

Wild Fire 501

Chapter 501 - The beginning of the 6th war

More and more players reach level 30. The only place to rest after level 30 is the fortress. Now a fortress can earn nearly 10 million yuan a month by collecting the rest fee. This profit is enough to allow some merchants to exhaust all kinds of Mean means.

What's more, depending on the various economies developed by the fortress, more money is made.

"Li Xiuyu really deceives people so much, really think his family can do whatever they want?" Shen Jinglinqi blushed.

Shen Mengyao held Shen Jinglin's arm and said, "Dad, don't take it to heart. The person I like is Lu Yang. I don't have any feeling about that Li Xiuyu, so don't worry."

Shen Jinglin was still furious. Li Xiuyu was playing tricks in front of him. Even though Lu Yang had found out, he had no way to preach justice for his daughter. In the face of the Li family consortium, he could only accept this fact with anger. He was the most uncomfortable.

What is it for a businessman to work hard to make money all his life, not just to be able to stand up straight and talk one day, isn't it bullying.

"Lu Yang, let's talk upstairs." Shen Jinglin said coldly.

Lu Yang nodded, and came to the second-floor parlor with Shen Jinglin, Xia Yuanshan, and Zhang Linhu. Just sitting, Shen Jinglin punched the table and stared at Luyang. "Lu Yang, what can I help you, come up, I can do everything I can to help. "

Xia Yuanshan and Zhang Linhu said together, "Neither of us."

Lu Yang smiled and said, "Uncle, don't be angry, isn't it just Li Xiuyu? Look, I let him lose his blood and let his family die in this game."

In this world, Lu Yang came back for revenge. For Liu Jie, Lu Yang had killed him for a while in the last life. He did n't have that much hate. What made him hate the running dogs Li Xiuyu and Wang Teng who had not killed him Before, he was still thinking about **** Li Xiuyu, but now he took the initiative to come to his door and saved him trouble.

Zhang Linhu said: "Xiao Yang, don't care, if Li Xiuyu's family fully supports him, it is easy to throw two or three billion yuan into the game."

Lu Yang said: "It's not my entrustment, Li Xiuyu and I are not of the same level. I play him like I play, you guys watch it."

It has been confirmed in the last life that Li Xiuyu has no military commanding ability at all. His family has invested 3 billion credits for him. It stands to reason that he can sweep almost all enemies except Liu Jie. However, this man is arrogant. With a little strength, he forgot to fight Jiangshan's brothers, firing his generals one after another, resulting in his guild's internal factions and chaos. After some internal fighting, he was jointly attacked by six guilds.

Shen Jinglin also believed in Lu Yang's strength and thought for a while and said, "Xiao Yang, can I ask you something?"

"What's the matter?" Lu Yang asked.

"For a while, Yaoyao will work in your studio and live in your studio dormitory," Shen Jinglin said.

When he was just downstairs, although he was very angry, he reacted. There were already traitors in the family, such as Shen Mengyao's aunt, who had lost the principle for money. He could not let Shen Mengyao stay in the family again. This was too dangerous.

Lu Yang said: "Of course you can. Now Yao Yao, Yu Wei and Zibo live in my studio dormitory."

Shen Jinglin nodded and said, "Boy, I won't stop you from falling in love with my daughter, but you must know your age and don't do excessive things."

Lu Yang said sincerely: "Uncle, rest assured, I can swear to you."

After repeatedly guaranteeing with Shen Jinglin, Lu Yang went downstairs and returned to their table of Zhuojiu. Just after Li Xiuyu's affairs, Luyang suppressed the Zhuojiu and the White Lion and did not let them participate. The main purpose was to protect them.

People such as Zhuojiu and White Lion are almost unable to suppress the fire. When they see Lu Yang returning, Bai Lang said, "Boss, let me take a unit to Hannibal City and lay a fortress. I will go to the meeting first. This Li Xiuyu. "

"I'll go as well."

"I'll go as well."

...

Zhuo Jiu and bitter love half-life, Sun Yu and others scrambled to say.

Lu Yang shook his head with a smile and said, "Don't worry about this. Tomorrow is the qualifier of the global competition. Tomorrow you will play the qualifier honestly, and secretly gather all the players above level 40. We should go to the beast. Family. "

Everyone's eyes brightened.

"It's great. With honor, you can change your level 40 equipment." Mao Qiu said.

"Drip, Drip, Drip" Mu Yi's cell phone rang. Press the connect button and heard the words in the phone. She was surprised and said to Lu Yang, "Brother, just received the news. I buy the potions used by half a million people here, and he is going to attack Sirius Fortress. "

“Hey, here’s the person giving the honor.” White Lion said.

Lu Yang said: “Then we go to the orcs this time and weed this **** sky, Zhengchou didn’t know who to hit.”

Everyone laughed.

Lu Yang is not nonsense. He has been worried before. Attacking the wolf tribe is indeed a good way to obtain honors. He can get level 40 gold equipment in advance. However, there are also disadvantages that easily cause the wolf tribe players to sacrifice their enemies.

If it is not handled properly, thousands of guilds of the Wolf clan will come together to kill him, and Lu Yang will not be able to carry it. Now he has taken the initiative to die, and he is in love with Lu Yang ~
www.mtlnovel.com ~ Thai Sirius said: Or I do n’t know if I was attacked here. “

Lu Yang said: “Let’s go and go back and arrange.”

Everyone nodded.

When Lu Yang was talking here, on the other side, Huang Xiang, Zheng Yuan, Wang Rui and a group of people who secretly love Shen Mengyao hated Lu Yangyan’s eyes, especially when they heard that Shen Mengyao introduced Lu Yang to everyone and said that Lu Yang was About her boyfriend.

Not only did they slap Li Xiuyu, it made them feel bad.

At this time, Huang Xiang was even more firm in his thoughts of harming Lu Yang. When he saw Lu Yang talking with a group of people, he came over with a smile and said, “Brother, you are really amazing, just admire.”

Lu Yang smiled and said, “OK, what’s the matter?”

Huang Xiang asked: "Who are these people around you, why haven't I seen it before?"

Lu Yang knew that he couldn't let the grandson know the origin of the muddy wine. Otherwise, Huang Xiangbao would stick up like a bug.

"Huang Xiang, these people are all my high school classmates. They are going to enter the game collectively to join our brother league tomorrow. You can help me when you have time." Lu Yang said.

Zhuojiu and the White Lion reacted instantly. They knew that Lu Yang had said it intentionally to them, especially referring to Huang Xiang's name. Between them, the army chief and deputy chairman, Lu Yang had already made three orders and five applications. Many times Huang Xiang is a traitor.

Mao Qiu hesitantly stood up and said, "I'm Xiao Li, I'll give you more advice in the future."

Although Huang Xiang's expression was still so enthusiastic, his heart was indifferent, he hesitantly said two words and left.

Mao Qiu looked at Huang Xiang's back and snorted, saying, "Snobbish eyes."

Lu Yang laughed and returned to the studio with Shen Mengyao, Xia Yuwei, Zhang Zibo and Zhuo Jiu, etc. after the dinner was over.

Chapter 502 - Black pupil cape

Coming to the war room, this is a room specially opened up by Lu Yang.

Lu Yang said: "Free time for half an hour, and then meet at the Red Fort. I will take you to the final preparations for attacking the Blood Wolf Fortress."

The bottom line of the Blood Wolf Stronghold's prison sky dome has already been explored by Lu Yang. Mu Yi has detailed information on the elites of the prison sky dome, and Lu Yang has to do something against the soldiers of the prison sky dome.

Zhuo Jiu and Xia Yuwei didn't enter the game for a day. They also had to deal with some internal affairs of the legion. They nodded and agreed to enter the game.

The light flashed.

Lu Yang appeared at the Shengcheng Hotel and turned into an ordinary player using a camouflage coat. He came to the smithy in the north of the city, found Han Zhong, and asked, "Master, how many faces have the shield hit."

Han Zhong said: "Xiaohe just created 6 sides."

"Give it to me. I'll take it here first, and tell Xiao He, in the past few days, he'll be as hard as he can, as many as he can." Lu Yang said.

Han Zhong nodded, took out six refracting shields from his backpack and handed them to Lu Yang, and asked, "Before you asked me to collect gems, I have nearly 100,000 in my warehouse. Do you still continue to acquire them?"

Lu Yang said: "Continue to acquire, it is best to acquire more resistance gems."

The resistance gem refers to fire resistance, water resistance, and other types of resistance gems. Players equipped with such gems will slightly reduce the damage value when they face the same type of damage.

Han Zhong said for a moment, "How much to buy? There are many gemstones in this kind of server, you can buy them on the market, and the price is very cheap, only 10 copper coins."

At present, the mainstream gems on the market are injury and attribute. Resistance gems are left unattended, and they can only be thrown into the warehouse when they are hit.

Lu Yang said, "How much to buy, it is best to buy all the absorbent gems in the human race."

Low-level resistance gems do not work, but high-level resistance gems are very powerful, especially those above level 10.

“Okay, I have people buy it.” Han Zhong said.

Lu Yang nodded, said goodbye to Han Zhong, and turned into the smithy’s warehouse. He picked up 10 sacks of defense gems and flew back to the demon temple.

Throwing the dice of fate, the lucky value increased by 10 points. Lu Yang synthesized a large number of gems, and after setting up 6 tier 10 defensive gems, he set the gems on the refraction shield, which took exactly half an hour.

“Boss, we’re all together at the Red Fort.” Said Zhuzhuo.

“I’ll be here.” Lu Yang finished speaking, took out the fortress and returned to the city roll, and flew to the inner city of Red Fortress.

Zhuoju and others saw Lu Yang coming and came over one after another.

Tu Feng said: “Just got news, Wang Teng and Li Xiuyu officially informed their respective guild players to jointly attack Hannibal City tomorrow night.”

Lu Yang said: “It seems that Li Xiuyu was anxious by my kick. Since he wants to send him to death, let us come first. Let’s hit us first. Everyone put on the Red Flame Lion and follow me. Andaman. “

Hannibal City was not so easy to attack. During this time, Tu Feng had arranged manpower to investigate the situation of Hannibal City. At present, Hannibal City is very chaotic. There are more than 10 super guilds, which is not easy to settle.

Zhuojiu and Xia Yuwei and others nodded, replaced the Red Flame Lion and followed the landing fortified with the Red Fortress running all the way to the northwest side. After an hour, they ran to the 45-level map of the waste capital Andaman.

Andaman, introduced in the official official history, is a main city that was destroyed during the human civil war. The dead humans in the city were turned into zombies and evil spirits because they did not burn in time, and because the resentment was too powerful.

The shape of the city is different from the old castles seen in the past, but it is gray-white rocks like the city of St. Gall. The walls are 30 meters high. There is a moat and a suspension bridge at the gate of the city. Undead in black.

A crow of level 50 blood and more than 8,000 flew through the sky and landed on a suspension bridge.

The cursed undead raised his right hand and pointed a crow. A purple-black light hit the crow's body, and the crow died instantly.

The White Lion scratched his head and said, "The damage is so high."

Lu Yang asked with a smile: "I feel like I can't carry it."

The white lion, muddy wine, bitter love half-life, Jiang Ze, Zhang Zibo and Bai Hu nodded together. The most important part of the curse and the mob is to resist the mob's attack.

Obviously, the city gate is the best place to resist monsters. However, the monsters have more than 8,000 attack power. No one of the six white lions can carry them unless they are called Xiao Liang.

Lu Yang took out the refracting shield from his backpack and gave it to the six of them, saying, "With this, anti-strange will become very easy."

The White Lion took the shield and looked at the attributes.

"There can still be such a shield, with refraction!" The White Lion said in surprise.

Lu Yang said: "The monsters in Andaman are mainly curses the undead. You guys can use this to resist monsters very easily."

Zhuo Jiu and others nodded together.

Lu Yang raised his staff and first killed the 12 undead who were guarding the door. He led the team to the gate of the city and began to release the spell.

White Lion, Zhang Zibo and Jiang Ze as the first group, holding shields at the gate of the city, muddy wine dumplings, white tiger and bitter love half-life as the second group behind, ready to answer.

Thirty seconds later, half of the waste was in the flames. Tens of thousands of cursed undead spirits fluttered with a sickle. At the door, they saw the three white lions and immediately used their skills to attack.

"Black Silk Rays"

Thousands of purple and black rays came in, and the three white lions immediately turned on the shield effect and hid behind the shield.

The purple and black rays hit the shield and immediately reflected to the surroundings. The three white lions could not lose any blood. On the other hand, the dead monsters died in the curse.

A burst of gold lighted up, and the White Lion and Xia Yuwei and others upgraded to another level.

"This shield is too strong," said Muddy Wine, leaning back, standing behind the White Lion, watching with his own eyes the White Lion bounced back thousands of black rays of light, and he couldn't drop a drop of blood.

"With this shield, we can fight all remote monsters, it's too easy." White Lion said.

Everyone was excited to look at Lu Yang.

Lu Yang said, "In fact, this shield is a great gift I prepared for the prison of the blood wolf fortress. It's just a little use."

"For the prison sky?" Bai Lang asked in surprise.

Lu Yang said: "The main force of Hell's Dome is a 500-man shaman army. They will all have special skills totems of evil fire. When this totem is inserted on the ground, it fires at a rate of 0.2 rounds with chaos. The flame bomb of the attribute, and its ejection of five people, is his most powerful killer, and this is the unit on which he lays the Blood Wolf Stronghold. "

If a group of shamans use a totem of evil fire, they can eject five people each time, resulting in 3500 points of blood for 1 second of killing. Elite players at level 40 can't persist for 2 seconds. Devastating injury.

Looking at the weapon in his hand for half a life, he said, "Hell Sky Dome knows that the boss has such equipment, so he must be depressed."

Everyone laughed.

Lu Yang said with a smile: "I am aiming at Prison Sky this time. Since he wants to hit me, then don't blame me for being merciless."

Tu Feng took Xia Yuwei and they ran back from the front, saying, "A total of 20 pieces of 50-level gold equipment were harvested, and there were 12 drawings of the black pupil cloak."

“This cloak is so rubbish,” Mao Qiu said.

Lu Yang said: “Don’t look at the bad attributes, but his special effects are very good. When we go for a sneak attack on the wolf tribe, if our mage troops have such a cloak, the opponent will not even know who we are.

If the camouflage coat is attacked, it will immediately show up. In order to prevent it, Lu Yang decides to use this cloak instead. In this way, even if an unexpected situation occurs, it will not be discovered by the wolf players.

Mao Qiu said: “The boss is still thoughtful of you.”

Chapter 503 - Mist Elixir

Lu Yang said, "Come with me to the next map, the Black Mist Forest, and we will continue to target the forces in Prison Sky."

There is a crow legion in Hell Sky Dome, all of which are converted from shooters. This unit is characterized by investigating crows from the Crow Temple, exploring the way for the players, and finding the enemy.

In the last life, he started from investigating crows and never been attacked by anyone. If anyone wanted to ambush him, he would be ambushed by him instead.

At first, the players thought that Priscilla was in the eye of other guilds, and later they knew that he had a crow to detect, but the players found that no one could take his crow to detect, because the thing was flying at a height of 200 meters. , Bows and arrows can not shoot, spells can not hit.

Until a time when Hell's Dome invaded the Terran, a Terran team was ready to fight him in the forest, but Hell's Dome thought that there was no one in the forest, and the team rushed in without formation. As a result, they were defeated by this team. .

Later, when the boss of this guild summed up on the forum, the reason why the crow did not find him was that he suspected it was because of a thick fog in the forest, and the crow did not see it.

Immediately after reaching this conclusion, some clan guilds researched the Fog Elixir. After several trials, it was found that when the investigating crow flew over the fog from a height of 200 meters, he would not fall into the Fog to investigate, so he would judge that the following is just Fog, no enemies.

At this point, the invincible prison sky fell to the altar. The crow not only lost its previous investigative ability, but also became an inducement to bury him in the guild. In several battles, the crow was confused by the mist, causing him to make a wrong decision and was defeated by the enemy.

The source of the Mist Elixir is in the Black Mist Forest, where the drawings of the Mist are exclusively published.

While running with the team, Lu Yang told them the general situation of the prison sky dome and the response method. When the explanation was finished, he just arrived at the entrance to the woodland.

System prompt: you found the foggy forest

The trees in the foggy forest are black, and the leaves are also black. The forest is full of mist and fog, and the sight cannot reach 5 meters inside the foggy.

“How is this place haunted?” Sun Yu said.

Mao Qiu said, “I don’t see anything strange.”

Lu Yang smiled, raised his hand and hit a blast of fog on top of a cloud of mist.

“滋滋 ~”

The white mist made a strange noise, turned into a dark black dense fog, and fluttered towards the landing sun.

Black Mist (elite)

Level: 50

Qi and blood: 468720/490000

“It turns out that the fog is strange.” Mao Qiu said dumbfounded.

Lu Yang killed the black mist monster continuously with Pyroblast and said, "All mists are strange. The black mist monster is good at wind spell wind blades. You turbid wine and white lion come forward. Nanfeng knows. Let's go crazy. "

Six people including Zhuoju and White Lion walked in front of the crowd and formed a shield array. After Lu Yang handed over his equipment to Nanfeng Zhiyi, Nanfeng Zhiyi began to release the curse.

After 30 seconds.

The dense fog rolled in the sky, and tens of thousands of blue lightnings fell collectively, just like a thunderbolt. The forest within 1,000 yards was divided into a grid by lightning.

“滋滋~~”

The sharp, screaming sound came from the forest. The forest full of white snorting air instantly turned into a black mist, and a black rushed consciously rushed towards the south wind, waiting for a distance of 50 yards. , The black mist spit out the black wind blade to the south wind one after another.

Thousands of wind blades flew towards Nanfeng's deliberate head.

Zhuoju pouring and white lions were standing in front of Nanfeng Zhiyi, and Zhuoju shouted loudly, "Refraction."

Six people collectively turned on the refracting skills on the shield. A layer of crystal shimmer appeared on the surface of the shield. The black wind blade hit the shield and was immediately rebounded to other directions.

When tens of thousands of wind blades hit the shield, like a shield firing a wind blade outward, the black wind blade is shot into the black mist monster at a speed of several hundred rounds per second.

“3876”

“3728”

...

The damage caused by the bounced wind blade was very high. In addition to the lightning damage of more than 7000 per second that Nanfeng knew about, in less than 30 seconds, all tens of thousands of black mist monsters died.

Tu Feng led the team to pick up the equipment, waving a golden scroll, and excitedly shared the formula in the simulation group, saying, “I have found a thick fog potion formula.”

Formulations

Effect: Creates a dense fog with a diameter of 100 yards for 30 minutes.

Lu Yang said, “That’s the thing.”

As soon as the voice fell, the talker rang, and he picked it up and looked at the phone display in surprise, calling it by slang.

Lu Yang pressed the connect button and asked, “Chairman, is there anything wrong?”

On the other side of the intercom, Lu Siqi said in a spirited manner: “President Lu Yang, the bosses of the three fortresses in Hannibal City want to ally with you to deal with Li Xiuyu and Wang Teng.”

Lu Yang said for a moment, “Why are you thinking of forming an alliance?”

The silk language said excitedly: “Do n’t you know, Li Xiuyu and Wang Teng have announced that they will jointly attack Hannibal City and ask our three guilds with fortresses to take the initiative to withdraw. Why? The hardships are our hard work. Yes, they said they would give us. “

Lu Yang said, “But it’s useless for you to form an alliance with me. It takes 8 hours for me to be your closest florist to Huayu. On the one hand, I can’t get through, and on the other hand, it doesn’t work.”

“Can we talk about it in a special space, and I will talk with you with the other two presidents,” said the silk.

“Of course.” Lu Yang said.

Lu Yang also wanted to see what she wanted to do over the silk language. If you had a chance, it would be a good choice to re-create Li Xiuyu and Wang Teng once.

Soon after, Lu Yang received a special space application for the Silk Language. After clicking on it, the light flashed and appeared in a special space like an office.

Three people stood on the north side of an oval-shaped conference table, one of them was a silk language, and the other two did not know Lu Yang. The three saw Lu Yang coming and walked over together.

“Chairman Lu Yang, thank you for coming,” Qian Si said gratefully, then he pointed to a fatter president on the left hand side and said, “This is Lu Jie, the fortress of Hessen, the chairman of the Royal Guild. “

Lu Jie said, “Thank you President Luyang for coming.”

Lu Yang said: “Don’t dare to be, they are all in the same trench.”

The silk language pointed to a thinner president on the right hand side and said, “This is Yao Zhi ~
www.mtlnovel.com ~ The President of Echo Fortress and Fanyinge Guild.”

Yao Zhi said, "Jiu Yang is famous."

Lu Yang responded politely and asked, "The three of you are already in alliance. Do you want to fight?"

Yao Zhi said: "This battle is not only for our three, we also contacted four other super guilds, and together they have a total of 900,000 people, ready to fight a decisive battle with Li Xiuyu and Wang Teng."

Lu Yang said for a moment, "900,000 people?"

Lu Jie said proudly: "Yes, it is 900,000 people, and they are all players above level 30. Among them, there are 50,000 players who have gold level equipment above level 40, and players who have gold level equipment above level 30.22 Ten thousand people. "

Lu Yang was surprised, and asked, "Where have you got so many 40-level gold equipment?"

Lu Jie was even more proud, saying, "Brothers, I have good luck. I started out by selling materials. Fortunately, I found a lot of refresh points for 30 and 40 gold materials."

Lu Yang understood it and said, "Then you have 900,000 people. What do you want me to do? You can level it yourself."

Yao Zhi said: "One more person has more strength. I have spies on Wang Teng and Li Xiuyu. At present, the two people I know can mobilize more than 800,000 people to participate in the war.

Filigree frowns: "The other two are consortia, and we are just some ordinary players compared to them. They have more special troops, fewer people than us, but it is very easy to dispatch. We still have many problems Therefore, I hope that President Lu Yang will be able to deploy a 30,000 troops as a backup.

Don't ask President Lu Yang to join the war immediately, as long as you think the fighter is appropriate, suddenly attack and attack their flanks. "

Chapter 504 - Global competition begins

Lu Yang said: "Your ideas are good. I will go back to research and give you a reply as soon as possible."

If this method can really be implemented, at the critical moment of the two sides' battle, Lu Yang suddenly gave Lengjian, and he was able to defeat one of Wang Teng and Li Xiuyu.

With a bright eye, she said happily, "Thank you very much, President Lu Yang. If you can come, we are more confident in winning this battle."

Lu Jie and Yao Zhi are also very excited.

"We price each other good friends. If President Lu Yang has an answer, he can always find us. Even if we can't cooperate this time, we hope to have the opportunity to cooperate together in the future. We are very sincere." Yao Zhi said.

"Of course you can." After Lu Yang, Lu Jie, and Yao Zhi added friends to each other, they briefly talked out of the special space.

Tu Feng had already picked up their equipment at this time and was surrounding Lu Yang.

"Boss, where did you just go?" Tu Feng asked.

Lu Yang smiled and said, "Do you know who was looking for me just now?"

"Who?" Everyone asked.

Lu Yang said: "The boss of Rainfall Fortress in Hannibal City, slang."

"What did she ask you for?" Xia Yuwei asked curiously.

Lu Yang said: “Li Xiuyu and Wang Teng are going to fight Hannibal City, and the silk language unites 7 guilds and organizes 900,000 players to prepare for a decisive battle with them.”

“900,000 people?” Lan Yu said in surprise.

Lu Yang said, “Yes, there are 50,000 advanced players wearing level 40 gold equipment and 220,000 elite players wearing level 30 gold equipment.”

“Well, the strength is strong enough for Li Xiuyu and Wang Teng to play for a while.” Bai Hu said.

Lu Yang said: “The purpose of her looking for me this time is to invite our Brotherhood of Iron and Blood to Hannibal City to fight Li Xiuyu and Wang Teng. What do you think?”

“This is a good opportunity, we can hurt Li Xiuyu and Wang Teng once.” Bai Lang said.

Zhuo Jiu shook his head and said, “No, we can’t go, especially the boss. What if this group of people get upset and rob the boss of the devil’s heart?”

The crowd stunned and reacted.

Bai Lang remorsefully said: “The 900,000 people across the street, we are still on the ground, and we really can’t go.”

Lu Yang said: “I think so too. After all, the major guilds in Hannibal are also hostile to us. If there is an opportunity, they will definitely hurt us.”

There are countless civil strife between alliances like the last one. Lu Yang will never take his own demon heart to take risks, not to mention, he always feels that things are not right this time, although he can’t say where there is a problem.

“Boss, how are you going to reply to them?” Xia Yuwei asked.

Lu Yang said, "Hold on, don't say no, don't say no, we'll do our thing, and wait until they hit it."

Everyone nodded.

Tu Feng said: "Then I will report what I have just harvested. I got 22 recipes and 21 pieces of 50 gold equipment."

Lu Yang said, "The recipes are given to the pharmacists of the guild, so that they can start to do their best tonight. Let's go to the next map."

"Yes," the crowd said together.

Next, Lu Yang took Xia Yuwei, Jiang Ze and others to kill the six map monsters one after another, bringing them to level 50.

Sitting on a large rock on the last map, Lu Yang looked at the time and it was 12 o'clock.

"I'm here tonight, tomorrow is an arena match, which can just cover us. Everyone leads the team to upgrade quickly. After 7 days, all players above level 40 follow me to attack the Blood Wolf Fortress." Lu Yang said.

"Yes." Xia Yuwei and others said together.

Here Lu Yang rested. On the other side, Yao Zhi, Lu Jie, and Sisi Yu were still thinking about war countermeasures. In this war, three people with strongholds were allied, and the other four super guilds were with them. Alliance, but not as close as three.

"I don't know if Lu Yang will come?" Lu Jie asked.

The silk language said: "With my understanding of Lu Yang, he may not promise us this time, unless we give him more benefits."

Yao Zhi asked: "What benefits?"

The silk language asked: "Who does Lu Yang hate the most?"

"Wang Teng." Lu Jie said.

The silk language said in her unique and soft voice: "If we can hold most of Teng's troops on the front battlefield and prevent him from returning to Beifeng City, Lu Yang will definitely send troops at that time."

Yao Zhi frowned and said, "Well, aren't we tired of making wedding dresses for others?"

The silky words said playfully: "That's not necessarily the case. If Lu Yang occupied a fortress of Beifeng City, Wang Teng would certainly retreat. At that time, we 900,000 people responded to a Li Xiuyu, wasn't it easy? Maybe we can still reach the running city. "

Lu Jie patted the table and said, "This idea is good, Lu Yang will definitely agree."

Yao Zhi nodded and said, "That's the case ~ www.mtlnovel.com ~ I agree."

Lu Jie said happily: "I'll send a message to Lu Yang, er, Lu Yang is offline."

"It will be the same tomorrow, let's discuss it with the other four guilds."

Yao Zhi and Lu Jie nodded together and contacted other guilds.

...

the next morning.

It happens to be Sunday.

Lu Yang entered the game after washing, and found that the scene inside the holy city had changed, and the words of the global competition were posted everywhere.

The game officially started at 8 am. The rules of the game are very simple. It is transmitted to a venue for competition. The qualifiers are played one morning. The top 10,000 players from each race are selected to enter the race.

The main round uses a single-round knockout match. After losing, it is directly out, and the winner is directly promoted. In the end, 1,000 people from each race are selected. The three races are mixed, and the top 3 people are finally selected to participate in the international competition.

The venue of the competition was in the square of the King's Castle in the Holy City. After Lu Yang and Xia Yuwei and Bai Xiong joined together, they came to a restaurant together.

The castle is inaccessible and the venue is limited. When it is the player's turn to participate, the system will be directly transmitted to the venue.

Sitting in the private room on the third floor of the hotel, White Wolf watched the players on the World Channel chat non-stop, chatting and said excitedly, "It's too lively, everyone is discussing the contest."

"Hey, our three brothers are still hot. You see that there are gambling bureaus on the Internet. We can get the first place in the country. The gambling place is on the first floor of this hotel." Bai Hu said.

"At that moment our three brothers bought a note." White Lion said.

Everyone laughed.

Lu Yang said: "Don't forget this mission, you must make it to the finals."

The bitter half-life quintet nodded with Bai's Sanxiong and the brothers Zhou Tianming and Zhou Tianyan, saying, "Boss rest assured."

Chapter 505 - Invincible

Everyone knows how significant the significance of this global competition is, and whether the Jagged Brotherhood can develop, it depends on the competition.

"Boss rest assured that this time our top 224 contracted players have participated, and their strength is also very good. We will have no problems entering the Terran Finals." Tu Feng said.

Lu Yang nodded and said lightly, "It's time for our Brotherhood of Iron Blood to erupt."

Almost all the master players of the last generation of human races were enveloped by his Majesty. More than 200 top masters in the Iron Brotherhood will be famous for the global competition.

The system prompts: There are still 10 minutes before the game. Please make final preparations.

The Baixi Sanxiong and bitter love half-life and others began to check their equipment. For this game, during this time, the equipment on them was prepared by Lu Yang before the leapfrogging, with enchantments and precious stones.

Lu Yang replaced the Hertos suit and the Magister's Staff, and took out the level 60 gold equipment prepared in advance, and the magic damage was reduced from more than 8,000 to more than 4,000.

Jiang Ze glanced at Lu Yang's attributes and said, "It doesn't make a difference whether you change equipment or not. Anyway, your set is not even resisted by anyone. Why is it dead?"

Everyone nodded together.

The so-called combo is Luyang's unique Flame Storm + Blazing Bird + Meteorite Impact + Resistance to Fire Ring + Skyfire.

Even if only 2000 spells are injured and hit by this set of skills, non-magic players will die!

Lu Yang shrugged his shoulders and said, "I still have to do what I should do. I equipped a Pyroblast with a set of level 90 sub-legends and it took people a second. Ordinary players should not be happy."

Everyone thought, right.

After 10 minutes, the game started.

Lu Yang's body flashed and teleported to the competition site of King's Castle, where he was at Site 1.

System prompt: Demon's Heart is invalid in the arena, death will not drop!

Lu Yang also encountered this situation in the last life. He didn't care. He looked at the opposite player and was a strange face.

The opposite player saw the appearance of Lu Yang, and immediately knew that this person was the chairman of the Jagged Brothers Alliance, and said silently, "Is there anything wrong, I will fight against the leader of the Jagged Brothers Alliance."

Lu Yang smiled and didn't speak.

Players in the holy city can watch any game in the game for free. Most of the players who have not participated in the game have aimed at Lu Yang. Everyone wants to see how strong he is.

"Well, the opposite brother is unlucky. I met Lu Yang at the beginning."

"It looks like he has given up."

...

Countless players leave comments on the channel.

Game start

The opposite player suddenly swept away the gloomy expression before, and his hand-held sword holding his face turned into a phantom rushed towards the landing sun.

“charge”

As soon as Lu Yang’s eyes lighted, and he raised his hand for a Pyroblast, the moment the opposite player was about to rush to Lu Yang, the big fireball burst into a burst on the opponent’s body.

“8918”

Anonymous player took two consecutive steps to stand still, looked at Lu Yang in horror and said, “You, how did you do that.”

A sneak attack with an onslaught came in 1 second. It can be said that it was just a blink of an eye. Lu Yang actually read Pyroblast within such a short time and hit him in time.

Lu Yang said with a smile: "This is an arena. Be vigilant at all times. I will not be deceived by your weakness."

Anonymous took out a recovery medicine and ate it, taking two steps back to reach the interception position where he could launch a second charge.

"Yes, it's President Lu Yang. Then I will not show weakness, and I will compete with you directly." Anonymous said.

Lu Yang shook his head and stretched out his hand to point at Anonymous.

"Fire Snake Bondage"

Nine fire snakes emerged from the feet of Anonymous, trapping them firmly in place.

"Pyroblast"

Lu Yang raised his hand and hit Anonymous' head with Pyroblast.

"4880" (Critical Strike)

Anonymous fell to the ground and died!

System prompt: Lu Yang wins.

"Fuck, it's too simple."

"Mage's free mode is too strong, and the two sides are not one level."

"The fire snake was hit, isn't this kid dumb?"

“Don’t blame him, the ghost knows that the boss of the Brotherhood will be in free mode for each spell.”

...

As the players discussed, a second opponent appeared in the arena.

Lu Yang saw the other person’s appearance and sneered, and said, “Blood-thirsty, do you still have a face to participate in the competition?”

The bloodthirsty domineering guild has been annexed by Wang Teng, and his offline organizations have also trusted in Wang Teng. He has completely become an lonely widow.

This time to participate in the Global Athletics Contest, Bloodthirsty Domineer also wants to fight once to see if he has the opportunity to fight for the top three in the country. He used this reputation to re-establish the guild. He just won the first game and did not expect the second. The market faced Lu Yang.

The face of Bloodthirsty Domineering became scary and terrified, referring to Landing Yang and cursing: “I can only end with you today and I will kill you.”

Lu Yang sneered, left-handed shoulder-to-shoulder, a big red bird appeared on top of his head and landed on Lu Yang’s left arm.

“flicker”

A white light flashed, and Lu Yang appeared instantly in front of Bloodthirsty Domineering, a wand pointed at the ground, and a black ripple appeared at his feet.

“Flame Storm”

The crimson beam of light illuminates and surrounds the bloodthirsty bully.

Lu Yang pointed forward with one hand.

“Blazing Bird”

The big bird resting on his arm flew high and dived into the beam of light.

“Meteorite Impact”

Lu Yang’s staff pointed at the sky, and a red fire ball with a diameter of 5 meters descended from the sky. At this time, the flame of the flame storm had just disappeared, exposing the bloodthirsty hegemony in the dizziness. He had just woke up and the meteorite was right in his head.

“4602” (Critical Strike)

“Resistant Fire Ring”

A crimson fire erupted from within Lu Yang’s body, retreating back and forth from the bloodthirsty domineering. It happened that every step back would be attacked by a meteorite.

Bloodthirsty Batian is a 10-level blood gem with more than 15,000 points of blood. When he stands still, he has less than 6,000 points of blood.

“Destroy the Sky”

A blaze of flame descended from the sky, right in the head of Bloodthirsty Domineering.

“5686” (Critical Strike)

Bloodthirsty Batian was horrified to see that he had residual blood, and just before taking medicine, Lu Yang had raised his left hand.

“Flame Shock”

Instant skills, no trajectory, Lu Yang is difficult to avoid, let alone a general master such as bloodthirsty domineering, was instantly hit by the flames, and spiked in place.

System prompt: Lu Yang wins!

“Fuck, this set of moves is life-threatening. Which fighter dares to fight hard with Lu Yang.”

“A mage hits a fighter as much as a son, but also keeps the fighter alive.”

“Fire Law kisses his son.”

“Fire is mighty.”

...

Lu Yang’s side quickly became the focus of hot discussion among players. Until the noon break, Lu Yang cut 32 people in a row.

Bai Xi Sanxiong and bitter love half-life, Xiao Liang and Mu Yu, Han Ying three siblings, Han Sha and others also achieved victory.

On the other side.

Li Xiuyu’s five generals each led the team into the afternoon preliminaries, and Wang Teng’s Qu Han and the newly-developed Qian Mo kill also entered the afternoon preliminaries.

In terms of orcs, Huo Tianhua and Jie Tianqiang, the heads of various consortia, each took their teams to participate in the game.

As for the elves, the major guilds are also busy participating in the competition.

The only one who did not participate in the game was Liu Jie. As the eldest guild leader, Liu Jie was completely uninterested in this kind of game. At this time, he was in the special space with the Orc, Elf and Human All major material suppliers in the race negotiate business.

“This time is an opportunity. During the contest, the prices of all equipment have risen, and I think the prices of raw materials should also rise.” Liu Jie said.

The 52 big vendors sitting around the office nodded.

“Jie Shao’s words are very much in agreement with me. Those of us present held 50% of the raw materials for the national clothes. We should raise the price uniformly this time. What do you think?” A fat-faced supplier sitting next to Liu Jie smiled. Said.

“Of course it is good. It is the best thing to be able to raise prices uniformly. Don’t tear down everyone’s platform. We will rise uniformly.”

Other suppliers have considered this to be reasonable.

“I don’t know how much Jie thinks the increase is appropriate ~ www.mtlnovel.com ~ a thin-faced supplier asked happily.

Liu Jie said: “At present, the price of raw materials for a set of 40-level gold equipment is 43 gold coins. I think we should uniformly increase it to 45 gold coins.”

“So much!” A lot of suppliers originally thought it would be good to be able to increase 30 silver coins. I did not expect Liu Jie to rise so hard.

Liu Jie stood up and said elegantly: "This game, to be honest, is a game in which the country takes the initiative to send money to the poor. In this case, what is the difference between the money in the hands of the poor and ours? Happiness, we also get happiness, don't we? "

There are various missions in Second World. Players can obtain a small amount of copper coins after completing them. You can also exchange copper coins by killing monsters to get animal skins and equipment. Copper coins can be directly converted into cash to maintain a large number of smart robots. Survival of the unemployed.

The fat-faced supplier said with a smile: "Anyway, they can buy it any longer, right?"

The other suppliers did not hesitate and nodded. "Agree."

"agree."

"agree."

...

In just 10 minutes, the situation of the raw material market changed abruptly. When Lu Yang finished his online work in the afternoon, the whole world was scolding the material merchants.

"Thinking about money and going crazy? 40-level gold equipment will cost 45 gold coins to buy raw materials, and I won't buy it."

"Who is manipulating the price behind the scenes, get out."

...

"My gang of materials merchants are really lacking in morality," he said.

The white wolf said angrily, "Wait for us to get them into the international competition and pack them once."

Lu Yang said: "I and K just contacted them and they broke into the race. We also cheer."

"Yes," the crowd said together.

Chapter 506 - Provocation of a space thief

Regarding the establishment of an international elite organization, Lu Yang had talked with Bai's Sanxiong and bitter half-life, and they all agreed very much. Therefore, they also knew about K and Tang De.

"Dididi"

The reminder of the invitation to the special space sounded. Lu Yang saw that it was invited by the silk language, told everyone, and clicked into the special space.

The screen flickered.

Lu Yang appeared in the office-like space, and there were still three people in front of the silk, Yao Zhi, and Lu Jie.

"Chairman Lu Yang, you really deserve to be the first fire of the human race in the morning. They played so beautifully." Yao Zhi said.

Lu Yang smiled and asked, "OK, what's the matter?"

The silky words said: "It's still an alliance. After you left last night, a few of us discussed again and decided not to come to Hannibal City."

Lu Yang asked, "Why?"

Lu Jie said, "The three of us are willing to stop Wang Teng's army for you, and then you can attack the scorching sun fortress."

The Scorching Sun Fortress is located at the junction of Beifeng City and Hannibal City, and belongs to one of the four fortresses in Beifeng City.

The reason why Lu Jie proposed this fortress is because the dominating fortress facing the Huayu Fortress must have a large number of troops stationed by Wang Teng. However, the hot sun fortress and the other two fortresses must be empty. If you choose to attack, the hot sun fortress is closest. Most likely copied Wang Teng's back road.

Lu Yang said, "That's a good idea."

He has always wanted to slay a Beifeng Fortress as a breakthrough point for the troops. If he can occupy the Sun Fortress, it is also a good choice. However, this plan cannot be implemented because he simply does not believe in the triad.

Lu Jie saw that Lu Yang was interested, and said excitedly: "Chairman Lu Yang, how about our alliance, as long as we contain Wang Teng's troops, you can bring 20,000 elite troops to attack and lay the hot fortress."

Yao Zhi said, "If you are willing to come, we will provide you with routes and cover."

Lu Yang moved in his heart and said, "Let's go back and discuss with my men. If there are no problems, I will ally with you."

“That’s great,” said the three together.

Lu Yang said, “It’s time for me to play here. I’ll go first.”

After arching hands with the three, Lu Yang exited the special space and returned to the hotel.

Xia Yuwei asked: “How are you talking?”

Lu Yang sneered, saying, “I have 80% certainty that the three people, Lu Jie and Yao Zhi will kill me.”

“What?” Everyone, such as Zhuojiu and White Lion, was surprised.

Lu Yang said: “At the beginning, everything was good. At the end, Lu Jie asked me to take only 20,000 people to attack the fortress of the hot sun. If this person is ambushed, I have a high probability of being killed. Lu Jie pushed everything to Wang Teng. He stole my things and he won’t be retaliated by me. Good. “

“Boss, I’ll take a lesson with them to teach them.” White Wolf said angrily.

Lu Yang said: “No hurry, Lu Jie, Yao Zhi and Li Siyu must have great confidence to defeat the alliance of Wang Teng and Li Xiuyu. I don’t know where they are now. I pretend to agree and Tu Feng You send someone to check. “

Tu Feng nodded and said, “I’ll send someone here.”

Lu Yang looked at the time and had one minute to enter. He said: “We will continue the game. The game in the afternoon will be much more difficult than that in the morning. Please don’t care.”

In order to simplify the battle process, the “Second World” official eliminated 90% of the players in the morning preliminaries. There were 50 million people who signed up for the Terran race. By the afternoon, everyone won at least 20 Multiple players.

“I’m the first group of members of the international alliance established by the boss. How could it be defeated by ordinary players in China?”

The white lion, the white wolf, and the white tiger all said together, “It sounds pleasant.”

Lu Yang laughed.

The system prompts: The battle is about to start, whether the player Lu Yang enters the arena.

“I’m here.” Lu Yang said.

“We went in too,” White Lion said.

“We are gone too,” Han Liu said.

The light flashed and the seats in the hotel’s private room were empty.

On the other side.

On the training ground of King Hannibal’s Castle, Lu Yang appeared on the No. 1 ring platform. He looked around and said, “Hannibal is also very beautiful.”

A ray of light appeared across the field, and a player wearing leather armor and a black mask around his face appeared, holding two daggers, his body exuding a faint killing spirit.

“Killer?” Lu Yang said.

The player was also shocked to see Lu Yang, but then a faint gleam appeared in his eyes, and said, “It turned out to be the Chairman of the Iron Brotherhood Lu Yang. I never thought I was so lucky to kill thousands of people.”

Lu Yang knew this person, Zhi Qianshou was one of the top killers of the last generation. Numerous people with space thief skills suffered from headaches, and he was a rare master who was able to make space chaos.

Lu Yang had always wanted to recruit to stop the thousand kills, but he joined the Guisi Association early.

Lu Yang said, "Please advise."

"It looks like I can become famous in the first battle." Zhi Qiansha sneered, his body disappeared out of thin air.

Lu Yang looked around and found no trace. The mage faced the thief. If the level suppressed the opponent, even the space thief would have space ripples. Now there are no traces to prove that the level of stopping the thousand kills is around level 60.

On the World Channel, countless players are watching Lu Yang's game.

"Well, space thief, who is this killer? I haven't heard of it before."

“I don’t know. Lu Yang is in trouble now. The space thief is very grammatical. The last time the blood thirsty space thief almost killed Lu Yang.”

“Everyone notice, this is a senior thief. From the perspective of Lu Yang, you can’t see the space ripples. The grade is not much worse than Lu Yang.”

...

The spectators were stunned. An unknown thief had the same level as the president of the Jagged Brothers Alliance. All I can say is that this thief is definitely not ordinary.

Lu Yang stood quietly waiting in place. The space thief couldn’t hit after hiding in space. Only when the space thief launched his own attack would he show his figure, and the space hiding skill had no cooling time. Yes, he can stay naked all afternoon.

However, the official has a mechanism, the game time is only 10 minutes, if no victory or defeat within 10 minutes, even a draw.

Zhi Qianshou knew this clearly. At this moment, he was standing behind Lu Yang and could give a fatal blow at any time. However, the space thief has a fatal disadvantage. When breaking the space, he must be more than 0.5 meters away from the target, otherwise Space won’t open.

Lu Yang knew this. If he wanted to, he could walk to the corner of Yantai and let Zhi Qianshou only attack him from the front. However, Zhi Qianshou would never dare to open the space in front of him, then it would only become a target. Eventually As a result, Zhi Qianshou can only choose to draw.

Lu Yang didn’t like the draw. He walked to the middle position, closed his eyes and waited. The moment the space broke open, the space ripple would make a subtle sound, and the sound would enter his ears in an instant. Hit him after 0.5 seconds.

Lu Yang believed that he would flicker away before 0.5 seconds, and now he would not dare to come out.

In space.

Zhi Qiansha saw that Lu Yang dared to walk to the middle of the venue, and the expression on his face had become haggard.

“Since you’re looking for death, then I won’t send you a ride.” Zhiqian Xiewei Luyangyang began to look for opportunities.

The spectators saw Lu Yang’s action has exploded.

“Lu Yang is too arrogant. In the face of a space thief, he dare to give him such room to maneuver.”

“Enter the corner, just be careful and you won’t lose.”

“Lu Yang is too crazy. How confident is he to dare to do this, 0.5 second response time.”

...

Almost everyone is applauding Lu Yang, at the same time, they are urging to stop the thousand kills to come out quickly.

“This thief is so rampant, it won’t come out after this.”

“Come out, Lu Yang has given you a chance.”

“You can’t kill him. You are a waste.”

...

Zhiqian has already closed the chat box. As a killer, he will not be disturbed by any external force. He walked around Landing Yang several times in space. He found that Lu Yang had been in an impeccable state, as if every attack he made. Will be cracked in general, which makes him dare not start.

Time passed slowly.

9 minutes

8 minutes

...

1 minute

Lu Yang has been standing quietly with his eyes closed and feeling all around. Zhi Qiansha has been around Lu Yang to look for opportunities. He feels that the time is almost the same. He doesn't believe that Lu Yang waited for 9 minutes and can keep it right after time is over A state of high concentration.

However, where does he know that Lu Yang was a mercenary, the real cold-blooded killer, not to mention that the concentration is 10 minutes, and there is no problem for 24 hours.

Lu Yang absolutely did not believe that Zhiqian Xie wanted to draw a tie with him. The less time, Zhiqian Xie wanted to kill him, just as he continued to wait, when the last 29 seconds left.

“啾”

A slight sound appeared from the upper right of Lu Yang.

“Space Chaos”

Zhi Qiansha broke through the hole above Lu Yang obliquely, and went straight to his head with a dagger ~ www.mtlnovel.com ~ Just when he thought this sword was a must, Lu Yang did n't lift his head, and pointed his right hand at his location .

“Flame Shock”

The non-ballistic, instant flame burst instantly on Chi Qianshou. His eyes went dark for 2 seconds and he fell to the ground after hitting.

“Flame Storm”

A black ripple appeared under Zhi Qianshou.

“boom”

A reddish ray of light will submerge the thousand kills and stun it again for 2 seconds.

“Meteorite Impact”

The crimson meteorite fell to the sky and was stopping the body of a thousand kills.

“Resistant Fire Ring”

A reddish light emanated from Lu Yang, backing Qian Qiansha Bengfei back 5 meters.

Zhiqian killed himself as a space thief. No one could hit him close to him. All the gems in his equipment were all output gems. He had only 5,000 points of blood. He died when the meteorite fell.

System prompt: Lu Yang wins

“I rely on it so I can win.”

“What happened and how Lu Yang did it.”

“God, it is indeed the emperor of fire. After waiting for almost 10 minutes, I can respond within 0.5 seconds. I am convinced.”

...

The audience is crazy. This pure technology is so powerful that he has nothing to say and can only be amazed.

Stopping the thousand kills was also covered. When he saw that he had lost like this, he was surprised and said, “How did you do that?”

Lu Yang smiled and didn't speak.

Zhi Qiansha showed a hint of sorrow and said, “Lu Yang, we still have a chance to compete. We will see you next time.”

Lu Yang frowned. He didn't remember that he had offended and killed Qian Qian. Why did he look like he had deep hatred against him, and he was still under the control of the Silk language, and it seemed that there was something wrong with the Silk language.

Chapter 507 - Calculation and inverse calculation

A flash of light passed, and Lu Yang entered the next game.

On the other side.

Sitting in the office of the guild, Lu Jie watched the game of Landing Yang, watching Lu Yang's extraordinary strength, and showed a greedy expression on his face.

"The devil's heart really has a secret. Such an action can be done, it must be the devil's heart to help him." Lu Jie said.

The vice chairman around him said, "Boss, this time it is still too dangerous. Do you have to ambush Lu Yang?"

Lu Jie said displeasently: "Afraid of anything, I got the heart of the demon god, and I can be as strong as Lu Yang. Even if he knew that I robbed him of the heart of the demon god, Wang Teng looked at him with jealousy, he could How about me. "

When the vice chairman saw that Lu Jie was not looking good, he persuaded him. The way Lu Jie behaved was like this. As long as there was a chance, he would use all means to achieve his goal.

Similarly, in a building south of Hannibal City, Yao Zhi told his men the same thing.

The two were surprisingly in agreement and both wanted the heart of the demon god.

"Dididi"

芊芊 Silk invited the two to a special space, and at this time the presidents of the other 4 super guilds also came.

Yao Zhi asked in surprise: "Is something wrong?"

The silk language said: "Just got the news, Li Xiuyu and Wang Teng are gathering forces, and they are likely to attack Hannibal tomorrow night."

“What?” Lu Jie asked with a frown, “how did he get ahead of time.”

He shrugged his shoulders and said, “Who knows? Perhaps we saw that we had joined the other four bosses and were afraid that our cooperation would be better and better, so we decided to launch the attack in advance.”

The bosses of the other four guilds also showed proud smiles.

Lu Jie and Yao Zhi quickly looked at the four presidents.

“Thank you to the four elder brothers for their help. After this incident, we will accompany you to run to Liuliu City, so that everyone will not work hard.” Yao Zhi said.

Qixing Cheng, the president of the fantasy empire, said: “The matter of Hannibal City should be left to Hannibal City to make their own decisions. Li Xiuyu and Wang Teng want to bully us, we will naturally hold together, should. “

Mu Ruhanjiang, president of Fengmeng League, said: “I can have today thanks to Brother Yao Zhi. Someone wants to grab his guild. I am the first to refuse.”

Qin Jianzhuang President Leng Weixin said, “My guild was held by the brothers Lu Jie. The trouble to find Lu Jie is to find me.”

“The polite words don’t have to say much, you say how to fight it,” said the soul of the Black Soul Hall.

“It’s this thing I’m worried about,” she said, “Let’s work together and think of a way together.”

Yao Zhi looked at the map on the table and pointed to the Great Plain between the Echo Fortress and the Run City. “It’s better that we split the army into two parts. The main force here battles Li Xiuyu and sends another 300,000 troops to surround the Lanshan Fort. how about it.”

Lanshan Fortress is the fortress of the Blue Crystal Guild in Hannibal City. At this time, the Blue Crystal has been merged into Wang Teng's new guild. Wang Teng can fly to the Lanshan Fortress at any time.

The silk language thought for a while and said, "Li Xiuyu can only mobilize a maximum of 400,000 troops. This is still the total strength of his six affiliates. If we send 600,000 troops and Li Xiuyu to fight hard, Li Xiuyu must fight. But we."

Leng Weixin said: "At present, everyone's equipment is not much different, and Li Xiuyu's equipment will not be much stronger than ours. I think this method is feasible."

"I think it's feasible," Mu Ruhan said.

Soulmaster and Qixing Chengying have no opinion.

Lu Jie, Yan Siyu and Yao Zhi discussed this game before. Seeing that everyone agreed, Lu Jie patted his chest and said, "When fighting tomorrow, let the brothers take the army to fight with Li Xiuyu's team first. Once, see if he weighs a few pounds or two."

Yao Zhi originally wanted to grab the first one and saw Lu Jie grab it. He said, "I and Lu Jie's troops joined together. We have more players with level 40 gold equipment. Let Li Xiuyu learn a lesson first."

芊芊丝语 and the presidents of the other four guilds were still thinking about who was the first. After all, the loss on the first was the biggest, and Lu Jie and Yao Zhi were so desperate.

"That being the case, the younger girl is on the third." She said in a clever smile.

The four Leng Weixin saw this situation and discussed with each other. It was determined that Leng Weixin and Mu Ruhanjiang followed Li Xiuyu and other main players to battle against Li Xiuyu. The other two were responsible for defending Wang Teng.

"Once I can't keep it, let me know immediately and I will make unified arrangements." Yao Zhi said.

“That’s it, I’ll go back and organize the team.” Leng Weixin arched his hand and exited the special space.

The other three also left their special spaces.

In this battle, Leng Weixin waited for the four guilds to participate in the battle. If Li Xiuyu won Hannibal, the first one would be the three guilds who could not tolerate it, and the second one would be the four guilds.

It is impossible for any guild that controls four fortresses to allow so many super guilds in its jurisdiction, which is too much a threat to him.

Lu Jie watched the four leave and said eagerly: “How about we call Lu Yang? This opportunity is not to be missed. If he succeeds in the attack, we will have one less enemy.”

Yao Zhi said with a smile: “The gentleman sees the same thing.”

“The little woman invited Lu Yang,” she said with a smile.

All three now have great confidence in holding the fortress, so they are particularly happy.

Inside the hotel.

Lu Yang was sitting in a private room and chatting with the White Lion Sanxiong and others. He had just killed more than 20 players and successfully advanced to the main race. Bai’s Sanxiong and half-loving half-life also entered the main race.

“Dididi”

The invitation to the special space sounded, and Lu Yang saw it as a slang word, and said to everyone, “The slang word came to me again.”

“This woman is annoying enough,” said White Wolf.

Tu Feng said: “No, I have news here. Li Xiuyu decided to attack Hannibal City after the end of the race tomorrow night.”

Zhou Tianyan said with a smile: “This is a big war. The number of people on both sides is nearly 2 million.”

Zhuo Jiu poured out, “Boss, I still don’t recommend you.”

Lu Yang smiled and said, “Look at me, the boss is playing a trick on you.”

“What is the strategy of tired soldiers!” Everyone hurriedly looked at Lu Yang. At this time, Lu Yang’s strategy can play a decisive role in the war.

Lu Yang said with a smile: “Yao Zhi and Lu Jie should both want to ambush us. In this case, they must want me to participate in the war, but this battle can be won one day, let me participate in the war. Yes, they will die for five days before they talk. “

Five days later, Lu Yang will take his troops to attack the Blood Wolf Fortress. When they return, 200,000 troops will be wearing gold uniforms.

“Boss.” Suffering bitterly for a long time, he took a breath, and thought of a lot of praises for Lu Yang, but found that they were inappropriate, and finally he said, “You are really hurt.”

Everyone laughed and nodded together.

Lu Yang looked at the bitter love half-heartedly and said, “Find out if you can clean up and quit the game at night to exercise with me, I will give you more practice.”

He loves to be dumbfounded for half a life. He has seen Han Sha's exercise methods, and he said, "Boss, I was wrong."

Everyone laughed again.

Lu Yang shook his head helplessly and said, "You, I don't care about you anymore, I'm going to talk to you."

"Boss, please." Xia Yuwei and Zhuo Jiu said with a grinning smile, and it was better for Lu Yang to count the opponents than to clean them up, everyone thought cheerfully.

Lu Yang was too lazy to take care of these guys, and clicked to accept the invitation to enter a special space. When he saw the three people, Lu Jie, Lu Jie and Yao Zhi, he asked, "What's the matter?"

Lu Jie said excitedly: "President Lu Yang, Li Xiuyu and Wang Tengding will attack us tomorrow night, and your opportunity is here."

Lu Yang said, "I have any chance."

Yao Zhi pointed to a route on the three-dimensional map and said: "As long as you follow this route, no one will find your troops. When we battle tomorrow night ~ www.mtlnovel.com ~ you will attack from behind, Wang Tengbi defeat."

Lu Yang looked at the route, set off from the Huayu Fortress to the Rainfall Fortress, to the Hessen Fortress, and then to the Echo Fortress. After a circle around Hannibal City, he got into the mountains on the east side of the Lanshan Fortress and the Sun-Fortress.

"The route is good. If you do enough concealment, you can sneak on the scorching sun fortress." Lu Yang said.

Lu Jie blinked his eyes and said, "You agree."

Lu Yang looked at the three of them. Lu Jie, Yao Zhi, and Sisi all looked at him excitedly. He shook his head and said, "I can send troops, but I can't lead them on the first day."

"Why?" She asked.

Lu Yang said: "This route is best to take only 5,000 people, but if I only take such a few people, I can't go down the fortress on the first day, at least until Wang Teng is tired before I can do so. ,right."

There was no dissatisfaction among the three people, the silk language, Yao Zhi and Lu Jie.

Lu Jie said: "Yes, you are right. We will fight with Wang Teng and Li Xiuyu for a few days before you go. As long as you can lay the fortress of the hot sun, we will not have the problem of Wang Teng and we will still make money."

Lu Yang said, "Okay, that's it. You call first. I'm ready here. When the time comes, I will personally take 5,000 people."

"It's all about one word," Yao Zhi, Yan Siyu and Lu Jie said together.

Lu Yang smiled and nodded, and after chatting with the three, he exited the special space.

Back at the hotel, the third sister Han Ying also came, and Lu Yang told everyone what happened and said, "Wang Teng is also gathering troops now. I have worked hard for you all these days. According to the wartime duty plan, Add an on-duty corps leader and corps every night. Once there is something, ensure that the players can go online in time. "

"Yes," the crowd said.

Chapter 508 - Take action

Jagged Brothers League currently has more than 700,000 players at level 30 or above. In the guild warehouse, there are countless items such as gold-level equipment, materials, potions, enchantments, skill books, etc. Guild players are interested in redeeming but have not been able to obtain guild Channel of Points.

Now facing war, guild players are rushing to participate in the night duty task. Sun Yu and Xia Yuwei and other legions reported to Tu Feng more than 300,000 people.

Tu Feng cut off 200,000 with a large stroke, leaving only 100,000 people to stay outside the Huayu Fortress to upgrade. Taking into account the 200,000 people who go online at night throughout the guild, a total of 300,000 people have defended the city.

At the same time, Tu Feng ordered him to install the spy in the Dili Guild at all times to pay attention to whether the evil kings gathered the players' intentions, to prevent the evil kings from participating in the rebellion when Wang Teng attacked.

In the north wind city.

Wang Teng and Qu Han have already mobilized for the war, and they are discussing ways to play.

Qu Han pointed at the map and said, "At present, there are two places where we can attack, one is to attack south and drop the rain fortress, and the other is to attack east and hit the echo fort."

Wang Teng looked at the map, but instead of aiming at Hannibal City, he looked intently at the Flower Garrison in St. Gall.

"Brother, what do you say we are going to play Huayu Fortress tonight." Wang Teng asked.

Qu Han thought for a while and said, "If you fight, there is a great chance to fight it. With players who now have 50,40 level gold equipment, Lu Yang fights us very hard, but we also struggle to defend, I It feels appropriate to play Hannibal City first. "

Wang Teng still did not give up, and said, "The defense over tonight ..."

After finishing his words, the evil monarch sent a message to Wang Teng and said, "Tonight, 100,000 players in the Iron Brothers League are standing at the Huayu Fortress, and don't attack."

Wang Teng felt a helpless feeling in his chest, sighed and told Lu Han's deployment to Qu Han, saying: "Tomorrow you will bring 200,000 main forces to attack the Echo Fortress, and I will bring 200,000 people to defend the Lanshan Fortress."

Qu Han said comfortably: "When we lay down Hannibal City, our troops, plus Li Xiuyu's troops, and the Shaman Army to help, the three together will definitely eliminate Lu Yang."

The so-called Shaman Regiment is the Red Name Regiment. At this time, they have run to the Elves and are resting in Liu Jie's fortress.

At present, a big game of chess is going down around the landing sun. Liu Jie uses all the power he can to deal with Lu Yang. Now it depends on how long Hannibal City can persist.

...

the next morning.

Lu Yang entered the game after exercising and washing. Today is the main game of the arena. The main game adopts a decisive game. After losing, it is directly out of the game. After winning, it enters the game. After winning 10 games in a row, it can be promoted. .

However, today's game is no longer the point. The point is that Li Xiuyu declared war on the three people of Lu Siyu, Yao Zhi and Lu Jie this morning and personally led 400,000 troops to the Echo Fortress

of Hannibal City. At the same time, Wang Teng led the 40 Wan entered Hannibal's Lanshan Fortress, and the total strength of the two guilds was 800,000.

On the other side.

In Hannibal City, 7 super guilds, such as Laosi, Yao Zhi, Lu Jie, and Leng Weixin, formed a coalition of 900,000 troops, of which 300,000 were blocked outside the Lanshan Fortress, and another 600,000 were armed outside the Echo Fortress¹ Hours on the Prairie River.

Inside the holy city hotel.

Zhou Tianming said, "I do n't understand something. What is Li Xiuyu's reliance on? He traveled for 8 hours to reach the Echo Fortress. Even if he could bring 400,000 people to the outside of the Echo Fortress smoothly, a battle was fought. Li Xiuyu The people are dead back to Benliu, but it 's ridiculous that they can quickly support them from Hannibal at any time."

Frosty wine and hairballs frowned.

Tu Feng said, "I tell you what happened. Liu Jie sent 10,000 druids to join Li Xiuyu's team."

"Druid?" Zhou Tianyan frowned.

Tu Feng said: "Yes, Druid has an exclusive skill called Combat Resurrection, which can instantly resurrect a dead player with blood. The cooling time is 10 minutes. As long as Li Xiuyu operates properly, his army will always exist."

In "Second World", players die on the battlefield. Anyone who knows the resurrection can save it. However, the health after the resurrection is only 1 point, and the resurrection guide time is 30 seconds and the distance is 30 yards, so using ordinary resurrection on the battlefield is basically not feasible.

However, Druid's resurrection is different. He can instantly resurrect players on the battlefield with blood, which is equivalent to two lives for a player.

Zhuoju nodded and said, "No wonder Li Xiuyu is so confident, it looks like it will take a long time this time."

"I hope they can play as long as possible," said the dumb handsome guy.

Lu Yang laughed, looked at the game time, and was about to start. He said, "Everyone can rest assured that they will not be affected by outside influences."

"Yes," said bitter love for half a lifetime.

The system prompts: Arena battle is about to start, whether to enter.

Lu Yang clicked to confirm, a white light flashed, and he appeared in the No. 1 venue of King's Castle in Ben Run City.

"The match between Lu Yang has begun."

"Let's go and see."

...

Countless players cut into Lu Yang's game venue. Not only ordinary players, commentaries on the official channel, but also the big players in the live broadcast industry in "Second World" also took Lu Yang's match video as the object of live broadcast.

"Yesterday everyone must have enjoyed it very much. Lu Yang's operation was too powerful. He was more agile than a thief when he was alive. He was stronger than Master Lei when he was violent." Dubin, the most famous official commentator, said loudly.

The beauty commentator next to me said excitedly: "I have a feeling that in the first individual competition, Lu Yang may go all the way to the finals and easily win the championship of domestic and international competitions."

Dubin said: "I also hope that Lu Yang can win the championship and win glory for the country."

The venue.

There was a flash of white light on the opposite side of Lu Yang, and an uncle-like player appeared, looking like a warlock.

The expression of the uncle-like player was very lonely. When he saw it was Lu Yang, it was not fear, but despair, that showed in his eyes.

"Is President Lu Yang?" The warlock player asked.

Lu Yang watched the warlock player look familiar, but couldn't remember who the man was, and said, "I am."

The uncle player showed a helpless smile and said, "It seems that I can only go here, I can't beat you, can you give me a few minutes and let me say a few words."

"Please say," Lu Yang said.

The uncle player took a one-meter-diameter photo from his backpack, raised the camera above his head and looked around, and finally looked at Lu Yang, saying, "This is a photo of my daughter who is five years old. He was abducted by a trafficker. She has been here for three years, and I haven't found her after traveling many places. I heard that this is the platform with the most players in the country. I want to ask everyone, who has seen my daughter, please contact me. "

When Lu Yang saw this photo, he immediately remembered who this person was, the famous Destroyer of the last life, whose name was Luo Zhenhao, who hoped.

He searched for his daughter in the game for two years. In the first year, he stopped at the top 100 in China. The promotion of his daughter did not attract most people's attention.

The next year, he entered the international competition. Taking out his daughter's photos on the arena helped him to get help from many people. However, when he found his daughter, the girl lost his footing and died six months ago. This one The incident hit Luo Zhenhao so much that Luo Zhenhao committed suicide and died.

Lu Yang didn't expect that he would meet Luo Zhenhao in this life. Looking at him, Lu Yang couldn't bear it, and said, "Brother, although you and I are not familiar, I promise you one thing, you give me the photo, from Starting today, every time I play in Lu Yang, I take out your daughter's picture and ask someone to help find it until the day I lose. "

Luo Zhenhao looked at Lu Yang in surprise. He was already in despair, thinking that he couldn't continue to find his daughter on the platform of "Second World". He did not expect that Lu Yang would help.

"You, are you really willing to help me?" Luo Zhenhao asked incredulously ~ www.mtlnovel.com ~ Lu Yang said: "I speak fortune, encounter this kind of thing, my parents must be extremely anxious, I can do Not much. I can help you with anything I can do. This is what I should do. "

Luo Zhenhao's tears flowed down and he handed the photo to Lu Yang, saying, "You are a famous strong person in the national service. You will surely be able to break into the finals. With you, I will have more hope for my daughter . "

Lu Yang added Luo Zhenhao as a friend and said, "You send me a detailed message about the child, and I will go to the forum and help you to promote it."

Luo Zhenhao no longer knew what to say, nodded and said, "Thank you."

As soon as the words fell, Luo Zhenhao raised his dagger, inserted it into his chest, and committed suicide.

System prompt: Lu Yang wins the battle!

Whether it 's the audience or the narrator on or off the field, seeing this scene is embarrassing. No one expected that such a thing could be encountered.

Official commentator Du Bin said with admiration: “Lu Yang is really good. He and Luo Zhenyu obviously don’t know each other and can do this. It is indeed the first fire of the national service. Just punch him at this point, and I will help him publicize.”

The beauty commentator said, “Count me.”

After sighing, various Internet celebrities also joined the ranks of help. It is very easy to contact Lu Yang. There is an official contact of the Iron Blood Brothers League. The current person in charge is Mo Long. He also saw this game when he When he learned that so many people would come to help, he immediately sent a message to Lu Yang.

Lu Yang just received the information from Luo Zhenhao and immediately passed it on to Mo Long, who asked him to send it to all responsible persons.

After 10 minutes, these official hosts and internet celebrities have released profiles of Luo Zhenhao’s daughter in their respective channels. Each of them has fans of hundreds of thousands to millions. For a time, Luo Zhenhao’s daughter was topped. On the hot search list.

Chapter 509 - 2 masters

Luo Zhenhao did not expect that this incident would cause such a big sensation. He excitedly sent a message to Lu Yang and said, “President Lu Yang, thank you, my daughter must have been saved this time.”

Lu Yang thought for a while, and said, “You are older than me. I call you Lao Luo, brother. Do n’t worry, your daughter will find it. Do n’t give up hope.”

Luo Zhenhao gave a heavy hum, never for a moment, he was so confident to find his daughter.

in the game.

Lu Yang entered the second game, he was teleported to King's Castle in Hannibal, and a hunter player appeared in front of him.

Lu Yang saw a smile on the hunter's equipment. He was wearing a 60-level gold chain hunter suit, and the blood gemstones in 10 segments of the body exuded glittering light.

Obviously, those who can rise to level 60 at this level are rich people, and those who can get gold equipment at level 60 can only be said to be masters.

The opposite player saw Lu Yang also smiled and said, "I did not expect to meet you so soon, President Lu Yang."

Lu Yang said: "It looks like I'm going to get up my spirit too, what's your name?"

The hunter summoned the Raptors and said, "I am the boss of Meteor Studio, Star Soul."

Among the hunter masters of the previous life, Star Soul ranked eleventh and was a master.

Just when the system was about to start shouting, Lu Yang said, "Can you wait and call again."

Star Soul said, "What's up?"

Lu Yang took out a photo of a girl with a diameter of 1 meter from his backpack and said, "Just now I promised someone, and his daughter was lost for 2 years. He never found it. Give me 30 seconds. I help him propagate a bit."

Xinghun asked uneasily: "That person is your friend."

Lu Yang said: "Stranger, I just met in the last game."

Star Soul stunned, he did not expect that Lu Yang would be willing to help a stranger to do this kind of thing, saying: "Please, you haven't finished the propaganda, I will never attack."

"Thank you very much." Lu Yang raised the photo and walked around the venue, and said the information of Luo Zhenhao's daughter aloud, and said at the end: "If any kind person saw it, please contact Luo Zhenhao himself. His contact information is ... "

Thirty seconds later, Lu Yang walked back to his place, put away the photos, and said, "Thank you, let's start now."

Xinghun said: "I thought that President Lu Yang was a ruthless and ruthless guild boss. I didn't expect you to be so vindictive. I will fight with you."

Lu Yang said with a smile: "Okay, please."

Star Soul raised a burst of arrow rain, sent out 24 bows and arrows, and set a freezing trap at the foot.

Freezing Trap: Currently entering the 3 yard distance around the trap, the trap will automatically trigger, freezing all enemies within 3 yards for 10 seconds.

Just when Xinghun thought that Lu Yang would use his flashing skills to jump to his side and use the fire resistance ring to add a meteor drop combo, Lu Yang stayed in place, the spell in his mouth was read, and Pyroblast aimed at the arrow rain falling in the sky, 3 consecutive Pyroblasts scattered the falling arrow rain and scattered, easily breaking the star soul's skills.

Star Soul said in shock: "How did you do that?"

So far, Xinghun has never encountered such a situation as Lu Yang.

Lu Yang said: "It's not difficult to do it. As long as you practice hard, you can also attack me."

With a flash of white light, Lu Yang appeared at 6 yards of Star Soul, and raised his hand in the middle of Star Soul's head.

Normally, Star Soul has absolute certainty to open Pyroblast at a distance of 30 yards. However, at a distance of 6 yards, he cannot escape at all.

After eating two Pyroblasts in a row, Star Soul quickly launched the jumping skill, jumping back a distance of 30 yards. When in the air, Star Soul launched continuous shooting.

Lu Yang fired his hot and fast skills and ran forward quickly, avoiding the four soul arrows of Star Soul by a minute.

When Xinghun landed, Lu Yang just ran to the position 6 yards in front of him. Seeing that he couldn't escape Luyang, Xinghun's face became somber.

"Beast Heart"

Star Soul's body turned red.

As soon as Lu Yang's eyes lighted, he knew this skill. The effect of the beast heart was to ignore any control skills, increase the movement speed by 100%, and increase the attack speed by 100%. A place to learn.

"Yes, brother, you know the beast heart." Lu Yang said with admiration.

Xinghun smiled proudly, and placed a frost trap under his feet, and quickly began to run around the edge of the field. At the same time, the sound of bowstrings continued, and a fire arrow shot in the direction of Lu Yang.

Lu Yang immediately dodged to the right, and at the same time, the spell in his mouth continued to be pronounced. Every 0.5 second that he stopped the next step, Lu Yang immediately recited the spell and fired a Pyroblast.

Xinghun did not expect that Lu Yang could fight back under such circumstances, and that Lu Yang's Pyroblast could still hit him in advance, he decided to fight with Lu Yang once.

For a time, the large fireball and flame arrows kept shooting at the venue. Sometimes Lu Yang hit the arrow, and sometimes the star soul was hit by Pyroblast.

"It's so cool, they're too technical."

"This is the PK. It's beautiful."

...

In the field, Lu Yang and Xinghun played very well, and players in the appearance battle were also ignited.

This fight lasted for 30 seconds. When the soul effect of Star Soul was over, the speed of Star Soul was slowed down. At this time, his health was low.

During the shooting between the two sides just now, he was hit by 5 Pyroblasts, 3 of which triggered critical strikes. The soul of Star Soul only had 2000 points left.

Lu Yang was shot with 3 arrows, and his blood was left at 6000 points. At this time, his speed also slowed down, and the hot and rapid effects disappeared. At this moment, Lu Yang found the star soul's attention become a bit out of focus.

"Flame Shock"

Lu Yang pointed at Xinghun's head with his left hand.

"5000" (Critical Strike)

Star Soul fell to the ground and died!

System prompt: Lu Yang wins!

Star Soul's blood was forced to remain a little at this time, and arched his hand and said, "President Lu Yang, I lost."

Lu Yang saw that there was still time, and asked, "How did you distract me just now?"

Xinghun said: "I use the free mode, the rate of fire is 0.5 times faster than the conventional, the price is that I can only last 30 seconds, after 30 seconds, my mental state can no longer carry."

Lu Yang nodded and said, "Come on, you still have a lot of room for improvement."

"Thank you." Star Soul clicked out of the arena.

Lu Yang's body flashed and teleported out of the arena. The next game was 10 minutes later. At this time, he also took a rest.

On the other side.

In the major live broadcast rooms, the commentators are replaying the battle between Lu Yang and Xinghun.

The beauty commentary Hitomi regretfully said: "It is a pity that Star Soul's equipment. If his equipment is an attacking gem, maybe his luck is better and he can fight Luyang."

Dubin said: "It's difficult. This is where the magic department is stronger than the physics department. The physics department needs armor. The mage department doesn't have this problem. They can stack gems on the crit. Winning Lu Yang has absolutely no chance. "

The commentary players nodded.

Ten minutes later, the third game started. Lu Yang started his promise and continued to find Luo Zhenhao's daughter.

This time his opponent was a short killer player. His height was only slightly higher than that of a goblin, as if he were a born dwarf patient. Everyone who watched the game saw him contempt eyes.

However, Lu Yang knows how powerful this person is. His name is Huangyi. The height of the individual competition of the last World 's Second World Global Contest rose to a height that surpassed the two top events of boxing and WWE. Relying on the dwarf killer.

From the second global competition to the fifth competition, he has been a world champion, because he is a fantastic player, not only gorgeous, but also extremely lethal, making people look pleasing to the eye.

The killer profession he uses is not a special transfer profession such as a space killer, but a very common killer college transfer. The only difference is that he uses the step-by-step skills of ordinary transfer thieves to use his skills.

Step in the air: Players can walk in the air for 5 seconds and cool down for 5 seconds.

Originally just an ordinary dodge skill, it became a god-killing skill in the hands of the Emperor Wing. He repeatedly took steps to show the operation in front of the opponent player ~ www.mtlnovel.com ~ Very small, when he huddled in the air and rolled over, the attack area was smaller, but when you thought he was going to attack you, at the moment you counterattack, he continued to jump up in the air with empty steps. , And then attack you in the oblique stab.

Lu Yang's last battle with this great **** was a terrible defeat. I did not expect this world to have a chance to compete, and it was before the great **** had trained his skills.

Huang Yi was still an unknown player at this time. When he saw that Lu Yang was facing him, he felt desperate for a while and said, "Unfortunately, I actually met you."

Lu Yang laughed and said, "I've watched your video on the Internet. Are you practicing killing people by walking?"

Huang Yi said in surprise: "Yeah, everyone thinks my play is not good, but I feel that it can be done by taking steps."

Lu Yang said: "Trust me, you will definitely be one of the best players in the world if you walk out of the air."

Huang Yi said in doubt: "Really?"

"Of course, you, like me, are people whose virtual reaction ability exceeds the actual reaction ability. Only such people can kill people by stepping on the air. I will show you the method of stepping on the air." Lu Yang said.

"Remnant Flame"

Four crimson rays of light erupted in Lu Yang's body and fell around the wings of the emperor.

“activation”

Lu Yang turned into a crimson-colored phantom, which immediately appeared behind the wings of the emperor. The staff was clamped on the neck of the emperor. The emperor wing just turned back, and Lu Yang reactivated the residual flame and came to the side of the emperor.

When the wing looked to the side, Lu Yang appeared on the left side of the wing instantly. When the wing thought that Lu Yang would appear on the last remnant flame, Lu Yang flickered to the top of the wing. When the wing raised his head, Lu Yang launched the last remnant of flames behind the wings of the emperor.

Chapter 510 - Fast block

Lu Yang said, “How about, have you learned?”

The Emperor Wing nodded in amazement and said, “As I expected, I know the direction and I’m gone.”

“Don’t go, let’s play a match first,” Lu Yang said.

Huang Yi looked at Lu Yang and said, “You have just run out of skills. I will take advantage of you with you. Don’t fight.”

Lu Yang said with a smile: “It doesn’t matter, the use of residual flames at close range has little effect on my body.”

Lu Yang thought to himself that he would abuse this master one time. The previous life made this guy fight too badly. The whole reaction of Huang Yixiu couldn’t reflect it.

Huangyi Zhengchou didn’t have a master to follow him. He had Lu Yang to train with him. He couldn’t help but said, “I’m not polite with you. I also want to try if I can fight against a master like you. . “

“Please.” Lu Yang’s eyes became fierce, and eight remnants of flames were laid around him to fight against a master such as Huang Yi. The victory or defeat may end in 5 seconds. He must pay full attention to it.

Huang Yi slowly approached Lu Yang. When he was 20 yards away from Lu Yang, the Emperor Wing showed two daggers that were extremely poisonous.

“blast”

“Shadow Cloak”

Shadow Cloak is a special skill unique to the ordinary Killer Academy. It is immune to magical control for 5 seconds.

“Take a step”

With a 100% increase in the speed of the wind, Huangyi leaped high, stepping on the air with a phantom, and flew towards the landing sun.

“Pyroblast”

Lu Yang raised his hand with a big fireball, whistling and flew towards the wing. At the moment when he was about to hit the wing, the wing stepped on the air and his body rolled up and jumped half a meter. One foot stepped in the air and went straight to Lu Yang’s head.

At this time, the Emperor Wing was only 5 yards away from Lu Yang. This distance was not even dare to use Pyroblast. The only thing he could do was fight the speed and reaction ability with the Emperor Wing at a short distance. Who is fast.

The royal wing flew over the top of his head, and at this moment, the royal wing rolled around in the air, heading down and kicking out, and double-knifed into the top of Luyang’s head.

“activation”

The moment the knife tip was about to touch Lu Yang, a reddish light passed, and Lu Yang appeared on the side within 5 yards.

“Pyroblast”

Lu Yang raised his hand to a large fireball and went straight to the Emperor Wing. The Emperor Wing seemed to have known that he couldn't hit Lu Yang. At the moment when he lost the air, his body continued to roll in the air, flew upwards, and avoided Pyroblast. At that moment, he came straight to Lu Yang with a phantom.

“activation”

Lu Yang did not expect that the Emperor Wing could escape in this way, and saw that he rushed over again to activate the afterimage immediately, and his body flashed behind the Emperor Wing's blade.

“Flame Shock”

A fire burst into the wing.

“6218” (Critical Strike)

Lu Yang used the non-ballistic skill to hit the emperor wing. Because of magic avoidance and disregarding the control skills, the emperor wing rolled across a beautiful arc in the air, flew behind Lu Yang, and pierced the back of Lu Yang's head.

“activation”

Lu Yang's body turned into a red awn, and he could not escape the wing's dagger.

“Blazing Bird”

The crimson big bird went straight to the Emperor Wing, the range skills, the Emperor Wing caught off guard and did not escape, and was hit straight.

“3002”

Royal Wings are dead!

Lu Yang looked at the imperial wing that forced 1 point of blood left, and said, “Why do you just get blood like this?”

The emperor wing said dejectedly: “Who knows I will meet you, I have all the equipment to increase the attack power, I have blood loss just now.”

Lu Yang was speechless. No wonder this product did not win the first competition of the last generation. It turned out to be lack of blood and said, “Brother, next time you play in the arena, you must change your equipment to a gem with blood added.”

Huang Yi nodded and said, “What you said makes sense. Let’s fight again next year. I will never lose to you again.”

Lu Yang said, “I’m waiting for you.”

In the previous battle, he did not use his full strength. If the Lie Yang fist is included, he has the ability to solve the imperial wing with two moves. The reason why it is useless is because Lu Yang does not want to win in this way. Although he was born again, Lu Yang also wanted Compete with these masters.

Official live channel.

Dubin said with a deep sigh: “This imperial wing is very strong. If it is not for Lu Yang, he has no problem in the top three.”

No one can object, everyone's marvel at the set of imperial wings just now.

"It turns out that the killer can still play like this, I don't pursue the Space Killer Academy, ordinary colleges can do it. With this strength, any college must kneel." A killer player said.

...

Countless killer players have found a role model for learning, and they have made the battle between Huang Yi and Lu Yang into teaching videos. Some people who respect Huang Yi have transmitted his step-by-step killing method to international forums.

At present, after more than a day of competition, the international forum has become quite popular, the most popular and most surprising is the individual competition.

"Second World" officially hosted this competition, which was originally intended to entertain the public. Of all the competitions, the individual competition is the most unfavorable official, because the number of combatants is small, far from two players, three players and five War is so ornamental.

After all, there is really nothing to see when one and the other are facing throwing skills on the ring, but after more than a day of competition, many individual competition videos have become a hot spot.

National costumes include masters like Lu Yang, Huang Yi, and Xinghun. Thailand has emerged as a Muay Thai master called K.

In German clothes, a thunder emperor named Tang De appeared.

In Japanese clothing, a wrestling master appeared. He was a warrior. He used the wrestling skills in free mode throughout the fight, and the soldiers on the opposite side did not dare to use the charge skills.

On the Brazilian server, a master of Brazilian Jiu-Jitsu appeared, apparently a druid ~ www.mtlnovel.com
~ After becoming a bear, he used Brazilian Jiu-Jitsu to press the enemy to not let it up. His play was extremely unethical, but very pleasing.

...

There are countless experts in this category. Whenever such a video appears, it will break through hundreds of millions in hours.

The official realized that in the original game, the player can independently develop so many skills and methods, and the viewing is so high.

Not only are the officials aware, but business people have noticed that studios and game companies in various countries have begun to recruit these players.

Just like fishing in a haystack, give them the cheapest contract, and then keep them under control when they score.

Lu Yang teleported back to the hotel. During the rest time, he also logged in to the international forum. He is ready to continue to look for masters from the previous world countries to reach the finals.

After looking through five pages, he found an American player called the Musketeer. Lu Yang's eyes brightened. The Musketeer of the last generation was the second place in the US Individual Championship and the ninth place in the global finals. After working in a studio, like Lu Yang, he recruited local slum players to form a competitive team.

Chapter 511 - Accurate prediction

In his memory, the musket was born in a slum. At this time, although the game was a little famous, he didn't get much attention. In order to make money, he held a ring game in the square near his home. Any player who can win him is You can get \$ 100, and the player who loses to him only pays \$ 10.

Lu Yang looked at the introduction below the video, and sure enough, he posted his position and match time in the comment area below the video.

Lu Yang shook his fist hard. The musket was too important. His platform in the last life attracted more than a dozen competitive masters, including the five-man champion and the three-man runner-up in the US domestic competition.

Getting a musket is equivalent to getting 3 places in the World Championship!

At present he has contacted K in Thailand, Donder in Germany and Black Friday in Belgium, but the number is too small, even if a few of them trade twice in the group stage, it is not enough to pose a threat to the monopoly markets of various countries.

Only by finding more international players to participate in it can he achieve this goal. He decided to take down the musket and open the merchant system in the upper right corner of the screen. Lu Yang booked a flight ticket to the United States at noon.

After finishing the race in the morning, Lu Yang successfully advanced and said hello to Han Zhong. He flew straight to New York City.

After landing, Lu Yang walked to the airport retail store and said, "I want to buy a helmet."

When he was a mercenary, he studied English deliberately and was able to communicate freely with others.

The server at the retail store smiled and handed Lu Yang a helmet and said, "Of course, \$ 18."

After Lu Yang paid the money, he activated the helmet in the VIP lounge area of the airport to enter the game, clicked the auction house system, and spent 80 gold coins to buy a 49-level fire law account.

The basic equipment of the account is readily available. The gems are all Level 5 blood gems, and all the basic skills are complete.

Exiting the game, Lu Yang took off his helmet, took a taxi into the slum, took out a piece of paper and handed it to the driver, saying, "Trouble here."

The driver was a black man, frowning and saying, "Man, why go here, it's not quite flat."

Lu Yang smiled and didn't speak.

The driver shrugged his shoulders, drove Lu Yang to the address on the paper, pointed to a square in front of him and said, "Man, good luck."

After paying the money, Lu Yang got out of the car and looked at the surrounding environment. The square was very shabby, as if it hadn't been repaired for decades. There were many people around, most of them were black and a few were white. Broken, but obviously worthless.

At the end of the square, hundreds of people gathered. Two people were sitting on the worn out simple stage and were wearing helmets. Next to them, there were three 42-inch old LCD TVs that were playing their games.

Lu Yang just walked into the crowd, a black player on the stage took off his helmet and jumped up excitedly, cheering loudly.

"Win, I win, \$ 10, thank you," said the black player.

Lu Yang instantly recognized the man as a musket.

The losing player was angrily tossed the musket for \$ 10 and scolded: "You wait, I will be back in a while."

The musket shook his body and said proudly, "Welcome anytime, poor vulture."

The teenagers around shouted loudly, and the player called the vulture was even more angry and turned away.

The musket was more proud, looked at all the people below the stage aloud, and asked arrogantly: "Who else will challenge me, who dares to challenge me."

Lu Yang hadn't figured out how to collect the musket before coming. Seeing here, he knew what to do, just as he was about to step forward.

"I challenge you."

Eight voices appeared at the same time, and everyone on the scene immediately looked in the direction of the voice, and found that there were two groups of people, a group of five people, and a group of three people.

Lu Yang looked at these two groups of people, his eyes became sharp. If he didn't admit wrong, these two groups will be the last international team of five and the third runner-up.

The musket was just 16 years old. When he saw so many people challenging him, not only was there no fear, his eyes also showed a bright look.

"Pay the money first, pay the money first," said the musket.

A younger child came over, handed the hat to them, and said, "Everyone is \$ 10, and if they win, they return \$ 110. If they lose, there is no refund."

Eight people looked at each other and each took out 10 dollars and put them in.

"Thank you, thank you." The boy said happily.

After eight people had given the money, Lu Yang walked in front of the little boy, put \$ 10 in his hat, and said, "I'm one of the game."

Eight people looked at Lu Yang at the same time, and one of the burly black boys said arrogantly: "Man, you won't have a chance to play, I can beat him alone."

Lu Yang shrugged his shoulders, saying it didn't matter. Standing below to watch, he remembered that in the last life, the muskets knocked all eight of them down.

Sure enough, from the first one, the muskets opened the killing mode. Each of the eight people was a top master, but the muskets defeated all eight of them with a higher level.

Eight people were not convinced, the burly black boy pointed at the musket and said, "Again, I will win you."

The musket shook his body proudly and said, "Please line up. Now it's the yellow-skinned man in front of you."

Lu Yang stepped onto the stage with a smile, put on a helmet and a musket match, the screen flashed and the two entered the arena.

The musket uses a fire mage, exactly like Lu Yang.

"Hey, my friend with yellow skin, you are in the same profession as me, and I won't keep my hands," said the musket proudly.

"I'm welcome, then." Lu Yang pointed his right hand at the sky.

"Meteorite"

A crimson meteorite with a diameter of 3 meters went straight to the location of the musket.

The musket's eyes lighted, and he did not expect the person in front of him to be a master of simplified spells.

"Blazing Blaze"

The blaze at the foot of the rifle quickly ran towards the distance and wanted to avoid the big fireball ~
www.mtlnovel.com ~ Lu Yang's mouth quickly spelled out. Pyroblast was like a bullet, and one after
another hit the rifle.

The eight players watching the game outside were stunned. This is the scene they used to play against
the Musketeer just now. I couldn't think of it being used by Lu Yang.

"Who is this person?" The burly boy asked.

The other seven people shook their heads one after another, and a thin black girl said, "I have never
heard of such a master in China."

...

While they were discussing, Lu Yang took a chance, and suddenly hit the musket with a flame shock,
knocking him out for two seconds.

Where did the musket stand for so long, and immediately started flashing skills, but just jumped to a
place 30 yards away, a big red fireball hit his head accurately, when he took a step back , A crimson
flame fell in the sky.

The fire-extinguishing skill that Lu Yang launched in advance landed precisely on the head of the rifle,
and the rifle died.

Chapter 512 - Save the musket

The players at the scene were all dumbfounded. No one expected that Lu Yang's final release of Pyroblast and Skyfire would be as accurate as if the musket actively jumped to his skills with flashes. The musket had no resistance. .

The rifle took off the helmet and pointed at Landing Yang indignantly, saying, "I'm not convinced, come again."

Lu Yang laughed and said, "You don't want to give money."

"Here," the musket said in disapproval, "but, I'm going to fight you again. I'm just trying to get started."

Lu Yang said, "Why are you saying the same thing as those eight people? Yes, you can play a few more games."

The eight black players bowed their heads in shame, thinking that the other party was an ordinary player, but did not expect to be a top-level master with a god-level prejudice. They and Lu Yang were obviously not a level. This prejudice that no one could do it.

The musket was blushing, just as he was gritting his teeth and preparing to put on his helmet, suddenly, a group of people rushed over in the distance, headed by the vulture that had been ran away by the musket.

"It's them, hit me." The vulture shouted, pointing at the musket on the stand, and 50 people behind him shouted and rushed up.

The muskets were dumbfounded, and they turned around and ran without regard to the game. The little boy who took the money ran faster, and the audience watching the scene ran away.

Lu Yang ran away with the crowd. In his memories, the musket of the last life said in the interview that he was injured before the first match, and it is estimated that this time.

He looked around and found the direction in which the musket escaped, and followed him.

Ten minutes later, Lu Yang found a musket in a small alley. He and the eight people were surrounded by a vulture with more than 50 people in a dead end.

“Damn, man, this has nothing to do with us, we just came to him to play.” The burly boy said innocently.

The vulture snorted and said, “I care who you are, call me.”

Fifty people swarmed up, and the nine boys such as the musket immediately launched a counterattack. Lu Yang thought that the muskets would be knocked down immediately. I did not expect that the nine boys were very strong and had to fight with each other. However, it didn't seem to last long. .

Lu Yang looked around and found that there were a lot of broken wooden chairs left by rich people in the garbage dump in the corner. He disassembled the wooden chairs into nine sticks.

After disassembling three chairs, 27 extra wooden sticks were found in his hand, and a fruit knife was found. He took off his coat and installed the wooden sticks. Lu Yang looked around and stepped on the trash can next to the abandoned recycling. The roof of the station.

I walked along the roof for 10 meters, and just came to the top of the eight boys. Lu Yang took out a wooden stick and moved his right arm. As a master of flying knives, when they exercised in the last life, in order to To exercise your arm strength, you use boards or basketball to train.

Picking up the stick, Lu Yang felt a sense of intimacy for no reason. Looking at the situation below, he forcibly lost a stick to the head of an enemy.

“Woo ~”

The stick with a dull cracking sound hit the head of an enemy preparing to attack the musket.

“噤”

The hit enemy fainted to the ground.

The two sides are in a scuffle. With red eyes, there are only enemies in the eyes, and no one will pay attention to the teammates around them, and they will only think that other people are helping.

Lu Yang saw that no one found himself, and the wooden sticks flew out in succession, hitting more than 20 enemies in a row.

At this time, both sides reacted because 27 people had fallen from the vulture side.

There were also 8 people left without combat ability, and in a short time they became 8 of them to deal with the opposite 18 people.

“Who is it, get out of Lao Tzu.” The vulture shouted.

Lu Yang no longer had a wooden stick in his hand, only a broken blade dagger was left behind, and Lu Yang jumped down from the top of the bungalow, standing in the middle of the musket and the eight boys.

“Is it you?” The musket said in surprise.

Lu Yang said, “A few of you are OK.”

“Yeah, okay.” The burly boy asked in shock: “They were just stunned by the stick you threw out just now.”

Lu Yang said, “Yes.”

“True!” Said the musket and the burly boy.

The vulture pointed to the ground and cursed, “You look for death, give me up and kill them.”

“Ah ~” Eighteen people yelled and rushed towards Chaoyangyang. Lu Yang’s eyes suddenly filled with murderous intentions. He looked back at the person who was passing by and turned into a dark shadow before the first person, punching Hit the throat of the opponent’s neck.

“噤”

The hit enemy fainted, and two people around him kicked at the same time to Lu Yang.

While Lu Yang turned around to avoid, he looked back sideways, hitting the opponent three inches below his belly, and the painful second person also passed out.

At this time, more than 10 other people had already come to Lu Yang. If Lu Yang did not want to be beaten, he had to retreat and was preparing to retreat in Lu Yang. Nine of them were charged by the musket.

The two sides immediately fought together. However, at this time, the muskets were no longer beaten. With Lu Yang, a new force that understands homicide, all 17 people were laid to the ground in less than 3 minutes, leaving only the last one Vulture.

The musket had a bruised nose and a swollen face, but still sneered towards the vulture. The burly boy and 8 others also walked towards the vulture, each with a sneer on his face.

“I want to hit Lao Tzu and see how I can clean up you today.” The musket pointed at the vulture.

The vulture was dumbfounded, and did not expect to bring more than 50 people to fail, watching the other party step by step, the panicked vulture shouted, “I killed you.”

He stretched his right hand behind his back, and Lu Yang’s eyes widened suddenly. This was an obvious gun-pumping action.

“嘭”

The vulture just took out the pistol and was about to fire at the rifle ~ www.mtlnovel.com ~ but the moment he raised his hand, the broken blade inserted his finger.

“Ah ~!” The vulture’s fingers loosened uncontrollably, the pistol dropped, and he shouted in pain as he covered his right hand.

The muskets and others turned to look at Lu Yang. Just now, it was not as if the dagger hit the vulture’s arm, but the right hand of the vulture voluntarily put it on the dagger.

“Predictive attack!” 9 people, including the musket, said together.

Lu Yang ran to the vulture in one instant, kicked him on the chest, knocked him to the ground, and picked up the pistol. He said, “What are you guys just holding on to see, don’t grab the pistol and find it dead.”

Nine people were ashamed, and the musket said embarrassedly: “That, thank you, thank you for saving us.”

Lu Yang said, “Don’t talk here first, find a safe place.”

The musket said, “Follow me, I will take you to a place.”

Chapter 513 - Return home

Crossing the complicated streets, the musket brought the landing sun to the junction of the slum and the rich.

“It’s safe when you get here, and the vultures don’t dare to come here,” said the musket, leaning over his knees with both hands, breathing heavily.

The burly boy breathed a sigh of relief, walked in front of Lu Yang, and said respectfully: “Sir, thank you for saving us. My name is Robbie. The name in the game is Diamond.”

A fat boy walked to Lu Yang with a girl and a thin boy. His clothes were soaked and his face was blue and red. He said: "My name is Thiago, the name in the game It's called dog fighting, thank you. "

Lu Yang found that he did not guess wrong. Diamond was the captain of the previous American five-man team, and Dog Fighting was the captain of the three-man group.

The musket looked at Lu Yang, and suddenly, he said in surprise: "You, you are not our server, you are, you are the Luyang of Huaxia server, aren't you?"

"Lu Yang?" Robbie and Thiago and others looked at Lu Yang in surprise.

Lu Yang said, "It's me."

Robbie, Thiago and others showed a surprise look. The multiple battles of the Huaxia server have been made known to the world by the official promotion. Almost everyone knows the legend of Lu Yang's rise from the bottom, like Robbie. This kind of slum player even regards Lu Yang as an idol.

"No wonder the fire skills are so strong and predictive." Robbie said.

"The main thing is that it is so powerful in reality, you can predict by throwing a dagger," Thiago said.

Lu Yang said with a smile: "Trouble help me keep this secret. I don't want others to know my strength in reality."

The nine little guys nodded together. It was the first time that a top player like Lu Yang had met, and it was an honor to be able to keep Lu Yang secret.

"Master, what are you doing here in the United States? You just happened to meet you so much." The only female player asked.

Lu Yang said: "I want to recruit a group of experts in various countries, see the video released by the gun, and came to him specifically."

"Find me." After the musket was slightly surprised, a ecstatic expression suddenly appeared on his face, and said, "Oh, master, you, do you recognize my strength, I am strong, right?"

Lu Yang said with a smile: "Yes, you are very strong, and you have a lot of room to shape. Are you interested in joining my team?"

"Of course." The musket nodded quickly in excitement, then he blinked and asked, "Uh, that, boss, you are in Huaxia, how can I go to your studio, am I going to Huaxia?"

Lu Yang said: "I will open a studio in the United States. In the beginning, I plan to invest \$ 1 million to change equipment and upgrade the members of the studio."

"1 million!" The musket was even more excited.

"Congratulations." Robbie and Thiago and others showed envious looks at the same time.

Lu Yang looked at Robbie and others and asked, "Are you guys interested?"

"Can we do that too?" Robbie asked.

Lu Yang said, "Of course, I have watched a few of your videos in China, and this time I came and wanted to find you, and I just met."

The three Thiago looked at each other and cheered together: "Of course we are willing to join."

"So do we." Robbie and the five little guys agreed without hesitation.

These people are ordinary people who make money by playing games. They have no fame and status and can join a profitable studio. They are very happy.

Lu Yang said, "Let's sign the contract, and then I'll find you a decent house."

House prices in the suburbs of New York City are not expensive. Lu Yang signed a paper contract with them, and took 9 of them to rent a villa in the suburban middle-class neighborhood. Individuals have undergone rigorous training.

Until Thursday of the second week, Tu Feng called the transoceanic phone and said: "There is an accident, the Red Army has officially invaded the Terran, and the player in a main city just killed did not dare to leave the city gate and officially dropped us. War books. "

Lu Yang sneered and said, "It's really looking for death. I also want to know this Red Army Corps. We don't provoke people, but it doesn't mean that we are bullying. He killed me to fulfill him. How many cloaks and mist potions are there?"

Tu Feng said, "There are 30,000 bottles of Mist Elixir, and 500 pieces of Black Pupil Cloak."

"Okay, tell your brothers, get ready. Let's go to the wolf slaughter city." Lu Yang said.

"Yes," Tu Feng said.

Inside the studio.

It was already late at night, and Robbie and Thiago and others had quit the game and were exercising according to the way Lu Yang taught them.

After so many days of contact, they invested in the five-body body that Lu Yang admired and exercised so hard every morning. Lu Yang persevered in doing it every day, and they used the simplified exercise method taught to them by Lu Yang. Can't hold it.

If it weren't for Lu Yang's persecution, they would have quit, but after insisting for so many days, they would have fallen in love with the sport and became closer to Lu Yang.

"Boss, does your girlfriend in China miss you?" Robbie asked with a quizzical expression on his face.

Everyone was fooling.

Lu Yang said: "I have the opportunity to bring you to see, the boss my girlfriend is quite beautiful and very gentle."

"Cut ~!" Nine people held their thumbs upside down at the same time.

Lu Yang said with a smile: "No kidding, there will be a war in the country. I will take the army to fight with the enemy."

"It's so cool. How many people is this war, 800,000 or 1 million." Thiago asked.

Lu Yang said: "You will know after a while, training well, you must reach the finals, you know?"

"Boss rest assured ~ www.mtlnovel.com ~ Saturday morning game, we must win." Robbie said.

Regarding the material transaction, Lu Yang and Robbie had said that several people agreed with Lu Yang's approach.

"So do we," Thiago said.

"Hey, I'm the personal disciple of the boss, who can beat me," said the musket.

Lu Yang believes them. After these days of professional training, Lu Yang believes that Thiago, who won the second place in the previous life, can win the championship.

"I'll wait for your good news." Lu Yang left \$ 100,000 to the only girl in the team and said, "This money is responsible for your daily expenses, don't let them spend money indiscriminately."

"Boss rest assured," Julie said.

Lu Yang nodded. He flew back to China that night. When he got off the plane, it was already noon on Friday.

Back in the studio, Lu Yang put on a helmet and entered the game. The screen flashed and appeared in the hotel in St. Gall.

Chapter 514 - Chaos

"Dididi"

Xia Yuwei sent a special space application, and Lu Yang entered the space and saw all the army commanders including the muddy wine, bitter love half-life and shooting Sirius.

"Boss, are you back?" Xia Yuwei asked.

Lu Yang nodded and said, "I'm back, tell me what's changed in China these days."

Tu Feng said: "In the five days you left, there was no change in the Holy City and the Sea Emperor City. In Hannibal City, the alliance formed by 7 guilds such as the Silk and Yao Zhi and the alliance formed by Li Xiuyu and Wang Teng continued. After 5 days, the two sides had no victory or defeat, and the situation entered a stalemate.

However, now it seems that Li Xiuyu may have to stand up first, walking 8 hours a day to participate in the battle, leaving his players exhausted and a lot of complaints. “

Lu Yang said, “Did you talk to me?”

Tu Feng said with a smile: “He came to me twice a day, and you came to me when you were not online. Not only did he look for it, but Yao Zhi and Lu Jie also looked for it, and they urged us to join the battle and lay down Hannibal City at one time.”

Lu Yang said, “Let them go in a hurry. We are attacking the Blood Wolf Fortress according to the established plan. Mu Yi is now delivering the potion. If there is no accident, Hell Sky Dome will bring 500,000 people to attack the Sirius Fortress tonight. We will tonight Go to ambush him. “

People such as Xia Yuwei and Zhuojiu showed excited expressions. They waited for this day for a long time and had a month.

“Boss, just a few of us have counted just now, this time there are 210,000 players who can follow you, all of them are level 40 or above.” Zhuojiu said.

Lu Yang was a bit surprised, because he was able to collect 150,000 people, which was good. I did not expect that there were 210,000, which was a third more.

“You guys are fighting hard, bringing out so many people.” Lu Yang said.

Zhuo Jiu and Xia Yuwei and others looked at each other and laughed. Although they were both the army commander of Lu Yang and had a good relationship, they were also competitive, and no one wanted to be overtaken by the other.

Over the past month, they have gone all out to bring in 30,000 people each, bringing them together to just 210,000.

Lu Yang's expression suddenly became annihilated, saying: "From now on, the Brotherhood of the Iron Blood enters a state of war, and their forces will be assembled, and we will start at three in the afternoon."

"Yes." Xia Yuwei and others said together, each withdrew from the special space and assembled troops.

Lu Yang clicked to exit the special space, and just returned to the hotel. The invitation sound of the special space sounded again. He picked it up and saw it in slang.

There was a sneer in the corner of Lu Yang's mouth. When he clicked to agree to the invitation, the light flashed, and he saw the three people: Lu Siyu, Yao Zhi and Lu Jie.

"President Lu Yang, you can count on the line, where have you been these few days." Lu Siyu said with a resentful expression.

Yao Zhi and Lu Jie nodded together, with a look of complaint on their faces.

Lu Yang smiled and said: "There is something in reality that needs me to deal with it, just finished."

Yao Zhi said, "You have missed several opportunities. We have had several fights with Wang Teng. If you entered the war, you would have already won the fort."

Lu Jie said: "This time you must be online to participate in the battle, Li Xiuyu is about to be defeated by us, Wang Teng has repeatedly assigned the main force to help Li Xiuyu, your opportunity has come."

Lu Yang asked: "What's the situation on both sides now, tell me about it."

"Let me tell you something." Yao Zhi said excitedly: "In these five days, we arranged Leng Weixin and Hun Ling to attack Wang Teng's Lanshan Fortress with 300,000 people. I and Lu Siyu and Lu Jie The five guilds, Mu Ruhanjiang and Qixing Chengying joined together 600,000 people to fight against 600,000 coalition forces of Wang Teng and Li Xiuyu on Green Pine Plain. "

“Every day we can eliminate about 300,000 players of Li Xiuyu. Li Xiuyu and Wang Teng have become the end of the crossbow.” Lu Jie said.

Lu Yang frowned and asked, “You won every battle?”

Lu Jie said proudly: “Li Xiuyu is an embroidered pillow. The on-site conductor is completely inferior to Yao Zhi. Although we played hard, we won.”

Yao Zhi said modestly: “It’s still under the help of the brothers of Lu Jie. The 40-level gold equipment is really not blowing.”

Lu Yang felt that something was wrong, and Li Xiuyu was stupid again. When he attacked Hannibal City, he would have a detailed understanding of several large guilds with strongholds. He would only attack when he felt he had absolute strength.

Now I have played for five days and lost every day. This is definitely a problem, not to mention that Wang Teng is not a fool. How can he explain to Liu Jie if he loses?

Lu Yang deliberately persuaded the three people in front of him, but when he thought that two of them were going to grab the heart of his demon god, Lu Yang didn’t think about it.

“Chairman Lu Yang, you must come tonight. As long as you take 5,000 people to attack the scorching sun fortress tonight, you can definitely knock it down.” Yao Zhi opened the map and said.

The silk language came to Lu Yang and said seriously: “Chairman Lu Yang, I hope you can join the battle tonight. If you come, our winning face will be even greater.”

For the first time, Lu Yang was so close to the silk language, the distance between the two was less than 10 cm. Looking at the eyes of the silk language, Lu Yang was very emotional. Several times the silk language asked him for help, but Lu Yang did not agree to help .

It’s already this time, Lu Yang thought about it, and decided not to participate in the war. There is an old saying in Huaxia that the hurtful heart must not be, but the defending heart is indispensable.

It's not that he doesn't help with silk talk, but that the war between the guilds has only victory and defeat, no right or wrong, and no emotion.

Lu Yang is responsible for the entire guild, and no matter how much he asks for help, he must also be responsible for his guild and his hundreds of thousands of brothers.

Not only could he not participate in the war, but also under the pretext of participating in the war, so that his men could not mobilize their forces to be seen by the enemy.

Lu Yang said, "Let's go. I will go back to the pre-war mobilization. There will be a series of wars after I lay down Wang Teng's fortress. I need to prepare for it in detail."

"You promised to join the battle ~ www.mtlnovel.com ~" Sisi asked excitedly.

Lu Yang nodded and said, "Yes."

"Great, thank you so much. I thank you for our guild brothers." She almost cried.

Yao Zhi and Lu Jie are more excited.

"Chairman Lu Yang, the route will be as agreed before, you have no opinion," said Lu Jie.

"Yes, I am ready to inform you." Lu Yang said.

"That's it, we'll see you tonight." Yao Zhi said.

Lu Yang arched his hand and exited the special space.

Just returned to the hotel, Lu Yang sent a message to the silk language, "Chairwoman beauty, find a place where no one is, I have something to talk to you."

Speaking in a special space, seeing Lu Yang's news, he said goodbye to Lu Jie and Yao Zhi, returned to her hotel, and dialed Lu Yang's intercom.

Chapter 515 - March into Sirius

"Chairman Lu Yang, what's the matter?" Wu Siyu asked in her unique and clear voice.

Lu Yang asked, "Did you encounter a druid in the battle against Li Xiuyu these days?"

"Druid?" Hessian paused and said in surprise: "No, this is a human war. How can there be a Druid?"

Lu Yang said, "I have the exact news here. Liu Jie has sent a 10,000-strong druid army into the middle of Li Xiuyu's team."

The silk language said: "Will it be false news? We have played with Li Xiuyu for 5 days and killed 1.5 million players. He has never encountered a druid."

Lu Yang said: "The news can't be fake. I have all this video of Wan Druid turning into a cheetah and running towards the runaway city. Li Xiuyu has not used this 10,000 people so far, he must be designing a larger plan. Tonight I'm not going to fight. You have to be careful. Druid's role on the battlefield is so clear that you do n't need to say."

Druid's battle resurrection can be used every 5 minutes. 10,000 druids will resurrect 10,000 players who died in 5 minutes. If the resurrected elite players, it will change the situation.

"I see. You're right. The sneak attack plan is cancelled tonight. I'll tell Yao Zhi and Lu Jie." The voice in the silk language was a little panicked.

Lu Yang said: "The only thing I can help you with now is to continue the whole team and pose a large army to attack the Beifeng City Dominion Fortress."

"Thank you, I'll contact Yao Zhi and Lu Jie right now." Hesi hurriedly hung up the phone.

Lu Yang sighed. This time, I was afraid it would be difficult to retreat from the whole body. He shook his head. Lu Yang smiled with a bit of self-deprecation. He still worried about others now. Wang Teng invested 400,000 players in Lanshan Fortress. The offense can still leave 200,000 elite defenses in the scorching sun fortress, which proves that Wang Teng's strength is equal to him.

Li Xiuyu laid down Hannibal City, absorbed small and medium guilds, and soon gathered 600,000 players.

The crisis here is big enough, and the Red Name Army with artifacts is on the way. On the wolf side, Hei Tianqiang is staring at his Sirius Fortress with 500,000 people all the time. There is the slightest slack.

Lu Yang stepped out of the hotel, changed into the Red Flame Lion King, ran into the smithy in the north of the city, found Han Zhong, and asked, "Master, how many faces has the shield hit."

Han Zhong said: "150 faces."

"So much?" Lu Yang asked in surprise.

Han Zhong handed the bag full of shields to Lu Yang and said, "Xiao Lei knows you are in a hurry to use this. For five days in a row, you only sleep for two hours a day and hit you hard."

Lu Yang was touched and said, "Reward him 20,000 yuan. Tell me about it at dinner. This guy is good."

The refracting shield is the main equipment to defeat the prison sky. Lu Yangyuan thought that it would be good to have about 100 faces. Now there are 50 more faces, and his confidence is even greater.

Leaving the smithy, Lu Yang took out the fortress and returned to the city to fly to the red fortress. At this time, Xia Yuwei and Zhuoji were gathering troops in the outer city, and a group of Iron Blood Brother Alliance players flew back to the fortress, according to their own Legion standing team.

"Are we going to fight, who are we going to fight this time?"

"It must have been Wang Teng. This time, the **** was completely kicked down."

...

Everyone was curious about where to fight, but Xia Yuwei and Zhuo Jiu poured out their seven army chiefs at Lu Yang's request and said nothing.

An hour later, 210,000 people were assembled, and the outer area of the Red Fortress was once again filled with players from the Brotherhood of Iron and Blood.

Lu Yang stood at the head of the city and looked at the excited players below the city, saying: "From this moment, everyone closed the communication method, and the Jagged Brotherhood officially entered a state of war."

At the moment when 210,000 players heard the words of war, they cheered violently, and everyone's face showed an excited look.

After calming down, everyone closed all communication methods according to Lu Yang's request.

"Second World" officially has a team monitoring system. After the president of the guild has set the mode, players who have not done so will appear in the display area.

The leaders of the army such as Zhuojiu and Xia Yuwei personally led a team inspection, and after confirming that they were correct, they successively reported to Lu Yang.

Lu Yang stood at the head of the city and groaned for a while, saying, "Brothers, the Brotherhood of Iron and Blood has been in a passive attack since the beginning of its establishment. In every war, we are forced by the enemy to fight for survival.

Because of this, with every war, we can burst out of great energy, and any enemy who wants to destroy us is destroyed by us one by one.

However, the price paid for this is that every time a war comes, we all can't sleep well. I do n't know when the enemy will bring soldiers to sneak attack. It often happens that they do n't dare to go offline when wearing a game helmet for two or three days. .

This kind of worrying life is really enough, do you have that feeling? "

210,000 players were instantly impressed by Lu Yang's words. In each battle, in order to protect the fortress, they all exploded with great potential. Those who were desperate also had to defeat the enemy. However, the price was that they would spend every day during the war. Lu Yang's reassurance, Lu Yang's words spoke to their hearts.

Slowly, an angry look appeared on everyone's face.

Lu Yang said, "Why, why do those **** hit us if they want to hit us, and leave if they want to go. Now Wang Teng is bringing 600,000 soldiers to help Li Xiuyu, and after they have laid down Hannibal City, Li Xiuyu and Wang Teng's There are 1 million troops combined.

At that time, in order to guard against the two of them, we have to live that kind of worrying day. Why?
“

“Boss, let’s hit Wang Teng and kill him completely.”

“Li Xiuyu counted something, and fight with them.”

“Lao Tzu was fed up with being beaten passively, fighting with them.”

...

What is the reason? When it comes to the hearts of every player in the Jagged Brothers League, it is said that Qianyi catches the thief, and without Qianfang anti-thief, no one wants to always be so nervous.

Lu Yang pressed down with both hands to signal that everyone should not speak ~ www.mtlnovel.com ~ the scene calmed down instantly.

Lu Yang continued: “Brothers, I also want to fight Wang Teng, but our current strength is insufficient. What I can take you to do is to get the gold equipment of level 40 first. The red fortress is behind you in a straight distance of 8 Hours away is the main city of the wolf among the orcs, Sirius. “

“Sirius City !?”

“Wolves?”

“Our Red Fortress is at the junction of the wolf and the human race!”

“The boss wants to take us to fight the wolf!”

...

210,000 players are a little crazy. The 40-level gold uniforms at the King's Hall exchange office are all red after being blasted out by players on the forum. However, no one can find the way to the orcs. Just behind the Red Fort.

Lu Yang motioned to everyone to be quiet, and said, "Observe my orders, and the army groups will leave the city in turn, and follow me into Sirius."

Chapter 516 - Battles

The seven legionaries and deputy legionaries, including Duo Jiu Qing, Xia Yuwei, White Lion, Half-Life, Sun Yu, Jiang Ze, and Zhou Tianming, took an orderly 210,000 people from the three gates of the Red Fort.

The team of Zhuo Jiu Qing and Bai Shixiong is ahead, Xia Yuwei and Sun Yu's troops are in the middle, and Jiang Ze, Zhou Tianming and the half-loving team are at the end.

"Hello ~!"

The roar of the lion sounded, Hei Yan took Nanfeng Zhiyi, Mu Yu, and the Knight in Black with 224 secondary forbidden spell wizards and 3,000 elite players to switch to the Red Flame Lion in front.

Lu Yang replaced the Red Flame Lion King and walked at the forefront of the team. He said to the Tu Feng around him: "The defense of the Huayu Fortress must be followed up at any time, and let his subordinates report to you every 5 minutes. We will return immediately if there is a problem. "

"Okay," Tu Feng said.

In this war, Tu Feng was also brought in by Lu Yang to participate. Although he did not want to participate in the war, Tu Feng was also in a handsome uniform that made it difficult for Tu Feng to refuse.

"Drip, drip, drip"

Lu Yang's speaker rang, and saw that it was from Sirius. He pressed the connect button and asked, "How about you, is there any problem?"

Shooting Sirius smiled and said, "300,000 troops are ready, and they are waiting for the prison sky to come."

Lu Yang said, "Look at your performance. After 6 hours, I will arrive with my troops."

"Boss rest assured, there is no problem in staying for a week." Shooting Sirius said firmly.

At the time, Lu Yang invested more than 100 million yuan. Shooting Sirius was not extravagant and wasteful. Instead, it was used to recruit elite players with high pay. At present, there are more than 70 secondary curse banned players and 1 curse banned player.

With his own strength, there was no problem fighting against the prison sky for half a month, let alone Lu Yang helped.

"Woo ~~"

"Woo ~~"

"Woo ~~"

Three loud horns sounded, Sirius shot up and looked up, and countless players appeared on the grassland in the distance.

Shooting Sirius stood at the head of the city. In the simulation group, Lu Yang and other army commanders turned on the video mode. Lu Yang could clearly see the situation outside from Sirius' perspective.

An hour and a half later, 500,000 people were divided into several hundred square arrays and appeared 100 meters outside the north gate of the fortress. The front army was a defense team carrying a tall

shield. There were 60,000 people, followed by the shooter group and mage. Regiments and melee squares.

“It looks like the military capacity is full.” Lu Yang said.

Shooting Sirius said: “It just looks good. Hell Sky Dome is the luckiest of our four presidents with fortresses. The one who controlled the Blood Wolf fortress was a civilian guild. Faby, it was easy for him to be beaten down. “

Lu Yang checked the information of prison sky dome. He was a puppet supported by a consortium. He relied on a consortium to purchase 80,000 sets of 40 level gold equipment. The attack on Sirius Fortress was purely personal expansion. Under the attack of other guilds, there was no way to support shooting Sirius. With 500,000 people, he could easily grab the fortress shooting Sirius.

“Hell sky is here,” said Sirius.

A hole was opened in the shield under the fortress. A player with level 60 gold equipment rode the Nightsaber to a position 50 yards away from the fortress. He looked arrogantly at the shooting Sirius and said, “Shooing Sirius, you How dare you fight me. “

Shooting Sirius said silently: “Why am I afraid?”

Jie Tianqiang said, “Okay, I’ve given you a chance. You’ll kill yourself. Today I’ll lay your fortress.”

With a wave of Jell Sky Dome, hundreds of squares spread out, and the fortress was besieged on all sides. With an attack, 500,000 players launched a fierce assault from the fortress that shot Sirius from all sides.

The battle was heated from the beginning!

The shield team with the iron wall skills under the prison sky dominated the shield and walked to the gate 30 yards. In the magical bombardment of the city, the totem shaman hiding behind the shield chanted a spell.

500 magic totems suddenly appeared on the wall.

The shape of the totem is a curved wooden stick, with a green light flashing on the top of the stick. When the totem was formed, 500 totems launched an attack against the shooting wolf on the city wall at a rate of 0.2 seconds per round.

Each totem hit 5 people at the same time. For a time, there were green fire bombs everywhere on the north wall. The player who shot Sirius on the wall died a third in less than 1 minute, and it looked at least 10,000. people.

“The damage is so high!” Xia Yuwei said.

“How can I stop this?” The White Lion asked.

Shooting Sirius said: “Don’t worry, this skill lasts only 30 seconds. I guess Hell Sky Dome will give me a power, and the first players who line up are not elite.”

The crowd was relieved.

Lu Yang sent a message to Hei Yan in front of him and asked, “How many distances have we cleared the monster?”

Hei Yan said: “It is enough to open the acceleration scroll twice.”

Lu Yang said: “Attention of all the regiments, starting with the muddy wine and the White Lion, with a team of 500 people, the acceleration scroll is opened one by one, and the whole army accelerates forward.”

“Yes,” said Zhujiu and the white lions, including the seven legions.

...

When Lu Yang accelerated the march here, on the other side, on the Great Plain outside the Echo Fortress, Li Xiuyu's and Wang Teng's allied forces fought with the allies of Yansi and Yao Zhi, Lu Jie and others for the sixth war.

The Li Xiuyu coalition has 600,000 people, the Lishui alliance has 600,000 people, and the two sides together have 1.2 million people.

Compared to which battle of Lu Yang, this time the battle is even more highly respected by the authorities. This is the first decisive battle of more than a million people in the history of the human race.

More than a hundred media and thousands of anchors have turned on the live broadcast mode ~ www.mtlnovel.com ~ Official host Du Bin saw the two sides are in an array and said: "This is the sixth war. After five days of war, watch The two sides have entered a period of exhaustion, and it is likely that the outcome of this war will be announced today. "

The beauty anchor Hitomi said, "If I continue to fight like this, I feel that Li Xiuyu will be defeated."

Dubin said: "I think so too, it depends on whether Li Xiuyu has any housekeeping skills."

Hitomi asked curiously: "I always feel that this war game is a problem. Why did Lu Yang not participate in the war? If he took the team to participate in the war at this time, he might be able to enter the dominance fortress, and he could win the worst. Mountain fortress or scorching sun. "

Dubin said with a smile: "Not only are you curious, everyone is wondering why Lu Yang didn't show up. This war is so good for Lu Yang. It's a pity that he didn't come. We sent someone to the Brotherhood of Iron Blood to ask. They Tu Feng, the executive vice chairman of the group, said that this is a secret of the guild and cannot be said outside. "

Where did they know that Lu Yang was taking his troops across the barrier between human and orc.

Chapter 517 - Arrived at Blood Wolf Fortress

Hitomi pointed at the scene and said: "It seems that the war is about to begin, but this time the silk talk is shining, and I have become her fan."

The chief commander of Hannibal's side was slang, 7 guilds, 600,000 people, and he was well-organized under his command.

Dubin nodded and said, "Among the Terran players, there are two people known as the Queen, one is Xia Yuwei, and the other is the Silk language. The outcome of this war is far greater than the reputation of the Silk language. Xia Yuwei, became a unique queen. "

Hitomi indicates approval.

Xia Yuwei's fans heard the comment from Dubin, although it was very unpleasant, but he must admit it, Dubin was right.

After all, Xia Yuwei is under Lu Yang's men, and Lisiyu is an independent guild president. This time, he led 7 civilian guilds and defeated the invasion of the two chaebols of Wang Teng and Li Xiuyu. After victory, his reputation will reach an ordinary person. Unattainable height.

On the battlefield.

In Hannibal's camp, the silk language wore exquisite armor and looked valiant, she said in a spirited manner: "There was news from the runaway city that a guild disobeyed his rule and wanted to take the opportunity to attack his fortress. He has already lost sight of it. As long as we defeat him today, he will be unable to invade our city of Hannibal again. "

Qixing Chengying said, "It's great. I can finally take this **** away."

Lu Jie and Yao Zhi suddenly said in unison: "Our guild will take the lead."

The two looked at each other, and Lu Jie said, "I'm here first. I'll charge him once with my 40,000 gold army."

Yao Zhi said, "You punch to the left, I punch to the right, let's form a pair of pliers, and give Li Xiuyu a kick."

Leng Weixin said: "This is a good idea, as long as you pull the formation, we immediately press the entire army to replace Li Xiuyu."

Li Xiuyu has to run for 8 hours, Leng Weixin, they only need to run for 2 hours and use the substitution head style, which can make Li Xiuyu lose his offensive ability at one time.

Qixing Chengying, Mu Ruhan Jiang, and Hun Yan nodded together and said, "This is a good idea, we agree."

Hesi didn't nod his head immediately, looked at the map, and groaned a little before saying, "I agree, just hit it like this."

"Then we go back to prepare and contact us by telephone if there is any problem." Leng Weixin said.

Lu Jie said: "Big brothers will send me a message when I am ready, I can launch an attack at any time."

Yao Zhi said, "Me too."

Qixing Chengying and others left separately.

On the other side, in the lineup of Li Xiuyu and Wang Teng, Li Xiuyu rode on a pure white war horse, wearing a level 60 gold armor and no helmet on his head, revealing his handsome appearance.

Wang Teng stood beside him and said, "It looks like today is the decisive battle, are you ready?"

Li Xiuyu said: "Of course I'm ready. Today I want to give a gift to the people in Hannibal."

Wang Teng said: "Our 10,000 druids have finally come in handy, and they will be very surprised."

Li Xiuyu smiled and didn't speak, raised her right hand, and ordered the troops to prepare for the battle.

Half an hour later, just as Li Xiuyu was preparing to attack, Lu Jie and Yao Zhi each led the team out of the queue.

"Brothers, kill me." Lu Jie shouted and rushed to Li Xiuyu's left wing with 40,000 people.

"Kill ~!" Yao Zhi shouted, rushing to Li Xiuyu's right wing with 40,000 people.

There was a sneer on Li Xiuyu's face, and he raised his right hand forward and shouted, "Offense."

100,000 players who are also equipped with level 40 gold are divided into two teams facing Lu Jie and Yao Zhi.

Wang Teng stood in the distance and said, "Are all people like Hannibal City crazy? The guild president rushed to the front."

Lu Yang was riding the Red Flame Lion King while watching the defense of Sirius Fortress. Suddenly he wanted to see the situation in Hannibal City and clicked on the switch. He just saw Lu Jie and Yao Zhi leading the attack.

"What do these two boys think? Motivating morale doesn't have to be that hard. If you die, it will have a great impact on morale." Lu Yang said.

Heiyan sent a message and said, "Boss, the orc area is about to enter ahead. I saw Mu Yi and his cousin shooting Sirius."

Lu Yang closed the video and ran to the forefront with the Red Flame Lion King. In a mountain like a checkpoint, he saw the fat man loves braised pork and Mu Yi.

"Report the boss, checked the route along the way to ensure that there are no enemies," Teriyaki said.

Mu Yi said: "I have a subordinate every 200 yards to cope."

Lu Yang sent a message in the simulation group: "All the chiefs of the army come to me."

"Yes." Zhuo Jiu, Xia Yuwei and others immediately ran to Lu Yang on the Red Flame Lion.

Everyone, including Lu Yang, arrived and projected the three-dimensional map onto the ground, saying, "According to the previous plan, I took Sun Yu's troops to attack the Blood Wolf Stronghold, and your six troops went to the Demon Canyon."

The Magic Wind Canyon is in the middle of Sirius Fortress and Blood Wolf Fortress. It is an excellent location for ambush sneak attacks.

"Yes." Xia Yuwei and others such as Zhuojiu said.

"Remember, use misty potions to open the road along the way. You must not show up without potions. Don't be afraid of waste. If you let the crow see us and detect us, all efforts will be wasted." Lu Yang said.

"Yes," the crowd said again.

After a simple team, Zhuo Jiu and Xia Yuwei and others set up the magic wind canyon in front of their favorite braised meat.

Lu Yang and Sun Yu's troops led by Mu Yi across the rugged mountain road to the forest 3 kilometers away from the Blood Wolf Fortress.

“呱”

“呱”

“呱”

There was a faint crow cry in the distance ~ www.mtlnovel.com ~ Lu Yang's eyes widened suddenly, and he sent a message to the group saying, “Mist potion, put it.”

In Sun Yu's team, 500 team captains holding the mist potion took out the potion and shattered to the ground at the same time.

“嘭”

A large amount of white smoke shrouds most of the forest, and the visibility of the fog is less than 1 meter. Players of the Sun Yu Army can only see players within 1 meter of each other.

Sun Yu said to Lu Yang, “Boss, this medicine is too fierce, and we can't see it ourselves.”

Lu Yang said: “Without this degree of fog, there is no way to confuse the crows. Don't worry, the team is now resting in place and will not mess.”

“呱”

“呱”

The crow's voice reappeared. In the sky, two crows just flew across the forest and saw the fog below. The eyes of the two crows showed confused eyes. They circled over the fog two times to confirm that no enemy was found and continued to fly forward .

Chapter 518 - I am Lu Yang

Lu Yang said to Han Sha, "Twelve of you are going to inquire about the news."

"Yes." Han Sha nodded, and led Han Yu and Han Meng to the Blood Wolf Fortress. They were the killers of the stealth academy. They were born stealthy and would not be found by crows.

Lu Yang said to Sun Yu: "The whole army stands by, waiting for the crow to return."

"Yes." Sun Yu issued an order, 30,000 players rested in place, no one made a sound and walked around.

After 10 minutes.

The crow returned, passed over the mist, circled twice and flew towards the Scarlet Fortress.

“呱呱”

“呱呱”

Han Shagang led the team to the south gate of the fortress. Two crows flew over them and entered the fortress.

“Boss really does, let’s put crows every 10 minutes, it’s boring.” A wolf shooter complained on the wall.

“Don’t hesitate, let the boss know that you have suffered.” Said another shooter player.

“Well, I won’t say anymore.”

...

Han Sha saw a man walking back to the city tower, and another person poked his upper body out of the fortress and looked down the city. He pointed at the shooter and said, “Ready, come with me.”

Han Yu and Han Meng nodded.

The wall height of the Blood Wolf Fortress is 30 meters, and they can use the flashing assault to appear immediately behind this shooter to attack.

Although flashing assault is an attacking skill, if the user has a good technique, he can jump behind the opponent without triggering a passive attack.

Han Sha made a gesture of action, aiming at the shooter to launch a flashing assault, his body jumped from the ground to the wall of 30 yards in an instant, appeared behind the shooter, and when the passive damage of the raid was about to trigger, Han Sha turned back. Jumping away a distance of one meter, did not cause any damage to the shooter, and did not alarm him.

The shooter didn’t feel anything, continued to watch the city, and seriously performed the task.

Han Sha looked around. The top of the city wall was very wide, about 15 meters in length. Hundreds of players were sitting behind the female wall and divided into dozens of small groups to chat together.

“The city head is safe,” Han Sha said.

Han Yu under the city made a gesture, and the second jumped up, followed by Han Meng ...

Within 1 minute, all 12 people jumped onto the city wall.

“Gather intelligence separately and converge here in 10 minutes,” Han Sha said in a sign.

Han Yu and Han Meng and others nodded and separated.

Sirius Fortress.

Jie Tianqiang is savage with 500,000 people. In 6 hours, he launched 22 attacks, at this time he has hit the city head of Dongchengmen.

“Boss, we have completely occupied the Dongcheng Gate, and we must be able to lay the Sirius Fortress tonight.” Said the head of the First Army Clan Wolf to worship the moon.

Jie Tianqiang smiled proudly and said, “The gold equipment of level 40 is really powerful. Brothers, follow me to the tower and see how terrible it is to shoot Sirius.”

A group of players around him laughed, and the stars and moon accompanied him to the city gate of Dongchengmen. Just right, shooting Sirius personally directed his players to launch a counterattack on the city.

“Shooting Sirius, how is my totem army? It feels good.” He Tianqiang laughed wildly.

There are not many level 40 gold equipment for shooting Sirius, because Lu Yang has not allowed him to buy it. This time he thought that he could hold on by the city wall. He did not expect that the player with 80,000 level 40 gold equipment was so strong. He lost the East Gate by accident.

Looking at Jie Tianqiang's crazy look, shooting Sirius' heart was already very angry. Who would hate the most to play the game and won't accumulate morality? Jie Tianqiang is this type.

“Hell sky, you remember, I will remember how you pretended to be with me today, I shot Sirius here and swear today, I will not destroy your guild, kill you to quit this game, after I shoot Sirius The name reads backward. “Said Sirius gritted his teeth.

Jail Tianqiong laughed and said, “Well, what was the shooting of Sirius upside down? Did Wolf Tianshou shoot? I laughed to death. You have a good name. I will call you like that in the future. “

Lu Yang was looking at the situation from the perspective of shooting Sirius, and said to Sirius, “Don’t be impulsive, I have taken 30,000 people to Blood Wolf City, and I can launch an attack at any time.”

Shooting Sirius was about to order the whole army to attack, and when he heard Lu Yang’s words, he immediately calmed down the anger, and looked coldly at the prison sky without saying a word.

Prison Sky Dome saw that Sirius was being scolded by him and didn’t speak. He thought that Sirius was instigated, and scolded even more recklessly.

Ling Feng, the vice-chairman who shot Sirius, couldn’t help but said, “Boss, let me lead a group of people to rush over and kill the prison sky.”

Shoot Sirius and shook his head, gritted his teeth and looked at the prison sky said, “No need, listen to me, wait.”

Magic Wind Canyon.

The heads of the six legions such as the Muddy Wine Pour and the White Lion led the team to the sides of the valley.

“Quickly defend, the shooter team is responsible for alert, crows immediately alert,” shouted.

“I defend the mountain on the southwest side.”

“I’m on the northeast side.”

“I’m in the middle.”

...

With 6 legions, 180,000 people were armed within 20 minutes. The Brotherhood of Iron Blood was like a sophisticated war machine.

“Boss, we’re done with the defense.” Zhuo Jiu said to Lu Yang.

At this time, Lu Yang had received the news from Han Sha. The whole Blood Wolf Fortress had only 5,000 players to defend it. Counting 500 people on the four walls, there were only 7,000 people.

This person couldn’t handle even a forbidden spell. He sent a message in the simulation group: “The war has begun.”

Sun Yu stood up and pointed at the Blood Wolf Fortress in front of her, turned on the Wind Elf mode, and shouted, “The whole army is attacking.”

The speed of 30,000 players instantly increased by 100%. After running out of the forest, they rushed towards the Blood Wolf Fortress at full speed.

No one on the city’s defensive forces looked out of the city at this time. The crows had just finished their inspections without warning to prove that there were no enemies outside.

When Sun Yu led the team to the fortress with a distance of only 50 meters, a player on the city side turned boringly and looked out of the city. Suddenly he opened his eyes and shouted in horror: “The enemy, the enemy Enemy attack, enemy attack, enemy attack, Terran came over. “

Players on the city head subconsciously look out of the city. No one thinks it is real, it is just a subconscious act. However, when they see the situation outside the city, everyone is dumbfounded. Under the fortress, there are densely populated. Enemies are endless.

“Gather, gather, and defend ~ www.mtlnovel.com ~ Call the defenders in the city.” The captain of the defending city shouted.

500 players stood up and prepared to defend, but at this moment, 12 bloods were lit, Han Sha and others appeared, and 12 players fell in response.

“Blink Assault”

Another 12 players fell to the ground and died.

...

For 10 consecutive flashing raids, 120 shooters died on the ground without any reaction, and the time just passed 10 seconds.

The captain of the Shoucheng squad shouted in panic: “An enemy is heading up to the city. Come to me and be careful to be attacked by them.”

The remaining 380 shooters rushed to the squadron leader to form a square array. At this moment, a reddish light flew up the city from a distance.

“嘭”

A fire burst out 30 yards in front of the squadron leader. Lu Yang, who was full of flames, appeared from the fire, watching the enemy in front of him and said, “Tell the prison sky, I am Lu Yang.”

Chapter 519 - Aeolian Canyon

Crimson meteorites appear one after another in the sky, centering in a square array of archers.

Lu Yang's up to 8,000 points of magical damage, plus more than 1,000 skill damage from the level 5 meteorite impact, the total damage is up to 10,000 points.

The player who defends the city is only a second-rate army. The blood is only about 4,000. He can't carry it for a second in the face of the impact of a meteorite. All the defenders were killed!

Han Sha and Han Yu came to the tower in a short stride and clicked the button to open the gate. The 10-meter-thick stone gate that originally took half an hour to break slowly rose.

Sun Yu saw the city gate wide open and pointed at the city and shouted, "Kill ~!"

30,000 people swarmed into the city, and at this time, 5,000 people in the city just ran to a position 1,000 meters outside the south gate, and they were dumbfounded to see that the enemy was about to attack.

"How is it human?"

"Where's the Terran?"

They received news that the enemy was attacked by the enemy at the south gate and informed them that it did not say what the enemy was doing.

When they were curious, Xiao Liang, who rushed to the front, shouted, "Kill ~!"

When the brave meets on the narrow road, Xiao Liang jumps into the enemy's array, and the red mist whirlwind turns wildly.

Sun Yu's troops also saw the wolf for the first time. The fierce werewolves made them intimidate a little instinctively. At this time, they saw Xiao Liang rushing in. Suddenly, the blood in his body was surging.

“Kill ~!” 30,000 people rushed to the wolf clan like a wolf.

Lu Yang stood on the head of the city and looked at the situation under the city, and said a spell in his mouth.

“The Great Lord of Fire ...”

Ten seconds later, the sky was overcast, and a crimson fire meteor broke through the clouds and fell from the sky. A huge meteorite with a diameter of more than 50 meters was in the center of the 5000 left-behind troops in Hell’s Sky.

“boom”

A crimson ripple swept across a 500-yard radius.

All 5,000 defenders are killed!

Sun Yu and 30,000 defenders looked up at Landing Yang. Everyone looked at Lu Yang as if they were looking at the gods.

Lu Yang pointed to the inner city with his left hand and said, “Break through the inner city and win the fort.”

“Kill ~!” Sun Yu and others didn’t know how to vent the excitement in their chests, and they roared towards the inner city.

There are only 50 arrow towers on the city head of the inner city. 1,000 shield fighters went down to the city to resist damage and healed blood in the back. The remaining 5,000 people used the rope to rush to the city head to enter the inner city to guard the resurrection point.

Mu Yi walked to the front of the shrine, took the fortress order from his backpack, and replaced the fortress order placed on it.

System prompt: Sirius Legion captures Blood Wolf Stronghold!

Sirius Fortress.

Hell Sky has just received the news that the fortress was attacked by a human being, or Luyang of the human race, which made him dumbfounded and asked, "Human, human race? How did the human Luyang ran to the wolf race, where did he come from. "

The vice-chairman's soul obliterated and said, "Don't worry about this anymore. Hurry to take the soldiers back. The 5,000 people will definitely not be able to keep it."

The prison sky responded and said quickly: "The whole army stopped attacking and withdrew outside the city."

The fortress returns to the city with a 10-second look-ahead time. There is no way to use it on the battlefield, only to withdraw from the battle first.

Just now Prison Sky is insulting shooting Sirius. Nearly 500,000 troops did not participate in the attack. At this time, retreat is the most suitable choice.

Shooting the wolf pointing at the prison sky said, "Don't go, what are you going to do?"

The prison sky is extremely upset, but now he wants to shoot Sirius, and if he wants to use the fortress to return to the city roll, he will immediately go back to support, unless he can not do so.

Jie Tianqiang Li Neiyi said: "Shoot Sirius, I hit here today, to give you a chance to buffer, I will come back tomorrow to clean up you."

Shooting Sirius laughed, he pointed to the prison sky and said, "Do you want to go, is it so easy, the archer prepares and throws."

More than 80,000 archers scattered across the four city gates collectively used hash arrows, and the men in Hell's Dome who wanted to withdraw from the battle suffered a dense arrow rain design.

Hell sky was panicking, and at this time, he received a system message: Your fortress was occupied by the Brotherhood of Iron and Blood, you lost the fortress!

"My fortress." Jade Sky Dome's head lost a square hum, and shouted excitedly: "The army quickly retreated and returned to the Blood Wolf Fortress."

The system message was not only sent to Hell's Dome, but also to every player in his guild. When they saw the news, they were all stunned.

"Iron Brotherhood?"

"Isn't that a human guild?"

"Our stronghold was beaten down by the Terran Guild?"

...

In the confusion they heard the hysterical sound of Hell's Dome, and all of them reacted and ran madly towards the Blood Wolf Fortress.

500,000 people on the plain ran towards the Magic Wind Canyon like a rout. Lingfeng and Yuemantian and other army chiefs came curiously to shoot Sirius. Lingfeng asked, "Boss, how did they retreat?"

"Don't you hear Jail Tianqiang saying that his fortress was attacked by someone." She shot Sirius.

“Deserve it,” Ling Feng said.

Looking at the retreat on the full moon, he said, “If we want to attack, we can kill many of them at this time.”

Shooting Sirius hated the prison sky for a long time, thinking about it but shaking his head and said, “Can’t go, be careful this **** dog jumped off the wall and came back to attack our fortress.”

The crowd nodded and Moon Moon said, “It’s a pity.”

Shooting Sirius sneered without saying a word. He knew that 180,000 people, including the muddy wine dumpling and the white lion in charge of the ambush, were ready to fight back in the Magic Wind Canyon.

“People, look at you. The 500,000 troops in Hell’s Dome ran towards the Demon Canyon, and it is estimated that they will arrive 15 minutes later.” Shooting Sirius said in a simulation group message.

“Wait for him to come, misty potion, put it,” said Muddy wine pouring.

A dense mist appeared in the dense forest on both sides of the Magic Wind Canyon, and 180,000 iron blood brothers players were hidden into the dense mist.

The Twilight Knife hid a team of killers on a high ground, overlooking the entire valley.

“呱呱”

“呱呱”

...

The crow's bark sounded, and the Twilight Knife looked up. More than a hundred crows flew over the forest, and saw the fog swirling twice before continuing to fly forward.

“More than 100 crows flew out together, the prison sky was anxious.” Twilight Knife said.

“Oh, half a million troops, this honor is so great.”

...

Each of the Jagged Brothers players participating in the battle was excited.

“呱”

“呱”

Twilight Knife said: “Careful everyone, the crow is flying back.”

More than 100 crows flew back over the forest, flew around the fog for two laps, and returned to the side of the prison sky.

“The Magic Wind Canyon in the front confirmed that there were no enemies ~ www.mtlnovel.com ~ The whole army rushed for me.” Jell Sky Dome shouted, just now he got the report from the defensive forces. According to their description, Jell Sky Dome guessed that Lu Yang was taking this time. The troops coming in were only about 30,000.

“Lu Yang, you wait for me, 30,000 people will dare to hit my fortress, I will kill you.” Jie Tianqiang said with a distorted expression.

500,000 troops immediately rushed into the canyon. The canyon was wide and could accommodate 100 people walking side by side. However, even so, 500,000 people had to slow down and enter in order. The speed was much slower than before.

Hei Tianqiong was dissatisfied with such a speed, and shouted, "Don't care about the formation, hurry up to me, rush to the opposite side and organize the team."

When the soldiers heard this, they were out of order at once, and a group of people rushed into the canyon.

Gu Yu, leader of the Second Corps, said worriedly, "Will it be attacked?"

"Nonsense, the crow has just inspected, there are no enemies in the canyon." Hei Tianqiang said angrily.

Gu Yu couldn't say more, and rushed into the canyon with the team.

Chapter 520 - Battle of Despair Hill

Soon, 500,000 people all poured into the canyon. There were no formations and no organization. The twilight knives were driving videos. Xia Yuwei and bitter love half-life leaders could see the situation outside, when they saw the prison sky When it was this formation, everyone showed a win-win look.

After 10 minutes.

Hei Tianqiang took half a million people to the middle of the magic wind canyon. Just as he urged the player to move forward quickly, suddenly, dense rustling sounds appeared on both sides of the valley.

Priscilla looked to the left in horror.

The white lion jumped out of the dense forest, raised his sword and shouted, "Iron Brotherhood."

"Kill ~!"

180,000 iron brother brothers players ambushing on both sides of the gorge appeared simultaneously. The three males of Bai, the half-loving half-life, and the Zhou Tianming each rushed out from the sides of the gorge with the paladin and violent battle, and cut the unit of the prison sky Five sections.

The turbid wine poured in and Xia Yuwei took all the mages and shooters on both sides of the canyon. For a time, magic and arrow rain covered the entire canyon.

Prison Sky looked at the extremely chaotic formation and was terrified. He could only panic and shouted, "Don't mess, don't mess, follow the command and act in unison."

Gu Yu didn't know where he got out of, and ran to the side of Hei Tianqiang, saying, "Boss, quickly retreat, you can't fight here."

The prison sky shoved away the lonely rain and cursed, "Hurry up to organize a counterattack, what are you afraid of?"

Gu Yu shouted excitedly: "It can't be organized. The 50 army commanders are running chaotic. No one can find their own troops. Quickly withdraw. Don't die."

He was awakened by Gu Yu in the sky. He was the soul of the guild and could not easily die. He hurried towards the road. However, when he ran to the exit of the canyon, the shooting wolf appeared in front of the sky.

"Hell Sky Dome, we met again." Shooting Sirius gritted his teeth and said that he had been insulted by Hell Sky Dome for half an hour. He was extremely hated by Hell Sky Dome. He thought about coming here for fun, but he did not expect to be here Encounter Prison Sky.

Jie Tianqiang had a thick skin, and pointed at She Tianlang and cursed, "Did you collude with Lu Yang to attack me, you wait, I must tell you."

Shooting Sirius laughed and said, "To tell you the truth, my Sirius Legion that was shooting Sirius was originally an affiliated guild of the Brotherhood of the Iron Blood. If you dare hit me, I will kill you."

Under the hatred of shooting Sirius, he raised his two-handed sword and rushed towards Hei Tianqiang. At the moment when the charge skills hit Hei Tianqiang, he shot a leap, and the two-handed sword with the flame suddenly cut off.

Priscilla’s own technique is not strong, but it is not weak. However, where is he now thinking of fighting against Sirius? Not to mention, what he just said to shoot Sirius has horrified Priscilla to the extreme. He made several mistakes in a row and was wronged. Shoot Sirius to find the gap, and hit the neck with a sword.

Hell sky dead!

“Finally out of breath,” said Sirius.

Zhuoju poured in with a group of people and saw him killed by the shooting Sirius. He said, “In the future, you will be fine if you abuse him every day. Do n’t worry, we are brothers, and if he scolds you, he will scold. We, the Jagged Brothers, will not spare him. “

Shooting Sirius warmed up and said, “Thank you.”

“The people in the canyon were all killed. The boss asked us to rush to the Iron Wolf Hill immediately. He wanted to fight against Hell’s Dome, and I left.” The muddy wine arched his hand, turned and ran quickly. Inside the valley.

Ling Feng and Yue Mantian were both silly when shooting Sirius. They looked at Sirius and said, “Boss, what’s the situation, when did you become a member of the Jagged Brotherhood.”

Shooting Sirius smiled and said, “Last time Luo Chenglai hit us, we only supported it by the Iron Brotherhood. Do you think I can really find more than 200 masters who can ban the secondary curse?”

“So it is,” Moon Moon said.

“Leave it alone and leave 100,000 troops to watch the house. Others will return to Sirius City with me. Since the boss is going to fight against Hell’s Sky in the Iron Wolf Hills, we will blast the chrysanthemum in Hell’s Sky from behind.” Shoot Sirius Said.

“Yes.” Yue Mantian and Ling Feng said with a smile.

On the other side.

The prison sky was already mad, and troops were sorted out immediately after the resurrection of Sirius. Half an hour later, half a million people had assembled.

Pointing at the direction of the Blood Wolf Fortress, Jie Tianqiang said: “The whole army will obey the order and launch the Blood Wolf Fortress to defeat Lu Yang.”

He just watched the replay of the war and found that Lu Yang’s troops this time were only about 200,000. This person was not his opponent at all.

There is only one way from Sirius City to the Blood Wolf Fortress. Take the Elk Plain, the Foggy Forest, and the Iron Wolf Hills. Once out of the Iron Wolf Hills, walk past the Despair Mountains to the Blood Wolf Fortress.

Lu Yang took 30,000 people from Sun Yu to the junction of Tielangqiu and Desperate Mountain. The entrance of Desperate Mountain was wide and could accommodate 2,000 people side by side. Lu Yang and his team set up a defense line under Taniguchi. Stance to fight to death in the end.

Hei Yan, Nanfeng Zhiyi, the Black Knight and Mu Yu and Mu Yi stood with 224 members of the Master League on the top of Despair Mountain.

Regardless of Lu Yang’s only 30,000 people, these 30,000 people are the most elite troops under Lu Yang. Most of the elite forces, including the Forbidden Mage Regiment and the Refraction Shield Knight, are in the team.

Half an hour later.

Mu Yi sent a message to Lu Yang and said, "Hell Sky Dome brought 500,000 people."

Lu Yang nodded and said, "The whole army is ready to fight."

30,000 players are solemnly waiting.

Jie Tianqiong took 500,000 people to the entrance of Desperate Mountain and looked at Lu Yang guarding the door. Jie Tianqiang sneered and said, "Chairman Lu Yang, you are not brave enough to dare to invade my wolf tribe."

Lu Yang said, "Whatever it takes, come here if you have one."

There is no need to be polite to such bastards, and Lu Yang's most despise is the villain who gets mad.

Hell Sky anger said: "Okay, the whole army advances, the totem army attacks, let the clan of **** see and see you powerfully ~ www.mtlnovel.com ~ Tens of thousands of totem warriors in 30,000 shield battle Rushing towards the entrance of Despair Mountain under the protection of the prison, the prison sky vault had an idea to break Lu Yang.

He thought that Lu Yang did not know that his totem army knew special attacks, but what he didn't know was that Lu Yang had already studied him thoroughly and saw that the 30,000 shield battle was moving forward. He immediately said: "Paladin troops are ready."

150 players with refraction shields came forward.

If at this time Jail sky vaulted and ordered the army to attack directly, he might not be defeated too badly, but he wanted to show off his totem army and saw 30,000 shield soldiers escorting 10,000 totem soldiers to Taniguchi. The sky said: "Magic totem, let go!"

More than 10,000 totems appeared densely in front of the Jagged Brothers players, watching the totem poles appear slowly, and Jade Sky Dome showed a smirk expression.

Lu Yang said, "Refraction, get up!"

150 shield warriors simultaneously turned on the refracting skills on the shield, and at the same time, more than 50,000 green flame bombs hit the front 150 150 knights at the same time.
