

Wild Fire 601

Chapter 601 - North wind city

After 10 minutes.

Wang Teng's happy laugh came from the stairs.

Lu Yang looked over, and more than 10 people followed Wang Teng. Through the face recognition system, Lu Yang recognized that these people were the presidents of the more powerful guilds in Beifeng City.

Obviously, Wang Tengxuan negotiated with these presidents in such public places in order to force them to form an alliance with him.

Regardless of success or failure, these presidents and Wang Teng talked about Lu Yang's attack. It didn't make sense to justify them.

Even if they didn't think of attacking Lu Yang in the future, Lu Yang couldn't believe what they said. Once misjudged, it could cause irreparable losses to the Brotherhood of the Iron Blood.

"Oh, brothers, we haven't been together for a long time since we got the copy. We must get together today." Wang Teng led more than 10 people to the table next to Lu Yang.

A guild president looked at Wang Teng with suspicion and said, "General Manager Wang, I don't know if you brought us all this time?"

Wang Teng said, "It's okay, just to gather."

Lu Yang had already guessed Wang Teng's idea, and there was no need to stay here. When he was about to leave, suddenly, a loud conversation came from the downstairs hall.

The host said loudly, "Dear friends, welcome to this auction. I am the auctioneer."

...

Wang Teng said with a smile: "Today is our guild's weekly auction. We might as well see how it is."

Lu Yang looked curiously at the auction. The new expansion pack opened, and a lot of things came out. Wang Teng should not have understood it yet. Maybe there is a missing baby here.

The auctioneer took out the first treasure, a level 10 spell that penetrated the gem.

"I believe that the value of penetrating gemstones is known to all the experts in this room, who we accidentally got, who wants it." The auctioneer asked the gems.

Level 10 penetrating gems are very valuable, because the forging power of this gem is very low. I am afraid that there are only five or six players who are 100% successful in forging 10 pieces of gems on the server, and each has a dice of fate.

Lu Yang guessed that Wang Teng's guild should have a dice of fate, otherwise they would not be able to put it up for auction.

Many people on the first floor and the second floor participated in the auction. After several rounds of auctions, the price of this gem reached 20 gold coins and 6000 credit points.

The auctioneer became more active after warming up the first item, and soon the second and third items were auctioned out.

The price of each item is higher than one item, and by the eighth item, it has reached 300,000 credit points.

Lu Yang looked at these items and shook his head. None of them was needed. He stood up and was ready to leave.

Lobby.

The auctioneer held up the ninth item and exclaimed, "Next is a special item. This is a fragment of a key. It is not clear what the key is."

Someone in the audience asked dissatisfied, "So what do you bring up?"

The auctioneer said: "This fragment of the key was not where we randomly found it, but it was obtained from the final boss of the level 60 nightmare copy. It is quite precious. It is very difficult to get it, so we guess there must be a special purpose, but we don't know yet, who wants to buy it and go back and research it. The starting price is 100 gold coins. "

The players below heard that the output of the final boss of the nightmare copy exclaimed exclamation. When they heard that the starting price was 30,000 credit points, they all made a sound.

"Have you made a mistake? Such a key fragment costs 30,000 yuan. You can type it once and you can type it out for the second and third time. Maybe this is the first time you have sold the fragments." Lu Yang hid said the crowd.

The players originally felt that the fragment was rare. When they heard Lu Yang say this, they put their arms ready to be raised on their legs, each showing a distrustful expression.

"Your auction house is too good at doing business, and once you get a copy, you sell it once." A rich player said.

"I heard that Wang Teng has more than 30 studios. If you open it once, there are more than 30 pieces. This can't be the case." Another rich player said.

These people have long employed Liu Jie's men to upgrade for them, so they don't care if they offend Liu Jie when they speak.

The original idea of the auction house to take this item was to see if anyone knew how to use it. Indeed, they now have almost 100 pieces of key fragments in their hands, but they cannot find the purpose of this key fragment. .

The auctioneer thought that the previous warm-up had raised the enthusiasm of the players. I did not expect that there were so many cool players at the scene, and said embarrassingly, "I don't know if anyone buys it.

The scene was quiet.

In the cold ...

The auctioneer was even more embarrassed. After a while, he raised the hammer in his hand and said, "That being the case, then I announce the flow of this item."

"Wait a minute." Lu Yang raised his hand to [www.mtlnovel.com](http://www.mtlnovel.com) ~ and said, "I bought it."

The auctioneer's eyes brightened and he looked at Lu Yang and said, "This gentleman is willing to spend 100 gold coins to buy, and there is no willingness to increase the price."

At the scene, everyone turned to look at Lu Yang. After looking around, they shook their heads. Obviously, they already understood that even large guilds like Liu Jie did not study the fragments, and they were not able to study and understand. Something is just a waste of money.

The auctioneer thought that there was still someone who could increase the price, but he did not expect anyone to ignore him. He shouted for more than 2 minutes and saw that no one had purchased it, but had no choice but to drop the hammer. I bought this piece if it was fragmented. "

"Coax" burst of laughter at the scene.

Lu Yang followed the emcee and walked into the backstage. He delivered the 100 gold coins and got the key.

Liu Jie saw all this clearly on the stage, and turned his head to make Qu Han wink.

Qu Han nodded and turned down the stairs.

When Lu Yang was about to leave, Qu Han stopped in front of Lu Yang.

Lu Yang frowned and asked, "Is there anything wrong?"

Qu Han smiled and said, "Nothing, just want to ask this friend what you want this key to do. If you know the secret of this key, our guild is willing to buy it at a high price."

Lu Yang shook his head and said, "Sorry, I don't know the secret of this key, I don't even know which copy he produced it from."

Qu Han took a closer look at Lu Yang, hesitated, and said, "Please, please."

Lu Yang turned around and walked out of the door without looking at the subsequent items.

Qu Han looked at Lu Yang's back and whispered, "Follow him."

Ten thieves emerged, then dived into the shadows, followed closely behind Lu Yang.

## Chapter 602 - Mystery Tower Key Shard

Lu Yang stepped out of the gate and went straight into the official hotel. He found a room to rest comfortably.

Now the level of high-end players has reached level 60. Lu Yang's perception ability is still much worse than before. Although he can't find anyone behind him, he can be sure that Qu Han will send someone to follow him.

"Qu Han, you are far worse than me. I will teach you the tricks in these games slowly." Lu Yang muttered to himself.

He changed his appearance in a camouflage coat and walked out of the room. He just came to the lobby on the first floor and saw 10 thieves appearing in a daze in the lobby.

The thief, headed by Lu Yang, knew that Liu Jie's first intelligence master, Yan Mei, had photos and detailed information at Tu Feng.

魑 Charlie did not expect that the people he followed would use such tricks to enter the hotel. They did not have the ability to investigate the official hotel. If they broke through, the consequences would be very serious, and they did not know which room Lu Yang was in. No one.

"Vice-Chairman, people went into the hotel and rested, what should we do?" Wu Meiyu dialed the phone of Qu Han and said.

Qu Han looked at his watch and it was 8 am, and cursed: "Are you teasing me, and he went to sleep in the game at 8 am? Obviously to get rid of your tricks."

魑 charm 魍 魍 said: "I am okay, what do you want me to do in the official hotel."

Qu Han frowned and said, "Leave two people waiting for him in situ, and the others will come back."

Lu Yang walked beside Yan Meiyu, and when they heard the conversation, they could not help smiling, and walked out of the hall leisurely.

At the teleportation point, he flew to the small, level 20 city, Crick, out of the teleportation array, and Lu Yang walked towards the north of the city.

The largest house on the north side of the town is the Mayor's House, a four-story villa-style house.

A middle-aged man looking like a housekeeper stood at the door and saw Lu Yang about to enter the villa. He reached out and stopped, smiling, and said, "Sorry, this is private territory."

Lu Yang smiled and took out the key from his backpack and said, "I'm looking for Mr. Mayor."

The housekeeper saw the key with an incredible expression, and said, "Come in, please come with me."

Lu Yang smiled and paid tribute, followed the housekeeper into the mayor's house, came to the living room, and found the mayor who was reading the newspaper on the sofa.

"Frodo, who is this gentleman?" Captain Caparis asked curiously.

The steward said solemnly, "This gentleman has a fragment of the key of the mysterious tower in his hand."

"What?" The mayor Caparis stood up instantly, looking sharply at Lu Yang, and asked, "Do you have a key fragment?"

Lu Yang took out the fragment of the key to Caparis and said, "I don't know if this is what you said."

"It's exactly this. I've been sending out search ads in the underground market. I never thought I would find it here." Caparis said excitedly as he took the key.

Caparis carefully played for a while, put it in his backpack, and said, "Boy, this key is just a fragment. I don't know if you can help me find other fragments."

The system prompts: Are you willing to accept the mission of Caparis.

Lu Yang chose yes and asked, "How to find it."

Caparis said excitedly, "I don't know. You can only rely on yourself. If you find it, I welcome you at any time."

Lu Yang remembered that Caprith of the last life said the same thing. This is an old bastard. He was very excited about everything, but when he really wanted to help him, he couldn't do anything.

"Okay sir, if I find it, I will come to you." Lu Yang paid a slight tribute and turned away from the room.

"Boss, we are all ready, when will you arrive." A bitter love sent a message to Lu Yang.

Lu Yang could see his excitement after seeing the news he sent. None of the guys who quit the game last night were so excited that when they saw the Master's equipment so good, they remembered hitting their equipment today.

"Wait for me in the guild hall, and I'll come over here." Lu Yang flew back to the city of St. Gall with a teleporting scroll and back inside the guild.

Seeing Lu Yang here for half a life, he said excitedly, "Boss, let's go now."

Lu Yang laughed and took them to the entrance of the replica using a teleportation scepter. Then he took all his equipment and the heart of the demon and gave it to Hei Yan. Don't lose me. "

A demon heart is worth 200 million.

Heiyan said in surprise: "Boss, what are you giving me?"

Lu Yang said, "I accidentally bought a treasure at Liu Jie's auction house, which is a new copy of the key task. I'll go and run, and you will hit first."

Hei Yan quickly took over the heart and equipment of the demon god, and his magical injury exceeded 8000 in a blink of an eye, and said, "Boss ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ This thing is too scary, I will enter this book."

Hei Yan stepped into the copy.

Lu Yang laughed. He didn't think that Hei Yan was so afraid of carrying a demon heart, but thinking about it, Hei Yan was still a child, wearing a 200 million demon heart outside, and it was normal to be afraid.

"My boss is busy," he said. "If we get a new drawing, we will report to you in time."

Everyone knew that Lu Yang was desperate for the guild, and no one begged him for anything.

Lan Yu said, "Be careful."

Lu Yang nodded, took out a set of spare gold military uniforms from his backpack, and bid farewell to the crowd and walked out of the guild hall.

Lu Yang sent a message to Jin Buhuan and asked, "How many bottles of stealth potion do you have?"

Jin Buhuan is researching the potion and proudly said, "Boss, I have just developed a super powerful invisibility stealth potion recently. Would you like to try it?"

Lu Yang covered his head, he found that Jin Buhuai has been getting more and more recently. Perhaps there is security in life. The kid is happier the more he lives.

“Who’s name is so inattentive.” Lu Yang said.

Jin Buhuan said embarrassedly, “Hey, I got it, but without such a cool name, it’s not enough to describe the potency of this potion. He can make a person invisible for 20 minutes. If you lose, is it a stunt powerful potion of stealth? . “

Lu Yang said in a stunned state: “It’s a real name, how did you develop it?”

A normal bottle of stealth potion can make the player stealth for 2 minutes, which is not a bad thing. This potion is stealthed for 20 minutes, which is 10 times longer, which is comparable to the stealth of a thief.

Jin Buhuan said proudly: “My hidden skills, Mo Min has developed wonderfully. I still have invincible potions here, which can be invincible for 2 minutes, all developed with hidden skills.”

## Chapter 603 - Blood Shadow Castle

Lu Yang felt deep inside. Sure enough, the higher the level of Jin Buhua’s refining medicine, the better his hidden skills. Now, if he doesn’t change this account, he can be worth hundreds of millions.

“These medicines are all for me. I’ll go to the office to find you.” Lu Yang said.

Lu Yang walked into the back door of the Song of Blood and Fire Pharmacy Store and went directly to the top floor. He saw Jin Buhuan in the office and got the medicine he was going to use this time.

They are stealth potions, invincible potions, and sticky potions.

The effect of the sticky potion is to fix a target within 10 yards in place for 5 minutes.

Lu Yang said, "Is there anything similar to a viscous potion?"

Jin Buhuan said proudly: "Yes, I have not only super invincible viscous potion, but also super invincible gravity potion, super invincible sheep and sheep potion and super invincible ice spell and ultra invincible flame and chain potion."

Lu Yang, a black line in his forehead, picked up these potions directly to see the effect, and found that each potion is the same as a viscous potion, which can trap the target in place for 5 minutes.

Lu Yang said in surprise: "How many bottles do you have for these potions?"

Jin Buchang shook his head and said, "No, these are randomly generated when I use high-grade medicinal materials to make a potion, and the probability is about 10%."

Lu Yang said, "At this time, you are making all your best potions. I only need these randomly generated by-products to make at least 1,000 bottles of each."

Jin Buhuan said, "Ah, so much."

Lu Yang said, "This has something to do with the progress of our guild's wasteland copy. You work hard to get more hits."

There are six types of these potions, which can be used to replace the nine-headed dragon's control spells. As long as the number is sufficient, Lu Yang can divide a team of players to draw drawings.

"Oh, okay, I try my best," Jin Buhuan said.

Lu Yang nodded and said, "I'm gone. Call me if you have any questions."

Leaving from Jinbuhuan, Lu Yang flew back to the small town of Crick through the teleportation array and ran out of the city.

After the copies were launched, each main city had a perfect copy system, and many of them needed keys to enter.

The key fragment that Lu Yang photographed at Tenglongju this time is the entrance key to the mysterious tower. The first fragment was obtained from the copy of the Lizardman in Nightmare difficulty. Beginning of follow-up mission.

With this beginning, we can find the second shard, and the second shard is located in the copy of Blood Shadow Castle, which is also a nightmare difficulty.

If there is no first shard to start the quest, then no matter how many nightmares the next night, Blood Castle will not get this shard.

Lu Yang replaced a group of ordinary war horses. This is his spare mount. There are many players in Liu Jie's territory. He doesn't want to have extra sticks.

Two hours later.

I sent a picture to Lu Yang for half my life.

Endless Fury Warboots (Excellent Gold)

Defense: 20-26

Intelligence: +90

Stamina: +128

Spell damage increased: +378

Increased spell critical strike: +118

Increased Spell Penetration: +168

“Boss, we’ve hit the drawing of the mage’s boots.” Bitter love said excitedly for a long time.

Lu Yang sighed that the Master’s luck in the guild was too good, and said, “Good job, keep going.”

There is only one Sunfury Cloak left on the mage’s drawing. If it is also hit, the mage’s damage can exceed 5,000 points, and Lu Yang can do more.

Closed the dialog box, Lu Yang continued to run forward, half an hour later, he came to the mysterious place.

A red castle stands on a plain, and the outer wall of the castle is also black from a distance, giving a very bright feeling.

I didn’t understand until I saw the castle’s exterior wall was blood-drained to deep red, but it became black for a long time.

The system prompts: You found the Blood Shadow Castle

According to legend, this castle is the fort of human rebel General Degus. He betrayed humans and joined the blood demon tribe. Later, during the human settlement battle, Degus’ army was annihilated, leaving him and his only. The elite troops hid inside the castle.

Lu Yang walked to the gate of the castle, and a human officer stood beside him, saying, “You are from Captain Caparis?”

Lu Yang nodded and said, "Yes, please open the door for me. I want to go in and clear the enemies inside."

"Pay attention to safety, they are very powerful." The officer looked cautiously at the chain that trapped the door.

Lu Yang stepped into the castle, just entered the door, and saw 30 human infantry standing at the corner in 5 rows standing there.

Heavy infantry rebels (elite)

Level: 60

Qi and blood: 1600000/1600000

"Attention, don't let those \*\*\*\* rush in, we need to protect the general," said the heavy infantry rebel leader.

Lu Yang took the stealth potion from his backpack, this is a bottle of purple potion, he drank it after unscrewing the bottle cap.

A burst of starlight flashed in front of him.

System prompt: You are invisible! Duration 20 minutes.

Normally trying to get through this copy is very troublesome. This is a 50-player ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ strange attack and defense are very high.

Even if there are really 50 people coming, with the help of Raiders, it will not be possible without a week's time, not to mention that it is almost impossible for 50 people to cooperate with the fingers of the arm when it is really up, without two or three weeks. May have played this copy.

Lu Yang's use of medicaments has become the most convenient way to play, anyway, his purpose is not to fight monsters.

Cross 50 heavy infantry and walk along the main road. The terrain of the castle is first hit from the first floor to the top floor, then from the top floor to the next top floor, then to the underground passage and underground river.

Lu Yang walked for 20 minutes to the tower above him, and there was a suspended stone bridge leading to the tower on the other side.

The bridge was full of heavy infantry rebels, and there was no space to pass. Lu Yang looked at the location of the tower from side to side, and the tower on the other side was about 80 meters away.

Lu Yang had no stealth effect at this time, and walked towards the heavy infantry on the suspended stone bridge.

20 meters

15 meters

10 m

The heavy infantry found Lu Yang, pointed his gun at Lu Yang, and yelled, "Who dare to break into the Blood Shadow Castle and kill him."

More than 50 heavy infantry soldiers ran towards the landing sun, and suddenly, a blue light dagger spun toward them.

In the stunned eyes of all the soldiers, the dagger passed through their bodies and reached behind them.

The light flashed, Lu Yang appeared holding a dagger.

The heavy infantry chief looked back at Lu Yang and roared, "The enemy is behind us, kill him."

The heavy infantry turned and chased together.

There was a smile on the corner of Lu Yang's mouth, a white light flashed from his body, and he appeared at the entrance of the second tower. He drank a bottle of stealth potion before the heavy infantry only 5 meters away in front of him.

#### Chapter 604 - Key Fragment 2

"What about people?" The heavy infantry looked around.

"Find him and kill him," the heavy infantry leader roared angrily.

Fifty heavy infantry scattered to start a search.

Lu Yang stood by the stairs, avoiding a group of heavy infantry who rushed downstairs, followed them down the spiral staircase.

After descending two floors to the fourth floor, walking across a promenade, Lu Yang continued down the stairs to a humble room on the left side of the first floor lobby.

There was a lot of firewood on the ground. Lu Yang picked it up and put it to the side, and saw an iron gate on the ground.

The system prompts: You have found an underground tunnel

In the records of the last life, this underpass was used by the rebel generals to escape his life. Since he was trapped here, he ordered his men to dig.

Lu Yang opened the iron gate and walked in the underpass. The underpass began to be narrow, slowly becoming very wide, until a hall appeared below.

In the hall, Lu Yang saw the rebel general Degus, who was wearing a golden armor, about 2 meters tall, and had abnormal blood red in his eyes.

“Damn, why should I be trapped here, tell me.” Degus glared angrily at a blood-red monster in front of him.

Blood demon

Level: 60

Qi and blood: 200000/200000

The blood demon looked at Degus in disdain, and said in an arrogant voice: “This is destiny, it is your life.”

“Damn, I hate this fate, I won’t give in.” Degus scolded.

...

Lu Yang bypassed Degus and the Blood Demon and walked towards the other end of the hall. There was a small lake about 150 meters away.

The lake was formed by standing water. Originally, Degus thought that an escape channel could be dug. However, he did not expect to find hard granite. He tried to dig down, but found that the granite was also underneath. He had to give up this method, but for a long period People went to clean up and dug down the big pit because the groundwater turned into a small lake.

Lu Yang came to the lake and walked backwards. His movement was very slow. He was afraid that something would alarm the two freaks. Once he was shocked, with the strength of the Blood Demon Lord and Lord Degus, Lu Yang would be beaten. Instant spike.

In the lake, there is a blood demon. When he kills him, he will drop the second key fragment. Countless players in the previous life found the first key fragment, but they could n't find the second one.

At that time, many people had arrived at the Blood Shadow Castle, but they had found the basement and killed all the monsters in it. No one expected that there could be a blood demon in such a small lake. Two pieces.

So that when someone finds this fragment later, the full-service players condemn the official, but on the 10th anniversary, the game has been simplified too much, and all old players will sneer when it comes to this matter. Now, the game is too popular and there is no difficulty at all. Unlike them at that time, doing the task is completely experiencing a real world.

Slowly, he dived into the lake, and suddenly, a red object quickly rushed towards him.

Blood demon

Level: 60

Qi and blood: 200000/200000

Lu Yang does not evade and avoids, using the 1st-level spell arcane to impact the hard anti-blood demon.

Lu Yang's defensive power and blood volume were very high in his golden uniform, and he took medicine while exporting, and soon killed the blood demon.

A red object fell out.

Key fragment (second piece)

Lu Yang picked up the debris and flew back to the small town of Creek, using the city roll, and headed towards the mayor's house.

Lan Yu suddenly sent a message and said happily, "We got a defensive blueprint and vowed the guardian helmet."

Plans: Oathkeeper's Helm (Excellent Gold)

Level: 60

Defense: 108—176

Stamina: +100

Constitution: +120

Additional physical defense: +106 points

This is the best anti-war helmet at present, Lu Yang praised: "Good job."

Lan Yu responded with a smug little expression.

Lu Yang shook his head in unsmiling smile and briefly closed the dialog after a few words. He didn't talk to Lan Yu much. He was playing a monster there. He couldn't make Lan Yu special.

Came to the mayor's house.

The housekeeper at the door saw Lu Yang, stretched out her hand with a smile, and gestured please: "The Marquis Caparis is in the living room."

Lu Yang nodded and walked into the room to the living room, where he saw the chunky mayor Capparis.

"Oh, my friend, did you bring a second key fragment this time," Caparis said warmly.

Lu Yang handed him the second piece and said, "Tell me a clue about the third piece."

Caparis took the shard happily, and then looked embarrassed, "Oh my friend, I'm really sorry, I forgot the location of the third shard, as if it was east of the town." At the cemetery, look for it. "

Lu Yang said, "Okay."

The most daddy mission of the last life appeared ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Among all the mission rankings of the previous life, the third key fragment task ranking has been firmly ranked first, even if there is no task after 10 years Able to shake the status of the third Key Shard mission.

The reason is that this task is not done by living people.

At that time, players who could get this task were very rare. There were more than 500 million people in the national service, less than 100,000 people did this step, but everyone was stuck at this step.

They searched all the places in the eastern cemetery, and even the grave was dug up. They could not find the recipient of this task.

Until half a year later, there were more than 20 trumpet players upgrading here, because a boss grabbed a battle and the two sides killed a lot of people. When running the corpse in the state of soul, they found that in the state of soul, the eastern cemetery was above Wandering a female undead.

These players wanted to receive the task but found that they could not receive it, so they posted it to the forum. At this time, the group of players who were once level 60 are now more than 70 levels. They rushed over to experiment and found that the female undead really is the mission sponsor of the third piece.

At that time, the scolding on the forum was so overwhelming that not only the country served, but the whole world was scolding.

The ghost knows that he has to die before doing this task. The key is that the task is still on a level 20 map. The more important thing is that the female undead still wanders around the entire eastern cemetery. The cemetery area is quite large. Needle in a haystack.

Who can imagine such a bad setting, but when they questioned the official, the official answer was even more absolute.

How could you find a living person in the cemetery, of course you are looking for a dead person!

All the players were exasperated, but the official said it seemed unreasonable but reasonable, only to blame the player for being too slow, just like the second fragment.

## Chapter 605 - Mysterious Tower Key

Lu Yang came to the warehouse, stored all the equipment, and walked to the guard at the door, saying, "You fools."

The guards at the gate of the town were all 50-level elites. A total of 6 people were surrounded by Lu Yang's abuses.

"Mage, who were you scolding just now?" The town guard asked angrily.

Lu Yang raised his hand and hit the guard's head with an explosion, saying, "It's you."

The guard was furious and shouted, "Kill him."

Six guards simultaneously raised their spears to attack Lu Yang.

"18068"

Lu Yang was killed on the ground without a shot.

The system prompts: you are killed, choose to respawn the cemetery, directly resurrect or return to the city.

Lu Yang chose the cemetery to be reborn, and the light flashed. He appeared in the cemetery of the eastern cemetery and walked around the cemetery.

After half an hour.

He found a wandering female undead on the northwest side of the cemetery.

"My child, I don't know how he is doing now, my child, I ..." The female undead bowed her head and kept thinking.

Lu Yang went to the female undead and asked, "Can I help you?"

The female undead saw Lu Yang with a surprised look, and said, "This gentleman, my son is lost. I wonder if you can help me find him."

Task Tip: Undead Child

Lu Yang chose to accept, and asked, "Where did your child lose it?"

The undead female mournfully said, "In the north of the town, in the Horn Deer Canyon, I hope you can help me find him and send her to his aunt on the south side of the town."

Lu Yang said, "Okay."

The undead of the last life was also unlucky enough. The child was lost for three months before someone took up the task. Lu Yang thought boringly.

Soul state ran back to the door of the town, found his body and chose to resurrect, a light flashed, Lu Yang returned to human state.

Ten soldiers at the door glared at the landing sun at the same time.

Lu Yang was too lazy to take care of them, replaced the war horse and ran towards the Jiaolu Canyon on the north side of the town.

Horned Deer Canyon is full of adult Horned Deer, which is often visited by hunters in the town, and the creek on the south side of Horned Deer Canyon is where the women of the town do their laundry.

Officials from the last life gave detailed explanations of this mission. The death of the female undead was that he was bitten by a poisonous snake in the water while washing clothes by a stream and died.

His child was frightened and wanted to run back to the town to seek treatment. He did not expect that the little horned deer valley lost his way and was trapped in the dense forest on the east side of the canyon.

According to the memory of the last life, Lu Yang came to the dense forest on the east side of the canyon and found a panic child under a big tree.

“Where’s the road? My mother, my mother ...” The child wiped tears in her right hand and kept crying.

Lu Yang came to the child and asked, “Child, are you lost?”

“My mother, my mother was bitten by a poisonous snake, please go and rescue him.” The child saw Lu Yang and begged crying.

Lu Yang couldn’t bear it, saying, “I’ll take you back to town. Let’s go to the town to find a doctor.”

The child nodded strongly and said, “OK.”

Lu Yang took the child out of the forest, returned to the town, and met the child’s aunt at the gate.

“Oh my child, why are you here?” The child’s aunt sadly approached the child and hugged it in her arms.

When other women in the town went to wash clothes and saw the body of the child’s mother, they returned to the town to report that the mayor of Capparis ordered the soldiers to bring the body back, which had been burned and buried in the eastern cemetery.

The child’s aunt already knew about it and was particularly sad.

Lu Yang said to the child’s aunt: “I saw the undead of the child’s mother in the eastern cemetery. He said to me that the child will be handed over to you later. I hope you can give me your token and the child’s token. I will go back Tell him peace. “

“Great warrior, thank you for telling me this. I will take care of this child.” The child’s aunt removed a silk scarf from her body and took off the child’s wristband and gave it to Lu Yang.

“Thank you.” Lu Yang took the two tokens to the eastern cemetery, found the place where the woman was buried, and placed the tokens on the tombstone.

A light flashed.

The undead figure appeared in front of the tombstone and said with concern: “Sir, did you find my child, right?”

Lu Yang said: “It has been delivered to his aunt, you can rest assured.”

The female undead could not help crying as she watched the two tokens. After a while, she stopped, her body gradually turned into a light spot and scattered upwards.

“Sir, thank you for helping me complete my last wish. I have nothing to repay you. Only this fragment, I hope to be of some use to you.”

The light dissipated, and the female undead disappeared without a trace. Only a fragment of the key fell to the ground.

Lu Yang picked up the key fragment.

System prompt: You got the key shard (third block)

Lu Yang breathed a sigh of relief and returned to the mayor’s house with the key fragments ~  
www.mtlnovel.com ~ Looking at the mayor who was still resting in the living room, he took out the key fragments and said, “Mr. Caparis, this is The third fragment. “

Caparis was drinking coffee, and saw the third fragment sprinted to Lu Yang in excitement. He took the fragment and identified it carefully.

“Oh, God of Light is above you, you are really great, and you have found three pieces in such a short time.” Capparis said.

Lu Yang said, “Can you synthesize him?”

Kaparis’s momentum suddenly rose, revealing a majestic look in his eyes, and said in a high voice: “How can you question the great Kaparis, once I was the first Paladin of Beifeng City, I have Great character and most powerful strength. It takes only a few seconds to synthesize three keys so easily. “

Lu Yang shrugged his shoulders and made a please gesture.

Capparis seemed furious. He took out two other key fragments from his backpack, the holy light surging in his hands, and the three key fragments were suspended in the void.

“The great God of Light has given me divine strength,” Caparis exclaimed.

The light appeared inexplicably above Capparis’ head, a large amount poured into his body, and then poured out from his hands, into three fragments.

The fierce Holy Light storm spun up quickly, and the three fragments spun along with the storm, approaching each other, and finally came together, and a complete key appeared in the hands of Caparis.

“Hum, how about, I didn’t brag, the keys have been synthesized,” Caparis said proudly.

Lu Yang didn’t speak.

Caparis continued: “Not only do I have to synthesize the keys, I also have to take my army into the mysterious tower, destroy the \*\*\*\* fake king, and become a hero of Beifengcheng.”

## Chapter 606 - Decapitation axe

The steward ran in and saw the key excitedly said, "Hearness Earl, you are really great. I'll report it to the king and ask him to approve you to lead the army again."

The steward turned and ran out. Caparis' eyes suddenly became frightened, and he quickly chased out, but, just after taking a step, he fell to the ground and shouted, "Steward, you come back to me."

The steward looked back at Caparis and hurried to his side, held him up and asked, "Master, what's the matter with you, Lord."

Caparis said: "My waist, a waist injury was committed."

housekeeper:"....."

Lu Yang: "..."

This is the classic plot of the last life. Capparis also has a prince named Bragging.

According to official records, before Northwind City attacked the Mysterious Tower, Caparis repeatedly boasted that he would kill the rebel king and become a hero of Northwind City.

I do n't know how to pass it to the mysterious tower. Once and twice, I heard that the rebels in the mysterious tower felt indifferent. Who knew that Capparis was getting bigger and bigger, and even arrogantly said that he would kill the rebel king. A finger.

This news angered the rebel general in the mysterious tower. The other party rode the blood demon dragon to the north wind city overnight and severely wounded Kaparis. If it was not for the rescue in time, Kaparis would surely die.

Since then, Caparis knows the power of the mysterious tower monster, and never dares to be too arrogant, just bragging in a small circle.

And each time Beifeng City sent an army to attack the mysterious tower, Caparis refused to go on the grounds of physical injuries. Everyone knew that he was a straw bale without the ability to brag. Lord of Beifeng City no longer care about him, and assigned him to be a mayor in this 20-level town.

The steward asked anxiously: "What should I do then, the key to the mysterious tower is already available. It would be a pity to not take the opportunity to attack."

Caparis didn't answer.

Lu Yang said, "Well, let me do it. I'll go to the Mystery Tower for you first."

Caparis immediately handed the key to Lu Yang and said: "This idea is good, young man, you are very responsible. Go ahead and report what you find in time."

Lu Yang took the key and said, "Observe, sir."

System prompt: You get the key of the mysterious tower.

Lu Yang held the key firmly in his hand, turned around and left the mayor's house, replaced the war horse and ran out of the city.

Mysterious tower.

The end of the rebel series is also the end of the first chapter of the game.

From a rebel lord at level 30 to a rebel king in a mysterious tower at level 60, this is a complete sequence of stories.

The history of the game, 50 years ago, as the highest commander of the front line against the bloodline, Cariogs led the frontline troops to surrender because he could not stand the temptation of the blood demon prince.

For this reason, every human in the mysterious tower has been rewarded by the Prince of the Blood Demon, and their life has been extended by 300 years. Their strength is many times stronger than the original.

The king repeatedly sent troops to attack, but all declared defeat.

Not only the frontline generals of Beifeng City rebelled, but the frontline generals of Holy City, Sea Emperor City and Hannibal City could not bear the temptation of longevity and chose to surrender.

For a time, the scope of human existence was greatly compressed. In order to destroy the rebels, the king recruited warriors from all over the country.

If the player kills Cariogs, then Beifeng City will declare the end of the war against the rebels. The player will carry Cariogs's head to Beifeng City to receive the king's reward. His guild will receive An attribute rewards extremely high buffs.

However, it is not so easy to kill Cariogs. Although all mysterious towers of level 60 have the Mystery Tower at the bottom, this copy is also excellent. It is very difficult and the mobs do not fall. Any drawing, only the boss will drop the equipment.

There are a total of 9 bosses in the copy, each of which has a powerful strength, and requires the player to clear all the hundreds of nightmares of difficulty in order to play this copy.

Only one copy of the last life, many guilds and studios opened up wasteland for two months before they cleared customs.

At that time, many guilds took this copy of the customs clearance strategy as a secret, and banned any guild members from leaking.

However, there are always exceptions. A thief player named Hanyue Assassin accidentally found a bug in this copy.

After completing the key mission, he led the guild to get a copy of the mystery tower many times. Once he was waiting for the members to come, he bored himself and walked into the copy.

Because he had known the duplicate monsters and routes many times before, he successfully walked in front of the ninth boss.

The 9th boss is a bit special and is a chess game.

Cariogs loves chess most. If you come here to clear the level, you need to play against Cariogs.

Even if you win the chess victory, you can get 4 items. If you get the equipment, all of them are excellent.

At that time, the price of the excellent equipment was very high, and the guild where the Cold Moon Assassin was located became rich overnight. However, if the money was too much, it would be prone to accidents. Due to the uneven distribution of rewards in the guild, the rest of the players who participated in this event packaged the strategy Other guilds ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ One of the players was even more ruthless and simply posted to the forum for free. So far, everyone knows this method.

Recalling the events of the last life, Lu Yang approached the mysterious tower quickly. When he was about to arrive, he sent a picture for half a lifetime.

Plans: Decapitation (Excellent Gold)

Level: 60

Stamina: +80

Additional physical penetration: +276 points

(Attack speed 3.05 seconds)

“Boss, look at this axe, it’s too arrogant and hurts more than 1,400.” Lu Ai called Lu Yang excitedly for a long time.

Lu Yang opened his eyes in surprise and said, “You’re lucky, you can hit the drawing of this weapon.”

In the burst rate statistics of the last generation, the burst rate of this drawing is one in a million, and Lu Yang never thought that they could really print this drawing if they loved it for half their lives.

This can only be said to be luck, too powerful.

“Hey, we feel the same way.” Bitter love said with a laugh.

Lu Yang said: “You immediately gave the drawings to Han Zhong, especially this beheader drawing, let the blacksmith shop build day and night, this axe is of great use to us.”

Shield axe array.

One of the most classic battle formations of the last generation, five iron wall defense battles, three violent battles with decapitating axes, and three healing shield axe formations can easily split any shield formation.

When defending, such a shield array is also the most powerful. Enemies will be hacked when they rush forward. No one can break the shield axe array at the same level, unless it is forbidden. Ban curse boom.

Chapter 607 - Mysterious tower

“Okay, I’ll go back now,” said bitter love for a long time.

Lu Yang closed the interphone and went forward. After half an hour, he ran to a plain.

System prompt: you found the cold wind plain

The cold wind plain is covered with white snow. A very magnificent magic tower stands on the plain. The tower is black in color and emits black light under the setting sun.

This tower is mysterious!

At least Lu Yang ran towards the mysterious tower. Just as he was about to get under the tower, he shot Sirius to log in to his human trumpet and called to Lu Yang: “Boss, there is something wrong with the wolf.

Lu Yang asked, “What’s wrong?”

Shooting Sirius said: "Blood Wolf Fortress and Black Wolf Fortress are gradually gathering their level 40 players, and they are likely to hit me and Huo Tianhua."

Lu Yang frowned and asked, "Why did the two of them find fault again, and how many people can they gather?"

The last time Lu Yang and Wang Teng decisively fought, the two guilds were attacking from behind. The injured Lu Yang could not gather the players of the wolf family to help.

For a long time, Lu Yang wanted to find trouble for them, but he didn't expect to wait for him to do anything, and the two came to pick things again.

Shooting Sirius said: "The total strength must exceed 2 million people, almost four weeks past, and the 40-level gold equipment can be said to be full in two weeks."

The play of the 40-level copy was studied and understood by major studios and a small number of super guilds before the New Year. Many studios also posted the play to the forum for free. Now everyone is equipped with 40-level gold equipment.

Lu Yang said, "How are you and Huo Tianhua and how many people can you gather?"

Shooting Sirius said: "I can have 1.6 million players together, including affiliated guild players, and the number has exceeded 2 million. I am not afraid to fight with their two guilds. I am worried about Luo Cheng. This kid was provoked by the kid. I suspect his purpose is impure. "

Luo Cheng is Liu Jie's cousin. After being defeated once by Lu Yang last year, Luo Cheng took the guild players back to the new main city, Black Stone Beast City, and has now laid down four fortresses around the main city.

Lu Yang frowned and asked, "There are two main cities between the Black Stone Beast King City and Sirius City. What can he do?"

Shooting Sirius said: "It's not clear, but the information my wife got was that this time the Black Wolf Fortress and the Blood Wolf Fortress attacked us, Luo Cheng picked it up."

Shooting Sirius's wife is Qing Qian Zimeng. When she knew that the Guild of Sirius was the Iron Brotherhood in the Orc Division, she quickly agreed to the pursuit of Sirius, and has now come to the studio, and Shetian The wolves lived together.

Lu Yang said: "Leave them alone for the time being. I'm going to take the Iron Brother Brothers to the Wolves recently. Since they want to fight with us, I will personally lead the team to support you to fight him once."

"Boss, are you coming to the wolf clan?" She asked Sirius in surprise, and since having a copy, honor uniforms have become dispensable.

Lu Yang said: "You know, the 100,000 people in my hand are close to level 60, and I need to take them to get some equipment first."

Shooting Sirius knows that Lu Yang brought his men to use his 60-level copy to brush up his experience. He gathered his closest men and his brothers and also used this method to brush the monsters. However, the number was small, only 10,000.

This is the earliest period to start with shooting Sirius, and now the elite players holding the guild salary, is the trustworthy men shooting Sirius.

Shooting Sirius said: "If you can come, I will rest assured that the Blood Wolf Fortress will definitely not beat us."

Lu Yang said: "I guess the purpose of the bloodwolf fortress is to get revenge. After all, we pitted him several times before. Now we get equipment through the copy. He no longer fears us, and wants to compete with us. . "

Shoot Sirius and said, "This time he will be completely solved, save trouble."

Lu Yang said: "It's not a big problem to solve him. You should continue to investigate the intelligence first, and if there is any new situation, you should report to me in time."

"Okay," said Sirius.

Lu Yang closed the intercom, thinking while running. He suspected that there was a conspiracy in the incident. Luo Cheng had no reason to plan this attack across two fortresses. He must have other plans.

Unfortunately, there is too little information at hand. Liu Jie's development is completely different from that of the previous life. He cannot judge the other party's next move.

Suddenly, Lu Yang thought of the \*\*\*\* Huang of the elves, he picked up the phone and called him.

After three beeps, the other party is prompted to connect.

Lu Yang asked, "What hasn't happened to you recently?"

Shen Huang said excitedly: "A few of us are preparing to launch a large-scale attack on Liu Jie. The 8 guilds can dispatch nearly 4.5 million people. Can you imagine that 4.5 million people attacked a fort and Liu Jie was dead? Now. "

Lu Yang said in surprise: "So many people?"

Shen Huang said with a smile: "The times are different, and it is no longer the world of the rich. We are getting faster and faster these days, and the level 40 gold equipment will soon be fully equipped. ~  
www.mtlnovel.com ~ Lu Yang said: "Be careful, Liu Jie will not allow so many people to hit him at the same time. Be careful that some of you have sold him to the guild. You will be unlucky when you fight against him. "

Shen Huang tightened his brow fiercely and calmed down and said, "What you said makes sense. Liu Jie holds 5 billion in his hand. Now throwing 100 million out can buy the controlling rights of three super guilds. There is something wrong here, I have to tell them. "

Lu Yang frowned and said, "It's hard to say. If you say that, your alliance will immediately disintegrate. In the absence of this, Liu Jie can break each one, or die."

Shenhuang said: "If this happened, wouldn't we have died?"

Both were awkward for a while.

Lu Yang said: "This is where Liu Jie is powerful. Even when we are stable, we can't have any intentions. This kid's ability to turn over is too strong."

Shenhuang said, "Forget it, let's not talk about it first. I'll do more preparations by myself, and think of a way to see if we can solve it."

There was no better way for Lu Yang, so he had to do it first.

No way, who makes Liu Jie rich? This thing is the biggest capital in this era. He has a sense of urgency and needs to speed up to get equipment.

System prompt: you found the mysterious tower

Lu Yang looked up and found that he had reached the door of the mysterious tower.

The gates of the Mystery Tower are small and can only accommodate 10 people entering side by side.

There is a fence made of hardened gilt at the door. Every post on the fence is as thick as an arm. It can never be opened without a key.

Lu Yang took the key from his backpack, inserted it into the lock, and opened the door.

"Wow!"

The gate rose slowly, and Lu Yang pushed open the wooden door behind the fence and walked inside the mysterious tower.

Chapter 608 - Rich drop

() White light flashed.

Lu Yang appeared on the first floor of the mysterious tower. After drinking a bottle of potion, he walked towards the hall.

The interior of the mysterious tower is decorated like a royal palace. The ground is blue and black marble. There is a white stone column every 10 meters on both sides of the hall, and there are 10 elite guards around each stone column.

Lu Yang did not encounter any obstacles when walking past them in stealth state. On the right side of the middle part of the hall was the barracks, where the first lord blame Sir Milos.

There was a staircase at the end of the hall, and up the stairs to the second floor of the mysterious tower, 12 blood red flying blood demon elites flew over from a distance.

Flying Goblin Elite

Level: 60

Hit points: 30000003000000

Lu Yang retreated to the first floor. The flying blood demon had the ability to break the stealth. He also had the ability to stun in the attack. Lu Yang's ability was not enough.

"Flop!"

The flying blood demon flew to the entrance of the stairs, looked around to see that there were no enemies, turned around and flew back.

Lu Yang walked back to the second floor and looked into the lobby. The second floor had the same layout as the first floor, but it was also a long hall, but there was a blood demon patrolling left and right beside each pillar in this hall.

Lu Yang pinpointed the location of the first blood demon. When the first blood demon flew to the left for 25 yards, Lu Yang immediately moved forward.

The minimum distance for the blood demon to find a stealth player is 23 yards, and a blood demon in front of Lu Yang just walked out of the middle of the hall 22 yards.

Lu Yang only has a fault tolerance range of 1 yard and less than 2 seconds. If he takes the wrong step, he will die.

If there was no video teaching of the Cold Moon Assassin in the last life, how could a Master Lu Yang make such an attempt.

He hurried forward, easily avoiding the investigations of one flying blood demon, and soon he came to the end of the second floor, walked up the stairs and reached the third floor.

There is no flying blood demon on the third floor. There are only some variant human heavy armored warriors. Each of them is more than three times stronger than a normal human, with a bronze body armor, a mace in his right hand, and a round shield in his left.

Although these monsters are very strong, they do not have anti-hidden ability. Lu Yang quickly passed through the crowd to the middle of the hall. Here is a crossroad. Enter the gate along the road on the right. Lu Yang entered a black and white room.

System prompt: you found the chess hall

On the ground in the middle of the chess hall is a chess board with figures of human races and rebels standing on both sides of the board.

Each person was 5 meters high and was divided into kings, queens and other chess pieces. Among them, a young general stood behind the rebel side, as if thinking about something.

The young general saw Lu Yang look surprised, and said, "Young man, how did you get here?"

This young general is Carriogs.

Lu Yang said with a smile: "Who walked in without encountering any obstacles."

Carrie Ogis laughed and shook his head. "Now how about a chess game with me?"

Lu Yang said, "Of course you can."

Carrie Ogis said, "Okay, then we will start the game. Oh, it was really boring before. No one in this castle can play me. I hope you can surprise me, but let's say it first. If you lose to me, you will die. "

Lu Yang said, "If you lose, you have to give me something good."

System prompt: Chess starts, please select chess pieces.

This chess is different from regular chess rules. Each puppet has different skills.

Lu Yang came to the chess pieces, first selected the soldier in front of the king, gave way to the king, and then controlled the strange chess pieces in the chess board to advance forward as a whole.

Kario's play is different from Lu Yang. He prefers to control only one king to fight.

Soon, the king of Cariogs was surrounded by chess pieces controlled by Lu Yang's king and queen.

"Oh, \*\*\*\* it, you dare to lie." Cariogs burst into anger.

Lu Yang shrugged his shoulders and said, "I'm not playing Lai, isn't that how I play chess?"

"I don't care, I want to punish you." Cariogs pointed at Lu Yang's king chess piece with his hand.

System prompt: Cariogs chooses to play with Lai, he releases a fire under your king's feet.

Lu Yang's king has a total of 5 million blood. This round of fire can burn 500,000 per round. The king of Lu Yang and the king of Cariog have less than 3 million blood left. Seeing this, he only had Can take a step back to make room.

"Haha, I am indeed a master of chess." Cariogs proudly controlled his king out of the encirclement.

Lu Yang regained control of the soldiers to encircle it, and soon controlled it again. This time, Cariog was too late, his king was killed by Lu Yang's king.

System prompt: You won the game

"Oh, \*\*\*\* it, I won't let you go. This time you're lucky, I'm waiting for you on the top floor." Cariogs turned angrily and left.

This is the agreement before the war. If Lu Yang wins, Cariogs cannot kill him.

Watching Carrie Oges leave, Lu Yang walked to where he was just now. There was a treasure chest. After opening, a total of 4 items appeared in front of him.

Enchant: Swift Raptor

Level: 60

Description: Add magic to the boots to permanently increase the player's movement speed by 30.

Lu Yang clenched his fist vigorously. This is what he wanted. With this thing, the elite players under him could reach the battlefield faster, and kill and transfer more efficiently.

Enchant: Special Effect Resistance

Level: 60

Description: Adds magic to the cloak, giving the cloak a resistance of 120 in the entire system.

Lu Yang showed a surprised expression. He never thought that he could get this thing. This is a treasure. An enchantment is equivalent to hitting 6 whole series of resistance gems.

With this thing, the players under his hands will be less likely to be killed by magic.

Lu Yang looked at the third item.

King's Crown Superior Gold

Level: 60

Defense: 2836

Intelligence: 90

Stamina: 88

Spell damage increased: 325

Increased spell critical strike: 138

Increased Spell Penetration: 158

This is a good mage equipment ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ It can be used for both warlocks and mages, but unfortunately there are no drawings, otherwise this thing can also be productive.

Lu Yang looked at the fourth item.

Cruel Shoulderpads Superior Gold

Level: 60

Defense: 88122

Stamina: 107

Constitution: 136

Additional defense: 122 points

Lu Yang felt that he was lucky this time. The shield armor was the one he lacked the most. If any, the more, the better.

#### Chapter 609 - The seventh war

A total of 12 pieces of equipment are dropped in this level of chess, with output, healing, and defensive equipment. They just don't overlap with the sun well mobs.

Lu Yang sent the obtained equipment to the simulation group and said, "How about, these four items I got are good."

Xia Yuwei and others who were playing a monster were surprised to see the equipment sent by Lu Yang.

Xia Yuwei said: "Still excellent gold equipment, where did you get it."

Lu Yang said: "In the mysterious tower, there is a lord monster who can kill with bugs. I will kill him to play."

Lu Yang shared the video with Xia Yuwei and others.

Twilight Knife saw the tail from the beginning and said in surprise: "Boss, is there a difference between the stealth potion you use and the stealth of our thief?"

"There is no difference, it is exactly the same."

Twilight Knife said in surprise: "Boss, then we can come to brush too."

Lu Yang said with a smile: "Whoever wants to come, sign up."

All the thieves and fighters, such as Han Fei and Han Sha, signed up collectively. They stayed here without any use. Instead, they might as well enter the mysterious tower to brush their equipment.

"We all want to come." Han Meng said.

Lu Yang said, "Go back to the inner city of the Red Fortress and wait for me. I'll take you over. Hei Yan handed my demon heart and teleportation scepter to Han Fei and brought it back together."

"Okay," Hei Yan said.

Lu Yang closed the dialog box and returned to the gate of the mysterious tower along the original road. He used a goblin robot to build a sentry tower next to it, then took the fortress back to the city and flew back to the red fortress.

Han Fei and others arrived one step ahead of Lu Yang. He returned the heart of the demon \*\*\*\* and the scepter of transmission to Lu Yang.

Lu Yang took the stealth potion from his backpack and distributed it to Xia Yuwei and the White Lion, and used the teleportation scepter to fly them under the mysterious tower. After explaining the strategy to each of them in detail, he said: contact me."

"Okay." The crowd nodded together.

Lu Yang used the key to open the door again, allowing each of them to form a team to enter the copy.

...

Three days in a row.

Lu Yang took the team to brush equipment in the copy. By the morning of the fourth day, Lu Yang had finished exercising and was eating.

Shooting Sirius hurriedly came over and said, "Boss, the Blood Wolf Fortress and the Black Wolf Fortress are coming."

Lu Yangmeng stood up and said, "Where are you now?"

Shooting Sirius said: "The troops are being assembled outside the city and will arrive as soon as 2 hours."

"There are no elves or \*\*\*\*\* legions," Lu Yang asked.

Shooting Sirius said: "I saw the \*\*\*\*\* legion, but not the elves."

Lu Yang said: "Very well, you take the soldiers against him first, and I will organize my hands to help you."

"Okay." Shooting Sirius hurriedly ran back to the room to fight.

Lu Yang turned around and returned to the room, put on a helmet to enter the game, and send special space invitations to White Lion and Xia Yuwei.

Everyone was brushing equipment in the copy at this time, and they were invited to find a rest place to enter a special space.

After a while, the light flashed, and before long, the entire crew arrived.

Xia Yuwei asked, "Is something wrong?"

Lu Yang said: "Just got news, the Blood Wolf Fortress and the Black Wolf Fortress sent a total of 2 million soldiers to attack Huo Tianhua and the Sirius Shooting Fortress."

"Hey, I finally have a chance to fight. I can't help it when I'm free this month." White Lion said.

Lu Yang said: "Give you an hour of preparation time. We can gather as many people as we can. We broke into the wolf tribe and helped shoot Sirius to kill the blood wolf fortress."

"Yes." Xia Yuwei and Zhuo Jiu and other legion leaders withdrew from the special space and started mobilizing players.

In addition to 100,000 people upgrading in the excellent copy, the remaining 900,000 people are normally playing level 40 copies, and are currently equipped with level 40 gold equipment.

There are many players entering the game at 8:30 in the morning, and a large number of players start to gather.

Instead of leaving the special space, Lu Yang invited 10 affiliated guilds attached to him.

Soon, the bosses of 10 affiliated guilds, such as Mr. Yueban, Heifeng Lao Yao, Fate Reincarnation, and Broken Sky, gathered in a special space.

Heifeng Laohe smiled and asked, "President Lu Yang, have you called us this morning, is there anything good?"

Lu Yang said: "Good thing, how about taking you to the wolf robbery?"

The eyes of Heifeng Lao Yao and Fate Reincarnation brightened sharply. Heifeng Lao Yao asked with excitement: "Do you take this seriously?"

Lu Yang said, "What are you cheating for? Just got news that Blood Wolf Fortress and Black Wolf Fortress rallied and struck Sirius and Huo Tianhua. These two are my allies. I can't ignore it, so I'm going to bring the main The troops go and beat him, you can't go. "

"Go." Mr. Yueban said excitedly, "I must go, whoever doesn't go, I'll go, and whoever you say hits, we will accompany you."

Lu Yang said: "Okay, that's it. Shooting Sirius and Huo Tianhua can gather 2 million troops. I can temporarily make up 1 million people, how many people do you have?"

Mr. Yue Ban said: "I can produce 100,000 people."

"I'm also 100,000."

"So are we."

...

The total number of players that can be dispatched from 10 guilds is 1 million.

Lu Yang said: "Go back and prepare, I promise you, and when the Blood Wolf Fortress and Black Wolf Fortress are destroyed, I will take you to attack the main city of Sirius."

Mr. Yue Ban and others took a sigh of coolness. They originally thought that it would be good to be able to destroy the more prosperous town next to Sirius City. Lu Yang didn't expect that it would be so interesting to take them to the main city.

"Let's go back and prepare." Mr. Yue Ban said.

"We are gone too."

...

Lu Yang arched them away, and then he invited the bosses of more than 50 studios, including Xinghun.

In an instant, all 57 people arrived.

Xinghun asked inquisitively: "Boss Luyang ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ What are you asking us to do? I'm copying it."

Lu Yang repeated what he had just said, saying, "I will lead the team to attack the main city of the Wolf clan after the battle. Do you guys have any interest in participating?"

"Yes," Star Soul said immediately.

"Thank you, Boss Luyang." Qian Dao looked grateful.

The rest of the studio bosses nodded in agreement, no one disagrees. Who knows that in a game, only the merchants in the main city are the most valuable, and killing one can burst out a lot of equipment and materials.

Lu Yang said with satisfaction: "One hour of preparation time, everyone gathered outside the Red Fortress."

"Ok."

"Boss Lu Yang rest assured that our studio must send the strongest troops to participate in the attack."

...

A group of people said one after another.

## Chapter 610 - Two million people

After the last war, Lu Yang completely consolidated his position in the cities of St. Gall, Neptune, and Hannibal.

All the large guilds and high-end studios in the three main cities have reached an agreement with Lu Yang and become allies of the Iron Brotherhood.

Once Lu Yang launches a war, they will accompany Lu Yang. Lu Yang does not need to give them anything, as long as they are allowed to join in the war against the orcs.

Lu Yang's own guild has 1.5 million players. Except for a small number of players who have not reached level 40, more than 99% of the players are fully equipped with level 40 and above.

This time, he plans to send 1 million players, and the remaining 500,000 are housekeepers. Taking into account the 1 million people supported by other guilds and the more than 1,000 people supported by more than 50 top studios, Lu Yang can form more than 200 Ten thousand troops.

Counting Huo Tianhua and the 2 million players who shot Sirius, Lu Yang's troops can dispatch 4 million at a time.

This is not so many people in the entire game history to participate in the war.

The guilds in Hannibal City stayed in the city to assist in defense, while the elite masters of the major guilds in the Imperial City switched to mounts and ran to Hannibal City. Hannibal City's defense force reached 800,000 people.

Lu Yang sent a message to Tu Feng: "Is there anything in Beifeng City, Benliu City, Tiewang City and Lakeside City?"

Tu Feng shook his head and said, "Just asked, Wang Teng, Li Xiuyu, and the sword killed God. They have nothing to do."

Lu Yang frowned and said, "This is not right. According to the news that Qing Qian Zimeng got from the wolf tribe, this war was provoked by Liu Jie's cousin Luo Cheng. Beifeng City and Benliu City should not have any action. what."

Tu Feng shook his head and said, "The spies we planted in the Liu Jie and Li Xiuyu guilds did not return any information. It was impossible to collectively rebel, and they should still have no action."

It is not clear how many spies Lu Yang has. He is fully responsible for handling this matter. Even if the spy is exposed or mutiny, it is not possible to complete it all at once.

Lu Yang said: "Continue to monitor, this is definitely a problem."

The last time he had dealt with Liu Jie was not a few. Lu Yang did not believe that this matter was only provoked by the Blood Wolf Fortress and the Black Wolf Fortress.

Lu Yang sent a message to Jin Buhuan and asked, "Have you ever bought a lot of medicines in large quantities from Wang Teng and Li Xiuyu recently?"

Jin Buhuan is making mutant potions randomly from a cauldron in accordance with Lu Yang's requirements. Wen Yan shook his head and said, "No, Wang Teng and Li Xiuyu just bought potions as usual, and there was no large-scale war."

The potions required for a large-scale war are often worth millions or even tens of millions, which is the main source of consumption in the game.

Xiao Liang stood beside Lu Yang and said, "Boss, is it really not related to them?"

Lu Yang shook his head and said, "I can't figure it out either. Let's take the soldiers to the wolf tribe first. If there's any change, we will return immediately."

Lu Yang has 500,000 players left. Even if Wang Teng and Li Xiuyu, or sword killer and Mai Lizhe want to attack him, they must first gather troops, this time is enough for Lu Yang to lead the troops back.

Hei Yan asked: "Boss, our elite troops will go out without the best equipment this time."

Lu Yang said: "Of course, this battle won you and other tasks, but not just war."

"What else is good." Hei Yan asked blinking excitedly.

Lu Yang said with a smile: "You will know by then, go and organize the troops."

The number of mage units in the hands of Heiyan is increasing. Some people have hit the secondary forbidden spell these days. Now the total number of secondary forbidden mage in his hand has reached 286, including the four forbidden mage. 290 people.

Hei Yan said, "Hey, this time we are going to show our talents."

After more than one week of equipment creation, each mage is equipped with all 8 pieces of blood elves, including 2 pieces in the mysterious tower, 60 military uniforms, and 5 gems. Each person's magic damage is Reached more than 5000.

Lu Yang said: "Don't hurry to export this time. I want to create an illusion for outsiders, so that everyone thinks that we and other guilds are nothing special, just people."

Hei Yan didn't understand what Lu Yang meant, but nodded and said, "Oh."

Lu Yang laughed, and the little guy Heiyan gradually revealed his nature with him. Although he was very clever, he was still a kid. He treated him like a big brother himself, and this little guy became more and more adorable.

After half a lifetime of bitter love, he ran back to Lu Yang, carrying a decapitating axe, and said, "Report the boss, my 150,000 people have assembled."

The shape of the decapitation axe is a pure steel long-handled tomahawk. The axe on the front end is particularly huge. The face of the axe is horrified, which is very scary.

A total of 60 such axes have been produced in the past few days. All of them have been gone for half a lifetime, and they have become a special unit of his.

Lu Yang told him how to play the shield axe array, and his bitter love for half a life immediately realized the beauty of this set of games, and formed 20 shield axe array teams.

Lu Yang said, "Your kid looks impatient."

Bitter love said for a long time: "Of course, I won't be afraid of any shields in the future. The three-axe axe is all done in the past, haha."

Lu Yang laughed and asked, "What happened to the others?"

Suffering for half a life, he said, "Basically everything is done, and we will send other guild teams."

"Let's go to Yanwu Stadium." Lu Yang said.

He took the fortress back to the city and flew to the inner area of the Red Fortress. He walked up the wall and looked away. The Yanwu Stadium could not hold so many people. The entire black fortress outside the east wall was full of players.

Xia Yuwei came to Lu Yang's side and couldn't help but said excitedly: "There are too many people and I can't think that one million people are so spectacular."

Lu Yang was also very excited.

Not long after ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ more than 1,000 people from multiple studios arrived.

Another hour later, Mr. Yueban and Broken Sky and other 10 guild players also arrived, and one million people ran up in ten squares.

“Chairman Lu Yang, we are here.” Mr. Yue Ban shouted under the city.

Lu Yang nodded, allowing 10 guild players to stand on the side of the Iron Brotherhood.

At this point, look away again. The entire fortress of the red fortress east of the city wall is full of people.

“More than 2 million people, it is spectacular.” Mr. Yue Ban said with emotion, standing beside Lu Yang.

Lu Yang said, “Thank you very much for your support.”

Mr. Yueban and Kuantian said, “Yes, it should.”

Lu Yang took out a large trumpet scroll and shouted to everyone below the city: “Brothers of the Iron Brotherhood, as well as friends of major guilds and studios, today we fight together for the first time, first of all I Thank you everyone for allowing me to lead 2 million people to fight. “

Chapter 611 - Source of confusion

All the players on the field were shocked to hear 2 million people, watching each other left and right, and they all sighed.

Lu Yang went on to say: “As we all know, we are next to the wolf tribe in St. Gall. Now the blood wolf and black wolf fortresses of the wolf want to attack us, what should we do?”

One million players in the Jagged Brothers League shouted at the same time: "Hit back."

The rest of the guild players are frightened, who can think that the players of the Jagged Brothers Alliance value the guild's sense of honor so much.

Lu Yang said: "That's right, just fight back, the whole army prepares, marching in order, marching towards the wolves."

The three brothers, White Lion, White Tiger, and White Wolf, shouted, "Third Army, go forward."

In accordance with the order of joining, the three males of the Bai family joined the third, so their foreign name is the Third Army.

150,000 people headed northwest under the leadership of Bai Shisanxiong.

Immediately afterwards, the legions of people who loved half a lifetime, Zhou Tianming, Zhuo Jiu Qing, Xia Yuwei, Jiang Ze and others began to develop.

Mr. Yueban and Duantian followed Lu Yang. Two million people traveled along the grassland like a mighty dragon.

On the way.

Lu Yang asked to shoot Sirius and Huo Tianhua in the simulation group.

"How are you two fighting?"

Shooting Sirius said: "The blood wolf fortress fought with me desperately, and one million people fought around me, giving me no chance to breathe."

Huo Tianhua said: "This is me, too. The people at the Black Wolf Fortress are not equipped with the same equipment, and they fight with me like a fate."

Lu Yang said, "Are the old guilds of these two guilds sick? How could they think of taking the initiative to hit you?"

Shooting Sirius gave a helpless expression, saying: "The ghost knows that we are not vegetarian, fortunately, I have assembled 1 million people. Although the elite photos are much worse than them, the defense should not be a problem."

Huo Tianhua said: "I have a little problem. My two cousins sold the guild main force to the boss of the Black Wolf Fortress. Now the boss of the Black Wolf Fortress has more than 1.5 million people in his own hands, I only have 1 million. "

Lu Yang said, "Keep it up. I have organized 2 million people and are heading towards the orcs. It is estimated that we can reach the wolf territory in about 4 hours."

Huo Tianhua froze, and asked with surprise: "Your guild has only 1.5 million people. How did you get 2 million?"

Lu Yang said: "This is not easy. I am the boss of the three fortresses. I have just a convening order and are willing to follow me to come to the orcs to fight for honor and equipment. There are countless guilds. I just picked the largest 10 guilds. There are also 50 top-tier studios. "

Huo Tianhua sighed, "It is indeed the boss of the first guild of the human race, and the appeal is strong."

Lu Yang said: "This is a temporary convening. If you give me enough time, I will convene in the three main cities at the same time. I can convene more than 2.8 million people in these three cities alone."

Huo Tianhua and Sirius nodded at the same time. The two believed that Lu Yang had this appeal. It was not difficult to find more than 30 large unions in the three main cities.

Lu Yang said, "The only thing I don't understand right now is what this blood wolf fortress and black wolf fortress think. Are they both trying to die, and the fortress doesn't want to fight me?"

Huo Tianhua said: "I can't understand it either way, these two people are just like Capricorn."

Lu Yang said, "No matter, let's fight first. In addition, you two tell your friends who have a good relationship with you, withdraw from Sirius City, or hide in the hotel and kill these two fortresses. I want to slaughter the city."

Huo Tianhua said in shock: "Brother, play so much?"

Lu Yang said, "Don't be surprised. When you two occupy the Blood Wolf Fortress and the Black Wolf Fortress, both of you will gather your forces to slaughter St. Gall."

Huo Tianhua and Sirius were stunned at the same time.

Shooting Sirius asked: "Boss, we also slaughter the city, afraid that the strength is not enough."

Lu Yang sent the Yangyan series equipment to the simulation group and said, "What about these equipment?"

Huo Tianhua was dumbfounded to see the excellent gold-level equipment, and said, "There are 60-level equipment with such high attributes, which is better than dark gold."

Lu Yang said: "At present, I do n't have the energy to produce these equipments, but I can lend them to you first, and after mass production, I will equip your people."

Huo Tianhua said excitedly: "Don't worry, don't worry, we are all a guild can use it."

Lu Yang said, "With these equipment, you will not have any problems in slaughtering the city. Of course, slaughtering the city is not slaughtering the whole city. I will tell you who will kill you then."

There is currently a force in St. Gall, and Lu Yang is still unclear whether it was Liu Jie's instigation or whether they were combined together. Almost dozens of middle guilds secretly joined together and wanted to divide up the fortress in their hands.

Lu Yang hasn't had time to clean them up, this time to teach them a lesson, lest they always think they have no temper.

...

After 2 hours.

Lu Yang led his troops to the junction of the wolf and the human race. He sent a message to Tu Feng and asked, "Is there no news?"

Tu Feng said, "Without any news, Wang Teng, Li Xiuyu and Ma Lizhe are very quiet, as if we didn't know we were going to fight."

Lu Yang said: "I can guarantee that these three companies must have problems."

"What's wrong?" Tu Feng asked without understanding.

Lu Yang said: "According to common sense, if this incident is an emergency, then at this time, I will take a large army to attack the wolf tribe. Even if Li Xiuyu and Wang Teng did not come to attack me, they must do something, right? , At least can affect the number of my troops. "

Tu Feng touched his head ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and said, "That's true."

Lu Yang said: "Not only did they not move, they did not move even the Sword King of Iron King City and Mai Lizhe, which is even stranger. They have been preventing us from expanding. Why haven't we acted this time?"

Tu Feng said, "I will send someone to investigate and see what is going on."

Lu Yang couldn't understand what he thought. Suddenly, he thought of Shenhuang and sent a message to Shenhuang and asked, "How are you there, is there any problem?"

Shenhuang said: "I'm going to tell you. The bosses of the 7 fortresses just contacted me and asked me to hit Liu Jie today."

Lu Yang patted the saddle and said, "Finally, I have found the source, it is you."

"What's the matter?" Shenhuang asked without feeling his head.

Lu Yang said, "I'm leading troops to attack the wolf clan. There is no movement at all from Wang Teng and Li Xiuyu. I just can't find the reason. It turned out to be you. Hurry up and stop this war. Whenever you find him, he must be a traitor. "

## Chapter 612 - Golden Wolf Fortress Battle

Shen Huang said dumbly: "It was the boss of the three fortresses who sought out five of us. Do you mean that Liu Jie bought three guilds at once?"

Lu Yang said: "It's just a hundred million. It's appropriate to buy 1.8 million people in the three guilds."

Shenhuang said: "I'll talk to the bosses of the rest of the guild."

Lu Yang said: "Stop the war as much as possible. If you really can't, you must get out of this world and you must not fall into it."

Lu Yang felt that the possibility of persuasion was not high. In the end, this battle still had to be fought, depending on the outcome of the final war.

He had a hunch that Liu Jie would make a comeback this time.

“Brother, what’s wrong with you,” Lan Yu asked.

Lu Yang said, “Nothing.”

Lan Yu said, “Why are you clenching your fists?”

Lu Yang looked down and found that he was really clenching his fists and said with a smile, “Maybe it’s too exciting.”

He looks forward to Liu Jie’s strength. Only when he is defeated when Liu Jie is most powerful can Lu Yang feel happy.

Lu Yang sent a message to forward White Lion and asked, “Is there any problem in front?”

“There are no enemies,” White Lion said. “We expect to reach the Golden Wolf Fortress in another two hours.”

Lu Yang sent a message to Huo Tianhua, saying: “In 2 hours, my 2 million people will arrive on the battlefield and be ready.”

Huo Tianhua smiled and said, “Okay.”

On the battlefield. The players of the Black Wolf Fortress have already fought, 1.5 million people surrounded the city walls, and fought hard.

Sometimes the troops of the Black Wolf Fortress can rush to the city wall, and the follow-up treatment troops will resurrect the players who died under the city, but the troops in the city will be driven down by the troops in the city for less than 5 minutes at most.

The battle between the two sides reached a climax.

500 meters away from the Golden Wolf Fortress, the boss of the Black Wolf Army, the chairman of the Iron Blood Relentless Guild Thunder looked proudly, as if everything was under his control.

The vice chairman laughed and said, "It looks like we won't be able to lay down Huo Tianhua's fortress any time soon."

Thunder thumped proudly: "How can it be so fast, we will have to spend two or three days as soon as possible, but no matter how Huo Tianhua resists, he will give me the guild."

The vice chairman said, "Boss, you are really smart this time, and you can think of such a solution."

Thunder shook his head sideways and said, "The solution is not what I figured out. Let me not talk about this first. What about my forbidden troop, which bombed me according to the wall? It is time for Huo Tianhua to \*\*\*\* power.

"Yes." The Vice-Chairman personally directed a unit of 50 people to a distance of 200 meters below the city, and commanded loudly: "First team, secondary forbidden spell, release."

Ten mages raised their staffs at the same time and chanted a spell against the east wall. After a while, the sky above the Golden Wolf Fortress was dissatisfied with overcast clouds.

"Not good, it's a secondary forbidden spell."

"Hurry away."

"Mage is going to add blood."

“Prepare the player to hide in the barracks, don’t come out.”

...

The fortress was chaotic inside.

Not long after, countless ice arrows were shot in the clouds, covering Dongchengtou’s 2,000-yard range.

The range of Frost Arrow Rain was 200 yards, and all within 200 yards of the entire Dongcheng head were attacked by Arrow Rain.

Huo Tianhua’s men died a lot.

Huo Tianhua hid inside the tower and looked at Jian Yu outside and said, “Fortunately, I listened to Lu Yang and built a barracks in the city. Otherwise, this forbidden spell can kill me more than 100,000 people.”

The barracks are built under the city walls. Each barracks can hide 50,000 soldiers, a total of 10, specially used to deal with the forbidden spell attack. When the forbidden spell ends, players hidden in the barracks can immediately rush to the city wall to fill up.

After 30 seconds.

The first wave of arrow rain is over.

Huo Tianhua ordered: “Go all in and attack and recapture the city wall. Where is my forbidden army, fight me back on the wall.”

“Yes.” Huo Tianhua’s head of the forbidden regiment immediately walked out of the barracks and directed his mage regiment to attack.

The dark clouds on the east wall suddenly became thicker, and within a short time, countless thunder elements glowed brightly in the dark clouds.

“Thunderstorm”

10 secondary forbidden mages shouted spells at the same time.

Hundreds of thousands of thunder and lightning were split in the sky at the same time, originally covered by dark clouds, and the darkened sky was instantly illuminated by thunder and lightning.

Hundreds of thousands of black wolf soldiers who rushed to the city wall were killed in a large number, and a few of them did not immediately turn around and jumped off the city wall. Huo Tianhua regained control of the east city wall.

Under the city.

The deputy chairman of the Black Wolf Army said unhappily: “The second wave of secondary injunction preparations, compare with me to see who has more of us.”

Ten mages stood up and said a spell in their mouths.

After 2 minutes, countless green wind elves appeared on the east wall.

The strong wind blew up. Suddenly, ten super tornadoes with a diameter of 100 meters were formed. The strong wind killed Huo Tianhua’s troops from the city.

Huo Tianhua frowned and cursed, “Compare me to the secondary curse, I still have it.”

He immediately ordered his subjunction to fight against him.

The number of troop-banning troops on the two sides is very different. There are 56 Thunders and 37 Huo Tianhua.

An hour later, Huo Tianhua's secondary forbidden spells were all used up. The East City Wall became a stage for Thunder's vertical and horizontal. One after another, the forbidden curses were raging on the city wall. attack.

Thunder looked at all this with satisfaction and said, "Just by your manpower, you still want to block us, and don't want to think of the army I inherited, Huo Tianhua, Huo Tianhua, so you can't bear to spend money ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I see what you do this time. "

At first Huo Tianhua's two cousins spent money in the game to attack him. Huo Tianhua stabilized the two cousins with a promise to abandon the inheritance of their family business, and then divided their two troops.

However, Father Huo did not know what to think, and suddenly announced that Huo Tianhua's rhetoric was invalid. He only looked at the income. Whoever made the most income would take care of the family industry.

Huo Tianhua's two cousins felt cheated. When they wanted to attack Huo Tianhua, they found that Lu Yang could not support them. However, they caught up with the copy and the guild became worthless. In order to stop losses, the two guilds lowered the price Sold to Black Wolf Fortress.

As a result, all of the minor forbidden mages in the two men's forces together became the Thunder's aspect.

However, what Thunder Latitude does not know is that Huo Tianhua didn't play the game for money, but wanted to enjoy the game, and Lu Yang didn't let him spend money, so he didn't invest too much, not because he didn't want to.

However, now Huo Tianhua really regrets not investing more cash in the game and watching his opponent keep releasing the forbidden spell on his wall, which makes him very unhappy, especially when he sees the Thunder in the distance. Laughing look.

## Chapter 613 - Reinforcements arrive

Outside the fortress.

The deputy chairman of the Black Wolf Army ran to the side of Thunder and said, "Boss, I feel we can lay the fortress today, and look at Huo Tianhua's waste, and it really kills me."

Thunder laughed even more arrogantly, and said, "What you said makes sense. I take back what I just said, and I also feel that we can lay the fortress today."

Several vice presidents and guild think tanks beside him laughed.

However, at this time, a slender black line appeared on the north side of the sky.

A vice chairman somehow looked to the south side, just seeing the black line, he widened his eyes in horror and said, "Look at everyone, south, south, what's that."

Lei Ting was laughing, and Wen Yan looked to the south. Of course, when he saw the black line in the distance, he laughed like a petrified face, and stopped.

As a fortress leader who leads the guild to fight all the year round, Thunder is very clear about what the black line is in the distance. It is people and countless people come together to form a black line.

"Hurry up, send someone to see over there, whose troops are here." Thunder shouted suddenly.

Several vice chairmen immediately issued orders to their men.

More than 100 scouts quickly approached the black line on horseback.

A scout riding a warhorse bored to the scouts around him, "It's weird, who's so dead and dared to attack us at this time, don't know if we brought 1.5 million people?"

Another scout said: "Look at me for a while. I stepped forward and scolded them. They didn't give a story. It wasn't the end of the matter. It was really death."

A group of scouts did not take the distant players seriously, controlled the mounts to run fast, the distance was getting closer and closer, and the scouts became more and more proud, but when the distance between the two sides was only 50 yards, A good-looking scout suddenly pulled the horse and turned and ran.

The rest of the scouts looked blank, and looked behind them, and then looked at the front. Within 3 seconds, they also clearly saw the person in front, but when they saw who the person came from, All the remaining scouts were dumbfounded.

I saw the front of the army, the white lion, the white tiger, and the white wolf each held a long beheading axe and slowly approached the red flame lion. Behind them, countless players also rode the red flame lion. Behind the Cavalry Regiment, there are countless players, endless and endless.

"Iron Brotherhood, Iron Brotherhood," a scout shouted in horror.

The logo of the Jagged Brothers League is too obvious. All the high-level players in the group ride the Red Flame Lion, and the three people in the front are even more dazzling. At the global contest, they are the third place in the trio. Super Master Bai Shi Sanxiong.

Lu Yang personally gave the names of the three of them, ringing through the national service and all the servers in the world.

The white wolf raised his decapitator and said loudly, "Kill."

The Flame Knife and the other 3,000 players rushed into the face of more than 100 scouts, killing more than 100 people instantly.

The white lion looked at the thunderous troops at a distance of 1,000 meters, raised the decapitator and shouted, "The whole army pays attention, Brother Brothers, kill ~!"

The 150,000 players of the vanguard Brotherhood of the First Army raised their weapons at the same time and shouted: "Iron Brotherhood, kill ~! Kill ~!"

150,000 people instantly red-eyed, and madly swooped towards the East City Wall.

The half-loved army was behind the White Lion, and saw the White Lion attacking, and said to Han Liu and others around him, "The white Lion is robbing me for the credit. We can't let him grab it. Let's go. .  
"

Han Liu anxiously said, "What do you want to tell us?"

He nodded bitterly for a long time, raised the decapitation axe in his hand, and shouted: "Attention the entire army, target the South Wall, the Brotherhood of the Iron Blood, kill ~!"

Han Liu has red eyes, like the 150,000 players under them, at the same time raised the weapon in his hand and shouted: "Iron brothers, kill ~!"

150,000 people stormed the south wall.

Zhou Tianming said: "Mom, you can't wait any longer, you can't wait, target the West Wall, Brother Iron Brother, kill ~!"

150,000 Zhou Tianming's troops stormed out.

450,000 people rushed out, revealing the headquarters of Lu Yang, a 300,000 troops composed of muddy wine pouring and Xia Yuwei.

Zhuoju looked at Lu Yang and said, "Boss, Bai Shi, bitter love half-life and Zhou Tianming rushed out."

Lu Yang asked the White Lion as an arrow to kill his opponent with anxiety, and said to Zhuoju: "Send a message to the following affiliated guilds, such as Mr. Yueban, and give them a chance to participate in the attack and fight the Thunder's squadron. "

The Thunder keeps 500,000 troops at all times, the purpose is to prevent unexpected situations, or to play the final role in the war.

"Okay." The turbid wine poured a message to Mr. Yueban and others behind him immediately.

Soon, Mr. Yue Ban and Kuantian came to Lu Yang's side.

Mr. Yueban asked excitedly, "Boss Luyang, we are going."

Lu Yang said: "Everything you grab belongs to you, it depends on your performance."

"Good." Mr. Yueban and Jiantian and others looked at each other.

Kuantian said, "Just cooperate in accordance with the method we just agreed."

"Kill ~!" Mr. Yueban took the lead and rushed towards the squadron of Thunder with his players.

Duantian and the other eight guilds followed closely, and a total of one million people rolled down like a torrent.

Thunder Thunder has been stupid ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Looking at the rushing Brother Iron Brothers players, he said in shock: "How is it possible, how is it possible, how can the Iron Brothers people come here, there must be something wrong here. "

The three vice-chairmen saw a large number of troops rushing towards their squadron, and Thunder did not respond. The first vice-chairman grasped Thunder's shoulder and shouted, "Thunder, what are you doing, Come and think of a way. "

Thunder responded sideways, seeing the enemies rushing across the mountains, knowing that he could not escape, he immediately shouted: "The whole army is ready to meet the enemy and fight with them."

"Fighting." The three vice presidents and the guild think tank immediately rushed into the various legions of the Chinese Army to take part in the command.

The number of 500,000 people makes them very powerful inside, and looking at the people who are all over the sky, they can't see how many people are.

"Defense, stop me from their attack." The first vice president saw.

At this moment, Mr. Yueban and Xuantian's troops arrived, and the two sides immediately fought together. Subsequently, the remaining 8 guild troops also arrived, surrounding the Thunder's rising forces into a semicircle.

Chapter 614 - 4 sides siege

Mr. Yueban saw that the vanguard had no advantage for a while, and immediately said, "Mage, put me on a minor forbidden spell."

The three minor forbidden mages read the spell at the same time.

After 30 seconds, countless lightnings dropped from Thunder's head and the formation burst instantly. Mr. Moon's army was inserted into the army like a sharp knife.

Guitian originally wanted to wait for the opponent to cast the forbidden spell first, but when he saw that the moon was released, the other party did not respond, and immediately ordered: "Forbidden curse, go on."

Three forbidden mages are listed, and a secondary forbidden spell is also released.

The presidents of the remaining eight guilds also ordered their men to release the curse. At one time, 500,000 people in Thunder's vertical and horizontal cross the curse and countless players were killed.

Come on first.

The White Lion has cleared the confluence of 250,000 people outside Huo and Huo Tianhua's troops.

"Brother, you are here." Huo Tianhua said.

The White Lion smiled and said, "Well, let's go out of town with us."

Huo Tianhua gritted his teeth and said, "I've been prepared for a long time. I've been prepared by 200,000 people. You wait."

The east gate opened.

Huo Tianhua personally rushed out of the fort with 200,000 people, pointed to the siege of the siege of Thunder, and said, "Brothers, the time has come for revenge, and the whole army will charge."

200,000 people followed Huo Tianhua straight to the Thunder.

The distance of 500 meters is very short. Within 2 minutes, Huo Tianhua and his troops rushed into the back of the Thunder Cross, and this time, the Thunder was completely siege on all sides.

Soon, half a million people were killed in battle, and only the 250,000 people who besieged Beicheng District escaped unsightly.

Lu Yang, with his large troops, has been standing in the distance watching the war, and said to Xia Yuwei around him: "The Thunder's rising army is too bad, there is no formation at all, and they are all beating."

Xia Yuwei nodded and said, "As long as we have 800,000 guilds, we can defeat them in the wild."

Huo Tianhua ran over the Razor Panther and said excitedly, "Brother Lu Yang, you are here too soon. It's really bad for me."

Lu Yang said: "Not only will I be angry for you, but I will also help you lay down the fortress and gather troops. We will go to the Black Wolf Fortress."

Huo Tianhua's eyes lit up and he said, "Okay, I'll make the whole army."

Lu Yang said: "When siege for a while, I have to ask this Thunder aspect carefully, which string is missing in my head, dare to strike me, the whole army advances, the target black wolf fortress."

Jiang Ze asked: "Aren't we going to Sirius fortress, there won't be any problem shooting Sirius."

Lu Yang said: "Rest assured, the people in the Blood Wolf Fortress know that I have brought 2 million people, and they must not dare to continue to fight the Sirius Fortress. At this time, they are estimated to have fled back to the city."

The voice just fell.

Shooting Sirius called and said: "Report to the boss, the person at the Blood Wolf Fortress retreated. Hell sky cursed before the retreat, Luo Cheng me x your ancestor."

Xia Yuwei and Lan Yu laughed while holding their mouths.

Lu Yang said with a smile: "Looks like a ghost from Liu Jie, but I don't know what medicine they sell."

Suddenly, Shenhuang dialed in Lu Yang's intercom and said, "Big things are not good, Brother Lu Yang, as you said, the presidents of the three guilds have betrayed. Liu Jie took 2.4 million. Someone called over "

Lu Yang sighed and said helplessly: "I can't reach it. Don't fight with the bosses of the other four fortresses. Withdraw your troops and withdraw the fortress. The one that was occupied before is gone. Keep one fortress."

Shenhuang said, "Why, we still have three million people together in our five families."

Lu Yang shook his head and said, "Your allied forces can't beat Liu Jie. Just like before, use Starfall Druid to defend it. At present, Liu Jie can't crack it."

Shenhuang pondered for a moment and said, "Let me think."

Lu Yang shook his head helplessly while listening to the hung up call.

Jiang Ze asked, "What's wrong?"

"Money confuses people's minds, Shenhuang is finished." Lu Yang told everyone what happened to the elves.

Jiang Ze and others were speechless.

Lu Yang said, "Look at it. This incident is definitely not that simple. Our side and Liu Jie's side are just the beginning of the war."

"Why?" Xia Yuwei asked.

Lu Yang said: "Ma Lizhe and his Quartet haven't moved yet. There is definitely something wrong here."

“Well, one copy led to so many wars, it was really crazy.” Huo Tianhua said.

Lu Yang said: “No matter what, let’s look at the obscurity of Thunder. Since he chose to be a protagonist, don’t blame us for shooting him.”

Everyone nodded.

Lu Yang’s 2 million people reorganized outside the Golden Wolf Fortress, Huo Tianhua’s 1 million also walked out of the fortress, and the 1 million people who shot Sirius collectively flew to Sirius City, gathered at the North City Gate, and also turned towards the Black Wolf The fortress went.

For a while, more than 4 million troops marched toward the Black Wolf Fortress.

The players in Sirius City have learned that Lu Yang came to attack with 2 million people ~  
[www.mtlnovel.com](http://www.mtlnovel.com) ~ The entire main city has become rumbling, countless players hiding in the main city and watching the developments.

“Look, here comes the Brotherhood of the Jagged Brotherhood.”

“where?”

“The level 30 wild monster area outside Ximen, 2 million people, I went, it was scary.”

...

On the plain.

Players of the Jagged Brotherhood are forming an offensive formation, split into two paths towards the Black Wolf Fortress.

After 2 hours.

Lu Yang saw the figure of the Black Wolf Fortress in the distance. At a distance of 500 meters from the fortress, shooting Sirius with 1 million people was already in the battle.

Shooting Sirius ran to Lu Yang in person and said, "Boss, I'm ready."

Counting the 1 million people who shot Sirius, Lu Yang's troops really reached 4 million. Lu Yang's heart became very excited for a while.

The White Lion ran to Lu Yang in front of the Red Flame Lion and said, "Boss, there is a fortress in front of us, how can we fight?"

Lu Yang said: "Released the fight, surrounded the city, attacked the whole army, filled him with a human head."

The white lion smiled and said, "This is a good idea. For the first time, more people bully less people. I'll try."

Lu Yang laughed and said to the ten guild bosses around him: "You one million people are responsible for surrounding the West Gate. I take one million people to surround the South Gate. Ten thousand people surrounded the East Gate, leaving 500,000 reserve players each and 500,000 siege. "

"Yes." The commanders of the various legions and the guilds immediately issued orders, and 4 million troops immediately rushed to the gates.

Not long after, one million people at each gate were ready to attack the city. On the city's head, the vertical and horizontal planes of Thunder were as dead as death, and his men were terrified.

## Chapter 615 - 3 races

“Boss, what should we do?” A vice chairman asked in a panic.

Lei Ting gritted his teeth and scolded, “Don’t worry, our allies won’t abandon us, and soon Lu Yang will have to return to Hannibal.”

The voice just fell.

Lu Yang rode the Red Flame Lion King, took Xiao Liang and more than 100 guards, and walked leisurely to a place 100 meters away from the city head, patrolling the entire city wall.

The defensive power of the Black Wolf Fortress is average. There are only 3 fortress cannons on each wall and less than 1,000 arrow towers.

“On this point of defense, we can fight in a wave.” Xiao Liang said.

Lu Yang smiled proudly and shouted to the players on the city’s head: “Tell your boss Thunder to come side by side, I will talk to him.”

He is located more than 500 meters from the gate, outside the range of the fortress.

“Wait a minute,” a player in the city shouted.

Not long.

Lei Ting appeared in front of the city, pointing at the landing and cursing: “What are you asking me to do?”

Lu Yang looked at Thunder’s uneasy face, shook his head, and asked, “I’m just curious, what did you come to do with me, and who asked you to come?”

Thunder crossed his face stiffly, and laughed loudly, saying: "Lu Yang, I advise you to return to Hannibal City as soon as possible. I will have an appointment with Prison Sky Dome, Liu Jie and Li Xiuyu in this war. Well, we are attacking in the wolf race, they are launching the attack in the human race. "

Lu Luyang was helpless and looked at Lei Ting, asking, "Are you stupid?"

Thunder thundered for a moment, then became furious, pointing at Landing and cursing: "Who are you scolding?"

Lu Luyang said, "Of course it's you, don't you know that Liu Jie has just waged a war in the Elves. His 2 million troops and opponents have already fought, and they have also fought me. Where is his extra person?"

Thunder Thunder was struck by lightning and said excitedly, "Impossible, this is impossible, we have agreed, let's talk about it, and there is Mai Lizhe and Luo Cheng."

I heard Lu Lizhe's name, and Lu Yang was a little worried. When thinking about it, Tu Feng sent a message.

Seeing the content of the news, Lu Yang looked up at Thunder and said, "I'm sorry to tell you that I just got the news. Red Dragon City's Mai Lizhe suddenly led the Red Moon City 1 million players to attack the Sun City."

"What?" Thunder said silently.

Lu Yang said: "The Luo Cheng you are looking forward to is attacking other main cities with 2 million Orc players. Now all the main cities around Sirius are up. Congratulations, this is the time for you and Hei Tianqiang. Guide to war. "

Thunder thundered completely, and he couldn't imagine that a week ago, these guild bosses got together and decided to attack Lu Yang together. How could it be that he fought with the solitary army in prison? Going to fight other main cities.

“Impossible, this is absolutely impossible,” Thunder muttered mutteringly.

Lu Yang said, “You do n’t have to believe it. Look at the live broadcast on the Internet. There are many people streaming live video of Liu Jie and Mai Lizhe leading their offensive. President Thunder, you and Jade Sky Dome are completely human. It’s done. “

Lei Ting looked at Lu Yang sideways, and then looked at the 4 million troops behind Lu Yang. Frightened and angry, he fell to the ground.

System prompt: player Thunder exits the game

The deputy presidents next to Bian were dumbfounded, and they looked at Lei Thunder side by side and shouted, “Boss, why are you offline?”

“What do you do when you leave?”

Uh ...

Lu Yang sat on the King of the Red Flame Lion and watched the scene and shook his head, and said to Xiao Liang around him, “Sadly, it makes people calculate mental disorders.”

Xiao Liang said frowningly: “This game really is not something that a soldier like me can participate in. Liu Jie and Ma Lizhe are too good at calculating. I found that I am the captain of your guard, and it really is the most suitable position for me . “

The game between the guilds made a mistake and lost all games. Liu Jie and Mai Lizhe used this strategy far beyond Xiao Liang’s cognition.

Lu Yang laughed and issued an order saying: “The whole army attacked and laid the fort.”

Xi Zhuojiu poured up his beheading axe and said loudly, “Iron brothers, kill ~!”

With four city gates, 2 million Jagged Brother League players collectively attacked the city, leaving 2 million people on standby.

On the head of Wucheng, the three vice-chairmen saw that Thunder had not been on the line, and Lu Yang launched an offensive, only to command his troops to resist.

However, this kind of resistance doesn't make any sense. How can the 1.5 million players who have lost their chairman and morale can block the morale-like brotherhood of iron and blood.

In just half an hour, 2 million players seized the wall from four directions at the same time and opened the gate.

Seeing that the general situation is gone, players who want to see Thunder are out of the game, and no one wants to let the equipment they can easily get hit by Lu Yang's men. After resurrection in Sirius City, they have withdrawn from the war.

Lei Ting's core player hid in the inner city for another half an hour, and was finally broken by the 2 million people in Lu Yang.

Looking at the scattered enemies, Lu Yang led the crowd to the deities in the inner city. He said to Huo Tianhua, "The fortress is yours."

Huo Tianhua excitedly took out the fortress token and replaced it.

System prompt: Black Wolf Fortress is occupied by Huo Tianhua.

"Win?"

"Win!"

"We won!"

Uh ...

1 million people under Huo Tianhua cheered ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang's troops stopped attacking.

Lu Luyang said to Huo Tianhua and Shooting Sirius: "The two of you immediately send someone to Sirius City to recruit players. Priority is on recruiting legions. Be sure to bring Thunder to the guild."

"Yes." Huo Tianhua and shooting Sirius said together.

Lu Luyang said, "The whole army took a short break and we turned to the Blood Wolf Fortress."

"Yes."

Uh ...

After 20 minutes, the entire army was complete.

Lu Yang led the team to change direction and attacked the Blood Wolf Fortress.

The other side.

The tribe entered a state of war completely. The Golden Lion City and the Orc King City launched a pioneering war at the same time. Luo Cheng also aimed at the main city next to him.

As for the puppet clan, Liu Jie personally led the offensive and battled with a coalition formed by 8 guild bosses including Shenhuang in the Luyu Plain.

Mai Maizhe broke into Sunshine City with 1 million people, and the boss of Sunshine City was not someone else, but Lu Yang's old friend, the old man.

The boss of the Free City got the news to lead the rescue. This person, Lu Yang, is no stranger to him.

两个 The two people hiding in the furthest main city wanted to go all out, but did not expect to encounter such an attack.

Lu Yang rode the Red Flame Lion while walking and watching the battle reports from various parties.

He bitterly loved standing by Lu Yang for half a life and watched with a sigh, saying: "It's all upset, and I don't know if the old man and the tyrant dominate the world this time."

## Chapter 616 - New opponent

Lu Yang said: "I'm afraid it's difficult. The old man and the male domineering invested a lot of money before the copy was launched. Originally they wanted to attack Mai Lizhe, but as soon as the copy came out, the investment of the two people became worthless. Suffered a great blow. "

Zhuo Jiu said with emotion, "Unfortunately, I can't imagine that these two people will end the curtain this way."

Lu Yang said: "It won't fail immediately. In the worst case, late twilight can keep a fortress, after all, there is a hero to help."

Zhuojiu frowned and asked, "Boss, why is there no news from Wang Teng and Li Xiuyu, they shouldn't be so quiet."

Lu Yang opened a live channel and said, "I also just got the news. As early as a week ago, Liu Jie asked Wang Teng and Li Xiuyu to lead the most elite troops from the path. Now among the players who are

fighting against Shenhuang, Li Xiuyu The giant wave master group and dozens of studios under Wang Teng are among them. “

Everyone suddenly realized.

Zhou Tianming said: “Isn’t that \*\*\*\* Huang dangerous? Wang Teng and Li Xiuyu’s elite troops must even be careful to fight against each other. How could the Elves have fought without special restraint?”

Lu Yang said helplessly: “An optimistic estimate is that in another five hours, Liu Jie will bring the three guilds acquired by him to defeat the alliance formed by Shenhuang and the other five guilds. As for whether they can hold the fort, they will No one knows. “

Xia Yuwei said anxiously: “You have to persuade Shenhuang to let him go quickly.”

Lu Yang said: “All that should be said, the rest is Shenhuang himself. If he can’t control greed, then he has no place to stay.”

Everyone sighed. If Shenhuang lost the fortress, they would no longer have the ability to curb Liu Jie’s development in the Elves.

Lan Yu asked, “What shall we do now?”

Lu Yang said: “First knock down the blood wolf fortress, and let Huo Tianhua and shooting wolf stand in the wolf clan, mainly the blood wolf fortress. He is the only exit of the wolf clan to the outside world, and he must be removed.”

Everyone nodded.

...

On the other side.

Inside the Blood Wolf Fortress.

Priscilla was sitting in his chair with a somber face, and beside him were his deputies and chiefs.

Vice President Molong Jitian lamented and asked: "Boss, just got the news, the Thunder was defeated, the Black Wolf Fortress became Huo Tianhua, and Lu Yang's army is coming towards us. What should we do? . "

Prison sky's pupil suddenly dilated, and then dimmed again. He didn't speak, but lowered his head.

Gu Yu saw that the prison sky had no response, and said anxiously, "Boss, think of a way, if Lu Yang's 4 million people arrive, we will lose."

Jie Tianqiang smiled helplessly and said, "What can I do? Lu Yang brought 4 million people, I only have 1 million people, how can I fight him?"

The numbers of the two sides are 4 to 1. With the same equipment, Jigoku Dome cannot find any way to defend the fortress, not to mention that his special forces and forbidden troops have used their skills when attacking the Sirius fortress. It is in cool down time and cannot be used.

The Dragon Sacrifice God biting his teeth and cursed, "Liu Jie and Mai Lizhe are really bastards, and dare to use this scheme to calculate us."

Jie Tianqiang broke the wine glass in his hands angrily and sighed longly, saying, "Let's retreat, this fortress can't be kept, don't let the brothers die for nothing."

"Retreat?" Gu Yu asked in amazement.

Jigoku Dome just nodded. Suddenly, there was a wave in the space. An orc player wearing a pure black robe appeared in the guild hall out of thin air.

Jie Tianqiang and others hurriedly raised their weapons to pose a defensive posture.

Gu Yu asked in horror: "Who are you?"

The orc player gave a sneer glance at the lonely rain, and did not care about the people around him, and said to the prison sky dome, "Do you still know me?"

When he saw the orc player's expression of horror, random, his face showed a happy expression, and said, "Of course I know how you came to me."

The orc player proudly said, "For me, there is no place I can reach."

"Who are you, look like this." Demon Dragon Festival unhappily pointed his weapon at the orc player.

"You must not be rude," he said, glaring at the Dragon Sacrifice to Heaven, "Everyone put down their weapons, he is not our enemy now."

Lone rain and the dragon dragon festival are waiting for people to drop their weapons.

He Tianqiang asked: "What is the purpose of your coming to me this time, let's talk straight."

The orc player said: "You believe that you are very clear about the current situation. My purpose is very simple. I fancy your leadership ability. Since you are defeated this time, I invite you to bring all your guild players to join In my guild. "

"Let me give up the chairperson's place?" Priscilla asked, frowning.

"Yes, the orcs will be unified sooner or later, and only our President Tianyao will be able to unify. The guilds that disobey him will disappear sooner or later. It is your honor to be selected by us to join our organization." The player said proudly.

When it comes to Tianyao, everyone on the field showed a dreadful look. He is the president of the largest beast guild. He alone has 2.5 million players, 8 forts, and countless high players.

He Tianqiang asked, "What's good for me?"

The orc player said: "You will become one of the top 10 vice presidents, and the players in your hands will still be under your control, but you just give up the name of the president. If you agree, we will help you recapture the Blood Wolf Fortress . "

Gu Yu asked, "Why not now?"

The orc player said: "The entire orc is disrupted. How can we temporarily mobilize troops to fight with troops carefully prepared by Lu Yang ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and there is a main city in the middle."

Prison sky and others were speechless.

The orc player said, "You choose, follow the boss of Tian Yao, or stay here to wait for the dissolution of the guild by Lu Yang. I just learned that Huo Tianhua and Shooting Sirius had arranged for recruitment in Sirius City. The Thunder's legion leader is now. "

"Asshole." The Dragon Dragon Festival scolded angrily: "Lu Yang is to completely destroy the Thunder aspect."

The orc player sneered and said, "Boy, this is a fortress battle involving tens of millions or even hundreds of millions of benefits. Do you really play a game?"

Demon Dragon Festival wanted to refute, but couldn't find a speech, opened his mouth and closed it.

After groaning for a long time, Hei Tianqiong finally looked up at the orc player, and said, "Okay, I promise you."

## Chapter 617 - Attack the main city of the wolf tribe

After 2 hours.

Lu Yang took a large force of 4 million people to the outside of the Blood Wolf Fortress.

Seeing that there was no enemy in the empty city, Lu Yang said, "Sure enough, \*\*\*\* sky is really gone."

Just now, he reported from the gap between Huo Tianhua and Shooting Sky Wolf in the Hell Sky Dome Guild. Hell Sky Dome merged the entire guild into the Heavenly Legion, the largest beast guild, and became one of the vice presidents of the Heavenly Legion.

"Zhuo Jiujun's intention is to attack us," Qingzhu said.

Suffering bitterly for a long time, he scratched his head and said, "The more you fight, the more chaotic the army will not be to clean up Luo Cheng and fight with us."

Lu Yang sneered, and said, "The boss of the fortress of Tiancheng is clever. Don't worry about him, shoot Sirius into the city and change the name of the fortress."

"Yes." Shooting Sirius ran into the city with the fortress token and replaced the fortress name with the Sirius Union.

The logo of Hell's Sky Guild on the central tower of the Blood Wolf Fortress disappeared and turned into a wolf head logo, which is the emblem of the Guild of the Wolf Team.

"Win."

"Win it."

...

Players of the Sirius Legion cheered loudly, and numerous fireworks flew into the sky around the tower to bloom. At this point, Lu Yang unified the main city of the Wolf family.

Outside the city.

Congratulations to the heads of the army such as Zhuojiu and Xia Yuwei, as well as Huo Tianhua and the bosses of major affiliated guilds and studios.

“Congratulations, boss.”

“Congratulations to President Lu Yang.”

...

Lu Yang was also very excited, and said with a smile: “To celebrate, the whole army followed me to Sirius, and we slaughtered the city.”

Mr. Yueban and Xinghun and others shouted in excitement, slaughtering the city is the main event and the most profitable thing.

Lu Yang projected the holographic simulation map onto the ground, and the huge Sirius City appeared in front of everyone.

“I have found out about this city. There are four important trading areas. The most prosperous are North and East. These two places, I will give you 10 guilds and more than 50 studios.” Lu Yang Said.

Chengbei and Chengdong are the earliest places for the wolf to form a trade zone. Just search on the forum to find relevant information. The bosses of more than 10 Canadian guilds and more than 50 studios have already been identified.

Mr. Yue Ban said with excitement: "Boss Lu Yang, you are so generous, you gave us both of these places?"

"Yeah, this is the richest place." Kuantian asked.

Lu Yang said with a smile: "It should be the reward for participating in this war. As long as you really help me, I don't mind you making money with me."

Xinghun said with emotion: "Thank you Boss Luyang, we will follow you later, we will ignore Liu Jie and Mai Lizhe."

"That's right, it's the president of the Landing Sun."

...

A number of bosses have stated their positions.

Lu Yang said with a smile: "Let's go, the whole army will change direction. We were caught off guard by the wolf."

"Yes."

The 4 million troops turned around collectively and marched towards the main city of the Wolf clan.

So far, no guild has dared to attack a main city. The number of players in the main city is tens of millions, and there are tens of thousands of elite guards and boss-level officers inside.

There are many arrow towers around the main city gate, and there are more than 20 fortress cannons. It is an impossible task to break into the main city.

However, that was before the player was at level 40. When the player reached level 40 and was supported by a copy of the equipment, everything here was no longer a problem.

After 4 hours.

Lu Yang's 4 million army arrived in the north of Sirius City. At this time it was 12 o'clock in the evening, and most of the players quit the game.

The game also just entered the night, standing on the hillside outside the city and looking into the city, the little light shining brightly in a small part of the city.

The wall of Sirius City has only one outer wall, and there is no 瓮 city. There is a wolf archer standing every 10 meters on the wall.

Wolf shooter

Level: 50

Qi and blood: 800,000 / 800000

At the gate of the city, there were two teams of wolf fighters, each with 12 people.

Wolf Warrior

Level: 50

Qi and blood: 800,000 / 800000

“Hey, I was a little worried that the wolf's defense was too strong. With this defense, we captured the city gate in minutes.” Mr. Yueban said.

Lu Yang said: "Don't be careless, once we attack the city gate, there will be a large number of wolf npcs coming to support, it is estimated that the number of people is not less than 10,000, all of which are above 50, and there are many elites."

Kuantian asked: "Chairman Lu Yang, let's talk, how can we fight."

Lu Yang said: "After a while, do n't rush in and rush to grab things. You must restrain your men. The formation must not be chaotic. All the NPCs will be killed, and then they will be dispersed and killed. Otherwise, you will be carefully destroyed by the NPCs. "

Star Soul said: "Relax, we listen to you."

Lu Yang said, "Star Soul, each of your more than 50 studios has sent a rogue group to sneak into the city and go to the wall. When you launch an attack, you are responsible for killing the defenders on the wall."

"No problem," Star Soul said.

Lu Yang continued: "Mr. Moon Half, you mobilize all mages who know the secondary forbidden spells and special skills to the wall, ready to release a large range of magic killing."

"Okay." Mr. Yue Ban said with the boss like Tian.

Lu Yang said, "In a while, the battle started and how to command. I will let Sirius and Huo Tianhua take charge. You have no opinion."

"No opinion," the crowd said together.

Lu Yang said: "Okay, now I'll take the soldiers to Nancheng District, listen to my new number, and we will attack together."

A city gate can only accommodate 100 people walking side by side, and 4 million people only walk through one city gate. When it all enters, the sky is bright. As a last resort, Lu Yang can only let Familiar with Sirius and have commanding experience The wolf and Huo Tianhua came to direct the battle.

Lu Yang took an hour with 1 million troops to the South Gate.

At this point, hundreds of thousands of players have gathered in the city, these are ordinary players who have not yet slept and are ready to stay overnight.

Lu Yang took the magic wizard's staff and walked to a position 200 meters away from the city head. He looked at the countless wolf players on the wall, and a mocking smile appeared on the corner of his mouth.

“The Great Lord of Fire ...”

Lu Yang raised his staff, and began to speak a spell in his mouth. With each note, the dark clouds above the southern gate of Sirius City became even denser.

After 30 seconds.

The spell is done!

Lu Yang's right-handed law enforcement wand pointed forward ~ [www.mtnovel.com](http://www.mtnovel.com) ~ The flames burned out “

Centered on a shop located 1,800 yards inside the South City Gate, the space within a range of 2000 yards turned red in an instant.

“No, it's a curse.”

“Run, the other side is using a curse.”

...

Countless wolf players screamed in the city and fled.

Suddenly, a huge white skull rose from the ground. The diameter of the skull was 2,000 yards. When he ascended into the air, everyone in Sirius could see it.

Chapter 618 - Curse Wolf City

“Oh my God, what is Lu Yang doing? The scenery is so beautiful.” Dubin sat on the chair in the live studio and said with a look at Lu Yang’s skill.

Hitomi said excitedly: “It’s too beautiful, the dark night, the majestic wolf city head, the \*\*\*\* space, and the white skull, I can’t find any words to describe it.”

The skulls disappeared in the air. At this moment, countless players in the city were killed by flames. In less than 5 seconds, most of the 2,000-yard diameter were killed. There were only 50,000 or 60,000 people, only a few. Part of them escaped near the periphery.

“Woo ~~, oohoo ~~~” The screaming horn sounded through Sirius City, and the wolf warriors and shooters on the city gate and the city headed towards the landing sun.

“Some people siege the city, the wolf warriors, kill ~!” A wolf general raised his sword and shouted.

The dull wine pours, the white lion and the half-loving half-life came to Lu Yang and raised their beheading axe.

The turbid wine shouted loudly, “Iron brothers, kill ~!”

“Kill ~!” More than 1 million players roared in unison, shaking through the main city of the wolf tribe, and following the turbid wine and others rushed to the enemy at the gate of the city.

The wolf npc that rushed out of the city was like a house on the road of mudslides, and was instantly drowned in the crowd.

Lu Yang didn't follow the team. He handed over the equipment to Nanfeng Zhiyi and said, "The second curse, Kuang Lei Tian prison."

"Yes."

Nanfeng deliberately took the skills and said a spell.

At the gate, hundreds of thousands of players of the wolf tribe worked hard to build a second line of defense outside the curse-free area.

After 30 seconds.

The Brotherhood of the Jagged Brothers rushed under the city walls and climbed with ropes, while those around the door rushed directly into the gate.

Wolf players immediately launched a counterattack. Hundreds of thousands of people rushed out of dozens of streets around the city gate. Players with a secondary banned spell immediately used the banned spell.

Just at this time.

"Crazy Thunder Prison"

Nanfeng deliberately held a finger in front of the staff, and tens of thousands of thunderbolts fell at the forefront of the Brotherhood of Iron Blood.

Counter-attack wolf players on the streets have died! All enemies who originally released the curse were also killed by the curse.

Taking advantage of this opportunity, Zhuo Jiu and others attacked with all their strength, bringing the wolf players back to the third street.

“The report boss, most of the defensive forces on the street have been defeated, and they are retreating to the third street.”

“My enemies on the city walls are all cleared, and the defense formation is improving,” he said.

With a wave of his hand, Lu Yang marched forward with the Master Group and sent a message in the simulation group: “According to a predetermined plan, enter the city and attack in 7 directions at the same time. If there is a problem, report to me in time.”

“Yes.” Xia Yuwei and others such as Zhuo Jiu said.

After 5 minutes.

Lu Yang brought the mage to the city wall. The highest point on the wall is the city gate building, which has a vertical height of more than 50 meters from the ground. From here, you can overlook all areas of the south gate of the wolf tribe.

Lu Yang stood in the city gate building and looked around, clearly seeing the street 200 meters away in front of him, the leaders of the army such as the muddy wine pouring and Xia Yuwei were advancing with the troops.

The street is narrow, the number of opponents is large, and the speed of advancement is very slow.

“The report boss, I am very tenacious in the defense of the enemy.”

Lu Yang said: “After 30 seconds, the secondary curse meteor fire rain.”

A fire method stood out, standing next to Lu Yang, aiming at the front of the muddy wine troops and began to spell.

Players of each mage group following Lu Yang are wearing excellent gold equipment, wearing 5 gems all over their bodies, and have more than 5,000 spell damage.

After 30 seconds.

Countless fireballs fell from the sky and smashed into the enemy's army. The wolf players blocked in front of the muddy wine pouring were almost killed.

Zhuoju poured his eyes on the large open space in front of him, looked back at Lu Yang excitedly, raised the decapitator in his hand and shouted, "The whole army is attacking."

An aerial vehicle skimmed over the south gate of the Wolves and recorded the scene just now.

In the live room.

Dubin said with emotion: "Isn't this the standard U.S. military style of play? When the situation on the battlefield cannot be opened, the Air Force is called for support. The 200-man cursed mage in Lu Yang's hands is more than 200 strategic bombers. [Fried] Machine, if there is any problem, it will be done in a matter of seconds. "

Hitomi said: "I said it looked so familiar, like a US military blockbuster."

Dubin said: "It seems that Luyang's attack on the Wolf clan has long been premeditated. I still have a hunch when most of the wolf players are offline. Great. "

Players who watched the live broadcast agreed.

On the other side, Liu Jie, who had just taken back a fortress, saw Lu Yang's live broadcast showing an angry expression and cursed: "It has made this kid cheap again. This was my thought before."

Where does he know that every step of Lu Yang's actions is carried out in accordance with the strategy of Liu Jie's last life. These were originally dead grass plots, but Lu Yang just moved and used it intact.

Inside Sirius City.

When Lu Yang used the curse, Huo Tianhua and Shooting Sirius also ordered the troops to launch a total offense, and the North Gate also fell.

On the wall of the Sirius City Palace, the Silver Moon Wolf looked angrily at all that happened in the north and south of the city, and ordered: "Bell the horn and order the defenders in the city to launch a counterattack."

"Woo ~~ , woo ~~"

...

A low trumpet sounded at the same time around Sirius Palace. Ten thousand soldiers each rushed out of the Quartet barracks, divided into two teams and rushed towards the north and south of the city.

The turbid wine pours, the White Lion, and other men just arrived at Chengnan Square with their troops. The entire army did not wait to start a formation in the open area, and encountered the wolf warriors rushing forward.

"Defense formation, shield soldiers defense." Zhuoju shouted.

Xia Yuwei: "..."

White Lion: "..."

...

The commanders of the seven legions issued orders at the same time. In a blink of an eye, more than 10,000 shield fighters rushed to the front to set up a large shield and set up a tortoise shell.

“噤”

The wolf npc smashed into the armour formation ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ the two sides are fighting together.

“The boss, the square needs support, at least 20,000 npc are here in the square.”

The voice just fell.

Six 500-meter-long slender trenches appeared at both ends of the square, transforming the original disorderly offensive formation of the Wolf NPCs into rectangles.

Looking back at Zhuojiu, it was found that Lu Yang had brought the Forbidden Mage to a house only 50 yards from the square.

“After 30 seconds, the fire mage’s meteor fire rain will cover the square and hold on.” Lu Yang said.

“Yes.” Xia Yuwei and Zhuo Jiu smiled at the same time.

Thirty seconds later, 100 fire mages pointed their law enforcement rods forward simultaneously.

In the heavy clouds over the square, the big fireball fell like raindrops.

The range of meteor fire rain is 200 yards. 20 fire mages can cover the square, and 100 fire mages release meteor fire rain at the same time, which means that every space in the square is attacked by 5 meteor fire rains at the same time.

The wolf warriors have 800,000 health, and the fire mage has more than 5,000 injuries. It happens that 5 meteor fire rains can kill all npcs within 200 yards.

The heads of the army such as Zhuoju Qingxiu and Xia Yuwei and all the players watching the live broadcast in the live broadcast room witnessed the collective fall of 20,000 wolf npcs into 100 meteor fires.

“Oh my god, the secondary forbidden spells siege together have such a good effect.”

“Lu Yang’s slaughter must have succeeded.”

“too strong.”

...

Countless people sigh.

There were smiles on the faces of Lu Yang, Zhuo Jiu, and others. At the death of 20,000 npc, there was no obstruction before the players of the Brotherhood.

Lu Yang stood on the roof and said loudly, “At the front is Chengnan Security Zone, where at least 3 million people are off the assembly line, and 100,000 people are hanging their stalls. I declare that everything I hit belongs to the individual and the whole army is attacking. . “

One million players in the Jagged Brothers League completely redened their eyes and rushed to the safe zone frantically.

None of the army commanders such as Zhuojiu, White Lion, Xia Yuwei, and Zhou Tianming participated in the battle and were waiting in place.

Lu Yang brought the Forbidden Spell Master to Zhuo Jiu and others, and said, "Okay, it's time for our performance now, follow me to the military camp on the south side."

There are four barracks in Sirius City, and each barracks has a level 60 lord general.

When Liu Jie led the team to attack the city in the last life, he dedicated to the slaughter of players and businessmen in the safety zone, and never managed four military camps.

This situation continued until all of Liu Jie's men reached level 80. In a boring slaughter city, in order to show off their strength, not only the players were killed, but also all the NPCs in the city except the King's Castle were slaughtered.

These included the generals in the four barracks. The generals in the other three barracks did not drop quest items. However, when the generals in the south barracks were killed, the first half of the legendary weapon Troyade's Holy Sword was dropped. .

Liu Jie mentioned this in an interview in the last life. He said that he wanted to commit suicide at the time, but he had never thought about killing npc many times before, and he did not expect that npc would also drop drawings of legendary weapons.

Thinking back to the last life, Lu Yang took the team to the military barracks in the south of the city. In the middle of the barracks, a burly wolf general stood there.

Wolf General Polnet (Lord)

Level: 60

Qi and blood: 6000000/6000000

"It looks simple. It's the same amount of blood as the mobs on Blood Elf Island," said bitter love for a long time.

Lu Yang said with a smile: "You people now belong to the people who have met the top 60 monsters, so it is not surprising to see his health."

Everyone nodded, and compared with others, their insights were too far ahead.

Lu Yang said: "Xiao Liang open the blame, you and turbid wine take turns resisting blame, Bornett's normal attack comes with damage deepening effect. With your current defense power stacking up to 15 layers, you need to replace it. Drive invincible in time when you live. "

"OK." Zhuojiu and Xiao Liang said together.

"charge"

Xiao Liang resisted the shield and rushed to Bornette with a phantom.

"Red Mist Bloodthirsty"

Bornet raised his sword and slashed.

"8266"

Xiao Liang's body glowed reddish.

"Red Mist Cyclone"

The Whirlwind skill is accidentally triggered.

“5056”

Bornet was severely harmed, and hatred was firmly locked by Xiao Liang.

Lu Yang threw out the magic sound reverberation and acidic poisonous mist, lowered the target’s magic resistance and physical resistance, and said, “Together with the output, the mage team guards the surroundings, don’t let other people come to disturb.”

Everyone nodded.

Different from no output before, now every mage around Lu Yang has more than 5000 damage.

Even more terrifying are the soldiers, and each soldier with a decapitating axe has an attack power of about 7000.

The 6 million-blooded wolf clan general was quickly killed 2 million.

“Damn, my wolf warriors, destroy them for me.” Bornet yelled.

A light flashed.

Eight wolf warriors with black light shining all over appeared.

Wolf Warriors (Elite)

Level: 60

Qi and blood: 3000000/3000000

Lu Yang raised his hand and threw a bottle of medicine.

“Nightmare Elixir”

Eight wolf warriors fell asleep for 5 minutes.

Lu Yang said, “Continue to attack.”

The bitter love half-life and others just went to pull the monster, saw that they were under control, and then killed the general of the wolf tribe.

After 3 minutes.

Bornett has 2 million HP remaining. He continues to summon, and Lu Yang raises his hand and throws a second bottle of potion.

“Viscous Elixir”

The green slime fixed 8 warriors in place.

Two minutes later, the first batch of wolf warriors woke up, and Han Ying ordered the nine-headed dragon around him to release the spell.

“Nightmare”

“Shock”

...

Eight monsters were kept in place again.

After 1 minute, Bornett fell to the ground, and a blue-rayed drawing fell to the ground.

Lu Yang picked up the drawing and smiled.

“Boss, please send it to us, what kind of property?” Said bitter love half anxiously.

Lu Yang shared drawing attributes in the simulation group.

First half of the plan: Holy Trojan Sword (Legend)

(Attack speed 1.5 seconds / time)

He loved holding his head in his left hand for half a lifetime, and said incredulously, "This weapon, the ultimate damage of this weapon is 3000! Am I wrong?"

Bai Lang grabbed Lu Yang's arm and said, "Boss, where is the second half? I'm going crazy."

Zhang Zibo said: "I think I should practice another violent battle."

"I have the same idea," Zhuojiu poured out.

...

Everyone who sees this drawing ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ is not crazy for him.

Lu Yang said: "The second half is on the officer in the north camp of St. Gall."

Everyone: "..."

"Fortunately, we have a wolf family, otherwise this holy sword cannot be synthesized at all." Said the white wolf.

Lu Yang said, it is estimated that when the official designed the weapon, it was just a joke, and never thought that someone could actually lay down all the drawings of the weapon.

Lu Yang said: "I have let Huo Tianhua and Shoot Sirius lead the troops to the city of St. Gall. Don't talk about this here first. Take the troops to the west of the city. Let's kill the material merchant first."

At present, all the material merchants are concentrated in the west of the city. The sale of ore, fur and cotton has become the sunset industry. All of them are selling at low prices. What Lu Yang lacks now is the 60 high-end materials. .

Chapter 620 - Robbery completed

“Yes.” The crowd nodded together, and as Lu Yang ran to the west trading area.

As the largest raw material trading center in Sirius City, tens of thousands of people set up stalls on the streets every day. At night, more people set up stalls than during the day. Players who hit the materials from the replica and the wild during the day will be able to go to bed. Come here to hang up the stall and use the vending function.

When Lu Yang came here with Xia Yuwei, Hei Yan, and others, watching the crowd of hundreds of thousands of stall players stalled on the hook, they were shocked.

“So many people,” Bai Hu said.

Lu Yang smiled and said, “Kill.”

“Yes.” Hei Yan beckoned, and the mages standing behind him who did not release the secondary forbidden spell collectively jumped to the roofs on both sides, blinking at each part in front of them and started to spell.

Lu Yang stood at the gate of the market and watched with his own eyes after 30 seconds countless secondary forbidden spells of ice, flame, lightning, and time and space fell on the wolf players.

In less than 10 seconds, more than 100,000 merchants were killed by spells, and countless materials burst out.

People such as Xia Yuwei and Zhuojiu cheered loudly.

“We’re rich.”

“Get rich.”

...

The value of the material dropped by 100,000 merchants is more than hundreds of millions. Although it is not worth it now, as long as Lu Yang sends the drawings on the Blood Elf Island to the World Channel, the price of the material will instantly rise to the previous price, or even higher.

Lu Yang said to Hei Yan, “Tell your brothers, they picked up their backpacks, they were all their own, and the rest was put in storage bags, and then handed to me.”

When Heiyan’s excited eyes lighted up, he immediately conveyed Lu Yang’s words to the members of the Forbidden Spell Masters.

A short moment later, the mage regiment burst into warm cheers.

“Long live the boss.”

...

Lu Yang said with a smile: “You’re welcome, grab it.”

Everyone took out the storage bags that had been prepared from their backpacks and rushed into the market to pick up materials.

The materials are dropped in groups, each of which is 30 pieces. Most of the materials are grade 40 and 50 gold, and a few are grade 60 gold materials.

Even if it is a small part, among the 100,000 people, the number is considerable.

2 hours.

Lu Yang took the team for two hours to pick it up from one end of the market to the other. He picked up more than 20 storage bags for the materials in his hand, and he could n't even hold the staff and replaced it. The Red Flame Lion came to help carry these storage bags.

So are Xia Yuwei and the White Lion. Everyone uses a mount to help.

Lu Yang saw that more than 300 people had picked it up in the market area and said: "Everyone returned the same way and withdrew from the South Gate. We gathered troops outside the city and returned to the Red Fort."

The crowd nodded and sent messages to their heads.

"Order the troops to retreat."

"The entire army retreated from the south gate to the outside of the city."

"It's cheap enough to run quickly and meet outside the city."

...

The members of the Jagged Brothers Alliance who are making great fortunes in Sirius City at this time are all packed with their backs, and they have smartly prepared storage bags in advance, carrying four or five in their hands.

Hearing the rally, the entire army began to retreat gradually.

After 2 hours.

Two million people gathered outside the city.

Lu Yang stood on a hillside and looked at his two million men. Everyone's face was filled with smiles, and he nodded with satisfaction, and said with a loudspeaker: "It looks like the harvest is good.

Everyone laughed.

Lu Yang said: "The whole army retreated, and we returned to the Red Fort to rest. In the early morning, we will sell our things and make money."

"Yes." Two million people shouted in unison.

This time everyone earned at least 10,000 credits, more than 100,000, and good luck earning hundreds of thousands.

The army returned with great momentum along the same path.

Just 20 minutes after walking, Sirius sent a message and said, "Report boss, our army has reached 2 million people in the dense forest outside the Red Fortress, and is consolidating."

Lu Yang said: "Take a rest for 10 minutes and then attack the city of St. Gall. , Remember, you are not allowed to disclose the drawings to anyone except your brother. "

"Yes, I must complete the task," said Sirius.

The drawing of the Holy Sword is too important. Whether the Brotherhood of Iron Blood can rise at this stage is mainly to see if the Holy Sword can reach it.

Only the first time the general is a must-explode drawing, the explosion rate of each subsequent kill is half smaller than before, and it will take 10 days for the general to resurrect. If this is not available, it will be difficult to get it next time.

Jiang Ze told Lu Yang: "Don't worry, there will be no accidents when there are Mu Yi and Shooting Sirius."

Lu Yang said: "Let's go back, you lead the team, Xiao Liang, Hei Yan and members of the elite group followed me and flew back to the Holy City. We will see the situation outside the King's Hall."

Hei Yan immediately said: "All the members of the mage group handed over the materials to the players behind us for safekeeping, and we flew back to St. Gall with the boss."

"Yes." The members of the Master League handed over the storage bags they brought to the players nearby. In less than 2 minutes, more than 300 people were ready.

"After landing, everyone immediately went to the King's Hall, and we gathered on the top floor of the King's Hall." Lu Yang took out the fort to return to the city and rolled back to St. Gall.

As soon as he landed, he immediately changed his appearance and ran to the King's Castle. When he arrived on the second floor, Hei Yan and the rest of the mage players also arrived.

Standing on the head of the city.

Lu Yang looked down at the city. At this time, the city of St. Gall was quiet, most of the players fell asleep, and only a small number of people ran between the city and the city.

On the bustling street in the east of the city, more than 100,000 businessmen are hanging up their stalls there. There are also a lot of businessmen in the west and south of the city. As a new development area, there are also many people. "Boss, will we be jealous if we kill so many people this time."

Lu Yang said with a smile: "Silly boy, I've been jealous of your boss, don't forget, we have nearly 4 main cities, 17 fortresses, you know how many people dream of replacing us. "

Heiyan took a deep breath, nodded, and said, "That's true."

Lu Yang said: "This time all of us went out to fight with our friends. Those who did not follow me out to fight are my enemies. What I need to do now is not to envy these enemies but to make them fear me. We have the power to slaughter the city. "

"Fear?" Hei Yan's eyes were a little confused.

Lu Yang smiled and said, "There is a famous saying that people are afraid of you longer than people who respect you."

This is an iron law. Only when everyone is afraid of you and afraid to offend you becomes nothing, they will not dare to resist you.
