

Wild Fire 421

Chapter 421 - Red rock mountain

Lu Yang nodded.

Bring the men into the airship in batches.

Each airship can only carry 30 people. Fortunately, there are 10 airships. Lu Yang took the first 10 airship players into the air.

Each airship has Xia Yuwei and muddy wine on them.

After half an hour.

Above the airship.

“Strange, why is the boss so arranged?” Zhang Zibo asked.

Zhuoju poured his eyes and looked at the distance and said, “Did you not notice that the airship is flying in the same direction as we normally do?”

System prompt: You have entered the orc territory

Zhang Zibo’s \*\*\*\* big characters surprised his eyes wide, and the turbid wine poured out a surprised expression.

“We turned out to beasts.” Zhang Zibo said.

Zhuoshu poured his chest full of excitement, and said, “The boss is so divine that he is too brave to dare to take us to the orc territory.”

Orcs and Terrans are officially life and death enemies, and killing local systems after meeting each other will give them honor.

Since the beginning of the game, players of both races have spit each other on the forum more than once, and they have vowed that once the races of the two races are opened, the first one will destroy the other.

If orc players are found to have more than 3,000 players in orc territory, their group will surely be wiped out by the major orcs guilds.

“The camouflage coat can be used a total of three times, just two times, and the last time, it seems that the boss understands that this last time is used back to the city.” Zhang Zibo said.

Muddy wine nodded.

After 20 minutes.

The spacecraft landed in Nakonaru, a small town on the border of the orcs. There are currently no players here to upgrade.

Immediately after landing, Xia Yuwei, Zhuojiu Qingli, and Bai Sanxiong all rushed to Lu Yang, each with an excited expression on his face.

The white lion said, “Boss, at this time you can tell us the purpose of this visit.”

Lu Yang said with a smile: "Of course, don't hide from you. The purpose of my visit this time is to kill the cousin of Liu Jie's cousin, and by the way, I will give you some honors for some equipment."

"Kill Liu Jie's cousin?" Bitter Ai asked for a long time: "Boss, where can we find Liu Jie's cousin? I'm not familiar here."

Lu Yang said with a smile: "Who tells you that I'm not familiar with my life. As early as the beginning of the game, the boss I laid out here with the orcs, and my understanding of the map around the orcs is not inferior to that of humans."

People such as Xia Yuwei and Muddy Wine Poured Scalp.

"Boss, don't you have a guild here?" White Lion asked, scratching his head.

Lu Yang nodded and said, "Yes, Sirius Legion is my guild, I just bought it yesterday."

Furball clutched her hair with excitement and said, "Is that the Sirius Legion that resisted the Longxing Guild for more than 10 days?"

"Yes, Sirius Army and Longxing Guild have been fighting for 10 days. At 8am this morning, Longxing Guild launched a general attack on Sirius Fortress." Lu Yang used three projections to point to the middle of Sirius City and Sirius Fortress. Hongshishan said: "This is the way they must go, boss, I will take you to a wave of ambush."

The White Lion asked, "Boss, how many people are there from the Rising Star Guild?"

"No less than 200,000 people," Lu Yang said.

After half a lifetime of bitter love, he looked back at the 140 sub-forbidden mages who just got off the airship and said excitedly, "Boss, you have a beautiful move."

Lu Yang said with a smile: "There are more beautiful ones. I'll tell you later when I go back. Yu Wei and Zhuojiu bring Zibo and wool balls. They stay here to organize the team. I take the others back to Salo City. Continue to lead. "

"Yes." The crowd agreed, and at three o'clock in the morning, at this time, Zhuojiu and Xia Yuwei no longer had the slightest pajamas, and everyone was excited.

On the other side.

Shooting Sirius also woke up, sitting in a daze on the city head.

Lingfeng and Yueman came together to sit next to him.

"Boss, don't sleep yet."

"Boss, don't fall in love. Even without this fortress, our brothers won't leave you. Big deal, let's start again from scratch, something." Ling Feng said.

Shooting Sirius revealed a mysterious smile and said, "I don't have to feel uncomfortable, and I'm very happy now."

Ling Feng said in surprise: "Boss, are you okay?"

Shooting Sirius was speechless, saying: "Of course it's okay, let's go to rest, tomorrow we will have a good time with Luo Cheng."

The two felt strange shooting Sirius.

Ling Feng quietly sent a message to Yuemantian and said, "Let's go, let the boss calm down first."

The moon nodded and replied: "It's useless for us to persuade him. I can't go to the old man tomorrow and have a drink with him."

The moon nodded and the two left.

Shooting Sirius didn't look at the two of them, but he fixed his eyes firmly in the direction of Hongshishan.

8:00 am.

The Sirius who sat on the city head for a night stood up to the morning light, and looked at the dew on the armor with a smile on her face.

The 100,000 Sirius players have gradually logged into the game and are gathering in the outer city according to their respective teams.

"Boss, everyone is here," Moon said over the sky.

Shooting Sirius nodded and said, "Follow me to the podium."

The 100,000 Sirius players in the outer city are whispering, and everyone is worried about the future of this guild.

"Zhenwo fire, the fortress was so lost."

"If you really rely on strength, Luo Cheng's Long Xing Guild will be nothing. A group of people will know how to smash it with money."

"The fortress had him snatched, and I did not leave the guild. I believe that Sirius will be able to take us back. We are just prepared without enough enemies."

“Yes, we can’t leave the guild. Sooner or later we will come back with the boss to get revenge.”

...

In the noisy sound, as the shooting of Sirius in the city appeared, the sound came to an abrupt end, and everyone looked up at Sirius.

“Boss, let’s just say that if we want to desperately work with the Long Xing Guild, we will fight with them today.”

“Fight with them.”

...

Shooting Sirius’ eyes was a little moist, and he said excitedly, “Brothers, I can have a group of brothers like you. I have been content with shooting Sirius in my life, and everyone has seen that the fortress can’t keep it. Today, we are not in the fortress Hit, I will take you out of the city and Luo Cheng fight them once, dare you. “

“Dare, what dare not, big deal to re-level, re-equipment.” Ling Feng shouted loudly.

“It’s a big deal to replay, the account can be bad, the boss has only one.”

...

Shooting Sirius listening to his brothers’ shouts and holding back tears, he had to be fortunate, but fortunately sold the guild to Lu Yang, otherwise, he was really sorry for the brothers.

“Okay, listen to my orders, head to Red Rock Mountain, where we fight with them.” Shooting Sirius jumped off the city wall with a full moon, Lingfeng, Aihuahuaxiang, Autumn Wind Lonely Shadow and other legion leaders. Walking outside the city.

One hundred thousand players followed.

On the other side.

Luo Cheng also assembled his troops. 250,000 players from the guild and 30 players from 3 affiliated guilds neatly set off from Sirius and entered the Woye Plain.

“Boss, today you are going to attack.” Savage said excitedly.

Luo Cheng smiled proudly and said, “This morning, the four consorts of the Wolf clan have agreed. Each family will no longer guard against each other. The whole army will be dispatched to win the fortress. Later, we will talk about it later.”

Ghostblade said: “It looks like several other companies have reached the critical moment.”

Luo Cheng said, “Regardless of them, now that we can dispatch the entire army, today I will tell and tell how easy it is to destroy Sirius.”

Everyone laughed.

Drop by drop.

The communicator sounded, Luo Cheng picked it up and saw that it was Liu Jie. He immediately pressed the connection button and said, “Brother, what is it?”

Liu Jie asked with a smile: “I heard that you are going to launch a general attack today. How about it, can you take it down?”

Luo Cheng said loudly, “Brother, rest assured, I will win the Sirius Fortress within three hours, and I will be happy to you as soon as possible.”

Liu Jie said with satisfaction: "Very good, I wait for your good news ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Yes." Luo Cheng said excitedly.

Seeing that the call had been hung up, Luo Cheng shouted loudly: "Listen to my order, the whole army will accelerate, and the vanguard will report to me the situation ahead."

In the army operation, in order to prevent being ambushed, Luo Cheng arranged a 100-person army to move in front, and the fastest team that has run has arrived at Red Rock Mountain.

"Chairman of the report, under special circumstances, shooting Sirius took his 100,000 troops out of the Sirius Fortress, and is gathering in Hongshishan." The men's meeting reported.

Luo Cheng hesitated and asked, "Are you sure you shot Sirius with all 100,000 troops out of Sirius Fortress?"

"The spies who stayed in the fortress reported that the fortress had only 1,000 old, weak, and sick, and the remaining 100,000 people had come out. I checked with their team and determined that it was more than 100,000 people." Reports from the staff.

Luo Cheng said confusedly: "The evil gate, what is the purpose of shooting Sirius? Do you have to fight against me in Hongshi Mountain?"

Brutal rushed to the side and heard the report from his men, saying, "Don't you shoot Sirius know you can't stand it today, are you ready to learn to fight against us?"

The behavior of Xiongba on the human race has been known to everyone in the national service. Even many major guilds in the foreign service have heard of the situation of Xiongba, and they have a better name for this kind of play- Desperate.

Luo Cheng thought for a while and said, "It's unlikely, I can't figure out what Hongshishan can do."

The ghost knife asked: "Is it possible to ambush us on the top of the mountain?"

Luo Cheng shook his head and said, "He has only 10 mages who are less capable of cursing. At the time when his subordinates reported, those 10 people were in the team. Another one, only one side of Hongshishan is a high mountain and the other is a plain There is no place for ambush at all. "

## Chapter 422 - Forbidden Hell

Furthermore, four fortresses are being attacked by four consortia, two of which are still occupied by the consortium.

Now all the guilds that can be ranked in Sirius City have joined the battle. Other guilds that are not in the ranks have hid far away, for fear of being affected.

Luo Cheng did not believe that shooting Sirius had a reinforcement, and shouted, "The whole army is speeding up. I'd like to see what else can be done by shooting Sirius."

Brutal slammed with a smirk expression, saying, "Boss, I apply for the first attack, and I will take my 10,000 brothers and completely destroy the Sirius Guild."

Luo Cheng nodded and said, "Okay, then I'll let you attack, but not 10,000 people, but 100,000 people. I want you to shoot Sirius in the first wave."

"Yes." Savage slammed into his mind, and it was already conceivable that he was shot by Sirius.

At the foot of Red Rock Mountain.

The 100,000 wolves are arming. This is the exit of Red Rock Mountain, 2,000 yards wide, and cliffs 100 yards high on both sides.

Out of the Red Rock Mountain is the endless Great Plains, you can go straight to Sirius Fortress.

Shoot Sirius and look at the cliff that is 50 meters vertically on the left.

The moon came over and said, "Boss, according to the report, Luo Cheng's troops are driving the acceleration scroll to drive here, it will take less than half an hour, this time he brought a full 550,000 people. "

Shooting Sirius took a cool breath and said, "Everything is brought out of the house."

"Yes, Sirius has already disrupted the game. Fortunately, our fortress is too biased. Only the Longxing Society will be interested. If it is the three fortresses, the scale of the battle will reach the million level." Yue Mantian Said self-deprecatingly.

Shooting Sirius did not speak, and reported the situation here to Lu Yang, saying, "Boss, this mountain pass is too wide. If we want to go inside, it is more suitable for ambush."

The position of the mountain pass of Hongshishan is an inverted trumpet shape. The wider it goes toward the exit, the narrower it goes toward the inside.

The top of the cliff to the left of Red Rock Mountain.

Lu Yang was waiting there with 3,640 men, and Nanfeng Zhiyi and Zhuoju pouring also persuaded Lu Yang.

"Boss, this position is really not suitable for ambush, it's too wide," said Zhuoqi Qingping.

"I recommend advancing 8,000 meters into the Red Rock Mountain. The narrowest position is only 500 yards wide, which is very suitable for ambush." White Wolf said.

Lu Yang shook his head and said with a smile: "Luo Cheng is not stupid. If we push to that place, he will be guessed that someone ambushes him, then we will not fight this battle."

“It’s not easy to play here. Our secondary forbidden spell can only be 200 yards away, and the range of attack range is up to 300 yards.” Jiang Ze pointed at the 2,000-yard-wide canyon mouth and said: “The enemy just flees to another He avoided it on one side. “

Lu Yang said, “Do you know, there is a skill in this game called forbidden spell.”

As soon as the words fell, Xia Yuwei and Jiang Ze and others looked at Lu Yang with excitement at the same time.

“Boss, you will ban curse!”

The meaning of forbidden spells for this game, even players who do n’t know it anymore, understand that this is a top skill that can change the direction of war.

Nanfeng’s intentional forbidden spell attack range is 500 yards, which is powerful enough to kill any level 30 gold armored soldier. If the position is dense, he can kill nearly 10,000 players alone.

Jiang Ze asked, “How many yards can your forbidden spell be played?”

Lu Yang said with a smile: “Level 4 curse, no more, no more, just 2000 yards.”

The white wolf and the muddy wine dumping and others couldn’t help but fist a strong fist, excited and didn’t know what to say.

Lu Yang asked: “Any questions?”

Everyone shook their heads. Obviously, this battle was designed by Lu Yang long ago. They didn’t need to worry about any link.

Shen Mengyao sat on a big rock and said, “We will sit here in a row next to see you release the curse.”

The people nodded together and sat down.

Lu Yang was amused by their expressions and said, "This time your task is really sitting here to watch the show, and all the output is just to our group of mages."

After speaking, Lu Yang began to arrange specific stations, and try to ensure that each of the more than 3,600 people who come here can get honor.

Just arranged, dense footsteps can be heard faintly from the distance below the cliff.

Lu Yang's face was somber, and he issued an order saying, "All are concealed, and you must not expose your position."

More than 20 people including Xia Yuwei and Zhou Tianming were optimistic about their teams.

Below the cliff.

The leading troops of 100,000 people have arrived at the valley entrance. The chairman of the Lion's Pavilion saw the shooting wolf and the 100,000 wolves at the mountain pass.

"Chairman Luo Cheng, I met the Sirius Army at the mountain pass, almost 100,000 people." The Lion War will report to Luo Cheng.

Luo Cheng was taking the troop through the narrowest 500-yard-wide horn mouth. Hearing the news, he said to his men around him, "This shot of Sirius was really stupid by us. Ambushing us, but on a 2,000-yard-wide mountain pass, is really sick. "

The ghost-handed knives echoed, "With his 100,000 people, we can be defeated in a wave of charge. It is better to let the Lion's Court attack directly."

Luo Cheng shook his head and said, "Don't lose the shot of Sirius. I have to see such a wonderful picture with my own eyes."

Brutal rushed and said, "Yeah, I still want to defeat him with my own hands, so that the Lion's Court defeated, then they are the ones we defeat."

The ghost knife came to his senses and said, "I don't think so, sorry."

Luo Cheng is in a good mood now, totally ignoring his negligence, and brought 250,000 troops to Taniguchi. At this time, the two guilds responsible for the defense at the rear have just reached the narrowest bell mouth.

Shooting Sirius saw Luo Cheng coming and shouted loudly: "Luo Cheng, I will fight against you today."

Luo Cheng sneered, arrogantly with 50,000 gold troops interspersed in the Lion's Court to leave a vacant seat, the 2000-yard wide Taniguchi was instantly full of players.

Looking at the shooting wolf in front of him, Luo Cheng said mercifully: "It's up to you, now what qualifications do you have to say this sentence, I will kill you as easily as an ant."

In order to show off his strength, Luo Cheng didn't order the attack immediately, but opened his arms arrogantly and said to Sirius, "Did you see how many people I brought this time, 550,000!"

"Previously, there were other guilds. I couldn't send a large force. This has made you live for more than 10 days. Today I will let you see what is strength."

Just as Luo Cheng was about to order, he shot Sirius and shouted, "Slow."

"What is it?" Luo Cheng dissatisfied with shooting Sirius to interrupt his mood.

Shooting Sirius mocked and said, "After you brag, you have to let me say a few words."

Luo Cheng said unhappily, "What do you mean."

Shooting Sirius saw the signal sent by Lu Yang and said, "I mean, you can go to death."

The voice just fell.

Just when the full moon and the cold wind and other people are preparing to take the Sirius Army on the charge, while the brutal collision and the ghost knife are preparing to lead people to attack.

Suddenly, the sky was full of wind and clouds, and large clouds appeared in the sky.

140 mages including Lu Yang, Nanfeng Zhiyi, Mu Yu, and Hei Yan stood at the top of the cliff on the west side of the exit of Hongshishan and chanted.

The ghost knives couldn't help fighting a cold war, shouting in horror: "No, it's a curse, it's a curse, and the whole army evades to the east."

The 350,000 players gathered quickly moved eastward, but when they ran out of the 200-yard range, the spell in Lu Yang's mouth was completed, and he pointed at the middle of the valley mouth with his hand and shouted:

"The flames are gone!"

In the blink of an eye, a ghost image of a giant fire skull with a diameter of 2,000 yards appeared on the ground, and the world was a reddish, countless fire spirits appeared in the air, jumping up and down to release the billowing flames.

"3897"

"3976"

“7986” (Critical Strike)

Countless injuries appeared on top of Luo Cheng’s side, and more than 50,000 players were wrapped in it.

System prompt: You get 1 Honor

...

The white wolf opened the panel and took a look. At that moment, he received more than 3,000 honor points, admiring: “Niubing.”

In the valley.

“Add blood, quickly add blood.” Commanders of the army such as Ghost Knife and Brutal Clash commanded loudly. The shaman used the healing wave to add blood to three people at one time. The priest continued to use the Holy Ring to heal players within 30 yards .

“Quickly retreat, everyone back.” Luo Cheng shouted.

550,000 troops gather in the valley, it is easy to walk forward, and it is very difficult to retreat, especially this is an inverted trumpet-shaped mountain, and it is even more difficult.

However, ghost knives and others are masters, and even in this case, they still retreat slowly with the troops.

However, just as they retreated, Nanfeng’s consciousness spell was completed, and the beautiful lady in yellow clothes stood on the cliff with her wand pointing at the valley.

“Crazy Thunder Prison”

Among Lu Yang's fire ban curses, countless purple lightnings fell from the air and split among Luo Cheng's retreating teams.

"Another curse," Ghostblade said in horror.

Kuang Lei Tian prison is different from the magic flame burnout ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ This kind of thunder and lightning has a paralysis effect. After being hit, the player has a chance to stop in place.

Luo Cheng looked at the thunder and lightning in the sky in horror. Because of this skill, his men's actions became much slower. Moreover, under the condition that the two forbidden spells were superimposed, Luo Cheng's men could no longer resist it and started a large area death.

Red Rock Pass.

Moon full day looked at the scene in shock, turned to look at Sirius and asked, "Boss, what's the situation?"

Ling Feng asked excitedly: "Boss, where did you find the curse master, why don't you tell us earlier?"

"I rushed in with someone to kill Luo Cheng." Qiufeng Guying said.

Shooting Sirius quickly grabbed Qiufeng Guying and said, "Don't go, that's not the person I found, and they are not our guild."

Ai Yu Hua Xiang blinked and asked, "What's the situation?"

Shooting Sirius said: "Those people are weird. They are mercenaries. They don't accept joining the guild. I just hire them. The attack method is all attacks. If you go in, you will be attacked by the curse."

The crowd looked at Shooting Sirius confusedly. They were familiar with shooting Sirius, and instinctively felt that there was nothing to hide from them.

“Look, another curse appears, no, it is a secondary curse meteor fire ..., no, curse.” Ling Feng said incoherently.

In the sky, it was supposed to be a sub-forbidden meteor fire and rain, but the attack range covered the extreme position of the valley they could see.

Throughout the trumpet-shaped Red Rock Mountain, there are large fireballs falling from the sky. Among these curses, there are also ice curses and space curses.

The valley is like a hell!

And on the cliff at the top of the mountain, it is the 140 secondary forbidden mage who created this hell.

System prompt: You get 1 Honor

Chapter 423 - Great victory

Lu Yang's demon flame burnout attack range is 2000 yards, Nanfeng's deliberate attack range is 500 yards, and the secondary forbidden spell attack range is 100 yards.

In order to increase the horizontal attack range, at each point there are two secondary forbidden mages standing on both sides of the valley to release spells at the same time. All these people add up to form a 6000-yard attack zone.

Luo Cheng's own profession is a lion warrior. Because of the war, Liu Jie was afraid that his death would deliberately create 10 blood gems for him with a total of 200,000 blood.

If in normal times, Luo Cheng, even if surrounded, can rely on his equipment and has a lot of blood, he can support his teammates to come to support, this is a very proud thing, but now it has become his most painful thing.

Watching with his own eyes, the 250,000 men he worked so hard and the 100,000 people of the Lions Court of the affiliated guild were attacked by the forbidden and secondary forbidden spells, and Luo Cheng almost fainted.

“Who the \*\*\*\* are you? There is a kind of true appearance.” Luo Cheng pointed at Lu Yang on the cliff and cursed.

Lu Yang’s state at this time was still a small green goblin, with a cute appearance. Facing Luo Cheng’s anger, Lu Yang ignored him and continued to maintain his spells.

Nanfeng Zhiyi and Mu Yu were far away from Lu Yang. They did not stand on the edge of the cliff and did not transform. The other 140 mages were all green-skinned goblins.

This camouflage made Luo Cheng want to find revenge without knowing who he was looking for.

After 1 minute.

The curse ceased, and the valley calmed down.

People such as Xia Yuwei and Zhuoju Qingli stood on the top of the mountain and looked down at the valley, with incredible expressions on their faces.

In the six-kilometer-long valley, all are the bodies of players. No one can stand up and there are equipment everywhere.

“How many people have to be killed?” Bai Hu asked.

Lu Yang said, “Look at your honor.”

Bai Hu opened his honor point, his eyes widened unbelievably, and said, "more than 320,000!"

Xia Yuwei quickly opened the properties panel and said, "Mine is more than 320,000."

"Killing 320,000 people, too strong." Mao Qiu said.

Everyone froze. For the first time, they felt the power of the mage to come together to release high-end magic.

Heiyan sent a message and said, "Boss, I can't stand it here. Luo Cheng's two affiliated guilds are desperately rushing inside, as if they are trying to grab equipment."

Lu Yang said: "It looks like this Luo Cheng is not stupid, knowing that we have no ability to release the second time immediately after releasing the curse this time, and shooting Sirius could not withstand the 200,000 attack."

"Boss, how are we going to meet." White wolf said excitedly, all 3640 people coming this time are all gold level 30 or above players.

Lu Yang said, "Stupid brothers, how can we have more than 3,000 people stop the 200,000 people?"

The white wolf looked at the equipment on the ground, and said sadly, "It would be a shame if they could get them back."

Lu Yang said: "Of course I can't pick it up. Boss I just put a forbidden spell. Don't forget that I didn't use all my skills just now."

Mu Yu also has a static storm forbidden spells, Nanfeng Zhiyi and a secondary forbidden spell, Tian Ming, Thunderbolt, 10 space mages, and a second secondary spell forbidden time and space cracks. Lesser curse meteor fire rain and meteor fall.

The most important thing is that Lu Yang brought Han Ying over this time. The shadow seed cooperates with the fire dragon technique. If it is only a 500-yard gap, Lu Yang and Han Ying will completely live with the help of other mages.

“The mage followed me, and the others followed.” Lu Yang shouted loudly, and then he sent a message to Sirius, saying, “Immediately bring the team into the valley to pick up equipment. This equipment boss will send you. “

Shooting Sirius’ eyes suddenly widened and shouted excitedly: “The full moon, Ling Feng and other major legions led me to pick up equipment.”

“Get rich, rush.” Ling Feng had long fancied a golden two-handed sword that had fallen to the ground, and rushed in with 20 people responsible for picking up equipment.

“I have never encountered this opportunity in my life.” Yue Mantian rushed in with 20 people.

On the other side.

Luo Cheng, who was resurrected in the main city, has fallen into rage. He sent a message to the bosses of the two affiliated guilds in the simulation group and said, “Give me a full attack, kill Sirius, and grab my equipment.”

Both guilds were acquired by Luo Cheng, and they did not dare to neglect to order the guild to speed up their march and quickly pass through Taniguchi.

Hei Yan only had 10 mages around, and he couldn’t resist the enemy’s march as hard as he could, and both guilds had transferred shooters with a range of up to 70 yards. The suppressed Hei Yan and others could not release spells on the cliff.

The other party took advantage of this opportunity and tens of thousands of players entered the open area through the narrowest position one after another.

“What can we do, Boss Heiyan, we can’t stop it.” Master Han Shuang asked.

Hei Yan gritted his teeth and was about to lead the team to attack. Suddenly, a dark cloud in the sky turned red.

“Meteor Falls”

As far as 500 yards away, Lu Yang pointed his wand, and the crimson red fire meteor, which was larger than the house, dragged the long tail of the fire precisely to the front of the enemy line that rushed into Taniguchi.

“boom”

Fire meteor exploded, all enemies died within 200 yards, and the fast-charging players in the valley were all scared to a halt.

“Boss, the opponent has a curse, what to do.” An enemy player hurriedly reported the situation to the chairman.

The bosses of the two affiliated guilds looked at each other, and gritted their teeth together and shouted, “Give me a punch, I don’t believe the other party can have a curse.”

Luo Cheng issued a death order, and the two wanted to continue to eat under Luo Cheng’s hands. They would rather sacrifice them than listen to Luo Cheng’s command.

Lu Yang stood at the top of the cliff and watched the enemy rush into the valley like a mad man, and said loudly, “The Master of Time and Space, the second round of secondary forbidden spells, covering the attack.”

It is only 500 yards from the narrowest position and less than 800 yards wide. 10 space-time cracks can be easily covered.

Ten little green-skinned goblins walked to the front of the cliff, and the words were spelled out in their mouths. The pure white elves sang happily in the valley.

Thirty seconds later, when the enemy's large force entered the attack range, 10 space mages simultaneously pointed at the ground with their staffs and shouted in unison.

“Crack in Time and Space”

The space in the valley suddenly collapsed inward, and a pure black hole with a diameter of 100 yards appeared. The white space-time storm around the hole seemed to blow up. Players who rushed into the black hole suffered a lot of damage instantly.

At the same time, because the interior of the space is pure black, nothing can be seen around it, and the priest and shaman in the back can't add blood to it.

Taking this opportunity, Lu Yang said a spell in his mouth, one by one, the dragon fire was released in the black hole.

Hei Yan jumped down the valley with the Fire Hundreds, using fire wall to quickly release 20 rows of flames in the 800-yard wide valley.

The presidents of the two guilds stood in the position of Taniguchi and were stunned when they looked at the black space-time secondary forbidden spell.

“We orcs know that there are only three guilds with a secondary forbidden spell, and some scattered people. Is this group of people under the setting sun?”

“There are so many forbidden mages in the setting sun that have long attacked the fortress. He only has a space mage in his hand. I have not heard of a fire department. I feel that this is not a guild, but several medium-sized guilds.

“Then what do we do now, can we still fight?”

“Hit, we attacked without the opponent’s curse, just died 50,000 silver equipped men, you and my main force are here. After casting the curse, these mages are waste, and there is no resistance to shoot Sirius. , We both have a great chance to contribute. “

The two presidents laughed together, but when the curse was over, they watched the sea of fire in front of them and the fire dragon raging on the sea of fire, both of them stopped.

“This, how does this fight.”

“Report it quickly.” The two quickly reported the matter to Luo Cheng, and opened the camera to let Luo Cheng see the situation on the spot.

Facing the sea of fire and the countless fire dragons in front of him, Luo Cheng asked the ghost knives around him, “There is no other way to go to Sirius Fortress.”

Ghostblade said: “There are three roads, two need to pass the other two forts, and the remaining one is a mountain road.”

Luo Cheng looks at the map ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ At this time, the other two fortresses are in the midst of the war, and they have launched a million people to engage in offensive and defensive warfare. Make the other party misunderstand.

On the other side of the mountain road, as long as there are 100 mages in the narrowest position, it can be guarded.

“Couldn’t we be able to get over?” Luo Cheng scolded.

The ghost knives and savage collisions all bowed their heads. Obviously, in the face of this situation, they have no way to resist.

“Drip, drip, drip”

The communicator rang, and Luo Cheng found out that Liu Jie had called. He quickly pressed the connection button and said, "Brother, what is it?"

Liu Jie asked sharply, "I heard that your 550,000 people were annihilated by more than 300,000 people? What's the matter?"

Luo Cheng said helplessly.

"Do you mean that you have been attacked by at least 140 secondary forbidden spells and forbidden spells?" Liu Jie asked.

"Yes, after the enemy attacked us with a forbidden spell, we were covered with fire wall and fire dragon on the road we must pass. My team couldn't run through. The only way now is to pass the other two strongholds. Luo Cheng said.

Liu Jie closed the intercom and called again after five minutes, saying, "The whole army stopped attacking. I talked to the bosses of the other two fortresses. After the victory and defeat today, you can feel free to go between the two fortresses. Traffic on the road. "

"Thank you, Brother." Luo Cheng said excitedly.

"Don't let me down again." Liu Jie hung up the phone angrily. He found that what he had done recently was very unsuccessful. He dropped a fortress on the Terran side and lost three. The Orc side was attacked again.

Unlike him, on the other side, Lu Yang and his men are in a carnival. Outside the valley, the players of the two guilds took out the city rolls and flew back to the main city.

## Chapter 424 - Huo Tianhua

More than 10 days of fighting, Luo Cheng's troops have accumulated a large amount of killing value, especially the mage army, standing behind the remote output is rarely attacked. This sudden death caused each mage to lose at least 2 pieces of gold equipment.

Lu Yang said with satisfaction: "Replenish your team as soon as possible and improve morale."

Shooting Sirius said: "Boss, I will leave the silver equipment, you will bring back the gold equipment. The average level of my men fell to level 27, and these equipment will not be used by me."

After more than 10 days of fighting, the average number of deaths of the men who shot Sirius has exceeded 30 times. It can be seen how violent the fighting is, and how united the men who shoot Sirius are.

Lu Yang really needs gold equipment. He said, "Okay, I'll take it first. After a few days, you will come to me with some elite hands. I will send you a few secondary forbidden spells, and by the way, improve some of your men. To level 40. "

Shooting Sirius said, "Thank you, boss."

Lu Yang said with a smile: "What else are we polite to say, by the way, I fulfilled my promise, the fortress was kept, and I gave you 30% of the shares. Like my other legion commanders, I allow you to buy at the lowest price. 20% of shares, which includes every fortress you lay in the future. "

Shooting Sirius never thought that Lu Yang would be so generous. Anyone knows the value of the fortress in the future. He is equivalent to selling only 50% of the shares in Lu Yang, making a net profit of 50 million in Lu Yang.

"Boss, don't worry, as long as I shoot Sirius for one day, I promise to keep it for you." Said Sirius excitedly.

Lu Yang said with a smile: "I believe you can do it. You bring the equipment yourself. I just want to discuss something with you."

"Yes." Shooting Sirius immediately ordered his men to carry the storage bag into the depths of Red Rock Mountain.

On the cliff.

Lu Yang said to the people behind him, "Zhuo Jiuling, Bailang, and others," "Seven of you went down with me. Shooting Sirius delivered 190,000 pieces of gold equipment. I'll take you to know him."

"Did he not want it?" The White Lion asked.

Lu Yang said: "These teams are temporarily unavailable and will be given to you."

"We owe him a favor. The 190,000 pieces of equipment can equip at least 20,000 players. Our hope for the next war is even greater." Zhuo Jiu Qing said.

Lu Yang nodded, and seven people with muddy wine dumplings, Xia Yuwei, White Lion, bitter love, Sun Yu, Jiang Ze, and Zhou Tianming jumped out of the valley to meet Sirius.

Shooting Sirius saw Lu Yang personally brought seven chiefs to greet him. He was honoured, and quickly walked to Lu Yang in two steps.

After Lu Yang introduced the people on both sides one by one, he took a shot of Sirius to rest under the cliff next to him, and asked, "Sirius, the three fortresses around you, which of the siege and defender have a good relationship with you. "

Shooting Sirius said with surprise: "Boss, you have to attack."

Lu Yang opened the three-dimensional map and projected it on the ground, pointing at the three fortresses around Sirius City, and said, "I have a 15-day buffer period on the Terran side. I'm not in a

hurry to go back. This time I will give me this 3640. Each of my men has scored enough honors, and tell me, which party can I help you make an ally with you now. “

Shooting Sirius took a sigh of excitement and pointed at the Blood Wolf Fortress next to Sirius Fortress. “This boss of the Yaotian Guild Huo Tianhua defends the fortress. He is the eldest son of the Tianhua Consortium. This person is good, and I He has always been a friend, and if it wasn’t for his attack, he would have come to help me. “

Lu Yang said with a smile: “Let’s help him once. News from Sirius City, Luo Cheng can’t beat the fortress and change to attack tomorrow morning. Tonight I will lead the team to help him hold the fortress and give him a favor for you.” Yang said.

The other three fortresses in Sirius City were caught in the flames of war, and they were all decisive battles. The cooldown of the secondary forbidden spell was only 8 hours. After 8 hours, which side Lu Yang helped, the other side would win.

“Boss, thank you so much, I’ll contact him now.” Shoot Sirius.

Lu Yang nodded and said to Xia Yuwei, Zhuojiu and others behind him, “Let the brothers sleep for a while, and go online after 8 hours.”

“Yes.” Everyone sent a message to the team.

From 1am to now, these 3640 people have not rested. After learning that they can take a short break, they have not gone offline and went straight to sleep.

Lu Yang didn’t take a break, and Duo Jiu poured out several of them to stay on duty to wait for the news of Sirius shooting.

Huo Tianhua, the boss of the Blood Wolf Fortress, learned that shooting Sirius could send him 140 forbidden spells to support him, and he couldn’t help yelling.

Unlike shooting Sirius, Huo Tianhua's enemy was a violent attack of 600,000 players led by Meng Linghe, the grandson of the Changyun Consortium.

The two sides have already played a real fire around the fortress, not only around the fortress, from the way of Sirius to the blood wolf fortress, the players on both sides are fighting, has been completely disrupted.

However, on the whole, Huo Tianhua is at a disadvantage. Without an outside helper, he knows that he can still stand for two days.

"Brothers, don't say anything else. In the future, if anything happens, you will let me know. Brother and I will help you. In addition, this time you help me to keep it. I will send you two million as the brother's carriage fee." Huo Tianhua said.

Shooting Sirius smiled and said: "I'm not polite with you, anyway, I know you are richer than me, haha."

Huo Tianhua has money, but "Second World" is like this. It is not something you can play with money. It also requires a lot of energy and time.

"What time can you come over there?" Huo Tianhua asked.

"After 8 hours, if you can create a good terrain, like Redstone Mountain here on my side, the battle can be solved in one battle," said Sirius.

"Okay, my brother, I bet you this time, and I will order my men to change the play, and create a favorable terrain for you." Huo Tianhua said.

After shooting Sirius and Huo Tianhua to discuss some details in detail, they closed the phone and reported the situation to Lu Yang.

Lu Yang personally took the Sirius to the Blood Wolf Fortress where the two sides fought and watched the battle. More than 1 million troops from both sides fought fiercely below the city.

From morning until four in the afternoon.

Beginning at this time, Huo Tianhua's army began to use a desperate style of play, and went out of town to fight the 600,000 people on the Mengling River.

There is a strong intention to fight against each other.

Meng Linghe knew that he would win within two days. In order to prevent his level from falling too badly, he immediately changed his style of play. The entire army contracted. The shield battle was ahead. The hunter and mage were behind him. He used range magic to block Huo Tianhua's troops. At the end.

On the whole, the 600,000 people in the Mengling River seem to have become a huge banana fan, harvesting Huo Tianhua's team easily, and the tail of the fan is connected to the nearby Tianquan Mountain.

Shooting Sirius gritted his teeth at the top of the mountain and said, "Boss, Brother Huo has unreserved trust in me. He fights so hard, we don't help him, he can't survive tonight."

Lu Yang nodded. He didn't expect Huo Tianhua to be such a heroic man, and he dared to entrust his entire family to his friends and brothers.

"You can rest assured that there are 10 minutes left. The muddy wine and Yu Wei are already sorting out the team and will be able to come over soon."

Red Rock Peak.

They don't need muddy wine to go offline to inform. As soon as 8 hours arrive, 3640 players wake up, disciplined like the army.

It's just five o'clock in the evening.

Zhuojiu sent a message to Lu Yang: “Boss, the team is assembled and you can start at any time.”

Lu Yang sent his coordinates and marching road map to Zhuo Jiu Qing Duan and said, “Come with the team, it’s time for us to harvest.”

Half an hour later, the turbid wine drove the team to the place where Lu Yang was. Looking at the fan-shaped team in front of Meng Linghe, Bai Lang said, “They are looking for death.”

Hei Yan said, “This formation is too cool to cast a curse, giving people an unbearable impulse.”

Below the fortress.

As Huo Tianhua’s team rushed more and more fiercely, Meng Linghe had to shrink the formation of the army closer.

“This Huo lunatic is really crazy, completely crazy.” Meng Linghe cursed.

“This is not better. We won easily. He didn’t have the ability to fight back after winning the fort.” The vice president around said proudly.

Meng Linghe always feels wrong. [www.mtlnovel.com](http://www.mtlnovel.com) ~ According to his perception, Huo Tianhua is not such a reckless person. He couldn’t help looking at Huo Tianhua on the fortress.

Above the Blood Wolf Fortress.

Huo Tianhua’s six vice-chairmen sent down to beg Huo Tianhua.

“Boss, I can’t fight like this anymore, the brothers’ level has dropped too fast, and the equipment can’t keep up.”

“Fighting like this, we don’t even have the recapitalization capital.”

“Boss, you have something to say.”

...

Huo Tianhua was unmoved and looked like a laozhi. After secretly sending a message to Sirius, he asked, “How is the preparation?”

Shooting Sirius he smiled and said, “Brother, look at your upper right.”

140 green-skin goblins with a height of less than one meter have evenly stood on the top of Tianquan Mountain. Looking at the 600,000 people below, Lu Yang raised his right hand and slammed a finger, saying, “Forbid curse, get up!”

Spells were spoken simultaneously in the mouths of 140 mages.

The quaint musical scales resounded on Tianquan Mountain like a tadpole. The wind was rising suddenly, dark clouds surged, and the sky over 6,000 meters in diameter was instantly covered by dark clouds.

“what happened.”

“Why is it dark?”

The players on the side of Meng Linghe are looking at the sky, with a look of confusion in their eyes. So far, none of the forbidden spells and secondary forbidden spells they have seen have such a wide range. It can be said that they are not forbidden spells and they are confused How is this going.

When all of them were confused, the red, blue, white, and purple magic elves in the air sang ancient songs excitedly, as if they were funeral elegy.

“Not good. It’s a curse. It’s a huge curse.”

“Run, everyone is falling apart.”

Meng Linghe suddenly came to her senses, her hair was erected, and a frightened voice issued an order to spread everyone.

#### Chapter 425 - Slaughter Novice Village

After 30 seconds.

The sky was completely red.

100 mages summoned the meteor fire rain at the same time. The huge fire meteor group was even more fierce than the curse, and instantly covered more than 300,000 players.

Huo Tianhua saw this scene suddenly punched on the city wall and shouted to the last 50,000 gold army players inside the fortress: “The whole army is dispatched, penetrate me through Huo Tianhua’s army.”

The heads of the six legions ran down the fortress with excitement, and quickly ran out of the city with their teams. When they rushed to the front of the Mengling River team, the curse on Lu Yang’s side was over.

In the face of Meng Linghe’s completely chaotic formation, Huo Tianhua’s forces attacked with full force. Before long, the battle ended with Huo Tianhua’s victory.

The fortress is above the city.

Huo Tianhua took Sirius' arm and handed him 80,000 pieces of gold equipment and said, "Brother, this is 10,000 sets of gold equipment. Brother I just happened to round up for you, don't be too small."

Shooting Sirius quickly quit and said, "I can't take this. You already gave me 2 million credits."

Huo Tianhua said: "To tell you the truth, I hit more than 200,000 pieces, and only gave you a third, which is what you deserve."

Shooting Sirius is not good enough to quit, accept Huo Tianhua's kindness, return to Sirius Fortress, hand over equipment and money to Lu Yang, and said: "Huo Tianhua gave it."

Lu Yang said: "Unexpected and unexpected surprises, yes, Huo Tianhua is indeed a personal character, I took the equipment, Huo Tianhua gave you the money, you take it."

Shooting Sirius hastily refused, but Lu Yang said with a smile: "It's not for you to mess with, fortify the fortress, buy an arrow tower to help the defense, and turn Sirius into a hedgehog."

"Yes," She promised.

Mu Yi sent a message saying: "Brother, Sirius City is messy. Because of your joining, Meng Linghe decided to suspend the siege and fight again tomorrow."

Lu Yang asked, "How about the Golden Wolf Fortress and the Silver Wolf Fortress?"

"There are still wars on both sides, and it is estimated that it will be difficult to win or lose tonight." Mu Yi said.

"Continue to pay attention to the situation of all parties, if there are any changes, tell me in advance." Lu Yang said.

Turning off the interphone, Lu Yang looked at Zhuo Jiu, Xia Yuwei and others around him and said, "I have a proposal, dare you follow me."

“Where?” Asked White Wolf.

Lu Yang looked at his watch and was about to enter 8 pm, and said, “After 2 hours, I am going to slaughter the city.”

“Tucheng ?!” Zhuojiu and Xia Yuwei and others looked at Lu Yang in shock.

“Which main city can we hit with more than 3,000 people.” Xia Yuwei asked.

Lu Yang looked at the uncontrollable look of the mule and said, “You stupid, why do you want to slaughter the main city, novice village?”

Everyone looked at Lu Yang in excitement, Xia Yuwei’s excited face blushed. The biggest feature of Xinshoucun was poor defense and more trumpet.

“Boss, you are too smart.”

Lu Yang said with a smile: “Each novice village has at least 300,000 people. We slaughter a novice village. The honor value of all of you can reach 800,000, and our task is complete.”

Shooting Sirius scratched his head and said, “I know a novice village, where there are at least 500,000 people.”

Lu Yang asked, “Where?”

“Aiwatai Town, there is the largest trading market for the wolf tribe except the main city. Because there are many people, the wolf tribe deliberately puts items such as materials in the town of Aiwatai for trading.” She Tianlang said.

Lu Yang knew this place. The last generation was also the famous wolf material trading market. It was unexpected that it began to form from this time.

“How is the defense?” Xia Yuwei asked.

Shooting Sirius said: “There are about 100 level 50 guards.”

“Just hit here.” Lu Yang punched the ground and said, “Everyone is a whole team. It starts at 1 am. Shooting Sirius is responsible for entering Xinshou Village to find out the situation.”

“Yes.” The crowd nodded, and each excitedly went back to arrange.

One o’clock.

When most of them went to sleep, a team of 3640 people was advancing rapidly in the night.

Sun Yu drove the wind elves, Lu Yang crushed the entire acceleration scroll, and 3640 people marched toward the southeast corner of Sirius City at a speed of nearly 300%.

Kill the monsters all the way, through the level 30 map, and came to a hidden forest. A crescent-shaped tree vine and fence blocked the road.

Shooting Sirius pointed at Shuteng and said, “This is the level 10 wild monster area of Aiwatai Town. Everyone follow me in.”

Zhuo Jiu, Xia Yuwei and others showed excited expressions and led the team to shoot Sirius into the Novice Village.

not far away.

A bison came over from a distance.

Montenegro Bison

Level: 10

Qi and blood: 1390/1390

“I miss the monster.”

“I miss the level.”

...

They are all players between level 30 and 40, and suddenly they see the level 10 strange, and they are extremely excited.

Since knowing that the purpose of tonight is to start the city, no one can fall asleep, waiting for this moment with excitement.

Lu Yang sent a message in the simulation group: “Don’t be excited, be careful not to be exposed, take a deep breath, take your time.”

Everyone took a breath and barely eased the excitement in their hearts.

Shooting Sirius said: “I advance the city, and confirm the position of the city guard again.”

Lu Yang nodded, and led a large army to the Awatai town along the edge, and shot Sirius quickly ran towards the town.

Half an hour later.

Shooting Sirius sent a message to Lu Yang, saying: "There are still only 6 guards at the North Gate. Everything in the city remains unchanged and can be attacked."

At this time, Lu Yang came to the level 3 strange map, and under the moonlight, he could clearly see the north gate of Aiwatai Town.

A flash of light flashed, Lu Yang replaced the Red Flame Lion King, watching the 3640 players behind him, and said loudly, "Brothers, follow me, we, slaughter the city!"

"Slay the city!"

The 3640 people were completely in a state of madness. After Lu Yang crushed the acceleration scroll, the whole team rushed to the north gate of Aiwatai Town.

The six Wolf City Guards guarding the gate stood helplessly yawning on both sides of the gate.

Wolf Guards (Elite)

Level: 50

Qi and blood: 800,000 / 800000

Suddenly, an escape dagger spinning at high speed with blue light appeared among the six of them.

A flash of blue light, Lu Yang appeared among them.

"The enemy ..." The Wolf City Guard didn't wait for a shout, and Lu Yang, who turned into a flame monster, pressed the ground with his right hand, and after a black ripple, the red flames swallowed up the six people instantly.

"Flame Storm"

The six Wolf Guards entered a vertigo state collectively.

Lu Yang's spell kept stunning. He continued to stun using Skyfire. The subsequent 3640 players came to the city gate and attacked with various skills.

In less than 10 seconds, six wolf guards fell to the ground.

Looking through the gate, there were players everywhere on both sides of the street. Lu Yang moved his arms and said, "According to the plan, everyone followed me and killed the remaining 94 city guards."

Shooting Sirius said: "I lead the way, there is a barracks in front, except for the four gates, the remaining 60 are here."

If you are an inexperienced leader, you will kill and grab things first, but as long as you kill and grab things, the player will be out of control for a moment, and everyone will go crazy to kill the equipment, for fear that they will rob less, absolutely not Attack the NPC again, and even dodge the NPC.

In that case, how many people are not enough for the NPC to kill. There are countless examples of the failure of this kind of slaughter in the last life. Lu Yang saw so many, so he took people to kill the NPC first.

When he came to the barracks, 60 city guards were resting in the room. Lu Yang pointed with his hand and said, "Follow me and kill."

Xiao Liang jumped into the room with a roar, and 60 city guards woke up instantly and launched a collective attack on him.

"Red Mist Cyclone"

Dozens of whirlwinds flashed, and 60 city guards were left with blood.

140 fire methods released flame storms and rains of fire, and the battle ended in less than a minute.

Shooting Sirius came to Lu Yang and said, "The next one is Simon, where there are only 6 guards."

Lu Yang nodded and led his troops to clean up a circle around the city, killing 18 guards. At this time, the only 22 guards in the town remaining in the security zone were left. Lu Yang had already taken 3640 people came to the edge of the safe zone.

"Woo ~ Woo ~" A wolf guard saw Lu Yang and shouted, "An enemy attack, an enemy attack, the whole army assembled."

21 guards ran over quickly.

After checking the quantity, Lu Yang said, "Hit."

In the blink of an eye, the last 21 guards died, and at this time, there was no guard in the entire town, only countless players in the safe zone ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang said: "Kill ~!"

3640 players have long been unable to hold back the excitement in their hearts, and generally rushed into the safe area to slaughter, and the 10-level trumpet killed 1 knife, and the 1-level trumpet wiped to the side and died.

Lu Yang didn't join the queue of Tucheng and said to the shooting wolf beside him: "Where is the trading floor?"

Shooting Sirius excitedly said, "In the southeast corner, I'll take you there."

Lu Yang nodded, and led the legions such as White Wolf and Xia Yuwei toward the southeast.

The white wolf saw Beshuang who was killed by his men and said excitedly, "Boss, what are you pulling me to do here, I am going to kill someone."

Lu Yang was unmoved, grabbed the white wolf and came to the southeast corner, looked at the front and said, "Killing here is better than that."

The white wolf looked all the way back, and when he heard the words turned his head, his depressed expression turned into a stun, his mouth widened and his eyes staring, "How can there be such a place in this world."

In front of the white wolf, at least 10,000 players are standing on both sides of the road in the safety zone, and each player has at least three storage bags, and dozens more.

"Get rich," shouted Zhuoju.

Lu Yang said, "Rush in, kill everyone, and take away the storage bag."

The bitter eyes had been red for half a life, and a beast-like roar came out of his throat, and he rushed into the merchant with his two-handed sword.

The most important feature of a businessman player, that is, the uncle in the game, is low level, more money, and more treasures.

Any player who wants to make a fortune, more than once looking at the merchants in his own security zone, imagines that one day, if he can kill without restriction, he steals them away in the middle of the night, and he will become the richest overnight. People.

Today, their aspirations have come true in Lu Yang.

“Thieves’ gold equipment materials, 500 servings.” Sun Yu screamed.

“Wow ha ha, the master’s gold equipment materials, 700 copies.” Hei Yan shouted.

“The Paladin’s gold equipment materials, for 1,000 people, wow ha ha, I’m rich.” Bai Hu shouted.

Lu Yang watched them excited and couldn’t help but rushed in.

There are more than 10,000 businessmen in the southeast corner. When Lu Yang killed them, Lu Yang took the team back to the middle of the safe zone, and the players who had killed crazy were still killing people.

With more than 500,000 people in the safe zone, Lu Yang and his 3640 players killed until 5 am.

A wolf player logs in to the game early in the morning and just goes online, and finds a Level 50 Red Flame Lion King standing next to him.

“Oh my god, the monster has slaughtered the city.” The player’s shout made Lu Yang notice his presence.

“Pyroblast.”

With a finger of Lu Yang’s staff, the 7th trumpet was hit by a large fireball and fell down in response.

“The whole army stopped attacking and closed the team. Orc players began to go online.” Lu Yang shouted.

The leaders of the army, such as the muddy wine dumping, Xia Yuwei, and the White Lion, immediately organized the team. Fortunately, they killed for several hours. Everyone was tired. When they heard the order, they immediately gathered around Lu Yang. As Lu Yang quickly left Iwa Taizhen.

Running along the 30-level map, I encountered a lot of players who got up early in the morning. Fortunately, their position was remote enough, although they saw it but they couldn't see clearly.

After running into the Red Rock Mountain, Lu Yang was relieved, looking at the dull wine and others who were also panting, but with an uncontrollable expression on his face, and asked, "Report the quantity and see how much you get. material."

"2174"

"2682"

...

Nine individuals reported separately that when the final figures were added together, there were a total of 26,000 sets of gold equipment materials.

"We're rich, we are rich this time at the Orc." White Wolf said excitedly.

"Taking into account the previous gains, we have obtained a total of 50,000 sets of gold equipment this time, which is enough to match most of our guild players to level 30 with gold suits." Xia Yuwei said.

At present, there are 150,000 players who reach level 30 under Lu Yang. Counting Tianming's troops last week, a total of 50,000 have gold equipment. With this harvest, the number of players with gold equipment in Lu Yang's hands will exceed 100,000.

Lu Yang said: "After going back, I will evenly distribute these 100,000 sets of equipment to each of you, and hurry up to lead the team to upgrade. Remember, level 30 is not the limit."

The White Lion asked, "Boss, should we go back and take the initiative to attack the aging old man or the eternal spirit?"

"It's not the time," Lu Yang said, shaking his head.

In order for Liu Jie to invest a lot of money into the game, Lu Yang needs to let Liu Jie see hope, otherwise, he would withdraw the funds in advance, and all subsequent preparations could not be done.

Mu Yi sent a message to Lu Yang and said, "Brother, Luo Cheng decided to stop attacking."

Lu Yang hesitated and asked, "What happened?"

"Official news came, 10 am version update." Mu Yi said.

Lu Yang looked at the time. Today is the second day after the eleventh festival. He nodded and said, "I see."

Shut down the speaker, Lu Yang said: "Everyone enters the original underground line after Sirius Fortress, wait for the server to update before logging in."

Shooting Sirius said: "I changed the inner city area so that only I can enter, and everyone goes with me to the inner city area, and I can guarantee everyone's safety."

Lu Yang nodded and led the team to shoot Sirius into the inner city. At the same time, he and 24 people including Xia Yuwei flew back to the Red Fort with hundreds of storage bags.

Tu Feng was dumbfounded to see the materials and equipment, and said, "Where are so many materials and gold equipment?"

Lu Yang smiled mysteriously and said, "The assigned tasks are given to you. I will go offline to the school first."

Tu Feng nodded.

Lu Yang returned to St. Gall and took off the assembly line inside the hotel. He took off his helmet and walked towards the school.

Yesterday, Mo Long called Lu Yang and told the school that today the school would meet to inform them of what was happening. If Lu Yang remembered correctly, today, he would announce the player's class in the game.

It may seem like a joke, but "Second World" really made the model of the virtual classroom in the game. Players can wear a game helmet to the classroom in the game like normal school.

The appearance of this class can completely restore the appearance of the player's school, but students can save time on the way to school and clean up time.

When Lu Yang remembered, he came to the school entrance, entered the classroom, Mo Long and Lin Dong were chatting, saw Lu Yang coming, Mo Long waved his hand and said, "Boss, we are here."

Lu Yang saw Mo Long come over with a smile, and said, "Your boy is pretty good. I heard that Tu Feng has arranged you to be his deputy."

Morong smiled and said, "I can't humiliate the boss."

Huang Xiang's face was a bit unnatural, and Qiang Yan said with a smile: "Lu Yang, I heard that both the human race and the beast side had a slaughter of the city. Do you know what happened?"

Lu Yang shook his head "naturally" and said, "I don't know. Fortunately, I kept someone inside the fortress that night, otherwise I would be unlucky."

Morong said excitedly: "Don't you know yet, this morning's big news is even more explosive than the second world revision. The orc empire's wolf novice village Aiwatai town was blood-washed by a level 50 lion. The materials of more than 10,000 businessmen were exploded. I don't know which good luck guy picked it up. "

Lu Yang pretended to be surprised and said with wide eyes, "What materials can they have, a novice village."

“That’s not only the Xinshoucun, but also the trading place of the wolf material merchants. All the gold materials are sold, and the price is very expensive. If you buy them at their price, it will be hundreds of millions of materials.” Mo Long said excitedly. .

Lu Yang laughed inwardly, but exclaimed: “The guy who picked it up is really lucky.”

Huang Xiang looked at Lu Yang’s expression and did not seem to be false. He reluctantly said, “Boss, I want to apply for the combat department. Although your salary is very high, I still want to lead a soldier to fight.”

Lu Yang thought about it and said, “This incident made me think about it. You guys know it. My approach has always been to hand over the players to the heads of the seven major regiments. I don’t get involved in the specific management of things, and you guys This is my college classmate. If I insert you into any team, it is easy for them to have the idea that I am using you to monitor them. “

This is Lu Yang’s excuse for a long time. The purpose is not to let Huang Xiang pollute his troops. Once such a person is identified as a traitor in the future, his men will also be defined as traitors by the people in the Sanhedrin. Lu Yang does not When absolutely necessary, he will never destroy a group of people because of him alone.

Huang Xiang didn’t think about this layer, nodded and said, “It’s true.”

Mo Long said: “Which main team to go to, Tu Feng is almost dead over there, and we are in short of help.”

Huang Xiang nodded and stopped speaking.

“Kakaka”

Footsteps came from a distance, and when approached, the beautiful teacher Liu Mo appeared in the door wearing an ol costume and stood on the podium and said, “Classmates, this is the last class we met ...”

Sure enough, as Lu Yang had speculated, the biggest virus crisis that swept the world in the last life made countries have to declare a state of emergency.

All assembly places are closed, all shopping malls are closed, only the vegetable market and factories are open as usual, and all students enter special classes specially opened by the Second World.

After Liu Mo finished speaking, the school began to distribute helmets, one for each person. After receiving the helmet, Liu Mo asked: "I will explain how to use it in a unified way."

The learning mode can be clicked in the game or in the interface for selecting characters. At present, the game is still being upgraded. Lu Yang enters the school class according to Liu Mo's requirements.

When it comes to school at night, the system prompts in the game.

"The expansion has been updated."

Lu Yang came out of school and came home to go online.

Didi

A beep came.

When Lu Yang opened it, Xia Yuwei invited him to enter the special space. After clicking to agree, the light flashed into the special space.

The eight legion commanders, including the trumpet built by the Sirius in the Terran, are all listed.

"So eager to find something about me." Lu Yang asked.

Jiang Ze said: "This revision has affected us too much ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Boss, what should we do."

Lu Yang said, "I don't know the content of the revision yet. Tell me about it."

Jiang Ze said: "The first one reduced the difficulty of the upgrade. We have calculated that the experience that needed to be upgraded to level 30 can now be upgraded to level 35, and the upgrade is 3 times easier."

Before level 30, the upgrade experience only required a few million, and immediately after level 30, it increased to tens of millions. After reducing the difficulty, the experience to level 30 is greatly reduced, and players can quickly rise to level 30.

"I don't care about this," Lu Yang said.

"A lot more than that, a quick upgrade system has been added to the game. Players can do a series of ring tasks. After completing them, they can gain a lot of experience."

This is the money-for-experience system that has been criticized by a large number of ordinary players in Second World, and has been infamous in subsequent generations.

Players only need to pay a large amount of game currency to purchase the items issued by the task person, and they can use these items to redeem experience. A 30-level player can easily rise to level 35 after running a 200-ring task. Fortunately, this running ring task is only one week. Can do it once.

Lu Yang said: "For the time being, the people who have the ability to run the ring will only have the presidents and legions of the major guilds. I will pay for the ring running money. You don't need to worry about this."

The White Lion said: "It also added an arena system. On a small island next to the Sea Emperor City, all the shops on the seaside are on fire now. I do n't know who was so lucky before I bought the shop there. I'll go. When I bought one, there were none. "

Lu Yang smiled, didn't speak, but looked at everyone.

People such as Xia Yuwei and Bai Lang were stunned by Lu Yang. Suddenly, Xia Yuwei reacted and said excitedly, "Boss, are you hiding something from us?"

#### Chapter 427 - Forty-level gold equipment

Zhuo Jiu and Xia Yuwei and others looked at Lu Yang in astonishment.

"Boss, you are too godful. We are getting rich again this time. If we rent it out now, it will make more money than the northern part of St. Gall." Tu Feng said.

Lu Yang said to Tu Feng: "It's still up to you, rent it out uniformly, and the minimum lease period is one year. You can handle the rent."

"Yes, I'll do it." Tu Feng took the title deed handed to him by Lu Yang and ran out excitedly.

"What else is new," Lu Yang asked.

The scene became lively. Everyone originally felt that this update would have an adverse impact on them. Everyone was anxious. However, just after the three updates were mentioned, Lu Yang easily resolved them and calmed them down. Come down.

Jiang Ze said: "The fourth update is due to the increase in the number of people, the three major races each added 12 main cities, each player has a chance to transfer for free."

The number of Chinese players has soared from the original 100 million to 400 million. It is very wise to open 36 new main cities, and other countries have also opened new main cities.

Lu Yang asked: "Several guilds on the sides of St. Gall and the Empire of the Sea have decided to transfer."

Jiang Ze said: "Large guilds such as the Dark Ranger have moved more than 100, and medium sized guilds have shifted more than 1,000 like the classmates. However, our opponents, black blood, addicted, The blood tyrants, the eternal spirit, the twilight, and the male tyrants did not leave. "

Lu Yang said: "It looks like these guilds will definitely launch a total attack on us, and we don't have much time."

Everyone nodded.

Jiang Ze said: "There is one last update. At 5pm tomorrow night, the 30-level maps around the main cities will open a new upgrade point. This special upgrade point has three times the experience of ordinary upgrade points."

Lu Yang sighed in his heart. Sure enough, the "Second World" official is engaged in things like the previous one. This upgraded map is actually a battlefield map.

It can only accommodate 300,000 people to upgrade, and all players above level 30 are rushing in, especially the major guilds. This map will definitely cause a large-scale PK battle. Desperately.

"If there are no accidents, Chi Mu and Wang Teng may set ambush for us here," Lu Yang said.

"Boss, we are all ready." The white lion said with fierce light.

Lu Yang asked: "What kind of map are they?"

"The holy city is the big cemetery, and the sea emperor is the territory of the sea monster." Jiang Ze said.

Lu Yang said: "In this case, if you really hit the white lion, muddy wine, bitter love half-life and Zhou Tianming, the three of you are responsible for the upgrade map over the sea emperor city, and I will take the other people in charge of the holy city. "

A bitter love asked for half a life: "The enemy here is too strong, should we come back, boss."

Lu Yang shook his head and said: "No, the sea emperor city is not very peaceful. The four of you must hold the scene strong. Remember, don't embarrass casual players and small unions. Medium guilds and grand guilds come to grab land. Kill me out. "

"Why do you do that?" White Wolf asked.

Lu Yang said: "I want to tell players in the Imperial City that we do not target casual people, but only guilds. This is a hegemony game. Now we are the strongest, either to upgrade with our alliance or to get out."

Zhou Tianming nodded with White Lion and others.

"But the holy dominion, the eternal soul, and the bloodthirsty domineering side of the holy city are all super guilds, which is not easy to handle," said Zhuoji Qingping.

Lu Yang thought for a while and looked at She-Tiri Wolf and asked, "Will Luo Cheng continue to hit your fortress?"

Shooting Sirius said: "No more fights, the fortresses' wars have stopped, the upgrade experience itself has been reduced so much, and a level 30 map with 3x experience has been added. Major guilds are afraid that the upgrade speed will be dropped by other guilds Too many, are negotiating, and many guilds have gone to the new main city. "

Lu Yang said: "Then I have the confidence to take three guilds to withstand the offensive of Xiongba, Divine Eternal and Bloodthirsty."

Everyone was surprised to look at Lu Yang.

Xia Yuwei asked: "How to fight?"

Lu Yang smiled mysteriously and said: "Send a message to the 3640 brothers, all returned to the Red Fort, leaving 700 players at level 30, and the others disbanded."

"Do you want to bomb them with the curse?" Jiang Ze thought for a while and said with a smile, "The curse can only be played once, no."

Lu Yang smiled and said, "What is it to use the curse to forbid, I want to crush these people with my strength."

Everyone was surprised now.

"How to do it," Jiang Ze asked.

Lu Yang said, "Let's go with me to the inner city first. I'll take you to see a good thing first, and be sure to scare you."

Exit special space.

Lu Yang took out the fort to return to the city and flew back to the inner city of Red Fort.

As soon as they landed, a white light array appeared around them, and others such as Zhuojiu and Xia Yuwei appeared beside Lu Yang.

"I'm dizzy, what's the matter?" White Wolf just raised his head and found that the dense crater in front of the crater was full of black self-exploding insects.

"It's disgusting, why are there so many bugs?" Lan Yu asked.

Lu Yang said with a smile: “Surprisingly, the two days we walked, there were too many self-explosive worms produced by 90 flesh-blood females, and the crater could not fit. Han Yu had to send flesh-blood females to the northwest corner. On the walls. “

The crowd looked in the direction of Luo Yang’s fingers, and Han Yu was beckoning at them. Around him were 90 flesh-blooded female worms who continued to spit out self-exploding worms.

The white wolf blinked and looked at the self-explosive insects that were also paved under the city wall. Some reacted and looked at Lu Yang and asked, “Boss, there are so many self-explosive insects. The volcano can’t hold it.”

The internal space of the crater is enough to house a lord-level monster spirit of 80 meters in height. It can be seen that the crater is so large that it can’t fit even the crater now, obviously the number is already beyond calculation.

“It has to be millions.” Zhang Zibo said.

Lu Yang Yile said, “There are tens of millions, enough 700 people to instantly rise from level 30 to level 40. This is what I specifically reserved for you. Each of your legion chiefs will select 100 punishment paladins. Or the Berserker came to the gate of the fortress, and I unified them to upgrade. “

“Yes.” Xia Yuwei and Zhuo Jiu flew to the outer city area immediately, and more than 3,600 people were waiting there.

Not long.

The gate of the inner city of the fortress opened, and Xia Yuwei and Jiang Ze brought 700 people to the door.

Lu Yang sent a message to Hei Yan, saying, “Take 30 30th-level minor forbidden spells to the wall.”

Previously, Lu Yang only used flesh and blood to bring 60 people to level 40, of which only 30 were mage, and the remaining 110 mage of the entire mage group were all level 30 players.

Hei Yan took 30 people to the wall and was surprised.

Lu Yang said: "Use a secondary injunction to kill these larvae."

"Yes." Hei Yan stood at the head of the city with 30 fire methods, and uniformly used the secondary forbidden spell Meteor Fire Rain.

A cloud of fire formed over the crater and the northwestern city wall. Thirty seconds later, ten fire methods shouted together.

"Meteor fire and rain."

Countless fire meteors descend from the sky.

The more than 600 players standing at the door were wondering what Lu Yang asked them to do. Suddenly, their dialogue bar flipped up and down.

System prompt: you have gained 2196 experience

...

"My experience slot, my God, this experience."

In each experience slot, the experience bar quickly moves towards the end of the slot.

"Ding"

The 700 golden lights lit up almost at the same time, and everyone raised a level.

“Ding”

There was another golden light on the 700 people.

...

In a row of 10 golden lights, the level of 700 people who came came to level 40 collectively.

“These flesh-and-blood females are really babes,” said the White Lion.

Lu Yang shook his head and said, “How’s it going?”

Everyone nodded, and no one could imagine such a rapid upgrade.

Jiang Ze scratched his head and said, “However, this group of people is not equipped. They have levels, and they have not improved much compared to players at level 30.”

Lu Yang said, “Do you still remember the honor when you killed?”

“Remember, I’m still curious, what is the use of that thing, I have more than 800,000.” Jiang Ze said.

Lu Yang said: “Now tell you, this thing can be exchanged for level 40 gold equipment.”

“What?” Every one couldn’t help shouting, including the pouring of muddy wine, and then couldn’t help swallowing his throat.

“Boss, the honor value can be exchanged for the gold equipment of level 40?” White Wolf asked again confirming ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~, the gold equipment can only be made with materials and drawings, which everyone knows Yes, it takes dozens of gold coins to buy each set of equipment, which is still a friendly price.

It can be imagined that according to common sense, level 40 equipment will be more difficult to obtain, but now Lu Yang told them that the honor value can be exchanged.

Lu Yang said with a smile: "Follow me and go to the city guard camp on the right side of the King's Castle. If you go there, you will know what is going on."

"Walk, walk, walk, hurry, go together." Zhuo Jiu and White Lion were so excited that they took their men with Lu Yang and flew back to St. Gall to the King's Hall.

at this time.

The holy city has become a player's demand, there are novice trumpet everywhere in the safe area, there are millions of them, if there is not a newly opened main city shunt, there can be tens of millions of trumpet here.

Lu Yang led the team through the crowd to the King's Castle, and almost no one found them.

In the city guard camp on the right, Corps leader Masco was training with 50 soldiers and saw Lu Yang bringing people. Musco voluntarily walked in front of Lu Yang. His right fist struck his chest and said, "Welcome you, human warriors. "

Lu Yang also reciprocated, saying: "Our battle has been very rewarding this time, killing 800,000 orcs in total, Master Legion, we want to exchange a batch of equipment to support the next war."

Musco said excitedly: "Of course there is no problem. You are all good. All soldiers stop training and start the war."

Fifty soldiers immediately lined up in a horizontal row, 3 meters apart, and Musco himself turned on the war quarter mode. A purchase template appeared in front of Lu Yang.

"My God, the level 40 equipment is so good." Xia Yuwei exclaimed.

## Chapter 428 - Money making plan

### Master Sergeant's Two-Handed Sword (Gold)

Level: 40

Attack: 366—402

Strength: +60

Stamina: +92

Additional attack damage: +78

Increased critical strike chance: +112

Slots: 3

Compared with gold weapons at level 30, the attack power has been increased by more than 200 points. At the same time, strength and physical strength have increased by 50 points, especially physical fitness.

“Why is this equipment so much stronger than the 30th level, better than the legendary level.” Jiang Ze asked excitedly.

Lu Yang said: “Look at the honor value you need to redeem.”

“170,000!” Jiang Zemeng stagnates and said, “Such an honor value is needed.”

Lu Yang said: "Look at it. Ordinary players want to collect so many honor points, and 2 months may not be enough, so such rare things have naturally high attributes."

Everyone nodded.

White Lion said: "Fortunately, other small pieces do not require so many honor points. The minimum guard is only 60,000 points. Our 800,000 honor points are enough to change a set of equipment."

There are a total of 11 items that can be exchanged, including two-handed weapons, one-handed weapons, shields, and an 8-piece suit.

The 8-piece set of the Master Sergeant's set adds up to 588 points of defense, an additional 320 points of strength, 400 points of physique, and a total of more than 1,400 points of attack power, plus 200 points of attack power.

This 8-piece set alone is equivalent to 15 attributes of 30-level gold equipment. If you take into account the attributes of the weapon and its own, and the 5-piece set of death, a 40-level full punishment knight, the attack power can reach more than 2900. Qi and blood more than 5000.

Xia Yuwei exchanged a piece of equipment, looked at her attributes, and said in amazement: "I feel that even without pk technology, I can kill 5 to 6 level 30 golden paladins by myself."

Lu Yang said: "This is the strength of military uniforms. Moreover, military uniforms have more than just such effects. Don't forget that there are three slots on each military uniform."

"Boss, do you want to match us with gemstones?" Xia Yuwei looked at the 700 people behind him and said, "The amount of gemstones is too large. You can't buy them now."

Lu Yang smiled and said, "Who said that I need to buy it now, and I have tens of thousands of Grade 5 gems in my warehouse, just waiting for today."

At Lun Ling College, Lu Yang played for almost half a month before, 22 laboratories played three times, and most of the gems obtained were synthesized by Lu Yang for grade 7 to 10 advanced gems, with a total of more than 800 pieces.

These non-inlaid gems will not be damaged if they are decomposed, and they can be perfectly divided into low-level gems. If they are all 5 levels, there are tens of thousands.

He said bitterly for half a life: "Boss, it looks like you have been prepared."

Lu Yang said with a smile: "I'm going to give everyone in this group blood and attack gems to get their health to about 16,000. You said that by then, the 700 punishment riders and violent wars rushed in. What the other person is like. "

Jiang Ze said excitedly, "How about letting me lead this army?"

Lu Yang said, "I'll leave it to you."

The turbid wine poured out, the three males of the Bai Family and the bitter love stared at Jiang Ze enviously. They had to stay at the Sea Emperor City, otherwise it would be Jiang Ze to do such good things.

Lu Yang saw that everyone wanted to lead the team and said, "Don't worry, enter the map tomorrow. Let the remaining 2900 players with honors go to upgrade first. I will continue to smash the worm and fight for it within half a month. Raise their level to level 40 first, and by then, each of you can lead the team. "

Xia Yuwei and others showed surprise on their faces.

"All return to the Red Fortress, I'll get the gems," Lu Yang said.

Returning to the demon temple, Lu Yang decomposed the high-level gems into 5 grade gems, then returned to the fortress and handed it to Jiang Ze for distribution.

Looking at the time, it was only 6 o'clock in the evening, and Lu Yang dialed in Han Zhong's speaker, saying, "Master, do I need to buy another batch of 5 and 20 gold equipment drawings?"

The Terran has opened 12 new main cities, and the smithy business can continue from the existing 4 main cities to the new main city.

Han Zhong said with a smile: "Need, I'm looking for you. I have 1200 sets of gold equipment drawings for level 5 and 20. The business is so good. The inventory is sold out as soon as the 12 main cities are delivered. . "

Lu Yang said with a smile: "No problem, I'll buy it for you."

"Okay, then I'll recruit people here, and strive to open all 12 branches by tomorrow afternoon." Han Zhong said.

Lu Yang smiled and closed the intercom. The 12 main cities opened this time were Lu Yang's most profitable business.

Each main city can accommodate tens of millions of new players. Among them, there are countless tyrants. In the face of difficult daunting environments, anyone who has money will buy a level 5 set and then upgrade.

In the last life, no one player seized this opportunity, and Lu Yang decided to try it once to see how much money he could make.

Putting on the Red Flame Lion King, Lu Yang ran towards Bissell ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ not only bought the equipment drawings, but also the recipe for the potion.

After handing over the equipment drawings to Han Zhong, Lu Yang came to Jin Buhuan's office.

Jin Buchang was busy making plans in the office. When he saw Lu Yang coming, he said with a red face: "Boss, I'm looking for you."

Lu Yang said with a smile: "How is it? Business is good."

"Not only good, this time we are getting rich, with 12 main cities and hundreds of millions of players, I am now hiring pharmacists and preparing to open branches." Jin Buhuan said.

Lu Yang took out hundreds of junior potion formulas from his backpack and said, "Look what this is."

Jin Buhuan said excitedly with the formula: "Boss, it's raining in time, and now our pharmacy is making a fortune."

Lu Yang said: "It depends on your ability this time. Open me a pharmacy to 12 main cities. Let's make a fortune together this time."

Elixir is more popular than gold equipment. Most players have a mentality, they always want to increase their attack power to the highest level at the current level.

The kind of damage that is significantly higher than the output of others when playing monsters will make them feel more fulfilled.

Lu Yang's potion for gold is just the top of the basic potion, which is most in line with the taste of players.

Jin did not change his head and said, "Boss rest assured, this time I have absolute confidence."

Lu Yang patted his shoulder and said, "I believe in you."

After leaving the pharmacy, Lu Yang found Han Ying's three siblings, Mu Yu and Xiao Liang, and said, "I will give you a task. The 150 newly recruited masters will not have time to manage it for the time being. Several of you will be responsible for managing them. "

"Brother, rest assured, I will take them to upgrade." Mu Yu said.

Lu Yang handed the scepter to Mu Yu and said, "Send them to the Psychic College in batches, where you upgrade."

## Chapter 429 - Field lord

Rubbing Han Ying's little head, Lu Yang took out the fortress and returned to the city to roll back to the Fenglei Fortress, went out along the east gate, and ran all the way into the forest.

He promised to shoot Sirius, and to find some skill books for the secondary forbidden spell, only the lord monster can drop the skill books for the secondary forbidden spell.

Among these monsters, the easiest to kill are the wild lords of the Exile, Barns the Frozen Soul, Rogor the Ripper, and Warrigan the Echo Lord.

All three are independent lord monsters, wandering in the wild all year round, and it is a branch of the quest for hunters to obtain level 70 legendary weapons.

If the hunter player kills these 3 lord monsters by flying a kite without any help from anyone, they can get a level 70 legendary weapon.

Lu Yang crossed the ghost map swamp, Kodo grassland, and succubus forest on the big map, and after passing through a withered forest, he entered a gloomy land.

System prompt: You found a place of exile

According to official history, the exiled creatures in the Exiled Lands are high-level intelligent beings in another world, throwing their own phantoms onto the special creatures condensed on this planet.

The three previous wars between gods and demons all occurred between the gods on the planet and the advanced intelligences of this world. However, the gods found that these groups of creatures could not be killed, so they changed to imprisoning them in this exile.

The land of exile is a barren land full of deserts and barren mountains. However, under the pollution of this group of high-level intelligences in other worlds, even the deserts have become odorous soil.

Lu Yang rode the Red Flame Lion King into the exile and ran along the avenue. Just after passing a large rock, Lu Yang suddenly felt that there was something abnormal around him.

“Flame Storm”

Lu Yang stowed the Red Flame Lion, and drew the right hand of the lower body to pat the ground, and a black ripple appeared.

“boom”

The crimson flame included Lu Yang and the surrounding 15-yard range.

“3868”

“3876”

...

More than 10 injury figures popped up beside Lu Yang. At the same time, there were also 10 Seth Assassins that were as tall as humans and looked ugly.

Seth Assassin

Level: 60

Qi and blood: 100,000 / 100000

Sete Assassin is the weakest race in the exile, responsible for investigation and assassination, and was found by Lu Yang. Twelve Assassins at the same time showed embarrassed expressions and raised their swords to slash toward Landing Yang.

“flicker”

A white light flashed, Lu Yang appeared 30 yards behind him, and the words in his mouth read out, one by one meteorite impact emerged from the sky, hitting exactly on the road where the Assassin ran towards the landing sun.

“5016”

“1068”

“1068”

Ten consecutive meteorite impacts easily killed 10 assassins to the ground. Unfortunately, nothing broke.

Lu Yang continued to walk along the avenue. For the sake of safety, every 1 minute of Lu Yang’s walk, he threw meteorite impacts and extinguished the sky fire in front and around, looking for a hidden Sete Assassin.

After killing nearly a hundred Sete assassins along the way, Lu Yang saw a translucent element-shaped monster about 80 yards tall after bypassing a high mountain.

Echo Lord (Lord Level)

Level: 60

Qi and blood: 4000000/400000

Echo Lord is the weakest lord monster in level 60. Of course, it is also said by some to be the hardest lord monster.

The reason why he is called the weakest is because this strange attack method only has a long range, and the way to hit people is sonic attack, and the attack range is half a map.

Every time he hits, the Echo Lord will accumulate energy in advance, and every time he accumulates energy, he can see which half of the map he wants to release his skills, and there will be no harm in hiding.

The reason for calling him the most difficult level 60 lord is here. If you do n't understand, once you run away, you will be turned into an echo lord by being attacked by Sonic, and help him kill.

Because of this lord that year, I don't know how many players were killed in the pit. Lu Yang was also one of the many people who were pitted.

Until later, Lu Yang himself researched and understood how to look at the direction of the lord's attack, and responded that the lord could barely see his face because it was translucent.

Only when he releases his skills to shock the audience, if you try hard to see it, you will find that the left half face is a little clearer than the right half face. At this time, it is a \*\*\*\* attack to attack the right half.

Recalling the dozens of days and nights of the last life, sitting here and responding to the lord's singled memory, Lu Yang couldn't help coming to the lord of the echo.

"Mortal, you shouldn't set foot in God's realm." The Lord echoed with a roar, and ten air ripples appeared in front of him.

This is a common skill air bomb of the echo lord. Throw 10 at a time. If there are more than 20 players to play, throw 20 at a time. If there are more than 40 players, throw 30 at a time.

Each air bomb can cause 50,000 damage.

Lu Yang is already familiar with this skill and can no longer be familiar with it. It is very easy to hide. The moment the air ripples, Lu Yang moves quickly to the right.

“Miss”

Easily dodging the first air bomb, the spell in his mouth was read, and the burning skill was ignited on the head of the echo lord.

Immediately afterwards, another air bomb escaped, releasing a second burn.

After avoiding 5 air bombs in a row, Lu Yang said a spell in his mouth, and the staff pointed at the echo lord.

“Meteorite Impact”

The crimson meteorite fell from the sky on the body of the echo lord.

“3974”

Lu Yang’s own magic damage is more than 3,500. Counting 5 meteor impact and 5 layers of burning, it can deal more than 5,000 damage. Only rely on the level 80 magic teacher wand and the demon effect of the demon heart to attack.

Fortunately, the heart of the demon \*\*\*\* and the wand of the magic teacher are weapons that can be worn far beyond the current level, which makes Lu Yang a lot easier to fight.

After 1 minute.

Lu Yang saw that the hatred had stabilized, his left hand was raised above his head and his palms were upward, and a red rose slowly rose.

A burst of red light lit up, and the level 8 fire phoenix hissed, revealing its true body, and large fireballs continued to blow out.

“1874”

“1876”

...

The Echo Lord's blood volume dropped rapidly, and within a short time, he was knocked down by 500,000 points by Lu Yang and Fire Phoenix.

“Human, your strength has been recognized by me, how about being my servant.” The echo lord asked with a magical voice, while his body inhaled, his swollen belly seemed to be broken.

The system prompts: Echo Lord begins to charge, countdown 10, 9 ...

Lu Yang's eyes brightened, and the spells in his mouth continued to read, and the impact of each meteorite fell precisely on the head of the echo lord.

“8988” (Critical)

“8878”

...

The Lord of Echoes in the state of charge is reduced by 20% of magic resistance and doubles the damage.

In just 10 seconds, Lu Yang and Phoenix combined to kill the 200,000 HP of the Echo Lord. At the same time, at the last moment when the countdown ended, Lu Yang saw that the right half of the Echo Lord was darker than the left. .

“flicker”

With a flash of white light, Lu Yang appeared in the left half of the echo lord’s body.

“Shock the audience”

The echo lord blasted out a sound wave angrily according to the position on the right side, the length was infinite, and it rolled across the right side.

Lu Yang breathed a sigh of relief, read the spell in his mouth, and continued to output.

After 3 minutes.

The second wave of charging started, and Lu Yang continued his onslaught, easily knocking out 200,000 blood.

...

After eight consecutive dodges, the echo lord’s unwilling roar fell to the ground, and countless items fell from him.

System prompt: You killed Echo Lord

You get 68798 experience

Lu Yang quickly came to the Lord of the Echoes, and a golden scroll fell in the most prominent position.

The Sound of Heaven and Earth

Type: Earth Spell

Cost: 2000 magic

Distance: 1000 yards

Effect: Causes significant damage to enemies within 500 yards of the specified target.

Lu Yang was surprised. He didn't expect to find a local skill book here. Of all the mage departments, the soil system is the rarest. The biggest feature of this skill is not only the damage, but also the ability to change the terrain.

Especially by changing the terrain, you can split the enemy into two parts. At critical moments, the team can have the ability to play more and play less in a local area.

There are also such secondary forbidden spells in the space-time spells, which are also very rare. Such a skill book has a highest selling price of 50,000 gold coins in the previous life ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ because of one of the most classic battles of the previous life The two guilds of Kuangshige and Silver Glimpse fought in a plain. The number of Kuangshige was small and the number of Silver Glimpse was large.

Kuang Shige pretended to be defeated and fled backwards. After the elite players and ordinary players of Silver Gliding pulled away, they used the sounds of heaven and earth to change the terrain. A huge gap of 500 meters in length and 50 meters in width was formed in the middle of the team of Silver Gliding.

The silver glance can only watch the guild's elite players being killed by Kuang Shige with more fights and fewer kills.

Recover the skill book into the backpack, and Lu Yang continued to look.

Plans: Echo Ripple Ring (Gold)

Level: 40

Spell damage: 36-60

Intelligence: +60

Stamina: +60

Additional Spell Damage: +66

Lu Yang shook his fist hard, he did not expect that he could still get this baby, this is one of the top 40 magic spell rings.

There are no good things in the remaining items, only a few pieces of silver equipment. After Lu Yang put away, he continued to march toward exile.

Moving forward, the desert was gradually covered by a layer of ice, and the world became colder. Until Lu Yang walked into an ice field, under a 30-meter-high ice wall, Lu Yang found a painting with blood. Come out of the weird array.

This is the location of the second lord monster. To find this lord monster, you need to stand for a few seconds in this weird formation.

The specific time is not fixed. I don't know the moment when Roger the Ripper will appear. Generally speaking, the people standing in the formation will be shredded at the moment Roger appears.

At the beginning, when the player hit the lord, they always let one person die to death, and then they played together. Later, the player found that it was not necessary to go, but can use the summoned pet or something.

#### Chapter 430 - Forbidden Ice

Lu Yang had a green heart in his hands, and did not worry that he would be killed. He went directly into the formation and began to wait quietly.

The blood-colored array method emits a blood-red light, and the wind on the ice sheet is rising sharply. When Lu Yang feels that nothing is right, he quickly activates the emerald heart, and the entire body becomes a green nothingness.

At the same time, at this moment, a huge black ax cut across Lu Yang's body, chopping the huge ice wall behind him.

"Humble human, do you want to be my tribute?" A 30-meter-high ice field giant, standing in white fur, was standing on the ice wall.

Rogort the Ripper (Lord)

Level: 60

Qi and blood: 5000000/5000000

Rogort missed a shot, turned and split his axe on Lu Yang's body.

"Miss"

Being physically immune, Lu Yang is not afraid of any physical attacks, which is why he dares to challenge Rogort.

“flicker”

Lu Yang’s mouth read a spell that jumped to a 30-yard position, and a flame ignited under his feet.

“Blazing Blaze”

“The Path of Fire”

Turning on two skills in succession, Lu Yang ran quickly towards the original road, Rogort took a huge ax and chased after Landing Yang, stepped into the flames, and suffered a lot of damage immediately.

“2818”

“2818”

...

There are only two and a half long-range skills for Rogort. The first is the Spiral Axe, throwing the axe out of all targets within 50 yards of the attack range, and the second is the instant skill Shattering Rock, which will bring the ground directly within 1000 yards All the enemies encountered were stunned and the width was 50 yards.

These two skills, Lu Yang, must be hung up for any one of the hits. The half of the long-range skills is that Rogort summons the icefield eagle to attack Lu Yang from the air.

However, Lu Yang has a solution to these three skills. He used the trail of fire to take Rogort back and forth three times on the ice field, and when his 500,000 blood was worn away, Rogort stopped in his place and held his hands. The huge axe flew forward.

Lu Yang’s eyes widened suddenly, and a spell was in his mouth.

“flicker”

With a flash of white light, Lu Yang appeared 30 yards from the side. While Roxote was still in place while the axe wasn't retracted, Lu Yang said a spell and connected five burns.

Just finished, Rogot's huge axe returned to his hand, and roared as he continued to chase towards the landing sun.

The path of fire under Lu Yang's feet has disappeared.

“Inflammation”

A flame surrounded Lu Yang, and instantly turned into an 8-meter-tall red-red flame, all common fire skills had a cool-down time.

Lu Yang clicked on the path of fire and hot rapids, and continued to run with Rogot's map.

After avoiding the flying axe 4 times in a row, Rogot's health dropped to 3 million, his left hand raised, and a silver light flashed.

“Neighing”

A silvery white condor appeared above Rogot's head.

Icefield Condor (Elite)

Level: 60

Qi and blood: 800,000 / 800000

If it is a team to fight, there must be a shield battle or anti-riding to hold him, but Lu Yang does not need to control him, the elite monster's movement speed is 150% of the player, the lord monster is 200%, Lu Yang's Movement speed is 285%.

Lu Yang continued to run forward. Not long after, the distance between Condor and Lu Yang reached 100 meters, and Lu Yang was almost invisible.

For every 100,000 blood drops, Rogort will summon a condor. Unfortunately, none can catch up with Lu Yang.

When Rogort's health dropped to 500,000, there were dozens of condors behind him, all left behind by Lu Yang.

"Damn humans, you have to pay for it." Rogort leaped high, slamming his axe on the ground.

"Crushing Rock Strike"

Lu Yang has been waiting for this trick, launching flashing skills to easily avoid this attack, and continue to run with Rogot.

After 3 minutes.

Rogort's health returned to zero and he fell to the ground.

System prompt: You have killed Rogue the Ripper

Lu Yang walked to Rogort and looked at the items falling on the ground.

Extreme Zero Freezing

Type: Ice Curse

Cost: 3000 magic

Distance: 1000 yards

Lu Yang did not expect to get a curse. In his memory, the probability of killing a level 60 lord to obtain a curse is less than 0.1%.

"It's so lucky." Lu Yang sighed.

With the last lord left, Lu Yang walked towards the depths of the ice field and ran an hour on the Red Flame Lion King. Lu Yang came to the gate of a huge ice cave.

System prompt: you found the ice cave

This is the location of Ice Lord Barnes. Lu Yang walked into the cave and killed the mobs all the way. In a huge square at the deepest part of the cave, he saw a 10-meter-tall, dark body, and his body was radiating around him. Fantastic humanoid creature in the rays of ice.

Lord Frozen Barnes (Lord Level)

Level: 60

Qi and blood: 5000000/5000000

Barnes' most powerful skill is the Frost spell. Instant Frost Nova damages 50,000 points. He will be killed when hit.

The second skill is the range ejection magic ice bomb. As many players as possible within the range, eject as many people as possible until the distance between the two is more than 20 yards.

The initial damage of the skill is not high, only 3000 points, but this skill in the last life made any team that came to fight Barnes uncomfortable.

There are as many ice bombs as there are people within 100 yards. The players in the range have avoided the people around them, but ran to the side and caught up with another person.

This lord blamed the guild that came to attack for two months.

Lu Yang dared to kill him because he only had one person, and only two counted the Phoenix. Now Lu Yang's blood volume is approaching 8000 with the increase of the spirit of the demon god, and it is not a problem to hit an ice bomb.

As for the Frost Nova, a master from the last generation has specially studied it. When the Frost Nova releases a Frost Nova, there is a spell shake for 0.5 seconds. As long as it blinks at that moment, it can be completely avoided.

Lu Yang's ultimate response time is 0.4 seconds, and the time difference is 0.1 seconds.

When he came to Lord Frozen, Lu Yang read a spell in his mouth, and burned it over his head.

"I want to freeze you here." The ice lord raised his right hand, Lu Yang's eyes flashed sharply, the moment he lifted it to his chest.

"flicker"

"Frost Nova"

As soon as Bai Guang was lit, Frost's nova burst on top of the white light, and the white light flashed at 30 yards on the side. Lu Yang appeared there unharmed. He lifted his right hand, the fire phoenix flew into the air, and a large fireball spewed from his mouth.

Lu Yang used burning, covering the second layer.

The Frost Lord raised his scepter with his left hand, and a Frost Arrow shot towards the landing sun.

Lu Yang hid to the right and avoided the attack of Frostbolt.

“Snapped”

The ice arrow cracked when it landed, and a thin layer of ice covered the ground.

System Tip: Reduce your movement speed by 50%.

Lu Yang’s mouth spelled out.

“Blazing Blaze”

Increased the movement speed by 285%, removed the slowing effect of Frostbolt, and continued to use Burn.

Consecutively dodging five cold ice arrows, Lu Yang began to use meteorite impact.

After 5 minutes, Lord Frost’s right hand was lifted again. Lu Yang conscientiously noticed that if he was accidentally hit by Frost’s new star, Lu Yang would die.

The moment he lifted his chest, Lu Yang flashed again.

“嘭”

A blast of ice burst in white light, 30 yards to the right, Lu Yang appeared unharmed.

“Hoo ~!” Lu Yang exhaled and continued to use the meteorite impact attack.

Soon, the ice lord’s health dropped to 2.5 million points.

“Ancient ice elves, obey my call.” The ice lord raised his hands above his head, and hundreds of ice elves were flying in the air.

“Ice bomb” Frost Lord pointed with one hand.

Only an ice elf fell into a solitary ice bomb and fell on Lu Yang’s body instantly.

“3000”

Lu Yang put on a healing ring, and several consecutive cures increased his health, and then continued to attack.

After 10 minutes.

Lu Yang finally killed the ice lord and looked at the skill book “Ice Butterfly Dance” on the ground and put it in his backpack.

As he was about to leave, Lu Yang found a treasure chest in the corner and could not help but walked curiously.

Treasure Chest (Dark Gold)

Lu Yang’s favorite is this kind of treasure picking. He tried to open the treasure chest, and to his surprise, it was an unlocked treasure chest.

Light Fire Fort Badge (100/100)

Lu Yangmeng punched him on the wall ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ he no longer knew what to use to express his excited mood.

Fort of Fire, the most powerful of all the schools of fire law in this game, 100/100 means that only 100 people of each race can learn.

In the previous life, every player who came out of the Light and Fire Fortress had more damage than other fires, but compared to the control, no player in the fires could compare with it, even in front of the players in the ice department. How weak.

Lu Yang thought it would be available after level 100. I didn't expect to get it here. Looking at the time, it was already 11:30.

If you want to join the Fort of Light and Fire, only the badge is not enough. After his test, Lu Yang feels that he is not in the best condition today, and decides to play again tomorrow morning.

He took out the city roll and flew back to the Red Fort. The corps leaders were gathered in the fortress hall to discuss today's work.

Seeing Lu Yang coming, they stood up and greeted.

Lu Yang returned to his position and motioned to everyone to continue.

After a brief summary, Tu Feng said, "Today we have news that the hegemon, the twilight, the bloodthirsty hegemon, and the eternal soul are ready to launch an attack on us tomorrow to show their cooperation."

Lu Yang sneered and said, "These \*\*\*\* are afraid that the other party will not hit them seriously, so they have to force each other to hit us once."

Bitter love half, said:. "Who dares to us to beat him."

Lu Yang shook his head and said, "The three of you still can't come back. Remember, endure these five days and wait for Tu Feng to turn all the materials into a gold suit. This is when we preemptively strike."

Tu Feng said: "There are too many equipments, and I have more than ten days to finish it."

Lu Yang thought for a while and said, "You give me 16,000 sets of the materials, and I will find someone to do it."

#### Chapter 431 - Light Fire Fort Challenge Mission

Shooting Sirius said: "Boss, I may have some trouble here. This time, 12 main cities have been opened, and 19 consortiums have ran to the new main city to open up. However, Luo Cheng seems to be following us. I heard that his cousin Liu Jie bought 10 guilds and spent more than 6 billion credits. Although these 10 guilds also went to Xincheng, Luo Cheng's guild and 2 affiliated guilds are still here. "

Lu Yang sneered and said, "Of course, Liu Jie didn't know where to get the news. He knew that our fortress was connected to Sirius Fortress, otherwise he wouldn't instruct the human race Wang Teng to come and hit my fortress, and then Luo Cheng hit your fortress. "

Only then did Zhuo Jiu and Xia Yuwei understand.

"It looks like we and Liu Jie must separate a dead or alive." Bai Lang said eagerly.

Lu Yang said with a smile: "Yeah, with these two strongholds, we can get a lot of military uniforms when we reach level 40, which is very attractive for any player who is interested in dominating the game. Now it is just Liu Jie and I know that if you let others know, Sirius Fortress and Red Fortress will have to be attacked every day. "

Shooting Sirius said with anxiety, "What should I do, my enemies around me, and the other three strongholds are controlled by three consortia."

Lu Yang said: "The only way is to kill the enemies of St. Gall and wipe them out. Then I will take you to the Wolf Clan to help you defend the city."

Zhuoju asked, "Boss, who should we hit first?"

Lu Yang said with a smile: "The muddy wine, the white lion, and the half-loving half-life, I will give you three days of preparation time, and you will upgrade with your subordinates in these three days. I will fight with the spirits forever and late for three days. , You take part in the battle. "

This time, Lu Yang was cruel, and would rather fight for the remnants, he would have to kill the two confidants.

"Boss rest assured, we must live up to the trust," said the duo, the white lion, and the half-loving half-life.

Lu Yang nodded, took out two secondary forbidden spells and one forbidden spell from the backpack and said to Sirius, "This is for you, this week you have to find a way to hold on, as long as you hold on, it is Great work. "

Shooting Sirius looked at the skill book and nodded, "Boss rest assured that the fortress will never be lost within 10 days."

Lu Yang looked at the crowd and said, "This time the war is about whether we have the opportunity to dominate the entire game. Everyone must be fully prepared tomorrow."

"Yes," everyone answered together.

After Lu Yang nodded, he and Tu Feng returned to the guild office and took 16,000 sets of equipment. He returned to Chengbei Blacksmith Shop and handed it to Han Zhong, saying, "Master, put business aside first, put this 16,000 sets of gold equipment were hit. "

Han Zhong said: "No problem, within three days, it must be completed."

Han Zhong knew that Lu Yang was going to fight, and would prefer to suspend the expansion and support Lu Yang first. He immediately recalled the blacksmith who had drawings to the main cities and tried his best to build gold equipment.

Han sofa came to the news and said, "Brother, the aging old man's elite players are getting more and more turtles, and they are all shrinking together. We are a bit ineffective."

Lu Yang said: "Retreat back to the main city to rest and suspend the attack."

His goal has been achieved. In the past few days, the number of players who have risen to level 30 in the heroes, eternal spirit and bloodthirsty tyrants has all exceeded 30,000, and only late is less than 8,000.

The strong contrast in the quality of the soldiers is the cause of the attack tomorrow, and the initiator of the attack plan for tomorrow is the late twilight himself. This is the news that Jin Buhuan got in advance.

Lu Yang was really chilling. Taking off his helmet, Lu Yang saw Mu Yu running over.

"Brother, give you some water. You are tired all day." Mu Yumeng said.

All of Lu Yang's unhappiness was dissipated in an instant. Looking at a group of brothers and sisters at home, his heart was filled with joy.

"Fortunately, I'm tired today." Lu Yang said.

"Not tired, we can bring new people fast, 150 people have reached level 27 a day." Mu Yu said.

“So fast?” Lu Yang said in surprise.

“This is all thanks to Sister Han Ying. He figured out a way to quickly improve his level.” Mu Yu said.

“What way.” Lu Yang looked at Han Ying.

Han Ying said proudly: “I first blame the monsters as residual blood, and then use the way you took us to upgrade in the secret channel, Xiaoyu took the monsters to level 23 once.”

Lu Yang understands that this can only be achieved by using a level 0 leapfrog, exclaiming: “Good job.”

If these 150 people can quickly form a combat force, it will be of great help to Lu Yang.

Looking at the time, it was more than 12 o'clock. After Lu Yang asked them to go back to rest, they also fell asleep.

Early the next morning.

Lu Yang entered the game early after the workout, but instead of playing, he took classes in the game.

I have to say that class in the game is a more troublesome thing, because if you do n't have class, you wo n't have a punch card record, the teacher wo n't need to call the roll anymore, and the students want to sign in for someone else Useless.

Sitting in the classroom, Lu Yang's head was thinking about the nine-star badge of Guanghuobao, and stayed there until noon.

Lu Yang quickly flew to the Red Fort, and ran all the way to a mountain in the southeast corner of the lamentation mountain on the level 50 map. At the summit, an abandoned beige castle appeared in front of Lu Yang.

The system prompts: you found the Fort of Fire

Light Fire Fort.

According to official records, hundreds of years ago, the Fort of Fire and Fire was one of the greatest fire magic schools in humankind.

The owner of the Fire Fort is the Grand Duke of the human kingdom and the head of the Royal Corps. Unfortunately, in the later years of the Fire Lord, he was attacked by an army from a different world, the Fire King was killed, and the Fire Fort was razed to the ground.

Lu Yang walked into the gate of Guanghuo Fort, stood in the middle of the ruins, and took out the nine-star badge of Guanghuo Fort from his backpack.

The crimson fire light was illuminated in front of a bronze statue of fire king in Guanghuobao. In the fire light, an old man looked at Lu Yang and said.

“Young man, why do you have this badge in your hand?”

Lu Yang recognized this, the King of Fire, and said respectfully, “I killed the Lord of the Ice, Barnes, and found it from the treasure chest.”

“You, killed Barnes?” The Fire King asked with interest: “His frost star is very fast, how do you avoid it.”

Lu Yang said: “I have excellent reaction ability, he can use flashing skills to avoid him by 0.1 seconds every time.”

The Fire King sighed, and his eyes showed a look of nostalgia, and said, “If my reaction time is 0.1 second faster in my old age, the confrontation between me and Barnes must be him.”

Lu Yang said in surprise: “You were killed by Barnes?”

The Fire King nodded and said: "You guys, you are very good. My name is Fire King. I was the owner of the Fortress of Light and Fire. I ask you if you would like to be my student."

Lu Yang said excitedly: "Of course I am willing."

"Okay, then I will teach you the three major skills of Guanghuobao, but if you want to learn these three skills, you have to pass the three barriers, are you ready?" Fire King said.

"I'm ready." Lu Yang said.

The fire king's own flame suddenly became large, and he flew straight into Lu Yang and wrapped it into a void.

With a flash of red light, Lu Yang appeared in a void.

"The first level tests your control ability, and I will give you a temporary skill Yan Yang Suo." Fire King appeared beside Lu Yang.

System prompt: You have acquired temporary skills

"Yang Yang Suo"

Type: Fire Spell

Cost: 500 magic

Distance: 3 yards

Description: Randomly control 6 targets within 3 yards, control time for 5 seconds, and inflict 500+ self spell damage per second.

Lu Yang couldn't be more familiar with this skill. In the previous life, he was lucky enough to get a badge, which was hit on a level 100 lord monster. The process of the three levels is also very familiar.

The Fire King said: "There are 20 targets in front, 8 are wooden people, 12 are bronze people. When you control 5 wood people at the same time without touching the bronze people, you are considered a pass."

Lu Yang looked at the corner of his mouth and showed a proud smile. He didn't know how many times he had passed the previous level. Now let him pass it again. He has five years of mercenary experience ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Play the same.

After careful observation for 5 seconds, 8 wood men and 12 bronze men walked freely within a space of 30 yards, and they were not fast.

Suddenly, eight wood men came together, and the closest one of the twelve bronze men was only half a bit taller than the wood men.

Lu Yang flickered to the middle position without hesitation, and clicked the skill Yanyang cable.

“噤”

All eight wood men around were \*\*\*\* in place, none of the bronze men were tied up.

System prompt: Congratulations to player Lu Yang who passed the first level test in 7 seconds.

The Fire King looked at Lu Yang in surprise and said, "You guys, you are very talented. Let's start the second level. Are you ready?"

"Ready," Lu Yang said.

The screen flashed, and a long aisle appeared in front of Lu Yang. There were 20 wooden people in it, and there were holes in the upper, lower, left, and right walls of the aisle.

The Fire King said: "I will grant you a second temporary skill, the sun hood. He can protect you from 3 times of damage. The channel in front is the undercover channel. If you can kill them before the sun hood is destroyed, , You pass the border. "

" Sun Mask "

Type: Fire Spell

Cost: 300 magic

Distance: Self

Description: Create a sun shield that can withstand 3 damages, inflicting 500+ self-spell damage to enemies within 3 yards every second.

Lu Yang came to the passage, carefully observed the small hole in the passage, and was relieved after finding the same position as the previous life.

This was closed in the past by a master who cracked the launching principle and sequence of the hidden weapon, learned the sequence and time, and walked with closed eyes.

"Young man, are you ready?" The Fire King asked.

Lu Yang returned to the entrance and said, "Ready."

Chapter 432 - The fifth war

Lu Yang did not enter the passage, but opened the Yanyang hood and stopped to observe it.

Twenty wooden men walked back and forth in aisle disorderly.

10 seconds

20 seconds

...

At 50 seconds, the eight wooden men, 30 yards away from him, took a subconscious step toward each other.

“flicker”

With a flash of white light, Lu Yang appeared among the eight wood men.

“Yan Yang Suo”

Eight wood men were trapped in place, while being constantly injured by the sun mask.

“3978”

“3998”

...

Five seconds later, eight wood men died, and Lu Yang’s sun visor was not injured at all.

There was no dark arrow or flame fired in the hole in the surrounding wall, because the position where Lu Yang stood was researched by a great \*\*\*\* of the last life, and it would definitely not trigger a trap.

There are three such positions, and Lu Yang continues to wait for the second.

The remaining 12 wooden men continued to walk disorderly in the passage. A short time later, a wooden man came to Lu Yang, arms outstretched, and smashed towards the landing sun.

“Emerald Heart”

Lu Yang launched the emptiness of the emerald heart, and the whole person became emptiness.

“Miss”

As soon as the Woodman hit the air and continued to attack, when he hit the fifth shot, the eight Woodmen near the door took a relative step at the same time.

“flicker”

With a flash of white light, Lu Yang appeared among the eight wood men.

“Yan Yang Suo”

Eight wood men were trapped, and five seconds later, eight wood men disappeared.

At this point, there were only four wooden people left in the passage. After 30 seconds, the four wooden people reached the third position.

Lu Yang flickered to kill the four woodmen, then turned on the hot speed, and ran to the end of the passage along a weird road.

Sometimes, the route that Lu Yang ran was posted on the wall, and there were clear arrows in the holes in the wall.

However, Lu Yang ran past the arrow and did not shoot out. A total of 100 yards in length, Lu Yang ran easily and did not trigger any traps.

System prompt: Congratulations to player Lu Yang for passing the second level

The Fire King appeared next to Lu Yang and said, "Young man, congratulations on your successful entry. Then you reach the third stage. Are you ready?"

Lu Yang said, "Ready."

The picture in the space flashed, and there was a scene of flowing water on a small bridge. Lu Yang and Fire King stood above the Qingshi Bridge, and there were five uneven pillars in the river.

The Fire King said, "I will send you a third temporary skill, Remnant Flame."

Remnant Flame

Type: Fire Spell

Cost: 300 magic

Distance: 100 yards

Description: Afterglow can create an afterglow of fire every 30 seconds. After releasing the afterglow, a flame afterglow will be generated at the target location. Players can instantly appear in the afterglow and cause (500 + self spell damage) to the surroundings With 1.5 times the damage value, a maximum of 3 afterimages can be created at the same time.

Lu Yang's most wanted is this skill, which is equivalent to the advanced flashing skills of a space mage.

With this skill, in conjunction with the previous fire spell, Lu Yang's pk strength is too much and much stronger than before, which is a complete upgrade.

It won't be long before the game will open the world pk competition. If Lu Yang has these three skills to participate in the competition, there is almost no suspense in winning the championship.

"Young man, are you ready?" The Fire King asked.

Lu Yang said, "Ready."

This level is even simpler for Lu Yang. The test is whether he can skillfully use the residual flame skills. In the last life, Lu Yang used the residual flames when he was almost asleep. There is no shortage of daily upgrades, maps, and monsters. Can Yan, this skill is like the chopsticks that people use to eat.

"Start," shouted the Fire King.

Lu Yang launches the Blazing Blaze skill. The afterimage's moving speed is 2.5 times its own moving speed. Lu Yang starts Blazing Blaze to increase the movement speed by 285%, and then increases 2.5 times. Within 100 yards, it is comparable to flicker.

"Remnant Flame"

Lu Yang pointed a stone pillar in the river with his hand, and the afterimage fell on it with a red light, and Lu Yang chose to teleport.

A red light flashed through the body, and Lu Yang appeared on the first stone pillar instantly. Unlike the flashing scratch space, this is the speed of the body. The player who uses it for the first time will have a strong discomfort.

“There are 10 seconds left,” the Fire King shouted.

This is the prescribed minimum adaptation time. Normally, when raising the residual flame to level 20, it can be used 10 times. Lu Yang can fly 8 times continuously without feeling any discomfort.

There is no limit to the number of temporary skills. Looking at the civilian posts of the remaining 4 pillars, Lu Yang successively released 5 afterimages on the remaining 4 stone pillars and the grass across the river.

Afterglow.

Lu Yang appeared with a red light on the second stone pillar, then jumped continuously, and easily fell to the grass on the river bank.

System assessment: player’s spirit is not uncomfortable

System review: first level sss level

Second level sss level

Third level sss level

Overall evaluation, sss level

The Fire King appeared in front of Lu Yang and said with emotion: “Boy, you have the potential to inherit my strength. Congratulations, you have officially acquired these three skills.”

A reddish light flashed, and Lu Yang’s skill bar added three more skills: Yan Yang Suo, Yan Yang Hood and Can Yan.

“Thank you, Teacher Wang for teaching.” Lu Yang said respectfully.

The Fire King was satisfied with Lu Yang's humility, and said, "Because your three levels have been passed at sss level, I will also give you a special skill-Lie Yangquan."

Fist of the Sun

Type: Fire Spell

Cost: 500 magic

Distance: Melee

Description: Launch a fierce punch on the target, causing 1200+ spell damage, while knocking the target back 10 yards away, regardless of level restrictions.

Lu Yang excitedly shook his fist and said to the Fire King, "Teacher, thank you so much."

Lie Yangquan, when the first generation of the last generation first appeared, all fire players were sprayed with chicken ribs. It wasn't until the second year of the official World Masters that one player officially used this skill.

Used in conjunction with Remnant Flame, Fire Snake Bonding, Sun Mask, Meteor Impact and Skyfire, Lie Yang Quan can defeat one third of the Qi and Blood in a single shot.

In the second year of the previous competition, the level of players around the world is nearly 150, and their blood volume is hundreds of thousands, which can knock down one-third, and instantly make this skill a popular service.

In the past, a skill for pushing people to grab equipment rose from dozens of gold coins to 1,000 gold coins, and local tyrants slammed in for this skill.

Lu Yang had wanted this skill in the last life but had no money to buy it.

The Fire King said with a smile: "Don't thank me, you avenged me. If you want to upgrade your skills in the future, you can come to me."

Lu Yang chose to upgrade. He is already at level 50. He can upgrade his skills by 1 level. After spending 10 gold coins to upgrade all 4 skills to level 1, Lu Yang said: "Teacher, what else is there to command me? gone."

The Fire King thought about it and said, "If you have the ability to reach level 60, I hope you enter the Steel Hammer Ogre Empire to help me kill the Skullbreaker Demon Mountain."

Lu Yang asked: "Who is this person?"

The Fire King could not restrain the anger and said, "If it was not destroyed by the ogre empire when he destroyed it, I would not be killed by the waste of the Ice Lord. The thing I hate most is not the Ice Lord but the Magic Mountain. "

System prompt: Are you willing to help the fire king to kill his enemy

Lu Yang clicked yes and said, "I will help you fulfill your wish."

"It's best to take some more people after level 60. I'll wait for your good news." The Fire King stopped talking.

"Okay." Lu Yang took out the backpack and flew back to the city of St. Gall. It was past 1:30 in the afternoon. Lu Yang hurried to click on the classroom in the game to go to class.

Until 3:30 in the afternoon.

After school, Lu Yang returned to St. Gall.

"Drip ... Drop ... Drip"

The reminder of the invitation to the special space sounded. Lu Yang saw that it was from Tu Feng and clicked to enter the space.

With a flash of white light, Lu Yang found that the leaders of the army such as Zhuojiu and Xia Yuwei were there.

“What’s the matter?” Lu Yang asked ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Tu Feng said: “Just got the news, the twilight, the hegemon, the eternal spirit, the bloodthirsty hegemony, and the black blood have been agreed. Come and play immediately, there are 100,000 players above level 30 sent by them this time. “

Lu Yang sneered and asked, “How many people are we on the holy city side?”

Xia Yuwei said: “I have 40,000 players above level 30.”

Jiang Ze said: “I have 20,000 people.”

Sun Yu said, “I also have 20,000 people.”

Lu Yang calculated that there are 80,000 people, which is 20,000 less than the other party. If you count the other party’s tens of thousands and 20 levels, it is really troublesome.

Bai Hu said, “Boss, let’s come back.”

“Yeah, let’s get out of here first.” Bitter love said for a long time.

Zhou Tianming scratched his head and said, “I have a brother here to tell me that several guilds on the side of the Imperial City want to join together to compete with us. I am afraid that the Imperial City cannot leave this time.”

Everyone was a little surprised now.

The white wolf asked, "How many people are there on the other side."

Zhou Tianming said: "Three large guilds, more than 50,000 people at level 30 and above, they now only have the intention to unite. If we can suppress them, they will not dare to hit us."

If you want to suppress it, you can't transfer the main force from Haihuangcheng to support, Xia Yuwei and White Lion are worried.

Lu Yang said with a smile: "In this way, you confirm to Tu Feng, where do Xiong Ba and Chi Wu hit us."

Tu Feng said, "From the east."

Lu Yang nodded and said, "Very well, without your support, all four of your four teams put on gold equipment and gave me a strong hold on other guilds in the Imperial City."

"Boss, what do you do here?" Asked bitterly for half a life.

Chapter 433 - Forward defense

Four p.m.

Lu Yang led a team of Xia Yuwei, Jiang Ze, and Sun Yu. A total of 150,000 people set off from the red fortress to the entrance of the newly opened map cemetery in the north.

Among the players who came this time, there were 80,000 players above level 30 and 70,000 players below level 30. Among the accompanying people, there were not only 140 times forbidden spell mage, but also Nanfeng Zhiyi and shooting Sirius. 3 mage.

“Boss, these three are brothers who have played with me since I was a kid.” Shooting Sirius pointed at the two ice methods beside him and said a soil method.

Lu Yang looked to Tu Fa and asked, “What’s your name?”

The mage shook his head, embarrassed, and said, “My name is love to eat braised pork.”

Girls like Xia Yuwei and Lan Yu almost couldn’t hold back, and Lu Yang was amused.

“I knew you would laugh, but you still call me a fist.” Saying annoyed at eating braised pork.

Lu Yang said: “As soon as your task is more important, you will always stay with me. When I arrange what you do, you will do it.”

Braised pork said: “Good boss, to ensure that the task is completed.”

System prompt: you found the new map big cemetery

A huge European cemetery appeared in front of everyone, countless graves and crosses, and countless zombies walking to the cemetery.

“Strange, not many people come?” Sun Yu asked.

Lu Yang said: “Every player above level 30 has basically moved to other main cities. Those who stay here have no ability to upgrade here.”

Everyone was right.

Han Yu came to the news and said, "Brother, the old man and the male dominion are leading the team to the west entrance position."

Han Yu sent a message saying: "The bloodthirsty and eternal spirit team is going through the cemetery and preparing to attack from the front."

"How long will it take to get to the Bloodthirsty Batian?" Lu Yang asked.

Han Yu said: "The fastest time is half an hour."

Lu Yang nodded and said to Xia Yuwei, Jiang Ze, and Sun Yu around him: "Players below level 30 upgrade in team mode, advancing towards the northwest, leaving open space here."

"Late twilight and spirits are here forever?" Jiang Ze asked.

Lu Yang said: "I will be here in half an hour. We will take the team to the front to clean up and find a better location to play with them on both sides."

"Yes." The three nodded and proceeded.

Lu Yang said, "Hei Yan, take me with the mage team, Nanfeng Zhiyi and you shot Sirius together."

The periphery of the large cemetery is divided into two maps. The first is the outermost open area, where civilians are buried, and the second is a high mountain, where nobles and senior military officers are buried.

It took Lu Yang and his team 20 minutes to kill a hill with a slow slope, and the hill was the noble's graveyard.

"Brother, the vanguard of the eternal soul and bloodthirsty hegemony, it is less than 5 minutes away from your position." Han Yu said.

Looking at the distance, Lu Anyang could vaguely see 5,000 yards away, and the zombie group was a little confused.

“Have the hegemon and twilight acted?” Lu Yang asked.

Han Sha said: “The tyrants and the twilight team are hiding 1000 meters away from the entrance to the necropolis on the west side, without action.”

Lu Yang guessed that the two guys, Late Twilight and Xiong Ba, could not see the rabbits and eagles. They had to wait for the bloodthirsty domineers to fight before they could fight.

“Everyone put off the offense and prepared to defend,” Lu Yang said.

“Who’s here?” Jiang Ze asked.

Lu Yang pointed to the front and said, “The bloodthirsty domineering and the spirit are here forever.”

Jiang Ze asked: “How to fight, kill them first?”

Lu Yang shook his head and said, “Don’t worry, you first take someone to defend, Yu Wei and Sun Yu order the main force to gather at the tail.”

The voice just fell.

The light in front of Lu Yang lit up, and the bloodthirsty and eternal troops released a lot of high-level magic, quickly killed the zombies on the road, and advanced towards Luyang.

“Everyone defends.” Jiang Ze shouted and led the team toward the front. The defense knights and shield fighters wearing the magic steel suit and absolute defense suit walked to the first row and set the big shield on the ground to form a 1000 Meter-long shield formation.

Shooters and mages are standing in the second row, while priests are in the third row.

Xia Yuwei and Sun Yu were about to go to battle together, Lu Yang said, "You two are waiting behind with your team."

"Yes," the two said together.

Jiang Ze's shield formation has just been completed. The distant bloodthirsty hegemon and the eternal vanguard of the spirit advance to a position 80 yards away from the shield formation. This distance can only be hit by a few archers.

"Strange, why don't they attack?" Xia Yuwei asked.

Lu Yang sneered and said, "It will attack, but not now, let's watch the bloodthirsty domineering and eternal spirit performances first."

In the opposite lineup, the bloodthirsty domineering, the eternal soul and the black blood came together to the forefront.

Shenyang looked at Lu Yang with a smile on his face and said, "It's been a long time, President Lu Yang."

Lu Yang went to the shield front and asked, "Yeah, I haven't seen you for a while. What do you mean, do you want to fight against me?"

The bloodthirsty tyrant Lengheng said, "Lu Yang, you really don't see the situation. I'm here to hit you today. Why?"

Lu Yang said indifferently: "Then hit it, what are you waiting for?"

The bloodthirsty tyrant stagnates, he wants to fight, but he is waiting for the team of Xiongba and Late Twilight, just now Twilight clearly tells the bloodthirsty Batian, they do not fight directly with Lu Yang, he and Xiongba will never participate in this time war.

Now we have met here. Xiong Ba and Chi Du have just taken the team to action. If they want to come here, it will take more than 15 minutes to drive the acceleration scroll.

Seeing the embarrassment of the bloodthirsty domineering forever, the spirit said with a smile to Lu Yang: "President Lu, in fact, there is no hatred between you and us. You also know that we have the support of a large consortium behind us, why do you have to fight with us? Well, there are now 12 main cities. Depending on your strength, it is not a problem to win two or three. "

Lu Yang knew that he was procrastinating, beckoning on the love of braised pork, asked him to stand behind him, and sighed deliberately toward the spirit, saying, "I'm also curious, you say I've already occupied this You have to do something desperately with me. There is no personal revenge between us. It is just a dispute over the game. If your consortium goes to other main cities, I will not obstruct it. Why is this? "

Divine spirit eternally wondered whether Lu Yang knew about the things that can be directly connected to the Beast behind the Red Fortress. Seeing Lu Yang say so, I felt he didn't know.

"Chairman Lu Yang, let's discuss it with you. You still take the team with you. How about the toll for us? The price is one million yuan," said Hu Yong, the eternal spirit of the spirit.

Lu Yang said, "Really?"

"Really." The eternal spirit looked sincere.

Lu Yang pretended to be hesitant, thought and thought again, and said, "What you said really makes me tempted. Why not give me some time to think about it?"

Xia Yuwei secretly sent a message to Lu Yang and asked, "What do you want to do?"

Lu Yang said, "I was wondering why the twilight and the hegemon who sneaked into us from behind didn't come. I was so anxious that I couldn't perform any more."

Xia Yuwei was almost amused by Lu Yang and said, "You're lacking in virtue."

Lu Yang ignored Xia Yuwei and continued to pretend. For a while, the positions on both sides were quiet, except for the horrible cry of dozens of zombies between the two sides.

The spirit sent an eternal message to Chi Mu and said, "I can't stop Lu Yang here, where are you?"

The old man in the twilight replied, "After 5 minutes, you will enter the battlefield, and you will start playing there."

The spirit is not stupid forever. Continue to wait, waiting for 5 minutes, Sun Yu ran to Lu Yang in panic pretending, shouting with the loudest voice: "Boss, it's not good, the hero and the twilight take 40,000 People appear behind us. "

Lu Yang shouted in panic: "The spirit is eternal, you lie to me."

The spirit eternally laughed and said, "Lu Yang, when you are deceived, the whole army will attack."

The 30,000 God Martial Tribe, the 30,000 Bloodlust Alliance, and the 10,000 Yong \* troops rushed towards Jiang Ze's shield formation.

"Mage, shooter covered with firepower." Jiang Ze shouted.

The spirit sneered eternally and shouted, "The anti-riding demon halo avoids the halo, and the fighting army hides under the anti-riding shield."

The 3,000 anti-riding uniforms raised the shield obliquely upwards to open the magic aura. Behind each anti-riding, there was a violent battle with a two-handed sword to follow.

These 6000 troops are the most proud of the eternal spirit of the soul, and are used to fight against Lu Yang's mage regiment. As long as these 6000 people broke into the enemy's position, the 3000 violent battle was enough to tear up a mouth. Troop attack ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ in the middle of the battlefield.

Over 6,000 people's heads are full of magical reminders.

Jiang Ze said: "I sent people to fight against the violent legion and the Templars."

Lu Yang shook his head and said, "Don't worry, this turtle array looks at how I broke him, teriyaki, releases a secondary curse according to the location I marked for you, and tears the ground open for me."

"Yes." Love to eat braised pork immediately began to release the secondary curse, 30 seconds later, when the other 6000 people walked in front of Jiang Ze's team, the ground suddenly trembled violently.

"what happened?"

"What happened?"

...

Like an earthquake, neither Lu Yang's troops nor the soul-eternal troops stopped the battle in shock.

suddenly.

Jiang Ze was surprised to see that the land trembled more fiercely 5 meters ahead of the shield clan he directed.

The sound of "Booming" sounded, the ground broke instantly, and the broken mouth became bigger and bigger.

The eternal 6000 troops that were in the break position fell into the cracks in large numbers.

For exactly 30 seconds.

When the vibrations stopped, a huge fissure with a width of 50 meters and a length of 500 meters appeared in front of Jiang Ze's shield clan. In the fissure, there were 6000 eternal souls.

"My troops," shouted the eternal spirit.

"What skill is this?" Bloodthirsty Batian asked incredulously.

Jiang Ze was also stunned, staring dumbfounded, and said, "This secondary ban curse is too strong."

Lu Yang said: "Quickly bring troops to the 500 meters side to arm."

Jiang Ze nodded quickly, and led the army towards the edge of the rift.

The spirit shouted eternally in terror: "What are you going to do?"

#### Chapter 434 - Asymmetric war

After speaking, Lu Yang no longer looked at the eternal spirit, replaced the Red Flame Lion and ran towards the tail of the troop. There, Xia Yuwei and Sun Yu had already faced the team with the twilight and the hegemon.

Xiongba looked at Xia Yuwei with a disdainful expression. At that time, Xia Yuwei wanted to \*\*\*\* the equipment in his hands, but she got it with her coquettish, and she didn't have the same strength as him.

The vibration of the ground came.

Xiongba said to the twilight around him: "It looks like it's already up front, isn't it time for us to attack?"

He said with a smile: "No, we have a lot of people on our side. Let them play for a while. We stand here and play a procrastinating role."

The bully nodded.

Just as the two were about to watch a show, Lu Yang appeared at the end of the team. At this moment, both Chi Mu and Xiong Ba stared in surprise, their instincts feeling a little bad.

Lu Yang looked at Xiong Ba and Chi Mu with a sigh and asked, "Two people, what does it mean to appear at the end of my team?"

Xiongba said: "Lu Yang, you don't have to be stupid, we are here to hit you."

Lu Yang sighed and said, "Why is that, we have been allies before."

The old man in the twilight said with a smile: "Lu Yang, don't be fooled. Sooner or later will be enemies. For the sake of being allies, you can fight with the spirits forever. Let us stand still."

Lu Yang looked at the old man with a smirk and said, "Late, your bad things are bad in your favorite calculations. There are many of my friends in your team, such as strong wine breeze, Roth rain, silver wolf, and our relationship. It's all good. We could have become a good partnership. You have to count me. I have n't thought about it with you several times. You even came to hit me. You asked me to say what you say. "

Liquor Qingfeng, Luo Siyu, Silver Wolf and others stood behind Lu Yang, all with shameful expressions on their faces. They came to fight Lu Yang. One hundred of them were unwilling, but the man's money and disasters disappeared. They It was the late salary that had to come.

Xiongba said: "Lu Yang, you don't need to play emotional cards. Since you participate in the game of hegemony, there is no right or wrong, only benefits."

"Well said." Lu Yang interrupted Xiongba with a loud voice, and said, "Since so, the two, as well as friends like spirits Qingfeng, Silver Wolf, and so on, don't blame me for Lu Yang's heartlessness today, Hei Yan, and the secondary The first wave of curse, up. "

Hei Yan beckoned, behind him 10 fire methods, 10 space mages, 10 ice methods followed Hei Yan, and the words in his mouth were read out.

The wind was rising in the sky, and the clouds were overcast. Numerous purple elves and ice elves were flying in the air.

The old man at twilight looked at Lu Yang in horror and said, "You, isn't your main force ahead?"

Lu Yang said coldly, "My main force is in front of you. The whole army charged, defeating the twilight and the hegemon."

"Kill ~!" Xia Yuwei raised her two-handed sword and led the 20,000 gold troops towards the hegemon.

"Kill ~!" Sun Yu raised his long bow and rushed towards the old man with 20,000 gold troops.

The vast plain has nowhere to hide. The distance between the two sides is only 50 yards, and the short soldiers are connected together at this moment. At this time, Chi Mu and Xiong Ba have no way to let the troops retreat.

The strength comparison of the two sides, in addition to Jiang Ze's 20,000 men in the defense of the eternal spirit and bloodthirsty hegemony, the remaining 60,000 people are on this side, and 30,000 of

them are gold-equipped players. Decided to make a decision, the team of Chi Mu and the bully was almost overwhelmed.

The old man in the twilight shouted, "Forbid the curse, hit them with the forbidden spell."

Luo Siyu immediately took the 20-time spell-banning mage to start spelling, but they did not know how to simplify the spell, and it took 2 minutes to release the spell.

The same is true for the hegemonic side. The 22 banned mages can only stand there anxiously.

After 30 seconds.

Hei Yan's 30 mage spells were finished at the same time, and 10 meteor fire and rain, ice roar and space cutting hit the positions of the twilight and the hegemon together.

For a time, the magic of the ice, space-time and fire magic spread over the shield team headed by the two.

"Add blood, add blood, don't let the shield in front die," shouted the old man.

"Unable to add, our equipment will not work." Liquor Qingfeng said in a panic.

Persecuted by 12 stealth academy killers such as Han Sha, less than 8,000 of the late team were gold level 30 players, and the rest were all silver players at levels 28 and 9.

Faced with Lu Yang's uniform gold equipment players and the simultaneous attack of the banned spell, the hegemonic team was instantly torn open.

Sun Yu's violent battle and punishment knights rushed into the late square.

Twilight anxiously watched the battle ahead, turned to Luo Siyu and asked, "How much longer."

“30 seconds.” Luo Siyu said.

He was relieved, and now he could only hope to fill his mouth with his forbidden mage group.

However, at this moment, the hissing sounds in the sky, and in the dusk, he looked up, and 51 Thunder Eagles did not know when they reached the heads of 20 forbidden spells such as Luo Siyu.

“Thunder” Sun Yu held up his right hand, and 50 Thunder Eagle shooters behind him ordered Thunder Eagle to release the spell.

Intense blue light appeared on the chests of 51 Thunderhawks.

“boom”

At the same time, 51 thunderbolts hit Luo Siyu and 20 forbidden mages at the same time. Luo Siyu had no reaction at all and fell to the ground instantly.

“This.” The old man at dusk looked at all 20 forbidden mages with stunned eyes and said in horror: “How is this possible?”

“Xiongba brother, quickly assign 10 forbidden spells to help me here, I can’t stop this side.” The old man lately yelled at the Xionba.

The bully ordered the 20 secondary forbidden mage groups around him: “Separate 10 people to help the old man close the gap.”

As soon as the voice settled, an afterimage flew from Lu Yang’s location at the speed of light. Even though it was 200 yards away, it still accurately landed among the 20 secondary forbidden mages.

“Shield team defense,” shouted the bully.

The surrounding 50 shield fighters formed a shield array in front of the mage group. This was specifically designed to prevent the enemy's archer from attacking. It was also late, but it was not expected that Lu Yang would have a sky unit.

"Strange, why is there a shadow made of flames?" A shield war asked curiously.

"I don't know, and it didn't hurt." Another shield battle curiously used the shield to strike the afterimage and then lost it.

Just when the male tyrant was curious, Lu Yang sneered with a smirk on his face.

"Afterimage-activated."

Lu Yang's body crossed the two positions like a streamer.

"噔"

With a loud noise, Lu Yang appeared at the location of the afterimage.

"Resistant Fire Ring"

A crimson light spread outward from Lu Yang's body, and players standing around Lu Yang were instantly collapsed, including 20 mage who were preparing to release the secondary forbidden spell.

The bully's eyes became blood red for a moment, referring to the landing and cursing: "Don't run, I killed you today."

Lu Yang gave a mocking look at Xiongba and said, "Your opponent is Xia Yuwei, and you want to challenge me and defeat her."

With a flash of red light, Lu Yang flew over a distance of 200 yards and returned to the position where he was standing in the array. He said, "Hei Yan, the second wave is forbidden by 30 people."

Xiongba looked at Lu Yang's eyes for the first time, and for the first time, he felt that Lu Yang could not be defeated.

After 30 seconds.

The second wave of forbidden spells arrived on schedule, completely tearing up the two teams of Hegemon and Late Twilight. A large number of gold soldiers, mages, and thieves rushed into the array, facing the rear wizards and priests.

At this time, the hegemony and the twilight commander did not work anymore, the players of the hegemony and the twilight were scattered like scattered sand and fled backwards.

"You are not allowed to step back, hold me back, as long as you persist for a while, the eternal spirit and bloodthirsty team will rush over." Xiongba shouted sharply.

"Xiongba, you are really naive ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Xia Yuwei is holding a 40-level gold weapon sergeant master two-handed sword, and leaps forward towards the hegemony.

Xiongba hurriedly raised his weapon to block, but was hit by Xia Yuwei's heavy blow.

Xia Yuwei, a 40-level whole-body gold uniform, is 100 points higher in power than the male, which is not comparable to the male.

"2868"

Xiongba looked at Xia Yuwei's attack and said in surprise, "Why is your damage so high?"

Even if both sides are more than 30 levels of violent battle, under the offset of heavy armor equipment, the attack can hit 1000 points is not bad, but Xia Yuwei hit nearly double the number, which surprised the hero.

Xia Yuwei looked at Xiongba disappointed and said, "Xiuba, you are too weak."

Xia Yuwei usually practiced with Bai's Sanxiong. With Xia Yuwei's method, it can be good to block the white lion for 2 minutes, but it seems that Xiongba can't stop her for two minutes.

Xiongba's face was full of anger, and being looked down upon by a woman was the most difficult thing for him to accept. He said sternly, "Okay, I'll fight you seriously today, and you're worthy to say me."

Xia Yuwei glanced at the male domineer with the contempt of the king, and put away his 40-level equipment. After feeling that his attributes were similar to the male domineer, he said, "Today you are convinced to lose."

The two sides immediately fought together.

Lu Yang smiled after seeing the fighting between the two men, and issued an order in the simulation group: "Everyone should not disturb the duel between Xia Yuwei and Xiongba, and continue to attack their remnants."

Hei Yan asked, "Boss, are we forbidden to return?"

Lu Yang said with a smile: "Pause, your mage will support Jiang Ze. Remember one, as long as it doesn't fight over there, don't put a curse."

"Yes." Hei Yan ran to Jiang Ze with the mage.

Chapter 435 - Late to give in

Chi Mu sent a message to Bloodthirsty Batian and asked, "Where have you hit it, why haven't you come to support it?"

On the other side.

The spirit of eternity is boring on the blood tiger and confronting Jiang Ze's team. Jiang Ze's team is neatly arrayed. The team of the spirit and eternity is also neatly arrayed. Both sides stare at each other with big eyes.

Bloodthirsty Batian couldn't help asking: "Late twilight sent me a message. We don't treat tide like this very well. Will it be counterproductive?"

Shenhun smiled and shook his head with an eternal smile, and said, "Brother, you remember one thing. Both Xiongba and Late Twilight have the support of a consortium. Don't look at them being weak now, but as long as they give them time to develop, we absolutely don't Will be their opponent. "

"No," Bloodthirsty Batian asked suspiciously.

The spirit said forever: "Then I ask you, how much more money can Wang Teng invest in us?"

"About tens of millions, isn't he going to buy equipment, tens of millions should not be a problem," said Bloodthirsty Batian.

The spirit said eternally self-deprecatingly: "Only tens of millions! Do you know how much money the tyrant and the twilight family have, if they are willing to throw a few hundred million into it, they will not blink, you and I will pay the elite men's salary, They dare to triple, can you and I do it? "

Bloodthirsty Nod understandably nodded and said, "It can't be done."

The spirit said forever: "One more thing, Mr. Wang has purchased 100,000 30-level gold equipment materials, which are being produced by several guilds such as Blue Crystal and Tianyu. When the production is completed, this is when we battle with Lu Yang.

At that time, Xiongba and Chiwu will take 200,000 people to the side of the station. Can you be sure who they will help, in case the critical moment is against the water, you and I can't catch this pot. "

Bloodthirsty Batian said: "Then we might as well go to the Huayu Fortress first, just grab his fortress."

Divine spirit said eternally: "It's a good idea, but if he grabs his fortress, he will definitely fight with us desperately. It's not the time yet, until Tianyu and Sapphire pull away their hands, it's him."

"That's right." Bloodthirsty Batian shrugged his shoulders indifferently, and sent a message to the old man, "He is fighting with Jiang Ze's troops. He put a soil-based curse over there and created a 500-meter-long man. Crack, I was pitted into the golden army of more than 10,000 people, how are you doing? "

Just as the old man was about to speak, a picture was sent by his subordinates, which was the picture of the eternal spirit and the bloodthirsty Batian and Jiang Ze confrontation.

There was a deep sense of powerlessness in the old man's heart, looking at the unformed troops rushed by Lu Yang in front of him and saying, "Withdraw."

Liquor Qingfeng asked, "What about the bully?"

The old man in the twilight looked at the bully, at this time he had been suppressed by Xia Yuwei to an absolute downwind, just because the whole body of blood gems kept him from death, but the defeat was only a matter of time.

The old man in the twilight silently sent a message to Lu Yang: "Can we stop the truce?"

Lu Yang asked, "What do you mean?"

“I confessed that I won’t fight, and I and Xiongba took people back.” The old man said lately.

Lu Yang guessed that Late Twilight discovered that the soul is eternal and the bloodthirsty bully is unable to work, and smiled and replied: “Brother Late Twilight, you stop me now, how can I explain to my subordinates, you will come to fight me in a few days , What do I have to command my men to fight you. “

He stagnates and says, “What about you?”

Lu Yang looked at the late old man 300 yards away, and clicked on the special space to invite each other.

A flash of light flashed, and Lu Yang and Old Man appeared in a special space at the same time.

He looked at Lu Yang and said poorly, “What do you want to say?”

Lu Yang said, “Exit St. Gall.”

“What?” The old man in the twilight shot at Lu Yang like a knife and said, “Why?”

Lu Yang stared directly into the twilight, and said indifferently: “Late twilight, do you think you can play the game of right and left when you are sandwiched between me and Wang Teng?”

“What do you mean?” Chi Mu asked.

Lu Yang said, “You are not a fool. Wang Teng and I are not stupid. We will soon have a decisive battle. Do you think we can tolerate the two instability factors, you and the hero, before this kind of war? ? “

Late twilight looked at Lu Yang. He thought so. If a war broke out between Lu Yang and Wang Teng, as long as he won the Storm Fortress, he immediately turned around and helped Lu Yang to fight Wang Teng, always keeping them no more than anyone. They took the opportunity to invest in development, but did not expect to let Lu Yang’s word break.

“What’s the matter, do you two still have the strength to hit me?” Chi Mu said simply.

Lu Yang smiled and said, “Do you know what Wang Teng is doing now?”

Late twilight revealed a confused look. During this time, the spirit was dealing with him forever, Wang Teng ignored it.

“What is he doing.”

Lu Yang said: “Wang Teng has been active in Hannibal City and Beifeng City. Without any accident, there will be one of Thunder Dragon and the Silk Language being defeated. Your fortress is located in Beifeng City and Hannibal City. In the middle, I didn’t need to hit you at that time, Wang Teng was the first to pack you first. “

“It’s impossible! I know the strength of Thunder Dragon and Swords. The Celestial Guild and Blue Crystal have no ability to defeat them.” Chi Mu said.

Lu Yang looked at the optimistic look of Chi Wuwu and sighed, saying, “Brother, do you really don’t know or don’t know? There is no big consortium behind Lei Long and Li Siyu. They can persist until now It can only be said that the two main cities had no strong enemies.

Wang Teng bought a large amount of gold equipment raw materials this time. I only heard about 100,000 sets. As long as any of the two guilds have 50,000 gold equipment players, they can easily swipe thunder dragons and skeins. Stronghold, do you have to believe it then? “

Chi Mu wanted to shake her head, but her head seemed to be stuck and she couldn’t swing. After thinking about it for a long time, she said, “So, how about I help you block the blue crystal and the heavens.”

Lu Yang smiled and said, “If you promise me, I’ll die three times early. How can you let me believe you?”

Twilight didn’t speak.

Lu Yang continued: "The only way out for you now is to leave the city of St. Gall, and take advantage of the opportunity to teleport now for free, and take your 200,000 people to grab a few fortresses. Otherwise, Wang Teng and I will fight before the final battle. , It is possible to hit you and the bully together first. "

In the twilight, he suddenly looked at Lu Yang with his eyes wide open. He knew that this was what Lu Yang really wanted to tell him, and it was an ultimatum. However, he was not willing to leave the holy city just like this, especially if he lost to Lu Yang. Hand.

"Lu Yang, can you tell me, where did I lose this time?" The old man asked.

Lu Yang smiled and said, "Brother, do you know what's going on with the orcs? There are 22 consortia over the orcs. The least one invested 500 million credits in the guild. how much."

He asked, "You, haven't you invested?"

Lu Yang smiled mysteriously and said, "How do you know that I didn't invest? Where did my equipment come from? I just didn't announce it. Actually, I got more investment than you invested."

"How much did you invest in it," Chi dusk asked.

Lu Yang shook his head and said, "Now you should choose whether to leave or not to leave the city of St. Gall. You have also seen that, so far, I have not personally shot at you either, nor have I used all my strength. Some room. "

He was still hesitant and said, "Give me some time to think."

Lu Yang looked at the time and said, "Yes, you can think here, you can also think back, but since you left this special space, I will not take care of our previous friendship."

Chi Mu didn't care about Lu Yang's words. Just as he was about to leave, suddenly, Lei Long sent a message ~ [www.mtnovel.com](http://www.mtnovel.com) ~ and said, "Chairman Chi Mu, I just received the news, Wang Teng gave Tianyu Guild 5 10,000 sets of gold equipment materials, he is likely to come and hit me. "

“What?” Twilight frowned, and said, “Wait a minute, I’m fighting here, and I’ll reply to you later.”

Closing the chat box, Chi Wu looked at Lu Yang and said, “You guessed it.”

Lu Yangtan opened his hand and said, “This is the fact, how could Lei Long’s strength be able to block the Tianyu Guild.”

“Then what should I do now?” Chi dusk asked.

Lu Yang said: “There is only one way. To leave the holy city, I can let you leave decently. You announced that you sold the fortress to me and sold it for 100 million yuan.”

He thought for a while and said, “In this way, the fortress with the arrow tower above and the city buildings, I will give you away in vain, I will go to the new city to develop.”

“Require?” Lu Yang asked.

“Alliance, your boy is a personal character, this time is an equal alliance, I will not think about letting you act as a gunman for me, just when I am late to make friends.” The old man said.

Lu Yang said with a smile: “Brother, I have always regarded you as a friend, and you have failed me.”

Twilight smiled awkwardly and said, “I’ll go out and announce the end of the battle and quit St. Gall.”

Lu Yang said: “This is the best.”

The battle on the battlefield has already ended, and the troops of Chi Duo and Xiong Ba were beaten by Lu Yang’s men. The two sides of Chi Duo and Xiong Ba have already been surrounded by the brothers of the Iron Blood Brothers. If it is not for Lu Yang, he will not let his subordinates kill Qi Duo and Xiong Ba. They both died early.

Withdrawing from the special space, Twilight saw all this more discouraged, opened the World Channel and posted the news.

[World Channel] Old Man in the Twilight: I announced that the Zijin Dynasty will withdraw from the city of St. Gall, and the Flower Fortress will be sold to Lu Yang for 100 million credits.

## Chapter 436 - Sea Victory

Sea Emperor City, Kraken Cave.

The two brothers of Bai Shi, Xiong Jiu Qing, Half-Life and Zhou Tianming are rapidly upgrading with 160,000 men.

The three major guilds that did not leave the Sea Emperor City each took 80,000 people to choose a corner, waiting side by side, forming an encirclement for the muddy wine and others.

The presidents of the three guilds have decided that, as long as Lu Yang is dragged by the spirit forever on the other side of the holy city, and the troops of the Imperial City return to support, they will immediately kill and attack the fortress.

People such as Zhuojiu and White Lion are also worried about this. The news on the other side of the holy city already knows that the Brotherhood of the Iron Blood was attacked by the five guilds of the Shenwu Tribe, Yong \*, Bloodlust League, Supreme Dynasty and Zijin Dynasty.

“What can we do? The three grandsons didn’t fight around us, just waited. The boss didn’t know the result, and I was anxious.” Bai Lang said.

“The muddy wine, otherwise we should fight first, so waiting is not the answer,” said the White Lion.

Zhuojiu shook his head with a pour and said, “No, if you hit it first, the boss wants us to go back, how can we get away.”

Everyone lags behind.

“Just wait like that, it’s too awkward.” Zhou Tianyan said.

While they were anxious how to solve the problem at hand, they saw the announcement of the old man on the World Channel.

“Well, the boss bought the old man’s fortress?” White Wolf blinked and said.

“Hey, boss, this method is good, this time there are two less enemies.” Said bitter love for a long time.

Zhou Tianming looked at the three guilds around him and said, “We can breathe a sigh of relief this time, brothers, do you want to do them first.”

The white lion and bitter love have looked at the muddy wine for a long time, and everyone is eager to look.

Zhuo Jiu poured out, “Dry, bear with them for a long time, do not persuade them, the next time the boss fights, they have to make trouble.”

“Wait for you.” White Wolf stared fiercely at the zero-degree phantom of the Trident Guild, who also received news.

Zero Phantom is discussing the situation with two other guild bosses in a simulation group.

“We can’t fight yet,” a chairman asked.

“Let’s wait and see, late admitting defeat does not mean that the spirit soul eternally admits defeat. As long as the spirit soul eternally attacks, Lu Yang must send someone back.” Zero Phantom said unwillingly.

The voice just fell.

The White Wolf brought 10,000 people toward the location of the Zero Degree Phantom Guild, and the Zero Degree Phantom opened his eyes suddenly.

“White wolf, what are you doing?” Zero Phantom asked in horror.

The white wolf pulled out the sergeant’s two-handed sword and said with a sneer, “What are you doing? Your guild is here, and the army is charging.”

The white wolf roared, waiting for the surrounding people to react, launching the charge ability towards the zero-degree phantom, came to the front and suddenly launched the fire skills, and slashed the defense soldier in front of the zero-degree phantom.

“噠”

A flame appeared on the sergeant’s two-handed sword, hitting the defensive fighter with precision. In the case of the charge with 1.5 times critical strike, the cleave with 2 times attack, and the fire with 2 times critical strike, the multiples of the three superimposed.

“15676” (Charging + Fire + Critical Strike)

Level 30 full-body gold equipment hits three sections of blood gems, and the whole body is full of enchanting defensive fighters.

“Kill ~!”

The white wolf player was instantly aroused by the fierceness of the white wolf. The two sides were flushed, as if they were crazy, and they attacked the troops of the zero-degree phantom.

“Crazies, lunatics, downright lunatics, stop me.” The zero-degree phantom was frightened by Bai Lang’s perfect operation just now, and yelled in panic.

The players of the 50,000-degree fantasy immediately rushed to the team of White Wolf, just like the tide.

The two sides instantly fought together. Although the white wolf had only 10,000 people, the fighting literacy of the white wolf side far exceeded that of the zero-degree phantom side.

Compared to the team killed by Lu Yang, Zero Phantom has rarely played such a large-scale battle in the Sea Emperor City. The players in charge at all levels and the overall coordination of team battles have no experience in this area.

In close combat, although the two sides are also golden equipment, but adding blood, output, and anti-damage, the three parties’ cooperation is not as simple as brainless hacking.

As soon as he came into contact with the battle, the white wolf with few personnel seemed to be a whale, and swallowed the tide in front of him.

The white tiger and the white lion looked at each other.

The white lion said, “It’s our brother’s appearance. I’ll see you right and see who kills the zero-degree phantom first.”

“Okay, that’s it,” Bai Hu said.

The two of them each took 5,000 people from behind the white wolf and struck the wings of the zero-degree phantom on the left and right sides.

The wing of Zero Phantom has no command, and the whole team immediately fell into chaos after being intruded sideways.

“You two come and help me, I can’t hold it anymore,” shouted Zero Phantom.

“I can’t hold this anymore. The members of the Jagged Brothers Alliance are all lunatics. They are not afraid to lose the rank when they kill them.”

“Retreat, you can’t beat it.”

Two brothers Zhou Tianming and Zhou Tianyan stood in the middle with a team of 20,000. At this time, they felt a cool wind blowing.

Zhou Tianyan scratched his head and said, “Brother, are we slow?”

Zhou Tianming said silently: “Brother, it’s not that we are slow, but they are rushing too fast.”

Zhou Tianyan recalled that when the battle started, Zhuoju dumped him into the battlefield with an instant, and said, “How stable is Zhuoju, how can you be crazy for a while, and you do n’t like hard-witted lifelongs? Man. “

Who instigated me for a long time because of the inferno fire did not have time to rush out, heard the conversation between the two, he smiled and said, “You don’t know, the Iron Brotherhood has been fighting since the beginning, until today, every On one occasion, they were struggling to survive in the battle of tens of thousands and hundreds of thousands of people. Now, conditions have been formed. As long as a guild dares to threaten the Brotherhood of Iron Blood, no one will die.

Zhou Tianming said with a sigh, “It is estimated that after fighting this battle, they have zero fantasy that they will never dare to have the slightest illusion about the fortress.”

On the other side, the big cemetery.

After the twilight old man announced to the public, he said to Lu Yang, "Brother, I'll go back to the city to clean up. This is gone. I hope we will meet again in the future."

Lu Yang looked at the old man who didn't care about the old man, and said, "Thank you, old man, thank you. If there is a place where I can help, I will do my best."

"I remember your words." The old man in the twilight crushed back to the city roll, and a pure white magic array appeared at his feet.

Lu Yang and the old man for the evening looked at each other for 10 seconds. At the moment when the last night disappeared, Lu Yang arched his hand again.

White light flashed.

Xia Yuwei and Sun Yu ran to Lu Yang excitedly.

"Boss, how did you do that, the old man really withdrew from the city of St. Gall?" Sun Yu said incredulously.

"This one hundred million flowers is worth it. One hundred million makes the two-hundred-thousand-dollar unstable factors that add up to the twilight and the hegemony together, and we can finally let go." Xia Yuwei said.

Lu Yang smiled and didn't tell him that he had deliberately let the late fortress sell the fortress to deliberately leave dignity for the twilight, and said, "The fortress belongs to Sun Yu, and now the army has turned around, and we support Jiang Ze."

"Yes." Xia Yuwei and Sun Yu nodded together.

"The army turned around and supported Jiang Ze." Xia Yuwei shouted.

"The army turned around and supported Jiang Ze." Sun Yu shouted.

“Kill ~!” 60,000 players shouted collectively, each with an excited expression on his face.

Defeated the twilight and the hegemony, and also won the opponent’s fortress. For a time, the Iron Brothers Alliance was full of momentum and rushed towards Jiang Ze.

The declaration of the eternal spirit and bloodthirsty hesitation to see the old man in twilight is hesitant.

“I really didn’t expect that the helm of a large consortium such as Old Man Twilight would choose to admit defeat?” Said the spirit and shook his head forever.

“Selling a hundred million, it doesn’t count as giving up. What do we do now?” Bloodthirsty Batian asked.

The spirit said forever: “A hundred million is a ball for them. They haven’t spent much money to buy a diamond necklace at the auction, but it doesn’t matter. Late twilight and the hegemony are gone. It is also a general for Wang good news.”

Looking at Jiang Ze, who is nervously defending in front of him ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Shenhunheng said: “We are not fighting anymore, we are ready to withdraw.”

The voice just fell.

A distant shout and kill appeared.

Lu Yang riding the Red Flame Lion King led Xia Yuwei and Sun Yu and 40,000 players to quickly rush over.

When Jiang Ze saw Lu Yang coming, he breathed a sigh of relief, just now he was really afraid that the eternal spirit and the bloodthirsty domineering head would be charged by the army, so he would be passive.

Lu Yang came to Jiang Ze and gave him a reassuring look, and said to the spirit eternal: "Three, still fight?"

With a smile on his face, Shenhun Yong said, "Chairman Lu Yang, this time we were only coerced by the old man in the twilight. Now that he has given up, we don't need to stay here anymore. In the future, we will upgrade this map to The middle is the boundary. How are you to the north and me to the south?"

Lu Yang said, "Okay, then I won't give it away, we will meet again next time."

The spirit eternally rode the blood tiger and turned away. The bloodthirsty tyrant and black blood both looked at Lu Yang with a hate at the same time, and turned away.

"Win, we win." I don't know who shouted, and countless players shouted loudly along with it.

So far, this is one of the most dangerous battles of the Brotherhood of Iron and Blood. Once Lu Yang takes a wrong step a little, he may face the end of 80,000 players.

"Brother, you did a good job." Jiang Ze punched Lu Yang's arm with excitement.

Lu Yang said with a smile: "Don't blame me, I've given the fortress to Sun Yu."

Jiang Ze waved his hands indifferently and said, "I'm a major shareholder of the guild. What kind of fortress are you fighting for, and you don't need me."

Seeing Jiang Ze had no opinion, Sun Yu said happily, "I am also the owner of the city, thank you brother and sister."

Lu Yang said: "Sun Yu went to receive the fort, and the others upgraded each other. We have to upgrade quickly. The next war is not too far away."

## Chapter 437 - Underground maze

Flower fortress.

After the resurrection of the tyrant found the twilight, he asked with an unbelievable expression: "twilight, what do you mean and why did you leave?"

Chi Wu looked at the countless messages and call applications sent, but smiled helplessly, repeating Lu Yang's words to him and Xiong Ba, watching Xiong Ba saying, "Will you not go? Come and walk me together, it is better for me to leave first, with at least a little dignity. "

Xiongba opened his mouth and could not refute.

"At the beginning I still had a bit of luck. I did not expect that Lu Yang and Wang Teng would not be able to tolerate us anymore." Xiongba said with a mockery.

Chi Duo slapped the shoulders of Xiongba and said, "Brother, if you lose, you lose. It doesn't matter. Both of our guilds are still here. Take this opportunity to go to the new main city. 12 new main cities, with our strength. It's not difficult to have all the fortresses of a main city. "

Xiongba said: "I will not go with you. My family has invested a lot of money in the newly developed city of Freedom Victoria, and I am ready to go there."

Chi Mu said, "Okay, I won't force it. I hope that in the future, you and I will have the opportunity to cooperate and report today's shame together."

"Sure." The hegemon took out his return to the city, flew back to St. Gall, and summoned his men to discuss leaving.

At this point, the two men reluctantly retired from the battlefield of St. Gall, and the original Super League was dissolved.

North wind city.

After receiving the detailed report of the eternal spirit of the soul, Wang Teng did not care at all, and said in a special space: "Since this, stop attacking Thunder Dragon, the whole army rushed to upgrade the equipment and upgrade the level. After three days, the whole army was sent to St. Gall, we Decisive battle with Lu Yang. "

"Hey, Thunder Dragon is really lucky. This kid thought he was dead." Tianyu Ares said.

Everyone laughed.

Dominate the fortress.

After seeing the announcement that the old man withdrew from the holy city, Lei Long panicked. He contacted several times and finally dialed into the phone. After learning the exact news that he was quitting the hegemony, Lei Long hung up and lost his phone.

"It's over, we're fortified." Lei Long said lonely.

Vice Chairman Qian Qiuyu said: "Can you find Lu Yang, maybe he can help us."

Lei Long's eyes brightened and he said, "This makes sense. If I can delay the Heavenly Guild, it will be a good help for him."

Great cemetery.

"Drip, drip, drip"

Lu Yang was taking his men to upgrade at the big cemetery. When he saw the communication from Lei Long, he pressed the connection key curiously and asked, "President Lei Long, what are you looking for?"

Lei Long said, "Chairman Lu Yang, I'm here for help, and I'm leaving late. My side is facing Wang Teng's attack. I want to ally with you."

Lu Yang smiled and said, "President Lei Long, if you talk in a simple way, you can quickly take your men away. You can't hold the fortress. Wang Teng wants to hit you, unless I take all People to support, do you think this is possible? "

Lei Long said unbelievably: "How is it possible that you can hold him back, how can he have the ability to send a large number of players to hit me."

Lu Yang thought for a while. Thunder Dragon was defeated by Wang Teng in the last generation. Thunder Dragon helped him in this life. He still wanted to try to change the fate of Thunder Dragon. "If you analyze this, if I defeat Wang Teng, the three guilds of eternal spirit, bloodthirsty hegemony, and black blood all have to withdraw from the holy city. Where they go, it is not Beifeng City or Hannibal City. "

Thunder Dragon was startled.

Lu Yang went on to say: "If I lose, Wang Teng unifies the city of St. Gall. Who is his next goal? It is not Beifeng City or Hannibal City. Do n't insist on you and the slang words. Now, the transmission between the main cities is free, so hurry up, no one of you can carry it late. "

"President Lu Yang, thank you very much. I awakened the dreamer in a word, and I will discuss with my men what to leave." Lei Long said.

Lu Yang shut down the intercom, exhaling uncomfortably.

Xia Yuwei asked: "Is something wrong with Thunder Dragon?"

Lu Yang said: "It 's not that Wang Teng is making trouble. Good games are not easy to play. Without the capital injection of these bastards, how many ways can you play based on your strength? Now it 's good. It depends on who has more money and whoever has more money can win. "

Lan Yu held Lu Yang's arm and said, "Don't be angry, because Wang Teng is not worth it, we just beat him."

Lu Yang nodded and said: "Look at me, I asked Wang Teng to bring out 100,000 gold equipment. This time I teach him that this game is not a game that can be won by just having more money."

The official attitude of "Second World" is to win by playing. Who can control the various skills in the game and use the tactics and terrain reasonably? This is the original intention of the game designer.

Jiang Ze asked, "How to fight."

Lu Yang said: "We kill the big boss in the big cemetery first."

Everyone nodded.

Among the people who came to Luyang this time were Xia Yuwei's most valued cold sand and light and dark thieves. Sun Yu and Jiang Ze were surrounded by red leaves and black notes. They were all transfer players, a total of 20 people.

Lu Yang took them into the aristocratic area inside the large cemetery. Each zombie wandering was fully armed with standard armor, holding a heavy shield and a spear in his hand.

Wyan Empire Centurion (elite)

Level: 35

Qi and blood: 200000/200000

Lu Yang's level has reached level 50. It is too easy to kill this monster. Looking at the monsters gathered in front of him, he said, "Sun Yu, the light and dark thief, the red leaves flying, and the black notes. The five of you pull all the monsters you see Come here, pull as much as you want. "

"Yes." Sun Yu's favorite is leveling with Landing Yang. The upgrade is too simple.

Lu Yang withdrew from the team and said, "Yu Wei, Jiang Ze, and Sun Yu each brought 100 people over, and I sent them to upgrade."

"Yes." Xia Yuwei each ordered his men to gather here.

Not long after, 300 people gathered behind Lu Yang, and Sun Yu gradually ran back from a distance.

Lu Yang's mouth spelled out, one by one, the fire dragon ghosts appeared on the ground, and soon formed a 20 \* 5 sea of fire.

"Boss, we're back." Sun Yu shouted, each of them carrying more than 500 centurions behind him.

"Look into the fire dragon," Lu Yang said.

"Yes." Sun Yu and others ran towards the fire dragon in the direction of the fire dragon, and entered the fire dragon attack range. More than 100 fire dragons continuously spit out large fireballs to attack the centurion.

"3816"

"3818"

...

"flaming Phenix"

Lu Yang made a right-handed move, and an 8-meter-long fire phoenix appeared from the air.

“Neighing ~”

The fire phoenix flew to the sky and the large fireballs spouted out in succession. The centurion with only 200,000 blood could not bear such an attack from Lu Yang, and fell down piece by piece.

System prompt: you get 126 experience

Up to 300 people upgrade together, so much experience, only such a map.

Not long after, the monsters pulled by Sun Yu and others were all killed, and each of the more than 3,000 strangers had more than 300,000 experience.

“Is there anything ahead?” Lu Yang asked.

Sun Yu said, “How many more times can I pull it?”

Lu Yang said, “Continue.”

Sun Yu and six others ran out again and ran 10 times in a row. Most of the 300 people behind Lu Yang flashed from 28 to 29.

“It’s too fast,” Jiang Ze said.

Lu Yang said: “The main thing is to reduce the upgrade experience, you know, after level 30 are tens of millions of experience, now you can upgrade to level 30 experience to level 35, which is too easy.”

Everyone nodded.

“Let’s go on. Is there a centurion ahead?” Lu Yang asked.

Sun Yu said: “No, all the monsters in this half have been killed. There is a tomb in front of it. I really don’t know what the system thinks. It just makes sense to open this map.”

Lu Yang said, “I’m not happy to open this map. Come with me. Let’s go into the grave.”

Xia Yuwei, Jiang Ze, and others followed Luyang and came to the door of the tomb.

The tomb is just a broken hole with only a tombstone on it that reads ancient text that is incomprehensible.

“Strange, what text is written on it?” Sun Yu said ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang walked over and looked at it with a smile, and said, “This is magic text, I tell you what it means on it.”

“Boss, you understand.” Xia Yuwei said in surprise.

Lu Yang said with a smile: “Of course, the above is the story of the ninth-generation king of the Wyan Empire. This is a cruel king. The throne originally belonged to his brother. He killed his brother and succeeded him.

The people were dissatisfied with his brutal rule and launched many rebellions, but they were suppressed. Twenty years later, his brother’s son returned and held him in the ground forever. “

“It looks like the final boss is the king.” Jiang Ze said.

“Let’s go and see.” Lu Yang said.

The voice just fell.

The spirit of eternity, bloodthirsty and black blood and other people appeared on the side with 50 people.

“What a coincidence, President Lu Yang, you have hit here too.” Said the eternal spirit with a smile.

Lu Yang said with a smile: “Yes, we are going in. How about we go in together?”

The black blood thief looked at Lu Yang behind him and found that he only brought 19 people over, and quietly sent a message to the spirit soul eternally said, “Would you like to kill Lu Yang here and explode his demon heart?”

The spirit of Eternal Spirit still kept a smile on his face and secretly said in the simulation group: “Do n’t move around, haven’t you seen that there is no centurion behind him? His subordinates should be not far away, we enter the grave. Find a chance to kill him again. “

Bloodthirsty Batian and Black Blood nodded together.

“Chairman Lu Yang, you who come first please invite us first, then we will come in later,” said the spirit forever.

Lu Yang said: “Then I’m welcome, let’s go in.”

Xia Yuwei, Jiang Ze, and others watched Shenhun Yongheng and others vigilantly. Jiang Ze said: “Be careful of their sneak attacks, should I call for more people?”

Just went in.

A pure white marble wall appeared in front of everyone, and looking around, the entire catacomb was made of marble, and the surrounding passages extended in all directions, as if in a huge maze.

“8 ways, where to go.” Jiang Ze asked dumbfounded.

Lu Yang said, “Follow me, I know the way.”

“Is it written on the tombstone?” Jiang Ze asked.

Lu Yang smiled and nodded, and led the team toward the second road on the right. Just after walking, footsteps came from behind him, and the eternal spirit appeared in the tomb.

“This is a maze, what do you do?” Black Blood asked.

The spirit looked eternally and said, “Shut up.”

“咚, 咚, 咚”

A slight footstep came from the second channel on the right, and the spirit said forever: “Lu Yang is over there, we follow him.”

The black blood nodded and said, “I’ll go and see first.”

Starting the hurricane step, the black blood body gradually melted into the air and ran towards the entrance of the second passage.

“嘭”

Black blood appeared in the air, and the body was frozen in a huge ice cube.

A ray of light fell on the black blood, releasing his control, and unpleasantly cursed: "This group has set traps."

"It doesn't matter. Hunters can set a few traps in total, we continue." Eternal Spirit beckoned and took 50 people into the second channel.

Inside the passage.

Sun Yu saw the trap trigger prompt from the dialogue bar and said, "Boss, the spirit is eternal. They may be behind us. My trap is triggered."

"It's really trying to kill them, kill them." Jiang Ze said.

Lu Yang saw a gate made of marble in front of him and said, "No, you will enter the maze from here. You follow me, I try to take you once."

Opening the gate, three centurions and dozens of ordinary zombies were wandering in the room. The room was a rectangular shape with an area of about 100 square meters.

"Follow me to the gate on the right. Some zombies try to avoid and not attack." Lu Yang said.

The crowd nodded, and as Lu Yang lined up, waiting for the door, dozens of zombies and two centurions found Lu Yang, and roared over.

As soon as Lu Yang was in front of him, Lu Yang uttered a spell.

"flicker"

With a flash of white light, Lu Yang appeared obliquely behind the zombies.

“Resistant Fire Ring”

A reddish light spewed out of Lu Yang’s body. After being hit, more than a dozen zombies and centurions retreated back to Shimen, who had just entered.

Lu Yang took the opportunity to open the stone gate on the right and led Jiang Ze into them.

“Brother, you’re beautiful.” Jiang Ze said.

Lu Yang smiled and said, “Let them turn around for a while, this labyrinth is so large that they can’t get out easily.”

The reason why Lu Yang remembered this maze was that there was a lot of scolding from the previous official about this maze.

The reason is that this maze is too big, so large that a guild of 200,000 came here and didn’t understand.

Later, in the face of the angry jets of players from various countries, they had to make modifications to simplify the path of the maze. As a result, many players came out to remember their hardships when the path was difficult to walk, and the jets were too easy to find because the path was simplified. As a result, they could not kill the lord.

Lu Yang belongs to the kind of people who like to challenge difficulties, and admires those who are difficult to challenge, so he carefully read the articles there, which happened to contain detailed notes on the path.

Looking along the memory all the way, Lu Yang took Xia Yuwei and they walked for an hour and a half.

Jiang Ze looked at the maze room still surrounded by white marble and asked weakly: “Are we going wrong? Why haven’t we gone out yet?”

Lu Yang looked at the subtle marks on the wall and said, “Yes, keep walking with me and you should be one door away.”

“Really?” Jiang Ze asked.

Lu Yang said with a smile: “Trick you into doing something, let’s go in.”

At the left door, Lu Yang pushed hard. The scenery behind the door was no longer white marble, but a sea of blood, only a black rock pavement.

“滋”

A group of monsters wearing scarlet magic robes and scarlet sickles were floating in the sea of blood.

Blood Mage (Elite)

Level: 35

Qi and blood: 200000/200000

“It doesn’t look like a strange monster. I’ll try it.” Jiang Ze pulled out the sergeant’s two-handed sword and walked forward.

Five Shadow Masters found Jiang Ze and raised their sickle at the same time.

“Off”

Five dark brown swirls appeared alongside Jiang Ze.

“2878”

“2987”

...

Jiang Ze’s blood volume was only over 6,000 points, and he fell flat.

Lu Yang covered his head silently. He just wanted to discourage Jiang Ze from coming, but unfortunately, Jiang Ze left before he spoke.

“Resurrect him first,” Lu Yang said.

Lan Yu nodded and saved Jiang Ze by using resurrection.

“I rub, this blame is too shameless, why is it hurt so high?” Jiang Ze said excitedly standing beside Lu Yang.

Lu Yang said: “This group of monsters is the tyrant’s scarlet mage group. Don’t be so impulsive in the future and let the mage and the shooter try.”

Jiang Ze nodded.

“Long range and the mage came up with me, set fire based on my mark, and killed them instantly.” Lu Yang said.

Sun Yu, Hongyefeiwu, and black notes all walked to Lu Yang’s side and attacked with Lu Yang.

Six of the people who came were the transfer fires, three transfer shooters, and two transfer warlocks. They were all full-body gold equipment. Under the fire, each Shadow Master could not persist for 30 seconds.

Not long.

More than 50 Shadow Masters along the way were killed by Lu Yang. Unfortunately, because it is an upgrade location, equipment and gold coins are not given here.

Go all the way.

Come to the front of a huge black platform, there is a huge vortex in the sea of blood in front of the platform.

“What is this place? It won’t be the entrance to the second floor of the maze.” Sun Yu asked.

Everyone looked cold.

Lu Yang said, “No, the final boss is hidden in that vortex, and they all spread out. I attract him out.”

Xia Yuwei and others dispersed, standing 30 yards away from Lu Yang.

Lu Yang walked to the vortex.

“Booming”

The platform trembled violently, and the red vortex was spinning madly. Just as Xia Yuwei tried to maintain their balance, a blood-red vortex slowly rose into a humanoid zombie wearing a gold crown and wearing a black coat.

King Wyan (Lord)

Level: Level 45

Qi and blood: 5000000/5000000

“Fresh blood.” King Wion showed a smirk expression and jumped out of the sea of blood onto the platform.

“boom”

The dust was on the platform, and the traps placed by Sun Yu and others disappeared instantly.

The king was 10 meters tall, with a pale face, half a meter long on his fingernails, and looked terrible.

Lu Yang said without any fear, “Don’t pick up the blame, I’ll slip him two laps first.”

There was a spell in his mouth, and two flames of gas flared under Lu Yang’s feet, the path of fiery blaze and fire.

“Burning”

Lu Yang’s staff pointed at King Wyan.

“3589”

King Wyan stared at Lu Yang fiercely and ran towards him.

Lu Yang moved 85% faster than King Wyan. After taking him on the platform for 1 lap, he felt his hatred was stable and shouted, “Mage and shooter output, do not move other professions.”

Hei Yan and Hong Ye Fei Wu and others immediately began to export, and King Wyan’s blood volume dropped rapidly, and soon dropped to 4 million points.

“Necromancer”

King Wayne stopped and pointed at Lu Yang with his hand. Countless \*\*\*\* bone claws appeared from Lu Yang's feet and on the road ahead.

“flicker”

With a flash of white light, Lu Yang eased away from the attack and saw that the blazing speed was about to disappear. The spell in his mouth became a flame, and continued to open the path of blazing speed and fire.

King Wyan did not hit Lu Yang and had to continue hunting. When 3 million blood was released, he released his ghost claws again, and Lu Yang used flicker to escape again.

Three times in a row, King Wyan fell to the ground.

System prompt: You killed King Wyan

You get 8897 experience

“So easy.” Xia Yuwei said.

Lu Yang smiled and did not speak. In fact, King Wyan was far from easy to fight, but he had a demon heart to make his sprint speed level 5 ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ King Wyan's main attack methods are It's melee.

Lu Yang's hatred was the most stable, and he couldn't beat Lu Yang.

“Let's go and see what happened.” Lu Yang said.

Everyone mentioned the equipment was excited, and came along.

Soul Stone

Type: Dark Magic

Cost: 10 Soul Shards

Description: Make a soul stone to bind to the player's soul. If the player is killed, you can use the soul stone to resurrect.

Lu Yang saw this skill can not help but clenched his fists, it is really the best thing to open up wasteland.

Soulstone, this special magic is coveted by any guild, because this skill can give players an extra life.

There are only three skills that can resurrect the player in the game, one is the Druid's single resurrection, the other is the soul of the shaman's eternal life, and the third is the soul stone of the warlock.

In contrast to the first two types, which can only be used by one player, the Warlock's soul stone can be used indefinitely, but the dead player will cool down for a longer time after using it, which will take one day.

However, this skill is unavailable. The official record of the last generation is that the total number of players with soul stones is less than 10,000. Everyone is a management player of the guild, because they can make the guild one more. Times the combat effectiveness.

Now that Lu Yang has obtained this skill book, he is more confident in fighting Wang Teng.

"This skill book looks good," Jiang Ze said.

Lu Yang said: "It's more than good. It's full of blood and blue after the resurrection. Just like before we died, we made a lot of money this time."

Xia Yuwei asked in surprise: "How many people can I bind to at once?"

"As long as there are fragments, as many people as possible." Lu Yang said.

Everyone couldn't help but babble.

#### Chapter 439 - Black Stone Tiger King

Lu Yang said, "You each disbanded and your team upgraded, and I went out."

Taking out the teleportation scepter, Lu Yang's white light flickered to his place and appeared in the level 60 psychic college.

Han Ying, Mu Yu, Xiao Liang and others are upgrading with 150 people, 6 people are standing in 3 bug positions, there is Han Ying above the Colosseum.

"Brother, why are you here!" Han Ying said in surprise.

Lu Yang handed "Soul Stone" to Han Ying, and said, "This is for you. I will \*\*\*\* in more soul fragments when playing monsters in the future."

"OK." Han Ying said.

Lu Yang rubbed her little head and said, "Is it boring, how many grades are they all?"

Han Ying shook his head and said, "It's not boring at all. This experience downgrade these new accounts can be upgraded quickly, and today they have reached level 30."

The original level 0 to 35 requires about 250 million experience. Now the version is upgraded. The experience of level 0 to 35 is only 100 million, which is two-thirds less and the upgrade speed is fast.

According to Lu Yang's understanding, this is the official order to make money, allowing players to quickly rise to level 35 to buy reins to get mounts, but this revision is also good for Lu Yang, at least his special forces can be quickly formed.

Lu Yang said: "This level is okay. Let Han Fei and Han Yu take 75 people to upgrade each other. The main exercise is fighting skills. Xiao Liang and Mu Yu will accompany you to fight soul fragments."

"OK." Han Ying said.

Lu Yang rubbed her little head again and said, "I'm gone."

Farewell to Han Ying, Lu Yang rode the Red Flame Lion King towards the northeast of the map. This time, he and Wang Teng were decisive. At least 300,000 players were involved in the battle, which could reach 600,000.

This level of battle, if you want to win, not only equipment, but also skills and on-site command. Wang Teng claims that he can win with 100,000 sets of 30 level gold gears. Lu Yang will tell him this time For a moment, the game is not so fun.

Of all the field corps operations, the most classic way to fight is to use terrain to allow the enemy to occupy the advantage of the terrain to form a situation of playing more and less. As long as there are several such attacks, the opponent can collapse.

Among the skills that can play the terrain, both the soil and space mages have such skills. It happens that Lu Yang knows where such skill books can burst.

Along the avenue, Lu Yang ran to Zantala, a level 60 map. Soon, a towering mage tower appeared in front of Lu Yang.

Black Stone Minaret.

It was once again the tower of betrayal, the place where one of the seven guardians of humanity, the great mage Logan, once was, but the mage for some reason betrayed the humans and became the orc of the orcs.

It is now at the junction of the two races of human and beast. The mage tower is filled with space mage and earth mage, producing space spell space and time barriers and earth spell earth dragon earthquake, and transfer certificates of the two systems.

In the last life, Liu Jie's men Luo Cheng and Wang Teng obtained a large number of two series of skill books from here. They can always achieve the ability to fight more with less on the battlefield. Now this place will become Lu Yang's most in the future. The main skill book is produced.

Lu Yang slowly walked to the entrance of the mage tower, where there were two white-paved black stone mages guarding the gate.

Blackrock Mage (Elite)

Level: 60

Qi and blood: 300000/300000

White Robe Blackstone Mage will be a space-based spell-the whip of time and space. This skill is fast and will hit the player at the moment of release. Once hit, it will take at least 5000 points of damage.

Countless players in the last life fell on the whip of time and space, but there are also countless players who use the whip of time and space to exercise their physical skills, and only learn to avoid the whip of time and space with an attack speed of a few tenths of a second To qualify for the top spot in the game.

As it happens, Lu Yang was a mage who used the whip of time and space to practice evasion. Looking at the familiar mage in white robes, Lu Yang walked with a smile.

“Human, you dare to break into the black stone minaret.” Two black stone mages found Lu Yang at the same time, space magic appeared in their hands, and a pure white magic ball appeared in the hands of the two.

“Whip of Time and Space”

Just like lightning, a pure white magic ball instantly sprayed a thin white line across the space.

At the moment when the pure white magic ball glowed, Lu Yang’s body took a small step to the right as a conditioned reflection, just avoiding two whip of time and space.

“Miss”

Lu Yang smiled at the corner of his mouth, opened his left hand, and a fire spirit bead flew into the sky.

“Neighing”

The fire phoenix appeared, blasting large fireballs continuously at the two black stone mages.

Mage Blackstone has no hatred, and he will attack anyone who sees it first, unless the opponent runs out of attack range, the magic ball is directed at Lu Yang, and the whip of time and space is hit one after another.

Lu Yang’s body had already formed conditioned reflexes, avoiding continuously, and summoning a fire dragon every time. After several times, the two black stone mage had residual blood.

Lu Yang avoided the spells in the whip of time and space again.

“Destroy the Sky”

A flame descended from the sky and hit the tops of the two black stone mages.

“3878” (Critical)

“3868” (Critical Strike)

The two Blackrock Mage fell in response, each bursting a 4 \* 4 range item.

Lu Yang stood in the distance and saw two pure white scrolls, his eyes lit up and he walked in front of the two bodies.

Space Magic Academy Notice

Lu Yang felt that he was lucky this time. When he first came here, he hit a space department. After looking at the other items, there was nothing good, and he walked into the mage tower.

Inside the main entrance of the mage tower is a corridor. The red carpet extends from the doorway to the end of the corridor. In the corridor, there are two yellow robe masters every 10 yards, the number is about 200.

Blackrock Mage (Elite)

Level: 60

Qi and blood: 300000/300000

Mage Huangpao is a mage of the soil system. There is only one trick in the skill, which can only hit ground units. This group of monsters is Lu Yang's favorite. He directs the Phoenix to fly straight ahead.

"There are intruders, for Lord Zantara."

...

Phoenix flew a circle in the corridor, and all 200 Masters in Yellow Robe were attracted to the corner by him. Each Master looked up at Phoenix, but none could attack.

Lu Yang issued a command attack.

Phoenix immediately spit out a large fireball, one by one falling into the strange group.

"2016"

"2086"

...

Half an hour later, all 200 soil mages were killed.

Lu Yang went to the corner and looked at it. A dark yellow scroll was shining.

Earth Dragon Earthquake

Type: Earth Spell

Cost: 500 magic

Distance: 200 yards

Description: Release a piece of magic to the specified location, and the ground rises high within 60 yards. Any player in it will be attacked by 150+ spell damage / 5.

Lu Yang was looking for the spell. He looked at the ground and found 3 local dragon tremors and 5 transfer certificates.

Among the other items, there were two silver staffs, both of which were garbage items that had been turned into enchanted materials by Lu Yang.

Continue to go inside and enter the lobby. The lobby is very wide, about 500 square meters, and is located on the second floor of the stairs directly opposite Lu Yang, but there is a pure black tiger at the entrance of the stairs.

Black Stone Tiger King (Lord Level)

Level: 60

Qi and blood: 5000000/5000000

This is Zantara's early mount. The tiger king, 5 meters tall and 8 meters long, is even mighty.

Lu Yang has not played the Black Stone Tiger King, but he has read the information.

When Liu Jie brought the team to fight here, he was killed by the Black Stone Tiger King continuously for a month without being beaten.

The major guilds learned that this place came to scramble, making the place chaotic, but no one had a way to fight it, and it lasted for nearly two months.

Occasionally during a scuffle, a player jumped to a stone platform on the right side of the lobby in order to avoid the pursuit of the Black Stone Tiger King. As a result, the Black Stone Tiger King could not hit him!

This bug allowed everyone to find a way to kill the Black Stone Tiger King. At that time, some people complained to the official. However, the official said that this was not a bug, but a reasonable use of the rules, because only the Master of the Light and Fire Fortress could use the disability. To enter.

Lu Yang didn't think of coming here before because there is no afterimage ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Now that he has this skill, Lu Yang especially wants to see what the Black Stone Tiger King can explode.

A spell in his mouth read that a crimson fire light fell across the hall and landed precisely on the stone platform at the right corner.

"Residual shadow-activation." Lu Yang issued a command, his body turned into a reddish light, and appeared on the stone platform instantly.

"Hello ~!"

The black stone tiger roared and rushed towards Lu Yang on the stone platform, but when he came to the stone platform, the black stone tiger king was too big to climb up to the stone platform, and used his claws to grab and hide inside Lu Yang.

Lu Yang hid behind the stone platform and didn't dare to probe. The tiger's claw was less than 1 cm away from him. When he moved a little, he might be hit by the tiger king.

The tiger king at level 60 has an attack power of over 10,000, and he can be stopped by rubbing his paw to his side.

After waiting for three or four minutes, when Lu Yang was sure that the tiger's claws could not catch him, the mantra read out, and the fire dragons were summoned to the ground by him.

Not long after, the tiger king's position was summoned by Lu Yang to call out more than 100 fire dragons, and a large fireball was sprayed out to quickly reduce the tiger king's blood volume, which soon dropped to 4 million points.

"Hello ~!"

The tiger king roared, and a huge light ball appeared in his mouth and sprayed over the stone tower where the landing sun was.

"boom"

Lu Yang's oblique upper wall was hit by a light ball with a huge hole, and the falling boulder hit him.

"897"

"679"

...

Lu Yang didn't expect to be able to drop blood in this way, and he quickly took out the treatment ring to add blood to him. The vibration lasted for 10 seconds. Lu Yang lamented that he was lucky to have a treatment ring, or he would be killed by the falling stones.

After the tiger king released his skills, he saw that Lu Yang was not dead, and continued to lie on the stone platform and grab Lu Yang with his claws.

Chapter 440 - Kill dragon bug

After 10 minutes.

After the tiger king finally released a light ball, he fell to the ground.

System prompt: You killed the Black Stone Tiger King

Lu Yang jumped down from Shitai and walked to the Tiger King. A dark yellow scroll made Lu Yang's eyes wide open.

The Sound of Heaven and Earth

Type: Earth Spell

Cost: 2000 magic

Distance: 1000 yards

Effect: Deals significant damage to enemies within 500 yards of the specified target

Lu Yang knew that the Black Stone Tiger King would explode this book, and sure enough, he got it.

Carefully put the skill book in the backpack, and other items were Lu Yang, such as some potions, in the package.

"Drip, drip, drip"

Lu Yang opened the speaker and saw that the muddy wine was pouring in. He pressed the connection button and asked, "What's the matter?"

Zhuo Jiu said, "Boss, we won here. Two of the three guilds withdrew from the Imperial City, and one was willing to become our affiliated guild."

Lu Yang Yile asked, "Did I not let you be humble over there, why did you fight?"

Zhuoju laughed and said, "The opposite formation is too embarrassing. Three sides opened wide around us, and just one charge was leveled."

Lu Yang was able to guess that the three guilds there must have thought that they and Wang Teng would fight, and wanted to take advantage of the opportunity, saying, "It's beautiful, and there will be such continuations next time."

"Yes." Zhuoju only knew that Lu Yang would encourage him, and asked, "Boss, there is one more thing. There are many people who have risen to level 30 on the side of Haihuangcheng. Can we now open the fortress to do business?" "

Levels 0 to 35 originally required 250 million experience points. This time the system upgrade became only 100 million experience points, which is two-thirds less than the original. In addition, the newly opened field map of the main city has a lot less robberies. Players, upgrade speed is much faster.

When Lu Yang patted his head, he has been thinking about how to get rid of Wang Teng's affairs these days, and forgot about this, saying, "You can open the fortress to do business, but there is one thing, the inner city is at least laid down. 200 arrow towers. This is to prevent enemy attacks. "

"Yes, thank you, boss." Zhuo Jiu said sincerely.

The fort is open, and they will enter the state of Jinjin Doujin every day, and they will soon get ten million net worth.

Lu Yang said with a smile: "It's all brothers, thank you for seeing you out, or that sentence, if we have difficulties, we will carry them together, and we will be blessed if we can enjoy them together. If there is enough funds, tell me at any time, I will transfer the fortress shares for you all."

Zhuo Jiu said with a sigh of emotion. Since ancient times, the characteristics of Huaxia are that it is difficult and easy to live with one another, and that it is difficult to share prosperity and wealth. Following Lu Yang, he is right.

"Boss, you're busy, I'll go talk to my brothers," said Zhuoju.

“Okay, I’m on the 60-level map here. Thank you for telling them that they don’t need to say anything. Our family doesn’t care about these things.” Lu Yang said with a smile.

This is Lu Yang’s promise to them. Lu Yang will certainly do it, but the sea emperor city can be opened, but the holy city cannot be opened.

If Wang Teng does not get rid of it one day, the holy city will not settle down in a day. If the fortress is opened, if an enemy mixes in, the other party will attack the city inside and outside during the night, and Lu Yang will have no place to cry, and can only continue to block the fortress. Any outsider enters.

The thought of Wang Teng made Lu Yang unhappy, and after turning off the phone, Lu Yang decided to speed up a bit.

There is a row of rooms on the left side of the lobby on the first floor. There are kitchens, lounge areas and driving ranges. There are almost 800 soil masters.

Lu Yang let the Phoenix fly in a circle, flew back with more than 800 soil-based mage, found a corner, and let the Phoenix fully output against the ceiling.

After 1 hour.

All 800 earth-based mages were killed, and Lu Yang received 17 skill scrolls of Earth Dragon Earthquake and 32 transfer certificates for earth-based mage.

Returning to the hall, Lu Yang walked along the stairs to the second floor and pushed open the wooden door on the top of the stairs. Eight space mages stood not far from the front.

This level is mainly a space department mage. It is more difficult to kill. Lu Yang has no time to practice now. A reddish afterimage quickly flew through the hall to the middle of the eight people.

“Afterimage-Activated”

Lu Yang's body turned into a streamer.

“嘭”

The afterglow burst, Lu Yang appeared in shape while inflicting more than 3800 damage to 8 surrounding mages.

“Yan Yang Suo”

Eight mages trapped their bodies with flame ropes at the same time, unable to make any movements. With the blessing of the heart of the demon, the Yanyang cable that rose to level 4 can last for 10 seconds.

Lu Yang took out the magic sound from his backpack and threw it among 8 people, reducing the magic resistance by 30%. Counting Lu Yang's weapon and the heart of the demon, there was no magic resistance in the monsters in front of him.

“Yanyang mask”

Lu Yang himself ignited a raging flame, and the sun hood that also rose to level 4 can continuously cause more than 5800 damage per second.

“Meteorite Impact”

The crimson meteorite fell one by one from the top and smashed into the middle of the 8 space mage.

After 10 seconds, 8 mages were killed for 300,000 health.

System prompt: You killed Blackrock Mage

...

Lu Yang looked at what was falling on the ground. He had a space mage transfer certificate. After he packed it in his backpack, Lu Yang began laying fire walls and fire dragons on the ground.

There is a bug on the second floor of Blackrock Spire. The lord who guards the second floor is a huge dinosaur.

Because of its huge size, the dinosaur cannot enter the first floor through the door on the second floor, and only the head can detect it. Therefore, if the player is a master who can pull the monsters, he can make the dinosaurs block the door for him and use the fire wall and fire dragon to burn The mob following me.

However, there is a requirement for this bug to be used. Players must first clear the first wave of monsters at the door. These 8 monsters are too close, and they arrive first before the dragon comes.

After the door was covered with a 10 \* 10 fire wall and fire dragon, Lu Yang looked ahead.

At the end of the corridor is a circular hall. Before long, a 15-meter-tall tyrannosaurus resurrected from the right.

Umlas (Lord)

Level: 60

Qi and blood: 5000000/5000000

Ummras is a pet who follows Zandalar's battle.

Lu Yang's mouth read a spell, and an afterimage flew to the place 20 yards in front of Ummlas with a reddish light, and Lu Yang chanted again, and another afterimage flew to the stairs behind him.

“Afterimage-Activated”

Lu Yang’s body turned into a streamer, and a gurgling sound appeared 20 yards in front of Umlas.

“Pyroblast”

With a wave of Lu Yang’s staff, a large red fireball hit the head of Umlas with precision.

“3266”

“Hello ~!”

Umlas growled and turned to stare at the landing sun.

“Woo ... wow ...”

The harsh flute sounded, and a space mage shouted, “Enemies, enemies, protect Lord Umras.”

The space mages in the rooms on the left and right sides of the hall were all shocked, and quickly moved towards the landing sun.

Umlas took a big step towards Landing Yang, seeing that he was about to come in front of Lu Yang, ready to bite Lu Yang.

“Afterimage-Activated”

A reddish light lit up, Lu Yang turned into a streamer and flew back to the stairs outside the door instantly.

Umlas stared at Landing Yang tightly, exposing his fangs and roaring towards the Landing Yang.

Lu Yang was not afraid to stand in place and wait, watching the Tyrannosaurus Rex getting closer and closer to the gate, and the more he followed.

“3”

“2”

“1”

Lu Yang watched Tyrannosaurus retreat into his sea of fire and fire dragon positions, and began to suffer a lot of damage.

“flicker”

With a flash of white light, Lu Yang stepped back by a distance of 6 yards. At the same time, Tyrannosaurus rushed to the door and couldn't rush in. At the same time, his habitual head came out of the door and bite towards the landing sun.

“噤”

The neck of Tyrannosaurus rex was stuck in the door, but the blood port detected in the front did not bite Lu Yang. However, at this time, the fangs in Tyrannosaurus rex's mouth were less than half a meter away from Lu Yang. Can feel it.

“Hello ~!”

Tyrannosaurus roared wildly and bite towards the landing sun, but could not move forward by one centimeter.

Lu Yang didn't move. The sixth staircase he stood on was the key point of the bug. Take a step back and the Tyrannosaurus will return. Take a step forward and the Tyrannosaurus will kill him ~  
www.mtlnovel.com ~ This is Countless previous experience.

“Burning”

Lu Yang put five layers of fire on the top of Tyrannosaurus's head to make him take more damage. Tyrannosaurus had no way to attack Lu Yang and could only bite into the air.

More than 800 space mages gathered around the doorway on the second floor. Because the gate was blocked by Ummras' body, he could only stand inside the wall of fire to bear the dual damage of the fire and the fireballs.

“Meteorite Impact”

Lu Yang wasn't idle either, and the meteorites one after another smashed into Umlas' head.

“3588”

“522”

“522”

...

Soon, Umlas's health dropped to 4 million points. Unfortunately, he is a pure melee lord, and he can only use any big tricks, which will not cause any damage to Lu Yang nearby.

The only thing Lu Yang needs to watch out for now is that Umlas accidentally went violent while continuing to drop blood. If violent, his body would expand by 30%.

In that case, Lu Yang needs to take two more steps to avoid being eaten by his extended mouth.

“Drip, drip, drip”

The intercom sounded.

Lu Yang opened it and saw that it was not exchangeable. He pressed the connect button and asked, “Is there any news?”

Jin Buhuan said, “Boss, Bloodthirsty Domineer asked me to buy a potion again. I bought him the 100,000 bottles of potion. I kept my mind and told him to deliver tomorrow. In addition, he asked me 100,000 more potions will be prepared for him within two days. “

Lu Yang previously explained that he would not exchange money. If the bloodthirsty bully finds him for medicine, he will sell as much as he can.

Lu Yang said: “Very well, it looks like Wang Teng will start a war against me as soon as 2 days.”

“Aren’t they going to hit Thunder Dragon?” Jin Buhuan asked dumbfounded.
