Chapter 2081 - Guren Fury

Text Chapter 2081: Red Lotus Anger

Zhang Yuan didn't react for the first time, but just when the first scarlet petal was about to fall on top of Zhang Yuan's head, the ice spirit hovering beside him quickly discovered the problem, and immediately, the ice spirit was in Zhang Yuan's A transparent ice wall was created on top of his head, and at the same time, the first crimson petal that gathered super high flame energy fell on the ice wall above Zhang Yuan's head.

“boom”

Zhang Yuan was originally curious about how the ice spirit would release spells automatically without his instructions, but he suddenly realized it when he saw the fire on the ice wall above his head.

The first scarlet petal burned the ice wall made by the ice spirit, and the second one fell.

Before Zhang Yuan could escape, he quickly raised a piece of ice-like accessory in his hand. This accessory immediately released a large amount of ice energy, which wrapped Zhang Yuan's body into a huge block of ice.

The second scarlet flame petal fell on the ice cube and immediately ignited the entire ice cube. Then the third, fourth, and until the sixth one fell. With Zhang Yuan as the center, the area within 10 meters around was burned. There was a big fire.

After Lu Yang released this attack, his body was under a tremendous burden. After all, he turned so much magic energy into flame energy at one time and then plunged it all into the air in an instant, and then condensed the flame into petals.

If possible, Lu Yang hoped that the six could be condensed into one, but he was not strong enough and could only divide the energy into six.

It seemed that Lu Yang's ability to release was simple, but in fact, after Lu Yang used up this time of Red Lotus, his mental power was consumed a lot, and his body would have been very difficult to bear if it hadn't been improved by the blood of the Demon God.

He stared at the raging flames 30 meters away, and said to the Blazing Demon God: "Has Zhang Yuan been burned to death?"

The Blazing Demon God shook his head and said: "I can feel his breath. He is not dead. Adjust your breath as soon as possible and be careful of his sneak attack."

Lu Yang cursed secretly. He really didn't understand how to use the high-level elites of the temple to chase him a Tier 1 peak. He quickly stabilized his mind and prepared to deal with sudden changes.

"boom"

A loud noise suddenly erupted in the flame area where Zhang Yuan was, and the flame instantly dissipated. A figure jumped out of the flame and landed 30 meters away from Lu Yang's side.

Lu Yang took a closer look, and Zhang Yuan was really not dead, and he escaped alive without suffering much damage.

"Lu Yang, you dare to attack me, and you have reached such a height, you absolutely can't let you continue to live, I must kill you today." Zhang Yuan's previous arrogance has become jealous.

The temple found it clear that when Lu Yang went to the imperial capital, he was still a first-level 7-level magician, but he had only been in the imperial capital for more than a month, and when he left, he

actually reached the second-level magician. Lu Yang just released him. The spell, at least the level of fifth.

Zhang Yuan wasted a god-given treasure before he survived. If Lu Yang is allowed to continue to develop, Zhang Yuan can't imagine how much Lu Yang will grow in the future.

Lu Yang stared at Zhang Yuan and said with a sneer: "Do you think I will let you leave alive? You must die today."

He had recovered and was ready to release the second red lotus, but at this moment, three people in the distance ran over.

"My deacon, we are here to support you." The three shouted in unison. They were the three subordinates of Zhang Yuan who went to the rice fields to find Lu Yang. When they heard the sound of fighting and fire at the entrance of the village, they ran quickly. Came back.

With a grinning expression on Zhang Yuan's face, he said to Lu Yang: "Boy, I have reinforcements, but you don't. Now we are 4 on 1, what can you do?"

The corner of Lu Yang's mouth drew a curve, staring at Zhang Yuan and said, "Do you think that a few shrimp soldiers and crabs can cause harm to me? Feel what a real battle is."

A flame ignited under his feet and turned and rushed towards the three people. The three pinnacle magicians didn't know the power of Lu Yang. Seeing Lu Yang running towards them, the faces of all three of them showed grinning expressions at the same time.

"Lei Guangbo"

The three of them were all thunder mages, and they released a thunder spell at the same time. The original blue thunder and lightning turned into a blue-purple together, carrying a semicircular arc, and they came to Lu Yang in an instant.

But at the moment when they released the spell, Lu Yang's reaction speed made him make an evasive action ahead of time. He quickly ran a distance of 5 meters to the left, avoiding the arc's attack, which made the three of them shocked. Emoji.

Lu Yang sneered at the corner of his mouth. Why did the game always emphasize reaction speed when playing "Second World"? This is the reason. Only people with quick reaction speed can become truly strong after the world has changed.

Spells can be learned regardless of human savvy, fast or slow. The only thing that can't be learned is the reaction speed. This thing is innate. Only people with natural reaction speed can reach a peak in reaction speed by exercising.

This allows people to dodge the moment the opponent makes an action, and no matter how the opponent attacks, it will not hit the opponent.

The three wizards thought that the lightning spells had the fastest attack speed, and their unexpected combined attack would definitely hit Lu Yang, but they didn't expect that Lu Yang would dodge the moment they acted. This single or small range Spells can't hit him at all.

"Pyroblast"

Lu Yang shot three fireballs in a row, and the three of them quickly dodged, which caused the three to separate. At this moment, the boots under Lu Yang suddenly accelerated. Under the hot speed and the acceleration of the boots, made Lu Yang suddenly come to the first person on the left at twice the speed of the original. A purple military thorn appeared in his hand, and it slammed into the chest of the first person on the left.

"Ah~!" The first Lei Mage suddenly turned jet black and fell to the ground to die.

Immediately under Lu Yang's feet, he came to the second person's back, and the military stab was inserted into his abdomen. As soon as the third person was about to use a spell to attack, Lu Yang first shot the fire explosion technique and stabbed the second person to death. At the same time, the third person was burned to death.

All these things happened like a flash movie, Zhang Yuan just reacted, all three of them were dead, which made Zhang Yuan show a look of horror, especially when Lu Yang just avoided the lightning attack.

Zhang Yuan thought he couldn't evade, so he could only use his spells to resist, but Lu Yang had such a flexible skill, which made Zhang Yuan couldn't help saying, "You're a mage, why are you so fast?"

General Lu Yang sneered behind him, looked at Zhang Yuan with a sneer, and said, "Do you think the essence of a mage is a long-range attack? You fool."

He rushed towards Zhang Yuan.

The essence of the mage is to use the elements of heaven and earth to attack, but this does not mean that a mage can only stand at a distance to attack, otherwise, the mage will be confessed to death when the soldier is close.

Just as the Blazing Demon God had to wait for death if he was approached by the God of War, this was simply impossible.

Blazing Demon God said to Lu Yang that he was not only powerful at long-range damage, but also tyrannical in close combat. One of the reasons why Blazing Demon God chose Lu Yang in the end was that Lu Yang had the fastest reaction speed, so he was qualified to become Heir to the Blazing Demon.

Chapter 2082 - Back to base

Text Chapter 2082 Return to Base

Zhang Yuan and the others trained by otherworldly gods, especially those who have been cultivated with heart and protected by the five elements of natural spirits, must crush the cultivated wizards of the same level in all aspects. After all, they have the protection of gods, but they Also fooled by otherworldly gods.

They seem to be powerful, and when their reaction speed is not fast enough, they have a spell, but they can't hit the target, just like now.

Lu Yang ran toward Zhang Yuan quickly, but Zhang Yuan could not grasp Lu Yang's traces. On the other hand, Lu Yang, although he ran fast, was still within the control range of his reaction speed, that is, if Zhang Yuan Attacking him at this time, he can avoid the opponent's skills while running.

If it's just running fast, but the reaction speed is not fast, it will become an active death, the ice spur attack and the target running opposite, under the superimposed speed, the slow reaction speed may be penetrated by an ice spur , But Lu Yang dodged as he ran. At a distance of 30 meters, Lu Yang was able to dodge dozens of ice thorns and came to Zhang Yuan in the blink of an eye.

"Liyang Fist, die for me~!" Lu Yang's right fist was filled with flames, and he punched Zhang Yuan in the head.

Zhang Yuan was frightened, his body instantly turned into a white light and disappeared in place. The next second, the Blazing Demon God reminded: "The other party is on your left."

Lu Yang looked to the left and found that Zhang Yuan's clothes had been burned with a big hole in the flames, and the exposed chest was also sunken inward. Obviously, Zhang Yuan's rib was fractured.

"Puff~!"

A mouthful of blood spurted out of Zhang Yuan's mouth. He was slow to react just now. While flashing, he was hit in the chest by Lu Yang. He stared at Lu Yang and roared: "This is impossible. I will kill you personally. Look at you high, how can you have such a powerful force."

Zhang Yuan's clothes are not ordinary clothes, but are custom-made by otherworldly gods to protect Wang Shijie and their believers, and can be the strongest defensive battle clothes that can distort time and space.

This dress looks like an ordinary mage robe. In fact, it has strong magic and physical defense capabilities. Generally, it can't be worn by bullets. It can be regarded as a top-level robe, but it's such a dress. Zhang

Yuan couldn't believe it because he blocked all of Lu Yang's damage, but Lu Yang punched a big hole and broke his ribs.

Lu Yang walked towards Zhang Yuan step by step, and said with cold eyes: "If you are lucky, I can use the blinking skill for you. Otherwise, you will be dead just now. Don't struggle. Go underground and wait. People, I will join you soon."

"Pyroblast"

A flame shot out from his hand and slammed into Zhang Yuan. At this time, Zhang Yuan had completely lost the ability to resist. The pain in his chest made him laborious to walk, not to mention avoiding the high-speed blasting technique.

"Boom"

A fierce flame burned from Zhang Yuan, and Zhang Yuan didn't even make a painful sound, but was turned into ashes by the super high flame temperature and explosive power of the Pyroblast technique.

Lu Yang put away his fists, with a look of excitement on his face, and said to the Blazing Demon God: "It seems that after my strength has increased, I really have become much stronger."

The Blazing Demon God was not happy. Instead, he frowned and said, "Be careful, the otherworldly gods have joined forces. This Zhang Yuan is obviously an ice mage, so he can still use space spells. This is too threatening to you. If you were just someone who reacted as fast as you, he took advantage of your full attack and suddenly flashed behind you, and you would be dead."

Lu Yang took a deep breath, and a cold sweat came out from his back, and said, "That's true. Fortunately, this person doesn't react quickly."

The Blazing Demon said: "The enemy hasn't realized this yet, but soon they will recruit masters. If there is someone who responds quickly among the people they recruit, you will be the one who is unlucky next."

Lu Yang said: "When I go back, I will recruit all the masters of the Jagged Brotherhood. By the way, I will look for those who reacted quickly in the game before."

Blazing Demon God said: "With your current ability, I should also teach you some spells of the time and space system. I will also use the flashing skill. You will fly the plane back first, and I will teach you on the plane."

Lu Yang: "..."

He said silently: "If you don't teach me, I almost died just now."

Blazing Demon God said proudly: "This is a time-space spell. I am a Vulcan and I disdain to use it. If you are not too useless, I don't even bother to teach you."

Lu Yang was speechless, and his heart was a bit crooked. Together with this blazing demon, he also had spell discrimination, thinking that time and space spells were not comparable to fire spells.

However, the Blazing Demon God is right to think so. He used to be the King of Fire in another world and the leader of all the gods. How could such a person release the spells of the Time and Space God as the God of Fire when fighting, and lose shares? what.

"But I'm curious, how did you learn it?" Lu Yang asked.

"Uh... personal privacy." Blazing Demon God got stuck, which he really couldn't say.

Lu Yang said with a smile, "Well, it's not a big deal."

The Blazing Demon God sighed and said, "It's okay to tell you. Anyway, we are no different from the same person. In fact, our group of old gods will be killed by the new gods, and we are also doing it ourselves, you know? We are Relying on the gods who became through cultivation, there is a wave of gods before us, and they are the origin of our planet.

But these original creatures acted as monsters on their own. They lived enough and felt that the territory was not big enough, so they fought each other. As a result, the gods of the elements produced by the original 13 planets were killed by eleven, leaving only two. One was also seriously injured.

Our generation of old gods actually cultivated into gods after getting the origin of those death gods, because we hated their behavior and killed the remaining two element gods, but after these element gods died, the body has not completely dissipated, and some other weaker gods have formed. In fact, they are new species, but they have the same origin as us.

Since the gods are dead, these new species are not descendants of the gods, and we have the same origin as them, so we regard them as our own brothers. Therefore, when they grow up, they attack us, the purpose is to get our origin. , And these origins are hidden in our hearts, that is, the heart of my devil, the heart of the wind **** and other gods. “

Lu Yang understood it, and said with a smile: “So, when you were cultivating, all schools have practiced, right?”

Blazing Demon gave a hum.

Lu Yang continued to ask curiously: “Then what race are you from?”

The Blazing Demon said: “I know you will see it soon. My race is a rare intelligent race on every humanoid planet. Now that this plane has been discovered, they will also come soon, but , Don't be merciful with your hands, they will kill you in order to **** the heart of the devil, and when I get into their hands, I will be completely destroyed. I will kill you when I see you.”

Lu Yang nodded. He had walked back to where the helicopter was, and got on the helicopter left by the enemy. He would drive this thing. After starting it, he flew towards the Donghai Underground City.

Halfway through the road, the Blazing Demon God taught Lu Yang the use of time and space spells. It turned out that this spell is very simple. It can break through the void by chanting the spell silently and jump to an area 30 meters away. Lu Yang is now a 5th magister. , Using this trick, you can jump to a distance of 100 meters away, very easy to use.

Chapter 2083 - All upgrade

Text Chapter 2083 All Upgrades

Two hours later.

Lu Yang drove the plane back to the sky above the underground city of Donghai City, when the radio station suddenly heard a voice.

“Unfamiliar plane, please explain your intention. I am Xiao Liang, deputy commander of the underground city military. Please explain your intention.”

Lu Yang heard this voice with a relaxed expression on his face and exhaled a long breath. People outside, if there is anything to relax him, it is Xiao Liang’s voice. His little brother, the more it’s getting better, he smiled and replied: “Xiao Liang, I’m Lu Yang, I’m back.”

“Boss!” Xiao Liang’s voice was filled with surprise.

Lu Yang gave a hum, and said, “Give me a landing spot, and then tell them to wait for me at home.”

“Yeah.” Xiao Liang hurriedly turned on the indicator light on the ground tower.

Lu Yang looked from the sky, the large red, white and green lights on the ground lit up. There were two strings of small light bulbs horizontally and vertically, and there was a circle outside, indicating where the plane landed.

He parked the plane on the apron, Xiao Liang ran over quickly, saw the plane parked, and quickly said: "Boss, how did you fly the private plane back, how about the military plane?"

Lu Yang smiled and said, "I was attacked by people from the temple on the road. Let's talk about this when I go back. You will go with me. How is your practice recently?"

Xiao Liang said quickly: "Level 1 is level 9, and you will be able to reach level 10 in ten and a half days."

Lu Yang nodded in satisfaction, Xiao Liang was busy with military affairs, and he still hadn't left to practice. It was really good. He said, "Follow me home."

"Yeah." Xiao Liang led Lu Yang into the dungeon, and said as he walked: "I just notified the muddy wine and the white lion and they are rushing to your house. Recently, there has been a problem in the dungeon and everyone is worried. , You come back, we will have the backbone."

"What's wrong?" Lu Yang asked.

Xiao Liang said: "The distortion of time and space in the city is getting bigger and bigger, and a large number of mutant creatures have appeared. They are extremely powerful. Although there are few creatures at level 3, there are too many creatures at level 1 and level 2. It's too hard to get up."

Through Xiao Liang's narration, Lu Yang knew the reason. As the warped time and space became larger, the beasts stimulated by the energy of different time and space mutated more violently.

Many wild beasts can naturally release spells, especially the offspring of second-generation wild boars, wild dogs, tigers, leopards and bears, which are getting stronger and stronger, and their reproductive ability is getting stronger and stronger.

Zhuojiu and White Lion cooperated with Xiao Liang's military to clean up the monsters, and it was difficult to even maintain the number of monsters. With the increasing number of monsters, they began to have the intention to develop in the direction of the dungeon.

In the area surrounding the dungeon, a large number of mutant beasts began to appear again, which made Xiao Liang and Zhuojiu very anxious.

As soon as I took the elevator to the floor where he was, I saw Zhuo Jiu and White Lion waiting there, and they were very excited when they saw Lu Yang, Zhuo Jiu and White Lion.

“Boss, you can be regarded as coming back.” Zhuojiu said excitedly.

Lu Yang looked at them and found that each of them had grown a lot stronger, and their faces had become more vicissitudes of life, even Xia Yuwei had a scar on her neck.

“How did it happen?” Lu Yang frowned and asked.

Xia Yuwei concealed the scar on her neck and said with a smile: “Injuries in a battle are nothing.”

The faces of Zhuojiu, Baishi and others were bleak, and everyone showed helpless expressions. When Lu Yang saw their appearance, he knew they must be very serious, and asked: “Walking and telling me the details.”

Xia Yuwei was about to speak, and she said excitedly for a long time: “Boss, Yuwei almost died. There are too many monsters. Our strength is too weak. The emperor is not busy at all regardless of what happened to us.”

Lu Yang looked at Xia Yuwei. Xia Yuwei just bowed her head and did not speak. He hugged his love for half a lifetime and said, “Don’t blame the imperial capital, it’s not much better than us. Come home with me. I’m back. You will have nothing more to do. Up.”

Zhuo Jiu, Bai Shi and others looked at Lu Yang in surprise, and quickly returned home with Lu Yang. Just after sitting down, Lu Yang handed the red spirit fruit in his backpack to Zhuo Jiu and the others, and said, “Look at what this is. ?”

Zhuojiu picked up the fruit, and was immediately shocked by the surging energy inside. He looked at Lu Yang in surprise and said, “Boss, where did you come from?”

Lu Yang made a silent gesture, and said, "No one is allowed to tell. This thing is called the Red Lingguo. It can promote you from a Tier 1 magician to a Tier 2 magister. I am now a magister 5. Level up, starting today, you will stay with me and eat red spirit fruit to upgrade."

"This, this thing is too precious, we will prepare and use it when we are about to upgrade," said the white lion.

Lu Yang smiled and said, "Don't be afraid to tell you that I have tens of thousands of bosses of this thing. Don't be polite. Just leave it open and eat until you level up."

"So much!" Zhou Tianming asked excitedly.

Lu Yang smiled and said: "When your upgrade is over, will find all the people you think can be trusted this month, and let them upgrade. I want to create an army of magisters. Isn't it just the demonized beast of Tier 1 and Tier 2? It's not our opponent at all."

"Yeah." Xia Yuwei and Zhuojiu both nodded vigorously.

Originally, they thought that the East China Sea Dungeon was going to end this time, but they didn't expect that Lu Yang would bring such a big surprise when he came back, which made them see the hope of protecting the dungeon again.

Lu Yang put the 100 red spirit fruits in his backpack in front of them, and said, "I will give these to you first, and now you can start eating."

"Yeah." Xia Yuwei and Zhuojiu took the red spirit fruit and ate them, and then began the journey of transformation.

Lu Yang had just upgraded from a magician to a magician. He knew what he had to go through during this period. Sitting next to the dirty wine and the others, he taught them how to deal with problems and situations.

For a week, Zhuojiu and Xia Yuwei did not leave Lu Yang's room. During this period, many people came to visit Lu Yang, and Lu Yang dealt with them. After seven days, the eighth day morning.

Zhuojiu, Xia Yuwei and Kuai Bansheng, etc., the soul sea in each person has a spiritual core. Although the energy absorbed by the warrior and the mage is different, the soul sea is a way of cultivation. Therefore, when Xia Yuwei and the others stood up At that time, the mage reached the magister, and the warrior became the warrior level.

"Boss, we've all succeeded." Zhuojiu said with an excited expression. He never thought that one day he would reach the rank of a warlord. With his current strength, he would be able to enter the monster group again. Any worries.

Chapter 2084 - The enemy is coming

Text Chapter 2084 The enemy is coming

Lu Yang looked at Zhuojiu and the others with satisfaction, and said: "Now you find people you can trust under your hands. You have to guide the second batch of people so that they can quickly enter the second level of strength."

Zhuojiu said with excitement and crying: "I will notify them now. They are all old brothers of our Iron-Blooded Brotherhood. These days we have been fighting outside with us, and we have suffered heavy casualties."

Before Lu Yang went to the imperial capital, he called the lovely queen, Liu Ruohuai, Wan Zhonghui, Jiang Chen and more than 200 people to his side.

During the month after Lu Yang left, Zhuojiu took them out to fight. The current strength of these people was between level 1 and level 7 to 9.

It was the first time Lu Yang saw the turbid wine shed tears, and the white lion also cried. Every one of Zhou Tianming and Xia Yuwei was crying.

Over the past month, Lu Yang has been dangerous in the imperial capital, and they have fought a war outside the dungeon. Even if he is careful about slurping wine, he has no idea about this new world, and he still has an ambush.

Of the 200 brothers, 37 died at a time. Everyone who survived was injured, especially the brothers around them. In order to protect them, their cousin died and Zhou Tianming's brother was lost. With one arm, Baihu gave an eye, and the white wolf was pierced in the chest. If it hadn't had a healing spell, he would die on the spot.

"I must take revenge." Zhuojiu clasped his hands angrily.

Lu Yang said: "Come with the injured brothers, let them upgrade in the first batch."

"Yeah." Zhuojiu and White Lion said together, each took out the phone and sent a message.

Most of the injured were left behind, that is, the relatives and brothers of Zhuojiu and White Lion. Regardless of life and death, these people let the low-powered brothers retreat and stay to fight the enemy.

Now there are 32 remaining brothers after the death. They received the order from Zhuojiu and they were recuperating at home. They quickly came to Lu Yang's room door to report.

Lovely Queen, Liu Ruohuai, Wan Zhonghui and others, none of them were wounded. Looking at these people, especially the little girl, Lovely Queen, there was an obvious scar on her face, so that she wore a mask.

Lu Yang's eyes were also moist, and he said, "Brothers, I'm back late, I'm sorry for you."

Liu Ruohuai shook his head vigorously and said, "Boss, you must be more dangerous than us in the imperial capital. There are more temple personnel there."

"Yes." The lovely queen said excitedly.

Lu Yang smiled and patted them on the shoulders, and said, "I will not let you encounter this kind of danger again in the future. I have brought back something that can improve your rank and promote you smoothly from the first rank. Tier 2, starting today, you will stay with me to practice."

He took out a backpack again, which contained more than 100 red spirit fruits, and said, "On average, no one has three. It's not enough to come and ask me for anything else. This stuff is enough."

"So much?" Jiang Chen said in surprise.

Lu Yang nodded and said, "Remember, this secret is absolutely forbidden to be told. You have to rot in your stomach. If someone asks, you just say that I have obtained the secret cultivation map, and I can quickly cultivate from level 1 to level 2."

Everyone nodded and agreed.

Lu Yang distributed the red spirit fruit to them, and asked them to find a place to sit down and practice. Zhuojiu and White Lion had already been upgraded to Tier 2, they opened their helmets and looked for a Tier 2 exercise.

Lu Yang also sat on the ground and began to practice the remaining skills taught to him by the Blazing Demon God, such as Demon Slash, Destroying Heavy Cannon, Fire Fist, and Red Snake Strangulation Dance.

After another seven days, the lovely queen and the others completed their cultivation. Just as they started to practice their skills, Xiao Liang came back and said in a low voice, "Boss, something has happened."

"What's wrong?" Lu Yang asked.

“The three organizations of the Mercenary Guild, the Temple and the House of Martial Artists all sent 20 people over to open a branch with us,” Xiao Liang said.

Lu Yang showed a cold light in his eyes, and said, “I’m going to pick peaches. I’m really bullying, right?”

“How? Do you want to ambush them tonight?” Zhou Tianming asked with gloomy eyes, they had learned a lot of skills these days.

Lu Yang showed a sneer at the corner of his mouth and said: “Don’t worry, let them perform first. The three of them will definitely fight. Let’s develop ourselves first.”

Everyone nodded.

Xiao Liang said: “They invite you to the meeting, will you go?”

“Go, why not.” Lu Yang left a backpack of red spirit fruit, and said to the turbid wine, “Train the next group of people.”

“Yeah.” Zhuojia nodded.

Lu Yang followed Xiao Liang out of the door. Just walking on the corridor, he saw a group of cultivators in gold armor walking forward in neat steps. Everyone was equipped with two-handed swords on their waists. , Looks extra handsome and powerful.

“This is from the temple.” Xiao Liang whispered.

Not long after, another group of strong warriors came over. Obviously, this was still from the family of warriors. The last group of variegated army had colorful equipment. They belonged to the mercenary guild.

This group of people saw Lu Yang, but everyone walked past Lu Yang with a mocking expression.

Xiao Liang clenched his fists and cursed: "A bunch of bastards."

Lu Yang said, "Don't mind, you can lead the way."

"Yeah." Xiao Guangming headed and led Luyang to the first floor by elevator. The first door was the military conference room.

At this time, there were more than 20 people sitting in the room. When Lu Yang walked in, everyone looked at Lu Yang with alert eyes, especially the people in the temple. The leader was Wang Shijie.

"Lu Yang, what else do you have to say, you dare to rob and kill the people in our temple and rob our plane. You have to pay for it." Wang Shijie stood up, patted the table, and cursed at Lu Yang.

Lu Yang stared at Wang Shijie, the flames in his hands burst into flames, and said, "All of you who have come will remember me. I saved the East China Sea. Therefore, no one of you here has the right to speak. If you want to stay, just be honest with me. If you don't want to stay, just get out of me. I will not keep you in the East China Sea."

"You think you are..." Wang Shijie was still yelling, but was stopped by a middle-aged man. He smiled at Lu Yang and said, "Sorry, my nephew is not sensible. My name is Wang Shuo, a level 5 magister. Please forgive me."

A chubby middle-aged man stood up with a sharp throat and laughed, haha, and said, "Brother Wang Shuo's attitude is right. We came here together to protect the residents of Donghai Underground City. We and Lu Yang The purpose is the same."

The middle-aged man turned his head and stretched out his hand to Lu Yang and said, "Chairman Lu Yang, hello, hello, my name is Bao Buping, please give me your advice in the future."

Chapter 2085 - Three powers

Text Chapter 2085: Tripartite Forces

Lu Yang looked at Bao Buping. He had heard of this person's name when he was in the imperial capital. The vice-chairman of the Mercenary Guild, a well-known cunning man, don't look at his bloated figure. He looks fat, but actually The fat on him is all muscles, but under the cover of clothes, it makes him look unnatural.

After the imperial capital was stabilized, several civil strifes, Bao Buping and even killing several people, revealed his kung fu, and people knew that he had been pretending before.

"As you are, you shouldn't be sent to our East China Sea. This is not right." Lu Yang frowned and asked Bao Buping.

Bao Buping smiled and withdrew his hand, slanted his eyes and said to Lu Yang, "Unexpectedly, you know me too. So when you go to the Imperial Capital, they know a lot about Fu Yun."

Lu Yang sneered and stopped talking. Since Bao Buping didn't want to say it, he couldn't ask. The destination of Zhang Yuan who was killed by him before was also here. Bao Buping, the vice president of the Mercenary Guild, also came. Here, obviously, there are other things here that are worth looking for.

"The bag is not flat, I just say you can't hide it, you can't." The last strong man stood up. He wore very few clothes, just a shirt. In the coming winter season, he can still wear clothes like this. , It proves that this person's cultivation method is special.

Bao Buping looked at the man contemptuously, and said with a sharp sneer, "Zhao Cheng, where can you be better than me? Are you still making fun of me?"

Zhao Cheng was too lazy to deal with the injustice, looked at Lu Yang and said, "My name is Zhao Cheng, one of the people in charge of the Martial Arts House."

Lu Yang hugged his fists. Fu Nian told him about the Martial Artist's Family. Zhao Cheng was not a direct line of the Martial Artist's Family. In comparison, the Martial Artist's Family organization, like the Chamber of Commerce Alliance, was very loose.

Zhao Cheng's family is a family within this warrior's house. They came to the East China Sea this time with the purpose of cultivating more warriors. The conflict between them is not big.

In fact, there is no conflict between Lu Yang and Bao Buping. The purpose of the mercenary union is to make money. It is basically the same as protecting Donghai City. If the East China Sea is gone, they will have no meaning to make money.

The real hostility to Lu Yang is the temple, which can be seen even when sitting in the seats. Zhao Cheng and Bao Buping both kept a certain distance from Wang Shijie and the others.

The two sides are fundamentally different in cultivation methods. The temple is blessed by God, and Bao Buping and Wang Shijie both cultivated by themselves.

Fei Yang had been sitting in the middle position. Neither he nor Lu Tianming spoke. Although they were partial to Lu Yang, the pressure on the three of them this time was too great, unless Lu Yang really couldn't handle it. They will help to make the rounds, but they can't help much with other things.

Now that all parties have stabilized, Fei Yang said with a smile: "You are all the elites of Donghai City and the main force in protecting Donghai City. Come to meet today, that is, everyone can breathe together to avoid unnecessary occurrences. Trouble."

Bao Buping said with a smile, "You're polite, you don't know how to solve our living space."

Fei Yang still smiled unhurriedly and said: "This is the purpose of looking for everyone today. The living environment of Donghai Dungeon is too bad and needs to be improved urgently. My opinion is that since you are all officially recognized and legal Organization, why don't you go out and open up an area on your own as your base."

Zhao Cheng glanced at Lu Yang and said, "It's best to be like this, we don't have to send someone under the fence."

Bao Buping said, "I agree."

Wang Shijie sneered and said, "I agree too."

Fei Yang didn't wait for Lu Yang to speak, and said with a smile: "It's okay for the representatives of the three parties to agree. You temporarily live in the military-controlled area. After that, they will arrange housing for you."

Bao Buping, Zhao Cheng and others knew that the conversation was over. They stood up, held their fists with Fei Yang and Lu Tianming, and left.

When they were gone, Fei Yang and Lu Tianming came to Lu Yang's side. Fei Yang said, "Brother, don't mind this matter. We can't refuse the request from the Imperial Capital."

Lu Yang smiled and said, "It doesn't matter. I knew about this earlier than you guys. Dean Fu had already told me about it. I know this."

Lu Tianming heaved a sigh of relief and said, "We are afraid of your misunderstanding."

Lu Yang laughed and said, "It is also good to have them here. At least it can help us get back the old city as soon as possible. Living in the underground city is not a long-term solution after all."

Fei Yang sighed, nodded helplessly, and said, "Now the underground city has problems. Drainage, sewage, housing, food, etc. are all problems. We need to retake the old city too much. At least we have to take the factory. Take it back and re-produce all kinds of materials, otherwise this dungeon will only last for another year."

Lu Yang saw that Fei Yang's hair had turned white. He was obviously tired from worrying about these things, and it was not easy to embarrass him too much. After chatting with the two of them, he went back.

When he returned to the room, Lu Yang explained the matter to a few people, and said, "Starting today, our people will continue to practice in my room. Those who have reached Tier 2 will remain silent. Don't increase your strength. Tell anyone about the matter."

He wants to see what these people want to do, and prepare for the battle by the way. In any case, he must kill the temple group first.

Heyue Xingchen and White Lion have cooperated with Lu Yang for a year or two. knows Lu Yang's intentions, and they nodded and agreed.

...

The other side.

When Bao Buping, Zhao Cheng, Wang Shijie and others walked back, Bao Buping said with a sharp voice halfway down the road: "Several people, we want to stand firm in the East China Sea. It looks like we have to join forces. Lu Yang seems to be unable to tolerate it. Us."

Zhao Cheng nodded and said, "This place is Lu Yang's hometown. If he doesn't welcome us, it will not be easy for us to stay."

Wang Shijie looked at them mockingly, and said: "I am different from you, even if we join hands."

Bao Buping and Zhao Cheng were a little surprised. Watching Wang Shijie just walk past them, they didn't understand what Wang Shijie had, and they dared to confront Lu Yang with the strength of the family so blatantly.

However, Bao Buping and Zhao Cheng soon knew Wang Shijie's hole cards, and they were deeply shocked by Wang Shijie's side.

At the notice boards on all floors of the dungeon, announcements were posted on the temples.

Temple announcement:

All qualified human beings can go to the temple to sign up. As long as you sincerely believe in the gods, the gods will bestow you with supreme strength!

“Look, everyone, the temple is hiring people. If you come, you are eligible to be promoted. The magician will become the magister, and the warrior will be promoted to the general.” The temple members shouted.

A large number of cultivators in the dungeon were attracted. When they saw the content of the announcement, and then looked at the strength shown to the members of the temple, many people were moved!

Bao Buping, Zhao Cheng, and Lu Yang also realized that, it turns out that the distortion of time and space has become larger, and the alien **** can directly promote a person with cultivation talent to a Tier 2 magister.

Chapter 2086 - Recruiting

Latest website: For ordinary people, this kind of increase in strength is completely irresistible. Countless people have rushed to the temple to request to join, but the temple only recruits talented masters, and ordinary people simply dismiss it.

For a whole week, Lu Yang received information from Tu Feng. What surprised him was that the temple only recruited 112 people.

“So little?” Zhuojiu asked with a frown.

Lu Yang also felt curious. He asked Blazing Demon God and said, "What's going on?"

The Blazing Demon said lazily: "Simply, to describe it this way, it's like your ancient Silk Road. When you want to transport things from faraway countries to your country, people eat horses and chews and consumes them. It must be far more than what you carry, right."

Lu Yang nodded to express his understanding, and said, "You mean that the other world can only send so many things?"

The Blazing Demon God said: "Yes, 112 can be produced, which should be the limit of the new gang of gods at the moment. If they want to transport them, they will consume more resources. They should still have them, but they don't want to take them out. "

Lu Yang sneered at the corner of Lu Yang's mouth, and said, "Isn't it, my strength on the bright side is that I alone become a Tier 2 Magister, but in fact, there are already more than 70 people around me who are Tier 2 Magisters. Continue to cultivate and reach more than 500."

This is the result of Lu Yang tightening his pockets. If he is willing to take out all of them, he can train more than 10,000, but this is not useful. He can only give to those who are really willing to follow him. Gifting, in the end, the person who got the gift from him became an enemy, and Lu Yang had no place to cry.

You can look for things again, but if these people become enemies and kill his brother, Lu Yang will really regret it and there is nowhere to regret it.

Half a life of bitter love said to Lu Yang: "Boss, why don't you post a notice as well. You can't let them recruit all the elites. This is too bad for us."

"Yes." White Lion and Zhou Tianming also felt this way.

Lu Yang shook his head, looked at them firmly, and said: "No hurry, it's just the performance of the temple family now. Bao Buping and Zhao Cheng haven't started yet, look at it, the two of them can't sit still. , We continue to wait so that the hidden enemies will be exposed sooner, better than they will stab us secretly in the future."

When the temple returned this time, those in the original dungeon who had already claimed to no longer believe in alien gods, and those who had originally believed in alien gods, and those who had been brainwashed, all appeared. Although the number was small, there were hundreds of people.

Most of the remaining people are still sober, because they have seen with their own eyes that the temple did want to slaughter the humans in the dungeon. This is beyond doubt.

Lu Yang now wants to see how many followers of the temple are still in this dungeon. At the same time, he also wants to see how Zhao Cheng and Bao Buping deal with this crisis.

The other side.

Zhao Cheng and Bao Buping had been watching and wanting to see Lu Yang's actions, but after they waited for so long, Lu Yang did not move at all. This made the two of them secretly relieved. At least, this proves Lu. Yang really has no strength.

Except for Lu Yang himself as a magister, he didn't have a way to quickly improve the strength of his subordinates, so that they would not have to worry about Lu Yang and could act presumptuously.

"Humans in the dungeon, I am Bao Buping, the vice president of the Mercenary Guild. Starting today, the Mercenary Guild has recruited a large number of masters. Anyone who is willing to come, we can provide the cultivation methods handed down from the gods in the ancient ruins. This is Practicing your own techniques, you can become a **** when you reach a high level, you don't need to believe in any gods." Bao Buping sent a notice to the entire dungeon through the broadcast.

On the other side, Zhao Cheng has just finished talking about it. On the other hand, Zhao Cheng also came over and issued an announcement saying: "Hello everyone, I am Zhao Cheng from the family of warriors. Our Zhao family has practice secrets handed down from ancient times, and has reached a high level. It's just like a god, and you don't need to believe in any gods."

...

The two spoke one after another, making the entire dungeon cultivator confused. No one thought that the Martial Artist's House and the Mercenary Guild would also recruit people, which caused a large number of masters to rush to these two to inquire.

Many of the more than 100 people who had agreed to accept the baptism of faith before, many of them went to the mercenary guild and the house of warriors. It was not that they were unwilling to accept the baptism, but that this kind of belief was simply brainwashing.

If you are a master, you can practice by yourself, why use external forces? Only a small number of elites, who are too lazy to waste their training time, choose to use faith to solve them. Others depend on the treatment. Whichever treatment is good, follow whichever way. .

The entire dungeon was also messed up. Fei Yang and Lu Tianming both felt unmanageable. The three direct descendants brought from the imperial capital also began to advertise in the city. After a while, a group of golden armored temple members walked over. The masters of the Bing Guild walked over, and after a while, a team of strong and powerful men walked over, and the three were very happy.

The residents of the dungeon also had a topic of entertainment at this time, and they were all discussing whether these three were better or worse. No one was discussing what happened to Lu Yang and the Jagged Brothers.

Lu Yang didn't care about it. He didn't leave the house for a whole month. While accompanying his parents and Lan Yu, he was secretly cultivating the masters of the Jagged Brotherhood.

What makes Lu Yang very gratified is that from the three recruits to the present, no direct player from the Jagged Brotherhood went to the three to study.

Lu Yang is now completely relieved of these brothers, but he can't be blamed. The temple is too brainwashed, and the things the other two bring out are too tempting. The temple is a god-given strength, and the mercenary guild is an ancient magical skill. The family of law and martial artist are martial arts cultivators. Entering any one, you will not stay in the Jagged Brotherhood and stay strong with Lu Yang, but these brothers of the direct line did not leave, and would rather be weak than leave.

In the training ground of the Jagged Brotherhood.

There are more than 1,000 direct members of the Jagged Brothers League standing in front of Lu Yang. Lu Yang looked at them with satisfaction and said, "Very good, brothers, you are all good, it's not worth fighting for you. try best."

He asked Zhuo Jiu, Zhou Tianming and others to bring out 20 backpacks, each of which contained 100 red spirit fruits.

In fact, Lu Yang had no need for the red spirit fruit. The reason why he tried his best to get it back was for these brothers.

Now these people did not live up to Lu Yang's trust. No one had joined the hostile camp for a month and a half, so he could safely take it out to his brothers.

Chapter 2087 - Red Night vs. 9-Headed Snake King

Latest website: Lu Yang said to Zhuojiu, Zhou Tianming and others around him: "From today, those of you who have already been promoted, take them to continue to practice, to ensure that everyone can be smoothly promoted to magister."

If these 1,000 people are promoted, the three so-called three organizations in the city are just a bunch of rubbish, and he can pinch them to death at any time.

Zhuo Jiu and White Lion thought that Lu Yang was just giving them peace of mind and said that there were a lot of red spirit fruits, but they didn't expect that Lu Yang really had so many.

Zhuojiu said excitedly: "Boss rest assured, within a month, my brothers are guaranteed to be promoted."

Lu Yang said, "I'll go out and find some treasures for you. Mounts are one aspect, and more importantly, weapons. We still have too few weapons."

Zhou Tianming said anxiously: "Boss, don't be impulsive. When the brothers are all up and go out with you, you can't let you take risks alone."

"Yes." Said passionately, "The monsters in the old town are still very strong."

Lu Yang smiled and summoned the Red Night from the Demon Temple. Although the original Red Night was more than one meter long, although it was still more than one meter long, the Longwei released from his body instantly caused the turbid wine and the white lion. When everyone's suppressed legs were bent, and when they were about to kneel down, Zhuo Jiu, Bai Shi and others desperately resisted with willpower, and they were able to maintain a standing posture.

"Boom"

Lu Yang punched Hong Ye in the head and said with a smile, "I'm not honest, I'm still joking with them."

Hong Ye showed a very anthropomorphic expression, turned his head and glanced at the white lion and the half-life of bitter love, and stuck out his tongue.

Zhuojiu and Baishi are speechless.

"Why is this strength so strong?" Zhou Tianming asked in surprise.

Lu Yang said, "I had some adventures when I went to the imperial capital. Hong Ye's strength is now Tier 3, so you don't have to worry about me. Hong Ye alone can beat the Hydra Emperor."

Zhuojiu and the others were only left in awe.

Bittersweet for half a lifetime rubbed Hong Ye's little head, and said, "I didn't expect you to be so good."

Hong Ye licked his tongue at the bitter love for half a lifetime. Suddenly, the saliva on her face for half a lifetime caused everyone to laugh.

Lu Yang said: "Dragon's intelligence is developing very fast. Although he is only one year old now, his real body length is about 15 meters like a 13 or 14-year-old child. This is a sign of Tier 3, and he will go out soon. At that time, I kept him at 8 meters in size, pretending to be a first-order state."

The normal first stage is only 4 meters long, and the second stage is 10 meters, which becomes 8 meters. It is actually a kind of confusing behavior, lest the three companies unite to deal with him.

Zhuo Jiu, White Lion and others were originally worried that Lu Yang looked down on the creatures in the Old Town of the East China Sea too much. Now it seems that they look down on the monsters outside. There is a Tier 3 Red Night, and it has been more than a month before leaving. If they practiced another technique, they would no longer worry about it.

"The boss wishes you a triumphant return. We will continue to take the brothers to the promotion." Said with a smile of love for half a lifetime.

Lu Yang laughed and left the training ground holding Hong Ye. He took the elevator to the gate on the first floor. On the way, Hong Ye became the focus of everyone, and all he saw showed a curious expression. Hong Ye became the focus of everyone for himself. Very proud, the little head was raised.

When it was outside the door, there were more than 100 soldiers defending here, as well as 15 members of the temple, mercenary guild, and warrior's house.

They all received the news and were looking at the gate curiously. They had heard of a dragon in Lu Yang before, and now they are very curious when they see a real dragon. They only see that the dragon is only over a meter long and they are all exposed. Gave a contemptuous look.

"Roar~!"

Hong Ye felt the contemptuous gazes of these people and yelled at them.

“Chairman Lu Yang, your dragon is really special.” The leader of the Martial Artist’s House said to Lu Yang with a smile.

Lu Yang smiled and ordered: “Hong Ye transformed into a body.”

“Roar~!”

Hong Ye instantly changed from one meter in length to eight meters, and his wings spread more than ten meters wide. Lu Yang jumped onto Hong Ye’s back. After Hong Ye took a few steps, he jumped into the sky. .

The people of the three families looked at Lu Yang and Hongye who were flying far away, all showing unwilling expressions.

“What kind of outfit, a one-meter-long dragon has become eight-meter-long. It’s not a big deal.”

“I can stab him with a single knife.”

“I don’t know if eating it will increase physical fitness.”

...

The three murmured secretly, but didn’t dare to say it out loud, and then they reported to their bosses.

Bao Buping, Wang Shijie, and Zhao Cheng quickly learned about this. They were very busy these days, because they had limited manpower and dared not blatantly monitor them. They didn’t know anything about Lu Yang’s recent situation.

Now that Lu Yang was riding out on the dragon, they were all curious about what Lu Yang was going to do, but when they learned that Lu Yang’s dragon was still Tier 1, they didn’t worry much.

“A normal dragon needs a lot of magic cores to grow to Tier 3, but Lu Yang doesn’t have it at all. It is estimated that this time he is desperately trying to find some magic cores for the fire dragon to deal with our development.”

“Lu Yang is in a hurry, it’s a pity, it doesn’t make sense, this dungeon will eventually become something in my bag.”

“Controlling 3 million people, what a huge number.”

The three secretly calculated, and on the other side, Lu Yang had already rode a giant dragon to the sky above Donghai City. It was the morning, when a lot of flying monsters hunted.

In the past, there were a large number of enchanted giant eagles hovering above Donghai City. Their claws were as hard as swords, and they could even kill a wild boar.

But when the red night flew over, under the suppression of Longwei, a large number of demonized giant eagles hid in panic.

Hong Ye skipped the sky. No monster dared to challenge Hong Ye. The same was true on the ground. A large number of monsters crawled on the ground. or fleeing in panic until Luyang flew to the west. When I was in the city, suddenly, nine huge roars came from the ground.

“Roar~!”

Lu Yang lowered his head to look, and the Hydra Emperor suddenly smashed a building. Half of his more than 80-meter-long body stood upright, and his nine heads roared at the red night in the sky at the same time.

“Roar~!”

Hong Ye was also caught in the rage, a Hydra dare to provoke the dignity of the dragon. Hong Ye did not allow it. For a while, Hong Ye quickly swooped towards the Hydra Emperor, and when it came to a distance of 100 meters, Hong Ye opened a huge mouth.

“Dragon Breath”

Lu Yang issued an order, Hong Ye ejected a purple-red flame, an ultra-high temperature flame, and shot towards the Hydra Emperor. The Hydra Emperor was not afraid at all, and a transparent magical barrier appeared all over his body. The Dragon’s Breath was all blocked 5 meters in front of him.

When Hong Ye’s body swooped over his head, the Hydra emperor’s tail exerted force, suddenly jumped high, and bit towards Hong Ye’s tail.

Chapter 2088 - 3 Eyes Magic Flower Participate in the War

The latest website: 100 meters high, for the 80-meter-long body of the Hydra Emperor, it is only a distance of 20 meters to jump upwards.

In an instant, the Hydra Emperor flew away, and the nine heads simultaneously bit towards Hongye’s tail, body, wings, throat and head.

Once bitten, Hong Ye will definitely die. Let alone the bite force of the King Hydra, just talk about the toxin of the King Hydra, but wherever he passes, there will be no grass, this is a very poisonous snake containing extremely terrifying toxins.

Hong Ye didn’t expect at all that a mutant snake in the human world, under the energy washing of distorting time and space, could reach such a terrifying strength, and even his flames would not be able to harm the other party.

Just when Hong Ye was about to be bitten, Hong Ye roared, and flames ignited all over his body. His speed suddenly doubled, and he flew past Hydra Emperor’s mouth in an instant.

Of the nine heads of the Hydra Emperor, none of them bit the Red Night, but even if they did not bite them, as the Hydra Emperor was falling, the unwilling snake king spewed black venom at the same time. , Sprayed towards Hong Ye's body.

"Be careful~!" Lu Yang just turned around to see the Hydra Emperor who was about to fall spraying venom, and Hong Ye really couldn't avoid it this time. Just when the venom was about to hit Hong Ye's body, Lu Yang said command.

The flames on Hong Ye disappeared. At the same time, countless rattans appeared in Lu Yang's hand, woven into a giant umbrella, completely blocking Hong Ye's back.

"Shit~!"

The venom fell on the plants and immediately melted the vines into black water, but there were so many vines, dozens of them were damaged, and dozens of them came out of Lu Yang's arms. The beholder flower gave an order.

This level of rattan is not a problem at all for the three-eyed magic flower. The three-eyed magic flower can't even feel a bit of pain. Although hundreds of rattans were poisoned to death in an instant, the red night went smoothly. Flew to an altitude of 200 meters, this is the height that Hydra can't fly.

"Off"

The three-eyed magic flower cut off the corroded vines, and dropped a black vine in mid-air. After landing, the splashing venom made the enchanted wild boar that could not be avoided instantly turned into a pool of black water. There is no bone scum left.

"Roar~!" Hong Ye's eyes are very good. He saw the miserable state of the demonized wild boar. Although his dragon scales are very strong, Hong Ye doesn't think that his dragon scales can resist the venom of the Hydra King now.

The thought that he might be poisoned or even poisoned to death just now caused Hong Ye to fall into a rage. After a roar from the sky, his body suddenly swelled to a length of 50 meters, and blazing flames emerged from his body.

The furious Hong Ye sent a message to Lu Yang that he was going to fight head-to-head with the Hydra Emperor. If he was singled out, Lu Yang would still not be optimistic about Hong Ye. After all, it has been almost a year since the Hydra Emperor entered Tier 3. Hong Ye has only just been a few days ago. Moreover, the Hydra Emperor is constantly being washed away by the energy that distorts time and space, and his strength is much stronger than Hong Ye.

The difference is that there is no help from the Hydra Emperor's side, but Hongye has it. When Lu Yang flew to the side of a building in Hongye, he jumped to the top of the building and sent out the three-eyed magic flower in his arms. Ordered.

The little round ball three-eyed magic flower jumped downstairs in an instant, got into the soil, and then Lu Yang issued an order to Hong Ye.

Hong Ye had been with Lu Yang when he was a child. What he knew most was not the glory of the dragon family, but the tactics of human beings. The little guy agreed with Lu Yang's combat strategy very much, and he flew towards the Hydra Emperor.

At an altitude of 200 meters, the spitting flames constantly attacked the Hydra Emperor, and the Hydra Emperor could only be forced to defend, and at the same time, he was looking for a sneak attack on the Red Night.

The two struggled for more than half an hour, regardless of the outcome of each other, but this is a battle between the kings. In this area, the Hydra Emperor thinks he is the king, so he does not allow Red Night to provoke him. Even Hongye is not allowed to use Longwei to suppress him, but now Hongye has been using Longwei, causing the Hydra Emperor to become more and more angry.

When the two sides were fighting for an hour, the three-eyed magic flower that sneaked into the ground sent a message, and Lu Yang immediately ordered Hong Ye to lead the Hydra Emperor to the top of the building where he was.

After receiving the order, Hong Ye sprayed a breath of dragon at the Hydra Emperor and flew in the direction of Lu Yang.

The Hydra Emperor didn't have a high IQ. He thought that Hong Ye couldn't beat him and wanted to escape. Excited, the Hydra Emperor twisted his body frantically and chased him towards Hong Ye.

But he had just chased into the open space in front of the building where Lu Yang was located. Suddenly, the six surrounding buildings made a loud noise at the same time, as if they were alive, while twisting crazily, they smashed towards the Hydra Emperor.

“boom”

“Boom”

...

The huge snake body of the Hydra Emperor was pressed to the ground by six buildings. At the same time, a huge tree was uprooted from the ground, reaching a height of hundreds of meters. The tree opened its branches and leaves instantly, golden and pink. The trees are full of flowers, and the pollen is wafting in the wind.

These pollen contains a huge amount of hypnotic elements. After the Hydra Smell it, the nine heads became groggy in an instant. At the same time, countless adult vines with thick arms suddenly appeared on the ground. There are countless, winding up all the nine heads of the Hydra Emperor, and squeezing them hard, as if to squeeze all the nine heads to break.

“Hi~!”

Hydra woke up from the severe pain. He struggled with great anger and sprayed a large amount of venom. These venoms contaminated the vines, instantly turning the vines into black water.

Seeing that the attack was effective, the nine heads began to spit venom. Seeing that the speed of the vine growth could not keep up with the speed of the venom's destruction, suddenly, a Lu Yang rushed towards the hydra.

The Hydra Emperor had seen Lu Yang a long time ago, but he had never had time to kill him. In his eyes, he believed that Lu Yang and Hongye were in the same group. He saw Lu Yang running over and furious Nine Heads. The main head in the middle of the Snake Emperor, after breaking free from the vine, leaned down like lightning and demanded a bite towards Lu Yang.

In an instant, Lu Yang didn't react in time. He was eaten to the innermost by the Hydra Emperor. The muscles in the mouth of the snake's head enveloped Lu Yang's body. With a rapid peristalsis, Lu Yang's body was sent to the esophagus in the neck. , And the poison in the mouth is rapidly corroding Lu Yang's body.

Lu Yang's skin was corroded rapidly, but at the moment when Lu Yang's head was corroded, Lu Yang suddenly turned into a fiery light, which exploded on the neck of the Hydra Emperor.

The main head of the Hydra Emperor was facing the approaching red night with a triumphant expression of mockery, as if to say that your companion had been eaten by me, but what he didn't know was that what he ate was not Lu at all. Yang, but Lu Yang's clone of fire.

From the time he fought with the Hydra Emperor just now, the Blazing Demon God told Lu Yang that the skin of the Hydra Emperor is very hard, and it can release defensive spells and venom. Even if the Red Night and the Three Eyed Demon Flower work together, they may not be able to. If you beat the Hydra Emperor, you can hurt him at most. If you want to kill him, you can only attack from his body. Therefore, Lu Yang turned all his magical energy into a red lotus spell and poured it into his clone. among.

When the clone exploded, it was equal to 10 red lotus skills being released at the same time. In this narrow area, the power was stronger than the curse.

No matter how hard the skin of the Hydra Emperor is and how powerful the spells he puts out, the hardness of his intestines is far worse than that of the snake scales. When the 10 red lotus exploded together, he directly blasted the head of the Hydra Emperor. The neck exploded and his head flew directly.

Large patches of black venom were sprayed onto the ground from the break, causing patches of vines on the ground to melt even their roots, and the surrounding ground became barren.

It is a pity that such an attack does not harm the Three-eyed Demon Flower. The attack method of the Three-eyed Demon Flower itself is to produce a seed into the soil, and then quickly become a vine by absorbing the magical energy in the soil. He then commands the vine. Attack, the vines died, and he could produce seeds again, without any difficulty.

“Swish”

“Swish”

...

Large vines shot out, continued to entangle the other eight heads of the Hydra Emperor. One head was missing. The power of the vine was also increased a lot, and this time the vine was different from the previous ones.

The first level of the three-eyed magic flower relies on pollen to hypnotize, the second level is vines to kill people, and the third level of evolution is actually very toxic. The super-paralytic neurotoxin is instantly released from these vines, and it is inserted into the Hydra through the scales of the snake. Among the skins of the other heads of the emperor, the other eight heads of the emperor Hydra also became slow.

One of the heads was the first to resist, and was pulled to the extreme by the vines. Unfortunately, the vines were not powerful enough to pull the snake head from the body. At this time, Hong Ye rushed over, a dragon claw grasped the snake head, and the other The claw came out from the neck of the snake’s head and slashed hard.

The sharp claws cut off the snake head and half of the neck, and immediately, the remaining seven heads made a painful neighing sound at the same time, but this did not make any sense, because the poison of the three-eyed magic flower continued .

Chapter 2089 - Imprison 9 snake kings

Latest URL: "Hey~!"

The seven heads felt that another head had been cut off at the same time, as if they had anticipated their fate. Under the stimulation of the severe pain, the seven of them briefly recovered their minds and spewed venom all around frantically.

The black venom caused the vines to wither quickly, but the three-eyed magic flower was now Tier 3, and the speed of killing the vines at this level was not comparable to the speed at which he could induce the vines.

Two heads are missing, and the attack of the three-eyed magic flower has become much simpler. Under Lu Yang's order, it madly instigated the vines and restrained the remaining seven heads, even the vines directly He curled his mouth so that they could not spit out the venom.

When Hong Ye saw the opportunity, he chanted a spell, and in front of him, a rapidly spinning flame knife suddenly formed.

Standing in the distance, Lu Yang could feel the extremely powerful power contained in this flame knife, which seemed to be a skill that Hong Ye had accumulated for a long time to release.

The Blazing Demon God heard a fierce message, saying: "Don't let Hong Ye chop off all the nine heads of the poisonous snake, and leave one behind."

"Why?" Lu Yang asked in surprise.

The Blazing Demon said: "Hydra King can survive with only one head left. His healing ability is extremely strong, and the remaining heads are likely to regenerate. The venom of this guy is too strong. If it can be kept forever, it will be possible in the future. Provide you with venom for a long time.

Don't forget what I said to you, many creatures in other worlds have no fatal weaknesses, even if they blow their heads, they can't kill them, but this venom is okay, don't be arrogant. "

Lu Yang reacted and hurriedly issued instructions to Hong Ye.

"Roar~!"

Hong Ye roared in dissatisfaction, and the flame knife formed in front of his head flew out in an instant, hitting the outermost head of the Hydra Emperor.

"Boom"

The first head was blown away.

"Boom"

The second head was blown away.

"Boom"

...

In the blink of an eye, six of the seven heads were knocked out, leaving only the smallest head at the end. If it hadn't been for Lu Yang's order, this head could not be kept.

Hong Ye roared, using magical energy to change the direction of the flame knife, only scratching the neck of this head, and no damage to the rest, but even so, the last head of the Hydra Emperor was bloody.

After a large piece of black blood fell to the ground, all the vines were destroyed. At this time, the Blazing Demon God acted instead of Lu Yang. He had a second heart of the Demon God. The Blazing Demon God had already recovered part of his abilities. He used mana to save the nine heads of a head. The Snake Emperor was loaded into the deserted area of the Demon Temple as a whole, and even the chopped head was taken in.

“He can temporarily store him for three days here. There is no magical energy. His own recovery ability is extremely poor. If he is not sent outside, his remaining eight heads will never grow out and will remain in a state of dying. “The Blazing Demon God returned the control of the body to Lu Yang.

Lu Yang looked at the beheading of the dying Hydra Emperor in the space, and asked, “Are these heads still useful?”

The Blazing Demon smiled and said: “Of course it works. This is the best material for bows and arrows. The snake tendons and bones of the third-order snake king contain powerful magical energy, and they are all excellent materials for bows and arrows. “

Lu Yang shrugged his shoulders and sent Hong Ye and the Three-Eyed Magic Flower to the Demon Temple, so that they could cultivate well. He took out the bone staff, walked to a nearby supply point invisibly, and rested in the room. Down.

The end of this battle between Red Night and Three-Eyed Magic Flower consumed a lot of magical energy, and it would take at least a week to replenish it.

Lu Yang used this week to check the area controlled by the Hydra Emperor and found that there were only more snakes around, and no other monsters appeared. It seemed that this was a chaotic, warped time and space that could not be transmitted to otherworldly creatures. .

A week later, Lu Yang returned to the dungeon. By this time, Zhuojiu and White Lion had trained more than a thousand Tier 2 magicians. Compared with the more than 100,000 magicians in the city, this is more than one thousand. People are extremely precious.

“Boss, I have learned the second-order spells, only real combat.” Zhuojiu asked to fight.

Lu Yang nodded and said, "It's also time for us to go out to fight. Tonight, everyone has a rest for the last night and bid farewell to family and friends. Going out to fight is not a game. This is the real face of death. It is fortunate to be able to come back alive. Disability is normal."

Zhuojiu, Baishi and others nodded, and went back separately.

That night, the more than 1,500 wizards and warriors of the Jagged Brotherhood bid farewell to their families. By the next morning, they packed their bags and walked out of the city with Lu Yang.

When Fei Yang and Lu Tianming got the news, they caught up with Lu Yang at the gate of the underground city. Lu Tianming asked, "Brother, what are you doing?"

Lu Yang said, "Starting today, I officially took my brothers to pay the old city."

Lu Tianming looked at the thousands of people who went out. Although he could not perceive how powerful these people were, he saw hope and the future in their firm eyes, and said excitedly: "I will send ground troops to cooperate with you."

Lu Yang smiled and said, "I won't use it for the time being. The advancement will not be too fast. I will focus on training first. When I really need your help, I won't be stingy."

Lu Tianming and Fei Yang both laughed, and Fei Yang said, "Okay, then we will wait for your good news, the family members of the Jagged Brotherhood, we will take care of it."

Lu Yang patted the shoulders of the two of them, and said to Zhuojiu and others: "Go."

1,500 people walked towards the old city in the distance. Among these 1,500 people, 500 were from the Temple of War, and the remaining 1,000 were all mages, ice, fire, wind, thunder, and holy light, and there were 200 people in each category.

"Light Body Surgery"

“Hydraulic”

The 200 wizards of the wind system applied spells to everyone, making them easier to walk.

Because there is no vehicle, they can only walk like this, but this is also good, and it can cultivate the tacit understanding of these people at the fastest speed.

Lu Yang walked with them without taking a car. He walked for a whole day, and it was only at night that Lu Yang led the team to the entrance of the old town.

Outside the dozens of red brick buildings, Lu Yang ordered everyone to rest in the building. Just like playing games back then, someone was in charge of the night shift, and the rest lay down and sleep directly.

Zhuojiu and Wan Zhonghui were on duty in the middle of the night. The two were chatting. Looking at the dark night around them, Wan Zhonghui said with emotion, “Who can imagine that we were still fighting monsters in the game a year ago. A year later, I will fight monsters in reality. Sometimes I really feel that this is a dream.”

Zhuojiu smiled. Wan Zhonghui was just an ordinary person before. Before being selected by Lu Yang, his fighting strength was only Level 5. Lu Yang used the red spirit fruit to forcibly upgrade Wan Zhonghui to the level of a Tier 2 general. .

“How about it, are you afraid?” Lu Yang walked over from a short distance.

Wan Zhonghui stood up and smiled and said, “Boss, I can die for you. What is terrible about me, I am not a good person in the first place.”

Lu Yang laughed and slapped him on the chest, and said, “Live well, I hope my brothers can live with me to enjoy the glory of the new world.”

Wan Zhonghui was a little surprised, nodded and said, “Oh, I see.”

Chapter 2090 - Lead the team

Latest URL: Originally, Wan Zhonghui was a reckless man. In the Jagged Brothers League, he violated Lu Yang's orders and killed ordinary players to **** things without authorization. After being almost expelled from Lu Yang, he regretted rebuilding his account and re-established his account from level 1. He started to level up, and later became the commander of the Bloodsworn Shaman Army, and followed Lu Yang to beat players from all over the world.

It is undisputed that in the peaceful age, people like Wan Zhonghui are bastards. With Lu Yang restrained, such people can barely make mistakes, but if they are placed in this **** era, Wan Zhonghui will become a hero. .

Not everyone is born to dare to kill and do things that go against conscience. Wan Zhonghui doesn't have so many scruples here. He was originally an orphan. He grew up in the cold and warm world since he was a child. In order to protect his companions in the orphanage, he He has fought countless times with people, and to him, hands-on are just commonplace.

Lu Yang had taken his fancy to this characteristic and selected him first, but instead of letting Wan Zhonghui die, he made him his companion and brother.

Wan Zhonghui didn't think so much. He didn't believe in gods since he was a child. He had begged the gods countless times to make him and his brothers and sisters live better, but this kind of thing didn't happen until he met Lu Yang. His life is gradually getting better, he only believes in Lu Yang.

Lu Yang made him understand what honor and dignity are, making him a hero who enjoys countless glory in the game.

Wan Zhonghui's heart has never been shaken when recruiting people from all aspects of the temple, the house of warriors, and the mercenary guild. He stood firmly behind Lu Yang, and as long as needed, he would rush forward desperately. .

However, his strength is low and he has no talent for cultivation. Just when he thought he could only be unknown in his entire life, Lu Yang forcibly raised his strength to level 2. With powerful strength, he just wanted to work hard for Lu Yang, but he didn't. Thinking that what Lu Yang hoped was that he was alive, this made Wan Zhonghui even more grateful.

Blazing Demon God sensed the emotional fluctuations in Wan Zhonghui's heart, and said with a smile: "I didn't expect your kid to have so many loyal subordinates, I did not misunderstand you."

Lu Yang laughed and said secretly: "It's just a matter of comparing your heart to your heart. After ten years, you can see everyone's character clearly. I regard them as brothers, and they naturally regard me as brothers."

The Blazing Demon God sighed with emotion, and said, "How wonderful, but unfortunately, I don't realize this kind of emotion anymore."

Lu Yang didn't expect the Blazing Demon God to be sentimental, and he couldn't persuade this kind of thing. It is estimated that his brothers had died in the battle, so he could only let the Blazing Demon God slowly calm down his feelings. He continued to inspect the team. .

The surging blood in the body and the strong heart of the devil made Lu Yang extremely energetic. As long as he didn't encounter a big battle, he didn't need to sleep.

After a round of inspections, it was confirmed that there were no problems with all the guard posts, and he returned to the room and continued to meditate.

At 6 o'clock in the morning of the next day, after the sun rose from the distant horizon, all kinds of demonized creatures in the old town of the East China Sea came out and began to hunt for food.

"Woo~~~~!" Zhuojiu, White Lion, and Half a lifetime of bitter love blew the horns at the same time.

1,500 members of the Jagged Brotherhood quickly got up to wash. After the magic, washing became simple. The water mage turned out spring water for everyone to use. After a simple wash, a group of people came to the streets of the city to form a group.

Lu Yang stood in front of the broken window on the second floor, looked at the 1,500 members below, and said loudly, "Brothers, the war is about to begin at this moment. There is only one request I have for you, to survive and not to die. You have to face any creature you see carefully. Before, you have distributed the notes that I and Zhuojiu researched in your hands. The attack methods and weaknesses

of each demonized creature are recorded in detail. Don't kill it. Demonize creatures to give your lives. This is not a game. No one can use the resurrection technique on you. Remember, all will live for me."

Wan Zhonghui, Jiang Chen and others were all excited about killing demonized creatures, but they didn't expect Lu Yang to tell them these words, like a pot of cold water poured on their blood, and the heat was reduced. Down.

Lu Yang said: "Now everyone is going upstairs and watching by the window. I will show off with Zhuojiu and White Lion to demonstrate **** demonized creatures."

Everyone nodded and jumped onto the second floor of the surrounding buildings. Lu Yang left Xia Yuwei in charge. He jumped onto the street and led the muddy wine and the white lion to the front.

Now the White Lion and Zhuojiu are no longer the same embarrassment they used to be. When Lu Yang left, the weapons they plundered from the enemy were re-forged into a form suitable for them to use.

The white lion is a short sword with a length of 40 cm in the left hand and a heavy shield with a height of 1.8 meters in the right hand. At the 1st level, the white lion took this shield with some effort. Now at the 2nd level, it has become very relaxed and I don't even feel it. To what weight.

The appearance of the turbid wine is not much different from that of the white lion. The long knife in the hands of the half-life of the companion has turned into a wide-bladed long sword, as is Zhou Tianming, and each of them wears armors and uses them. Redskin monster's equipment was re-forged.

Including the members of the Iron-Blooded Brotherhood who traveled this time, they were all equipped with this kind of equipment in close combat. It is a pity that the wizards do not have standard robes and staff, and they are all empty-handed. However, even with their empty hands, their Tier 2 strength is enough to crush the general monster.

"I'm going to attract strangers." Lu Yang said.

He ran towards the street in front of him alone, but his mentality was different from the first time he came here. A year ago, when he came here, he was still alone, groping forward cautiously, and met the demonized wild boar. They all need to escape to special terrain in order to kill them.

Now not to mention Lu Yang's own strength to kill these wild boars is very easy. There are 1,500 members behind him, of which 200 have participated in the war. Although the remaining 1,300 are rookies, they have become veterans on the battlefield. It only takes a few days. Time is only, now, he is very confident in restoring the old city.

As long as several processing plants in the old city can be put into operation, a new city can be quickly built on the mountain by virtue of the various basic industries in Donghai itself. It is a new city without distortion of time and space, and it is also the owner of Donghai City. New home.

"Humph~!"

The sound of a wild boar came from the street ahead. Lu Yang quickly ran to the corner. 20 demonized wild boars were walking in two rows in the city. At the front, there was a giant demonized wild boar with a height of at least 1.5 meters and his fangs. Nearly half a meter in length, when he lowered his head, he was facing the front.

There is a strange magic symbol on the head of the demonized wild boar, and as he walks, the fangs are covered with a layer of metal from time to time.

The Blazing Demon said: "This demonized wild boar has been promoted. It is a Tier 2 wild boar. After being baptized by magic energy, he evolved the magic iron element, which can cover the magic iron element on the fangs. Fortunately, this wild boar has a short evolution time. , If you reach the second-order peak, your whole body will be covered with magic iron elements, and it will be difficult for you to burn him to death."

Lu Yang smiled and said, "It's just right, it can be used to train my men."

"Pyroblast"

He shot a big fireball at the leading demonized wild boar, and the blazing flame flew towards the demonized wild boar leader, but before getting close, the entire head and fangs of the demonized wild boar leader were covered with a layer of gray iron. metal.

“Boom”

The flame hit the iron metal and did not cause any damage to the demonized wild boar leader, but the blazing high temperature made the skin behind his head feel a sting.

“Hmm~!” The demonized wild boar leader fell into a rage. In this area, even the demonized tiger dared not provoke him. Unexpectedly, humans dared to provoke him, so he rushed towards Lu Yang.

“Hot and Fast”

Lu Yang turned around and ran, no slower than the demonized wild boar leader. When he was about to come in front of the shield formed by Zhuo Jiu and others, shouted, “This is an advanced one. The head of the demonized wild boar has reached Tier 2, and his entire head can be covered with a layer of magic iron elements from another world. Don’t be hit by his fangs. The shield can’t hold it. Cut the area behind his head.”

Zhuo Jiu and the others originally thought that Lu Yang had brought in an ordinary wild boar, but they did not expect that when they encountered hard stubble, several people had cultivated a tacit understanding, especially the Zhuo Jiu, his reaction speed was extremely fast.

Just as Lu Yang jumped over his head and followed the wild boar leader with his head lowered and bumped with the fangs covered with gray metal, the turbid wine slammed on the ground so that the wild boar’s fangs didn’t hit anything.

Just when the demonized wild boar leader was about to step on the body of the turbid wine, the turbid wine suddenly used all his strength to push upwards.

The boar leader rushed forward and flew directly into the air. The white lion, Zhou Tianming and bitter love half their lives, the big swords in the hands of the three people braved the white light, and at the same time stabbed the wild boar leader’s belly.

“Stab it”

Three piercing and strange sounds sounded, and the belly of this Tier 2 wild boar leader was cut out with three long openings, and the internal organs were taken out by the long sword, and the blood was splashing around.

Chapter 2091 - Strong flat push

The latest website: The subsequent 19 first-order enchanted wild boars are not as fast as the second-order wild boar leader. When the second-order wild boar leader is killed, they are still 30 meters away from the muddy wine and others.

Seeing the death of the wild boar leader, their eyes showed a fierce look, and they roared "Awk" one after another, lowering their heads and using the wild boar fangs to aim at the dirty wine and others.

"Pyroblast"

Lu Yang pointed forward with his right hand, and fired out one by one. The level 2 mage's flame explosion, whether it be from the accumulation of magical energy or the temperature of the flame, far exceeded level 1. Pyroblast of the mage.

When the huge fireball hits the demonized wild boar, it immediately ignites the whole body of the demonized wild boar. In just 1 second, the demonized wild boar fell to the ground and wailed, trying to roll and extinguish the flames, but before struggling twice, he fell. The land is dead!

Six demonized wild boars were killed in succession, and the rest of the demonized wild boars rushed to the front. Muddy wine and the white lion did not evade at all. White shimmer appeared on everyone's body, not only covering the armor. , And the shield in hand.

"Boom"

“Boom”

“Boom”

...

The power of Tier 1 Enchanted Boar is far inferior to those of the turbid wine and the white lion. The warlord of Tier 2 uses the energy of another world to wash his body and temper his muscles. From a simple power point of view, turbid wine can lift 500 kg with one hand Objects.

The impact power of the demonized wild boar does not even have the ability to make the turbid wine and the white lion take a step back. On the other side of the turbid wine, raise the long sword in his hand and stab it directly into the demonized wild boar’s head.

The same goes for the White Lion, Zhou Tianming and others. Everyone easily harvested the wild boar that hit their shield.

Because the killing speed was too fast, the wild boars at the back had no time to turn and ran into the wild boars killed in front.

Lu Yang knew the strength of Zhuojiu and they stood behind the shield and continued to attack. The 19 Tier 1 enchanted wild boars were all killed in just one minute.

The members of the Jagged Brotherhood on the buildings on both sides saw this scene and looked at their arms in surprise. Only then did they feel how powerful they are today.

Zhuojiu and White Lion used long swords to smash the skull of the demonized wild boar, took out the magic core inside, and handed it over to Tu Feng.

Lu Yang said loudly: “In the future, the guild will only charge 20% for all battles obtained, and the remaining 80% will be owned by everyone.”

The magic core is very useful, not only can improve the player's strength, but also can be used to exchange some special items, such as the battle skills learning methods of some masters in the Imperial Capital.

Every combat skill is not something that you can learn automatically when you have the strength, but you need to understand and learn by yourself. Some have poor comprehension ability. Even at the second level, he hasn't even learned all the spells of the first level.

For some special items, the Imperial Capital has already begun to build the "Second World" trading platform. The items seized in all regions of the country can be traded on the platform, and the currency of settlement is the magic core.

Of course, at this stage, the most important thing for the players of the Jagged Brotherhood is to absorb the energy in the magic core. Hearing Lu Yang said that only 20% needs to be handed in, and the remaining 80% belongs to them personally. Everyone showed an expression of excitement. .

Lu Yang felt the emotions of his brothers, and said to Zhuojiu and White Lion: "I will look for the demon monster. You are here to wait for me."

"Yeah." Zhuojiu and others nodded.

Lu Yang ran towards the street in front of him. The demonized wild boar was one of the most primitive creatures. After that, Lu Yang brought the demonized tiger, the demonized wolf, and the demonized falcon to all kinds of primary creatures. Waiting in front of others.

A Tier 1 demonized creature, facing a Tier 2 warlord with a full-body armor, can't break the defense at all. It is also a Tier 2 creature. This armor can also block the attack of the claws. The only problem is the power of the Tier 2 creature. Bigger, especially the Tier 2 Demonized Tiger, has a stronger bite force. Although it can't break the armor, it can bite the arm guard to bend.

The same is true for the Demonized Wolf and the Demonized Falcon, but on the whole, they are unable to break defenses against Tier 2 generals.

The spells used by Tier 2 wizards are extremely harmful to these creatures, almost always killing them with one hit. When facing Tier 2 creatures, only 10 people are required to cooperate, and each person can hit two spell attacks. Severely inflict Tier 2 creatures.

At the same time, Lu Yang's demonstration also allowed everyone to see clearly the reaction speed of these demonized creatures and various corresponding indicators.

After Lu Yang felt that he was almost missing, he issued an order and said, "To slaughter all the demonized creatures in this area, I want to make no more demonized creatures exist here."

"Yes." 1500 people shouted in unison.

They jumped down from the building, a group of 10 people, and fought around. Suddenly, a large number of demonized creatures suffered.

No matter what kind of creature it is, as long as it is Tier 1 and is killed by long-range spells, Tier 2 can only run to the front.

Human beings are always the most powerful in group collaboration!

Lu Yang did not participate in the offensive. Instead, he jumped onto a tall building and watched the battle of his brothers. If something went wrong, he would participate in the battle in time. But now it seems that in the battle in this old city, there is no need for the time being. His participation.

The fighting stopped every half an hour to allow the wizards to restore their magic. What surprised Lu Yang was that Lu Yang originally thought that many people in the team would feel that they would have slaughtered so many creatures for the first time. It was uncomfortable, but he didn't expect that when everyone killed the monsters, their expressions were extremely firm, even many girls were like this. It was obvious how much they hated these creatures.

From killing during the day to the setting of the sun, Lu Yang worried that he would be attacked by demonic creatures in the night battle, so he stopped everyone's fighting.

“Return to the camp to rest and continue fighting tomorrow.” Lu Yang ordered loudly.

The members of the Iron-Blooded Brotherhood who were fighting in the old city showed unwilling expressions after hearing the words. In today’s daytime battle, their extent of expansion was less than 1 km. In other words, they killed one day, even the old one. One percent of the city has failed to do so, which shows how many monsters there are.

Lu Yang didn’t care, because he knew that many demonized wild boars that had been eliminated would appear again tomorrow morning. When the energy of another world invaded, the reproduction speed of creatures in this world was changed.

Take the demonized wild boar as an example. A litter of demonized wild boar can produce 12 cubs. It only takes a few days for these cubs to grow to the level of level 1 and 5. Seeing that they are very large in appearance, In fact, they were born in less than 10 days.

Chapter 2092 - Retake the arsenal

Latest website: The only way to truly kill these enchanted wild boars into “endangered animals” is more powerful spell attacks. That is to say, the 1,500 people he brought out have become truly powerful and know more advanced spells. In order to do this.

Now Lu Yang’s goal is to train soldiers, so that his brothers can continue to grow in the battle, so that it will not take long for their mental strength to rise to Tier 2 level, and they can also learn more powerful skills.

Waited until early morning the next day.

Sure enough, as Lu Yang expected, the number of enchanted wild boars on the street was almost the same as the previous day, which made Jiang Chen and the others who were so excited to think that they had cleaned up the area showed unhappy expressions.

“Continue to kill. Since these garbage will give us meat and magic cores, let’s not be polite.” Jiang Chen and the others roared and rushed over.

Lu Yang stood on the top of the building and watched as he continued to clean up the brothers of the demonized wild boar, tiger and wild wolf. He did not participate in the killing, but after seeing that there were no problems around him, he released the red night and the three-eyed magic flower to guard him. , He sat in place to practice.

During this period of time, he has figured out the purpose of the purple spirit fruit. After eating this thing, it can increase the magical energy of the soul sea extremely quickly, and the efficiency is more than twice that of the red spirit fruit, which means that eating this purple Ling Guo could enable Lu Yang to reach the criteria for promotion to Tier 3 Fire Demon in a short period of time.

The only problem is that after being promoted to Tier 3 Fire Demon, in the words of Blazing Demon God, powerful power will devour human nature, and a person who is not careful and fails the promotion will explode.

This level is also a **** level, one of the most difficult levels. Just imagine that a human has the power to destroy the world, and anyone in front of him is like an ant. What will this person gradually become?

In his consciousness, the Blazing Demon God said to Lu Yang: “The previous spiritual training for you was aimed at you personally, as well as your relatives, lovers, and brothers. You survived, but this training involves greater You have to be prepared for the scope of the project, it may drive you crazy.”

It is currently known that only the dean of the imperial capital can reach the third order on this planet, and the others who can reach the third order are probably only the people of the temple.

The dean himself is in a high position. For him, this level of training is nothing. The people in the temple have firm beliefs. Although they have the greatest chance of being crazy, they are God-given powers. In front of God, They can remain normal.

Only people like Lu Yang are the most difficult to control themselves. Once they have super power and cannot control them, they are controlled by power. At that time, Lu Yang will be completely mad.

This kind of thing abounds in history. For example, in the Northern Qi Dynasty, known as the dynasty of beasts during the Southern and Northern Dynasties, almost all the previous monarchs were lunatics, such as Shang Zhou and Xia Jie.

Lu Yang was also worried that he was going crazy because of his strength. Now he could feel the hostility brought by the surging power. When this hostility made him face the enemy, he just wanted to punch him to death.

Why Lu Yang has not attacked the Martial Artist House, the Temple, and the Mercenary Guild, because he is afraid that his hostility will become heavier and heavier.

Fortunately, there was the Blazing Demon God beside him reminding him at any time, letting Lu Yang know that with the killing too much, hostility would gradually form something like substance and stick to the spirit, making people crazy unless there is a way to control it.

The Blazing Demon God has his own solution, which is to solve it through heart training. He said to Lu Yang, "Are you ready?"

Lu Yang said, "Come on, I'll try."

"I hope you don't go crazy in the illusion I set." Blazing Demon God said defiantly.

Lu Yang laughed, and as soon as he closed his eyes, he entered the illusion in an instant. In this illusion, many people appeared in front of him.

All kinds of people are embarrassing him, but they are all trivial things. For example, when you are driving, the opposite car is in a traffic jam, but someone takes your lane to go retrograde, leaving you only a very narrow one. The place allows you to drive, and you curse when you can't get by. What should you do?

For example, you suddenly showed up with an extra daughter. When you went to a wedding and became a bridesmaid, you were blocked in the room maliciously on the grounds of marriage customs. When you rushed in, although your daughter was not physically harmed, she was bullied. Bullied. The person who bullied your daughter didn't care and didn't apologize. What should you do?

With powerful power, you can kill them with just a touch of your finger, and then their family members will seek revenge from you, whether you continue to kill or run away.

If they call the police and you face punishment, but they want to retaliate against your daughter, what should you do?

If you continue to kill, the authorities will send a large number of people to arrest you. Are you arresting or continuing to kill?

Choosing again and again, refining the heart, it's clear that at the very beginning are some very small things, and in the end they can turn you into a murderous demon, the kind of absolute power that will be infinite to those who disobey you slightly. Killing, the end is that you will become a lunatic and mentally ill.

Lu Yang sat on the roof, the cold wind blew his body, but the cold sweat on Lu Yang's forehead kept falling, and his entire back was soaked.

I don't know when, Lu Yang opened his eyes, only to realize that it was late at night, Zhuo Jiu and White Lion were sitting not far from Lu Yang, and everyone looked at him curiously.

"Boss, are you okay." After seeing Lu Yang opened his eyes for a long time, he hurried over and asked.

"Roar~!" Hong Ye stopped the bitter love for a long time.

Lu Yang stood up with a smile and touched Hong Ye's head. The little guy got into Lu Yang's Demon Temple and continued to enjoy the aura. The three-eyed magic flower returned to Lu Yang's arms, becoming A small ball.

After half a lifetime of bitter love, he ran to Lu Yang's side and asked, "Boss, you are so anxious to die for us. Your expression will be painful and crazy for a while. We all thought you were crazy."

"Yeah, are you practicing any spells again?" Zhuojiu asked.

Lu Yang smiled and said, "Sooner or later, you will come to me. This is called cultivating the mind. It is one of the methods for cultivating mental power. Let's not mention this. How about today's battle?"

Zhuojiu said: "Today, the area opened up is one kilometer larger than yesterday. Everyone's strength has improved very quickly. All kinds of meat such as demonized wild boar and wild wolf are about to pile up."

Zhou Tianming said: "We have taken the arsenal back. The equipment stored there is almost undamaged, and we can continue to manufacture ammunition."

Lu Yang's eyes lit up and said, "Wait for me, I will contact Fei Yang."

He took out the phone and directly dialed Fei Yang's number. After two beeps, Fei Yang pressed the access button and asked with a smile, "Brother, what can I do for you?"

Lu Yang smiled and said: "Good thing, I took it back for you in the arsenal. Tell me, what should I do with these equipment? Should I ship them back or send someone over? I don't understand this kind of precision instrument. You need professional people. Come to command."

Fei Yang's eyes were red, and excited voice became sharp, and said: "You really took the arsenal back?"

It turned out that there were too many monsters in the arsenal area. With the strength of Lu Yang, Lu Tianming and Fei Yang at that time, they couldn't get it back. This is Fei Yang's biggest regret, because there are a lot of raw materials in the arsenal to make weapons. If the ammunition can be taken back, the strength of the entire East China Sea will be greatly improved.

Lu Yang smiled and said, "It's true."

Fei Yang said, "Don't move, I'll take the engineers over. Many equipments are very sophisticated and require professional skills to work. That's great. Just bring these things back to the East China Sea and start manufacturing. The strength of our military can be greatly improved."

Lu Yang sighed a little, and said, "There are three arsenals in total. I tried my best to knock down all three places. Our East China Sea is too weak."

After all, demonized creatures have not surpassed the limits of normal creatures. They will also die if they are injured by thermal weapons. If the military can produce such weapons and equipment in large quantities, the 3 million people of the East China Sea will be able to leave the dungeon as soon as possible. Live on the ground.

Chapter 2093 - Sea monster

Text Chapter 2093 Sea Demon

Fei Yang and Lu Tianming originally thought that Lu Yang would also support the soldiers and only enhance the strength of the Jagged Brotherhood. They did not expect that Lu Yang could really do this, and even took the initiative to help the government and the military to regain the arsenal, which made the two people feel The last point of caution is gone.

At the moment, while reporting the incident to the Imperial Capital, Fei Yang and Lu Tianming rushed to the arsenal where Lu Yang was with a large number of military and academy members and all vehicles.

In just one day, all the precision equipment and materials were transported back to the Donghai Dungeon. The power supply from the Dungeon allowed these devices to operate normally. For a while, Fei Yang and Lu Tianming's faces were no longer on the face. It is sadness and bleakness, but complacency.

“Brother, give me one month. After one month, I will personally bring a regiment of troops to accompany you to destroy the demonized creatures in the old city.” Fei Yang said excitedly to Lu Yang.

Lu Tianming didn't hide it anymore, opened the map, pointed to an old port not far away, and said, “Could you find a way to take us here? This is a weapons storage site with a lot of artillery and ammunition.”

Lu Yang looked at the location. It was 20 kilometers away from them. He said, “It's no problem to go here. I just don't know how many monsters there are. You send some soldiers to follow me.”

Fei Yang said excitedly: “If you can go, I will now send a group of people to come with you with heavy weapons.”

Lu Yang said, “Let's give it a try.”

“Good.” Fei Yang and Lu Tianming said excitedly.

Immediately, Fei Yang issued an order, and the troops of a regiment in the dungeon quickly assembled and ran to the area where Lu Yang was carrying heavy weapons. After that, the group of people advanced towards the old port.

Knowing that weapons and ammunition can continue to be produced, Fei Yang no longer ordered the soldiers to save bullets, shouting: “When you see a monster, give me a hard hit, don't be afraid of waste.”

1500 people including Lu Yang and Zhuojiu followed in this regiment, watching these soldiers like cold-blooded machines, and glanced at the demonized creatures.

However, I have to admit that the efficiency of thermal weapons on the killing of demonized creatures is very low. Often a demonized wild boar requires a single person to shoot more than a dozen shots in a row to kill the demonized wild boar.

Along the way, all the monsters were cleaned up by relying on a large number of people and fierce firepower, but Fei Yang didn't feel that there was any problem with this, and said to Lu Yang somewhat proudly, "Brother, heat weapons are still useful."

Lu Yang laughed and said, "Of course, after all, demonized creatures are made of flesh and blood, and they have been baptized by magical elements."

Fei Yang nodded repeatedly.

Lu Tianming frowned and said, "Old Fei, don't be too happy. Many of the demonized creatures are fearless and light firepower."

As soon as the voice fell, a Tier 2 demonized wild boar suddenly sprang out of the grass. His body was more than 2 meters high, and half of his body was covered with gray magic iron elements, as well as his two one-meter long husks. Ya, when he rushed into the crowd, anyone who was hit by his head turned into steel and hit by his steel fangs was either seriously injured or dead.

"Kill him soon." Fei Yang shouted.

Everyone quickly moved away from an area, and the firepower was all aimed at the Tier 2 demonized wild boar, but even the wild boar body that was not covered by magic iron was not afraid of bullet attacks, not to mention his head.

"boom"

A rocket hit the steel head of the demonized wild boar, but still did not cause damage. Seeing this, Lu Tianming couldn't sit still, and jumped to the front of the demonized wild boar with a sword inserted into the Tier 2 demonized wild boar. At the back of the neck, this will kill the demonized wild boar.

When Lu Tianming came back, Lu Yang said in surprise, "Are you also in Tier 2?"

Lu Tianming was slightly proud, and said, "Of course, I succeeded in my own practice."

Lu Yang admired a little, this Lu Tianming really meant something of a martial arts wizard.

Fei Yang's expression was a little bad, and he frowned and said, "What is the demonized wild boar just now, why can't it touch him?"

Lu Tianming looked at Fei Yang with emotion and said, "Old Fei, accept the reality. Your light firepower can only kill Tier 1 monsters. Only heavy weapons can move Tier 2 creatures. Level creatures, I am afraid that your heavy weapons can only wound, but not kill."

Fei Yang's face was a little gloomy, and the world was changing so fast that he couldn't accept it.

The group continued to move forward, and there were more and more Tier 2 creatures along the way, so that Lu Yang had to send Zhuo Jiu and White Lion to the front.

Lu Tianming originally thought that he was already strong enough to enter Tier 2, but when he saw that a large number of Lu Yang's staff were Tier 2, he was dumbfounded and said to Lu Yang in surprise, "Brother, what do you do? Arrived, your brothers are all Tier 2 now."

Lu Yang smiled and said, "Thank you for your help. and encountered some adventures when I went to the imperial capital. Therefore, my brothers and I have accelerated our cultivation speed."

He didn't mind telling Lu Tianming a part of the truth, but he wouldn't say it all. After all, his number of red spirit fruits was not too much, and he still wanted to use it for his subordinates, and there was no extra for others.

Lu Tianming also knew that he couldn't ask more, and said with a smile, "It's good to be strong."

Fei Yang also breathed a sigh of relief and said, "As long as I can keep the East China Sea, the stronger you are, the happier I will be."

"The front is the port." Zhou Tianming ran from a distance, frowning and said: "However, a group of strange creatures appeared in the port. They are not demonic creatures, some resemble creatures in another world."

Lu Yang suddenly widened his eyes and asked, "What kind of it?"

Zhou Tianming thought for a while, and said: "You will know if you follow me to see. I really can't describe them. They are like people, but they are not like human beings."

"Go." Lu Yang led Fei Yang and Lu Tianming to the front of the team quickly, and dozens of green humanoid monsters with the skin of a crocodile were standing there.

Say they are not humans, they do have human faces, but they have the skin and tail of a crocodile, their height is very similar to humans, they don't wear shoes under their feet, but their soles are very thick and they have membranes. Connected, very suitable for action in the water.

Not only the instep, but also a fin-like thing on the arm. There is also a membrane between the fingers. Everyone holds a steel fork in his hand, which looks like the legendary patrol Yaksha.

"Someone, it is forbidden to approach our area." A monster shouted.

Chapter 2095 - Retreat the sea monster

Text Chapter 2095: Retreating the Sea Demon

Now that the leader of the sea demon lost his weapon as soon as he came up, it was like the tiger had no minions. With his bare hands, the leader of the sea demon was also dumbfounded. For a while, the leader of the sea demon could only face Lu Yang with his bare hands.

"I'm going to kill you." The leader of the sea monster turned into anger, and the magical power emerged from his body, forming two water **** on both sides of his body.

The Blazing Demon passed the message through his consciousness and said: "Don't underestimate these two water balls. After they are formed, a large number of spike-shaped droplets will be sprayed out. With your body, it will be easily penetrated, releasing a flame shield to block it."

Lu Yang also had this intention. The magical energy in his body quickly condensed in front of him, forming a flame shield covering his whole body, making Lu Yang look like a fire demon.

This is the result of Lu Yang's recent practice. He can now use his mental power to control the flames and wrap his body without hurting himself.

This kind of external flame is more than three meters long, and the temperature of the flame is two thousand degrees. Regardless of the length of the flame is three meters, it can really feel the high temperature of the flame. It can be unbearable for ordinary people to stand more than 10 meters away.

.

"Swish"

"Swish"

"Swish"

...

When the sea monster stood 20 meters away, he could feel the high temperature. He controlled two water **** to hit the spunlace, but the spunlace was completely vaporized as soon as it approached 3 meters in front of Lu Yang.

"You are about to step into the third stage. I looked down on you before, but this is by the sea. Don't forget, where there is a sea, it is my sea demon's world." The sea demon was furious, and the magic elements in his body were fully used. So far, the seawater was dragged, and huge waves rushed toward the **** on both sides of the sea monster's body.

Lu Yang frowned and looked at the Sea Demon, and said to the Blazing Demon God in his heart: "Is this guy stupid? Why use such an extremely time-consuming trick in front of me? I think it will take a while for him to condense the sea."

The Blazing Demon God sneered and said: “He doesn’t know that your body has been tempered by the blood of the gods. The release of the flame shield requires a lot of physical fitness and consumes a lot of magic. It stands to reason that you have no mental power to release. The second spell.”

Lu Yang smiled. He realized that after the tempering of the blood of the gods, his body is extremely capable. It is difficult for a normal person to release a large spell, but he can release many consecutively, since the leader of the sea demon gave him this Opportunity, then don’t blame him for being rude.

“red lotus”

Huge magical energy gushes from the soul sea, and flies into the sky under the control of spiritual power. After 2 seconds, countless red petals fall from the head of the sea monster.

The leader of the sea demon instantly felt this huge flame energy. He looked up and saw that it was flame petals with extremely high temperature. In fright, he didn’t dare to gather the sea water anymore, and quickly put two huge spheres in it. Overhead.

The red petals fall on the water ball, just like a red soldering iron enters the cold water, but the red petals are gathered together by countless 3000-degree flame elements, which are not offset by ordinary sea water.

Just one petal made a water ball dissipate one-third, and the second petal made the water ball dissipate another third.

There are a total of six petals, which happened to vaporize all the two water balls. Although the leader of the sea monster was not harmed by the fire, his whole body was in pain from being scalded by the hot steam at this time.

“Roar~!” The leader of the sea demon was completely enraged, and the armor formed by the sea suddenly enveloped him. The leader of the sea demon rushed towards Lu Yang, thinking of punching Lu Yang to death.

The Blazing Demon God said: “The leader of the sea demon wants to fight melee with you, don’t be afraid, he is not your opponent, let me release the tricks I gave you to your heart’s content.”

Lu Yang was also about to try out some of his newly learned skills. Looking at the leader of the sea monster who was approaching quickly, he sneered and said, "If you want to win with strength, it depends on how powerful you are."

"Hot Punch"

Lu Yang's entire right hand was suddenly enveloped in flames, revealing a crimson color like magma, and he punched the sea demon leader's fist full of water elements.

The two fisted, with a loud "bang", Lu Yang retreated three meters away, the flame of his right arm retreated, safe and sound.

The leader of the sea demon was beaten back by Lu Yang for more than ten meters. At the same time, the arm of the leader of the sea demon was beaten down and it was probably broken.

"Do you want to fight?" Lu Yang asked, staring at the leader of the sea monster.

The leader of the sea monster was speechless, and even the surrounding sea monsters showed horrified expressions. Obviously, the leader of the sea monster lost.

In honor challenge, the loser has only two choices, one is to give up and ask for the other's forgiveness and don't kill him, and the other is to take the initiative to die.

The leader of the sea monsters endured the pain in his right arm and roared: "I will not admit defeat. We, the warriors of the sea monster clan, will never give up."

Lu Yang stared at the sea monster and said, "I give you two choices. First, take your people back into the sea and never come out. Second, you and your people will die here."

The leader of the sea monster stared at Lu Yang. After thinking for a long time, he bowed to Lu Yang and said, "Thank you for forgiving my life. I will take my people back to the sea."

After speaking, the leader of the sea monster turned and left, and the other sea monsters and blood monsters also jumped back into the sea. In a blink of an eye, there was no monster around the harbor.

The flames on Lu Yang dissipated, fell to the ground, and the startled Lu Tianming, Fei Yang and others hurried to Lu Yang's side.

Fei Yang asked excitedly: "Brother, are you okay?"

Lu Yang stopped their questioning, sitting on the ground and began to restore his spiritual power and the magical energy in the soul sea. After a long time, he slowed down and said, "The battle just now urged too much magical energy. It's just a little tired, nothing wrong."

After all, there were too few battles, and the time to enter the second tier was too short. The soul core in the soul sea was not stable enough, and the mental power was not enough. The red lotus, the hot fist, the strong sun fist and the flame shield were continuously released. The pressure on the soul core is too great.

If the leader of the sea demon didn't give up just now, Lu Yang would really have to fight to his death for the last fiery punch. If he could fight to the death of the leader of the sea demon, he would win, otherwise, he would faint.

If it is a normal fight, he can't fight, and he can still let the Blazing Demon God take over to help, but this is an honor challenge, a war of the highest honor in another world, and the Blazing Demon God who regards honor as life will never help.

Lu Yang said to Fei Yang and Lu Tianming, "Hurry up and move away. With these heavy weapons, let's solve the problems in the old city first."

Fei Yang nodded and said anxiously: "It's already being moved, and it will be finished in three or four hours, but I really don't have confidence in my heart now. The creatures in another world are terrible."

Lu Yang smiled and said, "Weapons such as heavy snipers and artillery can still cause damage to Tier 2 creatures. Besides, the old city is dominated by Tier 1 creatures. These weapons are enough."

Fei Yang nodded helplessly, and could only accept Lu Yang's comfort.

Chapter 2096 - First choice

Text Chapter 2096 Priority Option

Thinking about it, you can understand that the original purpose of modern weapons is to kill people. How strong is the defense of human skin? Pistol bullets can easily penetrate the human body.

But under the tempering of magical elements, the skins of creatures in the different world are several times more powerful than human skins. If spells are released to enhance defenses, such as the leader of the sea demon who fought Lu Yang just now, ordinary pistols cannot break his water defense armor at all.

The only thing that can move them is the heavy sniper, domestic Gatling heavy machine gun and heavy artillery that were sealed in the warehouse of the old port this time.

With this batch of weapons, Fei Yang's army can join forces with members of the Jagged Brotherhood to invade the industrial city area in the old city, centered on the power plant in the industrial city. As long as the industrial city can resume production, the underground city is now in short supply. All living materials such as vehicles, clothes, and bedding can be replenished.

Donghai was originally a complete production base. In addition to the fact that raw materials cannot be self-sufficient, the factory has everything available, but raw materials are not a big problem now. Before the invasion of another world, each factory's warehouse had a large amount of materials, saving use and supporting one. Years are not a problem.

Fei Yang originally thought that with heavy weapons, his reliance on Lu Yang and Lu Tianming, the temple and other organizations could be reduced a lot, but after recognizing the reality, he stood up and followed to move the supplies.

Lu Tianming sat down beside Lu Yang, watching Fei Yang walk away and couldn't help sighing, and said, "Lao Fei is crazy about this. I hope you can understand him and don't have any other opinions about his previous behavior. "

Lu Yang smiled at Lu Tianming and said, "I can understand Lao Fei's thoughts. I am in a high position but have to be cautious in front of us every day, but he may need to get used to it in the future. This world is no longer respected by those in power, but The strong are respected."

He didn't mean anything else, but the world has become like this. Everyone needs to adapt. It's not that Lu Yang and the others were born to kill alien creatures. After they gradually become stronger, they will no longer be ordinary. Humans are powerhouses who transcend ordinary humans. They need to be respected by ordinary people, and even ordinary people's power of life and death lies within their thoughts.

Lu Tianming himself is also one of the strong, he smiled and said: "I agree with you that there are apocalyptic survival rules in the last days, which need to follow the changes in the world, and soon the imperial capital will introduce new policies. Look, the status of our warriors and magicians will be greatly improved."

"That's the best." Lu Yang felt that the blood in his body had stabilized. He continued to close his eyes and rest, absorbing magical elements and adding them to the soul sea.

Four hours later, the soul core had refilled, and the soul sea had recovered as before. He stood up and looked at the warehouse in the distance.

Fei Yang just ran over and said, "We've all moved everything, let's go."

Lu Yang nodded, letting the Zhuojiu who were patrolling in the distance come back, and the group followed Fei Yang and others by car back to the dungeon.

Halfway through, Fei Yang deliberately found Lu Yang, and said apologetically: "Brother, you have done the most for the weapons seized this time. I will give priority to Xiao Liang's team, and I will pay you as my brother."

Insert one sentence, [MicMicReadingapp\] It's really good, it's worth installing, even Android and Apple phones support it!

If Lu Yang hadn't forced back the leader of the Sea Demon, they wouldn't have been able to get the equipment in the warehouse after a **** battle today. Fei Yang had a clear sense of grievances, and he would definitely change if he was wrong. Others would be kind to him. He will definitely repay.

Lu Yang originally thought Fei Yang would not ask himself to apologize, and said with a smile: "Thank you, I do need a batch of weapons and equipment to increase my strength."

Lu Tianming said with a smile, "Just let it go, it's not a big deal."

Lu Yang, Lu Tianming, and Fei Yang all laughed, and the awkward atmosphere of the Jagged Brotherhood and the military disappeared.

A few hours later, the vehicle returned to the dungeon, and a large number of materials were transported to the military warehouse. At the same time, Xiao Liang was called over, and even with his more than 1,000 subordinates, they received the first batch of heavy snipers. Materials such as Gatling and heavy artillery.

Electronic screens everywhere in the city quickly broadcast the news.

"Hello everyone, I am the host, Du Bin, and I will temporarily broadcast a good news. Today the military, the Jagged Brotherhood, and the Academy jointly attacked the old port by the sea and transported a large number of heavy weapons stored in the warehouse back to the dungeon."

...

The residents in the city have heard good news in the past few days. The precision equipment and raw materials from an arsenal in the old city were shipped back, and now a batch of heavy weapons have been added. They feel that the strength of the underground city is getting stronger and stronger.

Although this dungeon was designed by Lu Yang with a population of 3 million when it was originally designed, there will still be a large number of poor people who live very poorly when it is really put into operation.

Lu Yang has nothing to do with this. Now the dungeon follows temporary rules. Those who join the army can get slightly better treatment, and those who can enter the academy will get better treatment for their family members, and they can become first-tier. For the mage or warrior, the family can leave the slum area and enter a slightly better neighborhood.

The military conference room.

Fei Yang brought Lu Tianming, Lu Yang, Bao Buping, Zhao Cheng and Wang Shijie all over, and they just took their seats. Fei Yang sent the new announcement to Lu Yang and others. uukanshu.com said: "The order just issued by the imperial capital will give you even greater rights to fighting professions such as warriors and mages in the future. Any ordinary person who offends you is a felony. You will not be bound by ordinary laws, but I hope you don't go too far."

Lu Yang carefully looked at these terms. They were all favorable conditions for fighting professions such as warriors and wizards. It was not a crime to kill ordinary people, but they could not cause harm to the families of other fighting professions.

Bao Buping said with a sharp smile, "Sure enough, it didn't make us bleed in vain. That's right."

Zhao Cheng threw the announcement on the table and said with a sneer: "Many terms are good, but we are not **** who kill people. Don't confuse us with those people."

Wang Shijie has been very careful recently and said to Fei Yang: "Our temple must abide by the rules and regulations."

Lu Yang and Lu Tianming glanced at each other, and both smiled and shrugged their shoulders at Fei Yang.

Fei Yang did not expect to issue such an order, but he could only execute it, staring at everyone present and said: "From tomorrow, our military will officially launch an offensive on the old city. I hope you can send all the main forces to fight with me, everyone. Do you have any doubts?"

Lu Yang was the first to say: "I agree, but I hope everyone will move forward separately and not all get together."

Bao Buping, Zhao Cheng and Wang Shijie glanced at Lu Yang at the same time, and said together, "We agree."

Fei Yang said with satisfaction: "Then it's decided, we will officially open up the old city tomorrow."

Everyone nodded their heads, but there was a sneer at the corner of Lu Yang's mouth. Tomorrow, it was the death date of Wang Shijie and the temple members.

Chapter 2097 - Counterattack Industrial City

Text Chapter 2097 Counterattack Industrial City

After two months, what forces Wang Shijie developed have been found by Lu Yang, and the hidden people left behind from the previous temple have also been exposed.

They thought that Lu Yang would not seek them out, and they felt that the temple was stronger than Lu Yang, so these people became brazen.

Unfortunately, these people don't know what kind of strength Lu Yang has in this underground city, and how many people secretly serve Lu Yang.

The meeting was dissolved.

Wang Shijie, Bao Buping and Zhao Cheng left, and only Lu Yang stayed, because Lu Yang had another identity, one of the chief executives of the underground city.

“I don’t know what they are whispering again. It’s really unfair. Why does Lu Yang have such a big right to the underground city?” Bao Buping said, shaking his head uncomfortably as he walked.

Zhao Cheng sneered and didn’t say anything. He knew Bao Buping was picking up trouble. He would not be fooled. He was here to strengthen his strength, not to fight Lu Yang.

There was a trace of hideousness flashing across Wang Shijie’s face, and he did not take care of the injustice, but he agreed with the injustice in his heart.

Within two months of coming to the dungeon, the temple had already brought out the strongest thing to recruit personnel, but very few elites were recruited.

Most people still have a hatred of the temple. This is largely because of Lu Yang. If Lu Yang dies, the temple’s ability to control the dungeon will be greatly improved.

Nowadays, only the Donghai Dungeon has a population of more than one million in the surrounding area. If you want to expand the distortion space and let the rewards of another world be delivered, you must sacrifice to the million people of the Donghai Dungeon.

Wang Shijie returned to the resident of the temple. In the office, he repeated Fei Yang’s orders and the official treatment of warriors, magicians and warriors.

The six deacons of the temple all showed interesting expressions. Among them, Feng Mage Tao Ran said: “Lu Yang cannot be allowed to continue to help the official development. I suggest launching a sneak attack plan in advance. With the strength of a secret weapon, it can definitely be in the industrial city. At the same time, they launched a sneak attack on Lu Yang, Zhao Cheng, and Bao Buping. They will undoubtedly die.”

“I agree.” Ice Master Zhang Lin said.

Wang Shijie said with a hideous expression on his face, “I propose to kill Lu Yang first and concentrate all the secret weapons. As long as Lu Yang is dead, we can start at any time for the other three people.”

Master Lei Cao Hong said: "Killing Lu Yang is the first priority. I agree with Wang Shijie's idea."

Tao Ran, Zhang Lin and the others thought for a while, and both nodded, Tao Ran said, "Then concentrate on killing Lu Yang first. Who will negotiate with that group of secret weapons?"

Everyone's expressions stagnated, as if thinking of something terrible.

Wang Shijie frowned and said: "Let me go, I have the amulet given by His Royal Highness, they dare not do anything to me."

Cao Hong wiped the cold sweat on his forehead and said, "I agree."

Wang Shijie stood up and walked toward the outside of the dungeon. When he arrived at the door, he was met by Xiao Liang on duty.

The two of them ignored each other. Wang Shijie drove straight towards the old town, while Xiao Liang took out the phone and called Lu Yang, saying, "Wang Shijie went out just now and the direction is the old town."

Lu Yang was discussing tomorrow's battle with Zhuo Jiu and they heard the words: "Don't follow him, you stay where you are and prepare for tomorrow's battle."

"Yes." Xiao Liang said.

Lu Yang put down the phone, looked at Zhuo Jiu, Baishi and others and said, "Wang Shijie just went out. It looks like they are also preparing for the battle tomorrow."

The white lion sneered and said: "What else can they prepare? It's nothing more than the spike devil. Now the spike devil is the baby who gives us the magic core. I welcome as many as you come."

Lu Yang laughed and said, "Don't be careless, be careful in everything."

He looked at Xia Yuwei and said, "Tomorrow you will be responsible for arresting all people related to the temple. When my side succeeds, I will notify you immediately."

"Okay." Xia Yuwei said.

The members of the temple in the dungeon also need to be arrested. Although other people can do this, the white lion and the dirty wine need to kill the enemy on the battlefield. The other second-line commanders are not so relieved of Lu Yang, only Xia Yuwei Come to do this.

In the end, he left 200 people to Xia Yuwei, and the other 1,300 people went out to fight with Lu Yang. After all this was arranged, he announced that he would disband.

Zhuojiu and White Lion did not leave, but stayed in the training ground, meditating and studying exercises and skills.

Lu Yang didn't leave either, so he meditated all night. At 8 o'clock the next morning, Fei Yang heard the news of the assembly.

When Lu Yang brought 1,300 people outside the city, Fei Yang had already assembled, including more than 10,000 senior engineers, equipment operators, and maintenance workers from dozens of factories, including power plants and garment factories. And 5,000 soldiers formed more than 30 square arrays in the open space 100 meters away from the gate of the dungeon.

Bao Buping and Zhao Cheng have also arrived. is at the far left of the square array. They each bring 150 second-order masters and 500 first-order students, and a total of 1,300 people.

When the two saw that Lu Yang took 1,300 people alone, they both showed expressions of surprise. Before the two of them asked, they saw members of the temple appear, with Wang Shijie taking the lead. There were only more than 300 people in total.

"Hey, the temple is still unwelcome here." Bao Buping said sarcastically, shaking the folding fan.

Zhao Cheng glanced at the team in the temple and said with his arms folded: "It deserves it, these people must have a conspiracy. I don't think it was wrong for Lu Yang to kill Wang Li and others before. In this troubled world, he doesn't need to make up such a one. Excuses."

Bao Buping nodded gloomily, and said, "I agree, too. It's a pity that the two of us are too weak. If I can kill them, I will definitely be the first to take the shot."

Zhao Cheng kept silent. Obviously, he did not trust the injustice.

Fei Yang saw that everyone was here. He stood at the top of the dungeon gate excitedly, using a loudspeaker to say: "Today is our first battle against the old city. I hope everyone will go all out, the people of the dungeon. Still waiting for us..."

After a few simple sentences, Fei Yang didn't repeat them, and shouted: "Go forward."

The members of the military were at the forefront. Lu Yang, Bao Buping, Zhao Cheng, and Wang Shijie each sent a team of 20 people to walk at the forefront of the team. In the event of an emergency, they could assist in the attack.

Wang Shijie's temple and Bao Buping's mercenary guild were responsible for protecting the left side of the entire team, Zhao Cheng was responsible for protecting the right side, and Lu Yang was responsible for protecting the tail, and sent some people to assist Zhao Cheng to protect the right side of the team.

Chapter 2099 - Attack the pharmaceutical factory

Latest website: Zhao Cheng is in charge of the refinery area, Bao Buping is in charge of the heavy industry plant area, and the most important power plant is attacked by Lu Tianming and Tao Yue of the college.

The five heads, including Xiao Liang, each led 1,000 to 2,000 people, followed by Lu Yang and the four of them to open up and guard.

When these areas were beaten down, the workers who came with the regiment quickly entered the factory, turned on the equipment to make full production, and sent all the existing stock materials to the dungeon after the production was completed.

Because the surrounding area of the dungeon has been swept many times before, there are basically no demonized creatures on the mountain.

Fei Yang led the team for two hours before going down the mountain, but did not encounter a large demonized creature during the period. Some small creatures were all within the first and third levels. Simple Pyroblast and Thunder and Lightning techniques can be used. Kill.

Starting from the bottom of the mountain, we reached the dangerous area. Although it was a flat road, it was still a national road before the end of the world. It was more than 20 meters wide and could parallel six rows of cars.

There are large forests on both sides of the road. From time to time, demonized wild wolves and demonized pythons of Tier 3 to Tier 6 come out to attack the crowd.

Lu Yang had always worried about the appearance of Tier 2 creatures. He didn't want his men to reveal their strength. If there were Tier 2 creatures, he had to kill them first.

Fortunately, only six Tier 2 creatures appeared on the road, and they were all killed by Wang Shijie, Zhao Cheng, and Bao Buping. Lu Yang had no chance to take action.

Stopping all the way, two hours later, the team came to the gate of the industrial city and saw the big sign hanging on the crossbar above the road: Rongde New City welcomes you in these big characters, everyone showed a relieved expression, After walking for four hours in a row, still in a tense situation, everyone is a little tired, and now they have reached the place, they can finally rest.

Fei Yang wiped the sweat from his forehead against the sunlight, and said to an officer next to him: "Find a high ground to investigate the situation inside."

“Yes.” The officer ran down to make arrangements.

Fei Yang said to Lu Yang, Wang Shijie and others: “Everyone, take a break and wait for news from the sentry.”

A team of soldiers ran out of the team and quickly climbed to the nearby low mountain. After setting up a high-powered telescope, they took pictures of the interior of the industrial city.

Photographs were quickly sent to Fei Yang’s phone. Fei Yang found a place in the shade and chose a three-dimensional projection screen in front of him. Lu Yang, Wang Shijie and others saw the situation inside the Industrial City through the pictures.

There are a total of twelve entrances and exits in the entire industrial city, corresponding to two to three entrances and exits in each branch plant. From the entrances and exits to the factory, there are a large number of creatures such as demonized boars and demonized pythons, and some areas have demons. Transformed tigers and demonized wild wolves, among them there are many high-level monsters of Tier 2.

Fei Yang sighed and said to Lu Yang and Bao Buping with his fists, “It’s up to you. I’m looking forward to your signals here.”

“Don’t worry, leave it to us.” Zhao Cheng said.

“Waiting for our good news.” Baoping shook his fan sharply.

“The temple must live up to expectations.” Wang Shijie said.

Lu Yang didn’t speak, but just nodded to Fei Yang and Lu Tianming, and said to Jiang Chen beside him: “You 20 people stay here. If there is an emergency, send a message in time.”

“Yeah.” Jiang Chen nodded in response.

The lovely queen followed Jiang Chen with her short hair and said with a smile to Lu Yang: "Don't worry, boss, there is us here, no one can attack us."

Lu Yang laughed, Jiang Chen was steady, and the lovely queen had a lot of tricks. Together, the two of them could guarantee that these 20 people would not fall into the trap of the enemy.

"Remember, keeping your life is the first thing. You are the people I trust the most, and there are many things to rely on you." Lu Yang said solemnly to the two.

The problem now is that on the side of the Jagged Brothers League, with Lu Yang going out to fight, the possibility of encountering danger is very small, because the large team of 1,300 people are all Tier 2 masters, but only 20 are left. Not to mention the small number, there are too many people to protect, and it is easy to be attacked.

The lovely queen smiled triumphantly and said: "Don't worry, the person who wants to kill my old mother hasn't been born yet."

Lu Yang rubbed her little head, put her arms around her shoulders to her side, and whispered: "Password, assassination; reply, end; gesture, the salute of the Jagged Brothers in the game."

"Yes." The two took notes seriously.

The lovely queen was a little absent-minded, but what she didn't know was that it was precisely because of Lu Yang's secret words that they saved the lives of the 20 of them.

After Lu Yang had finished talking to the two, Zhuo Jiu and Bai Shi came over with 1,280 people from the rear group, and Xiao Liang's 1,000 heavily armed soldiers were also ready.

He led a team of two thousand people along the outer avenue and walked towards the gate of the pharmaceutical factory area on the north side.

Wang Shijie and Bao Buping also led their teams to the area where they were located. For a while, various voices rang out from the entire industrial city area.

The gate of the pharmaceutical factory area.

A large number of demonized wild boars and demonized bison were resting leisurely, and when they saw the sudden appearance of human beings, their eyes suddenly became blood red.

Among them, there is a demonized wild boar and a demonized wild bull whose face has turned silver gray, which is a symbol of the second-order creatures.

The enchanted wild boar took the lead in completing the mutation, and the head and fangs rushed towards the direction of Lu Yang, Zhuojiu and the others, reflecting the luster of the metal under the sun.

The demonized wild boar subsequently mutated, and its head and horns also turned silver-gray. When running, the one who came first overtook the demonized wild boar and ran into Lu Yang's direction.

"Strike hard, punch through their abdomen." Xiao Liang issued an order.

100 heavy snipers simultaneously picked up heavy snipers, and it took less than 1 second to shoot from the second to the shot.

"Boom"

"Boom"

...

A continuous sound rang, and then looked at the second-tier demonized wild boar and demonized bison. The legs and abdomen were shot in succession. The powerful penetrating force allowed the specially-made bullets to penetrate through their abdomens, and some directly attacked them. Their

legs were interrupted, and the seemingly powerful Tier 2 creatures had no effect in the face of this heavy attack.

The more than twenty Tier 1 demonized wild boars and demonized bison behind were also ramming towards them, seeing the leader being knocked to the ground, not only did not scare them away, but aroused their ferocity.

“Continue shooting.” Xiao Liang continued to give orders.

The first batch of heavy snipers retreated, and the second batch of 100 heavy snipers fired one after another. They did not aim this time. The bullets penetrated the bodies of these enchanted creatures, and some of them were not killed in a single shot. Still continuing to rush forward.

“Kick them.” The dirty wine roared and rushed up with melee masters such as White Lion and Zhou Tianming.

“Qi Blade Cut”

All those within 30 meters were chopped in half by the air blade. At this point, the monsters at the door were wiped out.

Lu Yang said: “For melee forward, the wizard is ready to release protection spells and attack spells at any time, and heavy snipers follow behind.”

On both sides of the outer gate of the pharmaceutical factory were walls more than two meters high. Lu Yang was about to push under the wall and let these heavy snipers stand on the wall and take aim.

Zhuojiu and the others led the team, and the three brothers, White Lion, White Tiger, and White Wolf, stepped forward and threw the electric door that had been smashed to the side.

Entering the gate, there is a huge square in front of you. Six large pharmaceutical factories are lined up. Each pharmaceutical factory has several tall buildings. In front of each building, there are a large number of demonized wild boar and demonized. The existence of pythons.

“Forbidden Curse-Meteor Fall”

When Lu Yang saw these monsters, he uttered the spell directly, and a huge fireball fell in the sky and hit the monster directly. Suddenly, a large number of monsters were killed on the ground.

Chapter 2100 - Powerful Enemy in Another World-Flower Demon

Latest website: More than 600 mages, such as Heiyan and Nanfeng Zhiyi, stood in three rows. The spells spoken by each population were exactly the same as in the game. The operation of spells and spells in the body is exactly the same, including A simplified spell taught by Lu Yang.

Just 1 second.

“Meteorite Impact”

“Hurricane Torn”

“Ground Spike”

...

Various spells fell on the square in front of the factory building. The creatures such as the demonized boar and demonized python were either scorched by flames, pierced by sharp soil spikes, or torn apart by hurricanes. The body may be frozen into ice by the cold.

Although monsters such as the demonized boar and demonized python do their best to avoid and counterattack, the real world is not a game. So many mages stack together to release spells, and the monster’s health will not increase because of the number of people. On the contrary, it will be too much because of the spells. Many, the multiple damage caused is too great, causing them to die faster.

In just 10 minutes, the enchanted creatures in the first factory area were killed. A large number of enchanted monster corpses fell on the ground. Some enchanted boars smelled of charred, and some enchanted pythons were covered by the ground. Piercing, even though he was bleeding, he was still twisting his body desperately.

Lu Yang coldly commanded, "Go forward in close combat and fill up all the demonized creatures. Remember, no one is allowed to be careless. You must not let a monster go. When attacking, you must kill with a single knife, and you must not let the monster have a counter-kill. Your chance."

"Yes." The dirty wine said loudly, leading the person.

There are 600 melee classes. The equipment worn by each of them was taken back from Green Skin Monster and Red Skin Monster by Lu Yang and Zhuo Jiu. After being re-forged, except for a small part of it when Lu Yang went to the imperial capital Muddy wine and they defend themselves, most of the rest have been hidden in Lu Yang's Demon Temple. This time, they can finally reveal their family status.

This weapon transformed from the metal of another world is extremely sharp and can transmit the energy of another world. For example, the Qiblade of the Temple of War, which is played through the forbidden technique of another world, is exceptionally smooth.

Lu Yang was standing at the forefront of the wizard team, watching the muddy wine and they came forward to clean up the monster's body. Starting from the first row of dead monsters, the fatal position of the demonized boar was the heart. After being pierced in, the demonized boar could not carry it. Staying for three seconds will kill you.

The deadly position of the demonized python is the head. The head must be broken, otherwise it will not die immediately if the body or neck is cut off. Instead, the head will fly out and open its mouth to continue hurting people.

While making up the knife, they dug out the magic nucleus in each demonized creature, and then ignited the corpses of these monsters with a fire.

After the first factory area was cleaned up, I came to the second factory area. As before, there was no problem in killing it. After all, they were all second-order existences. 1280 people gathered together, and it was too simple to kill them.

From the first to the sixth, it only took six hours of the Jagged Brotherhood. Once the mana in the soul sea in the body is completely consumed, the magic core is used to restore the mana and then continue to kill the monsters, which not only accelerates the speed of killing monsters, It also allows the meridians in everyone's body to gradually adapt to this high-intensity release speed, which increases the strength of their meridians.

When it was eight o'clock in the evening, Lu Yang ordered everyone to rest temporarily. He then selected the elites from the team and formed an elite team of 10 people. He returned to the first pharmaceutical factory and began to enter the first factory area of the pharmaceutical factory. Kill the monsters hidden inside.

Each pharmaceutical factory has a backup power supply. Lu Yang first conquered the backup power supply area. After turning on the power supply, he began to enter the pharmaceutical factory to kill the demonized python hidden inside.

When Lu Yang was fighting monsters here, on the other side, Wang Shijie and the others were also fighting monsters, but their advancing speed was far behind Lu Yang's side, but Wang Shijie was not thinking about fighting monsters at all. He looked at the white-skinned person behind him. The person said: "It's your performance, don't let me down."

The fair-skinned person showed a wicked smile at the corner of his mouth, and said: "Next time you dare to speak to me in a commanding tone, I will definitely kill you."

Wang Shijie stood awkwardly on the spot, watching this person dig into the soil. After a long while, he couldn't help but cursed: "Wait for my strong strength, I will kill you sooner or later."

The other side.

At the entrance of the power plant in the Industrial City, Lu Tianming has taken the members of the college to clean up the square area and accommodation area of the power plant.

Fei Yang knew that he would not be able to fight down the Industrial City tonight, so he ordered all the workers who came with him to enter the dormitory of the power plant to rest.

The power plant's dormitory has a total of 12 floors. Although the room is dilapidated, there is a place to protect it from wind and rain. Besides, the furniture is not damaged, and it can be used after a little cleaning.

After all, everyone will spend the next month here, so the workers have already started cleaning up the dormitory.

Workers can rest, but soldiers can't. They need to build fortifications around the dormitory. For a time, the dormitory is the center, and the surrounding area of 1 km is constantly busy.

The cultivators including Lovely Queen and Jiang Chen could not rest either. They were all patrolling the surrounding area with the team to prevent abnormal situations from happening.

Among them, the lovely queen and Jiang Chen need to be responsible for Fei Yang's safety. They stayed with Fei Yang, while the other 18 people were divided into two groups. One group would sleep and rest and prepare to be on duty in the middle of the night, and the other group would follow the lovely Not far from the Queen and Jiang Chen.

At this time, Fei Yang was standing in front of the dormitory building, looking at the power plant not far away, and muttering expectantly: "I hope that Lu Tianming and the others can clean up the power plant tonight to achieve the overall power supply goal."

Jiang Chen looked at Fei Yang with a smile, and said, "Don't worry, it will definitely be possible."

At this moment, Lu Tianming came back with a group of people in the darkness in the distance. The soldiers did not dare to stop him when they saw Lu Tianming, and let him walk in front of Fei Yang.

Fei Yang said in surprise: "Brother, why are you back?"

"Come back and supply it." Lu Tianming sighed, looked at the lovely queen and Jiang Chen and said: "You two will come in with me with the Iron-Blood Brotherhood. It's boring to stay here."

Jiang Chen was a little surprised, because his task was to stay here to protect Fei Yang. He smiled and asked, "Is there something wrong with the manpower?"

Lu Tianming nodded and said, "Come here, I'll show you something."

Jiang Chen was just about to pass, but at this moment, the lovely queen trembled fiercely, as if she had been bitten by the cold wind. She held Jiang Chen in horror, then pulled Fei Yang behind her back, staring at Lu Tianming and said: "Old Lu, the password."

"Mouth, password?" Lu Tianming said with a panic in his eyes, "What password, what else do I need."

Jiang Chen suddenly drew out his long knife and shouted: "The Iron and Blood Brotherhood gathers."

Eighteen members of the Jagged Brothers League standing far away quickly ran to Jiang Chen's side. Among them, nine were in close combat in front and nine mages were in the back.

"What's the matter?" one of them asked melee.

Jiang Chen stared at Lu Tianming and said solemnly again: "Old Lu, password."

This is what Lu Yang could tell Jiang Chen and the lovely queen before he left. At the same time, only Lu Tianming knew the password, because Lu Tianming and Lu Yang were already tied to a chariot. Everyone in the imperial capital knew that Lu Yang was if he was under the shelter of Lu Tianming's family, otherwise Lu Yang wouldn't be able to leave the imperial capital so easily. Therefore, Lu Yang trusted Lu Tianming very much, not to mention that Lu Yang had saved Lu Tianming's life.

Lu Tianming showed a furious expression, staring at Jiang Chen and cursed: "I'm here, what do you still say, what do you mean? Does the Jagged Brothers want to rebel?"

Although Fei Yang didn't know the password, but he saw this situation, he could live to this age and still climb to this high position, he would have long been a human being, although he couldn't believe it was true. But he still stared at Lu Tianming and said, "Brother, the password! If you can't tell, then you are not Lu Tianming, let's talk, you are a monster."

“Ka Ka”

The weapons of all the soldiers around were aimed at more than a dozen people in Lu Tianming’s group at the same time, and searchlights also hit Lu Tianming and his group.

Surrounded by Lu Tianming, he looked around and found that everyone was staring at him with suspicion. A wicked smile suddenly appeared at the corner of his mouth. He laughed and said, “Sure enough, it’s not yours. People of the world, I still don’t pretend to be like them, and you humans are too cunning.”

“Are you really Lu Tianming?” Jiang Chen’s cold sweat came down, and he roared, “What the **** are you?”

“Guess what?” Lu Tianming’s face suddenly turned pale white, and his clothes disappeared, revealing a pure white body, but it was not a human body.
