

Chapter 2181: Easy assassination

If he was stabbed, Pan Yuhang would definitely be killed on the spot. Lu Yang was about to rescue him, but Pan Yuhang reacted extremely fast. He stepped back and dodged in an instant. The hammer in his hand slid towards the parasitic demon.

The parasitic demon didn't dare to resist the hammer's attack, but he didn't step back to avoid it. Instead, he hid sideways to Pan Yuhang's left side. The spikes on his arm showed a blood-red light, which pierced Pan Yuhang's arm.

This is the trick of the parasitic demon-parasitism. Once the skin is pierced, the red light will infect Pan Yuhang's whole body. If the strength is only one level, he will fall into a coma within a few minutes, and then reach the parasitic unconscious state, the parasitic demon. At this time, the flesh and blood of the whole body can be transformed into an essence ball with a diameter of only 5 cm, which can be drilled into Pan Yuhang's body to replace Pan Yuhang's brain.

Pan Yuhang had never seen a parasitic demon before, but he also knew that he must not be stabbed by red light. As a last resort, he discarded the hammer in his hand and while dodged sideways, he pulled out a dagger from his back with his right hand and cut it accurately. The arm of the parasitic demon.

“噗”

The parasitic demon's arm was severed in response, and a piercing roar came from the parasitic demon's mouth. The parasitic demon whose arm was chopped off went backwards four steps in a row. After pulling the distance from Pan Yuhang, he looked at the opponent in horror. .

“Wang Han, do you plan to take action when I die? Don't kill him yet.” The parasitic demon roared.

Wang Han, who had been standing not far away, smiled at the corner of his mouth and said, “Sorry, I'm accumulating strength. You know, we have to catch him while not damaging his skin, so that your parasites are meaningful. ,right.”

Pan Yuhang only understood at this time, and shouted at Wang Han excitedly: “How can you betray your brother, you are a human being.”

A large amount of ice-cold breath already appeared in Wang Han's hand. At the same time, an ice elf kept surrounding him, watching Pan Yuhang's angry look when he was betrayed, he was even more proud, and said with a smile: “Sorry , You have never been my brother, my name is Wang Han, one of the twelve priests of the temple, and the chosen son of His Royal Highness Trolas, the king of water and ice.”

“You, are you from the temple?” Pan Yuhang then knew the true identity of the person in front of him, but only then did he know that it was too late.

“Ice Dragon-All Things Frozen”

Wang Han suddenly roared, and pointed his hands forward. The ice in his hand suddenly spun crazily, and finally condensed into a ferocious ice dragon head, which shot towards Pan Yuhang.

How could Pan Yuhang dare to take such an attack and could only run desperately towards the door, but the ice dragon was extremely fast. As soon as Pan Yuhang ran to the door, the ice dragon had already arrived behind him. If he chose to open the door, he would definitely be iced. The dragon hits.

You can break through the door but you can't do it. This door is very thick, far from what Pan Yuhang can blow with a single punch. As a last resort, Pan Yuhang is worth turning around and fleeing to the right, looking for a place to hide along the wall.

The dragon head of the ice dragon closely followed Pan Yuhang, and the ice in Wang Han's hands continued to form, all of which became the body of the ice dragon.

In the blink of an eye, Pan Yuhang ran out for more than 100 meters, and the ice dragon's body was more than 100 meters long. The most frightening thing was that wherever the ice dragon passed, a two-centimeter thick layer of cold formed on the walls and the ground. ice.

Pan Yuhang ran with all his strength, relying on disguise to slightly distance himself from the ice dragon. As long as he ran a straight line, the ice dragon could chase behind him in the blink of an eye, causing Pan Yuhang to dare not stop at all, and his physical strength was drastically exhausted.

The parasitic demon looked at Pan Yuhang's miserable situation with a grinning smile, and said while covering his arms: "Don't struggle anymore, God will rule this world, and you will eventually be destroyed."

"No, mankind will not be destroyed." Although Pan Yuhang was very embarrassed, his tone was very firm.

The parasitic demon gave a grinning laugh, rushed towards Pan Yuhang, and said: "You are the beginning of the demise of mankind, Wang Han, cooperate with me in the attack."

"Okay." Wang Han sneered at the corner of his mouth. He firmly believed that God would rule the world. He didn't believe that humans could resist, because the opponent was a God.

In the next second, Wang Han suddenly felt cold in his neck, and the huge magical energy in his body was quickly lost. The ice dragon he released instantly collapsed and fell to the ground, turning into a pile of debris.

Wang Han looked back in confusion. He found a headless corpse standing there behind him. The corpse was so familiar, and the people around him were also familiar, like Lu Yang. After that, Wang Han lost consciousness forever. .

Lu Yang put away his dagger and looked into the distance. At this time, Pan Yuhang had been forced to a blind spot by the parasitic demon. Without Lu Yang's attack, Pan Yuhang would be frozen into ice, and the parasitic demon could parasitize instantly.

“You are dead.” The spikes that the parasitic demon's arms turned into are desperately piercing Pan Yuhang's skin.

Pan Yuhang resisted with difficulty with a dagger. At this time, he couldn't even commit suicide. Just as he was very regretful, suddenly Pan Yuhang opened his eyes in shock because he heard a voice that was too familiar to him. .

“Pollow Blast”

A huge fireball suddenly shot over from the side, in the middle of the parasite who was fighting him desperately, Pan Yuhang only felt a high temperature hit, the power in his hand loosened, and quickly retreated. When he looked back, he found the ice dragon. It was broken, and looking at where the sound came from, Lu Yang was walking towards him from the side.

“Boss~!” Pan Yuhang said in surprise. Lu Yang smiled and walked up to him and said, “It’s okay.”

“I’m fine, you, are you still in the East China Sea? When did you come?” Pan Yuhang was full of excitement.

Lu Yang said with a smile: “I came on the day of the Chinese New Year, catching up with you out of the city to attack and kill the spiked demon. I did a good job and learned how I used the hammer in the East China Sea.”

“Hey, they are all from the old university.” Pan Yuhang said.

Lu Yang laughed and said, “That is the day when Wang Han sneaked into your team, your vigilance was too low, and he was not strictly audited.”

Pan Yuhang scratched his head and said, "Boss, I was wrong."

Lu Yang nodded in satisfaction, and asked, "Would you like to return to the Jagged Brotherhood? This time it is not simply to come back, but to live and die with us."

"I am willing." Pan Yuhang stood at attention and replied in a solemn voice.

"That's right." Lu Yang patted him on the shoulder and said, "Come back with me, I'll tell you Wang Han's secret, and what you need to do next."

When leaving the factory and returning to the temporary residence, Lu Yang told Pan Yuhang of Wang Han and the temple's plans, saying: "Tonight you go to inform the senior staff and let them prepare for the decisive battle last night and tomorrow. Control the enemy and kill the members of these hundreds of temples."

"Yes." Pan Yuhang said in a low voice.

Chapter 2182: Operation Dark Night of the Jagged Brothers

Lu Yang gave Pan Yuhang a communicator, which was the most lacking material in Feng City, and said, "Don't tell them I'm here. I know there are two other parasites. They should be hidden in the upper floors. Be careful."

Pan Yuhang solemnly said: "Boss rest assured, after this incident, I am mentally prepared. This kind of thing will never happen again."

"I believe you, I will go back to move the rescuers, and hold on until tomorrow afternoon, and wait for my news." Lu Yang patted his shoulder and said.

Pan Yuhang nodded, and as Lu Yang left the factory together, the two moved separately. Pan Yuhang ran to the high-rise office building with the body of the parasite demon.

Lu Yang took out the bone scepter and ran outside the city invisibly. Under the cover of night, he summoned the red night and flew towards the southwest of Feng City.

Yesterday during the day, Zhuojiu, Baishi and others returned to Yingshi in the I8 area with more than 10,000 people, and began a new round of raids on Yingshi.

In fifteen days, the monsters in the I3 area did not recover too much. Tier 3 and Tier 2 were almost killed before, only a few of them were not found. This time the sweep, one day's time it was cleaned up.

In the afternoon, Zhuojiu, White Lion and others saw nothing to gain. They took the team to the I3 area by train. With the star steel sword in their hands, by this evening, the third and second-order beasts in the I3 area have been it's almost time to kill.

Lu Yang learned about Wang Han's plan yesterday, so he asked Zhuojiu and the others to set off from the I3 area to Fengshi. 12,000 people riding on the fire lion, lightly dressed, and went straight to Sanjiacun along the 202 National Road.

From Sanjia Village, turn to the 102 National Highway, and ran westward to Majia Village on the Jingha Expressway, and then ran north towards Fengshi.

The reason why he didn't directly enter Xiangping at No. 11 between Anshi and Fengshi was because Lu Yang felt from Bagley's words that there were still uncleared temple spies in the Donghai Underground City. Otherwise, the temple could not be possible. Knowing that Lu Yang was building fortifications.

If Lu Yang invades the area where Xiangping is located, a large amount of supplies will definitely appear. Whether it is transported back or not, the spies may know that if there is a member of the temple in the area where the I11 is watching and you see Lu Yang's The Jagged Brotherhood came here in advance, and it would even end this operation and go into hiding instead.

Lu Yang didn't want such a thing to happen. In order to be able to wipe out this enemy, he would rather allow the team to run a distance of 50 kilometers, but this distance is only an hour and a half for the fire lion at the top of the first order. It also counts the time to kill the enchanted creature in the way.

The fire lion can't keep running for a long time. They have to rest for an hour every two hours they run. Now, Zhuojiu, the White Lion and others have taken the fire lion army to the white birch forest only 150 kilometers away from Feng City.

Under the dark night, Zhuojiu and others were holding the luminous gems seized from Sigma, and led the team on the path in the forest. 50 fire lions lined up in a row, and more than 10,000 people lined up. More than 200 rows.

The gemstone lighting distance is 50 meters, and the members walking on both sides have one person holding the gemstone every 30 meters, illuminating the surroundings.

Many demonized beasts are hiding in the surrounding grass, staring at the team of the Jagged Brotherhood, but none of the monsters dare to step forward, whether it is the number of the army, their strength, or the sharp weapons in their hands. , So that the demonized beasts dare not act and can only watch them leave.

Zhuojiu stared at his surroundings with a serious expression, while maintaining absolute vigilance. He already knew from Lu Yang that there might be spies inside. Therefore, he kept everyone silent and did not allow anyone to turn on the intercom. The one in his hand can still be used, but he doesn't answer anyone's calls except Lu Yang's.

“Dididi”

The communicator made a crisp sound in the quiet night, which surprised all the members on the way.

Zhuojiu looked at the name display on the intercom and found that it was Lu Yang. He quickly pressed the access button and said, “Boss, I’m still 150 kilometers away from Feng City. I can arrive early tomorrow morning.”

Lu Yang is controlling Red Night to fly in the air. He has already reached the sky above the birch forest and said with a smile: “I am above your head. The team continues to advance slowly. I will warn you in the air.”

This action was too sudden, and Lu Yang was afraid of a sudden situation, so he needed to sit down in person.

Zhuojiu glanced at the sky, a big rock in his heart was put down, and he smiled and said, "Okay boss, let's speed up."

Bai Shi, Zhou Tianming and others looked at Zhuojiu with questioning eyes. Zhuojiu smiled and pointed to the sky, and said: "The boss is already above our heads. Everyone accelerates forward and arrives in the suburbs of Fengshi to rest as soon as possible."

"Yeah." Everyone let go of the big rock in their hearts, and they all gave orders in a relaxed manner.

The speed of the entire Jagged Brotherhood suddenly increased, and the fire lion accelerated along the straight road for two hours, and finally arrived within the bounds of Feng City.

In an abandoned village, Lu Yang confirmed in advance that there were no other world creatures and members of the temple in and around the village. He said to Zhuojiu on the phone: "Bring the team into the village and rest, Two hours after com, we continue to set off."

This time Lu Yang had two missions, one was to kill the members of the temple, and the other was to kill the harpy. When talking with Bagley before, Bagley gave the specific resting place of the harpy. It was in the temple. The hidden mountain is not far away from another big mountain, in a cave named Fengshan.

About 5,000 harpies, although there are sub-zero temperatures in the area where they live in another world, they have not reached minus 40 degrees. Under such a temperature, even with magical energy protection, they cannot fight for too long.

When not in battle, all the harpies were hidden in a cave on the mountainside of Fengshan. The area inside the cave was originally not very large. Later, the harpies used powerful wind spells to enlarge the cave. A huge space that can accommodate five thousand people to rest.

The people in Feng City don't know this place, and even if they know it, they can't get there. The cave is on the back of the mountain, and no weapons can blow it. Moreover, within two kilometers of the cave, there are harpy checkpoints.

Normally, the Harpy never need to worry about the Fengshi people coming out to attack them, because if there are their people inside Fengshi, they will be found out when they come out, and again, there are no second-tier masters in Fengshi. , Every harpy is a Tier 2 existence, and can't beat them even if it comes out.

But they didn't count it. Lu Yang would secretly bring the main force of the Jagged Brotherhood to trouble them, and they didn't even think that Lu Yang would know where they were hiding.

Chapter 2183: Fengshan Ambush

Two hours later.

Lu Yang led more than 10,000 people from the Jagged Brotherhood towards Fengshan. When the time came to five o'clock in the morning, the team passed through a dense forest and came to the foot of a big mountain.

Although it is early morning, at this time of winter, the surrounding area is still pitch black. Only the dim light of the moon in the sky can see the outline of a big mountain in front of me.

Lu Yang looked at Han Fei beside him, and said, "Find their checkpoints and kill them."

“Yeah.” Han Fei was followed by 20 thin soldiers, all of them were killers trained by Han Zhong to defend Lu Yang.

Their power is far inferior to the turbid wine and the white lion, but their speed is extremely fast, and their best weapon is the dagger.

In order to make their assassination at night more successful, each of them used the capital of the dagger made of star steel, and they also had six flying knives made of star steel, which was very luxurious.

More importantly, they also have military supplies that have just been shipped from the Imperial Capital, infrared night vision devices and thermal scanners.

Although the harpy are creatures of another world, they are also flesh and blood creatures. Therefore, they have body temperature. In this severe cold weather, their bodies can be easily identified on the thermal scanner.

...

On the other side, near the cave half way up the mountain, the hawks set up a total of eight checkpoints, corresponding to eight directions. In each checkpoint, there are 2 hawks looking around, but now these hawks are not careful. Observing the surroundings, but the whole person left the checkpoint position and hid behind the leeward stone to sleep.

Days of war have made the Harpy very tired. Another, they have been in this world for almost a year, and humans have never counterattacked out of the Fengshi area.

In the first month or two of coming to this world, the hawks will still worry about the human counterattack and insist on patrolling earnestly every day, but for almost a year, humans dare not leave the protection circle of Fengshi at all. Therefore, the patrol here is early. It became a decoration.

When Han Fei brought a person to touch him, he looked at the harpy who was lying on the ground covered with dead branches with his wings behind his back, sleeping like a dead harpy and snoring like thunder. He scratched his head. The purple star steel dagger instantly swiped down, the eagle's head rolled to the ground, the snoring disappeared, and the eagle hadn't responded yet.

"The next place." Han Fei made a gesture, leading his hands down and following the snoring to find the next target, and at the same time reported the situation on the mountain.

Lu Yang saw the news from Han Fei on the intercom on his arm, and smiled at the corner of his mouth. After waiting for an hour, Han Fei returned news. All the outposts in the middle of the mountain were cleared, and he had arrived with the team. The hole where the harpy hid.

“Follow me up the mountain, and the whole army will move quickly.” Lu Yang lowered his voice and issued an order. The first one ran along the mountain road towards the cave halfway up the mountain.

Zhuojiu, Baishi and others were already prepared. All the staff quickly followed Lu Yang, and the five ran towards the top of the mountain in a row.

The mountain road is narrow, and normally can only accommodate two people walking side by side. The soldiers of the Jagged Brotherhood don't need to worry about being discovered by the enemy's guard tower at this time. They climb and jump directly on the cliff, and hit the trees with rustling noise. .

Fengshan Mountain is only 800 meters high, and it is 400 meters high halfway up the mountain. For the soldiers of the Jagged Brotherhood, it only took 10 minutes to arrive.

This cave hidden on the back of the mountain is very large, about 10 meters in diameter, and can accommodate six hawks flying in at the same time.

There is a relatively flat platform in front of the cave, which can accommodate 20 people standing on it at the same time, and the upper and lower roads connecting the cave are only 3 meters wide. If the

first-order masters of Fengshi come, they will not be able to form a large-scale cave. Surrounded by, it can be seen that the harpy also worked hard when looking for the cave, not looking for it casually.

It's a pity that they didn't expect the Jagged Brotherhood to come, and the second-tier Jagged Brotherhood members didn't need to block the door.

“Ice Condensation”

200 ice mages chanted spells under the leadership of the lovely queen, and ice and snow fell instantly around the cave. In just 10 seconds, an ice and snow platform with a width of 5 meters and a length of 100 meters appeared at the top 10 meters of the cave.

This ice and snow platform is not just one side next to the wall. Every 10 meters, there is a half-meter thick icicle extending below the ice and snow platform to connect with the mountain or mountain road. The entire platform is extremely stable.

Lu Yang waved his right hand, and 4,000 archers jumped onto the platform, bowed their bows and aimed their arrows at the cave entrance.

At this time, the time is almost seven o'clock, the sky is twilight, and the white sun gradually rises on the distant horizon.

Inside the cave.

The harpy clan also began to wake up. Patriarch Harvey was the first to wake up. Sitting in the place closest to the entrance of the cave, he felt the wave of ice spells just now, which made him frown, but he just released it. The spell of is obviously a high-level spell, it will not be released by the people in Fengshi, another one, there are 8 checkpoints outside, there are really enemies approaching, the checkpoint should have come back to report long ago.

Thinking of this, Harvey guessed that the people who came to the temple might be people from the temple. Their relationship with the temple is not very good. One is a human being, and the other is a different world race that looks down on them. Now humans command them in the name of a god. It is annoying, so human beings are cautious every time they come, for fear of offending him.

“Isn’t it because there is action tonight? I have said that I will watch the signal action at night, and now I have to report it again. Humans are really troublesome.” Harvey sneered contemptuously, looked at a guard next to him, and said: Go out and see if someone from the temple has arrived. Besides, take over the guard post outside.”

“Yes.” The 12 hawks were divided into two teams. With a strong kick on their legs, they jumped straight toward the entrance of the hole. Normally, when they jumped out of the hole, they could spread their wings and fly.

Harvey also watched them, but these people just came out of the cave, and in an instant, countless bows and arrows fell on them like rain.

“撲”

“撲”

“撲”

...

The first six hawks were shot into hedgehogs instantly, with the powerful penetrating power of their bows and arrows, and they even nailed them to the ground.

All the bows and arrows shot by the archer are made of the spikes on the third-order steel hedgehog. This spike is not steel, but a sharper bone spur, plus the powerful arm strength of the second-order archer, even if it is a hawk. The skin can't hold it.

The second group of harpies jumped out following the first group. The distance between the two was less than 10 meters. When the first group of harpies were shot to death, the second group of harpies even saw it. Unable to react, they stretched out in the air, wanted to stop, and opened their wings, they couldn't reduce their speed quickly, because they tried too hard when they took off.

Just when they were about to fly out of the cave, Harvey roared, and the powerful wind spell was released, forcibly controlling the second batch of six hawks in the air, and then pulling them back to his side.

The six harpy were in shock, and Harvey looked at the six men shot to death at the entrance of the cave in fright. He ran to the entrance of the cave quickly, and shouted: "Who is it? Who ambushed with despicable means outside, Give your name, I will kill you~!"

At the entrance of the cave, Lu Yang sneered and said in a calm tone: "Iron Brothers, Lu Yang~!"

The patriarch of the Harpy stood blankly on the spot.

Chapter 2184: Surrender the harpy

From entering the human world to the present, the name of the different world races in the northeastern region that has been heard most from the temple is Lu Yang.

“Lu Yang wiped out a hundred thousand dark demons in the East China Sea.”

“Lu Yang killed a hundred thousand flower demon army in the East China Sea.”

“Lu Yang killed the patriarch of the fire demon clan with ice in the East China Sea, and enslaved countless fire demon.”

“Lu Yang killed all the second and third-order monsters in the old city of East China Sea and the old city of Yingshi, and may enter Fengshi at any time.”

...

For the hawks, every news can make them feel the strength of Lu Yang and the Jagged Brotherhood, but Harvey did not take Lu Yang too seriously, because they are hawks, and they can have wings. Flying in the sky, not afraid of humans running on the ground.

Furthermore, the temple is also monitoring the actions of Lu Yang and the Jagged Brothers at all times, and there is no news to inform the Jagged Brothers to go to Fengshi. You know, the news from the temple is that Lu Yanggang brought people back to the camp in the l8 area. City, but how did they arrive in Fengshi in one night and surround him here?

The place where they are located is extremely secretive, only the people in the temple know, the only possibility is that there is Lu Yang's spy in the temple.

Thinking of this, Harvey was already terrified. He couldn't imagine that he had seen such a powerful force as a foreign world god. Why would human beings resist, especially the people guarding the entrance of the cave.

Harvey couldn't help but roared: "Lu Yang, I'm Harvey Chief Harvey, what do you want to do? Do you think you can kill us if you block the entrance? I advise you to surrender earlier, and I will let the gods right. You are lenient."

Lu Yang was happy when he heard these words at the door. He smiled and glanced at the brothers, such as Bai Shi and Zhou Tianming, who also showed mocking expressions. He pressed his body against the side wall of the cave entrance and shouted into it, "Harvey, right? , Are you crazy? I blocked the entrance of the cave, do you think you came out? I now give you two choices, either all the tribesmen are trapped in the cave by me, or become our iron-blooded brotherhood Slave, sign a slave contract with me."

Harvey's bird's face turned blue and purple in an instant, and both eagle eyes were rounded, and he roared: "Human, you are humiliating me. We are noble eagles. No one can enslave us."

Lu Yang sneered and said, "Okay, then you can try to get out, and see if you can resist hunger, or if we can resist the cold."

Even if the sun comes out, the temperature is below minus 30 degrees. All the Jagged Brothers warriors are wearing tiger and lion fur coats, and they are wearing bearskin shoes under their feet. This way they can keep their body temperature, but the face is still I can feel the cold, and over time, my body temperature will gradually lose.

But the Jagged Brotherhood has one advantage. Everyone has a bite of hot rice. The fire mage can cook anytime and anywhere, and deliver the hot enchanted wild pork to everyone's hands.

But the hawks in the cave are dumbfounded. They have nothing to eat. Although they can be protected from the cold wind in the cave, they can only resist eating for two days. After two days, they will lose. Resistance.

Harvey began to ponder, but at this moment, a large amount of smoke suddenly appeared at the entrance of the cave and poured into the entrance of the cave.

“Patriarch, the enemy has released smoke.” Harpy vanguard Bocas said loudly.

Harvey snorted coldly, and said, “We are the mage of the wind system, so we used smoke to blow all the smoke back.”

“Hurricane”

“Hurricane”

“Hurricane”

...

More than a dozen hawks opened their mouths at the same time at the entrance of the cave. The spell of the wind system was formed in their mouths. In a blink of an eye, a powerful storm formed, blowing all the smoke out of the cave, and even the bark that formed the smoke was covered. It was blown away, and the smoke that was blown out even blackened his brother who was standing on the top of the cave.

“This trick won’t work.” Lu Yang scratched his head.

Zhuo Jiu, Bai Shi and others were a little bit ridiculous. They did not expect that their boss would also miscalculate. Although the brothers standing on the cave were blackened, they laughed at the same time. They all felt that their boss was also very funny. Yes, this kind of trick can still be used at this time.

Lu Yang said, “Do you want to throw a fireball in?”

He threw a Pyroblast technique into the cave, but before it exploded, he was blown out. Lu Yang didn’t give up, and asked the White Lion to move a huge boulder over, blocking the doorway to kill the eagle inside. People, forcing them to surrender.

But the huge boulder didn't stop for a second, it was cut into broken stones by the wind blade punched out of the cave.

Lu Yang let the lovely queen gradually infiltrate with the ice, but the hurricane still blew the ice and snow, unable to send the cold to the cave.

"These harpy people still sound awkward." Lu Yang frowned.

Xia Yuwei asked: "Boss, why do you have to accept these harpies?"

Lu Yang smiled and said: "Because we don't have an air force, there are so many Tier 3 monsters in the sky, lightning, wind, and fire. We have nothing to do with each other. If there are harpies, let them help capture them. In the future, we will also have air cavalry. Whether it is to use them as sentries or as support in the air, it will be very useful."

Xia Yuwei, Zhuojiu and others smiled instantly, and the white lion said with a smile, "Boss, I will order 1000 first."

"Fuck off, I want two thousand more." The dirty wine said with a smile.

Xia Yuwei said: "I don't think it is too much to give me 3,000."

...

Lu Yang smiled as they watched their fight, and said, "It seems that Harvey is impossible to surrender today. Yuwei and Zhuojiu will stay here. White Lion, Zhou Tianming, and Kuai Bansheng will follow me with the main melee force. Fengshi, let's kill the group of people in the temple."

"Yes." Everyone answered in unison.

Zhou Tianming, Zhuo Jiu and others quickly commanded 6000 melee down the mountain, followed by 400 fire mage and 400 thunder mage.

If it is to hunt down the enemy, Lu Yang will directly order these 6,800 people to follow him to raid the headquarters of the temple, but the organization of the temple is special, and no one knows how many special alien gods they have given them. Equipment and items.

If they set up a teleportation formation in the mountain and Lu Yang just went to encircle, these people may teleport away. The only way is to draw them out, go inside an encirclement circle, but how normal it is to draw them out. Difficult, there is no lack of smart leaders in the temple, it is almost impossible to encircle them.

This time the temple thought that Lu Yang hadn't arrived yet, and at the same time, they thought that Wang Han and the parasitic demon could control Pan Yuhang, and brought out hundreds of practitioners under Pan Yuhang, and then the whole army was dispatched.

Lu Yang would never waste this opportunity, so he took people to hide on the mountain that Wang Han had set before, and waited for the enemy to arrive.

Chapter 2185: Dwarf mountain ambush

When Lu Yang headed to the ambush, on the other side, Tao Ran and hundreds of members of the temple were also preparing to leave.

The leader of this temple called himself the Son of God. In fact, he is more than 60 years old and his name is Qi Ming. Looking at everyone who has assembled, Qi Ming nodded with satisfaction and said excitedly: "God's messengers, today, we can finally implement that great plan. Although we have

experienced so many tribulations and so many believers have been persecuted before, we are still about to complete the mission God has given us. Let's go~!"

"The gods are up~!" Tao Ran and the followers yelled frantically. The frenzy on everyone's face made people feel like they were crazy.

Bagley stood behind Tao Ran and shouted loudly, but he was sneer in his heart. He knew that today is the death date of these people.

Normally, Bagley has completed today's task. Even if the task is a complete success, he can choose to return to the dungeon to live a normal life, but in his heart he is too afraid of those gods, so Bagley Li has his plans.

The red moon is coming soon. By then, there must be more advanced creatures, or fire spirit level, or even lord level, it is possible.

Back in the dungeon, all the pressure fell on Lu Yang and the Jagged Brothers League. He was not relieved. He would rather face those gods and let all the pressure fall on his shoulders. He thought he His ingenuity can resolve all this, so he wants to keep Tao Ran and join the camp of other world creatures with Tao Ran.

Thinking of this, Bagley clutched his stomach and whispered to Tao Ran, "My lord, my stomach is uncomfortable. Can you wait for me?"

Tao Ran is very attached to Bagley. From his entry into the East China Sea, Bagley has helped her countless times, especially the two life-saving graces, when Tao Ran called Bagley, he was called his uncle.

"Uncle Bagley, I will accompany you." Tao Ran led Bagley away from the team, and when passing by Zhang Lin, he said, "We two will go back, and immediately follow the big group."

Zhang Lin didn't care about this. The hundreds of people who ambushed Pan Yuhang were too simple for them. They just designed a dark nightmare circle. Three or five people can do it. After that, they will have to wait a few hours. Pretending to be returning from hunting, take advantage of the middle of the night to pass through the guard posts in Fengshi and enter the city.

"Go, don't worry." Zhang Lin said casually.

Tao Ran nodded and led Bagley to the back mountain. After Bagley escaped from the crowd, he hurriedly ran up, making Tao Ran couldn't help laughing.

Bagley really had a gastrointestinal problem. He secretly ate unclean fruit, so he just wrestled in the back mountain.

Qi Ming did not notice the departure of Tao Ran and Bagley, and took hundreds of members of the temple and walked down the mountain. There was a flat area with low mountains on three sides, which was officially the best place to ambush.

Halfway through the road, Qi Ming's phone rang, he pressed the answer button, and the person inside hung up after only a few words.

Qi Ming smiled satisfied, and said to the temple members who followed him: "Pan Yuhang has already taken the bait and is about to come out."

Zhang Linhe and Cao Hong all showed excited expressions.

the other side.

In Feng City, Pan Yuhang was watching the two controlled parasitic demons sneer, took the phone back, and said to the Feng City senior who had seen them farewell: "Waiting for our good news, the old meeting will wipe out all the enemies."

"Yeah." A group of senior officials can only nod their heads, and they are still in shock.

Pan Yuhang found them last night and asked them to gather and stand together. Each of them gave a knife. After confirming that they were all humans, he threw the parasitic demon whose head Lu Yang had cut off in front of them and told them that the city had already Some people involved in the management were possessed by the parasitic demon.

One night, the senior officials, Pan Yuhang and others were looking for them. Sure enough, they used this method to find two hidden parasites. The identities of these two parasites are also very incredible. They even parasitized the high-level family members. Body.

is also considered as a high-level fight, and gave all people who contact them a knife. Among them, those who are possessed are naturally painful, and those who are not possessed are secretly grateful.

After the two parasitic demons were found out, the high-level officials rounded the torture on them, and almost tortured the other parasitic demons to death. At this time, the two parasitic demons had no intention of thinking about the others, and asked what to say. What? Only then did the high-level officials know the cause and effect of the incident. Fortunately, Lu Yang arrived early. Otherwise, they would really be finished.

Pan Yuhang turned on the intercom, dialed Lu Yang's phone, and said, "Boss, I have reported it to the people in the temple with a parasite. They will arrive at the predetermined location according to the plan, and we will set off."

Lu Yang has reached the area of the three-sided low mountain at this time, is lying in ambush in the dense forest, and said: "Do a good job, keep a calm mind, don't tell other people, this matter must not be leaked out."

"Yes." Pan Yuhang replied loudly.

Lu Yang hung up the intercom and whispered to the white lion, Zhou Tianming and others around him and said in a low voice: "Be prepared, the people from the temple are coming."

This time they are in close combat. Therefore, Lu Yang and the others prepared the fire lion army after the enemy entered the encirclement, the white lion and Zhou Tianming led the fire lion army to charge.

The white lion lowered his voice and said, "The personnel are all ready and ready to attack."

Lu Yang nodded, picked up the binoculars and looked into the distance. It didn't take long before Lu Yang saw that on the only road down the mountain, there were flying birds constantly being frightened. Passing between the leaves, you can see a large number of people walking towards this side.

Lu Yang knew that the enemy was about to enter the encirclement. He ordered everyone to lower their bodies, and only released the three-eyed magic flower. The two were connected with each other. Through the perspective of the three-eyed magic flower, he saw the members of the temple gradually moving towards this place. The mountain came over.

Qi Ming walked in the forefront, a 60-year-old man, holding a long-handled staff in his hand, with a water-blue gem inlaid on the top, radiating ripples and full of magical energy.

The four people who followed Qi Ming were all about fifty years old, and they all had a long-handled staff in their hands. Lu Yang had seen these people on the wanted list, and they belonged to the Zhou family, a senior in the temple. Zhou Guangshen, Xie Cheng from the Xie family, Wang Lin from the Wang family, and Tang Linyu from the Tang family.

It is said that the four of them are all Tier 2 top, with many treasures from otherworldly gods on their bodies, and their strength is comparable to Tier 3, and they are real top masters, but in Lu Yang's view, they are the ones who sent things, and he raised his arm. , To signal everyone to be prepared.

Chapter 2186: Fire Lion Charge

The White Lion, Zhou Tianming and others immediately notified the surrounding soldiers, and the news was quickly communicated to the surroundings. Soon, the 6000 Fire Lions soldiers were ready to fight, and the Fire Lions also leaned beside each soldier, posing. In an offensive posture.

Qi Ming and others were still in excitement at this time. They did not expect that they were approaching danger, and everyone was thinking about what was about to happen.

“As long as Wang Han draws people over, we will start massacre tonight.”

“We don’t kill more, just kill 1 million people, let the rest of you watch, and see with your own eyes how they saw the gods come to the world.”

“Poor, Lu Yang is still in Yingshi to explore our side. When he comes, he will face countless gods.”

“I will grab Lu Yang with my own hands, let him watch the deaths of his men and family members one by one, and let him know the fate of fighting against God.”

...

If it weren't for human heroes such as the Jagged Brotherhood and Fu Yun who had resisted desperately in the past two years, the temple had already completed its planned plan, so they would hate Lu Yang and the others the most.

This time they had the opportunity to make up for their mistakes in front of their gods. They were more excited than anyone, but they didn't know that their words had already reached the ears of the Jagged Brothers soldiers on the hillside.

The distance between the two sides is only a few hundred meters, and the strength of the second-tier Jagged Brothers fighters are dozens of times more sensitive in smell, taste, hearing and vision. Although they can't hear clearly, they also listened for a while. , The anger of 6000 people was ignited.

The white lion lowered his voice angrily and said, "Boss, launch an attack."

Lu Yang shook his head and stared at Qi Ming in the distance. When the opponent came to the huge empty flat ground at the foot of the low mountain where they were, he looked at the white lion and Zhou Tianming beside him, and said, "Attack. Leave a few alive, and kill the rest."

The white lion couldn't bear it for a long time, he nodded his head heavily when he heard this, stood up and raised the saber in his hand and roared fiercely: "Iron Brothers, kill~!"

"Kill~!" 6000 simultaneously turned over and jumped onto the fire lion's back. The fire lions who were ready to launch a charge ignited fierce fire all over, and rushed towards the bottom of the mountain roaring.

The distance from the top of the mountain to the bottom of the mountain is only about 100 meters, and in the blink of an eye, the first row of 500 fire lions rushed in front of Qi Ming and others.

"Ah~!" Qi Ming yelled in fright, his body let out a ray of light and disappeared in place, and Zhou Guangshen and other high-level mages disappeared with him. They reacted extremely fast, but the members of the temple behind did. However, he was approached by the Fire Lions soldiers in an instant.

“撲”

The members of the fire lion group held a two-handed sword made of stars, passing over the bodies of the members of the temple, just like cutting a vegetable leaf, and easily chopped off their bodies.

When the members of the temple reacted, they had been killed by the first wave of assaults, and the following people quickly activated flashing skills or defensive skills in horror, but they had no escape at this time, and all around could stand. In the place, there are soldiers of the Jagged Brotherhood everywhere.

The members of the fire lion group started the charge after standing up all the flat ground. Therefore, they could only flash continuously and fled to the mountain, while Qi Ming and others had already jumped there, leaving the defensive skills in place. Yes, I thought I could rely on defensive spells or special protection from gods to protect the body, but this is a two-handed sword made of star steel. One person can't cut through the shield, and 10 people can't cut through it?

When all the 6000 soldiers charged past, there were only more than 400 corpses of temple members left on the ground. Only more than 30 people fled to Qi Ming's side. They were supporting a large defensive array with Qi Ming, taking this opportunity to let Zhou Guangshen The circle that was ready to flee wanted to escape.

But Lu Yang had already passed the route that Qi Ming and others fled when they were attacked by the first wave. People who have been fighting for a long time can easily guess that the place where the opponent can escape is on the **** where Qi Ming is standing now, so , Lu Yang had already chanted the spell when the opponent just jumped over.

“Forbidden Curse·Meteor Fire”

A giant meteorite larger than a house suddenly appeared in mid-air, with a howling and piercing sound, it accurately hit the shield that Qi Ming was supporting.

“Boom”

A dazzling white fire light lit up. With Qi Ming as the center, all the trees in the surrounding area 30 meters away were turned into ashes, making the remaining members of the temple stand on the bare rock, especially protruding.

Qi Ming was still in shock at this time. Seeing Lu Yang walking towards him step by step, his eyes were full of disbelief, and he said, “Lu, Lu Yang? The Jagged Brothers?”

Lu Yang sneered, and said, “Qi Ming, you know me, it seems that my reputation is not small.”

Qi Ming said in horror: “You, why are you here, aren’t you in Yingshi?”

Lu Yang did not answer his words, but said with a smile: “You have a good idea. You still want to catch me. Let me watch you all the soldiers of the Jagged Brotherhood put to death. This is a good idea.”

Qi Ming's face was flushed. He was 60 years old. The arrogance just now turned into the embarrassment he is now, making him feel a little embarrassed. He looked at the Jagged Brothers soldiers who were gradually coming closer. Qi Ming supported the shield with both hands while shouting: "Lu Yang, God won't let you go. If you surrender now, I can still give you a way out in front of God."

Obviously, Qi Ming is already at the end of the road and is starting to use words to induce Lu Yang, but Lu Yang smiled and said, "You still think about whether you still have a chance to survive. For a deal, I can spare you, but you must tell me all the secrets you know."

"Ha~!" Qi Ming sneered and said: "My shield was given to me by the gods. It is specially designed to deal with this situation. With your second-tier garbage, it can't break my shield. shield."

Lu Yang smiled and said, "Look at the weapons in my brothers' hands before talking."

The damage of the weapons on the earth to this elemental shield is extremely limited, or even ineffective, but Star Steel is different. This is a standard weapon for Tier 2 fighters in different worlds. It is not only sharp but also specializes in breaking the magic shield.

The white lion walked to Lu Yang's side, and the purple two-handed sword in the hands of slashed down towards the protective shield.

“咚”

With a loud noise, dense spider cracks appeared on the protective cover. Although they healed instantly, the cracks actually appeared. This made Qi Ming's expression of horror and Zhou Guangshen subconsciously exclaimed: "How can you have so many weapons in another world."

Every warrior of the Jagged Brotherhood showed the two-handed swords in their hands, and slashed them around the protective cover.

“咚”

“咚”

“咚”

...

The protective shield kept cracking and healing repeatedly, which made Qi Ming, who supported the array, feel panic. He shouted to Zhou Guangshen: "Hurry up, hurry up."

It takes at least 5 minutes for Zhou Guangshen's teleportation circle to be set up to accommodate five people to escape. Even so, the magic circle can only teleport them back to the mountain where they hid before. There is also a magic circle there, just for Responding to the situation at hand.

But setting up a magic circle can't be done quickly. It requires the release of spells. Zhou Guangshen has no time and space elves to help him. He can only recite spells, while the surrounding Jagged Brothers warriors are constantly attacking the shield with two-handed swords. He fell into a deep fear, and repeatedly pronounced the wrong spell several times in a row, so he had to re-chant it again. In this way, the speed was even slower.

Chapter 2187: The destruction of the goddess of nature

Lu Yang stared at Qi Ming, Zhou Guangshen and others. Now he still had a killer in his hand. When he was in ambush, Lu Yang asked the Three Eyed Magic Flower to plant vine seeds in the surrounding area, including Zhou Guangshen and Qi Ming. Waiting for people's feet, if he wants, he can now release him to attack them.

But he can't use it easily. He doesn't know what treasures Qi Ming, Zhou Guangshen and others have. The vine seeds can only be used once. If they can't control the opponent, let the opponent react. During this time, the White Lions will not be able to break the protection. Hood, that would be embarrassing.

"Boom"

“Boom”

“Boom”

...

The white lion and the others swung the two-handed swords in their hands to attack the protective cover. Numerous impacts caused the golden protective cover to become luster and dim. Obviously, it was almost unable to hold it.

“Zhou Guangshen, can you do it?” Qi Ming asked in horror.

The sweat on Zhou Guangshen’s forehead was all down, but he was still chanting a spell. Every time he uttered one, he used his magical energy to draw a magic symbol in the air. At this time, he had drawn four, and there were two more magic symbols. It can be successfully launched.

“Brothers speed up their attack, don’t let them run away.” White Lion shouted anxiously.

“Everyone, work hard.” Zhou Tianming shouted.

Thousands of fighters around frantically waved their weapons, making the noise louder and denser.

Inside the protective shield, Zhou Guangshen closed his eyes and was still chanting a spell. He began to draw the fourth symbol. This made the remnants of the temple around him see hope, and everyone looked at him expectantly.

But at this moment, the protective cover suddenly became colorless, covered with dense black cracks, the next second.

“Click”

The protective shield disappeared, Qi Ming spewed out a mouthful of blood, and fell to the ground. The other members of the temple hurriedly released spells to counterattack in horror, but at this moment, a dazzling nine-color light burst out around them.

The white lion and Zhou Tianming quickly grabbed the surrounding brothers who wanted to attack. The next second, the light dissipated. Within ten meters of the center of the original mask, all creatures, flowers and plants instantly lost their lives, and the remaining members of the temple were still frightened. Expressions, but their bodies have turned into corpses.

“What about people?” Zhou Tianming asked with a frown.

“Let’s see if there is still alive.” The white lion shouted.

When everyone was about to step forward, Lu Yang hurriedly shouted: “Don’t move, everyone backs away.”

The White Lion looked at Lu Yang in surprise and asked, “Boss, what’s the matter?”

Lu Yang said with some fear: “Someone in the temple just now used a dark magic device. This kind of thing **** the life of the surrounding creatures and quickly transforms it into the required magic energy. Don’t get close first. The magic hasn’t completely dissipated. ”

This was what the Blazing Demon God told Lu Yang that the dark energy released at that moment alarmed the Blazing Demon God. This spell was released for a while and lasted for 1 minute, continuously sucking the ability of the creatures close to it. The caster provides spell energy.

Lu Yang waited for two minutes with everyone before he tried to approach the center area where the spell was released. After checking, he found that Zhou Guangshen, who had just released the time and space spell, was not in it.

“Looking at the wanted information, Zhou Guangshen had a brother named Zhou Guanglin, who was learning dark magic or was bestowed by the dark elves by the gods of the black gods. It should be this

Zhou Guanglin who was afraid that his brother Zhou Guangshen would have nothing to save his life and sent the dark gods. What was given to him was given to Zhou Guangshen,” Lu Yang said.

The white lion cursed: “Count them lucky.”

Lu Yang smiled and shook his head, and said, “We should be lucky. Look at the things on this group of people. They are all treasures. If it weren’t for being attacked, it would be really hard to kill them.”

The people killed in the temple were all wearing good spell robes, and the magic fluctuations on them made Lu Yang feel the urge to **** them.

There are also elemental elves. When many members of the temple died, the elemental elves flew out of their bodies and disappeared into the world.

Any wizard with elemental elves has the highest level of strength. Take the ice elves owned by the lovely queen as an example. With the help of the ice wizard, she can even release third-order spells. Normally singled out, the iron-blood brothers Even if the soldiers of the alliance have been on the battlefield for a long time, they must pay a great price.

Now this group of people were killed so easily, which made Lu Yang feel a little relieved. For the temple, it was also a serious injury. At least, in the Northeast, the believers of the nature alien god, basically Was killed clean.

Kuai Bansheng ran to Lu Yang with something like a phone in his hand, and said, “Boss, I found this. It looks like a phone, but it feels different from the one we used before.”

Lu Yang took a black brick-like phone, frowned and said, “This thing is a satellite phone, or a foreign one. Don’t tell me about it, just treat it as if you haven’t seen it before.”

He has not told Kuai Bansheng and others that there is still a spy hidden in the Jagged Brotherhood. He originally wanted to find this spy through interrogation of Qi Ming, Zhou Guangshen and others, but Zhou Guangshen was too ruthless. Qi Ming and others were killed.

The only thing he can rely on now is Bagley. Looking at the love for half a lifetime, he deliberately said loudly: "Take some people to their lair to see if there are any remnants."

"Yes." The bitter love turned around for a while and shouted: "The brothers of Si Tuan followed me up the mountain and searched for the fish in the net."

"Yes." Thousands of soldiers responded loudly, and along with the love for half their lives, stepped onto the fire lion and ran towards the top of the mountain.

Halfway up the mountain.

In a thicket, Bagley was holding Tao Ran tightly, not daring to make any noise.

When the two watched the Fire Lion Corps run up the mountain from their side, Bagley dared to say in a low voice, "Divine Envoy Tao Ran, let's run quickly."

"How could this happen? How could this happen?" Tao Ran had fallen into a sluggishness, she couldn't understand. At the moment before, everyone was still looking forward to slaughtering the humans in Fengshi. In a blink of an eye, the people who were slaughtered became them.

"Don't think about it for now, Zhou Guangshen has already escaped. It should be not far away. Let's find him and save our lives before talking." Bagley said.

Tao Ran nodded blankly, and left with Bagley.

Lu Yang stared sharply in the direction where Bagley had left, and said to Bai Hu and Zhou Tianming beside him: "The rest of them will return to Fengshan with me, and Liu Ruohuai will stay with them and wait for Pan Yuhang and them to arrive."

"Yes." Liu Ruohuai ran out from behind Lu Yang and said excitedly.

Lu Yang smiled, patted him on the shoulder, and ran towards the back mountain of Fengshan with the white lion and others.

Halfway through the road, Pan Yuhang brought people there, and when he saw his brother Liu Ruohuai, the two embraced together excitedly.

“I thought you were dead.” Tears shed tears from Liu Ruohuai’s eyes.

Pan Yuhang was also very emotional. looked at Liu Ruohuai and said excitedly: “Brother, brother, I didn’t mistake you back then. You are a master in the game, and in reality, it is also a master in the middle of the second order. Right.”

Liu Ruohuai nodded vigorously and said excitedly: “Thanks to the help of the boss, eldest brother, this time you are here, and soon you will reach the second order. Our brothers will fight together this time.”

“Yeah.” Pan Yuhang was also very excited and asked, “Where is the boss?”

Liu Ruohuai looked at Fengshan in the distance, and said with a smile: “The boss has gone to boil the eagle. More than 5,000 eagles were blocked by the boss. 4000 Tier 2 shooters and 2,000 Tier 2 mages stood at the entrance of the cave. Those 5,000 harpies will either surrender and become slaves, or they will all die inside.”

Pan Yuhang’s eyes brightened, and he said excitedly: “How is this possible? How did the boss find it? Our brother has been miserable by these harpies this year. Let us take us there. Let’s see what it looks like. Have a good time.”

Liu Ruohuai laughed and said: “Of course you can, follow me, I will show you the way when I stay here.”

Pan Yuhang nodded, waved to the brothers behind him, and led everyone to follow Liu Ruohuai and ran towards Fengshan.

Chapter 2188: Sleepy Harpy

Genius remembers this site address in one second: []The fastest update! No ads! Fengshan's back mountain is halfway up the mountain. The members of the Iron and Blood Brotherhood are still guarding the entrance of the cave. The extremely cold weather makes the ice platform made by the lovely queen and the famous ice mage extremely strong, and they do not need the lovely queen to repair the ice platform frequently. The hawks in the cave tried to break through several times, but were wiped out by Zhuojiu and Xia Yuwei with the archer and wizard group. When Lu Yang arrived at the entrance of the cave, he was in time for a new wave of harpy breakout operations. Each group of six hawks tied various weapons to their bodies and flew out of the cave. They wanted to use these weapons to stop the shooter. The attack, but their bodies could hang weapons, but their wings could not. As soon as the six harpies flew out, they were shot at the hedgehog by the famous shooter standing around, and the steel hedgehog was brought by the shooter. The reaction speed of the steel hedgehog is faster than that of the second-order shooter. As soon as the harpy came out, the steel spurs shot out. As a result, every harpy that broke out, not only the wings were punched out with hundreds of holes, even their unprotected parts of his body were also pierced by steel piercing. "Pyroblast", "Wind Barrier", "Lightning Bolt"...Even if the Harpy escaped the first wave of attacks, there are magical obstacles around him. The wind barrier disturbs the balance of the Harpy in the air. , Pyroblast and Lightning Bolt are extremely fast at close range, and it is easy to hit the Harpy who suddenly loses the balance bar. Lu Yang watched the five groups of hawks killed on the ground. It was a bit painful. After all, these hawks will be slaves of the Jagged Brotherhood from now on. He came near the entrance of the cave and shouted, "Harvey. , Don't try to rush out anymore, your only reinforcement, the temple has been wiped out by me, you have no chance." After speaking, he threw Qi Ming's shriveled head to the entrance of the cave, and Harvey was near the entrance of the cave. , Was staring and studying countermeasures. He was startled when he saw the head that suddenly rolled in. After seeing it clearly, Harvey was shocked and roared: "This is impossible. They are all the gods of the second-order peak. Giver, how could it be killed so easily by you?" Of course, it's impossible under normal circumstances. If you can't fight directly, the people in the temple can also retreat calmly with various treasures in their hands, but this is During the raid, the Fire Lion Legion rushed to the enemy within seconds. This is not easy to talk about. Lu Yang leaned against the wall and raised his eyebrows and said, "The fact is that they are already dead. You can choose for yourself. Now, you will either starve to death in Fengshan with more than 5,000 harpies, or you will follow me to eat and drink. Drinking alive." Harvey suddenly looked grim, and roared at the entrance of the cave: "Damn humans, lowly races, want to make us harpies slaves. This is absolutely impossible. We would rather starve to death~!" Lu Yang sneered, and stopped persuading, and said loudly to the voiced wine around him: "Our brothers are all hungry too, go and prepare some prey, we eat while waiting." "Yes." Zhuojiu and Zhou Tianming waited. People went down the mountain to hunt. In the forest around Fengshan, there are demonized beasts everywhere. The second-tier demonized wild boar weighs about a catty. A wild boar is enough for dozens of people. The soldiers went down to hunt. After half an hour, the first batch of He came back with hundreds of wild boars and hares and other prey. The soldiers used the star steel sabers in their hands to cut the stone into the shape of a pot.

The water mage made water, and the fire mage was responsible for lighting the wood, plus the salt that they brought with them. Soon, the prey that had been packed was thrown into the pot. In. There are also foods that you like to roast. I light a bonfire and roast the demonized wild boar while roasting the fire. The wild boar is brushed with oil and sprinkled with cumin, and the fragrance is instantly released. Pushed by the cold wind, it soon drifted into the cave not far away, and Harvey in the cave and other nearby harpies hadn't eaten anything during the day. As a harpy with huge physical exertion, he can't bear hunger at all. In addition, he can't get out of the cave and stuck in a narrow place for one day. All the hawks are extremely irritable, plus this floating in. The fragrance makes the harpy more irritable. "I can't stand it anymore. I'm going to rush out and kill them." A harpy roared, ignoring the persuasion of people around him, spread his wings and flew out of the cave in an instant, Harvey couldn't even stop him. "Swish", "swish" "swish"... The harpy just flew out, and his whole body was filled with sharp arrows in an instant, and he was nailed to the rocky ground at the entrance of the cave, which made Harvey show a helpless and angry expression. "Good job~!" There was a loud shout from afar, and Pan Yuhang led hundreds of Fengshi elites to the mountain road halfway up the mountain under the leadership of Liu Ruohuai. Lu Yang turned his head to look, Pan Yuhang hurried a few steps to come to Lu Yang, stood up in excitement, and said: "Report to the boss, Pan Yuhang will bring the brothers to report." Lu Yang smiled and looked at Pan Yuhang. The soldiers behind, each with an excited expression on their faces, said, "It's good to be here, and see that the harpy is blocked at the entrance of the cave." Pan Yuhang nodded. Lu Yang said: "You go back to Feng City for a rest, and bring some quilts or tents over in an instant. We have to stay here for a few days and leave the harpy trapped to death." "Yes, I will go back and collect materials." Pan Yuhang said solemnly. With a wave of his hand, he ran back with his brothers. He has achieved his goal and let his brothers see the true situation of the Jagged Brotherhood. These people returned to the city and spread the news. When the time comes, the morale of Feng City will be even stronger. "Boss, the pork leg is roasted." Kuai had half a life carrying a huge pork leg and ran over. Lu Yang looked at the black line on the forehead of this pig leg that was bigger than him, stretched out his hand to tear off a large piece, and said, "Let the brothers eat as soon as possible. After eating, change a group of shooters and wizards to go up and replace the brothers on it. "Hey~!" Half a life of bitter love ran away with a pig leg. A leg of pork was more than one meter long. A dozen people ate it separately before eating clean. Then, half a life of bitter love threw the bone into the hole, and the fragrance went down. The drift in the hole became stronger. The warriors of the other Jagged Brothers also followed suit. When the replacement wizards and archers boarded the ice platform, they threw the leftover bones in their hands into the mouth of the cave, and Harvey and other eagles in the hole of breath The man released a hurricane spell and blew all the bones under the cliff. Lu Yang was not in a hurry, anyway, his people were not uncomfortable. What he couldn't bear was the inside of the cave. He wanted to insist on seeing the inside. He asked his men to continue adding firewood to the fire. was going to spend the night here. In the afternoon, the high-level officials of Fengshi came, and the two sides exchanged greetings. A high-level leader led a reporter from a TV station and a man carrying a camera came over and said, "Our people in Fengshi let this gang of birds kill It's horrible, can you broadcast the scene where we trapped the Harpy." Lu Yang smiled and said, "Of course." "Thank you, thank you so much." The reporter and photographer nodded to Lu Yang excitedly and looked for it. A highland hypothetical device began to broadcast. "My friends in Fengshi, we are now located at Fengshan, above the cave where the eagles hide. Today, the soldiers of the Jagged Brothers raided Fengshan and blocked all the eagles in the entrance of the cave. We are Fengshi. The crisis is resolved~!" The reporter said excitedly. The photographer pointed the camera at the hole below, Han Yu threw a

piece of pork leg bone into the hole, and a roar came, and the strong wind roared inside the cave, blowing the pork leg bone under the cliff. This is a simultaneous satellite live broadcast. There are only a few places in Fengcheng where electricity is available. Televisions or big screens are used to broadcast it. If there is no TV, the host's excitement can also be heard from the broadcast. Millions of people in Feng City were originally hiding at home, for fear of another harpy attack at night. After more than a year, it has become the norm. When they heard the news, they all walked out the door in surprise, ignoring the cold. Feng found a place with a TV. Looking at the bones constantly thrown down from the entrance of the cave on the screen, and the harpy who occasionally flew out to be shot, millions of people in Feng City cheered with excitement. "Won~!" "Won~!" "The Harpy's crisis is resolved~!" "You don't have to hide at home and dare not come out anymore, we won~!" ...the whole city cheers, the house is still hiding People with fireworks lit the fireworks, and the sky over the city became colorful, as if returning to the world before.

Chapter 2189: Strange tricks

The colorful fireworks attracted the eyes of the Jagged Brothers fighters, and all of them showed hopeful expressions. When they looked at the entrance of the cave, their eyes became firmer and the bowstrings in their hands became fuller.

"Take Xing Yaoshi, the entrance of the cave is too dark to see clearly." Han Yu shouted from a distance.

At this time, the sun set down on a distant mountain cliff, and the sky gradually darkened. Lu Yang sent 20 star shining stones. This gemstone was illuminated at a distance of 50 meters. Suddenly, the entire cave entrance became brighter than daylight.

The harpy in the entrance of the cave originally wanted to escape in the dark. The entrance of the cave was illuminated like the day, so they had no chance at all.

Lu Yang said loudly, "Everyone starts a bonfire and changes shifts in two hours."

“Oh~!” Everyone is fighting high.

In this windy and snowy day, more than 10,000 soldiers of the Jagged Brotherhood just helped each other and warmed each other.

In the cave, Harvey Chief Harvey was always worried that Lu Yang would attack in force. He took the elite hawks to prepare at the door for half a night and didn't see anyone coming over. Only then did he feel that Lu Yang really wanted to. Trapped him to death, instead of trying to fill it with human lives.

In the middle of the night, the Harpy Vanguard said to Harvey: “Patriarch, go to sleep, I'll be here.”

Harvey was a little uneasy, but he was indeed too sleepy. During the day, he was racking his brains trying to escape, and he was always worried that Lu Yang would storm in. His spirit had been tight, and now he was tired. I'm sleepy again, it's indeed a bit unsustainable.

“Be careful. In any case, you must wake me up in time.” Harvey fell asleep against the wall, still holding a weapon in his hand.

The Harvey Vanguard nodded, solemnly taking over Harvey's position, carefully staring at the situation at the entrance of the cave, and with his ears erected, listening to the voice outside.

In the middle of the night.

There was only the sound of howling wind at the entrance of the cave, and the dry and cold wind continued to pour into the entrance, but no one from the Iron-Blood Alliance came in.

Harvey fell asleep and had a dream. He dreamed that he was lying on the top of an extremely high cliff, his body was constantly being blown by the cold wind, and his wings could not stop the cold, making him tremble.

Suddenly, Harvey opened his eyes. When he looked around, he found that it was already daytime. He looked around and made sure that no one was injured and there were no signs of fighting at the entrance of the cave, which made Harvey relax a little.

He called the Pioneer Officer and asked: "Why is there such a strong wind?"

The Harpy Pioneer rushed over and said respectfully: "My patriarch, the wind has been so strong since midnight last night."

Harvey frowned, touched the water bag dryly, and found that he had drunk it all, and asked, "Is there any more water?"

The Vanguard shook his head and said, "No, we drank all we had with us."

Harvey cursed, but when he looked back at all the harpies in the cave, he suddenly felt something was wrong, even a hint of fear.

Because all the places where the harpy's beak and skin joined were dry and cracked. He looked towards the entrance of the cave violently, and the swift cold wind was still blowing in. He closed his eyes to perceive the next second. , His eyes widened in shock.

Just outside the cave, a total of more than 200 wind system mages have formed a wind system magic array, constantly blowing the dry and cold wind into the cave. The wind looks fine, but the wind contains no moisture.

Blowing on the hawk body makes the water spread faster between their breaths. The effect is not visible in the time period. But after blowing it for four or five hours in the middle of the night, there are nearly five thousand hawk bodies behind him. People are already in a state of water shortage.

Harpy are not elemental creatures. They have flesh and blood. They need to eat and drink. Their bodies also have sweat glands. After all, their **** and abdomen have evolved without feathers, and their faces are only beaks or beaks. Become more and more handsome.

This is a symbol of being able to master high-level magic. They used to be proud of it, but now, it has become a reminder for them.

Harvey punched the vanguard officer in the face and roared: "Idiot, you killed us all."

"Ah? Me? What's wrong with me?" The vanguard officer still didn't know what had happened.

Harvey didn't bother to explain. He was thinking of a way to crack it, but he couldn't think of it. Harpy are all wind wizards and don't know water spells at all. Furthermore, even if they know water spells, the caves are There is no water element at all, and it is all occupied by the wind element.

With the reserves of wind elements in the cave, Harvey does not need to spend much time to release the wind spells of the second-order peak, but it does not make any sense. More than 10,000 soldiers of the Jagged Brotherhood are waiting at the entrance of the cave. If he dares to open the entrance of the cave It blasted open and turned into a huge gap. Before they could fly out, the soldiers of the Jagged Brotherhood rushed in, and his last advantage in holding the narrow hole was gone.

Harvey tried his best to think about it, but couldn't figure out a way. Finally, he was annoyed, and shouted at the entrance of the cave: "Lu Yang, I will not spare you, I will never spare you."

Outside the cave.

Lu Yangzheng, Zhuojiu and the others looked at the entrance of the cave curiously. He also wanted to know what was going on inside the cave. The wind magic array of these 200 people had been used for almost six hours, and the more than 200 wind magic masters were all present. In a hungry and cold state, the key is that no one can replace them yet, so he can only carry them like this, and he also wants to know the result.

Now, hearing Harvey's roar, Lu Yang stroked his chest, and said with satisfaction: "Hey, it still looks very effective."

The eyes of Zhuojiu, Baishi and others all brightened. Who could have imagined that Lu Yang could come up with such a method in the middle of the night last night. The key is that it still worked.

Lu Yang made a cheering gesture to the distant wind mage Nan Feng Zhiyi, and shouted at the entrance of the cave: "Harvey, as long as you surrender, I will let your people out to drink. You absolutely can't handle it. Today, you can think about it."

“I will never surrender.” Harvey roared.

Lu Yang sneered, turned around and jumped back, and came to an empty platform made by a soil mage in the distance. On the right side of the platform was a 200-person wind-based mage team, and on the left was a 200-person fire mage team.

They have formed a large fire formation. When Lu Yang jumped in, the formation formally took shape. The 200 people slowly pushed the fire energy into Lu Yang’s body. Lu Yang pointed his right hand forward and formed a formation in the air. A huge fireball.

Nanfeng Zhiyi manipulated the large array of wind spells, allowing the gale to slowly approach the fireball. After the wind was heated, the cluster of wind pillars avoided the ice platform around the entrance of the cave and sent it into the entrance of the cave.

Harvey was opening his mouth and cursing at Lu Yang, and a hot air that was extremely dry and needed to drink water poured into his mouth. The choking Harvey couldn’t say a word, so he shut up quickly.

The vanguard officer also knew what was going on at this time, and said excitedly: “Master Patriarch, let’s urge the wind spells and drive out the hot wind.”

Harvey was speechless, but the vanguard officer thought he agreed, and quickly roared: “Release the wind spell to knock out the enemy’s skills.”

“hurricane”

“hurricane”

“hurricane”

...

Numerous hurricanes hit the harpies at the entrance of the cave. The violent hurricanes blew out all the clustered hot wind pillars, but the same, such a big hurricane made the people in the cave feel suffocated, because it was blown out. Not only a column of hot air, but also air.

“Stop~!” Harvey finally gasped, and shouted angrily. He felt that his vanguard was an idiot.

“All the elders come here, our harpy has reached the point of life and death, we need to find a way together.” Harvey said desperately.

A total of four elders walked out of the harpy and followed Harvey to the depths of the cave, but even so, the violent quarrels could be heard at the entrance of the cave.

“We are harpy with a noble bloodline. You actually let us surrender to humans? It’s absolutely impossible!”

“Then you want to watch all the harpies die in this cave?”

“We fight to the end.”

“The glory of the Harpy cannot be tarnished on us.”

...

Han Yu looked at Lu Yang not far away and shouted, “Boss, it seems that they are discussing surrender inside. They can’t stand it anymore.”

Lu Yang smiled at the corner of his mouth and shouted loudly: “All brothers, don’t let your guard down, the enemy will have to struggle to death.”

As soon as the voice fell, the thunder wizards next to him chanted a spell, and the violent thunder elemental energy suddenly formed a lightning gate at the entrance of the cave. All harpies who want to

escape must pass through this thunder and lightning stand first. No one can escape the second-order peak spell.

Chapter 2190: Boil the eagle

Harvey originally had a hint of illusion, thinking that he was shouting at the entrance of the cave to surrender, and let the Jagged Brothers archers and wizards relax their vigilance. He took the harpy elders to launch the strongest blow and suddenly smashed the cave wall. He led the harpy to rush out, but Lu Yang didn't give them a chance.

The eyes of countless hawks were desperate. They all looked at Harvey and the four elders, but Harvey and the elders didn't say a word.

Outside the cave.

Lu Yang heard that there was no sound inside, and there was a sneer at the corner of his mouth, and he said loudly, "Harvey, don't do any more meaningless struggles. This level of strategy has long been used in China, and it is too low-level."

Harvey did not speak, but the Blazing Demon God asked curiously: "How do you know they are going to escape?"

Lu Yang said: "It's very simple. There are two idioms in our country, one is called the trapped beast, and the other is dying struggle, to describe whether the current scene is particularly suitable."

The Blazing Demon God did not speak for a long time, and finally said: "I will look for it in the second world."

Lu Yang laughed and turned his head to look at the white lion, Zhuojiu and others, and said, "Put the combined animal trap on the walls on both sides of the cave. Don't give them any chance to escape."

A beast-catching net made from the skins and tendons of various Tier 3 beast kings cannot be pierced by Tier 1 or Tier 2 spells, nor can the claws of the eagle's body.

The previous trapping nets were 10 meters long and wide, and they were specially used to hunt large-scale second and third-order wild boar kings or lion kings.

Lu Yang was afraid that they would run away, so Zhuo Jiu and White Lion led the soldiers to connect these animal nets overnight. Today, four giant nets 200 meters long and 50 meters wide have been formed, Zhuo Jiu and White Lion. The man took the warrior, pulled the giant net and began to arrange it around the wall of the cave entrance, and used the spikes of the steel hedgehog as steel nails to firmly nail the giant net to the upper and lower ends of the wall.

In this way, even if the harpy smashed the walls on both sides of the cave, they would be blocked by the giant net, and they would not be able to break out in the first place.

"The earth mage is ready. If they dare to break the rock, you will gather the rock into a ball and hit it back into the cave." Lu Yang said loudly.

"Yes." More than 200 earthen mage replied.

Lu Yang continued to activate the flame array, condensing a large fireball not far from the entrance of the cave, and the south wind knowingly activated the wind gust, forming a dry cluster of wind pillars around the fireball, slowly blowing into the cave.

This time the cave was defensive. The wind pillar was blocked at the entrance of the cave. After a few attempts, Lu Yang stopped and ordered the soldiers to throw stones at the entrance of the cave instead.

The huge stone quickly blocked the entrance of the cave, but with a violent sound, the huge stone at the door was smashed by the wind blade, and Lu Yang charged into the entrance of the cave again. The sudden current stunned many elite eagles. But then the harpy condensed into a blue wind shield near the hole in front of him, and the lightning could not penetrate him.

Lu Yang was not in a hurry. If the shield couldn't be penetrated, he threw fireballs inside, and huge fireballs smashed into the cave. Although the wind shield could resist, the heat emitted by the bursting fireball was let inside. Harpy can't hold it.

As a last resort, the Harpy withdrew the wind shield and continued to switch to a hurricane, blowing the fireball out, but Lu Yang let someone discharge it again.

...

The battle fought from day to night, and the harpy survived the day again, but at this time they were almost reaching their limit. After the third day of the day, Lu Yang asked him to put a pot at the entrance of the cave. Water, any harpy who wants to drink water can come out to drink, but the end is also obvious.

Harvey strictly forbids any hawks from rushing out of the river, but there are still hawks who can't help it. Taking advantage of Harvey's carelessness, a hawk rushed out of the cave in an instant and came to the water basin on the platform of the cave. Drinking guts of water.

"Animal trap"

A big net fell from the sky and easily covered the eagle. As soon as the muddy wine and the white lion used their strength, the eagle came to their side.

"Boss, caught one." Zhuojiu exclaimed excitedly.

"Hei Yan, come here to be the eye." Lu Yan jumped out of the big formation and came to the entrance of the cave, looking at the harpy who was trapped in the net, still holding the water basin and constantly pouring into his mouth: "What is your name and what position do you have in the Harpy."

The harpy drank a basin of water, then wiped his mouth, and said depressed: "My name is Oberto, the commander of the first regiment of the harpy, you kill me."

Lu Yang smiled and said, "I won't kill you, sign a slave contract. I will give you a chance to survive."

Oberto had given up all his dignity when he was able to come out of the cave, a hesitation flashed in his eyes, and then he knelt on his knees and chanted the ancient spell.

“I, Oberto, will become Lu Yang’s slave voluntarily from today. I will never betray you forever.” Oberto shouted the last words, countless rays of light enveloped his body, and finally appeared on the center of his forehead. Wrote a weird nine-color inscription, is the oldest character in another world. It was the most humble character when the element wizard created the character, slave!

Lu Yang nodded in satisfaction, and asked his subordinates to bring the roasted meat and juice. Oberto just quenched his thirst, and he was still hungry. He didn’t want to say thank you, and desperately grabbed the pig’s hind legs and ate it. stand up.

When he choked due to eating too much and drinking juice, his eyes widened, and he asked, “What is this? It’s so delicious?”

Lu Yang smiled and received: “If you like it, you can drink it every day from now on.”

“You said, I have to drink it every day.” Oberto’s eyes were expectant.

Lu Yang smiled at the corner of his mouth. For the people of the country, there is nothing else to guarantee. No country can compare with China in terms of eating and drinking. Five thousand years of food inheritance cannot be learned overnight.

“As long as you work hard for me, I will not only not enslave you, I will provide this kind of delicious and delicious food every day.” Lu Yang said to Oberto.

“A word is for sure.” Oberto was too hungry, and continued to hug the pig’s hind legs and ate hard. He discovered that compared with the meat they roasted and eaten at random, the food on this side of the earth is really delicious. .

At the entrance of the cave, Harvey already knew that when Oberto was escaping, listening to Oberto’s words outside the cave, he roared: “Oberto, I’m going to kill you, you sordid creature who betrays glory.”

Oberto drew back subconsciously, but then he roared: "You are a lowly creature, you stupid, you have plunged all the people into a desperate situation. Wouldn't you wait to die if you didn't surrender? I would never do it for your **** People from other tribes who promised to die will not."

"Asshole." Harvey was furious, but the harpy in the cave showed a weird expression when he heard this.

Chapter 2191: Capture the Harpy alive

If Oberto lives well on the human side and has not been liquidated because of the previous attack on Fengshi, then surrendering to humanity is also a good way. After all, survival is the most important thing.

Before encountering a desperate situation, everyone would yell to die for the sake of fighting and voluntarily sacrifice their lives for the sake of God. If it is a head-to-head war, death will also die. But Lu Yang used a dull knife to cut the meat, just like that little by little. Point grinding, poke at once.

The harpy can't be killed, but they are constantly tortured physically and mentally. For two days, the lack of water, food, and the constant dry wind blowing in makes them feel more thirsty. Keep the windshield. When they went out, lightning struck in and wounded them.

Either it is a soft kill or a hard kill. If you rush out, there are thousands of shooters and thousands of mages outside, and they will undoubtedly die when they go out.

The Harpy really has no way to go to the sky and no way to enter the ground. Coupled with Oberto's surrender, the Harpy's will to resist is even more melted.

Harvey knew that the more than four thousand harpies under him had already begun to doubt him, and were no longer willing to fully believe the words of his patriarch.

"We can't surrender, we absolutely can't surrender. You know how strong God is. If the gods come, our surrender today will be evidence that God will punish us in the future, and we will be imprisoned by God forever in hell." Ha. Wei said excitedly.

Harvey's voice was loud, the echo formed in the cave, and all the harpy heard his words. At that moment, everyone was shocked, but it was just like that, because the door was clear water.

Compared with things in the future, they hoped not to be tortured right now, so, after only a minute, everyone at the door had only a longing for the clear water outside the cave in their eyes.

When Harvey saw this scene, he knew it was over. Originally, he wanted to last for three days. On the night of the third day, he led the elders to release the storm spell, shattering the walls on both sides of the cave, more than four thousand. The Harpy rushed out together, but he could only do it now.

Let Oberto persuade him to persuade him for a while, and more people will run away if he doesn't keep the balance. The morale on his side will dissipate before the night.

"Four elders, prepare to cast spells with me." Harvey growled.

Four elderly hawks with eagle head staff came out of the crowd, stood behind Harvey, and formed a five-pointed star formation with him. They whispered at the same time. In an instant, the wind element began to change. Got violent.

Oberto was at the door. He was very familiar with this spell. He quickly turned his head and looked at Lu Yang, shouting loudly, "Master, Harvey is going to use the storm technique to break the wall and escape. Get ready."

Lu Yang opened his eyes fiercely and raised his arms. The Earth Mage Brigade, Fire Mage Brigade, Lei Mage Brigade, Ice Mage Brigade, and Wind Mage Brigade chanted spells at the same time. All the archers opened their bowstrings and were ready to shoot.

Zhuojiu, White Lion and others were holding two-handed swords on both sides of the cave and preparing to attack, when they were all ready.

"boom"

The walls nearly 100 meters wide on both sides of the cave suddenly collapsed and exploded as a whole, and the rocks shot towards the surroundings at extremely high speeds.

“Harvey, fly with me.” Harvey roared, and the first one flew towards the outside of the cave, but as soon as he flew out of the cave, countless sharp arrows shot Harvey’s wings into a hornet’s nest, Harvey He fell to the basin of the platform in an instant, and he looked back at the surrounding blankly. At that moment, there was only panic and helplessness in his eyes.

Because although the rocks on both sides of the cave were shattered, the archers and wizards standing above and on both sides of the cave did not fall, because the ice platform made by the ice mage was separated from the walls on both sides of the cave. of.

Although the wall at the entrance of the cave collapsed, it did not affect the ice platform. On the contrary, because of the collapse of the cave entrance, the archer standing on the ice platform had a better shooting vision.

The worst thing is that after the rock walls on both sides of the cave broke up, they did not go out at any time, but were blocked by the huge nets attached to the walls. A few of them were only hit on the ice. on the platform.

The more than 4,000 harpies under him did not rush out. On the one hand, it was blocked by a giant net, and on the other hand, because the earth mage would re-condense into stone swords and stone **** at any time, and hit them into the hole. All the harpy’s path forward was blocked by stone balls, a large number of hawks were knocked out on the ground, and some were pierced by stone swords.

“Lightning Storm”

Master Lei aimed at the huge cave entrance, launched a magic circle, and used thunder and lightning for a second attack. In the smoke and dust at the entrance of the cave, before the subsequent harpy rushed out, hundreds of blue lightning flashed waves after waves. Hit in.

Countless hawks were stunned to the ground on the spot, and then flames shot in. The blazing flame ignited the feathers of countless hawks.

Lu Yang felt a pain in his heart watching this scene, especially when he saw the shooter preparing to attack, and they were also preparing to attack, he hurriedly shouted: "Catch alive, don't kill it, our air force."

Zhuojiu and White Lion were all amused. Since entering the other world, their boss's problem of trying to accumulate everything when they see it has committed again. The group of people can only stand at the entrance of the cave and continue to let the wizards discharge and set fire.

What no one noticed was that the live footage from a distance continued. When millions of people in Feng City heard Lu Yang's words, they couldn't help but laugh. Who would have thought that the eagle that once stood high and made them feel desperate? The body, here in Lu Yang, turned out to be so pitiful.

I don't know how many people are laughing and laughing while watching live TV outside in the cold. Everyone on com is celebrating, and the Harpy has today!

The mouth of the Harpy.

The smoke gradually dissipated. When Lu Yang saw the situation inside the cave clearly, he speechlessly hammered his chest, pointed at the distant masters such as Heiyan and Nanfeng Zhiyi, and cursed: "A group of prodigal sons, I don't know how to act lightly. Point it, and if you burn them, you can drink and drink right away."

The burnt smell of the harpy's wings could be smelled by the members of the wizard group standing in the distance. Hei Yan, Nanfeng Zhiyi and others shrugged helplessly and laughed.

Lu Yang shouted: "Hurry up, come, and save all those who are still alive, Oberto, if the wings are burned out, there will still be feathers."

"Yes!" Oberto didn't react, and said subconsciously.

"That's good, save the feathers too." Lu Yang shouted.

Oberto got a cold sweat on his forehead, and he realized that his people were almost killed and injured because of his words.

Zhuojiu, White Lion, bitter love for half a lifetime, Zhou Tianming, Xia Yuwei, Zhao Cheng and Bao Buping rushed in. After some rescue, Zhuojiu came back and said to Lu Yang: "There are 4829 hawks in the cave. There were 1172 deaths, 252 serious injuries, and the rest were minor injuries."

Only the first group of hawks who rushed out suffered the most casualties. They blocked the entrance of the cave and were bombarded by flames and lightning. The hawks behind were blocked by their bodies, and most of them were stunned by lightning. Or fainted by the flames and smoke, and did not suffer too much injury.

Lu Yang breathed a sigh of relief and said, "Fortunately, fortunately, there are a lot of leftovers. Put the living in shackles and **** them into Feng City. We let the people in Feng City take a look, relax and relax."

"Yes." Zhuojiu, Baishi and others said loudly with a smile.

Chapter 2192: Enter Fengshi

6000 fighters took out the ropes made of Tier 3 animal tendons they carried with them to bind the arms of the slightly injured and uninjured harpies, mounted on the fire lions, and led them to Fengshi in an orderly manner. .

The archers and wizards also rode on the fire lion and followed on both sides of the team to prevent the harpy from escaping. Everyone held a bow and arrow and a staff to aim at them, making all the hawks terrified. .

“Roar!” Long howls suddenly sounded over everyone’s heads. Everyone looked up and saw that Hongye had turned into a 15-meter-long dragon, flying above them, and Lu Yang was standing on Hongye’s head.

A reporter from the TV station ran a live broadcast in the team, and she said excitedly: “We won the Harpy, and Fengcheng will be free in the future. There is no need to worry about being attacked by the Harpy at night.”

“Look at the warriors of the Jagged Brotherhood around us. They are riding a Tier 2 fire lion, turbid wine and white lion leaders, and riding a Tier 3 fire lion. Look at the sky and stand in red. On the head of the giant dragon is the old continent Yang of the Jagged Brotherhood.”

“Practitioners in Feng City, let us join the Iron-Blooded Brotherhood and participate in the war. This is the choice of young people in the last days.”

...

This evening, the people of Feng City all walked out of their homes and came to the suburbs on the west side of the city to greet them. When the Jagged Brothers team came from a distance and entered the urban streets, the people on both sides burst into enthusiastic cheers. Sound and excitement.

Especially when they saw the once invincible Harpy trapped in their hands one by one, like a slave, being led away by the Jagged Brothers fighters riding on the back of a two-meter-high fiery lion, they were even more excited. Shout loudly.

Countless stones and bricks were thrown on these hawks, making these trapped hawks horrified to the extreme. Many people wanted to spread their wings and fly, but instantly found that they were locked by the shooter’s murderous intent. He didn’t dare to make any movements, so he could only block his body with wings to avoid injury.

Oberto was not in the team. At this time, he was flying beside Lu Yang, pleadingly saying: “Master, please let my people go, they will be willing to be your slaves.”

Lu Yang smiled at the corner of his mouth and glanced at Oberto and said: "You have infested Fengshi for so long, and you have to atone for your sins. Don't worry, ordinary people can't hurt them."

Normal weapons can't penetrate their bodies, and bricks and stones can only make them feel humiliated, and there will be no substantial harm.

Lu Yang's purpose in doing this is to make Fengshi people vent their anger, and on the other hand, to tell these harpy that now only he can make these people alive, either by signing a contract to become a slave, or by dying. In the anger of Fengshi people.

He believed that these hawks would make the most correct choice, and the people of Fengshi would forgive the harpies. After all, the hawks did not cause any harm. For such a long time, Fengshi relied on the powerful military system. Maintained the advantage against the air, almost no casualties.

Oberto didn't understand these things, but when he heard Lu Yang's personal promise, he relaxed, bowed and said to Lu Yang, "Thank you for your generosity, my great master."

Lu Yang looked at Oberto and said, "From tomorrow, you will bring your men to help our shooters capture the third-order eagle king. I have 4,000 shooters. You must at least let 1,000 shooters have the third-order eagle king and the second-order. The eagle becomes a mount."

"We may not be able to fight." Oberto was a bit embarrassed. He is the second-order, and their patriarch is also the second-order peak, and most of the rest of the hawks are still the first-order peak.

Lu Yang said, "I will provide you with weapons made of star steel, don't let me down."

"There is absolutely no problem." Oberto said excitedly.

The weapon made of star steel is enough for Oberto and the others to kill any enemy in the air.

"Dididi"

Lu Yang's phone rang. He saw that he was calling from a drunk drink. He pressed the call button and asked, "What's the matter?"

Zhuojiu said: "The chief executive of Feng City, Zhao Hua, with all the management staff is in front to welcome you."

Lu Yang looked down and saw a group of people greet him in front of the team. Many of these people had gone to Fengshan before and met with Lu Yang. This time it was a formal handover. From now on, the management of Feng City will be in Lu Yang's hands.

Lu Yang didn't care about this right. It was the end of the world. I don't know if he can survive the red moon. Besides, he himself is not keen on this thing.

"I see." Lu Yang hung up and asked to fly outside to take care of the seriously injured harpy. He controlled Hong Ye to fly to the ground.

When he landed, he fell right in front of the team. After a long roar, Hong Ye lowered his head and made Lu Yang jump out of his body, then got up and flew out to find the prey.

Zhao Hua led a group of people to greet him and said with a grateful smile: "Thank you, President Lu Yang, for breaking the siege of Fengshi. You are the hero of Fengshi."

Lu Yang looked around and said, "Let's find a place to discuss it in detail."

Zhao Hua was a little surprised, and asked his deputy to retreat to the sides with the others. He and a few major administrators led Lu Yang to an office building not far away.

"This is a temporary office building in the West District. It is a bit crude, forgive me." Zhao Hua said.

Lu Yang sat on the chair indifferently and said, "The purpose of my approach to you alone is to tell you that an army of orcs is passing through the city of Mongolia and is approaching our side. I am not sure to beat them. , So I need to move everyone in Fengshi to Donghai."

Zhao Hua frowned and asked, "Is there no chance at all? The imperial capital doesn't seem to put the orc army too much in the eyes."

Lu Yang smiled. He knew that Zhao Hua did not want to leave, but Zhao Hua could not decide this matter. He said, "Unless you want me to use the life of the Jagged Brothers fighter to fight the orcs. Even so, we absolutely fight. Not win."

But I managed to gather more than 10,000 people in my hands, and died here, what about Donghai? What will happen to the upcoming red moon? "

Zhao Hua said nothing.

Lu Yang said: "I'm telling you that I am not asking for your opinions, but telling you the result. Starting tomorrow, everyone will get on the train and retreat towards the East China Sea in an orderly manner. They must not carry too many things, because, I don't know where the orcs are, and how many days we have left to waste."

Zhao Hua and the other administrative staff looked at each other and nodded helplessly. The illusion that they had originally held was also disillusioned.

"Well, I originally wanted to use this as the gateway to the northeast region of the first imperial capital. It seems that this is already unrealistic. We will obey your orders and evacuate people batch by batch starting tomorrow." Zhao Hua respectfully Said.

Lu Yang sighed, looked at the people celebrating outside the window, and said, "Let them party one night at last. When they arrive in Fengshi tomorrow, they will have a more difficult living environment."

In the East China Sea in the winter, even if the construction was started at full capacity, not many houses were built. Suddenly, six or seven million people passed by. Accommodation was a huge problem.

Zhao Hua and the others also knew about this, and each sighed. Then, they confessed the complete situation of Fengshi to Lu Yang.

According to Zhao Hua's statistics, Feng City's current population is still 7.3 million. The elderly are basically gone, and only less than 100,000 are left. They were not killed by creatures in another world, but died. Because of the cold and hunger of the two winters.

During the first winter of the invasion of another world, Fengcheng had no food. It was Pan Yuhang, the cultivators and soldiers of the army who went out to hunt demonized creatures, but their abilities were limited, and the prey they hunted could only be satisfied. Some people.

Under the condition of ensuring the combat power of soldiers and cultivators, the rest of the food can be distributed to ordinary people, and part of it must be provided to children, causing many elderly people to be hungry.

Later, the invasion of various demonized insects and rats in the city made people need to move from time to time. These elderly people could not keep up with the speed and were killed a lot.

The last part of the death was caused by the cold. Because of the destruction of the demonized creatures and the bursting of various pipelines, it was very difficult to provide heating. A large number of elderly people were frozen to death. Therefore, the remaining 7.3 million people in Feng City, except for less than 100,000 elderly people, 2.2 million children, and the remaining five million, all of whom are young adults from 18 to 45 years old.

Among these five million people, the male to female ratio is almost one to one. There are more than 30,000 people who have reached the first level to the fifth level, and nearly 50,000 are talented in cultivation. In other words, as long as Lu Yang gives them enough training resources and teaches them how to practice, the Jagged Brotherhood can supplement 80,000 cultivators.

More importantly, among the 2.2 million children, as many as 200,000 have the talent for cultivation, almost a ten to one ratio, but those children are too young to participate in war.

Lu Yang was a little excited when he saw these data. The magic core of cultivation was easy to find, and they also had the best method of cultivation. What was missing was the talents of cultivation. Now there are so many more people here in Fengshi, and the Jagged Brotherhood finally ushered in. There was an outbreak.

Now, as long as the strength of these people is increased, they can participate in the war, but these people are temporarily useless, and the upcoming orc army can only be blocked by the main force of the Iron and Blood Brotherhood, which makes Lu Yang a little worried.

When Lu Yang and Zhao Hua and the others were discussing, on the other side, Zhuojiu also settled all the members, and then came to the conference room.

“Boss, the personnel arrangement is complete.” Zhuojiu said.

Lu Yang nodded and said to Zhao Hua: “The follow-up handover will be led by Zhuojiu and Fei Yang, who came over on the way. I will not stay here tonight. I will look for the main force of the orc army. Cooperate, please feel free to contact me if you have anything.”

Zhao Hua was a little surprised, and said, “Are you leaving now, don’t you stay and rest tonight?”

Lu Yang sighed and said helplessly: “You don’t know the strength of the orc army. Those are monsters that can’t be killed unless they are hit directly by heavy artillery. If you don’t find them out, I can’t sleep well.”

“Boss rest assured, the outposts around Feng City have been sent out. If something happens, we will respond in time.” Zhuojiu said.

Lu Yang nodded. There was turbid wine. He believed that there would be no problem. After leaving the building, he summoned back to Red Night and flew towards the northwest of Feng City.

Although he didn’t know the specific location of the orc army, he could roughly guess the marching route of the orc army.

Because, no matter how powerful the orc army is, a march of 50,000 people must have a water source along the way. Otherwise, the orc army will walk for a few days and the spare water source will run out, and they will not be able to hold it.

Lu Yang could easily find the hiding place of the orc army as long as he searched for the water source. From the map, it can be seen that the orcs who left from the capital came from the direction of the grassland towards the direction of Fengshi. There was only one. The big river is the Taiping River, the upstream branch of the Juliu River.

The Orc Legion has no mounts. They ran over on foot. According to the calculation that they traveled 100 kilometers a day, the enemy should be in the Taiping Lake area.

Hong Ye Zai Lu Yang flew to Taiping Lake from the sky. The two dared not lean too close to the ground, fearing that creatures might sneak attack on the ground, so they could only fly about 300 meters high in the sky.

I can clearly see the ground situation here, although it is late at night, but Lu Yang is carrying an infrared telescope, and the Blazing Demon is helping.

He flew for three days and slept for three hours every day. The rest of the time was spent searching in the air. Finally, in the early morning of the fourth day, Lu Yang saw countless orcs on the grassland next to Taiping Lake. Make a fire by the lake to cook.

Orcs keep coming back carrying their prey, In the distance of cm, there were orcs who killed prey on the grassland. Looking through the binoculars, these orcs had gray-brown skin, more than two meters in height, muscles all over their bodies, and purple-handed swords in their hands.

Their arms and limbs are not much different from those of humans, but their heads resemble wolf heads, and their faces resemble wolf-like beasts.

“Roar!”

There was a sudden roar not far away, and Lu Yang turned his head to look. Just 150 meters away, a half-orc suddenly held a purple sword with both hands, facing the Tier 3, the whole body had become silver-gray metal. The bison king slashed over.

A white air blade hit the blade of the purple two-handed big sword, and it was in the middle of Tier 3 Buffalo King's body. In an instant, the Buffalo King's head was split in half, and then the whole body was also cut apart. The blood spewed out instantly, staining the ground and the orc standing in front of him.

"Qi Blade Slash?!" Lu Yang said in surprise. This is a unique attack technique in the War God Temple in the alien gods. Previously in the East China Sea, only the alien creatures at the level of the patriarch could understand it, but in the orc army, it was even casual. A half-orc could use it, and Lu Yang felt a little uneasy.

Although all fighters of the Jagged Brotherhood also know the Qi Blade Slash skill, the damage of this skill is too strong. Only shields made of star steel can resist. Shields and equipment made of any other things cannot hold their breath. Slash's kill.

At present, the Jagged Brotherhood simply cannot give each soldier a large shield made of star steel. If they meet with the orc army and fight between the two sides, it is difficult for Lu Yang to win the battle. You know, the number of these orcs is five. Ten thousand people, Lu Yang's Iron-Blooded Brotherhood only had more than ten thousand people. If Fengshi's new practitioners face the orc army, it's no different than sending them to death.

Chapter 2194: Harpy willing to be slaves

"Roar~!" A thunderous sound suddenly came from the camp. An orc with a height of nearly three meters, covered in fine purple star steel armor, walked out with a hammer in his hand, his body is extremely strong. With each step, a hole will be smashed into the ground.

Several orcs saw him hurriedly deliver the roasted beef legs to the front, the giant orcs nodded in satisfaction, and roared at the surroundings.

Now Lu Yang can understand the language of some creatures in other worlds, but it was the first time he heard the orc language. The blazing demon translator said: "He asked all the orcs to speed up. When the orcs next to him were talking to him, he shouted He is General Gabriels."

An orc next to him took a black phone and spoke to Gabriel. The Blazing Demon said, "He meant that the phone still couldn't be reached, and there was no one on the other side."

"Trash, the human races are trash, incompetent inferior races, what if they don't have them, everyone walks and eats, when we arrive in Fengshi, we kill people and sacrifice to meet our god~! Roar~!" Gabriels yelled frantically .

"Roar~!" When the countless orcs heard these words, they fell into a frantic state, grabbing the roasted prey one after another, and forming a formation of five people in a row.

The orc next to him frowned and said, "Your Excellency General, the order you have received is to support the Harpy and the members of the temple in Fengshi, but they can't be contacted. There must be something wrong with Fengshi. Should we postpone the action? ."

Gabriels seemed to have heard the joke, and said with a sneer: "Do we orcs still need to worry about humans, and we will say such stupid things in the future, I will sacrifice your flag."

The orc next to him was so frightened that he didn't dare to speak any more.

Gabriels walked to the front of the team, pointed forward with the big sword in his hand, and led the team along the river towards Fengshi.

When Lu Yang saw this scene, he let out a sigh of relief. At least these orcs need to drink water. They can't leave the water source and go straight to Feng City. In that case, they will be there in six more days. Now they are relying on the water source along the way. Marching, it would take at least fifteen days to reach Feng City. This time was enough for Lu Yang to evacuate everyone.

"Red Night, don't make a sound, we leave quietly." Lu Yang summoned Red Night. As the two flew into the sky, he sent a message to Fu Yun and asked Fu Yun to use satellites to monitor the situation here.

"No problem." Fu Yun replied.

Lu Yang controlled the red night to speed up and flew back to Fengshi. It took three days to come back because he needed to look for it along the way. When he returned, he only took a day and a half to fly at full speed in the red night without a break on the way.

When it was in Feng City, Hong Ye went to sleep in the Demon Temple, but Lu Yang did not rest. He returned to the temporary meeting room and gathered Zhuojiu and Zhao Hua to explain the situation.

“The imperial capital has already sent photos of the orcs. At their speed, we can definitely rush to send everyone to the East China Sea the day before they come.” Zhao Hua said.

Lu Yang frowned and said, “You have to speed up. If the orcs speed up, I am afraid that the last group of people who left will not leave so easily.”

Zhao Hua shook his head and said, “I have tried my best. There are a lot of trains on my side, and the power is opened. In addition, your fire lions are also pulling carts. They can only pull 400,000 people without rest a day and night. .”

Lu Yang asked, “Where is the car?”

Zhao Hua said: “There is no gasoline and diesel, unless you can go to the next city of Fu, where there is an oil refinery, but there are all Tier 2 and Tier 3 monsters.”

Lu Yang’s eyes lit up and he said, “You didn’t tell me earlier, just tell me how much gasoline and diesel you have.”

Zhao Hua said: “The quantity is large. The previous annual mass production was more than 10 million tons. There is an oil pipeline between Fu City and Feng City. As long as you can restore the electricity there and deliver the oil, there will be no problem. By the way, if you need someone to help, I have a lot of oil factory workers here.”

“Assemble them now and we will leave in the afternoon.” Lu Yang said.

“Yes.” Zhao Hua nodded, turned around and went out to find someone.

Bittersweet ran over for half a lifetime, and said excitedly: "Boss, I have found a lot of Tier 3 Crow Kings here in Fengshi."

Lu Yang smiled and said: "I have heard that there are tens of thousands of crows in the sky above Fengshi all the year round. Two years after the advent of another world, the number should be many times more than before. It is not surprising that the third-tier Crow King appeared. Let's find the Harpy now."

To capture the third-tier Crow King, you need the help of a hawk. Now all the hawks are locked in prison, and Obo is in charge of them.

"You will sleep, we can go tomorrow," said bitter love half a lifetime with some worry.

Lu Yang is not too sleepy. The main thing affected is Hong Ye. He has been flying in the sky. Lu Yang sits on Hong Ye's head and rests all the time. Besides, he has the blood refined by the heart of the Devil God in his body, let alone. It's okay if I don't sleep for more than ten days.

"How about the Harpy, do you surrender or not?" Lu Yang asked.

Zhuojiu sighed and said, "Most of them refuse to surrender. They are all looking at the command of the patriarch Harvey. If Harvey agrees to surrender, the other eagles will agree to surrender."

"I want to resist, take me to see Harvey." Lu Yang said with cold eyes.

Zhuojiu nodded, and led Lu Yang to the temporary imprisonment prison. All the harpies, every forty people were locked in a room, their hands were still tied with ropes and could not break free, and there were archers and wizards staring outside. They make them unable to escape.

When Lu Yang came to the prison, Zhou Tianming was persuading Harvey to surrender. He saw Lu Yang coming and said, "Boss, how come Harvey doesn't surrender."

Harvey sat on the chair and looked at Lu Yang, with contempt in his eyes, and said, "Kill me, despicable humans, noble harpy will not surrender to inferior creatures."

Lu Yang showed a mocking sneer at the corner of his mouth, and said, "Zhou Tianming, take a thousand hawks to the northern forest of Fengshi. I heard that there are Tier 3 fire crow kings there. Use these hawks as bait to deceive the fire crows. Come down and eat."

Harvey looked at Lu Yang angrily and asked, "What do you mean?"

Lu Yang said: "Waste utilization, since you are unwilling to cooperate, then go for bait. Creatures in another world are full of elemental power. You are the perfect lunch for creatures in this world. like."

"Asshole, you dare to use us as food." Harvey was furious.

Zhou Tianming didn't care about those, and said respectfully: "Yes, I will do it now."

After speaking, Zhou Tianming turned and left the room, shouting: "Bring out the harpy from cells 1 to 25, and don't let them run away. Let's go to the northern forest."

"Yes." The guards of the Jagged Brotherhood replied loudly.

The sound of the iron door opening and closing mixed with the scolding sound of the harpy, making Harvey look horrified. Before he could react, Lu Yang slashed the purple long sword on Harvey's wrist, and his left hand snapped. Fell to the ground.

The next moment, Harvey fell to the ground and let out a heartbreaking howl. He quickly urged the magic in his body to stop the blood. He looked at the wrist without his arm, and then at Lu Yang. There was only panic in his eyes. , Said: "You, how dare you do this to me?"

Lu Yang had no emotion in his eyes, and said, "You are useless, and you eagles who don't surrender are useless. In that case, after the first batch of ambushes, use your body. Come to feed our mounts, you only have this function."

Harvey was dumbfounded. He never imagined that Lu Yang would be so cruel to this extent. He also thought that Lu Yang would imprison them. When the alien gods descend in the future, he would use them to follow him. The otherworldly gods talked about conditions, but Lu Yang actually wanted to treat them as a dinner for his subordinates, which made Harvey really terrified.

For half a lifetime of bitter love, he persuaded him, "Hurry up and surrender, or all your subordinates will become rations. Why bother, you don't think for yourself, but also for your subordinates." ."

Harvey could no longer be noble anymore, kneeling respectfully in front of Lu Yang, and said helplessly, "I am willing to surrender."

Lu Yang sneered and said, "From now on, you can enjoy your life in Donghai Underground City. All your subordinates will be managed by Oberto."

Oberto stood at the door, ran in quickly after hearing the words, and said respectfully: "Thank you for the reward, the master."

Lu Yang stared at Harvey and said, "Go tell your subordinates and choose to surrender like you and become my slave. Anyone who doesn't want to live will not survive today."

Harvey stood up, pressed the wound, and walked out the door to persuade his subordinates to surrender.

Chapter 2195: Catch the fire crow

Zhuo Jiu, White Lion and others originally thought that Lu Yang would treat Harvey very preferentially. Unexpectedly, Lu Yang would suffer such a painful assassin. From now on, Harvey will only be able to live in this world without an arm. Medical conditions are absolutely unavailable.

“Boss, what’s the matter with you?” Zhao Cheng asked.

Lu Yang said worriedly: “Time is not enough, I don’t have time to waste with Harvey.”

If it was before, he would treat Harvey very kindly, but the orc army is coming. If they can’t evacuate everyone after more than ten days, and at the same time, they have to set up a line of defense in the East China Sea. Lu Yang’s relatives and trust will die. His brother, he would never allow such a thing to happen, so Harvey and his people would die if they didn’t surrender today.

The hawks in the prison originally wanted to hold on, but seeing Harvey’s appearance, they knew that Lu Yang was really angry. In terms of survival and freedom, they were very aware of current affairs and chose to survive.

A burst of nine-colored rays of light flashed over the prison. Soon, about 3,500 hawks made their promises voluntarily and became Lu Yang’s efforts, and the symbols of slave characters appeared on the hawks’ eyebrows.

When the last Harvey also showed his loyalty, he respectfully knelt in front of Lu Yang and said, “Master, the harpy is waiting for your order at any time.”

Lu Yang nodded in satisfaction, looked at the dirty wine next to him and said, “Give them weapons and trap nets. Let’s catch the Tier 3 Fire Crow King and Eagle King.”

A Tier 2 Fire Crow has a body length of five meters, and a Tier 3 Fire Crow King can even reach ten meters. Humans can ride on their backs. The Fire Crow has enough power to carry humans in the air. Flying for a long time is a pretty good flying mount.

The archers knew that the harpy was for them to catch the Fire Crow King, so as soon as Lu Yang gave the order, they gave the eagle’s net and purple star steel knives to the harpy around him.

Oberto took a short knife and weighed it in his hand, and said: “It’s not very easy to take advantage of, but as long as we are close, the third-tier Eagle King and Fire Crow King will be captured.”

Lu Yang said: "We go to the northern forest, and today we must catch a thousand fire crows and demonized giant eagles."

The reason why he was so anxious was because Fu Yun couldn't use satellites to stare at the rushing orcs. Besides, satellites couldn't monitor them at any time. They could only take photos. Once the orcs split out a vanguard, wait until Lu Yang knows. I'm afraid it's too late.

Only when he caught Fire Crow or Eagle King and watched by the Jagged Brothers in the air, could Lu Yang truly feel at ease.

Now all the fire crows are resting in the forest on the north side of Fengshi Railway Station. The trees there have mutated, are not afraid of flames, and are extremely hard.

The original fire crows were the crows of Fengshi. They became fire crows after they mutated, but they did not change their previous habits.

In the cold winter season, all crows are used to gathering together for the winter. Now they have become fire crows and still gather together, and because they can set fires, they have formed a tyrant in the forest.

When Lu Yang came to the forest with 3,500 eagles and 4,000 archers, a large number of fire crows could be seen gathering together everywhere. Their black bodies were very easy to identify in the snow-covered forest, especially The flames from their bodies from time to time bake away the snow and ice of the trees they inhabit. As long as any tree in the forest is not covered by snow, there must be a fire crow there, and there are more than a dozen in a litter.

Oberto flew over the forest, holding the communicator on his wrist, and turning on the video mode to show Lu Yang the situation in the forest. He found that although the fire crows were gathered in a nest of more than a dozen, the fire crows as a whole It's very close.

There are at least a thousand flaming crows in this forest, and one accidentally may lead all the flaming crows out. At that time, unless they are killed, they can only escape.

Lu Yang sent a message to Oberto and said: "Be careful, don't quote too much at once."

“Give it to me.” Oberto’s mouth showed a grin. As Lu Yang said, these creatures in other worlds contain magical elements all over their bodies. They are the favorite food of demonized creatures on earth. As long as he leans over, even if they are Huo Crow was not hungry, so he took the initiative to attack him.

Inside the forest.

The six nests of fire crows from the outermost place were closing their eyes and resting. Each nest had a fire crow watching one direction. When Oberto flew over their heads, one of the fire crows spotted him.

“Quah~!”

The fire crows in the other five dens all turned their gazes at Oberto, their eyes full of vigilance, and flames ignited all over their bodies.

The fire crow is wise. What happened in Fengshi recently is clear to them. The harpy is a group of activities, and it is easy to not appear individually. The fire crow feels vigilantly that the appearance of this harpy has a problem.

Oberto didn’t care about so many, he said a spell and aimed at the front nest of fire crows.

“Wind Blade Flurry”

The twelve cyan wind blades blasted towards the fire crow with a piercing sound. Don’t look at Oberto’s strength as a second-tier elementary level, but the hawks naturally understand the wind spells, and the power of the wind blades can reach The second-order intermediate or even advanced.

Although the fire crows in this nest are all Tier 2, they did not dare to use their bodies to resist the attack of the wind blade. The body of the fire crows in charge of alert ignited flames instantly. After screaming, twelve with cyan flame tails A big fireball hit the mouth of the bowl.

The wind blade collided with the fireball, and there was a blast in the air. The surrounding six nests of fire crows had already opened their eyes. At the same time, they screamed and opened their wings fiercely, and flew towards Oberto from all directions. past.

“Catch up with me if you can.” Oberto flapped his wings, turned and ran, while still not forgetting to continue to hit the wind blade behind him.

The more than 70 fire crows that flew up were a little flustered by the wind blade, and their faces were more angry. Many of the fire crows had red eyes, red flames ignited on the black feathers, and flew towards Oberto. .

A cyan light flashed on Oberto’s wings. This was a wind system’s wind spell, which allowed him to maintain a faster flight speed in the air. He dived into the forest.

More than 70 fire crows rushed into the forest with them. just came to a clearing in the forest. Suddenly countless giant nets descended from the sky, and each net was caught by four hawks. Pointing at the four corners, at the moment they trapped Fire Crow, their right hand was placed on their chest and **** were raised.

“Wind Binding”

The fire crows trapped in the net instantly felt that the magic elements around them were separated from them, and the magic elements in their bodies became extremely disordered. Not only were they unable to release spells, the disordered elements also made their bodies extremely uncomfortable. It can’t be done in normal flight.

This is the signature skill of the Harpy. It needs to be charged before release. Once the release is successful, the target cannot use any spells in a short period of time, and normal actions will be difficult due to the random collision of the spells in the body.

Although Fire Crow possesses wisdom, they have not yet evolved to be so smart. The more trapped they are, the more they want to break free, and the more they struggle, the more violent the spells in their bodies will be, and many Fire Crows fainted on the spot.

Lu Yang immediately commanded the 70 or so archers around him to rush out and cast a spell at Huo Crow's head.

Countless nine-color rays of light bloomed in the forest. After the rays of light passed, elemental magic words-the word pet appeared on the heads of every crow, proving that this crow had become a personal pet of a certain Jagged Brothers archer.

Chapter 2196: The mighty fire crow king

After the fire crow woke up, he found that he had become a human pet. Rarely did he immediately become angry, but his eyes were full of doubts.

The archers of the Jagged Brotherhood immediately communicated with the fire crows with their mental communication skills. As creatures with a certain degree of wisdom, most of the fire crows were promised various benefits, such as drinking better drinks and eating better. After eating meat and other things, they are willing to become human mounts.

The pet contract is a terrible contract. It is similar in nature to a slave contract. The owner can force the contract to kill pets. Therefore, the fire crows are still very aware of current affairs.

"Boss, the first batch of 72 shooters have completed the pet contract." Zhuojia reported to Lu Yanghui excitedly.

Lu Yang nodded, looked at Oberto, and said, "Next batch."

"Yes." Oberto nodded, shaking his wings and flying into the air, continuing to attract the fire crows.

After attracting six batches of flaming crows, nearly 500 in number, a giant flaming crow about 10 meters in length suddenly appeared above the open space. When he saw that a large number of flaming crows were captured by humans, the giant A look of rage appeared on the face of the fire crow.

"Tier 3 Fire Crow King, everyone dispersed." Lu Yang shouted.

Muojiu quickly took the archers to evade, and even the fire crows in the net couldn't take it away. Oberto immediately took the harpy and flew around.

“Quah~!”

The Tier 3 Fire Crow King's body suddenly burst into blazing white light, and countless white fireballs shot out from all around him. The fireballs are not big when seen from a distance, but they can only be seen clearly when the fireballs are approaching. The white fireballs have a diameter of 2 meters.

After landing, the fireball exploded a large pit with a diameter of 5 meters. Many of the Jagged Brothers shooters who had no time to escape were injured by the fireball.

What Lu Yang was most afraid of was the scene in front of him. In the case of a sneak attack, it would be difficult to capture the Tier 3 Fire Crow King. When the Tier 3 Fire Crow King took the initiative to spot them, it was even more hopeless to arrest them. Is ready.

“Spirit Binding Array”

A hundred hawks in the distance were standing in a strange formation. When they chanted a spell at the same time, the bodies of a hundred hawks glowed at the same time. From a high altitude, one could see that it was a huge element. Symbol, meaning “bound”.

The huge element symbol violently absorbed the surrounding elements. In the next second, a tornado with a diameter of 10 meters suddenly fell from the top of the Tier 3 Fire Crow King.

As soon as the Fire Crow King was about to shake his wings and escape, Lu Yang rushed towards the Fire Crow King, as if mocking the Fire Crow King. When everyone did not react, the Fire Crow King expelled a white flame toward Lu Yang in anger.

In the next second, Lu Yang's body exploded, but at the same time, the tornado accurately landed on the fire crow king. The violent hurricane continued to tear the magic power in the fire crow king, and separated him from the magic elements from the outside world. .

Ordinary second-order spells, wind binding, are not effective against this level of Fire Crow King. The only thing that can control the Fire Crow King is spirit binding. But that is a third-order spell and no harpy can release it. Therefore, Obo He used this trick to bind the spirit formation.

The archers of the Jagged Brotherhood and the Harpy were not excited at this time, because Lu Yang had died just now. At the moment when they lost their senses, Lu Yang jumped out of the ground where they were originally, and shouted, "Quick control. King Fire Crow, hold on to everyone."

Oberto, Zhuo Jiu and others saw that Lu Yang was not dead, they were relieved, and quickly jumped onto the tree in front to prevent other flaming crows from coming. Other hawks also flew into the air to help guard.

In the open space, the Fire Crow King had been forced to the ground by the hurricane at this time, and he couldn't even fly. No matter how he made a sharp cry for help, he couldn't get out even when he was torn by the hurricane.

The only thing Fire Crow King can do is to maintain the stability of the body and not be swept by the hurricane, but he can only do this, but this is a contest of physical strength.

Lu Yang surrendered about 3,500 hawks. It was very difficult to resist a spirit-binding formation with just one Fire Crow King. When the second spirit-binding formation relay came down, the first spirit-binding formation came down. The Raven King couldn't hold it anymore, and could only follow the hurricane in circles.

Five minutes later, the Fire Crow King fell to the ground, no resistance at all. The Zhuo Jiu and others were a little distressed, but Lu Yang did not let it. He asked the Harpy to continue the spirit-binding formation for 1 minute, and let the fire crow. When Wang Zhuan's was about to die, the turbid wine rushed over.

"It's yours," Lu Yang said.

Muddy's excited eyes lit up. This was his first flying pet. He hurried to the front of the Fire Crow King, bit his finger and drew the magic symbol on the Fire King's head.

If you want to subdue a Tier 3 monster, you have to use your own blood. The Fire Crow King has no resistance at all at this time, so he can easily finish drawing the magic symbols.

Nine-colored rays of light flashed, and the word “pet” in the element language was engraved between the eyebrows of the fire crow king. After that, the muddy wine and the fire crow king had the ability to communicate with each other, and he quickly looked at the healer in the Sagittarius team Department members.

Several archers who knew healing spells ran over. After a period of natural spell treatment, Tier 3 Fire Crow King opened his eyes and his body recovered as before.

“Quah~!”

The Fire Crow King screamed obediently, rubbed his head against the stale body, and the aura of violence disappeared.

Lu Yang clenched his fist hard and said, “Check your phone, and after confirming that it is correct, take the first batch of fire crow shooters to a place 200 kilometers downstream of the coordinates of Taiping Lake, where the orc army is resting, follow them, and report them all the time. Case.”

“Yes.” Zhuojiu nodded, he turned his head and looked at the 72 fire crow shooters beside him and said, “Follow me.”

The 72 fire crow shooters each jumped on the back of the fire crow and controlled the fire crow to fly into the air. The stale wine also jumped on the back of the fire crow king. The fire crow king flew into the air as soon as the fire crow flapped their wings. Their speed was very high. Soon, within two minutes, it became a black spot on the horizon.

Lu Yang looked at Oberto and said, “Let’s continue.”

“Yes.” Oberto flexed his muscles and continued to fly to the depths of the forest to draw the fire crow out.

For a whole day, Lu Yang was leading the shooters to catch the Fire Crows. By the end of the night, the number of arrests exceeded 2,000, and the Fire Crow King also caught 10 of them.

Except for the few things that White Lion and Zhou Tianming didn't like, the others rushed to ask for the Fire Crow King. Finally, Lu Yang allocated the extra to Han Fei, who was spying on the news, and Han Yu from the shooter team.

"We will fly to Fu City early tomorrow morning, and everyone will go back to rest." Lu Yang said loudly.

"Yes." The harpy and the fire crow shooters responded one after another, and under the leadership of the team leader, they returned to Feng City to rest.

Originally, Lu Yang wanted to catch fire crows late at night, but his vision at night was too poor. He was worried about casualties, so he took some people back.

More than two thousand flaming crows are enough. This time he is planning to use the flaming crows to carry oil workers and managers from Feng City to Fu City.

It's too much trouble to hit from the ground and it takes a long time. If you fly directly, it will take you an hour.

Chapter 2197: The supply mission was successfully completed

Early the next morning.

"Dididi"

Lu Yang was practising with his eyes closed. The video phone on his wrist rang. He picked it up and saw that it was from a dirty drink. He pressed the connect button and asked, "What's the matter?"

"Boss, we have tracked the orc legion." Muddy Jiu was controlling the Fire Crow King to fly in the air, and he turned the camera to the ground.

In front of a high mountain, the orcs were resting at a water source at the foot of the mountain, and the team looked very anxious.

Lu Yang smiled and asked, "Why didn't they leave?"

Zhuojiu smiled and said, "I have been observing for a while. The general of the orc army seems to have no idea which mountain to go. He sent more than a dozen spies into the surrounding mountains to explore. It looked like finding a way, but also like Looking for a source of water."

Lu Yang smiled at the corner of his mouth, and he was a little relieved, and said: "It should be looking for a road with a water source. The other party has a phone. You should be able to know the specific road to Feng City. However, the video map on the phone does not indicate the water source. Earth, the previous Temple Legion was killed by us again. The Orc Legion didn't know which road had water and did not dare to move forward easily. This added a lot of time for us to transfer."

Zhuojiu also breathed a sigh of relief, and said, "I will keep an eye on them, boss, don't worry."

Lu Yang nodded and said, "You did a good job. I don't worry if you are over there. Remember, don't let yourself get tired easily. There will be a lot of wars and you can't fall."

"Yes." Zhuojiu said solemnly.

Lu Yang hung up the phone and sensed a group of people coming from a distance. He knew that Zhao Hua should be here. Recently, he has been cultivating his perception ability and he has improved rapidly.

When he walked to the door, Lu Yang saw Zhao Hua walking quickly with more than 200 people. When he was in front of him, Zhao Hua excitedly said: "The engineers from the power plant and the oil plant

have brought them. These people are enough to make the power plant and The oil plant is operating normally.”

“Very good.” Lu Yang raised his wrist and shouted into the intercom: “Come back, get ready to go.”

At 5 o’clock in the morning, all the fire crows had been sent out to find their prey. Now it is 8 o’clock, the hunting is over.

“Yes.” In the intercom, Hanai Bansheng and Zhao Cheng responded together.

Zhao Hua was wondering where the people were. Suddenly, dense black spots appeared in the distant sky. Then, these black spots quickly approached, revealing the original face of the fire crow.

“Qua~!” The fire crow king at the front issued an instruction, and the first one landed on the ground, and he jumped down from above for a long time. Then, the fire crows landed on the open space in front of Lu Yang. A large piece of Wuyangyang.

“You have subdued so many Fire Crows, and Fire Crow King!” Zhao Hua said in awe.

Lu Yang smiled and looked at the surprised engineers, and said, “Don’t be afraid, everyone. These fire crows have been tamed by us and become the mounts of the Jagged Brothers archers. They will take them this time. As you fly to Fu City, accompanied by a large number of Jagged Brothers fighters and wizards, your safety will be 100% guaranteed.”

An old engineer walked up to Lu Yang. Although he was scared, he gritted his teeth and said, “I am Yao Ye, the workshop director of the original oil plant. Don’t worry, we will do our best.”

Lu Yang nodded, and it was very difficult for older people to accept what was in front of them, but this was the reality, and everyone needed to face it together.

Half a life of bitter love and Zhao Cheng ran to Lu Yang, and half a life of bitter love said, “They are all ready.”

“Take the engineers to the Fire Crow.” Lu Yang said.

“Yes.” Kuai Bansheng and Zhao Cheng turned around and came to Yao Ye and the others, leading them to the Huo Crow that had scared them before.

The engineers here had just gotten into the fire crow, and Pan Yuhang led a group of Tier 1 cultivators over. They were called by Lu Yang in order for them to receive training.

There are few space-time rifts in Fu City, and otherworldly gods do not see that small city. Therefore, there are no otherworldly creatures, only demonized beasts and insects, just enough for Pan Yuhang and the others to experience it.

“Boss, there are 1026 people in total.” Pan Yuhang said.

Lu Yang said: “You are temporarily assigned to Zhao Cheng’s command, and he and his teaching team will guide you in the battle.”

“Yes.” Pan Yuhang nodded, and then respectfully nodded to Zhao Cheng.

“Get into the fire crow, let’s talk about it on the road.” Zhao Cheng said.

The group hurriedly followed Fire Crow, and Pan Yuhang sat on Fire Crow King with Zhao Cheng.

Lu Yang saw that everyone was ready and summoned Red Night. The first one flew into the air, followed by the fire crows, and just an hour later, they flew to the oil refinery in Fu City.

Seen from the sky, there is no smoke in the oil refinery. The countless chimneys are facing the sky. No one is smoking. The rain has rusted all the steel. It is now in winter. Almost all the buildings are covered with rust. There is snow.

There are also snow and weeds everywhere on the ground. A variety of first- and second-order demonized wild boars, demonized wild wolves, demonized wild foxes and other creatures roam the ground, each dividing its territory, and no one invades another's area.

Lu Yang led the team to the huge open space in front of the factory, and said loudly, "Fire Crow is ready."

"Yes." The love half-life raised his right hand high, and more than 2,000 fire crow shooters issued orders to their mounts one after another.

"Qua~!" More than 2,000 fire crows screamed in unison, forming a blazing white ring in front of their bodies, and countless white fireballs flew to the ground one by one.

This was an indiscriminate attack. More than 2,000 fire crows shot tens of thousands of white fireballs at a time. When the attack was over, the ice and snow on the ground was gone, leaving only a scorched earth.

"Landing, the engineer stood in the middle of the protective circle formed by the fire crow, and the others cleaned up the demonized creatures in small teams." Lu Yang said loudly.

"Yes." The bitter love Bansheng, Zhao Cheng and others showed excited expressions, each took out a purple two-handed sword made of star steel, before the fire crows landed, they jumped down and led the melee group into the factory to slaughter. stand up.

A part of the fire crow shooters did not land, they ordered the fire crow to stop in mid-air, bowed their bows and started shooting in the air.

The first and second-order demonized creatures are now in the eyes of the Jagged Brothers warriors, just like high-level players returning to the Novice Village to fight monsters, killing them with ease.

In less than an hour, the demonized beasts that could still stand in the oil plant were no longer visible. Zhao Cheng dug a demon core from the head of a Tier 2 demon wolf and threw it to Pan Yuhang. "I'll go in and now teach you melee combat."

“Hey~!” Pan Yuhang excitedly followed Zhao Cheng into a workshop.

After half an hour.

“Building No. 1 has been cleaned up.”

“Building No. 2 has been cleaned up.”

“Building No. 3 has been cleaned up.”

“The warehouse is cleared.”

...

With the factories being cleaned up everywhere, Lu Yang’s hanging heart was also relieved, which proved that there were really no high-level monsters here. He looked at the bitter love half a lifetime and Yao Ye who ran back. The others said: “For half a lifetime, bitter love brought 500 people to stay to protect the engineers and repair the equipment, and the rest followed me to the power plant.”

Zhao Cheng led Pan Yuhang and the others back to Fire Crow. As Lu Yang flew to the power plant not far away, the monsters in the power plant were also cleaned up soon.

In the afternoon.

The power plant engineer pressed the switch, the power system of Fu City was activated instantly, and the hundreds of oil tanks and pipelines in the oil plant started the transmission mode.

In just 10 minutes, Zhao Hua called and said excitedly: “The oil is out. I have mobilized all the large transport vehicles in Fengshi. The transfer speed has increased by at least 30%. The subsequent vehicles will be added. Full of fuel and faster, I can guarantee that the evacuation will be completed within 8 days.”

“Very good.” Lu Yang breathed a sigh of relief, and finally everything went well. The annual output of the refinery is tens of millions of tons. The oil tanks in the warehouse are in full reserves every day. There are nearly 300,000 tons of gasoline and diesel, enough to support 8 In days, now it’s up to the defense situation on the East China Sea.

Chapter 2198: Time Mother Worm

Just as Lu Yang was about to call Fei Yang, his intercom suddenly rang. He picked it up and saw that it was Zhao Cheng. He frowned and pressed the call button and asked, “What’s the matter?”

“Boss, something went wrong, come here to support us, we are surrounded by a group of wild wolves who know time and space spells.” Zhao Cheng said in a flustered manner.

“Send me the coordinates.” Lu Yang hurriedly ran outside.

When he came to the door, Zhao Cheng sent the coordinates to his communicator, and he shouted: “Red Night~!”

“Roar~!”

With the sound of the dragon’s whistle, Hong Ye flew out of Lu Yang’s Demon God Temple, instantly transformed back into a 15-meter-long body, and stopped in mid-air.

Lu Yang jumped to the top of Hong Ye’s head and quickly flew towards Zhao Chengji’s coordinates. Fortunately, it was not far away. In a forest on the east side of the power plant, Lu Yang arrived in just 5 minutes. local.

Seeing from the air, as expected, Zhao Cheng and Pan Yuhang and other 9 people were surrounded by five wild wolves with white weird rays all over their bodies.

It was the first time since the soldiers of the Jagged Brotherhood obtained the Star Steel Weapon that they were beaten by monsters with less.

“Wow~!”

There was a howl of a wolf, and the larger wild wolves standing not far away wailed and howled. The five wild wolves in the arena with weird rays all over their bodies suddenly attacked Zhao Cheng and the others.

Zhao Cheng’s attack was very accurate. The two-handed sword in his hand slashed towards one of the wild wolves in the same direction as the wild wolf. But when the long sword was about to stab the wild wolf, the wild wolf suddenly turned into place. A white light disappeared, and when it appeared the next second, it turned out to be on Zhao Cheng’s back.

“Squeak~!”

The harsh, sour rubbing sound rang out. Fortunately, Zhao Cheng is a martial arts practitioner. He not only cultivates weapons but also cultivates his body. His skin is comparable to copper skin and iron bones, and it has not been cut by the claws of wild wolves.

But Pan Yuhang and the others were not so lucky. They were cut through their skin by wild wolves that used time and space spells to change their attack positions.

Fortunately, these injuries are not fatal, but they keep bleeding, and the wolf king also means this. When the enemy cannot be killed immediately, the enemy can be killed by such a consumption method.

Lu Yang carefully looked at these wild wolves with monster rays all over them, and asked the Blazing Demon God: “How did this happen? What about time and space spells?”

Ever since the Blazing Demon God saw these wild wolves, his brows have not been stretched, and he said solemnly: "You have to be careful, this kind of time and space spells are best not what I imagined. If it is, it will be for you. So, is it another disaster?"

"What do you mean?" Lu Yang frowned and asked.

The Blazing Demon said: "I said that the universe in the universe not only includes the earth and other worlds, but also many other races. The ability you see now is the ability of another race. That race is called the Space-Time Zerg. In the body of this group of wolves, the power of the Space-Time Zerg was felt, but their abilities were very weak. It may be the ability that they acquired after eating the body of the Space-Time Zerg who came here by accident.

"How to kill them? It's disgusting to keep jumping in time and space." Lu Yang also scratched his head a little, unless Hong Ye kept covering a large area with dragon's breath, so that these time and space wild wolves had nowhere to escape, otherwise he couldn't kill. They, but only Lu Yang could use this method, and Zhao Cheng would still be unable to deal with them next time they met.

The Blazing Demon said: "The space-time zerg has a weakness, that is, when they break through the space, they do not break open temporarily, but make time-space markings in advance. As long as they perceive the weak fluctuations in the surrounding space-time in advance, they can crack these space-time wolves. s attack."

Lu Yang nodded clearly, jumped off Hong Ye's back and landed on Pan Yuhang's back, slashing at a time and space wolf that sneaked in with a sword.

White light flashed, the time and space wolf disappeared, Lu Yang instantly sensed a time and space fluctuation 30 meters away, and the purple star steel short sword in his hand flew out instantly.

The next moment, 30 meters away, where Lu Yang perceives, a space-time wild wolf jumped and appeared, but before landing, the purple dagger whirled through its neck and separated his corpse.

Zhao Cheng, Pan Yuhang and others were feeling helpless. They all showed surprise expressions when they saw this scene. Zhao Cheng asked excitedly: "Boss, how did you do it."

Lu Yang smiled at the corner of his mouth and said, "I'll teach you later."

He rushed to other time-space wild wolves. With his perception ability, he easily chopped the other four wild wolves to the ground. They were not given a chance to escape. Only the last wolf king, Lu Yang, remained unkilld. It followed closely behind it and ran all the way to a low mountain.

There is a natural cave in the mountain. The entrance of the cave is only about 5 meters. As soon as the wolf king was about to get in short, there was a sharp pain in his neck and he died at the entrance of the cave.

A white light flashed, Lu Yang appeared beside the wolf king, put away the purple dagger, wiped the blood stain briefly, and threw a Pyroblast technique into the cave.

The pitch-black cave was instantly lit by flames, and Lu Yang was a little surprised that there was no wolf in the cave, and in the depths of the cave, there was a small space-time fissure. Below that fissure, one was stopped. Strange creature cut off.

"Flame"

Lu Yang ignited a flame with his right hand, illuminating the 30-meter area around him. He stepped into the cave. Zhao Cheng, Pan Yuhang and others followed closely behind him. Each of them had a healing scroll in their hands. The body was traumatized. Healed soon.

When he came to the depths of the cave, Lu Yang saw the huge corpse clearly. It was a strange creature with sixteen pairs of eyes. His body was extremely large, with a diameter of more than 10 meters in the north. There are half wings.

"What kind of monster is this?" Zhao Cheng frowned and asked.

Lu Yang was also curious. After the Blazing Demon God scanned it, he sighed and said, "If you are lucky, this is a juvenile body of a time-space female insect.

There is one of the greatest insect queens in the space-time zerg. Whenever she reproduces, she will produce some female insects. Then she throws these female insects into some unexplored space-time. If there is a suitable area for survival, these young The mother worm will multiply quickly and kill all enemies on this planet.

Obviously, this female worm found the earth, but unfortunately, her strength is too bad. When she broke through the space, she only broke halfway. Before the whole body came over, the twisted time and space became a line, and his body was cut off by the waist. , Only the upper half is left. ”

“It looks like we are lucky.” Lu Yang smiled at the corner of his mouth, took out the storage bag from the space, and handed it to Zhao Cheng and others, and said, “Come on, put the flesh and blood of this monster in, and we will go back and study it. ”

Since it is a time-space monster, it should be able to make time-space scrolls or storage bags, which is the most lacking in the Jagged Brothers.

Chapter 2199: Riyueshan refreshed

After a lot of busy work, the body of the giant monster was rammed into more than 100 bags, among which special organs such as eyeballs and brain were stored separately.

Lu Yang took them back to the Demon Temple, and said, “Today’s affairs are not allowed to be spread out. You will stay at the power plant to guard, and I will return to the East China Sea.”

“Yes.” Zhao Cheng, Pan Yuhang and others responded together.

Lu Yang walked to the door, remembering to teach them the ability to perceive, and said: “I will make a video of the perceptual method and send it to the “Second World” exercise explanation. If there is anything, I won’t ask me at any time. ”

Zhao Cheng, Pan Yuhang and others know how busy Lu Yang is, and they are very grateful to be able to record exercise videos for them in such a busy situation.

“Thank you, boss.” Everyone bowed and blurted out.

Lu Yang waved his hand with them, jumped into the red night, and flew quickly towards the Donghai Underground City.

On the way, he recorded the well-researched perceptual learning methods and his own learning experience into a video, which was posted in “Second World”, so that not only the people in Donghai, but also everyone in the country could see it. To.

In the past, perceptual abilities were innate, and no one knew how to learn. The method Lu Yang taught can allow people to learn perceptual methods. However, this perceptual ability is still not something that everyone can learn.

According to the Blazing Demon God, those who can learn spells are one in a million, and those who can perceive are one among those who learn spells. That is to say, among the huge Jagged Brotherhood, forty to fifty thousand mages and warriors. , I am afraid that less than 6 people can learn.

“You don’t need to be exacting, this thing is to follow the fate, but to improve your own strength.” Lu Yang concluded at the end.

“Roar~!” Hong Ye roared.

Lu Yang looked down, he had reached the dungeon, and the people below also saw Lu Yang and were waving at him.

At this time, the underground city has a new look. On the side of the mountain, a large number of buildings are already being constructed. The previous batches of Fengshi people who came to the East China Sea are stepping up the construction of their houses.

Tens of thousands of junior soldiers were sweating. In the cold winter, they all took off their shirts, and their skin was covered with dirt and dust, but they looked exceptionally energetic.

Lu Yang knew that these people now regarded him as hope. He waved at them and controlled Hong Ye to fall at the entrance of the dungeon. After receiving Hong Ye into the Demon Temple, he came to the floor where Grant was.

“Ah~~~!”

“Stop cutting me, I can’t stand it anymore~!”

...

Lu Yang just opened the elevator, and all kinds of wailing and screams filled this floor. Now if you want to get to this floor, it is no longer normal to enter. You must enter a password to stop the elevator on this floor. Inside, and there are commissioners monitoring inside the elevator.

“Boss, Grant is in the front laboratory.” The man pointed to the front room of the elevator door.

Lu Yang gave a hum, walked into this floor, and looked left and right. On the left is the second-order treant area. Experimenters kept cutting off the new branches of the treant.

On the right is the Flower Demon. The patriarch of the Flower Demon Flander, who Lu Yang fought before, was even more miserable at this time. The huge flowers on his body were chopped down by the experimenters, and only half of his body was planted in the soil dying.

Going further forward is the fire demon, their bodies are plugged into a special high-temperature tube, and blood like magma is constantly flowing out of the tube, and each fire demon is stubborn, as if it has become a living dead.

As for the dark demons, they are even more miserable. A large number of dark demons are required to parasitize the bodies of various animals. When they absorb the energy of the animals and breed new

ones, these new dark demons will be crushed into powder and transported. Go to another laboratory not far away to make scrolls.

Lu Yang did not feel uncomfortable seeing this. On the contrary, he felt that Grant did a good job. Compared with the murders created by the Dark Demon in the suburbs, the Flower Demon, Tree Demon and Flame Demon intended to sacrifice 3 million people in the East China Sea. They are the best way.

“Boss, why are you here?” Grant just came out of the room with a note in his hand, as if to observe some data.

Lu Yang smiled and said, “I’m bringing you something, a time-space female bug, a bug that can jump in space.”

Grant’s eyes lit up. After being in another world for so long, what he wanted most was the corpse of a space-time monster to make a space-time teleportation channel. Unfortunately, this world didn’t seem to be a space-time monster, and twisted time and space he approached. No, this has always been his regret, and he didn’t expect Lu Yang to make up for him so soon.

“Show me quickly.” Grant said excitedly.

Lu Yang took out more than 100 storage bags from the Demon Temple, and said, “When we found out, the time-space female worm died. Only these flesh and blood are left. I sorted them into these bags and handled them carefully. Don’t lose manpower. , You are all babies.”

“Boss, rest assured, let me study and study.” Grant was already in a state of madness. There were only more than 100 bags of flesh and blood in his eyes. He didn’t even look at Lu Yang. He called to the surrounding experimenters and pulled the flesh and blood into the experiment. room.

Lu Yang looked at this scene with a smile, turned and left this floor. As soon as he arrived at the door, Bao Buping called and said, “Boss, Augustus sensed that the next group of demons is coming. It is estimated that it will be three days later. .”

“I’ll mobilize people here,” Lu Yang said.

With no time to rest, Lu Yang didn't have time to see Lan Yu, summoned Red Night, and flew towards Riyue Mountain outside the L8 area.

Before Lu Yang transferred Augustus back to the dungeon to be responsible for making the scrolls. Later, after his deputies were sincerely surrendered, Bao Buping asked Lu Yang to let his deputy Albas replace him and replace Augustus. Transferred back to Sun Moon City, specifically to sense the arrival time of the next batch of demons.

Lu Yang agreed to this request, and he has been paying attention to when the next batch of demons will arrive. Since the assumption of the time and space stabilizer, the demon **** in another world has not sent more demons over.

The Jagged Brotherhood has now added tens of thousands of warriors and wizards, and there is an urgent need for weapons made of star steel, and the archers also need arrows made of star steel.

Now it's finally coming, but almost two months have passed. Lu Yang worried that the enemy would be too powerful. He issued an order and said: "Magical wine, white lion, Xia Yuwei, bitter love for half a lifetime, Zhou Tianming, everyone is handsome. All the elites return to Sun Moon City, and the demons are coming."

"Yes." Zhuojiu, Baishi and others responded quickly.

The elites Lu Yang refers to are those who have reached the second-tier level and level 5 or above to the peak. Xia Yuwei's shooter group has 1,000 people, and Zhuojiu and White Lion each have 200 melee fighters. The lovely queen and Nanfengzhi. Yi their mage group are considered second-tier members, and more than 2,000 mages all flew towards Sun Moon City in the fire crow.

When Lu Yang came to the place, in addition to the long distance of Zhuojiu, Bai Shi, Zhou Tianming, Kuai Bansheng, Bao Buping, Augustus and others were waiting for him outside the Twisted Time and Space Palace in Riyue City.

Lu Yang controlled Hong Ye to fall to the ground, watching the people approaching him and asking, "What's the situation now?"

Bao Buping first said: "Augustus perceives fluctuations in the distorted space-time. Since the morning, the distorted space-time has been emitting black light, and there are signs of transmission."

Lu Yang looked at Augustus and asked, "What does black light mean?"

Augustus was tall, more than three meters tall. He knelt in front of Lu Yang and said respectfully: "My master, the black light is a signal from over there. It means that a large number of demons will be transmitted in three days. Ask the master not to kill them all and leave my people behind."

Lu Yang smiled and said, "As long as I can save them, I will definitely do it. It's up to you this time."

"I will do my best." Augustus said respectfully.

If you want to ambush the devil, you have to rely on Augustus' performance. Now, around this twisted space-time with stabilizers installed, a very majestic prison has been built with huge bluestones.

From the inside, it looks like a palace. When you walk into the "palace", you will see rooms such as a conference hall, a dining room, a kitchen, a lodging area, and a rest area. The place where the distorted time and space is located is called teleportation. The hall, there is a huge and wide room, enough to accommodate the next thousand people gathered at the same time.

In an ambush, Augustus needs to send the people who passed by in batches to areas such as the rest area and the assembly hall. The people of the Jagged Brotherhood will ambush in these areas in advance.

Among them, the newly transmitted Tier 3 demon patriarch will be greeted by Augustus to the restaurant next to him, and then Lu Yang, Augustus, Zhou Tianming and others will work together to kill.

If it was said that when he attacked Riyue Mountain, Lu Yang still felt that it would pay a heavy price to kill the demon with his strength. Now, looking at the elite fighters of the Jagged Brotherhood, it is very simple to do this.

The first 2,000 fire crow shooters came with Tier 3 steel hedgehogs, and the fire crow king was also involved. The fire lion warriors on the ground also rushed to support them at full speed. When the battle began, the "palace" Each room will instantly become a prison. Above the pillars of the room, a row of 50 cm high baffles can be removed. People can shoot and cast spells from a height. It can really be regarded as how many demons come and how many demons die.

"Everyone prepare." Lu Yang said.

Everyone nodded their heads and quickly began to prepare for ambush. In order to maximize the killing of the enemy, the lovely queen, Heiyan and others also preset the magic circle, cast spells in advance, and prepared to attack after the enemy entered the area.

When the staff was ready and everything was ready, it was already the evening of the next day. Everyone had only one night's rest. Early the next morning, Lu Yang was taking everyone to dinner. Augustus ran to report, one knee. Kneeling on the ground, respectfully said: "The black light is getting stronger and stronger, and there will be teleportation this morning."

Lu Yang looked at Zhuojiu and the others around him, and said, "Everyone directs the brothers to be in position, and everyone is ready for battle."

"Yes." Zhuojiu and others put down their chopsticks, quickly ran outside and issued a gathering order.

Lu Yang followed Augustus to the teleportation hall. The twisted space-time with a diameter of 50 meters was emitting dazzling black light. It was very rhythmic, just like human breathing. When the black light came out, Lu Yang needed it. Use your arms to cover your eyes.

Augustus said: "It looks like a lot of people will be sent this time, and I don't know what the Demon God wants to do. Master, you go to ambush. Just leave me and my people here."

"Okay." Lu Yang was also worried about revealing the stuffing, and turned to the restaurant to prepare for an ambush.

Augustus stayed alone. Not long after, a black light that engulfed the entire palace suddenly lit up. Even Lu Yang in the dining room could feel the horror of this black light. In the next second, the huge demonic aura from The teleportation hall was flooded, and Lu Yang knew that the first batch of demons had teleported over.

Inside the teleportation hall.

Augustus just put down the arm that blocked the light and looked carefully in the direction of the twisted time and space. He also felt that the demon tribe was coming, but when he saw who the demon tribe leader was, Augustus's face was exposed. An angry expression.

When the other party saw August, he had a grin on his face, and said arrogantly: "August, long time no see."

"How could it be you? Bandis!" Augustus's voice was a bit cruel, because the demon leader who came was turned out to be his enemy in the demon world, the chief of the Kaila clan, Bandis.

Bandis is the same size as Augustus. Both are more than three meters tall. They are also Tier 3 masters. The difference is that behind Bandis there are nearly 100 Tier 2 pinnacle masters. All creatures of this level are transmitted, Augustus and his people will become the weaker party, and will be completely suppressed by Bandis.

Bandis guessed that Augustus had this expression, and said with a grinning smile: "His Royal Highness asked me to tell you that he is very satisfied with your performance. We are reinforcements to help you open up the frontier and expand the territory."

"I obey the will of God and come with me." Augustus was speechless, turned angrily, and walked outside.

He clearly understood in his heart that the Demon God sent Bandis to check and balance him and prevent him from being the dominant one here, but the Demon God's approach is too chilling for him. If he is not captured by humans, he really depends on himself. After completing the stabilizer, it is now his turn to be unlucky, because he saw the weapon in Bandis's hand, which is the Tier 3 battle knife of the Demon Clan, which is stronger than the weapon in his hand. cut.

If the two are singled out, Augustus will definitely not be able to beat Bandys. If the follow-ups are still Bandys's men, then when Bandy's mind wants to get rid of him, only a high-sounding reason is needed. , Other people who came later would rush to kill him and his people to **** the resources he had already obtained.

"Fortunately, I surrendered to humans, otherwise I would be tricked by the devil." Augustus thought angrily.

Bandis became more and more proud as he watched Augustus's back. What he was thinking about now was how to get rid of Augustus. The Demon God sent him to check and balance him, but what he wanted was how to make him dominate his own family.

As for Augustus, he wanted to assassinate him from the beginning, or surrender to mankind? He never thought about it, because how could a low-level creature like a human have ever beaten a demon?

With this thought, Bandys triumphantly followed August to the restaurant. At this time, a large amount of meat was already placed in the huge restaurant. Augustus stared at Bandis angrily and said: " This is a welcome meal for you, eat it yourself."

"Thank you." The more Bandice saw Augustus's expression, the happier he was. He walked to the nearest table with a big laugh, grabbed a corbel and ate it, and said, "It tastes very good. This world really makes me like it."

Augustus frowned and asked, "How many people are there? Is the food I prepared enough?"

Bandis thought Augustus wanted to pit him, and said with a sneer: "This time the Demon God sent a total of 5,000 outstanding Demon fighters. Our first batch of 500 people arrived first, and the next batch

will be in five minutes. Here, you can prepare food as soon as possible. We have to rest for a while after we have eaten. Distorting time and space makes us too tired.”

“Huh~!” Augustus turned and walked away.

Bandis also didn’t bother to talk to Augustus, raised the wine barrel next to him, and shouted to the demon who followed him: “Cheers, let’s celebrate~!”

“Roar~!” The 500 demon ate and drank wildly.

Lu Yang hid in a distant room and looked at the situation in the room through the monitor. He raised his hand to signal everyone not to attack in a hurry, and said, “This group of demons are not very alert. Let them eat first. We will start when we fall asleep. It’s easier too.”

He put it there, as well as food and alcohol, which contained sleeping pills. Even if Augustus himself ate and drank, he couldn’t feel any strangeness. As long as he ate it for five minutes, the effect would be effective.

Bandis drank very fiercely. After a barrel of wine opened his mouth and drank it for a third before slowing down. On the other hand, Augustus returned to the teleportation hall and welcomed the second batch of demons, as he guessed. In that way, these demons are still members of Bandis.

Augustus led the second group of demons to the nearby assembly hall, and at the same time sent his subordinates to deliver a large amount of meat and wine.

Like Bandis and the others, the second group of demons also began to eat a lot of food, as if they had left another world. Without the rule of the demon god, they would be completely free.

After eating for 10 minutes, the effect of the medicine came up. Bandis felt a dizziness, and his men became even more drunk.

“Roar~! I love this world.” A demon roared up to the sky, and a thick black light appeared on his gray face, which was a sign of too much alcohol.

There is also wine in the world of the devil, but wine is a high-level item, and ordinary demons can't enjoy it. Now it can drink in this world, which makes the demons very excited.

Bandis frowned and looked at this subordinate, then looked at other people, and found that many of them were drunk, frowned and said: "Don't drink, don't delay."

No one listened to him. They all drank too much, their heads were no longer working, and they were still laughing and arguing with each other and drinking.

Bandis was angry. What he was worried about was that Augustus took advantage of his drinking. He quickly stood up, just about to release the spell to stun his men, but his head also felt dizzy, which made Bandis feel it. It's not right, because he knows the amount of his drink normally, only two barrels of wine will respond, and now half a barrel of wine is in this state...

Looking closely at his men, Bandis found that many people had completely collapsed on the ground, without knowing the personnel. At this moment, Bandis felt a horror, but just when he wanted to call people outside the council chamber to come in. At the time, Augustus suddenly flew from the door of the room and grabbed Bandis's arm with both arms.

The doors and ceilings on the left and right sides of the Assembly Hall suddenly opened. Lu Yang personally led the soldiers of the Jagged Brotherhood to jump in, and he said a spell.

"Fire Snake Bound"

A fiery snake entangled Bandis's arm directly, pulling it back hard.

Augustus and Bandis are both Tier 3 and their strength is almost equal. In the case of full confrontation, suddenly a force is added, and Augustus instantly takes the advantage.

Before the two could decide the outcome, the White Lion and Zhou Tianming jumped to both sides of Bandis at the same time, cutting off the purple two-handed swords in their hands at the same time. In an instant, Bandis's arms were cut off. The blood spewed out instantly.

Just as Bandis was about to scream, Lu Yang's fire snake got into Bandis's mouth, disrupting his voice, and letting him release a single voice.

"Die~!"

Augustus drew out the long knife from Bandys waist, and the cold light flashed by the hidden knife. Bandy's head was in a different place until he died. There was an unbelievable look in Bandy's eyes. He couldn't understand it. How could Gus be with humans.
