

Chapter 2101 - Weaknesses of Flower Demon

The latest website: "In your human terms, you can call us the Flower Demon, and the name below is Terry, the pioneer of the Flower Demon clan." While talking, the flower demon pointed his right hand to the ground, and his mouth looked with a demon smile. Xiang Jiang Chen said: "Remember my name, because I am the one who killed you."

Suddenly, dozens of white roses appeared in front of the flower demon. He swung his right hand forward, and dozens of white roses shot towards Jiang Chen and the lovely queen. The speed was so fast that it was hard to distinguish with the naked eye. He arrived in front of Jiang Chen and others.

If Jiang Chen and others are still Tier 1 fighters, and the Lovely Queen is still a Tier 1 Mage, even if they react consciously, their bodies cannot keep up with such a fast speed, but it is different now, Jiang Chen and the Lovely Queen, among others The 18 people who protected Fei Yang were all second-tier masters.

"Ice Shield~!" An ice wall 5 meters wide and 3 meters high formed in front of the lovely queen, protecting her, Jiang Chen, Fei Yang and others.

"Tuk Tuk Tuk"

The sharp roots of the rose pierced the ice wall. The result of Terry's piercing the ice wall did not appear. Instead, all the roses were nailed to the ice wall. In a blink of an eye, the ultra-low temperature of the ice wall frozen the roses. Ice sculpture.

"This ability also requires us to remember your name." The lovely queen's voice was cold and cold.

Terry and the other flower demons thought that the attack had been successful and they didn't need to do anything else, but the ice wall blocked the flowers in an instant, making them all look surprised, because, in the information that Wang Shijie gave them, Except for Lu Yang, the rest of the Jagged Brotherhood are all Tier 1 and there is no Tier 2 anymore.

But the release speed and strength of this ice wall is obviously only a second-order advanced ability. Obviously, the intelligence is wrong.

“puff”

“puff”

Two ear-piercing voices sounded from Terry's side. He turned his head to look and saw that Jiang Chen did not know when he appeared beside them. The two flower demons had been stopped by the two long swords in Jiang Chen's hands. Cut off, the emerald-green blood is gushing out from the wound of the broken body.

“Are you Tier 2 too?” Terry's eyes widened in disbelief.

“Qi Blade Cut”

Jiang Chen knew that the sneak attack was too late, and the two long swords in his hand shot two white blades at the same time, and shot towards Terry.

The nearly one-meter-long white airblade was so sharp that Terry didn't dare to fight hard and quickly dodged to avoid it. Although he avoided, the flower demon behind him did not escape and was split in half by the airblade. Also fell to the ground.

Fei Yang saw this scene with a sneer at the corner of his mouth, and said, “Kill them.”

The soldiers who had slowed down attacked Terry and others at the same time, and countless bullets sifted Terry and the other flower monsters.

Fei Yang was relieved when he saw this scene, and looked at the lovely queen beside him and said, "Thanks to you, otherwise I would be dead just now."

The lovely queen and Jiang Chen who came back to their side looked at each other and saw the panic in each other's eyes. The lovely queen said: "Thanks to the boss, if there is no signal, we will all have to die tonight."

Jiang Chen followed: "Terry and the others have become Dean Lu Tianming before, and it is very likely that they will also become us to deceive the boss."

Fei Yang frowned and said, "Why do they bother to lie to us first, and just lie to Lu Yang directly."

Jiang Chen and the lovely queen both showed horrified expressions at the same time. Jiang Chen said: "No, Dean Lu Tianming may have something wrong."

The voice just fell.

Terry, who was originally beaten into a sieve, should have died completely, suddenly stood up from the ground, and his broken body slowly healed automatically.

Not only Terry was alone, but the other flower monsters behind him also stood up, their body returned to a perfect state, and no trace of scars could be seen again.

Terry looked at Fei Yang, Jiang Chen and the others with a sneer, and said, "You are right. Lu Tianming is already in our hands. Also, the thermal weapon is useless to us. Is it surprising? "

A crowd of flower demons laughed wildly.

Jiang Chen stared at Terry, then looked at the four flower demons lying on the ground who hadn't gotten up, frowning and said: "You are not invincible either. Heat weapons can't kill you, but magical energy can destroy your bodies. "

Terry shrugged his shoulders and said, "You are right, but what's the point? Only two of you are second-tier, but we have eight second-tiers, and they are also the first to bear your bullets. I felt the meaning of some thermal weapons this time. It turned out to be nothing more than that. Now thermal weapons can no longer hit us. Is there any way for you two?"

The lovely queen looked at Terry's handsome face and sighed and said: "To be honest, seeing you are so beautiful, I really hate to kill you, but sorry, you have to die, I can only look forward to your people, and You are so handsome, let's do it everyone."

The other 18 members of the Jagged Brotherhood sneered around. Everyone showed their full strength. The momentum that burst out at that moment made Terry and others' proud faces instantly turned into panic.

"How, how is it possible? How could you all be second-order?" Terry said in a panic.

"Go to \*\*\*\* and ask your gods." Jiang Chen and the others rushed up again, and the other 9 fighters also participated in the attack, not waiting for the lovely queen and the mages to attack, including more than 20 flower demon including Terry. All were chopped down to the ground.

"With this little ability, I dare to provoke us. I really don't know how to live or die." The lovely queen completely sealed Terry's body with ice, and then kicked it to pieces, completely making Terry disappear into the world.

Jiang Chen said: "Everyone, be wary, beware there are other flower demons."

Fei Yang said anxiously: "Try to find a way to enter the power plant so that Dean Lu Tianming can't die."

Jiang Chen nodded and said, "We are too few to act. We have to inform the boss about this matter and let him send someone over."

Fei Yang also knew that it was the safest to do this. He looked in the direction of the power plant anxiously, muttering to himself: "Old brother, don't have any trouble."

The other side.

Lu Yang was taking someone to clean up the demonized creatures in the building of the pharmaceutical factory. Hearing Jiang Chen and the lovely queen's report, Lu Yang showed a sneer and said, "It may be a trap for the enemy, but unfortunately, I don't know about us. 'S strength has become so strong, the trap has turned into death."

"Boss, what to do now, Dean Lu Tianming may have something wrong there." Jiang Chen asked.

Lu Yang said: "You did a good job this time. You didn't rush in to save people recklessly. When I came back, I personally rescued Lu Tianming. In addition, you quickly notified other people that the new enemy Flower Demon had appeared, and Tell them their special abilities and be careful not to get caught."

"Yes." Jiang Chen said with the lovely queen.

Lu Yang hung up the phone, looked back at his subordinates, and said, "Hei Yan, you continue to lead the team, something happened to Lu Tianming, I will rescue him."

Hei Yan was a little surprised and asked, "Is it a trap, boss, let us go, you sit behind."

Lu Yang smiled. He was particularly relieved to come back this time. His brothers are basically mature, especially the first batch of his brothers to improve their strength. Everyone's mind is very meticulous. They were originally elites in the game. , And now become more elite.

Lu Yang said, "Just like in the game back then, no one can kill your boss."

He leaped and jumped down from the sixth floor. In mid-air, Red Night flew out of the Demon God Temple, and instantly grew into a 10-meter-long dragon.

After the two wings were opened, there was more than ten meters, and under the fan, a strong wind formed. When Lu Yang landed, the turbid wine that had been guarded on the square ran over and said, "Boss, I have received news from Jiang Chen and the others. Up."

Lu Yang nodded in satisfaction and said, "You continue to stay here, Wan Zhonghui, Liu Ruohuai, Yang Ming, Tan Zhe, Lu Yuming, Huo Zong follow me."

"Yes." The six quickly jumped onto the dragon's back.

"Roar~!" Hong Ye roared, jumped, flapped his wings and flew into the air. After hovering over the pharmaceutical factory for a week, flew towards the power plant.

Halfway through, the Blazing Demon God said: "The characteristic of the Flower Demon is that it must absorb the blood of the target before it can become the target. Their abilities are average, but the characteristic is that the sword can't kill them. The creatures they transform are not theirs. The body, their body is a bright flower similar to a rose, and only by killing the body can they be completely killed."

Lu Yang nodded, and said, "Unexpectedly, it's really a stranger that can't be killed with a thermal weapon. I don't know if Lu Tianming will be able to get me over."

The creatures in the different world are getting stronger and stronger, far beyond Lu Yang's scope of their cognition, which makes Lu Yang's sense of crisis more and more intense.

The Blazing Demon said with a smile: "Don't worry, remember the Hydra Emperor in the Demon God's Temple? Although heat weapons can't kill them, the Flower Demon is afraid of toxins, especially the poisonous Hydra. If you encounter it, the flower demon will die without resistance. If you are lucky, the flower demon will be defeated by you."

Lu Yang breathed a sigh of relief. The Hydra Emperor never died. As long as this thing is released, it can absorb magical energy and grow his head. In other words, the Hydra Emperor can provide unlimited venom. If this is the case, he is not afraid. The Flower Demon invaded.

Chapter 2103 - Death blessing

Latest website: Tao Ran and Cao Hong were scared. They had no ability to resist the vines rushing out of Lu Yang's body.

This is not an ordinary vine at all, and the attack power of the vine is extremely terrifying. Anyone with a discerning eye can see that the vine is not centered on Lu Yang's body, but rooted in the concrete ground, and part of the vine is protected around Lu Yang. To prevent Lu Yang from being attacked, another part of the vines attacked Cao Hong and Tao Ran.

"Damn it, this vine monster is definitely not Tier 1 and Tier 2, at least Tier 3." Cao Hong said in horror.

Tao Ran cursed as he ran, "That dragon is also Tier 3, \*\*\*\* it, we can't beat him at all."

"Go and open the door, otherwise, we will all die here." Cao Hong shouted.

Tao Ran scolded: "Idiot, this is the barrier set up by Wang Shijie, save him quickly, if he doesn't take the initiative to untie the barrier, we can't get out."

Cao Hong reacted, while avoiding the cane to chase after him, he turned his hand back and threw a black crystal ball at the corpse of Wang Shijie who had been crushed into flesh by the cane.

"Boom"

A burst of black light suddenly covered the entire enchantment area. When the black light dissipated, Lu Yang was surprised to see that Wang Shijie, who should have died completely, stood up like a piece of meat. The terrifying appearance made his scalp numb. .

"Uh ah~!" Wang Shijie let out a crazy roar, he had already seen what he looked like now, what a horrible look was that, the meat on his arms had been broken, the bones had been broken, but he was in this state. Next, a mysterious black force actually made all Wang Shijie's bones glued together. Although it was deformed, Wang Shijie's bones and flesh and blood were mixed together. The \*\*\*\* and \*\*\*\* nausea of his arms made people unable to straighten. Depending on.

"Lu Yang, Lu Yang!" Wang Shijie screamed at Lu Yang frantically. When he held his head in his hands, he wanted to commit suicide, but he couldn't do it now. The weird and mysterious black energy kept Wang Shijie like that. The state is alive.

“Boom”

Suddenly two canes hit Wang Shijie’s body, but Wang Shijie was only knocked down and flew out, still did not break the black energy flowing in Wang Shijie’s body. Instead, the tip of the cane was corroded by the black energy, and the forced three-eyed magic flower took the initiative. Give up these two vines.

The Blazing Demon God sighed emotionally within Lu Yang’s consciousness, and said, “It’s another poor man, give up, you still can’t kill him now.”

“What is this?” Lu Yang frowned and asked.

The Blazing Demon said: “The blessing of the \*\*\*\* of death, or you can also call it the curse of flesh and blood, this is something that the \*\*\*\* of death has, and it is unexpected that the \*\*\*\* of death is also involved. This kind of thing can make Wang Shijie resurrect from any state of death, but As a result, Wang Shijie can only survive in his current state for the rest of his life.”

Lu Yang felt sad for Wang Shijie. This was really disgusting. When the Three-Eyed Demon Flower crushed him, it really crushed him from head to toe. Now Wang Shijie’s appearance is more terrifying than a ghost.

Wang Shijie’s two eyes are asymmetrical on his head at this time. He stared at Lu Yang fiercely and roared: “Lu Yang, this matter is not over. I will come back again. I will never let you go. Yes, we withdraw~!

The surrounding barriers suddenly disappeared, and a black light appeared on Wang Shijie’s right hand. In the next second, Wang Shijie and them all disappeared.

Blazing Demon said: “I can’t perceive their location anymore, it should be teleported away.”

Lu Yang frowned suddenly, took out the phone and called Fei Yang, saying, “Quickly take someone to kill everyone in the temple.”

Fei Yang said furiously: "I'm already on the road, I will never spare the temple bastards, who have betrayed humans several times, and I will make them pay the price."

Just now Lu Yang had been playing the video. Fei Yang could clearly see what was happening around Lu Yang. Fei Yang couldn't forgive the actions of members of the temple, such as Wang Shijie and Tao Ran. If it weren't for his fate today, there would be Lu Yang. Protected by the people, he and the 3 million people in Donghai City are dead.

Lu Yang said: "Pay attention to your safety. In addition, inform the Martial Arts House and the Mercenary Guild to suspend external development and solve internal problems first."

"Okay, do what you said." Fei Yang said with a grim expression.

Lu Yang hung up the phone and said to Wan Zhonghui: "You guys go to the power plant to search for Lu Tianming, I'm going to trouble the temple."

Wan Zhonghui nodded and said, "Leave it to us, boss, don't worry."

Now Wan Zhonghui and the others are no longer afraid of Lu Yang acting alone. It is true that the strength that Lu Yang has exposed just now is too terrifying. This is not something that the people of the temple can resist.

"Don't die, you don't want to be like Wang Shijie." Lu Yang patted Wan Zhonghui on the shoulder, turned and walked towards the rooftop.

Wan Zhonghui, Liu Ruohuai and others couldn't help but shudder. Recalling the appearance of Wang Shijie just now, they all shook their heads and glanced at each other. Wan Zhonghui said, "Brother, we must protect each other. , Don't die, even if you are resurrected after you die, there will be no human beings."

Liu Ruohuai nodded in agreement, and said, "Lao Wan starts, I will follow you, and whenever something happens, we will cooperate with the attack."

Wan Zhonghui nodded and walked towards the downstairs of the power plant with a shield in his hand.

The other side.

Lu Yang had arrived on the rooftop, Hong Ye had become a 10-meter-long dragon, Lu Yang jumped on Hong Ye's back and flew towards the light industry area.

Halfway through the road, he sent a signal to Zhuojiu, White Lion and others, ordering them to quickly encircle the light industry factory area and not let any members of the temple come out.

In the light industry plant area, Wang Shijie and Tao Ran did not run back here, but disappeared without a trace, leaving only more than two hundred second-tier elites and hundreds of first-tier members.

When Zhuojiu surrounded these people with the Iron-Blooded Brotherhood, they thought that Lu Yang was here to seek revenge. The leader of a temple elite exclaimed excitedly: "Mujiu, don't think that the underground city was built by you. , You can do anything wrong. We are working for the dungeon. What do you want to do, are you not afraid of being held accountable by the dungeon and the imperial capital?"

"That is, what do you really want to do."

"If you want to work hard, we will stay with you to the end."

"Look at the shrine is awesome, or your junk and iron brothers are awesome."

...

Facing the provocation of more than a thousand people, the turbid wine looked cold, and the turbid wine at this time was extremely angry. There was a slight mistake today, and the iron-blooded brotherhood will be forever.

In the heart of dirty wine, he had already vowed to protect everyone in the Jagged Brotherhood, but something happened today. This is a problem caused by the temple, and these people in front of him are all caused by otherworldly gods. Those who have been blessed, obviously, they are all Wang Shijie's group, so they all deserve to die.

But the last trace of reason told Zhuojiu that this matter could not be done by him, and Fei Yang had to do it, otherwise, it would be detrimental to the Jagged Brotherhood.

“Roar~!”

The roar of dragons resounded through the light industrial zone. Everyone looked up. Red Night had already reached the sky above the factory. Lu Yang was standing on the dragon's head, watching the situation below. On the other side, Fei Yang also brought more than a thousand elite soldiers. Arrived behind Zhuojiu and others.

“Kill me~!” Fei Yang gave the order directly without waiting for the people on the side of the temple to explain.

## Chapter 2105 - Destroy the Flower Demon

The latest website: “You, how do you know our weaknesses, and how could you guys all be Tier 2? It’s impossible. The Imperial Capital is just this kind of strength.” Terry looked at Lu Yang and Lu in panic. Thousands of Jagged Brothers members behind Yang.

Before the scheduled ambush, Flower Demon Terry had already asked Wang Shijie to check the alien race information introduced in the “Second World”, and also checked the alien race information that the old \*\*\*\* first gave to humans. There was nothing in it. Mentioned the Flower Demon family, so Terry was so confident.

But now that Lu Yang explained the weaknesses of the Flower Demon in such detail, Terry was really terrified. As the Blazing Demon God said, the biological attack power transformed by the Flower Demon is the weakest among different races of the same rank. , Can not beat any other second-order family.

Once the location of the main body is found, it means that the flower demon is dying, and now all the flower demon are outside the wall, and they are too late to run.

When Lu Yang saw Terry’s expression, he knew it was all right. His expression was infinitely chilly, he raised his right hand high, and roared, “Iron Brothers, kill~!”

“Kill~!” Zhuojiu, White Lion and others couldn’t wait long ago, raising their weapons and rushing towards the flower demon in front of them.

As said, all the members of the Iron-Blood Brotherhood this time are Tier 2 existences. Although bullets are not effective against them, they can be easily killed by the fighting spirit of the Temple of War or the spells of the magician. Flower Demon Warrior.

On the other hand, the flower demon warriors had no ability to resist in the face of the attack from the turbid wine. Both the reaction speed and the physical strength were not at the same level as the turbid wine.

“Fire Dragon Technique”

“Ice Storm”

...

The attacks of various group spells killed a piece of flower demon warriors at a time. In a blink of an eye, the speed of flower demon production could not keep up with the killing speed of the members of the Jagged Brotherhood.

Lu Yang saw that there was no problem around him, and said to Jiang Chen and the lovely queen beside him: “Death order, protect Fei Yang.”

“Yes.” Jiang Chen and the lovely queen clasped their fists and nodded.

“Red Night~!” Lu Yang commanded loudly.

“Roar~!” The ten-meter-long Hongye screamed to the sky, his long neck lowered and his head directly on the ground.

Lu Yang jumped onto the dragon’s head, and said loudly, “Launch into the air, it’s time for us to play.”

“Roar~!” Hong Ye screamed again, shaking her wings suddenly, and at the same time raising a large amount of dust on the surrounding ground, Hong Ye leaped into the sky.

Perhaps Hong Ye felt Lu Yang's anger, and Hong Ye was also in extreme anger. He hovered in the air for a week and came into the clouds. Just when Terry and others were wondering where Lu Yang had gone, Hong Ye suddenly changed from The cloud rushed out, and the target was facing the outside of the city wall of the light industry factory area.

When Hong Ye possessed and rushed to a height of 50 meters from the outside of the city wall, Hong Ye suddenly opened its wings and turned into a gliding posture. Suddenly, the countless flower monsters on the ground lying on the wall quickly turned the huge flowers towards. In the air.

Lu Yang stood on the dragon's head and looked down, and he could clearly see that the pale pink stamens in the huge flowers of the flower demon body below were dancing like countless little snakes.

The Blazing Demon said: "Don't get too close, the flower demon's body can release lethargic pollen. With your current ability, you will be hit by smelling it."

Lu Yang said with a cold expression, "I won't give them this opportunity, Hong Ye, kill them."

"Roar~!" Hong Ye made a long roar, and the huge flame-filled mouth suddenly opened, and a blue flame spurted from the dragon's mouth full of fangs.

The flame fell to the ground in a cone shape with a width of about 10 meters. After being hit by the flame, the flower demon on the ground was quickly burned to ashes. Moreover, the power of the flame was extremely strong, not only the ground was ignited, The strong impact of the flame burned a 10-meter deep pit on the ground.

When the red night glide toward the front, the cyan flame pushed forward like this, all the fire demons along the way were burned to ashes, even the roots were burned, and they were completely burned to death.

Here the flower demon body died, causing a large number of flower demon warriors in the light industry factory area to fall to the ground instantly. When their body was burned to death, these flower demon warrior puppets controlled by the spirit of the body lost their ability to move. .

When Wan Zhonghui, Liu Ruohuai and others saw Lu Yang standing on top of the fire dragon in the sky not far away so powerful, they burst into huge cheers.

Seeing that Red Night was so powerful, the Flower Demon didn't dare to attack anymore. All the Flower Demon warriors in the factory ran towards the outside of the wall. Ran away.

It is a pity that the body of the Flower Demon is too large, and the running speed is extremely slow. Originally, Zhuojiu and others killed the Flower Demon warriors very easily. Now the enemy is facing them, and it is easier to kill. When the people chased out the city wall, a large number of flower demons were killed.

When Lu Yang saw this scene, he knew that he could not order Hong Ye to continue his attack. If he continued to fight, he would accidentally injure his subordinates. He let Hong Ye fly in mid-air and watched the surrounding situation.

After all, the light industry factory area is already surrounded by a large number of weeds and forests. From the middle of the night to the early morning, some flower demons escaped the chasing of the dirty wine and others, but Lu Yang stared high in the sky. I also want to know where the lair of this group of flower demons is.

Walking along the western part of the industrial city to the mountains, about six hours away, there is a densely forested mountain area.

Lu Yang knew this place. It was an unnamed mountain, located between Donghai City and neighboring towns. When driving to the suburbs before, passing by here, he only saw this mountain.

I remember that Lu Yang's driver told him that this mountainous area is a no-man's land, and even locals do not go up to the mountain. There are pythons in the mountain and there is also a very large canyon.

Lu Yang was staring into the valley. Suddenly, a white flower demon warrior appeared from the valley. was staring at Lu Yang and Hongye. Obviously, this is the area where the flower demon is located. Lao Lao.

The Blazing Demon God felt it for a while and said, "Go back, there are at least tens of thousands of flower demon bodies here, and there are hundreds of thousands of flower demon warriors. You and Hongye may not be able to get in and out. "

Lu Yang nodded and said, "It's good to know where they are. I must eliminate all the flower demons."

He issued an order to Hong Ye, Hong Ye gave a long roar, turned and flew towards the light industry factory area.

Lu Yang had already made up his mind. As long as he cleaned up all the areas of the Industrial City, he would take people to destroy the Flower Demons. These monsters would definitely not work if they didn't kill them. It was really terrifying that they could become humanoids.

If they are not eliminated, all the residents of the underground city will have to live with the secret signal.

One more thing, although Wang Shijie turned into a monster, he escaped. 80% of them hid in the Flower Demon area. He had to kill Wang Shijie and others. The members of the temple really knew humans and the East China Sea Dungeon too well, no Killing them would be too harmful to humans.

Chapter 2106 - Zhao Chenghe and Bao Buping joined

Latest website: When Lu Yang returned here, on the other side, in the Wuming Mountain, countless flower monsters were hiding under the forest and vegetation, the number was tens of thousands.

The headed flower demon warrior was exceptionally huge, more than two meters tall. He stared at Lu Yang who was flying away, and punched a big tree in anger.

“Boom”

The sturdy and sturdy tree that had been several decades old died at once. If the Blazing Demon God saw this scene, he would be surprised, because this is a flower demon warrior, which means that his body has entered the third-order state.

Although the flower demon is extremely weak at low-level, as the rank increases, the flower demon warriors they summon are getting stronger and stronger, especially the third-order flower demon, and the minimum flower demon warriors summoned are all second-order. About level six or seven.

Just now, if Lu Yang dared to take Hong Ye into the canyon, facing the large number of flower demon warriors summoned by the third-order flower demon, it would be almost impossible to retreat with his whole body.

“Terry, this trash, not only died in the battle, but also exposed our position.” The strong flower demon warrior said angrily.

“It has been said that human beings are not as weak as we imagined. We still have to slowly figure out a way and must not make us the main target of human thermal weapons.” said a flower demon who was a little weaker than him.

As early as a year ago, the Flower Demons were the first different world races to descend on the earth, but they entered in the form of seeds.

As they landed on the earth, they gradually swallowed the humans in the surrounding area and learned the true power of the human world.

Even if the flower demons have hundreds of thousands of people, they still dare not attack the Donghai Dungeon because they are worried about the heavy human weapons in the dungeon.

Neither artillery nor aircraft coverage bombardment is something the current flower monsters can withstand.

This time Wang Shijie asked for their help, even if it was ordered by another world god, the flower demon was still divided into two factions.

One faction is represented by Boten, the patriarch of the flower demon headed by this strong flower demon. He does not agree to be the first to participate in the war to destroy mankind.

Because, the different world races that have also been transmitted from weak and small strengths include not only the flower demon clan, but also many races. Even around the East China Sea, there are several different world races.

Terry is a radical. In order to gain more powerful strength, he wants to express himself in front of the gods. Therefore, Terry brought his flower demon army and cooperated with Wang Shijie. This is the light industry factory area ambush. .

The flower demon who is slightly smaller than Boten is called Aibis. He is the number one general of the flower demon clan, frowning and asking: "What do we do now, do we need to withdraw?"

Bo Teng shook his head and said, "There is no need to evacuate. The East China Sea Dungeon dare not attack us. Their weapons and ammunition may be able to conduct a large-scale battle. They dare not use them until it is critical. Besides, this time the matter is not over yet. We sent the Flower Demon Warriors to participate, and the Dark Demon over there also sent soldiers to participate."

Aibis said in surprise: "The Dark Demon also sent someone to participate? They really couldn't help it, just don't know if they can do it."

Boten said contemptuously: "How can those idiots succeed, we just sit and watch a good show."

Aibis nodded.

For a while, all the Flower Demon Warriors retreated to the depths of the canyon of Wuming Mountain to hide, while on the other side, Lu Yang had already returned to the Industrial City.

As soon as he arrived at the light industry plant, he saw Fei Yangzheng chatting with Bao Buping, Zhao Cheng and others on the square, and a weak Lu Tianming was sitting next to him.

“Brother Lu Yang, we are here.” Fei Yang excitedly waved to Lu Yang in the sky.

Lu Yang smiled and ordered Hong Ye to land on the square of the light industry factory. He jumped off the dragon’s head and Hong Ye returned to a height of about 1 meter. He found a place with plenty of sun and went to sleep.

Fei Yang, Zhao Cheng and others ran to Lu Yang’s side. Fei Yang bowed again gratefully and said, “Brother, thank you for saving my life again.”

Lu Yang said: “Yes, it’s difficult to go to the country together, how is it going here.”

Fei Yang nodded vigorously, and said, “We have cleaned up all areas of the Industrial City, and Zhao Cheng and Bao Buping have also cleaned up their areas.”

Both Zhao Cheng and Bao Buping were a little embarrassed. It turned out that they didn’t think of Lu Yang, but they didn’t know how tyrannical Lu Yang really is. If it weren’t for Lu Yang to tolerate the two of them, it would only take a word, 1300. A member of the Iron-Blooded Brotherhood who reached Tier 2 would be able to wipe out Zhao Cheng and Bao Buping completely.

Bao Buping smiled and said: “President Lu Yang, we really have no face to see you. I am really ashamed to think of the rudeness we have done to you before. How do you want to punish both of us, we both accept it willingly.”

Zhao Cheng clasped his fists and said, “I’m really convinced. If I had the strength of yours, if I talked like we did before, I would have killed someone, and I would have taken it.”

Lu Yang looked at the two with a smile and said, “It’s good to get acquainted with each other slowly. Since you are willing to come to the East China Sea and hope to contribute to this place, then we will cooperate sincerely.”

Zhao Cheng thought for a while, and said: "No cooperation, I want to join the Jagged Brothers League, nothing else works, there are still some family skills, I can take out my family heritage and share it with the brothers of the Jagged Brothers League. ."

Bao Buping said: "I have the same idea. I also have a lot of cultivation techniques in my hands, and I am willing to share them."

Lu Yang nodded in satisfaction. The Jagged Brothers currently lacks cultivation techniques, and even lacks masters. If Zhao Cheng and Bao Buping can join, two of them will be responsible for teaching the new members the basic exercises and the development of the entire Jagged Brothers. Both have great benefits.

"Two brothers, I hope we can become real brothers in the future. The Jagged Brotherhood is not a closed organization. We are willing to accept anyone who sincerely joins and agrees with our philosophy. Welcome you." Lu Yang said to the two.

"Yeah." Bao Buping and Zhao Cheng nodded together.

Lu Yang patted the shoulders of the two of them and looked at Lu Tianming who was looking at him speechlessly. He smiled and said, "Master Lu, are you okay."

Lu Tianming cursed speechlessly: "I was tricked, this flower demon is too bastard, he almost swallowed a flower demon."

When Wan Zhonghui and Liu Ruohuai were looking for Lu Tianming in the power plant last night, they found them among the flowers of a flower demon's body.

At that time, Lu Tianming had fallen into a coma, and the weird solution was continuously dissolving Lu Tianming's body. If it hadn't been for the presence of body protector Zhenqi, Lu Tianming would have turned into a puddle of water, but even if he did not die, he was greatly affected Damage, it is impossible to fight in the short term.

After listening to the process, Lu Yang smiled and said to Lu Tianming: "Get a good rest, we will be safe in the near future."

Lu Tianming scolded: "I have asked the academy members who stayed in the dungeon to destroy the people in the temple. Don't worry, none of them can run away, and I have reported the things here to the capital. Look, the temple is absolutely There is no escape from punishment."

Lu Yang nodded. Fu Yun and Fu Nian have been looking for a way to kill the temple. This time they finally have a stop They will not miss this opportunity.

Fei Yang said calmly: "I didn't expect that the people in the temple really didn't treat themselves as human beings. Unfortunately, we lost a lot of help."

Lu Yang shrugged his shoulders, and now it's okay to let Fei Yang and the others see the true face of the temple. After all, Lu Yang is probably the only one who really knows the reason why the otherworldly \*\*\*\* descended into this world.

The Blazing Demon God is willing to tell Lu Yang the truth of the matter, but other old gods may not be willing, especially when the first batch of humans taught by the old gods killed them when the old gods killed them, and no one knew these secrets. Up.

Ordinary people thought that otherworldly gods came to teach, and the surrounding monsters just twisted the space to connect to other planes, and it was the monsters from other planets that came to the earth.

Ordinary people want to gain superpowers to protect the earth by believing in otherworldly gods, but they don't know that these monsters should be partly released by otherworldly gods.

But no matter what Lu Yang said, no one would believe it. If something happened this time, maybe it could really make the people in the imperial capital sober. Fortunately, the people in Donghai Underground City are still sober. They believe in Lu Yang. More than believing in otherworldly gods.

## Chapter 2107 - Dark Demon Appears

Latest URL: "Om~!"

A low voice suddenly spread throughout the industrial city. Lu Yang looked at the power plant in the distance, and white smoke suddenly appeared from the six huge white chimneys.

A large number of equipment in the light industry plant suddenly started to operate automatically, and countless people were caught in a rush, but it was a joyous rush.

Tao Yue ran over from a distance and said excitedly: "The power plant has been officially put into operation after a one-night emergency repair. The coal inside the power plant can guarantee two months' power generation."

Fei Yang breathed a long sigh of relief, and said excitedly: "With these two months, we can produce a lot of basic materials, and the dungeon can relax."

Both Zhao Cheng and Bao Unequal breathed a sigh of relief. They had checked the raw materials in their respective warehouses before, and two months of production were enough.

Just as Lu Yang wanted to breathe a sigh of relief, suddenly, the Blazing Demon God heard news and said, "Something's wrong, I feel the breath of the Dark Demon."

Lu Yang frowned fiercely and asked, "What is the Dark Demon?"

The Blazing Demon said: "A kind of creature in the world we live in. They develop by digging into the bodies of other creatures and absorbing the life essence of other creatures. Before they kill the parasitic creatures, this parasite will not have any It's strange."

Lu Yang couldn't help his eyes widening, and said in a panic: "There is no way to find them. There are more than 10,000 ordinary people here. If the Dark Demon sneaks on them, they will not have any ability to resist."

Blazing Demon said: "Within 50 meters, I can sense their existence."

Lu Yang looked at Fei Yang and said, "It's almost noon. Let the workers come down to eat in batches. I have to be there when every group of people eat."

Fei Yang was a little surprised, and asked, "What happened?"

Lu Yang couldn't explain the Blazing Demon God's affairs. He could only say, "I suspect that there is a Flower Demon hiding among us. Let's clean it up one last time. I hope my thoughts are superfluous."

Fei Yang shrugged his shoulders. He felt that Lu Yang's thoughts were superfluous, but he still said, "Yes, now I will let people come over in batches."

Tao Yue frowned and said, "Don't have to be so troublesome. The power plant can last two months in total. We can't waste time."

Lu Yang stared at Tao Yue, frightened Lu Tianming hurriedly said angrily: "Do as Lu Yang said."

Tao Yue was frightened by the look in Lu Tianming's eyes, and instantly realized that the flower devil's matter is directly related to the temple. Now whoever organizes Lu Yang's investigation, it may be the remnant of the temple. She quickly said: "I will call someone over. ."

Lu Yang looked at Zhao Cheng, Bao Buping, Zhuojiu and others, and said, "Go back to your respective factories, check all the rooms, and be sure to ask everyone to come out."

"Yes." The Zhuojiu and Bao Unequal people nodded and ran towards their respective factories.

Lu Yang walked to the canteen in the distance alone. Not long after, workers in the light industry zone walked out of the factory one after another, passing by Lu Yang to eat in batches.

In this way, Lu Yang scanned the Blazing Demon God one by one. From day to night, almost all the staff scanned it, but they didn't find one. This made Lu Yang feel bad.

Fei Yang smiled and said, "Fortunately, it's all safe at last."

Lu Yang said, "No, there must be people who haven't come back for dinner."

He stared at the slurred wine and Bao Unequal and asked, "Say, have you checked everything?"

Everyone was a little surprised at Lu Yang's state. Tao Yue thought for a while and said, "It seems that two people over there didn't come to eat. They were a couple. When I went there, the two of them were there. I didn't bother them."

"Asshole." Lu Yang saw a fire in his right hand, smashed the table beside him with a punch, and cursed: "Take me to find both of them."

Tao Yue was frightened and quickly said, "Well, they should be working in the factory at this time, right in the light industry factory."

Lu Yang walked towards the light industry factory area not far away, and the Blazing Demon God said through consciousness: "No wonder I always feel that there are dark demons around me. They have always been in the light industry factory area."

Lu Yang was very anxious. He was really afraid that parasitic monsters like the Dark Demon would parasitize on a large scale. Once there were too many Dark Demons, the entire light industry factory area might be killed.

Tao Yue didn't understand Lu Yang's behavior, but she ran ahead to lead the way and led Lu Yang and others to the second floor of the first garment factory in the light industry plant.

Rows of machines were roaring, and women and men were working quickly in front of the machines. Everyone was wearing blue overalls. From the back, there was almost no difference.

Among the many workers, the Blazing Demon God instantly locked the two human beings parasitized by the Dark Demon, but the problem is that more than these two people were parasitized by the Dark Demon, and more than 10 people around the two were parasitized.

Tao Yue was about to look for it, but Lu Yang said, "You let those two people come out for a while, as well as the 8 people around them, all come out."

Tao Yue was dumbfounded, looking at Lu Yang in surprise and asked, "How do you know it's them?"

Lu Yang shook his head slightly, and whispered, "They have a problem, be careful."

Tao Yue nodded in horror, seeing Lu Yang and the others retreating outside, he walked up to the two workers, the male and the female, and saw the appearance of the two workers. Tao Yue confirmed that the two of them had asked her for leave before. People who eat.

The two also saw Tao Yue. Among them was a young woman with short hair and an honest face. She smiled and said to Tao Yue: "Leader, do you have anything to do with me?"

Tao Yue couldn't believe it. The flower demon in front of her said, "All 10 people in your group will come out with me."

"What's the matter?" an honest young man next to him asked curiously.

Tao Yue said: "Good thing, you will know it when you come out."

The woman and the man looked at each other, and in the end, the two chose to follow Tao Yue out, led the other eight people, followed Tao Yue down the stairs and out of the factory gate.

As soon as they arrived outside, suddenly, Zhuo Jiu, Zhao Cheng and others cut off their back road, and Lu Yang, Bai Shi and others stood in front of them.

"What are you doing?" the woman asked in horror.

Fei Yang stood behind Lu Yang. He didn't understand, and said, "Brother Lu Yang, they don't look like flower monsters either."

Lu Yang sneered, said: "They are indeed not flower demons, but they are not humans anymore, don't you know, I'm a perception mage, who can perceive creatures in another world through magic Existence. Ever since I came back in the daytime, I have sensed the existence of creatures in other worlds in the light industry factory area. I have been looking for them, but I didn't expect that they turned out to be parasitic creatures."

Tao Yue looked at the pair of men and women excitedly, and said angrily: "What are you guys on earth?"

The man was still pretending to be stupid and said, "Don't be funny, we are ordinary people. If you don't believe me, look at us, we don't have any weapons."

While speaking, the man walked towards Tao Yue, but at this moment, Lu Yang suddenly threw out the short knife he was carrying with him.

In an instant, the man's body was pierced, but the man who was supposed to fall to the ground did not fall down despite the blood on his body, but a strange smile appeared on his face. The next second, the man's mouth was crazy. The jaw is so wide that the jaw is dislocated and still widening.

In front of Tao Yue and everyone else, a gray-black monster came out of the man's mouth. His skin was covered with a film with a lot of bloodshot eyes.

Latest website: Monsters also have a human-like appearance. The head, limbs and torso are very similar to humans, but the flesh and blood are obviously different from humans. The black skin is like rubber, and black bone spurs have emerged from the skin. .

The monster's abdomen has two rows of bones on the outside, the arms and limbs are slender, about two meters tall, the nails are metallic, and the monster has a slender tail.

When the monster came out of the man's mouth completely, the man was left with only one piece of skin, and it was extremely terrifying to fall to the ground.

"It's just one night away, or I will parasite all of you." The monster spoke Chinese in a very non-standard human accent, with extreme anger in his voice.

"What on earth are you?" Tao Yue asked in horror.

The male monster sneered and said proudly: "You can call us the great dark demon. We serve the dark king and are his most loyal fighters. As for me, my name is Sirius, one of the leaders of the dark demon clan. ."

The woman next to Sirius suddenly opened her mouth. A female Dark Demon with purple skin all over her body, who looked a little thinner than Sirius, jumped out of the female worker's mouth, stared at Lu Yang, and said with a sneer: "It's David, you can call me an infected person, these are my masterpieces."

The voice just fell.

The eight workers behind the woman softened at the same time, and eight dark demons like Sirius emerged from their mouths, but it seemed that the skins of these dark demons were a bit fragile.

Ten workers died in the blink of an eye, which made Fei Yang show an expression of anger, and even panicked because of the mystery of these dark demons. He roared: "Kill them, shoot them quickly."

More than a dozen soldiers following Fei Yang had already raised their guns and aimed at these monsters, heard the order, and pulled the trigger at the same time.

A flame of fire lit up in the darkness, and with the sound of fierce bullets, the bodies of ten dark demons were pierced by numerous bullets.

Just when Fei Yang thought these dark demons had been killed, what made Fei Yang felt terrified was that the pierced bodies of the 10 dark demons healed automatically, as if they had not been attacked.

The dark demon leader Sirius looked at Fei Yang with a sneer, and said: "It is impossible to kill me with your world's weapons."

The female dark demon David showed an intoxicated smile, opened her arms and let out a sharp laugh, saying: "This world is really prepared for our dark demon clan. We are parasitic in the human body, and new dark demon can be born with their weapons. It didn't work for us. It's really exciting."

Lu Yang sneered and said, "Weapons are not effective against you, so what about spells? Can you stop our spells?"

Silus' facial expression was sneered, and he didn't feel that he was surrounded by human wizards and warriors. He said to Lu Yang with ease, "Yes, spells can hurt us, but we are darkness. Demon, ordinary spells can't hurt us at all. Unless you reach the third rank, it is still difficult for you to kill us even if we are the second rank. Just ask, are you at the third rank?"

Lu Yang sneered. Suddenly a 1 meter long white vertebra appeared in his hand. He flicked his right hand and shot at Sirius.

As if to prove that his body was not afraid of any human attacks, Sirius did not evade Lu Yang's attack, allowing this white vertebra to be inserted into his body.

Sirius said mockingly: "Poor and pathetic human beings, how can this be of any use to me."

David and the eight dark demons behind him also showed mocking expressions.

Sirus stretched out his hand to pull out the white vertebrae, but as soon as his hand was placed on the white vertebrae, a sharp pain spread throughout Sirus's body. The next second, Sirus directly knelt on the ground, suffering. Wailed.

"What is this? Why does it make me feel so painful?"

"Damn it, how can I feel dead, this is impossible, this is impossible?"

...

Sirus struggled desperately, and the scared female dark demon leaned down to help Sirus pull out the white vertebrae, but when the white vertebrae were pulled out of Sirus's chest, a large black blood spewed out. come out.

Sirus became dry and shriveled at a speed visible to the naked eye, and finally fell to the ground and turned into a puddle of black water, but the black water did not stop corroding, it kept corroding the ground into a pit more than two meters deep before stopping. Down.

"This, what is this? How is this possible?" David said in horror.

A second white vertebra appeared in Lu Yang's hand. He walked towards David step by step and said, "Who said that the weapons of the human world are ineffective against you? Feel the taste of the weapons of the human world."

These white vertebrae are the eight bones in the heads of the Hydra Emperor that have been chopped off. With the presence of snake tendons, these bones are not scattered, but are connected together, turning into a bronze mace. Of weapons.

When Lu Yang was looking for the Dark Demon before, the Blazing Demon God told Lu Yang that if the Dark Demon was killed.

In another world, the Dark Demon is also one of the low-level intelligent creatures that is very difficult to kill. Of course, the Dark Demon is also the weakest type of intelligent race. Big and weakest race.

To survive in a world full of high-level monsters like another world, dark demons rely on their powerful regenerative ability. If human weapons penetrate their bodies, they will soon heal automatically. As long as there is blood, they are difficult to kill.

Although bullets and spells are difficult to kill them, the dark demons are afraid of poison, and they cannot bear any poison in another world.

The human world Hydra has stayed for a year under the distorted time and space. Although the Hydra hasn't grown too strong in its body, his toxin is extremely powerful, not inferior to any basic poison in another world.

Lu Yang had thought of smearing this kind of poison on other weapons, especially weapons made of special metals brought by red skin monsters and green skin monsters from other worlds, but he didn't expect that the venom of the Hydra King would actually Can completely corrode this weapon.

In desperation, Lu Yang chose to use the cervical vertebra bones of the other eight heads of the Hydra emperor to make weapons. Unexpectedly, the effect was very good.

The female dark demon David saw the white vertebra again appearing in Lu Yang's hand and ran away in shock, but as soon as he jumped up, Lu Yang accurately threw the white vertebra and hit her body. In an instant, David died too. Up.

Chapter 2109 - Mass manufacturing

Latest website: The remaining 8 dark demons were stunned when they saw this scene. They roared in horror and quickly jumped to the surrounding directions to break through.

They have excellent jumping ability and extremely fast speed. They jumped to a distance of tens of meters in an instant, but the fighters of the Jagged Brotherhood are no longer what they used to be. They reach the second level faster than the dark demons. , Stopped them in the blink of an eye.

“puff”

“puff”

...

Dozens of long swords were pierced into the bodies of these eight dark demons. The special energy of the Temple of War made them feel painful. In the desperate struggle, their arms and limbs were chopped off. Even if they could regenerate, the speed was extremely slow. It was crossed in front of Lu Yang.

Lu Yang pulled out the two white vertebrae, stabbed the eight dark demons, and killed them all.

“Huh~!” Fei Yang breathed a sigh of relief, watching the dark demon’s body turn into a puddle of black water, and said, “Finally killed.”

Lu Yang asked the Blazing Demon God: “Can you still perceive the Dark Demon?”

Blazing Demon said: “There should be no surroundings.”

Lu Yang secretly breathed a sigh of relief, and looked at Fei Yang, Zhuo Jiu and others around him and said, “Our surroundings are getting more and more insecure. Starting today, everyone will be on guard. In addition, everyone will go out with me to hunt for the poison in the old city. Like a python, I want to make a lot of weapons.”

Bao Buping shook a folding fan in his hand, and suddenly gritted his teeth and said, “I know a secret.”

Fei Yang asked: "What's the secret?"

Bao Buping thought for a while and didn't speak, and Fei Yang said excitedly: "My brother, when is it, we may die at any time, what else do you hide in this secret?"

Bao Buping looked at Fei Yang, then at everyone, and finally looked at Lu Yang, and said, "I know where the dark demon's lair is."

"How did you know?" Lu Yang asked.

Bao Buping sighed and said, "There is a lot of news from the Mercenary Guild. Some people have fled from the northeast area to the Imperial Capital. They sold the news to the Mercenary Guild."

"What's going on? Explain clearly" Lu Yang frowned and asked.

Bao Buping's face was a little dim, and said, "The Dark Demon came to the East China Sea area with the first batch of alien creatures invaded a year ago, but they are not many in a county outside the East China Sea area. I don't The reason for this is that I am not sure about the number of them now. They are only three hours away from the old city, but they have appeared in the industrial city. I suspect that their number is already very large, and I don't want you to take risks."

Lu Yang patted the uneven shoulders and said, "You can point me to the specific location. I need to go and take a look. Don't worry, there is a red night. If I don't fall on the ground, I won't in danger."

Fei Yang quickly stopped Lu Yang and said, "No, you definitely can't go."

Lu Tianming also said excitedly: "If something happens to you, what can we do? Donghai will be over."

Lu Yang smiled and said, "Don't worry, I won't leave now."

He put the two white vertebrae in front of everyone, and said: "This is the bones of the Hydra King. The snake King was severely injured by me, and I am throwing it into a secret place for storage. I didn't think

about how to use this Hydra Emperor, so I never killed him. Now it seems that since the Hydra Emperor's venom is effective against the Dark Demon, then I won't kill him and let him continue to produce venom for us. As long as the amount of venom is sufficient, the Dark Demon is nothing at all."

Lu Tianming's eyes widened, and he said, "You actually killed the Hydra Emperor. That's right. You have Tier 3 Red Night to help you. It's not too difficult to kill the Hydra Emperor."

Lu Yang smiled and said, "You continue to work. I will return to the dungeon and put the Hydra Emperor in the training ground and imprison him. I will make the venom first."

"Yes." Everyone nodded.

Lu Yang went on to say: "Turbid wine brought Bao Buping and Zhao Cheng. Starting today, you will send a team of 500 people every day to enter the old city to kill the demonized pythons and send them to the dungeon to let the city go. The inhabitants took out the whole python bones, and kept the python skin."

The python skin can be used to make bags that carry the venom of the Hydra, the python bones can be made into arrows, and the python tendons can be used to make bows and arrows.

Zhuo Jiu understands what Lu Yang meant. Originally, the 1,500 members of the Jagged Brothers could do it independently, but Zhao Cheng and Bao Buping joined the Jagged Brothers and they needed to quickly familiarize them with the members of the Jagged Brothers. Slowly form a cooperation, so as to give full play to the greatest advantage.

Now that the temple is gone, the entire combat power of the dungeon is theirs, and there must be no more problems between them.

"Boss, leave it to me here, I know what to do." Zhuojiu said with a fist.

Lu Yang nodded, summoned Red Night, and said, "Let's go to the old town."

“Roar~!” Hong Ye roared, changing from a 1-meter-long body to a 10-meter-long body. He lowered the dragon’s head to make Lu Yang jump up, and then flew into the air forcefully.

Fei Yang blinked and looked at Lu Yang, who was flying far away, and said to everyone, “You said how Lu Yang summoned Red Night? Could it be that all the dragons who signed the contract can appear with such a summon? ?”

Lu Tianming shook his head.

Bao Buping said with a smile, “Master Fei, if you have a dragon someday, you will know.”

“Nonsense, may I have it?” Fei Yang cast an irritating look at Bao, then turned and left.

Bao Buping, Zhao Cheng and Zhuojiu laughed.

Zhuo Jiu said to Bao Buping and Zhao Cheng: “Welcome the two to join the Jagged Brothers League. Let’s work hard together and follow the boss to protect Donghai City.”

Bao Buping and Zhao Cheng nodded hurriedly. Long ago, they had heard that there was a person next to Lu Yang called Zhuojiu Qingqi. He was the Dinghai Shenzhen of the Jagged Brothers League. With him, even if Lu Yang did not enter the game, the Jagged Brothers League There will be no trouble.

Since the two came to the present, they have been exposed to turbid wine more than once, and they are all impressed by the turbid wine. Now Lu Yang handed them to the turbid wine, and the two had no opinion.

At the moment, the two chatted enthusiastically with the dirty wine, and then Bai Shi and Zhou Tianming also joined in...

The other side.

Lu Yang had already flown to the old city. He made Hong Ye turn a corner and flew towards the Donghai Underground City.

The Hydra Emperor's body was inside Lu Yang's Demon Temple, not outside at all, it was just that he didn't want people to know the Demon Temple.

When he flew back 5 kilometers in front of the entrance of the dungeon, he activated his skills to spit out the Hydra Emperor from the Demon Temple.

The Hydra Emperor, who is nearly a hundred meters long, is now in an extremely weak coma. He hasn't eaten anything for more than two months, and hasn't been exposed to magical energy. Nine heads have been chopped off eight, and eight of those eight have been chopped off. The mouth broke out, although he no longer bleeds, but the loss of the previous eight heads has caused the Hydra Emperor to be in an anemic state.

Lu Yang said to Hongye, "Catch him and fly back to the door of the dungeon."

"Roar~!" Hong Ye roared dissatisfiedly. After all, the Hydra Emperor is 100 meters long and his body is extremely heavy.

Hong Ye grabbed the tail of the Hydra Emperor and flew into the air, looking extremely strenuous, and could only maintain a low-altitude flight.

When he arrived at the door, Hong Ye threw the Hydra Emperor directly to the ground, his body changed back to the size of one meter, and he got into Lu Yang's arms, indicating that he would return to the Demon Temple to cultivate. Lu Yang touched his little head with a smile, sent him back to the Demon Temple, looked at Xia Yuwei who had rushed over, and said, "Call a few trailers and drag the Hydra Emperor in."

Xia Yuwei has captured all the members of the temple in the dungeon, and learned about the Dark Demon and the Flower Demon from Zhou Tianming and others. She said: "The trailer is ready. Fortunately, you are all alive this time. ,Too dangerous."

Lu Yang was also very emotional. If there were no Blazing Demon God, today would be Lu Yang's death date. He said to the Blazing Demon God, "Thank you."

The Blazing Demon God smiled and said, "This is the first time you thank me. You are welcome. We are helping each other. Don't forget to help me find other Demon Heart Fragments. The third piece may be around Donghai City. In the county seat, I have already sensed weak news in the industrial zone."

Lu Yang's eyes lit up and he said, "It's fine if you can sense it, and I will definitely help you find it."

Two pieces of the heart of the devil made both the Blazing Devil and Lu Yang extremely strong. If there were more, Lu Yang would become stronger and more confident to live in this troubled world.

## Chapter 2110 - venom

Latest website: A huge modified trailer opened from the gate of the dungeon, and several cranes worked together to lift the unconscious Hydra onto the trailer.

The vehicle slowly drove into the dungeon, along the special transportation channel, all the way down to the training ground where the Jagged Brotherhood is located.

There is a huge open space here, and the nearly 100-meter-long Hydra Emperor was unloaded into the middle of the field. Then, Lu Yang asked the forging center of the underground city to forge 10 arm-thick iron chains, each of which was 50 meters long. .

These chains are connected to the steel wall on the edge of the dungeon at one end, and the other is buckled on the body of the Hydra Emperor. A chain is locked every 10 meters to ensure that the Hydra Emperor's body cannot use force.

Lu Yang also worried that as time went by, the Hydra Emperor could get out of the chains under the constant squirming. He personally cut off the Hydra Emperor's skin so that the iron chain could buckle the table Hydra's bones. on.

Under normal circumstances, any animal will die under such treatment, but the Hydra Emperor is different, his powerful regeneration ability allows him to remain alive under such circumstances.

The mouth of the Emperor Hydra was also made into a muzzle by Lu Yang using the larger one of his other eight heads, and it was fastened on the mouth of the Emperor Hydra to prevent him from spewing venom to hurt people.

After all this is done, several days have passed. The turbid wine, the White Lion and others have entered the old city these days and killed a large number of demonized giant pythons, especially the newly formed under the distorted time and space. The three-headed snake and the two-headed snake, this kind of snake is of the same family as the Hydra Emperor, and the bones in the body can also bear the erosion of the venom.

Lu Yang has been waiting for the Hydra Emperor to wake up and return to Earth. Even in the dungeon, magical energy is everywhere, and the Hydra Emperor's body can clearly feel the recovery.

The other eight wounds where his head was chopped off are constantly squirming, and it seems that there is a possibility of new heads.

Because it was the first time such a big monster appeared in the dungeon, it was still a monster that was imprisoned. Many people came to watch it curiously, especially the children of the Jagged Brothers. Their future is the warriors of the Jagged Brothers, so Lu Yang also Don't mind if they watch it up close.

Zhuojiu, White Lion and others were also among them. At this time, the two were standing in front of the Hydra King's head. Because the Hydra King's neck was also chained, they were not worried about the Hydra King's meeting. Violent and wounded.

Because the neck is next to the venom glands of the Hydra Emperor, where the venom is transported, the chain here is also covered with a layer of vertebrae picked from the other eight heads of the Hydra Emperor to prevent the venom from corroding.

Several children whose fathers died looked at Snake Emperor's head curiously. Suddenly, a child blinked and shouted to the muddy wine not far away: "Uncle, Snake Emperor's eyes seemed to move."

Snakes don't have eyelids, and so is the Hydra Emperor. The two big eyes on the last remaining head are always open, and they are infiltrating when they look at them. They haven't moved before and suddenly moved. , Let Zhuo Jiu and White Lion rush over, and one person hugged them aside.

Afterwards, Zhuojiu and the White Lion returned to the eyes of the Hydra Emperor and observed it carefully for a while, but they still found nothing.

Lu Yang practiced cross-legged on the steps surrounding the venue. Because the Demon God's heart in his body was constantly tempering his blood, Lu Yang's cultivation speed was exceptionally fast. He had reached the peak of Tier 2 and was close to the fire demon who had cultivated to Tier 3. The state is not too far away.

In fact, Lu Yang's speed can be even faster, but Lu Yang has been suppressing his cultivation speed. This is required by the Blazing Demon God. Too fast a cultivation speed will cause the foundation to be unstable. Moreover, Lu Yang's mental power has not kept up. The speed of cultivation, he needs to raise his mental power to the third rank before he dare to upgrade.

The transition from Tier 2 to Tier 3 is the formation of lines in the soul core within the soul sea, and the formation of magic lines to connect with the meridians in the body, tempering the body, allowing Lu Yang to become a flame demon form with flames all over his body.

Before the transformation, Lu Yang's senses would become particularly keen. With his current state, he could clearly feel that the consciousness of the Hydra Emperor had regained, but his eyes did not move and he was constantly looking at the surrounding situation.

Lu Yang stood up and walked towards the Emperor Hydra. He was poking the Emperor Hydra in the eyes with a wooden stick, but the Emperor Hydra still pretended not to wake up.

"Boss, just now our children said that they saw the eyes of the Hydra Emperor." said Lu Yang, who was gradually approaching for a long time.

Lu Yang came to the side of the bitter love for half a lifetime and said, "You all step back a bit. He is already awake, just pretending not to."

Kuai Bansheng and Zhuojiu quickly hugged the children and backed a few meters, while Xia Yuwei, Lan Yu and others stopped the others from a safe distance.

Lu Yang stared into the eyes of the Hydra Emperor and said, "I know that you are awake, and I also know that you have a certain degree of wisdom. From now on, if you want to live, stay here honestly. I only take you. The venom on your body will not hurt your life."

The Hydra Emperor still pretended not to hear, but in front of him, a long knife appeared in Lu Yang's hand. He held the knife in his right hand and pressed the tip of the knife against the side of the Hydra Emperor, step by step. The abdomen of the Hydra Emperor walked, where there was the venom sac of the Hydra Emperor.

The Hydra Emperor reacted instantly, and the originally empty eyes suddenly showed a cold and merciless look.

"Roar~!"

The Hydra Emperor's body suddenly went violently. He wanted to turn his head and bite Lu Yang to death, because he had recognized Lu Yang. He made a strange clone. When he ate it, the main head was killed. It exploded and shattered, and this gave the three-eyed magic flower and the fire dragon a chance to catch him. Now all of this is caused by Lu Yang.

Now Lu Yang not only imprisoned him, but also wanted to take the venom from his body. How could the Emperor Hydra agree, but just when the Emperor Hydra wanted to make the posture that he used to turn back The tense pains in the whole body caused the Hydra Emperor to stay still in place. Not only that, he also had a muzzle on his mouth. Not only was he unable to squirt the venom, but he also didn't dare to move. Inability to break the muzzle.

The surrounding members and children of the Jagged Brotherhood were shocked by the Hydra Emperor who had run away at first, but now they saw that the Hydra Emperor's body was completely immobile, and they were relieved.

Lu Yang smiled at the corner of Lu Yang's mouth and looked at the Hydra emperor who was gasping in his abdomen. He said, "That's right, good cooperation is your future life."

He has found the location of the poison sac, with a layer of red light attached to the long sword in his hand, and he thrust it inward.

"puff"

The long sword pierced the Hydra Emperor's abdomen until it reached the hilt. Then, he called Zhuojiu and the others, and put the large barrel made up of countless snake bones on the side of the hilt. He took out a hollow vertebra, and when he pulled out the long sword, he stabbed the hollow vertebra into it.

The Hydra Emperor let out a low roar, and a large amount of venom spewed out from the spinal canal and poured into the bone bucket.

## Chapter 2112 - Inquire about intelligence

Latest URL: The leader of the Dark Demon clan saw that Lu Yang was not fooled, and suddenly roared at Lu Yang frantically, but no matter how he roared, Lu Yang didn't look back, but no one noticed that it was under the ground. A seed is already germinating, and then an eye grows out, hiding in the shallow layer of the soil.

This is the ability of the three-eyed magic flower-a clone, three eyes can become three bodies by themselves, monitoring the movement in a certain area, as long as the things that have happened around, the body of the three-eyed magic flower can clearly feel , And passed to Lu Yang in the form of images.

Just now, when Lu Yang blocked the bone spear with the vine transformed by the three-eyed magic flower, he asked the three-eyed magic flower to separate one of his eyes and attach it to the vine. When the vine was corroded by the dark power of the bone spear, it fell down. At that time, the avatar of the three-eyed magic flower was hidden inside, and then fell to the ground.

The three-eyed magic flower jumped from Lu Yang's arms to Lu Yang's shoulders, and then lifted to his head. The other two heads of the small ball glowed red at the same time.

“Spiritual Connection”

Lu Yang's eyes instantly changed to the one-eyed view of the Three-eyed Demon Flower. On the ground, the leader of the Dark Demon was looking coldly at Lu Yang as he flew away.

At this moment, a completely non-human-shaped monster came out with several other humans. The monster's face was completely broken, and it was pinched together forcibly. All the eyeballs were on the mouth, but the mouth was side.

This person was Wang Shijie who had escaped from the Flower Demon battle. Lu Yang thought that Wang Shijie had gone to the Flower Demon's side, but he did not expect that he had come to the Dark Demon.

“Manding, your acting skills are too clumsy.” Wang Shijie said blankly.

Manding was the leader of the Dark Demon, and when he saw Wang Shijie's appearance, he frowned and said, “I don't need you to teach me about my things.”

Wang Shijie was furious and said, “Obviously you can successfully attack the dungeon with someone directly, why do you use such a clumsy method.”

Manding stared at Wang Shijie with a bad expression, and said, “What qualifications do you have to command me?”

Wang Shijie said excitedly: "I am your commander on the earth appointed by God, of course I am qualified to order you."

Manding sneered, turned around and said sarcastically as he walked: "Look in the mirror when you have time to see what you are like, then talk to me."

"Roar~!" Wang Shijie was furious and roared frantically. His appearance was already his taboo, and no one was allowed to mention it.

Manding turned his head unhappy, looked at Wang Shijie with cold eyes and said, "Do you want to provoke me?"

Cao Hong, Zhang Lin and others around Wang Shijie quickly grabbed Wang Shijie, and Cao Hong said, "Sorry, we didn't mean this, but we don't understand why we found Flower Demon, Dark Demon and several other races one after another. You are not willing to fight for the gods, and eliminate the dungeon as soon as possible?"

Manding looked at Cao Hong, Wang Shijie and others contemptuously, and said, "You are not qualified to command us, that's why."

After speaking, Manding turned and left.

Wang Shijie roared: "You wait, God has already made his will, and he is opening the space, and he will send someone appointed by God to command you."

Manding said without looking back: "At that time we would naturally follow the orders of the divine envoy."

Wang Shijie was speechless and could only turn around and leave.

Lu Yang frowned and looked at both sides, and secretly said to the Blazing Demon God: "It's strange, the Dark Demon and the Flower Demon have tens of thousands of troops, even hundreds of thousands of troops. Why don't they unite to attack? In that case, the underground city is very hard to resist."

The Blazing Demon God said: "Although the gods of the different world have absolute control over the lower-level races, not every command of the gods will be executed by the lower-level races in the absence of the divine envoy. You have to know, These are all intelligent races, and they also have their own thoughts for the people of the tribe.

To put it bluntly, an attack on a dungeon must result in countless deaths and injuries. Any party attacking alone will result in annihilation of the entire army, giving other races a chance to break into the dungeon.

How could the patriarchs of these races who came here let other races take advantage of them, and let them sacrifice their tribes to perfect other races?

You know, gods don't manage the affairs of inferior races on weekdays. One of the flower demon and the dark demon belongs to the wood element system and the other belongs to the dark element system. The two races themselves are deadly enemies in another world.

If you want them to work together for a goal, it must be directed by a divine envoy who has the authorization of two gods, but the existence of the divine envoy must be at least Tier 4 peak or Tier 5 existence. It is not yet possible to directly transmit such a living body, so there is still a chance of survival in the Donghai Dungeon. "

Lu Yang nodded. He knew the reason, and said with a smile: "In other words, if I can kill all these races before the envoy arrives, there will be no problem, right?"

Blazing Demon said: "That's it."

Lu Yang knew what he had to do, and ordered the three-eyed magic flower clone to walk under the ground to explore the situation in the dark magic area. He controlled Red Night and stopped near an abandoned station outside the county seat.

The big eyes of the Flower Demon explored everywhere in the county town. It took a whole day to determine the number of Dark Demon in the county town. There were more than 70,000 Dark Demon in the county town.

Lu Yang sneered. If there were only this number, he wouldn't mind killing this dark demon army completely.

He waited for the three-eyed magic flower clone to return to his body, and controlled Red Night to fly to the Old City of the East China Sea. While they were taking the warriors to practice archery, Xia Yuwei led the wizard team to continue to kill the demonized creatures in the old city.

Now the old city has become a place where members of the Jagged Brotherhood can improve their strength. Every time a monster is killed, a magic core can be obtained from the monster's body.

The demand for magic nucleus by the Jagged Brothers Mage who has reached the second tier is not high, but the first-tier mages are rapidly improving their strength.

The number of people joining the Jagged Brotherhood in the dungeon is also increasing. uukanshu. Com clearly has a population of only 3 million, and the number of cultivators has reached 10,000.

On the other side, Lu Tianming led the people from the academy in the industrial city area. A large number of industrial industries were continuously being produced and transported to the underground city.

Originally, the fire lions tamed by Lu Yang were used as labor. The trucks without oil were all driven by the fire lions and sent to the dungeon, while the steel and cement produced in the city were sent to the mountains around the dungeon in large quantities. area.

Lu Yang, Fei Yang and others have decided to rebuild a city just above the dungeon, which itself is on the mountain. From the back mountain, it takes two hours to reach the airport.

All the residents in the underground city were mobilized, and at the current rate, within two months, the walls around the city could be built.

The family members of the Jagged Brothers are also constantly creating arrows to train and use them for the members of the Jagged Brothers. You must know that in the new city, the number of the Jagged Brothers once exceeded 400,000. Now the Jagged Brothers in the underground city There are also

nearly 400,000 members. Counting family members, the smaller half of the dungeon belongs to the Jagged Brothers League. Although most people can't help, it is still possible to provide logistics.

Chapter 2113 - 1st ten thousand team

Latest URL: One month, a full month's time.

When all the 3 million people in the dungeon took action, the efficiency was amazing. More than 5 million bows and arrows were made.

There are more than 8,000 fighters in the Jagged Brotherhood, all of whom have learned basic archery skills. They may not be able to shoot a certain target alone, but they still have no problem launching a powerful blow towards an area.

During this period, the forging masters of the Jagged Brotherhood also produced another weapon-the Snake Bone Sword.

When killing three-headed snakes and two-headed snakes, they often encounter giant snakes with a body length of more than two meters, that is, enchanted poisonous snakes of level one and six. After killing them, the blacksmiths discovered that these snakes The Snake Valley is very hard, even harder with ordinary steel.

At first, someone proposed to use these snake bones to make sticks. Later, after negotiation, these snake bones were used as growth spears and long swords. After some experiments, they really succeeded.

After disassembling the snake bones into sections of bones, the bones are sharpened and snapped together with a special card slot to form a long sword.

The weight is lighter than steel, but the sharpness is even sharper than those of so-called iron-cutting swords. It can cut a 1 cm thick iron plate with a single cut, and the strength required is only that of an adult man. Normal chopping strength.

This is more terrifying. Since the Snake Bone Sword is so sharp, Lu Yang asked the Master Blacksmith to step up its manufacturing. Now there are more than 8,000 fighters, and everyone is equipped with one.

There were some extras that were made into long guns by Lu Yang's request. The barrels were made of stainless steel, and the heads of the guns were sharpened and sharpened with snake bones.

When encountering the Dark Demon, let alone the power of the Snake Bone Sword and Snake Bone Spear, as long as the spear tip and sword are smeared with snake venom, the power will not lose to the bow and arrow.

Not only the changes in weapons, but also the equipment has been greatly improved. For example, shields, snake bones can be made into bows and arrows, and the skulls of first-order enchanted wild boars can be made into bone shields.

The demonized wild boars of Tier 1 and Tier 6 and Tier 7 and above are very huge, so their heads are also very large. After killing them, the bones of these monsters can't be burned easily. Later, the iron-blooded brotherhood forged The masters used the skulls of demonized wild boar, demonized tiger, and demonized elephant to make bone shields.

The skull of an elephant is the largest, and it is used to make a large shield to defend the whole body. The skull of a demonized fox is the smallest. It is tied to the arm by a warrior and used as a small round shield.

On the flat ground outside the dungeon, 8,000 fighters and more than 2,000 mages, as well as hundreds of warriors and ascetics, have all assembled, and they are practicing under the command of Zhuojiu.

Lu Yang wants to control Red Night to participate in the war, so the command can only be given to Zhuo Jiu and White Lion. These people do not need to choose. Zhuo Jiu itself is the most respected, and its strength is recognized by everyone. Therefore, Zhuojiu is in charge of directing them.

“The speed of the archer is too slow. You need to speed up. The speed of the Dark Demon and the Flower Demon are both very fast. They will retreat behind the shield battle after three rounds of salvo.

“Let’s do it again and move forward.”

...

Lu Yang stood on a city wall not far away and nodded in satisfaction. The city wall was poured out of steel, cement, and concrete, and the mountain was leaning on both sides.

Fei Yang came to Lu Yang all in mud, and asked worriedly while wiping his sweat, “Really decided to attack?”

On the day Lu Yang returned, he informed Lu Tianming, Fei Yang and others about the conversation between Wang Shijie and the dark demon patriarch Manding. He looked at the members of the Jagged Brotherhood and said, “We are going to attack, we can’t wait, another world. The multiplication speed of the race is too fast. We must kill these races as soon as possible, otherwise we will all die when the divine envoy comes.”

Fei Yang gritted his teeth and said: “If you need fire support, you can tell me at any time that although guns can’t kill them, cannons can smash them. I’ll wait for your news. Besides, come back alive.”

Lu Yang smiled and nodded. He knew that Fei Yang had done what he could to the extreme. All the sundries in the dungeon were on Fei Yang’s body. Now Fei Yang doesn’t even have a single black hair on his head. Up.

“Don’t worry, not only will I come back alive, but my brothers will follow me back alive.” Lu Yang patted his shoulder and walked towards the team.

When Zhuo Jiu saw Lu Yang coming, he jumped out of the central command position, came to Lu Yang’s side, and asked, “Boss, what’s the matter?”

Lu Yang said, “Let’s go out and try, first go to the old town for a while.”

Zhuojiu nodded. After all, among the more than 10,000 people, except for the 2,000 people, the rest hadn't seen blood much. It needed some experience.

Lu Yang said: "I will give them red spirit fruits to pick those who performed well this time and help them upgrade to the second rank."

He gave a heavy hum, turned his head to look at all the members of the Jagged Brotherhood, and shouted loudly: "All of you change into the fire lion, and follow me to the old city."

The eyes of more than 10,000 people were bright, and they ran to the nearby stables, put on their fire lion mounts, and ran towards the old city with the muddy wine.

"Roar~!"

With the sound of Long Howl, Lu Yang stood on Hong Ye's head and flew over the entire team, and the Jagged Brothers League's first large-scale battle of 10,000 people began.

On the other side, in the old city, a large number of demonized wild boars and wild wolves are still wandering in groups in the city.

They seem to be inexhaustible to kill, a group of dead and another group, but the strength of the new ones is relatively low, but they are still the masters of this city.

At this time, it was still morning, and when they were walking leisurely on the road, suddenly, there was a dense sound of footsteps in the distance.

Countless demonized creatures looked back, and in an instant, this group of demonized creatures showed a confused look, because, on the road more than 20 meters wide, at this time, they had been blocked by countless members of the Jagged Brotherhood holding bone shields. Fighting side by side, the shields in their hands are next to each other, forming a wall.

Behind the front row of the shield battle was an archer holding a longbow. Han Yu shouted: "The archer is ready."

The archers in the first 10 rows bend their bows and shoot their arrows at the same time, with a 45-degree elevation angle, and their movements are neat and uniform. The shoulders are stained with snake venom, but the entire arrow body is shining white light. That is the power that blessed the battle spirit of the Temple of War.

"Fall the arrow~!" Han Yu shouted.

"Om"

Thousands of bows and arrows shot out in unison, and the tremor of the bowstrings and the piercing of the bows and arrows gathered together, which seemed so low.

The creatures such as the demonized wild boar and the demonized wild wolf in the distance were shot in the body by countless falling bows and arrows before they could understand what was going on.

The powerful toxins caused these demonized creatures to instantly lose their ability to move, and slumped to the ground.

"Successful." Han Yu shouted excitedly, clenching his fist.

...

Such a scene not only happened on Han Yu's side, but also happened among the teams commanded by Zhuojiu, White Lion, Xia Yuwei, and Kuai Bansheng.

After entering the old city, Zhuojiu divided the 10,000-person team into six parts. He and Lu Yang stood on the ground and commanded, while the others acted according to the orders of the two.

Chapter 2114 - Xue Renyi comes out again

Latest website: When more than 10,000 people were training in the old city, on the other side, Lu Yang was also thinking about how to attack the army of dark demons in Dong'an County.

The Blazing Demon God said: "You have too few people. Although poisonous arrows can destroy the dark demon, there are 100,000 people on the other side, and you only have 10,000. How can you fight this battle?"

Lu Yang was also worried about this matter, and couldn't help asking: "I don't want to suffer heavy casualties, but I don't have a good solution. There are two things that need your help."

"What's the matter?" Blazing Demon God asked curiously.

Lu Yang said, "The first thing is, can you make a person seem to have surrendered to the new \*\*\*\* on the surface, but in fact he is still loyal to mankind."

The Blazing Demon smiled, and said, "There is no way to be loyal to humans, but there are ways to be loyal to you and me. This kind of thing is called the brand of loyalty. As long as someone voluntarily accepts it, you can become your most loyal subordinate. Will betray you, even if other gods want to plant a brand of loyalty, they cannot change his loyalty to you."

Lu Yang was a little surprised, and asked, "How do you do it? Can other gods not do it?"

Blazing Demon God was a little bit complacent, and said: "This is the secret I discovered when I traveled to other life planets. If you need it, I can teach you."

Lu Yang couldn't help but smile, and said, "I need it so much. With this, my strategy of attacking the Dark Demon can complete the first step."

The Blazing Demon asked, "What is the other step?"

Lu Yang smiled and asked, "Just ask, when your gods in another world fight, do you need to make a strategy?"

"What is the strategy?" Blazing Demon God asked.

Lu Yang said: "When the weak fight the strong, they will use some methods to calculate the opponent so that the weak can defeat the strong."

The Blazing Demon God snorted and proudly said: "In our world, the strong will always be the strong, and the weak will never be able to kill the strong unless the strong are injured."

Lu Yang smiled more happily, and said to Blazing Demon God: "You are right in my body, let you see what a strategy is, and on this planet, the country where strategy is the most outstanding is the country where I live. , And I'm not polite to say, I am also one of the masters, be prepared to appreciate it, it will inspire you, the Supreme God."

The Blazing Demon God curled his lips in disdain, and said: "A person has only a few thousand years of civilization, what can be developed?"

Lu Yang shook his head with a smile. He didn't argue with the Blazing Demon God. Indeed, there was no strong world where spells and vindictive coexisting in another world had developed on Earth, but because of this, the Earth developed something unique to her. Things-strategy.

Winning the strong with the weak and winning the more with the few is the most terrifying thing that has been researched on this planet, especially after humans can also learn spells and grudges, the strength of humans will crush any strong of the same level.

Lu Yang jumped on top of Hong Ye's head and commanded Hong Ye to fly back into the dungeon. He came to the prison of the dungeon. Among the many prisoners, one prisoner was exceptionally special, he was Xue Renyi.

Back then, during the game, one of Lu Yang's two major spies, Xue Renyi has stayed with Lu Yang since the invasion of the alien gods, but Xue Renyi took the initiative to believe in another world.

The reason is simple. After Xue Renyi helped Lu Yang defeat Liu Jie, he took the one billion in cash that Lu Yang gave him and went out to cheer, but his position was exposed, and all his parents were killed by the killers sent by Liu Jie.

Since then, Xue Renyi has been in remorse. Now that the alien gods have invaded, Xue Renyi imagines that he can rely on the magical powers of the alien gods to resurrect his parents and become the most loyal believer in the other world.

But he had believed in for such a long time, and he had developed into Wang Shijie's first love, but Wang Shijie only reasoned that he was not capable enough to help Xue Renyi, and he needed to wait until the alien \*\*\*\* descended.

Later, it happened that Wang Shijie and other temple members were killed by Lu Yang in rebellion, and Xue Renyi and other believers who stayed in the temple were imprisoned.

Today, Xue Renyi is curled up in the prison. It is conceivable that the dungeon itself lacks an area for human rest. Therefore, where the prison can be built, and how dirty and run-down it is.

Xue Renyi is not bad, because he was once Lu Yang's most powerful subordinate. Lu Yang gave the order to put the family members of the Jagged Brotherhood into another world god, and put them in a separate place. After all, they used to be his subordinates. It was Wang Shijie's family who used foreign gods to confuse them. Lu Yang couldn't kill them painfully.

The same is true for other believers. They can only be sent to the most painful and tiring part of the dungeon to work, and they will be guarded.

Now just after working hours, everyone has fallen asleep, and Xue Renyi is also lying on the grass curtain in the crowd.

Suddenly, the prison door opened, Xue Renyi raised his head and saw that it was the prison guard. He ignored the other party and continued to sleep.

The prison guard is also a member of the Iron-Blood Brothers League. Seeing Xue Renyi's appearance, he couldn't help sighing. Since Xue Renyi was captured, he has been in this state. Open up.

"Xue Renyi, get up, the boss wants to see you." The prison guard sighed and said.

Xue Renyi's hollow eyes suddenly showed hope, and he quickly stood up and asked, "Where is the boss?"

The prison guard said: "Come out with me, the boss is outside."

Xue Renyi nodded repeatedly and followed the guards out of the cell. In the only office in the prison, Xue Renyi saw Lu Yang sitting on the sofa.

"Come on, come and sit down." Lu Yang said to Xue Renyi with some emotion.

"Boss." Xue Renyi's tears couldn't stop in an instant. He knelt on the ground with a thud and said to Lu Yang: "Boss, I didn't help Wang Shijie harm everyone. I really didn't. I just want to let my family. Resurrection."

From the beginning of the operation of the dungeon, the members of the Jagged Brothers League continued to attack the old city along with Lu Yang, Zhuojiu and others, hoping to kill the monsters to delay the spread of the beast tide. During this period, how many members of the Jagged Brothers League fought Death, he knew very well.

But for the sake of his family, he could only take refuge under Wang Shijie in a humble manner, and did not ask or even help the brothers of the Jagged Brotherhood.

He knew he was sorry for everyone, but he really wanted to resurrect his parents. At the same time, he wanted to flatter Wang Shijie. During this period, the pain in his heart was more uncomfortable than death.

Another, Xue Renyi is not a mad believer, he just pretends to be a mad believer for his family. That is flattery and has nothing to do with faith.

In the end, Wang Shijie was also a big liar like the previous members of the temple, and he was imprisoned because of his involvement.

Lu Yang could feel the regret in Xue Renyi's heart and sighed. He walked to Xue Renyi's side, helped him up, and said, "Would you like to return to the Jagged Brotherhood?"

"Can I?" Xue Renyi asked in surprise.

Lu Yang nodded and said, "But I want to give you a task, which is very dangerous. If you fail, your soul may be tortured forever."

Xue Renyi smiled and said: "It's another spy mission, right? I accept it. I would rather accept the mission than I can do nothing now."

Lu Yang nodded and said, "This task is a bit special. In order to prevent you from being planted with the brand of loyalty by foreign gods, I need to plant this brand for you first. This requires you to completely relax your guard against me. During the release process, You can't have the slightest sense of resistance, can you do it?"

Xue Renyi smiled and said, "Boss, I have believed you for ten years. What do we believe or not believe?"

Lu Yang also smiled and said, "You can kneel down on one knee. I'm going to cast a spell on you."

Xue Renyi nodded and knelt in front of Lu Yang on one knee, while the Blazing Demon God in Lu Yang took over Lu Yang's body. In an instant, Lu Yang's whole state changed, and his temperament changed to another appearance. , The solemn and sacred atmosphere made Xue Renyi look up at Lu Yang, his eyes became hollow.

“Ancient elves, fulfill your vows when the world was founded, and this human being is willing to be my most loyal servant.” Blazing Demon God’s consciousness seemed to lie in the communication of elves in another world.

The magical energy of pure gold suddenly wrapped Lu Yang’s body, and Lu Yang placed his right hand on Xue Renyi’s forehead.

“The Brand of Loyalty”

All the golden light entered Xue Renyi’s body, and Xue Renyi did not resist from beginning to end. In just a few minutes, the brand of loyalty was successfully released. In this way, Xue Renyi became Lu Yang’s first fanatic.

“Boss, what is this? Why don’t I feel it.” Xue Renyi looked at his body curiously. After Jin Guang entered, he didn’t change anything.

Lu Yang smiled and said: “You only need to know the function of this thing. It is enough to not let you betray me. It is harmless to your body. I can’t control you through this brand of loyalty. Okay. Stop talking nonsense, do what I said.”

“You said.” Xue Renyi’s expression became solemn.

Lu Yang said: “I believe you have heard about the Dark Demons. Now there are 100,000 Dark Demons, and I only have 10,000, but I have a way to restrain them. The problem is now. Yes, I need to divide them so that my 10,000 people can defeat them one by one.”

Xue Renyi smiled and said: “Simple, the Dark Demon and the Flower Demon are both afraid of the dungeon’s heavy fire attack on them. Leave this to me. I just need to tell them that the dungeon knows about the Dark Demon. It came out of the human body after killing the human. This caused the residents of the East China Sea Dungeon to be very angry, and strongly demanded that Fei Yang use heavy fire to kill all the dark demons, and then I would suggest that they divide their troops. What do you think?”

Lu Yang patted Xue Renyi on the shoulder and said, "I'm waiting for your words. Now there is a question. How to send you out? Have you learned any special abilities under Wang Shijie?"

Xue Renyi said: "It's true that suspended animation can make my body enter the state of suspended animation. This is what Wang Shijie thinks is too good for my flattery, and he specially taught it to me, so that I can use it to save my life."

Lu Yang nodded. In this way, all the big loopholes were plugged. As for the other small loopholes, Xue Renyi's resilience can easily solve them. Another, Wang Shijie's temple has already been underground with the East China Sea. The city was disconnected and didn't know the situation in the city at all. He and Fei Yang only needed to make a gesture.

#### Chapter 2115 - Dark demon fooled

Latest website: At the moment, Xue Renyi returned to the prison. In the evening, news of Xue Renyi's death came from the prison. Every day people died in the dungeon. The guards of the prison usually put these people in sacks and threw them into the dungeon. The back mountain.

At three o'clock in the morning, when Xue Renyi woke up from the back mountain, he struggled out of the sack and used the skill taught to him by the temple—shadow art. He ran quickly in the dark and ran in the direction of the dark demon. past.

Xue Renyi is gambling, and he can only bet. After the Dark Demon knows that he is Wang Shijie's person, he will not kill him. On the contrary, he can only be blamed for his bad life. I went to see his parents underground.

In the middle of the night, there are not many demonized creatures in the forest. Most of the demonized creatures still follow their original routines and rest at night.

Only a few insect-like creatures, after being demonized, their bodies become huge, crawling around on the trees at night.

Xue Renyi's own abilities are only about level seven, he is not interested in cultivation, he hasn't learned any attack skills, and can only evade constantly.

Fortunately, he was lucky. He only encountered three dangers along the way, and he came to the road entrance of Dong'an County.

Several dark demons were patrolling the entrance with torches. Xue Renyi did not act immediately when seeing them, but waited far away.

Suddenly, Xue Renyi found a human being approaching from a distance. Under the light of the fire, the appearance of this person was clearly photographed. It was Tao Ran, one of the members of the temple next to Wang Shijie.

Xue Renyi jumped up in excitement and shouted loudly, "Tao Ran, Tao Ran, I've finally seen you."

Tao Ran was just getting angry with Wang Shijie's madness, and wanted to come out and breathe. Since Wang Shijie became a ghost like this, his temper has become extremely bad, and his thinking has become more and more extreme, more and more crazy. .

In fact, Tao Ran could understand Wang Shijie's thoughts. Wang Shijie wanted to return to the appearance of a human, and didn't want to see people in such a ghostly appearance. This was only possible by the divine envoy who descended from the alien gods.

But the Flower Demon and the Dark Demon ignored him, and Wang Shijie vented his anger on Tao Ran and the others. They were cultivating at night, but Wang Shijie suddenly angered Tao Ran and the others for inaction, so that they broke up unhappy.

Tao Ran wanted to come out and let them breathe. Their living location was on the edge of the county town. This was also the performance of the dark demon leader Manding coldly neglecting them, and he was unwilling to give them a slightly better house and let them live in a private house.

Just as Tao Ran was depressed, he suddenly heard someone calling him, and when he took a closer look, she found that it was Xue Renyi. Her eyes widened, and she quickly walked to the bushes, looking at Xue Renyi, who was wounded all over, and asked: "You, How did you escape? Haven't you all been arrested?"

Xue Renyi pretended to finally find the appearance of the organization, crying and said: "Divine Envoy Tao Ran, you don't know, I almost really died. Then Lu Yang is not a human being, and it is also an old man of the Iron-Blooded Brotherhood. treatment."

Tao Ran still liked Xue Renyi very much, because Xue Renyi flattered each of them. Tao Ran and others, who were still very young, were powerful, but faced with Xue Renyi's veteran spy, they were not of the same level.

"Speak slowly, what is going on?" Tao Ran asked.

Xue Renyi pretended to breathe hard, calmed down, and said, "Do you remember? Your envoys taught me a skill called suspended animation. Lu Yang wanted to kill us. The prison guards were also from the Jagged Brothers. I mentioned this during the chat. I originally wanted to find out more information and then come back, but it was too late, I had to feign death and escape back."

Tao Ran recalled, and said: "It seems that Wang Shijie taught you, so let me see Wang Shijie and see what he thinks."

"Good, good, as long as I find you." Xue Renyi said pretending to be moved.

Tao Ran led Xue Renyi to the gate, and after explaining the situation with the dark demon guarding the gate, the dark demon carefully looked at Xue Renyi and found that he only had the strength of Tier 1 and Tier 6, and was not embarrassed by Tao Ran, so he let Xue Renyi in. .

When they returned to their residence, Wang Shijie's voice came from the room.

"You people are just rubbish. They are all rubbish. I can't help with any help. What is the use of you."

“I just wandered there all day, and I didn’t want to meet the divine envoy. It was all waste, all waste.

...

With a trace of embarrassment on his face, Tao Ran led Xue Renyi into the room, looked at the mess in the place, frowned and said, “Wang Shijie, have you made enough trouble? Xue Renyi is back.”

Wang Shijie turned his head back and stared at Xue Renyi with that horrible look, but Xue Renyi had already prepared for it. He was startled when he saw Wang Shijie’s appearance, and then shed tears. He cried and said, “My God, how do you change? It’s like this.”

Wang Shijie thought that Xue Renyi would despise him like everyone else. He did not expect Xue Renyi to care about him. In an instant, Wang Shijie felt a trace of warmth in his heart, and his angry temper eased. He frowned and said, “I guessed it. You can come back, but why have you waited so long?”

The people in the temple knew that Xue Renyi wanted to save his parents, so no one thought that Xue Renyi would be a traitor, and Wang Shijie had taught Xue Renyi to fake death, naturally knowing that he would definitely come back to find himself.

Xue Renyi hurriedly came to Wang Shijie’s side, knelt in front of him and said: “My lord, I don’t know where you are. It was the prison guards who were chatting. When you were in Dong’an County, I knew the place. Then I ran over in feign death.”

Wang Shijie nodded. He ran in a hurry at the time and did not give Xue Renyi their own position. After that they could not be contacted. This was normal. He asked, “Did you bring out any information?”

Xue Renyi quickly said: “I don’t know if this counts as intelligence. The dungeon knows that the people in Dong’an County have been parasitized by the Dark Demon. The people in the entire dungeon are angry and strongly demand that Dong’an County be blown up to the local people. Fei Yang agreed to take revenge, and he is mobilizing heavy artillery to bomb Dong’an County.”

Wang Shijie’s eyes lit up and said, “But what you said is true?”

Xue Renyi said sincerely, "It is true that the prison guards are also members of the Jagged Brothers League. They are complaining that Fei Yang and Lu Tianming have used Lu Yang excessively. In the past few days, they have asked Lu Yang to come over to measure coordinates. Provide detailed data for heavy artillery."

Wang Shijie was extremely excited. The reason why he is being coldly received by the Dark Demon is because they have no effect. Now that Xue Renyi's information is available, Wang Shijie knows that he has a chance to improve his position on the Dark Demon's side.

He immediately said to Xue Renyi: "Follow me. Let's find the leader of the Dark Demon. I want him to know that if it weren't for me, Wang Shijie, all his people would die."

Xue Renyi nodded quickly.

Wang Shijie was in a good mood, and they were pleasing to Tao Ran. They said, "Call everyone and follow me. Let's go to Manding."

Tao Ran nodded, and went out to look for other people. Wang Shijie asked about the situation in detail. After everything was clarified, the other members of the temple also arrived.

Wang Shijie led them to Manding's residence, which was in the lobby of a bar. He heard that Wang Shijie had an important situation to report. Manding was very upset when he was awakened, but he still met Wang Shijie.

Seeing a new person popping up next to Wang Shijie, he asked in a low voice, "What can I do?"

Wang Shijie said proudly: "The information my subordinates desperately sent back, the dungeon will kill all of you with heavy artillery."

Manding's two blood-red eyes stared at Wang Shijie, and said, "What evidence is there?"

Wang Shijie immediately added Xue Renyi's words to the plural. and waited until he had finished speaking, and the day was about to dawn.

Manding turned his head to look at Xue Renyi, carefully looked at this low-powered human being, and said: "I will send someone to investigate, you go back first."

Wang Shijie knew that Manding didn't believe him, so he didn't say much. He led Xue Renyi and the others back. On the other side, after seeing Wang Shijie gone, Manding was no longer indifferent, so he immediately called his subordinates to the dungeon to check. Explore.

A dozen dark demons quickly ran towards the dungeon. When they quietly came to the foot of the mountain near the dungeon, they just saw a large number of heavy artillery and rockets being consigned by car and drove in the direction of Dong'an County.

There were more than 50,000 warriors and more than 10,000 members of the Iron-Blooded Brotherhood. Seeing this scene, the dark demons were shocked. They knew that this was the dungeon and was going to fight them hard.

A dozen dark demons hurriedly ran towards Dong'an County, and halfway, a dark shadow suddenly appeared in the sky. They looked up and Lu Yang was standing on the top of Hongye's head, flying from the sky to Dong'an County. , They thought of Wang Shijie's words, they went to fix the coordinates.

Chapter 2116 - Goal 0 Peak Mountain

Latest website: These dozen dark demons hurriedly ran and ran, using the shadow of the forest to activate the shadow shuttle skill, and when Lu Yang controlled the red night to fly to the sky over Dong'an County, they also returned to the county.

The dark magic whistle headed by the black and red sweat came to the central square of the county town, where Manding was staring at Lu Yang in the sky.

“Patriarch Manding, we are back from inquiring about the news.” The dark magic sentry’s voice was frightened, kneeling in front of Manding, the muscles of his body were shaking, it was tired.

“What’s the matter?” Manding saw the sentry and felt something was wrong.

“The weapons in the Donghai Underground City are being transported out in large quantities, being pulled by vehicles, and the target is ours,” the sentry said.

Standing next to him, Wang Shijie exclaimed excitedly: “Are there heavy artillery?”

The sentry’s eyes were confused, and he didn’t understand the meaning of heavy artillery.

In a hurry, Wang Shijie hurriedly said: “Is there a lot of very long and very big pipes?”

The sentry nodded and said, “It’s a lot, there are almost 1,000.”

Seeing the size of the sentinel’s gesture, Wang Shijie excitedly said to Manding: “Don’t hurry up and take the people away. This is the most important weapon in the East China Sea Dungeon-the heavy artillery. It can be fired from 18 kilometers away. After confirming the coordinates here, more than 1,000 heavy artillery fired volleys, and in a blink of an eye, Dong’an County would be turned into ruins, and your population would have to be bombed to death.

Manding showed a furious expression in his eyes and cursed: “These lunatics in the East China Sea actually want to use all their weapons on us, \*\*\*\* it, gather, blow the collective horn.”

A dozen dark demons behind Manding simultaneously took out their special horns and blew them into the air.

“Woo~~~~!”

“Woo~~~~!”

...

A low sound of the horn penetrated the entire Dong’an County, and the dark demons who were resting and hunting quickly gathered in the direction of the square.

During this period, Xue Renyi saw the words and actions of the Dark Demon in his eyes. He thought that the Dark Demon’s sentinel could clearly explain human weapons. He didn’t expect that he was talking about the big pipe. This gave him something else. Thoughts.

There are also horns, which are all places Xue Renyi pays attention to, which can be used by everyone in the future. He looked at Wang Shijie in front of him and whispered in his ear: “Divine Envoy, should we give some advice to the Dark Demon.”

“What advice?” Wang Shijie frowned and asked.

Xue Renyi said: “When we gather together like this, no matter where we go, they are a group of living targets. Even if they are hidden in the mountains, they will be tracked by Lu Yang in the sky.”

Wang Shijie was also thinking about this question, and asked: “Do you have any good solutions?”

Xue Renyi thought for a while and said, “Do you think this will work? There is a mountain next to Dong’an County, called Qianfeng Mountain. We let the Dark Demon be divided into three parts and hidden inside, each part only has about 30,000 to 40,000. The Dark Demon, in this way, even if the Jagged Brotherhood wants to attack, only part of it will be lost, and the other parts will not be problematic.”

Wang Shijie’s eyes lit up and said, “This is a good idea.”

He hurriedly came to Manding's side, repeated Xue Renyi's words, and said: "The ammunition in the East China Sea Dungeon is only enough to cover an area. When we are hidden, Lu Yang will definitely not dare to attack at will. Can only return without success."

Manding's blood-red eyes kept moving in the gray eye sockets. He looked at Lu Yang in the sky again, and said in a low voice, "Well, that's all."

Manding looked back at the three men next to him, and said, "Elder Mascar and Elder Lorraine, you two will lead 30,000 Dark Demons to Qianfeng Mountain first. Remember, you must hide in the valley. Absolutely. Can't be exposed."

The two older dark demons nodded at Manding at the same time, tapped their right arms on the chest, and said, "Give it to us two."

At the moment, the two of them ran out of Dong'an County with the dark demons that had been assembled in front of them, and plunged into the forest of Qianfeng Mountain.

After Manding gathered the last 40,000 people, he also ran into Qianfeng Mountain with others, and Lu Yang in the sky kept Hong Ye hovering over Manding's head, until the sky above Qianfeng Mountain, Lu Yang ordered Hong Ye to stop. Down.

Looking at the endless forest below, there was a cold look in his eyes. Xue Renyi did not live up to his trust and completed this seemingly impossible task. Now, as long as Xue Renyi returns specific news, he will know what to do. How to do it.

"Let's go back to Dong'an County." Lu Yang controlled Hongye and flew in the direction of Dong'an County.

Since the weapon was brought out, it couldn't be easily taken back. The deterrent power of this thing was far greater than the actual damage. He wanted to show himself in Dong'an County, forcing Manding to live only in Qianfeng Mountain.

The other side.

Manding has also been watching the situation in Dong'an County from the top of Qianfeng Mountain. As the Dark Demon Sentinel said, not long after they left here, the Donghai Underground City team drove into Dong'an County. His weapon was placed there, aimed at the direction of Qianfeng Mountain.

"Damn it, I will never let the East China Sea Dungeon go." Manding let out an angry roar, this feeling of being threatened is what Manding hates most.

Wang Shijie was happiest with this attitude of Manding. Standing halfway up the mountain, looking at Xue Renyi who was panting next to him, he said, "You did a good job this time, and I will give you credit for it."

"Thank you, as long as I can revive my parents, I am willing to do anything." Xue Renyi looked grateful.

Wang Shijie nodded in satisfaction, and said: "You go to rest first, I still have things to do."

"Good envoy." Xue Renyi bent his waist to ninety degrees and said respectfully: "I will look for water sources. One hundred thousand people are in the mountains and need water. I used to be a soldier. OK."

"Go. Wang Shijie went to the top of the mountain to find Manding to continue persuading him, and took Tao Ran and the others up the mountain.

Xue Renyi slowly straightened up, still looking at Wang Shijie and the others with gratitude, until he couldn't see it, the expression on his face did not change.

This is a necessary quality to be a spy, especially at this stage. Xue Renyi does not know whether the ghost knows whether there is any monitoring method in this magical world, so he always maintains his vigilance.

Halfway down the mountain, Xue Renyi found a dark demon. After explaining the situation, he led the dark demon up the mountain to find a source of water.

In fact, this water source is very easy to find. The goal set before is Qianfeng Mountain. There is no water source here. Lu Yang has already explored it.

Xue Renyi only needed to find the three locations mentioned by Lu Yang to drill a well to find the water source. Therefore, in just half an hour, he drilled a well in a valley.

Seeing that Xue Renyi was so powerful, a group of dark demons quickly led him to the gathering place of two other dark demons. Soon, Xue Renyi found the wells in these two places again and let the dark demons treat Xue Renyi. More satisfied.

#### Chapter 2117 - Illusion

The latest website: "Humans, you did a good job." Elder Mascar was very satisfied with Xue Renyi's performance. He patted Xue Renyi's shoulder with his black arm. Suddenly, a black and red light penetrated into Xue Renyi's. in vivo.

"What are you doing?" Xue Renyi asked in confusion.

Masca stared at Xue Renyi with a grim expression, with her mouth full of fangs, and said, "Humans, this is a dark spell. From now on, you will only obey my orders. If you dare not listen, I will let you You can't survive, you can't die."

Xue Renyi knelt on the ground quickly, crying and said: "I just want to resurrect my family. I will definitely be loyal to God."

Mascar stopped listening to Xue Renyi's nonsense, turned and walked towards the hidden spot in the forest, and said: "Continue to find the water source, this well is not enough. I will see four wells before tomorrow morning."

Xue Renyi stared blankly at Masca who had disappeared in the shadows, slowly stood up, broke down and burst into tears, and walked towards the mountain not far away.

Mascar was hiding in the dark. He had been staring at Xue Renyi's every move and followed until the next morning, and he was relieved when he was sure that Xue Renyi had been looking for a well all night.

The other side.

Lu Yang has been waiting for news from Xue Renyi. He is hiding a clone of the Three-Eyed Magic Flower on a mountain in Qianfeng Mountain. As long as Xue Renyi returns the news, he can determine where the enemy is.

No news came back on the first day, and it was also agreed by Lu Yang and Xue Renyi. After all, the creatures in the world should not be underestimated. As long as they are not mindless, they will definitely examine Xue Renyi carefully.

As expected, no news came back on the first day, and Lu Yang was not too surprised. He was just a little worried about Xue Renyi's safety.

Zhuojiu was also worried, and asked, "Boss, should we do something?"

Lu Yang was also thinking about it, and said, "Send an elite team to search along the surrounding mountains and pretend to look for traces of the Dark Demon? If you encounter one, then fight with them, but don't fall in love with it, just train and train. ."

"I'll lead the team." Zhuojiu said.

"Let's go too." said the white lion.

Kuai Bansheng, Xia Yuwei and others also asked to participate in the war. Lu Yang nodded and said, "Each of you will take a team of hundred people out and look for it on the outskirts of Qianfeng Mountain."

“Okay.” Zhuojiu and the others nodded, each left the room and led the team up the mountain.

Lu Yang came outside and personally saw them off. Then, looking at Xiao Liang, he said, “Aim all the weapons in the direction of Qianfeng Mountain, as if they were about to attack.”

Xiao Mingliang headed his head and gave an order to go.

For a time, the entire Jagged Brotherhood was in operation, and the soldiers in Dong’an County also started a busy day.

The other side.

In the depths of Qianfeng Mountain, Manding woke up early, standing on a high mountain, staring at the situation in Dong’an County in the distance.

His visual ability is extremely far, and he can see clearly the situation two or three kilometers away. Now he is looking at the area of Qianfeng Mountain with the big tube weapons in Dong’an County than they call artillery. His face has always been wrathful.

A rustling sound came from the grass behind him. Manding didn’t need to look back. Hearing the sound and breath, he knew that it was Wang Shijie and others.

Last night, Wang Shijie persuaded Manding for half a night. Manding did not agree to unite with the Flower Demon to counterattack Dong’an County. Now seeing Wang Shijie coming again, he frowned and said, “Don’t persuade me, I will definitely not agree.”

Wang Shijie said excitedly: “The purpose of my coming to you today is Xue Renyi, how do you release the dark spell to my men? Is he my person or yours? You make it clear.”

Manding sneered. He already knew about this from Mascara, and said: “It’s just an insurance. What are you worried about? Don’t worry. We are not interested in controlling your subordinates, as long as he doesn’t do anything to harm us. Thing, I won’t kill him.”

Wang Shijie suddenly quarreled with Manding, neither of the two listened to each other, but the quarrels and quarrels could not produce results. In the end, Manding still did not solve the dark spell for Xue Renyi, and Wang Shijie could only apologize. Said: "This matter waits for the true \*\*\*\* to come in the future, I will definitely pray for the gods to save you."

"Thank you God's Envoy." Xue Renyi said gratefully.

Manding was about to go down the mountain, and said with a sneer: "Troubled Mr. Divine Envoy, let your subordinates continue to look for water wells. The current wells are not enough."

The water consumption of 100,000 people is so great that it is far from being solved by one or two wells. At least seven or eight wells are needed to keep everyone from being thirsty because of lack of water.

Lu Yang and Xue Renyi also knew this, so the clone of the Three-Eyed Magic Flower was placed on a farther mountain.

Wang Shijie said to Xue Renyi: "Go find a well."

"Yes." Xue Renyi bowed to Wang Shijie, Tao Ran and others, and walked down the mountain behind Manding.

Suddenly, a dark demon ran up and said to Manding with a grim expression: "The patriarch, outside Qianfeng Mountain, found traces of human beings. There are seven or eight hundred human beings holding weird weapons, looking for us. It's already close to the area of Mascar and Elder Lorraine."

Manding suddenly showed his fangs, and said furiously: "Damn Lu Yang, dare to send someone into the mountain to find him, and order Masca and Lorraine to destroy this group of humans."

"Yes." The subordinate blew a whistle, and a black strange bird flew down in the sky. This person said a few words in the strange bird's ear, and the strange bird made a sharp neighing sound and flew towards the distance.

Xue Renyi looked at this scene in surprise. He thought that the monsters in the different world used magic to transmit messages. He did not expect to use this primitive method. Although it seems a bit more advanced, it is still more advanced than a human phone. It's too far.

Wang Shijie said sarcastically: "They are just small and weak races in another world, and they don't have too much strength. Therefore, they can only use this method."

Manding turned his head and glared at Wang Shijie, but Wang Shijie was not afraid of Manding. After the two of them looked at each other for a few seconds, Manding suddenly showed a sullen mouth and muttered a curse silently.

"Ah~!" Xue Renyi fell to the ground in pain and made terrifying screams. The pain of made Wang Shijie and Tao Ran their whole bodies numb.

"What are you doing?" Tao Ran asked angrily.

Manding didn't answer at all, turned and went down the mountain.

Wang Shijie stopped Tao Ran who was about to catch up, and said, "This is Manding's threat to me, but Xue Renyi has suffered. I'm sorry for him."

Wang Shijie looked at Xue Renyi, who was already crying in pain, and said, "I won't let you suffer for me in vain. Wait, and I will make you better soon."

Xue Renyi couldn't even speak now, so he could only nod his head vigorously. After 10 minutes of persisting, the severe pain in Xue Renyi's body stopped. The pain that went deep into his bones made him unforgettable. .

He stood up slowly, took the tissue that Tao Ran handed over, wiped away his tears and snot, and respectfully said to Wang Shijie, Tao Ran and others: "As long as I can resurrect my family, I am willing to do anything, I will do it. ."

Xue Renyi walked down the mountain like this.

## Chapter 2118 - intelligence

Latest website: Wang Shijie, Tao Ran and others looked at Xue Renyi's back, and they couldn't help feeling that Xue Renyi was too loyal, but now Wang Shijie and Tao Ran didn't dare to believe in Xue Renyi, because Xue Renyi was under a dark spell.

"There is something top-secret in the future, Xue Renyi can't be involved." Wang Shijie said with an indifferent expression.

Tao Ran and several others nodded one after another.

It stands to reason that Wang Shijie and the others shouldn't abandon Xue Renyi so quickly, but now they have to abandon it, and on the other side, the dark demons should not trust Xue Renyi so quickly, but because of the dark spell, Xue Renyi is here again. Walking around in the dark demons' team, no one thought Xue Renyi could not be trusted.

Although the incantation made Xue Renyi feel painful, but the brand of loyalty that the Blazing Demon personally released for Xue Renyi kept Xue Renyi from betraying him forever. Even if he was tortured again, he would not say what Lu Yang gave him. Therefore, Xue Renyi is now a bug-like figure in the Dark Demon clan. All parties don't trust him, and they trust him extremely.

Under such circumstances, Xue Renyi pretended to search for the source of water, and walked from day to afternoon, taking advantage of the sun above his head and the blazing light, he looked around and made sure that there was no invisible dark demon tracking around, he came. The clone position of the Three-Eyed Magic Flower.

Pretending to look around this tree, he actually took out a virtual helmet from the vine on the trunk, which is the clone of the Three-Eyed Magic Flower. After putting it on, he entered the "Second World".

Lu Yang was holding a helmet in his hand, and when he received a signal from Xue Renyi, he immediately put the helmet on his head.

The light flickered, and Lu Yang appeared in a room of the Jagged Brothers in a major city in the Old Continent. Looking at the haggard Xue Renyi in front of him, Lu Yang asked with concern, "Did he suffer any harm?"

Xue Renyi nodded and said, "I was under a dark spell. Once the patriarch or several elders of the dark demon chanted the spell to me, my body would suffer severe pain, and that feeling made me feel painful. "

The Blazing Demon God said to Lu Yang, "This can be relieved. When he returns to you, I will teach you how to relieve it."

Lu Yang breathed a sigh of relief. He didn't want Xue Renyi to die, and said, "I know how to release the dark spell. You can rest assured that when you come back, I will release the spell for you."

"Thank you, boss." Xue Renyi didn't care about his body a little. Before he lived like a walking dead, he found his dignity as a human being. He was willing to suffer for this, and he had the right to atone for the things he had done before.

"Boss, I found a few things about the Dark Demon, as well as their specific coordinates, and report them to you." Xue Renyi opened the map around Qianfeng Mountain.

For ordinary people, no one knows the coordinates of Qianfeng Mountain, but in fact, there have been GPS positioning coordinates decades ago.

These things are in the computer, and any geological research institution in Donghai City can give detailed coordinates.

Before Lu Yang moved most of the East China Sea citizens into the underground city, there were geologists who came in, and their laptops contained detailed information on these things.

With a simple finger, Xue Renyi let Lu Yang know the specific locations of the three parts of the Dark Demon.

“Mainly in the three largest valleys of Qianfeng Mountain, Manding’s 40,000 main force is in Tianjian Valley in the east, Masca’s 30,000 main force is in the north of Heifeng Mountain, and Lorraine’s 30,000 main force is returned to Yanshan in the south. .

These three places are all surrounded by towering mountains. The forest below is extremely dense. It is very difficult to get in. The artillery cannot be shot because the elevation angle is too high. It can only be used as a support fire to block the dark demons in the other two areas on the road. Come to help. “Xue Renyi said.

Lu Yang took a close look at the three valleys. They were five or six hours apart. It would take at least four hours to run at full speed, not to mention the support of heavy weapons, which made Lu Yang feel relieved. Quite a few, he nodded and said, “Go and follow Wang Shijie and the others, and be careful of your safety. The battle will begin in the past few days. You can report any new situations at any time.

“Yes.” Xue Renyi nodded respectfully and exited the virtual world. He hid the helmet in the vines of the three-eyed magic flower and returned to Tianjian Valley.

At this time, the sky was already dark. Deep in the dense forests of Tianjian Valley, the patriarch of the Dark Demon was furious. He looked at the more than 500 Dark Demon corpses in front of him and roared: “Lu Yang, I will definitely kill you. I absolutely I won’t let you go.”

Xue Renyi was walking around among the dark demons curiously. Suddenly he saw Wang Shijie and others standing in the front row. They ran over and asked, “What happened?”

Wang Shijie frowned and did not speak, but Tao Ran next to him said, “When you were looking for a water source today, there was a war at the foot of the mountain. Lu Yang’s Jagged Brothers came to inquire about the situation. Manding sent people to kill these people. Obviously more than 500 dark demons were dispatched, but during the battle between the two sides, the humans on the Luyang side used bows and arrows to shoot, and these dark demons were shot through.”

Xue Renyi frowned and asked, “Isn’t the dark demon’s body very self-healing? How could he die after shooting with a bow and arrow back?”

Wang Shijie stared at Xue Renyi and asked: “The arrow is poisonous, don’t you know?”

Xue Renyi blinked and said, "I don't know, I ran out of prison in a suspended animation. All the information I knew was obtained from other people in the prison."

Wang Shijie stared at Xue Renyi, and he wanted to know if Xue Renyi lied, but he used magic to probe Xue Renyi's brain waves and did not detect any problems. This can prove that Xue Renyi did not lie. , But he really didn't know.

This is also true. When Xue Renyi ran out of the dungeon, he did not know about the Hydra Emperor. Most people in the dungeon, including the majority of the people in the dungeon, only knew that the Jagged Brothers had caught a big snake and returned. The specific situation It's also not clear.

"Enough, humans, please leave here. We dark demons are going to hold a hero's funeral, and foreigners are not qualified to participate." Manding suddenly roared at Wang Shijie and the others.

Wang Shijie remained silent and took Tao Ran and Xue Renyi and they left. On the way, all the Dark Demons looked at them as if they were enemies, roaring at them, wishing to eat them, and the scared Xue Renyi kept evading.

After leaving the Tianjian Valley, Wang Shijie stopped in a newly-built residential area and said, "Everyone, let's rest."

After speaking, Wang Shijie entered the house without looking back. Tao Ran and the others went back to their rooms to rest. On the other side, in the conference room of the Jagged Brotherhood in Dong'an County, it was a different scene. .

## Chapter 2119 - The Battle of Returning to Yanshan (1)

Latest website: Lu Yang excitedly looked at the turbid wine and the white lion in front of him. On the table in front of him, it was an arrow coated with snake venom.

“Today’s battle proved that only the arrows are covered with venom, and the dark demons can still be poisoned if they are shot. In this case, we will have the first decisive battle tomorrow.” Lu Yang said, patting the table.

Zhuojiu, White Lion, Xia Yuwei, Kuai Bansheng, Zhou Tianming and others nodded vigorously. Today they each led 100 people to lure the Dark Demon to fight on the outskirts of Qianfeng Mountain. Sure enough, the Dark Demon was fooled.

In battle, any bow and arrow or long sword coated with Hydra’s venom will cause the Dark Demon to instantly lose its combat power. This venom will destroy the Dark Demon’s body very violently.

Bao Buping asked: “How to fight tomorrow, we are willing to take the lead.”

“I am willing too.” Zhao Cheng said.

The white lion said excitedly: “The pioneers have always been the work of my three heroes of the Bai family, and no one should grab it.”

Zhuojiu shook his head and said, “Not this time, I have to do it this time.”

Zhou Tianming was anxious and said: “On the bravery, our Zhou family brothers have never lost.”

Xia Yuwei said: “I have the most talents, so I should be the main force.”

For half a life of bitter love, he was even more anxious, and said: “What do women mix with? I’ll come, I’ll make a way for the Legion.”

...

The generals of the Jagged Brotherhood all fought. At first, Bao Buping and Zhao Cheng said that it was they who recognized the Jagged Brotherhood and wanted to join the team as soon as possible. Robbing made the two of them almost burst into tears.

The first battle is to die, and the White Lion takes the lead because he wants to fight the hardest battle for others. The dirty wine is the first because he thinks he is the most stable and calm in the team and should be the first.

Zhou Tianming has been dedicated to the Jagged Brotherhood all his life, so naturally he will not fall behind, and Xia Yuwei will not let her beard and never want to hide behind them and be protected.

Love for half a lifetime relies on the wizard with a sword, and wants to take on this important task for other brothers. It can be said that the unity of the Jagged Brotherhood is beyond Bao Buping and Zhao Cheng's imagination, and his heart is more willing to integrate into them.

Lu Yang also had tears in his eyes at this time, watching the scrambled Zhuojiu, White Lion and others, and said: "Tomorrow you don't have to fight. For this first battle, I, the chairman of the Iron-Blood Alliance, must go to the battle in person. , I'll take the lead, you all follow behind me."

"No." Zhuojiu, Baishi and others said in unison.

Lu Yang shook his head, stopped their words, and said, "I have decided on this matter. No one can change it. With Hong Ye and Xiao Hua guarding me, no one can kill me, let alone Wan Zhonghui. And Liu Ruohuai will follow me closely, and I will be fine."

"Yes..." Zhuojiu looked worried.

Lu Yang said: "I know you are afraid that something will happen to me, which will have an impact on the Jagged Brotherhood, but brothers, we can't afford to lose. In this battle, we will not kill the Dark Demon Race and the Flower Demon Race, the gods of another world in the future. After the envoy comes, it is a disaster for us. Therefore, this battle is a desperate battle. If we lose, everything is gone. If we win, we have the hope of living. No one can be spared. People can back up, now listen to my orders."

“Yes.” Both Zhuojiu and White Lion had their fighting spirit with tears in their eyes. They knew that they might all die in this battle, but they couldn’t back down.

The next morning, when the sky was just getting dark, the low horn suddenly sounded.

“Woo~~~~!”

“Woo~~~~!”

“Woo~~~~!”

...

This is the bugle of the Jagged Brothers League. When the trumpet sounded, 20,000 Jagged Brothers soldiers quickly got up to tidy up. After half an hour, 20,000 people gathered in the open space outside Dong’an County.

Lu Yang stood on a large rock and looked at the 20,000 people below. Among these people, many of them had such immature faces. They looked like they were only 18 or 9 years old. Before the world changed, they still went to school. At his age, but now he has to go to the battlefield.

“Brothers.” Lu Yang’s voice was extremely loud. He looked down at his men, and said loudly, “Today, I will take you to fight the Dark Demon officially. Are you afraid?”

“Don’t be afraid~!” 20,000 people replied loudly, coming out of the Donghai Underground City and stationing in Dong’an County. They knew they were going to fight the Dark Demon this time, and everyone was mentally prepared.

A smile appeared on Lu Yang’s face, and he said calmly, “Before, I sneered at a sentence, do you know what it is?”

The 20,000 people below shook their heads. They were really curious about what they had to say to Lu Yang.

Lu Yang smiled and said: "That sentence is that people are inherently dead, or lighter than a feather, or heavier than Mount Tai. I used to think this was too boring. Apart from money, what else in this world is worth our dedication?"

More than 20,000 people burst into laughter.

Lu Yang also laughed, and then said: "But since the world has changed, I have watched the destruction of Donghai City, watched the hundreds of thousands of people in Dong'an County being eaten by the Dark Demon, and watched the number of people who did not escape from the old city of Donghai. Unclear corpses, I told myself that everyone is responsible for the rise and fall of the world.

I can't watch the 3 million people killed in Donghai Underground City, and I can't watch my relatives and friends, my brothers have another accident. For them, I have to take the responsibility and move forward.

I am very happy that I am not alone anymore. I have you, and you will accompany me to move forward. Now, we can tell the dark demons hidden in Qianfeng Mountain that they want to destroy the dungeon unless they step on it. Our corpses passed, otherwise, they would never be allowed to approach the dungeon. "

The eyes of 20,000 people have become red, and Zhuojiu and Baishi have brought in a large amount of white wine, each one has a bowl.

After filling everyone up, Lu Yang took the lead in raising the wine bowl and saying loudly: "In this battle, some will die and some will survive. Don't worry about the dead brothers. We will all go there soon. I accompany you underground, for our race, I have done this bowl of wine, fight with the enemy, war~!"

"War~!" 20,000 people drank the liquor at the same time, breaking the wine bowl like Lu Yang.

Lu Yang commanded loudly: "The target belongs to Yanshan, go forward~!"

“First Legion, go forward~!” Zhuojiu shouted loudly, leading the first two thousand group, out of the Dong’an County area, and walked towards Guiyan Mountain.

“Second Legion, go forward~!” Followed by the Second Legion led by the White Lion.

The third army led by Xia Yuwei and the fourth army led by Zhou Tianming, the others led the army to follow the team in turn, the entire team of 20,000 people became a long dragon with 10 rows horizontally.

The weather at this time was already late autumn, and the weather was slightly cool, and the warriors of the Jagged Brotherhood were holding animal bone shields, snake bone swords and snake bone spears in their hands.

When the team moved forward, it looked so majestic, and in the distant Qianfeng Mountain, the dark demons had just fallen asleep. They liked the night and didn’t like the sun.

The remaining sentry could not adapt to the strong sunlight. They could only hide in the forest of Maolin and look outside. At 10 am, when the members of the Jagged Brotherhood arrived at the foot of Qianfeng Mountain, the sentry of the Dark Demon Only then discovered the 20,000 army of the Jagged Brotherhood.

## Chapter 2120 - The Battle of Returning to Yanshan (2)

The latest website: “Boom~Boom~Boom~Boom~!” The harsh beast bone percussion sounded through the valley, and all the dark demons in the valley of Yanshan Mountain were awakened.

Lorraine was the closest to the top of Guiyan Mountain. He was lying in the shade of a tree. He opened his scarlet eyes when he heard the drums. He jumped up and looked at the direction of the mountainside where the drums came from. He was in the shadows. After jumping for the second time, I

came to the checkpoint where the drum was beating and looked down. I saw that Lu Yang led 20,000 people to the entrance of the valley, suddenly showing a furious look, and flew the dark demon around him with a punch.

As the first line of defense for the entire Dark Demon race, the role of Lorraine's 30,000 people is extremely important, not only to keep an eye on the situation in Dong'an County, but also to be responsible for defeating the sentry sent by the Jagged Brotherhood at any time.

But the dark demon in charge of the guard at the checkpoint realized that this was no ordinary negligence when the enemy came to the foot of the mountain. He stared at the beaten dark demon in anger, and said with a grim expression: "You \*\*\*\* it, it's missing now. Soldier, I will not kill you. Go to the front line. You are the first to attack the enemy."

This dark demon who is in charge of vigilance also feels wronged. Before, the Jagged Brotherhood sent people over when the sun was the strongest at noon, but today it was ahead of schedule.

Another, the 20,000 people of the Jagged Brothers came from hiding in the mountains on foot. In the battle yesterday afternoon, Mandin was afraid that the Jagged Brothers would release a cold arrow again, so he removed all the guard checkpoints near the valley.

It's just that there is such a checkpoint in the middle of the mountain, but no matter how good his eyes are, he can't see through the forest. The Jagged Brothers marched through the dense forest when the sky was bright, and he couldn't find it at all.

Now that he was punched, he was more aggrieved than anyone else, but he didn't dare to resist Lorraine, roared at the opponent, and ran down the mountainside quickly.

Lorraine stared at the situation down the mountain. He knew that his 30,000 dark demons, although there were more people than the Jagged Brothers, but the Jagged Crossbows had the kind of poisonous crossbows. If you really had to fight hard, his 30,000 can not beat the 20,000 of the Jagged Brothers League.

He now hopes that the black war eagle he has summoned can quickly transmit the information to Mandin so that he can send a large force to support it.

“Damn it, if you cooperate with the Flower Demon and fight hard with the Iron-Blood Brotherhood, why bother nestling in Qianfeng Mountain, the initiative is in the hands of the Iron-Blood Brotherhood.” Lorraine secretly cursed.

Unfortunately, this is an afterthought. There was also Lorraine who was unwilling to cooperate with the Flower Demon. The hatred of the race made the dark creatures naturally hate the vibrant plant creatures.

Lorraine and the others thought that the Iron-Blood Brotherhood did not fully attack the Flower Demons, nor would they attack the Dark Demons, so they wanted to develop in the county seat of Dong’an County with peace of mind and continue to grow their race, so that they could survive in this world better.

But Lu Yang suddenly put on a decisive battle posture, they were forced to hide inside Qianfeng Mountain, but Qianfeng Mountain was not a good place to live for races.

There is no water source here that can be used by 100,000 people. The army is divided into three parts to meet the needs of the water source. This caused the other two teams to be five or six hours away from them.

Lorraine also had his own thoughts. He didn’t want his men to die in large numbers, but now it was too late to escape. Besides, Manding didn’t allow him to escape because they were the first line of defense of the Dark Demon.

“Everyone is ready to fight.” Lorraine’s roar lingered in the valley, and at the same time, he personally sounded the drum of war.

But at this moment, a black shadow flashed across the sky, and Hong Ye’s huge body quickly caught up with the black war eagle, and the black war eagle was completely burnt to ashes with a breath of dragon.

The drum of war in Lorraine’s hand stagnated, and he looked at all this blankly, because he couldn’t understand how Lu Yang would know that the war eagle could deliver news. The next moment, his feeling was that Xue Renyi was a traitor.

“Sentinel, quickly ran to Tianjian Valley and reported to Patriarch Manding that humans launched a full-scale attack on me and urgently needed support. At the same time, told Patriarch Manding that Xue Renyi was a traitor.” Lorraine roared with clenched fists.

The three sentries turned around and ran, swiftly shuttled between the trees, while Lorraine continued to beat the bones of the beast, sounding endlessly.

The 30,000 Dark Demons resting in the shade of the valley quickly formed a team. Just when they all finished the team, when they came to Taniguchi, Lu Yang had personally ran here with 20,000 members of the Jagged Brotherhood.

The mouth of the Guiyan Valley is a relatively flat grassland area with a width of more than 200 meters, with gentle slopes on both sides, a small number of low pine trees, and grasses 30 cm high on the ground.

Lorraine personally brought the Dark Demon to Taniguchi. Facing the blazing sun, all the Dark Demon felt uncomfortable. Seeing the oncoming Jagged Brotherhood, he roared, “Prepare to fight.”

The weapon of the Dark Demon is the bone spurs on the arm, and there is no armor on it, because when they came, only a few Dark Demon such as Mandin and Lorraine were parasitized mainly relying on the parasites split from their bodies.

Strictly speaking, Mandin, Lorraine and others are all females, but the dark demons, regardless of male and female, can split parasites from their bodies and penetrate into humans, and become dark demons after swallowing human flesh and blood.

Because their weapon is the arm, they are also regarded as one of the ten weakest races under the alien gods, and they are good at stealth and sneak attacks.

Entering the human world, their task is also to lurk in the human body, to find more information about humans for another world. but the weakness of humans, makes the dark demons have other ideas, and then there is massacre. Dong’an County, as well as Zilishantou, did not listen to other Wang Shijie’s orders on the grounds of collecting intelligence.

Without the appearance of Lu Yang and the Iron-Blooded Brotherhood, the Dark Demon would become the largest race in the human world without natural enemies, even larger than the group of Flower Demon. It is a pity that Lu Yang brought the Iron-Blooded Brothers. The alliance came and brought the venom to restrain them.

Now the two sides are facing each other. One of the Jagged Brothers is holding a large shield of beast bones, a snake bone sword is hung around his waist, and a snake bone bow is in his hands. Moreover, the members of the Jagged Brothers are mainly Tier 2 and their single strength is stronger than the dark demon race, in this case, the dark demon is at an absolute disadvantage.

Lorraine didn't realize this. Now he was in a rage, staring at Lu Yang and roared: "Humans, you will all die here today."

"Roar~!" Countless dark demons roared at the human side.

Lu Yang stood at the forefront of the team. He looked at the Jagged Brothers warriors holding large shields and longbows behind him. Everyone had firmness and calmness on their faces, and no one showed a cowardly look, which made him. A smile appeared at the corner of his mouth, and he knew that the decisive battle could begin.
