

Wild Fire 321

## Chapter 321 - Battle of Phoenix Valley

Black blood sneered and looked at Lu Yang sarcastically and said, "Just you and these people under you want me to quit the game? Lu Yang, you are too self-righteous, and today I will let you know that this game is not you. A golden legion that can be played by a poor light egg can charge me in the direction of the landing sun. Whoever kills Lu Yang first, I reward him with 10,000 credit points. "

Around 1,800 level 30 guilds wearing gold equipment around the black blood were ready for the game, and Wen Yan immediately rushed towards the cliff where the landing sun was.

However, the moment the two sides met each other, Xia Yuwei, who was in charge of flanking defense, screamed, "Guard, destroy them."

The cold sand of the whole body of gold equipment heard Xia Yuwei shouting her name and shuddered. She took out the two-handed sword around her waist and shouted, "Kill me!"

"Kill ~!" 2000 level 30 players also wearing a full set of gold equipment, and rushed out along the cold sand.

On the front, the turbid wine shouted, "Crazy knife outside, lead the team to rush in."

"Kill." Said with a dagger draws out two daggers, and with a full set of 2,000 gold soldiers to charge towards the black sword of the undead.

With 20,000 people bitterly blocking the entrance of Phoenix Valley for half a life, he shouted loudly: "Commander Han Liu, Xi Liujun, kill me."

This is an alias given to his golden team for half a lifetime, in order to please Han Liu.

Sun Yu, standing next to Lu Yang, sent a message to the black note and said, "Lead the team."

“Look,” the black note raised his staff and shouted, “Yu Linjun, follow me.”

...

8000 level 30 players with a full set of gold equipment rushed into the team of the Necromancer Black Sword from four directions. In the face of a group of more than 20 level players, they are like crushing, and they can hack a person with three flat blades. Two skills can kill one.

The 20-level full set of silver equipment players that followed is equally brave, all of them are 28- and 9-level players, according to the level of the players of the Necromancer Black Sword is five or six levels higher, plus the ambush battle, the array Orderly and seamless.

The 50,000-strong contingent of Necromancer Black Sword fell into a hot pan like a piece of butter, and the sound of stabbing and lapping quickly melted with bubbles.

“Boss, it’s not good. Our frontal forces can’t stop the muddy wine pouring team. It will be beaten down.” The Golden Eagle ran back in a panic.

Black Blood asked with a stunned stare, “How is that possible? The opposite is just a group of more than 20 people, you are more than 20, what’s the difference?”

The Golden Eagle shook his head and said: “The enemies rushing across were all dressed in gold equipment. There were almost 2,000 players wearing level 30 gold equipment, and more than 10,000 people who followed were all wearing silver equipment.”

Fearless Titan ran back from the back and said in a panic: “Bad brother, quickly return the 1,800 gold-equipped players. We have the enemy’s main force behind us, and 2,000 level 30 gold-equipped players are blocking the way. , My team can’t beat them at all. “

Nine Motion also ran back for nine days and said in a panic, “There are 2,000 enemies with gold equipment on the side, and I can’t stand it.”

“Boss, the striker can’t stand it. The enemy who is playing against us is a level 30 full-body gold equipment. The number of opponents is more than us, and the skills are better than us. We lost.”

Black Blood was stunned, looking at the three in front of him, and said, “How is it possible, is there 8,000 players across from them who are wearing level 30 gold gear?”

Intrepid Titan and Smart Nine Days were dumbfounded, and together with the black blood looked at Lu Yang standing on the cliff.

“Not only the gold equipment, I saw that the rest of their players are wearing silver suits, many have enchantments, and their skills are very complete.” The Golden Eagle said in a panic.

Black Blood looked at the Golden Eagle and asked, “How many people are there?”

“80,000, at least 80,000 people,” said Golden Eagle.

The black blood nodded and said to the spirited Jiutian and others behind him, “It’s time for us to die. Everyone has all their family and skills. Don’t hide anybody’s secrets. Be sure to carry them with a sword.” 40,000 people came to the rescue, otherwise we lost and the fortress was lost. “

The fearless Titan and the eyes that moved for nine days changed from panic to fierce.

“Fighting with him, I will be responsible for defending the bitter love for half of my life, and will never let the team collapse.” Fearless Titan said.

“I’m responsible for defending Fu Xia Yuwei,” Smart said for nine days.

“I am responsible for defending Sun Yu on the left.” The boss of the injury association said sadly.

Hei Xue said: “I personally guard the front, everyone works together, as long as we hold a sword across the sky, we win.”

Each of them went to the front command of the army, and players with special skills each appeared in the battle.

The leader of the injury guild shouted, "Ice mage, spread the frontier positions to the winter storm and destroy their gold players."

"Yes." More than 30 ice mages came to the front and collectively used the winter storm to cover the area in front of 1,500 yards long and 50 yards wide.

The Golden Legion led by the black notes immediately suffered a lot of damage and slowed down by 50%, shouting loudly: "Pay attention to the blood for treatment, don't mess up the formation, everyone is stable."

The offensive of the Golden Legion immediately slowed down, and the enemy forces on the left tended to stand firm.

Sun Yu stood on the cliff and saw a sneer on his face when he saw the situation below, and shouted loudly: "Thunder Eagles, prepare."

The 50 Thunder Eagle shooters such as Gale were ready at the same time, and the Thunder War Eagles falling on their right arm felt the killing spirit of their masters, and their eyes flashed fiercely.

"The target enemy Cold Ice Mage and the surrounding shields and priests attacked." Sun Yu gave a shout, and the thunder eagle king standing on his right arm kicked his wings and flew high.

With the same flying 50 Thunder Warhawks dived onto the battlefield and flew over the enemy's Ice Mage Revolving.

"What is it?" A frost mage looked at the 51 Thunder Warhawks on their heads ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~. It was not good. It was the enemy's summoning beast. The shooter team came to help. Shouted a frost mage.

As soon as the words fell, the bodies of 51 Thunder Hawks showed a blue arc at the same time.

“Rayman”

Twenty Ice Mages and more than 50 defenses and 30 priests around them all hit.

“500” “525” “550” ...

A series of numbers were angry on top of their heads. When Raymond hit an enemy, he immediately jumped on the other enemy, increasing the damage by 5% per jump.

51 dark blue lightning chains formed a beautiful flower of death. Just 3 seconds later, 20 ice mages, more than 50 anti-wars, and more than 30 priests all fell to the ground.

Although Sun Yu and Blast knew the power of Ray Mang, they were shocked to see the real effect of Ray Mang.

“It’s too strong,” Gale said.

## Chapter 322 - Help

On the battlefield.

The black note was trapped in the winter storm, and suddenly felt light, and found that the ice skills had disappeared. He gave a thumbs up to Sun Yu on the cliff and shouted, "Brothers, follow me. . "

"Kill ~" regained momentum, and Sun Yu's army was overwhelmed as a whole, and the sad position fell into chaos.

Love the half-life, the drunk wine and Xia Yuwei saw the special troops of Sun Yu all startled with surprise.

"Sun Yu's Thunder Eagle is really strong."

"We are not weak," Zhuo Jiu Qing sent a message to Lu Yang, "Boss, can we use the fire method to ban the spell team."

21 fire transfer certificates, so that Lu Yang has 21 fire transfer masters, each of them learned the secondary forbidden spell under the guidance of Lu Yang-magic flame burning sky, all targets within 50 yards Deals 500 damage.

This is the basic damage. If it was a silver suit, these spell-casting mage's mana value is low and can't do too much damage, but now everyone is wearing a gold-level ash suit, and the magic damage is about 1500.

Lu Yang said with a smile: "Don't worry, you now release the curse, and there is no suspense in this war. The news from Tu Feng's men, the Necromancer Black Sword gathered at the fortress with 100,000 players, one of which Hengtian himself was rushing over to reinforce with 40,000 people, and immediately entered the ambush position of White Wolf. "

The white wolf shouted on the channel: "Brothers, eat meat and leave us some soup."

Zhuoju and bitter love laughed.

Lu Yang said: "Rest assured, my acting must be enough, don't drop the chain for me, 20,000 to 40,000, give me momentum."

The white lion said: "The boss is assured that he must wipe out 40,000 people with a sword, and then look at the Jiang Ze brothers."

Jiang Ze, Zhang Zibo, Lan Yu, and Xiao Liang, who were ambushing in Yinsong Canyon, were carefully hiding with a 70,000 troops.

"Hurry up at your speed, we're bored," Jiang Ze said.

Lan Yu said: "Relax, we will never let their dead members enter the Silver Pine Canyon."

Lu Yang was unsmiling. Who would have thought that this time he had a combat force of 170,000 people. It is ridiculous that Black Blood thought he had only 80,000 troops. If he was not to guard against the Bloodlust Alliance, it would be just two guilds. The Black Sword of the Necromancer that he could kill in one battle has no courage to resist.

While he was waiting for Tu Feng's spies to continue to report, Mu Yu ran over from a distance with 2 Master Lei.

"Brother, I'm here." Mu Yu came to Lu Yang, pointed at the male Master Lei behind him, and happily introduced: "He's an immortal soul, a very powerful Master Lei."

Ying Hun immortal looked at Lu Yang nervously and said, "Hello boss, I am Ying Heng immortal."

Lu Yang reached out and said, "Welcome to join."

Ying Hun's eyes brightened. He didn't expect the boss of the Jagged Brothers Alliance to be so easy-going, shaking hands and saying, "Thank you."

Mu Yu held Nanfeng's conscious arm and said, "This is Nanfeng sister, it's amazing."

Lu Yang looked at Nanfeng Zhiyi carefully. This is a very beautiful girl. She has long and smooth hair, exquisite facial features with a sense of fairy, and she looks very gentle on the outside. She is also very calm when she sees Lu Yang. , Sure enough, the name of the south wind of the last generation was the consciousness of the world.

Lu Yang stretched out his hand and said, "Welcome to join. Mu Yu told me before that you two agreed to sign a guild contract with me. I will definitely not treat you both. The monthly salary is tentatively set at 10,000. I will teach the simplified spell of the lightning system. Here you both. "

Nanfeng said intentionally, "Thank you."

Yinghun said in surprise, "Boss, there really is a simplified spell."

Lu Yang said: "Of course, not only ordinary spells, but also special skills, secondary forbidden spells, and forbidden spells also have simplified spells, including your two generals, the Celestial Celestial and the Thunderous Thunderbolt, the Celestial Thunderbolt, and the I can reduce the curse to 10 seconds and the curse to 30 seconds. "

Lu Yang deliberately said to the imperishable soul: "Your universal prince, I just know how to instant."

"What?" Yinghun was stunned, and asked, "My universal prince can be instant?"

The release method of the Universalization is to drill into the enemy crowd to release the spell, and release chain lightning to the enemies within 30 yards around him. How many people release as many lightnings, as many people, the lightning jumps as many times, that is, 3 Individuals have 3 lightning bolts and 3 lightning bolts jump 3 times.

This time the damage is not high, but if there are 100 people standing within 30 yards, it is 100 lightning and 100 jumps.

Even if the initial damage is only 100 points, these 100 people will definitely die, not to mention the initial damage of this skill is 350 points.

The Immortal Spirit has been worrying about his special skills. The conventional release method takes 15 seconds to let a mage drill into the enemy's position ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Unless a nearby enemy is a fool .

The British soul never thought that his skill could only be used to fight monsters, but Lu Yang unexpectedly told him that this skill could be instant.

“Boss, I even adore you so much, I will swear allegiance in the future.” Ying Hun said with excitement.

Lu Yang said with a smile: “You don't need to swear to death. Just work with me, I won't treat any brother.”

At the moment, Lu Yang taught the English soul the immortal method of simplification of the spell and the method of energy transfer, and the young man immediately ran to the side to realize.

Lu Yang came to Nanfeng Zhiyi again and said, “I teach you two simplified spells of the curse.”

Nanfeng shook his head deliberately and said gently, “Boss, I'm not in a hurry. I will use the curse to join the battle first.”

The battle in Phoenix Valley is getting more and more fierce. After all, the black blood is in the hands of 50,000 people. Even if 50,000 pigs are killed, it takes a lot of effort. Lu Yang does n't let it go. Parting the forces, the situation became glued.

“Have you heard of perimeter assistance?” Lu Yang asked.

Nanfeng said deliberately, "I know, the famous game in history."

Lu Yang said: "What I am doing now is this. I will teach you spells first, and it is probably time for you to cast them when you learn."

"Oh." Nanfeng nodded slightly.

Lu Yang told Nanfeng Zhiyi the simplified spell and taught her how to guide the spell.

The spell of the last life was understood by Nanfeng himself and was publicly posted on the official forum, so all the mages who later learned to ban the curse of thunder are grateful.

Lu Yang backed down the spell and the method of release at the time in order to confirm with the simplified spell of the fire method. I didn't expect to have the opportunity to teach Nanfeng now. It is also interesting to think about it.

## Chapter 323 - Lightning Forbidden

On the battlefield.

It's been 5 minutes since Heixue watched, and he dialed the phone of Hengtian and shouted, "How long will it take, we need support."

Yijian Hengtian crushed an acceleration scroll and said, "Brother, I took 40,000 people to the junction of Tiefeng Mountain and Muyu Forest. I promise to reach the battlefield within 10 minutes."

“Okay.” Hei Xie said excitedly: “We have successfully stopped Lu Yang’s troops here. Except for the 8,000 level 30 fighters, everyone else is about the same level as us. There is no difference. You take people to fight. , We can win. “

“I can’t think of Lu Yang’s development so fast. Fortunately, we found out in advance, since this is the case, we can’t keep him, and we completely solved him today.” Yi Jian Hengtian said.

In the grass on both sides of Muyang Forest Avenue, the white wolf listened to the words of the sword and felt tired and crooked. He sent a message to the ambush in front of the white lion and said, “The enemy’s front team has entered the encirclement and watched the team come to 40,000. It is driving. The acceleration scroll is near you at full speed. “

White Lion sent a message to his team of 20,000 people and said, “All staff are prepared and follow my orders.”

A total of 20,000 people ambush on both sides of the avenue of Muyu Forest, with 10,000 people on each side. Every 20 people are a squad, with various occupations such as anti-war, violent battle, anti-riding, punishment riding, priest, warlock and so on.

A sword running across the avenue can already see the cliffs of Phoenix Valley in the distance, just as he was content with thinking about how Lu Yang would panic when his team appeared outside the Phoenix Valley, A signal arrow ringing through the forest rose from his side.

“The whole army is charging, kill ~!” The White Lion suddenly jumped out of the grass on the right side of the avenue, raised his golden two-handed sword and shouted.

“Kill ~!” The two white tigers and the white wolf led the charge from the middle and the end, respectively.

A sword was attacked across the sky. He looked in horror at the hundreds of gold-clad enemies rushing in front of him and said, “Who are you?”

“Don’t you even know Uncle White Lion?” The White Lion raised his two-handed sword and slashed it across the sky.

“How is that possible, aren’t you in Phoenix Valley, where are so many people ambush us.” Yi Jian asked incredulously.

“Hey, don’t you see it now, we still have 20,000 people ambushing here.” The white lion launched a special attack, the lion roared, the attack power increased by 200% instantly, a holy light cut, and dealt 4 times the damage.

“6896” (Critical)

Yi Jian looked at his body in unbelievable clothes with incredible strength. He could still be dealt such high damage by his opponent. He quickly used his big tricks to restore his full blood instantly, but his magician was completely exhausted.

“Stress it, stand it for me.” Yi Jian shouted across the sky.

“Hey, you guys have no chance,” said the White Lion.

On both sides of the avenue of Muyu Forest, more than 5,000 gold equipment and violent battles and punishment knights were ambushed. This is a 5,000-person gold army that Lu Yang specially granted to the Baixi Sanxiong.

Although Yijian Hengtian’s team has 40,000 people, most of them are more than 20 players. It is impossible to resist only when facing 5,000 people. As soon as the two sides contacted, Yijian Hengtian’s team was cut to four. Paragraphs cannot be looked at from beginning to end.

In less than 10 minutes, 40,000 people were defeated by 20,000 people of the Baixi Sanxiong. The White Lion sent a message to Lu Yang and said, “Boss, we have won and are pursuing their remnants.”

Lu Yang made a strong fist and said, “Okay, good. After the chase, your entire army will enter the Storm Fortress. If you have a chance, you will fight. If you do n’t have a chance, you will stay outside. I will bring a large army to join me.”

The White Lion said, "Yes."

On the cliffs of Phoenix Valley.

Tu Feng asked: "The three brothers in the white family won?"

Lu Yang nodded and said: "It won, it is indeed the Baixi Sanxiong, 20,000 people beat 40,000 people, the win is clean and neat, and there is almost no loss in itself."

"Pretty." Tu Feng said.

Lu Yang said to the Nanfeng around him, "It's your time, put out a real curse, and boost my morale."

Nanfeng Zhiyi had just learned the simplification spell of Crazy Thunderbolt and was happy. Hearing that there were a team of 20,000 on the side of Lu Yang who had beaten 40,000 and became more excited, he immediately walked to the cliff.

Just when she was about to release her magic, Lu Yang said to Nanfeng, "Wait."

"What's wrong?" Nanfeng asked curiously.

Lu Yang replaced a set of legendary out-of-world equipment to Nanfeng Zhiyi and said, "Put it on again and put a forbidden spell."

Nanfeng deliberately and curiously changed into the strange equipment provided by Lu Yang and said in surprise: "I have 2000 injuries."

Lu Yang smiled and said, "Let's go, let me see the power of the Crazy Thunderbolt."

"Guaranteed not to disappoint the boss." Nanfeng consciously showed a touching smile, pulled away the messy hair, raised his staff, and a quaint spell came out of her mouth ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ for an

instant, Thick black clouds gathered in the sky. The range of more than 500 yards covered almost a tenth of the Phoenix Valley. Even the rising sun was covered by the dark clouds.

Both Zhuojiu and Heixue watched the sudden changes in the sky blankly.

“what’s the situation.”

“Why is such a big cloud?”

“Who’s the skill?”

No one understands what happened. People like Lu Yang’s secondary forbidden black blood and muddy wine know that the way of release is completely different from this time.

While everyone was curious, suddenly, a thick purple thunderbolt suddenly shot from the dark clouds to the ground.

“boom”

With a loud noise, a priest player in the center of the Black Sword of the Necromancer did not even have time to react and was struck by lightning.

“4086” (Critical Strike)

Priest player fell to the ground and died!

Black blood looked at the thunderbolt in horror, just to shout that the whole army was scattered, but did not wait for him to shout a word.

Tens of thousands of purple thunderbolts fell from the air like a prison railing. At this moment, the light emitted was brighter than the sun, and everyone on the entire battlefield shook their eyes.

When they opened their eyes, more than 3,000 players in the center of the Black Sword of the Undead disappeared, exposing a 500-yard-diameter rectangular open space.

“It’s our skill!” Zhuoshu shouted with excitement and excitement.

The morale of the entire Iron Brotherhood has been raised to the limit.

Lu Yang stood at the top of the cliff and shouted, “The whole army is attacking!”

“Kill ~!” Zhuo Jiu raised his sword and rushed into the enemy with the Golden Legion, shouting loudly:  
“No more effort, just kill.”

Twenty-one transfer mages who knew the secondary injunction of the fire department stood out from three sides at the same time, hiding behind the Golden Legion, saying the spell at the same time.

Chapter 324 - Go all out

After 10 seconds.

“Magic Flame” 21 people shouted in unison.

Three clouds of 350 yards in length appeared simultaneously on three sides of Zhuojiu, Xia Yuwei, and Mi Ai, and countless large fireballs descended from the sky.

For nine days of agility, the fearless Titans and Black Blood’s frontal defense lines immediately collapsed.

Black Blood looked at everything in front of him in disbelief and murmured, "How is it possible, how can Lu Yang have such strong strength."

The fearless Titan sent a message to the black blood in a panic, saying: "I can't stop it. The whole army was defeated."

"I can't stop it here either. The Brotherhood of the Jagged Brothers has changed like a man, and my troops have been destroyed."

"Hurry up for help, let the team with a sword across the sky hurry up." Said with sadness.

Hei Xue said, "We still need to add a ball. We were obviously accounted for by Lu Yang. Even if Yijian Hengtian came with 40,000 people, we could not win. I let Yijian return to the fort Or the fortress will be lost. "

The three men reacted instantly and said, "Yes, let Yijian go back in time."

As soon as Black Blood was about to send a message, Yi Jianhengtian said in the group: "It goes without saying, I'm defeated."

"You lost? What do you mean?" Black Blood asked.

Yijian Hengtian said: "Just now, a team of Lu Yang raided my reinforcements, and 40,000 people were annihilated. I was also killed. Now I am organizing troops in St. Gall."

"What?" Black Blood and Fearless Titans and others panicked.

"You are bringing 40,000 people, how is that possible?" Asked with sadness.

Yijian Hengtian said with a bitter smile: "I suspect that you are not in contact with Lu Yang's main force, what I have encountered."

“Fart.” Heixue cursed: “Lao Tzu has been banned for one curse, 21 forbidden spells, and level 30 players with 8000 gold equipment. I am not encountering what the main force is.”

Yi Jianhengtian said: “Whether you believe it or not, at least 3,000 of the enemies I met were fighters and punishment knights with gold equipment, and the rest were also equipped with silver equipment. As soon as they appeared, my team was defeated At paragraph 4, I don’t have any ability to fight back. “

“How is that possible,” said the fearless Titan in horror: “Did Lu Yang have been secretly supported by the hegemony and twilight?”

Black blood’s head was messed, and asked, “What do you mean?”

Fearless Titan said, “Drawings, he has no fortress, where are the drawings of gold equipment, where are the materials and blacksmiths, tanners, and tailor masters.”

Black looked at the muddy wine unit that had rushed to him only 50 yards, with an angry expression on his face, and said, “It must be the ghost of the two, I must find Bloodthirsty Batian to help.”

As soon as the words fell, nearly a hundred chain lightnings passed through the black blood body.

“350”

“350”

...

The total blood volume of the black blood was only 7000 points, which was directly killed by nearly a hundred 350 points of damage.

The turbid wine pours at the immortal soul standing beside the black blood corpse, and says with surprise: “You are also our guild?”

Ying Hun immortally looked at Lu Yang's escaping dagger and said with pride, "The younger brother Ying Heng is immortal, and I would like to ask for more advice."

Zhuo Jiu said with emotion, "Let's work together."

This Master Lei is also a master with the same ability as Xiao Liang. Zhuojiu casts his ground on the five bodies that Lu Yang has admired.

Xia Yuwei also saw that the British soul killed the black blood in seconds, and looked back at Lu Yang on the cliff. She really wanted to know how many secrets Lu Yang had. The sudden appearance of 10,000 sets of gold equipment surprised him. Now there is another Forbidden Mage that can release a range of 500 yards, and an invincible Thunder Mage.

"Oh, the black blood is so terribly dead. I don't even know who died in the hand." Bitter love said for a long time, looking at the distance with his neck around his neck.

Han Liu gave a bitter look for half a lifetime, and said, "You have more time to command the battle. Are you free?"

"Absolutely I'm free," he said with a smile. "Of course, as soon as the black blood dies, the battle is over. The Necromancer Black Sword has many people, but there is no team commander who can really be called a master. Dead, the rest is massacre."

As the bitter love half-life said, the death of the black blood completely lost the players of the Golden Eagle and the control system, and the command system was out of control. Under the war, the turbid wine poured out and his 2000 gold soldiers went into a state of no one.

After a while, the muddy wine pierced through the black blood team and came to the fearless Titan's back team.

"Kill me and meet with bitter love for half a life." Zhuo Jiu shouted.

"I'm going, Zhuoju. This is killing madness." Bitter love moved his body for a long time, and said, "Brothers, follow me to Zhuoju."

Intrepid Titan is struggling with all his strength. The fierce battle conditions make him careless of looking around. While he was struggling to kill a gold fighter of the Jagged Brothers Alliance, he did not wait for his greedy desire to pick up equipment, and a shouting killing sounded behind him.

"Kill ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ seconds fearless Titans." The voice of muddy wine pouring not far away.

The Fearless Titan looked back, and the Golden Legion of Muddy Wine had arrived within 30 yards of him, and in a panic, quickly ordered his men to resist.

"Hey, brother, you are my dish, don't look back." Suffering half-life with a dumb handsome guy, Han Liu and who insulted me all the time, the twilight reaper suddenly broke out and killed all the way to the fearless Titan He picked up the gold equipment and threw it to the gold-armed soldier who had just been resurrected. He then slashed his sword on the arm of the fearless Titan.

"Who are you?" Said the fearless Titan.

"Bitter love for half a life."

"I still love my life for a long time, get out of Lao Tzu." Fearless Titan cursed.

"I ..." He loved his half-hearted sister-in-law for a long time, but Han Liu blushed, but the dumb handsome guy and others were laughing.

"Don't step in, I fight with him today." The bitter love half-life is also a paladin. On the personal operation, the bitter love half-life was the famous five-person champion in the national service. It is known as the strongest paladin in the national service. , Personal strength is still above the bitter love for half a life, now being degraded by the fearless Titan, exerting his energies with full force, much like the master of the previous generation.

Lu Yang stood on the cliff looking at the desperate love for half a life and said, "That's right, keep this attitude, you can reach the strength of the previous champion sooner or later."

"Brother, do I have to use my secondary curse," Mu Yu asked.

Lu Yang said with a smile: "Not for now, we still have a war."

On the battlefield, the enemy has collapsed, and the rest is harvesting the head and picking up the equipment, but unfortunately, Lu Yang can't look down on these garbage equipment of the black sword of the undead.

Tu Feng stood curiously and asked, "Brother, the last time we hit the Black Sword of the Necromancer, the Black Sword of the Necromancer was still so powerful. Why didn't we see any development of them after half a month? "

Chapter 325 - Holy city mess

Lu Yang said with a smile: "Do you think Black Blood treats his men with the same sincerity as we do, except for the more than 100 people he carries in reality, the rest of the people upgrade he never cares."

"Do you mean they don't upgrade with large and small ones like us?" Tu Feng asked.

Lu Yang said, "Of course, not only the black blood, but also the entire black spirit of the undead. This is the case for the twilight, the male domineering, and the bloodthirsty domineering. Only our guild can do this throughout the game.

Tu Feng said confused, "Are we so strong?"

Lu Yang said, "Who made us a guild that had been oppressed and almost disbanded. Only we know how to cherish it, and only we know that it's hard to come by."

There are not many things that Lu Yang can bring out. Most of the guilds are large and small, and most of them are voluntary. If it's just for points, it's better to upgrade.

Tu Feng nodded suddenly and realized, "It seems that the strength of the other three guilds will not be much stronger than the black sword of the undead. We have won this time."

Lu Yang said: "Of course, I have never fought in a war. I will win this time. Now we will wait for the bloodthirsty people to come."

City of St. Gall.

Black blood excitedly dialed the bloodthirsty bully intercom.

The bloodthirsty bully who was killing the lord to the last moment hung three times before he turned on after the extinction, and asked unhappily, "What's the matter."

Hei Xue cursed: "What else is there, you know, I lost the fortress of Lao Tzu?"

Bloodthirsty Batian frowned, and asked, "What's going on?"

Hei Xie quickly talked about how Lu Yang used his lord to bait his 50,000 people to Phoenix Valley, how he was besieged by 80,000 people, and how the reinforcements were defeated by Lu Yang.

"Hundreds of thousands of people are in a hurry. I only have 60,20 players with incomplete equipment at the fortress. If Lu Yang leads the army to attack, my fortress will definitely fall. You must send someone to help me, otherwise your 30% share will also be Gone."

"Lu Yang actually has an army of 100,000 or more, and 30-level masters with more than 10,000 gold equipment?" Bloodthirsty Batian asked.

"I don't know. Now everything is disrupted. My news is messy and there is everything. However, all the skills he can put out have been put out by my 50,000 troops. Now you only need to bring 50,000 people. , I can definitely defeat the victory. "Hei Xue said.

Bloodthirsty Batian said: "What to do with the twilight and the tyrant."

Heixue said anxiously: "Brother, where can I still control them? Besides, how can they watch Lu Yang grow bigger? If you and I are defeated, Chi Wu and Xiong Ba must be at risk, they are both Adults will never let Lu Yang threaten them. "

Bloodthirsty Batian didn't answer, but temporarily stopped talking and told the people around the south bank of Yuema and Yuxueba and others.

"Boss, you must help with this favor. The black blood can't collapse. He is broken. Lu Yang's next goal is us." Yuxue Bawang said.

Yuema Nanan said: "The gang must be helped, but we can't do our best. The attitude of the two is unclear. We rashly attack, and we are likely to suffer from the back. At least 100,000 people must stay near the fortress."

Bloodthirsty Batian nodded and said: "That's right, the fortress is far from simple as we think. Having a fortress is equivalent to owning an inexhaustible gold mine. Yuema's south bank and Qu Han stay here. Hanjiang Xue, Can Yueyue and Zephyr each led 10,000 soldiers. I led 20,000 soldiers. Everyone returned to the city and gathered outside the west gate of St. Gall. "

"Yes." Han Jiangxue all responded.

The bloodthirsty bully sent a message to the black blood and said, "I brought 50,000 people to help, including 3,000 masters of 30-level gold equipment, and special forces all came to help."

The black blood was anxious like an ant on a hot pot. Every minute he worried that the fortress would be broken by Lu Yang. Now he was informed by the bloodthirsty hegemony, and he was finally relieved and said, "Great, I People have gathered to 60,000 people, and there are still more than 30,000 people in Phoenix Valley. It will take some time for Lu Yang to kill them.

A total of 110,000 troops, including his 1,800 gold fighters and the bloodthirsty 3,000 gold fighters, as well as a large number of special occupations, can not beat Lu Yang without black blood.

St. Gall's Square.

Tens of thousands of lights at the same time, bloodthirsty 50,000 people returned to the city at the same time, running towards the west gate of the holy city.

"Oh my god, there is another war."

"I heard that the Brotherhood of the Iron Blood is about to grab the fortress of the Black Sword of the Necromancer. The Black Sword of the Necromancer is looking for the Bloodthirsty Alliance as a soldier."

"What about the Zijin Dynasty and the Supreme Dynasty? People who haven't seen them go to help."

"It seems that they were fought by the Brotherhood of Iron and Blood alone. The two did not participate."

"Is the Brotherhood League crazy? One person challenges the two guilds."

...

In St. Gall, countless players are eating melons.

In the private room on the second floor of Fengxian Tower ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Chao Mu and Xiong Ba are sitting inside listening to the reports of their respective men.

"Brother, it looks like Lu Yang really wants to rob the black blood fortress." Chi Mu said.

Xiongba enjoyed himself and said, "How old is that kid, how many soldiers on his hands dare to grab the fortress of the Black Sword of the Necromancer, and he is not afraid to kill him."

Chi Mu said with a smile: "Maybe we all underestimated Lu Yang. Seeing that no, the bloodthirsty tyrants have participated in the battle. Obviously, the Necrosword Family can't withstand Lu Yang's attack."

"So what, with the help of the black sword of the dead spirit, Lu Yang will undoubtedly lose." Xiongba said.

Chi Mu said: "Failure is certain, but if the two of us help, it will not necessarily fail, right?"

The bully frowned and said, "Are you going to fight?"

Chi Mu said, "After all, there is a covenant. Besides, for such a good opportunity, we can ask Lu Yang for more shares. I heard that Bloodthirsty Domineering wants a 30% stake in the Black Blood Fortress. We do n't want More than 20% per person. "

Xiongba Yile said, "This is a good idea. I'm looking for Lu Yang."

Within Phoenix Valley.

There are 20,000 people left after the black sword of the undead is dead, and it is divided into many small pieces by the 80,000 people in Lu Yang. It is only 20 minutes from the end of the battle.

Lu Yang was teaching the simplified spell of the Nanfeng deliberate lightning system spell Tian Ming Beng Thunder, and suddenly received an invitation from the hegemon.

Lu Yang said to Tu Feng, Zhuo Jiu and others: "The two old foxes, Late Evening and Xiongba, finally came to me."

"There must be no peace of mind now," Tu Feng said angrily.

“I’ll see what they say,” Lu Yang said.

Lu Yang clicked to accept, and entered into a special space. This is an office-like space with a round table in the middle. Chi Du and Xiong Ba are sitting opposite Lu Yang.

### Chapter 326 - Stormwind Fortress

“Brother, you’re here,” Chi Mu said with a smile.

Xiongba didn’t speak, but with a sneer expression on his face.

Lu Yang asked, “What are you two looking for?”

He later said with a smile: “My brother did a great job to attack the fortress of the Black Sword of the Dead.”

Lu Yang spread his hand and said, “No way, you both have a fortress. I don’t have one yet. I won’t fight by myself. Is anyone sending me?”

Xiongba said impatiently: “Don’t stop talking nonsense, Ming people don’t talk nonsense, Lu Yang, now Bloodthirsty Batian takes 50,000 people to help, I will ask you if we need help.”

“No need,” Lu Yang said.

Xiong Ba and Chi Mu looked at Lu Yang in surprise. They both waited for Landing Yang to say the words need, and then they extorted Lu Yang with a condescending attitude, but did not expect that Lu Yang said that it was unnecessary.

“The bloodthirsty bully took 50,000 people. There are 3,000 players in the 30-level gold suit and his special professional team. After half a month of development, his strength has been very strong.” Twilight said.

Xiongba said: “There are Beifeng City and Hannibal City. Bloodthirsty Batian has found fortresses outside these two main cities, and his division is already in the wasteland fortress.”

Lu Yang sneered and said, “So what?”

Chi Mu said with a smile: “Oh, it’s not obvious yet. The strength of Bloodthirsty has become stronger and stronger, and the soul is eternal. He has occupied three fortresses outside the Sea Emperor City. Strong, they are still allies, if the three of us come together, they may not be able to defend. “

Lu Yang already knew the eternal power of the soul and what the bloodthirsty domineering was doing, otherwise he would not attack the black sword of the dead spirit now, just to prevent three powerful enemies in the future.

“So what are your opinions?”

He took a glance at the bully, and he said politely to Lu Yang: “We will help you lay the fort, but you have to give us 20% of the shares.”

Lu Yang looked at the faces of the two men and sighed. He never thought that the two were so realistic, and at this time he still bargained with himself like this.

Chi Mu said: “Brother, you are not disadvantaged, but we have sent tens of thousands of people to help you beat the fortress, otherwise how can you beat it with your little person, and how to keep it in the future.”

Lu Yang shook his head, stopped when he wanted to leave, and said, "For the sake of being an ally, I will give the two of them a better choice. You will join me in killing the black sword and bloodthirsty. I won the fortress and won it alone. When you need to grab another fortress in the future, I will definitely send troops to help, and do n't need anything. "

"Ha." The tyrant sneered and said, "Impossible."

Lu Yang looked at the old man at the twilight and found that the twilight was also smiling and not talking. Lu Yang shook his head and said, "Since this is the case, the two are precious. If something goes wrong in the future, don't ask me."

After speaking, Lu Yang withdrew from the special space.

"I'm here, please, joke." Xiongba said arrogantly.

"Before we could win the bloodthirsty, we rely on us to come to Fake Huhuwei, and really treat ourselves as a character." Chi Mu said, shaking his head.

"Let's go, even if the fortress is gone, he'll have to ask us for a while, how about sharing his people then," Xiongba said.

"Right on my mind."

Phoenix Valley.

Tu Feng saw Lu Yang return and asked, "What did the two old guys ask you to do?"

Lu Yang said with a sneer: "Come and Xiongba told me and asked me to give them 40% of the fortress, and then they sent troops to help fight the fortress."

"What," Tu Feng said with a frown. "I always thought that hegemony and twilight were personalities, how could this happen?"

Nanfeng said deliberately, "Money is moving."

Lu Yang said: "That's right, they thought that with the bloodthirsty 50,000 people we lost, this time I want to let everyone in St. Gard know that in the future St. Gard, our iron brothers The Alliance has the final say. "

"Jiang Ze, the 40,000 people who were killed by the Black Sword of the Necromancer and the 50,000 people of the Bloodlust League are gathering at the West Gate of St. Gall, and they will be there soon." Said.

"Waiting for them," Jiang Ze said.

"Be careful, there are 1,800 30-level gold players in the Necromancer, and the Bloodthirsty League has 3,000 gold." Lu Yang said.

Jiang Ze said: "It's just this person, Xiao Liang is enough."

Lu Yang said with a smile: "Yes, I only give you an order and hold on for 3 hours. I have half an hour to end the battle. Then I will lead a soldier to attack the fortress and destroy the 60,000 people on the fortress. , I'll help you. "

Ending the call, Lu Yang sent a message to Zhuo Jiu and others, saying: "To speed up the battle, we must destroy the enemy within half an hour. Bloodthirsty Domineering brought 50,000 people."

"Yes." Zhuo Jiu and Xia Yuwei and others responded in unison, the battlefield has come to an end, and the people attacked even harder.

On the other side.

Storm Thunder Fortress City Head.

“Mages, mages who will attack in groups.”

“Hunter, keep dropping flares down, and definitely can’t stop.”

...

The swift death is finishing the team desperately, all the main forces of the guild are trapped in the Valley of the Phoenix with the black blood, and the supporting troops are defeated by the three males of the Bai family. It only takes 30 minutes from Phoenix Valley to Fenglei Fortress.

The fast death is really afraid that Lu Yang will come before the black blood and bloodthirsty domineering. At that time, how can his 60,20-level garbage can stop Lu Yang’s 100,000 army.

Just as he was worried, the Thunder Fortress was 30 yards away from the four gates. Each gate had more than 10 stealth thieves, and each of them had the Iron Brotherhood badge on their chests.

Three of them were white wolves, white tigers, and white lions who had taken stealth potions.

“Hey ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I thought that there must be a group of elite soldiers standing on the fortress of Wind and Thunder. I didn’t expect such a group of garbage that had just passed the 20th level. A large part of silver equipment was only five or six. Said the Lion.

“Brother, I have an idea,” White Wolf said.

“What’s the idea,” the White Lion asked.

“How about we attack the city ahead of time. We won the fortress before the boss and gave the boss a meeting gift.” Bai Lang said.

Bai Hu said: “That’s a good idea, I agree.”

The White Lion smiled and said, "I also agree. It is too easy for us to lay a fortress on the other side of the defense."

"How to fight," White Wolf asked.

"I've seen it. The opposite side gathered the most troops at the Beichengmen. In this way, Baihu and I attacked the North Gate with 15,000 silver troops. You took the 5000 gold army around the South Gate and listened to my order. Offense," said the White Lion.

"That's a good idea. We laid the fortress in World War I and made a gift for the boss." Bai Hu said.

## Chapter 327 - City break

After the three brothers discussed, a complete strategy was set.

After 10 minutes.

Just as the rapid death of Fengcheng Fortress was commanding the city guard, all of a sudden, a player shouted, "It's not good, the members of the Jagged Brothers Alliance are here."

The swift death slaps a whole body and hurries to the city head and looks into the distance.

In the Eversong Forest, 1000 yards away from the fortress, countless players walked out of the forest, and there was a black one.

"Shooter, the flares are continuously released in the 30-yard area below the city, and the mage who can use the fire wall skill establishes the fire wall, and everyone is ready for battle." Shouted the death.

There are only 20 mages who can use the fire wall technique, and they started to set up a fire wall on the head of the city. Unfortunately, the number of fire fighters is too small to form a large area of fire.

The White Lion sneered and said, "I just want to stop us, the first echelon, and rush."

"Kill ~!" Bai Hu went into battle, shouting with 5,000 people straight into the fortress, of which 1,000 were shooters, 1,000 were magicians, 1,000 were shield battles, and the remaining 2,000 were priests and knights.

According to the rules of the game, the only way to break into the fortress is to break the gate. The White Tigers' Shield team first goes up and rushes to a position within 30 yards downstairs.

"Output, hit me, you must not let them get close to the gate." Shouted Death.

There are 20,000 Necronic Black Sword players on the North Gate. Among them, there are only 8,000 Mage and Archer together, and the level is just over 20.

They have never experienced such a war. They saw Bai Hu 's 1,000 shield battles all rushed into madness and vented various skills to the team of White Tiger. They did not think about going to kill the pastor team in the past. Kill these gang wars without stopping.

The blockbuster magical damage falls under the city, and the fast death is very satisfied. However, after playing for more than 10 seconds, the fast death finds a problem and no one is killed!

A team of 1,000 people has come under the tower and started to attack the gate.

"Give me all the output, don't you wear any equipment?" The scream of excitement screamed quickly.

"Boss, we did our best."

"Strange, how can I have a quarter of the damage before, their armor is wrong."

“What’s the matter.”

...

Where do the people on the city know? This group of 1,000 shield wars who rushed to the forefront not only opened the iron wall skills, but also each person had the holy seal attached to the Paladin.

50% of the damage suffered by the soldiers will be absorbed by the Paladin with the same seal of life. The 1000 shield battles standing in front of them are taking damage, and there are 1,000 knights taking damage behind the white lion’s team.

Overall, only one-fourth of the damage the shield battle at the forefront suffered after removing the magic resistance and armor was really suffered.

The White Lion looked at the situation under the city, and said to the killer, the Seven Killers, “I knew that I would let the third brother fight from the front, and using this strategy with the people on the city’s head would waste my brain cells.”

The Seven Kills said: “I can’t imagine that the black blood left such a waste of people who used to watch homes. This fort is our brothers’ union.”

Bai Shi smiled and sent a message to Bai Hu saying: “Second brother, go all out to attack and fight to break the fortress’s main entrance. We rushed in and let the third brother run for nothing.”

“Hey, that’s a good idea.” Bai Hu shouted back to the mage and the shooter team: “Offense, suppress the attack on the city head.”

1,000 shooters and 1,000 mages came to a position 15 yards below the city and raised their weapons to attack.

Countless magic and bows and arrows flew up to the city head, and in a blink of an eye, the city head was cleared out of a large open space, and the pressure on Bai Hu and others was suddenly relieved.

Fast death stood on the second-level high platform, seeing his own death and injury, and shouted loudly: "Hit the back and blind your eyes. You know that you are playing the shield battle in front, and the back are all crusty mages and shooters. Take them first Kill me, kill me all. "

The players on the city's head were already dozed off at this time, and they didn't respond at all, and they didn't notice the scream of the fast death team. Even if they were attacked by the city, their goal was still shield battle, for fear they would break the tower.

The swift death saw this group of players not knowing what to do, and he was so mad, but he could n't tell the men one by one. After thinking about it for a long time, he sent a message to the subordinates on the left and right sides and guarded the back door and shouted, How's it going."

"Everything is fine, there are no problems," said the gatekeeper on the east side.

"Everything is fine, there are no problems," said the gatekeeper on the west side.

"Everything is fine, there are no problems," said the gatekeeper on the south side.

The swift death was relieved, and he looked at the White Lion's team again, and found that there were only more than 10,000 people in this group. He understood that these people were led by Bai Shisanxiong who defeated the rescue team with a sword.

"20,000 to 40,000 can win, and the remaining combat power will not be too strong. There should only be such a little person." The swift death muttered to himself: "It seems that they have no ability to divide the troops."

Quick Death sent a message to the captain on the south side of the gate and said, "Bring your 10,000 troops to support."

"Yes." The leader of the South Gate raised his arms all night and shouted, "Wushuang took 500 people to stay, and the rest went to the North Gate to support me."

Ten thousand people rushed towards the north gate along the wall on the right.

In the forest 1,000 yards below the city tower, the white wolf hid behind a big tree, watching the far-off city wall guards, sneering and saying, "It really is a group of black people."

He sent a message to White Tiger and White Lion, saying: "The people at the South Gate have already rushed to the North Gate. Be careful."

"Hey, younger brother, you need to be faster, brother, I'm going to break through the gate." Bai Hu said.

"I'm dizzy ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~" said White Wolf: "Are they so crap? "

"The elder brother's troops did not move. I, the 5,000, suppressed them and sent troops. The gate blood was too thick. Come on." Bai Hu said.

"I'll wait another two minutes, and wait for them to run away." White Wolf said.

The dialogue bar was closed, and the five captains under the White Wolf's opponent said, "After 2 minutes, everyone will be ready to attack."

"Yes." The five captains arranged their own deployments. Many, two minutes later, White Wolf waved and shouted, "Brothers, attack me."

"Kill ~!"

5,000 soldiers and paladins stood up from the grass collectively, and raised their golden two-handed swords and rushed out of the forest.

The 500 guards sitting on the tower thought that there would be nothing to do. Just as they were curious about the situation in front of them, a scream of killing in the distance sounded.

The team leader's unparalleled glanced up at the golden light beneath the tower, he said in shock: "It's over, the fortress has been lost."

#### Chapter 328 - Fierce white wolf

The white wolf rushed under the fortress first, and found that the opponent did not attack the first time. He took out a set of Mafei Suo and threw it onto the city head. He hung it on the female wall and climbed towards it.

"Climb up without hitting the gates," shouted the white wolf.

"Yes."

The 1,000 people around the white wolf each took out a set of horses from their backpacks and threw them onto the city head. The 30-yard wall was very easy to climb, and 1,000 people quickly climbed towards the city head.

"Can't let them go up to the city wall, attack quickly," shouted Wushuang of the Necromancer.

More than 10 consecutive spells hit the white wolf, and more than 20 blood-adding skills also fell on the head of the white wolf.

"The Paladin added blood, and the soldiers rushed up with me," shouted the white wolf.

The white wolf did not expect that Wushuang dared to fight hard with himself, was outraged, and roared to speed up the climb.

After 10 seconds, the white wolf jumped up to the city head first, just landed, and saw the soldiers and knights rushing in front of him.

"Furious Cyclone Slash"

The white wolf launched a nirvana for transfer, and his body spun in a spiral form. The white wolf had an attack power of more than 1,900, with whirlwind damage. The enemies who rushed over were killed without even resisting for 3 seconds. On the ground.

After the white wolf spins, he finds the commander of the black sword of the Necromancer. He sees that he is directing the mage and the shooter to attack himself. The white wolf sneers, stops the whirlwind and jumps to the second floor to avoid a spell injury. On the same platform as Wushuang.

“charge”

The white wolf roared and rushed towards Wushuang. During the charge, the white wolf raised his two-handed sword, and the entire sword body was accompanied by a layer of flame.

“5600” (Charge + Flame Slash)

3.2 times damage directly slashed Wushuang to the ground.

On the other side, the rushed 1,000 gold soldiers also played with the rest of the undead black sword team. Soon, these 500 people were killed.

“Happy, it’s so cool to kill.” Hai Lanzhi, the head of the first regiment, said.

The people who followed the city wall laughed.

“What is it?” Bai Lang said disdainfully: “Open the gate, everyone will follow me to the wall, we kill the North Gate, where there are 50,000 people waiting for us to kill.”

“Yes.”

The heart of the sea blue personally took 20 people to open the city gate switch. The gate made of bluestone rose slowly. Just over half a person tall, 4,500 gold soldiers and paladins rushed into the fortress, followed the walls on both sides to the city wall. .

The white wolf looked at him and shouted, "Brothers, follow me!"

5000 people rushed to the east wall from the south of the fortress.

The fortress wall of the Wind and Thunder Fortress is 50 yards wide, because after the establishment of the fortress, it is necessary to place a large garrison catapult and crossbow, so it is particularly wide.

White Wolf's 5,000 people advanced in a row of 80 people.

Players staying at the West Gate have been worried about the situation at the North Gate, but the news of the North Gate did not wait, but the news of the South Gate breaking came.

"Get ready for defense," shouted Furong Yue, the head of Simon.

As soon as the voice fell, he had just reached level 25. When he was in full silver gear, he could see the white wolf army who came over the corner.

5,000 soldiers and paladins are all neat 30-level gold suits, holding 30-level gold weapons in hand.

At a distance of just 30 yards, the Heart of the Aquamarine and 80 fighters collectively started their charge skills.

“嘭”

“嘭”

...

The sound of heavy armored soldiers slamming into heavy armored defense was endless.

Both sides are equipped with steel equipment. If they are the same level and the same equipment, violent warfare can't beat the defense. However, there are more than 20 levels of silver equipment on each side, and 30 levels of gold equipment on one side.

As soon as he made contact, he stood upright.

The front line of the Necronic Black Sword was blocked by the defense team that did not hold back for 5 seconds.

“Kill.” The heart of the sea blue launched a violent whirlwind, and 10 other fighters who also learned transfer skills, like 10 level 10 tornadoes, swept through Furong's position. All enemies encountered on the way were killed by the whirlwind. .

White Wolf glanced proudly at his masterpiece. The ten violent fighters were not the transfer certificates given by Lu Yang, but the methods that the three white brothers themselves found, which were specifically used to crack the opposing shield battle.

Seeing that the opponent's shield battle had been wiped out, the white wolf raised his two-handed sword and shouted, “The whole army is charging.”

“kill.”

If you look down from a high altitude, you can clearly see that Furongyue's rectangular positions are quickly submerged as if the beach encountered the rising tide.

In just 10 minutes, all the undead black sword forces of the entire West Wall were killed without leaving the armor.

The white wolf shouted, “Everyone rested for 2 minutes, and the Paladin resurrected his dead comrade.”

“Yes.” His men answered loudly.

A sacred light lit up, and the dead player was rescued and quickly sat on the ground to recover blood.

Two minutes later, the white wolf shouted, "Gather."

5,000 people return to the team, the lineup is neat, and everyone's desire to fight is getting stronger and stronger.

The white wolf said, "Target North Gate, follow me."

North city gate.

The war situation has entered a fierce heat.

After the full-time command of the swift death, the Necronic Black Sword on the North City Gate has the ability to gradually counterattack ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The mage and archer on the city wall no longer focus on the defense and riding under the city. It was against the White Tiger's shooter and mage army to release the skills, and the subsequent treatment was no longer a random addition of blood, each with its own goal.

Seeing that the war was gradually stabilized, the speed of death was getting more and more anxious. The city gate was about to be broken in another 20 minutes. The dark-blooded team was far away more than an hour away, and Lu Yang's main force is coming.

Just when he was pretending to be calm and didn't know what to do, Furong Yue dialed his phone and shouted, "Boss, the West City Wall was captured. A team of 5,000 people in Lu Yang who are all equipped with gold equipment" We are attacking towards the north gate, and we cannot stop it. "

"Fart," blurted out quickly, cursing: "Where did Lu Yang's 5,000-person gold unit come from, all his gold units are in Phoenix Valley?"

Furong Yue said anxiously: "I still lie to you at this time, my troops have been completely killed, and 10 minutes more will be able to reach you, you must think of a way."

The quick death smiled helplessly. If there were indeed 5,000 enemies with all 30 levels of gold equipment, the 30,000 people in his city were just a plate of dishes in the other's mouth. Eat whatever you want.

When he was confused, not long, the white wolf with the entire acceleration scroll appeared from the corner.

“It's really a gold equipment at level 30.” The blazing death said blankly.

“Boss, what should I do?” Asked in panic all night.

The swift death stared at the white wolf with hatred and drew out a dagger, saying, “The team of Black Blood and the Bloodlust Alliance is already on the way to support. We can do everything. The rest is to fight. You take the army. Stand up, I'll call Dongchengmen for support. “

Chapter 329 - Lay the fort

“Yes.” Nodded all night and agreed to turn around and shouted to the men behind him, “One and two regiments come with me to stop the enemies that rushed over.”

Ten thousand people quickly followed the night to the North City Wall, forming a line of defense in front of the White Wolf team.

The white wolf looked at the crowds forming a defensive position in front of him, raised his two-handed sword and shouted, “Rush, a wave will defeat them.”

“Kill.” At a distance of only 30 yards, White Wolf took the blue heart and waited for 10 transfer fighters to draw a spear from the backpack at the same time.

“Wrath of God of War”

The ten spears glowed red, and the white wolf shouted, “Charge and throw.”

At the moment when the charge skills were launched, the white wolf’s body pulled into a bow, and he threw it vigorously, throwing the crimson spear in his hand.

“8498” (3 times critical strike + 1.5 times critical strike)

The top 10 anti-battle blood with the iron wall skills at the top are only 8000 points, and 10 people are instantly killed.

The moment the white wolf threw his spear, he changed the suspended charge skills to interception, raised his two-handed sword with the heart of the blue sea and waited for someone to crash into the enemy position. The wolf stepped on the shield.

“jump”

This is the third skill learned after the transfer of raging battles. It can jump forward 5 to 40 yards. If you cooperate with the charge, you can jump 60 yards.

“Cleave”

After 60 yards, the white wolf jumped into the middle of the priest group of the second line of defense formed all night, and landed a sword to slay only the priest with more than 1,700 blood.

A 30-level full-body gold equipment and weapons that hurt more than 1,800 violent battles entered a group of priests who had just 20 levels of health and only over 1,700 priests, like wolves entering a flock.

“Arc Moon Cut”

The white wolf swept a sword with 300 damage.

“1706” “1777” “1798” “1806” “1801”

Five priests fell in response.

The backhand was another Arc Moon Slash, killing 5 more priests.

“Boss, leave me some space.” Hai Lanxin just landed with the remaining 9 violent battles. In a blink of an eye, the priest group was killed by more than 50 people, and the rest of the priests and mages fled.

The white wolf grinned, pointing to the city gate not far away and said, “We are more than one, and when we kill the city gate switch, who kills more people.”

“I’m afraid you can’t do it.” Hai Lan Heart’s sword swept across and 5 other priests died. As one of the 224 masters hired by Lu Yang, Hai Lan Heart’s method is only one line weaker than Bai’s three males. Can’t beat him, is the most proud assistant and brother of the white wolf.

“It’s messy, it’s messy, it’s completely messy.” He looked at the ten violent battles that rushed into his hinterland all night. How could he never imagine that the other party had 10 transfer occupations, and that these 10 people were still brave enough. Dare to break into the hinterland of his team like this.

“Kill them, kill them first.” Shouted Death.

At a glance, the white wolf saw the swift death, and the cooldown time of the jumping skill was only 30 seconds. After the cooling was completed, the white wolf gave the sea blue heart and others a look.

Everyone understood at the same time.

“jump”

At the same time, 10 people launched their jumping skills while charging, and jumped to the second floor of the fortress.

“Cleave”

The white wolf slashed at the speed of death.

The swift death has been guarding the white wolf, seeing the other rushing over, a backflip dodge, raised his hands and rushed towards the white wolf.

Speedy Death is also a gold-level equipment at level 30, transferred to become an assassin, plus more than 100 people on the podium, he did not believe in killing the undead white wolf and his 9 people.

The white wolf thought that the swift death will run, saw his rushed up, his eyes brightened, and raised his two-handed sword to fight against it.

At the moment when the sword and dagger of the two sides fought, the white wolf suddenly turned around and turned sideways against the body of the swift death. After avoiding the attack of the two daggers, the white wolf held the sword against him, with a long flame The sword was inserted directly into the back of the swift death.

“8868” (Flame Slash + Critical Strike + Charge)

This is a set of fighters’ killing combo skills, and it is also a famous stunt of White Wolf in the last life. The way of charging is not to rush fast, but to launch the charging skills in an empty space. At the moment of launch, the system is used to determine the promotion. 1.5 times damage.

What can do this was less than 10,000 people in the whole world in the last life, because the charge was too fast. At such a short distance, it was necessary to launch the charge and hit the opponent’s neck. It was almost impossible things.

“Pretty.” Hailan Heart and other violent battles roared at the same time, how could they never have thought that White Wolf had such a trick to kill.

The white wolf was also stunned. The attack just now was a method he had come up with temporarily, but he did not expect it to succeed.

“Boss, you are so handsome.” Hai Lanzhi said.

The white wolf laughed and said, “I feel pretty handsome too.”

Downstairs.

White Tiger, White Lion, and others have seen how White Wolf used this trick to solve the rapid death, and the entire Baijia Army fell into madness.

The White Lion originally thought that the White Wolf would turn on the city gate switch immediately after playing. After seeing this boy scratching his head, he laughed, and covered his face with a word, and sent a message to the White Wolf, saying, “Brother, so many people watching What about you, hold on, hold on a little bit, and quickly open the gate. “

“Er.” White Wolf turned his head and looked down, and found that the position of the city gate tower could just be clearly seen from below. White lions and white tigers and more than 10,000 people looked at him. Shouted: “Kill everyone, open the gates.”

“Kill.” Sea Blue Heart and others were so aggressive that they charged towards the remaining 200 people, while the slain slain men were all slain. The boss with transfer skills or full-body gold equipment let the other side give the sword a second Now, this is a blow to their confidence. Suddenly, the entire defense line collapses.

White Wolf took the opportunity to come to the city gate switch and press the door open button.

“Crack ... creak”

The sound of the noose pulling the boulders made it clear to the white tigers and white lions underneath the city tower ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Especially when the city gate was gradually rising, Bai Hu shouted, "The city gate is open, The door opened. "

The White Lion raised his two-handed sword and shouted, "The whole army is charging."

The morale of the entire legion increased to the top, and in accordance with the previously assigned attack sequence, the teams rushed madly towards the city.

The Dongchengmen troops who rushed over to reinforcements just arrived at the Beichengmen and met the White Tiger troops that rushed up.

"Chong, destroy this group of grandchildren." Bai Hu shouted, and the first rushed into the enemy's army.

Dongchengmen's troops are holding the purpose of defending the city. The mage and the shooter are at the forefront. Facing a group of violent battles and close-up attacks of punishment riding, they are killed and injured in an instant.

When the White Lion entered the city, the battle was basically over, and the rest was only massacred. He dialed in the speaker of Lu Yang and said, "Report the boss, the fortress has been broken by my three brothers in the Bai family."

### Chapter 330 - Battle of Silverpine Canyon

Lu Yang had ended the battle in Phoenix Valley, and was leading his team to the Fenglei Fortress. After hearing this, Lu Yang couldn't help laughing, and said, "Okay, I know. After clearing the enemy, we will head to Yinsong Canyon."

Shutting down the intercom, Lu Yang stopped and raised his hand to signal the army to stop moving forward.

"What's wrong?" Xia Yuwei asked.

Lu Yang said with a smile: "Bai's three males have captured the Storm Fortress."

The turbid wine pouring and others were very surprised.

"Twenty thousand to sixty thousand, or siege wars, so they all won?" Tu Feng asked.

Lu Yang smiled and nodded.

"These three boys are really too strong." Zhuo Jiu said indignantly.

"It won't work like this. The first effort has been taken by the three brothers of the Bai family. Boss, we have to fight too." Mao Qiu said.

Lu Yang said with a smile: "The next thing you fought, the whole army changed course, we headed east, merged with Jiang Ze, and battled against the Bloodthirsty Alliance and the Black Sword of the Necromancer."

"Hey, it's a good fight." Who said madly in my life.

Zhuo Jiu and others immediately gave their orders to the team, and 80,000 troops reversed their direction and headed towards Yinsong Canyon.

Lu Yang sent a message to Jiang Ze and asked: "How is your side, the fortress has been beaten down by me, and I will rush to reinforce it."

"Good job," Jiang Ze said. "My spies report that the forces of the Black Sword and Bloodlust Alliance will not reach Yinsong Gorge for five minutes. Do n't worry, they will never pass by me. . "

"Okay, hold on for an hour, and I will bring a large army to support it," Lu Yang said.

Turning off the intercom, Lu Yang watched the team ready and took out all the members who had bought the system from the system to accelerate the reels. After crushing it, he led the team towards the Silver Pine Canyon.

Outside of Silverpine Canyon.

Black blood kicked angrily on the big tree next to the forest, cursing: "What do you eat? 60,000 people can't beat 20,000 people."

"Fart, you're a waste, a thoroughbred waste."

"I'm not just scolding you, you \*\*\*\* wait for me, I'm killing your whole family, you'll immediately bring me 60,000 people over here."

...

Bloodthirsty looked at the black blood and ended the call, frowning and asked, "What's wrong?"

Black blood gritted his teeth and said, "The fort was lost."

"What." Bloodthirsty Batian said in surprise: "How could it be, how could Lu Yang be so fast."

"It's not Lu Yang's big army, it's the army of 20,000 White Lions responsible for intercepting the sword." Hei Xue said.

The bloodthirsty bully was happy, and said, "60,000 people defend the city, and 20,000 people have been defeated?"

"I'll take it back." The dark blood on his face was full of shudder, and he turned back and shouted, "The whole army accelerated."

The bloodthirsty bully shook his head and scolded his heart. It was really a group of black people, but he still shouted: "The bloodthirsty army marches faster."

The first batch of 90,000 dead Negro swords returned to St. Gall, and Bloodthirsty took 50,000, and more than 140,000 players ran towards Yinsong Canyon at full speed.

Silver Pine Canyon.

Famous for the silver pine trees in the canyon.

On the right side of the canyon is a large river, and on the left side is a dense silver pine forest. The entire canyon is very wide. The widest place can accommodate 1,000 players walking side by side, and the narrowest place can also accommodate 200 people.

Jiang Ze's 70,000 troops ambush above the 200-person narrow dirt slope. Behind the dirt \*\*\*\* is the exit of Yinsong Gorge and the Troll Hills of Mapingchuan.

Jiang Ze looked at Lan Yu, Hei Yan, Zhang Zibo, Xiao Liang, and the Rogue of Light and Dark and said, "The news just received, the president annihilated the 50,000 main forces of the black blood, and the three males of Bai's defeated 40,000 reinforcements. It was 20,000 to 60,000, laying the Fortress of Thunder. "

"Awesome," Lan Yu said.

"We won this time," Zhang Zibo said.

Jiang Ze said: "The win is the win, but now Black Blood is doing the final counterattack. According to the news, he personally took 90,000 people, and borrowed 50,000 people from the Bloodthirsty League. A total of 140,000 people are approaching us. "

"Brothers, all the legions have won, and we must not lose here, otherwise we won't be able to raise our heads in the guild in this life. For our honor, we must stop the black blood and bloodthirsty bully this time, boss. Already on the way, as long as we persist for an hour, we will win this battle. "

Hei Yan said: "With our strength, there is absolutely no problem in holding."

"Hey, I have long wanted to kill Bloodthirsty Domineering myself, and finally have a chance this time."  
Xiao Liang said.

"For the Xia Yuwei, our guards fought." The light and dark thieves shouted together.

Jiang Ze said: "Okay, my plan is that the people of the Necromancer and the Bloodlust Alliance must not know that we have an ambush here. In this case, let's hit them first. What about it?"

Lan Yu, Zhang Zibo and others looked at each other and nodded, "Good idea."

"That's it." Jiang Ze made specific deployment arrangements with a smile.

Not long.

Black Blood and Bloodthirsty Bold took 140,000 people to the exit of Yinsong Gorge. Looking at the distance of only 50 yards in front, Black Blood shouted, "Accelerate the march."

The entire 140,000 troops have been pulled into a triangle by the Grand Canyon, but the inside of this triangle is very chaotic.

Black Blood looked at Taniguchi in front of him and said, "Fortunately, Lu Yang has only 100,000 troops. If he deploys 20,000 people in Taniguchi, our formation must be defeated."

Bloodthirsty Batian said with a sneer: "It is already a miracle that Lu Yang can gather 100,000 people. How could there still be people, hurry up and go out of Taniguchi and regroup."

The speed of the two armies ran faster ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ At a distance of 30 yards, the forces of the Necromancer and the Bloodlust Alliance had seen the wide field and bright sunshine outside the valley.

But just then.

“Brothers, kill ~!” Jiang Ze stood up from the top of the hillside, holding his deathbringer’s two-handed sword forward with his right hand.

Zhang Zibo and the light and dark thieves personally rushed down the high ground with 5,000 melee occupations.

“This is the opportunity to join the Queen’s Guard, this time, brothers fight!” Bai Hong shouted, looking up at the shimmer.

The first members of the Queen’s Guards who rushed out fell into madness. Although they did not have gold equipment, although they did not reach level 30, their bravery made the black blood and bloodthirsty hegemony in a panic state. The troops were terrified.

The vanguard of the Bloodthirsty Alliance and the Black Sword of the Necromancer have been messed up, and there are various occupations. They are crowded in a small space that can only accommodate 200 people side by side.

As soon as the two sides came into contact, the Queen’s Guards, like the tide, drowned the forces of the Necromancer and the Bloodlust Alliance.

Chapter 331 - Heat up

Black blood stared at the countless players rushing forward, and said in horror, “How is this possible, how is this possible.”

The bloodthirsty bully also panicked and said, "Where did these people come from, how could Lu Yang still have so many people."

"Is it late twilight and hegemony? It must be these two bastards, it must be them." Hei Xue cursed.

The bloodthirsty Domineer responded and said, "Defense, organize defense quickly. I can't control that much now. Hold my ground first."

The black blood also responded, shouting loudly: "One sword across the sky, fearless Titan, you two take the troops to the top and keep it for me."

Fearless Titan and Yijian Hengtian immediately formed a team, but the crowd at the entrance to the canyon made them unable to charge at all.

The Bloodthirsty Batian looked at the situation in front and secretly rejoiced. Fortunately, his troops were all in the rear, otherwise he could not do anything about it.

City of St. Gall.

Xiong Ba and Chi Mu are looking at the situation on the square in Fengxian Tower. The two want to use this method to calculate how far the war between Lu Yang and Hei Xie and Bloodthirsty Batian has progressed.

"Brother, why do you say that Lu Yang is fighting with Bloodthirsty Batian and Black Blood at the same time, and not yet come to us?" Chi Mu asked curiously.

"Pretend, I thought I won two battles and received more than 50,000 people. I was invincible. Look at it. The blood-thirsty and black-blooded gold troops are on the field, and Lu Yang's troops should die in large numbers City. "Xiongba said.

As soon as the words fell, countless white lights lit up in the square of the city of St. Gall, and the eyes of the two brightened, and they looked closely, but when they saw clearly, they were dumbfounded.

“Why are all Necromancers and bloodthirsty men,” Chi Mu said.

“It shouldn’t be,” Xiongba said.

“Can Lu Yang’s strength really be so strong?” Chi Mu said, staring.

Xiongba was dumb and didn’t know how to answer.

Silver Pine Canyon.

With 5,000 people, Jiang Ze backed up by a distance of 500 meters with the Black Sword of the Black Sword and the Bloodlust Alliance’s troops before stopping. Looking at the team of the Black Sword and the Bloodlust Alliance who had gradually established themselves, Jiang Ze called “Everyone stopped moving forward, we retreated to Taniguchi.”

In the middle of the team, Lan Yu took the priest team to revive the dead teammates. After 1 minute, the whole army retreated.

Black Blood and Bloodthirsty Domineer really wanted to be out to attack, but the collapsed team and the organized team were mixed and unable to move.

“Damn, give way to Lao Tzu, don’t stand in the way.” Hei Xue cursed.

After 10 minutes, the black blood and the bloodthirsty genius finished finishing the team, and saw Jiang Ze’s team who had retreated to the position 100 yards in front of Taniguchi.

“What to do,” Yi Jian asked.

Hei Xue said with a sullen expression: “What else can we do? There is only one way to the Fortress of Wind and Thunder, and death will have to pass.”

Bloodthirsty Bully said: "Don't panic, you noticed that there are only a few dozen of these people currently wearing gold gear, and the rest are silver gear."

Black Blood responded instantly and said, "Do you mean these people are just Lu Yang sent to stop our vanguard?"

Bloodthirsty Batian nodded and said: "It should be like this, Lu Yang should be an hour away from here."

"What then?" Black Blood asked.

Bloodthirsty Bully said: "As you said, we must fight now, but the method is different."

"What do you mean?"

Bloodthirsty Batian sneered and said, "Look at me."

The forces of the Necromancer and the Bloodlust Alliance adjusted again. After 2 minutes, 10,000 people came to Taniguchi 30 yards in person.

"The whole army charged."

A wall of 200 shield wars, with 5,000 mages and shooters behind, launched an assault towards Taniguchi.

Hei Yan shouted, "Mage attack."

The 100 dragons who knew the Dragon Breath came to the front, and the magic in their hands was released at the same time. The 100 Dragon Breaths were divided into 5 batches to attack.

With no fear of a sword, he shouted with a sneer: "The Paladin sets off and the shield team defends the shield."

Expulsion: Adds a magic immune effect to the target for 30 seconds

This is a skill possessed by the transferred Paladins in the Bloodthirsty Team. The effect of Shield Wall is to reduce ranged damage by 90% and melee damage by 50%.

The first 200 shield battles in the front faced the magic immunity effect, and the anti-shield shield blocked all the Dragon Breaths released by the Heiyan team, and the troops following up did not receive any slight damage.

On the battlefield.

The flames were so high that Hei Yan couldn't see what was inside. When Jiang Ze and others excitedly thought that they would kill a large number of enemies, he discovered a problem.

"Stop, the Masters stop attacking." Hei Yan shouted.

Jiang Ze asked, "What's wrong?"

Hei Yan said, "I didn't find one, the other person was not dead."

Jiang Ze suddenly realized, and hurriedly shouted, "The Masters stopped, all stopped."

The remaining 40 Dragon Breath Mages stopped attacking.

Everyone looked into the field, and after the flame, a sword wearing a magic halo across the sky sneered and appeared from the flame with the shield team intact.

Seeing that the team had advanced to the 15-yard position, Yi Jian called out: "Mage and shooter, attack."

Countless magic and bows were launched from behind the shield.

“The shield battle is about to stop,” Jiang Ze shouted.

Zhang Zibo took the shield team and raised the shield to resist the attacker’s damage.

“The priest’s team added blood,” Lan Yu shouted.

Hundreds of priests gathered in the valley used healing skills at the same time, but even so, the bloodthirsty bully prevailed.

“The Golden Legion charged, hit Taniguchi,” shouted Bloodthirsty Batian.

“Yes.” Fearless Titan and Westerly answered at the same time, raging battles with 500 gold equipment each rushed towards Taniguchi.

The two sides quickly joined forces with each other ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Jiang Ze was in front of the export professions, and died in a large number after being attacked.

Jiang Ze did not expect that the war would be heated up at the beginning of the war. He scolded himself stupidly and shouted, “Hei Yan quickly bring the team to release their skills, don’t let them attack.”

“Yes.” Hei Yan attacked the Golden Legion with the remaining 40 unused Dragon Breath Mage.

Forty men wearing Huijin suit fire method were divided into two batches to hit the attack with Dragon Breath, and the flames covered the audience again. The Necromancer Black Sword and the Bloodlust’s Golden Legion rushed in and wounded more than 200 people.

“Stop attacking,” shouted Yi Jian across the sky.

Dragon Breath lasts 5 seconds, and the two rounds of attack only have 10 seconds. Soon, the skills disappear, and Yi Jianhengtian and West Wind attack again with the Golden Legion.

Jiang Ze held the death messenger and gritted his teeth and shouted, "Master Wu Lin, follow me with a transfer job. Everyone stands by, and you must not step back."

"Yes." Lord Wu Linmeng shouted and rushed up with 20 transfer occupations, and the two sides immediately fought together.

#### Chapter 332 - Taniguchi battle

Relying on the insistence of a group of silver equipment and transfer players, Jiang Ze finally carried the attack, the team did not continue to defeat, and the two sides stood in the position of Taniguchi.

Black Blood breathed a sigh of relief, and said, "It's still a bloodthirsty boss. This is a beautiful move."

The bloodthirsty bully proudly said, "It's not only he Lu Yang who has special skills, but I also have them here, and I have no big tricks to release."

"What a big move!" Black Blood asked excitedly.

The bloodthirsty bully smiled proudly and said, "To prepare your silver legion to charge, I will put a curse on it."

"Forbidden curse!" Black Blood said in surprise.

Bloodthirsty Batian looked at the fire mage around him and said, "Reincarnation, destroy all enemies in Taniguchi."

"Yes." The reincarnation holding a 30th-level gold staff walked to the front of the team wearing a black magic robe, and the words in his mouth were slowly spoken.

The quaint syllables echoed in the valley instantly, and Hei Yan kept paying attention to the situation on the field, and suddenly he saw the cycle of releasing magic standing in the distance.

"It is a secondary curse," Hei Yan shouted, and quickly sent a message to Jiang Ze. "Head, someone on the other side is casting curse."

Jiang Ze has been unable to retreat. At this time, he will utterly defeat the whole Taniguchi when he withdraws. He can only resist this curse.

"Hei Yan retreated back with the mage, preparing to release the forbidden spell to counterattack, the Paladin released the seal of his death, and the shield soldier turned on the iron wall effect to defend in place. The priest retreated 30 yards.

Hei Yan tried to persuade him, but didn't say anything. He knew the time was urgent, and immediately led the mage team to retreat and organize the line of defense.

This is why the forbidden spell is so important in the game. At the critical moment of the guild war, a forbidden spell can play a decisive role.

After 10 minutes, the reincarnation spell was completed, with one hand pointing forward.

"Meteor Fire Rain"

A dark cloud covered Jiang Ze's team's sky. After 10 seconds, countless fireballs descended from the sky, and Jiang Ze's position became a sea of fire.

“The priest team added blood, and the Shield team insisted.” Jiang Ze shouted.

As soon as the words fell, Yi Jian led the team and rushed to Jiang Ze.

Jiang Ze was worried that he could not use the big move. His sword was blocked and his body turned fiercely.

“Death Whirlwind”

A mournful sound rang through the valley, Jiang Ze spun madly in place, and at the same time, purple and black undead surrounded him.

“Death Whirlwind”

Wulin Mengzhu also has a death messenger, which Jiang Ze specially gave to Wulin Mengzhu after receiving Lu Yang’s legendary weapons.

The effect of Death Whirlwind is the same as that of Whirlwind Whirlwind. They both rotate to launch attacks and trigger the magic immunity effect. However, the difference is that one is a pure physical attack and the other is the release of the soul to launch an attack.

A level of death whirlwind can launch 150 souls, each soul can cause 50 points of damage, the more people belong together, the less damage, the fewer people together, the higher the attack power.

Yijian Hengtian didn’t know the power of it. He thought that a priest group could add blood to fight against him, but just after 3 seconds, 150 souls aimed at Yijian Hengtian at the same time and hit the attack.

“7500”

Yi Jianhengtian died on the spot!

“Boss, beautiful job.” Master Wu Linmeng said.

Jiang Ze smiled and said, “Brother, we have to retreat, be careful not to kill the opposite.”

“Boss rest assured.”

Most of the teammates near the two died, and the rest was residual blood. Even if there was blood from the priest group, there was a meteor fire in the sky and the offensive of the Golden Legion on the ground.

Black Blood looked at Taniguchi and frowned. “I can’t think of another person who has a career change.”

The bloodthirsty Batian sneered and said, “I have long thought about it, ordering the Silver Legion to attack and withdrawing the Golden Army.”

“Why is this,” Black Blood asked.

“In case, at this time, silver at level 20 is cannon fodder. Only the gold troops at level 30 can determine the direction of the war. One can die if there is one less. I want to see if there are any special skills across.

Black Blood nodded, ordering the Golden Eagle to recall the remaining gold troops, and West Wind also took you down with the Golden Legion.

Fearless Titan rushed up with 5,000 silver troops.

Just rushed to Taniguchi, the black blood curse was completed.

“Hei Yan prison”

The dark clouds condensed in Taniguchi became denser, thousands of black flames fell from the dark clouds, and fell quickly on the player's body.

"Add blood, add blood," shouted the fearless Titan.

The priest team quickly added blood, allowing the team in front to carry the black flame attack. However, just 10 seconds later, the player who was attacked by the black flame dropped blood twice as fast as the beginning.

"This fire damage stacks and dissipates quickly."

At this time, it is too late to disperse. Players with 5 layers stacked quickly die at the rate of 1000 points of blood per second.

The 5,000-strong army only fled back less than 3,000, and the remaining 2,000 or more died at Taniguchi.

"Good job." Jiang Ze patted Hei Yan's shoulder and said to everyone with a smile: "Everyone cheer, the bloodthirsty domineering axe is almost running out, see what tricks he can play."

Everyone nodded.

Inside Silver Pine Canyon.

Black Blood said to Bloodthirsty Domineer: "Fortunately you have a foresight, otherwise the Golden Legion will be miserable."

Bloodthirsty Batian sneered and said, "The flames are over, and we will send Golden Shield troops to attack. I want to know if they have any special players. If not, we will win this battle."

The black blood nodded, and immediately after the black inflammation disappeared, he ordered the Smart Nine Days to attack with 1,000 gold and 3000 silver, and ordered the fearless Titan to bring over 3,000 players who had died before.

After the Golden Shield battle was put out on the shield wall and put on the magic immunity effect, it was completely immovable steel tank. Even if there were 100 shooters attacking them, they could resist it.

Jiang Ze said: "Hellfire Legion, throw hellfire."

Thirty warlocks stood out from behind the team ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The turquoise beads in their hands were lifted off, while pressing with one hand.

Thirty turquoise beads turned into giant rocks with green flames in the sky at the same time, hitting the shield war troops on the ground.

"boom"

The impact sounded and 30 hellfire lords stood up from the smoke.

"Hello ~!" The Hellfire Lord's attack power with evil and chaotic attacks does not look at physical defenses and magic defenses, but pure chaos damage.

Under the attack of Fire Fist and Evil Flame, the shield team under Black Blood became instantly threatened.

Black Blood said, "This is me."

The ten commanding priests who transferred to the office came to the front, and the soft magic of light in their hands carried a burst of killing gas.

"The annihilation of the Holy Light"

The bodies of the ten hellfire lords instantly turned into nothingness and shattered into a common stone.

### Chapter 333 - Forbidden Curse

“This is, what is this skill.” Jiang Ze said in surprise.

No one around him could answer him, because they also saw him for the first time.

“The annihilation of the Holy Light”

It is another 10 magics of light, and 10 powerful hellfire lords are spiked again.

The bloodthirsty bully watched the last 10 hellfire lords in the distance also be killed, and said with a smile: “Your light spell is very powerful.”

“Special restraint against Hellfire Lord and other evil creatures is used by evil creatures. If they are bright relics, my trick is useless.” Black Blood was proud and continued to issue orders saying: “Nine days, continue to attack , Break through Taniguchi for me. “

“Good grin.” Smart moved a wave for nine days and continued to advance with the army.

Jiang Ze frowned and said, “Don’t talk if you can do it. Take the transferred paladin to me and destroy this group of shield soldiers.”

“Yes.” Don’t talk to be a paladin if you can do it, and take on another 10 paladins who also transfer to open the light transformation skills.

The transformation of the Holy Light gives them 10 people with divine attack skills, just like Chaos Attack, ignoring physical defenses and magic defenses.

Jiang Ze continued: “Cheetah, with the remaining five transfer shooters, hit me on the blood-adding team and support team behind them, Han Shuang, with two transfer ice methods to prepare to release the curse.”

“Yes.”

Nine days later, when someone on the Jiang Ze side rushed out, he ordered: “Mage and shooter groups, kill the rushed out.”

More than 500 shooters and more than 500 mages aimed at the paladin who could do nothing, but before they entered the range, the bow and arrow of the cheetah’s archer unit arrived.

“Brothers, there is only one chance, centering on the smart nine days, scattered shots in the area of about 30 yards.” Cheetah said.

With special skills after transfer, he can fire 5 burst arrows with a range of 100 yards in a row, with a cooling time of 1 minute. The burst arrows burst when they hit the target, attacking the enemy within 5 yards and causing the same damage.

Fifty burst arrows were fired one after another, and landed precisely within a 60-yard area around Nine Days. In a split second, more than 500 archers and mage were killed.

Don’t talk if you can do it. Take this opportunity to rush forward, the Holy Light cut out frequently, the shield armour soldiers couldn’t carry it and were killed on the ground.

Hei Xue said: “The opponent really has a special attack team. Do you want to launch a total attack now?”

Bloodthirsty Batian said: "Don't worry, continue sending people up."

Black blood nodded, there are 90,000 people under his hands, and now only 10,000 people have been damaged. The dead are also on their way quickly.

The second batch of silver troops rushed up and took back the gold equipment that had fallen off.

"The Cavaliers stepped back, and the opposing forces attacked, and Frost was preparing to release the curse."

Cold Frost and Snowy Essence are the only two ice mages in the entire Iron Blood Brotherhood who transferred to their posts. Watching the other party enter within 30 yards, they both pointed with their fingers.

"Ice Storm"

A cloud covering 100 yards shrouded the first 50 yards of Taniguchi, and countless ice fell from the clouds.

More than 2,000 people were killed in the second rush of silver troops.

"Damn, how many banned mages are there in this Jagged Brotherhood, and how can they release a banned spell." Hei Xue cursed.

"Don't worry, continue to send people." Bloodthirsty Batian said.

Black Blood nodded, and this time sent 10,000 people to launch an attack.

Jiang Ze said: "The Queen's Guards, it's your turn."

The light and dark thieves stepped forward, looked at Weiguang and asked, "How to fight."

Jiang Ze said: "Initiate a counterattack and fight hard with the opposite side, you may die severely, but you do n't have to go back to the city to resurrect, I will find a way to resurrect you later."

"Okay." Looking at Weiguang and waving, he took 20,000 people to the front, and the remaining 30,000 people were annoyed because it was not them who played.

"Brothers, the opportunity to join the Queen's Guard is here. After this battle, Queen Yuwei will definitely accept us and follow me." Shouted looking up at Weiguang.

"Chong ~!" 20,000 people rushed into the battlefield without hesitation and 10,000 people in the black blood attacked.

The bloodthirsty Batian sneered and said, "It looks like the head of Qian Qian, who is in front of us, is poor."

Black Blood asked, "How to fight."

Bloodthirsty Batian waved his hand, and the two mages stood up.

"Give me a forbidden spell and bombard them."

"Yes." The two arcane mages stepped forward and began to release the curse.

"You have a curse mage!" Black Blood said in surprise.

Bloodthirsty Batian said: "In order to fight with Lu Yang, I paid a high price for a transfer certificate and a way to obtain curse abilities."

He has a total of 15 transfer professions and 5 forbidden spell wizards. However, this time he only brought 3 over forbidden spell wizards, and the remaining two remained in the fortress to open up wasteland.

After 10 minutes, the arcane curse of Gulang Yanyun Soul Space was completed, and they both pointed forward.

“Austrian Burst”

Within about 100 yards of the light and dark thief, a purple arcane energy orb suddenly popped up, and each energy ball quickly expanded and then burst.

“1086” “1049” ...

Each arcane ball can attack enemies within 10 yards at the same time. Once there are 4 arcane \*\*\*\* overlapping in one place, players equipped with silver will die.

In an instant, 20,000 people were killed and wounded, leaving 8,000 people behind.

Jiang Ze punched the rock wall and found that he had made a wrong decision, but at this time he could only clen his teeth and stiffen.

Lan Yu said, “Jiang Ze, you don’t need to blame yourself. You are facing a bloodthirsty bully. It’s normal to make mistakes.”

Hei Yan and Xiao Liang nodded in agreement.

Xiao Liang said: “Don’t worry, I’ll rush over and hit a wave.”

Jiang Ze said: “Don’t worry, I still have more than 50,000 people, and wait until the other party’s skills are exhausted.”

Jiang Ze also became fierce, ordering the light and dark thieves to persist in place, and transferred the remaining 30,000 Queen Guards to Taniguchi ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ 10,000 people died in front of them, and immediately sent 10,000 to keep up.

Bloodthirsty Batian looked at the front and turned into a scuffle, and said with a smile: "Send the golden troops to attack, Taniguchi is ours."

The black blood also looked out, and sent a message to the Golden Eagle, saying, "Come with 1800 gold troops and launch a general attack."

Bloodthirsty Domineer also sent a message to Han Jiangxue: "Take 1000 gold troops."

A total of 2,800 golden troops, like a pair of pliers, rushed to Taniguchi from both sides of the team, and the sorrow that was in charge of the battle ahead gave way immediately.

The light and dark thieves and the army suddenly felt the pressure around them, but the pressure from the Golden Legion made them multiply.

One of them can be hidden in the light, and the other can be hidden in the shadows. It is very easy to output them. However, in such a large-scale war, the two's single kill skills have almost no effect here.

The same is true of the entire Queen's Guard. They are all 28 and 9 silver-equipped players. Compared with the 30-level gold players, the damage and health and defense are one-third worse. Although they are tenacious, they have suffered heavy casualties.

## Chapter 334 - Red Mist Appears

Within 15 minutes, the Queen's Guard had 20,000 dead and wounded.

The two bloodthirsty tyrants and the black blood watched the battle ahead with satisfaction. The battle ahead had advanced to Taniguchi, and the winner was about to be divided.

“As long as this Taniguchi is seized, and we in turn seal this place, even if Lu Yang seizes the fort, we can recapture it,” said Bloodthirsty Batian.

“I have to let Lu Yang have a defeat this time.” Hei Xie shouted excitedly: “Chong, keep me rushing and retake the fortress.”

Looking up at Weiguang and watching the new 10,000 people approaching death, he sent a message to Jiang Ze and said, “I can’t stand it, what to do.”

“Don’t worry, the good show will start immediately, get ready.” Jiang Ze patted Xiao Liang beside him and said, “Brother, it’s your turn.”

“Look at me.” Xiao Liang slammed the shield of the tiger with his left hand and ran towards the battlefield.

Taniguchi location.

Looking up at the dim light was confused by Jiang Ze, just as he was confused, the rear roar sounded.

“Give it up.”

Xiao Liang, a blood-red body, suddenly jumped into the battlefield with the shield of a war tiger, crossed the line looking up into the dark sword of Necromancy.

“Hoo ~!” Xiao Liang roared, launching the Red Mist Bloodthirsty, and the Necromancer Black Sword player who was attacking the Queen’s Guard within 30 yards inexplicably forcibly turned his body to Xiao Liang and uncontrollably launched towards him Physical attack.

There are melee professions all around, no one thinks about it, but next second.

“Red Mist Cyclone”

Shua

Shua

Shua

Triggered 3 times in succession, the red mist whirlwind with an attack power of 5000 removed the target’s defense power. The players within 30 yards still could not resist, and nearly a hundred gold-equipped Necromancer black swords all died.

The players around were dumb, the dead players blocked their time, and no one understood what happened just now, but they saw a living enemy, Xiao Liang.

“Kill, kill him.”

“Don’t let him run away.”

“Go together.”

According to common sense, players who missed the big move are in a very weak state and will immediately withdraw from the battle, but that is common sense.

As a transfer player of the Red Mist Army, Xiao Liang just warmed up and was attacked by more than a dozen swords to force out 10 points of damage.

Watching the enemies rushing over, Xiao Liang posed an offensive posture and rushed towards the people of the Black Sword and Bloodlust Alliance.

With a bang, Xiao Liang was stunned and hit by six bloodthirsty 30-level gold equipment soldiers.

At the same time, 6 people raised the long sword in their hands and chopped it down. The people around them attacked Xiao Liang with various skills at the same time.

A crimson ray of light revolved wildly with Xiao Liang as the center.

Shua

Shua

Shua

The red light rotated three times, and everyone within 30 yards of Xiao Liang was dead again.

“This, what is this skill?” Xifeng said in shock.

“Report to the boss, there is a monster opposite.” The golden eagle stood on a stone and saw it very clearly.

“It’s late.” Xiao Liang spotted the golden eagle and westerly, and jumped in front of them using jumping skills.

“Red Mist Bloodthirsty”

A roar rang, and the Golden Eagle and Westerly and nearly a hundred players around at the same time uncontrollably used physical attacks on Xiao Liang.

When using Red Mist Bloodthirsty, Xiao Liang's defense power has increased by 1000 points. Xiao Liang, who owns the legendary shield and tiger shield, has already reached 2000 points, and 1000 points. Xiao Liang could only force 1 point of blood off his body.

Shua

Shua

Shua

It was another Three Gorges in succession, and the Golden Eagle and Westerly Wind and nearly 100 players were all killed by the Red Mist Cyclone.

"What kind of job is this? Everyone hit him and kill him together."

"Don't let him approach."

"Kill him, the mage bombed him."

"The shooter hit him."

300 people died in succession. The Necromancer and the Bloodthirsty Alliance found Xiao Liang and evaded one after another. They rushed forward without being found and were all killed by Xiao Liang's whirlwind.

Not long after, Xiao Liang was hit by a clearing in the middle of the battlefield.

Looking up at the dim light and the remaining Queen Guards looked at Xiao Liang, who was blood red in shock.

A golden light lit up from the side looking up at the shimmering light. Lan Yu took 500 priests with resurrection skills to enter the battlefield without participating in the battle and began to resurrect the dead Queen Guard.

“Who is this master?” Looking up at Weiguang and sending a message to Lan Yu.

Lan Yu watched Xiao Liang jumping into the Necromancer Black Sword Masters and said, “He is the secret weapon of our guild boss.”

Looking up at Weiguang, he said in amazement, “There are really too many masters of our guild boss.”

Just by single-handedly, I look forward to Weiguang’s confidence not to lose to the Baishi Sanxiong, 2V2 is even tied with the shadow thief and white wolf and white lion.

However, looking at the crimson warrior in front of him, looking up at the glimmer, he didn’t know how to fight at all.

“This output is too violent, as long as you make more than three turns and clear the field within 30 yards.” The shadow thief came over and said.

“Would I like to take the Guard up to help?” Looking up Weiguang asked in the team channel.

Jiang Ze said: “Don’t worry, give Xiao Liang a showtime, I really want to see Xiao Liang’s death on the dough alone.”

Lan Yu and Zhang Zibo nodded together. No one revealed the expression of this joke. They all thought that Xiao Liang could do it.

Xiao Liang smiled and said, “I’ll try it.”

Looking at the players who have stepped back to the Bloodthirsty Alliance and Necromancer Black Sword 30 yards away, Xiao Liang said, “Since you are not on, I can go on.”

Taking a leap, Xiao Liang jumped into the crowd. No one around him knew what Xiao Liang's skills were all about. He hit his skills on Xiao Liang by instinct.

Xiao Liang was spinning like a spinning top, and this time, he no longer stayed in one place, but rushed forward, all enemies passing by were killed by the Red Mist Cyclone.

Xiao Liang alone, the alliance of the bloodthirsty alliance and the black sword of the necromancer retreated 100 yards away.

"Shang ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I'm afraid of all the hairs, I'll give them all up and kill him. Do we have so many people who can't kill him?" Black Blood looked at the roar of the battle in front of him.

Bloodthirsty Batian also frowned, and couldn't understand what the soldier in front of this attacking force was stronger than the curse.

"No, that player's defense is too high, and physical attacks can't kill the blood." Smart nine days said.

Bloodthirsty Batian said: "Han Jiangxue, with the ice mage, gave me magical death."

Under the leadership of Han Jiangxue, 100 ice mages collectively aimed at Xiao Liang. As he was preparing to attack, Xiao Liang jumped into the middle of the mage body.

"Red Mist Bloodthirsty"

Xiao Liang roared, and the 100 mages around him picked up his staff and hit Xiao Liang.

Two whirlwinds killed all 100 mages.

## Chapter 335 - Here comes Lu Yang

Xiao Liang has been paying attention to the surrounding mage units. The only drawback of Red Mist soldiers is that they are not resistant to magic. If they are hit by a spell, especially the ice mage's slowing skills, there are basically only one dead on such a battlefield. ending.

"Ah, he died before he hit." Black Blood said indignantly.

Bloodthirsty Batian said: "Don't worry, keep watching, this person must have weaknesses, and there can be no perfect character in game design."

"Where is the time? He is going to crash us all by himself, and the accumulated advantages on the battlefield will be gone." Hei Xue said.

On the battlefield ahead.

Xiao Liang's Necromancer and Bloodlust Alliance players were at a loss, and everyone was afraid to approach Xiao Liang within 10 yards.

The shooter attacked 30 yards away and only hit 1 point of blood on Xiao Liang. If he shoots on the shield, there is still a chance of blocking effect.

Bloodthirsty Batian frowned and didn't speak. After 5 minutes, Bloodthirsty Batman knew something.

"You noticed that this player will only trigger the rotation ability when he is attacked. If no one hits him, he is a meat shield." Bloodthirsty Batian told Black Blood.

Black Blood was anxious looking at the battlefield ahead. He heard the words of Bloodthirsty Domineering suddenly and realized, "That's true. He just jumped into the crowd. When no one hit him, he couldn't turn at all."

Bloodthirsty Batian went on to say: "And this man is afraid of magic, and our mage regiment has been dodged or jumped in by several times to kill him with forced roar."

Black Blood looked at Xiao Liang and nodded, sending a message saying: "Ice Master, control him with blizzard and ice roar, let him settle where I am."

Three 100-man phalanxes quickly moved to the front from the rear.

"50 yards ahead, covered by snowstorm."

Xiao Liang's eyes brightened and he looked at the three hundred men in front of him. Knowing that the other party had discovered his professional characteristics, he turned to use his jumping skills and hurried toward Taniguchi before the snowstorm fell.

"Sure enough, I'm afraid of magic. The mage rushed for me, don't let him run away." Hei Xue shouted.

The 300 mage collectively chased Xiao Liang using flashing skills.

"It's too late to chase now." Xiao Liang, who was standing in Taniguchi, waved, and the 3,000 archers standing in Taniguchi shot the bows and arrows at the same time. The 30,000 Queen Guards who had just died were rescued by the blue priest regiment Live and can join the battle again.

At an elevation angle of 60 yards, the mage group of the Necromancer and the Bloodlust Alliance flickered just two steps after being attacked by an intensive arrow rain. Nearly 100 mages fell directly to the ground.

"Quickly withdraw, the mage team withdrew." The commander screamed sadly.

Bloodthirsty Batian shouted: "No withdrawal is allowed, the Master group backs 10 yards away, the Golden Shield team gives me up, the whole army is attacking, the Qianqi donkey opposite is poor."

Black blood stunned and said, "Are you going to attack?"

The bloodthirsty Batian sneered and said, "Of course, the whole army attacked and broke through the mouth of the tragedy."

"I'll order it," Black Blood said excitedly.

As soon as the words fell, the fearless Titan sent a message to Black Blood and said, "Brother, I'm here with 70,000 support."

"Great, immediately followed the team, we immediately launched a general attack on Taniguchi." Black Blood closed the interphone and said to Bloodthirsty Batian: "My 70,000 reinforcements have arrived, plus our existing troops, a total of There are 180,000 people. "

Bloodthirsty Batian was full of pride in his chest for a while. The army of 180,000 people can completely sweep through all enemies in this game.

"Very good, the whole army attacked, we made a \* back to the fortress, and by the way killed Lu Yang." Bloodthirsty Batian said.

Heihe laughed and said, "This time, I will have a decisive battle with Lu Yang and completely destroy him."

The two of them were contented to move slowly along with the large troops. The gold-equipped shielded fighters in front of them opened the shield wall, moving at a normal speed of 50%.

Soon, the 100 people moved to a distance of 30 yards from Taniguchi, commanding with sadness: "Everyone be careful, don't be afraid to attack in the opposite direction, the shield blocks the body, and there is treatment and blood in the back."

"Yes," shouted together a hundred golden shield battles.

Just when they thought they would be attacked by heavy fire, in the past 10 seconds, no one had been attacked by spells.

“Strange, why don’t you hit the other side.” With a sad look at Taniguchi’s direction with a shield, he found that Taniguchi was not alone.

“Are there any big moves to the other side?” Shocked with sadness, shouted: “If the special knight on the other side rushes out to attack, everyone is ready to add blood.”

“Yes,” the crowd shouted.

The recent attack scared the shield armor fighters, and 100 people continued to move forward, but they did not find the enemy until they reached Taniguchi.

However, when I first came to Taniguchi and looked outside, I stood up with sorrow but stunned, my mouth widened, and I couldn’t say a word.

“What’s going on in front, with sadness, talking.” Black Blood asked with a frown, and he and Bloodthirsty Batian were standing high ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ All found that the front shield soldiers had easily advanced to Taniguchi. .

Saying to the black blood with sadness and despair, “This war, we are afraid to lose.”

“What the \*\*\*\* is that? What the \*\*\*\* is going on.” Hei Xue cursed.

“Come and see for yourself.” Said with sadness.

Bloodthirsty Batian asked: “What’s going on, what does he say.”

Black Blood said blankly, “Let’s go and see, I don’t understand what he’s talking about.”

“There is a problem.” Bloodthirsty Batian frowned. “Let’s go and see it together.”

Black Blood nodded, and led the Guardian Legion to Taniguchi with Bloodthirsty Batian.

Taniguchi is an uphill slope. You can only see the situation outside the valley when you reach the top of the slope. When they go to the top of the valley, they look outside and they are shocked.

On the victory plain outside Taniguchi, the endless ferocious Brotherhood forces stood neatly at a distance of 100 yards from Taniguchi, and there were more than 100,000 people.

Black Blood couldn’t help but swallowed and said, “How come there are so many people.”

Bloodthirsty Batian was surprised first, and then a sullen expression appeared on his face, saying, “It’s Lu Yang, and Lu Yang brought the team himself.”

150 yards directly across from Taniguchi, Lu Yang looked at the bloodthirsty Batian and the black blood with a smile. Behind him, it was 80,000 troops from Phoenix Valley, and 70,000 guarding here. Army, a total of 150,000 people.

Lu Yang shouted loudly: “Blood-thirsty, black blood, today I will give you a chance to play against me fairly and pull out your troops. I will definitely not attack halfway. Today we will fight one by one to determine the thunder and lightning. The fortress belongs. “

The turbid wine poured, Xia Yuwei, bitter love half-life, Jiang Ze, Sun Yu stood neatly behind Lu Yang, shouting in unison: “Decisive battle, decisive battle, decisive battle ...”

Chapter 336 - 350,000 people decisive battle

150,000 people were shouted in unison, the sound shook through the grasslands, and even the players of the Black Sword and Bloodlust Alliance in Yinsong Canyon.

Black Blood's face was full of anger, and he said to the bloodthirsty bully beside him: "This is Lu Yang who looks down on us, the troops pull out and fight with him."

The bloodthirsty bully is also angry. He has played various games for more than ten years. He has never been so insulted and shouted, "Lu Yang, I want to make you feel for everything you do today. Regrets, the whole army went out of the canyon and arrayed by army. "

Black blood beckoned, 7 fearless Titans, a sword across the sky, agile for nine days, with sadness, fast death, and other 7 guild bosses each led the team out of the canyon to start the array.

People from the six major studios, such as Yeyu Basho, Poinsettia, and Black Dreams, also ran out with their legions.

After half an hour.

180,000 people on the side of Bloodthirsty and Black Blood stood neatly in front of Taniguchi, facing 150,000 people on the side of Lu Yang.

In terms of numbers, the bloodthirsty bully side has 30,000 more people than the Lu Yang side. However, everyone in the Lu Yang side knows that their player levels, equipment and strength are higher than the other.

Bloodthirsty Domineering and Black Blood do not think so. Until now, Black Blood still believes that in the annihilation battle of Phoenix Valley, Lu Yang just hit him by surprise with the advantages of the terrain and the transferred players. If it is on flat ground, both sides are not It was a tie.

Now that he has finally arrived on the flat ground, Black Blood shouted, "Brothers, Yong \*, the opportunity for our revenge is coming. Everyone is ready to destroy the gangsters with me in a moment."

Bloodthirsty Domineer is also doing the final war mobilization.

Sun Yu looked at the opposite enemy and said to Lu Yang, "Boss, I want to take someone to kill Bloodthirsty Domineering."

Lu Yang said with a smile: "I also have this idea, but don't go up at the beginning, you 51 people hide first, and when the war comes to a critical moment, when I let you move, you will dispatch."

Sun Yu nodded. When he was talking just now, he already knew from Jiang Ze that the Bloodlust Alliance had magic immunity skills.

Lu Yang said to the legionnaires behind him: "This war has hit now, we have reached a critical moment, and it is time for us to show our true strength."

Zhuo Jiu and Xia Yuwei were excited.

"Boss, how do you fight?" Asked Zhuzhuo.

Lu Yang Yile said, "Although it is a general battle, there is also a strategy for fighting on this scale."

Xia Yuwei and others' eyes looked surprised.

"Boss, there is a strategy for this kind of battle." Sui Ai asked in surprise.

Lu Yang said with a smile: "Remember, on the battlefield, the enemy always has the strongest point and the weakest point. Slamming is just like the flower garrison me, the hero and the twilight three and the bloodthirsty bully, the black blood The way to fight is the lowest. "

Xia Yuwei said: "No wonder the boss said to me that day, if you want to win, you can tell the difference."

"How to fight," everyone asked in surprise.

Lu Yang said: "Teach you a trick. At the beginning of the war, bitter love and Sun Yu led the team to attack on the right side, but the attack is mainly defensive, that is, attack, Xia Yuwei and Jiang Ze are in the middle. Your task It is a balance of offense and defense. When you need to defend, you must stay in the middle position steadily. When you need to attack, immediately bring the attacking force diagonally into the middle of the black blooded team. "

"Boss, why fight black blood." Asked bitterly for half a life.

Lu Yang said: "Stupid, the black blood is so weak, you must do him first. The muddy wine pours with 20,000 main forces to storm the black blood troops. I want to attract him to send more people to fight us."

The crowd still didn't understand.

Lu Yang said: "When the black blood can't stop, the bloodthirsty bully must send someone to help. Once he is distracted, Sun Yu will take the Thunder Eagle troops to attack, and don't forget that we are still 20,000 of the three males of the Bai family. What about people. "

"Yeah, how to forget them," said Zhuo Jiu Qing and others surprised.

Lu Yang smiled and dialed the white lion's intercom, and asked, "How long is it to reach the battlefield?"

The White Lion said: "In 20 minutes, I will be there in 20 minutes."

Lu Yang said: "Okay, don't take part in the battle immediately after coming here, take 20,000 people as a whole back to the side of the deadly bloodthirsty bully on the south side, and then participate in the offensive and penetrate me through their troops."

"Yes," said the White Lion.

"Hey, I really want to see how the bloodthirsty bully and the black blood fail." Said bitter love for a long time.

The dumb handsome guy and others remembered the previous bullying by bloodthirsty and black blood.

Lu Yang said: "The opportunity is here. The muddy wine, bitter love for half a life, Xia Yuwei led the attack."

"Yes." The three men, Zhuo Jiu Qing, Xia Yuwei, and Mi Ai, each took 20,000 troops slowly toward Taniguchi's 60,000 Necronic Black Sword and Bloodlust Alliance forces.

Bloodthirsty Batian was dispatching troops and saw that Lu Yang had sent someone out first, apparently despising him ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~, suddenly angry, shouting: "Reincarnation, Poinsettia, Fearless Titan, Golden Eagle Take me with your team and face them. "

"Yes." The Bloodthirsty and Necromancer sent 60,000 people to march forward.

The distance between the two sides was only 100 yards. On the field of the Victory Plains, the troops on both sides quickly met with each other.

In pure competition, Lu Yang has 8,000 gold-equipped troops, and the rest are all 28- and 9-level silver-plated players.

The bloodthirsty bully and the black blood side only have 4,800 gold-equipped troops, and the rest are all in their early 20s, and most of them have incomplete silver suits.

In terms of command, the black blood and the bloodthirsty domineering side did not know how to fight in the large corps, and they adopted a divisional approach.

Shield battle ahead, violent battle and thieves in the middle, mage and priest behind, the last way the shooter.

In their opinion, this is the tightest attack formation they can sort out. Every unit in the entire 90,000 team is even and flawless, but what they do n't know is that such war teams are flawed everywhere. .

As soon as the two sides contacted, although Lu Yang had only 60,000 people, he had an absolute advantage. The shield clan who commanded half of his life and commanded half of the gold equipment looked at the opponent's crazy offensive enemy and said to Sun Yu, No stress. "

Sun Yu shrugged his shoulders and said, "This kind of equal division of troops is really stupid."

He loved for a long time and said, "It's really weird. Where did the boss learn from? It's very difficult to do well in the division. The boss can do something different when he can command 150,000 troops. . "

Sun Yu said, "Who knows, the boss is really terrific. I suspect he is a soldier."

Suffering for a long time nodded and said, "It's possible."

Chapter 337 - Direct command

Middle part.

Xia Yuwei and Jiang Ze also felt very simple to fight.

"Strange, compared to just now, how do I feel like the other party is like a ball of cotton, Lu Yang's commanding ability is indeed better than me." Jiang Ze said.

Xia Yuwei glanced at Jiang Ze and said, "You and Lu Yang are classmates, do you know he has this ability?"

Jiang Ze's eyes brightened and he asked skeptically, "Do you know Lu Yang's true identity?"

Xia Yuwei nodded and said, "We are in the same city. The boss knows who I am, and Lan Yu knows it. I think we should meet together after the war is over."

Jiang Ze said dumbly: “No, Lord Goddess, we are in the same city.”

Xia Yuwei gave Jiang Ze a white look and said, “Don’t yell, remember this is a secret, you don’t want me to be blocked by a group of people every day and go out.”

“Know, know, promise not to say.” Jiang Ze can’t wait to send a message to Lu Yang immediately. In fact, he also likes Xia Yuwei secretly in his heart.

“What are you talking about?” Lan Yu asked curiously.

Xia Yuwei gave Jiang Ze a wink and said, “What about the battle situation? If you follow the current play style, bloodthirsty bully and black blood will be lost.”

Lan Yu looked at the side of Zhuojiu, and he casts Zhuojiu, wool ball, spit knife, Yeyuefengfeng and Vulcan M16 with 20,000 troops. Among them, the gold fighters of the main attack line are all in the team of Zhuoji, and there are hundreds of mages. All attack lineups such as regiments, 21 transfers to fire, 10 transfers to Paladins, 5 transfers to hunters, 2 transfers to ice, are on the black side.

Looking at the muddy wine army that had killed 10,000 people in the Black Sword, Lan Yu said, “We really won.”

The turbid wine dumped did not expect to play so easily, and shouted, “The whole army is attacking, attacking.”

Black Blood looked at the troops that were about to be destroyed, and looked at the bloodthirsty Alliance troops that were stable like Mount Tai on the south side. He was already angered and completely unaware that this was Lu Yang’s tactical arrangement.

“Nine days, and brought me 30,000 people.” Hei Xue shouted.

“Look at me.” Smartly rushed up with the troops for nine days.

Lu Yang party.

“The position of the black sword of the undead moved, and they sent someone out again.” Xia Yuwei reminded Zhuoji to pour in the call group.

“I’m so shameless, I sent 30,000 people out.” Sun Yu said.

Both sides advance in the form of a square matrix, and the number is very easy to count.

Nanfeng went to Lu Yang and asked, “Would you like me to release the curse?”

“Go.” Lu Yang said to Zhuojiu, “Nanfeng knows that he will give you curse support and protect him carefully.”

“Did you just let it go, and still.” Turbid wine said in surprise.

Lu Yang said with a smile: “Our sister is a master. He will ban two spells.”

Zhuoju took a sip of cold air, knowing that a minor injunction was already a guest of honor of the presidents of major guilds. Nanfeng knew that there would be two true injunctions.

“Rest assured, I must protect him,” said Duo Jiu Qing Qing.

“Thank you very much.” Nanfeng smiled with a conscious smile, jumped off the field and quickly came to the forefront of the muddy wine team, hiding behind the two golden knights, and began to release the spell.

The sky above Taniguchi was suddenly full of wind and clouds, and in a blink of an eye, most of the sky was covered by dark clouds.

“No, someone from the Brotherhood of Iron Blood put a forbidden spell, quickly find that person.” Hei Xue shouted.

“There, the shooter group and the mage group attacked.” Nine Motions found Nanfeng’s intention and shouted loudly.

Nearly a thousand magicians and nearly a thousand shooters nearby targeted the two knights and Nanfeng Zhiyi at the same time. At the moment of their attack, the turbid wine poured out a sneer and came to the side of Nanfeng Zhiyi. , Two swords stuck in the ground, whispered angrily.

“Guardian Angel”

An archangel with a golden light appeared behind the muddy pour, centered on the muddy pour, with thousands of players around him gaining an armor increase of 2000 at the same time.

“Eviction”

The turbid wine poured a finger, and Nanfeng Zhiyi appeared a magic relief effect on his head.

The two knights released the expulsion at the same time, and a magic immunity effect also appeared above their heads.

After 1 second.

Thousands of skills such as blizzard, ice arrows, fireball, shock arrows, and armor-piercing arrows fell on Nanfeng Zhiyi and the two Paladins.

“Dare to release the forbidden curse at such a close distance, it is really looking for death.” Smart Nine said proudly.

However, at the time when both the Black Blood and the Bloodthirsty Batian thought that the South Wind would die, the dark clouds in the sky became thicker and thicker.

After 30 seconds.

Nanfeng knew how to drink.

“Tian Ming Bang Thunder”

A black-purple lightning suddenly struck the ground from a dark cloud, and a giant thunderbolt with a diameter of 10 meters was in the center for nine days.

After the thunderbolt landed, it quickly spread to a diameter of 10 yards around, and all players who were hit were paralyzed in place.

“3086” “2999” ...

Countless injuries emerged from the top of players in the Bloodlust Alliance.

Just as everyone ran away in panic, suddenly, a second black-purple thunderbolt fell from the sky.

Third way

Fourth way

...

Tenth

Lei Zhu stopped, but within 100 yards, the bloodthirsty forces killed more than 2,000 people in a second.

What's more terrible is that the Paladin secondary curse released by the muddy wine dumping has made his golden legion physical attack opposite the fearless, within 30 seconds, the opposite army was hard and rigid, killing the Necromicon Black Sword 5000 Many people.

The morale of the Jagged Brothers Alliance has grown!

In turn, the black spirit of the necromancy side became more and more uncomfortable. Black blood eyes watched that the army had killed more than 20,000 people. When the muddy wine pour side had not died of 3,000 people, it looked at the position of the bloodthirsty dominator.

Although the Bloodthirsty Sky advances a distance of 50 yards, Xia Yuwei also retreats by a distance of 50 yards. The Iron Blood Brothers player killed in the middle and south is not enough for 2,000 people.

Black blood patted his head and cursed, "I'm fucked."

Bloodthirsty Batian also responded at this time ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ said to the black blood: "Why are there defensive forces on my side, how about you?"

Hei Xue said: "My side is all Lu Yang's offensive forces, and there are at least 30 career changes."

The voice just fell.

Xia Yuwei suddenly yelled in the crowd: "The two regiments attacked the flanks."

Han Sha took 10,000 players, quickly separated from Xia Yuwei's team, and suddenly slanted upwards to insert the wing of the Nine-Day Force.

Only 30,000 people who were killed by Smart Jiutian and Jindiao were left to deal with the muddy wine dumping, which had been defeated one after another. Facing the sudden attack of the cold sand, they quickly collapsed.

Hei Xie quickly shouted, "Take sorrow with me, and take 30,000 people up. Hold me back."

Then he shouted to Bloodthirsty Batian: "Quickly organize your troops to support me, I can't stand it."

Bloodthirsty Batian couldn't scold himself for his tricks, and quickly ordered people such as Poinsettia and Reincarnation to bring the 2000 Gold Army and his special troops to support it.

## Chapter 338 - Offensive

"Boss, the bloodthirsty bully moves." Sun Yu said excitedly.

Lu Yang stood in the distance and saw the bloodthirsty bully move. "Don't worry, he's not messed up yet."

"Oh." Sun Yu found herself excited.

Lu Yang laughed.

The white lion shouted in the communicator: "Boss, I have come to the back of the battlefield with 20,000 people and have seen our troops."

Lu Yang shook his fist vigorously and said, "Very well, go back to the south side. Be careful not to let the people of the Bloodlust Alliance see it. Now the Bloodlust Alliance has transferred some of its main force. It will be up to you to attack in a while. "

The white wolf shouted, "Boss, look at me, I promise to beat the bloodthirsty bully team in one shot."

Lu Yang said, "I believe you can do it, and wait for your good news."

The 5,000 fighters and the punishment knights in the entire team are in the team of Bai Shi Sanxiong. This is a purely offensive team, which has gathered 5,000 people. In the flat battlefield, it can already be called an invincible team. Already.

Bai's three males most like Lu Yang's absolute trust in the three of them. Having such a boss is their happiest thing.

The three men led their troops around the plain to the south of Yinsong Canyon Exit.

The map produced by "Second World" is circular like the earth. When the distance exceeds 10,000 meters, the two sides cannot see each other.

After 10 minutes.

The poinsettia and reincarnation troops came to the location of Smart Nine Days, and competed with the muddy wine pouring team. Both sides were golden troops, and the situation was immediately stuck.

Both Black Blood and Bloodthirsty Batian saw that the battlefield was stable and relieved at the same time, but at this time, on the south side of Bloodthirsty Batian, there was a shout and kill.

"Kill!" The three brothers, White Lion, White Tiger, and White Wolf, simultaneously raised their two-handed swords in their right hands, and rushed to the south with 20,000 troops.

The golden, dazzling bloodthirsty bully and the black blood stunned in place.

"How is it possible, how can there be such a unit." Hei Xue muttered to himself, he always thought that the army just listed by Lu Yang was all his team.

Bloodthirsty Domineering and Black Blood have the same idea. He never thought that Lu Yang could still hide a player who was all equipped with gold in such a situation.

"Falling city demon, take me to stand up." Bloodthirsty Batian suddenly responded, shouting loudly.

The besieged monster who was beside the bloodthirsty bully immediately took 20,000 people to the position of the three males of the Bai Family and won, but in the process of rushing over, the bewildered heart of the besieger was agitated. He knew that this battle Lost.

The main force has just been transferred to the farthest north side of the battlefield. Although his 20,000 people are not in the dark, they are all oppositely equipped with gold equipment. How can they resist it?

Sure enough, as soon as the two sides came into contact, the forces of the Alluring Demon were quickly engulfed and melted as if the ice blocks hit the magma.

Lu Yang is on the dirt slope.

“Good job,” Tu Feng shouted.

Lu Yang was also a fist of excitement. Now his troops on the battlefield are equivalent to a big crab. The muddy wine dumpling and Bai’s three males are equivalent to the two big pliers of the crab. Regardless of the bloodthirsty bully and black blood defense Either side or the other side will be defeated. The frontal forces and Lu Yang are all defensive forces. Even if the bloodthirsty bully and the black blood want to fight hard, they will be defeated.

Watching the bloodthirsty tyrants and the black bloods panicked and ignored the surroundings, Lu Yang sent a message to Sun Yu and said, “Thunder Eagle can take off.”

“Yes.” Sun Yu turned around and shouted excitedly: “Leiyang team, kill bloodthirsty bully with me.”

“I’ll wait for you.” Jifeng and others said excitedly, being able to second a boss of such a big guild is something they didn’t dare to imagine before, but now they make their excited heart throb.

“Thunder eagle, rise.” Sun Yu raised his right arm, and the Thunder eagle on the arm of the 51 wind and lightning shooters flew into the sky synchronously, flying in circles for two laps into the sky.

Sun Yu stared tightly at the bloodthirsty tyrant standing on a high ground in Taniguchi. At this time, the bloodthirsty tyrant was about to go crazy, and the 20,000 people of the allure demon were beaten by the forces of Bai's three males. Less than 10,000 people remained, and the forces of Bai Shixiong were hardly damaged.

The punishment knight and the violent warfare of the whole body of gold are both offensive and defensive, especially the attacking seal of the punishment knight has a blood return effect. When the plain attacked, the three males of the Bai family used the same three-three attack team as their three brothers.

The whole is attacked by a rectangular team, but in fact this rectangle is made up of countless triangles, and the attack power is very powerful.

"Stop it, hold it back for me, the black blood troops will arrive immediately, and definitely not allowed to retreat." Bloodthirsty Batian shouted loudly. Just now he ordered 30,000 black blood soldiers to come to support, and the troops arrived immediately.

However, the battle front ahead can not stand up with his mouth. Seeing the rout and defeat, the bloodthirsty weather is angry.

Just then. There were screaming eagles in the sky.

Bloodthirsty Batian looked up, and the 51 Thunder Warhawks did not know when they had flew over his head.

"Rayman"

Sun Yu shouted, 51 Thunder Warhawks launched skills at the same time against Bloodthirsty Batian, and the Lightning Chain with a base damage of only 350 hit the Bloodthirsty Batian collectively.

"350"

"350"

...

In just a moment, the blood of Bloodthirsty Domineering was destroyed by more than 15,000 points.

With a bang, the bloodthirsty bully fell unwillingly to the ground.

System prompt: your team killed Bloodthirsty

“Good job.” Lu Yang excitedly waved his fist at the Sun Yu who came over and shouted, “The bloodthirsty Batian was killed by Sun Yu’s troops. Pay attention and attack.

After a long break, the Queen’s Guard who was impatient to go to the battlefield, led by the light and dark thieves, shouted and killed the army that killed the black sword of the undead.

Sun Yu, Jiang Ze, Xia Yuwei, half-life assault troops immediately turned to the main attack force ~  
www.mtlnovel.com ~ The whole army rushed towards the place.

Lu Yang looked at Tu Feng, Mu Yu and others around him and said, “Follow me and we will kill people.”

“You’re the boss, don’t go.” Tu Feng said.

Lu Yang said with a smile: “Brothers, if you don’t fight again, there will be no chance, and the Necromancer will soon disintegrate.”

“Will the Black Sword of Necromancer disintegrate?” Tu Feng asked in surprise.

Lu Yang said, “Did you not find the red night, silver sword and Yinfeng beside me?”

Tu Feng said, “I was about to ask.”

Lu Yang said with a smile: "Go back and explain to you, now follow me first, we will send the black sword of the undead to the last trip."

"Inflammation"

A group of flames surrounded Lu Yang. In a blink of an eye, Lu Yang became a 5-meter-high flame demon with a red flame, and Lu Yang rushed towards the battlefield.

Chapter 339 - Bloodthirsty fled

On the battlefield.

Black Blood saw that Bloodthirsty Bully was dead, and the troops on the south side were again overwhelmed by the three males of Bai's. His heart was full of unwillingness.

Thinking of the defeat of this war, he will lose the fortress, like a bereavement dog, with 200,000 people wandering outside the city of St. Gall, with black blood eyes full of anger.

"Offense, attack me, attack the whole army. Even if I die today, I can't lose this fortress." Hei Xue shouted loudly.

Yijian Hengtian and Smart Jiutian also showed their expressions, each with all their guild reserve teams, and launched a total attack in the direction of the landing sun.

"Kill ~!"

In less than 30 seconds, the troops of the two sides collided together, with 150,000 left on one side and 130,000 left on the other. Both sides wrestled with each other like two giants.

When Lu Yang entered the battlefield, he happened to encounter Xia Yuwei with a sword attacking the middle of the country with a large force. The two sides were in a very fierce battle. Xia Yuwei's part was severely injured and injured. adapt.

Jiang Ze slashed a player who attacked Xia Yuwei and shouted, "Yu Wei, be careful."

Xia Yuwei nodded and said: "The enemy is too crazy, just like he was not alone."

Jiang Ze said: "Perhaps I realized that they were going to lose. Hold on, and we won immediately."

The voice just fell.

Suddenly, a crimson gap was opened in the dense cloudy sky, and a huge meteor like a hill appeared slowly from the air.

"Meteor Falls"

Lu Yang, who turned into a flame demon, yelled and pointed in front of Xia Yuwei with his hand, and the fire meteor fell toward the target with a harsh sound of air friction.

"boom"

A hill-like crimson fire meteor hit the ground. After burst, all players within 80 yards were injured.

"3898" "3916" ...

More than 2,000 people were hit by the attack, more than half died on the ground, and the other half were stunned.

“It’s the boss.”

“Lu Yang is here.”

“Boss has joined the battlefield.”

Hundreds of thousands of players from the Jagged Brothers League shouted loudly, and the overall morale increased by a certain level, especially when they saw Lu Yang’s becoming a demon, and it filled their hearts with fighting spirit. symbol of.

Xia Yuwei and others looked back, just to see that Lu Yang, who had become a flame monster, raised his right hand, and six red-red meteorites in the sky were striking towards the position in front of them.

Xia Yuwei shouted in surprise: “Boss, why are you here?”

Lu Yang laughed and said, “If you don’t come to kill a few more people, you will be killed. We compare, and who kills the most.”

“Okay.” Jiang Ze and Xia Yuwei responded in unison.

“Meteor Fire Rain”

Lu Yang raised his hands, and countless large fireballs fell in the sky. The players of the Necronic Black Sword within 150 yards were hit by the fireballs.

Black Blood stood in the distance and stared at Landing Yang, anxious to kill him with his own hands, but Black Blood knew that he did not have that ability and could only shout loudly: “Chong, give me all.”

However, there was no one next to him. Watching the battle that was going on and on, Black Blood said to himself, “It doesn’t matter, I still have the Bloodthirsty Alliance. As long as the Bloodthirsty God helps me, I will be able to regain the fort . “

Black Blood sent a message to Bloodthirsty Batian, saying, "Brother, how long can you be there, I'm holding on."

Players of the Bloodthirsty League have killed more than 40,000 people. If Bloodthirsty Domineering takes them from St. Gall to rejoin the battle, the blood of this war believes that there is still hope for victory.

However, when Black Blood was looking forward to it, the Bloodthirsty Bully sent a message to Black Blood.

"Sorry, I can't fight."

"What?" Black Blood's furious eyes widened and said excitedly, "What does it mean you can't participate?"

Bloodthirsty Batian said: "Brother, we lost, just now the news came from our subordinates, this war was initiated by Lu Yang alone, and the old man and the male domineer did not help at all."

"What?" Hei Xue said, "How is this possible without Lu Yang's help, where did Lu Yang have so many equipment and so many advanced players."

The bloodthirsty Batian smiled helplessly and said, "You can believe it or not. The fact is that, I can't continue to help you, or if the tyrant and twilight suddenly enter the war, my fortress will not be able to keep it."

After speaking, the bloodthirsty bully ended the call and returned to his fortress with more than 30,000 troops.

"Qu Han, how far has the fortress hit?" Bloodthirsty Batian asked.

"Boss, give me another 3 hours, I will be able to lay the fortress lord, I have found a way to crack it." Qu Han said.

“Okay, now I’m bringing someone back to help you. I’m trying to open up the fortress tonight. I can’t hit the fortress without rest.” Bloodthirsty Batian said.

Fengxian upstairs.

Xiong Ba and Chi Mu stared at the bloodthirsty domineering passing downstairs.

“The bloodthirsty bully is defeated?” Asked Twilight.

Xiongba said in a panic: “It must have been defeated, otherwise the Bloodthirsty Domineering would not be the city of St. Gall returned, and it would not end the battle.”

If Bloodthirsty Domineering wins, Lu Yang will be hunted down until his guild disintegrates. Both Xiong Ba and Chi Mu know his character.

“This ... how is this possible? Lu Yang defeated the two major guilds of the Necromancer and the Bloodlust League with the strength of a guild.” Chi Mu said.

Xiongba said, “Will Lu Yang find other helpers?”

Twilight shook her head and said, “What should we do now, or should we take someone to the front line to see.”

Xiongba smirked and said, “Is there anything to watch ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Let Lu Yang watch the joke, I will not help him in this battle, how can he treat me, don’t forget, this battle is over Even if he wins, it is just a terrible victory. If we don’t attack him, he will be thankful. “

Chi Mu thought right, and said, “That’s it, let’s go back to the wasteland.”

The play did not go in the direction the two expected, making them very upset, but because of the covenant, the two could not attack Lu Yang. If they did, they would be pointed at by thousands in the future in St. Gall, Playing a game, the two did not want to do so stingy.

When Chi Mu and Xiong Ba dispersed, what they didn't know was that in the room next to the two, the swift death was negotiating with Han Ying.

"Hong Ye, can you really represent Lu Yang?" Asked the swift death.

Han Ying sent a video to the fast death.

"Hi speedy brothers, I am Lu Yang, because of some unpleasantness between you and me because of the war, I believe that there was no contradiction between you and me, and this night Red Negotiations can fully replace me. Talking to you, I hope we can talk happily. "

Chapter 340 - Surrender conditions

Grim Reaper nodded with satisfaction, sighed, and said with a grin on his face: "The Black Sword of the Necromancer is finished this time, our 9 guilds will definitely disintegrate. I hope you will be released after your disintegration. Our guild. "

After returning to the city of St. Gall, the swift death and black blood scolded him, and when he was about to find the black blood face-to-face theory, he discovered a problem.

The coalition of Black Blood and Bloodlust Alliance was trapped in Yinsong Gorge. The army of more than 100,000 people, or the strongest force of the Necromancer Black Sword and Bloodlust Alliance, was still blocked in Yinsong Canyon. This proves that Lu Yang was in Silver The trough can not be less than 70,000 troops, and the average strength is far higher than the two forces' joint forces.

Including the 80,000 troops slaying the black blood in Phoenix Valley and the 20,000 troops attacking the fortress, on the whole, there are 170,000 troops deployed by the Brotherhood of the Iron Blood this time.

He saw with his own eyes how the three male heroes of the Bai family captured 5000 fortresses and 15,000 silver troops to capture the fortress. With regard to Lu Yang's strength, the swift death has already realized.

In addition, there are always contradictions in the Necromancer Black Sword, but in the general direction, the 9 guild bosses tolerate each other, but this time the black blood scolded him so quickly that the \*\*\*\* of death couldn't bear this tone. Since it failed, the guild also had to Dissolution, he decided to find a way out for himself.

Han Ying said with a smile: "Boss speed, you know, it is only black blood that hates us. Several other guilds have no contradiction with us. However, since the battle has reached this level, even if we do not let our men I'm in trouble with you, I'm afraid they won't listen. "

In order to defeat the Black Sword of the Necromancer, how long did the Iron Blood Brothers endure, how much effort was spent, and the previous hatred, even if disbanded, the players of the Iron Blood Brothers will not spare the Black Sword.

Quick Death also knew this, gritted his teeth and said: "If you are willing to let me go, I can give you all the materials I have in stock that can make 3,000 gold-level equipment."

Han Ying's heart moved, but she shook her head and said, "Not enough."

"That's not enough. Then what do you want me to do?" Asked Deathly.

Han Ying smiled and said, "It's up to you."

The initiative of the war is entirely on the side of the Brotherhood of Iron and Blood. Han Ying has a lot of time and a quick death grind time, he believes that this is not the bottom line of the fast death.

Quick Death looked down for a long time, and finally, he said, "If I want to give you all the materials of the Black Sword of the Undead, can it be a condition to let go of our guild."

Han Ying brightened his eyes and asked, "How many sets of equipment and weapons can be made."

Rapid Death lowered his voice and said, "Twenty-three thousand sets."

This is nearly ten million in cash, Han Ying said,

Quick death said: "Don't be too busy to agree, these materials are not in my hands. In fact, the opening of these equipment requires the joint opening of our 9 guild bosses to complete."

"I don't understand what you mean." Han Ying said.

Grim Reaper said: "At the end of the war, I will ask the guild to dissolve. Our nine companies will definitely require each to retrieve the materials. The storage location of the materials is not in the headquarters of the Necromancer Black Sword. "

"The headquarters of the Necromancer Black Sword uses a house bought by Black Blood. When storing materials, the speedy death \*\*\*\* and others have doubts about Black Blood. Black Blood, in order to show fairness and selflessness, brings all the guild leaders together. The Chengbei joint venture bought a house as a warehouse, and all the guild materials were there. "

"You know, there are too many materials and individuals cannot carry them. They can only be stored in storage bags. Such storage bags will fall off when killed. If I apply for transportation in a while, no one will doubt it. , Then is your chance to start. "

"I'll report to the boss." Han Ying asked the speedy death to wait, contacted Lu Yang, and told what happened.

On the battlefield.

Lu Yang had led the team to a position only 60 yards from the black blood, and said with a smile: "Tell the speedy death god, if this is done, I will not only chase him, but also send him an upgrade map, let He can continue to develop. "

Turn off the talker.

Lu Yang looked at the dark blood staring at him in the distance and shouted, "Black blood, if you cast the Sanhedrin now, I will still give you a chance to decently quit the game, all your shops in St. Gall, I will never move. "

The black blood refers to Landing Yang and cursed: "Let's pretend to be with Lao Zi there, Lu Yang, you remember to me, I will never admit defeat."

Lu Yang summoned three meteorite impacts in succession, crushed the enemy in front of him, and said aloud: "Black blood, if you lose, you must recognize that the guild you have established is deformed, relying on killing and bullying ordinary players. It can be a moment of prestige, but you must not forget that gentlemen do not take revenge for ten years. This is a game. Players who are bullied by you will grow up, and they will take up weapons to find you.

If you lose to me today, you are lucky. If it is one year later, all players' levels have risen. When they avenged you together, even if you have 300,000 Necronomicon Black Swords, think of you. Those who offend at the beginning of the game, your fortress will also be flattened, and you will lose even more. "

Lu Yang's voice shook the audience, and the remaining guild leaders including Black Blood could hear it. In the face of Lu Yang's questions and accusations ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Yi Jianhengtian and other guilds The boss hesitated.

They are not black blood. In the early days of the game, they have done things like chartering and leveling, but they are not as extraordinary as black blood. After all, this is a game. If you really wait a year later, everyone will be leveled up. If you shout to take the lead to find the revenge of the black blood, I am afraid that the entire black sword of the undead will suffer a major blow.

Everyone is like this. Everyone is happy when they win. However, when they lose, they often blame each other. Especially now when they lose, Yijianhengtian and Fearless Titan and others look at the black blood. Come up with the idea of understanding the Black Sword of Undead.

Hei Xue did not notice the expressions of the bosses of several guilds around him and sneered and said to Lu Yang: "So, I should also thank you."

Lu Yang said, "Of course you should thank me. Honestly get out of the game and be a triad. In reality, do great things. Why come to the game to find abuse? It's hard to do more of your bad things. It's the game. Come inside to avoid the wind, afraid of being caught by the police? "

This is the most secret thing of the black blood of the last life. He did take his staff to do too much before he ran into the game to take refuge. After the black blood of the last life defeated by Lu Yang, he returned to the black blood in reality and continued to do evil. , Was eventually caught by the police and sent to prison.
