

Wild Fire 301

Chapter 301 - Green wool ball

Lu Yang took the ring and said, "This is a magical piece of equipment. The effect can only be seen when worn on the body, and only he can see it, and some of the equipment cannot be worn on the body."

"Ah, what if the attributes are poor and I want to take them down?" Mu Yu asked.

Lu Yang said, "Look for someone to kill you, just explode the equipment."

"Uh, it's terrible." Mu Yu shook his head, and experienced 10% loss once, which was too expensive.

Lu Yang said, "However, this equipment is very special, and some properties are not as good as whiteboards, and some are better than legendary."

In the last life, many lunatics devoted their luck to gambling. With good luck, they got legendary equipment, and all of them went outside to commit suicide.

"Brother, what about this equipment?" Han Ying asked.

Lu Yang said: "I purposely bought 20 500-cell storage bags. All the mysterious equipment I found here were collected, and we went back to test one by one. We really made great money when we came across legendary equipment."

"Oh." Han Ying and Mu Yu both came to Lu Yang, took the storage bags and started picking up equipment.

The entire experimental dungeon was actually a zigzag space, with a room every 80 yards, followed by a narrow corridor.

The equipment in the other world not only lost the real boss, but also some fake bosses. Lu Yang took the two to kill the monsters and pick up the equipment all the way.

When walking to the second corridor,

Mu Yu's phoenix had just approached a 30-yard distance from a longbow skull. The longbow skull raised a bow and arrow, and a fire arrow hit the phoenix.

"10200"

Phoenix had no time to hit, and fell to the ground.

Gunn Schulte (boss)

Level: 40

Qi and blood: 97891/100000

Lu Yang said, "We have met a real boss."

Mu Yu said curiously: "Brother, the health of the 40-level bosses is more than 300,000. Why is this 100,000?"

Lu Yang said: "This guy is a specialty of the Bloodthirsty Bastion."

Of the 40 bosses, the one with the least amount of blood is also the hardest to kill.

Ghun Schulte, who is slightly taller than the player, has the strongest single physical attack of the angry arrow, which adds an additional 3200 points of damage. He also has a rapid shooting skill. Once he turns on the rapid shooting to increase the attack speed by 150%, Lu Yang in Can't hide from 30 yards.

The third move of this item is the Scatter Arrow. All targets within the radius of the semicircle in front are within the attack range. Once there are 20 longbow skulls gathered together, let them shoot first, they have iron walls and shield walls. The skills of World War II defense can not withstand several attacks.

The Bloodmist Fortress that opened up the wasteland, the Bloodlust Domineer looked at the more than 2,000 longbow skulls and sad heads on the military ground in front of them.

“Who can tell me **** the skeletons? Have you come up with an idea?”

Yuema South Bank, Ye Guxing, Yuxue Bawang, Han Jiangxue all bowed their heads in shame. They have thought of many ways, but they still have no way to break through the skull and bow.

“Boss, if you want to find Qu Han, maybe he can do it.” Yuxue Bawang said.

Bloodthirsty Ba Tian stared, then waved and said, “Hurry up and let him come over.”

Qu Han has been degraded as a small captain, and has led the team to charge 5 times, each time he died in the hands of the longbow skeleton, it is depressed.

Yuxue Bawang ran to Qu Han in excitement, and said, “Brother, come with me, your chance is here.”

“How?” Qu Han asked with a frown.

“Hey, everyone around the bloodthirsty boss can’t think of a solution. I’m worried about it. I know your head responds quickly. There must be a way. Help us think about it. If we find a way, maybe the boss can restore your regiment. Long post.” Yuxue Bawang said.

Qu Han nodded, followed the Yuxue Bawang to the command post, and said respectfully to the Bloodthirsty Batian: “Boss, I’m here.”

Bloodthirsty Ba Tian glanced at Qu Han and said, "Now our guild is trapped in front of this longbow skull formation. Can you crack it?"

Qu Han said: "Yes, it is more demanding on the operation."

Bloodthirsty is just holding a try mentality, did not expect Qu Han really thought of a way.

"Come on, what to do." Bloodthirsty Batian asked.

"Simple, as long as you send 30 ridiculous shield battles, let them charge in front of the Longbow Skull and use the taunting skills in turn. As long as they cooperate well, you can make the Longbow Skull not shoot an arrow."

Bloodthirsty Batian and Yuema South Bank and others immediately understood Qu Han's meaning.

"This idea is good, Qu Han really has a way." Yuxue Bawang said excitedly.

Bloodthirsty Batian said to Yuema Nan'an: "Go, let the six big families get out of the house and break this array for me. Qu Han stayed at the command post and was responsible for wasteland development."

"Yes," Qu Han said.

In the dungeon.

Lu Yang uses the same method as Qu Han, except that Lu Yang is transformed into a fire monster, using the principle that the boss can only halve the stun time by using Hell's infinite fire, Schulte, Mu Yu, Han Ying and Two Phoenix and Hellfire attacked.

The low-armor, low-blood longbone skull was killed in less than 2 minutes, and a drawing was dropped.

“The shooter’s drawing is out.” Mu Yu said happily.

Plans: Hunting Breastplate (Gold)

Lu Yang nodded and we continued.

The transformation time was only half an hour. Lu Yang wanted to try his best to kill more longbow skeletons.

From the second room to the fifth room, Lu Yang encountered 8 longbow skulls, of which there was really 1 but did not bring up the drawing.

“It’s a pity.” Lu Yang watched himself return to human form.

“It was a pity that a group of dead kings and white wild boars were delayed in the middle,” Mu Yu said.

Lu Yang said, “Forget it, take a break, let’s restore our energy and fight again.”

The two little girls nodded happily.

While the two were sitting at rest, all of a sudden, plump, green ball of green fur jumped up and down among a group of skeletal tyrants and lava lords. They were kicked by a demon lord while walking and fell A follower.

“So cute little ball.” Mu Yu hurried toward the little ball.

Lu Yang was stupid when he saw this little ball, and quickly shouted, “Sister, don’t go, come back soon.”

“What’s wrong?” Mu Yu stopped in time and asked.

Lu Yang said: "That's the ultimate of this map ~ www.mtlnovel.com ~ Don't mess with him, brother, I can't beat it."

"Ah, this green ball is a boss?" Mu Yu asked in surprise as he watched the ball approaching slowly.

"Come back, don't let him notice you." Lu Yang shouted.

"Oh." Mu Yu hurried back.

The three retreated together 50 yards and hid behind the wall.

"Brother, what the **** is that, it doesn't look terrible at all." Mu Yu asked.

Lu Yang said with a smile: "I'll give you an experiment."

Level 8 Phoenix groaned and flew towards the fur ball. Just 30 yards away, Fur Ball's eyes stared at the Phoenix.

A green light flashed, and the hair ball hit the Phoenix precisely.

"-99999"

Phoenix smashed and was smashed by the green hair ball.

“Wow!” Mu Yu sighed, “It’s amazing.”

Lu Yang also exhaled and said, “See it, this is the attack power of this little fat ball. You just finished when you have to pass it.”

Mu Yu put out his tongue playfully and said, “I’m sorry brother.”

Lu Yang smiled and shook his head. He didn’t mind at all. This was not because Mu Yu made a mistake, but this thing was too pretentious.

In the previous life, a group of players of level 50 came here. When they slashed the boss to rest, this little thing came out. The player thought that he had found a garbage monster, and they were all curious how there could be such a weak hair ball here. However, when I walked by, I discovered the damage of this fur ball.

At that time, more than 200 elites from the entire guild were killed. Later, the guild was also lacking in morals. More than 200 people kept their mouths quiet. As a result, more than 2,000 people in the dozen or so guilds who followed them all made this green The fur ball was slaughtered.

At that time, a player recorded a video and uploaded it to the Internet. Everyone was frightened by the horror output of this chubby ball, so that later, another player entered the dark hall and saw the green ball and ran, and the guild where the battle took place inside Once you can’t hit it, it will lead to the same goal.

Until a few months later, I didn’t know what was going on, the fur ball disappeared, and the temple became easier to hit.

Han Ying asked: “Brother, is there any way to kill him, can there be anything burst?”

Lu Yang shook his head and said, “It’s impossible to fight, but I have a way to use him to help clear the strange.”

“any solution?”

Lu Yang said, “I’ll try.”

At a distance of 35 yards from the hair ball, Lu Yang uttered a spell, and a light of dreams fell on the body of the hair ball.

This is a method developed by a large number of players in the last life at the cost of death, and it is not a method. The hair ball will be in a state of chaos affected by the light of dreams.

This situation will last for 5 minutes. Once a target approaches him within 5 yards during this period, the hair ball will enter a runaway state and launch an attack on any target close to him.

Six consecutive dreams of light, the name of the hair ball turned yellow, and Lu Yang walked towards the hair ball.

“Brother, be careful.” Han Ying said.

Lu Yang motioned for the two to step back. He came to a distance of 10 yards from the hair ball, and his body jumped to the position 20 yards behind the hair ball.

Four bone tyrants roared towards Landing Yang with a roar, and Lu Yang read a spell in his mouth, using meteorite impact to kill the four fake bosses.

After there was no strangeness around him, Lu Yang looked at the space 100 yards wide and full of monsters in front of him, and read the spell of the meteor fire rain of the secondary forbidden spell in his mouth.

The quaint and obscure syllables echoed in the dungeon. All the blame was in an uneasy mood. After 10 seconds, the spell was completed. The dungeon was covered by a cloud within 100 yards, and Lu Yang pointed his finger forward.

“Meteor Fire Rain”

The red fire meteor fell in the clouds like rain and hit the ground with the tail of the fire.

“Hello ~!”

...

The roar that rang the entire dungeon came from the front. After a while, the ground shaking sounded, and countless bone tyrants and demon lords rushed towards the landing sun. The number was nearly 1,000.

Lu Yang threw back the escape dagger backward, and a blue streamer passed the hair ball, landed 10 yards behind him and inserted into the ground.

When the light flashed, Lu Yang appeared, and the bosses who followed him saw Lu Yang running away and continued to chase after him.

Lu Yang stood still, with a sneer on his face, even though the first monster to chase after was the real tyrannical tyrant.

The name of the green fur ball was yellow, and it stood quietly in place without being affected by the outside world. However, when the first monster bone tyrant ran to the range of 5 yards of the hair ball, the hair ball suddenly moved.

A green light flashed.

“-99999”

“-99999”

...

The 450,000 blood tyrannical tyrant was beaten 5 times within 1 second, and died instantly. Then, the green light flew up and down, shaking left and right.

Lu Yang looked at the various bosses rushing in front of him. None of them entered the range of the hair ball and could walk 5 yards until the 2 million blood water lord appeared. Lu Yang stepped back to Han Ying and Mu Yu. Around.

Han Ying had been stunned, and said, "Brother, this is a terrible move."

Lu Yang sat on the ground and said, "Unfortunately, these strange experiences are not mine. My big move hits the pedestrians. The damage of the strange monsters is too low. In the end, the system judges it to be a wool ball."

Among the thousands of monsters, 200 are bosses, which is enough for Lu Yang to upgrade one level. Unfortunately, none of them are his.

Mu Yu's eyes brightly said: "It's already very good, a lot of equipment."

On the ground, the level 40 water lord is dead, and a staff with a divine light burst out, apparently, legendary.

The first dead skeleton tyrant also burst out of a magic fire staff, and the real ice lord Rosdelmo did not carry the green hair ball, and fell out of a sacred light of the legendary ice-based staff.

Forged drawings, enchanted book pages, full-time certifications, and other items are numerous. As for the equipment of the other world, the surrounding 10 yards have been covered, and 2 layers have been superimposed.

"Get rich." Lu Yang said with a smile.

No guild in the last life occupied this place. Lu Yang only brought a few people here to play equipment. He just wrote an article on the Internet called "Assuming I found a sleepy dungeon at level 30." Using the hypothesis of using hair **** to kill monsters, he just held the idea of trying it out, but he couldn't think that it could be realized, and he had gained so much.

Sea Emperor City.

Sea Dragon Fortress.

"Cheyu, take 200 people to kill me with the water element summoned by the water element lord, don't let them attack my team." Shenhun Yongheng shouted out loud ~ www.mtlnovel.com ~ No, can't stand it. Che Yu's shield team drove over the iron wall and was beaten by more than 20 water elements.

The entire 2,000 wasteland reclamation team was rushed into the hinterland by water elements, and it was instantly destroyed!

Flower fortress.

The old man in the twilight shouted, "Who can find a way to kill these troll bosses, I reward him with 10,000 credit points."

Storm Thunder Fortress.

Black Blood took President 8 to the battlefield and fought hard against the beast lord's fist of domination, but he died more than 10 times and did not fight.

Blackstone Fortress.

Xiongba's face was terribly black, and he said angrily, "1% destroy the regiment, you gang of waste, once again get me out of business."

When the bosses of the major guilds struggled to clear up the boss they thought was the hardest to kill, they didn't know that in the dungeon dungeon, those bosses who were playing outside were desperately being killed by hair **** one by one.

Chapter 303 - Jiang Ze\'s father\'s investment

In less than 5 minutes, thousands of monsters were killed by hairballs, including more than 30 true lords and more than 60 bosses.

After killing all the blame, the slain little fur ball patrols in anger, and Lu Yang quickly takes the two sisters to hide behind the wall.

No one has the exact data of the hairball. If he finds out that he is 50 yards away, he will have to wait another month for this ground-filled equipment. Lu Yang doesn't want to miss it.

After waiting for 2 minutes, Lu Yang came out from behind the wall when he heard the footsteps of fur **** walking away.

In the distance, the fluffy ball fluttered away with its small, round body.

Lu Yang looked at the equipment behind Mao Qiu, and laughed, shouting, "Follow me, baby, I'm here."

Lu Yang subconsciously turned on the blazing speed, rushed to the countless pieces of equipment, took out three storage bags, the first loaded with weapons and transfer certificate, the second loaded with design drawings and enchanted book pages, the third Pretend different world equipment.

After a busy period, all the equipment was put into three storage bags. The legendary weapons received a total of 4 and 6 transfer certificates, which is equivalent to another 10 second-transfer occupations around Lu Yang.

However, this is not the most pleasing to him, the most happy is the 30-level gold drawings of each profession such as shooter, priest, warlock in the second bag.

With these drawings, Xiongba and Bloodthirsty Batman and others completely failed to block his equipment, not to mention, there are so many top-level enchanted drawings.

Lu Yang said, "Let 's go on. With the help of wool balls, we will kill a few more batches."

Han Ying and Mu Yu nodded together.

"Brother, change me this time to see me." Mu Yu also flashed and forbidden.

Lu Yang handed over the ring of dreams to Mu Yu, and the little girl ran after the ball.

"Lu Yang, are you there?" Jiang Ze asked with a message.

Lu Yang said, "I am here, what is it?"

Jiang Ze smiled and said, "Good thing, I can come out for a while, I will take you."

"Also, I changed places in my studio. You went to the original house to find me. I'll wait for you there."
Lu Yang said.

After finishing the conversation with Jiang Ze, Lu Yang said to Han Ying: "Sister, help me look at it, I'll go out."

"Oh, okay." Han Ying said.

Exiting the game, Lu Yang moved his stiff body and walked downstairs to the original studio.

Not long after, the roar of the motor came from a distance, and Lu Yang looked up, Jiang Ze drove his Batman quickly into front of him.

“Get in the car.” Jiang Ze shouted excitedly as he lowered the window.

“What is it, so excited.”

“Good thing.” Jiang Ze and Lu Yang sat in the car and said with a smile while driving: “I told you, my dad made sense, and he decided to invest in you and invest one billion credit points at a time. . “

Lu Yang froze and asked with a smile: “Your kid, your dad is very open-minded, but he is very cautious about investing.”

“Don’t mention it, my dad also plays this game. I told him about our guild. He decided to meet with you and talk about it in detail.” Jiang Ze said.

Although Lu Yang is not short of money now, he has no spare money. He said, “Yes, I’ll see your dad.”

“I’m telling you, I’m stupid, you should meet when you meet ...” Jiang Ze worried that Lu Yang could not convince his father, and told him all the way about his father’s behavior.

Until the door of his villa, Jiang Ze handed the fruit basket prepared in the trunk to Lu Yang and said, “Here you are.”

Lu Yang smiled and said: “Enough brother.”

“Who do we talk to? Without your help in high school for three years, I might as well be the timid waste, let alone chase the goddess.” Jiang Ze said indifferently.

“Have you caught up?” Lu Yang asked.

“That’s right, don’t look at who he is, it’s easy.” Jiang Zeyi said.

Lu Yang smiled and shook his head. This boy may not be ashamed in front of Fang Yuting. He was too lazy to expose the boy’s boss and followed Jiang Ze into the house.

“Mom, I’m back,” Jiang Ze shouted to the woman who opened the door.

Lu Yang handed the fruit basket to Jiang Ze’s mother and said, “Auntie, there is nothing to prepare for in a hurry. Don’t mind.”

Jiang Ze’s mother is a very gentle middle-aged woman and smiled and said, “Xiao Yang, come here and be your own home. Your aunt has always wanted to thank you for your help to Ozawa. Your uncle is in the study above. Go. “

“I’ll take him.” Jiang Zella landed and walked towards the second floor.

Lu Yang nodded with Jiang Ze’s mother and went to the door of the study on the second floor. He saw Jiang Ze’s father sitting in the room reading.

This is an old man who looks very old. He looks more than sixty years old. He is wearing a silk Chinese suit and is leisurely painting a Siberian tiger.

At this time, the transformation has been basically completed, and the siberian Amur tiger looks side by side as if looking for prey.

“Dad, I brought Lu Yang.” Jiang Ze shouted.

Father Jiang looked up at Lu Yang and said with a smile: “Xiao Yang, come in quickly, don’t be restrained, and this is not the first time we have met.”

Before Jiang Ze's father went to school to see Jiang Ze, Lu Yang always saw that Jiang Ze's father always asked Lu Yang to help take care of Jiang Ze, and brought Luyang and Jiang Ze to eat together.

Lu Yang said with a smile: "Uncle, your painting skills are superb again, this tiger is beautiful."

"Hey, it's for you." Father Jiang picked up the drawing paper and gave it to Jiang Ze. "Go to your uncle Chen and frame this picture."

"Ah, you don't need to be with me." Jiang Ze asked.

"While going to ~ www.mtlnovel.com ~ Our grandpa, what are you doing here?" Grandpa Jiang's grandma usually makes Jiang Ze get away.

Lu Yang saw that when the old man was talking about business, he was not prepared to care about his family. Therefore, Jiang Ze was removed first.

Lu Yang saw Jiang Ze worried, and gave him a reassuring look, and said, "Hurry up, I'm going to take this picture with me."

"Ah, oh, all right." Jiang Ze went out.

The old man smiled and saw Jiang Ze closed the door and said to Lu Yang: "Xiao Yang, you are still my son and nephew, but today is talking about business, you can't go into your heart when your uncle talks a lot."

Lu Yang waited for the words of the old man, and quickly got up and said respectfully, "You say."

"I have heard of the guild you established in" Second World ". Yes, I know how to grasp the hearts of the people. I defeated the Bloodlust League by the help of the old man and the bully. I also heard that you pay your employees 200 per month. More than ten thousand, but, depending on your little studio alone, you can't make ends meet." Father Jiang asked.

Lu Yang said with a smile: "People outside see it this way."

Chapter 304 - One billion investment

The old man when Lu Yang was talking angry, continued with a smile: "Just now you have experienced digging storms, your counterattack is to send someone to demonstrate to the twilight and the hegemony, this is too much, next time the black sword and What are you going to do if you have a bloodthirsty league? You have to ask them for help. "

Lu Yang said, "It depends."

"I know that you have a lot of drawings and equipment in your hand, and you do have the ability to fight, but can you insist on the Necrosword and Bloodlust Alliance? If at that time, the twilight and the hegemony weakened the support of you three, , Even retreating will not help you, what should you do. "Asked the old man.

Lu Yang was afraid of this situation, so he was ready to destroy the Black Sword of the Undead. If he could not, he would fall into a very passive war of attrition. Although he could fight, he could drag the Black Sword of the Undead, but this It will cause Liu Jie to lose a long time to develop when he enters the field.

Father Jiang saw Lu Yang did not speak, and continued with a smile: "Uncle is not a blow to your self-confidence. On the contrary, I am still very optimistic about you. You are now developing a red fortress, right? If the development is successful, behind the fortress It 's a map from level 30 to level 50. Collecting player transaction tax at the fortress is enough for you to feed the guild, but only if you can keep the fortress. "

Lu Yang said, "This is really a big problem, and I am trying to solve it."

He was referring to the death of the black sword of the Necromancer and the bloodthirsty domineering, but in the ear of Mr. Jiang's ear, it was that he needed investment.

"Big nephew, what about your uncle's investment, one hundred million cash, for 51% of your shares, rest assured that the guild is still yours. I don't intervene in management, I just invest." Said Mr. Jiang.

Lu Yang still smiled and said, "Uncle, I can't agree to your request. I have a proposal here. What do you think?"

"What's the proposal," the old man asked.

Suddenly Lu Yang's expression suddenly became very harsh, saying, "You give me 1 billion, and I give you 10% of the shares."

Grandpa Jiang froze and said, "Big nephew, you can't even agree with me. I can't recover the cost."

Lu Yang was happy, and the old man really regarded him as his nephew, and asked others to ask him to leave early.

"Uncle, if I tell you, your investment is not only my guild, but also other projects."

"What item?" The old man felt something in Lu Yang's words.

Lu Yang said, "Song of Blood and Fire Pharmacy and Chengbei Zhongxin Blacksmith Shop."

Father Jiang's eyes suddenly widened and he looked at Lu Yang in disbelief and said, "You mean, these two places are yours?"

Lu Yang nodded and said, "These two places are mine, and I hold 100% of the shares."

Father Jiang patted the table and said, "Good boy, you're hiding deep enough."

Song of Blood and Fire Pharmacy has opened from St. Gall to Beifeng City, Hannibal City, and Sea Emperor City. It is the largest pharmacy in the nation's national army, not only with more than 1,000 senior pharmacists, but also more than 200. Special pharmacist with hidden attributes.

At the same time, they also have the best pharmaceutical formula in the national service. Everyone thinks that the owner of the pharmacy is Jinbuhuan. How could Mr. Jiang never think that the boss behind the scenes turned out to be Lu Yang.

And the faithful blacksmith shop surprised Mr. Jiang. The place even sold the 5th and 15th grade gold equipment drawings. Similarly, the four cities for sale have always been in short supply. No one knows that these drawings are jealous. Where did it come from.

Lu Yang said, "Uncle, don't you pay."

Father Jiang thought for a while or shook his head and said, "Not enough."

Lu Yang continued: "In addition to the Zhongyi Pharmacy in the Wolf City."

"That pharmacy of the Wolf family is yours too?"

Lu Yang said, "Of course, my boss Mu Yi is my brother who was adopted from the orphanage. Master Lei Mu Yu is his own sister. Now I live in the studio with me."

Mr. Jiang was completely stunned. He never thought that Lu Yang had such strength. The Song and Blood Pharmacy was valued at 200 million credit points, and the Chengbei Blacksmith Shop was valued at 100 million credit points. 150 million credit points at Zhongyi Pharmacy.

This is just the current price. With the increase of game players, the prices in these places will further increase. According to his experience in doing business for so many years, the final valuation of these three places will exceed 3 billion, which is still a conservative estimate.

“Big nephew, if that’s the case, count your guild, I’ll give you 10 billion investment, accounting for 10% of the past, but I still want to hear from you about combat, if you can’t win in the end In these cases, only these pharmacies are left to run. “Father Jiang said.

Lu Yang said, “Uncle, you are Jiang Ze’s father. I don’t hide from you. In fact, I will be given another 10 days, and I can completely destroy the black sword of Necromancer in a war.”

“Don’t talk big.” Father Jiang said with a smile. He knew about Jiang Yang’s lack of drawings.

“I never talk big.” Lu Yang smiled and said that he had obtained legendary weapons, transfer certificates and drawings in the trapped dungeon.

“Give me another 10 days. I have 30,000 to 30 ranks. According to the current resources reserve of the guild, I can gather up the 30 ranks of 30 gold equipment within 5 days. There are more than 40,000 and 20 level players, and my 50,000 and more level 20 players, a total of 100,000 people participated in the battle, I once killed the black sword of the undead. “Lu Yang said.

“Oh!” Jiang Ze’s father smashed the paperweight and said excitedly, “10 billion 10% shares, that’s it.”

Lu Yang held out his hand and said, “Uncle, I wish you a happy cooperation. I guarantee you will receive this money soon.”

“I believe.” Jiang said with a laugh in the same year.

Jiang had a hunch in the same year. His investment was the most suitable one. If Lu Yang lays two fortresses, or even more fortresses, he will be able to recover the one billion yuan within two years.

“Well,” the door was suddenly opened, Jiang Ze said in a panic, “Dad, Lu Yang, you are not noisy ...”

After finishing his words, Jiang Ze found Lu Yangzheng and his father holding hands, and blinked and asked, “What’s the situation?”

Lu Yang smiled and didn't say anything. Father Jiang said, "Stupid boy. What am I arguing with Lu Yang? We have just reached an agreement. I will invest 1 billion yuan for 10% of the shares.

"Ah." Jiang Ze was dumbfounded and said, "Dad, when are you so enlightened."

Jiang smiled and said in the same year: "This boy, go out first, and the business I talked to with Lu Yang is not before you listen."

"Uh ..." Jiang Ze scratched his head and went out. Jiang Ze admired his father very much. From his memory, the old man had never lost a business, otherwise his family business would not have flourished.

Lu Yang looked at the closed door and said, "Uncle, don't hide from Jiang Ze."

Mr. Jiang stepped out of the table and came to Lu Yang, holding the arm of Landing Yang and pointing at a row of writing brushes on his chair, saying, "Xiao Yang, have you seen these words?"

Lu Yang looked up ~ www.mtlnovel.com ~ This line wrote:

Zi Yue: If the chaos is born, then the language is the order, if the king is not secret, then he will lose the court, if the secret is not secret, he will lose himself, if the secret is not secret, he will be harmed. So gentleman is careful not to come out.

Jiang said in the same year: "Your uncle and I have been doing business for so many years rely on these six sentences. Remember, the secret is the secret. When you do n't say it, no matter how close you are, you can tell me today. Out of your mouth and in my ear, no third person will know about it, Jiang Ze, nor can he tell. "

"The reason your guild exists to this day is because you split your strength into several parts, so that everyone thinks you are weak. If people know that you have so many industries, the first one who can't stand you is Hegemony and twilight, remember, never speak out when you are not strong enough to despise the enemy. "

Lu Yang respectfully bowed to Jiang the same year and said, "Thank you for your advice, I know."

Jiang smiled with satisfaction the same year and said, "Boy, I'm optimistic about you this time. Let's go to the living room and eat dinner before you go back."

Lu Yang nodded and went downstairs with Jiang the same year.

Chapter 305 - 6th Army

On the way back.

Jiang Ze kept watching Lu Yang with admiring eyes.

"Brother, don't look at me on the way," Lu Yang said.

"Brother, dear brother, what agreement have you reached, my dad never told me." Jiang Ze said.

Lu Yang said with a smile: "Your dad said, this is too secret to tell you for the time being."

"Fuck, don't bring this." Jiang Ze lied.

Lu Yang said with a smile: "In this way, I will give you some compensation. The guild has recruited more than 20,000 players, and I am going to leave it to you to lead the team."

"What a compensation, don't do it," Jiang Ze said.

“If I have 20 transfer players in this team, 10 of them have 30-level legendary weapons.”

“I wipe,” Jiang Ze said excitedly, “I agree.”

The rarity of the transfer occupation has been appreciated by Jiang Ze. There is really no way to open it without special occasions, and the transfer certificate is so rare. It is said that weapons are even inaccessible. Many small guilds do not even have a transfer occupation. Lu Yang said that he was given 20 pieces, and Jiang Ze had forgotten to invest.

Lu Yang said, “I’ll give you 4 legendary weapons and 6 transfer certificates first. You can choose the personnel yourself, and I don’t make any requirements.”

“Can you give me now?” Jiang Ze asked with bright eyes.

Lu Yang said: “No, for the time being, I can’t get out in a special map. I first tell you about the profession, you pick people yourself. In addition, my Fire France Centurion is merged into your Majesty under non-war conditions.”

“Seriously, many of them now have Dragon Breath.” Jiang Ze asked excitedly.

Lu Yang said with a smile: “We are brothers. I lied to you for what I did. It’s really for you.”

“Enough,” Jiang Ze said. There were 100 special fire methods and 20 transfer masters, and it was very easy to bring a team of 20,000.

Back in the studio, Jiang Ze left Lu Yang and drove back, he was anxious to see pictures of legendary weapons.

Lu Yang watched Jiang Ze’s anxious look, smiled and shook his head, returned to his room on the second floor, and logged in to the game in the sleepy dungeon.

Han Ying was standing beside Lu Yang. When he saw Lu Yang woke up, he said, "Brother, you are back."

"Sister, it's hard." Lu Yang rubbed Han Ying's hair. He and Jiang Ze's family only returned after dinner. Han Ying must have been with him for hours.

Han Ying shook his head and said, "It's not hard. I haven't blame it all the time. I'm sitting here."

Lu Yang said with a smile: "Stupid girl, you are so good, and my brother gave you a gift."

Han Ying still shook his head, but Lu Yang smiled and never mentioned it again. He and Jiang agreed to the same year. Money was remitted in batches within a week. The signing of the contract was not announced.

"How about Xiaoyu?" Lu Yang asked.

Han Ying said, "Xiao Yu is using a hair ball to help kill monsters. The little girl has good skills and works very hard."

Lu Yang thought, you are three years older than her, and you are also a little girl, saying, "Okay, let's continue to fight."

The three played until 12 o'clock. Lu Yang asked Mu Yu and Han Ying to go to bed. He was on duty in the game.

Boring in the middle of the night.

Lu Yang saw Tu Feng still online. Dialed the other party's speaker and asked, "No rest."

Tu Feng said, "It's the final account."

Tu Feng's daily harvest and expenditure of 150,000 people were all done by Tu Feng alone. This responsibility made Tu Feng feel a lot of pressure, so he did it very carefully.

Lu Yang asked: "How much reserves does our guild have for moire cloth, connective skin, and source materials?"

These materials are mainly refreshed on the map between level 24 and level 36, which can be reached during the upgrade process, but the explosion rate is very low.

Tu Feng said, "Each reserve is less than 500 sets. I found out that the materials needed for the set drawings of the Xiongba and Bloodlust League are the same. Have you hit the drawings?"

Lu Yang said: "Not yet. I'm going to talk to them tomorrow. You ask your brothers to work harder. The five sets of materials will be prepared in the same 5000 sets."

"It's a bit laborious. The explosion rate of these materials is too low. I sent 3,000 people to collect them, and I can't make 30 groups in one day. The auction house is too expensive." Tu Feng said.

Lu Yang sighed and said, "I'll figure out a way, and try your best."

It seems that going to the elves and orcs needs to be on the agenda. Holding the emerald crystal in his hand, he can go to the main city of the elves to buy some.

After closing the call record, Lu Yang left the two sisters and continued to brush with the fur ball. In one night, Lu Yang brushed 2 legendary weapons and 5 transfer notices.

The two sisters opened a close contact system with Lu Yang, and Lu Yang walked forward with two people after each batch of monsters.

In the early morning, when Mu Yu went online, she found that Lu Yang was carrying her, and the little girl said happily, "Brother, I'm online."

The young girl lost her parents since she was a child. This warm feeling made Mu Yu very enjoyable.

Lu Yang looked at the time until 5:30 in the morning, and said with a smile: "Why not sleep more?"

"Well, we can't sleep." Mu Yu said.

Lu Yang knew that the two little girls must be worried about herself, and got up early, and asked, "Has Han Fei got up?"

"Get up, they are exercising." Mu Yu said.

Soon, Han Ying was also online. Seeing that Mu Yulai could not laugh down on Lu Yang's back.

Lu Yang coaxed Mu Yu for a while and said, "Okay, my brother is going offline."

"Oh, brother, let's go to sleep. There is me and my sister here, no problem." Mu Yu said with a very strong expression on his face.

Lu Yang smiled and nodded ~ www.mtlnovel.com ~ leaned against the wall and quit the game.

Taking off his helmet, Lu Yang heard the neat running sound from the playground downstairs, came to the window, and just saw Han Zhong with more than 100 boys practicing downstairs.

Everyone is sweaty, but with a determined expression.

Lu Yang came downstairs to join Han Zhong, and said, "Master, master, these boys have been trained by you."

Han Zhong said solemnly: "I'm doing this for them. I lie in a chair every day and play games without exercising and my body is broken. However, this group of kids are mainly fighting for strength and willing to follow me.

Lu Yang nodded and ran the morning exercise with him. Then he and Han Fei, Han Yu, Mu Yi, and Xiao Liang exercised for another 2 hours with special methods.

The members of the studio who were eating saw Lu Yang and others on the playground as if they were torturing themselves, with an unbearable expression, but they also made their minds more tenacious.

The bosses are so desperate, they have no reason to be lazy!

Chapter 306 - Elf Civil War

Eight in the morning.

After the exercise, Lu Yang, Han Zhong, and others sat at a table to eat, and they ate like other members, beef, eggs, milk, whatever they ate, Lu Yang ate, and never opened a small stove.

Mu Yi is the youngest of them. Han Zhong arranged a separate exercise program for him. Although every exercise made him exhausted, the little ones persisted.

“Let’s eat slowly, don’t take it easy.” Lu Yang shook his head with a smile as he looked at Mu Yi as if he was hostile to food.

Mu Yi drunk a bowl of milk to smooth the **** stuck in his throat and said, “I have to work hard, I’m too thin.”

Lu Yang laughed, but his heart was bitter, and the child always wanted to grow up quickly to protect his family.

“You’ve made a lot of progress.” Lu Yang rubbed Mu Yi’s hair and turned his head to Han Yu. “How many emerald crystals have been hit.”

Han Yu said: “The 106 are all stored in the smithy’s warehouse. Brother, what is the use of this thing?”

“Useful.”

Taking out the phone, Lu Yang asked Jiang Ze to find someone to help him take a week off, then returned to the game, leaving Mu Yu and Han Ying to continue playing with wool balls. Lu Yang returned to the northern part of St. Gall with a day and night of harvest. Smithy.

Han Zhong was forging the equipment. When he saw Lu Yang carrying six storage bags, he came back and asked, “What are they?”

Lu Yang took Han Zhong to the smithy warehouse and took out the drawings. A total of 56 drawings of 5 professions and 6 series were counted as weapon drawings.

Han Zhong’s eyes brightened and he said, “Xiao Yang, these drawings are darlings. The equipment made is quite valuable.”

Lu Yang said: “Master, I specifically found 56 people to make the equipment on the drawings, but you don’t sell it to others. I have another purpose.”

Han Zhong Yile said, “Is there any more idea?”

Lu Yang said: “I met an expert yesterday and I was inspired a lot. I am going to play a big one.”

The number of players in the Jagged Brothers League has reached 180,000. Even if such a large guild is not mixed with spies, anyone will say that the strength of the leaky guild on the bright side will be known by other people who are interested in asking.

Especially for the level 30 gold suit drawings and weapon drawings, this is difficult to hide for a long time. Although the only people who know the only 13,000 people in the guild, Lu Yang is not a believer, but he decided to add one more. Take the double insurance and give it to the smithy.

Taking advantage of the fact that the major guilds now have no time to copy the wasteland, Lu Yang is preparing to play a trick to repair the road in the dark.

Let all those who worry about him gradually let go of him, wait for the blacksmith to build a sufficient amount of equipment in the dark, and Lu Yang will take a fatal blow to the undead black sword in front of him.

Han Zhong said: "How to solve that material, we do not have materials for making these things in the smithy."

Lu Yang took 106 emerald crystals out of the warehouse and said, "It's all about this baby. I'll go to the main city of the elves and use this thing to exchange materials with them."

Emerald crystals, the special items of the millennium tree demon and the century-old tree demon's burst, are not useful to human players, but they are of great use to the druid class of the elves.

Druid's level 30 to 50 gold and dark gold suits all use this emerald crystal.

Leaving the smithy, Lu Yang came to the teleportation team and spent 10 gold coins to fly to the port city of Corritania, the southernmost port on the map.

This is one of the most expensive teleportation cities in the entire game. From here, you can take a boat to the main city of the elves, the Purple King City.

Humans and elves are neutral, and do not need to enter in disguise. However, in order not to cause a sensation, Lu Yang decided to disguise himself as an elf.

Taking a boat from the port, Lu Yang arrived at the port outside the Zijin Dynasty. He just disembarked, and there was a sound of scolding and weaponry in the distance.

Lu Yang looked into the distance. Thousands of players were fighting in the plains outside the port. One of them had a neat lineup of more than 5,000 people. On the other hand, there were only more than 3,000 people. However, there were not many disadvantages.

Behind the wooden railings of the port, countless elven players watched and talked.

“This is the sixth time this month.”

“Yeah, the aristocratic guild and the **** world guild fought too fiercely, even fighting outside the main city.”

...

Lu Yang stepped in front of the crowd and asked a talkative elf: “Brother, what the **** is going on.”

When the male elves heard Lu Yang’s words, he asked, “You are new, I will tell you, but you are in a good time. Now is the time when the two super guilds of the elves are fighting. The one side of the badge is the aristocratic guild, and the blue crescent moon badge is the divine guild. The numbers on both sides are about the same. Six battles have been fought this month, which is particularly exciting. “

During the talk, the two sides fought even more fiercely. The less-popular God Realm has launched a total offensive, and the more-popular aristocracy also attacked the less-popular side simultaneously.

However, at the time of the fierce battle between the two sides, the roar of the devil side of the underpopulated people rang, and the players who were in charge of adding blood had turned into cheetah forms and plunged into the aristocratic player group.

The swift cheetah hitting the aristocratic player was injured and wounded. At this time, the roar of the noble side also sounded a roar, which also turned into a cheetah and a cheetah player in the world of gods.

Lu Yang knows that this is the Druid profession unique to the Elven clan. Just as the Paladin of the human race knows the special skill of invincibility, the Druid’s special feature is that he transforms into a cheetah, a treeman, and a giant bear.

This kind of occupation is also specially used to deal with PK. It can add blood, can resist suffocation, and the output is still high. Lu Yang remembered that when the race battlefield of the last life was opened, the civil war of the human race saw the number of knights and the civil war of the elves looked at the number of druids. Which one is more, which one wins.

The war at hand ~ www.mtlnovel.com ~ Lu Yang took a look. The number of druids on both sides is similar, but the druids on the noble side are stronger and hurt more.

There are many excellent players on the **** side, but as the battle progresses, the **** side still loses, and they are scattered and fled.

“Blue waste, there is a kind of don’t run, who runs who grandson.” A commander on the noble side shouted at the player in the center of the rout of the gods.

“Zero sorrow, this thing is not over today, you wait for me.” A player who looks like a commander on the side of the gods pointed at the side of the gods and yelled and turned away.

Among the crowd, the elf beside Lu Yang sighed and said, “Unfortunately, the **** world has lost again.”

Lu Yang asked: “The careers of both sides are the same, why is there such a big gap?”

The male player glanced at Lu Yang in a mood and said, “It’s not a problem with the equipment. The level 30 Druid gold equipment of the Divine Guild is too small.”

Lu Yang nodded with a clear understanding of his chest and locked his target on the Divine Guild.

Chapter 307 - Secret transaction

“Brother, this Divine Guild has failed. You are in such a bad mood.” Lu Yang asked the elf around him.

The elf player named Romance Castle said impatiently: “You do n’t know, Fengxianlou sets up the game, who can win the two guilds of the gods and the nobles. I was very optimistic about the gods before, I bet One gold coin in their house now looks like it’s finished. “

Said that the last romantic castle can not help but feel a little embarrassed. It took him half a month to dig out the 1 gold coin.

“Ding ~!”

A gold coin made a pleasant sound and flew towards him. The romantic castle quickly caught the gold coin and looked at Lu Yang in surprise. “Brother, what do you mean?”

Lu Yang said with a smile: “Look at your eloquence. Take me to Fengxianlou and tell me about all aspects of the Elves on the road.”

An excited expression appeared on the face of the romantic castle. He didn’t expect that he actually encountered a local tyrant. He just shot 300 credits and said quickly: “No problem, I know everything and I can’t stop talking. Let’s go to the transmission point and go from there. Going to Zijin King City is faster. “

Lu Yang nodded and followed.

On the way, Romantic Castle entered the game from the start of the service, and has been mixed to the current level 23 players, and told the lace news and guild grievances in the game to Lu Yang.

It turns out that not only the human race is in melee, but the elven side has also entered the era of melee. After more than two months, the contradictions of the major guilds in the game have reached a critical point with the upgrade of equipment and levels.

From half a month ago, the major guilds started melee. Among them, there were four strongest guilds. The first was the aristocracy, the second was the divine realm, the third was glory, and the fourth was Xinghai League.

The number of each guild is about 200,000. Due to the beautiful appearance of the elven players, the number of people who choose the elves is more than that of humans and orcs. Therefore, there are more elven guilds.

Below the four super guilds are first-class guilds. There are more than 10 first-class guilds with more than 100,000 people, and second-class guilds with 50,000 people are innumerable. These guilds form alliances with each other to form an intricate network of relationships.

Among them, the two guilds with the worst relationship are Divine Realm and Aristocracy. Because the two guilds have been in the same leveling area, they are not tolerated, and the two guilds are particularly fierce.

“The previous two guilds had similar strengths in all aspects. You had a 30-level gold drawing, and the other also had a transfer job here. The other side also had a stalemate. However, recently the nobleman did not know where to find emerald green. The refresh point of the crystal, the level 30 druid gold equipment is particularly many.” Said the romantic castle.

Lu Yang recalled this incident. The war between the elven tribe and the nobles in the previous life was fought for six months, and it ended in the defeat of the divine realm.

Afterwards, the boss of the **** world, Shenhuang, admitted frankly that the beginning of failure began with emerald crystals. He did not expect that Shenhuang could find a stable emerald crystal refresh point, so that at level 40, the noble party had gold equipment. There are many high-level druids.

Later, when Liu Jie’s funds entered, the aristocratic guild was bought by Liu Jie as a whole. It can be said that the aristocratic guild was also an enemy of Lu Yang. In any case, he could not let the aristocratic guild develop smoothly as in the previous life. Go on.

“Boss, it’s Fengxianlou.” The romantic castle sounded in Lu Yang’s ear.

Lu Yang looked up at the Fengxian Tower with the same decoration style as St. Gall, and said to the romantic castle around him, “Do you know where the headquarters of the Divine Guild is?”

“I know, right at the end of this street,” said the romantic castle, pointing to a five-story building in the distance.

Lu Yang took out another gold coin and threw it to the romantic castle and said, "Go to the headquarters of the Divine Guild and tell them who is in charge. Someone wants to sell emerald crystal. If they want, let their boss see him in person. I."

The romantic castle dumbfoundedly took the gold coins, looked at what Lu Yang wanted to say but didn't know how to say it, but nodded hard and said, "I'll go immediately."

Lu Yang did not look at the romantic castle again, turned into Fengxian Tower, and found a window seat in the lobby on the second floor and sat down.

In the north direction of the lobby on the second floor, there is a beautiful woman dancing. This is an emerging industry attached to the game. Online female anchors have settled in the game to perform live broadcasts and interactions in dancing. This method is similar to real-life contact. popular.

While Lu Yang admired a female player named Qiqi on the stage to dance the ancient style dance, the running sound of Fengxian's downstairs squadron sounded. Lu Yang glanced sideways, and the romantic castle led the one who was just defeated and shouted. The player in the blue junk rushed over and followed a large group of people.

The nephew of the Divine Guild's nephew, the blue coat, fluttered with a fire today. Obviously, his brothers were superb in each way, but they were defeated because of the equipment. This made him very upset. What's even worse, he just went back to the meeting and the inside of the guild. The voices of other shareholders who oppose the chairman's appointment as the head of the group have a tendency to rise again.

When he was anxious that the leader's position would be taken away, someone came to tell him to sell the emerald crystal in bulk.

What is emerald crystal? It is the strategic material of the Elves, and it is a necessity for making Druid's gold-level equipment. So, even if only one in 10,000 chances are true, he has to take a look.

"Your kid is better not to lie to me, otherwise I can't spare you." Lan Yifei said to the romantic castle.

“Boss in blue ~ www.mtlnovel.com ~ You can rest assured, the grandfather who just led me gave me 2 gold coins. Whoever is fine can spend so much money to cheat people.” The romantic castle has confidence in Lu Yang Full.

“Take me up to find him.” Lan Yi Piaoyi couldn’t help feeling a little excited. He instinctively felt that this time was true. If he could complete the transaction, his position would be stable.

The romantic castle hurriedly nodded, and flew into the Fengxian Building with a blue coat, and asked the shop attendant to inquire about Lu Yang’s location, and quickly went up to the second floor.

“Boss, I asked you to find the person I was looking for. This is the nephew of the President of the Divine Realm, who can represent Shenhua himself with full power.” The romantic castle whispered to Lu Yang.

Lu Yang looked at the elegant blue dress standing behind him, a man who looked about his age.

Lan Yi is also looking at Lu Yang. After discovering Lu Yang’s eyes, he walked to Lu Yang with a smile and took out his hand and said, “I am Lan Yi.”

Lu Yang shook hands with him with a smile, and said, “If you can come, it means that you have sincerity, let’s talk in a private room.”

“I have this intention,” said Lan Yi with flowing eyes.

Chapter 308 - Three thousand groups of various materials

Lu Yang smiled and nodded, looking for a waiter to change to a private room. Before leaving, the beautiful lady on the stage just finished a dance, and Lu Yang took 10 gold coins from his backpack and put them on the rewarding platform.

Fengxianlou Channel: Congratulations to player Mo Yan for receiving 10 gold coins for reward

An exclamation sounded, and 10 gold coins were equal to 3,000 credit points.

The players on the second floor looked towards the podium, and Mo Yan, who was bowing and thanking, looked up in surprise at Lu Yang. As a newcomer, she received such a large reward for the first time.

With four eyes facing each other, Mo Yan deeply remembered Lu Yang's smiling face.

The blue clothes standing aside saw Lu Yang's generous shot, and he was more convinced in the true degree of the business, and said with a smile, "Brothers have Yaxing."

Lu Yang knew that he must be crooked, and said, "I just think that the dance she just made is worth my money to see it."

"Two bosses, the private room is cleaned up, and the two please follow me." A waiter-like player said to Lu Yang and Lanyi Piaoyi.

Lu Yang made a pleased gesture to Lan Yi, which happened to be Lan Yi. The two laughed and walked into the private room together. The romantic castle and other men stayed outside.

Inside the room.

Just after taking a seat, Lanyi Piaoyi couldn't help asking: "This brother, I heard the romantic castle said, you want to sell a batch of emerald crystals, is it true?"

Lu Yang looked at Lan Yi and smiled, took a pocket from his backpack and put it in front of Lan Yi and said, "Look at this."

The blue dress opened and looked at it, and the dazzling green light of the emerald crystal suddenly increased his adrenal hormones. He quickly counted the number and exclaimed: "There are actually 106."

Lu Yang took the pocket and put it in the backpack, looking at the blue long-sleeved eyes, and said, "Now let's talk about the price."

Lan Yi elegantly said: "The 106 of our divine realms all need it. The market price is 1 10 gold coins. I will give you 11. How about it?"

Lu Yang chuckled and shook his head. He didn't want money. Jiang gave 1 billion cash in the same year. He now has the money.

Lan Yi elegantly said, "Brother, the price I gave is high enough. You can earn more than 300,000 yuan with credit points. At most, I will give you an additional 50,000 yuan. I dare to say that the entire Elves do not have People will have more money than we give. "

Lu Yang still shook his head and said, "I don't lack money."

The elegant blue dress suddenly realized that Lu Yang had just rewarded a female anchor with 10 gold coins. It was obviously not a lack of money, and asked, "What do you want?"

Lu Yang said: "I want magic cloth, connective skin and source materials, and one emerald crystal for 30 groups."

Lan Yi fluttered his eyes sharply and asked sharply, "Brother, which guild did you send?"

These things are all strategic materials of a guild, and any guild will not sell it easily.

Lu Yang said with a smile: "You don't need to worry about it. You just need to tell me whether to sell or not. If you don't sell, I will go to the nobles and Xinghai League."

Lan Yi's elegant expression was stagnant. If it was later taken away by the aristocratic guild than his business, his position would be completely unsafe, he gritted his teeth, and said, "I can't take charge of this kind of material. Give me some time. Let me discuss with the chairman. "

Lu Yang said, "I will stay here for two days, and you are always welcome to come here to find me."

Lan Yi elegantly understood that Lu Yang was preparing to negotiate with each guild separately. He was lucky and was the first company that Lu Yang looked for.

"Trouble brothers are not looking for other guilds for the time being. Give me half an hour and I will give you an accurate answer." Lan Yi Piao Yi said.

Lu Yang made a please gesture and said, "Of course you can."

Lan Yifei did not step out of the door, but decided to stay here, and directly opened the special space invitation, and pulled the **** Shenhuang into the special space.

"Xiao Yi, I'm in a meeting. What will I say later?" Shen Huang said, ready to withdraw from the space.

Lan Yi elegantly shouted: "Well, some people sell emerald crystal."

Shenhuang's hand, which was pointing to the exit button, was still in the air and asked, "What do you mean?"

Lan Yifei said: "Someone sold and sold 106 emerald crystals. I have met him and confirmed it."

Shen Huang's eyes suddenly lighted up and said, "Hurry up and buy, we are in short supply of this thing, and buy it above the market price. The shareholders are meeting to discuss the position of your leader, and this transaction can be made. , Your head position will never be remarked again. "

Lanyi Diaoyi guessed this, and said quickly: "The man doesn't need money. As long as the magic fabric, connective skin and source materials, one of them needs 30 sets of each material. The amount is too large, I can't be the master. "

Shenhuang didn't hesitate to say: "Promise him, silly boy, the origin of the magic weave cloth is fixed, the emerald crystal is random, one has a fixed location, and one can only kill the boss to try his luck. Can this be compared?"

Lan Yi elegantly nodded his head, and then exited the special space and said to Lu Yang excitedly: "Brother, our president agreed, let's go to my guild and I will get you the materials."

Lu Yang held out his hand and said, "Happy cooperation."

Lan Yi was so excited that she brought Luyang to the headquarters of the guild and prepared all the materials that Lu Yang wanted.

3,000 sets of various materials, Lu Yang used 6 storage bags before loading.

Shen Huang personally met with Lu Yang and said, "This brother, I don't know if we have any chance to continue cooperation."

Lu Yang thought about it and said, "There should be ~ www.mtlnovel.com ~ But next time, it may not be the time."

Han Yu took the famous bow, Silent Night, rummaged through the entire southern forest of Baiguang Town, and hit so many. After that, when the century-old tree demon is refreshed may not necessarily be refreshed, and the number of refreshes is not necessarily. It will be as good as wasteland, and Lu Yang is not sure when he will come next time.

Shenhuang regretted his expression. He understood Lu Yang's meaning and said, "Next time, we must consider our guild first. This is my contact number in the real world. Since the brothers are not willing to disclose their names, they can make this call at any time. Contact me. "

Lu Yang didn't expect that Shenhuang was quite smart and said, "Yes, we will have a period later."

Arching his hand, Lu Yang carried the storage bag to the teleportation array, flew to the seaside port, and returned to the Terran Port of Gritania by boat.

After disembarking, Lu Yang read the spell and returned to the demon temple. He entered the home of Chengbei Kahn through the portal and returned to Chengbei Blacksmith Shop as quickly as possible. He handed all the materials to Han Zhong. 56 studios had already prepared Player, immediately start forging work.

Just as Lu Yang was about to take a breather and rest for a while, Tu Feng sent a message saying, "Brother, something serious has happened."

Chapter 309 - Boss wants to hang people?

"What's the matter?" Lu Yang asked.

Tu Feng said: "I have just heard the news that the Bloodthirsty Badlands successfully opened up the wasteland to the third level, and the final lord can be played immediately."

"So fast?" Lu Yang asked curiously, "how did they do it."

Tu Feng said: "The news came out that the bloodthirsty domineering reopened Qu Han, which he and the south bank of Yuema jointly referred to."

Lu Yang chuckled and said, "It's nonsense. The man on the south bank of Yuema can play tricks and tricks. It must be Qu Han on the front battlefield. I can't imagine that Bloodthirsty Domineering can reuse Qu Han. I previously underestimated him."

Qu Han and Ye Guxing are famous battlefield players of the last generation. Their personal abilities on the top stage are not as good as those of Baixi Sanxiong and bitter half-life. However, under the command of the large army, the two have been playing with the team. Have been abroad and have fame all over the world.

Lu Yang frustrated Ye Guxing's confidence for the last time, and he also put Qu Han on the suspicion of collaborating with the enemy. According to the common sense, Bloodthirsty Domineering will never use him again. I did not expect that Bloodthirsty Domineering was also enlightened. .

Tu Feng said, "What to do now, if they kill the lord and occupy the fort first, the Bloodthirsty Alliance will not only improve their morale, but also immediately take their troops to support the Black Sword of the Necromancer, or directly lead the team to interfere with our wasteland. We are passive. "

The fortress was successfully opened, and the representative drawings were all completed. With the bloodthirsty alliance details, it can create 10,000 people's gold equipment in a week.

Lu Yang said: "Don't worry, the lord is not so easy to kill, how is your staff?"

Tu Feng said: "The newly recruited more than 20,000 people have been grouped. You don't need to worry about them. I will think of ways to organize them to upgrade."

At the stage of opening up the fortress with all his strength, Tu Feng didn't want to give Lu Yang trouble, and would rather increase his workload.

Lu Yang knew Tu Feng's thoughts, and he felt with emotion that with the help of such brothers, the Hexuan Guild could not develop.

"Brothers, these 20,000 people will be of great use in the near future. Don't worry about the fortress. I'll transfer some staff to you." Lu Yang said.

Red fortress.

Zhuojiu, Xia Yuwei, Xiao Liang, and others were sitting around watching the lava three wolves (lords) in the distance of the battlefield in a daze.

"Hey a cat, this pit has been in us for two days, really evil door." Bai Lang said unhappily.

"I heard that the Bloodthirsty League has opened up wasteland to the last boss, but we are blocked here, it is too shameful." Mao Qiu said.

"We will try again later, and we must not be slower than the Bloodthirsty League," said Zhuoji frowning frowningly.

Several people nodded together, just as they were about to get up and try again, Lu Yang came over from a distance.

"Boss." Mao Ball's eyes saw Lu Yang, Xia Yuwei and others rushed over to greet them and greeted one after another: "Boss."

"How come all the expressions are so heavy." Lu Yang asked with a smile.

Zhuo Jiu said: "I'm sorry to the boss, it's shameful to you. We were 8 days earlier than the Bloodthirsty Expedition, but they exceeded the progress. Now they all hit the last lord, and we are still stuck here."

Lu Yang looked at the three lava wolves in the distance and said, "This is not to blame you. The three wolves in the wasteland need 500 people. All the players you carry are less than 30 players. It is normal to not fight. "

The Lava Three Wolf is an official monster designed to test the guild's fighting ability. He is not fighting alone, but when the monster is opened, the door behind him rushes out of more than 3,000 elite monsters that release spells.

Xiao Liang's Red Mist soldiers resist physical attacks, but they have no additional resistance to spells, so they can't carry these blame.

"Boss, I want to transfer 100 players from level 30." Said bitterly for half a life.

"As long as there are 100 more players in level 30 wearing gold suits, we will definitely be able to fight them," said White Wolf.

Lu Yang shook his head and said, "I can't just assign you guys, but I'll transfer some to leave."

"What?" Everyone was a little dumbfounded, but they quickly reacted, and Lu Yang wouldn't do it for nothing.

"Boss, who do you want to pit?" Xia Yuwei asked.

Lu Yangqi rolled his eyes and laughed.

"No big, no small, is there such a thing to talk to the boss." Lu Yang said.

Lan Yu couldn't help laughing while covering her stomach, and said, "Brother, your badness has been deeply rooted."

The white wolf nodded and said, "Boss, we feel the same way."

Lu Yang was completely speechless, saying: "This time it is not a bad thing, it is a good thing. The number of guilds is increasing. I am going to establish the Sixth Army. Each of you will provide me with 3 masters."

Zhuo Jiu poured out, "It's great, you don't say I'm going to find you, too, boss."

"So do we." Xia Yuwei and others like half-life bitterly said together.

"What's wrong?" Lu Yang asked.

On behalf of the crowd, Zhuojiu poured in, "Boss, we have too many masters in the guild. We each have a 20,000 legion. There are 4 regiments below. Each regiment has only 2 chief and deputy heads and 10 chief and deputy heads. The team leader has become a leader, and the masters recruited by the guild are qualified to be team leaders. Now, they are all team leaders because of insufficient staffing. It is a waste of talent. We can't bear to look at it."

The white wolf said, "Yeah, nothing good can be sent to them. Although they have no complaints, we are not at heart."

Lu Yang was also worried about how many of them were unwilling to let go. Hearing them say that, they completely reassured and said, "Tell the people who are going this time, the last time is the captain who led 1,000 people, and have been transferred Certificate of opportunity, go. "

"Yes." Zhuojiu and Xia Yuwei and others immediately discussed with their respective team members. After a while, 12 martial artists such as Wu Lin Mengzhu and Noida, Cheetah and others stood in front of Lu Yang.

"Boss is good." The crowd said together, they all felt very much about the boss who had sent them 10,000 credits for three consecutive months.

The signing of the contract is five years ~ www.mtlnovel.com ~, which is equivalent to giving them a great guarantee of living. This time, they are very happy to take up their new positions, pay and have additional subsidies.

Lu Yang patted his shoulders one by one and said, "After three months of war, you have become outstanding masters. This time the new regiment was formed, the boss gave you the opportunity to build your career and go to Tu Feng to report. What happened next He will tell you. "

"Yes." The twelve people showed excited expressions, took out the city roll and flew away.

White Wolf scratched his head after being happy, and said, "Boss, what should we do next to open up wasteland?"

"Yeah, it's gone so soon." Mao Qiu said.

Lu Yang said with a smile: "Opening up wasteland is secondary. Tell me about how many players there are at level 30."

Zhuo Jiu said, "After so many days of fighting, we have 10,000 players at level 30, which is not enough for the 3,000 players behind us at the end."

This is Lu Yang's previous arrangement. All players who reach level 30 will go outside and take the trumpet in exchange for guild points.

Chapter 310 - Final preparations for war

The guild obtained the drawings. Lu Yang only told the 13,000 guilds that they were loyal.

The field maps from level 10 to level 30 on the north side and northwest side of St. Gall are all those loyal players who are in charge of the team. The special maps of the Demon Palace and the Neil Palace are also upgraded.

Zhuo Jiu, Xia Yuwei and others reported each other's data, and they found that after so many days of upgrading, there were 40,000 more players between the 25th and 30th levels in the guild, not counting the 50,000 who went to Xia Yuwei Player.

"Boss, I don't think we can kill the Necromancer now." The white wolf scratched his head and said.

"I feel the same way." Zhang Zibo said.

"Boss, do we want to do a vote." Said bitterly love for a long time.

"Not before." Lu Yang shook his head and said, "Now, even if we defeat the Necronic Black Sword, it is just a miserable victory. The Necronic Black Sword is only hit badly. The bloodthirsty alliances, the hegemony and the twilight around us are not Will watch us completely destroy the black sword of the undead. "

The number of level 30 players on the Black Sword of the Necromancer is not large, but the number of level 20 players has been at least 40,000 to 50,000 after such a long time, plus the bloodthirsty people, the hegemony and twilight attitude are also uncertain, this battle cannot be call taxi.

Lu Yang went on to say: "Don't think about the fortress competing for the first thing. Recently, you have led the team to level up. The Lava Three-Headed Dog is a good leveling place. You can just use him as an upgrade place. Within 10 days, I used the doorway and two quick upgrade locations here to train me for 10,000 level 30 players. "

Zhuojiu and Xia Yuwei and others nodded.

"In addition, tell new players here that you are absolutely not allowed to tell us about the wasteland fortress. If you let other guilds know, think about the tragic situation before our guild, sloppy." Lu Yang said.

"Boss rest assured, we will pay attention, the next batch of 10,000 people, we will bring over in batches, and give priority to choosing from those players who retired at the latest." Zhuo Jiu Qing said.

"I believe you can do it well." Lu Yang took out a magic wand and demon inflammation from his backpack, and said with a smile: "After the mission, we should talk about rewards, tell me about these three days Which of your teams has the most monsters? "

Zhuo Jiu and Xia Yuwei and others saw the staff's eyes changed, looked at each other, and each issued a team kill number.

"36980"

"37826"

"36889"

"35656"

The bitter love last counted, saying: "39102"

“Wow ha ha, we have the most, we have the most.” The bitter love yelled excitedly and almost rushed to hug Han Liu.

Han Liu looked at his bitter love for a long time and showed a happy expression.

Lu Yang gave the staff to Han Liu and said, “It’s yours.”

“Thank you, Boss.” Han Liu happily picked up his magic wand and Yao Yan wore it in his hand. The scorching staff made Han Liu look particularly touching.

Vulcan M16 looked ruthless when he looked at the staff, and the other teams were also depressed.

Lu Yang said with a smile: “Don’t be so unhappy, there will be opportunities in the future.”

Everyone thought that Lu Yang’s words were comforting, and they all showed an ugly expression than crying.

Lu Yang was so amused by the expression of Vulcan M16 that he took the famous bow from his backpack, Silent Night, and said, “Look what this is.”

“Shooter’s artifact.” Mao Qiu fluttered over with excitement.

People like Xia Yuwei and Bai Lang looked at Lu Yang in surprise.

“Boss, where did you get it?” Xia Yuwei asked.

Lu Yang pretended to sigh and said, “In order to get the bow and arrow, I almost hung up the boss. Let me say first. The second round of the game will begin tomorrow. Which team will bring out the most 30 level players. This staff Give it to anyone. “

In fact, there are five such equipment in Lu Yang's hands, all of which were shot out of the trapped dungeon. This is just to give these boys a motivation.

"Spelled it." Mao Qiu's face looked desperate.

Xia Yuwei and others also watched Silent Night's eyes glow. This bow and Yin Feng Han Yu took the same one. With it, it equals an extra 100 yards killer marksman, which is great for any team. Appeal.

Lu Yang saw the motivation of the crowd, and no longer said more, looked at Lan Yu and said, "Sister, brother gave you a task."

Lan Yu was sitting next to Lu Yang. After the last big theater incident, the relationship between the two people heated up sharply. Although Lu Yang could not wait to be beside Shen Mengyao every day, he also knew that it was the busiest time right now. I have tolerated the separation time. This time is not too bad for this life, so he hasn't seen Shen Mengyao in school these days.

"What is it," Lan Yu asked.

Lu Yang said with a smile: "Tomorrow you and Zhang Zibo will go to Sequoia Valley to replace Jiang Ze, and by the way look at your future staff."

The crowd heard ambiguous eyes when they heard that it was the Queen's Guard.

Xia Yuwei's face turned red. She knew that Lu Yang had discussed with her. The 50,000 people had to receive all of them, so someone she trusted could participate in the management.

"Okay, you're guaranteed to complete the task," Lan Yu said with a saluting gesture.

Zhang Zibo said: "Boss rest assured."

Lu Yang nodded with a smile, briefly explained them again, returned to the city of St. Gall, just landed, dialed Jiang Ze's phone, and asked, "What is it?"

Jiang Ze is leading the team to upgrade in Sequoia Valley, and in reply: "What is the matter?"

Lu Yang said: "The 20,000 people for you are ready ~ www.mtlnovel.com ~ In addition, I have extracted 12 elite players from their four teams of Zhuoshu, come back to meet them, and take the team to tomorrow. The level 30 map on the north side of the holy city has been upgraded. I will find another person for the Queen's Guard. "

"Good, come back here," Jiang Ze said excitedly.

Although he had only a few days' experience in leading a team, Jiang Ze followed his father's ears and knew some management methods. He quickly found management tips. Now that he knows he has a team, he is very excited.

"I won't teach you specific things. You have your own spectrum. The only thing I want to tell you is that. Don't disclose any news about transfer tasks and legendary weapons." Lu Yang said.

"Rest assured, I know." Jiang Ze said.

Lu Yang took it easy, and now there is one item out of all the problems. At present, there are 4,000 sets of 30 level gold equipment and equipment produced by the guild. Each of the soldiers, fire methods, and paladins has 1200 sets and 400 thieves.

Lu Yang also has no better way to obtain raw materials. After all, this is gold-level equipment. Therefore, Lu Yang turned his attention to the 6 bags of extra-world equipment he brought back.

Helmets, necklaces, weapons, and other 18 players wear everything. Lu Yang now needs to test what the attributes of each different world item look like.

Lu Yang came to the auction house. In all the auction items, players can choose to auction their account. As long as the transaction is successful, the player's account will be automatically granted to the purchaser. During the period, all problems will be solved by the system. Will never be eligible to log into his account again.

Selling accounts is currently a very popular business. Many players do n't waste much time in the game, and the speed of training is too slow. Therefore, they choose to buy accounts.

30-level accounts are the most expensive, requiring 10,000 credits. Ordinary 20-level accounts also require 5,000 credits. Luyang bought 4 30-level accounts and spent 40,000 yuan.

He sent a message to Xiao Liang, Han Fei, Han Yu, Mu Yi and said, "Stop the four of you, I will send you 4 new accounts and log in to the smithy warehouse."

"Yes." The four of them went to the safe area to go offline, logged in to Lu Yang and gave their account to the blacksmith's warehouse to find Lu Yang.

"Boss, what is this account for?" Xiao Liang asked curiously.

Lu Yang opened a storage bag and said, "Put on the equipment inside."

"Exotic world equipment?" Xiao Liang picked up and looked at it curiously.

Amazing World Breastplate

Level 😊 ? ?

Attributes: ? ? ?

“Brother, why are these question marks?” Han Fei asked.

Lu Yang said: “This equipment is special. Only the person wearing it can know the attributes. I bought soldiers, mages, hunters, and thieves on these four accounts. They represent chain armor, plate armor, leather armor, and cloth armor. You four Put on each and report the attributes of each item to me. “

“Oh.” All four understood Lu Yang’s meaning, and each picked up his equipment and put it on his body.

Amazing World War Armor

Grade 1

Defense: 0—1

“Good rubbish.” Han Fei replaced the equipment and threw it into a storage bag instructed by Lu Yang, saying, “Brother, how can there be a level 1 equipment?”

Lu Yang said with a smile: “This equipment has random levels, ranging from 0 to 30, and the attributes are not necessarily. If you are lucky, you can get legendary equipment.”

“I rub it, boss, look at this piece of equipment.” Xiao Liang pointed at his breastplate excitedly.

Amazing World Magic Robe

Level: 30

Defense: 1-2

Constitution: +50

Intelligence: +60

Spell Damage: +225

“This ... Although the equipment is a bit less defensive, it is legendary spell damage.” Mu Yi exclaimed.

Lu Yang Yile said, “See, this is the special feature of the equipment in the other world. Just like buying a lottery ticket, I have 3,000 pieces here. Let’s test them one by one. In addition, Xiao Yu and Xiao Ying are playing this special map. As for the equipment, I guess that after we have tested this batch, they should have returned with thousands of other pieces of equipment. “

“so much.”

“Great, maybe I can come up with a set of legendary mail armor equipment, coupled with my famous bow · Silent Night, I am invincible.” Han Yu said excitedly.

“I want leather armor, my thief equipment.”

Uh ...

The four of them were excited, and they continued to dress up quickly, while Lu Yang was recording equipment attributes.

Only, when Han Fei put on a set of equipment and was ready to change it, he found that the garbage guard with 0-1 defense on his body could not be taken off.

“Brother, why can’t I take off this hand guard.” Han Fei asked.

“I can’t take off my breastplate.” Mu Yi said.

Lu Luyang said: "This is a special effect of equipment in another world, there is a chance to stick to the player, regardless of this, continue to experiment."

"Boss, what if you can't get it all?" Xiao Liang asked.

Lu Luyang said: "Simple, when you can't get enough of them, run outside and cut the holy city guards, just explode."

"..." The four found out that Lu Yang thought this method was really a good one.

Lu Luyang continued: "There are some special requirements for this set of equipment. If you can't wear it, give it to someone in other professions to test it. Some equipment has additional requirements for attributes such as strength and intelligence."

The four of them nodded and continued to experiment.

After an hour, four people tested more than 800 pieces of equipment, and at this time, they had a whole set of other world equipment that the trash attributes could not get.

"Brother, I went down to cut the guard." Mu Yi said with a sense of righteousness, as a good player who abides by the law, he cut the guard for the first time.

Xiao Liang, Han Fei, and Han Yu also swallowed. They all felt that this kind of thing was too exciting.

The guard of St. Gall is synonymous with the law of the game. The four are tantamount to provoking the rules formulated by the official game.

St. Gall's Square.

In the afternoon, countless players stand on the square to rest, chat, and trade. Every 30 yards in the gridded square, a heavy armored soldier stands in the middle to clear the road, specifically cleaning up those players who are deliberately congested on the road. .

After many new players land, old players will warn them that the square road in the grid is forbidden to stay in place for more than 5 seconds.

“Don’t forget ~ www.mtlnovel.com ~ These guards are very powerful, their levels are all 50, their attributes are different from the players, and they can be beaten with one shot.” An old player told a new player in a tempting manner.

“Oh.” The new player nodded frequently as he watched the mighty guard in a bright silver armor.

The voice just came down, and suddenly a player roared.

“Fight.” Xiao Liang rushed towards a 50-level guard beside the square with a sword from another world.

He cut it with a stab, and the Level 50 guard looked at the scratches on Liang Silver Armor, and then looked at Xiao Liang, his face suddenly showing anger.

“Dare to despise the majesty of the country and take the initiative to attack the city guards. I convict you.” The city guards took out his two-handed sword and slashed them in the air.

“-48769”

“Uh ~” Xiao Liang shouted in coordination and fell to the ground and died, and 5 other world equipment burst out from his backpack.

“Have equipment, grab it.”

I do n’t know who shouted a voice, and the players chatting around were rushing towards this place. After seeing the people in front grabbed the equipment, they could n’t help raising their long swords, with a crazy look in their eyes.

However, just about to start, but found that this is in the city, the killing is going to be attacked by the city guards, and they stopped reluctantly.

“Damn, pick the guy who was lucky and grabbed the equipment.”

“Why didn’t I stand outside?”

“A pie in the sky.”

Uh ...

The players dispersed in sorrow, and the players who picked up the equipment were proud. However, they were surprised when they found the equipment. This equipment has no attributes. After trying the equipment.

Chapter 312 - Investment

Mu Yi looked sympathetically at the one who grabbed the equipment and said to Han Fei and Han Yu around him: “The two brothers are waiting a little while, I am also going.”

“Go on, I’ll get in later.” Han Fei said.

Mu Yi walked up to the city guard and raised two daggers.

The official NPC IQ of “Second World” is extremely high. When he saw Mu Yi’s actions, he guessed what he was going to do. The city guard frowned and yelled, “You have to die?”

Mu Yi nodded helplessly, and said, "Brother, do your best and knock down a few more pieces of equipment. I will save you to come to you again."

One sword goes down and cuts the armor of the Midtown Guard. The city guard strikes back, Mu Yi dies, and 6 pieces of mysterious equipment fall out.

"Have equipment, grab it." The player who was just equipped with equipment from another world shouted first, and pointed back at those equipment.

"I rub it, grab it."

"its mine."

...

Han Fei and Han Yu glanced at each other, both felt that the brother was a material, and they each chose another city guard and walked over.

"Someone broke the gear."

"It does."

...

After a while, the equipment dropped by Xiao Liang and others was snatched away, but the players who grabbed the equipment and looked at the equipment that could not be taken out in a daze.

"Mom, are we going to cut the city guards too?"

Death is punished by 10% experience. If you lose too much experience, you will lose the level.

“How difficult it was for me to reach level 30. I didn’t cut it. I fight, and I went out of town to find a monster to hit me. I had to wear out the durability of this equipment.” Another player was angrily facing Run outside the city.

“That can only be done.”

...

Chengbei Blacksmith Shop.

The four Xiao Liang who ran back were laughing and reporting to Lu Yang about the situation just now. Lu Yang couldn’t help laughing, saying, “Look at the experience slot, how much experience do you have, and fall to the unification of level 29? Follow me to upgrade. “

“I can die once more.”

“I can die once more.”

...

After the report of the four people was completed, Lu Yang realized what he knew, and continued to experiment with special equipment. When he took a break to eat at night, Han Zhong learned about Lu Yang’s situation and said, “Lu Zhaoyu and Chen Feng have been fighting in the dead king palace. Both of them have reached level 30. There are 6 level 28 warlocks under them. Let them help you experiment together. “

Lu Yang thought for a while and said, “Chen Feng came out with 4 warlocks, and Lu Zhaoyu left with 2 others. The Palace of the Dead Kings is one of our most important ways to make money and must not be given to others.”

After so long, many players have found the entrance of the Corpse King's Hall, but there are Lu Zhaoyu and they form a team inside, others enter and are teleported to the outside.

Each skill level 10 or above can sell for more than 1 gold coin. Lu Yang can sell more than 100 gold coins every day based on the skill book alone.

After having dinner, Lu Yang continued the experiment. With the joining of five people such as Chen Feng, the speed was much faster. All equipment was preferentially tested by four 28-level warlocks. They could not give it to Xiao Liang and others.

On the second day, Mu Yu asked Han Ying to send out 5,000 pieces of equipment. After the overnight on the fourth day, she sent out 4,000 pieces of equipment and 12 legendary weapons, 20 transfer certificates, and more than 60. A gold-level drawing of each profession.

Looking at Mu Yu's confused little eyes, Lu Yang let her go off to sleep.

"It's a pity, we have no materials." Han Zhong said with a sigh. With so many drawings, he has enough manpower to learn.

The auction house's magic pattern cloth, permanent gold ore, magic steel ore, and source materials have a minimum price of 2 gold coins. Lu Yang's money is not enough to pay his salary, let alone buy materials.

"Don't worry, we will have money right away," Lu Yang said.

Wednesday afternoon.

Lu Yang asked Xiao Liang to continue their experiments. He drove to Jiang's home in the same year, and personally took one billion credits from Jiang's hands.

"Xiao Yang, it's up to you afterwards." Jiang said the same year.

Lu Yang nodded and said, "Uncle, don't worry."

Without talking, Lu Yang accompanied Jiang after having lunch the same year, and went to a trading company by taxi alone.

As a otaku, although Lu Yang sinks into the game every day, he also knows some international events.

For example, virtual currency.

After a special currency was blocked by various countries in the 1920s, various virtual digital currencies appeared on the international stage like bamboo shoots.

Among them, under the most unfavorable situation, Kakken replaced some special currency inexplicably, and rose from the cheapest 500 US dollars to 20,000 US dollars in just three months, and its final market value reached One hundred and eighty trillion dollars.

Lu Yang decided to invest 400 million yuan to buy 133,300 kak coins at one time in the form of scattered customer purchases.

With the remaining 600 million yuan, Lu Yang returned to the game and exchanged it for 2 million gold coins. Later, he sent a message to several studios he had contacted before.

The famous studios in the game have left their respective contact information. The most famous studios are specialized in material collection.

Although they did not announce it to the public, in the last life, when these studios were interviewed, they acknowledged that during the first level 30 gold drawing war, they sold materials to major studios at high prices and made a lot of money. Money.

Lu Yang is now looking for them with the intention of reaching a one-month material supply agreement with them to solve the current shortage of materials.

Lu Zhongtian, the owner of Hongyang Studio, was sitting in his warehouse with a smile, watching the thousands of permanent gold ore and magic weave cloth laughing in front of him.

“Fortunately, I found a fixed refresh point, but this time I made a lot of money.”

System prompt: Player orange long knife application to add you as a friend

“An orange long knife?” Lu Zhongtian muttered to himself for a while ~ www.mtlnovel.com ~ I found out that this person didn’t know him, but as a businessman, Lu Zhongtian still accepted.

“Excuse me, are you?” Lu Zhongtian asked.

Lu Yang used Mu Yi’s account to contact him and said, “Hello Brother Lu, I want to purchase a batch of materials from you. I don’t know if you would like to sell.”

“Of course, we are a professional materials sales studio. What do you want to buy? What do I have?”

Lu Yang said with a smile: “Every gold ore, magic steel ore, magic weave cloth, source materials ...”

Lu Zhongtian smiled and said, “Sorry, I really don’t have this. If you have nothing else, I will hang up.”

Lu Yang said: “Don’t worry, after listening to my other conditions, you don’t have to hang up again.”

“What else?”

Lu Yang said: "If you are willing to sell me these materials at the current auction house prices, I will buy all the low-grade herbs and ore in your inventory."

Lu Zhongtian was stunned. There were tens of thousands of low-grade herbs and ore in his inventory. He was worried that he would not be able to sell it.

"Are you serious?"

Lu Yang said, "I lied to you for nothing, but you have to provide me with a thousand sets of 10 kinds of 30-level materials. If you can't do it, I won't buy it."

"Hey, brother, is your appetite too big? 10 kinds of 1,000 sets of various materials are worth 6 million credits, plus other materials, you have to pay me more than 6.3 million credits."

Lu Yang smiled and said, "You don't have to worry about it, I can afford the money, depending on whether you have enough materials."

Lu Zhongtian thought about it. At the current price of the material, two gold coins are already sky-high, and it is impossible to sell it at a high price. He bit his teeth and said, "Enough, I can deliver now."

Lu Yang said with a smile: "Then I will pay immediately, and you will send all the materials to the warehouse 33 in the north of the city. At the same time, please sign a confidentiality agreement. You must not disclose this matter."

Lu Zhongtian said: "This is fine."

Soon, Lu Zhongtian delivered the materials to a warehouse designated by Lu Yang, and Lu Yang called the second studio owner who stored the materials.

...

Like Lu Zhongtian's negotiations, Lu Yang packed all the materials in the other's warehouse and sent them to warehouse 33.

Lu Yang called Han Zhong to warehouse 33 and looked at 20,000 sets of materials. Han Zhong was surprised and asked: "Xiao Yang, where are you with so many materials?"

Lu Yang said: "I contacted several big merchants and bought them."

"You still have money?"

Lu Yang shook his head and said, "I found the investor. I bought it with the money he invested. Master, in the last 10 days, you must turn these materials into 10,000 pieces of gold-level equipment."

Han Zhong said, "Be assured, I will deliver on time."

Lu Yang nodded, returned to the smithy warehouse, and continued to study the equipment of the other world with Xiao Liang and others. It took five days for these equipment to be finally ended by Lu Yang's test.

Among them, a total of 98 sets of 30 silver attributes, 26 sets of gold attributes, and 1 set of legendary attributes were selected by the mage.

"Brother, change it quickly and see how high the French injury is." Han Fei asked excitedly.

Lu Yang picked up the scepter of the other world and put on 17 other sets of equipment and put it on his body. He looked at the properties and couldn't help but clenched his fists and said, "Guess how much I am injured."

"French Injury 1500?"

"1800?"

“2000!”

Lu Yang shook his head and said, “It was 2286 points of damage.”

“Boss, you can hit more than 2700 Qi with a Pyroblast.” Xiao Liang said in astonishment.

“If you put a curse, even a non-shielded career in a gold suit can’t be blocked.” Han Yu said.

Lu Yang nodded. He had never worn legendary gear in the last life. This time it was pure luck.

Chatting room.

Heiyan sent a message: “Boss, we have learned the Dragon Breath of 100 Fires. What do we do next?”

Lu Yang said: “Return to the Red Fort and participate in the upgrade. Tell your brethren that I have prepared their 100 ashes suits and put them on at level 30.”

“Yes, thank you, Boss.” Hei Yan said excitedly, he has been transferred to Hei Yan Mage, learned the secondary curse Hei Yan prison, and now the boss sent them equipment, he really did not know what to say.

Lu Yang said with a smile: “Have a good job, try to upgrade quickly, don’t let me down.”

“Boss rest assured, I’ll take the team here, the brothers must be very happy to hear it.” Hei Yan said.

Lu Yang turned off the intercom, and after 10 minutes, Sun Yu dialed his intercom.

“Boss, there are more than 20,000 sets of wind element magic cores collected by my friends. Is it enough?”

Lu Yang calculated and said, "Send someone to the guild warehouse. You choose 50 30-level shooters, and gather at the foot of Leiyang Mountain in Fenglei Heights 2 hours later."

"Yes," Sun Yu said.

Lu Yang closed the intercom, looked at Xiao Liang and others around him and said, "I'll go out, and you will continue to do your own things first."

"Boss, are you going to start a war?" Xiao Liang asked.

Lu Yang smiled, walked out of the smithy, returned to the guild warehouse to take out 20,000 sets of wind element magic cores, read the magic and flew to the demon temple.

Wind Elemental Magic Core is a raw material for synthesizing Wind Elemental Magic Scroll and some low-level equipment in the game. However, few people know that Wind Elemental Magic Core can be upgraded.

The wind element magic core containing the power of wind and thunder can be synthesized into the thunder crystal core after 10 upgrades, and this thunder crystal core is the only item in the summoning game that rarely summons the beast Thunder Warhawk.

In two hours, Lu Yang synthesized 20,000 groups of more than 600,000 wind and thunder cores into only 51 wind and thunder crystal cores.

Lu Yang sent a message to Sun Yu and asked, "Are you here?"

"It has been assembled," Sun Yu said.

"Very good, I'll be right there." Lu Yang returned to St. Gall, starting the blazing sprint and rocket boots and sprinting all the way to the 30th level Thunder Eagle Mountain on the north side of the city.

After half an hour.

Lu Yang saw Sun Yu and his 50 shooters.

“Boss, they are all brothers of the guild, members of the 10,000 death squad in Sayama.” Sun Yu said.

Lu Yang looked at the brothers and nodded with satisfaction. The battle in Sayama, without the 10,000 brothers as cannon fodder, let the bloodthirsty arrogant forget the prudence, and he did not necessarily win.

“Brothers, you say so to my brother-in-law brotherhood, to Lu Yang, I will never treat you badly, follow me, the boss will help you all transfer jobs today.” Lu Yang said.

The 50 shooters were stunned when they heard Lu Yang’s words. Sun Yu had never told them before, and he was transferred to another job. What a rare thing was in front of them ~ www.mtlnovel.com ~ Everyone was excited. Hurrying behind Lu Yang, went to Leiyang Mountain together.

Thunder Eagle Mountain.

One of the most annoying players in the 30-level map. The entire Thunder Eagle Mountain is 2000 meters high, and players can only walk up.

There is only one kind of strange on Leiyang Mountain, which is Leiyang.

Thunder eagles hovering in the sky almost never fall. Many players want to train Thunder eagles as summoners, but they can’t find a chance. Even if they occasionally have a chance to catch them, they also fail because of Thunder Manic temper.

Another one is that Leiyang Mountain itself is located on a plateau and is 2000 meters high. It is almost a mountain that is inserted into the clouds. The entire mountain is covered by lightning all year round. Many players climb 1000 meters and are hit by more than 10 lightning strikes. 10% of upper blood loss limit.

The more he climbed, the more times he was struck by lightning. At this time, Lu Yang had taken the team to a position of 1000 meters.

“boom”

A flash of lightning struck Lu Yang, inflicting hundreds of damage.

Chapter 314 - Wind laser shooter

Lu Yang used healing to add blood to himself, and shouted to the men behind him: “Restore your health immediately after blood loss. Do not use bandages or potions.”

The bandage had to stay in place for 10 seconds, maybe it was split by lightning again.

“Yes.” In order to change jobs, no one has complained about using expensive instant recovery potions, not to mention that the boss of the iron brother brother Lu Yang took them in person, this glory can be blown in the brother alliance for a lifetime.

Half an hour later.

Lu Yang led the crowd to the top of Leiyang Mountain, watching the white clouds under his feet, and Sun Yu said, “Wow, it’s so tall.”

Several Thunder Eagles circled the top of the mountain and saw players invading their territory, screaming in anger.

Thunderhawk (rare)

Level: 30

Qi and blood: 7000/7000

“Rare summoning beast, oh my god, there are so many here!” Said a shooter in amazement.

The best summoning beast in the game is a rare summoning beast. Such summoning beast attributes are one-fifth higher than those without rare words, and rare summoning beasts have special skills.

At present, the price of any rare summoned beast in the game is more than 2 gold coins, even if it is level 10.

“Rare summoners at level 30 can sell 20 gold coins for just selling money.”

“Boss, do you want us to catch them?” An archer asked excitedly.

Lu Yang said, “Yes, I brought you here just to catch them.”

“Why don’t they fall and just fly around?” Said another archer, depressed.

The shooter needs to be close to 5 yards to catch the summoning beast to cast the summon. Now the Thunder Warhawk is hovering in the sky, and the distance is more than 50 yards.

Lu Yang looked at everyone in an anxious smile and took out Feng Lei Jing Nu from his backpack and gave it to Sun Yu. “Send it to everyone.”

“Boss, is this?” Sun Yu asked curiously.

“The more than 60,000 wind element magic cores that you hit were synthesized, and only 51 of them were combined.” Lu Yang said.

Sun Yu opened her eyes in surprise, and said, “Boss, the wind element magic core that we have played for more than 6,000 people a week has only formed 51 crystal nuclei.”

Lu Yang said: “Now you know how expensive this thing is, it is not so easy to change jobs.”

Sun Yu nodded in sigh, sending the crystal core down.

After finishing sending Lu Yu and other Sun Yu, he said loudly, “Let’s find a place and place the crystal core 5 yards away from you. These thunderstorm eagles will automatically fall, and you can call them when you can.”

It’s simple to say. The previous life figured out this routine. It’s been one year since the game was launched.

A European studio specializes in the study of various strange objects in the Second World. When they found that the Thunder Warhawks on Thunder Eagle Mountain were all rare attributes, this studio spent three months to study.

In the end, when they studied and understood, they found that there was a mystery, and the rare-level Thunder Warhawk had a special attacking skill, Ray Mang.

Thunder Man: Fires a lightning chain at the target, inflicting 450 damage to the target, and can attack up to 20 targets. Each additional target in the process of lightning jumps increases the damage by 5%.

If there is only one target, the damage is not much, but if there is a group of Thunder Eagles, the damage will be horrible, especially at the level of 30. When the Thunder Eagle passes the opponent’s blood-resistant melee class, it will have less blood. Such attacks will be devastating when the Master and Healing professions are overhead.

The bosses of the major guilds in the previous life were annoyed and regretted when they saw the Thunder Warhawk skills. Many people commented that if they had a group of Thunderhawks at level 30, the war would be much easier.

Unfortunately, they were all over 50 at that time, and Lei Ying could only be interested in toys. In this world, Lu Yang got Lei Ying. He wanted to see how effective Lei Ying was.

“Boss, I succeeded.” A player named Blast yelled excitedly, and a thunder blue battle eagle was standing on his flat arm.

“I succeeded too.”

...

Not long after, the 50 shooters all succeeded, but Sun Yu had not been summoned yet. As the team leader, he chose to let his men go first and not rob them.

Seeing that everyone had summoned it, Sun Yu placed the wind and thunder crystal nuclei on the ground and stood 5 yards away.

There were more than 10 thunder eagles left in the sky. One saw the crystal nuclei slowly flying over. Just before the thunder eagle was about to land, a sharp eagle sounded.

Lu Yang looked up, and a Thunder Eagle, which was twice as large as the normal Thunder Eagle, landed from the sky beside the crystal nucleus, and ate into his stomach.

Thunder Eagle (Rare Elite)

Level: 30

Qi and blood: 15000/15000

Sun Yu was dumbfounded, and he never thought that putting a crystal nucleus would pop up a rare elite, and looked at Lu Yang with a loss, saying, "Boss, I can do it."

Lu Yang said excitedly: "Catch, hurry up, the chance is just this one, this is a baby ~ www.mtlnovel.com ~ can catch it." Sun Yu quickly clicked and arrested.

After the thunder eagle ate the crystal nucleus, his face was full of satisfaction. Although he was somewhat resistant to the arrest of Sun Yu, within two minutes, the name of Sun Yu was added to the head of thunder eagle.

"Boss, I succeeded." Sun Yu felt excited that the heart beat faster.

Lu Yang breathed a long sigh of relief, patted Sun Yu's shoulder and said, "You are so good."

King Thunder Eagle, Lu Yang never had the luxury of being able to catch him. The condition for his transfer after the arrest of Thunder Eagle is to find a way to make Thunder Eagle understand the Wing and Thunder wing skills.

After that, the player brought the Thunder Eagle with the thunder wing to find the desert merchant Azelit in the southern part of St. Gall. He will actively stop the player and buy 20 gold coins. If the player does not sell it, he will give a transfer notice. To redeem.

The Thunder Eagle King was born with the Thunderwing wings.

After listening to Lu Yang's explanation, Sun Yu came to understand, and said excitedly, "Haha, I really have a good life."

However, after the excitement, Sun Yu responded and asked, "Master, then my Thunder Eagle will give it to him."

Lu Yang nodded and said, "Yes."

Sun Yu said with a look of perplexity: “The shooter’s transfer task is a good pit. He used so many wind element magic cores and caught the Thunder Eagle and gave it back. With Thunder Eagle’s skills, Ray Mang, we organized a group of monsters. In that case, the speed is several times the original.”

Blast and others are also reluctant.

Lu Yang said with a smile: “Then don’t change jobs first, and then let me arrange it.”

Sun Yu blinked, and quietly sent a message to Lu Yang asking, “Master, are you going to war?”

Lu Yang replied with a mysterious smile, and said, “Let’s go back individually, Sun Yu and I will go back to the city.”

Sun Yu’s eyes brightened and he flew back to the city of St. Gall with Landing Yang.

Chapter 315 - One-eyed Beamon

Just after landing, Lu Yang took Sun Yu into a special space and asked, “How many levels is your wind elf?”

“Level 20 is full.” Sun Yu scratched his head and asked, “What is it, Master.”

Lu Yang asked, “Are there any issues these days?”

“No, I broke my leg. I have been fine for half a year.” Sun Yu said.

Lu Yang has a black line in his forehead, no wonder this boy is online every day, and the co-author was broken and said, "Boss takes you to a place, it may take several days to confirm with you in advance." Lu Yang said.

"No problem, 24 hours online." Sun Yu said.

"Okay, accompany me to a level 50 map." Lu Yang said.

"Level 50 map!" Sun Yu looked at Lu Yang in shock.

Lu Yang said, "Yes, let's go."

Without much talk, Lu Yang took Sun Yu out of St. Gall, and ran for 3 days to the strange area of Level 50.

System prompt: You found the rundown

"My God, it's finally here." Sun Yu said panting, sitting on the ground.

It's too easy to kill monsters on this way. Even if Lu Yang has a level 8 Phoenix help, he can't stand too many monsters on the road, and when there is no place to rest at night, the two can only work on shifts and are tired.

Lu Yang smiled and said, "Have a good rest."

"Boss, why are we here?" Sun Yu asked curiously, and he asked Lu Yang without saying anything on the way.

Lu Yang said, "It's time to tell you that I'm ready to go to war."

Sun Yu's eyes brightened and he asked, "Boss, who hit?"

Lu Yang said, "The black sword of the dead."

Sun Yu guessed this, and clenched his fists hard, but asked a little confused: "What are we doing here?"

Lu Yang said with a smile: "Come to prepare a bait for the black sword of the undead, and lie to half of their troops to leave the fortress to go to the wild bait."

"Boom"

"Boom"

...

The heavy footsteps came from a distance accompanied by a violent shaking on the ground. Sun Yu looked up in surprise and watched a cyclist with a height of 10 floors and a height of 10 floors.

One-eyed Beamon (Lord)

Level: 50

Qi and blood: 3000000/3000000

"Boss, there is a lord over there." Sun Yu said.

Lu Yang said, "That's not the lord, that's the bait."

"Ah ?!" Sun Yu looked at Lu Yang dumbly, and asked, "Bait?"

Lu Yang said, "You said, if the Necromancer Black Sword opened up, you suddenly heard that a lord monster was refreshed on the west side of the main city, but was pulled by the brothers of the Jagged Brothers and ran northwest. And his eight presidents will do. "

"Certainly grab it." Sun Yu said without hesitation, and the level 50 lord blame what was dropped. For the time being, the contents of his own home were taken away by the hostile guild. Fight desperately with Lu Yang, not to mention, there may be special items for things dropped by the level 50 lord.

"If at this time I am ambushing halfway he grabbed." Lu Yang asked.

Sun Yu reacted and said excitedly: "Boss, this is definitely the way to go."

Lu Yang said, "That's not the time to pull the monsters. I will bring you the Phoenix to clean up the surrounding monsters. Pull for 3 minutes, and we will rest for 5 minutes."

"Yes." Sun Yu drove towards the one-eyed Beamon, driving a wind elf. When he was 30 yards away, an arrow hit Beamon's leg.

"Hoo ~" One-eyed Bimen roared across the grassland, and a huge eyeball on one floor stared angrily at Sun Yu.

"Dying ants, you dare to challenge Beamon's dignity." One-eyed Beamon stepped on Sun Yu, and the huge feet pressed down like a mountain.

"My mom ~!" Sun Yu opened the wings of the wind elf stunt wind, increased the movement speed by 260%, and flew towards the landing sun. The movement speed of the lord monster was 2 times the player's movement speed. Sun Feather was only 60% faster than Mongolia with one eye.

Lu Yang's feet burst into flames, and the blazing fast opened, increasing the movement speed by 200%. According to the route of killing, Lu Yang took a level 8 phoenix to clean up the mobs passing by occasionally.

After 3 minutes, the two ran out of the Cyclops' vision. After losing their goal, the Cyclops stopped in place and roared, "Damn, don't let me find you, the ants."

With a bang, one-eyed Beamon smashed a hill with a punch.

"Huh," Sun Yu exhaled, hiding behind the rock, and said excitedly, "too exciting."

Lu Yang said with a smile: "Don't be excited. It takes more than 3 days to pull back from here. We have suffered. Remember, don't make a mistake. Once you make a mistake, the goods will run back."

Sun Yu blinked and said in surprise: "Boss rest assured, I must be ready to go again."

Lu Yang nodded and said, "You rest first, I'll go and clear you up in front."

This is a task that requires two people to complete together. One person pulls the monsters, and the other one cleans up the mobs on the road, so that no accidents occur.

When Lu Yang pulled the lord here, on the other side, Han Zhong took more than 100 blacksmiths to build gold-level equipment day and night. There were a total of 13,000 sets of materials. Counting the wear and tear, at least 10,000 sets of gold could be produced. Level equipment.

On the guild side, Xia Yuwei, Zhuo Jiu, etc. took their men to upgrade, and each batch of players who reached level 30 immediately went out to collect materials ~ www.mtlnovel.com ~ and gave them to Tu Feng's unified command.

Jiang Ze, with 20,000 men, Hei Yan, and other 100 dragon-breathing fires speeded up the map on the northwestern part of the holy city.

The entire guild is running at full speed like a huge war machine, and at this time, no matter whether the old man, the male domineering, the bloodthirsty domineering, or the black blood, did not put too much thought on Lu Yang, they were carrying With the team to open up wasteland fortress.

At the same time, in order to avoid any conflicts, all parties tried their best to restrain their subordinates from staying on the map that they had allocated before, and everyone was waiting for the moment when the fort was cleared.

After the fortification of the fortress is completed, it is established. Whoever builds the fortress first can occupy the dominant advantage. Whether it is a fight or a peace, it is all in one sentence.

5 days.

For 5 days, on Thursday night, Lu Yang and Sun Yu successfully pulled the one-eyed Beam into the 35th-level northwest forest—Thousand Needles Forest Land.

Covered by mountains and trees, it can be used as a hiding place for one-eyed Beamon. If you walk for another half an hour, you will be in the western fortress of St. Gall. The players are all inside the fortress. There is no player around here.

“Well, here you are.” Lu Yang patted Sun Yu’s shoulder and said, “Go back tonight and have a good rest.”

“Yes.” Even if Sun Yu was young, she pulled a level 50 lord monster for five consecutive days and ran more than a hundred maps. She was tired and wanted to rest. The key is that you can’t relax at all when pulling the lord. Once you make a mistake, The previous efforts were in vain.

“Boss, I will be online on time tomorrow.”

Lu Yang hummed, and then sent a message to Xia Yuwei and Zhuojiu Qingdi and others in their simulated group at the same time, asking, “What are you doing?”

Chapter 316 - War started

“Boss, the news you sent is exactly the time, our own 13,000 brothers have reached level 30, in addition, we also brought out 7,000 level 30 guild players.” Xia Yuwei said happily.

“Brother ~, I’m playing with the Queen’s Guard. There are 1,000 people to level 30, and the rest are all in level 20 silver suits.” Lan Yu said proudly.

“I’ll lead the team to run in. 20,000 silver gears are all out. What’s the matter?” Jiang Ze asked.

Tu Feng said, “I’m supervising the construction of equipment, and I have just created 3,000 sets of gold equipment.”

White Lion said: “The lowest level of 20,000 people on my side is level 26, and the silver equipment of level 20 is also fully played.”

“My boss, my 20,000 silver equipment is all there.”

According to Lu Yang’s requirements, all members did not go to wasteland fortifications, but instead upgraded their equipment. After half a month of hard work, all 100,000 players reached level 20 and wore a full set of level 20 silver equipment.

Listening to his report, Lu Yang’s face was dull, but his heart was extremely restless. He invited 20 of them to a special space invitation and said, “Pause your work, I have something to say.”

“Okay.” Zhuoju and others each withdrew from the battle sequence and entered a special space.

This is an 80-square-meter conference room with a huge oval desk in the middle and 21 seats around it. Above the desk is a three-dimensional projection of the terrain surrounding the city of St. Gall.

When White Wolf entered the room, his eyes lit up when he saw this picture, and said, “Boss, this is it.”

Lu Yang looked at Xia Yuwei and others with surprised expressions, and said with a smile: "The war has begun."

"Boss, have you decided to fight the black sword of the dead spirit?" Xia Yuwei asked in surprise.

Lu Yang nodded, pointing to the Thunder Fortress where the black sword of the undead is located: "Yes, our goal this time is here."

"Great, I've wanted to beat him for a long time," said White Wolf.

"The 20,000 people on my side can act at any time and guarantee the full participation of them." Jiang Ze said.

"I don't have a problem here," said Zhujiu Qingli. "Tomorrow is Friday, and at least 90% of the guild players are online."

"I have no problem here," said bitter love for half a life.

"Our Queen's Guard 50,000 people can be dispatched at any time." Zhang Zibo said.

Xia Yuwei flushed and said, "The 20,000 people on my side are about the same."

"I have no problem here," Sun Yu said.

Lu Yang patted the table and said, "Okay, so it's settled. Everyone will be online tomorrow afternoon. We will attack the Necromancer."

Tu Feng said apologetically, "I only have 3,000 sets of gold-level equipment here, some are not enough, and we don't have the level 30 suits for priests and warlocks."

Lu Yang patted Tu Feng's shoulder and said, "Brother, you have worked hard. In such circumstances, you can come up with 3000 sets of equipment and you are already a qualified vice chairman."

From the backpack, he took out all the gold-level suits and weapons in 10 categories, including the priest, archer, ice method, arcane method, holy knight, warlock, warrior, and fire method.

"Boss, where did you get it?" Mao Qiu asked in surprise, picking up the striker's gold-level equipment.

Lu Yang said, "Where did you get it? For the time being, you don't care. I just tell you that I have 10,000 sets of these equipment and weapons."

"What?" Xia Yuwei and Zhuo Jiu all stood up in surprise.

Xia Yuwei's eyes stared at Luyang Yang and asked, "Boss, you can say it again."

How could she not believe that Lu Yang had changed 10,000 sets of gold-level equipment in such a short period of time. This is 30-level gold-level equipment and weapons. With these things, it is equivalent to having an invincible army.

In all the current guilds, even if a large guild such as the late twilight can't make up 1000 sets of gold-level equipment, Lu Yang can make up 10,000 sets, which is simply unthinkable.

Zhuoju and others all reacted from stunned.

The white wolf asked excitedly: "Boss, are you serious?"

Lu Yang said: "Of course it is true, tell the brothers, tomorrow night at 6 o'clock, 13,000 guild elites will be online 1 hour in advance, that is, at 5 o'clock, I will take you all to send them equipment."

I can't help but feel a sense of excitement throughout my bitter life, watching Lu Yang said, "Boss, we will win this battle."

Lu Yang said, "Look at it, tomorrow I will play a good show for the boss. This time, no matter it is the hero, the twilight, the bloodthirsty domineering, or the eternal soul, no one can save the black sword of the dead."

"Boss, you tell me, how to fight." White Lion asked.

Lu Yang pointed at Yinsong Gorge, a 20-level map between the city of St. Gall and Fenglei Fortress. "Tomorrow at 6:30 pm, Zhang Zibo and Lan Yu will take the Queen's Guard from the Red Maple Valley and head to Yinsong Gorge."

Red Maple Valley is in the northwest corner of the fortress, and is one hour away from Yinsong Gorge. Everyone saw here and looked at Lu Yang in surprise.

"Boss, you were ready half a month ago." Zhang Zibo asked.

Lu Yang smiled and continued: "Your task is mainly to intercept the troops who are rushing to rescue the black blood from the direction of St. Gall. Jiang Ze will bring his 20,000 troops to join you."

Jiang Ze said, "Brother, don't forget what you promised me."

Lu Yang said with a smile: "Rest assured, the 10 legendary weapons and 10 transfer certificates for you are all ready. My Fire France Centurion is also with you, Xiao Liang, I will send it to you."

Jiang Ze's eyes brightened and he said, "Relax ~ www.mtlnovel.com ~ I'll keep it for you."

Zhang Zibo said: "Boss rest assured, I will do my best."

Lu Yang said: "You two must be careful. The enemy you face may be the main force of the Bloodlust Alliance, or even the forces of the twilight and the hegemony. We must not have any slightest mentality. Once defeated, I will defeat the whole line. brothers."

Jiang Ze gritted his teeth and said, "Be assured, I will never give them any chance."

Lu Yang nodded, pointing at the Phoenix Valley between the Fortress of Thunder and Red Fortress and said, "Tomorrow afternoon, Xia Yuwei will bring people to ambush in Phoenix Valley, and muddy wine will bring people to ambush outside Phoenix Valley. When the black blood comes in, listen to my order to attack . "

"Yes," the two said together.

"Boss, the black-blooded people are near the fortress, do you have any way to attract them?" Xia Yuwei asked.

"Sun Yu and I went to the level 50 map for 8 days and led a level 50 lord to blame. You said, what would happen if Sun Yu pulled this blame through the black blood area."

"Not all of them come out to grab, and half of them will be out." Mao Qiu said excitedly.

Xia Yuwei was very surprised. Who would have thought that someone spent 8 days to attract a Level 50 lord monster not for killing, but for bait.

Lu Yang looked to bitter love for a long time, and said, "Your team has been upgraded under the Red Fortress, and is closest to the Black Blood Fortress. Once the Black Blood chaser comes over, you use the trumpet to attract and let them chase them all the way Phoenix Valley. "

"My boss is assured that I will complete the task."

Lu Yang said: "The three males of the Bai Family are ambushing next to the Yinshui River on the 32-level map northwest of the Wind and Thunder Fortress. Once the black blood is out with the main force, you take your men to storm the Red Fortress."

"Yes." The three brothers nodded excitedly.

Chapter 317 - Murderous

The next day, Friday, at 5 pm, the Red Fortress was at the military ground.

Thirteen thousand brothers who had fought the battle of Sayama in Landing Yang followed each other.

“Strange, what did the boss bring us here?”

“I do not know.”

“Hey, maybe something good.”

“Brother Hu, you’re following the boss of Zhuoshu. You must know what’s inside, right? Tell us about it.”

The player called Brother Hu shook his head and said, “The boss didn’t tell me anything, just tell me something good.”

Lu Yang stood on the high platform and looked at the 13 thousand men who were neatly lined up below. He was imposing in his chest. This was his most closely related unit. He was born again. He is fortunate to have such a unit. It is his greatest pride. .

Zhuo Jiu, Xia Yuwei and others gradually completed the team. Zhuo Jiu ran to Lu Yang and said loudly, “Boss, there are 13,000 people, all of them are assembled, and none are absent.”

“Okay.” Lu Yang said loudly to all his men. “Brothers, all of you are comrades-in-arms who have fought the battle of the narrow mountain with the boss. I am Lu Yang’s most important brother.

After that battle was over, we determined today's status and allowed the guild to grow to 200,000 people. We also occupied the entire northwest and north map of St. Gall and became one of the five super guilds.

There is an old saying in China that it is easy to be in trouble, and it is difficult to share in prosperity and wealth. Many people say that Lu Yang has become the boss of the Super Guild. I do n't care about you. Do you believe it? "

"I don't believe it!" More than 10,000 people shouted inexplicably, along the way, they witnessed Lu Yang's dedication to fight against the Bloodlust Alliance and Black Blood from one person, and witnessed the generosity and help of the team after Lu Yang created the guild. It also witnessed that Lu Yang led them to create miracles again and again, and they have absolute trust in Lu Yang.

Lu Yang was slammed into his chest by the roar of this 10,000 people, and said excitedly: "In the beginning, you did not lose me, we together won the enemy. Today, I do not lose you, I want Let me tell you, if you can share the same affliction with me, Lu Yang, I would like to be rich with you. "

Loyalty, hunting, ashes, frost, psionics, assassin, black witch doctor, faith, light, and innocence, including 10 sets of gold-level professional equipment and weapons, were projected by Lu Yang in front of the platform.

"Gold-level equipment."

"The shooter also includes weapons."

"Pastor, there is finally a priest."

"Is it possible to redeem as long as the guild points are enough, I already have 2 points."

"I can redeem one, too."

...

Listening to the player's talk below, Zhuojiu smiled to Xia Yuwei with a smile and said to him: "This is what made me happy. When the boss announced it, I really wanted to see the expressions of these boys."

Xia Yuwei said with emotion: "Boss, it's amazing."

"Hey, luck is good. Fortunately, it's the boss's man. If this is the boss's enemy, it will be a terrible death."

White Wolf and Zhuo Jiu nodded together. They were very fortunate that they did not choose to leave Lu Yang. At the same time, everyone looked up at Lu Yang on the high platform.

1 minute.

Lu Yang quietly watched the players in the audience gradually change from noisy to quiet. Ten seconds after everyone was silent, Lu Yang said loudly, "I have 13,000 sets of such equipment. Today You guys, one set for each, boss I give away for free. "

be quiet!

Absolutely quiet!

At this moment, the sound of a quiet pin falling on the ground at the entire point of the military field can be heard. After that, the whole point of the field was blown up, and a loud cheering sounded.

A complete set of gold-level equipment at level 30. Such a set of equipment is worth at least 60 gold coins at the current market price, which is 18000 credit points. This money is the living cost of many people for one year, and countless people are reluctant to spend it. Money, now, Lu Yang gave them free of charge.

"Boss, we are so lucky to follow you." A player shouted loudly, who could have imagined that the ordinary players who were bullied by the black blood and bloodthirsty leagues even had no place to upgrade, they suddenly became The absolute main elite of the five guilds of St. Gall.

Any player who meets them must treat them respectfully. They have become the squadron captain and small captain of the 200,000 guild, and the last time also led a small team of 20 people.

They had already enjoyed enough glory, and now they were rewarded by Lu Yang with a set of 18,000 worth of equipment, and everyone was crazy.

“Everyone pays attention to the order, seeing who their captains are, come to us to get in line to pick up the equipment.” Zhuo Jiu and Xia Yuwei and others shouted together.

Someone, such as Mao Qiu and Xiwaidao, helped distribute the equipment.

“Wow haha, the gold-level equipment is strong, and my attack power is almost 2000 points.”

“I have over 1800 too.”

“My spell injuries are more than 1900, a fireball injury is more than 2,000, cool.”

...

After a short while, all 13,000 people received a full set of gold-level equipment and weapons, each showing off.

Lu Yang said loudly: “Don’t send equipment pictures to others, it will be troublesome for the enemy to see.”

“Boss, who is the enemy, we killed him.” A player suddenly shouted loudly.

“Destroy him.”

“Destroy him.”

...

The shouting voice changed from a few people to 13,000 people. This fierce, blood-thirsty look, even people like Zhuo Jiu and Xia Yuwei felt fear.

“It’s so murderous, none of the bloodthirsty leagues have such murderousness ~ www.mtnovel.com ~ said Mao Qiu.

The white wolf said excitedly: “Can it be compared, the bloodthirsty alliance is the suffocation of bullying the weak, we are the murderous spirit of the all-in-ones, this time the deadly black sword is over, watch the boss command.”

Everyone looked at the high platform.

Lu Yang raised his hand to signal everyone’s quietness, and said, “It’s time to tell everyone. Today, our goal is to destroy the Black Sword of Necromancy. Do we allow others to sleep on the side of the couch? They lay the fortress, they will come to destroy us, so why don’t we destroy them first. “

“Kill!” Zhuo Jiu shouted loudly.

“Kill!” Thirteen thousand people shouted in unison.

Lu Yang said: “This war, I have been preparing for nearly a month, more than 170,000 people have been placed around the tornado fortress controlled by the black spirit of the Necromancer. Today is the decisive battle, and you, my vanguard, They gave me the greatest courage to destroy the black sword of the undead with me. “

“Kill ~!”

The murderous spirit that had already been soared to the sky was promoted to the top by Lu Yang’s last sentence.

“Boss, we must live up to our trust.” Bai Lang exclaimed.

“Go, go to their respective ambush points and listen to my orders.” Lu Yang said.

“Yes.” Zhuo Jiu and Xia Yuwei and others left their teams.

...

After 20 minutes.

170,000 players of the Iron Brothers League have been online one after another. On Friday night, almost all of them logged in to the game. According to Lu Yang’s previous instructions, Zhuojiu, Xia Yuwei, and Bai Shixiong and others took their teams together in the northwestern map of St. Gall, and then Go to their respective ambush points.

The Queen’s Guard was as usual, and gathered in the Red Maple Valley in the northwest of the fortress where the hegemon was located. It did not attract anyone’s attention. Instead, the players who encountered the Bloodthirsty League and the Black Sword of the Undead on the road saw the joke.

Chapter 318 - Big fish hook

“Hey, the Brotherhood of Iron Blood has gone to the trouble of looking for the hegemony again. Why isn’t the hegemony still playing?” Said a bloodthirsty player.

“The tyrant urged, now the whole city of St. Gall is rumored that the tyrant is an idiot, and the twilight is a wasteful old man, and he was afraid to fight back when he was beaten by Lu Yang.” The Necromancer said with a mockery.

“You fart.” A group of players from the hegemon passed by and heard the words of the undead black sword player suddenly surrounded them in anger.

“Why? I want to fight, let’s try it.” The player of the Undead Black Sword is not afraid. There are more than 20 people of the Undead Black Sword around him.

More than 20 players of the Bloodthirsty League sneered around.

“I’ll move you today.” Players of the hegemony pulled out the two-handed sword in anger, and were about to attack but were stopped by the players around them.

“Do not impulse.”

“They scold the boss like this, can I not be impulsive?”

“I forgot the boss’s arrangements. Now it is important for the Land Reclamation Guild to exercise restraint. Don’t delay the boss.”

Xiongba’s men unwillingly put away the two-handed sword, and the player who turned the black sword with an angry glance turned away.

“Haha, a group of eggs, like your boss.” The players of the Black Sword of Undead are preparing to defend, and they are more proud to see the other person put away the sword.

“Let’s go and report back to the boss.”

“The boss knows that he will be happy, maybe he will reward us.”

As the largest guild in St. Gall, and the only super guild, the boss of the black sword of the Necromancer has been very moist recently.

Standing at the head of the Fortress of Thunder and listening to the reports from his men, Black Blood laughed with his 8 presidents.

“I laughed to death, the bully people used to be like two-hundred-and-a-half thousand, and it was so cool to see our guilds. It’s so cool.” Yi Jian Hengtian laughed.

“That is, it really merged. Now we not only have our own fortress, but also become the largest guild in the whole service. After we have laid the fortress, we will build equipment according to the drawings we get. After the establishment of our golden army, we will Completely invincible to St. Gall, “said the fearless Titan.

“Hey, at that time, the Bloodlust League was afraid of our three-pointer,” said the blazing fast.

“This fortress gave 30% of the bloodthirsty alliance benefits. Our own interests have been greatly lost. I recommend waiting for the equipment to lay down the hegemonic fortress first. His black rock fortress is also a good place.” Smart Nine days said.

The crowd nodded, but Black Blood was silent.

“Why, Brother Heixue has different opinions?” Lingdong asked for nine days.

After the two previous wars, Black Blood established absolute leadership in the Black Sword of the Necromancer, and the other eight individuals obeyed the instructions of Black Blood.

Heixue thought for a while and said, “It is certain to fight the Black Rock Fortress, but in the past, each time we battled, the three parties, Late Twilight, Xiongba and Lu Yang, would merge together, which is very difficult.”

“It’s not that, their alliance is too close. It’s not a big deal to have one with the other two. Lu Yang is the most annoying. His team is small but strong, and there are endless people with special skills. “Said the blazing fast.

“Last time we competed for the Huayu Fortress, if it wasn’t for Lu Yang’s trouble, we and the Bloodthirsty League would have defeated the hero and the twilight as early as the first day,” said Yi Jianhengtian.

“If you do n’t say, I forgot. When the fortress came down, we first packed Lu Yang, and with his 10,000 people, we were not of the same level. I saw the people who beat him around our border. The levels are all just over 20, a bunch of rubbish, if it was not because of playing fortresses, restraint, I would have led people to destroy them. “Fearless Titan said angrily.

“Well, weird. Speaking of Lu Yang, his guild has recently recruited more than 20 gangs of garbage. Why hasn’t he heard any action? What is he doing recently?” Asked Lingdong Jiutian.

Black Blood looked at the crowd and found that everyone was watching him. He shook his head and said, “I’ve been busy developing wasteland fortresses recently. For restraint, I haven’t sent anyone to their territory. It’s estimated that the kid is upgrading. He has always been a rushing madman, and he has been the first place on the ranking list since he started serving. “

“Well, what’s the use of a high-level person, I really want to see him annihilated by our tens of thousands of Golden Legions a month later.” Fearless Titan said.

“Unfortunately, our nine guilds gathered together to make 20,000 sets of equipment, but now only 4 sets of drawings are printed, and day and night manufacturing can not make so much.” Yi Jianhengtian said.

This is the biggest problem of the Necronic Black Sword. The guild’s wasteland development speed is too slow, and there are not too many drawings.

“Forget it, let’s hurry up the wasteland. Several of us worked together today to fight for another lord. There are already 1,800 people with gold equipment, and the lord has killed a lot.” Smart Nine days said.

Black Blood and others nodded. Just as they were leaving, suddenly, the Golden Eagle ran over and said in a panic, “Boss, something is wrong.”

“What’s the matter?” Black Blood frowned.

“A level 50 lord monster has a level 50 lord monster on our map.” The Golden Eagle said excitedly.

“What ?!” Black Blood and the eight guild bosses looked at the Golden Eagle with excitement.

“Where is it?” Yijian Hengtian asked. With 1800 players wearing gold 30 level suits, killing lords is no longer a distant thing, even if they are level 50 lords.

The Golden Eagle said anxiously: “At Tiefeng Mountain, but when we found out, the people of the Iron Brotherhood had been robbed, and now they are being pulled by the Iron Brother Brothers to run northwest. They are about to enter their Territory, what to do ~ www.mtlnovel.com ~ The eyes of the eight guilds such as Black Blood and Yijianhengtian are all red.

“Grab, that’s a level 50 lord who can explode special items, or it’s on our territory. If the people of the Brotherhood of Iron Blood are taken away, where are we going to put it?” Yijian said.

“The Brotherhood of Iron Blood is looking for death. I don’t have to go to him to trouble them. They should burn the incense. They dared to grab things on our site and all the members assembled.” Hei Xue shouted.

Eight bosses such as Yijianhengtian and Fearless Titan immediately ran to gather the team, and the Golden Eagle was responsible for gathering Yong * ‘s team.

More than 50,000 people who had originally assembled near the fort to prepare for reclamation and upgrade were quickly assembled. Among them, there were more than 5,400 players who reached level 30, and the remaining more than 40,000 people had levels around 26.

Hei Xue et al didn’t feel that this was a trap. On the one hand, no one could think that this level 50 lord was not brushed out, but that Lu Yang and Sun Yu pulled it back to the level 50 map in 8 days.

On the other hand, no one would have thought that Lu Yang had planned in advance, only if it was a coincidence that Lu Yang took advantage first.

chapter 319 Encirclement

Black Blood said to the eight guild bosses around him: "Several big brothers, this time we go to grab the lord, it is likely to cause a head-on battle. Since we are going to fight, we have 1,800 gold-level 30 masters in our hands. He directly destroyed Lu Yang."

Yijian Hengtian and others looked at each other and nodded one after another. After half a month of development, the number of their guild exceeded 220,000, of which 150,000 reached level 20. Although they were not fully equipped, they were also real 20-level players. Not to mention there are 1800 masters of gold equipment sets.

"Today, there are more than 210,000 people in the guild. We can mobilize 150,000 people in half an hour. Lu Yang counts the Queen's servants, and the total number is 60,000. We can attack together with 150,000 people. Absolutely. Killed him in one fell swoop," said the fearless Titan.

"Hey, I do, but the Queen's Servants are southeast of our fortress, and I suspect they will attack the fortress," Yijian said.

"Don't worry, we left 60,000 people to stay on top of the fortress. The fortress stands high, and they won't be able to beat it for a lifetime." Said Nine Days.

"The two people, Du Mu and Xiong Ba, are fighting the bloodthirsty domineering. They are in the final stage. Now they have become the lord. I don't think they will take the time to help Lu Yang at this time, although we do n't have bloodthirsty domineering. Help, but our family is enough." Fearless Titan said.

Hei Xue said: "Since this, the big brothers will immediately assemble people, and I will take the 50,000 and Lu Yang to grab the lord."

"You can rest assured that we can gather up in half an hour at the most, and then I will personally take 40,000 people to help you." Yi Jian Hengtian said.

"That's it, I'm leaving." Black Blood took out the entire acceleration scroll, crushed it, increased the moving speed by 120%, and chased Tiefeng Mountain with 50,000 people at full speed.

On Tiefeng Mountain, Sun Yu took advantage of the wind wings to cool down, with 50 men constantly attacking the undead black sword players who chased them.

Fifty people are all equipped with gold, forming an attack array. These level 20 Necromancers are completely irresistible.

“Boss, will this fight scare them away, but behind the Tiefeng Mountain, we will reach the map Twilight Forest, which belongs to us.” Fengfeng asked.

Sun Yu said with a serious expression: “Don’t be careless. We all failed to talk to the boss when we failed. They all gave me 120,000 points of spirit.”

“Yes.” The crowd responded in unison, the expressions on their faces became somber.

far away.

In the evening forest, bitter lovers, Han Liu and others stood on a high ground watching one-eyed Beamon and Sun Yu and others.

“Sun Yu and the boss are really good enough, so they caught a big lord.” Said bitterly for a long time.

Han Liu said with admiration: “I really don’t know how they did it, 8 days.”

“Hey, I feel sad for Black Blood. I met the boss like a war master.” The dumb handsome guy said.

Who indulged in my life and said madly, “I just don’t know how many people will come. If there are too few people, it’s boring.”

Bitter love said for a long time: “Relax, push yourself and others. If I am black blood, I will definitely go out and probably think about destroying our iron brotherhood.”

Han Liu frowned and said, "Will it."

"I don't say it blindly, you think, the most people we dispatched before were only 10,000, and they were all just level 20 players. Who can think of this time when we upgrade wasteland?" Over 10,000 people have changed from level 20 to level 30, and the other 160,000 have reached levels 28 and 9. "

"If I was black blood, the wasteland fortress hit the drawing, a master with a gold ticket, and then look at our group of junk without the fortress level and low level, and the lord will take us to a piece." Said.

"Hey, if that's the case, it's fun."

As soon as the words fell, tens of thousands of players appeared in the distance. The first person was black blood.

A bitter bitter love sent a message to Sun Yu and said, "Come on, black blood is here."

"Okay, it's up to you."

Sun Yu's skills have already been cooled down. Looking at tens of thousands of people with a distance of 1,000 yards, he went behind the one-eyed Beamon. When the opponent was 200 yards away, he launched the wings of the wind and shot one-eyed Beamon. He ran to Phoenix Valley.

One-eyed Beamon chased Sun Yu and ran quickly.

After half-life, I saw that Bemon, a one-eyed man, ran across the road and said to Han Liu and others around him, "Let's go to us. Remember, don't be afraid of death, you must pretend to be me."

"Boss rest assured, I'm going to take the lead." The dumb handsome guy rushed out of the forest of Twilight with a set of silver equipment, pretending to protect Sun Yu and Cyclops in front of the black sword of Necromancer.

At a distance of 1,000 yards, Black Blood and the 50,000 people behind him saw the one-eyed Beimeng, which was 10 stories high, and saw that the people of the Brotherhood of Iron Blood had been pulled away again, and the people who intercepted again, Black Blood Looking back at the 1,800 level 30 men in gold suits behind him and the more than 40,000 men in the back, they raised their arms and shouted.

“Charge at full speed, kill me, destroy this bunch of trash, and take me back from the lord.” Hei Xue shouted.

“Chong.” The Golden Eagle shouted and led the team at full speed towards the dude handsome team.

The dumb and handsome guy shouted, “Brothers, the boss’s team will be here soon. We will hold on.”

In a blink of an eye, a team of 2,000 people and 50,000 people collided together. The team of dumb and handsome guys, like snowflakes falling on the palm of the hand, melted away at a speed visible to the naked eye.

The Golden Eagle killed a priest with one shot, and found that he had penetrated the blocking forces of the dumb handsome man.

“Brothers, kill. One-eyed Beamon is in front.” The Golden Eagle shouted, and led the team toward the front.

Black Blood stood in the middle of the command and saw the team’s combat effectiveness very satisfied. The commanding squadron and the rear team said, “The whole army is advancing.”

Fearless Titan stood proudly beside Black Blood and said, “It took only half a month to imagine that the fighting power of the Brotherhood of Iron Blood was so vulnerable.”

Hei Xue said: “Perhaps this is a temporary assembly, Lu Yang’s main force is still very combative.”

Fearless Titan said, “What about it, the last battle, if we played Lu Yang instead of twilight ~
www.mtlnovel.com ~ With our 30,000 people at that time, we could destroy Lu Yang’s team, not to

mention Now we have 50,000 people, and 40,000 people are coming to answer. 90,000 players above level 20 can kill the Brotherhood of Iron Blood even if they step on it. ”

The three other chairmen who followed followed laughed.

“Where is the front? Let’s be careful. Don’t miss Lu Yang’s trap.”

Hei Xue said with a sneer: “Brother, don’t make fun, you have to set an ambush for 50,000 people, at least 100,000 people on the opposite side. Do you think Lu Yang, a civilian player, has that ability?”

The crowd laughed again.

“Without Lu Yang, watching Xiongba and twilight can jump for a few days,” said the boss of the Fairview Villa, thinking wildly.

On the other side.

Xiong Ba and Chi Mu just learned the news here, but they did not panic but showed ecstatic expressions.

The game is also a society. The previous design of the two was to let Lu Yang and the Necromancer black sword fight hard, and then accept Lu Yang’s troops when they lost both.

Chapter 320 - Lightning forbidden spell-Nanfeng Zhiyi

On the high mountain on the right side of Phoenix Valley.

Lu Yang is squatting on the ground and communicating with his men. The situation on the battlefield is changing rapidly. There is a problem in one link, and all links may need to be adjusted.

“Brother, are you free?” Mu Yu sent a message.

Lu Yang asked with a smile: "What's the matter."

"Uh, I just met 2 Master Lei in the college. They know that I am a member of the Brotherhood of Iron Blood and want to join us." Mu Yu said.

Lu Yang's eyes lighted and he asked, "Of course it is good. Master Lei is a rare profession. Do they have any special abilities?"

Mu Yu said, "The Immortal Soul is a melee thunder mage. It has special skills, a universal celestial deity, and releases lightning bolts of lightning to 30 yards around it. How many people are there? How strong is it? , He has the strongest strength, and possesses the curse of Thunder Forbidden. "

"I ..." Lu Yang stood up in excitement and said, "Are you sure Nanfeng knows?"

"Yes."

Lu Yang said, "Take them to Phoenix Valley as soon as possible."

"OK." Mu Yumeng said.

Lu Yang took a long breath. If one's luck comes, he can't stop it. Nanfeng knows it. The famous Master Lei from the last generation has two forbidden spells: Thunder Thunder Prison and Tian Ming Banglei. Big skills are strategic masters that any guild must strive for.

I remember that Nanfeng of the previous life was aware of it in the Cold Moon Guild. This life was met by myself so lucky.

"Boss, look at the distance. Sun Yu came with a one-eyed Beamon, followed by tens of thousands of Necromancers," said Duo Jiu Qing Qing.

Lu anode looked at the distance. The 10-storey one-eyed Bimen strode behind Sun Yu and ran from Muyu Forest to Phoenix Valley. At 1500 yards behind Bimen, it was tens of thousands of dead spirits and black swords. Countless numbers of troops.

Lu Yang sneered and said, "Did you see that the black blood is not here to grab the lord at all, but to destroy us? This number must be at least 50,000."

Xia Yuwei said with emotion: "Fortunately, boss, you pre-emptively, if the Black Sword of Necromancer is strong, our guild really does not know what will happen."

Lu Yang smiled and nodded, sending a message to Sun Yu, "How long can I persist?"

"2 minutes." Sun Yu said.

"Very well, everyone is ready, as long as the Black Sword of the Necromancer enters the Valley of Phoenix and listens to my password, the Quartet will be surrounded." Lu Yang said.

"Yes." Zhuoju Qingli, Xia Yuwei, Sun Yu and the bitter love responsible for blocking the door answered half a lifetime.

More than 80,000 people gathered in Phoenix Valley.

Phoenix Valley is famous for its red rocky soil. According to legend, in the ancient times, there were seven decisive battles over ethnic survival. More than 10 million died on this land. Therefore, the soil here was stained. It became dark red.

1 minute after Sun Yu pulled one-eyed Beamon into Phoenix Valley, Black Blood led someone to the entrance of Phoenix Valley, watching the entrance more than 200 yards wide and the wider terrain inside just hesitated and shouted "Continue chasing, I don't believe that **** kid can always run away at this speed."

Fearless Titan grabbed the black blood and said, "Brother, this place is a canyon. Will Lu Yang ambush us here?"

Hei Xue said: "There are so many of us, afraid of what he did in ambush. He killed Lu Yang in the First World War and rushed with me."

Fearless Titan thought for a while, no longer hesitated to see the intersection so wide, nodded and followed the black blood and rushed into the Phoenix Valley.

It took 5 minutes for a 50,000-strong team to enter Phoenix Valley. At the 3rd minute, Lu Yang jumped into the field to replace Sun Yu, who had reached the skill time. He started the fiery sprint and continued to pull the one-eyed Beamon into the Phoenix. Deep in the valley.

When Lu Yang will bring the one-eyed Beamura to the preset position, the bitter love that followed behind the black blood told Lu Yang: "The black blood all entered the Phoenix Valley."

"Very good, listen to my password, Zhuojiu, Xia Yuwei, Sun Yu, and bitter love for half a life. The whole army attacked and killed the black sword of the undead." Lu Yang roared loudly.

"I finally got this moment." Zhuoju looked at the Golden Eagles striker team, which was only 50 yards away from them, suddenly jumped out of the grass and shouted, "Brothers, kill me."

"Kill ~!" The Iron Brother Brothers players under 20,000 Zhuojiu collectively stood up from the grass and raised their weapons to charge the troops of the Golden Eagle.

The Golden Eagle saw the scared eyes of countless players suddenly appearing in front of them, and shouted, "There is an ambush, and everyone is in the same place as a team."

Black Blood was not surprised to see the situation ahead. He had long anticipated that Lu Yang would send someone to intercept it, and was about to issue an order, but suddenly, shouts and kills were heard on both sides and behind.

A look at Black Blood found that not only were there enemies on the front, but also on the sides and behind, and the number was the same as the number of fronts.

In an instant, Black Blood found himself surrounded.

“What’s going on, where are so many people?” Fearless Titan asked in panic.

Facing the sudden attack and ambush, Black Blood was also in a state of ignorance. While he was thinking about what was going on, on the cliff on the right side of Phoenix Valley, Lu Yang shouted, “Brother Black Blood, don’t come Nothing. “

“Lu Yang?” Black Blood looked at Lu Yang standing behind a round of Chaoyang in surprise, and said, “What do you mean, Lu Yang.”

Lu Yang said with a smile: “Nothing ~ www.mtlnovel.com ~ Necromancer black sword treacherously broke the peace agreement, and sent 50,000 people forcibly stormed into the site of the Brotherhood of Iron Brothers. In order to protect themselves, the Brotherhood of Iron Brothers fought back. “

When Hei Xue heard Lu Yang’s words, he almost sprayed blood on the ground, referring to the landing and cursing: “Nonsense, it is clear that you and Chi Duo and Xiong Ba united in pitting me. You immediately stop attacking, or I will immediately find the bloodthirsty Batian and spirit Forever, you want to fight in guilds. We are not afraid of you. “

Lu Yang laughed and said, “Dark blood, open your eyes and see clearly. The whole valley is full of people of my brother-in-law brotherhood. None of the twilight and the hegemon’s men, this time, I want to destroy you. . “

Black Blood looked around and found that the enemies fighting in the distance were all players wearing the Jagged Brotherhood badge on their chests and said, “Impossible, where are you from so many people.”

Lu Yang said: “Black blood, you scum like you will never understand the meaning of the two words watch and help and help, today is the last time you are crazy in this game, I give you a chance, You actively disbanded the guild and withdrew from the game, and promised never to go online. I will let you leave decently, otherwise, I will kill your guild. “

After all, he had abused the black blood once in the last life, and he who killed him again was not very good at getting out of the game. Lu Yang wanted to give him a chance.
