

Chapter 341 - Scramble for materials

Heixue didn't expect that Lu Yang almost shook his boss. He looked at the skeptical eyes of several guild bosses around him and pointed out in a shame. "Fart, Lao Tzu is a rich boss. Why?" It has become a triad, don't let your blood flow. "

Lu Yang said: "The big brother Yunyang is famous, but no one in your area knows it, dare to do it or not, but it 's not your personality. I remember that you do n't have a slogan called" No compromise ". The person of Lingheijian can check it online. Who is Yunyang's third brother's name and who is the black blood's real name? The date of birth and his home address can be retrieved. Black blood nonsense. "

"Fart, fart, all fart, don't listen to him nonsense, what he said is not true." Black blood scolded in panic.

However, the more he did, Yi Jianhengtian and others became more suspicious of him. Who would be willing to open a guild with a triad?

Soon, Yijian Hengtian and others retrieved Yunyang's local post in the game's built-in webpage and found the information of Yunyang's third brother, which was compared with the personal information of Heixue, which was completely consistent.

"You are really the third brother of Yunyang." Yi Jian looked at Hei Xue in astonishment and asked.

"You are a triad and dare to join us to open a guild. What kind of ambition do you have?" Ningdong asked for nine days.

Black blood panicked and wanted to explain, but he couldn't speak out because the facts were there.

Lu Yang saw the opportunity and escaped the dagger with a blue light through the crowd. The light flashed. Lu Yang appeared on the side of the black sword of the undead. Before everyone attacked, Lu Yang's white light flickered and the light appeared again. At the time, Lu Yang fell behind Black Blood.

“Cycles of heaven, retribution unhappy, black blood, you’re up.” Lu Yang’s flames rose in his hands.

“Flame Storm”

A crimson beam of light swallowed up black blood and a sword across the sky.

“Blazing Bird”

“Resistant Fire Ring”

“Meteorite Impact”

“Destroy the Sky”

After a series of combos, Black Blood and the 7 guild bosses were all killed in place.

“Black blood is dead”

“One sword is dead”

“Fearless Titan is dead”

...

The players of the Jagged Brothers League watched Lu Yang easily kill several bosses of the enemy’s guild and shouted in unison.

The men standing under the black blood and others were scared by Lu Yang’s tricks. They couldn’t help but be shocked and stay in place. When they reacted and wanted to attack Lu Yang, Lu Yang jumped into

the crowd and used the flame. The effect of changing, constantly using the flame storm, flickered back to his own position after 30 seconds.

The remaining 100,000 people of the Necromancer Black Sword saw that the boss of their guild had been killed, and their morale fell greatly. Xia Yuwei and Jiang Ze took the opportunity to attack with all their strength. The muddy wine pouring and the white lion were clamped from both sides. Charged in, the Necromancer Black Sword was completely defeated.

Players who do not want to fight to death and experience the equipment desperately run to the entrance of Yinsong Canyon. Unfortunately, the entrance can only accommodate up to 200 people. Nearly 100,000 people are crowded in the valley entrance, just like a lamb to be slaughtered. The Alliance killed a lot.

St. Gall's Square.

Black Blood has just been resurrected, and is about to organize his men to join the war again. Suddenly, tens of thousands of lights on the square light up, and Black Blood is shocked to find that all of them are members of his guild.

"What's going on, why so many people have suddenly died." Hei Xue asked, grabbing one of the men around him.

"You are dead, morale collapses, everyone flees to the entrance to the canyon and is killed," said the player.

The black blood was stunned in the place, and gritted his teeth and sent a message to Yijian Hengtian and others said, "We can't just let it go, continue to fight with Lu Yang, as long as we persist we can win."

Fearless Titans and others just resurrected nearby, glanced at each other but didn't speak. Just as they hesitated, the swift death sent a message saying, "I won't fight."

Black blood angered and scolded, "What do you mean?"

Quick Death said: "It doesn't mean anything, just don't fight, I demand to withdraw from the Necromancer."

"You." Black Blood panicked. He knew that at this time he must not let the fast death retreat. If he quits, the others will not continue to fight with him.

"Brother, fast, I know I spoke a little harder before, but I was in a hurry, not intentionally. We can't mess up now. If it's messed up, the fortress will be completely lost." Hei Xue said.

Grim Reaper sneered and said, "If you are willing to fight, you can do it yourself. I'm not interested anymore. Please come to the Chengbei warehouse. I want to retrieve my materials."

Black Blood did not expect such a swift death, as he was panicking and overwhelmed, Yijianhengtian and fearless Titans and others reacted.

"Then let's go there first, and get each one's own materials first," said the fearless Titan.

"I agree," Smart said for nine days.

"I agree," Yi Jian said.

...

The eight guild bosses nodded in agreement. Black Blood knew that now everything should be stabilized by these guild bosses. The matter of materials did not matter. It was because everyone saw that the guild had no future and did not want to continue to combine. Take it back and take it back. As long as the guild does not dissolve, everything is fine.

"Okay, let's go together," Black Blood said.

Smart Nine Days said: "One more thing, since we are going, it will be good for our bosses to take 10 hands each ~ www.mtlnovel.com ~ Don't bring too many people to avoid misunderstanding."

“agree.”

“agree.”

...

The people nodded their promises and walked towards the north of the city with their henchmen.

A quick death sent a message to Han Ying: “They’re coming to the warehouse to pick up the materials. Are your people ready?”

Han Ying looked at Mu Yu and sent a message to the speedy death god: “Relax, people are already lying in the door of the warehouse. As long as you send a signal, I will attack immediately.”

Mu Yu did not release a curse until now. It was originally used by Lu Yang as a reserve team. I did not expect to encounter such a good thing. After Lu Yang killed the black blood, he gave Mu Yu a piece of equipment and asked her Fly back to St. Gall to assist Han Ying.

Chengbei Warehouse.

Black Blood took 10 people to the gate of the warehouse, saw the swift death waiting there, and could not help shooting the anger of hatred, and walked to the side of the swift death without saying a word.

The fast death was too lazy to deal with the black blood, stood aside and continued to wait, not long after, the fearless Titan and the smart nine days arrived.

“Now that everyone is here, we enter our own passwords and unlock the door of the warehouse,” said the blazing death.

Everyone clicked to enter the password.

“Ding”

“Ding”

...

Nine opening sounds sounded, the warehouse door opened, Yijian Hengtian and others took their men into the warehouse to pick up equipment bags.

After 5 minutes, they picked up and walked to the door.

When Black Blood saw the crowds leaving, he said quickly, “Brothers, you have taken back the materials. Can we discuss the matter of fighting? We can’t just let it go, it’s a fortress.”

Yijian Hengtian and Fearless Titan and others looked at each other with a little hesitation. At this moment, the rapid death sent a message to Han Ying and said, “Attack.”

Chapter 342 - Bing Lincheng

The sky at the top of the warehouse was covered with dark clouds.

Black Blood was in a hurry to fight, and he did not notice at all, Yijianhengtian and others were hesitating to continue fighting.

Just as Black Blood was ready to continue persuasion.

“Click”

A bolt of lightning struck the sky and hit the black blood body precisely.

“3748”

“An enemy is attacking, everyone is careful.” Black Blood yelled quickly after drinking a bottle of potion.

As soon as the words fell, countless thunders and lightnings fell from the sky, and the nine leaders of the Necromancer Black Sword and the 90 players it belonged to were all shrouded in it.

“It’s a curse, everyone ...” Yi Jian Hengtian didn’t wait to call out the run word, and a long arrow hit his head with precision.

“8888” (Critical Strike)

Yi Jian was killed on the spot, and the eight storage bags in his hand fell to the ground.

The people scattered around to avoid the curse, and the fearless Titan saw the scene in panic, and he ran greedily to the place where Yijian Hengtian was.

Just as he was about to pick up his gear, a dark ink dagger ran across his neck.

“6849” (Critical Strike)

The fearless Titan fell to the ground and his storage bag fell to the ground.

Two thieves appeared from the side of Fearless Titan and Yijian Hengtian. After picking up their equipment, the two quickly sprinted off the battlefield.

“Everyone notice, some thieves are attacking us in the crowd.” Shouted for nine days.

A silvery white light ran across the neck of Nine Days, and Nine Days fell to the ground. Another thief appeared, and he quickly left the battlefield after picking up his equipment.

The forbidden spell continued to drop in the area. Although people around it saw it, they could not rush over to grab the equipment, because the forbidden spell was too powerful. As long as it was hit by three forbidden spells, it would be dead.

“All come to me to gather and let our men protect us around, don’t lose any more materials.” Hei Xue shouted.

With sadness and others reacting, they quickly gathered in the direction of black blood. Seven chairmen stood together, and 70 men stood around. The priest added blood, and the soldiers stood outside.

Just as they slowly carried the forbidden spell out of the thunder and lightning area, Han Fei’s figure appeared in front.

“Someone out there, everyone pays attention,” shouted with sadness.

Black Blood scolded: “Who sent you, how do you know we are here?”

Han Fei showed a smile and moved his body. Two black and white daggers were held in his hands. A blue light flashed, and Han Fei disappeared into the space.

“Space Chaos”

A groan sounded in the space above Black Blood and others. After 3 seconds, within 50 yards centered on Black Blood, two black and white lights accompanied by lightning flashed wildly through the body of Black Blood and others.

“What skill is this.”

“How could I be attacked without seeing the enemy?”

“what is the problem.”

...

The black blood party made a mess, and no one knew what was happening around them. On average, they were attacked every 0.2 seconds, and each attack was accurately cut in the back of the neck.

In less than 10 seconds, more than 30 Necromancers fell to the ground, and Black Blood panicked when he saw the scene, shouting, “Hurry up, leave here quickly.”

As soon as the words fell, two black and white daggers stabbed Black Blood’s neck at the same time. Black Blood instantly found that the sight in front of him turned black and white. He knew that he was dead.

Han Yu, who was standing in the distance, shot an arrow to death with sadness, and said to Han Ying around him, “Sister, Han Fei is going to be stunned again. The trick he researched is too strong.”

Han Ying said happily: “But the sequelae are too terrible. After using this trick, I am afraid he has to rest in bed for a day.”

This high-intensity entering and leaving space, attacking at a 360-degree angle within the entire 50 yards of time and space, requires itself to rotate countless times.

Although it looks gorgeous, it has a great impact on the body. Han Fei performed it once before lying in bed for one night.

Han Yu nodded and said, “It’s really self-harming.”

Han Ying said: “This time we really made a lot of money. With so many materials, the guild is getting stronger and stronger.”

Han Zhong came over and said, "Concentrate, what are you talking about at this time?"

The two sisters vomited their tongues secretly, and continued the assassination.

The battle ahead has ended, and Han Fei, Han Yu and Mu Yu killed 99 people in unison, without letting one of the Necromancers escape.

Han Zhong took the 12 orphans trained by him to the front line and took away the remaining materials.

"Putting on a camouflage coat, we went back to the smithy." Han Zhong said.

The 18 people who came to the ambush this time uniformly changed into camouflage coats and turned into another look, and entered the smithy in the north of the city together.

When Black Blood and others rushed back with a large army, there was nothing left.

"Search me. Those people are definitely not far away with the materials. You can't let it go anywhere. Find me out." The black blood roar can be heard in St. Gall's Square.

Yijian Hengtian and Intrepid Titans are also angry. These materials are the future of their guild. Without materials, the guild is behind the other guilds at a level of 30. It is still a second-class guild and is likely to become Third-rate doesn't even enter the guild.

"My materials." Shouted with sadness and grief, suddenly he ran to the front of the swift death, and cursed: "Is it you, is it you?"

Grim Reaper said with a confused expression, "What I do."

"How do those sneak attackers know that we will hand over here, except who you know?" Scolded with sadness.

“Fart, I lost my stuff, did you not see it? Besides, where does Lao Tzu’s master who curse curse, where is such a clever thief, and a long-range shooter? Is this something I can have?” Scolded quickly.

Fearless Titan, Yijian Hengtian, and others are a little skeptical of fast death, but after he said that, they found that it was really the case.

Quick Death continued to curse: “It must be you, some of you, who secretly notified Lu Yang when you came here. These people made it clear that they were Lu Yang’s people. Lao Tzu had been fine here before. Why did I just get the materials? He died, my 3,000 sets of materials, who did it for you. “

“I watched it carefully when I came, there was absolutely no one around,” said the fearless Titan.

“How could there be no one, we came from the square and saw a lot of people, there must have been a traitor among us.” Yijian Hengtian said.

The black blood had already suffocated, and he knew clearly that there must have been traitors among these people, but he was still thinking about how to win back the battle, and how could there be traitors in the blink of an eye?

Black Blood looked at the eight presidents in front of each other, and each person’s face was either innocent, righteous, or irritable, but no matter what kind of expression, this matter could not be confirmed.

“This thing must not be counted like this, don’t let me find the traitor, otherwise we will never let him go for the remaining few guilds.” Smart Nine scolded his teeth.

“Let’s dissolve, let’s dissolve first. I don’t want to stay in this organization for another day,” said Speedy Death.

“Dissolve.” Everyone was fascinated.

Black Blood watched the eight guild bosses leave. He knew that the situation had gone. Without the protective umbrella of the Necronic Black Sword, Black Blood offended the hegemon at the earliest. Later, it was offensive to fight for the Huayu Fortress. He was just defeated by Lu Yang.

There is no place for him in the north, west, and south east of the entire city of St. Gall. Only one southeast is the bloodthirsty fortress.

The Golden Eagle asked, "Boss, what should we do, and still play in the game?"

Black blood gritted his teeth and said, "Can't just let it go, let's go find the bloodthirsty bully."

"Yes, I must summon my hands." The Golden Eagle knew that the black blood had become very angry, and walked aside to greet the guild owners to meet at the south gate of St. Gall.

Black Blood himself quit the game and called Bloodthirsty Domineering in reality.

Bloodthirsty Batian is developing a fortress. Just now he has blocked the black blood, and found that there is an internal phone call in reality. Bloodthirsty Batian quits the game and finds that it is black blood. He hesitated and connected the call.

"Brother, what's the matter?" Bloodthirsty Batian asked.

Hei Xie said, "Brother, I have no choice but to die. The Necromancer Black Sword has dissolved ~
www.mtlnovel.com ~ I want to run to you."

If the Undead Black Sword did not dissolve, and Bloodthirsty Domineer still has the idea of swallowing so many players, however, after the dissolution of the Undead Black Sword, there are only tens of thousands of Black Bloods left, and he still needs to provide equipment and upgrade locations.

Bloodthirsty Batian said: "Sorry brother, I don't have any resources to help you, so you can find another job."

After speaking, the bloodthirsty bully hung up the phone.

“You, you.” Hei Xue heard the busy tone on the phone before he could speak.

“Blood-thirsty, you will regret it.” Hei Xue cursed.

Re-logging in to the game, Black Blood found the Golden Eagle and asked, “How many people have gathered?”

“There are only 10,000 people,” said Golden Eagle in shame.

“What? Others?” Black Blood asked.

“Others are either offline or retired.” Golden Eagle said helplessly: “Boss, otherwise we will quit the game.”

“Fart.” Hei Xue said, “I will never admit defeat, even if there is nothing, I still have a siege order from the Fortress of Wind and Thunder. As long as I have this, I can rise again.”

Open the contact, Black Blood found the eternal soul.

On the other side.

Lu Yang took 170,000 troops from Yinsong Gorge all the way back to St. Gall, and the dead players have been resurrected by the priests who have left the battle.

A total of 170,000 people chased and killed the black sword of the undead as the clouds of clouds reached the west gate of St. Gall.

Players who are upgrading outside the city see that 170,000 people in the Jagged Brothers League are stunned.

“Oh my god, what happened?”

“Where are so many people?”

“I heard that the Brotherhood of Iron and Blood and the Black Sword of the Necromancer were fighting in Yinsong Gorge. I just saw that the Black Sword of the Necromancer had returned to the city. So many people coming now would not belong to the Brotherhood of the Iron Blood.”

“Nima, this is too strong.”

Chapter 343 - Necromancer Black Sword Disbanded

The discussion was endless, and soon, the news reached the city of St. Gall. Countless players ran outside the West Gate to watch. As a result, everyone was shocked by this magnificent scene.

“Iron Brotherhood is too strong.”

“What are they doing?”

“Where’s the reporter, please report. This photo must be preserved.”

The various media and self-media in the game take pictures from various angles. As players gather more and more, many people are curious about what the Jagged Brothers League is going to do.

Lu Yang sent a message on the guild channel.

“3”

“2”

“1”

“Start”

“The Brotherhood of the Iron Blood is here, and the black sword of the Necromancer can dare to fight again.” 170,000 people shouted in unison, and a huge voice reached the square of St. Gall, letting the swords and the fearless Titans that were not assembled in the squares. Waiting in panic.

When they ran to the west to watch, the main forces of the 170,000 Brotherhood of Iron and Blood were lined up, almost covering half the walls of St. Gall.

[World Channel] One Sword in the Sky: King’s Sword Guild announced its withdrawal from the Necromancer

[World Channel] Fearless Titans: The Titans Guild announces its withdrawal from the Necromancer

...

In less than 10 seconds, eight guild bosses other than Black Blood collectively announced their withdrawal from the Necromancer Black Sword.

“The Necromancer is broken?”

“Iron Brotherhood is too strong.”

“Oh my God, it forced the disintegration of the Necromancer.”

The entire city of St. Gall fell into madness.

Chi Mu stood at the head of Xicheng Gate, watching the Brothers of the Iron Blood Brothers silently opened the address book to find Lu Yang, and sent a message saying, "President Lu Yang, congratulations, I don't know if we can have time for a while. talk."

Lu Yang was discussing with Xia Yuwei and others what to do after the dissolution of the Black Sword of the Necromancer, and the news of the old man made him laugh.

"Boss, is there anything good?" Asked bitterly for half a life.

Lu Yang looked at the brothers in front of him and said, "There are many good things. I will tell you one by one, but guess what, who just sent me a message just now."

"Zhuo Jiu said," It won't be the old man. "

Lu Yang said with a smile: "It's him, he wants to talk to me."

"This old guy is so fine, knowing that he has done something wrong, he apologized for the first time," said Zhujiu Qingping.

Lu Yang said, "Yeah, he should also apologize. In this way, since the Black Sword of the Necromancer has disintegrated, our fighting today has temporarily stopped, and the entire army has entered the city to rest. You can also rest for a while and organize our gain , I'll go talk to Twilight. "

"Yes," everyone answered together.

Lu Yang waved and shouted, "The whole army takes the army as a unit and goes to town to rest."

The order was quickly conveyed below, and 170,000 troops lined up in a queue of 20 people, neatly walking towards the West Gate.

13,000 players with 30-level full-body gold-level equipment walked in front, followed by silver equipment. When these troops entered the city, the sensation was even more intense.

“So many players with 30 levels of gold equipment.”

“There are more than 10,000 people.”

“The Brotherhood of the Iron Blood is well deserved to be the largest guild in St. Gall.”

In a small guild, there are several players who have a 30-level suit, even if it is very strong, the Brotherhood of Iron Blood is completely crushed into the city.

All the guilds retreated on the way, and no one dared to compete positively.

Lu Yang took the lead to lead the turbid wine and others into the city of St. Gall. After reaching the safe area, he came to the second-floor box of Fengxian Building alone.

Immediately after the door was opened, both Xiongba and Chiwu said, “Congratulations.”

Lu Yang smiled and arched at the two of them, saying, “Tongxi.”

He Mu said with a smile: “Brother, don’t mind what happened before, we have decided that the income of the mercenary union in the next six months should be used to sponsor your fighting expenses.”

The mercenary union’s monthly income is about 3,000 gold coins, and the two are added to the equivalent of 6,000 gold coins. After 6 months of conversion, it is equivalent to 10 million credit points.

Lu Yang looked at them and smiled, and said, “Since the two big brothers are willing to help, I would like to thank them.”

“Yes, it should.” Chi Mu and Xiong Ba said.

The two knew very well that if the two did not pay anything, relying on what they had to do before, Lu Yang's next attack target was one of them, and with their ability, they would never have hit Lu Yang, so, Paying some price is the best option.

Lu Yang said with a smile: "Even the unhappiness before, I believe that the three of us can get along better in the future."

Xiongba asked: "Is the next target bloodthirsty domineering?"

Lu Yang shook his head and said, "Look at it. The guild I set up was not for the purpose of eliminating other guilds, but because the oppression was too harsh. Everyone gathered together to resist. Now the oppression is gone. I also want Have fun playing the game ~ www.mtlnovel.com ~ Xiong Ba and Chi Mu look at each other in surprise, they thought that Lu Yang would desperately attack the bloodthirsty domineering, but did not expect it to be so.

Lu Yang said: "The two brothers are also focused on development. They need a lot of experience from level 30 to level 40. Do n't just look at it now. After a while, when the human race, the beast and the elves are the same, the real war will start Then, the orcs are likely to attack us by land or sea. "

"The orcs will hit us?" The male frown asked.

Lu Yang smiled and said, "Of course."

It was at this time in the last life that Liu Jie's capital began to enter the game. First, he acquired the largest guild of the orcs, and then gradually acquired the guild of guilds. He relied on the capital step by step to unify all the strongholds of the national service.

In order to prevent Liu Jie's invasion, Lu Yang had to temporarily stop attacking and solve the player level problem first, lest the orcs attack a group of 40 players when they come over, and they are still more than 30 levels, let the opposite A blow is a hit.

Another thing is that Bloodthirsty is not only developed in the city of St. Gall. The other two main cities also have guilds. It really hastened him. The three guilds went to St. Gall and Lu Yang to work hard. Even

if Lu Yang can win, It was also a disastrous victory. At that time, only the two in front of them were cheap.

Looking at the two in front of them, they still had some skeptical expressions. Lu Yang said: "I should have said everything. The two believe it or not. I will know when I do. I still have something to do, and I will meet again next time."

After arching his hand, Lu Yang took out the city roll and returned to Shengcheng Square. When he returned to the office of his guild, all of a sudden, a notice came from the system.

System announcement: Congratulations to the success of the second wasteland fortress of the Shenwu Tribe Guild

Lu Yang sneered and walked into the door of the conference room. They found that Xia Yuwei and the turbid wine were all looking upset.

Chapter 344 - Stronghold ownership

"What's wrong, win this expression." Lu Yang asked knowingly.

"Blamed this Necromancer, otherwise we wouldn't let them grab our head." Mao Qiu said.

"At this time, our limelight has been stolen by the eternal spirit." Bai Lang said uneasily.

Lu Yang found that the expressions of the people in his hands could not help but said, "As for it, isn't it just a fortress? Besides, aren't they also the second?"

"But it's still unpleasant to be behind him," Xia Yuwei said.

Lu Yang said with a smile: "Who says we are behind him?"

The depressed people could not help but hesitate to hear Lu Yang's words and turned their eyes to Lu Yang.

"Boss, you, what do you mean by that?" The White Lion asked.

Lu Yang sent him to the lava lord, sent the video of the fortress siege to the red fortress shrine to everyone present, and said, "Did you see it?"

"Boss, are we the first to lay the fort?" Bai Lang asked in surprise.

Lu Yang said, "Yes, I laid the fortress half a month ago."

"Why don't you say that." Xia Yuwei said in surprise.

Lu Yang shook his head with a smile and sincerely said to Jiang Ze, Xia Yuwei, and Zhuoju Qingren who were here: "I don't want to tell you, I'm really afraid to be the boss. If I said that at the time, who would you say Miss a word, our guild is over. "

"How weak we were at that time, we had to equip without equipment, and we did n't have levels and levels. If we were the first to fortify in that state, the first thing we could n't tolerate was the Necromancer and Bloodlust, and the hegemony. Neither He nor twilight will help us, boss, I really dare not. "

People such as Xia Yuwei and Zhuoju Qingren nodded in understanding.

Lu Yang said: "Also, everyone is here today. I have told you all the good things. Just now, Red Night they took people to kill the material library of the Necromancer Black Sword. The interception can create 20,000. Three thousand pieces of gold-grade equipment and weapons. "

Zhuoju pouring and others all stood up in excitement.

"Boss, really?" White Wolf asked excitedly.

Lu Yang said, "What did I lie to you? Now the bosses of the guilds of the Necromancer Black Sword are leading people to search in the north of the city. I let them hide first."

"It's great, 23,000 sets, we're rich now."

"This batch of equipment is based on a market value of more than 10 million credit points."

Lu Yang said: "I will give all these equipment to the guild, and let them hang in the guild warehouse after the completion of construction, all members participating in the battle can redeem by guild points."

Zhuo Jiu Qing and others were touched by Lu Yang's generosity.

Tu Feng said, "Boss, I haven't reported to you yet. This time we won the Necromancer and the Bloodthirsty Domineering, and got more than 10,000 gold-level equipment."

Lu Yang said: "Yes, so at least two or three pieces of equipment can be exchanged for guild points by participating in the battle. At that time, they will try to collect materials by themselves, and they can wear a set of gold-level equipment within one month. . "

Everyone nodded.

Lu Yang went on to say: "There is one more thing, the most important thing, the boss said before, who contributed the most to this battle and who the wind and thunder fortress was."

The turbid wine is pouring, Xia Yuwei, bitter half-life, Bai Shixiong, Sun Yu, Jiang Ze sit up straight at the same time.

Lu Yang looked at the six chiefs of his army and said, "Let's discuss with these people here. There will be more than one fortress in the future. Don't hurt your peace."

Zhuojiu Qingren and Xia Yuwei and others looked at each other.

The first one who said bitterly for half a life said: "I quit, I feel that I can learn a lot with the boss, and I plan to continue learning and go out."

The turbid wine poured a second and said: "Ladies first, I will also quit."

The white lion said: "The three brothers are good at attacking and not defending. The fortress is fine."

Sun Yu said, "I am too young, and I will let it."

Jiang Ze said, "I will let it."

Xia Yuwei looked at Zhuo Jiu and others in surprise, and said, "Did you discuss it?"

Zhuoju and others smiled.

Lu Yang was also a bit surprised. He didn't expect that the boys were quite modest and willing to know that Xia Yuwei had too many people and no place to put them.

"Since you do n't want it, give it to Xia Yuwei. I said before that 30% of the income of the fortress belongs to the Xia Yuwei team, and the remaining 70% goes to the guild." This is what he hit from the trapped dungeon.

"this is for you."

Xia Yuwei was still in a stunned state, after receiving the token, she said gratefully, "Thank you, thank you, boss."

Lu Yang said, "You do n't need to be polite with them either. The fortress is yours, but according to the current situation, only the players of our grand guilds have reached level 30, and other small guilds are still staying at the map of more than 20 levels. You can't make money with your 30% profit. When you

can make money, I estimate that both of them will also have strongholds ~ www.mtlnovel.com ~ Zhuojiu and Jiang Ze and others are stunned.

“Boss, without this, I’m just going to make Yu Wei dance to thank us.” Zhuo Jiu Qing said.

“Yeah, yeah, the boss is too puzzled.” Jiang Ze also looked depressed.

Xia Yuwei couldn’t help but bit her red lips and looked at Zhuo Jiu and others with an “angry”. “A bunch of bad guys.”

“It’s over, I’ve been shot.” Zhuo Jiu said leaning over his heart.

“Me too, I need to be rescued,” Jiang Ze said, dying.

Everyone laughed, making Xia Yuwei even more embarrassed.

Lu Yang said, “Okay, don’t make a mess, let’s talk business.”

Everyone was solemn.

Lu Yang said: “The boss will give you a request. Recently, I have gone out less frequently. The meals are mainly beef and greens. Others are not allowed.”

“What?” Everyone was a little confused.

Lu Yang said: “Trust me, don’t ask why, I will never hurt you.”

One thing that had the biggest impact on the Second World in the last life was the outbreak of the flu virus. At first, humans didn’t care, but people soon discovered that this was a new global influenza virus.

With the current treatment conditions, there is no way to treat humans who have got this flu, and even control is barely done.

In order to cope with this global crisis, countries require people to stay at home as much as possible and not go out. Many dangerous places and even schools are required to suspend classes.

Countries have always maintained an optimistic attitude to deal with the crisis, but they did not expect that the crisis would last for a full three years.

However, this crisis made "Second World". From the beginning of the crisis, the number of "Second World" players has rapidly grown from several billion to more than one billion, and finally reached the peak of three billion people simultaneously online.

Chapter 345 - Meet each other

"Uh, okay, anyway, we are very busy in the next game, and we have no time to go outside to play except school." Zhuo Jiu Qing said.

"We are the same," said the White Lion.

"I still have wasteland tomorrow, my brothers are waiting for us."

Sun Yu said, "I can't move."

Xia Yuwei knows about his broken leg.

Xia Yuwei said: "I'm the busiest here, and I have a headache because of 70,000 people."

Lu Yang said with a smile: "You must be prepared. The victory of this war will attract us to many advanced players, and we are ready to start the next war, you must be prepared."

"The next war?" Zhuo Jiu and bitter love half-life and others looked at Lu Yang with bright eyes.

Lu Yang said: "I have just heard the news that the black blood and the ten thousand remnants fled to the soul forever."

"What?" Zhuo Jiu and others frowned.

"Isn't the spirit eternal in the Sea Emperor City, what does it mean to receive the black blood."

Lu Yang opened the three-dimensional map and put it on the table. He said: "The Sea Emperor City is located below the city of St. Gall. It has 4 fortresses, three of which are above the Sea Emperor City. One is only 4 hours away. "

"This soul's eternal purpose is not pure." The turbid wine poured a survey of the map and said, "If you use the scroll to carry out the march, you can come to us in 2 hours."

Lu Yang said: "Yeah, the black blood runs to the eternal spirit with the Fortress Order of the Storm Fortress. The eternal spirit holding the fortress order is equivalent to the old cat pillow salted fish."

Everyone was amused by Lu Yang's words.

Lu Yang said, "Don't laugh, he still has two fortresses that haven't been beaten yet. After he has bothered down, he has to ponder the Fengelei Fortress."

Xia Yuwei's expression became serious, saying, "I will take strict precautions."

"What is it against him? Wouldn't it be better to hit him directly?" Lu Yang pointed at the Sea Emperor City. "Since the spirit is seeking death forever, then I will complete him, just as I will get you a fortress."

“Hey, this is good,” said the White Lion.

“We will take the team to upgrade in a while.” Xia Yuwei said with gritted teeth.

“I’ll stay with you,” Lan Yu said.

Xia Yuwei just nodded, Lu Yang said, “That, Yu Wei, Lan Yu borrowed me for a few days, and I took her to do a task.”

“Really?” Xia Yuwei’s eyes were full of tricks.

Zhuo Jiu and Bai Shi also showed hilarious expressions.

Lan Yu’s face was flushed, her head was full of shyness.

Lu Yang walked to Lan Yu’s side and gently held Lan Yu’s * and said, “Take care of them, you continue to discuss the upgrade, right? Don’t wait for me to come back and pull your levels too far.”

“Cut ~!” Everyone despised Lu Yang’s arrogant approach before fleeing.

Lu Yang didn’t care about those, it was true to rush to run with the blue feather, or let the boys get tangled up and had to be tricked.

Lan Yu snickered and ran out of the door with Landing Yang. The two found a place where no one was. Lan Yu clutched her small chest and said, “Hum, I’m scared to death, and the people will bully me again.”

Lu Yang said, “If you have me, don’t be afraid of them.”

Lan Yu nodded happily.

After so many wars, Lu Yang determined his absolute status in the city of St. Gall, so that Lan Yu 's worship of Lu Yang reached its limit, and the eyes looking at Lu Yang were all with light.

"How's it going? I've ignored you a bit these days when I'm busy fighting." Lu Yang said apologetically.

Lan Yu shook her head and said, "Very good."

After thinking about it, Lan Yu said, "It's just a bad guy in reality, who always bullies me."

Lu Yang Yile asked, "Who is it?"

"A bad guy with the same name as you, it doesn't count to say she bullied me, but it just makes me very depressed." Lan Yu Mengmeng said.

Lu Yang was so happy inside, that this person was him. He coughed deliberately, and said, "There are still such people, Lan Yu, tell me which school you go to, and I'll pack him up."

"No more, that person is not so bad, maybe he just likes it." Lan Yu thought for a while, and said blushing, "However, it's okay to meet, and I want to know who you are."

Lu Yang's heart almost jumped out of excitement. When Lan Yu said this, she clearly proved that she really liked her. Looking at Lan Yu's small head, Lu Yang couldn't help but said, "Sister, how about meeting tomorrow? . "

"Good is good, but I'm in Donghai, can you come over?" Lan Yu asked blushing.

Lu Yang said, "It just so happens that I'm also in Donghai."

"Ah ?!" Lan Yu looked up at Lu Yang in surprise and said, "Are we in the same city?"

Lu Yang nodded and said, "How about we meet at 7 tomorrow morning, I'll go to your school to find you in advance."

"Okay," Lan Yu said.

"Then we'll decide." Lu Yang said.

For this day, Lu Yang didn't know how long he thought about it, and now it can finally be realized. With excitement, Lu Yang can't wait to tell Lan Yu who he is now, but in order to surprise Lan Yu tomorrow, Lu Yang decides to hide this matter.

After chatting for a while, Lu Yang and Lan Yu each quit the game. Lan Yu is also looking forward to meeting each other. In his heart, Lu Yang must be a tall, very handsome boy, even if not, A very wise scholar.

With the little girl's longing, Shen Mengyao couldn't help thinking about Lu Yang in bed.

Twelve in the evening.

When Xia Yuwei quit the game, she saw that Shen Mengyao hadn't slept, and asked curiously, "Little girl, what are you doing?"

Shen Mengyao said dumbly: "Sister ~ www.mtlnovel.com ~ The elder brother explained that he will meet with me, I wonder what he looks like."

Xia Yuwei said with a black line on her head, "Hehe ~, you will know when you meet."

"Why the tone, have you ever seen it?" Shen Mengyao asked curiously.

Xia Yuwei felt guilty for a while. Although she had not seen her before, she knew who Lu Yang was, and hurriedly pretended to be indifferent, saying, "Well, men don't all look like that."

Shen Mengyao pursed her lips, and was still curious who Lu Yang was. Until two or three o'clock in the middle of the night, Shen Mengyao fell asleep.

On the other side.

Inside the studio.

Lu Yang was not asleep. Lying in the room, Lu Yang looked over at the starry sky outside the window because it was remote, starry in the night sky, like countless diamonds inlaid on a blue canvas, so beautiful and exciting.

“He will be reborn in this life. He will never let Shen Mengyao be harmed a little bit, and absolutely no one can take Shen Mengyao away from him.”

Chapter 346 - Hug beauty

Sleepless all night.

Even though Lu Yang had experienced so many storms in the last life, here in Shen Mengyao, Lu Yang still couldn't calm down.

Looked at his watch, four o'clock in the morning.

Lu Yang quietly got up from the bed and exercised outside. After two hours of intense exercise, Lu Yang stopped in exhaustion.

After washing, Lu Yang changed into a neat coat and came to the shade of the girl's dormitory in Dongdu University. At this time, it was only half past six.

Late September.

The autumn tiger is still fierce, and even in the early morning, there is a heat wave in the air.

Fortunately, there is a high banyan tree covering it, but Lu Yang's heart is getting more and more impatient. Suddenly, he began to doubt whether what he had done in reality would annoy Shen Mengyao, and whether he would leave bad things in Shen Mengyao, Will Shen Mengyao no longer like him.

...

A series of question marks tortured Lu Yang's heart as if he had entered boundless purgatory, the flames burned, and ants eroded the bones.

Just when Lu Yang was tortured and was about to break down, a brisk music came from behind him. It was a girl humming. Lu Yang came to her senses and Shen Mengyao came.

When Lu Yang was about to hide, he heard Shen Mengyao shouting, "Well, why are you here?"

Looking back, Lu Yang clearly saw Shen Mengyao's exquisitely dressed little appearance. Although she did not have makeup, the pure little girl did not need to apply pink powder, but she was still so eye-catching.

Long hair, big eyes that can talk like a pool of spring water, reddish little face, and that sloppy figure, this is the most beautiful look of Shen Mengyao in Lu Yang's memory.

Shen Mengyao looked at Lu Yang's eyes blankly and said, "Why do you look at me like that?"

Lu Yang, listening to his banging heart, knew that he could not avoid it. In this case, fight it.

Taking a deep breath, Lu Yang said, "I'll wait for someone here."

"You are waiting for someone?" Shen Mengyao said in surprise.

Lu Yang said, "Are you waiting for someone?"

"Yeah," Shen Mengyao said.

"Then who are you waiting for?" Lu Yang asked.

Shen Mengyao said without precaution: "The person I am waiting for is terrible. You always bully me. He said that when he saw that you were going to avenge me, he called ..."

Shen Mengyao's mouth opened up, and her eyes became brighter and brighter, her eyes filled with unbelievableness and surprise.

Lu Yang opened his arms and spread his hands, and said with a smile, "Is it Lu Lu?"

Shen Mengyao's small face gradually showed a surprised smile, and she squeezed her mouth slightly, her eyes filled with the feeling that you were bullying you and you were a bad guy.

"Brother Lu Yang, you are necrotic." Shen Mengyao said coyly.

Lu Yang walked in front of Shen Mengyao and couldn't help but stretch out his arms and hold Shen Mengyao in his arms, and said, "I want to give you a surprise, but I was afraid you were angry before seeing you. I was really afraid of death just now."

Shen Mengyao was surprised to listen to Lu Yang's inner monologue. She didn't expect that Lu Yang should care about her so much, and her heart was full of sweetness.

Before coming, Shen Mengyao imagined a lot of Lu Yang's appearance. Now she is the same person as Lu Yang who bullied her in the class but took care of her. For the first time, Shen Mengyao felt that life was so fulfilling.

However, this bad guy cannot be spared. Shen Mengyao secretly thought.

"Who says I'm not angry." Shen Mengyao looked up and looked at Lu Yang pretending to be angry. "To be honest, when did you find that I was Lan Yu?"

How could Lu Yang tell her that she was born again, and said deliberately: "Guess, I will meet you for the first time, listen to your tone of speech and behavior, and the time you go online, and the chat between Xia Yuwei and Zhang Zibo. Guess it's yours. "

Shen Mengyao said with a small mouth, "Good you bad brother, bully me during the day, and love me at night, you mean it."

Lu Yang said with a distressed expression: "I regret it now, I knew I would not bully you."

"Huh, it's late." Shen Mengyao yelled at *, deliberately drumming his mouth.

Lu Yang knew that Shen Mengyao was talking angry, because the little girl was still in her arms, and the moment she deliberately raised her chest, Lu Yang felt that her chest was pushed up by two raised parts.

Lu Yang's heart throbbed. He had never been so close to Shen Mengyao in the last life, but now Shen Mengyao is angry. Lu Yang hurriedly coaxed and said, "Don't be angry, my brother knows that he must be wrong, and he must compensate you, It will be eleven soon, will I take you to the playground, OK? "

Shen Mengyao's eyes lit up and he said, "Really, don't lie to me."

She likes to go to the exciting playground, but unfortunately, her parents are determined not to let her go to that kind of place in order to train her to become a "girl lady".

During the last holiday, Lu Yang took Shen Mengyao to the holiday, and when he was chatting, he heard Shen Mengyao talk about it.

Lu Yang said, "Of course, forget that I took a leave of absence in the game, I will take you to play at eleven."

"Talk and talk," Shen Mengyao said.

Lu Yang said, "Of course, in order to make my wife happy, let me do anything."

Shen Mengyao's face was red again, and Xiao Yang's fist hit Lu Yang's chest and said, "Bad guy."

"Wow ~~~" Behind the tree not far away, three female voices sounded at the same time.

Lu Yang and Shen Mengyao looked together and found that Chu Yu, Zhang Meng, and Liu Shuang were hiding there, exposing their small heads and sighing.

Seeing that they were found, the three women glanced at each other and came over with a smile.

Zhang Mengjiao humped her finger and said, "Okay, Lu Yang, we thought you were in love, but then think of a way to help you. It turns out you already succeeded."

Liu Shuang said, "Yeah, yeah, I've been sad for you for several days, you're too unrighteous."

Chu Yu said, "Yao Yao doesn't tell us the truth, let's say, how are you two going to compensate us?"

Shen Mengyao was so shy, she wanted to explain but she didn't know what to say ~ www.mtlnovel.com
~ Lu Yang laughed and said, "This month's meal, I'll pack it."

Liu Shuang said, "This is pretty much the same."

Chu Yu thought for a while and said, "However, just now I heard that someone seems to be going to the playground. Poor three of us children who can't return home for eleven, there is no place to go."

Zhang Meng immediately looked sad and Chu Yu pretended to cry.

Shen Mengyao left Lu Yang's arms, came to the three and said, "Well, I'll take you with me."

"I know you're the best." Zhang Meng and Chu Yu said together.

"By the way, we will torture this guy for you." Liu Shuang said.

Shen Mengyao shook his head and said, "No need, he is a good man."

The three women fainted collectively.

"It's over, our Yaoyao is not saved." Chu Yu said.

Chapter 347 - witness

Lu Yang walked proudly to Shen Mengyao, holding Shen Mengyao's small hand and said, "But we have been in love for three months. Who am I? Yaoyao knows well."

"Ah?" Chu Yu looked at Shen Mengyao in surprise, but saw Shen Mengyao nodding.

“How is that possible? You two knew each other before.” Zhang Meng asked.

Shen Mengyao said: “My brother has known me for a long time and has kept me out of it for three months. He told me the truth today.”

The flames of Chu Yu’s gossip were burning, and asked, “Come on, what’s going on.”

Shen Mengyao took a look at Lu Yang. Lu Yang said, “Let’s say, the guild is now developing smoothly, and these things will be told to them sooner or later.”

Shen Mengyao nodded, telling Lu Yang that she was in the game.

After some introduction, the three women looked at Lu Yang in shock.

“Oh my God, you are,” Zhang Meng deliberately lowered his voice, “the president of the Iron Brotherhood.”

“Master, now countless people in China are talking about you. It turns out that you are with us.” Chu Yu said with bright eyes.

“Boss, we also want to join the Brotherhood.” Liu Shuang said.

The three women also play “Second World”, but they are all casual players and have not joined the guild.

Lu Yang said: “No problem, I’m short of help. I welcome you if you want.”

The guild was short of manpower, and Lu Yang was willing to let Shen Mengyao reveal her identity this time in order to recruit people around him who could trust him.

Lu Yang could see that the three sisters were all people who did not have bad intentions. In this case, Lu Yang was willing to accept them to the Iron Brotherhood.

Came to the school cafeteria.

As soon as he entered the room, Mo Long and Lin Dong and other roommates from Lu Yang also just passed by. When they saw Lu Yang, Mo Long beckoned and shouted, "Brother, have you finally returned to military training, are you better?"

After Lu Yang killed Wang Rui that day, he didn't take long to return to the game to participate in the war. After two wars, Lu Yang almost missed the entire military training time. As for the reason for the leave, Lu Yang said he was sick.

Huang Xiang saw Shen Mengyao come with bright eyes, and deliberately pretended to care about Lu Yang and asked, "It's not a serious illness, is there any sequelae?"

Lu Yang hugged Shen Mengyao's * gently, and said, "All is well, thank you for your concern."

"I go."

"My goodness."

"what happened."

Mo Long, Lin Dong, and Fei Xiang screamed excitedly at Lu Yang's movements, causing Shen Mengyao to blush again, but did not refuse Lu Yang's presumptuousness.

Lu Yang said proudly: "Introduction, this one will be your sister-in-law."

"The sister-in-law is good." Mo Long, Lin Dong and Fei Xiang shouted in disguise. For a beauty such as Shen Mengyao, the three knew that they had ordinary families, ordinary studies and ordinary looks, and they would never catch up.

Instead of watching the goddess being chased by others, it is better to be chased by your own brother, which is more comfortable.

The eyes of Huang Xiang and Zhang Qiang were full of jealousy, but the two also shouted a bitch, but they were unwilling to be exposed.

Lu Yang pretended not to see, and pulled Mo Long and others into the cafeteria.

Although Lu Yang has not lived in a dormitory for a few days, Lu Yang is the boss in the age ranking of the dormitory.

Mo Long shouted, "Boss, you have to treat yourself to breakfast today."

Lu Yang said generously: "No problem, not only for breakfast, but also for lunch, everyone at the Uleak Restaurant."

"Boss is interesting." Mo Long and Lin Dong shouted.

As a group of young people ate, the subject of conversation quickly became "Second World."

Morong said excitedly: "Do you know, the Brotherhood of the Iron Blood broke the Necromancer Black Sword yesterday with 170,000 people and forced the Necromancer Black Sword to dissolve."

Lin Dong said, "I saw this news yesterday. It was really exciting."

Fei Xiang said: "If only I could join the Jagged Brotherhood, such a guild would be really great."

The three sisters Chu Yu looked at Lu Yang, and Lu Yang shook his head and motioned them to stop talking.

Shen Mengyao gave Lu Yang a glance, and she guessed that Lu Yang wanted Lin Dong to surprise them again.

Huang Xiang looked at Lu Yang and asked: "Are you free at night, how about upgrading together, I am already level 25, and just take you to play together."

Morong said, "Yes, boss, come together at night."

Lu Yang said: "Okay, upgrade together at night, I will contact you when it comes online in the evening."

"Great, so that everyone in our bedroom can play together." Lin Dong said.

"Meng Yao, how about you come together for a few nights." Huang Xiang asked, his main purpose is Shen Meng Yao.

Shen Mengyao nestled in Lu Yang's arms and said happily, "Of course, where is my brother?"

She found that Huang Xiang and Zhang Qiang had problems. In order to have trouble in the future, Shen Mengyao decided to clarify the relationship now.

"Wow ~~~" Lin Dong and others were surprised.

"Boss, teach us, in the end what method is used, Xunzi loves you so desperately." Mo Long shouted.

Lu Yang laughed and said, "You will know at night."

Breakfast is over.

Lu Yang said to Shen Mengyao, "You can see it."

Shen Mengyao said in surprise: "You already knew."

Lu Yang said: "My wife is so beautiful, how could I be the only one to see it, not surprising."

Shen Mengyao said with a small face, "Hate."

Lu Yang laughed and took everyone back to the playground after checkout.

Huang Xiang and Zhang Qiang both saw Lu Yang and Shen Mengyao being so close, and they hated them, but they were unwilling to decide to continue their efforts.

Of course, the two did not communicate with each other.

Huang Xiang looked at Lu Yang's back and quietly took out the phone to find Wang Rui's mobile phone number and sent a message in the past.

At noon ~ www.mtlnovel.com ~ After the military training, Lu Yang Ruyu brought 5 people in the bedroom, and Shen Mengyao, Chu Yu and other beautiful women to Youlai Ke and came to the scheduled private room.

Lu Yang said, "Please order whatever you want. Don't be polite with me. Crab, lobster, fish head, what you want to eat."

Moron shouted, "Boss, really?"

Lu Yang said: "It is necessary, I am happy today, I opened my food, and don't be polite with me. Waiter, hairy crabs come in four cases first."

"Boss is interesting."

Mo Long, Lin Dong, Fei Xiang and Chu Yu screamed together. Huang Xiang and Zhang Qiang were more surprised. The two did not expect that Lu Yang was so rich.

Lu Yang and everyone were seated. After the meals were ready, he said, "Today is also a witness, and Meng Yao will be my girlfriend in the future."

The voice just fell.

The door of the private room was pushed open, and Wang Rui came in with a glass of wine.

Chapter 348 - Huang Xiangruo

"I just felt familiar just now. It turned out to be Meng Yao." Wang Rui said with a smile.

Shen Mengyao frowned.

Lu Yang stood up and smiled and said to Wang Rui, "I don't know what Wang Xuechang has to teach."

"What can I suggest?" Wang Rui still said with a smile, walked to the table, looked down at Shen Mengyao, who said without a word, "I just heard you and Lu Yang are in love, right?"

Lu Yang put his arm on Shen Mengyao's shoulder and said, "Say something to me, yes, I'm in love with Shen Mengyao, what's wrong."

Wang Rui watched Lu Yang's action with jealousy, and said coldly, "Lu Yang, don't think that you can do what you want with two efforts, are you worthy of Shen Mengyao."

Do you know Shen Mengyao's family background, do you think her parents would agree? Don't think that if you lied to Shen Mengyao, you could lie to her parents. You just want to get her family's money. Stop dreaming. "

Shen Mengyao stood up and said angrily, "Wang Rui, don't talk nonsense."

Mo Long, Lin Dong and Fei Xiang stood up and glared at Wang Rui at the same time.

"What are you talking about?"

"What's so great about you, you are not welcome here."

"Our boss is much better than you."

Zhang Qiang and Huang Xiang also stood up, but the meaning of watching the drama in their eyes was strong.

Lu Yang didn't expect that Mo Long and their elder brothers were so interesting, patted Mo Long's shoulders and said, "Sit down, don't get angry."

The three looked at Lu Yang in confusion, not understanding what Lu Yang meant.

After appeasing the three, Lu Yang turned around and held Shen Mengyao's slender waist, and said, "Wang Xuechang, you're right, but I just like soft rice, and Meng Yao will let me Eat, you say this is not irritating. "

Wang Rui's expression was stagnant. He thought he would destroy Lu Yang's self-confidence when he said that, but Lu Yang didn't care that he didn't care.

"You, you." Wang Rui tried to scold Lu Yang but didn't dare, afraid that Lu Yang would hit him.

Lu Yang said, "What about me is nothing to do with you. If it's okay, what should you do? Don't stand in the eyes."

Shen Mengyao was just amused by Lu Yang's words. The chairman of the guild of the Brotherhood of Iron and Steel Brothers also said that it would be too owed to have a soft meal with her.

"You." Wang Rui looked at Lu Yang and Shen Mengyao angrily, and without an excuse and dared not to talk any more, he could only leave the room bleakly.

However, although the person was gone, the atmosphere in the room was a bit embarrassing, and what Wang Rui said left a knot in everyone's heart.

Huang Xiang deliberately said: "Lu Yang, although Wang Rui's words are not good, they are true. What do you two plan to do in the future?"

Zhang Qiang said, "Yeah, if Meng Yao's parents knew, they wouldn't agree with you."

Zhang Meng said unpleasantly: "What's the matter, Yaoyao cannot marry love."

Liu Shuang said angrily: "Yeah, besides, our family Lu Yang is also very powerful."

Chu Yu quickly hit Liu Shuang under the table, and gave him a look to signal that he shouldn't talk nonsense. Liu Shuang then reacted and stopped and stopped talking.

"That is, I am very good." Lu Yang said proudly.

Shen Mengyao is too lazy to care about Lu Yang's power or not. The only relationship between her and Lu Yang is clear to her. What she cares about now is that Lu Yang, a bad guy, is secretly taking advantage of her.

The little beautiful woman bit her red lips and said to Lu Yang, "Everyone is gone, the hands are not loosened, bad guy."

Lu Yangzhen was reluctant to let go of his hand, and put his hand back with an aggrieved look, which caused Zhang Meng, Mo Long and others to laugh, and in the laughter, the awkward atmosphere just swept away.

Shen Mengyao 's small fist rubbed Lu Yang's chest and said, "Brother ~, are you still in shape?"

Lu Yang laughed and was very proud.

"Some of you are online tonight. I'll take you to upgrade." Lu Yang said, holding Mo Long's shoulder.

"Boss, do you have a high grade for me?" Morong said proudly, "I'm all 20."

Lu Yang said with a smile: "You guys will know at night."

After lunch, after one afternoon of military training, Lu Yang sent Shen Mengyao back to the dormitory and then returned to the studio.

Inside the game.

Moron and others have logged in to the game and gathered in St. Gall.

"Why hasn't Lu Yang arrived yet?" Huang Xiang asked with a frown.

"No," Mo Long said with a grin. "It is probably Lu Yang who is sending us to the campus of Shen Xiaoyuan."

Huang Xiangmeng felt agitated in his heart and said, "No more waiting for him, let's go first."

Lin Dong said: "Also, if the boss's level is too low, we will come back to pick him up soon."

Morong said excitedly: "Yeah, yeah, time is tight, we must rush to upgrade, or we will be left again."

Fei Xiang said: "The boss is really weird. He doesn't tell us his account and name, so mysterious."

"Who knows." Zhang Qiang said coldly.

Just a few of them walked out of the city gate for less than half an hour, Lu Yang landed the game and searched naturally by the name given by Mo Long.

A reminder box appears with detailed details that are born naturally. Lu Yang made a comparison and confirmed that it was Mo Long. Lu Yang initiated a friend application to Mo Long.

"I wipe." Morong shouted helplessly.

"What's wrong?" Lin Dong asked.

"What happened, startled." Huang Xiang asked.

Mo Long looked at the crowd and said, "Lu Yang added me."

"If you add you, you will be added, what?" Zhang Qiang said.

Morong said incoherently: "But, it's not the boss Lu Yang, it's the old mainland Yang of the Jagged Brotherhood."

"How is that possible?" Huang Xiang and others all came together.

Mo Long suddenly came to his senses and said, "No, our boss in the dormitory is the old continent of the Jagged Brotherhood. Otherwise, I don't know him, why should he join me?"

Lin Dong said in surprise: "Add him quickly and ask."

Fei Xiang said: "Hey, if the boss is really, we will be developed, I have seen 30 level gold equipment beckoning to me."

The three laughed and nodded together, but Huang Xiang and Zhang Qiang didn't feel any good.

Morong clicked to confirm.

A voice application was sent over. Morong hurriedly clicked again to confirm. After the connection, he asked quickly: "Boss, are you, are you really the boss of the Jagged Brotherhood?"

Lu Yang said with a smile: "Of course it is."

"Oh Jess, Boss, you are a sloppy idol." Morong yelled.

Lin Dong, Fei Xiang, and other people around them heard Mo Long's words, and they were all very excited. Obviously, this matter confirmed that the boss of their dormitory was Lu Yang, the chairman of the Iron Brotherhood.

"Where are you?" Lu Yang asked.

"Where's the downwind plain outside St. Gall." Moron said.

Lu Yang said, "Send me the map. I'll find you."

"Yes." Mo Long immediately sent the map to Lu Yang.

Lu Yang turned off the intercom, and ran toward the falling wind plain in a blazing speed. At the same time, he dialed Shen Mengyao's intercom and said, "Sister, where are you?"

"I took Chu Yu and the three of them to upgrade at the Red Fort. Sister Yu Wei and Sun Yu were also with them." Lan Yu said.

Lu Yang said: "Just right, I have something to discuss with them, you let them wait for me."

Turning off the intercom, Lu Yang ran to the falling wind plain and found Mo Long and several of them.

When the three Mo Long saw Lu Yang coming, they all welcomed them excitedly.

"Boss, it really is you, my God, I'm so excited." Mo Long said.

"Boss, ask for support." Lin Dong said flatteringly.

"I also ask for support." Fei Xiang said.

Zhang Qiang and Huang Xiang immediately changed their attitudes and said together, "Boss, we also ask for support."

Lu Yang pretended not to care, and said, "No problem, at level 30, I will send you a set of gold equipment."

"Boss, you are so interesting." Moron said.

Lu Yang thought that what he was doing now was just to repay the three Mo Long. When he was unlucky in the last life, the three Mo Long had been participating in a gold group to help him pay back. Compared with them, he did it now. , But it's just a hair.

Lu Yang said: "Don't be polite with me. I'm short of help now. I'll find a place for you to upgrade first. By the way, let me familiarize you with the guild. By the time you reach level 30, you will all be promoted to the guild management. , Then the boss will pay you. "

"Really?" Moron asked.

Lu Yang said, "Stupid brother, when is Lu Lu talking to me?"

"Wow ha ha, then I take it seriously." Moron said. His family is the poorest, and it would be very important for him to have an extra income during school.

Lin Dong said: "I promise to complete the task assigned by the boss."

"Even so," Fei Xiang said.

Huang Xiang originally wanted to show off his position and strength in the game. As a result, Lu Yang's appearance crushed him into dregs. Now he is receiving such great benefits from Lu Yang. Huang Xiang reluctantly said: "Thank you very much Ah ~ www.mtlnovel.com ~ Boss. "

Lu Yang looked at Huang Xiang sincerely and said, "We are brothers in a dormitory. Don't be kind to me, and you will not be allowed to take me as president. You are my brothers, you know?"

In his heart, Lu Yang thought to himself: Huang Xiang, do n't be polite with me. The knife should continue to punch the knife, and the boxing punch should continue to be the boxing punch. The nest is the best at you. If you do n't rebel, I do n't France uses you to kill Liu Jie.

Where did Huang Xiang and Zhang Qiang know Lu Yang's thoughts? When they heard Lu Yang say this, they immediately pretended to be ashamed.

"Be assured, brother, we will try our best to help you in the future, absolutely let you worry about nothing." Huang Xiang said.

Lu Yang just when he was farting, patted his shoulder sincerely and said, "Let's go, I'll take you to my fortress."

"Is the Storm Fortress?" Moron asked.

Lu Yang said, "No, it's the Red Fort. Your boss, I, has two forts."

"Fuck." Mo Long and others were speechless.

Chapter 349 - Alternative effects of Cyclops

Red fortress.

When Lu Yang arrived, people like Xia Yuwei, Duo Jiuqing, and half-heartedly were waiting at the door.

Seeing Lu Yang coming, several people greeted together.

"Boss, you're here." Zhuoji said respectfully.

"Boss, I have been waiting for you for a day." White Wolf said excitedly.

Lu Yang said with a smile: "Go ahead and talk later when something happens. I will arrange my college roommates first."

Zhuoju and others looked at Mo Long and others behind Lu Yang, and they all showed welcome smiles.

Mo Long, Lin Dong and others are talking secretly. Zhuojiu and White Wolf are their most admired masters, and Xia Yuwei is their favorite goddess.

Suddenly, they found themselves in the limelight, and Mo Long and others were at a loss.

“Welcome you to join,” said Duojiu pouring.

Morong said excitedly: “We will work hard.”

Lu Yang laughed. The boy Mo Long was the same as the last generation. He wouldn't talk when he was nervous. He said, “Go ahead, I'll send them to upgrade.”

“Yes.” Zhuo Jiu and Xia Yuwei and others left and headed to the fortress hall.

Lu Yang took Mo Long and others to the place where the strangers were at the door, and found Shen Mengyao and Chu Yu. The person on duty today happened to be flying with red leaves. Take care of it. “

“Yes,” said Hongye Feiwu.

“Boss, you are so interesting.” Zhang Meng said, just now she knew from Shen Mengyao that Lu Yang would send them a set of 30 level gold equipment.

Lu Yang said, “You guys are my good sisters. I remembered them to help me chase Meng Yao.”

The three sisters also showed a proud expression at the same time, which was the most right thing they thought to do.

Lu Yang explained to them two sentences, so that they could upgrade first and then take Shen Mengyao to the fortress hall.

Shen Mengyao watched Lu Yang stop talking.

Lu Yang asked, "What's wrong."

Shen Mengyao said: "I don't know if it is my illusion. I always feel that Huang Xiang and Zhang Qiang look at you strangely."

Lu Yang said, "Your instincts are not there. They have problems."

"Ah?" Shen Mengyao looked at Lu Yang in surprise.

Lu Yang didn't explain, took her to find Zhuo Jiu and others, and clicked on the special space system. Lu Yang took everyone into the special space.

In the conference room-like space, Zhuoju just sat down and said with a smile, "Boss, are you these brothers who are going to promote you into the management?"

"These people look pretty good," White Wolf said.

Lu Yang shook his head and said with a smile: "Well, there are two people in there."

"What?" Zhuo Jiu, Xia Yuwei and others looked at Lu Yang blankly.

"Brother, I'm going to ask just now, why do you take them with you if you have any questions?" Lan Yu asked.

Lu Yang sat down in a comfortable position and asked, "Have you heard of Jiang Qian stealing books?"

Zhuojiu and others nodded, and Xia Yuwei and Lan Yu shook their heads.

Lu Yang said: "The story is simple. During the period of the Three Kingdoms, Jiang Qian was instructed by Cao Cao to go to Soochow to persuade Zhou Yu. Zhou Yu knew what this grandson was doing. He pretended to treat him as a brother, and slept in a bed at night. The letter was placed on the table, and Jiang Qian was fooled.

As a result, Jiang Qian was really fooled and took this letter to Cao Cao. As a result, Cao Cao killed his sailing generals Cai Yan and Zhang Yun, and Cao Cao lost his general. "

Everyone raised an eyebrow.

Bai Lang said, "Boss, the two people in question are Jiang Gan?"

Lu Yang said: "Exactly, this time, when I am going to be Cao Cao, and let these grandchildren betray me in the future, not only can they not hurt me, but they can help me."

"Who are these two people?"

Lu Yang said: "Huang Xiang and Zhang Qiang, remember, when you chat with them, you must not reveal any flaws, and you must treat them like brothers. However, the secrets of the guild are not allowed to be told to them, know? Even if you want to talk, you have to discuss it with me in advance. "

Everyone nodded together, showing smirk expressions. For bosses like Lu Yang, they really like it so much. People are savvy already close to monsters. Follow him, and you don't have to worry about being spoiled by others.

Lan Yu said, "Brother, you are so bad."

Lu Yang said proudly: "My name is to plan ahead. Otherwise, we wouldn't even know that the two boys will die in the future. Do n't forget, this game is not only for humans, but also for orcs and elves. Call over, these two boys have betrayed us, but you know how defeated the guild can be if you beat it once. "

The crowd was immediately solemn. The game is still in a state of extreme shortage of materials. Losing any gold-level equipment requires a player to collect materials for a week or two. This is still in the case of the drawing of the guild, otherwise it will be more costly.

“Be assured, I will pay special attention to them,” Tu Feng said.

Lu Yang nodded and said, “Don’t worry, they are just a few hidden dangers. Why are you all here today?”

Xia Yuwei said dejectedly: “Boss, I can’t beat the fortress to open up wasteland. The last lords of the Fortress of Thunder are too difficult.”

Zhuo Jiu said, “The strange inside is either the wind system or the thunder system. We have worked hard for a day and we still have a lot of dead 30 brothers. We are recovering the level here.”

Lu Yang recalled that it was also the most difficult for Fenglei Fortress to open up wasteland in the last generation. The ultimate boss thunderstorm lord inside knew the secondary forbidden spell, which covered almost the entire fortress’s thunder attack. It was very difficult to open up wasteland.

Lu Yang said, “I have a solution, but I don’t have experience of fortresses.”

“What way?” Everyone looked at Lu Yang in surprise.

Lu Yang said: “It’s simple ~ www.mtlnovel.com ~ Let Sun Yu pull the one-eyed Beamon to the Wind and Thunder Fortress. One-eyed Beamon can kill the thunderstorm lord with two hammers.”

All the monsters in Second World are not in the same race and are in a state of hatred. As long as they enter the territory of the other party, they will be attacked relentlessly.

Xia Yuwei couldn’t help but hit her head and said, “I’m so stupid, why didn’t I think of this way?”

Zhuo Jiu said, "Yes, this way the fortress will be knocked down, and then Sun Yu will pull one-eyed Beamon away, and the fortress will be knocked down."

Lu Yang said, "Yeah, it's that simple."

"I'll go now." Xia Yuwei said excitedly.

Lu Yang said, "Don't worry, wait a moment."

"Anything else?" Xia Yuwei asked.

Lu Yang said: "Of course, when I build the fortress, and then I will give you a bundle of fortresses back to the city roll, and then come to the red fortress, no matter where it is, one of the fortresses can reach the city roll."

Chapter 350 - Liu Jie visits

Bringing muddy wine and Xia Yuwei and other people around the lava three-headed dog to the side of the fortress hall next to the wall, Lu Yang put his hand on the red crystal.

The sound of "Booming" sounded, and a huge stone gate, 30 meters wide, slowly integrated into the city wall.

Zhuoju pouring and Xia Yuwei and others took a look inside, just to see the red fortress token hanging on the **** in the crater in the distance.

Lu Yang clicked the construction page.

The fortress hall, 3000 gold coins, bought.

The fortress store, 1,500 gold coins, bought.

Stronghold vault, 2000 gold coins, bought.

Fortress Lab, 2000 gold coins, bought.

Fortress Arrow Tower, 300 gold coins, buy 20.

Fortress walls, 1 gold coin, buy 5000.

Fortress Hotel, 3000 gold coins, bought.

Lu Yang has a lot of money recently. He spent more than 10,000 gold coins to buy all the buildings that should be in the fort, and even repaired the fort.

For example, the five lord monsters at the main entrance of the fortress refreshed hundreds of mobs and rushed to the five entrances of the gate each time. They were changed by Lu Yang to destroy the space behind them, and brushed the interior hall. A corridor that focuses the refreshed monsters within a narrow 20-yard range, making it easier for men to upgrade.

The lava three-headed dog in the fortress hall was also surrounded by a wall of 20 yards wide by Lu Yang with the city wall. Later, he attacked the lava three-headed dog. A lot easier.

Above the five entrances of the fortress's main gate, Lu Yang bought four iron gates to close the four gates on the left and right, leaving only the middle one.

There are 10 arrow towers directly above the gate. This height will never be attacked unless a mage and archer can approach the fortress or use a forbidden spell.

There are 3 archers in this type of arrow tower, each with a level of 50 elites. The attack, defense and blood are very high. If there is a small enemy launching a sneak attack at night, only these 10 arrow towers can solve it.

The remaining 10 arrow towers were placed in the inner city area by Lu Yang, and just 10 arrow towers can guard the entire inner city house without dead ends.

“Boss, why are there 10 arrow towers in the inner city?” Mao Qiu asked.

Lu Yang said: “After a while, you will understand that there are many very interesting props in this game.”

A flash of light flashed, and the fortress hall was completed. Lu Yang brought the muddy wine and Xia Yuwei into the hall.

The first-level lobby is not very wide, but there is no problem to accommodate 50 people. A large round table is placed in front of everyone, and there are seats around it.

Lu Yang sat on the main seat, signalling that you were watching the seat inside the fortress hall.

There is a crystal switch in his position. Lu Yang clicked down and a three-dimensional view of the entire fortress appeared on the table.

“This fortress hall still has such a role!” Said White Wolf in amazement.

Lu Yang has been familiar with the fortress’s various processes for a long time. He has no new sense here. He pointed to the entrance of the fortress’s lobby and said, “In the future, this place will be open to the outside, not a player inside the guild. Hotels as their temporary rest place.”

There is no safe zone inside the fortress, and fighting can occur at any location, unless it is resting in the hotel, it will not be attacked.

Xia Yuwei's eyes lit up and she said, "Boss, isn't this hotel quite profitable?"

Lu Yang said with a smile: "Yeah, even if I only collect 1 copper coin at a time, when all players reach level 30, there are hundreds of thousands of players who come here to play the game every day."

"Isn't that going to collect dozens of gold coins in a day," said White Wolf.

Lu Yang shook his head and said, "Your boss, I'm not stupid. I only received 1 copper coin from a level 30 player. Am I not short of heart? Tell you, I'm going to collect 30 copper coins from them. One day is the hotel money, we can Earn hundreds or even thousands of gold coins. "

One thousand gold coins is equivalent to 300,000 credits, 300,000 a day, and 9 million a month. It is only then that the turbid wine pouring and Xia Yuwei and others understand the significance of the fortress to a guild.

"Boss, the guild can really make money with the fortress then." Mao Qiu said.

Lu Yang said, "What do you think?"

The fur ball scratched his head and said, "I always thought the guild would not be able to make money."

Everyone laughed.

Lu Yang also said with a smile: "Stupid brothers, there will be more and more places to make money in the fortress in the future. Players come here to upgrade, whether to buy medicine, we can build a pharmacy.

Is it more convenient to have a deal here? We can set up an auction house. If there is cheap equipment, we buy it here and go to St. Gall for high-price auctions. We can also earn the difference. The role of a fortress is quite large. . "

Pharmacies and equipment stores are the most profitable businesses in the game. Especially pharmacies, who goes out to upgrade without medicine every day. The income of the pharmacy alone is higher than the hotel's income. It is very likely that the net income of the fortress can reach daily. Three thousand gold coins, this is not yet the most profitable scalping business.

Zhuojiu and Xia Yuwei and others nodded their heads to understand that if anyone encounters a business that earns nearly 30 million a month, no one can hold it back.

Lu Yang said: "This is also why I want to grab the fortress externally. The guild is getting bigger and bigger, and the expenditure is getting more and more. If there is not enough fortresses to bear the cost, we will only get weaker and weaker. The guild defeated the annexation. Besides, why don't the brothers make money together and let others make money?"

Everyone laughed.

System prompt: The store you built has been completed

Lu Yang pointed to a storefront in the fortress three-dimensional picture and said, "This is the store, which sells back city rolls. I set it in the middle of the fortress hall."

Zhuojiu and Xia Yuwei and others wanted to see the fortress return to the city roll, and ran to the fortress hall to buy a large bag.

When Lu Yang took Lan Fei to the fortress hall, the guild players in the fortress were in surprise.

"Boss, what happened, why the fortress changed so much, and things like fortress shops and arrow towers appeared." Hongye Feiwu asked excitedly.

Lu Yang said: "Simple, the boss has knocked down the fortress. This will be our home in the future."

"Great, we finally have our own fortress." Hongye Feiwu said happily.

Lu Yang opened the guild channel and sent a whole message.

[Guild Channel] Lu Yang: The fortress successfully opened up wasteland. In order to thank all members for their efforts for the Guild, everyone is awarded 50 Guild points.

50 guild points can be redeemed for a 30-level silver-quality two-handed sword or a skill book of level 10 or higher, and 50 guild points can be redeemed for a 30-level gold hand guard, or you can find the materials to deduct Gold coins to build equipment.

The entire guild boiled instantly.

Tu Feng reluctantly said to Lu Yang: "Brother, this time you are clearing one fifth of the guild's inventory."

Lu Yang said with a smile: "The next war is very close. We must always be ready to let our men get equipment in advance, and the upgrade can be faster."

Tu Feng nodded.

Suddenly, Tu Feng frowned, and said to Lu Yang: "Brother, there is a person who claims to be Liu Jie who wants to buy our guild, and names to talk to you."

Lu Yang's hands clenched his fists, and gritted his teeth and asked, "You say the name again."

"Liu Jie."

"Very good." Lu Yang said to Tu Feng: "Let him add my friend, I am open to apply."

Tu Feng nodded, and soon, Lu Yang unlocked the friend's application within ten minutes. A player named Tianyi sent a friend application.

Lu Yang quickly accepted.

“Hello Lu Yang, I am Liu Jie, Executive Director of the Board of Directors of Zhongtian Consortium.” Liu Jie said.

Even after the last life, when Liu Jie’s voice was heard again, Lu Yang still couldn’t help but want to kill him with a shot.

“Hello, Mr. Liu, what are you doing to me?” Lu Yang asked.

Liu Jie said, “I have appreciated your fights a lot, and my consortium hopes to have some cooperation with you.”

In the last life, Liu Jie told him this kind of words with gentleness, and then sent insidiously to buy his men, Lu Yang asked: “How to cooperate.”

“I invested 30 million to buy 80% of your guild. How about it?” Liu Jie asked smugly. Before negotiating with Lu Yang, he had inquired in various ways in the game. Lu Yang was just an ordinary casual player before. It was nothing like this money he had never seen in his life.

Lu Yang couldn’t help listening to Liu Jie’s words and said, “Mr. Liu, how could you make such a ridiculous price?”

“It’s ridiculous?” Liu Jie was somewhat stunned by the hypocrite, and asked, “What do you mean by that?”

Lu Yang said: “Your money is not even enough to buy my 1% of the shares. Are you sincere?”

Liu Jie raised his eyebrows, and according to Lu Yang’s meaning ~ www.mtlnovel.com ~ his guild worth 10 billion credits, sneer, Liu Jie said: “Chairman Lu Yang, I think about the value of the guild There may be some differences between the two of us, and if you think about it, let me think again. “

Lu Yang said: "Don't think about it, I have no reason to accept the price you gave."

Liu Jie did not expect Lu Yang to be so tough. Seeing Lu Yang was going to hang up, Liu Jie couldn't help threatening: "Chairman Lu Yang, you may not know yet, the beasts have been unified by me by a third. Next, I will start to buy the guilds of the Terrans and Elves, if that time, I am afraid it will be embarrassing to see you again. "

Lu Yang knew that Liu Jie's last life was to scatter money to recruit everywhere. However, in this game, it is not only Liu Jie who understands the people. The consortiums and companies he enters are countless. Many people are optimistic about the future of Second World. Prospects.

Liu Jie's first acquisition seemed very successful. In fact, he only acquired a few large guilds. He did not acquire any of the medium and large guilds.

Lu Yang said, "It's really time for us to compare it."

Turning off the intercom, Lu Yang blacklisted Liu Jie.

Chapter 351 - Heart Refining Mission

Zhuoju Qingren and Xia Yuwei and other people were gathering around Lu Yang, and they looked at Lu Yang curiously.

"Boss, is there anything wrong?" Zhuoju asked intently.

Lu Yang said, "The grandson of the Zhongtian Consortium, Liu Jie, wants to buy our guild and buy 30% of the shares in our hands with 30 million cash."

"Fart," scolded bitterly for half their lives, they all knew that the fortress would soon usher in a period of high income, 30 million let alone buy 80% of the guild, 1% is too small.

"Is this sick?" Mao Qiu said.

Lu Yang said: "Not only is sick, there is also psychiatry, saying that if we don't sell him, we buy someone else, and then come to hit us."

"Grass." Bai Lang cursed: "He pretends to be big, he dares to bring someone to me to kill him."

Lu Yang said: "Don't take care, this kid is a bit capable, there are a lot of guilds lacking money in the game, and he can really buy some guilds at a low price. In the past few days, you can open up wasteland fortress. "

"Yes." Someone was stared at by a consortium, so that people such as Zhuojiu Pour and Xia Yuwei were so angry that they went out with the main forces to upgrade.

Lan Yu also had to follow, Lu Yang pulled Lan Yu and said, "Forget it, you have already borrowed it from me."

Lan Yu rushed to the ground, pouted, and said, "What are you doing?"

She thought that Lu Yang would find another opportunity to bully her.

Lu Yang said with a smile: "Accompany me to a task, which I can't do without you."

"What task?" Lan Yu asked curiously.

"The task of refining the heart." When Lu Yang said these two words, he felt a bit in his heart. Without him, this task is too much. It is also the most strange task in "Second World". Only one party deeply loves it. The other party can only take the task when he comes here with the other party.

Lu Yang tried countless ways in the last life without success. Until the last time he met Lan Yu, Lu Yang didn't want to understand the task.

Take the blue feathers back to the city of St. Gall, come to the area of the wizard association, take the elevator to the top of the tower, an extremely beautiful garden appears in front of the two.

"It's so beautiful here," Lan Yu said.

"Yeah." When Lu Yang first came here, he was also shocked by the beauty here. This place is just like the Garden of the Divine Realm.

Lilac crystal stone ground, turquoise grass, flowers of all colors, and butterflies flying in the flowers, everything is so beautiful, but no one knows that every flower here is It's a nourishing love story.

"Welcome you, my child." An elderly magician wearing a pure white sacrificial robe came to Lu Yang.

"Hello, Mr. Magician," Lu Yang said, bowing slightly.

"Polite child," the old wizard asked with satisfaction. "Are you here to participate in the trial?"

"Of course." Lu Yang said.

"Are you sure you want to participate?" The old magician reconfirmed and asked, "You know, although my trial mission is rewarding, very few people can break through. If you can't break through, it will be spiritual. There may be a big blow. "

Lu Yang said indifferently: "I am sure to participate, I believe that I can break through."

"Fine, please follow me." The old wizard walked with his wand toward the house in the middle of the garden.

Lu Yang led Lan Yu into the house behind him. The small house seemed to have a very large space. In one of the rooms, there was a magical trio.

“You two are standing here,” said the old wizard, pointing to the middle of the two magic circles.

Lu Yang stood up with Lan Yu, and the old magician stood on the last magic circle and asked, “Child, are you ready?”

“Ready,” Lu Yang said.

System prompt: Mind Refining mission, open!

The change in front of Lu Yang’s eyes instantly became the scene of the last time when he successfully established the fortress, and the cheers of countless people made him immersive.

“Boss, we succeeded, we succeeded.” Xiao Liang shouted loudly.

“It’s great, we will get rich in the future,” Jiang Ze shouted.

Lu Yang’s memory gate was opened instantly, and sad memories like floods rushed in, flooding Lu Yang’s entire body.

He followed the brothers happy, but what he saw in front of him was a picture of Shen Mengyao being severely rebuked by his father, asking her to marry Wang Rui.

Lu Yang’s whole body trembled with acupuncture. Lu Yang couldn’t wait to rush to Shen Mengyao immediately and told her father that he loved her and wanted to love her, but he could only watch Shen Mengyao promise his father. Get married with Wang Rui.

Especially when Lu Yang saw Wang Rui in front of Shen Mengyao at the wedding scene, Lu Yang punched hard in the chest, and the pain of watching her lover enter the arms of others was unbearable once, let alone seeing And bear it again.

She hated herself for being incompetent and why she didn’t know that Shen Mengyao was Lan Yu earlier.

The screen turns.

The pictures he had with Shen Mengyao before were played back page by page in front of him.

On the steps of the school playground, Shen Mengyao was ashamed with a tentative expression, and asked, "Lu Yang, if there is a girl like me in the game, I especially love you, what would you do."

Lan Yu: "Brother, if I meet you in reality, will you marry someone?"

...

Lu Yangmeng yelled, and he hit his cheek with one punch with all his strength, followed by another punch.

Why was he so stupid and so fascinated by playing games at the time? I didn't find that Lan Yu and Shen Mengyao were the same person. At that time, Shen Mengyao and Lan Yu gave him many hints. But what did he answer, he answered It is a girl who already has a deep love.

Maybe at that moment, Lan Yu or Shen Mengyao completely disheartened at Lu Yang and chose to return home to accept the marriage arranged by his family.

It was Lu Yang's own bastard. He missed Shen Mengyao.

The screen turns again ~ www.mtlnovel.com ~ The fortress was breached, the family was carrying huge debts, Lu Yang decadent borrowed alcohol daily to worry about it, his parents resigned to work, and sold the house to repay the debt.

Xiao Liang took Lu Zhaoyu and Lin Feng to work together to pay off the debts, but Lu Yang was decadent all day long. When Shen Mengyao was just married, she found that there were several women around Wang Rui. Several women took turns to call him to stimulate him, but their parents were out of business. Question for help Wang Rui's family, do not agree with Shen Mengyao divorce.

A girl so proud of Shen Mengyao almost committed suicide.

Then Jiang Ze was assassinated to help himself.

His father worked at the construction site and was seriously injured and his mother's love.

Xiao Liang died in order to block the gun for himself.

Looking at the loved ones, loved ones, and brothers around him, Lu Yang burst into tears.

"Brothers, I'm back in this life. What happened in the last life will never happen to you again. I want to make everyone of you happy. No one can hurt you any more." Lu Yang roared Shouted.

Chapter 352 - reward

The powerful science and technology of "Second World" can restore the deepest fear in a person's heart and transform it into the dream of this trial mission.

Although the principle is not clear, it can truly detect a person's heart. During the detection process, once the player can't bear it or actively quits, the trial will end, but the mission will also fail.

If, the player can face up to his past, can stick to it, the mission chance is successful.

Lu Yang's inner fear is incomprehensible to anyone. As a high school student in the last life, he experienced too many things that he should not have experienced at his age.

Fortunately, he was born again, and he could face it, otherwise, he would never dare to do this task.

Lan Yu's purpose is to induce the most important part of this task-Qinghai, which can only be triggered by people who have actually experienced Qinghai. Otherwise, the plot is not satisfactory and it does not count as customs clearance.

Lu Yang persisted in this situation. Obviously, this pass was passed. After discovering this task in the previous life, countless people came to try it. Unfortunately, none of them succeeded, or they took the initiative in their own illusions. Calling for a halt, the worst was a psychological breakdown and almost became mentally ill.

For this reason, "Second World" has not been criticized by the media of various countries.

Lan Yu looked at Lu Yang with her eyes closed, but two lines of tears fell down, her expression a moment of regret and remorse, and she couldn't help but hurriedly said to the old magician: "Sir, what's wrong with my boyfriend."

The old magician smiled and said, "His fears are special. I saw them, but I can't tell you, but what I can say now is that he persisted."

Lu Yang slowly opened his eyes. When all the fantasies passed, he saw the old magician and Lan Yu again. Lu Yang could not help but hold Lan Yu in his arms, and he did not want to let go for a long time.

Lan Yu wanted to refuse, but when thinking of Lu Yang just now, Lan Yu didn't have the heart, so he had to hold Lu Yang and stroked his back gently, saying, "Everything is over, brother, don't be sad."

"Young man, throwing dog food in front of the old man is a very annoying thing." The old magician smashed the floor with a wand and asked, "Do you want any more rewards, then I will take it back." "

Lu Yang silently released the blue feather and looked at the old magician, saying, "Master, you are a real person."

“Uh.” The old magician felt guilty for a while, and he was discovered again. That’s right, he was the developer of “Second World” who gave Xiao Liang a special reward.

“Hey, you guessed it, the old man didn’t hide you, I’m one of the developers of this game.” The old magician restored the image of Gao Guangweian and said, “Congratulations, adventurer, you can make a request to me.”

Lan Yu opened her mouth in surprise and looked at the old magician, saying, “Ah, are you the legendary mechanical magician?”

The old man was very satisfied with Lan Yu’s compliment and said, “Yes, it is me.”

“Handsome uncle, can you give me a piece of your autograph, I’m your fan.” Lan Yu ran to the old magician and said excitedly.

The otaku programmer is the least good at this. Faced with the enthusiasm of a young beautiful girl, an old magician couldn’t help but take out a thin piece of paper from his backpack and wrote his name on the back. Blue feather.

“Sent you.”

Lan Yu accepted the signature happily and said excitedly: “Great, the sisters will be envious of me.”

“Wow ha ha, I was in my 50s and still so popular,” said the old magician, scratching his head and laughing.

Lu Yang couldn’t help rolling his eyes. It is estimated that only such a unassuming otaku programmer can design such a unassuming heart-finding task. 2 is home.

“Ahem.” The old man may have found his disability, and said solemnly: “That, young boy, you can choose the same reward, what you want.”

The reward map opens.

An assortment of drawings, equipment, materials, and special equipment are among them.

Lu Yang pointed to a red water drop and said, "I want him."

"Tears of flame?" The old magician carefully looked at Lu Yang again, and said, "It would be reasonable for you to ask him, and I'll send it to you."

Tears of Flame entered Lu Yang's backpack.

Tears of Flame: A jewel shaped like a tear, which contains huge fire magic energy.

There are only so many introductions, but Lu Yang knows that this thing is one of the necessary items to upgrade the heart of the demon god.

Demon's Heart has been at Level 2 for a while. Lu Yang has always wanted to upgrade Demon's Heart, but he can get to Level 2 by all means to beat the lord.

As for rising to level 3, you need to face the level 80 lord. Lu Yang does not have the strength to kill the level 80 lord alone.

Lu Yang always thought that he would have to wait until level 50 and above to have this opportunity. I didn't think this time because of meeting Shen Mengyao, he had the courage to face the past.

Putting the tears of flame in the backpack carefully, Lu Yang said, "Thank you Mr. Mechanical Magician, I'm gone."

"Goodbye idol." Shen Mengyao said reluctantly.

The old man laughed and said, "Goodbye, goodbye."

When Luyang Yang and Shen Mengyao left, the old man always felt as if there was something wrong. He thought about it but didn't remember it.

"Oops, I didn't expect that I was an idol-level player. Next time, I need to prepare more autographs ..."

As soon as the words fell, the old man opened the backpack mechanically and watched a transfer certificate called the Certificate of Uprising disappear.

"Oh my god, what did I do? It's over. I have to go offline for a while to let the company's board know. I'm out of luck."

On the other side.

Shen Mengyao is holding this certificate and looking at the signature on the back, humming happily.

Lu Yang smiled and said, "Is he so good?"

Shen Mengyao proudly said, "Of course, he created the" Second World ". He is my idol."

Shen Mengyao handed the evidence of uprightness to Lu Yang and said, "Look, his signature is so handsome."

Lu Yang frowned after taking the signature. The material of this signature paper is obviously not white, and he feels very familiar.

However, Lu Yang didn't believe it. When he was curious, he couldn't help turning the signature over and saw the four big characters written on it.

"Evidence of uprightness." Lu Yang could not help but exclaim.

“What is the proof of mystery?” Shen Mengyao asked curiously.

Lu Yang exclaimed: “Sister, you are very lucky, this is the proof of the mystery of the same level as the Red Mist Army.”

“Ah?” Shen Mengyao looked at Lu Yang in surprise, how strong the Red Mist Army was, and when Xiao Liang saw it, he could see that now, there is actually one who is as famous as the Red Mist Army.

Lu Yang said: “Your idol is really too generous, even this kind of baby can give you, this idol is good, I will tell him next time that I am his fan.”

Shen Mengyao asked, “What is this proof of uprightness?”

Lu Yang said: “This thing can make you a melee priest. After you change jobs, you will have the opportunity to learn divine magic, ignoring magic immunity and magic resistance.”

Shen Mengyao shouted, “Wow, idols are really too generous.”

If Shen Mengyao and Lu Yang knew that the other party was sending the wrong one, and in order to prevent being accused by the board of directors, they would run off the assembly line, and they would laugh and cry.

Lu Yang and Shen Mengyao quickly ran to the gate of the temple of St. Gall.

“Brother, I’m a little bit reluctant. If I give the evidence of the upright right to the temple, will it be withdrawn?” Shen Mengyao asked.

Lu Yang said: “No, you must keep this proof of uprightness carefully. This is your only proof of entering and leaving the temple.”

Shen Mengyao nodded and said, “All right, I’m in.”

Lu Yang took this time to the blood drug store, found Jin Buhuan and asked, "Are there any special medicines?"

Jin Buhuan said: "Of course, they are prepared for the boss, reducing the potion, underwater breathing potion, increasing potion, physical immune potion, magic immune potion ..."

A total of more than 50 special medicaments, Lu Yang selected reducing medicaments, magic immune medicaments and physical immune medicaments, and said, "Nice, well done."

Jin Buhuan said excitedly: "Boss, the business of pharmacies is too hot right now. You are right. There are more and more players, and the demand for pharmaceuticals is increasing. I can hardly make any money. "

Lu Yang said: "Continue to work hard, as long as the guild exists, the business of pharmacies will become more and more popular, and profits will become higher and higher."

Jin Buhuan nodded with emotion. Who could have thought that he was so disappointed that he would soon be unable to eat. Now he can become such a rich man, and Lu Yang is right.

"Boss, the guild needs money, I don't have much money now, I'll get it for you if needed." Jin Buhuan said.

Lu Yang said with a smile: "Stupid brothers, if you have extra spare money, you can buy a house in your hometown of Anton ~ www.mtlnovel.com ~ soon, there will be a wave of explosive development."

"Can you, what development can this broken place have." Jin Buhuan said unbelievably.

In other words, no one can believe that, next to the border, the country is a backward place, and no one believes that there is development. However, Lu Yang was born again. He just knew that it would not take a month. There will be a sea change.

"Trust me, the boss never lied to you, so he bought a house next to the river, no matter how expensive it is." Lu Yang said.

“Oh, I listen to you,” Jin Buhuan said.

“I’m gone.” Lu Yang patted Jin Buhuan on the shoulder and returned to the gate of the temple waiting.

Not long after, Shen Mengyao came out of it, and after seeing Lu Yang ran up happily and said, “Brother, I really learned a lot of advanced spells.”

“What are they?” Lu Yang asked.

“The two skills of red lotus dance and destroy.” Lan Yu said.

Chapter 353 - Lost City

Lu Yang guessed these two skills. When the red lotus dance is used, red petals will fly around, just like the flowers on the top of the mage tower.

Each petal inflicts sacred damage. The attack power is equal to the player’s level * 100. The duration is 3 seconds and the range is 10 yards.

The strongest is the ability to destroy. The base damage is only 50 points. The power is increased according to the magic damage. The damage ignores magic immunity and magic resistance.

“Go, let’s do the task,” Lu Yang said.

“No problem, where to go.” Lan Yu also looked strong.

“Level 60 epic copy, Lost City.” Lu Yang said.

“Ah ~!” Lan Yu second counseled and said, “Brother, we are only at level 30. Can we fight?”

“Of course.” Lu Yang ran west with Blue Feather, passed the Wind and Thunder fortress, spent two days running to the ruined land, and spent two days to the level 60 abandoned map.

God abandoned.

Where the gods and demons fought, in the ancient century of freedom of belief, a large number of subjects in the Kingdom of Solothur were deceived by demons, and they abandoned the glory of the gods and turned to the demons.

For this reason, they were severely punished by the gods of the heavens, the kingdom was flooded, and only a small part of them turned into demons to survive and escape to the only land.

Then, with the gradual rise of the flood, these demons have fewer and fewer places to live. Just when they are about to be drowned, the Fiery Demon battles to death, and the fragments of his demon heart fall here.

The Blazing Demon God is the true God. Even if the battle dies, the flames on the shards of the Demon God’s heart still evaporate and dry all the floods in the Kingdom of Solothur.

The remaining demons thought it was a gift from the gods they believed in to save them, and enshrined it in the ruins of the kingdom.

The purpose of Lu Yang’s visit this time is to destroy Soroto, the demon king here, and recapture the demon heart.

Lu Yang took the blue feather all the way to the gate of the Lost City in a thrilling way. The more monsters at level 30, the lesser monsters are equivalent to elite monsters at level 30. Not only do they have high attack, high blood, high defense, skills It’s also very special, many of them are stealth

monsters. If it weren't for Phoenix to explore the road in front, Lu Yang and Lan Yu would not have been here.

Lan Yu's liver is constantly flapping all the way. She has never beaten monsters like this. Watching monsters get higher and higher after level 40, Lan Yu's is getting more and more scared. The reason why she Persistence till now is all because Lu Yang's calmness and calmness, everything looks like Zhizhu's expression.

Lu Yang didn't notice that Lan Yu was watching him, at this time he was carefully examining the surrounding situation.

The sound of "sizzling" sounded, a team of sheep with horns on their heads, two red hammers in hand, and a red body came from a distance.

Sunken Demon

Level: 60

Qi and blood: 150000/150000

Lu Yang calculated the walking time of the sinking demon. In the last life, players who had been assassinated by European organizations recorded videos and entered the copy at a low level of 30 without encountering a strange, causing a huge sensation.

Lu Yang is particularly skilled at memorizing this method, because 5 to 10 pieces of constant gold ore will be randomly refreshed in this lost city copy every day.

At that time, Lu Yangqiong, with a lot of guilds here to simulate this video for this ore, it took almost a week to find a way to pass.

It doesn't make sense to want to walk through here, and the player is not a thief. The level is 30 levels behind, and there is almost no difference between stealth and non-stealth.

The real way to get past is to watch the steps taken by the first team of monsters at the door. When he just walked 30 yards away from you, you must immediately follow their team and come to a group of three-eyed demons. Behind him.

Three-eyed demons are special. They have no ears or noses. If you hide behind them, even if you are level 0, he can't find you without seeing you.

After Lu Yang and Shen Mengyao said the key points, the first team of sinking monsters happened to be 30 yards away.

Lu Yang immediately dragged Shen Mengyao to the gate and said, "Sister, look at me as you go, you can do it. Don't do it wrong, it's fun."

Shen Mengyao nodded nervously, watching Lu Yang step forward toward the front, and as the first team just passed the 30-yard position, the second team behind them went by, and almost found Blue Feather. Position, the scared blue feather was careful to jump straight.

Lu Yang patted Lan Yu firmly holding his arm, and said, "Don't worry, you can pass soon."

Lan Yu said, "I'm fine."

Lu Yang nodded and continued to walk forward with Lan Yu. Every 30 yards passed, a group of sinking monsters passed behind him. On both sides, 30 yards away, there were also sinking sinking monsters.

I walked in for 50 yards, and a giant three-eyed demon appeared in front of it. This devil seemed to have a head, but it had no body, and four large **** stuck out from it.

At this time, it was the most dangerous. Lu Yang had to pull Lan Yu to squat and walk. When the sinking devil came to the end and turned around, the three-eyed demon would turn at the same time. The chance was only once. Once discovered in advance, he would die.

Lan Yu followed behind the sinking demon, looking at the closer to the three-eyed demon, she felt that her heart was about to jump out, and when she thought she would be found by the three-eyed demon, the three-eyed demon turned and walked backwards. .

Lan Yu quickly let out a sigh of relief, and quickly ran to Landing Yang behind the three-eyed demon. There were many three-eyed demon around, but fortunately the distance was 30 yards away.

When he came to a house, several demon birds flew over, and Lu Yang lay down on the ground with blue feathers, just avoiding the 30-yard surveillance range.

When the birds flew away, Lu Yang took Lan Yu to the house and said, "Sister, jump on my shoulder."

"Oh, okay." Lan Yu nodded in agreement, but when going up, Lan Yu blushed and said, "You step on my shoulder."

Lu Yang asked for a moment, "Hey."

"Hate ~ www.mtlnovel.com ~ Don't ask." Lan Yu said shyly.

Lu Yang looked closely, only to find that Lan Yu was wearing a priest's robe. If he was below, Lu Yang could not help but swallow.

Lu Yang looked at Lan Yu's head and looked shy and said, "Let 's go, I have an escape dagger here, you go up with a dagger, I flash up."

Lan Yu took the dagger with a red face, and jumped to the top with a strong shake, and Lu Yang jumped to it with a flash.

"The technique is good." Lu Yang praised.

Lan Yu handed the dagger back and said, "OK."

Lu Yang pushed the dagger back and said, "Hold it first. I guess there are still many places to use it. Go back and give it to me."

Blue Feather nodded.

The two continued to move forward, running along the roof, and after evading several batches of demon birds and high-end demons in succession, Lu Yang and Lan Yu successfully jumped to the gate of the Lost City Replica.

Chapter 354 - Lord Soroto

The Lost City is the closest to the seaside in Solothur, so the copy of the Lost City is surrounded by sea water.

The shape of Sorotol City is divided into three areas like a clover. Players enter from the area on the left. According to the normal process, all the monsters in the area on the right need to be killed all the way, and then follow a bridge to enter the top area in the leaves.

Many people have thought about swimming directly from the surrounding seawater to the opposite shore, but there are countless marine monsters in the seawater, which can't be killed at all.

However, the last assassination of European assassins has developed a seemingly unscrupulous order of movement for monsters.

Lu Yang said to Lan Yu: "Sister, when I jump down, you jump with me, don't look around, just look at me."

"Oh." Okay.

Lu Yang turned on the timer and waited for half an hour. After finally seeing a demon octopus crawling on the shore, Lu Yang used the ring of mysterious dreams.

A white light flashed, the name of the demon octopus turned yellow, and was stunned.

Level 60 monsters cannot be summoned, but can be confused for 1 minute.

“Follow me.” Lu Yang pulled Lan Yu into the sea, and swam quickly forward.

Not long after, an octopus appeared not far from the left side. Just now it was discovered that Lu Yang was about to rush over. Lu Yang raised his hand and fainted with a dreamy light, and continued to swim forward with Lan Yu.

After avoiding this octopus, there is no stranger in front, but if you look down, as long as the player dives a little bit down, you will encounter dozens of hundreds of demon fierce fish, not to mention Lu Yang, Even if a water player arrives here, he is also killed instantly.

In fact, this can be regarded as a means for the system to pit players, but as long as you don't look below, you can easily run from the door to the lord.

5 minutes later.

Lu Yang took the blue feather to swim to the third area, and the two jumped ashore with a flashing one and an escape dagger.

“Wow, it really is a big beauty.” Lu Yang teased while watching Lan Yu's clothes soaked in water.

Lan Yu was distressed. When he heard Lu Yang's words, he couldn't help but reached out his small fist and hit Lu Yang, saying, “Bad brother, there is less and less shape.”

Lu Yang said holding Lan Yu's waist, "Do you like what I am like now, or how I like when I was president?"

Lan Yu blushed and said, "Hate, how can anyone ask such a question, let me go."

Lu Yang hugged hard, and said rudely, "Don't let go."

Lan Yu felt the warmth of Lu Yang's chest, looked up at Lu Yang's proud expression, and said, "Bad guy, let go, the monster is about to come over."

Lu Yang glanced to the side, standing 15 meters tall, with a red crimson flame, Soroto has become a monster with six pointed horns on the top of his head, two buffalo corners on both sides of his ears, and a mouth full of sharp teeth .

Demon Soloto (Lord Level)

Level: 60

Qi and blood: 5000000/5000000

"I smell the beans." Soroto scanned back and forth with red glowing eyes.

Lu Yang holding Lan Yu said, "Well, let's solve this big guy together."

"How to fight brother," Lan Yu asked.

The lord of 5 million blood, Lan Yu didn't know how to defeat him.

Lu Yang said, "The best way to fight such tall lords is to make us smaller."

Lu Yang took out the reducing potion and gave it to Lan Yu, pointing at the 80-yard palace behind Soroto and saying, "When you are ready, when you let me run, you just follow me, and we will be safe when we enter the palace. "

Soroto palace.

The palace is not large, only 2 meters high and 10 meters wide. It was the palace where Soroto lived before he became a demon. At that time, the average height of his and his people was only 1 meter, which is a vulnerable race in this world.

The whole palace is forged from magic crystal. Magic crystal is one of the top solid minerals in the Second World. Not only is it difficult to destroy physical attacks, but magic attacks can also be immune.

Unfortunately, after the successful construction of the palace, Soroto became a demon with a height of 15 meters. This small palace was regarded as a memorial by him.

Blue Feather nodded.

Lu Yang summoned the Phoenix and ordered the Phoenix to go around 50 yards to his left to attack Soroto.

The Phoenix circled, and just flew 40 yards from Soroto. Soroto saw the Phoenix at a glance.

"Sure enough someone has come, how long, I haven't eaten any human beans." Soroto rushed towards the Phoenix.

Lu Yang shouted at this opportunity: "Run."

Lan Yu quickly ran toward Landing Yang toward the palace. The two had just ran 30 yards before, and a sad cry followed.

The system prompts: Your Phoenix was killed.

“Oh ~, I found you, Rendou, I see where you are going.” Soroto yelled and ran over towards the landing sun and Lan Yu.

Lu Yang looked at the distance. There was still 40 yards to the designated position in front of the palace. Soroto was still 60 yards away from them.

Judging by the current run, they can't run Soroto.

“You run first, I will take charge of interception.” Lu Yang said.

Lan Yu nodded and ran towards the front as much as possible. She knew that it was not time to talk nonsense. Only when she was safe would Lu Yang be relieved.

Lu Yang looked at Soroto getting closer and raised his hand to a Pyroblast and hit Soroto's head.

“1” (Magic Resistance 4088)

This is the main reason why Lu Yang brought Blue Feather. Soroto's magic resistance is too high. He wore a legendary level of equipment and did not break Soroto. He could only rely on the Phoenix to slowly wear him to death. However, the palace is not a permanent safe area. Soroto will enter a state of rage in an hour, and the palace can be broken with one punch.

“Damn, you dare to attack me.” Soroto angered. “You have angered me, and I want to chew you.”

“Wake up, Soroto, haven't you paid enough for this? You have come to redemption.” Lu Yang shouted.

“Redemption? What redemption? My clan was so small in the past. Now, each of us is a big man, we have the power to destroy everything.” Soroto said proudly.

“What about your clan?” Lu Yang asked as he ran away in fiery scorching speed.

Soroto punched short and scolded angrily: "Clan, the weak should die, only the strong are qualified to survive, we can reproduce and re-expand, as long as there is a fire from God, we will only stronger."

A burst of hot flames rose from his hands, and Lu Yang's eyes widened suddenly, which he couldn't carry and he had to dodge.

"Brother, I've entered the palace," shouted Lan Yu, who had taken the reducing potion.

Lu Yang breathed a sigh of relief, watching Soroto raise his hand and another Pyroblast, saying, "Soroto, that's not the fire of your god, it's the fragment of the demon heart, you are not entitled to have it."

"Nonsense." Soroto pointed at Lu Yang with his hand.

A bunch of rays of light shot towards the landing sun, and at the moment of hitting Lu Yang, a white light appeared from Lu Yang.

"flash"

With a flash of white light, Lu Yang appeared 30 yards away. Looking at himself who had become residual blood, Lu Yang's heart couldn't help beating.

Just now he had done his best to dodge, and unexpectedly the power of this beam was so great that he hurried towards the palace.

"Girl, escape the dagger and throw it over." Lu Yang shouted as he ran.

"Okay." With 40 yards left, Lan Yu threw the escape dagger decisively.

When Lu Yang ran to 30 yards, he reached out and just caught it. After throwing it backhand, he drank the reducing potion, and escaped Soroto's arm, and flashed his skills. Blue light flashed, and Lu Yang appeared in the palace. inside.

Lan Yu thought that Lu Yang would be hit by Soroto, but Lu Yang could not think of a way to avoid it by reducing the potion.

“Brother, you are great.” Lan Yu said in amazement.

Lu Yang said, “What you throw is also very important. You did a good job.”

Lan Yu proudly said, “That’s right. I played baseball in middle school.”

A “bang” palace made of magic spar suddenly heard a violent impact from the top.

“Damn, you dared to run into my palace and show it to me.” Soroto growled and slammed the palace with his fists continuously.

“The palace won’t break,” Lan Yu asked.

“No.” Lu Yang exchanged a legendary piece of equipment with Lan Yu, and gave a bottle of magic immune potion to Lan Yu. “Come, my goddess, use your new skills to attack him.” “

“Brother, you bully me again.”

Lan Yu is still not used to the overlap of two Lu Yangs, especially the domineering chairman in the game has become a bit rogue in reality.

Lu Yang laughed.

The little girl rushed to the ground, pouting her lips, and was too lazy to take care of Lu Yang’s rogue appearance. After changing the equipment, she pointed Soroto’s calf outside the window with her hand.

“Off”

A dark brown swirling light appeared on Soroto’s leg.

“2256”

Lu Yang summoned the Phoenix and attacked with it.

“686”

Lu Yang sat down and watched the show leisurely. The release mode of extinction was very fast. The system mode was released every 3 seconds, and the Phoenix attacked every 1 second.

In half an hour, Soroto was killed more than 2.6 million blood.

Xia Yuwei suddenly sent a message and asked, “Boss, don’t run away my sister.”

Lu Yang looked at Shen Mengyao’s small-faced serious attack ~ www.mtlnovel.com ~ and said, “I don’t have enough time for my heartache, how can I run away?”

Xia Yuwei hummed and said, “I’m afraid because of you.”

Lu Yang rolled his eyes and said, “Little apprentice, your little tail has been exposed. Let’s say, what benefits do you want?”

Xia Yuwei put out her tongue and said, “The fortress has been cleaned up by one-eyed Beamon. What should I do next?”

Lu Yang said, “I’ll give you permission. How to arrange the fortress inner city is up to you. You don’t have enough experience in defense of the outer city. I can help you get it. In addition, you should be prepared. I will take you to upgrade in a few days Raise your level to level 50 as soon as possible. “

“Level 50!” Xia Yuwei said in shock, she had never thought of this level, because it was too difficult to upgrade.

“Boss, you are so handsome.” Xia Yuwei said.

Lu Yang shook her head with a smile. The Queen Rose also looked like a little woman. He was really uncomfortable and turned off the phone. Lu Yang continued to look at Lan Yu and blame.

Chapter 355 - Demon Heart III

Soroto will be furious once every 10 minutes, launching a fiery laser to sweep the audience, Lu Yang and Blue Feather will definitely be hit if they are hit at this level. They need to use magic avoidance to avoid it.

Another 10 minutes later, Lu Yang and Lan Yu drove the demon Ji at the same time, evaded the hot laser, watching Soroto with 400,000 blood, and said, “Come on, you are almost successful.”

Lan Yu nodded and continued to attack.

In an hour, if Soroto is not killed, he will start to enter a state of violent state, punching and breaking the Spar Fortress with one punch, Lu Yang and Lan Yu will undoubtedly die.

“I’m not reconciled, I’m not reconciled, and I have such a powerful power, why would I still fail.” Soroto yelled.

After 5 minutes.

System prompt: Congratulations on killing Lord Soroto

You gained 68998 experience

Lan Yu watched Soroto unwillingly lie on the ground, jumped up excitedly, and said, "I succeeded, I killed the level 60 lord."

Lu Yang said; "Good job, go, follow me to see what's breaking out."

Lan Yu nodded and came to the outside of the palace with Luyang.

Soroto exploded a big explosion in the range of 8 * 8. Among the items, Lu Yang saw the red flame magic stone at first glance.

The magic stone emitting a dazzling red flame gives a feeling of violence and arrogance.

"I finally got you." Lu Yang said excitedly.

"What is this?" Lan Yu asked.

Lu Yang said: "This is the necessity of upgrading my demon heart. The demon heart is level 3, and it's finally here."

"Is it amazing?" Lan Yu asked.

"Of course." It was another journey of refining the heart, and it ran to the level 60 epic copy to fight monsters. Lu Yang's purpose is to make the demon heart reach level 3, Lu Yang said: "The effect will tell you Let's look at other things first. "

Among other items, a level 50 dark gold necklace, a level 50 gold leg armor, and the rest is some rubbish.

Lu Yang put it in his backpack and said, "Let's go back."

Lan Yu nodded, and returned to St. Gall with Lu Yang.

Looking at the time, it was already late at night, and Lan Yu said, "Brother, I have a rest."

Lu Yang nodded and said softly, "Sleep, I will rest for a while, see you tomorrow."

Lan Yu gave a happy hum, and walked off the line after entering the hotel.

Lu Yang found a place where no one was, returned to the demon temple with a spell, took the demon heart from him, and placed the tears of flames in the backpack with the red flames on the altar.

System prompt: complete materials, whether synthetic

Luyang Point is.

Tears of flames and red flame magic stones automatically merged into the heart of the demon god, a red light flashed, and a virtual image of the fiery demon **** appeared above the altar.

The system prompts: The synthesis is successful!

Demon Heart

Level: 3

Constitution: +200

Strength: +200

Stamina: +200

Intelligence: +1000

Dexterity: +200

Inflammation: +2

Fire skill level +3

Special Spells: Meteor Fall, Meteor Fire Rain

Effect: Spell Penetration + 45%

From this level, the heart of the demon **** finally has the attributes that he should have as the top item in "Second World", and the player's five statistics have been improved a lot.

The blood is comparable to anti-riding, defense is similar to anti-war, agility is not inferior to thieves, and a magician is equal to three gold-level mages. If he wants to kill one of these mages, except for special classes such as Red Mist soldiers, there are only large quantities. The thief can do it by sneak attack.

Lu Yang shook his fist vigorously, and now he finally no longer fears being attacked by someone to blow away the demon heart, but what delights him most is the effect of + 45% spell penetration.

The significance of spell penetration is to ignore spell defense. After level 60, strange attributes have effects such as spell defense and spell resistance.

For example, a 61-level monster with a magic resistance of 500 points and magicians who can deal 2000 damage can only hit 1500 points on them.

This is the case for ordinary monsters. Elite, boss, and lord monsters have higher magic resistance. Lu Yang's purpose is to quickly upgrade his subordinates. With their current level, they also need to bring a group of people. Only maps above 60 can be used.

He used to be okay, now he's fine. With this spell penetration, he can play too high-level monsters.

Putting on the heart of the devil, Lu Yang returned to the city of St. Gall from the demon temple.

At this point, it was already late at night, and the city of St. Gall also entered the night, but there were not many players in the city.

Players are constantly running out of the safe zone, and players are constantly returning to the safe zone, especially a large number of small new numbers, which are always happy in the game.

"Wow," Second World "is so beautiful, my mother lied to me that it wasn't fun at all, it wasn't interesting."

"Haha, this time the school is closed. We were asked to take classes in the game. This time we will see how they restrict us."

"You're on vacation too, I'm on vacation too."

...

Listening to what the trumpet said around him, Lu Yang apparently felt that a new type of influenza virus had begun to spread, and this great catastrophe relative to the world was about to come, and his opportunity came.

From the investment received by Jiang Ze's father, he converted 600 million of them into 2 million gold coins. Before the war, 50,000 were used, and the construction of the fortress cost 100,000. Now there are 1.85 million left.

When Lu Yang came to King's Castle, he decided to bet once. He won the bet. He became rich overnight and lost the bet. He did not lose much money.

Land Exchange Office.

Although it is late at night, many players still gather here to prepare to buy land to open a store.

"The house in the south slum is asking for 200 gold coins. Is it crazy?"

"The price of this 600 gold coin in Chengxi is acceptable, and our guild should be able to make money."

"Oh my god, a second-hand house on the prosperous street in the east of the city actually asked for 2,000 gold coins. It was crazy, completely crazy."

2000 gold coins are equivalent to 600,000 credits, which is still cheap. The number of players in St. Gall has exceeded 200 million. Many people think that there are more business opportunities here and they are unwilling to sell.

However, although there was a lot of discussion among the people, no one looked at the property in the north of the city, and even if there was, it was more about selling.

"Evil gate, the game really does not care about the north of the city. It has been in service for three months. The suspension bridge in the north of the city has not been repaired. No one in the entire Beicheng District has gone."

"Isn't it? I spent 20 gold coins and thought it was cheap. As a result, none of the players went there and no business could be done. Now whoever gives me 18 gold coins, I will sell them."

Lu Yang came to the player and said, "I bought it."

"Do you really want to buy?" The player asked excitedly.

Lu Yang said, "It's so cheap. I'll buy it first."

"Okay, you give the money now, and I'll give you the title deed."

Lu Yang paid 18 gold coins happily, closed the lease in his arms, and said aloud, "Receive the lease, the land lease in the north of the city, willing to sell for less than the original price to me, I bought it. . "

Hundreds of players in the trading hall approached the landing sun at the same time.

"I sell."

"I sell too."

Everyone thought that a newbie was coming, for fear that the money sold by Lu Yang was spent, and they rushed to trade with Lu Yang.

Coming from Lu Yang, they bought more than 600 stores in one go, from small to large, spending a total of more than 60,000 gold coins.

However, these are not enough. Lu Yang clicked on the North Land Trading Officer and said, "I want to check out the shops on the north side of St. Gall."

"Of course you can." The trading officer opened a three-dimensional map.

There are more than 3,000 stores in the northern district of St. Gall, basically sold, but more than 1,000 of them are on official sales.

Lu Yang looked at these shops, and many of them were good locations. The most expensive ones were more than 100 gold coins. After biting his teeth, Lu Yang decided to fight.

Clicking on the shops on sale, Lu Yang's family bought one by one, and bought 1,718 stores in one go, spending more than 200,000 gold coins.

Just when Lu Yang clicked to buy, on the other side, the second world board official was holding an emergency meeting overnight.

"I have just been notified that the global influenza virus cannot be treated this time. In this case, we should take this opportunity to contact countries and adopt the method of class and work in the Second World," said a director.

"I agree that since countries support our games, we take this opportunity to make" Second World "a true second world for human beings," said another director.

"I agree."

"I agree."

...

Dozens of directors from various countries present voted in favour.

"Okay, please work hard together. If this matter can be successful, I am confident that it can replace all trading websites and social platforms such as Amazon and Facebook." The chairman said.

Inside the game.

Lu Yang just came to Beifeng City through the teleportation array and came to the land transaction officer. Lu Yang spent 180,000 gold coins and bought 1,200 unattended shops in Xicheng District. Then Lu Yang went to Hannibal City. It cost 260,000 gold coins to buy 1,500 stores in Nancheng District.

Finally, at the Imperial City, Lu Yang spent 300,000 gold coins and bought 2,000 unreliable shops by the sea ~ www.mtlnovel.com ~ Three cities together, Luyang bought a total of 6,418 four Secluded and unattended shops in the city spent 940 thousand gold coins, equivalent to 228.2 million credit points.

“If you let others know that I spent so much money, I bought these junk shops, and I must think they are silly.” Lu Yang took off his helmet and muttered to himself.

Standing up and moving for a while, Lu Yang lay in bed and slept.

The next afternoon.

Lu Yang appeared at the port of the Sea Emperor City after going online. Since coming here once, Lu Yang is ready to take a stroll around the Sea Emperor City to see if there is anything good.

Sea Emperor City is a port city located on the seashore. The southern seaport leads to the golden king city of the orcs-the Golden Lion City.

However, the goblin players are operating the port and are not open to the public for the time being. Therefore, the players do not know where the ships go.

What Lu Yang bought is the land in the port, because when the human race and the beasts open up trade in the future, this place will become extremely prosperous.

Walking along the harbour is the urban area. Like St. Gall, Neptune City is also a giant main city, divided into four major parts: southeast, northwest, and northwest.

The most prosperous of them is Xicheng District, which is like the Dongcheng District of St. Gall. There are vendors everywhere.

Lu Yang walked around the street and watched. Suddenly, nearly a hundred players wearing gold gear walked from the side. After the players around him rushed to clear the way, Lu Yang saw and walked in the middle. One of the people is eternal spirit, which made him interested, and could not help but walk into the crowd ahead.

“Liu Dashao, you see, here are the main shops of our guild, all of which are the best locations of the Sea Emperor City.” Said the eternal spirit proudly.

The man shouted as Liu Dashao said with a smile, “It’s not bad.”

Lu Yang had not seen this Liu Dashao, but listening to the voice, Lu Yang immediately recognized that the first-level trumpet in front of him was Liu Jie.

Apparently, Liu Jie came to the Sea Emperor City to inspect the Shenwu tribe.

However, it seems that Liu Jie is not in a hurry to negotiate now. Instead, it is the spirit that eternally welcomes Liu Jie.

Lu Yang didn’t need to think that Liu Jie would always consider Liu Jie as an unskilled family member, thinking that he would immediately give out a large amount of cash to support his guild under his torture.

This time, I am afraid that the eternal spirit is about to be planted. Liu Jie is an outstanding graduate of a famous European school. He learned a lot of business experience from your father’s ears, and he wanted to be with him. Asking for cheap is completely delusional.

“Small and young, everything we have to watch, how about we talk about the contract?” Asked the eternal spirit.

“Not in a hurry.” Liu Jie said with a smile.

The spirit is eternally awkward. He didn't know how to answer the conversation. The senior officials of the surrounding Shenwu tribe didn't understand what Liu Jie meant and didn't know what to do. For a time, the two sides were embarrassed and froze there.

Black Blood did not know where it came from, and said with a charming look to Liu Jie: “Young and big, today our guild is holding an auction. It is better that we go there and see how.”

Liu Jie still smiled and said, “Okay.”

The spirit eternity was relieved in an instant, gave the black blood a well-done look, took the initiative to walk in front and took Liu Jie into an auction house not far away.

Regarding the joining of the Black Blood, the opinions of the senior members of the Shenwu tribe did not agree. This time, the sudden release of the Black Blood made the spirit eternally satisfied with the Black Blood.

“A bunch of useless waste is better than black blood to help.” Shenhun thought forever.

Lu Yang wanted to listen to what the two sides said, using a camouflage coat to change a look and then walked into the auction house.

The manager standing at the door saw Lu Yang with a smile, and said with a smile, “Sir, you are new here. To participate in the auction, you need to pay 1,000 gold coins.”

Lu Yang nodded, took out 1,000 gold coins and handed them to the manager and went into the auction house.

The auction floor is not large. There are about 10 rows of seats, each with 30 seats. Liu Jie and Shenhunheng who sat in the door sat in the first row, and the gold-level players responsible for protection sat around.

Lu Yang sat down in the third row behind Liu Jie's side. At this position, you can clearly hear the conversation between Liu Jie and Shenhun Yongheng.

However, the spirit is always saying that Liu Jie is listening and not talking.

After 10 minutes.

The auctioneer came to the stage and saw that almost all the people were here, and the time was up. He said, "Almost all people are here. Today, my **** operator will preside over the auction. Below, I will introduce the first piece of the auction. Item, seal recipe. "

Lu Yang's eyes brightened and he excitedly looked at the formula in the auctioneer's hand.

Sealed Formula

Introduction: This is a recipe that deepens spell damage

The auctioneer said: "At present, the player who sent this recipe tells us that he has been searching for information about this recipe for a long time, but he has found nothing.

Our guild also launched a lot of manpower and material resources to crack this recipe. Unfortunately, it has not been found, but he is a level 30 dark gold formula. If anyone can find a way to break the seal, this formula can be worth at least 500 Gold coins, now, the starting price is 50 gold coins. "

There are not many such seal recipe servers, but several can be seen at each auction, but few people can crack them.

The auctioneer said it very well. The sea emperor city is so large that there are tens of thousands of NPCs. If you want to find a way to crack it, the chance is almost zero.

Anyone who participated in the auction many times knew that this kind of thing was meaningless, so no bid was purchased.

Shen Hengheng said to Liu Jie, "Young and old, if you are interested in this recipe, if you like it, I will give it to you."

Liu Jie shook his head with a smile and said, "Not in a hurry, look again."

In his heart, Liu Jie thought contemptuously that Lao Tzu wasn't stupid. This thing is most common among the orcs. Whoever is okay with this kind of thing who knows it can't be cracked and still holds it.

The spirit of eternity also heard the meaning of Liu Jie's words, and smiled awkwardly, giving the auctioneer on the stage a look, let him quickly enter the next auction item.

The auctioneer understood it instantly and shouted, "Is anyone buying, is anyone buying, the last three times."

Lu Yang held up the small sign in his hand and said, "I bought it."

The auctioneer was too lazy to shout any more. Obviously only Lu Yang wanted to buy it at the scene, and Luo Hammer said, "Congratulations to player 88, this recipe belongs to you."

Liu Jie curiously looked back at Lu Yang. He wanted to know which fool had nothing to buy this kind of thing. It happened that Lu Yang was also looking at Liu Jie. The eyes of the two sides were opposite. Lu Yang immediately revealed a powerful killing intention. Liu Jie could not help fighting a cold war all over his body.

Liu Jie couldn't help avoiding his eyes and frowning tightly. He had only seen this kind of murderous murderer on his father's mercenaries and shouldn't have appeared in the game.

Moreover, this is the first time he has come to the Sea Emperor City. No one offended. Liu Jie did not understand why this person looked at him with this look. When Liu Jie looked up again, Lu Yang had disappeared.

In the backstage of the auction hall, Lu Yang couldn't wait to pay the money to the supervisor and got the formula.

Looking at the golden lines on the formula, Lu Yang was very excited. If there is no mistake, this formula is the reverberation of the famous sound of the last generation, which can greatly destroy the target's spell defense.

Lu Yang was short of items to reduce magic resistance. I didn't expect to be so lucky to come to Haihuangcheng that he found it.

Back at the door, Lu Yang retrieved the security deposit and arrived at the port of Haihuangcheng. With the recipe, he arrived at the third room from the left of the main street of the port.

This is a bar, where the locals of Haihuangcheng are drinking, and at one of the tables, Lu Yang finds a sad businessman.

Lu Yang walked over with the formula and asked, "Sir, do you know how to crack this formula?"

The businessman looked up melancholy, looked at Lu Yang, and said, "I know how, but I don't know how."

Lu Yang made a strong fist, and he bet it was right. This recipe is the echo of the magic sound, because as long as the businessman in front of him said these words, it represented the start of the mission.

"Do you have any place where I need help? If I need to, I don't mind helping." Lu Yang sat down and said to the businessman.

The businessman looked at Lu Yang and said, "It's just you, the level is too bad, you can't."

Lu Yang said, "You talk about the task first. If it doesn't work, I won't do it, just in case I can complete it."

In the previous life, this task was performed by level 40 players. Obviously, Lu Yang, level 30, cannot get the trust of NPCs.

The businessman sneered and said, "Well, I don't care if you want to die. I have a way to break the seal in this recipe in your hand, but I won't crack it for free. If you can kill the Siren Nam, I'll help you, otherwise it's free. "

The system prompts: The merchant's wife and daughter were killed by Kraken Benham. He wants you to go and help him get revenge. The reward is to unlock the seal of the formula in your hands. Do you accept it?

Lu Yang chose yes and said excitedly: "Sir, please wait for my good news."

Kraken Benham is not a monster that is particularly difficult to kill. He is a level 40 lord monster and lives on an island not far from the port.

Lu Yang walked to the port, jumped into the water, and swam deep into the ocean.

There were players around who saw Lu Yang's behavior, and they all laughed.

"Does this fool want to go to the sea to fight monsters? There are no monsters in the port near the main city."

"That's it."

...

Lu Yang is too lazy to manage these trumpet on the shore and continue to swim forward. According to the official game rules of "Second World", players who swim in the sea for more than half an hour will enter a fatigue period. If there is no rest on the land, the player will Instant death.

There are a total of six islands on the sea outside the harbor of the Sea Emperor City, with a distance of 20 minutes between each two.

Lu Yang needs to swim for 20 minutes and take a break for 10 minutes ashore ~ www.mtlnovel.com ~
There are many casual players in the game. When some people are bored, they will swim on these islands to see the scenery.

Lu Yang swam three islands in a row. When the fourth island was reached, there was no player on it. When he reached the sixth island, Lu Yang was surprised to find that there was a big boy here.

The players on the island were also surprised by the arrival of Lu Yang. When they saw Lu Yang going ashore, they came forward and said enthusiastically, "Hello this brother, I can't think of you and me as fellow fellows."

Lu Yang looked at each other and found that the person was a little familiar and said, "Hello, may I ask you?"

"Fighting King Tianming."

Lu Yang's eyes lit up and he said, "If I'm not mistaken, you are one of the two bosses of the Zhantian Guild, Zhou Tianming."

Zhou Tianming froze and said, "How do you know my name?"

Lu Yang lifted his camouflage coat, revealing his original appearance, and said, "In the lower Luyang, the chairman of the Iron Brotherhood of St. Gall."

Chapter 357 - Siren Banner

Zhou Tianming, who was famous in the last life, Lu Yang was very willing to associate with him. He and his brothers created the Battle Heaven Guild, which is also an ordinary person who has made a lot of masters by virtue of affection.

The spirit of eternity almost defeated all the guilds in the emperor's city, but did not dare to fight with the guilds of the two brothers, because the two brothers were too brotherly. The guild bosses and masters around the emperor's city were many of him. His brother, who moved him, moved almost one-fifth of the Imperial City.

Therefore, the eternal spirit will default to Zhou Tianming's occupation of a fortress outside the sea emperor city.

In the last life, Lu Yang admired Zhou Tianming as a person. As a game fan, Lu Yang always believed that only talents like Zhou Tianming were in the game.

The game should be a clean place for players to enjoy, not a place for capitalists like Liu Jie and underworlds like black blood.

Without those messy things, black blood and Liu Jie's garbage can only be weak chickens in the game, and a master can casually abuse them.

Zhou Tianming also knew Lu Yang and said in surprise: "Brother Luyang, the long-awaited name, would never meet here. You are the idol of the brother."

Regarding Lu Yang, Zhou Tianming has a lot of admiration. In the seven wars, they all win by less. They have become a model in the whole game. All the guild presidents will study and appreciate Lu Yang's war methods. Zhou Tianming is even more immersed. Among them.

Lu Yang did not expect Zhou Tianming to be so enthusiastic and said with a smile: "There are some luck elements in it."

Zhou Tianming shook his head and said, “No, it’s you. When you seduce the enemy, more than 10,000 brothers are willing to act as bait. When you fight, more than 100,000 people can act instantly. If you are still, you will be as strong as a mountain. I really admire it. “

Lu Yang was a bit embarrassed by Zhou Tianming. Zhou Tianming was his idol in the last life. Now, he has become an idol of Zhou Tianming.

“Both brothers hold it.” Lu Yang said.

“Could you guide your brother when you are free? I just laid a fortress here and is opening up wasteland. How can I deal with my head’s paste afterwards?” Zhou Tianming said.

The other three fortresses around the emperor city are in the hands of the eternal soul, and the pressure he faces is very great.

Lu Yang said with a smile: “Guidance is scarce, but we can discuss together how to pack the eternal spirit.”

Zhou Tianming’s eyes lit up and he said, “You also want to fight forever?”

Lu Yang said: “This old boy is not authentic. Black blood was run away from the Fortress of Wind and Thunder. There is no guild in St. Gall and he will take it away. This old boy will take his leftovers. Now, the most important thing is that he also obtained the fortress siege order of the Stormwind Fortress from Black Blood. “

The siege order of the fortress is the first condition of the siege, and no building can be built without the token occupying the fortress.

Zhou Tianming said with a smile: “I see. Eternal Soul has the idea to hit the Storm Fortress.”

Lu Yang said, “Yeah, since he misses me, don’t blame me for remembering him. It happened that I came to Haihuangcheng this time and saw this guy talking with Liu Jie of Zhongtian Consortium about the acquisition. You noticed, After Liu Jie acquired, he either hit me or hit you. “

Zhou Tianming said worriedly: "Liu Jie has also looked for me before. I didn't agree. Not good. If this is the case, our fortress may be dangerous."

It's more dangerous than sleeping on the side of the couch, and the three eternal fortresses of the soul have been beaten down. Can he still accommodate his last one?

Lu Yang said: "Now the fortress has not started to make money, you must be careful. If the strength is not enough, you close three of the four gates of the fortress, buy a lot of masonry, and block those three gates to the side of the wall. Thick, leave a door for walking, and this door, you can also block it so that only 10 people can go side by side, so as long as your brothers are enough, you can still do it for ten and a half months of."

This is the most famous play of the shrinking war of the last century. It persisted for 10 days, and the offensive side could not stand it and took the initiative to withdraw from the battle.

Zhou Tianming is a smart man, and he understood it as soon as he thought about it, and said gratefully, "Thank you brother, my brother is in a hurry to go back to decorate. When I'm done, I must personally thank St. Gall."

Lu Yang said, "You're welcome, I also admire you very much. If there is anything I need to help in the future, tell me, I will never let you down."

"Thank you very much." Zhou Tianming arched his hand and took out back to the city with a worried face and left.

Lu Yang understood Zhou Tianming's current concerns, and he would have to leave in a hurry. However, Zhou Tianming did not resist the eternal offensive of the soul and lost the fortress.

After looking around, making sure there was no one else, Lu Yang drank a bottle of underwater breathing medicine and dived into the sea water.

Sea monster Bannum was at the bottom of the sea. Lu Yang went downstream for 5 minutes and saw a dark mass swim over from a distance.

At the 50-yard position, Lu Yang could clearly see his original appearance. This was a giant octopus, with eight tentacles on his body, each of which was thicker than the waist of an adult.

Siren Banner (Lord)

Level: 40

Qi and blood: 2000000/2000000

When Lu Yang waited for the other party to reach a distance of 30 yards, an escape dagger appeared in his hand, and he threw it vigorously towards the upper part, reading the spell in his mouth, and pointing his finger at Benham.

“Flame Shock”

A tiny flame hit Benham’s tentacle.

“1064”

Suppressed by the sea water, Lu Yang’s fire spells reduced the damage in the water by half, but it also played a role in attracting strangers.

Benham hissed, and eight tentacles swung at the same time, rushing towards the landing sun.

With a flash of blue light, Lu Yang disappeared from the original place and appeared at a position over 30 yards. A white light flashed, and Lu Yang continued to flash upward for a distance of 30 yards.

As soon as it appeared, a lot of water bubbles appeared at Lu Yang’s feet, and the rocket launcher launched, pushing the landing sun toward the upper part quickly.

In the water, the player's movement speed is 80% of the normal movement speed, and Bannerham's movement speed is twice the normal speed of the player. Soon, Bannerham caught up with Lu Yang, just before he was about to reach out his tentacles. When attacking Lu Yang.

Lu Yang's feet popped up a lot of bubbles, launching hot and fast skills.

Demon's Heart has risen to level 3, and the hot and fast level has also reached level 5, increasing the movement speed by 285%. Even with only 80% of the effect, Lu Yang's movement speed is still higher than Banham, plus there are escape daggers and Flashing skills.

After 2 minutes, Lu Yang successfully jumped onto the island before Bannerham caught up with him, and just arrived on the beach. The wind sounded behind him, and Lu Yang rolled over to avoid.

With a bang, he was smashed by a tentacle thicker than an adult's waist with a tentacle that was thicker than an adult's waist and smashed a 30-yard pit in his original position.

The wind rang again.

Lu Yang continued to evade. Lu Yang stopped when Lu Yang ran to a distance of 30 yards between the beach and the sea.

Banham is an octopus and has no ability to land, so his longest distance to travel is at the junction of sea water and sand.

If the player is within the attack range of his tentacle, Bannum will continue to attack the player with the tentacle. If the player is beyond 30 yards, Bannum will immediately dive into the ocean floor.

Within 30 yards, only two tentacles can reach this distance, and the remaining tentacles are not enough for Lu Yang.

This is the experience summarized by the players of the previous life. There are only two tentacles to attack, and it is much easier for Lu Yang to hide.

Easily dodging the attacks of the two tentacles, Lu Yang read the spell, and gave Burnham 5 levels of burning.

Raised the skill to level 2 in the Academy of Magic. The heart of the demon **** added 3 levels, and the level of burning reached level 5.

After 5 floors, Bannerham takes 300 additional fire damage.

Banner screamed, and the two tentacles smashed towards the landing sun.

Lu Yang's escape dagger just ended cooling down, he threw the dagger, and moved laterally for a distance of 30 yards. After avoiding the tentacle attack, white light flashed, and Lu Yang moved laterally for another 30 yards.

"The Great God of Fire ..." Lu Yang read the forbidden curse meteor fall.

Bannerham moved about one-third of the speed on the beach. It moved very slowly. When he arrived 30 yards from Luyang, Lu Yang's spell had just finished.

"Meteor falls."

A huge reddish meteorite in the sky fell from the sky ~ www.mtlnovel.com ~ in the middle of the huge body of Benham.

"12000" (Critical Strike)

A vertigo appeared on Banner's head.

In Lu Yang's mouth, the spell reappeared, the whole body turned into flames, and instantly turned into a red-red flame.

“Meteorite Impact”

“Meteorite Impact”

...

A series of ten crimson meteorite fell from the sky, hitting Benham and continuing to roll forward.

“3852” “112”

...

To deal with such a huge monster, the output of impact with a meteorite is the highest, and each meteorite can roll forward for 10 seconds, and these 10 seconds still do not roll out of Benham’s body.

Equivalent to each round of meteorite can cause more than 4,000 damage, and once a crit appears, the damage is higher.

Even though Bannum had 2 million health, he still could n’t withstand an attack like Lu Yang. In less than 10 minutes, Bannam screamed, his body lost strength, and his tentacles fell on the beach weakly. .

System prompt: You killed Kraken Benham

You get 48986 experience

Lu Yang came to Benham’s side and dropped a total of 6 things on his side. The first was his daughter’s toy (mission item). This is the merchant’s voucher. After getting it, he can give it to the merchant. Unsealed Holy Water.

The remaining items are all equipment that can be worn at level 40. Lu Yang all packed in his backpack and swam back to the port of Haihuangcheng along the island.

At this point, the sky was dark.

There were few players in the port under the night. When Lu Yang came ashore, there were hardly any people found. When he came to the hotel, he found a businessman who still sat there with a sad face. what is this.”

Chapter 358 - Seal crack

The businessman didn't care, but when he saw the pink toy bear, the businessman stood up excitedly and shouted, “This is my daughter's toy. This is my daughter's toy. Where did you find it?”

Lu Yang said, “In the belly of Kraken Benham.”

The businessman took a deep breath and said, “You killed Benham.”

“Yes.”

“Friend, thank you, thank you for revenge for my wife and daughter for me.” The businessman burst into tears in excitement, took out a bottle of potion from his arms and said to Lu Yang: “This is the only thing I can give you ,thank you.”

Lu Yang took the potion and looked at it.

Holy Water: Can remove the seal on some recipes

Lu Yang took the formula from his backpack, poured the holy water on it, a golden light flashed, and the original text of the formula appeared on it.

Magic sound reverberation

Effect: Use on the target area, reducing the magic resistance of target players in the area by 30%.

Lu Yang shook his fist hard. This is what he wanted. Counting his 45% magic penetration, he could finally go to the high-level map to brush monsters.

“Drip ... Drop ...” The speaker rang.

Lu Yang opened it and saw that it was from Xia Yuwei. He pressed the connect button and asked, “What’s the matter?”

Xia Yuwei said happily: “Report to the boss, the facilities inside the Fortress of Thunder and Thunder have been built, please ask the boss to come and evaluate.”

Lu Yang said with a smile: “Okay, I’ll go back now, you’re waiting for me at the Red Fort.”

There is no point in staying here, and Lu Yang should return to the city to prepare for defense.

Taking out the fortress and returning to the city roll, Lu Yang flew back to the red fortress and just landed, Lu Yang saw Xia Yuwei appearing beside him.

“Boss, here you are.” Xia Yuwei handed a bundle of wind and thunder fortresses back to the city to Lu Yang. Although it was just a small scroll, it represented a glory.

Those who do not get the fortress will never know the feeling when a person stands at the fortress’s city and looks at the entire fortress under his control.

Obviously, Xia Yuwei already likes this feeling!

“Let’s go, Zhuojiu and Jiang Ze are waiting for you.” Xia Yuwei said.

“Okay, here we go.” Lu Yang said with a smile.

Two people use scrolls together.

With a flash of white light, Lu Yang and Xia Yuwei appeared at the transfer point in the inner city of Fenglei Fortress. Jiang Ze and Zhuojiu were standing outside the transfer point and saw Lu Yang coming and welcomed them.

“Boss is here,” everyone said.

“All are here,” Lu Yang said.

Everyone nodded together.

Zhuo Jiu said with excitement: “Boss, the method you gave is really great, I couldn’t think of it. In a few days, we even had two forts.”

So far, only the Jagged Brothers have two fortresses in the entire game, which is enough to make them proud.

Xia Yuwei said, “Boss, please rate it quickly and see how I build it.”

Lu Yang looked around. The various buildings in the fortress’s inner city were placed close to the wall, so that no one was sneaking behind the buildings to hide.

The open space in the middle is very large, divided into 16 areas. If the outer city is attacked, players can easily enter the inner city wall to fight if they enter the inner city.

Lu Yang nodded with satisfaction, saying, “The design is very good.”

Xia Yuwei smiled happily and said, “It’s great. I’ve spent three days trying to design a solution.”

“Good is good, but Yu Wei, you have to be prepared, the next war is not far away.” Lu Yang said.

“What’s wrong?” Xia Yuwei and Zhuojiu and others looked at Lu Yang in surprise.

Lu Yang said: “I just saw Liu Jie and the spirit eternity in the Sea Emperor City. If there is no accident, within half a month, Liu Jie will reach an agreement with the spirit eternal. You must bear the siege of the fortress first. “

Xia Yuwei looked cold and said, “Boss rest assured, I now have 100,000 people in my hand. Even if the spirit comes to attack the city forever, I have the confidence to keep it.”

Lu Yang said with a smile: “Stupid girl, I didn’t let you defend yourself. When we really played, there was us. I mean, don’t let that kid sneak in, it’s best to let your players upgrade to the Sea Dragon Fortress. In this way, if the other party sends someone to sneak attack, you can also know in advance. “

Xia Yuwei nodded.

Lu Yang went on to say: “In addition, carefully distinguish the time when these people under you upgrade, there must be at least 60 players on duty in the fortress at night, and 30 points per night on duty.”

With so many points, one week of duty can get a gold-level 30-level equipment, which is very suitable.

“Thank you, boss.” Xia Yuwei said.

Lu Yang said: “You’re welcome with me. Let’s go to the outer city.”

The Storm Fortress is different from the Red Fortress, which is built on a high mountain and has only one gate. The Storm Fortress is on the plains, and all four gates are open.

Lu Yang set up a city behind the four gates of Fenglei Fortress. Each city set 60 arrow towers and spent nearly 20,000 gold coins.

Xia Yuwei said in surprise: "Boss, too much, enough."

Lu Yang set up 30 arrow towers above each of the 4 gates and said, "It's almost the same. In the future, this fortress will be an iron hedgehog. Whoever hits you will first insert dozens of holes in him."

Xia Yuwei looked at Lu Yang gratefully.

"Now I'm looking forward to the eternal soul coming, the boss only set the city, so that the eternal soul can't find a way to crack." Said bitter love for a long time.

Everyone nodded, they never thought about this item of Lucheng, let alone Lu Yang dare to spend so much money.

Lu Yang said: "Brothers, the next battle is not easy to fight. Liu Jie's investment is hundreds of millions. This kid has also bought several large guilds in the Orcs and Elves. Obviously the kid's purpose is to unify the whole national costume, if he comes to hit us, it will be a thunder. "

The white wolf said uneasily, "This game is not played by their family. Why do we want to do whatever we want?"

"Yeah, he dare to come and let him taste what it means to fail." Sun Yu said.

Tu Feng said: "We are not weak now. With the battle of Yinsong Canyon, the number of guilds has exceeded 260,000, and all of them are level 25 or above. We are already the truly largest trade union in St. Gall."

The fact that the Brotherhood of the Iron Blood has two fortresses has been spreading in the city of St. Gall because of the large number of players recruited. Many high-level players in the Holy City have joined the Brotherhood of the Iron Blood.

Although this looks good, the number of Jagged Brothers Alliance will exceed 300,000 or more in a short time.

However, the addition of player components has become a lot more mixed. It may be that the spies mixed in by other guilds may be the enemy at all.

Lu Yang needs to cultivate a group of men who are truly loyal to themselves and will never be rebellious.

“During this time, you will take your own upgrade first, and I will go out.” Lu Yang said.

Everyone knew that Lu Yang must go to challenge the boss, and nodded in agreement.

“Boss rest assured that if there is any problem in the guild, we must report it as soon as possible.”

Lu Yang nodded, and the guild gave them to Zhuo Jiu, Xia Yuwei and others. He was very relieved, took out the backpack and returned to the city roll, arched his hands to the crowd, and flew back to the city of St. Gall.

The number of players on St. Gall's Square is increasing, and a large part of them are Xiaoxin.

Lu Yang came to the auction house along the avenue and found an idle auctioneer, searching for 12 herbs such as imperial bloodgrass, dream leaf grass and ghost grass.

These are the raw materials for making the magic sound reverberation. Although they are all high-grade materials, not many people acquire them at this stage.

Lu Yang bought them all, 5 packages were filled with herbs, came to the pharmacists' guild, Lu Yang opened a high-level room, took out the herbs and tried to make them.

The magic sound reverberation is an herb he has never received in the last life. The price of this herbal formula is more than 500 gold coins, and it is not necessarily sold to 5000 gold coins.

However, the principle of refining pharmaceutical agents is basically the same. It is nothing more than optimistic about the ratio and the heat. As long as you master it, it can be refined.

After Lu Yang tried for 20 minutes, he made the first bottle of magic sound reverberation, and then Lu Yang began to try to make it with a large pot. Two hours later, Lu Yang refined 100 groups of potions, each containing 30 bottles.

“Girl, what do you do?” Lu Yang dialed Han Ying’s intercom.

“Brother, Han Fei and I are brushing emerald crystal.” Han Ying said.

Lu Yang said, “Call them to the Red Fort. I’ll take you to a place.”

“Okay.” Han Ying closed the intercom and flew to the Red Fortress with Han Fei and others.

Lu Yang was already waiting there.

Han Fei said, “Brother, are you taking us out to upgrade?”

Lu Yang said: “Smart, take you to a place where you can quickly upgrade, but this place is far away and it takes more than a day to run.”

“It’s okay, just upgrade together.” Han Ying said.

Lu Yang’s heart warmed and he ran out of the fortress with Han Ying’s three siblings, Xiao Liang and Mu Yu, and ran all the way to the northwest.

After a day and a half, Lu Yang took Han Ying and others to the level 60 map-Psychic College.

Psychic college

Where human beings once had the most splendid civilization, there were once gathered the most human university students and great demon teachers.

In order to gain more power, many mages in the natural department began to study the powerful races that lived on the planet in ancient times ~ www.mtlnovel.com ~ For example, giant spiders, giant mantises, alien monsters and other monsters.

In an experiment, they tried to resurrect the most powerful Zerg ancestor, the 10-meter-high humanoid Emperor Kanudo.

However, after the resurrection, the Emperor Kanudo did not obey the control of the university students. He adopted the method of removing the shell from the golden cicada, and when no one noticed, turned his strength into a giant egg and spit it out of his mouth.

His soul entered the dome and was born again!

Later, he invaded the energy storage room of the psychic college, absorbed all the energy of all psychic college magisters and magic teachers for three years, made countless monsters, and killed most of the humans in the psychic college. A few who knew the resurrection technique were left by him.

The Terrans attacked. Unfortunately, Kanudo resurrected countless ancient Zergs at this time. The Terran Army was annihilated and the Terrans were terrified. They decided to give up the attack.

At this point, the Psychic Academy has become a paradise for the Zerg!

Lu Yang and his sister Han Ying arrived at the entrance to the ruins of the Channel College.

The original magnificent black gate had been damaged and deformed, and the former shadow could only be found from the 15-meter-high fence next to him.

Several mutated vultures flew through the sky, with dark clouds covering the sky, and the whole college gave a horrifying feeling.

“His ~!” A roar came from the gate, and Mu Yu hid into Lu Yang’s arms.

“Brother, it’s scary here,” Mu Yu said.

Lu Yang patted Mu Yu’s head and said, “Don’t be afraid, I’m here, come with me.”

Go through the gate to the Academy Square. Countless giant spiders are walking on the square. There are almost tens of thousands of them. The closest spider to Lu Yang and others is only 40 yards away.

Ancient spider

Level: 60

Qi and blood: 10000 \ / 10000

Ancient spiders are about the same height as humans, with a pair of sharp objects in front of their mouths to bite, and the two pairs of feet in front of them are also very stout.

“Uh ~, so disgusting.” Han Ying said, as a girl, Han Ying is not afraid of the world, but Han Ying who dares to kill is a little afraid of spiders.

Han Fei was not afraid. He looked closely and asked, “Brother, why is this 60-level spider so bloody?”

Xiao Liang also responded and said, "Yes, only 10,000 points, shouldn't it be more than 100,000?"

Lu Yang said with a smile: "This is the particularity of the monsters here. The monsters' double resistance here is very high. The physical defense is nearly 6000 points, and the magic defense is more than 6000 points. Therefore, their health is not much.

"With such a high defense, how can we kill? Our injuries are not broken." Han Fei scratched his head and said.

Lu Yang said with a smile: "I now have a potion that reduces monsters' magic resistance by 30%, and also has a special effect of 45% magic penetration. Their magic resistance does not work for me."

The 6000 magic resistance removes 75% of the magic resistance and only 1500 points are left. Lu Yang magic hurts more than 2800, and the fire wall spell damage is more than 400. It can also do 1700 damage per second.

Han Fei forgot about it and said in surprise: "Brother, can we not blame here on the level 60 map?"

Lu Yang said: "Yeah, here you can quickly upgrade your level, come with me, I will take you to find a good place to hide, you just wait to upgrade."

Han Ying and others nodded together and walked towards the academy with Landing Yang.

The area of Psychic College is very large. It is not just a laboratory and a playground, but there are more than 20 buildings, dozens of laboratories and three large colosseum.

The Colosseum is designed to test monster levels.

The Colosseum is very magnificent. According to the official history of the game, this Colosseum was once one of the important sources of income for the Psychic Academy. During each experiment, noble officials from various countries are invited to come and enjoy it.

One of the most magnificent Colosseum is the first one to the right of the entrance of the college. The whole Colosseum is 50 meters high and covers an area of 20,000 square meters. It can accommodate 90,000 people at the same time.

However, now the Colosseum is broken and the exterior wall of the ornate Colosseum has many holes.

Lu Yang killed the spiders on the road and came to the bottom of the Colosseum. He found the position of coordinates 7816.8868 as the old horse knew the way.

Looking at the 20-meter-high pothole familiar to him above the Colosseum, Lu Yang could not help but fall into his memory.

In the last life, when he was already a 100th division, his favorite thing was to bring up the men who had joined first to upgrade. Five people in one hour had a total of 1 gold coin. In retrospect, I felt miserable enough.

“All jump to this. The spiders here shouldn’t be able to reach you. I’m going to blame.” Lu Yang handed the escape dagger to Han Ying and said.

“Okay.” Han Ying threw out the escape dagger and jumped onto the platform, throwing the dagger down and handing it to Mu Yu.

Xiao Liang is relatively easy, and he jumped up with his jumping skills.

After Lu Yang and everyone else went up, they took the escape dagger back and ran back to the entrance of the square. They read out the spell and threw 6 meteorite impacts in 6 directions.

“700” ...

A series of damage rises among the spiders.

“His ~~”

More than 3,000 spiders looked at three pairs of compound eyes on their heads at the same time towards Lu Yang, rushing towards the landing sun with 6 legs thicker than a human arm.

The 60-level spider had an attack power of more than 5,000. Basically, it was death. Lu Yang’s feet turned on hot and swift, and ran towards the Colosseum quickly. When he came down below, he threw out the escape dagger and Lu Yang jumped into the hollow.

While the spider didn’t arrive, Lu Yang said a spell in his mouth, and quickly turned the area within 30 yards into a sea of fire.

Soon, the first spider rushed into the sea of fire.

“-1”

Even if there is 45% magic penetration, the spider’s magic resistance still has 3300 points, which exceeds the sum of Lu Yang’s spell damage + skill damage, and can only force 1 point of blood.

Lu Yang was not in a hurry, waiting for the incoming spider to cover the 30-yard area around him, and took out a bottle containing the magic reverberation potion in his hand and threw it down.

With a slam, the bottle shattered, and all spiders within 30 yards were stained dark purple.

“1700”

“1700”

...

A large amount of damage emerged from the spider's head. Within 7 seconds, all spiders within 30 yards died.

The system prompts: You have gained 3266 experience points (among which, you have 2600 experience in cross-level fighting)

...

Lu Yang checked and killed more than 100 spiders, gaining more than 320,000 experience.

"It's great to have so much experience." Mu Yu said happily.

Levels 30 to 31 require more than 20 million years of experience. At this rate, it won't take long to upgrade.

"Staying here for a week, I feel I can rise to level 40." Xiao Liang said.

"Hey, those who rushed through the rank list would scare them if they saw our rank." Han Fei said.

Suddenly Lu Yang came to his senses and patted Fei Han's shoulder, saying, "You're right, everyone has closed the rankings."

"Oh." Everyone thinks for a while and understands that when others are at level 30, they are so quickly upgraded to over 40 levels, which will definitely cause unnecessary trouble. In this case, it is better to hide first.

After Lu Yang closed the interphone, he continued to throw magic sounds below. Level 5 fire wall operation can last for 10 minutes, more than 3,000 monsters have been burned to death, and the fire wall operation is not over.

When Lu Yang upgraded, on the other side, Liu Jie successfully injected 400 million credit points, occupying 60% of the soul of eternal spirit.

At the same time, Liu Jie 's assistant, who was also Lu Yang 's parents who wanted to shoot Lu Yang at the funeral, negotiated a contract with Bloodthirsty Batian, and bought the entire bloodthirsty Batian guild with a credit of 500 million 51% of the shares.

Bought a 51% stake in Hannibal Blue Crystal Association with a 100 million credit point, with a fortress.

I bought a 51% stake in Beifengcheng Tianyu Association with a credit of 150 million yuan, with a fortress.

I bought 90% of the prophecy association with 50 million credit points and 92% of the Beifeng City Sunset Association with 67 million.

At 10 am on the 11th National Day, when most players were online, Wang Teng brought the bosses of the major guilds such as Bloodthirsty Heaven and Spirit Eternal to hold a press release in St. Gall, announcing the acquisition.

Bloodthirsty has the Warm Water Fortress of St. Gall, Cold Wind Fortress of North Wind City, and Gaul Fortress of Hannibal City. The combination of one main guild and two guild guilds adds up to 350,000 players.

Wraith Eternal also has three strongholds, with a total of 340,000 players.

The number of players in the Blue Crystal Guild is 180,000, the Sky Domain Guild has 170,000 players, the number of guild players is predicted to be 40,000, and the number of players in the Sunset Guild is 60,000.

The five guilds together have a total number of 1.14 million, of which 100,000 are gold-level players.

At this point, a super guild more than 10 times stronger than the black sword of the undead was born, and the major guilds of the entire human race were all in shock.

Lu Yang is going to take Lan Yu, Han Ying's siblings, Mu Yu and Mu Yi together with the 12 little guys to the playground today. Just before leaving, Tu Feng sent a message and told Lu Yang about the incident.

"Late evening let me tell you that he, Xiongba, Lei Long and Qiansi are meeting in a special space, I hope you can participate." Tu Feng said.

Lu Yang said, "Tell them, I don't participate, it doesn't make sense."

Lan Yu heard the words on the phone, holding Lu Yang's arm and said, "Brother ~, forget it, don't play today, you should go to a meeting with them. The guild matters are more important."

Lu Yang shook his head and said: "No, there is no need to participate. It is nothing more than discussing the alliance. This thing is to discuss it. It is still a few nonsense. We still play with us."

Lu Yang said to Tu Feng: "You tell them, I don't have time for the time being, let them talk all day long, so it will be more comfortable to negotiate."

Among the fortresses around St. Gall ~ ~ www.mtlnovel.com ~ The closest to the bloodthirsty bully is the male fortress. Now players have unified fortresses to return to the city. If bloodthirsty bully wants to fight the males, 350,000 people are unified Teleport to Warm Water Fortress. Without him and Twilight's support, the bully cannot support for 3 days.

The Old Man's fortress is next to the fortresses of Blue Crystal and Celestial Guild outside Beifeng City and Hannibal.

If Tianyu and Blue Crystal attack the twilight flower language fortress at the same time, and the bloodthirsty domineering attack on the black rock fortress of the tyrant, the soul will hold Lu Yang forever, and the tyrant and twilight will be finished sooner or later.

However, it is almost impossible to do this. Now the entire human race has entered a situation that affects the whole body. The bosses of the major guilds such as Lei Long and Qiansi and Zhou Tianming will never sit idly by. produced.

Lu Yang was not worried about this, and took Shen Mengyao and Han Ying to the nearest playground in Donghai City, which is the closest.

Lan Yu, Han Ying, and others were quite worried about it. They were relieved when they heard Lu Yang's explanation, and they played happily.

Chapter 360 - Getting rich

"Wow, this is really fun." Lan Yu shouted happily.

Among these people, Lan Yu came for the second time. Sister Han Ying and brother Mu Yi and 12 children only came for the first time. All of them were full of curiosity.

Lu Yang said, "Go and play for yourself. Have a good day today without any restraints."

"Then let's go play." Mu Yu happily pulled Mu Yi to accompany her on a roller coaster.

Han Yingsan's three siblings also went to play their own.

12 Xiao stood beside Lu Yang but was a little helpless. The oldest and also the captain, a child named Han Sha said: "Boss, can we also play?"

Lu Yang looked at the expectant eyes of Han Sha and others, patted his shoulders one by one and said, "If you don't dislike them, you, like Han Fei and Mu Yi, call me a big brother."

Han Sha and other 12 children looked at Lu Yang in surprise. The education they received has not been this way. Han Zhong has always told them that Lu Yang is the object they need to repay.

"Boss, Master won't let us call it like this, let him know and will punish us." Han Sha said.

Lu Yang said with a smile: "No, in the future, listen to me and call my elder brother. Master punishes you, and you say you let me."

Han Sha and others showed their longing eyes. How good Lu Yang was to Mu Yi and others. They saw in their eyes. Normally, Master taught them sternly. Although they admired them, they were even more envious of Lu Yang. Mu Yi their care.

Now that Lu Yang was willing to be their brother, Han Shi, who responded quickly, shouted, "Brother."

Lu Yang patted his head and said, "That's right."

One person was praised, and Han Sha and others cried out.

Lu Yang said with a smile: "Go play, have fun, don't have any scruples. If someone bullies you, call me and I will avenge you."

He made a gesture of attack and made Han Sha and others laugh.

"Brother, we don't need you to protect it, Master said. We will be able to protect you in another three years." Han Shi proudly said.

Lu Yang said with a smile: "Smelly boy, wait until you can beat me, go play."

Han Shi snorted and ran away with the other 11 boys, and ran out to play.

Lan Yu curiously looked at the back of Han Sha and others, holding Lu Yang's arm and asking, "Brother, who are they?"

Lu Yang shook his head with a smile. Lu Yang understood the meaning of these 12 people, but Lu Yang didn't think about letting these poor children to kill Liu Jie for him in the future.

In this world, Lu Yang is confident that in reality and games, Liu Jie and the family behind him will go bankrupt.

“Let’s go, let’s play.” Lu Yang said.

Lan Yu rushed to the ground, pouted, pointed at the distant shuttle, and said, “I want to play with that.”

The space shuttle is a large disc with a circle of seats around it, with a 60-meter-high pillar in the middle.

At the beginning of the game, the pillars will swing around 90 ° left and right, and the disc will rotate at high speed, not only can the weightless people lose weight, but they can also turn dizzy.

“No problem, today my brother and I sacrifice my gentleman.” Lu Yang said.

...

After 20 minutes.

Lan Yu’s life flew out of her body and leaned beside Lu Yang. “Uh ...” Lan Yu was nauseated and almost spit it out. It took a while for Lan Yu to ease over.

Lan Yu patted her chest. When she thought that Lu Yang was just as uncomfortable as her, the little goddess looked up at Lu Yang. She just wanted to let Lu Yang rest for a while, but was shocked to find out what happened to Lu Yang. No one stood aside.

“Brother, you have nothing to do.” Lan Yu asked in surprise.

Lu Yang blinked and said, “Does this need anything?”

Lan Yu pointed her fingerlessly and said, “I’m all like this, you have nothing at all.”

Lu Yang's heart was ridiculous. In order to assassinate the target, he did not do any extreme sports such as parkour, rock climbing, and skydiving. This level of games is just trivial. As long as his physical fitness is good enough, no body will appear reaction.

Lu Yang said, "Would you like to take a break?"

Lan Yu nodded, and followed the landing to rest on the bench.

Leaning in Lu Yang's arms, Lan Yu quietly looked at Lu Yang's face, and carefully observed that she found that Lu Yang's face was as weather-beaten as his father's, and his eyes were vicissitudes and sophisticated.

"Brother ~, have you experienced anything?" Lan Yu asked.

Lu Yang smiled and said, "Why do you ask that?"

"Intuition," Lan Yu said proudly.

Lu Yang said: Your intuition is accurate, but I cannot tell you my experience.

After a break, Lu Yang changed the subject. The little goddess was quickly attracted to the playground.

After playing for a whole day, in the evening, the people stopped and Lu Yang gathered all the people and looked at everyone with an inexhaustible look.

"Let's go, next time I will bring you again, at most not more than a month, how about." Lu Yang said.

"Okay." The crowd said happily.

Lu Yang shook his head. They were all a group of children who had not grown up. They took them to the car to send Lan Yu back to school, and then returned to the studio together.

Just entered the game.

The old man from the twilight sent a call application.

Lu Yang pressed the connect button and asked, "What's wrong?"

"Brother, why do you have time to hang out after such a big thing happened?" Said the old man.

"What a big deal." Lu Yang said indifferently.

After dusk, he asked, "Brother, do you already have a solution?"

Lu Yang said: "There is no countermeasure, but I know that their guilds will not attack us for the time being, but are using the funds provided by the Liu Jie consortium to collect a large amount of materials to forge 30-level gold equipment."

"We also discussed this matter just now," he said. "If they were right, they would attack us as soon as half a month later."

Lu Yang said: "So it's pure nonsense to talk about alliances now. When it's time to fight, it's not too late to talk."

The current pattern of St. Gall is a bit special. For example, when fighting in ancient times, one of your enemies was Xiang Yu and the other was Anonymous. You naturally played Anonymous before the fool went to fight against Chu Bawang.

With Yang Yang's record of victory in seven battles and his 260,000 high-level players, Lu Yang is like Chu Bawang. Unless he is absolutely sure of eternal spirit, he must follow the bloodthirsty tyrant to destroy the two of the twilight and the male tyrant.

Now let 's talk about cooperation. When the cooperation is finished, the two men announced that the Brotherhood of the Iron Blood fully supports them. If they are attacked, the Brothers will help.

In this way, Lu Yang became the scapegoat for the two without doing anything. The eternal spirit and bloodthirsty domineer didn't want to hit Lu Yang first. In order to save face, he must hit him first. Lu Yang didn't do that kind of silly thing.

Chi Mu and Xiongba originally thought so. As long as Lu Yang agreed to form an alliance, he immediately announced the alliance and let Lu Yang take the lead to welcome the three fires of Wang Teng's new official.

They thought that Lu Yang was a young man, and they were proud of winning the Necromancer Black Sword, and they were very deceived. Unfortunately, they both miscalculated.

After listening to Luyang, the caller was hung up, and the old man looked at the bully beside him helplessly, and said, "Looks like we have to find a way."

Xiongba said stubbornly: "Fuck, it's just that Liu Jie is rich, isn't it just using money to pile up, like who can't afford the money, I also invest."

Chi Mu shook his head. At first he thought that with a billion yuan entering the game can be mixed up with wind and water. I didn't expect that this money would hit a wave, and now there is a tendency to collapse at any time.

"There is no way, the old man can only continue to invest. In this way, the unlucky one is Lu Yangzhen." Said the old man.

"Deserve it, the poor boy who will be destroyed sooner or later, what qualifications are there for us?" Xiongba said.

Until now, Xiongba still looked down on Lu Yang in his heart, but his voice just dropped.

System prompt: Due to the application of most players, the official set up 6 gold coin trading officers in the north of St. Gall. If players want to apply for gold coins, they can exchange them in the north of the city through the teleportation array.

“I’m going. What’s the situation, the north of the city is about to develop.” Xiongba said.

Late twilight is also a moment, said with a rage: “Why not announce this news earlier, I just sold 20 stores yesterday, and the loss is huge, and the value of these stores has at least doubled five times.”

Xiongba said: “I also bought 16 stalls on the trading market yesterday. I really don’t know which kid is so lucky.”

The lucky boy was Lu Yang. Looking at the news released by the system, Lu Yang could not help but clenched his fists.

“Brother, what’s wrong?” Han Ying asked.

Lu Yang said, “There is something good, do you want to listen?”

Han Ying and Han Fei nodded together.

Lu Yang said with a smile: “This is a big thing. I’ll announce it after I have gathered people together, wait for me.”

Opening a special space, Lu Yang sent out invitations to the turbid wine, the three males of the Bai Family, and Xia Yuwei.

The crowds clicked in while they were curious.

It was still a special office-like space. Lu Yang was sitting on a chair. On the row of chairs behind him were Han Ying and Xiao Liang.

Xia Yuwei asked curiously: "Boss ~ www.mtlnovel.com ~ What's the matter?"

"Isn't it about the eternal things of the soul? Boss, don't worry, as long as he dares to come, we will take them back." Mao Qiu said angrily.

"Zhuo Jiu said," I have talked with the brothers below, and they all support us. "

"I do the same here, I have done the mobilization work, and ensure that all the members are there before the war."

The white wolf said, "I have no problem with it."

Sun Yu said, "Me too."

Jiang Ze said, "Me too."

There was some emotion in Lu Yang's heart and he had to admit that having such a group of brothers was his greatest blessing. He did not wait for him to ask for it and did not send them a penny. These people took the initiative to complete what Lu Yang should do thing.
