

Chapter 41 - Copy

Xia Yuwei's eyes widened in surprise, Zhang Zibo, Zheng Yuan, and more than 20 other members of the team stayed on the spot.

Who is Lu Yang, the first in the ranking list, has reached the world's first master at level 8, compared with him, they have just more than 3 levels, in front of Lu Yang, they face adults like children.

In the early days, level was the determining factor. If Lu Yang wanted to kill them, he could kill more than 20 people in his team without any problems.

Because when they attacked Lu Yang, they were in the system mode, and they hit level 8 at level 3. There is a high probability that the attack would be miss, and Lu Yang killed them and level 8 at level 3. It was almost a fireball. .

Recalling the scene where Zheng Yuan offended Lu Yang several times before, Xia Yuwei's face showed a worried look, and she nodded slightly in front of Lu Yang, saying, "Mr. Lu Yang, the previous thing is really sorry, I hope you Do not mind."

The corner of Lu Yang's mouth made a radian, and I thought that the Lord of the Nine Cities in the last life, the famous Queen Rose, would apologize to herself, which is really a great honor.

"It doesn't matter, I'm not a stingy person." Lu Yang said with a glance at Zheng Yuan.

Xia Yuwei was relieved and said, "I'm so sorry."

“Okay, let’s start a group.” Lu Yang opened a team mode of 20 people and said to everyone, “I will team up one by one, and each person who joins the group will report your career and statistics to me.”

He chose Xia Yuwei first.

“Furious battle, level 3, damage 31, blood 144 points.” Xia Yuwei said, his way to add points is to add points, but unfortunately not equipped, holding in his hand is a level 1 weapon-a crude dagger.

Lu Yang chose Blue Feather for the second time.

“Priest, level 3, magic damage 29, qi and blood 208 points.” Lan Yu said, the priest’s way of adding points is 3 magic and 2 bodies, plus the silver-level staff sent by Lu Yang, the data is much more beautiful than Xia Yuwei.

Lu Yang chose Zhang Zibo for the third time.

“Anti-war, level 3, defense 73, blood 352 points.” Zhang Zibo said.

...

19 people were added, and the last one was left. Lu Yang looked at Zheng Yuan and asked, “Your data.”

“Mage, Level 3, 28 points of damage, 112 points of qi and blood.” Zheng Yuan said unhappily.

Lu Yang grouped Zheng Yuan into the team, frowning and said, “Neither of your data is good. Warrior thieves go to the auction house to buy sharpening stones, increase 5 physical damage, and mage to buy magic damage potions, increase 5 Spell damage. “

These things are the output of primary life skills. There are a lot of transactions in the auction house and you can buy them. However, the price is a bit expensive for novice players.

A whetstone requires 10 copper coins, and a magic damage potion requires 20 copper coins. The 19 people in their team add up to more than 2 silver coins, which is equivalent to Xia Yuwei's family.

"Do you have to spend this money?" Xia Yuwei asked.

Lu Yang nodded and said, "You have to buy it, or you can't get a copy."

"Well, then buy it." Xia Yuwei gritted her teeth and let Zhang Zibo go to the auction house.

While everyone was waiting, Zheng Yuan suddenly came to Lu Yang and asked, "You asked us to buy it, why didn't you buy it yourself?"

Everyone in the team looked at Lu Yang curiously, and they all wanted to know why Lu Yang didn't buy it.

"You won't want us to buy it for you, master." Zheng Yuan said sarcastically.

Xiao Liang has seen that Zheng Yuan is aiming at Lu Yang, the big shield stands in front of Zheng Yuan, and stands in front of Lu Yang and says to Zheng Yuan: "My boss shouldn't have to buy it. I can't hold it back. "

"How could it be." Zheng Yuan didn't believe it.

Lan Yu asked curiously, "Master, how much has your Fa hurt?"

Lu Yang said: "127."

Everyone: "..."

The players in Xia Yuwei's team have collapsed, Zheng Yuan is speechless. He feels that 28 points of his injuries are hard to come by, but compared with Lu Yang's injuries, they are not enough.

“Why is your legal wound so high? It’s four times ours.” Lan Yu asked in surprise.

Lu Yang said, “Because I am a master.”

Lan Yu shouted, and was very dissatisfied with Lu Yang’s answer. What she wanted to hear was how Lu Yang killed those bosses to get equipment, instead of such a simple sentence.

Liquor Qingfeng gave Lu Yang a thumbs up and said, “It is indeed a master. None of the mages in our union have hurt you more than half.”

Lu Yang shrugged.

Five minutes later, Zhang Zibo ran back and said, “I bought the potion and whetstone. Everyone come to me to get it.”

When Lu Yang and Lan Yu returned to their front, their expressions became serious.

“Well, from now on, our copy team is formally established. I am your leader Lu Yang. Now I say a few requirements.” Lu Yang said.

Team members such as Xia Yuwei and Zhang Zibo looked at Lu Yang one after another.

Lu Yang went on to say: “First, during the period of my command, you must absolutely obey the command. What I ask you to do, what you must do, there are dissatisfied, the blame is over, find me the account, but you are blame In the meantime, no one is obedient, don’t blame me for kicking him out of the team immediately. “

Everyone nodded, this request was reasonable.

“Second, if the copy fails because of my command, I will lose money to you, one silver coin for each person. If the copy opens up ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ It is like I discussed with Xia Yuwei just now, the master equips me first It’s me, the boss’s final fall, you have no opinion.”

When Lu Yang spoke, his eyes swept through everyone on the scene like an eagle, and he had a sense of leadership. No one except Xia Yuwei dared to look at him.

“Relax, we will keep our promises.” Xia Yuwei said on behalf of everyone, and then he turned to Zheng Yuan and others and said, “From now on, everything that Lu Yang says means everything I say. Trouble, there will be no one in our team. “

All the people in the team were quiet. Xia Yuwei’s order was very harsh for them. Zhang Zibo and others were classmates with Xia Yuwei. Knowing that Xia Yuwei is always the same, other people hired have a job that makes money so easily. No one wants to smash a rice bowl.

Only Zheng Yuan had an uneasy expression on his face, and was about to speak, but just saw Xia Yuwei’s sharp eyes, and then swallowed back to his mouth.

The spirits breeze on the side looked at everything and said with a sneer: “Master, rest assured, I will listen to your instructions 100% when I enter the copy. If anything, I stand by you.”

The words of the strong liquor Qingfeng were puns, and he believed that Lu Yang could hear it. He had already reported to Lu Mu about the relationship between the black armored soldier and Lu Yang. He gave the order to help Lu Yang.

Lu Yang knew the meaning of spirit breeze and patted him on the shoulder. “Thank you, man.”

Xia Yuwei and others took a curious look at the spirit breeze. They didn't know exactly where this person was coming from, and they were able to say that to Lu Yang.

"Excuse me?" Zhang Zibo asked Xia Yuwei instead.

"A friend of Lu Yang," Qingfeng said.

This sentence is the same as nonsense, but it also represents that the spirits Qingfeng does not want to identify himself.

Zhang Zibo also wanted to ask again, but Lu Yang did not give him this opportunity.

"Everyone checked the equipment at the end and followed me without any problems." Lu Yang said.

The spirits Qingfeng asked, "Do I need to bring anything else?"

Lu Yang said: "You don't need it. The defense is more than 100. With you and the black armor, this copy should not be a problem."

"Of course it is not a problem. Before I had 80 defense, it was not difficult to clear the customs, let alone more than 100 defenses now." Liquor Qingfeng was very confident.

Lu Yang smiled and didn't speak, beckoned everyone, and said, "Let's go."

Xia Yuwei and Zhang Zibo and others nodded and walked out of Saint-Gar City with Landing Sun. After about 20 minutes of walking, the group came to a dense woodland, which is a camp for the werewolves in the level 3 monster area.

There is a high mountain in the center of the camp, and in a cave on the side of the mountain, there is the most famous copy map of the twenty people-Death Cave.

At this point, hundreds of players have gathered at the entrance to the death cave, most of them in groups of 20, and they all came to make copies.

“There weren’t many people yesterday. I can’t think of so many players here today.”

“Of course, there must be many high-level games to level 3 in 3 days. If they want to get equipment, they can only come to the next copy.”

Although most bosses in normal difficulty only produce whiteboard equipment, and they are still very sad, in the case that the equipment cannot be played in the wild, players can only come to the copy to face the difficult situation of no equipment after the level is increased. Here comes luck.

There are currently 8 Level 3 copies around St. Gall. According to the guide given online, the Death Cave is the easiest to pass and the requirements for the player are the lowest. However, there are 4 bosses in one copy, each boss value. Drop a piece of equipment, and a team of 20 people, just think about how difficult it is to get equipment.

“Mage who is hurting by 25, ask for a team.”

“The shooter hurts 29 points, understands the operation and listens to the command. Is there a team?”

Many casual players saw Lu Yang’s team come over and asked.

“Boss, join me.”

“Brother, is there anyone left in the team?”

The spirits breeze came forward to deal with it, and said, “Sorry, the crowd is full, let’s break up.”

Players around can only leave in disappointment.

“Please wait for me, I will open a copy.” Lu Yang said.

He walked to a glowing one-man tall cylinder at the door of the death cave, reached out and touched the pillar.

System prompt: You found a strange cave in this forest with a breath of death. I heard that weird sounds are often heard here. Do you want to go in and find out?

Lu Yang: “Yes.”

System Tip: You choose to enter the copy of the death cave, please choose the difficulty, normal, difficult, expert, epic.

Lu Yang: “Epic.”

System prompt: Do you confirm epic difficulty?

“Yes.”

Lu Yang chose the epic level again, and took Xia Yuwei and others into the copy. A white light flashed. Lu Yang appeared in a dark cave. The flare of the torch on the walls on both sides made people feel terrified.

System prompt: You have entered the cave of death, copy difficulty, epic!

Xia Yuwei and others also saw this reminder and looked at each other in surprise.

“How could it be epic?”

“Leader Luyang, you chose the wrong one, how could it be epic?”

“Yeah, we can’t beat it in normal difficulty.” Players under Xia Yuwei were anxious.

Xia Yuwei looked at Lu Yang, but found that Lu Yang’s complexion was calm. How could a master like Lu Yang make such a low-level mistake? Is it difficult for Lu Yang to choose the epic? But why is he?

The primary copy of “Second World” has 4 levels. Among these 4 levels, from ordinary to epic, the NPC of each level is increased by 30%, that is, the epic copy is 2.2 times more difficult than the ordinary copy.

“Everyone is quiet, I didn’t make a mistake,” Lu Yang said, “but it’s epic difficulty, I have my own way to lead you through.”

“You are the old couple, even the dudes that Lianxiong Ba and Liao Du dare not challenge. Why do you say that you can take us there? I really think that the first in the ranking list is invincible, right?” Zheng Yuan asked sarcastically.

“He is your friend?” Lie Qingfeng saw Zheng Yuan’s provoking Lu Yang three times and four times, he couldn’t help asking.

“Of course not.” Lu Yang said.

“If someone in our team dared to question the leader so much, he would have been kicked out of the team by the leader. How can you let him say so much nonsense, you really have a good temper.” Liquor Qingfeng said.

Liquor refreshing is not stupid. Lu Yang can become the first in the rank list, and he also has so many best-in-class equipment on the first day, which has proved that he is not ordinary. Since he dares to choose epic difficulty, there must be a clearance. Grasp.

He didn’t expect that it would have been just an ordinary copy game and could have such important gains.

“Who are you, what’s wrong with you? People who run out come here to pretend to be with me.” Zheng Yuan was anxious, pointing at Lie Qingfeng, his face sullen.

The spirit breeze said lightly: “Is there any problem with Xia Tian being the vice president of the Zijin Dynasty trade union and the old man against the twilight?”

“You are the vice president of the Zijin Dynasty ...” Zheng Yuan was stunned.

Zhang Zibo was stunned.

Xia Yuwei was even more stunned.

The Zijin Dynasty, the official statistics have reached 60,000 super unions. The vice president of such a large guild, under one person, above 60,000, can crush the ice of more than 20 people in Xia Yuwei in one word. studio.

Xia Yuwei hurriedly came to Lie Qingfeng and said, “Sorry, I didn’t expect you to be the vice president of the Zijin Dynasty. I don’t know anything about you, don’t mind.”

Lie Qingfeng smiled and said, “It’s okay. I came here today to be a fighter for Lu Yang as I commanded him. He also said just now. He will support Lu Yang throughout this copy. If you do n’t want Hit, I will immediately call the elite of the Zijin Dynasty to replace you. “

Xia Yuwei, Lan Yu and others looked at Lu Yang in surprise, how could they never have thought about it ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The relationship between Chi Mu and Lu Yang was so good.

“Thank you,” Lu Yang said to the spirit breeze.

Xia Yuwei thought that Lu Yang really wanted to make a substitution. The copy was opened by Lu Yang. He was the head of the group. If he wanted to make a substitution, Xia Yuwei and others had no capital to resist.

Xia Yuwei hurriedly said: “Lu Yang, rest assured, I promise Zheng Yuan will not have the next time, we are willing to play an epic copy with you.”

The equipment produced by the epic copy is bronze for the last time and silver for the highest. Lu Yang only needs the mage’s equipment, and all other equipment is Xia Yuwei’s. How could Xia Yuwei get out of this position?

Lu Yang said, “Okay, then we’ll fight first, but I hope this is the last time.”

He believed that Xia Yuwei was not a fool, and she should be able to understand by carrying her like this.

Xia Yuwei was a little embarrassed, but she knew it was her deserved, because she never looked down on Lu Yang, nodded her temper and nodded, turned around and said to Zheng Yuan, “Last time, Zheng Yuan, you dare to say In a word, I guarantee that this team will no longer have your place. “

Zheng Yuan was dissatisfied, but he knew he couldn’t speak anymore, and he bowed his head and said nothing.

Zhang Zibo Zao He Shi Lao said: “Master, let’s get started, I promise we will all listen to you.”

Lu Yang’s impression of Zhang Zibo was still good, saying, “Okay, everyone will follow me. There is nothing strange in the beginning.”

#### Chapter 43 - Top command

Xiao Liang put away his hostility towards Zheng Yuan and others, followed Lu Yang, and the spirits and breeze also followed. He also felt that his quarrel with people like Zheng Yuan had lost his identity just now.

A group of people walked deep into the cave. Lan Yu followed Xia Yuwei’s side and saw the worry on Xia Yuwei’s face. He walked two steps to catch up with Lu Yang, hit his chest with his arm, and sent a message to Lu Yang secretly. , Said, “Master, you are really lacking in morals as a pig and a tiger.”

When Lu Yang saw Lan Yu hit him with his arm, he didn't understand it at the beginning. When he saw the information, he couldn't help but responded with a smile and said, "Why."

"Not yet? You're almost scared us, a second in the full game rankings, a first in the rankings, and now there is an additional vice president of the first guild." Lan Yu "unhappy" drumming Small mouth.

Lu Yang made a slight arc in the corner of his mouth and replied, "Okay, okay, I blame this, and I promise to say everything before I come."

He couldn't bear to see the little girl angry. In the last life, Lu Yang was forced to flee abroad after his parents died. In this most difficult time, Lan Yu was always by his side in the game. If anyone is the only one besides Shen Mengyao, What Lu Yang cares about is blue feather.

He remembered that he was in his third year after going abroad. That day when he heard Lan Yu crying and told him that the family arranged for her to marry someone she didn't like, Lu Yang hated that he was a waste, but he didn't No way, he doesn't have that ability to protect the little girl.

But this life is different. In this life, Lu Yang believes that he must be a good brother to give Lan Yu the greatest protection.

"Smile, don't get angry." Lu Yang coaxed Lan Yu.

Lan Yu thought Lu Yang was very angry. She didn't expect to coax her in turn. She couldn't help but want to tease Lu Yang. She pretended to be still angry and said, "I'm not angry, just be angry."

Lu Yang surrendered and said, "Okay, okay, I'm wrong, I'll give you a gift in a moment."

"Not rare." Lan Yu narrowed her mouth and left ...

Liquor Qingfeng and Xiao Liang glanced at each other, and they both showed a "understand" look. Liquor Qingfeng secretly sent a message to Xiao Liang, saying: "No wonder your boss is willing to take them to upgrade. It turned out to be fancy. Little girl. "

Xiao Liang nodded secretly, and said, "Huh, I feel the same way."

The two were so acquainted that they became friends!

Lan Yu returned to Xia Yuwei's side and gave a reassuring look. This time Xia Yuwei didn't say anything. She instinctively felt that Lu Yang's future achievements in this game are definitely not what she sees now.

Zhang Zibo and others thought the same way. When several people secretly exchanged information, they all thought that Lu Yang was very unusual.

Only Zheng Yuan saw Lu Yang's eyes more resentful. When Lan Yu hit his arm with Lu Yang's arm just now, this intimate move made Zheng Yuan almost jealous.

A team of twenty people continued to explore deep into the tunnel. After passing the turning point of the tunnel, Lu Yang saw two NPCs wearing light leather armor appearing in front of them, and the names were collectively called rebel soldiers.

According to official sources, this copy of the Death Cave tells the story of the rebels and St. Gall.

At that time, St. Gall's city was not called this name, but it was called the Fars Emperor. Later, the empire was attacked by King Garr's army, Fars was killed, and the empire collapsed.

A small number of Fars empire officers were unwilling to be defeated in this way, and secretly gathered members to prepare for re-entry. This death cave was a rebel outpost and was originally a secret place, but they saw that the main army inside the city of St. Gall was transferred to the border To deal with the intense war, get the permission of the superior, and start to kill past businessmen in order to create tension.

The spirit liquor breeze looked at the strange blood volume, and it actually had 8000 points. He stunned his tongue and said, "It is indeed an epic copy, which is twice as much as the normal version."

Xia Yuwei, Zhang Zibo, and others were frightened. The level 3 mobs' 8000 blood was only around 50 points. They eliminated 3 fighters and 5 priests, and exported a total of 12 people. They wanted to kill a mob. Both are quite laborious.

Lu Yang said: "Don't worry, it's all mobs. The spirits breeze kills the left side, the black armor kills the right side. Everyone waits for the spirits breeze to fight for three seconds to build hatred, and then fights with me.

"Understand." The crowd said together.

Lu Yang said: "Open strange."

Xiao Liang and Liquor Breeze nodded. The two charged and ran into the strange body. The two rebel soldiers were stunned for 1 second.

"Let the stranger's back face us, and the soldier walked behind the stranger." Lu Yang said.

This is the easiest way to move in the last life, which can prevent the strange escape suddenly and make the player output more convenient, but in this game, no player has ever noticed this.

Liquor Qingfeng didn't understand Lu Yang's thoughts at first, but then came to understand it and couldn't help but admire Lu Yang's glance.

"The thieves don't stand on the side of the mob, stand on the back and output. The hunter first stabs the viper and then shoots mysteriously." Lu Yang said.

The thief outputs behind the humanoid monster, and the damage is increased by 30%. The hunter has only one person in the team, but his poisonous stinger is a poison attack, which can continue to cause damage. The first use of the poisonous stinger can make the hunter's output higher.

"The warlock first puts on the curse of pain ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~, then the shadow arrow, the paladin always outputs, and the mage uses the fire method." Lu Yang spoke while giving the monster a burning skill.

Burn

Type: Fire Spell

Cost: 12 mana

Cast time: 1.5 seconds

Distance: 30 yards

Effect: A flame is released to the target, making the target's entire body surrounded by flames more vulnerable to fire damage. Five layers can be stacked, each layer increasing the fire spell damage by 15 points and causing 10 fire spell damage for a duration of 30 seconds.

This is the god-level skill of the fire method in the primary copy. After stacking five layers, each time the target is attacked by fire, it will take 75 additional fire damage.

Xia Yuwei's team counted that there were five mages including Zheng Yuan. None of these five had high-end spell equipment. The fireball damage caused by the full magic was only about 50 points. With Luyang's five-layer burning, the damage increased. 2.5 times, each output can deal about 125 points of damage.

Even if there were 8000 qi and blood, five of them could kill more than 600 qi and blood every 3 seconds. Counting the output of other people, a rebel soldier was killed in less than 20 seconds.

Although Lu Yang thought it was good, at the time of the output, only four mages in Xia Yuwei's team were using fireball. Lu Yang glanced at the mage's position and saw Zheng Yuan hitting with arcane.

## Chapter 44 - Power of Fire

Arcane Blast, Arcane Master has no brain to output mainstream skills, base damage is 22 points, after each damage to the target, stack a buff that increases the damage by 40% for 8 seconds, up to three layers.

The damage of this skill is very high. Each time you increase the damage, the consumption of blue increases by 40%. If the monster kills less blood, Lu Yang will definitely recommend it to everyone, but the monster kills more blood, especially in this group. In the case where several strange monsters cannot be recovered, this is a garbage skill.

Lu Yang shouted, "Zheng Yuan, use fireball."

Zheng Yuan didn't listen and continued to release Arcane Blast. He only had a total of 250 magic points. After stacking three layers of Arcane Blast Buffs, each use of the skill would cost 33 magic points. As a result, the first rebel soldier was killed. At that time, Zheng Yuan was out of blue, and he could only stand aside.

There are only 12 outputs, of which 5 are from the physics department. The original damage is not enough. Now there is one mage missing. The other mana's blue consumption has increased sharply. If it is not for Lu Yang, the damage is high, the strong spirits and Xiao Liang are very defensive. High, these two monsters can make them destroy the group.

After both monsters were killed, Lu Yang went to Zheng Yuan and took the time to recover, and asked, "I let you use fireball to fight monsters, how do you use arcane shock?"

Zheng Yuan said with an eyelid, "What's wrong, do you have an opinion with the output of arcane shock?"

"I'm asking you, I ask all mages to use fireball, why do you use arcane shock?" Lu Yang's eyes were cold.

Xiao Liang picked up a weapon and walked to Lu Yang's side.

Lu Yang is not a person who has no temper, and even if he has endured the little things before, now Zheng Yuan dares to delay the copy, and Lu Yang absolutely cannot agree.

Xia Yuwei saw Lu Yang getting angry, and hurried over to him, asking, "Why, what's wrong?"

Zheng Yuan pointed to Landing Yang and shouted, "Yu Wei, I can't bear the previous things. I can't stand this. Why should he ask me to use fireball to blame me? Obviously, my arcane damage is higher, and I use fireball. What does the surgery do? He made it clear that he was looking at me for trouble. "

Xia Yuwei didn't understand and looked at Lu Yang.

Lu Yang said, "Is your damage really high?"

"Why not? Do you understand? After three attacks of Arcane Blast, I will have a buff that stacks 2.2 times the damage. Except for you who rely on equipment, my damage should be the highest." Zheng Yuanjian Shouted.

Zhang Zibo and others came over. Although they did not recognize Zheng Yuan as a person, Zheng Yuan's words did.

"Zheng Yuan, you listen to Lu Yang's arrangement. He is the commander of the regiment. We should listen to his command." Zhang Zibo worried about another problem and could not help but persuade.

"Why, what did he do wrong? Why should I bear him?" Zheng Yuan grasped things.

Lu Yang sneered, and tuned out the damage output from the game. He cast a screen in front of the crowd and said, "Then I'll let you see what your output is."

DPS statistics:

First, Lu Yang, total output 6415 (second injury 79.4)

Second, Golden Snake King, total output 1914 (second injury 21.2)

Third, Aoshi, total output 1911 (second injury 21.1)

The fourth and half morning light, the total output is 1846 (second injury 20.5)

Fifth, the salted fish group, with a total output of 1845 (second injury 20.4)

Sixth, black guitar, with a total output of 904 (second injury 10.0)

Seventh, Zheng Yuan, total output 901 (second injury 10.0)

From the first to the fifth, there are fire methods including Lu Yang, the sixth is the warlock, and the seventh is Zheng Yuan.

Seeing this DPS data, everyone was shocked, Zheng Yuan even shouted impossible.

“How could the damage of fireball be so high, aren’t your possessions?” Zheng Yuan stared back and stared at the four hired mage players.

The four mages quickly shook their heads.

Chen Shiguang, a half-life, said, “Boss, don’t frame us. How dare we hide the equipment, and even if it is equipped, the output cannot be so high.”

“What’s going on.” Zheng Yuan asked.

“It seems that the head of Lu Yang used some skills. There is an extra buff on the body. Each time we attack, the damage is increased by 75.” Chen Shi said in the half-life.

Xia Yuwei and others looked at Lu Yang.

Lu Yang said: "Yes, this is my skill, so I ask you to use fire."

Zheng Yuan was speechless.

Lu Yang continued: "Also, your current blue can only make your arcane shock hit 8 times, after which you will no longer have blue, that is to say, you have only one of these two blue output data, Another blue is that you have no blue attack. Do you know how much damage this team does and how much output will others share for you? "

Zheng Yuan's face was extremely embarrassed. He intentionally said that these people were hired by him and should be, but when he saw the three of them, he couldn't say anything.

Xia Yuwei sighed helplessly when she saw this situation. His father and Zheng Yuan's father were business partners. The relationship between the two was also good. How could he not look at Zheng Yuan being ridiculed by Lu Yang.

"Sorry, Mr. Lu, I apologize to you, he will never do it again." Xia Yuwei said.

Lu Yang looked at Xia Yuwei, sighed and said, "Just indulge him like this, one day, sooner or later, you will know the consequences."

In my last life, Lu Yang remembered that in the early days, the Hanbing Studio could not develop because of Zheng Yuan's troubles. Later, Xia Yuwei couldn't bear to kick him out of the team, which led to the development of the Hanbing Studio.

When Xia Yuwei became the queen of roses and the Lord of the Nine Cities, Zheng Yuan begged Xia Yuwei to return to the Hanbing Studio ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Xia Yuwei blocked his elder's face to let him come back, and made him the Lord of a city However, due to lack of determination, Zheng Yuan missed the beauty plan, which caused Xia Yuwei to lose seven cities and nearly be kicked out of the game.

Of course, these are the last words.

“Well, everyone follows me.” Lu Yang said.

Killing the rebel soldiers all the way, Lu Yang took the team to a circular cave hall. The height of the hall was very high, about 6 meters high, and the diameter was almost 80 yards. At the center of the hall, he stood A ogre nearly 3 meters high, holding a huge wooden mallet in his right hand.

Ogre Cliff (boss)

Level: 8

Qi and blood 50000/50000

“Why is his body so much stronger than that of ordinary books?” Lan Yu said in surprise.

“How much?” Lu Yang asked.

“Of course, the ogre of the ordinary book is only 2.5 meters, this one is as high as 3 meters, and his muscles are much stronger than the ordinary book.” Lan Yu said with a gesture.

The single-headed ogre Cliff in front of him had horns on his head and had dark red skin on his body. The muscles on his arms and abdomen were very strong, which brought tremendous coercion to Xia Yuwei and others.

Liquor Qingfeng said: “Master, this is not easy to fight. How do I feel that my more than 100 defenses can’t carry it?”

## Chapter 45 - Ogre Cliff

Xia Yuwei looked at Zhang Zibo, Zhang Zibo said, "I can't carry it."

When the team members heard this, their morale was a bit low. Although they didn't think they could beat the epic boss at first, but they came here with some hope, but now they are all shattered. Already.

"Boss can't carry it, then what else can we fight, I said long ago that the epic copy can't be beaten, now someone shouts his tongue out." Zheng Yuan shouted again, his face full of mockery. Looked at Lu Yang.

If they can't beat the copy, Zheng Yuan believes that Xia Yuwei will never talk to Lu Yang again. Since they will not see each other again after the end of today, Zheng Yuan will take advantage of this opportunity to damage Lu Yang and get back where he was before.

The spirits breeze glanced at Zheng Yuan and said, "Let's try it first, and I will try my best."

Playing boss not only depends on the equipment, but also on the player's technique. Besides, the twilight explanation has passed, and the spirits Qingfeng does not want Lu Yang to be humiliated here.

Xia Yuwei was also dissatisfied with a glance at Zheng Yuan. Her short-sightedness towards Zheng Yuan was speechless. In her opinion, even if it could not beat the epic copy, there were also experts and difficulties. Get equipment like reducing a difficulty.

However, if these two people are present, Lu Yang cannot be offended first. Xia Yuwei said: "I also agree to test once, and I should accumulate experience."

Zhang Zibo understood Xia Yuwei's meaning and said, "I believe in Brother Lu Yang's commanding ability. Let's test it first."

Lu Yang looked at the crowd and said with a smile, "Why are you all unbeatable?"

Everyone thought, you can't beat the muscles on the boss's arm and the N-size stick.

Lu Yang patted Liquor Qingfeng on the shoulder and asked, "If I add 30 points to your defense, you can't resist it."

"Should be fine, if I can add 30 more defense, I should not be a problem against him."

Zhang Zibo said: "Adding 30 defenses, I also feel able to resist him two or three times."

Lu Yang said, "That's good."

He beckoned to Lan Yu and said, "Little girl, come here."

"Ah, why." Lan Yu walked over stupidly.

"Learn this." Lu Yang took it out of his backpack and burst out of the goblin warrior to guard him.

"What book is this?" Lan Yu asked.

Lu Yang said, "This book is called Goblin Guardian. It is a priest's early magic skill. It can add a buff of 30 defense for 30 minutes."

The spirits and breeze are stupid, looking at the book stupidly and saying, "How can there be such a skill book, this, this is too buggy."

Xia Yuwei and others were also stunned. The value of this book, any player can understand, 30 points of defense, it is too precious for the early players.

Lan Yu quickly said, "I can't take this book."

If placed on the auction house, the price of this skill book is at least 2 gold coins.

Lu Yang said, "Hold it up quickly, otherwise this copy will not pass. My brother, I don't have so much time to stay here with you, there are still many things to do."

"Ah? Oh." Lan Yu felt that her head was not enough. She took the skill book stupidly and said, "Then I will learn it first, and I will find a copy later."

Lu Yang said, "That's right."

The spirit breeze gave Xiao Liang a look, and a message said, "Your boss is very skilled in making MM."

"It is indeed my boss." Xiao Liang replied a look that I knew.

After Lan Yu learned the skills, an earthy hexagonal icon was added to the skill bar. After selecting the icon, he aimed his aim at the spirit breeze.

A strong dark brown earth element suddenly appeared around the strong liquor breeze, condensed into a hexagonal shape, and then exploded on the strong liquor breeze's armor.

System Tip: Blue Feather uses the Skill Goblin Guardian to Spirit Breeze.

System Tip: Spirit Breeze is protected by Goblin and its defense is increased by 30 points.

Liquor Breeze opened the property bar and found that there was really 30 points of defense, and said excitedly, "My defense has 133 points, and I have really added 30 points of defense."

"Great, we really have a chance to kill the boss of the epic copy."

“Silver-grade equipment.” Zhang Zibo was also excited.

The members of the team were all excited. The lowest level of the equipment of the epic replica boss burst is bronze, and the highest is the silver. They are the first to play epic replicas in the entire game.

Lu Yang saw the expressions of the crowd and knew that their emotions were mobilized, and commanded: “This boss is not difficult. Everyone can take it easily after listening to my command, and now stand in accordance with my requirements.”

“Leader Luyang, let’s talk, we listen to you.”

“You can fight as you say.”

The players in the team thought that they couldn’t beat the boss at all. Now that they have a chance, everyone is serious.

Lu Yang said: “Except for melee, the mage is on my left, the priest is in front of me, and the hunter and warlock are on my right. The distance between each team and me is 10 yards.”

Although I haven’t played this copy for 15 years, the first copy is always impressive. Lu Yang still remembers how he passed the copy.

Unlike ordinary books ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ this epic book has two stages. When the first stage is 100% ~ 50% blood, the boss only uses pure physical attack. In the second stage, The boss’s health is 50% ~ 0%. At this stage, the boss will randomly release the flower of ice and fire on the ground. The ice slows down and the fire hurts the blood. This stage is the most difficult because the boss will choose the right one first. The player who hits the flower of ice releases the flower of fire. Once he hits the flower of fire, he will die in 2 seconds.

Novice players do not know to avoid when facing the flower of ice. When the flower of flame appears, it is too late to avoid it.

After drawing the position on the ground, Lu Yang said: "Everyone fights once, and everyone who has played ordinary books knows that this boss has no other skills, it is high in physical output, but this is an epic, if there is any problem in the middle Everyone must listen to my command in time. "

He didn't want to tell the boss's skills in detail, so as not to make people doubt. Although the player can solve it in one sentence, there are always days when there are more lies in the lie, so let's just say it, as long as everyone listens to the command It is not difficult to dodge.

"Oh." Lie Qingfeng and Xia Yuwei and others blinked. Some people reacted, while others were still blindly optimistic.

"Since there are no more problems, Blue Feather gives the black armor a goblin guard. Qingfeng starts to blame. Everyone looks at my position and waits for Qingfeng to break the armor three times. Everyone outputs. Let's kill the boss and celebrate." Exclaimed.

#### Chapter 46 - What is fire

"Okay," everyone shouted excitedly.

Lu Yang beckoned and led the team members towards the boss.

Xia Yuwei took a deep look at Lu Yang. From impossible to possible, Lu Yang seemed to have magic power, uniting everyone around him, and letting them play the greatest enthusiasm.

"This person will be able to do things in the future." Xia Yuwei said.

Zhang Zibo and a few other students also nodded. Only Zheng Yuan said with a look of expression: "Isn't it just a skill book? I'll give him money after waiting for a while to start currency exchange."

Xia Yuwei was too lazy to Zheng Yuan, and led the team behind Lu Yang. At this time, the spirits breeze had arrived 30 yards away from Ogre Cliff, ready to charge.

Ogre Cliff did not notice Lu Yang's arrival, and Wu growled from there.

"Damn, why haven't my food come yet, believe it or not, I ate you."

Lu Yang commanded everyone to stand up and said to the spirits Qingfeng: "Open the strange."

"Good."

The Liquor Breeze protected the Dragon Shield in front of him, and launched a charge against Ogre Cliff. With a snoring sound, the Liquor Breeze hit Cliff.

"Damn, somebody dared to break into my realm, and I'm going to kill you." Cliff yelled, picked up the giant wooden stick in his hand, and banged his head against the strong wind of the liquor.

The spirits breeze hurriedly raised the shield.

"Oh ~!"

"-142"

One-third of the blood and blood of spirits and breeze was destroyed.

"Healing will be added soon." Liquor Qingfeng hurriedly shouted, while using skill to break armor to reduce Cliff's defense.

Lan Yu and the other two healers held up their staff at the same time, adding blood to the spirits breeze.

“55”

“47”

“47”

Three healings restore half the health of Liquor Breeze.

Lu Yang shouted: “Don’t be anxious for the breeze, slowly take the boss and turn around, and be ready for the output. After three armor breaks, everyone will fight again.”

To make a copy, the most important thing as a leader is to always shout and let the members know what he should do. Although some words are repeated, many people are nervous about the boss and may make mistakes. At this time, the group These repeated words will make players feel confident.

Five seconds later, the breeze of spirits gave Cliff three layers of armor.

Lu Yang shouted: “Melee output.”

Xia Yuwei and others immediately launched an attack on the boss. Two thieves turned their backs on the boss, and the damage increased by 30% when they output, which immediately became the team’s highest output.

Lu Yang held up his staff and successively released the spell, and Cliff had a five-layer burning buff.

“Don’t stay blue and try your best to output.” Lu Yang said.

“Okay.” Chen Guang and others shouted together.

I was used to the data of more than 50 magic injuries, and suddenly I was able to output about 125 magic injuries. The output of Chenguang and others was extremely fierce.

Lu Yang himself also turned on the output mode of the fire method. At level 8 Lu Yang, under the attribute bonus of all magic bonus points, firer's staff and other equipment, the heart of the demon god, and the gold electric eel cooking, magic damage has 127 points , Critical strike chance is 27%.

After 5 layers of burning, 75 points of magic damage are added, each attack of Lu Yang has about 201 fire damage.

Not only that, according to the rules of "Second World", when the player is in a free state, when attacking a humanoid, he hits the target's head, and the critical strike chance is increased by 50%.

However, it is very difficult to do this. After all, every time the monster attacks, the body will make moves.

But who is Lu Yang, a respawn player with 10 years of fire experience, the last five years of his life was still a killer with a gun, aiming at the size of an ogre's head, quite easy.

"400" (Critical Strike)

"400" (Critical Strike)

"400" (Critical Strike)

A series of three 400-damage crit, the output data instantly surpassed everyone in the team.

Xia Yuwei, Lan Yu, and others have seen Lu Yang pull out the output interface before, and I feel that this method is very helpful to Daguai. They also pulled out this interface. When they saw the output damage of Lu Yang, they couldn't help it. Looked in the direction of Lu Yang.

"What equipment is he on and how can the chance of crit be so high?" Zhang Zibo asked.

“I don’t know, but this level of critical strike chance should not be, there must be some special method.” Xia Yuwei said.

“This person has a lot of secrets, but I think it’s a lot easier to kill the boss this time.” Zhang Zibo said.

While they were discussing, the spirit liquor Qingfeng, who was at the forefront, couldn’t help it, shouting, “Don’t pull it too hard, I can’t pull it.”

“Damn, I’m going to kill you.” Cliff yelled.

Lu Yang shouted as he output: “Don’t worry, if you pull it, he won’t come over.”

Although the output of Lu Yang caused high animosity, but Cliff was a special boss. The ogre’s muscles showed incisively in Cliff’s body. This cargo would not transfer the target at all.

“400” (Critical Strike)

“400” (Critical Strike)

“400” (Critical Strike)

It was three consecutive critical strikes. Only 20 seconds later, Lu Yang’s damage hit 2400 points, which was almost equivalent to the total damage of everyone else.

Liquor Qingfeng thought he couldn’t hold it anymore, but when he saw Lu Yang’s unbridled output, he was relieved and said, “It turns out that this boss has only the first hatred, which is great.”

Zhang Zibo and others also relaxed. It turned out that they were also worried that the boss would shift the target ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Everyone put down their hands and feet. For a time, all kinds of output such as fireball, arcane arrows, and shadow arrows were hit. On the boss.

At the time of output, everyone had the idea of wanting to be the first to hurt, but when they output with all their strength, everyone was shocked to see the damage that Lu Yang hit.

Gorgeous 400 points of damage kept emerging from the boss's head. Only 1 minute later, Lu Yang hit more than 8000 points of damage, which is the sum of the output of the other 11 members.

At this time, Xia Yuwei saw clearly that every fireball skill of Lu Yang hit the boss's head accurately, which caused the critical strike effect.

Half-time Chenguang and others originally thought that Lu Yang could rely on French injuries and high-skilled skills to achieve the first output. After seeing it, everyone admired Lu Yang to the utmost.

"How did he do that, every time he hit the boss' head, why can we only hit the boss' body?"

"That's free mode, he aimed himself."

"What, how is this possible? How could he hit so accurately."

"I don't know, but he must have some way, this man is really a master."

Xiao Liang heard their conversation with a proud expression on his face, and thought to himself: You haven't seen the simplified spell of the boss yet. After seeing it, you will know what a master is.

In less than 3 minutes, Cliff's total blood and blood decreased to about 50%, making everyone a little relaxed.

"This boss turned out to be quite easy."

"Yeah, it's not as difficult as you think."

Lu Yang didn't relax. Seeing that the boss's blood volume dropped below 50%, Lu Yang began to observe Cliff's left hand.

"Humble human, try Cliff's anger." Cliff's left hand, without arms, suddenly burst into a ball of ice energy, and threw it towards the place where Blue Feather was.

"Lan Yu quickly stopped and avoided Cliff's skills." Lu Yang shouted.

Lan Yu's casting action has been halfway through, and he was still hesitating. He heard Lu Yang's words and ran a few steps to the right to avoid his skills.

The ice energy fell in the form of a parabola at the position where Lan Yu was just now, and with a bang, it turned into a puddle of water.

"What kind of skill is this? It doesn't feel lethal." Lan Yu asked.

"Is it a slowdown skill?"

"He doesn't have a second hatred, it doesn't make sense."

Everyone was puzzled.

Lu Yang shouted: "Everyone don't care, the boss skills are not junk. They must be useful. Remember, everyone must avoid the skills when they see them."

“Where are we close?” Xia Yuwei shouted.

“Hide in close combat,” Lu Yang said.

Xia Yuwei made a sound and became cautious, Chen Meng and other mages also began to be cautious.

After 10 seconds.

Cliff’s right hand once again condensed a mass of ice energy. This time, he smashed towards the landing sun, and Lu Yang ran two steps to the left to avoid the ice energy.

However, there was another puddle of water on the ground.

Zheng Yuan saw Lu Yang’s movements, with a disdainful expression on his face, and thought to himself: “There is nothing to worry about just a slowdown skill.”

Coincidentally, after the next ten seconds, Cliff had a mass of ice energy in his hands and threw it towards Zheng Yuan.

“Hide fast.” Lu Yang shouted.

Zheng Yuan happened to be in the process of casting. He ignored Lu Yang and stood in place to wait until the fireball hit him before he wanted to leave, but it was too late to leave at this time.

With a bang, Zheng Yuan added a buff.

System Tip: You are hit by Frost Energy and your movement speed is reduced by 70%

“Oh, my food, your body has been cleaned by me, so let me cook you up and eat it.” Cliff’s left hand suddenly condensed a hot flame of energy, according to Zheng Yuan thrown away.

Zheng Yuan had a terrified expression on his face, and hurried toward the side. However, Zheng Yuan was reduced by 70% of his moving speed, ran away as slowly as a snail, and was hit by flame energy.

A burning flame rose from under Zheng Yuan’s feet.

“100”

Zheng Yuan had less than 90 points of total blood and was directly burned to death.

“The damage is so high?” Zhang Zibo marveled.

Lu Yang shouted: “Everyone must be careful, no one will hit the water polo.”

He was worried that too many dead people would not output enough.

Xia Yuwei and others nodded one after another. After seeing the boss’s skills, no one took the polo lightly.

Continue to output, and soon, the boss’s blood volume dropped below 10%. Looking at the boss’s blood volume less than 5000 points, everyone’s face showed an excited expression.

“Great, we are going to succeed.”

“It’s really going to be killed.”

Xia Yuwei’s face also showed an excited expression, but this time, Chenguang suddenly shouted at this time: “Head, I’m out of blue.”

“Me too. I can’t use fireball.”

“I’m gone too.”

“Mine is gone too.”

The magic of the four mages has run out, in fact, their magic should have been gone, but just during the output process, Cliff threw the water polo many times to them, making them have to stop the output and dodge. .

Lan Yu said, “My magic is almost gone.”

Seeing that the blood of the boss has become 9%, 8%, and 7%, if the priest is no longer blue, no one will add blood to the war and it will be impossible.

Xia Yuwei saw this situation and gritted her teeth and shouted, “All melees must step up their output, and they must kill the boss.”

The epic boss has a great chance to produce silver equipment. Even if all 20 people in the regiment are dead, as long as they can get the equipment, it is worth it.

“Come on.” Zhang Zibo and others also understood this and shouted together.

But as soon as the words fell, Cliff’s blue ice hockey dropped to the ground.

Liquor Qingfeng and Xia Yuwei and others jumped away in a hurry.

A snoring sound formed a blue circle around Cliff.

At this time, the blue feather is no longer blue, and the blood of the spirit liquor Qingfeng has less than 300 points left. If he continues to resist the monster, it will undoubtedly die. Gritted his teeth and prepared to continue using taunt.

At this moment, Lu Yang suddenly shouted: "The spirits and breeze withdrew, the black armor taunted and opened the shield wall."

"It's finally here for me." Xiao Liang roared at Cliff, and Cliff was about to run towards the strong breeze, just halfway, turned around and chased after Xiao Liang, and came to the front photo Xiao Liang is a stick.

"Shield wall." Xiao Liang obliquely inserted the shield into the ground, hiding his entire body in the shield.

With a bang, the wooden stick hit the shield. Just when everyone thought Xiao Liang would be hurt by more than 170, a red 102 emerged from the top of Xiao Liang.

"Why so few?" Liquor Qingfeng asked.

"This is the defensive skill shield wall of the shield war. I will explain it to you in detail later." Lu Yang shouted: "Xiao Liang don't move, there is water all around you."

Xia Yuwei and others saw Xiao Liang pull the monster and wanted to come out. As a result, Cliff lost three water polo to seal the road, and melee professions such as Xia Yuwei could only stand outside and couldn't output.

"It's over, we can't get in, what can we do?" Zhang Zibo shouted.

There is no blue in the long range, and it is impossible to enter in close combat. Xiao Liang who opened the shield wall counts up to 10 times to take medicine, but the boss's health is only 4%.

Xia Yuwei, Zhang Zibo, and others showed desperate expressions on their faces, but at this time, a fireball technique hit Cliff's head precisely.

“400” (Critical Strike)

Xia Yuwei and others glanced sideways and found that Lu Yang had just put the medicine bottle in his backpack into his backpack, and the second fireball had been shaped from his hand.

“call”

Another fireball hit the boss’s face.

“400” (Critical Strike)

Boss’s HP has become 3%, 1200 points.

“Lu Yang still has blue, come on.” Lan Yu shouted excitedly.

“Come on,” Chenguang shouted.

“Come on,” Zhang Zibo shouted.

“Come on,” Xia Yuwei shouted.

As long as Lu Yang has three more fireballs, the boss is dead, and the boss has finally found Lu Yang’s position. When the boss has 2% blood left, he throws a water polo towards the landing sun.

Seeing the water polo in the form of a parabola towards the landing sun, Xia Yuwei and others shouted: “Hide.”

Lu Yang also knew that he should hide, but he could not hide, at this time Xiao Liang’s blood was less than 200 points, and the boss could kill Xiao Liang in two more times.

In order not to let Xiao Liang lose his experience, Lu Yang decided to show the following operation of his fire method.

“Brothers hold on, brother I will never let you lose experience.” Lu Yang shouted.

Xiao Liang had 10,000 confidence in Lu Yang. Seeing his blood was getting less and less, his heart was not shaken in the slightest, and he remained firmly in front of the boss.

After 1 second, the water polo exploded on Lu Yang’s body. If Lu Yang hid, the boss would definitely follow Xiao Liang as a stick.

At that time, even if Lu Yang killed the boss, Xiao Liang would die. Now, Lu Yang hits the water polo, and the boss’s next attack becomes throwing a fireball.

“Oh, my food, I’ve washed your body for you, let me cook you and eat it.” Cliff had thrown fireballs at the landing sun with only 1% blood left. .

The small fireball shining red was also thrown towards the landing sun like a parabola. The moment the operation burned to death, a burst of white light appeared from Lu Yang’s body.

“flicker.”

When Lu Yang played the fireball technique, he flashed onto another pool of water and entered a deceleration state again.

Cliff had more than 100 points of blood left. After throwing the fireball, Cliff smashed Xiao Liang again. Now, as long as there is another stick, Cliff can kill Xiao Liang, but again in Lu Yang Stepping on the water stain, Cliff set the attack target on Lu Yang’s body again.

However, just as he condensed the element of fire, Lu Yang’s fireball stroked a beautiful fiery red straight line in the air.

A “swipe” hit exactly Cliff’s head.

“400” (Critical Strike)

Cliff’s eyes suddenly became empty, half of his left arm had been raised, and he fell vertically, leaning back, and fell to the ground.

System prompt: Cliff is dead

System prompt: you have gained 4128 experience

System Tip: The team led by Lu Yang successfully killed the epic copy Cliff, loaded into the official history of Second World, congratulations to all players in the team.

A series of three system prompts almost cheered everyone excited that hadn’t been relieved from the killing of Cliff.

Chapter 48 - Heavy Armored Warrior

“We succeeded!” Lan Yu shouted.

“Really successful, great, epic boss.” Liquor Qingfeng said.

Xia Yuwei and Zhang Zibo’s team members were all excited.

Once upon a time, they thought that they could get through to the ordinary ogre Cliff, but Lu Yang took them to the epic level.

The thought of the equipment may be silver, everyone's eyes changed to Lu Yang.

"Master, look at the equipment." Xia Yuwei said.

In a team, only the head of the team is eligible to open the equipment. Before Xia Yuwei opened the equipment, now Xia Yuwei willingly lets Lu Yang go.

Lu Yang didn't give up. The bosses that needed 2,000 people to kill together in his last life were all equipped by his commander, and this life is no exception.

Of course, although Lu Yang was often scolded by black brothers in the last life, Lu Yang felt that his luck was good after he was reborn.

When I came to the boss, I chose the pickup interface, and a white and silver light shone across the audience.

"Silver!" I didn't know who shouted, and everyone's eyes were green.

"Who's outfit."

"Mage's or warrior."

"Thieves, they must be thieves."

"Hunter's, hunter's."

...

Listening to the familiar voice, Lu Yang could not help but smile, and turned to the crowd and said, "It is a silver-level shield for anti-war use."

Lu Yang shared the shield's data to everyone.

Cliff's Shield (Silver)

Defense 7-22

Strength +2

Constitution +3

Block value +8

"The defense is so high, the shield against the young dragon is actually a level." Liquor Qingfeng said in surprise when he saw the shield attributes.

Xia Yuwei and Zhang Zibo saw that the attributes of the equipment quickly came to Lu Yang. Xia Yuwei said: "Mr. Lu Yang, this shield is too precious. We will not take it for nothing. I would like to buy this shield for 3,000 yuan. "

Zhang Zibo nodded again and again.

Lu Yang was about to give Zhang Zibo, and when he heard these words, he asked, "Where does this come from and how can I give me money?"

Zhang Zibo did not answer, but just said seriously: "With this shield, I can resist the death caves below the epic level, which is very important to us. I hope you can buy us."

Lan Yu also said, "Yeah master, sell it to us."

Lu Yang looked at Lan Yu speechlessly and said, "Little girl is picking something up and going."

"You ..." Lan Yu raised her mouth, and went to the side with anger.

Lu Yang looked at the nervous Xia Yuwei and Zhang Zibo and said, "Have you forgotten your previous agreement? I said that the master's equipment belongs to me, and the rest is yours."

He donated a shield to Zhang Zibo.

System tip: Player Lu Yang gives you Cliff's shield

"You, really give it to me for free?" Zhang Zibo did not expect that Lu Yang was so generous.

Xia Yuwei was also surprised, saying, "Mr. Lu Yang, but, but."

Lu Yang said, "It's nothing to be irresistible. It's not about money, it's about credit."

Xia Yuwei and Zhang Zibo were convinced. Lan Yu admired Lu Yang even more.

Lu Yang clapped his hands and said to everyone, "Okay, everyone is rested in situ. After we recover, we continue to set out to fight for the death cave within an hour."

"Okay." Zhang Zibo and other team members responded.

If everyone had doubts about Lu Yang before, after beating Cliff, everyone had full confidence in Lu Yang.

“Well, commander, Zheng Yuan is still lying on the ground. Should we rescue him?” A soldier in the regiment asked.

Xia Yuwei and others then remembered that Zheng Yuan was burned to death by the boss because he did not listen to the command.

“We didn’t have resurrection, let him run in.” Xia Yuwei said, holding on to the anger.

“OK.” The soldiers in the regiment sent Zheng Yuan a message.

Zheng Yuan was standing outside the replica at this time. According to the rules of the game, members of the replica could not enter during the battle.

After getting the news, Zheng Yuan ran in, but when he came to the crowd, he saw that the boss was killed, and the expression on his face fluctuated.

Lu Yang was too lazy to talk to Zheng Yuan and said to everyone, “Everyone recovers and we continue to set off.”

“Okay.” Zhang Zibo and other team members stood up excitedly and continued to move forward with Luyang.

Zheng Yuan thought that Lu Yang would bother him, but he did not expect that Lu Yang would ignore him, and he was quite happy.

Quickly came to Xia Yuwei’s side and said, “Yu Wei, I just bought the mage’s flashing skills and fire ring resistance skills at the door. Now my ability is the same as that of Lu Yang.”

Xia Yuwei ignored Zheng Yuan. Zheng Yuan was boring and wanted to find Lan Yu. Lan Yu also came to Lu Yang’s side.

“Isn’t that just killing a boss? What’s so amazing.” Zheng Yuan said unhappily.

Zhang Zibo heard Zheng Yuan's words and sighed. He was too lazy to talk with Zheng Yuan.

Passing through the wooden door of the cave hall, a pedestrian came to a wide natural tunnel.

To the right of the tunnel is an underground dark river, and on the left is a mountain. Every 3 meters or so, a torch on the mountain lights up the surrounding area.

"There are 8 human-shaped heavy armored soldiers in front. Be careful." The thief who went to explore the road ran back and said.

Heavy armored warriors are the main fighting force of the Fars Empire. The so-called heavy armored warriors are similar to the medieval European generals who wore plate armor and had large shields in their left hands and lances in their right hands.

A group of people stood at the entrance of the tunnel and looked at eight heavy armored soldiers 30 yards away. Liquor Qingfeng said in surprise, "Why are they all elites of level 5."

Xia Yuwei asked: "Isn't this the case for ordinary books?"

Liquor Qingfeng said: "Of course not, there are only 3 ordinary monsters in ordinary books."

"What can we do, we can't beat the 8 elites."

The output of 3 elite monsters is the same as that of the boss, and there are 5 more elite monsters. Even if the team has three defenses, the healing of the mage cannot be added because one defense requires three priests to add blood, and There are only 5 priests in the team.

Xia Yuwei looked at Lu Yang and asked, "Otherwise, let's go back, and we'll be content if we can beat Cliff."

Zhang Zibo also said, "Yeah master ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ this is really difficult."

“Don’t worry, let me think of a solution first,” Lu Yang said.

This level in front of me has stumped countless players in my last life. Even if a union is a master of bronze equipment and black iron equipment, it is difficult to beat it.

However, after a fire player posted a video, everything was not difficult.

The fire player’s level is already level 6, which is far higher than this level, but because he has no equipment, he has to follow the group to brush this copy, but this level he can’t get through and is stuck. Three days later, this fire player found a way.

On the side of the tunnel near the mountain, there is a drainage groove on the ground nearly half a meter deep.

As the saying goes, how high the mountains are and how deep the water is, there are dense fissures in the mountains, and these fissures are full of water.

When it rains, these fissures will be filled with rainwater. If there are no caves inside the mountain, these waters will exist. If there are caves, the water will flow down the fissures.

This bug uses a drainage tank. When 8 heavy armored fighters come over, the fire method uses a fire resistance ring to force the heavy armored fighter to collapse into the drainage tank.

The depth of the drainage tank is about 30 cm and the width is 20 cm. After the heavy armored fighters have just crashed and flew to the drainage tank, the plate armor boots under their feet will be stuck in the drainage tank. attack.

## Chapter 49 - Sacred art

However, in order to use this bug, the fire method is very demanding, and speed, angle, and timing must be grasped.

Lu Yang hasn't used this bug for a long time. While the heavy armored soldiers were patrolling, Lu Yang walked to the sink in front of him and looked back. After finding a reasonable position, he returned to the team.

"How is it, is there any way?" Liquor Qingfeng asked, feeling instinctively that Lu Yang had found a way.

Xia Yuwei, Zhang Zibo and others also looked at Lu Yang.

Lu Yang said, "We have found a way, and everyone is ready."

Members of the team set up the battle formation, and Xia Yuwei asked, "How to fight."

Lu Yang didn't speak, watching the two lines of heavy armored soldiers lining up to the position he had just set. He looked over at Xia Yuwei with a smile on his mouth and said, "The play is very simple."

With a flash of white light, Lu Yang disappeared from Xia Yuwei's eyes. The next second, in the horrified eyes of everyone, Lu Yang actually appeared in the middle of two heavy armored soldiers.

"This?" Everyone looked silly.

"The enemy attacked and killed the invaders." The heavy armored fighters immediately found Lu Yang. The two columns of heavy armored fighters turned at the same time, and eight pure steel spears shot at Lu Yang's body together.

Elite monsters at level 5 have a third of the attack power of bosses, Lu Yang's defense power is less than 15 points, and the total blood and energy is less than 300 points. If they are hit by 8 spears at the same time, they will definitely die.

Just when Xia Yuwei and others thought that Lu Yang was about to be shot to death by a spear, Lu Yang was short between the light and flint, with a spell in his mouth, and a fiery red halo emerged from Lu Yang's body and rushed towards him. All around.

“Resistant Fire Ring”

With a bang, the two left and right rows of heavy armored soldiers affected by the red halo were collapsed on the right side into the underground dark river, and the left side was collapsed into the water tank, and they couldn't get out.

Liquor Qingfeng and Xia Yuwei and others shined.

“You can still do that!”

“Pretty, a pen from God.”

Lu Yang said: “The breeze and the black armor are ready. After four heavy armored fighters landed, one resisted two.”

“Good grin.” Liquor Breeze carried a large shield and charged one of the heavy armored soldiers who was about to land ashore, then turned his head to taunt the second heavy armored soldier who was ashore.

Xiao Liang did the same, carrying the other two blame.

Lu Yang said, “Give the spirits a breeze for 5 seconds, and everyone would fight with me.

He marked the strange head with a triangle symbol, which is a special feature in the game, which allows team players to clearly understand the meaning of command.

Twelve people output together. Four heavy armored fighters were killed by Lu Yang in less than 3 minutes. On the other side, the remaining four heavy armored fighters were still stuck in the sink.

“Great, it’s too easy to play now.” Zhang Zibo said.

“Don’t we have to fight against these 4 blame.” Liquor Qingfeng asked with a smile.

Lu Yang said: “Of course not, they can’t fight if they can’t get out. After the melee retreats, the mage slowly outputs, don’t worry.”

“Understood.” Chen Shiguang and other 4 mages said together that their blues were not much anymore. If they were resistant to the output of 8 elite monsters, their blues would not be enough. Now they are fine. Slowly wait for the magic to recover before attacking again.

“Master, you are so amazing that you can think of this approach.” Lie Qingfeng stood admiringly aside.

Xia Yuwei also said: “It’s really powerful. It can be done by you. It is estimated that there are not many people in the entire game now.”

The spirits breeze shook his head and said, “I’m afraid there is only the Luyang brothers. At least we have more than 100,000 people together with the Zijin Dynasty and the supreme dynasty of the hegemon. No one has such strength.”

Lan Yu and Xia Yuwei both looked at Lie Qingfeng in surprise. They did not expect that Lie Qing Qing praised Lu Yang so high.

“I did n’t say anything, it ’s true. You may have come into contact with the free mode. Our boss knew about the free mode long before he started serving. After entering the game, a few of us selected by the boss have been practicing the free mode. Before, I was able to resist the boss, thanks to the free mode, but even so, Brother Lu Yang ’s pen of skill, neither us, nor the master of the tyrants of the union, could do it.” Lie Qingfeng said.

In fact, the words of strong liquor Qingfeng did not say everything, what he really wanted to express was the timing of Lu Yang's flashing cut and the angle chosen by the release of the fire ring.

Lu Yang tilted his body to release the fire resistance ring after squatting. Only by doing so can the heavy armored soldier collapse into the sink, and the choice of this angle is quite difficult. If it is too large, it may be collapsed and fly to the wall. Bounced back, small, can't blame the sink.

Lan Yu looked at Lu Yang in surprise, and said, "Master, you are so good."

Lu Yang said: "How can breeze say so powerfully, it's just a little trick and it's overwhelming."

Liquor Qingfeng smiled and didn't talk any more. He had made up his mind to send the entire video to the old man at the end of the copy, so that all the guild masters in free mode could practice this action.

Soon, four heavy armored soldiers stuck in the sink were also killed, and everyone continued to move forward.

After walking a little further, the head of the spirits Qingfeng said: "There are 8 heavy armored warriors in front, and they have to bother the Luyang brothers."

Lu Yanggang was about to agree, and there was a sigh of breath behind him.

"Slow."

Lu Yang and Liquor Qingfeng and others looked back and found that the speaker was Zheng Yuan.

"Any questions?" Liquor Qingfeng frowned.

Xia Yuwei asked her temper, "What do you want to do?"

Zheng Yuan saw everyone watching him, and was very proud. He walked in front of Lu Yang and said, "I just heard what you said just like how difficult your trick is ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I want to try it. "

Xia Yuwei frowned suddenly and said, "Zheng Yuan, what are you doing?"

Lan Yu also said: "Zheng Yuan, let the master brother go, this is too dangerous."

"Isn't it just a flash and a ring of fire resistance? It's not difficult. I also have these two skills." Zheng Yuan said uneasily.

He found a problem. Not only Lan Yu, but Xia Yuwei also got closer and closer to Lu Yang. Now he looks at Lu Yang just like his enemies, and can't wait to step on Lu Yang in every way.

"If you have no opinion, I'll go and ask you to make a concession." Zheng Yuan said.

Lu Yang couldn't help but said, "Okay, then you go, but I told you that you can't do this. Don't blame me if you die."

"How difficult it is to say." Zheng Yuan glanced at Lu Yang arrogantly and walked towards the eight heavy armored soldiers.

Lu Yang shook his head and said to everyone in the group, "Everyone step back a bit."

"Why?" Xia Yuwei asked.

"If you step back, the soldiers won't be able to answer the blame in time." Zhang Zibo asked.

Xia Yuwei, Zhang Zibo and others have not tried the free mode, and it is not clear where Lie Qingfeng praised Lu Yang just now. They thought Zheng Yuan could also succeed.

Lu Yang said, "Trust me, he can't."

## Chapter 50 - You can't learn

"Why?" Xia Yuwei asked.

Lu Yang wanted to tell her that he had deliberately practiced this trick for three months before he mastered all the angles and distances. Zheng Yuan was able to successfully see it all at once, and besides, resisting the fire ring can only explode to a level lower than his own. Zheng Yuan is now level 3, and the strange is level 5. Zheng Yuan's resistance to the fire ring is actually invalid for the strange.

As he was about to explain, Zheng Yuan shouted in front: "You are ready, I'm starting."

With a flash of white light, Lu Yang and Xia Yuwei and others watched Zheng Yuan jump to the face of the heavy armored soldier ...

"An enemy attack." The shield in the hands of the heavy armored warrior flared up, according to Zheng Yuan, a shield strike.

Shield Strike: Hit the opponent's face fiercely with a shield and stun the target for 2 seconds.

Zheng Yuan was in a coma for a moment, and then Lu Yang and Xia Yuwei and others watched Zheng Yuan being hit by 7 spears at the same time.

System prompt: Player Zheng Yuan is killed!

Xia Yuwei: "..."

Blue Feather: "..."

Zhang Zibo and others: "..."

Breeze Breeze: "..."

Lu Yang shrugged his shoulders and said, "It looks like he didn't learn the basic flashing movements."

Liquor Qingfeng covered his stomach and said, "I can't help it, I jumped to the strange face, this is too bad."

Xia Yuwei's embarrassed face was all red, this time Zheng Yuan was ashamed of him and left home completely.

"Sorry, it's delayed your time." Xia Yuwei said.

"It's okay, it's okay, let's wait for him." Lu Yang should adjust his mood.

Xia Yuwei gave Lu Yang a grateful look.

Not long after, Zheng Yuan ran back from outside the copy and saw everyone waiting for him, saying, "I just lost my hand, I'll come back."

"You are still here." Xia Yuwei was anxious.

"It was just an accident just now, Yu Wei, you believe me." Zheng Yuan said.

As soon as Xia Yuwei was about to speak, Lu Yang held out his right hand and made a pleased gesture, saying, "Continue."

Xia Yuwei swallowed and said, "Be careful then."

"Rest assured this time, I'm absolutely fine." Zheng Yuan once again came to the previous position, and after a long time, he launched the flashing skill.

This time Zheng Yuan successfully jumped among the eight heavy armored fighters, but he jumped a little behind.

"Enemy attack" The heavy armored warrior who walked in the front turned back to Zheng Yuan to launch a charge of skills.

Zheng Yuan was stunned before he could use it to resist the ring of fire. Later, Xia Yuwei and Zhang Zibo and others saw Zheng Yuan killed by eight spears again.

Everyone: "..."

"Poor," said Liquor Qingfeng.

"How can this strange charge?" Xia Yuwei asked.

"When the master went in just now, I didn't look at the charge." Zhang Zibo said.

Liquor Qingfeng laughed and said, "Which warrior does not charge, what skills do we have, and what skills do NPCs have?"

"Why didn't you blame the master?" Lan Yu asked curiously.

Lie Qingfeng said, "That's because the timing of Brother Lu Yang's cut was too precise."

Xia Yuwei and Zhang Zibo were confused.

The spirits breeze shook his head and said, "Do you know what a limit card is?"

Xia Yuwei, Zhang Zibo and others were still blank.

Liquor Qingfeng said: "You don't even understand this PK technology, you dare to set up a studio, I have to admire you.

Forget it, let me explain to you, the so-called extreme card slot is stuck on the extreme distance of the player's skills.

For example, the soldier's charge skills, according to the rules of the game, the soldier's charge skills are the longest distance is 30 yards, the closest distance is 2 yards.

If the player can get stuck beyond 30 yards, the soldier can't charge. Similarly, if the player can get stuck within 2 yards, the soldier can't charge. Zheng Yuan thinks he has just jumped, but he doesn't know he just jumped to At a position 2 yards away from a heavy armored warrior, it was strange that the NPC did not charge immediately. "

"I still have this statement." Lan Yu said in surprise.

The spirits breeze nodded and said, "Of course, you thought that Lu Yang's jump was very simple. In fact, it requires very sophisticated skills, and even if you jump in, there are angles. Have you considered why Lu Yang is short? Is he leaning to release the ring of resistance, he is looking for an angle. Do you think Zheng Yuan knows how to find an angle? "

Xia Yuwei, Zhang Zibo and others suddenly realized that when they looked at Lu Yang again, Xia Yuwei's eyes contained something different.

Zhang Zibo said: "It turns out there's so much inside here."

Liquor Qingfeng said, "Of course, don't forget, we are now playing epic copies, which are the top copies that even our Zijin Dynasty dare not touch."

Xia Yuwei, Zhang Zibo and others came to their senses one after another, and they found that they too underestimated this copy and overestimated their abilities. It turned out that they were able to go to the present, all by landing sun.

Coincidentally, Zheng Yuan ran over from a distance. However, the expression on his face was ugly and terrible. He failed twice in a row. He felt very shameful.

“Yu Wei, let me ...” Zheng Yuan didn’t wait to finish speaking, Xia Yuwei interrupted, “Zheng Yuan, you can’t learn this method for the time being, don’t waste time.”

Zheng Yuan felt embarrassed. He didn’t expect Xia Yuwei to talk to him in front of so many people, and suddenly said, “Why am I losing time.”

“You have failed twice. We have no time to accompany you here. You go to the side and let Lu Yang come.” Xia Yuwei said.

“Xia Yuwei, you are too much. I have endured you for a long time from the copy to the present. Everything you do is biased towards that Lu Yang, isn’t it just a copy? See how you compliment him. You still plan to show your respect.” Zheng Yuan said without hesitation.

Xia Yuwei’s face suddenly became extremely ugly ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ How could she never think that Zheng Yuan could say such a thing.

“Zheng Yuan, you get me out of this team. My Xia Yuwei doesn’t need a teammate like you.” Xia Yuwei angered.

“Just go, I’m not rare yet.” Zheng Yuan took out the back to the city roll and flew back to the main city.

The scene was instantly embarrassing.

Lu Yang was also embarrassed. He didn’t expect that Zheng Yuan could \*\*\*\* to the extent that he said, “Well, sorry, I didn’t expect to make you in trouble.”

Xia Yuwei shook her head and said, "I don't blame you. It's Zheng Yuan who has problems."

Zhang Zibo and others did not speak for Zheng Yuan this time. Lu Yang has endured Zheng Yuan many times along the way. Now Zheng Yuan himself resigns because of shame, and does not do Lu Yang at all.

"Master, let's continue." Xia Yuwei said.

Lu Yang nodded, a white light lit up and flashed to the middle of the two heavy armored fighters.

"Resistant Fire Ring"

One team of heavy armored soldiers crashed into the sink, and another team crashed into the underground river.

"The breeze and the black armor are ready to pick up monsters." Lu Yang shouted as he ran back.

Xia Yuwei, Zhang Zibo, and others watched Lu Yang again in one go to make this set of moves. Several people had the feeling of looking at art.

"It's perfect," Chenguang said in the half-life.
