

Wild Fire 541

Chapter 541 - Hannibal City

Li Xiuyu said: "Just do this, Siyu has to trouble you, talk to Lu Jie and Yao Zhi."

The silk language shook his head and said, "I don't agree. I fell for the rain fortress. I spent so much effort to keep it for 4 months. Why do you say that I should hand it over to me? . "

Li Xiuyu hesitated, he did not expect the fierce response of the silk language, said: "This is not a way out. After we get through this difficult time, I must send you a fortress of the same, okay."

While the whisper was groaning, the system prompts: Your fortress was captured by the Brotherhood of the Iron Blood.

She looked at the ceiling and felt a sense of weakness in her heart, saying, "Well, I'll go to Lu Jie and Yao Zhi."

Outside the fortress.

Lu Jie and Yao Zhi just learned that Lu Yang broke the Lanshan Fortress and Wang Teng lost the news of Beifeng City.

"Wang Teng and Li Xiuyu are really waste, 800,000 players can't stop it." Yao Zhi said depressed.

"Where is Li Xiuyu, where has he gone?" Lu Jie asked.

Yao Zhi looked up to signal the Echo Fortress and said, "It's right here, 400,000 people are here."

Leng Weixin, Mu Ruhanjiang and Qixing Chengying showed solemn expressions. Yao Zhi said, "Wasn't that 700,000 people in the fortress city are defending?"

"What can I do?" Lu Jie said fluently.

Originally Lu Jie, Yao Zhi, and others thought that while Landing Yang was fighting with Wang Teng and Li Xiuyu, they sneaked in from behind to regain the original fortress that belonged to them. However, they did not expect that the slang words had the ability to take their enemies. Rallied into the fortress, stiffly resisted all night.

"Let's give up, there is no need to continue to fight." Mu Ruhan Jiang said.

When Lu Yang's army arrived, they must attack the Hessen Fortress and the Echo Fortress. At that time, they were very awkward to stay and leave.

Both Lu Jie and Yao Zhi racked their brains for a long time. They even thought of threatening Lu Yang with the players in their hands. However, it could not be implemented without the support of Li Xiuyu.

"Let's go," Qixing Chengying said.

Lu Jie was a little discouraged and said, "Withdraw ..."

"Dididi"

The sound of invitation to the special space rang in Lu Jie's ears. Lu Yang opened it and found out that it was sent in silk language. At the same time, Yao Zhi also saw the news.

"Don't go, whisper to me." Lu Jie and Yao Zhi said at the same time.

“Look at you both?” Leng Weixin asked with a frown.

Lu Jie and Yao Zhi looked at each other with a hopeful expression and said, “Yes, he just sent it.”

“Let’s go and see what he is going to do. I feel like he will give in.” Yao Zhi said.

“Okay, we are waiting for you here.” Qixing Chengying said.

“I want to see what this woman wants to say.” Lu Jie said with gritted teeth.

The light flickered.

Lu Jie and Yao Zhi came to the special space and saw the whisper standing opposite their table.

“Yunsi, what are you asking us to do?” Lu Jie looked angrily at Yusi.

He hated slang to play with his feelings.

He sighed and said, “No more nonsense. I have a proposal. I don’t agree with you two to make a decision.”

“What’s the proposal,” Yao Zhi asked.

“I believe you already know the news of Lu Yang breaking the fortress of Lanshan. Let’s cease the war.” Lu Siyu said.

“Ha ha.” Lu Jie sneered, and said, “Why do we want to cease the war? I wish Lu Yang brought a large army to lay down the fortress of the two of you, and drive you and Li Xiuyu, the dog men and women out of Hannibal.

Filigree frowned and said, "Rujie, be respectful. My proposal is that I return the Hessen fortress to both of you in exchange for your truce."

"No, if you want to return, also return the Echo Fortress, otherwise avoid talking." Lu Jie said.

Speaking with a sigh, she looked at the ceiling and said, "The Rainfall Fortress has been beaten by Lu Yang. All we have now is the Echo Fortress and Hessen Fortress. I can only give Hessen Fortress. You can choose to or No. "

Yao Zhi and Lu Jie looked at each other in surprise. The two did not expect that Lu Yang's attack speed was so fast. Just after the Lanshan Fortress was laid, the falling rain fortress was hit.

Lu Jie said, "Your business has nothing to do with us. The Echo Fortress was originally Yao Zhi. You should return."

There was a taunting expression on the delicate face of the silk language, saying, "Did you two think that Lu Yang was only for defeating Li Xiuyu, and his fundamental purpose was not for Hannibal City? Now he called and won Lanshan Fortress and Rainfall Fortress, don't you naively think that Lu Yang will stop attacking Hessen Fortress and Echo Fortress because of the two of you? "

It was thought that Lu Yang forced Wang Teng to withdraw from Hannibal City. This gave Lu Jie and Yao Zhi the opportunity to run into the fortress. Otherwise, the strength of the two of them did not have the ability to occupy the fortress at all.

Yao Zhi said, "What do you want?"

The silk language said: "The best way to intercept Lu Yang at present is for you to defend the Hess fortress together. This will give you a chance to keep the fort. If you split up, Lu Yang can easily break both of you."

Lu Jie and Yao Zhi knew clearly that what the silk language said was the truth.

“I can tell you the truth, even if the two of you don’t agree with me, we will withdraw from the Hessian fortress. The two fortresses defend you both. We don’t have the ability, but we will stand by one Still confident. “

Lu Jie thought about it and said, “Okay, okay, I agree with this condition.”

Yao Zhi looked at Lu Jie in surprise and said, “How is the shareholding in this fortress distributed?”

Lu Jie said, “This is my fortress, of course mine.”

Yao Zhi said, “I don’t agree. I helped you grab your fortress, but what should I do?”

Just when Lu Jie was about to speak, he found that he couldn’t give Yao Zhi any promise, and now they didn’t have any chance to grab the Echo Fortress.

芊芊 Si Yu did not expect that the two would still be in trouble at this time, shook his head silently, and withdrew from the special space.

When Li Xiuyu saw the return of the silk language, he asked excitedly, “How are you talking?”

The silk language said with a headache: “Yao Zhi and Lu Jie will not pose a threat to us. They learned that we are going to return to the fortress, and they quarreled for the control of the fortress.”

Li Xiuyu had a ridiculous feeling, saying, “Regardless of them, as long as they don’t hit us, send someone to retreat.”

“Yes.” The fascinating forest flew to the fortress of Hessen, directing the player to gradually retreat.

Outside the fortress of Hesse.

Han Meng, who was in charge of inquiring about the intelligence, saw a truce on both sides, and then a large number of players in the city flew away. She sent a message to Lu Yang: "Brother, the defenders of the Hessen Fortress flew away, and Yao Zhi and Lu Jie stopped attacking."

Lu Yang was leading his team to the fortress of Hessen. He heard the news frowned and asked, "Who has occupied the fortress of Hessen."

Han Meng looked at Yao Zhi, Lu Jie, Leng Weixin, Qixing Chengying, and Mu Ruhanjiang who were arguing in the distance and said, "They seem to be fighting, and no one has entered the city."

Lu Yang couldn't help but sneer and said, "I know, you continue to monitor."

"What's wrong?" Tu Feng asked aside.

Lu Yang said: "Li Xiuyu withdrew all defensive players in the Hessen fortress and stayed at the Echo Fortress."

"Who occupied the Hessen fortress?" Xia Yuwei asked.

Lu Yang said: "No one was occupied, and five people were in civil strife."

"What?" The white wolf said in shock. "Internal strife?"

Lu Yang said: "It is estimated that all five of them think they have credit for this, and this fortress should have their shares."

"No, our army is under pressure, and they still have things like quarreling." Zhou Tianyan said.

Lu Yang said with a smile: "Who said that our army was under pressure, am I the kind of person? Go, the army turned around, go to Hannibal City, and rest tonight."

“What?” Zhou Tianming asked: “Boss, why don’t you stop playing?”

Lu Yang said, “Being a man, you need to understand the human nature, right? Let them fight first, make a stronghold boss, and we’ll go again.”

Everyone: “...”

“Brother, you are really lacking in morals,” Jiang Ze said.

Lu Yang laughed and said, “Brothers are tired, and they should be rested. Just tonight, tell the brothers to go offline in Hannibal.”

“Yes.” Zhuojiu, White Lion, and others issued instructions downward, and the army turned around and entered Hannibal City. As soon as they arrived at the city gate, they immediately caused a sensation.

“Iron Brotherhood has entered Hannibal?”

“I rely on, a full set of 40 military uniforms, why so many people have honor sets.”

“Don’t you know that 210,000 people from the Iron Brothers League invaded the wolf clan, and President Lu Yang took them all to get enough honors. This time there were 420,000 people, half of whom had 40-level uniforms. You can’t count them. Come. “

“If only I could join the Jagged Brotherhood, I would also like a level 40 gold uniform.”

...

This sentence speaks to the hearts of all Hannibal players ~ www.mtlnovel.com ~ Star Soul saw Lu Yang’s team in the middle of the crowd and admired his teammates: “It is indeed a master who defeated me, I lose Convinced orally. “

Shao Yu, general manager of Xinghun Studio, said: "I heard that you became friends after fighting that battle. Since you are friends, why not help him."

Star Soul said, "What can I help him with?"

"You have such a big influence in Hannibal City, why not help him worry about some expert players and help him to knock down the fortress, so that our studio will get a lot of convenience in the future." Shao Yu said.

Xinghun thought about it and said, "It makes sense. I'll try. Hannibal's city will be Lu Yang sooner or later. Other guilds don't need to be buried for **** like Li Xiuyu."

Star Soul Studio has been in Hannibal City for 5 months. I do n't know how many guilds helped to open legendary copies and kill difficult monsters. Star Soul has a good relationship with many guild presidents. He Contact these people now.

Chapter 542 - Watch the fire from the other side

After 30 minutes.

Lu Yang was sitting in Hannibal's hotel to rest, Star Soul walked into Lu Yang's private room with a long bow on his back.

"Xinghun, why are you here?" Lu Yang said in surprise.

"I know you are here, can I not come?" Xinghun said with a smile.

Lu Yang laughed and asked, "You must have something to come, let's say, good things and bad things."

Xinghun laughed and said, "I dare to ask you for trouble when I open a studio. Of course, it's a good thing. I just contacted the presidents of the six guilds who were helping Li Xiuyu to defend the city. They already took 300,000 people. All withdrawn from the Echo Fortress. "

Lu Yang slaps an excited slap on Xinghun's shoulder and says, "Brother, you have helped me a lot. I am worried about how to deal with these 300,000 people."

His purpose was to kill Li Xiuyu, not to avenge the little guild of Hannibal City. Now Star Soul helped him persuade these people, which is tantamount to helping him solve a big problem.

Xinghun said: "Don't be so thankful, the presidents of these 6 guilds and the other 2 middle guilds promised me that if you hit Li Xiuyu, they would be willing to help attack the Hessen fortress, and promised that even if the fortress was hit occupied."

Lu Yang said in surprise: "What do they require?"

Star Soul said: "Become your affiliate, if someone bullies them in the future, you can just take the lead for them."

Everyone knows what is happening around Hannibal City. Wang Teng, Li Xiuyu, and Lu Yang must have one person in charge of this fortress. Their little guilds can only struggle to survive.

Before Wang Teng and Li Xiuyu despised them, now Lu Yang is here and has the opportunity to form an alliance with Lu Yang. In the future, you do n't need to worry about being attacked by other guilds, or worrying about Lu Yang attacking them. This is of great benefit to them. .

Lu Yang said: "No problem, I am willing to protect them. This game is so big. I have some places to play in Lu Yang, and I am willing to cooperate with all the guilds that have good relationships with me."

The advanced maps of the city of St. Gall and the emperor's city cannot be cleaned up. Where can Lu Yang have the ability to clean up the maps here?

Star Soul said, "Okay, that's it. I'll reply to them for you."

Lu Yang asked: "Don't worry, you helped me so much, how can I thank you."

Xinghun said: "I have nothing to ask for your help."

There are not many studio players, but each of them is a master. Xinghun can move freely on the high-level map and kill the high-ranking lord to obtain materials. As long as Lu Yang does not deliberately embarrass him, no one can do nothing.

Lu Yang knew this and said, "Let's do this, I will be your brother, and I will go to the wolf siege later, and I will take your studio."

Star Soul's eyes brightened and he said, "Do you really want to?"

Lu Yang said, "I'm fine."

Star Soul is extremely grateful. He did not expect that Lu Yang was so eloquent. It is very difficult to obtain a gold suit of level 40 or higher. Even if it is obtained, there is no military uniform in physical attributes. If everyone can get a military uniform, in the future, When the studio encountered PK, wearing military uniforms had a higher chance of winning than wearing other equipment.

"Thank you, I'll take them over here," said Xinghun.

Lu Yang stood up and sent Star Soul to leave. Seeing that Star Soul was far away, Lu Yang couldn't help but hold his fist. No wonder the last generation Liu Jie controlled the rapid growth of the city of St. Gall in a consortium. It turned out that a human race The access to the orcs can bring such great benefits.

"Dididi"

The voice of the intercom sounded from Sirius, and Lu Yang pressed the connect button and asked, "What's the matter?"

Shooting Sirius excitedly said: "Boss, we have successfully won the evening wind town, ha ha, a bumper harvest, got a full set of 10,000 sets of 40 gold equipment materials, 30,000 sets of 30 gold equipment, get rich Ah. "

Lu Yang asked: "How about honor?"

Huo Tianhua grabbed the interphone and said to Lu Yang: "Brother, the honor value I got is almost 800,000. After returning to the city, at least half of my 200,000 people will be able to change into a 40-level honor uniform."

Lu Yang said: "Yes, don't rush back to the Wolf Clan after cleaning the battlefield and rest for a night at the Lanshan Fortress."

"Okay, I'll take someone back and wait for your notice tomorrow." Huo Tianhua said without any hesitation.

With the interphone closed, Huo Tianhua and She Tianlang took 300,000 people out of a messy evening wind town, slowly retreating to the Lanshan Fortress.

While on the road, Huo Tianhua said with some concern: "Will we destroy Lufeng Town in this way, will it affect Lu Yang?"

Lu Yang is now attacking Hannibal City. The player who died early in the morning will react to the wolf slaughter city. There will be many people looking for Lu Yang.

Shooting Sirius said: "Look at the forum, the boss has put the responsibility on the heads of those unscrupulous businessmen. Ordinary players will not scold the bosses, they will only scold these unscrupulous businessmen."

Wanfeng Town is a novice village, but it has been developed by a material merchant into a special place to do business. Level 30 and 40 gold equipment are sold at such high prices because of their unscrupulous hoarding. Once empty, players will only feel happy.

Huo Tianhua opened the forum and looked at it, saying, "Lu Yang really thoughtful."

Shooting Sirius said: "I don't know how the boss's head grows, as if everything is in his calculations."

Where does he know that for everything Lu Yang did in this life, he can find similar cases in the last life. Lu Yang has seen so much that he naturally knows how to do it.

Why is Lu Yang a novice village where the material merchant is located every time? On the one hand, ordinary players in the novice village will not remember this kind of slaughter, and their deaths have no loss except for a small amount of experience.

Anyone who wants to use this to instigate will have no effect. One more thing, everyone understands that now Lu Yang is powerful and there are wolves who fight for him. Who dares to rise up and resist, anyway, they have not suffered losses. Why bother to do such losses.

Even though a small number of people rushed on the forum, Lu Yang hired more writers than them to scold those material merchants.

Compared with Lu Yang, those material merchants hate 10,000 times more than Lu Yang, and public opinion will soon turn to those material merchants, calling them deserved, and even affecting ordinary players.

Inside the hotel.

Tu Feng said to Lu Yang, "The mission is complete."

Lu Yang just received the presidents of the eight guilds brought by Xinghun, a total of 400,000 people.

“Let’s go to rest. Tonight, I’m on duty with Zhuojiu and Sun Yu.” Lu Yang said.

Everyone nodded and took a rest offline.

“Boss, we are resting here, what are Li Xiuyu and Yao Zhi doing?” Sun Yu asked.

Lu Yang started the live broadcast and said, “Look, Dubin is broadcasting there. They don’t want to sleep tonight.”

Inside the live room.

Du Bin is explaining the battle between Yao Zhi, Lu Jie, Qixing Chengying, Mu Ruhan Jiang and Leng Weixin.

Outside the fortress of Hesse.

When Yao Zhi and others learned that Lu Yang’s men were off line and rested except for a few vigilances, the conflict between the five people broke out completely. For the fortress, five people changed from quarrel to war.

Tongtong said with an incredible expression on his face: “I really can’t understand what the five of them think. Lu Yang has laid down two fortresses. Although they rested tonight, this is equivalent to Lu Yang in front of their fortress. Sleeping with a stick, they didn’t try to defeat Lu Yang, so they fought on their own. “

Dubin held his arms and said with a touch of emotion: “Aren’t our traditions like this in China? As long as the strong enemies outside give them a chance to breathe, they will have internal wars in order to divide their priorities.” . “

“You mean they don’t think Lu Yang will hit them for the time being?” Hitomi asked.

Dubin said: "It is clear that Lu Yang will hit Li Xiuyu tomorrow, and Lu Yang will not hit the Hessian fortress without hitting Li Xiuyu."

Hitomi said, "What's the point, Li Xiuyu's giant wave master group was harmed by Lu Yang's water resistance forces for 0 damage. He can persist for a few days at most. After that, Lu Yang can kill the black with an attack. Sen Fortress. "

Dubin said: "Who knows, in fact, explaining the five of them is very weak, and it feels like they are pecking at each other, meaning nothing."

Judging from the ratings, Dubin found that there were only hundreds of thousands of players watching the live broadcast in the live broadcast room. Lu Yang's live broadcast of each battle was tens of millions. At first, he thought he had a problem with the live broadcast. He Ran to various live broadcast rooms and found that the data was miserable, which made him frightened.

Hitomi also discovered this situation and deliberately shifted the topic and asked: "I don't know if Li Xiuyu has the possibility of defensive success. Do you think his family will continue to invest in supporting him?"

Dubin said: "Should, the four fortresses earn tens of millions a month, his family should not give up this business, and Lu Yang said that he can occupy Hannibal City, after which he will face multiple directions Hostile ~ www.mtlnovel.com ~ has no ability to continue to expand. "

...

Lu Yang looked at Du Bin's commentary and said, "This boy really makes some sense. We laid the fortress and really couldn't continue to expand."

There are 16 fortresses of the Terrans, and Lu Yang has laid down three. It has become a veritable top guild. All the fortresses around Hannibal will soon form an alliance to deal with him together.

Zhuoju poured out, "What shall we do next?"

Lu Yang said with a smile: "Don't worry, as long as we stick to the end of the contest, our strength will be raised to an unprecedented level. Even if we don't have the strength to attack, no one will dare to hit us."

After the contest of the last generation, the official released the game patch immediately. All copies within level 30 to 100 are open. Everyone's attention will be focused on the equipment. The war will be temporarily buried in the deep sea.

Of course, when the next war begins, there will be a tsunami, and it will be a full-service gold battle. Every player participating in the battle is gold equipment. Lu Yang can't help but look forward to it.

Chapter 543 - Attack Echo Fortress

Sleepless all night.

Yao Zhi and Lu Jie fought at 2am. The two sides fought less and less. Eventually they stopped the war. They occupied the north and south sides of the Hessen fortress and decided to fight again tomorrow.

Early morning.

Xia Yuwei, Jiang Ze, and others went online. After taking over from Lu Yang, Lu Yang went off line to rest, and it was already four o'clock in the afternoon when he woke up.

Wearing a helmet, a flash of light flashed, Lu Yang appeared in the hotel in Hannibal City, and he flew to the Lanshan Fortress.

Eight heads of army, including Zhuojiu, Xia Yuwei, and Sirius, and Huo Tianhua discussed things in the fortress hall, and saw Lu Yang coming and stood up.

Lu Yang motioned them to sit down and asked, "Is there anything new?"

Tu Feng said: "Yao Zhi and Lu Jie fought again. The two men have won the match from 8 o'clock to the present. Li Xiuyu has gathered 600,000 people to guard the Echo Fortress and is ready to fight against us."

Lu Yang said, "Does Li Xiuyu think it is useful to have more people? It's ridiculous, we'll hit him today."

Li Xiuyu's army was divided into two parts, one was under the command of 芊芊丝语, a total of 200,000 people, and yesterday with Yao Zhi, Lu Jie's 500,000 people to fight for a day, although he recruited several small guilds to help him, but, The main force of defending the city is still slang.

Lu Jie and others took each single out in line with the silk language, and together they snore, she can keep the fortress all piled up by people. You can imagine what the player's equipment and status are in his hands. Kind of.

Li Xiuyu was even more miserable. At Lanshan Fortress yesterday, Lu Yang took 10,000 sets of 40-level gold equipment alone. His men were attacked by Lu Yang in turn, and his morale was extremely low.

Although there were 600,000 people in the two parties together, there seemed to be a lot of people gathering in the fortress, but in fact there was no capital to defend the city. Lu Yang was confident that a wave of attacks could defeat them.

Huo Tianhua asked: "Should I go to Hessian Fortress for you?"

Lu Yang said, "No need to attack the Echo Fortress with me. After you went offline last night, I contacted 8 local small guilds with a total of 400,000 people. They will go to the Hessen Fortress."

Zhuo Jiu and Xia Yuwei and others brightened their eyes.

"Boss, where did you find it?" Bitter Ai asked in surprise.

Lu Yang said, "I did n't find it. It was Star Soul who helped me find it. Six of them helped the silk language to defend the city before, and two were new ones. Our 700,000 people can safely attack today. Echo Fortress will never be disturbed by anyone. "

"Yes." The crowd could only reply with such a word.

Lu Yang looked at the time, and it was now 4:10 in the afternoon, and said, "The whole army gathers, and we leave the city at 4:30. Let's go to Li Xiuyu."

Zhuo Jiu and Xia Yuwei and others could clearly feel the anger from the bottom of their hearts and ran out of the team.

After 20 minutes.

A total of 700,000 people have been assembled outside the city, with 400,000 iron brothers, 100,000 wolves, and 200,000 Huo Tianhua.

Lu Yang said: "The target echoes the fortress and the whole army attacks."

"Yes."

Zhuoju and others led their troops, and 700,000 people went straight to the echo fortress.

Echo Fortress.

Li Xiuyu, Li Siyu, Enchanted Forest, and others are deploying defenses. Suddenly, Li Siyu looked at Li Xiuyu and said, "Lu Yang's troops set off."

Li Xiuyu's eyes fluttered slightly and asked, "How many people are here."

“700,000,” she said in a whisper.

“Why so many? Didn’t the people of the wolf race leave?” Asked Enchanted Forest.

In a whispered nod, he said, “My men have seen it with their own eyes. They have assembled outside the fortress. The goal is our echoing fortress.”

“How to defend it, 700,000 people,” said Fetish Forest dumbfounded.

If there were no accidents, these 600,000 people would soon be attacked by Lu Yang into the fort.

Li Xiuyu gritted his teeth and said, “What are you afraid of? Fight with them.”

The fascinating forest said: “It is better that we retreat to Benliu. Wang Teng has called the bosses of the fortresses in the six main cities such as Tiewang City, Jianyang City, and Lakeside City to discuss together. We returned to join this organization and curb together. Lu Yang. “

On the day of Wang Teng’s defeat, Liu Jie kicked Wang Teng’s stomach angrily, clearly telling Wang Teng that if Beifeng City lost a fortress, he would kill him personally.

Wang Teng was extremely frightened. He repeatedly asked for forgiveness and offered this plan to get Liu Jie’s forgiveness.

Li Xiuyu knew Wang Teng’s plan, but at the time, he entered Hannibal City from Benliou City in such a high profile, easily won three fortresses, and repelled Yao Zhi and Lu Jie’s 500,000 coalition forces. How glorious he had announced, Within 10 days, Wang Teng would lay down the city of St. Gall and completely destroy Lu Yang.

However, in less than 10 days, he was defeated by Lu Yang in three battles and three battles. If he lost the Echo Fortress and returned to Benliu City, he thought of the ridicule he encountered in the future, he shook his head and said, “No retreat, it is here Defensively, I don’t believe I have 600,000 people who can’t hold a fortress. “

Li Xiuyu, who was in this state of love for the first time, didn't dare to persuade him anymore. She looked at Sisi and shook her head to signal her that there was nothing she could do.

The last time I saw Li Xiuyu's look like this, it was when his family determined that all the family property was handed over to his elder brother. At that time, Li Xiuyu came to her house and smashed everything in the house.

"Okay, then we will keep the fortress." Said the forest of infatuation.

"To Xichengtou, I want to see how capable Lu Yang is." Li Xiuyu growled outside.

The silk language and the fascinating forest quickly followed Li Xiuyu, came to Xicheng head, stood inside the tower, and looked at the 600,000 players around him. Li Xiuyu's order was issued one after another. Command began to get confused.

However, Li Xiuyu was never tired of it, as if to hide his fear.

After half an hour, Li Xiuyu looked at the rear-arranged city with his back leaning and said with satisfaction: "This is what it looks like."

Mysterious Forest said: "It is indeed the boss, after this change is much stronger than the original."

Li Xiuyu showed a satisfied expression.

The silk language did not speak, leaning gently on Li Xiuyu's side and looking away, she wanted to slowly resolve Li Xiuyu's inner madness.

Suddenly, Li Siyu's eyes widened suddenly, pointing at the distance, "Lu Yang is here."

Li Xiuyu looked up, and at the end of the grassland, a thin black line appeared. He took out the telescope and just saw Lu Yang walking in front.

“The whole army is on alert, the enemy is here,” Li Xiuyu shouted.

There was chaos in the city. After yesterday’s battle, Li Xiuyu’s men had been planted the seeds of fear by Lu Yang’s troops.

As 700,000 people approached, everyone had a look of fear on their faces.

“stop”

Lu Yang, 50 yards outside the city, ordered everyone to stop, watching Li Xiuyu, who was embarrassed by him on the head of the city, and said, “Li Xiuyu, we have met again.”

“Lu Yang, you have to attack the city if you have one. I must let you lose today.” Li Xiuyu pointed at Landing and cursed.

The silk words shouted: “Lu Yang, we have 600,000 people, and we won’t be afraid of you.”

Lu Yang sneered and looked at Sisi, saying, “Sisi, I almost killed you.”

The silk language said, “You and I are both fortress city masters. It is normal for us to use tactics with each other. Why would anyone say this?”

Lu Yang said: “I like to hear what you say, and I agree with you, but what I don’t understand is, do you think you can marry into the Li family’s door?”

You do n’t even look at your status. You are a woman from an ordinary family. Is it not good to find a man who is good for you to marry and have children? What are you going to do with Li Xiuyu? Do n’t you know your results in the future? “

“It turned out that I thought your slang words were really what I said. I didn’t rely on anyone. I created such a large guild based on your own ability. Everyone else said that you were the first goddess of the tribe. Heaven, but in fact, you are just a toy of Li Xiuyu. Now the whole world knows it, is it interesting? “

The people on both sides of the fortress were stunned. No one expected that Lu Yang would use this kind of discourse to speak silk, even if Xia Yuwei and Lan Yu felt that Lu Yang had said too much.

His face was full of stubbornness, referring to Landing Yang cursing: “What qualifications do you have to take care of my affairs? Li Xiuyu proposed to me, and he will certainly marry me, just in the square in Belgium.”

As soon as this word came out, the audience was uproar.

Only then did Lan Yu, Xia Yuwei, and others understand why Lu Yang was so scornful of the silk language. It turned out that the silk language was the girl Li Xiuyu proposed on the Belgian square.

Lu Yang took a deep breath and pointed at the silk words: “You are so shameless to the extreme, you remember, in the future, you will be abandoned by Li Xiuyu. Even if he doesn’t do it, I will force him to do it, I will let you Regret everything you did before. “

The white lion said angrily: “Boss, let me lead the team first, I killed him by myself.”

Zhuo Jiu said, “Let me be the first to go to www.mtlnovel.com ~ I am the first.” Shouted bitterly for half a life.

...

The commanders of the eight regiments collectively called for help. Just now Lu Yang didn’t say it clearly, and the silk language was not so detailed, but they have understood that Li Xiuyu’s proposal for marriage with the silk language must be for the heart of the silk language, and The silk language is also very clear that Li Xiuyu pursues Lan Yu’s purpose.

If this is the case, this woman is too vicious, it is completely for her to maliciously frame others, and even sacrifice others, just as he harmed Yao Zhi and Lu Jie.

Lu Yang said: “The eight commanders of the army listened to my orders, besieged the fortress on all sides, and attacked with all their strengths, regardless of primary and secondary.

“Yes.”

Zhuo Jiu, Xia Yuwei and others immediately returned to their troops, and the 8 Legions were evenly divided into the four gates of the fortress.

Lu Yang pointed at the city head with his hand and shouted, “The whole army is attacking.”

Chapter 544 - Tucheng

“Kill ~!”

“Kill ~!”

...

Eight army commanders ordered at the same time that 420,000 players stormed the fortress from four directions, and the battle entered a heated state from the beginning.

Huo Tianhua just learned from Tu Feng the relationship between Lu Yang, Xi Siyu, Li Xiuyu, and Lan Yu, and said angrily: “Brother, when will I go, this matter must be counted by me.”

Lu Yang said: "When I open the gate to you, you will rush into the city with the main force."

"Okay," Huo Tianhua said.

Lu Yang looked at Hei Yan and said, "The mage group is aiming around the tower."

Hei Yan directed 5 space-time mages, 5 ice mages, and 10 fire mage, and said, "The location of the tower, the time is forbidden, put it down."

Twenty mages chanted a spell at the same time, and heavy clouds covered the tower.

After 30 seconds.

"Icy Roar"

"Meteor Fire Rain"

"Space-Time Cutting"

With the tower as the center, within three hundred yards, it was shrouded by three major secondary curses. Players within range were killed instantly.

"Inflammation"

Lu Yang's body was shrouded in flames and instantly swelled into a 5-meter-high flame.

"Remnant Flame"

A reddish light and shadow flew out of Lu Yang's body, and struck a beautiful arc in the air and fell on the fortress.

"activation"

A gorgeous spark exploded in the light and shadow.

"10128"

"20256" (Critical Strike)

...

All players who wanted to sneak in Lu Yang were killed by the bursting flame shadow.

Lu Yang stepped out of the flame in one step, pointing with his fingers at the dozens of paladins rushing forward invincibly, and countless thieves and mad soldiers behind him.

"Meteorite Impact"

Four consecutive meteorites fell from the sky and smashed into the Paladin's shield and crushed backwards. The Paladin itself was not damaged, but the thieves and mad soldiers hiding behind the shield were crushed by the meteorite.

"10117"

"20234" (Critical Strike)

...

Nearly a hundred thieves and mad soldiers were killed!

Li Xiuyu stood inside the tower and shouted wildly: "The Paladins rushed for me and killed Lu Yang."

The Paladin was invincible for 10 seconds. Just 5 seconds had passed, and dozens of people rushed towards the landing sun together.

Lu Yang sneered on his face and walked towards the paladin, only 3 yards away from his nearest paladin. Lu Yang's left hand glowed with reddish fire.

"The Sun Fist"

Lu Yang punched the Paladin's body with a punch.

"28626" (Critical Strike)

The 10 Paladins, who were facing the invincible aura, were killed on the ground at the same time, flying back more than 10 yards.

The remaining Paladins were stunned.

"Lu Yang has invincible skills."

"Let's run together."

...

Dozens of paladins rushed towards the landing sun together.

Lu Yang sneered, his left and right hands lit with fire at the same time. In the state of inflammation, Lu Yang could release Lie Yang Quan at will.

In less than 3 seconds, all the remaining dozen paladins were killed.

“Shooter group, mage group, kill me.” Shouted Li Xiuyu.

The troops killed by the second curse on the city wall left a large blank space, and the subsequent reserve team rushed up immediately.

However, the secondary curse did not end, how many people rushed to death and how many people.

Xia Yuwei took Hansha, Zhang Zibo and others to take the opportunity to rush to the city and came to Lu Yang.

“Boss, we will give you a battery.” Zhang Zibo said.

Lu Yang nodded, aimed at Li Xiuyu in the city tower, and spelled out in his mouth.

After 10 seconds, the dark clouds in the sky turned red, and a giant meteorite with a diameter of 80 meters broke through the dark clouds, and went straight to the tower with a long tail of fire and a harsh blast.

“boom”

The meteorite hit the tower and brought a 230-meter-diameter shock wave. With the tower as the center, all players who did not have invincible or mage freezing skills in the area were killed.

Lu Yang said, “Open the tower and let the wolf players enter the city.”

“Yes.” Xia Yuwei brought Zhang Zibo and Hansha back to the tower, but just opened the door, Xia Yuwei said in surprise: “Boss, Li Xiuyu was not dead, and the silk language was not dead.”

With pleasure, Lu Yang led Lan Yu into the city tower, watching Li Xiuyu hiding behind the corner and the whispering words behind him, and said, “You are so fatal.”

Li Xiuyu looked at Lu Yang with a grimace and scolded: “I won’t let you go, I will fight with you to the end.”

While talking, Li Xiuyu raised her two-handed sword and rushed towards the landing sun.

“The Sun Fist”

Lu Yang punched Li Xiuyu in the head.

“28686” (Critical Strike)

Li Xiuyu died instantly, and his body flew backwards and broke through the gate of the city gate and fell below the 30-meter-high fortress.

“Xiuyu,” exclaimed Xisi.

Lu Yang said, “Don’t make a difference between life and death. This is a game.”

Of course, I know that this is a game, but I still feel a lot of pain when I watch my lover fly out of the window.

“You are not qualified to say this to me.” Lu Yang said sarcastically.

Xia Yuwei raised her two-handed sword, and the flaming Overseer’s sword was chopped on the neck of the silk language.

“18686” (triple crit)

Speak, die!

Zhang Zibo sighed: “This woman is crazy, have you watched so many TV shows in vain?”

Lu Yang said: “Maybe he is watching” Meteor Garden “, the grassroots counterattack.”

Everyone: “...”

Lan Yu said, “Brother, your mouth is really lacking.”

Lu Yang laughed and said, “Open the city gate and make a quick decision.”

“Yes.” Han Sha pushed the winch with Zhang Zibo and the light and dark thieves and opened the gate.

Huo Tianhua saw Lu Yang’s anxious massacres under the city, saw the city gates open, and shouted excitedly: “Brothers, rush, kill into the fortress, and leave no one.”

200,000 Huo Tianhua’s men rushed into the fortress. Originally, players waiting for the reserve team under the city saw the city gate suddenly open, and saw countless wolf players rushed in and ran away.

“Run away, here comes the wolf.”

...

I do n’t know who shouted. The players with low morale rushed together, and there were players who wanted to go forward to play against the wolf tribe, but the players around them could n’t form a combat power, and they faced the wolf tribe ’s orderly attack. Instant crash.

When Li Xiuyu arranged the defensive mission, each of the four city gates had a vice chairman and 10 army commanders.

Just now, a forbidden spell by Lu Yang not only killed Li Xiuyu, but also killed all the fascinating forest and the remaining 10 legionnaires, so that the chaos under the city gate could not form a combat force.

A flash of light flashed through the resurrection point in the inner city. People such as Li Xiuyu, Li Siyu, and the Enchanted Forest flew back to the fortress at the same time. When they arrived in the inner city, they saw countless wolves attacking.

“Rescue, go to the rescue, you can’t let the orcs come in, and we have no hope of occupying the resurrection point.” Li Xiuyu shouted.

There were 100,000 Li Xiuyu’s men near the gate, and the fascinated forest and 10 army commanders immediately ran to command. After more than 10 minutes of chaos, more than 100,000 people were finally organized and began to resist in an orderly manner.

Li Xiuyu breathed a sigh of relief and said, “As long as we don’t lose our resurrection point, we don’t lose.”

Hessian didn’t agree. He knew one thing. Now Huo Tianhua’s men rushed in, and the equipment was similar to them. However, when Luyang’s 2140,000 level military players rushed in, they were finished.

At this moment, a ray of light lit up behind him, and the retort looked back, his general Yuefeng.

“How did you die?” 芊芊丝语 asked in surprise.

Yuefeng said with a sad face: “Boss, I came here to tell you that the north of the city was breached, and Bai Shisanxiong and Zhou Tianming rushed in with a player of 120,000 iron blood brothers.”

“What?” Li Xiuyu looked at Yuefeng in anger and asked, “How do you keep the city, more than 100,000 people can’t hold a wall.”

Yue Feng said: “Bai’s Sanxiong and Zhou Tianming’s troops are all 40-level uniforms. The brothers have been fighting these days. The 30-level gold uniforms are incomplete and cannot be blocked.”

Li Xiuyu was about to get angry. The vice chairman of Dongmen and the vice chairman of Nanmen were resurrected at the same time in the inner city. He opened his eyes in horror and asked, “Why are you back?”

The two looked at each other and said in unison: “Boss, the gate of the city has fallen, and Lu Yang’s troops are crazy. The brothers can’t stand it.”

“It’s over, all four gates have been breached, and I lost completely.” Li Xiuyu said desperately.

The lingering language quickly supported Li Xiuyu, saying, “Let’s retreat, go back to Benliu to find a chance to revenge.”

Li Xiuyu said with a sorrowful smile: “What’s the use of Benliu City, how can it defend Lu Yang’s team?”

When Li Xiuyu was confused, his interphone rang, picked it up, and was stunned.

“What’s wrong?” She asked.

“Me, my father called.” Li Xiuyu said.

“Hurry up,” said Sisi.

Li Xiuyu quickly nodded and pressed the connect button, and the other end of the phone came a majestic voice.

“Immediately retreat to Benliu. The family decided to invest an additional 2 billion yuan in you. This time, don’t let me down again.”

“Beep, beep, beep” sounded, Li Xiuyu said in surprise: “The family promised to continue to invest in me, the whole army retreated, and we withdrew Benliu.”

The slang and the fascinated forest sighed at the same time ~ www.mtlnovel.com ~ they couldn’t understand what Li Xiuyu’s family thought, why didn’t he tell Li Xiuyu at the beginning of the war, now that he had already hit it, he could not retreat at all Unless these 600,000 people repelled Lu Yang’s troops, or were completely wiped out by Lu Yang.

Seeing no one moving, Li Xiuyu asked, “Why don’t you direct the troops to retreat?”

Mysterious Forest said: “Lu Yang used a siege on all sides, and now the four gates have been broken. We have only one situation and there is no place to retreat.”

Li Xiuyu looked into the city. At this time, most of Lu Yang’s troops stormed into the city. His men were unable to form an orderly defense at all, as if they had been slaughtered.

Li Xiuyu sighed and said, “This time the responsibility lies with me. Tell my brothers, the resurrection will immediately retreat to Benliu City, and we will start again.”

“Li Shao, please go back with the silk language, and leave the rest to me to direct.” The Forest of Love said.

“Yeah, I have to discuss with Liu Jie about the follow-up things. I can’t let Lu Yang break into my running city.” Li Xiuyu patted the shoulder of the fascinating forest, and flew to the running city with a whisper.

Chapter 545 - Hannibal City

When the fascinated forest saw the two men leave, they shook their heads helplessly, and continuously sent messages to their subordinates, and the player who declared the battle dead returned to Benliu.

The news came out, and Li Xiuyu's men in the city were more inadvertently fighting, and they fled and tried to leave the fortress alive. However, the four gates were all Lu Yang's people. In the end, Li Xiuyu's chaos, which was completely chaotic, was nearly 300,000 People were blocked on the square in the outer city.

sky.

A drone overlooking the entire game recorded this scene. In the live broadcast room, Dubin exclaimed: "I have played the game for almost 20 years. For the first time I saw such a scene, I really want to know what Lu Yang wants. Treat these 300,000 people. "

Hitomi said: "This is the first time I have encountered, and I don't know if Lu Yang will order the killing ruthlessly."

Du Bin held his arms and said, "What can we do without killing? This is just a game. However, it is cruel to kill so many people who are powerless to resist. I'm really curious how General Qin Jun's hand was defeated. 400,000 Zhao Zu's savage killings. "

Hitomi said, "Look what Lu Yang did."

On the court.

White Lion and Zhuoji and others also snore. They are the first time they have encountered such a situation.

"This is what to do," said the White Lion, scratching his head.

A representative selected from the besieged players ran to Lu Yang and said, "Chairman Lu Yang, we want to surrender."

Lu Yang said: "Yes, everyone throws away all equipment, I let you go."

"This, this, I can't agree, this is our equipment." The player representative said awkwardly.

Lu Yang said: "Then what else do you talk to me about, if you and Wang Teng broke my flower fortress together today, will you spare me? Be realistic, go back and tell Li Xiuyu for me. Lead the Brotherhood of Jagged Brothers to visit his running city. "

Lu Yang raised his left hand, and a flare appeared.

“嘭”

The flame blast hit the player's head.

“16886” (Critical Strike)

The player represents death.

Lu Yang lent Hertos's suit and magic wand to Huo Tianhua and said, "Let your mage regiment wear my outfit and kill the 300,000 people."

"I'm dizzy." Huo Tianhua scolded the equipment attribute directly, handed the equipment to his subordinates, and said, "One mage and one mage put a secondary forbidden spell and killed me."

Zhuoju shouted: "Shield defense, watch out for enemy attacks, Iron Brotherhood."

“Kill!” Shouted in unison with the 420,000 Brotherhood of Iron and Blood, and the front shield smashed the big shield into the mud.

In the live room.

Du Bin said: “The 300,000 people are over, and Lu Yang is about to kill.”

Tongtong’s eyes widened in surprise. At this moment, the masters of Huo Tianhua’s masters cast the forbidden spell and the forbidden spell one by one among the 300,000 people who were besieged by Li Xiuyu.

“Brothers fight, rush.” I don’t know who shouted, 300,000 people bombed the camp, and a swarm of bees launched an attack on all sides. Unfortunately, Lu Yang had already prepared, and none of the 300,000 people broke through the shield and all were killed in the encirclement.

Du Bin took a long breath, and said with emotion: “This is Lu Yang’s rebirth. 300,000 people who don’t have the ability to resist say kill and kill.”

Tongtong said brightly, “So handsome.”

Du Bin held on to the live broadcast station and looked at Hitomi and said, “What aesthetic viewpoints do you girls have, is this handsome?”

Hitomi nodded and said: “How handsome, if it is a generation of military gods on the battlefield!”

Not only Tong Tongtong is such a point of view, most of the players watching the game agree with Lu Yang’s approach, because this is an order they cannot do and dare not give.

Du Bin was about to continue to spit pupils, and suddenly indirectly went to the news room. After reading it, Du Bin exclaimed: “Lu Yang is indeed a generation of military gods. Friends, just got the news, the Hessen Fortress was Lu Yang Hit it. “

Hitomi said: "How can it be, aren't the Jagged Brothers League and the Wolves players answering the fortress? Who hits the Hesse fortress?"

Dubin said: "Xinghun took eight guilds to attack Yao Zhi and Lu Jie who were fighting in the interior. The Hessian fortress was calmed down in the First World War, and then the fortress was given to Lu Yang."

"There is still such a thing, does that mean that Lu Yang has completely occupied Hannibal City?"
Hitomi said.

"That's it," Dubin said.

Echo Fortress.

Lu Yang just got the news from Xinghun, saying, "Brothers, Xinghun laid the Hessian fortress. From this moment, we officially unified Hannibal City."

"Good job," said bitter love for a long time.

The White Lion said excitedly: "Here we come, we might as well take this opportunity to pounce on the city and run Li Xiuyu out of the game completely, how about."

Everyone's eyes brightened.

"That's a good idea," said bitter love for a long time.

Lu Yang said: "I also have this intention."

The voice just fell.

Lu Yang's intercom sounded, picked it up, and was called by Zhuo Fanfan, the boss of Fengxianlou.

“Boss Zhuo, you call me at this time, how do I feel it is not a good thing.” Lu Yang said in an open.

Zhuo Fanfan said awkwardly: “Brother, I don’t want to make this call, and I’m helpless.”

With Lu Yang’s current strength, Zhuo Fanfan has no ability to provoke him. In a word, Lu Yang can destroy the hotels he opened in the three main cities.

“Say, what’s the matter?” Lu Yang asked.

Zhuo Fanfan said: “All the fortress bosses in 6 main cities including Beifeng City, Tiewang City, Jianyang City, Lakeside City, and Red Moon City just asked me to invite you to the Fengxian Tower in Hannibal City.”

Lu Yang frowned and said, “So many bosses in the fortress in the main city and Wang Teng are looking for what to do with me.”

Zhuo Fanfan said: “I hear what they mean. Wang Teng has formed an alliance specifically to deal with your expansion. I suggest you listen to it. It seems that some of them have sent troops to fight your intention ~ www.mtlnovel.com ~ Lu Yang said, “Okay, you can reply to them for me. You can meet, just at the Phoenix Fairy Tower in Hannibal City. “

Zhuo Fanfan breathed a sigh of relief and said with a smile: “Oh, I’ll reply to them now, and you’ll wait for my news.”

Lu Yang closed the intercom and said, “You guys have heard it, it seems that the speed of our expansion has scared the bosses in the surrounding main cities.”

Zhuo Jiu poured out, “Boss, we have to deal with it carefully. If so many main cities come to hit us together, we may not be able to guard against it.”

There are more than a million players who can be launched in the six main cities. Lu Yang said with a smile: “Relax, I won’t float until I kill Liu Jie.”

Everyone laughed.

“So, the troops will be stationed in situ. In this newly fortified fortress, the echoing fortress will be returned to the White Lion, the Lanshan Fortress to the turbid wine, the Hessen fortress will be for half a life, the raining fortress will be returned to Zhou Tianming, Xia Yuwei and Sun Yu wait for a while, do you agree? “

“Agree,” everyone said together.

Chapter 546 - 6 city interference

Lu Yang said: “You are stationed there, Brother Huo and Sirius. You return to the wolf clan. If there is no accident, I will take you to attack the Golden Wolf Fortress and the Black Wolf Fortress in a few days.”

“I’ll go back and prepare.” Huo Tianhua said.

Lu Yang said: “The Golden Wolf Fortress makes good use of fire spells and collects fire resistance gems. The Black Wolf Fortress is good at dark mages and collects dark resistance gems.”

“Yes.” Huo Tianhua and Sirius shot together, and the two of them happily took their troops to use the fort to return to the city and flew back to the wolf tribe.

Zhuoju and White Lion led their troops to the fortress, Sun Yu returned to the Garrison fortress, Lu Yang received extraordinary news, flew back to Hannibal, and rode the Red Flame Lion King towards Fengxianlou.

Zhuo Fanfan personally waited at the door and saw Lu Yang coming. He trot to Lu Yang and led Lu Yang into the third-floor private room.

Upon entering the door, Lu Yang saw Wang Teng sitting on the main seat and Li Xiuyu sitting next to him.

“Wang Teng, you are so fatal, Liu Jie didn’t kill you like this?” Lu Yang said.

Wang Teng was actually beaten with a bruised face and swollen face, and saw Lu Yang scolding angrily: “You pay attention to the occasion. Today, all the city owners and bosses of various fortresses are here.”

Li Xiuyu pointed to Landing and cursed: “The bosses who are arrogant here will not let you go.”

Of the more than a dozen people present, some had a proud look on their faces, while others were unmoved at all.

Lu Yang glanced around and said, “This is a personal feud between me and you. Is it related to others, what are you doing with me?”

“Keke”

A young player sitting on the left side of Wang Teng intentionally coughed twice and said, “Chairman Lu Yang, we have no intention of offending, nor did we intend to deal with you with Wang Teng and Li Xiuyu, but your expansion is too fast. . “

“This is the city owner of Red Moon City, Mai Lizhe.” Zhuo Fanfan said.

Lu Yang knows this person. The last name of the last generation, Ma Lizhe, was the only one who resisted the invasion of Liu Jie in the human race. Both countries are very powerful.

Lu Yang nodded and asked with an open hand, “What is the purpose of you coming to me today?”

“We want to know who you are going to hit next. It won’t be our Iron King City.” A young player asked.

Zhuo Fanfan quickly introduced: “This is the boss of Tieshan Fortress who killed the sword.”

Lu Yang said with a smile: "Do I have any resentment against you? I only have resentment against Wang Teng and Li Xiuyu. Even Li Xiuyu provokes me first."

"It's useless to say less, it's a matter of time before you invade the fortresses around you." Li Xiuyu cursed.

Lu Yang said, "Why should I invade the surrounding fortresses. I only have 400,000 players who can fight in the war. This is something I worked hard for. These people are dissatisfied with even the level map of a main city. What's the point of hitting you guys? "

"But what you are doing now really makes us feel threatened," Merritt said.

Lu Yang said, "I did n't know if I was here. I do n't need to talk nonsense anymore."

Everyone nodded.

Lu Yang said: "I was hostile to Wang Teng. At the beginning it was his bloodthirsty bully. I have a 100,000 guild and he will fight the remaining 13,000. I managed to survive. His black blood came to me again for trouble, then the eternal spirit, now Li Xiuyu, whenever Wang Teng had a chance, he would attack me. Do you say that I took the initiative to attack?"

It's just that he is too crap. I can't beat me every time. I have been forced to develop to the present level. I am innocent and innocent with you here. I will not attack you, and every time I fight It wasn't me who provoked it. It was Wang Teng and Li Xiuyu. You also saw it. I did not provoke this Li Xiuyu. He ran to form an alliance with Wang Teng to declare war on me. "

The facts are in front of him. Indeed, as Lu Yang said, Wang Teng and Li Xiuyu couldn't argue with each other. The bosses of other fortresses are not good at saying anything. They can't be provoked by the enemy every day. You don't want people to fight back.

Mai Lizhe thought for a while and said, "Since this is not the case, let's do a mediation. Your war with Wang Teng and Li Xiuyu is over. In the future, no one of you is allowed to attack the other party. If you attack, you should violate the agreement. Our other People have the right to help the attacked party. "

Wang Teng said, "I agree."

"I agree," Li Xiuyu said.

"We agree."

...

The fort bosses agreed.

With a smile on Lu Yang's face, he said, "Okay, I agree."

"Okay." Merritt stood up excitedly and said, "Then we will make an agreement now, and everyone will not violate each other in the future."

"Yes, we can sign an agreement now," Lu Yang said.

The sword boss and other fortress bosses stood up and agreed.

Wang Teng and Li Xiuyu glanced at each other. In private, Li Xiuyu sent a message to Wang Teng and said, "Why don't I feel right? Lu Yang agreed too quickly."

Li Xiuyu said: "I also feel that there is a problem. Lu Yang can now fight my fortress in the first battle. He has no reason to agree so easily."

"No matter, sign the agreement first and then say, if he dare to tear up the agreement, then we will be besieged by the people in our 6 main cities together." Wang Teng said.

"Hey, my family invested 2 billion yuan for me this time. Just give me time and wait for me to develop. The two of us can easily destroy all their forts." Li Xiuyu said.

Wang Teng said: "Jie Shao will soon hit Tianji Mountain and enter the Iceberg City. At that time, we and the Elves will attack together. What are these people?"

The two smiled at each other and signed the contract signed by Ma Lizhe. Ma Lizhe saw that the people on their side were all signed and handed it to Lu Yang ~ www.mtlnovel.com ~ The words, said: "Ma Lizhe, I believe that this agreement signed with you for talent, if someone will attack me in the future, you must send troops to help me."

"Of course, this agreement is permanent," Merritt said.

Lu Yang Gongshou said, "Okay, I'm goodbye. I will have a chance to get in touch with each other in the future."

Mai Lizhe saw Lu Yang leaving and personally sent Lu Yang to the door. Li Xiuyu and Wang Teng and others saw Lu Yang leaving on the third floor and smiled.

"I don't think this Lu Yang is remarkable. We are not afraid to be pretentious before us," said the sword killing god.

"Thank you all big brothers," Li Xiuyu said.

"In the future, we will communicate more." Wang Teng said.

"Yes," everyone said.

While they were chatting here, Lu Yang returned to Hannibal's headquarters and told the story of the people and other people.

Chapter 547 - sign the agreement

“噫”

Zhuoshu punched the table with a punch and scolded, “They are bullying us in partnership.”

“Boss, you didn’t sign this agreement.” Sun Yu said.

Lu Yang said: “Can I not sign in that case, more than 10 fortresses in 6 main cities, if we hit us together, our guild will be over.”

“So, shall we just let Li Xiuyu and Wang Teng just like this and wait for them to come and hit us in the future?” Said bitter love for a long time.

Li Xiuyu and Wang Teng are supported by a consortium. Without Lu Yang’s threat, they can develop themselves arbitrarily and wait for strength. Even if the people in these six main cities come together to fight both of them, it is not necessary. Worried about this happening.

Lu Yang smiled mysteriously and said, “Who said we would wait for them to hit us.”

“Don’t you sign the agreement? They regret that they still have to come and hit us together,” said bitter love for a long time.

Everyone was a little depressed, who could have laid down Benliu in World War I.

Lu Yang shook his head and said, “You guys, there are more ways to crack this agreement.”

“How to crack?” Xia Yuwei asked in surprise.

Lu Yang asked: “Do you know that there are three big countries in the world now, how do we deal with this matter in China, Eagle Sauce and Teddy Bear?”

Everyone shook his head.

Lu Yang said, "I first tell you how we do things. If you want a place, you first find his original owner, claiming that the place was originally his, and Wang Teng snatched his stuff. We secretly supported him. After helping him grab it back, he announced his joining our guild. This is not the end. "

Everyone: "..."

"Uh, I didn't understand." White Lion scratched his head and said.

Lu Yang shook his head and said, "How did Liu Bei borrow Jingzhou? Wasn't it Liu Biao? Liu Biao died and the city was occupied. After Liu Jie was beaten down, Sun Quan wanted it, and Liu Bei gave Liu Biao's son Liu Qi to him. I found it and said it was owned by someone else. It has nothing to do with you. Sun Quan can only go away sloppy. "

Everyone nodded and understood, Jiang Ze said: "This method is good and feasible."

Lu Yang said: "A few of you must keep a secret and don't announce it for the time being, or let Wang Teng or Li Xiuyu know we can't do it."

On the contrary, Wang Teng would use bloodthirsty domineering and black blood to make a fuss, at that time Lu Yang was passive.

"Boss rest assured, I know how to do it." Zhuo Jiu said indignantly.

...

Everyone said one by one.

Lu Yang said with a smile: "I naturally believe in you, but I'm afraid that you said that you missed the point and emphasized that it was actually a good thing to fail to beat Benliu this time. You find that no, we are facing a different situation. Already.

We used to have only two enemies in the holy city. Now we have a Hannibal city, and there are 5 main cities around. I want to move. The other 5 main cities have more than 10 fortress bosses running out to interfere. Even the Red Moon City far behind Benliu City came to interfere, too much trouble. "

Tu Feng asked, "Boss, we don't need to draw a few people to cooperate."

Lu Yang nodded and said, "You are responsible for inquiring about the news of several of them, and seeing which one can draw us to our side."

Tiewang City, Jianyang City, and Lakeside City are not unified. Each of the four fortresses in each main city is occupied by a guild. Lu Yang does not believe that they have an iron plate inside.

"Yes," Tu Feng said.

"Not only do we have to win over them, we also have to win over these small guilds inside Hannibal City. Yao Zhi and Lu Jie will not just let it go." Lu Yang said.

Although the fortress was beaten down by Star Soul with several small guilds, Yao Zhi and Lu Jie must want to grab the fortress.

"Boss, what do you want us to do?" Asked Zhuoju with a murderous look on his face.

"It's better to wipe out their guild completely." Zhou Tianming said.

Lu Yang said: "How much trouble, I have a good way to dismantle their guild within a few days."

"What way?" Everyone asked.

“Recruiting people, recruiting a large number of players above level 30 in Hannibal City, with open minds, no matter whether they are Yao Zhi and Lu Jie’s men, or under the command of the Silk Language, we all receive it.” Lu Yang said.

“Isn’t that going to get involved with spies?” Jiang Ze said.

Lu Yang said: “Every main city we attack will face this situation. I will teach you the method of distinguishing spies after a few drills, and you will find ordinary spies.”

Everyone nodded.

Lu Yang said: “Starting today, I will take you personally to recruit people in Hannibal City for five consecutive days. I want to see how many people there are left under Yao Zhi, Lu Jie and Leng Weixin.”

With Lu Yang’s status in the game today, he has three main cities, 13 fortresses, and more than 700,000 players. He recruited them in person and the results are unparalleled.

Yao Zhi, Lu Jie and other fortress bosses were willing to follow them because they have a fortress and can easily upgrade. Now the fortress is lost, and only a small number of people are willing to follow, most of them will flee.

Only when Yao Zhi and Lu Jie’s troubles are lifted can Lu Yang face the next war with peace of mind.

“Let’s go, let’s go.” Lu Yang said.

The crowd nodded and followed Lu Yang to the King Hall of Hannibal City.

[World Channel] Lu Yang: The Brotherhood of Iron Blood begins to recruit players from Hannibal City starting today. Anyone above level 30 can register in the King’s Hall. Regardless of the original guild, the Brotherhood of Iron Blood is equal.

[World Channel] Muddy Wine Pours: ...

...

More than 20 consecutive messages were released at the same time, refreshing the player's chat box.

“The Brotherhood of Iron Man recruits people, regardless of the guild?”

“Come and see.”

...

Inside the hotel.

Yao Zhi and Lu Jie are discussing ways to deal with Lu Yang.

“You and my brother must not be civil at this time, otherwise we will be completely done.”

“Yes, you and I together and Leng Weixin have a total of 400,000 people. This is a force that no one dares to underestimate ...”

As soon as the words fell, the two saw Lu Yang's recruiting news.

System prompt: Player Hongfeng exits the guild

System prompt: Player Tianhai exits the guild

...

In the dialogue box of the two, the system of exiting the guild prompted to flip up and down. In less than 10 minutes, the number of players who retired from the conference reached 100,000.

Yao Zhi looked at the guild with less than 50,000 people in shock, saying, "It's over, we have no chance."

On the other side ~ www.mtlnovel.com ~ Wang Teng, Li Xiuyu and Liu Jie are discussing how to deal with Lu Yang.

"Lu Jie and Yao Zhi are both very good targets. Some of them still have a lot of use in their hands. They can't just be wasted." Liu Jie said.

Wang Teng and Li Xiuyu just nodded and echoed. Suddenly, the three saw Lu Yang's recruitment news at the same time.

"I won't just leave it that way." Liu Jie scolded angrily, he did not expect that his strategy was once again resolved by Lu Yang.

Li Xiuyu said: "This man is not easy to deal with, not like an ordinary people."

Liu Jie sneered and said, "It's okay. The 12 guilds in Elf City will be integrated sooner than I will be merged into my hands because they owe me equipment. Within five days, I will attack Tianji Mountain Iceberg City. "

Below the iceberg city is Benliu City.

"Hey, great, we are finally connected, and Lu Yang will never be our opponent again." Li Xiuyu said.

Chapter 548 - Elf Clan for Help

Liu Jie said, "I also want to see what Lu Yang can do. I can't help him if I spend so much money."

Wang Teng looked ashamed.

"I'm gone. There are two fortresses over Zijin King City that haven't been beaten down. I'll solve these two problems." Liu Jie said.

"Jie Shao walk slowly," Wang Teng said.

Liu Jie ignored Wang Teng and returned to the Purple King City to direct the battle. This battle was the last battle for the POW Guild to unify the Purple King City. His opponent was the Noble Guild and the Divine Guild.

At that time, the two largest guilds in Zijin King City and the noble world were inextricably linked, but did not expect Liu Jie to emerge suddenly. They suddenly integrated 12 large guilds and occupied the other three fortresses in one fell swoop. Only one fortress remained.

Both guilds have consortium support behind them. The reason why they are labeled as such can only be said that Liu Jie is very talented.

The leader of the Divine Guild, Shenhuang, stood at the city, watching Liu Jie's 500,000 players outside the city, and said with a sigh, "Xiao Yi, contact Lu Yang and tell him that if we don't help, we will surrender the city. Now. "

Lan Yi elegantly said, "I can rest assured that Lu Yang will not let Liu Jie defeat us. He still needs us to pass on his message to Liu Jie."

This time Liu Jie sent 10,000 druids to Shenyang to tell Luyang. At first Luyang brought emerald crystals and Shenhuang transactions back to 3000 sets of 30 level 30 gold equipment. Later, the two sides have maintained close contact.

“Hope,” Shen Huang said lightly.

Hannibal City.

Lu Yang was recruiting players in front of the King’s Hall. When he saw the news, he was alarmed. Liu Jie in the previous life did not expose his purchase of the Elven Clan. This time, his invasion in the Elven Clan must have been caused by his rebirth. result.

According to the elegant news of the blue clothes, Liu Jie raided the Silver Light City and connected the four strongholds, which is equivalent to opening the channel between the elven and the human race. As long as he resolved the last two hostile forces in the Purple King City, he could go south at any time. Tianji Mountain attacked the iceberg city of the human race.

Below Bingshan City is Benliu City. If he succeeds, Lu Yang will not face Wang Teng and Li Xiuyu in the future, but face Liu Jie’s million-elven army.

This is not something Lu Yang can resist.

“Boss, what’s wrong?” Jiang Ze asked.

Lu Yang’s daze was discovered by people such as Zhuojiu and White Lion, and all seven came together.

Lu Yang said: “The recruitment of people is temporarily handed over to Tu Feng. The few of you are going to the inner city of Red Fort. I have something to explain.”

Seven people nodded, and as Lu Yang flew back to the fortress and entered the fortress hall, Lu Yang opened the three-dimensional map on the desktop and pointed at Tianji Mountain, saying: “Liu Jie took Silverlight with nearly a million players, as long as After defeating the two enemies that remained in the Purple King City, you can go south at any time. “

“Millions of elven players?” White Lion asked in surprise.

Lu Yang nodded and said, "Yes, the news is that the players under his hands have exceeded 1 million. This rich second-generation smashed 2 billion credit points and bought 12 large guilds."

"If they lay down Iceberg City, wouldn't we be finished," said bitter love for a long time.

Lu Yang said: "I have a way to delay the speed of Liu Jie's southward journey, about half a month. During this time, you must be prepared."

"Just relieved, Liu Jie came to make trouble again." Bai Lang said uneasily.

The white lion said, "Boss, let's talk, how you arrange us to fight, no matter who we are, we are not afraid."

"Boss, let's talk, how to fight." Zhuo Jiu said indignantly.

...

None of the seven legion chiefs showed a fearful look, some just had firm eyes. This was the confidence and bloodiness of more than 20 battles of life and death.

Lu Yang nodded, pointing to the seven locations outside the three main cities on the map, saying, "From the beginning of this night, your army chiefs will arrange players above level 40 to go to the Rebel Caves, Mammoth Valley, Meteor Falls, General The seven maps of the cemetery, the forest of dragons and snakes, the castle of the demon and the abyss of death have been upgraded, and it has been found that these seven places drop all skill books between level 30 and level 50. "

These seven maps are all level 50 maps, and they drop skill books. Lu Yang has always wanted to let his hands down and upgrade here. He did not have this strength before. Although he is still 10 levels down, his level 40 players wear them. They are all level 40 gold military uniforms, with gems and enchants. It is not difficult to beat monsters at level 10, and it is easier if organized.

People such as Zhuojiu and White Lion have been worrying about their intermediate skill books, knowing that there are joyous places where they fall.

“Let’s take someone here,” the White Lion said.

The white light flashed, and Han Ying’s three siblings entered the hall and put 30 storage bags on the table. Han Ying said, “Brother, you brought everything I brought.”

Lu Yang nodded and said to Hei Yan, “All members of the Mage Corps are brought here. Here are 233 new 40-level gold suits.”

These sets were all burst from the hands of Wang Teng and Li Xiuyu. There were 17 pieces of equipment in the whole body. Lu Yang gave each piece of equipment a level 5 spell penetrating gems. The 17 pieces together allowed them to destroy 30%. Spell resistance.

Hei Yan opened the storage bag and looked at the new equipment and said in surprise: “Boss, how can these equipment be gems penetrated by the spell?”

Lu Yang said: “Han Fei will take you to the level 60 map for a while, and the monsters at level 60 are equipped with magic resistance.”

“Oh.” Hei Yan said.

Lu Yang pointed at the other storage bags and said, “The medicine in these storage bags is called the magic sound reverberation, which is also specially used to break the law. Don’t be stumped when you are strange, use it.”

Hei Yan nodded and said, “Boss, what a weird thing, you need to prepare so many things ~
www.mtlnovel.com ~ Lu Yang said:” The Psychic Academy, the Iron Hammer Ogre Tribe, and the Blackstone Spire The elite of level 60 maps have a great chance to drop the transfer certificate. If you are lucky, you can type more than 200 copies a day. “

“The explosion rate is so high?” White Lion said in surprise.

The transfer certificate is a problem for each guild. Even if Lu Yang controls three main cities, they only get about 30 transfer certificates on the level 30 and 40 maps, which can not meet the needs of the guild.

Lu Yang said: "If there are enough players above level 50, I can make you more skill books. I will allocate 20 million credits to you, and you will find out the 200 most trusted mages. Ask them to take the money to do the ring mission, requiring that these 1,400 mages must be upgraded to level 50 within a week. "

"Yes," the crowd said together.

Lu Yang said to Han Ying: "The three of you will take them to the bug locations of the three maps until all of them have learned the card bug."

Han Ying said, "Brother, don't worry, I know how to do it."

Chapter 549 - Long distance support

Lu Yang nodded and said, "I'll rely on you these two days. I'll take the emerald crystal to go to the Elves."

"You are running." Jiang Ze asked.

After the game was revised, the Port of Corritania ran to Victoria, the free city farthest from the holy city. The official also stipulated that carrying a storage bag cannot use the teleportation array. I want to take such a large amount of emerald crystals to the Elves Can run away.

Lu Yang said: "Be assured, I know a path that will not be attacked by anyone. If I don't go this time, the Divine Guild will not be able to persist for a week."

“You can take a few more people,” Tu Feng said.

Lu Yang said: “Rest assured, I won’t be so reckless. With Han Sha, they are responsible for opening the road and sweeping for me without any problems.”

“Then we can rest assured,” Jiang Ze said.

Different from the individual heroism of others, Lu Yang, who is deeply influenced by history and culture, knows that if he wants to do something, he must not engage in individualism. He must have a perfect team.

Everyone has their own responsibilities for investigating, attacking, defending, and assisting. There is no need for one expert and multiple abilities. In this world, there are many people. As long as the guidance is reasonable, some people can specialize in one aspect.

During the investigation, mainly Han Fei, Han Sha and others, this time, Han Fei has already run once and has a clear direction of walking.

In terms of assistance, Lu Yang has been ordering Tu Feng to arrange a person to play emerald crystals. After three months, he has smashed more than 500 groups, the purpose is to wait for this day.

He knew that the Divine Guild would ask him sooner or later, but he didn’t think it was because of Liu Jie, but that’s okay. The Divine Guild had these crystals that could block Liu Jie’s footsteps for a long time.

After more than five months, the ownership of more than 70 fortresses in the 12 main cities of the Terrans has been clearly defined.

Each defending the fortress has gone through several wars, even a dozen wars, and annexed countless guilds around it.

Their number of players is more than 300,000. In the future fortress wars, there will always be wars of more than 600,000 people. When there are several parties forming alliances, there will often be wars of millions or even millions of people.

On the Elves side, Liu Jie alone can use millions of players. The Divine Guild and the Noble Union, which compete with him, each have 500,000 players.

Lu Yang wants to stand out among so many fortress city masters and gain more control of the fortress. All he can do now is to improve the ability of his own players, and by the way, bring allies to Dora. The Divine Guild is the most important one in Lu Yang. .

After he separated from Zhuo Jiu and others, he returned to the smithy to pick up a storage bag containing emerald crystals, replaced the Red Flame Lion King and ran out of the city.

Twelve people including Han Sha and Han Meng had been waiting on the road from the holy city to Hannibal. After confirming that there was no problem, Lu Yang moved forward.

From 8 pm to 5 am the next day, Lu Yang crossed Hannibal City and Lakeside City, and Jianyang City rested.

After a day's rest during the day, at night, Lu Yang continued to march toward Victoria, the capital of freedom.

On Friday night, Lu Yang entered Victoria City, and looking at the beautiful medieval style of the surrounding cities, Han Sha and Han Meng felt relaxed for a while.

"Finally has arrived." Han Meng said, these days they are exhausted.

Lu Yang smiled and said, "Have a day off and move freely, so don't follow me."

"Brother, let's accompany you to the Elves." Han Sha said.

Lu Yang said: "The port is only available to players who have earned their respect from the goblins. Your reputation is not enough. I don't think I can take you there."

Han Sha was reconciled.

Lu Yang rubbed his little head, entered the port, found the goblin, and sailed out on a big ship.

Players doing business around the port saw Lu Yang's goblin ships coming out, and they all exclaimed.

"The goblin's ship can go to sea. How did he do it?"

"Who is that person? It has opened up the popularity of the Goblin tribe."

...

Many players ran to the port to board the ship, but were blocked by the goblin.

"Brother on board, how did you do that, can you teach us?"

"Where is this ship going?"

...

The players on the shore shouted at Yang Yang.

Lu Yang didn't look back, sat inside the cabin, and turned into an elf-type player with a camouflage coat.

The ship sailed north along the open sea of the free city, and finally entered the Zijin King City of the Elves.

At this time it was already late at night, with the exception of players hanging on the stalls around the port, there were almost no active players.

Lu Yang had just disembarked and Shenhuang and Lanyi came over.

“Brother, it’s not suitable for communication here. Talk to our guild’s secret base.” Shen Huang said.

Lu Yang nodded. As Shenhuang came to a house on the west side of the Purple King City, and closed the door, Shenhuang said, “Chairman Luyang, you are really grateful to be here.”

Lu Yang said: “You know, Liu Jie and I are deadly rivals. Let’s talk without saying a word. I will definitely help you. This is 500 sets of emerald crystals.”

“500, group?” Shen Huang said in shock.

Lu Yang handed the storage bag to Shenhuang and said, “Yes, 500 sets. I spent a few months searching through all the maps of the Terran. I used the strength of my guild to hit so much. Brought it.”

Shenhuang opened the storage bag and saw that there were indeed 500 sets of emerald crystals inside, and his excited face flushed red, and said, “This fortress is holding up hope.”

The blue suit fluttered with fists and said, “Great, we can make at least 500 sets of 60 Druid Starfury suits.”

Shenhuang nodded, and then looked at Lu Yang with a little embarrassment, and said, “Chairman Lu Yang, I don’t have enough cash in my hand ~ www.mtlnovel.com ~ Can you give me some gold coins?”

Lu Yang said, “You can use these materials. I don’t want your money, and I don’t want you to use the shares as collateral. I give them away.”

“Send it for free?” Shenhuang and Lanyi were stunned.

“Do you really want to send it to us for free?” Shen Huang asked with surprise, originally thinking he would pay at least 10% of the guild’s shares.

Lu Yang said: “I believe you can also see that the main origin of emerald crystal is in the human race, and I don’t hide it from you. As long as the human race wants to fight, it is easy to type, not a rare material.”

Shenhuang and Lanyi elegantly nodded together, 500 groups equals 15,000, apparently and rare.

Shenhuang said, “However, these things are the materials I need most.”

Lu Yang said, “I don’t want to take the danger of people. To put it bluntly, today I can deceive you, but one day in the future, when you reach the human race and know the truth, you will definitely find me in trouble.”

Shenhuang did not speak, which is tantamount to default.

Chapter 550 - Actuary—Counting Dead Grass

Lu Yang said, “I’m here for one purpose, to help you block Liu Jie. I hope you are nailed to Zijin King City like a nail, so that Liu Jie dare not go south.”

This time, Lu Yang helped him with the most sincere attitude when he was in trouble. The goal was to reach a true alliance with Shen Huang to achieve true progress and retreat. After all, Lu Yang’s strength was just that. Clan fortress, he needs a powerful ally in the elven clan.

Shenhuang thought for a while and said, “Brother, I shouted at you brother, no matter what you say, one thing is certain. Without this batch of materials you gave me, Shenhuang could not hold it for a week.”

Lan Yi elegantly nodded and said: “Now most shareholders have withdrawn their capital, and the guild will be supported by a group of good brothers, or it will collapse early.”

Shenhuang said: "I'm in charge today, and 30% of the guild belongs to you."

Shenhuang gave the guild shares, not the fortress shares, which is equivalent to 30% of all the investments made by Shenhuang in Zijin King City, which is very large.

Lu Yang shook his head and said, "I'm not in danger. I can't."

Shenhuang was anxious and said, "Brother, you must hold it, otherwise you just look down on me."

Lan Yi elegantly advised: "Just hold it. I have a bad temper lately. You two shouldn't quarrel because of this."

Lu Yang laughed and said, "Well, I hold it. From today on, you and I formally form an alliance. I will do my best to help you keep the fort."

Shenhuang patted the table and said, "It's settled. Unfortunately, this is a virtual world, otherwise I must ask you to have a good drink."

Lu Yang said: "In the future, there will be opportunities. You first forge equipment, don't worry about me."

"Yeah." Shenhuang took out a transfer agreement and handed it to Lu Yang. After Lu Yang signed it, he returned to the Guild forging equipment with the materials.

Inside the guild smithy.

Lan Yi elegantly asked: "Why, why do you give Lu Yang so many shares?"

Shenhuang sneered and said, "Two reasons, the first is that the 500 sets of materials are worth the price to us. In our situation so dangerous now, Lu Yang extorted me a 30% stake and I have to give it to him. "

Without these 500 sets of emerald hearts, the Sanhedrin Guild would be broken up within a week.

The blue suit nodded elegantly.

Shenhuang went on to say: "One more thing, most of our family's funds are locked in the physical industry, and we can't give us more support. Even if I can survive this time, next time, I give Luyang shares. Lu Yang formed an alliance with me. In the future, the items that our elves need, Lu Yang can continuously supply us with the resources of the three main cities, let alone defend Liu Jie. It won't be long before we can counterattack. "

Lan Yi elegantly raised her eyebrows and said, "Still look away."

...

As Shenhuang said, Lu Yang has just sent the agreement to all heads of army such as Tu Feng and Zhuojiu to inform them that he has taken a 30% stake in the Divine Guild in the name of the Iron Brotherhood.

"This Shenhuang is so generous, 30% of the guild shares." Tu Feng said in surprise.

Lu Yang said: "If the Divine Guild can survive this war, we will make a net profit here in Shenhuang."

Everyone nodded.

"What do we need," Tu Feng asked.

Lu Yang said, "I'm strolling around the city to see how much the supplies here are different from ours. I'll make a list for you then."

"Okay," Tu Feng asked.

Lan Yu said, "Brother, be careful and be safe. Don't forget that there will be a global competition tomorrow."

"Rest assured, we did not forget." Lu Yang said with a smile.

When you go out, there is a person in your home who remembers that it will always make you feel warm. After turning off the phone, Lu Yang uses a disguised coat to walk out of the secret place and walk towards the commercial street of Zijin King City.

Although the materials of the elves and human races are the same, the prices of many things are different.

For example, herbal medicine, the human race's poison-making medicine is very cheap, but the elves are very expensive, and there are enchanted materials and some ore.

Lu Yang sorted it out and sent it to Tu Feng, saying, "We have a lot of materials in the warehouse that are not used but the Elves are scarce. You are ready, I will send them over."

"I'll prepare it now," Tu Feng said.

There are thousands of such materials in the guild. After Tu Feng sorted it out, Lu Yang built a sentry tower in a remote corner of the Purple King City, using the most primitive method of ants to move, and handed the teleportation staff to Tu Feng. Let him carry 24 people back and forth overnight.

By the next morning, when Liu Jie launched his attack again, he found that the fighting power of the Divine Guild was more than one level stronger than last night.

Especially the Elven Archer Team and Starfury Druid, who had poisoned arrows, had originally purchased all the poisonous herbs of the Elves, and sent people to occupy all the places where high-level herbs were produced outside the city.

There are almost no elven shooters capable of poison arrows at Shenhuang, but all elven shooters released poison arrows this morning.

There is also Starfury Druid. This kind of Druid has a special skill called Starfury, which has hundreds of millions of secondary forbidden spells. Its attack range is 500 yards in diameter. 20 Starfury Druids can defend a wall.

However, this skill has a huge disadvantage. The damage is too low. The only way to increase the damage is to upgrade the equipment level.

Liu Jie is confident that he has long been able to ascertain the players in Shenhuang's hands. There are no more than 10 druids with a level 60 gold suit. However, now it seems that all starfury druids on the four walls are wearing level 60 gold equipment.

Twenty Starfury were released at the same time, plus poison arrows and fortress cannons on the tower, Liu Jie's attacking forces were as if sent to death, all were killed without rushing to the top of the city.

Watching another batch of his men killed ~ www.mtlnovel.com ~ Liu Jie scolded furiously: "Stop the offense, check for me and find out where Shenhuang's support came from."

"Yes." A group of subordinates were just holding their promises.

Three people answered, but looked at each other with their heads raised.

One middle-aged person said, "Jie Shao, I recommend attacking the aristocratic guild with all your strength and temporarily sending people to surround the fortress of the divine realm."

This person's name is Liu Rufeng. His nickname is dead grass. He is an actuary under Liu Jie's father. He has an annual salary of 6 million yuan. He is also a senior master in Liu Jie's father's staff. Send over to help.

Liu Jie respected Liu Rufeng very much and said, "Brother Liu, isn't it a pity to give up this way?"

The dead grass said: "Did you forget the account I had with you before the war? The elves themselves were good at defending the city. Before Shenhuang lacked strategic materials, it is now complete. Someone must be behind to help, regardless of whether this person is Who, our goal is to go south as soon as possible to join Li Xiuyu from Benliu and Wang Teng from Beifeng. "

Liu Jie nodded.

Chapter 551 - Higher level duel

The dead grass continued to say: "So, it is enough to just pull out a fortress, and there is only one Shenhuang that can't find any spray. He is very defensive and can fight out of town. His strength compared to us in the field war is seriously insufficient. As long as 200,000 people stay behind, Shenhuang will not dare to act. You will attack 800,000 people with iceberg city without any problems. "

Liu Jie knew that the dead grass was right, but he still looked a little unwillingly at the glory standing at the head of the city and said, "Mingyue, kill me."

A beautiful woman in a beautiful dress next to dead grass walked to Liu Jie, bowed her arrow and aimed at the city's magical head.

The dead grass held Mingyue's bow and arrow and said, "This kind of skill is better left to Lu Yang. Exposure is meaningless."

Liu Jie thought for a moment, forcing down the anger in his heart, and said, "Well, the whole army retreated. The dead player resurrected himself in the city. Hot air, you can help me gather it."

The third person standing behind Liu Jie said with a smile: "Always ask me to do this kind of thing, I'm gone."

Liu Jie laughed and took the remaining troops to bypass the fortress of Shenhua and head straight to the fortress of the aristocratic union.

On the head of the city, players under Shenhua watched Liu Jie's actions closely, until Liu Jie's men disappeared at the end of the east gate, all players burst into cheers.

"Win, finally win."

"We hold onto the fort."

...

In the cheers of the crowd, Shenhua and Lanyi were relieved.

"Finally, hold on," said Lan Yi elegantly.

Shen Huang said: "Unfortunately, the aristocratic guild is over. After that, only our family will resist Liu Jie in Zijin King City."

Lan Yi elegantly said, "Would you like to send someone to support the aristocracy?"

Shenhua shook his head and said, "Lu Yang gave us only enough materials to fight for 5 days. We distributed it to the nobles. Once we leaked the news, our two guilds were finished."

Lan Yi nodded her head and said, "It's a pity."

Shen Huang smiled and said, "It's good to be able to hold the fortress. I told Lu Yang."

...

St. Galle city, arena.

Lu Yang is training with white lions, muddy wine and other people. At 5pm tonight, the competition has started. The war fighters have played a lot in these days. They need to make their moves more detailed.

“Don’t pull this big, sweep too slowly, you are a five-player battle, each person has his own position, and you can’t always let others share the pressure for you.” Lu Yang said to Twilight Razor.

“Yes, I see.” Twilight Knife said.

“Drip, drip, drip”

The voice of the intercom sounded, and Lu Yang saw that it was sent by Shenhuang, and said, “Practice first, I’ll take a call.”

Everyone nodded.

Lu Yang walked to the side of the field, pressed the on button, and asked, “What’s the matter.”

Shenhuang said: “Liu Jie retreated, and the whole army attacked the fortress of the Noble Guild.”

Lu Yang stayed where he was. He found himself miscalculated. If the aristocracy was shot down, Liu Jie could still go south, but he would n’t take the entire army.

“What’s wrong, is there something wrong?” Shenhuang asked Lu Yang without saying a word.

Lu Yang shook his head and said, “It’s okay. The aristocratic guild probably can’t keep it for three days. Forget it. If you can’t keep it, you can’t keep it. We will still act according to the original plan. I will continue to have people deliver goods to you. Be prepared to rush out of the fort to attack Liu Jie. “

“Rest assured, as long as I have a half-month buffer period, I can recover, and there will be no problem playing a battle at that time.” Shenhuang said.

“Well, that’s the way to go.” Lu Yang hung up the speaker and leaned against the corner. He had some doubts that Liu Jie did not command this battle. According to his understanding of Liu Jie, although he was very capable, but The same goes for young people-conceit.

Being able to give up attacking Shenhuang within such a short period of time is definitely not Liu Jie’s decision. It should be a decision made by the famous actuary around him in the last life.

In retrospect, the name of dead grass resounded through the Second World. Countless world-class guilds were lost by the fortresses he calculated, and the guild was dissolved. It can be said that without him, there would be no Liu Jie.

However, Lu Yang didn’t care about this person, but another master who was better than dead grass, and another staff member under Liu Jie’s father.

Liu Jie’s father was exhausted in a car accident when he was 45 years old and began to train apprentices.

He has trained a total of six people. Dead grass is one of them, but it is not the strongest. The strongest person is Qi Yun, who is responsible for 50% of the business of the Liu Group.

Liu Jie ’s father has five sons. The first few are useless. Therefore, Liu Jie ’s father uses Qi Yun as a future successor to train. However, since his younger son Liu Jie showed his talent, Liu Jie ’s father changed his mind and was ready to use Liu Jielai succeeds the family, not Qi Yun.

According to time, it is estimated that in May and June of this year, Liu Jie’s father will announce Liu Jie’s succession and drive Qi Yun out of the company.

After Qi Yun left in the previous life, he madly retaliated against the Liu family. During the 9th financial crisis in the world, he forced the Liu family to almost sell off the main assets. Unfortunately, he did not wait for his wishes to be fulfilled and died inexplicably in a car accident.

Because Qi Yun is not a star, he mainly designed these things behind the scenes. The news didn't pay any attention to this. Lu Yang knew that this was because he deliberately investigated the matter when he was a mercenary and learned from another mercenary.

It looks like you can try to recruit Qi Yun. This person is a full-time person. He has been working under Liu Jie's father for nearly 20 years. There is nothing he does not understand.

Lu Yang now has 18 billion yuan in cash, although it is a little bit for someone like Qi Yun, but it is enough for him to accomplish a lot of things.

"Brother ~ www.mtnovel.com ~ What are you thinking about?" Lan Yu asked with concern when she came to Lu Yang.

"Nothing, thought of some past events, we continue." Lu Yang said.

What he needs to do now is to find a way to stop Liu Jie. If he wants to kill a family like Liu Jie, he must start from both the game and reality at the same time, otherwise, give them a chance to take a breath and use their family for this century. With tremendous strength and relationships, it's the unlucky one who is.

"Brother, this afternoon is a three-family knockout match. If you lose one game, you will be eliminated. You can't be careless." Lan Yu said.

Lu Yang said: "Relax, I don't want K and Tang De to laugh at me."

K and Tang De have already finished the domestic competition because there are fewer people. K has successfully reached the final of the individual group, and Tang De and Black Friday have also reached the final of the five.

The white lion said: "The boss really sees people, and the people you choose are real masters."

Lu Yang smiled and did not speak. He is a rebirth and still loves this game. How can he not know these celebrities in the game.

Chapter 552 - Top 3 scrambles

Lu Yang said: "Unfortunately, there are still too few masters here, and the rest will be k and Tang De."

Relying solely on them now, the material of the transaction shakes those who are hoarding the material.

"Dididi"

Lu Yang's second cell phone rang. This is a cell phone that he bought back for communication with Tang De, K and others.

"You play first, I'll quit the game." Lu Yang explained that he quit the game and took off his helmet. He picked up the phone and saw that it was called by k. He smiled and pressed the connection button and asked, "What are you looking for?" thing."

He said with a smile: "Boss, I'm here to report the good news. I just contacted our domestic five- and three-player champions and they are willing to participate in this event."

Lu Yang's eyes lit up and he said, "Okay, boy, it's beautiful."

Huaxia and Thailand must be divided into a group. The group stage is played in 5 games per game, with three wins and two wins. If the materials can be exchanged each time, this number is several times larger than the original.

K said: "They want to have a face-to-face communication with the boss. Both are studios and have their own guild."

Lu Yang said: "Of course, you can make an appointment for me. I am free at any time today."

"Okay," k said.

Lu Yang hung up his mobile phone and moved his body while sitting on the sofa. He can guess that the two studios are looking for their own purpose, but they are fancy for the future development prospects.

The opening of the national war is not a very distant event. Once the national war begins, Thailand and Huaxia must be on the border. At that time, whoever finds foreign allies first will have the opportunity.

Lu Yang is so powerful in the country and has so many top masters. In the eyes of Thai players, it is the best target for alliance.

Soon, news came from k. Lu Yang opened the laptop to connect with the other party. After detailed communication, the two parties confirmed all the details of the transaction, and the other party was willing to lose to Lu Yang's party in order to show their sincerity.

Lu Yang said: "Don't, the last transaction is completed, and the two sides will play a fair game, so as not to be found by the system."

"Okay, then we'll be waiting for you tomorrow."

Lu Yang closed the video with a smile, returned to the game and continued to practice until the game started in the afternoon.

System Tip: The global competition will begin and you will be teleported to the arena within 10 seconds.

Lu Yang, Zhuo Jiu, and others looked at each other, and a teleportation array appeared under everyone's feet.

After 10 seconds.

The lights flickered and each entered the playing field.

As soon as he landed, Lu Yang found himself in the ground of the Elves, and he was facing an Elf female shooter, and this female shooter, Lu Yang just knew who she was.

The female archer saw Lu Yang's expression of surprise, and Qiao Xiao Yanxi walked out of the teleportation array and came to the position 30 yards in front of Lu Yang.

"President Lu Yang, long-awaited name, I never met you here," said the female shooter.

Lu Yang said with a smile: "Shooter Mingyue, the elven celebrity's famous female shooter, Liu Jie's most powerful assistant, I am also a long-known name."

Mingyue was stunned. She thought that Lu Yang didn't know her identity. She didn't expect Lu Yang to break her identity in a word, and said a little helplessly: "I can't think of President Lu Yang knowing me."

Lu Yang said: "Of course I know. I also know that you have already got the Moon Goddess, right?"

Mingyue's eyes widened suddenly. The most important part of the plan of Dead Grass and Liu Jie was her shooter's personality. Once he successfully attacked Lu Yang, he could grab the heart of Lu Yang's demon. However, he did not expect that Know that she has the moon goddess.

"How did you know?" Luna asked.

Lu Yang smiled and said two words, "Secret."

Mingyue was so angry that she raised her bow and arrow and said, "Then I will let you see how powerful I am."

Lu Yang shook his head and said, "You are not my opponent, and I don't want to kill a woman. Don't blame yourself, retire."

Mingyue's life is relatively miserable. His family did not escape the virus attack, and she was also isolated. She can only make money in the game every day to prevent accidents. When he sees the moon **** in the transfer temple one day I don't know how to cry with the moon god, even kneeling in front of the moon **** and praying, and stumbled upon the dark grid below the statue of the moon god, so he found the moon god's personality.

Mingyue itself is not a very strong player. After getting the godhead, he was not reported to be chased and killed, and accidentally encountered Liu Jie on the way to escape, which was received by Liu Jie.

Although she worked hard to improve her strength during this time, Liu Jie assigned her a special trainer, but her talents were limited, and her highest achievement in the previous life was only the 900th server of Huaxia.

"Impossible, Jie Shao's people will never be afraid of fighting. I will play a game with you." Mingyue saw the start of the game and raised his bow and arrow to shoot at Lu Yang.

Lu Yang had not had time to help Luo Zhenyu propagate, avoiding the bow and arrow of Mingyue, and a backhand flame impact hit Mingyue's left.

Mingyue shot an arrow and ran to the left, only to be hit by the flames.

"6868" (Critical Strike)

Mingyue was stunned for two seconds in the place ~ www.mtlnovel.com ~ Lu Yang's mouth spelled out, and his right hand pointed at the sky.

"Destroy the Sky"

As soon as the voice fell, Mingyue launched his jumping skills, jumping backward for a distance of 30 yards to break the stun effect. As soon as he landed, the Skyfire fell from the sky precisely.

"8522" (Critical Strike)

Mingyue died on the ground.

The players watching were crazy, and Lu Yang played prejudgment for two consecutive skills, which made them look like magic skills.

In the commentary room, Du Bin sighed with both arms and said, "It's too strong. The movement of Mingyue seems to be designed by Lu Yang."

Hitomi said: "At the beginning of the opening, the two clearly stated that they were enemies. I can only sigh, Lu Yang is too strong."

"Look, Lu Yang is really friendly, and before explaining, he helped Luo Zhenyu find his daughter. I thought he forgot it." Dubin said. ,

Inside the venue.

Before Lu Yang started, Lu Yang raised the sign Luo Zhenyu gave him and continued to find his daughter for him.

Different from the previous competition, the last three are to be decided today. The number of people watching Lu Yang is several times as usual. At a time, more people knew about Luo Zhenyu's daughter.

"Luo Zhenyu's daughter must be found this time. One fifth of the people in the country are playing" Second World ", even in Dagou," Dubin said.

On the court.

Lu Yang shouted three times while holding a sign, and the players grouped with him were selected. As a result, the players of the Brotherhood of the Iron Blood, abstained and surrendered, and Lu Yang was promoted.

...

Until 12 o'clock in the evening, at last, the competition entered the last three places.

Lu Yang entered the playing field again and came to the orcs. When he looked at his opponent, Lu Yang laughed.

The opponent is not others, it is Mu Huali!

Chapter 553 - Break into the global competition

Mu Huali saw that Lu Yang's face became emaciated, and raised the evil eye ghost knife in his hand and said, "Lu Yang, we finally met again."

Lu Yang said with a smile: "You were rescued by Liu Jie. Why, he was a running dog."

Mu Huali's face was embarrassed and he said, "You don't know. I've been thinking about how to treat you next time I meet. I can't think of it, God's plan, I met you here. Make sure you let me know, I'm great. "

Lu Yang asked inquisitively: "Aren't you three people, why not play a three-man match and run to a personal match?"

"My two brothers work better together. They have gone to the doubles. Hey, if they knew I met you in the individual match, they would be jealous of me." Mu Huali laughed wildly.

He has a laughing capital, and the output of the evil eye ghost knife in his hand is higher than Lu Yang's overall equipment.

Lu Yang said: "Your knife is really powerful. You are also a rare master. I have to admit it. In this case, today I will play against you in the strongest state."

During the conversation, Lu Yang changed into a Hertos suit, and the weapon in his hand was replaced with the magic teacher's staff. For a moment, Lu Yang's whole body was burning with red flames.

Mu Huali frowned and said, "I've seen your equipment, what attributes."

Lu Yang said: "It doesn't matter if I tell you, level 90 sub-legendary equipment, Hertos suit, I now have more than 8000 damage."

Mu Huali frowned even more.

Lu Yang said, "Battle between you and me is almost instantaneous. I hit your head, and you will die if you hit a violent blow. You hit my head with your evil eye ghost knife, and the wind angered me. Will die. "

Mu Huali's greatest confidence in breaking into the finals is relying on the evil eye ghost knife in his hand. The ghost knife with up to more than 2,800 damage counts up to more than 5000 total damage with his own equipment. He will be cut for three times in a rage, and his opponent will definitely die.

This allowed him to break into the final easily. According to their brother's ideas, there are evil eyes and ghost swords, and they have good skills. It is easy to break into the finals. If they are divided into two groups, they can get tickets for the finals. Both the individual and the doubles won the global championship and got more money.

However, now encountering Lu Yang's equipment is better than him, which has caused a great blow to Mu Huali's confidence.

Mu Huali has always put others into a state of inevitability. He has never encountered such a situation. He was afraid in his heart and said, "Okay, then we will compete."

As soon as Lu Yang's eyes lighted up, he instantly discovered Mu Huali's flaws. If he was a master, he would definitely come forward and attack at this time, not by any means.

"Pyroblast"

Lu Yang raised his hand to release a large fireball and flew towards Muhua Li.

Mu Huali hurried to the right, but just after taking a step, Lu Yang appeared beside Mu Huali.

"Yan Yang Suo"

A reddish chain instantly held Mu Huali in place.

"Wild Assault"

Mu Huali jumped a distance of 30 yards forward, and instantly broke the control of the chain, just when he was relieved.

The audience at the scene saw the scene of Mingyue's failure again, and a sky fire fell accurately from the sky and fell on Mu Huali's head.

"16888" Critical Strike

Mu Huali is dead!

"Extinguishing Skyfire is Extinguishing Skyfire. Extinguishing Skyfire released 2 seconds earlier killed Mu Huali accurately. Congratulations to Lu Yang, he locked a ticket to the Finals in advance." Dubin screamed.

The audience in the live broadcast room was completely boiling. Killing people with anticipation skills is like a world wave breaking a long distance in football, and it is still used in the finals, which instantly ignited the enthusiasm of all audiences.

“I bet that this year’s competition, Lu Yang will definitely be able to win the finals of the individual competition, there will be no accidents.” Du Bin said in amazement.

Hitomi said: “I totally agree that Lu Yang’s understanding of fire and combat far exceeds all other players, and he has overtaken all players.”

Dubin said: “If Lu Yang wins the championship in the first global competition, then he will be dubbed the title of Fire Emperor, and we will finally have an international star.”

On the barrage between live broadcasts, the words of Fire Emperor were swiped for a while.

Lu Yang was standing on the arena in the arena. He couldn’t calm down. He finally made it to the finals. Now, it depends on the situation of White Lion and Half-Life.

Leaving the arena, Lu Yang appeared in the hotel and returned to the guild headquarters. Tu Feng, Xia Yuwei, Zhang Zibo and Lan Yu were all there.

“Boss, congratulations.” Tu Feng stood up and said excitedly.

“Brother, congratulations,” Lan Yu said.

...

Congratulations.

Lu Yang was filled with excitement and asked, “How are the other people’s games?”

“They are still fighting. The white lion and bitter love half-life fight faster, and should appear.” Tu Feng said.

Lu Yang said, “Look at the screen.”

Tu Feng screened the battle of the White Lion into the space. In the three-player arena, the three males of the Bai Family have achieved an absolute advantage. The other three of them have two remaining people, one of whom has residual blood and was struck by the white wolf. support.

A flash of light flashed, and the white wolf killed the opponent’s remaining blood player.

Dubin said aloud, “Pretty, the Baixi Sanxiong has achieved an absolute advantage. I can now announce that the Baixi Sanxiong has advanced to the global finals.”

Hitomi said: “This year’s count is the outbreak of the Jagged Brotherhood. The personal battle of Lu Yang appeared, the three-man Sai Bai’s three males appeared, and the bitter love over there was about to appear. So count this year. The league has at least three teams participating in the finals. “

Dubin said: “I think Zhou Tianming and Zhou Tianyan also have the opportunity to reach the final.”

Hitomi said with a sigh: “That would be four teams, and the Jagged Brotherhood is too strong.”

...

There was a smile on the corner of Lu Yang’s mouth, and Tu Feng and Xia Yuwei also laughed, because this time, not only the four teams that entered the finals, but also the three members of Han Ying’s three brothers and Han Sha’s five. Team and Han Yu’s duo ~ www.mtlnovel.com ~ If there were no accidents, Lu Yang’s team occupied 7 of the 12 teams that reached the finals.

“This time we are really amazing.” Lan Yu said.

Lu Yang said: "Think about how hard our previous training was, it's time for our Brotherhood Brothers to erupt."

Xia Yuwei, Tu Feng, and others recalled Lu Yang and Han Ying's training, and they all sighed with a sigh of relief. They woke up every morning at 5:30 in the morning, and then entered such a high-intensity exercise.

This is quite easy. Han Sha and their 12 new guys not only have to complete these hard exercises every day, they also have to conduct practical training every three hours.

Entering the game with this kind of strength, and Lu Yang, a master who understands the game beyond ordinary people, explained that their strength is much higher than other players, even studio players.

This is a crush on pure strength!

(= Remember in a second)

Chapter 554 - International war

"Win, congratulations to the three males of the Bai family for breaking into the global finals and congratulations to the Jagged Brothers Alliance." Dubin's soaring voice sounded.

In the picture, the three male players killed the last player and successfully won the finals.

Pu Tongtong said: "The latest news is that the two brothers Zhou Tianming and Zhou Tianyan successfully reached the finals. Congratulations to the Jagged Brothers Alliance and the addition of two powerful men."

Screen playback, Zhou Tianyan slashed the opponent's neck with one stroke, killing him, and successfully advanced to the final.

Dubin cut the screen to the five-player game and said, "Iron Brotherhood is too strong. Let's take a look at the situation of half-hearted love. I believe that everyone who watched the live broadcast also wants to know how many teams are still available Make it to the final. "

As soon as the sound of the words fell, the bitter love half-heartedly rushed to the enemy in the picture, and a backhand sword was inserted into the back of the opponent's neck. After three times of crit, the opponent was instantly spiked.

"Their opponent is the Elite Clan's strongest studio, Tian Xuan Studio. Tian Xuan's own strength is one level worse than bitter love for half a life." Dubin said.

5 hit 4 and the battle turned into a one-sided battle.

At this point, all matches in the national service are over.

"Dear audience friends, I announced that all the teams that reached the finals of the first global competition have come out. They are Lu Yang, Qingtian Sword, and Scarlet Sun.

Zhou Tianyang brothers, Han Meng duo, Moonlight duo.

The three sisters Han Yingsan, Bai Shisanxiong, and Raging Trio.

The five-member team's half-loving team, Hansha team, and the fire method five-man team.

Among these teams, a guild of the Iron Blood Brothers League dedicated 6 teams, occupying half of the seats of all 12 teams. Let us congratulate all players and congratulations to the Iron Blood Brothers League. "Dubin cheered.

Lu Yang was watching Dubin's live broadcast and said with a smile: "If Dubin and players know that Han Sha and Han Meng are also ours, what will happen to them?"

"Hey, it's probably going to be crazy," said bitter love for a long time.

The audience watching the live broadcast frantically swipe the screen, whether it is a human race, an beast or an elf race, whether it is an alliance guild or an enemy, seeing so many teams in the Iron Brotherhood have reached the finals, they only admire two word.

This is not something that can be exchanged for money or rights. It was won by the Jagged Brothers League one by one on the field. The current results only show that the Jagged Brothers League is really strong.

Dubin said with emotion: "I have a list of the top 500 here. In this civil war, there are more than 100 players in the Iron Brotherhood who are ranked in the top 500. I have nothing to say."

Pu Tongtong said in a stunned state: "Doesn't that mean that at least one-fifth of the masters in the national costume are in the guild of the Brotherhood of the Iron Blood."

数据 This data is too scary. There are 300 million players in the national service. The top 500 can be ranked among the elites. One or two of the common guilds are very glorious, but the Brotherhood of the Iron Blood has gathered one fifth.

"It's really horrible. The total number of national service guilds is more than 100,000. Lu Yang gathers one-fifth of the number alone. In terms of elite fighting, he can crush all other guilds." Dubin said.

Pu Tongtong said: "No wonder the Blood Brotherhood defeated the Bloodthirsty League with so few people before. It turns out that the players in their guild are all masters."

Du Bin said: "Lu Yang, Bai Xiongxiang, bitter half-life, Zhou Tianming, they are the top three of the national service, Zhuojiu, Xia Yuwei, and Sun Yu are the top 100 of the national service. I am sad for Bloodthirsty. "

The explanations of the two people made the tribe players laugh, and most of the tribal players of the Jagged Brotherhood and the Bloodthirsty War are clear.

Player A: I have started worshipping the Baixi Sanxiong. I want to join the Brotherhood of the Iron Blood.

Player B: It turns out that the Jagged Brothers League is so strong, I want to join.

Uh ...

Countless players have applied to join the Jagged Brotherhood on World Channel.

Lu Luyang: The Brotherhood of Iron Blood welcomes everyone to join. Those who want to join the club can sign up at the King's Hall.

“Great, here it is.”

“I'll go as well.”

Uh ...

The players did not expect that the president of the Iron Brotherhood, Lu Yang, would reply to them in person, and a large number of players who were prejudiced against the Brotherhood of Iron Brother ran to the King's Hall to apply.

Hannibal City.

杰 Liu Jie, Wang Teng and Li Xiuyu were sitting in the hotel to observe the situation of the Jagged Brothers League, and suddenly saw a large number of players apply to join, which frowned Liu Jie.

“Lu Yang has recruited here for so many days, how many people can be recruited?” Liu Jie asked with a frown.

Li Xiuyu said unpleasantly: "Look at these people, most of them are senior players in the Hannibal City Guild. Before Lu Yang laid down Hannibal City so that they had a jealous mind and did not join. This time, most of them chose joined."

In the King's Hall, Tu Feng was responsible for recruiting with a large number of people.

Wang Teng frowned and said, "Isn't he recruiting players so quickly to break a million ~ www.mtlnovel.com ~ But, how can he have that ability to command so many people, isn't he afraid of becoming a burden?"

Liu Jie said: "What do you know, with the current state of the national service player and the popularity of Lu Yang, he greeted, isn't it normal for millions of people to fight with him?"

Players' upgrades have fallen into the second bottleneck. Levels 30 to 40 are already difficult, and upgrades above 40 are more difficult. If you want to upgrade quickly, you need to spend money. However, most players play games to make money.

这种 In the case of watching rich people upgrade, but they can only blame little by little, players are very upset, as long as there is a Mars, it can cause a fire in Hagiwara.

Li Xiuyu agreed: "I agree with Jie Shao, Lu Yang's light is too bright."

Liu Jie said: "We must gather the existing troops to kill Lu Yang as soon as possible, otherwise, after some time, he armed these players with the resources in his hand, we are really difficult."

秀 Li Xiuyu asked, "Are you ready to go south?"

Liu Jie nodded and said, "Early tomorrow morning, I will take 800,000 people to attack the Iceberg City, Li Shao, and bring your 600,000 people to help me. We will fight for the iceberg city within a week."

"no problem."

刘 When Liu Jie arranged here, Lu Yang told White Lion and others that K found the Thai five-man and three-man champions and runners-up.

“The teams in the Global Finals have been divided. We are in a group with Thailand, Laos, Myanmar and Vietnam. The first game tomorrow will be Thailand. Brothers, our opportunity is here.”

Chapter 555 - Successful transaction

Everyone nodded.

清 Early the next morning, Lu Yang called K after the workout and said, “Are you ready, you will play with me in the first game.”

K smiled and said, “Report boss, everything is ready.”

Lu Yang instructed: “Remember, after the transaction, you must fight with me. We cannot let the system think that you and I are playing a fake match.”

K said: “Boss rest assured, I will do my best, I can’t beat you anyway.”

Lu Lu laughed and hung up the phone to enter the game. He just appeared on the streets of St. Gall, and found that the entire city was promoting international warfare.

The players on the World Channel are also frantically swiping the screen, all of them are supporting the Brotherhood of the Iron Blood. At this moment, there is no guild distinction, only national distinction.

Commentary channel.

Dubin looked at the number of tickets sold for the international war and said in a shock: "2.1 billion? It's not my eyes."

In order to make money, players are required to pay to watch the game during the international war. Each game has 10 copper coins, and the amount of money is small, and everyone can watch it.

Dubin watched it again and confirmed his head and said, "Oh my God, there are 2.1 billion paid games to watch the first day of the game, and the number of people watching is twice that of the World Cup."

The average number of people watching each match in the last World Cup was one billion.

Pu Tongtong said in amazement: "I can't organize language now."

Dubin was calm and said, "Look at the first day of the game now. If the first day of the game is beautiful enough, I bet there will only be more and more spectators in the future."

Pu Tongtong opened the watch table in his hand and said: "I think this must have been deliberately arranged by the official. The first individual match was Lu Yang against Thai player K."

Dubin cheered and said, "Players who have watched the Thai game must know how strong K's player is. According to the official introduction of Thailand, he is a professional Muay Thai master. After entering the game, he created a set. The gameplay has been changed to match his set of gameplay. In domestic competitions, no one can afford K's set of combos. Like Lu Yang, they are the top masters in the world."

The players who listen to Dubin's live broadcast are all watching Lu Yang. They thought that Lu Yang would win the game. No one paid much attention to this game, but what made them not think that the opponent was so powerful.

"Professional Muay Thai Master?"

靠 “Fuck, all the players who can create their own skills are god-level players. This game is not so easy for Lu Yang.”

“There are matching careers, has this player bribed the official, and how did he do it?”

别 “Don’t freak out, go and cheer for Lu Yang.”

“This game looks good, let’s go together.”

Uh ...

On the World Channel, players shouted.

At this time, Lu Yang has entered the competition-only venue. This is a closed recessed waiting space of less than 50 square meters. There is a wall in front. When the game starts, the wall will open. Outside the wall is a huge circle with a diameter of 100 meters. Grass field.

猜测 He guessed that K was already in the confined space opposite him at this time. This place was the famous bu * of the last generation. The live broadcast of the player during the battle was played by 20 drones in the sky.

Unmanned opportunity to follow the players from all angles to watch the game. Players watching the live broadcast can use any drone lens to watch at any time.

However, there is a disadvantage of drones. If the player ran into the waiting space of the glyph for an instant, the drone can’t keep up with the shooting immediately because it is not moving so fast, there will be a vacuum time of up to 5 seconds.

The competitive masters of the last generation used this vacuum time to trade equipment. Regarding how to use this vacuum time, Lu Yang had already told K. The audience could see a very perfect and shocking match.

System Tip: The battle starts after 10 seconds, countdown

10

9

Uh ...

1

Game start.

The huge stone gate in front of Lu Yang slowly rises from bottom to top, and Lu Yang and K each walk out of the stone gate to stand at a distance of 50 meters from each other.

After Lu Yang arched his hand, the staff of his right hand pointed at K's head.

“Flame Shock”

At the moment when the fire light flashed on the front of the staff, K dropped his head suddenly.

“Hurricane Assault”

A hurricane flashed under K, and hurried toward the landing sun.

“Pyroblast”

Lu Yang said in his mouth that he continuously fired a large fireball at K at a speed of 0.5 seconds per round, and K, dodging around at a very fast speed, while continuing to run towards Landing Yang.

For a while, there were large fireballs flying around the field, but no one hit K.

The spectators of the two countries were excited when they saw that the competition was at the beginning.

Live room.

“K’s response speed is so fast, how can he escape such intensive Pyroblast?” Hitomi said in surprise.

Dubin said: “Looking at the situation after entering the 20 meters, if K can still escape, this K is terrible.”

The watching players nodded. Soon, K ran to a position 20 yards away from Lu Yang. Suddenly, K no longer ran in a straight line, but began to run around Landing Yang, all the way to the position behind Lu Yang. At this time, He was only 15 yards from Lu Yang.

不好 “No, K, this is to cut off Lu Yang’s back road, Lu Yang is dangerous.” Du Bin exclaimed.

In the venue, Lu Yang seemed to know that he was in a dangerous situation ~ www.mtlnovel.com ~ The escaped dagger was thrown in his hand. The ice-blue dagger spun through K’s body at high speed, and landed 15 yards behind him .

The light flashed, Lu Yang appeared 15 yards behind K, just landed, and his body flashed white. Lu Yang jumped back into the concave space. When the drone didn’t arrive, Lu Yang chose to throw away his material.

“Shaved”

K launched the high-speed movement skill, and shocked the concave space in the blink of an eye. Without looking at Lu Yang, he also chose to throw away the material on his body with one click, then ran to Lu Yang and picked up the material thrown by Lu Yang on the ground.

Lu Yang picked up the materials thrown away by K, and the two successfully completed the first transaction. Later, Lu Yang said a spell.

“Resistant Fire Ring”

A crimson fire burst out in Lu Yang’s body, centering on K’s body.

“噔”

K was broken out of the concave space like a kite with a broken line, and he stepped back for more than 10 steps before stopping.

As soon as he stopped, K flipped backwards three times in a row. When he stopped, a reddish light fell in the sky, right in front of K’s flip.

“Pretty.”

Even the players in national costumes are amazed by K’s escape this time.

Suddenly.

A reddish light fell in front of K.

“Remnant Flame-Activated”

Lu Luyang appeared in the firelight, and the sparks of the splash hit K’s body.

“8868”

“Yanyang Lock”

K’s body was trapped by a red chain.

“8896”

K dead!

Chapter 556 - Recruitment

second round.

Lu Yang continued to use concave space and K trading materials.

规则 The rules of the game are 5 games and 3 wins. Lu Yang and K played 5 rounds. In the end, Lu Yang won K and won.

At the same time, the three males of Bai Family and the half-loving team also won the opponent with 5 rounds in succession. After the match, the two sides did not have any exchanges and each exited the dedicated venue.

St.Gal City Hotel.

The white lion and bitter love frowned at Lu Yang for a long time, just about to talk, Lu Yang shook his head and said, “Quit the game.”

Everyone nodded and quit the game together.

As soon as he took off his helmet, the White Lion said excitedly: "Boss, we got a total of 2,700 sets of 40-level gold equipment materials."

Bitter love for half a life said: "We got 4500 sets."

People like Xia Yuwei and Zhuojiu all showed surprise expressions. Although they recognized Lu Yang's method before, no one thought that White Lion and Zhuojiu could be exchanged with so many materials.

"The boss also got 900 sets there, which together add up to 10,000 sets. It can be so scary to get so many gears in one match."

"Also count tomorrow's match with the Thai team tomorrow afternoon, we can get 10,000 sets, a total of 16,000 sets."

Amazing everyone.

Lu Yang smiled and did not speak, he was not excited, this data is still too small.

“嘀 嘀 嘀”

Lu Yang's cell phone rang. It was from K. Lu Yang pressed the connect button and asked, "What's the matter?"

K said excitedly: "Boss, a player from Myanmar just came to me and hopes to trade with us."

"Myanmar?" Lu Yang frowned, and asked, "How many people do they have and how do they want to trade?"

K said: "Um, all the qualified teams in Myanmar are from the same guild-the black and white channel. They don't want the championship, they just want to trade in the game."

Lu Yang's memory gate was opened. He recalled that this black-and-white channel was a guild organized by Southeast Asian mercenaries. Every player who entered the game was a veteran of the rest of the battle and had varying degrees of disability.

告诉 "Tell them they can trade, by the way, help me meet their boss, not the boss in the game, I want to see their boss in reality." Lu Yang said.

"Ah?" K froze and said, "Boss, what are you doing?"

Lu Luyang said: "You will know it later, tell them, I want to see their boss in reality."

"I'll try it," K said.

Lu Yang closed the intercom, recalling the legend behind the black and white channel, black and white, the most famous mercenary in Southeast Asia, once worked for the FBI, and later resigned to join the Blackwater Mercenary Company, known as the Black Devil on the battlefield in the Middle East.

In a battle, the enemy was ambushed by the enemy due to information leaks. His followers were either dead or disabled, and he was fired by mercenary companies.

照顾 In order to take care of these disabled brothers, he spent all the money he had saved before. In order to continue to treat them and their lives, he can only resume his old career as a mercenary, and has drawn up a 20-strong elite mercenary team in Southeast Asia.

This man was very moral. Lu Yang knew that his reason was the collapse of the black and white channel. In the year Lu Yang went to Southeast Asia, his sister was killed by a senior Burmese official. And his entourage led Burma to siege.

Because he has a group of brothers with disabilities, the army failed to arrest them many times as threats. In order to protect the brothers, Black and White went out of the mountains and committed suicide in front of the army.

Such a top-notch master of morale is exactly what Lu Yang needs. As he presses Wang Teng and Liu Jie step by step, it won't be long before Wang Teng is likely to jump over the wall to kill his wealth and prosperity. He, just in case he was in the game at that time, he would die.

In order to solve this problem, Lu Yang once wanted Han Zhong to resume his old career. Only with the protection of Han Zhong can Lu Yang be assured. However, he still decided to give up and not let Han Zhong do such a dangerous thing.

During this time, he has been thinking about which internationally capable mercenary group to hire, but unfortunately, he has not found a suitable one. He found black and white this time. If he can agree, Lu Yang will do his best to make black and white loyal to himself. Once your people are loyal to you, nothing will change.

“Brother, is there something wrong?” Lan Yu asked, and she saw that Lu Yang had been trembling after receiving the call.

Lu Yang shook his head and said with a smile: “Tell you the good news, Myanmar players have thought of us and took the initiative to find K for trading. I let K promise and let us contact us by the way.”

“We played against Myanmar in the afternoon, wouldn't we be able to trade 10,000 sets of equipment again?” Said bitter love for a long time.

Everyone is overjoyed.

Soon, K called back and gave a phone number to Lu Yang.

Lu Yang dialed back by phone, and after three beeps, a cold voice asked, “Who are you?”

The words spoken by the other party are in Chinese.

Lu Yang said: "I am the boss of the Iron Brotherhood, Lu Yang."

"What are you asking me for?" The other asked.

Lu Luyang said, "Black and white, I'm right to call you that."

黑白 In the dark room, black and white eyes tightened and he asked, "How do you know my name."

Lu Yang sneered ~ www.mtlnovel.com ~ said: "I naturally have my channel. I heard that you are the most trustworthy mercenary in Southeast Asia, aren't you?"

Black and white said: "What credibility a mercenary keeps is nothing more than money."

Lu Luyang said, "Okay, I hire you to do things for me."

Black and White asked: "What do you do, how long does it take, and what is the commission?"

Lu Luyang said: "In 5 years, you and your 20 people will earn \$ 700 a day, and I will buy the black and white channel guild in your hands at a price of \$ 10 million."

He was black and white, and he couldn't believe it and asked, "Do you really want to hire each of us at this price? Would you like to give the disabled brothers \$ 10 million?"

Lu Yang said: "Just for you, I am willing to give this price to everyone in your team, but I require you to work for me for five years faithfully, if there is any betrayal during this period?"

Black and white said: "I will never betray, I believe my brothers, if there is, I will kill him personally."

Lu Lu said with a smile: "I believe in you, if you can, I hope you will report the day after tomorrow."

“No need to bother, I’m in the country now, you tell me where you are, and I’ll take my brothers to find you.” Black and White said.

Lu Luyang said, “I’m in the East China Sea.”

“Okay, I took my brothers to Donghai on time at four in the afternoon,” said Black and White.

Lu Luyang said, “Don’t come with your brothers in the game. You have to play against us in the afternoon. Give me the phone number of the principal over there, and I will talk to them about the afternoon transaction.”

“Okay,” said Black and White.

Chapter 557 - Calculations

Lu Yang ended the call and said to people who were already silly around Xia Yuwei and White Lion, “I found a group of bodyguards for us.”

White Lion said: “What bodyguard, the daily salary is \$ 1700, is too expensive.”

Everyone nodded together, and counted a person’s salary of 600,000 US dollars a year.

Lu Luyang said: “You will know when he comes. I can give you a message in advance. He used to be a senior agent at the FBI in the United States.”

Everyone: "..."

"Boss, why do you recruit such people?" Bai Hu asked.

Lu Luyang said, "Protect us all."

Wuzhuo said with a black face, "Boss, we are playing games, protected by FBI, is it too luxurious?"

Everyone nodded.

Lu Yang shook his head and said, "It is not extravagant at all. Do you think that the old conventions of other guilds played fair with us? We broke the fortress. They only thought about how to regain the fortress instead of making a personal attack.?"

Everyone was a little confused, and they were exposed to such problems for the first time.

Lu Yang said, "Taking Li Xiuyu as an example, we laid down his four strongholds in World War I, which not only broke his fortune of tens of millions a month, but also made him unrecognizable in the uniform, and made him unbearable in the family. Yu Wei, how many bodyguards does Li Xiuyu have at home?"

The expressions of Xia Yuwei, Zhang Zibo and Lan Yu became somber at the same time.

Xia Yuwei said: "Not to mention the strength of the Lee's consortium, Li Xiuyu has made a lot of arrogance since he was a child. He became a large shareholder and lends usury to those people. If these people know our position, they do n't need Li Xiuyu to speak. Will come to our trouble. "

If they were both playing the game, the rogue broke in, and the consequences would be disastrous.

"Aren't we dangerous now?" Sun Yu said.

Lu Luyang said: "There is no problem for the time being, I just do this just in case, there is such a group of experts here, we can safely play the game is not."

The crowd moved, saying, "Thank you, boss."

Lu Luyang said: "This is what I should do, and I will purchase more security equipment in the future to ensure everyone's safety."

The players of the last generation avenged each other in the game. There were many killings outside the game. Lu Yang would never allow such things to happen to him and Lan Yu.

Tu Feng's phone rang. After receiving the news, his face changed suddenly and he said to Lu Yang: "Bad news, just now, Liu Jie's 800,000 elf player went south to Tianji Mountain to attack the ice mountain city. At the same time, Li Xiuyu sent 40 Ten thousand people assisted the attack. "

"1.2 million people?"

Lu Yang asked, "Are there any results?"

Wu Tufeng said: "The four fortresses of the Iceberg City belong to the Destiny Guild and the Hanjiang Guild. At present, the two guilds are desperately resisting, and it is estimated that they can block for a few days."

Lu Yang opened the video to watch. The players in the Cold Wind Fortress and Tianji Fortress were struggling to resist the fierce attacks of Liu Jie and Li Xiuyu. The two sides entered a stage of fierce heat. Various forbidden spells, secondary forbidden spells and special skills, special legions. I used it all.

Lu Yang said: "Liu Jie's strength is strong enough. He is obviously playing iceberg city, in fact, he is declaring war against us and showing off his force."

Bai Shi said: "Boss, I suggest that we now lead troops to attack Benliu or Beifeng City and force Li Xiuyu to withdraw."

Lu Yang shook his head and said, "It can't be beaten. I was forced to sign a truce agreement by the bosses of the six main cities, and now it is easy for them to destroy the destruction."

Xu bitterly loved for a long time and said, "Isn't they bullying people, it's made clear that they would pit us with Liu Jie."

Lu Yang smiled and said, "Don't worry, I'll talk to them and see what they say?"

System prompt: You send a special space invitation to Mai Lizhe, Sword Killer ...

The light flashed, Lu Yang appeared in a special space, and then several consecutive lights flashed, Mai Lizhe of the Red Dragon City; the sword king of the Iron King City, mad killing without pardon, the seven-inch sword and other guild bosses arrived one by one.

Mai Maizhe looked at Lu Yang with an apologetic expression, and said, "I'm looking for you. I already know the news that Liu Jie and Li Xiuyu led troops to attack the iceberg city."

Wu Luyang asked, "Any good suggestions?"

Mai Maizhe shook his head awkwardly, and everyone shook his head awkwardly. They originally wanted to restrict Lu Yang, but did not expect that Tianji Mountain and the Elves were connected. Liu Jie's sudden attack caught them off guard.

Lu Luyang said: "Since neither of you has proposed, then I said that since Li Xiuyu took the initiative to destroy the agreement and the previously signed agreement was void, I cannot attack Li Xiuyu."

"Cut." The sword-killer God showed a mocking expression and said, "No."

Lu Lu frowned and asked, "Why not?"

"You already have three main cities, do you still want to have a fourth main city? Are you too greedy?"
Asked the sword killer.

Lu Yang said, "This is not my greediness. It is the problem that Liu Jie is coming to me for trouble. Otherwise, I have to wait until Liu Jie destroys Bingshan City, and then merge with Li Xiuyu and Wang Teng to attack my fortress. ?"

The sword killing **** said: "That's your business ~ www.mtlnovel.com ~ It has nothing to do with me, I only know that if you dare to attack Li Xiuyu, I will definitely send troops to fight you."

There were no fools here, and I immediately understood the intent of the sword to kill God. Liu Jie, Wang Teng, Li Xiuyu, and Lu Yang were all super guilds with multiple main cities, and there was no one month to fight on either side.

The more chaotic and miserable they are, the greater the benefit to other guilds.

杀 Killing without amnesty said: "Me too."

The seven-inch knife said, "Me too."

Uh ...

Apart from Mai Lizhe, other guild bosses threatened Lu Yang.

Lu Luyang looked at their expressions and said with a smile: "Well, I know what you mean, that's it."

The light flashed, and Lu Yang exited the special space.

"Boss, what do they say?" Zhou Tianming asked.

Lu Luyang said, "You are not allowed to fight, a bunch of **** want to watch us play against Liu Jie, so they can profit from it."

“How can they do this?” Lan Yu said.

The white lion said angrily: “Too bullying, it is clear that bullying has no ability to hit them.”

Lu Luyang said, “Remember today’s shame, and one day I will take you to destroy all their fortresses.”

“What shall we do now?” Jiang Ze asked.

Lu Luyang said: “Playing the game first and getting the materials in hand is very important to me.”

“Boss rest assured, we must get all the materials in hand,” said bitter love for a long time.

“So do we,” the White Lion gritted his teeth.

Chapter 558 - Materials

Unlike other countries, the Black and White Channel Association has won all the top three places in all groups participating in Myanmar’s international competitions.

Lu Yang and the Black and White Channel battle can get the most raw materials. By noon, Black and White took all the participating members of the studio and Lu Yang and other people to conduct computer video. The two sides agreed to play.

The game starts in the afternoon.

Lu Yang fights with black and white men.

Zhou Tianming and his two brothers battled in combination.

Han Meng combination and bayonet combination battle.

Bai's three males and black eagle combination battle.

Han Ying's three siblings and the Tigers battle.

Bitterly love the half-life fivesome and Duanlong combination fight.

Hansha fivesome and black light fivesome fight.

On the battlefield outside Bingshan City, Liu Jie watched Lu Yang's fighting video while taking advantage of his free time to attack the city.

"This Lu Yang is not very strong. It is very difficult to play with foreign players. The way to win is also to win by level advantage." Liu Jie said.

交易 In order to trade equipment, during the game, Lu Yang jumped into the concave space every time to avoid the lens of the drone. After the transaction was completed, the opponent used the fire ring to eject the opponent.

Wang Teng toutingly said: "Jie Shao, Lu Yang is definitely not your opponent. As soon as your army arrives, he will lose."

杰 Liu Jie sneered, looked confidently into the distance, and asked, "How many of the 150,000 sets of equipment I handed over to you?"

King Wang Teng bowed his waist and said, "130,000 sets, only 20,000 sets are left unplayed."

Liu Jie said: "Accelerate the speed. Before laying down Iceberg City, I will see that all 20,000 sets of equipment are equipped on your body."

"Yes, I promise to complete the task," Wang Teng said.

Liu Jie nodded with satisfaction. He was very satisfied with Wang Teng's ability to handle things. Shen Ji was repeatedly used in the game, but he was not good at playing games.

"The Elves have 150,000 sets of gold equipment of level 40, and the Terrans have 150,000 sets of gold equipment. Counting 130,000 sets of Li Xiuyu, we have a total of 430,000 sets of level 40 gold equipment. Lu Yang's quantity is only half of ours.

In terms of elite players and players who know special skills, secondary forbidden spells, and forbidden spells, Lu Yang is far less than us, and the number is not dominant. When we attack Hannibal City, we can be calm in the first battle. "Liu Jie said confidently.

Wang Teng, Li Xiuyu, Mingyue, dead grass and so on nodded.

Suddenly, a look of anxiety appeared on the face of the dead grass, saying: "Jie Shao, it is not difficult for us to win Lu Yang. The real difficulty is the other three big consortia. The way we win these guilds is 40 Gold, if they sell hard and sell at low prices, we will easily lead to civil unrest. "

Liu Jie was a little upset. He was in the middle of the speech, and the dead grass was so disturbing his interest, but he still humbly said to the dead grass: "Liu, I will pay attention to this matter, currently level 40 The gold materials were brought up by all the big material merchants of Huaxia Server. It is almost impossible to suppress them. "

The dead grass nodded and said, "I have such a worry, and you are right, unless someone can get more than 50,000 sets of gold equipment, otherwise, the price will not have any fluctuation, and I want to press it to us Guilds are dangerous, at least 100,000 units. "

At this moment, Lu Yang won the game in the video. Liu Jie thought that the Burmese player could defeat Lu Yang, but did not expect to let Lu Yang win again. I was too lazy to watch the video again, but what he did n't know was that he was dead. Cao worrying is being realized around Lu Yang.

Lu Yang returned to the guild warehouse. After a while, the white lion and bitter love half-life and other people won the game and returned. Everyone put the materials they got into the guild warehouse.

After Tu Feng's statistics, he said, "A total of 18,900 sets of materials for making 40-level gold equipment were obtained, including the 8,100 sets obtained in the morning, a total of 27,000 sets."

Lu Yang shook his fist vigorously and said, "Play another 27,000 sets tomorrow. As long as I encounter the black and white channel again in the next game, plus Tang De and Black Friday, I can make up 100,000 sets of gold. material."

"So much." Xia Yuwei marveled.

Wu Tufeng asked, "Are you going to change your mind and let the black and white channel group go out?"

Lu Yang nodded and said, "I talk to K and see if the other person agrees."

Picked up the phone, Lu Yang called K and said, "I want the black and white channel group to go out. Can your friend agree?"

"I'll contact you." After K kept the conversation and communicated with the other party, K told Lu Yang: "The two sides promised to lose to the black and white channel, but they put forward a condition to establish an alliance with the black and white channel."

Lu Luyang said, "I have the same intention. In the future, we will add another ally in the game to prepare them. I invite them to join the video."

"Okay," K said.

Lu Yang took out his computer and connected the players in Thailand and Myanmar at the same time. Soon, both parties connected to the video.

One side of the black and white channel and K side saw each other smiling.

Lu Luyang said: "From today, our organization has joined several friends and welcomes you."

五 Thai five-player and three-player players nodded their greetings to www.mtlnovel.com ~ Five-player Mu Ming and three-player Jin Hui also said, "Thank you, President Lu Yang for your invitation."

Lu Yang said, "You're welcome. You can break into international warfare and prove that your strength has reached the standards I recognize. This organization not only has masters from your two countries, but also masters from several countries such as Europe and the United States. In the future, I will introduce you one by one. "

The people on both sides of Mingmu Jin and Jinhui are stupid. They thought that there were only four of them. It was a very small and ordinary organization. I did not expect that this was an organization with many international high-end players.

Tochigi Ming said respectfully: "I will lose to the black and white channel in the game according to President Lu Yang's request."

"Me too," Jin Hui said.

Lu Luyang said, "Thank you both, we will discuss the specifics of the fighting now."

Uh ...

Tripartite simulation battle scenes to night.

The next morning, Lu Yang and Vietnam fought. The two sides did not know that there was no communication. Lu Yang's side was all clean and won 3: 0.

In the afternoon, I played against Thailand again. On the third day, I played against Myanmar again. Each game played 5 innings. By the noon of the third day, Lu Yang got a total of 54,000 sets of gold equipment.

At the same time, Lu Yang successfully entered the international competition. It happened that the five-member opponent drawn by the lottery was Germany's Tang De team.

After the group match is over, the teams that are promoted by each country are no longer in the form of a country, but in the form of a team. Because some groups in some countries have lost, others have won, so the official As a distinction.

Chapter 559 - Play 1 time big

"It's great," said bitter love for a long time, his opponent is Tang De, and he can trade again.

There was a mysterious smile on the corner of Lu Yang's mouth, saying, "There is better, each of you has a share."

"What's the matter?" The white lions and Zhou Tianming and others were very excited, generally speaking, Lu Yang had very good things.

Lu Yang took out his notebook and put it on the table, and said, "Log in to the video platform and give you a surprise."

White Lion, Han Sha, Han Meng, Zhou Tianming, bitter half-life, Han Ying and others sat next to Lu Yang and opened their computers to log in to the video platform.

This is a global platform with encrypted settings. There are more than a dozen blocks on it, and one person in each block is connecting to the video.

Among these people, in addition to Tang De and Black Friday they have seen, there are more than a dozen have not seen, each of them is marked with nationality under the name, there are British, French, Belgian, Burmese, Germany and the United States.

“Chairman Lu Yang, you are here,” said a blond-haired player in English.

The video website comes with simultaneous translation, and Lu Yang understood it and said, “Sorry, I have kept you waiting.”

“you are welcome.”

“We have no problems.”

Uh ...

Dozens of players have said one after another.

Xi Xia Yuwei and the White Lion and other people looked at Lu Yang in shock, they were with Lu Yang every day and had never seen these people before seeing Lu Yang.

Xia Yuyu asked but was stopped by Xia Yuwei.

Lu Luyang said, “Today’s grouping has come out. I will gather all of you this time. I want to discuss the details of the game.”

At the main stage of the international war, the battle adopted a seven-game four-win system. Although the number of matches in the game was more, if they lost, they would be eliminated directly.

金发 A blonde player said, "Chairman Lu Yang, the sponsor this time is you, and everything is based on your rules."

The brown-haired player said, "Agree."

Tang De said: "Agree."

Black Friday said, "Agree."

Uh ...

All accept the offer of the blonde player.

Lu Yang said: "Thank you all, then I'm also very welcome. You sent the list of materials to me. I made a comparison. This time, I was lucky. Everyone I found here had at least one trading opportunity. It's just that the trade will hurt your rankings. I hope you don't mind. "

A player with brown hair said, "My purpose is to drive down the price of the material of the server. I don't care about the rest."

"This time to protect the game, we don't mind the ranking."

"So are we."

Uh ...

Everyone has no opinion.

Lu Yang nodded and said, "In this case, I will send the fighting method of the game to all of you, we will see you on the field."

“OK.” The brown-haired player exits the game.

“OK.” The blond-haired player quits the game.

Uh ...

Within 1 minute, all foreign players exit the platform.

Xia Yuwei closed her laptop and looked at Lu Yang in surprise. “Boss, who are these people?”

Bitter love for half a life said: “I know the golden-haired one, called an eight-armed spider, a British five-player master, the boss, these people will not be masters from all countries to participate in the final.

Lu Lu smiled at the corner of his mouth and said, “You are right, these people are the masters of the countries entering the knockout stage of the international competition.”

Tong Lanyu asked in surprise: “Brother, how did you do that?”

Everyone was dumbfounded, Lu Yang was able to convene more than half of the knockout players, and everyone also obeyed Lu Yang’s arrangements.

Lu Luyang said: “Simple, it’s nothing more than profit. Do you know how much money they can get once they trade?”

Xia Yuwei and White Lion shook their heads.

Lu Yang said: “Europe and America’s 40-level materials are more expensive to sell than domestic ones. Take a five-person group as an example. After seven games, they can trade 6300 groups of 40-level gold materials, even if they sell for 30 gold coins. , The number of gold coins obtained was also 190,000. “

Converted into credits, there are more than 50 million, which is equivalent to half the prize money of the finals.

“But, aren’t they all world-class experts? They shouldn’t be short of money.” White Lion asked.

Lu Yang said: “It is not short of money, but lacks prestige and strength. Take the eight-armed spider as an example. He created a super guild on the British server. He is currently out of breath due to the hostile guild. If, now that he has the materials for this match, is he still afraid of hostile guilds? “

Everyone shook their heads. They were all battle-fighting legions. They clearly knew that there were 6,300 sets of 40-level gold equipment, which could play a role in the battlefield.

Lu Luyang said, “Of course, there are still some people who work for fame and justice. Many people want to solve the problem of material prices in various countries.

During the domestic game, I asked Black Friday and Tang De to contact the masters of various countries to reach the finals, and then I personally came forward to invite, and every player I invited was glad to accept it. “

Bai Shi asked: “Boss ~ www.mtlnovel.com ~ How many sets of materials can we get this time.”

Lu Luyang said: “About 250,000 units.”

这么 “So much, boss, what are you going to do?” Asked bitterly, half-hearted.

Lu Lu smiled and said, “I’m going to play big one.”

“Boss, what are you doing?” Xia Yuwei had a bad hunch.

Lu Luyang looked at the crowd and said, “Don’t ask, I will tell you then, now, I’m ready to play.”

“Yes,” said the White Lion and the bitter half-life.

in the afternoon.

The knockout officially begins.

I loved my half-life start to Black Friday and then to the brown-haired American five.

Hansha fivesome faced France and then Mexico.

Han Ying’s three siblings played against Germany and then the French trio.

Uh ...

Lu Yang is facing a player from the United States, called Conley, and one of the players involved in this transaction.

This is the battle that Lu Yang is most looking forward to. Unlike other people’s transactions, Lu Yang and Conley are not trading 40-level gold materials, but 60-level legendary equipment materials.

The only team that won was Tang De’s two teams, who defeated the Firefighting Five and Raging Trio. However, in the next game, Tang De again encountered Black Friday, and the chess game was defeated by one move. Black Friday used experience to defeat Han Sha.

Bai Shi Sanxiong lost to Han Yingsan in the quarterfinals, Zhou Tianming’s two brothers and Han Meng lost to Russian players. In the end, the only Chinese players who broke into the finals were Lu Yang and Han Ying. .

Chapter 560 - Liu Jie visits

However, these are not the main ones. The main thing is that Lu Yang successfully obtained 250,000 sets of 40-level gold equipment materials.

的 The conference hall of Hannibal City Guild.

The heads of the army such as the White Lion and Zhuoji gathered together and looked at Lu Yang curiously.

“Boss, you have all the materials. Can you tell me what you are going to do now?” Zhuo Jiu asked curiously.

“We want to know too.”

“Boss, this feeling is too anxious.”

Uh ...

7 legionnaires said one after another.

Lu Yang laughed, just about to speak, and suddenly Tu Feng ran back and said, “Not good, just received the news, Liu Jie captured the four fortresses of Bingshan City.”

The crowd shook their heads sadly. This incident was expected. Bingshan City was surrounded by helpless forces and besieged by a total of 1.2 million troops from Liu Jie and Li Xiuyu. Being able to persist for a week was considered rare.

A player in charge of guarding the gate of a guild ran into the chamber and said to Lu Yang in a panic, “Boss, Liu Jie is here.”

Lu Luyang's eyes suddenly became sharp, and people such as Zhuojiu and Xia Yuwei also showed surprised expressions.

"You say it again, who's here?" Tu Feng asked.

"Liu Jie is here, with Wang Teng, Li Xiuyu, Qu Han and his 300 Guards behind him," said the goalkeeper.

Lu Luyang's mind was mixed for a while. He waited too long for this moment. Finally, Liu Jie still came to him.

However, unlike the previous life, when Liu Jie came with 300 main forces in the previous life, Lu Yang was only the president of a small guild with 5,000 people. This life is different.

Lu Yang looked back behind him. In this life, he was not only surrounded by world-class masters such as Bai's Sanxiong and half-loving half-life, but also leader generals such as Xia Yuwei and Turbid Wine Pour, and also Sun Yu and Hei Yan Destroy players.

The most important thing is that there are 900,000 players behind Lu Yang. He is not afraid of Liu Jie at all, and said, "Brothers, come with me and greet our greatest enemy, the Jagged Brotherhood."

Xu Zhuojiu poured in laughter with Bai Shi and others, followed Lu Yang downstairs, and when he reached the stairs on the first floor, Lu Yang saw Liu Jie standing at the door with a calm smile.

Lu Luyang also smiled and walked down the stairs to Liu Jie, saying, "President Liu Jie, you can come to my guild is a rare visitor."

Liu Jie said with a smile: "I came here today, don't mind."

Lu Yang reached out and made a please gesture, saying, "Of course I don't mind, please inside."

杰 Liu Jie stepped into the door, Wang Teng and Li Xiuyu followed him into the door. Qu Han and 300 players walked in, but the white lion reached out to stop Qu Han and others.

“What do you mean?” Qu Han asked with a frown.

White Lion said sarcastically: “President Liu Jie would not want these 300 people to go upstairs with you.”

Liu Jie said to Qu Han: “Stay here, worry about my safety differently. It’s just a game. President Lu Yang will not do such meaningless things.”

Yu Quhan nodded and took 300 people to wait outside the door. The white lion walked out of the door and issued an order. He quickly mobilized 300 transferred paladins to the door, and the two sides confronted each other.

杰 Liu Jie said in amazement: “President Lu Yang, your men really deserve the name, and the speed is fast enough.”

Lu Luyang shook his head and said, “That’s not my man, it’s my brother.”

的 The white lion standing at the door and the 300 Paladin’s straight chest can’t help but feel quite straight again. Lu Yang’s words are the most affirmation to them.

Although the faces of the 300 subordinates of Lu Quhan and Liu Jie did not show it, from their eyes, they could obviously feel a gloom.

杰 Liu Jie originally wanted to join Lu Yang as soon as he entered the door. He didn’t expect to be held by Lu Yang. When he went up the stairs, he switched off the topic and said, “Your guild hall is very creative.

Lu Yang smiled and said, “Secret.”

Liu Jie's disguised smile almost couldn't hold it, Wang Teng and Li Xiuyu were both dumbfounded, while the others, such as Duo Jiu Qing Xun and Xia Yuwei, couldn't help laughing.

Liu Jie shook his head and said, "This is also a secret?"

Lu Luyang said, "For the three of you, everything in our guild is a secret. By the way, why did n't that army officer under you count die?"

Liu Jie's eyes became unnatural. Dead grass was a secret inside the Liu Jie Guild. He only said to Wang Teng, Ming Yue and other five or six confidants, and it was absolutely impossible for others to know.

"Where did you hear that I have such a person?" Liu Jie asked with a serious expression.

Lu Luyang looked at Wang Teng and said, "He, my spies."

Ye Wangteng's face became flushed, and his whole body seemed to be drenched with cold water. He jumped to his feet and screamed: "When are you talking nonsense, when am I your agent?"

Liu Jie frowned and looked at Wang Teng and said, "Be calm and calm, President Lu Yang is just kidding you."

Lu Luyang said, "It's still Jie Shao smart, just a joke, don't mind Wang."

King Wang Teng can't wait to kill Lu Yang's ancestor eighteenth generation. He pointed to him in front of his boss and said he was a spy agent. This is a joke.

Li Xiuyu said to Lu Yang unpleasantly: "Don't think that when we defeated us once, we were so blind and we must respect each other."

Lu Luyang looked at Li Xiuyu with disdainful eyes and said, "You don't deserve respect."

“You ...” Li Xiuyu was furious, but was about to scold Lu Yang but was stopped by Liu Jie. He smiled and said to Lu Yang, “I don’t know where the meeting room is. I came to President Lu Yang today to discuss a business. It’s not for a fight. “

Lu Yang looked to the conference room and said, “It’s right there, please come in.”

In a conference room that can accommodate up to 50 people, there is an oval long table in the middle.

杰 Liu Jie entered the door with Wang Teng and Li Xiuyu sitting on the south side of the long table, and Lu Yang took the muddy wine, Xia Yuwei, Sun Yu, Zhou Tianming, Jiang Ze, and Bai Hu on the north side.

Liu Jie didn’t speak, and Lu Yang didn’t say anything. He just looked at Liu Jie’s expression with a smile.

Liu Jie started attending board meetings at the age of 15 and sits next to his father every day. He, like his father, has an aura of self-confidence, and he can’t help but want to surrender to him.

Luzhuo, Xia Yuwei, Sun Yu, Zhou Tianming, Jiang Ze and Bai Hu looked at Liu Jie, although their expressions had not changed, but they could not help but have a weird feeling inside.

That is the natural fear of ordinary people facing superiors. After all, talents such as Zhuoju and Xia Yuwei are 17 or 8 years old.

Six people looked at Lu Yang almost at the same time. They found that Lu Yang had no change at all and still smiled at Liu Jie. His expression was very natural and peaceful. However, in Lu Yang’s eyes, he revealed his murderous spirit.
