Chapter 2585: prohibition rules

Nearly half a month.

Lu Yang finally climbed over the last high mountain and came to the big fissure in the central area of the Doomsday Mountains. Looking at the little rays of light emerging from the bottomless area below, he did not rush down, but carefully observed the surrounding area. Case.

Whenever he arrives at an unfamiliar place, Lu Yang will first check to see if anyone has been there, especially in a special open area like this, where anyone can come in, he must check first, otherwise, he may be caught I don't know who killed it.

"There's something wrong here." Blazing Demon God looked around, frowned and said, "The guards of the flame spirit pass by here every day, and they should leave a lot of information. It's impossible for me to not perceive it, but now there is no information left here."

With a hundred times of gravity, Lu Yang walked into a flaming grass not far away, carefully watching the state of the burning flaming grass, a sneer appeared on his face, and said: "It seems that humans have come here, and they still Don't want us to know they're coming."

In the depths of the flame grass, there were still a few shallow footprints, but the size of the footprints was exactly the same as that of humans.

Blazing Demon God stared at the footprint and said, "I still can't perceive it, but I should know who it is."

"Zuo Feng." Lu Yang and Blazing Demon God said together.

Blazing Demon God said: "It should be that after they walked through here, they restored the shape of the ground with soil spells, and then used wind spells to disperse the smell, space spells blocked the breath, Zuo Feng's breath should also be shielded by space spells Otherwise, I can't feel it."

Lu Yang frowned and said, "How could that piece of your devil's heart know that I'm coming here?"

The Blazing Demon God shook his head and said, "It should be a coincidence, he has a part of my memory, and he knows that there is a piece of Divine Phoenix Golden Essence underneath, I'm afraid they want to ambush you here, but you came here early and disrupted their plan."

"We have a big fate." Lu Yang smiled and transformed into a clone, and asked, "Since that clone has your memory, you should be very aware of the traps below."

Blazing Demon God said: "It should be clear, what do you want to do?"

Lu Yang said: "I'll change into a clone and throw it in, so that the mechanism will be triggered."

Even if all the organs in the Temple of Doom were triggered, Lu Yang could avoid them. He had practiced countless times in the fantasy world, and it could be said that he would not be hit even if he closed his eyes, but he did not believe that Zuo Feng and others did the same. Strength.

He controlled the clone and jumped into the big crack. In an instant, the hundredfold gravity disappeared, and the magic detection spell also disappeared.

When I came to the bottom of the fissure, it turned out to be a huge cave, more than 500 meters high, and the left and right widths could not see the end.

In the area directly in front, there is a splendid palace. The whole body is made of red sapphire on the flame star. The gate is 200 meters high. At this time, the gate has no idea where it is going. It is a splendid promenade.

Lu Yang controlled his avatar and walked in. From here, even if he entered the prohibition of the Temple of Doom, there were a total of twelve main god-level prohibition spells in this hall. If you take a wrong step, you will be killed by the main god-level spell.

It took less than 20 minutes for Zuo Feng, He Xin and others to run into the main hall. At this time, they were hiding in the side hall behind the palace, which was the control area of the agency.

“What are we doing here?” The leader of the Ancient God Race frowned at Zuo Feng and said, “Why don’t you continue exploring?”

Zuo Feng smiled and said: “There are enemies at the door. They should be here to \*\*\*\* treasures. We need to kill them first, otherwise, we will all die in their hands.”

“Who dares to rob my clan’s treasure?” The ancient \*\*\*\* clan leader said with an angry look, “I will kill them.”

“You don’t need to take action, the organs here are enough.” Zuo Feng said.

The leader of the Ancient God Race looked at Zuo Feng suspiciously and stood aside.

The Dark Flame Demon God said excitedly: “I have already sensed that Lu Yang is coming to the door, and he is about to come in. Get ready.”

“I’ll lead him in.” Zuo Feng gave up his control seat, walked back to the palace hall, sat on the throne, and saw a smile on Lu Yang’s face as he walked in.

Lu Yang was also a little surprised to see Zuo Feng, because, at such a close distance, he could already sense the aura of the huge devil’s heart in the opponent’s body, and said with a smile, “You are Zuo Feng.”

Zuo Feng raised Erlang’s legs and said, “It looks like Tang Lin really fell into your hands. What a pity, you shouldn’t have been allowed to live for so long.”

Lu Yang shook his head with a smile and said, “Without me, how could you have collected so many pieces of the Devil’s Heart.”

“It’s really not easy to collect the pieces of the devil’s heart.” Zuo Feng felt a little emotional, looked at Lu Yang and said, “If you have one more piece of your soul, I can step into the realm of gods and become a lower god.”

"I think so too. UU reading [www.uukanshu.com](http://www.uukanshu.com)" Lu Yang walked to the first ban meeting, and suddenly, he controlled the clone and raised his right hand, twelve flame seeds flew out at the same time, towards the twelve ban The position of the magic circle is thrown in the past.

"boom"

"boom"

"boom"

...

The explosion of the quasi-god-level flame seeds directly activated these twelve prohibitions, and in an instant, the main god-level flame spells shot from the surrounding areas of the palace to bombard every corner indiscriminately.

"Are you crazy?" Zuo Feng said in shock.

An orange-red fireball hit Lu Yang's avatar. The next second, Lu Yang's avatar was directly vaporized, and he didn't even have the ability to resist, but the orange-red fireball did not end the attack, but charged towards Zuo Feng. past.

Not only fireballs, but also various main god-level attack spells such as red flame beams, frightened Zuo Feng, turned around and ran, but these attack spells seemed to have thoughts, chasing Zuo Feng closely.

"Om~!"

"Om~!"

"Om~!"

...

The low alarm sound suddenly sounded, and countless flame spirit guards flew out from all corners of the palace and went straight to the lobby area.

Lu Yang's consciousness had returned to the body at this time, and he shook his head and said, "It seems that your clone is just like what you said. It has limited knowledge of these restrictions, and they will suffer."

The Blazing Demon God used his strength to force his way through this place. He only knew some of the restrictions. Malthus sneaked in and found the specific trigger rules for these restrictions in the depths of the palace. One of them is that if someone takes the initiative to attack the restriction, the restriction will be All will be turned on, attacking all non-doomsday temple creatures in the area.

Zuo Feng and the others thought that they could control all the bans through the control organ, but that was when there was no active attack ban. Once they attacked actively, the ban controller would be ineffective.
