

Chapter 521 - Refraction shield

“Give it up. I want to go to the front to see how Lu Yang was defeated by me, and what kind of undefeated myth of the human race, God of War, today I will let him know how powerful I am.” Night Blade Leopard came to the front of the team with a group of deputy chairmen and legionnaires.

“Lu Yang must have never seen our totem army. Ten thousand totem poles can kill all his troops.” Vice Chairman Molong Jitian said.

“It’s started,” Gu Yu said.

Hell Sky Dome looks forward, and 50,000 green flame bombs fly to the 150 forward Paladins. As the flame bombs fly, the corners of Hell Sky Dome cannot rise, just as the flame bomb hits the Paladin shield. moment.

Jie Tianqiang raised his hands and shouted, “Oh ~!”

As soon as the words fell, all 50,000 flame bombs bounced back as if they had eyes. Standing in front of Hei Tianqiang, he looked in horror at the dense flame bombs covering his direction.

The main thing is not this. The flame totem spit flame bombs at a rate of 0.2 seconds every time. After hitting the shield, all the shields bounced back.

For a time, the battlefield was beautiful, tens of thousands of flame bombs attacked 150 Paladins crazy, and 150 Paladins seemed to release flame bombs, and 50,000 shields were released every 0.2 seconds against 30,000 shield battles. Flame bomb.

“Boss run away.” Gu Yu’s voice just fell, and he was hit by hundreds of flames at the same time, killing him instantly.

The same was true of the other vice-chairmen and the head of the army. All of them were killed in the first wave of attacks. By the time the prison vault responded, he was already bleeding, and hurried back, but was also killed by the flames.

10,000 warlocks who released totems hid behind shield battles and did not know what was going on outside. 30,000 shield battles also carried shields ready to be attacked by dense arrow rain and magic at any time. After the totem was released, it was impossible to specify attacks. Usually, after the totem pole is dropped, everyone hides behind the shield for 30 seconds.

Within 30 seconds, the totem poles must kill all enemies, so this time, they are the same. None of the 30,000 shield wars and 10,000 totem warriors look into the field.

As they waited quietly, all of a sudden flames bounced on shields of shield battles, and shield warriors with iron wall skills took all damage in half, but excluding chaos damage and holy damage.

The shield soldiers have more than 10,000 points of health. Everyone thinks that they are enough. However, no one thought that when the 50,000 flame bombs rebounded at a rate of 0.2 seconds, the shield company in front would give them. There was no time to add blood to the rear treatment, and a large amount of death died instantly, even the totem warrior with the back was killed.

At this time, the players in the prison side of the sky discovered that there was a problem. However, the commander was almost dead. There were only 2 legionnaires left behind, the chairman and deputy chairman, and more than 40 other legionaries. Killed in a wave of attacks.

While they were confused, the paladin’s blazing flames swept through the mountain pass, killing more than 20,000 shield wars and 5,000 totem warriors.

“The totem warrior stopped his skills and immediately stopped his skills.” The 48th Army Commander Long You ran over from the tail of the team and shouted loudly.

The Totem Warlock immediately stopped output.

A totem warrior captain asked confused, "What shall we do now?"

Longyou is also stunned. It's been almost half a year since playing "Second World". Their totem army is no disadvantage. This time, the consortium increased capital injection. They gave more warlocks the ability of flame totems. , I thought I could sweep the game, but I didn't expect to be defeated by the Terran's 150 Paladins who resisted the shield.

Looking at the other party with only 30,000 people, Long You's heart was terrified. He didn't know how to deal with it. Just when he was worried, Lu Yang moved.

"Inflammation"

Lu Yang's body was surrounded by flames and turned into a giant 5-meter-high flame demon.

"great....."

A series of spells were read from Lu Yang's mouth, Long You's eyes widened in horror and shouted, "The whole army retreats, he will put a forbidden spell."

The eyes of half a million people were confused, without a command, and the people behind did not even know what the people in front were saying.

Hei Yan stood on the top of the mountain and said lightly, "Is it too late to retreat now, Master League, secondary forbidden spell."

The secondary forbidden spell of 224 mages was just completed, while the right-hand staff was pointing to the front.

"Meteor Fire Rain"

“Icy Roar”

“Space-Time Cutting”

...

Hex forbidden spells reappeared. 224 times forbidden spells were added together, and the skills released were more than 10,000 meters in diameter. At a time, the area where 500,000 players in Hell’s Sky stood was full of various spell skills.

All players fled and fled. Without a command, shield battles did not have time to heal other treatments, and everyone ran like a headless fly.

Sun Yu shouted at the opportunity and shouted, “The whole army is attacking.”

30,000 players rushed out of the mountain pass to massacre the troops of the prison sky.

The two remaining legion leaders, Long You and Leng Nian Insulation, worked hard to organize 20,000 people in their hands, and tried to gather scattered troops to lean on them.

They are not rookies, knowing that such a large range of secondary curse damage must not be high. Sure enough, after being attacked, they ordered the shield war to protect the shield, and the treatment was hidden under the shield to add blood.

Soon, the two gathered 100,000 people and saw players constantly approaching each other. For convenience, the two formed a round array.

“People who come over from the outside, stand on the spot directly, there are medicines to restore the medicine instantly, stabilize the formation, and there will be treatment to add blood to you immediately.” Long You shouted.

Sun Yu rushed to the front of Longyou with 30,000 people. Seeing that the lineup was not scattered and there was no place to start, he scratched his head.

At this moment, Lu Yang's curse was completed, and his right hand was pointing forward.

A huge white skull appeared at the foot of Longyou, and within a range of 2000 meters in diameter ~
www.mtlnovel.com ~ the temperature suddenly increased.

Just when Longyou was confused about this skill, the skull flew into the air in the flames.

"The flames burn out"

The magical flames that burned more than 6000 points killed 60,000 people in an instant. Longyou and Lianmian Insulation watched their hard-held troops being destroyed by a forbidden spell, and they became frustrated.

Just when the two were confused and didn't know what to do, two sharp arrows flew from the top of the Desperate Mountain, centering their throats.

"15898"

"30886" (Critical)

The two died in response!

Sun Yu looked at the top of the mountain, and Mu Yi gestured a thumb at him.

Sun Yu laughed, turned on the wind elf mode, and shouted, "Take 20 people as a squad to destroy all the living forces of the enemy."

Thirty thousand people dispersed and hunted down.

Chapter 522 - Hell Sky

When Prison Sky Dome was resurrected in Sirius City, he saw that the players around him were resurrected, and he was already mad.

It happened that the people around him, such as the Dragon Dragon Festival and Lone Rain, were resurrected next to him. He Tianqiong cursed, "Give me the whole team, and the whole army will gather outside the city."

The Dragon Dragon Festival and Lone Rain and others glanced at each other. It was the so-called one-off, then the decline, and the exhaustion. They were wiped out by the enemy twice in a row, and their hearts became pessimistic about the prospect of war.

"Gather, the resurrected people gather outside the city." Shouted from the Dragon Ritual.

"Second Army, come here at coordinates 09871.08567, speed gather." Gu Yu shouted.

500,000 players sparsely walked towards the outside of the city. They had just been killed by the forbidden spell and were chased down by Sun Yu two maps. Morale was extremely low.

Hell Sky Dome stood outside the city watching the players slowly gather in anxiety. Every additional minute wasted, his hope of regaining the fortress was reduced by one point.

He knew that Lu Yang would not occupy the Blood Wolf Fortress for a long time, because Lu Yang had to face the attack of Wang Teng and Li Xiuyu in the city of St. Gall. He was afraid that if other super guilds in Sirius would know that his fortress had been It is likely that more than a dozen super guilds collectively robbed his fortress in the name of expelling Lu Yang.

If it is taken away by other people, it will be even more difficult for Hell to dominate it!

Just when he was worried, the shooting Sirius just assembled 200,000 people outside the city. When he saw that the army in Prison Sky had assembled less than 50,000 people, he shouted, "Sirius Army, kill ~!"

The 200,000 wolves encircled on all sides wrapped the dumplings of the prisoners who had just assembled in the sky, and after being killed, the inferior number of the sky in the sky was once again killed back to the safe zone.

“Asshole.” Hei Tianqi was mad and yelled madly in the safe zone.

The dragon dragon festival went to the prison sky and said frowningly, “Boss, what can we do, shoot Sirius to stop us outside the city, and we can’t even do the whole team now.”

Long You said: “You can form a team in the city, but it takes too much time, at least an hour and a half.”

Jie Tianqiang cursed: “At that time, all the wolves knew that Lu Yang had laid down my fortress.”

Gu Yu thought for a while and said, “There is another way, but I don’t know if I should say it.”

“Say,” said Hei Tianqiang.

“Ask for peace, spend money on peace, and this time we found it bad.” Gu Yu said.

“Mum’s farting.” Jade Sky Dome shouted, “Let me make peace with Lu Yang, no way, I am afraid of him, I am afraid of him?”

“You are not afraid of him, but we are afraid of other guilds in Sirius. You are aggrieved. Ask Sirius to negotiate the price.” Gu Yu said.

Hei Tianqiu was speechless, and angrily kicked on the stone pillar in the safe area, and said, “I’m looking for him.”

“Drip, drip, drip”

Shooting Sirius found that his interphone rang, and saw that it was sent by Qingxian Zimeng, the fox goddess known as the beautiful fox.

“Purple Goddess of Dreams, how could you call me, it’s a great honor.” Shooting Sirius laughed.

“President Sirius, is it deliberate?” Qing Qian Zimengwan’s voice turned into his ear.

“How dare you dare, if you have something to say, I can do it without saying a word, I will do it,” said Sirius.

“What’s the matter with me? It was just that Prison Sky called me and offended me and let me intervene. How could I have this face? He had to ask me to call you. No way, I’ll find you.” Qing Qian Zimeng said.

Shooting Sirius smiled and said, “Count him as a lover, knowing to ask you to ask me, I will ignore him for the second person.”

Qing Qian Zimeng was very satisfied with the shot of Sirius, saying, “Then you two come to my hotel to talk, and I will prepare a private room for you.”

“Yes, I’ll go there. I’m sorry to hang up. I know what he asked me to talk about. I have to think about how to pit him first.” Shoot Sirius.

Qing Qian Zimeng smiled and said, “Go, En Zhun.”

Shooting Sirius hung up the interphone with joy, and said to Lu Yang, “Boss, you heard that, **** sky begged for mercy.”

Lu Yang said, “Well, I heard that there was adultery.”

“Well, we heard that, too.” Zhuojiu said with Bai Shi and others.

Shooting Sirius's face turned red instantly, and said in a stubborn voice: "Then, that, let's, aren't we talking about Hell Sky Dome now, I'm fine, fine."

Lu Yang said, "I'm not teasing you, but I'm persuading you. This Qingzhuang Zimeng was able to open such a large hotel in the game when she was 23 years old. She is not an ordinary person."

Shooting Sirius sighed and said, "I know, but I just can't help myself. She's too beautiful, and she's so beautiful in reality."

Lu Yang remembers that the last time he shot Sirius in pursuit of Qing Qian Zimeng, it seems that he chased it for two or three years. However, Qing Qian Zimeng did not choose him, but chose the city leader Tianyao, who is the five main cities of the unified orc tribe. It was revealed that Tianyao had a wife long ago. Qing Qian Zimeng was beaten by the original match in reality. Helplessly left Tianyao and returned to the game to open the hotel. Unfortunately, his popularity plummeted.

It's sad to think about it.

Lu Yang said: "Since you like her so much, I will help you to chase her. This is what I promised you. Go and talk to the prison sky and tell him that if you want to change the fortress, take 20 million credits. Change, otherwise avoid talking. "

This is the custom of the last life.

"Thank you, boss, I'll go." Sirius shot excitedly.

Xia Yuwei and White Lion cursed and said, "Boss, it's interesting."

For the first time, Lu Yang did not refute them, and shook his head with a smile. He knew how terrible love was. The strong fortress was often broken by the enemy from the inside, and the best way to break it was the red pink snake.

This is not something that can be used to control. Even hero heroes can't pass the beauty level. Lu Yang doesn't want to shoot Sirius because a woman has a suspicion with him. The best way is to let this woman be shot by Sirius early .

Light hotel.

Private room on the third floor.

This is a room decorated with ancient style, and Qing Qiang Meng, dressed in exquisite clothes, is sitting in the room and chatting with the prison sky.

"Thank you very much, girl Qing Qian, 100 gold coins is not a thank you, please accept it." He Tianqiang said.

Qing Qian Zimeng was a little surprised. He didn't expect that he would only give him 100 gold coins when he came out to shoot the wolf out of prison, and converted it into a credit, which is equivalent to 30,000 yuan.

"This is too much, I can't ask for it." Qing Qian Zimeng said.

Jie Tianqiang smiled helplessly and said, "You will know later. Whoever wants to ask you to shoot Sirius is at least the price."

"Shoot Sirius?" Qing Qian Zimeng asked in surprise.

"Beauty, are you calling me?" Sirius shot in.

Qing Qian Zimeng could not help rolling his eyes. He had not seen a thousand or eighty of the blatant pursuers such as Sirius. He stood up, twisted his slender waist, and walked to Sirius, saying: "I'm too lazy to take care of you, I'll go and pour you tea, you talk."

The stare of shooting Sirius followed the figure of Qing Qian Zimeng until she went out.

He Tianqiang said: "It really is a beauty, Sir Wolf has good eyesight."

Shooting Sirius turned to look at the prison sky, smiled and walked to the seat, and after sitting down, he was too lazy to say, "Why are you looking for me?"

Jie Tianqiang strongly suppressed the anger in his heart, secretly, I now bear with you, when I have a chance, but smiled on my face and said: "Brother Sir, my brother knows that I am wrong, I promise not to hit your fortress again, can Can't talk to President Lu Yang, return the fortress to me. "

Shooting Sirius said: "Why did I knock it down for you? I sold it well, Sirius City wants to buy more fortress super guilds."

"10,000 gold coins," said Priscilla Sky's price.

10,000 gold coins is equivalent to 3 million credit points.

Shooting Sirius said: "Looking at the shallow face, I don't ask you more, the boss ordered you to come up with 30 million credits, you promised, he immediately retired, you didn't promise, I immediately contacted the others Super Guild. "

"30 million credits, you robbery." Priscilla sky stood up angrily.

Shooting Sirius shook his head and said, "You should know how profitable the fortress is. I want you to be not expensive 30 million."

"No, I can't accept that much money. I'll give you up to 10 million." He Tianqiang said.

Shooting Sirius said earnestly: "Don't be so screwed. The fortress is important or the money is important. You can earn this money for more than a month. If I sell it to other people, 10 million people will buy it, believe it or not."

Hell sky knows this, and his face becomes hesitant.

At this moment, Qing Qian Zimeng appeared at the door with a pot of tea, walked to the table of two people, put the tea down, and asked, "What business do you talk about, you just heard 10 million at the door, so many . "

He Tianqiang's face changed, but Sirius shot with a smile and said, "What 10 million, what I want is 30 million. He Tianqiang ~ www.mtnovel.com ~ give a happy word, can't agree."

Qing Qian Zimeng is a little stunned, she has not seen so much money yet.

Jie Tianqiong knew that he couldn't continue to drag on. If the tone of shooting Sirius was not tight, he would tell the truth to Qing Qian Zimeng. With Qing Qian Zimeng's contacts, this matter would be known all over the world.

"20 million, no more, I only have so much cash," said Priscilla.

After shooting Sirius' heart, the goal the boss gave him was fulfilled, and he decided to try again. If it didn't work, he would have to make some money, and how to make money.

"No, 30 million is 30 million." Shooting Sirius said.

"I can only make 20 million." Hei Tianqiang gritted his teeth and said.

Shooting the wolf continues to shake his head, and the prison sky is getting more and more angry. Just before the prison sky is about to turn his face, Qing Qian Zimeng uses her voice to turn and say, "The two are not in contention. You two compromise, 25 million. "

Shooting Sirius looks at Prison Sky Dome, and Prison Dome also looks at Shooting Sirius.

Chapter 523 - Green Pine Plains

“Then 25 million, Qing Qing said, I will do it.” Shoot Sirius.

Qing Qian Zimeng looked at Hei Tianqiang, and Jie Tianqiang gritted his teeth and said, “Okay, then 25 million, I recognize it, give me the card number, and I will give you money now, but you have to fulfill your promise.”

Shooting Sirius took out a contract and handed it to Prison Sky Dome and said, “Look, the official contract, you pay, and what you want will automatically return to your name.”

This is an official fortress sale contract, which is specially prepared for players to seek solutions after the fortress is breached.

After receiving the contract, Jie Tianqiang breathed a sigh of relief, signed on it, and hit the money in accordance with the account number sent by the shooting Sirius.

System prompt: You get Blood Wolf Fortress

The moment he saw the hint, he immediately took out the fortress and returned to the city roll, staring angrily at shooting Sirius and flying away.

Qing Qian Zimeng looked at the expression of Jie Tianqiang, and looked at Sirius with a little fear, and asked, “Am I helping you?”

Shooting Sirius Haha laughed and said, “You have helped me a lot. Originally, my plan was 20 million, and you asked me for a whole 5 million more.”

Qing Qian Zimeng’s eyes brightened and said, “But that person has helped you a lot.”

“Of course,” said Sirius.

At this time, Lu Yang said to Sirius: “Do as I say, give Qing Qianmeng 500,000.”

Shooting Sirius was startled, sending a message saying, “Boss, should this be done?”

Xia Yuwei and others, such as White Lion, said, “Yes.”

Lu Yang said, “Well, let’s talk about it without him, 5 million yuan. Anyway, this money was sent by the prison heaven. My boss is the master. You take out 500,000 yuan to please your goddess, invite him to the East China Sea, and hurry up in your hands . “

“Yes, thank you, brother, thank you brothers.” Send Sirius a message of gratitude, and then draw 500,000 from the card to Qing Qian Zimeng’s account.

“Ding”

Qing Qian Zimeng received the remittance prompt and saw that Sirius remitted her 500,000 yuan, and said in surprise: “What are you doing?”

Shooting Sirius said: “Thank you, just now without you, I will be softened. Thanks to you, I earned 5 million, and this 500,000 is a thank you.”

Qing Qian Zimeng only changed a word to 500,000. Where is there such a cheap thing in the world, she quickly shook her head and said, “I can’t ask, it’s too much money.”

Shooting Sirius straight man, see Qing Qian Zi Meng do not know, I do not know what to do, a message asked Lu Yang said: “Boss, what should I do.”

Lu Yang was speechless and said, “I teach you one sentence and one sentence.”

Shooting Sirius heard Lu Yang's words, with a confident expression, and said, "I know that the money you used to open this hotel was raised by your loan. Pay back the loan first, and I will lend it to you, female. It's too hard for a child to start a business. "

Qing Qian Zimeng's heart was hit instantly and said, "How do you know that my money came from a loan."

Where to shoot Sirius knows all of Lu Yang said, he continued to say what Lu Yang taught him: "I listen to what others say."

Qing Qian Zimeng looked at shooting Sirius. She was still in a loss state until the start of her business. The hotel store was rented. The monthly rent was very expensive. The money that she had earned live broadcast was invested in the hotel. Now, I have n't made any money yet. It 's time to run out of money.

For the first time, Qing Qian Zimeng showed the expression of pity that I saw, and put down all the precautions, and said to Sirius seriously, "Thank you, I will pay you back when I have money."

Shooting Sirius said: "Let's talk about it later, I'm gone, today there are more things, 300,000 brothers are waiting for me."

Qing Qian Zimeng eyes brightened and said, "Come on, great hero."

Shooting Sirius was so sweet inside that he crushed the fortress back to the city roll, and reluctantly watched Qing Qian Zimeng fly back to Sirius fortress.

Just after landing, shooting Sirius saw Lu Yang, he jumped in excitement, hugged Lu Yang and said, "Boss, I succeeded, I succeeded."

People like Lu Yang and Zhuo Jiu wanted to make fun of shooting Sirius, and when they saw him, everyone shook their heads helplessly.

Lu Yang patted his shoulder and said, "Okay, okay, what a big deal, this is the first step. I have asked Tu Feng to find a writer, and he asked Qing Tianmeng to ask you to ask for peace. The events have been publicized online, and Qing Qian Zimeng's business will become more and more prosperous in the future. "

Soon, players in the full service will know that Lu Yang has led a 210,000 player to attack the wolf family under the guidance of shooting Sirius. Two battles and two defeats of Prison Sky Dome captured the Blood Wolf Fortress. Pristine Sky Dome was forced to find the light purple dream. Shoot Sirius to sum up.

The first message this message passed to everyone was that Lu Yang had a way to enter the orcs from the human race, and the second message was that the relationship between shooting Sirius and Lu Yang was at least an ally.

In the future, if someone wants to attack Sirius, they will first think of whether they can fight Luyang. Then, if they want to ask Lu Yang to help attack the fortress, they will first find Sirius, but they do not know how to shoot Sirius. First go to the hotel of Qing Qian Zimeng to discuss business.

The so-called hotel of Qing Qian Zimeng is actually an online celebrity shop. There are a lot of online celebrity beauties dancing and singing in it. As long as the beauties she recruits have real talents to learn, his hotel business will win Sirius City.

Shooting Sirius heard Lu Yang's analysis, and blinked, and said, "Boss, you are amazing."

Lu Yang said with a smile: "You just wait for Qing Qian Zimeng to take the initiative to meet you offline. Recently, look at literary works. Literary girls like her must like this kind of things, don't be ashamed after meeting."

"Yes." Shoot Sirius excitedly.

"Hey, shoot Sirius to read Wenqing books, does this kid understand?" Mao Qiu said.

"Haha." Everyone laughed.

Shooting the wolf was embarrassed and scratched his head ~ www.mtlnovel.com ~ As they laughed and chatted, Tu Feng received a message and looked at Lu Yang and said, "Something happened."

Lu Yang asked, "What's wrong?"

Tu Feng said: "Just received the news, Li Xiuyu defeated a coalition consisting of Yao Zhi and Lu Jie in the Green Pine Plains, and beat down Echo Fortress and Hessen Fortress in one fell swoop."

"What." Lu Yang's brows frowned tightly and asked, "How did I do that."

This is totally counterintuitive. Even if Li Xiuyu sent 10,000 druids, he reminded the slang, and one more thing, they lost on the green pine plain, and they just returned to the fortress and defended it. It is impossible for 600,000 people to fail in such a short time.

Tu Feng sighed and said, "You can't imagine it. The rebels rebelled in the decisive battle."

Lu Yang's eyes widened in surprise, and said, "Slang rebellion?"

Tu Feng said: "It can't be said to be a rebellion. The silk language was originally a **** inserted by Li Xiuyu'an in Hannibal City."

Chapter 524 - The true face of the silk

When Lu Yang attacked Sirius City, 600,000 players led by Li Xiuyu and Wang Teng launched a total attack on 7 guilds in Hannibal City in the Green Pine Plain.

Of the 400,000 people Li Xiuyu brought before, 300,000 were the new recruits he temporarily recruited in Benliu City. These were the newcomers who died 5 days. Today, he arrived in the decisive battle. He took 5 days of rest, with high morale and energy. 300,000 main troops were sent to the front.

Adding 10,000 druids, on the Green Pine Plain, defeated the coalition formed by Yao Zhi, Lu Jie, Leng Weixin and others, and knocked them into the echo fortress. During the defense, the **** took 200,000. The main force rebelled, opened the South City Gate, and put 600,000 troops from Li Xiuyu and Wang Teng into the city.

Lian Weixin, Mu Ruhanjiang, Yao Zhi, Lu Jie, Qixing Chengying, etc., the entire army of 600,000 players killed, was wiped out, and Li Xiuyu easily gained control of the Echo Fortress.

Immediately afterwards, the three leaders, Sisiyu, Li Xiuyu, and Wang Teng, attacked the Hessian fortress with 800,000 soldiers. Because of the rebellion of the Sisiyu, the leaders of the guilds such as Leng Weixin and Qixing Chengying were frustrated and no one came to help. The garrison was annihilated for only 10 minutes, and the fort was beaten down.

Lu Yang said: "No, Yao Zhi and Lu Jie have 80,000 elites wearing 40-level gold equipment. It is impossible for Hessen to be beaten down so easily."

Tu Feng said: "Their troops appeared only once on the Green Pine Plain, and never appeared again. No one knows where they went."

Lu Yang thought for a while and said, "I spoke to the Silk language before, and told him to tell Lu Jie and Yao Zhi, I will not go to the sneak attack tonight, the Silk language rebellion, so in other words, the Silk The language didn't tell them that I didn't go, they should be lying on the road that I must take along with the main force. "

Everyone was a little speechless, and it was unexpected that such a thing would happen.

"Dididi"

Lu Yang's interphone rang, picked it up and read it from Yao Zhi, and said, "Don't talk first, Yao Zhi called me, I'll listen to what he wants to say."

Pressing the release button, Lu Yanggang was about to speak, and Yao Zhi said in a sad voice: "Chairman Lu Yang, you are terrible for us."

Lu Yang said, "Why did I hurt you, and what's the relationship between the rebellion and the rebellion?"

“Don’t you say that you want to take 5,000 people to attack the scorching sun fortress, are you?” Yao Zhi and Lu Jie shouted together.

Zhuo Jiu, Xia Yuwei and others showed speechless expressions.

Lu Yang looked cold, and said, “So, you two are really preparing for a sneak attack on me, right?”

Yao Zhi and Lu Jie were dumb asked by Lu Yang. The two did have this intention. On the battlefield of the Green Pine Plains, the two as the first offensive team, each with 40,000 troops, rushed into Li Xiuyu. Killed in the array.

Immediately after death, he led the team to ambush in the mountains between the Rain Fortress and the Flower Language Fortress.

As a result, they waited for Luyang, but did not wait for Luyang, but waited for the news that the Echo Fortress had been breached and the Sisi rebellion.

When he learned that the silk language took Li Xiuyu and Wang Teng’s 800,000 troops to attack the Hessen fortress, Yao Zhi knew that the situation had gone. He did not return with the elite troops, but ran to the falling rain fortress. Arrive at Lu Jie.

As soon as the two met in the mountains, they knew what the other party was doing. They were both frustrated and attacked the rain fortress, but they were broken up by the alliance of Lisi and Li Xiuyu. Lu Yang, as a result, had nothing to say by Lu Yang.

“We didn’t want to attack you, we just came to escort.” Yao Zhi argued.

Lujie said, “Yes, it’s an escort.”

Lu Yang said: “If the two of you are men, you will admit it generously, and I will not blame you either. It is normal for the guild to use each other’s schemes, and it is not a big deal.”

“Speaking less of these is useless, why don’t you come, did you discuss it with the slang, you are all in a hurry, I want to expose you on the forum.” Lu Jie said angrily.

Lu Yang sighed. He felt that Lu Jie and Yao Zhi were too pitiful, and said, “Before the war, I told the slang that I would not take part in the battle, and there was voice and audio as evidence. It would not help if you both wanted to smear me. After all, I do n’t know that Lisi is Li Xiuyu ’s person. ”

“One more thing, you two should thank me. If it wasn’t for the two of you attacking me, could you both keep the 40,000 main forces in your hands?”

Yao Zhi and Lu Jie became speechless again.

“We all let the woman lie.” Lu Jie said indignantly.

Lu Yang said: “She hides too deeply. I also specifically told him that Li Xiuyu had a 10,000-strong Druid army to come and support me, and I was deceived by him.”

“Then what do we do now?” Yao Zhi asked.

Lu Yang said: “I don’t have any good ideas either. The only thing I can give you is to rush the troops quickly. I have acted in a low-key manner recently and look for opportunities to get revenge on slang.”

“I had to do it this way.” Yao Zhi said helplessly.

Lu Jie said, “Well, I won’t let you go in my life, you wait for me.”

Unlike other people, Lu Jie has a love for the slang in his heart. After many contacts, he always tentatively confesses the slang, and these few times, the slang has tempted him. He never refused, and even had some initiative. Lu Jie thought he could catch up with the silk language, but he didn’t expect that all of them were using the silk language.

Lu Jie hated the ruthlessness of the siblings deep inside!

Falling rain fortress.

Wang Teng watched snuggle in Li Xiuyu's arms like a good cat, and said to Li Xiuyu in amazement: "Brother, I've convinced you, bright, even in the beginning of the game, ambush the silk language in Hannibal, you have a plan. "

Li Xiuyu said proudly: "It was natural ~ www.mtlnovel.com ~ I first made my debut in Hannibal City. The association of Siyu has always been behind me. Moreover, Siyu is not an outsider. I proposed in Belgian Plaza. It's silk rain. "

Wang Teng couldn't help scalp numbness. It turned out that he didn't look down on Li Xiuyu at all. After this incident, he learned that none of the children of the consortium were simple.

The silk language said: "Unfortunately, we had done the show for five days for Lu Yang, but Lu Jie and Yao Zhi's two stupid intentions to kill Lu Yang were too obvious. Lu Yang never Not fooled. "

Wang Teng admired, "Yes, it's okay. It only took us 6 days to lay down Hannibal. This is already a miracle."

How difficult it is to lay down any fortress in a main city. Everyone who has played the fortress knows that it is equivalent to pulling nails by hand, and every time you pull one, you have to peel off the skin.

This time, all the nails were pulled out in one breath. They did not have any damage themselves. It can be said that it was Li Xiuyu's success in planning.

"Brother, you are going to be famous this time, I bet your reputation is even higher than Lu Yang." Wang Teng said holding up his glass.

Chapter 525 - Server mess

Lu Yang is a grass root, and Li Xiuyu is an elegant consortium son. This time, he took down a main city in 6 days, which shows both Li Xiuyu's strength and Li Xiuyu's ingenuity. In addition, Li Xiuyu himself is a handsome boy, graduated from a famous university in the United States. He will soon be the star of Second World.

Li Xiuyu raised his glass and said elegantly: "Tomorrow I will sleep 400,000 soldiers at the fortress in the rain, and personally see the strength of President Lu Yang."

Thinking back to the kick at Lan Yu's birthday banquet, Li Xiuyu is still in a state of sorrow.

"I accompany you, he dares to hit you, I can't spare him."

Wang Tengha said with a smile: "Okay, tomorrow we will attack Lu Yang's Huayu Fortress together and completely destroy him."

The three toasted together.

According to the information gathered by the three, few players in Lu Yang's hands have 40 level gold equipment, and they have 120,000.

Li Xiuyu drank a full glass of wine and said, "Wait a minute, I'll arrange now and make preparations in advance."

Swords proudly said, "I don't know what Lu Yang's expression will look like when we see our soldiers under pressure tomorrow morning, guess what he is doing now."

Wang Teng and Li Xiuyu looked at each other.

"Presumably thinking about how to block us." Wang Teng said sarcastically.

The three laughed.

Suddenly.

Qu Han came in and said, "Boss, something went wrong."

Wang Teng frowned and asked, "What's wrong."

Qu Han said: "Look at the forum. When we were playing Hannibal City, Lu Yang took 210,000 people into the wolf tribe. He defeated the Blood Wolf Fortress in two battles and two defeats. The prison cost 25 million. Credit points redeemed the fortress. "

At the same time, Wang Teng, Qu Han and Li Siyu widened their eyes in astonishment. Wang Teng even showed horrified eyes. The thing that he and Liu Jie were most afraid of finally happened.

He quickly opened a wolf tribe forum. Some people described the story in detail, and included a video of Lu Yang flying into the Blood Wolf Fortress City, three meteorite impacts, killing 380 defenders, and a secondary ban on Lu Yang. The curse meteor fell seconds to the video of 5000 defenders in the city.

"There was an accident, something serious." Wang Teng said fluently, "I have something, I'll go out and make a call."

Wang Teng quit the game to find Liu Jie.

Li Xiuyu and Li Siyu were also stunned. They also knew about the military equipment exchange for gold equipment. Li Siyu said: "I don't know how many people Lu Lu killed. If the number of kills is enough, we are afraid it will be dangerous. . "

Li Xiuyu didn't speak, sitting quietly in a chair and thinking.

On the other side.

News from the Wolf Forums triggered the tsunami-like effect.

“Lu Yang led the army with 210,000 battles and two defeats. The sky wolf fortress, how he did it.”

“Oh my god, the human race and the orc have a connection channel. Wherever I go, I will go to the orc.”

“Lu Yang mighty, a human war god.”

“Good job.”

“Human races are too bullying. We want to organize players to revenge on human races.”

“Slayed the main city of the human race.”

...

Players of both races got into an N-th quarrel.

In the official broadcast room.

Dubin and Hitomi are sorting out the materials. According to the above requirements, the two will praise Li Xiuyu and Li Siyu.

Tong Tong poked his lips and said, “What do you think of the head? Let us praise the Li Xiuyu and the slang, these two people used such a mean method to lay down the fortress and praise what they did.”

First of all, the silk language used friends to win Yao Zhi, Lu Jie, Qixing Chengying and others, and used them to bring together the majority of Hannibal City’s most powerful players.

Then he rebelled and helped Li Xiuyu defeat everyone, but his tricks were stigmatizing. Especially this act of betrayal of a friend would be shameless for anyone.

Du Bin sighed and said, "No way, who made them win beautifully. Recently, there are no other wars and materials. I can only report on them. Seriously, Li Xiuyu this way of using women to achieve their goals, I also can't get used to it."

Hitomi said: "Look at it, it won't be long before the slang words will be scolded by tens of thousands of people, and the bosses of the 6 guilds will not blame the dog's blood on him."

Du Bin shrugged his shoulders and said, "Qing Qingsheerkou, Wasp tail pin, both are not poisonous, only the woman's heart."

"I prepared all the lines for him. When Li Xiuyu and Lu Yang fight, the six presidents will be together to make trouble for them."

Tongtong's face looked worried and said, "Lu Yang is in trouble this time. Wang Teng and Li Xiuyu are too powerful together. I feel that Lu Yang can't stand it."

The voice just fell.

A director ran up and said excitedly: "Look at the Wolf Tribe Forum, Lu Yang has just entered 210,000 people into the Wolf Tribe, and has captured the Blood Wolf Fortress in Prison Sky."

"What?" Dubin and Tongtong said in surprise.

"The head said, the manuscript about Li Xiuyu and the silk language is not necessary, and immediately collect the detailed information of Lu Yang's Blood Wolf Fortress."

"I'll go to Tu Feng." Dubin picked up the phone and called Tu Feng.

Tu Feng was resting in Sirius Fortress. He received a phone call from Du Bin and said to Lu Yang with a smile: "Du Bin is calling, it is estimated to interview you."

Lu Yang said: "Leave it to you, you can tell him the whole situation of the war, by the way, a light purple dream."

Given Lu Yang's current status in the game, the appearance of a stranger in an interview about him will be immediately remembered by players.

Shooting Sirius gratefully looks at Lu Yang.

Tu Feng nodded and found a place where no one was connected to Dubin's phone.

"Boss, thank you very much." Shoot Sirius again.

Lu Yang patted him on the shoulder and said, "Thank you so much for not taking me as a brother. Don't be so kind with your family."

Shooting Sirius nodded his head heavily, and suddenly, his interphone rang, picked it up, and was called by Huo Tianhua, the boss of Yaotian Guild.

"Brother, what's the matter," asked Sirius after the shot was connected.

Huo Tianhua said excitedly: "Brother ~ www.mtlnovel.com ~ Do you really reach an alliance with Lu Yang?"

Shooting Sirius hesitated a little and said, "I am not in an alliance with Lu Yang, but I was acquired by Lu Yang a month ago. I am now his subordinate guild."

Huo Tianhua said in amazement: "No wonder you could send a mage who banned spells for more than 140 times last time. It turned out to be Lu Yang."

Shooting Sirius said: "At that time, the boss needed honor value, and asked me where to fight, and you happened to be fighting, so I asked the boss to help you."

Huo Tianhua nodded and said, "That's the case. Can you introduce me to Lu Yang, I want to talk to him about business."

"I asked him." Shooting Sirius looked at Lu Yang and said, "Boss, Huo Tianhua wants to talk to you about business."

Lu Yang said, "Yes."

Shooting Sirius conveyed Lu Yang's answer to Huo Tianhua.

Huo Tianhua said: "I'll go to your Sirius Fortress, we will meet in person."

Chapter 526 - Huo Tianhua

A large fireball landed beside Huo Tianhua, killed one of his men, and looked at the secondary forbidden spell above his head. Huo Tianhua returned to the fortress hall, crushed the city roll and returned to Sirius, then rode the black giant wolf Run to Sirius Fortress.

After 30 minutes.

Huo Tianhua came to the Beicheng Gate, and Sirius was waiting at the door. After the two met, Sirius was surprised and said, "Brother, why are you bleeding? Is there anyone lying on the road ambushing you?"

Huo Tianhua said: "Don't mention it, take me to see Lu Yang and talk to him when I see him."

Shooting Sirius nodded and took Huo Tianhua into the fortress hall.

Huo Tianhua saw Lu Yang standing in front of the conference table and recognized it at a glance. "President Lu Yang, thank you for your help last time."

Lu Yang said, "I heard that Sirius said that you are his elder brother. It is your help, and you also gave money."

Huo Tianhua saw that Lu Yang's attitude was very approachable and relieved, and said, "I'm afraid I will bother you again this time, President Lu Yang, I want to make a deal with you."

"What deal?" Lu Yang asked.

Huo Tianhua said: "I hope you can help me keep the fortress. If it is kept, I will give you 5 million credits."

Lu Yang said, "Who is the enemy?"

Huo Tianhua's face was a little embarrassed and he said, "It's a shame to say that the enemy is my two cousins."

"What?" Shooting Sirius and Xia Yuwei and others looked at Huo Tianhua in surprise.

Huo Tianhua said: "Hey, I don't hide it, this thing has spread in the circle. To be frank, my third grandfather is going to retire. I want to find an heir from the family business. A cousin is the best. His old man said that within three years, whoever does the best business is the owner of the family business. "

"I didn't want to inherit the family business. I didn't have much interest in that thing, so I wanted to play games in" Second World ". My two cousins worked very hard and started a business, but who wants to

spread the virus across the world. "Second World" once again made the real world out of business. My two brothers lost their money. Instead, I made tens of millions of dollars from playing games. "

"The two people were afraid that I would steal their family business, and they also entered the game. They bought five or six large guilds. After the integration of these days, they came together to fight my fortress and had to knock me out. The game is impossible. You say who I provoke. "

"Well." Xia Yuwei, Lan Yu, and Han Liu three women laughed out of Huo Tianhua's expression.

Lu Yang said: "A man is guilty and guilty."

Huo Tianhua said: "Now these two men hit my fortress with 600,000 people for two days. I can't hold it anymore, so I come to you for help. The price is 5 million. How about it?"

Shooting Sirius looked at Lu Yang and said, "Boss, Brother Huo has helped me a lot before, let's help him this time."

Lu Yang's eyes sharply shot at Sirius, and he shut up quickly.

Lu Yang shook his head and said, "I can't help with this busy work."

Huo Tianhua was about to speak, and Lu Yang signaled him to wait, saying, "It's not a matter of little money, but I can't take this risk. In the final analysis, you Huo Tianhua and I will one day become enemies. Don't admit it, I am Human race, you are a wolf race, we will fight sooner or later, and now I help you, it is equivalent to completely expose my troops under your hands, if you attack me from behind, I have no ability to resist. "

Huo Tianhua reacted, and he made a mistake this time. He thought that 5 million could buy Luyang, but he didn't think about other issues. If Lu Yang really went to help him fight with the enemy to a certain degree, even if he could not afford it. Worry, his men rebelled for the high rewards of the Devil's Heart and rebelled, and Lu Yang's loss was great.

Huo Tianhua thought for a while and said, "President Lu Yang, I came here for help sincerely. In this way, you think of the best of both worlds."

Lu Yang looked at Huo Tianhua. There were many solutions to this problem in the previous life, saying: "If you want, I will buy 30% of your guild at the market price, and you and I will form a true alliance."

Huo Tianhua's guild is only worth tens of millions in a stormy state, but once he keeps the fortress and continues to expand, the value of the guild will soon exceed 1 billion.

Huo Tianhua did not hesitate and said, "The deal."

He played a game to be happy, and it has nothing to do with money. Does he lack money? There is no shortage of money at all. He just paid 30% of the guild's shares and did not take away his control. One more thing. Covered by trees, he can rest assured.

Lu Yang is also very satisfied. With the addition of an ally like Huo Tianhua, the pressure to shoot Sirius against the Sirius Fortress will be greatly reduced.

Lu Yang found the template in the official contract. After discussing the details with Huo Tianhua, the two signed the contract. In the end, Lu Yang bought 30% of the Huo Tianhua Association for 10 million credit points.

"Hey, I'll announce it now." Huo Tianhua said.

Lu Yang quickly grabbed Huo Tianhua and said, "Brother, don't, I still want to sneak attack."

Huo Tianhua patted his head and said, "I was confused by the two cousins. When are we going?"

Lu Yang said, "Let's go. You tell me the details of the two guilds along the way."

Huo Tianhua nodded. He likes to get in touch with people who are refreshing. Lu Yang's first impression is very good.

210,000 players in the Brotherhood of Iron and Blood are resting inside the fortress. The honor value obtained in this war is far from meeting their requirements.

The 3,640 Jagged Brothers players who had participated in the war before have now become the focus of others. Everyone is surrounded by hundreds of people. Listen to them tell them how they killed the enemy and slaughtered the city last time.

In the past, Lu Yang listed these things as absolute secrets, and now they can tell them. They can't hold back any longer. After this time, they also told the number of honors required for a military uniform. When they learned that they needed 800,000 At the right and left, everyone's thought of fighting was stronger.

After walking for more than 6 hours, only one battle was fought, and no one wanted to.

Seeing Lu Yang and Xia Yuwei they came out, and the players looked at Lu Yang eagerly.

Lu Yang said: "The entire army gathers ~ www.mtlnovel.com ~ to prepare for battle."

Xia Yuwei, Zhuo Jiu, and other army commanders immediately teamed up, and the 210,000 people instantly finished the team, and Huo Tianhua watched.

"Brother, how did your team train with such high quality?" Huo Tianhua asked.

Lu Yang said as he walked along with the team, "If you, like me, have a team of more than 20,000 people from a team of only 3,000 people, your players can have this strength."

"I trust, the legends are true." Huo Tianhua asked.

"What legend?" Lu Yang asked curiously.

“You and the bloodthirsty tyrants are fighting them, I always thought that your people were playing it blindly.” Huo Tianhua asked.

Lu Yang said: “Brother, it’s really not blown. I can develop to this day, all of my brothers desperately exchanged it, especially the 3,000 brothers who first told me, I let the bloodthirsty 100,000 force There are 13,000 guilds left, of which 10,000 are novice players. “

Chapter 527 - Rescue Silver Wolf Fortress

After 2 hours.

Lu Yang took the team to the top of Tianquan Mountain outside the Silver Wolf Fortress, and looked down. The densely packed players surrounded the Silver Wolf Fortress on both sides, and violently attacked.

Huo Tianhua stood beside Lu Yang, pointing at the enemy on both sides of the fortress, saying: “East is Huo Tianqi, and west is Huo Tianyi. They each carry 300,000 people.”

Lu Yang frowned. He couldn’t understand the battle below. He asked, “Why don’t they encircle you? What does it mean to keep both sides?”

Huo Tianhua said: “The two do not trust each other. This cooperation is only for me. Once the fortress is defeated, it is difficult for anyone to occupy the fortress to accept the fortress.”

“Since this is the case, the battle will be much easier.” Lu Yang said.

In the following battle, players on both sides of the east and west have opened their formations, attacking the fortress with all their strength, and it seems to have been playing for a long time. There are

less than 200,000 players on the east battlefield and about 20 players on the west battlefield People look like.

Players ran to the fortress to join the teams on both sides along the Tianquan Mountain. At this time, the tails of the teams on both sides had no formation at all and were at the end of the battle.

Generally speaking, when this state is reached, if the last batch of troops can't win the fort, the team will need to rest and reorganize the attack.

Although the player will not feel tired after running in the game for two hours, but the number of such boring runs will be a great blow to the morale of the player.

Lu Yang fought many times and knew this very well. He pointed at the flanks of Huo Tianqi's army and said, "The whole army attacked and killed Huo Tianqi."

"Yes." Zhuojia and Xia Yuwei and others responded at the same time.

Ten minutes later, the leaders of the 7 regiments led their troops out of Tianquan Mountain, looking at Huo Tianqi's chaotic flanks and staring at each other.

Zhuoju poured out his two-handed sword and shouted, "Iron brothers, kill ~!"

"Kill ~!" 210,000 players were enthusiastically excited by this slogan, and rushed into Huo Tianqi's flanks like a steel torrent.

Huo Tianhua stood on the top of the mountain and said in amazement, "Brother, what's the matter, how can your members hear the six words that the Brotherhood of Iron and Blood Brothers killed? It's like crazy. My scalp is numb."

Lu Yang lamented, "These six words are no longer a slogan, but a belief. The Brotherhood of Iron Blood was typed by these brothers following me. Every time they are strong, they are in this slogan. I desperately bought it, don't say you, I want to rush to fight when I hear these six words. "

“I admire it, I think it is. I guess the whole game, and your guild will have such fighting power.” Huo Tianhua said with admiration in admiration.

Lu Yang is also proud of his brothers. Although these six words are simple, they contain the strong affection of each player to the Iron Brotherhood, and all the past wars when he shouted this slogan. Experience.

Each time the **** battle, each time forward, let these players cooperate more and more tacitly, so that when fighting, a soldier rushes into the battlefield, without him shouting, someone will automatically follow him into the battlefield, responsible for adding Blood players will follow closely, they will not care whether there is danger around them, because they know that other people will come up to make up their position to protect their safety.

On the battlefield.

The Flame Knife jumped into the enemy line, all enemies were within 30 yards. When the surrounding players wanted to attack the Flame Knife, a green meteorite fell from the sky, and the black note released the Hellfire Lord to stun the surrounding enemies.

“Blade Storm”

The Flame Knife spun madly in the place. The enemies’ treatment for the back wanted to add blood. Red leaves flying and dozens of mage mountains flashed into the Blade Storm of the Flame Knife. At the same time, the enemy’s nearest healing team was silenced by the group.

After 3 seconds.

The flame knife is like a meat grinder, killing all the enemies around it, and the skills are over. The flame knife makes a happy gesture for black notes and red leaves flying, and the two also return a gesture.

“Huo Tianqi people, who saw it.” The White Lion rushed to the three with the main force. The 500 guards who were with him were the 500 people who came to the Wolf family last time, and everyone was wearing a level 40 uniform. There are gems and enchantments all over the body, which is an extremely scary steel torrent.

The Flame Knife pointed to the middle and said, "That kid just ran away, and it's probably over there."

"Come with me and kill Huo Tianqi." Shouted the White Lion.

500 people, like a paper cutter, easily cut Huo Tianqi's troops and headed for the Chinese army.

Huo Tianqi's troops were not so vulnerable. They had nearly 60,000 sets of level 40 gold equipment in their hands. However, these 60,000 people were siege, and the rest of the troops were scattered. In addition, they were suddenly attacked. The strength of the White Lion and others was too strong, and Huo Tianqi was unable to organize an attack, which was defeated.

Fortress city head.

Huo Tianhua just used the fort to return to the city to roll into the city to command the battle. When he saw Huo Tianqi hiding in the middle of his guard, he was running in the direction of Tianquan Mountain. Offense, we played for nothing in the whole team. "

"Relax, he is dead." Lu Yang said.

Mu Yi stood next to Lu Yang, bending his bow and arrow at Huo Tianqi, 2,000 meters away.

"崩"

The bowstring sounded, and Huo Tianhua saw that Huo Tianqi was suddenly shot in the neck, and his arrow fell to the ground.

"Good job," Huo Tianhua shouted.

The four vice-chairmen came to Huo Tianhua together and asked in surprise: "Boss, is the army that fights for us outsider Lu Yang?"

Huo Tianhua said: "Yes, it is Lu Yang."

"Why would he come to help us," a vice chairman asked.

Huo Tianhua said: "It's not to help, but he bought 30% of the shares in my hands. From now on, we are one with the Jagged Brothers."

Everyone came to understand, looking at the Huo Tianqi troops with less than 30,000 people left outside the city, they knew that the guild would never have to worry about being attacked again.

"Boss, Huo Tianyi stopped attacking, he seems to be retreating." A chief of the army reported.

"Hey, now I want to run, can I let you run?" Huo Tianhua gritted his teeth and said, "Order the troops, chase me, stick to them, entangle them, and give the Iron Brotherhood time to complete the army. I will completely wipe out. Huo Tianyi, the king and the eight lambs. "

A group of vice presidents was amused by what Huo Tianhua said. One vice president said, "Boss, are you really a family member?"

"Why, is there a problem?" Huo Tianhua asked puzzledly.

"Of course there are. You look at Li Xiuyu, the handsome boy, the best university graduate in the United States, a gentle and elegant look, and then look at you, the gap is a little big." A vice president said with a smile.

"I rub, who tells you that the children of the family are the same as the two fools of Li Xiuyu. My grandfather gave me money that I can't eat for three lifetimes. What am I still trying to do? Leisurely, you play as everyone else Fate to fight for property." Huo Tianhua hummed.

Everyone was right.

“Hey, you guys dare to abandon the boss. Instead, hurry up and chase Huo Tianyi, and wait for the battle to see how I can clean up you.” Huo Tianhua pointed at a group of angrily and said.

A group of people coaxed and scattered, but everyone was happy. Compared to Li Xiuyu, they were still willing to follow a boss like Huo Tianhua. There was no shelf, they could be with them, and there were not so many bad minds. It is their role model to make use of women to make their way and be bright.

“Brothers, we can’t just let the Jagged Brothers League help us, we have to make a face and don’t embarrass the boss, right?” Said a vice chairman.

“It makes sense to make this group of grandsons around for a few days. Lao Tzu’s whole body is uncomfortable. Brothers, rushed out and destroyed them. No one can fight when the entire team of Iron Brothers comes.”

“Yes, rush out together and kill Huo Tianyi.”

...

Huo Tianhua has more than 400,000 players who can participate in the battle, defending on all sides, and 180,000 defenders on the west side. Several vice presidents immediately prepared the team to counterattack.

Huo Tianyi had a spy arranged next to Huo Tianqi, and when he learned that Lu Yang’s troops were storming Huo Tianqi, he wanted to retreat. However, it was his 60,000 main force that attacked the city. Unwilling to bury the 60,000 people like this, they have been ordered to retreat.

“Withdraw quickly, withdraw quickly, don’t fight, why don’t you obey the command.” Huo Tianyi cursed.

Where does he know that once the battle starts, the blood in the player’s body will boil, allowing them to attack forward and making it very difficult for them to retreat.

“Booming”

The west gate of the defensive city rose slowly, and the three vice-chairmen rushed out of the fort to the squadron of Huo Tianyi with 50,000 people.

“Retreat, the whole army retreats.” Huo Tianyi knew that it would be too late if he could not withdraw again. He would no longer care about the 60,000 people, and turned and ran with the troops toward the northwest.

Tianquan Mountain was blocked by Lu Yang ~ www.mtlnovel.com ~ Huo Tianyi’s only place to escape was the Golden Wolf Fortress, and returned to the city of Sirius from the Golden Light Valley in the Golden Wolf Fortress.

“Can’t let him run away, chase me.” Huo Tianhua’s vice chairman saw that he could not catch up with the opponent, took out the acceleration scroll, and led the army to accelerate.

When Huo Tianyi turned back to see that the enemy was getting closer and closer, and the scroll was to be used, the vice chairman around him said quickly: “We can’t use it, the team is too loose. If we use it, only us can run. Go out, the big troops behind can’t run without scrolls.”

“What to do then?” Huo Tianyi asked.

“There are not many troops chased by the enemy. I think it will take some time for Lu Yang to eliminate Huo Tianqi. We will destroy this enemy first,” said the vice chairman.

“Make sense, fight him.” Huo Tianyi was forced to scream, “The whole army listened to the order and followed me to attack.”

Huo Tianyi raised his two-handed sword, and personally led the troops to Huo Tianhua’s 50,000 troops. The boss took the lead, and the morale of the escaping team instantly picked up.

The two sides fought together in an instant.

Chapter 528 - Target Hannibal City

The Huo Tianhua's troops that chased him did not expect Huo Tianyi to dare to turn around and was caught by surprise. As a result, the siege forces gradually withdrew. Huo Tianhua's troops were caught by Huo Tianyi before and after, trapped in the middle.

"No, we are surrounded," said a chief of the army.

"How to do?"

"This is a bad move. Lu Yang didn't come over so quickly. We must hold on. We must not be beaten by them."

...

Huo Tianhua's troops immediately changed their strategy and stayed in place. Huo Tianyi saw that his counterattack was successful, showing a proud expression on his face, and riding on the night blade, sneered at the 50,000 people in the encirclement.

"The whole army attacked and destroyed them." Huo Tianyi shouted sharply.

200,000 people stormed around 50,000 people, and Huo Tianhua's troops died in a large amount. In less than 10 minutes, less than 30,000 people remained.

Huo Tianhua's four vice presidents looked at the scene and showed remorse. If they were not aggressive, they would not cause the situation in front of them.

Just right now.

The distant battle drum sounded.

“Boom”

“Boom”

“Boom”

...

The dull and powerful drum sound of the battle echoed on the battlefield. The troops on both sides looked at the drum sound at the same time, and others such as Zhuojiu and White Lion appeared neatly at the position of 800 yards north of the fortress with a lineup of 210,000 troops.

“So soon?” Huo Tianyi dumbfounded and shouted, “The whole army is ready for defense.”

He knew he couldn’t escape now, and once he ran away, the entire army was destroyed.

As soon as the voice fell, a huge black hole with a diameter of 100 meters appeared in the dark clouds in the sky. At the same time, countless black flames fell from the air.

Black Flame and Black Knight simultaneously release the forbidden spell.

“Black hole”

“Hei Yan prison”

In Huo Tianyi’s hand, there are also banned and sub-banned mage units, but they have been released in the previous offense and are in the cooldown time.

“Hold on, the healing group brushed up and added blood, and the priest dispelled him. He must not die.” Huo Tianyi shouted loudly.

However, they faced the simultaneous attack of the two forbidden spells. When Hei Yan released the forbidden spell, he was wearing the suit of Hertos on Lu Yang.

Each flame falling on the player can cause more than 6,000 damage. Most of the players under Huo Tianyi have less than 6,000 health. The first wave of flames fell and killed thousands of people.

Huo Tianyi's former army instantly became a residual army.

Seeing the opportunity, people such as Zhuoju Qingli and White Lion raised their swords and shouted, "Iron brothers, kill!"

"Kill ~!" 210,000 people went straight to Huo Tianyi's former army.

When Huo Tianyi was panic, he could only order the troops on both sides to strengthen the front. When 210,000 people rushed to a distance of 100 yards in front of them, suddenly, 210,000 people separated from the middle and went straight to Huo Tianyi's sides. .

Huo Tianyi's troops looked silly.

"Oh, 210,000 people, how can they do this? How did they do it?" Shouted a vice chairman of Huo Tianyi.

This is not an army, it's just a game, but Lu Yang can turn the player into an army as powerful. Not only did the vice chairman collapse, but even the four vice presidents Huo Tianhua from the encirclement, and Huo Tianhua who just arrived in Xicheng. collapsed.

"Brother, how did you do that." Huo Tianhua asked excitedly.

Lu Yang said, "It's not my credit, it's the credit of my seven legion chiefs, and they've cooperated so well."

In the previous life, these seven individuals were the top players and commanders, each occupying a War God-level master.

In this life, he has fought more than 20 battles in succession with Lu Yang, and he is as strong as the last one. In addition, these seven people have been working together to produce an excellent chemical reaction, which can train players to this level. Not surprising.

On the battlefield, 210,000 people rushed to the sides of Huo Tianyi's troops, smashing into the ribs of Huo Tianyi's troops like two sharp swords.

Huo Tianyi's weakest part of defense was on both sides. Just a moment, Huo Tianyi's troops were attacked by White Lion and others.

In less than 5 minutes, the troops on both sides formed a confrontation, and the siege of Huo Tianhua's troops was lifted. The four vice presidents looked confused and didn't know what to do.

Huo Tianhua quickly issued a command and said, "Defend in situ, you are not allowed to participate in the attack, and you will be disrupted as soon as you get on."

The four nodded and immediately ordered the troops to stay in place. That's why they had time to record a video and watch with their own eyes how the Brotherhood of Iron and Blood killed 200,000 people in Huo Tianyi.

"The two sides are not at the same level."

"I bet Huo Tianyi's troops will be able to last up to 5 minutes."

"Hey, it's broken."

On the battlefield, Huo Tianyi was desperately conducting, but did not know that the White Lion had rushed to his side with 500 people.

“Huo Tianyi, give me death.” The white wolf launched a jump and charge skills, and jumped in front of Huo Tianyi. His two-handed sword ignited the flame and thrust forward, right in the throat of Huo Tianyi.

“18686” (triple crit)

Huo Tianyi, die!

The white wolf landed and turned to launch a violent whirlwind chop. Huo Tianyi’s command players scattered around to avoid, the command system collapsed instantly.

“Finally grabbed a head.” White Wolf said.

After Mu Yi appeared, he found it increasingly difficult to kill the enemy boss on the battlefield. It was not that the enemy was very defensive, but that Mu Yi had shot too accurately.

The white lion and the white tiger beheaded and killed the other commanders. When looking at the battlefield, Zhuoju and others had almost killed the enemy.

After chasing and killing the last remaining defeated soldiers, they returned to the fortress. Lu Yang was waiting there with the Forbidden Mage.

“Boss, we’re back,” White Wolf said.

Lu Yang said: “Good job.”

“The enemy is too weak to resist for one round,” White Wolf said.

Lu Yang laughed and said, “Go back and have a tough fight for you to see how much the honor is worth.”

Zhuo Jiu said: “My honor is worth over 700,000 this time.”

“me too.”

“Some of us.”

...

Everyone’s honor value is around 700,000.

Lu Yang said with satisfaction: “Yes, go back to our uniform to exchange uniforms and fight with Wang Teng.”

Huo Tianhua walked to Lu Yang and asked, “Brother, are you going back?”

Lu Yang said: “After this battle, Huo Tianqi and Huo Tianyi did not dare to fight you within a short time, you have a lot of time to develop with peace of mind.”

Huo Tianhua nodded and said, “The purpose of the two people playing the game was not to play, but to destroy me. Now they cannot be destroyed. They should not understand.”

“You can try to buy them at a low price,” Lu Yang said with a smile.

“I bought them?” Huo Tianhua waited for the two to die.

Lu Yang said, “Well, put on a posture, why not do such a suitable thing, at least you have to get a 10-day buffer time.”

“What?” Huo Tianhua asked in surprise.

Lu Yang said, “Do you want to get as many honors as you like me?”

“Of course I think.” Huo Tianhua said.

Lu Yang said: “Ready for 200,000 people, choose the players who are loyal to you as much as possible, the best signing contract, tomorrow afternoon I will lead troops to attack the Lanshan Fortress and Wang Teng, Li Xiuyu decisive battle, you bring 200,000 Shooting Sirius with 100,000 people attacked both of them from the flanks. We wiped out these two **** in a war. “

“Good idea,” Huo Tianhua said.

Lu Yang said: “Brother, I have prepared a benefit for you. If the battle is won, I will take you to Hannibal City to slaughter the city. Just as I robbed the material merchants in the Wolves, Hannibal City has a bigger Raw material base. “

Huo Tianhua’s eyes were all green and he said, “Hey, the deal.”

What is the most profitable in the game, robbery is the most profitable, especially the robbery of merchants, the kind of huge profits are unimaginable.

One of Huo Tianhua’s dreams of playing the game is to take the players of his guild to the human race to slaughter the city. Now that he has a chance to realize it, his heart is very excited.

Lu Yang guessed that Huo Tianhua would have this expression, arched his hand, took out the city roll and took the player back to St. Gall.

Just after landing, Lu Yang said in the simulation group: “The heads of the regiments led their players to line up to the King’s Castle to exchange military uniforms. There were only a few people in charge of the exchange. Our 210,000 people were crowded and it was too chaotic. You maintain it. order.”

“Boss rest assured that his brother will not be in conflict because of this.” Said bitter love for a long time.

Many people are the most prone to troubles. Some people always want to exchange equipment first. Once contradictions occur and there is no resolution, there will be a big problem someday. This is a lesson summarized by the presidents of the major associations in the previous life.

Lu Yang said: "Every player who has exchanged equipment goes to the guild to find Tu Feng to report, uniformly enchant the equipment, do not inlay the gems first, I will issue them uniformly tomorrow morning, and then everyone will meet in my Red Fortress Hall."

Tu Feng asked: "There are not enough guild gems. May I buy some temporarily?"

Lu Yang said: "The stones I set for them are not for the output system, but for the absorption system."

"Absorption? What kind of gem can it do?" Tu Feng asked in surprise.

Lu Yang said, "Do you know what professions run in Benliu?"

Tu Feng shook his head.

Lu Yang said: "The most popular river city is the water system mage ~ www.mtlnovel.com ~ because of its special skills low damage, there are many water system mage with special skills giant waves in the city, the single wave damage is not high, but the range it is comparable to the secondary injunction. If many people release it collectively, the damage will be very high. Li Xiuyu's ability to kill hundreds of thousands of people in Hannibal City on the battlefield is not only a rebellion against the silk language, but also this skill has helped a lot. "

"You want to restrain him with water-absorbing gems?"

Lu Yang said, "Half a month ago, I asked the blacksmith to buy a large number of gems in the absorption system, in order to fight Li Xiuyu."

Tu Feng said, "How many levels do you need to play, the 10 jewellers here in the guild are all my high school classmates and can be trusted."

Lu Yang said: "You do n't have to increase it to level 5. You can inlay 17 water systems to absorb the gems, and you can't do any damage by how many giant waves are superimposed."

"I asked them to prepare."

Lu Yang said: "I send someone to send gems to the past and tell them that they must be all level 5 tonight."

"Relax," Tu Feng said.

Chapter 529 - Dangerous situation

Lu Yang sent a message to Hansha, asking them to send the water-absorbing gems to the guild. After this half-month acquisition, Lu Yang's hands have nearly one million stones, including more than 300,000 water-absorbing stones, with a rating from 1 Levels 3 to 3 are available.

This kind of acquisition is acquired in the 16 main cities of Terra. Simultaneously, players can go to the auction house and click on the acquisition option to see that someone is buying gems of the absorption system, and the number is unlimited.

Tu Feng said, "By the way, you can go to the forum when you have time. Now the forum is full of swear words, as if Lu Jie and Yao Zhi did it."

Lu Yang smiled, opened the forum, and sure enough, he saw a lot of swearing posts on it.

Lu Yang turned several pages in a row and found that he was still swearing, including Lu Jie and Yao Zhi who posted posts in person.

Lu Jie even exposed his chats with Sisi, and it was obvious that Lu Jie's admiration for Sisi was not only rejected, but also somewhat active.

In terms of comments below, Li Xiuyu is no longer praised in the same manner, and one side swears like a snake, and Li Xiuyu is a bastard.

"How could there be such a woman who, in order to help Li Xiuyu, betrayed someone who liked her."

"This woman is a scheming woman. She must be fancy with Li Xiuyu's family. She will also marry Li Xiuyu if she is desperate."

"Look at it, the silk language is also a **** of Li Xiuyu. Li Xiuyu will abandon him sooner or later. How could the wealthy family agree with him to marry such a woman."

"Li Xiuyu is also an asshole."

...

Lu Yang sighed. He couldn't understand the idea of Li Siyu and Li Xiuyu. In fact, with Li Xiuyu's strength, with the help of Lisi Yu, and Wang Teng's help, they could lead the army to attack Hannibal City.

The silk language merged the guild into Li Xiuyu's guild, and Li Xiuyu's troops could teleport to the Falling Rain Fortress and head straight for the Hessen Fortress.

With this kind of power, Lu Jie and Yao Zhi will not come to anyone to help, Hessen Fortress and Echo Fortress will last for up to 10 days.

However, Li Siyu and Li Xiuyu have to show IQ. Now it seems that they can lay the fortress of the two on the first day. The reason why they have delayed so many days is for his demon heart.

Unfortunately, he was not fooled, and he also maintained the main forces of Lu Jie and Yao Zhi. Although they defeated Hannibal City and hurt all the guilds in the city against them, they were too bad.

Ordinary people will look up to Li Xiuyu, but their guild bosses only think that Li Xiuyu is a mean villain, and the silk language is even a femme fatale. There is no credibility in what they say.

Falling Rain Fortress.

Li Xiuyu looked at the message on the forum with a complex face. He thought that using this strategy to win Hannibal City would make everyone praise him and give him more prestige than Lu Yang, but he did not expect to become like this.

What made him unexpected was that when he was proud of himself, Lu Yang broke into the wolf tribe and seized the blood wolf fortress.

The original manuscript for his interview was officially released tonight, but was temporarily replaced by Lu Yang's battle with the wolf tribe. Now the result is that Lu Yang's prestige is higher, but he was scolded by Hannibal players. Despicable man.

Seeing Li Xiuyu's unsatisfactory appearance, she stepped forward and said with her clear and pleasant voice: "Don't be upset about these things, as long as we defeat Lu Yang, these people will sing praises to you again."

Li Xiuyu said, "Where is Wang Teng, is he not online yet?"

"It is estimated that we are discussing the war with Liu Jie. This time, Lu Yang has lost so many honours in the wolf clan and two wars. He has received so many honors, and it is very likely that 100,000 people will change to 40-level gold uniforms. In this comparison, our strength is actually inferior to him." Lu Siyu said.

Li Xiuyu was irritable for a while. She thought that Lu Yang would definitely be defeated, but did not expect such a thing to happen.

"My family will not invest in me for the time being, it depends on the situation of Liu Jie."

Meeting room in Liu Jie's mansion.

Liu Jie, his cousins Luo Cheng, Wang Teng, and Mu Huali, the boss of the Red Army, are sitting together to discuss.

"I heard from my men over Sirius. Lu Yang not only defeated the prison sky, but also lifted Huo Tianhua's siege. The rumors on the outside were that Huo Tianhua spent 5 million credits to invite him." Luo Cheng said.

Wang Teng said, "Let's count this way, Lu Yang and his 210,000 players have received at least 700,000 honors, and each person can change a set of gold military uniforms of level 40."

Luo Cheng frowned and said, "Damn, we must have been deceived by Lu Yang. The last time I played Sirius Fortress, there must have been Lu Yang's people participating in the battle. I just watched the video and the number of meteors and fire and rain It's exactly the same as last time. "

Liu Jie looked calm and looked at Mu Huali and said, "How long will you be able to reach Beifeng City?"

Mu Huali said: "I will probably be here tonight. The boss is assured that his 40-level military uniform can't be as strong as my shaman army."

With a smile on his face, Liu Jie said, "I'm very relieved about you. Your 500 people have at least over 50,000 people."

Mu Huali looked glorious, and Wang Teng looked ashamed.

Liu Jie said to Wang Teng: "I don't blame you on this matter. Tonight I will let you allocate 150,000 sets of materials for making level 40 gold equipment."

"Boss, the value of these materials is too high, I ..." Wang Tenghuan counted, based on a set of 40 gold coins, 150,000 sets is equivalent to 6 million gold coins, 1.8 billion credit points.

“It’s okay. Keeping Beifeng City and Hannibal City is the first. Now that Lu Yang has found the way to the Orcs, the only thing we can do now is to seal Lu Yang on both sides. We must not let him fight. Go out.”
“Liu Jie said.

Wang Teng stood up and said excitedly: “Boss rest assured, I will definitely hold Lu Yang.”

Liu Jie looked at Luo Cheng and said, “You contact the boss of Hell Sky Dome and the other three fortresses on the side of the wolf, and discuss the matter of attacking the wolf fortress together. If possible, completely kill Luyang North into the wolf Access. “

“Yes,” Luo Cheng said.

Liu Jie looked at Wang Teng and said, “If I guess correctly, Lu Yang may launch an attack on Lanshan Fortress tomorrow. He must defend well. Don’t lose it?”

Wang Teng said, “It’s really impossible. I will use the chess piece of Emperor Guild. When the army of Landing Yang came to hit me, let the Emperor Guild secretly capture the red fortress of Lu Yang, and then merge it into my guild. Lanshan Fortress changed his Red Fortress. “

Liu Jie’s eyes lightened and he said: “This idea is good and can be implemented. Go to Li Xiuyu and the Dili union to discuss the feasibility of this plan.”

Wang Teng nodded, returned to the car, put on a helmet to enter the game, and entered the fortress hall to find Li Xiuyu.

Li Xiuyu and Li Siyu are waiting for Wang Teng. Seeing him back, Li Siyu hurriedly asked, “What’s Jie Shao saying?”

Wang Teng said with a smile: “Jie Shao gave me good news. He agreed to send me materials for making 150,000 sets of 40-level gold equipment. As long as I made the equipment, he was nothing. “

“It’s great, finally got good news.” Li Xiuyu said.

“Also, the Shaman Army that has been secretly sneaking into the human race can reach my Beifeng City tonight. When passing by your running city, you must be ready to cope.” Wang Teng said.

“Rest assured, I will send them to your fortress intact, Red Army, I admire it.” Li Xiuyu said.

芊芊 Si Yu said happily: “This is all right, in a few days, we can attack Lu Yang’s Huayu Fortress westward.”

Wang Teng shook his head and said, “How can it be so easy, Jie Shao told me, let’s get ready, Lu Yang may launch an attack on us tomorrow morning.”

Li Xiuyu said: “I also thought about this point, the great possibility is to fight Hannibal City.”

Wang Teng said: “I have set a lot of arrow towers and turrets here. There are also many defensive positions outside the field. It is impossible for Lu Yang to attack the fortress. Our weakest link is Hannibal City. Four strongholds.

Among them, he is most likely to attack my fortress of Lanshan, this time I am afraid that you and I will work together to stop Lu Yang. “

Li Xiuyu said: “Actually, Lu Yang is not so terrible. There are more than 2,000 people in the water mage group under my control. If you use the giant wave skills at the same time, Lu Yang can’t stop it. I think we should fight with Lu Yang in the wild first In one battle, destroy some of his vitality and make him unable to attack your fortress with all his strength. “

The silk language said: “General Manager Wang, why are you worried about Lu Yang? Think about it, you have 600,000 players, Xiuyu has 400,000 players, I have 200,000 players, we have 1.2 million people together, If it were all pulled out, why would Lu Yang fight with us? “

So far ~ www.mtlnovel.com ~ The chairman of each main city of the human race can use more than 600,000 players to participate in the battle, but there have never been two main city presidents united to attack one person.

At present, Wang Teng and Li Xiuyu have joined forces. The two forces have exceeded 1 million. When they battle with Lu Yang in the field, Lu Yang can send up to 600,000 troops. Even if the equipment is not as good as Lu Yang's, they can be tied.

Wang Teng was right when he thought about it, saying, "My brother and sister are justified. I will fight with Lu Yang once in the wild tomorrow. All players are level 30 or above. I can kill him by using people."

Li Xiuyu nodded and discussed the details of the war with Wang Teng in detail.

On the other side, Lu Yang is also discussing war. In a special space, Lu Yang looked at Lu Jie and Yao Zhi and said, "Tomorrow afternoon, I will lead a soldier to attack the Lanshan Fortress. Do you two want to go?"

Lu Jie and Yao Zhi have just lost the fortress. At this time, they hate the Silk Language more than anything, but they have no strength against Li Xiuyu and Wang Teng's coalition. Just when they are full of resentment, Lu Yang's words make them excited. Zhang Zhang.

"You want to fight Wang Teng?" Lu Jie asked excitedly.

Chapter 530 - Destroy Dire Guild

Lu Yang said: "Yes, tomorrow afternoon I will lead troops to attack the Lanshan Fortress. This is the only opportunity for you to regain your own fortress. Are you interested?"

Yao Zhi said, "Of course there is. At some point tomorrow, we will contact other people."

Because the fortress was taken away, many elite players inside the two men's guild had plans to withdraw from the guild. After all, the fortress was lost, and it would be a waste of time to upgrade to and from the future.

There are more ordinary players resigning. If the two can't find a good solution, their guild will soon be reduced to second-class.

Lu Jie said: "I must take revenge this time. I will never let go of this femme fatale woman."

Lu Yang said, "Tomorrow at 4:30 in the afternoon, I will go straight to the Lanshan Fortress from the Huayu Fortress. When I and Li Xiuyu fight, I will send you a message. When you attack, you will have a better chance of hitting it. . "

"Thank you President Luyang, if we can retake the fort, we will each give you 10 million." Yao Zhi said.

Lu Yang said, "You don't have to use the money. You two are unlucky this time. Just hold Li Xiuyu for me. After all, I can only bring out 400,000 troops."

Yao Zhi said, "Leng Weixin and Qixing Chengying are also very angry at what they do. The few of us together have 400,000 people. Unless Xiuyu fully defends us, he will definitely lose."

Lu Yang nodded and said, "Okay, that's the case, we'll see you tomorrow afternoon."

Lu Yang did not tell the two to shoot Sirius and Huo Tianhua to bring troops, because he did not believe in Yao Zhi and Lu Jie. The two had not recognized the reality and thought they could retake the fort.

Inside the king's castle.

Zhuoju watched that the last batch of 210,000 players had also redeemed the gold equipment of level 40, and sent a message to Lu Yang, saying, "Boss, my brothers have all exchanged their equipment."

Lu Yang said, "All the commanders and vice presidents meet in the fortress hall of the Red Fort."

“Yes.” Zhuo Jiu and Xia Yuwei and others crushed the fortress and returned to the city roll, returned to the inner city area of the red fortress, just sat down in the hall, and Lu Yang entered the hall.

“Sit down, I’ll ask everyone to come here for one purpose. We will hit the Lanshan Fortress tomorrow afternoon, but before we hit him, we must first kill the internal nail Emperor Guild.” Lu Yang said.

Tu Feng said: “Just got news, the chairman of the Emperor’s Guild, Xie Jun, ordered all members to go online tomorrow. It is estimated that when we attack the Lanshan Fortress, we will sneak attack on our fortress.”

“Boss, how about I go and give him a profound lesson.” Bai Lang asked.

Lu Yang said, “Let’s go together. Tonight the Emperor’s Guild will bring all the players to wasteland level 40 map demon fortress, and 210,000 people will act collectively to break up this guild.”

“Hey, the brothers were just glad that they had just got a 40-level uniform and they didn’t know how to vent it. This Emperor’s Guild was just right.” Zhou Tianming said.

Lu Yang said: “Everyone’s own army, let’s go.”

“Yes.”

...

In St. Gall, players of the Brotherhood of the Iron Blood are showing off the attributes of the honorary uniform one by one on the World Channel.

Whether it is the players who have not participated in the Jagged Brothers League or other guild players, none of these equipment is envious.

The high attribute makes everyone want to get it. At the recruitment office of the guild in the square, more players apply to join the Jagged Brotherhood.

“Hey, the 40-level sergeant’s two-handed sword is really powerful.” Said Feng Yun, the deputy chairman of the Emperor Guild.

The evil monarch said: “Rest assured, we will soon have such equipment, and the Brotherhood of Iron and Blood will soon be over.”

“Boss, is there any new instructions from the boss behind you?” The master Fengyun asked in surprise.

“Don’t ask.” The evil king looked at the dominator Feng with a bad expression. He hated himself stupidly. After drinking too much that night, he told the dominator Feng Feng, but he knew more about what should be a top secret.

“Oh,” said Domina Fengyun.

The evil king asked, “How many people have gathered.”

“It’s 100,000 people, and the brothers are here when they hear that they are about to open up wasteland,” said the governor Fengyun.

“Very well, let’s go to the Demon Bastion.” The evil monk replaced the Nightsaber and ran out of the city.

Master Fengyun followed him quickly, but his eyes behind him were so ridiculous.

When he came to the 20-level map outside the city, the evil monarch saw his 100,000 men gathered here, marching forward with large troops.

After 2 hours.

The dominator Fengyun took 100,000 people to the outside of the demon fortress, but just when he came here, the evil monk frowned. The outer side of the demon fortress was full of monster bodies, as if someone had just cleaned it up.

“Strange, who did we come here to fight the monster first?” Asked the governor Fengyun.

The evil monk looked unhappy and said, “I told the bosses of all the guilds a week ago. I want to come here to make a fuss, but I have to see who dares to oppose me like this.”

“Xiejun, so angry, I’m right with you, what are you going to do with me?” The turbid wine pours out of the fortress with a two-handed sword, and behind him is a 30,000 full-blooded sergeant suit. Alliance player.

The evil king’s eyes widened suddenly, and his heart was terrified. He smiled and said, “It turned out to be the boss of the turbid wine of the Brotherhood of Iron and Blood. I thought who it was. Since you came here to upgrade, then I will Go, how dare I treat you. “

There is a ghost in the evil king’s heart. He just promised that Wang Teng will attack the Red Fortress tomorrow.

“Farewell, farewell.” The evil king turned and left.

“Slow, let you go?” Zhuojiu poured in with 30,000 people and went on.

The prince felt that something was wrong, and said in fear, “Is there anything else?”

“Of course I have.” A voice that scared the evil lord from the extreme sounded from behind him, and the evil lord looked back, it was Lu Yang riding the Red Flame Lion King.

Behind Lu Yang, followed by 60,000 full-body sergeant suit players, Xia Yuwei on the left and Zhou Tianming on the right.

“Boss, we’re surrounded.” A chief of the legion pointed in horror and saw.

On the left side of the evil monarch team, Sun Yu and Mi Ai appeared half a lifetime with a 60,000 full-body sergeant suit. On the right, Bai Shi Sanxiong and Jiang Ze appeared with a 60,000 full-body sergeant suit.

One hundred thousand people of the evil prince were besieged by Lu Yang’s 210,000 full-body 40-level gold sergeant suit.

“Chairman Lu Yang, you, what do you mean?” The evil king asked tremblingly.

Lu Yang sighed and said, “Xie Jun, I know it’s not easy for you to create this guild. You can quit the guild yourself, and I promise not to chase you in the future.”

“Why.” The evil king asked.

Lu Yang said, “You and Wang Teng have all told me that the deal is overwhelming. You even wanted to sneak into my red fortress when I attacked the Lanshan fortress. I can still let you have enough fun.”

The evil lord looked angrily at the master, but shrugged his shoulders and said, “Boss, don’t blame me for doing this. I can’t watch the brothers die like this. Wang Teng and President Lu Yang hit so Many times, all failed, and now President Lu Yang has also obtained more than 200,000 sets of 40-level gold equipment, why can Wang Teng stop the Iron Brotherhood. “

“Then you betray me?” The evil king angered.

Master Fengyun said: “I take this game as my future life. You have to ruin my rice bowl and the rice bowls of all my brothers. Do you think we can tolerate you?”

“No,” shouted countless players behind Dominion.

The master of the situation said proudly: "See it, I told you what I said to my brothers in the guild, and this is their attitude."

"Xie Jun, we opened a studio. We just want to rest assured to make money to support our family. What are you going to do, what do you want to do." The second army commander Feng Feng gun cursed at the evil king.

The purpose of the evil monarch is simple, to help Wang Teng lay the fortress, and then sell the guild to Wang Teng. He went abroad to enjoy life.

"You're against it. You're really against it. I'm the guild boss. You should listen to me." The evil lord scolded.

When the lord Fengyun saw the evil leader pointing at the second army commander and scolded, he turned his back toward him, pulled out his two-handed sword, and went straight to the back of the evil king.

"8868" (triple crit)

The tyrant is dead!

Lord Fengyun shouted, "Brothers, we don't want to die from the guild. We don't fight against the Brotherhood of Iron Blood."

More than 10,000 players, including the commander of the Second Army, opted out of the guild at the same time, and the guild badge on his body disappeared immediately.

Other players saw that the situation was incorrect, and they quit the guild, took out the city roll and flew back to St. Gall. After 5 minutes, there were less than 10,000 people on the field.

Lu Yang said, "Do you want to fight me?"

The head of the First Legion of the Emperor Guild said, gritting his teeth, "The evil lord has helped me a lot, and we will not retire."

Lu Yang said: "Sorry ~ www.mtlnovel.com ~ Then I can only kill you, the whole army will attack."

210,000 people swarmed up, Xia Yuwei stood beside Lu Yang and said with emotion, "It is estimated that the Dili Guild is completely finished."

Lu Yang said: "He is looking for death. With my current strength, it is easy to destroy a medium-sized guild. This time I personally convinced him that it was not easy for him to establish this guild. Unfortunately, he couldn't think of it."

With a 100,000-scale medium guild, if you want to sneak attack on a guild with 700,000 players and all players are level 30 or above, you can't admit it, but you can only say that this person is crazy.

After 5 minutes.

At the end of the battlefield, the Brotherhood of Iron and Blood killed all the players of the enemy with ease, and Biao Lang returned to Lu Yang with a pout and said, "On this strength, we still want to sneak attack on us and seek death."

Lu Yang laughed and said: "The whole army will return and rest for one night. Tomorrow we will fight against Wang Teng."

"decisive battle!"

210,000 people shouted loudly.

Chapter 531 - Declaring War with Hate

Falling Rain Fortress.

Wang Teng is discussing a battle plan with Li Xiuyu.

“We should fight him a few decisive battles here in the Western Wilderness and wipe out 10,000 of him. He will send another person in 4 hours.” Li Xiuyu said.

Wang Teng said: “This solution is good, but ...”

His most fundamental purpose is to bring all the troops of Lu Yang to the Lanshan Fortress, and then let the evil lords lay the red fortress. If Lu Yang’s troops are destroyed in the middle, it will be difficult for the guilds of the evil lords to attack.

He did not tell Li Xiuyu about this. He was afraid that Li Xiuyu had other ideas in his heart. While he was hesitant to say something, suddenly, he received a call application from the evil king.

“I’m going out, I’m sorry.” Wang Teng walked out of the door and pressed the connect button to ask: “What’s the matter?”

“Boss, I was discovered by Lu Yang. Just now he destroyed my guild, and there are less than 10,000 people with 100,000 people left.” Xie Jun cried.

“What?” Wang Teng felt a fainting in his brain, forcing his anger and asked, “how did it happen.”

“I, I drunk and said nothing, and told the vice chairman, the vice chairman betrayed.” Xie Jun said.

“Waste, what else do you want me to do?” Wang Teng hung up the phone angrily and dragged the evil king to the blacklist.

Before losing such an important card, Wang Teng didn't know how to explain to Liu Jie.

Returning to the fortress hall, Liu Jie said, "Just as you said, we will face off in the western wilderness with Lu Yang, blocking each layer and not letting his troops advance."

Li Xiuyu and Li Siyu looked at Wang Teng in surprise. Just now Wang Teng also disagreed with their plan. They went out to answer a phone call and agreed, which made them feel problematic.

"Is something wrong?" Li Xiuyu asked.

Wang Teng shook his head and said, "A waste has broken my plan, and we continue to discuss the details of the battle."

Li Xiuyu nodded and asked: "When our side and Lu Yang decisively battled out, I think that Shaman Army of Mu Huali should be sent to the outside of St. Gall to attack Lu Yang's fortress, or to kill Lu Yang from Huayu Fortress Come here for reinforcements. "

Wang Teng looked at the time and said, "They should be here soon. I ask."

In the barren mountains outside the rushing city, Mu Huali was taking a rest with 5,000 people. According to a message from Wang Teng, he said, "I have arrived in the barren mountains."

Wang Teng's eyes lit up and he said, "I'll send someone to show you the way."

"Everything is supported by President Wang. We don't know anything here." Mu Huali said politely.

"Yes, everyone's brother." Wang Teng said.

During the march on this road, Mu Huali relied on Liu Jie's men to guide the way. When he reached the boundary of Wang Teng, he was led by Wang Teng.

From 12 pm to 8 a.m. the next day, Wang Teng sent his cousin to take Hua Huali from the long-proven path along the mountain side of the Huayu Fortress into the 30-level map of the Valley of Fire in St. Gall.

This place has no grass, no blame, no herbs, no minerals. It is an excellent hiding place for Wang Teng, but it can only hide up to 5,000 people.

“Hey, finally at St. Gall, I want to let the three **** in the Bai family know that I am a shaman.” Zhebei said.

Wang Tengfa said: “Don’t be impulsive. Lu Yang has great influence in the holy city. Once discovered by his eyeliner, Jie Shao’s task cannot be completed.”

Mu Huali said, “You can rest assured that we have a sense.”

Feng Lin Shan Huo said: “It’s 8 am in the morning, the rest of the staff, the staff on duty will change every 2 hours.”

5,000 people immediately rested. As a unit that made money by killing, their combat discipline was no different from that of the army.

On the other side.

Lu Yang didn’t know that the **** legion had arrived. After the daytime class, he flew to the Huayu Fortress.

On the ground, Xia Yuwei and Zhuojiu and others brought together 420,000 players, of which 210,000 were collecting gems from gem craftsmen.

Lu Yang asked, “Where have the troops that shot Sirius and Huo Tianhua.”

Tu Feng said, “I just arrived at the Red Fort and was walking on the mountain road to the Huayu Fort, and arrived about 30 minutes later.”

“Where is Lu Jie?” Lu Yang asked.

Tu Feng said: “Lu Jie and Yao Zhi found the three stars, Leng Weixin and Mu Ruhanjiang. The five together had a strength of 500,000. As soon as we fought, he assembled the troops immediately.”

If you gather troops now, there is no such large venue, except in the city.

Lu Yang said: “It can do a little bit of drafting. Now 400,000 people gather and follow me out of town.”

“Leave now?” The White Lion asked in surprise.

Lu Yang said, “Your old friend is here, don’t you want to see him earlier?”

“Old friend?” The White Lion asked.

“Mu Huali, don’t you remember?” Lu Yang said.

“The **** legion is here,” White Wolf said in surprise.

The white lion shook his fist and said, “I’ve always wanted to teach how strong their Windfury Shaman really is. This time, I’ve seen it for myself.”

Lu Yang said: “400,000 people have gone, scared this group of grandchildren.”

While Lu Yang was still in class, Han sofa came to find Mu Huali and the **** leg in the Valley of Fire.

When Wang Teng helped the bloodthirsty domineering destroy the last fortress of the city of St. Gall, more than once in interviews, he mentioned the Valley of Fire that he found for the Shaman Army.

Since Lu Yang learned that the Shaman Army was coming, Lu Yang sent people to search for this Valley of Flames. Finally, he was able to live up to his intentions, and Lu Yang found this place.

Since then, Lu Yang has sent people to monitor this place every day. Today, Han Sha is on duty, and happened to be met by him.

How strong the **** legion is, Lu Yang knows very well that the evil eye ghost knife has an attack power of more than 2800, plus the wind rage effect, it can achieve the knife and the sword in seconds.

Coupled with the shaman's resurrection skills, these 5,000 people can win even if they face 50,000 people. Moreover, Mu Huali has a wind elf and fights him on the plain. He can escape at any time and wants to catch all Can't catch it.

Now, they are trapped in the valley, which is the only opportunity for Lu Yang to kill them. Only by killing this army can Lu Yang go to battle with Wang Teng at ease.

"Boss, the brothers are ready." The voice of chubby wine pours Lu Yang back to reality.

Lu Yang looked down the city, and all the 420,000 people had assembled. Looking at the faces of these brothers, Lu Yang was extremely confident at this moment.

"Brothers, how long have we waited?" Lu Yang asked.

No one spoke in the audience.

Lu Yang murmured, saying, "How long have you waited, 2 months, 3 months, or 4 months?"

Suddenly, Lu Yang aggravated his voice and said, "For 5 months, for 5 months, we have been beaten by the guild formed by Liu Jie with money."

“Every time, we were almost wiped out by his money. Every time, we were struggling on the edge of the most pain. Every time, if it was not for you to accompany me to fight against him as usual, the Iron Brotherhood was long over. Now. “

“But, brothers, we have come through, look at you now, look at all of your equipment, strong or not.” Lu Yang shouted.

210,000 players who replaced level 40 equipment sold their original level 30 gold equipment to the guild for guild points. Lu Yang sent these 210,000 sets of gold equipment to the other 210,000 players in front of them in advance. The average level is around 36.

This is Lu Yang’s most powerful lineup at present. His strength exceeds any guild in the human race. Even Li Xiuyu and Wang Teng’s troops do not have so much gold equipment together.

Each of the 420,000 people’s eyes looking at Lu Yang were full of excitement. As a guild without a consortium background, they could only do this, only theirs.

Lu Yang said: “Out of St. Gall, Li Xiuyu’s **** just helped Hannibal with Wang Teng’s help. The condition for Li Xiuyu to find Wang Teng’s help was to help Wang Teng come to hit us when he laid down Hannibal.

“Yesterday, they had negotiated to come and hit us today, but I took 210,000 of you to the wolf tribe to get more than 700,000 honors, and put on a 40-level gold equipment.”

“Li Xiuyu and Wang Teng haven’t attacked otherwise. Otherwise, we are facing a bitter battle today in the Rain Fortress. Brothers, have you had enough?”

With the anger of 420,000 people, Lu Yang’s language has gradually changed from a small flame to a fierce flame. Lu Yang can clearly see the angry expression on their faces.

“Although Wang Teng didn’t come over, not because he didn’t want to fight, but because he was building up his strength and just got the news. His behind-the-scenes boss Liu Jie gave him 15 sets of 40-level gold equipment. If these equipment were built Then we will fall into a situation of passive beatings.
“

People like Xia Yuwei and Zhuojiu didn't know about this. They were shocked when they heard what Lu Yang said. After a little conversion, it was equivalent to Liu Jie investing 1.8 billion credits in Wang Teng. Drive them to death.

"My boss, we can't let Wang Teng build these 150,000 sets of equipment."

Lu Yang said in a loud voice: "Yes ~ www.mtnovel.com ~ I decided to officially declare war on Wang Teng and Li Xiuyu starting today. Everyone obeyed my order and left the city to attack Lanshan Fortress as I went."

The gate made of four megaliths in the Huayu Fortress rose simultaneously, and 420,000 brothers of the Jagged Brothers went straight to the Lanshan Fortress.

Players who are upgrading along the way have seen this situation evading, many of them have disappeared and sent messages to their bosses behind the scenes.

Wang Teng was sitting in the fortress hall of the Falling Rain Fortress and resting. Suddenly he stood up and said to Li Xiuyu, "Lu Yang is dispatched."

"How many people are here?"

"420,000 people, all staff gold equipment." Wang Teng said.

"Where are there so many?" Li Xiuyu asked.

Wang Teng said: "210,000 is 40, and 210,000 is 30. Lu Yang is really generous. Don't have the same money, and all the equipment is given to his men for free."

Li Xiuyu sneered and said, "What about gold equipment, I let him taste the power of my water mage."

Chapter 532 - Siege of the Red Army

Like Lu Yang's mage army, it is mainly fire-based. Wang Teng's mage army is mainly water-based mage. Among the 400,000 players, there are 100,000 mage, of which 90,000 are water, and the 90,000 are the main force. The rest 10,000 people are just ordinary mage in other departments.

The waterways around Benliu City are developed, and the skills are released by the water, which increases the damage by an additional 50%. Although there is no water in the western wilderness, the collective release of 70,000 water mage skills is still very scary.

"Let's go, I can't wait to compete with Lu Yang." Wang Teng said.

Li Xiuyu looked at Yusi and asked, "Is there a problem with the rebellion between Lu Jie and Yao Zhi?"

The silk language said: "It's very easy, you can rest assured, my 200,000 people will be able to solve them quickly, maybe I will support you if you hit half."

Li Xiuyu smiled gently and said, "The whole army gathers, and we will meet Lu Yang in the western wilderness."

The 410,000 people who were resting inside the falling rain fort went out of the city and headed straight for the western wilderness in front of the Lanshan Fort.

Wang Teng used the fort to return to the city and flew back to Lanshan Fort. He also took 500,000 people straight to the western wilderness. When he was on the road, Wang Teng sent a message to Mu Huali and said, "Be well concealed, Lu Yang came out with 420,000 people. Now, listen to me and act. "

"Okay," Mu Huali said in a simulated group after turning off the phone. "All members are concealed."

5,000 people lie in the Valley of Fire, waiting quietly, not far from the mountain where the Valley of Fire is located is the Huayu Fortress.

Outside the city.

Lu Yang marched with a large army, Sun Yu and 3,000 elite players riding the Red Flame Lion on both sides of the team to clean up the quietly following players.

Mu Yi stood next to Lu Yang and kept looking for enemies in the surrounding mountains. When he saw someone on the top of the mountain to investigate, he would immediately shoot and kill the opponent.

Thirty minutes later, all spies around the army were killed, and no one dared to follow on the plains.

Lu Yang said, "The entire army stopped moving forward."

Orders were issued step by step, and the entire army immediately stopped.

"Boss, are we going to find Mu Huali them?" Bai Lang asked.

Lu Yang nodded, pointing at the path on the left and said: "Standby below level 40, the rest will follow me up the mountain."

The 210,000 people in the forefront followed Lu Yang into the mountains along the mountain path. The road was rugged and difficult to walk. The narrowest place could only accommodate 20 people walking side by side.

Half an hour later, their eyes suddenly opened up, and a road that could accommodate nearly a hundred people walking side by side appeared in front of them.

"I don't think there is such a place next to Huayu Fortress." Xia Yuwei said.

Lu Yang said: "This is the importance of mastering the terrain. If I am right, this is a map specially designed by the government for players to fight."

Everyone nodded.

"Boss, where are they Mu Huali?" Bai Hu asked.

Lu Yang pointed at the valley 1,000 meters ahead of the left and said, "They are hiding there, and the army is ready."

"Yes." The White Lion said cheerfully: "Don't rob me, the three grandchildren dared to scold me last time, and said that they didn't use their full strength to hit the flame knife. This time I must kill them."

Everyone laughed and the White Lion's team came to the front.

Lu Yang sent a message to Han Sha and asked, "What are they doing?"

Han Sha stood at the mouth of Phoenix Valley and said, "Nothing happened, but I was hiding there to rest."

Taniguchi, not far from the invisible Han Sha, Feng Lin Shan Huo waved the evil eye ghost knife in his hand and said, "You said, what if Lu Yang knew we were here?"

Zhebie said: "I guess he doesn't know our strength yet. I think we should slaughter a fortress in Lu Yang for a while to let him know how powerful we are."

Mu Huali said with a sneer: "The last time the three dogs of Bai's dare to look down on us, this time we must let him know how powerful our brother is."

"I hope to have a chance to compete with the three dogs of Bai's. I want to let him know that our 5000 people are not comparable to the garbage under his hands, and then we will hide after seeing us."

The three brothers, White Lion, White Tiger, and White Wolf, were taking 30,000 people to the door and heard the trio of Mu Huali's face complexion.

Lu Yang saw the three men rushing up, stopped the three with his hands, and sent a message saying, "Don't be excited, wait for the brothers to seal the entrance."

The three nodded.

Lu Yang looked at Sun Yu.

Sun Yu clicked the wind elf mode, the speed of 210,000 people increased by 225% in an instant.

As soon as the White Lion waved his hand, 30,000 people rushed towards the Taniguchi of the Valley of Fire. At this moment, Mu Huali in the valley widened his eyes in horror and said, "No, the whole army gathers, there are enemies, Enemy attack. "

Fenglin Shanhuo asked in surprise: "Who is there?"

"You don't know, someone just turned on the wind elves, I felt it." Mu Huali said.

5,000 people quickly got up to gather, but just after they were assembled, the white lion, the white tiger, and the white wolf sealed Taniguchi with 30,000 people.

The white lion gritted his teeth and said, "Mu Huali, Fenglinshanhuo, Zhebei, we haven't seen each other for a long time."

Mu Huali opened her eyes in horror and said, "How do you know I'm here?"

Lu Yang said: "Thank Wang Teng, if it was not for the information he provided, how would I know you were here."

“Impossible, Wang is always under Liu Jie’s men, and he will not provide you with information.” Feng Lin Shan Huo said.

Lu Yang shrugged his shoulders and said, “It doesn’t matter, anyway, you are dead today, Shaman Army, invincible, unfavorable, come and go, but you are trapped in this Valley of Fire by my 210,000 army today. I see how you are invincible, come and go. “

“210,000 people?” Zhebei’s inner fear was extreme, and Li Li said inwardly: “It’s impossible, isn’t your 420,000 players attacking the Lanshan Fortress? Why are there still 210,000 people?”

Lu Yang said: “In order to catch you 5000 people, I stopped the team deliberately, and I turned to you halfway.”

The three were stunned, and they have never encountered such a situation until they played the game. Even when they were chased and killed by the orc million players, they never encountered such a dangerous situation.

The three sides of the Valley of Fire are cliffs as high as tens of meters. There is no place for them to escape. Only this valley entrance, which is 100 meters wide, is blocked by 210,000 people in Lu Yang. The three do not know what to do.

Lu Yang said with a sneer: “Shaman Army, I remember you have a nickname called the Red Name Army, as if you are proud of it. Today I will let you know how serious the red name is. Curse Master, let go. “

Behind Hei Yan, 20 fire methods, 20 ice methods, and 20 space-time mage had already completed the spell, and heard Lu Yang’s order, and released at the same time.

“Meteor Fire Rain”

“Icy Roar”

“Space-Time Cutting”

The jewels played by the Shaman Army in the valley are all 6 blood gems. Each of them has about 13,000 blood. They thought that these blood were high enough, but they did not expect that they would be banned by three secondary bans at the same time. Hit.

In just 10 seconds, 5,000 people did not have the slightest resistance, and all were killed in the same place. At the same time, 5,000 people were automatically resurrected and killed again in the same place.

In the end, when the skills were over, only Mu Huali, Zhebei and Fenglin Shanhuo were left, because the three were wearing Level 10 blood gems and had enough blood.

Mu Huali looked at the 5,000 people killed behind, with a tragic look on his face, and shouted hysterically: "Lu Yang, return my army and my equipment."

Lu Yang sneered and said, "Mu Huali, you have the face to say this, which piece of equipment on your body was not obtained through murder and robbery, and which piece was made by your own money."

Mu Huali said madly: "They are not as good as people, they deserve it."

Lu Yang spread his hand and said, "Well, now, shouldn't you be regarded as inferior to others, and deserve it?"

Mu Huali was ridiculed by Lu Yang and could not say anything. In exasperation, he raised the evil eye ghost knife and shouted, "I killed you."

Lu Yang raised his left hand and pointed at Mu Huali.

"Flame Shock"

A spark burst into Mu Huali's head.

"16868" (Critical Strike)

Mu Huali, die!

Feng Lin Shan Huo and Zhe Bie looked at the morbid Mu Huali, with helplessness and anger on their faces.

Zhebei said, "I can't think of our invincible Shaman Legion of the Orcs. We are down here, President Lu Yang, and we recognize it this time."

Lu Yang said: "I know you are not convinced, it doesn't matter. I'll be here to stay with you next time, but don't look for Wang Teng anymore, he is not a reliable ally."

Zhebei laughed with sorrow, and committed suicide. This war was not a crime of war. It can only be said that there was a serious problem with Wang Teng. Otherwise, how could a hidden place like the Valley of Flames be found.

Fenglin Mountain Fire saw that both brothers were dead and chose to commit suicide. The evil eye ghost sword fell to the ground.

At this time, there were countless equipments in the valley, and evil eye ghost knives were everywhere. After the death of Da Hongming, all the equipment in the backpack dropped, and at least 6 pieces of equipment were dropped on his body. The weapons were almost explosive.

The White Lion went to Mu Huali, picked up his evil eye ghost knife and took it to Lu Yang, and said, "Boss, this is Mu Huali's."

Lu Yang looked at the evil eye ghost knife.

Evil Eye Ghost Sword (Gold)

Level: 40

Damage: 0—562

Strength: 0—90

Constitution: 0—90

Additional attack power: 0-200

Effect: Each attack has a certain chance with the evil light effect.

Gem Slot 1: Blood Gem (Level 10)

Gem Slot 2: Blood Gem (Level 10)

Gem Slot 3: Blood Gem (Level 10)

Enchant: Liquidation: A certain chance to add an additional attack

“It’s a good weapon.” Lu Yang shared his attributes to everyone.

Everyone nodded.

Lu Yang threw it to the White Lion and said, “Send it to you ~ www.mtlnovel.com ~ You will meet him again in the future, and try to get another one for me.”

The White Lion took the evil eye ghost knife excitedly and said, “Thank you, boss.”

Lu Yang said to Tu Feng: “Send someone to pick up the equipment and send it to the guild warehouse. Those who like this weapon can be redeemed with guild points.”

“Yes.” Tu Feng took people in to pick up equipment.

Xia Yuwei said with emotion: “It’s a pity that the Red Army Corps is **** enough, but it is undeniable that they are strong and never expected to die like this.”

In order to deal with the Red Army, Xia Yuwei specially went to the Wolf Forum to collect the data of the Red Army. The more she collected the more she sighed about the power of the Red Army.

Not only him, but also the chiefs of the army such as Zhuoju Qinglu and the White Lion are collecting the data of the Red Name Army. Everyone is thinking about the odds of winning if they match the Red Name Army. However, without exception, All feel no chance of winning.

Now, it was so easily eliminated by Lu Yang, everyone thought with emotion that the Red Army should not come to mess with Lu Yang.

Chapter 533 - Battle of the Wild West

“I don’t know how long they will be in jail when they are resurrected.” Sun Yu said.

After the red name player dies, he needs to go to jail for resurrection. The human race is in the Holy See prison. The orc is in the shaman dungeon. According to his killing value, in general, killing a person has 1 killing value and 1 day in prison.

“I forgot about this, wouldn’t their tens of thousands of killings be imprisoned for several months.”

“Hehe, it’s better to practice again.” Han Liu said.

Everyone laughed.

Lu Yang knew that the Red Name Army was not so easily killed. There is a mechanism in the game. The prison can be escaped. As long as someone kills the jailer from the outside, they can be released. In the last life, the Red Name Army had escaped many times.

However, Lu Yang was confident that they would be pleasantly surprised when they came out of prison.

Lu Yang sent a message to Sirius and asked, "Where have you been?"

"Arrive in the western wilderness in 10 minutes," said Sirius.

Lu Yang said, "My side just killed the Red Army in the mountains next to the Huayu Fortress, and it took a while to wait for 40 minutes to arrive."

Shooting Sirius was stunned when he heard what Lu Yang said, and said, "Boss, did you give the Red Army Corps?"

Lu Yang said with a smile: "You heard me right, 5,000 people were killed by me, and 5,000 evil-eye ghost knives burst out. If you don't want to, I'll give you two."

Shooting Sirius sighed and said, "Stop the sword, boss, you are too strong."

The Red Name Legion has the highest reputation among the orcs, and it is more terrifying than the top consortiums. They have no disadvantages, no moral standards, decisive decisiveness and superb skills. This time the Red Name Legion came to the people and shot Sirius. Also worried for Lu Yang, did not expect that Lu Yang would be eliminated in this way.

"This time we win." Huo Tianhua said aside.

Lu Yang said, "After 40 minutes, I will rush to the western wilderness. We will fight against Wang Teng and Li Xiuyu."

"Yes."

Lu Yang closed the intercom, and said to Zhuo Jiu and Xia Yuwei, etc .: “The original way back, Huo Tianhua and the 300,000 people who shot Sirius have arrived, and we are heading to Wang Teng and Li Xiuyu.”

“Yes.”

The momentum of the crowd rose.

On the other side.

The Red Army resurrected in the shaman dungeon and learned that they would be in jail for three months. The three brothers immediately called Wang Teng’s phone, but found that the inside of the dungeon was unable to send messages to the outside. The furious, the three brothers quit the game. They came to Liu Jie’s mansion.

Mu Huali looked at the big iron door at the door, and didn’t ring the doorbell, and stepped up according to the iron door.

“铛”

A muffled sound vibrated Liu Jie who was sitting by the swimming pool. The captain of the bodyguard thought it was Liu Jie’s enemies. He saw through the surveillance video that it was Mu Huali.

Liu Jie also saw it and said, “What’s wrong with asking the three of them to come in and not knock on the doorbell?”

The captain of the bodyguard nodded and asked his men to open the door to the door.

The three saw Liu Jie rushing together. When they came to Liu Jie three meters away, the captain of the bodyguard reached out and stopped the three.

Liu Jie asked, "What are you doing? Why are you looking angry? Shouldn't you take your troops to fight Lu Yang now?"

Mu Hua Liqiang said with anger, "Liu Jie, our brothers really killed for you, why did you let Wang Teng come to pit us?"

Feeling wrong, Liu Jie asked, "What happened?"

Feng Lin Shan Huo said: "We hid in the Valley of Fire as Wang Teng ordered. Wang Teng told us that it was absolutely safe there, but just now, Lu Yang surrounded the Valley of Fire with more than 200,000 people. Our 5000 brothers have a little resistance None were killed in the Valley of Fire. "

"What?" Liu Jie fiercely sat up and said, "All of your 5,000 people are dead?"

"All dead, the evil eye ghost knife burst out, Lu Yang told us personally, Wang Teng was his spy, and since we arrived in the Valley of Fire, he knew we were there." Mu Huali said .

Liu Jie shook his head and said, "This is obviously Lu Yang's lie to you. How could Wang Teng do this?"

Mu Huali asked: "Then you tell us that there is no problem where we are on this way. Why did Wang Teng arrange for us to go to the Valley of Fire? You have to take full responsibility for this."

Liu Jie thought for a while and said, "In this way, the three of you don't worry, I will not ignore you, I will arrange someone to rob him to rescue you, and then compensate you for making equipment."

The three Mu Huali looked at each other and were relieved. If Liu Jie resolutely ignored them, they would be completely dead.

"Bring my gaming helmet." Lu Yang said to the servants around him.

The maid went into the house to fetch the helmet and gave it to Liu Jie.

“You have a rest here with me. If you like, go to the pool to play with these beauties. I will re-arrange in the game.” Liu Jie said.

The three Mu Huali only noticed that there were many beautiful women in the pool at this time, and the three nodded happily.

Inside the game.

Wang Teng and Li Xiuyu are each waiting for 400,000 people in the western wilderness.

“Strange, why didn’t Lu Yang come?” Li Xiuyu asked.

Wang Teng also felt that something was wrong. Just when he was curious, he saw that Liu Jie was online.

“Jie Shao, why are you online?” Wang Teng asked charmingly.

Liu Jie scolded angrily: “I will lose Hannibal City if I don’t come again. I ask you, do you know that the Shaman Army has been destroyed by Lu Yang?”

“The Shaman Army has been destroyed?” Wang Teng said in shock. “How is this possible? I contacted him an hour ago.”

Liu Jie cursed: “The three Mu Huali are sitting in my villa. Tell me that you told Lu Yang that they were in the Valley of Fire.”

Wang Teng quickly tried to contact the three Mu Huali, but found that the three were not online at all. For a moment, Wang Teng was extremely frightened and said quickly: “Jie Shao, believe me, I am not a spy.”

Liu Jie snorted and said, "Of course I know you are not. I'm here to tell you. Be sure to keep it for me. If you dare to lose the Lanshan Fortress, you can get away from the company and be beside me. No waste is needed. "

"Yes." Wang Teng bowed to the air again and again, and looked at the frown of Qu Han behind him.

When Wang Teng hung up the phone, Qu Han asked, "Boss, what happened?"

Wang Teng said in a panic: "The Shaman Army was destroyed by Lu Yang. We don't have any outside helpers now, we can only rely on you."

Qu Han said, "Boss, don't worry, we have 800,000 people together with Li Xiuyu, and Lu Yang is only 400,000 people. It is impossible to fight us."

Wang Teng was slightly relieved.

Li Xiuyu said: "I have long known that these 5,000 **** are unreliable. I am here. You help me lay down Hannibal City, and being a brother will definitely help you through this level."

"Thank you," Wang Teng said to Li Xiuyu sincerely.

"Hey, now waiting for Lu Yang to come, I can't wait to let him see my giant wave master group." Li Xiuyu said proudly.

As the two talked, a thin black line appeared on the edge of the western wilderness.

Qu Han suddenly opened his eyes wide, pointed at the front and said, "Lu Yang is here."

Wang Teng quickly picked up the telescope and looked into the distance. Inside the lens tube, Lu Yang rode the Red Flame Lion King and slowly approached with countless players behind him.

“Army alert,” Wang Teng shouted.

Li Xiuyu looked at Lu Yang’s direction and frowned. “No, why is Lu Yang coming towards me?”

far away.

Lu Yang came to Li Xiuyu’s square with 420,000 people. Looking at Li Xiuyu who ran back to his side in a panic, Lu Yang said to the muddy wine and others around him: “Li Xiuyu must not have thought of my first attack target It’s him.”

Everyone laughed.

Tu Feng said, “I really want to see how much damage Li Xiuyu’s Mage Master can deal.”

The 17 gems played on the 20,000 Berserk battles are all 5-stage water resistance gems, which can offset 1700 points of water damage. The violent battle wearing a level 40 gold sergeant suit has more than 8,000 blood and an attack power of more than 2900. More than 800 defenses.

The white lion said, “Boss, our three brothers are fighting.”

Lu Yang said: “Okay, all of these 20,000 violent battles will be entrusted to your three brothers. Take your 20,000 Paladins in your headquarters and punch me through Li Xiuyu’s army.”

“Yes.” The white lion, the white tiger, and the white wolf said excitedly, and their favorite was to charge the charge and capture the flag.

Sun Yu said: “Boss, I applied for a side attack on Li Xiuyu’s troops.”

“I’ll go too,” said bitter love for a long time.

Lu Yang said: "Okay, then you two each with 10,000 side attacks, and the others are ready to intercept Wang Teng with me."

"Yes," said the crowd together, and the White Lion and Zhuoju and others immediately began to move troops.

Lu Yang looked at his men with satisfaction ~ www.mtlnovel.com ~ So far, the Brotherhood of Iron Blood can be said to be strong and strong, and ordinary players are willing to live with each other and adhere to discipline. Offensive.

Lu Yang now wants to personally lead a charge without this opportunity.

After 10 minutes, with the advancement of the army, the internal conversion of the legion was completed, and all the 20,000 violent battles were behind the Baixi Sanxiong, followed by 20,000 punishment knights.

Love bitterly and Sun Yu gathered 10,000 violent battles and 10,000 shooters.

Li Xiuyu looked at Lu Yang's army at a distance of only 200 meters. He couldn't help but cursed at the front Lu Yang: "Lu Yang, if you have the courage, attack yourself."

Lu Yang laughed and said, "I haven't been beaten by you in reality. Do you want me to abuse you again in the game?"

Lu Yang shouted using the big horn scroll in the game mall. This thing is a must-have item on the battlefield. As the attack distance of the players on both sides increases, the two sides' masters will have to retreat to ensure safety and scold each other. Smell with a loud speaker from a safe distance.

Chapter 534 - Strong showdown

The advantage is that you scold the other side, the other side is not rude to you, and the disadvantage is that you have to scold the other side and let the other side expose the weaknesses, which is uncomfortable.

He never thought that Lu Yang would tell this matter to the public.

Players on both sides, plus Wang Teng's players, and Huo Tianhua's players hiding in the mountains all showed gossip.

Li Xiuyu saw the players around him looking at him with a strange look, and immediately became angry and anger. He almost ordered the whole army to charge. Not good. He knew that if he rushed over, he would die. . “

Lu Yang showed a scornful look and said, “Li Xiuyu, you are just a tadpole who can only use a woman to conspiracy. In the sun, you are nothing. The three males of the Bai family, and the frontal charge defeated Li Xiuyu.”

“Yes.” The White Lion can't wait any longer, and players who have a Level 40 Sergeant Gold suit behind them are eager to try.

The white lion, white tiger, and white wolf looked at each other, and at the same time they took out two-handed swords and raised their heads and shouted, “Brothers, kill.”

“Kill ~!” 40,000 players shouted loudly, with momentum like a torrent that opened the gate, and went straight to Li Xiuyu's army with the three.

Li Xiuyu didn't expect that Lu Yang would dare to be so mad, but he dared to line up an army to launch a frontal charge against him, shouting: “The giant wave master team is ready.”

500 giant wave mages came to the front, standing 25 people every 50 yards, covering a range of 1,000 yards horizontally.

A group of vice-chairmen and heads of the army did not expect Lu Yang to be so stupid, watching the sneer expression of the White Lion's troops.

The deputy chairman of the Forest of Infatuation said to Shen Hai, the head of a mage regiment: "Brother, you have to make a contribution again this time, it's too easy."

Standing in front of the battlefield, Shenhai shouted to Li Xiuyu, "They all say that the Baixi Sanxiong is the strongest legionnaire in the Luyang formation. I killed him and his troops first, and let Luyang know how powerful we are."

Li Xiuyu nodded with satisfaction.

When the white lion rushed to a distance of 100 yards, the deep sea shouted, "Big waves."

500 mages chanted the spell at the same time. After 3 seconds, the spell was completed, and a huge wave of 50 yards in width and 150 yards in length formed in front of them, slamming it towards the army where the white lion was.

In the distance, Wang Teng was about to lead his soldiers to help, and saw 500 huge waves at 20 places, released 25 times in a row and couldn't help but stop.

"Wow, this is so spectacular, who can stop it?" Wang Teng said with admiration, he had to admit that even his troops could not stop the attack of the giant waves.

Li Xiuyu's face also showed a proud look. Although the damage of Julang was only 50% of the magic damage, the damage of each of his mage's mage was around 3000.

Every 25 people overlapped and released in one place, causing more than 30,000 points of damage. He didn't believe that such a wave of attacks was hit and Lu Yang's team could bear it.

Unfortunately, what he didn't know was that in the 20,000 violent battle sent by Lu Yang, each person played 17 5th-level water resistance gems, which can resist 1700 water spell damage, and can only play

1500 against a single skill. The waves that were injured by many laws, and the words "Spell immunity" constantly appeared on their bodies. None of them lost a little blood.

The white lions and others in the huge waves were a little worried at first, but when they saw this situation, everyone stopped fearing and ran forward.

After 5 seconds, 500 mages have released their skills. When Li Xiuyu and Wang Teng watched the waves dissipate and imagined the body of a subway blood brother alliance player, the white lion burst out of the waves, with a raging sword. Chopped down.

"8088" (Critical)

Giant Wave Master fell at the sound!

The White Lion raised his sword and shouted, "Kill ~!"

"Kill ~!" 40,000 players from the Brotherhood of the Iron Blood collectively emerged from the waves. No one was killed, and no one was injured. They rushed into the rushing shield team.

"This, how is this possible?" Li Xiuyu said dumbfounded that he had never played such a game for 6 months, and he didn't know what to do.

The deputy head of the forest saw that the White Lion Army was breaking through the shield line of defense, but Li Xiuyu was slow to issue an order, and could not help shouting loudly: "The First Army Commander Ying Xiao, the Second Commander Fire Rain Ice Wind, 3 Head of the ghost prince, take your troops to block the white lion, don't let him rush to the army. "

The three legionnaire leaders responded together and took 30,000 players straight to the White Lion.

Li Xiuyu's 5000 shield battle platoon on the front is horizontally arranged in 5 rows. They are all wearing level 40 gold equipment. There is healing and blood on the back 50 yards away, and the middle is the shooter and the mage unit.

The leader of the shield battle group shouted coldly: "The whole army stand up, don't mess, the treatment behind will give us blood."

As soon as the words fell, the cold-hearted God of War felt a gust of wind blowing from his head, and looked up. The two wolf and the white tiger took over 500 savage battles to launch their jumping skills to jump over his defensive position and went straight to the treatment behind.

"The troops behind are about to protect and heal," the crying God of War shouted.

"You protect yourself first, the Templars break." 500 players who turned into Templars came to the front.

"Divine grace"

The sergeant's two-handed sword in the hands of 500 Templars ignited a white flame, and the attack mode became a sacred attack.

The white lion slashed on the shield of the cold heart.

"3900"

The total blood of the cold-hearted God of War was only 15,000, and a sword was cut by a quarter.

"Healing soon," shouted the cold-hearted God of War. As soon as the voice fell, he saw the prompt in the dialog box, and your friend, Tsinghua, died.

The cold-hearted God of War looked back, and just saw 500 mad soldiers launching the Whirlwind skill at the same time, killing the healing team like a meat grinder.

Indifferently knows that the trend has gone.

Three seconds later, four swords simultaneously struck the shield of the Coldhearted God of War, easily beheading him. After 10 seconds, the White Lion broke through the shield front and fought with the three legions of reinforcements.

“Strange, why did the vice president just issue the order, not Li Xiuyu?” Xia Yuwei asked.

Lu Yang said, “It may be that Li Xiuyu is not very good at fighting front to face. Sun Yu and bitter half-life, attack from the side.”

“Yes.” Sun Yu and bitter love replied together for half of their lives. The two troops were already ready and looked at each other.

“Wind Elf, drive.” Sun Yu shouted.

20,000 people were blessed by Wind Elves at the same time.

A bitter love shouted: “Brothers, kill me ~!”

20,000 people went straight to Li Xiuyu’s army, as if it were Bai’s Sanxiong’s reinforcements.

Li Xiuyu responded at this time, saying: “The 4th and 5th regiments blocked Lu Yang’s reinforcements. The 6th to 10th regiments encircled from both sides and surrounded me with the White Lions.”

“Yes.” Li Xiuyu decided to use the advantage in number to beat Lu Yang.

On the other side, Wang Teng shouted, “The whole army is attacking.”

400,000 people went straight to the front of Lu Yang like a tide. Wang Teng also joined the battle group. He hated Lu Yang already hated.

Lu Yang sneered, saying: "The turbid wine is pouring, Zhou Tianming, Jiang Ze, and Xia Yuwei, each with 30,000 people attacking head-on."

"Yes." Zhuo Jiu Qing and others returned to the battlefield, taking 120,000 people to face Wang Teng, watching the enemy still 500 yards away, Zhuo Jiu Qing shouted loudly: "Brothers, kill ~! "

"Kill ~!" 120,000 people followed the muddy wine dumping and rushed towards Wang Teng's army without hesitation.

Wang Teng, Qu Han and Che Yu, who were commanding the charge of the army, were stunned.

"What is Lu Yang doing?"

"He thought that someone could beat us 400,000 people?"

Just when they were confused, in the mountains on the northwest side of the wilderness plain, Huo Tianhua and the 300,000 people who shot Sirius had assembled.

Huo Tianhua pointed out to Wang Teng's army and shouted, "Brothers, the opportunity to receive honors is here, kill ~!"

"Kill ~!"

300,000 wolf players rushed out of the mountain like crazy and went straight to Wang Teng's army.

Wang Teng himself was behind the army, and when he heard the shouting and killing, he looked back, his eyes widened in horror, and he said unbelievably, "Wolves?"

"Not good, we're ambushing." Qu Han panicked.

Wang Teng quickly asked: "What should we do now, or should the troops stop to defend?"

Qu Han said: "Can't stop, just issued the charge order, this time shouting to stop, some people can see, some people can't see, our troops messed up when they couldn't make it."

400,000 people took action, saying stop and stop is completely impossible. Once the people in front saw and stopped, the people in the back didn't see it, and the two sides collided together. At that time, the people at the back saw that the former army and the latter army were out of touch and died faster.

"What then?" Wang Teng asked.

Qu Han gritted his teeth and said, "Fight it, first kill Lu Yang's troops and then say, I don't believe we 400,000 people can't beat him through 120,000 people."

Wang Teng said: "I listen to you and fight with Lu Yang, maybe he can kill Lu Yang and grab his demon heart."

"The whole army listened to the order, who killed Lu Yang and snatched the heart of the devil and rewarded 10 million credit points." Wang Teng said in the team channel.

Qu Han shouted: "The 40 army commanders were scattered around and surrounded me by Lu Yang's troops."

Before the battle, Qu Han issued a combat plan. In order to maximize the combat effectiveness, when launching an attack on Lu Yang, 40 army groups were scattered around and surrounded Lu Yang's troops to attack on all sides.

"Unexpectedly, this Qu Han really has two hits." Tu Feng stood beside Lu Yang and said.

If it is under the command of Wang Teng ~ www.mtlnovel.com ~, the troops will definitely stop and stay in place.

Lu Yang said: "When Wang Teng retreated to Beifeng City, I sent someone to find Qu Han. Unfortunately, Wang Teng signed a large contract with him in advance, and I couldn't recruit him."

Nanfeng asked deliberately, "Would you like us to join the Master League?"

Lu Yang nodded and said, "Come on, I haven't been active for a long time. So many people are playing against me and it will excite me."

"Inflammation"

Lu Yang shouted, and a flame wrapped him all over, and the flame continued to swell until it was 5 meters high.

"噦"

The flames burst, and a 5-meter-high red crimson flame appeared in the fire.

Lu Yang pointed with his right hand in front of him and said, "Mage, follow me."

Hei Yan, Black Knight, Nanfeng Zhiyi and Mu Yu led 224 mages to Wang Teng's troops.

Chapter 535 - Sad general

After 5 minutes.

Xia Yuwei and Zhuo Jiu's forces collided with Wang Teng's forces. Both sides were old enemies, and they were very jealous after meeting.

In particular, players from the former Bloodlust Alliance, Necronic Black Sword, and Shenwu Horde who were compiled by Wang Teng, saw the players of the Iron Blood Brothers Alliance waiting to kill each other immediately.

However, this time the battle was different from the past. Each time before the battle, Lu Yang was weak. This time, the 120,000 people they brought over were all 40-level gold sergeant suits.

Wang Teng's 40-level gold suit player was only 80,000. As soon as the two sides contacted, Wang Teng's frontal forces did not show defeat, but both sides became tight.

"Would you like to support it?" Che Yu asked.

Qu Han said: "No matter where, the entire army continues to charge forward. We have a large number of people and ran behind their team and surrounded them."

"I personally rushed over." Wang Teng said that at present the charge on the battlefield is more dangerous than staying in place. Huo Tianhua and the 300,000 people who shot Sirius were only 10 minutes away from where Wang Teng was.

Huo Tianhua and Shooting Sirius did not expect Qu Han to play so hard, and even gave him his back to storm Luyang.

"The whole army accelerated the charge for me." Huo Tianhua shattered the entire acceleration scroll worth 100 gold coins and shouted.

300,000 people accelerated, but there is still 5 minutes to go.

At this point, from a bird's-eye view, it can be clearly seen that Wang Teng's army has become a capital C, forming a semi-encirclement of the team of Zhuojia and others.

Lu Yang is in the position of the C-shaped gap. This place has a low terrain and there are many slow hills around it.

Che Yu just rushed to the top of the hillside with 30,000 people and saw Lu Yang 5 meters high at the bottom of the **** and a small number of mage units beside him, shouting excitedly: "Brothers, the opportunity to build a career is here, target Lu Yang, The whole army is attacking."

Lu Yang in the state of inflammation is too obvious. Thinking of Wang Teng's 10 million bounty, 30,000 people rushed towards the landing sun with red eyes.

"Boss, someone came over from the side." Hei Yan shouted.

Lu Yang said: "The soil mage, Di Longzhen."

Twenty soil mages were divided into two groups to release skills. Stone pillars with a diameter of 30 yards appeared on both sides of the hillside and spread outward in a funnel shape.

Che Yu's 30,000 troops just happened to descend from the hillside. As a result, most of them were trapped in the funnel. At this time, his troops either backed out or rushed out from the narrow mouth in front.

Che Yu knew how strong Lu Yang's Master group was, and where he dared to rush in from a narrow mouth, he shouted, "Withdraw, the whole army withdraws."

There was a sneer in the corner of Lu Yang's mouth, and now there was no time to retreat, the mantra said: "The Great Lord of Fire ..."

Dark clouds are in the sky. In the state of inflammation, the spell range increases by 30%. After 10 seconds, a huge meteorite with a diameter of more than 130 meters broke through the dark clouds and smashed towards the Cheyu Army.

At this time, most of the 30,000 people in Cheyu were still in the funnel. Looking at the crimson meteorite in the sky, he screamed and said, "It's a falling meteor and it's about to spread."

30,000 people want to run away, but there are no people to escape.

“boom”

The meteor fell in the middle of the crowd.

“18978” (Critical Strike)

“19000” (Critical Strike)

...

Countless damage figures appeared on the top of Cheyu’s team. With Cheyu as the center, all the players within 260 meters were killed. The rest of the players did not have the leader to lead the team, and they dared to go up again.

“The whole army is attacking and hunting down these enemies.” Lu Yang shouted.

All the mage regiments knew instantaneous Pyroblast and meteorite impact, and followed the landing sun to the top of the hillside.

Lu Yang looked around and found the problem. At this time, the front was disrupted. Qu Han used the advantage of the number to adopt the method of encirclement. The people around him were not enough.

“Tu Feng, immediately brought 100,000 people to support.” Lu Yang said.

Tu Feng’s army was preparing for Li Xiuyu’s life. Upon hearing Lu Yang’s instructions, he immediately ordered Mo Long to bring 100,000 people to follow.

On the other side.

The broken Cheyu troops just ran across a gentle slope, and met 80,000 players led by Qu Han. When they saw more than 20,000 people running back and forth, they immediately ordered the troops to intercept these defeated soldiers and yelled: "All Stop me, where is your head, who told you to withdraw? "

A deputy commander gathered nearly 5,000 people along the way and ran to Qu Han and said, "We were Che Yu's men. When we first attacked Lu Yang, we were hit by his falling meteor. Che Yu died and we were broken up. Now. "

"A bunch of waste, this is a game that is not realistic, and death is not real death. They are afraid of everything. Everyone turns around and fights back with me. Whoever kills Lu Yang will be rewarded 1 million and the demon heart will be rewarded 10 million."

The wealth was so exciting that more than 20,000 people who turned back immediately turned around, and instead of the whole team, they rushed towards the landing sun.

"Boss, they're here again," said the knight in black.

Looking at that side, Lu Yang found Qu Han surrounded by the crowd and more than 100,000 people around him. He said, "Knight in black, Qu Han was stopped with a black hole."

As soon as the voice fell, the shouting sound on the other side sounded.

Wang Teng just rushed over with 80,000 people, and was preparing to fight back from behind to surround Zhuo Jiu and others, and at a glance he saw Lu Yang, who turned into a flame.

"Lu Yang, you're dead today." Wang Teng laughed and shouted, "The whole army charged and killed Lu Yang."

80,000 people went mad and rushed towards the landing sun. Among these people, they happened to include a group of generals under the bloodthirsty tyrants, Ye Guxing and Allure Demon. Now they have all been demoted to become squadron captains.

Facing Lu Yang, they hate it.

At this time, Wang Teng and Qu Han added nearly 160,000 troops, while Lu Yang had only 229 mages.

Just at this time, the shouting and killing sounded again.

“Boss, I’m here.” Morong rushed to the side with 100,000 people.

Lu Yang shouted at Wang Teng: “The whole army attacked and killed Wang Teng.”

“Yes.” Mo Long replied loudly, rushing into Wang Teng’s team with 100,000 people.

Wang Teng didn’t understand the command of the battlefield. He only knew the onslaught. Mo Long was also a rookie on the battlefield, but his commanders were masters. Soon, 20,000 ran to Lu Yang to prepare for defense. Team, rushed into Wang Teng’s team from four directions.

Wang Teng’s team was in chaos.

Qu Han saw that Wang Teng could not support it, crushed the acceleration scroll, and rushed towards the landing sun with more than 100,000 people.

Suddenly, a black hole with a diameter of 100 yards appeared in the sky and flew towards Qu Han’s location.

Qu Han knew that this was a curse for Lu Yang’s men, and said loudly, “*, let it go.”

Thousands * were thrown from Qu Han’s team, and a large amount of smoke was released after falling on the ground. More than 100,000 people were instantly hidden in the smoke.

Lu Yang’s eyes showed a strong look, this * is a unique item of the goblin family, very restrained his mage troops on the battlefield.

“Boss, what should I do?” Hei Yan asked.

Lu Yang said: “The Space-Time Master Group, the space-time barriers protect both wings, and the Earth Mage uses a secondary forbidden spell to expand the scope of the world.”

Eighteen space-time mage chanted a spell, and space-time barriers were released, nine on each side, locked to a length of 270 meters on both sides. The two mages used the second forbidden spell to sing and create a large pit with a length of 500 meters, a width of 50 meters, and a depth of 30 meters on both sides of the space-time barrier.

As a result, a 770-meter stop belt appeared on each side of Lu Yang.

Lu Yang said: “Nanfeng knows it, and releases Thunder Thunder prison right in front of him. During this period, the black clothes summon the black hole to the front.”

“Yes.”

“Yes.” Nanfeng released the curse directly in front of him.

After 30 seconds, the black hole disappeared, and Kuang Leitian guarded the only channel in front.

“I’m going. Why are there pits here?”

“Be careful, there are pits here.”

...

The sound came from both sides, and Lu Yang’s mouth sneered, saying, “Ice Master, aim at the big pits on both sides.”

Twenty ice mages were listed, and five were in groups. The two groups of players simultaneously released the ice roar, and all the Quhan troops who fell into the pit were killed.

Qu Han ordered the troops to release smoke in order to sneak attack on Lu Yang from three sides. As a result, he ran to the side and found a large pit.

He did not control the troops that fell into the pit, and continued to explore with the large troops, but he saw crystal-like time and space barriers.

“The army gathers here,” Qu Han shouted.

* The internal visibility is 0.3 meters. His troops walked one by one, not many were lost.

Soon, his troops gathered behind the crystal barrier. He knew that this barrier could only last for 10 minutes and could not be lifted on his own initiative. Lu Yang could not run away. As soon as the time came, he could lead his troops to kill him. Lu Yang.

However, at this time, Wang Teng sent a message and said, “Brother, I can’t stand it. Come and save me, or Lu Yang will run from the back.”

On the other side.

Wang Teng’s 80,000 people were cut into more than 10 small squares. Qu Han punched above the barriers of time and space, and rushed out of the smoke with 100,000 people and rushed to Morong’s troops.

Mo Long quickly sent a message to Lu Yang and said, “Boss, I can’t hold it anymore, what can I do?”

Lu Yang looked in the direction of Mo Long. At this time, there were only more than 10,000 people around him. The 100,000 people facing Qu Han couldn’t hold on at all.

But ~ www.mtlnovel.com ~ At this time, Lu Yang is no longer worried. As long as he finds the specific location of Qu Han, his 229 mages can destroy his 100,000 troops.

“Qu Han, you are really a pity. If you have any of my 7 legion commanders around to help you, I am trying to escape today, but unfortunately, you will fail again this time.” Lu Yang used a big horn Shouted.

Lu Yang took the mage to the side of Mo Long, pointed to Qu Han’s troops, and said, “Mage, release the curse at will and hit me.”

The 229 mages were already at their extreme, and for the first time, they were almost overwhelmed by *.

“Meteor Fire Rain”

“Icy Roar”

“Space-Time Cutting”

“Lightning Storm”

...

Various injunctions were shining among Qu Han’s troops. Even though Qu Han split his troops and dispersed, more than 80,000 people were killed.

When Wang Teng heard Lu Yang's words, he knew that he was going to do bad things. At this moment, the shouting and killing sound behind him was sounding. Wang Teng looked backwards. Huo Tianhua and the 300,000 troops who shot Sirius arrived. Also led the team rushed back.

Wang Teng knew that the situation had gone. He was unwilling to send a message to Li Xiuyu and said, "How about you, why haven't you arrived yet?"

Li Xiuyu's side was already in chaos. The front was beaten by the 40,000 troops of the White Lion, and he passed through two rounds. On the side, he was killed by 20,000 who loved half-life and Sun Yu and killed tens of thousands.

In the battle of the Chinese Army, Li Xiuyu was at a loss. He repeatedly issued orders and did not reverse the situation. He could only ask Enchanted Forest and said, "What shall we do now?"

There is still no way out of the fascinating forest. To this day, he is the first time he has encountered someone who inlaid water-resistant gems with gold equipment specially designed to restrain their water mage troops.

Most of the 80,40-level gold equipment in his hand was a water mage, and the rest were melee occupations. As soon as he contacted, most of the main combat power was abolished. This targeted play made the fascinating forest extremely uncomfortable.

At this moment, he received news from Wang Teng, and Li Xiuyu said, "What's wrong with you?"

Wang Teng was resurrected in Hannibal and said, "The whole army is annihilated."

"What, why is it so fast?" Li Xiuyu asked.

"Huo Tianhua and Shooting Wolf wore 300,000 wolf players to attack me from behind. I can insist that they all rely on Qu Han now." Wang Teng said.

Li Xiuyu was speechless. He really didn't know what to say. In the face of the 60,000 troops that attacked him, he had no solution at all with 400,000 people. It was a shame.

Just when he was confused, Huo Tianhua and Shooting Sirius appeared on the side with 300,000 people.

"The whole army is attacking," Huo Tianhua shouted.

300,000 wolves stormed into Li Xiuyu's team.

Standing at the top of the hillside, Huo Tianhua said to Lu Yang: "Brother, you are too fierce. Even if Sirius and I didn't bring anyone in, you could kill Wang Teng."

Lu Yang said: "Fortunately, I didn't expect Qu Han to have such things in his hands. If it was not Wang Teng's waste, I would have killed Qu Han."

Tu Feng said, "Boss, next time you can't take such a little person to act, it is too dangerous."

Lu Yang nodded and said, "I still have insufficient strength. I have to be stronger."

Huo Tianhua said silently, "How can you be stronger? If you are stronger, others will not be able to play."

Lu Yang smiled and didn't speak. He was thinking about the demon's heart. After this battle, he would continue to upgrade the heart of the demon. Moreover, the follow-up mission of the Fort of Fire and Fire was also done.

The three males of the Bai family, the half-loving half-life, and Sun Yu took the team back to Lu Yang. In order to avoid accidental injuries when the Wolf fighters entered the battle, Lu Yang gave them a message to let them down.

"Boss, it was so cool to kill. For the first time, 40,000 people hit 400,000 people. There was no major damage to killing them back and forth." The White Lion said with a laugh.

A bitter bitter love said: "This embroidered pillow was a mess, Sun Yu and I circled around, and his team was stunned."

Huo Tianhua sighed: "This time Li Xiuyu is really famous, 400,000 have never hit 60,000."

Everyone laughed.

Lu Yang said, "It's so strange that Li Xiuyu thinks that his water mages can be invincible when they come together. Everyone knows that they are garbage."

On the battlefield.

Li Xiuyu's troops were quickly defeated by the 300,000 troops that shot Sirius and Huo Tianhua. Huo Tianhua asked: "Brother, what do we do next?"

Lu Yang said: "The situation is too chaotic. The best way is for us to mammoth around the Lanshan Fortress."

"What about Li Xiuyu?" Jiang Ze asked.

Lu Yang said with a smile: "Li Xiuyu's side is too messy, do you know why the silk language didn't come?"

"I'm curious. I'd like to see what Lusi has to see us in," said Zhuoji Qingdi.

Lu Yang said: "While the Essence and Hessen Fortress are fighting against a coalition formed by 6 people including Yao Zhi, Lu Jie, and Leng Weixin."

"Yao Zhi, they counter-attacked. There are 500,000 people in the six together. Can only 200,000 people keep the silk language?" Mao Qiu asked.

Lu Yang said, "You underestimate the slang words, he held on, and repelled the coalition of Yao Zhi and Lu Jie twice."

"How to do it." The crowd asked in amazement.

200,000 to 500,000, still defending two forts, everyone was surprised.

Lu Yang said: "Simple, he brought more than 200,000 troops. Which guild did not have one or two enemies? The **** language attracted more than 20 guilds before the war, including 3 super guilds. Many large trade unions have more real coalition forces than Yao Zhi and Lu Jie. Our side is a million-level battle, and so is his side. "

"This woman is so powerful."

"It's crazy."

...

Lu Yang said: "Now Hannibal City has become a mess of congee, and there are wars everywhere. We'd better be mammothed around the Lanshan Fortress, and when they're finished there, we can clean them up. Hey we. "

Everyone nodded.

"Yao Zhi and Lu Jie should be on the verge of madness now, or don't make a mess." Tu Feng said.

"Dididi"

Tonghua sounded, and Lu Yang picked it up and saw that Lu Jie called. "Sure enough, he came to me. I'll listen to what he said."

Lu Yang pressed the release button, and just after the call was connected, Lu Jie said excitedly, "President Lu Yang, I heard that you won there."

Lu Yang said: "Just won the first battle and is working on the team."

The bodies of players killed in the battle are all over the western wilderness. It takes a long time for the healing troops to rescue them one by one. In addition, it takes at least 20 minutes to gather the troops.

Lu Jie said, "Chairman Lu Yang, I have encountered difficulties in fighting here. Can you send someone to help us, and if you help us recapture the fortress, we are willing to distribute 30% of your shares."

Lu Yang said: "Sorry, Li Xiuyu and Wang Teng have 800,000 troops together. I will do my best to fight every battle, and I will be defeated if I accidentally. I can't help you."

Lu Jie said, "But don't you have a wolf to help, there is no problem in dividing 200,000 people."

Lu Yang said, "Are you comparing this to the human head? This is a war. If you accidentally lose everything, I will never take my brother and me to risk it. Come on and fight, I have 800,000 people have been held down for you, and you will not come to your own fortress. Think for yourself. "

Lu Yang hung up the phone directly.

Huo Tianhua thought that Lu Yang was angry, and advised: "Don't be angry, what to do with him."

Lu Yang said: "I'm not angry, I just said that, I'm stupid, he gave me 30% of the shares, I will give him a fortress. If it can be beaten, I will give it to my brothers. That 30%. "

Huo Tianhua said silently, "I wipe, I thought you really helped him."

Zhuo Jiu and Xia Yuwei laughed.

Shooting Sirius patted Huo Tianhua's shoulder and said, "Brother, you look down on our boss too much. He is never confused about right and wrong."

Lu Yang said: "Look at the shooting of Sirius. The description is so standard. You will praise me like this in the future. Don't always say that I play a conspiracy. My name is wisdom."

Xia Yuwei smiled holding her belly and said, "No, I have a pain in the waist that laughs. You are too inelegant. You obviously calculated Yao Zhi and Lu Jie, and let them help us stop more than 50 people. In turn, they said we Help him stop 800,000 people, no more. "

The crowd reacted, and it seemed that was really the case.

Lu Yang said, "Nonsense, otherwise, wouldn't we now have to face a coalition of more than 1.3 million people, could we fight so easily?"

"It's true," said bitter love for a long time.

"Okay, I won't talk to you anymore, the whole army will end our attack on Lanshan Fortress." Lu Yang said.

"Yes." Counting shooting Sirius, the eight commanders said together.

Each of the seven people in Zhuoju took 60,000 people behind Lu Yang, and the troops that shot Sirius and Huo Tianhua walked to the left.

Huo Tianhua asked curiously: "Brother, let me ask you how to lead troops. When the number of people on my side reaches 400,000, I will not be able to command. How can I command 420,000 people like you? relaxing."

Lu Yang said: "Two conditions, you need to find some legions that can really be recognized by players, and then they also need to know how to lead soldiers, brother, this game is no longer a game, you have to treat him as real Come and play in the war. When you see talents, you have to be willing to spend money and share. The most important thing is to give up the right to score. "

Huo Tianhua asked: "How do you divide."

Lu Yang said with a smile: "I only care about 7 of them ~ www.mtlnovel.com ~ I don't care about the players below."

Huo Tianhua said with a black line on his forehead, "You tease me."

Lu Yang said, "What are you doing? Really, these people recruited them. I told them on the first day I laid the fort. I will only care about 7 of them afterwards. In fact, here are seven small guilds, each with 60,000 guilds, so my transfer is like a play. "

This method has advantages and disadvantages, but at present, the benefits far outweigh the disadvantages. Once there is something, a regiment leader rushes up with 60,000 people. The players are appointed by them, and every link is like a finger.

Huo Tianhua said, "I also try."

Lu Yang said: "Remember, you must give the talent a big contract for such an attempt, and that character must be absolutely guaranteed. Otherwise, once someone buys it, your guild will be over."

Huo Tianhua nodded, and he had also heard about the purchase of the heads of the 7 major legions of the Luyang Guild.

The two chatted along the way and brought 700,000 people to the fortress of Lanshan Fortress.

“It was peaceful enough on the way, not even a blocking force.” Huo Tianhua said.

“Yeah, the other human guilds didn’t say to come together to make heads and give us some honor points.” Shoot Sirius.

“Everyone is fighting the fortress against the Hessen fortress. Where else can I come?” Xia Yuwei said.

It stands to reason that the Wolf invasion of the human race is a racial war. Human race players do not need to persuade them to gather together. Unfortunately, now the powerful guilds in Hannibal are fighting, and none can help.

Lanshan fortress city head.

Wang Teng and Li Xiuyu looked at Lu Yang’s 700,000 troops with mixed feelings. The original idea of the two was that if they could compete with Lu Yang in the wilderness plains, their dead players would be resurrected from the Lanshan Fortress and fell immediately. The rain fortress ran over and joined the battle. In this way, Lu Yang would soon be unable to bear it and took the initiative to retreat.

Unfortunately, I did not expect that Lu Yang’s strength was so strong, nor did he expect that the people of the Wolf clan would come here, and the two who did not dare to go out of the city could only watch Lu Yang come under the Lanshan Fortress.

Wang Teng asked Qu Han: “What should we do now? Is there any solution?”

Qu Han said, “General Manager Wang, you must contact Luo Cheng in time to let him find a way to threaten to shoot Sirius and Huo Tianhua’s fortress. As long as they are threatened, they will definitely return to the wolf tribe.”

“That makes sense,” Wang Teng said.

Qu Han said to Li Xiuyu, “Li Shao, I suggest that you immediately let Lu Siyu and Lu Jie cease fighting.”

“Why?” Li Xiuyu asked.

Qu Han said: “The purpose of Lu Yang’s visit this time is to lay the fortress, either to hit the Lanshan fortress or to drop the rain fortress. When Luo Cheng can think of a solution is not necessarily, if the Lanshan fortress is breached before then , We can return to Beifeng City, but your Hannibal City will be difficult. “

Li Xiuyu understood Qu Han’s meaning. Although the language contained threats, this was the case.

“I also want to stop the truce, but it’s Yao Zhi and Lu Jie who are going to hit me. It’s not me who hits them. I can’t help it,” Li Xiuyu said.

Qu Han said, “I have a solution.”

“What way?” Li Xiuyu asked.

Qu Han said, “Return Echo Fortress and Hessen Fortress to Yao Zhi and Lu Jie.”

“What?” Li Xiuyu stared at Qu Han angrily and said, “Why did I return the fortress to the two of them? This was what I knocked down.”

Qu Han said: “Shao Li, no one is a fool. Yao Zhi and Lu Jie have just defeated. It is when morale is low. Why is it that Lu Yang is now beating you so desperately? Lu Yang has not given them hope.

“So what,” Li Xiuyu asked.

Qu Han said, “Do you think Yao Zhi and Lu Jie didn’t know that Lu Yang was using the two of them? If you return the fortress to them and sign a non-aggression agreement, they will immediately stop the army. The 500,000 people in the silk language can invest here to participate in the fight, and we have every opportunity to hit Lu Yang by surprise, and even hit the Huayu Fortress. “

Wang Teng clapped and said, "This is a good idea, Li Shao, it is worth the risk."

Li Xiuyu's face was iron and blue, and he said to Qu Han, "You mean that I let Li Xiuyu sign an agreement with them before tearing it up, right?"

Qu Han said, "Yes."

"It's impossible. I represent the Li family. If I do things differently, my family will be ridiculed by countless people. Do you know how much this affects me?" Li Xiuyu asked.

Qu Han and Wang Tenghuan stopped. They did not expect that Li Xiuyu's point of view was like this.

"But this is our last chance. If we can't win, everything will be over." Qu Han said.

Li Xiuyu shook his head and said, "Think of other ways. I won't joke about the reputation of the family."

"Then we can only wait for Luo Cheng's news. If we can hold the fortress before then, I can only do my best." Qu Han said.

Wang Teng said, "I'll call Luo Cheng."

Under the fortress.

Lu Yang said to Huo Tianhua: "You have already exposed that battle. I guess Wang Teng will definitely ask Luo Cheng for help and force you to go back. You must be sure that your two cousins will not attack."

Huo Tianhua said with a smile: "Last night I found the two of them to talk about the acquisition. They were temporarily stabilized by me. Another one, even if it came, I was not afraid. I still have 300,000 people at the fortress. . "

Lu Yang said: "That's good, I guess Wang Teng and theirs have nothing good to do. Lu Jie and Yao Zhi have just sent me a message and successfully hit the city head of the Hessen Fortress. Bian absolutely has no ability to support this Lanshan Fortress. We are going to fight as much as we want now. "

"Boss, how do you want to fight." Bitter love asked half a lifetime excited.

Lu Yang opened the three-dimensional map and pointed at the Lanshan Fortress. "This fortress is built on the plain, and all four gates can be attacked. After a while, the war begins. The muddy wine, white lion, and bitter love are half-life. The three of you are responsible for hitting the south. Gate, Huo Tianhua and shooting Sirius are responsible for hitting Simon. This battle does not seek to lay a fortress, mainly to kill. "

"Kill?" Everyone looked at Lu Yang in surprise.

Lu Yang smiled and said, "If we lay the fortress now, Wang Teng would escape to the scorching sun fortress, and Li Xiuyu would order the silk to abandon the two fortresses of Echo and Hessen, and keep the fortress in the rain, so that the war would be over. want."

"Is this bad?" Xia Yuwei asked.

"Of course not good. Once the war is over, what do you think Lu Jie and Yao Zhi would think of me?" Lu Yang asked.

"The invaders, the invaders who are more terrifying than Li Xiuyu." Xia Yuwei said.

Lu Yang said: "Yes, no one who can be the chairman is a fool. Do they still think that I will live in peace with them? Either I hit them or they hit me.

Now I'm stronger than any of them. The most likely result is an alliance between Lu Jie, Yao Zhi and Li Xiuyu.

At that time, I had a Lanshan fortress alone, with Wang Teng on the top, Li Xiuyu on the bottom, and Lu Jie and Yao Zhi's coalition on the right. "

The crowd nodded suddenly.

The white lion said: "The boss is right, he really can't fight it."

Lu Yang said: "Our purpose tonight is to grab equipment and get honors. They are all players wearing tier 40 gold equipment in the defensive city. After we attacked, they robbed him of tens of thousands of equipment and waited. They reorganized the troops. "

Zhuoju said: "Boss, I apply for the first siege."

"Let's go too," said the White Lion.

Lu Yang said: "Don't worry, there are opportunities. Your army groups will go up one by one. Starting from the muddy wine, I will let Hei Yan take the mage regiment to cover you and send me a message when I retreat. "

"Yes." Zhuoju responded loudly, returned to the battlefield, and led his 60,000 people straight to the south gate.

Huo Tianhua said: "I'm also welcome here, brothers, kill ~!"

Huo Tianhua personally took 300,000 wolf players directly to the West Gate.

Lu Yang stood in front of the battlefield and looked at the situation on the battlefield with a relaxed smile on his face. The defender of the South City Gate was Li Xiuyu, and the Paladin with the muddy wine rushed to the city wall with an invincible aura. The Paladins are all level 40 gold sergeant suits, and Li Xiuyu's troops who have killed each other have retreated.

Soon, the second wave of 10,000 violent battles rushed to the top of the city, and the healers, mages, and shooters at the back also quickly reached the gate.

Lu Yang scratched his head and said, "How can this muddy wine be so fierce."

As usual, this person who has muddy wine has almost no temper. Like a chivalrous person, he can find anyone who has a problem. He is willing to help and will explain as much as possible. He is a very good gentleman. In this state today, Lu Yang It was only seen when they had only 3,000 people and were besieged by 30,000 bloodthirsty tyrants.

Xia Yuwei said: "It's probably for Lan Yu. Li Xiuyu wants to cheat Lan Yu's feelings. It's not just me, Zhuoshu, White Lion, and half-loving half a lifetime. They are all very angry. When they entered the game today, they told me I will avenge Blue Feather. "

Lu Yang was stunned, no wonder that the three brothers of White Lion and Sun Yu, who loved half their lives for so long, were so fierce, as if they were dead.

"A bunch of good brothers." Lu Yang said.

Xia Yuwei nodded.

The fortress is above the city.

Li Xiuyu watched the first one rushing to the city, and dumped a group of people with muddy wine left and right to kill. He was a little terrified and asked, "Who is this man?"

Enchanted Forest said: "He is the muddy wine pouring, Lu Yang's well-known first general, and the old man at the age of 500,000 did not ask him to touch him."

Li Xiuyu said neatly: "I care who he is and continue to send people to attack, even if they push, I will push them down the city."

The fascinated forest nodded and ordered more troops to rush to the city to attack the muddy wine.

After 15 minutes.

The turbid wine poured out, and it felt like he was fighting hard. His men died of 20,000, and Li Xiuyu died at least 100,000.

“Boss, ask for support, we’re going to step down.” Zhuojiu poured a message to Lu Yang.

Lu Yang said: “After 30 seconds, the meteor fire and rain will cover the city.”

“Yes.” Turbid wine poured out and turned off the intercom.

After 30 seconds ~ www.mtlnovel.com ~ a meteor fire rain fell from the sky, covering all positions on the south wall, Li Xiuyu’s troops quickly retreated.

Zhuo Jiu shouted, “Treatment saves people, the rest occupations pick up equipment and retreat.”

The priest and knight’s rescue skills only took 10 seconds. Soon, 20,000 people were rescued. With the support of the curse, the muddy wine poured back to Lu Yang with ease.

“The report boss, rough calculations, seized 10,000 pieces of 40-level gold equipment.” Zhuo Jiu Qing said.

Lu Yang said, “It’s yours.”

“Thank you, boss.” Zhuo Jiu left happily.

Xia Yuwei said, “The second time I come, Lan Yu and I will clean up Li Xiuyu myself.”

Lan Yu used the grunt mixture to eat a big fat ball for himself, adding to his subordinates and angrily said, “See how I can pack him.”

Lu Yang laughed and said, "Yes, you guys will be the second one."

Chapter 538 - Blue Feather Revenge

Lu Yang handed over the Hertos suit and magic wand to Lan Yu and said, "It's better to use this one than that one."

Blue Feather nodded, and after putting on a piece of equipment, the intelligence reached 6000 points. The effect of the Earth Spirit's protection is to increase the group player's defense power by 30 + spell damage / 10.

60,000 players walked in front of Blue Feather, and each person was added with more than 600 defensive power. Compared to the troops with muddy wine pouring, Xia Yuwei's troops have higher defensive power and stronger combat capabilities.

Over the city.

Li Xiuyu thought he had just succeeded in defending the city, and said happily, "Just fight like this, Lu Yang's troops will come up for a while, and we will kill them, as long as Luo Cheng can send someone to attack Huo Tianhua and shoot Sirius fortress. We won. "

The fascinating forest did not show a smile. He instinctively felt that something was wrong, but he couldn't say anything. After all, they did retreat from Lu Yang's troops.

"The enemy is here again, weird, why is the head of a woman?" Deep Sea asked.

Li Xiuyu looked down at the city, facing Lan Yu's eyes, looking at Lan Yu's angry look. He looked away and said, "It is Xia Yuwei's army. Be careful, this woman is not easy to deal with."

“How strong a woman can be,” Deep Ocean said indifferently.

As soon as the voice fell, in the sun, a killer appeared out of thin air, inserted into the back of the deep sea with a stab.

“16888” (triple crit)

Before the deep sea died, he turned in horror, and just saw the smiling face looking up at the glimmer.

“She’s not qualified for you to comment,” said Looking at Weiguang.

“How did the enemy come up, attack fast, attack fast.” Li Xiuyu shouted in panic.

The guard players around hurriedly rushed to look at Weiguang, but before rushing to look up to Weiguang, he disappeared into the sun.

A group of vice-chairmen and chiefs of the army looked in horror at the place where the glimmer disappeared, and everyone looked at each other.

“Where is it?” The second vice-chairman asked madly without pardon.

“It just disappeared from the sun,” said the Seventh Army Commander with a bruise.

“Hurry up, can you let him kill me?” Li Xiuyu scolded.

As the crowd was about to act, the first vice chairman of the forest said infatuatedly, “Don’t find him. You can’t catch him. The Guards will return to protect the president.”

“Who is he, so weird?” Li Xiuyu asked.

“That person was called Looking up at the gleam, and was the only player in the game who turned into a white rainbow thief. He was free to hide in the sun. There was also a shadow thief called Xia Ye Chenfeng, who was specifically hiding in the shadows to kill. The two brothers, known as light and dark thieves, were dumped for Xia Yuwei’s dance and joined the Queen’s Guard. They were one of Xia Yuwei’s four masters. “

“This woman is powerful enough to recruit such masters.” The Third Army Commander Liancheng Superman leaned under the eaves of the tower.

“Thanks for the praise.” The shadow thief appeared behind Liancheng Superman, a dagger inserted lightly into his neck.

“16888” (triple crit)

Liancheng Superman, die!

“Catch him,” shouted Li Xiuyu.

More than 10 players immediately ran to the location of the summer night morning breeze, but did not wait to reach the place, the summer night morning breeze merged into the shadows.

“This, how can this be played.” A player said confused.

Players around were stunned by the light and dark thieves’ killing methods and looked at Li Xiuyu one after another.

Where can Li Xiuyu have a way, he can only order the troops near the tower to form a square array, and do not go into the shadows.

80 yards outside the fort.

Xia Yuwei, Lan Yu, and Zhang Zibo all smiled as they saw the chaos around Li Xiuyu from the perspective of looking at the low light.

“The two will become famous in this battle. The light and dark thieves are too strong.” Zhang Zibo said.

Xia Yuwei pulled out the 60-level Overseer’s two-handed sword and said, “It’s time we got on, the whole army is attacking.”

The 30,000 Queen Guards followed Xia Yuwei and pounced on the city wall, threw a horse rope under the corner, and quickly climbed to the top of the city wall.

“Archery, kill them.” Shouted Li Xiuyu’s commander, Bancheng Yansha, a monk.

The 50,000 archers on the city’s head immediately started shooting, among which the most elite players concentrated near the city gate, shooting hundreds of bows and arrows at Xia Yuwei.

Zhang Zibo carried the shield in front of Xia Yuwei.

“噠”

“噠”

“噠”

...

The sound of bows and arrows hitting the shield continued.

“-1”

“-1”

“-1”

...

Zhang Zibo is a 60-level gold-level Overseer shield battle set, with more than 4,000 defenses. Adding the 600 points of defense added by Blue Feather, a total of 4,600 points, even a shooter wearing 40-level gold equipment on the city's head cannot beat Zhang Zibo.

Not only is Zhang Zibo undefeated alone, with Xia Yuwei as the center, about 1,000 players are not broken. They are 1000 gold shield fighters carefully prepared by Xia Yuwei. They are used to attack the city. Although they wear 40-level shields, everyone The armor is above 3000 points, and the defenders on the city are completely unbreakable.

What makes them even more uncomfortable is that most of them wear water-resistant gems on the equipment they wear. The defensive forces on the city can only use other skills to attack. However, there is a complete healing profession under the fortress, wearing level 40. In military uniforms, their healing ability was strong, and few siege troops were killed.

The garrison on the city's head was dumbfounded by such a high-quality and powerful enemy. The half-city smoke and sand turned back and said in a panic, “The enemy is too strong, and it is about to rush up.”

“What?” Frozen Forest frowned and headed towards the city. As soon as it came down from the tower, a cloud floated in the sky to the top of Frozen Forest, and a large shadow covered the Frozen Forest.

At this moment, the infatuated forest instinctively felt bad, and just about to launch his skills, a dagger was inserted into his back neck.

“Dude, let's go.” The summer night morning breeze suddenly appeared in the shadows, and then suddenly disappeared, leaving only the body of a fascinating forest.

“Asshole.” Li Xiuyu scolded, but could not help but shouted, “The 9th and 10th regiments are ready. Once the enemy rushes to the wall, they will be beaten down.”

“Yes.” The two commanders shouted together. The ten thousand regiments in their hands were all mad warriors and paladins. They all tried the level 40 gold suit, but they lost in the battle of turbid wine just now. A lot of equipment.

After 5 seconds.

Zhang Zibo climbed to a position 10 meters from the city head, looked up, and a shooter in front of him just leaned out.

“charge”

Zhang Zibo turned into a phantom and rushed to the city head. The shield slammed the shooter. At the moment when he stunned the opponent, Zhang Zibo held the wall stack with his left hand and jumped over and jumped to the wall behind the shooter.

“Yu Wei, come on,” Zhang Zibo shouted.

Xia Yuwei looked up, just to see the stunned shooter.

“charge”

Xia Yuwei rushed to the top of the city like Zhang Zibo, and also spun behind the shooter and just landed.

“Furious, Whirlwind!”

Xia Yuwei spun madly in place, sweeping the shooter unit on the left side of the city head.

The health of the shooter player is relatively low. There are only 5,000 in the level 40 gold suit and more than 3,000 in the 30 level gold suit. Xia Yuwei's whirlwind damage has more than 4,000, which lasts 30 seconds. Nearly 500 people.

"This woman is really a lunatic." Li Xiuyu hid from the tower and cursed. He had previously chosen to pursue Blue Feather instead of Xia Yuwei, and was afraid of Xia Yuwei's crazy revenge.

"Li Xiuyu, have the courage to come and fight with me." Xia Yuwei pointed at Li Xiuyu.

Li Xiuyu has not honed combat skills, where dare to fight against Xia Yuwei, gritted his teeth and scolded: "I don't have general knowledge with you."

"So what about me." Lan Yu didn't know when he came to the city wall and looked at Li Xiuyu on the city tower 50 meters away. Lan Yu said angrily: "Li Xiuyu, we grew up together from a young age, you lied to me, do you know I know, because of you, my dad was hospitalized. "

On the night of the end of Lan Yu's birthday banquet, Shen Mengyao's father-like heart attack went to the hospital.

Li Xiuyu looked at Lan Yu's gaze and said, "I have my reason. I can only say that I didn't mean it."

"You did make money stun your head." Lan Yu raised her staff and pointed Li Xiuyu with her hand.

"Off"

A purple and black light suddenly appeared on Li Xiuyu's body. Under the rapid rotation, the purple and black light scattered around Li Xiuyu frantically.

"15860" (Critical Strike)

...

Li Xiuyu's total blood volume was only 15,000 points, which was instantly killed in the spot.

"President is dead, Druid is going to save people," the captain shouted.

The 10,000 druids who had been hiding behind rushed to the front, and someone immediately ran to the front to resurrect the fascinating forest and Li Xiuyu.

"Kill me for the woman who killed him and reward him with 10,000 credit points." Li Xiuyu shouted at Lan Yu.

A dignified guild president was killed on the battlefield, which made Li Xiuyu feel ashamed.

"Want to kill me, let you see this girl's trick." Lan Yu pointed at Li Xiuyu with her hand.

"ruling"

A bright blue light appeared in front of Li Xiuyu.

"Protect the boss," shouted the fascinating forest.

Nine shield battles surrounded Li Xiuyu. Li Xiuyu was a paladin and opened the invincible aura just when he thought it was all right.

The bright blue light suddenly erupted around him.

"10698"

“10896”

“10798”

...

Nine shield battles were killed in an instant ~ www.mtlnovel.com ~ Li Xiuyu surrounded by them showed an incredible look on his face, because he was dead.

The verdict is invincible!

Lu Yang saw that Lan Yu released the bright blue skills under the city and knew that he had learned the ruling. He couldn't help but be amazed. Two of the six sacred skills of the temple sacrifice Lan Yu have learned two, starting from the second and going to the back The skills of God's punishment, God's wrath, and condemnation can all be invincible.

A light flashed.

Li Xiuyu was resurrected again. At this time, he didn't dare to look down on Lan Yu as much as before, and with deep fear on his face, he quickly retreated to the crowd.

“Crazies are a group of lunatics.” Li Xiuyu hid behind a group of guards. He didn't want to die a third time, and directed the fascinating forest. “Send people quickly, send more people, drive them down.”

The fascinating forest doesn't want to, but the city walls are so wide in total, they can only accommodate less than 150,000 people, and 60,000 people are attacked on the opposite side, leaving only 110,000 people in their space.

Chapter 539 - Offense by turns

“The gold troops of level 40 came to me to gather to form a strengthened army, and crushed them from the front.” Shouted the fascinated forest.

The 20,000 players of the 9th and 10th regiments led by the regiment leader to the fascinating forest.

“Brothers, rush, hold them down.” Shouted the fascinated forest.

20,000 players with 40 levels of gold equipment pounced on Xia Yuwei’s troops from the side of the tower.

Xia Yuwei was looking for the enemy’s golden army and saw someone take the initiative to die, and rushed with the army.

Zhang Zibo guarded Xia Yuwei, Hansha rushed to the front, and light and dark thieves shuttled through the enemy’s mage and healing groups.

Light and dark thieves in the 60-level Warlord suit can kill 40-level cloth players, and Li Xiuyu’s high-ranking mage troops can never attack Xia Yuwei.

After 10 minutes.

Xia Yuwei slashed the fascinating forest with one shot, picked up his 40-level gold suit, looked at the battlefield, and found that two thirds of the rest of his own were running out, but the supplies were almost exhausted, and a message was sent to Lu Yang: “We are going to retreat.”

Lu Yang said, “After 30 seconds, the mage team will support it.”

Xia Yuwei shouted: “Set up a shield and prepare to retreat.”

Zhang Zibo took the shield war player to the front of the city wall, and the big shield protected the players behind him.

Li Xiuyu said excitedly: "Stop them, don't let them run away."

On the city wall, Li Xiuyu's troops had been killed in chaos. The fascinated forest was unable to organize an effective counterattack. Although a large amount of magic and arrow rain attacked Zhang Zibo's shield, Zhang Zibo managed to carry it.

After 30 seconds.

The dark clouds over the city walls glowed red, and countless fireballs fell.

"It's a secondary curse, and everyone should hide," a chief of the army cried.

Li Xiuyu said with a grimace, "Do you think that only you have a secondary forbidden spell, and I have it too, and the forbidden wizard is out of the ranks."

Twenty water mages walked behind Li Xiuyu.

"I don't believe that all of you have hit the water resistance gems and covered the city head with water waves." Li Xiuyu said.

The 20 water mages nodded and chanted a spell behind a group of shield battles.

Li Xiuyu looked at Xia Yuwei with a smirk, and murmured, "I guess you will retreat. I see what you will do this time."

Over the city, a large area of flame magic covered Li Xiuyu's troops.

Xia Yuwei did not immediately lead the team to retreat, but shouted loudly: "Resurrect teammates, pick up equipment, and retreat after 20 seconds."

"Yes." Zhang Zibo, Han Sha and others led the team to pick up equipment, and Lan Yu brought the priest to revive the player.

The light and dark thieves did not retreat, but continued to take advantage of the two, one hidden under the eaves of the tower and the other beside the tower.

Xia Ye Chenfeng leaned against the corner and said, "It looks like we have gained a lot this time."

Looking up at Weiguang, he was about to speak. Suddenly, he frowned and looked in the direction of Li Xiuyu. He found that the magic fluctuations in that place were particularly strong.

"Strange, why does someone seem to be putting a secondary forbidden spell." Looking up at the glimmer toward Li Xiuyu's position in the light.

He didn't dare to walk too close, and Li Xiuyu was covered with phosphor powder, and he would be exposed when he walked over.

Just arrived at a distance of 10 meters from Li Xiuyu, Li Xiuyu saw a bluish blue light through the gap between the two shields. He suddenly opened his eyes and sent a message to Xia Yuwei. "Boss, someone is aiming You release the curse, much like the water curse water dragon wave. "

Xia Yuwei's eyes showed a hint of fear. The water dragon wave summoned a water dragon to hit the target. The power was weaker than the meteor fire rain, but the range was twice as large as the meteor fire rain.

Some of her troops have just been resurrected, and even if the rest of them jump off the walls now, most of them will die.

Xia Yuwei quickly said to Lu Yang: "Someone on the tower is releasing a curse on my troops and asking for support."

Lu Yang looked at Mu Yu beside him and said, "The location of the tower is a static storm."

"Okay." Mu Yu said a spell quickly.

Lu Yang said to Xia Yuwei: "Don't worry, they will never put out a curse, you will return as originally planned."

"Yes," Xia Yuwei said.

Inside the tower, as Xiuyu's spells gradually took shape, Li Xiuyu's complexion gradually turned pale.

As soon as 30 seconds elapsed, 20 water mage's spells were completed at the same time. At this moment, 20 shield warriors flashed to the sides at the same time, exposing 20 water mage.

"Water Dragon Wave"

...

Twenty people pointed the direction of the city wall with their fingers, and the dark clouds in the sky were suddenly lowered. Twenty blue water dragons protruded from the clouds.

"Neighing ~"

A clear dragon chant sounded, and 20 water dragons with a length of 100 meters descended from the sky and headed for Xia Yuwei.

"Be careful." Zhang Zibo raised his shield in front of Xia Yuwei.

Just when Zhang Zibo thought he would die, undoubtedly, carrying the shield and ready to withstand the impact of the water dragon, he found that the water dragon did not appear, but it was just pouring rain in the sky.

“Strange, is this a water dragon wave, hurt?” Zhang Zibo removed his shield and looked curiously at the sky. At this moment, 20 water dragons in the sky disappeared.

“Strange, what’s going on, I remember Shui Longbo didn’t look like this.” Hansha asked.

Xia Yuwei pointed at the front tower and said, “Look there.”

The thunderstorm-like lightning covered 100 yards around the tower, and Li Xiuyu and his troops in the middle of the lightning suffered a lot of damage.

“What skill is this and why is my magic ineffective.”

“Add blood, hurry up, pay attention to the boss’s blood volume.”

“Can’t add blood, can’t use skills.”

“Our water wave was interrupted, and the enemy’s spell had a silence effect.”

...

The city head made a mess, Li Xiuyu shouted while taking blood medicine: “Leave the tower, leave the tower.”

Zhang Zibo sighed, “There are so many experts around the boss.”

Xia Yuwei said, “Let’s withdraw.”

The crowd nodded, and after picking up their equipment, they jumped off the tower and returned to Lu Yang.

“Boss, got 13,000 pieces of 40-level gold equipment.” Xia Yuwei said.

Lu Yang smiled and said, “It’s yours.”

“Thank you, boss.” Xia Yuwei took her men to the side to distribute equipment.

“Boss, it’s our turn.” White Lion said anxiously, at this speed, there was nothing left of the last one.

Lu Yang said: “You and the half-loving half-life and Sun Yu went to support Huo Tianhua to shoot Sirius, and they encountered a problem there.”

“Yes.” The three ran to Huo Tianhua’s position with their respective troops. Unlike Li Xiuyu, Wang Teng’s main force was very strong, and Huo Tianhua and Sirius shot a lot more.

Watching the White Lion wait for others to leave, Lu Yang said to Zhou Tianming, “The third one is up.”

“Thank you, boss.” Zhou Tianming said excitedly. According to the order of joining the guild, he was the last one. He thought he wanted the last siege. I did not expect Lu Yang to arrange him in third place. He immediately returned to the army with 60,000. People rushed to the fort.

Over the city.

Li Xiuyu saw Lu Yang sending someone again, and his heart was so hot that he had encountered such a battle for the first time after playing a game for so long.

“Stop it, hold it up for me, and absolutely not allow them to climb to the top of the city.” Li Xiuyu shouted.

Unfortunately, in less than 2 minutes, Zhou Tianming and Zhou Tianyan rushed to the city with 10,000 vanguard troops.

The name of Zhan Tianming King was not blown out, but was spelled out by Zhou Tianming. He and Zhou Tianyan were trained by the two brothers themselves. The skills and consciousness far surpassed that of ordinary players. Coupled with the 40-level sergeant suit, 10,000 people instantly opened the scene.

Jiang Ze looked at Zhou Tianming's technique and said in surprise: "This boy is so strong, why didn't I find it before?"

Lu Yang said with a smile: "Don't underestimate him, this time the doubles in the national competition, he and Zhou Tianyan have a great chance to break into the global finals."

Jiang Ze nodded and said, "The twin brothers are really strong in cooperation."

On the city's head, Li Xiuyu's troops were killed worse than when Xia Yuwei came up, and almost lost his resistance.

Zhou Tianyan led the team to the wall stairs, and reluctantly retreated to the wall.

After 20 minutes, Zhou Tianming retreated and Jiang Ze went up.

On the other side.

The White Lion stepped back and Sun Yu took over.

...

In this round of battles, until 12 o'clock in the evening, Wang Teng and Li Xiuyu on the city's head were exhausted by the waves of offensives such as Lu Yang.

Commanders such as Qu Han and Enchanted Forest were also extremely exhausted, and the morale of the players who defended the city was low.

Looking at the next wave of offense, the vice-president in charge of logistics found Wang Teng and said, "Can't fight like this anymore, the brothers' equipment can't be replenished."

"What's wrong?" Wang Teng asked.

"The level 40 gold equipment in the warehouse has been used up, the level 30 gold equipment is gone, and the silver equipment is used again," said the vice chairman.

"What, how is that possible?" Wang Teng frowned and said, "The 10,000 sets of gold equipment newly created today have also been released?"

"It all went on ~ www.mtlnovel.com ~ Wang Tengmeng played a clever trick. In this night's battle, every time Lu Yang's troops retreated, they were withdrawn under the cover of a secondary injunction. He did not see what the enemy did when they withdrew.

"Qu Han, check the troops' equipment and see how much was lost." Wang Teng asked.

Qu Han's eyes widened suddenly. He responded and quickly asked the commander of the regiment. It was found that the level 40 gold equipment of each army group had lost more than a third.

Wang Teng almost fainted, and he reacted. Lu Yang's one-night battle was not because he was unable to lay the fort, but to pit his equipment.

One night lost nearly 30,000 sets of 40-level gold equipment, worth hundreds of millions of credit points, and he couldn't imagine what Liu Jie would do to him.

An anger rushed to Wang Teng's head, he went to the wall and pointed to the landing Yang cursing: "Lu Yang, you are a bastard, I will certainly ruin your guild by myself."

Lu Yang looked at Wang Teng in the hysteria on the head of the city, a sneer appeared in the corner of his mouth, and murmured, "It's too late to wake up at this time."

Chapter 540 - Lay Lanshan Fortress

"Are we going to launch a general attack?" Jiang Ze asked eagerly.

Lu Yang said: "The whole army attacked and laid the Lanshan Fortress."

"Yes." Eight army commanders took 420,000 people and Huo Tianhua and 400,000 people who shot Sirius. A total of 800,000 people besieged the Lanshan Fortress on all sides.

"No, the enemy is about to launch a total offense." Li Xiuyu said in a panic.

Wang Teng wiped his sweat and called Luo Cheng, saying, "How is it there, does anyone want to help?"

Luo Cheng scolded dejectedly: "The Orcs moved their whole body by one shot. The Golden Wolf Fortress and the Black Wolf Fortress were determined to fight, but they were not able to provide too many troops. They learned that both had a large number of defensive personnel. They would not agree to send troops if they could not fight inside. "

"Where are the two brothers of Huo Tianhua." Wang Teng asked.

"The two wastes announced that they would quit the game and stop playing." Luo Cheng said angrily.

Wang Teng closed the intercom, Yang Tian sighed, and asked Qu Han, "What else can we do?"

Qu Han shook his head and said, "Unless the troops of the Silk Language can come to support, I can't help it. Li Xiuyu's main force is restrained too much."

Li Xiuyu said distressedly: "Siyu can't come, he's already overheated there, alas, I knew I would listen to you."

Wang Teng said: "This battle can't be fought anymore. I don't want to continue to lose equipment. Sorry, I'll go first."

"What?" Li Xiuyu looked at Wang Teng in surprise and asked, "You're leaving?"

Wang Teng nodded and said, "This fortress is bound to be unstoppable. I can no longer waste my boss' money at will."

"What shall I do then, Hannibal?" Li Xiuyu asked in a panic.

Wang Teng sneered and said, "I don't know what to do myself. I'll take care of myself."

Li Xiuyu watched in stun as Wang Teng took out the fortress and returned to the city roll, flying away.

The 400,000 Wang Teng players inside the Lanshan Fortress took out the fortress to return to the city roll and flew back to the scorching sun fortress.

Li Xiuyu had a feeling of being abandoned, gritting her teeth and cursing: "A bunch of bastards."

"What shall we do?" Asked Enchanted Forest.

"What else can we do? Wang Teng doesn't even need his own fortress. Do we still defend for him? Let's go, return to the echo fortress, and help us to talk.

The fascinated forest nodded and ordered all the troops to withdraw. At the same time, 400,000 people crushed the fortress back to the city and returned to the echo fortress.

Outside the city.

Lu Yang personally attacked the city with 700,000 people, but he was not attacked until he ran down the city.

“Strange, what about the other person?” Jiang Ze asked.

The vanguard of White Lion and Huo Tianhua rushed to the wall and found that there was no player in the city.

Xia Yuwei said to Lu Yang, “Boss, there is no one in the fortress, and Wang Teng and Li Xiuyu’s troops have disappeared.”

Lu Yang enjoyed himself, using the residual flames to fly up the city to Xia Yuwei’s side, looking at the empty fortress, and said, “They run really fast.”

“The army stopped attacking the four city gates. Xia Yuwei led the team into the inner city to change the fortress order, and the rest gathered outside the city.”

“Yes.”

Huo Tianhua was full of thought that each of his men in this siege could get at least 100,000 honor points. I did not expect that the enemy’s 800,000 people had run away. According to Lu Yang’s order, the troops were organized outside the city and asked: Li Xiuyu was so irritated, boring. “

Lu Yang smiled and said, “Take you to a place where you can lift your breath.”

“Where?” Huo Tianhua asked.

Lu Yang opened the three-dimensional map, pointed to a small town next to Hannibal City, and said, "This is a late-wind town. Most of the material merchants in Hannibal City do business here."

"Attack the town?" Huo Tianhua asked excitedly.

Lu Yang said, "Dare to dare."

"Dare, but can I fight it?" Huo Tianhua asked.

Lu Yang said: "It's 12 o'clock in the evening, Han Ying and Han Yu are gathering information in the city. At present, there are about 500,000 players in the town. Most of them are offline. You can launch a sudden attack and you can definitely lay it down. Small town. "

Huo Tianhua said: "This idea works."

Lu Yang pointed to the area in the lower left corner of the town and said: "Call up the most trusted brothers around you, almost 50 people, and shoot 30 people on the side of Sirius. 80 of you are specifically attacking here. This is the Hannibal City material merchant. Where we do business, we make a fortune after laying here. "

Huo Tianhua said: "After it is done, you and me are half of the material."

Lu Yang said: "The deal, I will send someone to show you the way."

Huo Tianhua and shooting Sirius immediately teamed up, leading 300,000 people to Hanfeng directly to the evening wind town.

"Boss, where do we fight." Asked bitter love for a long time.

"It's better to rush directly to the scorching sun fortress and enter Beifeng City." Bai Lang said eagerly.

Everyone looked at Lu Yang.

Lu Yang shook his head and said, "I can't beat it. When we attacked the Lanshan Fortress, Wang Teng upgraded the Siege Fortress. Now, like the Dominion Fortress, there are places for players to avoid the curse. There were 20 fortress guns on each of the gates. "

"Wang Teng thought so far?" White Wolf said in surprise.

Lu Yang said: "It is estimated that Qu Han came up for him."

"Unfortunately, I really want to kill Wang Teng." Bai Lang said.

Lu Yang said: "There is a chance. We will first win the four fortresses in Hannibal and take Li Xiuyu back to Benliu."

"Hey, I don't think Li Xiuyu would have thought of being hit so badly by us." White Lion said.

"Let him offend Sister Lan Yu, deserve it." Sun Yu said.

When Lu Yang thought of Li Xiuyu's treatment of Lan Yu in the last life, a fire broke out in his heart, and he said, "The whole army attacked the Rain Fortress with me."

...

On the other side.

Hessian was taking a battle with Yao Zhi's troops at the Echo Fortress with 300,000 people. Suddenly he saw Li Xiuyu returning with someone, and asked in surprise: "Lu Yang is gone?"

Li Xiuyu said dimly: "We failed, Wang Teng returned to Beifeng City and ignored us."

"What?" Panic said in a panic. "What should we do, Yao Zhi and Lu Jie fought so hard, we can never live in these two fortresses defensively."

Li Xiuyu groaned, he didn't know what to do now, in fact, he knew that if he took the existing player back to Benliu and kept his players' equipment and level, it was the best choice.

However, he hit Hannibal in such a high-profile manner, but was eventually beaten back by Lu Yang to run back to Benliu City, and he couldn't lose this face.

"I have a solution here ~ www.mtlnovel.com ~ may work."

"What way?" Li Xiuyu asked.

"Give up the Rainfall Fortress and Hessen Fortress, and only keep the Echo Fortress," said the Forest of Love.

"What's the use of this?" The silk language felt very absurd.

"The fortress of falling rain must not be able to hold. Maybe Lu Yang's troops have already fallen under the city of falling rain. When Lu Yang hits the rain, the fortress is bound to attack the Hessen fortress. In this case, we might as well give up directly and hand over the Hesse fortress To Yao Zhi and Lu Jie.

"Forest of Love said.

"Do you mean to let Yao Zhi and Lu Jie block Lu Yang for us?" Li Xiuyu asked.

Love Forest said: "That's right. After we gave up the two fortress contraction forces, the defensive players in the echo fortress reached 900,000. Yao Zhi and Lu Jie are not fools. They will definitely accept our proposal. After all, Lu Yang is right They are also invaders. "

He shook his head, he felt more absurd, but now she could not think of any way to crack it.
