Chapter 581 - Unknown demon

Unknown Demon (Lord)

Level: 60

Qi and blood: 25000000/25000000

Xiao Liang said, "I'll try it."

The Raiders of the previous life did not mention how the unknown demon killed, but only said the heart of destruction obtained after killing him.

Lu Yang said: "First back to the fire dragon, let the fire dragon attack."

As Lu Yang retreated to the front of 60 fire dragons, Han Yu raised his long bow and shot an arrow in the eyes of an unknown demon.

"Hello ~~~"

The stern roar sounded, and the octopus stared at Han Yu flying over, and at a distance of 30 yards, Xiao Liang jumped forward in front of the unknown demon.

"Red Mist Bloodthirsty"

The octopus head was forced to look at Xiao Liang, but did not use a physical attack.

“He won’t attack physically?” Han Ying asked.

Lu Yang shouted: “All offense.”

Twelve people, including Han Fei and Han Sha, collectively jumped behind the head of the octopus and attacked with all their strength. The blood of the octopus head dropped rapidly for a while.

18 people plus 60 fire dragons can kill more than 700,000 health every second.

The lord monster is not controlled by vertigo, but is controlled by special skills such as Red Mist Bloodthirsty. After 5 seconds, the octopus comes to his senses, looks at a circle of humans around him, and screams angrily.

A white iris centered on the head of the octopus, quickly radiating 50 yards around.

Lu Yang opened his eyes fiercely and shouted, “All back.”

Han Fei and others immediately stepped back, but did not wait to run outside the aperture, a white light lit up.

Xiao Liang, Han Sha and others felt that the soul had left the body and disappeared instantly.

System prompt: you are dead!

Lu Yang watched, and the people around him were killed in such a way that he didn’t even have time to react.

The eyes of the unknown demon locked Lu Yang.

“Han Ying, use hellfire soon.” Lu Yang shouted.

Han Ying raised his left hand, and the green beads rose to the air and smashed down. The devil was in the middle, but he didn't wait for the Lord of Hellfire to stand up and instantly turned into a pile of gravel in the aperture.

“What skill is this?” Han Yu said in surprise.

Lu Yang ignited a flame at his feet and said, “You step back, I'll pull him to run, and everyone else should not be resurrected.”

Each person is tied with a soul stone made by Han Ying, and has a chance of resurrection.

“OK.” Han Sha typed.

The iris on the octopus head disappeared for 3 seconds and continued to rush towards the landing sun.

Lu Yang did not dare to enlarging, and ran back quickly. After turning on the hot speed, he moved at a speed of 285% of the normal player, and the speed of the octopus head was 200% of the normal player. He was almost twice as fast as the octopus head.

60 fire dragons continued to attack, the octopus's head dropped blood quickly, and when Lu Yang ran, there was a path of fire underneath, which also caused damage.

If it is consumed normally, it will also consume energy, but since the automatic octopus head left Shentai, the underground palace continues to vibrate and it seems that it can not be maintained for a long time. Lu Yang decided to try it once.

He stopped and stood opposite the head of the octopus, the staff pointed at the eyes of the octopus, and the mantra continued to chant.

“Meteorite Impact”

Giant meteorites fell from the sky and hit the head of the octopus.

The head of the octopus flew to 25 yards from Lu Yang and stopped, his eyes transformed into colorful light.

Lu Yang only felt dark before his eyes.

“solution”

Lu Yang launched the badge to release the control effect, and just came to his senses. Under his feet, a 30-yard diameter aperture appeared around him, and it was gradually expanding.

“Remnant Flame-Activated”

Lu Yang’s body flew to the side of the octopus head with a reddish light, and he just flew out of the aperture range.

The aperture emits pure white light.

The head of the octopus saw that Lu Yang had run 50 yards away, and his eyes gradually became cross-eyed.

Lu Yang felt the troops and stared at the head of the octopus. At this moment, two black lights converged in front of the head of the octopus, lasing towards the landing sun.

Lu Yangmeng’s short body avoided this attack.

He understands that there are currently three ways of attacking the octopus head. The first is to focus on a certain target and release a white circle. The players in the circle will die.

The second trick is to release control skills at close range.

The third trick is to release the black light from a long distance. It is estimated that the hit is also dead. I have just been controlled and I was attacked by the aperture. It should be because of the octopus's blood. His blood was just 20% killed.

Lu Yang said: "Resurrection, all offense."

Fifteen people including Han Fei and Han Sha were resurrected and attacked the octopus head together.

Lu Yang was attacked by 60 fire dragons, causing the octopus head to chase after landing, but Lu Yang kept a distance of 50 yards at all times to prevent the octopus head from approaching.

Soon, the blood volume of the octopus head dropped by another 9%.

At the moment when it was about 10%, Lu Yang shouted, "Xiao Liang mocks."

"Red Mist Bloodthirsty"

Xiao Liang's body exuded red blood mist, and the head of the octopus was forced to turn his eyes to Xiao Liang for 5 seconds. At this time, the blood volume dropped by more than 10%.

By the end of the Red Mist Bloodthirsty, the octopus head did not use taunting skills.

Lu Yang shook the staff firmly. He knew he was betting right, and shouted, "Everyone be careful, he may randomly control you."

The octopus head suddenly stopped in place, aimed at Xiao Liang, a colorful light flashed, and then the octopus head stared at Xiao Liang.

A black light passed through Xiao Liang's body.

System prompt: Xiao Liang is dead!

Lu Han said, "Han Fei uses a goblin pacemaker."

Han Fei quickly came to Xiao Liang's side and took out a goblin pacemaker and aimed at Xiao Liang's heart.

"Zizi"

Xiao Liang resurrected in situ and said, "I didn't know what happened and I died."

Lu Yang said: "Don't be distracted, his blood will soon drop to 60%."

After 20 seconds, the blood volume of the octopus head dropped to 60.1%.

Lu Yang shouted: "Xiao Liang mocks."

Xiao Liang roared, launched the Red Mist Bloodthirsty, and forced the octopus head to attack.

After waiting for 5 seconds, the head of the octopus seemed to be stimulated, looked around, his eyes turned into a spiral shape.

Lu Yang felt bad and shouted, "Everyone retreats."

As soon as Han Fei and Han Sha were about to run, the head of the octopus leaped high, his eyes looked downward, and a one-meter thick spiral of light emerged from the two eyes of the octopus. After hitting the ground of the hall, it orbited the ground. stand up.

Han Fei and Han Sha couldn't escape being hit. [www.mtlnovel.com](http://www.mtlnovel.com) ~ The two died instantly on the ground.

Lu Yang looked up at the head of the octopus, and found that the eyes of the octopus were strange, and he raised his hand to hit a blast.

“38688”

Lu Yang's eyes lit up and he said, “Han Ying and Han Yu, aiming at his eyes and hitting them twice as much.”

60 fire dragons collectively aimed at the eyes of the octopus head, hit 60 flames at the same time, and the octopus's blood volume dropped sharply by 10%.

The octopus plays a scream of anger and anger. After insisting on three flames, the skill ends. The head of the octopus falls in front of Lu Yang, and his eyes show colorful lights.

“flicker”

Lu Yang had been guarding the skills of the octopus for a long time, and his body white light jumped behind the head of the octopus, avoiding this attack.

“Live to save people, quickly.” Lu Yang shouted.

Mu Yu and Han Yu and others immediately rescued five people including Han Fei and Han Sha using goblin pacemakers.

## Chapter 582 - Acid venom

Lu Yang said, "Continue to fight."

After the resurrection, Han Sha and others immediately pounced on and continued to attack. In the possession of the goblin pacemaker and soul stone, each of them was equivalent to three lives.

The octopus head has less than 30% of his blood left, because Lu Yang and others are playing too fast, and it is not time for violent time. The octopus head can only use Lu Yang to attack with black light.

Lu Yang shook himself away from three black rays in a row, and the octopus head's health decreased to 10%. With Xiao Liang's roar, the skills of the octopus head were beaten back again.

"Space chaos." Han Fei opened a big move, madly killing the space in the eyes of the octopus head.

"Inflammation"

Lu Yang turned into a flame demon, with an octopus head in his left hand.

"Destroy the Sky"

Countless red flames in the sky fell on the head of the octopus.

After 5 seconds

The head of the octopus was hit by Lu Yang's annihilation fire and fell to the ground.

“Huh, it was finally killed.” Han Ying said.

“Take down the gem,” Lu Yang said.

Han Ying immediately walked into the eyes of the unknown demon, took out the green gem with both hands, and said, “Is this the heart of destruction?”

Lu Yang said, “I hit the gem with a white jade skull.”

Han Ying took out his skull and smashed it on the emerald.

“Snapped”

The jewel shell shattered, a beating heart floated up, and Han Ying disappeared instantly.

“Well, what about my sister?” Han Fei asked.

Lu Yang said: “Like me, every player with a demon heart will have a special space. He should go into the space and look at the explosive equipment first.”

Han Meng said: “Brother, here is a skill book for Paladins, the gods bless.”

The Gods Bless

Class: Paladin

Scope: whole group

Cost: 1000 magic and 1 mark of divine grace

Description: Add 100 points to all members of the team for 1 hour. It will disappear after death.

Lu Yang said, "Keep this."

Han Yu said, "Here is a formula, acidic mist."

Lu Yang's eyes brightened and he took the formula and said, "Is this luck so good?"

Acid Poison: Reduces the target's armor by 3000.

This recipe is one of the rarest recipes in the whole server, and it can almost hit Lu Yang at level 60.

"boom"

The underground palace shook even more violently, and the boulder on the ceiling fell down piece by piece.

Lu Yang said: "No, this palace is about to collapse, we must hurry out."

"My sister wants to do it." Han Fei asked.

Lu Yang said: "I contacted her. She is in the space and I asked him to return directly to Hannibal."

"Oh."

Just as Lu Yang was preparing to take the team, all of a sudden, the unknown demonic body under their feet slowly expanded.

Lu Yang said, "Fast down."

The party quickly jumped off the back of the unknown demon.

In less than 10 seconds, the unknown demon swelled to its original appearance, and the dark purple runes radiated around it, and at the same time shot into the body of the unknown demon.

"Scream"

The unknown demon opened his eyes and revived.

Unknown demon (boss)

Level: 60

Qi and blood: 5500000/550000

"Well, he's alive."

"Blood and blood seems to be a third off."

...

Lu Yang looked at the unknown demon carefully, and found that his blood volume had really decreased. He said: "It is estimated that this is the undead creature said by the old dead. he."

“Okay.” Han Fei and Han Yu knew they couldn’t help Lu Yang here, and immediately led the team to retreat.

Lu Yang is in the state of inflammation, all non-forbidden spells are released without cd, and the hot speed under his feet is turned on. Lu Yang and the unknown demons circle the field.

60 fire dragons have not disappeared, and the unknown demons are set on fire together. It may be that the removal of gems has had too much impact on the unknown demons, and the blood volume has dropped by 50%. He has not released the white aperture.

...

10%

Lu Yang stared at the unknown demon tightly, for fear that he would release some special skills and suddenly kill himself, but until the health was zero, the unknown demon did not release a white aperture.

System prompt: you killed the unknown boss

A golden scroll fell out.

Lu Yang walked over to pick up the scroll.

Sartre Warrior Legplates (Gold)

Lu Yang was a little surprised and said, "No, you can still drop things, wouldn't this lord be able to brush equipment infinitely?"

Lu Yang was not convinced and stayed in place to continue to wait.

Twenty seconds later, the unknown demon was resurrected, and Lu Yang killed him and dropped a Sartre defensive belt (gold).

"boom"

A purple boulder fell from the ceiling and smashed not far from Lu Yang.

Lu Yang picked up his belt and sighed, "Unfortunately, if I can kill you a few more times, I can come up with a set of equipment."

Obviously, the designers of the underground palace did not expect that players like Lu Yang would appear. With so many special skills, one can quickly kill unknown demons. The original way they designed was to prevent players from escaping. On the one hand, there are unknown demons chasing behind, but ultimately they can run out only two or three.

"Brother, run back, the entrance will collapse." Han Fei said in a message.

"I'll be back here." Lu Yang turned and ran towards the road. There was a blazing rapid increase. Lu Yang quickly ran back to a promenade in front of the entrance. Looking at the treasure box in the left promenade, Lu Yang thought about it.

"Have a fight, bet on it." Lu Yang left a shadow of flames in place and fired a second flame shadow towards six Sartres.

"Set fire"

A reddish light flashed across the corridor, and Lu Yang appeared in the middle of the six Sartres.

“Yanyang cable.”

Six Sartres were trapped in place. Lu Yang opened the dark gold treasure chest with his left hand and picked up the contents and put them in his backpack.

“activation”

The reddish light brought the landing sun back to the intersection.

“boom”

A huge rock hit the entrance of the promenade, and Lu Yang secretly ran out of the underground palace quickly.

Han Fei was relieved to see Lu Yang come out and said, “Brother ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ You scared me.”

Lu Yang took out two pieces of gold equipment and said, “I can’t think of the unknown demon who can die after being resurrected. I got two pieces of equipment. Unfortunately, the underground palace collapsed too quickly, and I couldn’t kill him more times.”

“It’s a pity.” Han Fei said with regret.

Lu Yang opened his backpack and took a look. He was curious what he had just got, and looked at the last box in the inventory.

Divine Grace

Occupation: Pastor

Scope: whole group

Cost: 1000 magic + 1 divine mark

Description: Divine grace is added to players within 50 yards, increasing overall strength by 200 points.

### Chapter 583 - Destroyed Heart

Lu Yang said: "It looks like we are lucky today. The next time the underground palace gets so many good things, go back to the city and see what effect Han Ying's heart of destruction has."

"My sister must be particularly powerful this time." Han Fei said.

Lu Yang rubbed Han Fei's little head, took it out of the city roll, and flew to Hannibal City with a group of little guys.

In a hidden three-story building in Xicheng District, Han Ying is waiting for Lu Yang's arrival.

The knock sounded.

After Han Ying opened the door, they took Lu Yang and Han Fei and entered the living room.

"Brother, why did you let me come to this place?" Han Ying asked curiously.

Lu Yang said: "There are many people in the guild. I'm afraid it will spread to Huang Xiang's ears."

This place was purchased by Lu Yang as a place to talk about hidden things. The whole guild didn't know it, only Lu Yang knew it.

Han Fei asked with excitement: "Sister, how is the heart of destruction and what skills have been given."

Han Ying said: "It's still a level 1 destruction heart. It has no effect, but only adds some attributes."

Lu Yang asked: "Any hints?"

Han Ying shook his head and said, "No."

"Don't worry, I'll take you one copy at a time, starting with a copy at level 0," Lu Yang said.

"How many copies are there, will it take too long?" Han Ying said.

Lu Yang said with a smile: "It's not that difficult. Generally, the flames released by the boss in the copy are green, and the material of the heart of destruction should be destroyed."

Han Ying said, "It makes sense."

Han Sha said, "Brother, we can't go, it's time to exercise."

Lu Yang said, "You go exercise first."

Hansha 12 players quit the game.

Lu Yang said: "Let's go, starting from the evil fire cave, seeing this name is like a material with a heart of destruction."

Han Ying, Han Fei, Han Yu, Xiao Liang and Mu Yu laughed.

Fly to No. 16 Novice Village in Hannibal City, Lu Yang and his team replaced the Red Flame Lion and ran to the entrance to the copy of the evil fire cave.

At this time, there are still a lot of players here, seeing a team of players riding the Red Flame Lion, the trumpet rushed up.

“Brother, please bring.”

“Boss, ask for a copper coin.”

...

Lu Yang looked at the words of these trumpets and felt very kind. He led the team to the difficulty stone and chose epic difficulty.

“Come on, let’s get in the copy.” Lu Yang said.

A group of people walked into the copy, and in an empty cave, a group of little evil spirits were dancing by a campfire.

Minions (elite)

Level: 3

Qi and blood: 2000/2000

“There is really little blood,” Han Fei said.

Lu Yang summoned the Phoenix and said, "I tried to kill them but it took a lot of effort."

"Neighing"

The Phoenix screamed and flew over a group of little evil spirits, and a large fireball spewed out of the mouth, right in the middle of the little evil spirits.

"5656"

...

A group of little bad monsters are all dead!

Lu Yang said, "Let 's go on and go straight to the ultimate lord."

Killing various level 3 elites and bosses all the way, less than 5 minutes, the group came to the location of the final lord.

Felfire Mage (boss)

Level: 8

Qi and blood: 50000/50000

Lu Yang raised his hand with a meteor impact and a Pyroblast. The Felfire Master died!

Han Ying quickly walked to the evil fire mage and got a black log stick with green flames.

The stick is only 10 centimeters long but emits a lot of evil fire energy, Han Ying said, "That's it."

Lu Yang said, "Let's move on, the next copy."

Destruction Heart is crafted in the same way as Demon Heart. Each level requires several materials.

Lu Yang took Han Ying for three hours to find all the copies with the evil fire damage, and raised the level of destruction to level 3.

Han Ying returned to the Temple of Destruction and returned to Lu Yang after the synthesis, saying, "Brother, I have become a lot stronger this time."

Han Fei asked, "What skills are there?"

"Look." Han Ying's body was hidden into the darkness, and he appeared 30 yards away in the next second. He said, "This is a plane shuttle. I can pass through the current plane, hide into the plane of destruction, and then go around Appears anywhere within 100 yards. "

"Good," Lu Yang said.

"And this." Han Ying's body was wrapped in green flames and turned into a green hair with wings behind her, the most beautiful destroying queen.

"In this state, all spell damage is increased by 20% for 30 minutes." Han Ying said.

Lu Yang said, "Can you catch creatures on the destruction plane and become your summons?"

Han Ying nodded and said, "I have this ability."

Lu Yang said, "Don't use it urgently. I'll help you catch a three-headed dragon when you get to the next level."

“Well, okay.” Han Ying said.

Han Ying can bring the team to the destruction plane for 30 minutes if he wants. There are various beasts on the destruction plane to choose from, but the prerequisite is that the warlock has the ability to capture.

At present, Han Ying’s strength is insufficient, and Lu Yang and Han Fei have good strength, so they cannot go for the time being.

“You go back and rest for a while, I’ll do something.” Lu Yang said.

After sending Han Fei back to Hannibal City, Lu Yang flew to St. Gall using the back to the city. After finding a place where no one changed his camouflage, he walked into the back of the Song of Blood and Fire drugstore.

On the top floor, Lu Yang saw Jin Buhuan in the office.

“Boss, you haven’t been here for a long time.” Jin Buhuan said excitedly when he saw Lu Yang.

During these days, Lu Yang and Jin Buhuan have been communicating on the phone.

Lu Yang said, “Is there any problem in business recently?”

Jin Buhuan said, “There has been a problem with the medicament recently. Red Moon City Master Ma Lizhe and Liu Jie both got Goblin formulas. Our medicaments are no longer unique and the price competition is somewhat fierce.

In the twelve main cities of the human race, Ma Lizhe laid 12 large drug stores at the same time, the medicine of the goblin family.

Liu Jie also sent someone to set up a pharmacy store, the same \* goblin pharmacy.

The three potions are also sold, and the player's choices are enriched. Some major guilds even use this requirement to discount, so it is a headache to not change the gold.

Lu Yang took out the formula of acidic toxic mist and put it in front of Jin Buhuan ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and said, "Look at this."

Jin Buhuan took a look at the acid poison mist formula and said in surprise: "Boss, this formula is a treasure, lower the physical defense by 3,000 points. This is great."

"Tell the presidents of the Great Guilds to come to us if they want to buy, or refuse to sell," said Lu Yang.

"This time our profit is back." Jin Buhuan said.

Lu Yang smiled and didn't speak.

System prompt: Your friend Han Sha is online

...

A series of 12 tips, Han Sha and other 12 little guys went online collectively.

"Brother, we are back," Han Sha said.

"I'll call you here." Lu Yang closed the dialog box and said to Jin Buhuan, "I'm gone, and I'll contact me in time."

## Chapter 584 - Kascar School of Magic

Leaving from the pharmacy, Lu Yang asked in the simulation group: "How are the copies playing, have there been nightmares?"

Xia Yuwei said: "The copy is too difficult. The difficulty of producing silver equipment is still good. We can't even push the mobs in the epic, let alone nightmares."

If you want to make a copy, you need to have a career in defense. After the player passes level 30, the defense equipment is very rare. No military uniform or boss is produced. Only the lord has a chance to deal with it. For ordinary copies, elite players in the guild can rely on the means to fight the past, but in the epic version of the official regulations must fight the hardware, anti-war can not fight without equipment.

The White Lion said: "This is me too. The defense can't bear the blame. The third child's ordinary attack power in the copy of the Battle of Lokod is definitely over 10,000."

The Battle of Lokod is a copy of 100 people in level 40. Not only the White Lion could not fight, but the heads of the army, such as Zhuojiu, Sun Yu, and half-loving half-life, did not.

Lu Yang watched the complaints of the people secretly laughed. Not only did they not call them, each studio and major guild suffered a big loss here, and the entire server was complaining.

Players think that the official is a good intention to allow players to quickly get a copy of the equipment, but in fact is to delay everyone's upgrade speed, so that players put more energy into the copy.

If you want to get the equipment, you must have first-class operations, the second must have a sufficient understanding of boss skills, the third must have a very good cooperation, and the fourth must have good equipment.

Not to mention the first one, only the second one, which did not die for a week in the boss, absolutely can not understand the full skills and play of the boss.

Each boss in the copy will explode all the equipment required by the 9 major professions, but the group must have 80 player equipment to meet the requirements, otherwise, don't think about playing.

In the last life, players from all over the world were tortured by copies, and it took more than a month for players to find a way to crack. It happened that Lu Yang was very skilled in this method.

Lu Yang already knows that Liu Jie is making a comeback, and Merritt's Quartet Alliance is also about to move. The Black Wolf Fortress and the Blood Wolf Fortress are also looking for a sneak attack. In this case, Lu Yang is prepared to take advantage of this time of panic Give each of them a big gift.

"All the legions gather at the gate of the copy of the Kathmanka School of Magic at level 60, and I will take you to make a copy." Lu Yang said.

"Ok."

Lu Yang read the spell and flew back to his demon temple. He found 17 10-level defensive gems next to the altar, took out the city roll and flew to Hannibal City, and ran to the hidden place in the west of the city.

At present, the biggest expense of the Jagged Brothers League is on the gemstones. Lu Yang has been asking Tu Feng and Mu Yi to purchase gemstones in the 12 main city auction houses of the human race and the beast.

The jewel master in the guild is responsible for synthesizing gems of level 1 to 5, and the subsequent synthesis is done by Lu Yang himself.

The more the game progresses, the greater the dependence on gems. If a player has no gems in his whole body at level 60, it is basically a junk. No matter how high the skill is, he can't beat the opponent of high-end gems.

At the door, Lu Yang looked at no one left and right and entered the room. Han Ying, Han Fei and others were chatting with Han Sha.

“Brother, you’re back.” A bunch of little guys stood up and said.

Lu Yang nodded and said to Xiao Liang, “Come here and give you something good.”

“What is it.” Xiao Liang came curiously.

Lu Yang put 17 defensive gems in front of Xiao Liang and said, “All are inlaid into the equipment.”

“10 defense gems, 17!” Xiao Liang said in surprise.

Han Ying asked in surprise: “What’s your defense now?”

Xiao Liang said, “4670 points.”

“Isn’t that adding these 17 gems has 6710 points of defense,” Mu Yu said.

“I don’t lose blood even if I hit Xiao Liang with a backstab.” Han Sha said.

Lu Yang said with a smile: “This is not enough. We will have to face the lord monster in the copy. The damage is more than 10,000.”

Xiao Liang nodded his head clearly, inlaid the gem on the equipment, and said, “Boss rest assured, I must resist the blame.”

Lu Yang said, “It’s okay if I can’t carry it with you, let’s go.”

In the new expansion of the server, the Undead formally owns its own country, the Kascar School of Magic, located at the border of the Undead Kingdom, and was destroyed by the plague emperor Prince Volakan.

All the teachers and students in the Academy of Magic died, and some of them were converted into undead mages, and the eternal prince guarded the border for Prince Volakan.

After Lu Yang and his team met with Zhuoju and others, he rode the Red Flame Lion for more than three hours before reaching the border.

Xia Yuwei said: "Why is the copy getting farther and farther, and too much time is wasted on the road every day."

Lu Yang smiled and didn't answer. In fact, he had already planned to build a fortress in the wild, but he didn't think about time.

"I'll go and open the copy." Lu Yang came to the copy of Shimen, clicked to select the difficulty of the nightmare, and said, "Let's go in."

"Oh." Everyone walked into the copy together.

The system prompts: You have entered the Kascar Magic School of Nightmare difficulty!

The White Lion looked at Lu Yang in surprise and said, "Boss, you have chosen the difficulty of nightmares. We are struggling with difficulties."

Lu Yang said: "Don't be surprised, believe me, making this copy is easy."

People like Zhou Tianming and White Lion are still not convinced.

After a little shock, Xia Yuwei said, "Be accustomed. From the beginning of this game, the boss has never played a copy of other difficulty. It has always been the hardest one."

Lan Yu nodded and said, "We have been playing epic books since Level 3 without equipment."

Everyone: "..."

Playing an epic at level 3 is unthinkable for anyone present.

The White Lion asked, "Did you hit it?"

Lan Yu said: "Even the hidden boss has hit it ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Boss, you are really strong." White Lion said.

Lu Yang smiled and took out a skill book from his backpack and gave it to Lan Yu: "It's over to you."

Lan Yu took the skill book and said in surprise: "Divine grace, the whole group plus 200 physical strength, and such skills."

Lu Yang took out another book and gave it to Zhuo Jiu Qing Duan, saying, "This is for you."

Zhuoju looked at the description of the skill book and said in surprise: "Add 100 points to all attributes?"

At present, the ability to increase attributes is almost invisible, because the effect of attribute additions on players is very large. Take Xiao Liang as an example. His gold equipment attributes plus his attributes add up to more than 2100 points. Divine grace and gods bless However, the increased attributes are 700 points, which is a full third.

## Chapter 585 - Cemetery hall

Lu Yang replaced the Hertos suit and the magic wand and handed it to Lan Yu, saying, "Get up, Lan Yu eat the Gulu mixture again, and add defense to Xiao Liang."

"Okay." Lan Yu took over Lu Yang's equipment and even ate more than 20 mixtures to become the King of Gulu, using Goblin Guardian to add more than 1,000 points of defense to Xiao Liang.

Zhou Tianming looked at Xiao Liang, and found that the equipment he wore today was unusual, and asked curiously, "Boss, how much Xiao Liang's defense is now."

Lu Yang looked at Xiao Liang.

Xiao Liang said, "Uh, my defense is now 7690."

Everyone: "..."

The white wolf said excitedly, "How did you do it, so high?"

Xiao Liang's defense is now almost twice that of White Wolf's attack.

Xiao Liang said with a smile: "Just hit a set of gold defense equipment and gold defense jewelry at level 60, and hit 17 defense gems at level 10."

The white wolf licked his lips and said, "Serve."

Xiao Liang's own Iron Wall ability reduces physical damage by 50, and the Shield Wall ability reduces physical damage by 60 for 10 seconds. He also has taunt skills to increase defense by 1000 points for 5 seconds. The current Xiao Liang can be killed alone. A physical army of 100,000 people has no problem.

Zhou Tianyan asked, "How much blood do you have?"

Xiao Liang said: "In the whole state, 38,328 points of blood."

"Why so many?" Zhou Tianyan asked in surprise, even if a full 60 level gold equipment can have more than 20,000 blood, even if it is a lot, because the whole body is a defense gem.

Xiao Liang said: "I have an ancient beast portrait. When I reach level 60, there is an extra effect that adds 10,000 blood. At 30, there is another special effect that adds 3,000 blood."

Mao Qiu said: "I feel we are very easy to push this 60-level copy, it seems no problem."

Lu Yang said with a smile: "I must have a way to fight you when I bring you, follow me, push out this copy together, and try to explode a set of defense equipment."

There is no hesitation of people such as Zhuojiu and White Lion. Obviously, Xiao Liang's equipment has reached the top level of the full server. If they can't even push them, no one can beat them.

"I'm going to blame." Sun Yu said.

The copy of the Kascar School of Magic is a copy of a hundred people. The entrance is very huge. The square in front of the door is tens of thousands of square meters. Countless zombie students wearing magic robes roam the square.

Kascar Magic Apprentice Elite

Level: 60

Qi and blood: 66000006600000

Lu Yang said: "20 quotes at a time."

"Okay." Sun Yu fired three arrows in a row, attracting 20 zombie apprentices accurately.

"Ga"

The magic apprentice rushed towards Sun Yu, who turned and ran backwards.

"Ancient Beast Transformation"

Xiao Liang turned into a monster with a height of more than 2 meters, his blood volume soared to more than 30,000, watching the apprentice rush to himself, Xiao Liang rushed up to the apprentice in the middle.

"嘭"

Xiao Liang collided with a zombie apprentice.

"Red Mist Bloodthirsty"

The blood mist instantly spread to the surrounding area of 30 yards, and 20 zombie apprentices stared at Xiao Liang with blood-red eyes at the same time.

"Ga"

Twenty zombie apprentices surrounded Xiao Liang instantly, sharp claws frantically Xiao Liang's armor.

“Red Mist Cyclone”

The blood-red mist swirled wildly, and 20 zombie apprentices around Xiao Liang were attacked by blood mist at the same time.

“5006”

“5008”

“10016” Critical Strike

...

Although the trigger chance of Red Mist Whirlwind is less than 20, but so many people attack together, Red Mist turns at least 2 times per second.

Lu Yang and others stood on the sidelines, clearly seeing that the zombie apprentice’s blood volume was decreasing rapidly, and Xiao Liang himself lost less than 20 points of blood each time he was attacked.

“It’s too strong, it’s too strong,” said Zhuoji Qingli.

Lu Yang threw a bottle of magic sound into the strange group and said: “All attacks, don’t care about hatred. I don’t think we can fight Xiao Liangduo.”

Everyone: “...”

If Xiao Liang wants to kill Lu Yang, it is a matter of roaring in the crowd. When it comes to the power of group battles, Xiao Liang is stronger than Lu Yang.

Twenty seconds later, the zombie apprentices were all killed, and a piece of silver equipment fell to the ground.

Khaskar Magic Robes Silver

Level: 60

Defense: 5666

Intelligence: 38

Magic damage increased: 169

Lu Yang said: "It's too garbage, don't put it in the guild warehouse for decomposition."

"Okay." The muddy wine put the materials in the backpack.

Lu Yang said, "Continue."

Sun Yu ran to the front to pull the monsters. After pulling 50 waves of monsters in a row, the monsters in the square were cleaned up.

"With Xiao Liang's defensive power, we should have no problem pushing this copy off," said Zhuojiu Qingyan.

Generally speaking, the boss of a copy is between 2 and 3 times the damage of the mobs. Elite zombie apprentices hit Xiao Liang only to lose a dozen points of blood. The boss damages up to 20,000 points. Weaken the general damage, up to about 6000 damage. With the blood of three priests, it can be easily added.

"Hey, this is a copy of the nightmare difficulty. Maybe I can get a lot of dark gold-level equipment." White Wolf said.

Lu Yang laughed from the bottom of his heart. He didn't want to bring them here to play equipment, and said, "Let's go."

Across the square and along the promenade on the right, Lu Yang came to a strange house.

There are many gray-white stone pillars around the house. Each pillar is 2 meters thick and 10 meters high. The house in the middle of the pillars is made of gray rock. Go up to the entrance.

"Where is this?"

"It looks horrible." Han Liu frowned.

Lu Yang smiled, took the lead and went up the stairs to enter the hall. Just entering the door, it was a 30-step staircase.

The space on the left and right sides of the stairs is very narrow, only about 1.5 meters, and three people wearing armor feel crowded when walking side by side.

Going down the stairs, it is a huge underground space.

System prompt: You have found the graveyard hall!

Directly in front of the hall ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ A group of zombie apprentices wandering around. Behind the apprentices are 10 zombie mages wearing gray robes and holding skull scepters.

Zombie Mage Elite

Level: 60

Qi and blood: 66000006600000

Behind the zombie mage, there is a huge flesh-and-blood monster with a height of about 5 levels. His body seems to be combined with various monster blood. The left side is gray and the right side is white. Each of the three heads is different In appearance, the first is a crocodile, the second is a wolf, and the third is a bird.

“What kind of monster is this, disgusting.” Lan Yu said.

“Boss, shall I go?” Xiao Liang asked with a determined expression.

Lu Yang smiled and shook his head: “Don’t worry, I’ll tell you how to fight.”

Chapter 586 - Spam bug

“Is there anything special?” Xia Yuwei asked.

“Of course, clean up the zombies first.” Lu Yang said.

After Sun Yu pulled the zombies to Xiao Liang, all the people worked together to kill the zombies apprentices, leaving only 10 skeleton mages and 1 blood \* monster.

“The skeleton mage and the blood \* stand together too close. If you want to kill the skeleton mage, you will definitely be disturbed.” Sun Yu observed for a moment.

“With our current output, the skeleton mage cannot be dropped in seconds.” White Lion said.

Only Xiao Liang can resist the monster, and there are 11 monsters. The positions are scattered. It is impossible for Xiao Liang to pull all of them. Also, the skills of the skeleton mage are unknown. However, Xiao Liang must be seconds.

“Boss, is there any good way to do this?” Bitter Ai asked for a long time.

Lu Yang said: “You have found no problem, the size of the blood hehe seems to be unable to get out of the gate of the cemetery behind us.”

The crowd looked back at the staircase promenade, and looked at the volume of the suture monster again.

The white lion said, “It seems really difficult.”

Lu Yang said, “You exit and jump to the pillar at the door. I lead the mage out to see if I can kill the mage.”

“Okay.” White Lion and others quickly walked out of the cemetery, and each tried to jump to the surrounding pillars.

After Lu Yang and other Jiang Ze sent news, flames erupted under his feet, and a burst of flames was raised on the skull of a skull mage.

“16688” (Critical Strike)

The skull mage’s head slammed back, and after taking a step back, two green flames burst out in the two eye sockets.

“Ga ~ Ga ~”

10 Skeleton Mage and Blood \* Monsters were stunned at the same time and rushed towards the landing sun together.

Lu Yang quickly ran out of the hall of the cemetery to the outside, threw the escape dagger and landed on the stone pillar where Lan Yu was located.

Ten skeleton mages followed the landing sun and ran up the stairs and rushed out of the gate of the cemetery. When the \*\*\*\* monster rushed to the stairs, they were stuck in the middle of the stairs.

“Roar!”

The ten skeleton mages seemed to be bound by a rope, and they could no longer take a step forward when they rushed out of the gate of the graveyard.

“Ga ~ Ga ~”

Ten Skeleton Mage rushed to the ground and opened their mouths and growled. They were 51 yards away from Lu Yang on the stone pillar, just beyond their maximum attack distance.

“They seem to be trapped and can’t hit us.” Lan Yu said.

“What shall we do now?” Xia Yuwei asked.

Although they couldn’t beat them, only Lu Han, Han Yu, Sun Yu and Mao Qiu could shoot at the skeleton mage, and the output was too low.

“Brother, can I fight?” Han Yu asked.

As soon as the words fell, the scepter in the hands of 10 skeleton mages glowed green and hammered the ground heavily.

Within 500 yards of the stone pillar, turquoise smoke lit up. When the smoke was cleared, more than 500 skeleton knives stood up.

Skeleton Swordman (Elite)

Level: 60

Hit points: 1000000/1000000

“The number of these axemen must be thousands.” Said bitterly.

The stone pillars were densely packed, and they could not be counted at all. Everyone took an axe, walked under the stone pillars, and stacked one by one, as if to climb up.

Lu Yang dropped the magic sound and broke the defense, saying, “Kill the skeleton first.”

The crowd nodded, and they threw their magic sounds together to output them, and soon, the scarcely-killed skeleton swordsman was killed in pieces.

System prompt: you have 10186 experience

...

“Experience is so high!” Xia Yuwei said in surprise, they are a team of 23 people, and it should reasonably be very thin.

Lu Yang said, “You don’t need to be surprised, don’t forget, we don’t have much experience with this copy of the nightmare difficulty we played.”

The crowd reacted, and that was really the case.

“I don’t know if these skeleton mages can summon a few waves of skeletons. If they can be summoned all the time, upgrading here is also good.” Zhou Tianming said.

Lu Yang laughed from the bottom of his heart, and his purpose was here. There is a bug in this copy. Skeleton Mage and Flesh have a traction chain.

The original intention of the original official design is that if someone wants to pull out the skeleton mage one by one to kill, then it will definitely lead to other skeleton mages and blood \* to blame, in order to cause difficulties for players.

The narrow position of the doorway is also to prevent the player from escaping, forcing the player to play the boss as hard as possible. However, the player is difficult to hit this copy at level 60. When he comes back with a trumpet at level 200, he can sew monsters in two seconds .

Players who are in trouble are more lazy to use a magic to kill the skeleton mage, pick up the dark gold-level equipment and run out of the copy, the skeleton mage chased out naturally, one of the large size runs too fast, and the skeleton mage found that the chase When I went up, I used the Summoner Skull naturally.

This player habitually posted the video to the Internet, and then smart players thought of using this method to bring the trumpet brush level.

After a few simple studies, this place has become a holy place for a small number of players to take copies of trumpet brushes.

A nightmare-level copy of level 60. If you only bring a few trumpet, each skeleton can give the trumpet tens of thousands of experience, a day or two can rise to level 30, two weeks to reach level 60 .

Lu Yang deliberately brought Xia Yuwei here. The purpose of this is here. He couldn’t explain how he knew the bug, but only guided them step by step to discover it.

The 800,000 players in the Jagged Brothers League are all above level 30, and all of the 266 members of the forbidden mage group in Heiyan have reached level 50 or above.

As long as they are equipped with magic penetrating gems, plus magic sound reverberation potion and acid mist potion, it is easy to brush strange here. The only troublesome thing is that you can't hit the front square with Xiao Liang's equipment before level 60. It's weird. This requires raising a group of shield battles within the guild to level 60.

An hour later, all the skeletons on the square were killed, and each of them got more than 10 million experience points.

"It's too fast," White Lion said.

Xia Yuwei asked: "What to do next ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Will these 10 skeleton mages still summon?"

Lu Yang said, "Try it out, Sun Yu, shoot an arrow."

"Good grin." Sun Yu used hash arrows, and 10 arrows shot at the same time, right in the chests of 10 skeleton mages.

Xia Yuwei and the White Lion and all the legion chiefs looked nervously at these 10 skeleton mages. They had changed from the initial expectation of killing the skeleton mage to summoning the skeletons.

"Ga ~ Ga ~"

10 skeleton mages stood at the entrance of the tomb and watched. They were roared while being shot by arrows, and the right-hand staff gave a turquoise light and smashed down.

"boom"

The green poisonous mist was diffused within 500 yards. After the poisonous mist passed, there were thousands of skeleton swordsmen.

"Great." Xia Yuwei said happily.

## Chapter 587 - Keep secret

Zhuoju, White Lion, Half-Life, Jiang Ze, Zhou Tianming, and Sun Yu are all excited. They know that players under their hands can quickly upgrade the level.

Unlike other guilds, the most important thing for the Brotherhood of the Iron Blood is the gold equipment. As long as the level comes up, you can fight the wolf tribe.

“Boss, we don’t have equipment, just upgrade here.” White Lion said.

“Do you all think so?” Lu Yang asked.

Zhuoju pouring, Xia Yuwei, Jiang Ze and others nodded together and said, “All think so.”

Lu Yang said: “Call the first batch of 70 anti-war copies to enter, and I will take them personally to upgrade, who you choose from their own.”

“Yes.”

Xia Yuwei, Zhuo Jiu, and others immediately reported a copy of the elite anti-battle tune inside their respective legions.

These defenses have reached more than 50 levels. By the time they ran over, Han Sha and their 12 little ones had quit the game and continued to exercise.

Lu Yang looked at these 70 people, all of whom were familiar faces. He was selected from the 3,000 who followed him against the Bloodlust Alliance.

“Boss hasn’t taken us leveling in person for a long time.” Anti-riding just said that he couldn’t die.

This boy was Lu Yang’s guard against the Bloodlust Alliance, who was standing in front of him and had been blocking his injuries.

Lu Yang patted his shoulder and said, “I heard that your boy is the head of the team. There are more than 3,000 people under him.”

He just said, “I can’t embarrass the boss.”

Lu Yang looked at each of them and said, “It’s all good, none of them embarrassed me. The brothers who had spelled out together have grown up.”

I want to say quietly during the anti-war period: “Boss, you have been recording pk videos for us, and also explain to us, these people have too much advantage over others, and fools have become geniuses.”

70 players nodded together.

Lu Yang also had some emotions. Since he delegated the authority to hand over all the internal affairs of the guild to Tu Feng and the 7 legion chiefs, he fulfilled his promise and never interfered with their management. He has not played with this group of brothers for a long time. Time at that time.

“It’s all Liu Jie’s bastards, so we can’t have fun playing games. If they don’t make trouble, I can take you a copy every day.” Lu Yang said.

“Boss, we all listen to you. Sooner or later we can kill Liu Jie and Mai Lizhe.” Said he could not die.

“Yeah boss, we all believe in you.”

...

Everyone said.

Lu Yang nodded and said, "Don't talk about this, worry, I will take you up from today, but my way is special, you will rise to level 60 within 3 days."

"So fast?"

Lu Yang said: "My method is very special. You must keep it secret. You must not divulge a sentence or record a video. Otherwise, our guild will have a terrible disaster."

It is undead to actively cut off all external contacts. Except for the current typing, you can't talk to him by any contact method.

"Boss rest assured that it will not be easy for the guild to reach today, and we will definitely not let the Brotherhood of Brothers have any problems."

I want to quietly cut off the outside world and say, "Boss, you trust us, we will never let down your trust."

The remaining 68 individuals also cut off contact and promised Lu Yang one after another.

Lu Yang said: "I believe you, come with me."

This upgrade method is too easy to do, and it is also too valuable. Once someone sells this method to the boss of other guilds, he can immediately switch to hundreds of millions of credit points, and Lu Yang has to be cautious.

Returned to the copy with 70 people and asked them to stand behind the cemetery. After Lu Yang laid a wall of fire within 200 yards, he jumped on the pillar and said to Han Yu, "Open it."

Han Yu used the hash arrows to hit 10 skeleton mages at the same time.

“Hello ~~~”

The ten mage’s wands glowed a thick green light at the same time, and a dense fog shrouded within 500 yards in front of the necropolis. Thousands of skulls crawled out of the soil.

Han Fei, Han Yu, Han Ying, Mu Yu and Xiao Liang threw magic sounds all around at the same time.

Lu Yang raised his staff and recited the spell. Dark clouds condensed in the sky. Standing in the distance, he watched Lu Yang’s movements in surprise and said, “Boss takes us to level with a secondary forbidden spell.”

The secondary injunction has a cooldown of 6 hours. Such skills are usually unavailable unless they are used during a war. If an emergency situation requires them, they cannot be used, which may affect a war. The winner.

I want to say quietly and excitedly: “The boss treats us well, much better than everyone else.”

Everyone nodded together.

After 10 seconds, Lu Yang finished the spell and pointed his finger to the ground.

“Meteor Fire Rain”

Countless large fireballs fell from the sky and fell into the skeleton knife and axe hand around the pillar, with more than 13,000 points of damage, which lasted for 30 seconds.

At the same time, the fire wall on the ground continued to burn and cause damage to the skeleton.

Lu Yang replaced the Hertos suit and handed it to Mu Yu, saying, "Then use a secondary forbidden spell."

Mu Yu nodded and chanted after putting on the equipment, after 10 seconds.

"Lightning Storm"

Mu Yu pointed his finger at the ground, and countless thunder and lightning fell from the sky within 200 yards around the pillar.

Two secondary forbidden spells and wall of fire stack up, inflicting more than 30,000 damage to skeletons within 200 yards on the ground every second.

After 30 seconds, all 200 yards of skulls died on the ground.

System prompt: you get 3868 experience

...

A series of reminders reminded him that he couldn't die. "Wow ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ We have more than 70 people with such high experience."

"No wonder the boss has this confidence. The experience here is really high." I want to say quietly.

I can't stop looking at the players around him and said, "Brothers, do n't embarrass the boss. Do n't say anything about it. If the boss can take us to level 60 within three days, it proves that everyone else is also If we can do that, we are all ordinary people. Can we be thankful today because of our boss? "

"Rest assured, the boss's salary for us is enough for us to live smartly for a lifetime. When we are fighting, we have extra money. Which brother here is earning less than 50,000 a month, and his family has been doing well. Why? Maybe betray the boss. "No one said in the anti-riding tomb.

The crowd nodded. They never thought that just helping Lu Yang at the crisis of the guild would be able to have today's life, and to be able to do so, they were very satisfied.

Doorway.

Bai Hu changed into a Sartre suit from Xiao Liang, and he and Xia Yuwei were waiting for the arrival of Hei Yan's more than 260 lesser curses.

Chapter 588 - One hundred thousand people

"Hey, now our Brotherhood of Brotherhood is going to really rise. As long as there are no surprises, after two weeks, McLeod's Quartet Alliance and Liu Jie are a goal." Bai Hu said.

"We must take precautions, and we must not let the news leak out," Zhuojiu said.

White Lion said: "The first batch should be no problem, all our old brothers."

Zhou Tianming said: "It is best to supervise each other as a group."

"That's a good idea."

"One more thing, try to get the brothers to keep a low profile. If all of them come, the major guilds will also notice and guard against Huang Xiang."

...

The seven legion leaders discussed with Tu Feng and quickly found a way to prevent it. When the players arrived, Xiao Liang brought two copies, White Lion, White Tiger, Zhang Zibo, White Wolf, Turbid Wine, and bitter love. Half-life, Xia Yuwei and Zhou Tianming each took two copies.

Each person can only enter the copy three times a week, they have entered the copy with Lu Yang once, and they can only take two more each.

After restraining his men before entering the copy, the first upgrade of the official rise of the Jagged Brotherhood began.

For three days, Lu Yang and White Lion took the team to upgrade in the copy, Ma Lizhe and Wang Teng, Li Xiuyu, Liu Jie and others were struggling to open up the copy, the orcs stopped the war, and the entire Huaxia server entered It's a relatively flat phase.

After 3 days, Lu Yang's last skill was used up, 70 golden lights were on, and the 70 players who followed Lu Yang to upgrade all reached level 60.

"It's too fast." Said in shock.

Lu Yang killed the rest of the skeletons and came to the people who just couldn't kill them, saying, "It's all 60."

I just couldn't fight and waited for each other to look at each other and said, "It's all here."

Lu Yang said: "Very good, now I will give you the next task."

"What task?" I asked quietly and excitedly.

Lu Yang said: "From now on, you are responsible for bringing the brothers in the guild to this copy to upgrade. I will arrange the mage team in my hand to cooperate with you. Each person will bring 10 mage, a group of 100 people, and a team. , You just quit the copy and make it in, and then take the group, when the third one, you will stay inside and continue to upgrade. "

“Boss rest assured, we won’t let you down.”

Lu Yang nodded, sent a message in the simulation group and asked, “How are you?”

Zhuoju smiled and said, “Boss, we are faster than you. A total of 1,200 defenses have reached level 60.”

Lu Yang said: “Recruiting mages and fighters, you must do your own confidential work, you must ensure that no secrets can be leaked.”

“We do our best,” White Lion said.

1200 defense wars can bring out 100,000 people. Who can guarantee that all 100,000 people will keep secrets?

No one can guarantee! I can only do my best.

Lu Yang knew this clearly, without excessive demands, and said, “Let’s start, let the brothers come in batches.”

“Yes.”

Lu Yang said to Tu Feng: “From now on, a large amount of cobalt gold ore, moon blue ore, astrological iron ore, deep-sea pith silver, red inflammatory stone ...”

Lu Yang said a series of more than 20 materials.

Tu Feng asked in surprise: “These are all materials for making level 60 and above equipment. What do you want these to do?”

At present, the level 60 materials have fallen below the level of 40 silver coins and no one wants them. After a copy can explode the equipment, no one is willing to spend money to buy equipment, and all the material merchants are bankrupt.

Lu Yang said, "Don't ask first, I'll tell you later."

Tu Feng frowned and said, "Are you buying them all? There are too many of them. Those materials merchants are now rushing to call me and ask me to buy them. One gold coin can buy a set of materials."

Lu Yang said: "No, you use multiple unfamiliar accounts to publish acquisition information at major auction houses. Do not reveal that you are buying."

"Okay, this can be done easily," Tu Feng said.

Lu Yang said: "Acquire as many as 500,000 people use. Don't be afraid to spend money. Soon the price of materials will be able to pick up a little, no matter how big or small, we will not lose."

Tu Feng said, "Okay."

After all the work was done, Lu Yang and Zhuo Jiu and others arranged for players to upgrade the copy. After three days of busy work, they all sent 100,000 people to the copy.

Wait until the rest of the night on Monday night.

Lying on the massage chairs, everyone was exhausted.

Black and white looked at Lu Yang and others and said, "Are you so tired?"

The white wolf said, "Brother Black and White, you don't know how tired it is to do ideological work for 100,000 people. I'm really afraid they will use this to sell money."

Black and white is not very old, only 29 years old. After coming here, he quickly mingled with everyone and became the eldest brother of all of them.

Lu Yang said, "Brother Black and White, I remember you have a sister, right?"

Black and white said, "Yeah, I've been in the small town and raised by my grandpa."

Lu Yang thought for a while and said, "In this way, the New Year is coming. In this year, our net income of the Jagged Brothers League was more than 500 million. In addition to bonuses to the brothers, I will give you a house of 150 square meters each. Don't go home for Chinese New Year, everyone will move to the East China Sea. "

At present, the epidemic situation has not been lifted, housing prices are as low as historically low, and coastal cities are only 5,000 yuan.

The white wolf said in surprise: "Boss, what are you so kind about?"

Lu Yang said: "It's not polite, it's not easy for our brothers to be together. Making money is one thing. Investing in temper is the main thing. Tomorrow, our guild will develop better and make more money. Don't be polite with me ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ including black and white and your brothers, everyone has a set, take the family over and let them live. "

Black and white said in surprise: "Are we there?"

Lu Yang said with a smile: "Of course I have. In addition, take over your sister. I will arrange a good school for her and let her enter the game. Let her go to the elf clan first. If she has talent, I will let her God for her. "

The black and white eyes widened suddenly. Even if she no longer knew the game and knew about the goddess of Luna, it was only 6 days. Whether it was on TV or on the Internet, the news was overwhelmingly mentioning the matter of Luna god. A giant rich man offered to buy Shenge at a price of 200 million credit points, but Lu Yang refused to sell it, and now he wants to give it to her sister.

Black and white said excitedly: "Boss, where does my sister take it?"

Lu Yang said: "Rest assured, I will teach her personally, everyone who can be trusted around me is used, but you have also seen that there is a serious shortage of staff. If you have trusted relatives and friends, please introduce them. Single receipt.

I lack the strength to train myself, not to mention the top 100 in the world, the strength of the top 100 in the national service can still be cultivated. "

#### Chapter 589 - Parents return

Lu Yang needs to train several elite squads. Under the current situation, the 7 army commanders need to devote all their energy to the daily affairs of the guild, and it is difficult to have time to deal with other things.

Tu Feng is responsible for gathering information externally and internally for the accounts. These two items are very complicated and require the full help of Mo Long and Li Rui. Moreover, these things are confidential inside the guild and cannot be given to outsiders.

Once the guild has some special things to deal with, mobilizing elite players within the guild will affect the original team's fight against monsters, and it will waste a lot of time to gather well.

Suffering for half a life said excitedly: "Boss, are you really willing to teach it yourself, my cousin has always wanted to come."

Mao Qiu said, "My brother wants to come too."

Lu Yang said, "Of course, the more people come, the better."

"I'll call now."

...

Lu Yang said: "These days your task is to find someone. I'll go out."

"Where are you going?" Lan Yu asked.

Lu Yang said, "I'll pick up my parents."

After half a year, Lu Yang's mother and father finally completed the construction period, ready to return from the mountains.

Let everyone work at ease, and the next morning, Lu Yang came to the station to pick up his parents.

Seeing the excitement of his parents in the dust and fatigue, Lu Yang felt very uncomfortable and said, "Parents, don't have to work in the future, your son can support you."

The mother said excitedly: "Son, we've all seen you win the world championship. Mom is so proud."

Lu Yang's parents are ordinary people. They have never seen anything in the world, and never thought that their son would be able to win a world-recognized championship.

Lu Yang proudly said, "I will be the champion next year."

He handed a credit card to his mother and said, "Take away 30% of the tax, and the remaining 70 million are here. You and my dad can spend whatever."

“This is your money, let’s not,” said his mother.

Lu Yang said, “Parents, take a good rest today. Uncle Han comes over at night. You will come to visit my studio in the next few days. It will definitely surprise you.”

He didn’t dare to tell his parents about the current scale of his studio. As an ordinary person, he owns a large studio with more than 500 people and rents two buildings. These are unthinkable things.

In the evening, Han Zhong took the time to visit with his family. Lu Yang’s father and mother were extremely happy.

“Lao Han, thanks to your care, my son.” Lu Yang’s father Lu Qiping said.

Han Zhong quickly said, “Don’t say that. I can thank Xiaoyang today. You don’t know. Brother and I have made a fortune on your son.”

Lu Qiping said in surprise: “What money can you make by relying on my son? I don’t know what he is like.”

Han Zhong shook his head and said, “I saw your son along the way. I congratulate you, Lu, for having a good son.”

Lu Qiping was a little at a loss. His son knew him best. Playing games to the number one in the world was beyond his expectations, and he could help his brother get rich. He absolutely did not believe it.

Lu Yang said, “Master, tell my dad, I said he didn’t believe me.”

Han Zhong nodded, from how Lu Yang took his three children to play games to the development of the guild all the way to now have three main cities.

“You said your son is not good.” Han Zhong asked.

Lu Qiping looked at Lu Yang in surprise and said, "Really?"

Lu Yang said: "Of course it is true. I have made a net profit of RMB 400 million so far this year. I didn't dare to tell you both during the day, I'm afraid you won't believe it."

Mother said in surprise: "Four hundred million?"

Lu Yang said: "Tomorrow take you two to my studio to see, more than 500 people are working for me."

"Tomorrow we must take a good look." Lu Qiping said.

Lu Yang said: "No problem."

With such achievements, it is naturally a happy thing for parents to visit. In the early morning, Lu Yang took his parents to the studio to visit.

Then they took them into the game and experienced it. When the parents saw Lu Yang's achievements, the parents really believed.

The mother said excitedly, "Son, I thought you would be an ordinary person in your life when you find a worker to work. I can't think you are so powerful."

Lu Yang said proudly: "It's normal, you two will stop working and rest at home."

Lu Qiping said: "How can that be, I am only in my 40s and let me do nothing idle."

Lu Yang said, "Let's take a long vacation before talking."

Recalling the hard work of his parents in the last life, Lu Yang does not want them to run around for life. It has been a hard life, and it is time to rest and enjoy life.

Lu Qiping said with a smile: "Let's think about it again. I have worked in this place for 16 years, and we can't bear to leave us all at once."

His mother said, "Not really."

Lu Yang knew that his parents would not be able to change in a short while, and he didn't force them. He said, "Yeah, you decide slowly. Let's change to another place."

The new house and car were bought, and Jiang Ze helped manage it. Lu Yang didn't bother.

When Lu Yang was busy here, the other side also took over his parents, such as Black and White and Suffering for Half a Life, and he got busy, and when everything was all done, it was the New Year.

On the first day of the Lunar New Year, Lu Yang visited Jiang Ze's father, Lan Yu's father, and Tu Feng and his half-hearted parents with gifts.

The entire guild was full of joy. Not only Lu Yang's side, but also the entire national service has entered a more peaceful state. There is no war or dispute, and everything is very peaceful.

By the seventh day, the guild gradually returned to normal, and players re-entered the copy to upgrade.

In the game ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ More than 50 relatives recommended by Zhuo Jiu and Xia Yuwei and others are exercising techniques under the guidance of Lu Yang.

Shenhuang sent a message and said, "Brother, something happened."

Lu Yang asked, "What's wrong?"

Shenhuang said: "Liu Jie's grandson came over slowly."

Liu Jie was caught in civil strife, and the appearance of the copy made players who signed the contract return the equipment one after another, and applied to withdraw from the guild. Liu Jie changed the regulations and gradually let his men forgive.

After the official launch of the copy, before the materials became no longer available, players who signed contracts with him purchased materials and returned equipment to exit the guild. Although Liu Jie repurchased 12 guilds, he fell into civil strife.

From year to year, Liu Jie has been dealing with these things, and the only fortress he occupies is the one outside the Purple King City.

Fortunately, Liu Jie still has some team members, plus a lot of money to recruit studio players, so that the surrounding guilds attacking his fortress return without success.

#### Chapter 590 - Tavern mission

Now he launched a new strategy, instead of constraining players by signing contracts, but learning Lu Yang to win over ordinary players in the form of guild points, and senior players hired with high salaries. The number of players under his hands once again reached 800,000.

Lu Yang asked, "Is he going to attack you?"

Shen Huang said: "At the moment he dare not provoke me, and one million people have not laid down my fortress, let alone he is only 800,000. His goal is to regain the fortress previously occupied by other guilds. It is estimated that I will be ranked the last one."

Obviously, Liu Jie's strength has not recovered to be as strong as before. The original retreat caused his subordinates to leave the guild a lot, and he would have to wait at least one month as before.

Although money can change a lot of things in this game, for example, special skills and special occupations can't be bought because they have too many rich people and are buying.

Lu Yang said: "In the near future, I will provide you with a batch of emerald crystals. Contact the bosses of the other fortresses of the elven clan as much as possible. I believe they will not want to see the fortress they grabbed again.

Shen Huang said with a smile: "We just formed an alliance, maybe we can attack Liu Jie together."

Lu Yang said with a smile: "Good idea."

There were 8 fortresses that Liu Jie was robbed of, and were obtained by the bosses of 8 guilds. If they formed an alliance, it would be uncomfortable for Liu Jie.

However, Lu Yang estimates that the eight presidents of Shenhua could not beat Liu Jie, and not to mention Liu Jie's economic strength, a dead grass around him alone could play the eight bosses of Shenhua.

The last time Lu Yang was able to defeat Liu Jie, it wasn't that he was stronger than Liu Jie, or that his strategy was better than dead grass, but that he used the advantages of his rebirth to get the material through the contest to overcast the dead grass once.

If there is a serious competition, Lu Yangzhaohao is a lot worse than dead grass. Now Liu Jie's father has increased his investment in Liu Jie. After dead grass fails once, he will take this game more seriously.

Lu Yangyuan was in the interface between the human race and the orc, so far away from the elves, with Wang Teng and Li Xiuyu stuck in the middle, unable to send an army to rescue, he could only expect that the eight of them could delay the time of Liu Jie faintly.

"Brother, what do you want." Han Ying watched Lu Yang hang up on the phone and thought for a long time without talking, and asked curiously.

Lu Yang shook his head and said, "Nothing. I'll go out. You take them to practice first."

“Okay.” Han Ying continued the exercise with the team.

Lu Yang flew to the Sea Emperor City using the back-to-city scroll, and came in to the sailor’s house tavern by the sea.

In the dim pub, only a few hundred sailors sat on wooden tables and drank wine. When they saw Lu Yang coming in, they looked curiously. They didn’t feel that there were any special ones who continued to do their own things.

“Sir, what to drink?” The hotel owner’s daughter beckoned.

This is a beautiful girl. She has charming long blonde hair and a delicate European beauty face, but her nose is not so big, but it is similar in size to Asians, which makes her look more charming, and Her height is one meter seven and she is very goddess-like.

Lu Yang said, “I want the best rum.”

“10 gold coins.” If the beautiful boss daughter is a new player who hears this price, she will think the boss’s daughter is crazy. Who would be willing to spend 3,000 yuan to buy a glass of wine in the game, even if the girl asked him for it? Pretty.

No one in the last life has been willing to, until a fool fell in love with this npc girl, and sincerely paid all the money according to the girl’s request.

The boss’s daughter is a rebellious little girl. She doesn’t want to be a woman who only knows how to have children according to her father’s requirements. She likes the sailor’s story and wants to venture around the world like a sailor.

If your behavior can be as bold as a sailor, she will be willing to be friends with you and post some special tasks to you.

Lu Yang gave her 10 gold coins and took the rum and drank it.

Alice watched Lu Yang's performance with satisfaction and said, "Sir, I don't know if you would like to invite all sailors to have a drink, as long as 30 gold coins."

Alice's crisp voice penetrated the entire hall like an oriole, and all the sailors stopped talking and looked at Lu Yang.

Facing Alice's mischievous eyes, Lu Yang took out 30 gold coins and stood up and said loudly, "Friends, I invite you to have a drink."

"Sir, you are so generous." Alice took the gold coins, and a dozen elves put full rums at the table of every sailor.

A fat bearded sailor stood up, raised his glass and yelled, "Toast for this gentleman."

"Cheers." All the sailors stood up, raised their glasses and wanted Lu Yang toast.

Lu Yang smiled, raised the glass and turned around in retribution, drinking the wine in the glass.

Alice sat next to Lu Yang, her arms around her jaw, and let her hair fall from one side. She looked at Lu Yang with a charming look like ripples and asked, "Sir, where are you from, I It feels like you are a special person. "

Lu Yang looked at Alice's face, which was a very charming face, and said, "What do you think I do?"

Alice smiled charmingly and said, "I feel you are special. Can you complete a task for me?"

Lu Yang asked, "What mission?"

"I heard the sailors say that there is a group of Naga Siren in the depths of the sea, they are guarding a colorful pearl, and I want you to help me find it." Alice said.

The system prompts: Whether the colorful pearl task ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ accept it.

Lu Yang chose to accept, and said, "I'm happy to work for you, but I don't have a boat. Which of your friends would like to take me?"

Alice said in surprise: "You promised, great, Reese, Reese, this gentleman is willing to help me find the pearl. By agreement, you will take him to the sea."

Called Reese is the captain of a blue boat hat, stood up, smiled and nodded, "I will be happy to serve you."

Reese walked in front of Lu Yang and said, "Brave soldier, I envy your courage. If you don't mind, let me take you for a ride."

"Thank you," Lu Yang said.

"The boat can set off now, guys, we're on board, let's go and conquer Naga Bay," Rhys shouted.

"Conquer Naga Bay." Dozens of sailors stood up and shouted. Although everyone seemed to be wearing ordinary clothes, their courage encouraged all sailors.

Chapter 591 - 7 color pearls

Lu Yang was also infected by this atmosphere. Thinking back to the era of great sailing, maybe the people at that time were Reese. They were full of courage and hope.

Following Reese and the sailors came to the sea, Reese's ship was a five-masted sailing ship. After boarding the ship, the sailors untied the ropes and pulled up the anchor.

“Sailing,” Switzerland shouted.

Five huge sails rose, and the ship quickly sailed into the depths of the sea.

After 2 hours.

An island appeared on the sea. When it was 2 kilometers away from the island, Ruiz shouted, “Anchor, sail.”

All the sailors immediately followed Reese’s words. Soon, the sails on five sides came down, and five or six sailors pushed the winch to put the anchor in the water.

Reese came to Lu Yang and said, “Man, I can only send you here. The island in front of which is the naga sea monster. We are just ordinary people who have no fighting power, and everything is up to you.”

Lu Yang said, “Thank you, wait for me to come back.”

“Come on.” Sailors went to Reese to cheer on Lu Yang.

Lu Yang raised his right hand with a strong fist, jumped into the sea, and swam towards the island.

There are many 80-level naga navies around the island, and they know special skills such as water dragon waves and waves. If it is on land, Lu Yang can play 100 of them, but in the water, Lu Yang’s fire skills cannot be in sea water. freed.

The only thing Lu Yang can do now is to find a way to run to the island as soon as possible. Only when he gets on the island can Lu Yang’s skills work. At the same time, if he encounters a Naga Siren on the sea, he must be quickly attacked. Kill, you must not let him hide in the sea.

While Lu Yang was thinking about tactics, suddenly there was a melodious singing in the distance. A girl with a very beautiful appearance swam towards Landing Yang. He had long blond hair and blue eyes.

As she swims, she sings beautiful songs in her mouth, with a pure smile on her face, like an angel falling into the dust.

50 meters

40 meters

...

10 m

As she continued approaching Luyang Yang, Lu Yang pointed the girl with her left hand.

“Flame Shock”

A flame burst into the girl’s head.

“19988” (Critical Strike)

Naga Banshee

Level: 80

Qi and blood: 70012/90000

“Destroy the Sky”

“Pyroblast”

“Flame Storm”

“The Sun Fist”

...

A series of skills came out, Lu Yang killed the Naga banshee and looked at the corpse of the banshee. Lu Yang was relieved. Fortunately, it was just an ordinary monster. If it was an elite monster, Lu Yang would be difficult.

Lu Yang continued to swim forward, and at the same time, watched with vigilance, the sea water was very clear, and the sun above him was enough. Lu Yang could see about 10 meters below the sea through the light.

Most of the islands are banshees. Lu Yang killed more than 10 banshees in a row and came to a place 1000 meters away from the island.

Looking at the two palm trees on the island in front, this is basically the right place. This is the sign mentioned in the Raiders of the previous generation. From here, it is the location of the colorful pearls.

Lu Yang took a bottle of underwater breathing medicine from his backpack, drank it, dived into the seawater, and went downstream.

There are a lot of water-green naga navies in the sea. They have a slender tail like a fish, and their upper body is like a human. They have strong muscles and a length of about 5 meters.

Naga Navy (Elite)

Level: 80

Qi and blood: 1900000/1900000

Lu Yang couldn't beat the Naga Navy in the water, and more than 10 meters downstream, a Naga Navy swam quickly ahead of him.

His entire body swayed like a fish, and Lu Yang suddenly opened his eyes, he knew he couldn't escape.

Naga navy saw Lu Yang 40 yards from Lu Yang.

“丝丝~~”

The naga navy raised the sea soul fork in her hand and glared at the landing sun.

“Light of Dreams”

Lu Yang put on the magic ring and pointed with one hand, a pure white light appeared on the head of Naga Navy.

“丝丝~~”

The nagging navy showed a confused look, and rushed to Lu Yang inertially, stopping at a position 5 yards in front of him.

Lu Yang breathed a sigh of relief. In this place, the best skill to use is the ring of dreams. Although he can't summon Naga's navy, he can stop the navy.

Continuing downstream, Lu Yang encountered a total of more than 20 Naga navies, all controlled by him with the light of dreams.

Five minutes later, he came to the bottom of the sea, which was more than 100 meters away from the sea. The sun was not shining, and the bottom of the sea was dark. Lu Yang took out a crystal lamp to illuminate the Quartet.

The bottom of the sea is very flat. There is a lot of corals on the yellow sand, but there is no shadow of colorful pearl mussels.

Lu Yang looked around and stopped near a colored coral reef on the left. There was an open space in the middle of a circle of corals.

Lu Yang remembered it here. He reached out to poke away the sand. Sure enough, a huge pearl mussel with a diameter of 1 meter was dug out by him.

Colorful pearl mussel

Level: 80

Qi and blood: 80,000 / 80000

The pearl mussel seems to be able to sense the dangers outside. After the mud was pulled away by Lu Yang, the pearl mussel trash rolled forward and wanted to escape.

“Light of Dreams”

Lu Yang raised a pure white light to make the pearl mussel into a confused state. Slowly, the clam shell opened, and a colorful pearl was exposed on the mussel meat.

Lu Yang quickly reached out and took out the pearl, put it in the backpack, turned and swam quickly towards the sea.

This time the operation was relatively smooth. I remember that the player from the last generation mentioned in the Raiders that they encountered a lot of demon octopuses in this area, and he was lucky to have not encountered them.

As he thought so, a huge, dark figure was approaching the landing sun in the deep blue waters.

When he was only 30 yards away, suddenly one of his huge tentacles shot towards the landing sun.

Lu Yang was moving upstream. Suddenly, he felt that the water flow behind him was abnormal, and when he looked back, a crimson tentacle had been shot to less than 3 yards from him.

“flicker”

Lu Yang’s subconsciously launched the escape skill, a white light lit up and jumped a distance of 30 yards, at the same time, the tentacle hit the white light.

Lu Yang looked closely behind him, a huge red octopus revealed his shape at the back ~  
www.mtlnovel.com ~ his head is 5 meters in diameter, his body and tentacles are more than 30 meters long, each tentacle has 2 meters Thick, 6 in total.

Devil octopus (boss)

Level: 80

Qi and blood: 2000000/2000000

Lu Yang felt a bit tricky. He couldn’t beat a boss-level water monster in the sea.

“Ang ~~~”

A strange hissing sounded, the octopus demon opened his tentacles, compressed his body to the middle, and drew deep down, his body pressed down like an umbrella. The strong reaction force made him approach the landing sun quickly.

Lu Yang hurried upstream, and escaped the dagger at the same time, moving a distance of 30 yards upstream, but the moment he appeared at the position of the dagger.

“丝丝~~”

Two Naga navies found Lu Yang and rushed towards the landing sun.

Chapter 592 - Plane of destruction

Lu Yang watched as Naga's navy approached, reluctantly speaking a spell in his mouth.

“Remnant Flame”

A reddish light penetrated the sea and headed straight for the sea.

“activation”

As soon as the two Naga Navys arrived in front of Lu Yang, at the moment when they waved the sea soul fork, Lu Yang turned into a red light and flew away at the speed of sound.

“嘭”

A reddish light exploded on the sea, and Lu Yang appeared on the sea. A sudden dizziness made Lu Yang feel very uncomfortable.

At a speed of more than 100 meters, Lu Yang was still a bit anxious. He moved his head. He knew that it was not time to rest. Two Naga navies and an octopus and sea monster were still chasing him, swimming quickly towards the ship go with.

After 1 minute, Lu Yang swam to a place 500 meters away from the ship. At this time, the Naga navy chased a distance of 30 meters behind him.

“Water Dragon Wave”

A Naga navy launched a special skill. A 30-meter-thick sea dragon rose from the seawater, hovering in mid-air to expose the dragon head to the landing sun.

For the first time, Lu Yang saw such a large water dragon wave, but it was only 10 meters in normal terms, which actually tripled in the seawater.

“Hello ~”

The blue water dragon screamed and crashed towards the landing sun.

Lu Yang suddenly widened his eyes, the moment the water dragon hit him.

“Remnant Flame”

A reddish light moved forward with the sound of a landing sun.

“噔”

Lu Yang’s body appeared on the boat.

Reese quickly walked to Lu Yang and said, “Dude, are you okay?”

Lu Yang forced the dizziness of his head and said, “It’s okay, hurry up.”

“Anchorage, Yang Fan, we’re gone,” Ruis shouted.

Six sailors pushed the winch to drag the huge anchor up, the other sailors raised their sails, and the ship quickly flew towards the open sea.

The naga navy's movement speed was far less than that of the big ship. After two minutes of chasing, it failed to catch up and stopped, screaming at the landing Yang again and again.

Lu Yang breathed a sigh of relief leaning on the boat, and finally escaped.

one hour later.

The ship returned to shore, and Lu Yang's body recovered. After disembarking, he arrived at the Sailor's House.

Alice was pouring wine for the guests. When she saw Lu Yang coming, she ran over in surprise and asked, "Did you get the colorful pearls?"

Lu Yang took the pearl out of his backpack and put it in front of Alice, and said, "Look, what is this?"

"My hero." Alice excitedly gave Lu Yang a hug.

"Wow ~~"

"so cool."

Whistles and screams kept coming and going in the tavern.

Lu Yang did not expect Alice to be so excited, and said with a smile, "Give it to you."

"My hero, thank you." Alice was so happy that she gave a bottle of exquisite rum to Lu Yang. "I want to give you a gift. This is our special rum." Wine, I hope you like it. "

The system prompts: You get premium rum.

Alice +1 for your favor.

Lu Yang asked for this, put it in his backpack and said, "Thank you."

"If you like, you can come back to me at any time and I will give you a 10% discount." Alice said playfully.

Lu Yang smiled and nodded, leaving this tavern full of maritime style, the official made it so real, it really made people feel like they were back in the era of great sailing. Unfortunately, he did n't have time to enjoy, there were too many Things to deal with.

Taking out the fortress and returning to the city, Lu Yangfei returned to the inner city of the holy city, calling Han Ying, Han Sha and others.

After 2 minutes.

Han Ying and others appeared from the teleportation array.

"Brother, is there anything wrong?" Han Ying asked.

Lu Yang said, "How long can you stay on the destruction plane now?"

"Up to 1 hour," Han Ying said.

Players with Destroyed Hearts can enter the Destroyed Plane to pick their own pets instead of summoning ordinary imps and hellfires.

Lu Yang said, "Time is almost enough. Take us all to a plane of destruction. I will catch you a special summon."

Han Fei asked curiously, "Are there any special babies?"

Lu Yang said: "Of course, there are quite a lot of summoning beasts to destroy the plane, but it is also very dangerous. Don't run around when you get there."

Xiao Liang said: "Boss rest assured."

Lu Yang nodded and said, "Let's get started."

Han Ying chose the group transmission skills, a green flame flashed, and Lu Yang and others within 30 yards of Han Ying disappeared collectively.

On a piece of red land on the destruction plane, Lu Yang and Han Ying and others appeared at the same time.

"This is the plane of destruction. It looks desolate." Han Yu said.

The sky is covered with dark clouds and smoke, there are only red rocks on the ground, and there are no plants around.

Mu Yu pointed at a three \*\*\*\* dog in the distance, and said in surprise: "Brother, that dog has three heads and looks so good."

Lu Yang quickly reached out and motioned for everyone to step back and said, "Don't mess with him, Lord 100, we can't afford it."

Destroy the three-headed dog is a high-level species of destruction plane, three heads can release three secondary forbidden spells, can only live with players wearing top-level 100 equipment.

The Destroyed Three-Headed Dog was chatting and walking for nothing at this time. When he walked 50 yards away from Lu Yang and others, he turned away and scared Lu Yang into a cold sweat.

“Fortunately, I didn’t come.” Lu Yang looked at the coordinates and said, “Come with us, we will go east.”

“OK.” Han Ying said.

A group of people followed Landing Yang and headed eastward. On the way, they encountered a lot of 100 boss monsters.

After walking for half an hour in a row, I came to the entrance of a huge red cave, and a huge dragon-shaped creature with nine heads was lying there to rest.

Hydra Dragon Harbis (Rare Elite)

Level: 80

Qi and blood: 3500000/3500000

“How does this dragon look like a Hydra ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Han Fei asked.

Lu Yang said: “Don’t underestimate him, we are catching him today.”

Han Ying said in surprise: “Brother, my level is not enough.”

Lu Yang took out the premium rum from his backpack and said, “Drink this, your level is enough.”

Han Ying took the rum and asked curiously, “What does this do?”

Lu Yang said: “Drinking this rum will give you a special buff. When you are drunk, any monster is 20 levels lower than you. You are now 63 and you can catch him.”

Han Ying tried to drink rum, a drunk buff appeared on her head, and a cloud appeared in front of her eyes. When looking at the nine-headed dragon, she found that its level became level 60.

“This wine is really effective, let me try it.” Han Ying tried to conquer the nine-headed dragon using the summoning skill of Destruction Heart.

A green chain was tied to the head of the nine-headed dragon.

Chapter 593 - 9-headed dragon habits

“Hello ~!”

Jiulong stood up angrily and looked in the direction of Han Ying, with nine eyes staring at Han Ying together.

“Flame Shock”

Lu Yang replaced the equipment and pointed at the head of the nine-headed dragon with his hand.

“噫”

A spark exploded over Kowloon’s main head, causing him to stun for 2 seconds.

Lu Yang said: "Since Han Sha, use the sneak attack skills to stun the nine-headed dragon one by one. Remember, change the equipment and don't kill yourself."

"Okay." Han Sha took off his dagger, and the first jumped behind the nine-headed dragon, and hit a fist on the back of the nine-headed dragon.

"-1"

The Hydra was caught in a stun for 5 seconds, and stopped struggling.

Han Ying took this opportunity to continue to spell to trap the nine-headed dragon. After 1 minute, when Han Sha and other 12 people used a skill, the chain on the nine-headed dragon disappeared, and a green light lit up. Han Ying appeared.

"Success." Han Ying said happily.

Lu Yang said, "Come on, we leave the destruction plane. At present we do not have the strength to come here."

Han Ying nodded, launching his skills and taking everyone back to the inner city of the Holy City.

The players in the city were resting, and suddenly saw that there was an extra nine-meter dragon with a height of 10 meters. They thought it was a monster attacking the city, and they were frightened to escape.

Han Ying looked at his new baby with satisfaction and said, "Brother, where are we going next?"

Lu Yang said, "Go to the copy."

With the heart of destruction, Lu Yang changed the plan he had designed before, and many things can be done ahead of time, such as the next copy.

Among the official copies this time, not only the regular copy, but also something called the excellent copy.

The level of this copy is the same as that of other copies. The only difference is that the monsters in the excellent nightmare-level copy are more difficult to fight. It can be said that only the equipment in the ordinary nightmare-level copy can be played, and it can not be done. A copy of a nightmare with 100% wasteland excellence.

However, if land reclamation is over, there is an additional benefit. The equipment produced by the excellent nightmare copy is far better than the equipment properties of the same level. Taking the equipment of level 60 as an example, the gold level attributes are better than the dark gold level. Gao, just because he had the word excellence in front of him.

If it is excellent dark gold-level equipment, the attributes are comparable to legendary.

Lu Yang originally wanted to have all his equipment ready, and tried to open up a copy of the superior level. He knew how to play these copies, and his players were all elite players. There was a great chance to take them over.

However, now that the nine-headed dragon Habis is captured with the heart of destruction, the nine heads of Habis will not have any attack skills, but it can release up to nine powerful control skills, namely nightmare control, mind Control, thunder cell control, water cell control, dungeon control, vine control, spike control, fire cell control, arcane control.

Each of these nine controls can set the target in place for 5 minutes. Unless it is attacked, it will stop only when the time is up.

Of all the 60 copies of excellence, the one that produces the best equipment is called the Blood Elf Island. The mobs on the island have a chance to produce the excellent level 60 gold equipment drawings.

The equipment created by this drawing is better than the equipment attributes produced by the same level of nightmare copies.

There are 10 mobs in each wave, and the number of players allowed to enter the replica is only 40. This time, nine-headed dragon Habis is summoned. You can use the powerful control ability of nine-headed dragon to control 9 of them at once They set fire to kill the last one left.

Lu Yang flew the team to the crater with a teleportation scepter, ran all the way north, and came to a lakeside village half an hour later.

The system prompts: You found the forgotten village chief.

A group of blond-haired, red-gold armored elves were patrolling the door.

“Their equipment looks cool.” Han Fei said.

Lu Yang said: “That’s the excellent gold armor, which not only looks beautiful, but also has very good attributes.”

“It would be so handsome to be able to wear such equipment,” Han Yu said.

Lu Yang laughed and said, “Follow me to do the task, and go.”

Lu Yang led the team towards the entrance to the village, and when he arrived at the door, a golden-haired patrol captain stopped Lu Yang and others and asked, “Who are you?”

Lu Yang said, “We are adventurers. I heard that there is a problem in Elven Island. I don’t know if I can help.”

The captain of the patrol looked at Lu Yang and others and said, “You seem to have some strength. If you want to help go in to find our elders.”

Lu Yang nodded his thanks and led the team into the village.

The system prompts: You have found the superior fairy village.

This is a special village of elves. The village is full of exquisite houses, made of brick and stone, and painted with red gold paint. The whole village looks brilliant.

In the middle of the village, at the door of an exquisite three-story villa, Lu Yang saw an elder old man wearing a red gold robe, and the superior elf Mornes.

“Dear Mr. Mornes, I heard that there was a problem on Elven Island, and I don’t know if we can help.”  
Lu Yang asked with a humble bow.

Morns glanced at Lu Yang with a contemptuous look and said solemnly: “If you want to help, I can teleport you to Elven Island, but if you die there, I will not be responsible for collecting your corpses.”

Lu Yang said with a smile: “Thank you, please send it.”

Morns waved his staff ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ A golden light lit up, and Lu Yang and Han Ying entered the extremely beautiful island.

System prompt: You found Blood Elf Island.

The island is full of delicate red-colored buildings, the highest being as high as five stories high. Legend has it that this place is where the blood elves live in seclusion.

In the official main story, the blood elf family had civil strife. Lu Yang’s task this time is to destroy the judgment. However, Lu Yang does not have the ability to open up this copy. His purpose is only the drawings falling on the door monster.

“Go, let’s go to the drawing and give each of you a set of blood elves.” Lu Yang said.

“Okay.” Han Fei and Han Yu said happily.

Lu Yang laughed. He came here the same as Han Fei in the previous life. He coveted the exquisite blood elf equipment. Although he got the Hertos suit in this life, the exquisite blood elf equipment also made him watch. Just feel comfortable.

The first wave of Blood Elf Island was strange inside the gate of the palace group, and Lu Yang led the team into the gate.

#### Chapter 594 - Outstanding equipment

This is a square square with a row of gold-red square pillars around the square. The two pillars are 10 meters apart, and it looks like there are many doors.

The square is empty and has no enemies.

Lu Yang said, “You’re waiting here, I’m going to blame.”

Crossing the square is a huge garden planted with a variety of trees and flowers, and blood elf guards stand at various intersections in the garden.

Blood Elf Guard (Elite)

Level: 60

Qi and blood: 6000000/6000000

Lu Yang looked around. No patrol monsters came over. After marking the symbols on the heads of 10 monsters one by one, he lifted his hand to a Pyroblast and hit the Blood Elf Guard with a triangle symbol on his head.

“嘭”

A huge fireball burst into the head of the Blood Elf Guard.

“8006” (Critical Strike)

The high magic resistance makes it difficult for Lu Yang’s magical injuries to deal too much damage.

“An enemy attack, an enemy sneak attack.” The Blood Elf Guard was thrown back, and after reacting, he raised his long knife and rushed towards the landing sun.

Nine blood elf guards around him followed.

Lu Yang turned and ran back to the square, came to Han Ying, and said, “Ready, except the triangle symbol I marked, everything else is under control.”

Han Ying nodded and saw the ten Blood Elf guards running over, and immediately ordered the nine-headed dragon to release his skills.

“Nightmare”

The blood elf guard with a circle on his head was lethargic.

“Shock”

A mental chain appears around the body of the guard with a diamond symbol on its head, trapping it in place.

“Thunderbolt”

...

The nine-headed dragon continuously released the control skills and trapped 9 guards in place, leaving only a triangle symbol to continue to rush to Lu Yang.

“Red Mist Bloodthirsty”

Xiao Liang jumped in front of the guard with the triangle symbol to activate the control skills.

The guard was forced to look at Xiao Liang and raised his sword to attack.

“8068”

Xiao Liang was surprised when he saw a large piece of blood falling, saying, “The damage is so high, I have more than 7,000 defenses, and iron wall skills. I can still kill so much blood.”

His total blood volume was only over 30,000, which was equivalent to stabbing 5 swords and dying.

“Frustrated roar reduced his output, Han Ying used the curse of weakness.” Lu Yang said.

“Look at me.” Han Fei jumped behind the blood elves and launched his sneak attack skills.

“864”

A dizzy symbol lit up on the blood elf's head for 2 seconds.

Taking advantage of this opportunity, Xiao Liang shouted to reduce the target's damage by more than 500. Han Ying used curses to reduce the target's damage by 1200 points. Han Fei used a poisoned dagger to reduce the target's attack speed by 20%.

After 2 seconds, the blood elves woke up and attacked again at this time. In the absence of Red Mist Bloodthirst and 1000 defenses, Xiao Liang suffered less than 700 damage.

“I'm going to faint him too.” Han Sha jumped behind the blood elves and stabbed them in the guard's neck.

“1579”

The blood elves only stunned for 1 second this time.

“Strange, why is the dizziness shorter and shorter?” Han Sha asked.

Lu Yang said: “The eccentric copy is very special. The same control skill can only be used three times, and then it will be invalid, and it will take less time than once.”

This is why Lu Yang must summon a nine-headed dragon. The player has too few control skills. Only nine-headed dragons have nine control skills. The same strange control can be controlled 9 times without re-sampling.

“Their defense is also high enough. I can't beat him with such a high output.” Han Sha said.

Lu Yang said, “Why not call it a copy of excellence, only 40 people are given, but the strange strength is stronger than 100 people. This is not only a competition of the player's hardware, but also the operation of the player.”

Normally, a shield armored warrior with a full set of level 60 nightmares is required to resist the monsters, and 5 shield armored warriors can resist it. Healing and output also require graduation from the equipment of the nightmare replicas.

Lu Yang said, "Everyone pays attention, there is another feature. If the strange here is attacked and cannot be killed within 5 minutes, it will fall into violentness."

Increases damage by 30% and attack speed by 30% during Rage.

Han Fei said: "According to the current output, it is good to be able to kill one in 10 minutes. It must be violent."

Lu Yang took two potions from his backpack and said, "No, we have this."

"Magic Sound Echoes"

Lu Yang dropped the first potion on the target's head, reducing magic resistance by 30%.

"Acid Venom"

Lu Yang dropped the second potion on the target, reducing the target's 3000 armor.

Han Fei just cut it down.

"3989"

"My injuries have recovered so much. What is this?" Han Fei said.

Lu Yang said: “This is an acid venom. Everyone outputs it with all their power. He killed him within 5 minutes.”

“Oh.”

With the reduction of the acid venom, the crowd attacked a lot faster. At 4 minutes, the guards were killed on the ground.

A golden design fell from him.

Plans: Ancient Shadow Moon Helmet (Excellent Gold, Leather Armor)

Level: 60

Defense: 52—86

Dexterity: +100

Stamina: +80

Additional physical attack: +226

Equipment level: 72

Han Fei picked up the drawing and said in surprise: “This helmet has better properties than my Dark Gold level ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ His Dark Gold level helmet has an additional 198 points of attack power, which is less than Excellent Gold 28 points.

Lu Yang said with a smile: “Your one was dropped in the wild. This one is produced in the excellent copy. Naturally, it is better than yours. If possible, I will take you through this copy. When you see the

excellent dark gold You do n't know how strong your stats are when you are equipped with a Level 1 outfit. "

Han Ying asked curiously, "Brother, what does that equipment level mean?"

Lu Yang said: "The equipment level is the level of the item itself. The equipment produced by the excellent copy of level 60 are all level 60. However, the attributes of the equipment dropped according to the difficulty of the monster are also different. If the equipment is dropped by the boss, the attribute is more OK, but also at level 60, the equipment level will be higher than 72, so there is a distinction between equipment levels. "

"Is there such a setting? Doesn't that mean that everyone also wears level 60 equipment, and some people's attributes are much better than others." Xiao Liang said.

Lu Yang said, "That's it."

This is the "Second World" reward for outstanding players. As long as they can get through the excellent copy, as a reward they will get more excellent equipment than players of the same level. However, this is the copy of the excellent level, how easy to get through.

Even the top studios of the last generation, it usually takes three or four days to get through the excellent copies, and only 6 pieces of equipment are produced by the excellent copies.

It takes at least three months for a team of 40 people to gather all the equipment, and the excellent copy has the biggest feature, that is, it can no longer enter the copy after exceeding the copy level.

Therefore, all the servers in the world together, only a very small part can wear excellent equipment, and every team wearing excellent equipment is an enemy's nightmare.

However, currently there is a bug in the excellent copy, and the official has not limited the number of times the copy can be played. Lu Yang believes that with his ability, he can definitely equip his elite troops with a superior dark gold set before exceeding level 60.

At that time, the elite troops under Lu Yang were indeed formed.

"Let's continue," Lu Yang said.

Everyone nodded.

"Kill them." It was time for the control skills of the nine Blood Elf Guards to break free of their bounds and dash towards the landing sun.

Han Ying pointed his finger at the blood elf guard and ordered the nine-headed dragon to use the control skills again.

"Nightmare"

"Shock"

...

Each guard's control method is different from the previous one. In a flash, 9 guards were controlled for another 5 minutes.

Lu Yang took out the magic sound reverberation and acid venom and threw it onto the guard with the round symbol, and said, "Hit him."

The crowd immediately set fire.

...

After 50 minutes.

All 10 guards were killed by Lu Yang. Unfortunately, no more drawings were dropped.

Lu Yang and the others recovered, ran to the garden to pull the monsters, and just arrived at the door, a huge five-meter-long mechanical \*\*\*\* came over from a distance.

Blood Elf Boss

Level: 60

Qi and blood: 11000000 \ / 11000000

The blood elf puppet is an important war tool of the blood elf family. It has extraordinary attack power and defensive power. Judging by the current strength of Lu Yang and others, it is difficult to fight.

Not only them, but even the team of the last generation who painted a lot of excellent copies, it was difficult to hit the blood elf puppet, because this thing is a patrol monster, it can pass without being killed, so many players do not choose to kill him Bypass him directly to fight the strange.

However, this demon dropped 100% of the drawings, and Lu Yang is now in a state of lacking drawings, so he doesn't want to give up.

He remembered that a player posted a video in the last life, and two top players cooperated to output, killing the blood elf puppet. Lu Yang felt that he could also try it.

Watching the blood elf puppet gradually leave the guard group and walked near the door, Lu Yang raised his hand and hit him on the head with a blast.

“10126” (Critical Strike)

“Found enemy, target: Fire Mage.”

The blood elf puppet made a mechanical sound, his eyes glowed red, and ran towards the landing sun.

Lu Yang retreated to the center of the square with a flash, and said, “Here is a big guy, Han Ying turned, everyone is ready.”

Everyone looked at Lu Yang in surprise.

“Boom”

“Boom”

A violent sound came from the front, Xiao Liang turned his head and saw the blood elf puppet. He gritted his teeth and rushed up with his shield.

“Monster Punch”

The blood elf puppet saw Xiao Liang approaching and punched him.

“噔”

Xiao Liang flew straight back to his original position.

“15000”

Xiao Liang said dumbly: “Boss, I can’t carry it.”

Lu Yang said: “Without your resistance, all of you are avoiding. This blame can only be crushed by Han Ying and me to kill him.”

Han Ying asked, “How to fight.”

Lu Yang said: “You are not much different from my wounds after transfiguration. The two of us face each other and the hatred is always in a balanced state. I chase after me more, chase you after you, try again.

“Okay.” Han Ying understood what Lu Yang meant.

“Plane Shuttle”

A shadow flashed over Han Ying’s body, and she disappeared in place, appearing 30 yards from Lu Yang.

“Destruction Transformation”

A pure green light appeared on Han Ying’s body. After the light, Han Ying became a queen of destruction with pale green hair.

System prompt: Increase your spell damage by 20%

Han Ying’s original spell damage was more than 5,000. After the transformation, the magic damage increased by 1,000 points, which is only about 2,000 points less than that of Lu Yang.

“Arrow of Destruction”

A ball of energy emitting a thick green flame in the air carried a green flame tail in the middle of the head of the puppet.

“15056” (Critical Strike)

The arrow of destruction ignores the magic and instantly hits the highest damage, and the demon puppet who is preparing to continue chasing Lu Yang immediately turns his head to look at Han Ying.

Just at the position where the puppet was about to run toward Han Ying, Lu Yang flickered behind the puppet and made a straight line with Han Ying, and threw a bottle of magic sound according to the position of the puppet.

“Pyroblast”

A large fireball flew from the tip of Lu Yang’s wand, hitting the head of the puppet.

“15628” (Critical Strike)

The puppet ignored Lu Yang and ran towards Han Ying.

“Flame Shock”

Lu Yang’s left hand pointed at the head of the puppet, and the fire broke out.

“15626” (Critical Strike)

The puppet did not eat dizziness, issued a fierce roar, turned to Lu Yang and rushed towards him.

Han Ying’s eyes showed a shining light.

“Arrow of Destruction”

Two arrows of destruction were fired in a row. Just when the puppet ran to a distance of 10 yards from Lu Yang, the puppet was attracted by Han Ying and rushed towards Han Ying again.

Han Fei watched the puppets running back and forth nervously to the extreme. Now as long as there is any mistake between Lu Yang and Han Ying, this balance must be broken. The puppets can kill them with one punch One.

Xiao Liang said: “Once the boss and Xiaoying make mistakes, I jump in and roar, no one of you should go.”

Whoever dies!

Han Fei nodded and said, “I look for a chance to retrieve their hearts.”

The heart of the devil and the heart of destruction will fall.

Han Yu has seen the output for a while, and asked, “Brother, can I export?”

Lu Yang said: “Hit, don’t hurt more than our two.”

“Okay.” Han Yu raised his bow and arrow and aimed at the puppet.

Three people attacked, the puppet’s blood loss was much faster, but the speed was still slower than his 11 million HP.

Five minutes later, Lu Yang, Han Yu, and Han Ying only destroyed 2 million HP of the puppet.

“Overload, energy overload.” The puppet suddenly stood in place, making angry sounds in his mouth, his eyes blinking constantly.

The system prompts: the puppet enters the violent state

The puppet’s body turned red, moving 30% faster than before, and rushed towards Han Ying.

“Flame Shock”

“Pyroblast”

Lu Yang hit the head of the puppet for two consecutive skills ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~, and at this time, the puppet was only 8 yards away from Han Ying.

“Target: Fire Mage.” The puppet turned his head and rushed towards the landing sun.

...

Xiao Liang was startled and almost launched his jumping skills, saying, “This is too difficult. The boss and Xiaoying are too powerful.”

Everyone nodded.

After 20 minutes.

The puppet was finally beaten into blood, and Lu Yang raised his hand to hit a puppet on his head.

“Power failure, power failure.” The puppet made a mechanical sound and stopped in place, a golden design fell out.

System prompt: you killed the blood elf puppet

You get 28628 experience

Chapter 596 - Salas \*

Lu Yang walked to the demon doll 5 meters away, picked up the design, and said to Han Ying, "It's all right."

Han Ying shook his head and said, "I'm fine, what drawing."

Lu Yang shared the drawing to everyone and said, "Good luck, I got a shield drawing."

Plans: Elves Legion Barriers (Excellent Gold)

Level: 60

Defense: 686—788

Stamina: +80

Constitution: +80

Additional defense: +120

Equipment level: 72

Han Ying said in surprise: "This shield is so much more defensive than the Sartre shield."

Xiao Liang said: "It has more than 260 defenses."

Lu Yang said: "There are 8 pieces in total. If all of them are made up, Xiao Liang's defense will be increased by 1000 points."

"If that's the case, will I be able to resist the strangeness here." Xiao Liang asked in surprise.

Lu Yang said: "The mobs can, the lord still can't carry it."

"This copy is really difficult," Xiao Liang said, dejected.

Lu Yang laughed and said: "Don't be discouraged, let's take it slowly, first type out the parts, then go back to the copy of the nightmare difficulty, and play all the equipment before coming here."

There are 8 pieces of excellent gold shield armor equipment design drawings at level 60, including shields, helmets, hand guards, breastplates, leg armors, belts, shoes and rings.

Put together these 8 pieces of equipment, the total defense value is not much different from Sartre's all 17 pieces of equipment, plus the attributes of blue feather and muddy wine, fully capable of level 60 copies of nightmare difficulty.

Lu Yang's play is a leapfrog game. Normally, you should start with a copy of level 60 ordinary difficulty, and slowly accumulate equipment to the epic copy. Wait until the gold equipment in the epic copy is fully played before going to nightmares. Difficulty copy, wait for the nightmare difficulty copy of the equipment to play all the way to the excellent copy.

In this order, there is no way to achieve it for three months. However, Lu Yang had a nine-headed dragon to help, and first completed the 60-level excellent parts drawings, the 60-level excellent parts 8-piece set, and the 60-level gold. The 17-piece outfit has comparable attributes.

In this way, Lu Yang's 100,000 players who are upgrading in the nightmare book will rise to level 60 and get out of the copy. Han Zhong will be able to prepare 60-level excellent parts that can be worn by 100,000 people.

They can get a copy of the nightmare difficulty by changing the equipment, and Lu Yang's head has a copy of the customs clearance strategy. It is easy to create an elite army of 100,000 gold suits and excellent spare parts.

At that time, the guild players such as Liu Jie, Li Xiuyu, and Mai Lizhe said that they had opened up wasteland to the level 50 copy. Most of them got the level 40 copy gold. On the battlefield, Lu Yang could easily destroy them.

Lu Yang said, "Let 's continue, you wait for me to pull the monster."

Everyone nodded.

Lu Yang came to the garden area. On the road leading to it, there was a large leafy tree. Under the tree, there were 10 blood elf guards chatting.

This wave of blood elf guards are all shooters. Everyone holds a peculiarly shaped long bow. Each of the two ends of the bow comes with a tooth-like ornament. The color of the entire bow is not cold, but Bright red gold looks extra cool.

This longbow is called Salas \*, and is the best bow and arrow except the bow that the ultimate copy eventually dropped.

Although the official opened the copy, but for the players of the forging department still has a way to live, that is, a variety of weapons and equipment, forged equipment is second only to the final equipment, if the player has forged equipment, it is easier to open the excellent copy.

Lu Yang looked around, and found that the next blood elf puppet was more than 60 meters away. He raised his hand and hit a blood elf archer, hit a blood elf archer, and turned and ran back to the square.

The blood elf archer had a shooting distance of 70 meters, which was 40 yards away from Lu Yang, and he raised his bow and arrow and fired at the landing sun.

“flicker”

A white light lit up on Lu Yang’s body, and he jumped to a distance of 30 yards. He threw the escape dagger back to the square, and ran out of the archer’s range.

“Catch him for the glory of Salas,” a blood elven archer shouted.

10 blood elves archers quickly chased the sun and entered the square.

Han Ying had the experience of controlling mobs for the first time, and became more proficient the second time. When he saw the mob coming, he ordered the nine-headed dragon to use the control skills to easily control nine shooters.

Xiao Liang snarled and rushed to the remaining elven shooter to launch the \*\*\*\* red bloodthirsty and control the monster firmly.

Lu Yang threw out the magic sound reverberation and acidic poisonous mist, and said, “Attack together, pay attention, hate don’t exceed Xiao Liang. His bow and arrow damage can be easy for us in seconds.”

The blood elf shooter has the same skills as the player, and can also jump backwards. Within the time controlled by Xiao Liang, the blood elf shooter jumps back 30 yards.

“Concussion Arrow”

Twenty bows and arrows with yellow rays flew to Lu Yang and others.

“Hurry up.”

Lu Yang shouted this sentence the moment the archer jumped backwards, and the moment the arrow shot at him, Lu Yang turned on the heat and quickly escaped easily.

Mu Yu and Han Ying each use space teleport skills to jump away.

Han Fei flashed into space and Han Yu jumped to the side.

Han Sha et al. Were relatively simple. At the same time, they launched flashing assault skills, jumped behind and continued to attack the archer.

Only Xiao Liang hit an arrow.

“8808”

Xiao Liang jumped in front of the archer and continued to attack, saying, “This strange attack power is too high.”

Lu Yang said: “Keep melee at all times, don’t let him use long-range skills.”

The Blood Elf Archer is the same as a human player. The bow and arrow cannot be used within 5 yards. They can only be attacked with melee weapons.

He can launch jumping skills every 30 seconds. Only then can he use long-range attacks. As long as he jumps closely, he can only shoot at most one arrow. This is the best way to break his skills.

quickly.

The next 30 seconds arrived, Xiao Liang saw the blood elf shooter jump backwards, and immediately jumped forward. The blood elf shooter just landed, and he also fell in front of the opponent. The blood elf shooter did not shoot an arrow. Use physical attacks.

“Pretty.” Han Fei said.

Xiao Liang proudly said, “Hey, I’m not a white trainer ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang smiled comfortably and said,” Continue to output, don’t forget that he will be violent after 5 minutes. “

Everyone nodded.

The shooter shot was much lower than the melee armor. After 3 minutes, the shooter was killed and a drawing fell out.

## Chapter 597 - Sunfire Robe

() Han Yu saw the attributes of the bow and arrow and said, "This weapon hurts so much."

This weapon has a total damage of 1045 points and also comes with physical penetration.

Han Fei said: "My total Dark Gold double-knife damage is only over 800. The attributes of this bow are too good."

Lu Yang said, "You take a break first, and I'll go back."

Having obtained 3 drawings, Lu Yang stepped out of the copy and used a goblin robot to build a sentry tower behind the village. He used the fort to return to the city and rolled back to St. Gall.

Putting on the Red Flame Lion King, Lu Yang came to the north smithy.

Doorway.

Han Zhong is in a boring stall. Since the official launch of the copy, the smithy's business has plummeted. Players have gone to the copy to play equipment. Few people buy equipment. Han Zhong's forging, tailoring, and leathermaking masters have changed. Become idler.

Fortunately, these people's wages are based on basic wages, and each person earns more than 10,000 credit points per month. Even if they do not have a job, they may not have no income.

Han Zhong had previously sought Lu Yang for this matter. If these people do not start construction for a month, Lu Yang would lose more than 5 million.

Lu Yang didn't care about these things. In the last life, these people helped him during his most difficult time. Lu Yang had no problem raising them for a lifetime. Simply, Lu Yang gave them an extra week of vacation while taking Chinese New Year to let them. Come back to work after the fifteenth day of the first month.

At this time, the blacksmith shop was only with Han Zhong and a small number of life players on duty. When he saw Lu Yang coming, Han Zhong asked: "Is there anything wrong?"

Lu Yang took these three drawings out of his backpack and said, "Find three people to learn this drawing."

Han Zhong took over the design drawings: Salas, the Ancient Shadowmoon Helmet and the Elven Legion Barriers, and said in surprise: "How good the equipment attributes are, the replica equipment is not as high as this."

Lu Yang said: "These are excellent gold equipment, better than the equipment attributes produced by the Nightmare difficulty copy. Look at it, and the smithy's business will soon pick up."

Han Zhong nodded with excitement and asked, "Are the drawings producing energy?"

Lu Yang said: "Yes, I guess I can make a drawing for all life players in two weeks."

Han Zhong breathed a sigh of relief and said, "That's great. The smithy's business has been saved. I'll find someone to build it for you."

"Okay." Lu Yang found a place to rest.

After 20 minutes.

Han Zhong came back with a handful of Salas and handed it to Lu Yang, saying, "The build was quite smooth, this weapon is really good."

Lu Yang took it and said: "I will collect the drawings as soon as possible in the past few days. The materials are with Tu Feng, and I will let him send them in batches."

Lu Yang flew back to the demon temple with a spell, gave Saras 10 physical penetrating gems, and teleported back to Blood Elf Island.

Han Ying and Mu Yu were waiting for him at the elf elders and saw Lu Yang coming. Han Yu ran to Lu Yang and said, "Brother, is the weapon ready?"

Lu Yang handed Salas to Han Yu and said, "Look at how."

"My damage is more than 200 points." Han Yu said.

Lu Yang said: "If the full set of equipment is in place, your damage can be more than 1,000 points."

It is mainly physical penetration. At this stage, the upper limit of the attack cannot be increased too much. If you want to play damage, you can only start by reducing the target's defense and magic resistance.

The full set of excellent shooter parts can save more than 2,000 armor, which is equivalent to more than 2,000 damage per output.

Lu Yang said, "We continue."

The crowd followed Lu Yang into the copy.

Crossing the square, Lu Yang walked into the garden and walked along Shizi Road, and found 10 blood elves mages beside a row of benches.

Blood Elf Mage Elite

Qi and blood: 60000006000000

These mages have flames, as well as frost and arcane.

Lu Yang raised his hand and hit a mage with a blast. He turned around and ran back to the square with flashes and escape daggers. He said, "This wave is a mage monster, and I am responsible for fighting it."

The output of the mage monster is extremely horrible. A fireball can deal 20,000 damage. Once a critical strike occurs, Xiao Liang can be instantly killed.

"Intruder, be prepared to be purified by me."

Ten mages ran to the square, and they all scolded after seeing Lu Yang.

Han Ying pointed with one hand, the nine heads of the nine head dragon released the spells at the same time, trapping 9 mage in place, only one flame mage ran to 30 yards in front of Lu Yang.

“Fireball”

The fire mage chants a spell. Generally speaking, fireball requires 25 seconds.

Lu Yang secretly counted the time. Just when Flame Master read it for 2 seconds, Lu Yang took a step back.

The fire mage’s attack was immediately interrupted.

The system prompts: The target you are attacking exceeds your attack range.

The flame mage took a step forward to continue casting, while Lu Yang continued to throw two large fireballs in succession and then took a step back.

The fire mage’s attack was interrupted again.

This method is a little trick of the last life. The official set mage’s attack distance is 30 yards. After this distance, the mage cannot attack, and can only continue to move forward and re-enter the range.

Lu Yang used this method to continuously retreat from the attack distance, and at the same time used Pyroblast and meteorite impact attacks. Soon, the fire mage was killed by Lu Yang and Han Fei and others on the ground. Unfortunately, no drawings were dropped.

“Next, Master Bing.” Lu Yang said.

Soon, all 10 mages were killed, but still no drawings came out.

After Lu Yang and everyone rested for a while, they ran into the garden and continued to blame.

The next wave of monsters is also a blood elf mage. When Lu Yang killed them, a drawing fell from the fire monster.

The total damage of this robe reached 506 points, as well as spell crit and spell penetration. The damage was 100 points more than the level 60 gold uniform, and the uniform did not have spell penetration.

Inside the guild.

Xia Yuwei, Zhuojiu and Tu Feng have just arranged to upgrade their copy.

“I’m exhausted, I’m really exhausted today.” Xia Yuwei said with a lazy waist, and the lazy attitude immediately fascinated Zhuo Jiu and others.

This is already a normal state, and since seeing Xia Yuwei himself, Zhuo Jiu and Zhou Tianming have been in this state.

Chapter 598 - Equipment comparison

“I don’t know what the boss is doing.” Zhuoshu said comfortably in a chair.

Tu Feng said: “It seems to be playing equipment in the copy.”

The system prompts: player zero sent you a picture.

Tu Feng subconsciously opened the picture and saw the content above, his face could not help but reveal a dignified look.

The White Lion just turned his head and saw Tu Feng’s face was not right, and asked, “Is something wrong?”

Tu Feng shared the picture with everyone and said, “Look at it.”

Dusty Wine frowned and said, "This equipment has 15 more magical damage than the 60th-level uniform mage coat. Where did you get it?"

Tu Feng said: "This is a picture that my spy got from Liu Jie. Today, Liu Jie's two studios successfully opened up a 60-level copy of Stormwind Castle, where they killed the old one."

White Lion said: "It's not easy. At least there are more than 100 studios under Liu Jie's studio. One opens up copies, which is equal to 100 open copies. This is not a small force."

Tu Feng said, "I need to wake up the boss."

"Yes," Xia Yuwei said.

Tu Feng immediately sent the photo to Lu Yang, explaining the situation.

Lu Yang sneered and sent the picture of the Yangyan robe to the simulation group, saying, "Look at this."

Tu Feng, Xia Yuwei, and others opened the picture curiously, and were shocked to see that the robe had over 500 injuries.

He loved for a long time and said, "Boss, where did you get this equipment?"

Lu Yang said with a smile: "This is not equipment, it is blueprint."

Everyone looked at the robe again, only to find that there were three characters on the front of the yang robe.

Tu Feng said excitedly: "This robe is energy-producing !?"

Lu Yang sent other drawings to the simulation group and said, "These are all energy-producing."

Xia Yuwei said, "Where did you get it? The attributes of these equipment are so high."

The Yangyan robe has more than 150 points of magic damage than the storm coat.

Lu Yang said: "In the copy of Blood Elf Island, if you are bored, you will come together. I have more than 20 empty places."

"I will come when I have time." Zhou Tianming said.

"Let's also come," said the White Lion.

Seven legionnaire commanders and a group of deputy legionnaires, as well as Hei Yan, all applied to enter the copy.

Lu Yang's scepter of teleportation had just reached the cool-down time, and they waited in the inner area of the Red Fortress. He returned to the fortress and took 24 people, including Xia Yuwei, flew to the Blood Elf Village and entered the copy together.

Looking at the exquisite buildings in Blood Elf Square for half a life, I was surprised and said, "Boss, this copy is quite difficult to fight."

Lu Yang said: "Here is the top of all the copies of level 60. If you get through this copy, it means that you have the top level 60 equipment."

Everyone was amazed.

Xia Yuwei looked at the nine-headed dragon Habis and asked curiously, "What is this?"

Lu Yang said, "This is Xiaoying's Warlock's summoning beast."

Whoever said madly in my life, his eyes brightened, "Boss, I want to get one too."

Lu Yang shook his head and said, "You can't get this. This can only be summoned with a heart of destruction."

"Heart of Destruction!" Everyone looked at Lu Yang in surprise.

Lu Yang nodded and said, "Luo Zhenhao's daughter was found. In order to repay me, he told me the clue of destruction. I tried to find it, but I didn't expect to find it."

Han Liu's ever-changing iceberg face couldn't help showing a look of wonder, saying, "Xiaoying has got the heart of destruction?"

Lu Yang nodded.

“Then our guild has four artifacts,” Lan Yu said.

Lu Yang has the heart of the demon god, Mu Yi has the wolf totem, and the moon goddess that has not been used for the time being and the heart of destruction just hit.

“It’s good for everyone to know this thing, don’t say it, this thing is too hateful, let other guilds know we have this, we must gather to kill us.” Lu Yang said.

Everyone nodded, the strategic significance of this thing was too heavy. Only Lu Yang alone possessed the heart of the demon and could continuously release the secondary forbidden spell. If the four pieces are brought together, the power is too powerful.

Zhou Tianming asked: “Is there a curse for the heart of destruction?”

Han Ying shook his head and said, “No, only this big guy, or my brother found the special rum, helped me catch it.”

“What skills will he have?” White Wolf asked.

Han Ying said: “Nine control skills, each of which can control the target for 5 minutes.”

Everyone: “...”

“Nine control skills, 5 minutes each?” Bai Hu said.

Han Ying nodded.

“I want to see the strength of this big man.”

Lu Yang laughed and said, “You wait, I’ll blame.”

Having everyone wait in place, Lu Yang walked into the garden and found the fourth group of monsters. This is a group of warlocks.

Lu Yang frowned. This was the hardest wave. One of these warlocks accidentally summoned a hellfire.

Unlike the player, the Hellfire summoned by the blood elves has more than 30,000 attack power. In addition to Xiao Liang's resistance, everyone will die.

Lu Yang stepped back 80 yards from the Blood Elf Warlock. This is a place where the Warlock can't hit the Hellfire. Only here.

"Destroy the Sky"

Lu Yang pointed the sky with his right hand, and a red fire flew up. After 2 seconds, a middle \*\*\*\* of 10 warlocks slammed a \*\*\*\* fire.

"522"

"577"

...

Ten warlocks shared all the damage.

"An enemy attacked and killed them." The blood elf warlock, headed up, raised his staff and shouted, and ran over with the remaining 9 towards the landing sun.

Lu Yang started flashing and escaping the dagger, quickly ran back to the square, and said, "This wave is a warlock monster, knowing to release hellfire. Han Ying pays attention, don't let them release their skills."

Han Ying nodded and saw 10 warlocks ran to the entrance of the square and immediately directed the nine-headed dragon to release his skills.

“Nightmare”

“Shock”

...

Ten warlocks saw Lu Yang enter the attack range and chanted a spell summoning Hellfire, but did n’t wait to finish it ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ each trapped in place.

The only Destruction Warlock who was not under control was jumped in front of Xiao Liang by the time of the spell, interrupting the cast with Redmist Bloodthirsty.

Blood Elf Warlock [Elite]

Level: 60

Qi and blood: 6000000/6000000

“The mobs have 6 million blood, and this copy is well-deserved.” White Lion said.

The blood elf warlock held up his wand and hit a stick on Xiao Liang’s head.

“160000” [Critical Strike]

The turbid wine poured Xiao Liang with one finger.

“Holy Healing”

Xiao Liang’s body glowed a golden light, and his blood returned to full.

Chapter 599 - Yang Yan Series

“A warlock blame the physical attack so high?” Bitter love said for a long time in surprise.

Xiao Liang shook his head embarrassed and said, “I just made a mistake and forgot to set up a shield, hehe.”

Everyone: “...”

Lu Yang laughed and said, “Concentrate.”

“Oh.” Xiao Liang erected a shield to resist the warlock’s wand, and this time he only suffered more than 5,000 points of attack.

“Mage output, you do n’t want to go up and stay in place.” Lu Yang said.

A more prominent feature of the blood elf monster is his appearance. Only a player of the same height can only surround eight players around him. Even if there are more melees, he cannot attack.

Lu Yang’s previous thought was to let the players attacking in the first row squat down, so that the players in the second row could also hit.

However, it can only accommodate up to 16 people, and there is also an empty space for the mage and shooter in the back row to output.

White Lion and Xia Yuwei also found problems in close combat, and could only stand by Lu Yang and wait.

However, even so, with the addition of Hei Yan, Black Knight, Nanfeng Zhiyi, and Vulcan and other legal players, the speed of fighting monsters is still much faster.

In 3 minutes, the first warlock was killed on the ground.

A golden drawing fell to the ground.

Plans: Sunburn Gauntlets (Excellent Gold)

Level: 60

Defense: 20-26

Intelligence: +90

Stamina: +68

Spell damage increased: +272

Increased spell critical strike: +118

Increased Spell Penetration: +168

Heiyan said in surprise: "The Yangyan series have so high damages. If 17 pieces can be made up, the damage will easily go up to 6000."

At level 60, you can have 6000 magic damage, which can almost kill all non-anti-war and anti-riding classes.

Lu Yang said: "17 pieces are not matched, 8 pieces can still be matched."

This includes the weapons with the highest damage to France.

Suffering for half a life said: "It's also very strong. There are at least 3,000 points of 8 damage. Counting other equipment, how can you make up 5000 damage."

Lu Yang calculated and said, "This excellent copy has 8 mage equipment. The nightmare-level copy outside can get 9 pieces of dark gold, all of which add up to more than 5,800 magic damage. If we are lucky, we can make it in a short time. If you are all together, you will come back to fight the boss of Blood Elf Island, and the better parts produced can reach more than 8000 spell damage. "

As soon as Heiyan's eyes lighted up, his fire magic unit and other units are special. Everyone knows how to simplify spells. Many of them can be instantaneous. If the magic damage can reach more than 8000, his men can easily shoot in seconds. people.

"So high!" Xia Yuwei said incredulously.

Lu Yang said, "I just talk about it. Generally speaking, the probability that we get through this copy is very low."

"Let's try our best," said the turbid wine.

Lu Yang said: "Then we continue, the blood elves who set the fire triangle symbol."

After 5 minutes, all the remaining 9 blood elves were resurrected, and Lu Yang took everyone out to kill them.

Taking a short break, Lu Yang continued to pull the monsters.

It may be that the previous luck has been used up, and there are no more than 80 monsters left to draw a drawing.

Looking at the remaining one, Lu Yang said, "If we kill it, we will take a break."

"Ok."

Blood Elf Spell Puppet (boss)

Level: 60

Qi and blood: 11000000/11000000

Lu Yang said: "This is a magical puppet. I'm in charge of resisting monsters. Please be careful not to exceed my output limit."

Everyone nodded.

Lu Yang watched the blood elf magic puppet reach the junction of the garden and the square, and raised his hand to hit the puppet's head with a blast.

"6006" (Critical Strike)

The blood elf's head turned to Lu Yang, his eyes glowed golden, and he said with a mechanical voice: "Identified the intruder, target: Mage of the Flame."

There is no strange thing in the garden. Lu Yang doesn't need to pull it back and stand still. The spell in his mouth keeps saying, and the crimson meteorites in the sky are impacted one by one.

The blood elf puppet suddenly gave out a more shining golden light in both eyes.

“Magic Laser”

Two golden rays shot at the landing sun instantly.

Lu Yang blinked slightly, easily avoiding two lasers, and hit a puppet backhand on the head of the puppet.

The attack method of the puppet is very simple. It only has more than 30,000 lasers. In theory, this monster should be resisted by the druid, because the druid's bear form is a natural shield with high magic resistance.

Lu Yang avoided small spaces in situ, while easily avoiding one laser after another, he was able to fight back constantly.

Hei Yan, Mao Qiu and others cooperated with each other and quickly killed the puppet on the ground.

A golden scroll fell.

Han Fei picked it up and shared it with everyone, saying, “Mage's.”

Sunburn Pendant (Excellent Gold)

Level: 60

Intelligence: +100

Stamina: +80

Spell damage increased: +426

Increased spell critical strike: +228

Increased Spell Penetration: +236

Lu Yang said: "The mage's Yang Yan series is complete ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Hertos suit has no necklace. This piece of equipment can be used by Lu Yang. Let everyone rest in place. Handed the drawing over to Han Zhong, and let him find someone to make it.

Half an hour later, Han Zhong gave Lu Yang a yangyan pendant, a yangyan handguard, and a yangyan robe.

Lu Yang added three pieces of equipment to each of the 10 pieces of spell-penetrating gems, returned to Blood Elf Island and handed it to Hei Yan, saying, "You take it first."

Heiyan saw the equipment with a surprised look, and said, "Boss, you've hit 10 gems. This is so precious."

The 10-segment spell penetrates more than 3,000 credit points in the gem market price, and three are 10,000 credit points.

Lu Yang said: "We will open up the wasteland as soon as possible. After this time, three sets of Yangyan equipment will come out of the blacksmith's shop. I will give you 10 gems. These are the daily expenses of the guild.

Everyone nodded. Unlike other guilds, Lu Yang invested heavily in his players' equipment. As long as it is beneficial to the guild, Lu Yang will not hesitate, and will not use this to gain his gratitude.

Vulcan asked Hei Yan, and said, "How much did your spell damage increase?"

Hei Yan said: "It has increased by 600 points, which is far better than the level 60 gold equipment."

Level 60 gold uniform robe, only 275 points are added to spell damage, without spell penetration and crit.

"Hey, I really want to know what it would look like if all 8 items are all together." Said bitter love for a long time.

"Keep playing, you know." Lu Yang clicked to restart the copy.

Prompt: Are you sure you want to discard your current progress?

Lu Yang chose to say, "Into the copy, we brush for the second time."

"Yes." Xia Yuwei and Zhuo Jiu and other people said vigorously, followed the landing Yang into the copy.

Chapter 600 - Goodrian War Staff

After three hours.

Half of the blood elves were killed in the garden.

While resting, Lu Yang said, "Nine yangyan suits have been newly created in the blacksmith's shop. I'll go back."

The eyes of Vulcan and black clothes were brightened.

"Good boss, we are waiting here." Vulcan said.

Lu Yang laughed, returned to the smithy and took away nine sets of three sets of Yang Yan, all marked with 10 pieces of penetrating gems.

Returning to the copy, Lu Yang distributed the suit to Mu Yu, Black Knight, Nanfeng Zhiyi, Vulcan, and 9 mages and warlocks who insulted me.

The exquisite yangyan robe is very gorgeous in appearance. The overall color of the clothes is a mixture of red, gold, and black. It is not only gorgeous, but also solemn and majestic.

"Wow, this dress is so handsome." Vulcan m16 said excitedly.

Lu Yang watched his men wearing this equipment can not help but feel a little excited. In the last life, only some elite guild troops had such robes, and the rest were not qualified to wear them.

At that time, there were 5 sets of materials required for such a robe, each of which required more than 10 gold coins, and at least 15,000 yuan for such a piece of equipment.

This life is different, because the price of materials has plummeted, and now the total value of a yangyan robe is only 1 gold coin, and the total value of a three-piece suit is only 3 gold coins.

Lu Yang said: "Let's go on, the next wave of monsters is the mage, and strive to make a staff drawing."

"Yes."

Everyone also wanted to see what the staff looks like.

Lu Yang walked into the garden, raised his hand to hit a blood elf mage with a blast, turned around and jumped back to the square with two flashes.

“There are intruders.” Ten mages chased after landing and ran to the square.

“Nightmare”

“Shock”

“Thunderbolt”

...

Nine consecutive control spells were sprayed from the mouth of the nine dragons, and nine mages were easily locked.

Lu Yang used his evasion ability to control the mage, and led the team to output quickly. This time, 9 people changed their equipment and their magic damage increased by 600 points, which is equivalent to an increase of 5400 damage per second.

Killing Blood Elf Mage is slightly faster than before.

After 3 minutes, the Blood Elf Master fell above. When everyone looked at the Blood Elf with excitement, a golden page fell to the ground.

Han Fei picked it up and shared it with excitement.

Increased Spell Penetration: +255

Lu Yang shook his fist vigorously and said, "This is the staff, it's beautiful."

Compared to the level 60 gold uniform staff, the magic damage is increased by 301 points, and the staff is 200 points more.

"It's really coming out," the White Lion said in surprise.

Hei Yan said: "The French injury has increased by 200 points. I can't wait to see our full equipment."

Lu Yang said, "We continue."

...

For a whole day, Lu Yang took Xia Yuwei and they were soaked in the copy, which did not end until 12 pm.

Fortunately, I got another design of the Sunfury ring.

In this way, the mage's equipment is only the last two cloaks and boots.

Lu Yang gave the drawings to Han Zhong and fell asleep. The next morning, Han Zhong gave a storage bag to Lu Yang and said, "All the design equipment, 30 pieces each."

Obviously, Han Zhong stayed up late with his subordinates again. I have to say that Han Zhong's body always reflects the style of soldiers. This tough and dare to take charge makes the whole blacksmith shop with a strong struggle.

Lu Yang took the storage bag to Han Ying and asked her to wait for Xia Yuwei and others. He flew to Beifeng City by himself.

After more than half a month, Wang Teng's men became active again. According to the information collected by Tu Feng, more than 200,000 men under Wang Teng had already obtained a full set of gold equipment in the 40-level epic copy.

In his more than 30 studios, nearly a thousand elite players have hit a full set of 50 gold equipment.

The entire guild was caught in a mood of war, and there was a lot of plans to seek revenge on Lu Yang. Therefore, Lu Yang decided to come to Beifeng City to see for himself.

In the prosperous street of the north of the city, Lu Yang used a camouflage coat to turn into a humble human player, turned around the corner and walked into a place named Tenglongju.

This is an online celebrity shop opened by Wang Teng, which has a large number of online celebrity performance shows, which attracts many otaku to watch.

At the same time, this is also the place where Wang Teng and the major associations of Beifeng City communicate with each other. According to the news that Jin Buchang received, today Wang Teng will entertain the bosses of various associations in Beifeng City.

Lu Yang just arrived at the door. A woman in ancient costume dragged an elegant white dress to his front and said with an intoxicating voice: "Sir ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I look forward to seeing you, for the first time. Come? "

Lu Yang said with a smile: "Yeah, I came here for the first time, and I just got through the copy recently. I want to find a place to relax. Can you do it here?"

The woman covered her small mouth and laughed softly, "The officials invited, as long as you have money, you are satisfied here."

"You can really benefit." Lu Yang took out two gold coins and threw it to the woman, and said, "Take me in to see, this is a tip."

The woman took the gold coin without showing a surprised expression. Obviously, this money was not much to her, and the rich boss gave more rewards than this.

“I’ll take you in.” The woman said.

Lu Yang nodded. As the woman walked into the door and just went up to the second floor, Lu Yang saw a player in a 60-level gold suit sitting at an empty table.

Qu Han saw someone come over and frowned.

Lu Yang ignored him, and walked directly with the women, stopping at a table not far from them. Lu Yang asked, “Is anyone in this room?”

“No,” said the woman.

Lu Yang said, “I’ll sit here.”

From here you can clearly see a few girls performing on the stage in the lobby on the first floor, each of them is a beautiful Hanfu silk clothes.

“Of course, if you like, you can sit anywhere, if you need, you can go to the private room next to it, there are many girls there to chat with you,” said the woman.

Lu Yang smiled and shook his head, and said, “I’ll take a look first.”

“Call me if you need to.” The woman turned and left.

When Qu Han saw Lu Yang sitting not far from him, he was alert, and kept glancing at Lu Yang.

Lu Yang didn’t make up for the cold, pretending to watch the show with interest.
