Chapter 681 - Red Haired Great Ape (Lord)

“Finally resisted,” Xiao Liang said.

Lu Yang said: “Continue to attack, we have hope to fight the past.”

This is a purely operational and technical level that has resisted for so long. If you ca n’t live it, you ca n’t beat it today. Lu Yang ’s spirit can only withstand this time, and he ca n’t bear it again.

“Kill him, the last 40 million HP.” Shouted the White Lion.

Xiao Liang shouted, “Come on together, kill him.”

The crowds fully exported Garcia. Without the range attack of the mage and the thief, Garcia’s health dropped rapidly, and soon reached 35 million points.

Assassin Dilcar appeared with a flying knife.

“Everyone be careful, Dilkar is going to use a whirlwind of knives,” shouted Dusty.

No one took Dilkar seriously. The whole group’s health was now full, and the priest was completely afraid.

“Deadly Poison”

Dilkar turned and threw 5 daggers, hitting 3 heals and 2 mages.

“1000”

“1000”

...

Only 1000 points of blood are lost every second. Yeyue listens to the wind and does not take his poisoning seriously. He always pays attention to the blood of Andre and Xiao Liang.

After 5 seconds.

“20000”

Yeyue listened to the wind and two other treatments, and two mages died on the ground at the same time.

Lu Yang said: “Resurrect immediately, the mage will put skills.”

Yeyue listened to the wind and used the soul stone to resurrect. He immediately filled himself with blood, and then began to add blood to Xiao Liang. He said, dejected, “What an unlucky skill, which also brings end damage, 20,000, so high.”

Lu Yang said, “Beware of the group’s Shadow Arrow.”

Andre threw a shadow arrow in his hand and hit every player. At this time, Lu Yang’s mind was relieved. All the skills of the four lords were used. As long as you deal with it carefully, you should be able to pass it.

After 10 minutes, the health of the four councils had dropped to 5 million points, and the body of the Berserker Garcia appeared crimson.

System prompt: Garcia enters violent state, attack speed increased by 50%

Garcia, who hit 1 second, turned into an attack in 0.5 seconds, and Xiao Liang's blood volume began to drop sharply.

The six priests in charge of Xiao Liang were extremely difficult.

The assassin threw a whirlwind of knives.

Lu Yang shouted, "Yueyue listens to the wind and the group adds blood, I will take over your treatment."

"it is good."

Yeyue listened to the wind and turned to others, just filled with blood, Andre roared.

"Flame Storm"

Two priests were stunned and stunned within 10 yards.

"Not good." Lu Yang shouted, "Xiao Liang uses Red Mist for bloodthirsty."

"Roar"

Xiao Liang roared, forcing Garcia to attack him for 5 seconds.

"flicker"

Lu Yang appeared in front of Xiao Liang.

“Resistant Fire Ring”

A reddish light emerged from Lu Yang’s body, flying Xiao Liang to a position beyond 10 yards.

“Damn, I want to escape from my sight.” Garcia chased after Xiao Liang.

At a distance of 10 yards, Garcia ran for 1 second. When he reached the position, the 2 priests just woke up from the coma and treated Xiao Liang together.

The White Lion and others chased Garcia.

Lu Yang returned to his original position with an escape dagger, and continued to attack with Andre. After avoiding more than 50 shadow arrows, Andre suddenly covered his chest. „Failed.”

System prompt: you killed four councils

Lu Yang exhaled and sat down on the ground.

The white lion and bitter love half-life cheered wildly. When they looked at Lu Yang, they found that Lu Yang fell to the ground.

“Boss, what’s the matter with you?” Cried half-life and ran over.

Lu Yang looked at his spiritual connection. Only 93% of the synchronization with the game was left. He waved his hand and said, “I hid from the shadow arrow of that mage.

For more than 10 minutes, except for the start, Lan Yu added one blood, and then he did not use treatment for one more time, all relying on his avoidance and dark healing to restore his life.

Under such circumstances, Lu Yang could replace Xiao Liang with a treatment to add blood, and imagine how much work Lu Yang had undertaken.

Lan Yu said, "Would you take a break?"

Lu Yang shook his head and stood up and said, "Still holding on, I'll go and see the equipment."

He asked Blue Feather to help him to the front of Berserker Garcia and click to pick it up.

Immortal Pauldrons

Attribute: None

A total of six shoulder armors, Lu Yang went to the thief and got a silver ring.

Ring of Frost (Excellent Gold)

Level: 60

Attack: 355—384

Strength: +190

Additional physical attack: +275

Set 1 \ / 5

3 Piece Set: Add 300 Ice Resistance

5 Piece Set: Has a chance to trigger Frost Shield when attacked, resist 5000 damage

“And the decorations? The damage is so high!” The White Lion said in surprise.

Lu Yang said: “If the other 4 items are the same as this attribute, an 8-piece set of thunder, a 5-piece set of frost, plus a cloak, a badge, and a deed, the total blood of a Templar would be 40,000 , Attacks of 12,000, defense and magic resistance are above 5000. “

Everyone was amazed and didn't know what to say.

Lu Yang said, “Continue, the next level.”

The crowd nodded, followed Lu Yang to continue, passed through the main hall of the King's Hall, entered a garden, killed the Blood Elf Guardian blocking the way, and came to the entrance of the apse. A red hairy ape sitting 10 meters in height Beside.

Flame Ape Ken (Spirit)

Level: 60

Qi and blood: 240000000 \ / 240000000

“He's Her Majesty's pet, and we have to defeat the Queen to see him,” Morns said.

“What skills does he have,” Lu Yang asked.

Morns said: "He has few skills, only three. The first is a heavy punch, using heavy punches to attack the target, and the second is flame ignition, and fire jump attacks on all targets within 10 yards. Ignition lasted 1 minute, and the third was a flame burst. The armor of the target that was hit will melt the remaining half ~ www.mtlnovel.com ~ It is not easy. Finally, there is a lord who only has 3 skills." Said bitterly for half a life.

The 4 lord monsters I encountered before each had at least 6 skills, especially the range skills.

Lu Yang said: "Be careful, don't think it's easy, the less the skills, the higher the attack power, Xiao Liang can't easily carry it."

"It's possible," White Lion said.

Xiao Liang said: "The lord in this copy cannot use the physical method to evade. I dodged an attack not only does not increase hatred, but it will reduce hatred. I can only resist it. If the defense is not enough, I can't really carry it."

Lu Yang said: "Don't worry, I have a good way. Didn't we get 4 pieces of the Undermine Set before, you can change them first. These 4 pieces will increase the defense power by nearly 500 points, and the blood volume will be more than 1,000 points. . "

The four effects of the coagulation suit, only the first two increase defense ability, the latter two attributes are not as good as the Minglei sets.

Chapter 682 - Frighten for ten seconds

Xiao Liang blinked his eyes and said, "I'll try."

Lu Yang went on to say: "Melee Paladins can also temporarily replace the 4 pieces in the Immortal Soul Set with the Blood Mist Set."

The two-piece set of the Blood Mist Set has an additional 5% critical strike chance and 500 attack power, which is better than the last two attributes of the Soul Immortal Set, which can increase the attack power even higher.

The White Lion reacted and said, "This is okay. Our crit chance and damage are high, and we can do more damage."

"Wait for me, I'll go back and set you up with gems and find equipment." Lu Yang returned to the demon temple with his skills.

Put 10 pieces of defensive gemstones on each of Minglei's helmet, shoulders, clothes and belt, and then borrow Xia Yuwei and others to borrow the Blood Mist Suit, and then return the copies to Xiao Liang and the White Lion.

Xiao Liang replaced the equipment, his defense increased to 11,000 points, and his blood reached 65,000 points.

The Paladins, such as the White Lion and the bitter half-life, changed their equipment, and their critical strike chance increased to 35%, which would explode every 3 swords.

Lu Yang said, "Xiao Liang went to fight against the monsters for a while. All the people were scattered beyond 10 yards. Only 2 of the treatments could be added to the blood. The other 8 treatments should be watched by Xiao Liang and kept adding blood.

Everyone nodded.

"Xiao Liang started to blame." After Lu Yang confirmed everyone, he ordered the fight.

"charge"

Xiao Liang carrying a shield and hit a phantom hit the demon ape.

“5000”

Han Fei’s attack triggered Red Mist Cyclone.

“Hello ~!”

The demon ape’s body swelled in an instant and turned into a 20-meter-high horrific relic. He stared at Xiao Liang with blood red eyes and smashed his right fist heavily.

“30768”

“Add blood, add blood soon.” Yeyue shouted to hear the wind, although they have been mentally prepared, but any treatment did not expect the great ape to be so hurt.

“One punch knocked out half of the blood. Fortunately, Xiao Liang’s blood volume is 65,000, which can resist 3 fists.” Hei Yan said.

Lu Yang spilled two potions and shouted, “Ding-Dang Cat is in a storm, and everyone outputs with all their strength. This level of pure hardware fights, and our hardware passes. We can definitely pass it.”

“Okay!” Everyone shouted.

“storm”

“Retribution Angel”

Everyone will use all the skills that they can tap, and try their best to attack the magic apes.

The attack rate of the demon ape is once every 1 second. Under the current circumstances, 8 priests add blood to Xiao Liang and add it every 1.5 seconds.

“Holy Flame Slash”

“Meteorite Impact”

Lu Yang said to the mage regiment, “Those who forbid curse once were thrown out.”

“The Great Lord of Fire ...”

“The Lord of Time and Space ...”

Hei Yan, Black Knight, Nanfeng Zhiyi, and Mu Yu all released the secondary forbidden spell, and Lu Yang also chanted it.

After 10 seconds.

“Meteor Fire Rain”

“Lightning Storm”

...

4 secondary forbidden spells fell from the sky to attack the demon ape.

“5068”

“5052”

...

The magic ape's defense and magic resistance ability is extremely high. Lu Yang uses the magic sound reverberation to reduce the opponent's magic resistance by 30%. They also have equipment for penetrating the spell, which can still only kill such a little blood.

"Thunderball"

"Meteorite Impact"

Hei Yan and Mu Yu released the forbidden spell, and immediately attacked with ordinary skills, double-strike to increase damage.

The white lion and bitter love also tried their best to attack.

"20128" (Critical Strike)

"20156" (Critical Strike)

...

The start of continuous crit surprised the White Lion very much.

"It has increased the chance of critical strike by 5%, which has actually increased so much." White Lion said.

"I am the same, the boss's method is great."

Lu Yang laughed inwardly. This was a game played by players in the previous life who were forced by this copy. It was really a monster who resisted and could not think of it.

The blood volume of the giant demon ape dropped rapidly under the attack of everyone. Suddenly, he stopped attacking, smashed his chest with his fists, and opened a huge mouth to emit flames.

Yeyue Tingfeng and 3 treatments were sprayed.

“15000”

The Fire Seeds jumped around on the three of them, and no one within 10 yards simply caused no jumping damage.

Two group brush treatments immediately added blood to Yeyue Tingfeng three.

“2000”

“2000”

“This skill can’t be dispelled, we will always give you two blood.” A healing station said 20 yards away.

Lu Yang said: “Be careful of Xiao Liang’s health. The lord blame will melt his armor after a while, and if he is not good, he will die.”

The voice just fell.

The demon ape punched heavily on the ground, and the huge shock wave backed everyone off.

“20000”

“My armor is only half.” Xiao Liang shouted.

Yeyue Tingfeng and others immediately added blood, just filled Xiao Liang's blood, and the magic ape punched Xiao Liang's body.

"50000"

"Plus blood, it's going to die." Xiao Liang shouted.

Yeyue Tingfeng and others immediately added blood, but someone still slowed down, and the ape attacked again.

"50000"

Xiao Liang is dead!

Lu Yang shouted: "Zhang Zibo resists blame."

Zhang Zibo immediately launched the Red Mist Bloodthirsty. The magic ape was about to attack other people and was attracted by Zhang Zibo.

"50000"

Zhang Zibo also halved his armor, and everyone immediately added blood to Zhang Zibo, this time over.

Lu Yang said: "Xiao Liang resurrected with the Soul Stone and resurrected the monster."

Xiao Liang's body was revived in a flash of white light, and his armor returned to normal, using the red mist bloodthirsty to draw the attention of the demon ape.

"30068"

The people were relieved and continued to attack.

Lu Yang was relieved and finally resisted, saying: "The next treatment will focus on my mind, and Xiao Liang will not be able to resurrect if he dies again."

Lan Yu and others nodded.

Continue to output, the giant ape's attack entered a plateau, and two minutes later, his health dropped to 180 million points.

"Hello ~!"

The demon ape roared again, emitting flames.

This time, the crowd was no longer busy. When the magic ape was punched on the ground, 10 treatments gave Xiao Liang blood, and Lu Yang put on a treatment ring to protect Xiao Liang.

"50000"

"+11628"

"+10628"

...

The armor that lasted for 10 seconds was halved, so that Xiao Liang's blood volume was always in a state of rapid drop and increase of blood.

After 10 seconds, Xiao Liang's armor returned to normal.

Lu Yang said: "Resisted."

Everyone's confidence increased and continued to attack ~ www.mtlnovel.com ~ The magic ape attack entered the plateau again. After another two minutes, the magic ape launched its third attack.

This time everyone was more experienced, and fully resisted the 10 seconds.

"The magic ape is nothing, it's just 10 seconds." Said the bitter love to cheer everyone up.

Everyone laughed.

After 8 minutes.

After the last release of Spitfire, the ape fell to the ground and did not use it to lower its armor.

System prompt: Congratulations on successfully killing the demon ape

Lu Yang shook his fist vigorously. Originally, he thought that the lord didn't know how many times he had to fight to clear the customs.

Morns cheered, "It's great, I can finally see the queen, and he's inside."

Chapter 683 - 9 color dragons

Lu Yang picked up the handguards of the immortal and a frost ring that fell to the ground, and said, "Follow him."

The crowd nodded and entered the apse together. This is a beautiful open-air promenade with an unknown golden wood fence. On both sides of the promenade is a large flowing pool.

Moines ran to an open space at the end of the promenade, standing there.

Lu Yang brought the team to Morns and asked, "What happened?"

Morns pointed in horror at a large tree in the distance, with a nine-color dragon on top of it.

"The dragon is the dragon, the queen. He actually cured the dragon," Morns stuttered.

Lu Yang looked up, and standing on a tree in the distance was a dragon with a height of several tens of meters. His body had nine colors, and his head was staring at Morns with golden eyes.

"Morns, you came here with humans, and it looks like you really betrayed the queen." A strong, ice-blue humanoid creature appeared on the dragon head, and he hung in the air, looking at Moen with an angry face. S.

"Calenkoru, you bastard, dare to save the nine-color dragon, do you know what it means to save him?" Moans yelled.

Calenkoru, the ice-blue demon, said with a smile on his face: "Of course I know, he represents power and the power to conquer desire."

"Asshole, all he brings is destruction. Do you know that the nine-colored dragon is a failed product developed by the dragon lunatics? It is a creature that is not tolerated by any dragon family. Saved, the nine dragons will not spare our blood elves." Morns said.

Calenkoru said indifferently: "Is it okay not to let them know?"

"How is this possible?" Moines said.

“Of course it is possible to kill you.” Calencoro patted the dragon’s head and said, “Go, my soldier, kill them as your first step in revenge.”

“Hello ~!”

The nine-colored dragon shouted from the sky, two huge wings spread, nearly a hundred meters long, covering the sky, and he jumped down and stood in front of everyone.

Nine Dragons Hassel (Lord)

Level: 60

Qi and blood: 220000000/220000000

“Oh my God.”

“So big.”

...

The exclamation whispered among the crowd. “Second World” made the game too real. The nine-color dragon, which was dozens of meters high, stood in front of them like a real dragon, and his expression and mouth spit out The fog, everything is so real.

Lu Yang asked Morns: “What skills does this dragon have?”

Morns shook his head and said, “I don’t know. This dragon was resurrected after I was expelled. I know nothing about him.”

“It’s not easy to fight this time, he doesn’t even know what skills he has,” said bitter love for a long time.

“Boss, what should I do?”

Everyone looked at Lu Yang.

Lu Yang said, “Have a try and learn about his skills first, Xiao Liang.”

“Okay.” Xiao Liang lowered his lower armour, and slammed into the dragon’s left forelimb.

“Hello ~!”

Nine-colored dragon roared, raised his left foot, and slammed it down.

“100”

“The damage is not high, I can resist it.” Xiao Liang shouted.

Lu Yang said, “Let’s go together, drive storms and punish angels.”

Hei Yan and Nan Feng consciously took the remote mage to the side, Han Yu was responsible for attacking Xiao Liang to trigger the Red Mist Cyclone, and White Lion and bitter love stood half-long with the melee on both sides of the dragon.

After the first 5 lord monsters, everyone’s consciousness has been improved a lot, and the offensive has been launched in an orderly manner.

Hasir’s blood volume dropped rapidly. When his health reached 10 million, Hasir’s eyes became black, and a breath of dragon spit out. It was in the middle of Xiao Liang.

System prompt: Hasel uses dark mist

“20000”

The black mist quickly dissipated, and 20 black skeletons emerged from the mist. Each skeleton’s body was metallic and shiny, holding a hatchet in his hand.

Dark Skull (Elite)

Level: 60

Qi and blood: 8000000/8000000

Lu Yang said: “Zhang Zibo and Zhuojiu each resisted 10 skeletons.”

Voiced wine said: “I fight the left, you fight the right.”

“No problem,” Zhang Zibo said.

The muddy wine rushed to the skull group to use dedication, and 20 skeletons walking towards melee collectively looked at the muddy wine.

“Hello ~!”

Zhang Zibo launched Red Mist Bloodthirsty and pulled 10 of them back to himself.

“3899”

“3269”

The four priests were divided into two groups to add blood to the two.

Lu Yang said: "Melee fighting dragons, long-range responsible for killing skeletons, range spells together for seconds."

Hei Yan and Nanfeng Zhiyi each released a secondary forbidden spell, killing skeletons with 30 mages.

The nine-color dragon dropped 10 million health again, and the color on his body turned green, and a large poisonous mist was sprayed out with his open mouth.

"20000"

Xiao Liang's body turned dark green, dropping an extra 8000 points of blood every second.

Yeyue Tingfeng used Xiao Liang to dispel, but was unable to remove the dark green, saying, "It is another toxin that cannot be dispelled."

Lu Yang said: "Continue to add blood, don't worry about Fei Lan, first see what skills he has, let go of the fight."

Everyone nodded.

After 30 seconds.

Hasir's health dropped by 10 million points, his body turned gray, and a mist blew around, and everyone was hit by the mist.

"Why did my magic drop?" The White Lion said in surprise.

“Mine has dropped too, this mist hits the blue.” Shouted bitterly for half a life.

“The priest disperses,” Lu Yang said.

The white light emerged from the hands of Yeyue Tingfeng and Blue Feather, using the range to dispel skills.

The white lion saw the fog disappear on his head, and frowned, saying, “This time, I can’t get over it. My blue has dropped by 3000 points in those 3 seconds.”

It takes at least 10 minutes to kill a lord, and their blue is not enough. A 3,000 point drop is equivalent to 10 skills.

The crowd continued to attack, and soon, Hasil’s health was 150 million points left ~ www.mtlnovel.com
~ Suddenly, Hasil’s wings spread, and he flew forward with force.

“What does this mean?” Bitter love looked at the nine-color dragon curiously for a long time.

Lu Yang said, “Melee breaks, long-range attack.”

Nine-colored dragon flew into the sky, soaring to the left and right, and Hei Yan and Nanfeng Zhiyi were quickly drawn together for chasing him. At this time, Nine-colored dragon’s head turned red.

System prompt: Nine Dragons release Dragon Breath

A blast of flames sprayed into the open space below. The length and width of the open space was about 100 meters, but the dragon’s breath had a width of about meters.

Hei Yan and Nanfeng Zhiyi, who were pursuing his attack, could not escape the flames.

The system prompts: Player Heiyan died!

System prompt: Player Nanfeng consciously died!

Chapter 684 - Node bug

A series of systems suggested that all 30 mages and 10 heals were killed by Dragon Breath.

“I’ll go, spike.” Bitter love half-life said with a sigh.

The lava-like dragon’s breath disappeared on the ground. At this time, 40 crimson skeletons stood up from the magma and rushed towards the melee team.

Fallen Players (Elite)

Level: 60

Qi and blood: 8000000/8000000

The white lion and others are looking dumbfounded.

“Bring it like this? How can I fight this?” White Lion said.

There were 50 men left in the melee, but the treatment was all dead and it was clear that they could not fight.

Lu Yang flickered to the promenade and said, "The turbid wine uses sacred interference on me. This is the end of the game. I'll save everyone."

The light of the turbid wine poured out of his hands, pointing to Lu Yang.

System Tip: You are invincible, unable to move, and unable to use skills

Forty skeletons hacked and killed all of them in close combat. When they saw that there was no one in the open space, they stood still.

Two minutes later, the skeleton fell to the ground, and the nine-colored dragon continued to circle in the sky.

Lu Yang canceled the sacred interference and used a goblin pacemaker to rescue Blue Feather, saying, "Resurrect everyone first."

Lan Yu nodded, and the priests such as Yeyue Tingfeng were resurrected. Ten people brought the whole group together.

Hei Yan sat on the ground while taking the remedy and silently looked at the dragon in the sky, saying, "When the nine-colored dragon spit the dragon's breath, there was no aura. Suddenly it spit out and gave me no response time."

The common sense says that the mage has flashing skills, even if there is a dragon breath, he can easily escape, but when the nine-colored dragon spits, there is no prompt, and no mage runs out.

"My worst part is not this, it's the elite monsters who will become 8 million bloods when you die, helping Jiiselong to fight us."

Everyone: "..."

Lu Yang said: "Let's pay attention to the changes after he flew into the sky. We should be able to find some clues."

It can actually be found, but it is very difficult to find this detail, and even Lu Yang may not always find it accurately.

Everyone nodded.

Xiao Liang asked: "Boss, he can't get down, I can't reach him."

Lu Yang said, "Han Yu is going to pull the dragon down."

"Okay." Han Yu chased in the direction of the dragon, ran out 50 yards, and shot a sword into the sky, right in the middle of the nine-colored dragon.

"Hello ~!"

Nine-colored dragon lowered his head and took a breath.

Han Yu, die!

Everyone: "..."

Lu Yang: "..."

"How come you take a breath of dragon breath." Xiao Liang said dumbfounded.

Lu Yang said, "Save it first."

Yeyue listened to the wind and waited for the dragon to fly away. He walked up to 20 yards and aimed at Han Yu to use resurrection.

A flash of light flashed, Han Yu revived in situ, and said depressedly, "I'll try again."

Lu Yang nodded.

Han Yu sat on the ground full of blood, playing the game until now he encountered such a humiliating thing for the first time, as a shooter, was actually blamed for seconds when opening a monster, which is a shame to him.

After 1 minute.

Nine-colored dragon flew back, and just about to Han Yu, Han Yu looked up and shot an arrow in the abdomen of the dragon.

"-1"

"jump"

Han Yu launched his backward jumping skills and instantly jumped towards the back. Just when he just thought he was avoiding Dragon Breath, a crimson dragon breath wrapped him around.

Han Yu, die!

Ye Yue listened to the wind to save him again, Han Yu was anxious and said, "I will try again."

Lu Yang shook his head and said, "It's not your technical problem. We just looked at it. The scope of Dragon Breath is too large. You jump to the highest point and have not left the scope of Dragon Breath. It doesn't make sense to try again."

Han Ying said: "It is true. When you jump to the highest point, the thickness of Dragon Breath is more than 1 meter higher than you."

Han Yu walked back in surprise, and said, "I thought I was jumping slowly. If I was one meter longer, I couldn't jump any faster."

"What a mess, we can't pull it off," said bitterly frowning.

Lu Yang said, "And me, I'll go blame."

"Boss, how do you pull it?" Zhou Tianyan asked, the range of the transferred mage was only 50 yards, and the height of the dragon flying in the sky was 60 yards, which was a difference of 10 yards.

Lu Yang pointed to the fountain next to him and said, "I jump to it, it should be OK, and then it will flash back just fine."

The bluestone guardrail of the fountain is 10 yards high.

"This works," Hei Yan said.

"You're waiting for me, I'll try." Lu Yang walked to the fountain in front, jumped over the guardrail and looked around. On his right was a beautiful carriage rack, and there was an arch behind the carriage.

"Hello ~!"

The nine-colored dragon fluttered from the sky with wings flapping, when he reached the position above Lu Yang's head.

"Flame Shock"

Lu Yang raised his hand and pointed at the nine-color dragon. His body flickered with white light and immediately jumped to the carriage frame 30 yards away from the left side.

The crowd watched the nine-colored dragon hit by Lu Yang's flame and flew towards him, while Lu Yang flickered and threw the escape dagger first.

"It's done."

"I can run out."

...

Just when everyone thought that Lu Yang was able to run back, a blue light appeared on Lu Yang. Everyone saw dumbfounded that Lu Yang remained intact, remained on the carriage, and the dagger disappeared in place.

"How is this going?"

"How failed?"

"Dagger capitals are flying out."

...

Everyone looked at Lu Yang in doubt, at this time, the nine-colored dragon had flown to his head. As long as he took a breath, he would die.

"It's over, it failed."

"Strange, why didn't you jump out?"

“Well, weird, why didn’t he kill the boss?” Bitterly loved blinking for a long time, he found that the nine-colored dragon descended slowly and stopped in the air when it was only 10 yards away from Lu Yang. The output does not fly away.

White Lion and others have also discovered this situation ~ www.mtlnovel.com ~ A bug? “

“It’s tidy. It can’t be so right.”

Lu Yang looked back at the crowd and said, “It seems like a bug, tidy up.”

Everyone: “...”

This is “Second World”. Such a sophisticated game, or such an excellent copy, there are such bugs, it really surprises everyone, no one knows what to do now, and shake their heads.

Lu Yang raised his hand and hit the nine-color dragon’s head in an explosive manner.

“10106” (Critical Strike)

Nine-colored dragon did not say anything and continued to stay in the air.

Lu Yang successively tested more than 10 Pyroblastics and found that the dragon has not changed. He smiled and said, “Come here and output it remotely. This dragon seems to be stuck here.”

“Let’s try it.” Hei Yan said excitedly.

Nanfeng Zhiyi, Mu Yu, and others brought the mage to the vicinity of Jiu Seirong for output. However, Jiu Seirong seems to have only identified Lu Yang. No matter how they fight, the dragon remains in place.

200 million HP

150 million HP

...

50 million HP

Until the last 10 million hits, Jiu Selong stopped and remained intact. When he died, everyone was intact and did not suffer any harm.

System prompt: Congratulations on killing Nine Dragons Hasel

Hei Yan said excitedly: “It got through!”

The White Lion said, “You can still do that.”

“My boss, don’t come down first, let’s see where you are stuck. We will get stuck here next time when we come again.”

The crowd ran to Lu Yang.

Lu Yang pointed to the round arch of the carriage frame and said, "This is the place. Let's try it again tomorrow to see if it works."

In fact, it is completely feasible. This position is a major bug that appeared in the previous system. The official found this bug six months after the game was launched. Players can jump to this node to get the main nine-color dragon, and the whole group is intact Beat this lord.

Hei Yan confirmed his position seriously and said, "I'll try it tomorrow."

Lu Yang jumped off the carriage shelf and said, "Take the equipment and go to the next lord."

"it is good."

Originally when the dragon was killed for the first time due to the mass destruction, the low morale became high again. Lu Yang came to the dragon's body and picked up 6 immortal wristbands.

He looked at the dragon corpse on the ground and said, "Han Fei is responsible for skinning. The dragon skin of this nine-colored dragon can be peeled off."

Han Fei nodded, and he just found out that he came to Jiu Selong to use the skinning skills. Within 2 minutes, a huge and complete dragon skin appeared on his hand.

Nine-color dragon skin (excellent gold)

Description: This is a dragon skin full of magic energy.

"What can this dragon skin do?" Han Fei asked.

Lu Yang looked at Moens and asked, "What can this dragon skin do?"

Morns said excitedly: "This is a baby, the nine-colored dragon knows all the magic. His dragon skin is full of magical energy. In our fairy village, there is a dragon skin dedicated to enchantment. Resistance. "

"Is there such an enchantment?" The bitter eyes half-lifed.

The White Lion said: "It looks like our Mine Slayer's magic resistance can be higher."

Lu Yang asked, "How can I get an enchantment?"

"As long as you take me to the queen, I'm willing to sell you a set of enchanting recipes," Morns said.

Lu Yang said, "Go forward, the next lord."

"Okay!" Everyone shouted excitedly.

Morns gritted his teeth and said, "I'm finally going to see the queen. I must show my affection to the queen to let her know how evil Calencoro has done."

Lu Yang shrugged his shoulders, took Moens into the harem palace, entered a garden, and killed the blood elf guard along the way to the end of the garden.

The system prompts: You found the Elven Mountain

Fairy Mountain is a crater with only one entrance. Standing at the entrance is Calencoro.

"Oh, Moens, I was surprised that the humans you brought were able to defeat the Nine Dragons. It was really amazing to me," Calencoro said.

Morns said angrily, "Callencoro, your death is here. Without the nine-colored dragon, you wouldn't be arrested."

Calencoro smiled slightly, and said, "Why my dragon is dead, and I want to capture it. Do you think I have won the queen's favor because I can treat that dragon?"

Morns was surprised and asked, "What do you mean by that?"

Calencoro was holding his right sleeve in his left hand, and when his right hand was completely out of the sleeve, he pointed at Morns with his right hand.

"Finger of Death"

A dark ray of light hit Morns, knocking him down instantly.

"You, you are ..." Morns fell to the ground in horror.

"No, it's a strange person who doesn't tell skills, who knows what skills he will have." Said bitterly, depressed for a long time.

Lu Yang said, "Forget it, first try the game and see what skills he has."

"I'm going against the blame"

Xiao Liang rushed to Calencoro with his shield, and the shield was slap on his face.

“Humans, you will know how wrong it was to provoke me.” Calencoro’s body swelled into a giant 20 meters tall instantly.

“Aura of Light”

A white light emerged from Calencoro’s fingers, right in the middle of Xiao Liang’s shield.

“20000”

Xiao Liang said: “I can resist, add blood.”

Lu Yang sprinkled two potions and said, “Everyone scattered their positions and attacked with all their strength. He tested his skills for the first time.”

“it is good.”

The crowd dispersed and attacked hard.

Lu Yang gave no hope at all for the first attack. When the second-year anniversary of “Second World” was officially selected as the hardest copy lord, everyone ranked this Calencoro as the first, even the Queen of the Blood Elf Island None of this Calencoro is hard to beat.

There are five main skills. The first fire of destruction, he will create a path of flames, starting at his feet and extending to the target.

If the target escapes, the flame will chase the target until the time exceeds 30 seconds, or the target dies.

This skill alone can kill players countless times, because he can create 5 flames at a time, and the damage of the flames is as high as 20,000 points. Any named player is equivalent to death.

As it is now ~ www.mtnovel.com ~ Hei Yan and Nan Feng were named, and the two were chased by the flames for 20 seconds, but they were killed without running through the flames.

Calencoro's second skill is soul recharge. Any player killed by him will get him soul energy. He will use this energy to immediately launch a shadow arrow to everyone in the group, hurting 8000 points.

If there are more than 3 people killed at one time, the regiment will definitely destroy the regiment. Just now, luck is good, and the remaining 3 mages use the ice barrier to escape the skill.

Callenko's third skill is called Air Blast. He will randomly name three players and fly them to a height of 50 yards in the sky. At the moment of flying, he will cause 7000 damage to surrounding players.

If you are a remotely dispersed player, it's okay to say that if you are in close combat, Calencoro will use the air to blast the white lion and the half-loving half-life, Han Fei, and the three will be blown into the air at the same time.

With 25,000 points of blood, they only have 4,000 points left. At the same time, they have the same melee in the underground. Almost everyone has only 4,000 points of blood left.

Chapter 686 - Air blast

Calencoro's fourth skill is even more disgusting. It is the whole group fear technique. Calencoro's favorite is to release the path of fire when the whole group is feared.

Each time such a connection is made, as long as the speed of releasing the control is slowed by 1 second, the team will be destroyed.

As for the last skill is the finger of range, if all players around him are afraid of his distance of 10 yards, he will immediately use the finger of death to attack.

The finger of death is a cone-shaped area that hurts 99,999 points, killing Xiao Liang with one finger, and turning the other finger to the other 99 people.

“Finger of Death”

Calencoro pointed with one hand, and all 99 people, including Lu Yang, were killed!

Lu Yang revived using the Soul Stone, flickering to the door and shouted, “The muddy wine protects me.”

“Divine interference”

Zhuo Jiu pointed Lu Yang with his hand, and he died on the ground.

The others had just been resurrected, and Calencoro turned his finger.

“Finger of Death”

All are killed again!

“Ignorant and weak humans, this is the price you have to challenge me.” Calencoro glanced at Lu Yang proudly and turned back to the position of his guard.

Lu Yang waited for him to go away, released his interference, resurrected Blue Feather, asked him to raise the White Lion and others one by one, and called everyone to his side.

“It looks like we have encountered a difficult lord.” Lu Yang said.

Everyone nodded.

The white lion said: “It’s too difficult. I don’t think there is such a strange monster, it’s just like torture us.”

“I just didn’t even know how I died.”

Lu Yang laughed and said, “I just looked at it. There are about 5 lord blame skills. Let me tell you about the effects I see, and about the damage.”

Everyone nodded.

After some discussion, Lu Yang told the entire group of skills and injuries. He said, “Let’s think about how to crack the lord’s skills.”

Everyone bowed their heads and thought.

For 1 minute, everyone shook their heads, and White Lion said, “I can’t think of it, I only know that each of his skills is released when he loses 10 million health, but this doesn’t make much sense to us.”

He bit his head for a long time and said, “I am most afraid of the ability of air to explode. I suddenly flew people, and the speed of descent is so slow. If I was named by the flame, I would not be able to beat it.”

Everyone nodded.

“This is a big problem.” Han Fei said.

Lu Yang said, "So, I thought of a way to see if the big tree in the distance is not there."

White Lion and others looked along with Lu Yang's finger, and beside the hill on the left of Calencoro, there was a large, densely branched tree.

"I see."

Lu Yang said: "We will hide under the big tree for a while. Once an air blasting skill appears, when we are knocked down, we will only hit the trunk without flying to the height of the yard."

The white lion's eyes lit up and he said, "This trick works."

Lu Yang said: "As for his path of fire, no matter who name this skill is clicked on, there will be a flame appearing from Calencoro's feet and chasing the player away. The system will be improved during the roll call. Since In this case, Xiao Liang pulled the monster far away from the big tree, and when the flames chased the distance, there was enough time to escape. "

"This is fine," Hei Yan said.

Lu Yang said: "As for the melee, once a flame diameter attacks the melee, the melee immediately uses the magic aura or the invincible aura to resist this skill."

The White Lion said, "I can resist."

Xiao Liang said: "The scariest thing is the finger of death. This skill hurts too much, and I was killed by spike."

"Yeah, how can there be such skills." Lan Yu said.

Lu Yang said: "You found no, just when Calencoro released this skill, it was not immediately released, but used when there was no melee around him. Perhaps this skill has limitations, otherwise such skills should not be Appears in a level 60 copy. "

“The boss said it was reasonable. There must be many restrictions on how high the damage can be.”

Lu Yang said: “Xiao Liang, Zhang Zibo, and Zhuojiu, the three of you are standing in the left, middle, and right directions to pull the monsters. Once Calenko uses fear, you must immediately use the badge to lift it. The same is true for the remote priest. If you see that after you have lifted your fear, someone has not lifted it in time, then it is your responsibility to disperse. “

“Okay, we can do this,” Yeyue said after listening to the wind.

Lu Yang said: “Let’s try it once and see how well we can hit it directly.”

This is the most common play in the last life, and it can also be regarded as a bug play. At first, players could not escape the air blast and all ran under the tree. The official considered this to be a bug and removed the tree.

The player saw that there were no more trees, ran to the crater, found a hole, hid it at the hole and output it. The official determined that it was a bug and removed the hole.

Then this lord blame has never been played, and it is the hardest lord to reach the 60th level copy, none of them.

Lu Yang and his team ran under the big tree. After everyone stood up, he said, “Xiao Liang is strange.”

“Good grin.” Xiao Liang dropped the lower armour, rushed to Calencoro with confidence, and Han Yu used continuous archery.

Multiple red mist whirlwinds cut in succession, Calencoro was attracted by Xiao Liang's hatred.

Lu Yang threw out the magic sound reverberation and acidic poisonous mist, and said, "Open the big, jingle the cat to drive the storm, and melee punish the angel."

"Look at me." The Ding Dong cat released the wings of the storm, flew into the sky and immediately turned on the storm mode, the attack and cast speed of all members of the group increased by 30%.

When Calencoro didn't lose 10 million blood, the attack was very ordinary, and each attack only killed Xiao Liang's blood of about 20,000.

After 10 seconds.

Calencoro's blood dropped to 10 million. He pointed a long distance with his right hand and said, "Humans, are you here to die?"

System prompt: Calencoro's gaze gazes at you

"flicker"

Three white lights lit up ~ www.mtlnovel.com ~ Lu Yang, Hei Yan and Nanfeng Zhiyi jumped out of the tree, and the three ran in three directions.

Lu Yang said: "The White Lion reports the number, and I will be in the next 10 million."

As soon as ten seconds elapsed, the White Lion shouted, "It's here."

“Ice barriers”

Lu Yang’s body was covered by ice. The path of the fire stopped the landing sun and ran straight ahead. When he was in front of Lu Yang, he stopped in front of the ice barrier.

The same is true of Nanfeng Zhiyi and Heiyan. The effect of the ice barrier is to relieve Calencoro’s gaze.

“Air blast”

Calencoro used the second skill, with one finger, Lu Yang, who was on the outermost side, and Han Ying and Mu Yu, who were under the big tree, were killed simultaneously.

Chapter 687 - Enter Fairy Mountain

An ice barrier in Lu Yang stayed in place. Han Ying and Mu Yu were just 2 meters apart and their heads hit the trunk of a big tree and fell off.

“-100”

“My head.” Mu Yu rubbed his forehead and continued to output.

Lu Yang laughed, lifted the ice barriers, and ran back to the tree with Hei Yan and Nan Feng consciously, and continued to output.

After 10 seconds, Calencoro glowed with black light.

“Group Fear”

Xiao Liang’s eyes were dark. He immediately used the badge to release the control. He raised his head and took a look. After walking a distance of one meter, he turned back and slammed on Calencoro. The melees used the badge to release control and continued to attack Calencoro. Luo.

Yeyue Tingfeng used the badge to release control. Just to see if anyone needed help, they found that everyone was in sync with him, and even someone was faster than him.

He shouted with a smile: "Good job."

Lu Yang shouted: "Everyone cheer, we have completed a round of Calenko's skills, and we have passed them without difficulty."

This is Lu Yang's team. All the members of the group are the top players in the previous city of St. Gall, and everyone's reaction speed is first-rate.

Everyone did not expect that just a big tree could make everyone so relaxed, they were relieved and attacked with excitement.

Lu Yang was not excited, because he knew that this was just the beginning. It was a long process to get through 240 million health. Soon, the effect of the storm would disappear and the punishment angel would disappear. When the output is the most difficult.

Another difficult thing is the badge. Every time you use the badge, you have to wait for 2 minutes. Calencoro releases the fear technique randomly. It is possible that this 10 million health volume releases the fear technology, and the next 10 million health volume will be returned. Release fear.

Lu Yang said: "If Calencoro releases his fears for a while, the Paladin has a magic halo, and once there is fear, he gives priority to Yeyue by listening to the wind and letting him take charge of the whole group."

"I'm coming," said bitter love for a long time.

As soon as the voice fell, the third 10 million HP dropped, and the black light in Calencoro's hand emerged, pointing with one hand, saying, "You will all feel boundless fear."

System prompt: Calencoro uses group fear

The bitter love half-life turned on the magic aura at that moment, and the left hand pointed Yeyue to listen to the wind, and a holy light appeared on him.

“Clearance”

Yeyue didn't wait to take a step to wake up after listening to the wind, he immediately released a spell at the players around him.

“disperse”

A purple energy covered a range of 30 meters. Most of the remote phobias were removed, and only three players from the outermost range ran out of range.

“The Path of Fire”

Caliencoro used the release spell at the three, and three flames appeared from under his feet, chasing the three and running over.

The turbid wine pours on the common path of the three flames. He reacts quickly and immediately turns on the magic aura.

Lan Yu came to her senses and immediately used dispel to dispel the three's phobia. She shouted, “Fastly use the ice barrier, and a flame will chase you.”

The three looked back, and just saw three flames chasing after them quickly.

“Ice barriers”

...

The three saw that they could not escape, and at the same time they chanted a spell, covered with a layer of ice, and chased after them, and the three flames stopped.

Lu Yang said: "Yes, just fight this way, continue to attack, see if we are lucky, if there are several more air blasts, we will clear the customs."

Everyone was confident that Lu Yang said.

As if luck was really on Lu Yang's side, 12 of the next 20 range skills were air blasts.

Lu Yang and others took the team to easily resist the skills, looking at the last 10 million health, he said: "It is about to hit, don't make mistakes, be careful and be afraid of melee."

This time is the most difficult time. All the Paladin's magic immunity and invincibility have been opened. If the last time is fear, Xiao Liang does not have the ability to release the control, the whole group must be destroyed.

"Damn reptiles, let you taste the boundless darkness." Calencoro roared, and a black light appeared in his hand.

System prompt: Calencoro uses group fear

"Not good." Xiao Liang used Red Mist Bloodthirsty at that moment, and forced Calencoro to attack him while being run by fear.

Although Calencoro used a physical attack, his height was too high. Even though Xiao Liang was running fast, he didn't need to move his body. As long as he stepped on it, he could run for 10 yards. Distance, the shortest distance to Calencoro using the finger of death.

"Space Chaos"

Han Fei appeared next to Calencoro, and the red sword light flew up and down on him.

Lu Yang just released the control using the ice barrier. He originally rushed to replace Xiao Liang to resist the attack. He did not expect that Han Fei was not slow. He synchronized the control with him and took advantage of the space skills to come first. In front of Calencoro.

The 30 mage collectives used ice barriers to release control.

Lu Yang said: "Export, Han Fei can resist for a while."

Calencoro can't hit Han Fei at all. Every time he wants to punch Han Fei in a punch, Han Fei will hide into the void. When Calencoro is about to release the finger of death, Han Fei appears again in front of Calencoro.

This extreme output method is amazing to everyone who sees it.

The 10-second time soon arrived, and Xiao Liang saw that he ran out of the 30-yard range, and looked back at Lu Yang, and found that everyone was outputting, relieved.

"Han Fei looks at me." Xiao Liang rushed to Calencoro, attracting hatred.

Han Fei stepped aside, panting heavily, saying, "It's dangerous, I thought it was dead."

Lu Yang used his skills and said, "Good job, I'll give you full marks this time."

Han Fei said with a smile: "I think so too."

Lu Yang laughed.

The white lion woke up from fear and saw that everyone was fighting. The lord blame had less than 3 million blood left. Haha said with a laugh: "I thought the team was destroyed ~ www.mtlnovel.com ~ Good. of."

After another 10 seconds, Calencoro spit blood, fell to his knees weakly, and his body shrank back to its normal size.

System prompt: Congratulations on killing Calencore

Lu Yang walked in front of Caracoro, clicked to pick it up, and got 6 pieces of Immortal Legplates, which were brought to Morns in front of the previous equipment, and said, "Troubleshoot us to identify."

"No problem, warriors," Morns said respectfully to Lu Yang.

Lu Yang was a little surprised. When he looked at the prestige, he found that he had reached the level of respect in the superior Elven Village.

After the 13 pieces of equipment were identified, Moens said to Lu Yang excitedly: "Finally, I can finally see my queen, and I'm going to find her."

Lu Yang said, "Let's go with you."

"Okay." Moines ran into the Elven Mountain excitedly.

Chapter 688 - Legendary Bow and Arrow

Lu Yang led the team into the Elven Mountain. This is a beautiful mountain of God. There are birds and flowers everywhere. No blood elven guards are standing here along the way, and Moens ran to the top of the mountain without hindrance.

Lu Yang followed behind Moines and came to the top of the mountain to see a huge pool. In the pool, an elegant woman was immersed in it.

System prompt: You found the Altar of Magic Energy

Morns walked behind the Queen in excitement and said, "My queen, I am your humble child, Mornes."

The Queen didn't turn around, facing her back with a perfect back, and said a little dryly: "Morns? How did you come here? Calencoro, my pet and mount?"

With an awkward expression on Morns's face, he said, "To meet you, I beg these human warriors to bring them down."

"What?" The queen's voice was full of anger, and he turned his head sharply, his body swelled to a height of 10 meters.

At this moment, the queen's face was all blue and black, and the forehead and the cheeks on the left and right sides were all dark black fish scales. The queen's eyes were full of bloodshot blood, and four sharp fangs were exposed in her mouth.

Morns fell to the ground in horror, backed up, and said incredulously, "You, who are you?"

The queen smiled and said, "I, I'm Queen Ethley, Morns, don't you know me?"

Morns carefully identified and said, "You're the queen, but, but how did you become like this and what happened?"

The queen gradually emerged from the energy spring of the altar, but as his lower body appeared, not the perfect legs but a snake tail.

"You, why do you have a snake's tail," Morns said excitedly.

The Queen Yisili glanced helplessly at her snake tail and said sadly: "Morns, you are right. Our blood elves cannot rely on the magical energy of other races to satisfy ourselves. What I am now is Caused by the backlash of magic energy. "

Morns said, "You absorbed the magical energy of the snake clan?"

Yisili nodded and said, "Yes, Caliencolo used the nine-color dragon to help me defeat the sea snakes circling at the bottom of the island. Calencoro also personally extracted the energy from their body and poured it into this altar.

My body has nourished with magical energy and no longer suffers. I enjoy this feeling of energy soaking, but, just after the first year of my soaking, my body has undergone abnormal changes, and I have the characteristics of the sea snake family. , I want to reverse but there is no way, and finally turned into this picture. "

"Then you stop absorbing this energy, let me help you find a way to undo this change," said Moines.

Yisili shook his head and said, "It's late, my guardian. If one year ago, I might have listened to your opinion, but my body, I know, as soon as I leave the altar, I will feel severe pain. "

Morns hurriedly said, "There will always be a way, our elven queen cannot look like this."

Yisili smiled slightly, saying: "Of course there are ways, for example, I killed you, no one knows how I am now, Morns, it's time you dedicate yourself to me."

Yisili pointed at Morns with his right hand, and a serpent ice thorn shot at Morns.

Morns dodged and fled to Lu Yang, and said, "Human warriors, please defeat the queen. You can't let him go crazy like this, he will kill everyone."

The whole body looks very scary. His snake body is 50 meters long, 20 meters to support his height, and 30 meters behind him. His upper body is 20 meters high. , But the face is a snake face.

Zhang Zibo scratched his head and said, “It’s really not the average person’s ability to prevent war.”

Xiao Liang said, “I will fight.”

Lu Yang said: “First try to hit a wave.”

Hei Yan and Nan Feng Zhiyi and other mages were standing around the queen. The treatment was distributed in the middle. Xiao Liang carried the shield up.

“Poisonous Arrow Rain”

A dark green poison ball appeared in the queen’s hand. With her finger pointing forward, the poison ball scattered and shot numerous poison arrows.

“8000”

Lu Yang hit a poisoned arrow and shouted, “Blue Feather Detoxifies.”

Blue Feather uses detoxification to detoxify the whole group, and other treatments are responsible for brushing blood.

The queen photo is simpler than the real Carlen Coro, but it is more than twice as difficult as Lu Yang's Carlen Coro they played with a bug.

She has 4 main skills, the first one is to release poison ball for 8 seconds and lose 8000 blood per second. This is the basic skill and the least damage;

The second skill is Soul Summoning. He will summon a group of poisonous snakes, each of which will explode in blood, entangle a player to die with them, and can blow up 20 million points of blood each time.

The third skill is the Blood Elf Flower and Shield Orb Evil Mirror. These skills will randomly release one of three skills each time 10 million blood is dropped.

Blood Elf's Flower is randomly used on 5 enemies within range to make their bodies burn the bleeding flame flowers. Players within 10 yards are all damaged together and lose 7000 blood per second.

Shield Orb is summoning more than 10 lightning **** to release fork-like lightning, each lightning ball has 100,000 health, hurts 10,000, and attacks three people at the same time.

Evil Mirror is a copy of a player in the whole group. 4 identical mirrors appear, with 1 million HP. The damage is the same as the player.

If it is a mirror of the paladin driving the punishment angel, it is almost equivalent to destroying the group.

The fourth skill is Mana Lightning ~ www.mtlnovel.com ~ He will randomly draw 20 people's magic, each 1000 points, and then release the group lightning, each person in the group suffered 5000 points of damage.

Other small skills are decelerating. As long as one person makes a mistake, the whole group will be destroyed.

Lu Yang took the team to the test three times in a row without ever playing, the best luck hit the last stage.

Looking at the time, it was already 7pm, Lu Yang asked, "Do you want to take a break?"

Everyone looked at each other and shook their heads.

The White Lion gritted his teeth and said, "Try again, we will be able to fight over, we are confident."

He loved for a long time and said, "Yes, boss, it's too unwilling to give up like this, just 10 million HP left."

Lu Yang saw this expression on the face of everyone and said, "Then try again and fight for it again."

Chapter 689 - Heaven Robbery (Legendary)

"Fight it, you must kill him." Han Fei said.

Lu Yang said, "Uh, I just forgot to tell you something."

"What's the matter?" Bitter love looked at Lu Yang curiously for a long time.

Lu Yang said: "I checked the materials in the library, as if the Elven Queen would eventually burst a legendary bow."

Han Yu and Sun Yu two archers stood up suddenly.

"Is it really explosive?" Sun Yu asked.

Lu Yang looked at Morns and asked, "Does the Queen have a legendary bow and arrow?"

Morns nodded and said, "That's the best bow and arrow for our elves. It's the Queen's exclusive weapon."

"Really," the White Lion said excitedly.

"Kill him." Sun Yu looked at the queen, showing his gritted teeth, legendary weapons, no one could calmly treat.

Lu Yang said, "Just go ahead and fight over, Xiao Liang blame."

"Good grin." Xiao Liang carried the shield to the top.

The continuous archery in the hands of Han Yu and Sun Yu was shot on the backs of Xiao Liang and Zhang Zibo like machine guns.

The red blood mist on both of them spun wildly, like two whirlwinds.

Zhuojiu said: “Sure enough, there is still potential to be tapped. The output of both of you is almost 30% higher than before.”

Xiao Liang said: “A legendary weapon, everyone wants it.”

Han Fei waved the legendary double sword upside down and said, “That’s for sure. The attributes of legendary weapons are too good. The attached attack effects are unmatched by other weapons.”

Zhang Zibo said: “It’s mainly symbolic, and holding legendary weapons proves his power.”

Lu Yang said as he hit, “I don’t know how the explosive rate of this legendary bow and arrow, if it is high, I feel that I can also wear one for each Paladin.”

Paladins can shoot with bows and arrows. When they heard Lu Yang’s words, they did not feel the legendary weapons. They waved the Tronaze sword in their hands a little faster than before.

“If I have two legendary weapons, I can walk sideways in Hannibal.” Said bitterly, half-lifeful eyes.

The white lion said: “The beauty you want, as long as you dare to go out of the safe zone, believe it or not, ten thousand people use your skills at the same time.”

“Uh, that’s true.” Said bitter love for a long time.

This is a game, not real life. It can grab other people’s things, and it is more refreshing than it is. Especially, a group of ordinary players join forces to kill a senior player. The kind of prince will have a kind of feeling.

Not only casual players, even if the players in the Jagged Brothers League are outfitted in the wild, they will be attacked by the crowd.

If the equipment is stolen, it is impossible to find it. The map of "Second World" is too big, and no one knows where it is hidden.

"Damn humans, you dare to hurt my body." The Queen suddenly roared, pointed with her left hand, and more than 10 shield orbs appeared in the void.

The last time the mission was destroyed on this orb, there was no hatred, the attack was remote, and the positions were scattered. No one except the Red Mist soldiers could control them, but even if they controlled, they also output with lightning. At a time of 10,000 points of blood, Zhang Zibo was unable to carry 60,000 blood.

More than a dozen lightning bolts appeared.

"10000"

I'm afraid of being melee in melee. You have to open the magic aura, which is a waste of life-saving skills.

"Mage set fire, kill them first, see my instructions." Lu Yang added a triangle symbol to the first shield orb.

30 mages collectively used skills to attack, and soon, Orb was dropped one by one.

Lu Yang said with satisfaction: "No one has died. Continue to attack."

The Queen's health was 100 million points left. The crowd attacked with the help of legendary bows and arrows. Soon, the Queen's health dropped rapidly.

The next 5 times, the Queen did not use Orb. On the sixth time, she used Orb. Lu Yang resisted. Although she died a few people, she still resisted.

"Morns, you watched me killed by humans. What are you thinking?" The Queen's blood was less than 40 million points, and his eyes softly looked at Morns.

Morns walked into the field confusedly. Instead of attacking Lu Yang, he chose to stand on the side of Lu Yang to attack the queen.

"Her Majesty, you are no longer suitable to lead our blood elf family. We will choose the leader again. You need to go to the prison to reflect on your behavior." Morns said.

"What, do you want to imprison me?" The Queen was furious.

"I'm sorry, my queen, your behavior has endangered our race, and you must abdicate," Morns said.

When the queen had the last 30 million health points left, Morns used the whole group recovery skills. Lu Yang and others' mana were about to dry up. Suddenly, with the help of Morns, everyone became excited.

"Killed the Queen, and finally 30 million blood." Lu Yang said.

The crowd attacked with all their strength. Before long, the queen covered her chest and fell to the ground weakly.

"Finally, I am finally free." The Queen said weakly.

Morns went to the younger queen, held her body, and said in tears, "My queen, why is this?"

The Queen shook her head with a smile and said, "It's not good for me. I have forgotten the people to satisfy myself."

System prompt: Congratulations on defeating the Queen

Lu Yang walked to the fainted queen, clicked to pick it up, and got 6 immortal boots. He said, "Finally, I have played 6 immortal suits."

"Are there any bows and arrows, have they burst out?" Sun Yu asked.

Lu Yang smiled and continued to click and pick up. He took out a golden long bow. The shape of the bow and arrow was very exaggerated, and he was still a folding bow, saying, "Of course we got it, we are wasteland."

"Let me see the properties." Han Yu said anxiously.

“My God, this is an artifact.” Sun Yu said excitedly.

“It can also increase damage by 30%, and ignore 30% of the armor. This weapon is used to kill the lord.”

“It also increased the attack range. 220 yards, wouldn’t it really become a sniper.”

The transferred wind laser shooter has an attack range of only 70 yards. This bow has been increased by an additional 220 yards. If a shooter holds this bow, it is equivalent to someone attacking you beyond your 290 yards. I couldn’t find anything.

Chapter 690 - War announcement

Lu Yang said: “This time there are only three shooters, Ding Dong Cat, Sun Yu and Han Yu. The three of you roll the dice and see who is lucky.”

Dingdong cat Mengmeng said, “I don’t want to. I don’t do well. Two brothers choose it.”

Sun Yu and Han Yu are very satisfied with the performance of Ding Dong Cat.

“It must be mine.” Sun Yu threw the dice, counting 22 points.

“Oh my god, why is this so.” Sun Yu wanted to cry without tears.

Han Yu threw the dice with a smug look and said, “It’s my turn.”

21 o’clock

Everyone: “...”

Han Yu: “...”

Sun Yu was also stunned and jumped up suddenly, saying excitedly, “It’s mine, mine.”

Han Yu is collapsing.

Lu Yang gave the weapon to Sun Yu with a smile, and said, “Gem will go back to the guild to get it, so we will rest for an hour first, then continue to fight here, fight for another 6 sets of equipment, and hit Han Yu by the way Bow out the legend. “

“Yes,” everyone said.

I have beaten Blood Elf Island once, and then I have confidence, and no one feels tired and ready to go offline.

Lu Yang was also going to quit the game and take a break. Just before going offline, Tu Feng sent a message and said, “Brother, something happened.”

“What’s wrong?” Lu Yang asked.

Tu Feng said, “I’ve been monitoring the war between the old man’s Sunshine City and Merezzer’s Red Moon City during this time, and something happened over there.”

“Specifically.” Lu Yang was still very concerned about the old man in the twilight. After all, he was his true ally and could restrain Mai Lizhe.

Tu Feng said: “Just got the news, Ma Lizhe has added a well-known battlefield commander called Skybreaker. Under the fierce fortress of Nikko City, he commanded his 2 million people to defeat the old man.”

Lu Yang was shocked. He knew that the sky was broken. The sky broken in the last life was a famous commander in the game. In the last life, there was a period that was later defined as a period of famous players.

In the year and a half when the game was launched, the players’ levels reached more than 80 levels, and hundreds of millions of players were on a server. At that time, the entire game became a pot of porridge. None of the main cities were not fighting, no A guild did not participate in the fight.

Even those who want to play the game profession will inevitably have several enemies. This is the game.

In such a chaotic era, after a number of wars in the major guilds, a large number of war commanders emerged.

Among them, the most representative are 100 people. The Duo Jiu Qing, Zhou Tianming and Xia Yuwei in the Jagged Brothers League are three of them, and Broken Sky is also among these 100 people.

Lu Yang said, “I asked you to find him before this day was broken. Why was he taken away?”

Tu Feng said: “The news I just got is that his original name is not called Skybreaker, but he is called Fat Boy.”

Lu Yang was speechless, and co-authored the boy, who later changed his name, and said, "How is the situation at the old man's side?"

Tu Feng said, "Chao Du and Xiong Ba united together. A total of 3 million troops were destroyed by the sky under the fierce fortress in the field, and now they don't dare to hide inside the fortress. I feel like, It's a matter of time before the city breaks. "

Lu Yang said, "How long do you think the old man can hold on for?"

Tu Feng said: "It may not be long, the old man is too old, and the thinking in the battle command changes too slowly. Even in the battle of defending the city, he can't be as flexible as the sky."

"Where is the bully, how is he over there?"

Tu Feng said, "It's no longer possible to dominate the hegemony. After he arrived in the free capital, his temper became very weird. Many of his men were scolded by him. No one except the woman wanted to really help him."

Lu Yang sighed and said, "Unexpectedly, the boss of one of the most powerful guilds in the first place would turn into this."

At the beginning, when there were only four main cities, the bloodthirsty domineering, the eternal spirit, the old man of the twilight, and the domineering world, each of them was a famous name, one of the guild overlords, and now, of these people, only the tyrant and Late twilight, but about to leave the stage.

Didi

Lu Yang's phone rang, he picked it up and looked at it. It was from the old man, and he pressed the connection button and asked, "Brother, man, what are you looking for?"

The old man in the twilight said with a lamenting voice: "Brother, I'm asking for your help. Can you transfer your mage to my fortress and help me defend it."

Lu Yang asked: "Is the Fortress of Liehui?"

"Yes, if you don't come, my fortress will definitely be unstoppable," said the old man.

Lu Yang said in distress: "There are 2 million troops stationed outside the fortress. How can I get in?"

Now the game has changed its mechanism, and people who temporarily changed the guild are not allowed to enter the fortress, on the one hand to prevent traitors, and on the other hand to protect the attacking party.

The old man in the twilight stagnated and said, "Brother, can you help me find a way, I can't stand it right now. If I lose completely, Mai Lizhe will hit you back."

Lu Yang nodded and said: "I understand what you mean, so, you insist on the day after tomorrow, and when the day after tomorrow, I will personally attack the Iron King City, whether it will be effective in that time, I am not sure."

Tiewangcheng is the guild that Ma Lizhe is about to abandon, but at present it still belongs to the Quartet.

The old man said, "This is fine, as long as you can share some pressure for me, it can be as much as you like."

Lu Yang closed the phone with emotion, and the Old Man's Guild had money. He had no shortage of equipment or skills. The only thing he lacked was his own commanding ability.

Lu Yang reconnected with Tu Feng's intercom ~ www.mtlnovel.com ~ and said what happened just now, and asked, "Do you think we can organize a troop the day after tomorrow?"

Tu Feng said: "Two million people should not be a problem. We have one million ourselves and one million affiliated guilds and studios."

Lu Yang said: "Okay, then we'll make an announcement now, and the day after tomorrow will officially attack the Black Iron Fortress."

"I'll arrange it," Tu Feng said.

Lu Yang made a sigh and chose to take a rest offline. After playing all day, his body was a little uncomfortable. After eating dinner, he went to the gym to exercise.

When Lu Yang was resting here, the whole national service exploded.

[World Channel] Tu Feng: Beginning today, the Brotherhood of the Iron Blood officially begins a war against the Quartet Alliance. The day after tomorrow, 2 million Brothers of the Iron Blood will settle on the Black Iron Fortress.

[World Channel] Tu Feng: ...

Chapter 691 - Late quit the game

"Iron Brotherhood is about to go to war?"

"Great, hit and kill the sword to kill God."

"Looking at grandson for a long time, he supports the Brotherhood of Jagged Brothers."

...

On the World Channel, players have their own words, some support the Jagged Brothers Alliance, and some oppose the Jagged Brothers Alliance.

The 10 guilds that had good relations with the Jagged Brothers Alliance immediately found Tu Feng and expressed their willingness to follow the Jagged Brothers Alliance to participate in the battle. More than 50 studios have also expressed their willingness to send top players to participate in the battle.

Tu Feng's statistics are simple. Soon, 1 million troops participated in the assembly. In his guild, Xia Yuwei and White Lion collected their manpower respectively.

Inside the Iron King City.

The sword killing **** just got through a 60-level 40-person epic, and is proud to chat with the men in the studio.

"What, Lu Yang dare to hit me." The sword was furious.

The first vice chairman said in horror: "2 million people, what can we do?"

The sword killer said excitedly, "I'll be the contact person."

The first person he found was Mai Lizhe, who called the phone and said, "Leader, Lu Yang will come to hit me the day after tomorrow. Can you support some troops?"

Among Melee's troops, there is a sword elite who is a sword killer and melee elite. This is sent by the sword killer to ease his relationship with Merrie.

Ma Lizhe said with a frown, "I'm stepping up against Liehui Fortress. It is estimated that the day after tomorrow will be a decisive battle. I can't draw people."

The sword killing God was instantly angry, saying: "Then you can't watch me killed by Lu Yang, do you want Lu Yang's team to enter the Iron King City?"

McLeod thought for a while and said, "In this way, if I can't fight the day after tomorrow, I will send out the elite troops in my hand to help you, no matter what happens in the back, you can't let the problem ahead."

Weighing the pros and cons, Ma Lizhe knew what would happen if Lu Yang entered the Iron King City.

The sword killer was relieved with satisfaction, and then sent a message to Wang Teng and Li Xiuyu, both of whom agreed to send elite troops.

"Hey, all three have top-level mage regiments and melee troops to support me. This time I must defeat Lu Yang." Sword Killer said.

Several vice presidents and masters of the studio were relieved. In this way, the guild had a great chance to keep it.

[World Channel] Sword Killing God: As the boss of the Black Iron Fortress, I have never been afraid of sword killing God. Since the Brotherhood of Iron and Blood is about to fight, come over and see you the day after tomorrow.

"Hey, this guy is still arrogant." White Lion said, at this time they have returned to the game.

Lu Yang said: "Don't worry about him, we will continue to make copies. We will get another 12 sets of equipment tonight. I am ready to split a team and fight Blood Elf Island with us."

"Basically, I understand. If you fight again, it should not be a problem. Even if there is a problem, it is the last lord. It doesn't matter if you don't kill him." Said bitter love for a long time.

Lu Yang asked Xia Yuwei: "How is your situation, how many people started to fight."

Xia Yuwei said: "At present, 60,000 people are making copies in the Blood Demon Temple, and another 40,000 people can also enter the copy tomorrow. If these 100,000 people want to take shape, it is estimated that it will take half a month for the Black Fourth. between."

Lu Yang nodded, this time was plentiful, he fought a sword to kill the gods, and was not ready to send the 100,000 people.

“Well, let’s continue.” Lu Yang said.

...

At 1 am, Lu Yang and his team opened the Blood Elf Island for the second time, and got 6 sets of Immortal’s Undermine Set and a set of Frost Jewelry Set, but unfortunately did not get the legendary bow.

the next morning.

Lu Yang divided the team into two, and the other 50 people on standby outside the copy and the elite mage group entered the copy, led by the white lion, muddy wine and Zhang Zibo.

By the evening, Lu Yang got through three times, and early in the morning, the White Lion got through three times.

“It’s a good harvest today, and got a total of 24 sets of immortal mines.” Sun Yu said.

Suffering for half a life, said: “Taking into account 12 sets hit yesterday, a total of 36 sets.”

Lu Yang said: “Continue to split the team tonight, we have 50 Paladins and mages, we can form another team.”

On the third morning, the third group appeared, led by Han Ying and Han Fei, and Zhang Zibo was assigned to the third group.

The three hundred men’s groups played copies at the same time. At night, the three teams got through three copies at the same time and got 54 sets of equipment. Together with the previous equipment, they got a total of 100 sets of immortal mines.

Lu Yang said: "Looks like my first holy sword Minglei Army has been formed."

The White Lion asked, "Boss, what do you think?"

Didi

Tu Feng called and Lu Yang pressed the connect button and asked, "What's the matter?"

Tu Feng said with cold sweat on his face: "Boss, something serious happened, it was my information error."

Lu Yang asked, "What's wrong?"

Tu Feng said: "Just now, the two fortresses of the old man and one of the hegemony in Nikko were attacked by the joint forces of Liu Jie and Ma Lizhe. The old man had a heart attack and quit the game.

"What?" Lu Yangmeng stood up and said, "How did I get the news after finishing the fight?"

Tu Feng said guiltily: "I was out of the ghost, I suspect Huang Xiang did it. He recruited additional people from me. Another Liu Jie's army appeared too suddenly. The 4 million army suddenly launched an attack. Totally defensive. "

Lu Yang was furious and cursed: "Huang Xiang is a bitch. He really has to eat and eat. He has to be a dog for Liu Jie. OK, I will never let him go."

White Lion and others were standing beside Lu Yang ~ www.mtlnovel.com ~ I heard Tu Feng's words.

Zhuoju said, "Boss, the old man is defeated, and the hegemon can't hold on. What should we do?"

Lu Yang said: "What else can I do, cancel the war tomorrow morning, and all the members will enter a defensive state."

Both the old man and the hegemon are defeated, and Ma Lizhe will no longer have enemies. At the same time, he will also become a boss with three main cities at the same time. The Quartet under his leadership will become the largest force in the human race.

"How did this Liu Jie get together with Mai Lizhe?" The White Lion asked.

Tu Feng said, "It's probably based on sending us troops."

Lu Yang said: "Tell the 100,000 players in the Blood Demon Temple and let them play their equipment. You will come to the Iron Hammer Ogre Camp tomorrow morning with me."

The Steel Hammer Ogre Camp is a 60-level field map. Lu Yang had always wanted to fight here. On the one hand, there are any follow-ups to the Fortress of Light and Fire, and here is the largest place of production for a transfer certificate.

Chapter 692 - Attacking the Steel Hammer Ogre Camp

In the evening of the day.

Tu Feng informed the guilds and studios who had participated in the war one by one, telling them that the fight against the sword and the gods had stopped the next day. For a time, the prestige of the Brotherhood of the Iron Blood was severely hit.

Lu Yang didn't care about it. What he had to do now was to lead his 500 people to open up the entire Hammer Ogre camp.

This time, Liu Jie suddenly took 4 million people across the iceberg city and attacked the city of freedom. He crossed so many maps in the middle and finished the old man. The energy of these 4 million people has reached the limit. He must go back to rest and take another one. Also prevent players in the other 10 main cities of the Elf from sneaking into his fortress.

Mai Lizhe and the old man for a month confronted the old man for a month. He had just defeated the old man, and he had to fight against the bully with a single go. Otherwise, he would not have the second chance to take the initiative to fight the bully in his life.

Wang Teng and Li Xiuyu's troops did not dare to move lightly now. The two men could not fight Lu Yang in the field. They could only take the army to prevent Lu Yang from attacking the sword and killing the gods at any time. The elite mage and melee forces in the hands of the two men had It is very likely that in the hands of Ma Lizhe, he helped him dominate.

Now on the human side, although losing face, it has become Lu Yang's best development time. No one on the parties can afford to attack him. Now it is up to Lu Yang to use this time. Otherwise, once Mai Li Zhe defeated the hegemon, Lu Yang will usher in the simultaneous attack of the three families of the orcs, humans and elves.

...

After 2 hours.

Lu Yang took 500 people including White Lion and Xia Yuwei to the gate of the Steel Hammer Ogre Tribe, and 12 Steel Hammer Ogre Elites were standing at the gate.

Steel Hammer Ogre (Elite)

Level: 60

Qi and blood: 1100000/1100000

“Boss, why are we here?” Asked bitterly for half a life, curious.

I am used to facing monsters with tens of millions or even hundreds of millions of health in the copy, and now seeing monsters with only 1.1 million health at level 60, everyone feels too simple.

Lu Yang said: “This is the place where the transfer rate certificate has the highest explosion rate. According to the information, there are 2 million Steel Hammer Ogres in the entire Steel Hammer Ogre Tribe. My request is that within 2 days, we will transfer these 200 All ogres are killed. “

“Kill 2 million in 2 days?” Mao Qiu said in surprise.

“Can you kill it?” Han Liu said.

Lu Yang said: “Of course, we can’t finish the normal fight, but we now have 100 Knights of the Thunder Thunder Sword, and 3 transfer guards. Let’s advance with me and I will tell you how to fight.”

“No problem.” Xiao Liang rushed to the 12 Steel Hammer Ogres carrying a shield.

“5000”

“5000”

“5000”

...

Twelve Steel Hammer Ogres hit Xiao Liang.

“102”

“111”

“121”

...

“The elite hit Xiao Liang only so much blood.” Bai Lang said in surprise.

Lu Yang said, “Xiao Liang rushed in and went back a few hundred.”

“Okay.” Xiao Liang rushed into the city gate with his shield.

“Alarm, alert, human invasion.” A steel hammer ogre commander waved his stick and rushed to Xiao Liang.

“302”

“Lead the monster to play more than 300 blood?” Zhang Zibo said in surprise.

Lu Yang said: “You rushed in with the muddy wine, and the other 100 holy knights also rushed in, pulling me all the monsters in the first area.”

“Yes.”

There are 100 paladins in the turbid wine and Zhang Zibo who have rushed into the gate collectively. The distribution of the main city of the steel hammer ogre is also like humans. They are arranged according to one district and one district. .

Lu Yang said to the 276 mages behind him: “Collectively follow me to the wall and prepare for the first wave of secondary forbidden attacks.”

Masters such as Nanfeng Zhiyi and Hei Yan were excited by Lu Yang's arrogance and followed Lu Yang to the wall on the side of the gate.

The city wall is 50 meters high, overlooking from above, you can see that more than 100 people, such as Xiao Liang and Mu Feng, are tempting inside the first district.

Countless steel hammer ogres and leaders were led by them and ran towards the gate. Not long after, when 100 people gradually gathered in the middle, nearly 40,000 steel hammer ogres filled the streets.

Among them, 10 people, including Xiao Liang and Zhuoju, returned with the first batch of monsters. Lu Yang checked about five to six thousand, and the empty space in front of the gate almost couldn't fit.

Lu Yang said: "Hei Yan, Frost, Nanfeng Zhiyi and the Knight in Black brought the first wave of the forbidden spell."

"Meteor Fire Rain"

"Lightning Storm"

"Icy Roar"

"Space-Time Cutting"

16 people spoke the spell quickly. After 10 seconds, 16 forbidden spells covered the field, and all the steel hammer ogres were hit by the skills.

Each mage present has a mage suit for the Blood Demon Temple. Each person has more than 6,000 magic damage, nearly 1500 skill damage, and a total of more than 7,500 damage.

After 30 seconds.

Five to six thousand steel hammer ogres on the field were all killed.

System prompt: you get 2212 experience

...

Countless experiences flew in the dialogue bar. Among the dead bodies on the ground, there were hundreds of shining transfer certificates.

Lu Yang said, "Put in the second batch, and the mage will be ready."

Mufeng and Wasteland and others led the second batch of five or six thousand steel hammer ogres to the open space at the gate of the city.

Lu Yang took the 16 leaves of the Red Leaf Flying Dance to release the second wave of forbidden spells, killed the steel hammer ogre, and burst out with hundreds of certificates.

Mufeng picked up one and said, "It really has a high burst rate, so many."

The White Lion frowned, "Most of them are shield warfare and anti-riding, and there are few other professions."

Xia Yuwei said, "Maybe it's the gate of the city, there can be a mage inside."

Everyone nodded ~ www.mtlnovel.com ~ So far, the transfer certificate of shield battle and anti-riding is the least valuable, and it is also the most loved in the Jagged Brotherhood.

The copy has just risen. In the previous battles, there was no concept of anti-riding and shield fighting. Everyone liked to use the output class.

Tu Feng stood by looking at the certificate and said, "The main reason why the 100,000 people push the blood demon temple can't move is that most of them are not transfer occupations. If they have changed jobs this time, they will fight blood. The speed of the demon temple can increase a lot. "

Lu Yang said: "I did the same."

"It's a cheap group of kids, and now it's very valuable to be a full-time certificate." Tu Feng said.

At present, most players have just reached level 30. Guild warriors have worked hard to reach level 40, and a few have reached level 50. RMB fighters or players who have found shortcuts to upgrade have reached level 60.

With the level, you must have equipment to fight monsters on level 60 maps. With the copy, the attraction of wild monsters to the players is greatly reduced. Only a small number of talents are willing to go to the wild to fight some tasks and materials.

Chapter 693 - Transfer certificate

This part of the players are lucky, level 60 field elite, have a chance to burst the transfer certificate, when the next transfer certificate can be worth 500 yuan, found this benefit, they have hidden this secret silently, making a fortune.

"It's the boss. If you change to another guild and find this benefit, you have already sold a wave of transfer certificates to your guild people. Even if you only sell it for 100 yuan, you can make a profit." Tu Feng said.

Lu Yang smiled and did not speak. At present, the total number of Jiefang Brothers has exceeded 2.5 million. As long as these people work hard for the guild, he will not let them spend extra money.

"It was too fast. It only took more than 10 minutes to kill 10,000 ogres." Lan Yu said in amazement as he added blood.

Lu Yang looked to the court, and a quarter of the ogres pulled away in the distance had died a quarter. He said to the shooters and thieves such as Sun Yu, Mao Qiu, and Han Yu, "Go to the second zone. It is possible to drag the monster to the square in the second district, and Han Ying and Mu Yu followed the team with 200 mage. "

Han Ying nodded and said loudly: "Except for the output, the others will follow me."

Along a path on the left side of the first zone, Han Ying took the team to kill scattered steel hammer ogres on the road to the second zone and started to blame.

Lu Yang's purpose this time is not to upgrade, he only needs a transfer certificate.

Half an hour later.

Lu Yang killed the steel hammer ogre in the first zone and told Tu Feng: "Send someone to pick up a transfer certificate."

"Mo Long, take the team with me to pick up the transfer certificate." Tu Feng said.

"Come here." Morong and a 50-man pick-up team prepared long ago jumped off the wall excitedly, picking up equipment and transfer certificates.

At present, Mo Long has been confirmed by Tu Feng as a trustworthy person and the most important arm of Tu Feng.

Lu Yang Tu Feng said, "How is my brother?"

Tu Feng said, "Yes, I can stand on my own and share a lot of pressure for me."

Lu Yang asked, "How are those **** Huang Xiang these days?"

After Tu Feng investigated, Huang Xiang bought his men and concealed Liu Yibing's affairs. Lu Yang and Tu Feng figured out a way to give Huang Xiang 10 million credits and let Huang Xiang set up a special surveillance team. Liu Jie's spy unit.

Tu Feng sneered and said, "I guess this boy is sitting with Liu Jie chatting and eating."

In the magic capital, the brilliant seaview hotel, and Lin Hai's private room, Huang Xiang flushed and sat opposite Liu Jie.

Wang Teng laughed and said to Liu Jie: "Boss, this is Huang Xiang that I mentioned to you. This time you can take 4 million people to attack the late old man in the free capital. But he played an inestimable role. what."

Huang Xiang quickly and humbly said, "Don't dare to be dared not to be, with a little ability, President Wang looks at me too high."

Liu Jie nodded with satisfaction and slammed his finger. A beautiful woman in a long dress behind him put a box in front of Huang Xiang. After opening it, there was a neat 1 million cash in it.

Huang Xiang blinked, looked at Liu Jie, and said, "Jie Shao, you are."

"This is my thank you, take it." Liu Jie said, he is 24 years old, and Huang Xiang is 16 years old. In front of him, Huang Xiang is just a child.

Huang Xiang repeatedly waved his hands and said, "Jie Shao, I didn't do this for money."

Liu Jie frowned and asked, "Not for money?"

Huang Xiang nodded, and said with a sloppy expression, "I just hate Lu Yang, and I can do what can ruin him, not to ask you for this money. Although my father is not as big as you in doing business, our family also No shortage of money. "

Liu Jie smiled curiously and asked with red wine: "Why are you doing this?"

Huang Xiang gritted his teeth and scolded: "I just look down on the soil like Lu Yang. I just climbed to this position by luck. Tian Tianyi instructed me and put on a fake sense of justice. All my classmates thought he was Girls are admiring him for everything. "

What Huang Xiang hated the most was that Lu Yang got Shen Mengyao's heart. He was very upset that Lu Yang had taken away the light that belonged to him in the school. His beloved woman got Lu Yang again. He already hated Lu Yang. Into the bone.

Wang Teng cursed: "You're right, I don't look down on Lu Yang as such, Jie Shao. This time we concealed Lu Yang and launched an attack, so that Lu Yang found that all the spies he had laid down were found by him. After rearranging the spies, he sent Xiao Huang over and gave him 10 million activities.

Liu Jie nodded and looked at Huang Xiang and said, "Xiao Huang, you can climb to this position and prove that you are very capable. I appreciate your honesty with me. Since you are willing to trust me, Liu Jie will not I will treat you badly, I will give you another 10 million, and I will give you a monthly salary of 500,000 every month. "

As soon as Huang Xiang's eyes lighted up, the income was completely beyond his imagination. This was an annual salary of 5 million yuan, and an additional bonus of 10 million yuan.

"Jie Shao, I ..." Huang Xiang said incoherently.

Liu Jie stretched out his hand to stop Huang Xiang from saying, "Don't reject my arrangement. From today on, you are the deputy director of the espionage department of my guild, obey Wang Teng's command and wait for me to destroy Lu Yang and send you a master City as a reward, you choose the place. "

Huang Xiang stood up and said with gratitude, "Thank you, Jie, I must live up to your expectations."

There are at least four fortresses in a main city. According to the current income, at least 10 million per month, Huang Xiang is equivalent to becoming an executive with annual revenue of hundreds of millions.

Liu Jie said: "You go first, Wang Teng and I will discuss some things. In the future, Wang Teng will arrange your specific work."

"Yes ~ www.mtlnovel.com ~ Huang Xiang rejoices and bows away.

Liu Jie looked at Huang Xiang with a smirk, and said to Wang Teng after he left: "This person cannot be reused, don't say I didn't remind you."

Wang Teng said with a smile: "Jie Shao, haven't I done something right? This boy made it clear that he was a bastard. He got the trust from Lu Yang and turned around and sold Lu Yang. Can I look at such people? This is where Lu Yang's position is too important. I must appease him, otherwise I won't bring this kind of inferiority to you. "

Liu Jie nodded and said: "You know, just give him some secrets that we don't care about, such as the news that we will start a war against Shenyue Pavilion tomorrow. Several new recruits here will also let him and Lu Yang said, let Lu Yang know that he will not be so arrogant. "

Wang Teng smiled and said, "Jie Shao Yingming, I'm going to scare Lu Yang and see if he dares to be arrogant with us."

Chapter 694 - Celebrity era

Steel Hammer Ogre City III.

Lu Yang was carrying monsters, Xiao Liang, and others to fight the monsters. The invitation to the special space appeared in his ears. At the same time, there were leaders of the army such as Tu Feng, White Lion, and Xia Yuwei, and senior officials of the guild.

"This **** sent a special invitation to all of us, what is he going to do?" Tu Feng stood beside Lu Yang and asked.

Lu Yang said, "Go in and see."

He sent a message to all the chiefs of the army and said, "If Huang Xiang asks what you are doing, tell them that you are in the wasteland 60 level 60 copy."

"Boss rest assured, we will not reveal any secrets to this bastard." White Wolf said.

Lu Yang said: "Every expression must be in place, don't show dissatisfaction, what kind of what it looks like."

"Rest assured, I must be natural." White wolf clicked uncomfortably into the special space, the white light flickered, he just landed, saw Huang Xiang with a proud expression, and asked arrogantly: "What is it?"

Huang Xiang frowned and asked, "Where are the White Lion and the White Tiger?"

"What about level 60 epic? They are anti-war and anti-riding. They are fighting monsters and will be able to come over later."

Huang Xiang looked away, pretending to inadvertently ask, "How about the other legions, I haven't seen you much for more than a month."

The white wolf said, "How do I know that the defeat of this war has affected us a lot. I've been busy these days. I'm afraid Wang Teng, Li Xiuyu, and the sword killing **** will send troops. How can I have time to control others?"

The white wolf synchronized his conversation to Lu Yang and others, and the white lion and the white tiger have been separated from the fight and are waiting.

"Hey, it's my turn." The White Lion said to Lu Yang, raising his eyebrows.

Lu Yang smiled and nodded, bitterly loving for a long time and said, "Be sure to pick up the words of the white wolf, get this grandson off."

“Rest assured.” The white light on the white lion appeared in the special space, and the white tiger next to it followed.

“You can’t send a message saying that you have to come over to us and fight the blood demon.” The White Lion asked uneasily.

Huang Xiang said proudly: “Of course it is a big event. The three of you wait a moment before everyone else arrives. I will say it together. I will save trouble one by one.”

“Okay, then we wait.” Bai Hu smiled at Huang Xiang and led the two brothers to the chair.

White light flashed, Xia Yuwei, muddy wine pouring, bitter love for half a life, Zhou Tianming, Jiang Ze, Sun Yu and Tu Feng all flew in.

Tu Feng frowned and asked, “Why don’t you report to me directly and ask so many people to do something?”

Huang Xiang said: “It’s too big. I’m afraid I can’t understand it with you. It’s easier for me to report directly to you.”

Tu Feng frowned even tighter, and looked at Huang Xiang and asked, “I don’t understand anything, you can tell me clearly.”

The atmosphere instantly became tense. The seven legion commanders did not speak, pretending to watch a movie. Huang Xiang was not afraid of Tu Feng. In his view, Tu Feng was only a middle school classmate of Lu Yang. He was a university classmate of Lu Yang. The relationship between the two sides was the same. near.

White light flashed, and Lu Yang appeared in a special space and asked, “All are here, what’s up?”

The seven legion chiefs didn’t speak, and half-life secretly sent a message in the group, Tu Feng acting great.

Xia Yuwei almost didn't hold back, glaring at bitter love for half a lifetime, and Lu Yang was speechless. At such a crucial moment of acting skills, bitter love half-life told a joke. Fortunately, they have seen big scenes, and no one laughed.

Tu Feng said uneasily: "Boss, don't say anything first, Huang Xiang has surpassed his power. He should report directly to me. How can I go directly to all of you to report."

Huang Xiang aggrieved and said, "This is too big. I have to find you all."

Tu Feng turned his head and stared at Huang Xiang, saying, "I haven't seen any major events. I have experienced how many times the Iron Brotherhood has developed so far. What do you tell me?"

Huang Xiang knows his reasons and is afraid to continue arguing, looking at Lu Yang with aggrieved face.

Lu Yang hurried to pretend to be a peacemaker and said, "Forget it, don't quarrel. You are the people I trust the most. In the open, everyone has a position. In private, we are all brothers. "

Tu Feng said, "I'm not doing it for the job, but I feel that Mo Long and Li Rui under my command, like Huang Xiang, directly approach all of you to report. What is the meaning of my existence? You can be busy. Come here, more than a dozen people report in turns, you don't have to do anything else. "

Lu Yang nodded and said, "It's true."

He patted Huang Xiang's back and said, "I still have to discuss with Tu Feng in the future. You are all my brothers. Don't lose your temper because of this."

Huang Xiang glanced at Tu Feng and said, "I see."

Lu Yang asked: "Say something, what's wrong?"

Huang Xiang said excitedly: "It's a big deal, didn't you let me go to Liu Jie to inquire? Today, I became a member of Liu Jie's elite group. This time, Liu Jie can send 4 million people to attack the old man, not only He took the shot himself. He was just sitting in the middle of the army. The other three people were actually in charge of the battle. Now they are three soldiers known as Liu Jie. "

"God of War?" White Lion's eyebrows twisted together, and asked, "Who is it, in this outfit, except the boss who is qualified to bear the name."

At present, only the army **** recognized by the national uniform is Lu Yang, and three of them suddenly appear. People such as Xia Yuwei and Zhuojiu have unhappy expressions.

Huang Xiang said: "Don't believe it, these people are really soldier-level, because these three people are deputy commanders from the army ~ www.mtlnovel.com ~ deputy commander of the army?" Bai Lang asked Road.

Huang Xiang said: "Exactly, in this batch of disarmament, Liu Jie's men were dead grass recruiting in the army and found several leading combat experts. The high salary made them choose Liu Jie's team."

Lu Yang asked: "Who is there?"

"The first is the deputy head of the field army named Apache, the second is Yaowu Yangwei, and the third is Ru Taishan. Do n't look at them just entering the game, they do n't know about various professions, but they know how to fight in the army. The four million people commanded them together with the dead grass. The dead grass was responsible for the strategy and the three were responsible for the execution. The cooperation was perfect. "Huang Xiang said.

Lu Yang sighed. Sure enough, as in the previous life, Liu Jie recruited these three people under his banner.

These three people are indeed masters of war, as Huang Xiang said. These people did help Liu Jie in many big and tough battles. However, these three people have obvious shortcomings. This is why Lu Yang did not go to find them in advance. Their cause.

Chapter 695 - Spy war

The white wolf said unbelievably: "That is to say, he can bully the old man and defeat him. What an old man can beat even the bloodthirsty domineering. This is nothing. Besides, there are only three people and what storms can be caused."

Huang Xiang said: "It's not just these three people. Many of the professional staff and battalion commanders of this field have been recruited by them. There are more than 20 people in total. The last one is also left as a 50,000 person. Chief of the army, everyone can't be underestimated. "

Lu Yang said, "Don't worry too much about them. Their understanding of the game is far from ours. Leading the army to fight is very different from reality. I guess they are not their opponents at this time."

Huang Xiang said, "I think so, but Liu Jie will start to attack the Emerald City tomorrow. I guess that as long as this battle is fought, their real army cadres will not understand the game inferior to us. , After all, the game is not that difficult, just 9 professions, dozens of skills, it is far worse than so many weapons and tactics of the army. "

Tu Feng asked, "Tomorrow Liu Jie is going to hit the Emerald City? What you said is useful, everything else is nonsense."

Huang Xiang was furious, and Lu Yang quickly stopped Huang Xiang and said, "Don't make a noise, let's talk about business first, how many people will he send to fight against the emerald main city."

Huang Xiang said: "It's about 3 million people. One person is one million. It's dead grass to make a plan. The three of them are in charge of the battlefield command."

Lu Yang said: "It looks like I'm looking for some senior conductors. Fortunately, Liu Jie is far away from us. If he is willing to fight the Elves, let him fight, as long as he doesn't hit Shenhuang fortress."

Obviously, Liu Jie is now letting these transferred officers fight and practice. The reason why they do not fight Shenhuang is that they are afraid to arouse their anger and attack Beifeng City. If they want to lay the emerald city, the elite masters of Li Xiuyu and Wang Teng must also participate in the attack , The boss of the Emerald City is not the old man.

Zhuo Jiu asked: "Did Liu Jie give these masters to Wang Teng and Li Xiuyu?"

Huang Xiang said: "I haven't heard of it for the time being. I suspect that Liu Jie may have been airborne into Wang Teng's army after practicing these hands. As for Li Xiuyu, I don't know."

Lu Yang nodded and said: "The intelligence is good. Everyone goes back and continues to lead the team to make a copy. I believe that after so many wars, the commanding capabilities of your seven legionnaires will not be worse than those officers that Liu Jie invited. Right. "

"I also think so. I have fought dozens of tough battles. How many rookies can I compare?" White Wolf exited the special space.

Love for half a life, Tu Feng, Xia Yuwei and others have left.

Lu Yang stayed and said to Huang Xiang: "In the future, if you have such information, you can tell me directly, don't sum up all the commanders of the army. No matter what, I still want to give Tu Feng's face. You I can't care less about my face, don't embarrass my brother. "

Huang Xiang said, "OK, I will pay attention."

Lu Yang nodded and withdrew from the special space.

Huang Xiang also left with a sneer. The purpose of his search for all the legions was to disclose the news that Liu Jie had let him out, and on the one hand he wanted to talk directly with these legions.

Just now, he sent a friend request to the 7 legion chiefs. As long as he added friends, he could get more information from them in the future.

“My friends, I’ll wait for you to join me.” Huang Xiang proudly said that he has just proved in front of everyone that Lu Yang’s relationship with him is not ordinary. Even if he bypasses Tu Feng, Lu Yang is just Dissuade, these people will add him if they know a little about human nature.

“Boss, how’s it going?” Asked a confidant recruited by Huang Xiang.

Huang Xiang said: “It’s perfect, and soon they will add me.”

The system prompts: The turbid wine dumped your friend application

System prompt: Xia Yuwei rejected your friend application

...

With a series of seven prompts, Huang Xiang was dumbfounded and said in a stunned state: “All rejected?”

He didn’t understand clearly, thinking that Huang Xiang issued an order to him and asked, “What did you say?”

Huang Xiang said angrily: “The seven chiefs of the army rejected my friend’s application, how dare they despise me so much.”

He quickly turned on the system prompt to see the reason for the rejection.

Zhuo Jiu said, “Sorry, Brother Huang Xiang, I also want to add you as a friend, but we are all high-level players now. You are a classmate of Lu Yang. We are the commander of his army. I need to avoid suspicion and can’t contact you, I’m extremely sorry. “

He clicked on the news of several other legionnaires and found that the reasons for the rejection were probably the same. Huang Xiang patted his head and said, "Oh, how did I forget this, Bai and Tu Feng quarreled."

"What's wrong?"

Huang Xiang shook his head and asked Wang Teng to report the situation.

Inside the ogre main city.

Lu Yang, Xia Yuwei and others are laughing.

The white wolf patted Zhuoshu's shoulder and said, "Brother, you can still talk. This set of rhetoric is perfect."

Zhuo Jiu said with a smile: "This should be the case, but our guild is special, the boss is when we are brothers, we are all together again, we don't know each other, otherwise we all have to avoid Tu Su."

Tu Feng said, "Don't do this, because I can't do this job."

Lu Yang said with a smile: "Don't avoid suspicion. It is a joy to play the game. The guild can come to today. It was spelled out by you all, not by me. Tu Feng should have been the head of the army. He was assigned to this post just to deal with foreign enemies, and definitely not to create a gulf with you."

They nodded and said yes.

"Boss rest assured ~ www.mtlnovel.com ~ we should be what we are." White wolf said.

Zhuo Jiu said, "That is, get together every day, and Tu Feng and I have to drink wine every three days."

Lu Yang laughed and said, "This time I finally passed the **** Huang Xiang, and his energy and Liu Jie's energy will be focused on how to arrange a group of fake insurgents. Our internal news will not be temporarily leaked out, taking advantage of this opportunity, Tu Feng, you have to arrange the people under Huang Xiang to other places, do not let them interfere in the core secrets, the reason is that you see Huang Xiang unhappy, punish him for stealing class and power. "

Tu Feng said with a smile: "I must play well."

Everyone laughed.

Lu Yang said: "You must quickly set up a secret organization to investigate the internal situation of Liu Jie Guild. You must find a way to put people next to Liu Jie, and the worst thing is to put it under Wang Teng's men."

Tu Feng said: "This is a bit difficult. I will try to find such an elite."

Chapter 696 - Xue Yiming

Lu Yang said, "I'll find it for you. I have a few candidates here, and they must be suitable."

Isn't it a spy war? In the game of the last life, it was not played before. When he helped the Grand Guild, the first element was the spy infiltration.

After a period of time, when the level is higher, a new batch of special equipment will appear in the game. The spy will be equipped with these special equipment, and often a small number of people can play a role in changing the situation.

Lu Yang said: “You play first, I quit the game for a period of time, maybe one day, maybe two days, I will definitely come back, call me if something urgent happens, remember, don’t kill him when you hit the skullbreaker Moshan , Leave it to me, I will do the task. “

“Okay.” The crowd nodded and responded, each leading the team to continue the wasteland of the Steel Hammer Ogre Empire.

Lu Yang returned to the St. Gall City Hotel to rest. He and Han Zhong explained what he was leaving, walked out of the room, and drove to a small county town 200 kilometers away.

Fengqing County.

A small county town that is close to Donghai City but has not been developed, walking here, you can clearly feel that the pace of life here is very slow.

Of course, while the pace of life is slow, the negative effect brought by it is poverty, a very poor coastal county. Because of the virus, the originally less developed tourism industry has become poorer.

Generally speaking, poverty is not a big deal. The skyrocketing population has made the standard of living of Chinese people much worse than before. It is not much different from the way of life at the beginning of the century. People living near the sea can often eat cheaper. seafood.

For them, there is only one thing that can make them feel poor and suffering. They are sick, especially seriously ill. When they are seriously ill, they cannot afford to pay for the disease.

late at night.

In a ward of the First Hospital of Fengqing County, a frosty young man was staring blankly at his mother.

“Son, I don’t want to tell you. In the years you were a soldier, we told you that you can’t come back, and you often can’t find you.” The young father said with a sigh, he didn’t complain about his son, It’s just that he complained badly, and his wife got some serious illness somehow. When he knew it, it was too

late. The surgery cost was so expensive. He couldn't afford to sell the house. He could only watch his wife die.

The youth's tears continued to flow from his eyes. As a soldier, he had to serve in the army, and he was engaged in something special. He could not go home all year round. The family could only rely on his parents to labor. He is now very remorse. Regrets why you didn't demobilize back early to share the pressure on your family.

"How much does it cost?" The young man asked.

The young man's father laughed at himself and said, "920,000, this is not the follow-up medicine money."

"I'll go out and find a way." The youth stood up and walked out of the ward, finally glanced at his mother and ran outside.

He called each of his friends, relatives, comrades-in-arms, and former classmates one by one. He did not evade his friends. Some classmates were willing to help him, but the money he could get was very small. Relatives and his father had already borrowed it. He, helping him to collect money together, is estimated to be only tens of thousands at most.

He was very lost, confused, and unknowingly, he walked to the beach when the first rays of sunlight appeared in the early morning, facing the sea and the rising sun, he was roaring wildly, trying to vent all the distress in his heart, However, after shouting a few times, nothing improved.

"This friend, shouted so early in the morning, what happened?" Lu Yang asked sitting on a reef not far from him.

The young man saw Lu Yangmeng's eyes wide open. He was engaged in the training of espionage and reconnaissance courses. Even when he was so annoyed, his acuity would still not decrease too much. Everywhere he went, he would subconsciously sweep Passing the surrounding environment, if anyone, he will know.

This person appeared so close to himself, but he didn't realize that there might be a reason for the dark light. More likely, the young man in front of him was a master.

"Who are you? Why is it here?" The youth asked.

Lu Yang shrugged his shoulders and said, "I should ask you this, I came here first, you came later."

The youth looked lonely. He remembered that he was already professional. He smiled helplessly. He sat beside Lu Yang and sighed, and said, "Hey, you said it was ridiculous. I have saved so many people in recent years. , Can't save his mother in the end. "

Lu Yang could see clearly the youth, and he could be sure that what he was looking for was the person in front of him, the spy Xue Yiming.

"Tell me something, what happened to your mother?" Lu Yang asked.

"Severe illness, very serious illness, the cost of the surgery alone is 920,000, not counting the medicine money. I borrowed it from everyone, either incapable or hiding, and I became a street mouse." Xue Yiming wore a face on his face. With a mocking expression.

Lu Yang said, "Is it 920,000, I have it."

Xue Yiming stared at Lu Yang with his eyes wide open and said, "What do you mean?"

Lu Yang said: "920,000 is just a tiny number for me. I will give this money to save your mother."

Xue Yiming's body was bombarded by five thunders. All night, he searched everyone. He was frustrated to the extreme. He even wanted to rob the money transporter. Even if he was dead, he also had to rescue his mother. Just now Chatting with Lu Yang, but he was cheering himself up, did not expect that Lu Yang was willing to give him money?

"Are you really willing?" Xue Yiming asked excitedly.

Lu Yang handed out a two million check to Xue Yiming and said, "This is the surgical and medical expenses ~ www.mtlnovel.com ~ enough to treat your mother."

Xue Yiming took the check and verified it with his mobile phone. It was found to be true. He burst into tears and said, "My mom is saved."

Lu Yang smiled.

Xue Yiming collapsed and cried for a while before slowing down. He knelt in front of him and scratched his head, saying, "You are my benefactor, let's just say what you want me to do and kill me."

Lu Yang looked at Xue Yiming's eyes and patted him on the shoulder and said, "I really need someone to help me with things, but you don't need to kill people. You and I can meet. It's a fate. I won't treat you badly, I will save you Mother, wait until you're all done, look for me here at night, don't delay. "

Xue Yiming nodded and said: "I will definitely come back, rest assured, I am not a person who takes money from other people and does nothing."

Lu Yang smiled. Of course, he knew that Xue Yiming was a man. He watched Xue Yiming turn around and ran away and shook his head. Sure enough, like the last life, he was a cursed person.

Chapter 697 - Dark Sword Unsheathed

What Xue Yiming did in the army, no one knows why he was famous because he was the eternal ace spy of the last life. After one year of service, he sneaked into the eternal guild dynasty guild of the time In less than half a year, he became the left arm and right arm of the guild leader Shenlong.

In the famous Battle of Tiandang Mountain in the First World War, Xue Yiming falsely gave orders and provided false information, which caused the dynasty guild to be defeated in the eternal hands of the spirits.

The guild boss Shenlong felt that something was wrong. When he scoured the inner ghosts, he found out that Xue Yiming had done it. With anger, he found Xue Yiming's home and killed Xue Yiming's mother.

It was ridiculous that Xue Yiming helped the soul forever because his mother was seriously ill and had no money for treatment. It was the soul's eternal money to save his mother. As a result, his mother lived only one year longer and was killed alive.

Xue Yiming went crazy and killed everyone who killed his mother, including Shenlong, and then committed suicide by himself. This incident made a sensation in the last life.

Although Lu Yang disliked the inner ghosts like Xue Yiming, Xue Yiming's original intention was to repay the favor. He can only blame the eternal spirit. In this life, he has been thinking about whether to find Xue Yiming, but finally decided to find it.

He called Jin Buhuan and said, "Man, I need you."

...

In the evening.

Xue Yiming returned to the beach on time before sunset. Facing Lu Yang, Xue Yiming said: "Benefactor, let's say what do you want me to do?"

Lu Yang looked at Xue Yiming's deathly expression, and said, "Sit down first. I tell who I am and what you need to do."

Xue Yiming nodded and sat in front of Lu Yang.

Lu Yang said, "Have you heard of Second World?"

"heard about it."

Lu Yang said: "My name is Lu Yang and I am the president of a grand guild in the game."

"You are Lu Yang?" Xue Yiming looked stunned.

Lu Yang said, "Do you know me?"

"Of course, you know, you won the world championship, and news from around the world was discussing you a while ago." Xue Yiming said.

Lu Yang said, "I believe you know who my enemy is."

Xue Yiming said: "Liu Jie, Wang Teng, Li Xiuyu? Who do you want me to kill?"

Lu Yang shook his head and said, "You can't kill any of them, and they have many bodyguards of your level around them."

Xue Yiming said: "If I will die together, one of them will die."

Lu Yang said: "No need for the time being. I hope you can join Liu Jie's guild. Your strength is very strong. I believe that you will soon become a master when you enter the game. I want you to gradually become Liu Jie's arm. I provide his message. "

Xue Yiming said: "I'm not familiar with this game, I can't determine whether I can do it."

Lu Yang said: "Try to know. If it doesn't work, I think I'm wrong. I won't ask you for 2 million. If you can do it, I'm lucky, I just bet once."

With a hint of anger on Xue Yiming's face, he said, "I will be able to meet your requirements. It is just a game. In reality, it will not stump me. What am I afraid of in the game? You say what else do I need to do?"

Lu Yang asked, "How do you answer the question of medical expenses?"

Xue Yiming said, "My father asked me. I didn't tell him. After that, my mother didn't ask about my mother's affairs."

"What about relatives and friends?"

"Oh, there are no relatives or friends at this time, no second person has asked." Xue Yiming said.

Lu Yang said, "That's good. Whoever asks you later, don't mention it. I arranged for someone to make an illusion. Just now, a wealthy businessman went to the public security bureau to report the crime, saying that he was threatened and taken away at home. It has 2 million cash in the safe. "

Xue Yiming nodded and said: "That person is me, and Liu Jie will find out about this later, it is easy to think of me."

Lu Yang nodded and said, "This incident will become a handle for Liu Jie to threaten you. He will think you are his most loyal dog."

Xue Yiming said with a smile: "I like your design. Yes, I should flee for money now that I have grabbed the money."

Lu Yang said: "Yes, you fled to the magic capital, lived in a slum, and made money by working. I heard that" Second World "is fun. You bought a helmet with part-time money."

Xue Yiming cut off his mobile phone and said, "I will buy a black card to contact you when I get there, and give me your contact information."

Lu Yang handed him a new phone and said: "Use this to contact me on a single line. You know, if someone wants to monitor you, the phone is the easiest way to be tapped. You can only use this phone to contact me once. Then, someone will come to you on the site where you work."

Xue Yiming said with a smile: "I bet that Liu Jie must not be able to play with you and can think of things so well. You really don't seem to be something a person of your age can do."

Lu Yang smiled and said, "Go to work with peace of mind, I will send someone to take care of your family."

Xue Yiming nodded and went away silently.

Lu Yang glanced at the sea, turned back to the train station, returned to Donghai City by car, and returned to the game. The white lion and others happened to be eating.

"Boss is back." The White Lion first saw Lu Yang and beckoned. "Did you eat?"

Lu Yang shook his head and went to the cafeteria to have a meal and returned to the table. Xia Yuwei and others all came together and said, "How are you doing?"

Zhuo Jiu said with a little excitement: "We have reached Area 48, and the front is the Skullbreaker Devil Mountain. I can't think of it, boss. There are so many transfer certificates here."

Lu Yang asked, "How many?"

"90,000 sheets." Zhou Tianming said.

Lu Yang also took a breather ~ www.mtlnovel.com ~ In the last life, he just watched the Raiders and said that the chance of the Iron Hammer ogre tribe to lose the transfer certificate is as high as 1%, and one of the 20 elites will drop one.

“Did you divide it all?” Lu Yang asked.

Tu Feng said, “It’s not divided yet, wait for your return to decide how to allocate.”

Lu Yang said: “In this case, don’t divide it first. Tonight, we will kill the last 200,000 monsters, and then 10,000 will burst out, which will be evenly distributed among your 7 teams.”

“Alright.”

Shooting Sirius said silently: “Boss, when do you come to guide us, I also lack it.”

Here Lu Yang took his men to continuously improve their strength, shooting Sirius in the wolf clan can only watch, his heart was very depressed.

Lu Yang patted his shoulder and said, “For the time being, your task is to defend the Blood Wolf Fortress, as long as you don’t lose it, you can rest assured that my focus will soon be shifted to your orcs.”

Chapter 698 - Break through the Ogre...

Shooting Sirius was a little more relieved, and nodded and said, “I’ve been under too much pressure recently, and Tianyao’s troops are continually massing, making it clear that they will go to fight against the main cities of the Orcs and Taurines. The city was lost, and I faced Tianya. “

Lu Yang nodded and said, “It’s hard for you. Hold on, the human race is about to see hope.”

As long as these 100,000 level 60 players are equipped with the Blood Demon Temple Set, what Wang Teng, Li Xiuyu, or the sword killing god, Mai Lizhe, he can push over and directly destroy their fortress.

At present, the main force that can be collected by major guilds is only 550,000 players, and it is even rarer to level 60. Even rich people like Liu Jie have only spent less than 2,000 people around them to rise to level 60.

Shooting Sirius clearly knows that as long as the human race is completed, he will benefit from it. Everyone has eaten dinner quickly. Even female players such as Xia Yuwei and Lan Yu no longer care about eating, all within 5 minutes. After dinner, I washed the dishes and returned to their rooms.

Lu Yang sat in a chair, put on a game helmet, returned to the game, mounted a horse from the hotel's bed, he took out his teleportation scepter and flew outside the Steel Hammer Ogre Empire.

He replaced the Red Flame Lion King and ran into the gate. Along the way, the ogre's body was everywhere. He ran from the first zone to the forty-eighth zone.

White Lion, Xia Yuwei and others are waiting with more than 500 people.

Zhuoju waited for Lu Yang to come in front of him, pointing to a tall earthy room in the distance and saying, "The magic mountain is there."

Lu Yang said, "The Holy Sword unit followed me, and the mage unit stood by."

Xiao Liang, Mu Feng, and the Wasteland followed Lu Yang to the door of the earthy room and saw a 10-meter-tall ogre waving a hammer through the door.

Skullbreaker · Moshan (Lord)

Level: 60

Qi and blood: 100000000/100000000

"It's only 100 million HP, not much." Mufeng said.

Xiao Liang said, "I usually carry a strange resistance habit of 200 million health. This 100 million health is really unsuitable."

Lu Yang laughed and said, "Come on, let him be together for a second."

The blame on the outside, the strength is one-third weaker than the copy, and the skills are not as much as in the copy. The skullbreaker Demon Mountain has fewer skills, only three, one is lethal strike and one is cleavage Chop, the last one is a wild blow.

All are simple physical attack skills. Xiao Liang's clotting suit can resist this lord without any difficulty.

"Look at me." Xiao Liang walked to the door with his shield and shot an arrow at Moshan.

"-1"

"Damn humans, dare to challenge your Master Devil Mountain, I will kill you." Devil Mountain turned his head and glared at Xiao Liang, jumped out of the room, came to Xiao Liang, and smashed his hammer in his hand Xiao Liang's body.

"3500"

"Wow, it's too easy to carry it," Xiao Liang said.

"Holy Sword Army, punishment angel, second him." Mufeng shouted.

The holy white light of 90 Templar knights appeared at the same time.

“Pyroblast”

Lu Yang raised his hand and hit the mountain with a blast.

“10386” (Critical Strike)

...

After 2 minutes, Magic Mountain fell to the ground.

System prompt: Congratulations on killing Skullbreaker · Moshan

Lu Yang came to the Magic Mountain and chose to pick it up. He put a flame gem from his warhammer into his backpack and chose to pick it up. A violent battle transfer certificate came out.

“Let’s go,” Lu Yang said.

Everyone nodded. At this moment, the morale of all people was extremely high. Who would have thought that it only took them two days to kill nearly 2 million ogres. This group of mages released the forbidden spell. The way, they really opened their eyes.

After breaking into Area 49 and playing in the same way, Lu Yang led the team to the last area.

At the top of the last zone, a blue one-headed ogre sits high above the hall, with a white beast horn of 30 cm long on his head.

His face was cruel and bloodthirsty, his body was muscular, and he was not as fat as an ordinary ogre. His body was obliquely clothed with a red cloth and a staff in his hand.

King Hammer of the Steelhammer (Lord)

Level: 60

Qi and blood: 120000000/120000000

“Wow, it’s a king.” White Wolf said with interest.

“Are there any special rewards for killing him?” Bitter Ai asked for a long time.

Lu Yang said: “Should be, how can it be a king, maybe there are a lot of good things coming out, try it out.”

The white lion walked forward with his sword and said, “Kill the mobs, we kill the king.”

500 people acted together, killed all ogres in District 50, and walked in front of the King’s Hall.

The ogre king squinted his face with his right hand, leaned his body on the throne, looked at Lu Yang and others who were approaching step by step, with a disappointed expression, saying, “I don’t know who gave you the courage to dare to challenge the great Ogre King ~ www.mtlnovel.com ~ I haven’t been active for a long time, just right, you have given me a little fun. “Bagra stood up and walked to the center of the hall.

System prompt: battle begins

Xiao Liang rushed to the ogre king with a shield, and Han Yu and Mao Qiu used continuous archery to attack Xiao Liang and Zhang Zibo’s back.

“5000”

“5000”

“5000”

...

The continuous whirlwind of red mist killed a lot of life of the ogre king.

Holding a legendary bow and arrow, Sun Yu kept hitting Bagra’s head, and his attacking skills were constantly triggered.

“20000” (Critical Strike)

“20000” (Critical Strike)

The wand in the hand of the Ogre King hit Xiao Liang.

“6000”

Xiao Liang’s blood volume is more than 60,000, and only one tenth of the blood volume is lost each time. Yeyue listening to wind and other treatments can not feel the pressure at all.

“Look at me.” Han Fei appeared behind the ogre king. Two red legendary weapons, the sword of hatred and the sword of Liyan, attacked wildly behind Bagra.

“6769”

“7018”

“5000” (toxin attack)

...

Xia Yuwei and the White Lion used punishment angels. Each wielding of the Holy Sword took away 10,000 HP, and a critical strike could deal 20,000 damage.

The jingle cat started the storm, and everyone's attack speed increased by 30%. In less than 5 minutes, the king of the steel hammer ogre empire fell to the ground.

A transfer certificate and two pieces of dark gold equipment fell to the ground.

Lu Yang picked up the transfer certificate, nodded with satisfaction, and said, "A new certificate burst out. It's a fire method. You roll the dice. Change the existing transfer job to this, and the strength can be improved a lot. . "

"What certificate?" Hei Yan asked.

Chapter 699 - Issue of transfer certificate

Lu Yang shared the certificate.

Certificate of Transfer of the Ogre Magi

Description: In ancient times, cannibal magicians were very powerful. They knew all kinds of spells that would stun and slow down people. Their smart heads also knew how to use the magic of continuous spell crit.

"It looks good," Hongye Feiwu said.

Lu Yang said, "I have been more than 200 mages before you became a forbidden mage, but you do n't have a good career change. This is the first one. Let 's roll the dice together. Hei Yan, do n't choose, this certificate is equal to yours. "

"Oh." Hei Yan nodded.

Hongye Feiwu and other 200 fire methods roll the dice together. In the end, Hongye Feiwu has the most points.

“My luck is really good.” Hongye Feiwu said incredibly, 200 people rolled the dice together, this luck is not comparable to ordinary people.

Lu Yang handed the certificate to him and said, “Well, let’s all return to the Red Fort and see how these certificates are divided.”

Everyone showed an excited expression. Except for the people of the Forbidden Mage Corps and the Holy Sword Legion, they were all elites in the guild. They all had positions. They could pick out some suitable certificates for their subordinates and promote them. Great.

Red fortress.

A burst of light lit up, Lu Yang appeared with the team, and the flesh-and-blood female in the corner of the inner city had multiplied millions of bugs, which could be used to upgrade.

Lu Yang returned to the fortress hall and said to the follow-ups, Tu Feng and others, “All the certificates are taken out. Let’s summarize them and see what professions they have.”

Tu Feng took 10 people, including Mo Long, to sort them with Xia Yuwei and other 7 army commanders. Two hours later, 100,000 certificates were sorted.

Among them, there are 10,000 transfer certificates for disciplinary knights, 10,000 transfer certificates for violent battles, 10,000 transfer certificates for anti-war battles, 10,000 transfer certificates for guardian knights, and 20,000 transfer certificates for four-line masters. There are 10,000 transfer marks for shooters, 8,000 transfer marks for warlocks, 8,000 transfer marks for priests, and 5,000 transfer licenses for thieves, totaling more than 100,000.

Lu Yang said: “You seven legion commanders choose.”

Seven people looked at each other and began to choose according to the proportion. In the end, 8,000 certificates were left, of which 4,000 were anti-war and 4,000 were anti-riding.

Lu Yang said with a smile: "It looks like you don't want these certificates."

The White Lion said: "There are not so many anti-war and anti-riding, there are too few professions in the guild."

"Unfortunately, these certificates are the least valuable." Xia Yuwei said.

Lu Yang said, "You don't understand. In fact, these certificates are quite valuable for a guild, but you don't know how to use them."

"Is there any good way?"

Lu Yang said: "There is a style of play called the tortoise shell, and I am going to create such a corps specifically for siege enemy forces."

"Tortoise Formation?" Zhou Tianming asked curiously.

Lu Yang nodded and said, "Experiment first, I don't confirm that this method can work, but since there can be 10 attribute points for the transferred occupations, it should not be difficult for me to create a tortoise shell army."

Lu Yang said to Tu Feng: "Ask the players in the guild if anyone is willing to sign a contract with us. I will send a transfer certificate."

The contract of the Jagged Brothers Alliance is only the most basic contract, that is, you cannot quit the guild when you take something, nor can you run to the hostile guild. If you violate the contract, you must return the relevant materials.

Tu Feng asked in the guild, and there were many responders.

Lu Yang said, "Tu Feng went to check whether the number of people was qualified. Seven of you took the rest of the certificates and issued them to the 100,000 people. Although the number of certificates was incomplete, there were still more than 10,000 pieces. People, take the main force tomorrow. "

"Is there anything else to burst?" The White Lion asked.

Lu Yang said: "Yes, the ogre king has got through, we should go to the blood demon city next step, not far from the blood demon temple."

There is a fortress-shaped city on the outside of each excellent gold copy, with related plots.

The blood demon in the main city of the blood demon is the main force to attack human beings. There are a total of 2 million blood demon, and the play in this place is more difficult than the steel hammer ogre empire. The advantage is that the transfer certificate dropped here. There is a high chance of a special certificate.

Everyone nodded.

Zhuo Jiu said: "This group of kids got the certificate Nengle for a long time. This is all right, everyone's basic attributes can be doubled, and playing the Blood Demon Temple is easier."

With the parts of the Blood Elf Island, the mysterious tower parts, and the transfer certificate, the most important thing is the customs clearance method, which cannot be beaten. The 100,000 people claim to be elite.

Team channel.

"Depressed, I lost the last 1% of qi and blood, but I can't beat the copy, what can I do ~
www.mtlnovel.com ~ One of the men of Zhuojiu said in depression before the four blood phases.

“We are here, too, and died in the hands of the blood demon’s son Analuo. It was unlucky to send the last hundreds of thousands of points of blood, but he couldn’t beat it,” said Xia Yuwei’s commander Han Sha.

“I’m so sorry for the boss, Bai gave us such good equipment, excellent gold equipment, we are too wasteful.” Flame Knife said depressedly.

“It would be nice if we had a transfer certificate. After the transfer, the basic attributes of all of us doubled, and we could just hit it,” said one player.

“Oh, the transfer certificate is so rare, even if we want to buy it, so many people can’t buy it.”

Everyone was speechless. Everyone knew about the transfer certificate, but they also couldn’t buy it.

Just now.

Xia Yuwei said on the team channel: “Who wants a transfer certificate.”

“1”

“1”

...

More than 10,000 people are typing.

“Boss, we all want to,” said looking up at the dim light.

For them, they all knew that it was impossible for everyone to get a transfer certificate, but they were satisfied when they could talk to the goddess.

For a while, the entire team was full of players chatting with Xia Yuwei, and everyone was praying that Xia Yuwei could talk to them.

When Xia Yuwei looked at the chats brushed up in the team, there were all black lines on her forehead, and her teeth bit her red lips and said, "This **** boy."

Zhang Zibo said with a smile: "Who makes you so beautiful, who doesn't make fun of you?"

Xia Yuwei glanced at Zhang Zibo charmingly and said, "Do you think so?"

Zhang Zibo lost his helmet and armor for a moment, only glanced, and then quickly lowered his head and blushed and said, "We grew up together, how can we, let alone this, I will tell you about the notice."

Chapter 700 - Earth to the sky

Xia Yuwei smiled proudly and said, "I'll come."

She shouted in the group: "Shut up for me."

Shua

For a moment, no one in the team chat channel said a word.

Xia Yuwei nodded with satisfaction and said, "Tell you good news and bad news. I got more than 10,000 transfer notices here, which can be sent to all of you."

The players in Xia Yuwei's team who were playing monsters in the copy were all stunned, and no one complained even if they were blamed for seconds.

No one dared to swipe the screen to ask, but only looked up to the news from the heads such as Weiguang and Hansha.

"Boss, are you telling the truth?" Asked looking at Weiguang.

Xia Yuwei said, "It's true that I lied to you, everyone came to my main stop, and I was there to issue you a transfer certificate."

"Let's go back now," said Han Sha.

Xia Yuwei said: "Don't patronize joy, there is also bad news, this time the certificate is issued, all those who have positions will not give it."

"Ah?" A player with the rank of captain couldn't help but type a word.

Xia Yuwei said: "Your certificate will be issued tomorrow. As a manager, you must know how to be modest. Does anyone have any objection? Tell me by typing."

"No."

"No."

"No."

...

Brush screen reproduction, no one has any meaning, they know that Xia Yuwei will not treat them, but also know the tradition of the Jagged Brothers Alliance, the more people in the future, the more valuable they get.

Soon, more than 10,000 people flew back to the fortress controlled by Xia Yuwei, and under the leadership of their respective regiments, they completed the transfer certificate.

"I'm done." Xia Yuwei said in the group.

White Lion handed the last certificate to one of his subordinates and said, "I'm done with it too. It's so cool. 13,000 people have been transferred, and their strength is more than a little bit."

After the transfer, not only does the blood volume increase, but also new high damage skills can be learned. When you push the copy, the speed will be doubled.

"I'm done too," Sun Yu said.

"Done," Zhou Tianming said.

"Finished," said Dusty Wine pouring.

"Finished," Jiang Ze said.

Lu Yang was running to Guanghuobao, watching the seven legionnaires in the group report one by one, saying, "It's all good, go in batches, don't go together, the reaction is too great."

"My first." Xia Yuwei said.

"My second."

...

The 7 regiments were naturally sorted.

Lu Yang watched their chat and came to Guanghuobao, just came to the door, and suddenly he heard a voice inside the door.

“Strange, what does the boss ask us to squat here every day? Is it true that we can squat to Lu Yang, speechless.” A player said.

Lu Yang’s eyes sharpened sharply. He could not help shed a drop of cold sweat on his head. He was too careless and forgot his transfer to Guanghuobao. The incident had been exposed. If the enemy wanted to squat him Just send someone around here.

Fortunately, he didn’t go to the main entrance this time for the sake of speed. Otherwise, he would be greeted by a sneak attack on these people inside the door.

He drank a bottle of stealth potion, his body instantly became transparent, and walked into the hall of Guanghuobao.

Ten players are sitting around chatting together, and one of them said, “What do you say about Lu Yang’s strength, is he really that strong?”

“No matter how strong he is, he is a person. We are 10 people. It is not easy to kill him. One person can stun him for a second.” A thief player said.

“If only he could come, it would be so frustrating to wait, I have been waiting for almost a month,” said another thief.

“Don’t worry, the thief at the gate is even more depressed. He has been there alone for more than a month and has not changed others. Guanghuobao has a follow-up task, which is just a light task for Lu Yang He may come over at any time, “said a thief who looked like a leader.

“Take it down, you’ve said it almost 200 times, where’s it?”

Lu Yang gradually showed his figure and said, "He was right, I did come back. Unfortunately, you and you have no strength to kill me."

"Yan Yang Suo"

Lu Yang's mouth spelled out that 10 chains would hold 10 thieves firmly.

"11628"

"It's Lu Yang. Everyone is about to release control for a second." The rogue roared a bit.

All 10 thieves had badges, immediately released control, and rushed towards the landing sun.

"Remnant Flame-Activated"

A reddish light flew out of Lu Yang's body, and just after flying to a position 10 cm in front, Lu Yang appeared from the light.

"boom"

A fierce fire fell on each of them.

"10698"

"10625"

...

10 thieves die!

Lu Yang sneered and said, "Dare you dare to kill me for this strength, and even make me unable to move."

A crimson flame shadow appeared in the center of the hall ~ www.mtlnovel.com ~ The fire king appeared in front of Lu Yang, smiling and asked, "Don't you ask which guild they are?"

Lu Yang said, "What can you ask? They won't say it. Besides, I'm not afraid of these rubbish."

The Fire King nodded with satisfaction and said, "You are indeed my heir, and you have my style, and this is why I came here."

Lu Yang took out a flame gem from his backpack and said, "This is evidence that I killed the Skullbreaker Devil Mountain. The gem was taken from his weapon."

"You actually killed Demon Mountain." The Fire King came to Lu Yang in excitement and looked at the gem carefully.

"Yes, this is the one on the magic mountain weapon, I want to thank you." Fire King said.

Lu Yang said: "I should do to help you complete your last wish."

The Fire King said, "Do you know the purpose of this gem?"

Lu Yang shook his head.

Fire King said: "Use this gem, you will get an additional skill, he will make you stronger."

Lu Yang didn't know what reward to follow in the Fire and Fire Fortress mission, and chose to use gems according to the words of the Fire King.

System Tip: Your body has absorbed a huge amount of flame energy, and you have learned new skills to make it soar into the sky.

Lu Yang looked at his skill bar, and three signs of sky-high flames appeared on the ground. He was pleasantly surprised: "There are actually three skills."

He knows these three skills, but he doesn't know that he got them here. The earth's fire is soaring, this is the god-level skill of the last life.
