

Wild Fire 2587

Chapter 2587: hard to move forward

From this moment on, the final mechanism of the Temple of Doom will be fully opened, and a total of 362 dark phoenixes will rise from the flames below the stone pillars.

The strength of these dark phoenixes is of the god-king rank. Although they have no self-awareness, they will attack all creatures that are not in the Temple of Doomsday. That is to say, Lu Yang and the ancient gods behind him will be attacked by these 362 creatures. Attack of the Dark Phoenix.

There are two ways of attacking the Dark Phoenix. The first is to release a black-red fireball with a diameter of 30 centimeters. Its power is the god-king level. With Lu Yang's current ability, if he uses the Great Nirvana to block it, the achievement will support him. It exploded, so he couldn't be hit by this fireball.

The second attack method of the dark phoenix is to aim at a straight line and spray out the black flames of the god-king level with a width of 10 meters. If Lu Yang is hit, he will still die, so Lu Yang can only avoid it.

If it were someone else, it would definitely be impossible to avoid it, but Lu Yang had tried thousands of times in the illusion created by the Blazing Flame God and Malthus. The most difficult part for others was for Lu Yang. simplest.

Even facing the three hundred and sixty-two dark phoenixes alone, he can avoid them. After all, these dark phoenixes are dead objects without consciousness. If there is no fake action, he can dodge the moment they release it. .

"Stop, that's my clan's treasure, you can't **** it." The leader of the ancient **** clan yelled wildly at Lu Yang, but it was a pity that he and his clan were besieged by a large number of dark phoenixes, and there was no way to stop them.

Lu Yang looked back at him and said with a smile, "Goodbye."

He jumped towards the stone pillar in front of him and quickly jumped over. At the same time, with his super perception ability, he observed the positions of all the dark phoenixes in front of him.

“Neigh~!”

Twenty dark phoenixes suddenly rose from the stone pillar under Lu Yang’s feet, but Lu Yang did not hesitate at all. The moment they flew to the same height as him, they quickly passed by the head of the dark phoenix behind him.

When the Dark Phoenix is not casting spells, its body does not have any flame temperature, so Lu Yang will not be hurt.

Twenty dark phoenixes turned around and aimed at Lu Yang at the same time. Forty black and red fireballs formed in front of their wings. At the moment they were shot, Lu Yang jumped to a stone pillar on the left, easily dodging the four. Attack of ten fireballs.

Following him, he quickly jumped forward and circled around the twenty dark phoenixes for half a circle. The dark phoenixes turned very slowly. After all, they were still flying with their wings, not floating through divine power. Therefore, Lu Yang When taking them around, these dark phoenixes have been unable to aim.

After half a circle, Lu Yang didn’t stop, but continued to run in circles, but the circle he circled was bigger. In this way, he could keep taking these phoenixes around until there were other phoenixes in front of him. will stop.

The group of the ancient gods was scurrying about by the various stone pillars burned by the dark phoenix. Suddenly, the patriarch of the ancient gods discovered Lu Yang’s way of evasion. Phoenix turns in circles, and the speed of Phoenix’s turn is slow.”

The members of the Ancient God Race were all fighting races with superior fighting consciousness. They understood the words of the patriarch in an instant, and each turned to face the phoenix who attacked them.

“Nice job, follow me to **** the treasure.” The ancient **** clan’s patriarch roared excitedly, relying on the combat power of his superior god, and approached Lu Yang while circling in circles.

When the distance between the two sides was less than 200 meters, Lu Yang saw that the ancient gods were learning his method, shook his head and said in Elvish language: “Remind you, don’t follow this method later, otherwise, you will be ambushed. Don’t blame me.”

“How can a thief have a good heart? I won’t be deceived by you!” The ancient **** clan patriarch roared at Lu Yang as he circled around.

Lu Yang shook his head and ignored these enemies. He was sure that these enemies were deceived by Zuo Feng and others, and it was useless to say anything now. Although he didn’t want to make enemies for no reason, now he was able to save his life as the key.

After jumping four laps in a row, Lu Yang had already jumped 2,000 meters forward, and the ancient gods behind him had also caught up to a position only 100 meters away from him. Watching the flames under the stone pillars gradually changed from black to red to brighter, Lu Yang knew that the next difficulty was coming, but no one knew when it would be triggered.

“Neigh~!”

Lu Yang suddenly heard the hissing sound of hundreds of dark phoenixes behind him. He suddenly turned around and saw that more than 100 dark phoenixes suddenly appeared around the warriors of the ancient gods, and they surrounded them directly.

Black-red fireballs and black-red flames spewed out from the mouths of these dark phoenixes~www.mtnovel.com~ In an instant, the screams of countless ancient protoss warriors came out.

Before Lu Yang could react, the stone pillar under his feet trembled slightly. He jumped forward quickly. The shaking of the stone pillar meant that a large number of fire phoenixes were about to appear below, but he just jumped to the next stone pillar. The stone pillar also began to tremble.

At this time, Lu Yang had nowhere to go. He couldn't go around again. If he did, he would definitely go into the Ancient Protoss team. Siege, he will definitely die, so Lu Yang has only one way left now, that is to run forward in a zigzag.

"Neigh~!"

More than 30 dark phoenixes appeared in front of him. At the same time, in the positions where he just stood, ten dark phoenixes flew under each stone pillar, plus twenty chasing after him. Yang was chased and killed by more than eighty dark phoenixes, and with a hundred times the surrounding gravity, his form was already in jeopardy.

"Explosive"

Lu Yang's feet suddenly burst into flames. His speed was more than ten times higher than before, and he jumped 50 meters to the right in an instant. Even the dark phoenix couldn't lock his position at Lu Yang's speed.

Then, the explosion under Lu Yang's feet continued. The powerful impact made Lu Yang's speed several times faster than when there was no 100 times gravity. He jumped forward quickly in a zigzag shape. The 80 dark phoenixes behind him could only keep shaking left and right. Neither flames nor fireballs can be shot.

These exploding golden soul cores were prepared in advance by Lu Yang, and it was precisely because of these soul cores that Lu Yang dared to act like this.

It didn't take half an hour for Lu Yang to approach the last 100 kilometers, which made the patriarch of the ancient gods, who had just escaped from the dark phoenix group, furious.
