## Chapter 561 - Despicable tactics

That was the indiscriminate killings of Lu Yang's last killings in Southeast Asia. Usually, Lu Yang carefully hidden them. Today, Lu Yang is released.

Li Xiuyu and Wang Teng couldn't bear Lu Yang's murderous spirit, lowered his head unconsciously, and even Liu Jie was a bit unbearable. When he felt that his aura was completely destroyed by Lu Yang, he said with sigh: "President Lu Yang really deserves his name."

Lu Luyang smiled and said two words: "You're welcome."

Liu Jie shook his head and said, "I thought that Wang Teng defeated you is this kid waste. I met you today and realized that it was not his waste, it was you who were too strong. You do n't look like a person who grew up in peace. . "

Wang Teng and Li Xiuyu deeply sympathize.

Lu Lu smiled and said, "You're welcome."

Liu Jie found that he could not find a flaw in Lu Yang. In the face of Lu Yang's murderous feeling, he felt he could not bear it anymore. After thinking about it, he patted the table and said, "Chairman Lu Yang, we No more circles, this time I want to talk to you about a business. "

Lu Lu asked: "What business?"

Liu Jie said: "I will buy 3 billion and buy 51% of your guild. How about the two of us merging in the future?"

Xizhuo Liquor Pour, Xia Yuwei, Bai Hu, Jiang Ze, and others were all holding back. They originally thought that Liu Jie had come to make an ultimatum. I did not expect Liu Jie to buy their guild.

At this moment, the hostility of Zhuo Jiu and others against Liu Jie is no longer so serious, but they all look at Liu Jie with curiosity.

Liu Jietan opened his hand and said, "You also saw that now I have 1.2 million players in my hands and 600,000 in the Orcs. If President Lu Yang and I are merged into the same guild, then we will be a game The strongest force in China can unite the entire human race in one go. "

Liu Jie's words have a strong deceptive power, and others such as Zhuo Jiuqing and Xia Yuwei are moved by the beautiful pictures described by Liu Jie.

Su Wangteng suddenly stood up and said sincerely: "President Lu Yang, I apologize for the previous things, I hope you don't mind, cooperation is the best for both of us."

Li Xiuyu lowered his head and said, "The purpose of our visit this time is to invite President Lu Yang to join. We are really sincere. I am willing to apologize for the previous issue and issue an apology letter on the entire server."

Xia Yuwei hated Li Xiuyu asshole, but when she heard Li Xiuyu say that, the hatred in her heart was much lessened.

Liu Jie looked at Lu Yang sincerely and said, "How about, President Lu Yang, are you interested in this proposal? We came with great sincerity."

If it is Liu Jie's first contact, he will be moved by Liu Jie's words, but Lu Yang knows clearly that Liu Jie's words are all deceiving.

In the second year of the previous life, Liu Jie's guild fought with Aquila, the third largest guild of the orcs, to watch the moon. There was no way to fight each other for a month.

At this time, Liu Jie went to the headquarters of the other party and promised to invest 3 billion yuan to buy 51% of the shares of Sky Eagle Moon.

The name of Tianying Wangyue Boss is Gray Man. He is just an ordinary player. He held him to this height by relying on his hands. He didn't have such a big idea. Seeing that Liu Jie gave so much money, he thought it was Liu Jie. However, he wanted to buy him, and agreed to Liu Jie without much thought.

In order to show his sincerity, Liu Jie immediately sent a hundred million credits, and the gray people were more convinced. Subsequently, Liu Jie said to the gray people that the follow-up funds would come in one week, and the gray people did not think much. , Just let his men defend normally, waiting for the final contract to be signed.

However, one week later, the people in the gray clothes waited for not Liu Jie's 3 billion cash, but Liu Jie's 1.2 million players.

The man in the gray clothing asked his men to play in the confusion. However, none of the eight affiliated guilds who followed the gray clothing to face Liu Jie came to reinforce. Three of his 12 important generals brought their players to rebellion.

Of the remaining 9, 6 were hostile to Liu Jie. They left with their original staff on the second day after signing the contract. Only 100,000 people in the gray suit left to confront Liu Jie. As a result, Liu Jie was defeated by World War I. Taking down all the fortresses, his guild was completely broken.

In the end, the battle that could not win the fortress for a month was settled by Liu Jie with 100 million cash, and in the second year of operation, 100 million was just one month's income of four fortresses.

战斗 This battle was later officially included in the classic battle, ranking first at the time.

Lu Yang thought that this time Liu Jie came to break the iceberg city's power to force him to give up St. Gall, but he did not expect Liu Jie to play this kind of damage with him.

Lu Yang sneered and said, "Jie Shao, I always thought you were a great company of noble morality. I never thought that you would play worse than those bastards."

The peaceful atmosphere that Liu Jie, Wang Teng and Li Xiuyu just tried to maintain was completely destroyed by Lu Yang's words.

Liu Jie looked at Lu Yang in surprise and asked, "I, I really mean it this time."

Wang Teng said, "Chairman Lu Yang, Jie Shao is really sincere. If you speak for me, I can apologize to you like Li Xiuyu."

Lu Yang sneered and said, "Okay, Jie, I promise you, then please take out 3 billion in cash."

Liu Jie's eyes lighted up ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ stood up and said excitedly: "Most of my money is still in the bank and it takes two weeks to raise money. So, in order to show my sincerity, I will call you first One billion, how about it. "

The voice just fell.

Zhou Tianming got up sharply, rolled over the oval table with one foot, pointed at Liu Jie and cursed, "You \*\*\*\* bastard."

杰 Liu Jie was stunned and asked innocently: "How, how, is there any problem?"

Xuan Zhuojiu dumping, Xia Yuwei, Jiang Ze, Sun Yu and bitter love stood up for half their lives and looked at Liu Jie with a sneer.

Yunzhuo said, "Liu Jie, you are a good plan. Are you ready to internally divide our Jagged Brotherhood?"

Liu Jie's eyes widened uncontrollably. His original idea was that as long as Lu Yang agreed to his request, he immediately began to differentiate the players under Lu Yang. As soon as the two sides announced the merger, the faith that the Iron Brotherhood had always adhered to would disappear. Already.

At that time, there were no enemies, no external threats, who was still threatening? When there is no external enemy, the enemy is the companion around him.

In the process of merger, more than one million guilds of the two guilds had to re-select the commander and the commander of the army. At that time, everyone would forget the collective honor. They would only think about how to find a bigger one for themselves in the process of merger. interest.

Why Zhang Sanneng is the head, I have the strength to be.

On what basis Li Sin can be the deputy head, I also have this ability.

Uh ...

这样 When such a thing happened, Liu Jie suddenly launched a war. At that time, the internal conflict of the Jagged Brothers Alliance was already chaotic, and Liu Jie could win the battle.

## Chapter 562 - Book of War

In these words, after Liu Jie said that he used 3 billion yuan in cash to buy the Iron Brother Brothers League, Lu Yang sent them to Zhuojiu and Xia Yuwei in the form of a short message.

Zhou Tianming didn't believe it, but when he heard Liu Jie said that he used 100 million cash as a guarantee, exactly the same as Lu Yang said, Zhou Tianming knew that Lu Yang was so correct, and Liu Jie was so mean.

He bitterly loved and said angrily: "Liu Jie, you are such a horrible species. You are a shame in this game, even if you want to defeat your opponent in this way."

Xia Yuwei grabbed Sun Yu and said to Liu Jie: "I really did not expect that the next helm of the Liu's consortium turned out to be such a shameless shame."

Sun Yu scolded: "Garbage."

Liu Jie's "sincere" face could not be maintained after being scolded by others such as Zhuo Jiu. He put a smile on his face, exposed his cold eyes, and said with a sneer: "I invite you sincerely, since you are so Don't blame me, don't blame me for being ruthless. "

Lu Yang stood up and walked in front of Liu Jie, and said, "What do you want?"

Liu Jie said: "I will personally lead 1.8 million players to attack Hannibal and St. Gall at the same time. I want to see how you can defend me, let's go."

At the same time, Wang Teng and Li Xiuyu took a deep look at Lu Yang at the same time, turned around and followed Liu Jie down the stairs.

Luzhuo wine dumping and bitter love for half a life and others wanted to rush forward to intercept, but was stopped by Lu Yang.

"Boss, Liu Jie is too jerk, let me kill him." Said bitter love for a long time.

Lu Luyang said, "Let them go. There is an opportunity tomorrow."

Liu Jie looked back at Lu Yang, laughed down the stairs, came to the door to see Qu Han and others, and said, "Let's go."

Wu Quhan said: "Jie Shao, you use the city roll to leave, all outside are anchors and reporters in the game."

杰 Liu Jie's eyes lit up and he said, "I'm waiting for them."

He brought 300 people to the gate of Luyang Guild, the purpose is to let everyone know that he came to Luyang to talk about things.

Are the two protagonists of the Tatar Terra's forthcoming biggest war meeting before the war? Is there any more breaking news than this?

Countless media got the news and went to the guild door of the Brotherhood League. When they saw the White Lion and Qu Han confronting each other with 300 people, they opened the live broadcast for a while.

Xun just as they talked, suddenly, 300 people on the Qu Han side spread out to both sides, and Liu Jie came out.

"It's Liu Jie!"

I don't know who shouted, countless hosts and reporters flew in front of Liu Jie, wrapping him inside and outside three layers.

"President Liu Jie, what are you doing here with Lu Yang?"

"Did you send a challenge book before the war?"

"How many people are you going to send this time?"

"Can you tell us how many forbidden troops you have?"

Uh ...

Numerous questions were asked in the mouths of reporters and moderators. Liu Jie raised her hands with a smile and signaled everyone to be quiet.

"Dear friends, I came to President Lu Yang today, not for war, but for peace." Liu Jie surprised everyone at the scene.

“President Liu Jie, what do you mean?”

Uh ...

Liu Jie once again signaled everyone to be quiet, and said sincerely: “Since the game was launched, players have experienced too many wars. This is not what I want to see. I hope that our Huaxia server players can have a comfortable upgrade. Space, do not have so many disputes, lest our player level is lower than foreign players in the future national war.

In order to do this, I specifically found President Lu Yang today, hoping to invest 3 billion credits to buy 51% of his shares, so that our two guilds will become one. At that time, I and Lu Yang There will be no more wars between him, and his brothers will not lose rank for fighting. “

A group of reporters and hosts were stunned by Liu Jie’s words.

“Three billion? You guys, have you finished the talk?” Hitomi wondered when he got ahead and asked excitedly.

Everyone pays attention to Liu Jie. If he can succeed, Liu Jie will become the first person in the human race. At that time, he will sweep the entire human race. It is really possible to create a human space without large disputes.

Liu Jie opened his hands unfortunately and said, “Unfortunately, President Lu Yang thinks that I have given too little money and does not agree with this plan.”

“Three billion is too small?”

“What is Lu Yang thinking, is money crazy?”

“He even wants to raise the price? After Liu Jie laid down the iceberg city, he can attack Lu Yang with all his strength. What qualifications does he have to raise the price?”

Uh ...

Numerous people at the scene were discussing it. Almost everyone thought that Lu Yang was too greedy.

Whether it is the host or the reporter, they have thought out what to say next and the manuscript to the editor. At this moment, everyone's mailbox sounded a reminder.

In order to know when a message is sent from the mailbox, each reporter and host uses the maximum prompt sound and vibration effect. At a time, the prompt sounds of more than 200 reporters around Liu Jie sounded at the same time.

Tong Tongtong wondered who sent the group files to all of them at this time ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Opening the mailbox and looking at it, he was surprised and said, "It was sent by Lu Yang, with audio and text commentary."

Hitomi opened the audio file. Suddenly, the original sound of Lu Yang's conversation with Liu Jie was played. Everyone listened to the sound inside. At the beginning, Liu Jie threw out the conditions exactly as he said. However, Zhou Tianming and the muddy wine came later. When Qing Yan and others retorted, all reporters were confused.

奇怪 "Strange, how does investment become a divorce?"

"Yeah, what do they think of the chiefs of the army."

Uh ...

Countless reporters were curious. They quickly responded to the following text commentary. They patted their thighs to understand it and shouted, "I know what's going on. Everyone, look at Lu Yangfa's text commentary. This Liu Jie is nothing."

Everyone rushed to see the text commentary.

Seeing the content of the commentary, Tong Tongtong was stunned and looked at Liu Jie, who was already cold, and said, "Jie Shao, is this true?"

Liu Jie was so angry that he did not expect that Lu Yang was so cautious that he turned on the recording function when he talked to him and said loudly, "Of course it is not true. It is the Iron Brother Brothers who use gentleman heart to judge gentlemen. In the belly, I bought it with sincerity from Liu Jie, and they even slandered me so much that I would never spare them. "

Liu Jie turned to look at Lu Yang standing at the door and scolded: "Tomorrow morning, Liu Jie will bring 2 million players to take revenge. Lu Yang, you do n't agree with my proposal, I'll take a look. How can you hold the fortress. "

King Wang Teng gave Qu Han a wink, and Qu Han immediately rushed around Liu Jie with 300 elites, separated him from the reporter, and led Liu Jie to the teleportation array.

#### Chapter 563 - Robbery while fire

A group of reporters and hosts saw that Liu Jie was gone, and hurried to the door to interview Lu Yang, and was blocked by the white lion with 300 people at the door.

"Chairman Lu Yang, tell us what is going on?"

"Do you really think that Liu Jie is lying?"

Uh ...

Lu Yang signaled everyone to be quiet, and said, "I will post the most detailed explanation to the forum tonight. If you are interested, you can check it out."

Regarding Liu Jie's strategy, Lu Yanghui explained it in detail on the forum to prevent Liu Jie's just remarks from shaking some players inside the guild.

示意 He motioned for the crowd to disperse, and returned to the conference room with the chiefs of the army, including the turbid wine and white lion, and the high level of the guild.

The white lion has not spoken below just now, seeing that there are no outsiders, he can't help but say, "Boss, what should we do?"

Lu Yang said: "You immediately gather players to defend their respective fortresses, not only against Wang Teng and Li Xiuyu, but also against Iron King City and Lakeside City. If Liu Jie comes to hit us, Iron King City and Lakeside City will definitely fall. "

Zhou Tianming and the White Lion said together, "Boss rest assured."

Lu Yang said: "Yu Wei, Jiang Ze, Sun Yu and Zhuo Jiu, the four of you are ready to support at any time, telling everyone that you are ready to go online tonight, and you will be able to reward three times the guild points."

"Yes," said the four together.

Tu Tufeng frowned, saying, "Boss, I suggest we give up Hannibal City first, and it is too difficult to defend four areas at the same time."

Liu Jie's total strength reached 2 million, and the Jagged Brothers Alliance only had more than 0 million. Just facing Liu Jie's coalition forces made Lu Yang difficult to resist, not to mention the threat of Tiewang City and Lakeside City.

Lu Luyang shook his head and said, "No, I won't give up any fortress. I didn't ask everyone to prepare tonight to fight Liu Jie. I just wanted to prevent them from sneaking in."

Xizhuo Jiu and Xia Yuwei and others simultaneously showed surprised expressions.

“Boss, what does it mean not to fight with Liu Jie? You agree to sell the fortress?” Xia Yuwei asked.

Lu Luyang showed a mysterious smile and said, “Of course not. Not only will I not sell the fortress to Liu Jie, I will let him retreat.”

“How is this possible?” Jiang Ze said.

Lu Luyang said, “Have you heard of it?”

People like Xia Yuwei and Zhuojiu shook their heads.

Lu Luyang said, “All of you are going to the defensive fortress tonight. You will know what’s going on tomorrow morning.”

“Boss, I’m dying. You talk to us first.” White Wolf said.

Lu Yang shook his head, just before he talked, his interphone rang, picked it up and saw it, the boss of the Iron Mountain Fortress of the Iron King City called the sword to kill God.

“President Sword, look for me at this time, aren’t you going to chat with me?” Lu Yang asked by pressing the connect button.

The sword kills God with a grin and said, “Chairman Lu Yang is very accurate. Of course, I am not chatting with you, I am asking the price.”

Lu Lu asked: “What do you mean?”

The sword killer said: "Master Jie just sent me a message and asked me to send troops to help him hit you. The reward is to give me 5 million credits. I want to ask, what can you give me?"

Lu Yang guessed that the sword killing \*\*\*\* would come to rob and take advantage of the fire, but he did not expect this person to be so shameless, and he was so brave, and asked, "What do you want to pay for."

The sword killer said: "I want your fortress of Hessen, you give me the fortress, and I promise not to send troops to hit you."

Lu Luyang felt a little bit crooked in his heart, and said, "President Sword, it's a good plan. I took a fort without taking a single shot. Is it too naive to think about it?"

"Ha!" The sword sneered with a sneer, and said arrogantly: "It seems that President Lu Yang has no idea what situation he is facing. To tell you the truth, my 500,000 troops are ready tonight. I will be able to attack your Hessian fortress, whether you give it or not, I will get it. I believe that President Lu Yang will not have 500,000 more enemies for an obviously unsustainable fortress. "

Lu Yang smiled and said, "President Sword, you can fight if you have the ability, you remember, after Liu Jie was defeated by me this time, I was the first to pack you."

The sword killing God thought that Lu Yang would meet the current fortress and gave him to him. He did not expect to be threatened by Lu Yang and said angrily: "You wait for me. When Liu Jie's army arrives tomorrow morning, I will bring 500,000 myself. I will help you, and I will see if you can say that again. "

"Okay, then you'll wait." Lu Yang hung up the speaker.

Qizhuo asked, "What happened?"

Lu Luyang said, "The sword-killer \*\*\*\* of Tieshan City wants to rob him while it's on fire, asking me to cede the Hessen fortress to him, or I will bring 500,000 people to help Liu Jie tomorrow."

"Asshole," the White Lion scolded unhappily.

Lu Luyang said: "Don't worry, everyone will cry and cry to ask me to let him go tomorrow morning. Let me be busy. I will go to bed first and play the finals tomorrow."

"Okay, we will keep the fortress ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~" Jiang Ze said.

Lu Yang nodded and narrated Liu Jie's scheme in detail on the forum and quit the game and fell asleep.

清 Early next morning, Lu Yang enters the game after washing.

Liu Jie: Inform players of the Jagged Brothers Alliance that because Lu Yang did not agree with my 3 billion merger for personal gain, I had to send troops to fight. At 0 noon today, I will officially lead 2 million and elven players to attack Lanshan Fortress and Echo fortress.

At the same time, the boss of the Iron King City will send 500,000 players to follow me to attack together. We have a total of 2.5 million offensive players. Iron Blood Brothers players, I have no resentment and hope that you will not help Lu Yang anymore. Seeing the wicked villain in this way, let us create a harmonious upgrading environment together.

Uh ...

Lu Yang frowned, opened the guild channel and took a look.

骑士 Knight in Black: Don't listen to Liu Jie's lies. The boss is whole-hearted about us. This is simply the differentiation method of Liu Jie. The boss on the forum has already said it clearly.

Hongyefeiwu: I believe that the boss, who is Liu Jie, is not an upgraded version of Bloodthirsty Domineering and Black Blood, etc. They have laid the fort, and we will return to the days when they were exploited.

Uh ...

All the talking players in the guild supported Lu Yang, which relieved him, and he could see that there was no problem in the Iron Brotherhood.

回到 He returned to the guild meeting room, saw Tu Feng and Zhuo Jiu discussing, and asked, “How’s it going?”

Xi Tufeng said: “Liu Jie’s 2 million people have all gathered and are coming to us from Benliu. We expect to arrive at noon.”

#### Chapter 564 - Opening of the war

Rush outside the city.

Liu Jie personally took 2 million players into 6 teams, with 50 people in a horizontal row, marching forward.

At the forefront is the Leopard-Shaped Druid Army with a total of 150,000 people.

In the middle are mixed special corps, including 30 forbidden spell wizards, 360 secondary forbidden spell wizards, 3580 special skill players, and 18,000 transfer players.

In the middle are 60 corps, each with 10,000 men, consisting of 10 archer corps, 10 paladin corps, 5 rogue corps, 15 mage corps, and 20 war corps.

The tail is composed of miscellaneous army, human archer, elf thief and other occupations, a total of 300,000 people.

On the left side of Liu Jie 's troops are Wang Teng 's more than 400,000 players, and on the right are Li Xiuyu 's more than 400,000 players.

The three parties moved forward in concert, and from a distance, the large army was endless, as if it were a black torrent.

Inside the live room.

Hitomi looked at Liu Jie's army, who said that the crowd was black. "Liu Jie really gathered 2 million players. This is the biggest war in human history."

Dubin held his arms and said, "No, during World War II, Germany launched a war of 5.5 million against the Soviet Union. The scale of the war in the game is still far from reality."

Hitomi nodded clearly and said, "That's also very good, 2 million people. I feel that Lu Yang is going to lose this time."

Dubin said, "Looking only at reality, Lu Yang lost. As Liu Jie himself said, the sword killing of Tieshan Fortress dispatched 500,000 people to attack Lu Yang. Including 2.5 million players, There are only more than 800,000 people in Lu Yang, one third of the other, and the situation is very optimistic. "

On the World Channel, countless players are discussing this battle between Liu Jie and Lu Yang, and the reviews are almost one-sided.

"Oh my God, 30 forbidden spell mages, is this going to level Lu Yang's fortress?"

"Two million people, Liu Jie is so great."

"Lu Yang is getting cold this time. It is estimated that all his fortresses will be snatched by Liu Jie."

"Deserve it, who has provoke Liu Jie and doesn't look at who he is?"

...

Lu Yang looked at the message on the World Channel, sneered, and said, "Are our troops assembled?"

The turbid wine poured in a golden paladin armor, pressed his sword, and said, "800,000 people have assembled."

The white lion said excitedly: "Boss, let me take the lead and leave the city and give Liu Jie a lesson."

Sun Yu said, "I'll go too. I use the wind elves to accelerate."

Both men's troops are field experts. If they attack in the field, Liu Jie's speed will inevitably slow down.

Lu Yang shook his head and said with a sneer on his face: "I can tell you that Liu Jie will lose this battle. I will let Liu Jie always remember everything that happened today. You will go to the city with me."

Everyone looked at Lu Yang in surprise. They originally thought that Lu Yang said yesterday that there was a plan to comfort them. It was unexpected that Lu Yang had a method.

Xia Yuwei asked, "Boss, how did you arrange it? Tell us, let us have a heart in mind."

"You'll know soon, I said I'm going to play a big one." Lu Yang finished walking and walked towards the city.

He has been waiting for Liu Jie for almost half a year, and today he can finally play face to face with Liu Jie, and he still has to beat Liu Jie's best play.

Click on the field.

800,000 players are ready to go, and everyone's face has an angry expression. They saw Lu Yang's post last night. Obviously, what Lu Yang said was more convincing than what Liu Jie said, and even if Liu Jie

said It is true that with Liu Jie's method of doing things, they will soon become the so-called "signing" players under Liu Jie, which is their least willing.

Just as they whispered, Lu Yangyang appeared on the city's head, and everyone's expression instantly changed from anger to fanaticism.

They knew that, from the day they followed Lu Yang, to the present day, Lu Yang did not take them without a defeat, and no matter how powerful the enemy was, they would eventually be defeated in their hands.

Lu Yang has become a faith of the Iron Brotherhood!

Looking down at the 800,000 people below the city, Lu Yang asked aloud, "Brothers, do you believe I abandon 3 billion too little and don't sell it to Liu Jie?"

"Do not believe!"

"Do not believe!"

...

Countless people shouted in unison.

"Boss, we know that you are not for money. If so, you have already sold so many opportunities before." Hongye Feiwu shouted.

Lu Yang nodded with a smile and said, "Yes, if it was for money, why didn't I sell 51% of the shares in the 3 billion, am I stupid, I can't use up so much money in my lifetime. "

800,000 people laughed.

Lu Yang waited for them to laugh, and continued, "Brothers, although I have said this more than once, but today I still want to say that our Jagged Brotherhood has reached the moment of life and death. Liu Jie is now leading 2 million people. Calling on our side, the \*\*\*\* with the sword and killing the gods, with 500,000 people ready to rob the fire, I am very grateful for your willingness to stand here and fight with me at this time. "

The white wolf smiled and shouted, "Boss, every time you say this sentence, it is when we are about to win. We do n't even hear your sentence."

Everyone laughed.

Lu Yang shook his head silently and said to the white wolf: "Your boy has ruined the sadness and anger that I managed to create."

Everyone laughed more happily.

Lu Yang said: "Well, then I will not stop talking nonsense, all the regiment leaders will immediately lead troops to the city wall to defend."

"Yes." Zhuojie and the White Lion, etc., took their troops to the four walls of the Echo Fortress and set off.

Tu Feng said: "Boss, the finals are about to start, are you still going?"

Lu Yang said: "Of course I'm going, not only me, but also my half-life, we will continue the game ~ [www.mtnovel.com](http://www.mtnovel.com) ~, but Liu Jie is coming." Tu Feng said.

Lu Yang said with a smile: "More than 2 hours, don't worry."

The system prompts: The global finals are about to begin, whether to enter the playing field.

Lu Yang's choice was that the light flashed and flew into a golden arena.

“Hoo ~!”

For a moment, hundreds of thousands of cheers sounded around the arena. Lu Yang looked up, and the arena was full of players.

“Lu Yang is here. I believe everyone knows that the Chinese server where Lu Yang is located is facing an unprecedented test. His enemies are attacking him with 2 million people. I believe that at this moment, his pressure must be very big,” said a male host of the official US live channel.

Moderators from all countries, not just the United States, Germany, Japan, France, etc., are discussing this.

Chapter 565 - Despicable play

“I think Torre won this time. He is as strong as Lu Yang, but he doesn’t have these troubles. Torre himself is the boss of the largest guild in Britain.” The British host talked about it.

On the court.

A flash of light flashed, and Torre appeared opposite Lu Yang. He had long blond hair, a handsome face, a height of 1.92 meters, wearing a water-blue magic robe and holding a water-blue magic wand. .

“Torre is so handsome.”

“Torre come on and defeat that Chinese.”

...

Cheers rose again, and countless people were fascinated by Torre's elegance and handsomeness.

Torre did not respond to the players around him, and said to Lu Yang with a smile on his face: "My friend, you are really unlucky today."

Lu Yang asked, "Why do you say that?"

"Your fortress was attacked by Liu Jie, the guild was flattened by him, and you will also lose to my hands. Do you say you are unlucky?" Torre said.

Lu Yang said with a smile: "The offensive tactics are useless to me. If you think that you can't beat the front, I will voluntarily give in and lose your so-called knight spirit."

Torre said with a smile: "Liu Jie has 2 million people and you are only 800,000 people. I really don't understand why you still have the heart to stand here and compete with me."

Lu Yang said, "I can tell you why, because you can't beat me, and Liu Jie's 2 million people can't beat me."

There was a helpless smile on Torre's face and he said, "You are really confident."

System prompt: Combat is about to start, the map starts randomly

There are 9 maps selected in the finals of the individual competition, which are desert, volcano, island, swamp, plain, grassland, canyon, peak and mystery space.

There was a flash of light.

The scene inside the arena turned into a swamp, the ground was muddy and wet, and the river was extending in all directions.

System prompt: Scene suppression, your fire damage reduced by 10%

Torre looked at Lu Yang with a smile and said, "It looks like you are really out of luck today. I was restrained in the first war."

Torre is a water mage. In this scenario, the damage is increased by 10%, and the difference between positive and negative is 20%.

Lu Yang looked at the surrounding terrain. It was a competitive map that he was very familiar with in the previous life. Every marsh trap and the depth of each river was clear to him.

Lu Yang said with a smile: "Bibi look."

System prompt: battle countdown

Start

Lu Yang and Torre were randomly transmitted to both sides of the map at the same time. Just after landing, Lu Yang quickly searched for the location of Torre.

30 yards in front of him, Lu Yang saw Torre at a glance.

“Flame Shock”

Lu Yang raised his hand and pointed at Torre, a fire burst into Torre’s body.

“48000” (Critical Strike)

Torre fell to the ground and died!

At the moment when everyone was stunned, Lu Yang did not hesitate to launch the flashing skills.

A white light flashed, and Lu Yang appeared 30 yards in front. At the same time, the torch on the ground turned into a pool of clear water, and a water vortex appeared at the position where Lu Yang was.

Torre stepped out of the vortex and looked at Lu Yang in surprise, and asked, “How did you see through my skills?”

Lu Yang said: “There are more than one player with a special transfer career in the water system. From the moment I found out that when hitting you, there were more than 40,000 damage in the critical strike, I guessed that I was hitting your clone, and your true body should be Fusion in the water ready to attack me at any time. “

Torre shook his head. The biggest flaw in his hydration body was that he was three times his body when he was injured. As long as the other party was not too stupid, he could see through. He thought that Lu Yang would surely be threatened by Liu Jie. Anxious to win, so used this trick, did not expect Lu Yang is not affected at all.

“It looks like you really don’t care about your guild,” Torre said.

Lu Yang said: "It doesn't need you to worry about it. You just finished the show, it's my turn. If you can stop me and one move, I will give in directly."

As soon as the voice fell, Lu Yang's body flew three flame shadows around Torre.

"Remnant Flame-Activated"

At the foot of Lu Yang, the hot speed was triggered, and the body turned into a streamer and the speed of light generally rushed to Torre.

"flicker"

Torre did not dare to let Lu Yang approach, jumped 30 yards away, just landed, a flame shadow fell beside Torre.

"activation"

Lu Yang jumped to Torre again.

"Yanyang Lock"

A crimson chain will drag it down.

"38678" (Critical Strike)

Lu Yang locked to the avatar.

"Waterspout"

Behind Lu Yang, Torre's real body appeared, pointing his right staff to Lu Yang, and a waterspout formed at the foot of Lu Yang. He was not willing to defend and wanted to attack Lu Yang.

"Remnant Flame-Activated"

Lu Yang immediately flew out of the waterspout's range, and just landed again to launch his skills.

"Remnant Flame"

Three flame shadows flew to Torre's side.

"activation"

Lu Yang rushed to Torre like a streamer. From the moment the fire appeared, Lu Yang pointed to Torre with his left hand.

"Fire Snake Bondage"

A fire snake entangled Torre.

"Pyroblast"

Lu Yang pointed Torre's head with a right hand and fired a large fireball.

"48868" (Critical Strike)

Torre turned into a puddle of water and landed on the ground.

The players watching the game were stunned. It took only 1 minute for the two sides to play so fiercely.

Inside the live room.

Hitomi said anxiously: "Why is there so much water in this Torre? In this case, Lu Yang can't win even if he fights."

Dubin held his arms and said, "Not necessarily. From the information obtained, Torre can only store 3 hydration bodies. After that, it will take 20 minutes to resume use of one. Now Lu Yang beats his hydration body. No, Torre can't hide anymore. "

Hitomi said excitedly: "Wasn't that Lu Yang won?"

Dubin shook his head solemnly and said, "No, Lu Yang may be losing."

"Why?" Hitomi asked in surprise ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Du Bin said: "At present, many people know the transfer task of Guanghuobao, and Canneng's skill has also been exposed, although this skill is more flickering. It should be easy to use, but he has a huge disadvantage, which is that he requires too much physical fitness. "

"I have also heard of some. It seems that if I use the residual flame skills more than 3 times, I will feel a swollen brain every 30 yards. If I use it more than 5 times, I will be forced to quit the game because of nerve damage." Hitomi said .

Dubin said: "Yes, I once entrusted a friend to borrow an account with the Light Fire Fort to transfer to the Fire Method. I personally experimented with my physical fitness up to 5 times before being forced to quit the game."

Tong Tong looked anxiously into the court and said, "Lu Yang has used it 3 times now, and isn't it necessary to be forced to quit the game after using it up to 2 times?"

Dubin nodded and said, "Yes, Torre used this style of play. He knew that Lu Yang was anxious about the situation at the guild and wanted to make a quick decision. Therefore, every time he deliberately exposed a flaw and let Lu Yang kill it with a residual flame. he."

“Too despicable,” Hitomi said.

## Chapter 566 - Strong physique

On the court.

Torre’s real body slowly emerged in the water. His idea of this battle was almost the same as that of Dubin, that was to use Lu Yang’s idea of quick battle and quick decision, deliberately selling vulnerabilities, and forcing Lu Yang to use the residual flames. Lu Yang was fooled.

He looked at Lu Yang with a smile and said, “The body is still there.”

Lu Yang said with a smile: “There was no problem before defeating you.”

“Oh, since you care so much about the guild, why bother robbing me of this number one and asking for trouble.” Torre said.

Lu Yang said: “There is no way, I like to ask for help, because there is an old saying in Huaxia that it’s hard to do everything.”

“Remnant Flame”

A reddish light was very unusual from Lu Yang’s body, and immediately fell behind Torre. Torre’s eyes inadvertently glanced at the side.

Lu Yang pointed at the sky with his left hand.

“Destroy the Sky”

“activation”

Inadvertently, a flare flew from Lu Yang’s left hand to the sky, and at the same time, Lu Yang turned into a streamer and rushed towards Torre.

“嘭”

The fire broke out, and Lu Yang appeared behind Torre, and at this moment, Torre launched a flashing skill.

White light flashed, and Torre flew to the side of 30 yards, but he just landed, and a crimson flame fell in the sky, right in the head of Torre.

“15626” (Critical Strike)

The audience at the scene was instantly boiled by Lu Yang’s anticipation.

“Pretty.”

“That’s the right move.”

“Master.”

...

Torre looked unbelievably at Lu Yang and asked, “How can you predict so accurately, your body is not affected?”

Lu Yang laughed. Tang De and Lujiazui who watched Lu Yang’s game laughed. Recalling their short time with Lu Yang, Lu Yang had to perform such high-intensity exercise every day. It turned out that they thought that Lu Yang has a tendency to masochistically. Now they understand that all their efforts are rewarding.

Lu Yang said to Torre: “Children, it is undeniable that although your tactics are very unethical, they are very clever, but the person you meet is me, so I can still use it.”

A crimson flame shadow flew to Torre.

“嘭”

Lu Yang appeared from the fire, and in the horrified eyes of Torre, Lu Yang hit Torre’s abdomen with a punch.

“The Sun Fist”

Torre’s body flew backwards like a broken kite.

“20122” (Critical Strike)

Torre, die!

System Tip: You won the first game!

“Win!” Lan Yu shouted screaming.

Numerous spectators at the scene were boiling, and they stood up to applaud Lu Yang.

“It’s beautiful.”

...

Torre’s blood returned to full, unwilling to walk to Lu Yang and said, “I don’t believe you will not be affected. In the next game, I have 3 hydration bodies. I think you dare not use the flames.”

Lu Yang said, “Okay.”

The system prompts: The second round is about to start. Please prepare for both sides.

Lu Yang and Torre were each transferred to the lounge to rest for 20 minutes, during which time everyone’s eyes turned to the Huaxia server.

This decisive battle involving 3.3 million people is an unprecedented world-class battle. Players from all countries want to know how Liu Jie will attack and how Lu Yang will defend.

Players in the official U.S. live broadcast room said: “At present, 2.5 million people of Liu Jie have set off for an hour, and there will be another three hours to reach the Echo Fortress. Do you think Lu Yang can live?”

“God, how is this possible? 2.5 million people hit 800,000 people. There is no hope of a win for mainland Yang. I heard that there is another player called Sword Killing God with 500,000 people ready to attack Lu Yang at any time. For Yang, this is simply a disaster. “

“If I were Lu Yang, I would concentrate on playing the game. Since the fortress can’t be maintained, it would be better to get a world first, at least one billion in cash.”

“I don’t think so. Lu Yang has never failed. I believe he can win.”

...

Live commentary from various countries supports Lu Yang, and some believe that Liu Jie will win. Both sides hold their own opinions. The debate has raised the focus of this war. Many players who do not care about fighting in other countries are also curious.

quickly.

Twenty minutes have elapsed and the game has entered the second round.

The system prompts: Random map generation starts.

A flash of light flashed over, Lu Yang appeared on top of a cliff, the wind screamed and the lightning flashed.

This is a map that is beneficial to the Lightning Mage. It has no bonus or weakening effect on Lu Yang and Torre. The only thing to pay attention to is the wind direction.

If in the downwind direction, the skill's launch speed is 50% faster than usual, and in the upwind direction, the speed is 50% slower. On the side, the trajectory will be offset!

Lu Yang looked at Torre, who was approaching from a distance, and said, "You lost this game."

Torre said: "You and I are now in the crosswind. Can you hit me except for close range combat?"

A slight smile appeared on Lu Yang's face and said, "Of course."

A flaming light appeared, Lu Yang launched the flame shadow skills instantly fell to Torre's side.

“Pyroblast”

Lu Yang raised his hand and hit a large fireball on Torre’s face.

“48000” (Critical Strike)

The moment when Torre’s body became broken, a white light flashed, and Torre jumped to a position 30 yards behind Lu Yang.

“Waterfall”

In front of Torre, a water spell with a larger range than the giant wave skill appeared, and shot towards the landing sun.

“Fire Shadow”

A firelight penetrated the waterfall and fell beside Torre.

“activation”

Lu Yang appeared in the firelight, with his left hand pointing to Torre’s head.

“Flame Shock”

Torre’s head burst into flames.

“48000” (Critical Strike)

Torre’s second body of water disappeared.

Lu Yang looked around. At this time, all water was within 500 yards. This is the effect of the Waterfall skill. The damage is low, but the range is wide, which can provide additional damage bonus for water players.

Torre's water can't use the ability of water wave fluctuation when there is no water. Now he has created a piece of water, which can be manifested anywhere.

Lu Yang could not find the trace of Torre and stood still, closed his eyes and listened to the surroundings with his ears. When Torre appeared, there would be the sound of water flowing.

Torre has been hiding 10 yards from Lu Yang's side. The streamer wave will show up when he is attacked. Lu Yang, who he dare not rely on, is too close.

At this time, he was thinking about countermeasures. It is reasonable to say that Lu Yang used the remnant flame 5 times. Even if he had rested for 20 minutes, it should not have much effect on Lu Yang. At this time, Lu Yang should enter the state of the crossbow. He decided to fight again.

A slight sound of water sounded.

Lu Yang looked up and looked forward. At a distance of 50 yards in front of him, Torre showed his figure and said, "Chairman Lu Yang, can you still use the residual flame code?"

Lu Yang said, "Of course you can."

A reddish light flashed, Lu Yang appeared in front of Torre, and a blast hit him on Torre's head.

"48000" (Critical Strike)

Torre turned into a puddle of clear water and dropped into the water ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ At the same time, at a distance of 50 yards behind Lu Yang, Torre immediately showed his figure, and the water-blue wand pointed at Lu Yang's back .

“Waterspout”

“Water Dragon Wave”

A huge water dragon roll formed at the foot of Lu Yang. At the same time, a huge water dragon gradually formed in the sky.

Lu Yang suddenly looked back at Torre.

“Remnant Flame”

Lu Yang’s body turned into a phantom in front of Torre, with his left hand in the middle of Torre’s head.

“The Sun Fist”

“20552” (Critical Strike)

Torre, die!

Chapter 567 - Global championship

System prompt: Lu Yang wins the second round match!

Cheers abounded on the floor, and numerous players applauded Lu Yang’s powerful performance.

Torre resurrected in situ, walked in front of Lu Yang, and said with a look of surprise: “Are you okay?”

Lu Yang said: "It's okay to be okay at all, but I don't have any problems insisting on playing these 4 games. If you don't believe it, you can try."

Torre wasn't sure if what Lu Yang said was true or false. After being transmitted back to the rest area by the system, he immediately consulted with his men.

On the other side, Lu Yang was also inquiring about the fortress, confirming that Liu Jie did not send a small unit of sneak attacks to relax.

"Boss, you can play with peace of mind. Even if Liu Jie is here, you won't be able to lay the fortress immediately."

"We must stick to it."

...

Lu Yang was speechless by what Xia Yuwei and Jiang Ze said, saying, "Okay."

After 20 minutes.

The third battle begins.

System prompt: The match map is randomly generated, start!

A flash of light flashed over, Lu Yang appeared in a sea of fire, surrounded by flowing magma, and a cone-shaped opening above.

System Tip: Increase your Fire Damage by 30%

"In the volcano." Lu Yang looked at Torre with a smile and said, "You give up. You have no hope of winning in this game."

Torre was dumbfounded. Just now, he and his followers agreed that the result was to allow Lu Yang to continue to use skills. In the seven-game four-win system, they did not believe that Lu Yang could use 12 remnants continuously. Torre's strength is a little worse than Lu Yang. If faced offensively, Torre has little hope of winning.

However, looking at the map of the volcano in front of him, he was suppressed by 30% here. He gritted his teeth and read the spell in his mouth.

"Great Falls"

Water waves of 500 yards in diameter poured down, and as a result, just after they fell to the ground, they were all evaporated into water vapor.

Lu Yang stood on the spot watching Torre and said, "Don't struggle, just give up."

Torre gritted his teeth and said, "I lost this game, but you don't want to kill me so easily."

"swirl"

A water vortex appeared under Lu Yang's feet. At this moment, Lu Yang raised his hand and hit a flame on Torre's face.

"20626" (Critical Strike)

Torre instantly became \*\*\*\* and went into a vertigo state.

"Moisture body"

A fire burst into his body. At this time, Torre had been immersed in the water under his feet. He saw with his own eyes that his body was broken up by Pyroblast. At the same time, he also saw that his blood was only left To 5000 points.

“The damage is so high!”

“Lu Yang hurts too much in his field, and Torre has no chance at all.”

...

Players watching the live broadcast sighed. At this moment, a crimson meteorite in the sky rolled down, and the target was the last water of Torre’s location.

Torre emerged from the water instantly, flashed to a place 30 yards away, and just after landing, another meteorite in the sky smashed at him.

Torre ran away quickly, but most of the surrounding area was magma, so there were not many places where he could walk, Torre was trying to avoid everywhere, and Lu Yang kept releasing meteorites.

From the outside, Torre is like a clown, constantly avoiding Rolling Stones. Once he fails, he will die.

The only thing that Torre can hope for now is to run out of Lu Yang’s blue hurry up, but Lu Yang is wearing a 90-level Asian legend suit, and he is playing all 10 intellectual gems with a lot of magic.

Five minutes later, Torre’s misplacement was hit by Lu Yang’s meteorite, and he died on the ground without even seeing his body.

System prompt: Lu Yang wins the third game!

The audience watched Torre sympathetically, and Torre himself struck angrily on a stone, glanced at Lu Yang with a hate, and entered the rest area.

Lu Yang also returned to rest.

“There is only one last game left. If Lu Yang still has the map, Torre will lose.”

“The mage is too powerful in the advantage map. Unfortunately, Torre is a water mage and has been restrained too much.”

“It’s a pity Torre. If it is an island map, it will definitely be Torre.”

...

In the European live broadcast room, British players began to murmur for Torre, while the French live broadcast said that Lu Yang did a good job, and Argentina also expressed support for Lu Yang, because these two countries have feuds with Britain.

Hosts in countries such as Australia, India and the United States believe that Torre was completely lost on the map.

The time passed quickly during the noisy commentary, and we reached the fourth game.

System prompt: The map is randomly generated, start!

A white light flashed, and Lu Yang appeared on a sandy beach. Next to the beach, a wave rushed to the beach without crossing Lu Yang’s knee.

Island map!

Torre looked at the map with surprise, and laughed and said to Lu Yang: “You have lost this game.”

Lu Yang looked at the buff whose damage was reduced by 30% and said, “Are you so sure?”

Torre said: “Now it’s my turn to attack you, let you see, my water mage is powerful, tsunami.”

The monstrous wave suddenly appeared behind Torre, like the blue shark mouth, devouring towards the landing sun.

Lu Yang looked at Torre's proud expression, shook his head gently, and said, "You lost, Can flame."

A crimson light penetrated the huge waves and fell behind Torre. Lu Yang appeared through the fire and punched him in the back.

"The Sun Fist"

Torre's body turned into a pool of clear water.

100 yards away, Torre appeared in the sea. Lu Yang pointed at the staff and said, "Waterspout."

The seawater quickly spun in front of him to form a cone shape, and rushed towards the landing sun. The skills had just ended, and Torre continued to chant.

"Cracking Sea Water"

The seawater about 50 yards around Lu Yang's feet shook violently.

After 2 seconds.

"boom"

The water within 50 yards blasted upwards like a fountain, at the same time, the waterspout straightened into the sky.

If Lu Yang hits the sky with a seawater crack, he will be hit by a waterspout.

However, the moment the seawater broke apart, Lu Yang's residual flames flew to Torre in front of 100 yards.

The flames dissipated, and Lu Yang hit Torre's body with a punch.

"The Sun Fist"

Torre's body turned into a pool of sea water, and 100 yards away, Torre reappeared, watching Lu Yang's violent panting, raising his staff and saying, "Water kills."

A huge water ball gradually formed with Lu Yang as the center. This is one of the ten strongest special skills in the water system. Once trapped in the water, it will drop blood quickly, and you cannot escape if you want to escape.

Lu Yang looked at Torre in the distance. Suddenly he stopped breathing, his body no longer moved, and a sneer appeared on the corner of his mouth, saying, "Torre, I know you can't wait. You really think I can't bear it. Yet?"

The voice just fell ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang turned into a streamer and appeared in front of Torre.

"Yanyang Lock"

Crimson chains trapped Torre.

Torre looked at Lu Yang in disbelief and said, "How is that possible, how can you do it."

Ordinary people have been moving at speeds exceeding the speed of sound so often that they have a headache and spit up and diarrhea.

Lu Yang said, "If you join my guild, I will teach you."

“Meteorite Impact”

“Destroy the Sky”

“Pyroblast”

Three consecutive skills were released, and Torre was killed by Lu Yang without any dodging skills.

System prompt: Congratulations to Lu Yang for being the champion of the individual group finals!

Chapter 568 - 1 song peach fan

Torre disappeared in situ, leaving Lu Yang alone.

White light flashed, Lu Yang reappeared on the arena, hundreds of thousands of players around at this time collectively stood up to applaud Lu Yang.

“Good job”

“Verynice”

...

In this battle, Lu Yang, who won by pure strength, witnessed the audience.

Nine-colored petals are falling over the arena. A beautiful woman appears in front of Lu Yang, saying with a unique metal voice: "Hello player Lu Yang, I am the main brain of" Second World ". Congratulations on your personal group. The world championship, the bonus will be credited to your card in half an hour, please follow me to the backstage. "

Lu Yang nodded, as the main brain disappeared into the arena and came to the lounge, where the second-place Torre and the third-place player were inside.

Torre lowered his head without looking at Lu Yang.

Lu Yang asked Tu Feng: "Is Liu Jie's army here?"

Tu Feng said, "No, it will take an hour at the earliest."

Lu Yang thought for a while and said, "This time should be enough time for me to end the interview here. If Liu Jie arrives early, let the brothers calm down."

Tu Feng said with a grin, "Don't hurry back and hurry up for an interview. Brothers know that you have won the championship and the morale is extremely high."

Everyone's expression on the walls around the fortress was full of excitement. The Jagged Brothers League even came out with a global championship. More than 3 billion people ranked first, and this person turned out to be their boss. The entire guild was boiling.

Not only is the Jagged Brother League boiling, but the players of Huaxia servers are also boiling. The global championship is not only the honor of Lu Yang personally, but also the honor of Huaxia. Every Huaxia player will feel honored.

Inside the live room.

Du Bin has fallen into madness and shouted, "Lu Yang won, he won. He is the first person in the world and the glory of all Huaxia people. Now, he can be officially named the fire emperor!"

For the first time, Hitomi saw Dubin so excited, and said, "The name of the fire emperor is true."

"Snapped"

Liu Jie closed the live broadcast room angrily, and said to Li Xiuyu and Wang Teng around him: "We need to get rid of Lu Yang anyway, and kill him to withdraw from the zone. This person is too much threat to us."

Li Xiuyu nodded and said: "If he is lucky to survive this time, with his reputation, he can recruit a large number of masters, such people must not stay."

Looking at the canyon ahead, Liu Jie said, "All troops across the canyon use acceleration scrolls, and must reach the Echo Fortress before Lu Yang returns."

"Yes." Wang Teng and the 12 Elf Vice Presidents behind Liu Jie issued orders respectively.

The deputy presidents of these elves were all promoted after Liu Jie annexed the guilds. Only the diehards remained around the original presidents.

Soon, 2 million people began to pass through the canyon in an orderly manner. At the same time, reporters who followed Liu Jie's army reported the situation on the scene.

Dozens of them were foreign journalists, and they accompanied the regiment to cover the biggest war in China.

Lu Yang was also watching Liu Jie's team. Inside the venue, the nine official leaders of the "Second World" were speaking one by one, and he was not interested in listening.

By the time the nine speakers had finished speaking, an hour had passed, and most of Liu Jie's troops had entered the Green Pine Plain through the canyon.

After the awards ceremony, no reporters from any country cared about the runners-up and the third runner-up, all of them came to Lu Yang.

A British journalist asked, "Can you tell me why you can use Remnant Fire so many times in a row?"

Lu Yang froze and said with a smile: "If you can get up at 5:30 in the morning for high-intensity training, you can be just like me."

British journalist sad.

An American reporter asked, "President Lu Yang, may I ask, your guild is being attacked by the enemy's 2 million troops. Do you have any chance of victory?"

"Liu Jie dispatched 2 million people this time. Have you thought about how to respond?"

"Why aren't you afraid to fight out of town this time?"

...

Almost every question is related to the forthcoming battle, and every reporter asked did not expect Lu Yang to survive the attack.

Lu Yang looked at their faces and said, "Have you heard of a peach fan?"

More than 100 reporters shook their heads at the same time.

A smile appeared on the corner of Lu Yang's mouth and said, "There is such a paragraph in the peach fan, you listen well."

“I’ve seen the Jinling Jade Palace warrior crying, and the Qinhuai waterside flowers bloom early, who knows it’s easy to disappear! Seeing him rise from Zhulou, seeing his guests, and seeing his building collapse!”

More than 100 reporters from all over the world use the same interpreter in the game. Translation of Mandarin is okay. Translation of classical Chinese is not as prepared. More than 100 people looked at each other. Except for the Huaxia server reporter, no one knew what Lu Yang was saying. What do you mean.

Just now.

Tu Feng sent a message and said, “The enemy is here.”

Lu Yang stood up and looked at more than 100 reporters and said, “Want to know what I mean?”

More than 100 people nodded together. They all have an inexplicable yearning for the mysterious culture of China.

Lu Yang said: “If you want to apply with the official, this time will definitely make your life unforgettable.”

More than 100 people applied immediately, and the Second World official quickly agreed to their request, sending them all in a soul manner to the Echo Fortress.

Lu Yang used the fort to return to the city and came to the inner city, and walked up the east wall.

Tu Feng, Zhuo Jiu, and others were frowning at Liu Jie’s troops 200 yards below the city. When they saw Lu Yang coming, they came over one after another.

“Boss, Liu Jie is setting off, and he can attack at any time.” Zhuo Jiu Qing said.

Lu Yang looked out of the city ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Liu Jie's 2 million people covered most of the green pine plain, and Liu Jie's troops were all in sight.

Liu Jie saw Lu Yang under the city, waved his hand with a smile, and said, "Come with me to the front, I say hello to Lu Yang."

Wang Teng said: "Jie Shao, dangerous."

Liu Jie carelessly walked forward on the terrain dragon, and Qu Han took the paladin guard around Liu Jie.

At a position 100 meters below the city, Liu Jie looked at the city head Lu Yang and said, "Chairman Lu Yang, we have met again."

Lu Yang said with a smile: "Yeah, we meet again."

Liu Jie opened his hands and said, "The last time I wanted to buy your guild, you didn't agree, this time I brought 2 million people, so why bother you and me?"

Lu Yang looked at Liu Jie's face. It was not anger but hatred that burst into his eyes, and said, "You and I will never coexist, either I die or you die."

## Chapter 569 - Building collapsed

Liu Jie did not pay any attention to Lu Yang's eyes. As a guild leader with a command of 2 million people, how did he care about Lu Yang's thoughts? The purpose of this appearance was just for people to watch, which would make his reputation even higher.

“Well, since you say so, don’t blame me.” Liu Jie turned and smiled.

Qu Han held a shield to protect Liu Jie’s back and slowly retreated.

Over the city.

The white wolf said unpleasantly, “This grandson Liu Jie is too capable.”

Lu Yang smiled and said, “No, he doesn’t pretend, but he thinks so.”

“What do you mean?” White Wolf asked without understanding.

Lu Yang said: “Have you ever seen the cheetah or lion’s expression when hunting down the prey, or the expression when they grabbed the prey and watched the prey struggling but still biting?”

Han Liu said disgustingly, “Boss, who would look at this.”

Lu Yang laughed and said, “If you see it, you will understand why Liu Jie has this expression. I have seen a cheetah grab an adult stag on the grassland and bit it in his mouth. It’s not the main thing that bucks the stag’s neck, no matter how it struggles. The main thing is that the cheetah’s expression at that time was not a shame, but a hint of curiosity in his eyes, as if to say that you should be born. Let me eat, what are you running and struggling? “

The white wolf asked in surprise: “Boss, really fake.”

Lu Yang said: “Of course it is true. As a superior, he despised the stags in the mouth for granted. No matter how the stags struggle, the cheetah still bite the stag’s neck slowly.

Zhuoju poured a punch on the wall and said, “Boss, do you mean that Liu Jie is treating us like this now?”

Lu Yang said, "Yes, he considers himself to be at the very top of the biological chain, and thinks that anyone who opposes him is mentally ill."

Everyone looked at Liu Jie, 200 meters away from the city, and it really looked like Lu Yang said. In his eyes, there was only contempt and arrogance, and he directed the players under his command.

The White Lion was even more angry and said, "Boss, let me go out and fight him. I must kill Liu Jie."

Xia Yuwei patted the arm of the White Lion.

The White Lion was angry and turned to look at Xia Yuwei and asked, "Why do you shoot me?"

Xia Yuwei motioned the white lion to look at Lu Yang's eyes, and said, "Look at the boss's eyes. Didn't you find that the boss's eyes are more unpleasant than Liu Jie?"

Lu Yang: "..."

Everyone: "..."

The white lion looked at Lu Yang's eyes and blinked, and said, "Oh, boss, it's exactly the same as Yu Wei said, your eyes are crazy than Liu Jie."

Lu Yang said, "Because I know Liu Jie has lost."

"What?" Everyone looked at Lu Yang and asked.

Lu Yang smiled and said, "Don't ask first. Now let's enjoy Master Liu Jie's performance in front of players all over the world. He won't do enough, I won't kill him."

Outside the city walls.

Liu Jie shouted, "Brothers, starting today is the beginning of my unified national service. Anyone who is willing to ally with us will be my strongest ally. Anyone who wants to oppose us is Lu Yang ended like this. "

Liu Jie has such an arrogant capital. The channel between the Elves and the Terrans has been opened by him. He can invade the Terrans at any time through Iceberg City. He himself has 1 million players in the Elves, and his men Wang Teng have 600,000 Under his control, Li Xiuyu has 600,000 players, excluding his cousin Luo Cheng's strength in the Orcs, and the total number of players from the three of them alone is 2.2 million.

At present, no guild can gather 1 million players. Unless there are four super guilds, it is possible to block Liu Jie. However, no one can form such an alliance at all.

Once Liu Jie cleared the way from the human race to the orcs, Liu Jie had a quick way to get gold level 40 or above. At that time, Liu Jie really had the possibility to unify the national service.

Two million players shouted in excitement.

"kill"

"kill"

"kill"

Liu Jie gazed proudly at his 2 million men. As a son, he thought he had surpassed his father.

His father is very strong. He is the helm of a consortium with more than 100,000 employees. However, he has 2 million here.

These two million people are free to drive him, this feeling, Liu Jie is full of enjoyment!

On the other side.

In a black conference room, Liu Jie's father was watching the battle with key family members.

"It is indeed the chairman's son. He is really young and blue. He can command more than 2 million people."

"The arrangement is well-organized, without any chaos, and it really has the style of the chairman."

Liu Jie's father had a satisfied expression on his face, and he had to admit that he was inferior to his son in the number of commanders.

Media people from various countries have gone crazy at this time. Liu Jie's photos have been taken by the state of the soul. They have taken a 360 ° no dead angle. They also thought about how to write the interview draft.

"Raise the star, Huaxia server welcomes the legendary general, and leads 13 fortresses of the 2 million players under the blood and fire emperor."

"In the future, the commander-in-chief of the two million people will not show any confusion, and his command will be moderate."

...

Inside the broadcast room of each country.

"Oh my god, I found that I am in love with this handsome boy. He is so handsome and smiles so charmingly." An American female anchor screamed.

"I think we should interview President Liu Jie well after this battle and ask him how to control 2 million people without chaos."

...

Any media, any guild, and any player at this time are convinced that Liu Jie will win this battle and Lu Yang will lose this battle.

Liu Jie deliberately ran a round trip in front of the army, feeling the momentum of his men rose to the limit, and said loudly: "Attack on all sides, give me an echo stronghold."

"Yes," said Qu Han, Wang Teng, Li Xiuyu, and Si Siyu together.

More than 800,000 players under the leadership of four people launched attacks from four directions at the same time, of which 270,000 people wore level 40 gold and 250,000 people wore level 30 gold.

At the end of the offensive team, 30 forbidden mages concentrated 300 meters away from the east gate of the fortress. At the same time, they chanted a spell and aimed at the inner city.

More than 360 secondary forbidden mages read the spell at the same time and aimed at the wall.

3,580 special skill players use their skills to target players on the walls at the same time.

The 18,000 transferred players are the main offensive and head straight for the East Gate. Behind them are 150,000 Druids. They can use the battle resurrection at any time to let each of them have 10 lives.

For a while, this shocking scene watched all the audience in the world!

Zhuoju shouted in exasperation and exclaimed, "The whole army is prepared, watch out for the enemy's curse."

Lu Yang said, "Don't move."

Zhuoju looked at Lu Yang in surprise and asked, "Boss?"

Lu Yang said, "Do you believe in miracles?"

People like Zhuojiu and White Lion don't know what Lu Yang wants to say.

"Boss, it's this time. What can you say now? We're all done when the curse falls." Tu Feng said anxiously.

Lu Yang said, "Be assured that a forbidden spell will not fall on our city, so we are optimistic."

Thirty seconds later, in front of audiences around the world, 30 cursed mages completed the spell at the same time. Just before they were about to be released, 20 cursed mages turned their heads to look at the mage around them.

"Spell Countermeasure"

The 10 forbidden mages seemed to have been discussed in advance. Everyone had their own goals. The 10 forbidden mages that Liu Jie had cultivated himself could not use the spells.

"What are you doing?" A counter-magic mage asked in shock.

As soon as the words fell, another 10 forbidden mage released the spell.

"Ice Freezing Storm"

"Vulcan Blaze"

"Kowloon Howler"

"Water Mist Killing Array"

...

The dark clouds on the Echo Fortress suddenly opened a gap, and countless skills poured down. At the moment when people such as Zhuo Jiu were about to avoid, they were surprised to find that the curse did not hit any of them, and even None of the walls were touched.

Dusty wine pours down to the city, and he finds that 10 forbidden spells are mixed at a distance of 3,000 yards in front of the East City Gate, killing all 18,000 transfer players and 150,000 Druids in the range. There are remnants of corpses and skills everywhere.

Liu Jie's original expression of satisfaction was as if framed. He stared dully at the scene ahead. He suddenly looked back at the forbidden mage group behind him. The 10 forbidden mage he had cultivated himself had died on the ground. The remaining 20 forbidden mages were sneer looking at Liu Jie, 10 of them were still reading the spell.

Liu Jie saw full of hatred from their eyes, he shouted in shock: "Come on and stop them from casting the curse."

His guard responded and rushed to the mage position, but did not wait to run out 5 meters.

"Meteor Fire Rain"

"Space-Time Cutting"

"Cracked Earth"

"Lightning Storm"

...

130 of the 360 secondary forbidden mages poured their skills into Liu Jie's 1.2 million squadrons. For a time, Liu Jie's squadrons were smashed into groups.

"Protect Jie Shao."

"Go and protect Jie Shao."

Liu Jie's guard quickly ran back to Liu Jie ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Supported the shield to defend Liu Jie's injuries. After 4 consecutive deaths, Liu Jie reacted and quickly looked around.

At this point, all of his 1.2 million players in the army had been dispelled by his skills, and the offensive forces in front of him had also been killed by the cursed mage.

Liu Jie's anger rushed up and pointed at the 20 forbidden mages with excitement and cursed: "You dare to rebel, you don't even want the last share, don't you?"

Each of the 20 forbidden mages sneered, and eight of them shouted using the loudspeaker.

"As of today, Honghuang Pavilion left Liu Jie Guild, and its members immediately returned to Zijin King City."

"From today on, the mythological tribe left Liu Jie Guild, and its members immediately returned to Zijin King City."

...

A series of 12 messages calmed down the battlefield in a panic. All players looked around blankly. If they leave Liu Jie's guild and return to the original guild, what are they still playing here?

## Chapter 570 - Blocking Liu Jie

Liu Jie's players also stunned.

Including 400,000 Wang Teng's troops and Li Xiuyu's 400,000 players, all looked at the battlefield blankly, they did not know who to hit.

In the event of a siege, the forbidden mage and the less forbidden mage in the rear hit them and the forbidden mage. Although these 12 former presidents announced their departure from Liu Jie, they still have a high level of players in their original guilds. The prestige of hitting them was completely chaotic.

Fortunately, Lu Yang did not attack. If Lu Yang sent someone to attack, the scene would be completely chaotic.

The turbid wine pouring and the white lion looked at Lu Yang with a stun.

Zhuo Jiu said, "Boss, how did you do that?"

Lu Yang watched Liu Jie's irritable sneer and said, "Simple, I sold all the materials we got in this battle to the presidents of these 12 guilds for 10 gold coins and helped them pay off. Liability to Liu Jie. "

The White Lion asked, "Isn't there many people in Liu Jie's hands?"

Lu Yang said: "At most it will not exceed 50,000 people, including Wang Teng's 400,000 and Li Xiuyu's 400,000. We now have only 850,000 enemies."

There are so many on the paper, but in fact Liu Jie's troops have completely lost their combat power and become all soldiers. No one knows whether the players around them are enemies or friends.

“Boss, I applied to go out of town to fight.” White Wolf said.

“I also applied for a fight,” said bitter love for a long time.

“I’ll go as well.”

“I’ll go as well.”

...

All the 7 regiments applied for battle.

Lu Yang said, “Okay, Jiang Ze and Sun Yu went with me to fight Liu Jie, half-life was responsible for beating Wang Teng, Xia Yuwei was responsible for snoring Siyu, Bai Shi Sanxiong was responsible for Li Xiuyu, and Zhuojiu and Zhou Tianming were responsible for killing swords. God. “

“Yes,” the seven answered.

The embarrassing atmosphere continued on the battlefield. Liu Jie scolded the 12 presidents for the first time: “How much is lost in this war must be counted on your head. Starting today, each of you To carry hundreds of millions of debts, I will not spare you. “

The twelve presidents glanced at each other, proudly took out a signed bill and threw it to Liu Jie.

“What is this?” Liu Jie angered.

The boss of Honghuangge said, “This is the material we owed you at first, and I’ll make it up for you this time.”

Liu Jie picked up a sign, which clearly stated that the human bank had materials that could make 20,000 sets of 40-level gold equipment.

There are twelve in total, and each of them is the same. After picking up one by one, Liu Jie asked in shock: "You, where are you with so much material?"

The boss of the myth tribe proudly said, "Of course it is Lu Yang, otherwise we will help him?"

"Lu Yang?" Liu Jie said in shock. "No, he only has 10,000 sets at most. How can there be so many."

The boss of Honghuangge said sarcastically: "The world is impermanent, Liu Jie, we all remember in your heart that you pit us, you remember, we will make you pay double the price."

Twelve people took out the reel to leave, and for a while, 2 million troops continued to take players back to the city to roll away.

In less than 10 minutes, there were only 50,000 people recruited by Liu Jie in the Elves and 800,000 coalition forces from Wang Teng and Li Xiuyu.

Fortunately, Wang Teng was not killed by the curse. He ran to Liu Jie and asked in a panic, "Jie Shao, what should we do now?"

Where does Liu Jie know, looking at dead grass, but at this time, dead grass is also dead. After precise calculations, unless the major guilds of the orcs jointly hand over all the gold materials to Lu Yang, this will never happen. Case.

"There must be something wrong, I'll go back and recalculate." The dead grass said in a panic.

"Asshole, what good is it to recalculate this at this time." Liu Jie can't wait to be beaten to death.

Li Xiuyu ran over on horseback and said anxiously, "What are you arguing about at this time? Take the people away when Landing Yang does not come out. Do you have to wait for Landing Yang to lead soldiers to chase you?"

“Run?” Liu Jie’s eyes appeared a little confused. From his birth to the present, he has never experienced such a catastrophic defeat. In his life, he did not escape the two words.

“Booming”

The sound of the rubbing of the boulder against the wall sounded, and the four doors of the Echo Fortress opened at the same time. The ready Jagged Brothers Alliance player rushed out of the fortress like a tide and split into four strands straight to Liu Jie, Li Xiuyu, Xi Siyu and Wang Teng.

Running ahead is Lu Yang. The wind elf with Sun Yu speeds up and increases the movement speed by an additional 225%. Lu Yang and Sun Yu’s 50,000 troops quickly approach Liu Jie.

Suddenly, a cold arrow shot in Liu Jie’s team and came straight to Lu Yang. The closer the distance, the larger the arrow’s front end became. When it came to Lu Yang, it was as huge as a meteorite.

“flicker”

Lu Yang’s white light lit up, and he jumped to the front 30 yards to easily escape the skills. After changing to a mount, Lu Yang continued to run forward with the troops.

He knew that the person who was shooting arrows was Mingyue. Obviously, Mingyue’s archery was still too tender, and he dared to shoot arrows at a distance of more than 3,000 meters. Lu Yang would be too stupid to hide.

Liu Jie thought that Mingyue’s arrow could kill Lu Yang, but he did not expect to kill a few soldiers, and could not help but be very disappointed.

“Let’s go back, I don’t want to be humiliated by Lu Yang.” Liu Jie said.

“Jie, you go first, we’ll block it for you,” Mingyue said.

Liu Jie said: “Follow me, the others defend in place.”

50,000 people started their defense in situ. These 50,000 people were all elites. Their occupations were mainly mad soldiers and paladins.

Mingyue looked at Liu Jie gratefully ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Just about to change into a mount, Liu Jie said: "Your horse is too slow, take one with me."

"Okay." Mingyue was also unpretentious. He touched the contact control and jumped on the horse in front of Liu Jie. The two ran towards the distance together.

Lu Yang saw that Liu Jie was about to run, and said, "These 50,000 people were handed over to the mage regiment, and all long-range and melee chased after me."

50,000 people left 10,000 people, and the remaining 40,000 people met the rocks like running water. They made an arc around these 50,000 people and continued to chase Liu Jie.

For many years, Lu Yang dreamed of destroying Liu Jie's guild. Now that he finally has a chance, Lu Yang will never miss it.

In order to completely destroy Liu Jie's consortium, the first step is to let Liu Jie continue to invest in the game. Lu Yang does not believe that Liu Jie has lost such a big face in front of the world. His family can just forget it, Liu Jie That's it.

Ten minutes later, Liu Jie was blocked by Lu Yang at the entrance of the canyon. 40,000 players blocked Liu Jie and Mingyue, and surrounded them in the form of half a month.

Mingyue stood in front of Liu Jie, bow and arrow continuously aimed left and right, shouted: "Who dares to approach 50 yards and kill someone."

The surrounded crowd dispersed automatically, and Lu Yang took Sun Yu and Jiang Ze to 50 yards in front of Liu Jie.

Mingyue bowed at Lu Yang and said, "No further approach."

A black triangular arrow shot strangely from the side of Lu Yang's brain, right in the middle of Mingyue's forehead.

"18686" (Critical Strike)

Mingyue, die!

A \*\*\*\* stone emitting a pure white light fell to the ground. This is the moon goddess, the top token of the elven archer.

Liu Jie reached for it as soon as possible.

"嗖"

The second black triangular arrow shot from the side of Lu Yang, right in the middle of Liu Jie's palm, and inserted deeply into the soil. Although the bow and arrow of the shooter in the game will not cause a restraining effect on the player, Liu Jie's appearance at this time But it was as if the arrow had been fixed in the soil.

Liu Jie pulled out his arm and looked at Lu Yang angrily, cursing: "Do you dare?"

Lu Yang sneered up to 10 yards in front of Lu Yang and said, "Why am I afraid? The purpose of my presence here today is to tell you, Liu Jie, one day in the game, I will aim at you one day, I don't care

what you are, or how rich your \*\*\*\* consortium is. In this game, you are a rubbish, a complete rubbish.  
“

Liu Jie was so mad that he waved his long sword and launched a charge towards the landing sun.

“Flame Shock”

Lu Yang pointed Liu Jie with his left hand, and a fire burst out on his head, knocking him out for 2 seconds while breaking his charge skills.

Liu Jie was dizzy for 2 seconds before recovering, and found that he was not dead yet, angrily cursing:  
“What do you mean.”

Lu Yang shrugged his shoulders and said, “Revenge, you have targeted us for such a long time, and organized 2 million people to hit me. I ’m so dull. Brothers, give me a shot at him one by one and treat him with blood. , I did not let him die, no one is allowed to kill him. “

This is the most insulting gameplay in the game. The Elf and the Human are not hostile, so the Human can add blood to the Elf.

Jiang Ze first came to Liu Jie, punched him in the face, and said, “You bastard, I ’m afraid I have to treat you well this month.”

Unlike Lu Yang, Jiang Ze and they did not know the specific way of Lu Yang. He and Zhuojiu were thinking about the countermeasures when fighting with Liu Jie’s men, checking the opponent’s information, and taking their men to upgrade every day. It was late at midnight when they slept.

This time he was able to get revenge, Jiang Ze was completely vented, and he hit Liu Jie more than 10 minutes by himself.

Liu Jie is not good at playing games. He just uses games as an investment. Jiang Ze is a master who has gone through various wars. He is also a rare professional Necromancer. Liu Jie has no power to fight back.

If it was not Liu Jie's equipment was too good, the treatment could not add blood.

“Cleave”

Jiang Ze leaped a sword and slashed on Liu Jie's head.

“6868” (Critical Strike)

System prompt: The player you are attacking is offline

Jiang Ze blinked and said, “This product is offline.”

Lu Yang said, “That's also a fight, all the people in the guild came over and beat him up, relieved.”

“I can hit Master Jie, hey, I'm going to hit this. I'm the first one.” The Flame Knife first came to Liu Jie and kicked him according to his head.

“Bastard stuff, I'm afraid I've been scared for so long, I'm strangling you.” Flame Knife cursed.

Everyone laughed and recalled the experience during this time. It really made each of them feel like riding a roller coaster. Fortunately, the end result was good. However, in the midst of the ordeal, they wanted revenge.

After the Flame Knife, 40,000 people came forward one by one, and everyone kicked Liu Jie.

In the international live broadcast room, at this time the host of each country has become silent, they can not understand what happened, Liu Jie, who seemed so powerful, would be blocked by Lu Yang with 40,000 people in the corner. Hit him one by one.

“What’s going on, how could Liu Jie’s guild be mutiny, and 2 million people ran 1.2 million?” The American host asked.

“God, what magic did Lu Yang use to achieve this?” The German host asked.

“It’s incredible. This battle can be written into the history of the Second World. It is definitely a pivotal battle.” The French host asked.

“Maybe it’s the material. Liu Jie’s method of obtaining these 12 guilds was not glorious. The bosses of the 12 guilds have always wanted to regain control of the guild, but they just can’t afford the materials and give it back to Liu Jie. Lu Yang doesn’t know where Get a batch of materials to rescue these guilds. “British host said.

“But where did he get so much material? This is obviously impossible. The price of the material is so high?” The German host said puzzled.

“Hey, did they forget us?” Black Friday said smugly.

Also speaking these words are eight-armed spiders, black and white channels, k and black friday, and many other masters of the world.

8 servers, 15 teams have traded with Lu Yang, they are the masters behind the scenes.

in the game.

Lu Yang told Jiang Ze: “Order your troops to go out of the city and siege Liu Jie’s remaining 50,000 elites with Sun Yu.”

“Yes.” Jiang Ze and Sun Yu said together.

Lu Yang asked Xia Yuwei: “How was your fight?”

Xia Yuwei slashed a thief with a sword, and said, "The team of 芊芊 Siyu has been defeated, and I am hunting her down."

Lu Yang said: "Come on, talk about the silk language with you and call the human queen, kill her, and this name will be yours."

Xia Yuwei rolled her eyes and said, "Boring."

Lu Yang laughed and asked bitter love for half a life, "Wang Teng caught it."

"This kid is running too fast. I chased the team and killed them. I found out that he had returned to the city." He said for a long time.

Lu Yang said: "Continue to fight and kill as many people as you can."

"Yes," said bitter love for a long time.

This is the time to harvest the head robbery equipment ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ how much can be grabbed.

Lu Yang asked the White Lion: "How are you doing?"

"Hey, Li Xiuyu sees me like a mouse sees a cat. I'm hunting, it's too simple." White Lion said.

The white lion's Berserker unit has a water-resistant gem, the most restrained Li Xiuyu. Last time, Li Xiuyu has been cast out of the shadow by the white lion. When he saw that the white lion was chasing him with the team, he knew he would not agree with the white lion Fight.

Lu Yang guessed that Li Xiuyu was like this and said, "Continue to attack."

“Yes,” the White Lion said excitedly.

Lu Yang asked Zhuoji to pour in, and said, “How are you doing, has the sword killed God?”

This is one of the enemies that Lu Yang cares about most. He deliberately sends out the muddy wine with the strongest defensive ability. His offensive ability is among the brothers Zhou Tianming and Zhou Tianyan who are among the top 7 legions to resist.

Chapter 572 - Mess

At the head of the fortress of Hessen, the dull wine pouring and Zhou Tianming looked at the vast prairie with tears.

“Boss, the grandson who killed God with the sword never came, we both want to wear it here.” Zhuoji said helplessly.

Zhou Tianming said in a grievance: “Boss, we also want to participate in the war, it is too boring here.”

Lu Yang frowned and said, “Wait for me, I’ll ask what’s going on.”

Lu Yang sent a message asking Tu Feng.

Tu Feng said: “Uh, just got the news. After knowing that Liu Jie was defeated, he fled the team for the first time. Now he uses the back to the city to fly back to the Iron King City.”

Lu Yang: “...”

“This grandson runs so fast.” Lu Yang said anxiously.

Seven legionnaires headed for the expedition, and five were seized innumerable. Only the two teams, Zhuojiu and Zhou Tianming, found nothing, and their more than 100,000 men should be depressed.

Lu Yang called Zhujiu and Zhou Tianming and said, “Leave the second-line troops to defend, and you two will take the main support for the bitter love half-life and Bai Shixiong.”

“Yes,” the two said together.

The turbid liquor poured 30,000 people to support the bitter love for half a life, and Zhou Tianming took 30,000 people to support the White Lion.

When Lu Yang sang loudly here, the bosses of the other guilds of the human race and the elven clan were shocked. Originally, they were preparing to watch a Mars hitting the earth. Unexpectedly, Liu Jie was defeated on the battlefield.

The 1.45 million super guilds were dissolved in place into 12 guilds. Liu Jie himself had only 250,000 troops, of which 200,000 were still besieging the gods outside Zijin King City.

While Wang Teng’s 600,000 troops and Li Xiuyu’s 600,000 people had to face Lu Yang’s full attack of 800,000 people, of which Li Xiuyu was restrained by Lu Yang’s water resistance forces. It can be said that Wang Teng and Li Xiuyu only being able to hold one or two fortresses, the rest of the fortresses became unguarded.

In this way, the bosses of the major guilds of the two races could not sit still. The first to launch the attack was Nanyue Lengxue, another giant of Tiewang City, and personally led 300,000 people to attack the Red Sand Fortress of Benliu City.

Red Moon City boss Mai Lizhe sent 300,000 troops to attack the Frost Fortress on the south side of Iceberg City.

The Lord of the City on Frostfire Island, in the southeast corner of the Terran, led 400,000 people to attack the volcanic fortress on the east side of Iceberg City.

The original overlord destiny guild of Bingshan City and the Hanjiang guild gathered the remaining men and horses to attack the Cold Wind Fortress and the Tianji Fortress respectively.

The same is true of the Elven clan. When Shen Huang learned the news of Liu Jie's defeat, he immediately took 500,000 players out of the city to attack the 200,000 players that Liu Jie was outside of their city.

The guild of Liu Jie was divided into 12 parts. It was difficult to get rid of Liu Jie's control. No one cares about the lives of the 200,000 people. The boss also sent troops to capture.

For a while, the entire human race and the elves clung together!

When Lu Yang returned to the Echo Fortress to take charge of the overall situation, he received news from various parties from Tu Feng.

Lu Yang sneered and said, "Everyone wants to take advantage. One is smarter than the other."

Tu Feng said, "Well everyone pushes against the wall."

Lu Yang said with emotion: "I am not talking about other guilds, but the 12 guilds scattered by Liu Jie."

"Is there anything special?" Jiang Ze asked.

Lu Yang said, "These 12 incompetent things are now in any age. I don't want to merge and accumulate power. I even want to occupy a fortress with their own weak strength. Look at it. None of them can rule."  
."

Everyone nodded.

Lu Yang continued: "However, Liu Jie is finished this time, depending on how much we can achieve."

Tu Feng said with a smile: "This battle is not a small one. My bitter love has been hitting under the scorching sun fortress of Beifeng City for half my life."

"It's fast." Lu Yang said. Suddenly, Lu Yang felt something was wrong and asked, "Where's Qu Han, where's this guy going?"

Tu Feng said: "The first wave of attacks died in the curse of the 12 guild bosses, and I never saw him again."

Lu Yang didn't feel right, and quickly dialed into the half-life-long communicator, saying, "Be careful of the ambush of Qu Han."

Among the canyons.

Looking at the countless archers and mages on the high mountains on both sides and Qu Han himself for half of his life, he said helplessly, "Boss, I have failed and was ambushed by Qu Han."

Lu Yang tightened his heart and said, "Keep on, the muddy wine is on your way to reinforce you."

The bitter love half-hearted a little relieved and said, "I don't have a problem for half an hour."

He could see that the half-loving army above his head was not the most elite fighting force. They couldn't do it with the level of 50, 40 elites he took, but it was still possible to hold on for 30 minutes.

Qu Han saw that all the half-loving troops had entered the army, and he was slightly relieved. Wang Teng went offline with Liu Jie, and the guild was not hosted. He could only temporarily serve as the guild boss under the order of dead grass. 200,000 second-line troops from the garrison came to the rescue.

Fortunately, for half a life, I only care about charging him in the ambush, otherwise the 200,000 people can only block each other for an hour or two.

Looking up at Qu Han for half a lifetime, he cursed: "Your kid is really a jerk. Our boss treats you so much. I have repeatedly asked you not to agree on the grounds of contract. At this time, Wang Teng's guild is over. The best chance of relief, you even helped him save the guild, what do you think. "

Qu Han's heart was a little murky, and he said sorry, "I am grateful to President Lu Yang for his appreciation, but now I am affiliated with Liu Jie and is in charge of his position. I have been appointed interim president and I will take responsibility. ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ There is nothing to say about the bitterness of being bitter by Qu Han for half a life, cursing: "Do you think you can keep Wang Teng's Beifeng City if you are trapped? My boss personally took 40 Thousands of people are coming, and they will arrive in two hours. You will die. "

There was a hint of light in Qu Han's eyes, saying: "I will be waiting for his presence at the fortress of the hot sun. This time I will defeat again, I will definitely join the Brotherhood of the Iron Blood and leave."

Qu Han arched his hands, crushed the fortress, returned to the city roll, and returned to the scorching sun fortress. It took two hours for him to organize his troops, and the defeated troops would regroup under his armies. Two hours later, he I am confident to gather 600,000 troops in a decisive battle with Lu Yang at the fortress of the hot sun.

There are 60 fortress cannons on the scorching sun and thousands of arrow towers.

The bitter love for half a life and Qu Han's scolding were just for delaying time. I didn't expect that the boy could run like chicken blood as soon as he heard that he could fight Lu Yang. Helplessly said, "All are armed and waiting for rescue."

50,000 people cling to their place, greet countless magic and bows from above.

Lu Yang called Zhuoju and said, "Bitter love has been ambush in Bibo Valley for half a life, so go to rescue."

Zhuoshu's eyes sharpened sharply and he said, "I'll go."

The talker was closed, and the turbid wine poured out an entire acceleration scroll, and shouted, "The whole group speeds up and rushes to Bibo Valley within 10 minutes."

I was afraid that my men wouldn't be able to grab the equipment. After getting the command of Lu Yang, I have been using the acceleration scroll to move at full speed. At this time, I have already reached the Sequoia Plain not far from Bibo Valley. Encountered something like this.

Zhuo Jiu explained the specific situation with his men when he was on the road. When he came to the outside of Bibo Valley and looked at the two sides who were fighting fiercely, Zhuo Jiu dumped and said: "The hair ball took 20,000 people to the left and Vulcan took 20,000 people walked to the right, and the rest followed me to protect the half-loving team. "

Mao Qiu and Vulcan nodded each other, and quickly led the troops to both sides of Bibo Valley and ran up the hillside.

The 200,000 players who were besieging the half-loving army did not notice the fur ball and others who approached quickly from the side.

After 5 minutes, Zhuoju poured in and saw that the teams on both sides were in place. He pulled out his two-handed sword with his right hand and raised it over his head, and shouted, "Iron brothers, kill!"

"Kill!" Mao Qiu shouted.

"Kill!" Vulcan shouted.

50,000 players were inserted into Cheyu's 200,000 troops from the side like three long knives. Cheyu, who was fighting half-life, was caught by surprise. In addition, they were all second-tier players with

levels of more than 30. According to the 50,000-for-40 gold military players of the muddy wine, the difference is too big, and soon the enemies on the high ground on both sides of the valley are beaten and chaotic.

Che Yu looked at the suddenly appearing troops of muddy wine and murmured to himself: "It really doesn't work."

Cheyu 's 200,000 people ambushed, and it took 10 minutes to kill less than 1,000 Jagged Brothers players. The gap between the two sides was too great.

Seeing the muddy wine pouring in half a bitter life, he shouted excitedly: "The whole army is attacking."

The long-suffering Jagged Brothers players immediately counterattacked. The two sides fought together in the Bibo Valley. Soon, 200,000 people in Cheyu were crushed by the muddy wine pouring and bitter love for half a life.

The two sides joined together, and bitterly loved for half a life and said in shame, "Thanks a lot, muddy wine."

Zhuojiu said indifferently: "When anyone is careless, let's attack and lay the scorching sun fortress, and take revenge on you."

Biting his teeth bitterly and cursing, "I will never let go of Qu Han."

After the resurrection of the dead player, the dull wine dumping and bitter love half-life combined soldiers went straight to the scorching sun fortress.

On the other side.

Xia Yuwei led troops to chase and kill 200,000 people to the Red Sand Fortress, chasing more than 100,000 people and killed countless equipment.

Looking at the slang words guarding the city, Xia Yuwei hesitated. He only had 50,000 people, and the number of siege was obviously insufficient.

The \*\*\*\* language guarded the city and shouted, "Xia Yuwei, if you have the courage, try to attack the city."

Xia Yuwei said angrily: "I have nothing to dare. Do you think you are Li Xiuyu and have more than 80,000 gold players?"

The most painful place of the 莘莘 Si language is here. This time, the Li Xiuyu family gave him funds. Li Xiuyu bought enough 80,000 sets of 40-level gold materials, all of which were given to his own troops. Silk language.

"Then you try it, and see if you can fight it," Husi cursed.

Xia Yuwei waved his sword and shouted, "The Shield team came forward and prepared to attack."

Zhang Zibo took the shield team to the front and put on a defensive posture. At this moment, a large number of players appeared in the south of the fortress, and looked at the boundlessness at a glance.

"Who's troops?" Xia Yuwei and Lu Siyu both looked at the distance in surprise.

The troops coming in were covered in heavy armor, and in front of them was a middle-aged man riding an iron beast with a two-handed sword in his hand.

"Who is he?" Xia Yuwei asked.

Zhang Zibo said: "Nanyue's cold snow, Tiewangcheng came, it's not easy to fight."

Xia Yuwei nodded solemnly.

Nanyue Lengxue watched a proud smile on the corners of the two sides facing each other. Before coming to the two-party array, Nanyue Lengxue said using a large speaker: "The two beauties are good."

Filigree frowned and asked, "Nanyue, what do you mean?"

Nanyue Lengxue said, "Don't you know yet, just now, dead grass promised me that this fortress belongs to me."

"What?" Falcon said in shock, "How is this possible?"

Nanyue Lengxue frowned and said, "You can contact him as dead grass. I don't want him to lie to me. In that case, don't blame me."

Hessian dialed the dead grass phone quickly. After a simple call, hessed with loneliness and said to Nanyue Lengxue, "Okay, I will exit the fortress as agreed."

Nanyue Lengxue nodded with satisfaction, turning his head and Xia Yuwei said, "President Yu Wei, you have also seen, now this fortress is mine, can you stop attacking?"

Xia Yuwei frowned and said, "Nanyue Lengxue, we have no injustice and revenge. Are you sure you want to help Li Xiuyu against our brother-in-law brotherhood?"

Nanyue Lengxue's exaggerated spreading hand said: "This is not what I want to do alone, do you not know yet? Liu Jie's dead grass has just contacted Lakeside City, Jianyang City, Tiewang City and Hong All fortress lords of Moon City ceded four fortresses and 50 million credit points to let us send troops from six cities to intervene in this war ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ You go back, I do n't want to be the enemy of the Iron Brotherhood, be careful of Lakeside City Sneak into the Rain Fortress. "

Xia Yuwei was so horrified that she quickly told Lu Yang and all the guild leaders in the simulation group what Nan Yue Leng Xue said.

Echo Fortress inside the fortress hall.

Tu Feng said, "Does this dead grass have such great power and ability?"

Lu Yang frowned. "All the troops immediately returned to Hannibal and prepared for defense."

Others are not clear, but Lu Yang knows that dead grass has the ability to persuade all the fortress bosses in Six Cities, which is too simple for him.

Under the scorching sun fortress.

The turbid wine dumped and bitter love attacked three times in succession, and Qu Han's scattered men couldn't gather immediately, causing him to not have enough power to defend the fortress. Most of them depended on the fortress cannon and the arrow tower. At this time, the arrow tower was basically Clean it up.

After receiving a command of sorrow, he slammed the sword into the ground fiercely, pointing at Qu Han at the city and cursing: "You wait for me, and one day I will destroy your troops myself."

Qu Han expressionless, watching the Brotherhood of the Jagged Brothers retreat.

The White Lions and Zhou Tianming are attacking Li Xiuyu's defensive fortress together. After getting news, the two also had to stop the attack and retreat to Hannibal City.

For a time, the main members of the Iron Brotherhood all gathered in Hannibal City, 800,000 people defended the four forts, and the guilds that had evaded Lu Yang because of fear of Liu Jie rushed to Lu Yang to apply for assistance to defend the city.

Lu Yang was not afraid. In the end, the defense strength of the four fortresses reached 1.2 million people!

The guilds that dispatched troops from Lakeside City, Tiewang City, Red Moon City, and Jianyang City learned that Lu Yang had all returned to the city to defend, and they disbanded the troops and returned to the station.

The conditions they promised to be dead grass was to let Lu Yang retreat!

#### Chapter 574 - New expansion

Inside the guild station in Hannibal City, the seven legionnaire commanders and all guild leaders gathered, and everyone's face was angry.

Zhuoju said, "Boss, this is not the way to go. What they want to do, this is the second time."

Lu Yang said: "I also feel like a whim, just now I have received news that all the fortress lords of the four main cities, Red Moon City, Tiewang City, Jianyang City and Lakeside City, have formed an alliance."

"What?" Everyone looked surprised.

Xia Yuwei said, "When is it?"

Lu Yang said: "Just when we defeated Liu Jie, Mai Lizhe of Red Moon City was the lead and the chosen leader this time."

"So many fort bosses are allied? How did he do that?" Bitter Ai asked incredulously.

Lu Yang said: "Being forced by us, people all over the world thought that when we and Liu Jie would fight a war that lasted a week or two or even a month, we eliminated Liu Jie in one day. These bosses were afraid Now. "

Everyone: "..."

“It seems to be true,” said bitter love for half their lives, and even they thought they would have to fight hard for a week or two, but it was likely to fail in the end, but they did not expect to win in one day.

Moreover, the main force on the opposite side was also divided into 11 small guilds, which were completely disbanded and no longer a threat, and the only threat became Lu Yang.

“Will they hit us together?” Asked Zhuoju.

Lu Yang said: “It will, but not now.”

“Why?” Xia Yuwei asked.

Lu Yang said: “The alliance was too hastily. Ma Lizhe took the lead in taking advantage of the fear of the surrounding main cities, but the four main cities were not united. They only came together when we were persecuted. The players under him cannot cooperate. “

Before Lu Yang let Tu Feng penetrate these main cities, he already knew the relationship between the forces in each main city, but before the time had come to deepen their hatred, the war began.

“I didn’t expect this Merritt to be a bit powerful.” The White Lion said unhappily.

Lu Yang said: “There are many talented people in the game. Why didn’t I let Sirius and Huo Tianhua come to help this time? There are three main cities around Sirius City, all of them watching each other with stare. Once they entered the battle , The fortress is bound to be lost. “

According to the news obtained by Mu Yi, the bosses of the Black Wolf Fortress and the Blood Wolf Fortress each bought enough potions for 500,000 people to fight a war. It is not necessary to know that they were intended to sneak attack on the Siren Fortress and the Silver Wolf Fortress.

“It looks like we have become the target of criticism.” Said bitterly for half a life.

Lu Yang said: "It's exactly like this. Our development from a grassroots to such a strong has become a threat in everyone's eyes. Recently, everyone must seize the time to lead the team to fight equipment. The next war is not far away."

In the previous life, Ma Lizhe organized a four-city coalition to attack Liu Jie, and left Liu Jie in only one main city. If there is no accident, Ma Lizhe will still form a coalition in this world.

"Boss, in addition to killing the orcs to get honor, otherwise the equipment is too slow, the lord of the field map is just a little bit." Said bitter love for a long time.

Lu Yang smiled and just wanted to speak.

System prompt: Update notice, starting at 12 o'clock tonight, a new expansion pack of 10,000 races will open, the update time is about 8 hours.

update content:

1. Increase all copies from level 30 to 100, of which epic copies can get gold-level equipment.
2. Add a new copy difficulty level nightmare to get dark gold equipment.

"Open copies of all levels! You can still get golden equipment!" Sun Yu said in surprise.

Lu Yang said with a smile: "Look, isn't there a place for equipment?"

The White Lion said in shock: "Wouldn't we no longer have to worry about our opponents raising prices and not being able to buy gold gear?"

Lu Yang said, "Yes, in the future this game will enter the era of hacking the world by means of tricks. The stronger your abilities, the better the equipment you will get, so that those material merchants will die farther, and the game will officially become a player's Games, not games for the rich. "

“How much should the material depreciate?” Zhou Tianyan asked.

Lu Yang said: “Look at it, it won’t exceed 2 gold coins.”

From the highest price of 45 gold coins to 2 gold coins, no one even bought this price, and the material merchant will officially exit the stage of the game.

On the World Channel, players have already exploded, and almost all players are cheering for the official move.

On the other side, all the material merchants are dumbfounded. In order to raise the price, they have been buying materials at high prices. All the money they have earned before is invested in the materials. Many people even borrow bank loans to hype the materials.

Now suddenly updated, many material merchants not only go bankrupt, but also owe a lot of loans.

Zhou Tianming said: “Fortunately, the boss sold the materials to those 11 guilds, otherwise our efforts will be wasted.”

Everyone nodded, it was a long time. If the materials were not sold in time, but stored in their hands, it would become worthless now ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang remembered this time at this time The major guilds under Liu Jie’s rebellion all had a chance to attack Liu Jie. However, Liu Jie was not so easily defeated. His father increased his investment in him so that he could really use money. These guilds are integrated.

“I hope you will be the same as you were in this life, Liu Jie, don’t let me down.” Lu Yang murmured to himself.

“Boss, what are you talking about?” Mao Qiu asked.

Lu Yang said, “I’m wondering if Liu Jie will be stunned. I hope he can cheer up, otherwise this game will be a lot less fun.”

Everyone: "..."

The white lion said, "Boss, you have such a strong taste that you still want to fight with Liu Jie. I am a little scared when I think of it now."

Lu Yang said with a smile: "The game is only fun if there is a challenge. Without him, I would be uncomfortable."

Crowd of people!

Where did they know that when the game entered the first expansion pack, it was Lu Yang's most powerful time.

He clearly knew every bug in every copy, every prestige use, every rare material source, his guild would usher in a real explosive development.

On the other side.

In Liu Jie's villa, he had just received a report of dead grass, and learned everything. The double blow made Liu Jie's face even heavier.

Just then, he received a call from his father, Liu Jingtao, "Go home immediately."

"Yes," Liu Jie said.

Red Moon City.

Ma Lizhe is meeting with all the fortress bosses in the four main cities. This time, they have achieved great success and they have seen hope against Liu Jie and Lu Yang.

The entire Huaxia server has entered a relatively calm phase before a volcanic eruption!

## Chapter 575 - Luo Zhenhao reciprocates

In the early morning of the next day, the server update is completed. After Lu Yang exercises, return to the room to put on a helmet and enter the game.

[World Channel] Player a: A copy of the legendary difficulty at level 30, which is one team, one defense, 1600 or more defense, 5000 or more blood, speed comes ++++++++

[World Channel] Player b: Seek a group of 40 epic copies, a little mage, magic damage 1900+

...

The world channel is extremely lively, everyone is making a copy of the team, and the Jagged Brotherhood is no exception.

The heads of the Legion and the White Lion are arranging players of their respective legions to form a copy. Because there is no high-level defense equipment, they start from the level 40 copy.

Lu Yang saw that there was nothing inside the guild. He dialed the pager of Shenhua and asked, "How is it with your elves?"

Shenhua said, "I'm about to call you. Something's wrong with the Elves."

"What's wrong?" Lu Yang asked.

Shenhuang said: "The 12 guilds that you split up seized Liu Jie's territory. I didn't expect to be besieged by other fortress bosses. None of the 12 guilds grabbed the fortress. A large number of players resigned, and the rest were killed Dare not go out of the safe zone. "

Lu Yang guessed this would be the case and said, "What about Liu Jie, is there any news from him?"

Shenhuang said: "I was about to say that from the news inside our family, Liu Jie's father invested 3 billion credits in Liu Jie this time, letting him let go of the game."

Lu Yang couldn't help but clenched his fists and said, "Great."

What he wants is that the Liu Jie family keeps throwing cash on Liu Jie, making their liquidity less and less.

"Is this okay?" Shenhuang said silently: "This morning, the bosses of the 12 guilds went back to Liu Jie again, and he had 600,000 players in his hands again.

Liu Jie is now recruiting studio masters in the Elf Tribe. He even dug up the studios already in other guilds at a high salary. On this day, he spent hundreds of millions, and it won't be long before he can make a comeback. "

Lu Yang nodded with satisfaction and said, "This is only interesting. He uses all the strength of the family, and I will feel happier when I fight."

Shenhuang: "..."

"Forget it, you can achieve today's achievement is a monster in itself, you and Liu Jie to compete." Shen Huang said silently.

Lu Yang closed the intercom with a smile. He now looks forward to what Liu Jie will do when he comes up with his family strength. Perhaps millions of senior players and elites who are fully equipped with gold may also be.

Suddenly, Shenhua sent a message again and asked, "That, brother, I want to ask you something, but I was just embarrassed to say it."

Lu Yang asked, "What's the matter?"

"Can you sell the moon goddess to me? I invested 200 million yuan," Shen Huang said.

Lu Yang said: "I can't sell this thing, it's not that I don't believe you, nor is it that I don't lose the money, but once you lose this thing, and it's in the hands of the enemy, I will always worry about my demon. Heart. "

Shenhua was also afraid of Lu Yang's refusal, and asked by typing, saying, "All right."

Lu Yang guessed that Shenhua wanted to buy it, but he couldn't really sell it. Unless someone appeared to make him trust him, he would rather rot it in his own hands.

The White Lion shouted in the simulation group and asked, "Boss, how about we go to copy?"

When Lu Yang heard the tone of the White Lion, he knew that he was very excited. He really wanted to agree, but for the time being, he said, "At noon, you take the brothers to play the 40th level copy, I will go to the 60th level copy to see if there is There is no quick way. "

"Oh, okay," said the White Lion.

Lu Yang closed the dialog box and sighed, "It's really troublesome."

All the customs clearance methods are in his head. He told the White Lion to investigate first, just to prevent the White Lion from finding out why they knew the copy so well.

Just as he was going to take a look inside the copy, all of a sudden, a familiar player sent him a message.

Hope: "President Lu Yang, remember me, my daughter was found."

Lu Yang's eyes brightened, of course he remembered this man, the unshaven middle-aged uncle Luo Zhenhao during the national service match.

"Congratulations, when did you find it?" Lu Yang said.

Hope said: "Just last night, thanks to you, I wouldn't know how long I would have to wait for it if you didn't help me say this at the global competition."

Even at the global competitive competition, before the start of each competition, Lu Yang had to publicize Luo Zhenhao's incident whenever he had a chance. This incident had a very big impact.

Lu Yang said, "Your daughter is fine."

Luo Zhenhao said: "Intact, my little daughter is now in the game ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I don't have to worry about losing her this time."

Lu Yang felt relieved and said, "That's good."

He was always worried that the dog who had run away from his daughter jumped off the wall and hurt the child, and it seemed that the other person was not so brave.

Luo Zhenhao said excitedly: "President Lu Yang, in order to thank you, I have a secret to tell you."

Lu Yang asked, "What's the secret?"

"The whereabouts of destruction." Luo Zhenhao said.

Lu Yang's head rang loudly, and said, "You even know the whereabouts of destruction?"

Luo Zhenhao said shamefully: "I opened a farmer's studio myself. Every day I look for my daughter while earning money. I occasionally get a broken white jade skull. The message on it is about the heart of destruction. . "

When Lu Yang heard Luo Zhenhao said here, he knew that what he said was true. The beginning of the mission of Destruction Heart was indeed a white jade skull. He said, "Are you willing to give me such a precious thing?"

The price of Devil Heart has reached 200 million credit points on the outside. Such a large amount of money can make an ordinary person comfortable and live a lifetime.

Luo Zhenhao said in a calm mind: "I'm very content to find my daughter. I will spend most of the rest of my time with my daughter. Other times I can make a little money in the game."

Lu Yang thought for a while and said, "I can't let you provide the news you provided me. In this way, since you run a farmer's studio, then I hire your studio to find all of me above level 50. Materials, as soon as you find them, I will buy them at the highest price now. "

The so-called farmer's studio is mining, leather-making, herbs-picking and gem-removing. At present, the price of such materials has collapsed, and they cannot be sold at all, and no guild or individual will buy them.

## Chapter 576 - Destroy the Abyss

Luo Zhenhao said, "Thank you very much, President Lu Yang. Where are you, I will give you the skull."

"I'm here at the hotel in Hannibal," Lu Yang said.

“I’m also in Hannibal, come here.” Luo Zhenhao said.

“Okay, I’m waiting for you here.” Lu Yang left the room and came to the hotel door.

After a while, Luo Zhenhao and a young girl with pink carvings appeared in front of Lu Yang. After seeing Lu Yang, the little girl quickly ran to Lu Yang and bowed deeply: “Big brother, thank you you.”

Lu Yang was seduced by the little girl’s big eyes and said, “What’s your name?”

“My name is Luo Meixi,” said the little girl.

Luo Zhenhao walked in front of Lu Yang and said happily, “This is my little daughter.”

Lu Yang looked at the little girl with some emotions. When Luo Meixi was found in the last life, she died. Luo Zhenhao also committed suicide. Now he has changed the life of Luo Zhenhao’s father and daughter.

“In the future, you must pay attention to safety. You should not have any thoughts of resignation at any time, you know?” Lu Yang said to Luo Zhenhao.

Luo Zhenhao nodded heavily and said, “Sure.”

He took a white jade skull from his backpack and handed it to Lu Yang, saying, “This is the heart of destruction.”

Lu Yang took the bone skull.

System prompt: Strange skull with a line of text on it. If you want to get power, come to the abyss of destruction. If you can find me, I will give you the power to destroy the world.

Lu Yang asked: "Have you tried exploring this place?"

Luo Zhenhao shook his head and said, "No, I don't have time."

Lu Yang nodded and said, "Here is 10,000 gold coins. I counted as sponsoring your studio. I quickly rose to level 50 and helped me find materials."

Luo Zhenhao wanted to refuse but was forced into Lu Yang's hands. He had to accept Lu Yang's kindness and said, "Thank you very much."

Lu Yang said, "Take your studio to join my guild. If you have any questions, please contact me directly. I can't refuse to help."

Luo Zhenhao nodded and took his daughter off the assembly line and left.

Lu Yang looked at the white jade skull in his hand and said with a sigh, "Sure enough, good people have good rewards. It took only 3 million to get the heart of destruction."

The heart of destruction is more important to a guild than the heart of the demon god, and it is not weaker than the owner of the heart of the devil.

Lu Yang has always wanted to gather all the artifacts of the profession. Now that he has the heart of destruction, the next battle will be easier.

"Girl, are you there?" Lu Yang sent a message to Han Ying.

"What is it?" Han Ying asked.

Lu Yang said: "Take Xiao Liang, Mu Yu and your brothers to the conference room in Hannibal City."

During this time, Han Ying has been bringing Han Fei, Han Yu and Han Sha to a group of little boys to collect materials in Heilongshan to kill dragons. By the way, they practice their skills. This global competition has only won the second place in the trio. Brother depressed for a long time.

Han Ying said, "Okay, let's come back."

Lu Yang ended the call and returned to the guild. Just less than 1 minute after sitting in the conference room, more than 10 little guys rushed in.

"Brother, what is it?" Han Ying asked.

Lu Yang saw Han Ying patted her shoulder with anxiety and said, "Okay, haven't you all told you? You didn't lose because your strength was not good, but because you were restrained by the opponent's profession. "

The combination of a thief, a warlock, and a hunter is not very good by itself. The three met the combination of war, law, and animal husbandry on the battlefield, and they were defeated by killing the two on the premise of being defeated. They were already very strong. .

Han Ying stubbornly said, "No, we still have room for improvement. I think we can kill them even if they are hacked."

"I think so too," Han Fei said.

Han Yu said, "Me too."

Lu Yang was a little speechless and said, "Well, let's not talk about this for a while, Han Ying, come here and give you something good."

"What?" Han Ying asked curiously.

Lu Yang took the white jade skull out of his backpack and said, "This is the mission prop of the Destruction Heart. Take him to take the quest. You will get more skills by getting the Demon Heart."

Han Ying took over the task of receiving Bai Yu's skull and said, "I will meet them again next year, and I must win back."

Lu Yang could feel that the small universe in Han Ying was about to erupt, and said, "Then let's do the task first, and get the heart of destruction first."

"Um." Han Ying said.

Lu Yang and his party used the fortress to return to the city and flew to the Hessen fortress, then replaced the Red Flame Lion King and ran into the black forest outside.

The task hint given by Bai Yu's skull is to destroy the abyss on a level 60 map, which is exactly the junction between Hannibal City and Iron King City ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang said: "Everyone is optimistic about Hannibal City. The surroundings are not smooth, so be careful of being attacked. "

"Ok."

At present, Hannibal City seems to be an iron plate ruled by Lu Yang. In fact, the inside is rough and turbulent. Everyone knows that Liu Jie will make a comeback. Wang Teng and Li Xiuyu will not give up. They will be led by Red Moon City leader Mai Lizhe. Quartet Alliance.

Hannibal City was sandwiched between the three main cities of the five main cities. Which guild did not know which side was obeyed. Even those who had helped defend the city before may be betrayed in the next moment.

However, the team of Lu Yang will not be dared to provoke. After this global competition, the position of Lu Yang's fire emperor has been completely established. Anyone who talks about Lu Yang behind the scenes will use the title of fire emperor instead. When referring to the Emperor of Fire, it must be Lu Yang.

Sister Han Ying and his three brothers have completely earned their names. None of the players in the world do n't know these three people. In the trio field, the three sisters crushed their opponents all the way to the finals. Because their career was restrained, they lost to The opponents, but won the respect of everyone, even the trio champions admitted that if it is not the opponent, they will lose.

Five of Han Sha broke into the semi-finals, Han Meng duo created the quarter-finals, Mu Yu and Xiao Liang broke into the top 100, and Han Yu's five broke into the top 100.

Lu Yang, a team of 18 people, is the top in the world in both heads-up and group battles. If there are less than 100 people attacking, it is impossible to win. This is still the case where Lu Yang has no demon heart. Now Lu Yang is leaving the field. Having the heart of the demon again, he alone would have to kill hundreds of people.

The players on the road saw this group of people passing by, hiding away all the way, and no one wanted to provoke the chairman of the Iron Brotherhood.

After running for 2 hours, Lu Yang came to the entrance of the Destroyed Abyss.

#### Chapter 577 - Underground boss

Destroyed Abyss is a ground fissure that is several hundred meters long and less than 10 meters wide. Generally speaking, players come here to bypass or jump over, and no one will think that there are monsters in it.

Lu Yang walked to the cliff of the abyss, watching the green mansions emanating from the bottomless bottom, and said, "Be careful, green mansions are green magma, and you will definitely die if you fall down."

"How do we go down?" Han Fei looked at the abyss and found no way.

Lu Yang pointed at the rock protrusions on both sides of the abyss and said, "That's the way."

On the walls on both sides of the abyss, there is a protruding rock every 5 meters downwards, which is only enough for one person to stand on two corners. If there is a slight mistake, the abyss will fall.

“Wow, my favorite is this design, which can reflect our approach.” Han Fei said proudly.

Han Sha and Han Yu nodded together.

This design is difficult for ordinary players to reach the sky, and it is very easy for those of them who have been professionally trained and have good physical balance.

Lu Yang said: “Follow me, I will go down to explore the road first.”

He only saw this way in the Raiders, and it was the first time to walk in person. Fortunately, he still vaguely remembered a recipe at the time, specifically to walk this place.

Jumping over to the first protruding rock, Lu Yang looked left and right. Sure enough, he found the second rock in the lower left corner. After jumping down, he grabbed the cliff gap on the right side of the head with both hands.

Continue down and jump to the fourth rock bulge, Lu Yang shouted: “Along the route I walked down one by one, this road is feasible.”

Han Ying jumped down the second, Han Fei was the third ...

Half an hour later.

Lu Yang came to the bottom of the abyss.

“The space below is so large.” Han Ying then jumped down and looked around in surprise.

The bottom of the abyss is like a huge underground karst cave, and the sides can not see the head, but in the vertical position of the abyss, there is a green magma, which is constantly rolling.

“There is something strange in front, it looks really strange.” Han Fei also jumped down, pointing at a monster that was getting closer.

This monster is more than 2 meters tall, with a gray body and black head, fierce head, fangs, and muscular muscles. The arm is like a human carrying a long knife, the lower limb is like a horseshoe, and a long tail is behind it.

Sartre (elite)

Level: 60

Qi: 00

Lu Yang took out a bottle of magic sound and threw it on Sartre’s body. The low blood volume proved that the magic resistance was very high.

System prompt: Target magic defense reduced by 30%

“Hamily” Sarter yelled, stared at Lu Yang, raised his sickle to launch the charge, and rushed towards Landing Yang with a phantom.

Lu Yang didn’t move, he knew that Xiao Liang would protect him.

Sartre had just rushed to half, Xiao Liang brought a phantom and hit Sartre’s body, and stunned Sartre for 1 second.

A sneak attack on South Korea appeared behind Sartre, and inserted it into Sartre’s neck.

“716” (triple crit)

A vertigo symbol appeared on Sartre’s head for 4 seconds.

Sartre’s own defense was extremely high, and Han Sha’s attack was almost unbreakable. After cutting 5 consecutive swords, Han Sha’s dagger flashed a black-red light.

“Sunder Armor”

Finishing skills hit Sartre.

“3086” (Critical Strike)

Sartre’s defense decreased by 800 points.

Han Yu raised his bow and arrow and shot an arrow at Sartre’s head.

“Armor Penetration”

Sartre’s defense is reduced by another 500 points.

Han Ying’s hand glowed with black light, and his staff pointed at Sartre’s head.

“Armor Corrosion”

Reduces Sartre’s defense by 500 points

Han Yu jumped behind Sartre and used a sneak attack to stun the opponent for four seconds. At this time, each ordinary attack can kill more than 2,000 blood.

Lu Yang summoned the Phoenix, and with his attack, Sartre fell to the ground shortly after.

“The defense is really high,” Han Yu said.

Lu Yang said: “After all, it is a level 60 monster, and you will gradually adapt to it later. At this time, you need more cooperation between players.”

Han Fei picked up a piece of equipment on Sartre’s body, and said, “Brother, the elite monsters here actually explode the level 40 silver equipment?”

Lu Yang looked at it.

Sartre Spiked Band (Silver)

Level: 40

Physical attack: 25-32

Strength: +12

Additional physical attack: +22

“This ring is not bad, and it is not much worse than the 40-level gold.” Han Sha said.

Lu Yang said: “It is estimated that after this revision, the explosion rate of silver equipment has been increased. Keep it and place it in the guild warehouse.”

Han Fei nodded and put it in his backpack.

Lu Yang looked around and found that three or four Sartres stood together every 50 meters or so and said, "Hansha, it's up to you."

"No problem." Han Sha and Han Yu proudly walked around the four Sartres in front of them. They were all invisible, and Sartre couldn't find them.

Han Sha said: "3"

"Start"

Twelve little guys started the show. After the first person launched the sneak attack for 4 seconds, the second one followed the sneak attack, and the third person waited for 4 seconds to continue the sneak attack. After that, the first person used the gallows and stunned for 8 seconds. time.

Lu Yang, Han Ying, and Han Yu took the opportunity to use a range of attack skills to output a lot, and soon 4 Sartre fell to the ground, and many silver-level equipment broke out.

Walking along the avenue, killing more than 200 Sartres in succession, Lu Yang led the team to the entrance of a cave.

The doorway of the cave was obviously carefully carved, and there was a series of runes on the top. When Han Ying walked to the place where the runes were exposed, the runes suddenly glowed.

"Welcome to Hell, please come in if you have the courage."

System Tip: This is a cave shrouded in special energy. If you choose to enter, teleporting abilities such as the scroll back to the city and the scroll back to the fortress will lose effect.

“boom”

The earthquake trembled at the foot ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The green lava behind it slammed upward tens of meters, and the entire abyss of destruction shook violently.

Lu Yang said, “Go in fast, this may be a time-limited task. If the task is not completed within time, the cave will collapse.”

Han Fei said in surprise: “When did it start?”

Lu Yang said: “It should be when Han Ying was exposed to the runes, come with me and talk about anything else.”

Everyone quickly followed Lu Yang into the cave.

The light flashed, and Lu Yang appeared in an underground palace full of purple rocks. He stepped down the 12-step stairs, in front of which was a huge square, with 7 Sartres standing below, including a taller red Saar. Special, about 3 meters.

Sartre Warrior (boss)

Level: 60

Qi: 00

Lu Yang summoned fire dragons in situ, summoned 30 in a row, and spent half a minute, saying, “Han Sha, you 12 people control the mobs, Han Ying controls the Sartre warrior with the Lord of Hellfire, Han Fei and Han Yu are with me Hit the boss. “

“Yes,” the crowd said together.

Han Sha and 12 other guys walked behind Sartre in stealth.

“Start”

A green bead rose into the air and smashed into the head of the Sartre soldier, and a hellfire lord stood up in front of Sartre.

Han Sha and Han Yu launched the sneak attack skills, and 6 Sartres were stunned at the same time.

Lu Yang slammed a bottle of magic sounds on 7 strange bodies, and fully output the Sartre soldiers.

Thirty Fire Dragons were very damaging. In less than 3 minutes, Sartre soldiers fell to the ground.

“Clean up from the left.” Lu Yang aimed at the first Sartre on the left, and 30 fire dragons fired a large fireball at the same time.

Soon six Sartre fell to the ground.

“Look what equipment has burst.” Lu Yang asked.

“A shield came out.” Han Fei picked it up and shared it with everyone.

Sartre Frost Shield (Gold)

Level: 60

Defense: 538—578

Stamina: +60

Constitution: +60

Additional defense: +86

“Very good equipment,” Lu Yang said.

He is lacking the gold-level defensive equipment of the wasteland level 60 copy.

Xiao Liang said: “My Shield of War Tigers is really strong, and it is still not too weak compared to level 60 equipment.”

Lu Yang said, “Of course, none of the legendary items are simple, keep moving.”

Walking across the square is a wall with a passage on the left and three Sartres at the door.

Lu Yang easily killed the three Sartres in the same way. When he continued to run forward, there was an extra channel on the right side of the corridor.

The passageway reached the end at a glance. Six Sartres were standing there, and behind them was a glittering treasure chest.

“Brother, that treasure chest is dark gold.” Mu Yu pointed at the treasure chest.

Han Ying and Han Fei both looked at the treasure chest with excitement. Generally, there will be a dark gold-level equipment in this treasure chest.

Lu Yang said: “Can’t go, this is a multiple choice question given by the system. If you go, you will delay time. If time is delayed, you may not get the heart of destruction.”

“The system is really lacking in morals,” Han Fei said.

“Keep moving forward, if we get the heart of destruction fast enough, we have a chance to get it.” Lu Yang said.

The crowd nodded and went on.

Continue walking along the corridor for 100 meters to the end. On the left side is a corridor that turns back and forth. A 3 meter tall, horse-faced, human, holding a flaming sword in his hand, and wings on his back The monster was standing in the middle of the road.

Tomb Guardian (boss)

Lu Yang said: "Han Ying used Hellfire Lord to resist the monsters, and the whole output."

Han Ying pointed his finger forward, and his Lord of Hellfire ran quickly to the guardian of the grave and punched him in the past.

"225"

Lu Yang echoed with a magic sound.

"Miss"

Lu Yang frowned and raised his hand to hit a strange head on the strange head.

"Miss"

Lu Yang said: "This monster has an anti-magic shell. My attack is invalid. If you fight, I will go and see."

"OK." Han Fei said.

Not afraid to delay time, Lu Yang ran forward, and there was a gate at the end of the corridor.

door

Hit points: 200000/200000

"Fire Dragon"

Lu Yang summoned 10 fire dragons and cooperated with him to attack the door. The door was broken in less than 1 minute, and walking forward was another door.

“The system is a complete waste of player time.” Lu Yang continued to attack, breaking the second door.

There are two promenades in front of the gate, one deep into the tomb and one to the left of the tomb.

Lu Yang left a shadow of flame on the spot, and tentatively walked into the left corridor of the tomb. He used a crystal lamp to walk forward for a distance of 100 yards. A glowing slab appeared in front of him and a

Six Sartres were standing in the corner, with a dark gold chest behind them.

Lu Yang shook his head and retreated back to the entrance.

“Brother, we hit another 60-level gold defensive clothes.” Han Ying shared the equipment to Lu Yang happily.

Lu Yang said in surprise: “It seems that the boss here can easily explode in defense gold, Xiao Liang replaced it.”

Xiao Liang patted his breastplate and said with a smile, "It has been replaced, and 300 defense points have been added."

Han Fei asked, "Brother, is there anything found inside?"

Lu Yang said: "Dead end, but there is a dark treasure chest and 6 Sartres."

"Who designed it is really unethical." Han Yu said, the dark gold treasure chest was too precious.

Lu Yang said, "Keep going forward."

Headed deep into the corridor, walked 100 yards into an open area, with six Sartres and a Sartre warrior in the middle of the six glowing pillars.

Lu Yang said, "It's the same, attack."

Soon, seven Sartres were killed and dropped a helmet.

Sartre Cold Helmet (Gold)

Level: 60

Defense: 72-98

Stamina: +67

Constitution: +66

Additional defense: +61 points

Lu Yang handed the helmet over to Xiao Liang. After Xiao Liang replaced it, his defense increased by more than 100 points, and his total defense increased by nearly 500 points, which greatly improved his defense ability.

“If a set of defensive equipment can be exploded, my defense can be increased by more than 1,000 points.” Xiao Liang said.

The player who published the Raiders in the last generation did not describe in detail what was dropped in it, but Lu Yang guessed that this may be mainly to drop defense equipment. If Xiao Liang can get a set, Lu Yang feels that he can take it directly. Take the team to level 60 copy of the difficulty to open up nightmares.

The requirement of the nightmare difficulty is that the armor of the anti-war must be above 4000, and now it looks very good.

“Keep going and see if it can burst in front.” Lu Yang said.

Across the six pillars ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ a three-way intersection appeared in front of it. Lu Yang vaguely remembered here, as if to complete a task, the speed would be much faster.

“Go to the left.” Lu Yang led the team into the first intersection, and at the end of the road an old humanoid undead appeared.

“Brave young man, could you please do me a favor,” the undead asked.

“boom”

There was a violent sound, and the entire underground palace shook, and a lot of sand fell from the gap in the ceiling.

Lu Yang said, "What's busy?"

The old undead said: "I was the one who made this tomb, but when I finished this tomb, I was killed here. My wife is next to me. Could you please help me hand this letter to me? he."

Lu Yang took the letter and said, "Sure."

The greatest sorrow in the world is here. Your lover is only one wall away from you, but you will never see him forever.

#### Chapter 579 - Abyss Demon

Xiao Liang, Han Ying, and others never refuted Lu Yang's decision and followed Lu Yang to another channel.

When I came to the end, she saw a female undead. She was not beautiful, but she was very gentle. She looked at the wall as if she was looking through the wall and saw her husband.

Lu Yang went to the female undead and said, "This is your husband's letter, and he asked us to give it to you."

The female undead turned her head, took the letter in surprise, and cried sadly after reading it, and kept crying for a long time without stopping.

"boom"

A purple boulder fell from the ceiling, less than 20 meters from Lu Yang and others.

Xiao Liang couldn't help but said, "Boss, are we still waiting?"

Lu Yang was also a little uncertain. While he was hesitant, the female undead looked up and took out a sheepskin letter from a dead bone behind him, saying, "Can you transfer it to him for me, then say I love him. . "

"Yes." Lu Yang took the letter and opened the hot and rushing towards the way back. Although the task was moving, it was too wasteful of time. After a circle, he returned to the male undead and gave him the letter. " This is the letter your wife asked me to pass on to you, and she said he loves you. "

The old undead cried after receiving the letter. Han Ying and Han Fei did not cry when they ran to Lu Yang.

Han Fei: "..."

Han Ying: "..."

Lu Yang: "..."

Han Sha said: "Bai has made me sad. The character who designed this plot is too lacking."

Lu Yang was speechless for a while. If he hadn't known the plot in advance, he would definitely take the team away. Who can stand the two people crying for so long.

The old undead seemed to feel that he had been crying for a long time, and said to Lu Yang: "Sorry, I haven't heard from my wife for too long, and I didn't hold back."

Lu Yang said: "It's okay, normal, is there anything else we need to do?"

“No.” The old undead suddenly gritted his teeth and cursed, “The \*\*\*\* who built this mausoleum killed us all, so don’t blame me. Listen, there is a small box on my body. There is a potion that can change everyone’s attack into chaotic damage and give it to you. “

When Lu Yang’s eyes light up, the chaos damage ignores the armor and magic resistance, which can greatly improve the speed of fighting monsters.

Han Fei immediately rushed to the corpse behind the old undead and took the chaotic mixture to Lu Yang.

Lu Yang click to use.

System prompt: You and your team members attack mode changed to chaotic attack.

The daggers of Han Fei, Han Yu, Han Sha and others glowed dark green, and the flame at the front of Lu Yang’s staff was green.

“Thank you,” Lu Yang thanked the dead.

The old undead said: “I should thank you, go, be careful of a monster inside, he has infinite resurrection ability, and we are killed by him.”

Lu Yang frowned. The monster was not mentioned in the Raiders.

“boom”

Another purple boulder fell.

Lu Yang said, “We continue.”

Back at the intersection, there was only one road ahead. When I walked into the intersection, there were no mobs all the way, all the way to the end of the road, a 5 meters tall, gray-blue body, mouth full of fangs, holding a large 8-meter long knife. There are a pair of huge meat wings on the back, and the lower body is like a lizard on all fours. The monster with a huge tail behind it appears in front of everyone.

Abyss Demon (boss)

Level: 70

Qi and blood: 000

Lu Yang said, "Let's go together."

Han Sha jumped behind the abyss demon, inserted a dagger into his back, and launched a sneak attack. A stun symbol appeared on the head of the abyss demon for 2 seconds.

"7610" (Sneak Attack + Agile Damage)

"The damage was so high for the first time," Han Sha said.

Each of them is fully equipped with a black baby dragon suit and black baby dragon accessories, as well as a black baby dragon double sword, totaling 7610 points of damage.

"I'm coming." Han Yu jumped behind the abyss demon for the second time and launched a sneak attack.

"15220" (Critical Strike)

The third one to jump over was Han Meng. When the attack triggered a critical strike, it also triggered a weapon special effect-the dragon slam, and an additional attack.

“22830”

Lu Yang said, “Let’s fight too.”

He just added 5 layers of burning to the boss, and raised a hand to hit a meteorite impact on the boss’s head.

“22580” (Critical Strike)

“7880” (Critical)

“7880” (Critical)

...

In less than 5 minutes, the 7 million blood Abyss Demon was killed on the ground, and a one-handed sword burst out.

Abyss Defense One-Handed Sword (Gold)

Physical attack:

Strength: +37

Stamina: +39

Stamina: +50

Additional defense level: +2

Lu Yang handed it to Xiao Liang and said, "Your."

Xiao Liang happily changed into a one-handed sword. The damage of this weapon is higher than the original, mainly to increase the defense level, which can reduce Xiao Liang's damage by an additional 4%.

With this equipment, Xiao Liang's ability to pull monsters will be stronger.

Lu Yang said: "It looks like the boss here is really a defensive suit, let's continue."

"Okay." Han Ying and Mu Yu said together.

The importance of the defense suit is known to everyone after the advent of the dungeon. Hellfire Lords who do not have the ability to ridicule cannot play the role of defense in the dungeon.

Passed behind the Demon Lord of the Abyss, and entered a quartet hall, each with a passageway on the front, left, and right.

Lu Yang remembers that the guards in the three forks need to be killed here, and the organs behind them can be opened.

"Divided into three groups, I, Han Ying and Han Fei each with a group to spread the attack." Lu Yang said.

"Yes."

After each grouping, Lu Yang took Han Yu, Han Meng and other five people into the left channel. At the end of the channel, there were 6 Sartres and a Sartre soldier at the door.

Lu Yang summoned the fire dragon in situ, summoning 30 fire dragons in succession, each of them was glowing with reddish green, which seemed very strange.

“I control one with sheep-changing, and Han Yu controls one with a frozen trap.” Lu Yang said.

Han Yu walked to the front 15 yards, placed a frozen trap in place, and shot an arrow at a Sartre on the right.

“Hatami ~”

Seven Sartres ran towards Han Yu.

Lu Yang’s hand glowed with white light and pointed to the leftmost Sartre.

“Change Sheep”

Sartre turned into a sheep ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and stayed in place for 30 seconds.

The right-most Sartre ran fastest, stepping on a frozen trap, covering his body with a layer of ice, and staying in place for 30 seconds.

“Flame Shock”

Lu Yang pointed at the Sartre warrior with a left hand, and a fire burst into his head.

“18686” (Critical Strike)

Sartre was dizzy for 2 seconds, and happened to be standing with the other four Sartres.

“Remnant Flame-Activated”

Lu Yang rushed to the Sartre soldier with a reddish light.

“Yan Yang Suo”

At the moment when the Sartre fighters and 4 Sartres launched an attack, 5 red chains were trapped in place and unable to move.

“Set fire Sartre soldiers.” Lu Yang said.

Chapter 580 - Xiao Liang

Han Meng and 4 other killers jumped behind the Sartre fighters to attack quickly. In addition, 30 fire dragons spit red green fireballs. The 1.5 million blood Sartre soldiers persisted for 5 seconds and were killed. Shoulder fell to the ground.

Han Meng picked it up and shared it with Lu Yang.

Sartre Defender Shoulders (Gold)

Level: 60

Defense: 56—88

Stamina: +77

Additional defense: +50

“Hatami”

The bundling time of Yan Yang Suo is about to end, and the four Sartre eyes are locked on the four people around Han Meng.

“Flame Storm”

Lu Yang pressed down with his left hand, black ripples appeared on the ground, a red-green light randomly lit, and four Sartres were stunned at the same time.

Taking advantage of this opportunity, 30 fire dragons sprayed large fireballs at the same time, and the red-green fireballs ignoring the magic resistance set fire and killed one Sartre at a time.

Six times later, the remaining six Sartres all fell to the ground, dropping two pieces of 50 silver equipment.

Lu Yang asked Han Meng to pick up the equipment, lead the team to the end, saw a stone slab, and stepped on it with one foot.

“boom”

The sound of friction from the rocks came.

“Let’s go back and see.” Lu Yang said.

Six people returned to the front of the stone wall, and another booming sound came. A round boulder in the middle of the front wall quickly slid to the right, revealing a gap.

Han Ying and Han Fei each led a team back to Lu Yang.

Han Ying said, "Brother, we're done, and a level 60 gold leg armor came out, defensive."

Han Fei said, "We also hit one, it was a belt."

Han Meng said: "We also hit one, it was the shoulder."

Lu Yang said, "It's all for Xiao Liang."

In this way, Xiao Liang's weapons and shields were all in place, and the armor was equipped with only hand guards, wrists and shoes, and accessories.

Lu Yang pointed at the entrance and said, "Come there."

After walking through the stone cave, the front entered a vast hall. There were 10 teams of Sartre and Sartre soldiers, each team was 7.

Behind the Sartre group, a distance of 100 yards, a giant black ball full of black and octopus-shaped head lies on the stage, with two turquoise eyes in the middle of his head, the upper part of the eyes is inlaid A gem with a strong green glow.

Inside the gem, there is a violently beating heart!

Lu Yang recognized it at a glance, pointed to his heart and said, "That is the heart of destruction."

Emerald-like gems dazzle with dazzling light.

Han Ying said, "I must get it."

Lu Yang released the fire dragon technique in situ, and released 60 fire dragons in a row. He said, "We don't have much time. Let's clean up together. You are ready. I will release the secondary forbidden spell."

"I jump in and try." Xiao Liang jumped into the Sartre strange group.

"Red Mist Bloodthirsty"

A mist of blood shrouded the surrounding 50-yard range, and 70 Sartres glared at Xiao Liang and rushed towards Xiao Liang, forming a circle with three layers inside and three layers outside.

"The Great Lord of Fire ..." Lu Yang uttered a spell.

Han Ying said in his mouth a spell of demon seeds planted into the body of the Sartre.

Ten seconds later, a large hole was broken in the cloud on the roof of the palace shed, and a reddish giant meteorite larger than the house fell into the Sartre group.

"26000" (Critical Strike)

More than 70 Sartres were stunned at the same time for 10 seconds, and 60 fire dragons aimed at Sartres attacked by Han Ying planting demonic seeds.

"8666"

"8666"

...

Half of the 10 Sartres with half of their blood remaining have died.

Ten black and green rays illuminate, and Han Ying planted 10 demon seeds planted in Sartre's body to explode, attacking all enemies within range.

"16760" (Critical Strike)

"7880"

"16780" (Critical)

...

All ordinary Sartres were killed, and the remaining 7 Sartre soldiers collectively lost 20% of their blood.

60 fire dragons spew flames at the same time, killing Sartre soldiers at a rate of 5 seconds, and when the third one is killed, the Sartre soldiers are resurrected.

Lu Yang threw the escape dagger to the Sartre soldier, and pointed his staff forward.

"Flame Storm"

Five Sartre warriors were stunned for 2 seconds.

After 2 seconds.

Lu Yang's mouth spelled out.

"Yan Yang Suo"

Five Sartre soldiers were trapped in place for 8 seconds.

The fire dragon vomited continuously, waiting for the end of the Yanyang cable time, leaving only three remaining Sartre soldiers.

“Hatami”

The three Sartre soldiers looked at Lu Yang and raised their long knife. At the moment of cutting, Xiao Liang roared.

“Red Mist Bloodthirsty”

Three Sartres were forced to attack Xiao Liang for 5 seconds.

At the end of 5 seconds, there are 2 Sartre soldiers left.

Han Sha and Han Meng flew behind the Sartre soldiers, stun the Sartre soldiers one by one, and 5 seconds later, a Sartre soldier died.

Han Yu jumped behind one of the remaining Sartre fighters and launched a sneak attack that stunned him for a few seconds. The fire dragon killed him.

Looking at the equipment in this place, Lu Yang raised his hands, and everyone raised their hands together.

“Snapped”

Everyone celebrated with high fives.

“The cooperation is beautiful.” Lu Yang said.

After half a year of rigorous training by Han Zhong, Han Sha's 12 little guys and Han Ying's three siblings finally came out, and they cooperated more and more in the game.

"If Master can see it, I will definitely be praised." Han Yu said.

Han Fei looked at Han Yu speechlessly, and said, "That cold face is strange, you can only blame you."

Everyone thought of Han Zhong's cold face and became speechless.

Lu Yang said with a smile: "Okay, look at the equipment, what's going on?"

Xiao Liang picked up a piece of equipment and said with a smile, "It's my golden boots."

Han Fei picked up other gold equipment and said, "Brother Xiao Liang's equipment is all there, including wristbands, hand guards, necklaces, rings, and accessories."

Xiao Liang was all dressed, looking at his defense, and said in surprise: "My armor has reached 4261."

Lu Yang said with a smile: "Yes, this defense is enough."

More than enough ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Such a heavy armored warrior is a bulldozer on the battlefield. Unless it is a mage professional attack, ordinary physical professions cannot even break defense.

Mu Yu came to Xiao Liang, knocked Xiao Liang's hard arm plate, and wrinkled his nose and said, "It's really hard."

Xiao Liang proudly said, "Next time we will form a team and we must make it to the final."

Mu Yu nodded.

Lu Yang said with a smile: "The last boss is left. Please follow me to see what this octopus is."

On the \*\*\*\* stage 100 meters away, the head of the octopus still lay there motionless, but stared at Luyang and others.

80 meters

When Lu Yang walked up to 40 meters away from the sacred platform, the octopus head suddenly floated from the sacred platform and became a huge octopus head with a diameter of 10 meters.
