much magic stored inside. Only let him release one more red lotus.

Lu Yang carefully looked at this wristband and frowned. He was too familiar with this wristband. It was the small decorations sold on the street. He said to Bingke: "Are you enchanting, attach a piece to our stuff? Demon sell us as good things."

Bingke smiled triumphantly and said: "It's very correct, but you still can't learn this kind of thing, and you can't get the materials that can be enchanted. Therefore, I am exclusive here, and I sell it not expensive, 50 Ten Thousand Star Boundary Coins."

"Pit." Lu Yang wanted to beat the ice gram more and more.

Regarding simple enchantment, it is also available in the academy and introduced in the game. However, the materials for enchanting are special. Only magic equipment in another world can decompose related materials. No one has seen it yet.

"Okay, I bought it, but you need to cover up the magical aura for me, so that no one can tell that I am wearing a magical bracer." Lu Yang said.

"Of course." Bingke took the magic wristband and wiped it with his hand, and the magic aura disappeared. He said to Lu Yang, "Originally, he didn't have magic fluctuations. I deliberately showed it to you."

Lu Yang: "..."

He put the wristband on his hand and said to Bingke: "Thank you for the last thing, don't tell me about my coming to you tonight."

Bingke looked at Lu Yang with a smile, poked his head and said in a mechanical voice: "Don't worry, we will never reveal the secrets of our customers here. This is our criterion for businessmen."

Blazing Demon said: "This is indeed their business rule, you don't need to worry."

Lu Yang breathed a sigh of relief. Originally, he was a little worried that Wang Shijie and the others would know about getting the monster skin. Now he can relax and he said to Bing Ke, "Thank you, goodbye."

Bing Kegong sent Lu Yang to the door and said, "Welcome to come again next time. If I have something good, I will still need it."

Lu Yang was too lazy to talk to Bingke and walked straight to the academy. When he arrived at the gate of the school, the sky was already bright. Fu Nian and Fu Yun were standing at the gate, with more than a dozen people standing behind them. It is light and simple.

"Why did you come from outside?" Fu Yun asked with a smile when he saw Lu Yang walking over.

Lu Yang said: "Can't sleep, go out and go around, shall we leave now?"

"Of course, I'll introduce it to you when we are on the road, and we will leave now." Fu Yun said, pointing to the off-road vehicle not far away.

Fu Nian said, "I will go to the back, and you will lead the way in front."

Fu Yun nodded, and led Lu Yang into the first Yueyue car. The one who was in charge of driving was a 7th-level master of the Earth Mage, whose name was Zhang Cheng.

On the way, Fu Yun introduced to Lu Yang one by one. This time they were followed by Qin Fei, Level 8 Thunder Mage, Level 7 Water Mage Zhang Yang, Level 8 Fire Mage Zhang Lei and others.

Lu Yang asked curiously: "I have always wanted to ask you one thing, why are you all of such a high level? It's only a year."

Fu Yun laughed when he heard this, and put his arms around Lu Yang's shoulders and said, "Brother, you don't know, we have been in contact with otherworldly gods a few years ago, but the gods we have come into contact with are all old gods, they Claiming to be usurped by the new gods, they fled to our plane, and the first few distortions were broken ten years ago. In fact, we people have been practicing for 10 years, and we are not practicing. This year."

Lu Yang's heart moved. This is the same as the Blazing Demon God said. He curiously asked, "Where are those old gods?"

Fu Yun smiled, and said to Lu Yang: "If it wasn't for your kid who has an enmity with the new gods among the alien gods, and just ask this sentence, we will wonder if you have ideas about the old gods."

"What do you mean?" Lu Yang asked.

Fu Yun sighed and said, "In fact, something happened here. Someone wants to kill the old gods and get their energy directly. You think, the high-end weapons in our world are also very powerful, even if they can't. Killing the gods in the heyday, but it is still possible to kill an old god. I can only tell you that a few of the old gods were killed, but unfortunately, those people did not get the strength of the old god, on the contrary. Backed by the old god."

Zhang Lei sighed and said: "If it weren't for the incident a few years ago, if the old gods still existed and our main members also existed, the current crisis is not a big deal, but it's a pity."

Fu Yun sneered and said, "Now those people are all dead, and the mess left is for us to clean up. We don't know if the remaining old gods are alive, but we can basically be sure, Three of were killed 100%, which also caused our current practice to be incomplete, so we had to rely on the power of the temple to help."

Lu Yang said, "No wonder you can live in harmony with the temple. It turns out that you also have enemies with the old god."

Fu Yun cursed: "It's not us, it's the dead bastards. We really treat the old gods as gods. They are also good to us. Now that we are like this, those of us who are alive are the most unlucky. Wandering between life and death every day, what day?"

Lu Yang sighed and said, "Indeed."

In his consciousness, he said to the Blazing Demon God: "Man, are you okay."

Blazing Demon God showed a wry smile and said, "What do you think, an old friend who has known each other for hundreds of thousands of years, if I am the only one left, it would be pretty boring."

Lu Yang asked, "Can't they be resurrected? Where are their god-heart fragments?"

The Blazing Demon said: "There should be some alive. These guys are not that easy to die, but they shouldn't have the ability to show up again."

## Chapter 2076 - Ghost Beast

Latest website: Perhaps the topic was a bit heavy, and the people in the car stopped chatting much. Lu Yang understood the cause and effect of the matter, so he stopped talking.

Sitting quietly in the car, two hours later, the car drove out of the city and came near a reed field.

Fu Yun patted Lu Yang on the shoulder, led him out of the car, and said, "This is the place we are going to explore."

Lu Yang looked around carefully. He found that this is a very vast wetland. Fu Nian walked over from behind and said cursingly, "I don't recognize it. Tell you, this was a famous wetland park before. Tickets It's all free, and these brothers and I often came here to play when we were young."

Fu Yun said to Lu Yang, "I heard that there is a dragon by your side, can you let him fly to the sky and show us the way."

Lu Yang shook his head and said, "Sorry, my dragon stayed with my wife. I didn't bring it this time."

Fu Yun was a little sorry. Fu Nian, Zhang Lei and others surrounded him in surprise. Fu Nian asked with bright eyes, "My brother, how did you get it."

Lu Yang smiled, and said silently, "Why did you get it? It almost died in his hands. The East China Sea was in chaos at the time. We people learned spells from the temple, but the temple taught the worst at that time. The method of cultivation was the arrival of the academy, and we changed the method of cultivation.

After I wanted to go out and see what was going on outside, I ran into the dragon. Unfortunately, less than a month after the little guy was hatched from the dragon's egg, a brother of mine managed to get the approval of a white elf. , I defeated him by cutting through the defense with the air blade. Because I didn't want to die, I took the initiative to follow me. "

On the one hand, Fu Yun and Fu Nian felt that Lu Yang was lucky. On the other hand, they could also think of what the situation in the East China Sea was like at that time.

Zhang Lei slapped Lu Yang on the shoulder and said, "Brother, I admire you, you did a beautiful job. The 3 million people of Donghai are alive. You have done a great job."

Lu Yang smiled helplessly and said: "It was all forced out. I was about to be the richest man in the world, so I went back to Xinshou Village to re-train. You said I was wronged."

"Haha..." Everyone laughed.

Fu Nian released the drone and took pictures of the surrounding scenes. Unfortunately, before waiting for two more minutes, an unknown bird broke the drone.

Fu Nian sent the picture to Lu Yang's arm communicator and said, "Look, this is what the wetland looks like. The intrusion of magical energy has made the vegetation here more lush, but the general path is still I can see it."

Lu Yang chose a three-dimensional projection screen in front of him. Fu Yun and the others gathered around Lu Yang, pointed out various ways to enter and exit to Lu Yang, and marked them.

"Unfortunately, there is no drone, but satellites can lock the positions of a few of us. Everyone must turn on the communicator at any time. As long as you are on, the satellite can point you out the way at any time." Fu Nian said.

Lu Yang nodded.

Fu Yun continued: "This time I am still responsible for leading away the Tier 3 monster. Lu Yang took Fu Nian and Zhang Lei to steal their cubs."

"Okay." Everyone nodded together.

Fu Yun looked at Lu Yang, patted his shoulder and said, "Brother, you are the only perceiving mage. It's all up to you."

Lu Yang nodded and said, "Let's go."

He wasn't a perception mage either. Everything relied on the Blazing Demon God. Wang Lei and Ma Cheng walked quickly to around Lu Yang. They were martial artists, and they both reached level 2 and level 5.

In terms of strength, the two can instantly kill anyone, including Fu Yun, at this close combat distance, but they are Fu Yun's best brothers and Fu Yun's most capable assistants, sharing hardships and life and death together. I don't know how many times.

“We have explored here before, and there have been a large number of invisible ghost beasts. They are similar to lizards and more like mimic octopuses. They are obviously in a wolf-like state, but they can instantly turn themselves into things like reeds. Very weird,” Zhang Cheng said.

Wang Lei continued: “The main problem is still stealth. Ordinary ghost beasts are not strong and have very strong stealth capabilities. We suffered a lot before, and radar and infrared scanning could not find them.”

Lu Yang was a little confused. He thought he was looking for a monster hidden in the reeds, but he didn’t expect it to be an invisible monster. He said to the Blazing Demon God, “What is the ghost beast?”

The Blazing Demon God smiled and said: “You should know the ghost beast best, because the invisibility staff in your hand is polished from the bones of the fifth-order ghost beast. Don’t worry, I can crack the ghost. The invisibility of the Shadow Beast is not difficult for them to find.”

Lu Yang frowned and said, “Then when I am invisible, if there is a Perception Mage in the enemy, am I going to die too.”

The Blazing Demon said: “No, yours is made of the bones of the fifth-order ghost beast, unless the opponent is a sixth-order creature, and you don’t understand the strength of the fifth-order ghost beast, you are not yet third-order, think about it Look, how strong this is.”

Lu Yang shrugged his shoulders and continued to walk towards the front. After walking for half an hour, suddenly, the Blazing Demon God heard a message, saying: “There is a ghost beast 50 meters ahead, just on the left and right. In the reeds on the side.”

With this, the Blazing Demon God commanded Lu Yang’s body, raised his fingers to the sides of the left and right reeds, in the direction of 11 o’clock and 1 o’clock, and said a spell.

“Pyroblast”

Two huge fireballs hit the turquoise reed pole, but before the flames hit, around the reed pole that was originally waving in the wind, a giant wolf with two corners on its forehead was instantly revealed, and it landed. Yang rushed over.

“Kill them. Fu Yun and Zhang Lei reacted extremely quickly, and immediately played magic skills, and the two brothers Zhang Cheng and Wang Lei also rushed up with shields and short knives.

Ordinary ghost beasts are only level 2. They are good at invisibility and mimicry. They are not strong in frontal combat, and they are killed in an instant.

Taking advantage of the time when the brothers Zhang Cheng and Wang Lei were skinning, Fu Yun turned around and said to Lu Yang excitedly: “Good job.”

Lu Yang breathed a sigh of relief and smiled at Fu Yun. In fact, he was almost hit just now. Although protected by armor, it was scary enough. Fortunately, Zhang Cheng and Wang Lei reacted faster.

Only then did he understand the strength of the fifth-order ghost beast that the Blazing Demon God said. He asked Fu Yun: “You should also be catching the ghost beast, what strength is that.”

Fu Yun shrugged his shoulders and said: “Level 3, still an adult, entered our world through twisted time and space, and was seriously injured. I gave birth to cubs during the healing process. Then I dare to come over. Otherwise, I will not Dare to come.”

Lu Yang took a deep breath, and he didn’t expect the enemy to be so powerful.

Chapter 2077 - Alien Clone

Text Chapter 2077

Lu Yang had seen the strength of level 3 creatures with his own eyes. The Five-Eyed Demon King could knock a Level 2 Magister on the spot with a single blow. The difference between the two levels was like a cloud of mud, and there was no comparison at all.

Fu Nian said: "That is to say, we are lucky, and there is a perception mage like Lu Yang. Otherwise, we might not know when the invisible ghost beast killed us."

Fu Yun, Zhang Lei and the others nodded. When they looked at Lu Yang, they liked it even more. Even though Lu Yang was weak, Lu Yang's effect was too great.

"It's a pity that your task is too heavy, otherwise I will definitely keep you." Fu Yun said with a sigh.

Lu Yang shrugged his shoulders with a smile, and continued to lead the team forward. The group killed a large number of ghost beasts in succession, and finally walked to the center of the wetland.

There is a building here with the Wetland Park Management Center written on it. Fu Yun said: "Let's rest here first, and wait until midnight before we go."

Fu Nian said, "Check the situation in the room."

Lu Yang scanned it and said, "There are no monsters inside, let's go in."

The crowd nodded, and Fu Yun headed into the room. The group rested. Lu Yang asked curiously: "How do you determine the approximate location of the Tier 3 ghost beast?"

Fu Yun took out a pack of compressed biscuits and said to Lu Yang as he ate: "The Ghost Beast needs to be close to a place that distorts time and space to regain its strength. Through satellite scanning, we found that there are three cracks here. We can find them in these three places. It's here."

Lu Yang understood. Obviously, it was not the first time that Fu Yun and the others came here to investigate. They had already found the location of Tier 3 Ghost Beast.

Fu Yun continued: "The work and rest of the ghost beast is similar to that of humans. They will also rest at night. My current strength is the second-tier peak, and there is a treasure borrowed from the mechanical plane. The ghost beast can't kill. It's up to you if I can steal it later."

Fu Nian hugged Lu Yang's shoulder and said, "Don't worry, we are absolutely fine."

Lu Yang laughed and had a life and death experience. Fu Nian regarded Lu Yang as a real brother. He said, "I will do my best."

Fu Yun nodded, stopped talking, and didn't know what he was thinking, but Fu Nian wanted to continue talking but was stopped by Fu Yun.

For a while, everyone fell into an inexplicable silence, leaving only the crackling sound of firewood lit by fire.

Lu Yang saw that no one was chatting. He sat on the ground and his consciousness entered the Demon God Temple. At this time, the Blazing Demon God was studying the fire of the "Sanmai True Fire" bought from Bingke.

"What is this thing for?" Lu Yang asked.

The Blazing Demon God chuckled, and put his arms around Lu Yang's shoulders and said, "Brother, you are really lucky. The thing that Ice Ke sells you must be the wrong thing. This thing is definitely more than the price of 1 million Star Boundary Coins. ."

Lu Yang's eyes lit up and he asked, "Do you know what this is?"

"Of course." Blazing Demon God was extremely proud, and said with a laugh: "Who am I, Blazing Demon God, this thing is extremely rare on our plane, although many things have similar effects to him, There are many similar appearances, but if it is genuine, we fire gods will also \*\*\*\* it."

Lu Yang found a problem and smiled and asked, "Aren't you the Fire God King? Why are there other Fire Gods robbing you."

The Blazing Demon God glared at Lu Yang and said, "Do not inquire, let me talk about this fire first, and tell you, if you can fuse this thing, he will let you have an extra clone, a clone full of fire energy. ."

“What do you mean?” Lu Yang asked.

The Blazing Demon God smiled and looked at Lu Yang, and said, “Okay, I’ll change it for you.”

A ray of light flashed from the Blazing Demon God, and one Blazing Demon God suddenly became two. Lu Yang frowned and said, “Obviously the one on your left is fake.”

The Blazing Demon God looked at Lu Yang crookedly, and said, “I can’t help but dismantle the stage. Isn’t my strength greatly reduced? I tell you, if I am in his heyday, I will have more than a dozen clones.”

“You are amazing.” Lu Yang said silently.

The Blazing Demon God snorted and said: “This thing gives you one more clone. It can completely simulate your appearance, and you can inject all the mana into the clone. Once the clone is close to the target, you can Die with the enemy.”

Lu Yang was a little surprised, and asked, “One-time or permanent.”

The Blazing Demon said excitedly: “Of course it is permanent. You only need to provide magical energy to the fire, and he will naturally borrow your body’s cells to create a clone. If you don’t take the initiative to throw or destroy the fire, he will always Exist, and with your strength, you can’t even destroy the fire.”

Lu Yang: “...”

“Okay.” Lu Yang already liked the fact that the Blazing Demon God hit him when nothing happened, and asked, “Then what should I do now?”

The Blazing Demon said: “Put the fire into your soul core, and you have become a magister, otherwise you are not qualified to use this thing.”

Lu Yang rolled his eyes and absorbed the fire into the Soul Sea according to the method taught by the Blazing Demon God. In the Soul Sea at this time, a baseball laughing soul core was floating in the magical energy, and the fire entered the soul core. In an instant, the fire seed seemed to have found its home, and it burned with the energy in the soul core.

The entire soul core has become extremely bright, but the energy consumption in the soul sea is extremely small, and even Lu Yang can't absorb energy normally.

Lu Yang carefully felt the fire. The fire seemed to be completely integrated with Lu Yang's soul core. It was so indivisible, as if it existed inside.

"Not bad." Blazing Demon God said excitedly.

"Indeed, I can feel the energy of the fire, and I really want to test it right away." It was also the first time Lu Yang encountered this kind of thing, and there was an extra clone, which made him feel very novel.

"Don't experiment for now, don't let people discover your secrets. If you are discovered, be careful that they kill you." Blazing Demon God said with a smile: "You know, the actual price of this thing should be in the billion star realm. Around the currency, I don't think your price is more expensive than one billion Star Boundaries."

"Agree." Lu Yang said with a smile.

His consciousness returned to the body and continued to rest quietly. , Until two o'clock in the middle of the night, Fu Yun suddenly opened his eyes and said: "The time is almost there, we can set off."

Lu Yang nodded, quickly packed his things, and followed Fu Yun, Fu Nian and others to the outside, they were going to steal the ghost beast.

Chapter 2078 - Bata Demon

Text Chapter 2078: Bata Demon

Walk straight along the northeast of the wetland park rest area, after passing through a forest, come to a lake near.

On the surface of the lake, there was a huge distorted space-time radiating purple arcs. Fu Yun frowned when he saw this distorted space-time, and said, "It's not right. When I came last time, the twisted space-time was only more than 1 meter long. How come it is now 5 meters long."

Lu Yang looked at Twisted Time and Space, surrounded by purple arcs, and the inside of Twisted Time and Space was as dark and mysterious as the starry sky.

A large amount of mysterious energy gushes out from the twisted time and space like spring water. This power falls into the lake water, and the entire lake becomes colorful.

Countless elves are jumping and flashing on the lake, making the night here look extremely wonderful, and on the shallows on the east side of the lake, under two huge trees, there is a huge ghost beast lying there.

The whole body of this ghost beast is black and gray, with two huge bends on the top of its head, its body length is more than 5 meters, and two pointed fangs grow out of its mouth.

Under this ghost beast, there are two very small ghost beasts drinking milk. They are about the size of young cat cubs and are very cute.

Fu Yun looked at Lu Yang and Fu Nian and patted them on the shoulders, then quickly ran to the right, screamed at the shadow beast, and performed a fire explosion technique.

The third-order ghost beast opened his eyes instantly and looked at the blazing flames, his eyes showed a mocking look, and there was a loud whistle in his mouth, and the strong wind spell blew the flame explosion technique into the lake.

"Woo~!" The Shadow Beast let out a long cry, and leaped forward towards Fu Yun.

"Hot and Fast"

Flames rose from under Fu Yun's feet, turned and ran.

The two quickly disappeared into the dense forest in the distance. Fu Nian looked to the left and right, and was about to act, but found that there were a large number of ghost beasts approaching the two ghost beast cubs. Obviously, the shadow beast just now The howl of the beast was for his men to protect its two cubs, not to help her attack.

"How come there are so many." Fu Nian said with some surprise.

Zhang Yang jumped out and said with a chuckle: "Come on, let's start fighting."

Qin Fei carried lightning all over his body and said with a laugh, "Look at me."

The two condensed spells, and outputted them madly. Fu Nian was a little speechless and jumped out and output them together.

On Fu Yun's side, only one person led away the Tier 3 Shadow Beast. There were more than 10 people on Lu Yang's side. When they were output together, the Tier 2 Shadow Beast died extremely fast.

The ghost beasts are only powerful in stealth, and they want to sneak in stealth. Lu Yang pointed out their location, and they were killed by Fu Nian one after another.

The group of people quickly killed the nearby ghost beasts, and then quickly came to the little ghost beast, Fu Nian took out the special magic pocket, and grabbed the two little ghost beasts in.

"Let's kill it." Fu Nian said excitedly.

"Yeah." Qin Fei and the others led Lu Yang all the way out, while the ghost beasts running nearby saw that the cub of the leader had been taken away. They all showed furious expressions and surrounded Fu Nian and Qin Feng and they desperately died. Attack and kill.

Just as the battle between the two parties became more and more intense, and the ghost beasts seemed to be unable to kill them, suddenly all the ghost beasts stopped, their eyes blankly looking at the twisted time and space above the distant lake.

The original purple arc didn't turn into a black flame. Suddenly, the distorted space-time was stretched to a width of 20 meters. At the same time, a large number of crimson-colored humanoid monsters with ugly faces were distorted. Jump out in time and space.

“Hi~~Roar!”

After the humanoid monster fell in the lake water, they quickly came to the shore. They were about 3 meters tall. They had a long knife with black flames in their hands. Their whole body was naked, and only the waist had a leather pants of unknown material. The muscles of the whole body are extremely strong, and it seems that the whole body is full of strength.

Among these humanoid monsters, a humanoid monster nearly 5 meters tall is the most powerful. He is holding a silver warhammer and braving black flames.

The monster standing on the wet ground on the shore grinned open, showing his mouth full of fangs. He laughed and shouted and didn't know what to say. The first batch of monsters that jumped down next to him raised their swords and looked towards them with a grin. Lu Yang's side.

Facing these monsters, the ghost beast seemed to have seen something extremely terrifying, and quickly escaped in stealth, while the monster's target was only Lu Yang and Fu Nian.

“What is this?” Fu Nian looked at the group of humanoid monsters in surprise.

Lu Yang was also curious, but Blazing Demon God said excitedly, “Run, this is not a creature in my world, it's a creature from another plane, called the Bata Demon. All of them are creatures of level 3 or higher, the leader. It should be the pinnacle of Tier 4 or Tier 5.”

“Run~!” When Lu Yang heard this, he knew whether he could go out alive today. He pulled Fu Nian and the others around and ran away.

Fu Nian and the others hadn't reacted yet, but in the next second, the Bata demons used their hands without knives to shoot out black flames.

Qin Fei didn't react for the first time. He was hit by the flames and instantly burned to ashes, and he couldn't even see the bones.

Only then did Fu Nian and the others know how powerful the monster that came, and they ran quickly, but the Demon Bata obviously didn't spare Lu Yang and the others, and followed closely behind.

The running speed of the two was almost the same, and they were able to throw black flames while running, and two more people died in an instant.

Fu Nian said excitedly: "You can't get together and run. Everyone quickly separates. One escapes."

Everyone also understood that the goal of gathering together was too obvious to avoid the opponent's attack. For a while, the remaining seven or eight people ran towards the surroundings.

Lu Yang ran forward alone. When he arrived in the forest, he didn't care about anything else. He took out the thick fog scroll in his hand and crushed the magic mark on the scroll. Suddenly, the thick fog instantly moved a kilometer around the forest. The area inside fills up.

He turned on the communicator on his arm. There was a satellite positioning system on it, and he could clearly see where he was. If there was no such thing, he would not know where to go.

On the other side, Fu Nian and the others were running, and the sudden thick fog made them all breathe a sigh of relief, turned on the satellite positioning on the phone, and ran towards the place they agreed.

Facing the dense fog, the Bata demons had no choice. The leader was afraid that his men would be attacked after entering, so he ordered to stop the pursuit and returned to the distorted space-time position.

Looking at the Bata demon that continuously jumped out of the warped time and space, the leader's face showed a grinning expression. It was obvious that another intelligent creature appeared on this planet.

Chapter 2079 - Kill halfway

Text Chapter 2079 Halfway Kill

After half an hour, Lu Yang ran to the entrance of the Wetland Park, where Fu Nian, Fu Yun and others were already standing there.

Seeing that several people had died again, several people did not care about their sorrow, and quickly got on the off-road vehicle and returned to the imperial capital. When they returned to the academy, Fu Yunla, Lu Yang, Fu Nian and others returned to the office.

"The enemies here in the imperial capital are getting stronger and stronger. The monsters that suddenly appeared this time probably need to be killed with powerful weapons." Fu Yun frowned.

Fu Nian sighed and said: "Our strength can't catch up with the monster's level. It's too difficult."

Fu Yun shook his head helplessly. He looked at Lu Yang and said, "Brother, I have been hiding something from you before, this time I know you are going back to the East China Sea, so I have to tell you in advance."

"What's the matter?" Lu Yang asked.

Fu Yun thought for a while, and said, "How do you put it, do you know how many forces the imperial capital currently has?"

Lu Yang shook his head and said, "I haven't had time to understand yet."

Fu Yun sighed and said: "Now the imperial capital has four most powerful forces. The first is our academy. It is composed of the remaining old apprentices and is the biggest protective force in the imperial capital."

"The remaining three forces are almost equal, they are the temple, the mercenary guild, and the house of warriors. Among them, you know the temple best. The mercenary guild is the gathering place for the martial artists and wizards who have cultivated themselves."

"The house of warriors is all composed of martial artists of the family. For now, all parties are nominally united, but small movements continue. In the near future, they are all preparing to send people into the East China Sea. I will pass their information to you. You must be careful. response."

Lu Yang was not too surprised. After seeing the situation in the imperial capital, he knew that sooner or later there would be other forces in Donghai City. He asked, "Will the temple also send people?"

Fu Yun nodded, and said, "Not only did it send people, but it also sent a 500-person Templar Order and 1,500-person Mage Order, all with strength between the top of Tier 1 and Tier 2."

There was a cold expression in Lu Yang's eyes. The purpose of these people was very simple. They were to kill him. In that case, Lu Yang could only act first. He said to the two of them, "I will leave tonight."

Fu Yun handed over a letter of appointment to Lu Yang, saying, "This is a formal appointment that allows you to form a guild. From now on, your guild will be officially recognized. You can attack outside in the name of the guild, and everything you get is Owned by your guild."

Lu Yang's eyes lit up and he took the appointment letter and looked at the contents.

Appointment letter:

The world turned over and the world changed drastically. Due to lack of domestic strength, Lu Yang was allowed to form the Jagged Brothers League to ensure the safety of the East China Sea. Half of the taxes in the East China Sea belong to the Jagged Brothers League.

The last sentence of this appointment letter is the same as it did not say, where is there any tax. What really made Aunt Lu Yangzi was the previous sentence, allowing Lu Yang to form the Iron-Blood Brotherhood. With such a sentence, the Iron-Blood Brotherhood officially got the official Approved.

This was a big gift from Fu Yun. He said to Fu Yun, "Thank you. With this thing, we will be more secure."

Fu Yun smiled and said, "You deserve it. In addition, there is one more thing. Let's say in private that we don't care about everything that happens during the war in the future, as long as it is not someone who hurt us. Do you understand? "

Lu Yang smiled. How could he not understand? With this sentence, he will not participate in the future battles with the temple and other organizations. He clasped his fists to Fu Yun and Fu Nian and said, "Thank you. "

Fu Yun was a little tired, and said, "We are not easy. We strive to come back alive. I look forward to our next meeting. Fu Shi, I will send Lu Yang off."

In the battle just now, Fu Yun was beaten badly by the Tier 3 Ghost Beast and needed to rest. Lu Yang had to leave, and he and Fu Nian left the dean's office together.

That night, Fu Nian sent Lu Yang to the airport. There was a helicopter to send Lu Yang back to the East China Sea.

Fu Nian looked at Lu Yang as he boarded the plane, and said, "Brother, it's the old saying, you must live. To live is better than anything else."

Lu Yang nodded and closed the door of the helicopter. The plane took off at night and flew towards the East China Sea.

The pilot who flew the plane was still the one who sent Lu Yang, which made Lu Yang feel very kind. After chatting with the pilot for a while, he became a little sleepy, leaning against the co-pilot's chair. Although not very comfortable, he can finally rest for a while.

This time he came to the imperial capital, and he has made a lot of profits. After returning, the red spirit fruit in the Demon Temple can at least enable hundreds of people under his staff to increase their strength to the Magister, and he can always provide them for those who join later. , Up to at least 5,000 people can become magisters.

With this strength, Donghai City will be able to regain it, and can also take the killed monsters to the Imperial Capital to sell Bingke for money, and his brothers can follow him to continue to improve their strength.

Just as Lu Yang was thinking about these things, suddenly, the three-eyed magic flower in Lu Yang's arms was alert, and the Blazing Demon God also simultaneously issued a warning.

"Be careful, this pilot has a problem." Blazing Demon said excitedly.

Lu Yang quickly opened his eyes and charged the Lieyang fist with his right hand. At this moment, the pilot of the helicopter turned his head, still holding a spiked dagger with purple light and black flames in his hand.

"Lu Yang, the gods are guilty of betraying you, I'm going to kill you." The pilot stabbed towards Lu Yang with a crazy expression.

In such a narrow place, Lu Yang had no room to escape. The three-eyed magic flower in his arms quickly turned into a vine to block him, but when the dagger pierced the vine, the purple light and black flame quickly cut the vine.

"A Tier 3 golden weapon." Blazing Demon God said in surprise.

Lu Yang didn't care about Blazing Demon God's words. Just as the driver's attack hit the vines, he finally found the opportunity to hit the driver's chest with Lieyang fist with his right hand.

“boom”

The pilot was directly beaten into dross by Lu Yang, and at the same time, the helicopter was also affected by Lu Yang’s flames, smoking everywhere, and seeing it began to fall.

Lu Yang ignored his sadness and picked up this strange purple weapon. When the helicopter fell to a height of 50 meters above the ground, he jumped down.

The three-eyed magic flower instantly created a vine connection and sent Lu Yang to the ground safely. After he landed, Lu Yang patted the three-eyed magic flower. Only now did he know how useful this little thing was.

Lu Yang said to the Blazing Demon God: “Unexpectedly, the temple is so brainwashed that even the pilots who transported me back and forth were corrupted by them.”

Blazing Demon God also sighed, and said, “Think about how to go back. It’s only been two hours after flying out. Do you know where it is?”

Lu Yang turned on the communicator on his arm, and the satellite immediately marked his location, which was about 100 kilometers away from the East China Sea.

“Fortunately, it’s not too far away, I have a supply point near here.” Lu Yang said.

The Blazing Demon chuckled, and said: “You kid is smart, you have your supply points everywhere.”

Lu Yang shook his head helplessly, and said, “I don’t know what the world will be like at that time. For safety, I have set up a lot of such supplies not only in Donghai City and Donghai Province, but also in some provinces outside the region. Point, what I thought at the time was that even if I thought about it a lot, I should buy some land and sell it later. I didn’t expect it to help me a lot.”

He dialed Fu Yun’s phone and said, “To tell you the bad news, my driver was brainwashed by the temple.”

Fu Yun was meditating, his eyes widened suddenly, and asked, "Are you okay?"

Lu Yang smiled and said, "I'm fine. The pilot was killed by me, but the plane crashed. I have a way to go back here. I don't need to come and help me, so as not to be discovered by the temple. Please pay attention. Corroded, this matter is too big."

"I see." Fu Yun said solemnly.

Lu Yang hung up the phone and turned off the entire intercom. and threw it into the Demon Temple. In this way, no one could track him down.

Although he believed that this matter had nothing to do with Fu Yun, he could not completely trust anyone for his own life and his family and brothers.

The other side.

A military officer in charge of monitoring all the communicators saw that Lu Yang's communicator had disappeared. He looked around and quietly sent a message to Wang Shijie, saying: "His Royal Highness, Lu Yang's communicator has disappeared."

Wang Shijie who planned the incident was waiting for news from his subordinates. The pilot did not reply, and Lu Yang's intercom had disappeared. This made Wang Shijie kick over the table. He knew that Lu Yang must not be dead.

"Damn it, send the Dark Temple Mage to start looking at the place where Lu Yang's plane landed. You will see people in life and corpses in death." Wang Shijie roared.

At the moment, several private helicopters took off from the outskirts of the Imperial Capital and found the location of the crash in just an hour.

A second-tier and first-level wizard and three first-tier peak wizards stepped off the plane and looked around carefully.

The second-order mage is a middle-aged man, and his eyes are always frantic. He said to the three people around him: "Information shows that Lu Yang is a first-order peak mage. Look for a group of three to the right. I look to the left and I must find his place."

"God has judged his death, he must not live." The three people walked towards the right side with frantic expressions.

The middle-aged man walked to the left alone, but what they didn't know was that Lu Yang was hiding not far from them at this moment. Watching this scene, a sneer appeared at the corner of his mouth, and he turned towards the middle-aged man. People walked over.

Chapter 2080 - Against Zhang Yuan

Text Chapter 2080 vs. Zhang Yuan

The location where the helicopter crashed was in a jungle. On the right side of the jungle is a paddy field, and on the left is a village.

From the time Lu Yang entered the imperial capital to Lu Yang left, he did not reveal any treasures, nor did he expose the red night and the three-eyed magic flower. It made people feel that Lu Yang was a lucky poor boy who had left in the imperial capital. Once, he was determined to be an ordinary person who had no talent and returned to the East China Sea.

Since the helicopter had crashed, without any treasure, Lu Yang, even if the magician of the first-order peak fell from a height of tens of meters, he would be seriously injured if he didn't die.

There is no blood on the ground. It can be considered that Lu Yang used spells to clean up the traces, but Lu Yang will most likely hide in the village, looking for some emergency medicine, or, panicking, ran in the direction of the rice field to escape.

The middle-aged people who chased Lu Yang were more inclined to go to the village. After all, the helicopter was high in the sky and it was normal to see the village below. Therefore, he let the three men go down and look at the location of the low probability direction. He came This area with a high probability of Luyang.

Unfortunately, the middle-aged man had guessed wrong. Lu Yang was not injured at all. He followed the middle-aged man and came to the entrance of the village. Lu Yang showed his figure.

The middle-aged man was curious about the road, but he couldn't find any traces of Lu Yang. Suddenly he heard a sound behind him. He suddenly turned his head. The torch in his hand was illuminated by the torch and he saw that it was Lu Yang. Show a look of joy.

"Boy, you really are hiding here." In the middle-aged man's excitement, a piece of ice appeared on his right hand and said to Lu Yang: "Boy, my name is Zhang Yuan. Remember, when you reborn in your next life, don't fight against the temple. ."

Lu Yang looked at Zhang Yuan with a smile, and said, "It turns out that you are from the temple. I thought you were going to pretend to be here to save me."

Zhang Yuan laughed loudly, and said sarcastically, "Is it necessary? I'm a magician. I'm still a magician to kill you. I'm still an ice method. After defeating your fire method, why should you fight me?"

Lu Yang also laughed, moved his body, and said, "I also want to try the new trick I learned recently, and try it with you."

"Hot and Fast"

A flame emerged from Lu Yang's feet and rushed towards Zhang Yuan. From a distance, it was like a flame rushing towards Zhang Yuan.

Zhang Yuan didn't care about Lu Yang's offense. He showed a mocking smile on his face and said a spell. Suddenly, an ice wall formed in front of Zhang Yuan, and then countless bulges appeared on the ice wall, and a large number of ice thorns were on the ice wall. The upper part formed, and then, like a dense rain of arrows, it shot towards Luyang.

This is one of the most powerful skills of the ice magister, taking into account both attack and defense. Normally, an ice magister needs to practice for a long time to release this skill, but Zhang Yuan and the

others believe in another world. The magisters of the gods are different. They rely entirely on the ability to summon ice spirits and let them release.

Lu Yang knew from the Blazing Demon God that such an ice magister was not terrible, and that such magisters were completely at a disadvantage when fighting at the same level. What's more, the ice and fire itself restrained each other, not the ice system completely restrained the fire system.

“Pyroblast”

Lu Yang chanted a spell as he ran. Pyroblasts with a diameter of half a meter were formed in front of him, slamming into the ice cones shot out of the ice wall.

The ice thorn is about the size of a carrot. After crashing into a fireball with a diameter of half a meter, it was instantly melted by high temperature and turned into gas to dissipate in the air.

More than 20 ice spurs could break up a fireball that was one and a half meters in size. During the 30-meter distance Lu Yang ran, a total of 5 fireballs were shot, while Zhang Yuan's ice spurs shot more than 50. As for the two and a half fireballs hitting the ice wall, they directly exploded the ice wall, revealing the horrified face of Zhang Yuan who was hiding behind preparing for the next spell.

“Lining Yang Fist”

Lu Yang punched Zhang Yuan with his right hand, and just as the flame-filled fist was about to hit, a piece of ice appeared in Zhang Yuan's abdomen.

“boom”

With a loud noise, Lu Yang blasted Zhang Yuan away, but did not cause fatal damage to the ice sheet. After landing, Zhang Yuan looked at Lu Yang in horror and said, “You, you are not a magician, you have already been promoted to a magician. ?”

Lu Yang sneered and looked at Zhang Yuan and said, “Yes, I'm already a magister. The reason I didn't say it was because I was waiting for you to get the bait.”

At the level of Magister, among the members of the temple, there are not many. Killing one is only one. After all, it is so difficult for otherworldly gods to send their underlings here, let alone directly create high-level wizards.

If alien gods have that ability, they don't need to send an army of aliens. They can directly rule the human world with the temple mage who betrays humans, and then use human sacrifices to expand the warped time and space before welcoming them. Just come here.

Since this method didn't work, it proved that the number of enemy magisters was extremely rare. That's why Lu Yang had this idea of ambushing.

Zhang Yuan never thought that Lu Yang's purpose was to kill him, but he was not afraid, but showed a grinning expression, and said, "Boy, you are unlucky, if today you meet someone from another temple Magister, you really have this possibility, but I am different from other people. Feel how powerful I am, a person with an ice spirit."

"Ice Shield"

A white elf was flying around Zhang Yuan. At the same time, four ice walls appeared around Zhang Yuan's body at the same time, completely shielding him. Even his feet were protected by an ice wall, but this ice wall was not that kind of opaque, but completely transparent ice wall, like glass, Lu Yang can see Zhang Yuan inside, and Zhang Yuan can see Lu Yang outside.

"Boy, the strength of this ice wall of mine is the 9th-level strength of the Magister. With my ice elves, your Pyroblast cannot touch my ice wall at all. You are really stupid. The helicopter fell. Running, but thinking about ambushing us, are you calling yourself a snare?" Zhang Yuan laughed wildly.

At the same time, a large number of huge ice cones with a diameter of 1 meter formed on the left and right sides of Zhang Yuan and shot towards Lu Yang.

Lu Yang hurriedly avoided, but the huge ice cone kept hitting Lu Yang, not giving Lu Yang time to rest.

This kind of ice cone is extremely powerful, not at all made of ice, but like sharp steel. It hits the tree behind Lu Yang and directly penetrates the one-meter-thick trunk. uukanshu. com and, after the ice cone fell to the ground, the area a few meters around it all turned into a piece of ice.

The Blazing Demon God prompts: “This is the strongest human you have ever encountered, and it is also a high-level ice mage made by the temple. Their weakness is too arrogant, and they basically can’t move places. Look for opportunities to kill him with Red Lotus. “

While avoiding, Lu Yang frowned and asked, “Is there no weakness in this ice mage? How can you keep casting spells?”

The Blazing Demon said: “Mental power, Zhang Yuan’s connection with the Ice Spirit is all in spiritual power. This Zhang Yuan is not the waste of Wang Li and Wang Shijie you met before. He has cultivated extremely strong spiritual power. , He can let the ice elves release spells all the time.

Although the ice spirit also has a limit, it will become exhausted after releasing too many spells, but obviously, in this state, there is no problem in supporting it for half an hour. “

Lu Yang said silently: “The spell you studied is really powerful.”

The Blazing Demon God said: “It’s useless. This is our way to control people. We can grant a human spell and we can take it back. It’s far inferior to what you can cultivate yourself. Don’t waste time, kill him.”

Lu Yang smiled. He just avoided doing so just to verify his own strength. Now that he sees that Zhang Yuan’s combat effectiveness is only this, he doesn’t worry anymore. After avoiding two ice cones again, he hides in a tree Behind the big tree, the magic power in the body has continued to finish.

“red lotus”

A burst of magical energy hit the sky, but because of the trees, Zhang Yuan didn’t see it at all. A few seconds later, on top of Zhang Yuan’s head, six red petals floated down.
