

Wild Fire 361

Chapter 361 - Tertiary gem

Sighing, Lu Yang stood up and bowed to the crowd, saying, "I thank everyone first."

Zhuoju poured out quickly and said, "Boss, what are you doing?"

"Yeah, you don't need to do that."

Lu Yang waved his hand, motioned everyone not to persuade him, and said with emotion: "Boss, I'm sorry for you, I have always been afraid of spreading out to let the enemy know, so I didn't tell anyone."

"Ah?" Bai Lang said in surprise: "Boss, you have nothing to tell us."

The white lion gave the white wolf a slap and said, "Listen to the boss and finish."

Lu Yang said: "Just before we launched the war against the Fortress of Wind and Thunder, my boss got an investment of 1 billion credits, and the investor was Jiang Ze's father."

Zhuo Jiuqing and Xia Yuwei and others all stood up excitedly, looked at Jiang Ze, and then looked at Lu Yang.

"Boss, don't we have a lot of money to buy materials and equipment to prepare for battle?" Mao Qiu said.

Lu Yang said: "That was the case, but I have invested most of this money, and now I have less than 100,000 gold coins left."

Everyone fainted.

Xia Yuwei said, "Boss, where did you invest?"

Lu Yang said, "Do you really want to know?"

Xia Yuwei nodded, and others such as Duojiu Qingli and Bailang nodded.

"I invested in 2,600 shops in the north of the city." Lu Yang said lightly.

"I wipe it." The white wolf stared at Lu Yang with wide eyes and said, "Boss, you say it again, I feel that I have hallucinations just now."

Xia Yuwei and Zhuo Jiu Qing also nodded vigorously, saying, "Boss, you say it again."

Lu Yangqiang said with a smile: "It's the same ten times. Part of my investment is 2600 shops in the north of the city. These shops cost me 300,000 gold coins."

"I'm rich," said the White Lion.

Mao Qiu and others who insulted me forever have fallen into a state of madness.

"Boss, we are rich, we are rich." Zhang Zibo screamed.

"Oh my god, I bought 300,000 gold coins in 2600 stores. I'm afraid it's worth 3 million gold coins now, no, 5 million gold coins. Oh my god, I won't count this account." Mao Qiu said excitedly.

“1.5 billion credit points, brother, you doubled the amount of money invested by my dad.” Jiang Ze said excitedly.

Lu Yang sat on the chair and watched everyone happy, and his heart was very happy. Now, he can finally pay dividends to the shareholders in front of him. It is almost four months, and they can't keep them dry.

After the crowd calmed down, Lu Yang said, “The purpose of asking everyone to come this time is to ask you whether we rent these shops or sell them for money. I am going to give you a bonus.”

People such as Xia Yuwei and Zhuo Jiu Qing opened their eyes instantly, but they immediately meditated again.

“Selling money is the fastest way to make money. However, the shops in the north of the city obviously have a lot of room for appreciation. If you rent it out, although the money is slow, it is more suitable.” Xia Yuwei said.

Zhuoju nodded and said, “I heard the news that” Second World “is planning to annex the online sales platform business. It is very likely that items bought and sold in the real world can be purchased in the game without buying them online. You need to open a shop and you have to rent a shop. It looks like Chengbei is a good place to go. “

“If that's the case, we will make a profit just by collecting rent.” Zhang Zibo said.

“I agree to rent it out.”

“I agree.”

...

Soon, more than 20 people at the scene raised their hands and voted, agreeing to rent the shop.

Lu Yang said, "Okay, the rental of the shop will be handed over to Tu Feng. The rent is required to be paid at least three months. The rent of these 2600 stores is all used to pay dividends. By the way, all the previous three months are given. You make up. "

Even if the rent averages only 10 gold coins a month, the first cash that is finally harvested has at least 20 million credit points. If dividends are paid, everyone on the site can receive more than 600,000.

"Boss, you are so handsome." Zhang Zibo said.

Lu Yang said: "As for the boss, all the money I make is used to buy materials."

"Boss, then we don't need any more money," said White Wolf.

Lu Yang waved his hand and said, "No, don't compare yourself to me. Don't be afraid to tell you. I'm very rich now. I don't even care about these millions."

Everyone: "..."

"No, boss, you turned out to be a super rich." Mao Qiu asked.

Lu Yang said with a smile: "Do you look like me?"

"Not like it." Mao Qiu truthfully said.

"That's not enough, but I'm really rich now. As for how to make it, don't ask first, it's a secret. When the time comes, I will naturally tell you, and each of you will have a dividend. Good luck. Individuals can get a number that you dare not imagine. "Lu Yang said.

Lu Yang hasn't said anything about the other three main cities, mainly because the official information of those three main cities has not yet come down. Lu Yang speculated that the government may be using the north side of St. Gall as a pilot for trial operation.

There is also the most important one, Kak currency. If this virtual currency really reaches the level of tens of thousands of dollars like the previous one, he will earn at least more than 10 billion.

Liu Jie even wished to crush him with money. Lu Yang waited for so long to wait for his news. Since he came like the last life, then Lu Yang let him plant it completely in this game.

After ending the call, Lu Yang looked at the happy faces of Xiao Liang and Han Ying and said, "After this dividend is paid, I will open an account for Mu Yi and each of you in the bank, and each person will deposit 50 Million credits. "

"Brother, what is this?" Han Fei asked.

Lu Yang said: "Simple, because you are my brother and sister, and my brother wants you to live a better life, so I will save you so much money every month from now on, and you must also hold it."

Sister Han Ying, Xiao Liang, and Mu Yu were all warm when they heard the words of Landing Yang, and nodded, and said, "Thank you, brother."

Lu Yang said with satisfaction: "This is good, I'm going to blame."

Jumping out of bu \*, Lu Yang ran out to pull the monster. The upgrade yesterday made Lu Yang rise from level 30 to level 33 and a half. Today it looks like he can at least rise to level 35.

There are thousands of bottles of magic sound repercussions on his body, and Lu Yang has no worries that they will not run out.

When I came to the square, there were not many spiders. Lu Yang decided to explore the academy. He remembered brushing the sub-elite mutant sickle monsters in front of the 22 labs in the main building. This monster not only has higher experience but also has a chance A level 3 gem.

Gems and enchanting materials have always been two major problems that plagued Lu Yang. Lu Yang came here on the one hand to upgrade and the other to gems.

Going to the dark path on the right, the road is full of giant spiders and a few mutant sickle monsters.

Mutant Sickle (Sub-elite)

Level: 60

Qi and blood: 20000 \ / 20000

The shape of this monster is very special. It has a Komodo dragon's body, but has amazingly long hind legs. The two forelimbs have evolved into two sharp weapons like the sickle. It is good at jumping and killing. .

Don't look at only 20,000 blood. The magic resistance is higher than the spider. The movement speed is 1.8 times that of the player.

Their strongest attack power is more than 8,000. Lu Yang has a lot of blood, but as long as he is touched by the mutant sickle beast, he will undoubtedly die.

Lu Yang determined that his blazing rapid cooling was completed, and the spell was read in his mouth. Three consecutive meteorite impacts fell into the middle of the strange group behind 30 yards. After falling, the meteorite rolled forward and moved with the strange within 60 yards All were attracted.

"-1"

"-1"

...

A number of injuries lighted up, countless spiders looked at Lu Yang, and the eyes of more than 20 mutant sickle monsters were fierce and fierce.

With a hissing noise, more than 20 mutant sickle monsters in the spider group jumped forward and rushed towards the landing sun.

Lu Yang didn't dare to hesitate. He spelled out in his mouth and launched the hot and fast skills to run towards the place where he came. The movement speed of 285% was much faster than the speed of the sickle monster. When he jumped on the bu \*, the sickle monster He was over 80 yards away.

“Wall of Fire”

Lu Yang quickly covered the bu \* with flames. When the sickle rushed over, he just entered the sea of fire.

“-1”

It was compulsory to drop 1 point of blood again. The sickle rushed under the wall of the Colosseum. His legs were bent like springs, and he leapt forward to jump to 26 yards. The two sickles on the forelimb almost slammed into Lu Yang.

Lu Yang stood in front and didn't care. He had confirmed countless times in the last life. The sickle monster definitely couldn't jump up. The magic sound in his hand echoed and was thrown towards the strange group below.

With a snap, countless spiders and sickles were stained with dark purple.

“-1917”

...

The sickle monster that has reduced its magic resistance by 30% drops blood quickly. After more than 10 seconds, the sickle monster and the spider are dead.

System prompt: You have gained 3167 experience points (among which 2600 points are the experience of leveling monsters)

...

Lu Yang took Xiao Liang to jump out of bu \*, searched in the strange group, and quickly found a glittering gem.

Dark Blue Intellectual Gem (Rank 3)

Effect: +24 Intellect

“It turned out to be a third-level intellectual gem.” Xiao Liang said in surprise.

Lu Yang said: “That’s right ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ It’s just great.” Xiao Liang said.

At present, only 5th-level copies of broken gems and gem fragments are dropped in the game. 8 fragments can be combined into 1 fragmented gem, 2 broken gems can be combined into a blue intelligence gem, and 2 more Only one blue gem can be combined into one dark blue intelligence gem.

Moreover, the synthesis is not 100% successful, and those who have not learned gem processing have only a 30% chance of synthesis.

Lu Yang asked Xiao Liang to pick up the gems and ran to the dark path to pull the monsters himself.

The farther you go, the fewer spiders there are, and the more sickle monsters. When Lu Yang pulls to the third batch, there are only sickle monsters and no spiders in the dark path. At the same time, the number of gems that Lu Yang gets is also increasing many.

When Lu Yang killed all the sickle monsters in the dark path, Lu Yang rose to level 34 and hit more than 800 gems.

## Chapter 362 - Target Blackstone Fortress

“Brother, can’t hold it.” Mu Yu Xiaocai Fan said to Lu Yang while looking at the full backpack and the gem in his hand.

“Are there no more places?” Lu Yang asked.

Han Ying and others nodded together. Everyone looked at the gem on the ground with a look of dismay.

“Brother, it’s a pity.” Han Yu said.

Lu Yang said, “Don’t worry, I have a way.”

After reading the spell, Lu Yang flew back to the demon temple, put all the gems in the backpack next to the altar, and returned to the psychic college. Lu Yang said, “Give me all the gems on your body.”

“Brother, where have you been?” Han Fei asked.

Lu Yang said, “I have a special space to store things. Give it to me. I store it in the space.”

The crowd was delighted. They handed over the gems in the backpack to Lu Yang one by one. After Lu Yang saved the gems several times, he could synthesize them on the spot using the Altar of the Deities. More than 200 pieces.

One of the intellectual gems was fortunately synthesized by Lu Yang to level 10. Looking at the 80 intelligence bonus suggested above, Lu Yang carefully stored it next to the altar.

Generally speaking, one piece of equipment can play 3 gems, and the other can play 2 gems. A total of 18 pieces of equipment will be nearly double the data if all of them are equipped with 10 gems.

Returning from the demon temple, Lu Yang said to sister Han Ying: “We continue.”

Jumping from bu \*, Lu Yang continued to pull monsters.

When Lu Yang upgraded here, on the other side, the city of St. Gall fell into madness, and countless players scrambled to buy land and open shops in the square on the north side of St. Gall.

“Gold shop, I don’t know which kid is so lucky, he actually bought it here.” A player stood on the north square of the city and looked at the row of shops in a daze.

Of the 6 official transfer points, one of them is right next to the flower bed in the center of the square. If anyone has a shop here, players can exchange gold coins and then go to their shop to spend.

“How much is the shop here worth?” A player asked.

“Hehe, it is worth at least 1,000 gold coins, depending on whether the other party is willing to sell it. If it is not for sale, it will be rented for at least 20 gold coins a month.”

Everyone was amazed.

Someone asked in disbelief, “As for that expensive? You don’t have a shop here to deliberately brag.”

“Fart, any of the big merchants in the prosperous area of the east of the city are not moving to the north of the city. If I have a shop, I will go and open the store now. In your opinion, anyone who buys gold coins here in the north of the city knows how busy it is. “

Everyone nodded.

“Well, I don’t know who the players who own these shops are, they seem to have made an appointment, and they will rent them out with the Land Dealer uniformly, and no one will talk about the price.”

“It’s not all bought by one person,” a player said jokingly.

Everyone looked at the player, staring at the player, making the player hairy, and then everyone shook their heads. No one believed that there was such a thing.

...

Of all the people who talked, the last thing to regret was the black blood.

Standing in the crowd at Chengbei Square, Heixue looked at the 20 stores he had purchased in a daze.

If it wasn't for the fight with Lu Yang that the funds couldn't keep up with him and he was sold, I'm afraid he's a multi-millionaire now.

"Lu Yang, I will never let you go." Heixue scolded.

The spirit and eternal spirit came over from the side and patted the shoulder of the black blood and said, "Brother, the past is over, let's think about \*\*\*\* Lu Yang."

The spirit of eternity also knows that Black Blood used to buy a store in Chengbei. For this kind of thing, no one can say more than black blood. After all, no one knows in advance that the official will set up an internal gold exchange point in Chengbei. Things.

Hei Xie said unwillingly: "I will never let Lu Yang go. I must destroy his two fortresses by myself."

The spirit pulled eternal black blood to no one's place, and advised: "It's almost time for the meeting, you can rest assured, this time we got the injection from the Liu Jie consortium, and I will help you get revenge."

Black blooded and nodded.

"Let's go, Wang Teng summoned us to a meeting. He is now appointed by Liu Jie as the commander in chief of the human race. We should not be late." Shenhun said forever.

Black blood nodded, and the two entered a special space together.

Nine colors flashed.

The two entered an office-like room, and the bosses of the Blue Crystal Guild and the Prophet Guild were seated, waiting for Wang Teng's arrival.

The bloodthirsty Batian whispered to the spirit eternally: "How come."

"I just went to St. Gall with black blood to check the news, and the black blood touched the scene and began to miss his investment in the north of the city." God Spirit sent a message.

Bloodthirsty Batian sneered, glanced at the black blood without a word, and sent a message saying, "I really don't know what you accept him for, do you still expect him to help you lay Lu Yang's fortress? I was pitted by him 3 times ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Eternal spirit smiled and shook his head, without justifying the bloodthirsty bully.

Not long after, nine colors of light flashed in the room, and a suit dressed like the president of the company Wang Teng appeared.

"Everyone is here, very early." Wang Teng smiled at the iconic office.

"Mr. Wang is early," said the eternal spirit and the bloodthirsty bully complimentingly.

Wang Teng smiled. He liked others to call him that. Since he had been following Liu Jie to upgrade in the Orc, Liu Jie suddenly asked him to manage the clan, and he could only build a new account.

The bosses of the major guilds are all 30. Wang Teng is as easy to look down on as they use the 1st trumpet to speak to them. However, he only has the 1st trumpet. In order to alleviate this embarrassment, he specially purchased a set of The dress appears as the company manager. In this way, the clothes show their identity, no matter how high the level of these people and how well equipped they are, they are his subordinates.

“Today everyone is summoned, and there is only one thing to discuss. I want to launch an attack on one of the three major guilds in St. Gall. You can talk to me and see who is better.” Wang Teng said.

The crowd was stunned, and then they all reacted. Wang Teng’s arrangement apparently did his homework.

Among the four main human races, the blue crystal has a small advantage in Hannibal, and Tianyu has a small advantage in Beifeng City. The fortress where Zhou Tianming is located is just like a tortoise. Each guild has the biggest loopholes and is the easiest to fight.

The spirit looked eternally and everyone thought, saying, “I have a proposal.”

Wang Teng smiled and said, “Are you going to hit the Thunder Fortress? I know you have the token of the Thunder Fortress.”

Chapter 363 - Sneak attack

Everyone froze.

Wang Teng asked with a smile: “How come you thought of beating him?”

The spirit said forever: “I do want to hit the Stormwind Fortress, but this is not the time.”

“What’s wrong?” Wang Teng wanted to fight in Lu Yang’s heart too. The defeat of the most powerful guild in the city of St. Gall in World War I could show his ability and give Liu Jie a light on his face.

Spirit Soul said eternally: “I and Black Blood just went to St. Gall’s to inquire about the news. After we spy reports inside the major guilds, the old man, the hero, the thunder dragon, and the silk language are discussing the alliance with Lu Yang They want to reach a united front against us in private. “

Wang Teng’s eyes suddenly became sharp and he said, “Keep talking.”

The eternal spirit knew that Wang Teng was very concerned about his explosive material, and continued: "But this united front was not reached because the two men and women were hiding their minds and wanting Lu Yangding to play forward for them. Lu Yang realized their plans, and the three broke up. "

Wang Teng sneered and said, "The old guy in the twilight always likes to use conspiracy and deceit. He bullies his name blindly and has no courage to do things. Who would be a fool for such obvious things?"

Divine spirit said forever: "Yeah, now the United Front has now become the four guilds of Twilight, Xiongba, Thunder Dragon, and the Silk Language, and Lu Yang is excluded. I don't think it will take long for them to announce this. At that time, their alliance was not less than ours, and the financial strength of Xiongba and Shige was not worse than that of Master Liu Jie. If we do not kill either Xiongba or Shige, it will be a huge hidden danger in the future. "

Wang Teng said: "What you said makes sense, Lu Yang is just a disease of mange, and both Qiwu and Xiongba have the support of a consortium. One of them is the best choice. Any ideas, say Say it. "

The spirit said forever: "I have carefully discussed with the black blood, it is best to fight the hegemon. His fortress is closest to the bloodthirsty bully. As long as we lend the gold equipment of level 30 to the bloodthirsty bully, he can be in half. After a few months, a gold-equipped army of about 30,000 people was formed. "

Bloodthirsty Batian said: "I will ask my men to upgrade as soon as possible, and strive to get 50,000 to 30 within half a month."

"50 thousand is the best. At that time, you will dispatch all the masters above 20 to fight the fortress of dominance. Our guilds will attack from the flanks, so that Late Twilight and Thunder Dragon cannot support each other. 4 hours is enough for you to lay Black Stone. Fortress, "said the eternal spirit.

"The idea is very good. I have no problem."

The president of the Blue Crystal Guild, Zhan Lantian, frowned, and asked, "Did you ignore a question, what would Lu Yang do? If Iron Brother Brothers sends troops to help, the bloodthirsty domineering side might be hard to lay down the fortress."

Everyone at the scene knew that the bloodthirsty bully lost to Lu Yang three times.

Bloodthirsty Sky looked angrily at the blue sky and was about to speak, but Eternal Spirit said: "You are saying very well. This is the key to this strategy I designed. I am going to use Bloodthirsty Brother to take the time to upgrade. , The relationship between Lu Yang and Xiongba dominating them. "

"How to be apart?" Asked the blue sky.

Divine spirit said forever: "This is also what Lu Yang asked for. He ordered Xia Yuwei's 80,000 players to upgrade in the area where I exchanged with my guild. I would like to apply for a reward order from President Wang and tell the full service player to kill each Brotherhood Players can post 10 screenshots of the video and receive 10 silver coins directly. "

10 silver coins is equivalent to 30 yuan. If you kill 10 people a day, you will get 300 yuan. Such a good thing is rare in the world.

"Does this have any effect?" Azure Blue Sky asked.

"Chao Duo and Xiong Ba just had a conflict with Lu Yang, and Lu Yang had just established two fortresses. There must be no money on me. I did this. Chi Duo and Xiong Ba would only watch Lu Yang's jokes on the wall. When we hit Xiong Ba, Lu Yang How could it come, "said the eternal soul.

Bloodthirsty Batian opened a three-dimensional map on the table, pointing to the middle of the Thunder Fortress and the Red Fortress, saying, "Lu Yang now occupies three places on the north, northwest, and west sides of the city of St. Gall. Even if he has 300,000 members, it is only loosely on the map. There are tens of millions of players in St. Gall, and if all of them are launched to kill the brothers, the Brotherhood will shrink.

If you die 10% of the experience, you will get 10 million upgrade experience at level 30. If you die once, you will lose millions of experience. No ordinary player can afford it.

Wang Teng said, "This idea is not only good for shrinking the defense of the Jagged Brothers League, but also slowing down their income, and even letting many people out of their guild. I will give you 100,000 gold coins in the first batch. Jagged brothers have fun. "

...

Phyllis river.

As the junction between the Storm Fortress and the Sea Dragon Fortress, Xia Yuwei personally took 20,000 players to distribute on the map between the 20th and 30th levels upstream and downstream of the Philis River.

As she led the team to upgrade, looking up to Weiguang said to Xia Yuwei: "Boss, our 8th Corps was attacked by unknown players near the Red Fortress and killed more than 200 people."

"Such a person?" Xia Yuwei frowned and asked, "I don't even know how they died."

Looking up at Weiguang said: "It was not an ambush together, but a scattered five-member squad. More than 40 squads were attacked by unknown enemies, so they did not respond."

Lan Yu asked, "Will it be black blood that brought revenge?"

Xia Yuwei said, "Let the night deal with it, and we will take our men to upgrade."

The dark night is the leader of the Hundreds of Thieves, founded by Xia Yuwei after the Hundreds of Fires of Lufa, who is responsible for intelligence tasks.

"Okay ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lan Yu sends a message to Dark Night.

The night searching for a hundred thieves across the Philis River immediately returned to Stormwind Fortress to the scene.

Just when Xia Yuwei thought it was an ordinary incident, the upgraded Sun Yu and the bitter love half-life in the northern part of St. Gall, the turbid wine pour and Bai Shixiong upgraded in the northwest, and the upgraded Jiang Ze's team in the west side suffered To the attack of unknown players.

"Evil door, which \*\*\*\* dare to kill Lao Tzu's brother." White wolf rushed to the scene with 500 gold soldiers, but the enemy disappeared without a trace.

As soon as the words fell, Tu Feng issued a special space invitation to all members.

"Forget it, first go to a special space and see what happens." White Lion said.

Bai Hu said uncomfortably, "Don't let me find the people, otherwise I must kill them."

It's enough fun for Bai's Sanxiong not to provoke others actively, but some people dare to take the initiative to find their troubles.

Chapter 364 - 50 million to play with you

Special space.

Seeing only Tu Feng alone, the White Lion asked curiously, "What is it?"

Tu Feng said, "Good thing, I have rented out the shops in the north of the city."

Bai Hu said in surprise: "So fast, how much rent do you charge?"

Tu Feng said, "Guess?"

"How can there be 50,000 gold coins," Bai Hu said.

Tu Feng shook his head with a smile.

Bai Hu was about to guess again, Xia Yuwei, Jiang Ze and Zhuo Jiu poured together into a special space, and after a few seconds of hard love half a lifetime and Sun Yu also entered the space.

Lu Yang was burning monsters at Tongling College, and entered the special space after burning.

"There won't be 200,000!" Said White Wolf.

Lu Yang asked with a smile: "What is 200,000."

Tu Feng said excitedly: "Waiting for you, the shops in the north of the city have been rented out. At least half a year, they have earned a total of 312,000 gold coins."

"So much!" Everyone took a breath and lit up, and 312,000 gold coins were equivalent to more than 90 million credit points.

"Oh my god, the shop in the north of the city is so valuable." Bai Hu said scratching his head.

Who would have thought that the development of a game could make people earn so much money.

Lu Yang said with satisfaction: "In this case, you still pay dividends according to your respective shares, and the remaining money is reserved for the guild funds."

Even if only 1% of the shares, they can still get 900,000 credits. By playing games, they can make so much money in 3 months, which Xia Yuwei did not expect.

“Boss, you are so handsome.” Said bitterly for half a life.

Lu Yang smiled. His original intention was to create a guild where his subordinates and brothers could survive. Now he has done it.

The brother who fought with him in the previous life, he has found one fifth, and the remaining four fifths, he also knows where.

Before, there was only investment and no gain, and he was afraid to do it. Now he can get them all back.

“Brothers, I have resigned myself to the boss of the last life, and I will compensate you twice in this life.” Lu Yang thought to himself.

Tu Feng breathed a sigh of relief and said, “The guild is finally rich now, and I don’t have to live a tight life anymore.”

“Hey, remove our share, there are more than 50 million credit points, but now Tu Feng is the God of Wealth.” Zhang Zibo said.

“In the future, I have to take good care of Tu Feng, this kid is getting richer and richer,” said bitterly for half a life, jokingly.

Zhuojiu Qingren and Xia Yuwei and others nodded in agreement and agreed that Tu Feng hurriedly waved his hands and expressed his efforts to serve everyone.

The crowd laughed immediately, and everyone was immersed in a cheerful atmosphere. No one had thought that the guild could really develop to this level today, let alone think that Lu Yang could send them bonuses.

“Hey, I feel like I can pay for a car myself,” White Lion said.

“My dad always looks down on my brother, and this time scared him.” Bai Hu said.

“My dad didn’t approve of me playing the game either. I thought that this thing was frustrating. I would put money in front of her for a while to let him know how powerful the girl is.” Han Liu said.

Xia Yuwei and Lan Yu agreed.

Lu Yang said, “Don’t worry, when most players reach level 30, they will choose to enter the fortress to rest instead of entering the city of St. Gall. At that time, you will make more money when you are a team and a fortress.”

The crowd nodded in anticipation.

While everyone was chatting, suddenly, Han sofa news told Lu Yang: “Brother, something is wrong, you can go to the official forum to see if the soul spends eternal money to buy the head of the Jagged Brothers player.”

Lu Yang frowned, and said to the people in front of him: “Chat first, I’ll check the news online.”

Log in to the official forum and a bright red headline is placed on top of the first one.

“Everyone who kills the Jagged Brothers Alliance can receive 10 silver coins based on the video.” Lu Yang read the title and clicked into the webpage.

Wonderful soul for all players in St. Gall

Anyone who kills the Jagged Brothers Alliance can claim 10 silver coins at the Holy City Office where Bloodthirsty is located.

Current kills: 1364

Lu Yang withdrew from the forum and returned to a special space, watching Xia Yuwei and others asking: "Are you guys being killed in large numbers today?"

"Yes, I was killed more than 200 people." Xia Yuwei said.

"I was killed more than 300 and I'm sending someone to track it down."

"I died more than 200."

"I also died more than 200."

...

Jiang Ze and Zhuo Jiu Qing Duan and others each said that several people had skeptical expressions.

"This is not right. It killed more than 1,000 people a day. This was premeditated," said bitter love for a long time.

"I just sent the night to check." Xia Yuwei said.

"Don't need to check, you can look at this." Lu Yang sent a screenshot of the eternal notification of the spirit to everyone.

After watching it, Zhuo Jiu poured out and said, "The soul is eternal. This is demonstrating to us."

"What shall we do?" Jiang Ze asked.

Hitting the soul is eternally unrealistic. The distance between the two will run for several hours even if the scroll is unrolled. There is no resurrection point in the middle. If you die, you will have to return to St.

The transfer fee between the main cities is another 5 gold coins, which cannot be transmitted on a large scale.

For the first time, such people as Zhuo Jiuqing and Bai Shi encountered such a thing, and they could not help but frowned.

Tu Feng said: "This matter can't be ignored. There are more than 20 casual players in St. Gall, and there are many small guilds. Such good things will be rushed to do."

A bitter love said for a long time: "And the law does not blame the public, we cannot kill everyone."

Lu Yang looked at the people in anxious state and said, "What's so sad about this is that the spirit dared to do so forever because he got the investment from Liu Jie, and in turn he thought we had no money. In this case, I told His financial strength is enough, don't forget, we now have more than 50 million guild funds. "

The White Lion said, "Our three brothers' dividends are gone."

"Neither of ours," Han Liu said.

"I don't want to," Jiang Ze said.

Having such a group of brothers is Lu Yang's greatest happiness. They will take the initiative to help you solve any problems.

When Lu Yang saw other people, he also said, and hurriedly stopped and said, "Don't bother, I will take my heart, you should hold the money you give, 50 million is enough, you can give it to me when you are not enough."

Everyone did not expect that Lu Yang would refuse, and for a while they didn't know what to do.

Lu Yang motioned everyone to sit down ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and said, "This thing should not be as simple as it seems. The spirit can never attack me. If he does this, he will lose money than he trades. I don't know him. The intention of doing so. "

"Yeah, what good would he do to do this," said bitter love for a long time.

Lu Yang said, "Let me think about it, now you go back and lead the team separately, and you put the people under your hands together to upgrade. Tu Feng drafted an article for me, like the eternal spirit, killing a player of the Shenwu tribe. We also gave 10 silver coins for them to pick up from the mercenary union in the Imperial City by video. "

The crowd nodded, leaving their special spaces.

Lu Yang remembered without leaving. In the previous life, he remembered that the spirit and eternity used this trick to deal with others. At that time, the spirit and eternity used this trick to attack and let one of the two alliances tired. Take this opportunity to storm the other.

If this time is also the same as the last one, the goal of this time should not be him, but one of the twilight and the hero.

Chapter 365 - Steel Scythe

"Did you tell the two of them?" Lu Yang thought for a while, and decided to talk to the two.

After all, they helped themselves, they can be kind, they can't be wrong.

Opening the address book, Lu Yang invites the two of them into the special space.

On the other side.

Both the news on the forum and the duo had seen it, and they were chatting with joy in a special space.

“Let Lu Yang not ally with us, this is unlucky.” Xiongba said.

“Lu Yang can’t develop this time. The spirit of eternal spirit hits Lu Yang’s seven inches, and his guild players will probably retire soon.” The old man said.

Suddenly, the two received Lu Yang’s invitation at the same time, each sneered, and refused.

Both thought they were asking for help from both of them.

“Now I want to ask for help, I don’t have that time,” Xiongba said.

“If there is no accident, the first goal of this super guild formed by Wang Tengxin is Lu Yang. It is just that we can take advantage of the fishermen,” said the old man.

...

Lu Yang watched with surprise the invitation that both Qi Mu and Xiongba rejected at the same time, but shook his head helplessly. In this case, he had nothing to say.

Withdrawing from his special space, Lu Yang returned to Psychic College to continue his upgrade.

Now all he can do is to upgrade his rank as quickly as possible. He is not afraid of this war. Even if someone wants to trouble him, he can still deal with it.

Looking around the Colosseum, the giant spider has not refreshed yet, Lu Yang said to Han Fei, “You stay here, I will continue to pull monsters.”

Jumping off the high wall of the Colosseum, Lu Yang walked towards the No. 1 laboratory. The monsters on the square outside the laboratory were basically killed by Lu Yang. Lu Yang decided to enter the laboratory to take a look.

There are a total of 22 laboratories, each of which has a boss. Unlike low-level bosses, bosses above level 60 and above, each has a 50% chance to drop a level 30 transfer certificate when it dies.

Han Zhong's 12 apprentices have not yet received their transfer certificates. Lu Yang wants to come here to try his luck.

The shape of the laboratory is similar to the lid of the pot. Lu Yang walked to the door and could clearly see the countless sickle monsters in the room through the glass.

"Oh ~"

A special voice appeared, Lu Yang frowned and looked into the room. A monster higher than the normal sickle monster wandered among the monsters.

Steel Scythe (boss)

Level: 60

Qi and blood: 50000 / 50000

Lu Yang was looking for him. The steel armored scythe is a biological weapon developed by the Psychic Academy. Using the steel armored scythe's own super mobile ability and strength, he was equipped with red steel armor to let him attack and defend. There is unmatched strength in power.

This monster has more than 5,000 armors, which simply cannot be broken. It can only be killed by magic bomb.

Lu Yang's mouth spelled out that a crimson meteorite passed exactly through the window and hit the steel sickle monster.

"Oh ~"

The armored sickle monster looked at Lu Yang fiercely, screaming, and rushed towards him with a third of the sickle monster in the laboratory.

Lu Yang's white light flickered, and he backed 30 yards away. The flames erupted under his feet, and he launched a blazing fast speed towards the Colosseum.

The movement speed of the steel armored sickle monster is only slightly faster than that of the ordinary sickle monster due to the whole body of steel armor. It cannot catch up with the movement speed of Lu Yang, but the steel armored sickle monster has the acceleration ability.

The screams sounded, the movement speed of the steel armored scythe suddenly increased by 100%, and it quickly ran towards the landing sun.

If you are an ordinary player, you will definitely die. Unfortunately, after Lu Yang gave the Demon Heart to level 3, the hot and rapid level reached level 5, which increased the movement speed by 285%, making Lu Yang 5% faster than the steel armored sickle beast. Moving speed.

When Lu Yang jumped to the bug position on the Colosseum, the Steel Armored Scythe and Lu Yang were still 30 yards away.

"Brother, this is the boss." Han Fei asked, looking at the sickle beast in his steel armor.

Lu Yang was too late to speak. The steel armored scythe has a strong jumping ability, and can jump up by the impact.

While nodding his head and saying the spell, just as the sickle came to jump under the bug position.

"Flame Storm"

A crimson beam of light engulfed the steel armored scythe.

"-1"

Although there was no damage, the jump action of the steel armored sickle beast was interrupted. While he was stunned for 1 second, Lu Yang released a wall of fire under his feet.

The steel armored scythe just wakes up, Lu Yang sheds a magic sound, and the steel armored scythe's resistance is reduced by 30%.

"Oh ~"

The sickle beast glared at Landing Yang, glared at Han Ying and others, and visually checked where Lu Yang and others were, and slowly backed away.

"What is he doing?" Han Yu asked.

Lu Yang said: "This monster can jump up, you Han Yu prepare, use stun arrows."

Han Yu bent his bow and took an arrow. Just before the sickle was about to charge, an arrow hit the sickle's head.

"-1"

The damage is almost 0, but the stun arrow stuns the sickle beast for 1 second, breaking his charge ability again.

"Han Ying prepares, the shadow is empty." Lu Yang said.

Shadow Void can only be controlled for 0.1 seconds. In fact, this is an interrupting skill, which can be used here exactly.

The steel armored sickle was unwilling to die like this and continued to prepare for the sprint, but this time, just before the charge, a light flashed from the head, and the steel armored sickle that had just run a step fell to the ground.

Lu Yang took the opportunity to read the spell in succession, and a series of Pyroblasts were successively hit on the body of the Steel Armored Scythe.

Pyroblast has a knockback effect. The skill effect changes with the level difference. If the target level is lower than the player, it will fly back with Pyroblast. If the target level is too high above Lu Yang, the goal is just physical instability.

As it happens, the steel armored scythe that fell to the ground needs good balance to get up, and Lu Yang's Pyroblast hits his waist precisely.

"1500"

"1500"

...

Consecutive injuries ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ plus unable to stand up, less than 20 seconds, the sickle beast was killed by Lu Yang on the ground.

A transfer certificate fell to the ground, and at the same time a silver-level 50-level equipment and a small golden box also fell out.

"Changing certificate." Han Fei shouted.

Not far away, the ordinary steel armored scythe just rushed over, Lu Yang was too lazy to waste time, and escaped the dagger in his hand, shaking hard, and the dagger immediately spun up at a high speed on the spot.

White light flashed, and Lu Yang landed on the ground. When picking up the transfer certificate and other equipment, the nearest sickle monster was only 1 yard away from Lu Yang.

“Brother beware.” Mu Yu shouted.

Just as the sickle outstretched his sickle to kill Lu Yang, the blue light flashed, and Lu Yang returned to the bug position.

Both Han Ying and Mu Yu were relieved.

#### Chapter 366 - Incognito College Notice

Han Fei, Han Yu and Xiao Liang looked at Lu Yang with bright eyes.

“Brother, you are so handsome, how do you use it?” Han Fei asked.

Lu Yang said, “When you have a dagger, I will teach you.”

Everyone nodded.

“Look at what the transfer certificate is,” Han Yu said.

Lu Yang said, “This certificate is a treasure. I promise to surprise you.”

#### Incognito College Notice

There is no introduction, only these few words, but the meaning contained in it is unimaginable.

“Brother, is there anything special about this certificate?” Han Fei asked.

Lu Yang said: “This certificate will allow a thief to become an invisible thief, leaving him permanently in the invisible state, and only revealing his body when attacked.”

“Permanently invisible.” Han Yu asked.

Lu Yang nodded and said, “Yeah, but stealth is not his strongest. The strongest part is the output of the stealth academy. Of all the thieves, the stealth academy’s output is the highest. He can passively let the player Includes 1x Dexterity Damage in one attack. “

Rogues increase agility, which not only increases the attack speed, but also increases physical attack power. Now it also has double the agile damage. The thieves attack the target behind with a 30% damage bonus, which are superimposed. Became a god.

Han Fei calculated it and said, “Brother, the thief of level 30 full-body gold equipment is more than 600 agile, with 1x of agile damage, and he can deal more than 700 more damage.”

Lu Yang said, “You don’t have to worry about it. If you add 3 10-level agile gems to all 18 pieces of equipment, you can also add 4320 points.”

“Then the output of this thief is not too strong.” Han Fei was a little stunned. Such a thief would hit more than 6,000 damage behind the target, and it would undoubtedly die within two swords of a professional class.

Lu Yang said: “It’s not absolute. After the transfer, the player’s health growth will become very low, only 1 point.”

A growth value of 1 means 1 point of strength plus 1 point of blood.

Take a thief in gold as an example. At level 30, he has at least 3000 points of health. The thief from stealth academy is 600. He was killed and killed by others.

“Ah, what use is this profession?” Han Fei asked.

Lu Yang said: “This kind of profession can only be used by thieves who have good stature.”

In the previous life, he was able to be transferred to a stealth college thief. Any good technique is a god-killing existence, and all kinds of half-positions are used to avoid the assassination of the backhand.

Lu Yang hadn't been selected for transfer before, but now he has the target, that is, the 12 children trained by Han Zhong. As long as they are strictly trained, they can definitely become masters of the level of killing gods.

“Oh ~”

Countless mutant sickle monsters surrounded the Colosseum wall, and their screams brought Lu Yang back to reality.

Looking at the sickle monster below, Lu Yang took out the magic sound to resound, and started laying the fire wall after dropping it.

When Lu Yang upgraded here, the other side of the Sea Emperor City entered the boiling era.

In the Sea Emperor City, the eternal spirit looks the strongest, but in fact it is surging in secret.

The spirit of eternity killed the control of three forts with most of the other guilds with the strength of one guild, and the number of offending guilds was countless.

Usually, everyone can't know how the eternal spirit is eternal. This time, Lu Yang released a reward, and immediately the major guilds in the Sea Emperor City found the reason to ambush the Shenwu tribe.

Lu Yang opened the website and glanced at the number.

More than 3,000 players have been killed on Lu Yang's side, and the number of killed on the Shenwu tribe has reached more than 7,000. Lu Yang scratched his head.

"How many people have this eternal sin offended?"

On the other hand, the soul is also eternal, and he did not expect that this strategy designed by himself would plunge his guild into such a dangerous situation. Elite and main group players above the level 20 of the guild were largely ambushed in the wild, and some even A team of 20 people was killed by a masked player.

"Can't go on like this, we have to think of a way." Che Yu said to the eternal spirit.

"Persevere, we must persist, we can't shrink our defense, and we must not miss a major event." Shenhun Eternal said.

Even if someone reads the joke, the spirit will always recognize it. As long as the black stone fortress can be laid, all the jokes will become a reason for worship.

"I see. I first pulled down the people who besieged Zhou Tianming fortress. It didn't make much sense to be there." Che Yu said.

Blue River Fortress.

Zhou Tianming and his brother Zhou Tianyan are watching the enemy outside the fortress worrying.

"It's very difficult to hold the fortress this time," Zhou Tianming said.

Zhou Tianyan said: "Fortunately, brother, you have a foresight, and closed three doors, otherwise we would have been driven out of the fort."

Zhou Tianming said: "It's not me, it's Lu Yang's idea. This man is a superman."

Zhou Tianyan's eyes brightened and he said, "I must visit him personally if I have the opportunity. I really appreciate him."

While the two were chatting, suddenly one of them came over and said excitedly, "Two big brothers, our fortress has been saved this time."

"how?"

The men immediately sent the reward post on the forum to the two, when they saw that the eternal side of the soul had been killed more than 7,000 people.

Zhou Tianming said: "We really have been saved."

As soon as the words fell, players from the Shenwu Department Building outside the fortress left one after another, and the entire fortress restored its former peace.

"Brother, we are holding on to the fortress." Zhou Tianyan said.

Zhou Tianming dialed into Lu Yang's interphone and said, "Brother Lu, thank you for your help. I want to get together with you tomorrow."

Lu Yang was doing something strange and asked curiously, "I didn't help you."

Zhou Tianming told Lu Yang about the course of the incident ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang came to understand it and said with a smile: "You don't know, I'm distressed by the money. The guild had so many enemies, and it took me more than 200,000 in one day. "

Zhou Tianming laughed and said, "Are you free tomorrow, I want to take my brother to visit you."

This is etiquette and rules.

Lu Yang said, "Sorry, brother, I'm in a special map now, and I can't get out for the time being. If there is something, let's talk in the special space."

"Alright." Zhou Tianming opened a special space and invited Lu Yang and Zhou Tianyan to enter.

It is also a special space like an office.

When Zhou Tianming saw Lu Yang coming in, he quickly walked in front of Lu Yang and said gratefully, "Brother Lu, thank you so much this time."

Zhou Tianyan also came over and said, "Brother Lu, thank you very much."

Lu Yang looked at Zhou Tianyan. This man was not a simple figure at first glance, and he looked very handsome.

## Chapter 367 - Ancient ruins

Lu Yang said: "Don't be polite, raise your hand, and this time, the eternal spirit is not really about to hit you, but it is in the magic soul."

After Zhou Tianming's two brothers froze and looked at each other, Zhou Tianming asked: "What?"

Lu Yang said: "If I guess correctly, the spirit of eternal rewarding battle with me is also in the fascination, the real intention is to fight one of the two hegemonies and twilight, of which the hegemony is the most likely."

Zhou Tianyan said, "What's going on?"

The soul and soul hit Lu Yang forever, and the bloodthirsty domineering and domineering are completely irrelevant things. Zhou Tianming's two brothers are a little confused.

Lu Yang said: "If the bloodthirsty bully launched a war of rewards against me, I wouldn't think so, but the spirit is far away from me forever, what use is he to kill more people, can you come here in person, also it's not paving the way for Bloodthirsty Domineering, and if Bloodthirsty Domineer wants to hit me, it's obviously insufficient, but there is no problem in fighting male domineering and twilight. Of course, this is just my guess. "

Zhou Tianming thought for a while and said, "What you said makes sense, it may be true."

Lu Yang said: "For this, I also asked Chi Mu and Xiongba to warn them, but these two thought that I was going to ask them for help, and no one ignored me. I really wanted to die."

Zhou Tianming smiled helplessly and said, "Before that, Twilight and Xiongba also approached our two brothers to form an alliance. Later, we saw that our situation gave up on our own initiative."

Zhou Tianyan said: "The two people's calculations are too heavy."

Lu Yang nodded and said, "Yeah, but if I expected it right, if the male domineering loses, our lives will be even harder. What are your two brothers' plans?"

Zhou Tianming once again showed a helpless smile, sighed and said to Lu Yang, "Brother Lu, our two brothers are going to sell the fort."

"Sold?" Lu Yang asked in surprise.

Zhou Tianming nodded and said, "Yes, in fact, the establishment of this fortress is not just the credit of our two brothers. Countless brothers have helped a lot. Since they will not be able to hold it sooner or later, it is better that I sell the fortress, at least not. Let the brothers work hard for nothing. "

Not many people dare to take over at this time, but there will still be some.

Lu Yang asked, "What price are you selling?"

"50 million credit points, with a 30% stake in the Association and help defend the fortress." Zhou Tianyan said.

"Has it been sold?" Lu Yang asked.

"Not yet, this is our reserve price, and we are preparing to find some powerful conferences in Haihuang City." Zhou Tianming said.

Obviously, the two brothers were born in Xinyang and did not take him as an outsider.

Lu Yang thought for a while and said, "Look at this. I spent 150 million to buy all the shares of the fortress and your guild. Then I gave you 15% of each of the shares. The fortress belongs to you. I do n't intervene in the management. Just listen to my deployment during the war.

In addition, I will give you a part of the quota, and the Association will pay them a fixed salary in the future, with a monthly salary of not less than 5000 credit points. "

The two brothers were dumbfounded. Such a good thing is like falling out of a pie in the sky. They are equivalent to still owning a guild and a fortress, but only 70% of the proceeds are given to Lu Yang, and the rest is theirs.

Zhou Tianyan said in surprise: "Brother Lu, our two brothers are very willing to accept this deal, but my brother advises you that you are really not suitable to buy our fort now, and the bloodthirsty tyrant and the spirit are eternally fighting at the same time, you ca n't bear it of."

Lu Yang shook his head and said, "You don't need to worry about this. I have the courage to buy it, so I can block both of them from attacking at the same time."

Zhou Tianming and Zhou Tianyan discussed in private, Zhou Tianming said: "Since this is the case, my two brothers will talk to Brother Lu Yang in the future. You can do whatever you say."

Lu Yang said, "You two are ready. The fortress needs to change the guild master, and it must be changed to His Majesty the Brotherhood of the Iron Blood."

Zhou Tianming froze and asked, "Brother Lu, do you have any ideas?"

Lu Yang smiled mysteriously and said, "Playing chessboard, the spirit always likes to play chess. I will accompany him for a bigger game to see who gets in first."

Zhou Tianyan was so happy that he did not expect Lu Yang to speak so interestingly.

Lu Yang said: "Let's sign the contract. After signing the contract, I will pay the two of you immediately, and then you do n't want to share the money with your men. Wait for me for half a month, and then do it after half a month. "

"Okay." The two nodded and agreed.

Soon, Lu Yang drafted the purchase contract. After the two parties signed and sealed, Lu Yang paid Zhou Tianming 150 million credit points. At this time, Lu Yang had less than 100 million cash left.

"Brother Lu, what are we going to do next?" Zhou Tianming asked.

Lu Yang said, "Stand on the fortress and look like the original one. As long as you stick to it for 15 days, you two have done a great job."

"There is absolutely no problem with this." Zhou Tianyan said.

Lu Yang nodded, patted the shoulders of the two, and withdrew from the special space to continue with the team upgrade.

It was already late at night.

When Lu Yang was about to continue with the team to upgrade, suddenly, Lu Yang saw a strange firelight behind the open space between Lab 1 and Lab 2.

When Lu Yang came here in the last life, it has been expelled countless times, but there are many introductions to this place in the game.

One of the most legendary introductions is that a lord monster will be refreshed here. He has super high defense, magic immunity, very fast movement speed, very thick blood, and can fly at low altitude.

Lu Yang curiously walked towards the light position and came under a step made of white marble.

System prompt: you found ancient ruins

There are 7 steps, each layer is 30 cm high. After walking up, a promenade made of white marble appears, but the arched stone pillars at the top of the promenade have all fallen down ~  
www.mtlnovel.com ~ This place also came from Lu Yang I However, Lu Yang frowned as he continued to walk forward to the light position.

This is a small square with 6 stone pillars. Behind the square is a huge large hole. According to the official explanation, the hole is a fossil of a strange creature.

This place Lu Yang has also been here in the last life. He has also seen these six one-person stone pillars, but there is no light on each.

When Lu Yang was curious, suddenly the six stone pillars on the square emitted pure white light in turn.

The white light on each stone pillar lights up, and a gray monster with wings like a vampire appears.

Guardian of the Ruins (Elite)

Level: 60

Qi and blood: 1/1

Lu Yang stunned, only one point of blood blame, this is gross, even if his attack power is only one point, forced blood loss can kill him.

Chapter 368 - Antiquity

“Screams ~”

The 6 guardians of the ruins roared towards the landing sun at the same time. Each guardian of the ruins had only one eye in the middle position, no hair on top of his head, no clothes on his body, and his fingernails were 10 cm long. Like sculpture.

After all, it was an elite-level monster. Lu Yang didn't dare to enlighten him. He read out the mantra, and 6 Pyroblasts successively hit the Guardian of the Ruins.

“-1”

The guardian of the ruins lost blood, but quickly recovered to full blood, and continued to rush towards the landing sun.

“I can't fight it.” Lu Yang frowned.

He also encountered such monsters in the last life. Only by special methods can they be killed. Otherwise, this monster is invincible. At the same time, because the monster has all its health, armor, magic resistance, and agility. Adding to the attack, this kind of strange attack power is particularly high. At the level of 60, their damage should be nearly 10,000.

Seeing 6 monsters rushing forward, Lu Yang threw an escape dagger to avoid the position 30 yards ahead.

“Oh ~”

More than 10 mutant sickle monsters showed their heads from the hole in the rear, and rushed towards him after seeing Lu Yang.

Lu Yang suddenly felt tricky. He read the spell in his mouth and ran quickly towards the road. When Lu Yang ran out of the ruins, the guardian of the ruins did not chase it out, but disappeared in place. There were only more than 10 mutant sickles. Strange chase out.

Lu Yang dragged them back to the outer wall of the Colosseum, and Han Ying asked curiously, “Brother, there are only so many.”

Lu Yang said: “When you encounter a special place, you will follow me to see it.”

Everyone’s eyes brightened, and they stayed here for two days, very boring. After killing these strange monsters, several people jumped down and came to the entrance to the ruins.

Lu Yang told Han Ying about what happened before, and said, “Just look at it outside, I’ll go blame it.”

Walking to the middle of the ruins square, the six pillars once again glowed white, and six guardians of the ruins appeared.

Lu Yang attacked them and couldn’t beat them. At the same time, more than 10 sickle monsters rushed out.

Just as Lu Yang was preparing to retreat, suddenly Han Ying said, “Brother, will you hit those columns in the order in which the beams of light just turned on.”

Lu Yang nodded, pronounced a spell in his mouth, and hit the center pillar one after another in accordance with the Memory 6 Pyroblast technique.

A harsh howling sounded out of nowhere in the square.

“哇 ~” More than 10 sickle monsters about to rush into the square, like crazy things, ran back inside the cave.

The 6 guardians of the ruins disappeared without a trace at the same time, only 6 and the beam of light remained shining.

Suddenly, a brown light illuminates. In the middle of the ruins square, a 15-meter-high monster with gray armor on the body, a sickle like a forelimb, a snake like body, and a pair of gray wings on its back appears.

Ancient Heterogeneity (Lord)

Level: 80

Qi and blood: 3000000/3000000

“What is this, it’s disgusting, eh.” Mu Yu said.

Lu Yang said, “Whatever it is, hurry and run, you go to the square and wait for me.”

The two sickles of ancient times are higher than Lu Yang. Even if they are sharp at night, they are still level 80 lords. They have so little blood and must have high attack power.

Taking out the magic sound, Lu Yang threw it to the ancient alien body.

“MISS”

Lu Yang was dumbfounded. This was the first time he saw this situation and shouted, “Run, we may not beat this thing.”

Three sisters Han Ying, Xiao Liang, and Mu Yu rushed out together.

Lu Yang's mouth spelled out, and a blast hit the lord's head.

“-1” (Critical Strike)

“Hello ~~”

In ancient times, two sickles crossed in front of them and roared, rushing towards the landing sun.

In the blink of an eye, the ancient alien came across Lu Yang over a distance of 30 yards. Two sickles were held high and they slashed across the landing land.

“flicker”

With a flash of white light, Lu Yang appeared 30 yards behind him. He just landed, and his feet quickly turned hot. Lu Yang went around the other road and ran quickly towards the square.

The ancient heterogeneous hissed, and Chaoyangyang chased after him. The speed of the two was not much different, and Luyang was slightly faster.

When he ran to the square, there was a distance of 35 yards between Lu Yang and the ancient aliens. However, Lu Yang's blazing speed was only 5 minutes.

Seeing that the ancient aliens did not stop, Lu Yang ran straight out of the Psychic Academy and came to the dead plain outside.

However, the ancient alien species did not have the meaning to stop. They kept chasing the sun, and seeing that the time left by the fierce speed was less than 30 seconds, Lu Yang became fierce and turned into the form of inflammation.

Normal fire spells in the flame state have no cool-down time, and the blazing speed becomes unlimited. Lu Yang turns on the blazing speed again and runs towards the front.

“Brother, how about we try to fight.” Han Ying asked.

Lu Yang said, “Don’t worry, you run behind, I’ll take this lord to a place.”

He remembers that there is a bug near the level 53 map. If he chases the ancient aliens, he can take advantage of this bug.

Tishan Ruins

Once a territory of a duke, the duke built a fortress made entirely of red steel to resist the invasion of the enemy.

However, it has been deserted. There is a broken hole in the wall on the far right of the ruined fortress. I don’t know what was penetrated, but this place is where Lu Yang is looking for the bug.

In the previous life, some masters of the mage did not send videos. When challenging high-level monsters at a low level, the player ran the monster near the hole and flickered through the hole, but the monster could only crash into the hole with one head.

Due to the official card slot system, after the monster gets stuck ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ it is completely unable to escape from this place and can only be trapped here.

Lu Yang had been here before in the last generation, using this place to kill high-level bosses.

Seeing that he had reached the ruined fortress, Lu Yang ran to the empty place with the ancient alien.

It hasn’t changed since I lived here, except for the accidental exterior wall made of red steel, there is nothing around.

At the hollow, Lu Yang stopped and took a breath, watching the ancient aliens 50 yards behind, Lu Yang began to wait.

Another important point to take advantage of this bug is that you cannot start early. If you jump early, the monster is not a fool, and will naturally turn to find the entrance. If you jump late, you will definitely die.

Lu Yang moved his body and watched that the ancient aliens entered the 30-yard position. Just when the ancient aliens rushed towards the landing sun with a phantom, Lu Yang instantly started flashing skills by feeling.

At that moment, the ancient heterogeneous sickle crossed the white light and slammed into the hollow. Lu Yang appeared in the ruins 30 yards, watching the stuck ancient heterogeneous breath relieved.

#### Chapter 369 - Successful kill

“Finally, it was successful.” Lu Yang breathed a sigh of relief and sent a message to Han Ying. “I’ll send you the coordinates. Come to me.”

Sister Han Ying’s three brothers and sisters are all lost. Lu Yang and the antiquity are too fast. They can’t find Lu Yang in less than 5 minutes.

Seeing the news from Lu Yang, Han Ying shared the map with others and said, “We will be there soon.”

Han Fei looked at the extreme distance between himself and Lu Yang, and said with a tongue-sucking: “Brother, you can really run.”

Lu Yang laughed and said, "Come here, it's hard to catch a level 80 lord, but killing it will break the good stuff."

"Here it is." Everyone was excited when they thought of being a level 80 lord, but such a good thing can never be expected.

Half an hour later, the four came to Lu Yang and looked at the ancient aliens with only one head stuck in the hollow. Han Fei asked, "Brother, how to fight."

Lu Yang said: "I am also worried. This guy is all immune to my spells. Han Ying let the Lord of Hellfire fight. His evil attack ignores magic resistance and physical defense."

Han Ying nodded, throwing the emerald green stone in his hand, the Lord of Hellfire stood up from the ground, walked to the empty door, and hit a fist on the head of an ancient alien.

"392" (Critical Strike)

"286" (evil flame)

Han Fei said in surprise: "Brother, seems to be able to die."

Lu Yang nodded with satisfaction and said, "Okay, let's sit here and wait. You two go to eat first. I'm watching here."

"Oh." Han Ying and others retreated 50 yards away from the game.

Lu Yang stood by and waited.

Five minutes later, 100,000 blood was lost from the ancients.

"Hello ~!"

Suddenly, the ancient heterogeneous roaring again and again, a pure white light appeared in the mouth, and after hitting the hellfire lord, it directly penetrated the hellfire lord's body.

"104000"

The hellfire lord had only 14,000 health, and was instantly killed in the spot. At the same time, the pure white light did not stagnate. After hitting the ground, he swept across the landing sun, bringing up a large amount of smoke.

White light flickered.

Lu Yang appeared 30 yards away from the right side, secretly fortunately, fortunately, he had been carefully watching the ancient aliens just now, otherwise he would definitely be seconds.

Watching the ancient aliens returning to normal appearance, Lu Yang quit the game and said to the people who were sitting beside him, "Go online, hellfire lord was killed by him."

"What happened?" Han Zhong asked.

What happened just now Lu Yang briefly said, Han Ying said: "I go online, you continue to eat."

Entering the game, Han Ying took out the grunt magic mixture and ate it. Fortunately, in the 12th bottle, he gained the intelligence and 1000 attributes, and summoned the Lord of Hellfire to continue his attack.

Lu Yang said: "You go offline, I just look at it, I guess after 5 minutes, he has to release once."

Every 100,000 blood drops release a special skill, which is Lu Yang's guess.

Sure enough, after 5 minutes, the ancient aliens released the pure white energy for the second time to kill the Lord of Hellfire, but at this time Han Ying and others had already finished the meal and entered the game.

Lu Yang said, "Girl, you have to summon another hellfire."

Han Ying looked at Guru's magic mixture and said, "Relax, I can drink."

As the saying goes, drink too much and vomit, Han Ying drank more than 30 grunt magic mixture to produce intelligence +1000 points, summoning hellfire to continue attacking.

Lu Yang unwillingly took out 50 sets of magic sounds and replied to Han Ying and others. "Throw with me on him, you shouldn't be completely immune."

The crowd nodded, smashing their ancient heads with their potion bottles.

"MISS"

"MISS"

...

After not knowing how many MISS, the heads of the ancient aliens were dyed dark purple.

"Pretty." Han Fei shouted.

Lu Yang made a right-handed move, and a level 8 fire phoenix appeared. The big fireballs in his mouth one after another smashed into the heads of the ancient aliens.

"1066" (Critical Strike)

...

With a level 8 fire phoenix with more than 4000 fire damage abilities, the crit can hit such a bit of blood. Obviously, the magic resistance of ancient aliens is not ordinary high.

However, at least he could kill the blood, which made Lu Yang very satisfied.

Seeing that when the blood of the ancient aliens was about to drop by 10%, Lu Yang said to Han Ying: "Retreat, be careful."

The crowd pushed back and couldn't help spreading their positions.

"Hello ~!"

A strange roar from ancient times suddenly suddenly, the entire sky changed color. Just when Lu Yang was curious and did not release pure white energy, a thick lightning in the sky suddenly split down, right in the body of the Phoenix.

"200000"

The phoenix wailed and died on the ground.

The thunder and lightning that broke on the ground did not disappear, but slid horizontally, directly in the middle of the hellfire lord's body, and directly cut the hellfire lord into two.

The thunder and lightning still did not disappear, but chased in the direction of the landing sun.

Lu Yang was speechless, scorching hot and quickly backing away.

Lei Zhu chased after him until Lu Yang retreated 50 yards away.

Watching Lei Zhu's pit over the ground more than 10 meters deep, Han Fei said, "It's strong."

Lu Yang nodded, summoning the Phoenix to order it to continue attacking, and said, "With these two skills, if the land reclamation is normal, this lord is almost indestructible."

Han Ying nodded, ate Guru's mixture and summoned a lord of hellfire, and continued to grind the blood of ancient aliens.

In this way, it has been grinding for nearly an hour, and finally, the blood amount of the ancient aliens is less than 10,000 points.

However, at this time, the ancient heterogeneous body was shaking wildly. Obviously, he was already in a rage, as if he might hit the bug position at any time.

"Brother, he won't rush out." Han Yu asked.

"I don't know, I'll try to control him." Lu Yang said a spell in his mouth, "The great Lord of Fire ..."

In order to avoid any accidents, Lu Yang decided to control him with a curse. After 10 seconds, a meteorite larger than the house broke through the clouds and rammed into the antiquity.

At the moment when I hit the ancient aliens.

With a bang, the aliens smashed the wall made of red steel and rushed from the bug position.

"Hello ~!"

The ancient heterogeneous roared and looked at Lu Yang violently. At this moment, the meteorite was in the ancient heterogeneous body.

“boom”

The ancient aliens were smashed in the direction of ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and a dizzy symbol appeared on the head for 5 seconds.

“Hurry up and hit him together. He will wake up and we will be dead.” Lu Yang shouted.

Even if it is known that the attack can only force 1 point of blood, but the ancient heterogeneous blood has less than 7000 points left, the Phoenix and the Hellfire lord are both there, and Lu Yang will die once.

“Meteorite Impact”

“Flame Storm”

After all the long-term blood loss skills were hit by Lu Yang on the ancient aliens, so was Han Ying and others.

After 5 seconds.

The ancient aliens had just woke up, and just as he was about to attack, the Lord of Hellfire punched him in the head of the ancient aliens.

The ancient heterogeneous wailed and fell to the ground.

System prompt: You killed the ancient alien (lord level)

Chapter 370 - Eighty-level Staff (Asian Legend)

“Success!” Han Fei excitedly looked at the ancient corpse and shouted, “Success.”

“Yeah, it’s a success, it’s not easy.” Lu Yang breathed a long sigh of relief and said, “Let’s go and see what the 80-level lord explodes for us.”

“Level 80 lord.” Han Fei said excitedly.

Everyone was curious about what had exploded, and Lu Yang took them with them to the corpse of the ancient heterogeneous body, and a dark, dull wooden stick fell in the most conspicuous center.

“Is this a melee weapon?” Han Fei asked curiously.

Lu Yang saw that the stick was already in place, and swallowed a dry throat, and said, “Let me see.”

With both hands trembling, he picked up the staff and looked at the name.

Magister’s Staff (Asian Legend)

Level: 80

Physical attack: 92—116

Intelligence: +97

Constitution: +80

Spell Damage: +569

Spell Penetration: +380

Description: God loves the world. He will always give people the greatest help. If you admire him, respect him, and give him your most pious faith, you will receive his care.

It is the same description as the original Staff of Level 30 Divine Fire, with the same appearance and the same name as the staff he saw in the previous life.

After Lu Yang confirmed everything, his heart was almost roaring out of excitement. That 's right, this is one of the most famous levelless wands of the last generation. Namely 80 players can wear it. Divine weapons worn.

After struggling to suppress the excitement in his heart, Lu Yang shared the attributes to Han Ying and others, saying, "This is a staff."

"Wow, you can wear it at level 80. The attributes are good." Han Fei said.

Lu Yang said, "Okay, how about I make a magic for you."

"What magic." Han Yu asked curiously.

"Look at it." Lu Yang picked up the staff and moved it around him, and the 80-level magician's staff was put on Lu Yang's hand.

Han Fei and Han Yu were dumbfounded.

"Boss, how did you do that?" Han Fei asked.

Lu Yang said excitedly: "Did you see the last line of words, he is a wand of levelless wear like the magic fire wand?"

"Brother, how much has your law hurt?" Han Yu asked.

Lu Yang looked at the properties and said, "There are more than 3,200 injuries."

"My blood volume is only 3,000 points, brother and you can kill me with a Pyroblast." Han Fei said.

"My health is only 3200 points, the same second." Han Yu said.

Lu Yang laughed and said, "You don't understand. The important thing about this staff is not his magic damage, but his attributes."

That's the main thing to increase 380 spell penetration. According to the rules of the game, when the player has 30 spell penetration at level 30, he will save 1% of spell damage. Spell penetration is not even 0.01%.

Therefore, the higher the level, the more magnificent the number of spell penetrations attached to the player's equipment, but in fact, the 380 spell penetration at level 80 is not much different from the 15 point penetration at level 30, both increasing by 1. %.

However, conversely, if there is 380 spell penetration at level 30, the player can get 25% spell penetration.

Lu Yang relies on the heart of the demon to penetrate 45% of the spells. With this staff, the penetration of the spells has reached 70%, plus 30% of the reverberation of the magic sound, which just broke the strange 100%. Magic resistance.

This has a very important role in the Psychic Academy. A spell that hurts more than 3,000, and faces a group of crispy spiders with only 10,000 blood. It burns a large piece in 4 seconds, and it is not necessary to use Lu Yang. There is Mu Yu.

Lu Yang said, "Don't hurry, let's look at other equipment and see what other good things are."

Continue to search, a dark blue short-handled staff was found in the potion by Lu Yang.

## Teleportation Scepter

Description: 24 targets around the target level can be teleported to the designated own building, and the cooling time is 1 hour.

Lu Yang looked up at the sky and sighed, saying, "Brothers, we are really lucky this time."

"Are there any good things?" Han Fei asked.

Lu Yang nodded and sent each of them the attributes of the scepter, saying, "In the future, I can call you wherever I am, as long as I'm there."

Han Fei and others shook their heads in confusion and did not understand the usefulness of this thing, but Lu Yang knew that this thing was too useful and an artifact of war.

Putting the teleportation scepter in the backpack, Lu Yang looked at the other things, and after picking them up, he found a level 60 gold plate helmet and a Pandora's box.

After reaching level 60, this thing is just as worthless as a transfer certificate. It will have a chance to burst if you kill a boss.

Lu Yang said: "Let's go back to the Tongling College and continue to upgrade. One will let you see what it means to upgrade quickly."

Han Ying and others shouted that Lu Yang was so happy and very happy, and returned to Lingling College with Luyang.

After Lu Yang sent them to the colosseum's bug spot, he said, "Wait for me, I'll pull the monster."

Everyone nodded.

Lu Yang crossed the dark path to the front of Lab 3's square, and tens of thousands of mutant sickle monsters gathered together.

Looking around, Lu Yang decided to pull the monster one time this time, took out the emerald heart, clicked on to enter the nothingness, escaped the dagger and threw it into the strange group, and jumped into the middle of the sickle group.

Nearly a thousand of the sickle monsters at the same time focused their eyes on Lu Yang, and the sickle monsters around Lu Yang attacked wildly.

In a state of nothingness, Lu Yang was not afraid of physical attacks, and the sickle did not cause any damage through his body.

Lu Yang continued to move forward. After the emerald heart was upgraded to level 10 by Lu Yang, when the state of nothingness lasted for 10 seconds, Lu Yang turned on the fiery rush and ran for 5 seconds. The spell in his mouth was read out, and three consecutive meteorite impact landed on the sickle monster 30 yards away.

The meteorite impact has been rolling backwards for 10 seconds ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ even the sickle monster with 40 yards away also aimed at Lu Yang.

Lu Yang watched the time, and ran quickly towards the side, followed by countless blame behind him, and the last second to the state of nothingness, at the moment he came out, Lu Yang launched the flashing skill, Successfully jumped out of the encirclement.

There was a blazing speed under his feet, and Lu Yang ran towards the Colosseum bug position quickly.

In the bug position, when Mu Yu and Han Ying were looking curiously at Lu Yang, Lu Yang's figure appeared at the corner.

"Brother is back," Mu Yu said.

Han Fei and others looked outside, just to see Lu Yang, there were countless mutant sickle monsters behind him.

“Wow, brother, did he get sick of the old sickle’s nest, why are there so many.” Ah Yu said.

Han Fei shrugged and expressed curiosity.

Lu Yang quickly ran to the bottom of the Colosseum, escaped the dagger, and accurately inserted in front of the bug position.

Chapter 371 - Duke Garros

The blue light flashed, and Lu Yang jumped up. At this time, the closest mutant sickle monster to Lu Yang was still 30 yards away, but at the farthest corner, there were countless mutant sickle monsters running to this side.

“Brother, how did you do that, pulling so many strange.” Han Yuqin asked diligently and learned that pulling monsters are generally things that hunters do.

“It’s very strenuous.” Lu Yang haha said with a smile and pulled him through.

Han Ying said silently: “Brother, don’t be so strange next time.”

“No problem, it’s the same time. It doesn’t make much sense to pull it again next time.” Lu Yang handed the demon’s heart and the magic teacher’s staff to Mu Yu and said, “Sister, here you are.”

“Give me, what are you doing?” Mu Yu asked.

Lu Yang said: “Use your thunder system to ban the curse and kill the thousands of monsters below.”

Two pieces of equipment superimposed to remove nearly 70% of the magic resistance, Mu Yu's thunder forbidden power counted more than 2,000 magic damage, lasting 30 seconds, easy seconds off.

When everyone's eyes lighted up, they all came over.

Mu Yu said happily, "Look at me."

Putting on the equipment, Mu Yukou read the Thunder Forbidden Curse. After 10 seconds, within 100 yards, countless thunder and lightning fell into the mutant sickle group.

"2086"

"2103"

...

Every 8 seconds, more than 500 sickle monsters are chopped to the ground by lightning.

System Tip: You have gained 3184 experience points (among which, you have 2600 experience in leveling monsters)

...

The lightning storm lasted 30 seconds, killing more than 3,000 monsters, and Lu Yang and Mu Yu each gained more than 9 million experience points.

Moving from level 36 to level 37 requires 54 million experience, and each of them has a large amount of experience slots.

Lu Yang took the heart of the demon \*\*\*\* and the magic teacher's staff from Mu Yu and said, "It's my turn this time, look at me."

“Meteor Fire Rain”

Within 200 yards, countless large fireballs fell from the sky and smashed into the strange group.

“2388”

...

The mutant sickle that had just filled the gap around the Colosseum took a lot of damage instantly, and after 8 seconds, they were all killed on the ground.

The outer mutant sickle monster immediately filled the gap, and as a result, another batch died after 8 seconds.

Three times in a row, when the meteor fire rain ends, there are not many mutant sickle monsters below.

Lu Yang looked at his own experience and gained more than 27 million experience points, only a few hundred thousand away from the upgrade.

“Brother, this upgrade is too fast.” Han Fei said.

Lu Yang released the wall of fire under the corner of the Colosseum. After a sea of fire formed, Lu Yang handed over the magic sound, the heart of the demon and the staff of the wizard to Han Ying, saying, “Sister, you also have wall of fire, You and Mu Yu use these three things together to fight monsters.”

Han Ying asked, “Brother, you have to go.”

Lu Yang said, “I’ll do a task and come back soon.”

Using the coordinate settings of the Demon Temple, Lu Yang can fly to the bug position at any time as long as the coordinates are not changed.

“In addition, don’t lose the demon’s heart. This is your brother’s life-saving trick. Without him, my brother has no heart in his heart.” Lu Yang said.

Han Ying, Han Fei, and others knew how much this equipment meant to Lu Yang, and nodded in agreement.

“When you fight for my return, you will all rise to level 50.” Lu Yang patted their shoulders, returned to the demon temple, and returned to the Kahn family in the northern district of St. Gall.

The old Kahn has become the steward of the demon temple, and has been staying in the demon temple, which has become his home.

Lu Yang used a camouflage coat to look like an ordinary player, and walked out of the door to the venture capital company camp in the west of the city.

Bissell was walking back and forth in the camp. When he saw Lu Yang, he said in surprise: “Oh, my brother, do you know, I’m looking for you.”

“What’s the matter?” Lu Yang asked.

“My uncle has encountered some problems. Only a strong player like you can help him. I hope you can help him in our friendship.” Bissell said pleadingly.

Lu Yang knows that this mission is a forward-looking mission of the goblin nation-building mission. Any player whose level exceeds 35 meets Bissell, and Bissell will release the mission to that person.

Lu Yang said, “Of course, where is your uncle?”

“The masonry union he founded is mining the magic crystal ore in the Saarland. You will be pleased to see him and he will be very happy. If you have any needs, he will give them to you. There are more good things than mine.” Bissell danced.

Lu Yang said, “Well then, I’ll go.”

Saying goodbye to Bissell, Lu Yang headed to the 35-level map Sol Woodland. Fortunately, this place is not too far away from the Red Fort. Lu Yang transmitted to the Red Fort and turned on the hot and sprinting for 20 minutes.

Sol Woodland is a dense, broad-leaved forest surrounded by mountains and mountains.

Lu Yang went deep into the forest and saw a fence made of a simple fence. Two goblin guards guarded the watchtower.

“Stranger, who are you?” Goblin Moline shouted with a sharp voice.

Lu Yang approached the watchtower and said loudly, “Goblin friend, we Bissell invited him to help him talk about the task. Here is his correspondence.”

With his eyes brightened, Morin looked at Lu Yang carefully, and said, “Oh, Your Royal Highness, bless you, it’s really good that you can come. Come with me, His Royal Highness is waiting for you.”

Lu Yang hesitated. No wonder Bissell said that more good things can be bought here. Originally, Bissell’s uncle was a duke.

Follow Molin into the simple camp ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The camp is large. All the houses are made of wood. In the middle of the camp, robots such as goblin harvesters are walking back and forth.

In front of the largest house, Maureen ran to an academic goblin with glasses and said respectfully, “Master Duke, your nephew, Bissell, invited the humans here.”

Lu Yang took the first two steps respectfully and said, "Hi Duke, what can I do for you?"

There is no way. In the official settings of the last generation, the goblin family liked others to respect them, and the more respected they got, the faster the reputation, anyway, it was NPC, and Lu Yang also lost face.

The Duke of Garros nodded in satisfaction with Lu Yang's respectful appearance and said, "Your strength is enough to accomplish this task, human friend, I thank you for your help first."

System Tip: Increase your reputation with the Stonemasonry by 100

Increases your friendship with the Duke of Garros by 10

Lu Yang said so, saying, "I can help you."

## Chapter 372 - Escort Mission

Garros looked at the distance and said, "I do n't know how recently, the night creatures have been watching my people, and they will be attacked every time I go out. Could you \*\*\*\* my team of men in front of the Winter Wind Valley, if you would help me , I can open my quartermaster to you. "

Lu Yang waited for this sentence and said, "No problem, leave it to me."

System Tip: Escort 20 Goblins to Winterwind Valley

Lu Yang saw this task when studying Goblins in the last generation. This is a relatively difficult task. There are 5 maps to pass from Sol Woodland to Winterwind Valley. The mobs along the way don't say that they will happen every once in a while. Brush out 6 Night Stalkers.

Night demon is a creature hidden in the dark. He likes to extract the target's magic and energy values in battle. Whether it is a warrior or a magician, it is a headache to fight with it.

Without magic and energy, no damage can be done. The night demon will attack the goblins at this time, and if more than 6 die, the task will prompt the event.

However, Lu Yang is not afraid to draw magic. He has a phoenix. Although the heart of the demon was given to Han Ying, the phoenix was summoned before. It is still level 8. With more than 4,000 magic wounds from the phoenix, the night demon can be easily achieved. .

"Sir, we are ready." Sentinel Maureen led a team of Goblin artisans to Garros.

Lu Yang bid farewell to the Duke and followed Molin and the artisans towards the outside.

"Oh, brother, this time we all have to rely on you to protect, you must protect us." Out of the door, the goblin's timid character was reflected again, and Molin was afraid of Lu Yang. Said.

Lu Yang patted Mo Lin's shoulder and said, "Be assured that no dark creature can kill you."

"Really?" An artisan asked excitedly behind him.

"This is our master craftsman Obak, an expert in building sentry towers," Maureen said.

Lu Yang froze. He remembered that there was no Obach in the master craftsman of the last generation. Suddenly, Lu Yang came to his senses. It should be that the player who did this task in the previous generation did not protect Obac.

After a master craftsman founds a nation, the goblin masters will open a redemption system for players who have helped him. The treasures on them are countless, and they can be redeemed as long as they complete the corresponding task or money.

A crimson red bead slowly lifted off in Lu Yang's hands. When he reached a height of 20 meters in the sky, the bead burst instantly.

A sharp hissing sounded, and a 20-meter-long fire phoenix appeared above Lu Yang's head.

"Oh, it's Fire Phoenix."

"So powerful."

"Oh, we must be fine this time."

...

The goblins whispered.

Obak said to Lu Yang with satisfaction: "Young man, you are a strong man. If I can come back alive this time, I am willing to open up to you the quartermaster exchange."

"Thank you," Lu Yang said.

As soon as the words fell, a group of 2m night demon emerged from the void. The whole body was dark like a bed of bugs, all around the body were tentacles, the whole body suddenly opened up, and the \*\*\*\* mouth was full of fangs, rushing towards Obak Passed.

Obak quickly hid behind Lu Yang.

Lu Yang was not afraid, and with one finger, the fireballs in the mouth of Fire Phoenix fell, one after another, and smashed into the night demon's body.

Night Stalker (Sub-elite)

Level: 35

Qi and blood: 20000/20000

Fire Phoenix's damage was more than 4,600. Each damage was splash damage. The 12 Night Stalkers did not wait for 20 yards near Obak, all of them were killed by Fire Phoenix.

"Ah, brother, you are really great." Moline shouted excitedly.

Obak also looked at Lu Yang gratefully.

System prompt: Increase your friendship with Obak by 10 points

You've earned 120 Stonemasonry Friendship

Lu Yang said: "You're welcome, we continue."

If the Night Stalkers were only at this level, Lu Yang would rather not take them to the Valley of Winter Winds, but rather to gain reputation here.

The Stonemason's Guild is one of the most difficult prestige among the goblins.

Outside the Sol Woods is the Kenneth Mountain.

There are high-level monsters such as mountain lions in the mountains, and Lu Yang asks the Phoenix to stay beside Obak and others and go to the front to clear the monsters.

Mountain lions don't have much blood, and they are not elite. They were quickly cleared by Lu Yang to walk.

At this time, the night demon brushed out again, but was also burned to death by the fireball of the Phoenix without waiting for the goblin.

Obak and others gave Lu Yang a grateful gesture. Lu Yang smiled and waved, and continued to take them forward.

According to Lu Yang's conjecture, the reason why the previous player did not protect Obak is probably the first contact with this \*\*\*\* mission. I did not expect that the enemy was a sub-elite with 20,000 blood. Since it was a \*\*\*\* by himself, he might Can not beat the sub-elite, leading to the death of Obak.

After crossing the Kenneth Mountain, passing the Plain of Gifts, and then passing through the Winter Seal River, Lu Yang took Obac to the Winter Wind Valley.

"It was really smooth this time."

"Great, we're going to our destination soon."

...

The chat of the goblins made Lu Yang not to relax his vigilance. As the top mercenary of the last life, Lu Yang knew that before any success, there must be no slack in any way.

How the word "completion" came about is just like the 1% blood extinction group left when the boss was hit in the next copy. This kind of thing is as uncomfortable as eating a dead fly. Lu Yang doesn't want to regret it.

As Lu Yang walked forward, there was an inconspicuous vibration on the ground.

Lu Yang frowned, and reached out to stop Mo Lin who wanted to move forward. "Be careful, there is a problem."

"What's wrong?" Maureen didn't feel anything around him.

Lu Yang looked around, and found a giant rock on the right side, which happened to have a \*\*\*\* to go up.

"Everyone goes up to that big rock, there is a problem." Lu Yang shouted.

Obak and Maureen rushed to the rocks with Landing Sun, and looked around. The winter wind valley was deadly quiet. At this time, Maureen also reacted.

"No, why is it so quiet here, there are no monsters?" Said Moline ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ woo ~ woo ~ "

A gust of wind passed, and the whistling sound passed through the Valley of Winter Winds like a ghost crying.

Just then, the ground shook slightly.

Lu Yang looked around vigilantly, Phoenix was taken back by Lu Yang. At this time, Phoenix was his greatest combat power, and he must not be allowed to go wrong.

"Damn, the environment I hate the most is this kind of environment. I'm tired of this feeling of being in crisis all the time." Obak shouted suddenly.

The voice just fell.

There was a loud noise. A huge night demon was drilled out of the ground directly in front of the giant rock. More than 10 tentacles protruded at the same time, grabbing Obak and more than 10 goblins around him.

Night Stalker (boss)

Level: 35

Qi and blood: 500000/500000

Chapter 373 - Master Craftsman's Baby

Lu Yang reacted instantly, and the red beads were thrown into the sky, and the spell was in his mouth.

“Flame Storm”

A black ripple appeared at the foot of Lu Yang.

With a bang, centered on the Night Stalker, a column of red light suddenly rose from the ground.

The Night Stalker just tossed Obak and other goblins into his mouth, and was suddenly stunned. However, the Night Stalker did not let go of the tentacles, but still wrapped around Obak and other goblin tightly.

“-150”

Obak's health is only 3,500 points. This attack almost brought him one-twentieth of his blood.

Lu Yang knew that it was time to test his mouth speed. If he wanted to kill Obak before the night devil killed him, he must use the control skills such as flame storm constantly, but without the spirit of the demon His flame storm has a 6-second cooldown and cannot be fired at will.

He can now only use the skills of Flame Blast, Fire Serpent Bonding and Pyroblast to control the Night Stalker, while letting Phoenix attack and keep him under control.

“Pyroblast”

Lu Yang's staff pointed at the nightmare's huge mouth, and a large fireball burst into its mouth precisely.

“Hello ~~”

The Night Scream yelled in pain, grabbing Obak's tentacles a few centimeters away from his mouth.

When the night demon king was about to continue using his tentacles, Lu Yang sang out the spell quickly, and pointed with his hand again.

“Flame Shock”

A blast of flame full of blasting power burst into the mouth of the Night Stalker, stunning the Night Stalker again for 1 second.

Next, Lu Yang used Pyroblast to control the time of 0.5 seconds. When the night demon returned to action, Lu Yang's spell came out again.

“Fire Snake Bondage”

The fire snake made of 3 flames firmly controls the night demon for 4 seconds, and does not let it act in the least.

Lu Yang took advantage of this time to play at a speed of 0.5 seconds, and Phoenix continued to spit out large fireballs.

When the control time was over, Lu Yang hit a night demon with a fire from hell.

...

In this way, he attacked alternately for 5 minutes. When Lu Yang felt that he could not speak, the night demon wailed and fell to the ground.

System prompt: You killed Night Stalker

You have completed the \*\*\*\* mission

You completed the branch mission to save Obak

Lu Yang was relieved. The mission was finally over, but what did this branch mission mean?

Obak came to Lu Yang and said gratefully, "Brother, you will be my brother, my master craftsman, Obak. Thank you for saving me. This is a gift I gave you. Please accept it. "

Exquisite Goblin Robot

Description: It can be packed in the package or put on the ground at any time.

"What is this," Lu Yang asked.

Obak said proudly: "This is my work. He can help you build the sentry tower. As long as you have energy, you can always build it. The energy in it is full, and you can build 20 sentry towers for you."

Lu Yang thought for a while and said, "What if I want to replenish my energy?"

"You can come here to find me, or go to St. Gall to find my apprentice goblin Robert," said Obak.

Lu Yang understood that he is now changing the founding time of the goblin family. As mentioned in the official mission of the last generation, the goblin family lost a master craftsman because of the loss of an artisan master. It wasn't until that master Robert's land Robert studied and understood his master's goblin robot that the goblins started to build a country.

Obviously, the master in question was Obak.

After talking to Lu Yang, Obak and Lu Yang stopped talking to Lu Yang and took the goblin team to a mountain in the Winter Wind Valley. Each took out 20 goblin robots and quickly began to build a fort.

Thirty minutes later, the Goblin Fortress was established, and Obak stood in front of the hall and became a fixed NPC.

"Man, don't you want some military supplies, I'm in a good mood today and I can sell it to you cheaply." Obak told Lu Yang.

Lu Yang came to Obak and opened the quartermaster interface.

Plans: Goblin Goggles

Effect: Allows you to see anything within 200 yards

Plans: Electromagnetic Pacemaker

Effect: Can resurrect a dead player

Plans: Sonic Shield

Effect: During battle, you can attach a sonic shield to absorb 5000 points of damage, last 1 minute, and cool down 5 minutes.

Plans: Parachute

Effect: When descending, the cloak will become a parachute.

...

A series of top-level engineering items dazzled Lu Yang, especially the sonic shield. At critical moments, he could resist 3 attacks from a 30-level gold mage, which was quite powerful.

Lu Yang bought 20 of the same drawings, and then he simply took out the goblin robot and ordered him to build a sentry tower in the goblin camp of the Winter Wind Valley.

In the future, Lu Yang would fly over when he wanted to buy drawings or something.

When the goblin robot was taken out, it looked like an iron box, and quickly became a robot.

“Report the owner. Didn’t detect the building materials of the sentry tower. Did you find it yourself?”  
The Goblin robot asked with a mechanical voice.

Lu Yang patted his head and forgot the most important thing. He opened Obak and chose materials, bought enough materials to build 100 sentry towers and observed magic crystals, and bought energy stones sufficient to recharge 4 times. Spent 20 gold coins.

Looking at the time, it was already night. Lu Yang and other goblin robots built sentry towers and took out the city roll to return to the city of St. Gall.

When Han Zhong was found, Lu Yang gave him the drawing.

“Xiao Yang, these drawings are all treasures. Where did you find them?” Han Zhong said excitedly.

Lu Yang said, “Just completed a mission for a goblin and got it from there.”

“This time we are going to make a lot of money.” Han Zhong said.

The value of the Sonic Shield can be seen at a glance ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Even the best things like Han Zhong want to buy.

Of the four stores under Han Zhong, the business of Goblin Engineering is the worst. With these things now, it can be imagined that the business of Engineering can double several times.

“I didn’t know much about the situation in the market recently, and the price was given to Master.” Lu Yang said.

“This Sonic Shield can sell at least 3 gold coins.” Han Zhong said.

Lu Yang said, “Master, you make five sets out first, and I will send them to Han Fei, especially Han Yu. With goggles, he will not have to look so hard 100 yards away. “

Han Zhong nodded and took the drawing to find his design.

Jiang Ze sent a message saying: “Chairman of the report, we are ready to go offline, and we are meeting in a special space, will you come?”

The operation of the guild has been largely handed over to Jiang Ze by Lu Yang. He only controls the general direction, and the others are all run by Jiang Ze, Tu Feng, Xia Yuwei, and Zhuojiu.

#### Chapter 374 - Reins of the Mount

"I'm here." Lu Yang said with a smile.

In the special space, Tu Feng was reporting the war situation on this day. When Lu Yang came, everyone stood up and greeted.

Lu Yang said, "You're welcome, sit down, Tu Feng continues, I'll tell you something good."

"What a good thing?" Everyone looked at Lu Yang with bright eyes.

Lu Yang said, "Don't worry, let Tu Feng finish, and I'll tell you."

Everyone was speechless. The most helpless thing for them was that Lu Yang always liked to hang their appetite. However, what Lu Yang gave was so good that they all wanted it very much.

Tu Feng coughed and said, "I'll finish as soon as possible. Today, I received a total of 13,200 videos of killing the soul of the eternal spirit, paid 1,320 gold coins, and the opponent killed 3502 of our players. I paid them. The pension is 300 gold coins, for a total of 1,620 gold coins. "

In terms of credit, it is 486,000 yuan.

Lu Yang took a deep breath and said with a helpless smile, "How can I feel that it is inappropriate to fight like this?"

Everyone nodded together.

“It’s too expensive,” White Wolf said.

“Otherwise, shall we stop fighting?” Tu Feng asked.

Xia Yuwei and White Wolf nodded in agreement.

Lu Yang thought for a while and shook his head and said, “Let’s continue to fight, the money we have to pay, and continue to fight like this is unlucky, and it can also paralyze the enemy.”

Tu Feng said, “Recently, I have received news that Bloodthirsty is taking the troops to upgrade at full strength, and he doesn’t know what he wants to do. I suspect that he and the spirit have been discussing forever to attack us.”

Now Bloodthirsty Batian has become one of the most difficult bones. The three fortresses are linked together, and his three guilds have also been merged into one guild. They can use the fortress to return to the city roll support at any time.

Lu Yang hit him with the strength of a guild. His temporary abilities are still insufficient, but he does not have the ability to let the Bloodthirsty Domineer out, unless the spirit and the Bloodthirsty Domineer attack together, but the distance is too far. The spirit is eternal and cannot be merged with the bloodthirsty guild, which will not threaten Lu Yang for the time being.

“Don’t worry about him, we continue to upgrade, how many people in the guild have level 30 gold equipment.” Lu Yang asked.

“16506 people,” Tu Feng said.

Lu Yang nodded. This is the root cause that no guild dares to attack his brother-in-law brotherhood. Any guild wants to fight against brother-in-law brothers to consider how to deal with more than 10,000 people.

Lu Yang saw that everyone had nothing else to say, and said, "Tell you a good thing. Recently, you can draw up a list, and I may get a batch of transfer certificates. About 60 people. One of your six main groups reports. 10 places, the boss is not partial. "

The eyes of Zhuoju Qingxiu and Xia Yuwei were brightened. The transfer certificate can only be obtained by playing the level 30 lord monster. There is only one lord on a map. They can't play 5 photos a week. It is very difficult to distribute them.

Lu Yang sent them 10 at a time, which just solved a big problem for them.

"Boss, you have helped us a lot." Said bitter love for a long time.

Lu Yang said with a smile: "What do we say can't help? If it weren't for you, I can be so easy as a shopkeeper."

Everyone laughed.

This is the benefit of this guild. The boss is decentralized, and his men are very easy to do. Fortunately, Lu Yang only believes that they are the heads of six legions. Lu Yang does not listen to any rumors.

After a few more chats, Lu Yang quit the game.

Before going to bed, Mu Yi said, "Brother, the orcs are fighting. The four consortia are fighting for the overall control of the orcs, and they are fighting fiercely."

Lu Yang remembers this. The Guangxing Consortium, Dongxiang Consortium, Tianhua Consortium, and Liu Jie's Zhongtian Consortium in the previous battle for control of the orcs, for a long time, later Liu Jie controlled the human race and the elven race. This defeated the other three consortia.

"I see. It makes me think about it."

After one night.

Early the next morning, Lu Yang entered the game after exercising.

First came to Chengbei Blacksmith Shop to find Han Zhong, and asked, "Master, are you ready for Han Fei?"

Han Zhong said: "Ready, the boys created 5 sets of goggles and sonic shields, electromagnetic pacemakers and parachutes overnight."

"Now we are not afraid of the dead on the high-level map." Lu Yang said.

Farewell to Han Zhong, Lu Yang turned to the King's Castle.

After the player has passed level 35, the official will open the mount option. The speed of the mount ranges from 50% to 150%. After the mount, if the player wants to go to any map, the mount is twice as fast as the original.

Take Fenglei Fortress and Hailong Fortress as an example. It used to take 6 hours, but now it takes 3 hours on average.

However, if you want to learn mounts, you can only buy mount reins to tame the mounts, each worth 100 gold coins, which is 30,000 credit points.

Lu Yang came to the stable on the left side of the king's castle, and found the stable manager Grei, saying, "I want to buy a rein."

"Please pay me 100 gold coins." Greibin said politely.

Lu Yang took 500 gold coins from his backpack and gave them to each other. Gray handed Lu Yang 5 crimson reins and said, "You can use him to surrender your favorite mount, but the wild mount is not easy to surrender. You have to do some preparation or you can buy it from me. "

Officially sold horses are the cheapest and cost 50 gold coins, and the speed can only increase by 70%, which is not practical.

“I choose a wild mount.” Lu Yang said.

Grei opened the store system to Lu Yang and said, “The capture of wild beasts in the wild requires them to be caught first. The best way is to dig a trap first, and then induce them to enter the trap with food. At this time, you use the beast incense Stunned them and arrested them with a halter. “

Lu Yang chose a shovel, 50 delicious venison and 10 beast incense, and spent 50 gold coins, which is almost equivalent to buying a mount.

Close the dialog box, Lu Yang read the spell and returned to the demon temple. He reached the colosseum bug position of the Psychic Academy by teleporting coordinates ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Brother, you are back. “Han Ying said happily.

Lu Yang said with a smile: “You still have to go, how many of you are.”

“Level 39.” Han Fei said proudly.

One person is missing, their experience has been improved a lot, and another night is spent. It is not bad to have this level.

“Yes, reward you for something good.” Lu Yang gave them goggles, electromagnetic pacemaker and sonic shield.

One set per person.

Han Yu put goggles on his eyes and said in surprise: “This thing looks the same from 100 yards away.”

“With this shield, I also have a life-saving skill.” Xiao Liang said.

“I’m here to make a guest pastor.” Mu Yu said proudly.

Han Ying said, “Thank you brother.”

### Chapter 375 - Red Flame Lion King

Lu Yang said warmly, “This is not the best thing, the best is the one in my brother’s hand, for you.”

Four red reins arrived in front of them.

“Brother, what is this for?” Han Fei asked.

Lu Yang said: “This thing is called a rein, which allows you to tame various high-level summons to become your mount, and one rein can tame one.”

“A horse is riding?” Xiao Liang said in surprise.

Among the crowd, only Xiao Liang, the soldier, was the worst, and did not have any acceleration skills. When running, Han Fei drove sprinting around him, and Xiao Liang couldn’t run him.

Lu Yang said: “Yeah, you fight here first, when you rise to level 50, the boss will take you through all the maps, night leopard, ghost war horse, snow wolf, fire lion, tyrant bear, thunder Elephants and other types of summons you haven’t seen before let you choose. “

“Brother, rest assured, within three days, it must reach level 50.” Han Fei said brightly.

“Okay, I’ll wait.” Lu Yang laughed and jumped off the high wall of the Colosseum, ran outside the Psychic Academy, and found a dead corner that would never be mobbed or monsters passed, and summoned the goblin robot .

“Master, what’s the order?” The mechanical voice asked Lu Yang.

Lu Yang said, “Build a sentry tower here.”

“Observe.” The goblin robot moved quickly, and Lu Yang took it out of his bag.

A map separated from the psychic college has a Dragon Valley volcano.

There is a red fire dragon in Dragon Valley, a lord monster, level 80.

This level of dragon, Lu Yang did not dare to provoke it, but the guardian beast responsible for the safety of the fire dragon is called the fire lion, which is a good mount choice.

The fire lion, whose entire body is integrated with the low-level fire elf, has a crimson streamer shape, and the whole body is flamed, which is very fierce.

Lu Yang came to the entrance of Dragon Valley and said it was Dragon Valley. In fact, it is a huge crater. Among the mountains, only the lower side of the mountain is regarded as the entrance.

Generally speaking, players come here to see the steep peaks around, they will want to go inside and look inside, but they can’t find the entrance after a day or so, most people give up.

Lu Yang came to the foot of the crater, and was too lazy to find the entrance. He took out a set of ropes as a cable, threw it up and hung it on a rock on the cliff, and Lu Yang climbed up along the peak.

After finding a foothold, Lu Yang threw the rope again. After three consecutive times, he looked at the height of the last section, which was nearly 50 yards. It was smooth without any protruding points, and it was an anti-throw angle.

Looking at the bottom, it has a height of 90 yards, and it will undoubtedly fall if it falls. If it was before, Lu Yang really did not dare to use an escape dagger at the anti-throw angle, but now that he has a parachute, Lu Yang is really not afraid.

Taking out the escape dagger, Lu Yang shook it, his eyes suddenly became sharp, and he threw it up along the angle of the cliff.

The escape dagger with blue light spins at high speed and moves up close to the mountain. At the limit of 30 yards, the blue light flashes and Lu Yang appears in mid-air.

At this time, there was nothing around Lu Yang. I saw white light flickering again. Lu Yang passed through the mountain and jumped directly to the top of the cliff.

“Huh, fortunately I’m right.” Lu Yang moved and looked around.

The biggest feature of the circular valley is that the virgin forest is extremely dense. Even where the fire dragon lives, it is also surrounded by dense trees. In the distance, it is near the center of the valley, and a team of fire lions is looming.

Red Flame Lion (Sub-elite)

Level: 55

Qi and blood: 300000/300000

Lu Yang was looking for them, opened the parachute, jumped into the crater, and when it landed, Lu Yang retracted the parachute and threw the escape dagger to the ground.

After looking around, after confirming that there were no enemies, Lu Yang ran quickly towards the location of the Red Flame Lion.

The location of the Red Flame Lion is exactly the outermost part of the dragon rest area, and Lu Yang catches up with the team of Fire Lions, waiting for them to place orders.

Fire lions usually go out as a team of 12, but occasionally there are fire lions who will tour the territory alone. Such fire lions are male lions, the strongest and fastest.

Lu Yang found a place where no one was, took out the shovel and started digging. In the game, the pit was dug quickly, and it was dug up to 20 meters deep. Back to the ground.

After decorating the trap with a tree branch floating soil, I put 2 delicious venison on it, and then Lu Yang put it every 10 meters along the road where the fire lion was, all the way to the fire lion 50 yards away.

After 20 minutes.

A male lion left the lion group and began to tour the territory. The other lions were lying lazily on the ground without moving.

Lu Yang's eyes lit up, and the male lion was walking in the direction of his delicious venison.

"Hello ~!"

The lion smelled the smell of venison and walked towards the first piece of venison and found it was a piece of venison.

A large round piece of red venison with delicate texture and soaked in special sauces. It is delicious. Even if you look at it, you can't help but want to eat it, not to mention the red flame lion who is not dazed.

The lion sniffed carefully, and after a simple confirmation ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ bite in his mouth, and the feeling of enjoyment made the lion narrow his eyes.

After eating, the lion looked around and found another piece of venison in front of him, and ran quickly.

...

After eating 6 pieces of venison in a row and two more, the lion will walk to the trap so that he can conquer the fire lion.

While Lu Yang was waiting anxiously, the Fire Lion walked in front of the next piece of venison, just as he was about to eat, and suddenly, within 40 yards of Lu Yang's side, a roaring lion shook. Lu Yang's ears rang straight.

A gust of wind sounded.

A giant male lion more than twice the size of a normal lion leaped forward in front of the fire lion, shot it with his right palm, and hit the left face of the ordinary fire lion heavily.

“嘭”

The ordinary fire lion was beaten on the ground for five or six consecutive laps before stopping, and stood up and looked at the other side, afraid to resist, and ran away hurrying.

Lu Yang looked at the larger fire lion.

Red Flame Lion (boss)

Level: 60

Qi and blood: 1000000/1000000

Lu Yang frowned and thought, "How did this item jump out? There was no information about whether the Red Flame Lion King could be captured in the last life."

Without waiting for Lu Yang to think about it, the Red Flame Lion ate a delicious venison in one bite, his eyes greedily walking towards the two pieces of venison on the trap.

The trap can't bear even ordinary fire lions, not to mention the Red Flame Lion King.

“撲通”

The Fire Lion King fell straight into the trap.

“Roar”

The Lion King was so angry that he shouted loudly from the sky, and the red streamer jumped to the 20-meter-high entrance. As long as he could turn around and jump, he could jump out of the trap, but when he was about to jump, the fire The lion king's legs softened and fell down.

Beast incense still works!

## Chapter 376 - Conspiracy

Lu Yang breathed a sigh of relief, came to the trap, and looked at the Fire Lion King who was unwilling to struggle and jump. Lu Yang scratched his head and said to himself: "I'll try to see if I can catch you. Brother, you will be blessed with me. "

Taking out the reins, Lu Yang chose to surrender.

The system prompts: The Fire Lion King struggles violently and fails to surrender!

As soon as Lu Yang's eyes lighted, he didn't feel down because of the prompts given by the system, but was extremely excited.

If it cannot be surrendered, the system will prompt that the summoned beast cannot surrender, and this prompt means that the Fire Lion King can be surrendered.

"Brother, I'll fix you." Lu Yang said watching the Lion King of Fire.

Taking out the reins, Lu Yang continued to surrender.

One hour.

Two hours.

...

For a whole day, just before the trap disappeared.

System prompt: You successfully surrendered the Red Flame Lion King

Lu Yang didn't notice the reminder and was still using the reins habitually. On the other side, he was chatting with Lan Yu. After the little girl had been playing with him for a day, Xia Yuwei's mother received it at home the next day. Did not meet.

It wasn't until the system prompted more than 30 times that Lu Yang came to his senses, watching the red flame lion king staring blankly in the pit with a daze.

“Did I succeed?” Lu Yang surprised to open the mount and confirmed that he was really successful. Then he said, “I really succeeded. I caught the Red Flame Lion King.”

He chose to retract, and the Red Flame Lion King standing in the pit disappeared in place. Lu Yang clicked to summon again, a reddish light lit up, and Lu Yang sat down and appeared a giant fire lion more than 2 meters high.

Red Flame Lion King

Effect: Movement speed increased by 185%

Boss-level summoned beasts are 35% faster than regular summoned beasts. Such summoned beasts are rare on all servers. With this summoned beast, Lu Yang can quickly reach major maps and set up a whistle wherever he has a boss or lord Tower, if Lu Yang wants to come and kill in the future, just use a teleportation scepter to go to the ground.

“Brother, what are you doing?” Lan Yu found out that Lu Yang ignored her and asked curiously.

Lu Yang said joyfully, “Sister, where are you?”

“I’m upgrading with Sister Yu Wei outside the Fortress of Wind and Thunder.” Lan Yu said.

“Give me the coordinates, I’ll find you to play.” Lu Yang said.

“Okay, Sister Yu Wei is too busy. I’m bored by myself.” Lan Yu said.

“I’ll be there soon.” Lu Yang’s legs clipped the lion’s waist, directing the Lion King to run towards the top of the crater.

The fire lion ran fast, and in a few minutes ran to the top of the mountain. Lu Yang summoned the goblin robot and set up a sentry tower here.

Taking out the fortress and returning to the city roll, Lu Yang flew to Fenglei Fortress, just after landing, Hongye Feiwu just brought people back to rest.

“Boss is good,” Hongye Feiwu said.

Lu Yang waved his hand at him and clicked to summon. A fire lion more than 2 meters tall appeared next to him. Lu Yang shoved hard, and the fire lion yelled and ran out towards the fortress.

“I’m going, what is riding on the boss.” Hongye Feiwu said.

“Mount, there are mounts in this game.” The black note said excitedly.

Everyone reacted. It turned out that they were always curious as to why there was no mount in the game. It turned out to be there.

“Boss, how many levels can there be mounts.” Shouted the black note.

“Level 35,” Lu Yang said.

A cool breeze blew, and the black notes looked at 85% of their experience at level 30. They cried without tears. They said, “I want to upgrade, and I want to ride a horse.”

Hongye Feiwu said: “The boss is so handsome, and I will upgrade quickly, but then, the boss is already level 35?”

“How did the boss do it?” The two said in astonishment.

Where do they know, Lu Yang ran to level 60 map to upgrade, Lu Yang riding the fire lion quickly passed the fortress, and ran to the coordinates given by Lan Yu.

Numerous guild players along the way were surprised when they saw Lu Yang, and other guild players were even more frightened.

“Are there any mounts for the chairman of the Jagged Brotherhood?”

“Can’t you ride at level 35, this upgrade is too fast!”

...

far away.

Xia Yuwei took Lan Yu and a group of Queen Guards players to upgrade together, and suddenly, a red-red figure in the distance quickly approached.

“Well, why is there a fire lion over there?” Lan Yu asked curiously.

“It looks like a boss, so big.” Said looking up at Weiguang.

Xia Yuwei frowned and said, “Ready to fight.”

Soon, the Fire Lions came within 30 yards of them. Just as they were about to attack, Lan Yu and others saw Lu Yang riding on the lion’s back at the same time.

“Brother!” Lan Yu ran to Lu Yang in surprise and said, “Is this your mount?”

Lu Yang said, “Yes.”

Xia Yuwei came to Lu Yang in surprise and said, “Boss, where are you such a beautiful mount?”

Lu Yang said, “Do you want to, I will give you one each.”

“So interesting.” Xia Yuwei said.

Lu Yang said: “Of course, for a while, everyone who is an elite group above level 30 will give me a mount by hand.”

“It’s true, this thing is 100 gold coins for the reins alone.” Xia Yuwei said in surprise.

13,000 members of the elite group, 1.3 million gold coins alone, a considerable investment.

Lu Yang said with a smile: “Don’t care about money. What about today? Tell me what’s wrong with the eternal soul.”

Xia Yuwei shook her head and said, “It’s strange to say that the spirit of eternal spirit is now just like us. It’s not as if we are going to fight against us.”

Lu Yang said with a fist: “That’s right, keep vigilant, let’s stay the same and see what tricks he can play.”

Now Lu Yang is more and more convinced that his speculation is correct ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The spirit of eternity must be playing a conspiracy but not against him.

On the other side.

Outside the warm water fortress.

The bloodthirsty bully is like crazy, and requires rapid upgrades. For all elite players, the bloodthirsty bully promises to give away free gold suits and weapons, and only one must participate in the guild battle.

“Chairman of the report, today 5,000 people have risen to level 30.” Qu Han said.

Bloodthirsty Batian said: "Very well, everyone continues to work hard."

"Boss, why are we so anxious to upgrade, are we going to hit Lu Yang?" Qu Han asked.

Bloodthirsty Batian showed a smile, shook his head and said, "Qu Han, when you should know, I will naturally tell you, go first."

Qu Han heard the dissatisfaction of the bloodthirsty bully and turned away.

Yuema South Bank said scornfully: "A spy who wants to probe our internal news is really a dream."

## Chapter 377 - new plan

Bloodthirsty Batian said: "This is also very good. Now, except for a few of us who know the real goal, everyone thinks we are playing Lu Yang, let them continue to guess."

"I heard that Xiongba and Late Twilight are preparing to increase their capital contributions to their respective guilds. The first funds will be available as soon as 10 days. If they wait for their money to arrive, we will have a harder time playing," said Yuema Nanan.

Bloodthirsty Batian sneered and said, "Rest assured, this money can't be spent. In another 10 days, my 50,000 gold soldiers will be able to collect it."

"Hey, it is estimated that the hegemon can never dream of us hitting him, let alone that we have assembled so many guild forces to put together 50,000 sets of gold equipment." Yuema Nanan said.

Bloodthirsty Batian was getting more proud, and asked, "How is Lu Yang?"

Yuema South Bank said: “Lu Yang has been busy with the rewards. I heard that the number of new players he has received is much less, and many people have retired.”

The bloodthirsty tyrant Lengheng snorted and said, “Wait, you have defeated the tyrant, the next one is your Lu Yang.”

Wind and Thunder Fortress outside.

Lan Yu leaned in Lu Yang’s arms and said, “Brother, I heard that the flu virus broke out in the southern cities. The official has an idea to let players take classes in the game. Your guild is getting more and more valuable.”

Lu Yang said in surprise: “Where did you hear that?”

Xia Yuwei said, “Our parents said.”

Lu Yang nodded and said, “Your parents are right. It won’t be long before the official will announce this. By then, the national service will enter hundreds of millions of players.”

“So much!” Lan Yu said.

Lu Yang said, “Of course, not only are there more people, the national service will also launch new novice main cities. In order to solve the problem of congestion, each main city will only accommodate 5 million people. Those who exceed the population will create a new main city. city.”

“In that case, wouldn’t there be many more forts?” Xia Yuwei asked.

Lu Yang said, “Yeah, that’s when we make the most money, and I’m going to give you a few bonuses.”

“What dividend?” Xia Yuwei asked.

Lu Yang said: "If I didn't guess wrong, the main city officially established for new players will open a period of protection for them. This time is about 2 months before it is open to all of us. The bonus I give you is You can let your family inject capital, and for each fort you have laid, you can increase your personal shareholding to 50%."

"Brother, really?" Lan Yu asked.

Lu Yang said with a smile: "A few of your parents haven't let you mention this to me."

"How do you know?" Lan Yu asked, her father and she mentioned it many times, asking Lan Yu to let Lu Yang open his capital.

Xia Yuwei is the same.

Lu Yang said, "I guess, but this is my initiative, and I also want to express my kindness to your parents. When we were in the same hardship, we resisted together, and now we have money, and we all make money together. , I will never eat alone."

Xia Yuwei stood up with emotion and said: "The bonus you give us 30% is already very high, we can inject it to 50%, and our parents really made a profit."

"This is what they deserve," said Lu Yang. "Now we have the ability to make money ourselves. Of course, we must repay our parents first."

Xia Yuwei, Lan Yu, Zhang Zibo, etc. are at the end of the growing rebellious period. Many things like to compete with their parents. If you have this ability in advance, you should naturally return early.

Which parents are not looking forward to their children becoming dragons and phoenixes, they are now ahead of time, so it is good for them to have bragging capital.

Lan Yu leaned in Lu Yang's arms and said, "Brother, thank you."

Lu Yang said, Xie Han, I also expressed my sincerity to Laozhangren in advance.

Holding Lan Yu, Lu Yang went on to say, "There is one more. For ordinary members, I am going to implement a crusade."

Xia Yuwei asked, "What do you mean?"

Lu Yang said: "Every battle, any player picks up his property. The guild must not, if there is a loss, the guild will compensate."

Xia Yuwei's eyes lit up and she said, "Every time we fight, the power we mobilize will be quite powerful."

Lu Yang said: "You're welcome to say that my Lu Yang will win every battle, and I will take you all through this game until the world is unified."

Xia Yuwei said brightly, "Boss, the picture you gave us really made us very tempted."

Lu Yang said with a smile: "I knew you would think so, I won't tell you more, I'm going to find them."

Riding on the Fire Lion King, Lu Yang found people such as muddy wine and wool balls, and said what he and Xia Yuwei had said.

Mao Qiu said unhappily, "Boss, we have no money."

The turbid wine poured a glance at the fur ball and said, "Listen to the boss."

Lu Yang said with a smile: "It's okay, the hair ball speaks straight, we all know that this boy is not bad-minded."

Zhuoju breathed a sigh of relief. Now Lu Yang's men are strong and strong. Leaving aside Zhuoju and others, the whole guild has no effect.

Lu Yang is not that kind of person. He knows that the muddy wine has been thinking too much, and said with a smile: "I know you don't have it, but I can wait for the boss. When can you buy enough fortress when you have enough money? Shares, and I will always charge you for the original price of the fortress."  
“

Mao Qiu stood awkwardly and said shamefully, "Boss, I'm sorry."

Although the construction of the fortress is much more expensive, it is more than dozens of times cheaper than when everyone is at level 30, and Lu Yang has been going to war externally ~  
www.mtlnovel.com ~ They have always paid dividends and can soon buy them Stronghold stake.

Yeyue listened to the wind and said, "Boss, aren't you so big?"

The net input of the guild was taken by Lu Yang alone, they were only responsible for leading the team.

Lu Yang said: "Still the same, when we are bitter, we have come together. When we make money, no one of you can run away. We have money to make together."

If it was a pity that the old man gave him a high salary in retrospect, no one would think so now. Obviously, they followed the right person.

Lu Yang patted them on the shoulders and found Sun Yu, Bai Xiong and Mi Ai for half their lives.

Lu Yang was most grateful for his half-life and said, "Boss, wouldn't I soon be rich and qualified to pursue Han Liu?"

Lu Yang said, "Of course, but your strength in the game must not drop, this is the fundamental of your pursuit of Han Liu, if you put the cart before the horse, you will be finished."

I love bitterness for a long time, and said, "I must practice hard."

Chapter 378 - Steel Hammer Ogre

In the end, Lu Yang found Jiang Ze.

"Brother, you're too convincing." Jiang Ze said.

Lu Yang leaned on Jiang Ze's shoulder and said, "What the hell, our brothers work together, sooner or later, your personal wealth will be more than our uncle."

Jiang Ze said, "You don't regret it."

Lu Yang gave him a punch and said: "Nonshit, am I the kind of person?"

Jiang Ze was right when he thought about it and said, "Thanks a lot."

"I'm gone, please keep busy." Lu Yang patted his shoulder, took out the city roll and flew back to the city of St. Gall.

Along the square, Lu Yang came to the auction house. Every day Lu Yang came to the auction house to take a look. If there was a good thing, he bought it.

As he entered the gate, players at the auction floor were whispering.

"What kind of fire skills is this? It's useful."

“50 gold coins, he’s grabbing money.”

“Strange, I don’t understand what this skill does now.”

...

Lu Yang approached a player and asked, “What fire skills are you discussing?”

The player pointed at a fire skill book with the most prominent position on the big screen and said, “It’s him, the path of fire.”

The Path of Fire

Type: Fire spell

Cost: 200 mana + 50 mana / second

Description: Status skill. After this skill is activated, the player will walk across the area with gas fire, causing 22 points of fire damage.

Lu Yang’s eyes straightened instantly, his heart thumped with excitement, and he quickly opened the auctioneer and saw that this skill book had not been bought yet, so he immediately chose to buy it.

The base price is 20 gold coins and the top price is 50 gold coins. Lu Yang bought it directly at the price of 50 gold coins.

“Well, it’s sold.”

“Which fool bought it?”

“Buy it at this price.”

Listening to the discussion in the auction house, Lu Yang was too excited to take care of them.

Divine skill, what is called divine skill, as long as you have this skill, and cooperate with the level 5 blazing speed, Lu Yang has the ability to kill the boss without injury.

Lu Yang has wanted to hit this skill book since he opened the Dead King’s Palace. However, the Dead King’s Palace has been playing for a month, and this skill book has not been typed yet.

With this book now, many of Lu Yang’s plans can be realized ahead of time.

Just as he was about to leave, Mu Yu sent a message.

“Brother ~~~, our backpack is full.” Mu Yu said.

Lu Yang was spoiled again by his little sister. Mu Yu was like a little \*\*\*\* cat. After taking care of her, how did she look at it?

“Brother come here.” Lu Yang said.

Speaking of the spell, Lu Yang returned to the demon temple and came to the Colosseum wall of the Psychic Academy through the coordinate points.

Immediately after landing, Lu Yang saw that the ground was covered with a layer of precious stones, and it looked like three layers under the walls of the Colosseum.

“How did you hit so many gems?” Lu Yang asked.

Han Ying said: "I forgot to tell you in the morning that the backpack is full of gems. I was afraid to disturb you today, and I dared to find you at night."

Lu Yang laughed and said, "Stupid girl, call me when you are full. I have time for you at any time."

"Oh." Han Ying said.

The children handed over the gems to Lu Yang only, and Lu Yang took the gems 6 times before returning them to the demon temple.

There are more than 5,000 third-level gems, many of which increase the penetration of spells.

Prismatic gem

Level: Level 3

Effect: Increases spell penetration by 30

Lu Yang is short of these gems, and throws out the fate dice and throws them up.

6, 3, 6

The system prompts: increase your lucky value by 10.

Lu Yang shook his fist and had good luck. His luck value exceeded 10 points, and the synthesis of gems within level 10 was 100% successful.

Taking out the prismatic gems, Lu Yang began to synthesize. When he finished the synthesis, he just came up with 26 level 10 prismatic gems.

Lu Yang returned to the Psychic Academy with these 26 gems, and Mu Yu happened to blame them once.

Lu Yang handed the prismatic gem to Mu Yu and said, "Sister, set all the gems on your equipment."

"It's all level 10." Mu Yu took the gem and said in surprise, "Will it be too wasteful, I'll be at level 40 right away."

Lu Yang said: "It doesn't matter, you can inlay it first, and we can replace it later. I will use the heart of the devil and the staff of the wizard to do something."

It takes a lot of money to remove the gems when they are replaced, and the gem level will be reduced by 1.

"Oh, all right." Mu Yu replaced the magic staff and the heart of the demon and handed it to Lu Yang, inlaid 26 prismatic gems into the equipment, and obtained 2600 magical penetration.

Mu Yu looked at his attributes. In the column where the spell penetrated, Mu Yu's spell penetration effect became 100%.

"Wow, so high." Mu Yu said.

Lu Yang laughed, and let them continue to upgrade. After replacing the magic heart and magic wand's staff, he took out the teleportation scepter and flew to the sentry tower on the top of the circular mountain. He jumped out of the mountain with a parachute, summoned the fire lion king, and pointed Run to the west.

To the west of the crater is the Liluan Heights, where there is a large ogre empire.

In the official history of "Second World", the ogre once ruled the planet. Orcs, humans, and elves were his food.

In the later period, the three groups resisted together to obtain freedom, and the defeated ogre family retreated to the level 60 map of Luluan Heights.

In fact, if the Luluan Heights is penetrated, the human race and the orc will be united. By that time, the war between the two races will begin.

Lu Yang has no ability to break into the city of the Ogre Empire, but the ability to kill some small bosses is still available, especially in the case of the path of fire.

Half an hour later.

A huge and magnificent bluestone building complex appeared in front of Lu Yang ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ It extended from the flat ground to the top of the mountain, and he was included in the dozens of surrounding mountains.

System prompt: you found the city of God of War

At the gate of the city of God of War, six giant ogres with red-brown skin and a body of more than 3 meters tall stood forehand with a long-handled steel hammer larger than Lu Yang.

Steel Hammer Ogre (Elite)

Level: 60

Qi and blood: 1100000/1100000

It is conceivable that letting such an ogre hit with a hammer would blame Lu Yang for not dying, and that such a high ogre could see far away, and Lu Yang decided to stay a little farther.

In the memory, there was a gap in the northwest corner of the city from the previous time. Ogre Centurion.

Lu Yang checked his skills and equipment, and after confirming that there were no problems, he went around the gap in the northwest.

#### Chapter 379 - Notice harvest

In terms of a gap, it is actually a 20-meter, 5-meter-thick bluestone city wall, which is just connected to the mountain next to it, and the mountain just has a \*\*\*\* connected to the ground.

Lu Yang ran along the \*\*\*\* to the wall and observed for a while. No guards patrolled here.

Looking down from the city wall, not far away is the Ogre sentry post, connected to 5 sentry posts, and outside each post there is a full-body steel ogre centurion.

Ogre Centurion (boss)

Level: 60

Qi and blood: 1800000/1800000

Lu Yang quietly walked under the city wall and walked out along the city wall until he reached the position of the fifth post, saying the spell in his mouth.

“Pyroblast”

A huge fireball hit the ogre centurion’s head in the fifth post accurately.

“6328” (Critical Strike)

The ogre centurion was kicked back, raised his sledgehammer and roared, rushing towards the landing sun, and even 100 ogres with him behind ran over.

“Blazing Blaze”

Lu Yang’s movement speed increased by 285%, while running, he hit all 4 ogre centurions along the road with Pyroblast and ran over 500 ogres to the wall.

When he reached the top of the slope, Lu Yang started the path of fire, and a flame of 1 meter high and half meter wide appeared in the place where he ran.

Raised by 3 levels, the damage of the Path of Fire has been increased to 186 points. Counting spell damage, the final damage of the Path of Fire is more than 3300.

The Steel Hammer Ogre has more than 1500 magic defense, but offset by the heart of the demon \*\*\*\* and the wand’s wand, the Steel Hammer Ogre’s magic defense only has more than 300 points.

The steel hammer ogre centurion who ran in the front had just entered the flames and suffered more than 2,500 injuries, and the back ogre suffered about 3,000 injuries.

However, this is not the main thing. The main thing is that every time an ogre takes a step forward, he is not injured one time, but three times.

In other words, every step an ogre takes, he loses 9,000 points of blood!

This is the biggest bug since the development of “Second World”. The rule of the fire path is that each step of the player is considered to ignite 1 flame, and each time the target passes 1 flame, or it lasts 1 second in this flame. For 1 minute, it takes 1 damage.

Lu Yang took one step to walk about 75 cm. The ogre, who was more than 3 meters tall, took one step. The distance he crossed was three times that of Lu Yang. Therefore, he was injured 3 times over a distance of 3 blocks.

In the last generation, the official received the player's report only at the 80th level. However, the official did not modify it. Instead, the player was encouraged to continue to look for official loopholes and found them. They were counted as rewards.

Lu Yang was not afraid to use this loophole, and along the slope, Lu Yang ran quickly.

The Steel Hammer Ogre is moving at twice the speed of Lu Yang, and Lu Yang is moving at 2.85 times the normal speed. Both parties are running on the road with a phantom.

As long as Lu Yang makes a mistake, he may be hit by an ogre's flying hammer or other special skills. As long as he hits, Lu Yang will die. Therefore, he must keep running and tell the curve, Can't run straight.

If the running distance is too long, the ogre will break away from the fight and not continue to kill. In that case, it will be a waste of effort.

If you are a novice, you definitely can't do this, but Lu Yang has drawn ogres many times in the last life, and was still a little rusty at first, but soon entered the track.

Five minutes later, all 500 ogres fell to the ground.

System prompt: You killed the ogre

...

Looking at the corpse behind him, Lu Yang looked back along the original road.

Sharpshooter Academy Notice

Assassination Academy Notice

Notice of Ice Department of Magic Academy

Five level 60 bosses exploded three transfer certificates. If a level 60 player encounters this situation, he will definitely scold the garbage to death, but for Lu Yang, it is exactly what he needs.

After receiving the notice, Lu Yang picked up 2 Pandora's Boxes and had 5 pieces of black iron garbage equipment of level 60.

Shaking his head, Lu Yang rested for half an hour. After the skills were restored, he entered the gap again to explore.

Passing the post, in front of the ogre barracks, more than 2,000 ogres are training in the center of the field, of which there are 20 centurion-level.

As soon as Lu Yang's eyes lighted, he hit the Pygmy Centurion's Pyroblast and turned and ran.

"Invaders, there are human invaders." The centurion roared, and rushed towards the landing sun with 2,000 ogres.

Lu Yang's old tricks were re-applied, using a combination of Blazing Blaze and Blazing Fire skills to quickly run forward.

Five minutes later, all 2,000 ogres were killed by Lu Yang.

Looking back, Lu Yang found 13 transfer certificates and 15 Pandora's boxes this time.

"Looks like I should find a way to open the Pandora's Box," Lu Yang murmured.

The Pandora's Box cannot be easily opened, and it is likely to encounter various unlucky things. Before Lu Yang dared to open it in the early days because Lu Yang knew that he was poor.

If you fight now, it is not necessarily what happened. In case the attribute is reduced by 50%, this account will be invalidated.

However, there is a special usage of Pandora's Box. You don't have to use it yourself. You can give it to others, for example, the accounts you bought.

After the decision, Lu Yang continued to upgrade. Before going to bed at night, Lu Yang hit more than 50 Pandora's Boxes and more than 60 transfer certificates, killing all bosses around the Ogre Empire.

The level of the landing sun was also increased to 38.

Lu Yang picked up the transfer certificate and found 3 certificates of stealth college, which was left by Lu Yang.

Before going to bed, Lu Yang sent a message to Xia Yuwei and Zhuo Jiu and others, "Come to the fortress hall of the Red Fortress."

"Okay ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Everyone nodded, each took out the fortress and returned to the city to roll back to the red fortress inner city transfer point, and walked into the fortress hall together.

"Boss, what are you looking for?" Xia Yuwei asked.

In the hall, Lu Yangzheng was sitting in a chair to rest leisurely. Seeing everyone coming, he said, "Sit down."

Everyone took their seats.

Lu Yang took 60 transfer certificates from his backpack and put them on the table. "10 per person."

Zhuoju looked at the certificates with excitement and said, "Boss, how did you get it, did you buy it?"

"It's expensive, these are worth hundreds of thousands of dollars." Jiang Ze said, a transfer certificate has a market price of up to 10,000 credit points.

"It shouldn't be, who sells it at this time, it's all used by himself when it hits." Han Liu drummed his mouth and looked at Lu Yang. "Boss, don't sell it, tell me how it came."

Lu Yang smiled and said, "I said I got it. Do you believe it?"

Chapter 380 - New special forces

"If you don't believe me," Lu Yang said.

The crowd was amused by Lu Yang's pretending to be angry.

"No matter how many, anyway, with these certificates, I can go back and explain to my brothers, they don't have to blame me for uneven distribution." Said bitter love for a long time.

"It's not. When fighting, a brother who was more desperate than a daring brother, but all quarrelled with this broken certificate, annoyed me these days," Bai Lang said.

Jiang Ze said, "So am I."

Lu Yang said with a smile: "Don't worry, I will give you another batch of notices tomorrow."

Xia Yuwei asked: "Boss, you really hit it."

Lu Yang said: "I lied to you for what to do. I ran to level 60 maps to blame, and the notice there was a boss and it would burst."

“Level 60 map!” Lan Yu said.

Everyone thinks that they feel cold all over. They are only level 30. It is difficult to beat monsters at level 10, and Lu Yang beats monsters at level 30.

It might not be too surprising if the level is 100 to 130, but the level 30 to 60 is completely unintelligible.

Lu Yang said: “I originally wanted to take you with me. I wrote a notice and took you to upgrade by the way, but I thought about it later. Your level is too easy to be exposed. I do n’t hide from you. My boss is 38. , If I take you to upgrade, your level is found by your subordinates, and once it is said that it leaks, it will be troublesome. “

Everyone nodded, they had to make contact with a large number of people every day, and they said countless things every day. Once something was leaked or discovered, it was really annoying.

“Boss you upgrade first, we are not in a hurry.” Xia Yuwei said.

Lu Yang nodded and said, “I’ll tell you something, now I’m equipped with the Fire Hundred Hundred Regiment over Jiang Ze, the Wind Laser Shooter over Sun Yu, and the Paladin over the White Lion. Equip Yuwei, bitter love and muddy wine with an exclusive army, let’s talk about what you want. “

Among the remaining types, the mage department has psionic and frost mage groups, warlocks have black witch doctor legion, and thieves have assassin legion.

Xia Yuwei and turbid wine were devoted, and bitter love for half a life did not expect such a good thing, they thought about it.

In the end, Xia Yuwei chose the psionic master group, bitter love half-life chose the frost mage group, and bitter love half-life chose the black witch doctor.

Lu Yang said, “If no one wants the assassin’s legion of assassins, let’s divide them evenly.”

Everyone nodded.

After letting everyone disband, he flew back to St. Gall and quit the game.

Just as Lu Yang was about to rest, a muffled noise came downstairs, as if someone had fallen.

Lu Yang frowned and came to the window and looked at it.

Playground.

Han Zhongzheng framed a bamboo pole over two 5-meter-high brick walls. Han Sha and 12 children waited to walk over the bamboo pole one by one.

For a moment, Lu Yang recalled the last time he followed Han Zhong to train in the jungles of Southeast Asia.

At that time, just like Han Sha and them, Han Zhong required that he must walk through a bamboo pole at a height of 10 meters to be considered a graduate.

The so-called killer is not much different from the extreme challenger in reality. Perhaps the only difference is that the killer has fighting skills specially developed for killing. Other physical fitness, brave heart and other extreme challengers have.

Lu Yang later completed the task as the ultimate challenger many times, not only was not found, but also became an internationally renowned master of the extreme challenger.

Out of the door, Lu Yang came to the playground.

Little girl Han Meng is walking. This little girl is the only girl among the 12 children and the youngest child. When she carefully walked from one end of the bamboo pole to the other, she saw Lu Yang.

“Brother ~~!” The little girl fell unsteadily.

Han Sha steadily caught Han Meng and said, “So careless.”

Han Meng put out her tongue and said, “Brother is here.”

Han Zhongzheng frowned, saw Lu Yang coming, and said, “Why are you here?”

“Just quit the game and saw you train me to come and see.” Lu Yang said.

Han Zhong said with some shame: “The exercise time is still too short, these children have not yet reached the standard.”

Lu Yang said, “Okay, take your time. Let me try this bamboo pole.”

“You?” Han Zhong said with a smile: “It wasn’t Master said, you really can’t get through.”

“Master, excite me, then I will try.” Lu Yang said.

Walking to the earth wall, Lu Yang looked at a thin bamboo pole and said to Han Sha: “Look, my brother will show you one.”

With one foot on the bamboo pole, Lu Yang felt the elasticity of the bamboo pole. After confirming, Lu Yang stepped on the bamboo pole little by little. The familiar feeling of the last life was quickly found. Lu Yang stood firmly on the bamboo pole. intermediate.

“Well, Master, I’m fine,” Lu Yang said.

Han Zhong said in surprise: “Xiao Yang, you have such a good balance.”

Twelve children including Han Sha showed their adoring eyes. They started training on the ground with bamboo poles and reached 5 meters in height. After one month, they mastered it, but Lu Yang was so relaxed.

Lu Yang jumped on the bamboo pole. With the shaking of the bamboo pole, Lu Yang once again grasped the sense of balance, and easily walked from the bamboo pole to the other side of the soil wall.

“Brother, you are so good.” Han Sha said.

“You are also good.” Lu Yang rubbed Han Sha’s small head and said to Han Zhong, “Master, can they pass the Joker Emperor mission now?”

Han Zhong said, “It’s easy.”

Lu Yang said, “That’s great. When I let them enter the game tomorrow, I will do the Joker Emperor mission first. I need a group of fantasies.”

The official set the rules of soul binding, even if a player establishes as many accounts as possible ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ as long as one has done the Joker Emperor mission, other established accounts cannot.

Early the next morning.

After Han Zhong took the team to the end of the exercise, wait for Lu Yang to finish the training.

Han Sha and others were surprised to see that Lu Yang’s training intensity was so much higher than them.

“Look, your elder brother has hundreds of millions of net worth. If you still work so hard, you can’t be lazy, you know?” Han Zhong said solemnly.

Han Sha and others nodded together. Usually, they went to wash immediately after the end of the exercise, and then entered the game. They did not see Lu Yang exercise. This time they saw a lot of touch.

When the exercise was over, Lu Yang leaned against the wall, his whole body was weak, and his sweat was allowed to flow from his head.

After a while, I entered the wash room. After I came out, I looked at the little guy and said, "Let's go, let's go into the game. Today, my brother will take you to upgrade."

"really?"

"Of course." Lu Yang never lied to children.
