

Chapter 2561: weird event

The cultivation resources kept in the Blood Spirit Snake Clan's warehouse are still very rich. There are millions of original soul crystals of the monarch rank, and there are hundreds of thousands of magic energy crystals used to make various magic arrays. The most important one is the blood spirit. Snake tendons.

In particular, the snake tendons in the blood spirit snake emperor's body are as thin as hair, but they are extremely flexible. It takes more than ten times to cut with a blood roar of the lower **** level, and the white lion turns into a ghost face roar. After that, I pulled it hard, but it didn't break!

"Boss, this is a good thing!" The white lion took the snake tendons of the 3,000-meter-long Blood Spirit Snake Emperor into his hands. The toughness of this thing is extremely special. At the shortest time, it was only three meters in length, and it was coiled in his hand. , like a ball of thread.

The Blazing Demon God was also a little curious and used the flame to test it out, but the high temperature made the snake tendons of the Blood Spirit Snake Emperor scorched, and even burned at a high temperature of 300,000 degrees.

"If your goal is the physics department, even a low-level **** can't break free from the shackles of snake tendons." Blazing Demon God said.

Lu Yang took the snake tendon into the Devil's Temple, with a gleam in his eyes, and said, "I want to use this thing to deal with the Giant Claw Devil, what do you think."

The Blazing Demon God showed such a smile as he expected, and said, "I knew you were always thinking of the Giant Claw Demon and the Godbeard Clan."

“How can I miss this good opportunity?” Lu Yang looked at Malthus beside him and asked, “There is a Holy Light race called the Shenbeards. I don’t know if it has anything to do with you.”

This is still to be asked. If it is really related to Malthus, Lu Yang must let them go.

Malthus said solemnly: “I don’t know the Godbeards. Even if I do, the Godbeards belong to the defected race and kill them all.”

Shengguang’s punishment for traitors is always the most severe. Lu Yang’s worries in his heart were relieved. Seeing that all the brothers entered Bandarsburg, he flew into the sky and activated his perception ability to check again. After confirming that there are no blood snakes, he flew at full speed in the direction of Shan Province.

The battle with the Blood Spirit Snake Emperor didn’t cost Lu Yang a lot. Now let him fight a quasi-god-rank powerhouse, and he can win the fight. The same is true for his brothers. It takes almost no effort. The Blood Spirit Snake Race was completely defeated by the extremely cold weather.

Inside Bandarsburg.

Lu Yang transformed into a clone and was telling everyone about the shape of the giant pincer on the top of the castle. He was already able to use magic to transform the image he imagined in his head.

“The Giant Claw Demon is a humanoid demon with two giant crab claws on its arms. It is good at using water magic and physical melee attacks...”

“Godbeards, know how to transform angel wings, can fly short distances in the air, are good at using physical attacks, can transform long sticks with holy light, and fight the enemy...”

...

Malthus also joined in, narrating the weaknesses of the Godbeards, saying: “When fighting against them, the main target of the attack is their beards, this is a weird race, and all holy light energy needs to

pass through the beards. Going into the body, it is useless to blast their heads, as long as the whiskers can still transmit magical energy, the heads can be regenerated.”

Kuai Ai was a little curious and asked, “Where are their souls hidden?”

Malthus said: “Their beards are the souls of gods, and they grow outside, so their race is weird, this is a new **** race, not an old **** race, even if you put them If their bodies are broken, they can also be reborn with beards, and they can even be divided into several people by one person, which is a very difficult race to kill.”

While everyone was speechless, since the invasion of another world, they had seen too many strange races, such as flower demons, lava demons, and dark demons. In retrospect, the physical fitness of the human race was really too ordinary.

While Lu Yang was chatting with the crowd with his clone, on the other side, his body had already started to speed up. In just four hours, Lu Yang came to the Dushan Lake area in Shan Province again.

It’s been more than a month since Lu Yang passed by here last time, and he doesn’t know how the giant pincers and the Shenbeards fought.

In the afterglow of the setting sun.

The endless Dushan Lake has been dyed half blue and half gold. When Lu Yang flew over from a distance, he saw the abnormality of Dushan Lake at first sight. How brutal is the fight here.

dead body! !

From the lake to the north shore of the lake, there are dead bodies everywhere!

There are giant pincers, and there are **** beards whose beards have been broken off. When each of the two clans died, they returned to their original body size. The normal height of the gods is more than 50 meters. It is more than 40 meters.

Lu Yang made a rough estimate and found that the number of dead bodies on both sides together was nearly one million. Therefore, the blood flowing out dyed the 150-square-kilometer Dushan Lake into such golden and blue colors.

“Giant pincers, never die!”

“Godbeard, victory is at hand!”

...

The roars of the two clans came from the dense forest in front. The trees here also grew to a height of 100 meters due to the variation of the magical energy of the other world. Therefore, in the air, only trees could be seen constantly being cut down in the forest. Can't see the specific situation.

Lu Yang activated his perception ability and found the patriarchs of the two clans. In the depths of the forest ahead, the patriarch of the Giant Claw Demon Clan, who was completely injured, and the Patriarch of the Shenbeard Clan, who was also seriously injured, were glaring at each other.

“Damn it, if it wasn't for some **** who stole my tenth-order magic energy crystal, your Shenbeard clan would have died long ago.” The clan leader of the giant pliers roared unwillingly.

“If it weren't for my carelessness, you stole the magic energy crystals of our mountain defense formation, and your giant pincers would have died long ago.”

The same is true for the high-ranking clansmen around the two, all of them were exhausted, which surprised Lu Yang and said to the Blazing Demon God: “These two races are still fighting?”

Blazing Demon God said: “No, it should be a truce in the middle, but they are fighting again, you have to be careful, this kind of war is not normal.”

The deathmatch mode is activated between the races of the gods, not to mention whether they can agree or not, most of the clansmen are unwilling, and they are not fighting for the gods, and there is no

supervision of the gods. Are they not developing well? Why fight to the death for a dispensable survival area.

Lu Yang didn't feel normal either. He didn't act in a hurry, but observed it from a distance. This situation was either caused by someone making trouble, or the two clans found something special and had to **** it. Such a desperate fight!

Chapter 2562: Yuanyuan Tianjing

Inside the forest battlefield.

The patriarch of the giant pincers and the patriarch of the gods must fight again. This time, one of the pincers of the patriarch of the giant pincers was smashed, and blood spurted out. Lu Yang was shocked to see, and the other side of the gods was shocked. The patriarch was not in a good mood either. He used the holy light in his hand to condense it into a stick and it shattered.

"Hey, I still have a pliers, do you still have a weapon? This time you are dead." The patriarch of the giant pincers dragged his body and walked towards the head of the Godbeard clan step by step.

The head of the Shenxu clan showed fear in his eyes, and he couldn't help but step back, but he said with a stern expression on his face: "Don't force me, that thing was acquired by my clan after 100,000 years, and I will never know it. for you."

"That thing shouldn't be something you can have. Since I discovered it, if I don't kill you, you will kill me too. The relationship between you and me is already a mortal situation, and there is no other way. You can choose, hand it over, I can make you die faster." The patriarch of the giant pincers has raised the pincers.

The patriarch of the Godbeard clan continued to step back and roared: "I can't give it to you, I would rather give up my race, and I also want to keep him, that is the source sky crystal, and I will not give it to you even if I die."

Lu Yang suddenly felt that the soul of the Blazing Demon God moved, and he asked in surprise, "What is the source crystal? Is it special?"

The Blazing Demon God roared and said: "Grab the head of the Shenbeard clan and kill the clan head of the giant pincer clan, this secret must not be passed on to the two of them, and all the clansmen released will immediately kill all the clansmen of these two races, hurry up.!"

Lu Yang didn't dare to hesitate, and quickly opened the Bandarsburg teleportation array, and said to Zhuojiu, Bai Shi and others: "Kill all the enemies, there is a top secret incident."

"Brothers, come with me." Zhuojiu led the crowd and rushed towards the portal.

"Roar~!"

The head of the Shenbeard clan suddenly let out a long whistle, and a holy light emerged from his body that turned into wings, and he took him to fly quickly.

"Get down~!" The Giant Claw Demon Clan Chief jumped and chased down hard, but he never imagined that when the battle had reached such a level, the Shenbeard Clan Chief still had magic power to turn out wings to escape, and roared: "Damn bastard, a From the beginning, you made up your mind to abandon your clan and escape alone, right, you didn't use all your strength on the battlefield."

The patriarch of the Shenbeard clan saw that after jumping to a height of 500 meters, he had no energy left. The patriarch of the giant pincer clan, who started to fall slowly, said with a sneer, "Original Tianjing, who would want a clan?"

"This is mine, this should be mine!" The face of the giant pliers demon clan chief was full of unwillingness, and his eyes were fixed on a dazzling spar that appeared in the hands of the **** beard clan chief.

"Let me help you." Lu Yang's voice suddenly appeared behind the Giant Claw Demon Clan Chief. In an instant, the Giant Claw Demon Clan Chief's eyes widened. He turned his head in disbelief, but what he saw was The golden soul core thrown from Lu Yang's hand.

"Boom~!"

The flame soul core with a high temperature of 300,000 degrees exploded in the mouth of the Giant Claw Demon Clan Chief, and the entire Giant Clamp Demon Clan Chief's head was instantly blown to pieces, and his body fell to the ground uncontrollably.

Lu Yang took the power of this shock wave and turned it into a fire to quickly catch up with the fleeing Godbeard clan chief. Seeing him flying with all his strength, with a flick of his right hand, the blood snake emperor's tendons flew out, and the Godbeard flew out. The clan chief's body was tightly bound.

The Yuanyuan Tianjing that was originally held in his hand fell down and was caught by Lu Yang. In an instant, the kind of affinity that came from the source made Lu Yang unable to help but want to melt him into his body.

"It's amazing, what is this?" Lu Yang asked in surprise.

The Blazing Demon God flew out of Lu Yang's body, stared at the source Tianjing and said, "This is the material for making the Demon God's Heart."

Lu Yang was dumbfounded. He looked at the Blazing Demon God in disbelief and said, "The material for making the Demon God's Heart? How could it possibly appear in the hands of a **** race."

The Blazing Demon God couldn't understand it either, and said, "Search for his soul."

Lu Yang looked at the pale-faced Shenbeard clan chief, and also knew that the other party would not say this. He shattered his head with a palm, and used the soul search technique to search for his soul.

After some searching, he learned about the origin of the source Tianjing. It turned out that this Godbeard tribe has always been the hard labor of the new Holy Light God King race. The ability of this tribe is to keep digging holes to find scattered The source Tianjing in every hidden corner of the world.

The Blazing Demon God said with emotion: "No wonder the new gods are so strong. It turns out that part of the reason is that they have found more source sky crystals. Damn, there are still a lot of these things in hidden corners."

Lu Yang asked, "What exactly is the Yuanyuan Tianjing, and why is it so special?"

The Blazing Demon God said: "Original Tianjing is the core of the origin of the other world. After our investigation, in fact, the world we are in can originally breed an existence far beyond the strength of the **** king. It can be said that once the other world is conceived When a creature is born, even if all our **** kings are added together, they cannot stop the attack of one finger from the other party, and we all have to die."

Blazing Demon God continued: "When we discovered this problem, we were divided into two factions, one that killed a creature, and the other that nurtured this creature.

Naturally, the faction that was conceived died, and the **** kings who plundered that creature survived, so we began to **** the energy of the incubator, but during the **** we found that the incubator was dead and was After the second gestation, the body that was broken from his previous death was the source sky crystal.

This goes back to where I argued with the Void God King. They wanted to swallow all the source crystals and become the master of this world, but I thought that after the complete plunder, the world would collapse, so when I was the God King , I strictly forbid them to continue to plunder the body of the living beings that were conceived for the second time, and they can only look for the original crystals that have broken out to improve their strength. "

Lu Yang was a little curious and asked, "How does this thing improve its strength?"

Blazing Demon God said: "Original Sky Crystal, you can use it as a source artifact, just like me, my source artifact is the heart of the devil, even if the heart of the devil is broken into countless pieces, my soul will be destroyed by the source crystal. protected.

I suggest that you use Yuanyuan Tianjing as the Yuanyuan Tianyan. The ultimate form of the body of the Shenyuan Demon God is four heads and eight arms. That is to say, you can actually have four divine souls, and each divine soul can have a Yuanyuan Tianjing made of it. The natal magic weapon, through this source sky eye, you can use the pure world fire in Bandarsburg for external use, which is the greatest help to you at present, and this thing can overcome all falsehoods, whether it is hidden In the void, it is still hidden in the shadows. As long as you can make the original eye, even if the Void God King comes, you can see him. "

What Lu Yang wanted most was to take the Jingshi Tianhuo outside for use. He said excitedly, "Help me, what should I do."

The Blazing Demon God said: "Embed the source sky crystal into your soul, and use it to make an eye with your mind, and slowly, he will really become an eye. already."

Lu Yang nodded, and the source Tianjing was placed on his forehead and slowly embedded in it. In an instant, the severe pain from his soul caused him to fall to the ground.

"Enter the Void Hall." Blazing Demon God waved his hand and flew Lu Yang into the Void Hall, saying, "About one to ten years, hold on."

Lu Yang said speechlessly: "I can understand why the patriarch of the Godbeard clan didn't come to this world to use the source sky crystal. This thing is to open the closed soul again. I tried my best to make the soul become Be tough, and then give him a mouthful, whoever researched the spells is really wrong."

The Blazing Demon God smiled, shook his head and left the Void Palace to help Lu Yang watch the battle outside.

Chapter 2563: Little Rock Demon

The two races, the Giant Clamp Demon Race and the Shenbeard Race, were already at the end of the battle. As soon as the 100,000-strong army of the Jagged Brothers came out, they killed all the remaining 400,000 people of the two races.

In raging flames.

Zhou Tianming said with a smile, "It's too easy, it's even easier than the Blood Spirit Snake Clan."

The white lion said: "These two races are estimated to never think that they were not killed by the other race, but died in the hands of humans."

Ji City in Mountain Province and Zheng City in Henan Province are heavily defended, and there are many strong people in the area, but compared to these two races, they are still far behind.

Even the monarchs of any two clans can make the forces of these two cities not dare to move, so the two clans dare to fight so fiercely in the Dushan Lake area.

"Why don't we go to other areas, maybe there are still a lot of **** races that have fought so viciously." Kuai Ai ran over with two half-god rank origin soul crystals in his heart, and said: "Two The clan's nest has been given to us, and there are countless treasures. According to the existing resources, we will have enough resources to cultivate another 500,000 monarch-level powerhouses."

Turbid wine, Bai Shi and others are also very excited. Cultivation resources are not produced on earth, and can only be robbed from the hands of races from other worlds, and then through the time and space channels opened by races from other worlds, relying on The energy transmitted in the channel is slowly cultivated.

If they can kill all the seventeen races that have been sent over, the Jagged Brotherhood will no longer have to worry about the resources for cultivating new powerhouses in the future.

"When the boss comes out, listen to his opinion." Turbid wine said.

Bai Shi, Xia Yuwei and the others nodded, looking at the time, it was almost night, one day in reality is a year in the Void Palace.

Just as Zhou Tianming completed the blood sacrifice and created 670 blood spirit balls, a ray of light flickered, and Lu Yang stepped out of the void and appeared in front of them.

“Boss.” Zhuojiu, Bai Shi and the others ran over.

Lu Yang looked at them with a smile and said, “I’m lucky, I succeeded in my cultivation.”

The Blazing Demon God smiled and asked, “Can the Heavenly Fire of the Pure World be released?”

“Look.” Lu Yang used his magic power, and a white light suddenly appeared above his eyebrows, and then a white gem-like eye opened, and the blazing pure world fire poured into his eyes.

“boom”

A white flame shot out and hit a big tree not far away, easily burning him into two pieces.

The power of the flame is not surprising. What really excited the Blazing Demon God and Malthus was that the pure world fire could be released. This kind of flame is designed to hit the artifact and can be restored to its original form. This time, I went to the ancient hunting ground, although all the strength of people is limited to the quasi-god rank, but all the powerhouses who enter must be accompanied by artifacts bestowed by their respective races.

Lu Yang has no divine weapon in his hand, and the only way to compete with these powerhouses is to attack with explosive flame seeds, but every clansman who enters must be a quasi-god with extremely powerful strength, not to mention others, if they have If he knows how to use the Yinhui Devil in the Moonlight Seven form to enter, Lu Yang’s explosive flame technique won’t be cheap in front of the other party’s Moonlight Seven form, so the only trick he can count on is to clean up the world and sky fire.

“Get ready, we can go.” Blazing Demon God said.

“Let’s go now, I’m ready.” Lu Yang said.

“Wait, boss.” Zhuojiu, Bai Shi and others said.

Lu Yang smiled and asked, "What's the matter?"

Turbid wine said: "Boss, we want to see the situation of several other races of the gods. If they are similar to this, we want to knock down all these races."

Lu Yang hesitated and said, "The danger is very high, and many soldiers may die."

Malthus said: "I will follow. With me, even if your clansmen die, they will not die too much."

Malthus's current real strength is no less than that of the Blazing Demon God. The Holy Light is pouring into Malthus's body little by little, adding turbid wine to activate the Holy Light Transformation, and his strength is also quasi-god.

Lu Yang nodded and said, "Okay, be careful, don't join forces with any other forces, we can't afford a bigger failure, once the advantage of our ethnic group is gone, you will know the outcome."

"Yes." Zhuojiu, Xia Yuwei and others nodded and agreed.

In fact, in the entire China region, even in the Liao Province region controlled by the Jagged Brotherhood, there are still many races from other worlds.

The Sigmar and the Grand Clan can be ignored. The ones that really threaten humans are the Void Zerg. Many of the Void Zerg that flew over did not fight with humans, but hid in the depths of the mountains and developed in secret.

Although the strength of these Void Mother Insects is generally the appearance of the lord rank, they are superior in number, and if there is no news, they may be surrounded by Void Scythe Insects to death!

But in the same way, if you can kill such a void mother worm, you can get a lot of things. For example, the core and flesh and blood of the void mother worm can cultivate a lot of void warriors. This is the most attractive turbid wine. The place where they went out to fight with the white lions really gained too many benefits.

Lu Yang looked at the Blazing Demon God and said, "Let's go."

The Blazing Demon God waved his hand, opened the teleportation formation in Bandarsburg, and got into Lu Yang's body.

Lu Yang finally glanced at the brothers and said to take care, and he entered Bandarsburg. The Blazing Demon God must have selected the transmission channel for him, and he walked directly into the transmission channel in front of the castle gate. .

A burst of light flickered.

Lu Yang reappeared behind the low mountain not far from the No Tears Camp. He took the form of a fire demon and came to the area of the crater in front of the camp.

At this time, the crater of the No Tears Camp has exploded, and the lava flows within a few kilometers around it, which is no longer suitable for the survival of most No Tears.

Lu Yang guessed that this was done by the little rock demons, that is, the group of strange races whose bodies were made of rocks but were only 1.5 meters tall. Only they could live near magma. com also only has the largest number of clansmen, and can make the surrounding environment look like this.

"My, this is mine!" A bitter voice came from near the crater.

Lu Yang walked over and happened to see that near the magma below, several little rock demons were snatching a box near the magma with a golden chain on it.

His consciousness scanned under the entire crater, and found that there was only the little rock demon left in the crater. The strongest one was the peak of the monarch rank. There was only one strong man who was about to evolve into a demigod, and he was still crazy. Rock Demon.

"Thirty-three Heavens"

Lu Yang activated the illusion and directly controlled these little rock demons. He flew to one of them and activated the soul search technique.

Chapter 2564: powerful race

It was exactly as he expected.

After Du Lei died, the little rock demons took advantage of the opportunity of the melee of the strong men of all ethnic groups to detonate the volcano. The hot magma filled the caves inside the volcano, and almost all the strong men of the monarch rank were burned to death. Only Some demigods and quasi-gods also cast the magic circle because of all the rock demons, and the high gravity technique was trapped in the magma, and finally killed by the magma.

Because of the rush of magma, the box hidden at the bottom of the volcano also spewed out, triggering a battle among the rock devils. Now these are the winners, and the rest of the rock devils were either killed or fled.

“It looks like the box that Old Jones said was hiding the hunting token.” Lu Yang said while playing. This box is a treasure made of special magic materials. If there is no corresponding spell, it cannot be opened, but This is not difficult for Lu Yang.

“Pure World Fire”

Lu Yang opened his third eye on his forehead, and a white flame spewed out of the pure white eye, burning on the box. In an instant, the magic circle of the entire box was broken, and the material of the box was restored to their original appearance.

After a while of crackling, the outer shell of the box shattered, and Lu Yang beckoned it into Bandarsburg. To others, these things were garbage, but to him they were treasures.

He looked at the black iron-like token in his hand, with three big characters written in elemental elf language: Hunting Order!

The Blazing Demon God said: "That's it, don't be in a hurry to use it, you first get into the volcano and take away the high-gravity magic circle. The rock demons don't have the strength to release the quasi-god-level magic circle. The existence of quasi-god-level magic crystals."

Lu Yang was a little surprised, and jumped into the magma. In an instant, the terrifying gravity pressure of Lu Yang quickly fell into the depths of the magma.

"No wonder the powerhouses of all ethnic groups in the No Tears Camp can't escape. At least this gravity makes it difficult for the powerhouses of the monarch rank to walk." Lu Yang said.

If it were on the ground, this kind of gravity would not make the monarch-level powerhouse die, but this is magma, and there is no place to borrow, non-flame creatures can only fall to the depths of the magma under the pressure of gravity.

Even demigods and quasi-gods couldn't escape if they didn't take advantage of it. It was estimated that they had been in the magma for a long time and were burned and suffocated alive.

Blazing Demon God said: "This time you go to the ancient battlefield to hunt, and the mechanism there may have a large gravity technique."

"There are still organs?" Lu Yang was a little confused.

Blazing Demon God said: "That place is called the ancient battlefield, but it's actually just a habitual name. Originally, that area was a battlefield where ancient gods and kings trained warriors, and then there was a big battle there, so that area it is called the ancient battlefield.

Since it is a training ground, there are bound to be some training arrays. The Great Gravity Technique is only one of the most basic training arrays. There are also many time-based and space-based magic arrays. It is better to say that those who are in the space-based system will be teleported to the sky. , was instantly pulled to the ground by the Great Gravity Technique. The ground was very hard, and it was probably seriously injured. The worst thing was that he was teleported into the time-based magic circle. When he walked out, the hunting might be over. "

Lu Yang asked curiously, "Are you familiar with the magic circle there?"

The Blazing Demon God laughed and said, "I'm not very familiar, but I know where each one is."

"Then I can rest assured." Lu Yang swam quickly to the bottom of the magma, looked at the magic circle running in front of him, and waved his hand to destroy it. Then, he took the six earth-type magic energy crystals to Bandars. inside the fort.

Blazing Demon God said: "Just start the transfer token here, no one will know the situation here, and it can be considered a safe place."

Lu Yang took out the hunting order and poured magic into it. In an instant, Lu Yang was enveloped in a magic power, and disappeared in place with a flash of white light.

the other side.

In a huge nine-color palace, all kinds of strange powerhouses are standing in front of a rotating black teleportation array. Some powerhouses are quasi-gods, some are actually middle gods, and some are upper gods.

The nine elemental elves stared solemnly at the powerhouses in front of them, without the slightest fear, and even with some mockery.

They are the second-generation elemental elves derived from the oldest nine-series elemental elves. They are the children and grandchildren of Malthus. Therefore, they are the purest inborn elemental bodies, and they are the ones who despise those who are transformed into entities for the sake of strength. of various species of creatures.

"Quiet, there is still one last place left. Not showing up after 1 minute will be regarded as abstention. We will select a backup from all of you to enter." A majestic voice echoed in the palace, and it was the one in the middle who spoke. Holy Light Elemental Spirit.

The faces of the many races that came here showed excited expressions. According to the regulations, twenty-six tokens were issued every year. If the tokens were missing when hunting at the end of the year, it would be regarded as giving up this year and will be removed from the scene. choose one of the many races.

Once selected, even if the person holding the token is present, it will be regarded as giving up, and you can only wait until next year, and next year, only twenty-five tokens will be issued.

This kind of token is issued randomly. No one knows who the token will be given to. Once someone is exposed, it means that he will be hunted down by major races this year. undoubtedly.

In the third row of the palace, a silver demon stood up. If Lu Yang was present, he would have recognized him. This man was the young master of the Dark Moon clan. He looked at the Holy Light Elf respectfully and asked, "Issue Lu Yang? What are the rules?"

The Holy Light Elf said: "The parties select a quasi-god-rank powerhouse to compete, and the strongest person will receive a hunting order."

There was a smile on the face of Young Master Dark Moon. He brought two clansmen over this time, all of whom were quasi-gods who knew the form of Moonlight Seven. It was originally planned that whoever was in the best condition would enter the hunting ground, and whoever was in bad condition would enter the hunting ground. Just stay, now the two subordinates are in good condition, except for the selected one, the remaining one can still be obtained in the competition.

"Thank you for the achievement of the Holy Light Elf, then this hunting order belongs to my Holy Gold Clan." A three-meter-tall rock demon creature with a metallic texture and golden light all over laughed.

Everyone looked sideways, and they were a little dissatisfied with this strong man of the Holy Gold Clan, but seeing that his whole body was covered with golden flames, his two clansmen also showed a look of fear in the golden flames.

The Holy Gold Clan, the great clan left over from ancient times, like the Yinwei Demon Clan, have their own secret techniques. Their special technique is the Holy Light Golden Flame. With their closeness to the Holy Light, they attract the Holy Light to the surroundings. form a golden body.

This is similar to Lu Yang's four-armed form, but the holy gold family can make their golden body form have the same leapfrog combat power as the Moonlight Seven, and the quasi-god can often reach the peak of the lower god.

Everyone scratched their heads. In fact, other races have a chance to use some secret techniques to defeat the quasi-gods of the Holy Gold Clan, but they all require the use of special magic weapons or some strange killing moves. If they are exposed now, they will enter the ancient hunting ground in a moment. Inside, they have no secrets at all. If someone specially restrains their magic weapons or secret techniques, I am afraid that their clansmen will die in the ancient hunting ground.

After all, at the end of the ancient hunting ground every year, less than half of the powerhouses of all ethnic groups can come out of it!

"Countdown." The Holy Light Elemental Spirit looked at the crystal hourglass beside him.

"5"

"4"

"3"

"2"

"1"

The light flickered.

When the patriarch of the Shengjin clan was about to laugh happily, Lu Yang appeared in front of the nine element elves with a ray of light. Looking at everyone present, he appeared in the form of a fire demon and said, "Sorry, I almost came late."

Chapter 2565: plo

“not late!”

The majestic voice of the Holy Light Elf echoed in the palace, which made everyone with different minds all focus on Lu Yang.

“Bastard, he’s obviously already late, why do you say he’s not too late?” The middle **** of the Holy Gold Clan was furious, and stepped in front of Lu Yang, the golden holy light in his right hand had condensed into substance.

“You dare?!” The Holy Light Elf was furious, and the magic formation of the god-king rank inside the palace started to operate. The terrifying magic power fluctuations instantly made the middle **** of the Holy Gold Clan show a terrified look. In an instant, the whole body was full of golden light, and he jumped back ten meters. Distance, when he landed, his strength had already entered the main **** level.

“What do you want to do?” The strong man of the Saint Gold clan roared at the Holy Light Elf.

The tone of the Holy Light Elf did not contain a trace of emotion, and said: “The rules set by all the gods and kings in ancient times, those who intend to use martial arts here, die!”

“I, I, I...” The Saint Gold Clan powerhouse was speechless. No matter how big his temper was, he couldn’t vent it here, because at that moment, he felt the nine god-king rank monomers. The spell was aimed at him at the same time. Even if he could use golden light to become the main god, he would not be able to withstand the bombardment of the nine god-king spells in turn, but he would admit it, and he would not be able to hold his face, which would make him suffer. to the ridicule of the people.

“Accept your spell, otherwise, I will kill you.” The voice of the Holy Light Spirit still had no emotion, as if it was a mechanical body.

Everyone present heard that the Holy Light Elves on the ancient battlefield could use the magic circles left by the nine **** kings, but after so many years, no one has dared to test it personally. I didn't expect to encounter one today, and this holy gold The idiots of the clan were blatantly trying to grab the extra quota just now. They were full of anger and wanted to see the scene of the Holy Gold Clan being smashed by the Holy Light Elf's god-king spell. Looking at the median **** of the Holy Gold Clan with scrutiny, are you not pretending? There is a kind of you don't mean to be cowardly!

The strong man of the Holy Gold Clan felt these eyes in an instant, and he couldn't admit it, but he really didn't dare to try it. The expression of the Holy Light Elf was even more angry. The feeling of being hit.

“Two, can you listen to me?” A very friendly voice sounded in the crowd.

Under everyone's attention, the Dark Moon Young Master walked out of the crowd, came between the Holy Light Elf and the strong men of the Holy Gold Clan, bowed to the Holy Light Elf, and said, “The great and ancient elemental elf, Saint The strong man of the Jin clan did not offend you, nor did he mean to offend the rules of the ancient battlefield, he just thought that this young man was late, and he was only targeting this young man.”

“Time is in my hands. I said that he didn't come late, he just didn't come late.” A large number of time elves' bodies shone a strange mixture of golden and orange light, suddenly appearing in various areas of the palace, and at the same time Said this sentence.

Young Master Dark Moon looked back at the strong man of the Holy Gold Clan, the strong man of the Holy Gold Clan reacted instantly, and quickly bowed to apologize: “Since you said that he was not late, it means that he was not late, and I have no doubts. already.”

The Holy Light Element said: “If you don't return to your position, we will waste our time.”

The strong man of the Holy Gold Clan and the Dark Moon Young Master hurriedly turned around and returned to the crowd, and a crisis was resolved like this.

“Thank you, my brother, without you, I don’t know how I would end it.” The strong man of the Saint Gold clan whispered to Young Master Dark Moon.

“You’re welcome, you and I are close neighbors, and we should help each other.” Dark Moon Young Master said with a smile.

The strong Saint Gold clan sighed and said, “Let’s make an alliance between our two clans, let the children of our two clans enter the ancient battlefield, fight side by side, and strive to take down all the prey and the corpses of the enemy.”

Young Master Dark Moon was a little surprised, but he nodded and said, “I agree.”

The quasi-god rank of the Shengjin clan and the main **** rank of the Moon clan looked at each other with smiles on their faces. If the ancient battlefield can cooperate together, the chances of surviving and killing people will be higher, but such places are rare. Some races will really join forces, because one ancient divine beast can give thousands of clansmen the ability to comprehend, and no one will be willing to give out another ancient divine beast to other races, so there are very few races among the major races. The joint situation.

This time is a special event. The Saint Gold Clan owes a favor to the Dark Moon Clan. It should have been repaid in the ancient times. The quasi-god-rank powerhouse of the Saint Gold Clan has the ability to help his master pay it back, so , he agreed to an alliance.

The voice of the Holy Light Elf rang in the ears of everyone, saying: “Everyone come to me to get a storage bag, and when they are finished, they are ready to enter the hunting ground.”

Standing in front of the Holy Light Spirit, Lu Yang was the first to receive the storage bag. He said to the Blazing Demon God curiously, “Why do you send an extra storage bag?”

Blazing Demon God said: “The ancient battlefield was created by our nine gods and kings. No one can open his inner space there, so there is this storage bag.”

Lu Yang asked with a smile, “Can’t your Demon Temple do it?”

“Of course it doesn’t include my Demon God Temple.” Blazing Demon God smiled and said, “How can the magic restricted area I set take effect on me?”

“Understood, we can just sneak here, right?” Lu Yang said.

“Your idea is good, but you may not have the opportunity to see that the quasi-god of the Holy Gold Clan has already set his sights on you.” The Blazing Demon God said.

Lu Yang turned his head and saw that the strong man of the Holy Gold Clan just walked over from him, and the killing intent in his eyes could not be controlled.

“This is the last happy time in your life, remember this moment well, and then I will make your life worse than death.” The strong man of the Shengjin family walked over from Lu Yang’s side.

Lu Yang smiled. He had heard threats many times over the years, but every threat to him didn’t end well.

The quasi-god-rank powerhouse of the Dark Moon Clan came over, and when they crossed, a dark moon-colored pick appeared in his hand, with six words written on it: “I know who you are!”

Lu Yang smiled and glanced back at Young Master Dark Moon. Although he is now in the form of a fire demon, he has always met Young Master Dark Moon like this. Thinking of Young Master Dark Moon’s angry look last time, the corner of his mouth showed. He sneered, indicating to him what does this mean?

The paddle vibrated slightly, and a few words appeared again, saying, “How about the cooperation? Kill everyone else.”

“Then you will blame me.” Lu Yang wrote a few words on the pick.

The Dark Moon Young Master really received it. He nodded with a smile and said, “Anyway, all the races in our world want to kill you. One more is not more, and one less is not more.”

Lu Yang was delighted and asked, "What's the benefit?"

Dark Moon Young Master said: "I will give you all the prey. Our race doesn't need this. I believe you already know the purpose of my visit."

Lu Yang sighed that this Dark Moon Young Master came here to kill people. The members of the Yinhui Demon Clan were born as monarchs, and when they grew up, they became demigods. This thing was useless to them at all. The flag is not clear, but the real purpose must be aimed at a few races, perhaps, the Saint Gold Clan he helped just now!

"Okay, I promise you, you will let your clan follow this idiot of the Shengjin tribe to kill first, and we will kill him together in the end." Lu Yang said.

"Remember, when you finally came out, everyone else was killed by the Holy Gold Clan, but you killed the Holy Gold Clan." A smile appeared on the corner of Dark Moon Young Master's mouth.

"I know." Lu Yang put away the pick.

"The teleportation array is open, and everyone enters in an orderly manner." The voice of the Holy Light Spirit came.

In the middle of the nine-element elf column directly in front, the original black and purple rotating circle suddenly turned red and gold, and the light reflected on it could even see the situation in the ancient battlefield.

Luyang Station was the closest, and he was the first to walk into the red gold circle!

The light flickered.

Lu Yang appeared again in a narrow room surrounded by nine colors of light, with a door in front of him.

Blazing Demon God said: "Push open this door, and the ancient battlefield is outside."

"Why is it still like the Colosseum?" Lu Yang shook his head with a smile, and pushed the door with both hands to open the door.

In an instant, a lush grassland appeared in front of Lu Yang. In the depths of the grassland, there was even a large piece of woodland, but each tree was several hundred meters high.

On the right side of the woodland, there is also a huge lake, which can not be seen to the end, like a sea.

The Blazing Demon God smiled and said, "Your boy's luck is good. You have teleported to an optimal area, and go to the lake over there, where there are many ancient snake emperors."

A pair of wings appeared behind Lu Yang, and he flew towards the lake in a low-altitude flight. He asked, "Is there anything special about the ancient snake emperor?"

The Blazing Demon God said with some emotion, "The ancient snake emperor, the wild races that lived on this land before I was born, the reason why they are called wild races is that their IQ is uncivilized, and they will always be a savage race. The mentality of a beast is completely ignorant of thinking.

Back then, this kind of creature was the powerhouse that swept the whole world. The powerhouses among the ancient snake emperors were not even afraid of the **** kings, but unfortunately, these races did not know how to think. At the time of the king rank, the god-king of the ancient snake emperor family became a hunting target and was killed by the god-kings of the seven races.

In the end, if the **** kings of our generation did not choose to protect them, the ancient snake emperor family would have disappeared forever. However, even if they were protected by us, their

number would not develop. Now there are only about 3,000. If you can hunt one of them, it is enough to quickly raise your 10,000 people to the monarch rank. ”

Lu Yang became interested. He flew to the lake. As the Blazing Demon God said, he saw more than a dozen ancient snake emperors nearby. Each of them could be thousands of meters in length, and their body was as thick as a giant dragon. At the same time, the head does not look like a snake head at all, with a rounded corner like a golden crown on the top, three eyes, and tusks in the mouth that have grown out, like ivory, and have both upper and lower jaws.

“Have I fought?” Lu Yang doubted himself, there were too many opponents.

Blazing Demon God said: “The strength of this ancient snake emperor is also a quasi-god rank, but you have to remember that the rank photos of all wild creatures are an extra 1.5 rank compared to other races, and they grew up in the soil of another world. Although there is no ability to think independently, in terms of ferocity, it is unmatched, even if it is the same rank Chaos Beast compared with the wild creatures, it is still a little worse.

Of course, although the wild creatures are very strong, as I said, they do not have too high IQ, you just need to seize his weakness and attack him. The weakness of the ancient snake emperor is the soul. ”

“You want me to use the Thirty-Three Heavens?” Lu Yang was a little surprised and asked, “They are the minds of beasts, so my illusion is not valid for them.”

Blazing Demon God said: “The lowest level of illusion, you only need to lure him to mate. This illusion is one of them.”

Lu Yang was speechless and said, “You still use this trick?”

“I also came up from a low level back then, so what’s so strange about using this kind of trick.” The Blazing Flame Demon God is very open now, and he has long stopped putting on the air of his **** king, and said proudly: “One If you release the illusion, you will have a good show, of course, before you perform the illusion, you have to arrange the surrounding area, the two thousand-meter-long ancient snake emperors fight, and you must attract strong people from other directions.”

Lu Yang nodded, took out the Earth quasi-god rank magic energy crystal obtained in the crater of the No Tears Camp, and arranged it into a large gravity magic array according to the method taught by the Blazing Demon God, and followed him again. Four flame avatars were transformed from the avatars in the body, each of which was released by him with all his strength.

“Explosive”

A golden soul core appeared in Lu Yang’s hand. After he poured four in a row, he handed it over to the four clones. As long as someone came, he would first use the high gravity technique to control the opponent, and then use the four clones to attack.

“Even if the Saint Gold Clan came, his golden body could have been blown apart.” Lu Yang asked curiously.

“Don’t think about it, you can’t beat him, the holy gold clan of the quasi-god rank, if you release the golden body with all your strength, you can reach the peak of the lower god, and some can even reach the initial level of the middle god. Double power, when will you be able to reach ten times the power, you should think about fighting against the Holy Gold Clan and the Silver Moon Demon.” The Blazing Demon God said.

Lu Yang was a little helpless. He also wanted to make the Explosive Flame Technique exert ten times the power, but the flame stored by his golden magic core was three times as much. If there were more, the magic core would explode.

If he can exert ten times the power, with his demon body and explosive flame technique, let alone the middle **** after the transformation of the holy gold clan, even if the real middle **** comes, he can be seriously injured by the explosion. .

“Illusion”

Lu Yang didn’t even bother to use the Thirty-Three Heavens, so he directly released the lowest-level ecstasy illusion to the ancient snake emperor closest to him.

The ancient snake emperor really entered the estrus period in an instant, just as the Blazing Demon God said, and charged towards an ancient snake emperor not far away.

“Roar~!”

“Roar~!”

The two ancient snake emperors could actually make a roar. The latter fell into a violent rage instantly after being knocked down by the former. One tail kicked each other away. The ancient snake emperor, who was confused by the illusion, was also angry and was still in the ecstasy illusion. It rushed towards the opponent again, and as a result, it completely angered the snake emperor who was thrown down, and the kilometer-high body stood upright and bit the opponent's seven inches.

The psychedelic ancient snake emperor could see the other party's movements, and he was so frightened that he hurriedly flicked his tail and swept the other's head out. For a time, the two snake emperors scuffled together like this, and their thick tails swept back and forth. Under the circumstance, the Snake Emperors who were forced to rest have returned to the water.

Lu Yang also retreated to watch the battle from a distance. He had to admit that the strength of the two snake emperors was indeed as the Blazing Demon God said. On the basis of the same rank, they far surpassed the strength of rank 1.5 of other races.

Seeing that the spells of the lower gods in the sky collided with the power of the lower gods, Lu Yang hid in the distance and said to the Blazing Demon God: “I can now understand why you said that there will be enemies coming after a while, These two are fighting, and in a short period of time, there is no way to tell who will win or lose.”

The Blazing Demon God said with a smile: “The wild race has thick skin and flesh. If the body is broken, you can fight for a few more days and nights. Create more flame clones. This time is in your favor.”

Lu Yang felt that this made sense, so he found a place to hide, and chanted a spell in his mouth.

“Separation”

A clone with quasi-god-level magic power split from Lu Yang's body, released an explosive flame technique with Lu Yang, and put a golden soul core into the clone's hand. After recovering in place for a while, Lu Yang went on to create a clone. .

Blazing Demon God said: "Take advantage of the time now, what are the specialties of the 25 races I told you about."

Just as Lu Yang wanted to know these things, he hurriedly listened carefully. It turned out that among the races that came this time, in addition to the Silver Moon Demon and the Saint Gold Race, which were super races, there were also the Blue Meizu and the Flame Star Edge from the edge of the Extreme Cold Palace. of the White Demons.

These two races also have the same spells as the Seven Moons of the Moon and the Golden Body of the Holy Light. In addition, the seventeen races such as the Hengjin, Tianthorn, Ghost, and Ethereal can all fight to the death. , a powerful race of four races, including the Silver Moon Demon.

The Blazing Demon God said: "There are only five who are really weak, namely the Blood Spirit Clan, the Abyss Demon Clan, the Greedy Moon Clan and the Black Tree Clan. Among them, the Blood Spirit Clan relies on absorbing the blood spirits from the opposite side to maintain their combat effectiveness and entanglement. The longer it is, the greater the chance of the opponent winning.

The abyss demons are purely fighting with strengthThe physical trauma has the greatest impact on them. As for the greedy people, they will be protected by the dark moon energy in the dark moon star area, and their speed and strength will be greatly enhanced. , but also affected by the body.

The last one is the Black Tree Clan. The combat power is the weakest among all the races, but the recovery ability is the strongest. If you face the four weakest, you can quickly hit them hard by using the four-armed dharma and explosion. , and then there is a large gravity bonus, there is a great chance to kill them. "

Lu Yang nodded and asked, "There is the last race, you only mentioned four of the five little weak."

The Blazing Demon God flew out of Lu Yang's body, looked at him carefully, and said, "Don't count 13 in my heart? You are the last one."

“Fuck~!” Lu Yang continued to create flame clones and explosions without words.

Chapter 2567: work together

When Lu Yang was in ambush here, on the other side, the other 25 race powerhouses on the ancient battlefield basically found the wild beasts, and even some powerhouses had already hit them.

“Holy Flame Golden Body, get up~!” The quasi-god-level powerhouse of the Holy Gold Clan roared proudly in the air. The body was covered with a layer of golden statues. His strength instantly rose to the peak of the lower gods, and he hit a far distance with one punch. In the body of a strong blood spirit clan.

“The little blood spirits also want to **** wild beasts from me, it’s really courting death~!” The strong man of the Shengjin tribe laughed and chased after the blood spirit strong man.

the other side.

The quasi-god rank of the Silver Moon Demon Clan saw the strong Saint Gold Clan in the distance, with a smile on the corner of his mouth, and flew towards him quickly. This was the signal agreed by the two tribes, and the Saint Jin Clan flew into the air and took the initiative to show its strength, so that the Silver Moon Demon can quickly find him, and the two can team up to kill the enemy together.

Lu Yang also felt the aura of the strong Saint Gold clan in the distant sky. He couldn’t help shaking his head. He was looking for death by showing his face. However, it is impossible for more than 20 other races to cooperate. Let me say one or two more. Racial cooperation will definitely not be able to beat the alliance between the Saint Gold and the Silver Demons. It is estimated that not many of these more than 20 races can survive.

He also doesn’t know if the Dark Moon Young Master has any other purpose. In order to avoid accidents, he still hides his breath and continues to create clones and explosions. It is a wise choice to wait for the two ancient snake emperors to decide the winner.

one day

two days

three days

...

For the fifth day, Lu Yang had created more than 100 flame clones and explosive flame soul cores, which made him a little anxious, because there were not many fighting sounds on the ancient hunting ground, which proved that he survived. There are fewer and fewer people, and the battle between the two thousand-meter-long snakes on his side is very prominent.

“Om~!”

The silver pick in Lu Yang’s hand made a sound. He picked it up and looked at it, and several words appeared on it: Where are you?

“You actually contacted me?” Lu Yang was a little surprised, and wrote on the pick: “What’s the matter?”

The strong man of the Yinhui Demon Clan was following the strong man of the Saint Gold Clan in the sky to find other contestants, and while the other party was not paying attention, he continued to write: “I am here to ask for help, I heard that you are the descendant of the Blazing Demon God, The Blazing Demon God has a magical power called the Five Senses of Shimmer, which is a top-level search spell. We can’t find any other contestants now, can you help me?”

“What are the five senses of low light?” Lu Yang asked curiously.

“Your ability to perceive is called the five senses of shimmer, what’s wrong?” asked the Blazing Demon God.

“The contestant from the Yinhui Demon Clan asked me for help to find someone else,” Lu Yang said.

“Do you want to help? Within 200 kilometers, if I want to investigate, I can know.” Blazing Demon God said.

Lu Yang shook his head and said, “If you can’t use your magical powers, you should use mine.”

“Clone~!” Lu Yang transformed into eight clones at the same time and flew towards the surroundings. At the same time, his consciousness kept jumping on the eight clones, and each time he got into a clone, he began to perceive the surrounding situation.

“There is a competitor 2 kilometers to your left.” Lu Yang said.

“As expected of the five senses, I found it so soon, I will contact you again.” Lu Yang frowned at the words uploaded from the pick, and continued to stare at the two ancient snake emperors in the distance.

The next three days passed. During this period, Lu Yang had to send messages to the Yinhui Demon almost twice or three times a day. Each time the message was delivered within half an hour, there would be a contestant. There was a screaming sound.

So on the fourth day, Lu Yang discovered a problem, that is, among the remaining contestants, six people actually formed an alliance.

Lu Yang immediately told the Yinhui Demon about it, but to his surprise, the Yinhui Demon still charged forward with the strong men of the Holy Gold Clan.

“Roar~!” The roar of the ancient snake emperor interrupted Lu Yang’s thoughts. He pulled his consciousness back from the spectator’s clone and looked towards the lake in the distance.

The two ancient snake emperors who had been fighting for nine days were all covered in bruises. One of the ancient snake emperors suddenly found an opportunity and bit the other ancient snake emperor seven inches. With a sharp tooth in his mouth, he tore it with force, and most of the snake belt was stretched. Bitten off with flesh and scales.

“Ow~!” The seriously injured ancient snake emperor let out a sharp pained cry, desperately twisting his body to flee into the distance, and at the same time, kept releasing lower-level god-level spells to prevent another ancient snake emperor from chasing and killing.

The victorious ancient snake emperor ate the scales and flesh and blood of the opponent, and continued to chase after him, which meant that he would never die!

The Blazing Demon God said: “In general, the battle of the ancient snake emperor will not be divided into life and death. The one who loses expresses his surrender and the battle is over. According to their situation, the one who runs will surrender, and you can prepare to launch an attack. .”

Lu Yang nodded. He knew that the opportunity was coming. He controlled more than 100 clones and slowly touched the positions of the two ancient snake emperors.

“Woo~~~!”

The battle by the lake became more and more intense. The ancient snake emperor, whose scales and flesh were bitten off, was bitten by the opponent again by seven inches, and his body was tightly entangled by the opponent. Go out, and every twist will cause more blood to flow out of the bite wound, and more flesh to be torn.

Lu Yang felt that the one who was bitten was about to admit defeat, but he had a whim and said to the Blazing Demon God: “I use the Thirty-Three Heavens now, what effect will it have?”

The Blazing Demon God shook his head and said, “The injured one is already like this, and it won’t work if you use it.”

Lu Yang shook his head with a smile, and said, “I released the uninjured one. You said, the illusion I released was just to let him see that the other party didn’t surrender. What would happen?”

Blazing Demon God’s excited soul went numb and said, “Death Fight!”

Lu Yang nodded in understanding, and silently chanted a spell in his mouth.

“Thirty-three Heavens”

The uninjured ancient snake emperor was instantly hit by an illusion. In the illusion, the ancient snake emperor bitten by it did not surrender, but kept provoking words, which made him completely angry, and the huge mouth that was ready to be released at any time, actually increased the bite force again, and the other ancient snake emperor who was in pain frantically begged for mercy, but this became a provocation in the ears of the ancient snake emperor who had been hit by the illusion, and suddenly, the bite became more fierce.

With the sound of a click, the injured ancient snake emperor's seven inches was bitten off. Under the severe pain, the ancient snake emperor not only did not die, but also bit the head of the uninjured ancient snake emperor. The other party is entangled together, and they have the posture of perishing together.

Lu Yang watched from a distance that the two snakes were getting more and more entangled and biting harder.

The six quasi-gods who have joined together have the strength to hurt the strong people of the Holy Gold Clan. As soon as the two sides come up, they will do their best, and now the winner will be decided. If he doesn't take advantage of this time to kill two of them. Snake, I am afraid that there will be no chance.

“Crack~!”

Another crisp voice sounded, Lu Yang looked carefully, and the Snake King who had broken his body actually bit the head of the Snake King who had just gained the upper hand under the sneak attack with only his head and mouth, and the other one was in pain. The snake emperor kept making a low roar.

The Blazing Demon God suddenly spoke out a reminder, saying: “Using a clone to rush up and hit their heads is enough.”

Lu Yang nodded, and activated one of his clones to fly with a golden soul core to the heads of the two giant snakes, and he jumped into the mouth of one of them.

“Boom~!”

A mushroom cloud rose into the air, and the heads of the two giant snakes were blown to pieces. Lu Yang was extremely distressed when he saw it, and said, “Will this thing’s head be greatly repaired?”

The Blazing Demon God laughed and said: “You are lucky enough to be able to catch two ancient snake emperors, quickly bind their bodies and put them in a storage bag, and imprison their souls, otherwise, their souls will return to their bodies. , can grow another head.”

“Come on, it’s worthy of being a wild species.” Lu Yang shook his head, and hurriedly launched a spell to fit the bodies of the two snake emperors according to the instructions of the Blazing Demon God, and then used the soul restraint technique to capture the souls of the two giant snakes.

This thing can be given to Zhou Tianming, for the extraterrestrial demon body, this thing is a big supplement!

Chapter 2568: final winner

“Boom~!”

A loud bang suddenly erupted in the sky in the distance, and Lu Yang turned his head to look. It turned out that the quasi-god of the Holy Gold Clan had further exploded his full strength. In the body of the strong Saint Gold Clan, his strength has almost reached the middle stage of the median god.

The quasi-god of the Yinhu Demon Race also exploded the Moonlight Seven form to the fifth form, and the strength also reached the middle stage of the median god.

The six quasi-gods that fought against them, the strongest power that erupted was the peak of the lower gods or the initial level of the middle gods, and it could only erupt for a while, facing the strong people of the Saint Gold Clan and the Yinhui Demon Clan, it was so terrifying. The strength of the six of them was afraid.

But at this time, it was too late to run, so I could only fight with all my strength, but the final result was that the six powerhouses died tragically on the spot, and the powerhouses of the Saint Gold Clan and the Yinhui Demon Clan were only one step lower in strength. Back to the peak of the next **** only.

“Happy, this battle is a joy.” The strong man of the Holy Gold Clan screamed in the sky, and the golden body also roared in the sky. Unfortunately, the golden body has been severely damaged and only half of its original luster.

The powerhouse of the Yinhui Demon Clan took a right hand move and took the space storage bags on the six people. Three of them were distributed to the powerhouse of the Holy Gold Clan, and the other three remained in their own. In his hand, he said: “You have contributed more in this battle, and the more share will be given to you.”

The strong man of the Holy Gold Clan took the prey at his waist without even looking at them, and said with a grin, “There’s another idiot, and he’s the last one, it should be in the west, just now I saw the sound of a battle explosion there. We went over there and killed him.”

“Don’t worry, let me know his exact location, maybe he has already run away.” The strong man of the Yinhui Demon Clan smiled, pretending to be chanting a spell silently, but he actually sent a message to Lu through the Silver Moon Pick. Yang, asked: “Help me kill him, you just need to attract his attention.”

“Are you sure you can kill him?” Lu Yang was a little curious.

“Of course, I have the treasure of the Yinhui family, the Hui Ye Blade.” The Yinhui Demon replied.

Lu Yang was a little curious, and said to the Blazing Demon God, “What is the Kaguya Blade?”

“The special treasure can release the attacks of the peak spells of the upper gods, but it takes ten days to charge each time it is used, which is not very practical.” The Blazing Demon God said with disgust.

“It’s very practical here.” Lu Yang replied to the Yinhui Demon with a smile: “There is a big tree with three conjoined trees by the lake, and I will attract him under the tree.”

“It’s a word.” The Yinhui Demon looked at the strong man of the Saint Gold clan and said, “I found his position, come with me. You used up too much magic just now. Let me do it this time.”

“Impossible, the last one is the fire demon who has damaged the face of our strong family. I will crush his flame body with my own hands and throw his soul into the blood purgatory to suffer eternal torture.” The strong man had a ferocious look on his face, and took the lead to fly to the lakeside area.

As soon as Lu Yang came to the bottom of the three conjoined trees, he sensed that the two of them were not far away. He retreated to the area not far away, and with a move with his right hand, a large area of flames within a radius of five kilometers rose up, and All the surrounding vegetation was on fire.

Afterwards, Lu Yang turned into a fire element and fell into a flame a hundred meters away. All the flame clones were hidden in the ground, leaving only one standing in the burning grass next to the three conjoined trees.

“Trick of the eagle, do you think you’re hiding it?” The strong man of the Holy Gold Clan had already come to the sky above the three conjoined trees, and following the direction of the silver devil’s finger, the golden light turned into a huge fist, heading towards Lu Yang. The position of the clone smashed over.

“Death to me~!”

The speed of Jin Guang’s fist is extremely fast, but Lu Yang’s speed is even faster. He controlled the clone and jumped into the air in an instant, and slammed into the golden body of the Saint Gold Clan strongman.

“Boom~!”

A mushroom cloud steamed up, and the flame damage of the lower god's first-order, even if the strong man of the Holy Gold Clan launched a golden body to fight, was knocked out by the terrifying explosion, and fell heavily to the ground.

"Roar~!"

The strong man of the Saint Gold tribe was extremely angry, stood up and looked around to find Lu Yang's position, but at this moment, a silver short sword turned into a streamer and easily pierced the golden body of the lower god's peak, knocking the Saint Gold tribe away. The strong man's head was cut off.

"Why, why?" The Saint Gold Clan powerhouse did not die immediately, and asked the Yinhui Demon Clan powerhouse with an unbelievable look in his eyes.

"Because you deserve to die." The silver demon fell to the ground, with a sinister smile on the corner of his mouth, he used the soul arrest technique to imprison the souls of the strong saints and beat them into countless fragments of holy light.

"Come out, my human friend, all these things belong to you." The Yinhui demon powerhouse threw all the storage bags on his body in front of Lu Yang, a total of 23, all of which he had been with St. It is obtained by killing the strong people of the Jin family.

Lu Yang didn't come out, but let a clone come out from the ground, put away these storage bags and said, "Thank you, as for how I killed this one who made up the Saint Gold Clan, it's your business. , I'm getting ready to go."

"What are you doing in such a hurry? I heard that you have a Blazing Demon God in your body, why don't you hand it over?" The strong man of the Yinhui Demon Race had a smile on his face, but Qi Ji locked on Lu Yang and attacked if he disagreed. stance.

Lu Yang knew this was the result. He controlled his clone to reveal his golden soul core and said, "If you live enough, I don't mind killing you."

“Just relying on your low-level god’s first-level spell?” The Yinhui Demon sneered on his face, and continued to approach Lu Yang.

“One is not enough, so many?” Lu Yang’s consciousness wandered among the fifty flame clones. In the surrounding forest burning with flames, fifty Lu Yang suddenly appeared, each holding a golden soul in his hand. nuclear.

The smile on the face of the Yinhui Demon froze, stared at Lu Yang and said, “So this one in front of me is not the body, you are really cowardly.”

Lu Yang said: “I know that you are looking for my body, but don’t waste your energy, you can’t find it, why don’t you give me the spells of the Seven Moons of the Night, so that I won’t use Soul Search on you again? surgery.”

Originally, Lu Yang never thought of dealing with the Yinhui Demon, but this kid really dared to step into his trap because of his strength, so don’t blame him for being rude.

“Great Gravity Technique, start~!” Lu Yang recited the incantation silently. In an instant, within two kilometers of the surrounding area, he was suppressed by a powerful gravity spell. Death, even if it is above the lord rank, if it does not reach the monarch rank, even walking will be a problem.

“This, this is the lower god? How could you bring in the magic circle of the lower **** level.” The silver demon asked in horror.

Lu Yang smiled and said: “As you said, I have the Blazing Demon God on my body. Originally, I didn’t have the ability to smuggle magic energy crystals to set up the magic circle, but the Devil’s Temple of Blazing Demon God can be opened at will here. , and one more, the magic energy crystal I brought is of quasi-god rank, but the Blazing Demon God changed it a little, and it became a magic circle of pseudo-god rank, stop struggling and die.”

His consciousness circulated between the avatars, and fifty avatars burst into flames at the same time, and the catapults slammed into the silver demon.

Chapter 2569: Weaknesses of Ancient Races

Lu Yang's coveting the seventh form of the Moon Night is not a day or two, but this kind of trick is not even known to the Blazing Demon God, and the entire other world is only available to a few races that have been handed down from ancient times. It can be seen how rare this kind of magic is.

In the Jagged Brotherhood, in addition to Lu Yang and Zhuojiu, Bai Shi, Zhou Tianming, Xia Yuwei, Kuai Bansheng, Liu Ruohuai and De Bujushi can all learn.

The quasi-gods can explode the combat power of the lower gods, and the median gods can explode the battle power of the main gods. If their brothers have learned it, they still need to worry about the attack of other world races.

It's a pity that Lu Yang couldn't beat the Dark Moon Young Master at all, and he didn't have the chance to meet the members of the Yinhui Demon Clan. Now he finally met one, who had learned the seventh form of Dark Moon, and the opponent's strength after many battles. He will never miss this opportunity for a clan with a serious decline.

"boom"

"boom"

"boom"

...

One by one, the flame clones slammed into the silver demon powerhouse with golden soul cores. This sudden attack, coupled with the limitation of the large gravity technique, the silver demon powerhouse could not escape at all. , can only rely on the body to resist, but this is the magic power of the first-level lower gods, even if the opponent is in the peak state of the lower gods, it is still painful to be bombed.

“Lu Yang, you have to pay for your actions, you have to pay for your actions! Do you really think that you can beat me if you have a remnant soul of the Blazing Demon God?” Roaring wildly, a silver light suddenly appeared from the body.

The flame clone and golden soul core exploded in front of him again, but they were all blocked by the silver light, unable to cause any damage to him.

Lu Yang took a closer look and found that a small silver shield appeared in the opponent’s hand at some point.

“I thought you had some special ability, didn’t you just rely on the shadow of your ancestors to use abilities that didn’t belong to you?” Lu Yang sneered and opened the third eye on his forehead.

“This is the strength of my clan, so what if you have the remnant soul of the blazing demon god? Did you break the lower god’s peak round shield in my hand?” The magic surged wildly.

Lu Yang sneered and directed a clone to continue the attack. Just when the silver demon powerhouse held a shield to protect his chest and wanted to resist again, the third eye on Lu Yang’s forehead instantly spewed out a white flame, attached to the silver on top of the shield.

“Dang bang~!”

In an instant, the silver round shield made a crisp sound, and fell to the ground in 12 parts. Countless rune rays of light scattered from the break of the shield, as gorgeous as fireworks.

“My Silver Moon Shield, ah~!” The strong man of the Yinhui Demon Race was excited about the shattering of the shield, but didn’t notice that another Lu Yang’s clone had slammed into him.

A mushroom cloud rose up, and the damage of the lower god’s first-order was taken over by the powerhouses of the silver demon clan with their bodies.

Even if he is in the peak state of the lower god, his skin is still black, his right arm is blown open, and his mouth is spit out a few mouthfuls of silver blood.

“Lu Yang, you lowly human, I’m going to kill you! I’m going to kill you~!” The strong man of the Yinhu Demon Race was furious in pain, ignoring the wounds on his body. A meter-long silver pillar flew out and stopped on top of his head. One emitted a silver light, forming a shield barrier to protect him within 10 meters. Inside.

Lu Yang suddenly felt that his entire body became stiff, and the avatar’s mobility was suppressed and he could barely walk. At this moment, the third silver pillar was aimed at Lu Yang’s head.

“Buzz!”

The silver light shot out, and Lu Yang’s head and body were shot on the spot. What was even more terrifying was that when Lu Yang’s body was reborn, he actually felt that there was something silver in his body that was preventing him from recovering, and even hindering the operation of his magic power.

“One more time, one more time, I can make your body tortured by silver water forever, I want to make your life worse than death, and the pain is unbearable!” The expression of the strong man of the Yinhu Demon Race became more and more hideous.

Lu Yang reorganized his body and looked at the silver water flowing in his body with a dignified expression. His forehead aimed at the silver pillar and shot out light, but was avoided by the silver pillar. In turn, the silver light shot by the silver pillar exploded again. Lu Yang’s body.

“What kind of exercise is this, why is my body getting heavier and heavier.” Lu Yang reorganized his body again and continued to shoot the pure world fire at the silver pillar, but he was still avoided by the other side. Then, his body was shot by the silver pillar again. The light exploded.

once

twice

three times

...

When he was shot ten times in a row, Lu Yang's body was covered with silver light, his magic power was almost unable to function, even walking became difficult, and the third eye on his forehead could not be opened.

"Poor human being, this is the biggest difference between you and me, you only have the remnant soul of a blazing demon god, but behind me is the entire silver demon clan, how can you beat my artifact, hand it over to you The Blazing Demon God in your body." The strong man of the Yinhui Demon Clan flew to Lu Yang with a wild laugh, grabbed Lu Yang's neck with one hand, and began to extract the remnant soul of the Blazing Demon God.

"boom"

Lu Yang's body turned into a flash of fire and disappeared out of thin air, and the strong man of the silver demon clan looked confused, but in the next second, Lu Yang in the form of a four-armed demon flew out from the ground with a violent red flame. A golden soul core hangs from each arm, and at the same time he is pressed to the neck of the silver demon powerhouse.

"Break me!"

With Lu Yang's loud roar, four mushroom clouds exploded at the neck of the Yinhui demon powerhouse.

Lu Yang's body was blasted out in an instant, and the four arms could not be maintained, and he vomited blood, but his face did not show the slightest pain, but instead showed a look of ecstasy, because the Yinhui demon powerhouse The head is flying into the air.

"Come here." Lu Yang shot a purple flame from his right hand, grabbed the head of the Yinhui demon powerhouse, pulled it in front of him, smiled at the other's head, and said, "Now I tell you, the blazing demon **** What you taught me is endless knowledge and fighting skills, how can you be a waste like you who grew up under the protection of your family, how can you beat me?"

“Impossible, it’s impossible, how could I fall into your illusion, I’m a silver demon, I can’t fall into an illusion.” The faces of the silver demons were full of unwillingness.

That kind of big illusion, the silver demons, is difficult to be psychedelic, because the demon blood itself has a great immunity to illusion. Once it is discovered that the illusion is in, it will quickly cast the power of the dark moon to get rid of the illusion. ‘s bondage.

Lu Yang learned the characteristics of this race from the Blazing Demon God, so he did not use a large-scale illusion, but a simple spell like the ancient snake emperor, which made the other party more willing to see what he wanted to see. That’s all, plus he has the secret technique taught by the previous God King, the Blazing Demon God, and turned into a tiny fire element beating in the flames. This is not the silver demon, a race that has never been a God King understandable.

“I won’t kill you, I will only read your secrets. You still have a chance to face me. I hope you can be smarter next time.” Lu Yang won’t tell the Yinhui Demon how he did it. A white light was emitted and began to extract the memory of the other party.

The Blazing Demon God looked at the silver demon with a painful expression, shook his head and said, “I have always looked down on the descendants of these great clans who possess secret techniques. The burden the clan has given them is too heavy. Let them go out to fight, just like this, once they fail and are captured, the secret method of the clan cannot be preserved, and they can only be sent to places where there is no danger to experience, but there are so many absolutely safe battlefields, and how can there be so many What about the miss?”

While searching, Lu Yang said with a smile: “No wonder the Yinhui demons would come to this kind of place. The Young Master Dark Moon wants him to come here to practice, thinking that it is absolutely safe here.”

The Blazing Demon God said, “What are you going to do next? If you don’t kill him, aren’t you afraid that he will go back and tell the truth?”

Lu Yang said: “If he had the guts, he would explode the moment I broke his head. I searched for a secret technique of their family. Once they were defeated and captured, I asked them to use it instantly to explode their souls. The guy is not willing to blow himself up at all, let alone a whistleblower, it is already the biggest secret that he lost his own unique skills.”

“It’s another useless waste.” Blazing Demon God didn’t bother to answer, and said, “I found the secret technique and show me a look.”

Lu Yang nodded and continued to draw.

Chapter 2570: work together

Outside the ancient hunting ground, in the temple of elements, among the remaining people, there are only the median **** of the holy gold family and the young master of the dark moon, and the powerhouses of the remaining 24 races have learned through their own secret techniques. the death of a family member.

They know very well that there is a high probability that the quasi-gods of the holy gold clan and the silver demon clan did it, but these races simply do not have the strength to challenge these two ancient gods. It’s not worth it to have a grudge, so without even giving up the harsh words, they each left.

The powerhouses of the Saint Gold Clan have been in a state of excitement these days. When he saw these people leaving, he knew that it was his apprentice who did it. Only his apprentice and Young Master Darkmoon joined forces to be able to do it in such a short period of time. Killing the quasi-gods of the other 24 races, just when he was proud of the strength of his apprentice, a golden bead burst in his hand!

“Bang~!” The strong man of the Holy Gold Clan suddenly showed a hideous look, punched the ground, glared at the young master of the Dark Moon Clan, and said, “My clan is dead!”

“What?” Dark Moon Young Master pretended to be surprised and said, “How could this happen?”

“Is this still useful? Thanks to your clansmen.” The strong face of the Holy Gold Clan was like frost. If it wasn’t for the elemental spirits controlling the magic of the god-king rank, he would punch the Dark Moon Young Master to death. .

“Don’t jump to conclusions in such a hurry, don’t forget that there is a third race in the ancient hunting ground. No one knows how strong the fire demon is. Maybe, it is not necessarily strong.” Dark Moon Young Master took out a silver pick, the light on it flickered, obviously, his clansmen were also hit hard!

The strong man of the Saint Gold Clan stared coldly at Young Master Dark Moon, and said word by word, “It’s better, otherwise, today is the day of war between you and my clan!”

Young Master Dark Moon showed a smile and said, “If my clan did it, I would kill him with my own hands. This kind of treachery will not be done by the Yinhu Demon Clan.”

The strong man of the Holy Gold Clan suppressed his anger, and sat down in place and continued to wait. The Dark Moon Young Master also sat down in the same place, but his eyebrows were also very worried.

The silver moon blade he gave to the clan could indeed kill the strong men of the holy gold clan, but the silver paddle in his hand was so uncertain, the clan must have been seriously injured.

It stands to reason that this should not exist, unless it was caused by his clansmen in order to protect Lu Yang. Before entering, he specially explained that Lu Yang must not fall into the hands of other races. Otherwise, the Blazing Devil God The soul cannot be obtained.

“What happened?” Dark Moon Young Master secretly wrote a sentence on the pick.

the other end.

Lu Yang had just accepted the exercise, looked at the Yinhu demons who had put their heads back on their bodies, with a smile on his face, and said, “Young Master Dark Moon, please contact you.”

“What should I say?” The strong man of the Yinhui Demon Race showed a look of horror on his face. He was now controlled by Lu Yang, and his magic power could not be released at all.

“It’s just that in order to protect me from being killed by the Saint Gold Clan, you fought with the Saint Gold Clan strongmen and were seriously injured. Now you are recovering.” Lu Yang said.

“That’s all I can say.” With a helpless look on the face of Yinhui Demon, he pleaded with Lu Yang: “Please, don’t tell me that you know the seven forms of Moon Night, otherwise, I will be punished by mine. The clansmen were tortured to death, I don’t want to die~!”

Lu Yang smiled and said: “I have already studied and understood this thing, it is indeed a rare exercise, I will teach it to my clan, you only have one choice now, betray your clan and accept me as the master , otherwise, sooner or later, your race will know that you have been captured by me, and have found the Moonlight Seven form.”

“I...” The silver demon had a bitter expression on his face.

Lu Yang said with a smile: “It’s really difficult for you to accept this for a while, but you can slowly think about it, there are still many opportunities for you and me to get in touch in the future, take a rest, and prepare to leave here.”

Now all the storage bags are in his hands, and the number of wild prey in it is 972. Although there are still 28 to collect 1000, Lu Yang’s current strength is no longer able to kill other ancient races. .

Just in order to be able to control the Yinhui Demon, Lu Yang was holding the four-armed magic that was close to detonating the thunder fire seeds, and the four lower-level god-level spells exploded at the same time. Lu Yang’s physical condition was also extremely poor.

He took out the hunting order, released magic, a burst of light flashed, and the voice of the Holy Light Spirit appeared, asking, “Are you going to retire?”

Lu Yang said: “I have collected enough prey, I apply to leave the arena!”

“Okay.” The voice of the Holy Light Spirit showed no emotion. The hunting token released nine-color elemental rays of light. The next second, Lu Yang appeared in the palace.

The median **** of the Holy Gold Clan and the Young Master Dark Moon locked their eyes on Lu Yang at the same time. The median **** of the Holy Gold Clan roared, “You’re not dead? Where are my clansmen?”

Lu Yang sneered, looked at him and said, “You were killed by me. Could it be that you want to avenge me here.”

“I killed you...” The strong man of the Holy Gold Clan raised his arm, but was stopped by the Dark Moon Young Master, motioning him to look behind him.

The Holy Light Spirit is emitting a fierce golden light, which makes the arms of the strong people of the Holy Gold family not dare to use force at all. , tell me your location and race if you have the guts, do you dare to say it?”

“Why don’t you dare, I’m in the lava sea, come here if you have the guts.” Lu Yang pulled the hunting token again, after a flash of light, the token stayed in place, but Lu Yang disappeared without a trace trace.

“I’m going to kill you.” The strong man of the Saint Gold Clan was mad, and roared wildly, wanting to fly out of this area.

Dark Moon Young Master stopped him again, frowned and said, “Be careful of deceit, wait for my clan to come out.”

“What do you mean?” the strong man of the Saint Gold clan roared.

Dark Moon Young Master said: “The strength of that fire demon is that of an ordinary quasi-god. It shouldn’t have such a strong strength to kill your clan, there is a problem here.”

The strong man of the Holy Gold Clan could not listen to the words of the Dark Moon Young Master, and threw his hand away and wanted to continue flying away, but at this moment, the members of the Yinhui Demon Clan flew out, and as soon as they landed on the ground, they endured it. He gushed out a mouthful of silver blood.

“What’s going on?” Dark Moon Young Master asked with a frown.

The strong man of the Holy Gold Clan couldn’t help but stop, staring at the quasi-god of the Yinhui Demon Clan and roaring: “Tell me, how did my clan die?”

The quasi-god of the Yinhui Demon Clan had already made a speech through the silver paddle, and he knelt down directly on the ground and said to the median **** of the Saint Gold clan: “That fire demon can temporarily burst out the fighting power of the peak of the median god, My brothers from the Saint Gold tribe slaughtered 23 other races. At the end, they were besieged by the six races. As soon as I killed them, they were attacked by the fire demon. The brothers from the Saint Gold tribe died like this. Get up, and then accumulate magic power to return.”

“Damn, I killed him.” The median **** of the Saint Gold Clan roared and flew out of the palace with a golden light all over him.

Chapter 2571: rock fire tribe

Young Master Dark Moon looked at the strong Saint Jin clan flying away with a sneer, took out the hunting token, and teleported away with his clansmen, then he sent a message to Lu Yang, saying: “Jin Yan The median **** is chasing you, remember our agreed position, and don’t go to the wrong place.”

At this time, Lu Yang has transformed into the form of a phoenix, flying desperately in the direction of the flame star. In that area, there is a lava lake, and there is a Yanhuo clan, a mixed race. The release of fire spells can also release earth spells. Although it is not a **** race, it is an existence that ordinary **** races dare not provoke.

According to Young Master Dark Moon’s plan, Lu Yang hid in the lava lake, attracting the strongmen of the Shengjin tribe to come to the door to ask the guilt, and there must be a fight. Young Master Yue made a sneak attack on the way back, killing the strong people of the Saint Gold Clan would lead to a

battle between the Saint Gold Clan and the Yanhuo Clan, and he took the opportunity to kill the Saint Gold Clan with the members of the Yinhuo Demon Clan.

“Don’t worry.” After Lu Yang replied with two words, he put the pick in his backpack, and while flying, he said to the Blazing Demon God: “It’s strange, what do you think this Dark Moon Young Master always slaughtered other races for? He is from the Dark Moon Star area, and the Saint Gold Clan is from the Holy Light Star area.”

He now feels more and more that the young master of the Darkmoon clan definitely did not slaughter the surrounding races for the sake of the clan’s living area. There must be other reasons.

The Blazing Demon God smiled and said: “I have already probed the memory of the quasi-god of the silver-flavored demon race that you passed on to me, let’s not talk about the cultivation technique of Moonlight Seven, I will tell you what the Dark Moon Young Master is doing.”

Lu Yang was a little curious and asked, “Why?”

Blazing Demon God said, “Because of a prophecy.”

“Prophecy?” Lu Yang smiled and said, “You gods still believe in prophecy.”

Blazing Demon God said with a smile: “Of course we don’t believe in prophecies, but there are always some special prophecies that will make us suspicious, such as the prophecy that Young Master Darkmoon and the others know.”

The Blazing Demon God didn’t continue to sell off, and told the news he knew. It turned out that when the king of the **** king of the Chaos Beast family died in battle, he left a prophecy that the future **** king will meet in four days. Born of the Earth, he will bring the ultimate peace and the future of all races in the other world.

“No wonder all the main gods of other worlds went to kill the Chaos Beast as soon as the Chaos Beast came out. It turns out that they were not only worried about the Chaos Beast’s revenge, but also worried that there would be a new King of Gods in the Chaos Beast.” Lu Yang laughed. said.

Those who can live in the land of four-day brilliance are either savage races, or Chaos Beasts, or Void Zerg, and then some ancient **** bloodlines left behind. The rest of the races have no way to live in this area. After all, The more energy that one system absorbs, the more it rejects the other three systems.

The Blazing Demon God said: "I only knew this fable when I was killing my previous God King and searching for his soul, but I didn't take it seriously, I never thought that the Yinhui Demon Clan would take this matter as true, but, From the current point of view, it is really possible for the **** king to appear in this four-day land."

Lu Yang raised his eyebrows and asked, "Who is it?"

The Blazing Demon God said with a smile, "You!"

"Me?" Lu Yang shuddered and said, "Don't tease me, I am a single fire element, and in the future, I will only go deep into the area illuminated by the flame star, and then board the flame star to help you get back the Vulcan Palace. , I'm not on the same side as the four-day land of brilliance."

The Blazing Demon God shook his head and said, "Originally, it didn't work out, but after I saw the Qigong technique in the moonlight form, I knew that it was really possible that it was you."

"Why?" Lu Yang asked.

The Blazing Demon God said: "Because you can learn the exercises of the Seven Moons."

Lu Yang's eyes lit up and exclaimed, "How is this possible, how can I learn it, I am the body of a **** of flames, and I am repelled by other energies that are not flame elements."

The Blazing Demon God shook his head and said, "Indeed, your demon body is the dark moon energy that is repelled, but your origin battle body is not repelled. I have a way to make your origin battle body cultivate the Moon Night Seven form."

The so-called origin battle body is the four-armed dharma image. It was Lu Yang who killed too many quasi-god and above powerhouses, causing him to be cursed by quasi-god and above powerhouses.

The source battle body has no affiliation, just because Lu Yang is a fire element, so the spells displayed with the source battle body are the fire element spells. If Lu Yang is an ice element, the spells released by the source battle body are also Ice-type, and the final form of the original battle body is four heads and eight arms, which corresponds to the four stars of another world!

“How to do it?” Lu Yang doesn’t believe that he will be the new **** king in the land where the four stars shine in the future, but he believes that if he learns the Moonlight Seven form, he can better protect his family and clansmen!

Blazing Demon God said: “It’s very troublesome, first of all you have to cultivate the second head of the source war body, and you also need to put something into this head, so that he has the ability to release the seven forms of the moon, at least one is required. The moon spirit, the highest is the heart of the moon god.”

The Moon God’s Heart was in Lan Yu’s body, so Lu Yang couldn’t touch it. He asked, “What is the Dark Moon Spirit?”

The Blazing Demon God said: “Every hundred years, the Dark Moon Star will erupt again on a super-large scale, and the swayed Dark Moon energy will fall on the central area of the other world facing the Dark Moon Star, which will prompt the ancestors of all flowers to form a knot. Ten humanoid unconscious bodies radiating the luster of the dark moon, this thing is the spirit of the dark moon.”

Lu Yang rolled his eyes, not to mention what the Ancestor of Ten Thousand Flowers is, just the central area illuminated by the dark moon star, he couldn’t fly over, and said, “It’s the same as if you didn’t say it, and I can’t take it either. arrive.”

“You can’t get it, but I have it.” The Blazing Demon God said proudly: “When I arrived at the God King Realm, I asked the Ancestor of Thousand Flowers for a month’s spiritual body, but he didn’t give me a beating. , and then grabbed one back, and later found that this thing was useless to me and my clansmen, so I threw it into one of my treasure troves, next time you come.”

The race originally occupied by the Lava Lake believed in the Blazing Demon God, and the Yanhuo Clan believed in the New God. With the defeat of the Blazing Demon God, the race that believed in him was also driven out of the Lava Lake by the Yanhuo Clan. This was also Lu Yang. The reason why He and the Blazing Demon God set the coordinates here is to avenge that race, but Lu Yang didn’t expect that there

was a treasure hidden by the Blazing Demon God underneath, and he couldn't help but speed up the speed by three points.

Chapter 2572: The ancestor of all flowers

three days later.

Lu Yang flew to a black-red plain, and at the end, suddenly a huge lava lake that could not be seen at a glance appeared in front of Lu Yang.

Coupled with the huge flame star above his head, the scorching light emitted, the terrifying sense of oppression is completely incomparable to the dark moon star. However, in the area of lava lake, Lu Yang not only did not feel it. The slightest discomfort, but a feeling of physical and mental pleasure.

“Fire Demon Form”

Lu Yang put away his wings and landed in a black grass by the lava lake. Some of this strange grass also bears crimson flowers, like a burning flame.

The Blazing Demon God snorted comfortably and said, “This is the world I like. It's really comfortable to be able to come back again.”

Lu Yang sighed, and when he arrived at this place, he suddenly had a hint of enlightenment, and said, “His Royal Highness the Blazing Demon God, if I'm not mistaken, this lava lake is directly connected to the core of this planet, right?”

The Blazing Demon God was stunned for a moment and asked, “How did you know?”

Lu Yang laughed and said, "Although the laws of the earth and the other world are different, I have a feeling that the flame is the dominant force of the other world, and the depth of this lava lake must be the deep core of the earth leading to the other world. That is to say, there must be a passage under the lava lake that can lead to the source area of another world, I am right."

The Blazing Demon God sighed and said with a smile: "You are really smart, you are right, this is indeed the source area leading to another world, how did you guess?"

Lu Yang said: "Because you said that there is your treasure trove under this lava lake, a central area that is not illuminated by a flame star, how could it have contact with you, I felt strange when you told me, now I see This lava lake, I thought that was the case."

Blazing Demon God said: "You are not allowed to play the idea of the origin of planets in different worlds. This is not something you can absorb now."

Lu Yang rolled his eyes and said, "I knew you were reluctant to part with this planet. It stands to reason that you have been able to absorb the source energy of this planet, but why don't you do it?"

Blazing Demon God shook his head and said, "This involves my cultivation thoughts. If I choose to absorb it, then I can do it as early as millions of years, but I am on a farther planet, and I feel strong there. The power of the master is a hundred times stronger than me, so I don't think it is the best to swallow the source here. There must be better cultivation methods that can allow us to break through ourselves.

If you just use the source of this planet to cultivate, then why do you break through yourself? You can just lie in the source and keep getting stronger. On the other hand, the interior of the source is also very dangerous. There are energy storms. With your current strength, you can Go in and you will die. "

Lu Yang nodded and said, "Don't worry, I won't go in."

The Blazing Demon God believed Lu Yang's promise and said, "Enter the lava lake, at the deepest part of the lake, and I will guide you to the specific location."

Lu Yang nodded and drilled into the lava lake. In an instant, his eyes turned golden red. The magma was not water, which made it a little hard for him to drill into it.

“Fire Element Transformation”

Lu Yang chanted the spell and turned into a fire element. In this way, it became much easier for him to dive. There was a total of 2,000 meters of God’s lava lake, and he quickly dived to the bottom of the lake. Below the red lava is an extremely hard white rock.

The Blazing Demon God said: “This kind of rock can withstand the high temperature of 100,000 degrees. The further down you go, the stronger the ability of the rock in the depths of the different world to withstand the high temperature. If you fly 20 meters to the right, there is my treasure house and the gateway to the world. The location of the origin of another world.”

Lu Yang flew to the spot designated by the Blazing Demon God, and after removing a piece of black-red lava, he saw a white rock painted with red runes.

The Blazing Demon God chanted a spell and controlled Lu Yang’s right hand to press the center of the red rune. In an instant, the red light flickered, surrounding Lu Yang’s entire body and teleporting it into an empty hall.

The walls, ceiling and floor of the hall are all white rock, with red gemstones inlaid on the walls, illuminating the whole hall.

In addition to a magic circle at the foot of Lu Yang, there is a barrier with white light on the north side of the hall. It is like a well. Inside the well, there is white source energy, and the terrifying energy storm is blowing continuously in the well. , issued a burst of ghost whistling.

“Why don’t you have anything?” Lu Yang looked at the hall speechlessly, saying that it was a treasure house, but it was so empty that it was outrageous. Except for a dark moon spirit, the rest turned out to be a leaf and half a fruit. .

The Blazing Demon God flew out of Lu Yang’s body, scratched his head and said, “How could I know that I have today? After I beat the ancestor of the thousand flowers, I not only robbed the spirit of the Dark Moon, but also pulled out a piece of his head. Zu Ye, the half-laden fruit was born by the ancestor of all flowers. I took a bite and threw it in my backpack. Then I came here to realize the power of the source.

A lot of Origin Sky Crystal spewed out of the well, and there were a lot of things in my backpack. It happened that this Ancestral Leaf, Dark Moon Spirit, and Fruit took up space, so I just threw it away, and I didn't hide it on purpose."

Lu Yang gave him a roll of eyes, Blazing Flame Demon God, the stupid son of the landlord's family, who had done a good job. He took the Spirit of Dark Moon in his hand. This is a long thing like ginseng, but this thing has no consciousness. But consciousness can occupy its body, and after refining, it can become something like a second clone.

"Master, master, please have mercy on the master, can you ask His Royal Highness the Blazing Demon God to give me the ancestral leaf and the half fruit, that thing is of great use to me and can make me advance." The three-eyed magic flower longed for The voice came out of Lu Yang's mind.

The three-eyed magic flower signed a soul contract with Lu Yang. What Lu Yang can see can also be seen by the three-eyed magic flower. Therefore, every critical moment, the three-eyed magic flower will release spells to block damage for Lu Yang.

Lu Yang slapped his head and forgot about the three-eyed magic flower. Since he had the Exploding Flame Seed and the Ancient God's Three Styles, he often jumped to the level to kill people. He didn't use the three-eyed magic flower. This little flower under my hand has been forgotten.

"Is this thing good for my three-eyed magic flower, it seems to have an effect on him." Lu Yang asked.

The Blazing Demon God was already lying on the mouth of the well, and he waved his hand without looking back and said, "You can do whatever you want, it's useless to me anyway."

Lu Yang shrugged his shoulders, threw Zu Ye and half of the fruit into the Demon Temple, and said, "If you need something, tell me in time, and I will try my best to help you get it."

"Thank you master, it is enough to have these two things, ancestor leaves and ten thousand flowers fruit, can make me fill the bloodline defect of the three-eyed magic flower, and even allow me to gradually evolve into the ancestor of ten thousand flowers, thank you my master, I will do my best to protect you." The Three-Eyed Magic Flower said gratefully.

“What is the ancestor of thousands of flowers?” Lu Yang asked curiously to the Blazing Demon God.

“All plant creatures in the different world are split from him. If you don’t tell me, I forgot, this thing can indeed make up for the bloodline defect of the three-eyed magic flower, but if he becomes a thousand flowers The ancestor, the real ancestor of thousands of flowers may come over to fight with him, because there can only be one ancestor of thousands of flowers.” The Blazing Demon God said.

“Yes, there is one more enemy.” Lu Yang shook his head and said, “Let’s go, it is estimated that the median **** of the Holy Gold Clan has arrived. I really want to see his strength when he fully displays his golden body. If I can find something, if I can search for its soul, I want to get the golden body spell, which I can use, and I can also give it to the turbid wine to use.”

“I know you think so, let’s go.” The Blazing Demon God returned to Lu Yang’s body, chanted a spell and took him away from the treasure house, and flew towards the top of the lava lake.

Chapter 2573: ancient artifact

“Rock Fire Clan, hand over that Fire Demon, or I will destroy your race.”

“The mere median **** dares to fight me, give me death~!”

“Holy Light Golden Body~!”

...

50 meters above the lava lake, the median **** of the Holy Gold Clan stood in the air, his body did not turn into a 100-meter-high golden body, but his body was full of golden light, and the holy lightsaber in his hand was extremely sharp, and his strength climbed to the level of the main god. peak!

The patriarch of the Yanhuo clan is only a median god, and the dozens of elders and generals under his command are also median and lower gods. Compared with the strength of the Shengjin clan, it is not a star and a half. Even they have secret methods, but Only the patriarch of the Yanhuo Clan has reached the strength of the primary gods, and the rest are the peak of the middle gods.

“Die~!”

“Die~!”

“Die~!”

...

“Give me all to die~”

Every time the strong man of the Holy Gold Clan swings the Holy Light Sword, he will take away the elders of the Yanhuo Clan. When the terrifying sword light is chopped down, it will shoot out thousands of meters away, affecting countless people of the Yanhuo Clan. , attracted a large number of Yanhuo people to flee.

At this time, Lu Yang turned into a fire element, hiding in the distance and staring at the war above. The winner is about to be decided. The patriarch of the Yanhuo clan has blown himself up, but successfully trapped the strong of the Shengjin clan. By.

The rest of the clansmen used the lava lake as energy to launch a large red flame formation, releasing a flaming knife-like technique, which continuously cut off the two golden arms of the Saint Gold Clan strongman.

“Ah~!”

The strong man of the holy gold clan roared wildly, and his arm was broken along with Qigen, but the next second, the strong man of the holy gold clan actually took back his arm, and the transformed golden body actually regenerated his arms. The original two The golden light arm that was cut off instantly shattered into little golden light, and returned to the golden body of the strong man of the holy gold family.

...

“Tsk tsk tsk.” Blazing Demon God said with a sigh: “This little guy from the Holy Gold Clan is like a small steel cannon, he is really fierce, even if I was at my peak, killing him is not a one-shot solution.”

Lu Yang was a little surprised, and said, “No wonder it’s so rampant, it’s really a bit of a skill.”

Blazing Demon God said: “Get back the soul cores of the dead middle and lower gods of the Yanhuo clan. With their soul cores, you can fully utilize the power of the flame seeds.”

Lu Yang also had this intention. Looking at the corpse of the median **** floating above the lava lake in the distance, as well as the Yanhuo clansman running to the shore frantically, he swam over quickly.

A total of nineteen corpses, six middle gods and thirteen lower gods, he did not rush to burn these corpses with red flames, but drilled a hole in their heads immersed in the lava lake, and put the soul core All taken out.

The soul core of the middle **** is very large, it looks like a basketball, the lower **** is not small, like a volleyball, he secretly charges one of the lower **** soul cores, and quickly fills it up.

Lu Yang tried it out, and he found that the power of this soul nuclear explosion was definitely not inferior to the full blow of the middle **** of the Yanhuo clan. great damage.

The key is that this thing can be prepared in advance and used at any time during the battle. Unlike the exercises like Moonlight Seven and the Golden Body of the Holy Light, they need their body and divine power to support them. , they can’t use the Moonlight Seven form anymore.

Lu Yang, the explosive flame seed, as long as he has a high-level soul core, he can create it casually. When he is fighting the enemy, throwing it out will cause super-level damage, and it will not have any effect on him at all. Even if he is finished throwing, his magic power and spirit Strength is still at its peak.

“It means that I have two life-saving secret techniques.” A smile appeared on the corner of Lu Yang’s mouth.

The Blazing Demon God smiled and said, “Be careful, you still have the next level to pass. The little guy from the Yinwei Demon Race is here, don’t let him steal you.”

“Don’t worry.” Lu Yang also sensed that in the sky not far away, the Dark Moon Young Master was flying towards this side at a high speed.

“Have you found that fire demon? I want to avenge my clan, he is dead~!” The roar of Young Master Dark Moon resounded through Brother Sky.

The strong man of the Shengjin clan looked sideways and roared: “Just below this lava lake, protected by these damned Yanhuo clansmen, kill them.”

“Return the lives of my clan.” The Dark Moon Young Master flew to the front in an instant, and the divine power surged in the body to reach the peak form of the Lord God.

The remaining elders of the Yanhuo Clan were stunned. They couldn’t win against a main god. Suddenly another one came, which made their mentality collapsed and they all fled for their lives.

But at this moment, the Dark Moon Young Master suddenly came to the front of the strong Saint Gold Clan, with nine silver short swords hidden under the wings behind him, instantly flew into the body of the powerful Saint Gold clan, piercing his body and soul to pieces.

“You, you, you...” The strength of the strong men of the Holy Gold Clan has broken through to the peak of the main god, and they were killed so easily.

The Blazing Demon God was shocked and said, "How could the Yinhui Demon Clan have the Moon Emperor Sword, they never thought that this ancient artifact would be in their hands."

"What do you mean?" Lu Yang asked.

The Blazing Demon God sighed and explained to Lu Yang: "You should have seen it too, the top gods also rely on weapons to fight, and weapons like the Moon Emperor Sword are the top of the artifacts, because this weapon is handed down from ancient times, that is to say, it may be the artifact of the previous generation, or even the previous generation of gods and kings.

Such an ancient artifact contains a special thing inside. So far, we have not studied it, but this artifact can easily pierce the body and body-protecting exercises that we have practiced for countless thousands of years.

Only an artifact of the same level can block such a weapon, otherwise, he will be killed on the spot like the strong man of the Holy Gold Clan! "

Lu Yang was speechless and said with a smile: "It seems that after the rebellion of this generation of **** kings, the consequences are far more serious than imagined. If you do it this way, it seems that they will replace the current god. King's idea."

Blazing Demon God said in agreement: "It's really possible, but the ancient artifacts alone are not enough to kill the current new god-kings. I feel that they have other killing moves. You have to be careful, if the dark moon is young. The Lord has other control-type ancient artifacts, you can't easily escape, let's go first."

Lu Yang also agreed with the statement of the Blazing Demon God, sneaked to the bottom of the lava lake, left a clone, and hid the main body in Bandarsburg.

Chapter 2574: stole a loneliness

Over the lava lake.

The battle is over, Young Master Dark Moon stood in the air, with a sneer on his face, looking at the Yanhuo clan who were still fleeing frantically, he said to himself: "I'm still very smart, I know it shouldn't be seen when I see it. If you look at the secret, you must die."

A voice that appeared out of thin air asked, "Your Highness, please let my First Legion kill them."

"The Second Corps has applied for battle."

"The Third Army has applied to fight."

...

The voices of more than a dozen scrambles made Young Master Darkmoon even happier, stroking the little snake that crawled out of his cuffs, and said, "Leave it to the first legion, don't let me see a living hole, the other legions are ambushing in place, Wait for the Holy Gold Clan to come."

"Yes." A dozen voices said in unison.

In the next second, from the clouds in the sky, hundreds of thousands of silver demon clansmen in silver armor suddenly flew out. All members of one of the ten thousand army members were at the peak of the demigod rank, and the rest of the legions were of the demigod rank. and semi-monarchy.

After landing in the area on the shore of the lava lake, the legions of the demigods launched a pursuit, and the rest of the legions began to arrange magic arrays with magic crystals on the ground.

Lu Yang's avatar was floating on the lava lake. Seeing this scene, he also confirmed his conjecture. The Dark Moon Young Master really wanted to kill the Saint Gold Clan.

“Lu Yang, don’t be so afraid of me. At this time, there is only one clone left.” The Dark Moon Young Master suddenly appeared above the lava lake in front of Lu Yang, with a gentle smile on his face.

Lu Yang controlled the clone to slowly fly up from the lava lake to the same height as Young Master Darkmoon, he said with a smile: “How scary is your strength that you can become a Peak Lord God at any time, I fight again. But you naturally have to take advantage and run away.”

He didn’t forget the last time he was in the Spirit Arm Clan. As long as he couldn’t hold back his panic and opened Bandarsburg, he would be drilled into by the Dark Moon Young Master. If the Dark Moon Young Master succeeded, the earth would be silver now. Bright demons.

Young Master Dark Moon glanced at Lu Yang with a smile, and said with admiration, “If you weren’t in the soul of the Blazing Demon God, I would definitely take you under the command of our Yinhui Demon Clan. Keep your heart in the face of greed, forget it, let’s get down to business, after half a year, the next wave of races sent to you will be the Evokers, with a population of 700,000, carrying the Great Evoking Array, the coordinates are on the grassland, everything else it’s all unknown.”

Lu Yang said: “Thank you for letting me know. If you need anything, I will contact you again. See you again.”

As soon as the words fell, Lu Yang’s avatar shattered in situ. Young Master Darkmoon couldn’t help sighing when he saw it. Time and space suddenly fluctuated beside him, a strong man of the silver demon clan very similar to Young Master Darkmoon. Appeared out of thin air, frowned and said: “Unfortunately, our space-time array is just about to be arranged, otherwise, we can definitely control this clone, even if we can’t kill this human being, we can torture him for a hundred years through the clone and let him live. Better to die!”

Young Master Dark Moon smiled and said: “So every time I meet Lu Yang, I find it very interesting, this is a young but very smart boy, I am looking forward to meeting him next time, I hope his Wisdom will allow him to escape me a few more times, and that will be interesting.”

The silver demon next to him shook his head and said, “Let’s go quickly, the space-time array will be arranged soon, and the support army of the Holy Gold Clan will arrive.”

“I really don’t know what the patriarch thinks, it’s really troublesome to kill one by one like this.” Dark Moon Young Master gathered his long silver hair, flapped his wings and flew into the air.

On the lake surface of the lava lake and in the sky area, a silver-blue square of light spread rapidly outward, and all the silver demon powerhouses who were illuminated by the light dived into the space one after another, and the surrounding ground seemed to have never been there before. Traces are the same.

...

the other side.

Lu Yang was sitting cross-legged on the top floor of Bandarsburg Castle. He opened his eyes with a sigh of relief and said, “Why do I feel like if I didn’t leave just now, my avatar would be left there?”

The Blazing Demon God smiled and said: “It seems that your perception ability has improved again. It should be another ancient artifact of the Yinwei Demon family. This **** race really has the heart to kill me.”

Lu Yang’s expression was a little dignified, and now he realized that the higher the realm of cultivation, the more insignificant he felt, and there were too many strange places.

“I’m going back to practice.” Lu Yang opened Bandarsburg, returned to Fengshi, took out the intercom, he called Zhuojiu and others, and asked, “Where are they all?”

When Lu Yang went to another world, Zhuojiu, Bai Shi and the others took their main force to kill other races from another world. The holy light pick in Lu Yang’s hand never shook. Always safe.

“Boss, we have ambushed four more races, and we just returned to Fengshi, and the harvest is very big.” There was excitement in the voice of turbid wine.

Lu Yang smiled and said, “Well done, I also have good news here. I selected 100,000 brothers, and I got the meat of the wild ancient beast, enough for 100,000 people.”

“Let’s select here.” Zhuojiu, Bai Shi and the others said in unison.

Lu Yang flew to the barracks area and threw out all the corpses of the ancient beasts in the twenty-six storage bags. In an instant, the entire barracks area was filled with the corpses of these ancient beasts, attracting hundreds of thousands of iron-blooded brothers who had just returned to the team. The brothers all showed shock.

Malthus flew over from a distance and said excitedly, “How did you two get the meat of so many wild ancient beasts?”

Lu Yang briefly recounted what happened, and said, “The only pity is that I couldn’t search the souls of the strong people of the Holy Gold Clan. Otherwise, the cultivation method of the Holy Flame Golden Body can also be obtained.”

Malthus smiled, and said: “I know the holy flame golden body technique, I’m about to teach it to turbid wine.”

Lu Yang was stunned, looked at Malthus in surprise and said, “You didn’t say it earlier.”

“This is not a top-level practice. I have traveled to most of the different worlds. I have been a Holy Light Elemental Wizard for millions of years. It can be said that the practice of the Holy Light Clan, I will be able to do it in the Holy Light. , of course, I will also have the golden body of the holy flame, but I can’t learn this technique here.” Malthus threw out a fact that Lu Yang had always ignored.

“Why?” Lu Yang looked at Malthus in shock and said, “Isn’t the talent of turbid wine enough? How to make up for it?”

Malthus smiled and said: “Silly boy, it’s not a matter of talent, it’s that you don’t have a Holy Light Star here. The prerequisite for the cultivation of the Holy Flame Golden Body is to practice in the shining area of the Holy Light Star. You don’t have a Holy Light Star to cultivate. Shit.”

Lu Yang was speechless and said, “Are the conditions so harsh?”

Malthus said: "The conditions for this kind of secret technique are of course harsh, and one more thing, not only can't you cultivate the golden body of holy flame, but you can't cultivate the seventh form of the moon night. Although you have the moon here, your moon is not the same as ours. The moon in that world is not the same thing, without the source energy of the Moon God Palace, you can't cultivate."

Lu Yang was even more speechless, and said, "In this case, the Void Palace can't be used."

The Blazing Demon God said: "It is indeed the case, otherwise, whoever hid in the Void Temple and cultivated for tens of millions of years would become the king of the gods when they came out."

"It seems that the next time I go to another world, I have to take a large army with me." Lu Yang said through gritted teeth.

Originally, Lu Yang's idea was to take the main army to the four-star shining area of the other world, and eliminate some small races to obtain supplies. Now that the cultivation technique has entered a bottleneck, it happened to be solved together.

Chapter 2575: luna help

"Om~!"

A ray of light flew out from a distance and landed in front of everyone. Lu Yang took a closer look and saw that it was Lan Yu.

"Why are you here?" Lu Yang's expression became gentle.

Lan Yu was frivolous in mid-air, and said softly, "Help you guys, I was far away just now, but Luna heard your conversation, and Luna seemed a little excited."

The dark silver light flashed, and in the next second, a beautiful woman appeared beside Lan Yu, wearing a suit of battle armor, her expression was extremely angry, as if she was going to go wild in the next moment.

“What’s wrong with you?” The Blazing Demon God asked.

Luna stared at Lu Yang and said, “Are you sure you have met a member of the Yinhui Demon Clan?”

“Yeah.” Lu Yang was a little surprised and asked, “There is a young master named Dark Moon. I have called him three times and delivered it.”

“Damn silver devil.” Luna couldn’t bear the anger, and threw a dark silver light from his hand, cutting a large snake in front of the building into countless pieces.

Everyone was shocked. Since the Moon God entered Lan Yu’s body, after so many years, every time Moon God talked about cultivation, he was gentle and elegant, and he had never been so angry.

“What’s wrong with you?” Lan Yu asked with concern.

Luna let out a long sigh and said, “Sorry, I didn’t hold back my anger. Back then, in my battle with New Moon God, after I failed, it was the patriarch of the Silver Demon Clan who stole most of my source energy, causing harm to me. I ended up like this, if you are willing to help me fight the silver demon, I have a way for you to get the energy of the Moon God Palace.”

Malthus looked at Luna in surprise and asked, “How is this possible? Unless you? You?”

The Moon God sneered and said, “You guessed it right. Before I fought with the New Moon God, I went into the depths of the Dark Moon Star, opened up the Dark Moon God’s soul, and took out a piece of it.”

“As expected.” The Blazing Demon God sighed, looked up at the rising moon in the sky, and said, “This era is really getting more and more chaotic, the previous generation of God Kings is right, our generation is really It’s opening things that shouldn’t be opened.”

Lu Yang asked curiously, "Is there any special influence?"

"This means that the origin of the dark moon star is damaged, and the pattern of the four stars shining on other planets will gradually lose its balance, eventually causing the four stars to crash into another world, and everyone will be destroyed together." Malthus looked at the moon **** angrily and said: "You Madman, do you want everyone to be buried with you?"

The Moon God did not dare to look at Malthus, looked away, and said, "I have to think for the sake of the people who believe in me. From now on, the New Moon God can only block the gap with his body to prevent more energy from overflowing, so as to ensure darkness. The moon and stars do not shift."

"You..." Malthus was speechless.

The Blazing Demon God waved his hand to tell Malthus not to be impulsive. He looked at the Moon God and asked: "This will not cause any impact for the time being. Even if there is a problem, it will be tens of thousands of years later. I think, before this, Lu Yang He Zhuojiu and they already have enough strength to climb the Dark Moon Star and defeat the New Moon God."

Luna said, "I think so too."

Malthus suppressed his anger and sighed, and said, "How big is the Dark Moon Soul in your hand."

Luna said: "The moon can be transformed into a new Luna Temple."

The Blazing Demon God was speechless and scolded: "You absolutely cannot transform the moon. If you complete the transformation, the passage between the two realms will officially open. Go to the Moon Lake near the East China Sea, drop a drop into the lake, and make it a place for cultivation. , and then you leave the other Dark Moon Souls and follow me into the Void Hall to help Lu Yang learn the Seven Moon Forms."

"Okay." Moon God also knew that he had made a mistake, and looked at Blazing Demon God and Malthus with a little daughter's attitude. After all, the two of them lived millions of years longer than Moon God.

Lu Yang asked, "Are you leaving now? I haven't divided the meat yet."

Malthus glanced at Lu Yang angrily, and said, "What's so good about this, just take one bite per person, remember, this stuff has to be eaten raw, and the internal organs are reserved for those who are qualified to become demigods, and there is a chance to comprehend it. The true meaning of reaching the demigod level, and the demon core, skin, scales and tendons of the wild ancient beasts are all left, which can be made into armor and treasures, hurry to Moon Lake, this is the most important thing."

Lu Yang was a little speechless. Malthus was even more anxious than him. He ordered Xiao Liang to bring Xue Lingwei in charge of dividing the meat. He took Lan Yu, Zhuojiu, Bai Shi, Xia Yuwei, Zhou Tianming and Liu Ruohuai into the class. Inside Dalberg, he then jumped into the air and quickly came to the side of Moon Lake in the back mountain of the East China Sea.

Originally, Moon Lake did not exist. When another world first came, Lu Yang built the Donghai Underground City, but he was worried about the lack of fresh water, so he built an artificial lake not far from the mountain behind the underground city.

In the early days, this artificial lake provided a large amount of fresh water for the East China Sea, but it is no longer used, and it has just been abandoned for less than a year.

Lu Yang released Lan Yu, Zhuo Jiu and the others, and asked, "Then what should I do?"

The Blazing Demon God pointed to the middle area of the lake and said, "Just drop a drop there, don't overdo it, even one more drop may be traced by the New Moon God."

"I know." Luna flew to the center of the lake with Lan Yu, and stretched his arms into his arms. In the next second, the entire sky was lit up with dark silver light, and a flowing dark silver crystal emerged from Luna. Take it out from the space, She poured a drop of it into the lake water. In an instant, the entire lake turned dark silver. Then, the lake began to spin wildly.

The magic energy within a few hundred kilometers around the lake surged wildly towards the lake, as if all the energy would be sucked up by the lake water, but it didn't take long for the lake to stop suddenly, and the dark silver lake surface spurted out bright and clean water. Silver Moon Light.

The silver dots of starlight fell on everyone's bodies. Lu Yang, Zhuojiu, and the others didn't feel anything, but the white lion couldn't restrain the power in his body, and instantly turned into a ghost-faced roar, howling up to the sky.

Lu Yang said with a smile: "It seems that this Moonlight Seven form is not only suitable for Zhou Tianming, but also suitable for White Lion."

Luna returned to Lu Yang's side and asked, "The seventh form of the moon night is to absorb the energy of the dark moon. By letting Bai Shi and Zhou Tianming cultivate here, they can quickly absorb the first two levels of the seventh form of the moon night."

"Thank you." Lu Yang respectfully clasped his fists at the Moon God.

"What I should do, my biggest secret has already been told to you. I only hope that you will be able to defeat the silver demons in the future. Although the distance is very long, at least I have hope." Luna's expression became angry again. .

Lu Yang nodded and said, "Definitely."

The Yinhui Demon Clan wants to **** the soul of the Blazing Demon God, and that is Lu Yang's deadly vengeance. This good teacher and friend helped him so much after entering the other world. Lu Yang will never let the Blazing Demon God be killed by the Yinhui Demon. The clan robbed them, so they will have a fight with the silver demon clan sooner or later!

"Let's get started, I'll teach you the magic formula of the seven forms of the moon night. I also searched for this thing, let's see if you can master it." Lu Yang asked Zhuojiu and Xia Yuwei to sit beside him and put them together. The memories of the soul search were passed directly into their heads, allowing them to comprehend on their own.

Chapter 2576: Attack the Necromancer

Here, after Lu Yang taught Zhuojiu and the others the Qigong technique of Moonlight Night, he flew into the Void Hall with Lan Yu.

Before, there was no Dark Moon Star, so it was impossible to cultivate the seventh form of the Moon Night. Now that you have Dark Moon Divine Soul, you can practice in the Void Hall, but Dark Moon Divine Soul cannot be used directly. Approaching Lan Yu's side to practice closely, this can only be done by Lu Yang.

On the other hand, Lu Yang also needs to concentrate on the practice of the four-armed dharma, and turn the spirit of the dark moon into the second head of the dharma. This requires the joint guidance of the Moon God and the Blazing Demon God, so he entrusts all matters here. Malthus, and took Lan Yu into the Void Hall to practice.

A full six months.

When Lu Yang came out of the Void Palace again, blood-red snowflakes floated in the sky of the East China Sea again, and the sky also turned blood-red under the influence of the energy of another world.

"Boss." Kuai has been sitting cross-legged beside Moon Lake for a long time. When he saw Lu Yang coming back, he stood up and said respectfully: "Boss, I have entered the second form of Moonlight Seven Form. It is very easy to practice."

After eating the meat of enlightenment, that is, the meat of the wild and ancient beasts, and then cultivating spells, it would naturally be a thousand miles in a day, and he had cultivated to the fourth level.

Lu Yang asked, "How are the brothers at home?"

Ku Ai smiled and said: "One hundred thousand main force, the lowest is the peak of the monarch rank, and there are 120,000 new brothers who have been promoted to the first rank of the monarch rank. In addition, the number of promoted to demigods is as high as 20. The two of you, Zhuojiu and I are all at

the pinnacle of demigods, and if you use the Moonlight Seven forms, all of them will be at the beginning level of quasi-gods.”

Lu Yang clenched my fist hard and said, “Well done, what happened to the 120,000 brothers? How did they advance?”

The bitter love half-life laughed and said: “We boiled the bones and internal organs of those wild and ancient beasts together. Except for the 100,000 meat eaters, the rest all drank the soup. These 120,000 monarchs are the primary After drinking soup, there are another 280,000 brothers, although they have not been promoted to the monarch rank, they are also the peak of the king rank.”

Lu Yang’s eyes lit up, and he said, “Why did I forget to make the soup? This is a good trick. Make the most of it.”

He was also very proud of his bitter love for a long time. He came up with this trick, and it was unanimously approved by everyone at the time, saying: “There were more than 30,000 brothers who were cultivating near Moon Lake, and they were the first stage of the Moonlight Seven Form. , but when the red moon night came, they took Zhuojiu to investigate all over the East China Sea to prevent the enemy from attacking, and I will stay here and wait for you to come back.”

Lu Yang asked, “Have you found the enemy’s location?”

Kuai shook his head for a long time and said, “I haven’t found it yet.”

“I’ll look for it, you stay in the East China Sea to protect Moon Lake.” Lu Yang jumped into the air, transformed into a phoenix, and quickly flew to the vast grassland.

After searching for a long time despite the strong wind and snow, finally, at the foot of the Jinshan Mountain, behind a leeward mountain, he sensed a special magic fluctuation.

“Quick, quick~!”

“Damn, hurry up and move out, the wind and snow here are too heavy.”

“I hate the **** weather.”

...

Teams of cyan-skinned humanoid warriors marched in the wind and snow in fully-armored armor. Their appearances were very similar to humans, except that they had four legs on the bottom, as thick as leopards and covered with downy fur. .

“I finally found it.” With a sneer on Lu Yang’s face, he took out the intercom and called Zhuojiu, Bai Shi and others, and said, “I found the traces of the Evokers, and ordered the Druid Legion, God The Blood Warrior Legion, the Void Warrior Legion, the Shenhua Mage Group, the Ice Soul Mage Group, the Blood Spirit Guard and the Dragon Orc Legion set off quickly.”

“Yes.” Zhuojiu and Baishi had already assembled their legions, but they did not dare to send personnel to look for them on the grasslands. A large number of troops were concentrated in Ji and Hei provinces, worried that the enemy would distort the time and space of the two areas. send over.

“The boss has found the trace of the enemy, follow me.”

“The enemy appears in the Jinshan area, set off.”

“The opportunity to gain military exploits is here, follow me forward~!”

...

Eight large legions, a total of 220,000 people, half of them rode on the ground and ran quickly towards the direction of Jinshan.

After more than two years of cultivation, the number of earthborne dragons has grown from more than 8,000 at the beginning to 120,000 now. This kind of landed overlord race reproduces extremely fast, and it only takes half a year to be born. Can participate in combat, because they are born as kings.

Except for the ground dragon legion, the mounts used by the rest of the legions are flying mounts, cloud eagles and fire crows, flying at full speed in the air, and the speed can even exceed the ground dragon.

Through the satellite map of the communicator, Lu Yang watched as the various legions quickly gathered towards him from various areas in Ji Province, Hei Province, and Liao Province. He gave everyone a real-time positioning and continued to follow. behind the evoker.

This race is very strong, and it is a rank above the monarch rank. Through the magic spell, it can also summon a demon with the same rank as them, or even a rank one or two above them.

There are elemental, physical and spiritual types of demons. They are extremely powerful and very cunning. Once you let the powerhouse of the evocation clan summon the demons you will become very strong if you want to win. It's difficult, and the Summoners can not only summon one demon, but a powerful summoner can even summon three demons at the same time.

There is an even more terrifying thing. The Summoners must have come with tenth-order magic energy crystals. Their mountain guarding formation is to summon the demons of the peak of the lower gods. , Once such a great defensive formation is completed, Lu Yang will not be able to win the Summoners.

Fortunately, it was impossible for the Evokers to set their camp on this snowy prairie. From the direction they were traveling, they should have sensed a water source and were moving in the direction of the water source.

Lu Yang followed the sky to monitor the sky, locating the location of the demons in real time. In less than six hours, the demons arrived at the Hulun Lake area and stopped in a forest.

On the other side, the major legions of the Jagged Brotherhood have also arrived in a small town 50 kilometers away on the left side of Hulun Lake. More than 220,000 people are regrouping. The pioneers headed by the Dragon Orc Legion, Ghost Face Roar and Blood Spirit Guard The legion had already formed an arrow-shaped charge array and slowly moved towards Hulun Lake.

Zhuojiu, Bai Shi and others quickly came to Lu Yang's side and gathered behind a snow-covered hill.

The current way of fighting is not what it used to be. Lu Yang is required to lure the enemy's masters out and kill them one by one. Then, Zhuojiu and the others will command the corps to rush in to fight the enemy's army.

More than a dozen people including Zhuojiu, Bai Shi, Xia Yuwei, Zhou Tianming, and Chu Xiao have all been promoted to demigods. Except for Chu Xiao and Luo Siyu, the two ice and fire mages who cannot use the Moonlight Seven forms, the rest of the demigods can be released. The second form of Moonlight Night Seven, that is, from a demigod to the first quasi-god, they can already help Lu Yang confront the enemy's elders head-on.

Chapter 2577: 1 kill enemy

On the grassland on the north side of Hulun Lake.

In the half-meter-thick snow, Lu Yang walked slowly with a dozen people including Zhuojiu, Bai Shi, Xia Yuwei, Zhou Tianming, but each of them had reached their peak, and they could activate Moonlight Seven at any time. fight.

"The powerhouses of the Summoners, come to my human territory, don't you say hello?" Lu Yang's voice was like a thunderbolt, and he could hear it clearly within a radius of ten kilometers.

"Who? Dare to get along with our Evokers." A roar came from a distance, and in an instant, a dozen blue-skinned Evokers appeared like phantoms in front of Lu Yang and the others, less than 20 meters away. position.

"It's interesting." The corners of Lu Yang's mouth couldn't help but lift slightly. This kind of spell similar to space shuttle was the first time they had seen it.

“Human? Lu Yang?” Among the more than a dozen people in the Demon Summoning clan, a middle-aged man in the middle stared at Lu Yang and said with a grim expression, “As expected, it’s you, the last batch of gods is not enough for you. You have a headache, you dare to trouble our Demon Summoners, are you really not afraid of death?”

Lu Yang, Zhuojiu and the others looked at each other and couldn’t help laughing. Obviously, Young Master Darkmoon didn’t tell the Patriarch of the Demon Summoner that the last batch of gods were basically dead. thing.

“We see that other races are not easy to kill, so we’re going to trouble you first. I wonder if you can let me kill you.” Lu Yang asked with a smile.

“Do you dare?” The middle-aged man from the Demon Summoning clan shouted, and three white demons appeared on his shoulders in an instant, one was a demon holding a chain, the other was a hundred-meter-long giant snake, and the other was a beautiful face. The witch, he shouted: “Remember, the one who killed you was Elken, the leader of the evocation clan.”

“Let’s fight in the sky.” Lu Yang jumped into the air, leading Erken to fly into the distance.

Zhuojiu, Xia Yuwei and others also found their opponents, and they all flew into the sky. The only one that didn’t fly was the white lion. Seeing that there were two others who didn’t fly away, they instantly entered the form of ghost face roar, moving towards the two. When the man rushed over, he roared, “Don’t fly, just leave it on the ground for me.”

Lu Yang’s hearing was excellent, and he heard Bai Shi’s words instantly. He couldn’t help laughing and shook his head. He flew with the evocation chief into the air ten kilometers away, and then threw a golden magic core with his hand.

“boom”

A small mushroom egg was steaming up in the air. How could Elken think that Lu Yang would be caught off guard by such a trick. Fortunately, his monster snake protected him with its snake body, otherwise this blow would be enough Erken was seriously injured.

Lu Yang looked at Erken's monster snake and said, "You're a pretty good baby. You resisted a low-level god-level spell and didn't even break a single scale."

Erken looked at Lu Yang frantically and said, "Fool, even if you provoke other gods, you shouldn't provoke our demons. Tell you, three gods can't win against one of our demons. The demons we summon are often of a higher rank than ours. For example, I am the pinnacle of quasi-gods, but my three demon forests are all at the beginning of the lower gods. Although your flame is very strong, my demons Stronger, the giant snake is specialized in defense, what can you do to break my defense?"

Lu Yang smiled and said: "I really have this method, look at it, the source battle body."

"Roar~!"

Countless grievances poured out from Lu Yang's body, and in the next second, they transformed into a solid form, with four arms, two feet, and two heads!

The important thing is the two heads. After 180 years of cultivation in the Void Hall, Lu Yang finally cultivated two heads from his origin battle body, and the second head was completely integrated with the spirit of the dark moon. The white head, however, is exactly the same as Lu Yang's appearance.

Lu Yang's aura has also risen from the initial stage of the quasi-god to the peak of the quasi-god. At the same time, six golden soul cores are also spinning around him. He looked at Erken and asked, "How is it? Can I talk to you? war."

Erken's expression was still very arrogant, he looked at Lu Yang with a grin and said: "It took so much effort to be a quasi-god peak, just at the same level as me, you may not even beat me, why? Fight with my three demons?"

Lu Yang smiled and said, "Then look at my state again, Moon Night Seven, get up~!"

"Roar~!"

The second face that Lu Yang transformed into with the spirit of the dark moon suddenly let out a roar. The original four-armed figure was only 10 meters high, but suddenly it became 30 meters high. Dajie entered the state of a lower god. In an instant, the fire elements between heaven and earth burst out one after another, dancing and spinning around Lu Yang, celebrating the birth of another fire god.

But this state was not over yet. As Lu Yang's face of the Dark Moon Spirit continued to shout, Lu Yang had actually risen from the low-level god's primary level to the middle level, and the temperature of the surging flames in his body had reached 400,000 degrees.

You must know that the golden soul core thrown by Lu Yang with the explosive flame technique had a high temperature of 300,000 degrees at the moment of the explosion, but now Lu Yang's own temperature is 400,000 degrees, which shows how powerful his strength is. .

The frantic expression on Erken's face disappeared, replaced by panic. Seeing Lu Yang's state like a **** descended from the earth, he didn't know what to do anymore, because now Lu Yang was standing proudly in the sky, and he had already surrounded him. The dark clouds within a kilometer range have been baked.

The distance between Erken and Lu Yang was only less than 50 meters. At such a close distance, the temperature of the flame he encountered was no different from 400,000 degrees.

The giant snake spirit opened its huge mouth and released a shield to protect Erken, but even so, the troll snake spirit was no longer as calm as before. Erken could feel that his magic power was passing by rapidly, Once the magic power is gone, the giant snake demon will automatically dissipate.

"Damn, how can you have such terrifying strength, this is impossible, this is impossible, how could someone become a god, or a lower-level god?" Erken turned around and wanted to run, which was beyond all his imagination. .

"Want to run? It's too late!" Lu Yang instantly appeared in front of Erken, and his four arms smashed into Erken's body at the same time.

A terrifying 400,000-temperature punch slammed on Erken's giant snake shield. With every punch, the giant snake demon showed a painful look.

The demon spirit holding the chain threw the chain at Lu Yang, trying to trap Lu Yang's body, but the temperature of the flame was too high, it melted in the air before it touched Lu Yang's body, and the last face The charming witch launched a spiritual spell on Lu Yang, but Lu Yang was useless even in the 33rd Heaven, and the spiritual spell had no effect on him.

"Break it for me~!" Lu Yang suddenly launched the Explosive Inflammation Seed. With his current physical condition, there is no problem in launching a three times the Explosive Inflammation Technique. That is to say, his punch is equivalent to a 1.2 million degree flame explosion. The impact power brought by, This is already the median attack power of gods.

"boom"

The snake shield shattered, Erken's body was smashed into pieces by Lu Yang's punch, and accompanied by the sky-filled sparks constantly splashing towards the ground, only one soul core remained, along with the peak standard God's resentment.

"Quickly remove your state, otherwise, the natural environment of this area will be changed by you." Blazing Demon God reminded.

Lu Yang woke up from the thrill of power. He looked around. The punch with a high temperature of 1.2 million degrees just now had changed the natural environment for more than ten kilometers around. The dark clouds in the air had disappeared, and the accumulation on the ground. The snow had evaporated, and the thick fog made him unable to see the battle in the distance, and the snow in the further distance had also turned into river water, flowing on the grassland like a rushing river.

"Disperse~!"

Lu Yang gave a low drink. He lifted the moonlight seven form and the four-armed form, shook his head and sighed, "I finally realized what it means to be powerful, it's terrifying."

The Blazing Demon God smiled and said: "This is the power of God, which can change the environment of one world. If you keep that state for a while longer, I am afraid that this land will become a desert, and the flames deep in the ground will be destroyed by you. Pull it out and turn it into a magma area, and try to kill those races that are going to be teleported to the earth on the map of another world in the future, lest your world be destroyed more seriously."

“It makes sense.” Lu Yang also felt that it was too easy for him to kill a quasi-god rank **** race patriarch, but it was a matter of all-out efforts. If the white lions were also easy to kill, the next time In the red moon night, he can really block the door of the teleportation race and kill them completely.

“I’m going to see how they fought.” Lu Yang flew in the direction of Hulun Lake.
